#### AN APPRECIATION OF THE HERALD

Russel C. Markham, M. D., Marquette, Mich., Nov. 16 .-To The Duluth Herald, Duluth, Minn. Gentlemen: I am renewing my subscription to The Herald for one year. I am approaching the age of 72. There are many good papers published which I have not read, but I desire to say that up to now I have never read (take it all in all) quite so pleasing and satisfying a paper as The Duluth Herald. The editorial page is particularly splendid in its broad fairness and justice and fearlessness in expressing, its opinions. It formulates opinion. It is not alone the opinions you express through the editorials, but the entire page is most pleasing. The front page and the

### PEOPLE OVER 40

How Shall We Prolong Life? Average Duration of Life About

The average man or woman aged 40 or over begins to realize that the winter of life is approaching. The once strong surging vitality is beginning to show evidence of decline.

Symptoms of Decline. The howels become constipated, he liver sluggish, the stomach becomes deranged, the kidneys through which the blood of the body is filtered once every 7 to 10 minutes become weaker and do not eliminate all of the poisonous wastes which are a real menace to good health.

Never Use Drugs. People who require health help should never use drugs-they are liable to have an injurious effect upon the nerves or heart.

Plant and Herb Juices. A pure, healthful, laxative herbtonic like Bulgarian Blood Tea assists nature to eliminate poisonous wastes from the system. The rich juices brewed from the plants, roots, which Bulgarian Herb Tea is composed are an effective healthful tonic and positively harmiess.

To relieve colds and aid in warding off influenza or pneumonia Bulgarian Herb Tea taken steaming hot with lemon juice is very helpful. Millions are now using this pure herb preparation and druggists everywhere highly recommend it .-Advertisement.

work of the little girl who has helped her so much in her work. "When I first taught my sister to speak English, we played school at home and I taught her how to speak correct English. I taught her poems and quotations and little sayings. When she had learned some of these poems and quotations, I took home books from school and taught her how to read. In reading, she worked well. At first she didn't always speak correctly, but little by little she learned how to use correct English. I taught her how to count to ten first. When she could count to ten, I taught her how to count to twenty, etc., until she could count I taught her how to add small numbers. In arithmetic she worked well. "I told her stories such as "The

Many intelligent mothers overlook these few simple facts about food~

EVERY mother interested in her children's welfare meets a problem in the proper feeding of her boys and girls.

Parents often do not realize the evil effects of mal-nutrition; and that care in the selection of food will avoid a large percentage of children's ills.

One of the best of all foods for providing proper nourishment for growing boys and girls is Grape-Nuts-made of whole wheat flour and malted barley, and scientifically baked for twenty hours. This long baking brings out a delicious flavor, makes the food easy to digest-without fermentation. Grape-Nuts with milk or cream is a complete food.

Here is a suggestion for better health: Serve Grape-Nuts as often as the folks wish it.

Lights and Shadows of an Elusive Personality

#### CHAPTER II.

THE ART OF SELF-ADVERTISING. The ordinary mortal is content to hitch his wagon to a star. This is a sport too tame for Henry Ford. He prefers to hang on to the tail of a comet. It is less conventional, more spectacular and furnishes more

thrills. Mr. Ford loves sensations, lives in them and on them, is everlastingly creating them, jumping from one to another. And many of his sensational acts and utterances are so clever that the world looks on with something more than amusement. In spite of the fact that he has come near making a clown of himself on more than one occasion, the audience, for the most part, continues to watch him with wonder and admiration. He has been right so many time in Industrial matters, done to many admirable and worthwhile things, that we are inclined to forget the times he has been wrong or foolish.

I suppose that an acrobat with a net under him takes risks that he would not take if he were looking down on the bare hard earth. In Wife of the Motor King. She has like manner, I suppose, the fact that one has under him several hundred

GIFTS, that should be on every list

Pick out the most finicky person on your gift list—and give him or her an EVERSHARP or a WAHL PEN, or both in the same design in an attractive velvet-lined GIFT BOX. Of course, the average appreciative person would be delighted with them, for they are perfect writers and match perfectly in design.

Every one who has an EVERSHARP wants its writing mate—the new WAHL PEN with its indestructible all-metal barrel of gold or silver. The all-metal barrel cannot crack or break; it holds more ink than the old-fashioned thick and brittle hardrubber barrel.

Look over your gift list, and give to all who received Eversharp last year, a WAHL PEN in the same design. Ninety styles of WAHL PENS make choice easy. Sold separately, or with EVERSHARP to match, in attractive gift boxes. Be sure to see them at your dealer's.
