### PERSONAL

Mr. Paul Nash has been appointed City Engineer of Stamford, Conn.

Mr G. B. Pike has been appointed City Engineer of

Mr. H. C. Thompson, of Sault Ste. Marie, Mich., has been appointed City Engineer of Lansing, Mich.

Mr. Harvey Cockell has been appointed Superintendent of the Water-Works Department of Columbus, O.

Mr William Neff has been appointed Superintendent of the Breckenridge Division of the Great Northern Ry.

Mr. James Waish has been elected Vice-President of the Southern Indiana Ry. Co., to succeed Mr. F. B. Ogden. who has resigned.

Mr. John F. Stevens has been reappointed to his former consistion as Chief Engineer of the Great Northern Ry., succeeding Mr. N. D. Miller.

Mr. J. T. Harahan, Second Vice-President of the Illinois Central R. R., was married April 19 to Miss Mary N. Mailory, of Memphis, Tenn.

Mr. T. Kennard Thompson, M. Am. Soc. C. E., consuiting engineer, has removed his office from 11 Broadway to the new Park Row Building, New York city.

Mr. Andrews Alien, until recently Assistant Engineer with the Edge Moor Bridge Works, has taken charge of the Chicago office of the Wisconsin Bridge & Iron Co., with position as Contracting Eugineer.

Mr. Charles H. Wright, M. Am. Soc. C. E., Chief or Drafting Department, Edge Moor Bridge Works, Wil-mington, Del., has accepted the position of Engineer with the Brown Hoisting & Conveying Machine Co., of Cleve-

Mr. Edmund B. Weston, M. Am. Soc. C. E., Assistant City Engineer and Engineer in Charge of the Water Department, Providence, R. I., has resigned his position in order to devote more time to his practice as consulting engineer.

Mr. Julian C. Smith, formerly of Morton & Smith, engineers and contractors, of Baltimore, Md., has recently moved to New York city, and is the President and Manager of the Hudson Contracting Co., with offices at 2515 Broadway.

Mr. J. B. Gardiner, Superintendent of the Stonington Division of the New York, New Haven & Hartford R. R.. has resigned after fifty years of service on account of illhealth. He will be succeeded by Mr. J. V. A. Trumbull. Superiutendent of the Valley Division.

Seuor Esquerra, Commissioner to Paris of the United States of Colombia respecting the extension of the Panama canal concession, and the Director-General of the canal, sailed from Colon for New York, on their way to Paris, on April 20, on board of the steamship "Allianca."

Mr. E. H. Fitzhugh, Superintendent of the Middle Division of the Grand Trunk System, has been oppointed General Manager of the Central Vermont R. R. Mr. Fitzhugh will be succeeded by Mr. George C. Jones, Superintendent of the Wabash R. R. and the Grand Trunk System at St. Thomas, Ont.

Mr. Arthur Manning Waitt, M. Am. Soc. M. E., Master Car Builder of the Lake Shore & Michigan Southern Ry., of Cleveland, O., has heen appointed Superintendent of Motive Power and Rolling Stock of the New York Central & Hudson River R. R., to succeed Mr. Wiliiam Buchanan, who has resigned.

Mr. George B. Preston, M. Am. Soc. M. E. Instructor of Experimental Engineering of Sibley College, Cornell University, of Ithaca, N. Y., has been appointed by Superintendent of Public Works Partridge as Inspector of Boilers for the State of New York, under the inland waters steam navigation law.

Mr. James S. Anthony has been appointed by Commissioner-General Peck as Assistant Director of Machinery and Electricity of the United States Commission to the Paris Exposition of 1900. Until recently Mr. Anthony was the Advertising Manager of the Walker Co., manufacturers of electric machinery, of Cleveland, O.

Mr. William Buchanan, Superintendent of Motive Power and Roiling Stock of the New York Central & Hudson River R. R., has resigned. He was born in Scotland in

1829 and came to America in his youth, entering the mechanical department of this railway at the age of 17. In 1853 he was made Master Mechanic of the Southern Division and in 1883 was appointed to the position from which he has just retired. He has designed many types of iocomotives, the most noted of which is engine "999," one of the fastest in the world. The water-scoop which permits moving trains to take water was oue of his in-

#### OBITUARY.

Mr. Loveli G. Mickles, civil engineer, of Buffalo, N. Y., died on February 15.

Mr. William Daniel Wiegand mechanical engineer died at his home in Baltimore, Md., on April 22, aged 76

Mr. Charles Sheppard Roe, President of the Railway Supply Foundry Co., of Chicago, died on April 19, aged

Mr. William J. Stone, Superintendent of the Water-Works of Attieboro, Mass., died of spinal meningitis, on April 18.

Capt. Henry A. Bourne, President of the Old Dominion Line of steamers, died at his home in Brooklyn, N. Y., on April 20, aged 50 years.

Mr. Byron C. Davis, President of the Copper Kiug Mining Co., of Arizona, died at his home in Brooklyn, N. Y., on April 23, aged 40 years.

Mr. Edward Cameron, of St. Louis, Assistant and Su-pervising Engineer of the U. S. Treasury, died in Phila-delphia, of pneumonia, on April 22, aged 38 years.

Mr. John Louis Lay, formerly engineer in the United States Navy, Inventor of the torpedo with which Cushing blew up the Confederate warship Albemarie iu 1864, and later attached to the Peruvian Navy, died in Bellevue Hospital, in New York city, on April 17.

NATIONAL ELECTRIC LIGHT ASSOCIATION.

May 23-25. Annual meeting, New York. Secy., Geo. F. Porter, 136 Liberty St., New York city.

NEW YORK ELECTRICAL SOCIETY.—A meeting of this society will be held at the College of the City of New York, New York city, on April 27. The paper for the evening is entitled "Electrical Engineering in Office Buildings," and will be presented by Mr. Reginald P. George H. Guy, Secy.

WESTERN SOCIETY OF ENGINEERS.—At the meeting on April 19 (Ladies' Night), Mr. W. J. Karner (lilinois Central R. R.) delivered an informal lecture on "The Abbeys, Cathedrals, Castles and Places of Popular Interest in Europe," which was illustrated by a number of stereopticon views.

THE AMERICAN FOUNDRYMEN'S ASSOCIATION .-The 4th annual meeting of this association will be held at Pittsburg, Pa., on May I3-I9. The program includes an interesting list of papers and a number of excursions, including visits to the Westinghouse Air Brake Co., the Homestead Plant of the Carnegie Steel Co., etc.

ROCHESTER ENGINEERING SOCIETY .- A regular meeting of this society was held on April 21. The topic for discussion was "The Steam Engine." The subject was for discussion was "The Steam Engine." The subject was liliustrated by drawings and plans of various types of engines, and a model link-motion was exhibited. On April 22, through the courtesy of Mr. Albert R. Pritchard, a party composed of members of the society visited the Rochester Stamping Works.

ENGINEERS' SOCIETY OF WESTERN PENNSYL-ENGINEERS' SOCIETY OF WESTERN PENNSYL-VANIA.—A meeting of this society was held at the So-ciety's House, Pittsburg, Pa., on April 18, 35 members and visitors present. The paper of the evening, entitled "Quick Revolution Engines," was read by Mr. Arthur Herschmanu. A finance committee has been appointed with a view of securing funds with which to purchase a permanent home for the society.

WESTERN RAILWAY CLUB .- At the meeting on April 18, the report of the Committee on M. C. B. Couplers was presented by Mr. F. A. Deiano (C., B. & Q. R. R.), and it was voted that the report should be sent to the Coupler Committee of the Master Car Bullders' Association. The report iaid stress upon the fact that the present standard contours are entirely satisfactory, and that greater care should be taken to adhere strictly to them. The report of the Committee on M. C. B. Ruies of Interchange was also presented, and most of its recommendations were adopted.

MONTANA SOCIETY OF ENGINEERS .- A regular meeting of this society was held in Helena on April 8. The proposed amendment to Article 5 of the By-laws, presented at the meeting in Butte, was discussed. proposed change of the headquarters of the society to Butte was discussed, all agreeing that it was advisable to make this change as soon as possible. It was advised that the President appoint a committee to draft an amendment to the constitution and hy-laws to provide for this to he held in Butte. A special meeting will be peid in the Public Library, Butte, Mont., on May 13.

A. S. Hovey, Secy

FRANKLIN INSTITUTE .- A regular meeting of the Mechanical Engineering Section of the Institute was held at Philadelphia, on April 12. The subject for discussion was the "Construction, Operation and Maintenance of Pumping Machinery." The first part of the discussion was devoted to the construction of the water end of the was devoted to the construction of the water end of the pump and the advisability of using steel valve decks in place of cast-iron, as in present practice. The question of high duty pumps versus the forms in vogue about 1882 was discussed, and it was pointed out that the faults in a large proportion of cases were not in the pumps, hut in the accessories, or in the selection of the wrong pump for the particular duty. The question of the cost of was often the determining factor in the character of the

Ap

pump. With cheap fuel a high duty pump would be had engineering. With coal at \$20 a ton, as in some localities, a triple expansion engine would be the proper selection. Such machines also demand intelligent supervision, the simpler duplex, or even single action pumps, could he run with cheaper men and greater economy.

## NEW PUBLICATIONS.

THE BROOKLYN WATER-WORKS.—By Arthur S. Tuttie. A Paper Read Before the Brooklyn Engineer's Club, Feb. 3, 1898. Paper; 6 × 9 ins.; pp. 136; litustrated. Address the author, Municipal Building, Brooklyn, N. Y.

This paper gives a fair historical sketcu and technical description of the Brooklyn water-works. The discus-

sion on the paper is included in the pamphlet.

WATER-WORKS EXPROPRIATIONS IN CANADA.—
By Willis Chipman, C. E. Paper; 6 x 9 ins.; pp. 10.
Toronto: The anthor.

This little pamphiet includes a list of the private water-works in Canada that have been bought by cities, with the date of purchase, the price paid and how it was determined. For seven cases, where Mr. Chipman has served as engineer for the city or town, a summary of the main facts in the proceedings is given.

A HALF-CENTURY OF SANITATION, 1850-1899. By Wm. Paul Gerbard, C. E. A Paper Read at the Meeting of the Brooklyn Engineer's Club, Feb. 9, 1899. Paper; 6 × 9 ins.; pp. 30. Address the autnor, 30 Union Sq., New York.

Among the subjects reviewed in this paper are water.

snpply, river poliution, sewage purification, garbage disposai, street-paving and cleaning, public haths and bouse sanitation. The paper was printed in the "American Architect" for Feb. 25, March 4 and 11, 1899.

GAS AND ELECTRIC LIGHT COMMISSIONERS OF MASSACHUSETTS.—Report for 1898. Boston: State Doc. Paper; 6 x 9 ins.; pp. 210, civili; tables.
This report contains the usual collection of valuanie statistical and other matter relating to gas and electric lighting ln Massachusetts. Action towards municipal ownership for a number of years past is reviewed and statistics are presented for the 16 municipal plants in operation on June 30, 1898. All these plants furnished electricity, and two supplied gas in addition. Two of the electric plants furnished street lighting, only.

TRANSACTIONS OF THE SOCIETY OF NAVAL ARCHI-TECTS AND MARINE ENGINEERS, Vol. VI., 1895.— Edited by Francis T. Bowles, Secretary. New York. Published by the Society. 9 x 11½ ins.; cloth; pp 216; 120 plates.

This volume is the annual publication of the Society of Naval Architects and Marine Engineers, and contains ali the papers read at the last annual meeting beld in New York, Nov. 10-11, 1898, which were abstracted in Engineering News for Nov. 17 and 24, 1898. The full minutes of the meetings and discussions of the papers are also inciuded, the whole forming a very valuable collection of

ABSTRACT OF LAWS FOR ACQUIRING TITLES TO WATER from the Missouri River and its Tributaries, with the Legal Forms in Use.—Compiled by Elwood Mead, State Engineer of Wyoming. Builetin No. 60, U. S. Department of Agriculture, Office of Experiment Station, Washington, D. C. Puh. Doc. Paper; 6×9 lns.; pp. 77.

This compliation should be extremely useful to those wishing to acquire or perfect water rights in the district indicated, and for those studying the general question of irrigation from the governmental side. All irrigation laws except those relating to water titles and the public controi of streams are excluded.

THE AMERICAN PAPER AND PULP ASSOCIATION.—
Report of the Meeting in New York, Feb. 15 and 16, 1899. Paper; 6 x 9 ins.; pp. 94; illustrated. Address the Association, Times Building, New York.
Besides reports of officers and of the writing paper,

book paper, wood pulp and other divisions of the association, this report contains a number of papers on water power and ailled subjects by Messrs, J. T. Fanning, F. H Newell, L. F. Vernon Harcourt, H. M. Wilson, Col. H. M. Chittenden, Geo. W. Rafter and J. Herbert Shedd The paper by Mr. Fanning, on the "Early Development of Water Power in the United States," was given nearly in full ln our issue of March 2.

AMERICAN SOCIETY OF MUNICIPAL IMPROVE-MENTS.—Proceedings of the Fifth Annual Conven-tion, Heid at Washington, D. C., Oct. 28-8, 1898. Allegheny, Pa.: D. L. Fulton, Secretary. Paper; 6 x 9 ins.; pp. 244; tables, illustrations in the text and on folding sheets. Price, \$1. This report contains a large amount of practical infor-

mation on water supply, sewerage, streets and pavements, garhage disposal and other matters. The information is embodied in 14 papers and seven committee re ports by engineers, city officials and others of national reputation. Abstracts of the papers, reports and discussious were given in our Issue of Nov. 3, 1898, which contained a report of the meeting.

LOCAL GOVERNMENT BOARD.—Report for 1897-8. Lon don: Eyre & Spottlswood. Paper; 6×9 ins.; pp CLXXXVI, 631; many tables. Price, 4½ shillings. The English Local Government Board is a central ad

ministrative body with quite large powers of control over the local governing bodies of England and Wales. Aside from the various affairs coming under its direct supervision it wields a great influence in nearly all lines of municipal activity through the approval or vetoeing of ioans and the auditing of accounts. The matters in this volume of most interest to engineers are the reports on the eight metropolitan water companies. These reports

et forth the principal operations of the several companies during 1897, and give the results of numerous water analyses by Sir Edw. Frankland. Maj.-Gen. de C. Scott is Water Examiner.

PUBLIC WORKS DEPARTMENT, SOUTH AUSTRALIA.—Report for the year ending June 30, 1898. J. G. Jenkins, Commissioner; Alex. B. Moncrieff, M. Inst. C. E., M. Am. Soc. C. E., Chief Engineer, Adelaide, S. A.: Puh. Doc. Paper; 9 x 13 ins.; pp. 73; folding plates.

This report reviews briefly the engineering and financial operation of numerous water supply, irrigation, sewerage and other undertakings in charge of the department. A new storage reservoir is being built for the Beetaloo district, with a capacity of about 1,500,000,000 galions. It will be formed by an earth dam, 76 ft, high and 1,085 ft. long. Pipe lines 24 ins. in diameter and 14½ miles long and 18 ins. in dismeter and 16½ miles long, are being huilt as a part of the improvements in progress

METHODS OF MINING ORE IN THE LAKE SUPERIOR REGION, by Dr. Nelson P. Hulst, General Manager of the Oliver from & Mining Co, Minwaukee, Wis.

The February number of the "Proceedings of the Engi-

neers' Society of Western Pennsylvania," contains a val-uable paper with the above title covering some 40 pages of the journal, and illustrated by haif-tone views The paper is, perhaps, the most complete presentation of modern mine engineering practice in the uperior iron producing district that has ever been pre-ented. Coples of this number of the journal can be obcained by remitting ou ets. to Mr. A. G. McKeana, the occretary of the Society, 410 Penn Ave., Pittsburg, Pa.

THE MOMENT PLANIMETER OR INTEGRATOR and its Application in Civil Eugeneering. By Fred. Morley, M. Am. Soc. C. E., Professor of Civil Engineering, Purdue University, Lafayette, Ind. Paper; o x 9 ins.; pp. 32; illustrated.

The ordinary planimeter, for measuring the area of any irregular shaped plane figure, bas become steam engineers through its use for measuring indicator cards, and its convenience and value for many other pur-poses are gradually becoming generally known to engineers generally, although it is still far from being appreciated as it should be.

The moment planimeter, however, which is described in the pamphiet before us, is almost unknown in the engineering profession, the only field in which it has come into extensive use being naval architecture. Prof. Moriey shows in this pamphiet that this instrument is capable solving many problems of ordinary engineering practice, and to prove a great lahor-saving instrument. The moment planimeter can not only determine the area of any plane figure, but also its static or area moment and its oment of inertia about any axis in the plane figure. Prof. Morley explains the construction of the in-strument, and gives directions for its use in measuring the moment of inertia of structural sections for columns, beams, etc., in measuring the volume of any solid of revo-intion, in determining the bending moment, slope and defiection of loaded beams and girders, in the graphical solution of arches and in the calculation of excavation and embankment quantities. The discussion is necessarily iargely mathematical, but this treatment is necessary to make clear to the reader the operation of the instrument and the manner by which it reaches a correct solution. Copies of the pamphiet can be obtained from Prof. Morley on request.

# TRADE PUBLICATIONS

(The standard sizes for pamphiets and trade catalogues recommended by all the principal engineering societies of the United States are:  $31\cdot2\times6$  lins, and  $9\times12$  ins.)

STREET DRAINAGE SUPPLIES.—Geo. M. Pierce, 315
American Trust Building, Cleveland, O. Celluloid;
8 × 6 ins.; pp. 12; illustrated.

This is a catalogue of catchbasins, sewer inlets and catchhasin traps invented and manufactured by Mr. Pierce.

illustrated index.—The Watson, Stillman & Co., New York city. Pamph.;  $6\times 9$  ins.; pp. 26; illustrated. This pamphiet is a collection of minature lilustrations of the various machines of all sorts manufactured by this

ENGINEERING AND SURVEYING INSTRUMENTS.— Stackpole & Bro., 41 Fulton St., New York. Paper; 6 × 4½ lns.; pp. 27; illustrated. This is both a price list and descriptive catalogue of the

various instruments made by this firm for a variety of engineering and surveying purposes.

ARTESIAN WELLS.—J. P. Milier & Co., 45 Michigan St., Chicago. Paper; 3% x 5% ins.; pp. 16. This catalogue contains a brief statement regarding the advantages of artesian wells and the work the company now has in progress; also a list of wells put down by the company, with depths, location and owners.

STOP AND WASTE COCKS.—Farnam Brass Works, Cleveland, O. Paniph., 7½ × 5¼ ins.; pp. 50; illustra-

This is an illustrated price list of brass stop, waste and curb cocks with removable handles. Hose fittings and gas meter and service cocks are also included.

INSTANTANEOUS WATER HEATERS.—The Day-Work Co., Warren, O. Pamph.; 7\% × 5\% lns.; pp. 12; il-instrated.

This pamphiet calis attention to a form of water heater intended for baths, kitchens, barber shops and other places where a compact apparatus for rapidiy heating water is required.

ELECTRIC PROPELLER FANS.—B. F. Sturtevant Co., Boston, Mass. Circular, 8×10½ ins.; illustrated. This circular illustrates a type of disk ventilating fan employing a special form of propeller blade and a very

compact electric motor. It is made in sizes from 18 ins to 120 ins., with capacities from 2,000 to 175,000 cm s

WATER LIFTS.—The Cieveland Faucet Co., 15 fort St., Cleveland, O. Paper; 3 x 6 ins.; pp. lustrated.

This pamphlet describes an automatic device for forcing cistern water through a house, or increasing the pressure of regular water supplies by utilizing water under pressure from the city mains.

CARBONIZING COATING.—The Goheen Manufacturing Co., Canton, Ohio. Paper; 9 x 6 ins.; pp. las. illustrated.

We here have lliustrated from photographs a number of hulidings, bridges, coal-hoisting plants, engaged rail-ways, etc., which have been treated with the carbonizing coating made by this company.

AUTOMATIC GEAR CUTTERS.-F. H. Bultman & Cleveland, O. Pamph.; 6½ x 4% ins.; pp. 32; illeted.

ted.

This small pamphiet liliustrates and briefly describes several forms of automatic gear cutting machines manufactured by this concern, and gives some interesting data relative to calculating gears, and gear cutting.

DISINFECTING MACHINERY. — Kensington Works, Ltd., Francis Bros., 704 Arch St., phia. Paper; 6 × 9 ins.; pp. 40; illustrated. Steam disinfecting plants of this type are now used at

a number of hospitals, quarantine stations and elsewhere.

The several styles of disinfectors are described and a number of actual plants are shown in the illustrations.

FRICTION CLUTCH PULLEYS.—Hess, Snyder & Co.,
Massilion, O. Pamph.; 6 × 9 lns.; pp. 54; illustrated.
This is an illustrated price list of the friction clutch puliey manufactured by this concern, and includes lists of split and clamp huh Iron pulieys, shafting hangers, couplings, and cold-rolled shafting. A few pages at the end are devoted to 'Boomer' furnaces, ranges and stoves.

GAS BLAST FURNACES AND HEATING MACHINES.—
American Gas Furnace Co., New York city. Pamph.;
113/4 × 83/4 lns.; pp. 92; illustrated.
This pamphiet affords a very clear idea of the application of gas hlast furnaces to various manufacturing processes. The advantages of gas tempering and annealing machines and gas forges are briefly set forth and illustrations of a number of such special furnaces are given

A FEW WORDS ABOUT MECHANICAL STOKERS Westinghouse, Church, Kerr & Co., Pittsburg, Pamph.; 9×6% ins.; pp. 34; illustrated.

This is an attractive illustrated description of the new Roney mechanical stoker. The details of this stoker are well shown, and its desirable features are pointed out briefly. The pamphlet also includes several illustrations of boiler plants employing this type of mechanical stoker.

VALVES. HYDRANTS AND WATER-WORKS SUP-PLIES.—J. A. Thompson & Co., the Union Hydraulic Works, Van Horn and Sophia Sts., Philadelphia. Pa-per; 5 x 8 ins.; pp. 48; illustrated. This pamphiet describes fire hydrants, pressure gages, varlous kinds of valves, expansion joints, railway water

columns, water pressure regulators, manhole covers, castiron specials and other goods manufactured or sold by this company.

WATER, STEAM AND GAS SUPPLIES.—The Michigan Brass & Iron Works, Detroit, Mich. Paper; 6 x 9 ins.; pp. 92; iliustrated.

This pamphlet is devoted chiefly to fire hydrants and This pamphiet is devoted chieff to fire hydralis and the large and varied line of valves made by this company. A view each of the U. S. Battleship "lowa" and of the U. S. cruiser "Brooklyn" are shown, with the statement that these vessels are equipped with "Michigan" extra heavy ali-brass vaives.

LIGHTNING ARRESTERS.—Westinghouse Electric & Mfg. Co., Pittsburg, Pa. Pamph.;  $7 \times 10$  ins., pp. 24 illustrated.

This pamphiet is numbered 223, and is published to illustrate the developments in Westinghouse ilghtning arresters since circulars 169-B and 193-A, both of which it supersedes. Arresters for direct and alternating currents, and for lighting, power transmission and rallway work are included.

ROCK DRILLS.—The Ingersoll-Sergeant Drill Co., meyer Building, New York. Paper; 9 × 3% ins 14; lliustrated.

This pamphlet tells how the Ingersoli-Sergeant drills have found their way to all civilized countries, and points out how the use of rock drills of modern types has increased the amount of rock excavating for various purposes, hy making such work easier and less expensive.

The facilities and experience of this company in making rock drills and the actual economy in using rock drills are dwelt upon.

RAIL JOINTS.—American Rail-Joint & Mfg. Co. 219 Superior St., Cleveland, O. Paper; 8% x 4 ins. pp. 72; illustrated. The "American" joint is a wedge device, the two pieces

locking together under the rall by a dovetail joint. The side portions do not touch the web of the rail, but one piece has two lugs or studs which engage with holes in In some of the joints the stude extend beyond the rail and have hooked ends locking with projections on the opposite part of the joint. Each joint is complete in two pieces, and various patterns are made for rail-way and street railway track. A similar device, but made way and street railway track. A similar device, but in three pieces, forms a guard rail clamp and hrace.

MECHANICAL FILTERS.—The New York Fliter Co., 26 Cortlandt St., New York. Paper; 6 x 9 pp. 70.

The bulk of this pamphlet consists of reprints of papers and reports, given in whole or partiy, on mechanical filtration. The leading paper is "Man's Imitation of Nature in Purification of Water," by Dr. Gardner T. Swarts, Secretary of the Rhode Island State Board of Heaith. Other papers or reports relate to water purification experiments at Providence, R. I., Cincinnati and Lorain, O., by Messrs. E. B. Weston, G. W. Fuller and Allen Hazen, respectively. The pamphlet also contains numerous testimonials from water-works officials who have charge estimonials filters, and a list of filter plants. With testimonians from gater-going omecians who have charge of mechanical filters, and a list of filter plants, with capacities, in 126 cities, mostly in the United States and Canada.

C.—Efforts are again being made to secure works. The committee consists of Mayor Shedd. Councilmen Piatt, Dyar and Lung.

RICHMOND, VA.—Bida are asked until 12 m., April 27, or furnishing stop-cocks, gate valves, hydrants, castings. c. C. E. Bolling, Supt. Water-Works.

DAWSON, GA.—The question of building new works is being considered.

being considered.

MONTGOMERY, ALA.—We are informed that only one bid was received April 10 for four boilers for the works, and that bid was withdrawn without opening. The trouble is thought to have been caused by the specifications requiring two boilers to be in by June and scarcity of boiler plate and in ability to get it in time. Geo. R. Ellis, Consuit. Engr., writes us that the following bids were received April 15 for furnishing a 5,000,000-gallon, horizontal compound, duplex, condensing pumping engine: The D. A. Tompkins Co., Charlotte, N. C., \$12,449; The Deane Steam Pump Co., Holyoke, Mass., \$19,900; Henry R. Worthington, Brookiyn, M. Y., \$20,500.

TULLAHOMA, TENN.—W. H. McLennel, Cy. Clk., writes us that the question of building works will have to be submitted to a vote of the people, so no contracts can be let for some time.

LEXINGTON, KY.—The mayor has been authorized to appoint a committee to investigate further the question of building municipal works or of purchasing the present works, which cost about \$500,000.

orks, which cost about \$500,000.

GLOUSTER, O.—Bids are asked until May 6 for fursishing the materials and for constructing the works. isking the wanted 21,000 ft. of 3, 6 and 8-in. pipe, etc. here will be wanted 21,000 ft.

D. Antle, Village Cik.

LISBON, O.—This place is stated to have voted against issuing \$20,000 in bonds for works.

HOUGITTON, MICH.—This place has been authorized to issue \$60,000 in bonds for works, according to renorts.

WEST BAY CITY, MICH.—Local papers state that the commission will soon begin the construction of the proposed new works, to cost about \$140,000. Mayor Lind, M. S. Griffin and Juo. Walsh are on the commission.

ALTON, H.L.—Geo, T. Davis writes us that this city, on April 18, voted a majority of 1,370 in favor of municipal works.

CHICAGO, I.L.—Bids are ached.

works. AGO, ILL.—Bids are asked until May 6 for furnish-chicked, ing the materials and for constructing six horizontal re-turn tubular hoiters, fitted with automatic stokers, with turn tubular hoiters, fitted with automatic stokers, with coal conveying machinery, etc., for the Chicago Ave. pumping station. L. E. McGann, Com. Pub. Wks.

MOUNT STERLING, ILL.—The question of building mounts to cost about \$7,000, la being considered. J. L. gray and J. D. Milstead are interested.

DES MOINES, IA.—The Des Moines Water Co. will oon spend about \$15,000 for improving the works.

THOMPSON, IA.—This place, it is stated, has voted build works to cost \$3,500. UTE, IA.—Bids are asked until May 1 for construct-ng works, as stated in our advertising columns. O. E.

athrop, Clk.

BELGRADE, MINN.—Bids are asked until May 5 for onstructing works and an electric plant, as stated in a divertising columns. F. W. Lenz, Recdr.

ur agvertising cottains. F. W. Dals, technical MOUNTAIN LAKE, MINN.—Mayor Klein, it is stated, considering bids for huilding works.

STARBUCK, MINN.—It is stated that the council has cided to build works.

decided to build works.

DEADWOOD, S. DAK.—This place voted April 18 to issue \$50,000 lu bonds for new works. Sol Star, Mayor, writes us that notbing definite will be done for some time. F. C. Tucker, Cy. Engr.

HOWARD, S. DAK .- This place is reported to have de-ided to build works.

SPEARFISH, S. DAK.—This place has voted to issue \$10,000 in bonds for works.

SPEARFISH, S. DAK.—This place has voted to issue \$10,000 in bonds for works.

CHINOOK, MONT.—W. C. Kister, Editor "Opinion," writes us that a company has been organized with capital stock of \$3,100 to build works. The water supply to be secured from wells. L. V. Bogg, A. S. Lohmau and J. W. Clark are interested.

Clark are interested.

KANSAS CITY, MO.—The Schwarzschild & Suizberger Packing Co. will begin soon work on a filtering and purifying water-works as an addition to the packing establishment in Armourdale. The works will cost about \$860,000, and Mr. Levy, superintendent of construction, says it will have a capacity of ½ million gallons a day. The works will be so built, it is stated, that it can be made to produce a million gallons of water a day if required.

ST. CHARLES, MO.—H. C. Sandfort, Cy. Clk., writes us that the proposition to award the St. Charles Water & Improvement Co. a new 20-year coutract was rejected at a special election April 15. A new proposition will probably be submitted in the near future.

SEQUIN, TEX.—The Yorks Creek Artesian Develop-nen Co. has been organized by Prof. Martin Ruppel and

men Co. has been organized by Prof. Martin Ruppel and W. Guesson.

SEATTLE, WASH.—The following are the total bids received April 12, for constructing the Cedar River waterworks addition, as advertised in Engineering News: Subdivision 1, including the pipe lines from Cedar River to Swan Lake and from the lake to the city, complete, as well as the headworks at the intake, etc.; Moran Bros. Co., \$1,016,721; Smyth, Wakefield & David, \$970,096; Pacific Bridge Co., (not extended); F. McLelian, \$921,681. Subdivision 2, including two reservoirs in the city, and one at the City Park and the other in the Nagle addition, cast of Broadway and north of Madison Ave.: Moran Bros. Co., \$236,840; Smyth, Wakefield & David, \$200,134; Pacific Bridge Co. (not extended); F. McLelian, \$225,705; Cawsey, Carney & McWilliams, \$247,842; Stirratt & Goetz (not extended). Subdivision 3, including the stand pipe on Queen Anne Hill and the mains connecting it with the reservoirs and the distributing system on Renton Hill: Moran Bros. Co., \$55,555; Smyth, Wakefield & David, \$49,481; Pacific Bridge Co. (not extended). Subdivision 4, including the connection of the Nagle addition reservoir with the general distributing system, with a 30-in. pipe to the corner of Sixth Ave. and Pine St.: Moran Bros. Co., \$30,949; Smyth, Wakefield & David, \$49,481; Pacific Bridge Co., \$35,500. Several injunctions have been served on the city by other bidders, and by a citizen, who assert that the lowest bidders did not submit checks for 5% of the amount of bids, and that the plans if carried out will not furnish the amount and quality of water eailed for by the city ordinance. It is, therefore, uncertain when the contract will be iet.

TACOMA, WASH.—Johnson Nickeus, Mayor, writes us that the matter of improving the water supply is before the council committee. No recommendations have yet been made. N. L. Taylor, City Engr., writes us that the commissioner of public works has been authorized to call for bids immediately for the construction of a 30-in, stave pipe, 2,000 ft. long, to be laid in the city; the above work being done at this time as a partial means of holding the water claim of the city on the South Fork of the Puyallup River, 25 miles distant. Preliminary surveys for a water supply from the above source are practically completed and a pipe line will be located during the summer; providing that the incoming council concurs in the plans approved by the present committee.

LAKEPORT, CAL—H. V. Keeling. Town Cik., writes

LAKEPORT CAL.—H. V. Keeling, Town Clk., writes us that the following bids were received April 17 for constructing works: James Stanley, 518 15th St., Oakland, Cal., No. 1, \$15,444 No. 2, \$15,591; Dundon Bridge & Construction Co., San Francisco, Cal., \$18,627; C. D. Vincent, San Francisco, Cal., No. 1, \$15,430; No. 2, \$15,085; No. 3, \$14,920.

No. 3, \$14,920.

PASADENA, CAL.—J. D. Allen, Engr., Pasadena Lake Vineyard Land & Water Co., writes us that the company is sinking a well in the Arroyo Leco below Devli's Gate in the hope of intercepting water believed to be passing under the tunnel system owned by the company. As the well will be but 40 or 50 ft. deep and only a small amount of water is expected, no order for a pumping plant will be given until something more definite is known of the quantity of the water to be pumped.

WATERLOO, ONT.—This city voted April 7 in favor of purchasing the works for \$40,000.

VISALIA, CAL.—The works at this place have been sold to a new company, who, it is stated, will make a number of improvements. Jno. D. Pope, J. R. Pendergrass and Walter J. Cooper are interested.

#### IRRIGATION.

LOWELL, MASS.—Reports state that the Lowell Gas Light Co. proposes to extend its supply of gas to Chelms-ford Center.

ford Center.

NEWARK, N. J.—E. H. Jenkins, C. L. Ingham and W. B. Cutier, of Buffalo, propose to take up the gas franchise of Michael Chadwick, and will construct a plant and about four miles of mains at a cost of about \$40,000, according to reports.

PHILADELPHIA, PA.—It is rumored that Contractor Lewis Havens will construct a corrugated iron extension, 125 x 200 ft., at a cost of about \$40,000, to the Point Breeze Gas Works, for the United Gas Improvement Co.

WILKES-BARRE, PA.—It is reported that the Wilkes-Barre gas works will be improved at a cost of \$15,000; also that the Wyoming Valley Electric Light Co. will spend \$25,000 for new engines, generators, etc.

MOUNDSVILLE, W. VA.—Reports state that a contract has been awarded to G. E. Foster, of Sistersville, for the development of 800 acres of oil lands near this place.

D. E. Ofutt is Interested.

RAPBERTON O —Reports state that several thousand

BARBERTON, O.—Reports state that several thousand acres of oil lands have been purchased and the work of drilling wells will soon be commenced.

BEDFORD, IND.—Reports state that a franchise has been granted to W. C. Thompson, of Cbicago, to operate a gas plant.

a gas plant.

ADRIAN, MICH.—The Adrian Gas Co. has awarded a contract to the United Gas Improvement Co. Philadelphia, for installing Lowe water gas apparatus with a capacity of about 125,000 cu. ft. dally, according to re-

ASHLAND, WIS.—The Ashland Lighting & St. Ry. has placed a contract with the Parish Mfg. Co. for a holder 50 ft. in diameter and 40 ft. bigb.

DENVER, COLO.—It is reported that a 20-year franchise has been granted to the Mutual Gas Co. to construct a plant and lay mains, at a cost of about \$125,000. J. P. Heisler, Vice-Pres.; F. H. Stickney, Treas.; Wm. H. Rid-

DURANGO, COLO.—Jas. P. Airy, H. Jackson, W. G. Wbite and C. C. Eddy are reported to have applied to the authorities for the right to construct and maintain gas works.

gas works.

BUTTE, MONT.—The Butte Gas Light & Coke Co. has awarded a contract to the Western Gas Construction Co., Fort Wayne, Ind., for a new plant.

ROSSLAND, B. C.—Dr. P. E. Doolittle, of Toronto, proposes to establish a gas plant at this place.

proposes to establish a gas plant at this place.

NEW COMPANIES.—Lombart Gas Co., Booneville, Mo.;
\$30,000; R. A. Lombart.

Magnetic Oil & Gas Co., Dennison, O.; \$5,000; W. J.

Shrier, C. H. Smith, M. W. Young and others.

American incandescent Gas Lighting Co., Trenton, N.

J.; \$2,000,000; to deal with a new method of incandescent
gas lighting; Albert C. Burrage, Henry A. Norton, of
Boston; Chas. H. Dickey, Baltimore.

Union Gas Co., Nashville, Tenn.; \$500,000; E. C. Lewis,
A. H. Robinson, C. C. Christopher.

Bridges' Dry Seal Acetylene Gas Machine Co., San Francisco, Cal.; \$100,000; gas machines; W. A. Robertson, Alameda; F. C. Lewis, Wm. H. Schepper, John W. Bourdelle, of San Francisco.

Central Oil Co., Portland, Me.; \$2,000,000; to prospect Central Oil Co., Portland, Me.; \$2,000,000; to prospect Ground Inding; Wm. L. Henry, Boston; Robert P. Ground, M. Glapp, Lexington, Mass.; Chas. H. Tolmon, Portland, Me. Dallas Oil Refining Co., Dallas, Tex.; \$60,000; A. Fitzhugh, W. H. Thomas, George N. Aldredge.

New Philadelphia Oil & Gas Co., New Philadelphia, O.; \$2,400; B. P. Scott, E. C. Browne, J. A. Linn.

People's Gas & Electric Co., Galesburg, Iil.; \$100,000; J. T. McKnight, G. D. Crocker.

Chonnati Natural Gas & Iliuminating Co.; Cincinnati, O.; \$1,400,000; to plpe gas from the sugar grove field near Lancaster, about 100 miles; also to go into the artificial gas business if the supply of natural gas falis; Robert Laddaw, Geo. Bullock, John B. Morris and others.

# CONTRACT PRICES.

BRICK PAVING.—Minneapolis, Minn.—A contract bas been let to J. B. Canny for brick paving, on 6-in. concrete base, and cement fillers, on a 2-year guarantee, at \$1.61 a \$0, yd., and sandstone, sand foundation, cement filler, \$18.15.

SIS.15.
CULVERTS, ETC.—Himois & Mississippi Canal, Hi.—We are informed that the following bids were received April 18, by Maj. W. L. Marshali, U.S.Engr., Chicago, for excavating pits and constructing foundations for seven arch culverts and for constructing 10 pipe culverts under the feeder of the Hilmois & Mississippi Canal, and for other work and materials of same character, as advertised in Engineering News:

BRICK PAVING.—Akron, O.—John W. Payne, Cy.Engr., informs us that the following bids were received April 15, 15, for brick paying; all local bidders except Herring & Son of Mansfield, O.:

\*Awarded contracts.

TRUNK SEWER.—Akron,0.—John W. Payne, Cy.Engr., informs us that the following bids were received april 15 for building a trunk sewer; tunnel is for 3-ft. brick sewer through a hill; bids are for this complete per lin. ft; the totals do not include rock excavation, for which an allowance of \$1.25 a cu. yd. is unde in specifications; estimated amount 7,000 cu. yds.; all but Adams Bros., Zanesyille, and Greenville Construction Co., Greenville, are local bidders; James Wildes & Son received award:

#### MISCELLANEOUS CONTRACTS.

BONDS.-Elizabeth City, N. C.-It is reported that the question of issuing \$30,000 of improvement bonds will be voted upon May 8.

voted upon May 8.

EXPLOSIVES.—Vicksburg, Miss.—Bids are asked until
May 12 for furnishing explosives for one year. Maj. J.
H. Willard, U. S. Engr.

STORAGE BATTERY.—Woburn, Mass.—An order for a
loan of \$1,100 for a storage battery for the fire alarm
system has been read in the council.

BOILED ETC.—Stockton [21]—Bids are asked by the

BOILER, ETC.—Stockton, Cal.—Bids are asked by the fire department until 5 p. m., April 27, for a new boiler and repairs to the steam fire engine No. 4.

BOILER, ETC.—Stockton, Cal.—Bids are asked by the fire department until 5 p. m., April 27, for a new boiler and repairs to the steam fire engine No. 4.

GUN FORGINGS.—Washington, D. C.—Bids are asked until May 8 for 61 sets of 5-in. gun forgings. Chas. O'Neil, Ch. Bureau of Ordnance, Navy Dept.

REMOVING WRECK.—Boston, Mass.—Bids are asked until May 17 for removing a wreck in the Weymouth River, Mass. Col. Chas. R. Suter, U. S. Engr.

DOCK.—West Superior, Wis.—The Northern Pacific Co. has awarded a contract to John Frankham, of Minneapolis, for an additional dock, 175 × 1,000 ft.

DREDGING.—Chicago, Hi.—Bids are asked until May 25 for dredging in Calumet River, as stated in our advertising columns. Maj. W. L. Marshail, U. S. Engr.

PHOTOGRAPHIC SUPPLIES.—Washington, D. C.—Bids are asked until April 29 for furnishing photographic supplies. M. R. Thorp, Ch. Supply Div., War Dept.

TELEPHONES.—New York, N. Y.—The People's Telephone Co. proposes to secure a franchise to operate in this city. A. Wilford Hale, Oscar A. Shaw and D. P. Cobb are interested.

EXCAVATING.—Oswego, N. Y.—Bids are asked until May 22 for excavating in the St. Lawrence River, N. Y. as stated in our advertising columns. Capt. Graham D. Fitch, U. S. Engr.

PARK WORK.—New York, N. Y.—Bids are asked until May 4 for constructing a portion of Ciaremont Park, Bronx Borough, G. C. Clauseu, Park Comr., Arsenal, Central Park, New York.

CEMENT.—Louisville, Ky.—Bids are asked until May 22 for furnishing Portiand cement at lock No. 5, Green River, Ky., as stated in our advertising columns. Capt. Geo. A. Zinn. U. S. Engr.

DOCK GATES.—Boston, Mass.—Bids are asked until May 13 for constructing new swinging gates for dry dock No. 1, at the navy yard. M. T. Endicot, Ch. Bureau of Yards and Docks, Washington.

UNDERGROUND WIRE.—New Haven, Conn.—Bids are asked until April 28 for furnishing 26,000 ft. of Okonice wire, No. 14 B and S gaze for advenced to the construction of the constr

Yards and Docks, Washington.

UNDERGROUND WIRE.—New Haven, Conn.—Bids are asked until April 28 for furnishing 26,000 ft. of Okonite wire, No. 14 B and S gage, for underground conduits. Clarence G. Ames, Pres. Bd. of Fire Comrs.

PARK WORK.—Baltimore, Md.—A committee has been appointed by the Southwest Baltimore Improvement Association for the extension and improvement of Carroll Park to Bayard St. August F. Becker, Chn.

REMOVING DIRT, ETC.—Lebanon, Pa.—Bids are asked until May 2 for stripping from the ore and removing about 12,000 cu. yds. of material for the Cornwall Ore Salt Lake, Utah, has been soliciting subscribers for the Beil Telephone Co. for a system at this place. It is also proposed to construct a line this summer from faramic Denver.

LOCOMOTIVES, DUMP CARS, ETC.—Independent

to Denver.

LOCOMOTIVES, DUMP CARS, ETC.—Indianapolis, Ind.—The Harry W. Schuh Construction Co. desires to purchase second-hand equipment in dump cars and locomotives, etc. Address S. T. Stratton, Mgr., 911 Stevenson Bidg.

son Bidg.

DREDGING.—Mississippi.—Bids are asked until May 25 for dredging in Ship Islaud Pass, at the mouth of the Pearl River, in Pascagoula and Horn Island Harbor, as stated in our advertising columns. Maj. Wm. T. Rossell, U. S. Engr., Mobile, Ala.

U. S. Engr., shorte, Ala.

DRAINAGE CANAL AND PUMPS.—New Orleans, La.—
Bids are asked until about July 5 for additional work on
the pumping stations and drainage canals; estimated
cost, about \$500,000. F. G. Ferret, Secy. Drainage Com.,
City Hall; B. M. Harrod, Ch. Engr.

TRANSPORTING RIFLES.—Sandy Hook, N. J.—Bids have been received by the quartermaster's department, Army Bidg., New York, for transporting from Sandy Hook to Boston Harbor, three 12-in. B. L. steel rifles, 37 ft. iong and weighing 116,400 lbs. each, from the Merritt & Chapman Wrecking Co., at \$3,950, and Alfred Sorensen, Boston, at \$4,243.

WATER PIPE.—Detroit, Mich.—The water commission received only the following two bids April 12, 1899, for furnishing cast-iron water pipe: American Car & Foundry Co., \$22.50 a ton for all amounts under 500 tons, and \$23.50 for all over that amount. The United States Cast-Iron Pipe Co., \$22.25 and \$23.25 a ton, respectively. Last year the board paid about \$15 a ton.

HARBOR WORK.—Wisconsin.—Bids are asked until May 25 for harbor of refuge, Milwaukee Bay, breakwater construction; Racine Harbor, crib pler, breakwater, removal of old pier, and dredging; Kenosha Harbor, pile and crib piers, crib breakwater, removal of old pier and dredging, as stated in our advertising columns. Capt. J. G, Warren, U. S. Engr., Milwaukee, Wis.

COAL HOIST TOWER.—Springvalley, III.—It is reported that a contract has been awarded to the Pittsburg Bridge Co., at ahout \$75,000, for constructing a steel coal holsting tower, 70 ft. high and requiring about 120 tons of steel, for the Springvalley Coal Mining Co.

PARK WORK.—Indianapolis, Ind.—The park hoard will receive an appropriation of about \$149,000 to expend for parks this year, including the money that has been spent for improvements and maintenance up to date, and \$30,000 that will be received from the street railway company.

PARK WORK.—San Francisco, Cal.—An election will be held May 23 to vote on the question of acquiring lands to extend the park panhandle to Van Ness Ave., and to connect the park with the Persidio by a houlevard, at a cost of about \$3,500,000. The money is to be raised by issuing 20-year bonds at 3½%.

REVETMENT AND FILLING.—Toledo, O.—Bids are

of about \$3,500,000. The money is to be raised by Issuing 20-year bonds at 3½%.

REVETMENT AND FILLING.—Toledo, O.—Bids are asked by the Toledo centennial commission until May 13 for the construction of the proposed reverment and dock and for the necessary dredging and filling at Bay View Park, as stated in our advertising columns. W. S. Sherman, Engr., 613 Nashy Bidg.

TELEPHONE WORK.—Tyndall, S. Dak—The county commissioners have granted permission to the Bon Homme County Telephone Co. to use the public highways for its lines. About 80 miles of wire will be put in during the early summer, according to reports. Judge W. T. Williams and Dr. S. G. Berry are interested.

CANAL.—Montreal, Que.—Reports state that the Dominion Syndicate, Ltd., has been organized in London, with a capital stock of about \$2,500,000, to construct the Georgian Bay Canal within three years, and to develop electrical, mineral pulp and other industries along the route. Sir Edward Thornton, Chu.; Sir Benjamin Baker, Consuit, Engr., 2 Queens Square Place, S. W., London; Lord Kelvin, Consuit, Electrical Engr.

PARK WORKS.—Boston, Mass.—The committee on Meteral times and the supposed to the second of the state of the second of the sec

Kelvin, Consult. Electrical Engr.

PARK WORK.—Boston, Mass.—The committee on Metropolitau affairs has reported to the legislature au appropriation of \$300,000 under the metropolitan park act, and of \$500,000 under the houlevard act, for the construction of metropolitan parks and boulevards. The report is based on petitions for construction in Lynn, Winthrop, Chelsea and Quiucy, including a boulevard from Revere Beach to Chelsea, knowu as the Snake River boulevard.

DAM AND WEIRS.—Cincluuati, O.—We are informed that the following bids were received April 12 for 168 ft. of Chanoine dam, etc., at dam No. 6, Ohio River, advertised in Engineering News. Maj. W. H. Bixhy, U. S. Engr.:

George F. Egau, Grant Ave., Allegheny, Pa....\$216.483

and for dredging in Quincy Bay, III., as atasted in our advertising columns. Capt. C. McD. Townsend, U. S. Engr.

NAVY YARD WORK.—San Francisco, Cal.—We are informed that considerable construction is under way at the navy yard at Mare Island. Healy & Tibbits are at work on 400 ft. of new quay wall, and have just begun on a plumhers', tinners' and paint shop, 60 × 130 ft., of steel construction. The California Bridge Co. has a contract for a new saw-mill to replace the one deatroyed by the earthquake in 1808, and have begun on the foundation. This will be a hrick-filled steel structure, (0× 3×6 ft., two stories high. The San Franciaco Bridge Co. is laying a pipe line a mile long to pump material from outer bar channel to basin on the island north of Mag, and will begin dredging at this point at once. Work has been commenced on 12 new officers' quarters by Hansbrough & Co., San Francisco. The yard has nearly completed a timber shed, 60 × 400 ft., of steel, and have foundations for four cylinder coal tanks practically completed. Theso tanks will be 40 ft. in diameter by 50 ft. biga, and are located 205 ft. back from the quay wall. A contract for handling machinery has been let to the 3rown Hoisting & Conveying Machine Co., Cleveland. The tanks will be of steel plate, erected by the yard, and work will be of steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and work will be converted to the steel plate, erected by the yard, and wo

### CONTRACT PRICES.

PUBLIC LIGHTING.—Dayton, O.—The following bod from the Dayton Electric Light Co. was the only one submitted April 10, 1899, for public lighting for the years. The company aubmitted two separate hids, one providing for 550 arc lights and one for 390 lamps. In this connection it is said that so far as the hid for 550 lights is concerned, it cannot be considered at all under the specifications, which provide for bids for 300 arc lamps and 209 additional in lumps of 50. The company in its bid under the proper specifications for 300 lights makes a bid of \$80

WATER PIPE.—Lowell, Mass.—M. J. Drummond & Co., 192 Broadway, New York, bave been awarded the contract for furnishing 700 tons of cast-iron water pipe at 822.41 a ton. The lengths will be 12 ft. each, and will have a pressure of 300 lbs.

BRIDGE ABUTMENTS.—Providence, R. I.—We are informed that the following bids were received April 7 for constructing abutments and wing walls at Mill St. and river wall south of Stevens St.:

WATER PIPE.—Cbicago, III.—Bids were opened April 13, 1899, for supplying the city with 7,000 tons of castiron water pipe. Only two bids were received, and the successful bidder was the United States Cast-Iron Pipe Foundry Co. Its bid was \$23.48 a ton, and advance of \$7.50 over the price of last year. The bid of the American Pipe & Foundry Co. was \$24.43. The pipe is to be ready for delivery in September. There are 372,000 ft. contracted for.

Bids Received at Providence, R. I., April 7, 1899, for Construction of Bridge Abutments.

### INDUSTRIAL NOTES.

THE AMERICAN WOOD-PRESERVING CO., Phila-elphia, has removed its offices from 1015 Filhert St. to 66 Chestnut St.

Of Chestnut St.

THE BERLIN IRON BRIDGE CO., East Berlin, C

THE BERLIN IRON BRIDGE CO., East Berlin, Connanuounces its sixth annual oyster roast given to its employees and their families, as to take place Wednesday evening, April 26, at 6 p. m.

THE ABENDROTH & ROOT MFG. CO., New York, manufacturers of the Root improved water-tuhe holler and Root's spiral riveted pipe, will remove May 1 from 28 Cliff St. to the sixth floor of the new huilding at 99 John St.

THE EASTERN SOLAR GAS MACHINE CO., New York, have removed its office from 52 William St. to 120 Liberty St. The company has added to its manufacture of acetylene gas generators a newly-developed machine called the Simplex.

THE GOHEEN MFG. CO., Canton, O., reports that its 1899 business is much in excess of that for the same period of any previous year. The company has been obliged to enlarge its plant to keep up with the demand for its protective coatings for structural work.

THE LLOYD-TALMAGE CO., New York, has succeeded A. A. Talmage & Co. and the Greater New York Supply Co. Mr. H. A. Lloyd, the president of the new company, was until April 17 the assistant secretary and general claim agent of the Wahash R. R. The executive, legal and engineering departments are located at 29 Broadway, the machinery, hardware and general supply departments at 33 Barclay St. and 38 Park Place.

the machinery, hardware and general supply departments at 33 Barclay St. and 38 Park Place.

F. H. BULTMAN & CO., 106 and 108 Canal St., Cleveland, Ohio, successors to the Superior Machine Co., have just received an order from the Wesselman Machinen Gessellschaft, Berlin, Germany, for six Superior automatic gear cutting machines, to cost \$5,000. The General Electric Automobile Co., Philadelphia, Pa., has also ordered one of the same type of machines. The first-named company reports a very good business from other sections.

THE NITRO-POWDER CO., Kingston, N. Y., has been awarded the contract for all dynamite to be used by Belden & Seely in connection with the excavation of the hydraulic canal for the St. Regis Paper Co., near Watertown, N. Y. The work will include about 200,000 cu. yds. of rock excavation. The total bids received April 13 for constructing the canal were published April 20 under our department of Electric Light and Power, the contract being awarded to Belden & Seely, of Syracuse.

THE POTTER MFG. CO., Indianapolis, Ind., is making a specialty of a screw sewer brace, which has a dog or lug on each end, hooking over the top of the sheet piling. This prevents the brace from dropping into the trench when slackened for removal or by the spreading of the sheeting. The screws are of steel, with a heavy double thread, and the nuts or handles are drop forgings. In trenches up to 6 or 7 ft. in width a 1½-in. screw is used, but for wider trenches a 1%-in. screw is recommended.

Concrete & Asphalt Paving Co. of the State of New York, Brooklyn, N. Y.; \$50,000; Noah Cocheu, Lewis R. Stegman and William J. Trimple.

Green River Construction Co., Seattle, Wash; \$30,000; rallway construction: W. E. Guerrin, John S. Govey, Columbia Automobile Co. of New York, Jersey City, N. J.; \$3,000,000; William B. Greeley, New Rochelle, N. Y.; Charles A. Mendell, New York; Linley M. Garrison Maritime improvement Co.; \$3,000,000; to build canals, docks and construct electric light, gas, telephone and telegraph plants; Charles H. Cramp, Philadelphia; Gustav Lindenthal, New York; E. F. C. Young, Jersey City, Sargent Automatic Railway Signal Co.; \$2,000,000; railway semaphore signals; James Sargent, John D. MacMaster, E. B. Feuner.

Birmingham Cewent Co., 55 Montgomery St., Jersey City, N. J.; \$300,000; to manufacture cement; Sanuel B. Lawrence, 13 Astor Place, New York; Henry M. Havvlland, 19 Whitehall St., New York; George E. Spencer, 137 Amity St., Brooklyn, N. Y., and others.

New England Electric Vehicle Transportation Co., 1 Montgomery St., Jersey City, N. J.; \$25,000,000; vehicles to he operated by electricity, compressed air, etc., James E. Hays, 361 Market St., Camden, N. J.; Arthur Phillips and Aug. Treadwell, Jr., 36 Wall St., New York; Empire Construction Co., 558 Park Ave, East Orange, N. J., Stoodo; seneral construction business; William P. Catlin, New York; Thomas T. Hill. Brooklyn, N. Y.; George L. Catlin, East Orange, N. J.

Harrison Construct and manage public and private works, including railways, canals, water and electric light plants, etc.; Lewis B. Harrison, Charles H. Slocomh and Charles F. King, 745 Broad St., Newark, N. J.
