# PREFACE

(Written by J. K. DIXON, JR., Sec.-Treas.)

## Gastonia Board of Trade

Gastonia's growth represents a period of from 1881 up to the present time. From a small flag station on the Southern Railway it has grown to be a city of over 10,000 people, including environs. It is located on the main line of the Southern Railway, almost on the South Carolina line, at the intersection of the Carolina & North-Western Railway, and practically in the center of the textile belt of the Carolinas.

On January 1, 1911, Gastonia becomes the county seat of Gaston County, succeeding Dallas, N. C., in th's honor, thus carrying out the wishes of the people of the County in a popular election held on August 5, 1909.

### GASTONIA HAS—

Twelve textile corporations with a total capitalization of \$3,000,000, operating sixteen plants, with 155,000 spindles and 2,500 looms, consuming 40,000 bales of cotton annually, and with a total yearly payroll of \$600,000.

Its own electric light, water and sewerage systems.

Bituthic street paving and cement sidewalks in main business section.

Exceptionally good graded schools, with newly erected school auditorium.

A public library.

Two semi-weekly newspapers.

Two new hospitals.

Three excellent banks.

A prosperous B. & L. Association.

Fire department.

Beautiful churches representing seven denominations.

Splendid system of city and rural telephones.

Large sub-station of Southern Power Company, with practically unlimited power.

Free city delivery of mail.

Government appropriation of \$65,000 for erection of postoffice building.

Given franchise to a corporation for street railway system and interurban line to Charlotte, N. C., to be built by July, 1910, grading of which has already been started.

Excellent climate and splendid health records.

The present officers of the town are: Thos. L. Craig, mayor; J. O. White, S. M. Morris, A. M. Dixon, J. H. Separk, Ino. O. Rankins, Aldermen; Jno. R. Rankin, clerk; J. W. Carroll, chief of police.

The Gastonia Commercial Club combines the advantages of a social club and a board of trade, and is the organized agency for the upbuilding and advertisement of the town. Its present officers are: J. O. White, president; and J. K. Dixon, Jr., sec-treas.

With the immediate prospect of a street railway system, grading of which has already been started, and magnificent new courthouse and post-office, both to be erected at once, Gastonia's growth seems to be assured.

N. B.—Estimate of the population of a city is a matter necessarily enjoined upon the directory publisher. The figures which we herewith tender are arrived at from careful calculation and can be taken as practically accurate. The book contains 4,210 names of individuals; using the conservative multiple  $2\frac{1}{2}$  times, as is used by most directory publishers, to allow for children's and wives' names that are not counted, indicates a population of about 11,000, or to be more exact, 10,525.

In conclusion, we desire to thank the business men for their support, and the public in general for the courteous way in which they supplied us with the proper data.

# North Carolina

The first attempt at colonization was made in 1548 by the illustrious Sir Walter Raleigh.

North Carolina was foremost to resist British tyranny. First pitched battle fought at Alamance May 12, 1771. Declaration of Independence signed at Mecklenburg, 1776. North Carolina lost 35,124 soldiers during the Civil War, having furnished more and lost a greater number of soldiers than any other Southern State. (Number from North Carolina, 125,000).

The population is of a singularly homogeneous character, being Virginians, mainly English; Pennsylvanians, mainly Scotch-Irish and German; Scotch-Irish, Scotch Highlanders and Lowlanders, Swiss and French Huguenots. Population 2,000,000.

North Carolina's position is nearly between the parallels 34 degrees and  $36\frac{1}{2}$  degrees north latitude, and between the meridians  $75\frac{1}{2}$  degrees and  $84\frac{1}{2}$  degrees west longitude. Extreme length  $503\frac{1}{4}$  miles; extreme breadth  $187\frac{1}{2}$  miles; average breadth 100 miles; area 52,286 square miles, of which 48,666 is land and 3,620 is water.

Mt. Mitchell, 6,711 feet high, is the highest peak of the Blue Ridge Range, being also the highest east of the Rocky Mountains. Forty-three peaks exceed 6,000 feet in height; eighty-two peaks exceed 5,000 feet in height. The mountain region embraces 6,000 square miles. The mountains are covered with deep rich soil and clothed with massive forests to their tops. The walnuts, poplars and oaks attain a size that would hardly be credited by one who had not seen them. All kinds of fruit attain a high state of perfection and all fruits and vegetables and grains are remarkably productive.

Average mean temperature, 59.6 from 1882 to 1897. Average snowfall for the same period, 11 inches annually. Precipitation, 50.6. Wettest year on record, 1877; dryest year on record, 1897.

North Carolina is rapidly developing in all kinds of trucking and fruit-growing. At the recent National Apple Show at Spokane, Washington; North Carolina took first prize for the finest apples exhibited.

Largest Tannery Extract Plant, United States Leather Co., Old Fort.

Largest Wood Fibre Plant, Champion Fibre Co., Canton, N. C.

Largest Flat Plug Tobacco Factory, R. J. Reynolds Tobacco Co., Winston, N. C.

Largest Smoking Factory, "Bull Durham," Durham, N. C.

**W** E PUBLISH DIRECTORIES—not only in cities and towns throughout the great Piedmont section of the Carolinas and Georgia, but in Tennessee and the Virginias. Directories are for the good of the public and should be supported by every business man and public-spirited citizen, they advertise to the world your city as well as your business. A man is often judged by his clothes; so is a city often judged by its directory. A directory filled with advertisements is a splendid advertisement for your city as well as your business.
