NO. 61

GERMANS MADE USE OF FLAMING LIQUIDS

Also Threw Shells Containing Asphyxiating Gas in Attack on Vosges

TOOK A TRENCH; WERE DRIVEN OUT BY FRENCH

Succeeded in Holding Only a Small Part of the Ground Gained

Paris, Sept. 10.—Artillery fighting continued yesterday and last night along the lines in France, according to an announcement made to-day by the war office.

In the Vosges the Germans made use of asphyxiating shells and flaming liquids, as a result of which a French trench of the first line had to be evacuated. A counter-attack by the French, however, resulted in the recapture of the greater portion of the lost ground. The statement reads:

"In the Vosges the enemy yesterday attacked our positions between the Ligeckopf, as far as the Barrenkopf, making use of asphyxiating shells. At Schratzmanns a trench of the first line had to be evacuated following the throwing by the enemy of flaming liquids. A counter-attack made it possible for us to recapture the greater portion of the lost ground and to secure a position about thirty feet from that portion of the trench which we could not recapture. Along the rest of this front our positions virtually were unchanged.

"Yesterday evening the Germans delivered an attack against our trenches on the summit of Hartmanns-Wellerkopf, which resulted in their winning a foothold during the night. We, however, delivered a counter-attack, recaptured the lost trenches and drove the enemy back to his line.

Airmen busy.

"Our aviators bombarded the German mines and batteries in the forest of Nonnenbruck, as well as the railroad station at Lutbeck. Furthermore, about thirty bombs were thrown down on the railroad station at Grand Pre."

Paris, Sept. 10.—The following official communication was issued last night:

"The artillery struggle continues around Arras, in the region of Hoye, and on the Champagne front.

"In the Argonne the enemy's attacks were not renewed; the day was marked by a heavy artillery duel.

"The cannonading likewise has been quite spirited in the Vosges, in the forest of Apremont and at Bois de Montmarc."

EXTRADITION GRANTED ON FORGERY CHARGE

I. T. Lincoln Will Be Sent to British Isles to Stand Trial

New York, Sept. 10.—Ignatius T. Lincoln, a former member of the British parliament who recently admitted he had been a German spy, today was ordered by Federal Judge Veedler, Brooklyn, to be extradited to the United Kingdom to stand trial on a charge of forgery. Lincoln's attorneys contested the extradition proceedings, charging their client would be tried as a spy if he returned to the British Isles.

Lincoln was charged with three forgeries in the papers filed here by the British consul. One charged by Lincoln, of England, purported to guarantee the payment of £750 to John Goldstein.

Lincoln arrived in New York from Liverpool on February 9 last. Early in May he wrote two articles, published in a newspaper, in which he purported to tell of the workings of the British war office. A short time later he announced he would publish a book entitled: "Revelations of an international spy." His arrest on the forgery charge followed the announcement within a few days.

AIRMEN VISITED NANCY; TWO PERSONS KILLED

Paris, Sept. 10.—Six German aeroplanes bombarded Nancy to-day, killing two persons, wounding ten and causing extensive property damage. St. Max, a suburb of Nancy, also was bombarded, several victims being claimed there.

The report issued by the war office this afternoon stated that high angle guns had opened fire on the raiding machines.

A German aeroplane which was flying near Calais was hit. Its tank being pierced, it was forced to descend. The machine was decorated with 15 iron crosses, supposedly awarded for previous feats.

STILL NEGOTIATING, SAYS RADOSLAVOFF

Bulgarian Govt. Will Continue to Follow Present Policy, He States

PRIME MINISTER GRANTS INTERVIEW AT SOFIA

No Talk of Attack on Serbia While Discussions Are in Progress

Sofia, Sept. 8.—M. Radoslavoff, prime minister of Bulgaria, in an interview to-day with the Associated Press declared that the Bulgarian people were ready to meet the situation caused by the international crisis, and that economic conditions in the country were excellent.

"Our government is engaged in negotiations with the entire powers regarding concessions on the part of Serbia," he continued. "While these negotiations are in progress it is utterly absurd to talk of an attack by Bulgaria on Serbia, as is predicted in some quarters. To do so might result in a catastrophe for Bulgaria."

"Our government is negotiating also with the central powers, with the aim of obtaining the best results for the national cause. The fact that Bulgaria is treating with both groups of belligerents is quite in accordance with the desire of our government and of the opposition."

M. Radoslavoff said the government intended to adhere to its policy of neutrality so long as Bulgaria's interests were not endangered.

"Our relations with Turkey are excellent," he said, "and the territory along the Maritza river ceded to us (the land along the Dedegatch, railroad soon will pass under Bulgarian control. "Bulgaria has assumed no political obligations for the future in consideration of these concessions."

"The preliminary exposition of Serbia's views in regard to Bulgaria's claims was accompanied by much reserve."

ON NICOSIAN WHEN SHE WAS ATTACKED

Passenger Reaching New York on Lapland Says He Saw Patrol Boat

New York, Sept. 10.—Confirmation of the London report that a German submarine was sunk by a British patrol boat on August 19 while shelling the British steamship Nicosia, was received here to-day with the arrival of the steamship Lapland.

This German submarine was sunk the day the Arabic was torpedoed, and not far from the scene of that crime. This gave rise to the report and belief in Great Britain that the submarine which sank the Arabic had been sunk. On board the Lapland, which arrived here to-day from Liverpool, was Dr. C. B. Banks, of Memphis, Tenn., a veterinary, who was aboard the Nicosian when she was shelled. Dr. Banks described the sinking of the Nicosian, but confirmed the report that a patrol boat did appear.

"We were within a five-hour's run of the Arabic when she sunk," said Dr. Banks, "and we heard her wireless call for assistance. The call reached us at 9:15 a.m. Just one hour and five minutes after we had picked up the S.O.S. from the steamship Dunsley. At 11:15 a.m. we had a similar call from the British steamship Baron Erskine."

"At 12:30 p.m. we sighted a submarine about one mile ahead of us and almost immediately heard a shot, fired to cause us to stop. We started a wireless call for help—and then the submarine turned loose on us with shrapnel, the second shot tearing away our wireless apparatus. By this time the submarine was within sixty yards of us, and she gave our captain 20 minutes to get the crew into the boats. The last boat, in which I took refuge with the captain, hardly was clear of the ship when the submarine opened on the steamship with two guns, fully twenty shells striking the Nicosian. Fortunately only two found a mark below the waterline."

"The British patrol boat which had been coming up was then within range. "The Nicosian did not sink, probably because she had in her hold a cargo of logs. The patrol boat took her in tow and at 2:30 the following morning she was relieved by tugs sent out from Queenstown."

GERMANS ARRESTED.

London, Sept. 10.—The Geneva Express says that a vast espionage plot against France and Britain has been uncovered in Geneva. A German officer named Luden and twenty others have been arrested as spies. It is expected that other arrests will follow quickly.

ANOTHER SUBMARINE ATTEMPT

Pro-German bankers in New York are said to have done their best to precipitate a crisis in sterling exchange.

WILSON FOLLOWED ONLY COURSE OPEN

Forced to Send Dumba Away to Uphold Honor of States

New York, Sept. 10.—The announcement that President Wilson has asked Austria-Hungary to recall Ambassador Dumba because he conspired to disorganize the munitions industry came so late that few editorials on the matter were printed in the morning papers throughout the United States.

Those newspapers that had an opportunity to express themselves declared in no uncertain terms that President Wilson had taken the only possible move to preserve the dignity of the United States. Some of the editorials are appended:

New York World: President Wilson has done more than rebuke an indiscreet diplomatist who was found guilty of grossly reprehensible conduct. He has served notice upon both Germany and Austria that there is an end to the anti-American conspiracy which they have subsidized in this country in flagrant disregard of international good faith and international decency.

New York Sun: The critical circumstances brought about by Ambassador Dumba's maladroitness have met with a dignity and a decision that must command the respect of the citizens of the United States.

New York Times: Waiting too long and evading her plain duty, Austria has brought upon herself the humiliation of having to tell that her ambassador to the United States no longer is acceptable and must be recalled. A finer sense of the international proprieties would have prompted her to forestall this unpleasant reminder by a notice to our government that Dr. Dumba's acts were disapproved.

Worse Than Bernstorff.

New York Herald: A great wave of satisfaction will sweep over the United States because of the action of President Wilson in asking for the recall of Dr. Dumba. That the ambassador who is recalled is not Count von Bernstorff is due not to the count's lack of offense, but to the greatest finesse which the German diplomatist has employed in committing even greater offenses than Dr. Dumba.

(Concluded on page 3)

STEAMSHIP MORA WAS SUNK BY SUBMARINE

La Rochelle, France, Sept. 10.—The steamship Mora was sunk at 4:30 on Wednesday afternoon by a German submarine off Penmarch, department of Finistere. Her captain and twenty-five men of the crew were landed here at noon yesterday by the Rochelle smack Daleineat. The Mora was bound from Santander, Spain, for Newport, Monmouthshire.

The Mora, Capt. Dickers, was reported last as sailing from New York August 15 for Santander. She was a vessel of 3,140 tons and was owned by the English & American Shipping company.

103 WERE KILLED AND ZEPPELIN WAS DESTROYED

London, Sept. 10.—One hundred and three persons were killed by an aeroplane of the allies which recently bombed an aerodrome at Gondrade, near Ghent, according to a Central News dispatch received here to-day from Amsterdam. A Zeppelin also was destroyed.

Roulers also was bombarded from the air and ten persons were killed.

LOOKING OVER ALL PUBLIC BUILDINGS

Canadian Appraisal Company Has Been Engaged by Manitoba Govt.

Winnipeg, Sept. 10.—The Norris government entered upon another prodigious investigation yesterday in the expectation of finding over-payments amounting to \$4,000,000 on Manitoba's public buildings, including the purchase of the telephone plant.

The government contracted with the Canadian Appraisal company, of Montreal, to make a complete appraisal of public buildings in the province, the work to be finished within sixty days.

This is the first step in the direction of an examination of the payments on every public building in Manitoba.

The buildings to be appraised are: Administration, old parliament buildings, old court house, government house, carpenter's workshop and cottage.

Institutions—Hospital for insane at Selkirk and Brandon; home for incurable at Portage la Prairie.

Schools and colleges—Old agricultural college, industrial training school at Portage la Prairie, old school for deaf, normal schools at Winnipeg, Brandon, Manitoba and St. Boniface; land titles offices at Boissevain, Brandon, Carman, Dauphin, Manitoba, Vorden, Neepawa, Portage la Prairie, Winkler, Winnipeg; central power house at Winnipeg.

The government soon may investigate the purchase of elevators by the Roblin government.

RESOLUTION REJECTED BY OVERWHELMING VOTE

Bristol, Eng., Sept. 10.—The Trades Union congress, representing more than three million organized workmen in the British Isles, rejected by a resolution calling upon the parliamentary committee of the Labor party to formulate and advocate terms of peace satisfactory to the working classes.

SPY EXECUTED.

London, Sept. 10.—Official announcement has been made that a spy was executed here to-day. The name of the person executed was not given.

DR. DUMBA MAY BE FOLLOWED BY OTHERS

Von Papen and Von Nuber May Be Compelled to Leave States

Washington, Sept. 10.—President Wilson's request that Austria-Hungary recall her ambassador, Dr. Constantin Theodore Dumba, has brought about a situation which contains possibilities of extending to other diplomats of the Germanic allies.

Dr. Dumba used James F. J. Archibald, an American bearing an American passport, as a messenger to carry a communication to the Vienna foreign office. Although it has not been called officially to the attention to this government, the state department understands unofficially that Archibald also carried a communication for Captain Papen, military attaché of the German embassy.

Secretary Lansing said to-day that the American government considers the sending of any communication in the manner in which Dr. Dumba used, an abuse of an American passport.

It is known that the activities of Consul-General von Nuber, of Austria-Hungary, as well as those of Count von Bernstorff, the German ambassador, again are being reviewed by the state department.

(Concluded on page 4)

RAIDS BY ZEPPELINS AIDING RECRUITING

Men Are flocking to the Colors in the Motherland

London, Sept. 10.—The answer of the people of London and those in the London district to these exercises of "frightfulness" may be seen in an episode mentioned in the Manchester Guardian, says the Spectator in commenting upon the Zeppelin raids on Tuesday and Wednesday nights.

"A recruiting sergeant has been addressing crowds from a platform made of debris of ruined houses, and the results have been excellent."

The Daily Mirror says the reply of London was a great army of recruits. "A large number of volunteers presented themselves at Trafalgar Square," the newspaper says, "and in every part of the country men flocked to the colors."

FOUR YEARS.

London, Sept. 10.—Ernest Causton, a solicitor, was sentenced to four years' imprisonment for the appropriation of a client's money. He went to Canada and obtained a good position and was returned under a warrant.

FAILED IN ATTACK ON PORT OF RIGA

Germans Sent Six Zeppelins and Number of Aeroplanes; Accomplished Nothing

AIRCRAFT DRIVEN AWAY BY HIGH-ANGLE GUNS

Reported One of Zeppelins Was Damaged Badly by Russians

Petrograd, Sept. 10.—Six Zeppelins and a squadron of German aeroplanes attacked Riga on Wednesday night, but were driven off, according to an official announcement issued by the admiralty to-day. The German aircraft did little damage, being received with a storm of shells from anti-aircraft guns mounted ready to repel their attempt.

It was reported that one Zeppelin was damaged badly by the Russian gunfire, as it was able to accompany the air squadron only haltingly when the raiders retreated.

It also was reported that a squadron of German aeroplanes dropped bombs on Vilna on Wednesday, but that only two civilians were wounded, and that no military damage of importance was wrought.

More Than 15,000.

London, Sept. 10.—The Russian victory at Tarnopol, Eastern Galicia, has been followed by another effective blow at the Austrians at Trembowia, 20 miles farther south. In the two actions more than 15,000 prisoners were taken by the Russians. The Russians were unable to follow up the advantage gained at Trembowia, owing to their inferiority in artillery, and the Austrians were not pushed beyond the line of the river Sereth.

Basing their judgment on reports that the Germans are fortifying themselves strongly in the vicinity of Vilna, together with the trend of events on the southern wing of the eastern front and the slow progress of the Teutonic centre, British observers believe that cessation of the Austro-German offensive in the east may be at hand. Such a development would spell victory for that faction of the German general staff which has argued that the lengthening of communications was involving too much risk to warrant a further advance.

It is impossible as yet to obtain a clear view of the situation in the Argonne. It is probable that this region will witness some of the bitterest fighting in the west during the next ten days.

ALLIES WILL ATTACK BY LAND AND SEA

Preparing for Great Effort at Dardanelles; Brig.-Gen. Baldwin Killed

London, Sept. 10.—It is said on information which comes from a reliable source that a general attack on the Dardanelles may be expected very shortly.

The allies are preparing for a monster assault. Both the fleet and land forces will be used.

Advices from Sofia state that many mine-sweepers are being gathered in the vicinity of Seddul Bahr, near the entrance to the straits.

The concentration of allied forces recalls the reports that two large forces of Italian troops, conveyed by warships, have left Italian ports presumably for the Gallipoli Peninsula within the last few weeks.

The official lists of killed, wounded and missing on the Gallipoli peninsula during the two weeks ending August 30, issued here to-day, contain the names of 1,502 British officers.

This indicates that a very strong attempt to open the Dardanelles was in progress during that time. It is thought it still is in progress.

Brigadier-General Baldwin was killed and three brigadier-generals were wounded in the fighting during that period.

TURKISH STATEMENT.

Constantinople, Sept. 9.—The following official statement was issued to-day at army headquarters:

"At Anafarta, our artillery fire against the enemy's positions at Hazmak Dere caused explosions of ammunition and shells in the trenches on Wednesday."

"At Ari Burnu the enemy unsuccessfully dropped shells on our left wing."

MOVING TROOPS.

Geneva, Sept. 10.—The Austrian government yesterday ordered the closing of the Swiss frontier. Apparently, the order was due to movements of troops in the Tyrol toward the Italian frontier.

COMMISSIONERS ARE IN NEW YORK NOW

Representatives of British and French Governments Reached There To-day

FIRST CONFERENCE SET FOR TO-NIGHT

Loan of \$500,000,000 Could Be Arranged With Ease in States

New York, Sept. 10.—Greeted at quarantine by J. P. Morgan and his partner, Henry P. Davidson, when they arrived early to-day from England on the Lapland, six commissioners of the entente governments were taken at once under Mr. Morgan's care, boarded his yacht, the Corsair, and sped up the bay to arrange, it is said, for a loan of \$500,000,000 for Britain and her allies.

Within half an hour after the commissioners had arrived, the International News Service was informed that if the commission desired to borrow a half billion dollars, as was reported, it could be arranged easily. The information was given by one of the leading American financiers, but he refused to allow the use of his name.

The commissioners who are here to arrange matters in the United States for the entente governments are: Baron Reading, Lord Chief Justice of England; Sir Edward Hopkins, Holden, managing director of the London City and Midland bank; Sir Henry Babington Smith and Basil R. Blackett, officials of the British treasury department; Octave Homburg and Ernest Mallet, attached to the treasury department of the French treasury.

All the members of commission were silent as to their mission, but they admitted generally that it was designed to put the credit of the allies on a firm financial basis in the United States and to complete plans for the purchase of war munitions and supplies.

The only statement given out by the commissioners came from Baron Reading. He said:

"The commission's object in visiting the United States is to consult with American bankers as to the best means of regulating exchange between New York, London and Paris, in order that commerce and industries may suffer as little as possible during the war. Mr. Blackett will act as secretary for the commission and will give out statements of our proceedings daily during our conferences."

Their wives accompanied the members of the commission and the whole party went from the Corsair to the Hotel Biltmore.

The first conference of the commission with American bankers will be held to-night in the library of J. P. Morgan's home.

(Concluded on page 4)

BELIEVE GOVT. OF STATES MUST ACT

London Papers Point to the Falsehoods Advanced by Germany

London, Sept. 10.—The interest of the public to-day was divided between the fighting on the battle fronts and the new crisis between the United States and both Germany and Austria-Hungary. Although the Austrian situation was the more acute, opinion here was strong that the sinking of the Arabic finally will bring Germany and the United States to an open break.

Several newspapers editorially ridiculed the German claims in connection with the Arabic and ventured the opinion that the United States, unless it means to submit lamely to being fouted openly by Berlin, must stand fast at last by its declarations that neutrals at sea must not be put in peril of their lives.

President Wilson, these newspapers point out, can not overlook the manifest untruths in Germany's contentions regarding the sinking of the Arabic. It has been established that, first, the Dunsley was struck by a torpedo before the Arabic approached; second, that the officers and crew of the Arabic did not see the submarine, which was hiding behind the Dunsley until the torpedo was fired; third, that the Arabic was struck in the stern by the torpedo and, therefore, could not have been advancing to ram the submarine, as is claimed by Berlin.

It was declared that Germany's flat denial of responsibility, and her refusal to pay indemnity for the death of Americans, has brought the situation to a crisis where Washington once and for all must take a definite stand.

London observers also believe the strain between Berlin and Washington will be heightened by the friction with Vienna. It is pointed out that Capt.

TEXT OF GERMANY'S NOTE TO THE STATES

Repeats the False Statement Made by Commander of Submarine

Berlin, Sept. 10.—Germany's note to the United States bearing on the sinking of the White Star liner *Arabic* on August 19, which was communicated to the American ambassador, James W. Gerard, for transmission to Washington, is in the form of a memorandum under date of September 7, the text of which follows:

"On August 19 a German submarine stopped the British steamship *Dunsley* about 16 nautical miles south of Kinross and was on the point of sinking the prize by gunfire after the crew had left the vessel. At this moment the commander saw a large steamship making directly toward him. This steamship, as developed later, was the *Arabic*. She was recognized as an enemy vessel, as she did not fly any flag and bore no neutral markings.

"When she approached, she altered her original course, but then again pointed directly toward the submarine. From this the commander became convinced that the steamship had the intention of attacking him.

"In order to anticipate this attack he gave orders for the submarine to dive and fired a torpedo at the steamship. After firing he was convinced that the people on board were being rescued in 15 boats.

"According to his instructions the commander was not allowed to attack the *Arabic* without warning and without saving the lives of those on board unless the ship attempted to escape or offered resistance. He was forced to conclude from the attendant circumstances, however, that the *Arabic* planned to attack the submarine.

"This conclusion is all the more obvious as he had been fired upon at a great distance in the Irish Sea on August 11—that is a few days before—a large passenger steamship apparently belonging to the British Royal Mail Steam Packet company, which he neither had attacked nor stopped.

"The German government most deeply regrets that lives were lost through the action of the commander. It particularly expresses its regret to the government of the United States on account of the death of an American citizen.

"The German government, however, is unable to acknowledge any obligation to grant indemnity in the matter, even if the commander should have been mistaken as to the aggressive intentions of the *Arabic*.

"If it should prove to be the case that it is impossible for the German and American governments to reach a harmonious solution on this point, the German government would be prepared to submit the differences of opinion, as being a question of international law, to The Hague tribunal for arbitration, pursuant to article 38 of The Hague convention for the pacific settlement of international disputes.

"In so doing it assumes that as a matter of course, the arbitral decision shall not be admitted to have the importance of a general decision on the permissibility or the converse under international law of German submarine warfare."

ANOTHER SUCCESS IN EASTERN GALICIA

Southwest of Trembowla Russians Took 7,150 Prisoners; Enemy Retreated

Petrograd, Sept. 10.—An official communication made public here yesterday afternoon announced another big success for the Russians in Eastern Galicia. Following their victory at Tarnopol, the report stated that southwest of Trembowla, during the 7th and 8th, the Russians took as prisoners 150 officers and 7,900 men, and that the Teutons retreated hastily toward the River Strypa.

"The communication added that the captures made by the Russians since September 3 on the Sereth front total 383 officers and over 17,000 men and a great number of guns.

"The text of the communication follows: "On the road to Rovno, our troops, after an action yesterday (Wednesday), against great enemy forces advancing along the Olynta-Kievian railway, are holding their advance on positions up the rivers Strubel and Ikwa, where the enemy is supporting his offensive by the most violent artillery fire, which our troops are repulsing with the greatest courage.

"In the Sereth district, southwest of Trembowla, our assumption of the offensive resulted on Tuesday in a success as important as that of Tarnopol. 7,000 men, as well as three guns and thirty-six machine guns. Our losses were unimportant. Yesterday evening the enemy retreated in great haste, pursued by our troops.

"Since September 3, our success on the whole front of the River Sereth resulted in the capture by us of 383 officers and over 17,000 men, fourteen heavy guns, nineteen light guns, sixty-six machine guns, and fifteen artillery limbers.

"Altogether our armies are carrying out the movement firmly and resolutely in conformity with the object assigned, and contemplate the future with confidence. Our faithful ally, the French army, for fifteen days past has been bombarding the German front with terrific effect."

URGE NEW MINISTRY BE FORMED AT ONCE

Petrograd, Sept. 10.—At a meeting of 200 persons of the war stores commission in the Moscow industrial region, a resolution was adopted declaring that the reconstruction of the government under the guidance of a ministry enjoying the confidence of the country was an imperative necessity. Delay, the resolution said, would be disastrous.

The Petrograd city council, at a meeting attended by a hundred persons, adopted a resolution of the same character.

The council of ministers has discussed the programme of the new parliamentary majority which, according to reports, calls for autonomy in Poland, a conciliatory policy for Finland, amnesty for political and religious offenders, complete cessation of religious persecutions, removal of restrictions on Jews and the recognition of the legality of trade unions.

M. Cherkasoff, minister of the interior, has assured members of the Duma privately that they sympathize with many points in the programme.

TWO GERMAN AEROPLANES WERE BROUGHT DOWN

London, Sept. 10.—Field-Marshal Sir John French has sent the following report on recent operations:

"There has been no change in the situation since my last communication. There has been no important results, our own artillery and that of the enemy had been active east of Ypres. Elsewhere on our front conditions are normal."

BODY OF TURKISH TROOPS ANNIHILATED

Petrograd, Sept. 10.—The war office yesterday made public the following official communication concerning the operations in the Caucasus:

"In the coastal region a large column of Turkish scouts attempted to cross the Archava river. They were repulsed in the direction of Ohi.

"Our scouts near the village of Khosht annihilated a Turkish guard corps. In the region of Glasgurd and Van, encounters have taken place between our scouts and Kurds. On the southern shore of Lake Van our cavalry scouts had an engagement with a large force of Turkish cavalry and infantry."

TEN SHIPS

London, Sept. 10.—An official statement issued last night said: "The ships lost during the week ended September 8 number ten, of a gross tonnage of 37,826; fishing vessels four, with a tonnage of 194."

H. B. "Imperial Lager Beer, pints, \$1.00 per dozen.

OVER 18,000 JOINED DURING THREE WEEKS

Recruiting Campaign in State of Victoria, Australia, Was Great Success

Melbourne, Sept. 10.—There are, after a year of war, 90,000 Australians under arms, either in the firing line at the Dardanelles or in training camps, but instead of there being any let up in the call for men, the demand for them grows more and more insistent.

Although the ministry of defense denies that it looks to conscription, a census of unmarried men has just been taken by the police of the various states to determine the fighting strength. The result of this has not been made public. The campaign to enlist volunteers, however, takes on new vigor each day. There are speeches by civil and military authorities; there are newspaper appeals; there are huge advertising posters; there are parades, and there is even the display of wounded soldiers—all to the same end.

In this state (Victoria) a recruiting campaign covering the last few weeks of July resulted in more than 18,000 enlistments, a number which, it is pointed out, equals the strength of the entire Australian force which was sent to Egypt last November. In virtually all things, a rival of Victoria—in some ways jealously so—figures to a certain extent in a recruiting campaign which is in progress there now.

Business houses all over Australia are making it easier for young men in their employ to enlist by either keeping up their pay or promising them their old places if they return; and to induce men—even with dependents—to join the colors, the press, by request of the military authorities, is printing almost daily the liberal rates of pay for Australians on active service and the pensions which will be paid the disabled and the relatives of such officers and privates as may be killed.

But the chief appeal is to patriotism, and never have the Union Jack, the empire and the southern cross of the young Australian federation, called for such a wave of loyal enthusiasm. The government will have comparatively little trouble in clothing the greatly augmented number of volunteers. It is not improbable that it will have the assistance of the imperial government in arming them.

Meanwhile wounded men are beginning to be brought back all the way from the Gallipoli peninsula. By November it is likely that with cold weather in the Red Sea many more will be returned home. Elaborate preparations have been made for the care and treatment of these soldiers. In order to raise funds for this, "Australia Day" was held, and every conceivable method of obtaining and soliciting contributions was employed on that date from one end of the Commonwealth to the other. Melbourne and Sydney received nothing so much as huge country fairs. The result of the patriotic charity was a sum which, at this writing, with the return not yet in from many sections, amounts to nearly \$4,000,000.

DUMBA'S LIEUTENANT ISSUES STATEMENT

Finds It Hard to Believe Ambassador Had the Idea

Lenox, Mass., Sept. 10.—Baron Erich Zwiedinek, counselor of the Austro-Hungarian embassy, who will become charge d'affaires after the recall of Ambassador Dumba, issued the following signed statement early to-day, supplementing an informal expression of opinion last night:

"I know Dr. Dumba personally very well, and from my conversations with him I could not think that he should have intended fomenting strikes in munition plants. Certainly we naturally have felt a satisfaction when reading in the papers of difficulties and strikes in factories making munitions for the allies, but to foment such things ourselves would have been such an absolutely impossible undertaking that it would be for me quite inconceivable that Dr. Dumba suddenly should have had such an idea.

"One has only to think of the enormous number of laborers employed in these factories, which runs into the hundreds of thousands, to realize how many millions of dollars would be necessary to produce any practical effect. Dr. Dumba, so far as I have understood, asked for only a few thousand dollars, so it seems to me evident that he had only a humanitarian idea in mind, as he also mentioned to me when returning from New York.

"The imperial and royal government had pointed out the legal penalties which would be incurred by Austro-Hungarian subjects who returned home from the United States after the war, if they had worked in factories making munitions for the allies. These penalties not only would have been those prescribed by law for helping enemies of the monarchy, but much more those of public opinion, as in the case of a man who had made munitions for the allies who should go back to his home village perhaps to inherit the property of men who had been killed by those munitions.

"Naturally these considerations, if brought to their attention, might have caused a certain number of Austro-Hungarians to leave their employment in American munition factories, and I had been of the opinion that Dr. Dumba's plans were designed only to give aid to needy workmen who had given up their work, and had not found other employment as yet. The small sum of money suggested in this connection, I believe, was only \$15,000, and would have been absolutely insufficient to finance a strike."

URGENT STATEMENT

New York, Sept. 10.—Count von Hohenlohe, attaché of the Austro-Hungarian embassy, stated here today that Ambassador Dumba had been forewarned that he would be recalled from service in Washington, and that he would not be surprised by the arrival of an official order to return to Vienna.

Ambassador Dumba and Count von Bernstorff, the German ambassador, conferred for hours yesterday. They were out in an automobile together until early to-day. It was intimated by Count von Hohenlohe that von Bernstorff will direct Austrian affairs in the United States after Dumba is recalled.

Dumba came to Washington more than two years ago. His experience as a diplomat embraces 24 years of service in many parts of the world. His address upon presenting his credentials to President Wilson on April 24, 1913, was generally recalled to-day.

"I congratulate myself on being sent to Washington on the eve of the discussion of momentous issues raised by your memorable address of inauguration," he said. "The necessity of more humanity, of a higher valuation of the individual life of the poor and humble, of more human solidarity in the desperate struggle for life, are demands which, emphasized by your eloquent address, will remain henceforth within the scope of practical American politics. The triumph of these principles can only improve the lot of many thousands of my compatriots, who, mostly representing the element of unskilled laborers, immigrate to this country in ever-increasing numbers."

Dr. Dumba left for his summer home at Lenox, Mass., early to-day.

WILSON FOLLOWED ONLY COURSE OPEN

(Continued from page 1)

New York Tribune: President Wilson has taken the only course compatible with dignity and honor of the United States. To have hesitated to dismiss him, to have waited one minute beyond the time necessary for a proper investigation, to have seemed to have counted the cost, would have lowered the prestige of this country and invited further affronts to its honor.

New York Press: It is a relief to see that President Wilson at last has got up pluck enough to intimate to Austria, through our ambassador at Vienna, that its ambassador to this country no longer is acceptable to us—this way of getting rid of Dumba is thoroughly a Wilson way—a way that robs the act of all emphasis and all the force of red-blooded indignation.

Has Been Played With. Philadelphia Inquirer: This is the first genuine ray of light that has come from Washington since the war began. The United States has been played with. But at last President Wilson has come to the conclusion that if this country is to be respected something more than mere words is necessary. And so Dr. Dumba is to go.

Philadelphia Public Ledger: President Wilson did the only thing possible to do under the circumstances. He could not have done less and maintained even a shadow of self-respect. He could not have done less and retained the respect and confidence of the American people.

Philadelphia Record: The verdict of the country upon this outcome of the revelation of Dumba's plotting against the industrial peace of the United States will be: "Well done, Woodrow Wilson." Who wants to be next?

Houston Journal: Secretary Lansing's request for the recall of Ambassador Dumba is the only course this country should pursue after the revelations of the Austrian envoy's malicious meddling with American affairs. It satisfies both the honor and neutrality of the United States.

Chicago Herald: The government of the United States has notified the government of Austria that it no longer can tolerate the presence in this country of Dr. Dumba, ambassador from Vienna, and has asked that he be removed from Washington. President Wilson has taken the proper and only possible action in the case. Dr. Dumba had plotted to destroy our industrial peace. He violated the ethics of hospitality, sought secretly to embarrass the government to which he is accredited, flagrantly set at naught the code of diplomatic propriety and conspired to cripple our industries and destroy our legitimate trade. For these reasons Dr. Dumba must go. If Austria, in view of all these facts, will not recall him, he must be expelled.

St. Louis Globe-Democrat: While it is hoped that Austria-Hungary will respond graciously to the request for the recall of Dr. Dumba and disavow his activities, the country will support the president in his request, necessary to protect the dignity of the nation whatever the consequences. It is difficult to see how Austria-Hungary can, in good faith, defend its ambassador's course.

Ended His Usefulness. Cleveland Leader: Dumba must go. The president has acted wholly within the limits of right and propriety in requesting the recall of Dr. Dumba. That gentleman has made impossible such relations between himself and the government of Washington as are implied in the diplomatic intercourse of friendly states. He has absolutely ended his usefulness in his present position.

Kansas City Journal: The American people are amazed to learn that so far from any "explanations" being offered, Ambassador Dumba vigorously defends his actions so far as they concern him personally, and declares that he acted in obedience to explicit instructions from his government. If this does not end the official usefulness of Dr. Dumba in this country, what conceivable breach of the proprieties, if not violation of the laws of nations, would be calculated to do so?

Illinois State Register, Springfield: This morning's developments say that Dumba's recall has been asked by the American government. This is the proper course to pursue.

ZEPPELIN FELL AND WAS DESTROYED BY EXPLOSION

London, Sept. 10.—An Amsterdam dispatch to the Exchange Telegraph company says:

"A Zeppelin which left Brussels in the direction of Antwerp Tuesday evening and returned Wednesday morning lost a propeller over Stockem. Near Brussels it fell and was entirely destroyed by an explosion. The members of the crew were killed."

TWO FRENCH AIRMEN KILLED WHEN LANDING

Geneva, Sept. 10.—Two French aviators were killed at Deylingen, Alsace, when their machine struck the barbed wire entanglements as they were making a landing, causing the explosion of bombs aboard the aeroplane. They had been forced to descend because of motor trouble. The aviators were buried by the Germans with military honors.

Phoenix Beer, \$1.50 per doz. quart.

DUMBA'S CAREER AT WASHINGTON ENDED

United States Government Requests That Austrian Ambassador Be Recalled

Washington, Sept. 10.—Ambassador Penfield at Vienna has been instructed by cable to inform the Austro-Hungarian government that Dr. Dumba no longer is acceptable as an envoy to the United States, and to ask for his recall.

Secretary Lansing formally announced this action last night. It is the answer of the American government to Dr. Dumba's explanation of his intercepted letter to Vienna outlining plans for handicapping plants in this country making war supplies for the allies.

Ambassador Penfield was instructed to deliver the following note to the Austro-Hungarian foreign office:

"Dr. Constantin Dumba, the Austro-Hungarian ambassador at Washington, has admitted that he proposed to his government plans to instigate strikes in American manufacturing plants engaged in the production of munitions of war. The information reached this government through a copy of a letter of the ambassador to his government. The bearer was an American citizen named Archibald who was traveling under an American passport. The ambassador has admitted that he employed Archibald to bear official dispatches from him to his government."

"By reason of the admitted purpose and intent of Dr. Dumba to conspire to cripple legitimate industries of the people of the United States and to interrupt their legitimate trade, and by reason of the flagrant violation of diplomatic propriety in employing an American citizen, protected by an American passport, as a secret bearer of official dispatches through the lines of an enemy of Austria-Hungary, the president directs me to inform your excellency that Dr. Dumba no longer is acceptable to the government of the United States as the ambassador of his imperial majesty at Washington."

"Believing that the imperial and royal government will realize that the government of the United States has no alternative but to request the recall of Dr. Dumba on account of his improper conduct, the government of the United States expresses its deep regret that this course has become necessary, and assures the imperial and royal government that it sincerely desires to continue the cordial and friendly relations which exist between the United States and Austria-Hungary."

In making his announcement, Secretary Lansing explained that it had been delayed in order that the note might reach Vienna before its publication in this country. News that the recall of Dr. Dumba had been requested created quite a sensation in the capital. It had been known in official and diplomatic circles that President Wilson and Secretary Lansing regarded the conduct of the ambassador as a grave breach of propriety, but there had been a well-defined impression that the only immediate step would be the cancellation, announced yesterday, of the passport of Archibald, the American who carried the intercepted dispatches.

CASUALTIES AMONG CANADIAN SOLDIERS

Ottawa, Sept. 10.—The following casualties have been announced:

First Battalion—Died of wounds: Lieut. A. N. Churchill, England.

Eighth Battalion—Killed; previously reported missing: Pte. F. C. Tunbridge, England.

Tenth Battalion—Wounded: Lieut. W. G. Currie, Winnipeg.

Fourteenth Battalion—Previously reported missing; now safe: Pte. T. Valandry, Montreal.

Fifteenth Battalion—Previously reported killed, according to German list; now officially reported killed: Pte. Fred Lewis, Raydon, N. S.

Sixteenth Battalion—Wounded: Pte. Arthur Ferguson, Moose Jaw, Sask.

First Field Co., Canadian Engineers—Wounded: Sapper H. S. Bowser, England.

Canadian Divisional Ammunition Column—Slightly wounded: Pte. K. Koyloff, Bulgaria.

OPINION EXPRESSED BY GENERAL CORSI

Rome, Sept. 10.—"Grand Duke Nicholas lacked sufficient energy to profit from his triumphs when the Russian armies were victorious," writes General Corsi in the Tribuna. "He also lacked the influence to impress upon the emperor the fact that the bureaucracy was responsible for the insufficiency of military preparations. During the retreat, however, Grand Duke Nicholas showed a clear mind, capable of formulating precise views and reaching prompt decisions."

WAS ACCIDENTAL

Vancouver, Sept. 10.—That Wilfrid Boucher came to his death as the result of a wound caused by a bullet from a .35 calibre Winchester rifle discharged by C. G. Shawcross, was the verdict of the jury at the inquest held before Coroner Jeffs at Greene & Merkle's undertaking parlors, 531 Homer street. The jury found that the shooting was accidental, exonerating Shawcross. A rider was added to the effect that legislation to minimize the danger from reckless shooting in the woods should be enacted.

MINISTER DEAD

Havre, Sept. 10.—The death is announced of Louis Hymmana, the Belgian minister of state and member of the Belgian chamber of deputies for Brussels.

FRENCH ARE USING BATTLE-AEROPLANES

Scouts Should Be Able to Take Offensive, Says Leading Aviator

Paris, Sept. 10.—In a letter which the Temps has received from the front the writer remarks that, in response to the public demand, the French scout and pursuit squadrons have been increased within the last few weeks, and there is a great deal of activity in aerial warfare.

One of the foremost French aviators, speaking of this sudden aerial offensive, remarked:

"We began the war with aerodrome machines. We now have battle aeroplanes. In the matter of military aviation no one should be regarded as a visionary or a bluffer. Every hope is permissible, every scheme realizable. Bombarding squadrons have been formed. New machines fitted with two motors have been armed with excellent mitralluses, and already are at the front. There is no harm in my saying this, for the fact is well known to the Germans, who already have been in contact with them, much against their will. They themselves have excellent and very fast aviatiks. Ours are still faster. It is merely a question now of multiplying them."

"Losses are inevitable, and we must make them good as they occur. We also must have for each type of aeroplane a perfect mitralluse. Our airmen are unanimous in demanding their generalization."

"In my opinion we must increase the number of scouts, with armament and speed sufficient to enable them to take the offensive if necessary. When attacked in the course of a reconnaissance they must not have to depend on their neighbor's machine-gun. Each aeroplane must have its own."

"The most important question of all—there is plenty of raw material. What we want is sportsmen. There are plenty of motorists, and they make excellent pilots. They should be taken from the front. We want men accustomed to facing risks, who can remain cool when a shell bursts, and whose presence of mind never deserts them, no matter what the danger may be. Above all, we must choose young men, whose physical powers and force of resistance are equal to anything and everything. In this respect we have no superiors. The German pilots never will equal ours."

ITALIAN FORCES STILL ARE MOVING FORWARD

Rome, Sept. 10.—The following official statement was issued last night:

"In the Tyrol and Trentino the enemy has limited his activity to artillery attacks, to which our artillery effectively replied. We pushed our advance as far as the enemy's works on the upper Cordevole and found that remarkable damage had been caused by our fire on the Lepont forts."

"In the Piave basin, our artillery forced an enemy column marching toward Piave, through Predil Pass, to halt and turn back. Another column going by way of Kaschutte, to the northwest of Predil pass, was scattered by our shells."

"The enemy threw shells into the Monfalcone shipyards, causing another outbreak of fire. Afterwards he bombarded in an endeavor to prevent the fire being put out. This operation, however, did not succeed."

"Our aeroplanes yesterday morning bombarded the Klaus railroad station, east of Santa Lucia, hitting it several times, and also damaging the adjacent bridge on the Baex river."

Friday and Saturday Offerings at CAMPBELLS'

Women's Fall Suits \$25.00

For this week-end we are featuring a very special lot of Women's and Misses' Fall Suits that are man-tailored throughout, and splendid value at \$25.00

Children's new Fall Dresses of serge, corduroy, and many vivid designs, trimmed with contrasting materials, have arrived.

Two Survivors Say Excuse is Falsehood

Captain of Arabic Made No Attempt to Ram Submarine

San Francisco, Sept. 10.—Two men, both survivors of the White Star liner Arabic, are in San Francisco today. One is Aubrey Gaultier, of the Faraffine Paint company of this city; Charles F. Kresser, of Oakland, is the other man.

Each denies the allegation of the German submarine commander, reported in Germany's note to the United States, that the Arabic was trying to ram the submarine.

"The German excuse is the merest 'piffle,'" said Gaultier. "We did not even see the submarine, so how could we ram it? We were not anywhere near it. The first thing I or anyone else saw was the white streak of the torpedo coming for us like a wild beast released from its leash. This was after we had seen the Dunsley, which had been attacked previously."

"I had just remarked to another passenger that the submarine was still there and that we were doomed. When we saw the torpedo coming, I shouted 'A torpedo. Get on the other side of the ship and into the boats.'"

"Then the torpedo struck us near the stern and there was a loud explosion, which made the Arabic jump and tremble."

"Some of the boats capsized, and we in the other boats commenced saving lives. We had got a bare dozen feet from the vessel when she slowly settled. We went down into the vortex, which was a boiling cauldron of boats, people and wreckage. The Arabic must have had a cargo of carbide, for a foaming mass boiled furiously around us. It took us about 40 minutes to get clear of the wreckage and save what life we could."

Kresser, the other survivor, said: "The captain of the Arabic certainly was not trying to ram the submarine, because we were going almost directly away from it at a speed of at least 13 knots and zigzagging, as we wanted to avoid the torpedo, that we thought would be fired. I had just had breakfast and was walking on the deck at 9.30 o'clock. Not far away we could see the steamship Dunsley, which apparently had been shelled by a submarine and was in a sinking condition. We had not thought of being attacked ourselves as we were leaving England, instead of approaching it."

"However, it appeared that the undersea boat was lurking behind the Dunsley. None of us saw it, but presently I observed a white streak coming through the water toward us at a great rate of speed. Immediately after there was an explosion that seemed to tear the ship to pieces, and instantly the Arabic began to sink, stern first."

EVANS PRESIDENT.

EXIT MR. DUMBA.

Washington's demand for the recall of the Austrian ambassador is the climax of an almost unbelievable situation. This diplomat, aided and not doubt inspired by Von Bernstorff, actually endeavored to control in the interests of the Teutonic governments the operations of legitimate American industries by fomenting strikes and unquestionably directing even more sinister measures.

But when we reflect upon Germany's object in precipitating the struggle and the horrible crimes which have made her an object of loathing, it becomes apparent that the conspiracies of Von Bernstorff and Dumba in the United States are merely essential pieces of the Germanic organization.

A year or more ago the German Reichstag passed a law which provided that Germans naturalized in other countries remained subjects of the Kaiser in the eyes of the German government. This prepared the ground for the recent Berlin proclamation forbidding Germans in the United States to work in munition factories under contract to the allies on pain of severe penalty when they fell into her hands.

A REASONABLE REQUEST.

The Board of Trade will have no difficulty in justifying to the government the resolutions adopted yesterday relative to tax sales if justification is requested, which is scarcely probable. This is particularly the case in regard to the resolution urging the passing of legislation extending the period of redemption for land held by soldiers now on active service.

Extraordinary economic conditions likewise may be considered justification for the resolution passed yesterday in favor of extending the period of redemption for property other than that held by soldiers on active service to two years from the date of the sale.

PIRATES AND MURDERERS.

Germany, accepting the word of a submarine commander—which surely is worthy of much credence—says the Arabic was sunk because she attacked a Teutonic craft while engaged in its piratical duty. This story is told to the United States, and is accompanied by a statement that under the circumstances the matter may be considered disposed of and that reparation cannot be made for the lives of Americans who may have been aboard the destroyed ship.

"NEAR A GREAT SUCCESS."

Lord Robert Cecil in a speech last night expressed the firm conviction that the Dardanelles expedition was "near a great success which would have an enormous effect in all parts of the world."

Lord Robert Cecil's remarks confirm the unofficial reports from Athens and other Mediterranean sources during the last few days. A message received in Paris from the Greek capital stated that the Turkish forces on Gallipoli were in sore straits and had sent an urgent message to the Kaiser for assistance.

through the destruction of bridges by the crews of underwater craft, it is easy to believe that the Turks are in a bad way.

The only way in which Germany and Austria can help their distressed ally is by a successful march through Roumania, and to attempt this it will be necessary for them to abandon their effort to penetrate further into Russia and entrench themselves under such conditions that they will be able to withdraw considerable forces for service on the southern front.

Whatever German decides to attempt must be attempted quickly, for undoubtedly the allies are preparing for a great effort at the Dardanelles. Once they advance far enough to bring Kilit Bahr and the Narrows under the direct fire of their artillery the main difficulty will have been overcome.

BERNHARDI GETS A JOB.

The appointment of General von Bernhardt to a command on active service was a rather tardy recognition of the services rendered by that doughty warrior, litterateur and prophet in the cause of Deutschland Ueber Alles. Having held the lantern in front of the Potsdam war promoters in order that they might tread safely the road to world dominion the general must have felt sorely aggrieved when he was passed over for plebeians like Von Kluck or retired, marsh strategists like Von Hindenburg.

But France was not crushed and after the battle of the Marne Bernhardt grew unpopular at headquarters. Moreover, his chief book, having gained world-wide circulation, became a skeleton in the Hohenzollern closet. Its contents could not be explained away; the prophecies they contained had received sufficient fulfillment to convince the world that the war was made in Germany.

Bold Dr. Dumba has been told that he need not stand upon the order of his going from the United States. His propaganda is at an end. His illustrious colleague, the Turkish ambassador, was fired some time ago. Herr von Bernstorff still remains, and we shall see the effect of two warnings upon his cultural activities.

The London Express, commenting upon former Zeppelin raids, says: "A little English child is of more value to us than the whole black brood of the Hohenzollerns, and our rulers should find courage to state definitely that Great Britain will not rest until the Teutonic Herod is tried and punished for the killing of English babies."

A correspondent of the New York Herald, evidently impressed by recent incidents, says: "It seems to me that

KIRK & CO. LIMITED 1212 Broad St. Phone 139

when this war is over the only colony left to Germany will be the United States of America.

BELIEVE GOVT. OF STATES MUST ACT

von Papen, of the German embassy at Washington, admittedly is involved with Ambassador Dumba. This it is believed here, involves Count Bernstorff, as it is inconceivable that his subordinate deliberately would take part in a scheme to cripple munitions factories in the United States without his superior's approval.

Military observers were pleased to learn from the French communiqué that the attempt of the German crown prince in the Argonne has been stopped. Reports that the heavy fighting in the Argonne has settled back to ordinary trench fighting with bombs and hand grenades, reinforced the belief that the allies' defences are impregnable and that the crown prince has fallen once more.

Little news of note from the Dardanelles has been made public. Military observers, however, believe that there the next great feature of the war will develop, and they predict an offensive against the Turks which will open the Dardanelles and cause the fall of Constantinople.

DR. DUMBA MAY BE FOLLOWED BY OTHERS

Captain von Papen's letter, which was a private communication to his wife, is now on its way to the state department from London. Officials said the fact that it was a private and not an official communication did not alter the case any. It is understood that the writer made slighting references to American officials.

Another document which officials are awaiting is an enclosure in Dr. Dumba's letter, which referred to negotiations between Consul-General von Nuber and the editor of a foreign language newspaper concerning bringing about strikes in the Bethlehem works and other munition factories.

Archibald carried a communication from Count Bernstorff, but it was a copy of a statement which had been forwarded to the German ambassador by Secretary Lansing. In the note to the Vienna foreign office asking the recall of Dr. Dumba, Secretary Lansing referred to the purpose of the ambassador to conspire to cripple legitimate industries in the United States.

One official who has been studying the details of the situation said to-day that while the German ambassador, in sending a communication to a person carrying an American passport, technically may have contributed to an abuse of that document, in the view of the state department the nature of the

DAVID SPENCER, LTD.

Another Shipment of Women's Coats Here to Sell at \$8.75

And a fine quality Coat for the money it is, too. Well-tailored from a warm, cosy material, in the seven-eighth length, with style showing side belts, high-neck closing, and button trimmed. DAVID SPENCER, LTD.

communication he sent was so far removed from the others and of such a legitimate character that his act probably would not be regarded as offensive.

Captain von Papen's letter, however, is said to be decidedly offensive, as is the nature of Consul-General von Nuber's connection with the affairs as disclosed by the papers which the British secret service men took from Archibald at Falmouth.

COMMISSIONERS ARE IN NEW YORK NOW

Members of the commission declined to confirm or deny the report brought to New York two days ago by passengers on the steamship Ryndam that the commission would act for Russia as well as Great Britain and France. It was understood, however, that the report was well founded.

It became known that Canada, probably for the first time in the history of the Dominion, is to be consulted in negotiations for the contemplated flotation of a foreign credit loan in the United States. Hon. W. T. White, Canadian minister of finance, according to an Ottawa dispatch, is on his way to join the commission here.

the commission called without placing their names on the Laplander's passenger list. They boarded the vessel only a few minutes before she left Liverpool on September 1. The ship's light were kept darkened until last night, when she was almost within sight of Sandy Hook.

NOTE FROM BERLIN FAILS TO SATISFY

Washington, Sept. 10.—President Wilson devoted several hours to-day to study of Germany's note on the sinking of the Arabic. No official comment was made, but it was indicated plainly that the German explanation is disappointing.

Count von Bernstorff, the German ambassador, had assured Secretary Lansing that full satisfaction would be given if it was determined that a German submarine had sunk the Arabic. Germany's statement that she will not acknowledge any obligation to grant indemnity is not considered full satisfaction by officials of this government.

It is understood that the United States government would be willing to submit to The Hague the question of how much indemnity should be paid, but it is improbable that it will consent to arbitrate the principles involved.

An answer to Germany is expected to go forward promptly.

STOP FOR GETTING

Such things as appointments will slip the mind. So many things pressing for attention—something must be forgotten now and then—but they might be important, very important. The Macey Auto Memory Calendar will do away with this.

Try it. It rests on your desk and is not much larger than an inkwell. Macey OFFICE EQUIPMENT CO. LIMITED P. C. ABELL, MANAGER 726 Fort St. Telephone 730

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, September 10, 1890.

Ex-Alderman Styles and daughter returned to Victoria last evening after a lengthy visit to England. Mr. Styles looks much better for his trip, and says he greatly enjoyed himself.

The flagship-Warrapite will leave Esquimalt about October 31, calling at several ports en route to Coquimbó where it is supposed Christmas will be spent, and the vessel will return in March.

A gentleman from Maple Bay was in town to-day with regard to the shipment of 40 boxes of plums. The fruit was shipped to a wholesale firm, but no sale could be found for the fruit, which went bad. The fruit grower says he would have been more pleased to have given the fruit away than to allow it to rot.

Capt. W. R. Clarke sold at noon to-day the Lee property, James Bay, comprising two lots 60x120 feet on Dallas road, and two waterfront lots opposite.

The wedding takes place this evening in Christ Church Cathedral of Mr. Charles F. Gardner and Miss Amy Pauline, daughter of Mr. and Mrs. Fred Pauline, senior. Rev. Henry Kingham is to perform the ceremony.

SUBSTITUTION

Substitution is the mortal enemy of the "square deal."

In the long run it profits no one. When you ask for a brand by name don't take something "just as good."

Go to the dealer who plays fair. The dealer who trades unfairly on a manufacturer's reputation is not the kind of dealer you want to give your confidence to or your money.

Orangemen Note.—Please see notice for funeral of Bro. R. Allison, of Prince Rupert lodge in to-morrow's Colonist and attend in accordance. Leonard Tait, W. C. M.; O. J. B. Lane, court secretary; Victoria County C., 100.

Seabrook Young's Millinery Opening Saturday, Sept. 11, 623-5 Johnson street, Victoria, between Government and Broad. Phone 4740.

Bank Clearings.—The bank clearings in Victoria for the week ending Sept. 9 aggregated \$1,052,993.

Sons of Scotland.—Ailua Craig camp, No. 71, Sons of Scotland, will hold its regular meeting in the A. O. F. hall, Broad street, to-night.

General Meeting.—Gonzales Chapter, I. O. O. F., will hold its general meeting on Monday at 11 o'clock at the Temple building.

Issues Writ for Salary.—W. C. Ricardo, Victoria, has issued a writ against the Eden Land company, East Kootenay, claiming \$500 for one year's salary as managing director.

Rowland's Band Concert.—The first of the series of concerts to be given by Rowland's band at Fantages theatre will be held next Sunday evening, commencing at 8.45. Ten per cent of the proceeds will be given to the patriotic fund. Mrs. Fahy, Mr. Petch and Mr. Charles have promised to assist.

St. Barnabas Parish Garden Party.—At the residence of Mr. and Mrs. E. E. Woodton, 1212 Richardson street, a garden party and tennis tournament will be held to-morrow afternoon and evening in aid of the funds of St. Barnabas church. The proceedings will be opened at 3 p. m. A musical programme will be provided, and sweets, afternoon teas and lemonade will be for sale. A small admission will be made. The names of those playing tennis should be sent to Mrs. E. E. Woodton if possible by this evening. The rector and church wardens extend a hearty invitation to all friends of the parish.

Trust Companies and Powers.—The Colonial Trust company and Montreal Trust company have been registered under the Provincial Trust Companies act. The following companies have abandoned the trust company powers hitherto held by them: Ashwota Power Company, Limited; British Columbia Financial & Investment Company, Limited; British Development Company, Limited; Cloverdale Improvement Company, Limited; Dominion Stock and Bond Corporation, Limited; Engstrom Realty Company, Limited; General Investment Corporation, Limited; Griffith & Lee, Limited; Investors' Guarantee Corporation, Limited; Majestic Builders & Realty Company, Limited; Merchants Investment Company, Limited; National Home-Builders, Limited; The Pacific Mainland Mortgage and Investment Company, Limited; Provincial Land and Financial Corporation, Limited; Standard Securities, Limited; Turner Beeton & Company, Limited; Victoria Finance and Loan Company, Limited; Williams & Murdoch, Limited.

Boy Refused to Work.—He refused to chop the wood unless he had a bicycle light axe, one that he could use to advantage, one that was sharp and would stay sharp. We sell the kind for 85c. R. A. Brown & Co., 1392 Douglas street.

"The Dandies" at Gorge park.—Chinese Musical comedy, "Broken China," on Friday, 27th August. Amateurs every Thursday.

Making Water Application.—The Atlas Power Co., Ltd., Ashcroft, is making an application to the water branch of the department of lands for a license to take and use 1,250 cubic feet of water per second for power purposes out of Swamp river, at the north end of Cariboo lake.

RED CROSS CONCERT

Many Artists Will Assist in Making Oak Bay Affair a Success.

The Oak Bay branch of the Red Cross society is arranging for a concert at the Avenue Theatre, Oak Bay, on Tuesday next, September 14, under the patronage of His Honor the Lieutenant-Governor and Mrs. Barnard.

Admission will be by ticket only, and the accommodation of the theatre is limited, application for tickets, price fifty cents, should be made immediately to the Red Cross rooms, Oak Bay avenue.

Mrs. Harry Pooley has kindly taken charge of the musical programme and has been promised the assistance of Mrs. Bridgewater, Mrs. Harry Briggs, Miss Eva Hart, Mrs. Roy Troup, Miss Margaret Tilly, Capt. Craddock, R. B. MacKenzie, Frank Olivier and others, and Mrs. Gibson has kindly offered to play the accompaniments.

Mr. Watson, proprietor of the Avenue theatre, has given the use of his theatre free for this entertainment, and during the evening some of the best moving pictures obtainable will be shown.

Belgium Relief Fund.—Donations for the Belgium Relief fund may be left at, or sent to, the Times office, or to Miss G. L. King, P. O. box 1407.

Vagrant Gets a Month.—Lee Choy was charged with vagrancy in the police court this morning and Acting-Magistrate Northcott sentenced him to one month's imprisonment.

Charge With Theft.—Ling and Ma Hing appeared in the police court this morning charged with having stolen goods in their possession. They were remanded until to-morrow morning without pleading.

No. 5 Troop, Boy Scouts.—All classes of No. 5 Troop, Boy Scouts, viz.: Seniors, Collegiate and Tillicum, must be on parade at St. John's school-room at 6.35 sharp this evening in uniform.

Thorns in the Flesh.—At the First Baptist church, Dominion theatre, at 7.30 on Sunday night, Rev. J. K. Wainicker will take as his topic, "People Who Have Thorns in Their Flesh." There will be special music.

Harvest Home Services.—In Wesley church, Victoria West, special thanksgiving services will be held next Sunday. Mr. Muir, the choir leader, has prepared special music. An harvest home social will be held on Tuesday evening, when music and refreshments will be enjoyed by all the congregation.

Peddler Did Not Appear.—Yesterday morning a Chinaman named Lee was charged in the police court with peddling without a license and was remanded till to-day. When his case was called this morning he did not appear and a warrant for his arrest was issued.

School Districts.—The status of the Prince George and Fort George school districts has been raised, in the former case from regularly organized to city status and in the latter from assisted to regularly organized. The boundaries have been redefined, as have also those of South Fort George district.

Civil Service Examinations.—Preliminary and qualifying examinations for the outside division of the civil service of Canada will be held here and at other centres in the Dominion on November 9, 10 and 11, the preliminary on the first day and the qualifying on the second and third.

Fire Precautions.—Warning is given by the Vancouver Fire Underwriters association of the necessity, at this season of the year, to have all fires cleaned, furnace equipment inspected, chimneys swept and radiators tested before being put into use for the winter. The notice says that risk can be reduced to a minimum by caution taken now.

Boiling Tar Caused Alarm.—When a quantity of tar being used in roofing repairs on the De Cosmos block, on Johnston street, boiled over yesterday afternoon, huge clouds of smoke were thrown up and some persons, thinking that the building was on fire, sent in an alarm for the fire department. The apparatus responded. No damage was done.

Provincial Appointments.—There are gazetted to-day the following provincial appointments: Alfred M. Wastell, Albert Bay, to be a justice of the peace; John Stibwell Clute, New Westminster, to be police magistrate for the municipality of Surrey; Dr. Ernest H. S. McLean, Revelstoke, to be school medical inspector for Begbie, Big Bend, Three Valley, Crawford Creek and Cartier schools.

New Companies.—Certificates of incorporation have been granted to the following: Johnson Hotel Company, Ltd., head office at Prince George and capitalised at \$50,000; Leek & Co., Ltd., Vancouver, \$100,000; Lee's Pier Tea Rooms, Ltd., Vancouver, \$15,000; Mainland Cedar Co., Ltd., Vancouver, \$100,000; McQueen Produce Co., Ltd., Vancouver, \$10,000; Schaake Company, Ltd., New Westminster, \$20,000. The Pugh Specialty Co., Ltd., Toronto, is licensed as an extra-provincial company.

Red and Blue Cross Flower Guild.—The next meeting of the Red and Blue Cross flower guild will be held on Tuesday, September 14, at 7.30 p. m., at 1259 Richardson street (corner of Cornwall and Richardson street). All members are requested to attend, also any others who are interested in the work of the guild. Although the flowers are not as plentiful as when the scheme started, the results from day to day continue to be very praiseworthy. Up to date the splendid sum of over \$500 has been handed in to the Red and Blue Cross societies, and with the continued help of gifts of flowers and ladies willing to assist in the selling of them the guild hopes to be able to arrive at a total collection of at least \$1,000.

Voluntary Aid Home.—Dupont Residence, Stadacona Park, Taken Over for Training Headquarters of Organization.

Cots, mattresses, sheets, pillows, bedding, etc., will make most acceptable gifts to the Voluntary Aid Detachment, which was only organized about seven weeks ago, has pushed ahead its plans to the present point, and its application to the city council for the use of the above residence for practice purposes was granted at the last meeting of the municipal body on Tuesday.

The detachment was organized for the purpose of taking charge of convalescent soldiers who may be sent out later to Victoria, and the members have entered on their preparations with enthusiasm in the work of drilling and training for whatever emergency the body may be called on to meet. Dr. W. E. Home is instructor and lecturer.

Miss Wallace, of the Victorian Order of Nurses, has been appointed lady superintendent of the work. Applicants to the staff must have a third grade certificate from the St. John Ambulance association. The other officers of the detachment are: Commandant, Mrs. Charles Wilson; quartermaster, Mrs. Curtis Sampson; assistant quartermaster, Miss Paula Irving, 622 Cook street.

Thin Folks Who Would Increase Weight

SIMPLE DIRECTIONS EASY TO FOLLOW

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all that fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food didn't work and stick, and the plain truth is, you hardly got enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation are sadly out of gear and need reconstruction.

If every way you've tried to put on weight has failed, try these simple directions. Cut out everything but the meals you are eating now and eat with every one of those a single Sargol tablet. In two weeks note your weight. Sargol does not of itself make fat, but mixing with your food its purpose is to help the digestive organs break the fats, sugars and starches of what you have eaten into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form, which the blood can readily accept. A great deal of this nourishment now passes from thin people's bodies as waste. Sargol is designed to stop the waste and make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh—between your skin and bones. Sargol is non-injurious, pleasant, efficient and inexpensive. Dr. E. Campbell and other leading druggists are authorized to sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back.

COR. GOVERNMENT AND JOHNSON STS.

WANT ADS BRING RESULTS

AT THE THEATRES

PRINCESS THEATRE.

"The Deep Purple," the bill being produced this week at the Princess, is a novelty. In the part of "Frisco Kate" Miss Felton is surprising her most ardent admirers. In her big scene in the third act, with a dominating police official, she astounds the audience. The play is full of surprises and holds everyone interested to the last curtain. The entire cast is appearing to excellent advantage. To-morrow will be the last performance of this bill, there being a matinee Saturday afternoon.

DOMINION THEATRE.

The week-end show comprises a number of excellent pictures, which for variety and pleasing entertainment would be hard to beat. "The Bachelors' Romance," a four-part Famous Players subject, featuring John Emerson, is a splendid comedy drama. Mr. Emerson finely draws the character of David Holmes, the retiring woman-fearing man to whom marriage seems so far away, but who eventually is mortally wounded by cupid's arrow. The picture contains some rare humor and a charming love story. Pathe Weekly presents some fine scenes, "With the Russian Army," showing remarkable pictures of the czar's men at the war front, including Grand Duke Nicholas. The second picture of the Northern British Columbia hunting series deserves special mention for its beautiful scenery. A capital Nestor comedy entitled "Their Happy Honeymoon" rounds off a splendid bill.

MAJESTIC THEATRE.

"The Price of Tyranny," a four-part reel is the week-end attraction at the Majestic. It tells of a father and son, both hot-tempered, the latter sent to work in a India where he falls in love with a Hindu maid and is disinherited. The father learns that Edward and his wife had lived an ideal life the first four years of their marriage and had been blessed with a girl baby. Business reverses, however, had forced Edward to leave India, and he was last seen and heard of as an itinerant photographer in Greece. In reality Edward's troubles have come so heavily on him that he is finally overwhelmed and dies. His wife dies in Italy and years after the daughter finds herself working in her grandfather's office, each unaware of the relationship. When knowledge comes she gives him the note sent by his son, in which he is forgiven his past cruelties and entrusted with the care of his daughter-in-law and her child. The father is deeply affected by the disclosure, but is made doubly miserable at the news that the mother is also dead. He pays an awful price for his "rod of iron," but sees a chance for a sinner's repentance in the care of his new-found granddaughter.

Phoenix Stout, \$1.50 per doz. quarts.

CANNOT OFFER RELIEF

Inspector of Municipalities is Unable to Promise Assistance to Garden City Owners.

The remarkable position which faces the owners of property on Bluffwood and Blackwood roads, Garden city, on account of the excessive assessments under the two local improvement by-laws, was laid before the inspector of municipalities yesterday.

Mr. Baird indicated, after hearing the views of the delegation, that there was no possible relief except through remedial legislation, and that would present a difficulty because it would affect many other local improvements. The delegation will come to the Saanich council again formally to report the result of the meeting, but it is doubtful if they will convince the council that legislation should be promoted at the next session, owing to the problem which would arise of giving special preference to individuals, thereby breaking down the machinery of the local improvement act.

Probably the council will be willing to defer the payments under the by-law for some time, as most of the owners now interested in the property, which was a sub-division floated in the boom period, are poor men who cannot meet the charges involved.

SOCIAL AND PERSONAL

All personal items sent by mail for publication must be signed with the name and address of the sender.

Theodore Burkill, Westholme, is at the Dominion.

L. Manson, Nanaimo, is registered at the Dominion.

R. Black, Fernie, registered at the King Edward.

Smith left for Tahoe next day from Oakland.

A quiet and pretty wedding was solemnized at St. Paul's church, Esquimalt, on Tuesday evening at 8 o'clock, when Rev. W. Baugh-Allen, united in marriage Samuel Alfred, eldest son of Mr. and Mrs. S. J. Pomeroy, Admiral's road, and Gertrude Agnes, elder daughter of Mr. and Mrs. D. L. Beaton, Nelson street. The bride, who was given away by her father, looked charming in her traveling suit of sand-colored covert cloth, with pink crepe de chine waist and black velvet hat with pink plumes. She carried a shower bouquet of bride roses and carnations. She was attended by her sister, Miss Ella Beaton, as bridesmaid, who looked well in Belgian blue with black hat and white feathers. Mr. Fred Pomeroy acted as best man. After the ceremony the relatives and intimate friends met at the home of the bride's parents, where refreshments were served, and later Mr. and Mrs. Pomeroy left on the midnight boat for the mainland and Sound cities, where the honeymoon will be spent. Upon their return they will reside at their new home on Admiral's road.

CATHCART'S CASH CRUSADE

Every Shoe in Victoria's Best Shop to go on sale at Prices without Profit. Thousands of pairs of HIGH-GRADE SHOES to be sold at only a fraction of their original cost.

CATHCART HAS TOO MANY SHOES, FAR TOO MANY, AND THEY ARE TO BE TURNED INTO CASH AT ONCE

Everybody knows the Shoes that CATHCART sells, and everybody knows that shoes are costing more now than they ever did before, and still going higher every day. Every time a dealer buys shoes he is forced to pay more. But that's no consideration if he **ALREADY HAS MORE SHOES** than he knows what to do with. That's just the trouble with CATHCART—more shoes than he needs. He could store these shoes away in a basement and let them get old and out of style, and hold onto them for a profit as many dealers do, but that's not his way of doing business. He knows that if he did that he would have to sell them at a loss some time anyway, so prefers to take his loss **NOW**—at once—and have it over. He is not particular as to which shoes you buy—**THEY'RE ALL ON SALE**—and he is willing that you should have **YOUR** choice. He is willing to take what's left. That's why the

PRICE ON EVERY PAIR OF SHOES IN THE STORE IS REDUCED

—and when I say **REDUCED**, I mean that the people of Victoria never had the opportunity before of buying such sterling shoes as these at anything like the prices that are to prevail during this selling campaign. I have made the prices with only one object in view—**SELLING THE SHOES**.

In all my experience in merchandising I have never found in any city a cleaner or better stock of really high-grade footwear. Every shoe comes from some one of the best shoe makers in the world, recognized everywhere as the best. The Ladies' Shoes are made by **LAIRD, SCHOHER & CO., J. & T. COUSINS, HARRY GRAY** and **REED**. The Men's Shoes by **HANAN & SON, NETTLETON, FLORSHEIM**, and **HOWARD & FOSTER**. That tells enough—they couldn't be better. Now it's the **PRICES** you'll be interested in—then you are ready for action. But one other thing remains to be said, and that is that **EVERYTHING IS CASH**. **CASH** is the object of this sale, so don't ask to have goods charged. It can't be done. When you take the goods you must leave the cash.

Sale Begins Saturday Morning at 9

<p>\$1⁸⁰ LOT 1—Women's \$5.00 to \$7.00 Boots and Oxfords, in patent, suede or kid leathers, button or lace styles. Sizes somewhat broken, but every shoe in this lot is of sterling quality and splendid style. If you can be fitted, take the shoes and leave us \$1.80</p>	<p>\$2³⁰ LOT 2—The values in this lot are also from \$5.00 to \$7.00 a pair, and includes Boots, Oxfords and Slippers. Some sizes are missing, but every material and style can be found in the lot, so most sizes are here. These are all Women's Shoes. Price \$2.30</p>	<p>\$2⁸⁰ LOT 3 consists of dozens of desirable styles in Women's Boots and Low Shoes that formerly sold at \$5.50 to \$7.00 a pair. Nearly all sizes can be had in this group, though not all sizes in each style; but there are no bad styles. Price, pair \$2.80</p>	<p>\$3⁸⁰ LOT 4—Another great group of Women's Boots and Low Shoes in which all the wanted styles and materials are to be found. Nearly any size or width can be had here, so any foot can be fitted. Price, pair \$3.80</p>
<p>\$4³⁰ LOT 5—The former price range in this group for women's was from \$6 to \$7.50. But now this superb assortment of Women's high-class footwear goes for \$4.30 the pair. All sizes and widths are here now, but get yours first, then you're sure. Price \$4.30</p>	<p>\$4⁸⁰ LOT 6—We consider this lot of Women's Boots, Oxfords and Pumps as among the most desirable in the store. The real values range from \$6.00 to \$7.50 a pair. Any woman can get her size and save from \$1.20 to \$2.70 on her purchase. Price \$4.80</p>	<p>\$5⁴⁰ LOT 7—This group of Women's very choicest Boots, Pumps, Oxfords and Slippers represents the best to be had in quality and style—\$6.50 to \$8.50 a pair are the real values. All leathers, all styles, all sizes are here in plenty. Price \$5.40</p>	<p>\$1⁰⁰ LOT 8—This group consists of broken lines in Women's Oxfords and Slippers that were formerly worth \$4.00 to \$5.00 a pair. Sizes are broken and styles are not new, but the shoes are good, and worth far more than the price of \$1.00</p>
<p>\$1⁸⁰ LOT 9—One great group of Men's \$4.50 and \$5.00 Boots and Oxfords in black or tan leathers. The middle sizes are all gone, but if your feet are full man's size, or if they're smaller than the ordinary you can find a splendid shoe for \$1.80</p>	<p>\$2⁸⁰ LOT 10—Like the previous group, some sizes are missing in this lot, but there are hundreds of pairs to choose from. Boots and Oxfords. Not a pair in the lot worth less than \$5.99, and many up to \$6.50. Price \$2.80</p>	<p>\$3⁸⁰ LOT 11—This group consists of Boots and Oxfords in calf, tan or patent leathers, and includes some lines from Hanan and Florsheim. They are worth from \$6.00 to \$8.50 a pair, and most all sizes can be found in the lot. Take them for \$3.80</p>	<p>\$4³⁰ LOT 12—Men's Boots and Oxfords, ranging in value from \$6.00 to \$8.50. Several lines of Hanan, Nettleton and Florsheim are included in this group. All sizes and widths are to be had in the lot. Price, pair \$4.30</p>
<p>You can depend on it, you'll receive the same courteous treatment during this event that has always characterized this store in its every-day business.</p>	<p>\$4⁸⁰ LOT 13—Men's \$6.50 to \$8.50 Boots in the best materials and styles, either low or high cuts. All sizes are to be had. A number of styles in Hanan, Nettleton and Florsheim makes are included in this group. Price \$4.80</p>	<p>\$5⁴⁰ LOT 14—Easily the greatest values ever offered in Victoria in Men's high-class Boots and Oxfords—Hanan, Nettleton and Florsheim makes abound in this group; \$7.50 to \$8.50 a pair is the real worth of these shoes. Sizes to fit you and styles to please you. Price \$5.40</p>	<p>In this sale the price on many a new pair is less than the cost of repairs on the old Shoes</p>

IMPORTANT MATCH BOOKED TO-MORROW

Albions Must Win From Garrison to Remain in Fight for Local Cricket Title

There are only two matches taking place under the auspices of the Victoria and District Cricket League this week, namely: Fifth Regiment vs. Civil Service Athletic association, at Work Point barracks and Albion vs. Garrison at Albion ground. The civil service should have no difficulty in beating the Fifth Regiment, who have been considerably weakened in recent games. The Civics last week beat the Civil Service team in a very sporting game, and the latter are a much better team than their record would seem to show.

The game of the season is that between the Albions and the Garrison on the Albion ground. Albion absolutely must win this game unless they are to be nosed out of the championship. A win or a draw for the Garrison gives them undisputed possession of the Virtue cup. Should the Albions win this game, and beat the Civics next week, while Victoria A1 is inflicting a defeat on the Garrison, there will be a tie, and the championship will have to be played off in an extra game at a date to be fixed.

In view of the importance of the game between the Albions and the Garrison, F. C. Payne, president of the league, has appointed two strictly neutral umpires in the persons of Capt. Birch (Fifth Regiment) and W. Speake (Civil Service), so the game could not be in better hands. There will probably be a big crowd out to-morrow as most of the other teams have finished their games. Both games commence at 2 o'clock.

The following will represent the Albion C. C. vs. the Garrison C. C. on Beacon Hill ground to-morrow. Play is to commence at 2 p.m.—E. P. Ward (capt.), H. R. Orr, E. W. Lemay, H. A. Ismay, F. A. Sparks, H. B. Hudson, G. H. Walton, A. H. Ackroyd, G. M. Lifton, A. N. Gardner, H. C. Smith, Reserve, L. W. Stephenson.

Fit-Reform put the Fit in Suits and Overcoats—and Reformed the prices for highgrade hand tailored garments for men.

New Fall styles are ready \$15.00 up.

MEETING TO BE CALLED SOON

Frank Patrick, president of the F. C. H. A., together with Mrs. Patrick, is visiting his parents, Mr. and Mrs. Jos. Patrick, Michigan street, for a few days. The well-known hockey star went south on his honeymoon and took in the big fair at San Francisco. He stated that the exposition was now drawing huge crowds daily and the prospects were bright for an extension of the time limit. He did not care to discuss hockey, stating that the league will meet shortly to draw up its plans for the coming winter, when a full announcement of the composition of the league will be made.

SPORTING NEWS

PETITIONERS SEEK SCALP OF GAME WARDEN ISLAND SPORTSMEN HOT OVER CHANGES

Sale of Deer and Close Season for Willow Grouse, Chief Causes of Dissatisfaction Throughout Island Districts

As a protest against what Vancouver island sportsmen consider unsatisfactory and unworkable administration of the game act, petitions are now being circulated in Victoria and throughout the island for the removal of A. Bryan-Williams, the present provincial game warden. Thousands of names have already been signed to these petitions, and local hunters have taken up the matter to see that these petitions reach the attorney-general, who will be called upon to take action in the matter. The petition reads as follows: "The petition of the undersigned voters and firearm licensees humbly sheweth: "That in consequence of the very unsatisfactory and unworkable regulations for the season of 1915, to wit: "The sale of deer, the opening of the deer season in advance of grouse and the close season for willow grouse, we do humbly pray that the present incumbent, A. Bryan-Williams, provincial game warden, who is responsible for these unusual conditions, be replaced by a man with more intimate knowledge of the existing conditions with regard to game on Vancouver Island." "I think that the dates fixed under the Game act this year are a huge joke," is the way one of the prominent Victoria hunters expressed his opinion

of the matter to the Times. "The sale of deer should never be permitted, as it will ultimately thin out the deer to such an extent that several closed seasons will be necessary to restore these animals to their usual number. I also believe that it is a big mistake to allow venison to be placed on the market. It is folly to claim that this will alleviate living conditions throughout the province, as the government has retained the limit on the number of deer that can be shot, while the poorer class can never pay from seven to twenty cents per pound for venison in preference to cheaper meats." "An important change is the close season for willow grouse, especially in the Highland district. The birds are located there in thousands, and as it is next to impossible to distinguish a willow grouse from a blue grouse when they break from the brush, I venture to state that hundreds if not thousands of birds will be shot this fall. If the hunter does not care to risk carrying these birds with his other game, he will simply leave them on the ground and go ahead shooting all grouse and only retrieving the blue grouse." "Another big mistake was the ban on rifles and shotguns in motor cars, making it necessary for hunters to take out permits, while the local enthusiasts are still trying to find out the reason for bringing in the deer season before the birds, breaking up the seasons." "The sale of deer as a relief for the high cost of living cannot be upheld when every hunter has to purchase a license, costing \$2.50, only three deer being allowed for every license issued.

NEW RECORD SET IN WOMEN'S TITLE GOLF TOURNAMENT

Chicago, Sept. 10.—Breaking yesterday the course record for a second time within four days, Mrs. C. H. Vanderbeck, of Philadelphia, survived the third match round in the women's national championship golf tournament at Onwentsia club by defeating Mrs. Ernest L. Beifield, of Chicago, 3 and 1. As the lone eastern contender in the semi-finals to-day, Mrs. Vanderbeck will meet Miss Alexa Stirling, who eliminated another Chicagoan, Miss Marjorie Edwards, 5 and 4.

The other semi-final contest will be between Miss Ernestine Pearce, the only remaining Chicagoan, who won from Mrs. Ronald H. Barlow, of Philadelphia, 4 and 2, contrary to expectation of the experts, and Mrs. W. A. Gavin, of Great Britain, who had no trouble in downing the only New Englander in the meet, 4 and 2. Mrs. Vanderbeck made the 6,435-yard course in 55 during the qualifying round on Monday, setting a record for the difficult reconstructed links. She had comparatively easy matches Tuesday and Wednesday, but yesterday she had to play par all the way to overcome Mrs. Beifield. She set a new record of 54 women's par. Mrs. Beifield, with a 7 and an 8, made the course in 50. Mrs. Vanderbeck equalled men's par on six holes and made a three-on the 314-yard fifth. Mrs. Beifield made men's par on four holes and made Birdie two on the sixteenth. Miss Stirling, the only entrant from south of the Ohio, has played in excellent form during the entire tournament. She is not shooting as close to par as Mrs. Vanderbeck, but is very steady for her 17 years of age.

INDIANS GET TWIRLER.

Spokane, Sept. 9.—Emery Webb, a right-handed pitcher of the Piedmont Maroons, of Portland, was signed today by the Spokane club.

Guignol, of the Seattle club, is now rated the best third sacker in the Northwestern league.

TENNIS STARS TO MEET TO-MORROW IN ANNUAL CONTEST

Forest Hills, N. Y., Sept. 10.—The second half of the East vs. West tennis matches will be played on the courts of the West Side club here beginning to-day and finishing on Saturday. The first half of this special tournament held on the asphalt courts of San Francisco during the middle of July, resulted in a decisive victory for the Pacific coast stars, by a score of five matches to one.

In the doubles, Johnston and Strachan defeated Williams and Washburn, 7-5, 6-3, 6-2, and McLoughlin and Bundy won from Church and Mathey, 6-2, 7-5, 6-3. The results in the singles were as follows: McLoughlin defeated Williams, 4-6, 6-3, 6-4, 6-3; Strachan defeated Washburn, 4-4, 6-4, 6-1; Johnson defeated Church, 5-1, 4-6, 6-4, 6-4, while Mathey gained the sole victory for the East by defeating Bundy, 8-6, 3-6, 4-6, 6-4, 6-1. In to-morrow's matches the lineup will be different. McLoughlin will play Behr, while Bundy will face Pell in the singles. The doubles match will bring together Johnston and Griffin, the new champions and Williams, and Williams and Washburn, the eastern title-holders in doubles. On Saturday Williams will meet Johnston and Griffin will play Niles in the singles, while the doubles will bring together McLoughlin and Bundy against Behr and Pell.

SPORTING NEWS

(CONTINUED)

THISTLES WILL ENTER STRONG TEAM BENEFIT SOCCER MATCH IS PLANNED

Four Senior Clubs Will Compete in First Division; Entries to Close Next Week

At least four clubs will be represented in the senior football league this season, Wests, Jacksons, Thistles and Western Scottish, having entered clubs in the senior division. There is just a chance that the Navy team will enter, for at last night's meeting of the Victoria Football association it was decided to leave the entries open until next week, when the schedule for all three divisions will be drawn up. North Ward, Y. M. C. A. and Victoria West have signified their intentions of placing teams in the junior league, while it is fully expected that the Empires, Empress, Wests, Wards, Jacksons and probably the Y. M. C. A. will enter intermediate teams in the local organization.

that the receipts for the entire season also be turned over to the Red Cross. Western Scots entered on the understanding that members of the regiment should play for no other but the regimental team, but in view of the fact that the other clubs will be faced with a shortage of senior members, and that a large number of the best soccer players of the city have enlisted in the regiment, the association is of the opinion that such a stipulation would result in making the rest of the clubs too weak for good sporting competition, and, although the regiment entry was accepted, it is understood that representations will be made to the Western Scots to waive this qualification.

Secretary Jack Youson will again have a strong team wearing the green and white, though he has lost quite a few very fine soccer stars. Pilkington was killed in June, while Stan Okell, Jimmie Pettierow, Watson, Ord, Bolton and Prevost, has also enlisted. Shorty Ward was killed early in March. The next meeting will be held on Thursday night at the Y. M. C. A., when it is expected that every club in the city will have representatives present and an effort will be made to appoint schedule committees and start registering the players of the different clubs.

SPOKANE LOSES LEAD IN NORTHWESTERN SEATTLE GIANTS NOW STRONG FAVORITES BROOKLYN PASSES BOSTON IN NATIONAL

Seattle entered into the lead in the Northwestern pennant scramble yesterday afternoon, climbing into first place over the frames of the Vancouver Beavers while McGinnity's band was downing Spokane. Schmutz administered the third consecutive shutout given the visiting club since its arrival, the Giants winning 2 to 0. Seattle's feat in advancing from last place to first in a little over two months is one of the greatest stunts performed in the history of the league. July 6, the Giants were reposing in the cellar, with the standing of 350, having won twenty-seven and lost forty-eight games. At this stage of the race Spokane, which club the locals have just tumbled into second place, were sailing along in front with the fine average of .513, having snared forty-six games and dropped but twenty-nine. With fifteen full games separating them from the Giants, Farr's pets did not dream that it would be Seattle which would give them the final battle for the pennant, starting by taking a double-header on July 6, the local club forged to the front with startling rapidity, passing every club in the league one by one until to-day Seattle is on its way to the pennant with a clear field ahead.

lost to Tacoma, Seattle now leads the league in the race for the pennant.

Score	R	H	E
Seattle	2	5	0
Vancouver	0	5	4

Batteries—Schmutz and Cadman; Colwell and Check.

New York, Sept. 10.—Pitcher Phil Douglas, of the Brooklyn baseball club, was sold yesterday to the Chicago Nationals, the waiver price. Chicago agreed to take him after Douglas pitched a three-hit game against the Phillies on Tuesday. The Brooklyn club would have withdrawn the waiver request, it is understood after this display of form by Douglas, but was prevented by the rule adopted by the National league at the annual meeting a year ago.

Remember how Tacoma was going to turn out 20,000 folks to a benefit game last week? The report has just been filed and shows that the total receipts were \$386.27. The expense for the handling of the game, which included merchandise purchased and distributed, amounted to \$189.07. This left a balance of \$197.20, and of this the Y. W. C. A. received \$66.70 and the baseball club \$133.50, as per the agreement.

Spokane, Sept. 10.—Tacoma won from Spokane yesterday by a score of 3 to 2. A triple by Wilson, followed by a pass and another single gave Tacoma the winning runs. McGinnity pitched good ball, but was given poor support at times.

Score	R	H	E
Spokane	2	7	0
Tacoma	3	9	4

Batteries—Kelly and Brenekan; McGinnity and Stevens.

Brooklyn, Sept. 10.—Although obtaining one hit off Tyler yesterday, Brooklyn defeating Boston, 1 to 0, in the final game of the series, and thereby moved back into second place. The only hit off Tyler was a grounder by Getz, which Schmidt was unable to field cleanly. Pfeffer allowed the Braves only two hits, a single by Moran in the fourth, and an infield single by Egan in the ninth. Both sides fielded brilliantly.

BELMONT GIRLS ARE LIKELY WINNERS OF SUNDAY SCHOOL SHIELD

The last games in the Sunday school girls' shuttlecock tournament will be played to-morrow afternoon at the Girls' Central school grounds. The Belmont team increased its lead in last Saturday's play and is looked upon as the winner of the shield for this year. The Philathes and W. H. O. teams, of the Fairfield Sunday school, are both within reach of the lead, and are determined to win it possible, so that very interesting games may be expected in this last day's play. All the teams but Philathes have nine games to play, Philathes having but six. The standing of the teams now is:

Team	Games Played	Won	Pct.
Belmont	20	25	.61
Philathes	20	24	.571
W. H. O.	20	20	.513
Knox	20	17	.453
Metropolitan	20	13	.333

The Philathes and the W. H. O. classes have extended to the other classes having teams entered in the shuttlecock tournament an invitation to a "burlesque athletic meet" to be held in the Fairfield Sunday school room on next Wednesday evening, at which time the shield will be presented to the winning team.

ATHLETES ENLIST.

Regina, Sask., Sept. 9.—The Regina boat club, which has cleaned up all the championships in Saskatchewan for years, made a wonderful showing in the recruiting world yesterday, when fourteen of its members enlisted for active service at the request of Sergts. Charles Otten and Roy Hamilton, of the 79th Cameron Highlanders, of Winnipeg, who opened a recruiting station yesterday. Eleven of the party passed the medical examinations. This makes about 300 athletes sent from Regina since war was declared.

The Golden Horn is one of the biggest and safest anchorages in the world, and it is so deep that the largest warships can ride at anchor close in shore. It is about four and a half miles long.

BUD GOODWIN HOLDS RECORD AT ST. LOUIS

Sporting Editor:—Will you excuse me for pointing out what I think is quite untrue. In the Times of Wednesday the 8th September on page 5, the sport page, and the sixth column you state that Herman Lamb's repeated his feat of last year and swam ten miles in the Mississippi river in 1 hour, 36 minutes, 5 seconds. This is an impossible feat, as Yarnie, the best swimmer in the world of his day, took nearly as long as that to swim five miles, and I am sure it is quite impossible to swim ten miles in the time stated. Yours truly,

A. H. GAEBER, Post Office,

According to Andrews' sporting record, L. B. Goodwin swam the St. Louis race, down stream, in 1 hour 30 minutes 49 seconds, on September 5, 1910. A strong current helped the swimmers in this contest.

YALE BEAT PRINCETON

Greenwich, Conn., Sept. 10.—Yale defeated Princeton five points to four in the final match for the inter-collegiate team championship at golf yesterday on the course of the Greenwich Country club. Princeton won the title last year at Garden City by defeating Harvard in the final match. Prior to that time Yale was the champion for nine successive years.

KNOCK OFF TRAINING.

New York, Sept. 9.—Packey McFarland and Mike Gibbons, who will meet Saturday afternoon in their big bout in this city, knocked off their heavy work to-day, and will rest up until their contest. Both boxers have put in some heavy training, and their managers report that they are nearly down to weight. McFarland played tennis yesterday, while Gibbons' main exercise was swimming. Tickets for the big go are selling fast.

SALE OF THE STOCK OF THE B.C. HARDWARE CO., LTD. (IN LIQUIDATION)

Never before has an attempt been made in British Columbia to close out a hardware stock as large as this at a retail sale. We realize we will have to make the prices very low to accomplish it, but every article in the store is going to be sold at some price, and sold quickly. Many lines are marked lower than the wholesaler can buy at in carload lots from the manufacturers. We will make a price to suit on anything from a package of tacks to the safe.

TO ASK GOVERNMENT FOR GENERAL RELIEF

Board of Trade Will Make Special Request for Redemption of Soldiers' Property

Although called together primarily to discuss steps which should be taken to protect the property of soldiers now at the front when offered at tax sales, the members of the board of trade yesterday afternoon decided to ask the provincial government to provide relief for the general public.

Two motions were finally passed, the first asking the legislature at its next session to "introduce legislation to extend the time limit for the redemption of all lands held by or for our allies, sold under tax sales held after January 1, 1915, for a period of not less than two years after the conclusion of the war."

The second motion requests the government to bring down a bill at the next session "extending the term of redemption on all properties sold after January 1, 1915, from one year to two."

In speaking to the first motion, C. T. Cross pointed out that the savings of a great many men now at the front were invested in real estate. When they left these men did not anticipate a long war, but since then opinions had changed. The soldiers cannot pay their taxes and therefore he thought the government should take some steps to protect them. He said it would be hard enough for the boys to return minus a limb without finding that they were minus their property as well.

This led to J. J. Shallcross moving an amendment. He pointed out that it was difficult to distinguish what property was owned by soldiers. He thought that a general order of relief would be more satisfactory.

George Carter, who seconded the amendment, acknowledged the duty the country owes to the men at the front, but thought that the order should embrace everyone, and afford relief to the hard-pressed business men. "We are standing for our own self-preservation," he stated. "If conditions became good immediately it would take one year to make up the losses they had suffered during the slump, and then they would require another year to get back their former business."

Mr. Cross consented to withdraw his original motion and the amendment was made into a motion. It carried and reads as follows: "That the government be requested to give notice that at the next session of the legislature it will bring down a bill to extend the term of redemption on all property sold for taxes since January 1, 1915, so as to make the time for redemption not less than two years from the date of sale."

Mr. Cross' motion, paying particular attention to the necessity of providing relief for the soldiers, was later carried.

Mr. Cross also brought up the question of asking the government to remove all probate and succession duties on the estates of men who are killed at the front. No decision was reached in the matter.

TRIBUTES TO MR. DRURY

Members of Board of Trade and Liberal Association Express Regrets.

An eloquent tribute was paid to the late R. L. Drury at the meeting of the board of trade held yesterday afternoon. For many years he had been a member of that body and his advice on business problems was always sought and bore considerable weight.

Col. the Hon. E. G. Prior, president of the board, said: "Since our last general meeting we have suffered the loss of one of our most esteemed members, Mr. Drury. His death is a tremendous loss to the community. He was one of the ablest men who sat on the board. He was always courteous in his conversations and discussions. He had taken part in everything that was for the good of the city. The only opinion expressed of him was that he was a really good man."

J. W. Ambrey moved that a resolution of condolence be prepared and forwarded.

J. A. Mata said that Mr. Drury was "a man of high ideals and one who tried to live up to them."

J. J. Shallcross added his tribute to Mr. Drury's memory, and spoke of him as a man of high principles who was always guided in his action by the best interests of the community.

The board passed a resolution of condolence with the bereaved family. The following resolution has been forwarded to Mrs. Drury on behalf of the Victoria Liberal association:

"Resolved: That the Victoria Liberal association places on record its keen sense of the loss sustained by the public life of this community and by the Liberal party not alone of this city and province but of the Dominion of Canada, in the lamented death of Richard Low Drury. His high ideals, his devotion to the duties of every position with which he was connected, his unswerving uprightness and honesty of mind, purpose and achievement, his courteous demeanor, his broadness of outlook, combined to make him a man whose place it will be very difficult to fill. His advocacy of the principles of Liberalism was consistent and forceful, and his eloquence, clearness of argument and coherence of thought rendered his platform services to the party beyond estimate. Fair to his opponents, he leaves behind him none but the kindest memories on this part. To his sorrowing widow, children and relatives the association offers the assurance of the most heart-felt sympathy in a loss that is to them irreparable."

Men have a touchstone whereby to try gold, but gold is the touchstone whereby to try men.—Dr. Fuller.

INSURANCE CLAIM

George A. Dyson Asks Damages From the B. C. Life Insurance Company for Breach of Contract.

Before Mr. Justice Gregory in the supreme court today George A. Dyson, insurance agent, is claiming damages from the B. C. Life Insurance company, alleging breach of contract in employment by the company as district agent for Vancouver Island. No

amount is stated in the claim but prior to the action the plaintiff asked for \$2,000.

Plaintiff in his evidence alleged that he was engaged on contract and that after two weeks employment his contract was cancelled. He had not written any business in the two weeks but had seen ten people who had promised him insurance worth \$26,000. At the end of two weeks he said his contract was broken by the company and another district agent appointed. He was then made a sub-agent. Judgment was reserved.

WANT JAIL FINISHED

Accommodation for Water Collector's Branch Must Be Provided by November.

The new city jail, Fisgard street, is making fair progress, though on account of the delay in awarding the contract for the iron work, the sub-contractor has been unable to bring his work to the same advanced point as the general contract, which has now been formally taken over by the

city. The sub-contracts for heating, plumbing, etc., are also well in hand. Allowing for these extras, the actual cost will be slightly in advance of the proceeds of the loan, the difference being met out of revenue.

The whole of the building, with the exception of the part of the top story to be used to house the fire-alarm equipment will be devoted to police purposes. The city authorities are particularly anxious to have the new building occupied next month, in order that quarters may be found in the

city hall for the water collector's department.

The lease of the office in the Fairfield block shortly expires, and it is proposed to remodel the courtroom and police offices for the waterworks collector's quarters. In this way a separate entrance from Pandora avenue may be maintained for the use of the public. The school board has already applied for part of the police quarters, to extend its limited accommodation. While there is a very small sum left in the estimates now for buildings, it is hoped when any

changes are effected at the city hall, better accommodation will be given to the janitor.

A small matter which has lain over while the jail was building has been the provision of a sidewalk and installation of cluster lights on the south side of Fisgard street, between Government and Douglas streets. As the city is the principal owner of the five parties interested, the matter has been referred back to the solicitor, for an opinion whether the mayor has power to sign a petition to the council in favor of local improvement.

- Bread Toasters, each 23¢

Artistic Plate Racks

Give your rooms a quaint old-world touch. Solid early English oak plate racks at cash prices of \$2.25 See our display of beautiful Rail Plates.

Valuable Books Need Protection

Booklovers should see that their books are properly housed. A sectional bookcase will afford them ample protection from dust, and the accidents of housecleaning time. We have sections in fumed, early English and golden oak. The separate sections permit a more artistic arrangement than the old fashioned bookcase. Another advantage is that you can purchase the sections as your collection of books increases. Cash prices, per section \$4.05 to \$5.85

Is the Mud Tramped Into Your House?

If it is, it means much unnecessary sweeping and scrubbing. Have you ever realized that a good cocoa or wire door mat would do away with all this annoyance and save your good carpets as well?

CASH PRICES

- Cocoa Fibre Door Mats, 90¢ to \$4.05
- Ideal Wire Door Mats, three sizes, \$1.25, \$1.50 and \$2.00

Attractive Library Furniture

We'll be pleased to have you call and inspect our display of comfortable and beautiful furniture for library and den, shown on our third floor. Fumed oak is by far the most popular finish, and styles showing simple outlines and artistic proportions have gained universal favor.

Early English finished oak still holds its own for popularity. The Mission style has come to stay. This is particularly true of the massive arm and rocking chairs, with loose leather cushions, so closely allied to this style.

BANKER SPEAKS ON CHANGES FROM WAR

Conference of American Financiers at Seattle Addressed by William A. Law

The delicate problems of international financing due to the European war, the United States situation caused by the depression in business, the new federal reserve act and other matters were taken up by the American Bankers' association at Seattle when the convention began work on Wednesday. Governor Lister, welcomed the delegates and the president of the association William A. Law of Philadelphia responded. He said in part:

"We are meeting in the midst of strange and stirring days, saturated with the romance of world changes. History is being made on every continent and new maps are being drawn with a pen remorselessly dipped in the blood of strong men and of innocent women and children.

In Europe war has continued its progress with increasing military ferocity, economic devastation and loss of human life. In America the situation has served to reveal the marvelous material resources of the United States.

After recovering from the first paralyzing shock, our leaders began energetically and resourcefully the task of repairing shattered confidence and effecting the resumption of normal commercial activities and industrial operations. Transportation interruptions by sea and land were overcome. Emergency measures previously provided gradually enabled banking transactions to proceed along the usual lines; the stock exchanges were opened on December 12 under certain restrictions after having remained closed about four and a half months, and international and domestic traffic have since been conducted under abnormal influences and extraordinary difficulties.

No Immigrants Coming. Manufacturers in many branches have not been able simultaneously to meet the combined effects of tariff changes, the unusual shifting of prices of both raw material and products under war conditions, and recently the demoralizing competition for skilled labor by the contractors for war supplies. As soon as business resumed on a large scale we are going to face most unusual labor conditions. Practically no immigrants are coming in at the present time; our normal movement averages about 100,000 per month.

These industries concerned in the production and distribution of food-stuffs have been least injured. Leather has been strong and active; the automobile industry has been surprisingly stimulated, due in great measure to the war. On the other hand, textiles have been irregular and difficult. Construction and all products purchasable by the railroads have been slow and dull. Our coal, tonnage excise and the combined tonnage of the products of agriculture, forest, manufactures and animals. The success of many of our railroads, therefore, depends upon manufacturing activity. The railroads have been suffering from a fourfold burden of decreased tonnage, decreased freight rates and the increased cost of labor and money, but they are pluckily overcoming their difficulties.

Production Increasing. As a whole, production is irresistibly increasing; unemployment is slowly and steadily decreasing; distribution is quietly broadening.

The unprecedented prices for some of our agricultural and industrial products have revitalized stagnant labor generally, erodes strengthening the position of our most important interest—farming. The United States has grasped its unique opportunity to become a large factor in international finance and commerce. Every business man's life has been affected more or less by these events. Some have used their opportunities to advantage, while many others have sustained severe losses because they were so situated that they could not adjust themselves profitably to the suddenly changed conditions. Now political problems have been thrust upon our officials for immediate solution.

The federal reserve act provides a comprehensive plan for American banking co-operation. The responsibility for working out important details rests upon the federal reserve board. They are doing this admirably and conscientiously and have exhibited willingness to make changes where trial has shown that they are mistaken, which is a most hopeful sign. The principal features of the system will remain a part of our permanent banking fabric, but in all probability there will be various amendments to the act as their necessity becomes apparent.

Branches Necessary. National banks located in the larger cities should be authorized to operate branches. Our principal cities are growing rapidly in area as well as population, and oftentimes banking facilities are required in remote sections where sufficient business does not exist at the moment to cover the overhead cost of first-class management for an independent institution. For the sake of economy and convenience it should be possible for a national bank to have a reasonable number of branches in any part of the city in which it is located, if the population exceeds 200,000. The utility of such a plan has been proven by the experience of state chartered institutions in several of our cities—notably in Detroit, New York and New Orleans.

As indirect benefits the system teaches the superior value of liquid assets in the form of short-time commercial paper, and will in due course of time effect general co-operation in mobilizing reserves and stabilizing interest rates. The system has designed official leadership in national finance, and later on will probably create a real international discount market, assisting the establishment of our trade with the other nations.

Not Fully Tested. The federal reserve system has not yet been fully tested. The country still awaits the action of two most important factors in its operation, namely, the entry of the state banks as members and the removal of government deposits from the independent treasury. It cannot be questioned that all commercial banks, no matter where their charters are derived, together with the secretary of the treasury, should finally co-operate with the system if we are to co-ordinate all elements to our sphere of commercial finance.

The premier banking event of the year is, of course, the opening of the Federal Reserve banks. Your association has, for many years, repeatedly urged upon congress the necessity for banking and currency reform. Finally, in 1906, you appointed a currency commission, of which the Hon. A. Barton Hepburn was elected chairman, and he still holds that position. This commission is composed of active and experienced bankers representative of all parts of the country, and was charged with the duty of assisting legislators in framing a suitable banking law.

Without going into details as to the various operations of the commission, it is sufficient to say that during the whole time the Federal Reserve act was in the making the currency commission of the American Bankers' association was in close touch with the situation and frequently, by friendly criticism and counsel, directed the legislation along wise lines. The commission is still in existence and while it is quietest, it awaits only the demand of necessity for further participation in creative labors.

When War Ends. We have reasons to believe that our financial position will strengthen as the European war progresses; that our devoted president will be successful in preserving neutrality. When war ends what will it mean to us as a nation? We shall be rich and generous enough to contribute liberally toward the help of the needy; to assist in the reconstruction of some of the ruined nations; to give employment to the mass of immigrants who will probably rush to our shores.

SOME REQUISITES AT CADBORO BAY BEACH

E. E. Hardisty Makes Suggestion to Saanich Council for Improvements

The Saanich council asks for publicity for the following letter from E. E. Hardisty, 66 Howe street, addressed to its clerk, with regard to Cadboro Bay beach:

"I wonder if I may be allowed to make a suggestion which I think would be of great public good, in connection with the comfort and convenience of the many people who visit the above popular beach during the summer time for the enjoyment of bathing and general ferry-making, and that is for the council to place a public lavatory somewhere about the centre of the beach on the spare lots abutting thereon, and a water tap, if possible, outside same.

"I have seen the comment by the Colonist on the alleged misbehavior of the public on this beach, and as I am one of them, I presume the slur attaches to me as well as the rest of the 3,000 people who visit this most beautiful beach, and this includes my wife and family, who have, on many occasions this season, taken an outing to this bay for picnicking and bathing purposes.

"We have practically spent the whole of our holidays and week-ends this summer at this beach, and we have not seen the slightest misbehavior on the part of the individuals, and as we usually settle down about the centre of the beach we are, I think, in a good position to see almost all that is going on. In fact, my wife and myself are, the same as you, at a loss to understand what the Colonist refers to, and I have thought of writing the editor on the matter, as I am sure he would not like to cast such an aspersion upon the whole of the 3,000 people if the matter was put truthfully before him. I should myself, like to know what it is, that exception is taken to.

"I think if your council could carry out the above suggestion when convenient, it would be greatly appreciated, that is, if the same is at all feasible."

The matter appears to be one which might well receive the attention of the new beaches committee, composed of representatives of public and semi-public bodies, which so far has not held a meeting, although most of the delegates have already been appointed.

The morning of life is like the dawn of day, full of purity, of imagery, and harmony.—Chateaubriand.

"Yes, the six months are up and our Holeproofs have outworn the guarantee."

Guaranteed Wear in Fine Looking Hosiery

Holeproof Hosiery is more than merely good looking hosiery—it is guaranteed to last.

Six pairs of fine cotton or cashmere hose are guaranteed to wear without holes for six months. If any of the pairs fail in that time you are given new hose to replace them free. Three pairs of silk are guaranteed three months.

There are 112 styles, a style and grade to fit anybody's purse. Ask your dealer for these Canadian-made socks and stockings. Be sure to get genuine Holeproofs. If he can't supply you, order direct and we'll see that you get them.

CIVIC WELCOME FOR COMMISSIONER SOWTON

Mayor Stewart Presides Over Meeting Held at Citadel Last Night

A representative gathering of citizens last evening extended a hearty greeting to Commissioner Sowton, head of the Salvation Army in western Canada, the welcome taking place in the Citadel, Broad street. Mrs. Sowton, who accompanied her husband, was included in the many cordial expressions voiced during the proceedings, and together with the commissioner immediately won her way into the favor of her audience by her pleasing personality and simplicity of address.

The preliminaries were brief, Brigadier McLean introducing his worship the mayor by welcoming him to the Salvation Army platform. His worship then, on behalf of the city of Victoria, extended the heartiest of greetings to Commissioner and Mrs. Sowton, and expressed his own sense of privilege at being permitted to be with them. He regretted that their visit to Victoria was to be so short. They could gain only a cursory idea of the true beauty of the city and its surroundings in so brief a sojourn here. If they would but stay a month he would like to see them on their return to Winnipeg would be to get the headquarters of the western Canadian division moved to Victoria.

In more serious vein Mayor Stewart expressed his own sincere belief that in the newly-appointed commissioner they had the right man in the right place. The Salvation Army had always been distinguished for its fine judgment in selecting men for its work, and the present instance was no exception. His admiration for the really fine work which is being done by the organization had been augmented by the readiness with which the officers of the local headquarters had volunteered in assisting any philanthropic work required during the past year in Victoria. The average citizen, in fact, had little realization or appreciation of the important part which the organization took in the alleviation of distress.

Mrs. Sowton spoke briefly in response to the greetings. She had noticed the beautiful flowers in Victoria, and would have liked to prolong her visit. After stating that she was glad to come as a Salvationist she proceeded to tell something of the great rescue work which the women of the Salvation Army were doing. From small beginnings in the East End of London it had grown to a great universal undertaking on the part of the Salvation Army women. And since the war they had had many opportunities to alleviate the sufferings both of the soldiers and of those whom they had left behind. They had busied themselves knitting socks, and had sent to France not less than 12,000 garments for the soldiers since the war began. In one place they had done the washing and mending for a whole camp of soldiers, and in France they were to be found in the hospitals helping the sick and wounded and dying with material and spiritual comfort. They had come to Canada with but one desire—to be a blessing and help to the people with whom they came in touch.

Letters of appreciation for the aid and practical relief work of the Salvation Army and of greeting and good wishes to the Commissioner and Mrs. Sowton were read from Sir Richard McBride and from Hon. E. G. Prior on behalf of the board of trade. Commissioner Sowton, in thanking the bearers of the many cordial greetings, stated that it had cheered them as they passed through Canada to meet everywhere with the same warm expressions of good feeling. It had made them more determined than ever to bend their backs to the task before them. The Salvation Army has ever endeavored in time of crisis to co-operate with the other authorities. Reference was made to the beginnings of its social work twenty years ago, when General Booth first realized that a multitude of homeless waifs and strays slept nightly on the benches of the Thames embankment. After seeing that he set all his energies to organizing some means of assisting the poor temporarily as well as spiritually, and from that time the task of feeding the hungry was coupled in the Salvation Army with that of preaching.

Another point which the commissioner emphasized before concluding was that the Salvation Army has ever endeavored to help mankind without pauperizing him. Canada had great undeveloped resources. He wished to see the foundations of the new civilization of the great west set on righteousness. Aid. Bell moved the vote of thanks to Commissioner and Mrs. Sowton, endorsing the expression of appreciation contained in the messages from the premier and president of the board of trade. Aid. Dilworth also spoke before the proceedings concluded with the National Anthem, led by the massed band of the Salvation Army.

An absolutely harmless antacid in all cases of fermentation and souring and belching of food, gas, indigestion, etc. A teaspoonful in a fourth of a glass of hot water usually gives INSTANT RELIEF. Sold by all druggists in either powder or tablet form at 50 cents per bottle.

Mrs. Justback—"Ferdinand says while I was away he attended a few parties given by the married people of the neighborhood. Her Mother—"I know. The married people were married men and the parties were poker parties."

Pool—"Wonder what time it is? I'm invited to dinner at 7 and my watch isn't going." Fool—"Why wasn't your watch invited?"

Phoenix Beer, \$1.50 per doz. quarts.

SPORTSMEN'S BODY TO BE ORGANIZED

Prepare for Home Defence is Big Object; Other Features of Plan Outlined

An important sportsmen's gathering will be held at the city hall on Tuesday night at 8 o'clock, when efforts will be made to organize a sporting association of a character that will enable the sportsmen to look after their own interests and also prove valuable in preparing for home defence. The chief objects of the association are as follows:

1. All members must be British subjects over 16 years of age.
2. To associate ourselves together for the purpose of advancing the cause of good sportsmanship, game and fish protection and propagation; to co-operate with the provincial game warden in every possible way to prevent the extinction of game birds and animals, and to do whatever we can to bring about an increase of game, fish and other wild life, wherever possible. To this end we will use our influence to prevent violations of the game laws, will exercise our legal privileges in moderation in relation to the amount of game we kill; discourage the "game-in-many-hands" spirit; and use our political influence in having enacted such provincial laws as will work for the best results to secure adequate protection to the game of the province whereby it will be able to exist and increase, for the benefit and use of the citizens of the present generation and future posterity in British Columbia.
3. To recognize the rights of property owners, and condemn all acts of discourtesy or vandalism, or any unsportsmanlike conduct, such as have in many instances created prejudice, and to work for a better understanding and more cordial feeling between the farmer and the sportsman, to their mutual benefit.
4. To invite all who love the ancient and honorable sports of shooting and angling, who would increase the opportunities for their enjoyment by increasing and preserving upland game birds and waterfowl, game animals and fish, song birds and all other wild life not classed as vermin, and who would preserve and protect our forests, streams and lakes, to join with us in an organization for the purposes named.
5. Realizing the military strength and value of such an organization for home defence for the duration of the war, each member agrees to keep on hand at least 100 rounds of ammunition for his hunting rifle, and such other equipment as would be necessary for a week or two outdoors, whereby the sportsmen of the province would be in a position to quickly turn out for the mutual protection of their women, homes and country. The further details of this part of the organization to be gone into after formation, it being understood, however, that the association is self-supporting and under no military obligations of service as an association, but whose members would turn out along the border as sharpshooters to protect their homes and property and check any attempted raid of Germans who would be classed as bandits or outlaws, and treated as such until the military could move and take the matter in hand, should such a situation arise.
6. Sub-units of the above association would be formed at any or all towns, villages or districts within the province, especially along the border; so organized for home defence that they could be quickly got together.
7. The annual membership fee to be fixed after the association is formed, and kept as low as will cover expenses. All members upon admission will sign the by-laws as adopted after formation, along the lines above mentioned.
8. That any British sportsman of good character, over 16 years of age, be admitted to membership upon payment of fee and signing the by-laws, without ballot.
9. That a midsummer and midwinter camp-fire be held for the transaction of business, election of officers, holding
