HINDENBURG GERMAN PRESIDENT

48.3 Per Cent of Votes Cast in Germany Given New Leader

LIBERAL WIN CONSIDERED GREAT TRIUMPH

Government Overcome Heavy
Opposition Majority Vote of
Last Election

R. H. Pooley, Conservative
Leader, Failed to Speak in
Chief Centre of Riding

Ottawa, April 27.—The Liberal
victory in Grand Forks-Greenwood
greatly improves the position
of the Government in the
B.C. Legislature, Premier Oliver
declared to-day in discussing by-
election results.

"I am delighted with the
verdict of the electors," Mr. Oliver
told The Times correspondent.
"Not only does it show that the
people prefer the Government's
work to the policies and the
works of the Opposition, but it
also adds to the security in our
Province. It is never a good thing
for a country to have a Government
which lacks a clear working majority
and the new alignment of the
House as a result of our victory,
I am sure, is for the benefit of the
Province as a whole. The elec-
tors' verdict is what I expected."

"The new Grand Forks-Green-
wood member is a splendid type
of man and will be a distinct gain
for Legislature."

They said it with ballots in Grand
Forks on Saturday and the way they
said it was as pleasing to the Hon.
William Sloan, who had charge of the
campaign for the Government, as it
was disappointing to R. H. Pooley,
Conservative leader.

Latest official returns show that D.
McPherson, Government candidate,
carried the Grand Forks-Greenwood
riding in the by-election by a ma-
jority of sixty over the Conservative
opponent, Dr. Kingston. The vote
was: McPherson, 864; Kingston, 804.
HEAVILY LIBERAL

The Conservatives, as expected,
polled heavily in Grand Forks. In
Greenwood the former constituency
of the Hon. J. D. MacLean the
Liberals won by nearly two to one.
Most of the other outside points went
heavily Liberal.

The Liberal victory makes the
standing of the parties in the Legis-
lature as follows: Liberals, 23; In-
dependent Liberal, 1; Conservatives, 17;
Labor, 2; Provincials, 1.

Hon. J. D. MacLean and Attorney-
General Manson returned to the Par-
liament Buildings this morning. Hon.
William Sloan will be back to-mor-

TIDE OF CANADIANS ON WAY HOME FROM U.S. GROWS AND OUTWARD MOVEMENT DECLINES

By Times Staff Representative
Ottawa, April 27.—The tide of Canadians returning to their
country from the United States, after being attracted there for
a short period, is swelling into large proportions. This is indi-
cated by immigration figures which have just been compiled here
and which tell the other side of the Conservatives' gloomy story
about the depopulation of this country.

Not only is the movement from the United States to Canada
growing but the movement from Canada to the United States is
declining substantially. In this way the immigration balance be-
tween the two countries is showing a decided tendency to
right itself.

In 1923, 182,369 Canadians entered
the United States. This number
dropped last year to 159,092. What
is more significant, however, is the
downward tendency of this movement
towards the end of last year. In
January, 1924, 15,598 Canadians
crossed the boundary to the United
States. By December of last year
the movement had dropped to 11,735.
The December movement, incidentally,
was a drop of about 600 from the
movement in the previous month.

But not all these Canadians re-
mained in the United States by any
means. Many of them stayed away
from home only for a short time, and,
in addition, during the eleven months
ending February, 1925, when records
first kept, 41,000 Canadians returned
to their own country after an ab-
sence in the United States of six
months or longer.

The most satisfactory point re-
vealed by the figures covering the
return of Canadians, however, is that
recently this phase of the situation has
increased in their number. Thus the to-
tal number returning jumped from
1,715 in January of this year to 2,612
in February. While figures for later
months have not been completed yet,
it is believed by officials here that
the movement will continue to grow
as this year goes on.

In addition to these Canadians who
had been in the United States for
more than six months there has been
a big movement of Canadians who
remained in the United States less
than that period. In 1923, 43,432
Canadians returned after an absence
of less than six months, and last year
43,314 came back in the same way.

When these figures are added to those
covering the return of Canadians who
had been absent for longer than the
half-year period they go a long way
towards balancing the total movement
out of the country.

1,000 CHILDREN BARRED FROM VANCOUVER SCHOOLS UNDER REGULATION ON VACCINATION

Vancouver, April 27.—Possibly 1,000 children were refused ad-
mission to Vancouver public schools this morning because they
had not complied with the vaccination requirements. School
board officials will not know the exact number barred until re-
ports are received from all the schools late in the day.

SAYS ELECTION IN GERMANY MENACE; JAMES W. GERARD

New York, April 27.—The elec-
tion of Field-Marshal von Hinder-
burg as President of Germany is
a menace to world peace, in the
opinion of James W. Gerard,
former United States Ambassa-
dor to Germany.

Mr. Gerard to-day charac-
terized the election as a "flat
declaration by the German people
of a return to militarism and
monarchism."

Prominent Germans here, how-
ever, saw in the election hopes
for a united peaceful nation.

Drive For Members in League
of Nations Society Starts
Soon

If the League of Nations move-

of outlawing war and substituting
arbitration as a means of
settling international disputes, it
is imperative that there be a
solid background of intelligent, in-
formed public opinion behind the na-

This is the message with which Sir
George Foster, president of the
League of Nations Society in Canada,
has issued an appeal for members in
the society in the campaign which is
starting in Victoria this week, simulta-
neously with a Dominion-wide

HINDENBURG'S SUCCESS PLEASES HOHENZOLLERN

Doorn, April 27.—Two automobiles
bringing high officers from Germany
arrived at 8 o'clock this morning with
the news of the election of Von Hinder-
burg as President of Germany, and
went direct to the chateau of
Wilhelm Hohenzollern, former Kaiser
of Germany, over which Hohenzollern
flags fly.

Hohenzollern and his entourage
were overjoyed at the news and great
animation reigned at the chateau.

Later in the day one of the au-
tomobiles started on the return trip to
Germany.

LT.-COL. W. H. COY DIES IN REDLANDS

Was Honorary Colonel of 50th
Gordon Highlanders

News has reached the city of
the death of William H. Coy,
former well-known resident of
Victoria and honorary colonel of
the 50th Gordon Highlanders,
who passed away in Redlands,
California, on April 22.

The late Lieut.-Col. Coy was a
native of New Brunswick and
first came West in the early days
in his capacity of traveling auditor
for the C.P.R. While visiting Saska-
toon in that capacity he was im-
pressed by the possibilities of devel-
opment in the public and civic life
of Saskatoon and was one of its most
prominent citizens.

In 1912 he moved to Victoria and
entered the real estate business here.
He made a number of investments in
real estate and for a time resided on
Dallas, a reversal of his fortunes, in-
cluding a fine residence on Rockland
avenue, near to Government House.

He took a very keen interest in the
militia movement and on the organ-
ization of the 50th Gordon Highlan-
ders accepted an honorary colonelcy
in the regiment. By his generous
financial assistance he enabled the
regiment to purchase their uniforms
for a further 200 uniforms which were
necessary for the overseas contin-
gent, and himself accompanied the
detachment to Valparaiso. He was
much disappointed when he was re-
fused for overseas service on health
grounds.

Subsequently Col. Coy came back
to Victoria, and the decline in the
money market owing to the war
caused a reversal of his fortunes. He
was for a time in Vancouver before
leaving for the South, where his
death occurred last week.

Colombian Cabinet Gives Resignation

Bogota, Colombia, April 27.—The
Colombian Cabinet resigned to-day,
the ministerial situation having been
brought to a crisis by the resigna-
tion of Foreign Minister Velez, who
surrendered his portfolio because,
despite his protest, Congress ad-
justed without acting on the Peruvian-
Colombian Treaty.

FIELD-MARSHAL HINDENBURG
President-elect of Germany

HINDENBURG GIVEN 14,639,399 VOTES IN GERMAN CONTEST

Wilhelm Marx, Candidate of Republican Bloc, Re-
ceived 13,752,440 Votes for Presidency of Republic;
Thaelmann, Communist, Was Given 1,931,591
Votes; Hindenburg's Supporters in Minority in
Reichstag.

Berlin, April 27.—Field Marshal von Hindenburg's "front
porch" campaign, conducted from his home in Hanover, has been
successful and next week he will be inducted into office as the
first popularly-elected President of Germany. The first President,
the late Friedrich Ebert, was named by the National Assembly,
immediately after the revolution which established the republic,
but von Hindenburg was chosen by direct vote of the people.

Running as the choice of the Nationalist-Conservative Bloc,
consisting of the parties of the United Right, he received 14,-
639,399 votes, or 48.3 per cent of the total valid ballots cast in
yesterday's election. He obtained a plurality of 886,759 over his
principal opponent, Former Chancellor Wilhelm Marx, candi-
date of the Republican Bloc, who received 13,752,440 votes, Ernst
Thaelmann, Communist, trailing with 1,931,591.

ELECTION PROVES SENTIMENT OF GERMANS TO WORLD, STATE FRENCH

Paris, April 27.—That von Hindenburg's election to the Ger-
man presidency may prove beneficial if it opens the eyes of the
world to the real sentiment of the German people was the opinion
expressed to-day in official circles here; where the result of yester-
day's polling caused no surprise.

In the same quarter it was said the heavy vote cast by the
women for the field marshal was deemed the most significant
feature of the election. The men, it was believed, had voted
for either Marx or von Hindenburg in the greater part for party
reasons, while the women's votes for the "war hero," it was
held, were chiefly sentimental.

"This," said a spokesman at the
Foreign Office, "ought to open the
eyes of the world to the fact that
there is no such horror of war and
militarism among the German people
as has been thought in certain coun-
tries."

"This lesson," he added, "ought to
be meditated upon, particularly in
the Anglo-Saxon countries, where
there has been a marked disposition
to give the German people credit for
having been converted to pacifism."

Earth Shocks Were Felt South of The Great Lakes

Chicago, April 25.—Earth shocks
were felt in parts of Ohio, Ken-
tucky, Indiana and Illinois last
night. There were three distinct
tremors, but no damage was done
except for slight interruption to wire
services in a few places. According
to records, the first shock lasted six
seconds, beginning at 10:05 o'clock.
The second, eight minutes later, was
of like duration, but the third, be-
ginning at 10:30, lasted half a min-
ute.

Small articles were upset at
Springfield, Ill., but only slight
damage was done to brick-a-brac.
HOUSES SHAKEN

Springfield, Ohio, April 27.—Three
distinct earth shocks were felt in
this city shortly after 10 o'clock last
night. People in all parts of the
city reported houses shaken.
INDIANAPOLIS, April 27.—Houses
here were shaken, and several per-
sons are reported to have felt the
earth tremble at 10:05 last night.

KIWANIS TO MEET VANCOUVER CLUB TO-MORROW NIGHT

Sixty Mainland Members Come to Evening Session and Bring Glee Club

The Kiwanis Club will hold an evening celebration to-morrow, in place of the usual luncheon session, and will have the Vancouver club as guests. Sixty members of the terminal city organization are expected to be present, and will have with them their well-known glee club singers. The meeting will commence promptly at 8.30 o'clock at the Chamber of Commerce.

The announcement of the resignation of Dean Quinlan from the club has been received with very great regret. Kiwanians are now provided with tickets for the entertainment to be offered by the University Players of Vancouver, and it is expected that the sale of seats will be as prompt and successful as has been the experience of past years.

MONARCHISTS BUSY
Paris, April 27.—The French interest in the German Presidential election was very keen until some days ago, when Dr. Wilhelm Marx, candidate of the Centrist, Democratic and Socialist parties, came out for union with Austria in his keynote speech. At that time a desire for the election of Dr. Marx was manifest in the newspapers and political circles. The apparent candidature of von Hindenburg, candidate of the Conservative-Nationalist bloc, is regarded in French circles as more dangerous than that of Dr. Marx, because the marshal is considered here as more susceptible to manoeuvring by the monarchists.

He was followed by a group of Japanese workers standing outside the words quailed, then collapsed on the veranda.

CHANGE WAS MADE

After the first presidential election on March 29, Dr. Karl Jarren, Nationalist leader, and Dr. Wilhelm Marx, former Chancellor and nominee of the Republican Bloc, emerged as the apparent candidates for the second and decisive test by ballot. But the Nationalists, fearing Marx would defeat Jarren, appealed to von Hindenburg to replace Jarren, which under the German system was possible. The field-marshal, after several days' delay, yielded, declaring he did so because of a "feeling of duty alone, and not by personal inclination," and asking God to grant the prayer that, if elected, "I may at the end of my life be still of some use to my beloved fatherland."

PREVENTION OF MANY PEACE RIVER PEOPLE WILL LEAVE

Alberta-M.P.P. Says Population Will Dwindle by Half if Railway Delayed

Delegations in Ottawa Depressed Because No Agreement is in Sight

(By Times Staff Representative)
Ottawa, April 27.—Prospects of action on the Peace River Railway problem this year seem to be dwindling away in the complete absence of agreement among the Government and the railways interested in developing the northern areas. The delegates from the Peace River area and Northern Alberta, who came here last week to make a last fight for a railway are greatly depressed to-day.

Discouraged by the vanishing hope of immediate assistance, hundreds of Peace River settlers are abandoning their holdings now and seeking flight from the North to Tokio, according to dispatches received here to-day.

LIBERAL VICTORY

row, while Hon. W. H. Sutherland stayed over in Vancouver.

STRENUOUS FIGHT
"The result of this election is very satisfactory to the Liberal Party," said Dr. MacLean. "The campaign fight of the last week was strenuous, but not bitter. Both sides had an abundance of good speakers."

Capt. Ian Mackenzie, M.P.P. of Vancouver, supported the Ministers, while Mr. Pooley had the personal assistance of W. J. Jones, M.P.P., W. A. McKenzie, M.P.P., H. Despard, M.P.P., and Mr. Bruhn, M.P.P.

On the day of the campaign it was that Mr. Pooley, as Opposition leader, did not speak in Grand Forks, the largest centre of the riding. Dr. MacLean said, Mr. Pooley was billed to speak also at a Conservative gathering on election eve, but was not there.

Liberals consider the result of the vote a great triumph as they had to overcome an adverse vote of 439 against them in the last election in British Columbia.

Mr. Mackenzie, Conservative, 750; Henniger, Liberal, 642; Atwood, Provincial, 331; Dr. Kingdon, as expected, carried Grand Forks, but not by the sweeping majority claimed by the Opposition, his margin of 79 there being only an offset to McPherson's lead in Greenwood, where he carried by 100.

On the day of the election the riding with the exception of Midway and Rock Creek, which gave Kingdon good majorities, and Paulson, a way station, that gave the two majorities, was found in the Liberal column. This was sufficient to redeem the riding for the Liberals.

British Ex-Premier Says That Generally Speaking Hindenburg Steady Old Man

Views Expressed Regarding Composition of New Ministry Ruling France

London, April 27.—Nothing rash in the line of political action is expected of Field Marshal von Hindenburg as President of the German Republic by former Premier Lloyd George, who returned to-day from Madeira, where he spent a holiday, says a dispatch to The London Star from Southampton. Interviewed on board his steamship there, Mr. Lloyd George is quoted as saying: "I think France has driven Germany into this mood, which is extraordinarily stupid. "I do not think Hindenburg will do anything rash. On the whole, he is a steady old man, and I do not think he has the temperament to do rash things. His election is an indication in Germany and is the result of the Poincare, or Nationalist, policy, which was repudiated at the last election by a majority of the electorate of France."

STUART DOLLAR is Aground in South

Ran Ashore in San Francisco Bay Owing to Unusually Strong Current

San Francisco, April 27.—The freight steamer Stuart Dollar of the Dollar Steamship Company went aground yesterday on one of the Brother and Sister Islands in San Francisco Bay.

A preliminary survey indicates no damage had been done to the vessel and it was hoped to float her before night. A fleet of tugs is standing by. Unusually strong currents were given as the reason for the mishap.

This new way works wonders on cloudy teeth

Modern science, by perfecting a new way of combating the stubborn film that covers teeth, now opens the road to whiter teeth, safely.

THAT cloudy teeth, yellowish, whiter is now an accepted fact. Foremost dentists of the world are widely urging this new method. You can have cleaner, prettier teeth if you will start to-day.

This is accomplished by combating a viscous film that covers teeth. A stubborn, hard to remove film that old time dentifrices do not fight successfully.

Run your tongue across your teeth and you can feel this film. Under it are the clear, attractive teeth you envy in others. Combat it; and your teeth become many shades whiter—more glistening. This offers you a 10-day test free. Mail the coupon.

The great enemy of teeth
Film is the great enemy of teeth beauty. And a chief cause, according to world's dental authorities, of most tooth troubles. It clings to teeth, gets into crevices and stays. Gorms by the millions breed in it. They, with tartar, are the common cause of pyorrhea. It holds food in contact with teeth, inviting the acid that causes decay.

You can't have prettier, whiter teeth; you can't have healthier teeth unless you combat that film.

Ask your druggist or mail the coupon for Pepsodent. Don't expect the same results from old time dentifrices. Begin beautifying your teeth to-day.

HOSPITAL MEETING HELD AT GANGES

Satisfactory Report Presented on Gulf Islands Institution

Ganges, April 27.—The eleventh annual general meeting of the subscribers of the Gulf Islands, Lady Minto Hospital, was held in the Mahon Hall on Thursday evening about sixty being present. Mr. Edward Walters presided. After a lengthy account of last year's business was read by the secretary, Mr. Holmes, Wm. Mount, treasurer, said he was glad to say the hospital finances were in good condition, with some money in the bank. Although cash donations had not been as large as in previous years. He wished to say very valuable assistance had been given by the House Committee, Guild of Sunshine, I.O.D.E. and many others in donations of various kinds, all materially assisting the hospital. The hospital is now incorporated, papers were just recently received and signed by the Provincial Secretary and Registrar of Companies, Gayvin C. Mount, who has been collector for the hospital for the last five years, resigned, and Mr. Walter proposed a hearty vote of thanks for his efficient services during that time. It was left for the directors to appoint another collector. The members of the board of directors were all re-elected for the ensuing year from Salt Spring Island: Mrs. Purdy, Mrs. Beech and Messrs. E. Holmes, Wm. Mount, T. Speed, A. R. Bittencourt, J. Shaw and E. Walter, who is president, and G. C. Mount, Government representative; for St. Saturna, Mrs. McFadyen; for Pender, A. H. Menzies; for Galliano, P. Scores.

TELEPHONE OFFICERS TOURING THE ISLAND

Executive officers of the B.C. Telephone Company, including Mr. E. F. Hildewick of Vancouver, F. C. Paterson, District Commercial Superintendent of the Island Division, Victoria, and Newton F. Pullen of Vancouver, editor of the official bulletin, Telephone Talk, are making a tour of the island. They are looking into the developments in the island lines, and particularly with regard to improvements in land at Mill Bay and Shuguan Lake and the position recently received to give service on Chemainus River. Since the extension last year from Courtenay to Campbell River, the East Coast business has shown up well. Through joining up to the Dominion Telegraphs on the East Coast, and also on Barkley Sound, telephone service at some hours of the day link almost every settlement on Vancouver Island.

Sayward News

Special to The Times
Sayward, April 27.—The regular meeting of the Sayward Progressive Agricultural Development Society was held at the home of the president, Charles Collett Sr., a good attendance of members being present. Considerable correspondence was read by the secretary, J. E. Armitshaw, including a very encouraging letter from Dr. Warnock, Deputy Minister of Agriculture, congratulating the society on its excellent work during the past year on behalf of agriculture and the Sayward Valley. The question of better passenger boat service for the district was taken up, and it was pointed out during the discussion that Sayward offered more business to the steamship company, and had made more permanent development during the past ten years than several ports of call, which are now included in the time. The secretary was instructed to write the Union Steamship Company requesting the company to place Sayward on the route of call for their larger passenger steamers. The societies Agricultural Fair was discussed, and it was decided to hold a special meeting next week to further take up this important work. The fair secretary, J. Walls, was instructed to prepare an estimate of supplies needed together with cost of same. Refreshments were served at the close of the meeting by Mrs. Charles Collett.

Galliano Island News

Special to The Times
Galliano Island, April 27.—Mrs. Morgan was a business visitor here on Wednesday. Miss May has returned after a holiday spent in North Vancouver. A very jolly children's tea party was held at Murcheson's Farm. Those present were Mrs. Patience and Dorothy, Mrs. Twiss Barbara, Lenden and Roger, Mrs. Radford, Mrs. Lord Betty and Lillian. Miss Sophia Georson has been married to Mr. Robert Wright in Vancouver. The many friends of Mr. Donald New are congratulating him on the passing of his examination for assistant sealer. The Mission Hall at Whalers Bay wants repairing, so it is hoped volunteers will come forward. Mr. Miller Higgs and daughter Ruth and Miss Locke have arrived and are staying at Cain House until his house at Whalers Bay is ready.

Luxton News

Special to The Times
Luxton, April 27.—A silver tea will be held at the home of Mrs. Secular, Luxton, in aid of the funds of the Luxton Hall, on Wednesday afternoon, April 29, at 3.30. The tea will be held under the auspices of the Luxton Hall committee, of which Mrs. Secular is a member. It is hoped that the effort will meet with the support of the district, as the hall is in need of funds, much improvement having taken place in construction and finish during the past twelve months, and consequently a drain has been made on the finances.

METCHOSIN NEWS

Special to The Times
Metchosin, April 27.—The directors of the Metchosin Farmers' Institute met at the home of H. G. Pierce, Metchosin, the president, C. E. Whitney-Griffiths in the chair. Considerable business was dealt with, and many matters of importance discussed. A suggestion was brought forward from the Sooke Farmers' Institute that a Fall Fair Association be formed, consisting of members from the Sooke, East Sooke and Metchosin districts, as according to recent legislation, not more than one rural fair will be assisted by the Department of Agriculture within a radius of fifteen miles. This would ensure a good fair each year, and each district would benefit alternately. The matter was left over for consideration.

TURNING BACK THE CLOCK

MILITARISM APPEARS

to have reasserted itself in Germany. The election of Field Marshal von Hindenburg to the presidency yesterday looks like a gesture of defiance to the Allies in particular and the world in general.

What now takes place in Germany as a result of the election of a president who is opposed to the system of government to which his office should bind him is of considerable importance; but subsequent internal developments in the Reich can be regarded as more or less insignificant in comparison with the immediate reaction of popular sentiment in those countries which were arrayed against Germany in the war.

None of the Allies will be deceived by any of von Hindenburg's pre-election declarations against the introduction of reactionary movements. They will all want to know what he meant when he said that "Germany will not be able to fulfill the conditions of the Dawes reparation plan—unless the foreign powers participating in the pact evince political and economic loyalty."

In the face of these advantages which she has gained—advantages which seemed impossible three years ago—Germany's action of yesterday is an incredible blunder. It will have the effect of stiffening militarism all over Europe at a time when economic conditions call for a reduction of war budgets.

There remains the Reichstag with a majority in favor of the republicans. Will the popular assembly develop a crisis on its own account and force a new general election, or will the crisis be developed by outside reaction to Hindenburg's victory? Upon the events of the immediate future republican Germany's existence will depend.

GRAND FORKS WON

COMPARISON OF THE result in the Grand Forks Greenwood constituency at the general election of last year with that of last Saturday's contest reveals the extent of the triumph which the Government has scored in electing Mr. Dugald McPherson to the vacancy, occasioned by the tragic death of the former Conservative representative of the riding.

As we have pointed out, however, the issue in the byelection contest was one exclusively confined to the record of the Government. Nothing in the nature of an outstanding local question was involved in the campaign.

A conspicuous feature of the result is the rebuff which the electors have administered to the Leader of the Opposition. Mr. Pooley spent a good deal of time on the ground; but he omitted to appear before the people of Grand Forks—obviously the key position of the constituency from the Conservative point of view.

The Government has every cause to feel flattered that the Grand Forks-Greenwood riding is back in the Liberal column. Saturday's verdict obviously improves its position in the Legislature and gives it the additional authority which will remove much of the necessity for compromise—essentially in the public interest.

JOIN THE LEAGUE

BETWEEN NOW AND

Friday of this week the League of Nations Society of Canada hopes to increase its membership to at least 100,000. This objective should not be very difficult to reach if all the people in this country who are desirous of assisting the cause of peace will enroll themselves members of their local body at a cost of a dollar apiece.

If there were no other well-defined reasons why the League of Nations should be supported by the peoples of the world and made popular in those countries which are not yet on the membership roster, the events of the last twenty-four hours in Germany will convey some idea of how necessary it is to strengthen the influence of the only existing agency which is endeavoring to outlaw all war by international consent.

It is thus an indication of what should be possible to achieve in the interests of universal accord as the influence of the League of Nations is allowed to grow in all the countries. This organization can create a state of mind which would sanction short shrift for the outlaw.

The Nova Scotia police authorities are rather pleased with themselves these days. They believe that information which they passed on has resulted in the arrest of the "Spanish Prisoner." We are afraid that the "gentleman" in

question is a great deal more successful and better organized than some people imagine. And "he" has been doing business for a great many years. "He" will no doubt continue long after blue sky laws in this country have put an end to his wild-cat counterpart.

DR. FRANK CRANE

Business Women's Coming of Age

THE business woman is coming of age. She is finding means of asserting herself and of living her life. There is a certain class of women who by nature are not dependent on men. They are created with sufficient vitality or circumspection to manage their own affairs, if they stand on their own feet.

There is no reason why they should have the same companionship and the advantages of fellowship which men have in their clubs. The number of these women, the better class of earners in New York, have gathered together and formed a clubhouse association.

They intend to build a substantial clubhouse structure on Twenty-third Street and to use it both for the training of members and for entertaining their friends. In the reception room and other public rooms of the house men will be welcomed, and women can entertain their men friends there.

There will be no rules or restrictions looked after by men. There will be no representatives of the fluff ruffles class present. They will not want to come, and they will not be wanted if they do come.

Men make all sorts of provisions for dependent women. When working girls and mistresses are looked out for. They do not make any provision for the woman who takes care of herself and is self-respecting and independent.

It is one sense every man's hand, and especially every woman's, is against the idea of an ordinary woman resents an efficient, self-supporting female. She is a menace to her own dependent condition.

The ordinary man also regards a woman as his dependent. She is to be looked after and protected. When he finds one that is able to take care of herself and who meets her own needs, he is surprised.

Good manners are made up of petty sacrifices. Remembrance and reflection how allied! What thin partitions sense from thought divide!—Pope.

WHO'S WHO IN HISTORY TO-DAY

MONDAY, APRIL 27

FERDINAND MAGELLAN (Fernão de Magalhães) Portuguese explorer, the discoverer of the Strait of Magellan and of the Philippine Islands, was killed by natives of the island of Mactan on April 27, 1521.

MARY WOLLSTONECRAFT English author, noted as one of the earliest avowed feminists, was born in London on April 27, 1759. Her earliest employment was as a reader and translator for Dr. Samuel Johnson. Her husband was William Godwin, a philosopher and political writer.

TOUSSAINT LOUVERTURE (Dominique François) famous Haitian revolutionary, died at the Castle of Joux in France on April 27, 1803. A negro slave, with a rudimentary education, he led a successful revolution against the French governors of the island. Later he was captured and sent to prison in France.

RALPH WALDO EMERSON Distinguished American essayist, poet and lecturer, died at Concord, Mass., on April 27, 1882. For a few years of his early life he was a Unitarian clergyman. In addition to his "Essays" and "Poems," his works include "English Traits" and "Conduct of Life."

HILLCREST MINERS

To the Editor:—Saturday's Times contain the gratifying announcement that Hillcrest miners (the hardest standstays) have torn up their union cards and made a direct appeal to the Government. The whole of the miners in Alberta are now non-union, and are assured of steady work for the summer. If the Hillcrest miners in Nova Scotia, who now for six weeks, could be persuaded to do the same thing Canada would have a right prosperous year.

WALTER POSTER, Colquhoun, B.C., April 26, 1925.

UPLANDS ASSESSMENT

To the Editor:—Will you please permit me to reply to the letter of Revue Ansoembe in your issue of April 25. The Revue instead of sticking to facts and arguments uses innuendoes in his personal attack on me for my opposition to the Uplands by-law. At his public meeting held in the Uplands he made a speech called attention to a clause in the by-law as passed by the council whereby residents and private owners of property in the Uplands would get the special acreage assessment granted the company, and so be assessed at about one-quarter of the rest of Oak Bay.

There is another provision in the by-law that, in my opinion, is not altogether dangerous from the standpoint of the municipality, and that is that Oak Bay keep up the roads and boulevards and the improvements taken over in as good a manner as the average upkeep in the past.

The taking over of a heavy liability in the shape of roads, boulevards, etc., and paying therefor the sum of \$2,000,000, is a serious undertaking. Under this by-law, should it become necessary to levy an assessment for the upkeep of the boulevards in Oak Bay, as is done in many cities, it will be impossible to so assess the Uplands.

In other cities that I have known where improvement companies subdivide property and put in the street improvements, the owners have taken the cost as they sold the property, and have been glad to be relieved of the city accept the roads and improvements as a free gift.

The Reeve takes up considerable space in his letter to show that when his proposition as a \$3,000,000 proposition that it was an incomplete and misleading statement. I have it on good authority that the Uplands have been invested fully \$1,000,000 in the undertaking. They have lost all they put in, and the mortgages are the present owners.

As to Mr. Harold Robertson's report, I have not one word of comment. It is in line with my own opinion from the start. I would like the Reeve to tell us how it is that "X," when provision was made five years ago for its assessment.

HEALTH & DISEASE X-Ray—Historical Note

The X-Ray was discovered by Professor Roentgen in November, 1895, just short of thirty years ago. It was the work of that great British scientist, Sir William Crookes, in his famous researches on the phosphorescence produced by the discharge of electricity through highly exhausted tubes known as Crookes' tubes.

When there is sufficient vacuum in the tube part of the glass becomes fluorescent, shining with a bright yellowish-green light. Roentgen found that in this condition the tube glowed and unknown type of ray. He called these rays "X-rays," and they were later named "Roentgen Rays" in honor of their discoverer.

These rays are not visible to the unaided eye, but have the power to penetrate opaque substances, such as wood, flesh, bones, and to a certain extent, metal.

The Roentgen Rays are not electrically but a form of electro-magnetic vibrations similar to light. They travel in straight lines and will cast the image or shadow of the object through which they pass on a photographic plate. The denser the object the more clear is the shadow.

The image of any object through which the rays pass may be seen on a screen of certain substances held in front of the object in a dark room.

Roentgen was the first scientist who exploited these peculiar qualities of the X-rays. He was the one who first demonstrated and made use of them particularly in the field of medicine.

RIFLE SHOOTING

The Fifth Regiment, C.G.A., held its weekly shoot at Clover Point on Saturday under very good conditions. The "A" class shoot was won by Major F. Richardson. There will be an executive meeting of the association to-morrow night after drill at the Arsenal.

Weismuller Helps Illinois Club To Retain Its Title

Chicago Swimmers Win Thirteenth Straight Amateur Swimming Championship

San Francisco, April 27.—The Illinois A.C. won yesterday its thirteenth straight national amateur athletic union swimming championship, pulling ahead of the fast coming San Francisco Olympic Club after Johnny Weismuller, had turned the final lap of the 400-yard relay race into the lead.

Chicago Swimmers Win Thirteenth Straight Amateur Swimming Championship. The Illinois A.C. won yesterday its thirteenth straight national amateur athletic union swimming championship, pulling ahead of the fast coming San Francisco Olympic Club after Johnny Weismuller, had turned the final lap of the 400-yard relay race into the lead.

English Track Men Beaten on Saturday

Philadelphia, April 26.—International competition, which saw the defeat of both Lord David Bury and the University of Cambridge and A. E. Porritt of Oxford, was overshadowed in the final events of the University of Pennsylvania relay carnival on Saturday by the attainments of a mighty team of relay stars from Georgetown University who won two events on Friday. The Hamilton relay team was third.

Death Sentence is Given in Alberta

Medicine Hat, April 27.—John Kolesch was found guilty of the murder of Trainman James H. Calkins at Walsh, Alta., on March 1 by a jury sitting under the direction of Mr. Justice Ives in the Supreme Court here Saturday, and was sentenced to hang on July 8. He appeared to be in no way affected by the sentence.

Funeral Guards Were Seen in Paris

Paris, April 27.—Strong forces of police, military and civil organizations were on hand to maintain order when the bodies of three of the four persons killed in the ambush of the meeting of the National Republican League Friday were buried from Notre Dame Cathedral Sunday.

ACCIDENTAL DEATH

Montreal, April 27.—Believed to have mistaken muriatic acid for some harmless fluid, a clerk in a fifty-one of this city, ran into his wife's room yesterday morning, shouting, "I'm poisoned, I'm poisoned," and dropped unconscious. He died in a hospital.

CHARGE DISMISSED

Nanaimo, April 27.—Evidence of a conflicting nature given by two Liquor Board operatives for the police and a member of the Nanaimo Police force in a case in which Magistrate Beveridge dismissed Tony Senini of Exton, an Italian, of a charge of selling bootleg liquor, was brought out in evidence that while the offence was supposed to have been committed April 6, Senini was not arrested until April 22.

CANADIAN BUSINESS GETTING BACK TO PRE-WAR STABILITY

Ottawa, April 27.—Canada's business has worked its way back to its pre-war basis of security. Latest figures, just compiled by the Bureau of Statistics here show that commercial failures in this country for last year were even less than those of 1914 and were far below the total for the previous two years.

Last year's business failures in manufacturing establishments, wholesale and retail stores and among agents and brokers, totaled 2,474, the new figures show. This is a big reduction from the 1923 total of 3,247 and a big downward drop from the 1922 figure of 3,695. Previous to 1922, of course, the business momentum caused by war activity everywhere was reflected in Canadian business and fewer failures were recorded.

Last year's figures for business failures are considerably lower than the figures for 1914, ten eventful years before. In 1914 business failures totaled 3,888 as against the 2,474 recorded last year. Thus, after fluctuating up and down during the war, business stability seems to have come back to its pre-war standard.

New figures compiled here set aside Conservative propaganda designed to prove that Liberal policies have been wrecking Canada's great woolen industry and her best shoe manufacturers. The number of workers employed by thirty-seven of Canada's leading woolen mills has grown steadily since the beginning of last year and has shown an upward movement even steadily in the last decade or so.

The value of boot and shoe production in this country, on the other hand was \$45,586,012 last year as against \$33,887,248 in 1916. On the whole, the boot and shoe industry does not appear to be suffering in any way from Liberal tariff and finance policies.

Four Times He Put Us Off

—Then Death Stepped In

When fire destroyed a large hotel in a Western Canadian City one winter morning two men were burned to death.

One of these had applied for an Imperial Life policy a few days before—but he had failed to keep any one of four different appointments he had made for a medical examination. His family thereby is deprived of the insurance money he intended they should have.

Strangely enough, the other man was insured under an Imperial Life Policy. And, although his policy had been in force only seven months, our cheque was sent to his family the very day proofs of his death were received by the Company.

Even a long life-time is not always sufficient in which to accumulate enough to protect one's dependents. But an estate definite, certain and permanent can be created in a few minutes through an Imperial Monthly Income policy.

Just send us your name and address and we'll mail you a booklet which tells more about it.

FORECASTS MADE OF CHURCHILL'S SPEECH

London, April 27.—With a unanimity almost uncanny but which probably is only the consequence of intelligent anticipation, since Winston Churchill, Chancellor of the Exchequer, is said to have taken unusual pains to prevent a leakage of his intentions, the newspaper prophets outline what they allege will be the main features of the Chancellor's budget statement in Parliament to-morrow. The country's trade is bad, and in his first budget Mr. Churchill is expected to do something striking, first to stimulate lazing industry, and second, to help win for the new Government popularity and a firm seat in the saddle.

INCOME TAX

The forecasts are that six pence, or perhaps a shilling, will be taken off the income tax, with the restoration of imperial tariff preference rates and the McKenna duties, and in addition, though here the prognostications are

more vague, the beginning of a method to provide sinews of war to enable the Government to introduce a new and comprehensive plan of social insurance for the benefit of the workers and to provide pensions for widows.

The imperial preference plan will admit dried fruits of Empire origin, duty free, with reduced duties on Empire-produced wines and tobacco. The restoration of the McKenna duties probably will mean a reimposition of thirty-three per cent duties on motor cars, musical instruments, films, clocks and watches.

GOLD STANDARD

It is also taken for granted that the Chancellor will announce the Government's plan to restore the gold standard; but it is not known whether this will mean allowing the expiration automatically at the end of the year of the embargo on the exportation of gold, and whether means will be found to raise this embargo at an earlier date. This part of Mr. Churchill's statement is anticipated with extraordinary interest because it is believed Britain's resumption of the gold standard will be speedily followed by other nations.

GEORGE A. COX DIED IN NOVA SCOTIA

Was Member of Legislative Council; Before That was Member of Assembly

Shelburne, N.S., April 27.—George A. Cox, eighty-eight, a member of the Legislative Council of Nova Scotia, died at his home here yesterday following a long illness. He is a member of the Legislative Assembly from 1904 to 1909, when he was appointed a member of the Council. Mr. Cox, who began his career as a ship's carpenter, was one of the most successful business men of the south shore of Nova Scotia.

PREPARE FOR ARMY CAMPS NOW IN U.S.

Twenty-five Per Cent of Estimated Quota of 50,000 Already Enrolled

New York, April 27.—With the 1925 United States Citizens' Military Training Camps still three months away, more than twenty-five per cent of the estimated quota attendance of 50,000 young men between the ages of seventeen and thirty-one already has been enrolled, according to an announcement by the War Department. This is double the enrollment at this time last year, and this Summer's quota will be 16,000 more than that of 1924.

Forty-two camps stretching across the continent from Fort McKinley, Maine, to the Presidio of San Francisco will be opened this Summer for the basic course and the three advanced courses in which citizenship and physical training will be instructed in the schedule with drill and instruction in the infantry, cavalry, field and coast artillery, engineers and signal corps branches of the military. Part of the schedule will run during the month of July and others during August, while Plattsburg, N.Y., will have two camps in succession.

ALL ON A LEVEL

The C.M.T.C. candidate is under no obligation except to spend thirty days of his time at one of the camps located near his home; the Government meets the expense of carfare to and from the camp, clothing, equipment, meals, bedding, lodging and entertainment. The President's son or the millionaire's heir who sleeps by the side of the farmer's boy, marches beside him in the ranks and eats next him in the mess hall in this annual democratic leveller, pays the same amount for his thirty days' vacation and training, exactly nothing.

SIXTH CORPS LEADS

The Sixth Army Corps area so far leads among the nine areas in which the nation is divided by the War Department for purposes of military administration. Fifty per cent of this section's quota of 5,000 already has been filled. It includes the states of Illinois, Michigan and Wisconsin. Next is the Fifth Corps area, including Ohio, Indiana, Kentucky and West Virginia with 38.4 per cent of a quota of 6,000. Third is the Fourth Corps area, including the southeastern states, with 35.5 per cent of a quota of 5,700.

GREAT IMPROVEMENT

Big business has realized, according to thousands of letters received by the officials in charge of the 1925 camps, that the youth who returns from the camp is more valuable to it than the young man who spent his vacation in some other way. His step is firmer, his eye clearer, his shoulders squarer and his chest deeper and he has a higher sense of co-operation and reaction to discipline than before.

Health and physical culture experts throughout the country have watched carefully the physical training of these thousands of youths. The preliminary medical examinations have shown that the young man today is no better physically than was his older brother of 1917 or 1918 when the selective draft examinations showed that fifty per cent of the youth of the nation was unfit for war service. Many of the young men with serious defects that are not organic, but which would be unable to pass the physical tests for the regular army, are allowed to enter special development camps and by careful feeding, special exercises, proper sleep periods and other measures, curvature of the spine, malnutrition, flat feet, under-development of the chest and lungs are cured in thirty days.

FOREST WEEK IN THE UNITED STATES

Washington, April 27.—American Forest Week, proclaimed by President Coolidge in a proclamation urging individual interest in forest restoration and perpetuation, is being observed throughout the country this week.

Through an extensive educational programme developed by a directing committee headed by the former Governor Frank O. Lowden of Illinois and supported by the various state governors, it is hoped to impress the public of the United States the need for its consideration of forestry problems. The committee comprises representatives of nearly 100 organizations, including state forestry and conservation commissions, civic and nature clubs, game protective societies, wood-using organizations and boys' and girls' clubs. Through the millions of members of these organizations the educational work is being conducted. At meetings during the week speakers will outline programmes for perpetuating the timber supply. Similar exercises are planned for virtually every schoolhouse in the country. Addresses by prominent persons will be carried by radio, and state and local committees have been formed to centre observance of the week in the communities.

Forest Week, heretofore directed solely by the United States Forest Service and designed to stress the importance of preventing timber fires. This year the fire hazard is being emphasized along with the urgency of reforestation and timber conservation. Provision also is made for distribution of forest trees to private owners for planting. It is estimated the United States contains 41,000,000 acres of denuded forest land which should be replanted. According to the Forest Service, less than 50,000 acres of young forests are planted annually in this country by all agencies, while Japan plants more than 350,000 acres each year.

TWO BODIES FOUND

Toronto, April 27.—Discovery of the body of a man in the bushes at Lennox Park, five miles from Port Credit, on the Hamilton Highway, was followed yesterday by the finding of another body in a dense marsh on the west side of the Humber River. In neither case has identity been made. The first body was discovered by children and the second by picnickers.

ZANNI'S CONVOY PREPARING FOR PACIFIC FLIGHT

Tug Imprearia is outfitting in Seattle; Will Lay Out Supply Stations on Route

To outfit for service as a convoy for Maj. Pedro L. Zanni of the Argentine Army, who is making an airplane flight around the world, the powerful seagoing tug Imprearia arrived in Seattle at 7 o'clock Friday morning from Vancouver, B.C., according to advices received here.

The tugs are owned by the International Towing Company of Vancouver. They will convey Major Zanni from Japan across the Pacific to British Columbia. Negotiations for the two vessels were conducted by Frank Gilkey of the International Towing Company, and Patrio D. Murphy, representing Major Zanni.

The tugs will be stationed at the starting point, and finish of each stage of the flight across the Pacific and will be in constant communication with each other by wireless. On her way to Japan the Imprearia will prepare sighting places and land supplies for Major Zanni, who is expected to leave Tokio May 1.

RUTH ALEXANDER HAD HEAVY LIST

Fast Steamship Took Regular Spring Crowd From North;

With a list of about 300 passengers and a heavy cargo of freight from Seattle, the Ruth Alexander, of the Pacific Steamship Company's coast fleet, sailed from Victoria Sunday morning. There were a number of Victorians amongst her passengers, prominent amongst them being Leslie Russell, son of a wealthy California business man, who has been in this city for some time on a vacation and plans ultimately to make his home here.

Before he left Mr. Russell said that he would long remember his stay in Victoria. It was a place of many happy memories, he declared, and he spent many joyous hours here. "When I settle down," said Mr. Russell just before the ship sailed, "I am going to bring my wife and

family here to live. There is not another place in all the world where I would rather spend my time." Mr. Russell will continue into the East after visiting relatives in California. The Dorothy Alexander arrived here on Sunday morning at 2 o'clock, six hours late from the South, and with a good passenger list aboard. Heavy head winds delayed the vessel in her northbound passage. She went on to Seattle in the early hours of the morning.

On Thursday of this week the Emma Alexander will arrive here from California. She carries a good list. The Dorothy Alexander sails from here at 11 o'clock the same night. The Emma is expected to arrive here at 10 o'clock from Seattle.

COMMISSION HEARS COMPLAINTS FROM SHIPPING COMPANY

Officers and Attorneys Meet in Seattle to Discuss Alleged Discrimination

Railroad and steamship attorneys and traffic officials from nearly every important American port on the Pacific Coast are in Seattle to attend an Interstate Commerce Commission hearing that opened at the Chamber of Commerce Friday morning on the recent application of the Nelson Steamship Company of San Francisco for an order compelling the transcontinental railroads and their various connecting lines to establish through routes and joint or proportional rates with the steamship company through Pacific ports on traffic originating at or destined to points in most of the states west of the Mississippi river.

The railroads for several years past have maintained such routes and rates in connection with the Pacific Steamship Company and the McCormick Steamship Line. The Nelson company complained to the commission that the railroads' refusal of its request for a similar traffic arrangement constituted a discrimination that the commission should order removed.

The steamship company presented as witnesses shippers who testified in support of its contention that the through routes and rates are necessary and desirable and would be beneficial to shippers. The Pacific Coast Steamship Company and the McCormick Line, contesting this contention, were scheduled to call other shippers to testify that the present joint rail and water rates arrangement was satisfactory and that the water lines now maintaining through routes and rates with the railroads were able to handle all business offered, making the arrangement by the Nelson line unnecessary.

Before the hearing ends the railroads will present their side of the case. It is probable that they will oppose the application on the ground that the water lines with which they are now maintaining through routes and rates are able to handle all business offered and that to bring other water lines into the arrangement would divide the business and possibly impair and make the water end of the service less dependable.

The hearing is presided over by R. L. Gades, examiner for the commission.

TOURIST SHIP IS NOW ON WAY HERE

Empress of France Left the Hawaiian Islands Yesterday, Says Wireless

The Empress of France, on her round-the-world cruise, left Hilo, Hawaiian group, for Victoria at 8 o'clock last night, according to wireless reports from the ship received by Gonatas station last night. The big Canadian Pacific steamship is bringing many hundreds of pleasure-seeking tourists from the mid-Pacific to see the wonders of Vancouver Island's capital. While here they will be entertained at a dinner and ball at the Empress Hotel. They will also take automobile drives about the city and scenic tours. The vessel is due to reach here on May 2, Saturday afternoon, and will leave early Sunday morning. She will then go to Vancouver, where another entertainment awaits the passengers.

CONSIDERS MOTION ON SEALING TREATY

Matter Has Been Placed Before Marine Minister, Chamber Notified

The views of the Victoria Chamber of Commerce recommending the termination of the Pelagic Sealing Treaty will receive the Government's careful consideration, the Chamber of Commerce was advised in a letter from the Prime Minister's office today. The chamber's views have been placed before Hon. P. J. A. Cardin, Minister of Marine and Fisheries. The subject was brought before the directors by Alderman A. E. Todd several weeks ago and after discussion the directors decided in favor of a termination of the treaty, which keeps closed the sealing grounds.

Recover Bodies of Drowned Men

Port Stanley, Ont., April 27.—The bodies of Frank Payne and Bert Butcher of Port Stanley and Charles Wright, Cleveland, were picked up in Lake Erie yesterday about thirty-two miles northwest of Cleveland by one of a group of Port Stanley fishing tugs which started out in search of them. The victims were companions of George Knaggs, whose body was found Thursday. The four men went to Cleveland on Saturday the 18th, on a gasoline boat Anna Maybelle, and attempted to return the next day but they were caught in a storm. The bodies, which were brought here, were attired in lifebelts and were in good condition. Death was due to exposure.

ITO ON THURSDAY

The steamer Iyo Maru of the Nippon Yusen Kaisha will arrive in this port on April 30, it was stated here this morning by A. C. Hebb, agent for the line here. The ship's schedule calls for her arrival of May 1, but she is bettering her time and making a good passage on the Pacific. There are several hundred tons of freight for Victoria, including a large optional consignment for Vancouver, which may be dropped here. There are silk bales aboard as well, valued at about \$3,000,000.

TIMBER CAMPS AT WORK ON ISLAND

Four Companies in Cowichan Lake District Are Cutting Timber

"The lumber business is looking better," said T. E. Beasley, general superintendent of the Esquimalt and Nanaimo Railway, this morning, "and the four companies in the vicinity of Cowichan Lake are now operating and shipping their logs to assembling points, while their lumber is finding its way to the various markets of the world." Mr. Beasley is of the opinion that lumbering this year will be brisk throughout the season and that all the camps will make a heavy cutting. Indications of an early rush of business are unmistakable.

Lumbermen in Victoria are reserved in their statements regarding the situation on the island and in the timber camps at present there is a feeling of uncertainty prevailing because of slack markets. Just what the output from the island camps will be it is difficult to estimate, lumbermen say.

DR. CLAY ON THE DEITY OF JESUS CHRIST

Excerpts from Sermon Delivered on Sunday at St. Andrew's Presbyterian Church

Rev. Dr. W. Leslie Clay, preaching at St. Andrew's Presbyterian Church on Sunday on "The Deity of Jesus Christ," spoke from the following text:

"What think ye of Christ, whose Son is He?" Matt. xxi. 42. "Is not this the carpenter?" Mark vi. 3.

To answer the first question with the second is a remarkably simple method of getting rid of a problem. It requires no mental effort to solve a problem if you deny that there is a problem to solve. Easy, but is it wise? To dismiss the personality and claims of Jesus Christ with a weary gesture, saying, "A village carpenter, worthy of no special notice or sight and marvelous devotion, long since dead, why disturb his sleep? Is to declare oneself unable or unwilling to face a question of vital importance.

In answer to that question a most daring proposition has been advanced in a remarkable unananimity and persistence by the Church of Christ since the days of the Apostles. It is that Jesus Christ of Nazareth, "emphatically the holy and holiest among the mighty," is very God of very God, Roman Catholic, Greek Catholic, Lutheran, Calvinist, Anglican, Baptist, Methodist, Episcopalian, Presbyterian, and other highest of creation and crown Him Lord of All. The mystery of the Trinity not one of them understood. It is high, cannot be attained unto. It deep he cannot fathom it. But the evidence for it he cannot refute; and that evidence as it touches Jesus Christ, the second person of the Trinity, is what interests us to-day.

1. One line of evidence, already hinted at, is found in vast multitude of people, of various climes, in various ages, and of varying culture, who recognize His godhead. Have all these people been deceived? That is possible, but it is extremely improbable. Is it not significant and well high conclusive, that to-day on this continent, so unlike, in almost every feature, the lands which we meet every one of every ten whom we meet esteem it an honor to call themselves by His name. Beneath all our differences, and among all our differences, there are mighty convictions, declaring that Jesus is Lord. He said that if He were lifted up from the earth He would draw all men unto Him. The condition was fulfilled, the prophecy is in process of fulfillment; and one day the boundary that divides the Christian from non-Christian shall have disappeared. All men shall have been drawn meanwhile in the loyalty of an ever-increasing number who find strength, not in any exclusive, conclusive, evidence of the deity of Jesus Christ.

2. The books of the New Testament surely another line of evidence. Are these reliable? Can we depend upon them? After the most searching criticism their reliability is absolutely unquestioned. They were written by eye-witnesses, and appealed to eye-witnesses. That which the writers had seen and heard and handled they declared to others in their letters when it was possible for those others who had seen and heard to expose any misstatements that were made. Such was the bearing of the eye-witnesses that the Early Christians might have escaped all persecution, lived in peace and happiness and even erected a statue to Christ in the Pantheon if only they had been willing to acknowledge Christianity as one of several religions and Christ as one of many prophets and saviors. But they had not so learned Christ. He was to them not one among many, but splendidly isolated, King of Kings and Lord of Lords, abiding supremacy with none. And that unique glory they affirmed in life and confirmed in martyrdom.

The line of evidence that has never been answered is afforded us by the achievements of Jesus. The final proof of Christ's deity is Christianity. For Christianity is that which we so often misrepresent. The Christianity that struggles for the mastery in our souls against all our human weaknesses is Christianity; it is Christianity that through the centuries has swept from island to island, and from continent to continent, and still persists and spreads, and is confident of ultimate universal conquest. Already the moral standards of the world have yielded to the Christian supremacy. Nations of the earth have achieved their freedom under His divine leadership. Time, that merciless judge that matches the crown from every unworthy head, has recognized in every unworthy hand, has established the right of Jesus Christ and crowned Him with many crowns, and features, say His sceptre over all the earth.

Threading these among other lines of evidence, in response to Christ's own invitation to exercise our best powers of thought upon His person, His claims, His teaching and His influence, we reach the point where with all reverence we pray with adoring Thomas, "My Lord and My God."

OPONENTS OF CHURCH UNION MEET WEDNESDAY

Public Meeting Called at St. Andrew's Presbyterian Church April 29

The Presbyterian Church will this year complete its half-century of service. A public meeting will be held at St. Andrew's Church on Wednesday evening at 8 o'clock for the purpose of laying before the people the plans that have been adopted by the anti-unionists and the general missionary policies that will be pursued after July 16.

Rev. E. G. Thomson of Vancouver, who attended a meeting of the Central board in Toronto last month, will explain these policies. A report of a tour through the Upper Country, just completed, will be made, and other addresses will aim at removing misconceptions concerning the strength, liberty and catholicity of the continuing church.

The meeting is designed simply for the purpose of giving information, and all Presbyterians and others interested in the religious problems of Canada will be welcome.

ON POLICE DOCKET

George Temple, pleading guilty to a charge of selling whisky, was fined \$400 by Magistrate Jay in City police court to-day. M. B. Jackson, K.C. appeared for the accused.

Mah Jew and seventeen other Chinese, pleading guilty to being in possession of gaming tables in rear of Figgard Street premises were each fined \$10. Lottery equipment was ordered confiscated, sufficient for four tables of faro, and the usual ordinary paraphernalia. W. C. Moresby entered a plea of guilty for the accused. Fifty cents in silver were found on the table, said Chief Fry. Chinatown was broke he was instructed, submitted Mr. Moresby, asking a nominal fine.

Sammi Chin, convicted of possession of opium was fined \$300 and sentenced to six months' imprisonment when his landlord, on whom he relied as a witness, told the court he knew nothing about his lodger.

V. M. Clark, charged with failure to secure a proper license plate for a truck was remanded until Thursday for hearing. Police witnesses examined the truck as carrying a load of scrap iron and a demonstration number. Another was driving, the court was told. G. A. Cameron appeared for defendant.

A certificate from a local medical practitioner that "in his opinion the accused should not appear in court to-day," was a poor defence to want of appearance on bail, ruled the court in the case of Guy Ferguson. The accused, charged on remand with supplying beer to a minor, was fined \$300.

A charge of assault preferred by Mrs. E. M. S. Simmonds against Mrs. M. Jones resulted in a fine of one dollar on the defendant and a lecture for complainant. R. C. Lowe appeared for complainant and P. W. Leighton for defendant.

Treasurer Will Tell Absent Taxpayers of Prepayment Plan

Owners of Victoria property who reside in other communities will be advised, during the coming week, by City Treasurer Smith, of the city's advance tax payment plan.

The taxation by-law setting the mill rate slightly lower than last year will be finally adopted this evening by the City Council, and this favorable fact, coupled with the general reduction in assessments, is a relief to all city property, will result in lower net payments being required from property owners.

In outlining the plan points City Treasurer Smith will advise out-of-town taxpayers to take advantage of the six per cent. interest the city is allowing on advance payments this year.

There are about twelve hundred taxpayers on the list with whom Mr. Smith proposes to get into communication. Most of these are residents in the Pacific provinces, though large numbers now reside in California, England, Australia, the nations of Europe and almost all the States of the Union are included in the countries where Victoria property owners now reside.

Bellingham Tulip Festival Excursion this week will be held. Due to a disappointment this year, get your tickets early. Princess Louise will leave Victoria at 9 a.m. May 9 for Bellingham.

CANADA NEEDS HIGH IDEALS TO DEVELOP A NATIONAL SPIRIT

Harry Charlesworth Speaks to Gyrò Club on "Canadianism"

"Canadianism" was the topic of a very interesting address given to-day by Harry Charlesworth, secretary of the B.C. Teachers' Federation, before the Gyrò Club. Mr. Charlesworth pointed out some of the difficulties which confronted the creation of a national spirit, but offered some ways of overcoming them.

"If we can be given the same ideals of self-sacrifice and service which united us in war then we can create a national spirit and unite the country," declared Mr. Charlesworth.

Some of the difficulties referred to by the speaker in creating a national spirit were the size of Canada, the ten different governments, all of which cling to certain privileges and sometimes threaten to withdraw from Confederation unless they had their way, and sectional differences.

"We hear talk of withdrawing from Confederation, of seceding from Canada and of annexation to the United States, but all these things are absurd from the Canadian viewpoint, and are anti-Canadian," stated Mr. Charlesworth.

Many of the difficulties might be overcome, said the speaker, by travel, by education, by demanding a wide vision by people in authority, by a greater community service clubs and by Canadian literature.

R. F. ELY, PIONEER RESIDENT, DEAD

Built One of First Houses in Fairfield; Was Pioneer Contractor

There passed away this morning after a short illness another old-timer of Victoria in the person of Robert F. Ely at the family home, 1241 Fairview Road. The late Mr. Ely was born in Birkenhead, Liverpool, England, on January 8, 1853.

He came to the Province about fifty years ago and engaged in the road construction about Port Moody, and worked on the old stern wheeler steamer, in canal waters, for some years. Mr. Ely was associated in later years with the late J. W. Moller in the painting business. Of late years he has been contracting for himself having associated with him Messrs. Frank Savage and Thomas Amos of this city.

ONE OF FIRST HOUSES IN FAIRFIELD. The late Mr. Ely built one of the first houses in the Fairfield district and has continued to reside there for the past forty years.

He leaves to mourn his loss a widow and two sons, Richard H. Ely of Oakland, Calif., and Robert F. Ely, Barrister of Armstrong, B.C. The funeral will be held from the R.C. Funeral Parlors on Wednesday at 2.30. Dr. Sippell officiating. Interment will be made in Ross Bay cemetery.

The death occurred at noon to-day at St. Joseph's Hospital, of George Lyburne, resident of Lake Hill. Announcements of the funeral arrangements will be made later.

There passed away this morning at St. Joseph's Hospital, Margery Curry daughter of Mr. and Mrs. John J. Curry of William Street, aged twelve years eight months. Her death is mourned by her parents and three brothers. The remains are resting at the Thomson Funeral Home, 1633 Quebec Street, from where the funeral will take place on Wednesday afternoon at 1.30 o'clock. Rev. Frank McNeil, of the Belmont Avenue Methodist Church, will conduct the service, which will be held from 10 to 11 a.m. at Ross Bay Cemetery.

The funeral of Mrs. Stella Veronica Knowles, who passed away last Wednesday, took place Saturday morning. The cortege left the Sands Funeral Chapel at 8.30 o'clock, and ten minutes later mass was celebrated at St. Andrew's Cathedral by Rev. Father O'Brien. At the cemetery the service was conducted by Rev. Father Deely. Relatives and a large gathering of sympathizing friends were in attendance. The floral tributes were many and beautiful. The remains were interred in the West by Rev. Father O'Brien. W. H. Roberts, A. Knowles and J. M. Grant acted as pallbearers. The remains were laid to rest at Ross Bay Cemetery.

Service for the late Mrs. Martha Elizabeth Nobbs was conducted Saturday afternoon at 3 o'clock in the B.C. Funeral Chapel by Mr. R. Hamilton. There was a very large gathering of friends and many beautiful floral offerings were received. The hymns sung were "Thou Art Come" and "Gracious Spirit, At the Grave," Mr. P. Smart held services and the hymn sung was "O Calvary." The following acted as pallbearers: J. Levee, W. McKinnon, J. Daniels, W. C. Pettier, D. Donaldson and H. Scroggie. The remains were laid to rest at Ross Bay cemetery.

GARDENERS ASK CHAMBER OF COMMERCE DIRECTORS TO ENDORSE RESOLUTION

Beautiful Gardens One of City's Great Assets They Claim

Surplus city water at a reduced rate during the summer months sought by the Victoria and District Gardeners' Association in a resolution submitted for endorsement of the directors of the Victoria Chamber of Commerce. The resolution is being sent to all organizations in the city. It claims that the gardens of Victoria are one of the city's best and biggest assets. During the summer months they need liberal supplies of water but many citizens are deterred from watering lawns and flower beds by the high price of water and the beauty of the city is consequently marred. The high price of water also greatly handicaps families of limited income who depend upon the produce of gardens for a large part of their food. A fifty per cent discount of water used in excess of ordinary consumption was asked for the months of June, July and August.

UPHILL ALLEGES DISCRIMINATION IN INTERIOR MINES

Tom Uphill, labor member for Fernie, arrived in Victoria to-day with charges that certain miners in the Fernie district are being discriminated against by the operators, following the recent industrial troubles there. He placed the matter before the Attorney-General to see if some plan of action could not be worked out by the Province.

"There are some thirty men, heads of families, some of them who have been here for twenty-five years, and with their own homes bought and paid for in the district, and now they can't get jobs, while other men are taken on," Mr. Uphill said. "These men joined the United Mine Workers of America in 1920, when notices were posted in the mines by the company requiring all employees to join that organization, and I have one of the posted notices here to prove it to the Attorney-General."

Mr. Uphill said that outside of this Fernie district, as the mines have resumed operations.

REFUGES INVITED BACK TO BULGARIA

Peasant Leader Says His Party Not Guaranteeing Coburg Dynasty

Many Peasants Hostile to Government Gathering in Belgrade

Vienna, April 27.—It is reported here that King Boris of Bulgaria, in an autographed letter to M. Obff, leader of the Bulgarian refugees in Jugo-Slavia, invited the members of the Peasant Party to return to their country to return home, their representatives to enter the Government.

The refugee leader is said to have replied that the refugees were ready to return, but were not prepared to guarantee the retention of the Coburg dynasty, the present ruling house, on the Bulgarian throne.

It is stated in official reports received here that great numbers of Bulgarian peasants hostile to their government are arriving in Belgrade.

TO SELL GROCERIES IN THE EVENINGS

Small Storekeepers in Vancouver Are About to Have Present By-law Repealed

Vancouver, April 27.—That groceries will be purchasable in the evenings in Vancouver is practically a foregone conclusion, it was learned at the City Hall to-day when McQueen, city clerk, and Charles Jones, license inspector, completed checking over the petition signed by hundreds of small storekeepers asking repeal of the early closing by-law so far as the sale of groceries after 6 p.m. is concerned.

While the actual figures will not be made public till the City Council meets this evening, the civic officials admitted that well over fifty per cent of the dealers who have signed the petition.

A recent check by the police showed there were 299 such dealers in Vancouver, and the city legal department has ruled that all must be considered in checking the petition.

REV. R. F. KIBLER ACCEPTS CALL TO OREGON CHURCH

Announcement Made by Pastor of First Lutheran Church on Sunday

In opening his sermon Sunday morning at St. Paul's Lutheran Church the pastor, Rev. R. F. Kibler announced his acceptance of the call extended him by First Lutheran Church, Baker, Oregon, and stated that he would wind up his ministry of nearly five years at St. Paul's on May 31, and would move with his family to his new field. A special congregational meeting will be held Wednesday evening at 7 o'clock for the purpose of calling a successor to Rev. Kibler, who will take over the work of the church the middle of July or August 1. Ministers from Vancouver, Bellingham, Seattle and Port Angeles will supply the pulpit during the interim. All members of the congregation are requested to be present at this special meeting.

COSMOPOLITAN CAST FEATURED IN RAFAEL SABATINI'S "SEA HAWK"

Capitol Theatre Scene of Re-engagement of Colorful Drama With Milton Sills in the Lead

Theatre-goers are accustomed to seeing casts of all nationalities. In their screen fare they see English, American, French and Japanese actors playing side by side, but in true cosmopolitanism none of them can equal Frank Lloyd's production of "The Sea Hawk," now playing at the Capitol Theatre.

Milton Sills, who plays the leading role in "The Sea Hawk," that of Sir Oliver Tressilian, who is later transformed into the redoubtable Moslem pirate of the Mediterranean, the iron-souled Sakr-el-Bahr of Rafael Sabatini's most popular novel, was born in Chicago, and early in life adopted a stage career.

Enid Bennett, who plays the role of Rosemund, was born in Western Australia, in the town of York. She has long been a popular leading woman in the films.

Wallace Beery, who acts the role of the villainous seaman, Jasper Leigh, was born in Kansas City, Mo. Lloyd Hughes, playing the weak brother of Sir Oliver, is a native of Babes, Ariz.

Frank Currier, old time stage favorite, was born in Norwich, Conn. Sydney, Nova Scotia, was the

Chile is represented by Christine Monti, seen briefly in "The Sea Hawk" as the infant of Spain. Her grandfather was for ten years president of that country. Her father was president of Chile for five years and her uncle for four years.
Two members of the cast hail from Naples, Italy—Hector V. Sarno and Albert Frisco. London, England is represented by Robert Bolder; Glasgow, Scotland, by the director-producer, Frank Lloyd; Australia, by Marc MacDermott, who was born in Sydney. Kathleen Key was born in Buffalo.

With such a cosmopolitan tinge to the cast of leading players it need cause no surprise to learn that Mexico, Denmark, Switzerland, Sweden, France, Spain, Algiers, India, British East Africa, Madagascar, Greece and numerous other countries are represented among the extras and players of "bits" in "The Sea Hawk." More than half the nations of the world have a countryman in the cast.

Popular Musical Comedy Success at the Playhouse

"A Night in Venice" is Being Offered by Frank Morton Company

A notable double bill will be the attraction at the Playhouse, starting to-night, with the Frank Morton Company offering another of their popular musical comedy successes, "A Night in Venice."
Frank Morton appears in black-face, taking the part of "Smoke," a valet to a globe-trotting nobleman. The adventures of the two, amid the romantic scenes of old Italy, form the basis of an unusually hilarious plot. Dave Dumberton is cast as the globe-trotter, with Gladys Vaughan as a cook's tourist, Roy Earl in a straight role, Hilda Cooke, Audrey Bennett, Anita Holt and Alleen Bennett in supporting parts. With all new costumes, settings and lighting effect, together with the always popular musical specialties of the principals and ensemble chorus, "A Night in Venice" promises to be another Morton hit. On the screen Du Maurier's celebrated play, "Tribby," will be seen, with Andree Lafayette in the title role and Edmond Carewe as Svengali.

BOYS DEFEAT GIRLS IN MUSIC CONTEST

Students of Columbia School of Music in Keen Contest

Some weeks ago the Columbia School of Music instituted the first of a series of programmes contests between the boy and girl students of the school, the test being decided by the vote of those who were present. The eighth recital of the season, which took place last Friday evening before a large gathering of people, was in reality a challenge by the boys who at the first contest met defeat by a very narrow majority. On this occasion the tables were turned and the boys won on a vote of 125 to thirty-eight. From the very commencement of the programme it was easily seen that the boys were taking no chances of a second defeat, not that they outclasses the girls to the degree that the vote might indicate, but they certainly deserved the honors of the evening. The two programmes given consisted of piano duets and solos, and vocal and violin solos, each also containing an eight-hand piano quartette, this latter being quite well executed by both sides, giving several evidences of the careful and excellent teaching on the part of the principal, Mrs. Burdon-Murphy and her competent staff. The benefits of these recitals are many, the general improvement all round being clearly seen and demonstrated.

The votes were counted by Mr. Kissinger and Mr. Bell and the result was announced by School Trustee H. O. Litchfield who, in the course of some encouraging remarks, congratulated all concerned in the well-ordered programmes, and said that he had attended several of these student recitals. Such meetings, he said, could not but bring about good results and that the idea of such affairs was an excellent one.

The contestants were from the intermediate grades of the school and those on the winning side were: Pianoforte division—Raymond Kissinger, Brian Burdon-Murphy, Marshall Whitworth, Jack Baxter, George Leith, Kenneth Bonner, Tom Ross, Schubert Fraser, Ian Grant and Desmond Burdon-Murphy. In the violin department were Robert McKenzie and George Tate. In the vocal was Ian Thompson. Those taking part in the eight-hand pianoforte quartette were Desmond Burdon-Murphy and Tom Ross at piano one and Jack Baxter and George Leith at piano two. On the girls' side were: Pianoforte—Dorothea Stanford, Doris Waite, Alice Bell, Jean Plowright, Emma

McKee, Charles "Buddy" Post, Gilbert Holmes, Alec Francis and Edith Yorke.

Agnes Ayres and Antonio Moreno Play at Coliseum

"The Story Without a Name" is From Pen of Arthur Stringer

"The Story Without a Name," a new Irvin Willat production for Paramount, with Agnes Ayres and Antonio Moreno featured in the principal roles is being shown at the Coliseum Theatre, where it will remain for the balance of the week.

The story, by Arthur Stringer, first appeared as a Radio-Prime-Time story in Photoplay Magazine. Victor Irvin wrote the screen play. It tells of a young inventor, working for the government, who has just perfected a "death ray" machine, an invention destined to revolutionize modern warfare. The instrument has been successfully tested, and the scientist is making preparations for his departure to turn over the machine to proper officials when something unexpected happens.

What? That's the question the picture itself will have to answer for the fans. And it is said to provide a pleasant evening's entertainment. Playing in support of the leading players is an unusually capable cast of prominent players which includes Tyrone Power, Dagmar Godowsky,

Shaw, Ruby Cobbett, Muriel Woods, Gwendolyn Fraser, Marjorie Oliver, Marjorie Moffatt, Marjorie Henderson, Bonnie Woods, Marjorie Peden and Mary Leith. In the violin department were Jean Bass and Wanita Aldred. In the vocal was Dorothea Stanford. Those playing in the eight-hand quartette were Alice Bell and Marjorie Aldred and Mary Leith at piano two.

Music Lovers' Night At Capitol To-night

To-night the Capitol Theatre will present its Music Lovers' Night under the leadership of A. Prescott. A suitable and popular programme has been selected to be rendered in conjunction with the feature film "The Sea Hawk," starring Milton Sills, and as special numbers the following have been selected: Overture, "Lustspiel"; Kela Bela; "Three Dances from Nell Gwynn," E. Gorman; "Suite from India," F. Popy; song, "O, Promise Me," Dekoven; "Plymouth Hoe," Ansell.

Reginald Hincks And Company Open In Musical Farce

"The Black Prince" Will Justify Hard Work at Rehearsals

To-night at the Coliseum Theatre the Hincks Company, after a well-earned rest, will open a new musical farce, "The Black Prince." If the show goes over anything like the rehearsals have done the public can be assured of something far out of the ordinary, as there has been more time wasted over laughing at the dialogue and situations of this play than has been the case with any other play for a long time.

The music is said to be all of the most popular variety and the entire cast, with the exception of Miss Peggy Lewis, who is still in hospital, will be there. Will Marshall is in a juvenile role with George Brydson as a Scot. Valerie Bellby and Eva Hart represent the fairer sex, while Reginald Hincks has his beloved part of the downtrodden male. Ernie Petch has an entirely new character, that of a dark man. He has many times played the woman but never before a man and his comedy is going to be a knockout.

'The Tenth Woman' Has Lively Cast At Columbia Now

June Marlowe and Beverly Bayne Have Leading Roles in Cast

"The Tenth Woman" the feature at the Columbia Theatre this week, is a production that can be included in the class of the unexpected. It is an adaptation from the novel of the same name by Harriet T. Comstock. James Flood is the director. The photoplay is excellent, the sets well arranged; the direction flawless. In fact, "The Tenth Woman" is a bit of work of which both director and producer can be proud. June Marlowe, who shares stellar honors with Beverly Bayne, although very young, is one of the most promising stars on the screen to-day. Beverly Bayne is as charming as ever. Others who give notable characterizations are John Roche, Raymond

Piano Buying Made Safe

VERY important indeed is the question of purchasing a piano. The average person is not an EXPERT Judge of a piano, therefore he or she must rely largely upon the integrity of the house at which the purchase is made. In this respect the house of "Willis" should be your "port of call."

MANY ATTEND FINAL NIGHT OF PRODUCTS FAIR

Mrs. Annie Young Wins Fine Lot Given Fair by City
Fifteen Thousand Citizens View Collection of Local Products

Mrs. Annie Young, of 719 Queens Avenue, was the winner of the fine building lot on Linden Avenue, offered at the Home Products Fair, the lucky ticket being number 642. The drawing was performed by Mrs. B. Bowman, under the supervision of Manager G. I. Warren.

Over fifteen thousand citizens visited the fair during the five days it was open to the public, the attendance on Saturday being the greatest with over 5,000 admissions. At 10 o'clock on Saturday evening the great hall was congested with visitors, and some difficulty was experienced in viewing the costumes

dancers. The prizes for the best costumes were won as follows: Costume representing some local products: 1, George Hutchinson, "Pol-low the Birds"; 2, William McAllister, "Bobby's Bread"; Novelty costume, Mrs. B. Bowman, "Crystal Garden," comic gentleman, B. Bowman, "Private Secretary"; Madame Valda and her pupil, Miss Violet Fowkes won great applause by a gracefully executed toe dancing exhibition, Miss Rita Ormiston acting as accompanist.

Mayor Carl Pendray expressed himself as delighted with the success of the revived fair, and saw a great increase in local patronage of local products as a result of the public interest.

Communists Leave Labor Party Group

London, Ont., April 27.—Resignations, practically forced, of five communist members of the Labor Party were accepted by the Independent Labor Party at a special meeting called Sunday at the Labor Temple to discuss the advisability of allowing members to retain their connection with the Communist Party of Canada. The resignations were tendered after a resolution had been submitted calling on the Communists to withdraw from the Independent Labor Party.

ALICE TERRY STARRED IN DOMINION PICTURE "SACKCLOTH AND SCARLET"

George Gibbs' Romance of Two Sisters Filmed in Effective Adaptation to the Screen

The Paramount picture, "Sackcloth and Scarlet," produced by Henry King, director of "The White Sister," "Romalo," etc., and featuring Alice Terry and a prominent cast of players, opens a six days' run to-day at the Dominion Theatre.

The story was adapted for the screen by Tom Geraghty, Jules Furthman and Julie Herne from the novel by George Gibbs and also ran serially in the Red Book Magazine. It deals with the lives of two girls, sisters, all alone in the world. The youngest of the two is flighty and does her leaping first and thinking afterward. Out in the wild and woolly West in search of adventure, she finds it.

Inack in Washington with friends, Joan meets and falls in love with the same fellow who has made good and is now representing his townfolk in Congress. But the other girl comes back from France and all but ruins the happiness of her sister.

Just how everything is straightened out in the end, how Joan, who had willingly given up everything to protect her sister, finally finds love and happiness is shown in a manner that makes "Sackcloth and Scarlet," as is claimed by its makers, one of the most humanly appealing and real pictures in many seasons. Dorothy Sebastian, new to the

screen, plays Polly, Alice Terry's wayward sister in the production. Orville Caldwell, prominent stage actor, is the man in the case. Other well known names appear in support.

BALMY SUNDAY WAS ENJOYED IN TORONTO

Toronto, April 27.—Summer weather prevailed Sunday in Toronto, which with the minimum temperature at seventy-eight degrees, was the warmest spot in Canada. The boating season was in full swing at Toronto Island, and the beaches and quite a few swimmers found the water to their liking at Sunnyside. The board walk at the latter resort was crowded with persons in light summer attire. A thunderstorm in the afternoon disturbed the outing for a time.

Ottawa was treated to a violent gale. Plate glass windows were blown in, awnings torn and trees uprooted. In Montreal the mercury rose thirty-seven degrees in ten hours to seventy-nine, accompanied by heavy thunderstorms.

DAYLIGHT SAVING IN MANY U.S. CITIES

New York, April 27.—Daylight saving time went into effect in many cities of the United States yesterday.

The Merchants' Association estimates that summer time has been adopted to a larger extent than at any previous time since the war. The leading commercial houses, markets and banks, will observe daylight saving.

In New England, it was a jumbled affair. Massachusetts, Rhode Island and Connecticut adopted the daylight saving time, while New Hampshire and Vermont retained standard time.

PRESS GALLERY EVENT WAS HELD IN OTTAWA

Ottawa, April 27.—The annual dinner of the Parliamentary Press Gallery was held here Saturday night, about 200 being in attendance.

The Governor-General, the Premier, the two opposition leaders and many members of the Cabinet and Parliament and distinguished men in other walks of life were among the guests.

ENDED HIS LIFE

St. Catharines, Ont., April 27.—Fred Gray, forty-eight, veteran of the Great War, died shortly after Saturday-Sunday midnight from a rifle shot in his head inflicted by himself late Saturday afternoon. Gray had been unable to work for some time because of tuberculosis, this not being recognized as a war disability. He is survived by a widow and three children.

TORONTO SCENE OF TWO PRESS MEETINGS

Annual Events of Canadian Press and Canadian Daily Newspapers' Association

Toronto, April 27.—Daily newspaper publishers are gathering here from all over Canada to attend this week the annual meetings of the Canadian Press and the Canadian Daily Newspapers' Association, both being the mutual and co-operative associations of the daily publishers, the Canadian Press being the national service, while the Canadian Daily Newspapers' Association is concerned with the business end of newspaper publication.

The board of directors of the Canadian Press met this morning under the chairmanship of President E. Norman Smith, vice-president of The Ottawa Journal, and the annual general meeting will be held to-morrow, when Melville E. Stone, former general manager and now councillor of the Associated Press and doyen of United States newspaper men, will be the guest of honor.

The meetings of the Canadian Daily Newspapers' Association will open Tuesday afternoon with the president, John M. Imrie, of The Edmonton Journal, in the chair. The association will meet this year for the first time as an incorporated body, letters patent having been issued by the Department of State last February.

The annual general meeting will be held Wednesday morning, and the Canadian Daily Newspaper Association annual dinner that evening, the speakers to include Sir Henry Thornton, president of the Canadian National Railways, Hon. G. A. Magrath, of the International Joint Commission, Ottawa, and Premier G. Howard Ferguson of Ontario.

NANTON BURIAL IS SET FOR TO-MORROW

Service in Winnipeg; Many Attended Service Held in Toronto

Toronto, April 27.—Representatives of Canadian life in practically all its phases gathered in St. Simon's Anglican Church here Saturday afternoon and paid a last tribute to the memory of Sir Augustus Meredith Nanton, late president of the Dominion Bank of Canada, before the body was taken on a special train to Winnipeg, where interment will be made to-morrow.

The body lay in state at the residence of the late banker up until just before the funeral service, which was simplicity itself.

At the church it was found necessary to have mounted policemen direct the stream of automobiles containing the mourners, which included Major-General J. F. Fotheringham, representing the Governor-General; His Honor Harry Cockshutt, Lieutenant-Governor of Ontario; C. A. Berger, general manager of the Dominion Bank; Hon. Edmund Bristol; T. L. Church, M.P.; W. N. Tilley, K.C.; E. W. Beatty, K.C., president of the Canadian Pacific Railway; Sir Herbert Holt, and A. D. MacPhee, directors of the C.P.R., Grant Hall, vice-president, and J. J. Scully, general manager of the C.P.R.; Lord Shaughnessy and P. W. Molson.

Among the prominent Western men in attendance were E. H. Macklin, president and general manager of The Manitoba Free Press, and J. H. Woods, managing director of The Calgary Herald.

Winnipeg, April 27.—Many friends and business associates were on the platform to pay their respects when the special train bearing the body of Sir Augustus Nanton arrived here from Toronto at 3:30 this morning. At the request of Lady Nanton, the simplicity which marked the services in Toronto on Saturday was maintained.

A public funeral service will be held at St. Luke's Church Tuesday afternoon.

As a mark of respect to the late financier, the Winnipeg Stock Exchange and many business establishments will be closed on Tuesday.

MINERS' AGREEMENT

Banff, April 27.—Following the decision of the miners at Bellevue to make an agreement direct with their employers on the same terms practically as those in the Crow's Nest Pass region, negotiations are now under way to effect a similar arrangement at the Canmore steam coal mine.

MAN HANGED HIMSELF

Vancouver, April 27.—The dead body of Victor Wallen, suspended by a rope from the bedstead, was found in his room at 277 Hastings Street East Sunday afternoon. Little is known of the man beyond the belief that he leaves a widow living in Sweden.

COMMITTED SUICIDE

Montreal, April 27.—The body of Peter Moir, forty-one, was found in the bath in his home yesterday with the throat cut from ear to ear. A blood-stained razor was found in the bath. Moir left two notes to his wife, in which he stated, according to the police, his intention of doing away with himself.

Rub on Good Old Musterole
That cold may turn into "Flu," Grippe, or even worse. Pneumonia, unless you take care of it at once. Rub good old Musterole on the congested parts and see how quickly it brings relief.
Colds are merely congestion. Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold. As effective as the messy old mustard plaster, it does the work without the blister.
Just rub it on with your fingertips. You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief. 40c and 75c, at all druggists. The Musterole Co., of Canada Ltd., Montreal.

MAN IN MANITOBA CONFESSES MURDER

J. Kooten of Shoal Lake Says He Killed D. Czayka in November, 1921

Shoal Lake, Man., April 27.—John Kooten of Shoal Lake has confessed to the killing of Dymtro Czayka on November 5 1921, Sergeant Batch of the Manitoba Provincial Police announced to-day.

Czayka boarded at the house of Kooten, and was last seen on the evening of November 5 1921. In January 1923 the police examined Kooten as to Czayka's whereabouts. Kooten had testified that Czayka had visited a friend at Squaw Creek, Man., before returning to his home in Austria. Kooten was arrested and committed for trial and a grand jury returned a true bill.

Proceedings were stayed owing to the body of Czayka being missing, and Kooten was allowed to return home on his own recognizance. Two officers yesterday visited Kooten, who is ill, and obtained a confession, they stated, to the effect that he murdered Czayka with an axe and buried the body in a small outbuilding. The police found the body.

FIVE FIREMEN IN MONTREAL INJURED

Montreal, April 27.—Fire which for a time threatened the eastern manufacturing district of Montreal on Saturday evening caused damage to the extent of \$125,000 and injury to five firemen, two of whom were removed to a hospital.

The greater part of the fire fighting apparatus of the city was called out to extinguish the blaze, which originated in a four-story building on Parthenais Street occupied by several manufacturers and wholesale grocers.

Four Children Were Killed by Explosion

Mojalla, Oregon, April 27.—Four children were killed and two injured, one probably fatally, as the result of a powder explosion Saturday on the homestead of a farmer named Kolschinski, in an isolated community sixteen miles south of here. Those killed were Clare Kolschinski, eleven; Joe, fourteen; Carl, nine, and Paul, five. Reports of the accident say Kolschinski had secured three gallons of powder with which to blast stumps. The powder was stored in a small building in which six of seven children of the family were playing, and one of the boys placed a lighted match to the explosive. The building was destroyed.

CHINESE MUSICIAN OFFERING MUSICAL NOVELTY AT CAPITOL

An added attraction at the Capitol Theatres this week is Wing Chong, a Chinese musician who is presenting a novelty musical feature. Wing is a clever violinist and will present a varied programme of classical and popular numbers. He has just completed an extended engagement in Eastern cities. He will appear at the Capitol each afternoon and twice each evening during the week.

Huddersfield Certain To

Yorkshire Eleven Now In Splendid Position

West Bromwich Sees its Last Hope of Championship Honors Vanish; Preston North End and Notts Forest to Drop to Second Division White Leicester City and Probably Manchester United Will Move up; Scottish Football Season Has Finished

London, April 27 (Canadian Press Cable)—With the eyes of the football world centred Saturday on Wembley Stadium where Sheffield United carried off the English cup in their thrilling contest with Cardiff City, interest in the league games was comparatively little except for the decisiveness of these games in noting new places. The play brought out no surprises, the various leagues running absolutely true to form. To a certain extent it almost completely destroyed the hopes of West Bromwich for title honors, while Huddersfield Town made a complete job of Preston North End. Huddersfield are now regarded as almost sure winners of the First Division championship, since they have a game in hand over the Albion.

West Bromwich put up a good fight, coming up from behind a few months ago and playing sterling football ever since. But Huddersfield had too good a start and, notwithstanding that the Albion at times led the league, they always seemed to fall down just at the time when they should have won with the result that they may have to be content with the rather shadowy honor of runners-up.

LEICESTER TO MOVE UP

It is in the Second and Third Divisions that a most exciting season will be seen. Leicester City obtained promotion Saturday by virtue of their win over Bradford City and next season will see them traveling in the first division. But who is to accompany them is still a problem. The decision lies between Manchester United and Derby County, with the former the favorites. Manchester made short work of Port Vale, serving up a bloodless victory by four goals to nothing. Derby County drew with Coventry City, an amazing result, since Coventry City are the basement holders of the second string and must go down to the third next season. While Leicester City are to play, Derby stands two points behind the United. The two teams moving up are likely to be Leicester City and Derby County. Their places in the Second Division will be taken by Preston North End and Notts Forest.

CRYSTAL PALACE TABLE

While Coventry City will go down to the Third Division, the matter of who will accompany them is still open. The club most threatened is Crystal Palace, with the possibility of a defeat by Fulham Saturday that may be their entire undoing.

SWANSEA TOWN ARE THE FAVORITES

Swansea Town are the favorites for leadership of the Southern section of the Third Division. They are running second to Plymouth Argyle and are bracketed with Bristol City. But they are in the best position of all three. They drew with Argyle on Saturday. Meryth Town, at the other end of the table, were thoroughly trimmed by Southampton and will be automatically dismissed from the league.

DARLINGTON IN THE NORTHERN SECTION

Darlington, in the northern section of the Third Division, will move into the Second.

GLASGOW, APRIL 27—THE CERTAIN OFFICIALS descended on Scotland Saturday to play the first of the scheduled games remaining for the Second Division, and the results of the eight months of strenuous play made the Glasgow season a most successful one.

TEAMS THAT MOVE UP

Clydebank and Dundee United will take their place in the First Division next year. Clydebank regaining the position they lost a year ago with Clyde. The advancement of Dundee United gives the Jags City a couple of First Division clubs now.

OLD COUNTRY RUGBY

London, April 27 (Canadian Press Cable)—Results of rugby football matches reported to-day follow: Pontypool 8, Ilkeston 0. Tredegar 14, Phil Harris 15. Pontypridd 18, Swansea 9. Bridge End 15, Swansea 9.

Sheffield United Left No Doubt As To Their Ability

Cardiff City Moved Too Slowly in Comparison to "Blades," Who Won Cup

London, April 27 (Canadian Press Cable)—Sheffield United are the winners of the 1925 English Cup. At Wembley Stadium on Saturday, before a crowd that sat thrilled through every minute of the warmly contested game, the United defeated Cardiff City in the final round of the tournament and emerged with the title of chief exponent of soccer in England. The game was fast, clean and open, and was fought out in the true spirit of cup-tie football. There was plenty of hard, honest checking which pleased the fans. Sheffield, a superiority was admitted and it was most marked in the first half. At no time did they look like losing the game. Once they established their lead when "Fustell" settled after 21 minutes of play, they were never headed. Their forwards worked like a well-oiled machine, while the often-embellished Cardiff backs simply did not exist. Keener, it must be said, played hard to stem the tide, but he was almost alone. The dominating figure on the field was Gillespie. He, it was, who initiated Sheffield's attacks with the utmost skill. The "Blades" open game produced more chances than did the more careful play and the slower movements of the Welshmen. The latter never got going as a combined attacking force and at the end of the game there was no doubt in the mind of any one as to whether Sheffield did or did not deserve their victory.

Lawn Bowlers Enjoy Successful Opening

Real Victoria weather greeted the opening of the Victoria Lawn Bowling Club on Saturday afternoon. The hearts of the hundreds who participated in the opening ceremonies were made light and gay by the smiles of Old Sol. Mayor C. J. Pendray and Alderman "Bob" Dewar, William Marchant and W. J. Cullin were among the prominent participants in the proceedings. The general president Thomas McCosh welcomed the visitors and introduced His Worship the Mayor, who was glad to see such manifest interest in the game and thought that the council could take more interest in the bowlers than they had done previously. The Mayor, with difficulty, resisted the desire to become a bowler immediately but hopes to find time to enjoy a few games this summer. Alderman Marchant was in a very happy mood and showered congratulations on the club for the fine condition of the greens and for providing such a delightful spot in Beacon Hill Park. He also intimated that he would become a devotee of the game.

Forty-four Thousand Red-haired Supporters of White Sox Flock on to Field in Ninth Inning and Hurl Cushions and Heaps of Other Things; Game Forfeited to Cleveland Who Were Leading at Time; Marquard is Pitching Hero and Sisler Hitting Feature

New York, April 27—An echo from turbulent baseball days of the past reverberated in the Chicago American League ball park yesterday when 44,000 fans swarmed on the field in the ninth inning of a game between the White Sox and Indians after a cushion fight which indirectly established a new circuit leader. In the forfeiture of the game to Cleveland, 9 to 0, after police had been unable to clear the field, Speaker's team was restored to the leadership, Washington having made it possible through their defeat by New York 3-2.

Chicago, April 27—The opening game between the Chicago White Sox and the Cleveland Indians was forfeited to the latter, 9 to 6, yesterday in the ninth, when the visitors were leading 7 to 2. The largest crowd which has ever witnessed a game, close to 44,000, swarmed on the field after two White Sox had been retired in the ninth inning, and Kamm reached first on an error by Knobe, who failed to touch the bag after receiving J. Sewell's throw. The umpires and police attempted to clear the field, but were helpless.

Forty-four Thousand Red-haired Supporters of White Sox Flock on to Field in Ninth Inning and Hurl Cushions and Heaps of Other Things; Game Forfeited to Cleveland Who Were Leading at Time; Marquard is Pitching Hero and Sisler Hitting Feature

New York, April 27—An echo from turbulent baseball days of the past reverberated in the Chicago American League ball park yesterday when 44,000 fans swarmed on the field in the ninth inning of a game between the White Sox and Indians after a cushion fight which indirectly established a new circuit leader. In the forfeiture of the game to Cleveland, 9 to 0, after police had been unable to clear the field, Speaker's team was restored to the leadership, Washington having made it possible through their defeat by New York 3-2.

Wall Street TO-DAY

Last Minute News on Stocks and Financial Affairs

New York, April 27 (By R.P. Clark & Co. Ltd.)—The election results in Germany apparently created a little apprehension amongst some holders of stocks because quite a little scattered selling made its appearance in the first hour, and coupled with same selling by the professionals bearishly inclined, moved prices into lower ground.

The volume of the outside selling was not large, however, and quickly ran its course. What comments were released did not carry any signs of uneasiness in the business community over the German election results, and as the session progressed, the market steadied itself and on a small amount of buying, recovered practically all of the first hour losses.

Domestic happenings over the week end were not of an important kind, and the foreign situation was the topic chiefly discussed. The tenor of the average run of trade reports suggests that conditions in the basic lines of endeavor are very firm, in addition to which there seems to be an expectancy that slow revival will be the order of things rather than a trend in the other direction.

The stock market, judging by its action, seems to reflect confidence in future trade. We are inclined to adhere to the view that the market, especially the rails and oils, will in the most distant future pay more of its attention to the prospects of favorable developments in the railroad world, and also in the oil industry.

New York, April 27 (By R.C. Bond Corporation's Direct Pit Wire)—Wall Street's stock market edition-to-day says: Wall Street's attention at the start of the new week was attracted to Von Hindenburg's election in Germany. This development caused no change in the foreign exchange situation. But stock market professionals seized the incident as a pretext to offer prices down, particularly among the volatile issues. Fairly substantial reactions were brought about in issues of this type. However, no important liquidation was precipitated by this reaction and the general list developed improvement in the afternoon.

The reverse reflected the reassuring interviews given out by financial and industrial leaders in the afternoon, who took the attitude that Von Hindenburg was selected because he represented the manufacturing class.

Trading up to noon aggregated less than 500,000 shares which was considerably less than the volume recently maintained in the first two hours. This concentration of trading was not as heavy as appeared on the surface strengthened the belief entertained by leading market observers that the market was being sold as a result of the election in Germany. This thought was behind important accumulation which proceeded in several groups, including rails, copper and steel, particularly Frisco common and Reading.

Studebaker was the motor share of greatest demand, leading to the expectation that its report for the first quarter would net about 100,000 above the corresponding 1924 period. Most motor companies felt that last year's showing in the initial three months of 1925, achieving tremendous increase in the current quarter. Consolidated Gas continued the principal feature of the publicity group, due to steady absorption of an investment character. Action of the stock indicates fears of rate litigation, which is being fought in the Supreme Court in favor of the company. Even with this absorption in the stock of 1924, and though a higher rate was collected, only income from a \$1 rate could be shown. Consolidated Gas netted \$1.45 a share on the current stock, about 50 per cent. more than its \$5 dividend. The collections on gas above the legal rate last year, about \$2,000,000, have been brought profits close to \$9 if it had been included instead of being held in suspense. This year Gas is having the largest dividend in its history, and it is easy to see that the dividend payment is due for an increase as soon as the Supreme Court passes on the rate litigation.

Fleishmann was a feature of the industrial specialties, reaching new high ground on the movement at \$3. Fleishmann showed substantial increase in earnings during the first three months of the year. At the time of Julius Fleishmann's death a large short interest was built up, on the theory that large blocks of stock might be liquidated, but no such development took place. With income improving and heavy short contracts uncovered, insiders point out that a situation exists in the stock which may result in competitive buying.

No section of the market gave a better account of itself in the fourth hour than the rails. Reading reached new high ground on the current recovery at 75 1/2 and Seaboard preferred at 43. Excellent March and April earnings, coupled with a growing belief that they will have a good year, were responsible for the rise in Seaboard. March gross and net earnings were the best in the road's history. That month will show over \$600,000 for interest on adjust ment bonds and first quarter's net on bond interest will exceed \$1,500,000 or 4 per cent. on the income bonds. April's loadings run ahead of 1924 for the first twenty-two days, indicating that net income will exceed 164,069 for that month last year. Present outlook indicates earnings for the year of about 16 per cent. on the adjustment bonds, or over \$4 a share on the common.

Drop of over 8 points in American Express to a new low for year of 125 was the market's sharp reflection news of Von Hindenburg's election to the German presidency. Impression seemed to have been gained at first that foreign travel would be handicapped or that some of the company's financial connections would be injured. Accompanying the recovery of the price were the usual rumors regarding W. C. Durant's activity in the issue. He was said to have arranged for time loans aggregating

CHICAGO GRAIN

Chicago, April 27.—Wheat: The response to the big decrease in the visible stocks to-day was decidedly disappointing, and showed the apathetic attitude of the public. On all bulges there was wheat for sale, and demand subsided on the swells. The export demand was slow, and news ignored and far from encouraging. Export sales were small, and there was no great change in domestic situation. Local stocks decreased 537,000 bushels, making a total of 5,183,000 bushels, while the visible decreased 4,114,000 bushels. Statistics favored the buying side, but the general rains over Sunday in southwest took the edge off the demand. The market should be entitled to some rally temporarily at least, but there will have to be better export demand for any sustained rally.

Corn—On reactions was considerable commission house buying. Visible decreased 1,330,000 bushels, while the local stock decreased 1,191,000 bushels. Cash sales were \$7,000 bushels with prices one cent up to one cent down. The market appears lacking in buying power to give any sustained rally.

Wheat—Closed 3 1/2 to 1 3/4 cents lower. Slow cash demand and a further break of 15 cents in hogs led to general selling with buying power very light. Local arrivals were small, but Eastern demand continues very dull, and we see no reason to change our opinion that profitable sales can be made on hard spots.

Money Market To-day New York, April 27.—Call money steady; high 4; low 4; ruling rate 4; closing bid 4; offered at 4 1/4; last loan 4; call loans against acceptances 3 1/2.

GRAN MARKET STILL LITTLSTLESS

Winnipeg, April 27.—Continued lack of export buying combined with reports of more favorable crop conditions throughout the Winter grain belt imparted weakness to the wheat market here to-day. May delivery closed at 152 1/2, a recession of 4 1/2 cents under Saturday's final quotations. July suffered a setback of three cents at \$1.50 1/4, while October was 2 1/2 lower at \$1.27 1/4.

The heavy appearance of the market was further influenced by sharply lower Liverpool cables and an inclination of the trade to press the selling side.

A mild flurry was experienced following release of the United States visible supply figures which showed a larger decrease than generally was expected, but this strength was quickly dissipated and the session was extremely listless thereafter.

Winnipeg, Man., April 27.—Wheat: With the exception of one or two rallies due to short covering the market had a heavy appearance to-day, and was at times under the close of Saturday. Trade was not large, the market at times being very dull. General rains over the wheat belt and lack of export buying and sharply lower cables which closed 2 1/2 to 3 1/2 lower gave the market on this side a weak opening, and further declined when May wheat fell two cents. Canadian visible decreased 4,500,000 bushels. The wheat reacted near to the close of the market, and closed 4 1-8 cents down for the day. Seaboard advised that very little business had been worked over the week end, and local exporters' millers were doing next to nothing. The local trade were inclined to press the selling side on the bulges, those of the market. The Eastern traffic side buying coming into the market. On the extreme dips there was support offered by longs, who have been fighting stubbornly against the downward tendency. The market is now a two-sided proposition but foreign buying will be needed to hold present levels.

Course Grains: These markets continued to follow the lead of wheat and all lost ground to-day. Trade generally was scattered buying by exporters and millers on decline, and the substantial decrease in American visible caused sharp upturn on short covering, but this was not held, and the market was further set back. It may wheat continues to be liquidated, but continue favor purchases, particularly of new crop months.

Cooler Weather Now For Traveling Prince

On Board Battleship Repulse, April 27 (Wireless from Capetown).—These on board the Repulse, which is bearing the Prince of Wales toward Capetown in continuance of his southern voyage, are enjoying the welcome change to the cooler climate which the battleship is now entering.

Yesterday for the first time since crossing the Equator a refreshing wind sprang up, acting as a tonic to jaded minds and bodies. The Prince of Wales continues in the best of health and spirits.

The ship's company, which has been virtually without news from home for some time, is now receiving wireless telegrams.

State Lottery Won By Man in Prison

Prague, April 27.—Karl Puskacs, who is serving a life term for the murder of his wife, has drawn the capital prize of 1,000,000 crowns (about \$30,000) in the state lottery. But he will not have the privilege of spending any of the money. The entire sum is to be deposited in Puskacs' credit in a local bank, and it will go to his five-year-old son when the father dies. It is believed the fortune will double within twenty years.

DEPARTMENT OF PUBLIC WORKS

SMITHERS GOVERNMENT BUILDING

SEALED TENDERS, endorsed "Tender for Smithers Government Building," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Friday, the 1st day of May, 1925, for the erection of a Government Building, 100 ft. x 100 ft., in the Omnesse Electoral District.

Plans, Specification, Contract, and Form of Tender may be seen on and after the 15th day of April, 1925, and further information at the Department of Public Works, Parliament Buildings, and at the following offices: The Government Engineer, Vancouver and Smithers. Copies of plans, specifications, etc., can be obtained from the Department on payment of a deposit of Ten Dollars (\$10.00), which will be refunded on return of the plans, etc., in good condition.

The lowest or any tender not necessarily accepted.

Time for receiving tenders for the above building has been extended to May 15, 1925.

Deputy Minister and Public Works Engineer,
 Department of Public Works,
 Parliament Buildings, Victoria, B.C.

TENDERS FOR DREDGING

Sealed tenders addressed to the undersigned, and endorsed "Tender for Dredging Courtenay River, B.C.," will be received until 12 o'clock noon (day, light saving), Tuesday, May 1925, for dredging required at Courtenay River, B.C.

Tenders will not be considered unless made on the forms supplied by the Department and according to the conditions set forth therein.

Combined specification and form of tender can be obtained on application to the undersigned, also at the office of the District Engineer, Post Office Building, Victoria, B.C.

Tenders must include the towing of the plant to and from the work.

The dredges and other plant which are intended to be used on the work shall have been duly registered in Canada at the time of the filing of the tender with the Department, or shall have been built in Canada after the filing of the tender.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, for 5 per cent. of the contract price, but no cheque to be for more than fifteen hundred dollars. Bonds of the Dominion of Canada and a bond of the Canadian National Railway Company will also be accepted as security, or bonds and cheques required to make up an odd amount.

By order,
 Secretary,
 Department of Public Works,
 Ottawa, April 11, 1925.

Cross-word Puzzle 0238
 HOW TO SOLVE THE CROSSWORD PUZZLE

Every number in the form represents the beginning of a word, reading either horizontally or vertically. If there is a black square to the left of the number, the word is horizontal; if above it, the word is vertical. The same number may of course begin both as a horizontal and a vertical. The definitions for the correct words to fill the form are found below, with numbers corresponding to those on the puzzle. Run through the definitions till you find one that you recognize, and put it in its proper place on the form, one letter for each white square. This will furnish several cross-clues to the words linking with it at right angles. Continue in this manner till the form is completely filled. If you have solved it's puzzle correctly it should read both horizontally and vertically with words corresponding to the definitions. The correct solution of 10-day's puzzle will be printed in the next issue of The Times.

"The Circular Staircase"

By MARY ROBERTS RINEHART

Mr. Jamieson came up to me as I was about to leave the coroner's office.

"How is your patient?" he asked with his odd little smile.

"I have no patient," I replied, startled.

"I will put it in a different way; then. How is Miss Armstrong?"

"She—she is doing very well," I stammered.

"Good," cheerfully. "And our ghost? Is it laid?"

"Mr. Jamieson," I said suddenly, "I wish you would do one thing; I wish you would come to Sunnydale and spend a few days there. The ghost is not laid. I want you to spend one night at least watching the circular staircase. The murder of Arnold Armstrong was a beginning, not an end."

He looked serious.

"Perhaps I can do it," he said. "I have been doing something else, but well, I will come out to-night."

"We were very silent during the trip back to Sunnydale. I watched Gertrude closely and somewhat sadly. To me there was one glaring flaw in her story, and it seemed to stand out for every one to see. Arnold Armstrong had had no key, and yet she said she had locked the east door. He must have been admitted from within the house; over and over I repeated it to myself.

That night, as gently as I could, I told Louise the story of her step-brother's death. She sat in her big pillow-filled chair, and heard me through without interruption. It was clear that she was shocked beyond words; if I had hoped to learn anything from her expression, I had failed. She was as much in the dark as we were.

SCHOOL DAYS By DWIG

The information was important, and with my suggestion that we put an additional lock on the east wing door he opposed it strongly.

"I think it probable," he said, "that our visitor will be back again, and the thing to do is to leave things exactly as they are, to avoid rousing suspicion. Then I can watch for at least a part of each night and probably Mr. Innes will help us out. I would say as little as possible, the old man knows more than he is willing to admit."

I suggested that Alex, the gardener, would probably be willing to help, and Mr. Jamieson undertook to make the arrangement. For one night, however, Mr. Jamieson preferred to watch alone. Apparently nothing occurred. The detective sat in absolute darkness on the lower step of the stairs, dozing, he said, after a few hours, and then. Nothing could pass him in either direction, and the door in the morning remained as securely fastened as it had been the night before. And yet one of the most inexplicable occurrences of the whole affair took place that very night.

Liddy came to my room on Sunday morning with a face as long as the moral law. She laid out my things as usual, but I missed her customary garrulousness. I was not

regaled with the new cook's extravagance as to eggs, and she even forbore to mention "that Jamieson," on whose arrival she had looked with silent disfavor.

"What's the matter, Liddy?" I asked at last. "Didn't you sleep last night?"

"No, ma'am," she said stiffly.

"Did you have two cups of coffee at your dinner?" I inquired.

"No, ma'am," indignantly.

"I sat up and almost upset my hot water—I always take a cup of hot water with a pinch of salt, before I get up. It tones the stomach."

"Liddy Allen," I said, "stop coming that switch and tell me what is wrong with you."

Liddy heaved a sigh.

"Girl and woman," she said, "I've been with you twenty-five years, Miss Rachel, through good temper and bad—" the ideal and what I have taken from her in the way of sulks—"but I guess I can't stand any longer. My trunk's packed."

"Who packed it?" I asked, expecting from her tone to be told she had wakened to find it done by some ghostly hand.

"I did," Miss Rachel, you won't believe me when I tell you this house is haunted. Who was it fell down the clothes chute? Who was it scared Miss Louise almost into her grave?"

"I'm doing my best to find out," I said. "What in the world are you driving at?" She drew a long breath.

"There is a hole in the trunk-room wall, dug out since last night. It's big enough to put your head in, and the plaster's all over the place."

"Nonsense!" I said. "Plaster is always falling."

But Liddy clenched that.

"Just ask Alex," she said. "When he put the new cook's trunk there last night the wall was as smooth as this. This morning it's dug out, and there's plaster on the cook's trunk. Miss Rachel, you can get a dozen detectives and put one on every stair in the house, and you'll never catch anything. There's some thing you can't handle."

Liddy was right. As soon as I could, I went up to the trunk-room, which was directly over my bedroom. The plan of the upper story of the house was like that of the second floor, in the main. One end, however, over the east wing, had been left only roughly finished, the intention having been to convert it into a ball-room at some future time. The maid's rooms, trunk-room, and various store-rooms, including a large airy linen-room, opened from a long corridor, like that on the second floor. And in the trunk-room, as Liddy had said, was a fresh break in the plaster.

FOUR RUM-RUNNING ARRESTS WERE MADE

New Westminster, April 27.—Because of increased vigilance of the United States coastguards, traffic in

running liquor over the border from automobiles is on the increase, according to Canadian customs officials at South Aldergrove point of entry.

In connection with liquor running activities, G. Jones of Seattle was arrested by the officials Saturday and is held on a charge of illegally entering Canada by stealth. This makes the fourth arrest in this connection by the customs officers during the past week.

According to the customs officers, Jones, following his arrest, is alleged to have stated he was waiting with a car for a consignment of liquor which was being brought down to the border in another automobile.

Canadian Appeals To Privy Council

London, April 27 (Canadian Press cable)—Canadian appeals which are set down for hearing at the next session of the Judicial Committee of the Privy Council are as follows:

Northern Canada Power Company vs. Hollinger Gold Mining Company, an action with regard to the supply of electric power and for damages for alleged breach of contract.

Wing Lee vs. Lew, an action for alleged malicious prosecution.

Caven vs. Canadian Pacific Railway, an action for alleged wrongful dismissal.
The proposed rehearing of the argument in the case of the Attorney-General of Alberta vs. Cook does not appear on the present list and it probably will go over to the Summer term of the Privy Council. The argument in the appeal took place last Summer, but the present Lord High Chancellor, Viscount Cave, was not then Lord Chancellor, and he wishes to have the argument repeated.

Village in Texas Was Washed Away

Dallas, Texas, April 27.—Reports received here state the village of Leton, seven miles north of here, was virtually washed away by a deluge of rain. Several automobiles were washed from the highway and a store was washed from its foundations and swept several hundred feet down a creek.

WILL CONSIDER RESOLUTION AT MEETING TO-NIGHT

Oriental Question Subject Before Delegates at Sons of Canada Hall

A further meeting to consider matters in relation to the Oriental question has been called by the resolutions committee to take place this evening at the Sons of Canada Hall. The report of the committee will be read, dealing with motions and amendments put before two prior meetings called under the auspices of the Native Sons of Canada. The resolutions committee is convened by F. R. Carlow and includes Messrs. Laurie, Todd and Thrimpton, and Messrs. W. F. Fullerton, G. C. Grant, C. F. Moriarty, Rev. Clem Davis, Rev. A. K. McMillan, J. Stuart, W. D. Todd, Gould, Moulton and W. E. Piers. W. D. Todd is chairman of the Oriental committee, a general committee, asked to deal with the question. The meeting will open at 8 p.m.

Currie Speaks at Ypres Celebration

Montreal, April 27.—"War is stupid and futile, and the last war proved we did not end war," said Gen. Sir Arthur W. Currie at the Ypres Day celebration at Verdun yesterday. "We remember the sacrifices and devotion and wonderful heroism, but also remember the horrors, the loneliness, the sorrow and the tears, not yet dry."

"I said in what I considered to be the privacy of an officers' mess that as long as men have warm blood in their veins there will be danger of war. I have nothing to retract."

HOW TORNADO TREATED WINTER RESORTERS

Here is the first picture of the havoc created by the twister which struck Miami, Fla., April 5. Searchers are shown among the ruins in which three are known to have been killed, thirty-two injured and six hundred made homeless. It is reminiscent of the terrific storm which recently killed hundreds in Illinois and Indiana. The Florida storm carried off twenty head of cattle and destroyed eight residences, ten trucks, five garages and a barn on one dairy farm. It tore the roof off a stable at the new Hialeah race track. An unidentified man is reported to have been carried two miles on the wind.

TORNADO PHOTOGRAPHED!

This photograph of the giant twister that swept the suburbs of Miami, Fla., recently was made by R. A. Dailia, who calmly stood and snapped his shutter as the ominous cloud raged toward him. A dead calm preceded the tornado, as is shown by the listless foliage on the trees. Note the man in the foreground fleeing before the great black funnel, glancing back apprehensively at it.

RETURNS FOR TRIAL

Vancouver, April 27.—Waiving extradition, M. P. Pimental, held here for the Seattle police, who allege he lured a number of persons in that city by means of a realty development scheme, will leave Vancouver to-day in the custody of a deputy from the office of the King County sheriff.

Belgian Cabinet Effort a Failure

Brussels, April 27.—The King requested Alois van de Vyvere, financier and statesman, to form a cabinet to succeed that of Premier Theunis, who resigned April 5, but M. van de Vyvere has declined. This follows the failure of M. Vander cabinet to succeed that of Mr. velds, Socialist leader, to form a Theunis.

"MINNIE" POSES FOR THE TIMES

Here is "Minnie," four-months-old she-pantier owned by Max Lohbrunner, Dominion Road, Esquimalt. "Minnie" took an airing through city streets the other day and threatened to tie up traffic, so great was the interest taken in the event. Mrs. Max Lohbrunner, shown with her arm around the cub, says it is as tame as a house cat and just as fond of being petted.

NEW CHRISTIANITY IS DECLARED NEED

Toronto, April 27.—Delivering his first address before a Toronto audience, Rev. Harry Emerson Fosdick, noted Baptist preacher of New York, told the alumni of Victoria College that religion could be a destructive as well as a constructive force, and that when it was socially harmful it could be a curse.

Much of the present-day Christianity did not make people better, he said. It made them worse. Could the same fountain, he asked, send forth both sweet water and bitter? Yes, religion did it.

It was time for a crusade to get the right kind of Christianity, but to do this would take the highest type

of leadership, he said. What was wanted was a Christianity which would bring people together instead of tearing them apart. "Stop quarreling about non-essentials," he urged, "and let all strive to practice the Golden Rule and the undying teachings laid down by it."

Vaccination Rule in New Westminster

New Westminster, April 27.—Admission to the city schools here is now being refused every pupil who can not show proof of vaccination, a certificate of immunity or of physical unfitness or a form duly sworn to by parent or guardian that he is a conscientious objector to vaccination. About 1500 pupils, or one-third of the enrollment, had been vaccinated when the free clinic closed Friday last.

FIREPROOF FLOOR IS OBJECT OF TESTS

Chicago, April 27.—The secret of a non-combustible floor is being sought in original tests at the Underwriters' Laboratory here, where anything that has to do with fire or accidents or their prevention is tested.

Floors built under secret formulas to withstand the most severe heat and strain soon will be subjected to a direct and over-heat of up to 2,500 degrees, the approximate maximum attainable under heavy floor loads.

One floor has been constructed and another is being built. They will be permitted to stand thirty days before the tests, however, to permit them to assume conditions which would obtain in actual construction.

Manufacturers, architects and insurance companies are deeply interested in the forthcoming tests which, it is hoped, will produce a floor capable of confining the fiercest blaze to a single story of a building.

ENGINEERS TO OBSERVE

Engineers will observe the floors constantly during the tests, and will use instruments of precision for observing the moment and degree of buckling in the floors and the temperature under which the floors give first indications of failure.

No thermometer could register the furious heat the tests will involve, and seven pyrometers, which permit measuring the heat electrically, have been let into the floor already constructed.

In the first hour heat of 1,700 degrees will be created by a system of gas jets. If the floor holds four hours, the heat will measure 2,000 degrees, and at the end of eight hours would measure 2,500 degrees. After that figure, say the engineers, the heat is dissipated about as fast as generated.

Fruit Sale Plan Being Worked Out

Calgary, April 27.—The Associated Growers of Vernon, B. C., the big co-operative organization, which, it is said, will control eighty-five per cent of the fruit crop of the coast province this year, has leased a warehouse here.

The deal marks the definite establishment of the Associated Growers' sale organization in Calgary and from these headquarters the whole of the Southern Alberta business of the Vernon association will be directed.

A concert will be given Thursday, April 30 at 8 p.m. in St. Martin's Church, Obed Avenue, by F. Tuppman's concert party for St. Martin's Guild.

Children love these floating fairy grains at breakfast time

THEY are fairy ships, these tasty grains gathered in silver spoons by laughing children. Each one bears a cargo of health and happiness.

Don't coax children into eating foods they do not like. Make meal time play time. Breakfast becomes a great game when Puffed Wheat is served. The children revel and play as they eat.

There is a delightful nut-like flavour to these wheat and rice grains puffed to eight times their normal size. Being the whole grains, they contain all the elements which make bone and brawn. Served with milk or cream, valuable vitamins are added, making a dish complete in nourishment and full of flavour.

There are many ways in which these delightful cereals may be served. Keep both on hand, for pleasant variety.
