Brothers superintend the following departments: Printing, Electrotyping, Shoemaking, Tailoring, Chair-caning, Stocking-knitting, Silk-weaving, Music, Refectory, Laundry, Kitchen, Baking, Farming, Dairy, Gardening, Blacksmithing, Wheel-wright, Carpentry, Machinery and Painting. Others are Teachers, Prefects, Infirmarians, etc.

FEMALE DEPARTMENT.

REV. SISTER M. CELESTIA, SUPERIORESS.

With thirty-five assistants.

TWENTY-SECOND ANNUAL REPORT.

NEW YORK, *December 1st, 1884.*

To the Honorable the Senators and Members of Assembly of the State of New York, and to the Honorable the Common Council of the City of New York:

In the month of May, 1863, was held the first meeting of this Association.

Twenty-six gentlemen then constituted its body corporate; of these only six now remain members of its Board of Managers, seventeen of the original corporators having passed away and three having resigned from the Board. Thus, in the space of twenty-two years, has the direction of the Protectory been deprived of the fostering care of more than three-fourths of its original Managers. The list of those thus lost to us includes some of the most devoted friends the Institution ever had. We can say that while each one of these gentlemen ever evinced his solicitude for the reformation and moral training of the waifs committed to the Protectory, yet among those whose demise we mourn are two names which the children of the New York Catholic Protectory should ever greatly venerate, viz.: L. Silliman Ives, LL.D., and Henry J. Anderson, LL.D., as being the master minds whose Christian charity stimulated the labor of instituting the Protectory and preserving its existence through the many trials attending its early history.

I trust I need make no apology for thus calling the attention of my associate Managers at this, the commencement of the twenty-third year of the Protectory's existence, to the great obligation under which not only our inmates, but also we our-

selves, rest to these great and good men whose names I have quoted.

The year just ended does not show any improvement in the financial condition of the Institution. The footings of assets and of liabilities are very similar to those of the balance sheet of October the 1st, 1883, and yet we can truly say that we are now in a better condition than we then were, for some great improvements have been completed this year. Among these are the portico and areas in front of the Female Department buildings; the structure of the grotto; the laying out and planting of trees on the lawn of the Female Department; the boring and successful completion of the new artesian well at the Boys' Department; the maturing and practical working of the Silk Department, for boys, are also items bettering the condition of the Protectory in 1884, over the workings of the Institution in 1883. In the absence of financial progress the Managers may console themselves in another order of thought, namely, the steady and ever growing efficacy of the Institution in its labor for the improvement of its inmates in the field of skilled industries and scholastic advancement. In testimony of this, the Institution can point with pride to the opinions of the English press on the exhibits of the New York Catholic Protectory, at the late International Exhibition, held in London. We are convinced that the Exhibits now on their way to the Exhibition about to open in New Orleans, will be no less successful. Indeed, the sample specimens of the Industrial departments are very creditable to the young operatives in the various shops of the Protectory, and the examples of penmanship, of lineal and of architectural drawing, as well as those of map making and surveying, are such as would do honor to advanced students of our city schools and colleges.

The new artesian well for the Male Department, has been bored to a depth of over 500 feet, at a cost of about (\$3,000.00) three thousand dollars. The pump and house to cover same, now in course of erection, will cost nearly two thousand five hundred dollars more.

The quantity of water which this well can yield is over 200,000 gallons in every twenty-four hours.

The recent improvements at the front entrance of main centre building of the Female Department, have been most successfully completed under the gratuitous supervision of our indefatigable fellow-manager, Bryan Lawrence, Esq. This gentleman is now kindly taking charge of the supervision of the construction of a new vegetable cellar, of large dimensions, under one of the barns at the Female Department of the Proctery.

At the Male Department new slate troughs have been put into the wash room. The water supply, and the drainage and sewerage, have all been very much improved under the direction of the present Brother Rector.

The farm in Sullivan County, purchased some years since, by the advice of the then Brother Rector, who proposed establishing thereon a colony of our boys, to be trained to husbandry, having proved unfit for its intended purpose, has finally been disposed of this last year for the sum of \$1,900, being much less than it originally cost, but at which amount it has stood in the books of the Institution for some years. There are three other items of real estate yet in the debit of our ledger, namely: the dock at Unionport; the property in Hamilton County, and the ford lot at Unionport, figuring together \$5,000, which I think should be disposed of without delay, even at a loss on their cost.

A purchase of real estate has also been made this last year, consisting of an acre and a half of land situated contiguous to the southeasterly boundary of the lands of the Female Department, the cost being \$1,700.00. This purchase has relieved the Sisters of disagreeable neighbors, and enabled them to connect more closely their grounds with those purchased four years ago from John B. Frost and others.

The Doctor's report will be read with satisfaction by all friends of the Institution. The general health of the inmates has been remarkably good, very few cases of serious diseases have made their appearance, and even our abiding enemy, "ophthalmia," has been held at bay.

Mr. Villeneuve's report from such of the former inmates

of the Protectory as he has visited last summer in the States of Iowa and Nebraska, is very encouraging and is calculated to give all connected with the Institution the assurance that it is not laboring in vain. The good result of that labor being testified to in the persons of very many men and women, former inmates of the Protectory, now leading good lives both in the towns and on farms at the West.

We regret to record the death of Reverend Michael B. McEvoy, pastor of St. Raymond's Church, at West Chester, and of late years chaplain of the Protectory.

It remains for me only to return thanks in your name, and in my own, to the good Brothers and Sisters, for their very efficient aid in carrying out the work of the Catholic Protectory, all the responsibilities of which rest on its Board of Managers, as prescribed by the Charter of the Institution, and by more recent State enactments.

Respectfully submitted,

HENRY L. HOGUET, *President.*

→REPORT←
OF THE
Director of the Male Department
OF THE
NEW YORK CATHOLIC PROTECTORY.

WEST CHESTER, *October 1, 1884.*

TO THE PRESIDENT AND BOARD OF MANAGERS
OF THE

NEW YORK CATHOLIC PROTECTORY.

GENTLEMEN :

At the close of another year it becomes my pleasant duty to lay before your honorable Board a few facts connected with the workings of the Institution.

I am happy to state that the health of the children has been remarkably good.

The conduct of the children, it gives me pleasure to say, seems each year to become better. Indeed, we are almost continually receiving most pleasing accounts of many of our former protégés, who now occupy quite responsible and remunerative positions.

The monthly examinations and other sources of emulation have produced marked results in the improvement of the boys in the shops as well as in the class-rooms.

Of the 1231 boys in the Institution the following shows the intellectual status:

Know catechism well, 784; fairly, 190; beginners, 257.

In 1st reader, 158; 2d, 105; 3d, 240; 4th, 241; 5th, 224; 6th, 263.

Not ciphering, 108; in addition, 332; subtraction, 101; multiplication, 159; division, 133; fractions, 142; decimals and

compound numbers, 162 ; interest and percentage, 84 ; U. S. history, 287 ; geography, 672 ; English grammar, 320 ; linear drawing, 65 ; ornamental do., 145 ; writing on paper, 895 ; on slates, 215 ; not writing, 121—Total, 1231.

The following shows the educational status of those received during the year :

Not reading, 68 ; in 1st reader, 131 ; 2d, 84 ; 3d, 42 ; 4th, 93 ; 5th, 51 ; 6th, 44.

Ignorant of arithmetic, 202 ; in numeration, 37 ; addition, 88 ; subtraction, 56 ; multiplication, 74 ; division, 14 ; fractions, 42—Total, 513.

Those discharged from Sept. 30th, 1883, till Sept. 30, 1884, were thus classified :

Read fairly, 113 ; read well and knew four fundamental rules, 100 ; read well, and were fair in fractions, penmanship and geography, 127 ; read well and were fairly posted in decimals, percentage, grammar, U. S. history, penmanship, 180—Total, 520.

Of those received during the year, 101 were discharged. The drawing class continues to improve. Specimens of work sent to the International Health Exhibition, London, 1884, were pronounced "extremely good" by some ; others, while looking at work sent by a special school of design, remarked :

"Upstairs in Room 5, there is far better work from the boys of the New York Catholic Protectory."

The study and practice of vocal and instrumental music continues to enliven and encourage the boys, and make the Institution more of a pleasant home, while they help in adding solemnity to the devotional exercises.

The Industrial Department has undergone very little change during the year.

The Chair Caning Shop has kept up its quality of work. Fewer boys were employed in it than in former years.

The Stocking Knitting factory has been slightly affected by the general depression in business during part of the year.

The Shoe Shop continues to improve the quality of its work. The supply is scarcely equal to the demand. I am sorry to

say, however, that financially it has not been as successful as we had reason to expect.

In the Printing and Electrotyping department, the wisdom of the improvements introduced has been made manifest by the improved condition of the work; and despite the depressed state of trade, there is a slight net gain.

Silk Weaving—This new branch of industry bids fair to rival in its results, at no distant day, some of the longer established shops.

Our Tailor Shop has, as usual, done its work well.

Our farm has supplied nearly all the milk and the greater part of the small vegetables and roots used in the Institution. Our grape crop was particularly fine and abundant, yielding sufficient to supply our children with fruit for a considerable part of the year.

If we may judge by the 24 hour test, the new artesian well which you have had sunk will amply supply all demands. The average yield, 140 gallons per minute, giving over 200,000 per day.

The sheds erected during the past summer will greatly benefit the children during inclement weather.

The painting of the building and repairing of the yard in the Junior Male Department, are improvements that go far to assist us in making the Institution a pleasanter home.

The following extracts will, no doubt, please you, and all who are interested in such works as the Roman Catholic Protectory:

“The work of the New York Catholic Protectory Society appeals to all philanthropists, being the result of the efforts to reclaim the poor destitute children of New York City. These specimens go to show what may be done with the least favored classes” (Official Guide Int. Health Exh., 1884).

Permit me, gentlemen, ere closing, to express to you my sincere gratitude for your kind consideration in all that concerned the welfare of our cherished young charge.

To the Rt. Rev. Mgr. Quinn, and the Executive and Visiting Committees, thanks are due for their deep and abiding interest in all that concerns the Institution.

Dr. Purroy, for his steady interest in their well-being deserves more than a passing notice.

Last, but certainly not least, I acknowledge with sincere gratitude the kind and most beneficial assistance of the Reverend Chaplains in the great work.

Respectfully submitted,

BROTHER CANDIDUS,

Rector.

REPORT

OF THE

Directress of the Female Department

OF THE

NEW YORK CATHOLIC PROTECTORY.

WEST CHESTER, *October 1, 1884.*

*To the President and Board of Managers of the
New York Catholic Protectory.*

GENTLEMEN :

As a record of this Institution since the presentation of our last report, we respectfully submit the following :

The health of the children has continued very good. Through your kindness every sanitary precaution and aid within reach has been utilized. The food is bountifully supplied and of good quality, fine bathing is of easy access, warm clothing is abundantly provided, ventilation carefully attended to and outdoor exercise encouraged, so far as time and weather permit.

During the past year the children have well sustained their character for industry and docility, the trades pursued being mainly the same as in former years.

Glove making, owing no doubt to the caprices of fashion, has fallen off considerably ; but so many trades being in operation, it was easy to supply the little glovers with other occupations.

They have likewise profited by the mental advantages the Institution presents. For the children of the industrial department, there are ten classes, graded as carefully as possible ; each girl devotes two hours daily to the study of the necessary branches of a plain education, while the younger children, about three hundred, are occupied in school the usual number of hours ; among these are many of very bright intellect.

The former inmates of the institution who have been placed out in situations, generally give entire satisfaction to their

employers. Indeed, the number of applications for children is greater than we can supply. Besides the various trades taught, all are encouraged and aided to learn the different branches of house-keeping and domestic work, so that if every other resource fail they may still find employment herein.

On the farm everything has been most satisfactory. The workmen have been faithful and industrious, and the crops large, though in some items falling a little short of last year's yield.

We turn with much pleasure to our little boys, than whom it would be difficult to find a brighter, healthier, more interesting, or intelligent corps of future citizens. Our only regret is that our accommodations do not allow us to receive a greater number.

They are docile and obedient—quite as easily managed as girls.

It now remains for us, gentlemen, to express to you, each and all, our appreciation of and sincere gratitude for your never failing kindness and devotedness. Also to thank the Rev. Chaplains, whose promptitude to every call, and zeal for every work of charity within their reach, no words could sufficiently praise.

We gratefully acknowledge also our indebtedness to Dr. Purroy, the attending physician, to whose skill and vigilance the physical well being of all in the institution is, under God, in great measure due; and we sincerely thank Dr. Hassel, who never tires in attending to the hundreds of little teeth so apt to give pain to their owners.

In conclusion, it is very gratifying to be able to state, that on assuming charge of this institution we found every department in perfect order, and every want supplied, at least as far as the means then at command would permit. We have only to hope, that blessing which has heretofore rested upon the Protectory may continue and increase.

We have the honor to remain, gentlemen,

Very respectfully yours,

SISTER M. CELESTIA.

REPORT
OF THE
ATTENDING PHYSICIAN.

WEST CHESTER, *October 1, 1884.*
TO THE PRESIDENT AND BOARD OF MANAGERS

OF THE
NEW YORK CATHOLIC PROTECTORY.

GENTLEMEN :

I have the honor to report that the following cases have been received and treated in the infirmaries of the Protectory :

MEDICAL CASES.

DISEASES AFFECTING THE RESPIRATORY ORGANS :

Acute Pneumonia.	19
Simple Acute Bronchitis.	8
Consumption.	8
Congestion of Lungs from Heart Disease.	1
Acute Catarrhal Laryngitis.	1
Pleurodynia.	1

DISEASES OF THE DIGESTIVE SYSTEM :

Simple Indigestion.	5
Simple Jaundice.	2
Chronic Peritonitis.	2
Simple Pharyngitis.	12
Follicular Tonsillitis.	4
Constipation.	6
Diarrhea.	8
Acute Dysentery.	2
Worms.	3

DISEASES OF THE CIRCULATORY SYSTEM :

Valvular Disease of Heart.	8
Anæmia.	16

DISEASES OF THE NERVOUS SYSTEM :

Facial Neuralgia.	3
Migraine.	1
Chorea.	1
Epilepsy.	2

FEVERS AND OTHER GENERAL DISEASES :

Intermittent Fever.	35
Remittent Fever.	1
Scarlet Fever.	3
Erysipelas.	7
Acute Rheumatism.	11
General Scrofula.	3
Measles.	11

DISEASES OF THE URINARY SYSTEM :

Acute Parenchymatous Nephritis.	2
Chronic Urethritis	1

SURGICAL CASES.

Strumous Adenitis.	2
Epulis.	1
Tongue-tie.	1
Hernia.	1
Abscess.	9
Burns.	4
Contusions.	1
Concussion of Brain.	1
Torticollis.	1
Phymosis	1
Fracture of Arm.	4
Wounds of Scalp.	2
" " Arm.	1
" " Knee.	1

DISEASES OF THE SKIN :

Cingulum.	1
Psoriasis.	1
Scabies.	3
Tinea Capitis.	3
Eczema.	3
Erythema.	4

DISEASES OF THE EYE :

Ophthalmia.	191
---------------------	-----

DISEASES OF THE EAR :

Otitis Media.	2
Otitis Externa.	3

DEATHS :

Valvular Disease of Heart.	3
Consumption.	7
Acute Congestion of Lungs from Heart Disease. . .	1
Acute Rheumatism complicated by Endocarditis and Pneumonia.	1
Metastatic Pleuritis with Heartclot.	1
Tubercular Pneumonia.	1
Pleuro-Pneumonia.	1

This account of the cases of illness that have occurred in the Protectory during the expired year, justifies its claim to be an institution in which, while the moral tone of the child is elevated, his physical welfare is by no means neglected. When it is considered that the average attendance is beyond two thousand; that, owing to the frequency of admissions and discharges, perhaps three thousand would more accurately represent the number that each year is cared for within its walls; and that its wards, in a great measure, are children who come to its fostering care from the haunts of poverty and destitution, with constitutions already weakened by privations—when these facts are considered it will be at once conceded that its claim is well established. The nature of the diseases is such as children are everywhere heir to. It is especially notable that, owing to the keen and unrelaxing vigilance of the Brothers

and Sisters, the earliest cases of communicable maladies, such as scarlet fever, have been promptly detected and isolated ere their influence was widespread. The cases of ophthalmia which are found in this as well as all similar institutions, have been treated with diligence, perseverance and watchfulness, so that but few, if any, cases exhibit signs of permanent damage to the eye or impairment of vision. The death list is small, and, as usual, proves that but few have died of other maladies than such as are of necessity fatal. In short, this year's report is one to which the Managers of the institution may point with justifiable and proper pride. With many thanks to the Brothers and Sisters for their unvarying kindness and courtesy, and their able seconding of all my endeavors,

I am,

Most respectfully yours,

FRANCIS M. PURROY, M.D.,

ATTENDING PHYSICIAN.

Report of the Superintendent

OF THE

Bureau of Admissions and Discharges.

—•••—
To the President and Board of Managers.

OF THE

NEW YORK CATHOLIC PROTECTORY.

GENTLEMEN :

At the close of another year, it again becomes my pleasant duty to present to your honorable body a report, showing the workings, for the year past, of the department over which I have the honor to preside.

During the past year we have discharged and found situations for a large number of children who had attained that age when they should be able to properly maintain themselves.

So many discharges of the older children naturally interfered, more or less, with the efficiency of the different shops, but knowing it to be a cardinal principle with your honorable Board that the interests of the children shall prevail over all other considerations, I felt that in making those discharges I was carrying out both the letter and spirit of your instructions.

It has been a not uncommon remark that children retained too long in an institution, become dependent in their nature, and fail of success in life from want of sufficient self-reliance, that quality so essential, particularly to those who, having neither money nor influential friends to assist them, are obliged to fight the battle of life alone and unaided.

The system of training in force at the Protectory, which, thanks to your judgment, combines the benefits of both the class-room and the workshops, tends to develop those qualities

which, if rightly applied, will surely bring success, viz.: intelligent industry and self-reliance. There is no reason why a boy or girl leaving the Protectory, say from the ages of 16 to 18, should not succeed in at least making a respectable living. This is particularly true of boys who have learned either shoe making, printing or silk weaving, and of girls who have learned kid glove or shirt making, all of which are standard trades that readily afford employment to the steady and skilful.

As an evidence of this I will state that, within the past few weeks, my attention was drawn to the fact that many of the leading shoe factories in this and the neighboring cities contain among their best workmen some of the former inmates of this Institution, and several, whose names are now in my possession, hold the position of foreman, and have a large number of workmen under their charge.

I find as a rule that our boys take much more kindly to mechanical than to agricultural pursuits.

I will here briefly refer to the visits I made last summer, under your instructions, to the homes of our children located in the State of Iowa and Nebraska. Owing to the bad weather, and the terrible condition of the country roads, I was unable to make as many visits as I originally intended.

In Iowa, I found that a large number of the older boys had struck out for themselves; a few of the most enterprising have gone further west. As to the girls, they are as a rule with the same families as originally placed with; some are now married and have comfortable homes of their own.

In Nebraska, where many poor children were placed with German families, I found them doing well. They were clean, healthy and contented; many of them speak German fluently.

Since our last report I visited the Utica Protectorate twice, and called the roll of children we transferred to that Institution. They are very well cared for and are most healthy and happy.

During the past year we have been served with many writs of "Habeas Corpus," but owing to the prompt and careful attention given to the matter by the Honorable Denis Quinn, the cases were dismissed.

I take pleasure also in expressing my appreciation of the attention and courtesy shown by the officers of the New York Institution for the Blind, 34th Street and Ninth Avenue, to the representatives of this office, whenever business required them to visit that Institution.

Mr. Blake, Superintendent of Out-door Poor, also deserves acknowledgment for similar courtesies extended to our representatives.

Reverend Brother Director and Reverend Sister Superior are also entitled to the thanks of this office for their cordial co-operation with this office in the performance of our duties.

I would suggest that as soon as the finances of this Institution will permit, the Board grant an appropriation to provide some office furniture that will be more useful and ornamental than the present cumbrous and unsightly furniture, that occupies space which might be more profitably devoted to the comfort of visitors and children.

The accompanying statistics will more fully explain the detailed workings of this department for the year.

It is a matter of regret to us, as it must be to you, and all friends of the Catholic Protectory, that many Catholic children are still sent by the courts to Protestant Institutions, when there is abundant room in the Protectory to receive them.

In conclusion, gentlemen, permit me to thank you for the generous support you have always afforded me in the discharge of my duties.

Yours very respectfully,

CASIMIR VILLENEUVE.
