§ 116.52 *Aircraft; how considered.* Aircraft arriving from foreign contiguous territory and landing at a land border port of entry and aircraft departing from such port of entry for foreign contiguous territory shall for the purposes of the immigration laws and regulations, except as otherwise provided in this part, be regarded the same as other common carriers arriving at or departing from land border ports of entry. All other aircraft operating in foreign commerce or between areas of the United States shall for the purposes of the immigration laws and regulations be subject to the same requirements and liabilities as are vessels (operating on water) except as otherwise provided in this part or by statute specifically relating to aircraft. Aliens on aircraft arriving overland in foreign contiguous territory, on journeys which did not begin outside of North or South America or islands belonging to countries or to political subdivisions of these continents shall not be held to be subject to section 23 of the Immigration Act of 1917 (8 U.S.C. 162) or section 17 of the Immigration Act of 1924 (8 U.S.C. 217). TITLE 10—ARMY: WAR DEPARTMENT
Chapter IV—Military Education

PART 403—PROMOTION OF RIFLE PRACTICE
RIFLE AND PISTOL COMPETITIONS IN SCHOOLS AND COLLEGES

Section 403.5 is amended in the following respects:

1. Substitute the words "service command" in lieu of "corps area" where they appear in this section.
2. Paragraph (c) (4) is rescinded and the following substituted in lieu thereof:

§ 403.5 *Rifle and pistol competitions in schools and colleges.* * * *

(c) *Annual indoor rifle matches.* * * *

(4) *National intercollegiate matches—*

(i) *When fired and report of entries.* Between March 16 and April 16 annually, the national intercollegiate team matches will be conducted under the supervision of the National Board for the Promotion of Rifle Practice for each of the groups listed under paragraph (a). Entries for these matches will be reported by service commanders to the executive officer, National Board for the Promotion of Rifle Practice, War Department, Washington 25, D. C., as soon after the completion of the service command matches as practical. In any case they will be forwarded by March 15.

(ii) *Composition of teams.* Each team will consist of 15 members. The ten high scores in each stage will represent

the team score for the respective stage. Each service commander will designate for each group in his service command one team for each three teams which participated in the firing for that group in the service command matches. More than one team may be selected from an institution, and the teams will be given such designation as the institution may prescribe. Example: "University of -----;" "Second Team, College -----;" "Senior Class Team of the University of -----;" "Company A team of -----;" "Delta Upsilon Team of -----;" etc. A student will fire as a member of only one team. The members of a team will be designated prior to record firing and no substitutions will be made for any member after a team has started record firing. Disqualification of a team member automatically disqualifies the entire team. The word institution as used above means the particular school which the student regularly attends. All members of a team must be regularly enrolled in the same school they represent. Teams having members from different schools will not be permitted.

(iii) *Stage of competitions.* The competition will consist of 4 stages, each stage consisting of 2 series of 10 record shots each. One stage will be fired each week until the four stages have been completed. If it is found that the firing of one stage each week is impracticable, the service commander, on application made to him, is authorized to make such changes in the time of firing each stage as will be most appropriate and equitable in each particular case: *Provided*, That no two stages will be fired in any one day and that all four stages of any competition are fired between March 16 and April 16 of any one year. Each competitor will use 1 target for each series of 10 shots, firing 1 shot for record on each of the 10 bull's-eyes. The stages are as follows:

(a) *First stage.* Ten shots for record, slow fire, prone; 10 shots for record, slow fire, sitting.

(b) *Second stage.* Ten shots for record, slow fire, prone; 10 shots for record, slow fire, kneeling.

(c) *Third stage.* Ten shots for record, slow fire, prone; 10 shots for record, slow fire, standing.

(d) *Fourth stage.* Twenty shots for record, slow fire, prone.

(iv) *Range.* Fifty feet from firing point to the face of the target when hung in their customary position in front of the backstop.

(v) *Sighting shots.* Sighting shots may be fired prior to each record target. However the target used for sighting in firing will be removed from the frame or covered before any of the record shots are fired.

(vi) *Position.* In all positions the butt of the rifle must be placed against the shoulder on the outside of the coat. A firm flat pad (gymnasium mat) may be placed on the floor, platform, or shooting bench. All references to "the ground" in the following position rules are to be construed as applying to such shooting mats, platforms, or benches. Those portions of the shooter's body supporting his weight must be entirely on the mat

(both feet in the standing position—left foot and right knee and foot or right foot and left knee and foot in the kneeling position—both feet and buttocks in the sitting position—both elbows, chest and pelvic bones in the prone position).

(a) *Standing.* Erect on both feet. No other portion of the body receiving artificial support. The rifle will be supported by both hands and one shoulder only. The forward hand will be extended so that the arm will be entirely free from touching or resting against the body.

(b) *Kneeling.* Weight of the body supported on right knee and foot and left foot, or left knee and foot and right foot; no other part of the body to touch the ground. Sitting on the side of the foot instead of the heel will be permitted. The rifle will be supported by both hands and one shoulder only. The elbow supporting the piece will be approximately on or just inside the knee. The elbow of the trigger arm will be free from all support.

(c) *Sitting.* Weight of the body supported on buttocks and feet. No other portion of the body to touch the ground. Rifle to be supported by both hands and one shoulder only. The left hand (or in the case of a left-handed shooter, the right hand) must not rest on leg or knee. Legs to be apart or crossed at the option of the firer.

(d) *Prone.* Body extends on the ground, head toward the target, rifle supported by both hands and one shoulder only, both elbows on the ground. No portion of the arms below the elbows will rest upon the ground or any artificial support nor may any portion of the rifle or body rest against any artificial support. All parts of the rifle must be so positioned that the range officer can pass his hand from the rear of the gun between the lowest part of the rifle and the ground or ground cloth without touching the rifle.

(vii) *Targets.* Official targets for these matches will be furnished by the National Board for the Promotion of Rifle Practice to each service commander. Immediately after January 1, annually, each service commander will submit to the executive officer, National Board for the Promotion of Rifle Practice, Washington 25, D. C., a requisition for the sets of targets required by his teams competing in the national intercollegiate matches. The requisition will be for one-third the number of entries from each group participating in his service command matches. On receipt of the requisition, the sets will be forwarded to each service commander for distribution to the teams which will represent them in the national intercollegiate team matches.

(viii) *Rifles.* Any rifle using a rim-fire cartridge and lead or alloy bullet not larger than .23" in diameter, not less than 3-pound trigger pull, barrel not greater than 30 inches, without Schuetzen type butt plate or palm rest.

NOTE: A Schuetzen butt plate is any butt or butt plate designed with a curved surface against the shoulder of the shooter (or with a knob or knobs or prong or prongs giving the effect of a curved surface), in which the depth of the curve when measured from a

straight line drawn from the top to the bottom of the butt plate exceeds 1/2 inch; or any butt or butt plate having a hook or stud engaging in a hold or receptacle in the shoulder of the shooting coat or shirt.

A palm rest is any attachment or extension below the fore-end which aids the normal hand grip and support of the piece by the left hand and arm (or in the case of the left handed shooter by the right hand and arm).

(ix) *Sights.* Metallic; any sight (including tube sights) not containing a lens or system of lenses; except a single lens may be attached to the rear sight by a substitute for prescribed spectacles.

(x) *Trigger pull.* Not less than 3 pounds. To test trigger pull the gun will be held with barrel perpendicular to the horizontal surface on which the test weight is supported. The rod or hook of the test weight will rest on the lowest point of the curve in curved triggers or on a point approximately one-quarter of an inch from the lower end of straight triggers. To pass the weight test a gun will lift the weight from the horizontal surface on which it is resting, until the weight hangs free.

(xi) *Sling.* The gun sling may be used in all positions in connection with one arm only.

(xii) *Ammunition.* Any .22-caliber rim fire.

(xiii) *Time.* The time will be computed on the basis of 1 minute for each shot multiplied by the number of shots prescribed on a target. Once a student has started records firing on a target, the firing on this target must be completed within the limit of 10 minutes.

(xiv) *Rest or supports.* No rests or artificial supports will be used.

(xv) *Witnesses and certificates.* The firing of every record score must be witnessed by an officer of the Regular Army, if available. If no Regular Army officer is available, and the head of the institution so certifies, the record firing may be witnessed by a member of the faculty who will be named by the head of the institution. The witness will verify the range, and satisfy himself that the competitor's rifle, ammunition, and position meet the requirements of this part and that all other conditions of the record firing have been complied with. The witness will also cause the triggers to be tested prior to each record firing. The competitor must sign each record target that he fires on and the witness must certify on it that all conditions of record firing have been complied with.

(xvi) *Disposition of targets.* The targets for each week's shooting in the national intercollegiate team matches, after having been signed by the officer supervising the firing, will be returned at the end of the week to the headquarters of the service command in which the firing took place for official marking and scoring by or under the supervision of an officer designated by the service commander.

(xvii) *Marking and scoring.* The maximum possible score on each target is 100. In scoring a shot hole the lead edge of which comes in contact with the outside of the bull's-eye or scoring rings of a target is given the higher value. For close shots a scoring gauge will be used. The diameter of the scoring flange

on the scoring gauge will be within the limits of .220"-.224" respectively. Only those hits which are visible will be scored. Hits outside the scoring rings are scored as misses.

(xviii) *Report of firing by service command.* The results of each week's firing will be reported by each service command to the National Board for the Promotion of Rifle Practice and to the competing institutions. At the close of the national intercollegiate matches the National Board for the Promotion of Rifle Practice will consolidate all reports received from the various service commands and announce the prize winners in each class.

(xix) *Prizes.* Based on the total number of points made by each team in the four stages, a team trophy will be awarded to the winner in each of the three groups and a medal to 10 firing members of the teams to the number of one-tenth of the total number of teams in each group completing the competition.

(xx) Where conditions arise that are not covered by the above rules and regulations the latest small bore rifle rules of the National Rifle Association, Washington, D. C., will apply. (45 Stat. 786; 32 U.S.C. 181b) [AR 850-110, Jan. 3, 1946]

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 8]

DISPOSAL OF CERTAIN RAYON FABRIC NOW HELD BY RFC AS SURPLUS PROPERTY FOR USE AS LININGS IN MEN'S AND BOYS' CLOTHING

The following direction is issued pursuant to Priorities Regulation 13:

(a) *Effect of this direction.* There is urgent need for fabric suitable for use as lining material for men's and boys' clothing, since rayon lining fabric is not readily obtainable in sufficient quantities from new production.

The purpose of this direction is to make available, for use as lining material for men's and boys' suits, overcoats, topcoats, separate jackets, or trousers, a supply of rayon fabric (rayon twill cloth OD Nos. 70 and 71) now held by the RFC as surplus property under Declaration 17,448, amounting to about 800,000 yards. It permits sales of such rayon fabric to be made by RFC only to finished goods suppliers for resale to manufacturers of men's and boys' clothing.

Although this direction restricts sales to persons who will use or dispose of this fabric for the purposes specified, it does not prohibit RFC from making sales to those persons upon such other terms and in such quantities as RFC may determine; and preference ratings have no effect upon any sales which may be made by RFC, either by way of obliging it to sell or by way of determining, as among the several buyers permitted by this direction, who shall get the rayon fabric from RFC. (This does not relieve finished goods suppliers from giving priority to rated orders for such fabrics.)

(b) *Persons who may purchase*—(1) *From RFC.* No person may buy from RFC any of the surplus rayon fabric referred to in paragraph (a) above, and RFC may not sell any of such fabric, except where the purchaser is a finished goods supplier who purchases for resale to manufacturers of men's and boys' clothing and gives a certificate with his purchase order in the form described in paragraph (c) (1) below.

(2) *From finished goods suppliers.* A finished goods supplier to whom RFC sells any of the surplus rayon fabric referred to in paragraph (a) above, may not sell or deliver any of such fabric, and no person may buy or receive any of such fabric from a finished goods supplier, except where the purchaser is a manufacturer of men's and boys' clothing referred to in paragraph (a) above, and gives

a certificate with his purchase order in the form described in paragraph (c) (2) below. This does not relieve finished goods suppliers from giving priority to rated orders for such fabric which are certified.

(c) *Certifications*—(1) *By finished goods suppliers.* Any finished goods supplier who wishes to buy from the RFC any of the rayon fabric referred to in paragraph (a) above, must give substantially the following certificate with his purchase order:

The undersigned certifies to the seller and to CPA, subject to the criminal penalties of section 35(A) of the U. S. Criminal Code, that (i) he is a finished goods supplier; (ii) he will finish the rayon fabric covered by this purchase order in a manner suitable for use as lining in men's and boys' suits, overcoats, topcoats, separate jackets, or trousers; and (iii) he will dispose of such fabric after finishing only to persons who give him with their purchase orders the certificate described in paragraph (c) (2) of Direction 8 to PR 13 of CPA.

(2) *By apparel manufacturers.* A manufacturer of men's and boys' suits, overcoats, topcoats, separate jackets, or trousers who wishes to buy the finished lining fabric from a finished goods supplier, must give substantially the following certificate with his purchase order:

The undersigned certifies to the seller and to CPA, subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that he will use the material covered by this purchase order only as linings for men's and boys' suits, overcoats, topcoats, separate jackets or trousers.

(3) *Obligations of persons giving certificates.* Any person giving either of the certificates described above may obtain, use or dispose of the fabric he gets with the certificate only in accordance with its terms.

(4) *Use of other certificates.* The standard certification in Priorities Regulation 7 may not be used instead of the certificates referred to above.

(d) *Expiration date.* Unless sooner revoked, this direction shall expire at the end of March 1946; but its expiration at that time will not relieve any person who has obtained rayon fabric by use of either of the certificates referred to above, from the obligation of using or disposing of the fabric in accordance with the certificate which he has given.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Dir. 9]

SPECIAL PROVISIONS FOR ASSIGNMENT OF CC RATINGS IN ORDER TO INCREASE PRODUCTION OF TITANIUM DIOXIDE

The following direction is issued pursuant to Priorities Regulation 28:

(a) The supply of titanium dioxide is substantially below minimum requirements and this shortage is so serious as to threaten the increased production of peacetime products. This shortage is a serious threat to the economy of the country during the reconversion period. Consequently the Civilian Production Administration will assign CC ratings as provided in paragraph (d) (1) (iii) of Prior-

ities Regulation 28 in accordance with the conditions of this direction where necessary to maintain or expand production of titanium dioxide.

(b) *Producers of titanium dioxide*—(1) *Capital equipment.* CC ratings for capital equipment may be assigned to producers of titanium dioxide where the producer is unable to obtain delivery without a rating, and

(i) The equipment will result in a substantial increase in production, or

(ii) The equipment is needed to replace present operating equipment which is in danger of imminent breakdown.

(2) *Production materials and MRO.* CC ratings may be assigned for production materials and MRO needed by producers of titanium dioxide where the producer demonstrates that he is unable to obtain the item without priorities assistance and regardless of whether the item is needed to maintain minimum economic production in the plant.

(3) *Construction.* CC ratings may be assigned for materials which cannot be obtained without ratings, and where required for construction of new plants or expansion of existing plants where increased production will result.

(c) *Denials of CC ratings.* The CC rating will be denied where it appears that the item for which a CC rating will be used is available, but under different terms of sale or from a supplier other than the applicant's customary supplier.

(d) *PR-28 still applies.* In any case not covered by the above, CC ratings will be assigned only as provided in Priorities Regulation 28.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule K, as Amended Jan. 11, 1946]

SPECIAL PROGRAM FOR WOOL CIVILIAN ITEMS

§ 3290.120k *Schedule K to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in M-328B for manufac-

turers of civilian items manufactured from wool fabric to get preference ratings for wool fabric for delivery beginning in the fourth quarter of 1945 to make the items listed in this schedule. It also establishes set-asides for certain wool fabrics for these items.

(b) **Definitions.** For the purpose of this schedule:

(1) "Fabric" unless otherwise designated, means a woven or knitted fabric 12 inches or more in width.

(2) "Wool fabric" means any fabric incorporating 25% or more by weight of new, re-processed or re-used wool fiber except upholstery pile fabrics and floor coverings and blankets and felt. The term includes woolen and worsted fabrics.

(3) "Wool item" means an item of which 50% or more of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is made of woolen or worsted fabrics.

(4) [Deleted Jan. 3, 1946.]

(c) [Deleted Jan. 3, 1946.]

(d) **General provisions.** (1) Preference ratings assigned under this schedule may be used only to get wool fabrics listed on the Fabric Set-Aside Table to make the wool items specified in the preference rating schedule.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration.

(ii) The price specified in the maximum price column.

(3) A manufacturer who is not a base period manufacturer must comply with the provisions of paragraph (c) (6) of Order M-328B.

(4) A manufacturer who did not manufacture an item on the base period must state his proposed production by size assortment per dozen in the "Remarks" section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(5) Priorities assistance will be given for the procurement of rayon and cotton broad woven fabrics for linings, facings, bindings, stays, pockets and other components made of broad woven fabric for incorporation into the number of units for which priorities assistance is granted. Requests for this assistance shall be made on Form CPA-3732 in accordance with the instructions applicable to filling out that form. Rating assigned for such components may, however, only be used to procure the yardage of such component fabrics required to produce the number of units of the item for which deliveries of body fabric are actually scheduled.

(6) Producers of wool fabric need not file Form CPA-1420 under paragraph (h)

(3) of Order M-328B until January 20, 1946.

(7) **A manufacturer of men's suits** (item 14 in Preference Rating Schedule 1 and item 1 in Preference Rating Schedule 2) may use any fabric he obtains after January 1, 1946 with a CC rating assigned under this schedule to produce men's suits for sale at or below \$22.50 or his OPA ceiling price, whichever is lower.

(e) **Set-asides of wool fabrics to fill rated or certified orders.** (1) Every producer of wool fabric listed in the Fabric Set-Aside Table, whether he sells it or uses it to manufacture civilian items, shall set aside during the first quarter of 1946 for ultimate delivery on M-328B CC rated orders, a yardage of that fabric equal to at least the percentage shown in Column IV of the yardage he produced during the 4th quarter of 1945, or of his estimated production in the first quarter of 1946, whichever is greater. No fabrics sold at more than the price specified in Column III may be charged to this set-aside.

(2) Only orders accompanied by Forms CPA-4381 or CPA-4382 may be charged to the set-aside in Column IV. No producer need deliver or use in the first quarter of 1946 to fill these orders (i) any wool fabric not listed on the Fabric Set-Aside Table; (ii) more of any fabric listed on the Fabric Set-Aside Table than his set-aside for that fabric.

(3) When a producer has accepted orders accompanied by Form CPA-4381 or CPA-4382 to the extent of a set-aside for any fabric he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(4) Any person giving a certificate under this schedule, including the certificates on Form CPA-4381 and CPA-4382, must use or dispose of fabric he gets with that certificate in accordance with its terms.

(f) **Deliveries by wool jobbers to fill rated orders.** (1) Every wool jobber making the certification on Form CPA-4381 must deliver during the first quarter of 1946 wool fabric of the type covered by his order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders bearing that certificate.

(2) No wool jobber is required to accept or fill M-328B CC rated orders for a greater yardage of any type of wool fabric listed on the Fabric Set-aside Table for delivery in the first quarter of 1946 than a yardage equal to all wool fabric of that type which he orders for delivery during that period on orders bearing the certificate on Form CPA-4381.

(3) Any wool jobber who does not use the certification in Form CPA-4381 for a fabric must accept M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a wool jobber uses Form CPA 4381 on any of his purchase orders for a fabric he must not extend to any supplier on orders for that fabric any CC ratings which he knows or has reason to

believe were assigned under Order M-328B.

(4) A wool jobber may not use the certification on Form CPA-4381 to order for delivery in the first quarter of 1946 a yardage of wool fabric of any type listed on the Fabric Set-aside Table greater than the percentage shown in column (IV) for that fabric of the yardage delivered to him in the fourth quarter of 1945.

(g) **Fourth quarter 1945 CC ratings for women's wool civilian items.** Notwithstanding the provisions of paragraph (f) (2) of M-328B, any undelivered CC rated orders for items numbered 1 through 13 inclusive, on Preference Rating Schedule No. 1 shall become unrated on January 4, 1946.

(h) **Acceptance of rated orders—**(1) If a supplier of wool fabric received orders bearing CC ratings (assigned under this schedule) calling for delivery during the months of January and February 1946, he may hold them until January 20, 1946 before determining whether he is required to accept them. However, he must not actually reject any such CC rated orders for any fabric until such time as he has accepted CC rated orders for two-thirds of the yardage of that fabric he is required to set-aside.

(2) If a supplier of wool fabric receives orders bearing CC ratings (assigned under this schedule) calling for delivery during the month of March, 1946, he may hold them until February 11, 1946 before determining whether he is required to accept them. However, he must not actually reject any such CC rated orders for any fabric until such time as he has accepted CC rated orders for the full yardage of that fabric he is required to set-aside.

[Conservation Order M-328, Direction 12, as Amended Jan. 15, 1946]

PRODUCTION OF WORK GLOVE JERSEY KNITTED FABRICS

The following amended direction is issued pursuant to Conservation Order M-328:

(a) The purpose of this direction is to provide work glove manufacturers with suitable knitted fabric with which to manufacture work gloves.

(b) During each calendar quarter each person who at any time during the calendar year 1943 or 1944 produced work glove jersey knitted fabrics in weights of 8 ounces or above per square yard, shall produce a poundage of work glove jersey knitted fabric not less than the poundage produced by him in the calendar quarter of 1943 or 1944 in which the highest poundage of work glove knitted fabric was produced.

(c) Any person who is unable to obtain sufficient yarn with which to comply with this direction may file with the Civilian Production Administration, Textile Division, Washington 25, D. C., an application on Form WPB-2842, for priorities assistance to obtain the required yarn. Preference ratings will not be granted to fabric producers who own or control yarn mills if such mills are producing sufficient yarn to enable fulfillment of this direction without such assistance from outside sources.

(d) No producer shall sell or deliver any work glove jersey knitted fabrics produced under paragraph (b) except to persons who certify to him that they will use the fabric in the manufacture of work gloves, as defined in order M-375, or to distributors who certify that they will resell the fabric to persons who certify to them that they will use the fabric in the manufacture of the work gloves. No distributor who purchases any fabric under such certification shall sell or deliver it except to persons who certify that they will use it in the manufacture of work gloves. Any person obtaining the fabric under a certification that he will use it in the manufacture of work gloves must use it for that purpose.

(e) Any appeal from the provisions of this direction shall be made pursuant to the provisions of paragraph (d) of Order M-328.

AUTHORITY: §§ 8311.1 to 8311.12, inclusive, issued under Surplus Property Act of 1944, 58 Stat. 765; 50 U. S. C. App. Sup. 1611 and under Pub. Law 181, 79th Cong., 1st Sess.

§ 8311.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Disposition" means disposal to a person other than a Government agency.

(2) "Government agency" means any executive department, independent establishment, board, bureau, commission or other agency of the Federal Government, or any corporation wholly owned (either directly or through one or more corporations) by the United States.

(3) "Transfer" means disposal to a Government agency.

§ 8311.2 *Scope.* This part shall apply to transfers and dispositions within the continental United States, its territories and possessions unless otherwise expressly indicated.

§ 8311.3 *Proceeds to be covered into Treasury.* All proceeds from transfer or disposition of property under the act (including rents, interest, other proceeds) shall be set aside in a special fund account in the Treasury, except as provided in subsections (b), (c), and (d) of section 30 of the act. Sums deducted from gross proceeds under section 30 (b) of the act to determine net proceeds shall be set aside in such special fund account in the Treasury. Under no circumstances may an agency retain all or any part of the proceeds from any transfer or disposition under the act as reimbursement for the cost or expense of care, handling, disposition, or transfer of surplus property.

§ 8311.4 *Net proceeds.* (a) Except as otherwise provided herein, when a disposal agency credits to a reimbursable fund or appropriation of, or pays to, an owning agency the net proceeds of disposition or transfer of surplus property, real or personal, pursuant to section 30 (b) of the act, the disposal agency shall compute net proceeds by deducting 12% from the gross proceeds of disposition or transfer. Unless otherwise provided herein such deduction shall be deemed to represent all expenses incurred by or for the account of the disposal agency for care, handling, and disposition or transfer. This percentage may be revised from time to time by the Administrator to reflect substantial changes in

the over-all cost of care, handling, and disposition of surplus property.

(b) Substantial expenditures for capital improvements or demolition made or incurred by a disposal agency in addition to the normal expenses of care, handling and disposition or transfer shall be deducted from the proceeds before computing net proceeds. Percentage deductions to determine net proceeds shall be computed on the balance remaining after deducting such substantial expenditures.

(c) When sales are made on credit, the percentage deductions shall be computed upon the total sales price (exclusive of interest) and such deductions shall be made in full (from the first collection and, if necessary, from subsequent collections) before any credit or payment is made to the owning agency. Interest collected on credit sales shall be set aside in the special fund account in the Treasury without deduction.

(d) Rents received shall be deemed to be proceeds and the 12% deduction shall be made from each collection. In addition to the deduction of 12% from rents, deductions shall be made at the monthly rate of 1/2 of 1% of the total rents as the cost of servicing.

(e) No part of the proceeds from the sale of surplus property as scrap or salvage or from charges made on donations shall be deemed to be net proceeds.

(f) With the approval of the Administrator in cases where the disposal agency demonstrates that it has incurred no or only negligible expenses of care, handling, disposition, or transfer, the disposal agency may make payment to, or credit the appropriate account of, an interested agency to the extent of the entire proceeds without deduction.

(g) When net proceeds are to be credited or repaid to an interested agency but because the property is co-mingled with other property it is impracticable or impossible to determine the applicable gross proceeds, disposal agencies may make such payment or credit from the proceeds of the transfers or dispositions of similar property transferred or disposed of directly after the receipt of the surplus declaration.

§ 8311.5 *Refunds to purchasers.* No disposal agency shall withhold from the special fund account in the Treasury any amount from the proceeds of dispositions for the purpose of making appropriate refunds to purchasers pursuant to section 30 (c) of the act unless such amount is deposited in a special account with the Treasurer of the United States, and no such deposit shall be made without authorization from the Administrator. To receive such authorizations, disposal agencies shall apply to the Administrator, recommending the amount which the agency deems necessary to deposit in such account in order to permit appropriate refunds to purchasers.

§ 8311.6 *Expenses.* (a) Government agencies shall apply to the Administrator as provided herein for allocation or reimbursement of funds to meet expenses necessary to enable disposal agencies to carry out the disposal functions vested in them by or pursuant to the act or necessary to render such special advisory

services as the Administrator may designate.

(b) Expenses necessary to enable disposal agencies to carry out such disposal functions shall not include the following expenses:

(1) Costs incident to filing an acceptable declaration of surplus with the disposal agency, including the cost of taking inventories, ascertaining and furnishing proper descriptions, and preparation of the declaration of surplus.

(2) Costs of separating personal property declared surplus from property of the owning agency and of making it available for inspection and the costs of storage under conditions insuring reasonable preservation and safety.

(3) Costs of removing from real property such property of the owning agency which is not declared surplus to a disposal agency and the costs of placing the real property in a stand-by condition to insure its reasonable preservation and safety.

(4) Costs incident to disposal of property by owning agencies including preparation of property for sale as scrap.

(5) When property is shipped to facilities of disposal agencies at the request of owning agencies, costs of preparation of surplus property for shipment, including segregation, packaging, skidding, and loading, and costs of transportation.

(6) In general, all costs of care and handling, as defined in section 3 of the act, except as otherwise provided herein, incurred by owning agencies up to the time when the obligation to care for and handle is assumed by disposal agencies as required by the regulations and orders of the Administrator or until shipment or delivery is made to a buyer. When a disposal agency requests property to be shipped to its facilities, for the purposes of this part it shall be deemed to have assumed responsibility when the owning agency makes delivery to the carrier.

(7) With regard to surplus airports, the cost of care and handling prior to the 30th day subsequent to date of the notification to the owning agency by the Surplus Property Administrator that the declaration has been forwarded to a disposal agency.

§ 8311.7 *Estimate of expenses.* On or before the 15th day of the last month of each quarter, Government agencies shall submit to the Administrator an estimate of their disposal and advisory expenses for the succeeding quarter, together with appropriate statements explaining the basis upon which the estimate was determined. Such expenses shall be presented by program and by objective class of expenditure and shall be directly related to the disposal or advisory services to be rendered. The Administrator will expect that in the preparation of estimates of expenses all agencies will explore all available means to reduce expenditures to a minimum. Each agency in preparing estimates shall absorb indirect administrative or overhead expense to the fullest extent possible within the limits of existing appropriations or enabling statutes. Estimates of fiscal year expenses shall be submitted by Government agencies at such times as necessary to meet regular or special hearings before the Bureau of the Budget and the Congress.

§ 8311.8 *Statement of expenses.* On or before the 15th day of each month, Government agencies shall submit to the Administrator a statement of their expenditures and obligations for such disposal and advisory expenses made during the preceding month.

§ 8311.9 *Submission prior to commitment.* Wherever substantial expenses are involved, particularly contracts involving commitments in excess of \$100,000, Government agencies may request the Administrator for determination of the propriety of such expenses prior to committing themselves to such expenses.

§ 8311.10 *Allocations and reimbursement.* Within the terms and limits of its appropriations, the Administrator will, at the beginning of each quarter, allocate funds or authorize expenditures subject to reimbursement, as the case may be, in such amounts determined to be necessary for proper disposal and advisory expenses to cover that quarter. Reimbursement will be made on the basis of vouchers submitted with such supporting detail as the Administrator may require. Government agencies shall make such reports as the Administrator may require and will cooperate with the Administrator in such studies as it may conduct to determine effective and economical use of the funds allocated or authorized for reimbursement.

§ 8311.11 *Regulations by agencies to be reported to the Administrator.* Each Government agency shall file with the Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

§ 8311.12 *Records and reports.* Government agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Administrator in such manner as may be specified by order issued under this part, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1944. Such orders may require reports from disposal agencies acting as such outside the continental United States, its territories and possessions.

This regulation shall become effective January 15, 1946.

W. STUART SYMINGTON,
Administrator.

The Reconstruction Finance Corporation has further stated that in its opinion there will be no demand from priority claimants for this listed specialized equipment and has applied for an exemption of its disposal from the requirements of this part on the ground that it is impracticable to dispose of it in accordance with such requirements.

FREE TIME ON BOX CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 14th day of January, A. D. 1946.

It appearing, that there is a critical shortage of box cars and that free time published in tariffs for unloading such cars at ports aggravates the shortage thereof; in the opinion of the Commission an emergency exists requiring immediate action to alleviate the box car shortage at all ports of the country:

It is ordered, That no common carrier by railroad, subject to the Interstate Commerce Act, shall:

(a) *Coastwise, intercoastal, or foreign commerce.* Allow, grant or permit more than a total of 7 days free time on box cars held for unloading in coastwise, intercoastal or foreign commerce at the point of transshipment from car to vessel or vessel to car or when held short of such transfer point. The provisions of this paragraph shall not be construed to require or permit the increase of any free time published in tariffs lawfully on file with this Commission.

(b) *Computation of free time.* (1) All Sundays and legal holidays shall be included in computing the free time provided in paragraph (a).

(2) The free time provided in paragraph (a) hereof shall be computed continuously from the first 7:00 a. m. after actual or constructive placement until final release, less actual time required to move a constructively placed car to point of unloading.

(c) *Definition of box car.* The term "box car" as used herein means freight equipment having a mechanical designation in the Official Railway Equipment Register prefixed by "X" or "V".

(d) *Extreme weather.* (1) During the period when weather conditions exist as described in Rule 8, Section A, Agent B. T. Jones' Tariff I. C. C. No. 3963, the provisions of this order are suspended. In lieu thereof the rules, regulations, and charges provided in lawfully published tariffs shall apply.

(e) *Effective date.* This order shall become effective at 7:00 a. m., January 18, 1946.

(f) *Expiration date.* This order shall expire at 7:00 a. m., March 1, 1946, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(g) *Tariff provisions suspended.* The operation of all tariff rules and regulations, insofar as they conflict with the provisions of this order is hereby suspended.

(h) *Announcement of suspension.* Each railroad, or its agent shall publish, file, and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular

No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the provisions therein, and establishing the substituted provisions set forth herein. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. Upon further consideration of Service Order No. 369 (10 F. R. 14030), as amended (10 F. R. 15073), and good cause appearing therefor: *It is ordered*, That:

Service Order No. 369 as amended be, and it is hereby, further amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* This order shall expire at 7:00 a. m., March 15, 1946, unless otherwise modified, changed, suspended or annulled by order of this Commission. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U. S. C. 1 (10)-(17))

[Docket No. AO-14-A12]

GREATER BOSTON, MASS., MILK MARKETING AREA

NOTICE OF HEARING ON HANDLING OF MILK

Proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, milk marketing area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp., 900.1 et seq., 10 FR. 11791), notice is hereby given of a hearing to be held at Fuller Hall, St. Johnsbury Academy, St. Johnsbury, Vermont, beginning at 10 a. m., e. s. t., February 1, 1946, and at Courtroom No. 5, Twelfth Floor, Post Office Building, Post Office Square, Boston, Massachusetts, beginning at 10 a. m., e. s. t., February 4, 1946.

Such hearing to be held at the times and places indicated is for the purpose of receiving evidence with respect to the economic or marketing conditions relating to the proposed amendments as hereinafter set forth to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, milk marketing area. (7 CFR, Cum. Supp., 904.2-904.14, 7 CFR, 1943 Supp., 904.15, 7 CFR, 1944 Supp., 904.3 and 904.6-904.10)

These proposed amendments have not received the approval of the Secretary of Agriculture.

Several proposals for amendments have been received from a group of six handlers who are characterized in this

notice as "Six Boston Handlers" from the purpose of identifying proposals. The six handlers are: H. P. Hood and Sons, White Bros. Milk Co., Deerfoot Farms Co., Whiting Milk Co., Lyndonville Creamery Association, and David Buttrick Co.

The proposed amendments are:

1. Definitions as contained in § 904.3.

a. *Proposed by six Boston handlers.*

1. Add to § 904.3 a definition of emergency milk.

2. Re-examine the 10% Class I provision (§ 904.8) to make comparable for cooperatives and private handlers, to determine whether accomplishing any purpose, to determine whether it needs to be higher in the winter months.

3. Consider making participation of a plant in the pool contingent on factors other than 10% Class I; for example, the shipment of milk to the area when it is needed for Class I sales in the area (§ 904.3 and § 904.8).

b. *Proposed by White Bros. Milk Co., Whiting Milk Co., and H. P. Hood & Sons, Inc.* Amend the order to limit participation in the market pool to plants defined as pool plants in the order, provide a procedure whereby the market administrator could under stipulated conditions suspend the pool plant designation of a plant, and could under stipulated conditions designate new or additional plants as pool plants, such conditions to be similar to those set forth in Order No. 27 regulating the handling of milk in the New York metropolitan milk marketing area.

c. *Proposed by Whiting Milk Company.* Provide in the order for determination of plants being in or out of the pool, based on the relative volume of milk shipped to the marketing area with a provision that when plants do not ship to the marketing area a high percentage of their milk receipts during the short season production period, they may be excluded from the pool during the flush production period.

d. *Proposed by New England Milk Producers' Association.* 1. Provide in the order that any plant which is subject to pooling during the delivery periods of April, May, or June shall continue to be subject to pooling until April of the following year.

2. Provide in the order that milk received from dairy farmers at any plant which is operated by a handler, or by a person affiliated with or controlled directly or indirectly by him, who received milk produced on the same farms at a pool plant during the preceding delivery periods of April, May or June, shall be considered as receipts from producers at such pool plant, and shall be classified as Class I milk.

(The above proposals made by New England Milk Producers' Association, Northern Farms, Inc., and Maine Dairy-men's Association.)

e. *Proposed by New England Dairies, Inc.* In § 904.3 (a) (6), add language to provide that a person who acts as an agent for marketing in bulk substantially all of the milk received from producers by another person shall be considered the handler responsible for accounting to the pool.

II. Powers and Duties of the Market Administrator as contained in § 904.4.

a. *Proposed by Dairy Branch, Production and Marketing Administration.* 1. Amend § 904.4 (c) to add the following powers of the market administrator:

(4) To make rules and regulations to effectuate the terms and provisions of this order, and

(5) To recommend to the Secretary of Agriculture amendments to this order.

2. Transfer § 904.4 (c) (3) to paragraph (d) of the same section.

III. Classification of milk as contained in § 904.5.

a. *Proposed by Dairy Branch, Production and Marketing Administration.* 1. Delete § 904.5 (c) (2) and amend § 904.5 (a) so as to permit the classification of milk and milk products on the basis of utilization at the plant of any handler who receives milk from producers regardless of the number of interplant movements between such handlers. The following language is proposed to accomplish this result:

§ 904.5 *Classification of milk—(a) Basis of classification.* (1) All milk and milk products received by a handler shall be classified in the classes set forth in this section. Classification shall be based upon the utilization of the milk and milk products at any plant subject to the provisions of this order which is operated by a handler who receives milk from producers.

(2) Milk, skim milk, flavored whole or skim milk, buttermilk or cultured skim milk moved to any plant operated by a person who distributes milk or manufactures milk products, other than a plant described in paragraph (a) (1), shall be classified as follows:

(i) If moved to a plant from which no Class I milk is distributed in the marketing area, the milk or milk product so moved shall be classified as Class I milk up to the total quantity of milk or the corresponding milk product which was utilized as Class I milk at the receiving plant.

(ii) If moved to a plant from which Class I milk is distributed in the marketing area, but which is not operated by a handler who receives milk from producers, the product shall be classified in accordance with its utilization at such plant.

(iii) If moved from a plant described in (i) or (ii) to any plant other than a plant described in paragraph (a) (1), the milk or milk product so moved shall be classified as Class I milk.

2. Delete § 904.5 (c) (1).

b. *Proposed by six Boston handlers.* Add a specific provision for the classification of emergency milk and provide that such milk shall not be included in the computation of the producer milk pool except that the premiums paid to obtain such emergency milk should be paid from proceeds of the pool.

c. *Proposed by New England Dairies, Inc.* 1. In § 904.5 (a), add to the end of the first sentence "and provide further, that if such other person receives the milk or skim milk at a plant not subject to the provisions hereof, at which it be-

comes commingled with other milk it shall be classified as Class I milk but not in excess of the total quantity of Class I milk or skim milk at such plant."

2. Change the heading of paragraph (c) of § 904.5 to "Disposition of producer transfers to other markets."

3. Delete subparagraph (2) of § 904.5 (c).

IV. Class prices as contained in § 904.6.

a. *Proposed by fourteen cooperative associations of producers.*

Bellows Falls Cooperative Creamery, Inc.
Bethel Cooperative Creamery, Inc.
Cabot Farmers' Cooperative Creamery Co., Inc.

Grand Isle County Cooperative Creamery Asso., Inc.

Maine Dairymen's Asso., Inc.
Manchester Dairy System, Inc.
Milton Cooperative Dairy Corporation.
New England Dairies, Inc.

New England Milk Producers' Asso.

Northern Farms, Inc.

St. Albans Cooperative Creamery, Inc.

Tunbridge Cooperative Creamery, Inc.

United Farmers' Cooperative Creamery Asso., Inc.

Vermont Cooperative Creamery, Inc.

Amend § 904.6 (a) (1) to provide for a Class I price of \$5.03 during the delivery periods of April, May, June, and July, and of \$5.50 during the delivery periods of August through March.

b. *Proposed by six Boston handlers.* Reconsider the level of and the basis for determining the Class I price level, with the objective of a workable formula that brings rapid adjustment, a level that encourages production and permits competition with New York, and a seasonal pattern to encourage more even production.

c. *Proposed by Independent Cooperative Association, Inc.* Increase the Class I price, effective April 1, 1946, if dairy production payments are discontinued at that time, to \$5.02 for the period April 1 through September 30, 1946. For the period October 1, 1946 through January 31, 1947 increase the Class I price to \$5.48.

d. *Proposed by Dairy Branch, Production and Marketing Administration.* Evidence will be received with respect to the advisability of including in the Class I formula factors which will reflect the current prices of nonfat dry milk solids and other manufactured dairy products as well as the price of 92 score butter at New York.

e. *Proposed by six Boston handlers.* 1. Amend § 904.6 (b) (2) (iii) to establish the skim milk value factor used in the Class II milk price according to the following formula:

Determine the average prices of nonfat dry milk solids, roller process, for human and for animal consumption as now provided in the order, i. e., the average of all nonfat dry milk solids price quotations per pound for carlots for "human food products (roller process) in barrels" and the average of all nonfat dry milk solids price quotations per pound for "animal food products (hot roller) in bags," both averages to include all quotations for New York City during the delivery period as published by the United States Department of Agriculture. Combine the average prices as determined

above for nonfat dry milk solids for "human food products" and for "animal feed products" according to the following percentage weights, subtract 4 cents from this combined average price and multiply the result by 7.5.

[Percentage weight of prices, nonfat dry milk solids for human and for animal consumption]

Period	Human percent	Animal percent
October through February.....	100	0
August and September.....	75	25
March, April, and July.....	50	50
May and June.....	25	75

2. Reconsider the specific nature and description of the price quotations for manufactured dairy products used as a basis for determining Class I and Class II prices so as to avoid any misunderstanding and to reduce the sphere of interpretation.

3. Reconsider the zone allowances on Class I and Class II to recognize the 3 percent tax on transportation, and in the case of Class II, to recognize more equitably the necessity for shipping a limited amount of Class II to the marketing area as a whole milk.

f. *Proposed by Independent Cooperative Association, Inc.* Revise that part of the formula used to determine the skim milk value in the Class II price by using price quotations which reflect the use made of skim from Boston market plants and weighting each quotation in proportion to the quantity used in each product.

g. *Proposed by United Farmers' Cooperative Creamery Asso., Inc., Milton Cooperative Dairy Corporation, and New England Dairies, Inc.* 1. In § 904.6 (a) (3) revise the last part to read "and then, that milk, except that established as utilized as Class II milk at plants north of Massachusetts and from which no milk is distributed on wholesale and retail routes, located more than 40 miles from the State House in Boston . . ."

2. In § 904.6 (c) either increase the rates listed in Column B by 3 cents for all zones up to the 211-220 mile zone and 4 cents for the remaining zones, or increase each of the rates in Column B by 1 cent and provide a separate list of rates for milk shipped by motor truck to be 7 cents higher than the rates now provided in Column B.

3. Delete subparagraph (3) of § 904.6 (b), and in § 904.6 (e) delete the words "until the termination of each of War Food Orders numbered 8, 13, 79, and 92 including amendments thereto or other similar orders supplementing or superseding such orders, in lieu of application of § 904.6 (b) (3)", and change the first letter of the next word "in" to a capital. Also delete from § 904.6 (e) the words "during April to September inclusive of each year."

4. In subparagraph (2) of § 904.6 (f) change the factor 6.6 to 13.1.

h. *Proposed by Milton Cooperative Dairy Corporation and New England Dairies, Inc.* Revise subparagraph (1) of § 904.6 (e) and subparagraph (3) of § 904.6 (b) to read as follows: "From the average price for the delivery period as reported by the United States Depart-

ment of Agriculture (or by such other Federal Agency as may be authorized to perform this function) for 92-score butter at wholesale in the New York market deduct 5 cents and add 16 $\frac{2}{3}$ percent, . . ."

i. *Cabot Farmers' Cooperative Creamery Co., Inc.* Provide that milk made into cheddar cheese, Colby cheese, washed curd cheese, part skim washed curd cheese, or part skim cheddar cheese in each month be priced as follows: From the average of weekly quotations published during the delivery period of prices for cheddars at the Wisconsin Cheese Exchange, Plymouth, Wisconsin, or, in the absence of quotations for cheddars, the weekly quotations of prices for Twins at the Wisconsin Cheese Exchange, subtract \$0.015 and multiply by 9.

j. *Proposed by Northern Farms Cooperative, Inc., and Maine Dairymen's Association, Inc.* 1. Continue the present Class II price schedule for the months April through September with a provision that milk made into cheese be priced on the quotations for cheese on the Plymouth exchange. For the months October through January continue the present Class II price except that for Class II milk in excess of 10 percent of each handler's receipts from producers the Class II price shall be the same as the Class I price. Payments in excess of the Class II price may be deducted from payments to producers delivering to such handlers' plants.

2. Provide that the butter price shall not apply to butterfat from route returns.

k. *Proposed by New England Dairies, Inc.* 1. In any changes provided in § 904.6 (a), increase the price set forth in subparagraph (1) by 5 cents per hundredweight more than the price set forth in subparagraph (2).

2. In Column C of § 904.6 (c), increase the figure 3 cents for each mileage zone.

l. *Proposed by General Ice Cream Corporation.* Revise § 904.6 (b) (1) so that the additional 29 cents per hundredweight does not apply to Class II milk received from producers during May and June.

a. *Proposed by Dairy Branch, Production and Marketing Administration.* 1. Amend § 904.6 (b) (3) and § 904.6 (e) to provide a single adjustment rate per pound of butterfat made into butter, regardless of the butterfat test of the producer milk involved or the location of the plant where it was received from producers.

2. Provide a specific method for allocating to the various sources of a handler's butterfat the quantity of butterfat made into butter.

3. Amend § 904.6 (a) (2) to read as follows:

(2) For milk delivered from producers' farms to such handler's plant located more than 40 miles from the State House in Boston, the price per hundredweight during each delivery period shall be the price effective pursuant to (1) of this paragraph minus the amount set forth in (c) of this section for the railroad freight mileage zone for the distance to Boston from the railroad shipping point for such handler's plant.

V. Application of provisions as contained in § 904.8.

a. *Proposed by Dairy Branch, Production and Marketing Administration.* 1. Delete § 904.8 (b) and its related provision § 904.10 (h).

2. Provide specifically for the classification of milk and skim milk received at plants subject to Order No. 4 from plants subject to regulation under the order regulating the handling of milk in the New York metropolitan marketing area (Order No. 27).

VI. Payments for milk as contained in §§ 904.9 and 904.10.

a. *Proposed by six Boston handlers.* 1. Amend § 904.10 so as to include a provision approximately as follows:

Alternative A. From the amount otherwise due to each producer for milk delivered to each plant of each handler in the delivery periods of April, May and June, the handler shall deduct and pay over to the market administrator an amount representing 30 cents per hundredweight of milk. The monies so received by the market administrator shall be segregated according to the county in which the plant to which delivery of milk was made by the producer is located, and shall be held in trust until retransmitted to the handler to be paid out to producers in accordance with the provision of this paragraph. To the amount otherwise due each producer of milk delivered to each handler in each of the delivery periods of November, December and January, the handler shall pay an amount computed by the market administrator to represent the rate per hundredweight which would result from dividing one-third of the monies paid to the market administrator on milk received from producers at plants in the same county during the previous April, May and June by the quantity of milk received from producers at plants in the same county in the current delivery period. The amount so computed shall be credited to the account of the handler and shall be paid out by the handler to producers either as a special fall incentive production payment or as a part of regular payments for milk for that month.

Alternative B. The market administration shall compute and record for each producer in August of each year the average daily receipts of milk from that producer during the period from May 1 through June 30 of that year, and shall notify each producer of this computation. Each handler shall deduct from the amount otherwise due to each producer for milk delivered to each plant of the handler in the delivery periods of April, May and June and shall pay over to the market administrator an amount representing 20 cents per hundredweight of milk. The monies so received by the market administrator shall be segregated according to the plant to which delivery of milk was made by the producers and shall be held in trust until retransmitted to the handler to be paid out to producers in accordance with the provisions of this paragraph. To the amount otherwise due each producer for milk delivered to each handler in each of the delivery periods of November, December and January the handler shall

pay a fall production premium computed as follows:

Full Production Premiums per cwt. of Milk Delivered in Nov., Dec., or Jan.

	Cents
For producers whose daily average deliveries in Nov., Dec., or Jan., are equal to:	
70.0 to 79.9% of the May-June average.	20
80.0 to 84.9% of the May-June average.	30
85.0 or a greater % of the May-June average.	40

The cost of making these fall production premium payments shall be credited to the account of the handler in the equalization account and equal sums of monies transferred from the trust account to the equalization account by the Market Administrator, transferring from each segregated portion of said trust account on a pro rata basis according to the amount paid into each portion. In addition, each handler in each of the delivery periods of November, December and January shall pay to each producer for milk delivered to the handler during the period an amount, in addition to the amount otherwise due the producer, computed by the Market Administrator to represent the rate per hundredweight which would result from dividing one-third of the monies paid over to the Market Administrator on milk received at the same plant during the previous April, May and June, minus the transfer for the current delivery period necessary to meet the cost of fall production premiums, by the quantity of milk received at the plant from producers in the current delivery period. The cost of making these additional payments shall likewise be credited to the account of the handler in the equalization account and equal sums of money transferred from the appropriate portion of the trust account to the equalization account by the Market Administrator.

Alternative C. In making payments to producers for their milk for any of the delivery periods of October, November, December or January pursuant to this section any handler with respect to the producers delivering milk to any of said handlers plants may, with prior notice to the Market Administrator, calculate and make such payments to individual producers on a basis which provides a premium for uniformity of deliveries of not more than 50 cents per hundredweight; *Provided*, That, the uniform price to producers at any such plants for any month such premiums are paid may be recalculated to compensate for such premiums so that no less than the same total amount of money is paid out to all the producers delivering to such plants as would be paid out without the uniformity premium.

2. Consider clarifying the specific date on which interest on overdue accounts starts in case the account is being litigated or in the event that the account is such as to require extended examination and verification by the debtor.

3. Fix a time limit beyond which re-audits and re-billings will be prohibited unless there is evidence of fraud or misrepresentations.

b. *Proposed by White Bros. Milk Co., David Buttrick Co., Whiting Milk Co., and H. P. Hood and Sons.* Amend Order

No. 4 to provide for an individual handler pool instead of a marketwide pool for the months of September, October, November, December, January and February each year.

c. *Proposed by Whiting Milk Co.* 1. Amend § 904.9 (b) by adding new subparagraphs as follows:

(7) For the delivery periods April, May and June of each year deduct from the blend price determined under (b) (6) of this section, 50 cents cwt. The total amount of money so retained by the Market Administrator shall be placed in a "fall and winter payment reserve."

(8) For each of the delivery periods of November, December, and January, one-third of the amount of the "fall and winter payment reserve" shall be apportioned by the market administrator for payment to producers through individual handlers on the basis of such handlers' sales of Class I milk in the marketing area. Sales of Class I milk in the marketing area by one handler to another handler shall be credited to the selling handler based on the ratio of the sales of Class I milk in the marketing area by the buying handler to the total receipts from all sources of such buying handler. The market administrator shall compute and announce for each handler the amount of such payment.

2. Amend § 904.10 (b) by adding a new subparagraph as follows:

(3) For the delivery period November, December and January of each year each handler shall pay to producers additional payment as announced by the market administrator under § 904.9 (b) (8) from the "fall and winter reserve."

d. *Proposed by H. P. Hood and Sons.* Amend § 904.10 to include a provision approximately as follows: "In making payments to producers for their milk for any month pursuant to this section any handler with respect to the producers delivering milk to any of said handlers' plants may, with prior notice to the market administrator, calculate and make such payments at such plant on the basis of a butterfat differential lower by not more than 25 per cent than the butterfat differential otherwise provided in this section; *Provided*, That the uniform price for any such plant shall be recalculated to compensate for the lower differential so that no less than the same total amount of money will be paid to producers at the plant as would be the case with the uniform price and butterfat differential otherwise provided."

e. *Proposed by Dairy Branch, Production and Marketing Administration.* 1. Delete from § 904.10 (e) (3) and (4) the words: "unless such addition gives a result greater than the highest Class I price in effect pursuant to (1) of § 904.6 (a)" and substitute therefor the words: "unless such addition gives a result greater than the Class I price in effect at the plant at which such producer's milk is received."

2. Delete from § 904.10 (e) (4) the words: "or whose farm is located in Barnstable or Plymouth counties, Massachusetts."

VII. Payments to cooperative associations as contained in § 904.11.

a. *Proposed by Northern Farms Cooperative, Inc., and Maine Dairymen's Association, Inc.* 1. Delete the first sentence of § 904.11 (a) and substitute therefore the following:

Any cooperative association of producers engaged in marketing milk shall be qualified to receive the payments set forth in this section if it has been determined by the Secretary that the association is meeting the following requirements:

(1) Organized and operated in conformity with the requirements of the Capper-Volstead Act and State Acts under which the association is incorporated.

(2) Producer controlled, with the movement to organize the cooperative association and continue its operation being exclusively a producer movement.

(3) In full compliance with the provisions of this order.

(4) Marketing its members' milk in such a way as to assure the greatest possible returns to all producers.

2. Amend § 904.11 (a) (1) to eliminate the requirement that the payment at the rate of not more than 1.5 cents per hundredweight, with respect to a bargaining cooperative association, be contingent upon the rate per hundredweight which such association causes to be deducted for its own account by handlers from its producer members.

3. Delete § 904.11 (a) (2) and (b) and substitute therefor the following:

(a) (2) At the rate of 5 cents per hundredweight, as provided in (b) of this section, on milk received from producer members at a plant operated by the cooperative association or on milk of producer members under contract with a cooperative association which constitutes the cooperative the sole and exclusive agent to sell or otherwise market all the milk of the member, which is sold as Class I milk and is so classified by the administrator of the order.

(b) *Computation of amount of payment at 5 cents per hundredweight.* The amount due a cooperative association for each delivery period pursuant to (a) (2) of this section shall be computed by the market administrator as follows:

(1) From each handler's total Class I sales deduct his Class I receipts from other handlers.

(2) Determine for each handler the percentage which the quantity determined in (1) bears to the total quantity of milk received from producers.

(3) Multiply the quantity of milk received from member producers of each cooperative association by the percentage determined in (2).

(4) Multiply by 5 cents per hundredweight the quantity determined in (3) for all handlers, applicable to each cooperative association.

4. Amend § 904.11 (c) to eliminate the requirement that claims must be filed by each cooperative association, and substitute therefor a provision that the market administrator shall make payment to cooperative associations based upon handlers' reports subject to verification of the receipts and other items on which the amount of such payment is based.

b. *Proposed by Independent Cooperative Association.* Delete the provision

which establishes payments to be made to cooperative associations.

c. *Proposed by Dairy Branch, Production and Marketing Administration.* Revise § 904.11 (f) so that the obligation to make authorized member deductions for a cooperative association clearly will be applicable with respect to those producers whose deliveries are the basis for payments to the association under § 904.11 (a) (1).

d. *Proposed by six Boston handlers.* Reconsider in its entirety the cooperative payment provisions so as to remove any discrimination between private and cooperative operators and to re-examine the basis for the payments as well as the need for such payments and their effectiveness in encouraging sound cooperatives.

VIII. Proposed new section.

a. *Proposed by six Boston handlers.* Consider establishment of a committee made up of handlers and producers to advise the market administrator on marketing problems under the order and proposed amendments.

Copies of this notice of hearing and of the tentatively approved marketing agreement, as amended, and of the order, as amended, now in effect may be procured from the Market Administrator, 80 Federal Street, Boston 10, Massachusetts, or may be there inspected.

Dated: January 14, 1946.

[Docket No. G-692]

KENTUCKY NATURAL GAS CORP.

NOTICE OF APPLICATION

JANUARY 8, 1946.

Notice is hereby given that on January 2, 1946, an application was filed with the Federal Power Commission by Kentucky Natural Gas Corporation (Applicant), a corporation organized under the laws of the State of Delaware, having its principal place of business at 423 West Third Street, Owensboro, Kentucky, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities hereinafter described.

Applicant receives its gas supply from Panhandle Eastern Pipe Line Company (Panhandle) and owns and operates a natural gas pipe line system in the States of Kentucky, Indiana and Illinois. Applicant's main pipe line system extends from a point near Montezuma, Indiana, at the point of connection with Panhandle, generally southwardly across the Ohio River into Kentucky. The main line from north to south is a 12-inch pipe line. Near the city of Terre Haute, Indiana, Applicant has a six-inch pipe line diverging from its main line, which six-inch line extends eastwardly to the city of Martinsville, Indiana, a distance of approximately 54 miles. At the last-named point Applicant's six-inch line connects with the pipe line of Indiana Gas and Water Company, Inc. (Indiana Water). Indiana Water is a corporation with its principal operating office at Indianapolis, Indiana, and owns and operates gas dis-

tribution systems in the cities of Martinsville, Bloomington, Bedford, Mitchell, Seymour, Columbus and Franklin, and their environs. Indiana Water has a six-inch pipe line extending from a point of connection with Applicant's six-inch line at Martinsville, Indiana, due eastwardly to Franklin, Indiana, a distance of approximately 21 miles; thence a four-inch line extending southwardly to Columbus approximately 21 miles, and Seymour, Indiana, approximately 22 miles. From the point of connection with Applicant's six-inch line at Martinsville, Indiana, Indiana Water also has a six-inch line extending southwardly to Bloomington, Indiana, a distance of approximately 21 miles; thence a four-inch line extending southwardly to Bedford and Mitchell, Indiana, a distance of approximately 33 miles. The facilities which Applicant seeks authorization to construct and operate are described as follows:

A six-inch solid welded pipe line from a point on the pipe line system of Panhandle at or near Danville, Indiana, southwardly a distance of approximately 30 miles to a point of connection with Indiana Water at or near Martinsville, Indiana.

The application states that the proposed six-inch pipe line will constitute additions to Applicant's existing transmission system. Indiana Water is presently purchasing, and has continuously for the past several years purchased, its entire natural gas requirements for the cities hereinbefore mentioned from Applicant. Indiana Water has advised Applicant that further industrial expansion, which it anticipates in the various cities served by it within the next several years, not only will increase greatly its natural gas requirements for high grade industrial use, but also will cause an increase in the population of the four cities, and, therefore, an enlarged demand for gas for domestic purposes. Indiana Water has advised the Applicant that within five years it anticipates that its natural gas requirements will amount at least to 7,500 Mcf per day. During the winter of 1944-1945, peak day deliveries by Applicant to Indiana Water for distribution to the cities hereinbefore named amounted to 3,929 Mcf per day. Applicant states that it will be unable to meet Indiana Water's anticipated gas requirements above referred to with its present facilities.

Applicant estimates the cost of constructing 30 miles of solid welded pipe line with necessary fittings, regulators and a measuring station to be approximately \$245,000. Applicant is prepared to pay the cost of such construction out of its current funds.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 29th day of January, 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Secretary.
