SUBJECT: Distribution of Vanillin

The 125 lb Vanillin can not be exchanged for other medicine as proposed by the Drug Section. This item is contriband material and must be disposed of according to laws and regulations set forth by the Japanese Government.

Suggest that Vanillin be used for flavoring of milk or cakes for school lunch program, childrenis home and other welfare institutions.

Toyama Welfare Section will discuss this with the Drug Section and the other 2 Hokuriku prefectures and determine the proper method for distribution.

SUBJECT : Application for Disposition of Vanillin.

Among the seized medicines by the Occupation Forces 125 lbs of Vanillin, which were delivered to this prefecture from chief of Aichi prefectural public welfare department with your instructions dated May 7 last year, have been distributed to 33 medical facilities and hospitals throughout the prefecture free of charge.

The medicine of this sort has a narrow scope of medical uses so that we feel much inconvenience about how to deal with it.

Recently we have referred to the hospitals concerned as to its effective utilization and their unanimous reply is that they desire to exchange the medicine in problem for other important ones.

In this connection, we are contemplating to let the prefectural medicinal affairs section see the exchange of both medicines as proposed above and record all the affairs related thereto.

It is cordially solicited that you will kindly take into consideration the above circumstances and approve the disposition of Vanillin in such way.

MINIMUM LIVING EXPENSES RESEARCH COMMITTEE

June 1949

SUBJECT: Study of Standard Living Expenses of 10th Revision.

The Daily Life Security Law has past two years and 8 month after enforced since effected date of October 1946. Up to this period the whole Japan had 2,763,000 persons under privilege at the beginning, and existing to this year of Febuary, it had been decrease to 1,765,000 persons. Even at this prefecture, once, 57,000 persons were under the Public Assistance. But for existing to this year the end of April it had decreased to 26,817 persons. Ofcourse this is base upon effort by the National 14-million of the Minsei-Iin and also the whole staff members. Specially to our prefecture, it became less than half the total number, which the reason is realized according with proper and accurate of the Social Survey by 1,986 Minsei-Iin and the Welfare Official (staff) in this prefecture. Nevertheless, almost every day the press is communicating the miserable matter of homes. Lately the survey was made for the long period unschoolable childrens, and 28% out of 1,757 Childrens which is 499 Childrens have been absent by reason of needy. Therefore, it is infer that the survey is not clearly visited to the privilege family by the Daily Life Securety Law.

The most importance for grant delivery is to hold on surely of Non-Public Assistance's property condition, and give the grant proper with suitableness to economic circumatance. Now for this purpose of executive, the revision of standard amount have changed ten times since 2 years and 8 months by the Ministry of Welfare. Hitherto, the 8 revision were calculated originally by family composition, and 9th revision was calculated from nourishment on theoretical by prepare the standard grant to the assistance. For propriety of practical, it is actual proof that our prefecture had enforced proper and accurate, which has published in " Condition of Public Assistance and the Standard Grant of 9th Revision " which had issue by this committee on the March of this year. Now, the standard amount of 10th Revision have enforced from May of this year, but we think it is necessary, first of all to decide the right of review on price considerations of our prefecture. Therefore, at present to study the city of standard amount of the 10th Revision with survey of price in the Toyama City on enforce of 9th Revision, it will be 116 on this year the May out of 100 with an exponent of average price on the month of December 1948. Survey to same month of the Toyama City, an exponent of average price is 111, therefore, it can say that this term of standard amount revision is appropriateness for the Toyama City. In these circumstance, at the main foods standard amount is 115 oppose to the rate of advance price of 115.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

112 oppose to 134 in the food and drink expenses. 194 oppose to 77 on the clothing expenses. 217 oppose to 99 on light and fuel expenses. Now at this terms of the new standard amount revision is generally upward by comparision with rate of advance price in the Toyama City.

Now, also parting the A Class City into sex of the 9th Revision, at in case of male, the average is 7%, and in case of Female the rate is 20% increased. Therefore, the result is that the female standard amount have raise in large, because of female calories were consider too low at the time been, and it had improve by careful thought especially on nutrition purpose.

For the second classification, putting 100 for the 9th Revision Standard Amount, then the 10th revision standard amount will be 187, that is indicating 89% of high rate increase. This is changed to conbine the real condition for reason, So-far in very low amount of living, light and fuel expenses and etc. As mentioned were compared by an exponent, but for compared with amount it will be a following.

Placing to the condiments, a person monthly full on the 10th Revision Standard Amount is 47 Yen that oppose to value commodities of local (In case of Toyama City to follow as same) is 66 Yen. The clothing is 17 yen oppose to 4 yen. Personal effects is 26 yen oppose to 18 yen. Health expenses (male) is 105 yen oppose to 59 yen. Housing expenses is 88 yen oppose to 55 yen. Light and fuel expenses 119 yen oppose to 185 yen. Other expenses is 51 yen oppose to 40 yen. Therfore, above is mentioned to consider the actual price of the Toyama City is downward tendency rather then the Local Value Commodities. The Labour's wages is in increase tendency with paralled in upward tendency of price. But to the latest of peculiar phenomenon, the exponent wages is downward on the Febuary this year then oppose of last year the November. Also this year the Febuary and March of exponent feeling price is downward position . The change of the economic world is realized of signification. Therefore, it is reasonable to decide with provide amount of grant by strictness of social survey rather then accordingly to do on principle standard amount.

For having study in minimum living under the Daily Life Security Law, the latest tendency which whole national survey of 1948 gave 71% of under privilege that is working (employed). Even this prefecture had 49% in the end of 1947 which increased to 82% at the end of 1948. This is to imagine that the women labours became in-large number, which can be called the predisposition to this term as much higher as 18% over then the male standard amount. But only we have to think of this point is for health preservation of labours. If it is appropriateness

to give bath twice a month, or other necessity expenses for cover the children to grow healthful by small child toys. playgrounds, excursion, picnic in hokidays. or anyother matter. Can they be civilized people just reading the daily news paper? Ofcourse much space is left that need more study in contents of standard amount for future or purpose of expenses for youth people on marrige conscription age.

At the last moment 10 revision is oppose to 9th standard amount of this term for especially to responsible fitness. Also very defficult under condition with financialism disposal. Therefore, under privilege are to be graceful in mine with guide to endeavour for depending. "We will make a loss if we don't recieve". This such an ideal must absolutely forget for this understanding purpose.

The clothing is 17 yen oppose to 4 yen. Personal effects is 26 yen oppose to 18 yen. Health expenses (male) is 105 yen oppose to 59 yen. Housing expenses is 88 yen oppose to 55 yen. Light and fuel expenses 119 yen oppose to 185 yen. Other expenses is 51 yen oppose to 40 yen. Therfore, above is mentioned to consider the actual price of the Toyama City is downward tendency rather then the Local Value Commodities. The Labour's wages is in increase tendency with paralled in upward tendency of price. But to the latest of peculiar phenomenon, the exponent wages is downward on the Febuary this year then oppose of last year the November. Also this year the Febuary and March of exponent feeling price is downward position . The change of the economic world is realized of signification. Therefore, it is reasonable to decide with provide amount of grant by strictness of social survey rather then accordingly to do on principle standard amount.

For having study in minimum living under the Daily Life Security Law, the latest tendency which whole national survey of 1948 gave 71% of under privilege that is working (employed). Even this prefecture had 49% in the end of 1947 which increased to 82% at the end of 1948. This is to imagine that the women labours became in-large number, which can be called the predisposition to this term as much higher as 18% over then the male standard amount. But only we have to think of this point is for health preservation of labours. If it is appropriateness

to give bath twice a month, or other necessity expenses for cover the children to grow healthful by small child toys. playgrounds, excursion, picnic in hokidays. or anyother matter. Can they be civilized people just reading the daily news paper? Ofcourse much space is left that need more study in contents of standard amount for future or purpose of expenses for youth people on marrige conscription age.

At the last moment 10 revision is oppose to 9th standard amount of this term for especially to responsible fitness. Also very defficult under condition with financialism disposal. Therefore, under privilege are to be graceful in mine with guide to endeavour for depending. "We will make a loss if we don't recieve". This such an ideal must absolutely forget for this understanding purpose.

INSUFFICIENT JOBLESS RELIEF ENTERPRISES OF TOYAMA PREF. ONLY ⅓ OF PROGRAM ACCOMPLISHED, WHILE JOBLESS THRONG ABOUT EMPLOYMENT SECURITY OFFICE

The jobless relief enterprises, which has a big effect in rescuing the jobless, was decided to be enforced from this January at Toyama, Takaoka and Osawano. It was to take in 850 persons daily, and 76,500 persons by the end of March. ¥8,700,000 state subsidies are already settled for its fund, and part of the enterprises are set to work.

According to the survey of the Pref. Employment Security Office, 5 places in Takaoka were to take in 200 persons a day, as Pref. jobless relief measures but only 2 places are working by the 31st of January. Within January 6,200 persons were to get relief jobs, but only 1,600 persons are actually taken in.

On the other hand crowds of jobless throng about the employment security office everyday. Though this office have the fund for the jobless relief enterprises, they still have to pay insurance money to the jobless, as these enterprises have not begun to work. In order to get rid of these double waste, they requested the Pref. Road Section Takaoka Public Work Branch Office, to cooperate in rescuing the jobless by starting the work immediately.

Besides, the remainder of the state subsidies for jobless relief enterprises by the 31st March, are to be returned to the National Treasury.

DEMONSTRATION BY DAY LABORERS

On the morning of the 16th, about 80 jobless, out of the 200 day laborers crowded into Toyama Public Employment Security Office, could not get any jobs this day. They interviewed with vice chief Yonetani of the above office requesting, "Please secure our living today," but did not reach to any understandings.

12 representatives out of them, with the vice chief, visited chief Kamata, of Pref. Economic Section, at 10:30 A.M. saying, "We are in difficulty to feed ourselves" "Give us a day's wage amt, as unemployment allowance"

They repeated discussions without taking lunch for 6 hours, but the Pref. Office said, "We will pay all efforts to give you all works", and at last dismissed.

GOOD RELIEF MEASURES FOR JOBLESS IN TOYAMA

Owing to the bitter shortages of money, adjustment of medium and small enterprises have been performed continuosly, and the numbers of jobless in Toyama are said to be 4,000. This year compared with last year, so far as contraction of currencies are bitter, reformation of industries are required and increase of jobless is expected.

Observing these jobless before hand, relief measures for them are under deliberation at the Toyama Prefecture Government. As long as the farm panic does not occur, estimation of jobs for jobless of the general public, excluding that of intellegent classes, are to be over ten times compared with last year. A spot of light is seen in the jobless roaming on the streets.

Gun & City relief measures

The Government calculated ¥1,500,000,000 as relief funds last year, and ¥4,500,000,000 for this year.

200 people got jobs a day (60,000 a year) last year. This year 1,000 people will get jobs a day (300,000 a year). Jobs opened for construction of Prefectural General play Ground, adjustments of districts, repairs of street and rivers.

They are mostly for jobless in Toyama, Takaoka City and Osawano cho, Kaminei.

Public enterprises

Owing to the increase from ¥60,000,000,000 of last year to ¥100,000,000,000 the allotment for Toyama Pref, calculating is as 1/100 of the whole sum, would be ¥1,000,000,000. It is enough to pay 2,000 daily workers a day (600,000 workers a year). They would be applied to various enterprises as, School, Roads, forests, land cultivation, etc. It is settled that at least 40% of the jobless in Toyama and Takaoka city, and 20% of jobless men in the guns must be included.

Others

Construction works of Kurashiki Rayon Manufactory, the top in Vinyl industry. Electric Power Development. Construction of Nariide Power Station about 2,000 laborers are needed a day, especially 900 factory workers are needed at Kurashiki factory. A bright prospect is ahead for the jobless this year if they do not wish to seek jobs in offices.

Disaster

Welfare makes plan for discussion by prefectural members.
Last trial in June 1949. Team members understood their duties - It was for flood; medical aid station set up, food kitchen & shelter, bridge repaired, road detour set up. School managed children. Prefecture has no relief goods on hand. Economics, agri. & Domestic would furnish rice, soya sauce, and clothing. Would get it from different dealers at ken expense.
¥3,900,000 in disaster fund. Plan to spend ¥500,000 in purchase of goods at a cheap price from Ministry - 4,000 pieces - Would keep this for a time, then issue it as relief in kind. Insisted this is possible - Have a list of necessary articles & where they can be secured. The governor has authorized them to purchase the articles and to release them as relief in kind later if not used for disaster. Would pay for storage in a merchants' warehouse

80,000 have returned (Repatriates)
1,500 not returned including 800 military.
Of 800 military 500 whereabouts are unknown.
Food varied with the camps -
2 ill - (one couldn't talk - Sent to Doyama because of glasses case. Cried when saw parents).
The MPs in Manchuria are those who have not returned -

7. AMOUNT OF GRANT: ¥2,240							

13. REMARKS: Husband was war-dead 6 years ago.
Family head 35-year-old works at the Toyama Medicine Co. where she gets salary of ¥4,200 a month. Her mother 65-year-old is healthy, and she earns ¥600 a month by making paper envelopes at home. 4 kids are attending school.

Family head's mother complains that education allowance of ¥1,204 was provided for 3 kids in March, while only ¥1,138 was provided for 4 kids quarterly in June, this year. She told so to Minsei-in as soon as she received the allowance and asked the reason why. Minsei-in told her that he would ask the City Office and find out. Nearly 2 months passed already, but no answer has come yet.

14. DISCREPANCIES NOTED AND CONCLUSION:

Expenses	7,040	7,205	7,040
Income	4,800		4,800
Grant/Deficit	2,240		2,240

I looked through the standard sheet and found out the reason within 5 minutes. The reason was quite simple as follows.

3 kids were attending school in March and 4 kids were attending in June. Standard amount of education allowance was as follows.

In March		In June	
2nd class	¥ 725	1st class	750
5th "	1,115	3rd "	785

A kid was increased, but amount of education allowance was reduced on account of difference in amount for each school class. I don't know why Minsei-in could not + RECIPIENTS OF PUBLIC A-----" find out this reason for 2 months. This is an

Conclusion: Grant is O.K. This case has one more problem. The shack had been leaking in the roof for a long time, and family head consulted to Minsei-in about repairing charges in the rainy season and a month ago. Yet. She cannot afford to pay it and she does not know how to settle it.

The letter dated Dec. 16, 1949 (by register mail) from Mr. Kiyotaka Watanabe c/o Minsei ryo operated by Takaoka city, to Commanding officier of Toyama Military government

"I was repatriated from Fusan, Korea, (southern part of Korea) on Oct. 1945. Since repatriation, we have had no house to live on our native land. Then we have been obliged to move so often. Now, we, five, are temporalily living on five mats' room of the above Minsei ryo. Roofing of Minsei ryo is covered with only the boards. On the heavy windy days, some of the boards on the roofing were blown away and rain and snow came from such broken roofing. Our living has been very difficult because of the high prices of foodstuffs. Even eldest of my children is school aged. Only with my salary, we have to maintain our living. I have been working on accounting sect of Shinminato ship maker, the capital of which is not so big and in a very difficult situation of finance. Its business has been becoming not so active. Then personnel reduction will be made in very near future. My monthly salary is yen 5,500. I am afraid how to meet the extra money for the cold winter. I have the balance yen 4,500 on the pass book of Yasuda Bank Fusan Branch. The staff of Yasuda bank Fusan Branch told me that we could get yen 500 monthly from the Yasuda bank Tokyo branch by the said pass book when I left Korea. But I could not find its address. Fortunately its Toyama branch office was established. When I lived on Fushiki, Toyama pref., I made enquiry with its manager. But up to date, I could not get any money from it. I enclosed herewith the said pass book (balance yen 4,500) and the letter from the manager of Yasuda bank Toyama branch dated Jan. 29, 1946. If possible, will you help for us to get the said amount or some of the said amount from my pass book."

"Enclosure No.1-The pass book No.11625 issued by Yasuda bank Fusan branch The balance standing on Sept 29, 1945 is yen 4,500)

Eclosure No.2 -The letter Tomi tame 46-3 dated Jan.29,1946 from Choji Mitamura the manager of Yasuda bank Toyama branch to Mr.Kiyotaka Watanabe

"We are making the following answer in reply to your enquiry dated Jan. 16, 1946. The whole accounts of our Fusan branch were already transfered to Korea bank and have been blocked since then. Then your deposit on Fusan branch can not be paid back you on cash right now, owing to the order of Commanding officier of Allied armies.

So long as the deposits transfered from outside of Japn to Japan upto Oct. 24, 1945, they have been paid back from yen 1,000 to 10,000 highest each month. On the other hand, so long as the deposits of the persons repatriated since then, we have not been allowd to pay back them. Will you note the above situation. As to your deposit on our Fusan branch it is the socalled asset on outside of Japan, which should be made necessary procedures to notify it to Japan Bank Kanazawa branch. Otherwise, it will be confiscated, which please note"

28 Dec 49 Bob telephoned the Fuji Banks, formerly the Yasuda Bank, and learned that funds are still frozen and cannot be released until a SCAP decision permits this. He secured the address of the main branch of the bank in Tokyo to which the man may write direct. (See address in Japanese on reverse side). Is DLS indicated? Can the Minsei Ryo be repaired? D.
