All applications will be made at city office. All new applications will be investigated by paid staff. In the 4 model districts, all recipients will be visited. ~~in the model~~ = Planned 6 district workers but only 4 at present because city assembly has not yet met.

Publicity has been given to the program in general but no date given.

One staff member knows the laws well, but other 3 need to study them more. Next week additional publicity is to be given, setting the definite date. This week is being spent in study by the district workers.

The ninsei-iin have not expressed any feeling, but all believe that this is the greatest problem.

Any time during week of 20 Feb. would be good for meeting. One day would be long enough. (They might like to see institutions in Nagoya a second day. would arrange for themselves).

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

ESTABLISHMENT AND OPERATION OF PUBLIC PROTECTION OFFICE OF KANAZAWA-CITY (Plan)

Of the total population of 240,425 in Kanazawa, 6,751 or 2.8% are those who require protection according to the Libelihood Protection Law. Similarly, of the total number of households, 57,606, 3.65% or 2,106 are the needy.

The fixed number of the public welfare committeemen being 657, each member is to take care of 3.2 households or 9 persons on the average. But these figures are smaller than the whole country average, viz 5.9 households and 15.3 persons respectively. In future, Kanazawa will have the number of the committee members decreased to 580.

When the protected are taken care of by the 6 salaried officials who were recently appointed exclusively for protection business, each will take as many as 351 households covering 1,125 persons, and it is almost impossible for them to stand the heavy burden, not to speak of lack of experience. Therefore, we have nominated 4 primary school districts (Shintate, Nagacho, Nagadobei and Matsugae) to begin with, in order to train the present officials on the spot as a step for futrue expansion.

In the old city area of Kanazawa there are 20 primary school districts (Nomachi, Nakamura, Juichiya, Shinkata, Kikukawa, Ishibiki, Zaimoku, Misokura, Nagamachi, Matsugae, Nagadobei, Hosei, Nagata, Konohana, Hyotan, Baba, Asano, Moriyama, Moroe, Heiwa) and in the newly added area 14 school districts (Togashi, Hammaru, Samba, Sakiura, Kosaka, Kuratsuki, Katatsu, Kurigasaki, Ono, Toita, Daitoku, Kanaishi, Nitsuka, Kawakita) or 34 in all, and in each district we have a public welfare committee. Therefore we think it necessary to place the officials for at least 20 old Kanazawa city school districts as early as possible for enforcement of the protection work.

Formerly, those who wish to be protected according to the public livelihood protection law, were requested to apply through the public welfare committee man in charge of the district, and the latter then investigates the actual condition to decide whether the application is to be rejected or to be sent on to the council of public welfare committee of the district before getting the mayors final approval through the welfare section of the municipal office.

According to the Welfare Ministry's notification Hatsu-sha 72 of October 31, 1949, however, it has been arranged that a Central Committee for Kanazawashi would be provided in the public welfare section of city office in order to carry out the business, as a result of conference of people concerned of the prefecture and the city, under the guidance of Hq. Tokai-Hokuriku Civil Affairs Region; the committee, then, to inlude.

and others.

Now taking into consideration so many items that the Central Committee will have to take, it is found impossible to reach good result by the present number of personnel. Unless we increase the number of paid officials it is impossible to carry out the business in conformity with the recent new measure; therefore it is necessary to ask the Welfare Ministry to approve of a substantial increase in the member of the personnel.

Outline of protection business: The city officials are to directly attend to enforcement of the Livelihood Protection, Child Welfare, Physically Handicapped Peoples Welfare Laws, with the Public Welfare Committeemen's cooperation, as follows:

1. The municipal employees and the public welfare committeemen find out those who require protection. If such are found by the public welfare committeemen, this will be reported to the municipal officials concerned.

2. Application for protection. Those who wish to apply for protection are requested to call on the public welfare section of the municipal office and tell particulars to a reception clerk, by presenting written applications. The reception clerk receives the application.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Duties of clerks and officials of the consultation office. The reception clerk interviews the applicant, who has been taken to him through the usher, so kindly that the applicant can tell everything he or she is suffering from. During the reception the clerk takes note of the reason why the visitor has applied for consultation, and writes it on a card to be provided for the purpose.

O Reception clerk's work is very important as his duty is to listen to appeals of people who have chosen the office as the final place to rely on. He must be conversant not only with the laws concerned but also with all the worldly affairs, and also be clever enough to give correct judgement. Every case must always be attended to very impartially. Manners and point of questions to be observed by the reception clerk are as follows:

A. "Sit down please, and tell us everything without reserve. But this problem of public protection is a very important national work which will be done with the tax - , the cristal of blood and sweat of people - which each of the people who is living the present hard life has paid: So you must not tell any lie. If you would get protection with dishonest statement, you will be punished according to the protection law with the penal servitude of less than 6 months or with a fine of less than 5 hundred yen. Remembering this tell us whatever you want" giving this introductory remark, they have to pay attention to the following paints.

B. Whether he has got any protection before or not and whether he has requested it or not.

C. About the members of his family (sex, age, profession, school etc.,)

D. Causes which made his life hard.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

E. How he has kept on his life up to that time. Counting out the lowest cost of living of his household, how he has paid the expenses (make clear specially of this point)

F. If he is working now or not. (position, salary)

G. Supporters, Relations (children, his parents and his wifes parents)

After listening to his statements about these points, a reception clerk should explain about the application and the social work establishments. After these explanations, the clerk will check his will of application again.

A. If he does not ~~wait~~ want to apply, the ~~with~~ clerk should encourage him, and take notes of it on "A ~~receipt~~ reception card".

B. In case he wants to make application, the clerk will give an application paper and let him write down the necessary items and sign and seal. If he can not write himself, the clerk writes in stead of him.

C. On receiving the application, the clerk will say to him "~~Recently~~ Shortly an investigation official will visit your home and make more precise investigation. On that occasion, tell him everything honestly. - Now thank for coming."

(For one who needs the certificate of unemployment, let him have it and go to the ~~procurement~~ employment security office to ask for employment).

Receiving the application, the reception clerk should note it down in an index (the form is an planning stage) and also an index card should be made.

O Investigation and guidance clerks. They act in accordance with instructions received from the reception clerk. Also keep contact with public welfare committee men. It is essential for the investigation clerks to see the actual condition of the needy with their own eyes. Of course it is necessary to call on the homes of the needy. Points of investigation are as follows:

A. On investigation, do not forget sympathy and with kind words and actions, let them speak out truth.

B. On the spot, the has to investigate with close but delicate attention, but he should avoid any words or action of picking out. - How is the condition of fixtures, ~~are the~~ tatamis and doors new or old? Aren't the furnitures too good?

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

How are the clothes of the family?
How are their health and sanitary conditions?
About these points he has to make general observation and catch the facts.

As the criticism of neighbour often tells the truth, there is necessity to investigate this direction.

Specially these points about the household such as what work do they have in order to get income or from whom do they get help, or whether they are not waisting money in daily life, must be investigated closely.

In other words investigation should be done in every direction and with these materials, a list of the lowest cost of living of the family, a certificate of income and an investigation paper for protection must be made to send in attaching the investigator's remarks too.

The clerks make reports on the minimum living expenses required for each case, possible incomes, protection needed, and the clerks opinion in general.

- Decision for protection, or rejection of application, etc. The formalities are same as those adopted by the prefectural livelihood protection office.

- Statistical business. Statistics are very important for knowing the actual condition of the protected and also for finding ways and means of future measures. For this purpose the investigation clerks visit the protected at least once a month, for investigation and guidance especially in respect to jobs, financing, cares on young children, etc. Everything known while investigation are reported to the public welfare section chief.

- All the clerks concerned must study on, and be trained in, the following items.
  Spirit and principles of laws concerned. Management of the protection work. Guidance in group or individual of the protected. Study in general of the protection work. Medical protection. Announcement and studies on matters experienced by clerks. Outline for expansion of the public welfare work. Announcement and studies on items experienced by woman members. Outline of protection and guidance of juvenile. Outline management of various equipments. Other social works in general.

Guide to Training Case Workers

The social work being at work to handle various questions occurring in the modern social life, this is not of the type of socalled charitable works, which are conducted at the will of individuals, but should be managed by the community or by the

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

country with responsibility, and should also be carried out based upon the social science.

With regard to public responsibility of the social works, it aims at guaranteeing the minimum level of living of the nation according to the Livelihood Protection Law. But the question is how to enforce the law. Therefore the duties of officials and clerks are very important. In order to make sure of correct operation of the work, it is necessary to train them constantly on the spot and at the same time they themselves must study hard for the purpose.

As a technique for scientific application of the Livelihood Protection Law, we have the "Case work", and every official or clerk should be the very able case worker.

1. Meaning of Case Work.
   It means the work to lead each individual to become adaptable to physical social surroundings, and guide him develope his possibilities at most, and live his whole life in activity - that is the process of the scientific methods to improve his personality and to fulfill his duties at best for the nation and the society.

2. Mental attitude of case workers.
   1) Every one must have interest in the protected and should be a good friend of these persons, so that the protected can speak frankly to him on any question and that he never criticize badly against them.
   2) He should not feel higher positioned when speaking to the protected.
   3) He must be lenient broadhearted and sympathetic, and must think of the cause of autipathies or prejudices of the protected.
   4) He must be conversant with use of Social resources, use of citizens public halls, neighborers halls, churches, temples, shrines, schools, factories, nurseries, police stations, youths organizations, medical institution, judicial organs, financial facilities and laws and regulations concerned.
   5) He must pay respect to the individualities, namely, must be polite and recognize the value of each individual.
   6) He should observe secrecy as stipulated in the laws.
   7) He should think of any question on the stand point of the needy. Don't force them to act according to his own will.

3. Process of case work.
   1) Reception: (The first base of the case work)
      (1) a) To create relation between the case worker and the applicant.
          b) To know whereabout of the question.
          c) To hear thoroughly what the protected say.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) It is ideal to speak between the reception clerk and the protected only. The case worker must be careful so that the protected can speak everything without anxiety.

2) Investigation.
It is to make the reports of the life of the one who has come to ask protection.
In order to make clear where the problems are, it is necessary to collect materials as much as possible and also from every angle. In this case, it is of course to make use of social sources.

3) Recording (this is the second base of the case work)
(1) History of living of the applicant is very important in various phases. It is diagram and dialogue of life which will be the campass needle of guidance.

(2) At the time of investigation, as the investigator or the applicant is apt to be effected with the conditions, it is better to record at the time and to read it later in tranquill mood. By doing thus, you can do self-reflecting or self criticism.

(3) Record is necessary both from law point of view and also as reference for future changes of personnel.

(4) This will be good reference for various social surveys.

4. Social diagnosis
Complicated nature of the human life and the constant changes of the community being the object of the social diagnosis, any conclusion therefrom cannot be the final. Consequently the case-work also has to very depending upon the changes. It is necessary to have some doubt in case the performance has not been changed for a long time.

5. Social treatment.
1) Mechanical treatment. Under this category are included accomodation of money or articles, employment, negotiation for lowering house rent, and other material services.
2) Mental treatment. To help the protected through mental guidance etc. to enable them to reestablish themselves.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Without cooperation of those who are guided, the true case-work cannot be achieved. Case-work is a kind of "art"., where the people to be guided can be regarded a live "canvas", and the guidance clerk paints thereon, brush after brush, to complete the case-work.
Case-work is not only to serve the protected but should also please the guidance officials to see the protected are growing better, at the same time as promoting their belief in the social work.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

一、總　說

石川縣は北陸道の中部に位し、東は富山、岐阜兩縣に界し、南方福井縣に接し、北方は能登半島となりて日本海に突出し、西南より東北に向い狹長なる地形をなし、東西九九粁六、南北一九八粁八、面積四、一九二平方粁四二(二七二方里)、人口九二七、七四三人で、其の両積順位は全國中第三四位で、人口順位は第三五位である。而して本縣の日本海を流るる暖流の影響と東南に群聳せる山嶽の関係より降雨降雪多くして濕度高く、氣溫の變化亦著しくして年中青天を見るの日甚だ少ない。

二、沿　革

本縣は遠き上古の時代から中世期に至る迄は朝廷の直轄に属していたが壽永の頃には源義仲加賀・能登の二國を併有し、鎌倉幕府となりて加賀は富樫氏に、能登は分れて元の國守によつて支配せられた、南北朝時代に至り加賀は北朝に属し能登のみは何れにも属せなかつた、足利氏の来から德川氏天下の政權を握る迄は加賀は本願寺の僧領より上杉氏を経て佐久間氏に移つたのであるが、德川氏諸侯配置に際し加賀、能登の二國は越中と共に前田氏の所領に帰し後前田氏の支藩大聖寺及び富山に封ぜらるゝや其所領の一部を領つた。明治二年金沢、大聖寺、富山の各藩を置き同四年七月廢藩置縣と共に其所轄旧の如くなつたが同年更に加賀一箇國を以て金沢縣とし、能登一箇國及び越中の一部を合して七尾縣の所轄とした、五年金沢縣を石川縣と改め七尾縣を廢し加賀、能登の二箇國を以て、石川縣の所轄とした、九年更に越中及び越前の二箇國を加へ越前、加賀、能登、越中の四箇國を以て石川縣管轄としたが十四年越前の國を、十六年越中の國を分割し爾來今日に至つた。現今加賀を分けて金沢市・小松市及江沼・能美・石川・河北の四郡とし、能登を分ちて七尾市及羽咋・鹿島・鳳至・珠洲の四郡に分ち更に郡内を区劃して三十五町百四十一箇村とした。
