The certificate must bear the expiration date and registration number assigned by the director. The director shall adopt rules governing the issuance of the certificate. A temporary certificate, valid for an initial period not to exceed three months, may be issued by the director for a fee of three dollars upon application supported by a physician's or an advanced practice registered nurse's statement. The director may issue a maximum of one additional temporary certificate for a fee of three dollars. The temporary certificate may be extended an additional period, not to exceed three months, upon application supported by a physician's or an advanced practice registered nurse's statement that the extension is warranted. Temporary certificates must be the same size as other certificates issued under this section and must be white on red. The hearing must be recorded and its scope may cover only the issues of whether the arresting officer had reasonable grounds to believe the individual had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to an individual under twenty-one years of age, the individual had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the individual was placed under arrest, unless the individual was under twenty-one years of age and the alcohol concentration was less than eight one-hundredths of one percent by weight, then arrest is not required and is not an issue under any provision of this chapter; whether the individual was tested in accordance with section 39-20-01 or 39-20-03 and, if applicable,

section 39-20-02; and whether the test results show the individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood or urine sample from the director of the state crime laboratory or the director's designee, or electronically posted by the director of the state crime laboratory or the director's designee on the crime laboratory information management system and certified by a law enforcement officer or individual who has authorized access to the crime laboratory management system through the criminal justice data information sharing system or a certified copy of the checklist and test records from a certified breath test operator, and a copy of a certified copy of a certificate of the director of the state crime laboratory designating the director's designees, establish prima facie the alcohol concentration or the presence of drugs, or a combination thereof, shown therein. Whether the individual was informed that the privilege to drive might be suspended based on the results of the test is not an issue.

3. If the issue to be determined by the hearing concerns license revocation for refusing to submit to a test under section 39-20-01 or 39-20-14, the hearing must be before a hearing officer assigned by the director at a time and place designated by the director. The hearing must be recorded. The scope of a hearing for refusing to submit to a test under section 39-20-01 may cover only the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to a person under twenty-one years of age, the person had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the person was placed under arrest; and whether that person refused to submit to the test or tests. The scope of a hearing for refusing to submit to a test under section 39-20-14 may cover only the issues of whether the law enforcement officer had reason to believe the person committed a moving traffic violation or was involved in a traffic accident as a driver, whether in conjunction with the violation or the accident the officer has, through the officer's observations, formulated an opinion that the person's body contains alcohol and, whether the person refused to submit to the onsite screening test. Whether the person was informed that the privilege to drive would be revoked or denied for refusal to submit to the test or tests is not an issue.
4. At a hearing under this section, the regularly kept records of the director and state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and state crime laboratory:
 - a. Any copy of a certified copy of an analytical report of a blood or urine sample received by the director from the director of the state crime laboratory or the director's designee or electronically posted by the director of the state crime laboratory or the director's designee on the crime laboratory information management system and certified by, and received from, a law enforcement officer or an individual who has authorized access to the crime laboratory management system through the criminal justice data information sharing system, or a certified copy of the checklist and

- test records received by the director from a certified breath test operator; and
- b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol concentration or the presence of drugs received by the director from the director of the state crime laboratory or the director's designee, or that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website; and
 - c. Any copy of a certified copy of a certificate of the director of the state crime laboratory designating the director's designees.
5. At the close of the hearing, the hearing officer shall notify the person of the hearing officer's findings of fact, conclusions of law, and decision based on the findings and conclusions and shall immediately deliver to the person a copy of the decision. If the hearing officer does not find in favor of the person, the copy of the decision serves as the director's official notification to the person of the revocation, suspension, or denial of driving privileges in this state. If the hearing officer finds, based on a preponderance of the evidence, that the person refused a test under section 39-20-01 or 39-20-14 or that the person had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, the hearing officer shall immediately take possession of the person's temporary operator's permit issued under this chapter. If the hearing officer does not find against the person, the hearing officer shall sign, date, and mark on the person's permit an extension of driving privileges for the next twenty days and shall return the permit to the person. The hearing officer shall report the findings, conclusions, and decisions to the director within ten days of the conclusion of the hearing. If the hearing officer has determined in favor of the person, the director shall return the person's operator's license by regular mail to the address on file with the director under section 39-06-20.
6. If the person who requested a hearing under this section fails to appear at the hearing without justification, the right to the hearing is waived, and the hearing officer's determination on license revocation, suspension, or denial will be based on the written request for hearing, law enforcement officer's report, and other evidence as may be available. The hearing officer shall, on the date for which the hearing is scheduled, mail to the person, by regular mail, at the address on file with the director under section 39-06-20, or at any other address for the person or the person's legal representative supplied in the request for hearing, a copy of the decision which serves as the director's official notification to the person of the revocation, suspension, or denial of driving privileges in this state. Even if the person for whom the hearing is scheduled fails to appear at the hearing, the hearing is deemed to have been held on the date for which it is scheduled for purposes of appeal under section 39-20-06.

SECTION 17. AMENDMENT. Subsection 6 of section 39-20-07 of the North Dakota Century Code is amended and reenacted as follows:

6. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing

Upon approval of the methods or devices, or both, required to perform the tests and the individuals qualified to administer them, the director of the state crime laboratory or the director's designee shall prepare, certify, and electronically post a written record of the approval with the state crime laboratory division of the attorney general at the attorney general website, and shall include in the record:

- a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.
 - b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.

 - d. The certificate of the director of the state crime laboratory designating the director's designees.
 - e. The certified records electronically posted under this section may be supplemented when the director of the state crime laboratory or the director's designee determines it to be necessary, and any certified supplemental records have the same force and effect as the records that are supplemented.
- e-f. The state crime laboratory shall make the certified records required by this section available for download in a printable format on the attorney general website.

SECTION 18. AMENDMENT. Subsection 9 of section 39-20-07 of the North Dakota Century Code is amended and reenacted as follows:

9. Notwithstanding any statute or rule to the contrary, a defendant who has been found to be indigent by the court in the criminal proceeding at issue may subpoena, without cost to the defendant, the individual who conducted the chemical analysis referred to in this section to testify at the trial on the issue of the amount of alcohol concentration or presence of other drugs, or a combination thereof in the defendant's blood, breath, or urine at the time of the alleged act. If the ~~state toxicologist, the director of the state crime laboratory, or any employee of either, or designee~~ is subpoenaed to testify by a defendant who is not indigent and the defendant does not call the witness to establish relevant evidence, the court shall order the defendant to pay costs to the witness as provided in section 31-01-16. ~~An indigent defendant may also subpoena the individual who withdrew the defendant's blood by following the same procedure.~~

10. ~~A signed statement from the individual medically qualified to draw the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission~~

of this evidence may be required. A law enforcement officer who has witnessed an individual who is medically qualified to draw the blood sample for testing may sign a verified statement that the law enforcement officer witnessed the individual draw the blood sample and the individual followed the approved methods of the state toxicologist. Further foundation is not required to establish that the blood sample was drawn according to the approved method of the state toxicologist.

SECTION 20. AMENDMENT. Section 39-20-14 of the North Dakota Century Code is amended and reenacted as follows:

39-20-14. Screening tests.

1. Any individual who operates a motor vehicle upon the public highways of this state is deemed to have given consent to submit to an onsite screening test or tests of the individual's breath for the purpose of estimating the alcohol concentration in the individual's breath upon the request of a law enforcement officer who has reason to believe that the individual committed a moving traffic violation or was involved in a traffic accident as a driver, and in conjunction with the violation or the accident the officer has, through the officer's observations, formulated an opinion that the individual's body contains alcohol.
2. An individual may not be required to submit to a screening test or tests of breath while at a hospital as a patient if the medical practitioner in immediate charge of the individual's case is not first notified of the proposal to make the requirement, or objects to the test or tests on the ground that such would be prejudicial to the proper care or treatment of the patient.
3. The screening test or tests must be performed by an enforcement officer certified as a chemical test operator by the director of the state crime laboratory or the director's designee and according to methods and with devices approved by the director of the state crime laboratory or the director's designee. The results of such screening test must be used only for determining whether or not a further test shall be given under the provisions of section 39-20-01. The officer shall inform the individual that North Dakota law requires the individual to take the screening test to determine whether the individual is under the influence of alcohol, that refusal to take the screening test is a crime, and that refusal of the individual to submit to a screening test will may result in a revocation for at least one hundred eighty days and up to four ~~three~~ years of that individual's driving privileges. If such individual refuses to submit to such screening test or tests, none may be given, but such refusal is sufficient cause to revoke such individual's license or permit to drive in the same manner as provided in section 39-20-04, and a hearing as provided in section 39-20-05 and a judicial review as provided in section 39-20-06 must be available. ~~However, the~~

5. No provisions of this section may supersede any provisions of chapter 39-20, nor may any provision of chapter 39-20 be construed to supersede this section except as provided herein.

6. For the purposes of this section, "chemical test operator" means an individual certified by the director of the state crime laboratory or the director's designee as qualified to perform analysis for alcohol in an individual's blood, breath, or urine.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹⁶⁴ **SECTION 1. AMENDMENT.** Section 40-57.1-03 of the North Dakota Century Code is amended and reenacted as follows:

40-57.1-03. Municipality's authority to grant or revoke tax exemption or payments in lieu of taxes - Notice to competitors - Limitations.

1. After negotiation with a potential project operator, a municipality may grant a partial or complete exemption from ad valorem taxation on all buildings, structures, fixtures, and improvements used in or necessary to the operation of a project for a period not exceeding five years from the date of commencement of project operations. A municipality may also grant a partial or complete exemption from ad valorem taxation on buildings, structures, fixtures, and improvements used in or necessary to the operation of a project that produces or manufactures a product from agricultural commodities for all or part of the sixth year through the tenth year from the date of commencement of project operations.
2. In addition to, or in lieu of, a property tax exemption granted under this section, a municipality may establish an amount due as payments in lieu of ad valorem taxes on buildings, structures, fixtures, and improvements used in the operation of a project. The governing body of the municipality shall designate the amount of the payments for each year and the beginning year and the concluding year for payments in lieu of taxes, but the option to make payments in lieu of taxes under this section may not extend beyond the twentieth year from the date of commencement of project operations. To establish the amount of payments in lieu of taxes, the governing body of the municipality may use actual or estimated levels of assessment and taxation or may establish payment amounts based on other factors. The governing body of the municipality may designate different amounts of payments in lieu of taxes in different years to recognize future project expansion plans or other considerations.

Upon receipt by the county treasurer of the amount of payments in lieu of taxes under this section, the county treasurer shall apportion and distribute that amount to taxing districts on the basis on which the general real estate tax levy is apportioned and distributed. The municipality may enter into a written agreement with the local school district and any other local taxing districts that wish to enter the agreement for an alternate method of apportionment and distribution. If such an agreement is entered into, the county treasurer shall apportion and distribute the money according to the written agreement. All provisions of law relating to enforcement, administration, collection, penalties, and delinquency proceedings for ad valorem taxes apply to payments in lieu of taxes under this section. However, the discount for early payment of taxes under section 57-20-09 does not apply to payments in lieu of taxes under this section. The buildings, structures, fixtures, and improvements comprising a project for which payments in lieu of taxes are allowed under this section must be excluded from the valuation of property in the taxing district for purposes of determining the mill rate for the taxing district.

Negotiations with potential project operators for tax exemption or payments in lieu of taxes must be carried on by the city council or commission if the project is proposed to be located within the boundaries of a city, and by the board of county commissioners if the project is proposed to be located outside the corporate limits of any city. A partial exemption must be stated as a percentage of the total ad valorem taxes assessed against the property. Unless the governing body of the municipality determines that there is no existing business within the municipality for which the potential project would be a competitor, the potential project operator shall publish two notices to competitors, the form of which must be prescribed by the tax commissioner, of the application for tax exemption or payments in lieu of taxes in the official newspaper of the municipality at least one week apart. The publications must be completed not less than fifteen nor more than thirty days before the governing body of the municipality is to consider the application. The municipality shall determine whether the granting of the exemption or payments in lieu of taxes, or both, is in the best interest of the municipality, and if it so determines, shall give its approval.
5. By motion approved by the governing body of the municipality before the beginning of a taxable year for which a property tax exemption or the option to make payments in lieu of taxes under this section previously has been approved by the governing body, a property tax exemption may be revoked or reduced and payments in lieu of taxes may be revoked or increased for that taxable year for reasons specified in a negotiated agreement or if the governing body finds that:

exemption or the option to make payments in lieu of taxes was approved:

 - (4) Evaluation of whether the project operator would locate the project within the municipality without the exemption.
2. In addition to, or in lieu of, a property tax exemption granted under this section, a municipality may establish an amount due as payments in lieu of ad valorem taxes on buildings, structures, fixtures, and improvements used in the operation of a project. The governing body of the municipality shall designate the amount of the payments for each year and the beginning year and the concluding year for payments in lieu of taxes, but the option to make payments in lieu of taxes under this section may not extend beyond the twentieth year from the date of commencement of project operations. To establish the amount of payments in lieu of taxes, the governing body of the municipality may use actual or estimated levels of assessment and taxation or may establish payment amounts based on other factors. The governing body of the municipality may designate different amounts of payments in lieu of taxes in different years to recognize future project expansion plans or other considerations.
3. By November first of each year, the municipality that granted the option to make payments in lieu of taxes shall certify to the county auditor the amount of payments in lieu of taxes due under this section in the following year. After receiving the statement from the municipality, the county auditor shall certify the payments in lieu of taxes to the county treasurer for collection at the time when, and in the manner in which, ad valorem taxes must be certified. Upon receipt by the county treasurer of the amount of payments in lieu of taxes under this section, the county treasurer shall apportion and distribute that amount to taxing districts on the basis on which the general real estate tax levy is apportioned and distributed. The municipality may enter into a written

agreement with the local school district and any other local taxing districts that wish to enter the agreement for an alternate method of apportionment and distribution. If such an agreement is entered into, the county treasurer shall apportion and distribute the money according to the written agreement. All provisions of law relating to enforcement, administration, collection, penalties, and delinquency proceedings for ad valorem taxes apply to payments in lieu of taxes under this section. However, the discount for early payment of taxes under section 57-20-09 does not apply to payments in lieu of taxes under this section. The buildings, structures, fixtures, and improvements comprising a project for which payments in lieu of taxes are allowed under this section must be excluded from the valuation of property in the taxing district for purposes of determining the mill rate for the taxing district.

4. Negotiations with potential project operators for tax exemption or payments in lieu of taxes must be carried on by the city council or commission if the project is proposed to be located within the boundaries of a city, and by the board of county commissioners if the project is proposed to be located outside the corporate limits of any city. A partial exemption must be stated as a percentage of the total ad valorem taxes assessed against the property. Unless the governing body of the municipality determines that there is no existing business within the municipality for which the potential project would be a competitor, the potential project operator shall publish two notices to competitors, the form of which must be prescribed by the tax commissioner, of the application for tax exemption or payments in lieu of taxes in the official newspaper of the municipality at least one week apart. The publications must be completed not less than fifteen nor more than thirty days before the governing body of the municipality is to consider the application. The municipality shall determine whether the granting of the exemption or payments in lieu of taxes, or both, is in the best interest of the municipality, and if it so determines, shall give its approval.
5. During the negotiation and deliberation of a property tax exemption or the option to make payments in lieu of taxes under this chapter, a municipality shall include, as nonvoting ex officio members of its governing body, a representative appointed by the school board of each school district affected by the proposed action and a representative appointed by the board of township supervisors of each township affected by the proposed action.
6. A city or county may not supersede or expand the provisions of this section under home rule authority.

SECTION 2. LEGISLATIVE MANAGEMENT STUDY. During the 2013-14 interim, the legislative management shall study methods to assure that an accurate and reliable means is developed to measure effectiveness and accountability of property tax exemptions and other economic development incentives granted by cities and counties and to determine whether other taxpayers in the city or county ultimately derive a measurable benefit from granting of the incentives. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fourth legislative assembly.

SECTION 3. EFFECTIVE DATE. This Act is effective for property tax exemptions granted by a municipality to initially become effective for taxable years beginning after December 31, 2014.

SECTION 3. AMENDMENT. Section 43-15.3-03 of the North Dakota Century Code is amended and reenacted as follows:

43-15.3-03. Wholesale drug distributor licensing requirement - Minimum requirements for licensure.

1. A wholesale distributor that engages in the wholesale distribution of prescription drugs, medical gases, or medical equipment shall pay the annual fee required by the board, must be licensed by the board under this chapter, and must be properly licensed in any other state in which the wholesale distributor engages in the distribution of prescription drugs, medical gases, or medical equipment before engaging in wholesale distributions of wholesale prescription drugs, medical gases, or medical equipment in this state. The licensee shall operate in a manner prescribed by law and according to rules adopted by the board. However, information and qualification requirements for licensure beyond that required by federal law or regulation do not apply to manufacturers distributing ~~their~~the manufacturers' own United States food and drug administration-approved drugs, gases, or equipment, unless particular requirements are deemed necessary and appropriate following rulemaking. The board may grant a temporary license when the wholesale distributor or

pharmacy distributor first applies for a license to operate within this state. A temporary license is valid until the board finds that the applicant meets the requirements for regular licensure.

2. A person may not engage in wholesale distributions of prescription drugs without obtaining and maintaining accreditation or certification from the national association of boards of pharmacy's verified accredited wholesale distributor or an accreditation body approved by the board, obtaining and maintaining a license issued by the board, and paying fees as may be required by the board.
3. The board shall require the following minimum information from each wholesale distributor applying to get a license under subsection 1:
 - a. The name, full business address, and telephone number of the licensee.
 - b. All trade or business names used by the licensee.
 - c. Addresses, telephone numbers, and the names of contact persons for all facilities used by the licensee for the storage, handling, and distribution of prescription drugs.

 - f. A list of all licenses and permits issued to the applicant by any other state that authorizes the applicant to purchase or possess prescription drugs, medical gases, or medical equipment.
 - g. The name of the applicant's designated representative for the facility, together with and for a prescription drug wholesaler applicant, the personal information statement and fingerprints; required pursuant to subdivision h for the individual identified as the prescription drug wholesaler applicant's designated representative for the facility.
 - h. Each individual identified by a prescription drug wholesaler applicant as a designated representative for a facility and therefore required by subdivision g to provide a personal information statement and fingerprints shall provide the following information to the state:

- (2) The individual's date and place of birth;
- (3) The individual's occupations, positions of employment, and offices held during the past seven years;
- (4) The principal business and address of any business, corporation, or other organization in which each office of the individual was held or in which each occupation or position of employment was carried on;
- (5) Whether the individual has been, during the past seven years, the subject of any proceeding for the revocation of any license or any criminal violation and, if so, the nature of the proceeding and the disposition of the proceeding;
- (6) Whether, during the past seven years, the individual has been enjoined, either temporarily or permanently, by a court of competent jurisdiction from violating any federal or state law regulating the possession, control, or distribution of prescription drugs or criminal violations, together with details concerning any of those events;

If the individual indicates that a criminal conviction is under appeal and submits a copy of the notice of appeal of that criminal offense, the applicant must, within fifteen days after the disposition of the appeal, submit to the state a copy of the final written order of disposition; and
- (9) A photograph of the individual taken in the previous one hundred eighty days.

3-4. The information required under subsection 23 must be provided under oath.

4-5. The board may not issue a wholesale distributor license to an applicant, unless the board:

- a. Inspects or appoints a third party recognized by the board for the purpose of inspecting the wholesale distribution operations of the facility before initial licensure and continues to inspect periodically thereafter in accordance with a schedule to be determined by the board, but not less than every three years. Manufacturing facilities are exempt from inspection by the board if the manufacturing facilities are currently registered with the federal food and drug administration in accordance with section 510 of the federal Food, Drug, and Cosmetic Act [21 U.S.C. 301]; and

 - (8) Does not have any felony conviction under federal, state, or local laws.
- ~~5-6.~~ The board shall submit the fingerprints provided by an individual with a license application for a statewide and nationwide criminal history background record check. The nationwide criminal history background record check must be conducted in the manner provided in section 12-60-24. All costs associated with the background check are the responsibility of the applicant.
- ~~6-7.~~ The board shall require every wholesale prescription drug distributor applying for a license to submit a bond of at least one hundred thousand dollars, or other equivalent means of security acceptable to the state, including an irrevocable letter of credit or a deposit in a trust account or financial institution, payable to a fund established by the state under subsection 7. Obtaining and maintaining accreditation or certification from the national association of boards of pharmacy's verified accredited wholesale distributor satisfies this requirement. A chain pharmacy warehouse that is engaged only in intracompany transfers is not subject to the bond requirement. The purpose of the bond is to secure payment of any fines or penalties imposed by the state and any fees and costs incurred by the state regarding that license which are authorized under state law and which the licensee fails to pay thirty days after the fines, penalties, or costs become final. The state may make a claim against the bond or security until one year after the licensee's license ceases to be valid. A single bond may cover all facilities operated by the applicant in the state. Any chain pharmacy warehouse that is engaged only in intracompany transfers is exempt from the bond requirement.
- ~~7.~~ The board shall establish a fund in which to deposit the wholesale distributor bonds. Money in the fund is appropriated to the board on a continuing basis.

8. If a wholesale distributor distributes prescription drugs, medical gases, or medical equipment from more than one facility, the wholesale distributor shall obtain a license for each facility.
9. If a manufacturer manufactures prescription drugs, medical gases, or medical equipment in more than one facility but does not engage in wholesale distribution to North Dakota from those facilities, the manufacturer is not required to obtain a license for each facility.
10. The board shall mail or e-mail a notice for license renewal to each licensee before the first day of the month in which the license expires. If application for renewal of the license, along with the required fee, is not received by the board before the first day of the following month, the license expires on the last day of that month. Timely renewal is the responsibility of the licensee.
11. In accordance with each licensure renewal, the board shall send ~~to make available on the board's website for each wholesale distributor licensed under this section a form setting forth~~ the information that the wholesale distributor provided pursuant to subsection 23. Within thirty days of receiving the ~~form~~ notice, the wholesale distributor ~~must~~ shall identify and state under oath to the state licensing authority all changes or corrections to the information that was provided under subsection 23. Changes in, or corrections to, any information in subsection 23 must be submitted to the board as required by that authority. The board may suspend, revoke, or refuse to renew the license of a wholesale distributor if the board determines that the wholesale distributor no longer qualifies for the license issued under this section.
- 40-12. The designated representative identified pursuant to subdivision g of subsection 23 must receive and complete continuing training in applicable federal and state laws governing wholesale distribution of prescription drugs, medical gases, or medical equipment.
- 44-13. Information provided under subdivision h of subsection 23 may not be disclosed to any person other than a government agency that needs the information for licensing or monitoring purposes.

SECTION 4. AMENDMENT. Section 43-15.3-04 of the North Dakota Century Code is amended and reenacted as follows:

43-15.3-04. Requirements to distribute prescription drugs, medical gases, or medical equipment.

1. A person may not engage in wholesale distributions of prescription drugs without, ~~after December 31, 2007,~~ obtaining and maintaining accreditation or certification from the national association of boards of pharmacy's verified accredited wholesale distributor or an accreditation body approved by the board under subsection 4, obtaining and maintaining a license issued by the board, and paying any reasonable fee required by the board. ~~By action of the board, the deadline may be extended through December 31, 2008.~~
2. The board may not issue or renew the license of a wholesale ~~drug~~ distributor that does not comply with this chapter. The board shall require a separate license for each facility or location where wholesale distribution operations are conducted. An agent or employee of any licensed wholesale ~~drug~~ distributor does not need a license and may lawfully possess pharmaceutical drugs, medical gases, or medical equipment when acting in the usual course of

business or employment. The issuance of a license under this chapter does not affect tax liability imposed by the tax department on any wholesale drug distributor.

3. An out-of-state wholesale distributor or pharmacy distributor or a principal or agent of the distributor may not conduct business in this state unless the distributor has obtained the necessary license from the board, paid the fee required by the board, and registered with the secretary of state. Application for a license must be made on a form furnished by the board and when submitted by the applicant to the board must include a copy of the certificate of authority from the secretary of state. The issuance of a license under this section does not affect tax liability imposed by the tax department on any out-of-state wholesale distributor or pharmacy distributor. The board may adopt rules that permit out-of-state wholesale drug distributors to obtain a license on the basis of reciprocity if an out-of-state wholesale drug distributor possesses a valid license granted by another state and the legal standards for licensure in the other state are comparable to the standards under this chapter and the other state extends reciprocity to wholesale drug distributors licensed in this state. However, if the requirements for licensure under this chapter are more restrictive than the standards of the other state, the out-of-state wholesale drug distributor must shall comply with the additional requirements of this chapter to obtain a license under this chapter.
4. The board may adopt rules to approve an accreditation body to evaluate a wholesale drug distributor's operations to determine compliance with professional standards, this chapter, and any other applicable law, and perform inspections of each facility and location where wholesale distribution operations are conducted by the wholesale drug distributor.
5. The board or a designee of the board may conduct inspections during normal business hours upon all open premises purporting or appearing to be used by a wholesale distributor or pharmacy distributor in this state. A distributor that provides adequate documentation of the most recent satisfactory inspection less than three years old by the United States food and drug administration is exempt from further inspection for a period of time determined by the board. This exemption does not bar the board from initiating an investigation pursuant to a complaint regarding a wholesale distributor or pharmacy distributor. A wholesale distributor or pharmacy distributor may keep records at a central location apart from the principal office of the wholesale distributor or pharmacy distributor or the location at which the drugs are stored and from which they were shipped, provided that the records are made available for inspection within three business days of a request by the board. The records may be kept in any form permissible under federal law applicable to prescription recordkeeping.

SECTION 5. AMENDMENT. Section 43-15.3-07 of the North Dakota Century Code is amended and reenacted as follows:

43-15.3-07. Order to cease distribution.

1. The board shall issue an order requiring the appropriate person, including the distributors or retailers of the drug, gas, or equipment to immediately cease distribution of the drug, gas, or equipment within the state if the board finds that there is a reasonable probability that:

- a. A wholesale distributor, other than a manufacturer, has violated a provision in this chapter or falsified a pedigree or sold, distributed, transferred, manufactured, repackaged, handled, or held a counterfeit prescription drug, medical gas, or medical equipment intended for human use;
 - b. The prescription drug, medical gas, or medical equipment at issue as a result of a violation in subdivision a could cause serious, adverse health consequences or death; and
 - c. Other procedures would result in unreasonable delay.
2. An order under subsection 1 must provide the individual subject to the order with an opportunity for an informal hearing, to be held not later than ten days after the date of the issuance of the order, on the actions required by the order. If, after providing an opportunity for such a hearing, the board determines that inadequate grounds exist to support the actions required by the order, the board shall vacate the order.

43-15.3-08. Prohibited acts - Penalty.

(Representatives Porter, Rohr, Hogan)

AN ACT to create and enact chapter 43-17.3 of the North Dakota Century Code, relating to a physician health program.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 43-17.3 of the North Dakota Century Code is created and enacted as follows:

43-17.3-01. Definitions.

As used in this chapter:

1. "Board" means the state board of medical examiners.
2. "Committee or designated agency" means a committee or delegated agency of the physician health program which is composed of physicians and other professionals who have expertise in the areas of alcoholism, drug abuse, or mental illness and which is designated by the physician health program to perform any or all of the activities set forth in section 43-17.3-02 pursuant to agreement with the board.
3. "Impairment" means the presence of any physical, mental, or behavioral disorder or pattern of alcohol or substance abuse which interferes with a licensee's ability to engage safely in professional activities.
4. "Licensee" means a physician or other other health professional under the jurisdiction of the board, and includes an applicant for licensure or regulation by the board.
5. "Physician health program" or "program" means a board-sanctioned program for the detection, intervention, and monitoring of licensees with conditions that could result in impairment.
6. "Treatment plan" means a plan of care, rehabilitation, monitoring and maintenance, followup, or aftercare services or combination of any of these services provided by an organization or by an individual authorized by the board or the physician health program to provide such services for a licensee taking part in the physician health program.

43-17.3-02. Physician health program.

1. The board may enter an agreement with the physician health program for the program to undertake those functions and responsibilities specified in the agreement. The functions and responsibilities of the agreement may include any or all of the following:

- a. Contracting with agencies or providers of diagnostic, monitoring, or treatment services;
 - b. Receiving and evaluating reports of licensees who may be experiencing potentially impairing conditions;
 - c. Intervening in cases in which a licensee is determined to be in need of treatment;
 - d. Referring licensees to appropriate services;
 - e. Monitoring the treatment and aftercare services provided to licensees;
 - f. Educating licensees and the public about the functions of the program and the program's relationship to the board; and
 - g. Performing other activities as agreed upon by the board and the physician health program.
2. The board may participate, through its licensing fees or other specified funds, in the funding of the physician health program.

43-17.3-03. Physician health program requirements.

In consultation with the board, the physician health program shall develop procedures for:

1. Periodic reporting of statistical information regarding physician health program activity.
2. Periodic disclosure and joint review of information the board deems appropriate regarding reports received, contacts of investigations made, and the disposition of each case. Except as expressly provided under this chapter, the physician health program may not disclose any personally identifiable information about licensee participants.
3. Immediate reporting to the board the identity and results of any contact or investigation concerning an impaired licensee who is believed to constitute an imminent danger to the public or to the licensee.
4. Reporting to the board, in a timely fashion, the identity and results of any contact or investigation concerning a potentially impaired licensee:
 - a. Who refuses to cooperate with the program;
 - b. Who refuses to submit to evaluation or treatment;
 - c. Who is not in compliance with a contractual treatment plan; or
 - d. Whose possible impairment is not substantially alleviated through treatment and:
 - (1) Who the program determines is unable to practice professionally with reasonable skill and safety by reason of illness related to the abuse of alcohol or other substances or as a result of any physical or mental condition; or

(2) Who may pose a threat to the health or safety of any individual.

5. Reporting to the board, in a timely fashion, the identity of any licensee participant regarding whom the program learns of the filing of any disciplinary charges or actions or violations of chapter 43-17.
6. Entering contractual agreements with each participant in the program which make clear the program procedures, the responsibilities of program participants, and the consequences of noncompliance with the program or with contractual agreements, including the program's reporting obligations to the board.

43-17.3-04. Evaluation.

If the board determines a licensee currently exhibits possible impairment, the board may direct that an evaluation of the licensee be conducted by the physician health program or by the committee or designated agency for the purpose of determining whether there is a current need for treatment or monitoring of the licensee to assure the licensee is able to practice safely. The physician health program shall report the findings of this evaluation to the board. As a condition of application, every applicant for initial licensure or renewal of licensure shall agree to submit to such an evaluation for cause within a specified timeframe, and to the release of the results of the evaluation to the board.

43-17.3-05. Self-reporting and self-referral.

1. A licensee may voluntarily self-refer or self-report to the physician health program or the board that the licensee may have a potentially impairing condition.
2. A licensee:
 - a. Who under this section voluntarily seeks the assistance of the physician health program in assessing or dealing with a condition that could possibly lead to impairment will not be reported to the board solely on the basis of this self-referral. However, if a licensee who self-refers or self-reports refuses evaluation by the program; if the evaluation reveals evidence of a condition or impairment that could affect the licensee's ability to practice or constitutes a threat to the safety of patients or the public; or the licensee refuses to cooperate with the treatment plan, monitoring and followup, or aftercare devised by the program, including any recommendation about current continuation in practice, the program shall report the identity and findings of the evaluation of the licensee to the board. Participation in the program does not protect a licensee from board action resulting from a report of the licensee's possible violations of chapter 43-17.
 - b. Who self-reports or self-refers to the board for a potentially impairing condition may be referred by the board to the physician health program in the manner prescribed by board policies, and subsequent reporting by the program to the board will be at the discretion and in the manner prescribed by the board.
 - c. Who is participating in or who has completed a contract for treatment with and has been discharged from the physician health program, who is in full compliance with all facets of the treatment plan or has completed treatment and is compliant with aftercare, may answer in the negative on

any question on the application to the board for licensure or licensure renewal regarding current impairment by that condition or those conditions for which the licensee is currently participating in or has been discharged from the physician health program. However, any recurrence of the impairing condition or conditions or the existence of other potentially impairing conditions that are not currently known to the physician health program must be reported on the application.

43-17.3-06. Mandated reporting.

A report by a health professional, including a self-report or self-referral by a licensee to the physician health program, must be deemed to be a report to the board for the purposes of mandated reporting of physician impairment.

43-17.3-07. Confidentiality of records.

1. Notwithstanding section 44-04-18, except as otherwise provided in this chapter, all physician health program records containing identifying information about a licensee participant are confidential and may not be disclosed:
 - a. To any third person, unless disclosure is reasonably necessary for the accomplishment of the purposes of intervention, rehabilitation, referral assistance, or support services; or
 - b. In any legal or administrative proceeding, unless privilege or disclosure is otherwise required by law.
2. Except as provided under this section, a staff member handling records for administrative purposes; a person engaged by the program to perform evaluations, monitoring, or followup; and a person in attendance at any meeting of a physician health program or of a committee or designated agency may not be required to testify as to the content of any findings, committee discussion, or proceedings.

43-17.3-08. Liability.

1. Notwithstanding any other provision of law, the board, the physician health program, committee or designated agency, or delegated individuals and members of any of these entities are not liable to any person for any acts, omissions, or recommendations made in good faith within the scope of responsibilities pursuant to this chapter.
2. A person that in good faith and without malice which makes a report to the physician health program or the board under this section is not liable to any person for that report.

HOUSE BILL NO. 1191

(Representatives Maragos, Delmore)
(Senators Laffen, Nelson)

AN ACT to provide for security interests in rents.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1.

Security interest in rents.

1. A document, however denominated, that is enforceable and creates or provides for a security interest in real property, whether or not it also creates or provides for a security interest in personal property, creates an assignment of rents arising from the real property described in the document, unless the document provides otherwise.
2. An assignment of rents creates a presently effective security interest in all accrued and unaccrued rents arising from the real property described in the document creating the assignment, whether the document is denominated an absolute assignment, an absolute assignment condition upon default, an assignment as additional security, or otherwise. The security interest in rents is separate and distinct from any security interest held by the assignee in the real property.

SECTION 2.

Cash proceeds - Priority.

1. An assignee's security interest in identifiable cash proceeds is perfected if its security interest in rents is perfected. An assignee's security interest in identifiable noncash proceeds is perfected only if the assignee perfects that interest in accordance with chapter 41-09.
2. Except as otherwise provided in subsection 3, priority between an assignee's security interest in identifiable proceeds and a conflicting interest is governed by the priority rules in chapter 41-09.
3. An assignee's perfected security interest in identifiable cash proceeds is subordinate to a conflicting interest that is perfected by control under chapter 41-09 but has priority over a conflicting interest that is perfected other than by control.

SECTION 3.

Perfection of security interest in rents.

1. A document creating an assignment of rents may be submitted for recording in the office of the recorder for the county in which the real property described in the document is located in the same manner as any other document evidencing a conveyance of an interest in real property.

2. Upon recording, the security interest in rents created by an assignment of rents is fully perfected, notwithstanding any provision of the document creating the assignment or other law of this state which would preclude or defer enforcement of the security interest until the occurrence of a subsequent event, including a subsequent default of the assignor, the assignee's obtaining possession of the real property, or the appointment of a receiver.
3. Except as otherwise provided in subsection 4, a perfected security interest in rents takes priority over the rights of a person who, after the security interest is perfected, acquires an interest in or judgment lien against the rents or the real property from which they arise.
4. A perfected security interest in rents has priority over the rights of a person listed in subsection 3 with respect to future advances to the same extent as the assignee's security interest in the real property has priority over the rights of that person with respect to future advances.

SECTION 4.

Enforcement of security interest in rents.

1. An assignee may enforce an assignment of rents using any method sufficient to enforce the assignment under law of this state, including notice to the assignor, notice to the tenant, and the appointment of a receiver.
2. From the date of enforcement, the assignee or, in the case of enforcement by appointment of a receiver, the receiver is entitled to collect all rents that have accrued but remain unpaid on that date and accrue on or after that date, as those rents accrue.

SECTION 5.

Application to existing relationships.

1. Except as otherwise provided in this section, this Act governs the enforcement of an assignment of rents and the perfection and priority of a security interest in rents, even if the document creating the assignment was signed and delivered before August 1, 2013.
2. This Act does not affect an action or proceeding commenced before August 1, 2013.
3. This Act does not affect:
 - a. The enforceability of an assignee's security interest in rents or proceeds if immediately before August 1, 2013, that security interest was enforceable;
 - b. The perfection of an assignee's security interest in rents or proceeds if immediately before August 1, 2013, that security interest was perfected; or
 - c. The priority of an assignee's security interest in rents or proceeds with respect to the interest of another person if immediately before August 1, 2013, the interest of the other person was enforceable and perfected, and that priority was established.

(Representatives N. Johnson, Klein, Delmore)
(Senators Andrist, Klein, Dotzenrod)

AN ACT to amend and reenact sections 49-07-01.1, 49-23-04, and 49-23-05 of the North Dakota Century Code, relating to the one-call notice system; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 49-07-01.1 of the North Dakota Century Code is amended and reenacted as follows:

49-07-01.1. Violation of statute, commission order, or commission rule - Assessment of civil penalty.

Any person who violates any statute, commission order, or commission rule which applies to matters within the authority of the commission under chapters 8-08, 8-09, 8-10, 24-09, 32-25, and 51-05.1, titles 60 and 64, and title 49 except for ~~chapter chapters 49-22 and 49-23~~, shall, in addition to any other penalty provided, be subject to a civil penalty of not to exceed five thousand dollars. A violation occurring under chapter 49-23, in addition to any other penalty, is subject to a civil penalty not to exceed twenty-five thousand dollars. The commission shall develop policies for the assessment of penalties under chapter 49-23 which will take into consideration the severity of damages and the conduct of the offender. The civil penalty may be compromised by the commission. The amount of the penalty when finally determined or agreed upon in compromise, if not paid, may be recovered in a civil action in the courts of this state.

SECTION 2. AMENDMENT. Section 49-23-04 of the North Dakota Century Code is amended and reenacted as follows:

49-23-04. Excavation.

1. Except in an emergency, an excavator shall contact the notification center and provide an excavation or location notice at least forty-eight hours before beginning any excavation, excluding Saturdays, Sundays, and holidays, unless otherwise agreed to between the excavator and operator. If an operator determines more time is necessary for location, the operator may request a twenty-four-hour extension of the excavation or location notice by notifying the notification center. The notification center shall notify the excavator of the extension. An excavation begins the first time excavation occurs in an area that was not previously identified by the excavator in an excavation notice. The notice must contain:
 - a. The name, address, and telephone number of the person making the notification;
 - b. The name, address, and telephone number of the excavator;

- c. The date and time when excavation is scheduled to begin;
 - d. The depth of planned excavation;
 - e. The type and extent of excavation being planned, including whether the excavation involves tunneling or horizontal boring;
 - f. Whether the use of explosives is anticipated and any other information as may be required by the notification center; and
 - g. The location of the excavation by any one or more of the following means:
 - (1) A specific street address;
 - (2) A reference to a platted lot number of record; or
 - (3) An identifiable roadway or roadway intersection; or
 - (4) A specific quarter section by section number, range, township, and county. In this case, the location shall be further described by coordinates measured in feet from the nearest one-fourth corner or section corner.
 - h. If the location of the excavation is too large or complex to be clearly and adequately identified by description in the location request, the excavator shall provide additional location information by one or more of the following means: white marking, project staking, geographic information system shape file, detailed drawing, map, or other appropriate means. An excavator may not be required to provide additional location information if the excavator plans a meeting with the affected operators at the location of the excavation before beginning any excavation, or if the notice given under this section includes a specific street address or reference to a platted lot number of record of the location of the excavation.
 - i. A request for location is limited to the area to be excavated during the twenty-one day period following the location request.
 - j. An excavator may begin excavation in a location if the location period has passed without notification of a requested extension or prior to the expiration of the location period if the excavator has received notice that all facilities have been located or cleared.
2. The notification center shall:
- a. Provide a toll-free telephone number and assign an inquiry identification number to each excavation notice and retain a record of all excavation notices received for at least six years.
 - b. Immediately transmit the information contained in an excavation notice to every operator that has an underground facility in the area of the proposed excavation.
 - c. Inform the persons giving notice of an intent to engage in an excavation activity the names of participating operators of underground facilities to whom the notice will be given.

- d. Establish procedures for assuring positive response from the affected operator in all emergency excavation notices.
3.
 - a. An operator, within forty-eight hours, or any extension of that period, after receiving an excavation notice from the center, excluding Saturdays, Sundays, and holidays, unless otherwise agreed to between the excavator and operator, shall locate and mark or otherwise provide the approximate horizontal location of the underground facilities of the operator.
 - b. For purposes of this section, the approximate horizontal location of the underground facilities is a strip of land two feet [60.96 centimeters] on either side of the underground facilities. This subdivision does not apply to an underground facility to convey water.
 - c. When an operator cannot establish the exact location of the underground facility to convey water, the operator shall mark the location as accurately as possible and the excavator may proceed with caution. When excavation operations approach the estimated location of the underground facility to convey water, the exact location of the facility must be determined by safe and acceptable means. The uncovered facility must be supported and protected to prevent damage.
 - d. Markers used to designate the approximate location of underground facilities must follow the current color code standard used by the American public works association.
 - e. If the operator cannot complete marking of the excavation area before the excavation commencement time stated in the excavation notice, the operator shall promptly contact the excavator.
 - f. After facilities are located by an operator, an excavator shall notify the notification center if:
 - (1) The excavator postpones the excavation commencement time stated in the excavation notice by more than forty-eight hours, or any extension of that period, or cancels the excavation;
 - (2) The markings have been obliterated or obscured;
 - (3) Weather conditions have impeded visibility of the markings;
 - (4) The site shows evidence of recent excavation; or
 - (5) The excavator has other reason to believe the markings are incorrect or missing.
 - g. An excavator may not use a location more than ~~ten~~twenty-one days, or any extension of that period, after the planned excavation date unless the excavator has made previous arrangements with the operators affected.
 - h. If excavation has not occurred within the initial twenty-one days of the locate, the excavator shall request that the facility be relocated before excavating unless other arrangements have been made with the underground facility owner. Upon the third locate request at the same excavation site where no excavation has occurred after the initial two

locates, the excavator is responsible for reasonable costs associated with relocating facilities in that location.

- i. If a relocate request is made for an area which includes areas where excavation has been completed, a request for relocate must be modified from the original locate request to reflect only the area to be excavated during each subsequent twenty-one-day period, otherwise the excavator is responsible for reasonable costs associated with relocating facilities in the location.
 - j. If in the course of excavation the excavator is unable to locate the underground facility or discovers that the operator of the underground facility has incorrectly located the underground facility, the excavator shall promptly notify the operator or, if unknown, the one-call notification center.
 - i-k. A facility owner, excavator, or other person may not present or presume that an underground facility is abandoned, or treat an underground facility as abandoned, unless the facility has been verified as abandoned by reference to installation records or by testing. The notification center shall establish a method of providing personnel from a facility owner qualified to safely inspect and verify whether a facility is abandoned or inactive if necessary. An inactive facility must be considered active for purposes of this section.
 - l. An underground facility owner shall make all new facilities locatable.
4. If an excavation is being made in a time of emergency, all reasonable precautions must be taken to protect the underground facilities. In an emergency, the excavator shall give notification in compliance with this chapter, as soon as practical, that an emergency exists. As soon as practical, each operator shall provide all location information that is reasonably available to the excavator.

SECTION 3. AMENDMENT. Section 49-23-05 of the North Dakota Century Code is amended and reenacted as follows:

49-23-05. Precautions to avoid damage.

To avoid damage to and minimize interference with underground facilities in and near the construction area, an excavator shall:

1. Maintain a clearance between an underground facility and the cutting edge or point of any mechanized equipment, considering the known limit of control of the cutting edge or point to avoid damage to the facility.
2. Provide support in a manner approved by the operator for underground facilities in and near the construction area, including backfill operations to protect the facilities. Backfill must be of a material equal to or better in both quality and quantity to the existing backfill.
3. Assume ownership of materials used to mark the facility, use reasonable efforts to maintain markings during excavation and when possible remove all tangible marking materials used to mark the facility.
4. Assume the cost of excavation to expose the facility unless otherwise indicated by owner of facility.

5. Conduct the excavation in a careful and prudent manner.
6. Properly manage spoil material to prevent shifting or falling material that could damage belowground facilities.

(Senators Sorvaag, Unruh, Murphy)

AN ACT to amend and reenact sections 43-10.1-03.1 and 50-24.1-02.3 of the North Dakota Century Code, relating to pre-need funeral contracts and medicaid eligibility.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 43-10.1-03.1 of the North Dakota Century Code is amended and reenacted as follows:

43-10.1-03.1. Payments on pre-need funeral contracts to be deposited - Depository shall keep record of deposit - Personal property storage.

Whenever payments are made to a person upon pre-need funeral service contracts, one hundred percent of the funds collected under the contracts for the sale of professional service or personal property to be used in funeral services and fifty percent of the funds collected under the contracts for the sale of cemetery merchandise must be deposited in or transferred to a trust company in this state or to a federally insured bank, credit union, or savings and loan association in this state, within ten days. The deposit must be placed in a federal deposit insurance corporation or national credit union administration insured certificate of deposit or negotiable debt obligation of the United States government. Payments received from the sale of professional service or personal property to be used in funeral services or cemetery merchandise which cannot or would not be serviced by a licensed funeral establishment or cemetery association in the area where the service or property was sold are specifically included, whether or not the sales might otherwise be considered pre-need funeral service contracts, within the payments to be deposited under this section. The funds may be released or transferred by the bank, credit union, savings and loan association, or trust company to the depositor upon the death of the person for whose benefit the funds were paid. A certified copy of the certificate of death must be furnished to the bank, credit union, savings and loan association, or trust company as prima facie evidence of death. The funds may be released or transferred by the bank, credit union, savings and loan association, or trust company to the person making the payment, before the death of the person for whose benefit the funds are paid, upon a five-day written notice by registered or certified mail made by the bank, credit union, savings and loan association, or trust company to the depositor or transferor at the request of the person making the payment. ~~Upon written request, however, a~~ purchaser of a pre-need funeral service contract may make a certain amount of the pre-need funds irrevocable. The irrevocable amount may not exceed the amount of the allowable asset exclusion used for determining eligibility for medical assistance under section 50-24.1-02.3 at the time the contract is entered, plus the portion of the three thousand dollar asset limitation the purchaser designates for funeral expenses. A purchaser of a pre-need funeral service contract has forty-five days from entering the contract to cancel the irrevocable part of the contract by giving notice to the cemetery association or licensed funeral establishment with whom the contract was entered. Any pre-need funeral service contract held by a cemetery

association or a licensed funeral establishment must be fully transferable to another cemetery association or funeral establishment licensed under chapter 43-10 or a substantially similar law of another jurisdiction which agrees to accept the obligations.

A bank, credit union, savings and loan association, or trust company receiving such a deposit or transfer shall keep a complete record of the deposit or transfer, showing the name of the depositor or transferor, name of the person making payment, name of the person for whose benefit payment is made, and any other pertinent information.

Any personal property to be used in funeral services or cemetery merchandise which is sold to a purchaser on the basis that it will be identified and marked as belonging to such purchaser, and stored or warehoused for the purchaser, must be stored or warehoused at some location within this state.

SECTION 2. AMENDMENT. Section 50-24.1-02.3 of the North Dakota Century Code is amended and reenacted as follows:

50-24.1-02.3. When designated pre-need funeral service contracts, prepayments, or deposits not to be considered in eligibility determination.

In determining eligibility for medical assistance, the department of human services may not consider as an available resource any pre-need funeral service contracts, prepayments, or deposits to a fund which total six thousand dollars or less designated by the applicant or recipient as set-aside to pay for the applicant's or recipient's funeral. An applicant or recipient designates a prepayment or deposit for that applicant's or recipient's burial by providing funds that are to be used for the funeral or burial expenses of the applicant or recipient. If an applicant's or recipient's burial is funded by an insurance policy, the amount considered set-aside for burial is the lesser of the cost basis or the face value of the insurance policy. In addition, the applicant or recipient may designate all or a portion of the three thousand dollar asset limitation for funeral pre-need contracts, prepayments, or deposits. Interest or earnings retained in a funeral fund also may not be considered as an available resource. A pre-need funeral service contract, prepayment, or deposit designated under this section is not a multiple-party account for purposes of chapter 30.1-31. Any amount in a pre-need funeral service contract, prepayment, or deposit designated under this section which is not used for funeral or burial expenses must be returned to the estate of the medical assistance recipient and is subject to recovery by the department from the medical assistance recipient's estate. No claim for payment of funeral expenses may be made against the estate of a deceased medical assistance recipient except to the extent that funds maintained in accordance with this section total less than six thousand dollars.

HOUSE BILL NO. 1192

(Representatives Ruby, Delmore, Kasper, Sukut)
(Senators Hogue, Klein, Lyson)

AN ACT to create and enact a new section to chapter 51-07 of the North Dakota Century Code, relating to motor vehicle warranty reimbursement; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 51-07 of the North Dakota Century Code is created and enacted as follows:

Warranty work compensation.

1. A motor vehicle manufacturer shall include reasonable compensation for diagnostic work, as well as repair service, parts, and labor, in warranty work compensation. In addition, a motor vehicle manufacturer shall provide adequate time allowances for diagnosis and performance of warranty work and service for the work performed. The hourly labor rate paid by a motor vehicle manufacturer to the dealer for warranty services may not be less than the average rate charged by the dealer for like service to nonwarranty customers for nonwarranty service as provided under subsection 5. A motor vehicle manufacturer may not reimburse a dealer for parts used in the performance of warranty repair at a lower rate than the average retail rate customarily charged by the dealer for these parts as provided under subsection 4.
2. A motor vehicle manufacturer shall pay a dealer on a claim made by a dealer under this section within thirty days of the approval of the claim. The manufacturer shall either approve or disapprove a claim within thirty days after the claim is submitted to the manufacturer. The manufacturer may prescribe the manner in which and the forms on which the dealer must present the claim. A claim not specifically disapproved in writing within thirty days after the manufacturer receives the claim must be construed to be approved and the manufacturer shall pay the claim within thirty days.
3. A motor vehicle manufacturer, factory branch, distributor, or distributor branch shall fully compensate its motor vehicle dealers licensed in this state for warranty parts, work, and service specified in this section. Failure to fully compensate includes a reduction in the amount due to the dealer or imposing a separate charge, surcharge, or other imposition by which the motor vehicle manufacturer, factory branch, distributor, or distributor branch seeks to recover the costs of complying with this section from the dealer.

4. The retail rate customarily charged by the dealer for parts is established by the dealer submitting to the manufacturer or distributor one hundred sequential nonwarranty customer-paid service repair orders that contain warranty-like parts or ninety consecutive days of nonwarranty customer-paid service repair orders that contain warranty-like parts, whichever is less, covering repairs made no more than one hundred eighty days before the submission and declaring the average percentage markup.
5. The retail rate customarily charged by the dealer for labor must be established using the same process as provided under subsection 4 and declaring the average labor rate. The average labor rate must be determined by dividing the amount of the dealer's total labor sales by the number of total hours that generated those sales. If a labor rate and parts markup rate are simultaneously declared by the dealer, the dealer may use the same repair orders to complete each calculation as provided under subsection 4.
6. In calculating the retail rate customarily charged by the dealer for parts and labor, the following work may not be included in the calculation:
 - a. Repairs for manufacturer or distributor special events, specials, or promotional discounts for retail customer repairs;
 - b. Parts sold at wholesale;
 - c. Routine maintenance not covered under any retail customer warranty, including fluids, filters and belts not provided in the course of repairs;
 - d. Nuts, bolts, fasteners, and similar items that do not have an individual part number;
 - e. Tires; and
 - f. Vehicle reconditioning.
7. The average of the parts markup rates and labor rate is presumed to be fair and reasonable and must go into effect thirty days following the manufacturer's approval. A manufacturer or distributor may rebut the presumption by reasonably substantiating that a rate is unreasonable in light of the practices of all other franchised motor vehicle dealers in an economically similar area of the state offering the dealer's declaration of the same line-make vehicles, not later than thirty days after submission. If the average parts markup rate or average labor rate is rebutted, or both, the manufacturer or distributor shall propose an adjustment of the average percentage markup based on that rebuttal not later than thirty days after submission.
8. Each manufacturer, in establishing a schedule of compensation for warranty work, shall rely on the vehicle dealer's written schedule of hourly labor rates and parts and may not obligate any vehicle dealer to engage in unduly burdensome or time-consuming documentation of rates or parts, including obligating vehicle dealers to engage in transaction-by-transaction or part-by-part calculations.
9. A dealer or manufacturer may demand that the average parts markup or average labor rate be calculated using the process provided under

subsections 4 and 5; however, the demand for the average parts markup may not be made within twelve months of the last parts markup declaration and the demand for the average labor rate may not be made within twelve months of the last labor rate declaration. If a parts markup or labor rate is demanded by the dealer or manufacturer, the dealer shall determine the repair orders to be included in the calculation under subsections 4 and 5.

SECTION 2. EMERGENCY. This Act is declared to be an emergency measure.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 53-06.2-10.1 of the North Dakota Century Code is amended and reenacted as follows:

53-06.2-10.1. Simulcast wagering.

In addition to racing under the certificate system, as authorized by this chapter, and conducted upon the premises of a racetrack, simulcast pari-mutuel and account wagering may be conducted in accordance with this chapter or rules adopted by the commission under this chapter in accordance with chapter 28-32. Any organization qualified under section 53-06.2-06 to conduct racing may make written application to the commission for the conduct of simulcast pari-mutuel and account wagering on races held at licensed racetracks inside the state or racetracks outside the state, or both. Licensure of service providers, totalizator companies, site operators, or organizations applying to conduct or conducting simulcast or account wagering must be approved by the attorney general. The attorney general may not grant a license denied by the commission. Notwithstanding any other provision of this chapter, the commission may authorize any licensee to participate in interstate or international combined wagering pools with one or more other racing jurisdictions. Anytime that a licensee participates in an interstate or international combined pool, the licensee, as prescribed by the commission, may adopt the take-out of the host jurisdiction or facility. The commission may permit a licensee to use one or more of its races or simulcast programs for an interstate or international combined wagering pool at locations outside its jurisdiction and may allow pari-mutuel pools in other states to be combined with pari-mutuel pools in its jurisdiction for the purpose of establishing an interstate or international combined wagering pool. The participation by a licensee in a combined interstate or international wagering pool does not cause that licensee to be considered to be doing business in any jurisdiction other than the jurisdiction in which the licensee is physically located. Pari-mutuel taxes or commissions may not be imposed on any amounts wagered in an interstate or international combined wagering pool other than amounts wagered within this jurisdiction. The certificate system also permits pari-mutuel wagering to be conducted through account wagering. As used in this section, "account wagering" means a form of pari-mutuel wagering in which an individual deposits money in an account and uses the account balance to pay for pari-mutuel wagers. An account wager made on an account established in this state may only be made through the licensed simulcast service provider approved by the attorney general and authorized by the commission to operate the simulcast pari-mutuel wagering system under the certificate system. The attorney general may not grant a license denied by the commission. An account wager may be made in person, by direct telephone communication, or through other electronic

communication in accordance with rules adopted by the commission. Breakage for interstate or international combined wagering pools must be calculated in accordance with the statutes or rules of the host jurisdiction and must be distributed among the participating jurisdictions in a manner agreed to among the jurisdictions.

If contributions are paid by the employer, they may not be included as gross income of the employee in determining tax treatment under this code and the Internal Revenue Code until they are distributed or made available. The employer shall pay these employee contributions from the same source of funds used in paying compensation to the employee or from the levy authorized by subsection 5 of section 57-15-28.1. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee or by an offset against future salary increases or by a contribution of a reduction in gross salary and offset against future salary increases. If employee contributions are paid by the employer, they must be treated for the purposes of this chapter in the same manner and to the same extent as employee contributions made prior to the date on which employee contributions were assumed by the employer. An employer exercising its option under this subsection shall report its choice to the board in writing.
4. For compensation earned after August 1, 2009, all employee contributions required under section 54-52-06.1 and the job service North Dakota retirement plan, and not otherwise paid under subsection 3, must be paid by the employer in lieu of contributions by the member. All contributions paid by the employer under this subsection must be treated as employer contributions in determining tax treatment under this code and the Internal Revenue Code. Contributions paid by the employer under this subsection may not be included

as gross income of the member in determining tax treatment under this code and the Internal Revenue Code until the contributions are distributed or made available. Contributions paid by the employer in accordance with this subsection must be treated for the purposes of this chapter in the same manner and to the same extent as member contributions made before the date the contributions were assumed by the employer. The employer shall pay these member contributions from the same source of funds used in paying compensation to the employee. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee. The employer shall continue making payments under this section unless otherwise specifically provided for under the agency's biennial appropriation or by amendment to law.

SECTION 7. AMENDMENT. Section 54-52-06 of the North Dakota Century Code is amended and reenacted as follows:

If the employee's contribution is paid by the governmental unit under subsection 3 of section 54-52-05, the employer unit shall contribute, in addition, an amount equal to the required employee's contribution. Each governmental unit shall pay the contribution monthly, or in the case of an election made pursuant to section 54-52-17.14 a lump sum, into the retirement fund from its funds appropriated for payroll and salary or any other funds available for these purposes. Any governmental unit failing to pay the contributions monthly, or in the case of an election made pursuant to section 54-52-17.14 a lump sum, is subject to a civil penalty of fifty dollars and, as interest, one percent of the amount due for each month of delay or fraction thereof after the payment became due. In lieu of assessing a civil penalty or one percent per month, or both, interest at the actuarial rate of return may be assessed for each month the contributions are delinquent. If contributions are paid within ninety days of the date they became due, penalty and interest to be paid on delinquent contributions may be waived. An employer is required to submit contributions for any past eligible employee who was employed after July 1, 1977, for which contributions were not made if the employee would have been eligible to become vested had the employee participated and if the employee elects to join the public employees retirement system. Employer contributions may not be assessed for eligible service that an employee has waived pursuant to subsection 1 of section 54-52-05. The board shall report to each session of the legislative assembly the contributions necessary, as determined by the actuarial study, to maintain the fund's actuarial soundness.

The assessment must be deducted and retained out of the judge's salary in equal monthly installments. The state shall contribute an amount equal to fourteen and fifty-two one-hundredths percent of the monthly salary of a supreme or district court judge who is a participating member of the system, which matching contribution must be paid from its funds appropriated for salary, or from any other funds available for such purposes. State contributions increase by one percent of the monthly salary of a supreme or district court judge who is a participating member of the system beginning with the monthly reporting period of January 2012, and with an additional increase of one percent, beginning with the monthly reporting period of January 2013, and with an additional increase of one percent, beginning with the monthly reporting period of January 2014. If the judge's contribution is paid by the state under subsection 3 of section 54-52-05, the state shall contribute, in addition, an amount equal to the required judge's contribution.

SECTION 9. AMENDMENT. Section 54-52-06.2 of the North Dakota Century Code is amended and reenacted as follows:

54-52-06.2. Contribution by national guard security officers or firefighters - Employer contribution.

Each national guard security officer or firefighter who is a member of the public employees retirement system is assessed and shall pay monthly four percent of the employee's monthly salary. Member contributions increase by one-half of one percent of the member's monthly salary beginning with the monthly reporting period of January 2014. The assessment must be deducted and retained out of the employee's salary in equal monthly installments. The national guard security officer's or firefighter's employer shall contribute an amount determined by the board to be actuarially required to support the level of benefits specified in section 54-52-17. The employer's contribution must be paid from funds appropriated for salary or from any other funds available for such purposes. If the security officer's or firefighter's assessment is paid by the employer under subsection 3 of section 54-52-05, the employer shall contribute, in addition, an amount equal to the required national guard security officer's or firefighter's assessment.

Each peace officer or correctional officer employed by a political subdivision that enters into an agreement with the retirement board on behalf of its peace officers and correctional officers separately from its other employees and who is a member of the public employees retirement system is assessed and shall pay monthly four percent of the employee's monthly salary. Peace officer or correctional officer contributions increase by one-half of one percent of the member's monthly salary beginning with

the monthly reporting period of January 2012, and with an additional increase of one-half of one percent, beginning with the monthly reporting period of January 2013, and with an additional increase of one-half of one percent, beginning with the monthly reporting period of January 2014. SECTION 11. A new section to chapter 54-52 of the North Dakota Century Code is created and enacted as follows:

Reduction in member and employer contributions.

The required increase in the amount of member and employer contributions under sections 5, 6, 7, 8, 9, 10, 13, and 15 of this Act must be reduced to the rate in effect on the effective date of this Act effective on the July first that follows the first valuation of the public employees retirement system main system showing a ratio of the actuarial value of assets to the actuarial accrued liability of the public employees retirement system main system that is equal to or greater than one hundred percent.

SECTION 12. AMENDMENT. Section 54-52.6-01 of the North Dakota Century Code is amended and reenacted as follows:

3. "Eligible employee" means a permanent state employee, ~~except an employee of the judicial branch or an employee of the board of higher education and state institutions under the jurisdiction of the board, who is eighteen years or more of age and who is in a position not classified by North Dakota human resource management services. If a participating member loses permanent employee status and becomes a temporary employee, the member may still participate in the defined contribution retirement plan who elects to participate in the retirement plan under this chapter.~~
4. "Employee" means any person employed by the state, whose compensation is paid out of state funds, or funds controlled or administered by the state or paid by the federal government through any of its executive or administrative officials.

8. "Wages" and "salaries" means earnings in eligible employment under this chapter reported as salary on a federal income tax withholding statement plus any salary reduction or salary deferral amounts under 26 U.S.C. 125, 401(k), 403(b), 414(h), or 457. "Salary" does not include fringe benefits such as payments for unused sick leave, personal leave, vacation leave paid in a lump sum, overtime, housing allowances, transportation expenses, early retirement, incentive pay, severance pay, medical insurance, workforce safety and insurance benefits, disability insurance premiums or benefits, or salary received by a member in lieu of previously employer-provided fringe benefits under an agreement between an employee and a participating employer. Bonuses may be considered as salary under this section if reported and annualized pursuant to rules adopted by the board.

¹⁸⁴ **SECTION 13. AMENDMENT.** Subsection 6 of section 54-52.6-02 of the North Dakota Century Code is amended and reenacted as follows:

6. A participating member who becomes a temporary employee may still participate in the defined contribution retirement plan upon filing an election with the board within one hundred eighty days of transferring to temporary employee status. The participating member may not become a member of the defined benefit plan as a temporary employee. The temporary employee electing to participate in the defined contribution retirement plan shall pay monthly to the fund an amount equal to eight and twelve-hundredths percent times the temporary employee's present monthly salary. The amount required to be paid by a temporary employee increases by two percent times the temporary employee's present monthly salary beginning with the monthly reporting period of January 2012, and with an additional increase of two percent, beginning with the monthly reporting period of January 2013, and with an additional increase of two percent, beginning with the monthly reporting period of January 2014. The temporary employee shall also pay the required monthly contribution to the retiree health benefit fund established under section 54-52.1-03.2. This contribution must be recorded as a member contribution pursuant to section 54-52.1-03.2. An employer may not pay the temporary employee's contributions. A temporary employee may continue to participate as a temporary employee until termination of employment or reclassification of the temporary employee as a permanent employee.

¹⁸⁵ **SECTION 14. AMENDMENT.** Section 54-52.6-02 of the North Dakota Century Code is amended and reenacted as follows:

54-52.6-02. Election.

1. ~~The board shall provide an opportunity for each eligible employee who is a member of the public employees retirement system on September 30, 2001, and who has not made a written election under this section to transfer to the~~

¹⁸⁴ Section 54-52.6-02 was also amended by section 14 of House Bill No. 1452, chapter 431.

¹⁸⁵ Section 54-52.6-02 was also amended by section 13 of House Bill No. 1452, chapter 431.

~~defined contribution retirement plan before October 1, 2001, to elect in writing to terminate membership in the public employees retirement system and elect to become a participating member under this chapter. Except as provided in section 54-52.6-03, an election made by an eligible employee under this section is irrevocable. The board shall accept written elections under this section from eligible employees during the period beginning on July 1, 1999, and ending 12:01 a.m. December 14, 2001. An eligible employee who does not make a written election or who does not file the election during the period specified in this section continues to be a member of the public employees retirement system. An eligible employee who makes and files a written election under this section ceases to be a member of the public employees retirement system effective twelve midnight December 31, 2001; becomes a participating member in the defined contribution retirement plan under this chapter effective 12:01 a.m. January 1, 2002; and waives all of that person's rights to a pension, annuity, retirement allowance, insurance benefit, or any other benefit under the public employees retirement system effective December 31, 2001. This section does not affect a person's right to health benefits or retiree health benefits under chapter 54-52.1. An eligible employee who is first employed and entered upon the payroll of that person's employer after September 30, 2001, may make an election to participate in the defined contribution retirement plan established under this chapter at any time during the first six months after the date of employment. If the board, in its sole discretion, determines that the employee was not adequately notified of the employee's option to participate in the defined contribution retirement plan, the board may provide the employee a reasonable time within which to make that election, which may extend beyond the original six-month decision window.~~

- ~~2. If an individual who is a deferred member of the public employees retirement system on September 30, 2001, is reemployed and by virtue of that employment is again eligible for membership in the public employees retirement system under chapter 54-52, the individual may elect in writing to remain a member of the public employees retirement system or if eligible to participate in the defined contribution retirement plan established under this chapter to terminate membership in the public employees retirement system and become a participating member in the defined contribution retirement plan established under this chapter. An election made by a deferred member under this section is irrevocable. The board shall accept written elections under this section from a deferred member during the period beginning on the date of the individual's reemployment and ending upon the expiration of six months after the date of that reemployment. If the board, in its sole discretion, determines that the employee was not adequately notified of the employee's option to participate in the defined contribution retirement plan, the board may provide the employee a reasonable time within which to make that election, which may extend beyond the original six-month decision window. A deferred member who makes and files a written election to remain a member of the public employees retirement system retains all rights and is subject to all conditions as a member of that retirement system. A deferred member who does not make a written election or who does not file the election during the period specified in this section continues to be a member of the public employees retirement system. A deferred member who makes and files a written election to terminate membership in the public employees retirement system ceases to be a member of the public employees retirement system effective on the last day of the payroll period that includes the date of the election; becomes a participating member in the defined contribution retirement plan under this chapter effective the first day of the payroll immediately following the date of~~

the election; and waives all of that person's rights to a pension, an annuity, a retirement allowance, insurance benefit, or any other benefit under the public employees retirement system effective the last day of the payroll that includes the date of the election. This section does not affect any right to health benefits or retiree health benefits to which the deferred member may otherwise be entitled.

3. An eligible employee who elects to participate in the retirement plan established under this chapter must remain a participant even if that employee returns to the classified service or becomes employed by a political subdivision that participates in the public employees retirement system. The contribution amount must be as provided in this chapter, regardless of the position in which the employee is employed. Notwithstanding the irrevocability provisions of this chapter, if a member who elects to participate in the retirement plan established under this chapter becomes a supreme or district court judge, becomes a member of the highway patrol, becomes employed in a position subject to teachers' fund for retirement membership, or becomes an employee of the board of higher education or state institution under the jurisdiction of the board who is eligible to participate in an alternative retirement program established under subsection 6 of section 15-10-17, the member's status as a member of the defined contribution retirement plan is suspended, and the member becomes a new member of the retirement plan for which that member's new position is eligible. The member's account balance remains in the defined contribution retirement plan, but no new contributions may be made to that account. The member's service credit and salary history that were forfeited as a result of the member's transfer to the defined contribution retirement plan remain forfeited, and service credit accumulation in the new retirement plan begins from the first day of employment in the new position. If the member later returns to employment that is eligible for the defined contribution plan, the member's suspension must be terminated, the member again becomes a member of the defined contribution retirement plan, and the member's account resumes accepting contributions. At the member's option, and pursuant to rules adopted by the board, the member may transfer any available balance as determined by the provisions of the alternate retirement plan into the member's account under this chapter.
4. After consultation with its actuary, the board shall determine the method by which a participating member or deferred member may make a written election under this section. If the participating member or deferred member is married at the time of the election, the election is not effective unless the election is signed by the individual's spouse. However, the board may waive this requirement if the spouse's signature cannot be obtained because of extenuating circumstances. The board shall provide an opportunity for eligible employees who are new members of the public employees retirement system under chapter 54-52 to transfer to the defined contribution plan under this chapter pursuant to the rules and policies adopted by the board. An election made by a member of the public employees retirement system under chapter 54-52 to transfer to the defined contribution retirement plan under this chapter is irrevocable. For an individual who elects to transfer membership from the public employees retirement system under chapter 54-52 to the defined contribution retirement plan under this chapter, the board shall transfer a lump sum amount from the public employees retirement system fund to the participating member's account in the defined contribution retirement plan under this chapter. However, if the individual terminates employment prior to

receiving the lump sum transfer under this section, the election made is ineffective and the individual remains a member of the public employees retirement system under chapter 54-52 and retains all the rights and privileges under that chapter. This section does not affect an individual's right to health benefits or retiree health benefits under chapter 54-52.1.

- 5-2. If the board receives notification from the internal revenue service that this section or any portion of this section will cause the public employees retirement system or the retirement plan established under this chapter to be disqualified for tax purposes under the Internal Revenue Code, then the portion that will cause the disqualification does not apply.
- 6-3. A participating member who becomes a temporary employee may still participate in the defined contribution retirement plan upon filing an election with the board within one hundred eighty days of transferring to temporary employee status. The participating member may not become a member of the defined benefit plan as a temporary employee. The temporary employee electing to participate in the defined contribution retirement plan shall pay monthly to the fund an amount equal to eight and twelve-hundredths percent times the temporary employee's present monthly salary. The amount required to be paid by a temporary employee increases by two percent times the temporary employee's present monthly salary beginning with the monthly reporting period of January 2012, and with an additional increase of two percent, beginning with the reporting period of January 2013. The temporary employee shall also pay the required monthly contribution to the retiree health benefit fund established under section 54-52.1-03.2. This contribution must be recorded as a member contribution pursuant to section 54-52.1-03.2. An employer may not pay the temporary employee's contributions. A temporary employee may continue to participate as a temporary employee until termination of employment or reclassification of the temporary employee as a permanent employee.
- 7-4. A former participating member who has accepted a retirement distribution pursuant to section 54-52.6-13 and who subsequently becomes employed by an entity different from the employer with which the member was employed at the time the member retired but which does participate in any state-sponsored retirement plan may, before reenrolling in the defined contribution retirement plan, elect to permanently waive future participation in the defined contribution retirement plan, whatever plan in which the new employing entity participates, and the retiree health program and maintain that member's retirement status. Neither the member nor the employer are required to make any future retirement contributions on behalf of that employee.

SECTION 15. AMENDMENT. Section 54-52.6-09 of the North Dakota Century Code is amended and reenacted as follows:

54-52.6-09. Contributions - Penalty.

1. Each participating member shall contribute monthly four percent of the monthly salary or wage paid to the participant, and this assessment must be deducted from the participant's salary in equal monthly installments commencing with the first month of participation in the defined contribution retirement plan established under this chapter. Participating member contributions increase by one percent of the monthly salary or wage paid to the participant beginning with the monthly reporting period of January 2012,

and with an additional increase of one percent, beginning with the reporting period of January 2013, and with an additional increase of one percent, beginning with the monthly reporting period of January 2014.

2. The employer shall contribute an amount equal to four and twelve-hundredths percent of the monthly salary or wage of a participating member. Employer contributions increase by one percent of the monthly salary or wage of a participating member beginning with the monthly reporting period of January 2012, and with an additional increase of one percent, beginning with the monthly reporting period of January 2013, and with an additional increase of one percent, beginning with the monthly reporting period of January 2014. If the employee's contribution is paid by the employer under subsection 3, the employer shall contribute, in addition, an amount equal to the required employee's contribution. The employer shall pay monthly such contribution into the participating member's account from its funds appropriated for payroll and salary or any other funds available for such purposes. If the employer fails to pay the contributions monthly, it is subject to a civil penalty of fifty dollars and, as interest, one percent of the amount due for each month of delay or fraction thereof after the payment became due.
3. Each employer, at its option, may pay the employee contributions required by this section for all compensation earned after December 31, 1999. The amount paid must be paid by the employer in lieu of contributions by the employee. If the employer decides not to pay the contributions, the amount that would have been paid will continue to be deducted from the employee's compensation. If contributions are paid by the employer, they must be treated as employer contributions in determining tax treatment under this code and the federal Internal Revenue Code. Contributions paid by the employer may not be included as gross income of the employee in determining tax treatment under this code and the federal Internal Revenue Code until they are distributed or made available. The employer shall pay these employee contributions from the same source of funds used in paying compensation to the employee. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee or by an offset against future salary increases or by a combination of a reduction in gross salary and offset against future salary increases. Employee contributions paid by the employer must be treated for the purposes of this chapter in the same manner and to the same extent as employee contributions made before the date on which employee contributions were assumed by the employer. An employer shall exercise its option under this subsection by reporting its choice to the board in writing.

SECTION 16. LEGISLATIVE MANAGEMENT STUDY - NORTH DAKOTA RETIREMENT PLANS. During the 2013-14 interim, the legislative management shall consider studying the feasibility and desirability of existing and possible state retirement plans. The study must include an analysis of both a defined benefit plan and a defined contribution plan with considerations and possible consequences for transitioning to a state defined contribution plan. The study may not be conducted by the employee benefits programs committee. The legislative management shall report its findings and recommendations, together with any legislation needed to implement the recommendations, to the sixty-fourth legislative assembly.

SECTION 17. APPROPRIATION. There is appropriated from special funds derived from public employees retirement system income not otherwise appropriated, the sum of \$22,000, or so much of the sum as may be necessary, to the public

employees retirement system board for the purpose of implementing this Act, for the biennium beginning July 1, 2013, and ending June 30, 2015.

SECTION 18. EFFECTIVE DATE. Sections 4, 12, and 14 of this Act become effective on October 1, 2013.

SECTION 19. EXPIRATION DATE - SUSPENSION. Sections 4, 12, and 14 of this Act are effective through July 31, 2017, and after that date are ineffective. Section 54-52.6-03 is suspended from October 1, 2013, through July 31, 2017. Section 54-52.6-03, as it existed on September 30, 2013, becomes effective on August 1, 2017.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 39-03.1-11.2 of the North Dakota Century Code is amended and reenacted as follows:

39-03.1-11.2. Internal Revenue Code compliance.

The board shall administer the plan in compliance with the following sections of the Internal Revenue Code in effect on August 1, ~~2014~~2013, as it applies for governmental plans.

1. Section 415, including the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code.
 - a. The defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code, as approved by the legislative assembly, must be adjusted under section 415(d) of the Internal Revenue Code, effective January first of each year following a regular legislative session. The adjustment of the defined benefit dollar limitation under section 415(d) applies to participating members who have had a separation from employment, but that member's benefit payments may not reflect the adjusted limit prior to January first of the calendar year in which the adjustment applies.
 - b. If a participating member's benefit is increased by plan amendment after the commencement of benefit payments, the member's annual benefit may not exceed the defined benefit dollar limitation under

- section 415(b)(1)(A) of the Internal Revenue Code, as adjusted under section 415(d) for the calendar year in which the increased benefit is payable.
- c. If a participating member is, or ever has been, a participant in another defined benefit plan maintained by the employer, the sum of the participant's annual benefits from all the plans may not exceed the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code. If the participating member's employer-provided benefits under all such defined benefit plans would exceed the defined benefit dollar limitation, the benefit must be reduced to comply with section 415 of the Internal Revenue Code. This reduction must be made pro rata between the plans, in proportion to the participating member's service in each plan.
 2. The minimum distribution rules under section 401(a)(9) of the Internal Revenue Code, including the incidental death benefit requirements under section 401(a)(9)(G), and the regulations issued under that provision to the extent applicable to governmental plans. Accordingly, benefits must be distributed or begin to be distributed no later than a member's required beginning date, and the required minimum distribution rules override any inconsistent provision of this chapter. A member's required beginning date is April first of the calendar year following the later of the calendar year in which the member attains age seventy and one-half or terminates employment.
 3. The annual compensation limitation under section 401(a)(17) of the Internal Revenue Code, as adjusted for cost-of-living increases under section 401(a)(17)(B).
 4. The rollover rules under section 401(a)(31) of the Internal Revenue Code. Accordingly, a distributee may elect to have an eligible rollover distribution, as defined in section 402(c)(4) of the Internal Revenue Code, paid in a direct rollover to an eligible retirement plan, as defined in section 402(c)(8)(B) of the Internal Revenue Code, specified by the distributee.
 5. If the plan of retirement benefits set forth in this chapter is terminated or discontinued, the rights of all affected participating members to accrued retirement benefits under this chapter as of the date of termination or discontinuance is nonforfeitable, to the extent then funded.

SECTION 2. AMENDMENT. Section 39-03.1-29 of the North Dakota Century Code is amended and reenacted as follows:

39-03.1-29. Savings clause - Plan modifications.

If the board determines that any section of this chapter does not comply with applicable federal statutes or rules, the board shall adopt appropriate terminology with respect to that section as will comply with those federal statutes or rules, subject to the approval of the employee benefits programs committee ~~on public employees retirement programs~~. Any plan modifications made by the board pursuant to this section are effective until the effective date of any measure enacted by the legislative assembly providing the necessary amendments to this chapter to ensure compliance with the federal statutes or rules.

SECTION 3. AMENDMENT. Subsection 11 of section 54-52-04 of the North Dakota Century Code is amended and reenacted as follows:

11. The board shall fund the administrative expenses of chapter 54-52.2 from funds collected under chapters 54-52, 54-52.1, and 54-52.3 and from fines and fees collected from deferred compensation services providers, including any fees paid for by participant funds, subject to appropriation by the legislative assembly.

SECTION 4. AMENDMENT. Section 54-52-17 of the North Dakota Century Code is amended and reenacted as follows:

54-52-17. Formulation of plan.

Participating members shall receive benefits according to this section and according to rules adopted by the board, not inconsistent with this chapter. No person is entitled to receive a prior service benefit if the person was not continuously employed by a governmental unit in North Dakota for a period of not less than two years immediately prior to eligibility for retirement.

1. Participating members shall receive credit for full-time employment or its equivalent from the date they attain eligibility until their normal retirement date, postponed retirement date, or early retirement date, as defined in this section. Part-time employment will be recognized as full-time employment on a prorated basis as the board may prescribe.
2. Retirement benefits are calculated from the participating member's final average salary, which is the average of the highest salary received by the member for any thirty-six months employed during the last one hundred twenty months of employment. For members who terminate employment on or after August 1, 2010, final average salary is the average of the highest salary received by the member for any thirty-six months employed during the last one hundred eighty months of employment. For members who terminate employment between July 31, 2005, and August 1, 2010, final average salary is the average of the highest salary received by the member for any thirty-six months employed during the period for which the board has appropriate and accurate salary records on its electronic database, but that period may not be more than the last one hundred eighty months of employment. Months not employed are excluded in arriving at the thirty-six months to be used for the purpose of computing an average. If the participating member has worked for less than thirty-six months at the normal retirement date, the final average salary is the average salary for the total months of employment.
3. Retirement dates are defined as follows:
 - a. Normal retirement date, except for a national guard security officer or firefighter or a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, is:
 - (1) The first day of the month next following the month in which the member attains the age of sixty-five years; or
 - (2) When the member has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
 - b. Normal retirement date for a national guard security officer or firefighter is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty-five years and

- has completed at least three ~~consecutive~~eligible years of employment as a national guard security officer or firefighter ~~immediately preceding retirement~~.
- c. Normal retirement date for a peace officer or correctional officer employed by a political subdivision is:
- (1) The first day of the month next following the month in which the peace officer or correctional officer attains the age of fifty-five years and has completed at least three ~~consecutive~~eligible years of employment as a peace officer or correctional officer; or
 - (2) When the peace officer or correctional officer has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
- d. Normal retirement date for a peace officer employed by the bureau of criminal investigation is:
- (1) The first day of the month next following the month in which the peace officer attains the age of fifty-five years and has completed at least three ~~consecutive~~eligible years of employment as a peace officer ~~immediately preceding retirement~~; or
 - (2) When the peace officer has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
- e. Postponed retirement date is the first day of the month next following the month in which the member, on or after July 1, 1977, actually severs or has severed the member's employment after reaching the normal retirement date.
- f. Early retirement date, except for a national guard security officer or firefighter or a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, is the first day of the month next following the month in which the member attains the age of fifty-five years and has completed three years of eligible employment. For a national guard security officer or firefighter, early retirement date is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty years and has completed at least three years of eligible employment. For a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, early retirement date is the first day of the month next following the month in which the peace officer or correctional officer attains the age of fifty years and has completed at least three years of eligible employment.
- g. Disability retirement date is the first day of the month after a member becomes permanently and totally disabled, according to medical evidence called for under the rules of the board, and has completed at least one hundred eighty days of eligible employment. For supreme and district court judges, permanent and total disability is based solely on a judge's inability to perform judicial duties arising out of physical or mental impairment, as determined pursuant to rules adopted by the board or as provided by

subdivision a of subsection 3 of section 27-23-03. A member is eligible to receive disability retirement benefits only if the member:

- (1) Became disabled during the period of eligible employment; and
- (2) Applies for disability retirement benefits within twelve months of the date the member terminates employment.

A member is eligible to continue to receive disability benefits as long as the permanent and total disability continues and the member submits the necessary documentation and undergoes medical testing required by the board, or for as long as the member participates in a rehabilitation program required by the board, or both. If the board determines that a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services it deems necessary and these payments are appropriated from the retirement fund for those purposes.

4. The board shall calculate retirement benefits as follows:
 - a. Normal retirement benefits for all retirees, except supreme and district court judges, reaching normal retirement date equal an annual amount, payable monthly, comprised of a service benefit and a prior service benefit, as defined in this chapter, which is determined as follows:
 - (1) Service benefit equals two percent of final average salary multiplied by the number of years of service employment.
 - (2) Prior service benefit equals two percent of final average salary multiplied by the number of years of prior service employment.
 - b. Normal retirement benefits for all supreme and district court judges under the public employees retirement system reaching normal retirement date equal an annual amount, payable monthly, comprised of a benefit as defined in this chapter, determined as follows:
 - (1) Benefits must be calculated from the time of appointment or election to the bench and must equal three and one-half percent of final average salary multiplied by the first ten years of judicial service, two and eighty hundredths percent of final average salary multiplied by the second ten years of judicial service, and one and one-fourth percent of final average salary multiplied by the number of years of judicial service exceeding twenty years.
 - (2) Service benefits must include, in addition, an amount equal to the percent specified in subdivision a of final average salary multiplied by the number of years of nonjudicial employee service and employment.
 - c. Postponed retirement benefits are calculated as for single life benefits for those members who retired on or after July 1, 1977.
 - d. Early retirement benefits are calculated as for single life benefits accrued to the date of termination of employment, but must be actuarially reduced to account for benefit payments beginning prior to the normal retirement

date, which is the earlier of age sixty-five or the age at which current service plus age equals eighty-five. A retiree, other than a supreme or district court judge, is eligible for early retirement benefits only after having completed three years of eligible employment. A supreme or district court judge retiree is eligible for early retirement benefits only after having completed five years of eligible employment.

- e. Except for supreme and district court judges, disability retirement benefits are twenty-five percent of the member's final average salary. Disability retirement benefits for supreme and district court judges are seventy percent of final average salary reduced by the member's primary social security benefits and by any workforce safety and insurance benefits paid. The minimum monthly disability retirement benefit under this section is one hundred dollars.
5. Upon termination of employment after completing three years of eligible employment, except for supreme and district court judges, who must complete five years of eligible employment, but before normal retirement date, a member who does not elect to receive early retirement benefits is eligible to receive deferred vested retirement benefits payable commencing on the member's normal retirement date in one of the optional forms provided in subsection 9. Members who have delayed or inadvertently failed to apply for retirement benefits to commence on their normal retirement date may choose to receive either a lump sum payment equal to the amount of missed payments, or an actuarial increase to the form of benefit the member has selected, which increase must reflect the missed payments.
 6. If before retiring a member dies after completing three years of eligible employment, except for supreme and district court judges, who must have completed five years of eligible employment, the board shall pay the member's account balance to the member's designated beneficiary as provided in this subsection. If the member has designated an alternate beneficiary with the surviving spouse's written consent, the board shall pay the member's account balance to the named beneficiary. If the member has named more than one primary beneficiary, the board shall pay the member's account balance to the named primary beneficiaries in the percentages designated by the member or, if the member has not designated a percentage for the beneficiaries, in equal percentages. If one or more of the primary beneficiaries has predeceased the member, the board shall pay the predeceased beneficiary's share to the remaining primary beneficiaries. If any beneficiary survives the member, yet dies before distribution of the beneficiary's share, the beneficiary must be treated as if the beneficiary predeceased the member. If there are no remaining primary beneficiaries, the board shall pay the member's account balance to the contingent beneficiaries in the same manner. If there are no remaining designated beneficiaries, the board shall pay the member's account balance to the member's estate. If the member has not designated an alternate beneficiary or the surviving spouse is the beneficiary, the surviving spouse of the member may select a form of payment as follows:
 - a. If the member was a supreme or district court judge, the surviving spouse may select one of the following optional forms of payment:
 - (1) A lump sum payment of the member's retirement account as of the date of death.

-
- (2) Payments as calculated for the deceased member as if the member was of normal retirement age at the date of death, payable until the spouse dies.
 - b. The surviving spouse of all other members may select one of the following options:
 - (1) A lump sum payment of the member's retirement account as of the date of death.
 - (2) Payment of a monthly retirement benefit equal to fifty percent of the deceased member's accrued single life retirement benefits until the spouse dies.
 - (3) If the member dies on or after the member's normal retirement date, the payment of a monthly retirement benefit equal to an amount that would have been paid to the surviving spouse if the member had retired on the day of the member's death and had selected a one hundred percent joint and survivor annuity, payable until the spouse dies. A surviving spouse who received a benefit under this subsection as of July 31, 1995, is entitled to the higher of that person's existing benefit or the equivalent of the accrued benefit available under the one hundred percent joint and survivor provision as if the deceased member were of normal retirement age, with the increase payable beginning August 1, 1995.
 7. If a member not coming under the provisions of subsection 6 terminates employment because of death, permanent and total disability, or any voluntary or involuntary reason prior to retirement, the member or the member's designated beneficiary is entitled to the member's account balance at termination. The board automatically shall refund a member's account balance if the member has completed less than three years of eligible employment, has an account balance of less than one thousand dollars, and was not a supreme or district court judge. If the member was a supreme or district court judge, the board automatically shall refund a member's account balance if the member completed less than five years of eligible employment. A member may waive the refund if the member submits a written statement to the board, within thirty days after termination, requesting that the member's account balance remain in the fund.
 8. The surviving spouse of a member receiving retirement benefits must be the member's primary beneficiary unless there is no surviving spouse or the surviving spouse designates an alternate beneficiary in writing. If a member receiving retirement benefits or the member's surviving spouse receiving retirement benefits dies before the total amount of benefits paid to either or both equals the amount of the member's account balance at retirement, the difference must be paid to the named beneficiary of the recipient or, if there is no named beneficiary, to the recipient's estate.
 9. The board shall adopt rules providing for the receipt of retirement benefits in the following optional forms:
 - a. Single life.

- b. An actuarially equivalent joint and survivor option, with fifty percent or one hundred percent options.
- c. ~~An actuarially equivalent level social security option, which is available only to members who retire prior to attaining the age at which they may begin to receive unreduced social security benefits.~~
- d. Actuarially equivalent life with ten-year or twenty-year certain options.
- e.d. An actuarially equivalent partial lump sum distribution option with a twelve-month maximum lump sum distribution.
- f.e. An actuarially equivalent graduated benefit option with either a one percent or two percent increase to be applied the first day of January of each year.

Except for supreme and district court judges, unless a member specifically requests that the member receive benefits according to one of these options at the time of applying for retirement, all retirement benefits must be in the form of a single life benefit. For supreme and district court judges, unless a member specifically requests that the member receive benefits according to one of these options at the time of applying for retirement, all retirement benefits must be in the form of a lifetime monthly pension with fifty percent of the benefit continuing for the life of the surviving spouse, if any.

- 10. The fund may accept rollovers from other eligible plans under rules adopted by the board for the purchase of additional service credit, but only to the extent the transfer is a rollover contribution that meets the requirement of section 408 of the Internal Revenue Code.
- 11. The board may accept trustee-to-trustee transfers as permitted by Internal Revenue Code section 403(b)(13) and section 457(e)(17) from an Internal Revenue Code section 403(b) annuity or Internal Revenue Code section 457 deferred compensation plan for the purchase of permissive service credit, as defined in Internal Revenue Code section 415(n)(3)(A) or as repayment of a cashout from a governmental plan under Internal Revenue Code section 415(k)(3).
- 12. The board may establish individual retirement accounts and individual retirement annuities as permitted under section 408(q) of the Internal Revenue Code to allow employees to make voluntary employee contributions. The board may adopt rules to implement and administer the accounts and annuities under this section.

SECTION 5. AMENDMENT. Section 54-52-23 of the North Dakota Century Code is amended and reenacted as follows:

54-52-23. Savings clause - Plan modifications.

If the board determines that any section of this chapter does not comply with applicable federal statutes or rules, the board shall adopt appropriate terminology with respect to that section as will comply with those federal statutes or rules, subject to the approval of the employee benefits programs committee ~~on public employees retirement programs~~. Any plan modifications made by the board pursuant to this section are effective until the effective date of any measure enacted by the legislative

assembly providing the necessary amendments to this chapter to ensure compliance with the federal statutes or rules.

SECTION 6. AMENDMENT. Section 54-52-28 of the North Dakota Century Code is amended and reenacted as follows:

54-52-28. Internal Revenue Code compliance.

The board shall administer the plan in compliance with the following sections of the Internal Revenue Code in effect on August 1, ~~2014~~2013, as it applies for governmental plans.

1. Section 415, including the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code.
 - a. The defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code, as approved by the legislative assembly, must be adjusted under section 415(d) of the Internal Revenue Code, effective January first of each year following a regular legislative session. The adjustment of the defined benefit dollar limitation under section 415(d) applies to participating members who have had a separation from employment, but that member's benefit payments may not reflect the adjusted limit prior to January first of the calendar year in which the adjustment applies.
 - b. If a participating member's benefit is increased by plan amendment after the commencement of benefit payments, the member's annual benefit may not exceed the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code, as adjusted under section 415(d) for the calendar year in which the increased benefit is payable.
 - c. If a participating member is, or ever has been, a participant in another defined benefit plan maintained by the employer, the sum of the participant's annual benefits from all the plans may not exceed the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code. If the participating member's employer-provided benefits under all such defined benefit plans would exceed the defined benefit dollar limitation, the benefit must be reduced to comply with section 415 of the Internal Revenue Code. The reduction must be made pro rata between the plans, in proportion to the participating member's service in each plan.
2. The minimum distribution rules under section 401(a)(9) of the Internal Revenue Code, including the incidental death benefit requirements under section 401(a)(9)(G), and the regulations issued under that provision to the extent applicable to governmental plans. Accordingly, benefits must be distributed or begin to be distributed no later than a member's required beginning date, and the required minimum distribution rules override any inconsistent provision of this chapter. A member's required beginning date is April first of the calendar year following the later of the calendar year in which the member attains age seventy and one-half or terminates employment.
3. The annual compensation limitation under section 401(a)(17) of the Internal Revenue Code, as adjusted for cost-of-living increases under section 401(a)(17)(B).

4. The rollover rules under section 401(a)(31) of the Internal Revenue Code. Accordingly, a distributee may elect to have an eligible rollover distribution, as defined in section 402(c)(4) of the Internal Revenue Code, paid in a direct rollover to an eligible retirement plan, as defined in section 402(c)(8)(B) of the Internal Revenue Code, specified by the distributee.
5. If the plan of retirement benefits set forth in this chapter is terminated or discontinued, the rights of all affected participating members to accrued retirement benefits under this chapter as of the date of termination or discontinuance is nonforfeitable, to the extent then funded.

The office of management and budget shall transfer funds from the payroll clearing account to the board as necessary to defray the reasonable expenses of administering the pretax benefits program established under this chapter, including expenses associated with the program's medical spending account. All other expenses of administering the program must be paid in accordance with the agency's appropriation authority as established by the legislative assembly. The director of the office of management and budget may decrease or suspend the transfer of the savings accruing to the agencies' salaries and wages line item to the payroll clearing account upon determination that the funds deposited under this section are sufficient to offset anticipated obligations. Notwithstanding other provisions in this section, the public employees retirement system board, or any successor state agency, may not establish, enroll, or administer any pretax benefits program for a political subdivision or any other public or private business or entity, except for any program established specifically for employees of the state and employees of district health units.

The sum due for such a liability may be assessed and collected under this chapter for the assessment and collection of other liabilities. BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-02-08.8 of the North Dakota Century Code is amended and reenacted as follows:

57-02-08.8. Property tax credit for disabled veterans - Certification - Distribution.

1. A disabled veteran of the United States armed forces with an armed forces service-connected disability of fifty percent or greater or a disabled veteran who has an extra-schedular rating to include individual unemployability that brings the veteran's total disability rating to one hundred percent as determined by the department of veterans' affairs, who was discharged under honorable conditions or who has been retired from the armed forces of the United States, or the unremarried surviving spouse if the disabled veteran is deceased, is eligible for a credit applied against the first ~~five~~six thousand ~~four~~seven hundred ~~fifty~~ dollars of taxable valuation of the fixtures, buildings, and improvements of the homestead owned and occupied by the disabled veteran or unremarried surviving spouse equal to the percentage of the disabled veteran's disability compensation rating for service-connected disabilities as certified by the department of veterans' affairs for the purpose of applying for a property tax exemption. An unremarried surviving spouse who is receiving department of veterans' affairs dependency and indemnity compensation receives a one hundred percent exemption as described in this subsection.
2. If two disabled veterans are married to each other and living together, their combined credits may not exceed one hundred percent of ~~five~~six thousand ~~four~~seven hundred ~~fifty~~ dollars of taxable valuation of the fixtures, buildings, and improvements of the homestead. If a disabled veteran co-owns the homestead property with someone other than the disabled veteran's spouse, the credit is limited to that disabled veteran's interest in the fixtures, buildings, and improvements of the homestead, to a maximum amount calculated by multiplying ~~five~~six thousand ~~four~~seven hundred ~~fifty~~ dollars of taxable valuation by the disabled veteran's percentage of interest in the homestead property and multiplying the result by the applicant's certified disability percentage.
3. A disabled veteran or unremarried surviving spouse claiming a credit under this section for the first time shall file with the county auditor an affidavit showing the facts herein required, a description of the property, and a certificate from the United States department of veterans' affairs, or its

successor, certifying to the amount of the disability. The affidavit and certificate must be open for public inspection. A person shall thereafter furnish to the assessor or other assessment officials, when requested to do so, any information which is believed will support the claim for credit for any subsequent year.

4. For purposes of this section, and except as otherwise provided in this section, "homestead" has the meaning provided in section 47-18-01 except that it also applies to a person who otherwise qualifies under the provisions of this section whether the person is the head of the family.
5. This section does not reduce the liability of a person for special assessments levied upon property.
6. The board of county commissioners may cancel the portion of unpaid taxes that represents the credit calculated in accordance with this section for any year in which the qualifying owner has held title to the homestead property. Cancellation of taxes for any year before enactment of this section must be based on the law that was in effect for that tax year.
7. Before the first of March of each year, the county auditor of each county shall certify to the tax commissioner on forms prescribed by the tax commissioner the name and address of each person for whom the property tax credit for homesteads of disabled veterans was allowed for the preceding year, the amount of credit allowed, the total of the tax mill rates of all taxing districts, exclusive of any state mill rates, that was applied to other real estate in the taxing districts for the preceding year, and such other information as may be prescribed by the tax commissioner.
8. On or before the first of June of each year, the tax commissioner shall audit the certifications, make the required corrections, and certify to the state treasurer for payment to each county the sum of the amounts computed by multiplying the credit allowed for each homestead of a disabled veteran in the county by the total of the tax mill rates, exclusive of any state mill rates that were applied to other real estate in the taxing districts for the preceding year.
9. The county treasurer upon receipt of the payment from the state treasurer shall apportion and distribute the payment without delay to the county and to the local taxing districts of the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.
10. On or before the first day of June of each year, the tax commissioner shall certify to the state treasurer the amount computed by multiplying the property tax credit allowed under this section for homesteads of disabled veterans in the state for the preceding year by one mill for deposit in the state medical center fund.
11. Supplemental certifications by the county auditor and by the tax commissioner and supplemental payments by the state treasurer may be made after the dates prescribed in this section to make such corrections as may be necessary because of errors or because of approval of an application for abatement filed by a person because the credit provided for the homestead of a disabled veteran was not allowed in whole or in part.

SECTION 2. EFFECTIVE DATE. This Act is effective for taxable years beginning after December 31, 2012, for ad valorem property taxes and for taxable years beginning after December 31, 2013, for mobile home taxes.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-12-09 of the North Dakota Century Code is amended and reenacted as follows:

57-12-09. Notice of increased assessment to real estate owner.

1. When any assessor has increased the true and full valuation of any lot or tract of land including any improvements thereon by three thousand dollars or more and to ten percent or more than the amount of the last assessment, written notice of the amount of increase and the amount of the last assessment must be delivered in writing by the assessor to the property owner, mailed in writing to the property owner at the property owner's last-known address, or provided to the property owner by electronic mail directed with verification of receipt to an electronic mail address at which the property owner has consented to receive notice. Delivery of notice to a property owner under this section must be completed not fewer than fifteen days before the meeting of the local equalization board. The tax commissioner shall prescribe suitable forms for this notice and the notice must show the true and full value as defined by law of the property, including improvements, that the assessor used in making the assessment for the current year and for the year in which the last assessment was made and must also show the date prescribed by law for the meeting of the local equalization board of the assessment district in which the property is located and the meeting date of the county equalization board. The notice must be mailed or delivered at the expense of the assessment district for which the assessor is employed.
2. The form of notice prescribed by the tax commissioner must require a statement to inform the taxpayer that an assessment increase does not mean property taxes on the parcel will increase. The notice must state that each taxing district must base its tax rate on the number of dollars raised from property taxes in the previous taxable year by the taxing district and that notice of public hearing will be mailed to the property owner if a greater property tax levy is being proposed by the taxing district. The notice may not contain an estimate of a tax increase resulting from the assessment increase.

3. The assessor shall provide an electronic or printed list including the name and address of the addressee of each assessment increase notice required under this section to each city, county, school district, or city park district in which the subject property is located, but a copy does not have to be provided to any such taxing district that levied a property tax levy of less than one hundred thousand dollars for the prior year.

SECTION 2. AMENDMENT. Section 57-15-02.1 of the North Dakota Century Code is amended and reenacted as follows:

57-15-02.1. Property tax levy increase notice and public hearing.

Notwithstanding any other provision of law, a taxing district may not impose a property tax levy in a greater number of mills than the zero increase number of mills, unless the taxing district is in substantial compliance with this section.

1. The governing body shall cause publication of notice in its official newspaper at least seven days before a public hearing on its property tax levy. A public hearing under this section may not be scheduled to begin earlier than six p.m. The notice must have at least one-half inch [1.27 centimeters] white space margin on all four sides and must be at least two columns wide by five inches [12.7 centimeters] high. The heading must be capitalized in boldface type of at least eighteen point stating "IMPORTANT NOTICE TO (name of taxing district) TAXPAYERS". The proposed percentage increase must be printed in a boldface type size no less than two points less than the heading, while the remaining portion of the advertisement must be printed in a type face size no less than four points less than the heading. The text of the notice must contain:
 - a. The date, time, and place of the public hearing.
 - b. A statement that the public hearing will be held to consider increasing the property tax levy by a stated percentage, expressed as a percentage increase exceeding the zero increase number of mills.
 - c. A statement that there will be an opportunity for citizens to present oral or written comments regarding the property tax levy.
 - d. Any other information the taxing district wishes to provide to inform taxpayers.
2. At least seven days before a public hearing on its property tax levy under this section, the governing body shall cause notice of the information required under subsection 1 to be mailed to each property owner who received notice of an assessment increase for the taxable year under section 57-12-09.
3. If the governing body of the taxing district does not make a final decision on imposing a property tax levy exceeding the zero increase number of mills at the public hearing required by this section, the governing body shall announce at that public hearing the scheduled time and place of the next public meeting at which the governing body will consider final adoption of a property tax levy exceeding the tax district's zero increase number of mills.

3-4. For purposes of this section:

- a. "New growth" means the taxable valuation of any property that was not taxable in the prior year.
- b. "Property tax levy" means the tax rate, expressed in mills, for all property taxes levied by the taxing district.
- c. "Taxing district" means a city, county, school district, or city park district but does not include any such taxing district that levied a property tax levy of less than one hundred thousand dollars for the prior year and sets a budget for the current year calling for a property tax levy of less than one hundred thousand dollars.
- d. "Zero increase number of mills" means the number of mills against the taxing district's current year taxable valuation, excluding consideration of new growth, which will provide the same amount of property tax revenue as the property tax levy in the prior year.

5. For the taxable year 2013 only, for purposes of determining the zero increase number of mills for a school district, the amount of property tax revenue from the property tax levy in the 2012 taxable year must be recalculated by reducing the 2012 mill rate of the school district by the lesser of:

- a. Fifty mills; or
- b. The 2012 general fund mill rate of the school district minus sixty mills.

SECTION 3. AMENDMENT. Section 57-20-07.1 of the North Dakota Century Code is amended and reenacted as follows:

57-20-07.1. County treasurer to mail real estate tax statement - Contents of statement.

1. On or before December twenty-sixth of each year, the county treasurer shall mail a real estate tax statement to the owner of each parcel of real property at the owner's last-known address. The form of the real estate tax statement to be used in every county must be prescribed and approved for use by the tax commissioner. The statement must be provided in a manner that allows the taxpayer to retain a printed record of the obligation for payment of taxes and special assessments as provided in the statement. If a parcel of real property is owned by more than one individual, the county treasurer shall send only one statement to one of the owners of that property. Additional copies of the tax statement will be sent to the other owners upon their request and the furnishing of their names and addresses to the county treasurer. The tax statement must include:
 - a. Include a dollar valuation of the true and full value as defined by law of the property and the total mill levy applicable. The tax statement must include
 - b. Include, or be accompanied by a separate sheet, with three columns showing, for the taxable year to which the tax statement applies and the two immediately preceding taxable years, the property tax levy in dollars against the parcel by the county and school district and any city or township that levied taxes against the parcel.

c. Provide information identifying the property tax savings provided by the state of North Dakota. The tax statement must include a line item that is entitled "legislative tax relief" and identifies the dollar amount of property tax savings realized by the taxpayer under chapter 15.1-27 and under section 57-20-07.2. For purposes of this subdivision, legislative tax relief is determined by multiplying the taxable value for the taxable year for each parcel shown on the tax statement by the number of mills of mill levy reduction grant under chapter 57-64 for the 2012 taxable year plus the number of mills determined by subtracting from the 2012 taxable year mill rate of the school district in which the parcel is located the lesser of:

(1) Fifty mills; or

(2) The 2012 taxable year mill rate of the school district minus sixty mills.

2. Failure of an owner to receive a statement will not relieve that owner of liability, nor extend the discount privilege past the February fifteenth deadline.

SECTION 4. Section 57-20-07.2 of the North Dakota Century Code is created and enacted as follows:

57-20-07.2. State-paid property tax relief credit.

1. The owner of taxable property is entitled to a credit against property taxes levied against the total amount of property or mobile home taxes in dollars levied against the taxable value of the property. The credit is equal to twelve percent of property or mobile home taxes levied in dollars against that property.
2. The owner, operator, or lessee of railroad property assessed by the state board of equalization under chapter 57-05 or public utility operative property assessed by the state board of equalization under chapter 57-06 is entitled to a credit against property taxes levied within each county against that property in the amount provided in subsection 1 against property taxes levied in dollars against that property in that county.
3. The owner, operator, or lessee of operative property of an air carrier transportation company assessed and taxed under chapter 57-32 is entitled to a credit in the amount provided in subsection 1 against property taxes in dollars levied against that property. The tax commissioner shall determine the total amount of credits under this subsection and certify the amount to the state treasurer for transfer from the general fund to the air transportation fund. The credit for each air transportation company must be allocated to each city or municipal airport authority where that company makes regularly scheduled landings, in the same manner as the tax collected from that company is allocated.
4. The tax commissioner shall estimate the amount necessary to provide each county advance payment of seventy-five percent of the amount the county and the taxing districts in the county will ultimately receive for a taxable year under this section and certify the estimated amounts to the state treasurer by March fifteenth for transfer by April first to the county treasurer and distribution to the county and taxing districts in the county as provided in subsection 5.

5. The tax commissioner shall determine the total amount of credits under this section for each county from the abstract of the tax list filed by the county auditor under section 57-20-04, as audited and corrected by the tax commissioner. The tax commissioner shall certify to the state treasurer for payment, by June first following receipt of the abstract of the tax list, the amount determined for each county under this subsection. No penalty or interest applies to any state payment under this section, regardless of when the payment is made. The tax commissioner shall reduce the June certification of payments to reflect the April estimated payments previously made to counties under subsection 4.
6. Upon receipt of the payment from the state treasurer under subsections 4 and 5, the county treasurer shall apportion and distribute it to the county and the taxing districts in the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.
7. After payments to counties under subsection 5 have been made, the tax commissioner shall certify to the state treasurer as necessary any supplemental amounts payable to counties or the air transportation fund or any amounts that must be returned by counties or returned from the air transportation fund for deposit in the state general fund to correct any errors in payments or reflect any abatement or compromise of taxes, court-ordered tax reduction or increase, or levy of taxes against omitted property. The county auditor shall provide any supplemental information requested by the tax commissioner after submission of the abstract of the tax list. The county treasurer shall apply to the tax commissioner for any supplemental payments to which the county treasurer believes the county is entitled.
8. Notwithstanding any other provision of law, for any property other than mobile homes, the property tax credit under this section does not apply to any property subject to payments or taxes that are stated by law to be in lieu of personal or real property taxes.

SECTION 5. AMENDMENT. Section 57-20-09 of the North Dakota Century Code is amended and reenacted as follows:

57-20-09. Discount for early payment of tax.

Except as provided in section 57-20-21.1, the county treasurer shall allow a five percent discount to all taxpayers who shall pay all of the real estate taxes levied on any tract or parcel of real property in any one year in full on or before February fifteenth prior to the date of delinquency. Such discount applies, after deduction of any credit allowed under section 57-20-07.2, to the net remaining amount of all general real estate taxes levied for state, county, city, township, school district, fire district, park district, and any other taxing districts but does not apply to personal property taxes or special assessment installments. Whenever the board of county commissioners, by resolution, determines that an emergency exists in the county by virtue of weather or other catastrophe, it may extend the discount period for an additional thirty days.

SECTION 6. AMENDMENT. Section 57-20-21.1 of the North Dakota Century Code is amended and reenacted as follows:

57-20-21.1. Priority for delinquent taxes.

When payment is made for any real or personal property taxes or special assessments, payments must be applied first to the oldest unpaid delinquent taxes or special assessments due, if any, shown to exist upon the property for which the tax payments are made, including any penalty and interest, except payments of state-paid property tax relief credit made by the state must be applied to taxes for the year for which the state-paid property tax relief credit is granted. The discounts applicable to payment of taxes set out in section 57-20-09 do not apply to payment of taxes made on property upon which tax payments are delinquent.

SECTION 7. TAX COMMISSIONER REPORT ON ASSESSOR COMPLIANCE RULES. Before January 1, 2014, the tax commissioner shall report to the legislative management on the development of rules for detailed and efficient administration of section 57-01-05 regarding supervision of assessment officials.

SECTION 8. APPROPRIATION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$200,000,000, or so much of the sum as may be necessary, to the state treasurer for the purpose of state-paid property tax relief credits under section 57-20-07.2, for the biennium beginning July 1, 2013, and ending June 30, 2015.

SECTION 9. LEGISLATIVE MANAGEMENT STUDY. The legislative management shall consider studying development of standard procedures and classification of accounts to provide a means of accumulating financial information that will be uniform for all counties, regardless of their size or various approaches to budgeting and accounting that may be in use, with the objective of achieving uniformity of financial information to guide preparation of financial reports required by law and preparation of management reports on county government performance. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fourth legislative assembly.

SECTION 10. LEGISLATIVE MANAGEMENT STUDY - CONTROLLING GROWTH OF PROPERTY TAX LEVIES. During the 2013-14 interim, the legislative management shall consider studying controlling the growth of property tax levies, with emphasis on consideration of the following:

1. In recent years, the legislative assembly has diverted an enormous amount of state funds to benefit political subdivisions and provide property tax relief to taxpayers and an analysis should be made of whether the level of property tax relief received by taxpayers has been commensurate with the amount of state funds distributed.
2. The legislative assembly has provided for state assumption of funding for some social service functions previously funded by counties. Analysis is needed to determine the additional cost to the state of these functions in each county and compare that amount to the actual reduction in property taxes passed through to taxpayers in each county.
3. Consideration is needed of whether voter approval through referral or levy and budget restrictions should play a greater role in local taxing decisions.
4. Consideration is needed of the feasibility of establishing more restrictive statutory property tax limits to manage the growth of property taxes.

The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fourth legislative assembly.

SECTION 11. EFFECTIVE DATE - EXPIRATION DATE. This Act is effective for taxable years beginning after December 31, 2012. Sections 4, 5, and 6 are ineffective after the first two taxable years beginning after December 31, 2012.

- (2) The denominator is the federal adjusted gross income from all sources reduced by the net income from the amounts specified in subdivisions a and b of subsection 2.

In the case of married individuals filing a joint return, if one spouse is a resident of this state for the entire year and the other spouse is a nonresident for part or all of the tax year, the tax on the joint return must be computed under this subdivision.

AN ACT to amend and reenact section 57-38-62 of the North Dakota Century Code, relating to underpayment of estimated taxes; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-38-62 of the North Dakota Century Code is amended and reenacted as follows:

57-38-62. Payment of estimated income tax.

1. An individual, estate, or trust that is subject to section 6654 of the Internal Revenue Code relating to a failure to pay federal estimated income tax shall, at the time prescribed in this chapter, pay estimated tax for the current taxable year. Notwithstanding any other provision of this section, an individual, estate, or trust whose net tax liability for the preceding taxable year was less than five hundred one thousand dollars is not required to pay estimated tax for the current taxable year. Married individuals who file a joint federal income tax return and are subject to section 6654 of the Internal Revenue Code must each be deemed to be subject to the federal provision. If payment of estimated tax is required, the individual, estate, or trust shall, at the time prescribed in this chapter, pay the lesser of the following:
 - a. An amount which, when added to the taxpayer's withholding, equals ninety percent of the taxpayer's current taxable year's net tax liability.
 - b. An amount which, when added to the taxpayer's withholding, equals one hundred percent of the taxpayer's net tax liability for the immediately preceding taxable year.
 - (1) This subdivision does not apply to any taxpayer who was not required by this chapter to file a return for the immediately preceding taxable year, to an individual who moved into this state during the immediately preceding taxable year, or to an estate or trust that was not in existence for the entire immediately preceding taxable year. The amount under this subdivision must be deemed to be equal to the amount in subdivision a if this part applies.
 - (2) In order to satisfy the requirements of this subdivision, married individuals who are required to file separate state returns for the current taxable year but who were required to file a joint state return for the immediately preceding taxable year must each be required to pay estimated tax in an amount which, when added to the individual's withholding, equals the net tax liability which would have been computed for the immediately preceding taxable year if separate state returns had been required to be filed.

- (3) In order to satisfy the requirements of this subdivision, married individuals who are required to file a joint state return for the current taxable year but were required to file separate state returns for the immediately preceding taxable year must be required to pay estimated tax in an amount which, when added to their withholding, equals the sum of their separate net tax liabilities for the immediately preceding taxable year.
2. A corporation shall, at the time prescribed in this chapter, pay estimated tax for the current taxable year if the corporation's estimated tax can reasonably be expected to exceed five thousand dollars and if the corporation's net tax liability for the immediately preceding taxable year exceeded five thousand dollars. If payment of estimated tax is required, the corporation shall, at the time prescribed in this chapter, pay the lesser of the following:
 - a. Ninety percent of the corporation's current taxable year's net tax liability.
 - b. One hundred percent of the corporation's net tax liability for the immediately preceding taxable year.
 3. The provisions of section 57-38-45, except those provisions relating to the imposition of a penalty, apply in case of nonpayment, late payment, or underpayment of estimated tax. For purposes of applying the interest provisions of section 57-38-45, interest accrues on a per annum basis from the due date of an installment to the fifteenth day of the fourth month following the end of the current taxable year or, with respect to any portion of the estimated tax required to be paid, the date on which the portion thereof is paid, whichever date is earlier. Notwithstanding the other provisions of this section, no interest is due if the estimated tax paid on or before each due date under section 57-38-63 by a corporation is based on the annualized or adjusted seasonal method under section 6655 of the Internal Revenue Code. Notwithstanding the other provisions of this section, no interest is due if the estimated tax of an individual, estate, or trust is less than five hundred one thousand dollars per income tax return filed.
 4. For purposes of this section, "estimated tax" means the amount that a taxpayer estimates to be income tax under this chapter for the current taxable year less the amount of any credits allowable, including tax withheld.
 5. For purposes of this section, "net tax liability" means the amount of income tax computed for the taxable year as shown on the return less the amount of any credits allowable except tax withheld and estimated tax paid.
 6. An individual or corporation may apply a tax overpayment from a preceding taxable year as an estimated tax payment on the individual's or corporation's behalf for the taxable year succeeding the overpayment. The individual or corporation may elect to apply the overpayment to specific estimated tax installments. If the individual or corporation does not specify the installment period toward which the overpayment is to be applied, the individual or corporation must be considered to have elected to apply the overpayment toward the first required estimated tax installment for the succeeding taxable year.

SECTION 2. EFFECTIVE DATE. This Act is effective for taxable years beginning after December 31, 2012.

SENATE BILL NO. 2217

(Senator Cook)
(Representative Drovdal)

AN ACT to amend and reenact sections 40-57.3-04 and 57-39.4-11.1 of the North Dakota Century Code, relating to the payment of city lodging tax, city lodging and restaurant tax, city motor vehicle tax, and the election of origin-based sourcing for retail sales of tangible personal property.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 40-57.3-04 of the North Dakota Century Code is amended and reenacted as follows:

40-57.3-04. Payment of tax - Collection by tax commissioner - Administrative expenses allowed - Rules.

The taxes imposed under this chapter are due and payable at the same time the taxpayer is required to file a return under chapter 57-39.2 and must be collected and administered by the state tax commissioner in accordance with the relevant provisions of chapter 57-39.2. The taxpayer shall add the taxes imposed under this chapter to the sales, lease, or rental price and shall collect the tax from the consumer. A retailer may not advertise or hold out or state to the public, or to any consumer, directly or indirectly, that the taxes or any part of the taxes imposed under this chapter shall be assumed, absorbed, or refunded by the taxpayer. The amount the tax commissioner remits monthly to each city as taxes collected for that city's visitors' promotion fund and visitors' promotion capital construction fund must be reduced by three percent as an administrative fee necessary to defray the cost of collecting the taxes and the expenses incident to collection. The administrative fee must be deposited in the general fund in the state treasury. The tax commissioner shall adopt rules necessary for the administration of this chapter. The penalties and liabilities provided in sections 57-39.2-18 and 57-39.2-18.1 specifically apply to the filing of returns and administration of the taxes imposed under this chapter. The taxes imposed under this chapter are not taxes subject to chapter 57-39.4.

SECTION 2. AMENDMENT. Section 57-39.4-11.1 of the North Dakota Century Code is amended and reenacted as follows:

57-39.4-11.1. (310.1) Election for origin-based sourcing.

1. A member state that has local jurisdictions that levy or receive sales or use taxes may elect to source the retail sale of tangible personal property and digital goods under the provisions of this section in lieu of the provisions of subdivisions b, c, and d of subsection 1 of section 57-39.4-11 if the state complies with subsection 3 of this section and the only exception to section 57-39.4-11 is in subsection 2 of this section.
2. A member state may source retail sales, excluding lease or rental, of tangible personal property or digital goods to the location where the order is received by the seller if:

- a. The order is received in the same state by the seller where receipt of the product by the purchaser or the purchaser's designated donee occurs;
 - b. The location where receipt of the product by the purchaser occurs is determined under subdivisions b, c, and d of subsection 1 of section 57-39.4-11; and
 - c. At the time the order is received, the recordkeeping system of the seller used to calculate the proper amount of sales or use tax to be imposed captures the location where the order is received.
3. A member state electing to source sales under this section shall comply with all of the following:
- a. When the location where the order is received by the seller and the location where the receipt of the product by the purchaser or the purchaser's designated donee occurs as determined under subdivisions b, c, and d of subsection 1 of section 57-39.4-11 are in different states, the sale must be sourced under the provisions of section 57-39.4-11.
 - b. When the sale is sourced under this section to the location where the order is received by the seller, only the sales tax for the location where the order is received by the seller may be levied. No additional sales or use tax based on the location where the product is delivered to the purchaser may be levied on that sale. The purchaser shall not be entitled to any refund if the combined state and local rate at the location where the product is received by the purchaser is lower than the rate where the order is received by the seller.
 - c. A member state may not require a seller to use a recordkeeping system that captures the location where the order is received to calculate the proper amount of sales or use tax to be imposed.
 - d. A purchaser shall not have an additional liability to the state for tax, penalty, or interest on a sale for which the purchaser remits tax to the seller in the amount invoiced by the seller if the invoice amount is calculated at either the rate applicable to the location where receipt by the purchaser occurs or at the rate applicable to the location where the order is received by the seller. A purchaser may rely on a written representation by the seller as to the location where the order for the sale was received by the seller. When the purchaser does not have a written representation by the seller as to the location where the order for the sale was received by the seller, the purchaser may use the seller's business address that is available from the purchaser's business records maintained in the ordinary course of the purchaser's business to determine the rate applicable to the location where the order was received.
 - e. The location where the order is received by or on behalf of the seller means the physical location of a seller or third party such as an established outlet, office location, or automated order receipt system operated by or on behalf of the seller, where an order is initially received by or on behalf of the seller and not where the order may be subsequently accepted, completed, or fulfilled. An order is received when all of the information from the purchaser necessary to determine whether the order can be accepted has been received by or on behalf of the seller. The

location from which a product is shipped must not be used in determining the location where the order is received by the seller.

- f. A member state must provide for direct pay permits under section 57-39.4-27 and the requirements of this subsection. Purchasers that remit sales and use tax under a direct pay permit shall remit tax at the rate in effect for the location where receipt of the product by the purchaser occurs or the product is first used as determined by state law. A member state may establish reasonable thresholds at which the member state will consider direct pay applications, provided the threshold must be based upon purchases with no distinction between taxable and nontaxable purchases. The member state shall establish a process for application for a direct pay permit as provided in this chapter. The member state may require the direct pay permit applicant to demonstrate:
 - (1) An ability to comply with the sales and use tax laws of the state;
 - (2) A business purpose for seeking a direct pay permit and how the permit will benefit tax compliance; and
 - (3) Proof of good standing under the tax laws of the state. The member state shall review all permit applications in a timely manner. Notification of authorization or denial must be received by applicants within one hundred twenty days of application. The member state may not limit direct pay permit applicants to businesses engaged in manufacturing or businesses that do not know the ultimate use of the product at the time of the purchase.
 - g. When taxable services are sold with tangible personal property or digital products under a single contract or in the same transaction, are billed on the same billing statement, and because of the application of this section, would be sourced to different jurisdictions, a member state shall elect either origin sourcing or destination sourcing to determine a single situs for that transaction. The member state election is required until the governing board adopts a uniform methodology to address these sales.
 - h. A member state that elects to source the sale of tangible personal property and digital goods under the provisions of this section shall inform the governing board of the election.
4. Compliance with the provisions of this section satisfies a state's eligibility for membership in this agreement as follows:
- a. ~~If a state is in substantial compliance with the provisions of this agreement other than sourcing of sales of tangible personal property and digital goods as provided in section 57-39.4-11, and elects to source sales of tangible personal property and digital goods under this section, the state may become an associate member state in the same manner as provided for states to become full member states under article VIII of the agreement.~~
 - b. ~~A state that becomes an associate member state under this subsection shall automatically become a full member state, provided that at least five states which are not full member states on December 31, 2007, are determined to be in substantial compliance with the provisions of the~~

~~agreement other than sourcing sales of tangible personal property and digital goods under section 57-39.4-11, and the state has notified the governing board of an election under subdivision h of subsection 3 to source sales under this section and has been found to be in substantial compliance with the provisions of this section.~~

(Representatives Headland, Belter, Brandenburg, Silbernagel, Trottier)
(Senators Campbell, Cook, Klein, Miller, Wanzek)

AN ACT to create and enact section 57-39.5-06 of the North Dakota Century Code, relating to payment of farm machinery gross receipts taxes under a lease agreement; to amend and reenact sections 57-39.5-01, 57-39.5-01.1, and 57-39.5-02 of the North Dakota Century Code, relating to farm machinery gross receipts tax application in lease or rental agreements and what qualifies as used farm machinery for farm machinery gross receipts tax purposes; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-39.5-01 of the North Dakota Century Code is amended and reenacted as follows:

57-39.5-01. Definitions.

Words used in this chapter have the same meaning as provided in chapter 57-39.2. As used in this chapter:

1. "Attachment unit" means any part or combination of parts having an independent function, other than farm machinery repair parts, which when attached or affixed to farm machinery is used exclusively for agricultural purposes.
2. "Farm machinery" means all vehicular implements and attachment units, designed and sold for direct use in planting, cultivating, or harvesting farm products or used in connection with the production of agricultural produce or products, livestock, or poultry on farms, which are operated, drawn, or propelled by motor or animal power. "Farm machinery" does not include vehicular implements operated wholly by hand or a motor vehicle required to be registered under chapter 57-40.3. "Farm machinery" does not include machinery that may be used for other than agricultural purposes, including tires, farm machinery repair parts, tools, shop equipment, grain bins, feed bunks, fencing materials, and other farm supplies and equipment.
3. "Lease" or "leasing" means an agreement with a term of more than eleven months, between two persons for the possession and use of property and which may or may not include provision for a transfer of ownership of the property.
4. "Rental" or "renting" means an agreement with a term of not more than eleven months, between two persons for the possession and use of property and which does not include provision for a transfer of ownership of the property.

SECTION 2. AMENDMENT. Section 57-39.5-01.1 of the North Dakota Century Code is amended and reenacted as follows:

57-39.5-01.1. Trade-in deduction.

1. When tangible personal property is taken in trade or in a series of trades as a credit or partial payment of a retail sale or lease agreement which is taxable under this chapter, if the tangible personal property traded in will be subject to gross receipts taxes imposed by this chapter, sales taxes imposed by chapter 57-39.2, or motor vehicle excise taxes imposed by chapter 57-40.3, or if the tangible personal property traded in is used farm machinery or used irrigation equipment, the credit or trade-in value allowed by the retailer is not gross receipts.
2. Tangible personal property owned or leased and in possession of a farmer may be used as a trade-in to reduce the taxable purchase price of farm machinery or irrigation equipment used exclusively for agricultural purposes if:
 - a. The retailer selling farm machinery or irrigation equipment to a lessor, for the purpose of leasing to a farmer, also purchases the machinery or equipment owned or leased and in possession of the farmer. The purchase price paid by the retailer for the equipment owned or leased and in the possession of a farmer is the trade-in value for purposes of this section;
 - b. The retailer's sale of farm machinery or irrigation equipment to a lessor for the purpose of leasing to a farmer and the retailer's purchase of equipment owned or leased and in the possession of a farmer are documented by an invoice or other documents prepared by the retailer to substantiate the trade-in relationship;
 - c. The lessor purchasing the farm machinery or irrigation equipment for the purpose of leasing to a farmer pays the taxes imposed under this chapter on the purchase price of the equipment less the trade-in value in subdivision a; and
 - d. The retailer and the lessor maintain records documenting compliance with the requirements in subdivisions a, b, and c.
3. For purposes of this section, "farmer" means any person that leases farm machinery as defined in this chapter or irrigation equipment to be used exclusively for agricultural purposes.

SECTION 3. AMENDMENT. Section 57-39.5-02 of the North Dakota Century Code is amended and reenacted as follows:

57-39.5-02. Imposition - Exemptions.

There is imposed a tax of three percent upon the gross receipts of retailers from all sales at retail, including the leasing or renting, of farm machinery or irrigation equipment used exclusively for agricultural purposes. Gross receipts from sales at retail of farm machinery or irrigation equipment are exempted from the tax imposed by this chapter when the sale, lease, or rental is made to a purchaser or lessor who is entitled to a sales and use tax exemption under subsection 6 or 12 of section 57-39.2-04 on otherwise taxable sales at retail. There are specifically exempted from the tax imposed by this chapter the gross receipts from the sale or, lease, or rental of used farm machinery, farm machinery repair parts, used irrigation equipment, or irrigation equipment repair parts used exclusively for agricultural purposes. For purposes of this section, "used" means:

1. Tax under this chapter or chapter 57-39.2 or 57-40.2 has been paid on a previous sale;
2. Tax under section 57-39.5-06 has been paid under a previous lease:
3. Originally purchased outside this state and previously owned by a farmer; or

At the time of entering a lease agreement for new farm machinery or irrigation equipment subject to taxes under this chapter, the lessor shall:

1. Pay the taxes imposed under this chapter on the purchase price of the equipment that was purchased for the purpose of leasing:
2. On a lease with a term of three or more years, collect and remit to the commissioner the full amount of tax due under this chapter based on the cumulative value of three years of lease payments or collect the tax due on each lease payment under the agreement for three years and remit those amounts to the tax commissioner as those amounts are collected. If a lease agreement with a term of three years or more is terminated before tax on three years of lease payments has been remitted, the lessor shall collect and remit to the tax commissioner any remaining uncollected taxes on the three-year period; or
3. On a lease with a term of less than three years, collect and remit to the commissioner the full amount of tax calculated on the equivalent value of three years of lease payments. The equivalent value of three years of lease payments is the sum of the lease payments under the agreement divided by the term of the lease in months times thirty-six. The tax may be collected and remitted to the commissioner in equal installments with each lease payment over the term of the lease. If a lease agreement with a term of less than three years is terminated before the end of the lease, the lessor shall collect and remit to the tax commissioner any remaining uncollected taxes on the equivalent value of three years of lease payments.

SECTION 5. EFFECTIVE DATE. Sections 1 and 2 of this Act are effective for taxable events occurring after June 30, 2013. Section 3 of this Act is effective for lease agreements entered after June 30, 2013.

SECTION 2. AMENDMENT. Subsection 1 of section 57-40.6-02 of the North Dakota Century Code is amended and reenacted as follows:

The provider shall remit the fee in a manner consistent with the provider's existing operating or technological abilities, including by customer address, location associated with the wireless telephone number, or reasonable allocation method based upon other relevant data. The fee amount or an equivalent number of minutes may be reduced from the prepaid customer's account. However, collection of the fee in the manner of a reduction of value or minutes from the prepaid customer's account does not constitute a reduction in the sales price for purposes of taxes that are collected at the point of sale.~~ The assessed communications service provider shall collect the fee authorized under section 57-40.6-02 from the subscriber or customer of the service.
2. For assessed communications service that involves a monthly billing, in the billing statement or invoice to the subscriber, the provider shall state the amount of the fee separately.
3. For prepaid wireless service, the fee shall be imposed, collected, and administered according to the provisions of section 4 of this Act. The fee imposed under section 4 of this Act shall be in lieu of any fees imposed on assessed communication services under section 57-40.6-02.

SECTION 4. A new section to chapter 57-40.6 of the North Dakota Century Code is created and enacted as follows:

Prepaid wireless emergency 911 fee.

1. There is imposed a prepaid wireless emergency 911 fee of two percent on the gross receipts of sellers from all sales at retail of prepaid wireless services in this state.
 - a. A retail transaction that is made, in person, by a consumer at a business location of the seller shall be treated as occurring in this state if that business location is in this state. Any other retail transaction shall be treated as occurring in this state if the retail transaction is treated as occurring in this state under the provisions of chapter 57-39.4 as those provisions apply to a prepaid wireless calling service.
 - b. Prepaid wireless emergency 911 fees collected by sellers shall be remitted to the commissioner.
 - c. An entity required to collect and remit the prepaid wireless emergency 911 fee shall register with the commissioner. The registration shall be made in

- the form prescribed by the commissioner, in which the registrant shall identify the name under which the registrant transacts or intends to transact business, the location of the business, the federal identification number, and other information as the commissioner may require.
- d. Gross receipts from sales at retail of prepaid wireless services are exempt from the prepaid wireless emergency 911 fee imposed by this section when the sale is made to a person entitled to a sales and use tax exemption under subsections 6 or 12 of section 57-39.2-04.
 2. The prepaid wireless emergency 911 fee shall be collected by the seller from the consumer. The amount of the prepaid wireless emergency 911 fee shall be either separately stated on an invoice, receipt, or other similar document that is provided to the consumer by the seller, or otherwise disclosed to the consumer.
 3. The prepaid wireless emergency 911 fee is the liability of the consumer and not of the seller or any provider, except that the seller shall be liable to remit all prepaid wireless emergency 911 fees the seller collects from the consumer, including all fees the seller is deemed to collect when the amount of the fee has not been separately stated on an invoice, receipt, or other similar document provided to the consumer by the seller.
 4. If the amount of the prepaid wireless emergency 911 fee imposed by this section is separately stated on an invoice, receipt, or other similar document provided to the consumer, the prepaid wireless emergency 911 fee may not be included in the base for measuring any other tax, fee, surcharge, or other charge that is imposed by this state, any political subdivision of this state, or any intergovernmental agency.
 5. When prepaid wireless service is sold with one or more other products or services for a single, nonitemized price, then the percentage specified in subsection 1 shall apply to the entire nonitemized price unless the seller elects to apply the percentage to:
 - a. The amount of the prepaid wireless service that is disclosed to the consumer as a dollar amount, including the fee imposed by this section; or
 - b. The seller identifies the portion of the price that is attributable to the prepaid wireless service by reasonable and verifiable standards from its books and records that are kept in the regular course of business.
 6. If a minimal amount of prepaid wireless service is sold with a prepaid wireless device for a single, nonitemized price, then the seller may elect not to apply the percentage specified in subsection 1. For purposes of this subsection, an amount of service denominated as ten minutes or less, or five dollars or less, is minimal.
 7. The provisions of chapter 57-39.2, pertaining to the administration of the retail sales tax, including provisions for audit, refunds, credits, or rules, not inconsistent with the provisions of this chapter, govern the administration of the prepaid wireless emergency 911 fee imposed in this chapter.
 8. a. A seller must complete a prepaid emergency 911 fee return reporting the gross receipts of the seller for prepaid wireless services sold, the amount

of the prepaid wireless emergency 911 fee for the period covered by the return, and any other information the commissioner may require to enable the seller to correctly compute and collect the prepaid wireless emergency 911 fee.

HOUSE BILL NO. 1358

(Representatives Skarphol, Brandenburg, Froseth,
Rust, Steiner, Glassheim, J. Kelsh)
(Senators Andrist, Wanzek, Wardner, Murphy, Triplett)

AN ACT to create and enact two new subsections to section 57-51-01 of the North Dakota Century Code, relating to definitions under the oil and gas gross production tax; to amend and reenact sections 57-51-15 and 57-62-05 of the North Dakota Century Code, relating to oil and gas gross production tax allocation and the impact aid program; to provide appropriations; to provide for reports to the budget section; to provide an effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Two new subsections to section 57-51-01 of the North Dakota Century Code are created and enacted as follows:

"Hub city" means a city with a population of twelve thousand five hundred or more, according to the last official decennial federal census, which has more than one percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota.

"Hub city school district" means the school district with the highest student enrollment within the city limits of a hub city.

²¹¹ **SECTION 2. AMENDMENT.** Section 57-51-15 of the North Dakota Century Code is amended and reenacted as follows:

57-51-15. Gross production tax allocation.

The gross production tax must be allocated monthly as follows:

1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall:
 - a. Allocate to each hub city a monthly amount that will provide a total allocation of fivethree hundred seventy-five thousand dollars per fiscal year to each city in an oil-producing county which has a population of seven thousand five hundred or more and more than two percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota. The allocation under this subdivision must be doubled if the city has more than seven and one-half percentfor each full or partial percentage point of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota;

²¹¹ Section 57-51-15 was also amended by section 2 of House Bill No. 1278, chapter 408, and section 10 of House Bill No. 1333, chapter 277.

- b. Allocate to each hub city school district a monthly amount that will provide a total allocation of one hundred twenty-five thousand dollars per fiscal year for each full or partial percentage point of the hub city's private covered employment engaged in the mining industry, according to data compiled by job service North Dakota.
 - c. Credit revenues to the oil and gas impact grant fund, but not in an amount exceeding ~~one~~two hundred ~~forty~~ million dollars per biennium; and
 - e.~~d.~~ Allocate the remaining revenues under subsection 3.
2. After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:
 - a. The first ~~two~~five million dollars is allocated to the county.
 - b. ~~Of the next one~~all annual revenue ~~exceeding five~~ million dollars, ~~seventy-five~~twenty-five percent is allocated to the county.
 - e. ~~Of the next one~~ million dollars, fifty percent is allocated to the county.
 - d. ~~Of the next fourteen million dollars, twenty-five percent is allocated to the county.~~
 - e. ~~Of all annual revenue exceeding eighteen million dollars, ten percent is allocated to the county.~~
 3. After the allocations under subsections 1 and 2, the amount remaining is allocated first to provide for deposit of thirty percent of all revenue collected under this chapter in the legacy fund as provided in section 26 of article X of the Constitution of North Dakota and the remainder must be allocated to the state general fund. If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.
 4. ~~The amount to which each county is entitled under subsection 2 must be allocated within the county so the first five million three hundred fifty thousand dollars is allocated under subsection 5 for each fiscal year and any amount received by a county exceeding five million three hundred fifty thousand dollars is credited by the county treasurer to the county infrastructure fund and allocated under subsection 6.~~
 5. For a county that received less than five million dollars of allocations under subsection 2 in the most recently completed state fiscal year, revenues allocated to that county must be distributed by the state treasurer as follows:
 - a. ~~Forty-five percent of all revenues allocated to any county for allocation under this subsection must be credited by~~distributed to the county treasurer and credited to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if ~~during that fiscal year~~ a taxable year after 2012 the county does ~~not levy~~ not levying a total of at least ten mills for combined levies for

county road and bridge, farm-to-market and federal aid road, and county road purposes.

- b. ~~Thirty-five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the county~~state~~ treasurer no less than quarterly to school districts within the county, excluding consideration of and allocation to any hub city school district in the county, on the average daily attendance distribution basis, as certified to the county~~state~~ treasurer by the county superintendent of schools. However, no school district may receive in any single academic year an amount under this subsection greater than the county average per student cost multiplied by seventy percent, then multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Provided, however, that in any county in which the average daily attendance or the school census, whichever is greater, is fewer than four hundred, the county is entitled to one hundred twenty percent of the county average per student cost multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Once this level has been reached through distributions under this subsection, all excess funds to which the school district would be entitled as part of its thirty five percent share must be deposited instead in the county general fund. The county superintendent of schools of each oil-producing county shall certify to the county treasurer by July first of each year the amount to which each school district is limited pursuant to this subsection. As used in this subsection, "average daily attendance" means the average daily attendance for the school year immediately preceding the certification by the county superintendent of schools required by this subsection.~~

~~The countywide allocation to school districts under this subdivision is subject to the following:~~

- ~~(1) The first three hundred fifty thousand dollars is apportioned entirely among school districts in the county.~~
- ~~(2) The next three hundred fifty thousand dollars is apportioned seventy five percent among school districts in the county and twenty five percent to the county infrastructure fund.~~
- ~~(3) The next two hundred sixty two thousand five hundred dollars is apportioned two thirds among school districts in the county and one third to the county infrastructure fund.~~
- ~~(4) The next one hundred seventy five thousand dollars is apportioned fifty percent among school districts in the county and fifty percent to the county infrastructure fund.~~
- ~~(5) Any remaining amount is apportioned to the county infrastructure fund except from that remaining amount the following amounts are apportioned among school districts in the county:~~
 - ~~(a) Four hundred ninety thousand dollars, for counties having a population of three thousand or fewer.~~

- (b) ~~Five hundred sixty thousand dollars, for counties having a population of more than three thousand and fewer than six thousand.~~
- (c) ~~Seven hundred thirty-five thousand dollars, for counties having a population of six thousand or more.~~
- c. ~~Twenty percent of all revenues allocated to any county for allocation under this subsection must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. A hub city must be omitted from apportionment under this subdivision. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.~~
5. For a county that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year, revenues allocated to that county must be distributed by the state treasurer as follows:
- a. Sixty percent must be distributed to the county treasurer and credited to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if in a taxable year after 2012 the county is not levying a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
- b. Five percent must be apportioned by the state treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis for kindergarten through grade twelve students residing within the county, as certified to the state treasurer by the county superintendent of schools. However, a hub city school district must be omitted from consideration and apportionment under this subdivision.
- c. Twenty percent must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. A hub city must be omitted from apportionment under this subdivision. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of this subdivision must be increased by eight hundred percent.
- d. Three percent must be apportioned no less than quarterly by the state treasurer among the organized and unorganized townships of the county. The state treasurer shall apportion the funds available under this subdivision among townships in the proportion that township road miles in

- the township bears the total township road miles in the county. The amount apportioned to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.
- e. Three percent must be allocated by the state treasurer among the organized and unorganized townships in all the counties that received five million dollars or more of allocations under subsection 2 in the most recently completed state fiscal year. The amount available under this subdivision must be allocated no less than quarterly by the state treasurer in an equal amount to each eligible organized and unorganized township. The amount allocated to unorganized townships under this subdivision must be distributed to the county treasurer and credited to a special fund for unorganized township roads, which the board of county commissioners shall use for the maintenance and improvement of roads in unorganized townships.
- f. Nine percent must be allocated by the state treasurer among hub cities. The amount available for allocation under this subdivision must be apportioned by the state treasurer no less than quarterly among hub cities. Sixty percent of funds available under this subdivision must be distributed to the hub city receiving the greatest percentage of allocations to hub cities under subdivision a of subsection 1 for the quarterly period, thirty percent of funds available under this subdivision must be distributed to the hub city receiving the second greatest percentage of such allocations, and ten percent of funds available under this subdivision must be distributed to the hub city receiving the third greatest percentage of such allocations.
6. a. ~~Forty five percent of all revenues allocated to a county infrastructure fund under subsections 4 and 5 must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.~~
- b. ~~Thirty five percent of all revenues allocated to the county infrastructure fund under subsections 4 and 5 must be allocated by the board of county commissioners to or for the benefit of townships in the county on the basis of applications by townships for funding to offset oil and gas development impact to township roads or other infrastructure needs or applications by school districts for repair or replacement of school district vehicles necessitated by damage or deterioration attributable to travel on oil and gas development impacted roads. An organized township is not eligible for an allocation of funds under this subdivision unless during that fiscal year that township levies at least ten mills for township purposes. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision to offset oil and gas development impact to township roads or other infrastructure needs in those townships. The amount deposited during each calendar year in the county infrastructure fund which is designated for allocation under this subdivision and which is unexpended and unobligated at the end of the calendar year must be transferred by the~~

county treasurer to the county road and bridge fund for use on county road and bridge projects:

- e. ~~Twenty percent of all revenues allocated to any county infrastructure fund under subsections 4 and 5 must be allocated by the county treasurer no less than quarterly to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.~~

7-6. Within thirty days after the end of each calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the calendar year with the commissioner, in a format prescribed by the commissioner, including:

- a. The county's statement of revenues and expenditures; and

Within fifteen days after the time when reports under this subsection were due, the commissioner shall provide the reports to the legislative council compiling the information from reports received under this subsection.

5. Upon approval of the plan, the department of transportation shall transfer to the county the approved funding for engineering and plan development costs.
6. Upon execution of a construction contract by the county, the department of transportation shall transfer to the county the approved funding to be distributed for county and township rehabilitation and reconstruction projects.
7. The recipient counties shall report to the department of transportation upon awarding of each contract and upon completion of each project in a manner prescribed by the department.
8. The funding under this section may be applied to engineering, design, and construction costs incurred on related projects as of January 1, 2013.
9. For purposes of this section, a "bridge" is a structure that has an opening of more than 20 feet [6.096 meters] as measured along the centerline of the roadway. It may also be the clear openings of more than 20 feet [6.096 meters] of a group of pipes as long as the pipes are spaced less than half the distance apart of the smallest diameter pipe.
10. Section 54-44.1-11 does not apply to funding under this section. Any funds not spent by June 30, 2015, must be continued into the biennium beginning July 1, 2015, and ending June 30, 2017, and may be expended only for purposes authorized by this section.

SECTION 7. APPROPRIATION - STATE TREASURER. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$8,760,000, or so much of the sum as may be necessary, to the state treasurer for allocation to counties for allocation to or for the benefit of townships in oil-producing counties, for the biennium beginning July 1, 2013, and ending June 30, 2015. The funding provided in this section must be distributed in equal amounts in July 2013 and May 2014. The state treasurer shall distribute the funds provided under this section as soon as possible to counties and the county treasurer shall allocate the funds to or for the benefit of townships in oil-producing counties through a distribution of \$15,000 each year to each organized township and a distribution of \$15,000 each year for each unorganized township to the county in which the unorganized township is located. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision for township roads or other infrastructure needs in those townships. A township is not eligible for an allocation of funds under this section if the township does not maintain any township roads. For the purposes of this section, an "oil-producing county" means a county that received an allocation of funding under section 57-51-15 of more than \$500,000 but less than \$5,000,000 in the state fiscal year ending June 30, 2012.

SECTION 8. APPROPRIATION - DEPARTMENT OF COMMERCE - STRATEGIC INVESTMENT AND IMPROVEMENTS FUND - REPORT TO BUDGET SECTION. There is appropriated out of any moneys in the strategic investment and improvements fund in the state treasury, not otherwise appropriated, the sum of \$2,000,000, or so much of the sum as may be necessary, to the department of commerce for the purpose of administering a grant program for nursing homes, basic care facilities, and providers that serve individuals with developmental disabilities located in oil-producing counties to address the effects of oil and gas and related

economic development activities, for the biennium beginning July 1, 2013, and ending June 30, 2015. The department of commerce shall allocate funding in January of each year of the biennium, based on the number of full-time equivalent positions of each nursing home, facility, or provider as determined by the department of human services. When setting rates for the entities receiving grants under this section, the department of human services shall exclude grant income received under this section as an offset to costs. This funding is considered one-time funding for the 2013-15 biennium. The department of commerce shall report to the budget section annually and to the appropriations committees of the sixty-fourth legislative assembly on the use of this one-time funding. For purposes of this section, an "oil-producing county" means a county that received an allocation of funding under section 57-51-15 for the preceding state fiscal year.

SECTION 9. APPROPRIATION - OIL AND GAS IMPACT GRANT FUND - GRANT RECOMMENDATIONS. There is appropriated out of any moneys in the oil and gas impact grant fund in the state treasury, not otherwise appropriated, the sum of \$239,299,174, or so much of the sum as may be necessary, to the board of university and school lands for the purpose of oil and gas impact grants, for the biennium beginning July 1, 2013, and ending June 30, 2015.

Grants awarded under this section are not subject to section 54-44.1-11. The funding provided in this section is considered a one-time funding item.

During the biennium beginning July 1, 2013, and ending June 30, 2015, the energy infrastructure and impact office director shall include in recommendations to the board of university and school lands on grants to eligible entities in oil and gas development impact areas:

1. \$5,000,000, or so much of the sum as may be necessary, for the purpose of providing distributions to eligible counties experiencing new oil and gas development activities. As determined by the director of the department of mineral resources, a county is eligible for a distribution under this subsection if the county produced fewer than 100,000 barrels of oil for the month of November 2012 and after November 2012 the number of active oil rigs operating in the county in any one month exceeds four rigs. Upon the determination by the director of the department of mineral resources that a county is eligible for a distribution under this section, the commissioner of university and school lands shall provide \$1,250,000 to the county for defraying expenses associated with oil and gas development impacts in the county. The county, in determining the use of the funds received, shall consider and, to the extent possible, address the needs of other political subdivisions in the county resulting from the impact of oil and gas development.
2. \$60,000,000, or so much of the sum as may be necessary, for grants to airports impacted by oil and gas development. The director of the energy infrastructure and impact office shall adopt grant procedures and requirements necessary for distribution of grants under this subsection, which must include cost-share requirements. Cost-share requirements must consider the availability of local funds to support the project. Grant funds must be distributed giving priority to projects that have been awarded or are eligible to receive federal funding.
3. \$4,000,000, or so much of the sum as may be necessary, for grants to public institutions of higher education impacted by oil and gas development. Notwithstanding the provisions of chapter 57-62, public institutions of higher

education are eligible to receive oil and gas impact grants under this subsection. The director of the energy infrastructure and impact office may develop grant procedures and requirements necessary for distribution of grants under this subsection.

4. \$3,000,000, or so much of the sum as may be necessary, for grants of \$1,000,000 each to three counties in oil-impacted areas for a pilot project for dust control. The county commission from each county awarded a grant shall file a report with the director of the energy infrastructure and impact office by January 1, 2014, regarding any product used to control dust and the success or failure of the product in controlling dust. The director of the energy infrastructure and impact office may develop grant procedures and requirements necessary for distribution of grants under this section. The director of the energy infrastructure and impact office shall consult with the state department of health and the industrial commission relating to the use of oilfield-produced saltwater and products previously tested for dust control.
5. \$7,000,000, or so much of the sum as may be necessary, to counties for the benefit of county sheriff's departments to offset oil and gas development impact causing a need for increased sheriff's department services, staff, funding, equipment, coverage, and personnel training.
6. \$7,000,000, or so much of the sum as may be necessary, for grants to emergency medical services providers for an extraordinary expenditure that would mitigate negative effects of oil development impact affecting emergency medical services providers providing service in oil-producing counties, including need for increased emergency medical services providers services, staff, funding, equipment, coverage, and personnel training. The director of the energy infrastructure and impact office may develop grant procedures and requirements necessary for distribution of grants under this subsection.
7. \$3,500,000, or so much of the sum as may be necessary, for grants to fire protection districts for an extraordinary expenditure that would mitigate negative effects of oil development impact affecting fire protection districts providing service in oil-producing counties, including need for increased fire protection districts services, staff, funding, equipment, coverage, and personnel training.
8. \$14,000,000, or so much of the sum as may be necessary, for grants to hub cities. A hub city as defined in section 57-51-01 is eligible to receive grants from the oil and gas impact grant fund only to the extent provided for under this subsection. Of the funding allocation provided for in this subsection, \$2,000,000 is available for grants to the hub city receiving the greatest percentage of allocations to hub cities under subdivision a of subsection 1 of section 57-51-15, \$7,000,000 is available for grants to the hub city receiving the second greatest percentage of allocations to hub cities under subdivision a of subsection 1 of section 57-51-15, and \$5,000,000 is available for grants to the hub city receiving the third greatest percentage of allocations to hub cities under subdivision a of subsection 1 of section 57-51-15.

SECTION 10. APPROPRIATION - DEPARTMENT OF HUMAN SERVICES - STRATEGIC INVESTMENT AND IMPROVEMENTS FUND - REPORT TO BUDGET SECTION. There is appropriated out of any moneys in the strategic investment and improvements fund in the state treasury, not otherwise appropriated, the sum of \$9,600,000, or so much of the sum as may be necessary, to the department of human

services for the purpose of administering a grant program for critical access hospitals in oil-producing counties and in counties contiguous to an oil-producing county to address the effects of oil and gas and related economic development activities, for the biennium beginning July 1, 2013, and ending June 30, 2015. The department of human services shall develop policies and procedures for the disbursement of the grant funding and may not award more than \$4,800,000 during each year of the biennium. The department of human services shall allocate funding in January of each year of the biennium. This funding is considered one-time funding for the 2013-15 biennium. The department of human services shall report to the budget section annually and to the appropriations committees of the sixty-fourth legislative assembly on the use of this one-time funding. For the purposes of this section, an "oil-producing county" means a county that received an allocation of funding under section 57-51-15 of more than \$500,000 for the preceding state fiscal year.

SECTION 11. APPROPRIATION - LAW ENFORCEMENT - ATTORNEY GENERAL'S OFFICE - STRATEGIC INVESTMENT AND IMPROVEMENTS FUND - REPORT TO BUDGET SECTION. There is appropriated out of any moneys in the strategic investment and improvements fund in the state treasury, not otherwise appropriated, the sum of \$9,600,000, or so much of the sum as may be necessary, to the attorney general's office for the purpose of awarding grants to law enforcement agencies, for crime-related needs of the attorney general's office, and for the development of a uniform law enforcement and custody manual, for the biennium beginning July 1, 2013, and ending June 30, 2015. The drug and violent crime policy board of the attorney general shall, with approval of the board of university and school lands, grant funds to law enforcement agencies in oil-impacted counties where crime-related activities have increased or in other counties if the crime-related activities in oil-impacted counties originated in any of those counties. The attorney general may spend up to ten percent of the funding provided under this section for defraying the expenses of additional staffing needs or other needs necessary to accomplish the role of the attorney general's office as an assisting agency in ensuring public safety in the affected areas. The funding provided in this section is considered a one-time funding item. The attorney general shall report to the budget section annually and to the appropriations committees of the sixty-fourth legislative assembly on the use of this one-time funding, including the impact the grant funding has had on crime-related activities.

SECTION 12. HUB CITIES - REPORT TO BUDGET SECTION. A representative of a hub city as defined in section 57-51-01 shall report to the budget section annually on the use of funding received from allocations under section 57-51-15.

SECTION 13. EFFECTIVE DATE - EXPIRATION DATE. Sections 1 and 2 of this Act are effective for taxable events occurring after June 30, 2013, and before July 1, 2015, and are thereafter ineffective.

HOUSE BILL NO. 1134

(Representatives Porter, Carlson, Drovdal)
(Senators Armstrong, Lyson, Wardner)

AN ACT to create and enact sections 57-51-02.6 and 57-51.1-02.1 of the North Dakota Century Code, relating to oil and gas gross production tax exemption for natural gas and an oil extraction tax exemption for liquids produced from natural gas extracted to encourage use of gas that might otherwise be flared; to amend and reenact sections 38-08-06.4 and 57-39.2-04.5 of the North Dakota Century Code, relating to flaring restrictions for natural gas and sales tax exemption for property used to process natural gas to encourage use of gas that might otherwise be flared; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 38-08-06.4 of the North Dakota Century Code is amended and reenacted as follows:

38-08-06.4. Flaring of gas restricted - Imposition of tax - Payment of royalties - Industrial commission authority.

1. As permitted under rules of the industrial commission, gas produced with crude oil from an oil well may be flared during a one-year period from the date of first production from the well. Thereafter,
2. After the time period in subsection 1, flaring of gas from the well must cease and the well must be capped, connected to a gas gathering line, or equipped with an electrical generator that consumes at least seventy-five percent of the gas from the well.:
 - a. Capped;
 - b. Connected to a gas gathering line;
 - c. Equipped with an electrical generator that consumes at least seventy-five percent of the gas from the well;
 - d. Equipped with a system that intakes at least seventy-five percent of the gas and natural gas liquids volume from the well for beneficial consumption by means of compression to liquid for use as fuel, transport to a processing facility, production of petrochemicals or fertilizer, conversion to liquid fuels, separating and collecting over fifty percent of the propane and heavier hydrocarbons; or
 - e. Equipped with other value-added processes as approved by the industrial commission which reduce the volume or intensity of the flare by more than sixty percent.

3. An electrical generator and its attachment units to produce electricity from gas and a collection system described in subdivision d of subsection 2 must be considered to be personal property for all purposes.
4. For a well operated in violation of this section, the producer shall pay royalties to royalty owners upon the value of the flared gas and shall also pay gross production tax on the flared gas at the rate imposed under section 57-51-02.2.
5. The industrial commission may enforce this section and, for each well operator found to be in violation of this section, may determine the value of flared gas for purposes of payment of royalties under this section and its determination is final.
6. A producer may obtain an exemption from this section from the industrial commission upon application ~~and a showing that shows to the satisfaction of the industrial commission~~ that connection of the well to a natural gas gathering line is economically infeasible at the time of the application or in the foreseeable future or that a market for the gas is not available and that equipping the well with an electrical generator to produce electricity from gas or employing a collection system described in subdivision d of subsection 2 is economically infeasible.

SECTION 2. AMENDMENT. Section 57-39.2-04.5 of the North Dakota Century Code is amended and reenacted as follows:

57-39.2-04.5. Sales and use tax exemption for materials used in compressing, processing, gathering, collecting, or refining of gas.

1. Gross receipts from sales of tangible personal property used to construct or expand a system used to compress, process, gather, collect, or refine gas recovered from an oil or gas well in this state or used to expand or build a gas processing facility in this state are exempt from taxes under this chapter. To be exempt, the tangible personal property must be incorporated into a system used to compress, process, gather, collect, or refine gas. Tangible personal property used to replace an existing system to compress, process, gather, collect, or refine gas does not qualify for exemption under this section unless the replacement creates an expansion of the system.
2. To receive the exemption under this section at the time of purchase, the owner of the gas compressing, processing, gathering, collecting, or refining system must receive from the tax commissioner a certificate that the tangible personal property used to construct or expand a system used to compress, process, gather, collect, or refine gas recovered from an oil or gas well in this state or used to expand or build a gas processing facility in this state which the owner intends to purchase qualifies for exemption. If a certificate is not received before the purchase, the owner shall pay the applicable tax imposed by this chapter and apply to the tax commissioner for a refund.
3. If the tangible personal property is purchased or installed by a contractor subject to the tax imposed by this chapter, the owner of the gas compressing, processing, gathering, collecting, or refining system may apply to the tax commissioner for a refund of the difference between the amount remitted by the contractor and the exemption imposed or allowed by this section. Application for a refund must be made at the times and in the manner directed by the tax commissioner and must include sufficient information to permit the

tax commissioner to verify the sales and use taxes paid and the exempt status of the sale or use.

4. For purposes of this section, a gas collecting system means a collection system described in subdivision d of subsection 2 of section 38-08-06.4.

SECTION 3. Section 57-51-02.6 of the North Dakota Century Code is created and enacted as follows:

57-51-02.6. Temporary exemption for oil and gas wells employing a system to avoid flaring.

Gas is exempt from the tax under section 57-51-02.2 for a period of two years and thirty days from the time of first production if the gas is:

1. Collected and used at the well site to power an electrical generator that consumes at least seventy-five percent of the gas from the well; or
2. Collected at the well site by a system that intakes at least seventy-five percent of the gas and natural gas liquids volume from the well for beneficial consumption by means of compression to liquid for use as fuel, transport to a processing facility, production of petrochemicals or fertilizer, conversion to liquid fuels, separating and collecting over fifty percent of the propane and heavier hydrocarbons, or other value-added processes as approved by the industrial commission.

SECTION 4. Section 57-51.1-02.1 of the North Dakota Century Code is created and enacted as follows:

57-51.1-02.1. Temporary exemption for oil and gas wells employing a system to avoid flaring.

Liquids produced from a collection system described in subdivision d of subsection 2 of section 38-08-06.4 utilizing absorption, adsorption, or refrigeration are exempt from the tax under section 57-51.1-02 for a period of two years and thirty days from the time of first production.

SECTION 5. EFFECTIVE DATE. This Act becomes effective July 1, 2013.

SECTION 4. AMENDMENT. Section 57-51.1-01 of the North Dakota Century Code is amended and reenacted as follows:

57-51.1-01. Definitions for oil extraction tax.

~~For the purposes of the oil extraction tax law, the following words and terms shall have the meaning ascribed to them in this section~~this chapter:

1. "Average daily production" of a well means the qualified maximum total production of oil from the well during a calendar month period divided by the number of calendar days in that period, and "qualified maximum total production" of a well means that the well must have been maintained at the maximum efficient rate of production as defined and determined by rule adopted by the industrial commission in furtherance of its authority under chapter 38-08.
2. "Average price" of a barrel of crude oil means the monthly average of the daily closing price for a barrel of west Texas intermediate cushing crude oil, as those prices appear in the Wall Street Journal, midwest edition, minus two dollars and fifty cents. When computing the monthly average price, the most recent previous daily closing price must be considered the daily closing price for the days on which the market is closed.
3. "Horizontal reentry well" means a well that was not initially drilled and completed as a horizontal well, including any well initially plugged and abandoned as a dry hole, which is reentered and recompleted as a horizontal well.
4. "Horizontal well" means a well with a horizontal displacement of the well bore drilled at an angle of at least eighty degrees within the productive formation of at least three hundred feet [91.44 meters].
5. "Oil" means petroleum, crude oil, mineral oil, casinghead gasoline, and all liquid hydrocarbons that are recovered from gas on the lease incidental to the production of the gas.
6. "Property" means the right which arises from a lease or fee interest, as a whole or any designated portion thereof, to produce oil. A producer shall treat as a separate property each separate and distinct producing reservoir subject

to the same right to produce crude oil; provided, that such reservoir is recognized by the industrial commission as a producing formation that is separate and distinct from, and not in communication with, any other producing formation.

7. "Qualifying secondary recovery project" means a project employing water flooding. To be eligible for the tax reduction provided under section 57-51.1-02, a secondary recovery project must be certified as qualifying by the industrial commission and the project operator must have achieved for six consecutive months an average production level of at least twenty-five percent above the level that would have been recovered under normal recovery operations. To be eligible for the tax exemption provided under section 57-51.1-03 and subsequent thereto the rate reduction provided under section 57-51.1-02, a secondary recovery project must be certified as qualifying by the industrial commission and the project operator must have obtained incremental production as defined in subsection 5 of section 57-51.1-03.
8. "Qualifying tertiary recovery project" means a project for enhancing recovery of oil which meets the requirements of section 4993(c), Internal Revenue Code of 1954, as amended through December 31, 1986, and includes the following methods for recovery:
 - a. Miscible fluid displacement.
 - b. Steam drive injection.
 - c. Microemulsion.
 - d. In situ combustion.
 - e. Polymer augmented water flooding.
 - f. Cyclic steam injection.
 - g. Alkaline flooding.
 - h. Carbonated water flooding.
 - i. Immiscible carbon dioxide displacement.
 - j. New tertiary recovery methods certified by the industrial commission.

It does not include water flooding, unless the water flooding is used as an element of one of the qualifying tertiary recovery techniques described in this subsection, or immiscible natural gas injection. To be eligible for the tax reduction provided under section 57-51.1-02, a tertiary recovery project must be certified as qualifying by the industrial commission, the project operator must continue to operate the unit as a qualifying tertiary recovery project, and the project operator must have achieved for at least one month a production level of at least fifteen percent above the level that would have been recovered under normal recovery operations. To be eligible for the tax exemption provided under section 57-51.1-03 and subsequent thereto the rate reduction provided under section 57-51.1-02, a tertiary recovery project must be certified as qualifying by the industrial commission, the project operator must continue to operate the unit as a qualifying tertiary recovery project, and

the project operator must have obtained incremental production as defined in subsection 5 of section 57-51.1-03.

9. "Royalty owner" means an owner of what is commonly known as the royalty interest and shall not include the owner of any overriding royalty or other payment carved out of the working interest.
10. "Stripper well" means a well drilled and completed, or reentered and recompleted as a horizontal well, after June 30, 2013, whose average daily production of oil during any preceding consecutive twelve-month period, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] outside the Bakken and Three Forks formations, and thirty-five barrels per day for wells of a depth of more than ten thousand feet [3048 meters] in the Bakken or Three Forks formation.
11. "Stripper well property" means wells drilled and completed, or a well reentered and recompleted as a horizontal well, before July 1, 2013, on a "property" whose average daily production of oil, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] during any preceding consecutive twelve-month period. Wells which did not actually yield or produce oil during the qualifying twelve-month period, including disposal wells, dry wells, spent wells, and shut-in wells, are not production wells for the purpose of determining whether the stripper well property exemption applies.
- 44-12. "Trigger price" means thirty-five dollars and fifty cents, as indexed for inflation. By December thirty-first of each year, the tax commissioner shall compute an indexed trigger price by applying to the current trigger price the rate of change of the producer price index for industrial commodities as calculated and published by the United States department of labor, bureau of labor statistics, for the twelve months ending June thirtieth of that year and the indexed trigger price so determined is the trigger price for the following calendar year.
- 42-13. "Two-year inactive well" means any well certified by the industrial commission that did not produce oil in more than one month in any consecutive twenty-four-month period before being recompleted or otherwise returned to production after July 31, 1995. A well that has never produced oil, a dry hole, and a plugged and abandoned well are eligible for status as a two-year inactive well.

SECTION 5. AMENDMENT. Section 57-51.1-03 of the North Dakota Century Code is amended and reenacted as follows:

57-51.1-03. (Effective through June 30, 2013) Exemptions from oil extraction tax.

The following activities are specifically exempted from the oil extraction tax:

1. The activity of extracting from the earth any oil that is exempt from the gross production tax imposed by chapter 57-51.
2. The activity of extracting from the earth any oil from a stripper well property or individual stripper well.
3. For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months. Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
4. The production of oil from a qualifying well that was worked over is exempt from any taxes imposed under this chapter for a period of twelve months, beginning with the first day of the third calendar month after the completion of the work-over project. The exemption provided by this subsection is only effective if the well operator establishes to the satisfaction of the industrial commission upon completion of the project that the cost of the project exceeded sixty-five thousand dollars or production is increased at least fifty percent during the first two months after completion of the project. A qualifying well under this subsection is a well with an average daily production of no more than fifty barrels of oil during the latest six calendar months of continuous production. A work-over project under this subsection means the continuous employment of a work-over rig, including recompletions and reentries. The exemption provided by this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
5.
 - a. The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
 - b. The incremental production from a tertiary recovery project that does not use carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project that uses carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter from the date the incremental production begins.
 - c. For purposes of this subsection, incremental production is defined in the following manner:

- (1) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the secondary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
- (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.
- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary

production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.

- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
 - (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.
- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.
6. The production of oil from a two-year inactive well, as determined by the industrial commission and certified to the state tax commissioner, for a period of ten years after the date of receipt of the certification. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.

7. The production of oil from a horizontal reentry well, as determined by the industrial commission and certified to the state tax commissioner, for a period of nine months after the date the well is completed as a horizontal well. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
8. The initial production of oil from a well is exempt from any taxes imposed under this chapter for a period of sixty months if:
 - a. The well is located drilled and completed before July 1, 2013, on nontrust lands within the boundaries of an Indian reservation;
 - b. The well is drilled and completed before July 1, 2013, on lands held in trust by the United States for an Indian tribe or individual Indian; or
 - c. The well is drilled and completed before July 1, 2013, on lands held by an Indian tribe if the interest is in existence on August 1, 1997.
9. The first seventy-five thousand barrels or the first four million five hundred thousand dollars of gross value at the well, whichever is less, of oil produced during the first eighteen months after completion, from a horizontal well drilled and completed after April 30, 2009, and before July 1, 2015, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion. The rate reduction under this subsection becomes effective on the first day of the month following a month for which the average price of a barrel of crude oil is less than fifty-five dollars. The rate reduction under this subsection becomes ineffective on the first day of the month following a month in which the average price of a barrel of crude oil exceeds seventy dollars. If the rate reduction under this subsection is effective on the date of completion of a well, the rate reduction applies to production from that well for up to eighteen months after completion, subject to the other limitations of this subsection. If the rate reduction under this subsection is ineffective on the date of completion of a well, the rate reduction under this subsection does not apply to production from that well at any time.
10. The first seventy-five thousand barrels of oil produced during the first eighteen months after completion, from a well drilled and completed outside the Bakken and Three Forks formations, and ten miles [16.10 kilometers] or more outside an established field in which the industrial commission has defined the pool to include the Bakken or Three Forks formation, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion.

~~(Effective after June 30, 2013) Exemptions from oil extraction tax. The following activities are specifically exempted from the oil extraction tax:~~

1. ~~The activity of extracting from the earth any oil that is exempt from the gross production tax imposed by chapter 57-51.~~

2. The activity of extracting from the earth any oil from a stripper well property.
3. For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months. Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
4. The production of oil from a qualifying well that was worked over is exempt from any taxes imposed under this chapter for a period of twelve months, beginning with the first day of the third calendar month after the completion of the work-over project. The exemption provided by this subsection is only effective if the well operator establishes to the satisfaction of the industrial commission upon completion of the project that the cost of the project exceeded sixty-five thousand dollars or production is increased at least fifty percent during the first two months after completion of the project. A qualifying well under this subsection is a well with an average daily production of no more than fifty barrels of oil during the latest six calendar months of continuous production. A work-over project under this subsection means the continuous employment of a work-over rig, including recompletions and reentries. The exemption provided by this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
5.
 - a. The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
 - b. The incremental production from a tertiary recovery project that does not use carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project that uses carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter from the date the incremental production begins.
 - c. For purposes of this subsection, incremental production is defined in the following manner:

production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.

- (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.
- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary

production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.

- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. - (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.
- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.
6. The production of oil from a two-year inactive well, as determined by the industrial commission and certified to the state tax commissioner, for a period of ten years after the date of receipt of the certification. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.

five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.

8. The initial production of oil from a well is exempt from any taxes imposed under this chapter for a period of sixty months if:
 - a. The well is located within the boundaries of an Indian reservation;
 - b. The well is drilled and completed on lands held in trust by the United States for an Indian tribe or individual Indian; or

9. The first seventy-five thousand barrels of oil produced during the first eighteen months after completion, from a horizontal well drilled and completed in the Bakken formation after June 30, 2007, and before July 1, 2008, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion.

SECTION 6. AMENDMENT. Subsection 1 of section 57-51.1-03.1 of the North Dakota Century Code is amended and reenacted as follows:

2. "Assessment drain" means any natural watercourse opened, or proposed to be opened, and improved for the purpose of drainage, and any artificial drain of any nature or description constructed for the purpose of drainage, including dikes and appurtenant works, which are financed in whole or in part by special assessment. SECTION 2. AMENDMENT. Section 61-16.1-40.1 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-40.1. Maintenance of federally constructed projects - Assessment district established.

With regard to projects constructed by a federal agency, including the soil conservation service or natural resources conservation service, the water resource board may finance in whole or in part the maintenance of the project with funds raised through the collection of a special assessment levied against the land and premises benefited by maintenance of the project. The assessments to be levied may not exceed ~~two~~four dollars per acre [.40 hectare] annually on agricultural lands and may not exceed two dollars annually for each five hundred dollars of taxable valuation of nonagricultural property. No action is required for the establishment of the assessment district or the assessments except the water resource board must approve the maintenance and assessment therefor by a vote of two-thirds of the members and the board of county commissioners of the county in which the project is located must approve and levy the assessments to be made by a vote of two-thirds of its members. If a board that undertakes a project finds that the project may benefit lands in this state outside water resource district boundaries, the board shall provide notice to the water resource board where the benefited lands are located. The board of each water resource district containing lands benefited by a project must approve the project and assessment by vote of two-thirds of its members. The board of county commissioners in each county that contains lands benefited by a project must approve and levy the assessment to be made by vote of two-thirds of its members. If a project and assessment is not approved by all affected water resource boards and boards of county commissioners, the board of each water resource district and the board of county commissioners of each county shall meet to ensure that all common water management problems are jointly addressed. In addition, the water resource board that undertakes the project may proceed with the project if the board finances the cost of the project and does not assess land outside of the district. Before an assessment may be levied under this section, a public hearing must be held. The hearing must be preceded by notice as to date, time, location, and subject matter published in the official newspaper in the county or counties in which the proposed assessment is to be levied. The notice must be published at least ten days but not more than thirty days before the public hearing.

SECTION 3. AMENDMENT. Section 61-16.1-45 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-45. Maintenance of drainage projects.

1. If it is desired to provide for maintenance of an assessment drain in whole or in part by means of special assessments, the levy in any year for the

maintenance may not exceed ~~two~~four dollars per acre [.40 hectare] on any agricultural lands benefited by the drain. The district, at its own discretion, may utilize either of the following methods for levying special assessments for the maintenance:

- 1-a. Agricultural lands that carried the highest assessment when the drain was originally established, or received the most benefits under a reassessment of benefits, may be assessed the maximum amount of ~~two~~four dollars per acre [.40 hectare]. The assessment of other agricultural lands in the district must be based upon the proportion that the assessment of benefits at the time of construction or at the time of any reassessment of benefits bears to the assessment of the benefits of the agricultural land assessed the full ~~one dollar~~four dollars per acre [.40 hectare]. Nonagricultural property must be assessed the sum in any one year as the ratio of the benefits under the original assessments or any reassessment bears to the assessment of agricultural lands bearing the highest assessment.
- 2-b. Agricultural lands must be assessed uniformly throughout the entire assessed area. Nonagricultural property must be assessed an amount not to exceed ~~one dollar~~two dollars for each five hundred dollars of taxable valuation of the nonagricultural property.
2. In case the maximum levy or assessment on agricultural and nonagricultural property for any year will not produce an amount sufficient to cover the cost of cleaning out and repairing the drain, a water resource board may accumulate a fund in an amount not exceeding the sum produced by the maximum permissible levy for six years.
3. If the cost of, or obligation for, the cleaning and repairing of any drain exceeds the total amount that may be levied by the board in any six-year period, the board shall obtain the approval of the majority of the landowners as determined by chapter 61-16.1 before obligating the district for the costs.

SECTION 4. AMENDMENT. Section 61-16.1-51 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-51. Removal of obstructions to drain - Notice and hearing - Appeal - Injunction - Definition.

1. If a water resource board determines that an obstruction to a drain has been caused by the negligent act or omission of a landowner or tenant, the board shall notify the landowner by registered mail at the landowner's post-office address of record. A copy of the notice must also be sent to the tenant, if any. The notice must specify the nature and extent of the obstruction, the opinion of the board as to its cause, and must state that if the obstruction is not removed within such period as the board determines, but not less than fifteen days, the board shall procure removal of the obstruction and assess the cost of the removal, or the portion the board determines appropriate, against the property of the landowner responsible. The notice must also state that the affected landowner, within fifteen days of the date the notice is mailed, may demand, in writing, a hearing on the matter. Upon receipt of the demand, the board shall set a hearing date within fifteen days from the date the demand is received. In the event of an emergency, the board may immediately apply to the appropriate district court for an injunction prohibiting a landowner or tenant from maintaining an obstruction. Assessments levied under the provisions of this section must be collected in the same manner as other assessments

authorized by this chapter. If, in the opinion of the board, more than one landowner or tenant has been responsible, the costs may be assessed on a pro rata basis in accordance with the proportionate responsibility of the landowners. A landowner aggrieved by action of the board under this section may appeal the decision of the board to the district court of the county in which the land is located in accordance with the procedure provided in section 28-34-01. A hearing as provided for in this section is not a prerequisite to an appeal. If a complaint is frivolous in the discretion of the board, the board may assess the costs of the frivolous complaint against the complainant. If the obstruction is located in a road ditch, the timing and method of removal must be approved by the appropriate road authority before the notice required by this section is given and appropriate construction site protection standards must be followed.

2. For the purposes of this section, "an obstruction to a drain" means a barrier to a watercourse, as defined by section 61-01-06, or an artificial drain, including if the watercourse or drain is located within a road ditch, which materially affects the free flow of waters in the watercourse or drain.
3. Following removal of an obstruction to a drain, either by a water resource board or by a party complying with an order of a water resource board, the board may assess its costs against the property of the responsible landowner.

²¹⁴ **SECTION 5. AMENDMENT.** Section 61-16.1-53 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-53. Removal of a noncomplying dike or dam - Notice and hearing - Appeal - Injunction.

1. Upon receipt of a complaint of unauthorized construction of a dike, dam, or other device for water conservation, flood control, regulation, watershed improvement, or storage of water, the water resource board shall promptly investigate and make a determination thereon. If the board determines that a dam or other device, capable of retaining, obstructing, or diverting more than fifty acre-feet [61674.08 cubic meters] of water or twenty-five acre-feet [30837.04 cubic meters] of water for a medium-hazard or high-hazard dam, has been established or constructed by a landowner or tenant contrary to this title or any rules adopted by the board, the board shall notify the landowner by registered mail at the landowner's post-office address of record. A copy of the notice must also be sent to the tenant, if any. The notice must specify the nature and extent of the noncompliance and must state that if the dike, dam, or other device is not removed within the period the board determines, but not less than fifteen days, the board shall cause the removal of the dike, dam, or other device and assess the cost of the removal, or the portion the board determines, against the property of the landowner responsible. The notice must also state that the affected landowner, within fifteen days of the date the notice is mailed, may demand, in writing, a hearing upon the matter. Upon receipt of the demand, the board shall set a hearing date within fifteen days from the date the demand is received. In the event of an emergency, the board may immediately apply to the appropriate district court for an injunction prohibiting the landowner or tenant from constructing or maintaining the dike, dam, or other device, or ordering the landowner to remove the dike, dam, or other device. Assessments levied under this section must be collected in the

same manner as other assessments authorized by this chapter. If, in the opinion of the board, more than one landowner or tenant has been responsible, the costs may be assessed on a pro rata basis in proportion to the responsibility of the landowners. A person aggrieved by action of the board under this section may appeal the decision of the board to the district court of the county in which the land is located in accordance with the procedure provided in section 28-34-01. A hearing as provided for in this section is not prerequisite to an appeal. If a complaint is frivolous in the discretion of the board, the board may assess the costs of the frivolous complaint against the complainant.

2. Following removal of an unauthorized dike, dam, or other device, either by a water resource board or by a party complying with an order of a water resource board, the board may assess its costs against the property of the responsible landowner.

SECTION 6. AMENDMENT. Section 61-21-46 of the North Dakota Century Code is amended and reenacted as follows:

61-21-46. Maximum levy - Accumulation of fund.

1. The levy in any year for cleaning out and repairing a drain may not exceed ~~two~~four dollars per acre [.40 hectare] on any agricultural lands in the drainage district.
 - 1-a. Agricultural lands that carried the highest assessment when the drain was originally established, or received the most benefits under a reassessment of benefits, may be assessed the maximum amount of ~~two~~four dollars per acre [.40 hectare]. The assessment of other agricultural lands in the district must be based upon the proportion that the assessment of benefits at the time of construction or at the time of any reassessment of benefits bears to the assessment of the benefits of the agricultural land assessed the full ~~two~~four dollars per acre [.40 hectare]. Nonagricultural property must be assessed the sum in any one year as the ratio of the benefits under the original assessments or any reassessments bears to the assessment of agricultural land bearing the highest assessment.
 - 2-b. Agricultural lands must be assessed uniformly throughout the entire assessed area. Nonagricultural property must be assessed an amount not to exceed ~~one dollar~~two dollars for each five hundred dollars of taxable valuation of the nonagricultural property.
2. In case the maximum levy or assessment on agricultural and nonagricultural property for any year will not produce an amount sufficient to cover the cost of cleaning out and repairing the drain, the board may accumulate a fund in an amount not exceeding the sum produced by the maximum permissible levy for six years. If the cost of, or obligation for, the cleaning and repair of any drain exceeds the total amount that can be levied by the board in any six-year period, the board shall obtain an affirmative vote of the majority of the landowners as determined by section 61-21-16 before obligating the district for the costs.

SECTION 7. AMENDMENT. Section 61-21-47 of the North Dakota Century Code is amended and reenacted as follows:

61-21-47. Expenditures in excess of maximum levy.

If the cost of maintenance, cleaning out, and repairing any drain shall exceed the amount produced by the maximum levy of ~~two~~^{four} dollars per acre [.40 hectare] in any year, with the amount accumulated in the drainage fund, the board may proceed with such cleaning out and make an additional levy only upon petition of at least sixty-one percent of the affected landowners. The percentage of the affected landowners signing such petition shall be determined in accordance with the weighted voting provisions in section 61-21-16.

1. Only a landowner experiencing flooding or adverse effects from an unauthorized drain constructed before January 1, 1975, may file a complaint with the water resource board. Any person may file a complaint about an unauthorized drain constructed after January 1, 1975. Upon receipt of a complaint of unauthorized drainage, the water resource board shall promptly investigate and make a determination of the facts with respect to the complaint. If the board determines that a drain, lateral drain, or ditch has been opened or established by a landowner or tenant contrary to this title or any rules adopted by the board, the board shall notify the landowner by registered mail at the landowner's post-office address of record. A copy of the notice must also be sent to the tenant, if known. The notice must specify the nature and extent of the noncompliance and must state that if the drain, lateral drain, or ditch is not closed or filled within a reasonable time as the board determines, but not less than fifteen days, the board shall procure the closing or filling of the drain, lateral drain, or ditch and assess the cost of the closing or filling, or the portion the board determines, against the property of the landowner responsible. The notice must also state that the affected landowner, within fifteen days of the date the notice is mailed, may demand, in writing, a hearing on the matter. Upon receipt of the demand, the board shall set a hearing date within fifteen days from the date the demand is received. In the event of an emergency, the board may immediately apply to the appropriate district court for an injunction prohibiting the landowner or tenant from constructing or maintaining the drain, lateral drain, or ditch and ordering the closure of the illegal drain. Assessments levied under this section must be collected in the same manner as assessments authorized by chapter 61-16.1. If, in the opinion of the board, more than one landowner or tenant has been responsible, the costs may be assessed on a pro rata basis in proportion to the responsibility of the landowners. In order to meet this objective in the most economical way, water service districts and city water service systems shall coordinate their service plans. Competition for users and duplication of service must be avoided whenever possible.

the date the rehabilitation consultant's report is issued under section 65-05.1-02.1, whichever is less. The purpose of defining substantial gainful employment in terms of earnings is to determine the first appropriate priority option under subsection 4 which meets this income test set out above.

²³⁵ **SECTION 8. AMENDMENT.** Subdivision a of subsection 6 of section 65-05.1-01 of the North Dakota Century Code is amended and reenacted as follows:

- a. If the ~~vocational consultant~~organization concludes that none of the priority options under subsection 4 are viable, and will not return the employee to the lesser of sixty-six and two-thirds percent of the average weekly wage, or ninety percent of the employee's preinjury earnings, the employee shall continue to minimize the loss of earnings capacity, to seek, obtain, and retain employment:

- (1) That meets the employee's functional capacities; and

SECTION 10. AMENDMENT. Section 65-05.1-02.1 of the North Dakota Century Code is amended and reenacted as follows:

65-05.1-02.1. Vocational consultant's report.

The ~~vocational consultant~~organization shall review all records, statements, and other pertinent information and prepare a report to the organization and employee.

1. The report must:
 - a. Identify the first appropriate rehabilitation option by following the priorities set forth in subsection 4 of section 65-05.1-01.
 - b. Contain findings of why a higher listed priority, if any, is not appropriate.
2. Depending on which option the consultant identifies as appropriate, the report also must contain findings that:
 - a. Identify jobs in the local or statewide job pool and the employee's anticipated earnings from each job; or

²³⁵ Section 65-05.1-01 was also amended by section 7 of House Bill No. 1080, chapter 499.

- b. Describe an appropriate retraining program, the employment opportunities anticipated upon the employee's completion of the program, and the employee's anticipated earnings.
3. ~~The vocational consultant's report is due within sixty days from the date the vocational assessment is performed under this chapter. However, if the vocational consultant determines that retraining options must be evaluated because higher priority options are not viable, the final report is due within ninety days of the vocational assessment to allow the employee to assist in formulating the choice among the qualified training programs.~~

SECTION 11. AMENDMENT. Subsection 1 of section 65-05.1-03 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~Direct the implementation of programs for individual workforce safety and insurance claimants~~injured employees in accordance with organization determinations in compliance with the purpose of this chapter.

SECTION 12. AMENDMENT. Subsections 3, 4, 5, and 6 of section 65-05.1-04 of the North Dakota Century Code are amended and reenacted as follows:

3. ~~The injured employee shall be available for testing under subsection 6 or 7 of section 65-05.1-02, and for any further examinations and testing as may be prescribed by the organization to determine whether or not a program of rehabilitation is necessary. The injured employee also shall participate in remedial or other educational services when those services are determined to be necessary by the organization or the vocational consultant. If the employee is noncompliant with this subsection, the organization shall suspend benefits during the period of noncompliance.~~
4. ~~If the first appropriate rehabilitation option under subsection 4 or 6 of section 65-05.1-01 is return to the same, modified, or alternative occupation, or return to an occupation that is suited to the employee's education, experience, and marketable skills, the employee is responsible to make a good-faith work trial or work search. If the employee fails to perform a good-faith work trial or work search, the organization may not pay additional disability benefits unless the employee meets the criteria for reapplying for benefits required under subsection 1 of section 65-05-08. If the employee meets the burden of proving that the employee made a good-faith work trial or work search and that the work trial or work search was unsuccessful due to the injury, the organization shall reevaluate the employee's vocational rehabilitation claim. When the first appropriate vocational rehabilitation option is identified for an employee, the organization shall notify the employee of the obligation to make a good-faith work search or good-faith work trial, and provide information to the employee regarding reinstatement of benefits if the work search or work trial is unsuccessful.~~
5. ~~If the first appropriate rehabilitation option under subsection 4 of section 65-05.1-01 is retraining, the employee shall cooperate with the necessary testing to determine whether the proposed training program meets the employee's medical limitations and aptitudes. The employee shall attend a qualified rehabilitation training program when ordered by the organization. A qualified training program is a rehabilitation plan that meets the criteria of this title, is the approved option of the rehabilitation consultant, and commences within a reasonable period of time such as the next quarter or semester. The~~

organization and the employee, by agreement, may waive the income test applicable under this subsection.

6. If, without good cause, the injured employee fails to make a good-faith work search in return to work utilizing the employee's transferable skills, the employee is in noncompliance with vocational rehabilitation. A good-faith work search that does not result in placement is not, in itself, sufficient grounds to prove the work injury caused the inability to acquire gainful employment. The employee shall show that the injury significantly impacts the employee's ability to successfully compete for gainful employment in that the injury leads employers to favor those without limitations over the employee. If, without good cause, the injured employee fails to attend specific vocational testing, remedial, or other vocational services determined necessary by the organization or the rehabilitation consultant, the employee is in noncompliance with vocational rehabilitation. If, without good cause, the injured employee fails to attend a scheduled medical or vocational assessment, fails to communicate or cooperate with the ~~vocational consultant organization~~, or fails to attend a specific qualified rehabilitation program within ten days from the date the rehabilitation program commences, the employee is in noncompliance with vocational rehabilitation. If, without good cause, the employee discontinues a training program in which the employee is enrolled, the employee is in noncompliance with vocational rehabilitation. If at any time the employee is noncompliant without good cause, subsequent efforts by the employee to come into compliance with vocational rehabilitation are not considered successful compliance until the employee has successfully returned to the job or training program for a period of thirty days. In all cases of noncompliance by the employee, the organization shall discontinue disability and vocational rehabilitation benefits. If the period of noncompliance continues for thirty days following the date benefits are discontinued, or a second instance of noncompliance occurs without good cause, the organization may not pay any further disability or vocational rehabilitation benefits, regardless of whether the employee sustained a significant change in medical condition due to the work injury.

²³⁶ **SECTION 13. AMENDMENT.** Subsection 1 of section 65-05.1-06.1 of the North Dakota Century Code is amended and reenacted as follows:

1. Within sixty days of receiving the final vocational consultant's report, the organization shall issue an administrative order under chapter 28-32 detailing the employee's entitlement to disability and vocational rehabilitation services.

If additional services are determined to be necessary as a result of failed or inappropriate rehabilitation of an injured employee through no fault of the employee, the organization may contract with the vendor for additional services. If the failure or inappropriateness of the rehabilitation of the injured employee is due to the vendor's failure to provide the necessary services to fulfill the contract, the organization is not obligated to use that vendor for additional services on that claim and the organization may refuse payment for a service that the vendor failed to perform which was a material requirement of the contract.

SECTION 17. AMENDMENT. Section 65-05.1-07 of the North Dakota Century Code is amended and reenacted as follows:

A provider who is not a preferred provider may not certify disability or render an opinion about any matter pertaining to the injury, including causation, compensability, impairment, or disability. HOUSE BILL NO. 1156

(Representatives Klemin, Frantsvog, Schmidt)
(Senators Andrist, Carlisle, Dotzenrod)

AN ACT to amend and reenact sections 11-09.1-03 and 11-09.1-04 and subsection 6 of section 11-09.1-04.1 of the North Dakota Century Code, relating to county home rule.

VETO

April 3, 2013

The Honorable Bill Devlin
Speaker of the House
House Chambers
State Capitol
Bismarck ND 58505

Dear Speaker Devlin:

Pursuant to Article V, Section 9, of the North Dakota Constitution, I have vetoed House Bill 1156 and returned it to the House.

House Bill 1156 is vetoed because a public vote on a home rule charter is an important decision for county residents and a very serious policy question. Home rule charters have a tendency to involve the incurring of debt and increased taxation to service that debt. These important questions should be voted upon at an election where a substantial turnout of eligible voters is likely to occur. A county special election would undoubtedly result in an extremely low turnout of voters. A question as important as the adoption of a home rule charter should take place at an election where a substantial number of voters will participate.

Therefore, I am vetoing House Bill 1156.

Sincerely,

Jack Dalrymple
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 11-09.1-03 of the North Dakota Century Code is amended and reenacted as follows:

11-09.1-03. Submission of charter to electors.

At least sixty days, but no more than two years, after submission of the charter to the board of county commissioners, the board of county commissioners shall submit the proposed charter ~~must be submitted~~ to a vote of the qualified electors of the county at a special election called by the board or at a primary or general election. If the proposed charter has been submitted to a vote of the qualified electors of the county, the board of county commissioners may call a special election to resubmit the proposed charter to a vote of the qualified electors of the county, and the special election must take place at least sixty days after the call for the special election. The board may amend the proposed charter prior to its resubmission to the electors.

SECTION 2. AMENDMENT. Section 11-09.1-04 of the North Dakota Century Code is amended and reenacted as follows:

11-09.1-04. Ratification by majority vote - Supersession of existing charter and conflicting state laws - Filing of copies of new charter.

If a majority of the qualified electors voting on the charter at the election vote in favor of the home rule charter, it is ratified and becomes the organic law of the county on the first day of January or July next following the election effective date specified in the charter or sixty days after the election, whichever is later, and extends to all its county matters. The charter and the ordinances made pursuant to the charter in county matters must be liberally construed to supersede within the territorial limits and jurisdiction of the county any conflicting state law except for any state law as it applies to cities or any power of a city to govern its own affairs, without the consent of the governing body of the city. The charter may not authorize the enactment of ordinances to diminish the authority of a board of supervisors of a township or to change the structure of township government in any organized civil township, without the consent of the board of supervisors of the township. No ordinance of a home rule county shall supersede section 49-22-16. One copy of the charter as ratified and approved must be filed with the secretary of state; one with the recorder for the county, unless the board of county commissioners designates a different official; and one with the auditor of the county to remain as a part of its permanent records. Courts shall take judicial notice of the charter.

SECTION 3. AMENDMENT. Subsection 6 of section 11-09.1-04.1 of the North Dakota Century Code is amended and reenacted as follows:

6. If a majority of the qualified electors voting in each county on the charter votes in favor of the multicounty home rule charter, it is ratified and becomes the organic law of the multicounty area on the first day of January following the election or other effective date specified in the charter or sixty days after the election, whichever is later.

AN ACT to amend and reenact section 50-24.5-10 of the North Dakota Century Code, relating to compensation for top management personnel of basic care facilities.

VETO

April 11, 2013

The Honorable Bill Devlin
Speaker of the House
House Chambers
State Capitol
Bismarck ND 58505

Dear Speaker Devlin:

Pursuant to Article V, Section 9, of the North Dakota Constitution, I have vetoed House Bill 1209 and returned it to the House.

I hereby veto House Bill 1209 because the enhanced salary reimbursement proposed in the measure is not currently funded in the budget for the Department of Human Services, and there is no indication that it will be funded by either the House or the Senate. The proposal itself, which would allow reimbursement for higher compensation for top management personnel of a basic care facility, is a reasonable proposal, considering the difficulty of retaining good managers in our current economy. However, it is essential that any spending proposal have an identified source of funds. There is still time during this legislative session to amend the necessary language and the required funding of \$435,481 in the budget bill for the Department of Human Services. That decision remains with the legislature.

Therefore, I am vetoing House Bill 1209.

Sincerely,

Jack Dalrymple
Governor

VETO

May 23, 2013

The Honorable Bill Devlin
Speaker of the House
House Chambers
State Capitol
Bismarck, ND 58505

Dear Speaker Devlin:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed items in Sections 13 and 14 and all of Sections 15 and 25 of House Bill 1015 and returned it to the House.

I have vetoed that portion of Section 13 in the second paragraph that reads "The office of management and budget, subject to budget section approval, may adjust the

market policy point based on an estimated inflationary factor during the 2013-15 biennium." This sentence is vetoed because the budget section has no constitutional role in the administration and execution of the compensation plan as adopted by the legislative assembly. This responsibility is a purely executive function not appropriate for ratification by the budget section of the legislative assembly. See City of Carrington v. Foster County, 166 N.W.2d 377, 382 (N.D. 1969) ("[T]here is an implied exclusion of each branch from the exercise of the functions of the others."); NDAG 2007-L-08.

I have vetoed that portion of Section 14 beginning with "PILOT PROJECT" in the section title and continuing through the end of the second-to-last sentence, leaving only the last sentence of Section 14. This item is vetoed because it constitutes an unconstitutional insertion of the Emergency Commission into the management of the state's compensation program. The administration of salary dollars within the limits of legislative appropriations is properly reserved to the executive branch agency directors. The vetoed pilot program would grant the Emergency Commission, a majority of which are legislators, broad discretion to determine whether an agency had provided "documentation justifying the need" for the salary dollars in the accrued leave line. This broad, discretionary review and approval of a purely executive function violates the principle of constitutional separation of powers and is clearly impractical, considering the numerous Emergency Commission meetings that would be required to review and approve each agency's use of this last share of salary dollars. The last sentence of Section 14, which is not vetoed, confirms that accrued leave is simply a type of salary to which state employees are entitled by virtue of their employment. As a result of this item veto, both the accrued leave and salary and wages lines remain available for payment of salaries by any agency. Although the proposed pilot project is eliminated by this item veto, my intention is to direct agencies to rely first and foremost on the salary line and not access the accrued leave line for salary until necessary.

Section 15 is vetoed because it directs the office of management and budget to transfer funds at the request of the Racing Commission from the breeders' fund to the purse fund and racing promotion fund in conflict with N.D.C.C. Section 53-06.2-11, which states: "The commission may not transfer money among the funds." This kind of policy change should be brought forward by the Racing Commission itself and have a full legislative hearing where those who rely on the breeders' fund have an opportunity to be heard. North Dakota's horse breeders rely on the breeders' fund and it should not be accessed for racing promotion or other purposes without full consideration of their objections.

Section 25 is vetoed because a limitation of 60 days on the permissible extension of the July 15th filing date does not provide adequate time to prepare a budget proposal for agencies that experience circumstances justifying a delayed filing schedule. Such circumstances include: uncertainty of federal funding; variability in case load numbers for human service programs; variability in trends of inmate headcounts; unpredictable approvals in federal transportation funding programs; the importance of having more current, accurate revenue projections for water project appropriations from the resources trust fund; availability of fall enrollment numbers for estimating the appropriation necessary to cover the per-student payments for the biennium; and other similar situations.

Sincerely,

Jack Dalrymple
Governor

A concurrent resolution urging the United States Fish and Wildlife Service and the United States Department of Agriculture's Natural Resources Conservation Service to fairly administer water management laws and regulations in a manner that allows landowners and tenants certainty and cooperation in the management of these laws and regulations.

WHEREAS, North Dakota agriculture is the state's number one industry and economic engine; and

WHEREAS, orderly water management is critical for agriculture's continued success in the state; and

WHEREAS, orderly water management is vital to soil stewardship and soil health; and

WHEREAS, orderly water management will reduce the number of unproductive acres of cropland, reducing prevent plant acres and decreasing the cost of the crop insurance program, while enhancing crop production for the benefit of the state and the world's population; and

WHEREAS, in the area of proper water management, North Dakota farmers and ranchers have been stymied by the regulatory burden caused by inconsistent and misinterpreted water management laws and regulations; and

WHEREAS, federal agencies, including the United States Department of Agriculture's Natural Resources Conservation Service and the United States Fish and Wildlife Service have perpetuated an environment of overregulation and misinterpretation of water management laws and regulations, instead of an environment of cooperation and assistance to North Dakota farmers and ranchers; and

WHEREAS, the Natural Resources Conservation Service and the Fish and Wildlife Service have made questionable "year specific" wetland conversion determinations without reasonable review of the historic rainfall events and the erosion of the rainfall events that have affected this state since 1992; and

WHEREAS, producers in this state have several hundred acres of cropland that have been awaiting wetland determinations by the Natural Resources Conservation Service for many years and have in good faith attempted to comply with the now rigorous implementation of an age-old wetlands law; and

WHEREAS, the Natural Resources Conservation Service and the Fish and Wildlife Service need to consider the emotional and financial well-being of the farmers, ranchers, landowners, and tenants being charged with purported wetland violations; and

WHEREAS, the United States Department of Agriculture's Farm Service Agency's relief authority, otherwise known as good-faith effort determinations, and reinstatement of benefits should not be bound by limitations on the number of good-faith effort determinations provided; and

WHEREAS, this state has the governmental agencies and resources to manage wetlands; and

WHEREAS, the waterfowl population is stable and secure, and the United States Fish and Wildlife Service should allow this state to manage wetlands within the state's boundaries;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Natural Resources Conservation Service clearly define, for North Dakota farmers, ranchers, landowners, and tenants, all of the options available for implementing orderly water management strategies; and

That the Natural Resources Conservation Service and Fish and Wildlife Service provide technical assistance to North Dakota farmers, ranchers, landowners, and tenants to achieve orderly water management without fear of retribution or findings of other wetland violations; and

That processes undertaken in regards to orderly water management by the Natural Resources Conservation Service and the Fish and Wildlife Service are completed in a timely fashion; and

That in cases where the Natural Resources Conservation Service and the Fish and Wildlife Service declares an area of land as converted wetlands and impose penalties, these agencies work with farmers, ranchers, landowners, and tenants to correct the unintentional land management practice; and

That in cases of disputes between farmers, ranchers, landowners, and tenants and the Natural Resources Conservation Service and the Fish and Wildlife Service, farmers, ranchers, landowners, and tenants are afforded time to employ corrective action before an official determination of a violation is made; and

That in cases of dispute between the Natural Resources Conservation Service or the Fish and Wildlife Service and farmers, ranchers, landowners, and tenants, the later are afforded mediation through the United States Department of Agriculture and the North Dakota Department of Agriculture and are provided the appeals processes in a timely fashion; and

That in the case of the United States Department of Agriculture's Farm Service Agency's review of relief, also known as good-faith effort determinations, no limitation of the number of good-faith effort determinations should be established for a farmer, rancher, landowner, or tenant due to the Natural Resources Conservation Service's erratic and delayed implementation of wetlands certifications and determinations; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the President of the United States, the Chairmen and ranking members of the United States Senate and United States House of Representatives Committees on Agriculture, the United States Secretary of Agriculture, the Chief of the United States Department of Agriculture's Natural Resources Conservation Service, the Director of the United States Fish and Wildlife Service, and to each member of the North Dakota Congressional Delegation.

HOUSE CONCURRENT RESOLUTION NO. 3026

(Representatives Belter, Boe, Delmore, Delzer, Headland, Kreidt, Porter)
(Senators Carlisle, Dotzenrod, Lyson, Unruh, Wardner)

A concurrent resolution urging the United States Environmental Protection Agency to refrain from enacting regulations that place unreasonable economic burden on electric consumers living in the Northern Great Plains.

WHEREAS, over the course of the 2011-13 interim the United States Environmental Protection Agency considered whether to regulate coal combustion residuals as hazardous or nonhazardous wastes under the Resource Conservation and Recovery Act; and

WHEREAS, the North Dakota Congressional Delegation in conjunction with members of other delegations across the region introduced legislation clarifying that coal combustion residuals should be regulated by states and not be deemed hazardous wastes; and

WHEREAS, in March 2012 the United States Environmental Protection Agency released a decision on the federal regional haze program approving the State Department of Health's decision to require selective noncatalytic reduction technology at the Milton R. Young Station and the Leland Olds Station, but requiring the installation of other technologies for the Antelope Valley Station and the Coal Creek Station resulting in a federal implementation plan for the two units; and

WHEREAS, in December 2012 the United States Environmental Protection Agency issued a notice that it intended to reopen the North Dakota regional haze issue in response to a petition filed by a number of environmental groups; and

WHEREAS, in April 2012 the United States Environmental Protection Agency proposed new carbon dioxide emission standards requiring new coal-based electric generation units to meet an emission standard based on the carbon dioxide emissions of a combined cycle natural gas plant; and

WHEREAS, new lignite-based electric generation units will not be able to meet the proposed carbon dioxide emission standards until carbon dioxide capture technology is developed for widespread, commercial installation; and

WHEREAS, the United States Environmental Protection Agency stated in the April 2012 proposed rule that no notable carbon dioxide or other pollutant emissions changes or monetized benefits were anticipated with the new carbon dioxide emission standards; and

WHEREAS, the North Dakota lignite industry employs thousands of individuals and contributes over \$3.5 billion in business activity in North Dakota each year; and

WHEREAS, if the United States Environmental Protection Agency continues to issue regulations that are not based on sound science and that will have significant

impact on consumer electricity costs, the North Dakota lignite industry will struggle to provide low-cost, reliable electricity to the two million consumers served by North Dakota lignite-based generation across the Northern Great Plains; and

WHEREAS, under the present federal regulatory agenda, the state is in danger of losing high-paying jobs related to the lignite industry as well as revenue generated through taxes and business activity;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-third Legislative Assembly urges the United States Environmental Protection Agency to refrain from enacting regulations that regulate coal combustion residuals as hazardous wastes and allow the State Department of Health to continue to regulate coal combustion residuals under its current regulatory structure; and

That the United States Environmental Protection Agency support its March 2012 decision related to the state's regional haze implementation plan and delegate to the state the responsibility for working with the Antelope Valley Station and the Coal Creek Station to achieve the federal implementation plan; and

That the United States Environmental Protection Agency refrain from finalizing regulations for carbon dioxide emission standards which require coal to meet an emission standard based on the carbon dioxide emissions of a combined cycle natural gas plant and to refrain from proposing carbon dioxide emissions standards for existing coal-based electric generation units; and

That the Sixty-third Legislative Assembly urges the United States Environmental Protection Agency to work with the state, the North Dakota Congressional Delegation, and the North Dakota lignite industry to design regulatory programs that are based on sound science and that make economic sense for the consumers of North Dakota lignite; and

That the members of the Sixty-third Legislative Assembly support the efforts of the lignite industry to find common sense technology solutions that will facilitate the continuation of lignite-based electric generation; and

That the members of the Sixty-third Legislative Assembly support the efforts of the lignite industry to challenge regulations that will significantly impact the ability of the industry to continue to generate electricity from existing lignite-based plants; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the President of the United States, the Director of the United States Environmental Protection Agency, each member of the North Dakota Congressional Delegation, the State Department of Health, and the Public Service Commission.

WHEREAS, the United States annual cost of chronic obstructive pulmonary disease in 2010 was estimated to be \$49.39 billion; and

WHEREAS, one-half of the persons with chronic obstructive pulmonary disease (51 percent) report that their condition limits their ability to work, while 34 percent say that chronic obstructive pulmonary disease keeps them from working and 17 percent say their condition limits them in the kind or amount of work they can do; and

WHEREAS, early chronic obstructive pulmonary disease screening and a diagnosis test for chronic obstructive pulmonary disease known as spirometry is available for office use, yet most people are not diagnosed until they have reached an advanced stage of chronic obstructive pulmonary disease; and

WHEREAS, there is no cure for chronic obstructive pulmonary disease, and its lung damage is irreversible. Treatments, however, can improve a patient's quality of life and prevent symptoms, reduce the frequency and severity of exacerbation, improve health status, and improve the ability to exercise; and

WHEREAS, until there is a cure, increased public awareness, early detection, and proper health management can slow the progression of the disease and lead to reduced costs and improved quality of life for our residents;

WHEREAS, the legal basis for the establishment of the modern state of Israel was a binding resolution under international law, which was unanimously adopted by the League of Nations in 1922 and subsequently affirmed by both houses of the United States Congress; and

WHEREAS, this resolution affirmed the establishment of a national home for the Jewish people in the historical region of the Land of Israel, including the areas of Judea, Samaria, and Jerusalem; and

WHEREAS, Article 80 of the United Nations charter recognized the continued validity of the rights granted to states or peoples which already existed under international instruments, and, therefore, the 1922 League of Nations resolution remains valid, and the 650,000 Jews currently residing in the areas of Judea, Samaria, and eastern Jerusalem reside there legitimately; and

WHEREAS, Israel declared its independence and self-governance on May 14, 1948, with the goal of reestablishing its God-given and legally recognized lands as a homeland for the Jewish people; and

WHEREAS, with an excellent geographic location, Taiwan is a key aviation hub for regions in northeastern and southeastern Asia; and

WHEREAS, the Taipei Flight Information Region (FIR), bordering the FIRs of Fukuoka, Manila, Hong Kong, and Shanghai, includes 14 international airways and 4 domestic airways, providing services for more than 1 million flights per year; and

WHEREAS, each year, 40 million travelers enter, leave, or pass through the Taipei FIR, making Taiwan a key part of air navigation in East Asia; and

WHEREAS, currently, more than 50 domestic and foreign airlines operate flights from Taiwan to 110 cities in the world and the annual number of passengers on international flights is approximately 30 million; and

WHEREAS, in 2010, the number of international passengers at Taiwan's largest airport--Taoyuan International Airport--ranks 16th worldwide, while international cargo ranks 9th, making Taiwan one of the busiest airspaces in the world; and

WHEREAS, without Taiwan's participation, international flight plans, regulations, and procedure that the ICAO formulates will be incomplete and unsafe; and

WHEREAS, as an island in the Pacific Ocean, Taiwan is imperiled by rising sea levels and the ravages of extreme weather; and

WHEREAS, Taiwan's exclusion from meaningful participation in United Nations Framework Convention on Climate Change (UNFCCC) has been to the detriment of both the Taiwanese people and the global community as Taiwan not only has the means but also incentive to make a meaningful contribution; and

WHEREAS, Taiwan's request to participate in the ICAO and the UNFCCC is fully in line with the United States government's policy of supporting Taiwan's meaningful participation in United Nation's specialized agencies;

(Senators Larsen, Miller)

A concurrent resolution directing the Legislative Management to study the statutory and regulatory requirements placed on North Dakota state government agencies by United States government agencies as a condition of the receipt of federal funding to determine whether there are viable options to meet the needs of our state without having the federal government's oversight and involvement, which state needs can be met if federal funding associated with undesirable regulation or excessive direct and indirect costs are refused, and whether the federal fiscal impact is a significant and necessary factor in assenting to the continuance of federal government involvement in the state's management processes.

WHEREAS, the budget surplus and strong economic vitality of the state has placed North Dakota in a position in which the state can potentially tend to more of its needs independent of sometimes onerous federal statutory and regulatory requirements and the oversights and controls placed on state agencies as a condition of receipt of federal funding; and

WHEREAS, a tenet of fiscal responsibility is to take care of one's own needs as much as possible with one's own resources before seeking assistance from outside sources; and

WHEREAS, state agencies have demonstrated the ability to take care of the state's needs much more efficiently and effectively when allowed to do so with minimal control and oversight from the federal government; and

WHEREAS, federal debts and deficits are at levels that are unsustainable and are placing a tremendous burden on our future generations; and

WHEREAS, we have a responsibility to do what we can in this state to reduce the burdens we place on the federal budget wherever possible while still seeing to the needs of our state and its citizens;

CHAPTER 554

SENATE CONCURRENT RESOLUTION NO. 4017

(Senators Sitte, Armstrong, Schaible)
(Representatives Heller, Porter, Streyle)

A concurrent resolution relating to the Obama Administration's proposal that the Senate of the United States consider adoption of a United Nations Arms Trade Treaty.

WHEREAS, the "First Law of Nature" has long been held to be the natural and fundamental right of all persons to "self-preservation", "self-defense", and a "right of revolution" against any and all dangers to life, liberty, and property; and

WHEREAS, this first law of nature is enshrined in both a collective and an individual right to keep and bear arms, a right that has been recognized in English law since the adoption of the English Bill of Rights of 1689; and

WHEREAS, the Founding Fathers of the United States of America codified that individual and collective right by adoption and ratification of the Second Amendment to the United States Constitution; and

WHEREAS, the Second Amendment to the United States Constitution reads as follows: "A well-regulated militia being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed."; and

WHEREAS, such codification of the individual right to keep and bear arms is derivative of the natural right and not the creation of a new right, a fact which has been recognized by the United States Supreme Court; and

WHEREAS, the existence and recognition of such an individual right is necessary to resist invasion, to dissuade a tyrannical government, and to empower citizens in maintaining the natural right of self-defense, and is as essential as the collective right; and

WHEREAS, our nation's Founding Fathers expressed a deep belief in the individual right to keep and bear arms, expressed by Patrick Henry in Virginia's constitutional ratification convention on June 5, 1788, with the words: "Guard with jealous attention to the public liberty. Suspect everyone who approaches that jewel. Unfortunately, nothing will preserve it but downright force. Whenever you give up that force, you are inevitably ruined . . ."; and

WHEREAS, the individual right to keep and bear arms has been upheld by court opinions over the 225 years since the original 13 states ratified the United States Constitution, most recently in *District of Columbia v. Heller* and in *McDonald v. Chicago*; and

WHEREAS, the state of North Dakota further codifies the individual right to keep and bear arms in the North Dakota Constitution's Declaration of Rights, wherein Article I, Section 1, states "All individuals are by nature equally free and independent

and have certain inalienable rights, among which are those of enjoying and defending life and liberty; acquiring, possessing and protecting property and reputation; pursuing and obtaining safety and happiness; and to keep and bear arms for the defense of their person, family, property, and the state, and for lawful hunting, recreational, and other lawful purposes, which shall not be infringed."; and

WHEREAS, the United States Mission to the United Nations voted in November 2012 to move the Draft Paper for the United Nations Arms Trade Treaty (hereinafter the "Treaty") out of General Disarmament Committee to the full body of the United Nations for a vote on finalization of the Treaty in March 2013; and

WHEREAS, the current form of the Treaty covers both traditional military munitions as well as "small arms and light weapons" and does not distinguish between arms, such as rockets, and from vastly and distinctly different arms, such as handguns, rifles, or shotguns; and

WHEREAS, the Treaty would allow for an expansion of federal firearms controls on the transportation of arms across national territory, require maintaining records of all arms within the territory of a country which would include the identity of individual users, and create an obligation that would require the United States to take measures that would infringe on the individual right to keep and bear arms; and

WHEREAS, passages of the Treaty as currently drafted are written so broadly as to not only possibly impair or render our military unable to assert the national right of self-defense against other nations, but to also subject citizens of the United States to violation of international laws within the borders of the United States; and

WHEREAS, ratification of the Treaty would erroneously encourage politicians and courts to view the treaty power as a separate source of federal authority for the regulation of purely intrastate matters expressly delegated to the states, including the criminal law of self-defense and the individual right to keep and bear arms; and

WHEREAS, the harmful potential of the Treaty led a bipartisan coalition of 51 United States senators to express the strongest expression of concern and opposition on the potentially devastating consequences of the Treaty to President Barack Obama and Secretary of State Hillary Clinton in a letter dated July 26, 2012; and

WHEREAS, the adoption of the Treaty, or any document with as broad a scope as the Treaty as to imperil the individual and collective right to keep and bear arms, would constitute an absolute abandonment of the oath of office upon which every federal elected official, federal civilian employee, and military servicemember swears to upon entering office, namely the oath to either "preserve, protect, and defend the Constitution of the United States" or to "support and defend the Constitution of the United States against all enemies, foreign and domestic";

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Sixty-third Legislative Assembly hereby expresses its opposition to the current form of the United Nations Arms Trade Treaty, as well as to any treaty that infringes on the individual or collective right to keep and bear arms, in the strongest and most unequivocal terms; and

BE IT FURTHER RESOLVED, as duly elected representatives of the will of the people of North Dakota, strongly urge the President of the United States, the United States Secretary of State, the Ambassador of the United States to the United Nations, and all members of the United States Senate to soundly reject the current form of the United Nations Arms Trade Treaty or any other treaty which would endanger the individual or collective right to keep and bear arms; and

BE IT FURTHER RESOLVED, that the Secretary of State of North Dakota forward properly inscribed copies of this resolution to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, the United States Secretary of State, the Ambassador of the United States to the United Nations, each member of the United States Senate, the Governor of each state, the Speaker of the House and President of the Senate of each state's legislature, and each member of the North Dakota Congressional Delegation.
