• CARD •

The unfavorable climatic conditions attendant on the production and harvest of the 1899 seed crop throughout the various seed growing districts of the world have been, almost without exception, unprecedented for many years.

The result has been a shortage in the supply of many varieties of seeds, but, with our large acreage, located, by the experience of 77 years, in the most favorable sections for the various crops, we are amply provided, we believe, to supply the wants of our customers. Nevertheless to avoid disappointment we would recommend the early purchase of requirements.

While the seed crops have suffered in this country the crops of the great staples, Wheat, Corn, Cotton, etc., have been most abundant, with prices favorable to growers, and again, and for the third successive year, we predict a continuance of "good times" on the solid basis of prosperous agriculture.

We have no important changes to mention this year in connection with our business other than that our improvements have kept pace with our increasing trade.

We have in press the second edition of a most valuable work comprising nearly 400 pages, with 1,500 illustrations, entitled "Catalogue of Agricultural Hardware, Implements, Machines and Woodenware." See page 17 for description and details of distribution.

The importance of the Poultry business and the magnitude of our interests in that line have warranted us in preparing a new and up-to-date edition of "Points for Poultry Raisers," of 64 pages, and 150 illustrations: for particulars see page 17.

As usual, our best efforts are at the service of our customers, and we solicit a continuance of their favors.

Entrance at the "Big Clock,"
51 and 52 North Market St.,
also entrances at 46 Merchants Row and 21 1-2 North Street.

BOSTON, MASS.

J. W. Procter & Sons
CORPORATION

Our Store, opposite North side of Faneuil Hall, is only a minute's walk from Adams Square Subway Station.

INDEX.

TO OUR CUSTOMERS.

THE perfect arrangement of the several departments of our large Seed business, in charge of men specially prepared in this country and Europe, by years of experience in the different branches of the business; the whole under the personal supervision of a Director of the Corporation, who has taken advantage for over twenty-five years of the excellent opportunities for experience afforded at home and abroad to fit him for the work, combined with our knowledge of the best sources of supply, localities for production, the acreage we control and the large purchases we make for cash, enable us, by reason of the greater value of our trade compared with others, to offer seeds that are not surpassed, if indeed equalled in quality and purity, by any. The fact that we have a larger patronage among the leading private and market gardeners and florists throughout the country than other New England seedsmen is emphatic proof of our experience, integrity and ability to serve planters satisfactorily. To this end we note on every lot of seed sold, the percentage of vitality and offer the same subject to the test and analysis of the botanist of any of the State experiment stations, and to properly authenticated complaint being made to us within twenty days from time of purchase of seeds complained of. If the result of the analysis does not confirm the percentage named, we will take back the seeds, and refund the money paid for them, and pay the cost of transportation both ways. Seeds once sown, or the above specified time for complaint having expired, our responsibility ceases, because failures more often occur through a lack of knowledge of the conditions required to produce germination and a good crop than from inherent defects in the seeds. Proper conditions for germination are, correct temperature and moisture, and a free access of air; besides, the soil must be of the right kind, properly prepared, and present no physical obstacles to the germination of the seed, such as a baked surface or too compact soil through heavy rains. Cold and hot winds, insects below and above the ground are frequent causes of failure. In addition to all this there is an ever constant change of form and type in nature, so that highly selected sorts frequently revert back to originals. This accounts for short pods and long vines among peas that should be long podded and dwarf, green pods on wax beans, green plants appearing among white and yellow sorts of celery, etc., etc. Therefore please

NOTICE.—While we exercise the greatest care to have all Seeds, Plants, Bulbs, and Nursery Stock of the best kind, we do not give, and our agents and employees are forbidden to give, any warranty, express or implied. If you do not accept the goods on these terms, you must return them at once, and all payments therefor will be refunded.

"A continuous business relationship of 40 years or more is certainly a fair test of integrity and honorable dealing."

Our Golden Roll of Honor.

The feeling of gratification that we experience in being able to reproduce the portraits of twelve friends and customers, on the opposite page, and the long list of names of those from whom we have heard, whose patronage we have retained through all the changes of forty years or more, cannot be expressed in words. However, we wish to say that we appreciate the confidence and esteem extended and expressed in the continued long, pleasant business relations. It is worthy of mention that Mr. J. W. Bailey, Newtonville, when kindly giving us permission to use his name and photograph, informed us that not only had he been a customer since 1850, but his father, the late Mr. Job Bailey, of North Scituate, had traded with the house from its beginning, in 1822, until the time of his death.

Our old friend, Mr. I. N. Howland (of Randall's Boston, Hanover and Pembroke Express), who has bought from us goods for his own use and for his customers for forty years, says, "that the name 'Breck' is 'a household word' in my territory is attested by the thousands of orders I have carried you year after year."

It is with sincere regret that we are again called upon to chronicle the passing of one whose name was inscribed on our Golden Roll of Honor—Hon. Benjamin G. Smith, whose death occurred at his residence in Cambridge, last September. Mr. Smith was a staunch friend of the late Hon. Joseph Breck, and also of his son, Hon. C. H. B. Breck, president of the Joseph Breck & Sons Corporation. It was only some two weeks before his decease that he visited Mr. Breck at our own store, and it was then remarked how hale and vigorous he was for a person of nearly 90 years. Mr. Smith was a well-known horticulturist and a prominent citizen of Cambridge. He was in business in Boston until 1865, when he retired. Of late years he had given his attention to the cultivation of fruits. He was a life member of the Mass. Horticultural Society, and for 30 years he was its vice-president. He was treasurer of the American Pomological Society. He was also a life member of the American Forestry Association, Bay State Agricultural Society, Middlesex Agricultural Society and a member of the American Association for the Advancement of Science.

OUR GOLDEN ROLL OF HONOR

ANOTHER GROUP OF OLD FRIENDS

• 1900 •

Vegetable Novelties and Specialties.

Breck's String and Shell Bean.

BRECK'S STRING AND SHELL BUSH BEAN.

This variety will become a general favorite, throughout New England, with all lovers of the Cranberry type of bean as soon as known. The dry bean is about the size and shape of the famous Red Cranberry, but is *slightly* marbled like a Horticultural. The pods when young and fit to use as string beans are an average of 9 inches in length, roundish in form, very thick and fleshy, entirely stringless and of a pleasing green color. If allowed to grow for shell beans the pods flatten out a little and take on a reddish tint. The plants are of dwarf, vigorous habit, free from rust and disease. The pods, which are well protected by the leaves, are borne from the centre outwards in remarkable abundance. It is almost as early a variety as the so-called six week sorts, and because of its great productiveness, usefulness as a string and shell bean and superior quality, it is sure soon to be in great demand for the home garden and market. Pkt., 10 cts.; qt., 40 cts.; pk., \$3.00.

MEDIUM GREEN SOYA BEAN.

This sort is a perfect success for cultivation in New England. It is valuable either as a green forage crop or for the silo, and is not surpassed by any crop for plowing under. The seed we offer was grown in Massachusetts. Per qt., 25 cts.; pk., \$1.25; bush., \$4.00.

"I never had any seeds on my premises that gave better satisfaction than those I bought from you."
Yours truly, W. P. LYON,
Jan. 26, 1899. Niagara Falls, Ont.

"Have had a great many offers on seed, but prefer your goods."
Very truly yours,
CRONEIS BROS., Bucyrus, Ohio.

"It gives me great pleasure to say the garden seeds purchased of you last year were all right. The Onion Seed was exceptionally good, never had Onion Seed do better. Should like a catalogue of your seeds, etc."

Respectfully,
M. J. PERKINS,
Supt. Parental School, Boston.

BRECK'S BEATS-ALL BEET.

This Beet is without exception the very best variety known to us, and has found favor with both market and private growers. It is extra early, of good size, fine form, very smooth, deep blood-red flesh and excellent flavor. The tops are very small, thus allowing it to be grown in rows close together. We recommend it with the fullest confidence for early and main crop alike. Pkt., 5 cts.; oz., 10 cts.; lb., 75 cts.

GIANT PERPETUAL SPINACH BEET.

This new sort of the Swiss Chard type is likely to supercede all others. The beautiful curled and large foliage of this beet, of which our illustration gives but a slight idea, affords a double usefulness for the table, in that, the large ribs may be cooked and served like asparagus; the leaves as a delicious spinach, far excelling all the old sorts. Pkt., 20 cts.; 3 pkts. for 50 cts.

Spinach or Swiss Chard Beet.

See Special Offers on third page of cover.

KEPPLER'S LONG ISLAND CELERY.

We introduced this variety last spring, believing it to be a very desirable sort for winter use. Time has confirmed our opinion. We now claim that it is the best keeper in existence and unsurpassed in its fine flavor and tender stringless quality. The originator's description is:—"The favorite green table sort, best keeper in existence. This variety is thoroughly established by careful selection. It partakes of the best qualities of any variety. It is a "sport" from the "Schuhmacher Celery," and is of a fine nutty flavor, being entirely free from any bitter taste. It grows about one and one-half feet high; the stalks are very broad, thick and crisp; the width and thickness of these are distinctive features of this variety. It bleaches with but slight earthing up, and very quickly—in five or six days. It is a splendid keeper. The Seed we offer was grown by one of the best market gardeners on Long Island, N.Y." Pkt., 20 cts.; oz., \$1.00; ¼ lb., \$3.50.

PARIS GOLDEN SELF-BLANCHING CELERY.

There has been much disappointment met with by growers of this popular market sort. We have on hand a stock of about fifty pounds that was grown season of 1898 by the originators in France. By test just made it shows a vitality of 94 per cent. We sold a considerable quantity of the same lot season of 1899 and it gave such general satisfaction that many of our friends have already given us their orders for a supply for this year's sowing. We quote from a letter received October 3, 1899, from Mr. H. R. Kinney, Market Gardener, Worcester. "January 20th, you sent me some Paris Golden Celery seed that has proved very satisfactory, and I should like some out of the same lot for next season. If you chance to have any left please send me ½ lb." Pkt. 10 cts.; oz., 40 cts.; lb., \$4.00

BOSTON MARKET CELERY.

We have a small lot of this much-prized variety that was *grown in Arlington*, and is, we believe, the *genuine Boston Market quality and type*. It is crop of 1898, but of good vitality. The supply is very limited, so we advise early ordering by those who appreciate the "real thing." Pkt., 10 cts.; oz. 40 cts.; ¼ lb. \$1.50.

MAMMOTH WHITE CORY SWEET CORN.

This is not the White Cob Cory, but a larger, earlier, more productive and sweeter sort. Without doubt it is the largest and best extra early

sweet corn yet offered. The ears are 12 rowed, finely formed, with no opening between the rows at the base. The stalks, although no taller than the White Cory usually furnish two or more good-sized ears of fine shape which are fit for the table before those of any other sort. Market gardeners will find this a very saleable variety. Pkt., 10 cts.; qt., 25 cts.; bu., \$4.00.

EARLY EVERGREEN SWEET CORN.

We quote from the originator: "We have tested many samples of Corn which were claimed to be earlier than Stowell's Evergreen, and just as good, but we have never found any of them valuable. For the past six years we have been developing this variety, which we offer with the statement, backed by careful tests made both in the trial grounds and in the field, that it will furnish ears fit for use much earlier than Stowell's Evergreen. The ears are like the Evergreen, very large, with about eighteen more or less irregular rows and a very long grain which is of the very best quality. It remains in condition for use longer than other sorts, exceeding the Stowell's in this respect. The plant and ear would be pronounced by observers to be a fine stock of the old variety though fit for use one or two weeks earlier. Pkt., 10 cts.; qt., 25 cts.; bu. \$3.50.

ROCKY FORD, OR COLORADO MUSK MELON.

This is the very fine green-fleshed variety that has been offered in Boston and other Eastern markets for the past few seasons under the name of Colorado cantaloupe. It is of the Netted Gem type, oval in shape, averaging from four to five inches in length, of a delicate flavor, very smooth and fine grained flesh, a light green color throughout when ripe, and is the most attractive and popular melon now on the market. While the extra quality of this melon is due to a large extent to the locality in which it is grown, nevertheless it is a very desirable sort, and will please all who plant it. Pkt., 5 cts.; oz., 10 cts.; lb., \$1.00.

See Special Offers on third page of cover.

PAUL ROSE, OR PETOSKY MUSK MELON.

This is one of the very finest melons yet introduced. Of medium size, elliptical form, netted, salmon fleshed, and so thick meated as to be almost solid, quality unsurpassed. It is a first class shipper, and where known commands higher prices than other sorts. Pkts., 10 cts.; oz., 20 cts.; lb., \$1.50.

Breck's New Life Pea.

PEAS.

Our general list on pages 33 and 34 contains nearly all the desirable sorts, but the following recent introductions are well worth a place in the garden.

Duke of York. This pea belongs to the Telegraph and Duke of Albany class, but it is a week or ten days earlier and of dwarfer habit than either of these. The large, handsome pods are well filled with peas of superior quality and flavor. Height 2½ feet. Pkt., 10 cts.; qt., 35 cts.; pk., \$1.75.

Duke of Albany. Resembling Telephone, but far more desirable, being of dwarfer growth and produces larger pods in greater abundance. Like the Telephone and Stratagem, this pea shows a tendency to "sport" a little. Pkt., 10 cts.; qt., 35 cts.; pk., \$1.75.

Claudit. Now offered for the first time. It combines earliness, delicious flavor, tenderness, sweetness, size and productiveness. The vine is of vigorous growth and attains a height of 2½ feet. The pods are almost as large as those of Telephone. It is an even cropper and produces peas in great abundance, and what we claim for its chief value lies in its *earliness* of production, and its rich, sugary, marrow-like flavor. That a pea, as large and rich in flavor as the later sorts, can be had to produce peas as early as the Alaska, or first and best varieties, is wonderful. Pkt., 15 cts.; qt., 50 cts.; pk., \$3.50.

Breck's New Life. The *Rural New Yorker* says:—"The most productive pea, and all things considered the most valuable pea for home or for market of its season that we have ever tried. *That's saying a good deal, for we have tried nearly every pea, old and new, from year to year for twenty years.*" Pkt., 10 cts.; qt., 35 cts.; pk., \$2.00.

JOSEPH POTATO.

We have pleasure in again calling attention to this very desirable main crop potato. It is of Vermont origin and well worthy a trial. The *New England Farmer* says regarding this variety, which was included in the potato test it conducted season of 1897:—"We recommend every farmer to plant some 'Joseph,' it produced with us a larger crop of even sized, marketable potatoes than any other." It is a main crop sort, of large, oblong form, very smooth and fine flavored. Pk., 60 cts.; bush., \$1.75; bbl., \$4.00.

GREEN MOUNTAIN POTATO.

Another Vermont variety, already very popular in many sections. It is oval in shape, white skin, second early and a large yielder. In quality it ranks with the famous Snowflake. Some idea of its immense productiveness is shown by the fact that Dr. O. G. Cilley, Hamilton, Mass., raised 507 bushels on one-half acre last season. No special system of cultivation was carried out, and the entire food given was half a ton of Commercial Fertilizer. Pk., 60 cts.; bush., \$1.75; bbl., \$3.50.

RED, OR GOLDEN HUBBARD SQUASH.

This differs from the type only in color, size and earliness. The shell is a bright orange red, the flesh is of extra quality and somewhat deeper in color than the olive green variety. The size is a trifle smaller, but the habit is decidedly earlier. Pkt., 5 cts.; oz., 10 cts.; lb., 80 cts.

Green Mountain Potato.

See Special Offers on third page of cover.

ST. JOSEPH STRAWBERRY.

One of a New Race of Ever-bearing Strawberries.

The plants we offer are the true variety, having been propagated by ourselves from stock plants imported from the originator in France.

This is not only the earliest sort offered, but is possessed of the peculiar characteristic of flowering and fruiting freely throughout the summer and autumn. The fruit is of medium size, glossy red color, very firm, juicy, fragrant and of a delicious sweet flavor, like the small Alpine strawberries. The plants are hardy and vigorous. For winter strawberries under glass this variety is unexcelled. Price: each, 15 cts.; doz., \$1.00; 100, \$6.00.

"You should advertise your Breck's Boston Market Ensilage Corn, which I believe to be the best silo corn ever raised. I shall exhibit some at the fair if the weather is favorable, which I raised from your seed. I shall be only too glad to recommend it to any one."

Yours very truly,
GEORGE D. GOULD,
Greenfield, N. H.

June 27, 1899.

"I have got a good crop of Onions from your seed."

W. J. WELLS, So. Deerfield, Mass.

"I desire to commend you on the liberal manner and broad lines in which you do your business."

Respectfully,
H. G. MORGAN,
Manchester, Mass.

April 25, 1899.

SUTTON'S BEST-OF-ALL TOMATO.

We especially recommend this variety for growing under glass. It sets freely and bears abundantly. It is of medium size, good form, deep scarlet color, very solid, meaty and freer from seeds than any other variety known to us. Pkt., 15 cts., 2 for 25 cts.

SPECIAL CROPS FOR FORAGE AND GREEN MANURING.

Until recently the farmers and gardeners of New England have confined themselves to a very few varieties for these purposes. Experiments, however, have shown that a number of the *Leguminosae*, hitherto grown exclusively in the southern states, are adapted to our needs, and as these are not only richer food, but larger croppers, we have pleasure in calling special attention to a few of them.

BEANS, Breck's Soya. The most suitable variety for cultivation in New England, valuable either as a fodder crop, for the silo or for turning under. The dry beans when ground make an excellent meal for feeding to milch cows. When roasted and ground they form an excellent substitute for coffee. Quart, 20 cts.; peck, \$1.00; bushel, \$3.50.

—**Medium Green Soya.** Especially suitable for New England. Quart, 25 cts.; peck, \$1.25; bushel, \$4.00.

—**Velvet Bean (*Dolichos Multiflorus*).** Used by the farmers of Florida and other southern states as a forage plant and also as a fertilizer plant for turning

under. Stock readily eat the vines and leaves, and the beans when ground, with or without the pod, are used instead of oats or corn, and sometimes mixed with them. It is planted in rows 4 feet apart and 1 foot in the row, 2 or 3 beans in a place, as soon as danger from frost is passed. We do not believe the beans will ripen in ordinary seasons in Massachusetts, but the crop for forage or turning under will prove valuable. Per qt., 25 cts.; bush., \$3.50.

BEGGAR WEED (*Desmodium Molle*). Recommended as a forage plant for thin, sandy lands. Sow about first of June in drills three feet apart, about five pounds per acre. Per lb., 40 cts.; 5 lbs., \$1.75.

COW PEAS (*Vigna Catjary*). Very valuable fodder and green crops to plow under. Plant one bushel to the acre. See pages 41 and 42 for list of best sorts and prices.

RAPE, Dwarf Essex. Valuable for sheep pasture or for plowing under. If sown in May it will be ready for pasture in July. It may be sown as late as the end of July, and under reasonable conditions will produce a large amount of pasture or fodder. Broadcast, 10 pounds to the acre. Per lb., 15 cts.; 100 lbs., \$10.00.

BROMUS INERMIS (*Awnless Broom grass*). A valuable forage plant for light, dry soils. Suitable alike for feeding in the green state, for pasture or for hay. Sow 40 lbs. per acre. Per lb., 25 cts.; 100 lbs., \$20.00.

See Special Offers on third page of cover.

THREE BEST MILLETS.

MILLET, Japanese Barnyard Grass (*Panicum Crus Galli*). Distinct from other varieties, enormous cropper, grows six to eight feet high, excellent either green or cured as hay. It prefers a moderately moist soil and may be sown in an average season from the middle of May until the first of July. Broadcast, at the rate of 25 lbs. per acre, or in drills eighteen inches apart, 15 lbs. to the acre. Price, per lb., 12 cts.; 25 lbs. for \$2.50.

—**Breck's Japanese** (*Panicum Miliaceum var. Japonica*). In growth and appearance somewhat like the best Southern grown Golden Millet, but of superior quality and immensely more productive. Everything considered, we believe it is the best Millet yet introduced. Pk. 50 cts.; bush., \$1.50.

—**True Southern Grown Golden.** This millet withstands drought better than all other varieties, (except our own Japanese millet) and under ordinary conditions always produces large crops of very fine quality. The seed we offer is genuine Tennessee grown, is perfectly matured and will produce twice as large a crop, of much better quality than the Golden or German millet of the Western States. Per bush., \$1.50. For complete list of Forage Crops and description of Grasses see pages 40 to 50. Special offer No. 3 only applies to Forage Crop seeds.

Bees and Bee-Keepers' Supplies.

Having many calls from Market Gardeners, owners of Greenhouses, and Bee-keepers, for articles in the Bee Supply line, we have made arrangements with a reliable apiarist to furnish full Swarms of Italian Bees, on Movable frames, in Brood chamber, all ready to be hived. By this method they can be examined at any time. Price upon application. We also have in stock Bee Hives, Section Boxes, Smokers. Brood and Section Foundation, Bee Veils, Rubber Gloves, and many other articles necessary to the successful Bee-keeper.

THE DOVETAILED (OR LOCK-CORNER) HIVE.

The particular feature of the hive, and hence its suggestive name, is the dove-tailed—or, more properly speaking, the lock corner. Unlike the old-fashioned lap, miter, or halving plan, it will not gap or pull loose, but will successfully resist all climates, and even a California sun. This Hive has been very popular since it was introduced, and is fitted with Danzentaker bottom board and cover. As we ship, it is fitted complete with starters in Brood Chamber and Section Boxes. We have in stock but one size, the eight frame. All Hives set up ready for use. Net price each, \$3.00.

Dovetailed (or Lock-Corner) Hive.

SECTION HONEY-BOXES.

Section Boxes, each, 1ct.; per 100, 75 cts.; per 250, \$1.25; per 500, \$2.00. Our No. 1 sections are made of the choicest white basswood lumber, and are all perfect in finish, and free from defects. They are not all snow white, but vary from that to a light cream color. Choice honey shows off to best advantage in a section not too white, as it is the honey rather than the wood that the consumer looks at.

Section Honey-Boxes.

BINGHAM SMOKER.

This is strong, well made, does not clog up, and burns any fuel. It has recently been improved by the addition of a curved snout to prevent fire dropping, and a safety attachment to prevent burning the fingers in removing the hot cone for replenishing. They have wide shields; have wire handle to cone, and inverted bellows. We carry but one of the many kinds and sizes manufactured, as our experience has shown it to be the most desirable. Large, 2 1/2 in., each 70 cts., by mail, 90 cts.

Bingham Smoker.

Bee Supplies not included in special offers on third page of cover. We shall be pleased to quote prices on Bee Supplies not listed above. See Special Offers on third page of cover.

JOSEPH BRECK & SONS' PUBLICATIONS.
(CORPORATION)

We publish the following, and gladly mail any of them free on application.

Annual Catalogue and Gardener's Guide, published in January.
Holland Bulbs and Plants, published in September.
Market Gardener's Catalogue, published in February.
The Lawn, The Garden. (Sixth Edition.)

New Method Sweet Pea Culture.
Success with House Plants.
Cattle Owners' Daily Reminder.
Points for Poultry Raisers. *A vade mecum* for all interested in poultry. Seventh edition, revised and enlarged.

The Most Complete and Best Illustrated Catalogue of
Agricultural Hardware, Implements, Machines and Woodenware

In the United States or the world is published by us. It contains about three hundred and eighty-four large pages (8¼ x 11¼), nearly fifteen hundred illustrations, and is, in fact, the result of our experience covering a period of over 75 years.

The following brief synopsis will serve to show its value as an "Encyclopedia of Everything for the Farm, Garden, Lawn and Household."

CONTENTS.

Improved Farm Machinery, Spraying Appliances, Dairy Supplies, Hoes, Forks, Rakes, Etc., Barn and Stable Supplies, Lawn Supplies, Farm, Garden and Greenhouse Requisites, Haying Tools of Every Description. Household Goods, Ensilage Machinery, Shovels, Spades and Scoops, Contractors' Supplies, Saws, Axes, Hammers, Hatchets, Cider Machinery, Handles of all kinds, Chains for all purposes, Root Cutters, Poultry Supplies, Incubators and Brooders, W. T. Wood & Co.'s Celebrated Ice Tools, Improved Maple Sugar Supplies, Self-Steering Sleds, Woodenware, a complete line, Etc., Etc., Etc.

Will be sent free, on request, to all who send us an order from this book, and to others on receipt of 15 cents to cover transportation.

THE COMING CENSUS OF AGRICULTURE.

We have pleasure in publishing, at the request of the Director of the Census, the following notice regarding the taking of the U. S. Census of Agriculture, in June, 1900.

Realizing the importance of the subject, we respectfully suggest that Farmers and Gardeners prepare the necessary information as early as practical.

JOSEPH BRECK & SONS (CORPORATION).

<p>Census of Farms, Farmers, Farm Products and Animals.</p>	<ol style="list-style-type: none"> 1. The U. S. Census of Agriculture will be taken during June, 1900. 2. A separate blank will be devoted to each farm. 3. Tax assessors and collectors cannot serve as enumerators, or see the returns. 4. Census officials only will see the returns. 5. No names will be published or given out. 6. The acreage of crops, and quantities and values of butter, cheese, and all other products made on the farm in 1899 will be written on the blanks. 7. Live stock, poultry, and hives of bees will be counted and value taken as of June 1, 1900. 8. Farm acreage, buildings, implements and machinery will be taken as of June 1, 1900. 9. Tenants will be asked to give information the same as owners. 10. Write down farm items now, and thus be perfectly ready for the arrival of the enumerator next June. 11. It is very important to have the statistics of farm products in the next Census full and reliable. The active co-operation of all farmers is essential to make them so. 12. The women and children of the farm households can render material assistance in this direction. 	<p>Everything Confidential.</p>

AND THROUGH ITS

WOMEN'S MERCANTILE DEPARTMENT,

**Supplies Approved Women Bookkeepers, Cashiers,
Stenographers, Saleswomen, Young Women for
Office Work, Matrons, Nurses, Etc.**

When this Bureau was established in 1890 our purpose was to secure to employers a better class of help than they had been obtaining.

How well we have succeeded is shown by the rapid growth of this Department of our business, and the many voluntary statements received concerning its convenience and the high grade of employees furnished.

We mail free on application circulars descriptive of our Bureau, and blank forms whereon employers can state particulars necessary to guide us in selecting suitable employees.

Our Bureau of Registry and Information has certainly improved and elevated the service and we believe it will continue to do so, besides supplying a long-felt want.

Through our large clientage we can serve both employer and employee more promptly and satisfactorily than can any house not having our resources.

Bear in mind that no person is sent out from this office, whose previous record for character and habits has not been carefully investigated and approved.

We take this opportunity to thank our customers for the business given us and to assure them that our bureau was never so well prepared to serve them as now; those who have not as yet patronized it are invited to do so, and give us an opportunity to practically demonstrate the benefits to be derived from its use.

Yours respectfully,

**Entrance at the "Big Clock,"
47 to 54 North Market St.**

VEGETABLES

GENERAL LIST

.. OF ..

STANDARD VARIETIES.

All grown from Pedigree Stocks. Vitality Guaranteed.

See our Guaranty, page 6.

Goods delivered in your town or city at prices quoted.

Special Offers on third page of Cover.

OURS is the largest business of the kind in New England, and, we believe, the third oldest as well as largest in the United States. We have been growers and dealers for seventy-five years. There are no better strains of Flower, Vegetable, or Field seeds obtainable than those offered by us; our long and varied experience and large connections, at home and abroad, together with the great volume of business, cause the leading producers the world over to prefer us rather than smaller dealers for the general distribution of their specialties. Our Golden Roll of Honor shows we are both able and willing to satisfactorily serve the gardening public, else we would not be privileged to have on our books the names of persons, as customers, for such periods of years. Their recommendations bring us new patrons. If our methods of doing business are unknown to you, some of your neighbors can tell you of them, and also of the quality of our seeds. Inquire, and if results warrant it, send us a trial order. We supply only tested seeds of varieties that experience has shown to be the best.

NOTE. - Prices may vary as the season advances. Ours will always be as low as the lowest for goods of equal quality.

ARTICHOKE.

German, *Artischoke*.—French, *Artichaut*.—Spanish, *Alcachofa*.

CULTURE.—Sow seed in April in drills 1 in. deep. Following spring transplant the young plants in rows 2 ft. plant to plant, 3 ft. between the rows. Mulch during dry weather. They prefer rich deep loam, and should be well manured every spring. One ounce of seed sows 30 ft. of drill.

Large Green Globe, grown for the unripe flower-heads, which are produced in abundance from May to August. Packet, 5 cents; ounce, 25 cents; lb., \$3.00.

Jerusalem, a species of Sunflower (*Helianthus Tuberosus*). A Tuber that thrives well upon light dry soil and is cultivated for feeding sheep and swine. It is also used for pickles. The tops when cut and cured, make an excellent dry fodder. Quart, 20 cents; peck, \$1.00 net.

ASPARAGUS.

German, *Sparget*.—French, *Asperge*.—Spanish, *Esbarragos*.

(For price on Asparagus Roots, see Vegetable Plants.)

An Asparagus bed may be made from one or two year old roots, planted in October, or during April and May. The bed should be made very rich with well-rotted manure, and thoroughly worked over to a depth of nearly 2 ft. Plant the roots in rows 4 ft. apart, leaving about 12 in. between the plants in the row. Lay the roots flat in trenches, spreading them well, and using care to have all the crowns placed in the same direction. Cover lightly at first, gradually filling the trenches as the plants grow.

Seed may be sown in April in drills 1 in. deep and 1 ft. apart. One ounce of seed sows 60 feet of drill.

	Pkt.	Ounce.	Lb.
Conover's Colossal, large and excellent	.05	.10	.60
Hub Asparagus, the best	.10	.20	\$1.50
Moore's Giant	.05	.10	.75
Palmetto	.05	.20	1.00

(For Asparagus Plants, see under "Vegetable Plants.")

See Special Offers on third page of cover.

BEANS — ENGLISH.

Plant as early in spring as the ground can be worked. The rows should be three feet apart; set the seed in the rows six inches deep, four inches apart. As the pods get formed, top the plants, thereby preventing too much running to vine.
Broad Windsor, the best variety for general use. Packet, 10 cents; quart, 30 cents; peck, \$1.00 net.

BEANS — DWARF OR BUSH.

German, *Bohne*.— French, *Haricot*.— Spanish, *Frijoleno*.

To afford a regular succession of crops throughout the season, plant every two weeks, from the middle of spring to the end of summer; but not until the soil becomes warm, as they are very sensitive to cold. Plant in rows, eighteen inches apart, two inches deep; cultivate frequently, but only when dry, as the scattering of earth on the foliage or pods, when moist, will cause them to become damaged with rust. One quart will plant 100-foot drill.

GREEN-PODDED VARIETIES.

	Pkt.	Qt.	Pk.
Breck's Dwarf Horticultural, unexcelled	.10	.30	\$2.00
Burlingame Medium, a white field bean, in size between Marrow and Pea	.10	.20	1.50

White Wax, very tender and delicious	.10	.35	2.25
Yosemite Wax, the pods are nearly all solid pulp	.15	.40	2.50

See Special Offers on third page of cover.

BEANS—POLE OR RUNNING.

German, *Stangen Bohne*.—French, *Haricots a Rames*.—Spanish, *Jidas*.

It is desirable to make the planting of Pole Beans at least a week later than the first planting of the bush sorts, as they are more tender. Plant in hills 3 to four feet apart, putting four or five beans in a hill, and leaving space in the centre for the pole. A liberal quantity of well-composted manure in each hill is desirable.

GREEN-PODDED VARIETIES.

	Pkt.	Qt.	Pk.
Brockton , vigorous, productive, and fine quality10	.40	\$2.75
Carmine Podded Horticultural , most desirable Horticultural bean for color, quality and productiveness10	.40	2.75
Concord , or Parti-colored, excellent quality and very prolific10	.35	2.25
Dreer's Improved Lima , early, large and fine quality10	.30	2.00
Horticultural Lima , the best pole lima for New England10	.30	2.00
Horticultural , the most popular pole bean,10	.30	2.00
Kentucky Wonder , excellent green podded snap bean, very productive10	.35	2.25
Large White Lima . This is considered the best quality of all pole beans10	.30	2.00
Lazy Wife's , entirely stringless, green pods, fine flavor10	.35	2.50
Red Cranberry , one of the earliest, quality unsurpassed10	.35	2.25
Scarlet Runner , very ornamental flowers, early. An excellent string bean10	.35	2.00
Small Lima , or Sieva, the earliest lima, small beans10	.30	2.00
White Case Knife , early, productive, excellent flavor. Good green or dry10	.35	2.25
White Runners , large white flowers. Good as a string bean10	.30	2.00

WAX-PODDED VARIETIES.

	Pkt.	Qt.	Pk.
Early Golden Cluster , extra early, productive of good quality10	.40	\$2.50

Giant Red , an old-fashioned favorite yellow-podded sort10	.40	2.50
Indian Chief , or Black Wax , the most popular wax pole bean10	.40	2.50
Mont d'Or , or Golden Butter , earliest of the wax pole varieties. Excellent10	.40	2.50

BEET.

German, *Runkel Rube*.—French, *Betterave*.—Spanish, *Beteraga*.

Sow from April to middle of June, in deep rich sandy loam, one inch deep, in drills about one foot apart. Thin the young plants to the distance of six or eight inches, and fill up any vacant places with those taken out. The turnip rooted are the earliest, and are of fine quality. When young, the leaves make excellent greens. One ounce will sow fifty feet of drill.

Dewing's Beet.

	Pkt.	Oz.	Lb.
Breck's Beats All , superior in all respects to others as an early or main crop variety05	.10	.75
Columbia , round and smooth, deep red flesh05	.10	.60
Crosby's Egyptian , as early as the original type, but thicker, smoother, and of better quality05	.10	1.00

Edmand's Beet

	Pkt.	Oz.	Lb.
Dewing's Early Blood , a standard variety of excellent quality05	.10	.50
Early Arlington , early deep, round form, blood red color05	.10	.60
Early Bassano , the earliest of all; flesh almost white05	.10	.60
Early Bastian , a quick, large-growing sort, of good color05	.10	.60
Eclipse , very early, dark-red color, small top, smooth roots05	.10	.60
Edmand's Early Turnip , the best in shape, color, size, and quality05	.10	.75
Egyptian , an early, good color, smooth turnip beet05	.10	.60
Long Smooth Blood Red , an excellent late variety05	.10	.60
Swiss Chard or Sea-Kale Beet . This variety is cultivated solely for its leaves. The midrib is stewed and served as Asparagus, the other portion of the leaves being used as spinach05	.10	.75
Beet , for greens05	.10	.40

See Special Offers on third page of cover.

MANGEL-WURZELS and SUGAR BEETS.

Sow in April or May, six to eight pounds per acre. The value of these for stock-feeding cannot be over-estimated; for sheep, dairy-stock, and fattening of cattle, experience has proved the Mangel-Wurzel to be at once healthful, nutritious, and economical. One ounce will sow 50 feet drill, 6 pounds per acre.

Long Yellow Mangel

Breck's Sugar Beet

	Pkt.	Oz.	Lb.
Breck's Mammoth Long Red , a selection of the long red variety. It is smooth skinned, fine grained, and a heavier cropper. We consider it superior to all others05	.10	.40
Gatepost , the characteristics of this desirable variety are small top, tap root, heavy cropper, color pale orange05	.10	.40
Golden Tankard , a half-long variety of a bright yellow color05	.10	.40
Long Yellow , differs from long red only in color05	.10	.40
Kinver Yellow Globe , large globular formed roots. Adapted for growing in shallow soils05	.10	.40
Norbiton Giant , Long Red, a valuable variety05	.10	.40
Red Globe , similar to Yellow Globe, except in color05	.10	.40
Breck's Imperial Sugar , an improved American-grown French Sugar Beet05	.10	.40
Klein-Wanzleben Sugar Beet , unsurpassed for the production of sugar or for cattle feeding05	.10	.50
Lane's Improved Sugar Beet , a well-known variety, valuable for feeding to cattle05	.10	.40

BORECOLE, or KALE.

German, *Blatterkohl*. — French, *Chou Vert*. — Spanish, *Breton*.

Sow early in the spring in prepared beds, covering the seeds thinly and evenly; transplant in June, and treat in the same manner as for cabbage. They are extremely hardy, and will endure quite a low temperature. One ounce will sow 150 feet drill.

Dwarf Green Curled Scotch, leaves of a bright green and very tender and closely curled. This variety should be sown in the spring. The quality is improved if the plants are touched by frost before being used. Pkt., .05; oz., .10; lb., 1.00.

Siberian or German Greens, sow in fall for spring use. Pkt., .05; oz., .10; lb., 1.00.

Tall Green Curled Scotch, similar to the dwarf but of more vigorous growth. Pkt., .05; oz., .10; lb., 1.00.

Kale, Green Curled, Scotch

BROCCOLI.

German, *Spargelkohl*. — French, *Chou Brocoli*. — Spanish, *Broculi*.

This vegetable somewhat resembles the Cauliflower, but is hardier. In parts of the country where the thermometer does not fall below 20° to 25° Broccoli can be had from November until March. It succeeds best in a moist and rather cool atmosphere. The seed should be sown in May in a seed-pan and the plants afterwards set out in rows two and a half feet apart and eighteen inches between the plants.

One ounce of seed produces about 1,200 plants.

	Pkt.	Oz.	Lb.
Eary Purple Cape , similar to White Cape, but hardier10	.30	\$3.00
Walcheren , a valuable late variety, with large, fine heads10	.40	4.00
White Cape , heads medium size, close, compact, and of a creamy color10	.30	4.00

See Special Offers on third page of cover.

BRUSSELS SPROUTS.

German, *Sprossenkohl*.—French, *Chou de Bruxelles*.—Spanish, *Berza de Brusela*.

Species of the Cabbage family. It produces along the whole length of the stem small sprouts resembling miniature cabbages. These heads are a great delicacy boiled in the same way as Cauliflower. Seed should be sown about the middle of May in a seed bed, and the plants afterwards set out in rows two feet or more apart and cultivated like cabbage. It is ready for use late in autumn after the early frost. One ounce of seed produces about 1,200 plants.

Dwarf Improved French, of sturdy compact growth. Packet, 5 cts.; ounce, 20 cts; pound, \$2.00.
Improved Paris Market, a most desirable strain. Packet, 5 cts.; ounce, 20 cents; pound, \$2.00

CABBAGE.

German, *Kopfkohl*. — French, *Chou Pomme*. — Spanish, *Berza*.
 (For price on Cabbage Plants, see Vegetable Plants).

All the cabbage tribe requires is the soil to be rich, deep, well-drained, and abundantly manured. For the early kinds, plant thirty inches between the rows and sixteen inches between the plants. For late kinds, three feet between the rows and two feet between the plants. For very early use, sow in January or February, in hot-beds. Set out when the plants are strong enough into other hot-beds, or set in cold-frames in March. Transplant when danger from frost is past to the open ground. For a succession, sow in the open ground last of March or early in April. Late plants are sometimes subject to attacks of the cabbage fly, which destroys them as fast as they appear above ground. To prevent this destruction, sprinkle the plants with wood ashes, air-slacked lime, plaster, slug-shot, or tobacco dust, when the plants are wet with dew. One ounce of seed produces 3,000 plants.

Breck's Premium Drumhead Cabbage.

Breck's Premium Drumhead, recommended for its immense size and sure heading qualities

Breck's Premium Flat Dutch . This we consider superior to any late cabbage	.05	.25	2.50
Drumhead Savoy , the largest of this class	.05	.25	2.50
Early Etampes , one of the earliest	.05	.25	2.50
Early Express , of the Etampes type, but earlier	.05	.25	2.50
Early Winningstadt , a conical-shaped variety	.05	.25	2.50
Early York , a well-known, fine-flavored early variety	.05	.20	2.00
English Curled Savoy , (for greens). Used only to sow early in spring for greens	.05	.15	1.00
Fottler's Improved Brunswick , a short-stemmed early Drum-head	.05	.25	2.50
Henderson's Early Summer , a little later than Wakefield; larger and more globular in shape	.05	.25	2.50
Henderson's Succession Cabbage . Valuable second and late crop variety	.05	.25	2.50
Hollander or Danish Ball Head , an unsurpassed winter variety, heads round, large, very hard, tender, and fine flavored	.05	.30	2.50
Marblehead Mammoth Drumhead , the largest variety of Drumhead. Heads often weigh fifty pounds	.05	.25	2.50
Ox-Heart , an early conical shaped variety	.05	.25	1.75

Red Dutch, or Pickling , an old but desirable sort for pickling	.05	.25	2.50
Warren-Stone-Mason , an improved strain of Stone Mason, nearly as early as Fottler's Brunswick, rounder in shape and extremely solid	.05	.30	3.00

American Drumhead Savoy Cabbage.

See Special Offers on third page of cover.

CARROT.

German, *Mohre*. — French, *Carotte*. — Spanish, *Zanahoria*.

Carrots are grown largely both for feeding to stock and culinary purposes; the long varieties used for the former, the "Horn" and medium sorts for the latter. The "Horn" sorts can be grown on thin soil and are mostly for early use. The others prefer deep, sandy loam that was well-manured the previous year for some other crop, such as potatoes or onions. Sow in April or May about one inch deep in drills fifteen inches apart for garden sorts. The rows in field cultivation should be two feet apart. Thin out the plants from three to eight inches apart, according to variety. One ounce of seed is sufficient for one hundred feet drill, four pounds to an acre.

Chantenay Carrot

Scarlet Horn Carrot

	Pkt.	Oz.	Lb.
Chantenay , a type of Danvers, half-long but earlier and smaller,05	.10	\$1.00
Danvers Half Long , the most desirable main crop variety; an excellent keeper05	.10	1.00
Early Scarlet Forcing , very early and valuable for forcing05	.15	1.00
Early Scarlet Horn , a medium-sized, half-long variety of fine color05	.10	1.00
Guerande or Oxheart , intermediate between half-long and Horn sorts05	.10	1.00
Large Yellow Belgian , a desirable variety for feeding to stock,05	.10	.50
Large White Belgian , the largest and most profitable for feeding to stock05	.10	.50
Long Orange Improved , a large, long-rooted variety, suitable for table or stock05	.10	.80

CARDOON.

German, *Kardon*. — French, *Cardon*. — Spanish, *Cardo Hortense*.

Cardoon is grown for the midrib of the leaf, which requires to be blanched in the same manner as celery. Sow early in spring, where the plants are to remain, in drills three feet apart and an inch and a half deep, and thin out the young plants to a foot apart in the drills.

	Pkt.	Oz.	Lb.
Large Spanish10	.30	\$3.00

Cardoon.

CAULIFLOWER.

German, *Blumenkohl*. — French, *Chou-flour*. — Spanish, *Coliflor*.

(For price on Cauliflower Plants, see Vegetable Plants.)

Cauliflower is the most delicate and delicious of the cabbage family. For the production of the Cauliflower a rich, deep loam is required, a low moist situation being preferable. A liberal supply of water when possible produces very marked results. Seed of the very early variety should be sown in a hot-bed in February or March. For later supply, sow seed in May, choosing a cool, moist place. When large enough, transplant, making the rows about 2½ feet apart, and 18 inches between the plants. Transplanting should be done in damp weather. One ounce of seed produces about 2,500 plants.

Danvers Half-Long Carrot

	Pkt.	Oz.	¼ lb.
Breck's White Bouquet . This we believe the earliest and most reliable Cauliflower for New England. Since its introduction it has become an especial favorite with the market gardeners25	3.50	\$12.00

Half Early Paris , a well-known variety10	.60	2.00
Lenormand's Short Stemmed , a large dwarf sort, desirable for main crop10	.60	2.00
Veitch's Autumn Giant , a desirable large, late variety10	.60	2.00

CHERVIL.

German, *Gartenkerbel*. — French, *Corveuil*. — Spanish, *Cerafolio de Cafe*.

Chervil, Curled, an aromatic sweet herb. The young leaves are used in soups and salads. Sow evenly, in May, in drills half inch deep, one foot apart. 5 cts. per pkt.; 20 cts. per oz.; \$2.00 per lb.

Chervil, Tuberous Rooted, sow in April after treatment same as for carrots. 10 cts. per pkt.; 30 cts. per oz.; \$3.00 per lb.

See Special Offers on third page of cover.

CELERY.

German, *Sellerie*, French, *Celeri*, Spanish, *Apio*.

(For price on Celery Plants, see Vegetable Plants.)

Sow seed the first or second week in April in hot-bed or cold-frame. As soon as the plants have attained a height of three inches, transplant in prepared border, setting them four inches apart. In order to secure "stocky" plants, cut off the tops once or twice before again transplanting into richly manured soil, in rows four feet apart, and from seven to nine inches plant to plant.

Keep down all the weeds, and as fall approaches draw earth up to the plants, keeping the stalks well together. When well blanched it is ready for use. For winter use it is usually placed in frames and covered with litter, or stored in pits or cold cellars. Some of the varieties, such as Golden Self-Blanching and White Plume, may be blanched by simply placing a board twelve to fifteen inches wide on edge on each side of the row, and to hold them in place tack bits of laths across the rows at the top. One ounce of seed produces about 3,000 plants.

Boston Market Celery.

Rose-Ribbed Paris Self-Blanching Celery

	Pkt.	Oz.	Lb ^r
Boston Market , the best and most popular sort in cultivation10	.30	\$3.50

Celery Seed for Flavoring05	.10	.50

CHICORY.

German, *Cichorie*. — French, *Chicoree*. — Spanish, *Achivoria de Cafe*.

It may be sown and treated in the same manner as carrots, used to mix with or as a substitute for coffee. The root is taken up, washed, cut in small pieces and carefully dried.

Large Rooted. 5 cts. per pkt.; 10 cts. per oz.; \$1.00 per lb.

COLLARDS OR COLEWORTZ.

A class of plants closely allied to the Cabbage family, used as greens and grown quite largely in sandy sections, particularly of the south. Transplanted when four inches high into rows three feet apart and one and a half feet apart in the rows. Thin out to three feet apart during the summer. 5 cts. per pkt.; 10 cts. per oz.; \$1.00 per lb.

CORN SALAD, or FETTICUS.

German, *Lammersalat*. — French, *Mache*. — Spanish, *Macka Valerianilla*.

Used as a salad. It is sown very early in spring, in rows one foot apart, and is fit for use in six or eight weeks. For early spring use sow in September, and winter in cold-frames, or cover with litter. One ounce will sow 100 feet of drill.

Large-Leaved. Per pkt., 5 cts.; ounce, 10 cts.; pound, \$1.00.

See Special Offers on third page of cover.

Chicory.

CORN. — Sweet.

German, *Mais*. — French, *Mais*. — Spanish, *Maiz*.

A rich, warm soil is best, especially for the earlier varieties, which ordinarily should not be planted before the middle of May. Successive plantings may be made until July. Plant in hills three or four feet apart each way, according to the height of the variety. One quart will plant about 200 hills.

Special Offer No. 3 only applies to Ensilage and Pop-Corn.

CRESS.

German, *Gartex und Brunnen Kresse*.—French, *Cresson*.—Spanish, *Mastuerzo*.

Sow early in the spring and at intervals throughout the season, for a succession, thickly in shallow drills, as it soon runs to seed. The Water Cress requires a stream of running water, ditch, or pond, in which it will grow without care, except at first keeping weeds from interfering with it. It is easily introduced by planting along the margins of ditches or streams, and increases rapidly by the spreading of the roots or from the seed.

White Spine Cucumber

The first planting should be made early in May on partly spent hot-beds; inverted sods form an excellent medium for both planting on and for carrying the young plants to their permanent location, or small pots can be used. Such plantings are usually ready for transplanting to the open ground in from three to four weeks, and are seldom troubled with the striped bug. Transplanting, when practical, should be done in the evening, into hills four feet apart each way. Thin out to about four plants to a hill when established. The seed may be planted in hills late in May, thus giving a succession. For pickles, plant during the last two weeks of June.

Plaster Dust, or an Infusion of Hellebore powder in water, will destroy the striped bug. One ounce will plant about fifty hills.

	Pkt.	Oz.	Lb.
Boston Pickling . Produces an abundant crop of short, dark-green fruit05	.10	\$1.00

See Special Offers on third page of cover.

MELON (Musk).

German, *Melone*. — French, *Melon*. — Spanish, *Melon*.

Melons prefer a warm, light, sandy loam; being tender, plantings should not be made before the middle of May. Plant about six seeds, half-inch deep, in hills five to six feet apart each way. The hills should have at least a peck of well-rotted compost thoroughly stirred into each of them before the seed is planted. When well-grown thin out to three plants in a hill. If an earlier crop than this method of cultivation allows is desired, the directions given for growing early cucumbers may be followed.

One ounce will plant about sixty hills. Two pounds will plant an acre.

Breck's Emerald Gem Musk Melon

MUSHROOM.

German, *Champignon*. — French, *Champignon*. — Spanish, *Hongo*.
(Special offer No. 3 only applies to Mushroom Spawn.)

Mushrooms may be grown in cellars, out-houses, sheds, or under greenhouse benches. The amateur, however, is more likely to meet with success in cellars than elsewhere, as the cool moisture of the atmosphere and the uniform temperature are more congenial to the growth of this vegetable than in the structures above ground. The temperature should range between fifty-five and sixty degrees. Use a mixture of equal weights, fresh horse droppings and loam that has no manure in it. Before placing this mixture in the bed turn it over every day for a week so that it does not heat violently, and be careful to keep it under cover so that it cannot get wet. Then begin to make the bed by spreading thin layers of the mixture, and pound each firm, until you have in all a depth of eight to ten inches; leave

See special offers on third page of cover.

MUSHROOM. — *Continued.*

it thus for a few days until the heat runs up to a hundred degrees or over and then declines to ninety degrees; when this point is reached it is ready for spawning, which is done by making holes, three or four inches deep and twelve inches apart each way; into each hole put a piece of spawn about as large as a hen's egg and fill in the hole with compost. At the end of ten or twelve days the spawn will have run through the whole bed. There should then be spread over the entire surface about two inches of fresh loam. Over all place a few inches of straw. All that remains to be done is to keep the temperature as near to sixty degrees as possible; it should never be allowed to fall below forty degrees, or the crops will be both reduced and delayed. Ordinarily, if the conditions are right, mushrooms will appear in about six weeks and continue to come for about a month. In the event of the surface of the bed becoming very dry sprinkle it freely with water at a temperature of about a hundred degrees. After the crop has been taken off the bed, it should receive a dressing of fresh loam to a depth of half an inch, thoroughly firmed, over the entire surface, and when dry a sprinkling with water as above recommended, and a second crop will soon be had. A brick of English spawn is sufficient for nine square feet of bed.

Mushroom Spawn. Original English Milltrack, superior to all others, lb., 12 cts.; 50 lbs., \$5.00; 100 lbs., \$9.00.
Mushroom Spawn. Genuine French Virgin, lb., 50 cts.; 100 lbs., \$45.00.

Southport White Globe

Red Globe

ONION.

German, *Zweibel*. — French, *Oignon*. — Spanish, *Cebolla*.

The Onion thrives best in rather strong, deep, loamy soil, which should be well enriched with old well-rotted manure or compost, or what is better, deeply trench, add manure the autumn previous to sowing, and lay upon ridges during the winter to soften. Sow the seed thinly in drills about one-quarter inch deep and one foot apart. To ensure quick and safe germination after sowing the seed, the drills should be trod along evenly with the foot, and then raked even, so that the hot, dry atmosphere may not dry up and destroy the sprouting seed. When three inches high thin to two inches apart. Hoe frequently to keep down weeds. In the seed rows where the hoe cannot be used, the soil should be stirred with the fingers, otherwise weeds will quickly grow up and choke the crop. One ounce of seed will sow one hundred feet drill; four pounds per acre.

The seed we offer, with the exception of the imported varieties, is Eastern grown, and calculated to give more satisfactory results than Western-grown seed.

	Pkt.	Oz.	Lb.

Hamburg or Turnip-Rooted. Roots used for flavoring soups05	.10	.75

See special offers on third page of cover.

PARSNIP.

German, *Pastinake*. — French, *Panais*. — Spanish, *Pastinaca*.

Sow thick in April, in rows twelve inches apart, and one inch deep, in a rich, deep soil, well manured the previous fall, or with fine manure early in March. When the plants are two or three inches high, thin out to five or six inches apart in the rows. Unlike carrots they are improved by frost, and it is usual to take up in the fall a sufficient quantity for winter use, leaving the rest in the ground until spring, to be dug up as required. One ounce for one hundred feet of drill; five pounds to an acre.

	Pkt.	Oz.	Lb.
Breck's Market Garden. For flavor, texture of flesh, form, smoothness and as a crop-per, this variety is without an equal05	.15	\$1.00
Hollow Crown. A well-known sort, fine quality05	.10	.60
Long 'mooth. The best for general use05	.10	.60
The Student. A fine-flavored variety05	.10	.60

PEAS.

German, *Erbse*. — French, *Pois*. — Spanish, *Chicaros*.

Peas come earliest to maturity in light, rich soils, but for a general crop a deep loam or moderately heavy soil is better. For early crops decomposed leaves or leaf mould should be used; if the soil is very poor stronger manure may be applied. The first sowing will be earlier if covered only one inch deep; those following should be covered two to six inches deep, the deep planting preventing mildew and prolonging the season. Fresh manure, and wet, mucky soil should be avoided, as they cause the vines to grow too rank and tall. All wrinkled Peas are superior to, more delicate in flavor, and remain longer in season than the smooth sorts, but should not be sown until the ground becomes warm, for, as in sugar-corn, the wrinkled appearance indicates the greater amount of saccharine matter. One quart will sow one hundred feet of drill.

EXTRA EARLY SORTS.

	Pt.	Qt.	Pk.	Bu.
Alaska. A smooth, blue, prolific, sweet extra early variety15	.30	\$1.50	\$5.00
Aloha. A fine-flavored early wrinkled variety15	.25	1.25	4.50
Bliss' American Wonder. Well known early wrinkled sort,20	.35	2.00	6.00
Breck's Excelsior. The best extra early for market and private garden15	.30	1.50	5.00
Carter's Premium Gem. A dwarf prolific, green, wrinkled, early variety15	.30	1.50	5.00
Gradus. The largest podded first early wrinkled pea. The pods are almost as large as those of Telephone, and are fit to pick about two days later than Alaska. Pkt., 25 cts.;35	.60		
Gregory's Surprise. The earliest wrinkled sort, productive and of good quality Pkt., 15 cts.;	.25	.40	3.00	
Improved Dan'O'Rourke. A standard extra early variety15	.25	1.25	4.50
McLean's Little Gem. A variety similar to Premium Gem15	.30	1.50	5.00
Nott's Excelsior. Extra early wrinkled sort, grows fifteen inches high, superior to American Wonder in quality and productiveness20	.35	2.00	7.00
P. & W. Maud S. A valuable extra early variety15	.25	1.25	4.50
Tom Thumb. Very early, excellent quality, grows only about nine inches high15	.30	1.50	5.00
William Hurst. In height and some other respects like Premium Gem, the pods, however, are produced in greater abundance and are larger and better-colored15	.30	1.50	5.00

SECOND EARLY SORTS.

Bliss's Abundance. Strong vines of medium height that bear an enormous number of well-filled pods15	.30	1.50	5.00
Bliss's Everbearing. A most desirable main crop variety for the private grower15	.30	1.50	5.00
Boston Wrinkled. Superior to any other second early sort15	.30	1.50	5.00
Horsford's Market Garden. Type and quality of Advancer, more productive15	.30	1.50	5.00
Juno. Remarkably large, long, straight, thick throughout, well filled pods. Peas are dark green and a fine flavor.15	.25	1.50	5.00
McLean's Advancer. A dwarf green wrinkled marrow of fine flavor15	.30	1.50	4.50

Gradus.

See Special Offers on third page of cover.

GENERAL CROP.

	Pt.	Qt.	Pk.	Bu.
Blackeye Marrow. An excellent old-fashioned sort10	.25	.75	\$2.50
Breck's New Life. All things considered, the most valuable pea of its season for home or for market20	.35	2.00	7.00
Carter's Telephone. A vigorous grower, extra large well filled pods15	.30	1.75	6.00
Champion of England. The standard late variety, sweet and productive15	.25	1.25	4.50
Dwarf Telephone. Like the old variety except in height20	.40	2.50	
Dwarf White Marrow. An old-fashioned yet popular variety10	.25	.75	2.50
Heroine. A green wrinkled variety, following Advancer15	.25	1.50	5.00
Paragon. Large, well filled pods, one of the latest15	.30	1.50	5.00
Pride of the Market. An enormously productive wrinkled marrow of good quality15	.30	1.75	6.00
Profusion. A productive, large-podded sort of good quality15	.30	2.00	6.00
Sharpe's Queen. Large, well filled pods, of extra quality, equal in all and superior in some respects to Stratagem15	.30	2.00	6.00
Stratagem. A sport that usually produces stalky vines covered with full pods of extra size15	.30	2.00	7.00
Shropshire Hero. After the style of Yorkshire Hero, but more desirable15	.25	1.50	5.00
Yorkshire Hero. A wrinkled marrow of extra fine quality15	.25	1.50	5.00

EDIBLE PODDED PEAS.

	Pt.	Qt.
Early Dwarf Wrinkled Sugar. A French variety, early and of good quality20	.40
Tall Gray Sugar. Can be used either shelled or cooked in the pods20	.40

Ruby King Pepper

Sweet Mountain Pepper

Large Bell Pepper

Procopp's Giant Pepper

PEPPER.

German, *Pfeffer*. — French, *Piment*. — Spanish, *Pimiento*.

Plant in hot-beds in March, and transplant into the open ground the latter part of May, in rows about twenty inches apart and eight inches apart in the row. Repeated hoeings promote their growth. One ounce of seed will produce about 2,000 plants.

	Pkt.	Oz.	Lb.
Cayenne, Long Red. The pods of this variety are from three to four inches in length, cone-shaped, and coral red when ripe05	.25	\$3.00
Golden Dawn. Shaped like the Bell; color, golden yellow05	.25	2.50
Large Bell, or Bull Nose. Fruit large; an early sweet variety05	.25	3.00
Procopp's Giant. Long and large, fine scarlet; flesh thick05	.25	3.00
Red Cherry. Fruit round, very productive, and ornamental05	.25	2.50
Red Chili. Used for pepper sauce, small, narrow pods, about five inches long; very thick, fine flavor05	.25	2.50
Ruby King. Pods about five inches long, very thick, fine flavor05	.25	2.50
Squash, or Tomato-Shaped. The kind most generally grown for pickling; an excellent sort05	.25	2.50
Sweet Mountain, or Mammoth. Similar in shape to the Large Bell, but of much larger size05	.25	2.50

PUMPKIN.

German, *Kurbis*. — French, *Courge*. — Spanish, *Calabaza*.

The Pumpkin is now little used except for agricultural purposes, the squashes being so much sweeter, drier and finer grained for the kitchen. The farmer, however, finds the Pumpkin a serviceable addition to his feed. The most common and least troublesome method of cultivation is to plant them with corn, two or three seeds in each hill.

	Pkt.	Oz.	Lb.
Connecticut Field. Very productive; largely grown for feeding stock. Per bushel, \$4.0005	.10	\$0.25
Large Cheese. Very productive; grown for both stock and table05	.10	.60
Mammoth. Grows to an immense size, often weighing over one hundred pounds10	.15	1.00
Mammoth Red Etampes. One of the largest; skin red, flesh very thick, firm and of fine flavor05	.15	1.00
Nantucket or Negro. Dark warted shell, fine flavor, makes excellent pies05	.10	.60
Sweet Sugar. Round, not large, but very sweet, and an excellent table variety05	.10	.60

See Special Offers on third page of cover.

Breck's Chance Potatoes

New Queen Potatoes

Early Norther Potatoes

POTATOES.

(Prices subject to market changes.)

Special prices on large quantities quoted on application. Special Offers do not apply on Potatoes.

Of the many varieties of Potatoes that claim public favor, we have selected only a few, and these the best in cultivation. We aim to include in our list only those sorts which we have found by actual test ar worthy of cultivation. Orders will be booked as received, and shipped in rotation, after danger of freezing is over; and as Potatoes are of a perishable character, we assume no responsibility for damages incurred in transit, but we will, of course, exercise the greatest care to guard against sudden changes in the temperature.

	Peck	Bush.	Bbl.
Beauty of Hebron. A standard sort, pure white skin and flesh, an excellent cropper,	.50	\$1.40	\$3.25
Bliss' Triumph. Extra early, of attractive appearance and superior quality50	1.40	3.25
Breck's Chance. Quality is the leading feature, but it is early, a good cropper; the tubers are just the size wanted for the table50	1.40	3.50
Carman No. 1. White-fleshed, medium; late sort of perfect quality50	1.40	3.50
Carman No. 3. A potato with a long pedigree. Try it50	1.40	3.50
Clark's No. 1. A well-known very productive sort of fine quality50	1.50	4.00
Early Harvest. Wonderfully early, fine sized tubers50	1.50	3.75
Early Ohio, Jr. An old rough-skinned standard sort, highly recommended50	1.50	3.75
Early Norther. Earlier and more prolific than Early Rose, of which it is a seedling50	1.50	4.00
Early Rose. Our stock of this standard variety is especially good50	1.50	4.00
Early Six Weeks. Similar to Early Ohio, but earlier50	1.50	4.00
Freeman. Medium early, very fine flavor50	1.50	3.75
Joseph. Large, even sized tubers60	1.75	4.00
Lady Finger. The genuine old-fashioned variety for baking	1.00	3.50	
New Queen, of the Hebron type, but earlier, a greater yielder, fewer small ones50	1.40	3.50
P. & W. Victory. The handsome variety, resembling Clark's No. 1, but earlier50	1.50	4.00
Pearl of Savoy. Very early, large oblong tubers, productive and of superior flavor50	1.50	4.00
Peerless, Jr. "Quantity and Quality" would be a fitting name for this sort60	1.50	4.00

RADISH.

German, *Rettig, Radieschen.*—French, *Radis, Rave, Petit Rave.*—Spanish, *Rabano.*

Chartier Radish

French Breakfast Radish.

Radishes require a light, rich, sandy loam; heavy or clayey soils not only delay their maturity, but produce crops much inferior, both in appearance and especially in flavor. For a constant supply, sow from the middle of March until September, at intervals of two or three weeks. For an early supply they may be sown in a hot-bed in February. For winter Radishes, sow the seed about beginning of July, and keep the roots during winter in a cool cellar, covered with earth. They should be placed in cold water an hour or so before using. 1 oz. of seed will sow 100 feet drill; 10 lbs. per acre.

Long Scarlet Radish

	Pkt.	Oz.	Lb.
Chartier. Color rose and white, quality excellent05	.10	.75
French Breakfast. A variety of quick growth05	.10	.75
Long Black Winter. An exceedingly fine winter variety.05	.10	.75
Long Scarlet Short-Top. Bright, scarlet, crisp05	.10	.75
Olive Shaped Scarlet. An early sort05	.10	.75

See Special Offers on third page of cover.

RADISHES.—Continued.

	Pkt.	Oz.	Lb.
Rose China Winter. Bright rose color, grows to a large size, quality excellent05	.10	.75
Rosy Gem. Globe-shaped, upper portion scarlet, shading into white at the tip05	.10	\$1.00
Round Black Winter. Like the Long Black except in shape05	.10	.75
Scarlet Turnip. One of the best for summer use05	.10	.75
White Turnip. Excellent for summer use05	.10	.75
The Startle. A half-long variety, fine for forcing05	.10	1.00
White Giant Stuttgart. Withstands summer heat better than any other sort. Early, mild, and tender05	.10	.75
White Tipped Scarlet Turnip. An early variety of medium size, crisp and tender05	.10	.75
Yellow Summer, Turnip Rooted. Desirable summer sort05	.10	.75

RHUBARB.

German, *Rhabarber*.—French, *Rhubarbe*.—Spanish, *Ruibarbo Bastardo*.
(For price of Rhubarb Roots, see Vegetable Plants.)

Sow early in the spring, in drills a foot apart, thinning out to about the same distance apart in the rows when a few inches high. In fall, or the following spring, transplant into deep, rich soil about three feet apart each way. If propagated by dividing the roots, it may be done either in fall or spring, planting it at the same distance apart as given above.

	Pkt.	Oz.	Lb.
Linnæus. Early, large, and tender10	.25	\$2.00
Victoria. Very large, later than Linnæus10	.25	2.00

SALSIFY, or OYSTER PLANT.

German, *Boksbart*.—French, *Salsifis*.—Spanish, *Ostra Vegetal*.

The demand for Salsify is increasing from year to year, as its delicious qualities are becoming known. It is used stewed, boiled, or fried, and sometimes as a salad sliced raw in vinegar with salt and pepper. When cooked it has an oyster flavor, and is commonly called "vegetable oyster." The directions for growing and keeping are the

same as for Parsnip. One ounce will sow fifty feet of drill.

	Pkt.	Oz.	Lb.
Breck's Improved. Roots of medium size, white and smooth05	.15	\$1.50
Mammoth Sandwich Island. Twice as large as the preceding, and of fine quality05	.15	1.50

SPINACH.

German, *Spinat*—French, *Epinard*—Spanish, *Espinaca*.

Spinach likes a rich soil, and should be sown for a main crop in August or September. When cold weather sets in, it should be protected from frost by covering it with straw and brush. For summer use sow at intervals of two or three weeks from April to August. One ounce will sow fifty feet of drill; twelve pounds per acre.

	Pkt.	Oz.	Lb.
Long Standing. Does not readily run to seed05	.10	\$0.40
New Zealand (<i>Tetragonia expansa</i>). A distinct spreading plant, producing an abundant supply of greens all summer; should be started in a hot-bed, and transplanted when the ground is warm; set three feet apart each way05	.15	1.00
Prickly or Winter. Hardy05	.10	.40
Round Thick Leaf. One of the best05	.10	.40
Savoy Leaf. An extra good "carrier"05	.10	.40
Victoria. Good for spring sowing, broad dark green leaves05	.10	.40

Long Standing Spinach.

SQUASH.

German, *Kurbiss*.—French *Courge*.—Spanish, *Calabaza Tontanera*.

As all Squash are somewhat tender, they should not be planted out until danger from frost is past. They will grow on almost any soil, but a warm, mellow one that has been well manured suits them best. The hills for bush varieties should be about six feet apart; for running sorts, eight to ten feet. Thin out to two plants to a hill, and in the early stages of growth keep well sprinkled with plaster dust. Bush varieties, one ounce to fifty hills; running varieties, one ounce to twenty hills; four pounds per acre.

White Bush Scallop

See Special Offers on third page of cover.

SQUASH.—Continued.

Boston Marrow Squash

Essex Hybrid Squash

	Pkt.	Oz.	Lb.
American Turban. Very fine grained, dry, rich, and sweet05	.10	\$0.75

Rose Muscatel. Makes an excellent quality cigar10	.30	3.00

TOMATO.

German, *Liebsapfel*.—French, *Tomate*.—Spanish, *Tomate*.

(For Tomato Plants, see Vegetable Plants.)

The seed should be sown in a hot-bed about the first week in March, in drills five inches apart and half an inch deep. When the plants are about two inches high, they should be set out about four or five inches apart in another hot-bed. About the middle of May the plants may be set in the open ground; they are planted for early crops on light, sandy soil, at a distance of three feet apart, in hills in which a good shovelful of rotten manure has been mixed. On heavy soils, which are not suited for an early crop, they should be planted four feet apart. Water freely at the time of transplanting, and shelter from the sun for a few days until the plants are established. One ounce will produce about 2,000 plants.

Dwarf Champion Tomato

See Special Offers on third page of cover.

TOMATO.—Continued.

	Pkt.	Oz.	Lb.
Acme. Very early and productive, medium size, dark-red fruit05	.25	\$2.50
Breck's Belmont. The best for either forcing or out-door culture. Bright-scarlet fruit, finely flavored, very few seeds05	.30	3.00
Canada Victor. One of the earliest, of medium size, very symmetrical in form05	.25	2.50
Dwarf Champion. Of dwarf and strong habit, fruit fine color, with few seeds05	.25	2.50
Honor Bright. Delicate flavor, very tender and the best keeper yet introduced10	.50	
Livingston's Beauty. An early variety, growing in clusters of four or five, glossy crimson in color05	.25	2.50
Livingston's Favorite. Perfect in shape; ripens evenly and quite early. It is noted for its good shipping qualities05	.25	2.50
Livingston's Perfection. Large and early, blood-red, perfectly smooth, thick meat, few seeds05	.25	2.50
Lorillard. Especially adapted for culture under glass05	.25	2.50
Paragon. Medium size, color dark-red, ripens evenly, very solid, largely used for canning05	.25	2.50
Peach. Resembles a peach in size, shape, and color; fine for preserves05	.25	2.50
Ponderosa. The largest, solid and of good flavor05	.25	2.50
Red Cherry. A small early variety, size and shape of a cherry, used for pickling05	.30	3.00
Stone. Very smooth, solid, bright-scarlet color, thick-fleshed05	.35	2.50
Strawberry, or Winter Cherry (<i>Physalis Alkekengi</i>). The fruit grows in a husk, and will keep all winter. It has a pleasant strawberry-like flavor and is esteemed by many for preserving05	.30	3.00
Yellow Cherry. Similar to Red Cherry, except in color05	.30	3.00

TURNIP.

German, *Steckrube*.—French, *Navel*.—Spanish, *Nabo Comun*.

Turnips may be sown at all seasons from April to August in our climate, although those will be the best which are sown very early in spring for summer crop, and early in August for a fall and winter crop. A light soil well manured the previous year is the best; no manure should be applied at the time of sowing, unless it be well-decomposed compost, or the roots would be liable to be bad-flavored. The ground should be dug and ploughed deep and made mellow and fine. Sow the seed of the flat sorts broadcast, and rake in evenly. After they are well up, thin to six or eight inches apart, and keep them clear from weeds. The *Ruta Baga* sorts should be sown in drills fifteen inches apart, and for winter use may be sown from the twentieth of June to the middle of July, on land that has been well manured for other crops in spring; thin out as for the early crop. One ounce will sow 150 feet drill. Two pounds will sow one acre in drills. One pound will sow one acre broadcast.

	Pkt.	Oz.	Lb.
White Egg			
Golden Ball. A small, golden-yellow flesh variety, unsurpassed for table use05	.10	.50
Long White or Cow Horn. Flesh white, fine graded and sweet, and of excellent quality05	.10	.50
Purple-Top Munich. One of the best earlies, of good form and quality05	.10	.50
Purple-Top White Globe. A round, handsome turnip of superior quality, either for the table or stock05	.10	.50
Purple-Top Milan. The earliest of the flat Redtop Turnips, small strapped leaves, white, sweet, tender flesh05	.10	.50
Redtop Strap Leaf. The best of the flat Turnips. Equally valuable for early or late crop05	.10	.50
White Egg. A handsome egg-shaped white variety; grows large05	.10	.50
White-Top Milan. The earliest of all turnips, very mild flavor05	.10	.50
White Norfolk. One of the best late varieties for stock05	.10	.50
White-Top Strap Leaf. Similar to the preceding, but not so popular05	.10	.50
Yellow Aberdeen. Very hardy and productive; good for stock and table; keeps well05	.10	.50
Yellow Stone or Globe. Of medium size, excellent flavor, and a good keeper; flesh yellow05	.10	.50

See Special Offers on third page of cover.

MISCELLANEOUS SEEDS.

FOR FORAGE CROPS, PLOWING UNDER, ETC.

Special Offer No. 3 only applies to seeds under this heading.

Beggar Weed.

BEANS, Breck's Soya. The most suitable variety for cultivation in New England, valuable either as a fodder crop or for the silo. The dry beans when ground make an excellent meal for feeding to milch cows. When roasted and ground they form an excellent substitute for coffee. Quart, 20 cts.; peck, \$1.00; bushel, \$3.50.

—**Medium Green Soya.** Especially suitable for New England. Quart, 25 cts.; peck 1.25; bushel, \$4.00

BEGGAR WEED (*Desmodium Molle*). Recommended as a forage plant for thin, sandy lands. Sow about first of June in drills three feet apart, about five pounds per acre. Per lb., 40 cts.; 5 lbs., \$1.75.

CORN, Broom. This does best in a good, deep, moderately moist soil. 20 cts. lb., \$15.00 per 100 lbs.

—**Prehistoric.** A variety with a remarkable history. Of rapid growth, stout stalk, thickly set with leaves, three to five feet in length, four to seven inches wide. Said to produce four good ears to the stalk. Being a novelty, we recommend our customers to try it in a small way, and if it does just half of what is claimed for it, it will be more than satisfactory to the average planter.

Per quart, 15 cts.; peck, 80 cts.; bush., \$2.00.

—**Jerusalem.** See Sorghum.

—**Kaffir.** See Sorghum.

DHOURA. See Sorghum.

MILLET, Pearl (*Penicillaria Spicata*). A valuable and very productive fodder plant; should not be sown until danger from frost is over. Drill, 18 inches apart, 10 pounds to acre. Lb., 15 cts., \$12 per 100 lbs.

MILLET, Japanese Barnyard Grass (*Panicum Crus Galli*). Distinct from other varieties, enormous cropper, grows six to eight feet high, excellent either green or cured as hay. It prefers a moderately moist soil and may be sown in an average season from the middle of May until the first of July. Broadcast, at the rate of 25 lbs. per acre, or in drills eighteen inches apart, 15 lbs. to the acre. Price per lb., 12 cts.; 25 lbs. for \$2.50.

—**Breck's Japanese (*Panicum Miliaceum var. Japonica*).** In growth and appearance somewhat like the best Southern grown Golden Millet, but of superior quality and immensely more productive. Everything considered, we believe it is the best Millet yet introduced. Peck, 50 cts.; bushel, \$1.50.

CLOVER, Crimson, German, or Scarlet. Recommended as a valuable green manure crop and for an April green-food crop for cattle. Sow broadcast during July or August, 20 lbs. per acre. Per lb., 12 cts.; \$10.00 per 100 lbs.

OATS, Gray Winter or Turf. As hardy as winter wheat, and should be sown in August or September at the rate of one-and-a-half to two bushels per acre. They can be grazed late in the Fall or early Spring, without injury to the grain crop. The yield of grain on good soil is frequently from fifty to seventy bushels per acre. These oats are also valuable for Spring seeding. Per peck, 50 cts.; bushel, \$1.50.

PEAS, Southern Cow. Valuable both for fodder and as a green crop to plow under. Sow broadcast at the rate of one and a half to two bushels per acre.

—**Whippoorwill.** One of the earliest. Per quart, 20 cts.; per bushel, \$3.00.

—**Southern Yellow Eye.** Of rapid growth and a heavy cropper. Per quart, 20 cts.; per bushel, \$3.00. See Special Offers on third page of cover.

Millet, *Panicum Crus Galli*

MISCELLANEOUS SEEDS.—*Continued.*

- PEAS.** Clay or Wonderful. Will mature in New England. Per quart, 20 cts.; per bushel, \$3.00
 —Southern Black Eye. A desirable sort. Per quart, 20 cts.; per bushel, \$3.00.
 —Flat Forage (*Lathyrus Sylvestris*). A valuable perennial forage plant, does well on poor, sandy soil, its deeply penetrating roots enabling it to stand severe drought. The forage is relished by all farm stock. Plant the seeds thinly in drills one foot apart. Per oz., 20 cts.; lb., \$2.00.
 —White Canada Field. Per bushel, \$1.35.
 —Green Canada Field. Per bushel, \$1.35.
 —Black Eye Marrow. Per bushel, \$1.75.
RAPE, Dwarf Essex. Valuable for sheep pasture or for plowing under. If sown in May it will be ready for pasture in July. It may be sown as late as the end of July, and under reasonable conditions will produce a large amount of pasture or fodder. Broadcast, 10 lbs. to the acre. Per lb., 15 cts.; 100 lbs., \$9.00.
SACALINE (*Polygonum Sachalanense*). A forage plant said to be suitable for growing on what are termed "waste lands." Seed should be started in the same way as cabbage, and the plants when large enough set out four feet apart each way. Per pkt., 10 cts.; oz., 25 cts. Strong one-year-old plants, 10 cts each; \$8.00 per 100.

SORGHUM.

- Early Amber Sugar-Cane.** Ripens where Indian Corn matures. Per lb., 15 cts.; per 100 lbs., \$8.00.
Early Orange Sugar-Cane. Ripens about ten days after Early Amber. Per lb., 15 cts.; per 100 lbs., \$8.00.
Brown Dhoura Corn. Per lb., 15 cts.; per 100 lbs., \$8.00.
Yellow Branching. (Yellow Millo Maize.) It is non-saccharine; used only for the large amount of foliage, green feed, or cured fodder that it furnishes, and for its grain. Per lb., 20 cts.; per 100 lbs., \$10.00.
White Branching. (White Millo Maize.) The merit of this non-saccharine Sorghum is, that when cut for feeding it starts again from the remaining stumps with renewed strength and vigor; thrives in the hottest and driest localities. Per lb., 20 cts.; per 100 lbs., \$10.00.
Red Kaffir Corn or Sorghum. Non-saccharine. The plant is low, stocky, perfectly erect. The whole stalk as well as the blades cure into excellent fodder, and in all stages of its growth is available for green feed. Per lb., 15 cts.; per 100 lbs., \$8.00.
White Kaffir Corn. Per lb., 15 cts.; per 100 lbs., \$8.00.
White African Sorghum, African Millet, or White Dhoura. Per lb., 15 cts.; per 100 lbs., \$8.00.
Jerusalem Corn. One of the best and surest for dry countries and seasons. Grows about three feet high, with one large head on main stalk and several smaller heads on side shoots. The grains are white and nearly flat. Per lb., 15 cts.; per 100 lbs., \$8.00.
SPURREY. (*Spergula Arvensis*.) This plant will grow on land that is too dry and thin to support Clover, and so rapidly that three sowings may be made in one season. The crop may be fed both green and as hay. Sow broadcast 20 pounds per acre. Per lb., 12 cts.; per 100 lbs., \$10.00.
VETCHES—Spring Tares. (*Vicia Sativa*.) Sown broadcast at rate of 1 to 1½ bushels to the acre like wheat or barley, and sometimes mixed with oats for soiling. Used in France and Canada as a substitute for peas. Also ground up into flour, after which it is mixed with wheat flour for making bread. A valuable plant. Per qt., 20 cts.; per bush., \$3.00.

GRASSES.

"And he gave it for his opinion that whoever would make two ears of corn or two blades of grass to grow upon a spot of ground where only one grew before would deserve better of mankind, and do more essential service to his country, than the whole race of politicians put together."—SWIFT.

Timothy.

mand for the various soils and climates of America.

We invite special attention to our "Mixtures" for Permanent Pastures and Mowing Lands, which follow our descriptions. We have endeavored to bring into prominence a few important facts under the head of *Mixtures*, which, we think, cannot fail to be of interest to any one who is concerned in the laying down of profitable pastures, or who desire to obtain large crops of hay of choice quality from their fields.

See Special Offers on third page of cover.

Timothy (Herd's Grass or Catstail) (*Phleum Pratense*). Root fibrous on moist soils; on dry soils often bulbous; perennial; flowers in June and July. While this grass is commonly known as Timothy, it is frequently called Herd's Grass, as this is the name under which it was originally cultivated. It is, without doubt, a most valuable grass for hay, especially in the North. It thrives best on moist, loamy soils of medium tenacity. Grows very readily and yields large crops on favorable soils. Should be cut just when the blossom falls. The hay is of best quality, yielding, under favorable circumstances, three or four tons per acre. (Per bushel, 45 lbs.)

Orchard Grass (*Dactylis glomerata*.) Root fibrous; perennial; flowers in June and July. This is one of the most valuable and widely known of all the pasture grasses. Its rapidity of growth, the luxuriance of its aftermath, and its power of enduring the cropping of cattle, all commend it highly to farmers. Thrives well on light soils, and as its roots penetrate to a considerable depth, where the subsoil is favorable, it withstands droughts better than most species on dry sandy soils. It is very valuable to be used in a mixture with Timothy and Clover, and produces splendid crops of hay. This grass is sometimes condemned because of its coarse growth, which is only apparent when in a neglected condition, but with proper management no grass is more valuable. When pastured Orchard Grass should never be allowed to become coarse, but should be kept closely cropped. In this condition it is highly nutritive, and relished very much by all kinds of stock. (Per bushel, 14 lbs.)

Orchard Grass.

Kentucky Blue Grass (Meadow Grass, June Grass, Spear Grass), (*Poa pratensis*). Root creeping; perennial; flowers in June. This valuable grass is very common in the soils of America, and is claimed by some to be the most valuable of all the grasses in our pastures. On the other hand, some claim that its creeping root impoverishes the soil. It is a fact, however, that it grows very luxuriantly, producing the most nourishing food for cattle until late in the season in the North, while in the South abundant herbage is furnished throughout the entire winter. It is a very valuable species in lawn mixtures. Kentucky Blue Grass requires about two or three years to become well set, and does not arrive at perfection as a pasture grass until the sward is at least four years old, hence it is not suited for alternate husbandry, or where the land is to remain in grass two or three years, and be then plowed up. (Per bushel, 14 lbs.)

Kentucky Blue Grass.

Red Top (Herd's Grass), (*Agrostis Vulgaris*). Root creeping; perennial; flowers in July. This valuable grass has been commonly cultivated in our fields for over a century. It is a fine permanent grass, and forms a nutritious pasturage when fed close. It is valuable for all wet soils producing a large return in good hay. Red Top is often sown with Timothy and common Red Clover, in which case the Clover soon disappears, followed by Timothy, after which the Red Top usually takes its place, and with some wild indigenous grass forms a close sward. When sown alone three bushels per acre are required, or 15 lbs. of the clean seed. (Per bushel, 10 lbs.)

Fancy or clean seed per bushel, about 40 lbs.

Rhode Island Bent (*Agrostis canina*). Root creeping; perennial; flowers in July. A most valuable permanent grass, largely used in New England for pastures and for lawns. For the latter purpose it is often sown by itself, and if cheapness is an object perhaps it is as good as could be sown, but we recommend the lawn mixture wherever practicable. Soil and treatment same as for Red Top (*A. vulgaris*). (Per bushel, 10 lbs.)

Fancy or clean seed, per bushel, 40 lbs.

Rough Stalked Meadow Grass (*Poa trivialis*). Root fibrous; perennial. This grass is valuable on account of its quick growth, productiveness, and nutritive qualities. Grows in perfection on moist, rich soils, and is also well adapted to ground shaded by trees. Grows early in the Spring, and continues green until late in the Fall. As it delights in shelter, its produce is always much greater when sown with other grasses. Cattle, sheep, and horses show a great partiality for it, and the pasture is generally eaten barest where this grass predominates. Does not thrive well on dry soils. (Per bushel, 14 lbs.)

Red Top.

Perennial Rye Grass.

Perennial Rye (*Lolium perenne*). A very valuable grass; arrives early at maturity; and produces a good supply of herbage, of which cattle are very fond. It grows freely on almost any soil, and shows a very early Spring growth. Although a perennial grass, the root will not live over three or four years, and unless the plant is allowed to reproduce from self-sown seed it will die out in about that time. This is an objection to its extensive use for permanent pastures, but for hay crops it may be introduced to good advantage along with other grasses and clovers. (Per bushel, 24 lbs.)

See Special Offers on third page of cover.

Italian Rye (*Lolium Italicum*). This is one of the most valuable grasses brought into notice during the present century. In nutritive value, earliness and quickness of growth after it has been mown, it by far surpasses the Perennial Rye Grass. It is, therefore, indispensable for alternate husbandry; but as it does not last over two years it is of no use in permanent pastures. The soils best adapted to Italian Rye seem to be those that are moist, fertile, and tenacious, or of a medium consistency, and on such soils it is said to be one of the best grasses known to be cut green, affording repeated luxuriant and nutritive crops. (Per bushel, 18 lbs.)

Meadow Fescue.

Crested Dog's-Tail.

Fowl Meadow (False Red Top, Duck Grass, Swamp Wire Grass), (*Poa serotina*). Root slightly creeping; flowers in July and August. This perennial native grass is found on lowlands in many places, though it seldom takes full possession of the soil unless seed is sown. It has been largely introduced into New England, and is particularly adapted to moist, rich soils, such as the borders of rivers, ponds, etc., owing to the fact that an occasional overflow will not injure its growth. It may be mown at any time from June to October, as it never becomes so coarse and hard but the stalk is sweet and tender and eaten without waste. It

makes an excellent grass for oxen, cows, and sheep, but is thought too fine for horses. It is easily made into hay which is of a nutritive character. (Per bushel, 10 lbs.)

Meadow Foxtail (*Alopecurus pratensis*). Root fibrous; perennial; flowers in May. This is one of the best grasses for permanent pastures, and should always form a fair proportion of the mixtures for that purpose, because of its extremely rapid growth and great nutritive qualities. Thrives best on a rich, strong soil. As the Meadow Foxtail shoots up its flowering stalk much earlier than Timothy, it can be easily distinguished from the latter, which, at first sight, it greatly resembles. It endures the cropping of cattle and sheep probably better than any other variety of grass, making it, as stated above, well-nigh indispensable in all first-class permanent pastures. The nutritive qualities of Meadow Foxtail are most abundant at time of flowering. (Per bushel, 8 lbs.)

Crested Dog's-Tail (*Cynosurus cristatus*). Roots fibrous and tufted; perennial. This is a most valuable permanent pasture grass. It is very tender and nutritious at time of flowering. If, however, it is left until the seed ripens, cattle will not eat it on account of its wiry stems. For parks this grass is well suited, because of its fine, close growth, and pleasant green color. It should form a portion of all mixtures for lawns. (Per bushel, 28 lbs.)

Meadow Fescue (*Festuca pratensis*). Root creeping; perennial; flowers in July; one of the most valuable of the Fescue grasses. This grass is well adapted for permanent pastures, and is also sometimes used for alternate husbandry. It grows rapidly in rich and rather moist soils, and makes an excellent pasture grass, its long tender leaves being much relished by cattle. It should be always sown mixed with other grasses. (Per bushel, 15 lbs.)

Sheep's Fescue (*Festuca ovina*). Somewhat creeping; perennial; flowers in June and July; especially desirable on light, dry, sandy soils. It is much liked by sheep, and should always enter into the compositions of mixtures for lands on which they are to be pastured. Its compact and fine growth make it suitable for lawn mixtures. (Per bushel, 12 lbs.)

Tall Fescue (*Festuca elatior*). Root fibrous, somewhat creeping; perennial; flowers in June and July. In appearance this species resembles the *Festuca pratensis*, but is larger and of stronger growth. It thrives well on moist soils, and yields abundant crops. Cattle and stock eat it greedily. It should form a portion of every mixture for permanent purposes on moist soils. (Per bushel, 15 lbs.)

Sweet Vernal.

Italian Rye Grass.

Meadow Foxtail.

Hard Fescue.

See Special Offers on third page of cover.

Hard Fescue (*Festuca duriuscula*). This is one of the best grasses of the Fescue family. It is regarded by some as a variety of the Red Fescue, though taller, and the panicle more open. It is found in all the finest permanent pastures of the country, and is much valued for its dwarf habit. It resists the Summer drought, and develops remarkable verdure during Winter. It should form a part of every mixture for lawn or pleasure grounds, and for permanent pasture and alternate husbandry. (Per bushel, 14 lbs.)

Red or Creeping Fescue (*Festuca rubra*). This grass is found growing on light, dry, sandy soils, and from its creeping habit will be found of great value on sandy seacoast lands. It is a grass of better quality than some of the uncultivated species, but is not usually cultivated in this country as an agricultural product, except on elevated sheep pastures. (Per bushel, 13 lbs.)

Sweet Vernal (*Anthoxanthum odoratum*). Root fibrous; perennial; flowers in May. This grass is valuable on account of its early growth and its hardy and permanent nature, which, added to the fact that it throws up its flower-stalks till the end of Autumn, upholds its claim to a place in all compositions where permanency is an object. It is very fragrant, and imparts a pleasant odor to the hay. Will grow in almost any kind of soil, but prefers those which are rich and moist. It is greatly relished by sheep, and is found growing naturally on upland pastures. As a component of "lawn mixtures" it is most valuable, and is largely used for this purpose. The seeds of this grass are scarce and most difficult to be had TRUE. An inferior variety of *Anthoxanthum* being sometimes offered at a low price by unscrupulous dealers, care ought to be exercised in buying. *Our seed is guaranteed to be the true Perennial Sweet Vernal.* (Per bushel, 11 lbs.)

Yellow Oat Grass (*Avena Flavescens*). This grass deserves to form a portion of all mixtures for permanent purposes, and is well suited for lawns, croquet and bowling greens. It thrives best on light, dry soils, and is particularly adapted to exposed and elevated situations, where it is found growing naturally. Cattle eat it readily, and it is much relished by sheep. The seed of this grass, like that of the Sweet Vernal, is scarce and most difficult to be had true. The seed we offer is guaranteed to be the true *Yellow Oat Grass.* (Per bushel, 11 lbs.)

Tall Meadow Oat Grass (*Arrhenatherum avenaceum*). A fibrous-rooted perennial; flowers in July; of luxuriant growth, and valuable in permanent pasture mixtures, on account of its early and late growth. It succeeds best on deep sandy lands, and is suitable for sowing in orchards or other shady places. (Per bushel, 15 lbs.)

Wood Meadow Grass (*Poa nemoralis*). This grass, as its name implies, is found naturally in woods, and is well adapted for growing under trees. It is especially desirable; from its fine habit of growth, for sowing on shady lawns and under trees on pleasure grounds. Root fibrous, flowers in June and July. (Per bushel, 14 lbs.)

Sheep's Fescue.

MILLETS.

See also page 39.

Common Millet (*Panicum Miliaceum*). Requires a dry, light, rich soil, and grows two and a half to four feet high, with a fine bulk of stalks and leaves, and is excellent for forage. For hay, sow broadcast three-quarters of a bushel per acre from May first to August first. For grain, sow in drills, half-bushel to the acre, not later than June 20th. (Per bushel, 50 lbs.)

German or Golden Millet (*Panicum Miliaceum* var.). An improved variety, medium early, growing three to five feet high. The heads are closely condensed, though the spikes are very numerous. The seeds are contained in rough, bristly sheaths, and are round, golden yellow, and beautiful in appearance. (Per bushel, 50 lbs.)

From close observation during the past few years, the fact has been established beyond doubt that seed of the German or Golden Millet grown in southern latitudes will produce a much larger yield of hay than from

seed grown in northern or western sections of the country, and for that reason is far better for farmers to sow. We have a good stock of southern grown seed, and, knowing its value, confidently recommend it. Bear in mind that to the farmer, southern grown seed is worth double that of northern or western grown, as that seed is degenerated and hybridized with other millets.

Hungarian Grass (*Panicum Germanicum*). This is a species of millet, growing less rank, with smaller stalks, often yielding two or three tons of hay per acre. It is very popular and valuable with those who are clearing timber lands. Like the common millet, it is an annual, and requires to be sown every season, but will produce a larger return than almost any other crop. (Per bushel, 48 lbs.)

CLOVERS.

There are no plants so valuable for fertilizers as the Clover. They have the faculty of absorbing nitrogen from the air, and also of rendering available much of the inert plant food of the soil. Their long, powerful tap roots penetrate to a great depth, loosen the soil, admit air, and by their decay add immensely to the fertility of the soil. (Per bushel, 60 lbs.)

See Special Offers on third page of cover.

Red Clover.

White Clover.

Medium Red (*Trifolium pratense*). This is the common Red Clover in general cultivation, and too well known to need a general description. It is by far the most important of all varieties for the practical purposes of agriculture. When sown alone produces hay of splendid quality, and with Timothy or other grasses forms a desirable pasture. (Per bushel, 60 lbs.)

Mammoth or Pea Vine (*Trifolium pratense* var.). Grows five or six feet high; its stalks are so coarse and large that stock by its judicious use lands can be reclaimed, as it will clover will fail. (Per bushel,

Alsike or Swedish (*Trifolium* most hardy of clovers, and is resists cold and extreme moist soil yields an enormous a nutritive quality. Can be It is well suited to low lands rous roots spread over a large to resist the heaviest rains. sweet and fragrant, and much large amount of honey from

It requires a established, but when once a profitable crop for a number mous amount of green fodder, mencing to blossom. Al- it does not exhaust the soil, it. In States to which it is be obtained in one season.

White Clover (*Trifolium* Clover to the farmer is well in nearly every natural pas- soils. Being a deep-rooted on dry, sandy sections. It should form a part of all mixtures for permanent pastures, and is also valuable for alternate husbandry, when these crops are sown down for more than one year. (Per bushel, 60 lbs.)

Crimson Clover (*Trifolium incarnatum*). Is also known as Scarlet Clover and Carnation Clover. It is of rapid growth, and of great value where only one crop is desired, sown either alone or with Italian rye grass. It is an immense yielder, and can be fed green or made into hay. It may be sown in the fall for an early summer crop, or in the spring for cutting in July. (Per bushel, 60 lbs.)

MIXTURES FOR PERMANENT PASTURES.

"One thing is certain: that good pasture land is the foundation of the riches of a farm."—SINCLAIR.

The oft-repeated complaints of wornout and exhausted pastures, made to us by some of our best New England farmers, have long impressed us with the fact that there must be something radically wrong with the manner in which our pastures are formed and cared for. Some remedy for this state of matters is imperatively necessary, and it seems to us that one most important line of improvement would be the sowing of a larger number of species of grasses in the laying out of these pastures.

As we have already expressed as our opinion, farmers, as a rule, in preparing their mixtures of grasses to be used in the laying down of permanent pastures, confine themselves to too few varieties, thus failing to arrive at the most profitable results. The chief properties which give value to a grass are nutritive powers, produce, early growth, and reproductiveness (that is, the property of growing rapidly after being cropped). If one species of grass could be discovered that possessed all these qualities in a superior degree to every other, there would be no necessity beyond that of botanical science for us to acquire the knowledge which enables us to distinguish the different species of grasses, the soils and subsoils best adapted to their growth, natural habits, and comparative value; but the results of all experiments have proven that a combination of all the merits and properties which give value to a grass is not to be found in any single species, or in fact in any two or three. In sowing a mixture or a number of different varieties we are but following nature, who can be always depended upon as the best teacher. This can be easily demonstrated by the careful examination of any old, rich, permanent pasture, on which will invariably be found fifteen or twenty species of grass or forage plants growing in great profusion. Where, however, it is left to nature to supply the necessary plants to make a rich and succulent pasturage, a great deal of valuable time is, of necessity, lost, or *seven or eight years* will elapse before the field will *naturally* assume the character of a rich and profitable pasture, while by *artificial* means the same result can be brought about in *one-fourth the time*.

In compiling any table of grasses and clovers to be used for permanent pasture purposes there are several important features to be taken into consideration. First, the proportion of plants which would be produced from the amount of each kind of seed sown should be determined, so that the undue predominance of any particular variety may be avoided. We have given this point special consideration in preparing our mixtures. A selection of grasses should be made that blossom at alternate months of the year, as it is a well-known fact that there is no month from April to September inclusive, in which some of the valuable grasses do not attain their full perfection.

Alsike Clover.

lium hybridum). This is the fast gaining popularity. It drought and wet, and on rich amount of hay or pasture of cut several times in a season. liable to wash, as its long, fib- area and hold the soil so as The heads are globular, very liked by bees, who obtain a them. (Per bushel, 60 lbs.)

cago sativa). Where this vari- ably one of the most valuable ever, particularly adapted to but flourishes in all western fine mellow soil to get it firmly thoroughly fixed will produce of years. It yields an enor- and should be cut when com- though a prodigious yielder, but on the contrary improves adapted, four or five crops can (Per bushel 60 lbs.)

repens). The value of this known, and it is to be found ture. It is adapted to all plant, it withstands drought pastures, and is also valuable for alternate husbandry, when these crops are sown down for more than one year. (Per bushel, 60 lbs.)

By using a mixture comprising these species, it will be at once apparent that a rich and luxuriant growth will be secured throughout the entire season, which result cannot possibly be obtained if the stereotyped mixture usually recommended composes the sward. It would be almost impossible for us to give a series of tables which would comprehend all the variations of soils, altitudes and climates. We think, however, that those we have compiled will be found sufficiently comprehensive to meet all the contingencies that arise in ordinary farming.

These mixtures, which we recommend only after careful study and consultation with the best authorities, are of little or no value unless the seeds composing them are absolutely pure and true to name. We, therefore, especially request those who desire to obtain the best results from their mixtures for alternate husbandry, mowing lands, and permanent pastures, to avoid the probability of *disappointment* which would naturally attend the placing of orders with parties who have never given any degree of attention to this most important subject, and buy from us direct (or authorized agents), who are the first in this country to make a specialty of this branch of the seed business. We doubt if a full stock of all the grasses which form the components of our mixture could be found anywhere in the United States outside of our own establishment, and know they cannot be obtained in the same quantities and of equal quality.

In conclusion, we would say, that although pastures be formed in the best manner as recommended by us, with a combination of MANY different species of grasses, yet a judicious mode of treatment afterwards is as necessary to continue their value. By proper stocking and top-dressing, very indifferent pastures may be brought to a state of great fertility; but, on the contrary, the richest pastures by neglect of proper stocking, top-dressing, or by the too frequent repetition of hay crops, will become so unprofitable as to require many years to bring them again to their original value. This fact every practical farmer is well aware of, and after the proper mode of sowing and stocking has been determined on, a suitable top-dressing should be found. Under the head of Fertilizers, in another part of this Catalogue, will be found a reliable top-dressing, which we can strongly recommend as being specially adapted for pastures of this character.

BRECK'S SPECIAL MIXTURES FOR PERMANENT PASTURES.

Table showing the proper quantities to Sow on an Acre of Light, Medium or Heavy Soils, for Permanent Pasture.

ALTERNATE HUSBANDRY.

MIXTURES FOR MOWING AND GRAZING LANDS.

As the pioneers of grass mixtures in this country, we naturally have great pleasure in learning from day to day and season to season that our remarks under the heading, "Mixtures for Permanent Pastures," are fast becoming universally admitted facts; and we predict, with confidence, that the time is not far distant when the practice of sowing only one or two varieties of grass seeds with the hope of obtaining the best results from it will pass, and the better and more profitable one of following nature's plan be adopted.

Many of our statements regarding Permanent Pasture Mixtures are equally pertinent when applied to Alternate Husbandry. It does not require much thought to convince any practical agriculturist that there is no basis to a system that employs the same quantity and kinds of grass seeds on all occasions, without regard to soil, duration of lay, or the condition in which the crop is to be used. All mixtures for Alternate Husbandry should include, say for one or two years' lay, only annual and biennial or other sorts that attain full maturity within that period; for two or three years' lay a greater quantity of seed is required, which should embrace a larger proportion of permanent sorts, so that the places of the dead annual kinds may be filled by the varieties that are of slower growth.

If a mixture, principally for mowing, is intended to lay more than three or four years, especial care is necessary in selecting and adjusting the several varieties of grasses in proper proportion. A three or four years' lay sown with grasses that are only of annual or biennial duration must be either very thin or

See Special Offers on third page of cover.

Crimson Clover

Lucerne Clover

foul at the end of the period for which it was laid down—the spaces vacated by the annual and biennial grasses being in all likelihood occupied by objectionable weeds, when, if a proper selection of those species capable of lasting the whole of the desired period were sown, the lay would remain full of plants, free from weeds, and, consequently, much more profitable during the whole time the land is in grass.

The practice of mowing grass for hay when the plants are in blossom is acknowledged to be a good one, in that it is not so exhausting to the soil, and a more succulent hay, freer from dust, is obtained; it has, however, from the fact that all natural reseeding is prevented, a tendency to weaken the plants and reduce their number; hence when we see an old field of grass that was originally sown with Timothy, Redtop, and Clover, and which has been mowed, perhaps, twice annually, we can readily account for either the enormous number of weeds or vacant places that are sure to be noticeable. Our system of mixture practically overcomes this difficulty by the continued growth and stooling out of some of the varieties included that do not attain full maturity under four to six years. Such mixtures, although in the first place more expensive than the ordinary orthodox seeding, are in the end more profitable; we have seen aftermaths from permanent mowing mixtures that more than equalled first crops of Timothy.

In making up the following tables the utmost care has been exercised, and we have no hesitation in recommending them to our patrons.

NOTE.

It will be noticed that the different tables are all based on the quantity required to sow one acre, so in ordering, our patrons will please state the number of acres for which the seed is desired. We shall, unless we are especially instructed to the contrary, put up each variety of seed in separate packages, packing the entire quantity necessary for one acre in a case. We recommend our friends to always buy their mixtures put up as above, and to refuse to receive them in any other shape. The advantage of buying the seed before it is mixed is very apparent, as it insures the purchaser obtaining the exact varieties and quantities which should compose the mixture he has ordered. This protection cannot be enjoyed where the seed is mixed before it is sent out.

PRICES FOR JOSEPH BRECK & SONS' SPECIAL MIXTURES FOR PERMANENT PASTURES AND MOWING AND GRAZING LANDS.

When ordering, simply give number and kind of mixture selected and the number of acres for which seed is desired; for example: "Send me No. 2 Mixture for Permanent Pastures for three acres."

PERMANENT PASTURES.

Special prices for quantities for ten acres and upwards.

While it is true that the mixtures which we have recommended are SEEMINGLY much more expensive than what is commonly used, it should be borne in mind that a vastly increased value is given to the pasture not only for one year, but if the land is properly cared for it will remain in good condition for fifteen or twenty years without further sowing, and produce double the amount of fodder, while the ORDINARY sowing has to be repeated every three or four years; thus, in the end, costing more than four times as much as what would be paid originally for the proper mixture.

CAUTION.—Appreciating the fact that unscrupulous parties will probably offer mixtures for permanent pastures, mowing lands, and alternate husbandry, purporting to be the same as ours, we shall, as a matter of protection to both our patrons and ourselves, stencil or print on each case, and also on package containing each variety of seed, our name and address, and request our patrons before purchasing from any other source than ourselves direct, that they examine the case containing same, and if not stenciled as described they may know that IT IS NOT our mixture, and therefore not in any way entitled to our endorsement.

"SATISFACTION."

"The Lawn Grass Seed furnished by you on my orders of May and June, 1896, has given such satisfaction and our lawn has been so much admired that I am commissioned by the Granby Amateur Athletic Association, of which I am Vice-President, to negotiate with you for sufficient seed to thoroughly sow an area of 140,000 square feet, which will be used when finished as a cricket and lacrosse ground."

The above is an extract from a letter sent us Oct. 4, 1897, by H. L. GULLINE, Granby, P. Q., Canada.

See Special Offers on third page of cover.

BRECK'S LAWN GRASS SEED.

By the courtesy of Luther Adams, Esq., of Newton, Mass., we produce here a partial view of his beautiful grounds. The fine lawns on Mr. Adams' estate are the product of BRECK'S LAWN GRASS SEEDS, and are but a fair representation of thousands of lawns raised from the same UNEQUALLED MIXTURE.

We have given much thought and made many experiments in order to ascertain just what is the best mixture for permanent lawns, and the grasses which are best suited to this climate. By the proper blending of the varieties which constitute Breck's Lawn Grass, we have obtained a mixture that from early spring to late fall will give to lawns made with it that rich, deep green so often admired upon the lawns and parks of England, but so seldom seen in this country.

One quart will sow 300 sq. feet. Price, per qt., \$0.25. One peck will sow 2,400 sq. feet. Price, per pk., \$1.25. One half peck will sow 1,200 sq. ft. " " $\frac{1}{4}$ peck, .75. One bushel will sow 10,000 sq. ft. Price, per bush., 4.00.

Four bushels will sow one acre.

We can supply other mixtures of so-called Lawn Grass Seed at competitive prices, but we recommend our own as being superior in every respect to all others. When desired we make special mixtures of Grasses to suit different soils and conditions.

BRECK'S "SHADY SPOT" LAWN GRASS.

This is a mixture of grasses that are naturally adapted for growing under trees and in places where the sun does not find ready entrance. If sown on such locations, in place of the ordinary Lawn Seed, bare and unsightly spots will be prevented. Per quart, 25 cents; peck, \$1.25; bushel, \$4.00.

BRECK'S BANK AND TERRACE GRASS MIXTURE.

A mixture of deep-rooting grasses specially prepared for embankments and situations where it is impractical to get a successful catch of the less spreading rooted sorts. It produces a rich velvety turf throughout the season. No coarse growing undesirable varieties are used in this mixture. Per quart, 25 cents; peck, \$1.25; bushel, \$4.00.

GOLF LINKS GRASS MIXTURE.

Since the game of Golf became so popular in this country, we have had frequent demands for mixtures of grass seeds, suitable both for the Courses and Putting Greens, and adapted to low, damp, as well as the thinner dry soils on the elevations.

It will be readily understood that no one mixture would be suitable for the different conditions. We have, therefore, prepared three mixtures.

No. 1. For Putting Greens. Sow at the rate of eighty pounds to the acre. Per lb., 15 cents.

No. 2. For light and dry soils. Sow at the rate of fifty pounds to the acre. Per lb., 12 cents.

No. 3. For low and damp grounds. Sow at the rate of fifty pounds to the acre. Per lb., 8 cents.

We will be glad to make special mixtures for other conditions of soil, etc.

Do not use stable manure on your lawn. See page 61 for particulars of Breck's Odorless Lawn Dressing

BERLIN RESERVOIR VASES.

FOR LAWNS, CEMETERIES, ETC.

These iron vases are so constructed that one watering will keep the earth moist for a long time without souring the soil or injuring the roots. The reservoir is below the soil and water is taken up as wanted by capillary attraction.

Illustrations showing other designs and prices furnished upon application.

MISCELLANEOUS REQUISITES.

Baskets, Pansy or Verbena, Marston's Pattern. Wood or wire handles, standard size, 10 in. long, 5 in. wide, 3 in deep, per 100, \$2.00; per 1,000, \$18.00. Large size, 12 in. long, 7 in. wide, 3 in. deep, per 100, \$3.00; per 1,000, \$25.00.

Brushes, Flat Paint. For applying tree ink, and general use. Thoroughly well made and of good material. 3½ in. wide, 25 cts. each.

Caps, Hay, Breck's Improved, brown, medicated, complete with ropes and pins, 50 cts. each; \$45.00 per 100.

Color, Improved Butter. Wells, Richardson & Co.'s imparts the "golden tint of June" to butter at all seasons of the year. Bottles sufficient for 500 lbs., 25 cts.; 1,250 lbs., 50 cts.; 3,000 lbs., \$1.00.

Color, Hanson's Butter. A universal favorite. Bottles, 25 cts., 50 cts. and \$1.00 each.

Cotton Batting. For packing flowers, etc., per sheet, 6 cts.

Food, Breck's Flower. This preparation is perfectly odorless and clean to handle. It is the most concentrated, safest and effective plant food on the market. Soluble in water, and no trouble whatever to prepare for use. It promotes a healthy vigorous growth of wood, leaf and flower. Put up in two sizes — beautiful lithographed boxes.

No. 1, sufficient for 30 plants for one year, 25 cts.; by mail, 40 cts.

No. 2, sufficient for 30 plants for three months, 15 cts.; by mail, 20 cts.

Flower Food, Bradley's Lily Brand. No. 1, 25 cts.; by mail, 50 cts. No. 2, 15 cts.; by mail, 25 cts.

Food, Imperial Liquid Plant. This preparation is said to contain all the food necessary for a healthy growth. It is in a liquid form and will be appreciated by those who grow plants in the house. Per pt., 25 cts.; qt., 40 cts.

Glazing Points, Van Reyper Perfect.

The only durable and reliable points. Made of galvanized steel wire; no rights and lefts. Three sizes, Nos. 2, 2½ and 3. The Nos. 2 and 2½ are for general use; the No. 3 for extra heavy work. Price, per box of 1,000, 60 cts. Pincers for driving same, 40 cts.

Krop Kollar, Faye's Patent.

This is one of the simplest, yet most useful articles that has been offered the gardener and farmer for the protection of early crops from cut worms, cold winds and frosts. It consists of a flexible fibre-board collar that can be quickly adjusted around plants, a glass roof easily fastened on, and a shutter for use in extra cold weather. We believe it will prove of great value for protecting corn, melons and other early or tender plants. Net prices, dozen, 70 cts.; 100, \$5.00.

Labels. Zinc and Indelible Ink. When indelible ink is used on zinc labels, a practically indestructible and always readable label is assured.

Mastica. For glazing greenhouses, new or old. The use of Mastica avoids the necessity of frequent reglazing. It can be used to bed in or on the outside, with a machine, one gallon will cover about 290 running feet (one side.) Gallon cans, \$1.25; half gallons, 65 cts. *Net.*

Machines for applying Mastica, \$1.00 each.

Mats, Archangel. An excellent light covering for frames, hotbeds, etc., 75 cts. each.

Mats, Straw, for hotbeds, etc., 6 x 6, \$1.50 each. Other sizes to order.

Paper, White. For packing flowers, etc., per lb., 10 cts.

Paper, Waxed, for packing flowers, etc., per lb., 30 cts.

Paper, Wrapping. Strong manilla, per lb., 8 cts.

Paper, Tarred, for using with tree ink, in rolls about 50 lbs., per lb., 4 cts.

Pencils. Wolff's Indelible Garden. For writing on wood labels, with point protector, each 20 cts.; doz., \$2.00.

Protectors, Arlington Plant. Protects from bugs, borers and fowls, also subdues wind, rain and cold, 15 cts., each; doz., \$1.50.

Protecting Cloth for Hot Beds. Used as a substitute for glass for protecting plants in early spring, in pieces of 40 yards, 10 cts. per yard.

Putty Bulbs. A simple and useful device for applying putty to sashes, \$1.00 each.

Roffea. A strong and cheap material for tying plants, etc., per lb. 25 cts.

Silkaline. Used for growing smilax and asparagus on, also for tying in bouquet work, per reel 25 cts.; per lb. \$1.25.

Mastica Machine.

Sprinkler, "Ladies Favorite." This the most practical sprinkler yet offered to use on house plants, cut flowers or for the laundry. Each, 75 cts.

Sprinklers, Scollay's Rubber. An indispensable article for showering plants, sprinkling bouquets, dampening clothes, etc.; three sizes, 50 cts., 75 cts., and \$1.00 each.

Sashes for Hot Beds. Extra well made from thoroughly seasoned lumber, frame 1 1/2 in., 3x6 ft., \$2.25; 1 3/4 in., 3x6 ft., \$2.40 each. Unpainted and unglazed sashes, from \$1.40 to \$1.60 each.

Sieves, Wire. For preparing potting soil, sifting loam, gravel, etc., from 16 to 20 inches diameter, \$1.00 to \$1.75 each.

Stakes, Cane. These are light, strong and durable. They vary in length from 6 to 10 ft. Florists use them much, and cut them to any desired length. \$1.00 per 100; \$4.00 per 500.

Stakes, Unpainted Hardwood. These are smooth, clean, light, strong and durable, much used for staking carnations, chrysanthemums, etc. 2 ft., per 100, 25 cts., per 1000, \$1.75; 3 ft., per 100, 30 cts., per 1000, \$2.25; 4 ft., per 100, 45 cts., per 1000, \$3.25.

Stakes, Hollyhock. Green painted, extra heavy, 6 ft., each, 12 cts.; doz., \$1.25; 100, \$10.00.

Stakes, Galvanized Iron Wire. Useful for pot plants and for carnations, etc., in benches. 2 ft., per 100, \$1.00, per 1000, \$9.00; 3 ft., per 100, \$1.20, per 1000, \$11.00.

Soil, Prepared Potting, Rotted Fibrous Peat, Leaf Mould. 50 cts. per pk., \$1.00 per bu., \$2.00 per bbl.

Sphagnum Moss. \$1.00 per bu., \$2.00 per bbl.

Support, Excelsior Wire Carnation. Made in two pieces, no loose rings to annoy, adjustable from 12 to 20 in. in height, per 100, \$3.00; per 1,000, \$25.00.

Supports, Wire Tomato. Very durable, per doz., \$1.50.

Support, "Two Hoop" Wood Tomato. Strong, light, practical, quickly set in position and can be stored from season to season in a small space. Per doz., \$1.00.

Support, "Tie Joint" Tomato. These supports are made of four upright and eight cross pieces of wood that are easily set and retained in position. They are durable, and can be stored away like so many canes when not in use. Per doz., \$1.75.

Supports, Wood and Wire, Tomato. Uprights of hard wood. Two wire rings. When not in use they fold compactly for storage. Each, 20 cts.; doz., \$1.75.

Tape, Electric. Exceedingly useful for mending Rubber Hose. It is a strong, adhesive ribbon, three-quarters of an inch wide, can be wound tightly around a leaking part and thus stop it. Per coil, 25 and 50 cts.

Tinfoil. For bouquets. Per lb., 15 cts.

Twine. Soft, for tying cut flowers, vines, etc. Per ball, 25 cts.

Twine, Parceling. All sizes. Per ball, 10 to 25 cts.

Wax, Grafting. (Trowbridge's.) The best in the market. This brand should not be confounded with the many cheap makes now offered, that are not possessed of an even consistency, and give unsatisfactory results. Put up in 1 lb., 1/2 lb., and 1/4 lb. pkgs., price 40 cts., 25 cts., and 15 cts., respectively.

Wire, Bouquet. Bright, cut in lengths of 9 and 12 inches, in boxes of 12 lbs. (one stone) each.

SPRAYING CALENDAR.

This calendar, in a concise way, gives our friends the benefit of the many experiments made by the Agricultural Colleges of the country for a number of years. It is believed they can be followed without danger to the crops and much profit to the grower.

The number of applications given in each case has particular reference to localities in which fungous and insect enemies are most abundant. If the crops are not affected at the time advised, the spraying is unnecessary. Know the enemy and the remedy, and apply them at the proper season, keeping in mind the fact that good judgment and prompt and persistent action is more necessary to success than any definite rules.

The applications to which an asterisk * is prefixed are of most importance.

PLANT.	First Application.	Second Application.	Third Application.	Fourth Application.
Apple. Scab, codlin moth, bud moth.	When buds are swelling, copper sulphate solution.	*Just before blossoms open, Bordeaux. For bud moth, Arsenites when leaf buds open.	*When blossoms have fallen, Bordeaux and Arsenites.	8-12 days later, Bordeaux and Arsenites.
Cabbage. Worms, aphid.	*When worms or aphid are first seen, Kerosene emulsion.	7-10 days later, if not heading, renew emulsion.	*7-10 days later, if heading, hot water 130° F.	Repeat third in 10-14 days if necessary.
Carnation. Rust and other fungous diseases, red spider.	*When rust is first noticed, Bordeaux. Kerosene emulsion when red spider is first seen.	*For rust repeat first in 10-14 days. For red spider repeat in 3-4 days.	Repeat second, using the Ammoniacal carbonate of copper if plants are in bloom.	Repeat second as before if necessary.
Cherry. Rot, aphid, slug.	As buds are breaking, Bordeaux; when aphid appears, Kerosene emulsion.	When fruit has set, Bordeaux. If slugs appear, dust leaves with air-slaked lime. Hellebore.	10-14 days, if rot appears, Bordeaux.	10-14 days later, Ammoniacal copper carbonate.
Currant. Mildew, worms.	*At first sign of worms, Arsenites.	*10 days later, Hellebore. If leaves mildew, Bordeaux.	If worms persist, Hellebore.	
Gooseberry. Mildew, worms.	*When leaves expand, Bordeaux. For worms, as above.	*10-14 days later, Bordeaux. For worms, as above.	*10-14 days later, Ammoniacal copper carbonate. For worms, as above.	*10-14 days later repeat third.
Grape. Fungous diseases, flea beetle.	In spring when buds swell, copper sulphate solution. *Paris green for flea beetle.	*When leaves are 1-1½ inches in diameter, Bordeaux. Paris Green for larvæ of flea beetle.	*When flowers have fallen, Bordeaux. Paris Green as before.	*10-14 days later, Bordeaux.
Nursery Stock. Fungous diseases.	*When first leaves appear, Bordeaux.	*10-14 days, repeat first.	10-14 days, repeat first.	10-14 days, repeat first.
Peach Nectarine Apricot. Rot, Mildew.	*Before buds swell, copper sulphate solution.	Before flowers open, Bordeaux.	*When fruit has set, Bordeaux.	*When fruit is nearly grown, ammoniacal copper carbonate.
Pear. Leaf blight, scab, psylla, codlin moth.	As buds are swelling, copper sulphate solution.	*Just before blossoms open, Bordeaux. Kerosene emulsion when leaves open for psylla.	*When blossoms have fallen, Bordeaux and Arsenites. Kerosene emulsion if necessary.	*8-12 days later, repeat third.
Plum. Fungous diseases, curculio.	*During first warm days of early spring, Bordeaux for black knot. When leaves are off in the fall, Kerosene emulsion for plum scale.	*When buds are swelling, Bordeaux for black knot and other fungous diseases. During mid-winter, kerosene emulsion for plum scale.	*When blossoms have fallen, Bordeaux. Begin to jar trees for curculio. Before buds start, Kerosene emulsion for plum scale.	*10-14 days later, Bordeaux. Jar trees for curculio every 2-4 days. For San Jose scale, Kerosene emulsion when young appear spring and summer.
Potato. Scab, blight, beetles.	*Soak seed for scab in corrosive sublimate solution, 2 oz. to 16 gals. of water, for 90 minutes.	*When beetles first appear, Arsenites.	*When vines are two-thirds grown, Bordeaux. Arsenites for beetles if necessary.	10-15 days later, repeat third.
Raspberry. Blackberry. Dewberry. } Anthracnose, rust.	Before buds break, copper sulphate solution. Cut out badly diseased canes.	During summer, if rust appears on leaves, Bordeaux.	Repeat second if necessary.	*Orange or red rust is treated best by destroying entirely the affected plants.
Rose. Mildew, black spot, red spider, aphid.	For mildew. *Keep heating pipes painted with equal parts lime and sulphur mixed with water to form a thin paste.	For black spot. *Spray plants once a week with Ammoniacal copper carbonate, using fine spray.	For red spider. *Spray plants twice a week with kerosene emulsion. Apply to under side of foliage.	For aphid. *Spray affected parts with Kerosene emulsion when necessary.
Strawberry. Rust	*As first fruits are setting, Bordeaux.	As first fruits are ripening, Ammoniacal copper carbonate.	*When last fruits are harvested, Bordeaux.	Repeat third if foliage rusts.
Tomato. Rot blight.	At first appearance of blight or rot, under glass or out of doors, Bordeaux.	Repeat first if diseases are not checked.	Repeat first when necessary.	

For Aphides or Plant Lice use Kerosene Emulsion on all Plants.

See Special Offers on third page of cover.

INSECTICIDES AND FUNGICIDES.

For Spraying Pumps and Appliances see Hardware Catalogue.

Special Offer No. 3 only applies to articles on this page.

Aphis Punk, Nikoteen. A special preparation of nicotine for the extermination of green and black fly, thrip, etc., contains no ammonia and does not injure delicate plants. Per box of one dozen rolls (720 grains nicotine) 60 cts.

Bichloride of Mercury (Corrosive Sublimate). This article has been found very useful for preventing scab and other fungi disease of potatoes if used on the seed at planting time. We furnish Dr. O. G. Cilley's formula for using, with every package. Per box, sufficient for one barrel potatoes, 25 cts.

Bisulphide. For use in destroying lice on melons, cucumbers and other plants. A light, tight cover of cloth or paper is put over the hill, and under it a teaspoonful of Bisulphide in a small vessel. In an hour every louse under the cover will be dead. Per pint, 30 cts.

Breck's Liquid Anti-Ants A preparation that destroys or drives away ants from lawns, trees, etc. 1/2 pt., 30 cts.; pt., 50 cts.

Breck's Anti-Ant Powder. A preparation in powder form that contains the same qualities as the preceding, and can be used indoors as effectively as on small plants, flower beds, etc. Per box, 30 and 50 cts.

Breck's Dalmation Insect Powder. ("Bubach.") Manufactured especially for us from clean, dried flowers. It is put up in air-tight packages and keeps its strength indefinitely. It is invaluable to the housekeeper for the destruction of flies, fleas, roaches, and other noxious insects. Packed in four sizes, 10, 15, 25 and 40 cts.

Bordeaux Mixture. Powell's. Ready for use by simply adding water. Bordeaux Mixture is, we believe, the best fungicide known, and is really a specific for the blight and other diseases attacking potatoes, tomatoes, grapes, apples, pears etc. 1-lb. box, makes 5 gallons spray, 15 cts.; 5-lb. box, makes 25 gallons spray, 60 cts.; 10-lb. box, makes 50 gallons spray, \$1.00; 25-lb. box, makes 125 gallons spray, \$2.50.

Bordeaux Mixture. French. In pulp form. One gallon makes 50 gallons spray, per gal., \$1.00; per 5 gals., \$4.50, per 10 gals., \$8.00.

Bordeaux Mixture. Lenox Brand. A liquid form. One gallon makes 50 gallons spray, per gal, \$1.00.

Bug Death. (The prices quoted on this article are *net*, and not subject to either of our special offers.) A patented, *non-poisonous powder*, entirely different from anything yet offered for the purpose, and as effectual as Paris Green. It is sure death to the potato, squash and cucumber bugs, currant and tomato worms, also other plant and vine eating pests. If used according to directions injury cannot result to the most tender plants, and it has a tendency to assist growth. For potatoes a 12 1/2-lb. package is sufficient for an acre. 1-lb. box, 15 cts.; 3-lb. box, 35 cts.; 5-lb. box, 50 cts.; 12 1/2-lb. box, \$1.00.

Bug Exterminator. "The Puritan." For water-bugs, roaches and ants. Per tin, 50 cts.

Canker Worm Exterminator. (Morrill's Tree Ink.) A sure protection to trees from the ravages of grub and canker worms. Directions with each can.

2-lb. Cans	\$0.30	20-lb. Cans	\$2.00
3-lb. "45	28-lb. "	2.80
5-lb. "60	125-lb. Kegs, per lb.09
10-lb. "	1.10	460-lb. Barrels, "07

Caterpillar Lime. (Ermisch's Raupenleim.) This is a German preparation. Recommended by the Royal Ministry of Agriculture, and also by several U. S. Agricultural Experiment Stations as being superior to any yet offered to prevent the ravages of grubs, cankerworms, etc. It is applied in the same way as Tree Ink, and is more lasting and effective. 5-lb. cans, \$1.00; 10-lb. cans, \$1.75; 25-lb. cans, \$4.00; 50-lb. keg, \$6.75; 100-lb. keg, \$12.75; in barrels of about 250 lbs., per lb., 11 cts.

This article is higher in price than other preparations for the purpose but the long effectiveness of a single application compared with that of others makes it really the cheapest.

Carbolic Purifying Powder. For removing unhealthy odors. Small pkg., 25 cts.; 6-lb. pkg., \$1.00.

Carbolic, Crystallized. Per lb. bottle, 50 cts. *Net.*

Carbolic Solution. Per lb. bottle, 40 cts. *Net.*

Copperdine. Powell's. (A Paste.) A combined fungicide and insecticide, used simply by adding water in proportion of one pound of paste to 16 gallons of water. As a fungicide it prevents black rot, downy mildew and anthracnose of the grape, pear leaf blight, apple scab, mildew, pear cracking. As an insecticide it kills codling moths, curculio, pear insects, peach and apple borers, crown borers, leaf rollers. 1-lb. box, makes 16 gallons spray, 25 cts.; 5-lb. box, makes 80 gallons spray, \$1.00; 25-lb. box, makes 400 gallons spray, \$4.50.

Dip, McDougall's Sheep. An effective, non-poisonous preparation for killing vermin on sheep, cattle, and domestic animals. Per lb., 50 cts.; qt., 75 cts.; 1/2 gal., \$1.50; 1 gal. \$2.50.

Dip, Cooper's Sheep. A world-famous preparation, in powder form. It is easily carried, quickly prepared and most effective. Large pkg., sufficient to make 100 gallons, \$2.00; small pkg., to make 25 gallons, 50 cts.

Pat. March 16 and Nov. 9, 1897.
Pat. in Canada Nov. 2, 1897.

Special Offer No. 3 only applies to articles on this page.

- Disinfecting Powder, Searle's.** A powerful deodorizer, in powder form. Per can, 25 cts.
For other Disinfectants, see Carbolic, Oil of Tar, Sulpho-Naphthol, etc.
- Eciffo.** A sure cure and prevention of water bugs, cockroaches, etc. Per tin, 50 cts.
- Fir Tree Oil. Soluble.** An invaluable preparation for destroying all insects and parasites that infest fruit trees, plants and animals, whether on the foliage or at the roots of the plants. Per gal., \$4.00; per qt., \$1.25; pt., 75 cts.; ½ pt., 50 cts.
- Fir Tree Oil Soap.** This article contains no poison, yet is quite effective in destroying red spider, mealy bug, aphid, etc. It can also be used in the garden against potato bugs, cabbage worms, currant worms, black fly, etc. ½-lb. tin, 25 cts.; 2-lb. tins, 75 cts.
- Fostite.** A light powder that can be evenly applied with a bellows; destroys mildew, black rot and rust. Per 5-lb. pkg., 50 cts.; 25-lb. box, \$2.00.
- Fungiroid or Dry Bordeaux Mixture.** In the form of a fine powder, applied with bellows or a shaker when the foliage is damp. Said to be as effective as the liquid preparation. 1 lb., 15 cts.; 5 lbs. 75 cts.
- Fungiroid and Paris Green Compound.** An insecticide and fungicide combined. Kills potato bugs and prevents blight, easily applied and desirable for fruit trees, etc. 1-lb. box, 20 cts.; 3-lb. box, 60 cts.
- Grape Dust.** Destroys mildew on grape vines. Can also be used in the garden for mould, mildew, or rust mites. 5-lb. pkg., 35 cts.
- Hellebore. Breck's Pure Powdered.** We furnish a guaranteed pure article, ground from fresh roots. It is easily applied either in liquid or powder form and destroys currant worms, rose slugs, etc. Each package has special directions for its effective use. Packed in three sizes, air-tight packages, 10, 15, and 25 cts each.
- Kill-M-Right.** A soap that is specially prepared to be applied with the "Stott" sprayers. It destroys red spider, mealy bug, aphid, etc. 5-lb. tins, \$1.75; 10-lb. tins, \$3.25; 20-lb. tins, \$6.00.
- Kerosene Emulsion.** (A Paste.) Ready for use by simply adding water. This is strictly an insecticide for plant lice of all kinds, rose bugs, cabbage bugs, melon insects, fowl, human and animal lice, caterpillars, tobacco flies, peach lice, red spider, green fly and all sucking insects. 1-lb. can, makes 10 gallons spray, 15 cts.; 5-lb. can, makes 50 gallons spray, 60 cts.; 25-lb. can, makes 250 gallons spray, \$2.50; 300-lb. bbl., makes 3000 gallons spray, \$24.00.
- Little's Antipest.** A safe and sure preparation for the destruction of all insect pests, equally suitable for greenhouse, garden and orchard. Per pt., 60 cts.; qt., \$1.00; gal., \$2.50.
- London Purple.** For spraying fruit trees, potatoes, etc. 1 lb., 25 cts.
- Lemon Oil.** An oil that is readily soluble in water. It destroys insects and parasites of all kinds without injury to plants. Much used for palms and other ornamental foliage plants. Pt., 50 cts.; qt., 80; gal., \$2.25.
- Nicomite.** A new fumigating compound in powder form. It is used for destroying green and black fly, thrip, mealy bug, etc., in greenhouses and frames. It may be used in houses containing the most tender plants in full bloom without injury resulting, and its use does not affect the natural scent of the flowers. No. 1 tin, for 16,000 cubic feet of space, \$3.00; No. 2, for 7,500 feet, \$1.50; No. 3, for 5,000 feet, \$1.00; No. 5, for 1,750 feet, 50 cts. Fumigators with lamp for applying made to contain sufficient for 5,000 cubic feet, 50 cts. each.

NIKOTEEN

A LIQUID INSECTICIDE

with water in any proportion. It is a disinfectant perfect in action, agreeable in odor, non-poisonous, cheap and unsurpassed for use in the home, the stable, kennel, or wherever a disinfectant is required. Circulars detailing its many uses mailed free upon application. Qt., 25 cts.; ½ gal., 50 cts.; gal., \$1.00.

- Paris Green and Fungiroid.** Per lb., 20 cts.; 3-lb. box, 60 cts.
- Paris Green, Breck's Guaranteed Pure.** ¼ lb., 10 cts.; ½ lb., 15 cts.; 1 lb. 30 cts.
- Quassaine.** (A Paste.) Ready for use by adding water. This article is a non-poisonous insecticide, a specific for San Jose scale, red spider, aphid, hop lice, borers and scale insects of all kinds. 1-lb. can, makes 25 gallons spray, 25 cts.; 5-lb. can, makes 125 gallons spray, \$1.25.
- Slug Shot.** Not only acts as an insect destroyer, but it will be found to be an excellent fertilizer. It contains nothing injurious to domestic animals, and does not deteriorate by age. On low-growing plants it should be dusted on with a very fine sifter. On tall shrubs and trees it should be applied with bellows. Price, 5-lb. pkg., 30 cts.; 10-lb. pkg., 50 cts.; in barrels of about 225 lbs., per lb., 4½ cts.
- Soap, Pinner's Tobacco.** Manufactured from the essential oil of tobacco, for the destruction of all insects, parasites and their eggs. Per lb., 50 cts.; ½ lb., 30 cts.
- Soap, Whale Oil.** For destroying insects on plants, trees, vines, etc., for washing down the bark of trees, grapevines, etc. In boxes, 1-lb., 15 cts.; 3½-lb., 35 cts.; in buckets of about 14 lbs., \$1.75
- Soap, Sulpho-Tobacco. Rose's Perfected.** Does perfect work on all insects affecting flowers, trees and animals. In tin boxes, sufficient for 10 gals. of water, 25 cts.
- Soap, Permol-Kerosene.** This soap contains 25% of kerosene oil, and although solid in all ordinary temperatures it is quickly soluble in any desired proportion of water. It combines the properties of a "Resin Wash" and "Kerosene Emulsion." It destroys scale of every kind, aphides or active plant lice, and all sucking insects. 1 lb. makes from 16 to 40 gallons wash or spray, according to the enemies to be overcome. Full directions for its use accompany each package. 1-lb. pkg., 25 cts.; 25-lb. pkg., 15 cts. per lb.; 50-lb. tubs, 13 cts. per lb.

See Special Offers on third page of cover.

Special Offer No. 3 only applies to articles on this page.

Soap, Permoli-Copper. This preparation contains copper in a form practically soluble in water, until thoroughly dried. In using it for *mildew, rust, smut*, and such fungi a strength of 1-lb. to 30 gals. of water is recommended. Do not dissolve it in iron or zinc utensils. 1-lb. tins, 75 cts.; 10-lb. tins, 65 cts. per lb.

Spanish Pink. A safe and effective article for the destruction of cabbage and web-worms, caterpillars, and other chewing insects that affect cabbage, squash, cucumbers, melons, etc. Non-poisonous. 35 cts. per lb.

Sulphate of Copper. (Blue Stone). Per lb., 10 cts. *Net.*

Sulphur, Flowers of. Used to prevent and cure mildew on plants. 8 cts. per lb.; \$6.00 per 100 lbs. *Net.*

Tobacco Extract. Black Squall Brand. Pure, highly concentrated; hydrometer test, after Beaume's scale 40 degrees, temperature 60 degrees Fahrenheit, being of uniform strength, is always effective. It can be applied by vaporizing or spraying. It effectually destroys green fly, red spider, and scale. Per pt., 25 cts.; per qt., 40 cts.; per gal., \$1.00; 5 gals., \$4.00.

Tobacco Extract. Rose Leaf Brand. A perfectly pure, aqueous extract, highly concentrated and always uniform in strength of nicotine poison. Destroys green fly, mealy bug, red spider, and scale. Pts., 25 cts.; qts., 45 cts.; 1 gal., \$1.10; 5 gals., \$4.50.

Tobacco and Sulphur Powder. Prevents and cures mildew. Kills green and black fly and other insects. 10 cts per lb.; \$6.00 per 100 lbs.

Tobacco Dust. Very finely pulverized. A valuable insecticide and fertilizer. 5 cts. per lb.; \$2.50 per 100 lbs. *Net.*

Tobacco Stems. For fumigating. If used as a mulch around sweet peas and other plants they prevent the destructive work of the wire and cut worms. \$1.00 per bbl.; \$2.50 per bale.

XL-All Liquid Insecticide. For syringing, spraying, dipping, or sponging. Destroys all insects, especially effective against mealy bug and red spider. Can be used without injury in graperies, even when the fruit is in an advanced stage of growth. Pt., 65 cts.; qt., \$1.00.

XL-All Vaporizing Compound. This is an English preparation, that at the first glance has a high-priced appearance. The safety with which it can be used, its never-failing effectiveness and the ease with which it can be applied as an insecticide, places it at the head of the first rank. It is cheaper, results considered, than any other vaporizing compound, and there is no other like it. Its action is positive on *Mealy Bug, Thrip*, and all kinds of *Aphis*. Price per bottle No. 1, \$8.25; No. 2, \$4.50; No. 3, \$2.25; No. 4, \$1.15. The smallest bottle is sufficient to fumigate 5,000 cubic feet.

Fumigators. With lamp for vaporizing: large, \$1.00; medium, 85 cts.

TOUGH ON FLIES.

This is the original preparation for the purpose of preventing insects attacking horses, cattle, and other domestic animals. We have sold it for ten years; each year with largely increased sales. We confidently recommend it, as experience has proved it to be as represented, in every particular. Harmless and effective.

One application instantly and positively relieves horses and cattle from all annoyance from *Green Heads*, the dreaded *Texas Heel Fly* as well as from other flies, gnats and insects of every description for at least twenty-four hours. It improves the coat of the animal and abolishes the use of fly nets. It prevents thrush and other hoof diseases. It is soothing and healing if applied to sores, and stands unrivalled as a disinfectant. Applied to cows, its wonderful effect in securing for them perfect rest and a chance to feed in peace quickly manifests itself in their improved appearance and

by the increased quantity of milk given. It is the greatest compound of this progressive age. Recommended by thousands using it. One gallon lasts four head of horses or cattle an entire season. Price of "Tough-on-Flies": Qt. cans, 50 cts.; 1/2 gal. cans, \$1.00; 1 gal. cans, \$1.50, and five gal. cans, \$1.40 per gal.

ANTI-FLY.

A harmless, but effective preparation of drugs and chemicals to relieve horses and cattle from the annoyance of flies and other insects. It contains no tar, nor does it spoil the appearance of the animal's coat. Price, per qt., 50 cts.; 1/2 gal., \$1.00; per gal., \$1.50; 5 gal. cans, per gal., \$1.40.

INSECTICIDE DISTRIBUTORS.

For spraying apparatus, pumps, etc. See our large Implement Catalogue, 384 pages, free to customers.

Bellows, Woodason's, for Liquid and Powder. These are really high-grade goods that will, with proper care, last many years and do satisfactory work.

Dusters, Tin. These have finely perforated bottoms for applying Paris Green, Slug Shot, etc. 20 cts. each. *Net.*

Gun, Excelsior Powder. For applying insect powders, etc. 15 cts. each.

Cyclone Powder. 15 cts. each.

Blizzard Powder. 10 cts. each.

Powder Puff, Scollay's Insect. This is a large, strong rubber bulb, with long metal neck and distributor set at an angle that enables the operator to apply

either powder or liquid over or under the leaves. \$1.00 each.

Shaker Perfection Powder. This is well named "Perfection," for it is the most perfect and easiest to use of any shaker yet offered. It was gotten up especially to apply Bug Death, but it will be found useful for applying Plaster Dust, Paris Green and Plaster or any other powder. The bottom is made of copper and finely perforated. The powder is distributed by a swinging, semi-circular motion. Each, 65 cts. *Net.*

Special Offer No. 3 only applies on above goods.

FERTILIZERS.

BRECK'S LAWN AND GARDEN DRESSING.

The verdict of all who have used Breck's Lawn and Garden Dressing is that it is the most complete and satisfactory Lawn Dressing ever placed upon the market. It is manufactured expressly for us and we vouch for its containing all the constituents required to produce a luxuriant growth. We believe beyond a question that ours is the only absolutely odorless Lawn Dressing. It is also so clean that the most fastidious person can apply it without offending the organs of sight and smell. It being quick in action, the effect can be seen immediately after the first rain or the sprinkling of the hose, and going directly to the roots of the grass, stimulates them to greater activity, thereby thickening the sward and producing a finer growth, which remains rich, green and velvety throughout the season. Its superiority over stable manure can scarcely be estimated, as the latter, in addition to disfiguring the lawn by its unsightly appearance, also gives out an unpleasant odor, and always contains weeds and other undesirable seeds. Great care should be taken to distribute the dressing evenly, and in no greater quantities than recommended on the tag which accompanies each bag, as a too liberal application will injure the sward. It can be applied at any time during the year, from April to November, as often as the grass seems to need nourishment. In making new lawns apply at the same time the seed is sown and rake in with the seed. Never apply the dressing while the grass is wet with dew or rain. Any time the grass is perfectly dry will answer, but the best time to apply it is just before a shower. It is equally as suitable for flower beds and all vegetable crops as for the lawn.

BRECK'S MARKET GARDEN MANURE.

Not subject to either of our special offers, but a discount of 5% may be deducted when cash accompanies order.

A high grade, properly balanced, chemical fertilizer that is especially recommended to market gardeners and farmers for potatoes and all vegetable crops. We sold large quantities of it last year, and already we have had many testimonials, also increased orders from those who had it for use this Spring. *It is beyond a question the best value offered in Chemical Fertilizers.* 50 lbs., \$1.00; 100 lbs., \$1.70; ton, \$32.00.

PERUVIAN GUANO.

For a number of years there has been some difficulty in obtaining a desirable grade of this article. When a good quality is to be had there is much satisfaction resulting from its use, especially on early vegetables and quick growing crops. We have made arrangements with the importer of the *best brand* that sells so freely in Britain and offer our patrons the *genuine "Peruvian"* in original bags.

Per ton, \$50.00; per 100 lbs., \$3.00 net.

UNLEACHED HARD WOOD ASHES.

Our trade in this valuable fertilizer has grown to such an extent that we have for a number of years had an experienced agent employed in Canada collecting the purest, driest and choicest grade of Hard Wood Ashes that is obtainable. We guarantee the percentage of potash and to insure against too much water we accept none that contain more than 12 per cent moisture. *We quote special prices on car loads in bulk delivered anywhere.* Price per ton, in barrels, f. o. b. Boston, \$15.00 net; per barrel, f. o. b. Boston, \$1.75 net.

See Special Offers on third page of cover.

SHEEP MANURE.

This is a pure natural manure, and nutritious food for plants. Its effect is immediate. It is the best of all manures for mixing with the soil for greenhouse plants—one part manure and six parts soil. Price, in bags of 100 lbs. each, \$2.00; per ton, \$35.00. Sheep manure is net f. o. b. Boston.

JADOO FIBRE AND LIQUID.

A chemically prepared vegetable fibre, rich in plant food, and from its peculiar character is especially suitable to induce root growth and cause healthy, vigorous plants. For sprouting seeds there is nothing to equal it. } **Jadoo preparations**

SCOTCH SOOT.

This is much used by florists and gardeners, both as a fertilizer and fungicide. Mixed with Flowers of Sulphur (two-thirds soot, one-third sulphur), there is nothing better to prevent and cure mildew. Used as a fertilizer, either in the dry state or in liquid, it quickly promotes growth, and heightens the color of both flower and foliage. Per 100-lb. bag, \$2.50; 25-lb. bag, \$1.00, net.

MAPES MANURES.

These Manures and Superphosphates are fine, dry, in superior mechanical condition for use in machine drills, or for application by hand. They are free from stickiness and dampness. Packed in bags weighing 200 lbs. each.

Each bag is plainly branded, besides having a tag attached, upon which is printed the *Guaranteed Analysis and full directions for use.*

The basis of the Mapes Manures is Bone; no Rock used.

We are the sole Boston Agents, also for some other New England sections. Pamphlets giving full information in regard to the Manures mailed free.

Our special offers do not apply to Mapes Manures, but we allow five per cent discount for cash payments. F. O. B. Boston.

Potato Manure. Ammonia, 4.50 to 5 per cent; phosphoric acid, 8 to 10 per cent (soluble and available, 8 per cent); soluble potash, actual, 6 to 8 per cent, all as high grade sulphate and in forms free from muriates (or chlorides); magnesia, lime, etc., 77 to 81 per cent. For Irish and sweet potatoes, also for asparagus, early vegetables, tomatoes, sugar beets, fruits, sorghum, sugar cane, sweet corn, etc. Per bag of 200 lbs., \$3.90; three bags and over, \$38.00 per ton.

Economical Potato Manure. Ammonia, 4 to 5 per cent; phosphoric acid, 6 to 8 per cent, (soluble and available, 4 to 5 per cent); soluble potash, actual, 8 to 10 per cent, all as high grade sulphate and in forms free from muriates (or chlorides). Per bag of 200 lbs., \$3.60; three bags and over, \$35.00 per ton.

Fruit and Vine Manure. Ammonia, 2 to 3 per cent; phosphoric acid, 7 to 9 per cent, (soluble and available, 5 to 7 per cent); soluble potash, actual, 10 to 12 per cent, all as high grade sulphate and in forms free from muriates (or chlorides). For insuring fruiting power, particularly in quality of fruit in vineyards (grapes), pears, apples, plums, strawberries, and all small fruits. Is slow in effects. Per bag of 200 lbs., \$4.00; three bags and over, \$39.00 per ton.

Vegetable Manure, or Complete Manure (for light soils.) Ammonia, 6 to 8 per cent; phosphoric acid, 8 to 10 per cent, (soluble and available, 6 to 8 per cent); soluble potash, actual, 6 to 8 per cent, all as high grade sulphate and in forms free from muriates (or chlorides). This is our special manure on all kinds of soils, for truck, early vegetables, onions, celery, tomatoes, also on light soils for oats, hops and barley. All vegetables require liberal supplies of soluble potash and in the proper form. Even with heavy or clay soils the natural supplies of potash are insufficient. Per bag of 200 lbs., \$4.20; three bags and over, \$41.00 per ton.

Complete Manure (for heavy soils.) Ammonia, 6 to 7 per cent; phosphoric acid, 10 to 12 per cent, (soluble and available, 8 to 10 per cent); soluble potash, actual, 3 to 4 per cent, all as high grade sulphate and in forms free from muriates (or chlorides). For any soils where small quantity of potash but large quantities of ammonia and phosphoric acid are required. It is very safe for use around young plants, nursery stock, strawberry vines. It is very forcing. Special for early turnips. May be used for oats, hops, barley, also as a top dressing for grass, and as a forcing manure for all vegetables and fruits at all times. Per bag of 200 lbs., \$4.00; three bags and over, \$39.00 per ton.

Complete Manure (for general use.) Ammonia, 4 to 5 per cent; phosphoric acid, 10 to 12 per cent, (soluble and available, 8 to 10 per cent); soluble potash, actual, 4 to 5 per cent. A substitute for stable manure. For use on all crops and all soils with or without stable manure. Use broadcast; if any in hills, use sparingly. Special for oats, Hungarian grass, vegetables, melons, tomatoes, and seeding with or without grain. Per bag of 200 lbs., \$3.80; three bags and over, \$37.00 per ton.

Complete Manure ("A" brand.) Ammonia, 3 to 4 per cent; phosphoric acid, 12 to 16 per cent, (soluble and available, 10 to 12 per cent); soluble potash, actual, 2.50 to 3.50 per cent. Specially adapted for use in hill or drill on all crops, particularly in connection with farm manures. Special for peas, beans, buckwheat and turnips. Per bag of 200 lbs., \$3.50; three bags and over, \$34.00 per ton.

Average Soil Complete Manure. Ammonia, 5 to 6 per cent; phosphoric acid (soluble and available), 7 to 8 per cent; soluble potash, actual, 5 to 6 per cent, all as high grade sulphate and in forms free from muriates (or chlorides). For onions, tomatoes, vegetables of all kinds, Irish and sweet potatoes, fruits, and cranberries. A substitute for stable manure. Special for tobacco on heavier soils. Per bag of 200 lbs., \$3.60; three bags and over, \$35.00 per ton.

Corn Manure. Ammonia, 3 to 3.50 per cent; phosphoric acid, 10 to 12 per cent (soluble and available, 8 to 10 per cent); soluble potash, actual, 6 to 7 per cent. Also for sweet corn, fodder corn, Hungarian grass, millet, late turnips, late cabbage, and seeding to grass. Per bag of 200 lbs., \$3.50; three bags and over, \$34.00 per ton.

Cauliflower and Cabbage Manure. Ammonia, 5.50 to 6.50 per cent; phosphoric acid, 6 to 8 per cent; actual potash, 8 to 10 per cent. Per bag of 200 lbs., \$3.80; three bags and over, \$37.00 per ton.

Grass and Grain Spring Top Dressing. Ammonia, 5 to 6 per cent; phosphoric acid, 7 to 9 per cent; actual potash, 5 to 7 per cent. Per bag of 200 lbs., \$4.10; three bags and over, \$40.00 per ton.

Cereal Brand. Ammonia, 2 to 3 per cent; phosphoric acid, total, 8 to 10 per cent (soluble and available, 6 to 8 per cent); soluble potash, actual, 3 to 3.50 per cent. For wheat, rye, corn, oats, buckwheat, and all farm crops, particularly where farm manures are used. Specially adapted for use in hill or drill. Per bag of 200 lbs., \$3.20; three bags and over, \$30.00 per ton.

See Special Offers on third page of cover.

BRADLEY'S FERTILIZERS

Are guaranteed to contain more plant food in a better mechanical condition and of higher agricultural value than any other fertilizers in the world, and they are, therefore, as the New England Homestead affirms "the most economical to use."

Do not be misled into purchasing unknown fertilizers of uncertain value, but buy Bradley's Fertilizers which have grown large crops of superior grass, grain, and vegetables, on thousands of farms all over New England for more than thirty years.

Among their leading brands are :

BRADLEY'S SUPERPHOSPHATE

Bradley's Superphosphate, the pioneer of the fertilizer industry in the United States, has been more extensively used than any other brand of fertilizer in the world.

From its unvarying quality and uniform condition it has gained the name that more plainly bespeaks the estimate in which it is held among the farmers than volumes of praise,— "*the Old Reliable*."

BRADLEY'S POTATO MANURE

For Growing Smooth, Sound Potatoes of the Best Quality Without Barnyard Manure.

Bradley's Potato Manure is in no sense a theoretical or experimental mixture, but is prepared from formulas which repeated *field tests* have proven will produce the largest crops of smooth, sound potatoes.

The universal testimony of leading farmers is convincing that it gives the best of satisfaction, and at a considerable saving in cost over many of the high-priced special "potato manures" whose alleged scientific combination is their principle claim to the farmers' patronage.

BRADLEY'S COMPLETE MANURES

For Potatoes and Vegetables. — For Corn and Grain. — For Top-Dressing Grass and Grain, With 10 per cent. Potash.

These manures are the richest and most concentrated fertilizers sold, as has been abundantly proven by actual results in the field. They are manufactured from the very best plant-food materials obtainable, combined in such form and proportions as long practical experience has proven will yield the largest crops of the best quality.

Send to us for finely Illustrated pamphlets, describing all of their brands, and let us quote you prices on all of these unequalled fertilizers before purchasing elsewhere.

PRICES FOR BRADLEY'S STANDARD FERTILIZERS:

BRECK'S POULTRY AND SWINE MEAL.

This article is the most complete animal food for poultry obtainable. It is concentrated, pure, palatable and effective. It was first offered to the American public in 1892, but it has since that time found its way into the yards of the most progressive poultry men in the country, because it is superior in every respect to all other meals made from meat or animal matter.

100 lb. bag, \$2.25; 50 lb. bag, \$1.50; trial bag (a month's supply for thirty hens) \$1.00

Ground Oyster Shells. 100 lb. bags, 65 cts. per 100 lbs.; in bbls. of 250 lbs., 65 cts. per 100 lbs.

Mica Crystal Grit. 50 lb. bag, 65 cts.; 100 lb., 90 cts.

Cracked Poultry Bone. Per bbl. of about 200 lbs., \$2.50 per 100 lbs.

Bone Meal for Poultry and Cattle. 50 lb. bag, \$1.50; 100 lb. bag, \$2.50; per bbl. of about 200 lbs., \$2.50 per 100 lbs.

Flour of Bone. 50 lb. bags, \$1.50; 100 lb. bags, \$2.50; per bbl. of about 200 lbs., \$2.50 per 100 lbs.

Ground Beef Scraps. 50 lb. bags, \$1.50; 100 lb. bags, \$2.50.

Fish Meal. (Desiccated Fish.) 50 lb. bag, \$1.25; 100 lb. bag, \$2.00.

Wheat. \$1.50 to \$2.00 per 100 lbs., according to quality. *Net.*

Wheat Screenings. \$1.25 to \$1.50 per 100 lb. bag, according to quality. *Net.*

Green's Poultry Food. A mixture of granulated cereals, grand as a scratching food for both chicks and adult fowls. Per 50 lb. bag, \$1.25; 100 lbs., \$2.

Spratt's Food. The celebrated English preparation, nothing equals it for young chicks. 50 lb. bag, \$3.00; 100 lbs., \$5.50.

Barley. 80 cts. per bu. *Net.*

Buckwheat. 90 cts. per bu. *Net.*

Peas. Small white Canada, \$1.25 per bu. *Net.*

Sunflower. Large Russian, \$2.00 per bu.

Millet. Golden, for chickens, \$1.25 per bu. of 50 lbs. *Net.*

Hemp, Large Russian. Much fed to pigeons and fowls that are being fattened for the table, \$1.75 per bu. of 40 lbs. *Net.*

Cut Clover. Per 50 lb. bag, \$1.25; 100 lbs., \$2. *Net.*

Clover Meal. Per 50 lb. bag, \$1.25; 100 lbs., \$2. *Net.*

Kaffir Corn, or White Sorghum. A favorite food with pigeon fanciers, and since we have offered it at a low price poultry men have fed it with best results. Per 100 lb. bag, \$1.50. *Net.*

Breck's Eureka Egg Food. This preparation stands without a rival, as hundreds of those who have used it testify. It aids digestion, prevents and cures many diseases common to fowls, and although the best food known to produce eggs, it does not destroy the fertility of the egg. Sample box by mail on receipt of 25 cents. 1 lb. box 25 cents each; if by mail 40 cents each; 2½ lb. box, 50 cents each; by mail \$1.00 each; 6 lb. box, \$1.00 each; 10 lb. box, \$1.50 each; 25 lb. kegs, \$3.50 each. These larger sizes can be sent cheaper by express than by mail.

Sheridan's Condition Powders. 25 cents and \$1.00. *Net.*

Rust's Egg Producer. 1 lb. box, 25 cts. each, if by mail, 44 cents; 2½ lb. box, 50 cts. each, if by mail, \$1.00; 6 lb. box, \$1.00; 10 lb. box, \$1.50; 25 lb. kegs, \$3.50. These larger sizes can be sent cheaper by express than by mail.

Rust's Haven's Roup Pills. These pills act directly on the glands and mucous membrane, allaying all tendencies to fever and carrying off all morbid matter from the system. Box of 48 pills, free by mail, 25 cts.

Rust's Haven's Climax Condition Powder. Small package, 25 cts., if by mail, 50 cts.; 2 lb. box, 50 cts., if by mail, 85 cts.; 5 lb. box, equal to 6 25-cent packages, \$1.00. (This size is too heavy for mailing and can be forwarded cheapest by express.)

F. P. C. Chick Manna. 1 lb. 10 cts.; 5 lbs. 40 cts.; 15 lbs. \$1.10; 60 lbs. \$4.20. *Net.*

Madoc Gape Cure. Small, 20 cts.; large, 35 cts. *Net.*

Multum in Parvo Poultry Powder. Small, 20 cts.; large, 35 cts. *Net.*

Charcoal, Granulated. Per pound 7 cts.; per 100 lbs. \$5.50. *Net.*

Charcoal, Powdered. 6 cts. per lb.; per 100 lbs. \$4.50. *Net.*

Chalk, Powdered. 2 cts. per lb. *Net.*

Copperas. (Green Stone.) 2 cts. per lb. *Net.*

Carbolic, Crystallized. 50 cts. per bottle, bottle included. *Net.*

Carbolic Acid Solution. 40 cts. per pint bottle, bottle included. *Net.*

Carbolic Purifying Powder. Trial pkg., 25 cts., if by mail, 40 cts., 6 lb. pkg., \$1.00, if by mail \$2.00.

Dalmation Insect Powder. Per lb. 40 cts. If by mail, 50 cts.

Slug Shot. This article is not only a valuable insecticide but also a powerful disinfectant. Per 5 lb. pkg., 30 cts. *Net.*

Death to Lice. 15 oz. box, 25 cts., if by mail 40 cts., 3 lb. pkg., 50 cts., by mail \$1.00. 100 oz. pkg., \$1.00, if by mail, \$2.00.

Death to Lice, Special. A preparation containing all the qualities of the famous "Death to Lice Powder," but which is soluble in kerosene oil and can be used to paint or spray roosts and interiors of poultry houses. 1 lb. box, 25 cts., if by mail, 40 cts.

Death to Lice Ointment. For use on young chicks. Per box, 10 and 25 cts.

Poultry Supplies, except as marked *Net*, are subject to offer No. 1 in N. E. Outside of N. E. offer No. 3 only applies.

See Special Offers on third page of cover.

POULTRY SUPPLIES.—Continued.

“O. E. C.” Lice Powder. An excellent article. It not only is death to all insects but acts as a powerful yet pleasant disinfectant. 25 and 50 cts. per box. *Net.*

P. D. Q. Powder. A valuable preparation that not only destroys and prevents insects of all kinds on fowls, but drives away quickly all sorts of insects that pester the housewife. It is useful for a hundred and one purposes and not the least among them is that of disinfectant. Per package, 25 and 75 cts. *Net.*

Rice’s Lice Paint. For poultry and all domestic animals. Kills ticks, mites, lice, fleas and bed-bugs. Easy to apply. 2 qt. can, 50 cts.; 1 gal. can, 75 cts.; 5 gals., \$3.00. *Net.*

Tobacco Dust. An exceedingly fine powder. Valuable as an insecticide. Per lb., 5 cts. *Net.*

Tobacco Stems. Used to mix with nest material, fumigating, etc. Per lb., 5 cts.; per bale, \$2.50. *Net.*

Sulpho-Naphthol. This preparation, originated by the late Dr. Cabot, is recommended for a great many purposes. It cleans and heals all sorts of cuts, bruises and sores. It is sure death to all kinds of bacteria and insects and is unsurpassed as a disinfectant. For domestic animals, poultry and poultry houses it is the thing. 50 ct. bottle makes 10 gals.; \$1.00 can, 50 gals. solution. *Net.*

Oil of Tar. A new coal tar preparation, somewhat similar to Sulpho-Naphthol. Per qt., 25 cts.; ½ gal., 50 cts.; 1 gal., \$1.00. *Net.*

Veterinary X-Zalia. A purely vegetable preparation, contains no alcohol or poisonous ingredients. It may be applied to a raw surface or even poured into the eye of an animal without causing pain. It cures Galls, Scratches, and Surface Inflammation of every description. Per large bottle, \$1.25.

Plaster. Land. A valuable absorbent, when mixed with the droppings it deodorizes, also enhances their value as a fertilizer. Per 100 bag, 50 cts.; per ton \$8.00. *Net.*

Nest Eggs, China. Per doz., 40 cts. *Net.*

Medicol Nest Eggs. These are medicated eggs but entirely different from anything that has hitherto been offered. They can be cleaned without injury, are lasting, effective, and appreciated by chickens and adult fowls. No hen should be set without one of these in the nest as a preventative of vermin. One placed in a bird cage keeps it sweet and the bird free from insects. They drive away lice from pot plants, prevent moths from attacking furs or other clothes when packed away, and are also valuable as a disinfectant. 10 cts. each; \$1.00 per doz.

Bellows, Spraying. \$1.25 to \$2.25.
Bellows, Houchin’s Patent Powder. 50 cts., 75 cts., \$1.10 and \$1.50 each.

Brushes, Whitewash. Tampico centre, bristles outside. Each, 7 in., 50 cts.; 8 in., 60 cts.; 9 in., 75 cts.

Nests, Wire. Strong and clean. Each 50 cts.

Leg Bands. The famous Phoenix, secure, neat, light and superior to all others.

Numbered to order. Per doz. 25 cts.; per 100 \$1.50.
Leg Bands, Aluminum, for Pigeons. Seamless, per doz. 40 cts.; per 100, \$2.50. Open, per doz. 30 cts.; per 100 \$1.50.

Leg Bands, Aluminum, for Poultry. Per doz., 30 cts.; per 100, \$1.50.

Pumps, Breck’s Hand Force is a double-acting portable force pump. It is made of brass, and therefore impervious to the action of acids and liquids, and will not rust or corrode. Pump is placed directly in water or other liquid, insuring a perfect suction. It is furnished complete with malleable foot-rest and suitable nozzles for a solid stream and large spray. Pump may be used for washing windows, wagons, in conservatories, gardens, etc., and for general spraying purposes. Price, \$4.50 each.

Guns, Insect Fowling. 2 oz. size, 15 cts. each.

STONE DRINKING FOUNTAIN.

This fountain is of the best patent stoneware, and is very desirable.

½ gallon each	Net Price, \$0.35
1 “ “	“ “ .45
2 “ “	“ “ .55

“E. H. M.” Stone Fountains. Made of glazed stoneware, in two pieces; a saucer and an inverted cup, finished off on top to prevent roosting. Strong, cheap, easily cleaned and quickly filled. The best stoneware fountain yet offered. The one quart size is especially suitable for pigeons. 1 qt., 30 cts.; 2 qt., 35 cts.; 1 gal., 45 cts. *Net.*

Sanitary Fountain. Square in form, made of galvanized iron, in two pieces, easily cleaned and filled. 1 gal., 75 cts.; 2 gal., \$1.00. *Net.*

HUB DRINKING FOUNTAIN.

This fountain is made of the best galvanized iron, is very strong, easily cleaned, quickly filled, and is equally serviceable for both chickens and adult fowls (see cut). This fountain is vastly superior to all others.

1 gallon	Price, each, \$0.75
2 “ “	“ “ 1.25

Roofing Material. We carry in stock two and three ply Tarred Roofing, Ruberoid Roofing, Red Rope Roofing Paper, etc., \$1.25 to \$2.25 per square.

Caponizing Instruments. We carry a full line of the best makes and approved patterns. Prices, from \$2.50 to \$7.00 per set. Book of instructions furnished with each set.

Knives, French Poultry Killing.

When this knife is properly used there is no complaint as to imperfect bleeding of broilers or roasters. By mail 50 cts.

GENUINE PRAIRIE STATE INCUBATORS AND BROODERS.

The least that can be said of these famous incubators is "they are without equal." The U. S. government uses them exclusively at the Experiment Stations at Washington, D. C. The largest poultry breeders in the country also use them exclusively, and they are the standard from which all incubators are judged.

(Our net price list. Not included in our special offers.)

DEPARTMENT OF LANDSCAPE GARDENING AND ESTATE DEVELOPMENT.

We have, in connection with our comprehensive business, a Department of Landscape Gardening and Engineering, under the charge of a competent party whom we recommend to our patrons.

We undertake to advise as to the laying out of gardens, the general improvement of landed property, and the development of building estates; to provide plans and estimates, and, for a fixed sum, to carry out all the work incidental to the making of a small suburban garden, as well as to the designing and executing of the most extended estate improvement. We make no charge for plans, but they remain our property unless the work is carried out by us. The client, however, is expected to undertake transportation and other charges incident to the examination of the grounds in order to obtain a thorough understanding of their capabilities. To facilitate business, please address,

JOSEPH BRECK & SONS, Corporation,

“Department of Landscape Gardening.”

47-54 No. Market St., Boston, Mass.

For General List of Flower Seeds see Pages 87 to 121.

FLOWER SEEDS, ETC.

ASTERS.

THE ASTER SEEDS WE OFFER ARE IN EVERY CASE THE VERY BEST OF THE SEVERAL CLASSES, ALL HAVING BEEN GROWN ESPECIALLY FOR US BY THE MOST SKILLED AND SUCCESSFUL CULTIVATORS OF THE DIFFERENT KINDS IN AMERICA, ENGLAND, FRANCE AND GERMANY; MANY OF THE STRAINS, WHICH ARE SUPERIOR TO ALL OTHERS, WE CONTROL EXCLUSIVELY. OUR ASTER SEED IS POPULAR WITH THE LEADING FLORISTS AND PRIVATE GROWERS THROUGHOUT THE UNION, AND WE RECOMMEND IT IN THE FULL ASSURANCE THAT IT WILL SATISFY AND DELIGHT ALL WHO PLANT IT.

FOR COMPLETE LIST OF VARIETIES SEE PAGES 91 TO 94.

Christmas Tree. An entirely new class that on account of its habit of growth and free-flowering is sure to be much in demand. The plants, as shown by the cut, are tree-like in form, about 18 inches high, and bear a *mignon-like* flower at the end of each stem. The originator says that frequently a single plant will produce from 70 to 100 well-developed flowers from 1½ to 2 inches in diameter. As the plants attain a breadth as great as their height they should be set at least 18 inches apart in the beds. Four colors, **Pink, White, Light Blue, Carmine.**

Ostrich Feather. (Hohenzollern.) Compared with the original *Comet Aster*, this new variety is twice the size, and owing to the peculiar formation of the flowers, its very size softens its general appearance and makes it in every respect more desirable. The graceful re-curved petals of the *Comet* type are retained. The flowers are frequently seven inches in diameter, and surpass many of the Japanese *Chrysanthemums* in beauty. The plant is of vigorous habit and produces an abundance of flowers on stems almost two feet in length. Offered in five colors, **White, White changing to Rose, Rose, Crimson, Reddish Lilac**, each 15 cts.; mixed 15 cts.

Single Comet. The increasing popularity of single flowers makes this a welcome addition. It is perfectly distinct from other single flowered sorts and infinitely more beautiful, the petals being very long, slender and wavy. The plants have all the vigor and floriferousness of the large *Comet* class. Offered in three colors, **Light Blue, Rose, Pink.** Each, 20 cts.; mixed, 15 cts.

See Special Offers on third page of cover.

Christmas Tree Aster.

Each color, pkt., 20 cts.; mixed pkt., 20 cts.

ASTERS. Triumph, "Dark Blue." This new color is of remarkable beauty, being a deep satiny blue, and as the flowers have the brilliant splendor of the **Triumph** class, this variety may be considered an acquisition. Pkt., 20 cts.

Triumph, "Deep Violet." A welcome addition to the finest of all dwarf asters. The flowers are of true Pæony form, very double, and of a satiny, deep violet. Pkt., 15 cts.

Giant Victoria, "Snow White." A new strain of an old favorite. The plants are of vigorous branching growth, two feet high, and each produce about twenty beautifully formed, very double pure white flowers five inches and over in diameter. Pkt., 20 cts.

Dwarf Comet, "Bridesmaid." The dwarf Comet Asters come into bloom after the early flowering dwarf Comet Perfection class, therefore are not competitors but supplementary and lengthen the season of flowering. The Bridesmaid is a rare color among Asters—white, changing to a rosy lilac—it is free flowering and comes true from seed. Pkt., 20 cts. Pure white: pkt., 20 cts.

Dwarf Comet Perfection This class is a general favorite for many reasons. Its dwarf habit of growth—about two-thirds of a foot in height—makes it specially valuable for bedding. Its early blooming quality—it may be had in flower by July,—the large size, fine formation and pure white color of the flowers are features that recommend it. Pkt., 15 cts.

Giant Comet, "Sulphur Yellow." This new and desirable color is of the very best type of the Giant Comet strain, consequently is sure to meet with a welcome. Pkt., 15 cts.

Dwarf Mignon. Another Aster of dwarf habit that will enhance the value of the class. It grows about ten inches high, branches just above the ground, and produces in profusion the same lovely, semi-globular flowers for which the Tall Mignon Aster is so much prized. For beds, borders, or cutting it cannot fail to prove of immense value. The new colors are **Crimson, White, Carmine, Rosy Carmine.** Each pkt., 15 cts; mixed, 15 cts.

Japanese Branching. The plants are of branching habit; the flowers have twisted petals like the Comet Aster or Japanese Chrysanthemum. They bloom somewhat later than the German sorts. Colors, **White, Crimson, Pink, Purple.** Mixed pkt., 10 cts. each.

Dwarf Queen. "Vermilion." A new, brilliant and unique color. A valuable addition to our bedding Asters. Pkt., 10 cts.

Dwarf Chrysanthemum Perfection. "Pure White." A new color in this favorite class. Flowers very large, very double, and of faultless form. Pkt., 10 cts.

Queen of the Market. "Scarlet." A magnificent color of the earliest flowering Aster. Pkt., 10 cts.
For general list of Asters see pages 91-94.

AJUGA, Metallica Crispa. A very dwarf, hardy perennial, growing about 4 inches high, and producing rather large, curiously-curved leaves of a dark green color with a metallic hue. The small, erect flower spikes are well-furnished with tiny bright blue flowers. Of great value for edging or carpet bedding. Pkt., 25 cts.

ASTILBE Chinensis. A new vigorous growing spiræa from China. Its flower stalks attain a height of from five to six feet. The plume-like flowers are creamy white, shaded with rose. A perfectly hardy perennial. Pkt., 15 cts.

ANTIRRHINUM. (Snapdragon.) We are offering finer strains of this much improved, old-fashioned favorite than are obtainable elsewhere. Our seed is from an unequalled private collection.

Black Prince. A grand acquisition to the assortment of dwarf Snapdragons. The color of its flowers is a velvety black with an intense purple reflex. A peculiarity that adds another charm to this plant are the golden yellow anthers; in other Antirrhinums these are hidden within the throat. This is a fit companion to bed with the white Queen of the North. It comes absolutely true from seed. Pkt., 20 cts.

Majus Grandiflorum. The plants are of very robust growth. The flowers are nearly double the size of the ordinary kinds, while the colors are very vivid and striking. Splendid mixture, all colors, pkt., 10 cts. The following are new varieties:

— **Cupreatum.** Carmine red and coppery orange, with yellow lip.

— **Kermesinum.** Fiery crimson.

— **Brilliant.** Orange, carmine and yellow, with white throat. Pkt., 15 cts. each.

AMARANTHUS Hybridus. "Brilliant." A vigorous growing hybrid of A. Tricolor. The plant attains a height of about five feet, is not of branching habit, and is covered from the ground to tip with beautiful, variegated red and green leaves. The flower is carmine-rose, tinted yellow. Pkt., 15 cts.

ADENOPHORA Potanini. A splendid hardy perennial, allied to the Campanula. Its slender but elegant flower spikes are two to three feet in length, and during the months of July and August are covered with beautiful, bell-shaped flowers of a light blue color. Pkt., 15 cts.

See Special Offers on third page of cover.

Triumph Dark Blue Aster.

Antirrhinum. Black Prince.

BALSAM. "Prince Bismarck." The brilliant salmon-rose of this sort represents an entirely new color in Camellia-Flowered Balsams. The plants are free bloomers. The flowers are the perfection of form and doubleness; comes true from seed. Pkt., 10 cts.

BIDENS, Atrosanguinea Superba. A tuberous-rooted, tender perennial of dwarf growth, that flowers from June until frost. Height, one foot. Daisy-like flowers are borne singly on stems well above the foliage. The color is blackish purple. The petals of the flowers are irregular in size and frequently crested and curled. Pkt., 10 cts.

BEGONIA, Hybrida. "Butterfly." Remarkable new strain of the tuberous-rooted, large, single-flowered Begonias. The flowers are marbled or spotted white on bright scarlet or brilliant carmine. It comes quite true from seed. Pkt., 25 cts.

CANNA, Variegata. New variegated leaved Canna, reproducing itself true from seed. Leaves, light green, lined and blotched with red and yellow and edged with light red. A novel and beautiful plant for decorative and bedding purposes. Pkt., 25 cts.

COSMOS, Klondyke. A cross between the small early flowering and the large late flowering yellow sort. Sown in March and transplanted to the open ground in May it will bloom in June, and continue to produce on good, strong stems a succession of bright golden yellow blossoms until frost. The flowers average from 2½ to 3½ inches in diameter and are equal in substance and finish to the well-known pink and white favorites. Pkt., 10 cts.

Cosmos, Klondyke.

New Early Blooming. While many people will continue to grow the large and exceedingly beautiful flowered sorts, although to do so successfully means a little trouble, yet this strain, because of its early flowering will find favor with many. The seed we offer was grown in Massachusetts and is the result of patient selection for a number of years. The flowers are of fair size and many lovely shades. Pkt., 10 cts.

Early Blooming, White. Same strain as the preceding. Pkt., 10 cts.

CALLIOPSIS. "California Sunbeams." This is an improved strain, being larger flowered and of earlier blooming habit than the *lanceifolia* hitherto offered. The flowers are borne on long stems, and are all beautifully fringed or toothed. The color varies from light to deep yellow shades. Pkt., 10 cts.

CARNATION, Giant Margaret. "Sulphur Yellow." A color hitherto lacking in this favorite, easily grown, early flowering carnations. The color is as its name implies, a pure, deep, sulphur yellow. The flowers are large, double and well formed. This class blooms from seed in about four months. Pkt., 20 cts.

CENTAUREA, Imperialis.

New large flowering hybrids of the sweet scented Centaureas, the result of crossing *C. Margaret* with *C. Moschata*. They inherit the vigorous growth of the latter, and form large, branching bushes three to four feet in height, covered with long-stemmed, noble flowers, of the exact form and of the same fragrance as those of the popular *C. Margaret* but of almost double the size. Unfavorable or wet weather does not affect these flowers

Centaurea, Imperialis.

as it does the other Centaureas. The plants bloom profusely from July until frost. The following varieties come almost entirely true from seed. **Alba**, White, Pkt., 25 cts.; **Armida**, Delicate Lilac, Pkt., 25 cts.;

Favorita, Brilliant Rose, Pkt., 25 cts.; **Purpurea**, Purple Rose, Pkt., 25 cts.; **Splendens**, Dark Purple, Pkt., 25 cts.; mixed colors, Pkt., 20 cts.

See Special Offers on third page of cover.

Eschscholtzia Paniculata Rosea.

borne well above the dark green foliage. It will prove of great value for beds or borders. Pkt., 15 cts.

“**Rose Cardinal.**” A very striking and rich color. Quite distinct deep, rosy cardinal. It differs very much from the carmine, and will be found a grand addition to this well known popular flower. Pkt., 15 cts.

CYCLAMEN. Bush Hill Pioneer. We are glad to offer a new color in this marvellous break from the old form. It is like the original introduction except in color, which is red. It is an acquisition that will be appreciated. Pkt., \$1.00.

“**Papilio.**” The flowers of this new type have highly frimbriated and curled petals. The seed we offer is mixed, and represents about five colors, white to dark red. A very beautiful class and a distinct break from previous forms. The foliage is handsomely mottled. Pkt., 25 cts.

“**The Sultan.**” This is without doubt the deepest colored Cyclamen Giganteum yet raised. The flowers are intense crimson, very fine, handsomely marked foliage. The plant is of robust growth and flowers freely. Pkt., 75 cts.

CINERARIA. “Tom Thumb Blue.” This is a very dwarf strain of cineraria, the plants scarcely growing more than a foot high, and producing its flowers in great profusion in two shades—light and dark blue. It lasts in flower a very long time—quite three months. Pkt., 50 cts.

ESCHSCHOLTZIA, Californica, Paniculata Rosea. This is a novelty of great merit and deserves the attention of lovers of flowering annuals. It is not only distinct, but by years of careful selection is a fixed form hitherto unknown to Eschscholtzias. The rosy white petals are delicately channelled or fluted with tiny folds radiating from the centre and richly adorned with a soft primrose hue, enhancing its beauty wonderfully. Pkt., 25 cts.

LUPINUS Arboreus. “Snow Queen.” A remarkable new perennial lupin. It forms dense bushes about four feet high that are completely covered with elegant racemes of snowy white flowers. It is very suitable for cutting and blooms at a season when good white flowers are generally scarce. Pkt., .15 cts.

MATRICARIA. Eximia Double. “Snowball.” This, like the “Golden Ball,” forms a densely compact bush, one foot high, profusely covered with flowers. The flowers, however, are of the purest white. Pkt., 10 cts.

MIGNONETTE. Goliath. A new bright red mignonette of very vigorous growth and branching habit. The flower trusses are of immense size—7 inches long and 2 inches through at the base. The color is a magnificent pure bright red, superior to anything yet offered. The great substance of the flower stalks make it of special use for cutting. Pkt., 15 cts.

CENTAUREA. Americana Alba. Pure white flowered variety of the American corn flower. The flowers are very large—five to six inches across, and look like finely cut tissue paper. Pkt., 10 cts.

COLEUS. Large Leaved Dwarf. An entirely new class of coleus that is specially adapted for carpet bedding. The plants attain a height of six to eight inches and produce their leaves in great profusion. The seedlings need no cutting back; simply pinch out the small flower stems and you have a perfect carpet of living leaves. The colors are blackish red to red, marbled and spotted. They come perfectly true from seed. Pkt., 15 cts.

CANDYTUFT. “Little Prince.” (Iberis coronaria princeps.) Charming dwarf variety of the Candytuft “Empress.” It forms candelabra-shaped pyramids, six inches in height, with four to five spiral spikes of large, pure white flowers,

Goliath Mignonette.

See Special Offers on third page of cover.

MIGNONETTE. "Bismarck." This is a splendid strain selected from the desirable "Machet" type. It produces extraordinary large flower spikes of a reddish color. Pkt., 10 cts.

Compacta Argentea. Recommended as being much superior to anything hitherto offered as a White Mignonette. It is of bushy, compact growth and produces about sixty or seventy per cent of fine, large, silvery white flower spikes. Pkt., 10 cts.

MYOSOTIS. Alpestris Stricta Alba. This will be prized as a companion to the two colors—rose and blue—of the same habit that have preceded it. The plant is of pillar-like form, the flower stems erect and covered with pure white flowers, making it suitable alike for bedding or pot culture. Pkt., 15 cts.

NASTURTIUMS. We call especial attention to our strains of Tall and Dwarf. *They are really beautiful, scarce named varieties.* We have them grown for us by the most successful cultivator of this popular flower in the world. We assort the varieties ourselves, and can thus assure customers of their obtaining, not only the most vigorous strain in existence, but the greatest number of shades and delicate colors. The mixture includes white, pink, rose, scarlet, crimson, brick, claret, garnet, orange, primrose, yellow, etc. Tall Mixed, pkt., 5 cts.; oz., 15 cts. Dwarf Mixed, pkt., 5 cts.; oz., 20 cts. Tropæolum Lobbianum Mixed, pkt., 10 cts.; oz., 40 cts. For complete list of varieties, see pages 111, 116.

Lobbs. Yellow. A new variety of Tropæolum Lobbianum with pure golden yellow flowers without any spots. Pkt., 10 cts.

"Sunlight." Beautiful light green foliage lit up by myriads of rich golden yellow flowers that measure nearly three inches across. The large rounded petals are daintily crinkled, which gives a very pretty effect. The two upper petals have a few delicate brown lines at their base, and the three lower ones are more distinctly bearded or fringed at the throat than is usual. Pkt., 10 cts.; oz., 25 cts.

"Moonlight." This new nasturtium is the counterpart of **Sunlight**, except in color, which is an exquisite pale straw color. It is as beautifully shaped as its brilliant companion and has the same lovely crinkled effect in the petals. Pkt., 10 cts.; oz., 25 cts.

POPPY. Nudicaule Striped. Perhaps not more than half of the plants raised from seed offered under this name will prove true to color, but the variety is so very attractive when obtained that we feel warranted in listing it. It is a new striped variety of the favorite Icelandic Poppy. It is of free flowering, dwarf habit. About 50 per cent of the flowers produced have broad golden yellow stripes on a distinctly bright orange-red ground. Pkt., 20 cts.

Poppy, Nudicaule.

originated and offered by William Bull, F. L. S., London, is a guarantee of its value. Pkt., 50 cts.

Sunlight Nasturtium.

Maid of the Mist. A magnificent, white, single peony-flowered poppy. The flowers frequently measure from 7 to 10 inches across; the petals are very large, overlapping, daintily incurved, deeply and regularly fringed. The blossoms are borne on long stems, and instead of looking up, as do most of the poppies, turn their faces outward. Pkt., 15 cts.

PETUNIA. Double Giants. The originator of this acquisition, Mr. Benary, says: "Experiments made by me of late years in the inter-crossing of the very largest selected flowers only of single and double petunias have given such surprising results that I can now with the greatest confidence offer this splendid new class of Double Giants. About 30 per cent of the seedlings yield enormous, very double flowers of almost globular shape, the diameter varying between 5½ and 6½ inches. When well grown these gigantic flowers, in spite of their size, are produced in great number on one plant and they display all the beautiful variety of color hitherto known among double petunias. Pkt., 25 cts.

Primula Sinensis, "Countess." A splendid new sort with very large, beautifully fringed flowers of a delicate bluish-pink color; the blossoms are of great substance and borne in magnificent trusses. The fact that this variety was

SWEET PEAS.—*Lathyrus Odoratus*.

(See pages 125, 126 for complete list.)

*Here are Sweet Peas on tiptoe for a flight
With wings of gentle flush o'er delicate white,
And taper fingers catching at all things,
To bind them all about with tiny rings.*

—Keats.

We were the first Seedsmen in America to popularize these gems of beauty and fragrance and we still maintain our position with the largest stock of the best strains of the kinds that give satisfaction to planters. There are now so many sorts offered the public that in some cases it is quite difficult to make a selection and be sure of having only the best. To overcome this trouble we have materially shortened our list, and while we retain as complete a variety of colors and blendings as formerly, our patrons have only half as many names to select from. With the exception of some of the 1900 novelties, all are American grown, and are superior in all respects to imported strains.

Eckford's Latest Introductions.

Lady Grisel Hamilton. Color: A beautiful shining pale lavender. In form it is of the most advanced Giant-flowered type. Per oz., 30 cts.; per pkt., 15 cts.

Countess Cadogan. Slightly hooded, of a bright shining violet color, overlaid with a charming light sky blue, wings a pure sky blue. The whole flower is a most desirable color, quite distinct, free flowering and robust. Per oz., 30 cts.; per pkt., 15 cts.

Duke of Westminster. A deep rose maroon, overlaid with bright shining violet, a grand flower, quite unique, being perfectly distinct from any other variety, of large size and perfect form, very free flowering. Per oz., 30 cts.; per pkt., 15 cts.

Hon. F. Bouverie. Standards a most beautiful coral pink, wings slightly lighter of same color, a charming flower of grand shape and substance, and a most desirable addition. Per oz., 40 cts.; per pkt., 20 cts.

Lady Skelmersdale. Standards bright rosy lilac, wings white slightly shaded rosy lilac, an extremely pretty and desirable variety of the hooded form, and quite distinct. Per oz., 25 cts.; per pkt., 10 cts.

Mrs. Dugdale. Standards most lovely rose, shaded primrose, wings primrose shaded and splashed light rose, a most charming color, very large and finely expanded, a grand flower of the most advanced type. Per oz., 30 cts.; per pkt., 15 cts.

Othello. A beautiful dark-brown chocolate red self-colored flower, a color not before attained, it is of first-class form, of splendid size and substance, a very free bloomer, and good robust habit. Per oz., 30 cts.; per pkt., 15 cts.

OTHER NOVELTIES.

Gorgeous. Standard rich orange salmon, deepening in the veins, wings suffused orange salmon, deeper in shade than the standard. The flowers are finely expanded, usually borne in threes, and the plant is of vigorous habit. Oz., 15 cts.; pkt., 10 cts.

Sadie Burpee. The pure, pearly white flowers are of the prettiest form yet produced. Oz., 20 cts.; pkt., 10 cts.

Lady Mary Currie. Deep orange pink, delicately shaded rosy lilac. Oz., 15 cts.; pkt., 10 cts.

Chancellor. Standard, bright orange, wings, bright orange pink, just a shade lighter than the standard. It is of strong growth and usually produces three flowers on a stem. Oz., 15 cts.; pkt., 10 cts.

Colonist. Soft lilac, overlaid with rose, very free flowering. Oz., 10 cts.; pkt., 5 cts.

Duchess of Sutherland. A pearly white, delicately suffused with light pink. Oz., 10 cts.; pkt., 5 cts.

Duke of Sutherland. Deep claret, back of standard flushed with maroon, wings indigo blue. Oz., 10 cts.; pkt., 5 cts.

Black Knight. Deep maroon. Oz., 10 cts.; pkt., 5 cts.

Modesty. The most delicate pink in existence. Oz., 10 cts.; pkt., 5 cts.

See Special Offers on third page of cover.

SWEET PEAS—*Continued.*

Stella Morse. Rich primrose, flushed pink. Oz., 10 cts.; pkt., 5 cts.

Navy Blue. Deep violet blue, largest size. Oz., 20 cts.; pkt., 10 cts.

Burpee's Bush Sweet Pea. A new race; the plant is of bush form and does not require a trellis. It attains a height of about 18 inches by about 12 inches diameter. The flowers in form and color resemble those of *Gray Friar*, but smaller in size. Pkt., containing forty seeds, 25 cts.

STOCK, Mammoth White Column. Produces one long sturdy spike, closely set with fine double white flowers. Pkt., 10 cts.

Giant Brompton. "Empress Elizabeth." Shining, carmine rose tint, the growth being similar to the Tree Wall Flower, throwing up a strong main stem, and branching out in candelabra shape, height about one and a half feet. The percentage of double flowers is very high, and the form of the flowers full and of large size. Pkt., 25 cts.

Scabiosa.

color will be appreciated. We give the originator's description of this new sort. Up till now the widespread endeavors to obtain varieties of the Saintpaulia have met with little success. At last variations in respect to color and size of the flowers appear to be developing from the type. In the novelty here offered not only do the flowers come considerably larger than any hitherto known, but they are of an intense dark violet hue, from which the golden yellow anthers stand out in beautiful contrast. Pkt., 35 cts.

SALVIA SPLENDENS, Silverspot. The most distinctive feature of this new variety is its strikingly handsome, spotted foliage. The leaves are a rich, soft, dark green, with light sulphur or cream colored spots of various size liberally sprinkled over them. The intense, bright scarlet flowers are very large, and the plants of neat, compact habit and as floriferous as the ordinary sort. Pkt., 40 cts.

TROPÆOLUM LOBBIANUM. "Princess Victoria Louise." Decidedly one of the finest and most effective of the Lobbs' Climbing Nasturtium. The large, well shaped flowers are creamy white, with conspicuous orange scarlet blotches at the base of each petal, and pure orange red calyx and spur, a rare coloring among annual nasturtiums. At times the flowers show also a red margin. Pkt., 20 cts.

Verbena, Crimson Miniature.

SCABIOSA. "Azure Fairy" A large, double-flowered, new Scabiosas, with azure blue flowers, a coloring similar to that of the perennial *Scabiosa Caucasica*. It will be appreciated because of its value for cutting. Pkt., 20 cts.

Silene Pendula. "Dwarf Queen." Equally as compact and regular in growth as the single flowered sort. Its foliage, however, is of darker color, and the flowers very double. The color is a bright, deep, purplish red. Pkt., 20 cts.

SUNFLOWER. Helianthus Cucumerifolius "Orion." Effective new variety of the "Stella" type. The petals of this novelty are twisted like those of the Cactus Dahlias. The color and form are excellent, and the plants flower freely. Pkt., 10 cts.

"Diadem." This is a lemon colored variety of the Sunflower *Stella* introduced a few years ago. The flowers show a beautiful, light lemon with a black centre. It is of value for cutting. Pkt., 15 cts.

SAINTPAULIA IONANTHA GRANDIFLORA VIOLACEA. The beautiful Saintpaulia, introduced in 1893, is now a general favorite, and variations in size and

Saintpaulia

TAGETES. Patula, Double "Liliput." Sulphur-yellow double Liliput French Marigold. Beautiful and very effective for beds and borders. Pkt., 10 cts.

VERBENA. Hybrida Grandiflora Alba. This is the first of the Mammoth Verbenas that produces itself true from seed. The flower trusses are large and of the purest white. Pkt., 20 cts.

Scarlet Shades, 20 cts.

Crimson Miniature. This so called miniature Verbena is the first variety of a very dwarf class, not growing higher than about six inches by ten to twelve inches in diameter. The numerous flower trusses, of a glowing scarlet with white eye, are borne well above the foliage. It will be of value for bedding. Pkt., 25 cts.

WE DOUBLE IT

We will take pleasure in duplicating all First Premiums offered in 1900 by any Horticultural or Agricultural Society in the United States, that may be secured with the product of Flower Seeds or Bulbs purchased of us. WE WILL PAY the amount on presentation of the certificates of the society's award, accompanied by particulars of cultivation, and a statement that the seeds from which the prize winners were grown were BRECK'S SEEDS.

(THIS OFFER IS COPYRIGHTED.)

Our purpose in making this unique offer is threefold :

- 1st. We aim to awaken a greater interest in Horticultural and Agricultural Societies, and to increase the competition at their Exhibitions for the premiums offered.
- 2d. We hope that the enhanced value of these *First Prizes* will result in the production of better specimens exhibited, through the planting of high grade seeds and more intense cultivation ; and that by demonstrating possibilities, stimulate a purpose on the part of growers to attain the highest standard of perfection.
- 3d. We believe that the Seeds and Bulbs offered by us are the best strains in the world, and we wish to encourage those who are not acquainted with our goods to ascertain it by experience.

If you are successful in obtaining any *First Prizes* with the product of *Breck's Seeds* or *Bulbs*, in accordance with the offer we make above, send us the society's certificates of such prizes (which certificates will be returned to you), together with the particulars of cultivation, and we will send you a sum equal to that awarded by the society. This offer does not include designs, baskets of flowers, vases of mixed flowers, etc., but applies only to exhibits of specific varieties to which prizes are awarded for their superior excellence, resulting from cultivation or selection. The *same specimens* must not be entered in more than one class or show, and if awarded specific prizes they cannot also be included in collections. We do not duplicate prizes offered for arrangement of exhibit, or for mixed exhibits.

Persons who intend competing for prizes must secure the necessary seeds or bulbs direct from us.

Results of "We Double It."

From the large number of persons who applied to us, in accordance with our offer to DOUBLE ALL FIRST PRIZES, secured with the product of Breck's Flower Seeds or Bulbs, we have selected six, at random, and give here the results in detail :

MRS. WM. BAIN, North Chatham, N. Y., secured, on Sept. 18, 1889, at Rensselaer County Fair, \$21.00, as first prizes on Assortment of Cut Flowers, Basket of Cut Flowers, Everlastings, Tuberoses, Phlox, Asters, Verbenas. At Columbia County Fair, the same month, she was also successful with Basket Cut Flowers, Potted Asters, Verbenas, Sweet Peas, Phlox Grandiflora, Marigolds, Zinnias, Helianthus, Dianthus, etc., on which the sum of \$14.25 was paid her. Against these two exhibits we sent our check for \$38.25, making Mrs. Bain's total prize money \$76.50.

C. W. ENO, of Hannibal, N. Y., obtained "firsts" for Ten Week Stocks, Dahlias, Everlastings, Sweet Peas, Zinnias and Asters. The sum we sent in this instance was \$11.50

MRS. H. A. JONES, Worcester, Mass., was awarded, at Worcester County Exhibition, \$11.25 on Dianthus, Display of Cut Flowers, Sweet Peas, Zinnias, etc. We, of course, duplicated the amount.

To B. M. LINDSLEY, Monticello, N. Y., we paid \$7.50 to equal the awards made him at Sullivan County Fair on Asters, Marigold, Mignonette, Antirrhinum, Balsam, Centaurea Cyanus, Verbenas, Cockscomb, etc.

The Worcester County's Horticultural Society's prize for Ten Week Stock, was lifted by Mrs. S. H. RECORD, of Worcester. Our check made \$6.00 the value of the award. Another exhibitor at the Worcester County Horticultural Society's Show was H. B. WATTS, of Leicester, Mass. He took the three leading prizes for Asters in the professional class ; also for the best Nasturtiums, Scabiosa and Marigolds tabled. We paid him \$16.00. Mr. E. A. WEEKS, Worcester, surprised the public with the Hollyhocks he grew from Breck's Silver Medal Strain, and obtained the Worcester Society's first prize for them.

First prizes cannot be had without careful attention and skill in cultivation ; neither can they be produced unless well bred, pedigree strains, such as we offer, are planted. The few examples we here quote of what has been done with the product of Breck's seeds is sufficient to demonstrate that they are *the best* obtainable. We trust those who have heretofore been disappointed in securing satisfactory results will, in 1900,

GIVE BRECK'S SEEDS A TRIAL.

The "BAY STATE" Wheel Harrow.

WITH RIDING ATTACHMENT.

THE ONLY HARROW in the market having a Riding or Wheel attachment whereby the harrow is practically independent of the wheel attachment, and when the levers are thrown forward and teeth raised, or when teeth have entered the ground, the frame rests upon the axle and supports attached to it.

OVERCOMES the objections that exist in other Spring Tooth Harrows, and will work in trash, stones and soils where other Harrows fail.

Send for descriptive circulars, mailed free.

Made with 16 teeth, larger sizes to order.

Manufacturer's price, 16 Tooth Harrow complete \$25.00. Our net price \$24.00.

The "ACME" Pulverizing Harrow AN OLD FAVORITE Clod Crusher and Leveller. AT A REASONABLE PRICE.

For durability, ease of handling to take from field to field, and satisfactory work, the 'Acme' is the best Harrow for the money we have ever seen. It is unquestionably the best sod Harrow, and lighter of draft than any Disc Harrow.

We do not know how anybody can farm without the 'Acme,' especially as it now costs but little more than the ordinary spike tooth harrow. Catalogue mailed on application.

No. 17. Two Horse (see cut) 6 ft. 6 in. cut. Our net price each \$17.00

GENUINE PHILADELPHIA LAWN MOWERS FOR 1900.

HAND MACHINES.

Although imitated by nearly every manufacturer of lawn mowers, the "Genuine Philadelphia" retains its old place: superior to all others. Imitation of a machine is a sure indication of its merit, for no manufacturer would undertake to imitate an inferior article. The following styles are especially recommended:— Style K. R. B. has roller bearings and is far superior to any ball bearing machine made. Styles T. and K. are old favorites, always giving satisfaction. Style M. for hard service in parks, etc., is unequalled. Style E. High Wheel, is a fine mower. For cutting high grass as well as low grass, use Style X. X. As its name indicates, "Style Golf" is for Golf Greens, where it is necessary to cut the grass very short.

Width of Cut.	Style "K. R. B."		Style "K."		Style "T."		Style "M."		Style "E. H. W."		Style "X. X."		Style "GOLF."

Common Sense Sprayers

Invaluable for spraying all kinds of insecticides in a liquid or dry powder form, and for spraying cattle with kerosene. They are especially adapted to the use of Poultrymen and Florists and can be used by all to advantage around the house and place. The copper sprayer is not affected by acids, and is practically indestructible.

NOTICE!

Our stock of Farm, Garden, Lawn, and Greenhouse requisites is very large. As our space does not permit mention of the great variety, will send our Catalogue of 314 pages, on request, to all who send us orders from this book, and to others on receipt of 15 cents to cover transportation.

By mail, No. 1, 35c.; No. 2, 56c.; No. 3, 85c.

"Miller Junior" Sprinkling Cart.

These carts are intended for sprinkling lawns and private grounds or country places, and for truck gardens and flower gardens, cemeteries, yards and drives. They are very handy sprinklers around railroad shops and mills and lumber yards, and all places where a one-horse sprinkling cart of moderate capacity is useful. They will sprinkle wide or narrow. They can be used for laying dust or for watering grass as the wide tires prevent any injury to the sod. The valves work separately from the driver's seat so that either side can be used. A hose-threaded brass bib faucet is placed in the rear of the barrel, to which a regular three-quarter inch garden hose can be attached for watering plants and filling barrels.

Not included in our special offers.
Sprinkling cart as shown. Our net price, \$90.00.

See Special Offers on third page of cover.

BRECK'S "SPECIAL" FARM OR RAILROAD CART

Breck's "Special" Farm or Railroad Cart (see illustration) is especially adapted to farm or light contract work. 4 in. tires, 2 in. axle, 4 ft. 8 in. Warner hub wheels. Capacity 22 cubic feet.

Nothing but the best material, both wood and iron, is used. Each cart is well painted and we can assure our customers that they compare favorably with any offered in New England.

N.B. Farm Wagons, Contractors' Carts, Sleds, etc. furnished promptly from stock or made to order. Send for illustrated price list. Correspondence solicited.

Farm or Railroad Cart,	Mfrs. price each, \$75.00	Our net price, each, \$60.00

Single Express Harness	32.00	“ “ “ 1 1/2 x 30 “ “35

In addition to the foregoing we carry in stock a complete assortment of Trace, Whiffletree, Stake, Back, Breast and Tailboard Chains, Back and Belly Bands, Hames, Halters, Tie Ropes, Stake Irons, Wire Cushions, 3 Bow Tops, Umbrellas, etc., at lowest market prices.

"IDEAL" ICE CREAM FREEZER.

Will make Ice Cream in less than three minutes.

The "Ideal" freezer can be used in any kitchen, dining room or parlor without soiling linens, carpets or furniture. With this freezer one can freeze again and again until all the ice in the freezer is consumed. Any quantity of ice cream from one pint to one gallon can be made and the process repeated as often as necessary to supply any reasonable number of people without renewing ice or cleansing can. The ice receptacle is air tight and thereby retains the cold for an unusual period, giving the greatest economy in the matter of ice.

Satisfaction guaranteed or money refunded.

Mfrs. price, per doz.	\$42.00	Our net price, each, \$3.50
-------------------------------	---------	-----------------------------

CAHOON'S BROADCAST SEED SOWER.

The acknowledged superiority of these machines over all others has already placed them in the front rank of labor saving agricultural implements. A saving of four-fifths of the labor and one third of the seed is effected by their use, and a person entirely unused to sowing by hand can use this machine with perfect success. **Sows from 4 to 8 acres per hour** at a common walking gait, throwing out wheat about forty feet wide.

Our net price, each.

\$4.50

NEVER SLIP WIRE STRETCHER.

Our net price, \$1.00 each.

If you cut or injure the galvanizing on a wire it lets in rust. Consequently the wire is weakened and breaks at this point. The **Never Slip** stretcher has an iron jaw, but no teeth. When it gets a hold it never lets go, but hangs on with a deathlike grip to all kinds of wire.

ONE OF THE FEW
GOOD THINGS
ADVERTISED.

SMALL'S CALF FEEDER.

This article was designed and has been perfected by the inventor for feeding milk to young calves in a natural way before they are old enough to eat and drink otherwise. Our net price, each \$2.50
Extra nipples by mail 25c. each, five for \$1.00.

**KING OF THE CORN FIELD
CORN PLANTER.**

Plants all kinds of corn, beans, peas, beets and other seeds of similar size. Also fertilizer in hills or drills as desired. Send for circular.

Mfrs. price, \$30.00. Our net price, \$25.00.

**THE AMERICAN
HAND CORN PLANTER**

This planter is better known, has reached a larger sale, has proved more popular, and has given better satisfaction than any other hand planter ever manufactured. Operates with one hand as fast as one can walk, and an operator can plant in one day, from eight to ten acres. Works in all kinds and conditions of soil, and is the only one which insures an accurate and reliable seeding.

Our net price, each. \$2.00.

**White Mountain
Ice Cream Freezer.**

**WHITMAN ADJUST-
ABLE WEEDER.**

This weeder differs materially from all others, it having a lever adjustment that by simply turning a handle nut, the teeth can be instantly adjusted from a vertical position to any inclination desired, if necessary, without stopping the horse.

Mfrs. price, \$12.00 each. Our net price, \$10.00 each.

For complete catalogue of Agricultural Hardware, Implements and Machines, Woodenware, etc., and how to obtain it, see page xiv.

See Special Offers on third page of cover.

It is somewhat difficult to convey detailed particulars as to how success may be had in the planting and maturing of flowers. The skilled gardener who has every appliance necessary, often fails in his efforts; while the little girl who has no knowledge of the art, but loves flowers, will frequently surprise not only herself but the older folks, *who are not so much interested*, with the results obtained by her labor and love. "The Norwegians have a pretty and significant word, 'Opelske,' which they use in speaking of the care of flowers. It means literally 'loving up,' or cherishing them into health and vigor."

The following practical information, in connection with the special cultural notes, that, when necessary, are set in the right-hand column against the variety, will be of service in making for success.

Hardy Annuals (hA.).—This class requires no artificial aid, but grow and flower freely in the open air, mature their seeds and die in the same year. Before sowing the seeds in the open border, the soil should be thoroughly enriched with fertilizer, or stable manure, dug and raked until firm, level and smooth. If possible, the location should be free from shade, although some sorts do well where they do not have the sun for more than half the day.

Seed should be sown in spring as soon as the ground is dry enough to work freely. After the seed is sown shake over it fine soil sufficient to cover, lighter or heavier, according to its size; a good rule is, say, to cover, to twice the depth of the diameter of the seed. Very fine seed, such as *Portulacas*, require no covering at all, but should be merely pressed into the soil with a piece of board, or the palm of the hand. A second sowing ought always to be made in from two to four weeks after the first, in order to provide for a succession, as well as to insure against failure.

When it is desired to sow hardy Annuals and carry them along indoors until they can be planted out for early effect, there is nothing better than shallow boxes, two or three inches deep, filled with sandy loam. Take especial care until the plants are up and during their early stages of growth to give plenty of air and moisture, and yet *not too much water* or they will "damp off." When they are well out of the seed leaf they should be planted in rows in other shallow boxes; or in two-inch pots, setting from three to six plants around the edges. If they begin to crowd one another before the weather is suitable for setting out a second transplanting, more thinly or into larger pots, may be necessary. When first set out in the garden, or during very dry weather, until well established, they should be watered frequently. Keep down all weeds, and loosen the ground occasionally so that the plants may receive the full benefit of rains and dews, which will not be the case if the ground is allowed to become hard or crusted.

Half-Hardy Annuals (hhA.).—These, in the latitude of Boston, should not be sown out-doors until about the middle of May. A good rule, followed by a successful gardener, is to sow these, and even some of the tender Annuals, at the same time he makes his sowings of cucumbers and melons. With half-hardy Annuals, however, it is generally best to sow them under the same conditions as advised for hardy Annuals in-doors.

Tender Annuals (tA.).—To get strong plants and an early bloom, sow the seed in shallow boxes or pots in March, and place them in a warm greenhouse, or plunge in a moderate hot bed, shade from the strong sun and water only with a very fine rose. A very light, sandy soil and good drainage are essentials. Be particular that the finer seeds are not covered over deep, but have the soil pressed closely about them. Water frequently, especially if the greenhouse or hot bed is very warm. When the plants are out of the seed leaf, transplant into shallow boxes or small pots. When sufficiently strong and the weather is suitable, set out in the flower beds, but not before the end of May.

Hardy Biennials (hB.) and **Perennials** (hP.).—These require the same conditions as hardy Annuals. Those marked with a dagger (†) if sown early, in boxes, as directed for hardy and half-hardy Annuals, will bloom the first year. All, however, may be sown in the open border in August or September; in which case it is a good plan at the commencement of frost to give them a light covering of straw, leaves or

See Special Offers on third page of cover.

dry litter. When the frost is out of the ground in spring remove the covering, loosen the soil around the plants, and when large enough transplant them to where they are permanently to remain.

Half-Hardy Biennials (hhB.) and **Half-Hardy Perennials** (hhP.).—These may be sown in the open border as directed for hardy Annuals, but, when practical, it is generally better to start them in-doors, as recommended for half hardy Annuals.

Tender Biennials (tB.) and **Tender Perennials** (tP.).—Accord these the same treatment as recommended for tender Annuals.

Those to whom a greenhouse or hot bed is not available will meet with good success by placing the boxes or pots in the open sunlight in the windows of the dwelling house, and keep the temperature from 65 to 75 degrees during the day and 10 degrees less at night. If the soil was in proper condition at planting time, a slight sprinkling once a week will be sufficient until the plants begin to grow nicely.

Greenhouse Seeds.—Some of these may be sown at almost any season of the year. Leaf mould, or peat, with some fine sand added, is the most suitable soil, and the shallow pots or boxes before recommended can be used. The smaller seeds of greenhouse plants are somewhat difficult to germinate unless extra care be taken with them; they require to be slightly watered occasionally, and sheltered from the hot sun until large enough to transplant. Press the soil firmly down into the pot or box and make perfectly level, so that no unequal settlement takes place through watering. The seeds should be sown thinly and covered very lightly with finely sifted sphagnum moss. A pane of glass placed over the pot or box until the little plants get well started is of decided benefit, but care should be taken to air occasionally, when excessive moisture is shown by water globules on the under side of the glass. When the young plants have two leaves they should be transplanted into a similar soil, in other pots or boxes. To do this do not pull them out one by one, but, if in a pot, remove the entire contents and break up gently; if in a box, loosen by running a trowel around the side and take out a mass at a time, thus preserving the little roots which are so essential to their future welfare. After transplanting, keep in a shady part of the greenhouse and water sparingly until established, when they may be removed to the light.

It is well to know that Poppies delight in a rich, sandy loam, that Eschscholtzias will do best in a poor soil; or of Pansies, give them abundance of old manure, the richest earth you can find, plenty of water and partial shade; that you need not be anxious if it is not convenient to carry water for Nasturtiums in a dry time, for their habitat is dry Chili, and they will thrive in a dryer soil and atmosphere than almost any other plant; or that Zinnias like a heavy, cool clay; Sweet Peas a deep, rich soil and plenty of water, while such gross feeders as Roses, Sunflowers, Hollyhocks, Dahlias and Asters cannot be planted in too rich a situation; yet,

"To raise your flowers, various arts combine,
Study these well, and fancy's flight decline;
If you would have a vivid, vigorous breed,
Of every kind, examine well the seed;
Learn to what elements your plants belong;
What is their constitution, weak or strong;

Be their physician, careful of their lives,
And see that every species daily thrives;
These love much air, these on much earth rely;
These, without constant warmth, decay and die;
Supply the wants of each, and they will pay
For all your care through each succeeding day."

EXPLANATORY.

Our General List of Flower Seeds, it will be found, is divided into the following groups, viz.: Annuals, Perennials and Biennials; Climbers; Greenhouse Plants; Everlastings; Ornamental Grasses, etc. The botanical and common names are arranged in alphabetical order, and a very complete index will be found in front of book. The dash (—) designates the repetition of the name above it as applying to the variety to which the dash is prefixed; the *first column*, following the name, denotes hardness and duration; the *second column*, height in feet; the *third column*, color, or predominating colors; the *fourth* and *fifth columns* show the price per ounce and packet respectively; the *sixth column* gives brief descriptions or special notes on culture. To this arrangement and the following abbreviations we have given the most careful attention, and we trust that their simplicity will not only find favor with our customers, but prove valuable to them as a handy reference.

KEY TO ABBREVIATIONS.

hA designates Hardy Annuals—Lasting but one year.
hhA " Half Hardy Annuals—Lasting but one year.
tA " Tender Annuals—Lasting but one year.
hB " Hardy Biennials—Lasting two years.
hhB " Half Hardy Biennials—Require protection during winter.
hP " Hardy Perennials—Lasting three or more years.
hhP " Half Hardy Perennials—Require protection during winter.
tP " Tender Perennials—Lasting three or more years, but require greenhouse protection during winter.
† " Biennials or Perennials that, if sown early, will bloom the first year.
Trai., " Trailing Habit; and Var., Various.

The abbreviations of colors are—

blk.—black.
br.—brown.
tri.—tricolor.
car.—carmine.

crim.—crimson.
sul.—sulphur.
lav.—lavender.
pur.—purple.

var.—variegated.
scar.—scarlet.
spot.—striped.
ver.—vermillion.

In some instances when the flower is of two colors, these are indicated by the initial letters only,—for example, b&w—blue and white; s&y—scarlet and yellow; w&p—white and pink.

For Flower Seed Novelties, see colored pages.

<i>Asphodelus albus</i>	"	2	wht.	5	} Showy border plants with long spikes of flower. They do well in any soil.
<i>luteus</i>	"	4	yel.	5	

Asters. We not only claim that the strains of Asters offered by us are equal to any BUT THAT THEY ARE VASTLY SUPERIOR to those sold by many seedsmen. They are raised especially for our trade by the leading specialists of Europe and America. We pay much higher prices for them than are asked for the ordinary qualities on the market. The demand for Breck's Asters from the leading commercial and private growers all over the United States, however, warrants the labor and expense incurred, and is a sufficient recommendation of their superiority. We welcome a comparison of the product of Breck's seeds with that of the most highly lauded. Our prices speak for themselves.

Cultivation.—Those who wish Asters in flower throughout the season should make the first sowing about the middle of February and every two weeks thereafter until the middle of June. Sow in fine soil, and cover lightly in shallow boxes which should be set in the greenhouse or a sunny window. Keep moderately moist until the plants are well up, then transplant, either into other shallow boxes three inches apart, or into small pots. When the weather is settled and fairly warm set the plants out in the open ground, one foot apart each way, where they are intended to flower, and keep watered until they are established. Keep the soil open by frequent hoeings, and when the plants are two-thirds grown mulch with well rotted manure. A loose, but strong loam is best suited for asters.

The Aster Family is very large, embracing over 200 species. The most desirable are the Branching, Comet, Jewel, Pæony-Flowered, Rose-Flowered, Victoria and Washington.

See Special Offers on third page of cover.

Centaurea.—Continued.					
cyanus (Bachelor's Button or Corn Flower).....					for ribbon borders, edges of beds, etc. These are well-known favorites. The habit of the strain we offer is a much improved one, while the range of colors and shades is also greatly enhanced. They make a splendid display in the garden and are valuable for cutting. A new class, with large finely formed and deliciously fragrant flowers. Graceful plants that bear a profusion of sweet scented flowers in many colors. Clusters of long tube like flowers. Dwarf silver-leaved plant, valuable for edging. Thistle-like plants, with ornamental foliage. Pentstemon-like flowers. Brilliant colors. All the annual chrysanthemums are very effective and showy plants for beds and borders. They are also desirable for cultivation in the house. Their showy flowers are produced in abundance all summer. For cutting there is nothing better. The seed may be sown in the open border in April or May, or in a hot-bed and transplanted when large enough.

Myosotis (Forget-Me-Not)					
alpestris mixed.....	thP	1	mix'd	.75 5	} Charming little plants, very popular, producing their beautiful star-like flowers in great profusion; invaluable for spring garden decoration. The <i>Stricta</i> is an entirely new class of pillar-like form and very attractive. They with the <i>Victoria</i> are the best sorts for pot culture. <i>M. Palustris Tom Thumb</i> is a miniature marsh Forget-me-not that flowers from May until frost.

Papaver (Poppy)—					
<i>alpinum album</i>	¼oz. 2.00	thP	1 white	5	} These beautiful varieties of poppies are so well known that it is needless to say anything in their favor. Quite a number of the perennial varieties bloom the first year from seed if sown early. The alpinum sorts are of low growth and constant bloomers. Cardinal hybrids embrace several shades of rose, chamois, and brick red. Chinese have double feathery flowers. Danebrog, bright scarlet, with a white spot at the base of each petal. Lævigatum single, scarlet, black spots and white margin. Mephisto, scarlet and black spots. Mikado, feathery petals, white fringed with crimson. The nudicaule are all charming sorts that bloom very early. Oriental, one of the best, dark scarlet with a purple spot at the base of each petal. Pavonium, scarlet, with a black horseshoe-shaped blotch at the base of each petal. Shirley is fine for cutting, having long stems. The new strain we offer produces softer and more pleasing shades than we have offered hitherto. Yellow Rose, carnation-flowered

Stocks (Gilliflower).					The seed we offer is all pot grown especially for us in Germany, by the foremost cultivator of this fragrant favorite. It will produce a very large percentage of flowers that are unsurpassed for doubleness, form, size and color. Our Boston Florists' strain is also now raised in Germany. It produces a finelong spike, very double globular flower of the purest white. For a succession of flowers seed should be sown in March or April, in heat, and outdoors in May and June. A light soil and high cultivation is desirable.

Tropæolum nanum (Narturtium Dwarf)—					
—Aurora.....	hA	¾	varied	.20 5	} Beautiful bedding plants, unequalled for brightness and variety of coloring. The foliage is generally of a very dark green shade. They are very valuable for bedding and are not surpassed for producing an abundance of flowers for cutting. The Liliput is an entirely new class of charming little Nasturtiums and will become a general favorite. A light soil is most suitable for Nasturtium.

Viola Tricolor (Pansy)—					Pansy is one of our specialties. Nearly all the seed we offer is grown for us under contract, by persons who give special attention to their particular pet strain. For size and form of flowers, variety and brilliancy of colors and markings, there is nothing approaches those we offer. <i>Breck's Boston Prize</i> is an American strain and is superior to any European mixture. Mr. Bugnot annually grows for us the seed we offer under his name. The flowers are immensely large and wonderful in their coloring. The <i>English</i> and <i>Scotch Prize Pansies</i> are remarkably fine; they are from the finest collections in these countries. Our <i>Trimardeau Pansies</i> embrace the cream of that type, and will give perfect satisfaction in every particular. Pansies repay good treatment in profusion and size and brightness of flower, as well as in large, handsome foliage. They delight in a cool moist soil and a situation that protects them from cutting winds as well as the midday sun. To obtain large flowers early in spring seed should be sown in July or August and the plants protected with a frame during winter. Spring sown seed does very well, although

SWEET PEA.

Our Sweet Peas are AMERICAN GROWN. The list, though not so large as some, embraces everything distinct and worth growing. Our arrangement of varieties enables intending planters to make a selection with the least possible trouble.

We were the first seedsmen in America to popularize these gems of

beauty and fragrance, and we still maintain our position with the largest stock of the best strains of the kinds that give satisfaction to planters. Seed should be sown as early as possible, in drills six inches deep. At the time of sowing cover only with one inch of soil and fill in the drill as the young plants grow, taking care not to cover the top of the plants. A deep, rich soil and a sunny situation is best.

Cineraria grandiflora					BRECK'S COLUMBIA is an American strain. Those who have grown it claim it to be superior in habit of plant, size, form and color of flowers to any of the European selections. We especially recommend it. Florists and private gardeners throughout the United States endorse its superiority.

—platycentra	"	1	s. & w.	10	Easily grown, free-flowering, bulbous plants for pot culture. Breck's Imperial is unsurpassed for size, form, profusion and variety of delicate colored flowers. It has eclipsed all others on the exhibition tables at the Mass. Horticultural Society's exhibitions. The several varieties offered here are grown for us by the leading cyclamen growers of Europe, and are at least equal in quality to any obtainable. <i>Bush Hill Pioneer</i> is the first of a new race; each petal has a distinct crest or feather upon its face. <i>The Double Flowered</i> sort makes a fine contrast to the single varieties. Ornamental plants for greenhouse, also useful for vases. <i>Indivisa</i> has narrow, green leaves. The mid rib of <i>Veitchii</i> is a deep red color.

WILD GARDEN SEEDS.

Any one who has cultivated flowers in neatly laid out beds, or carefully planned ribbon borders, is aware of the amount of labor and constant attention necessary to produce the desired effect. To those who cannot give this care, we offer "Wild Garden Seeds," a mixture of over one hundred varieties of hardy flower seeds. No one who has not seen such a bed can form an idea of its possibilities, the different seasons of bloom insuring something new almost every day. Half-oz. packets, 20 cts.

BRECK'S COLLECTIONS OF FLOWER SEEDS.

COLLECTION "A," price 25 cts., contains one packet each of Mignonette; Alyssum, white; Sweet Peas, fine mixed; Phlox Drummondii, fine mixed; Portulaca, fine mixed; Chinese Pink, fine mixed.

COLLECTION "B," price 50 cts., contains the varieties in Collection "A," with the following in addition: Nasturtium, Tom Thumb, fine mixed; Candytuft, finest mixed; Aster, German, fine mixed; Pansy, finest mixed; Eschscholtzia, fine mixed; Morning Glory, fine mixed.

COLLECTION "C," price 75 cts., contains the varieties in Collections "A," and "B," with the following in addition: Coreopsis, fine mixed; Balsam, fine mixed; Zinnia, fine mixed; Mourning Bride, fine mixed; Petunia, finest mixed; Calendula, "Meteor," yellow.

COLLECTION "D," price \$1.00, contains the varieties in Collections "A," "B" and "C," with the following in addition: Tall Nasturtium, fine mixed; Marigold, French, striped; Larkspur, dwarf Rocket; Poppy, double mixed; Convolvulus, dwarf mixed; Chrysanthemum, fine mixed; Antirrhinum, finest mixed.

COLLECTION "E." *This assortment produces a fine effect in the garden and all the sorts are suitable for bouquets.* Price 50 cts. Abronia, Ageratum, Amaranthus Bicolor, Aquilegia Aster Chrysanthemum-flowered, Calliopsis Collinsia, Dianthus Chinensis, Godetia, Mignonette, Phlox Drummondii, Zinnia.

COLLECTION "F." The following kinds are *specially suitable for growing in vases or hanging baskets.* Price 25 cts. Alyssum Maritimum, Convolvulus Mauritanicus, Dwarf Nasturtiums, Lobb's Nasturtiums, Lobelia Gracilis, Mimulus Moschatus.

See Special Offers on third page of cover.

Amaryllis.

BULBS AND PLANTS.

Begonias.

- ACHIMENES.** Free flowering plants of easy cultivation. The bulbs should be potted early in a mixture of loam and leaf mold. Keep warm and water carefully. Assorted colors, 5 cts. each; 50 cts. doz.
- AGAPANTHUS.** African Lily. These are fine for tubs, pots, vases, etc.
- Umbellatus**, Lily of the Nile. Blue, 50 cts. each.
 - Umbellatus, Albus.** White, 50 cts. each.
- AMARYLLIS.** Lovely lily-like plants that produce flowers in almost every shade of color, ranging from pure white to deep crimson.
- Atamasco.** Pink and white. Showy for borders. 15 cts. each; \$1.50 per doz.
 - Belladonna Major.** Rosy pink, fragrant, 25 cts. each.
 - Crispa.** Deep pink. 25 cts. each.
 - Defiance.** Carmine with white stripes. 60 cts. each.
- Equestre.** The flowers measure five or more inches across, and are bright, sparkling orange-red, with a green and white star at the centre. 20 cts. each; \$2.25 per doz.
- Formosissima.** (Jacobean Lily). Blooms freely out of doors; flowers deep velvety crimson. 15 cts. each; \$1.75 doz.
- Johnsonii.** Large crimson and white flowers. 40 cts. each; \$4.00 per doz.
- Lutea.** (Sternbergia). Showy yellow, autumn flowering variety. 15 cts. each; \$1.50 per doz.
- Vallotta Purpurea.** Crimson-scarlet flowers, borne in clusters of five or six on a long stem. A fine sort for pot culture. 50 cts. each; \$4.00 per doz.
- Vittata.** Red and white grounds, beautifully peaked with many tints. 50 cts. each.
- APIOS TUBEROSA.** A pretty, hardy, native climber. Flowers resemble the well-known Wistaria; very fragrant. 10 cts. each; \$1.00 per doz.
- ANEMONES.** (Wind-Flower.) Japonica. Two feet, September. Of free, vigorous habit of growth, and in autumn producing a continuous abundance of bright red flowers. 20 cts. each; \$2.25 per doz.
- Japonica Alba.** Two feet, September. An excellent companion to the preceding sort. The flowers are pure white with yellow centre, fine for cutting. 20 cts. each; \$2.25 per doz.
- Japonica. Whirlwind.** This plant is of more vigorous growth than either of the two preceding, and has handsomer, broader and thicker foliage. The distinct, pure-white, semi-double flowers appear in August and continue until frost. 25 cts. each; \$2.50 per doz.
- BEGONIA. Tuberous Rooted.** These are desirable plants for bedding. The flowers are not destroyed by rain storms, but seem to shine more brilliant after every shower. The colors are varied and beautiful. Our bulbs are from the same source as our seed and are superior. Single flowered sorts, **Red, Crimson, Scarlet, Rose, Pink, White, Yellow, Gold and Bronze, Striped and Flaked.** 10 cts. each; \$1.00 per doz.; \$7.00 per 100.
- Single Flowered.** Mixed colors, 6 cts. each; 50 cts. per doz.; \$3.50 per 100.
 - Double Flowered Sorts.** Same colors as the single kind. 15 cts. each; \$1.50 per doz.
 - Double Flowered Mixed.** 12 cts. each; \$1.25 per doz.
- BESSERA ELEGANS.** (Coral Drop.) Bright scarlet flowers, borne on stems about two feet high. Will bloom from shortly after planting until frost. 5 cts. each; 50 cts. per doz.
- CALADIUM ESCULENTUM.** Beautiful, ornamental foliage plant. The leaves are of immense size, light green, with darker veins. Will grow in any good garden soil, to a height of five feet. Dry bulbs, according to size, 10, 15 and 20 cts. each; \$1.00 to \$2.00 per doz. Bulbs started in pots, 20 and 25 cts. each; \$2.00 to \$3.00 per doz. Special Offer No. 3 only applies to Caladiums.
- CALLA LILIES.** White. 25 cts. each; \$2.50 per doz.
- Little Gem.** 25 cts. each; \$2.50 per doz.
- CINNAMON VINE.** Hardy climber, shining green foliage, fragrant white flowers. 6 cts. each; 50 cts. per doz.
- CRINUM.** Amaryllis-like bulbous plants, suitable for pot or open ground culture.
- Capense.** Bright Rose. 25 cts. each.
 - Kirkii.** Large white, purple-striped flowers borne on dark purple-colored stems, two feet high; 40 cts. each.
 - Ornatum.** Delicate blush with a pink stripe through the centre. Very fragrant. 35 cts. each.
- CYCLAMEN.** Suitable for pot culture only. Plant the bulbs in a light, rich soil, and water sparingly till started.
- Persicum Giganteum.** Mixed colors, 25 cts. each; \$2.50 per doz. Started plants in pots, 50 cts. to \$1.00 each.

See Special Offers on third page of cover.

LARGE FLOWERING DWARF FRENCH CANNAS.

Our Cannas are all started plants; not dry bulbs.

Cannas

The appreciation of the improvements in Cannas shown by the public, has resulted in increased effort being made to still further enhance their value as ornamental plants. We know of nothing so effective in foliage or continuous in flower as these new Dwarf French Cannas. They are very popular, and they are certainly entitled to a place in every garden.

There are now a great many sorts being catalogued, but those here described are the best in size, substance and colors of flowers and foliage.

- Alphonse Bouvier. Height, five feet; flower, crimson-scarlet; foliage, green.
- Admiral Courbet. Height, four feet; flowers, yellow, speckled with orange-scarlet; foliage, green.
- AUSTRIA.** Height, four feet; flowers, pure yellow, very large and exceedingly beautiful; foliage, musa-like in color and form. 25 cts. each; \$2.50.
- Charles Henderson. Height, 3½ feet; flowers deep crimson; foliage, green. 20 cts. each; \$2.00.
- Chicago. Height, 4 feet; flowers, vermilion-scarlet, shaded orange; foliage, deep green. 20 cts.; \$2.00 per doz.
- Columbia. Height, 5 feet; flowers, crimson with orange shading; foliage, light green. 20 cts. each; \$2.00 per doz.
- Eldorado. Height, 3½ feet; flowers, yellow, speckled red; foliage, deep green. 20 cts. each; \$2.00 per doz.
- Egandale. Height, 4 feet; flowers, bright red; foliage, purple.
- Florence Vaughan. Height, 3½ feet; flowers, golden yellow, spotted with bright red; foliage, a deep green. 20 cts. each; \$2.00 per doz.
- F. Morel. Height, 3½ feet; flowers, bright scarlet; foliage, dark green. 20 cts. each; \$2.00 per doz.
- F. R. Pierson. Height, 3½ feet; flowers, bright scarlet; foliage, green. 20 cts. each; \$2.00 per doz.
- Geoffry St. Hillaire. Height, 5 ft.; flowers, glowing orange; foliage, chocolate.
- Gold Coin. Height, 3 feet; bright lemon yellow, spotted with light orange; foliage, deep green. The flower spikes are large and borne well above the foliage. 20 cts. each; \$2.00 per doz.
- Gustav Sennholz. Height, 3½ feet; flowers, silvery rose, mottled with salmon; foliage, deep green.
- ITALIA.** The most beautiful and valuable variety yet introduced; this with Austria forms the beginning of a distinct type that will doubtless lead to many wonders in Cannas. Height, five feet; flowers, yellow, blotched with orange-scarlet and bordered with golden-yellow; much larger and more attractive in every way than any other variety; foliage, light green veined with dark green. 25 cts. \$2.50 per doz.
- J. D. Cabos. Height, 4 feet; flowers, apricot with deeper shading; foliage, deep green.
- Jules Chretien. Height, 4 feet; flowers, bright red, very large; foliage, deep green.
- Madame Crozy. Height, 3½ feet; flowers, crimson-scarlet, bordered with yellow; foliage, deep green.
- Mlle. de Crullion. Height, 4 feet; flowers, light yellow, shading to terra cotta; foliage, light green.
- Paul Marquant. Height, 4 feet; flowers, salmon, shaded red; foliage, deep green.
- President Cleveland. In many respects the best variety yet introduced. Height, 3½ feet; flowers, a peculiar bright red, and very massive, foliage, deep green. 35 cts. each; \$3.50 per doz.
- Queen Charlotte. Height, 4 feet; flowers, blood red, banded with bright canary yellow; foliage, bluish-green.
- Souv d'Antoine Crozy. Height, 3 feet; flowers, intense scarlet-crimson with a broad, rich golden-yellow edge; foliage, deep green. 35 cts. each; \$3.50 per doz.
- Vesuvius. Height, 4½ feet; flowers, crimson-scarlet; foliage, dark green.
- Victor Hugo. Height, 4 feet; flowers, scarlet; foliage, quite dark.

Price 15 cts. each; \$1.00 per dozen, *except as noted.*

Cannas are not subject to any of our Special Offers.

CONVOLVULUS. Moon Flower, or Evening Glory. The flowers of this lovely climber are very large, freely produced, pure white in color and very fragrant. They open in the evening and are wonderfully attractive. They should not be set out until danger of frost is past. 15 cts. each; \$1.50 per doz.

See Special Offers on third page of Cover.

CYCLOBOTHA FLAVIA. This golden gem is of great beauty and easily grown; the habit of plant and bloom is similar to Bessera; the color is clear golden yellow, with intense black spots on each petal. 8 cts. each; 80 cts. per doz.

CACTUS. These plants require absolutely no care. They grow for months in the house or garden without watering, and increase in value yearly. Their flowers are of exquisite beauty and fragrance, and their curious forms render them exceedingly interesting. In winter they require scarcely any water.

We send by mail ten fine plants of blooming size, each one distinct and named, for \$1.00, or five for 50 cts. **CHRYSANTHEMUMS, POMPON AND HARDY.** Eighteen varieties for garden cultivation. They include a much greater diversity of color and form than has hitherto been obtainable, we are sure they will delight all who plant them.

While they are all hardy, it is well to give them a protection with leaves or litter during winter. Each 20 cts.; per doz. \$2.00.

—Viscount de Vere, lilac-pink; Grunnewold, pink; La Vogue, yellow; Souvenir de Jersey, yellow; Mlle. Martha, white; Blushing Bride, white, shaded pink; Rio des Precoses, red, shaded bronze; Emily Roebottom, anemone white; Snowdrop, white; Gen. Canrobert, yellow; Bronze Bride, bronze; Sœur Melane, white; Mme. des Granges, white; Julius Lagrave, dark red, late keeper; Rose Trevenna, pink; Bob, brown and white; Model of Perfection, lilac; Mme. La Count de Franchise de Cannel, bronze; Golden Fleece, bright yellow.

CHRYSANTHEMUMS. We offer these from one of the largest and best collections in the country. If what you want is not included in the sorts here named, send us your list, we can furnish every desirable variety.

A Waterer, bronze yellow; Charity, pink; Cullingfordi, crimson; Day Dawn, white; E. M. Bigelow, red; Edith M. Hollis, white; Golden Queen, yellow; Golden Wedding, yellow; Gettysburg, red; Hicks Arnold, yellow; Infatuation, white; Indiana, pink; J. L. Canning, white; Lady Playfair, pink; Lilian B. Bird, pink; Major Bonnafon, yellow; Mrs. Phipps, white; Mayflower, white; Mrs. George West, pink; Mrs. S. Morgan, yellow; Octoroon, red; Pink Ivory, pink; Silver Cloud, white; Tuxedo, yellow. Ready for delivery after the middle of April. 15 cts. each; \$1.50 per doz.

CARNATIONS. For blooming in the garden we can furnish three colors that will flower if set out after the middle of May, from July until frost.

—Scarlet, Crimson, White. Extra strong plants from pots. 25 cts. each; \$2.50 per doz.

—Mound Pinks. These old favorites, if given enough room, form a pretty mound of bluish-green foliage and produce freely beautiful, blush-pink, fragrant flowers. 20 cts. each; \$2.00 per doz.

—Margaret. This is the new class that blooms from seed in about four months. About 90 per cent of the flowers are double. All very sweet scented and they embrace a great variety of delicate shades. They are exceedingly useful for cutting. Strong plants, 15 cts. each; \$1.50 per doz.

DAHLIAS. Large Double Show Named sorts in a large variety of colors. 15 cts. each; \$1.50 per doz.

—Pompon, or Small-Flowered Double. Really more desirable and popular than the foregoing. Named sorts in a great variety of colors. 15 cts. each; \$1.50 per doz.

—Single Flowered. From a grand collection. 15 cts. each; \$1.50 per doz.

—Cactus. Large double and single flowered. 20 cts. each; \$2.00 per doz.

—Hardy. Golden Ball. Height four feet, furnished with pretty dark-green foliage, which in fall just shows through the covering of beautiful double golden-yellow flowers that last till frost. Seeds, per pkt., 5 cts. Extra strong plants, each, 15 cts.; per doz., \$1.50.

GLADIOLI. This valuable and easy cultivated class of bulbs is not half appreciated. They can be grown in beds or borders, and a continuous bloom can be kept up from June till frost by a succession of planting. Fine mixed varieties, doz., 25 cts.; 100, \$1.75. Named sorts, mixed, doz., 30 cts.; 100, \$2.00. Scarlet shades in mixture, doz., 20 cts.; 100, \$1.50. Crimson shades in mixture, doz., 20 cts.; 100, \$1.50. Pink shades in mixture, doz., 35 cts.; 100, \$2.75. White shades in mixture, doz., 40 cts.; 100, \$3.00. Yellow shades in mixture, doz., 40 cts.; 100, \$3.00. Striped and variegated, doz., 30 cts.; 100, \$2.00. French Hybrids, doz., 50 cts.; 100, \$3.50. Lemoine's Hybrids, collection of 10 named varieties, \$2.00.

GLOXINIA BULBS. Our stock of these is very choice.

The bulbs should be potted in the spring in light, sandy loam, and they will commence growing and blooming at once. In the fall, dry them and store in a warm place through winter. Strong, flowering bulbs, mixed colors, per bulb, 15 cts.; \$1.75 per doz.

Chrysanthemums.

Dahlias

See Special Offers on third page of cover.

HEUCHERA. Sanguinea. One of the handsomest hardy perennials of recent introduction. The flowers are of a rich crimson color, leaves light green. Roots, 15 cts. each; \$1.50 per doz. Seed, per pkt., 10 cts.

Lillium Auratum

HYACINTHUS. Candicans. Perfectly hardy. Height three feet, bears an abundance of pure-white, bell-shaped flowers. Each 10 cts.; per doz., 75 cts.

IRIS. Kaempferi. When these are in bloom nothing in the garden is grander. The name "Poor Man's Orchids" has been suggested for them on account of their ease of culture and great beauty. Choice named varieties, \$2.50 per doz. Double and single mixed, \$1.75.

—**Germanica.** The German Iris bloom earlier than the Kaempferi, they embrace many charming combinations of colors, and are very fragrant. Choice named varieties, \$1.50 per doz. Fine mixture, \$1.00 per doz.

LILIES. Lillium Auratum. Golden Banded Lily of Japan. Immense white flowers, each petal marked with a wide gold band and spotted with maroon. Each, 20 cts.; per doz., \$2.00.

—**Lilium Lancifolium Rubrum.** White with rich crimson spots. Each, 15 cts.; per doz., \$1.50.

—**Lilium Lancifolium Roseum.** White stained and spotted rose. Each, 15 cts.; per doz., \$1.50.

—**Lilium Lancifolium Album.** Large, pure-white flowers. Each, 20 cts.; per doz., \$2.00.

MILLA. Biflora. Beautiful, white, waxy flowers with pale lemon anthers. Deliciously fragrant. Plant out-doors in May and take up bulbs in fall like Gladioli. Each, 10 cts.; per doz., 75 cts.; per 100, \$5.00.

MADEIRA VINE. A beautiful, rapid-growing climber, bearing in profusion very fragrant white flowers. Each, 5 cts.; per doz., 50 cts.

MONTBRETIA. Crocosmiaeflora. Very large flowers of fine shape. Base of flowers is bright orange, sprinkled with purple spots, arranged like Tigridia. Each, 10 cts.; per doz., 75 cts.

PEONIES. We can furnish these well-known, old favorites in all the newest varieties.

—**Hardy Herbaceous Sorts, named.** 50 cts. to \$1.00 each.

—**Hardy Herbaceous, assorted colors; large flowering roots.** 50 cts. each.

—**Hardy Herbaceous, large, double, white.** 50 cts. each.

SMILAX. A beautiful climber for greenhouse or window culture. Plants from two and a half inch pots. 15 cts. each; \$1.00 per doz.

TIGRIDIA. (Shell Flower.) Beautiful, large, shell-like flowers, produced from July until frost. They require similar treatment to the dahlia.

—**Conchiflora.** Orange and crimson spots. 5 cts. each; 50 cts. per doz.

—**Grandiflora Alba.** White flowers spotted with maroon and rose. 5 cts. each; 50 cts. per doz.

—**Grandiflora Crimson.** 5 cts. each; 50 cts. per doz.

—**Pavonia.** Red with crimson spots. 5 cts. each; 50 cts. per doz.

TUBEROSES. These are universal favorites and very easily grown. Before potting, remove the small offsets. Use rich loam and start in hot bed or in house. Do not set out until all danger from frost is past.

—**Excelsior Double Pearl.** 5 cts. each; 25 cts. per doz.; \$1.75 per 100.

—**Tall, Double.** 5 cts. each; 25 cts. per doz.; \$1.75 per 100.

—**Albino.** This variety is hardier and earlier than the others. The flowers are single, white, large and fragrant. 5 cts. each; 30 cts. per doz.; \$1.75 per per 100.

Special Offer No. 3 only applies on Bedding Plants.

AQUATIC PLANTS.

The hardy varieties may be planted as soon as vegetation commences in the spring. They may be grown in tubs. A warm, sheltered position, yet with full exposure and sunshine should be selected. Fill the tubs two-thirds full of turfy soil enriched with decomposed hot bed or farmyard manure; cover with two inches of sand and fill with water. The crowns of the plants should be placed just under the surface of the soil.

The tender varieties should not be planted until from the 1st until the 10th of June. Nelumbiums, though hardy when established, should not be planted as early as the hardy *Nymphæas*.

Nelumbium

HARDY VARIETIES.

NELUMBIUM. Speciosum. (Egyptian Lotus) The flowers are about a foot across, of a deep rose color, with a soft, creamy white at bases of the petals; exquisitely fragrant. Flowering tubers, 75 cts. and \$1.50 each.

—**Luteum.** (American Lotus.) This differs from *N. Speciosum* only in the color of its flowers; they are of a rich, sulphur yellow tint. 75 cts. and \$1.50 each; \$7.50 per doz.

—**Kermesinum.** Another distinct variety, bearing flowers resembling the *Hermosa Rose* in color. \$1.50 each.

—**Album Grandiflorum.** Immense flowers of pure ivory whiteness, very scarce. \$2.00 each.

—**Album Striatum.** Pure white, the edges of the petals are irregularly striped and tipped with rosy carmine. Their fragrance is quite distinct. \$1.50 each.

NYPHÆA. Alba Candidissima. Flowers six inches in diameter; pure white with broad petals; the earliest flowering variety. 75 cts. each; \$7.50 per doz.

—**Odorata.** Its lovely, pure white flowers, so common in some locations, is worthy of a place among the choicest varieties. 20 cts. each; \$2.00 per doz.

Odorata Gigantea. Similar in all respects to *N. Odorata*. but the flower is very large and full. 20 cts. each; \$2.00 per doz.

- Odorata Rosea.** (The popular pink Cape Cod water lily). The flowers are of large size, cup-shaped; a lovely deep pink in color; delicious fragrance and free bloomer. 50 cts. each; \$5.00 per doz.
- Odorata Sulphurea.** Large, yellow, fragrant flowers, standing a few inches out of the water. The leaves are deep green, beautifully mottled with reddish yellow or brown spots. 50 cts. each; \$5.00 per doz.
- Odorata Caroliniana.** The flowers on well-grown specimen plants are very large, measuring 7 inches in diameter; the color is of the clearest rosy pink, the faintest tint at the points deepening to the centre of the flower, the golden stamens reflecting a lovely salmon shade; deliciously fragrant. \$1.50 each.

TENDER VARIETIES.

NYPHÆA. Cœrulea. (Stellata.) The flowers are a clear light blue, very delicately scented; six to eight inches across. Known as the Blue Lotus. \$1.00 each.

—**Dentata** The largest and best white, night-blooming variety; long, pointed buds, on strong stalks, opening horizontally; leaves deep green, with serrated edges. 50 cts. each.

—**Devoniensis.** The flowers are a brilliant rosy red, and are from ten inches to twelve inches across. 50 cts. each.

—**Zanzibarensis Azurea.** This is similar to the true *Zanzibarensis* except in color, being deep, rich, azure blue. 50 cts. each.

—**Zanzibarensis Rosea.** Similar to the preceding, save in color, which is a beautiful deep rose. 50 cts. each.

—**EICHHORNIA. Crassipes Major.** (Water Hyacinth.) A very showy aquatic, bearing very freely flowers of a delicate lilac rose in trusses like a hyacinth. It should be grown in about three inches of water, so that the ends of the roots can enter the soil. 15 cts. each; \$1.50 per doz.

LYMNANTHEMUM. Indicum. (Water Snowflake.) A very pretty floating species, with light green, roundish leaves and pure white flowers most beautifully fringed. 15 cts. each.

LIMNOCHARIS. Humboldtii. (The Water Poppy.) Oval leaves and yellow, poppy-like flowers, standing out of the water. A good plant for growing in shallow water. 15 cts. each; \$1.50 per doz.

MYRIOPHYLLUM. Proserpinacoides. (Parrot's Feather.) An aquatic hanging plant. Its long trailing stems are clothed with whorls of the most exquisite foliage, as finely cut as the leaves of the Cypress Vine, and much more delicate. Planted in a water-tight hanging-basket, so water can be kept standing on the surface, it will trail finely. 15 cts. each; \$1.50 per doz.

CYPERUS. Papyrus. This is the true Egyptian Paper Plant. It grows finely in shallow water with rich soil, and makes a splendid companion for flowering aquatics. It will also flourish and make a fine clump in the garden, with no more water than Cannas require to make them do well. 25 cts. each.

ZIZANIA. Aquatica. Wild Rice. This native aquatic annual is very ornamental in the Water Garden; its graceful panicles of bloom are produced on stalks five to ten feet high; should be grown in shallow water. 10 cts. each; 75 cts. per doz.

Those interested in Acquatic Plants and their cultivation will find Mr. Tricker's book, "THE WATER GARDEN," attractive reading and a valuable guide in all matters connected with the subject. \$2.00 by mail.

See Special Offers on third page of cover.

PLANT DEPARTMENT.

To this important branch of our business we are giving much attention, and are in a position, second to none, to supply FRUIT TREES, SHADE and ORNAMENTAL TREES, EVERGREEN and FLOWERING SHRUBS, VINES, HERBACEOUS and SUMMER BEDDING PLANTS, etc., in all desirable varieties and sizes, at lowest prices. We shall be glad to advise

intending buyers as to selection, and also furnish plans and estimates for laying out and planting ornamental grounds. See particulars of Landscape Department in colored pages.

While we exercise the greatest care to have all Nursery stock pure and reliable, we sell no Trees, Plants, Shrubs or other Nursery stock with warranty, express or implied, in any respect. If the purchaser does not accept these goods on these terms, they must be returned at once, and the money that has been paid for them will be refunded.

ROSES.

The list of Varieties is revised, and contains nothing but the really most desirable and distinct kinds.

PLANTING. If possible, select a position sheltered from high winds but open to sunshine. If the soil is not naturally suitable it must be improved—if light, by the addition of rich loam and decomposed cow or stable manure, well worked in; where stiff and heavy, good drainage and rough stable manure are the essentials.

When planting, carefully prune all dead or bruised roots or branches, spread the root fibres as much as possible, and set deep enough to cover the junction of the bud and stock, thereby preventing suckers, and enabling the *rose* to make roots.

During the growing season, frequent waterings with liquid manure is an advantage. It is easily made by mixing cow manure with water in an old tub or barrel.

In the following list we have aimed at selecting those that combine, in the fullest manner, the five requirements of a perfect rose, namely: beauty of color, beauty of form, fragrance, profusion and continuity of bloom, and vigor of growth. To aid our customers in making selection, we have indicated what we consider the *best fifty*, by prefixing a star *; to the *best twenty-five*, two stars **; to the *best twelve*, three stars ***; to the *best six*, four stars ****.

Strong Plants, 30 cts. each; \$3.00 per doz. Extra Strong Plants, 50 cts. each; \$4.00 per doz.

HYBRID PERPETUAL ROSES.

- *Abel Grand, silvery rose, large, very free bloomer.
- ***Alfred Colomb, bright fiery red, large and very fine.
- Alfred K. Williams, carmine red, fine form.
- **Alphonse Soupert, bright pink, form of *La Reine*, very large.
- American Beauty, bright, carmine rose, very sweetly scented.
- *Anna de Diesbach, deep rose, very large and showy.
- *Augustine Guinoisseau, white, slightly tinted flesh, form of *La France*.
- Auguste Rigotard, cherry red, large and deep.
- ****Baroness Rothschild, delicate flesh, one of the very best.
- **Beauty of Waltham, light crimson, large and of fine form.

- Captain Christy, light salmon flesh, a distinct shade.
- *Captain Hayward, bright carmine crimson, perfect form, sweetly scented.
- ****Charles Lefebvre, brilliant velvety crimson, superb.
- *Comte de Raimbaud, new shade of purplish crimson, very beautiful.
- **Comtesse de Oxford, bright carmine red, very large, handsome foliage.
- *Countess of Roseberry, brilliant carmine rose, very double.
- **Dr. Andry, bright reddish crimson, large, free flowered.
- ****Duke of Edinburgh, bright vermilion, superb form.
- Duchess de Morny, splendid clear light rose, beautifully formed.

See Special Offers on third page of Cover.

- *Duchess of Bedford, dazzling scarlet crimson.
 ***Dupuy Jamain, very bright cerise, large, full, and fine form.
 Earl of Dufferin, rich velvety crimson shaded with dark maroon.
 Eclair, bright fiery red, large and full, form of *Chas. Lefebvre*.
 Edouard Morren, glossy pink, a very fresh and delicate shade.
 **Etienne Levet, light carmine red, perfectly folded.
 *Ferdinand de Lesseps, crimson, shaded with violet.
 *Fisher Holmes, crimson, purplish shading.
 ***General Jacqueminot, scarlet crimson, large and magnificent.
 Gloire Lyonnaise, chrome yellow, edged with white.
 Gloire de Margottin, dazzling red; the most brilliant known.
 *Henrich Schultheis, delicate pinkish rose, large and sweetly scented.
 *Horace Vernet, bright light crimson; a superb flower.
 *Jeannie Dickson, rosy pink with a silvery pink edge.
 **John Hopper, brilliant rosy crimson, an abundant bloomer.
 ***La France de 89, brilliant red, sometimes lined with white.
 *La France, bright lilac rose, centre silvery white; a favorite.
 La Rosiere, velvety crimson, a grand flower.
 *Louis Van Houtte, reddish scarlet and amaranth, shaded with bluish purple.
 *Mabel Morrison, pure white, form of *Baroness Rothschild*.
 ***Madame C. Testout, habit and character of *La France*, but deeper in color.
 Madame Eugenie Verdier, bright satined rose, silver shaded.
 *Madame Nachary, light silvery rose, deep cupped form.
 ***Madame G. Luizet, fine satin rose; very clear.
 *Madame Chas. Wood, crimson shaded with purple; extra form.
 **Madame Victor Verdier, beautiful cherry rose, exquisitely cupped.

Strong Plants 30 cts. each, \$3.00 per doz. Extra Strong Plants 50 cts. each, \$4.00 per doz.

CLIMBING ROSES.

- Crimson Rambler, the finest climbing rose yet offered; it is a very rapid grower, and produces an immense number of lovely pink flowers.
 Yellow Rambler. The flowers are borne in immense clusters—the color is a decided yellow. It is a fitting companion to the Crimson Rambler.
 Dawson. Vigorous, and most productive of rich pink, semi-double, fragrant flowers, in clusters.

Strong Plants, 50 cts.

SINGLE ROSES.

- Grandiflora. Finely cut foliage and myriads of purest white flowers.
 Rugosa Alba, forms large bushes with deep green, glossy foliage, flowers beautiful pure white, sweetly scented.
 Rugosa Rubra, similar to the preceding, but with large rosy crimson flowers, succeeded by cherry-like fruit.
 Madame G. Bruant, semi-double white flowers, otherwise resembles *Rugosa Alba*.
 Madame Chas. Worth, semi-double crimson flowers, habit similar to *Rugosa Rubra*.

- Mdlle. Eugenie Verdier, bright flesh-rose, reverse of petals silvery white.
 Mdlle. Marie Rady, red, bordered with white;
 *Mdlle. S. M. Rodocanachi, very brilliant cherry-rose, extra fragrant.
 **Mdlle. Annie Wood, vivid crimson, of the most perfect form.
 *Magna Charta, bright pink suffused with carmine, large and full.
 Marchioness of Londonderry, ivory white, of great substance and perfect form.
 *Marshall P. Wilder, cherry carmine, form of *Alfred Colomb*.
 *Margaret Dickson, white, centre petals, flesh.
 ***Marie Bauman, light crimson, large, full and fine form.
 **Marquise de Castellane, bright rose, very large and full.
 Maurice Bernardin, crimson beautifully shaded with violet.
 ***Merville de Lyon, beautiful pure white, form of *Baroness Rothschild*.
 **Mons. E. Y. Teas, dazzling cherry red, perfect form.
 ***Mrs. John Laing, soft pink, style of *Madame G. Luizet*.
 Mrs. R. G. Sharman Crawford, deep rosy pink shaded with pale flesh.
 **Paul Neyron, dark rose, fine form, very large.
 Pierre Notting, dark red, distinct color, very large and full.
 *Prince Camille de Rohan, velvety crimson, beautiful shade.
 Queen of Queens, pink with blush edges, large and fine.
 *Senateur Vaisee, dazzling red, large, full and extra fine.
 *Silver Queen, silvery blush, shaded in the centre delicate rosy pink.
 *Sir Garnet Wolseley, fine scarlet crimson, with a rich deep shading.
 **Ulrich Brunner, cerise red, very large and fine.
 Victor Hugo, bright crimson red, shaded purple.
 Victor Verdier, deep carmine, large and well-formed.
 **White Baroness, pure white, form of *Baroness Rothschild*.

Blairii. Flowers borne in profusion all summer, color, rosy-blush; large and delightfully fragrant.

Gloire de Dijon, buff, orange centre; splendid foliage, tea scented.

Baltimore Belle, pale blush, changing to white; fine.

Queen of the Prairie, bright, rosy red; frequently with white stripe.

each; \$4.00 per dozen.

Multiflora. Dense clusters, small creamy white fragrant flowers.

Sweet Briar. Fragrant foliage and flowers.

Carolina, (Wild Swamp Rose,) Flowers very bright. 25 cts. each; \$2.00 per doz.

Wichuriana, low trailing variety, suitable for covering banks, rocks, etc. Glossy green foliage, pure white very fragrant flowers. 35 cts. each; \$3.00 per doz.

Strong Plants, 50 cts. each; \$4.00 per dozen, except as noted.

See Special Offers on third page of cover.

AUSTRIAN ROSES.

These are the showiest yellow roses in cultivation; very profuse bloomers, their bright flowers literally covering the bush.

Harrisonii, fine golden Yellow.

Persian Yellow, the deepest yellow.

50 cts. each; \$4.00 per doz.

EVER-BLOOMING TEA ROSES.

The Teas are tender and require protection. They are admirably adapted for greenhouse culture, and are now much grown in the summer garden.

Bon Silene. Rosy-carmine, fragrant.

Bride. Snowy white.

Bridesmaid. Brilliant pink.

Catherine Mermet. Bright silvery pink.

Mad. Hoste, Yellowish-white.

Niphetos. White, tinged-lemon.

Perle des Jardins. Straw color.

Souvenir de Wotton. Crimson.

Small Plants, 15 cts. each; \$1.50 per dozen.

Large Plants, 30 cts. each; \$3.00 per dozen.

MOSS ROSES.

Crested Moss. Rose large and full; beautiful.

Glory of Mosses. Blush, very large and full.

Laneii. Rosy crimson, tinted purple.

Little Gem. Crimson, very small and double, beautifully mossed.

Princess Adelaide. Pale, glossy rose.

Reine Blanche. Fine white, large and full.

Strong Plants, 50 cts. each; \$4.00 per doz.

POLYANTHA, OR FAIRY ROSES.

These are of low, compact habit, producing small, graceful flowers in great abundance. They are perfectly hardy, and will bloom through the hottest and driest months of summer.

Little Gem, white, slightly tinted with pink.

Mme. Cecile Brunner, salmon rose, buff shaded.

Mignonette, bluish; very fragrant and free flowering

Paquerette, pure white; dwarf and free flowering.

Perle d' Or, saffron yellow, deeper in centre, edges white; very fine.

Price, small plants 35 cts. each; \$3.50 per doz.

large plants 50 cts. each; \$4.00 per doz.

FOLIAGE PLANTS FOR HOUSE, LAWN AND PIAZZA.

ARICA LUTESCENS. A majestic palm. Its dark, glossy-green leaves are gracefully curved on slender stems. The trunk and stems are a golden yellow, irregularly spotted with bronzy-green. Each, 1½ ft., \$1.50; 2½ ft., \$3.00.

Kentia Belmoreana.

KENTIA BELMOREANA. Sometimes called the "Curly Palm," recognized as one of the best for all purposes, being able to withstand more ill-usage, perhaps, than any other. Each, 1½ ft., \$2.00; 2 ft., \$3.00; 3 ft., \$5.00.

LANTANIA BORBONICA. This is a typical palm and is more largely used than any other. It is of strong, healthy habit, and especially suitable for window culture. Each, 1½ ft., \$1.50; 2 ft., \$2.00; 2½ ft., \$3.00; 3 ft., \$5.00.

PANDANUS UTILIS. This is a most desirable variety for window culture, and will bear without injury a great deal of neglect. Each, 1 ft., \$1.00; 1½ ft., \$2.50.

DRACENA INDIVISA. Valuable as a window plant and for centres of vases, baskets, beds, etc.; 50 cts. to \$1.50 each.

DRACENA TERMINALIS. A beautiful decorative plant, gorgeous shades of crimson, bronzy-green and pink foliage; 50 cents to \$1.50 each.

RUBBER PLANTS. *Ficus Elastica*. We can furnish nice, healthy plants of this favorite at from \$1.00 to \$5.00 each, according to size.

NEPHROLEPSIS EXALTATA. *Boston Fern*. A very popular window-plant. It bears well with heat, dust and neglect, and always has a bright, fresh appearance. Strong plants, 50 cents to \$2.00 each.

HARDY HERBACEOUS PERENNIALS.**HARDY ASTERS.**

We have in this class some of the most showy, as well as really beautiful and interesting flowering plants in cultivation, invaluable in the garden, especially as they blossom when the scarcity of hardy flowers is most marked. Will thrive in grass or any rough spot and bloom freely the first season.

A. Alpinus. 9 in. July. Bright purple. 25 cts.; \$2.50 per doz.

A. Amellus Bessarubicus. 2 ft. Rich purplish-blue flowers, with orange centre; one of the finest. 25 cts.; \$2.50 per doz.

A. Chapmanni. Numerous heads of small flowers of a light clear blue. 15 cts.; \$1.50 per doz.

A. Longifolius Formosus. 3 ft. October. A dwarf-growing variety, which is a cloud of very large, bright, rose-colored blossoms; a superb aster. 20 cts.; \$2.00 per doz.

A. Novæ Angliæ. 4 ft. Our grandest American species, with thousands of big, violet-purple blossoms; a grand aster. 15 cts.; \$1.50 per doz.

A. Novæ Angliæ, var. *Roseus*. 4 ft. A most charming variety of the above, with all shades of rose and crimson. 25 cts.; \$2.50 per doz.

A. Nova-Belgica, var. *Lady Trévellyn*. 4 ft. Sept., Oct. Large heads of white flowers, with yellow centres. 25 cts. each; \$2.50 per doz.

A. Sibericus. 9 in. Aug., Sept. The plant forms a perfect hemisphere, and is completely covered with clear pink flowers in autumn. 35 cts. each; \$3.50 per doz.

See Special Offers on third page of cover.

Hardy Herbaceous Perennials.

This Collection, value \$13.00, will be delivered free, as per Special Offer No. 1, on receipt of \$10.00.

HOLLYHOCKS.—Breck's Silver Medal Strain.

This strain has been awarded a silver medal by the Massachusetts Horticultural Society, and always obtained the first prize wherever exhibited. No other collection can approach this in variety of shades of color, length of spikes, profusion and texture of flowers and foliage.

We offer a fine lot of strong, healthy plants, in all shades of white, carmine, dark maroon, salmon, apple-blossom, light and dark crimson, rose, yellow, purple and variegated. 25 cts. each; \$2.50 per doz.; \$18.00 per 100.

RUDBECKIA. (Cone Flower.)

Handsome border plants of easiest culture. They produce a wealth of showy flowers suitable for cutting.

R. Laciniata. Var. Golden Glow. 6 ft. Aug., Oct. Forms a self-supporting bush, with deeply cut, bright green foliage. The flowers, which are produced in the greatest profusion, are three inches or more in diameter, very double, and rich golden yellow color. 25 cts. each; \$2.50 per doz.

R. Maxima. 6 ft. June, Aug. Flowers 5 inches across, with tall cone-like centres and drooping, yellow rays. 25 cts. each; \$2.50 per doz.

CLEMATIS.

Elegant, hardy free-flowering climbers.

Paniculata. The beautiful autumn flowering, hardy, fragrant white Clematis, now so popular. Plants 25 cts. to \$1.00 each; \$3.00 to \$10.00 per doz.

Miss Bateman. White; chocolate-red anthers. 50 cts. to \$1.00 each.

Flammula. (European Sweet Clematis.) Flowers small, white and very fragrant. 25 cts. each.

Henryii. Immense, single, purest white flowers. 75 cts. each.

Jackmannii. Large, intense violet-purple flowers. 50 to 75 cts. each.

—Alba. Like preceding, except in color, which is pure white. 50 to 75 cts. each.

Lawsoniana. Large, rosy-purple, darker veins, 75 cts.

Mad. Edouard Andre. Bright crimson. \$1.00 each.

Virginiana. (Amer. White Clematis) A profusion of white flowers in August. 15 cts. each.

HARDY CLIMBING PLANTS.

Actinidia Polygama. A strong, clean vine from Japan. 50 cts. each.

Akebia Quinata. Of rapid growth, with shining foliage and bluish clusters of fragrant flowers. 35 cts.

Ampelopsis Englemanni. A variety of the Virginia Creeper, with bright foliage; fine color in the autumn; the tendrils enable it to support itself like *A. Veitchii*. 25 and 35 cts.

Ampelopsis Quinquefolia. (*Virginia Creeper*.) Well-known climber; very vigorous. 25 cts. each.

Ampelopsis Veitchii. (*Boston Ivy, Japanese Ivy*.) Well-known particularly around Boston. It grows rapidly and clings to a wall or fence with the tenacity of Ivy; the foliage is handsome in the summer, and changes to a crimson-scarlet in autumn. For the ornamentation of brick or stone structures,

Hall's Honeysuckle.

Wistaria.

it can be especially recommended. 25 cts. each; \$2.50 per doz.

Bignonia Radicans. (*Trumpet Vine*.) A quick-growing vine, bearing large scarlet flowers, very brilliant. 35 cts. each.

Celastrus Scandens. (*Roxbury Wax Work*.) A vigorous vine with conspicuous orange-scarlet berries in autumn. 35 cts. each.

Euonymus Radicans. Var. Variegata. Retains its glossy green and bright foliage through the winter; nice plants 35 cts.

Honeysuckle. Hall's Japan. Abundant, vigorous foliage retained until early winter, flower white and yellow, fragrant. 25 cts.

Honeysuckle, Scarlet. Strong, rapid grower, bright scarlet. 25 cts.

Honeysuckle, Belgica. Dutch monthly, very sweet scented, red and buff. 35 cts.

Silk Vine. A rapid growing vine, will make 30 to 40 feet in a season, 35 cts.

Wistaria Chinensis. One of the most elegant and rapid growing of all climbing plants, bearing long pendulous clusters of pale blue flowers in May and June. 50 cts.

Wistaria Chinensis Alba. White, otherwise similar to preceding.

RHODODENDRONS.

We draw our supply of Rhododendrons from what we believe to be the finest stock in the world. All the plants, even the smallest sizes, are symmetrical in form, well furnished, and have good fibrous roots that make transplanting comparatively safe.

R. Catawbiense. 8 ft. June. This is one of the types from which the hardy named varieties originated. It forms a broad, dense bush with handsome, deep-green evergreen foliage, and bears at the extremity of each branchlet immense heads of clear lilac, spotted purple flowers. 1 ft., 75 cts. each; \$9.00 per doz.; stronger plants, \$1.00 to \$2.50 each.

R. Catawbiense Seedlings. Unnamed varieties, combining a great range of color, and almost as desirable as named sorts. 1 to 2 ft., \$1.00; 2 to 3 ft., \$2.50.

R. Maximum. 10 ft., July. A hardy native. The foliage is the largest and most effective of all hardy kinds. The leaves are of the deepest glossy-green and often 10 inches long. The flowers are borne in immense heads 4 to 6 inches across, white, tinged with pink and yellow. This is of rapid growth, and is the latest flowering of all hardy kinds. Small plants, 75 cts. each; \$9.00 per doz.; larger plants, \$1.00 to \$2.00.

Special Offer No. 3 only applies to Articles on this page.

NAMED HYBRID RHODODENDRONS.

Album Grandiflorum. Blush, changing to white.
 Atrosanguineum. Deep blood red.
 Berty Parsons. Mauve, with brown eye.
 Bicolor. Rose, with white spot on upper petals.
 Caractacus. Rich purplish crimson.
 Chas. Bagley. Cherry red.
 Delicatissimum. Blush white, tinted pink.
 Everastianum. Rosy lilac, spotted red; fringed and
 crisped. The best perfectly hardy Rhododendron.

Giganteum. Light rose.
 H. H. Hunnewell. Dark, rich crimson.
 James Bateman. Clear rosy scarlet.
 Lee's Purple. Dark purple.
 Old Port. Rich plum.
 Purpureum Grandiflorum. Purple.
 Roseum Elegans. Rich rose.
 Roseum Grandiflorum. Clear rose.

Price: 1 ft., \$1.00 each; 12 to 18 inches, \$1.50 each; 18 to 24 inches, \$2.00 each. Prices on larger plants and per dozen and hundred on application.

HARDY FLOWERING SHRUBS.

The month after each sort indicates the time of flowering.

Almond (*Prunus Jap. Rubra fl. pl.*). Double pink flowers. 50 cts. May.
 Almond (*Prunus Jap. Alba fl. pl.*). Double white flowers, beautiful. 50 cts. May.
 Althæa purpurea plena (*Rose of Sharon*). *Hibiscus*. 35 and 50 cts. October.
 Althæa Striata. Carnation striped. 35 and 50 cts.
 Althæa. Double variegated. 35 and 50 cts.
 Andromeda Racemosa. White flowers in clusters. 50 cts. May.
 Azaleas. Ghent Hybrids, perfectly hardy, and of many brilliant colors. Fine plants, \$1.00; large sizes, \$2.00 and \$2.50. June.

Red Dutch, a well-known variety	1.00	7.00			

STRAWBERRIES.

We consider the following the best system for cultivating the strawberry.

Set your plants about one foot apart in the rows, and the rows three feet apart (it will take about fifteen thousand plants per acre at this distance), and allow them to make runners to fill up a space of about twelve to fourteen inches wide; that would give you a space about twenty-two inches wide for a path.

It is claimed that one can get much more fruit off the same ground grown in these narrow rows than by allowing them to run all over the ground and the fruit is of better quality.

They should have from fifteen to twenty cords stable manure per acre, or one ton of ground bone, one-half ton muriate of potash, and four hundred pounds nitrate of soda to be worked into the soil.

In field culture they should be worked once a week with cultivator, and gone over by hand once in two weeks; care should be taken, after runners start to work cultivator always the same way, to prevent breaking runners.

They should be mulched in fall after ground is frozen to protect from thawing and freezing during winter, and part of the mulch should remain during fruiting season.

Any good corn land will raise strawberries if properly fertilized.

For Garden Culture, set plants one foot apart in the row, and the rows two feet apart, keep the runners cut off, and otherwise carry out the instructions given above.

The varieties marked "P" are pistillate and must have a row of staminate, or perfect-flowered varieties, planted say every ten feet among them. Those marked "S" are staminate or self fertilizing varieties.

- Belmont (S). A late, dark crimson sort, quality fine.
- Bubach No. 5. (P). Prolific and of good quality. Light scarlet, late.
- Brandywine (S). Hardy, very prolific, good quality. Medium.
- Clyde (S). Fine, medium early; bright scarlet berries. Per doz., 25 cts.; per 100, \$1.00.
- Enormous (P). Large, late, crimson variety.
- Gandy (S). Large, late, crimson; two weeks after Belmont.
- Glen Mary (S). A new desirable main crop sort. Per doz., 35 cts.; per 100, \$2.00.
- Leader (S). Large, bright crimson berries, early and continuous.
- Marshall (S). Very large, dark crimson, fine flavor, late.
- Rio (S). A large, early, crimson colored, productive sort of good quality.
- Sample (S). Large, very fine quality. \$3.50 per 100.

25 cts. per doz.; 75 cts. per 100, except as noted. Pot grown plants, ready in August, \$2.50 per 100.

Special Offer No. 3 only applies to articles on this page.

PLEASE READ THIS BEFORE MAKING UP YOUR ORDERS.

SPECIAL OFFERS.

Carriage Paid or 10 Per Cent. Discount Allowed.

We make the following offers on all orders made up from our ANNUAL CATALOGUE FOR 1900, at the net cash prices therein stated (except as noted), SENT US BY MAIL OR EXPRESS, ACCOMPANIED BY CASH

OFFER No. 1.

We will send GOODS PREPAID by Mail, Express, or Freight, as we may deem advisable, TO ANY CITY OR TOWN IN NEW ENGLAND.

OFFER No. 2.

We DELIVER ALL MAILABLE goods (except those marked net), including Vegetable and Flower Seeds quoted, by packet, ounce, pound, pint or quart; also Bulbs (except Caladiums), to any POST-OFFICE in the United States.

OFFER No. 3.

WHERE CUSTOMERS PAY TRANSPORTATION CHARGES THEMSELVES we will allow A DISCOUNT OF TEN PER CENT on all goods except those marked net.

PLEASE REMEMBER.

That orders sent in early SECURE THE FIRST SELECTIONS.

That our SPECIAL OFFERS are POSITIVELY LIMITED to ORDERS BY MAIL or EXPRESS ACCOMPANIED BY CASH, postal note, draft on New York or Boston, stamps, express or post-office money order.

That "Special Offers Nos. 2 and 3" are especially advantageous to PARTIES LIVING OUTSIDE of New England; when goods are not mailable, in a majority of cases the 10 per cent. discount will offset transportation charges.

PLEASE NOTE.

We offer such extraordinary inducements for orders sent us by mail or express, accompanied by cash, because we can execute them in the quiet of our mail order department with promptness, dispatch, and with goods of the highest excellence, and increase the volume of our business without impairing the efficiency of its service.

BAGS. — Persons remitting with their orders should include a sufficient sum to cover cost of bags necessary to contain purchase. Prices are: 1 and 2 bushels, 15 cents; 1-2 bushel, 12 cents; 1-4 bushel, 8 cents; 1-8 bushel, 6 cents. The amount charged will be refunded if bags are returned in good condition free of expense to us, within one month from date of purchase.
