Ed. Genasci returned Wednesday from a trip to San Rafael.

Mrs. Sadler left Thursday afternoon for a visit in Berkeley.

Mr. H. E. Hoeler of San Francisco visited Mr. and Mrs. C. B. Miracle over Sunday.

See the advertisements in this issue of the Press. There have been many changes.

Miss Lizzie Hess of Salinas is staying with Mrs. Genasci. She will remain here through the fruit season.

Mrs. L. F. Shaw has been spending a couple of weeks with her niece Mrs. Geo. Segress, of Santa Cruz.

There has been lots of news lately in the "Press." Are you a subscriber or a borrower? Don't be cheap, pay for what you want and be honest.

If anyone needs a man to work for him he can get a whole carload by putting an ad. in the Press. We have inquiries for work every day. It only costs 25 cts. a week.

Every train that goes through here on its way to Santa Cruz is full to the platforms. A good way to advertise Campbell would be for the Improvement Club to have a sign painted by the side of the railroad, telling those who passed through here that this is Campbell and setting forth its chief advantages.

## Points About Campbell

### Things Which We Haven't Done but Which Should be Done

Did you ever stop to think that the only reason Campbell does not grow faster is because no one is making a noise to attract outsiders' attention? You all know that publicity is the only way a town can become known and go ahead and make a name for itself. We all know that Campbell is the most self supporting town in the Santa Clara Valley and one of the most desirable home towns in the state of California, but who are we telling all this. Are we trying to get outsiders interested in our little city to the extent that they will come and settle here, or are we leaving it for the other fellow?

We have set up an artical about Campbell which gives fairly well a general idea of what we have in the town, and which we have put on letterheads of some of the business men of the town at no additional cost. All of the business men should have it printed on their letterheads and we should all get out and hustle to get more people interested in us to the extent that they come here to settle. We want to incorporate soon and the more people we get here the less taxation we will have to pay. Everybody get out now and hustle.

### CAMPBELL

#### (THE ORCHARD CITY)

Lies 50 miles south of San Francisco, on the Santa Cruz Division of the Southern Pacific Railway, and is the central point of the most diversified of the famous Santa Clara Valley. Superb electric car service places it within but a few minutes' ride of San Jose, the metropolis of the Santa Clara Valley. The Genoa City of the foothills, Congress Springs, the medicinal virtue of which waters is unexcelled; Saratoga another beautiful foothill city, and you ride past and through the thousands of orchard and vineyard homes, and merge into the picturesque canyons of the foothills of the evergreen Santa Cruz Mountains, you can exclaim: "This is a goodly heritage!"

SCENERY SUPERB  
With the Santa Cruz Mountains to the west and south and the Coast Range to the east, a majestic amphitheater is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

FINE ROADS AND RESORTS  
The Santa Clara Valley boasts of the finest roads to be found in the State, and has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent main road, the Genoa City of the foothills, Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive from here, and the camp and the sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world. A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

EDUCATIONAL ADVANTAGES  
Campbell has a population of about 600. It maintains a third class post office which distributes to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational, a first-class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools. The Stanford University, with its marvelous architecture, is only 20 miles away.

NO SALOONS  
Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 4,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

BUSINESS INTERESTS  
Campbell has the largest fruit packing and drying establishment in the world, the best equipped cannery on the coast, catering to the highest class export trade, a fruit syrup establishment, lumber yards, planning mill and stores of all kinds. It also has a weekly newspaper and modern job printing plant. The bank of Campbell, with individual deposits amounting to a quarter of a million dollars, is a fair indication of the prosperity of the community.

FRUIT CENTER  
Campbell is pre-eminently a fruit center, and offers unusual opportunities for profitable investment, whether it be a large commercial orchard, a chicken ranch, or a small orchard home adapted to those who want to earn a few hundred dollars a year to supplement a limited income or annuity. The Campbell fruit district is noted for the quality of its fruit, and for this reason has become a trade center. The man with a few boxes of fruit has the same opportunities for selling his products as the man with many tons. Our large packing and drying establishments will have their agents at your door before the fruit begins to color.

INTERURBAN CONDITIONS  
Campbell is neither urban nor suburban, but is in fact, as well as in name, an Orchard City—a city of orchard homes, with all the conveniences necessary for 20th century comfort. The demand for intelligent labor is increasing every year, and families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE  
Acreage can be secured at various prices. Bare land, suitable for chicken ranch, hay, grain or vineyard, can be secured for \$100 per acre. Productive orchards sell for from \$200 to \$500 per acre, depending on the record of the orchard for productiveness. In buying an orchard here you do not buy a pig in a poke—facts and figures will be given you, showing what returns can reasonably be expected from your investment.

## Hay Market Report

### MOVEMENT OF GRAIN DURING THE WEEK AS REPORTED FROM SAN FRANCISCO

Special to the "Press."  
ARRIVALS of Hay for the week have been 3300 tons. There has been no particular change from the conditions that have prevailed here for some two weeks past.

The market has continued along in a dull, slow and decidedly unsatisfactory condition. Much of the Hay that has come in has been hauled from the cars to the dealers barns, as there was no sale for it, as none of the large consumers who generally lay in a winter stock have come into the market to buy as yet, as they consider the prevailing prices too high to make any extensive purchases.

Scott and Magner, Hay and Grain Merchants in San Francisco, give us the following quotations:-  
Choice Wheat Hay \$17.50 to 18.50  
No. 1 Wheat 16.00 to 17.00  
No. 2 " 14.00 to 15.50  
Choice Tame Oat 16.50 to 17.50  
Other " 13.00 to 14.50  
Wild Oat 12.00 to 15.00  
Stock Hay 7.00 to 9.00  
Alfalfa 10.00 to 14.00  
Straw .80 to .75

### Notice to Fruit Growers.

Notice to fruit growers of Campbell and vicinity. We have the agency of many of the largest canneries and commission merchants of San Francisco, Oakland and Los Angeles. We will be in position to handle a large portion of the green fruit in this section. As we will not have a regular agent in the field, it would be well for the growers to call on us before disposing of their fruits.

## Local Independance

### One of Campbell's Women Earns Her Own Home

That Campbell could exist of itself were San Jose or any other place to disappear from the face of the earth, is clearly demonstrated in the case of Mrs. M. J. Wilson, our leading dressmaker, who came to Campbell fourteen years ago and started her trade. Today she owns a magnificent home on Campbell Av. the result of hard work and saving since her arrival. Mrs. Wilson says that there is no place like Campbell on the face of the earth for home comfort, good climate, and among the best people. Mrs. Wilson's home is NOT for sale.

## Mount Hermon News

### Doings of the Week In the Camp Situated in the Tall Timber

Special to the "Press"

This is the great week of song at Mount Hermon, and every meeting is full. The singing is grand and impressive. Dr. Townner is a very magnetic leader, and inspires every one who can sing a note to do their best, and even if they can't sing, they make a noise anyhow. Dr. Townner's solo work is delightful and the quartette work of himself and helpers from the Moody Institute is as fine as any quartette that has been heard on the coast for some time. They will be assisted by Mrs. Ella B. McDowell, of San Jose, whose beautiful soprano voice is much admired. She will remain until the first of the week.

There are about 1000 persons on the grounds, and many more will come and go before the season is over. The Inn has been deservely popular under the management of Miss A. Y. Rhodes, of Los Angeles.

Lodi.—The gallantry of Herschel Mason of this city in bowing to a lady acquaintance while driving his automobile nearly cost him his life. Occupants of a passing automobile noticed that the underbrush in the grove was burning and hastened to La Jolla for help. A party of fire fighters was made up quickly and hurried in automobiles to the scene. After several hours of hard work, the flames were extinguished and the rare trees saved.

## SCHOOLTEACHERS VOTE TO MEET IN SAN FRANCISCO

Coast Metropolis Wins Fight for Next National Convention.

The board of directors of the association, breaking precedent in the respect that conventions heretofore never have been held either East or West twice in succession, decided to hold the next association gathering on the coast and the San Francisco delegation prevailed. There were two other strong bidders for the prize—Milwaukee and Boston.

The election of James Yadin Joyner, Superintendent of Public Instruction of North Carolina, as president of the National Education Association, was the cause for gratification by the enemies of the so-called "book trust." Irwin Shepherd of Winona, Minn., was re-elected secretary. A. H. Chamberlain of California was re-elected treasurer, and Lorenzo D. Harvey, the retiring president, was elected first vice-president.

Furthermore, the use of the prayer book in the service solemnizing such marriages was reprobated in the strongest terms.

# Courted and Won Women From Atlantic to Pacific

San Jose.—Bigamist Johnson entered a plea of guilty when arraigned before Judge Welch in the Superior Court here. He was immediately sentenced to seven years imprisonment at San Quentin.

San Francisco.—If the information which comes pouring in from a score of Eastern cities can be rightfully applied to Christian C. Johnson, arrested here and since taken to San Jose, marrying and promising to marry are as natural to him and as easily forgotten as the post-prandial coffee is to the gourmet. There is no question at all but that he is the "professional fiance" par excellence.

Johnson stands accused of having married and deserted at least nine different women and of having made love to and promised to marry fourteen others of whom there is no record, and is believed to have made love and pledged his troth to an infinite number of whom no record has been compiled. And from every woman with whom the records show he has had amorous dealings he has disappeared, taking their money or their valuables. In fact, marrying has been his livelihood and the buying and selling of horses his professional subterfuge.

Although there seems to be a legion of accusations hanging against Johnson the police recognize only two charges of bigamy and intend to prosecute him on one charge, sworn to by Mrs. Josie Tretheway of Stockton. She went to San Jose, where the marriage took place, for the purpose of filing a complaint. The other

charge will be held in reserve by the police and will probably be filed at the expiration of Johnson's expected term in the State's prison and will be brought by Mrs. Henrietta Leopold of this city.

The police are positive that the following record of Johnson's marriages is correct:

Under the name of Christian Johnson he married Lusylvia J. Pollard in San Rafael, December 28, 1906. At that time he gave his age as 54 years, and Miss Pollard her age as 40 years. The public record of this marriage has been found in San Rafael and Johnson himself, when confronted with the proof, reluctantly admitted it.

Under the name of Charles C. Johnson he married Mrs. Henrietta Leopold of 2144 Sutter street, April 13, 1909. He has admitted this. The marriage was performed by Justice Isador Golden.

Under the name of John C. Anderson he married Mrs. Josie Tretheway of 212 East Vine street, Stockton, on May 15, 1909, in San Jose. He has admitted this and the record proves it.

With this evidence of bigamy Detectives S. V. Bunner and J. B. Freil, who arrested Johnson in this city, have rested and intend to probe into his record no further, convinced that they have in their possession sufficient evidence to send him to the penitentiary for the balance of his natural life. The detectives say that under the law they are restrained from taking any further steps, inasmuch as they have enough evidence to convict him on one offense.

# New York Suffragettes Emulate Their London Sisters

New York.—Three suffragettes invaded Wall street a few days ago. They had pamphlets which they tried to sell and also fake cigars, which, when opened, were circular fans, bearing the inscription "Votes for women." The party consisted of Sophia Loberger, Miss Mary Rynga and Miss Helen Murphy, and went directly to New Street, in the rear of the New York Stock Exchange.

With a few minutes after their arrival in the narrow street, hundreds of men and boys gathered. "Go home and clean your dishes!" "Go home and mind the babies!" "If you want to vote, wear pants!" were some of the remarks hurled at the women. They took the suggestions good-naturedly.

By the time Exchange Place was reached, it was evident that the suffragettes had concluded that it would be well to quit the financial district.

Surrounded by three policemen, who fought the crowd back, the women retreated.

The next day a hurdy-gurdy and tambourine were used by two militant suffragettes, whose English tactics, adopted for the first time in New York, met with such a boisterous reception in City Hall Park that a riot nearly ensued. A meek-looking man pulled a hurdy-gurdy, while Mrs. Sophia Loberger and Miss Helen Murphy, the suffragettes, who wore badges and streamers lettered, "Vote for Women" and carried copies of the Suffragette, jangled tambourines.

Within five minutes they were in the center of such a crush that they had to shriek for the police. Not a copy of the publication was sold and there were no speeches. A squad of police made a lane for the two women to the nearest subway station and they hurried home.

# No Piano Playing After 10 at Night in Washington.

Washington.—"Piano playing and singing after 10 o'clock at night is disorderly conduct, as much so as cursing or fighting," declared Judge Ivory G. Kimball in the Police Court in dismissing with a lecture a case against Raymond Leman.

The Court announced that hereafter a curfew would ring promptly at 10 o'clock and all offenders brought before him would receive a fine.

The Judge said to Leman:

"Playing the piano after hours will not be tolerated in this city. No man or woman has the right to play the piano or sing after the neighbor is asleep or in bed trying to sleep."

Continuing, the Judge said that any house where music was kept up late at night was a disorderly one.

# Judge Rules "Grafter" Does Not Imply Dishonesty

Chicago.—The word "grafter" is not necessarily slanderous, according to a decision of Judge Foster. By this decision William H. Haskell, former superintendent of construction of the board of education, lost his suit for damages for \$1000 against Dwight H. Perkins. The court directed the jury

to return a verdict in favor of the defendant.

"Grafter," the court said, "does not necessarily imply dishonesty. If a man tipped the waiter the latter might be called a 'grafter.' So far as I can see, the plaintiff has suffered no damage."

### Rancher Kills Robbers.

Torregon, Mexico.—Four masked men broke into the apartments of Jose Santiago, owner of the Pinto Hacienda, in North Torregon, and demanded his valuables. Instead of complying, Santiago reached under his pillow for a small revolver and opened fire. When the shooting was over two robbers were dead and the other two were running away, leaving a trail of blood behind them. They were soon captured.

### Hamilton Embezzled \$60,000.

Seattle.—Adjutant-General George B. Lamping of the State of Washington, after a searching investigation of the accounts of his predecessor, Orvis Hamilton, with the United States War Department, says that Hamilton, who is in jail in Olympia, awaiting trial on an embezzlement charge, converted probably \$60,000 of the State's money to his own use, and that James A. Drain, Hamilton's predecessor, has a clear record.

## VALLEY FARMERS ORGANIZE FOR MUTUAL PROTECTION

Fruit and Produce Men of Southern San Joaquin Act in Concert.

Stockton.—The farmers of Manteca and the southeastern part of San Joaquin county have organized for the purpose of protection and securing better prices for their melons, produce, and especially butter fat in the future. They organized what is termed a Farmers' Union, and intend urging all of the large producers to join, so that prices can be better regulated.

Heretofore it has been the practice to accept contracts with buyers at various figures, and naturally the clever buyers would often get the best of the deals. Under the new proposition all of the members will be kept fully advised as to the market prices on everything they produce, and it is believed that the organization will result in much good to all interested. It is also a co-operative society, and will become affiliated with the national and State organizations. The Manteca farmers are also affiliated with the San Joaquin valley melon pool, which includes over 70 per cent of the growers, who will undoubtedly make new prices on melons, and possibly some fruits.

### To Develop Desert Land.

San Bernardino.—Surveys for the preliminary work on the Victor dam site at the Narrows of the Mojave river are being made by the Mojave River Development Company, a recently organized company of San Francisco and Eastern capitalists, who are preparing to carry on the long-protected work of impounding the waters of the Mojave river for irrigation and power purposes. Thousands of acres of rich land on the desert side of the San Bernardino mountains will be brought under cultivation.

### New York to Cheer Portola.

New York.—Robert A. Roos, the Portola "booster," is in high spirits over the success of his interview with Acting Mayor Patrick McGowan. He had a long talk with McGowan and explained fully the Portola festival plans. The acting mayor promised Roos that at noon October 19—Portola day—the 650,000 school children of greater New York would "hurrah for San Francisco." If practicable each child will be given a small flag to wave.

### Champion Beefsteak Eater.

New York.—Philip Lommel, weighing 270 pounds, has won the championship medal as a beefsteak eater. In a contest with Max Meyers, 275 pounds, at a political club outing, Lommel gorged himself with 10 pounds of beefsteak without getting up from the table, while Meyers was able to stuff only 8 3-4 pounds into himself. There were many bets on the contest, which was watched by an excited crowd of several hundred persons.

Sacramento.—John Bosson and wife of Scranton, Pa., who allege they were swindled out of \$10,000 on a mythical gold mine in Sierra county, filed suit in the Superior Court here against J. W. El Paso, Tex.—A special to the Herald from Monterey, Mexico, says an epidemic of typhus fever is raging there and scores of people are dying. The death list among the poorer classes already is very heavy. The water supply is believed to be contaminated.

Chicago.—A gift of \$50,000 to Whitman College, Walla Walla, Wash., by D. K. Pearsons, the Chicago philanthropist and friend of small colleges, was announced here a few days ago. Pearsons' benefactions to the Washington institution now aggregate \$300,000.

Dillon, Mont.—Judge Everton J. Conger, one of the best known men of this part of the State, and famous as the man who led the detail of soldiers during the Civil War who captured J. Wilkins Booth after the assassination of President Lincoln, was fatally injured by being run over by an automobile driven by Sheriff Gosman.

Cincinnati.—By a decision in the United States circuit court of appeals the Wabash railroad company will be compelled to pay over \$750,000, the amount of interest compounded and the principal of \$150,000 for bonds sold James Compton of Toledo over a third of a century ago or suffer its Toledo terminals to be sold to satisfy the lien.

Cincinnati.—The first city in which night baseball has been brought to a successful issue also will be the first in which night football will receive a thorough tryout. The Pilgrim team of England, made up of the greatest soccer football players of Great Britain, will visit Cincinnati October 14th, and it is planned to have them play a game at night instead of during the day.

New York.—Andrew Carnegie and Mrs. Russell Sage are assessed as possessing \$5,000,000 worth of personal property each in New York city. John D. Rockefeller's personal property assessment is \$2,500,000 and that of seven members of the Vanderbilt family aggregates \$1,340,000. J. Pierpont Morgan is down for \$440,000, while the late H. H. Rogers and William Rockefeller are each assessed \$200,000.

Melbourne.—Senator McCall, who represented Australia at the farming congress held recently at Cheyenne, Wyo., a few days ago, said to the Australian farmers assembled in convention at Bendigo that Australia was a much better agricultural country than either America or Canada. He combated the idea that Australia was arid, saying that he had seen drier areas than those of Australia successfully farmed in America.

Naivasha, British East Africa.—The Roosevelt expedition is enjoying good hunting, and all the members of the party are well. This information was brought into Naivasha by couriers from the Sotik district. Roosevelt has killed a splendidly-maned lion, one lioness and four rhinoceroses. He brought down the lion while the beast was in full charge, the bullet penetrating the middle of the chest. Kermit Roosevelt has secured one big bull eland, one lioness and two rhinoceroses.

New York.—The American Sugar Refining Company, in the United States Circuit Court last week, entered pleas of not guilty to the indictments recently found against it as a corporation charging conspiracy and combination in restraint of trade and with monopolizing raw and refined sugar. Similar pleas were entered by the officers of the company. Judge Hand accepted the pleas and granted counsel two weeks' time to demur or take other action regarding the indictments.

Entered as second-class matter September 30, 1904, at the Postoffice at Campbell, California, under the Act of Congress of March 3, 1879

A good many subscriptions to the Press become due this month and quite a number of notices have been sent out.

The Press is not seeking any charity work when it asks you for your patronage, we are trying to sell you something you should have. The Press is not a large paper because Campbell is not a large town. We cannot put out a very elaborate paper, but we can, and believe we do, give you a dollar's worth of news and entertainment in the Press every year. Of course we would like to have a large list of subscribers, that is what we are working for. Without circulation a paper cannot get advertising, and without advertising we cannot run the paper. "We" must live. Our bills have to be paid and all we ask is a fair living profit for our work.

Aside from the news value of the Press as an inducement to you for your subscription there is the community helping side. By that we mean you should subscribe for the Press to keep the town before the eyes of the public. As everybody knows, the Press is a standing advertisement of Campbell to outsiders. People who become interested in a place, invariably do so from advertising literature. What better idea of a place can be gotten than from the home paper. In it can be found the advertisements of all the progressive merchants in the town and in its news columns can be found the items of interest which show the community life of the town.

You make a great mistake in saying you cannot afford to subscribe to the Press. You cannot afford to be without it. Come now, send in your subscription or renewal today, or if you already have subscribed and believe in what we say, mention the fact to your friends

July 18, 1909.

(Copyright, 1909, by Rev. T. S. Linscott, D.D.)  
Paul's Second Missionary Journey—Thessalonica and Berea. Acts xviii: 1-15.

Golden Text—Thy word have I hid in mine heart, that I may not sin against thee. Ps. cxix:11.

Verses 1-2—Is church going a good habit, and what do they lose who have not formed it?

How many times a day should a person attend church?  
What is the value of a good habit, and how are good habits formed?

Verses 3-4—Did Paul mean to say that it was necessary for the Jews to have put Jesus to death, and if not what did he mean? (This question must be answered in writing by members of the club.)

(The position taken by the present writer is, that the Jews ought to have accepted Jesus, and that their putting him to death is the colossal crime of history, and the calamity of calamities that has befallen the Jews. That there are two distinct lines of contingent prophecy in the Old Testament, either one of which being fulfilled, would cancel the other; and that the prophecies concerning the perpetuation of the Jewish nation and the throne of David with unparalleled splendor, were cancelled by the fulfillment of those concerning the rejection of Christ. God sent Jesus in good faith, and they voluntarily rejected him, when God's first and best plan was that they should accept him. God then proceeded to do through the death of Christ, that which would have been done more speedily by his life.)

Is it necessary for us to adopt all Paul's opinions, in order to be well-pleasing to God?  
Were all Paul's opinions correct concerning the time of the second coming of Christ?

In what sense was it true, "that Christ must needs have suffered?" (See Luke xxiv:26, Jer. xxiii:5-6, Mic. v:2, Matt. ii:4-6.)

In what way do the Old Testament Scriptures bear testimony that Jesus is the Christ?  
Verses 4-5—How do you account for it that the same facts and reasoning which converts some only serves to harden others?

How is it that women are generally in the majority in Christ's converts?  
Why were the Jews' moved with jealousy?

Can a jealous man, at the time, either be a true man or a correct reasoner?  
How do you characterize a person who is jealous of another in doing good works?

Have we any modern example of the way these people acted?  
Verse 6—Is the world, to-day, upside down, or right side up?  
Is the world getting better or worse?

Verse 7—When people oppose the work of God do they generally confine themselves to the truth in their objections, or do they ever confine themselves to the truth?  
Do objectors to the truth knowingly falsify or do they do it in blind ignorance, or through prejudice?

Verses 10-12—Is there ever any virtue in exposing ourselves to danger, when it is not necessary in the interests of the truth?  
What was the difference between the religious people of Thessalonica and those of Berea?

Is a truth seeker sure to find it?  
Is it ever right to suppress the truth in the interests of the Kingdom of God?

Verses 13-15—What is it which prompts men to work so hard, and persistently in opposing what they know to be the truth?
