# REPORT

OF

## THE CENSUS OF 1871.

---

To His Excellency the Right Honorable Sir FREDERICK TEMPLE, Earl of DUFFERIN, Viscount and Baron Clandeboye of Clandeboye, in the County of Down, in the Peerage of the United Kingdom, Baron Dufferin and Clandeboye of Ballyleidy and Killeleagh, in the County of Down, in the Peerage of Ireland, and a Baronet, Knight of the Most Illustrious Order of St. Patrick, and Knight Commander of the Most Honorable Order of the Bath, Governor General of Canada, and Governor and Commander-in-Chief in and over the Island of Prince Edward, and Vice-Admiral of Canada and Prince Edward Island, &c.

MAY IT PLEASE YOUR EXCELLENCY :—

I have the honour to submit the Report of the Census of the Provinces of Ontario, Quebec, New Brunswick and Nova Scotia, taken in the month of April, 1871 ; accompanied with abstracts of former Censuses and other statistical information.

The labour, of which these volumes are the result, was commenced in 1864, in the Department of Agriculture of the former Province of Canada, in view of the taking the present Census, and continued from year to year, as reported to Your Excellency's Predecessors, in the yearly Departmental Reports.

The gathering and compiling of comparative statistics, and a part of the preliminary studies preparatory to the taking of the Census of 1871, thus begun before the Confederation of the Provinces, when the late Honorable Mr. McGee was Minister of Agriculture of the United Provinces of Upper and Lower Canada, were continued in the Department during the term of office of my two predecessors, the Honorable Messrs. Chapais and Dunkin. The field work of the taking of the Census was done during the term of office of my immediate predecessor, Mr. Dunkin, who took a lively interest in the success of this important undertaking, and to whom is due the arrangement of the territorial divisions into Census Districts and Sub-Districts.

The work has been, from the beginning, under the superintendence of Mr. J. C. Taché, Deputy Minister of Agriculture, in furtherance of a general design stated by him in a paper which appears in the Departmental Report of 1865, and it is simple justice to him to add, that he has prosecuted it throughout with an energy and ability that entitle him to great credit.

The whole respectfully submitted.

J. H. POPE,  
Minister of Agriculture.

OTTAWA, December, 1872.

# RAPPORT

DU

## RECENSEMENT DE 1871.

*A Son Excellence, le Très-Honorable Sir FREDERICK TEMPLE, Comte de DUFFERIN, Vicomte et Baron Clandeboye, de Clandeboye, dans le Comté de Down, de la Pairie du Royaume-Uni, Baron Dufferin et Clandeboye de Belleisleidy et Killeleagh, dans le Comté de Down, de la Pairie d'Irlande, et Baronet, Chevalier du Très-Illustre Ordre de St. Patrick, et Commandeur du Très-Honorable Ordre du Bain, Gouverneur-Général du Canada, et Gouverneur et Commandant-en-Chef de l'Isle du Prince-Edouard, et Vice-Amiral du Canada et de l'Isle du Prince-Edouard, etc.*

QU'IL PLAISE A VOTRE EXCELLENCE :—

J'ai l'honneur de soumettre le Rapport du Recensement des Provinces d'Ontario, de Québec, du Nouveau-Brunswick et de la Nouvelle-Ecosse, fait dans le mois d'Avril 1871, avec et y compris les résumés des recensements antérieurs et autres renseignements statistiques.

Les travaux statistiques, dont ces volumes sont le résultat, ont été commencés en 1864 dans le Département de l'Agriculture de la ci-devant Province du Canada, et poursuivis depuis, sans interruption, comme il appert par les rapports du Département présentés chaque année aux prédécesseurs de Votre Excellence.

Les travaux de statistique comparative et partie des études préliminaires du Recensement de 1871, ainsi commencés avant la Confédération, alors que feu l'Honorable M. McGee était Ministre de l'Agriculture des Provinces-Unies du Haut et du Bas Canada, ont été continués dans le Département, sous l'administration de mes prédécesseurs en office, les Honorables MM. Chapais et Dunkin. Les opérations du dénombrement de 1871 ont été accomplies sous l'administration de l'Honorable M. Dunkin, à qui est dû l'arrangement des circonscriptions des districts et sous-districts de recensement, et qui prenait un vif intérêt au succès de cette grande entreprise.

Tous ces travaux, depuis le commencement, ont été confiés à la direction de Monsieur J. C. Taché, Assistant-Ministre de l'Agriculture, en exécution d'un plan général consigné par lui dans un mémoire inséré au Rapport Annuel du Département, en 1865, et il n'est que juste d'ajouter qu'il a poursuivi cette œuvre avec une énergie et une habileté dignes de grands éloges.

Le tout humblement soumis.

J. H. POPE,  
Ministre de l'Agriculture.

OTTAWA, Décembre 1872.

# CANADIAN STATISTICS.

## CENSUS OF 1871.

*To the Honorable J. H. POPE, Minister of Agriculture.*

SIR,—I have the honour to lay before you the Report of the Census of 1871, in such a state of progress as may at once allow going on with the printing thereof.

In presenting to you the result of this labour, accompanied with the product, in the form of abstracts, of several years of statistical researches, it is right that I should mention the names of my principal *collaborateurs* in the work, with indication of the special duties, which they have been called upon to perform.

Messrs. S. Drapeau, W. H. Johnson, and the Rev. Mr. Tanguay, have been, since 1865, employed in abstracting and tabulating the Censuses and other statistical records of the Provinces of Ontario, Quebec, Nova Scotia and New Brunswick, from the earliest dates of European settlements, within limits of Canadian territory. Their experience and training have also been made available in the preparatory labours, and again in the final revision, calculations and correction of the Census of 1871.

Mr. Andrew Russell has been, since 1870, engaged in the topographical labour connected with the undertaking.

For some months before the beginning of the Census field work, thirteen Census officers were appointed to assist in the preparation, and afterwards to superintend the work of the Commissioners and Enumerators, each within a group of Districts assigned to him. The names of these officers were as follow: Messrs. John Costley and Amos Purdy for Nova Scotia; C. A. Everett and J. G. G. Layton for New Brunswick; E. U. Piché, J. A. N. Provencher, Joseph Anctil and John Lowe, for Quebec; Thomas Mayne Daly, T. P. French, W. Forster, John Barwick and Dr. John Beatty, for Ontario.

At an early period of the proceedings, Mr. Lowe having been called to the Secretaryship of the Department of Agriculture, Mr. George W. Weaver was appointed Census Officer in his place.

After the return of the Enumerators' schedules and Commissioners' reports, Messrs. Layton, Beatty, French, Purdy and Anctil were retained as Chief Compilers.

To Mr. M. J. May was entrusted the superintendence of the Stationery, the keeping of the Archives, and the supervision of the Printing.

Without any further remark, I submit to you, with confidence, the result of the first Census of Canada as constituted in 1870-71.

I have the honor to be,

Sir,

Your obedient servant,

J. C. TACHÉ.

Department of Agriculture,

Ottawa, December, 1872.

# STATISTIQUE DU CANADA.

## DÉNOMBREMENT DE 1871.

*A l'Honorable Monsieur J. H. POPE, Ministre de l'Agriculture.*

MONSIEUR,—J'ai l'honneur de mettre devant vous le Rapport du Recensement de 1871, dans un état d'avancement suffisant pour permettre d'en commencer de suite l'impression.

En vous présentant le résultat de ce dénombrement et le résumé des recherches statistiques de plusieurs années, il convient que je fasse mention des noms de mes principaux collaborateurs, avec indication du genre de travail auquel chacun d'eux a contribué.

Messieurs S. Drapeau, W. H. Johnson et M. l'Abbé Tanguay ont été, depuis l'année 1865, employés à recueillir et à résumer les recensements antérieurs et autres documents statistiques des Provinces d'Ontario, de Québec, de la Nouvelle-Ecosse et du Nouveau-Brunswick; les renseignements ainsi recueillis remontent jusqu'à l'époque des premiers établissements Européens en Canada. Ces messieurs ont aussi contribué aux travaux préparatoires du Recensement de 1871, et à la révision et correction des tableaux du présent Rapport.

Monsieur Andrew Russell a été, depuis 1870, employé aux travaux géographiques nécessités par le Recensement.

Quelques mois avant de commencer les travaux du dénombrement de la population, treize officiers ont été nommés pour aider aux travaux préliminaires d'abord, puis pour surveiller l'œuvre des Commissaires et Énumérateurs, chacun dans les limites d'un groupe de districts à lui assigné. Ces officiers étaient: Messieurs J. Costley et A. Purdy, pour la Nouvelle-Ecosse; C. A. Everett et J. G. G. Layton, pour le Nouveau-Brunswick; E. U. Piché, J. A. N. Provancher, J. Auctil et J. Lowe, pour Québec; T. M. Daly, J. P. French, W. Forster, J. Barwick, et le Docteur J. Beatty, pour Ontario.

Monsieur Lowe ayant été nommé, un peu plus tard, Secrétaire du Département de l'Agriculture, Monsieur G. W. Weaver fut appelé à le remplacer comme officier du Recensement.

Après la réception des cahiers de dénombrement et des rapports des Commissaires, Messieurs Layton, Beatty, French, Purdy et Auctil, furent nommés chefs compilateurs.

A Monsieur M. J. May a été confié la garde des archives, et la surintendance de la papeterie et des impressions.

Sans plus de remarques, je vous sou mets avec confiance le résultat du Recensement Canadien de 1870-71.

J'ai l'honneur d'être,

Monsieur,

Votre obéissant serviteur,

J. C. TACHÉ.

Département de l'Agriculture,

Ottawa, Décembre 1872.

# STATISTICS OF CANADA.

CENSUS OF 1870-71.

## INTRODUCTION,

### I.

The Census of 1870-71, the first since the passing of the British North America Act, was taken under the authority of the "CENSUS ACT," assented to on the 12th May, 1870 (33 Victoria, Chapter XXI). The publication of the results of this extensive work is accompanied with comparative statements abstracted from reports of former censuses, and from other statistical resources, after the manner followed in older countries. Without such statements it would be impossible to institute comparative studies,—to ascertain the movements of population, or to realize the progress of the settlement of the country from time to time.

The Report is published in such a manner, as to combine both the English and French languages. By this expedient the cost of the printing is very materially reduced, at the same time that the work is rendered available for consultation everywhere. The edition will consist of five volumes, in which is compressed a mass of information more than three times as much as was contained in the reports of the Censuses of 1861 for the same four Provinces;—which reports formed six volumes; that is, two volumes for the English and two for the French edition of the Census of Upper and Lower Canada, and one volume, in English alone, for each of the Provinces of Nova Scotia and New Brunswick.

Each volume will contain remarks referring to the tabular matter therein published, and each will be furnished with indexes and explanations necessary to facilitate reference thereto.

The Census Returns of Population and Property consist of the statements of facts as they actually existed on the 2nd day of April, 1871; that being the day to which the Enumerators' enquiries referred. The Returns, which embrace a yearly period, are counted for the twelve months immediately preceding the same 2nd day of April.

The system adopted for the enumeration of the people is that known by the appellation of *Population de droit* or *de jure*. This system was not chosen in ignorance of the arguments that are brought forward in upholding that style of *Population de fait*, or *de facto*; nor in ignorance of the fact that the latter has been for some time adopted in France, England, and elsewhere. The *de jure* principle was resorted to, for the same reasons that induced our neighbours of the United States to adopt it, amongst others, as being better fitted to the circumstances of special difficulties of organization, of immense extent of territory, and of federal political institutions.

### II.

In the absence of a permanent staff available for the purpose of census taking, such as is constituted in England by the *personnel* of the Registrar General's Office, with its 627

# STATISTIQUE DU CANADA.

RECENSEMENT DE 1870-71.

## INTRODUCTION.

### I.

Le Recensement de 1870-71, le premier entrepris depuis la passation de l'Acte de l'Amérique Britannique du Nord, a été fait par autorité de l'ACTE DU RECENSEMENT, sanctionné le 12 mai 1870 (33 Victoria, chapitre XXI). Le résultat de ce grand travail est accompagné d'états comparatifs, résumés des recensements antérieurs et d'autres documents statistiques, d'après l'exemple donné par des pays plus anciens que le nôtre ; on comprend de suite que, en l'absence de ces éléments de comparaison, il serait impossible de se rendre compte des mouvements de population et des progrès réalisés dans l'établissement de la contrée.

L'édition de ce Rapport comporte partout, en regard, le texte français et le texte anglais ; de cette façon, en même temps qu'on économise les frais d'impression, on obtient cet avantage que le livre peut être compris dans tous les pays du monde. L'ouvrage formera cinq volumes, dans lesquels est condensée une masse d'informations trois fois au moins plus considérable que celle contenue dans les rapports des recensements de 1861 ; cependant les rapports des recensements des quatre Provinces, en 1861, formaient six volumes : deux volumes pour l'édition française et deux volumes pour l'édition anglaise du Recensement du Haut et du Bas-Canada, et un volume, en langue anglaise seulement, pour chacune des Provinces de la Nouvelle-Ecosse et du Nouveau-Brunswick.

Chaque volume de ce Rapport aura son Introduction, comme aussi ses Index. Les renseignements relatifs à la Population et à la Propriété, sont l'état des faits tels qu'existant au jour du 2 avril 1871. Les renseignements qui s'appliquent à l'année dernière écoulée datent du 2 avril, comptant douze mois en arrière.

Le système adopté dans le dénombrement de la Population, est celui de la *population de droit*. Ce choix n'a pas été fait dans l'ignorance des arguments apportés en faveur du système dit de la *population de fait* ; non plus que dans l'ignorance du fait que ce dernier système a, depuis quelques années, prévalu en France, en Angleterre et ailleurs ; on a choisi le système de la *population de droit* pour des raisons analogues à celles qui ont fait prévaloir ce même système chez nos voisins des Etats-Unis, c'est-à-dire, comme étant mieux adapté aux circonstances du pays, entre autres aux difficultés particulières d'organisation, à l'immense étendue du territoire et au caractère fédératif des institutions politiques.

### II.

En l'absence d'un personnel permanent, disponible pour l'exécution d'un recensement, comme est par exemple celui qui, en Angleterre, appartient au Bureau du Régistrateur

Superintendent Registrars, and 2,197 Registrars, as instructors and supervisors of the 32,606 enumerators employed, temporary appointments had to be resorted to, and a special method of instructing the census officers for their work had to be adopted.

Several months in advance of the time at which the actual operations were to commence, thirteen gentlemen were nominated as Chief Census Officers, who, for some time attended to the preparations then going on in the Department, and received the instruction, which they were uniformly to impart to the Local Census Officers to be selected in the various parts of the country.

The local officers were District Commissioners, 206 in number, and Enumerators 2,789 in number, who all went through a series of oral instructions before entering upon the execution of their duties—the Commissioners from the Chief Census Officers, and the Enumerators from the Commissioners. Each officer was, besides, furnished with a MANUAL of direction, and with a *Specimen Schedule*, indicating the manner in which every entry was to be made in the Census Schedules.

The Schedules were nine in number, referring to the various matters of enquiry, in the following manner :—

Schedule No. 1.—*Nominal Return of the Living*, containing 23 columns, for the insertion of information in relation to dwellings, names, sexes, births, places of birth, religions, origins, professions, conjugal condition, state of instruction, mental and other infirmities of the people.

Schedule No. 2.—*Nominal Return of the Deaths*, containing 12 columns, for the insertion of names, sexes, births during the last twelve months, religion, place of birth, profession, conjugal condition, causes and month of death.

Schedule No. 3.—*Return of Public Institutions, Real and Personal Estate*, containing 19 columns, relating to buildings, number of inmates of Institutions, acreage of farm land held, number of town lots held, ownership of dwellings and other buildings, carriages and agricultural implements.

Schedule No. 4.—*Return of Cultivated Land and Products*, containing 36 columns, relating to agricultural statistics.

Schedule No. 5.—*Live Stock, Animal Products, Home-made Fabrics and Furs*, containing 29 columns, relating to various matters indicated by this title.

Schedule No. 6.—*Return of Industrial Establishments*, containing 18 columns, relating to capital employed, working time, number and classification of employes, aggregate amount of yearly wages, moving power, kind of manufactures, quantities of raw material and manufactured articles, with the value thereof.

Schedule No. 7.—*Return of Products of the Forest*, containing 20 columns, relating to the various kinds of timber cut and hauled.

Schedule No. 8.—*Return of Shipping and Fisheries*, containing 33 columns, relating to ships, tonnage, and the catch of fishes.

Schedule No. 9.—*Return of Mineral Products*, containing 21 columns, relating to the quantities of various ores and other mineral products extracted from the deposits.

These schedules were to be and have been filled, by the enumerators themselves, each one going from house to house through the territorial division assigned to him.

As it was, if not of absolute necessity, at least very desirable, to acquaint the public

Général avec ses 627 Surintendants et ses 2,197 Régistrateurs, instructeurs et surveillants naturels des 32,606 Énumérateurs employés, il a fallu organiser, de toutes pièces, un Bureau Spécial et adopter un genre particulier d'instruction.

Plusieurs mois à l'avance du temps fixé pour le commencement du dénombrement, treize Officiers de recensement furent mandés au Département de l'Agriculture, pour là, prendre part aux travaux préparatoires, et pour recevoir les instructions qu'à leur tour ils avaient à transmettre aux Commissaires et aux Énumérateurs des diverses circonscriptions de recensement.

Les officiers chargés du dénombrement se partageaient en deux catégories : les Commissaires de districts, au nombre de 206, et les Énumérateurs au nombre de 2,789 ; tous ont subi, avant leur entrée en besogne, un cours d'instruction orale ; les Commissaires de la part des Officiers en chef, les Énumérateurs de la part des Commissaires ; chacun d'eux, en outre, était muni d'un MANUEL d'instructions et d'un *cahier-modèle*, expliquant la manière dont chaque entrée devait être faite dans les cahiers de dénombrement.

Les cahiers ou tableaux d'énumération étaient au nombre de neuf, disposés dans l'ordre et dans la manière suivante :—

Tableau No. 1.—*Dénombrement des Vivants*, contenant 23 colonnes destinées à l'insertion des renseignements ayant trait aux sujets qui suivent : demeures, noms, sexes, naissances, religions, nationalités, lieux de naissance, professions, état de mariage, état d'instruction, infirmités.

Tableau No. 2.—*Dénombrement des Morts des derniers douze mois*, contenant 12 colonnes pour l'insertion des noms, sexes, naissances de l'année, religions, lieux de naissance, professions, état de mariage, mois et causes de la mort.

Tableau No. 3.—*Établissements Publics, propriétés immobilières et mobilières*, contenant 19 colonnes s'appliquant aux biens et au personnel des institutions, à l'ensemble de la propriété foncière, aux véhicules et aux instruments d'agriculture.

Tableau No. 4.—*Les terres cultivées et leurs produits*, contenant 36 colonnes s'appliquant aux renseignements agricoles.

Tableau No. 5.—*Bétail, Produits animaux y compris les fourrages*, contenant 29 colonnes, s'appliquant aux divers sujets indiqués dans le titre.

Tableau No. 6.—*Établissements industriels*, contenant 18 colonnes, s'appliquant au capital employé, au temps d'ouvrage, au nombre des employés, au montant des gages, à la force motrice, à la matière première, aux articles manufacturés et à leurs valeurs.

Tableau No. 7.—*Produits des Forêts*, contenant 20 colonnes, s'appliquant à l'industrie forestière.

Tableau No. 8.—*Navigations et Pêcheries*, contenant 33 colonnes, s'appliquant aux diverses espèces de navires, à leur tonnage, et aux quantités prises de divers poissons.

Tableau No. 9.—*Produits des Mines*, contenant 21 colonnes, s'appliquant aux quantités extraites des divers minerais et autres matières du genre.

Ces cahiers de recensement ont été remplis par les Énumérateurs eux-mêmes, allant de maison en maison, chacun dans les limites de la circonscription à lui assignée.

Afin de faire connaître aux gens la portée des questions que les énumérateurs étaient

beforehand with the questions that were to be put in every household, the headings of columns of the nine schedules were printed on a single sheet and, some time before the visit of the enumerators, distributed all over the country.

### III.

For the purpose of census taking, the four Provinces to be enumerated were divided into Census Districts, in number 206, and Census Sub-districts numbering 1,701. Such of the sub-districts as presented a large area, special difficulty of travel, or a comparatively large population, were again, but merely for the apportionment of the work amongst enumerators, redivided into two, or more divisions, according to the circumstances of the case.

Generally speaking, the Census Districts and Sub-districts were made to correspond exactly with the electoral districts, and with the parochial, civil or political sub-divisions thereof; but in many cases they do not so correspond. It is therefore important that explanations should be afforded in reference to this point, for each of the four Provinces of Ontario, Quebec, New Brunswick and Nova Scotia.

It has been also deemed of very great importance to complete such explanations, by inserting in this volume maps indicating the limits and extent of the Census Districts, which any one, desirous of giving the subject a fuller consideration, may compare with the ordinary maps of the country. The three little maps, herewith annexed, refer by numbers to the tables in which the names of the districts are given, with their serial numerical indication.

The fifth table of this volume establishes the *rapport* between the electoral districts, as now defined by law, and the census districts, in such a manner as to allow, by a reference to the other tables where mention is made of sub-districts, the making up of all the component parts of each.

### IV.

Extensive topographical studies were carried on in the Department previous to, during, and after the time of the taking of the census. Changes in the limits and in the number of territorial divisions, whether municipal, political or otherwise, are constantly taking place, as must necessarily be the case in the circumstances of the country; thus rendering it impossible, in very many cases, to make one census conform with the precedents in the classification of territorial divisions.

The territorial divisions in the Province of Ontario are Cities, Towns, Villages and Townships, most of them incorporated as Municipalities in all the organized parts of the Province; the rest being unsurveyed or only partially surveyed Crown Lands, in the midst of which there are portions set apart as timber berths and mining locations, licensed to individuals or companies carrying on lumbering or mining operations.

The Census Districts and sub-districts of the forest regions of the country were arranged according to the distribution and direction of water courses.

The only exceptions in Ontario to the general rule adopted of making the Census Districts to correspond with the electoral districts as they then existed, are in the cases of districts No. 42 North Simcoe, 53 North Victoria, 57 East Peterborough, 58 North

chargés de poser à chaque famille, une feuille, résumant les titres de chaque tableau et les têtes de chaque colonne, a été distribuée, quelque temps à l'avance dans le public, sur toute l'étendue du pays.

## III.

Les quatre Provinces ont été pour les fins du recensement, comme on peut le voir dans les tableaux de ce volume, partagées en 206 districts, et 1,701 sous-districts de recensement. Un certain nombre de sous-districts, pour causes d'étendue territoriale, de difficultés de voyage ou de densité comparative de population, ont été partagés, mais seulement pour la distribution de l'ouvrage entre les Énumérateurs, en deux, ou plusieurs divisions, selon le cas.

En règle générale, les districts et sous-districts de recensement correspondent exactement avec les districts électoraux, tels qu'existant en 1871, et avec les paroisses, cantons et autres subdivisions reconnues; cependant dans beaucoup de cas, cette concordance n'a pas lieu, cela nécessite les quelques remarques qui vont bientôt suivre sur chacune des quatre Provinces d'Ontario, de Québec, du Nouveau-Brunswick et de la Nouvelle-Ecosse.

On a eu d'une grande importance de compléter ces explications, par l'insertion dans ce volume de Cartes indiquant les limites et l'étendue des districts de recensement; la comparaison de ces cartes avec les cartes ordinaires du pays facilitera singulièrement l'étude de cette question à ceux qui désireraient l'approfondir. Dans ces trois petites cartes les numéros inscrits sont les numéros des districts de recensement, dans leur ordre de série.

Le tableau V de ce volume, comparé aux tableaux qui le précèdent, fait voir, jusque dans ses plus petits détails, le rapport qui existe entre les districts de recensement et les districts électoraux, établis par l'acte de 1872, qui règle, à nouveau, la constitution de la Chambre des Communes du Canada.

## IV.

On s'est livré avant, pendant et après l'exécution du dénombrement, dans le Département de l'Agriculture, à des travaux topographiques considérables; ces études, utiles en tout état de cause, étaient devenues nécessaires par le fait que les changements continus, qui ne peuvent manquer d'avoir lieu dans un pays de colonisation, rendaient impossible, en bien des cas, l'adoption de la classification dont on s'était servi pour les recensements antérieurs.

Les circonscriptions territoriales, dans la Province d'Ontario, sont les Cités, Villes, Villages, et Cantons (*Townships*); en presque totalité ces circonscriptions sont de plus organisées en municipalités. Le reste de la province se compose des Terres de la Couronne, non ou seulement partiellement arpentées, au sein desquelles certaines portions sont mises à part, sous le nom de *Limits de bois* et *Locations de mines*, et louées à des individus ou à des compagnies engagés dans les opérations forestières ou minières.

Dans l'arrangement des districts et sous-districts de recensement, pour ces régions forestières, on a suivi les dispositions naturelles indiquées par les cours d'eau.

Les seules exceptions, dans la province d'Ontario, à la règle générale de faire concorder les districts de recensement avec les districts électoraux de 1871, se rapportent aux

Peterborough, 62 North Hastings, 82 North Renfrew, parts of which being composed of unorganized territories, were made Census Districts of themselves under the names of Muskoka No. 85, Parry Sound No. 86, South Nipissing No. 83, and North Nipissing No. 84. The electoral district of Algoma was divided into four Census Districts, namely: Manitoulin No. 87, East Algoma No. 88, Centre Algoma No. 89, and West Algoma No. 90, by reason of its vast extent and difficulties of communication.

The territorial divisions in the Province of Quebec are the same as in the Province of Ontario, with the addition of parishes, into which, by far the larger part of the Province is sub-divided. The unorganized portions of this Province have also their timber berths and mining locations.

The exceptions to the general rule in the Province of Quebec are the following:—

The electoral district of Pontiac was divided into two Census Districts, numbered 91 and 92; the electoral district of Ottawa into three Census Districts, numbered 93, 94, and 95; the electoral district of St. Maurice into two Census Districts, numbered 129 and 130. These Census Districts were made to comprise a portion of the unorganized rear parts of territory belonging to the electoral districts of Montcalm, Joliette, Berthier and Maskinongé.

The electoral district of Champlain was divided into two Census Districts, numbered 132 and 133, and made to comprise a portion of the unorganized rear parts of the electoral districts of St. Maurice, Portneuf and Quebec.

The electoral district of Chicoutimi and Saguenay was divided into three Census Districts, called and numbered Chicoutimi 150, Saguenay 151, and Labrador 152. The Census District No. 150 was made to include some of the unorganized rear parts of the electoral district of Quebec.

The electoral districts of Huntingdon, Drummond-Arthabaska, Richmond-Wolfe, Lévis, Beauce, Dorchester, Bellechasse and Rimouski were divided each one into two Census Districts.

The electoral district of Gaspé was divided into four Census Districts, the Magdalen Islands, in the Gulf of St. Lawrence, being one of them.

The territorial divisions of the Province of New Brunswick are only two in number, cities and parishes.

The Census Districts for the Province of New Brunswick are made identically the same as the electoral districts. The sub-districts corresponding, also exactly with the parishes, and in cities, with the wards.

The territorial divisions in the Province of Nova Scotia are cities and polling districts.

The Census Districts in the Province of Nova Scotia were made to correspond exactly with the electoral districts or counties, with one single exception, which is that the County of Halifax (including the city) was divided into two Census Districts called West Halifax No. 196 and East Halifax No. 197.

The sub-districts for Nova Scotia were made of the polling districts and of the wards of the City of Halifax. Sable Island, in the Atlantic Ocean, not being part of any specific territorial division was attached to Census District, No. 196, and made one sub-district.

districts suivants : No. 42, Simcoe Nord ; 53, Victoria Nord ; 57, Peterborough Est ; 58, Peterborough Nord ; 62, Hastings Nord ; 82, Renfrew Nord, dont parties du territoire de la région forestière ont été partagées en districts de recensement séparés, sous les noms et numéros de Muskoka, No. 85 ; Parry Sound, No. 86 ; Nipissing Sud, No. 83 ; Nipissing Nord, No. 84. Le district électoral d'Algoma a été divisé en quatre sous-districts, nommément : Manitoulin, No. 87 ; Algoma Est, No. 88 ; Algoma Centre, No. 89 ; et Algoma Ouest, No. 90, à cause de la vaste étendue du territoire et des difficultés de communication.

Les divisions territoriales dans la Province de Québec sont absolument les mêmes que dans Ontario, avec addition de la Paroisse, qui est de beaucoup la circonscription la plus en usage ; la vaste étendue de territoire inoccupée dans la Province de Québec a aussi ses *Limites de bois* et ses *Locations de mines*.

Les exceptions à la règle déjà posée sont comme suit, dans la Province de Québec :

Le district électoral de Pontiac est divisé en deux districts de recensement, numérotés 91, 92 ; le district électoral d'Ottawa est divisé en trois districts de recensement, numérotés 93, 94, 95 ; le district électoral de St. Maurice est aussi divisé en deux districts de recensement, numérotés 129, 130. Ces districts de recensement comprennent parties des territoires non organisés des districts électoraux de Montcalm, Joliette, Berthier et Maskinongé.

Le district électoral de Champlain est partagé en deux districts de recensement, numérotés 132, 133, lesquels comprennent parties des territoires non organisés des districts électoraux de St. Maurice, Portneuf et Québec.

Le district électoral de Chicoutimi—Saguenay est divisé en trois districts de recensement appelés et numérotés Chicoutimi 150, Saguenay 151 et Labrador 152. Le district de recensement No. 150 comprend une partie de la région forestière du district électoral de Québec.

Les districts électoraux de Huntingdon, Drummond—Arthabaska, Richmond—Wolfe, Lévis, Beauve, Dorchester, Bellechasse et Rimouski, sont divisés chacun en deux districts de recensement.

Le district électoral de Gaspé est divisé en quatre districts de recensement, nommément : Gaspé Ouest, 170 ; Gaspé Centre, 171 ; Gaspé Sud, 172 et les Iles de la Magdeleine, 173.

Les circonscriptions territoriales de la Province du Nouveau-Brunswick se réduisent à deux, les Cités et les Paroisses.

Les districts de recensement du Nouveau-Brunswick correspondent exactement avec les districts électoraux ; semblablement les sous-districts concordent précisément avec les paroisses : dans les Cités, les sous-districts correspondent avec les quartiers qui en sont les subdivisions municipales.

Les circonscriptions territoriales dans la Nouvelle-Écosse se réduisent aussi à deux, la Cité et le *Polling District*.

Les districts de recensement de cette province correspondent exactement avec les districts électoraux ou comtés, à une seule exception près, savoir : le comté d'Halifax (renfermant la Cité), qui est partagé en deux districts de recensement : Halifax Ouest, No. 196 ; et Halifax Est, No. 197.

## V.

Very few remarks will suffice, in relation to the contents of the Tables and Indexes contained in this volume, as everything in them is plain and speaks for itself. As regards, however, the subject of the first column of Table I, it may be interesting and extremely useful to add further information, which could not be inserted in the tabulated return.

The figures representing the acreage of each Census District and sub-district in Table I., and the acreage of each electoral district in Table V., were deduced from the best sources of information that could be procured, in the present state of topographical knowledge of Canada.

The superficies given in these tables are in acres; and as the areas of large masses of inland waters, not comprised within the limits of districts, are excluded, it is necessary to complete the statement on this head, by inserting here the water superficies in each Province, to recapitulate the whole, and to reduce it into miles and kilometres, for further use.

## INLAND WATERS OF ONTARIO.

	Acres.
Georgian Bay.....	3,415,680
Burlington Bay.....	7,475
Bay of Quinté.....	98,580
Part of River St. Lawrence, from St. Régis to Pointe à Beaudet .....	17,500
Part of Lake Temiscamang and part of the River Ottawa...	123,854
Lakes of the interior .....	218,640
<hr/>	
Total acreage of inland waters, not included in districts, in Ontario .....	3,881,729

## INLAND WATERS OF QUÉBEC.

Part of River St. Lawrence to Pointe à Beaudet .....	17,500
River St. Lawrence and its lakes, from Pointe à Beaudet to Quebec .....	322,200
River St. Lawrence, from Quebec to Pointe des Monts ....	2,894,809
Quebec part of Lake Temiscamang and River Ottawa ....	130,418
River Saguenay and Lake St. Jean.....	324,000
Inland lakes .....	39,258
<hr/>	

Total acreage of inland waters, not included in districts,  
in Québec .....

3,728,176

Les sous-districts de recensement sont, chacun un, formés d'un *Polling District* ou d'un quartier municipal de la ville d'Halifax. L'Île de Sable, dans l'Océan Atlantique, n'étant réunie à aucun comté en particulier, a été attachée au district No. 196, dont elle constitue un sous-district.

## V.

Quelques remarques suffiront à l'explication des Tableaux et des Index contenus dans ce volume ; toutefois, il est important d'ajouter, ici, aux chiffres fournis dans la première colonne du Tableau I, quelques renseignements qui ne pouvaient trouver place dans ce tableau.

Les superficies des districts de recensement et des sous-districts données dans ce Tableau I, et les superficies des districts électoraux contenus dans le Tableau V, ont été déduites des meilleurs sources d'information, elles sont l'expression la plus correcte de la contenance territoriale qu'il soit possible d'obtenir, dans l'état présent des connaissances topographiques en Canada.

La contenance de chaque circonscription est donnée en acres, qui est la mesure de superficie encore employée dans les opérations officielles d'arpentage en Canada. Ces surfaces ne comprennent point tous les grands amas d'eau de l'intérieur ; on a donc jugé important de compléter ce renseignement, comme de faire la récapitulation du grand total de ces superficies, avec réduction des acres en milles anglais et en kilomètres, comme suit :—

## EAUX INTÉRIEURES DE LA PROVINCE D'ONTARIO.

Baie Georgienne .....	3,415,680 acres.
Baie de Burlington.....	7,475
Baie de Quinté.....	98,580
Partie du fleuve St. Laurent, de St. Régis à Pointe à Beaudet.....	17,500
Partie du Lac Témiscamung et partie de la rivière des Outaouais .....	123,854
Lacs de l'intérieur.....	218,640
Total, en acres, des eaux intérieures non comprises dans les districts et sous-districts d'Ontario.....	3,881,729

## EAUX INTÉRIEURES DE LA PROVINCE DE QUÉBEC.

Partie du fleuve St. Laurent, de St. Régis à Pointe à Beaudet .....	17,500 acres.
Fleuve St. Laurent et ses Lacs, jusqu'à Québec.....	322,200
Fleuve St. Laurent, de Québec à Pointe des Monts...	2,894,800
Partie du Lac Témiscamung et de la rivière des Outaouais .....	130,418
Rivière Saguenay et Lac St. Jean.....	324,000
Lacs de l'intérieur.....	39,258
Total, en acres, des eaux intérieures non comprises dans les districts et sous-districts de Québec.....	3,728,176

## INLAND WATERS OF NEW BRUNSWICK.

The Bay of Miramichi, not included in districts in N.-B. . . . . 92,870 acres.

## INLAND WATERS OF NOVA SCOTIA.

Mines Basin . . . . . 270,720 acres.

Inland waters of Cape Breton . . . . . 254,880

Total acreage of inland waters, not included in districts,  
in Nova Scotia . . . . . 525,600

Therefore, the total territorial area of the Province of Ontario, comprises, land and inland waters :—

68,979,372 acres ;  
107,780 square statute miles ;  
279,139 „ kilometres.

The total territorial superficies of Quebec comprises, land and inland waters :—

123,747,140 acres ;  
193,355 square statute miles ;  
500,769 “ kilometres.

The total territorial superficies of New Brunswick comprises, land and inland waters :—

17,486,280 acres ;  
27,322 square statute miles ;  
70,424 “ kilometres.

The total superficies of Nova Scotia comprises, land and inland waters :—

13,907,603 acres ;  
21,731 square statute miles ;  
56,280 „ kilometres.

The total aggregate area of land and inland waters in the four Provinces, is therefore equal to 224,120,395 acres superficies, or 350,188 square statute miles, or 906,612 square kilometres.

The lineal extent of sea coast, not taking into the calculation the indentations of the land, may be computed at 1,164 statute miles for Quebec ; at 545 statute miles for New Brunswick ; and at 1,170 statute miles for Nova Scotia ;—in all, in round numbers, 2879 statute miles, or 4,633 kilometres.

The extent of the *Marine league* of maritime jurisdiction and the exclusive right to sea fishing grounds which follows it, covers (save what may be conceded by treaties,) consequently an area of about 9,947 square statute miles, or 25,761 square kilometres.

It may not be out of place to give the aggregate area of the Canadian portion of those large fresh water seas called Lake Ontario, Erie, Huron and Superior, divided by the boundary line between Canada and the United States, and of that immense sheet of salt water, surrounded by British territory, forming the mouth of the River St. Lawrence and its Gulf, as also of the *Baie des Chaleurs* and the Bay of Fundy.

## EAUX INTÉRIEURES DE LA PROVINCE DU NOUVEAU-BRUNSWICK.

Baie de Miramichi, non comprise dans la superficie  
des districts et sous-districts du N.-Brunswick.. 92,870 acres.

## EAUX INTÉRIEURES DE LA PROVINCE DE LA NOUVELLE-ÉCOSSE.

Bassin des Mines..... 270,720 acres.  
Eaux intérieures du Cap Breton..... 254,880

Total, en acres, des eaux intérieures non comprises dans  
les districts et sous-districts de la Nouvelle-Ecosse 525,600

La superficie totale de la province d'Ontario, terres et eaux comprises, est donc de  
68,979,372 acres ;

107,780 millés anglais carrés ;

279,139 kilomètres " .

La superficie totale de la province de Québec, terres et eaux comprises, est donc de  
123,747,140 acres ;

193,355 milles anglais carrés ;

500,769 kilomètres " .

La superficie totale de la province du Nouveau-Brunswick, terres et eaux comprises, est  
done de 17,486,280 acres ;

27,322 milles anglais carrés ;

70,424 kilomètres " .

La superficie totale de la province de la Nouvelle-Ecosse, terres et eaux comprises, est  
done de 13,907,603 acres ;

21,731 milles anglais carrés ;

56,280 kilomètres " .

Le grand total de la superficie des quatre Provinces réunies est donc de 224,120,395  
acres, ou 350,188 milles anglais carrés, ou 906,612 kilomètres carrés.

L'étendue en longueur des côtes maritimes, sans tenir compte des anfractuosités des  
rivages de la mer, peut être évaluée à 1,164 milles anglais, pour les côtes de la Province de  
Québec ; 545 milles pour celles du Nouveau-Brunswick ; et 1,170 milles pour les côtes de  
la Nouvelle-Ecosse ; c'est-à-dire un grand total d'environ 2,879 milles anglais, ou 4,633  
kilomètres.

La juridiction maritime d'une *lieue marine* autour des côtes et le privilège exclusif  
de la pêche maritime qui en découle, sauf les concessions des traités, couvre donc une  
superficie d'environ 9,947 milles anglais carrés, ou 25,761 kilomètres carrés.

Il n'est pas hors de place de donner ici les superficies de la portion canadienne de ces  
vastes mers d'eau douce, qui ont noms lacs Ontario, Erié, Huron et Supérieur, et de cette  
immense nappe d'eau salée, enclavée dans le territoire Britannique, et formée par l'embou-  
chure du Saint Laurent et le Golfe, comme aussi les superficies de la Baie-des-Chaleurs,  
et de la Baie de Fundy.

The area of *the Canadian part* (Ontario) of the frontier waters of the St. Lawrence and its large lakes may be estimated at 27,094 square statute miles, or 70,171 square kilometres.

The area of the mouth of the St. Lawrence, from Pointe des Monts to Anticosti, is about equal to 9,201 square miles, or 23,830 square kilometres.

The total area of the Gulf, washing the shores of the Provinces of Quebec, New Brunswick, Nova Scotia, Newfoundland, Prince Edward Island, and the small French colony of Miquelon, may be computed at 78,300 square miles, or 202,789 square kilometres.

The area of the Baie des Chaleurs, between the Provinces of Quebec and New Brunswick, is equal to 1,923 square statute miles, or 4,980 kilometres.

The area of the Bay of Fundy, between the Provinces of Nova Scotia and New Brunswick, is equal to 5,403 square miles, or 13,994 square kilometres.

## VI.

The only headings of columns which may call for explanation in Table I, are those which relate to temporary dwellings described by the words *vessels* and *shanties*. In the word *vessels* are comprised only such vessels as were, on the 2nd day of April, 1871, inhabited as dwellings. The shipping of this country is a subject which comes in another part of the Census Report. The word *shanties*, borrowed from the French Canadians by the early English settlers, means a hut or cheap dwelling put up in a new settlement or temporary abiding place.

Table II extends over four pages for every territorial division, so numerous were the religions and sub-divisions of sects that had to be inserted; repeated appeals having been made to have them specifically given in the Report. In arriving at the classification adopted, at least for the creeds most important in number of adherents, advice was asked from ministers professing them, in relation to their own denomination.

In collecting the information under this head specially, the duty of the enumerator, as was clearly defined by the *Manual*, was to mark down the answers given by the people themselves, in all cases.

*(Origins of the People)*

The subject matter of Table III is a new feature in our census statistics. None of the former censuses of the various Provinces had it, except in so far as the French origin was concerned, in the former Province of Canada. What is given in previous returns under the head *origin*, was simply the enumeration of people by their *place of birth*. But a moment's reflection shows at once that these two subjects of information are as different as they are important. The two tables of *origins* and *birth places* of the people taken in connection with the others, afford invaluable means of statistical comparisons and deductions.

In taking down the information from the people, the enumerators had, of course, to record the answers given to them. Whenever no definite answer was obtained, the column was then filled with the word or sign *not given*, and this as a fact has occurred most particularly in families of mixed origin. It is in this way that only two *half breeds* have been reported. True again it is that the word half breed is now generally made specifically

La superficie de la *partie canadienne* (Ontario) des eaux frontières du St. Laurent et des grands lacs peut être évaluée à 27,694 milles anglais carrés, ou 70,171 kilomètres carrés.

La superficie de l'embouchure du St. Laurent, de Pointe des Monts à Anticosti, est à peu près égale à 9,201 milles carrés, ou 23,830 kilomètres carrés.

La superficie totale du Golfe, baignant les rivages des Provinces de Québec, Nouveau-Brunswick, Nouvelle-Ecosse, Ile du Prince-Edouard, Terre-neuve et de la petite colonie française de Miqelon, peut être évaluée à 78,330 milles anglais carrés, ou 202,789 kilomètres carrés.

La superficie de la Baie-des-Chaleurs, située entre les Provinces de Québec et du Nouveau-Brunswick, est égale à 1,923 milles carrés, ou 4,980 kilomètres carrés.

La superficie de la Baie de Fundy, entre les Provinces de la Nouvelle-Ecosse et du Nouveau-Brunswick, est égale à 5,403 milles carrés, ou 13,994 kilomètres carrés.

## VI.

Les seules têtes de colonnes du Tableau I qui demandent peut-être quelques explications, sont celles qui réfèrent aux demeures temporaires, sous les titres de *Navires et Chantiers*. On n'entend ici parler que des navires, qui, au 2 avril 1871, étaient habités par des ménages ; l'énumération de la marine marchande du pays appartient à une autre partie de ce Rapport. Le mot *Chantier* est pris ici dans son acception locale, pour désigner des demeures élevées à la hâte dans les nouveaux établissements et ailleurs, et destinées à ne servir que pour un temps limité.

Le Tableau II consacre quatre pages à chaque circonscription territoriale, en conséquence du nombre de confessions religieuses et de subdivisions de sectes dont il a fallu tenir compte, pour se rendre aux désirs exprimés de les voir entrer nominativement dans ce tableau. Dans la collection des faits du dénombrement, les énumérateurs devaient toujours avoir soin de n'insérer que les renseignements résultant des réponses faites à leurs questions ; l'obligation de tenir à cette règle leur était recommandée d'une façon spéciale par rapport au dénombrement de la population par cultes.

La matière du Tableau III est ici pour la première fois introduite dans la statistique canadienne ; à l'exception, toutefois, de ce qui concerne la nationalité française des ci-devant provinces du Haut et du Bas Canada : en dehors de cela, ce qui passait sous le nom d'*origines* n'avait trait qu'aux *lieux de naissance*. Il est facile cependant d'apercevoir l'énorme différence qui existe dans la nature de ces deux renseignements. Les deux tableaux des *nationalités* et des *lieux de naissance* rapprochés des autres, se prêtent à des comparaisons et à des déductions statistiques du plus haut intérêt.

Comme on l'a dit déjà, les énumérateurs avaient ordre d'enregistrer les réponses telles que fournies ; en l'absence d'une réponse positive, on devait alors poser le signe négatif, répondant au mot *non donné*. Dans le tableau des nationalités, le nombre des *non données* se rattache surtout aux origines mixtes. C'est ainsi que dans la colonne des *métis*,

to mean persons of mixed Indian blood of the West, of whom there are very few settled within the four Provinces. However, the proportion of *not given* in this table, as well as in all others, is comparatively very small, so much so, that it would be insufficient, inasmuch as the figures apply to all origins, to make any notable difference in the ratio of the important elements of the population.

In Table IV (*Birth Places of the People*) is supplied an omission of the former census of the United Province of Canada, in which there was no discrimination between the two Provinces as to place of birth, the heading being simply *Natives of Canada*.

As hereinafore explained, it has been deemed advisable for the purpose of the Census to adopt a division of districts somewhat different from the electoral districts, the latter being moreover subject to occasional changes. At the same time, however, it is of great importance that the territorial areas, the population and its movements, the natural resources and material circumstances of each district, set apart for purposes of representation in the Commons of Canada, should be separately shown; and this has been done in table V of this volume. The areas, and the population of 1861 and of 1871, given in this table are such as refer to the territorial limits of the present electoral districts as settled by the "British North America Act," and the Act of 1872, to readjust the Representation in the House of Commons. A column is also added to give the number of Representatives for each electoral district.

Under the Head of *Relation between the Electoral and Census Districts*, a column is made to indicate what Census Districts and sub-districts are component portions of each of the electoral districts, which are also called counties, ridings, or union of counties. By the use of this column in conjunction with the other tables, it is easy to ascertain what separate localities each electoral district is composed of.

The column of *Remarks* in Table V gives a short historical record of the changes which have taken place in the apportionment of the territory into the electoral districts since the taking of the census of 1861.

The short Table No. VI, giving the comparative populations of 1861 and 1871, of cities and towns having over 5,000 inhabitants, requires no further observations than those that are therein contained.

*Indexes* and an *Alphabetical Table* end the volume. The indexes of districts, one following the numerical order, the other, the alphabetical order of names of districts, indicate at what pages, in each table, each district is to be found mentioned.

The alphabetical index of sub-districts gives the number of the district within which a sub-district is comprised, and the characteristic letter of such sub-district. By a reference then to the index of districts in numerical order, it is easy to ascertain at what page of the volume any information required about a sub-district is to be found. This index of sub-districts will be available for search in the other volumes as well as the first, by means of the district index of each volume; it, therefore, is given once for all and need not be repeated.

The alphabetical table which follows the indexes, is a table of general subject matters of information, which are contained in this volume, and explains itself without any remark.

on ne trouve que deux inscriptions : il est vrai de dire que le mot *métis* est maintenant généralement reçu comme désignant spécialement la population de sang mêlé de l'Ouest, qui fournit à peine quelques individus à la population des quatre provinces recensées. La proportion de *non donnés*, dans ce tableau comme dans les autres, n'atteint pas, heureusement, un chiffre d'une grande importance ; compensation faite entre les divers éléments, ces valeurs n'ont pas d'influence sensible sur les grands résultats proportionnels.

Dans le Tableau IV (*population par lieux de naissance*), on supplée à une omission des précédents recensements de la ci-devant Province du Canada, dans lesquels on ne faisait pas de distinction entre les deux provinces du Haut et du Bas Canada.

Comme il a été expliqué plus haut, on a cru devoir adopter des circonscriptions de recensement quelque peu différentes des districts électoraux ; cependant il importe grandement de pouvoir attribuer à chaque district électoral la superficie territoriale, le chiffre de population et autres renseignements se rattachant à chacune de ces circonscriptions politiques qui se partagent la représentation dans les Communes du Canada ; cet objet est atteint dans le Tableau V de ce volume. La superficie et les populations de 1861 et 1871 données dans ce tableau, se réfèrent aux territoires des districts électoraux tels que fixés par l'Acte de 1872 pour répartir de nouveau la représentation de la Chambre des Communes. Une colonne, dans ce tableau, donne aussi le nombre de députés auxquels chaque district électoral a droit.

Sous le titre *Concordance avec les districts de recensement*, une colonne du Tableau V indique les circonscriptions territoriales élémentaires qui composent chaque district. Au moyen de ce renseignement, qui réfère aux districts et sous-districts inscrits nommément dans les autres tableaux, il est facile de rapporter tous les détails du recensement aux districts électoraux, encore appelés *comtés*, divisions de comté ou unions de comtés. La colonne des *Remarques* du Tableau V donne l'histoire abrégée des changements opérés dans les circonscriptions politiques du pays, depuis le recensement de 1861.

Le petit Tableau No. VI, qui donne les populations comparées de 1861 et 1871 des villes ayant plus de 5,000 habitants, n'exige aucune remarque, autre que celles qui se trouvent inscrites dans le tableau même.

Des *Index* et une *Table alphabétique des matières* terminent ce volume. Les index des districts, dont l'un suit l'ordre numérique et l'autre l'ordre alphabétique, donnent l'indication du tableau et des pages où se trouvent consignés les renseignements se rapportant à chaque district.

L'index alphabétique des sous-districts a, comme indication, le numéro du district auquel le sous-district appartient et la lettre caractéristique du sous-district ; d'où il résulte que, — en référant au numéro indiqué dans l'index par numéro d'ordre des districts, — il est facile de trouver l'endroit du volume où se trouvent les renseignements cherchés pour un sous-district quelconque. Cet index des sous-districts n'aura pas besoin d'être répété dans les autres volumes, attendu qu'il s'applique à tous les index des districts.

La table alphabétique des matières, ne présentant rien de particulier, ne demande point d'explication.

---

The comparisons, the ratios and proportions, the deductions, and all other statistical operations of a like kind, will be made in the last volume of this Report, as a logical sequel of the elementary *data* furnished.

In reference to the degree of accuracy of these returns, it may be confidently asserted that they are, and especially as regards the main object of a census, the ascertainin<sup>g</sup> of the amount of population, and its distribution throughout the country, as accurate as any statistic can be. No statistical result of any magnitude can lay claim to perfect exactness, and this cannot, by any possibility, escape the consequences of the common law.

At every stage of the proceedings, pains have been taken to discover and correct errors, either of collecting, of compiling, of tabulating or of printing; to devote for further revision more time and labour than have been bestowed on them, could not have brought a result comensurate with the delay and expense that would have been involved for it stands to reason that errors of intricate details which escape a reasonable amount of careful revision balance each other in a great measure, and that the sum total of errors cannot effect materially the grand practical result sought for.

---

---

Les comparaisons, raisons, proportions et déductions, ainsi que toutes autres opérations statistiques de ce genre, feront partie du dernier volume de ce Rapport, comme conclusion des renseignements précédemment fournis.

Quant au degré d'exactitude de ce travail, on peut affirmer avec assurance qu'il n'est point inférieur à ce qu'on trouve dans les meilleures publications de ce genre, surtout en ce qui a trait au chiffre de la population et à sa distribution sur la surface du pays. Nulle statistique de vaste étendue ne peut se réclamer de la perfection ; il est donc de toute impossibilité que celle-ci ait échappé à la loi commune.

A chaque période des procédés, on a apporté le plus grand soin à rechercher et à corriger les erreurs soit de collection, soit de compilation, de copie ou d'impression. Consacrer plus de temps et de travail qu'on en a mis à ce procédé serait tomber dans la minutie et vouloir encourir des retards et des dépenses à peu près inutiles ; attendu que ces erreurs de détail, se compensent en grande mesure, laissant une balance d'erreurs sans influence sur les grands résultats.

(a) The population of Quebec is given in the Census Report of 1861 at the figure of 51,109, but this comes from the fact that a part of the population of the electoral district of the City of Quebec was enumerated as part of the population of the County of Quebec, to which it did not and does not actually belong.

(b) The decrease indicated is, in fact, only apparent. At the time of the taking of the census in 1861, Quebec and Kingston, with Montreal and Halifax, were the four most important military stations in Canada, and had comparatively large garrisons, the whole personnel of which was included as forming part of the population of these cities. In 1871 these garrisons had been withdrawn, and the few soldiery still remaining have not been counted, not being part of the domiciliated population of the localities from which they were about to depart. The increase of the population of the cities of Montreal, Toronto, Halifax, St. John, N.B., and Fredericton is also larger than apparent, for the same reason. It is again to be remarked, in relation to the comparative figures of Quebec, that this city was in 1861 the seat of the Government of Canada, and that the loss entailed by its removal to Ottawa has been only partially supplanted by it becoming the site of the Provincial Government of Quebec.

(a) La population de Québec, au recensement de 1861, a été portée au chiffre de 51,109, mais cela vient de ce que partie de la population de la ville électorale de Québec a été recensée comme étant du comté de Québec, auquel cependant elle n'appartient pas.

(b) La diminution indiquée n'est, en fait, qu'apparente. A l'époque du recensement de 1861, Québec et Kingston, avec Montréal et Halifax, étaient les quatre principales stations militaires du Canada, ayant des garnisons comparativement considérables. Le personnel de ces garnisons a été recensé en 1861, comme faisant partie de la population de ces villes. En 1871, les troupes avaient été retirées de la colonie, et les quelques soldats restant encore n'ont point été comptés, n'appartenant pas à la population domiciliée des endroits où ils étaient sur le point de quitter.

L'augmentation de la population des villes de Montréal, Toronto, Halifax, St. Jean, N.B., et Fredericton est aussi plus considérable qu'elle n'apparaît, pour la même raison. Il faut encore remarquer, en ce qui concerne Québec, que cette ville était, en 1861, le siège du gouvernement du Canada, et que les pertes causées par le transfèrement à Ottawa n'ont été que partiellement recouvertes par le choix de cette ville comme siège du gouvernement de la Province de Québec.
