BEGONIAS.

WE call the especial attention of the trade to our large stock of this beautiful, profitable and interesting plant. In no class of plants has there been more improvement than Begonias—the late introductions being especially fine. No florist can afford to be without a good stock from which to cut foliage and flowers, as there is nothing more graceful in flower work.

Rex.

CLEMENTINA.

Robert George.—A fine upright grower, showing Diadema blood in habit; the leaves are large and show the Rex textures; they are nicely notched and deeply pointed; the markings are very fine, rich, glossy silver leaves, with palmate center of bronze green, edge of leaf metallic green with bright silver spots. 50 cents each.

Louise Closson.—One of the richest and most beautiful of the Rex family, and of Louis Chretien type, with larger and very much brighter foliage. The coloring is magnificent, center of leaf deep bronze with broad band of silver rose; edge bronze spotted rose. Each 50 cents.

Desfontanias.—A fine Rex of very heavy textured leaves of large size and good shape, with a distinct palmate center, dotted with bright silver, center of broad light silver zone, edge of olive green with light silver dotting. A fine variety. Each, 35 cents; per dozen, \$3.00.

Clementina.—(See cut.)—A cross between Rex and Diadema. The color of the stem and the upper surface of the leaf is a beautiful bronze green, ornamented with large silver spots, arranged parallel with the ribs of the under side of the leaf which is a bronzy-red, producing a beautiful effect. It is a rapid grower and of the easiest management and propagation. 20 cents each, \$2.00 per dozen, \$15.00 per 100.

Richard.—A fine strong grower with large leaf, rich silver band, small dark starred centre, edge irregularly laced, the whole overlaid with a rich pink shading, showing Chretien blood sufficient to make it especially attractive. 35 cents each; \$3.00 per dozen.

Mme. Le Boucq.—A very distinct variety, having the entire leaf of soft rosy-mauve color, with very high silky lustre and occasional touches of plum color. One of the most attractive Begonias of this class, and undoubtedly the most distinct of the Rex. Each, 35 cents.

Monge.—Edge of leaf finely mottled with bright silver, center of dark green; a strong grower. 25 cents each.

Marquis De Peralta.—One of the finest growing of Rex Begonias, throwing out great clusters of leaves, which are exquisitely beautiful. They are edged by a very narrow band of silver of uni-

Count Louis Erdody. — (*See cut.*)—This is an interesting and curiously handsome variety. This variety retains the general character of the Rex family as to growth, but is so distinct in form and peculiar leaf formation that it stands out unique and striking in all its individual beauty. Having a good stock we are able to place this novelty within the reach of all; strong plants. 20 cents each, \$2.00 per dozen.

Lesoudsii.—This is the largest leaved of any of the Rex family. It is impossible to describe in words the beautiful markings of this magnificent Begonia. It is a cross between B. Diadema and a Rex variety but retains in a marked degree the Rex character. 10 cents each, \$1.00 per dozen, \$6.00 per 100.

Adrien Schmitt.—Has a plum colored edge and is not zoned. The coloring following the lines of the ribs is a soft velvety green, marbled in seven rays from centre. Each, 35 cents, \$3.00 per dozen.

Mme. Allamagny.—One of the very finest Begonias ever introduced; the large leaves are beautifully lobed; the majority of the surface is a silvery white, with elegant palmate center of velvety green; edge, a dark wavy line. 50 cents each, \$5.00 per dozen.

Mme. Isabella Bellon.—Quite similar in general contour and color to Mme. Allamagny, but in place of the green center and edge, we find a soft silvery rose shade, making a beautiful light leaf of the highest lustre. 35 cents each, \$3.00 per dozen.

Louis Chretien.—A fine Rex Begonia of exceedingly beautiful coloring, and a very high lustre, like changeable silk. Flowers large, and of a beautiful pink. \$1.00 per dozen.

form width; this borders a bright green zone mottled in silver, which incloses the zone proper, which is a broad silver band about a dark rayed center. 35 cents each, \$3.00 per dozen.

Siebold.—Dark reddish green center; very broad light metallic band, this bordered again with bright medium shade of green, all surrounded by dark ruffled edge, beautifully mottled. 25 cents each.

Tournefort.—Broad silver gray zone, center and edge very finely mottled in silver on a bright green ground with a rich red down. 25 cents each.

Count Louis Erdody.

Begonia Rex.

A fine assortment in named varieties. Per dozen, 75 cents; per 100, \$5.00.

BEGONIAS.

Novelties and New Varieties.

Pres. Carnot.—A remarkable strong growing variety of stiff upright habit; foliage large and somewhat in style of B. Rubra, but more than twice as large, upper side deep green, under side purplish red, flowers beautiful coral red in large pendant panacles. A grand flowering variety. Each, 50 cents.

Souv. de President Gaulain.—Similar to President Carnot in habit of growth, foliage large, somewhat lobed, deep green, slightly spotted white; flowers in enormous pendant panacles, color rich carmine coral. Each, 50 cents.

Metalica Velutina.—A beautiful erect grower, with dark rough foliage of a lustrous bronze green on upper surface, underside reddish bronze in style of growth resembling one of its parents, Metalica, but with larger leaves and of stronger growth; flowers rosy white. Each, 50 cents.

Cuprea.—Another seedling of Metalica, with beautiful large velvety green leaves of a dark rich shade, quite strong, rapid grower, will prove to be a valuable acquisition. Each, 50 cents.

NEW BEGONIAS.

Two fine varieties. We consider these the finest additions made in recent years, and will please all.

Mme. Lionnet.—Ribs are lined with bands of the darkest myrtle green ; body of the leaf a brilliant rosy bronze ; the surface entirely covered with crimson pile ; the leaf is elegantly pointed and measures about 6 by 10 inches. Each, 20 cents ; per dozen, \$2.00.

Glorie de Juoy.—A rich bronze green with green pile, leaf large, a strong free grower. Flowers of a clear pink color, very large and borne in the greatest profusion during the entire winter. 20 cents each, \$2.00 per dozen.

NEW FLOWERING BEGONIA.

PAUL BRUANT.

Paul Bruant.—(See *Cut.*)—A Begonia that grows in fine, bushy tree form, increasing in size and number of leaves very rapidly. The bloom is borne in the greatest abundance on long graceful stems, and is of two forms, a part being very large and of a peculiar rose shade, the smaller forms being rose and white, the petals quite transparent ; continues to bloom from November to May, and is a handsome plant at any season of the year. 25 cents each, \$2.50 per dozen.

Glorie de Sceaux.—One of the finest flowering Begonias introduced for many years. It is of upright habit, producing during the entire winter large flowers of a soft, clear pink, contrasting well with the rich plum foliage of the size and shape of the Rex. A good thing. Each 20 cents, \$2.00 per dozen.

Begonia Decora.—A shrubby decorative variety, with dark green obliquely lanceolate leaves, profusely marked with oblong spots or dots of a silvery-grey color ; somewhat of the character of Begonia *Argyrostigma*, but with the spots more minute. It has been introduced from Brazil. 10 cents each, \$1.00 per dozen.

Semperflorens Elegans.—(See *Cut on back of Cover.*)—This fine new variety attains a height of twelve to fourteen inches, and is a compact mass of medium sized, glossy, olive green leaves. It blooms continuously and is so free as to present the appearance of a huge bouquet. The flowers are a rosy flesh color, and are raised well above the foliage on strong foot stems. We believe the above is the finest flowering Begonia yet introduced. 15 cents each, \$1.50 per dozen, \$10.00 per 100.

NOTE.—The above is a variety of great merit and should be better disseminated.

M. De Lesseps.—A decided improvement on *Argentea Gutatta*, the leaf being four times the size seen in that variety, while the silky texture is the same, and it is beautifully spotted with silver. A very strong, free-growing variety that will succeed with any ordinary care, growing rapidly and sending out quantities of leaves. This is a wonderfully beautiful sort, of splendid habit and strong growth. 25 cents each, \$2.00 per dozen.

**MANICATA AUREA.**

Olbia—A late introduction and still quite scarce and altogether a grand variety ; the leaves are from seven to ten inches in diameter, and are separated into deep sharp points ; the color is varying shades of brown and red, the young leaves having large silver blotches and are very bright and attractive, the arrangement of the veins gives the leaf an uneven surface. This variety soon attains a heavy main trunk, which carries the branches in erect form, making one of the finest decorating varieties we have ; flowers very large and of a crystal white. Each 20 cents, \$2.00 per dozen.

Wettsteinii—This fine novelty is in the direct line of Rubra, so well and favorably known. The leaf is ornamental, being peculiarly indented and a lovely shaded coloring, dark marbled green, shading lighter, with a line of scarlet at edge of leaf, the flower being similar to Rubra, but lighter in color. 20 cents each, \$2.00 per dozen.

Glorie de Lucerne—A beautiful variety that is evidently another of Rubra's prodigy, but of a strong, upright growth ; the leaves are of most beautiful form, broad and deeply lobed, bronze green surface and light purple beneath, flowers beautiful rosy vermillion. Each 20 cents, per dozen \$2.00.

Manicata Aurea.—(See Cut.)—This cut is a true representation of this grand variegated Begonia. Its heavy glossy leaves being boldly blotched with a rich golden cream, and a clear carmine etching in the matured leaves ; altogether making the handsomest variegated plant known. It is equally as strong in growth as Manicata. 20 cents each, \$2.00 per dozen.

Argentea Guttata.—(See Cut on opposite page.)—A cross between Olbia and Alba Picta. This variety has the silvery blotches of Alba Picta, and the form and beauty of Olbia. Purple bronze leaves, oblong in shape, with silvery markings. White flowers on the tips of the stems. Good plants, 20 cents each, \$1.00 per dozen, \$6.00 per 100.

Diadema—(See Cut)—An elegant Begonia, particularly adapted for house culture, its large deeply cut foliage and its silvery dots and veins as well as the fine habit of its growth. As a market plant it will prove one of the best we have had for years. We predict that this variety will prove as valuable as Rubra. We have a fine stock to offer of this sterling variety. 10 Cts. each, \$1 per 12, \$6 per 100.

**DIADEMA.**

ARGENTEA GUTTATA.

Begonia Compta—A pretty ornamental species from Brazil. Its leaves have palish pink footstalks, which are five to six inches long, remarkable for the unequal development of their two halves, the one side being narrowed to the base, and the other developed into a roundish angular lobe. The color is satiny green with a silvery tinge along the course of the mid rib; this coloration with the satiny surface being of a very pleasing character. 10 cents each, \$1.00 per dozen.

New White Flowering Begonia.

Carrierii—In this variety the florist will find a variety for cutting from, being a decided improvement on Bruantii; flowers a clear crystal white and very large. 10 cents each, \$1.00 per dozen.

NEW FLOWERING BEGONIA.

Bertha Chateaurocher—A full flowering variety; color bright currant red. A decided improvement on Multiflora. 10 cents each, \$1.00 per dozen.

Semperflorens Gigantea Rosea—(See Cut.)—This is one of the finest Begonias of recent introduction, and destined to become popular as a pot plant and for cut flowers. Plant is a strong grower; round and bushy in form; flowers are borne in large open panicles; borne well above the foliage, on strong foot stalks, of a bright carmine color; blooms from October to June. \$1.00 per dozen, \$6.00 per 100.

Rubella—A very ornamental Indian species, belonging to the Ricinifolia section. Leaves irregular, blotched, red on a pallid ground, ribs banded with purplish brown, under surface red. 75 cents per dozen, \$5.00 per 100.

Tueschei—A very fine growing ornamental Begonia, with red colored flowers. 10 cents each, 75 cents per dozen.

Bruantii Alba—Foliage very bright green, quite large, pure white flowers, borne in great profusion; should be grown in large quantities for cut flower work. 50 cents per dozen.

Bruantii Rosea—A stronger grower than Bruantii, and is a compact mass of medium sized, glossy green leaves, very free and quite large; flowers white in centre, margined with delicate pink. 50 cents per dozen.

Manicata—Large, plain green foliage, pink flowers. 75 cents per dozen.

Dr. Nachtigal—Flowers a tender rose color and very odorous; the only fragrant Begonia that we know. It has large deep green leaves, and is a strong vigorous free flowering variety, of upright growth; very pretty. 20 cents each, \$2.00 per dozen.

McBethii—A new hybrid, fine cut foliage, always in flower. 10 cents each, 50 cents per dozen.

Semperflorens Gigantea Rosea.

SEMPERFLORENS GIGANTEA AMELIA.

leaves bronze green, with purplish cast. Very free flowering. Large trusses of delicate cream and rose-colored flowers. 10 cents each, 75 cents per dozen.

Moonlight—A dwarf, bushy variety of the *Weltoniensis* type, foliage light green, flowers pure white, very large and borne in great profusion. A fine variety. 10 cents each, 75 cents per dozen.

Weltoniensis—Flowers very abundant, pink. 10 cents each, 50 cents per dozen.

Alba Picta—A distinct new variety. It is shrubby in habit and of compact form, having long slender lance shaped leaves on short stems; thickly spotted with silvery white; the spot graduating in size from the center toward the margin; foliage small and the branches are upright and gracefully curving. A fine pot and decorating plant. Altogether, one of the best, and destined to become popular. 50 cents per dozen, \$4.00 per 100.

Sunderbruchii—In habit like *Ricinifolia*, foliage not quite so large, the leaves are separated into nine sharp points, surface bright metallic green with veins marked and broadly shaded with velvety black. It bears large panicles of pink flowers. 10 cents each, \$1.00 per dozen.

Metallica—This elegant variety has very large glossy leaves, shaded with green, crimson and olive, with a peculiar metallic luster over all, flowers a clear pink, shaded white; a grand pot plant for market. 50 cents per dozen.

Semperflorens Gigantea Amelia—(See Cut.) This is wonderful free growing Begonia of sterling worth and great beauty. This has the habit of frequently blooming at the junction of the ribs of the leaf, and it imparts a novel appearance when exhibiting this peculiar character; a compact grower; flowers a carmine rose, produced in great abundance in winter and spring months. 15 cents each, \$1.50 per dozen.

Margaritæ—A variety with leaves like *Metallica*, to which it is related. It grows in round bushy form,

Rubra—As a market plant it has no superior. Its wax like scarlet flowers and rich green leaves makes it one of the most salable plants we know of. Strong plants. 50 cents per dozen, \$4.00 per 100.

Ricinifolia—So called from its likeness to the *Ricinus*, or castor oil plant. The leaf is very large—will average a foot or more in diameter—and is separated into seven or nine large points, carried on thick, heavy stems, eighteen inches or more in height; color a rich green, with reddish markings; surface velvety. In bloom it is magnificent; the panicle, composed of great numbers of individual pink blooms, is lifted high and spray-like quite clear of the foliage. One of the best for winter bloom, besides being ornamental in foliage. \$1.00 per dozen.

Feastii—A low, spreading Begonia, with circular leaves, red beneath and dark glossy green above, and of heavy texture. After the style of *Sanguinea*, save shape of leaf, and being still smaller. Very pretty and ornamental. 75 cents per dozen.

Glancophylla Scandens—Leaves dark silvery green, long, pointed and graceful, a pretty trailing variety that can be trained on supports, or used in hanging baskets; flowers orange colored. Each, 10 cents; 75 cents per dozen.

ROSES.

The American Novelty Tea Rose.

Waban.—(*Tea*)—This valuable rose is another sport from *Catherine Mermet*, and is identical with its parent in every particular, except in color, which is a rich, deep, bright pink. Orders booked and filled after April 15th, from two and a half inch pots, price same as introducers. 1 plant, \$1.00; 12 plants, \$9.00; 100 plants, \$50.00.

NEW VARIETIES FOR 1891.

Augustine Guinnoisseun—(*H. T.*)—**OR WHITE LA FRANCE**—A sport from that well known variety, *La France*. In growth it is the same as *La France* or *Duchess of Albany*, even stronger and more free blooming than those varieties; in color it is white shaded with very light pink. 25 cents each, \$3.00 per dozen.

Mme. Martha du Bourg—(*Tea.*)—One of the most exquisite of the new roses. The habit and foliage are beautiful, denoting a ready grower; the flower is large, perfectly double and of a rounded form, the outer petals recurve at the edges, showing a nicely pointed center; the color is creamy white, touched with carmine, texture heavy, a very promising rose. 20 cents each, \$2.00 per 12.

Jeanne Guillaumez—(*Tea.*)—A very vigorous grower, flower large and double, of good form, with beautiful long buds; color, clear red, touched with salmon; center coppery red, with pale silver shadings. 20 cents each, \$2.00 per dozen.

Mme. Ph. Kuntz—(*Tea.*)—A strong grower, bearing its flowers quite erect, which are large, full and double, of cherry red color, passing to salmon. 20 cents each, \$2.00 per 12.

Sour. d'Auguste Legros—A very fine grower; flowers quite large and full, buds long; color, fiery red, mingled with silvery crimson. 20 cents each, \$2.00 per dozen.

J. B. VARRONE.

J. B. Varrone—*Tea.*—(*See Cut*)—A fine grower, flower large and very double, with high center opening from long buds; color, soft China rose, changing to deep bright carmine of even shading; an extra good rose and very sweet. 20 cents each, \$2.00 per dozen.

New Roses and Roses of Special Merit.

PRINCESS BEATRICE.

Princess Beatrice—(See Cut.)—A vigorous grower, thick, handsome foliage, and very free flowering. Flowers carried on long stems; large, full, perfect form; petals round, broad and very thick; outside petals, pale yellow, center, rich golden yellow; edge of petals lightly laced with bright rose. A pure Tea. \$1.00 a dozen, \$6.00 per 100.

Ernest Metz—Robust in growth and dwarf in habit. Long pointed buds produced on long stems. Color, rosy carmine. An exceptionally fine variety. \$1.00 per dozen, \$8.00 per 100.

Madame Hoste—This rose possesses all the requisites of a first-class forcing variety, and we predict it will take rank with all of the best forcing varieties of to-day, of strong growth, buds large, fine form and very freely produced. Color is a light yellow or cream white. 75 cents per dozen, \$5.00 per 100.

Duchess of Albany—(H. T.)—This beautiful novelty is in the way of La France, but deeper in color, more expanded in form and larger in size. The flowers are deep even pink, very large and full, highly perfumed, and in all respects of first quality. The growth of the plant is exceedingly vigorous, the habit is good, and the flowers, which are thrown up well above the foliage, are produced in extraordinary profusion; the plants continuously covered with handsome blooms. We believe that this rose, when generally cultivated, will rank with La France for forcing purposes. It is being grown largely this year for cut flowers. \$1.00 per dozen, \$8.00 per 100.

Souv. de Wooten—An American variety of great promise for forcing purposes and is being largely planted by cut flower growers. Color, rosy crimson; strong grower; buds freely produced. \$1.00 per dozen, \$8.00 per 100.

Mrs. James Wilson (*or Yellow Mermet.*)—A beautiful new Tea rose, carries a handsome double bud of deep cream color; the edge of petals touched with soft blush; free grower. \$1.50 per dozen, \$10.00 per 100.

Duchess of Leeds (*H. T.*)—Moderately vigorous in growth; very free flowering; of large size and fine form; color, a soft silvery pink, deepening towards center. \$1.00 per dozen, \$8.00 per 100.

Joseph Mentral—A strong, healthy grower. Flowers of largest size and splendid form. Color, a deep red. \$1.00 per dozen.

Meteor (*Hybrid Tea.*)—A velvety red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid; flower of medium size, very double, and petals slightly recurving; a beautiful open rose, a free bloomer, and promising well as a pot rose. It has no tinge of violet or purple to mar its beauty (as Bennett often has), it does not come minus a stem as Duke of Connaught so often does, but promises to be a reliable dark red everbloomer. 75 cents per dozen, \$5.00 per 100.

Mme. Schwaller (*Hybrid Tea.*)—This rose has the strong, firm growth of the H. P's., the same form and finish of flower, being especially beautiful when full grown; it is very free in bloom and has the fragrance of La France. The color is a bright rosy flesh, paler at the base of the petals, and deepening on the edges. Apt to come in clusters which are excellent for cutting. 75 cents per dozen, \$5.00 per 100.

Mad. Welch—An extra fine variety: very large and double; color, apricot yellow, center shaded with dark orange red. \$5.00 per 100.

Madame de Watteville—(*See Cut.*)—A strong, vigorous grower. Color, white, shaded with salmon; outer petals edged with bright rose; flowers large and perfect shaped. One of the most beautiful colored roses known. \$5.00 per 100.

Souv. de Victor Hugo—Bright China rose, with copper yellow centre, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, and each color blends nicely with the other. This variety will take rank with the best, and is a rose of decided merit. 75 cents per dozen. \$6.00 per 100.

Sombrueil—This is one of the finest old Tea Roses of its class; free flowering, showy and very large. Color, a creamy white tinted with rose. \$5.00 per 100.

Chas. Rovoli—A charming tea rose, large globular flowers, very full and sweet, color a brilliant carmine, changing to silvery rose, center and base of petals clear golden yellow. \$4.00 per 100.

Md. Cusin—Flowers, medium size and of excellent texture; color, a rich rose; base of petals and center of flower almost white. \$5.00 per 100.

Duchess of Edinburg—A distinct character; a dark velvet crimson; strong grower; good foliage, fine in bud. \$5.00 per 100.

Niphetos—An elegant Tea Rose, very large and double, deliciously sweet; color, pure snow white; highly valued for its lovely buds, which are very large and pointed, and borne on long stems. This variety is extensively grown where large pure white buds are in demand. 75 cents per dozen, \$5.00 per 100.

Sunset—This is equally as popular for forcing as Perle; the color is a remarkable shade of rich golden amber, tinted and shaded with dark ruby copper; vigorous strong grower. 75 cents per dozen, \$6.00 per 100.

Perle des Jardines—Without doubt the finest yellow rose in cultivation; canary or golden yellow, flowers large and beautifully formed, handsome in every stage of development, from the smallest to the open bud. No rose of its color ever cultivated for cut flowers up to the present time is now so valuable as this. \$5.00 per 100.

Glorie de Dijou—A strong climbing rose. Flowers extra large, sweet and full, creamy yellow, shaded with amber. \$6.00 per 100.

Francisca Kruger—A rich shade of copper yellow, fine form and a strong grower, equal to "Mermet" in bud. \$4.00 per 100.

Malmaison—Rich creamy flesh, with rose center, extra size; very double; one of the finest varieties grown. \$5.00 per 100.

La France—Undoubtedly the most popular H. T. of to-day. Color, a delicate silvery rose, shaded with cerise pink, large double, and of superb form, taking the lead in its class as a forcing variety. \$5.00 per 100.

Hermosa—A fine old rose; color, clear pink; a constant bloomer. \$4.00 per 100.

MADAME DE WATTEVILLE.

PAPA GONTIER.

Papa Goutier—(See Cut.)—Fine foliage, showing distinctly the Dutchness of Edinburg parentage, exceedingly free flowering, very sweet being free from mildew, it is one of the best roses for cut flowers and surpasses Bon Silene for winter forcing. The blooms are large and long with thick, broad petals of a dark carmine crimson. The inner petals are of a bright rosy carmine and light up well at night. \$4.00 per 100.

Marie Lambert(White Agripina.)—A strong, free grower of erect bushy habit; medium sized flowers of pure white, produced in clusters; flowering as freely as a China. \$5.00 per 100.

Princess Sagan—The most brilliant of any Tea. Strong grower with medium sized flowers of a bright velvety scarlet. \$5.00 per 100.

Beauty of Stapleford (*H. T.*)—Flowers are very large and of perfect form; color, clear, bright pink, shading to a bright rosy crimson; makes large and beautiful buds and is a constant and profuse bloomer. 75 cents per dozen, \$5.00 per 100.

Luciole—Undoubtedly one of the finest new roses and of more than ordinary merit. Very bright carmine rose, tinted and shaded with saffron, base of petals being copper yellow with reverse a rosy bronze. Large pointed buds on long stems. \$1.00 per dozen, \$8.00 per 100.

The Bride—This is now one of the leading white roses for winter flowering. It is of a pure white color, and possesses all the good qualities of Catherine Mermet. Such has been the demand for this rose that we have made great efforts to have a large stock. Strong plants \$4.00 per 100.

Letty Coles—A most magnificent Rose and not as widely disseminated as it should

be. A splendid grower, color, soft, creamy white, with bright, rosy carmine center. \$5.00 per 100.

Md. Philemon Cochet—Has extremely beautiful heavy foliage, and plenty of it, being a fine rapid grower and profuse bloomer, the flower always coming on a long stem: the bloom is of medium size, semi-double, and a delicate pink, with shell-shaped petals. \$5.00 per 100.

Countess Frigneuse—The buds are long and pointed, not unlike Niphotos in form, and of good size; the color is delicate golden yellow, with softer shade on inside of petal. Although of the general color of Perle, it is totally distinct in shade, in form and in style of growth. \$5.00 per 100.

Marie Guillot—Perfection in form; the flower is large and double to the center. Until the introduction of The Bride this held first place among white Tea Roses in purity of color, depth of petal, and queenliness of shape. Grows well, and is healthy. One of the best out-door summer-blooming Roses; an absolute pure white when fully open. \$4.00 per 100.

NEW ROSE.

RUCOSA.

Madam Georges Bruant—This novel variety was the product of a cross between Rose Rugosa and the tea variety sombreuil. Flowers semi-double produced in clusters of three to six buds long and pointed similar to Niphotos in shape and in color a pure white. 2½ in. pot plants \$1.00 per dozen.

EVERBLOOMING ROSES.

General Collection.

Our Stock of Roses is large and in very fine shape ; all grown in 2½ inch pots. Price, 50 Cents per dozen, \$4.00 per 100, \$35.00 per 1000 ; strictly our selection, \$30.00 per 1000.

Aline Sisley—A beautiful shade of violet red ; fine large pointed buds.

Adam—Bright carmine pink, large and full ; delicious tea scent.

Arch Duke Charles—Brilliant crimson scarlet, shaded violet.

Agrippina—Fiery red, good size and form, profuse flowering.

Appoline—Delicate pink, changing to a clear rose, fine grower.

America—Coppery yellow, strong grower, suitable for trellis.

Annie Oliver—Color creamy blush, shaded with deep carmine, fragrant, large and full.

Bon Seline—Color a dark flesh pink.

Comtess de Labarthe—Rosy peach, shaded with amber, a fine sort.

Catharine Mermet—A beautiful, clear flesh color, with the silver luster seen in La France ; large, full, well formed, very beautiful in the bud.

Cornelia Cook—Pure white ; magnificent buds, perfect form.

Chromatella—Clear, bright yellow, large very full and double, very sweet, a strong grower.

Cloth of Gold—This rose should not be confounded with CHROMATELLA as it is quite distinct, color deep yellow center with sulphur edge.

Duchess de Brabant—Soft, rosy flesh, changing to deep rose.

Estella Pradell—Climbing habit, valuable in the south, lovely, pure, white buds, flowers medium size, full and sweet.

Etoil de Lyon—A magnificent rose, color brilliant chrome yellow, all opening in center pure golden yellow.

General de Tartas—A fine rose for bedding, brilliant crimson, extra large very double and full.

Isabel Sprunt—Light sulphur yellow.

La Primrose Dame—Of slender growth and fine foliage, buds of large size. \$5.00 per 100.

Lamarque—Flowers of medium size, borne in clusters, very double, color a pure white.

La Princess Vera—Creamy rose, veined lilac, large and full.

La Pactole—Pale, Sulphur yellow, large and full.

Louis de La Rive—A good grower ; color flesh white, of fine form.

Louis Richard—Coppery rose, flowers very large.

Md. Bravy—Rich, creamy white, with blush centre, perfect form, large, very double and sweet.

Marie Ducher—Rich, transparent salmon, with fawn center, large size, very double and sweet.

CARNATIONS.

STANDARD VARIETIES.

SILVER SPRAY.

E. G. Hill (*Thorp.*)—Undoubtably the very best Carnation for cut flower purposes ever introduced. Early flower, with long stems and never bursts, color deep velvety red, size large and full with fringed edges, and an exceedingly strong grower. 50 cents per dozen, \$4.00 per 100.

W. W. Coles—Plant dwarf and bushy in growth, perfectly formed flowers, never burst, very prolific, on long stems. Color, a fiery, bright scarlet, unequaled by any other Carnation. 50 cents per dozen, \$4.00 per 100.

Henzie's White—One of the most desirable white Carnations for winter flowering, never bursts the calyx; large flowers of perfect shape. \$3.00 per 100.

President Garfield—A robust, strong growing Carnation, very bushy. Color, a deep rich scarlet crimson, ends of petals whorled in shell-like fashion. The flowers are produced in great profusion. \$3.00 per 100.

Silver Spray (*See Cut.*)—A pure white, of robust growth, flowers all on long stems; never bursts the calyx and very free flowering. 50 cents per 12, \$4.00 per 100.

L. L. Lamborn—A dwarf, compact grower, bearing on long stems; very large, fine, waxy; pure white flowers; a profuse flower; can be grown on low benches. 10 cents each, 50 cents per dozen, \$4.00 per 100.

Tidal Wave—The Pink of Pinks for cut flower growers; we believe this to be the most valuable Carnation we have ever offered to the trade; color is a very bright pink, shaded lemon when first opening, but growing somewhat lighter when fully expanding. \$1.00 per dozen, \$5.00 per 100.

Starlight—This is a Yellow Henzie's; it is in every particular like its parent, Henzie's White, except in color, which is a very light canary yellow, and is especially striking; strong healthy grower. 50 cents per dozen, \$4.00 per 100.

Le Favori (*New.*)—A dwarf grower, bright rosy carmine, an elegant pot or bench variety. 50 cents per dozen, \$4.00 per 100.

Grace Fardon—Color, rich pink, florets medium size, produced freely, of vigorous growth. 40 cents per dozen, \$3.00 per 100.

Wm. Swayne—New White Carnation. Flowers very large and full, heavy texture which renders it very valuable for long shipping purposes. Very fragrant and grows to large proportions on long stems. 50 cents per dozen, \$4.00 per 100.

American Wonder (*New.*)—A good market variety, soft rosy carmine. 50 Cts. per 12, \$4.00 per 100.

Buttercup—One of the finest varieties of recent introduction. Color, a rich yellow with clear carmine streaks, strong robust grower. 75 cents per dozen, \$6.00 per 100.

Sunrise—A strong vigorous grower of good habit. Color, light buff, flaked with bright carmine, flowers very large, of good shape, fragrant, free and do not burst, altogether a grand variety for pot culture. \$4.00 per 100.

Portia—The finest scarlet and most productive of its class. Strong grower, free bloomer, an excellent market sort. 40 cents per 12, \$3.00 per 100.

Grace Wilder—Clear pink, long stemmed flowers, thrifty and constant bloomer. 50 cents per dozen, \$4.00 per 100.

The Century—Rich, glowing carmine, early and free blooming variety. The best of its color. 50 cents per dozen, \$4.00 per 100.

Mrs. Fisher—Originated with R. T. Lombard, of Wayland, Mass., and was awarded first-class certificate by the Massachusetts Horticultural Society, June 18th, 1889. The claims for this new white are a good bloomer, a good keeper, strong grower, healthy, never bursts, flowers mostly on long stems, very fragrant and highly spoken of. 75 cents per dozen, \$5.00 per 100.

The Bride—A sport from Grace Wilder, flowers similar to that fine variety in size and form; a more vigorous grower, pure white, very fragrant, will prove a grand acquisition as an early flower and perpetual. 75 cents per dozen, \$5.00 per 100.

W. H. Rowland—Of fine dwarf habit, with heavy stems and grass, very full flowering, color soft rosy carmine, full and fragrant. \$1.00 per 12.

NEW CARNATIONS.

Lizzie McGowan—This is claimed to be the finest White Carnation yet produced. It is pure white, with very large florets of crisp heavy petals; will prove a good keeper. \$2.00 per dozen.

Golden Gate—This is the finest pure yellow, full and very double. Color, deep golden yellow, without any stripe or tint. 25 cents each, \$2.50 per dozen.

W. F. Dreer—A beautiful full carmine pink ;

color, deeply fringed, a wonderful free and strong grower. 20 cents each, \$2.00 per dozen.

J. R. Freeman—A light rich cardinal, a seedling of Century. All who try this variety will be delighted. 20 cents each, \$2.00 per dozen.

Fred. Creighton—This is certainly a handsome shade of pink, full without bursting ; all on long stems, plant vigorous and free. \$1.50 per 12.

CHRYSANTHEMUMS.

AMERICAN NOVELTIES.

We call your attention to the following set of 'Mums. Price, per plant, \$1.00. Set of 12, \$10.00. Two sets, \$15.00.

Flora Hill—Of splendid size and heavy texture ; outer petals horizontal or slightly recurving ; the creamy center is perfectly full and incurved. This received a first-class certificate at Indianapolis, and is one of the most perfect whites in the whole chrysanthemum family.

Frank Thompson—A splendid flower, very nearly spherical in form ; petals very broad and heavy, and finely incurving ; it is very nearly white in color, only showing a touch of pearl pink at the base of the petals. Received first-class certificate at Indianapolis.

Mrs. I. D. Sailer—Took the Sailer prize at Philadelphia. A flower of the largest size, finely incurving, with broad, sharply pointed petals ; a strong grower, producing heavy flower stems ; the color is soft shell pink, touched with lemon on the extreme tips of petals. Its keeping qualities after cutting are extraordinary.

John Goode—This is a fancy cut-flower variety. It is of almost globular form, of the finest silky finish, and destined to become a standard sort for cutting ; the outer petals are delicate lavender, forming a decided band of color ; the inner petals are clear lemon.

**SUGAR LOAF.**

Black Beauty—This variety took the Blanc prize, at Philadelphia show, for best seedling ever before shown. It is of large whorled Japanese type, with high center, and color of deep, soft crimson-maroon.

Emily Dorner—A rather dwarf grower, but very sturdy; the flower is nicely incurved, petals broad, and of the richest shade of orange yellow, touched with crimson. Received first-class certificate at Indianapolis, 1889, and was in the winning stand of twenty-five noted sorts in 1890. Color extremely rich.

Sugar Loaf (*See Cut.*)—This is a variety for everybody. It is the freest-growing and freest-flowering sort that we know, and under the most ordinary treatment produces quantities of flowers of the grandest size. The outer petals recurve slightly, while the inner rows incurve; the color is varying shades of yellow, often shaded bronze, sometimes perfectly clear. A giant grower, with corresponding constitution. This variety took the \$50.00 premium as best seedling at the Cincinnati show, and was one of the six to win the hundred dollars at Indianapolis.

Elmer D. Smith—The foliage is very large and heavy, and dark green; the color is cardinal red, of a very rich, pleasing shade, faced upon the back of the petals with clear chamois; comes nearer being a scarlet maroon than any of the Wheeler type yet sent out. The flower attains a great size, even under the most ordinary treatment.

R. Maitre—Not surpassed by any pink in cultivation; of the largest size, perfectly double, and without a trace of coarseness. This variety will take rank with the finest. A splendid keeper, of most symmetrical form, and a thrifty grower. One of the six varieties which took the hundred dollar premium at Indianapolis.

August Swanson—A magnificent exhibition pot variety of the Wheeler type, but of quite brilliant coloring, which is bright scarlet lined with clear gold.

Mistletoe—The Prize Winner at the Indianapolis Show of 1890, receiving also a Certificate of Merit at the same place in 1889. It is a large size of the incurved Japanese type, covering up the center entirely. The petals are quilled one-third of their length, then open out in bands of a deep silver color on the lower or outer side, while the inner is a deep crimson—a beautiful contrast with the red and gold of the C. H. Wheeler type. It is a good grower; the large flowers are set on strong stems, and carry well. It has a tendency to grow a second crop of flowers, as all the young suckers will bloom again in a short time, and come nicely for Christmas flowers.

Mermaid—The sister of Mistletoe—a soft mellow pink, with deeper shading on the outer edge, while at the base it is of a deep cream; a fine incurving globular flower, the admiration of all the florists who saw it, and pronounced it a variety for cutting purposes, on account of its color, strong stem and excellent keeping qualities. A strong healthy grower. Received Certificate of Merit, being next to Mistletoe in the race for the \$100 prize.

Mrs. Archibald Rogers—This is unquestionably the variety of the year, and unequaled in its color by any. Bright lemon yellow in color, without shadings. Flower large, on stiff, stout stems that hold the flowers erect, without support; incurving, forming a large rounded surface; petals crisp and stiff; very free in growth, but not coarse. This is *the* cut flower variety, and all that could be desired in the way of good color, fine form, and lasting qualities.

Henderson's Pink Ostrich Plume.

Louis Bœhmer—One of the greatest novelties in plants of the season, a Japanese variety of rare beauty in the style of Mrs. Alpheus Hardy, but with flowers nearly double the size and a very much stronger grower, so that it is certain to produce perfect flowers under the most ordinary circumstances. The color is an exquisite shade of silvery pink, with deep rose on inside of petals. The petals are finely incurved and covered with fine glandular hairs, from which it takes the name Ostrich Plume. 50 cents each, \$6.00 per dozen.

CHRYSANTHEMUMS.

Except Where Noted 50 Cents per Dozen, \$4.00 per 100.

Mrs. Cleveland—Needle-shaped petals. Pure white.

Magnet—An immense drooping flower of reddish heliotrope color.

M. Louis Langlois—Golden yellow and brownish red.

Marvel—Very large flat flower of regular rosette shape; the ground color is pure waxen white, and on this is a large irregular blotch of wine color; no two flowers similarly marked. The contrast in color is very beautiful. 10 cents each.

GERANIUMS.

NEW BRUANT TYPE.

WE call the attention of the trade to this new class of Geraniums, combining all that goes to make a desirable plant; strong growth, large foliage of a heavy texture and substance; flowers borne on strong footstalks well above the foliage, withstanding our hottest suns. Including the novelties of this year they combine all colors except white. They are the ideal Florist's Geraniums.

Mrs. E. G. Hill—A most distinct and pleasing shade of salmon, with light shading at the center; the shading at the center is variable, however. Tresses are very large and composed of an immense number of florets. A single variety. The finest salmon-flowered Geranium to date. 15 cents each, \$1.50 per dozen.

M. P. Olombel—Rich vermilion-scarlet, with orange shadings. An attractive variety, carrying immense spherical trusses of flowers. Single-flowered. \$1.50 per dozen.

Glorie Pointevine—Large trusses of immense size. Rich red, shaded orange, with a white eye. Very vigorous and free. \$1.50 per dozen.

M. Emile Barr—Large, finely-formed flowers, borne in immense trusses. Vermillion red flowers. Fine for massing. Single flowered. A very attractive and showy variety. \$1.50 per dozen.

Md. de La Roque—Enormous round flowers in large umbels, very freely produced. Color a beautiful salmon, with orange shaded center. Fine for massing. 15 cents each.

Barbiset—Individual flowers very large, borne on long foot stalks. Color fresh bright rose malcalated with white on upper petals. Single flowers. 15 cents each.

Leviathan—Enormous sized flowers, round in the shape of rosettes. Color bright orange red, reverse of the petals silvery. Very fine. Semi-double flowers. 15 cents each.

La Primatice—Plant dwarf and bushy. Flowers large, on long footstalks or stems. Color, soft crimson scarlet, most beautiful and pleasing. 15 cents each.

M. Noury—A most pleasing lavender rose color, very chaste and beautiful, with distinct marking of white at center of flower. Dwarf and so free in bloom as to literally cover the plant. 15 cents each.

Aurora Boreale—Bright, brilliant red. Very effective, fine for massing or groups. Very large flowers. 15 cents each.

Mon. Poinsignon—Color bright aurora rose, shaded salmon, with a white eye. Large trusses of splendid shaped flowers. 15 cents each.

Beauty of Pointevine—Very large double flowers in immense trusses; color brilliant salmon. 15 cents each, \$1.50 per dozen.

Bruant—(Semi-double.) Color of the flower a vermilion red, of a most pleasing shade. The flowers are absolutely perfect in shape, contour and make-up; trusses exceptionally large, and borne in immense spherical balls, often measuring eight inches in diameter. The best scarlet bedder extant. \$5.00 per 100.

Blanche Moulas—Very light salmon, edged and bordered white. This will prove a grand bedding variety of wonderful merit. 50 cents per dozen.

Francois Arago—Flowers finely formed, a free bloomer, on strong footstalks; color silvery salmon, shaded peach. Belongs to the Bruanti section, as shown distinctly by its foliage. 75 cents per dozen.

Le Cid—Extra large florets borne on strong footstalks in immense trusses. Color, orange-vermilion. Stands the heat and sun well. \$1.00 per 12.

Protee—Flowers very large, and freely produced in immense trusses. Color, silvery lilac, white shading changing to silvery pink. A splendid new sort. 75 cents per dozen, \$6.00 per 100.

Heteranthe—(Semi-double.) Very similar indeed to Bruant, but of a less brilliant hue. The two varieties have got so mixed up that it is difficult to tell one from the other. We had a bed of each growing side by side last season, when the Bruant showed a much brighter scarlet and was less in height than Heteranthe. \$4.00 per 100.

NEW GERANIUM.

SOUVENIER DE MIRANDE.

Souvenir de Mirande—(See *Cut.*)—A fine new variety; one of the greatest novelties in Geraniums sent out in years, and is quite distinct from anything before offered. It has round florets, upper petals cream white with a distinct salmon rose border; lower petals salmon rose streaked with white, making a strikingly handsome flower. The body of each petal is pure satiny white, with a distinct, sharply defined band of brilliant carmine running about each, and narrowing to the center. A splendid pot variety, and when brought indoors the carmine predominates in each petal, leaving but small white centers. Everybody exclaims at sight of the bloom. It proves a thorough sur-

prise, being so totally distinct from other varieties. 15 cents each, \$1.00 per dozen.
