The meeting was held in the assembly rooms of the Chamber of Commerce.

Vital to City

HOLLYWOOD, IGNORED BY CITY COUNCIL OF LOS ANGELES, IS FORCED TO DOUBLE TAXATION

Helps to Pay Salaries of Officials Who Fail to Assist, Raises Money for Expenses of Special Representatives

Judge Harlan G. Palmer, publisher of The Hollywood Citizen, Hollywood's leading newspaper, was the principal speaker last night in the Glendale Union High school auditorium at the weekly meeting of the Home Protective League, the anti-annexation organization.

Promises Worthless

The fact that promises made by members of the City Council of Los Angeles are not binding on other councils was emphasized by Judge Palmer.

Our own experience has taught us

"Our own experience has taught us," he stated, "that frequently we did not find officials of the city of Los Angeles willing to lend a sympathetic ear to the people of Hollywood."

City officials of Los Angeles cannot be relied upon to look after the interests of Hollywood,

City officials of Los Angeles cannot be relied upon to look after the interests of Hollywood, according to Judge Palmer, who commented upon the fact that it has been necessary for the Hollywood Chamber of Commerce to raise funds by popular subscription in order to employ lawyers and engineers to check the actions of Los Angeles officials.

THEY HAD TO GET UP AND DEMAND EVEN THE RIGHT TO BE HEARD

"THEY HAD TO GET UP AND DEMAND EVEN THE RIGHT TO BE HEARD," DECLARED JUDGE PALMER. "ALTHOUGH THEY HAD BEEN ASSURED BEFORE THEY WENT TO THE MEETING THAT THEY WOULD BE GIVEN A COURTEOUS HEARING."

Higher Tax Rate

Santa Monica's tax rate this year is \$5.09 in comparison to Glendale's \$4.56. Glendale's city rate is \$1.55 in comparison to Santa Monica's city rate of \$2.10, while Glendale's school rate is \$2.18 or 2 cents higher than Santa Monica's school rate of \$2.16.

Forcing Annexation Question to Issue At Polls Is Waste of People's Money

Many people declare that it will be a waste of money to force the annexation question to an election. It will be impossible, it is pointed out, for the leaders in the annexation "movement" to secure enough signatures to the petition calling the election PROVIDED people opposing annexation refuse to sign.

Can You See What Glendale Will Be Tomorrow?

It does not require a superhuman foresight to tell something of what Glendale will be in the next few years. All successful men have a certain degree of foresight by which they can look into the future and tell something of the trend of development. It **does not** require vision to foretell that Glendale is going to continue to grow and that property values are going to increase.

It is hard to realize the enormous development which will shortly take place. Looking into the tomorrow, we say that lots in Fairview Subdivision will increase in value beyond all expectations. There are only a few left in our present units. Invest \$25 today that will bring you back a hundred tomorrow.

GOOD CITIZEN IS BORN IN SCHOOL

Student Says Education Is Medium That Guides World's Progress

By CLIFTON CLAUSE '23
Man's first allegiance was to his family. As the families united to form a tribe, man had a larger allegiance to his new group.

Land of Freedom.
America is the land of freedom, not only for those born in this country, but for hundreds in Europe and Asia, who look toward us and often realize their dream of freedom when they become adopted citizens of our land.

Justice or fair-play is a lesson all should learn early in life. Once the man who was the strongest demanded justice. Now, after centuries of training, we realize that right is more than might.

Better citizenship is the result of better education. Our schools are free and all may receive this training. What the boy or girl learns in school greatly influences his future life.

America Lives Alone
America as a nation has been able to live within herself. She has not been hampered by contact with the rest of the world.

Freedom Emblem
Did ever a person stand on the shore and see his native flag waving from the rigging of a ship, and not feel a thrill?

Freedom Emblem (continued)
America the merciful, America the free, rings throughout the world. The stars and stripes, the emblem of the free, must be preserved by the keeping of our country's greatest dedication, freedom.

Duty to Vote

Citizenship is a responsibility as well as a privilege, and the citizen who accepts the benefits, but refuses the duties of his position, is not worthy of the name.

THE CREAM OF SUBDIVISIONS

It is the Unanimous Opinion of prospective buyers of foothill homesites

That Kenneth Heights Is the CHOICE of Subdivisions;

And by reason of its high and sightly location is The Most Beautiful Residential Section of Glendale

And that our prices are unusually low for this class of property.

Before hearing these favorable comments, we had decided on December the first as the date for advancing our prices on lots in Tract 5777, then unsold. But, owing to the inclement weather of the past week, which has interfered somewhat with the plans of many of our friends and prospects, who are desirous of securing lots in KENNETH HEIGHTS

We have decided to extend the time for advancing prices to December the tenth, thereby giving you further opportunity to make your selection at the PRESENT LOW PRICES of

\$2350 to \$2850 for lots 70 by 190 feet, the average size.

And we would suggest that you do as John Steven McGroarty said in his greatly enjoyed speech last Thursday night: "When I get in sight of Glendale your bug gets me and says:

"GET A MOVE ON!"
Prices will be advanced 10 per cent on December tenth on all lots unsold in Tract 5777.

The MUCKER by Edgar Rice Burroughs

Billy shook his head. The stuff had kept him down all his life—he had sworn never to touch another drop of it, and he never would, whether he lost this and every other fight he ever fought.

Billy knew that he was afraid—he thought that he was afraid of the big, trained fighter who faced him; but Cassidy knew that it was a plain case of stage fright that had gripped his man.

The fans, many of them, were laughing, and yelling derogatory remarks at Billy.

"Stand up 'n' fight, yeh big stiff!" and "Back to de farm fer youse!" and then, high above the other, a shrill voice cried "Cow-ard! Coward!"

The word penetrated Billy's hopes, maddened brain. Coward! She had called him that once, and then she had changed her mind.

It was a surprised and chastened mucker that walked with bent head to his corner after the first round. The "white hope" was grinning and confident, and so he returned to the center of the ring for the second round.

Daily News Letter

General News and Gossip from Staff Writers at Home and Abroad.

TODAY—To prevent further descent of the franc in the rate of exchange, the French plan to reduce the consumption of American wheat. Frank E. Mason, Paris correspondent, writes today on France's effort to "Volstead" the bread traffic.

TOMORROW—Harry R. Flory, correspondent at Chicago, writes of a new expedition into "darkest Africa" undertaken by a group of Americans.

By FRANK E. MASON For International News Service. PARIS, Dec. 5.—"A Frenchman is a man who wears a little ribbon in his buttonhole and keeps asking for more bread."

And now France is putting on a campaign to Volstead bread—perhaps not bone-dry prohibition of bread—but at least greatly to reduce its consumption. For bread is made of wheat and wheat is bought by the French in America with American dollars.

The Matin has been displaying daily patriotic appeals to its readers to cheer on the movement to reduce the amount of bread eaten. Herbert Hoover's wheatless programme in the United States during the war is quoted and re-quoted.

Uncle Wiggily and Jackie's Jump Uncle Wiggily was hopping along through the woods one day, looking at the snow on the ground and wondering how many more days until Christmas, when, all of a sudden, the bunny gentleman heard behind him a voice calling: "Wait a minute, Uncle Wiggily!"

Uncle Wiggily Bedtime Stories BY HOWARD R. GARIS

"Wait a minute, Uncle Wiggily!" Uncle Wiggily turned around but could see no one. Then his pink nose began to twinkle and he whispered to himself: "If that's the Wozzie Wolf or the Fuzzy Fox I guess I'd better not wait a minute, nor even half a minute. They'll want to nibble my ears!"

Uncle Wiggily started to hop as fast as he could to get to a safe place, but all of a sudden his paws slipped on the snow and down he fell. "Oh, this is the last of me! My ears will surely be nibbled now," thought the poor bunny uncle.

He came down "kerbunko!" Jackie thought of putting his head under the snow as an ostrich is said to hide its head in the sand when hunters chase it.

Jackie, I hope you didn't do anything wrong in school so the lady music teacher had to keep you in," said Uncle Wiggily. "Oh, no!" barked the puppy dog. "I just stayed in to help teacher clean the chalk off the blackboards so they'd be nice and fresh for tomorrow. We're going to have a 'zamination tomorrow."

Side Talks by Ruth Cameron

STYLES IN WORDS

"My daughter is very much upset. A comfortably middle aged woman told me recently, "because I keep forgetting and call the woman who works for us 'the girl.' She wants me to say 'the maid' and I do try to. But in my younger days she has always 'the girl' or perhaps 'the hired girl' and I can't get out of the habit of thinking of her that way. I can't see what difference it makes but Julia says that styles in words change just as much as styles in clothes and that it stamps you as passe to be out of date in one just as much as the other. I don't know as I care if I am stamped as passe, but Julia seems to feel so strongly about it that I try to remember."

She smiled as she spoke in a way that showed her sense of humor wasn't passe, but as active as her daughter's — rather more so, I think from what I know of the two.

Bad as a Gold Wedding Ring

But the daughter is right about styles in words. To use certain words is to advertise the fact that you are of the older generation and not keeping up with the times as surely as well as to wear a gold wedding ring instead of having it covered with platinum so that one will appear to have been married in the platinum age.

Here are some of the words you ought to be very careful about unless you want to be adjudged hopelessly provincial and passe. Once upon a time we wore nightdresses. That was when we, you and I, were very small children, of course. Then we graduated into nightgowns and wore them up to a year or two ago. Now only the hot polli wear night gowns, people who are "in the know" wear night robes.

Madeline.—It is a foolish custom to offer your photograph as a Christmas gift even though the recipients are related to you. It is not advisable to give a photograph of yourself to anyone unless you are sure that it will be wanted very much.

Ellen.—The ridges on the nails are usually the result of a very dry skin. Rub as much cream or oil into them every night as they will absorb. Use a fine pumice stone that is soaped and kept wet while you scrub and keep wet the ridges. But do this gently and only just enough to smooth the worst of the ridges from the surface of the nails. It is an easy matter to scrape the nails so they will be so thin that they will crack. Protect the finger tips when immersing for a long time in hot water and if you feed them with oil this tendency to ridges will disappear.

K. John.—Consult your doctor about this tendency to fall asleep. You may only be in need of a tonic or your liver may be very torpid, but it is best to find out the exact cause for the trouble and correct it now before it leads to a spell of illness.

Mrs. L. T. A.—Bunions are the result of inflammation of the joint that has been caused by injury. They can be cured in some cases, where they are treated at once and then protected from further

DIABETES—No. II

Yesterday I showed you the connection between diabetes and over-eating. Joslin says that 75 per cent of his diabetic patients are overweight because of over-eating for their needs.

The over-eating which causes this excess weight also causes chronic poisoning and this, in turn, causes inflammatory changes in the tissues. Muscular rheumatism, neuritis, neuralgia, headache, hardening of the arteries, heart disease and a long string of serious disorders beside diabetes can come in the train of over-eating. (Over-eating is not the only thing that can cause these conditions, you understand. Acute and chronic infections also and other things can also cause them.)

If the over-eating has been in the form of candies and sweets, the disposition to diabetes is greater. So there is actually a real danger in the candy habit.

A contributory cause of diabetes is lack of exercise, because lack of exercise is a factor in producing overweight. And it is largely in the muscles that sugar formed from the food is used. So you can see that active use of the muscles is important.

Are there any other things that will cause diabetes? Nothing that is anywhere near the causative magnitude that obesity—therefore, over-eating—is. A too strenuous mental life may have some significance, according to Joslin. It has been shown that medical students after severe examinations will show temporary sugar in the urine afterward.

The tendency to diabetes may be an inherited one. The Jewish people, for instance, suffer more from diabetes than any other race. I have called your attention to the fact that the Jewish race also serve very rich, concentrated, and large amounts of foods on their tables, and the Jewish people are prone to obesity. This accounts for being prone to diabetes. There is no doubt in my mind that as soon as this fact becomes known to them the cases of obesity and diabetes will cease to be so numerous among them. For those disorders undermine efficiency and progress and there is no race that is keener for efficiency and progress than the Jewish people.

It is probable that with the avoidance of excess sweets and obesity, the children of diabetes will be no more liable to the disease than other children.

There are two forms of diabetes, diabetes insipidus and diabetes mellitus. When we speak of diabetes we usually speak of the sugar diabetes—diabetes mellitus—for that is the form that is serious. This disease is discovered when sugar is found in the urine.

The sugar in the urine is derived from the food, chiefly from the sugars and starches. This sugar has not been used by the system because in the majority of cases the pancreas has been disordered and its internal secretion, which has to do with the burning of sugar in the system, is lacking or disordered.

The treatment of diabetes consists of the control of diet so that there will be no excess sugar in the food.

For dipping use a small double boiler, or a small saucepan set in another pan of boiling water, and stir constantly over the fire until the fondant is melted and looks like thick cream. Add melted chocolate for chocolate covering, vanilla for white, rose for pink, bitter almond and green coloring for pistachio. Be careful not to add too much flavoring or the fondant will be too thin.

Language Success

By EUGENE FARR '23

The first impression you get of a person is the one most securely fixed in your mind, and it is by it that you most often judge an acquaintance. Think how often it is in this life that you are seen by a person only once, and that your chance of a good position or of getting any job may depend on the impression you make.

What goes to make up the first impression that you give? Your clothing helps; but if they should not be as fine material as they might, it can be remedied as soon as you get your first pay. Tidiness helps most.

Not every one has the features of an Apollo. The face you were born with must go with you through life. Health counts for more. Abraham Lincoln was a great success.

Your speech, though, is what you make it. If you are slovenly in speech you are very apt to be careless in your manners and work, and no business man wants an irresponsible or illiterate clerk in his office. Illiteracy is one of the greatest drawbacks in the business world. Many a business has been kept from succeeding by it; for, if a firm uses stenographers who do not know how to use the English language properly, it gives the clients a bad impression of the firm. In this day of close competition every business has to make the very best impression at all times to come out on top in the long run.

But you say you are going to be a department head or such like, where you can hire competent stenographers to do your writing. Granting that you may get that high without a good control of language, what of all the transactions you must conduct personally? If you can't convince your buyer that your goods are best and what he wants, or if you are the buyer and can't explain clearly what you need, you have come to the end of your climb, and before long you will start to slip slowly but surely back out of prominence and the glory of achievement.

SCIT FOLLOWS PEANUT WAR

Suit for recovery of \$3,550,000 three-fold damages under the Sherman anti-trust act has been instituted in a United States district court by the Peanut Growers' Exchange against a score or more individuals and concerns. Clearing and Shelling association in Virginia and North Carolina.

The action, which involved the largest amount in damages ever claimed in the courts of Virginia is an outgrowth of the so-called "peanut war" with the growers' association on the one side and the cleaning and shelling concerns on the other. In brief, the defendants, are charged with conspiring to render the exchange insolvent through alleged manipulations of the market price of peanuts.

It is alleged that during October, November and December of last year, the defendants kept the price of peanuts higher than conditions justified, in order to induce the plaintiff to advance money on the crops of its 5000 growers members beyond what the crops would bring when ready for sale.

PORTLAND CEMENT

The bureau of foreign and domestic commerce of the department of commerce, reports that the imports of hydraulic cement in August amounted to 56,757 barrels, valued at \$120,136. The total imports in 1921 amounted to 122,317 barrels, valued at \$388,328.

The exports of hydraulic cement in August were 105,156 barrels, valued at \$294,737; of this total 102,979 barrels, valued at \$281,709 was Portland cement.

The exports of hydraulic cement from the United States in 1921 were 1,191,014 barrels, valued at \$4,276,986, or \$3.62 a barrel, as compared with 2,985,807 barrels, valued at \$10,045,369, or \$3.36 a barrel, in 1920. The exports were sent principally to the West Indies, South America, Mexico and Central America.

HIGH PRICES 10 YEARS MORE

Prices are not likely to drop to what they were before the war, for ten years at least, reports Prof. Charles H. Bullock, Jr. is chairman of Harvard University's committee on economic research, one of the leaders among business forecasters. After the War of 1812 and the Civil War, it took prices about 30 years to drop to normal. The low point of prices occurs, roughly, every 50 years. The last low point was 1896. By precedent, prices of 1896 may be repeated in 1946. New and unprecedented conditions, however, may break the rule.

CANDIES FOR THE CHRISTMAS BOX

Home-made candies are not at all difficult to make and housewives are making use of them as an ideal delicacy to tuck into the Christmas box.

Boxes covered with decorative paper, tied with holly and baskets of various kinds, make pretty receptacles for these delicacies.

It is easy to make fancy candies, if one learns the art of making fondant—the foundation of all cream candies, fine or the finest candies if the fondant is fine—soggy, indigestible, unattractive candies if the fondant is soggy. Sugar and water mixed in unequal quantities will not make candy. Candy-making requires judgment, but once the ingredients are right, and you know just when to remove it from the fire, home-made candies are easily made.

The fudges are fondants, or sugar cooked exactly the same as fondant. If we learn to make fondant well we can make better fudge.

Number of People Spend Sunday In Visiting; Notes, Brief News Mentions of Live Section

George Emerson, manager of the branch office of the W. A. Heitman Realty company at 1737 South San Fernando road, reports business good.

"Real estate is moving well down here," he remarked yesterday. "This is particularly true of vacant property."

Santa Fe Springs oil field was not visited Sunday afternoon as usual by Lloyd Webster and Ralph Webster of 123 North Everett street, who are employed in the grocery department at the Gateway Market.

Instead, they went to the races accompanied by L. S. Braymer of Pomona.

Mouse traps of all sizes are now kept at the Wilson-Bell Hardware store at 1738 South Brand boulevard. J. M. Wilson admitted yesterday afternoon that the stock included big mouse traps for the little mice and little traps for the big "mouses"—or maybe it was the other way around.

A record for speed in dressing poultry is now being held by the meat department of the Gateway Market. Recently C. C. Caswell, Tom Caswell and John Teaman dressed 200 turkeys, 100 hens and forty ducks in three hours and a half.

C. H. Ambrosch was absent from the Glendale Monument works at 1727 South Brand boulevard yesterday while in Los Angeles on business.

The Baldwin Shirt company at 1725 South Brand boulevard has received word from George B. Karr of 1159 North Louise street announcing his safe arrival in Parsons, Kan.

Mr. and Mrs. J. M. Wilson of 622 North Jackson street motored to Downey Sunday. Later, they visited the oil fields in that vicinity. They returned about 3 o'clock in order to avoid the heavy traffic late Sunday afternoon.

Mr. and Mrs. B. G. Jackson of 216 West Eulalia street and small son, Wesley, drove to Highland Park Sunday afternoon. Mr. Jackson has decided to close his garage at 1600 South San Fernando road Sunday afternoons instead of Mondays.

"We are doing a mighty nice business," remarked J. R. Nash of the J. R. Nash Dry Goods company yesterday in his store at

1728 South San Fernando road. "We are getting ready for Christmas," he continued. "We expect to get quite a lot of new goods in for the holidays. As a matter of fact, it is coming in all the time."

"People around here are responding very nicely and we surely appreciate their patronage."

The South Glendale Motor Service garage at 1416 South San Fernando road was closed Sunday afternoon while H. N. Hall and his brother, H. F. Hall, attended the races.

C. Holmes and daughter, Bertha. They are relatives of Mr. and Mrs. Ed Gabel of 1412 1/2 South San Fernando road.

THEATRES

The Glendale

Viola Dana has never been more mirth-provoking than in "The Five Dollar Baby," now showing at the Glendale Theatre. As a tomboy of thirteen, reared by an East Side pawnbroker, she is highly diverting in the earlier scenes of the picture; and as a vivacious young lady of eighteen, in the latter reels, she is a riot, demonstrating afresh that her popularity is well deserved.

The life of the Ghetto is remarkably well depicted in this photoplay. Harry Beaumont, who directed the film, has introduced a number of distinct types. Ralph Lewis appears as the pawnbroker in a remarkably fine characterization, and others in the cast include John Haddon and Arthur Rankin.

The T. D. & L.

It is not often that one sees such a cast as Thomas Meighan, Leatrice Joy, Theodore Roberts, June Elvidge and Eva Novak all assembled in one photoplay. Such a picture is "The Man Who Saw Tomorrow," a new Paramount film opening at the T. D. & L. Theatre today. It abounds in thrills, adventure, intrigue and novelty and has been acclaimed a sensation.

In addition to this featured attraction, there will also be offered a preview of the sensational all-star film "Heroes" at the 8:30 performance. And a special comedy round off this big program.

Manager Allan feels that he has an unusually fine list of attractions today and urges an early attendance.

Train Derailed In Iowa; 100 Injured

SHENANDOAH, Iowa, Dec. 5.—One hundred and five passengers, many of whom are from Missouri points, today are recovering from injuries received last night when Wabash train No. 14, en route to St. Louis, was derailed six miles from here.

None of the injured are in a serious condition. A number of them are suffering from broken arms and legs. Some are believed to have suffered internal injuries and are under treatment in hospitals at Council Bluffs and Omaha.

Wabash officials who rushed here from Omaha were at a loss to explain the cause of the wreck today.

According to passengers, the train consisting of a baggage car, day coach and two Pullmans, was going at a high speed when, about 30 feet beyond a 25-foot bridge across a dry creek, the engine left the track. Train officials believe a broken rail caused the derailment. The locomotive plunged down an embankment, pulling the baggage car and chair car with it and turned over in a ditch.

Mary Miles Minter Reported Engaged

HOLLYWOOD, Cal., Dec. 5.—Hollywood film circles were aflood today over the reported engagement of Mary Miles Minter to Louis Sherwin, scenario writer and dramatic critic.

The report of their engagement is said to be founded on the fact that they have been seen together much of late, coupled with the fact that Miss Minter recently sold her exclusive residence here to Charles L. Bastin of Chicago.

Sherwin is said to be considered one of the best known dramatic critics in the country and recently came to Los Angeles to be associated with local studios.

Neither Miss Minter nor Sherwin could be reached to confirm or deny their reported engagement.

THAT MORNING LAMENESS

If you are lame every morning, and suffer urinary ills, there must be a cause. Often it's weak kidneys. To strengthen the weakened kidneys and avert more serious troubles, use Doan's Kidney Pills. You can rely on this woman's testimony.

Mrs. J. M. Derr, 757 Earlham St., Pasadena, Cal., says: "The first symptom of kidney complaint in my case was backache. When I first got up in the morning, there was a lameness and soreness through my kidneys and across my loins, but after I had been on my feet awhile about the house, the pain eased up a little. I was extremely nervous and became easily excited. I heard about Doan's Kidney Pills and one box cured the backache and the nervousness left me."

Lighthouses to Get Gas Burning Lamps

TAMPA, Fla.—All lighthouses from Key West to Tampa on the Gulf of Mexico coast are to be equipped with gas-burning beacons, according to announcement of officials of the United States Lighthouse service who recently completed a survey of this territory. The Pintch system, in use on many railways, is to be installed.

The change will affect several hundred lighthouses and channel beacons. It is made because it has been found that gas burns with a more brilliant and penetrating light than kerosene and requires much less attention.

California Suffers Many Forest Fires

LOS ANGELES—Forest fires near Los Angeles county for the present season have increased greatly in number and burned over much more territory than in any previous year, according to Stuart Plinham, local forester official.

Most of the mountain fires were caused by carelessness of hunters and picnickers, according to Plinham, who stated there had been more than sixty convictions for violation of the fire laws in the mountains this year. It is said the fire menace would not be over for several weeks yet.

Open Forum Meet for Thursday Club

The regular monthly open forum meeting of the Thursday Afternoon club of Glendale will be held Thursday, Dec. 7, at 2:30 p. m. in Knights of Pythias hall. The subject of annexation will be discussed, after both sides of the question have been presented by interesting speakers.

The program has been arranged by Dr. Jessie A. Russell, chairman of forum program committee, of the winner of the school's popularity contest. No admission has been charged for the affair, but each student has had tickets to distribute to friends. Those receiving tickets have been asked to vote for the student presenting the ticket. The student having the most votes Tuesday night is to receive a prize.

In anticipation of the opening of a new term at the school the announcement is made of additions to the faculty. Earl Meeker, baritone, opera singer and president of the state music teachers' association, is to spend two days a week at the Emerson school. In addition to giving vocal lessons he plans to organize a men's chorus, a women's chorus and a chorus for boys. Mr. Meeker has had a studio in Los Angeles for three years and will continue his work there. Mme. Katrina Gumensky, who appears on the program tonight in dance numbers, is to join the faculty as dancing teacher. Mme. Gumensky has had eight years of experience in the Imperiale Ballet in Moscow, Russia, and has danced with Pavlowa.

Multiple Listing Is In Operation Here

The multiple listing system of Glendale realty is now in operation at offices in Room 7 Central Building, where Miss Winnifred Traver is in charge as secretary. Forty-seven Glendale realtors are connected with the system and already \$336,000 worth of realty has been handled. Under the system the listings are made at the office by the various realtors and notices then sent out of the listing to the forty-seven members of the system. In case of a sale by any one of the members the commission is shared by the realtor first listing the property and the one who sold it.

Business Women to Hold Meet Tonight

Dinner, an executive session and a business meeting will occupy the attention of Glendale Business and Professional club women when they meet tonight at their clubhouse on South Maryland avenue.

Dinner is to be served at 6:30 o'clock and Dr. Laura J. Brown, club president, will be in charge of the meeting hour following. Plans are to be made for the Christmas party to be held December 19, when gifts will be received for sending to the Children's Hospital in Los Angeles.

CLARA PHILLIPS IN JAIL BREAK

Convicted Slayer Gets Away With Aid of Persons on Outside, Claim

(Continued from Page 1) have dropped from the roof of the jail to an adjoining building, a descent of twenty feet, by sliding down a water drain pipe. From the roof of the building next to the jail, which is three stories from the ground, she is thought to have descended to an alleyway on ladders placed against the wall by the person or persons who assisted her in her dash for freedom.

Mrs. Phillips was bare-footed when she escaped as her toe prints were found in the dirt on the roof of the building. In the adjoining cell to Mrs. Phillips was a negress, named Alma Smith, who declared she did not hear Mrs. Phillips leave her cell. The cell on the other side of the one occupied by Mrs. Phillips was empty, having been deserted by Mrs. Madeline Obenchain late yesterday afternoon. Mrs. Phillips was scantily attired in a dark suit when she left the jail leaving behind her now famous beige suit and hat. She also left several other articles of clothing behind in her cell.

The climb of Mrs. Phillips from her cell window to the top of the jail building was declared to have been an acrobatic feat in itself and a test of human strength. Had her grip on the side of the building once slipped she would have fallen four stories below to concrete court and certain death. The ladders which are thought to have been used in aiding Mrs. Phillips to escape were found in a nearby alley.

A 50 cent piece and a picture of her husband were found on the small table in her cell. Mrs. Fanny Lowe, jail matron, at whose home Mrs. Obenchain was reported to have passed the night, appeared at the jail two hours after the escape was discovered and said that Mrs. Obenchain had not been with her. Mrs. Phillips had been granted a stay of execution while her attorney, Bert Horrington was preparing papers to appeal the case.
