# Wikimedia and IGOs – a perfect match

- Both share a mission to give the public access to information
- IGOs hold a lot of the knowledge that the public needs to fulfill SDGs
- Wikimedia holds the infrastructure to bring this knowledge together...
- ... and has the reach for impact

# Wikimedia and IGOs – a perfect match

- Some IGOs have worked with Wikimedia for many years, some are just starting
- UN and IGOs should be as obvious partners for our movement as the GLAM institutions
- Initiative for thematic hub around content partnerships
- Room for innovative experiments together with UN agencies and IGOs

# Questions

The background is a deep red with a subtle, repeating floral pattern. Overlaid on this are several stylized floral and leaf motifs in gold, pink, and green. A large, ornate gold floral shape is positioned behind the word 'Questions'. To the right, a pink flower with white dots on its petals and a green leaf with white dots is visible. Below the main text, a yellow flower with a white question mark inside is connected to a smaller yellow flower and a green leaf with white dots. In the bottom right, a large pink lotus-like flower with green leaves is shown. A dotted gold line curves across the middle of the page.
