5. New Civilian Regulations: The following are in part tentative and for information only (per telephone Adjutant and Mr. Anderson MG OCP, GA, 23 Dec 48):

a. As of 26 December 1948 the US Government did break all existing contracts with civilian employees on the Islands of Honshu, Kyushu and Shikoku.

b. Interpretation of the above is that no civilian is under contract as of above date and may go home when they so desire with the following tentative exceptions: Those DAC's who have dependent wives in this theater and have not been in this theater for at least one (1) year as of this date may not go home until completion of one year after arrival of dependents.

c. For the pay period as of 2 January 1947, the new 10% post differential is in effect with quarters provided free.

d. Dependents are not authorized the 10% allowance.

e. DACs married to military personnel are not authorized allowance.

f. In the future the post differential allowance of 10% begins upon arriving in Japan proper and terminates upon departure from Japan.

2. CI&E Films: The following films have been received and distributed to each prefectural film library thru Teams:

"American Woman Speaks" CIE No. 85. Running time, 10 minutes. American Women, regardless of their jobs, realize that they are capable to work in many new fields which were not open to women before and contribute progressively to the State. The film introduces several American women working in new fields: A woman head of a zoo, a mayoress, a women head of a mint, a television broadcasting station staffed only by women and a woman doing the entire work of a small newspaper.

"Protecting the Forest" CIE No. 17. Running time, 10 minutes. The forest ranger at work protecting forests from fire exploitation and/or disease.

"Beginning Of History" CIE No. 57. (English only) Running time, 47½ minutes. British History from Old Stone Age, New Stone Age, Bronze Age, Iron Age, up to the present time.

3. Reparations:

a. Paragraph b. sets out details of a report required on the above subject by Headquarters I Corps by 1 February 1949. To enable reports from team Economics Officers to be consolidated at this headquarters, it is requested that team reports reach this headquarters no later than 25 January 1949. It is requested also that in addition to the number of machines in authorized use being shown, that the code numbers of these machines be indicated.

b. In order that this headquarters may have on file accurate information with respect to reparations facilities in the Shikoku and Chugoku Regions, it is requested that a one time report be submitted to this headquarters by 1 February, listing the following information:

(1) The number of inventoried items subject to reparations located in non-integrated facilities (aircraft plants, arsenals, and privately owned munition plants). This report to be prepared individually for each prefecture.

(2) The report will be broken down by classification (Class 1, Class 2, Class 3) and will cover only "pooled" machinery and equipment, The installations involved will be identified by code number. The number of machines in authorized use will be given. Totals will be stated both for individual

plants and prefectures. Items reported for individual installations will be totalled and the grand total for the prefecture will be included as the last item of the report. For example:

Aichi Kokaki Kogyo (aircraft) O1-1
Atsuta Kojo
Class #1 305 No. of machines in authorized use - 98
Class #2 210
Class #3 75
590

Grand Total, Aichi Prefecture 49,362

4. DID will cease to issue as from 7 January 1948.

2. Monthly Activities Report: Headquarters Eighth Army has requested that all teams add four copies of Annex "F" to their MG-04 Monthly Activities report, effective January 1949.

3. BCOF Rations: Personnel who have been accumulating ham credits on DID rations should submit a request for a whole ham, if desired for Christmas, on Wednesday 22 December 1948.

4. Economic: It is suggested by this office that particular attention be paid to the staple food purchase program so that this program will be successfully completed by January 31, 1949. Although this program is progressing fairly well in all prefectures, this office suggests that all Teams use every means available, such as radio stations, newspapers, movies and etc, to stimulate the Japanese officials concerned and the farmers interest, thereby creating a will on the part of all concerned to complete this program by the above mentioned date. It is also suggested that emphasis be placed on the need for farmers in making over quota deliveries. Thus by continues surveillance and prodding of the Japanese officials concerned with this program, it will be brought to a successful conclusion by January 31, 1949.

2. Civil Education: This headquarters is compiling, as completely as possible, a glossary of educational and organizational terms. When completed, the glossary will be in English and Japanese and will include both kanji and romaji. CE officers who have any suggestions for the inclusion of words or phrases in this compilation should communicate them to this headquarters as soon as possible.

Attention of CE officers is drawn to Supplement III, CI&E Bulletin, Volume II, Number 12, 24 November 1948, "Schedule for PTA Hour Broadcast". CE officers should consult CI officers on publicizing the listed programs and should also encourage education officials and PTA representatives to encourage listening to the programs.

Higher headquarters needs and wants information on board of education problems. It is suggested that CE officers forward to this headquarters for ultimate transmittal to higher headquarters questions which they have been asked by school boards. Questions may be sent informally. Any other comments which CE officers care to affix to questions will be welcome.

2. Takamatsu-Kobe Ferry "OFF LIMITS": The following is extracted from a letter to this headquarters:

"It has been brought to our knowledge that a number of the Occupation Forces who has come to Takamatsu recently approached the Local Maritime Bureau with a letter of introduction by one of the officials of the Osaka Maritime Bureau, requesting that the individual concerned be well taken care of. At his request the Kansai steamship company arranged so that he could make a trip from Takamatsu to Osaka. As far as we are aware, this trip was made without any trouble or problem.

You will, however, allow me to remind you that about half a year ago there had been a good number of similar cases to be dealt with and that the Kansai Steamship Company came to us with bills amounting to around ¥ 400,000. Since that line was off limits to Occupation personnel, we had great difficulty in satisfying the said company. It is possible that similar cases may occur in future.

We shall be greatly obliged if you will take such action as you feel necessary to assist us inasmuch as no procurement demand exists to cover such expenses.

Should similar cases occur in future and the said company or some other agency come to us for compensation or payments, we shall be in a very difficult position with no budget properly appropriated for such expenses and no arrangement agreed upon with the Tokyo Government.

In concluding this letter I should like to make it clear that what we are concerned with is not the present case, but some possible occurrence of similar cases in the future. Sincerely Yours, K. Misoyama, Chief of Liaison Section, Kagawaken" All personnel are reminded that the Takamatsu-Kobe Ferry is "OFF-LIMITS" to the Occupation Forces because no procurement covers such transportation.

3. Reports of Survey: Report of Survey form WD AGO-15 will be submitted to Region Headquarters in quintuplicate, the 5th copy will be returned to the initiating organization after action by the surveying officer, and may be used as authority to requisition replacement items.

3. Civil Education: The SMGR CE Officer will attend a regional CE officers' conference at Yokohama, 9-10 November, for the purpose of discussing ways and means of helping superintendents of education. A subsequent Shikoku CE officers' conference will be held either at Takamatsu or Kochi probably on 22-23 November. Formal notice of this latter conference will be sent out as soon as possible. If CE officers have any questions or problems which they wish the SMGR CE officer to take up at the Yokohama conference they should communicate them to this headquarters as soon as possible. Such questions and problems, of course, are not confined merely to superintendent of education matters but may and should include anything pertinent to CE work.

4. Economics: Following information is requested by Region Economic Section as soon as possible. This information requested sent via telephone (tel. 4116).

a. As of today - number of officers and enlisted men working full time on tax surveillance?
b. As of today - number of officers and enlisted men and civilians working part time on tax surveillance and the number of days' per month devoted to this work?

2. West Coast Shipping Strike: The current West Coast shipping strike has interrupted the refrigerator ship schedule for this area. The last shipment arrived the 20th of September, and the next one is not expected until the first part of November.

As a result, the amount of fresh fruits and vegetables available during the next several weeks will be limited. Meat, butter, and other freeze items should last until shipping resumed, provided substitutions of non-perishable items are made wherever practicable. Eggs will be available on a reduced scale until about November 15, 1948.

Non-perishable subsistence will be available in sufficient quantities for both troops and resale. Depots are making appropriate substitutions to stretch the supply of fresh items as far as the safe-holding period will permit.

Commanders will carefully supervise the distribution of rations, and will make such substitutions as are practicable from reserve stocks to spread the supply of fresh items over as long a period as possible. Food service supervisors will actively assist in making substitutions to insure continuation of adequate and attractive meals, when menu changes are made.

Except for fresh fruits and vegetables, sufficient resale items should be available until normal shipping is resumed. Depots have been directed to reduce the amount of perishables approved on requisitions whenever necessary to conserve the supply of particular items. Whenever such reductions occur, commanders concerned will take action considered appropriate to insure equitable sale of the items received.

Sales to snack bars, authorized clubs, and for planned parties, will be limited to non-perishable items in plentiful supply.

2. Acting Inspector General Visit: Lt Col CLIFFORD F KAISER, 029120, ORD this headquarters, will hear complaints from all personnel of units indicated below:

Kagawa MG Team	0800 to 1200 hrs on THURSDAY, 14 Oct 48	DAY ROOM
Shikoku Region Hq	0800 to 1200 hrs on FRIDAY, 15 Oct 48	DAY ROOM

Detachment Commander of Hq & Hq Detachment, this Headquarters, and Commanding Officer of Kagawa MG Team will notify all personnel of their commands in writing of the above and will afford all EM opportunity to register any complaints they may have with the Acting Inspector General.

COMPLAINTS: The following extract from Daily Bulletin Number 35, this Hq, 22 May 48 is repeated for the information and guidance of all concerned:

"Attention of team commanders is invited to provisions of par 5b, AR 20-5, 22 April 1948, with reference to insuring that all personnel on duty with the command have been acquainted with the procedures whereby they may seek redress for alleged grievances and that they have been given an opportunity to present, in person or in writing, to an inspector general their individual grievances not less frequently than once during each quarter of a fiscal year.

Team commanders will insure that personnel are acquainted with redress procedures (AR 600-10; AW 121, Sec II; WD Cir 74, 1946, as amended by Sec II, WD Cir 295; and FEC Cir 17, 1947) and that all potential complainants are urged to take up their complaints and grievances with their immediate commander for command consideration before presenting them to an inspector general.

To facilitate compliance with AR 20-5, an acting inspector general will endeavor to visit each team once each quarter for the purpose of offering personnel a convenient opportunity to submit complaints. Should personnel desire to submit complaints at any time other than during the visit of an acting inspector general, they may do so either by informing this headquarters of the desire to submit complaints whereupon an acting inspector general will visit the team, or by mailing their written complaints to either of the following acting inspectors general of this region:

Lt Col CLIFFORD KAISER	Lt Col HENRY CARDEN
Shikoku Mil Govt Region	Kagawa Mil Govt Team

Team Commanders will insure further that the above information is brought to the attention of all personnel currently on duty or subsequently assigned to duty or attached with their teams and that its receipt by such personnel is acknowledged in writing."

3. Roster for Departures: In order that Region Headquarters may transfer persons from Teams at end of tours, it is desired that Teams submit rosters as indicated below for all personnel, including DACs, BCOF and attached persons. The unauthorized abbreviation of Sfc (for Sgt 1 cl) may be used. Dependents will be expressed as indicated (W&6F-8M meaning: Wife and two children, boy age eight and girl age 6)(D of enl: Date of enlistment, DOB: date of birth) Rosters are due at Region 20 October 1948.

4. Fish & Vegetable Report: The following information to be added to the 11-20th fish and vegetable report.

a. What quanity in kan and percent of the September shipping or receiving quota was filled or received in your prefecture during September?
(1) Fish (2) Vegetable

b. What was the September prefectural population basis in designated and non designated areas?
(1) Fish (2) Vegetable

c. What was the daily average basic official ration distribution in monme per person in designated and non designated areas in your prefecture during September?
(1) Fish (2) Vegetable

d. Is there any diversion of fresh fish into processing channels following the recent price adjustment? Yes or No

5. Fire Precaution: Electric heaters now in Dependent Housing have been re-wired and repaired but due to constant use, wires burn out and cause sparks. It is therefore requested that all heaters be checked from time to time, for hot cords and hot wall plugs. It is also requested that these heaters be set on stands of some sort as some heaters get hot on the bottom. Extra care should be taken in Japanese type homes as the tatamis are dry and very easily catch fire. It is better to be cold for one night than to be cold and uncomfortable for an indefinite period, waiting for new quarters.

6. Economic Section: Rice quota farmers in each prefecture can turn in the following amount of polished rice or B.R.E.

Prefecture	Amt Koku
Ehime	5,000
Tokushima	10,000
Kagawa	0
Kochi	10,000

Prefectures can polish the following amount and distribute the bran according to Government plan. (B.R.E.)

Prefecture	Amt Koku
Tokushima	20,000
Kagawa	60,000
Ehime	25,000
Kochi	0

Food Kodan can then polish the balance of brown rice.

7. Postal Procedure: Nothing except mail will be carried in mail bags. This includes supplies, PX items etc.

8. Hints on English-Word Usage: "PRINCIPAL PRINCIPLES" The word "principal" means "most important".
A "principle" is a rule. Please learn the difference.

9. Post Exchange Inventory: It is desired that teams submit orders for week of 17 October 1948 on 18 October 1948 in order to avoid Inventory Day, which is on 20 and 21 October 1948. Lack of personnel, due to monthly trip to Kobe for supplies, will cause the PX to be unable to fill large orders until week of 25 October 1948.

10. BCOF Gift Train: There has been a change in the schedule of the Gift Train. It is expected that the train will arrive in Takamatsu on or about the 22nd of October, however, a definite schedule will be given at a later date.

DAILY BULLETIN NUMBER 77 (continued

11. Public Health: Attention of Team Public Health officers is called to Weekly Public Health & Welfare Bulletin No. 92. It is recommended both press releases (incl. 1 & 2) be utilized for publicizing the Health Center and its nursing service. These should be published in the Japanese press in their entirety.

6. Handling of Distribution to CIC Units: CIC Units, newly reorganized, have requested that mail be sent to them through APO 1050 as well as correspondence. Mail will be put in with Team's mail. Facilities and arrangements for handling this mail should be made at team level. Distribution put into team's courier pouch which is intended for CIC will be so marked. Further details will follow.

7. DA Circular 269: Each commanding officer will assure that the provisions of DA Cir 269, cs, are completely and correctly accomplished. NME Form 53 will be forwarded in about 10 days.

8. Military Serial Number Prefixes: The following is quoted from a letter received at this headquarters from the ARMY FINANCE CENTER, Office of the Chief of Finance, St Louis 20, Missouri, dated 15 Sep 48:

"Reference is made to Joint Army and Air Force Adjustment Regulations 1-1-1, dated 13 November 1947, as amended, and red-bordered letter from the Adjutant General, dated 21 July 1948, file AGAM-PM 200.2 (19 Jul 1948), subject "Use of Military Serial Number Prefixes."

Since this office is required to account for Army and Air Force Allotment and allowance expenditures separately, when documents are received without prefixes, it may be necessary to contact your office for the missing information.

It is requested that the prefixes be shown on all future documents forwarded, in order to avoid additional correspondence between offices."

9. Fish & Vegetable Report: The following information to be added to the fish and vegetable report of 10 Oct 48:

1. a. Is civil information program in your prefecture considered sufficient to arouse public opinion in support of the fish and vegetable control program?
   b. Are the fish and vegetable team officers working in close cooperation with MG information officers on the above program?
2. Are violators given prominent publicity in the local press and other information media?
3. Are the resident M.A.S. officials and prefectural officials concerned, experiencing any difficulties in making out the reports as outlined in appendix #93?

10. Post Exchange Information: (a) All Teams are in receipt of PX Memorandum which listed October stock, including critical items which are subject to Island-wide raffle. Names of persons desiring to draw for such articles should be submitted directly to Region PX officer listing price and name of each article separately.

(b) The price of American canned beer is $3.60 per case, effective 28 September 1948.

2. Civil Education: Eighth Army has advised this headquarters that school inspections will no longer be required. There has been a letter from SCAP to Eighth Army which says that SCAP no longer desires submission of school inspection reports. However, there is a new Operational Directive which will require ten school inspections, reinspections, and visits per month. Other than in Annex E-1 there will be no reporting of these inspections. In Annex E-1, the number of schools inspected, reinspected, and visited as well as unusual incidents and trends, will be reported. The Operational Directive referred to above has still not been approved by the Chief of Staff, Eighth Army. CE Section, Eighth Army, says, however that it is not necessary to make the regular type school inspections for October. CE officers will note that this information conforms rather closely to agreements about school inspections reached at the recent conference of CE officers held in Takamatsu.

3. Cover Letters: The MG Section of Hq Eighth Army has no objection to elimination of many unnecessary "covering letters". Teams may reduce paper work considerably by evaluating the usefulness of covering letters: If inclosures, such as reports which are complete in themselves, are intended for the MG Section of Eighth Army, all that teams need do is attach an RCS Check Sheet to the report and place it in distribution for this Headquarters. However, cover letters should be used where it is evident that a report will not be consolidated by the MG Section, and that it will be forwarded by indorsement to a higher headquarters.

4. Winter Clothing: It is expected that this command will go into winter uniform about 15 October 1948. Clothing should be checked now for size, fit and condition.

5. Special Locker Fund: Orders for case lots of liquor will be accepted by the Adjutant of this Headquarters during duty hours until 1200 hours 5 October 48.

6. Encephalitis Shots: The third series of Encephalitis immunization will be given Saturday, 0800 hours.

7. Kobe QM Conference: One of the results of the conference was the agreement that ordinary adjustments in bills due to refused goods could be made. Each

receiving unit should, however appoint one officer to handle such complaints and he alone contact the train Commander, if in his opinion the complaint is justified. The commissary officer at Kobe also advised that plans are now in process for a regular commissary train where purchases may be made on the spot. This will take two or three months to complete, under present plans.

8. Now CI&E Films: The following new CI&E films have been received and distributed to Teams:

OUR EATING LIFE CI&E #63, running time 23½ minutes. Don't be fooled by the title on this one. A top flight, A No 1" picture made in Japan. Deals primarily with the proper distribution of food, the evils of black-marketing and the methods by which Japan will gain Economic rehabilitation. Required seeing by every member of Military Government and every Japanese. By far the best CI&E Film yet issued.

UNION'S SCHOOL CI&E #61, running time, 12 minutes. Filmed at the University of Pennsylvania school for Labor Relations, this is interspersed with Japan-Filmed scenes. Good film for use in labor education

3. Disaster Plan Tool Sets: Requisitions for Disaster Plan Tool sets will not be submitted until further notice. Requisitions for sets that have already been submitted and validated are cancelled. Any other item appearing on the same requisition will be valid unless otherwise indicated. When authority is received by this headquarters, Teams will be notified to re-requisition.

4. Breakage Allowance: Your attention is invited to Cir 46, Hq 8th Army, dtd 21 July 48 wherein it is indicated that dependent housing breadage allowance will be on the basis of eight percent (8%) per month for glassware and two percent (2%) per month for chinaware. Breakage will not be put in each quarter but will be computed on the above basis upon termination of occupancy of quarters and credit so given. This does not preclude requisitioning chinaware and glassware as needed. Troop messes may claim breakage as has been heretofore prescribed.

5. Postage Stamps: Team Commanders will make an estimate of their requirements for U.S. Postage Stamps for a 15 day period. This estimate will be at this headquarters on or before Thursday, 30 September 1948. The following denominations of stamps only will be forecasted:

Tentative itinerary is Kagawa, Tokushima, Ehime, completing tour at Kochi 10 October, but actual arrival and departure times will be notified later. Billets rations and local transportation requested.

3. Economic Section: The following information to be added to fish and vegetable report, 21-30 September 1948.

1. Is there any indication of a growing trend toward consumers turning down rations because of inability to pay high official prices? If so, on what items?

2. Are economic investigation board investigators participating with Military Government Teams on fish and vegetables price and distribution controls in your prefecture? How many inspectors or investigators have been recruited for duty in your prefecture?

4. PX News: There is no shortage of cigarettes at present, but due to the shipping strike in the U.S. now there may be later. So for the last punch this month it will be a one carton purchase instead of the usual two.

5. Registration of Vehicles: The following is an excerpt from Msg Form, Hq BCOF: "All Civilian vehicles including auto-cycles and motor scooters will be tested by an Electrical Mechanical Engineer Officer and certificate of roadworthiness obtained before application is made to Provost for registration. Provost will sight certificate of roadworthiness before issuing registration certificate. All applications from AMG must include a certificate of roadworthiness. This may be supplied by AMG Transport Officer.

6. PX Train Schedule: Apparently the reference made to the PX Train Schedule in paragraph 5 Daily Bulletin number 70, is wrong. TWX Cite PX79824 indicates the month should be NOVEMBER rather than OCTOBER as preliminary notice showed. Confirmation will be obtained but it is believed that November's correct.

2. Attn: All Personnel - especially Welfare Officers: Transaction tax stamps, which should be requested with all Japanese purchases, may be donated to educational or welfare organizations. Upon presentation by such organizations, the stamps will be redeemed by the Japanese Government at 5% of their face value if the stamps are ¥ 1 or less, 2% up to ¥ 20, and 2% over ¥ 20. Community Chests will probably appeal to the public for the stamps during their October campaigns. Occupational personnel may wish to save and donate their stamps. Welfare officers may need to warn chest officials against over-emphasising these stamps as a source of funds. Significant contributions from each citizen is the target. The value of the stamps may be confusing, and the giving of small stuff may deflect and substitute in some measure, real giving. Also, the people must not be led into thinking that such basic and expensive public services as education and welfare can or should be financed by a by-product to a tax measure.

3. Legal-Government: Only one Team (Tokushima) has submitted report requested in Hq, SMGR, Daily Bulletin #64 dated 26 August 1948, item 2. Legal-Government officers will submit information requested at once.

4. Excessive Orders from Teams for Cigarettes: Attention of all Team Commanders is invited to the fact that there is no provision under current Post Exchange regulations for issue of cigarettes on childrens ration cards. If it becomes necessary to request more cigarettes on the weekly order than are authorized by the number of PX cards sent in (for lost cards or new personnel) the Team Commander will justify such over-orders in writing stating the reason for the excessive order. This justification must be signed by the Team Commander personally or the order will not be filled.

5. Service Medals: All civilians entitled to American Defense, WW II Victory, or Occupation medals by virtue of previous military service may, upon presentation of appropriate records to this headquarters, be issued the appropriate medal.

6. CI&E Films: The following new CI&E films have been received by Civil Information section and distributed to Teams:

Texas, USA: CI&E No. 44, running time 11 minutes. A short March of Time film on industry, agriculture and places of interest in the state of Texas.

7. Civil Education: Special attention of CE officers is drawn to Document, Hatsu-cho No. 102, 13 August 1948, from Vice-Minister of Education to Governors, subject: "Concerning Provisions for the Training Lecture Course for Superintendents and Others." Attention is also drawn to Hatsusha No. 224, 20 August 1948, from the Ministry of Education to Prefectural Governors, subject: "Program of Training Course for Leaders in Juvenile and Youth Education." Eighth Army points out that these two documents are of very great importance and should receive the close attention of all CE officers. Both these documents mention the participation of Military Government team officers and there can be no doubt that the opinions of team CE officers will be sought and will count heavily in the success of both programs. The importance of the training lecture course for superintendents and others is obvious. Eighth Army further points out that the training program for youth leaders and women leaders is one of the most important programs yet to be put on in Japan. Specially invited experts from the United States are coming to Japan for the express purpose of helping with these courses. Any CE officers who have not received the above-mentioned documents should contact this headquarters immediately after checking their own Adjutant's Section.

2. School Board Election: Attention of Legal-Government and CE officers is invited to Art 96 of the law for the Election of Members of the House of Representatives, which reads:

"No persons shall conduct the election campaign by making use of their positions specially related to children, pupils or students of schools under the age of twenty (20)".

Briefly interpreted this means that any person who by virtue of being a school teacher or otherwise in a position to strongly influence children under the age of 20 must not abuse such position of influence towards promoting, supporting or opposing a candidate for election to public office. A Mainichi report (13 Sept) indicates that this article is being violated in other parts of the country.

3. Sanitary Associations: Attention of all Team Commanders and Team Public Health officers is called to PH & W, Weekly Bulletin No. 87, Inclosure 1. This inclosure indicates the report to be submitted by the Japanese Authorities concerning the dissolution of Sanitary Associations.

4. Special Service Vehicles and Boats: Request for Special Service vehicles and all requests for boats will be obtained through Captain Steinberg, 48 hours prior to use. The speed laws have been posted in conspicious places in all parts of the prefecture, you will also notice arrows on all speedometers pointing to 20 and 25 miles per hour on both Kagawa and Region vehicles, these limits are not to be exceeded by American troops or Japanese nationals. The police department has been notified and nationals caught speeding will be fined according to instructions.

2. Program for raising Educational Qualifications of Regular Army Officers: The attention of all officers of this command, regular or non-regular is invited to Message Form, Eighth Army, 30 Aug 48, file AGTIEE 353, subject as above and to Circular 146, Department of the Army, 1948. Although this program is not mandatory, all officers who have completed less than two years of college work at an accredited college are urged to participate in the program. Letters of application will be prepared as outlined in Circular 146, Department of the Army, 1948.

3. Civil Education: The following is a telegram which was quoted on the telephone from Eighth Army to this headquarters: "Top priority for MG activities in CE and CI for month of September 1948 will be the presentation to the Japanese public of the purposes and provisions of the School Board Law, the powers, duties, and responsibilities of School Boards, and the qualifications of competent school board members." All instructions to the contrary are hereby rescinded. School inspection reports are suspended for the month of September.

4. 2. Security Clearance: All units will comply with the provisions of Cir 55, Hq Eighth Army, cs, which requires that all personnel who handle classified material submit to a Background Investigation.

3. Mr. Amos from G-2, Historical Section, SCAP, will visit the following teams to write articles about Shikoku Island for Stars and Stripes:

4 September	Ehime	6 September	Kochi
5 September	Takamatsu	7 September	Tokushima.

4. Commissary Train will be one day late at each scheduled stop the week of 6 September because of the Labor Day holiday.

5. Japanese "B" Encephalitis Control: The following TWX has been received. "Equine encephalomelitis has spread to Kyushu, Chugoku and Shikoku Regions. Etiologic agent of this disease is same as Japanese "B" Encephalitis in humans. Outbreak in horses usually precedes that in humans by two or four weeks. Causative agent is a mosquito borne virus. Domestic culex mosquitoes are principle vectors. It is possible to prevent this disease by effective mosquito control measures initiated early in the year. Even now effective mosquito control measures carried out by Sanitary Teams will limit the impending encephalitis epidemic in humans. Request that Military Government Teams be advised to instruct prefectural authorities to immediately intensify mosquito control activities to the greatest possible extent concentrating upon densely populated endemic areas. Surveillance should be exercised over these activities in order to insure the greatest possible benefits from this program. Reference is made to the following Ministry of Welfare Yo Hatsu Number 43 dated 7 August 1948. These above notices contain necessary instructions to all Prefectural Governors. RYDER." Mosquito control must be emphasized more than ever. The present epidemic on Shikoku is still in its virulent state and can only be controlled by increased mosquito control.

6. New CI&E Films: The following new CI&E films have been received by Civil Information Section and distributed to Teams:

Modern Medicine: CI&E No. 34, running time, about 20 minutes. Excellent picture covering the necessity of cooperation between preventive and corrective medicine and showing quite clearly that the job of the doctor and nurse does not end with the recovery of the patient but must carry over into the home through an educational program of prevention. A short sequence deals with surgical technique. Recommended for showing to medical personnel of hospitals and health centers.

Rural Co-op: CI&E No. 43, running time, 20 minutes. Considered better than "Farm Co-op", CI&E No. 23, which has been shown many times. "Farm Co-op" is the primer and "Rural-Co-op" is an advanced picture showing in more detail the operations and benefits of an already organized cooperative association.

7. DID Rations: Until further notice, DID orders, payment and procedures will continue as before.

8. Public Health: Attention is called to the Public Health and Welfare Section Weekly Bulletin (SCAP) for 16-22 Aug 48 and its first inclosure PHWJG-69 which directs the dissolution of Sanitary Association and other similar organizations. These organizations have been active in all of the Island's prefectures and in many instances have been utilized by the governmental Health Agencies to aid in carrying out programs. By this new SCAP Memorandum these organizations are unlawful. Prefectural Governors should be consulted and advised to take action to dissolve Sanitary Associations. If the Prefectural Health Department operates properly in carrying out all of its functions, the necessity for extra-governmental Sanitary Associations will be precluded.

9. Transportation Schedule for 8th Army PX Train: The boats and ferries for Uno on Sunday, 5 September 1948 are scheduled as follows:

	Lv Takamatsu	Ar Uno	Lv Uno	Ar Takamatsu
MC Boat	0945	1045	1200	1300
MC Boat	2045	1145	1345	1445

PX Selling Hours: 1045 - 1345.

Ferry	0735	0835	1145	1245
	1120	1220	1405	1505

10. Economic Section -- Tax Collection: The following figures show the amount of taxes collected for 1948-1949 fiscal year as of 31 July 1948:

70%	Kagawa	24%	Kochi
34%	Tokushima	34%	Ehime.

The above figures were obtained from the Takamatsu Financial Bureau and would indicate the need for more vigorous action in pushing the tax program on the part of three teams.

11. Economic Section -- Fish and Vegetable Reports: The following information is to be added to fish and vegetable report for 10 September 1948:

a. Fish Rationing Population:

(1) What was the August prefectural population bases for fish rationing in designated and non-designated areas?

(2) Are fish receipts by consumers sufficient to meet official ration requirements?

b. Fish Fertilizer:

(1) Is any being manufactured in your prefectures. If so, what was the estimated production for July?

(2) Can greater monetary returns be realized by selling for fertilizer than by selling at official prices for fresh food uses?

2. Japanese B Encephalitis Immunization: All commanding officers will personally screen all immunization registers, WD AGO 8-117, to determine if all personnel have received shots for Japanese B Encephalitis and that the shots are up to date. Reference Circular No. 23, Hq Eighth Army, 1948. Immunization Registers on personel who have entered this theater in the past twelve (12) months should show three (3) shots since 1 August 1947. Immunization Registers on personnel who received the immunization last year should show one (1) booster shot since 1 May 1948. A certificate that the above has been accomplished will be forwarded to this headquarters, attention: Public Health Officer, not later than 1 September 1948.

3. Civil Education: The following information on the Board of Education situation has been received from 8th Army.

a. Local boards of education may be elected 5 October provided that local assemblies pass resolutions to that effect and notify governors accordingly by 25 August.

b. (1) Local Board candidates are to be screened by prefectural teachers screening committees.

(2) Prefectural candidates are to be screened in Tokyo.

c. The first deadlines for the submission of candidates' names for prefectural and local boards of education were as follows:

(1) Prefectural candidates: 14-23 August--to be submitted to the Minister of Education.

(2) Local candidates: 18-29 August--to be submitted to prefectural governors.

However, these deadlines have been extended one month.

Personnel to attend training schools for superintendents of education and teacher consultants are to be selected by prefectural committees. (This matter was discussed at the recent CE Officers' Conference). Prefectural governors have detailed instructions.

There has been no basic change in regulations for subsidies for lower secondary school buildings, but each case will be considered individually by the Ministry of Education. The local community submits applications to the prefecture, and the prefecture forwards the applications to the Ministry of Education.

4. Additional $10,000 Insurance available to Officers: $10,000 Insurance, in addition to NSLI is available to all officers and warrant officers on overseas duty for the price of $11.00 per month. For information contact Lt. Mikkelsen at Takamatsu 4101.

5. Island Supply: There is now on hand in Island Supply an almost complete stock of dependent housing furnishings and furniture. Household heads are urged to submit their shortages to Island Supply (Ehime, Tokushima and Kochi will consolidate) for immediate issue. These lists may be in the form of a "buck slip" or note. Form 446 is not necessarily required.

6. BCOF GIFT TRAIN will be in Takamatsu on the 30th of August.

2. Display of Flag: The period of mourning for General Pershing ceases on 15 August 48 in accordance with GO 50 DA, cs. Flags will be flown accordingly.

3. New CI & E Films: The following new CI&E films have been received by Civil Information section and distributed to Teams:

"ATOMIC POWER": A March of Time documentary film depicting the development of the Atomic Bomb and expressing the hope that out of an instrument of destruction will come the harnessing of Atomic Power to peaceful ends. Running time, 14 min.

"AUSTRALIAN NATIONAL CAPITAL": Burton Holmes type of travelogue with air and ground view of Canberra, Australia's model capital city. Running time, 14½ min.

4. Activities Reports: More copies are being prepared and distributed than are required. Six (6) copies are to be sent to Eighth Army by teams and three (3) copies are to be sent to this headquarters. This report is due in Eighth Army on the 15th of the month following the report month. No cover or transmittal letter is required. Also six (6) copies to BCOF and one to each Team are needed.

5. Economics: Authorization is given for /The substitution of unlimited quantities of wheat and barley for white potatoes and of white potatoes for wheat and barley in an amount not to exceed 5% of the wheat and barley on a National Basis. The M.A.F. has instructed the prefectural governors not to exceed 3% with out prior approval from the M.A.F. Substitution in any instance is not authorized until the quota of the crop being substituted is fulfilled. The farmer must make the substitution. Over fulfillment of quota by use of substitute will not make farmers eligible for bonus.

Prefectural Governors are authorized to collect quotas for a prefectural basic. When prefecture collects revised quota in full, governors may at their discretion not required deficient villages to fulfill village quotas. However prefecture governors are expected to insist that villages capable of fulfilling revised quotas do so.

White potatoes substituted for wheat and barley will be reported as wheat and barley in right equivalence unit with a notation indication the quantity of potatoes substituted (in koku). Wheat and Barley substituted for potatoes will be reported as potatoes in potatoe unit (kan) in the same manner.

Matsuyama - 29 August
Takamatsu - 31 August - 1 September
Tokushima - 2 - 3 September
Kochi - 4 - 7 September

Dr Hamlin is in charge of laboratory affairs in PH & W and will undoubtedly want to inspect as many diagnostic and productive medical laboratories as possible, as well as discussing disease control programs in general (especially in relation to the use and procurement of vaccines) with team PHO's and Japanese health authorities.

3. Correction: Meeting of officers and civilians at 1700 Thursday, 12 August is to be held at Region building, 5th floor - not at Chiyoda building.

4. Supply: It is requested that all families submit (Ehime, Kochi and Tokushima will submit direct) a certificate to Island Supply indicating the number of bed room, living room and dining room windows for which they desire curtain and drapery material. This certificate is to indicate that material so issued will be utilized only for the purpose intended. This certificate is to be signed by household heads.

5. Welfare Provision for Hand Tools in Japanese Disaster Planning: Out of the Fukui disaster has come an emphasis by occupation personnel on the need for hand tools for the rescue of persons who might be caught in fallen houses after an earthquake. Welfare officers should discuss with Japanese officials the advisability of including in their disaster plans provisions for wrecking bars, saws, axes, [illegible] possibly shovels, buckets, jacks, and ropes. Perhaps Japanese officials will also consider important a large publicity campaign, urging citizens to keep such tools outside their houses.

2. Japanese B Encephalitis: This headquarters has been informed that there are as of this date 29 cases of Japanese B Encephalitis among the Japanese in Tokyo (not all have yet been confirmed by the laboratory), with several deaths, and also an undetermined number of cases on Okinawa. It is possible that this is the severe epidemic year that was expected last year if the disease had followed previously observed cycles. Therefore it is imperative that all ground control measures for the domestic culex mosquitoes be intensified, both among the Japanese and Occupation force units. This headquarters continues its efforts to obtain sufficient quantities of insecticides. Any special insect problems suffered by a particular unit or individual may be brought to the attention of the Supply or Public Health Officer of this headquarters.

3. Legal Government: (a) Reference is to Legal Government Memorandum #1 dated 20 April, subject "Japanese Courts". At regional conference 9 August, in discussion on Judiciary following topics presented by assigned persons, each Legal Government officer will be prepared to briefly report on action taken (item 4 of Memorandum) with particular reference to action taken by local courts in correcting deficiencies. Specific instances of courts failing to carry out their own corrective plans will be reported.

(b) The following SOP from the 34 Aust Inf Bde on Trial of Chinese Nationals in Military Occupation Courts has been issued: In order to minimise delay in bringing to trial Chinese Nationals in Provost Courts, the following procedure will in future be adopted:

a. Whenever a Chinese National, or a person claiming to be a Chinese National, is arrested or charged with any offence this HQ. is to be informed forthwith by signal.

b. The signal advice is to contain the name (including any alias) and address of the person arrested or charged, brief particulars of the alleged offence, and whether accused is in custody or house arrest, and the place of his confinement.

c. Where the person charged or arrested cannot produce satisfactory credentials or other evidence as to Chinese Nationality are to forward to this HQ by letter without delay full particulars concerning the individual. Upon arrest, the individual. will be examined for identifying credentials; to be sufficient such credentials must be issed by some Department of the Chinese Government.

d. The particulars to be furnished will include the date and place of birth, nationality of parents, subject's age when he left his native land, circumstances surrounding such departure, time of his entry into Japan, and a short biography with special emphasis on the subject's activities during the recent War.

Legal Government officers will follow above procedure. This headquarters will be advised in advance of action taken. (See also GD 33 of 1948).

4. Rabies Immunizations: Reference is made to AR 40-2090, par 15, Change 3, June 1947, and Eighth Army Circular No. 97, June 1947.

The dispensary of this headquarters now has on hand a limited amount of Rabies vaccine, as well as immunization tags to be attached to vaccinated animals. All dogs, cats and other animal pets, three months of age or over, which are owned by or in the custody of organizations or individuals under military jurisdiction will receive an immunizing dose of rabies vaccine every six months in accordance with above reference. 2. New CI & E Films: The following new CI&E Films have been received by the Civil Information Section and distributed to Teams:

"MEDICAL SPECIALIST" A film for both general and specialized audiences extolling the virtures of modern medicine and medical training. While the Japanese will probably be blinded by the imposing views of large hospitals and medical schools in New York and Baltimore, still there are illustrated basic principles of disease prevention which all people should be aware of. Suggest that first emphasis be placed on showing this film to medical professional groups (Doctors' Association, Hospital Staffs, Health Center Staff, Medical Students, Nurses) and that subsequently it be shown to adult lay groups (as PTA, Women's Organizations, Government Officials, etc.) Running Time: 36 minutes.

"NEW CANADA" A short march of time film on industry and agriculture in Canada. Running Time: 10½ minutes.

"STUDYING OUR TOWN" British Picture showing school children making an interesting project out of their town by studying its history, development, government and industry. The project culminates in a graphic display attended by the public. Excellent for use by education officials as a visual aid to teachers in connection with social study work. Region CE strongly recommends preview of this film by Team CE staff. Running Time: 24 minutes.

3. Special Liquor Allotment: Records at this headquarters indicate that the following Special Purchases were made in June 48:

Tokushima Mil Govt Team	-	$ 213.30
Ehime Mil Govt Team	-	$ 59.40

4. Time Sheets: A final time sheet will be prepared by units losing DAC's which will account for the DAC's time as of his departure and will accompany him to CCP, Headquarters Eighth Army.

5. Japanese Beer and Cooperage Prices: The following price changes of Japanese beer and cooperage are effective on 26 July 1948: (Ref Ltr Hq 8A Gen Exchange dtd 12 Jul 48)

	New Price
a. Japanese Beer	
(1) Coupon for 25 cases of Beer, 24 bottles to case (without cooperage)	$60.00
(2) Coupon for 1 case of Beer, 24 bottles (without cooperage)	2.40
(3) Japanese Beer, per bottle	.10
(4) Draft Beer, per litor (without cooperage)	.14
b. Cooperage Deposit	
(1) Coupon for 5 cases of cooperage (120 btls @ .10 ea, 5 cases @ .10 ea)	12.50
(2) Coupon for 1 case of cooperage (24 btls @ .10 ea., 1 case @ .10 ea)	2.50
(3) Keg for Draft Beer	3.00

Coupons for cooperage issued prior to 26 July 48 will be redeemed on the basis of the old deposit price. Coupons for cooperage issued after 26 Jul 48 will be identified and the amount deposited will be indicated on all coupons. In view of the critical shortage of bottles and cases at the breweries, all cooperage must be returned to them as promptly as possible.

2. Civil Education: (1) Attention of CE officers is drawn to Hatsugaku No. 59, Ministry of Education, 6 June 1948, subject: "On Teachers' Educational Activities, Raising Teachers' Culture, and Teachers' Attitudes". This document has been forwarded through channels and is an important statement. CE officers should point out its importance and current pertinence--particularly paragraphs 3, 4, and 5--to all educational officials and to as many other educators as possible.

(2) It has come to the attention of this headquarters that some of the PTA pamphlets recently distributed to teams for further distribution through Japanese channels have been turned over to the Teachers Union by prefectural educational officials. Except for informational purposes, this practice should be stopped. Printing and allocation of pamphlets were made on the basis of schools on Shikoku and there are insufficient copies for double distribution. Even if there were sufficient copies they would not, for obvious reasons, be channeled through Teachers Unions or through any other agency which has no administrative right to meddle with school affairs. In sum, this practice violates one of the most important principles of setting up such organizations. PTA's should, as far as possible, set themselves up with outside guidance and assistance only.

(3) There will be a CE officers' conference in Takamatsu on 16-17 August. To date, information on a regional officers' conference to be held in Yokohama on 9-10 August is unofficial. As soon as definite official confirmation is received at this headquarters a letter outlining the program of the Shikoku conference will be forwarded to teams. The main subject of both conferences will be the new Board of Education Law recently passed by the Diet. Other subjects will center mainly around priority planning for this period and the October-December period.

3. Procurement: There will be a water interuption in the city of Takamatsu on the 22nd of July from 1200 to 1600. Request all personnel concerned reserve a supply of water.

7. Welfare-Helen Keller's Visit: Stars and Stripes for 16 July has an article about the Helen Keller Campaign Committee organized in connection with her proposed visit to Japan about 31st August. Welfare officers may have an opportunity to help prefectural officials plan concrete actions to that end.

5. Welfare: Conference of Shikoku Welfare Department Chiefs: The Chiefs of the Welfare Departments held a conference in Takamatsu 13 and 14 July. The Chiefs of the child welfare sections also attended and Kagawa had a number of its staff listening in. About six such conferences with rotating locations, are to be held each year in the future. Many subjects were discussed in the general session, the first day. Distribution of minutes is planned. There was comparatively lengthy discussion about the community chest, during which the statement in Weekly Bulletin #77 was presented, and will apparently be widely distributed. It was suggested that they clearly work out the government role. The second day was devoted to child welfare. Each prefecture had prepared some questions for distribution. The regional welfare officer suggested consideration of a foster-care program for children, explaining the trend in the United States, which is

based on the principle that home life is a basic value that should be made available whenever possible. The importance of material and child handbooks, which only two prefectures reported issuing so far, was emphasized. Purchase of recent books on child welfare written by Ministry Officials was encouraged, and it was reported that very few have been acquired so far because they cost ¥400. Effort in the care and education of handicapped children, for which there is responsibility under education and health laws, was suggested in connection with discussion of possible functions of child welfare workers.

2. Legal & Government: (a) Reports from various teams indicate that the use of the recall provisions of the Local Autonomy Law is being widely exercised without real cause. The recall is but a last resort to remove inefficient or corrupt officials. Democracy is rule by majority, with the minority ever vigilant to protect their rights but still abiding by the rule of the majority. The success of recall movements is largely due to the innate characteristics of the Japanese people who, not wishing to make offense by refusal, will sign or tacitly agree to a proposal without understanding its full implications. Attention is called to an editorial entitled "The abuse of Petitions" which appeared in the Nippon Times for 28 June. It is suggested that the whole, or at least the pertinent passages, spread dissemination .

(b) It is anticipated a Regional Legal & Government meeting will be held early in August. One of the topics for discussion will be Legislative Assemblies. Legal & Government officers will assist in the preparation of this discussion by submitting on time the special report called for by Legal & Government Memorandum Number 3 of 20 June 1948. (Report due not later than 1 August).

3. Supply: 1. All dependent families who have servants billeted in their quarters may now request the following for issue on a "per servant billeted in dependent home" basis:

Cot, folding, stool	ea 1
Mattress, cotton	ea 1

2. Servants are required to furnish their own pillows, blankets and sheets etc.

3. ~~Requests may be made~~ in writing to Island Supply on or before the 2nd Tuesday of each month.

4. Economics: Following is the program which is being carried out by the ESB in order to stimulate and aid the current Inventory of critical materials. All Team Economic Officers are reminded that this is entirely a Japanese publicity program, but it can be very effective if it is carried out and the necessary support given by M.G.

a. June (Publicity Period).

1. 21 June - Meeting of officials concerned in ESB.
2. 22 June - Meeting of officials of C&I Section of all four prefectures to discuss their publicity plans.
3. 25 June - Establishment of Inquiry Office at Takamatsu for Inventory of Critical Materials.
4. Organization of "Guidance Teams"(Three teams) comprising ESB and C&I personnel.
5. Organization of "Spot check Teams" (Two in each prefecture) comprising ESB personnel.
6. 29 June - Meeting of council for Inventory of Critical Materials.

b. July (Spot check intensification Period)

1. Distribution of leaflets, posters, etc. (See note * at end)
2. Spot checks by the "SPOT CHECK TEAMS".
3. Field Trip by "Guidance Team".
4. Organization of "INVESTIGATION TEAM" in each prefecture.
5. "CRITICAL MATERIALS INVENTORY WEEK"
   10 July - 20 July.
   a. "Advertising Tower" at place where prefectural government is located.
   b. Lecture meeting at place where ESB is located.
   c. Publicity in movie houses.
6. Report ESB activity of each investigation Team.

* NOTE:
To Explain:
(1) Purpose of the inventory.
(2) Economic effect of the inventory upon reconstruction of economy.
(3) Punishment of violation.
(4) Deadline for inventory.

It has been advised that a Bill was passed in the Diet on 5 July for the purpose of forming an Economic Investigation Board in each prefecture. It is expected that these Boards will be operating from 1 August 1948 and should prove of assistance to MG Teams in the critical materials program.

2. Civil Information & Public Health Officers: A new film, "PALE HORSEMAN" has been received from CI&E SCAP, running time, 13½ minutes. One print has been distributed to each team. The picture shows the horrors of the immediate post war period in ravaged lands and the effects and sources of such diseases as Cholera, Dysentery and Typhus are briefly shown. Also depicted are the efforts of the American Army and UNRRA in the control of these diseases and the rehabilitation of the people. Comment of the Region Public Health Officer is, "Will probably not be very useful in education of the people in their present day disease control programs."

3. Civil Education: Attention of CE officers is drawn to letter, this headquarters, AG 000.7, 6 July 48, subject: "Information Plan for Local Autonomy Law". CE officers should immediately contact CI officers so as to plan procedures, techniques, time schedules, etc to implement this program. The contest referred to should commence in September coincident with the return to school of secondary school students.

CE officers have not responded to article in Daily Bulletin No. 36, 24 May 48, para 3, in which it was said that the certain pamphlets were available in limited quantity. It is repeated, however, that Eighth Army has informed this headquarters that there is no more of this material available and that great care should be taken with such material in the future because duplicate copies cannot be made. It is requested that if CE officers already have the above material they do not ask for additional copies.

The new Civil Education Eighth Army Priority List has two or three significant changes for this period. Particular attention is drawn to 3rd Priority, Item No.2, which calls for help in planning and conducting a school lunch program. CE officers should do some preliminary work before the school vacation starts. This headquarters is beginning to get foundational facts so as to assist teams in this program. After these facts are gathered and collated, spot checks will be made in conjunction with the field trips of the CE officer, this headquarters.

4. Mail Pickup Hours: Personal mail will be obtained from Shikoku MG Region Hq & Hq Mail room at the following times only:

2. Rest Hotels: Quota for four officers (Hakuunro Hotel in Kanazawa, and Aso Kanko in Kyushu) and four enlisted men (Yumei Hotel and Unzen Kanko, both in Kyushu) is available during July. Requests for reservations thereat should be made to the Adjutant of this Headquarters (Ref: Cir No. 49, Hq 8A, 47).

3. Organization Day: This year, 1948, "Organization Day" will be observed on 4 July by all units as provided for in par 7, AR 345-105.

4. Supply Reports: In the future all teams will use requisition numbers on Property Issue Slips and on Property Turn-In Slips. This number will be placed in the space marked "Issue Slip Number" on PIS and in the space marked "Turn-In Slip Number" on PTS. In no case will teams use the space marked Voucher number. This box is for use of Island Supply. It has been noticed that some officers have not been dating their PIS and PTI Slips. In the future all slips will be dated as to when the issue slip or PIT was made and as to when the items were received or turned in.

5. Civil Information Films: A new educational motion picture "Children's Supervised Play," has been received by CI Section and has been sent to all teams. This is a 14 minute movie showing children learning by playing and by doing. Illustrates progressive education in the US. It should be of great value to educators. To welfare institutions it is suggestive of many constructive ways of occupying children that could be put to use immediately, with facilities already available, or easily obtainable. If it is to have any practical effect, it will probably need to be shown more than once or stopped frequently to allow taking notes or for discussion. So many activities are packed into the movie, that each one lasts only a few seconds and many would otherwise certainly be missed. This is a movie that provides immediately useful material and should be used as such. Perhaps discussion after the movie of activities shown, that members of the audience plan to use, will increase its effectiveness.

6. U.S. Library Books: All persons having books belonging to the US Library in the Kagawa Team Building, return same as soon as possible. Dependents having books at their houses call Sgt Dieter, 4101, for pick up. These books will be returned to First Corps for reissue. New books will be issued to this Unit.

7. Legal & Government Section:

a. Information was requested by one team concerning securities impounded by USAFIK for which receipts are held by Japanese repatriates. For the information of other teams for whom the same question may be posed, higher headquarters' reply is subtended:

"1. At present, there exists no established procedure for the return of documents requested in basic communication.

"2. Inquiry is being directed to the Commanding General, United States Army Forces in Korea for investigation and recommendations relative to return of securities, Japanese War Bonds and other financial instruments. At such time as a policy is established, General Headquarters, Supreme Commander for the Allied Powers, will institute necessary procedures for restitution to the rightful owners."

b. Attention is invited to SCAPIN 5721-A, authorizing the hoisting of the Japanese National Flag during Safety Campaign Week, from 1 July thru 7 July 48.

c. Bomb disposal in the BCOF Zone is now the responsibility of 17 CRE, under the control of Chief Engineer, Hq, BCOF. In the event of MG Teams discovering materials for disposal the following procedure will be adhered to:

(1) Take steps to have the material roped off and adequately guarded to prevent any unauthorized persons from tampering.

(2) Report by quickest means direct to Hq, BCOF, with copy to relevant formation Hq the description, quantity, location and date of discovery.

8. Medical Department Reports: A number of minor mechanical errors have been noted in the medical department reports submitted by teams during the past two months. At the last conference of team Public Health Officers, a list of required reports and pertinent data regarding their prepration was given to each officer. Referral to this list would prevent most or all of the rrors which have been occurring.
