b. Staff in public welfare institutions - 75 persons

c. In welfare sections and Minsei Jimusho's of the city's ten ward offices -129 persons

Total -263 persons

(of the 263 persons, 138 are employed in the Welfare Bureau and ward set-up.)

4. Each welfare section of the ward offices has at least one Minsei Jimusho located in its ward office building. Five of the ten ward welfare offices have less than 500 cases. The smallest case load is 390 in the Isogo Ward area. Charts of organization, staffing, and case loads for each of the ten ward offices and their 17 respective Minsei Jimusho's will be submitted to Civil Affairs within the next two weeks.

5. Mr. Oshita's (chief of Welfare Bureau) personal opinion regarding Hatsu Sha #72:

a. The intent of the instruction is very good and actually would like to set his goal to have the public welfare programs eventually function without the Minsei-iin. The problems as he sees them regarding successful implementation of Hatsu Sha #72 are:

(1) Lack of personnel.

(2) Training of staff.

(3) Establishment of case handling business procedures which are logical, less complicated and scientific.

b. He agreed that the simplification of organization and structure could be added to above.

c. Recently Mr. Oshita requested of the mayor an increase of 30 staff members to function as case workers and is assured that part of this increase will be secured.

6. Subsequent to Welfare Officer's presentation on the various aspects of Yokohama City's welfare administration which needed study in order to bring about an effective and economical administrative setup, the following problems were raised by the Welfare Bureau:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

d. He handles about five deceased wayfarer's cases a month and about eight wayfarer's cases who need hospitalization. There were 128 such cases in 1949-50. Seals required for approval in these cases are: Hosokawa, Mitsumori, Section Chief, and Ward Chief.

e. Assists other persons in the section as may be required.

3. The Ward Chief reported that Mr. Hosokawa is famous among the vagrants because of his kind treatment of them. Often vagrants who are ill will come somehow to Naka Ward so they can be taken care of by Mr. Hosokawa.

6. Organization and Staff:

a. The public welfare programs for Naka Ward area are administered in the Welfare Subsection of the ward office's Citizen's Section (see inclosure 1 for organizational chart of the ward office.) Under the Welfare Subsection there are two welfare offices (Minsei Jimusho), both of which are located in the ward office building.

b. The Welfare Subsection staff and the staff of the Minsei Jimusho are all involved in case handling. There is no clear delineation of function and actual responsibility for individual case handling within the office; their work is primarily that of clerical recording. The one full-time case worker does investigations for both Minsei Jimusho's and follow-up on cases in accordance with her desire. Although Hatsu Sha #72 was applied here in 1 December 1949, appropriate reorganization to implement this instruction was not done. In addition to the full-time case worker, seven other staff persons do home investigations and office interviewing. These persons are as follows---

Mr. Nakane	- Yamate Welfare Office
Mr. Iwazaki	- " " "
Miss Hirasawa	- Welfare Subsec. (special case worker)
Mr. Hirai	- Investigator - Yamato Ward Office
Mr. Nogura	- Isezaki Kaga Ward Office
Mr. Hosokawa	- Welfare Subsection
Mr. Okada	- " "
Mr. Yanouchi	- " "

c. For the organizational chart of the Welfare Subsection and personnel assignments, see inclosure 2. Inclosure 3 lists the education, salary, etc., of each staff member.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

7. Minsei-iin: There are 87 Minsei-iin in this ward organized into eight district Minsei-iin councils. Each council has from seven to 13 Minsei-iin. The standing Minsei-iin meet once a month in the ward office and the eight district councils hold separate monthly meetings, either in the home of Minsei-iin or in public buildings. When the district council chairman decides on a place and date to meet, he notifies the chief of the Citizen's Section. The personnel of the Welfare Subsection or Minsei-iin Jimusho then proceed to notify each of the concerned Minsei-iin. This is done by sending them a written notice which is delivered by the appropriate branch's Renraku-iin. (These latter persons are generally retired or old person who receive 100 yen a month for the delivery of such notices.)

8. The geographical boundaries of the two Minsei Jimusho are in accordance with the ward's police station boundaries. The Yamate Jimusho covers the Yamate police station area and the Isezaki Kaga Minsei Jimusho covers the area of the two police stations therein.

9. Chief of Citizen's Section, Mr. Obata (assumed this post six months ago), reported that he.

a. Spends 80 % of his time in Welfare Subsection matters and 20 % in the Economics Subsection matters.

b. Is responsible for supervising the whole staff.

c. Attends the following types of meetings and conferences;

(1) In-service training courses sponsored by City Welfare Bureau.

(2) Section Chief's meetings of whole city once a month.

(3) Section chiefs of Naka Ward Office meetings every Monday.

(4) Citizen's Section meeting each Friday with sub-section chiefs.

(5) All Minsei-iin standing committee meetings for Ward - held on 20th of each month.

(6) Two or three district Minsei-iin council meetings a month. He tries to attend all eight of these but cannot. When unable to go, Welfare Subsection personnel attend.

d. Reviews all outgoing documents and places his seal thereon.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

e. After completing above she finished the investigation and proceeded to fill out the various forms and her written justification in order to turn over papers to the "desk workers".

f. Forms on case filled out by Miss Hirosawa, case worker and social investigator;

(1) The application form dated 17 January 1950 was filled out in the office after her initial home visit to the family. The applicant was then told to come to the office and her seal was secured. (It was not possible to determine whether the date 17 January 1950 was predated or the date on which the applicant actually came to the office). (see inclosure 4 - annex 1).

(2) After she completed all of the social investigation she completed the following;

(a) The report for investigation of family (annex 2).

(b) Attached thereto was the written oath from the relatives (annex 3).

(c) She then wrote up the opinion sheet (annex 4).

(d) Attached also was the written statement on Hiroshi from his past employer (annex 5). She had secured this when she visited the employer.

(e) Attached also was the doctor's certificate on Mrs. Toyo's daughter dated 11 January 1950. Miss Hirosawa had secured this statement from the Minsei-iin when she visited him. The applicant had "somehow" recured this and left it with the Minsei-iin (see annex 6).

g. Miss Hirosawa then routed all the above forms and data to Mr. Nakane, who completed the income and expense sheet (annex 7). Miss Hirosawa had given her rough notes to Mr. Nakane on the family's statement of needs and then Nakane included this on the income and expense form. Nakane filled this out on 1 April 1950.

h. From this point on Miss Hirosawa has no responsibility for the case unless the family would ask her to change their attorney to the Minsei-iin who is also an attorney.

i. Mr. Nakane then filled out the following form which were later attached to Miss Hirosawa's data;

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

(1) Determination on public assistance dated 10 February 1950 (see annex 8) and application for any other aid dated as of 17 January 1950 (annex 9). After completing these he placed his seal on them and they were routed in the following order for the seals of those listed below -

(a) Mr. Hirai

(b) Mr. Okada

(c) Mr. Hosokawa

(d) Mr. Mitsumori

(e) Mr. Obata

(f) Ward Chief

(2) The dates these various seals were placed on the case is not known as this is not required.

(3) Also secured on the determination of public aid form are the seals of the chief Minsei-iin and vice chief Minsei-iin of the district Minsei-iin council.

(4) Only the vice chief Minsei-iin Seal of the district Minsei-iin council was on the "application for any other aid." Dates on which those seals were secured is not indicated.

j. Mr. Nakane completed the data in the "payment record book" - each ~~each~~ case listed on separate sheet and filed in books according to Minsei-iin district councils.

k. The grant of 2,740 yen was effective as of February 1950.

l. On checking with the Accounts Section the first grant was issued on 27 February for months of February and second grant of 2,740 was issued for March on 15 March. In the Accounts Section it was noted that a separate sheet about five by ten inches in size is used for each caseeach month. The clients seal appears in three places. One place near grant amount and two places in top of form "in case an error was made and correction is later necessary."

m. When Mr. Nakane was questioned why the grant was issued 17 days after the approval, he said the notice to the family was mailed on 20 February and family came in later for it.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

n. Clients are notified their case is approved by sending them the determination of aid form (annex 10). When date of grant is determined a notification card is mailed to the family (annex 11) and a form on which each month's grant is written when the client calls for the grant (annex 12). Nakane fills out all these forms.

o. On the date the client calls for the grant he first comes the the Welfare Office in order for Mr. Nakane to place his, (the client's) seal on the welfare payment record - this is done to identify seal. The client then goes to the Accounts Section for his grant where his seal is secured on the accounts record.

11. Miss Hirosawe reported that she takes orders from the Minsei Jimusho chiefs but admitted there was no clear line of authority in regard to her position. As her present job has been considered experimental since her appointment in August 1949. Her salary is paid by ward office but often she receives extra allowances for transportation costs from the welfare bureau of the city.

12. None of Miss Hirosawa's follow-up visits were recorded on the case. She keeps a diary which reveals generally what she did on certain dates.

13. Mr. Nakane also keeps the Hogo Daicho. This is filed separately and filled out from application and investigation forms Dates on changes in the family situation are noted thereon. On the case of Toyo, it was noted the daughter died - date not indicated. But Nakane recalled that the Minsei-iin gave him this on 3 or 4 April. The daughter he recalled died on 29 March. The mother also came in to tell him this when she requested funeral aid which was issued. Funeral data is in another file. The budget of the case was revised in April to 1,660 yen per month.

by written form. Ineligibles would be informed in writing of their ineligibility except that they are eliminated at initial interview. The "Home Visit Clerk" always discusses cases with M.I. because the M.I. knows "all about all families".

Records kept at the M.I. Jimusho appeared to be in good order but showed only a minimum of information pertaining to each case. Income is estimated only. A great deal of time is spent by the office clerks in the matter of home work. Representatives of the Jusan Kyokai distribute and collect the work and pay the workers from a fund appropriated by the City.

The officials at this office feel that ~~the~~ even with the additional clerks, the continuation of the M.I. system is essential. The paid clerks under the special system are paid ¥5500 or ¥6500 net per month.

KANTO CIVIL AFFAIRS REGION
APO 500

EKC/an

YC 29 Dec 49

29 December 1949

1. E. K. Callow, N. Koyama and F. Sugi.
Conference from 1045 to 1210, 27 December 1949 at Yokohama City Welfare Bureau.

2. Attendants were Messrs. Oshita, Welfare Bureau Chief and Mr. Murase, Protection Section Chief.

3. The purpose of the conference was initial visit.

4. Yokohama City is the largest city in Kanagawa Ken with a population of 920,000. It is the city in which the Kencho is located. It has the largest port in Japan and many industries, including shipbuilding.

The Mayor is Mr. Kyoichi Ishikawa and the Deputy Mayor is Mr. C. Fugino. The local government consists of 10 Bureaus as follows: General Affairs, Finance, Welfare, Economics, Health, Waterworks, Transportation, Engineering, Police and Fire Brigade. On a slightly lower level are two departments, Construction Department and the Temporary Civilization and Education Department. Then slightly lower than the Dept. level is what is known as the Planning and Investigation Room.

The Welfare Bureau is composed of three sections - Welfare, Protection and Vocational. There are 8 subordinate divisions. The Bureau employees a total of 140 persons, 65 inside and 85 in institutions.

There are 10 wards in the city which are considered subordinate offices. The chiefs are appointed by the Mayor and the wards do not practise local autonomy.

The city operates the following institutions: 3 Old Folks Homes, 3 Boshi Ryo, 1 Orphanage, 2 Day Nurseries, 5 Adult Vagrants' Dormitories, 1 Street Girls' Dormitory, 4 Public Pawn Shops and 11 Workshops. The workshops are under direct operation of the Welfare Bureau, but the supply of work is handled through the Jusanjo Kyokai, the president of which is the Mayor. The offices of the Jusanjo Kyokai are in the Vocational Section of the Welfare Bureau and the section employees do all the work.

At present the outdoor public assistance recipients number 4,400 families or 13,000 persons. There are 800 Minsei-iin (10% women) in the city. In addition to the Municipal and Ward Welfare Offices there are 17 Minsei-iin Jimusho. The city does not operate

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

any children's centers nor employ any child welfare workers.

The unemployment problem is said to be the responsibility of the Prefecture but the city has assisted by supplying jobs for about 600 persons each day in the repairing of roads and river banks, Primary School grounds and collection of garbage. It is expected that this number may be increased to 1,300 during the coming month. All expenses of this relief work are paid by the City Government except 2/3 of the labor which is subsidized by the National Government. At present there are 25,000 to 30,000 applications recorded at the PESO. About 10,809 of these applicants are known to be day laborers. Actually only between 4,000 and 5,000 persons call at the PESO each day. Others are said to be existing by blackmarketing, Unemployment Insurance or other means. These figures include all men and women.

The vagrant problem is one which has given the Welfare Officials considerable trouble. The main problem is to create a preference in the minds of the people for institution living rather than loitering on the streets. It is said that while there is room for 2,983 in adult institutions, the present population is only 2,708.

The city Welfare Bureau Office acts as liaison ~~section~~ between the Prefecture Welfare Dept. and the Ward Welfare Offices and renders guidance and supervision. The Ward Chiefs approve all public assistance applications. No individual applications or case records are filed in the city welfare offices, but they do keep general public assistance statistics.

5. One problem was presented - that of the group demands made by Koreans, especially in the Tsurumi Area. Koreans have been given day work and have been found to be receiving public assistance under false names. It was stated also that M. I. were being forced to affix their seals to certain documents.

6. Welfare Officer was asked for advice in coping with the aforementioned problem. Advice was given to the effect that the Koreans are entitled to every possible consideration as individuals in the matter of public assistance, but not as a group. Welfare Officer further advised that M. I. should not place themselves in the position of being coerced into affixing their seals to any improper documents and if actual cases were known it was felt that this was justification for the withdrawal of the M. I. appointment.
