SUBJECT: Application for Permit to Transfer Materials from Okubo Factory to its Branch Plants -- Kamikyo Plant and Sonobe Plant

Referring to the above subject, you will find attached three copies:

No. 1 - List of materials which Kamikyo Plant would like to have

No. 2 - List of materials which Sonobe Plant would like to have

No. 3 - List of materials which Okubo Plant would like to keep.

We would like to have a permission from you to distribute our materials which we have at our Okubo Plant to two of our branch plants which were given permission on Nov. 16, 1945 to convert their factories into plants manufacturing essential consumers' commodities.

We would be grateful if you will grant us the permission to do so.

Very truly yours,

Takanobu Sawai

Re Removal of Reparation Machinery

Nikkoku Kogyo Kabushiki Kaisha, Kamikyo Plant has applied for the permit to move an air compressor, 10H.P., which is now included in reparation objects, to Kyoto Plant.

Kamikyo Plant is now manufacturing the foot-lockers ordered by 35 Infantry Division, but is afraid of not being able to finish the ordered quantity by the appointed time. And so the factory is planning to move the air compressor to Kyoto Plant and manufacture the foot-lockers in co-operation with Kyoto Plant.

Such being the case, please give the removal permit to the factory.

Chief of the 2nd Section of
Commerce & Industry.

Dear Sirs;

We hereby beg for your approval for bringing back to the plant those machines which were previously dispersed. The reason for asking is to have them near on hand so as to keep our close-eyes on them. Please note that they are listed on the separate sheet.

Your kind attention to the matter above will fully be appreciated by us.

Very respectfully yours,

Subject: Presentation of the Inventory of Machinery and Equipment

To : Major Harold C. Sheffield, Commanding officer 103rd Military Goverment

In reference to your requirement the other day, we beg to present herewith the inventories of machines and equipment designated as the reparation objects.

The inventory revised is corrected through the recent investigation, by deletion of the items lent from the Army, revision of mistakes and addition of the present conditions - damage, defects and usage.

The additional inventory shows the machines recently found to be reparation objects and the recent conditions of the Plant.
