

Download to Offline Library for browsing without internet

User story: (Sandeep)

As a user with limited internet connectivity except free wifi on campus, I want to continue to browse Wikipedia even when I'm offline.

Core interaction flow

Note: Flow begins after the user was made aware of this feature by marketing/outreach, potentially a banner on the Wikipedia site based on geographic location.

1. Open the app onto the feed screen to see a card promoting the Offline Library.
2. Tap to see onboarding flow introducing this feature *[First time only]*
3. Browse list of article packs available
4. Tap on a list-item to view more details
5. Tap to invoke download
6. Confirmation after download is complete
7. User goes offline
8. Messaging advising that the Offline Library is now being used
9. Browse for an article and navigate to read that article...
10. Try to read an article from history/feed that is not part of the Offline Library and see offline messaging.

Search Wikipedia

Introducing Offline Library – downloading article packs now for offline reading later.

NO THANKS

FIND OUT MORE

Explore

Build your Offline Library

Download Wikipedia article packs now for data-free access later.

SKIP

Uninterrupted reading

Keep on reading and searching for articles within your Offline Library when you don't have access to internet.

SKIP

Store more knowledge

Download as much Wikipedia as your device can handle. Offline Library can also access article packs on external storage.
