# INTRODUCTION TO WIKIDATA

<https://commons.wikimedia.org/wiki/File:JimmyWalesJI5.jpg>

Imagine a world in which every single person on the planet is given free access to the sum of all human knowledge. That's what we're doing

-- Jimmy Wales  
([https://en.wikiquote.org/wiki/Jimmy\\_Wales#Quotes](https://en.wikiquote.org/wiki/Jimmy_Wales#Quotes))

# Data

Collection of Information  
a set of values of subjects

# UNSTRUCTURED DATA

- Text -> Article, Poem, Script, Storyboard
- Images
- Audio,
- Video
- Smell, Taste

# STRUCTURED DATA

- List
- Table
- Comma Separated Values
- Database
- Linked Data

**STRUCTURED DATA**

# TWO KEY PROBLEMS

1. Dated data; lacking triggers; repetitive work
  2. Inflexible ways of lateral queries of knowledge (Categories and their limitations)
- 
- A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.

## TWO KEY PROBLEMS

---

# One solution

An editable central storage for **structured and linked data**, on a wiki, under a free license.

(AKA **Wikidata**)

A series of several parallel white lines of varying lengths and orientations, starting from the right edge and extending towards the center of the slide, creating a dynamic, abstract graphic element.

In short:

**Wikidata is <3**

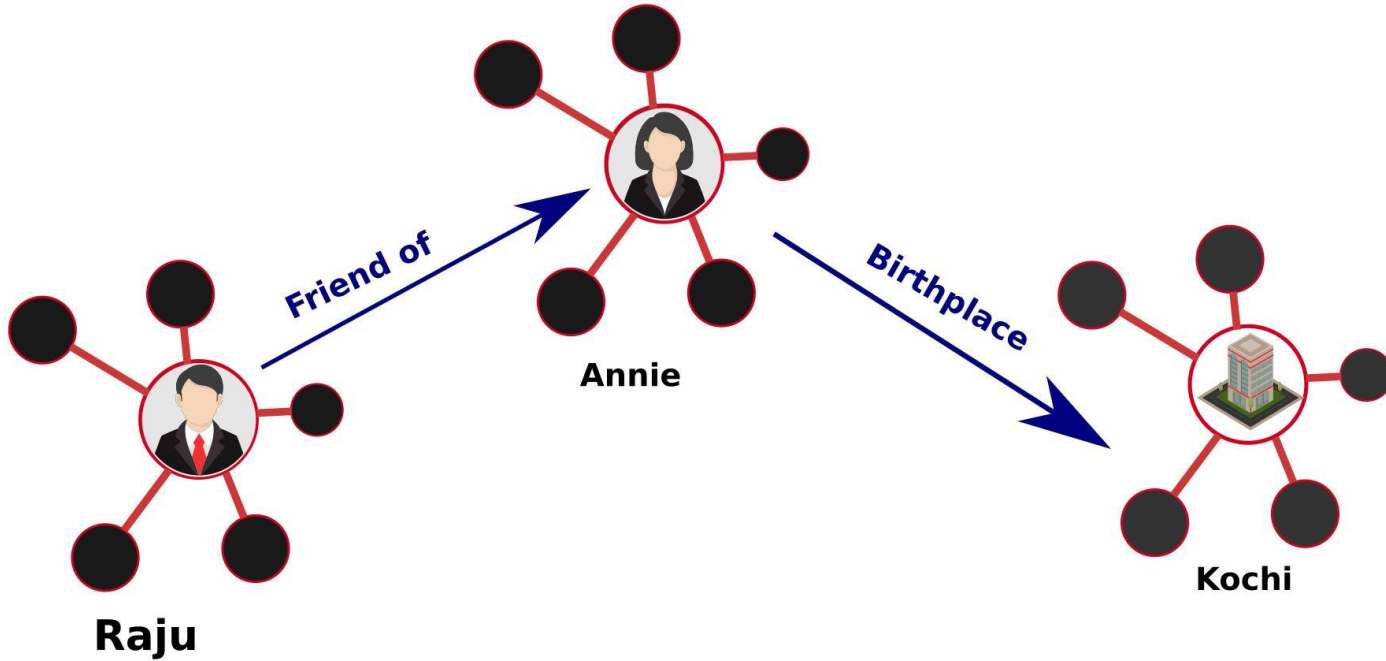

# Linked Data

One Data point is connected to another data through a condition

# LINKED DATA

Linking Open Data cloud diagram <http://lod-cloud.net/>

**WIKIDATA**

[www.wikidata.org](http://www.wikidata.org)

# WHAT IS WIKIDATA?

- Editable
- Structured and Linked Data Warehouse
- Available with Free License (CC0)

# WHAT IS WIKIDATA?

- Pure Free Software, Pure free data (CC0) - Do whatever you want. No Questions asked
- Open and editable by anyone, including the ontology
- A sister project of Wikipedia, by Wikimedia
- Multilingual support from the first day
- More and more practically used in digital humanities

# STRUCTURED AND LINKED DATA

- Structured data: Each unit of information is described by three: **subject, predicate, and object** or as Wikidata says: **item, property, value**.
  - Each three can be further specified with restrictions - for other three (time period, context, source, point of view ...)
- Data statements link to each other, enabling discovery and reasoning.

# A BRIEF INSIGHT

- Universe (Q1)
- Ghana(Q668)
- Accra(Q1006240)
- and / instance of(P31) <- Property

# ITEM: EARTH (Q2)

Clickable Link  
Connect to another  
Item

## Statements

<p>instance of</p> <p><b>Property</b></p>	<p>inner planet ...</p> <p>▼ 0 references</p>	<p> edit</p> <p>+ add reference</p> <p>+ add value</p>
<p>part of</p>	<p>Earth-Moon system ...</p> <p>▼ 0 references</p>	<p> edit</p> <p>+ add reference</p>

**Value**

The diagram shows two red labels: 'Property' and 'Value'. 'Property' has arrows pointing to 'instance of' and 'part of'. 'Value' has arrows pointing to 'inner planet ...' and 'Earth-Moon system ...'. A yellow callout box with the text 'Clickable Link Connect to another Item' has an arrow pointing to the 'inner planet ...' text.

# IMAGE OF EARTH

edit

# STRUCTURE OF WIKIDATA

We have a Q (item)

Q have a property P

P have a value Another Q

This is called a Statement

Statement = Item --> Property --> Value

A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.

**STATEMENT = ITEM --> PROPERTY --> VALUE**

**Earth --> highest-point --> Mount Everest**

**Mount Everest --> elevation above sea level --> 8848 meters**

**Earth --> deepest point --> Challenger Deep**

**Challenger Deep --> elevation above sea level --> -10,994±1 metre**

A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, located in the lower right quadrant of the slide.

**Earth -->**

**highest-point: Mount Everest**

**deepest point: Challenger Deep**

**Challenger Deep -->**

**elevation above sea level: -10,994±1 metre**

**Mount Everest -->**

**elevation above sea level: 8848 meters**

**Earth (Q2) --> highest-point (P610) --> Mount Everest (Q513)**

**Mount Everest (Q513) --> elevation above sea level (P2044) -->  
8848 meters**

**Earth (Q2) --> deepest point (P1589) --> Challenger Deep  
(Q459173)**

**Challenger Deep (Q459173) --> elevation above sea level  
(P2044) --> -10,994±1 metre**

# ONLY NUMBERS NOW.

Q2 --> P610 --> Q513

Q513 --> P2044 --> 8848 meters

Q2 --> P1589 --> Q459173

Q459173 --> P2044 --> -10,994±1 meters

A decorative graphic consisting of several parallel white lines of varying lengths and orientations, located in the bottom right corner of the slide.

# WHY NUMBERS?

Labels are ambiguous:

What is London?

City in England, City in Canada,

family name,

personal name, movie company, hotel?

# Why Numbers ?

Language-neutral - not everybody speaks English!

Robot-friendly (robots love numbers ;)

# SO WHAT IS IN WIKIDATA ?

Universe (Q1)

Pencil (Q14674)

Happy Birthday to You  
(Q167545)

global warming (Q7942)

Palakkad (Q1006240)

God (Q190)

parish church (Q317557)

ice cream (Q13233)

friendship (Q491)

**Everything in the Universe or Beyond**

# EDIT WIKIDATA

**Create an account**

**Login**

**Find an Item**

**Add Data**

LET'S TEACH WIKIDATA

SOME THINGS!

CONTRIBUTING TO WIKIDATA ON YOUR  
COMMUTE!

# THE WIKIDATA GAME

Semi-automates micro-decisions and make incremental improvement of Wikidata super-fun.

<https://tools.wmflabs.org/wikidata-game>

<https://tools.wmflabs.org/wikidata-game/distributed>

# MIX AND MATCH

- Match Wikidata entities to external databases' entities

<https://tools.wmflabs.org/mix-n-match/>

[https://tools.wmflabs.org/mix-n-match/?mode=sit  
estats&catalog=92\\_](https://tools.wmflabs.org/mix-n-match/?mode=sit<br/>estats&catalog=92_) (coverage of members of the  
Royal Society)

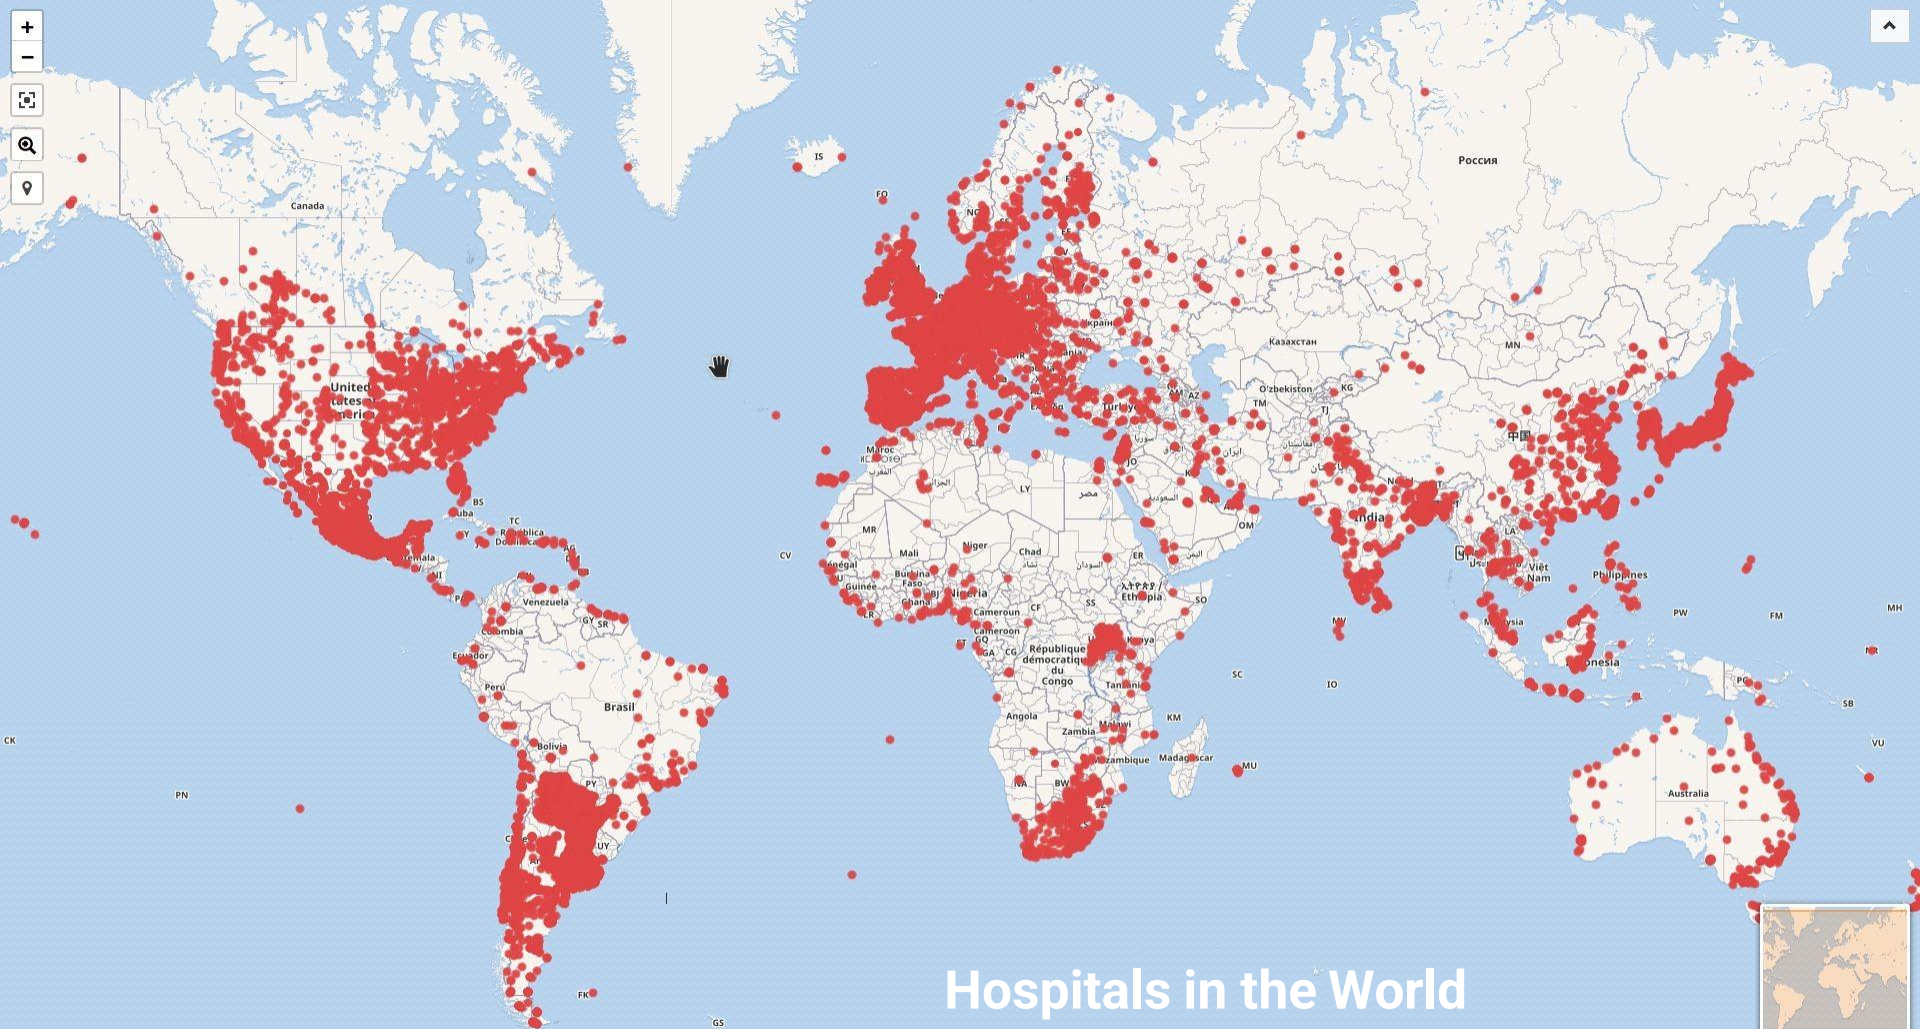

# WIKIDATA ON TOOLHUB

# QUERYING WIKIDATA

- \* query Wikidata using `[[SPARQL]]`
  - \* Wikidata will tell you everything it knows, but no more
  - \* The more data and the more links in Wikidata, the more useful it becomes (so contribute!)
- 
- A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.
