FERNDALE NURSERY

ASKOV, MINNESOTA

LUDVIG MOSBÆK

Hardy Ferns
Wild and Perennial Flowers
Evergreens

Rock Garden Plants

Based on past experience I feel justified in cordially inviting Home-makers to give us a trial order.

What a man thinks of his home is in the first place revealed by his selection of the community in which he establishes his permanent home, and next by the frame he creates in planting trees and flowers to preserve health and happiness. It makes for contentment and self-respect, without which one is poor indeed.

—LUDVIG MOSBAEK.

INVITATION

We extend to all a cordial invitation to pay us a visit during the Summer months. We are located 100 miles north of the Twin Cities, 9 miles off Highway No. 1. For further details as to road and distance see illustration on the back page. It will be our pleasure to have you call on us. We know you will be delighted, and feel well repaid for the time spent with us. You are welcome whether you buy anything from us or not.

GUARANTEES

We guarantee all stock furnished by us to be first class and true to name.

However, there are so many causes for failure beyond our control, that we can assume no responsibility after stock is delivered. Poor soil, unfavorable weather conditions, ignorant or careless culture all contribute to failure and are beyond our control.

Complaints will be entertained only when made immediately after arrival and will then have our careful consideration.

RISK

All goods travel by purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition. Claims for damage in transit must be filed with the forwarding agency on arrival.

PRICES

We have cut prices to the bone—in many instances up to 50 per cent. Labor is about half of what we paid a few years ago. We hope to raise both labor and prices next year. Now is your chance to get first class plants at a low price. *Our quality is as good as before.*

The Home Garden Handbooks

PRICES POSTPAID

Rock Gardens by Rockwell, illustrated, \$1.00.

Evergreens for the small place. Rockwell, illustrated, \$1.00.

Shrubs by Rockwell, \$1.00.

Around the Year in the Garden. Rockwell, \$2.50.

Flower Guide (Wild Flowers with 320 flowers in colors), by C. A. Reed, \$1.25.

Butterfly Guide, by Chester Reed, \$1.25.

How to make friends with birds. Chester Reed, \$1.25.

Flowers and Ferns in their Haunts, by Wright. 358 pages illustrated, \$2.00.

Field book of American wild flowers by F. Schyler Matthews. Over 300 illustrations. 610 pages, \$3.50.

Peat Moss or Pulverized Peat

Practically the same as imported German or Holland peat moss except it is not dried or baled. We have acres of it on our land and use loads and loads of it as a mulch and to mix in soil for acid loving plants such as ferns, arbutus, bearberry, gentians, and many others.

It is an excellent mulch on heavy soil where it preserves moisture and prevents cracking of the soil. We offer this pulverized peat as it comes from the ground in sacks of about 100 pounds for \$1.50, or sacks with about 50 pounds for \$1.00. Should be shipped only by freight.

Hardy Outdoor Ferns

Ferns planted among your shrubbery, in the perennial border, or in the foundation planting around your house, especially on the north and east side or under tall trees, bring to your home a fragrance from the wild woods, in some of nature's most beautiful creations. Plant in groups of at least 3 to 5 each of each variety, scattered at irregular distances.

Cultural Directions

These hardy outdoor Ferns do not make satisfactory house plants; they will do best in shade or half shady spots in the garden and mixed in between shrubs in foundation planting on the east and north sides of buildings. Some of these, like the *Osmunda*, *Claytoniana*, Lady and Sensitive Ferns and Ostrich Fern will do reasonably well in considerable direct sunlight, but will fade earlier than when planted in shade or half shade. They do best in light soil containing much vegetable matter or humus and covered with rotting wood shavings, peat or straw, which keep them from sprouting too early in the spring, preventing a late night frost from killing the young fronds.

Hardy Ferns should be planted when dormant any time between Sept. 1st and July 1st. They prefer a settled foundation and cold feet. If late spring planting is followed by a dry, hot summer, the fronds are likely to dry up in the middle of the summer the first season.

On arrival it will do them good, especially in the spring, to dump them in a pail of water for a day or more before planting. Plant crown level with the ground and give them a good soaking of water to settle the soil solidly among the roots. Then level off with dry soil or sand and mulch to preserve moisture and keep sun and wind out. One or two good soakings of water later will benefit but is not necessary, unless in a very dry season. Do not sprinkle; a light watering will do more harm than good.

Frost will not hurt the roots, but will kill the fronds. They will come back either the same or next season. Neither will frost hurt the roots in transit; they can safely be shipped during the winter, and if frozen on arrival, unpack and lay them on the ground in a shady place and cover with any kind of damp material and let them freeze. They will keep well until you are ready to plant.

Of all the Hardy Ferns the Ostrich Plume, also called the Palm of the North, is perhaps the best as it grows the tallest and fastest of any Fern. It often has as many as fifteen fronds gracefully arranged, presenting an object more beautiful than many varieties of palms. The fronds, under favorable conditions, attain a length up to 4 feet.

Lady Ferns. (*Asplenium Fæmina*). A large handsome Fern—a wood and roadside Fern presenting many varying forms, is of a distinct type from the Ostrich.

The *Osmunda Claytoniana* or flowering Fern is clothed with loose wool when unfolding its fronds, which sometimes under favorable conditions attain a height of more than four feet; is beautifully cinnamon colored. This variety will also do well in the open or dry shady places.

These three Ferns represent three distinct types. They are easy to establish, and will come back stronger year after year. They will grow in common garden soil, which can be improved by addition of some leaf mold, muck, or pulverized peat. After planting, and every fall, give a mulch of leaves, straw or anything to keep them from sprouting too early in the spring and to prevent young fronds from being nipped by a late frost. The mulch will also help to preserve moisture.

HARDY FERNS

Hardy Ferns in Foundation Planting

A Fern Bed for Only \$5.00

COLLECTIONS OF HARDY FERNS

These collections are recommended for special conditions as stated below.

We offer these collections for \$5.00 each parcel post prepaid, or one-half for \$3.00.

By express not prepaid, each collection \$4.00, or any one-half \$2.25.

You can order by number and say one or one-half collection and we will make no mistake.

We have these Ferns dormant almost up to July 1st.

No. 1.—General collection of the three varieties that have given universal satisfaction under all conditions anywhere, 8 Ostrich Plume, 4 Osmunda, 10 Lady Ferns, 2 Evergreen Ferns.

No. 1-A.—General collection that perhaps will give better satisfaction than No. 1 in that it includes 4 Evergreen Ferns, the fronds of which keep green all winter, 8 Ostrich Plume, 8 Lady Ferns, 4 Evergreen Ferns, and 4 Sensitive Ferns.

No. 2.—Special for dry shady places. 8 Lady Ferns, 6 Hay-scented, 6 Leathery Wood Ferns, 4 Interrupted Ferns.

No. 3.—For moist shady places, 4 Maidenhair, 8 Evergreen Ferns, 4 Ostrich Plume, 4 Cinnamon, 4 Lady Ferns.

No. 4.—For wet ground, 8 Sensitive Ferns, 6 Royal Ferns, 6 Evergreen Wood Fern, 4 Marsh Shield Ferns.

We shall be pleased to quote you special prices in lots of one hundred, one thousand, and ten thousand—not prepaid.

One hundred or more, not less than 10 of any variety, your selection, 10% less than 10 rate.

The letter R means adapted for Rockery, S for Shade, B for Border, M Moist Soil, O Open Sun.

Maidenhair Fern

American Maidenhair. (*Adiantum Pedatum*)

—RS—The black wiry creeping roots lie right at the surface. They branch freely if the roots are lightly covered with leaf-mold or pulverized peat. The plants should be kept fairly moist, at least the first year. They are at home in shade and on rocky hillsides. Each 20c, 3 for 50c, or 10 for \$1.25—Prepaid each 30c, 3 for \$1.00, and 10 for \$2.00.

Beach Fern. Each 35c, 3 for 75c, 10 for \$2.00—Prepaid each 45c, 3 for 90c, 10 for \$2.50.

Brittle Bladder Fern. (*Cystopteris bulbifera*)

—R—At home on wet rocks, preferring limestone. Fronds 1 to 3 feet. Each 50c—Prepaid 60c.

Christmas Fern. (*Polystichum acrosticoides*)

—RS—The fronds grow from 12 to 30 inches tall. It is indifferent as to soil, either moist or dry. Prefers shade. Plant the crown just at the surface. Each 20c, 3 for 50c—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Cinnamon Fern. (*Osmunda Cinnamomea*)

—M—A large fern growing in a crown, 2 to 5 feet high, 8 inches wide. Beautiful cinnamon-colored leaves. This will thrive in quite wet soil or moist shady places, also in peat or common garden soil. Each 20c, 3 for 50c, 10 for \$1.50—Prepaid each 40c, 3 for \$1.00, 10 for \$2.00.

Clintons Wood Fern. (*Dryopteris clintoniana*)

—MS—A large fern of Christatum, attains a height of two feet or more when in moist rich soil. To produce massed effect it should be planted a foot apart, the crowns level with the surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid each 30c, 3 for 75c, 10 for \$1.75.

Crested Wood Fern. (*Dryopteris cristata*)

—MBS—Grows wild in rather wet, shady places. Fronds 10 to 15 inches, generally remaining green all winter. It is easily grown: the crown should be planted just above the surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid each 30c, 3 for 75c, 10 for \$1.75.

Hayscented Ferns. (*Dennstedtia punctiloba*)

—R—12 to 18 inches high. Will grow in sun or shade if planted in rich porous soil. Plant 8 inches apart. It will soon form a compact mass of border along the walk. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid each 30c, 3 for 75c, 10 for \$1.75.

Interrupted Fern. (*Osmundo Claytoniana*)

—ROS—Unlike the other Osmundos, it prefers a moderately or even dry thicket clad hill, in deep ravines and stony places generally, even in open sun. It is popular for porch or foundation planting. It grows where most other varieties will not thrive. Each 25c, 3 for 70c, 10 for \$2.00—Prepaid 1 for 40c, 3 for \$1.00, 10 for \$3.00.

1934 Catalog Labels

Lady Fern

Lady Fern (*Athyrium filix faemina*)

—ROS—A large, handsome fern, standing from one to three feet in height. A wood and roadside fern, doing well in all parts of the country and presenting many varying forms. Plant in sun or shade with crown just below surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$1.75.

Leathery Wood Fern (*Dryopteris marginale*)

—RS—The principal cultural requisite is shade. It even does well in Pine and Hemlock groves or on rocky hillsides. The leathery fronds are a dark blue green color. 12 to 30 inches high. Its natural associates are Jack-in-the-Pulpit, Wood Anemone, Hepatica and even yellow Lady Slipper. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$1.75.

Maidenhair Spleenwort. (*Asplenium tricomans*)

—R—A small rock fern, 4 to 10 inches with purplish-brown shining stalks. Each 50c—Prepaid, each 60c.

Marsh Fern. (*Dryopteris thelypteris*)

—M—Marsh fern seems to flourish in either sub-acid or neutral soil and is also indifferent as regards to sun or shade. The roots should be covered with not more than half an inch of leaf mold, compost, muck or pulverized peat. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for 1.75 10 for \$1.25—Prepaid, each 30c, 3 for 70c, 10 for 1.75.

Ostrich Plume Fern.

—RS—Grows from a crown with fronds from three to five feet tall, six to ten inches wide. A very erect handsome species, graceful as a palm. One of the most satisfactory for the amateur, always giving satisfaction in the open or shady nook. Use leaf mold or well rotted peat and it will multiply by underground runners, especially so in moist, sandy or peat soil. Plant the crown level with the surface and mulch in winter. This magnificent plant luxuriates in soil subject to an annual overflow. Its vasselike masses of foliage suggests the Cinnamon Fern, but the fertile fronds are dark green and it is also the tallest of our ferns, and should be planted well back in the shrubbery. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Polypodium Common. (*Polypodium Vulgare*)

—R—Fronds four to eight inches forming a dense mass, clinging to rocks and boulders on steep hillsides. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 70c, 10 for \$1.75.

Royal Fern. (*Osmundo Regalis*)

—M—Pale green fronds, 3 to 3 feet. It can also be grown in still water 2 to 3 inches deep. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Sensitive Fern. (*Onoclea Sensibilis*)

—RMO—Grows from 6 to 36 inches high, according to moistures doing best in rather moist places. Plant 12 inches apart and cover crowns with one-half inch of soil. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 75c, 10 for \$2.00.

Toothed Wood Fern. (*Dryopteris spinulosa*)

—M—Evergreen fronds one to three feet tall. Plant crown level with surface. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 30c, 3 for 50c, 10 for \$1.75.

Walking Leaf Fern. (*Camptosorus rhizophyllus*)

—R—A little low, creeping fern with evergreen fronds 4 to 9 inches long. Interesting and quite easy to grow in the rock garden. Each 25c, 3 for 60c, 10 for \$1.50—Prepaid, each 35c, 3 for 90c, 10 for \$1.75.

Winged Wood Fern. (*Dryopteris hexagonoptera*)

—RSM—A very fine little fern for moist and dense shady places where it will spread. Fronds from 3 to 4 inches. Each 20c, 3 for 50c, 10 for \$1.25—Prepaid, each 35c, 3 for 90c, 10 for \$1.75.

Woodsia Ilvensis (Rusty woodsia)

—R—This odd but extremely attractive fern grows in clumps on exposed summits and steep cliffs, in full sun. Very rare. Each \$1.00—Prepaid \$1.10.

Woodsia Obtusa.

—R—Is at home on shady ledges. Fronds 6 to 15 inches. Each 50c—Prepaid 60c.

Shady Rock Garden

Rock Garden Plants Wild and Perennial Plants

HOW TO SELECT PLANTS FOR SPECIAL PLACES

Plants which will do best or well in shade or half shade, in a little nook by the porch, shut away from sunlight, on the north side of the house, among the larger shrubbery in the border, are marked with the letter (S).

- Plants specially adaptable for rockeries are marked (R).
- Plants that prefer open sunny situations are marked (O).
- Plants which prefer plenty of moisture are marked (M).
- Plants specially adapted for the border are marked (B).
- Plants that are of spreading or trailing habit, marked (T).
- Plants specially adapted for cut flowers are marked (C).
- Plants specially adapted for wall gardens are marked (W).

NEW VARIETIES. You will find 50 varieties not listed before; they have come from all parts of the world and are looking for a permanent home.

Orders for less than three of a kind add 5c for each plant. For 25 of a variety figure at Ten Rate and deduct 10%. For 100 of a variety figure at Ten Rate and deduct 20%, or write to us for special prices stating varieties you are interested in.

ACHILLEA (Milfoil or Yarrow)	3	10
—R—ageratoides. A pretty alpine of compact habit.		
Yellow sweet scented	\$.40	\$1.00
—filipendulina. This fine plant from the Caspian Sea grows 2 to 3 ft. high. Bright yellow flowers, flat heads and lacelike foliage60	1.50
—filipendulina, Parkers Variety, clear yellow.....	.40	1.00
—millifolium roseum. Rosy pink flowers in dense heads, July-October75	2.00
—Perry's White. 1-2 feet. Large pure white flowers, broad overlapping petals. Best yet for cutting....	.40	1.00
—C—ptarmica (the pearl). Pure white double flowers, all summer40	1.00
—B—boule de neige. More compact than The Pearl, 2 ft. Excellent for the border.....	.40	1.00
ACONITUM (Monkshood)		
—B—fischeri. This is the hardiest and most useful of the Aconites40	1.00
ACTEA (Baneberry)		
—RS—alba. Long spikes of clear white flowers and berries. 12 to 18 inches. May-June. Fine for rockery or shaded woodland60	1.50
—RS—rubra. Red form of the above.....	.60	1.50

If perennials are wanted by prepaid parcel post add
15c for 3 plants, 30c for 10 plants.

	3	10
ACORUS CALAMUS (Sweet flag)		
—M—Sword shaped, erect, thrives best in moist soil or shallow water60	1.50
AGROSTEMMA (Rose Campion)		
Stout erect growing plants with silvery foliage—coronaria, mullien pink, 2 ft.40	1.00
ALLIUM THIBETICA

VIOLA (Violet).	3	10
— <i>blanda</i> . Sweet scented white violet.....	.60	1.65
—M— <i>cuculata</i> (Blue Violet). A beautiful variable species, deep purple to light blue. Blooms in the greatest profusion from early May to August. 100 for \$6.00.....	.30	.75
— <i>odorato</i> (Sweet English Violet).....	.60	1.50
— <i>palmata</i> (Early Blue Violet).....	.60	1.50
—R— <i>pedata</i> (Bird's Foot Violet). The flowers are blue violet or purple violet and have a bright orange center60	1.50
— <i>bicolor</i> (Two-colored Bird's Foot Violet).....	.75	2.00
— <i>pubescens</i> (Downy Yellow Violet).....	.60	1.50
— <i>rugulosa</i> (White Wood Violet). Fine for ground cover under shrubs or for the children's garden. Blooms all summer60	1.50

YUCCA FILAMENTOSA (Adam's Needle).
 —R—Large rosettes of sword-like evergreen leaves and spikes of white flowers. Each 25..... .60 1.50

In addition to these listed we are in a position to supply almost any plants, wild or under cultivation. We are connected with collectors of native plants all over the United States. We will appreciate an opportunity to quote on your want list, small or large.

If perennials are wanted by prepaid parcel post add 15c for 3 plants, 30c for 10 plants.

Dahlias

We have a wonderful collection of Dahlias in named varieties. Each 20c, Dozen \$2.00 Prepaid, each 25c; dozen \$2.50

Autumn Glory, single. Autumn shades.

Aurore, Peony flowered, orange-salmon shading very large.

Alta Powell, Peony flowered. Red and yellow striped, sometimes all red or all yellow.

Madam Von Loon, Peony flowered, tomato red. Long stems, fine cut flower.

Lavender King, Peony flowered. Clear lavender.

Polar Bear, Peony flowered. Pure white.

Frank A. Walker, decorative. Popular lavender pink.

Queen Mary, decorative, light pink.

Dr. Tevis, decorative. Salmon, rose, old gold. Large blooms. long stems.

Mina Burgle, decorative, brilliant scarlet.

A. D. Levoni. Show, clear pink.

Countess of Lonsdale, Cactus flowered, salmon red.

Mrs. I. De Ver Warner, large showy lavender.

Pom Poms, ball shaped yellow lavender and red.

Gladiolus—Prepaid

NAMED VARIETIES. Ming Toy, buff yellow; Alice Tiplady, orange saffron; E. J. Shaylor, deep rose pink; America, pink; Albania, pure white; Orange Queen; Heroda, mauve; Romance, orange, salmon and rose shaded; Wine King, wine; Souvenir, yellow; Los Angeles, shrimp pink; Sharlet Wonder. Large bulbs 50c per doz., \$3.00 per 100. Jumbo size bulbs, 75c per doz. Mixed (of above varieties and others), \$2.00 per 100.

Water Lilies—Prepaid

Hardy Water Lilies. Nymphae.

Chromatella. Considered the best yellow variety grown. Canary yellow petals, stamens deeper yellow. Leaves are beautifully blotched, maroon, brown and glossy green. A favorite for Pond and Tub culture. Each \$2.00.

Helen Fowler. Blooms continuously, rich deep pink in color. Very fragrant. Fine for cutting. Plants are small, making them desirable for tub culture and small pools. Each \$1.50.

Lucida. One of the finest Hardy Water-Lilies. Rapid grower producing an abundance of orange colored flowers, which turn to a deep maroon as it grows older. Each \$4.00.

Odorata. Native American Water-Lily, very fragrant. White flowers from 3 to 5 inches in diameter, with yellow stamens. Can be used for cut flowers. Each \$1.00.

Nuphar advena. Native yellow Water-Lily. Each 50c.

Robinsonii. Floats upon the water. Blooms deep red, tinged with orange. Flowers produced freely. A very desirable water plant. Each \$3.00.

Rose Arey. One of the best Hardy Lilies. Deep cerise pink. Very large flowers, prolific bloomer, sweet scented. Each \$3.00.

Capensis. Tender day blooming variety. Sometimes called "Cape blue Water Lily." Flowers 6-9 inches. Very desirable for cutting. Flowers sky blue, showing to good advantage indoors. Each \$2.00.

Juno. Tropical Night Blooming variety. Pure white, blooms at night, remaining later in the morning than other night bloomers. Blooms very profusely. Each \$3.00.

ORNAMENTAL EVERGREENS

We have cut the prices to about half of what they were a few years ago.

We list two grades or qualities—select specimen means perfect shape and color: Windbreak means some slight defect in shape, otherwise just as healthy as Select Specimen, they will in a few years outgrow this defect.

B & B means that these plants are dug with a ball of soil and tied with burlap.

We beg to call your attention to the fact that our evergreens are grown in Northern Minnesota and therefore unusually hardy. We generally have a period in winter at 40 below zero.
