SUBJECT: Tokushima Field Trip Report from 8 August to 11 August 1950

Travelers: Miss Randolph
Mr Fujioka
Mrs Kimura

1. Departed Takamatsu 8,August 1950 17:50
Arrived Tokushima 8 August 1950 20:00

2. Interview with Mr Tamama, Tokushima Wel Dept Chief on 9 August 1950 from 9:20 to 10;00

Mr Tamama had an office by himself. His office was previously combined with the chief of General Affairs Dept ~~chief~~. He was asked what is to be held at Ikeda tommorrow. An island wide Child Welfare Section chiefs conference is scheduled to be held from 10 August to 11 August with the attendants of a welfare ministry official. Points to be discussed is be submitted to the TokushimaWel Dept, but Kochi ~~Prefecture~~ was the only pref that had their points to be discussed in. Their points were salary for nursery teachers, island wide nursery teachers conference and widow countermeasures . Mr Fujioka, advisor, to SCAR , PW Section attended the conference. Report will be submitted by him. Miss R explained that SCAR's attendants to your conference is not to spy it is to find out your problems so that we may send it up to higher channels for liaison with your HQ.

Miss Randolph asked what can be gained by all nursery teachers island wide conference? Mr Tamama said frankly it is a kind of a recreation. There may be some result, value but it is mainly recreation.

Miss Randolph said she thought that the Welfare Dept chiefs conference that was held at Ikeda before did have value. All nursery teachers conference only requires a lot of travelling expenses that actually can be used in other valuable ways. To discuss with representatives has more value.

3. Conference with Child Welfare Institution staffs on 9m August 1950 from 10:00 to 11:00.

Attendants: Mr Tamama, Tokushima Wel Dept chief
Mr Fukumoto, Prefectural Child Wel Sec chief
Director of the Child Welfare Center
and about 14 staffs from institutions (mainly females)

a. Mr Fukumoto's introduction

Glad to have Miss Randolph here to give us guidance and instructions. Speak up for questions that you may want to ask.

b. Miss Randolph's speech

Later I wish to go to the Child Welfare Center.
How many of you represent childrens institution? 2
" nursery schools ? 13 (Tokushima Prefecture has 46 nursery schools. Temporary shelter has 27 children in at present.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Does the child welfare center give you much help? They answered they have help. Mr Tamama said that the help provided are re consultation of misbehaved children.

Miss R : How much contacts do you have from the CWC?

CWC chief: We had a case from Naruto of a child who has a habit of stealing. recently.

Miss R : What was done with the child?

CWC : This is a pending case and am working on this at present. The child is in the temporary shelter.

Miss R : The Child Welfare Center, nursery schools, and institutions must have coordination. The CWC studied the children in the center, home visits and instructs. You should all understand the function of the child welfare center clearly. Miss Caroll a United Nations specialist in child welfare is making 6 months study in various Prefs and has now completed her 6 months study in Osaka, Fukuoka and Sendai CWCs. She is now making recommendations to SCAP. Recommendations that will fit the CWCs in Japan will be sent out in ministry instructions to you.

Miss R : Have you heard of Miss Carroll's recommendations?

Mr Fukumoto : I have heard it is in progress but have not heard that it is completed .

Miss R : She talked in our Tokyo conference on child welfare. One of her main points is to divide the center into 4 distinct services. The general affairs, clinical , temporary shelter and child study and placement. Post war emergency temporary laws, regulations and institutions were made to protect the vagabonds . So Miss Carroll made a detail study of the CWCs to fit the CWCs in Japan. Previously plans were made at the top and were playing around with at the bottom. Now recommendations are made from the bottom to the top. This is the democratic way. Matsuyama CWC has reorganized their center by Miss Carroll's recommendation, Miss Randolph's recommendations and local recommendations. We will make a study on the Ehime CWC next week. Be sure to keep in mind your local situations because it differs from Osaka and Tokyo. My recommendations to the nursery schools and children's institution is to keep aware of the reorganization and make full use of service from the CWC. Get programs coordinated and work together. When children are in poverty this should be taken care by the DLSL. Lets not forget the homes of the children. Parents have responsibility. We should educate the parents and try not to separate the children from their parents if possible. Study your laws, regulations and analyze your own problems. Standards does not mean to start from a new building. Use from what you have to meet the standards for 1951 fiscal year in April.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Question: What kind of revision is their going to be made in the CWL? For instance parents responsibility is stated in the CWL.

Miss R : Specific clarification of the law. Have you any changes you would like to make of the CWL? The DLSL has been revised several times. It is revised to make it easier than to make more difficult.

Mr Tamama: I agree. If you all have any problems speak up.

Question: The law reads that we should protect children over 3 years old. Most parents wish to have children under 3 years old to be protected but according to regulations we have to reject these cases. I think it is more important to look after children under 3 years of age.

Miss R : I agree. The childrens that can be taken care of at home should be taken care of at home. DN is a place to take care of children ~~who have poverty parents.~~ where parents are out to work.

Question: My day nursery has a capacity of 30 but at present we are taking care of 91 children. We have 3 nursery teachers without any janitors. There is plenty of children roaming around which we wish to look after. I believe the town people should have more knowledge of the use of DN because we also have plenty of children in the day nursery that can be cared at home. The town administration should be given more instructions to help this situation out.

Miss R : This is Mr Fukumoto's responsibility. Talk to him about it and get help from him. He can't make a solution overnight but to work together for solution.

Question: DN is still being neglected.

Mr Fukumoto : Knows how hard it is.

Miss R : There are mayors who have not read the law.

Audience: This is true.

Miss R : The law is your "axe" or weapon - use it -

Question : The retirement allowance, pay should be more better off for the nursery teachers.

Fukumoto : Town and village officials can get retirement allowance but the nursery teachers are not recognized as officials at present. They get their salary but not retirement allowance. Some places they are treated the same as the town officials but in most places they are not.

Question : We nursery teachers are only paid salary and travel allowances by the town office. Nothing else is given.

Miss R : Your old laws in Japan ~~are~~ were set up in a German system. You cannot

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

develop ideas and get orders from the top. Japan will soon be equipped with civil service system which is a system made by ability, merit, more security to the sincere workers.

Question : We have 15 feebleminded children in our Jikoin (home for dependent, neglected and abused children) We wish to have a separate institution for these children because they are very troublesome compared to the ordinary children. This institution is the only place where they are kept in this prefecture.

Mr Tamama: An institution for the feebleminded children was in progress for the whole Shikoku Island by the wel dept chief's conference and will be operated directly by the welfare ministry. After long patience of waiting to get this institution which they still have not got, Kochi prefecture got discouraged and is planning to get one for themselves. I will think this over,

Question : The feebleminded children just take up too much time and are too troublesome. The general public thinks that all the children in this institution is feebleminded. The other day when I went to the prefecture office for LARA goods I was asked by one of the officials why the childrens are dressed so dirty. I told them that they should have knowledge of how the feeble minded children are I suggest we have 2 signs boards on the gate saying that this is a feebleminded and an ordinary institution.to satisfy the ordinary children and general public.

Miss R : Do you think it is right to publicize that they are feebleminded children. It would hurt the feebleminded children. I would rather be criticized than have name put on me. We need broad shoulders to carry on our jobs as public servants. Criticisms will always be made. All criticisms should be listened to because some are good and some are bad. The program for feebleminded children is very important to train them daily so they may be able to take care of themselves as they grow up.

Question : What do you mean by a special type of CWC for Tokushima. The law is the same so whay can't we imitate Osaka or Tokyo CWCs?

Miss R : To use practical home town ideas and the number of childrens are different.

4. Speech to nursery teachers training course from 11:00 to 12:00 on 9 August 1950

Attendants: Majority were upper secondary school students and rest were nursery teachers. Total 197 attendants.

Mr Sakai, Tokushima Prefectural Welfare Section chief did not know that there was so many students in the audiences until he finished his speech to them. He felt he spoke of a too hard subject to the audience after he found out.

Mr Tamama introduced Miss Randolph to the audience.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Miss Randolph's speech

I just came to say "Good Morning" to you. She found out that majority of the audiences were students and some were nursery teachers. Glad to know you are interested in this program. If the lectures given to you are not what you want you should speak up and say or submit to the CWSection that we wish to have this kind of lectures for our development. There are certain things that you have to follow the regulations and certain things they can be adapted in local levels.

Most of you look as you are going to are have graduated high school. Some of you may marry and some of you may work. In the old Japan there was not much for you girls to do but now it is becoming different as it grows into a democratic way. You can be able to make xx up your minds. More responsibility ofdyour future will rest on your shoulders. In the past if you become 25 years old you began to worry of your marriage. At present you can choose to be a bachelor or get married. Among the positions open today is social work. Trained social workers are needed in institutions, child welfare centers and etc. We have 2 social works school at present in Osaka and Tokyo. A very bright future is made at present for Japanese women. 2 years ago we had a rep in our HQ who was a in-service training planner. We wished for more help but he entered the Social School to become more professional. Democracy does not give secure to the people but gives an opportunity to obtain security. This is what Gen MacArthur said. The standards set by the government is practical and constructive if they can be met. Some are having difficult in bringing the standard up to the minimum standard. Review the standard many times.

5 June 1950

SUBJECT: Information Obtained from Mr Kurokawa, Miyazaki Prefectural Welfare Dept Chief to Mr Fujioka, SCAR Advisor during Miyazaki In-service Training Conference from 28 May to 3 June 1950

I attended the in-service training courses last October and this year April in Tokyo and, this time here in Miyazaki. But what is meant by in-service training had been very difficult for me to understand. No one so far ever made clear, understandable interpretation what-so-ever. I know they tried their best how to define these words; supervision, in-service training and staff development, but the more they tried the more we were made to confuse. We Japanese are talented to make arrangement or display of anything but analysis of the function scientific ways is out of our abilities. I had never got any systematic interpretation of these words as done by Miss Randolph this time. It was quite a revelation to me and I hope to all of the people assembled to listen to her. I don't know which is right, the ministry interpretation or Miss Randolph's but anyway her interpretation is quite reasonable and approachable to me. The finest lecture I had listened to these days.

There is another point she worked on me very deeply. Ministry people repeated very often that no more of lay man's time to handle social work business. But they never touched the point to make us recognize the importance. For the first time I was forced to make up my mind by her speech. I had been doing my job because I was appointed to the position not because I prefer it. She said heart is also very important. Without feeling nothing would be accomplished. She made me to remind a story I had long forgotten.

A dame of care with a basket made from bamboo was standing by the sea-shore. A lady happened to pass her and wondered why she is so sorrowfully mediatating. The woman answered "I am a woman of care and I was told to go to the sea shore and fill my basket but I failed completely. I don't know what to do anymore. The lady told the woman I will show you the way how to fill the basket with sea water". Saying this the lady stepped into the water and dip the basket to the sea water to the rim and told her, "this is the way to fill the basket". You cannot accomplish the job outside the sea-water. Once you put yourself within the sea, now you get the ocean in your basket". Now I see, I could not hope to accomplish anything without making my mind up to be social worker. I am quite sorry to express my skin deep attitude I had these days. But it the time for me to wade in as a professional welfare worker and get myself wet.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

8. Conference with Mr Sakai on 10 August 1950 from 17:00 to 19:00 hrs

Miss R : Asked for next times schedules.

Sakai : I think that recommendations for reorganization of Tokushima and Naruto City may be needed. T think that Tokushima City will be in effect by September and Naruto by middle of September because both assembly meetings will be held before respective effect dates. On 15 Aug (this may be Sep and may be my mistake in mishearing) a Chugoku, Kyushu, Shikoku Region welfare section chief meeting will be held at Fukuoka. Subject for meeting is re"free distribution of clothing for poverty people throughout Japan which is sponsored by the welfare ministry. After this conference I will go to Tokyo to see Welfare and Local Finance Officials to discuss on paid officials matters. Then talk to Prof and gun Finance Office of how to get budget for them.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Miss R : Was our conference result effective or not? I felt like a nuisance here since my arrival. I felt you were all listening as you were obligated to listen. This may be misunderstanding.

Sakai : Not enough knowledge of PA yet in our section due to my in ability. PA to lazy people has not been recognized in our section yet . I expect a change from old mind to new mind.

Miss R : Will Not change overnight. I've gone through this myself too.

Sakai : Art 22 of DLSL states that minsei-iin is an cooperative organ.

Art 22 reads " The welfare commissioners provided for in the Welfare Commissioners Law (Law No. 198 of 1948) shall, when asked by the mayor of city, town or village or the social welfare secretary, cooperate in the execution of business of assistance performed by the mayor of city, town or village and the social welfare secretaries."

All Minsei-iin Federation League at Central Government says that the law has been revised but we are still cooperative. Welfare Ministrys interpretation is ~~xxxxxxx~~ saying that town and village mayors have the responsibility and minsei-iin is a cooperative organ. These 2 cooperattives are quite different and confused in town, city and villages.

Miss R : I have a bulletin clarifying this point. It says that legally town and villages do not have to be organized by April 1951 by law, strong suggestion has been given. Glad they have done by date. in some places in Shikoku. At Miyazaki they did not talk of how the minsei-iins should be. The bulletin said that the minsei-iins will be abolished by law in city, town and villages. by April 1951.

Sakai : Wel Ministry is not as clear as that. Art 22 of DLSL states that it is the mayors responsibility and minsei-iins are cooperative organs . They are not to handle the program. May 4 is the establishment of paid officials law. Enforcement of DLSL should be done by May 4. (I do not know if this is correct or not ek. Would like to know if not)

Miss R : Mayor may go ahead and organize a new organization or may use minsei-iin until April 1951. Then when the day comes that they have established will release minsei-iins.

Sakai : Some minsei-iin are quite open to revision and they want to hold power to help the needy and some understand the revision of DLSL.

Miss R : If they dom not obey the law they can be sued.

Sakai : As the law changed they will obey the law. Worry is owing to change of system. They had a minsei-iin meeting in each gun of new revised law they will have to follow. They had nothing to say but in their heart it is no good. If they are asked to help in this way it is better to withdraw. If they become negative to help it will be a big trouble.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Miss R : This is not a anti-minsei-iin system at all and a lot of these people seem to take it personally. Some minsei-iin asked if a welfare work can be done without a minsei-iin. I ~~xxxx~~ cannot answer this but I told of how good welfare work can be done. In Kagawa and Ehime we have met many minsei-iins who have attended our conferences. They say they understood it very well and will cooperative until paid officials are established.

Sakai : Establishment of welfare stabilization district, "Minsei Antei Sho". Minimum 17 foraguns. The town and village welfare works will be done by them. By establishment of paid officials law, paid officials will be set by April 1951 and minsei-iin will gradually be released. I have not heard that minsei-iins will be abolished from April 1951, because of political issue. Will contact by telephone later.

Miss R : I can appreciate the way you feel. I'm puzzled myself.

Sakai : I wish to set immediately but this "welfare stabilization organization is my problem. This is why I wait for a fixed establishment.

Miss R : I think that more clarified regulations will be sent out.

Sakai : We have a "minsei-iin federation league " here in Tokushima City. They received Community Chest Fund this 1950 fiscal year. They interpret the function of this league in 2 ways: (1) it is the league to liaison with individual minsei-iins. (2) and liaison for social work business. If minsei-iin business is to give it is alright but if it exists it will be a problem.

Miss R : What is the purpose of this league?

Sakai : We wish to have you meet the chairman of the minsei-iin league on your next visit to this prefecture. We wish to have you meet each section chiefs of each gun. We have independent wel sec chief in each gun.

Miss R : Read her directives to Sakai, regarding her work. To maintain surveillance, provide necessary guidance with policies of higher HQ and surveillance to administrative application and administrative organization. Prefectures are not keeping me informed of conferences ~~xxxxx~~. I felt like I was in an unwanted position. Is their something existing ~~xxxxxxxxxx~~ ?

Sakai : I think that I have informed you of everything in our section. I will inform all section chiefs and Mr Tamana.

Miss R : I'm not making ny personal attack against Mr Sakai. In future all telephones calls will be made to the welfare department chief.

Sakai : We were enlighted by your speech and got plenty of informations. I thought it is necessary to increase 12 workers. After set up I wanted to approach the welfare department chief for consultation. ~~Myy~~ My plan for increase is: 14 for physically handicapped; 3 in prefecture, and 24 in gun. I have approached the Finance and General Affairs Section here in Ken.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Miss R : I think you need a manual of how organizationa should be setp up.

Sakai : The 13 for physically handicapped may go around as case workers too.

Miss R : We should be pulling together and time is too precious to be going in different directions. We wish to know what the problems are and what c can we do to solve the problems. This is our purpose for a sound welfare program.

Sakai : Our inservice t aining budget is the smallest compared to other 8 prefectures. Our amount is ¥100,000. This is really not a in-service training budget but was made for it. We wish to have your cooperation. I want to have the general affairs and welfare department chief for approval.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

6. Conference with Mr Tamama and Mr Sakai on 10 August 1950 from 9:00 to 10:00

Subject to be spoken for the child welfare and welfare section staffs was not decided by the prefecture. Mr Sakai suggested talk on future ~~xxxxxxxxx~~ welfare stabilization districts but this was still vague and clarified instructions were not sent from the ministry. I am afraid my suggestions may get you confused if instructions are not clarified yet. Mr Tamama said that regarding the establishment of paid officials average 3 paid officials will be placed in gun to go around every town, villages and city to liaison with prefecture for 1951 fiscal year. In 1951 fiscal year 17 or 18 paid officials. (I may be wrong in this part ek)

Miss Randolph said that when the child welfare officials were first set up they wondered what their work was and what they should do but this gave the prefecture opportunity to do something before recommendations were made. In the case of this 3 paid officials it might be the same. I said at the Tokyo conference that it may be a little confused if the allocation is made before their work is clarified but psychologically it is good because it gives you the opportunity to think through the need and submit good ideas to the welfare ministry.

Mr Sakai agreed.

7. Conference with Welfare and Child Welfare Section Staffs on 10 August 1950 from 10:00 to 12:00. (2 staffs from Welfare Section were absent attending the disaster relief conference. The in-service training director was included)

a. Mr Tamama introduced Miss Randolph to the audience.

b. Miss Randolph's speech: Did the in-service representative who attended Miyazaki conference give you all an idea of what in-service training is? The audience said they did. I have studied for 2 years in Japan but still have questions. If you wait until you find out you will never get anywhere. Start with what you have and study on the way. Answers are needed here from the local community. From experiences, services etc. At present you have opportunity and responsibility to see , hear and say. Japan has not many trained workers today but if you profit by your mistakes by seeing, looking, listening you will progress step by step. In-service training plans will be made according to different types of work in ~~xxxxxxxxxxxxxxx~~ welfare. I would assign an educated person with teaching background for an in-service training planner if I were in your position. You do not have to call professionals from Osaka or Tokyo to lecture. You all assist him on plans, opinions etc and get together and make a good plan. You will be able to do it tommorrow and do not necessarily have to postpone it until a professor comes from Tokyo. The Tokushima peoples opinion should be the basic to make plans. Do you agree?

Mr Tamama : I suggest that professional workers from Tokyo is much better. (welfare ministry) As this is the first time we need them.

Okuo : Employed in Child Welfare Section and is a child welfare official and assistant in-service planner.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

Okuo : I think there are two types of in-service training. One is discussion between ourselves and one is to have an professional worker from outside,

Miss R : They come down with diplomatic talks and you can get inspiration but do not how it is.
If you wanted to go to Honshu and there was no boat I think you would make some kind of a raft to go over.

O kuo : If there is someone who can give better suggestions from the outside I think it would be better.

Miss R : Japaneses biggest criticism is that they put off until instructions or suggestions are made. You've got to sit down and start.

Okuo : I mean that after our endeavor we need to get more knowledge.

MissR : Sometimes our best teachers are not the one who knows but the one who is learning. CIE library books were suggested. Assign 2 or 3 persons to ~~xxxxx~~ study statistics, or some else ~~xxx~~ to study how to conduct and interview and etc. We're trying to set up your schools like in the States. Let your imagination go and go on with what Tokushima needs. Japan studys the past but America studies today and tommorrow. using the past as background only -

Question : Do you have an in-service training in the states?

Miss R : Some but We have past that stage . We have social works in school.
I have studied social work for 4 years in college and the next 2 years I specialized as part time worker in an agency.
You are beginning in Tokyo and Osaka at present.

Okuo : Will in-service training continue forever?

Miss R : If officials are stabilized it may differ later but if they keep transferring I do not know. Lots of money can be wasted in training and transfering

Okuo : Do specialists become narrow minded in other subjects?

Miss R : depends on the individual - they may [redacted] study various other things too. Specialist ~~studies~~ studies various other department works too. You need to know other fields but are not an expert in those fields.
Is it possible to have another section in welfare department?
In-service training and field organization.

Mr Tamama : May be possible but I have no intention to set it up.
I thought that one paid official could be assigned as an in-service trainer planner.

Sakai : We are anxious to get the 3 paid officials in October assembly.

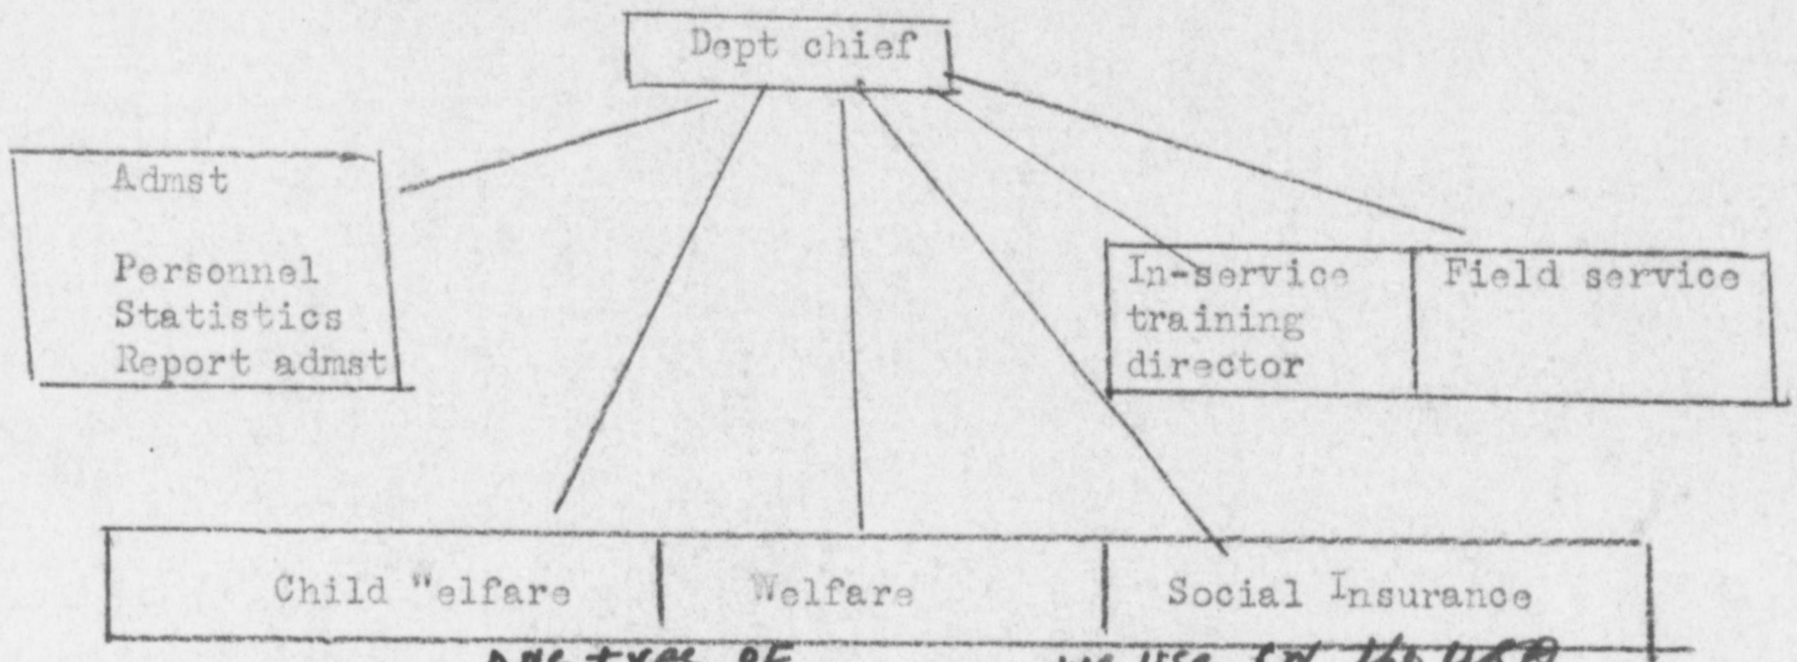
Miss R : I suggest that an in-service training director work directly with Mr Tamama because you have so many jobs.

Tamama : We have no organization like this at present.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Sakai : I agree.

Miss R : A suggestion of reorganization of administration was given.



This is ~~the States~~ one type of organization we use in the USA. The Education, Health and Welfare sections are stabilized in most of the States.

Field service goes out to city, town and villages. I suggest that an in-service planner should be set beside field service. It can the same person but work must be separated. It is better to have a separate person. Does this sound practical to you Mr Tamama?

Mr Tamama: In some prefectures administration reorganization is set up like your suggestion. At present this prefecture is lack of staffs.

Miss R : This does not require many persons.

Tamama : It can be done but is it that necessary. Our organization I think is practical at present.

Sakai : I think it is a practical suggestion but I think the field service should know all sections work. I think I would 10 or 12 more staffs to make it like your suggestion. We have 19 staffs in welfare at present and 14 in Child Welfare Section. 40 in Social Insurance Section and none in Welfare Department chiefs office. The staffs in Social Insurance Section are employed by the Central Government.

Tamama : This may be possible to do but I have no intention to do so because new sections are prohibited at present.

Miss R : This is not a section though.

Tamama : But you will have to set up a section though.
I will study it over.

Miss R : Welfare department chief should know of welfare condition in areas. Can you find out by ~~xxixxrxx~~ your present organization.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Tamama : I think I can find out by my present organization.

Miss R ; Do you know what is happening in your town , city and villages by your present organization? Needys in xxx areas and who are in need.

Tamama : We have at present 27,000 needy in Tokushima prefecture. I understand quite well and the gun offices are set up like your reorganization. I think that there are too may staffs in the government but too few in welfare department.

Miss R : Do plenty of work with few staffs by good reorganization. If minsei-iins are cut off the law will have to revise.

Tamama : Is there any other prefecture set up like this?

Miss R : Miya[illegible] ~~gi Prefectural and Ehime is Considering~~

Tamama : Will study the reorganization over.

FEC AGO FORM NO. 82 (10 APR 47)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

10 April 1951

SUBJECT: Tokushima City Welfare Office

This city of 122,265 people has recently incorporated two (Apr 1) adjoining villages Katsura , population - 5,292 (964 households) and Takara with a population of 6,624 (1153 households). The area covered by the two villages is 1½ times the size of the area of Tokushima City. Each of this village has a paid employee responsible for welfare but upon investigation by city welfare office representatives the minsei-iin are doing most of the welfare work and case records are most inadequate. Katsura has a caseload of 67 and 9 minsei-iin who are paid ¥2000 yearly. Takara has a case load of 46 with 10 minsei-iin who arepaid ¥1000 yearly. Grants in both villages are paid on the 5th and these payments were made in April even though the city does not pay the grants until around the 25th. This they hope to change shortly.

For the present the city has taken over the two paid welfare employees and have left them in the former village office - now city ward office . Case records have also been left and no record except list of grants is now kept in the city office.

In addition to the PA program other welfare services which have now become the responsibility of the city are Takara, 6 homes for repatriates ¥500,000 budget to build a day nursery and a ¥40,000 disaster relief fund. Katsura has an inactive counter crime committee with a ¥20,000 budget. No child welfare or physically handicapped cases reported. Transportation service is good. To Katsura bus 20 minutes, ¥20. To Takara bus 30 minutes, 25 yen.

Not counting the two above named villages the city is caring for 1674 families under the DLSL and are using 21 part time case workers . (In addition 1 other who is ill is carried on the staff) They h ave 12 districts with one of the workers stationed in each district and in 7 of the districts they have one worker stationed in the city office giving part time to the case work in the district but havingother duties in the central office. Case loads are fairly distributed but case records are kept where the worker is stationed. (see map) As an example - 2 workers assigned to [redacted] district, one stationed in the office keeps case records there and one stationed in Central Office, keeps case records at Central Office.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Intake procedure: One worker is employed solely for intake at the Central Office and handles about 50% of all intake. Applications are accepted at this office regardless of where applicant resides. A semi private interviewing booth has been set up. No intake form is used but applicants fill out application form and interviewers completes face sheet. If found not eligible interviewer rejects but records are not kept nor are rejections at intake counted as such. All minsei-iin are supplied with application blanks and about 40% of the applicants go first to the minsei-iin who helps them to fill out the blank which they bring to the office, either branch or central. They claim minsei-iin do not reject applications. Applications are also made at all branch offices.

There is no master file and it is quite likely that duplication exists although they do not think so. Case records are filled according to forms. Those read revealed information insufficient to establish eligibility. No verfication of income and resources but budgets on the whole followed minimum standard.

Break down of case load revealed 35 to 40% widows with children. 580 widows with young children. 521 old age. 258 chronically ill and sick. 72 large families and insufficient income. 29 mentally incompetent 77 physically handicapped, 44 unemployed, 93 other (part ime work- children without parents etc)

This office has no case work supervision and the protection sub-section chief is also the general affairs sub-section chief. The section chief would like to appoint three of the best of the case workers as supervisors but since the most competent are all younger workers with lower salaries he feels it would be unwise as the older workers would resent their authority. He would consider hiring new staff but does not know where he could find experienced people and sees no advantage in bringing in inexperienced persons as supervisors.

The city is now furnishing 7 bicycles but will soon purchase enough for all case workers ¥300 to ¥500 a month is also paid as a transportation allowance.

The chief sees many of his problems but has been powerless to do much about them due to mayors refusal to approve full time staff. Plans for reorganization were discussed and he requested P.W.A. to return to Tokushima in May for discussion with the new mayor. Present mayor has resigned to run for governon, 3 candidates for mayor will be elected April 23.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

	Deficit				
6. TYPE OF ASSISTANCE:					
7. AMOUNT OF GRANT:					

13. REMARKS:

Reason for Rejection.

The applicant, widow, was a nursing teacher of day nursery ever since her husband's death at the war. Falling to slight T.B., she was forced to leave her post, and applied for public assistance. Her living monthly expense is ¥ 4148, and it was found by her narration that she is getting an allowance of more than this living expense, that amounts to ¥ 5.300., as an unemployment allowance. The worker in charge explained to such a manner as to give her full understanding about the impossibility of extending P.A. and she fully understood.

14. DISCREPANCIES NOTED:

	Income	600			
	Deficit	630			
6. TYPE OF ASSISTANCE:		Deficit 630 yen is covered by other family's income. Is such a treatment allowed?			
7. AMOUNT OF GRANT:					

13. REMARKS: An aged widow of 70 years old applied to get her assisted publicly. She now dwells ~~together~~ with her daughter's family consisting of her husband and a little daughter. The husband attends post office where he earns 9,000 yen monthly, and daughter earns 4,000 yen at the bank, total income being 13,000 yen. The amount is enough to maintain the living of four people, and the applicant, old woman, gets about 600 yen by her hand labor at home. We tried to let her understand that she is out of sphere to get public assistance, and she retired of her own accord to get

	Female	1			1

5. FINANCIAL

Expenses 2896.—

Income 3000.—

Deficit

6. TYPE OF ASSISTANCE:

7. AMOUNT OF GRANT: no room to allow grant.

13. REMARKS: Widow and her only daughter. She works at the neighboring milk plant, where she gets 3,000 yen. She appealed of the haidness of living at this income - On calculating the grant obtainable by legal support, the sum of grant does not exceed her income, that keeps city from opening public assistance.

14. DISCREPANCIES NOTED: She was explained and encouraged so as to survive ~~amidst~~ against the adversity.

Note: In this city, no record for rejected cases at the first interview is provided whatever, and these three instances were recollected by the case workers today while I was checking case records.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

(1)

I. IDENTIFYING INFORMATION (from Local Office Records)

1. NAME: Hamagaki		2. DATE OF EXTRACT:			
3. ADDRESS: Higashi-Tomida, City					
4. FAMILY COMPOSITION	Age Group	0-7	8-14	15-20	21 & Over
	Male		/	/	/
	Female		/		/
5. FINANCIAL	Expenses 6500				
	Income 3400				
	Deficit 3100				
6. TYPE OF ASSISTANCE: L.A. ~~3100~~ E.A.					
7. AMOUNT OF GRANT: 3,100 (L.A). 373 (E.A)					

13. REMARKS:

In looking into the case records of this Tokushima City Hall, I found to my pleasure that, in so far as the budgeting is concerned; the amounts of standard and grant are in most examples similar, very few being in deficiency. But, viewed generally, the feeling is ~~quite~~ rather something raw and unsufficient to fill up the qualification of perfect record-keeping.

14. DISCREPANCIES NOTED:

No verification of eligibility for P.A. is stated, no running record is also provided, whereas there is ample space of paper to write it down. Many parts are left blanks. It is found necessary to train and bring up case-workers to the standard level.

II SCHEDULE FOR INTERVIEWING RECIPIENTS OF PUBLIC ASSISTANCE

1. Area:

2. Date of Interview:

3. Interviewer:

4. Present Grant:
   a. Beginning date: 1 Oct. 1950.

1. NAME: S. Yuki			2. DATE OF EXTRACT:		
3. ADDRESS: Kachidoki-bashi, City					
4. FAMILY COMPOSITION	Age Group	0-7	8-14	15-20	21 & Over
	Male				72 yrs.
	Female				
5. FINANCIAL	Expenses 1,410				
	Income 410				
	Deficit 1,000				
6. TYPE OF ASSISTANCE: L.A. & M.A.					
7. AMOUNT OF GRANT: 1000 (L.A) 620 (M.A)					

13. REMARKS: An aged bachelor, 72 years old. Has been in protection of L.A. since December 19[illegible]. Budgeting is quite adequate. As having lately fallen to eye disease (Trachoma), he applied for medical aid. Medical aid having been granted, he received the first medical aid grant, 620 yen, from this January.

14. DISCREPANCIES NOTED:

Process of undergoing medical aid:
First city issues diagnosis ticket to the client, then the doctor sends a bill to the prefectural doctor's association for supervision. The bill, after being examined there, is sent to welfare section of "Ken", and comes back to city. City pays the total of one month to the above association by cheque.

L.A. } doubled case.
M.A. }

Client: T. Hamagaki (50 years)
address: Kachidokibashi, City.
Family: Wife (43) Son (15), Son (12), daughter (9)
grant began: ~~Dec.~~ Oct. 1950. (L.A.)

This is an interesting case in which we can see the activity of case worker in charge and moving condition of family toward rehabilitation.

The master being a blind man, the living duty rested upon the shoulder of wife. The City allowed occupational aid last October and let them open a grocery store. The new business fortunately going to prosperity, it is estimable that the family will grow self-supporting about June or July this year. The second son (12 years) becoming sick in his intestines, this February, Medical aid was opened on application, and still continued.

The case indicates the ~~exist~~ activity →

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 173013

of case worker in the way of guiding the distressed family to relief.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

(3)

Single case of medical aid.

Client: K. Morita (21 years)
Name of disease. Consumption
Grant began. Jan. 1951.
National health Insurance. Joined.

This case receives medical aid only.
The client having joined national health insurance, the half amount of medical treatment expense is paid from insurance, the latter half paid by medical aid.
In case of medical aid, a medical diagnosis ticket is issued to the client once a month.
The recording method for medical aid is, so far as I have investigated myself, properly done on the whole.
It is further desirous that all the columns on the sheet shall be filled up moderately.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 1

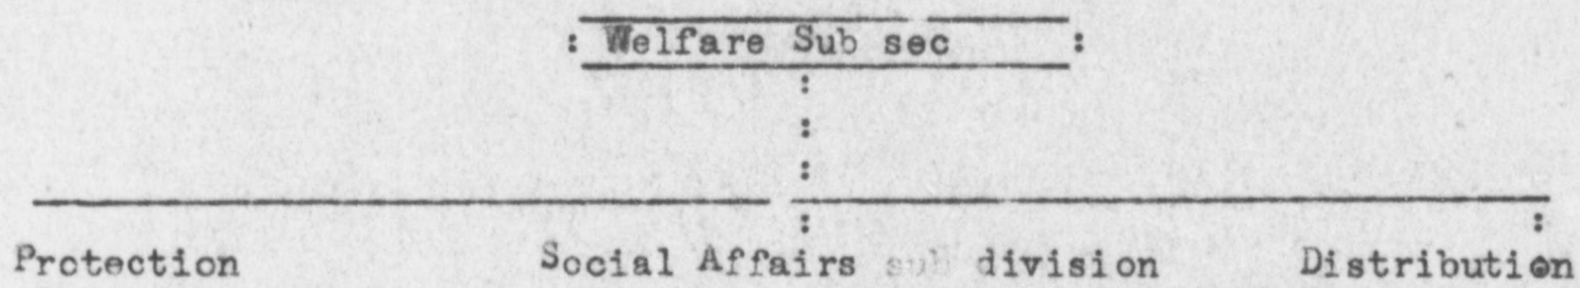
DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

SUBJECT: Tokushima City Welfare Department - Jan 27, 1951

The welfare program in Tokushima City is only a sub section. The section is comprised of Welfare, Insurance and Health. The Welfare sub section has 3 divisions ; Protection (7), Social affairs (6) and Distribution (6).



1. The Protection division has a staff of 7, 5 are welfare secretaries.

Mr Shono, SWS; chief and case work supervisor. Also in charge of budget and accounts
Mr Sato, SWS; Repatriate program
Mr Ebisu, SWS; Demobilization
Mr Myizo, SWS; Medical & maternal aid , paper work
Mr Inamura, SWS, Statistics and reports
Miss Kawano, clerk for general affairs
Miss Otsu, clerk for general affairs

2. The Social Affairs Division has a staff of 6, 5 of whom are welfare secretaries.

Mr Kato, SWS; chief of division, handles general affairs for division and intake when case worker in field
Mr Endo, SWS, physically handicapped program, minsei-iin & registration
Mr Morimoto SWS; Pawn shops at Eta
Mr Hirokawa, SWS; Crime prevention
Mr Kano, SWS; child welfare & childrens institution
Mr Kono, clerk for gen affairs in division

3. The Distribution Division has a staff of 6 with only one designated as a social welfare secretary.

Mr Oka, chief
Mr Kuwano, SWS, general affairs
Mr Miehara, Distribution of staple foods
Mr Yamazumi, Mr Hamada, & Mr Watanabe are all clerks

The city operates 8 day nurseries, 1 boshiryo, 1 home for dependent children, 1 general low cost housing project, 1 repatriates and general housing project and 1 housing project for repatriates for Sagiina.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

The city is divided into 13 office including the Central Office at City Hall. One social welfare secretary has been assigned to each of the 12 branch offices which are all ward offices except 5 where the former ward chief has been appointed the welfare secretary since these were to be discontinued as city wards. In these 5 however the social welfare secretaries handles not only welfare work but distribution of staple food and registration. Applications are taken at each branch as well as at the Central Office and grants are paid there by social welfare secretaries. All case records are kept at the branches and no information is obtainable at the Central Office, not even an index card. They feel that they might be able to do away with branches except the 5 outlying area which seem to be kept for political purposes instead of sercive to the clients.

Paid case workers were employed as of Sept 1950 but this office is still using the minsei-iin for opinions and collateral visits. They made no definite decisions as to eligibility but their opinions carry authority. There appears to be considerable friction between the minsei-iin and the paid staff. Minsei-iin have been critical and reluctant to give up their power. The city still pays them ¥2000 a year and expects to continue to do so. They still serve the city in many way such as locating persons in need and referral to welfare offices, go between for marriages, locating jobs for the unemployed and counter delinquency . They make frequent reports to the city office on the conditions in their blocks.

There is one welfare secretary located in each branch office and some members of the central staff who have been appointed welfare secretaries give part time service to the branches. The PA case load in December was 1588 and the staff is not sufficient. The chief would like to have 23 to 25 welfare secretaries but feels it will be difficult to increase the present number as the Mayor has promised economy. It is very difficult to secure qualified staff. There is no college in the city and few persons available with college education or 2 yrs former experience. This accounts so they say for the large number of old staff members, regardless of their duties, being assigned as social welfare secretaries. No increases in basic salary were made to this group but special allowances of ¥300 a month was given. The new social welfare secretarys employed were given no higher basic salary but the special allowance given was ¥500 a month.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

STATUS OF LIVELIHOOD PROTECTION IN TOKUSHIMA CITY

1. Total population of this city	121,203

Remarks: (1) Statistical figures as of December 31
(2) Under the item "living expense", all those receiving living expense are included, but the item "school expense" or "medical aid", signify those receiving school expense only or medical aid only.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 013

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

5. Conference with Tokushima City Welfare Section staffs from 14:00 to on 9 August 1950

The conference was opened about an hour later due to the late arrival of case workers from the branch offices in Tokushima City. The Mayor ordered the staff tocall the branch office case workers together on this opportunity.

Miss Randolph asked if he understood the speech she made in Miyazaki that was lend to him when he came to Takamatsu. He said he understood it quite well but for clarification asked the meaning of supervision and ~~and~~ in-service training.

Tokushima City has 3 branch offices. The staffs of Tokushima City are as follows:

(1) Mr Welfare Section chief was out to Matsuyama

(2) Mr Ebisu (37) Primary school 4 years experience in welfare
Public assistance, Demobilization. CAST WORKER

(3) Mr Endo (29) Junior high : 3 years experience in welfare
Minsei-iin, physically handicapped, social institutions

(4) Mr Sato (31) College graduate; 5 years and 5 months experience
Case worker. Public assistance, repatriates

(5) Mr Morimoto (31) Higher primary school; 5 years experience
Unemployment, pawn shops.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Recently SCAP issued a technical bulletin which I understand has been or will be made available to you. This bulletin

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 173013

(6) Mr Kano (22) Higher primary school; 2 years experience
Child welfare program

(7) Mr Inamura (23) Kobe Marine College ; 2 yrs and 7 months
Public assistance, pawnshops

(8) Mr Miyagi (37) Junior high ; 3 year and 7 months
Medical aid expense, liaison with welfare and assembly
Case worker (also studied type at Osaka YMCA)

(9) Mr Shono (38) Junior high; 1 year and 10 months
Sub section chief of welfare section

(10) Mr Kato (50) Junior high ; 1½ yrs in welfare section and 10 years in welfare field
All other works excluding PA

(11) Mr Hirokawa (22) College; 2 years and 2 months
Rent control of land, prevention of crime,and red cross

(12) Miss Otsu (18) higher primary school; 3 years experience
Distributes medical cards.

3 girls from branch offices arrived but description was not made.

The total number of staffs in welfare section including branch offices, NHI, health program, janitors, collectors of NHI fee is 200.

Miss R : I suggest that administration should be separated from Health section but close cooperation is necessary.

Kato : Are separated and we cooperate in joint conferences.

"A true social worker is not a lady or a man bountiful giving away government money to people in need, but a skilled teacher and demonstrator helping an individual or a family attain independence and efficiency. Money is not the only tool". This was copied on the blackboard for all to copy and study.

Miss Randolph looked at the office space and suggested that a private booth is necessary to talk with the client. Personal problems are not liked to be heard in public. In the states many of our welfare offices began from a scrap. Therefore you are not behind compared to the states pertaining partitions can be made to get away physically from each others. Cardboard walls are inexpensice and practical. In Kochi city they have submitted a bill to the city assembly to make private booths, bicyles (12). But what discouraged me is that a clerk was using the private booth that they have set up for clerical use.

a. Mr Mayors introduction.

b. Miss Randolph's introduction. Apologized for the way the gather was made.

Peoples all over the nation have problems. These problems call for government and society help. The problems are chronic and temporary problems. Chronic: old aged, mentally handicapped, chronic disease; temporary problems

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

are , unemployment, loss of wage earners, family discord, childrens misbehavior, etc. You may think that this does not effect you so what have I to do about it. An example of a family whose husband is suffering f om TB was given.

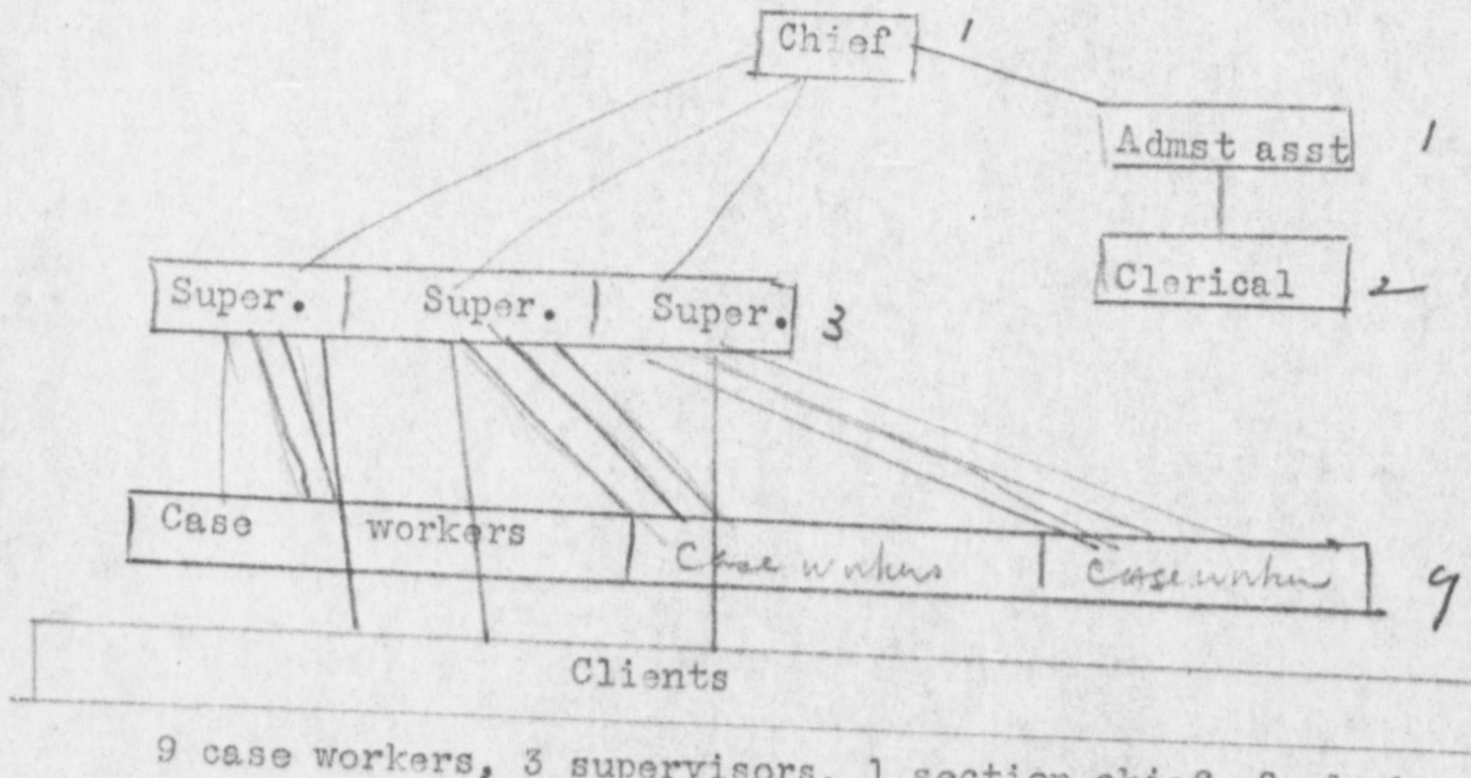
Man TB. Doctors says he needs special food, rest and hospitalization. But as time goes on food becomes scare, clothes become thin and begins to worry. Husbands gets weaker, wife becomes irritable and neglects children. Childrens become irritable because they do not get proper care at home. They become troubl esome at school. By this time they become handicapped to the society. Childrens began to rest school and began to steal. Arrested and taken to jail. By this time it cost more money to the society. If medical care would have been given to the man in the first place this would not have happened. TB may be spreaded to the children by this time. Social workers have 6 points to know to case work these problems.

(1) Discover the problems
(2) Pin it, measure it and understand it
(3) Consider all problems for solution
(4) Choose best solution
(5) Get those covered to agree upon
(6) Get action on the plan

Mr Sakai gave the ministry instruction regarding revision DLSL, establishment of paid officials and the positions of minsei-iins, and in-service training ~~in~~ briefly.

Main points were: Establishment of paid officials in cities by 31 July 1950
Execution of in service training planned in Sept.
Main points of revision of DLSL was given.
(As Mr Carr had come twice to explain he gave at brief as possible)

Miss Randolph's suggested chart of administrative reorganization was given.



9 case workers, 3 supervisors, 1 section chief, 2 clerks, 1 admst asst, total 16.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Population of Tokushima City is 120,000 ; 1500 case loads.

Miss R : At home one clerical workers for 3 case workers. Supervisors should do some clerical work.

Mr Tamama to audience: Do you think that 70 caseloads is too big or too small.

Miss R : Minsei-iins will be legally out by 1 April 1951 so some organization will have to be set up.

Shono : Mr Carr said to have full paid officials do new caseloads only.

Miss R : That is a suggestion and you may go beyond that.

Sakai : The number of case workers to each ~~dixxxix~~ city has been designated by the welfare ministry . It will be dispatched to the city later.

Miss R : We have heard that some paid w lfare secretaries may be dispatched to gun offices to have relationship with pref. city town and villages. I hope these people will be paid supervisors.who supervises personnels and helps the chief who has difficulty in contacting the mayor. Job descriptions of these persons are not clarified yet.

Sakai : Got brief job description of them. about 2 weeks ago. The standard of allocation was noted and brief job description.
The allocation is 3 in pref. average 3 in each gun offices (21)
4 in Tokushima city and 1 in Naruto city.

Question : Miss R's administrative reorganization requires a lot of staff but the budget problem I could not say.

Mayor : Give opinions without worrying about budget. That is my job.

Question : According to your system who will do the CC a d other works?

Miss R : There should be directive sent to the prefectures dated 194 regarding specific instructions of government to stay out of CC and RC private organizations. Public assistance administers tax money but CC and RC funds are contributions. These two should not get mixed up. The only responsibility that government has on them is that they can give suggestions, or discuss of minimum standard. Suggest you review the instructions from your head office regarding your position in CC and RC

Question: Who will handle wayfyers, unemployment, pawnshops and etc.

Miss R : As these are governmen works they will have to be taken care of by some case workers in theirmterritory or a different section could be set up for them to do.

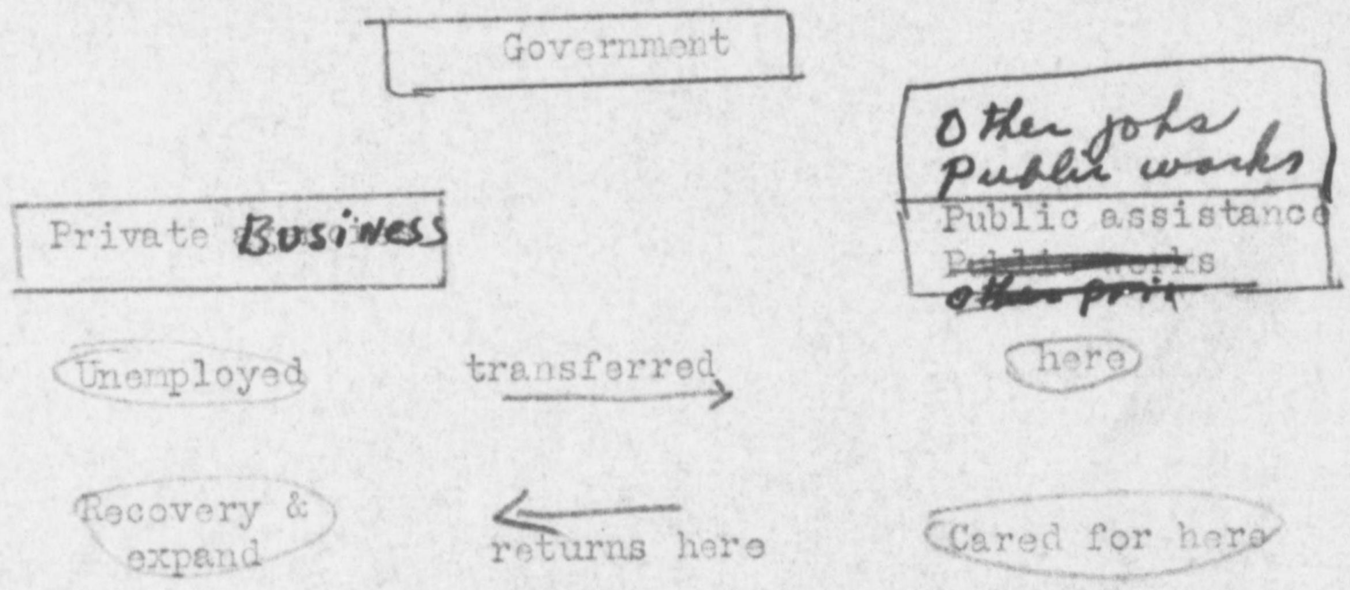
DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Mayor : What percentage of the people are they that are rehabilitating?

Shono : Most of them are chronic and some temporary. 10% is rehabilitating in an year. These are shown on the "hogodaicho".

Tamama : 70% are chronic cases in Japan.

Miss R : Why are they chronic? According to your reports increase of the number of unemployment is very little. The ~~Sharp~~-Dodge plan cut down many staffs. According to this PA should go up. Under Japans old plan government subsidy has been given to private ~~Business~~ agencies. In the private ~~Business~~ most of the people wereout of work, receiving pay without work. This was cut down by the ~~Sharp~~-Dodge plan. In stead the government sub sidy was transferred to public assistance, public works. They are kept here to maintain health to be prepared to go back to the private ~~Business~~ when recovered and expanded to absorb these people.



US has given about 11 billion yen to the Japanese to help the unemployed people. Other types of assistance has been given by USA-

Mayor : Home visits should be more often. I believe the minsei-iins have been lacking this. I think that more encouragement is necessary. I'd like to have something done about this Mr Tamama.

Tamama : Will do something about it.

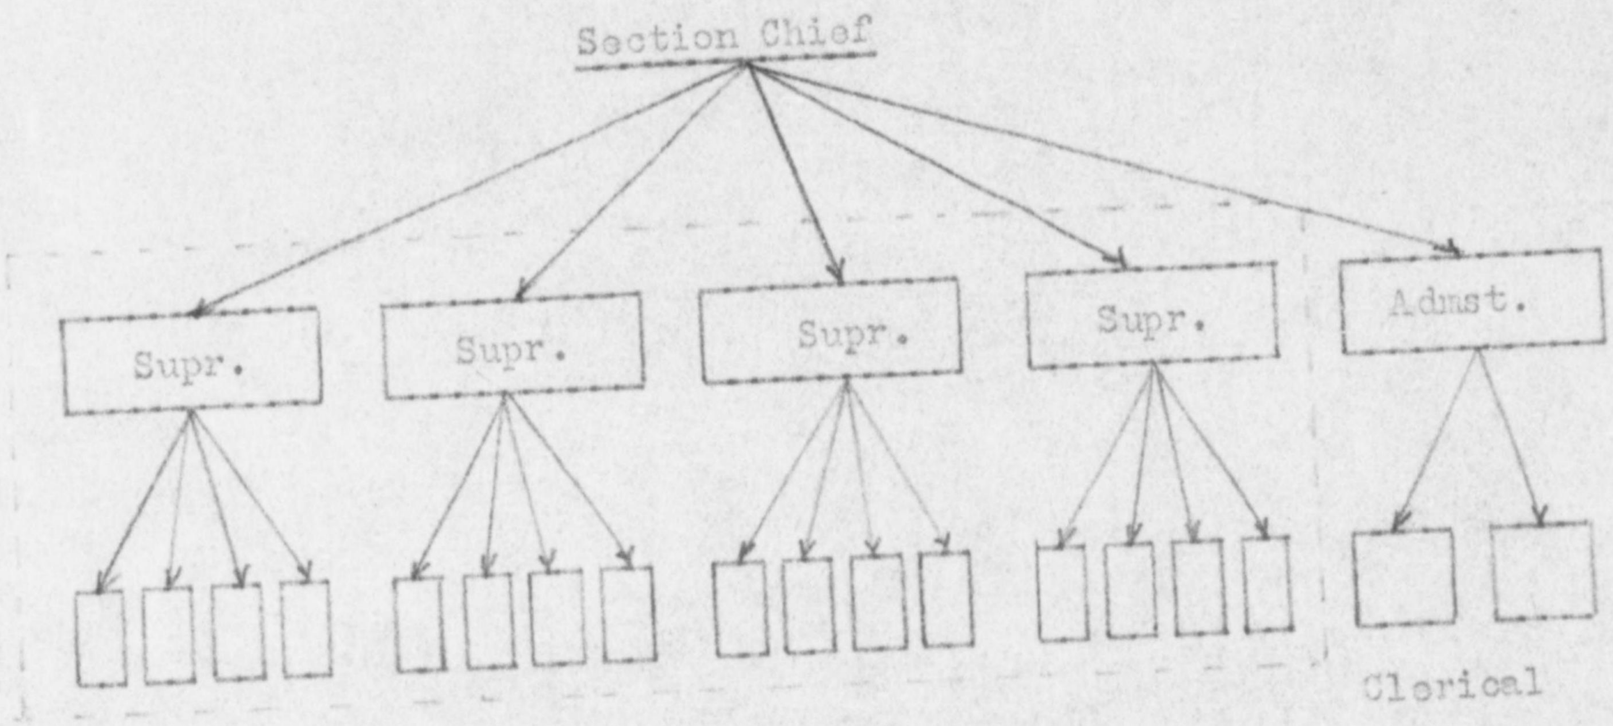
Miss R : You help the client to rehabilitate. You do not rehabilitate the client. Some or many clients may be hostile and nasty to you because of being dragged around for such a long time. If they recognize you are here to help they will later or sooner rehabilitate Look at him regardless of how nasty and dirty they may look. Think of how it would be if you were in that position.

Mayor : Thank you very much for you kind guidance and assistance.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

August 30, '50

Tokushima City Welfare Organization Chart
(24 Welfare workers would be appointed at the end of the month. 12 increase)



Schedule of the case workers in a week:- 4 days out field
18 days in a month

Case in Aug.
1596 families
40 increase (unemployment)
60 opened
22 closed

The welfare secretaries qualification is too tight to get so reorganization was done within the hall to get 12 new people and those who were in the Welfare Section were appointed as the secretaries (case workers)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

IR
GY
File

FUKU #1123 28 Aug 1950
