RULES.

RULE I.

Imports unenumerated in this Tariff will pay Duty at the rate of 5 per cent. *ad valorem*; and the value upon which Duty is to be calculated shall be the *wholesale market value* of the goods in local currency. This market value when converted into Haikwan Taels shall be considered to be 12 per cent. higher than the amount upon which Duty is to be calculated.

If the goods have been sold before presentation to the Customs of the Application to pay Duty, the gross amount of the *bona fide* contract will be accepted as evidence of the market value. Should the goods have been sold on c. f. and i. terms, that is to say, without inclusion in the price of Duty and other charges, such c. f. and i. price shall be taken as the value for Duty-paying purposes without the deduction mentioned in the preceding paragraph.

If the goods have not been sold before presentation to the Customs of the Application to pay Duty, and should a dispute arise between Customs and importer regarding the value or classification of goods, the case will be referred to a Board of Arbitration composed as follows:—

An official of the Customs;

A merchant selected by the Consul of the importer; and

A merchant, differing in nationality from the importer, selected by the Senior Consul.

Questions regarding procedure, etc., which may arise during the sittings of the Board shall be decided by the majority.

The final finding of the majority of the Board, which must be announced within fifteen days of the reference (not including holidays), will be binding upon both parties. Each of the two merchants on the Board will be entitled to a fee of Ten Haikwan Taels. Should the Board sustain the Customs valuation, or, in the event of not sustaining that valuation should it decide that the goods have been undervalued by the importer to the extent of not less than $7\frac{1}{2}$ per cent., the importer will pay the fees; if otherwise, the fees will be paid by the Customs. Should the Board decide that the correct value of the goods in 20 per cent. (or more) higher than that upon which the importer originally claimed to pay Duty, the Customs authorities may retain possession of the goods until full Duty has been paid and may levy an additional Duty equal to four times the Duty sought to be evaded.

In all cases invoices, when available, must be produced if required by the Customs.

No Permit to land them will be issued until the Customs have proof that the necessary authority has been given to the importer. Infraction of this rule will be punishable by confiscation of all the goods concerned. The import of Salt is absolutely prohibited.

RECOMMENDATION.

I.

(1) "This Commission desire to invite the attention of the Chinese Government to the close connexion existing between the questions of Tariff Revision and Transit Pass administration, arising from the fact that any amendment of the scale of duties laid down in the Import Tariff implies a corresponding alteration of the fees chargeable on Inward Transit Passes.

"We feel it incumbent on us to express the opinion that under the Inward Transit Pass system as at present administered foreign goods do not receive that full measure of protection from additional taxation to which they are entitled by treaty, and we would impress on the Chinese Government the urgent necessity of removing this grievance, which is a source of constant friction between the Chinese Government and foreign Powers.

"Whilst recognising, moreover, the general question of inland taxation is beyond the terms of reference of this Commission, we desire to place on record our firm conviction that the innumerable exactions to which Chinese and foreign goods are now subjected, whether at the place of production, in transit, or at destination, constitute a serious obstacle to the free development of trade, and we would earnestly recommend to the Chinese Government the advisability of devising measures for the total abolition of all such forms of taxation."

(2) "To obtain the consent of the foreign Powers to the removal of the following articles from the prohibited list, sulphur, saltpeter, and spelter; and to remove from the list of prohibited articles issued from time to time by the Customs the following articles: soda nitrate, nitric acid, hydrochloric acid, sulphuric acid, potassium salts, phosphorus, microscopes, surveying and drawing instruments, and iron pans; to simplify as far as possible the procedure of obtaining special permission from the Chinese Authorities for prohibited articles; and to publish a list of prohibited articles prior to the enforcement of the prohibition."

(3) "That in view of the inconveniences of using a fictitious currency unit in Customs transactions, it is recommended that so soon as conditions permit the Haikwan tael shall be

(4) "To reform the procedure of fixing duty-paying values of the *ad valorem* duty goods, and in particular to improve the Appraising Department in the principal ports by raising the status of the Appraisers."

(5) "That while the Commission desire to place on record their appreciation of the Customs returns, they would suggest to the authorities concerned that the following improvements be made in these returns:—

"1. Yearly returns:

(a) Fuller and more detailed information be supplied in the annual returns of imports and exports contained in Part III, and that a summary, classified under countries, be given of the import and export trade done between China and the various foreign countries.

"2. Half-yearly returns:

(b) That if possible, half-yearly returns should be published on the lines of the annual returns.

"3. Quarterly returns:

That the quarterly returns be discontinued.

"4. Daily returns:

(a) That identical forms be issued at all the treaty ports where reports are already issued, and that these forms be on the lines of the present Shanghai Daily Returns.

(b) That the returns be separate, in the case of exports for local and transhipment cargo.

(c) That these returns be issued more promptly."

(6) "To alter arrangements in the present Tariff schedule.".

II.

"That the Chinese Government is recommended to obtain the consent of the Treaty Powers to the addition of the following rule to the Rules appended to the Tariff:—

RULE IV.—The importation of Opium and Poppy Seeds is absolutely prohibited. The importation of the following articles is prohibited except under bond by qualified medical practitioners, druggists, and chemists: Morphia and Cocaine and Hypodermic Syringes; Anti-opium Pills containing Morphia, Opium, or Cocaine; Novocaine, Stovaine, Heroin, Thebaine, Ghanja, hashish, Bhang, Cannabis indica, Tincture of Opium, Laudanum, Codeine, Dionin, and all other derivatives of Opium and Cocaine."

roy of Chihli, and count Shiku-ki of the first rank, have the honor to make the following communication:

As regards the fighting which took place between our respective Imperial troops at the palace of the King of Corea, on the occasion of the disturbance in the capital of Corea, in the last tenth month, it was an affair that occurred entirely remote from the conception of the respective Governments, one for which I cannot but express the sentiments of my deepest regret. Holding in great importance the friendly relations happily existing from olden times between the respective countries, I have to say our Imperial troops failed, at the last, to preserve carefulness in their course of action, though they were unavoidably forced, by the crisis of the time, into fighting.

I shall, therefore, undertake myself to issue an official dispatch reprimanding them.

As to the deposition of the wife of Honda Shiunoske, a Japanese subject, and to those of others that your excellency has forwarded to me, I find in them on perusal that in the Corean capital Chinese soldiers broke into houses of Japanese, stole property, and took the lives of Japanese subjects. I have not at hand any substantial evidence on our side, and shall, therefore, dispatch an official to investigate the matter and obtain all the evidence bearing on the point in question.

Should I find proof that any soldier of any of our camps was in the streets on that day creating trouble and murdering and robbing Japanese subjects, I shall not fail to inflict upon the offender severe punishment according to the military laws of the Chinese Empire.

The above I beg to bring to your excellency's attention.

4th day of the third moon of the eleventh year of Kocho.

ADDITIONAL NOTES.

EMBASSY OF THE UNITED STATES OF AMERICA.

Note Verbale.

The American Embassy is directed by the Department of State to inform the Imperial Foreign Office that, in submitting for the consideration of the Imperial Japanese Government a suggested plan whereby Mr. Stevens, acting through the present Russian managements and in the interests of the Russian people, may temporarily undertake the actual operation of the Chinese Eastern and Trans-Siberian Railways, the Government of the United States desires to emphasize the fact that Mr. Stevens and the Russian Railway Service Corps which will assist him, will represent Russia and not the United States or any possible interest of the United States, as the United States has no desire or purpose to secure an interest in the Railways of Russia or to control them for itself.

Tokyo, October 25, 1918.

Aide-Mémoire.

The Japanese Government desire to express their sincere thanks for the communication which the American Embassy was so good as to make by a Note Verbale of October 25, on the question of a suggested plan respecting the operation of the Chinese Eastern and Trans-Siberian Railways. They have taken note, with much satisfaction, of the assurance contained in that Note Verbale that the United States has no desire or purpose to secure an interest in the railways of Russia or to control them for itself.

Ministry of Foreign Affairs.
Tokio, December 2, 1918.

EMBASSY OF THE UNITED STATES OF AMERICA.

MEMORANDUM.

As the result of informal conversations with Viscount Uchida it is understood—

First; That Viscount Uchida will forward the amended plan to Viscount Ishii, with instructions to present it to the Department of State and to explain that it is submitted with the understanding that Mr. Stevens be named as President.

Second; That the Inter-Allied Committee shall be composed of one representative of each of the following Governments: China, France, Great Britain, Italy, Japan, Russia, the United States leaving question of Czecho-Slovaks to be discussed.

Third; That each of the above named Governments shall select one technical railway expert for membership on the Technical Board.

Fourth; That Mr. Stevens' selection as President shall not prevent his selection as a member of the Technical Board.

Fifth; That the Government of Japan and the United States shall at once advise the above named Associated Governments of agreed plan, including the understanding in reference to the selection of Mr. Stevens and request their adherence and cordial cooperation.

Sixth; That this plan shall be interpreted as a sincere effort temporarily to operate the Chinese Eastern and Trans-Siberian Railways in the interest of the Russian people, with a view to their ultimate return to those in interest, without the impairing of any existing rights; that in intrusting to Mr. Stevens, as President, the Technical operation of these railways it is understood the Government of Japan and the United States are both prepared to give him the authority and support which will be necessary to make his efforts effective.
