(O) RESULTS: (For all hits claimed on ship targets and for land targets of special interest, draw diagram, top or side view or both, as appropriate, showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary).

The target was camoflaged, and although all bombs hit in the erec, and several strafing runs were made after the initial attack with the intention of discovering damage inflicted, all results were unobserved.
