To His Excellency  
Governor James G. Martin  
Raleigh, North Carolina

Dear Sir:

In compliance with Article 4, Section 90-57 of the General Statutes of North Carolina, we are pleased to submit to you and to the North Carolina Pharmaceutical Association the One-Hundred-Eleventh Annual Report of the North Carolina Board of Pharmacy. This report contains the proceedings of the Board of the fiscal year ending September 30, 1992.

Respectfully yours,

NORTH CAROLINA BOARD OF PHARMACY  
David R. Work, Executive Director

1992

In October of this year the Board published it's first proposed rule on patient counseling. In order to maximize the exposure of this issue the entire contents of the rule were reprinted in the October Newsletter and sent to all licensees. A hearing was scheduled in January for this and other proposals to change Board Rules.

The January hearing produced testimony from pharmacists on not only the patient counseling rule but others such as a change in the rule to allow credit for experience obtained concurrent with attendance in school. This initiative was proposed by students from the UNC School of Pharmacy headed by J. Campbell and the Board eventually adopted the wording they recommended at their January 1992 meeting.

The Members considered and adopted at the November 1991 meeting a rule on the reporting of deaths due to drugs dispensed through pharmacies. This is the first such rule in the United States and is the direct result of deaths due to the misuse of pharmaceuticals at Charlotte Memorial Hospital (Carolinas Medical Center) and Duke University which produced disciplinary hearings before the Board. The March effective date provided six months of experience in such reports to yield a total of ten as of September 30, 1992. At this point it is too early for any evaluation however some assessment should be available during the next fiscal year.

During the implementation of this rule the staff discovered that there are approximately 100 other deaths per year due to "therapeutic agents" as classified by the office of the Chief Medical Examiner in the State. This determination is made during autopsy and the substantial number of deaths involving drugs is of great concern. It was the direction of the members of the Board that staff should inquire on each of these deaths due to drugs to see if any culpability of a pharmacist was involved.

One other subject which attracted the Members' rulemaking attention was that of outdated drugs in pharmacies. Recognizing the potential problem of accumulation of outdated drugs the Members acted under their rulemaking authority contained in the product selection law and adopted a provision defining the term "adequate provisions for return of outdated drugs". This provided for manufacturers to return full and partial containers up to six months after the expiration date for prompt full credit or replacement. A corresponding rule was inserted in the pharmacist manager's responsibility stating that such drugs must be removed from the shelf if more than six months out of date.

The rules that became effective this fiscal year are reprinted on the following page.

.1503 EXPERIENCE IN PHARMACY

(a) An applicant for license must show that he has received 1500 hours of practical experience under the supervision of a licensed pharmacist which has been acquired after the satisfactory completion of two years of college work. At least 1000 hours of this experience must be acquired in a community or hospital pharmacy or other place approved by the Board in the manner prescribed in (b) of this Rule. No period of experience of less than two consecutive weeks of not less than 30 hours per week, or more than 50 hours per week of actual hours worked with a maximum of ten hours per day, will be credited toward this requirement. Hours acquired concurrent with pharmacy college attendance with no period of experience of less than two consecutive weeks of not less than 10 hours per week or more than 20 hours per week of actual hours worked will be credited toward this requirement. Experience obtained in clinical programs through schools, or in Board approved demonstration projects concurrent with pharmacy school attendance, is acceptable only for actual hours certified by the school up to a maximum of 50 hours per week. Any experience obtained in government, the pharmaceutical industry, or other non-traditional pharmacy-related locations while under the preceptorship of a licensed pharmacist is acceptable up to a maximum of 500 hours. Non-traditional internship experience would be any pharmacy related practical experience that is not primarily associated with pharmaceutical care activities in community and hospital pharmacy practice. ....

History Note: Statutory Authority G.S. 90-85.6; 90-85.14; 90-85.15; 90-85.38;  
Eff. April 1, 1983;  
Amended Eff. April 1, 1992; October 1, 1990; May 1, 1989;  
March 1, 1987.

.2502 RESPONSIBILITIES OF PHARMACIST-MANAGER .....

(j) It is the pharmacist-manager's responsibility to separate from the dispensing stock all drug products more than six months out of date.

(k) The owner representative or pharmacist-manager shall report to the Board of Pharmacy information that reasonably suggests that there is a probability that a prescription drug or device dispensed from a location holding a permit has caused or contributed to the death of a patient or customer. This report shall be filed in writing on a form provided by the Board within 14 days of the owner representative or pharmacist-manager's becoming aware of the event.

(l) The Board may not disclose the identity of an owner representative or pharmacist-manager who makes a report under Paragraph (k) of this Rule, except in connection with G.S. 90-85.36. No report made under Paragraph (k) of this Rule shall be discoverable or admissible into evidence or otherwise used in any civil action involving private parties except as provided by G.S. 90-85.36.

History Note: Statutory Authority G.S. 90-85.6; 90-85.21; 90-85.25;  
Eff. May 1, 1989;  
Amended Eff. March 1, 1992; October 1, 1990.

.2901 RETURN OF OUTDATED DRUGS

Adequate provisions for return of outdated drugs both full and partial containers as provided in G.S. 90-85.28(a)(5) means that drugs can be returned up to six months after the labeled expiration date for prompt full credit or replacement. A finding by the Board that a manufacturer does not meet this standard will cause that manufacturer's products to be ineligible for use in product selection.

History Note: Statutory Authority G.S. 90-85.6; 90-85.28(a)(5);  
Eff. October 1, 1991.

The Members also directed staff during this fiscal year to pursue the possibility of obtaining funds from the North Carolina Controlled Substances Tax, GS105-113.105, et.seq. This is the part of North Carolina General Statutes which provides for the seizure of property held by people who have been arrested and/or convicted of crimes involving controlled substances. Up to this point the Board has been involved with property seizures in excess of \$500,000.00. The Board staff's share of each one of these seizures should have been approximately one half as the law enforcement agencies in each case could not have developed sufficient information to make the arrest without the assistance of Board inspectors.

During this fiscal year the members also considered a somewhat puzzling problem involving the harvesting of organs for use in transplants. It appears that a transplant team arrives at a hospital at the invitation of an attending physician who has determined that an organ may be suitable for transplant. After appropriate consent has been obtained the process of harvesting the organ from the individual occurs and this ordinarily is supervised by a registered nurse. During this process it has become necessary, from time to time, to order the administration of certain drugs to maintain the viability of the organ, particularly in the case of liver transplants. The question which has arisen is "can the registered nurse order a prescription drug for administration under these circumstances?"

After much correspondence and discussion it was the decision of the Board that this activity was appropriate and permissible provided that it occurs under orders issued by the physician in charge of the Carolina Organ Procurement Agency.

#### Information Required by 93B

The North Carolina Board of Pharmacy had its offices at 602H Jones Ferry Road in the Willow Creek Shopping Center in Carrboro for the period of October 1, 1991 through September 30, 1992. During the 1991-92 fiscal year there were 227 applicants for examination, not any candidates were refused admission to the exam while 7 withdrew or did not qualify and the remainder took the examination for licensure. A total of 210 persons were licensed as pharmacists by examination during this year while 157 individuals applied for licensure by reciprocity and were licensed. The Board suspended 13 licenses during this year and revoked 5 licenses. No other licenses were terminated for any reason other than failure to pay the required fee.

## INDEPENDENT AUDITOR'S REPORT

To the Members of the Board  
North Carolina Board of Pharmacy  
Carrboro, North Carolina

We have audited the accompanying balance sheet of the North Carolina Board of Pharmacy as of September 30, 1992, and the related statement of revenues, expenditures and changes in fund balances for the year then ended. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the North Carolina Board of Pharmacy as of September 30, 1992, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

NORTH CAROLINA BOARD OF PHARMACY

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Operations and Significant Accounting Policies

Nature of operations:

The Board was created by the North Carolina General Assembly for the purpose of establishing and maintaining the minimum standards for the practice of pharmacy within the State of North Carolina.

A summary of the Board's significant accounting policies follows:

Basis of accounting:

The accounting policies and practices of the Board's Operating Fund conform to generally accepted accounting principles for Special Revenue Funds.

The modified accrual basis of accounting is used by the Board. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures are recorded when the liability is incurred.

Cash and cash equivalents:

Cash and cash equivalents consist of checking accounts, savings accounts and money market accounts.

Investments:

Investments consist entirely of certificates of deposits purchased with maturities greater than three months.

Property and equipment:

Property and equipment is stated at cost and is accounted for in a separate fund. Depreciation is provided using the straight-line method over estimated useful lives of five to ten years.

Property and equipment purchases are made in the Operating Fund. These assets are subsequently transferred and depreciated in the Property and Equipment Fund.

Income taxes:

No provision is made for income taxes because the Board is exempt from state and federal income taxes.

NOTES TO FINANCIAL STATEMENTS

Note 2. Leased Office Space

The Board entered into a three-year agreement on February 11, 1989, for the lease of office space. The lease term was from March 1, 1989 to February 28, 1992, requiring a monthly payment of \$2,100. The Board renewed the lease for an additional two years on September 27, 1991. The monthly payment for the period March 1, 1992 to February 28, 1994 is \$2,268.

The Board leased additional square footage at the same location in 1991 and entered into a three-year agreement on September 27, 1991 for additional office space. The lease, which runs from November 1, 1991 to February 28, 1994, requires a monthly expenditure of \$472 for the duration of the agreement.

Future minimum lease payments:

<u>Year Ending</u> <u>September 30,</u>	
1993	\$ 32,880
1994	<u>13,700</u>
	<u>\$ 46,580</u>

Note 3. Retirement Plans

Teachers' and State Employees' Retirement System of North Carolina

All permanent full-time employees of the Board employed prior to July 1, 1983 participate in the statewide Teachers' and State Employees' Retirement System (System), a cost-sharing multiple-employer public employee defined benefit pension plan. The Board's payroll for employees covered by the System for the year ended September 30, 1992 was \$242,244; the Board's total payroll was \$365,740.

After five years of creditable service, employees qualify for a vested deferred benefit. Employees may retire with unreduced retirement benefits under the following conditions:

- 1) complete 30 years of creditable service, or
- 2) reach age 65 and complete five years of creditable service, or
- 3) reach age 60 and complete 25 years of creditable service.

## NOTES TO FINANCIAL STATEMENTS

Employees retiring under any of these conditions are entitled to annual retirement benefits equal to 1.63% of their average final compensation times their years of creditable service. Average final compensation is the average of an employee's salary during the employee's four highest paid years in a row. Also, the system provides death and disability benefits to its participants.

Employees may retire with reduced retirement benefits under the following conditions:

- 1) reach age 50 and complete 20 years of creditable service, or
- 2) reach age 60 and complete 5 years of creditable service.

Covered employees are required by State statute to contribute 6 percent of their salary to the System. The Board is required by the same statute to contribute the remaining amounts necessary to pay benefits when due. The contribution requirement actuarially determined for the year ended September 30, 1992 was \$38,653, which consisted of \$24,118 from the Board and \$14,535 from employees; these contributions represented 9.96% and 6.0% of covered payroll, respectively. All required contributions have been made by the Board.

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the System's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among public employee retirement systems and employers. The System does not make separate measurements of assets and pension benefits obligations for individual employers. The pension benefit obligation for the System as a whole at December 31, 1991, the date of the latest available actuarial valuation, was \$3,326,299,000. The System's net assets available for benefits on that date (at cost value) were \$3,576,973,000, leaving net assets in excess of pension benefit obligation of \$250,674,000. The Board's 1992 contribution represented less than one-tenth of one percent of total contributions required of all participating entities.

Ten-year historical trend information showing the System's revenues by source and expenses by types will be presented in the State of North Carolina's June 30, 1992 Comprehensive Annual Financial Report (CAFR). The State's CAFR will also begin to present prospective trend information showing the System's progress in accumulating sufficient assets to pay benefits when due.

NOTES TO FINANCIAL STATEMENTS

North Carolina Licensing Boards Retirement Savings Plan:

All permanent full-time employees of the Board employed after July 1, 1983 participate in the North Carolina licensing Boards Retirement Savings Plan, a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate from the date of employment. The Board will match an employee's contribution up to 6% of an employee's gross pay. The Board's contributions for each employee (and interest allocated to the employee's account) are fully vested after five years of service. Board contributions for, and interest forfeited by employees who leave employment before five years of service are used to reduce the Board's current-period contribution requirement.

The Board's contributions were calculated using covered payroll of \$109,990. Both the Board and the employees made the 6% contribution, amounting to \$6,599 from each source or \$13,198 in total.

Note 4. Comparative Amounts

The amounts shown for 1991 in the accompanying financial statements are included to provide a basis for comparison with 1992 and are not intended to present all information necessary for a fair presentation of 1991 information in accordance with generally accepted accounting principles.
