RESOLUTION

Requiring the secretary of state to compile and print, once in every two years, a register of all officers and agents, civil, military, and naval, in the service of the United States.

Resolved by the senate and house of representatives of the United States of America, in congress assembled, That once in two years, a register, containing correct lists of all the officers and agents, civil, military, and naval, in the service of the United States, made up to the last day of September of each year in which a new congress is to assemble, be compiled and printed under the direction of the secretary for the department of state. And to enable him to form such register, he, for his own department, and the heads of the other departments, respectively, shall, in due time, cause such lists as aforesaid, of all officers and agents, in their respective departments, including clerks, cadets and midshipmen, to be made and lodged in the office of the department of state. And the said lists shall exhibit the amount of compensation, pay, and emoluments allowed to each officer, agent, clerk, cadet, and midshipman, the state or county in which he was born, and where employed.

2. *Resolved,* That the secretary of the navy subjoin to the list of the persons employed in his department, the names, force and condition of all the ships and vessels belonging to the United States, and when and where built.

3. *Resolved*, That five hundred copies of the said register be printed; and that on the first Monday in January in each year, when a new congress shall be assembled, there be delivered to the president, the vice president, each head of a department, each member of the senate and house of representatives of the United States, one copy of such register; and to the secretary of the senate, and clerk of the house of representatives, each, ten copies, for the use of the respective houses; that twenty-five copies shall be deposited in the library of the United States, at the seat of government, to be used like other books in that library, and that the residue of the said copies be disposed of in such manner as congress shall from time to time direct.

4. *Resolved*, That for the information of the present congress, such register as aforesaid be prepared and distributed as aforesaid, on the first day of its next session.

N. B. Agreeably to law, each principal assessor receives an annual salary of two hundred dollars, and three dollars for every hundred taxable persons contained in the tax lists delivered to the collector. Besides which, the reasonable expenses incurred for books and stationery are paid; but no allowances are made to principal assessors in states which have assumed the payment of their respective quotas of the direct tax.

As the accounts of principal assessors have, in but a few instances, been rendered for the present year, the materials do not exist at the treasury for stating the respective aggregate amounts payable to each officer.

ADVERTISEMENT.

The resolution of congress under which this register was compiled, requiring a statement of the amount of compensation allowed to the officers, agents, clerks, cadets and midshipmen, respectively, in the service of the United States, the states or countries in which they were born, and where employed, measures were adopted by the department of state at as early a period as was judged proper, to obtain the information called for, with regard to the officers and agents in any degree connected with that department, and who were employed within the limits of the United States,—the period prescribed for the completion of the work not admitting of a communication with those employed abroad; and the like steps were taken at the same time by the other departments, in respect to the officers, agents, &c. &c. under their superintendence. From a great deficiency of returns, however, many omissions and, perhaps, mistakes, as to the states or countries in which the persons holding commissions under the United States were born, have been unavoidable, and, from the same cause, still greater omissions will probably have occurred in relation to subordinate agents, not holding commissions, whose names, with the other particulars required, may have thus been altogether omitted. Oral information, too, obtained through personal enquiries, at the seat of government, has been relied upon in many instances, and this may not have been always correct. It is hoped, nevertheless, that the register, imperfect as it is from the above causes, will be found to answer, substantially, the end of the resolution of congress, under which it is compiled and published: but it is regretted that the appearance of it should have been thus long delayed, by the tardiness with which the returns, deficient as they are, were made.
