## NEW SHORT STORIES

**Tom Reed Got His Train.**  
Not long before his death Thomas B. Reed visited some friends at their summer residence at Watch Hill, R. I. Late in the afternoon he was driven up to Westerly to take the 7 o'clock train for Boston. It was a warm evening, the horses lagged and he missed the train, the last Boston bound train stopping at Westerly that night. As Mr. Reed had an important engagement in Boston early the next day, he seemed worried until he learned that there was a New Haven stamp attached to its original envelope.

**WHERE IS THAT LARGE PARTY?**  
ed that there was a Boston express which passed through Westerly at 9 o'clock. Then he smiled. Going to the telegraph office, he directed a telegram to the superintendent of the road in Boston and sent the following message: "Will you stop at 9 o'clock express at Westerly tonight for a large party for Boston?" The answer came: "Yes. Will stop tonight."

**The Description Was Vague.**  
Assistant Attorney General Charles H. Robb, who became famous by his work in running down the postal grafters a couple of years ago, began the practice of law in a small village in Vermont, says the Brooklyn Eagle. He knew all the people of the town, as well as many of the farmers in the surrounding country.

**Those Interesting Husbands.**  
The late Mary A. Livermore liked to tell a story of a young friend of hers in Melrose, for she believed that in this story lay a lesson for husbands. Mrs. Livermore's friend was passing a month alone, her mate having been summoned to Europe on a business matter.

**Forests of Liberia.**  
Liberia's forestry resources offer an inviting field for a lucrative business in hard woods. The virgin forests consist of woods of great commercial value, and there are ample water facilities for sawmills. There are two varieties of mahogany, red and gray; four varieties of oak, red, streaked, white and whitestone; cedar, rosewood, mangrove, burrwood, white and black gum, mulberry, brinestone wood, red peach, pepper wood, white mangrove, persimmon, ironwood, greasy peach, poplar, cherry, hickory, saffron, ebony, locust, and many others.

**Electric Fan Sore Throat.**  
The reason the "electric fan cold" is so often accompanied by sore throat is, according to a doctor whose downtown location brings him many such cases, that the draft made by the fan carries so much dust with it. "The fact is," says this authority, "that the air stirred by the fan is not fresh air, unless the fan is backed up against an open window. When operating in an inside room or in similar places where it is most appreciated the fan uses the same air over and over, and this air gathers up and keeps in motion all the available dust."—Philadelphia Record.

**Energy of Radium.**  
The quantity of energy put forth by radium is very large. Expressed as heat, it is sufficient to raise its weight of water to boiling point in an hour. Expressed as power, the energy of a saltspoonful would lift 500 tons a mile high—power 20,000 to 1,000,000 times as great as that developed by the most powerful chemical energy hitherto known.

**The Tools He Lacked.**  
"Why don't you go to work?" said a charitable woman to a tramp before whom she had placed a nicely cooked meal. "I would," replied the vagrant, "if I had the tools."

**Cramp in the Legs.**  
People who are subject to cramp in the legs should always be provided with a good strong piece of cord, especially in their bedrooms. When the cramp comes on take the cord, wind it round the leg over the place where it is cramped, take an end in each hand and give it a sharp pull, one that will hurt a little, and the cramp will cease instantly. People much subject to cramp in bed have found great relief from wearing on each leg a garter of wide tape which has several thin slices of cork stitched on to it.

## CHOICE MISCELLANY

**Rarities in Stamps.**  
The stamp was round. It bore the plain inscription, "British Guiana, 2 cents." There was no ornamentation on it of any kind.

**Kind Deception.**  
"She is always thinking of her husband's comfort and peace of mind," said one woman.

**A Matter of Course.**  
"Do you know anything about serving dinners?"  
"Yes."  
"Well, then, what follows Welsh rabbit?"  
"A bad dream."—Cleveland Plain Dealer.

**The Reason.**  
"Now, why is it," asked the father, "that we celebrate your birthday, Willie?"  
"Because I wasn't twins, I guess," replied the penetrating youngster.—Puck.

**Jays of Matrimony.**  
Miss Knox—I suppose you and your wife get along well together?  
Mr. Smith—Oh, yes—that is, we get along well together when we are not together.—Cincinnati Enquirer.

**His Small Needs.**  
"How are you progressing in a literary way?"  
"Fine! All I need for my new novel is a name, a publisher and enough to live on till it's published."—Atlanta Constitution.

**He Stood Corrected.**  
"Hush, Harold! It's wrong to say any one is going straight to the Old Boy."  
"That's so. You have to be crooked to go there."  
To Be Considered.  
Papa—I don't know why anybody ever thought of giving babies rattles to play with.  
Mamma—But think of the noise they would make if they didn't have them.—Brooklyn Life.

**Quer.**  
Towne—My wife never likes me to refer to her age.  
Browne—My wife's funny that way too. She doesn't want me to remember her age, and yet she gets mad if I forget her birthday.—Philadelphia Press.

**Good Security, Anyhow.**  
"Why do you think your son-in-law has natural ability as a financier?"  
"He induced me to lend him the money to buy my daughter's engagement ring."—Chicago Record-Herald.

**Flavor as Well as Odor.**  
Barber—I am trying a new kind of imported soap. Don't you think the odor is excellent?  
Customer—Fine! The flavor is good too!—Milwaukee Sentinel.

**Deserving.**  
"She has worked hard for her social position, hasn't she?"  
"Indeed, yes. Why, I understand that she is the heroine of three scandals."—Life.

**If the Japs Are Like Us.**  
It's Togo this, And Togo that, And Togo shoes, And Togo hats, And Togo waists, And Togo skirts, The Togo shirt, And Togo tie,  
If Japanese are like Americans,  
It's Togo songs, And Togo plays, And Togo jokes, And Togo stays, And Togo drinks, Then, like as not, In one short year, The man's forgot If Japanese are like Americans.—Chicago Chronicle.

**A Queer Thing About July.**  
How we came to pronounce July as we do now with the accent on the second syllable is one of the unsolved mysteries of speech. Named, of course, after Julius Caesar, it should really be pronounced to rhyme with "July," and so our forefathers actually did pronounce it. Spenser, for instance, has the line, "Then came hot July boyling like to fire," and even so late as Johnson's time the accent was still on the "July." It is one of many words which would startle those ancestors of ours, spoken as we speak them now.—London Chronicle.

## HUMOR OF THE HOUR

**Willie's Essay on Essays.**  
There are many kinds of essays, such as the maggotic essay, the religious essay, the literary essay, the school essay and so forth, but the funniest essay is the small boys essay. The small boys essay is written by a boy after he grows up. By the time he gets baldheaded and is so old that he wears shoes that are not too small for his feet he begins to write boys essays and sell them to the papers. Real boys ree essays on trees and home and hope and why we should ever strive to be good and true, but when bald-headed men ree boys essays they ree about wimmen and stiles and howse cleeing and so fourth.

Official Paper OF THE CITY OF SONOMA

WEEKLY EXPOSITOR

PUBLISHED EVERY FRIDAY BY W. O. HOCKER Editor and Proprietor. SUBSCRIPTION RATES: One Year (payable in advance) \$1.50...

PHONE, MAIN 83. FRIDAY, August 18, 1905.

TO ADVANCE THE PACIFIC STATES

SEATTLE, August 18.—At a meeting of the Seattle Chamber of Commerce, held here to-night, Rufus P. Jennings, of the California Promotion Committee, urged a closer co-operation of all the Pacific States and advocated an alliance of commercial organizations of the entire region west of the Rocky Mountains, to define public sentiment for progress, so that the Pacific States Congressional representatives at Washington will be assisted in their efforts to bring the Pacific States to the front in national affairs.

Mr. and Mrs. J. M. Cheney are visiting their son, Charles, at Sparks, Nevada.

Mr. and Mrs. H. H. Appleton have returned from Crescent City, after a pleasant visit with their son.

Mrs. Wm. McElroy and daughter Miss Lucy, spent Wednesday in San Francisco.

Wm. Clew transacted business in the metropolis one day this week.

Frido Clew returned to Sacramento Wednesday morning after a few days' visit with home folks in Sonoma.

County Surveyor N.V. Smyth had business in Sonoma this week.

J. M. McGimsey and E. Clement are in Mendocino county for an outing. Dr. Thomson and P. Yenni expect to join them soon.

O. A. Aspen of Marin county, was shaking hands with his many friends here Sunday. Before leaving he found time to pay the Expositor office a pleasant call.

J. H. Alberison has been appointed agent and collector for the Sonoma Water Works.

Harry Tenney, the fistic expert, is visiting friends in Sonoma.

L. L. Draper took in the races at Santa Rosa to-day.

Henry Hopper and wife arrived in Sonoma from Portland on Wednesday and are guests at the Burris home near the High School.

BIG RATTLER KILLED

Otto Rufus dispatched a huge rattler that was approaching town near his home east of town on Sunday last.

Mr. Rufus' aim was true as after the smoke cleared away there lay the huge reptile minus his head and with nine rattles to his credit.

BROKE THE BUGGY

Dr. Thomson and his grandmother Mrs. McClurg, came near having a bad accident while out driving last Sunday evening.

The Doctor was driving his new horse, McKinley, and in passing another team was run into the ditch along the road. The passing team did not give a fair share of the road by a wide margin, hence the accident.

The buggy was badly broken but luckily neither occupant was hurt.

IMPROVING BIG RANCH

Between 800 and 1000 acres more of reclaimed land of the Jones ranch south of here will be broken for seeding next year. The sum of \$3500 has been expended this week for horses. An extra force of men will be put to work at once.

MADRONE NEWS

The young ladies should keep an eye on Mr. Dakin as he is breaking another buggy horse this week.

IN JUSTICE COURT

V. Paci, who keeps a road saloon at Agua Caliente, had his brother, Natale Paci, arrested for disturbing the peace in the neighborhood.

From the testimony heard at the trial, Tuesday afternoon, it seems that the accused refused to take a drink in Paci's place when he had been invited to do so by some strangers who came to quench their thirst.

The refusal so angered the proprietor that he forthwith ejected his brother and afterwards had him arrested on the above complaint.

The Judge fined the defendant \$15 which his brother, the complaining witness in the case promptly paid.

Moral: It is better remain away than to take a shingle off the roof of a thirst emporium.

UNKNOWN SUICIDE

While working in the Catholic Cemetery Tuesday afternoon, Wm. Trudgen saw, what he supposed was a man sleeping near the front hedge.

On near approach he discovered that the man was dead. He also saw beside him a revolver and a box of cartridges.

He immediately drove to town and notified the officers.

Dr. Thomson went out in his automobile by request and saw that the man had been dead several hours probably a day or so.

The circumstances point to a deliberate suicide. The unfortunate man had made himself a bed of dry grass, took off his shoes and apparently deliberately shot himself.

Marshal Albertson notified Coroner Blackburn who came over and held the inquest.

The verdict of the jury was that the unknown man was about 40 years of age and that death resulted from a gun shot wound inflicted by himself.

No papers or other marks of identification were found upon the body, but a carpenter's rule and two pocket knives were found in his pockets but no money.

Various rumors are afloat in regard to the unknown.

A. Entelman believes that the suicide was the man to whom he was talking with last Saturday as his dark suit, hat and shoes tally with those worn by the stranger who was inquiring about a small place for sale.

Mr. Jones of Eldridge, upon hearing of the suicide, said that a man answering that description had worked at the Home for two weeks, during which time he made frequent threats to end his life. He worked as carpenter. He left there Saturday evening.

The unknown was neatly dressed in a dark suit, common workmen's shoes and wore a dark felt hat.

His hair and mustache were dark brown and he was supposed to have come to Sonoma last Saturday morning.

Catarrah cannot be cured with local applications, as they cannot reach the seat of the disease. Catarrah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrah Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrah Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. HAD FINE SPORT

"Grand Prize Camp" was the restful abode of a party of local and San Francisco gentlemen for the first two weeks of August.

It was located in the wilds of Mendocino Co. about ten miles from Latonville.

Fishing and hunting were the principal amusements of the campers. A royal good time, with plenty of fine hunting and fishing was had.

The party was composed of Carl Dresel, C. C. Weiss, F. Kerridge, Wm. Clew, Chas. Nau of Sonoma Valley and Dr. Dresel of San Francisco.

Thompson's idea that every man has a right to the pursuit of life, liberty and happiness, seemed to be the prevailing one with the members of "Grand Prize Camp."

They secured the evidences of activities, to wit: Eight fine bucks, all kinds of mountain trout and two large rattlers, over four feet in length.

The gentlemen feel greatly refreshed by their outing.

THE RACE MEET

The Pacific Coast Trotting Horse Breeders Association meeting in Santa Rosa, is proving a big success. Great crowds are witnessing the fine sport at the track.

Over \$14,000 will be given away to winners in the various racing events.

BLACKSMITH WEAVER

The El Verano correspondent of the Expositor made a slight mistake in a recent issue in saying that "Roxey Murphy" was being groomed for the next race meet.

It is her owner, A. W. Weaver, the El Verano blacksmith, who is grooming to shoe the race horses. The horse he shoes always wins. See? Mr. Weaver is an expert at horseshoeing. Ask his hundreds of satisfied customers.

Calsal Cures Rheumatism

Read what Mr. Jack Kennedy has to say about Calsal. CALSAL CO., Sonoma, Cal. Gentlemen—I have had rheumatism for years, was compelled to remain in bed for weeks at a time, could not move my limbs or arms, have tried many Springs, and in fact have tried everything, without success, until I came across Calsal through a friend of mine that had been cured by carrying the same. I purchased two sacks and wore them as directed, nearest the pain, and I must say after wearing the sacks for one week I felt better, and now I am absolutely cured, have no pain whatsoever. I believe Calsal is the greatest cure for rheumatism. I would not be without it.

The sweetness of the first embrace with the woman of his choice will always linger in a man's mind. It is a pity that the sweet memory should ever be poisoned by the taint of ill health and consequent unhappiness. It is sad that the flower of a happy remembrance should be obscured and killed by the noxious weeds of sickness and sorrow. Too frequently this is the case. A woman cannot be a happy, helpful amiable wife who suffers from weakness and disease at the very main springs of her nature. Pity may grow up to take its place, but love itself seldom survives where this is the case. If a woman will, she may always hold her place in a man's mind and heart. If she will take the right care of herself in a womanly way she will never lose her rightful inheritance, a husband's love.

The best of all known medicines for women is Dr. Pierce's Favorite Prescription. It acts directly on the important and delicate organs that make wifehood and motherhood possible and

makes them strong and well. It allays inflammation, heals ulceration, soothes pain and tones up and builds up tired nerves. It prepares for almost pangs motherhood and insures healthy children. Thousands of women who were sickly, nervous, fretful invalids are now happy, cheerful and helpful wives as a result of its use. All good medicine dealers keep it, and there is nothing "just as good." Any dealer who tries to persuade you that there is, is thinking more of his profit than of your welfare and health.

"I have been taking your medicine for the last three weeks and can say I am gaining strength," writes Mrs. Sarah Kiny, of 906 East Madison Street, Mount Pleasant, Iowa. "I have been having very poor health all winter. I doctored with our family doctor but was relieved only while taking the medicine. I took Dr. Pierce's medicine several years ago. I knew it was good for any one suffering with female troubles. Have taken only one bottle and am gaining strength very fast. I could not get to sleep when I began taking the 'Favorite Prescription.' Heart troubled me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. If I continue with your treatment an positive I will be cured."

"I can strongly recommend Dr. Pierce's medicine, especially the 'Favorite Prescription' and 'Golden Medical Discovery,'" writes Mrs. Clara Gardner, of Rainey, Mo. "I suffered from nervous debility, brought on by hard work and trouble. Had suffered several years with the same trouble. I began taking only one bottle and am gaining strength very fast. I could not get to sleep when I began taking the 'Favorite Prescription.' Heart troubled me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. If I continue with your treatment an positive I will be cured."

KNOW THYSELF.

Your most important knowledge is knowledge of yourself. You should read a complete "Doctor's" book, called Dr. Pierce's Common Sense Medical Adviser. Has reached its sixty-fifth edition or 2,100,000 copies. Sent 21 cents in one-cent stamps, for this 1008-page book in paper covers, or 31 cents for a copy in its cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

### SONOMA VALLEY CO. BIG ENTERPRISES OF A BIG CLOSE CORPORATION

Plans have been adopted for the organization of a big corporation for Sonoma Valley, to be known as the Sonoma Valley Co.

We learn from a reliable source that it is the intention of the company to build and operate an Electric Railroad from the C. N. Depot in Sonoma, along First St. East to the Postoffice, thence west along Napa St. to the city limits, and then continue through El Verano, Boyes' Hot Springs, Agua Caliente Springs and Eldridge to Glen Ellen.

The promoters of the new enterprise have already secured an option on the Schacken and Weber electric franchise granted some time ago by the City of Sonoma. They have also purchased an option on the plant and franchise of the Sonoma Valley Co. (C. T. Ryland's electric light plant).

The plans of the promoters are to build and operate a Creamery, extend the electric light wires through the places above mentioned to the thriving little town of Glen Ellen, thus furnishing all those places with electric light and power.

Abundant capital has already been enlisted and there will be no stock sold in the new corporation, it has all been spoken for by those who have interested themselves in the undertakings.

The leading spirits in this great enterprise has been over the ground thoroughly and are more than satisfied with the outlook.

We learn from one of the parties most interested that the work of constructing the creamery, railway and electric light line will be pushed ahead with all possible speed.

Sonoma Valley will certainly, upon the completion of these undertakings, receive a great impetus to the boom that's been ours for the past three years.

### LOCAL ITEMS

It was not Mrs. Forni's horse that ran away last week in El Verano and injured Mr. Goldman as was at first reported. The animal belonged to another party.

Read the new ad of H. L. Tripp elsewhere in this issue. He has some exceptional bargains to offer in the clothing line.

F. Ralph Starke, of Penngrove and Miss Magdalena Katherine Salazar, daughter of Mr. and Mrs. Garrity of Vallejo, were married in Petaluma on Monday. Rev. Father Dollard performed the ceremony.

Eph. Weiss, the expert refracting optician, will be in Sonoma, at the Union Hotel, Sept. 2nd.

The Broadway market has just received a car load of fine water-melons.

Dr. Nufer, Veterinary Surgeon, is taking another new course of study and practice at the San Francisco Veterinary Hospital and College every Monday, Tuesday, Wednesday, Thursday and Friday, for some months to come, but Saturday and Sunday he will come to Petaluma and Sonoma.

The many friends of Mrs. Keil, mother of F. G. Keil will be sorry to learn that she has been seriously ill of late and has been taken to St. Luke's Hospital, San Francisco, for treatment. An early improvement in her condition is sincerely hoped for.

Just received at Dunbar's.—the best kind of steel ranges, modern in every particular.

We acknowledge with thanks a box of fine peaches presented by Mr. Ole Johnson of Agua Caliente.

R. E. Ent of El Verano has branched out into a new field of labor. He has had considerable experience as a sign advertiser and believes that there is a field here for that work. Read his ad in another column.

M. Miller, the shoemaker, has just received a large invoice of leather findings of all kinds.

### GLEN ELLEN

The building boom at Glen Ellen still continues and the buildings under way are rapidly nearing completion.

One day last week a Native Daughter appeared at the home of Mr. and Mrs. David R. Johnson, who reside in the Graham Canon. These good people have recently arrived from Australia and have made their permanent home in this place.

Mr. Brammer and family will remove to Santa Rosa.

Rev. Mr. Chakurian and family are enjoying their annual vacation.

Wm. L. Ashe has leased his farm and will move to Berkeley with his family. We are sorry to lose Mr. Ashe from among us.

A social hop will take place at the Mervyn Hotel, Aug. 19. The usual good time is in store for all who attend.

Several day experts visited this place, making a stay of several hours. Their report is very favorable and great things may be expected.

Mr. and Mrs. Wm. Provinces were the happy recipients of a bouncing baby girl last Monday. Billy is the popular engineer of the C. N. R. Y. Co. and of course took a few days off to celebrate.

Jim Pieratt, Behler brothers and Jerry Lafiery spent a few days among the deer haunts on the Sonoma mountain. They came home empty handed, with broken promises, tired and hungry. Jim is all right on geese, Jerry on a bear hunt, the Behler brothers on snipe, but they ain't worth shucks on deer.

### FREE LECTURE

Mr. Edward B. Payne has kindly consented to deliver a lecture on Friday, Aug. 25th, at 8.30 p. m., at Mayflower Hall, Glen Ellen, under auspices of the Woman's Improvement Club. Mr. Payne is well and favorably known in the lecture field, and handles his subject in masterly style. We hope all who can do so will avail themselves of this opportunity to hear him. Admission free.

### BONE OF A MAMMOTH

While digging a well recently on the P. H. Thompson place on the Napa road, the workman unearthed a huge bone. Although a large part of the bone had wasted away the remainder was still too large to belong to the largest known animal of that day.

It is therefore believed to be the bone of some mammoth of prehistoric times possibly an equidomonausaurus.

### DR. GERBER ARRESTED

Dr. Gerber was arrested last Saturday in San Francisco on the charge of practicing medicine without a license.

After being detained about two hours, he was released on bail furnished by Dr. G. D. Rich, his associate in business in San Francisco.

Dr. Gerber claims, as his defense, that he used no drugs or medicines in his practice, but on the contrary used the natural method with his patients.

In due time the case will come to trial.

### FIRE THIS MORNING

About 3 o'clock this morning, W. N. Thompson was awakened by crackling sounds and found his home, opposite the Hunter place, just off Broadway, full of smoke.

He rushed out the front door to ascertain the cause and in looking into the kitchen window, saw that his house was ablaze. He entered the house immediately and endeavored to save what he could but only succeeded in rescuing a few valuables and some bed clothes.

The cottage which is a new one and outside the city limits, was totally destroyed.

Some of the neighbors were aroused and did what they could, but the destroying element had gained too much headway and there was a lack of water.

The fire is supposed to have caught either from live coals falling from the stove into the wood box or from a defective flue.

The building and contents were insured in the Fireman's Fund Ins. Co. for \$400.

The Greater Gain
By FRANK LILLIE POLLOCK
Copyright, 1904, by Frank Lillie Pollock

THE fortnight following his wife's death passed very slowly to Walter Lindsay, professor of English literature and language at the college of Rammes City. He did not leave his home, and he was about to resign his chair--and he dragged out the twenty-one empty days in the falsest of positions. He had to receive the condolences of his friends and pretend that the woman's death meant something besides emancipation. He was ashamed to catch himself even thinking of it as such. He rejoiced, but in mental stealth, and in the midst of these emotions he was surprised by the strong and sharp sense of physical bereavement--the sudden removal of what had so long been a part of life to be endured. His literary ambitions had never deserted him, though for the last decade he had had little time and less heart for actual work. But he had always tried to keep the flame alight. He remembered the time when his friends had thought the highest prizes not beyond his reach. He was only forty-one even now--a man's best age. Under the stimulus of anticipation he tried to start something new, but he could not settle his mind to an unstained effort. He postponed beginning work till he should be well settled in New York. He telegraphed his friend Russell to meet him at the ferry on Thursday.

That the earth will eventually dry up and all living things will die of thirst is the theory of a scientific writer. He says that in the far future, Asia, as it is named in all the great levels of the world, the water beds are drying up. Many lakes well known during the historical period have entirely disappeared, while others are shrinking rapidly. Exploration has shown that Asia is proved that for centuries a zone stretching from the east to the southeast of this part of the earth's dominion has been drying up. Deserts are gradually spreading, and reports show that in some of the little countries of mountain round whose brows vapors condense and fall, that irrigation can be carried on or life itself be preserved. Minute Animal Life. "The microscope teaches us," says a scientist, "that there are animals so wonderfully minute that if a thousand of them were ranked abreast they could easily swim, without being thrown out of order, through the eye of the finest cambric needle ever made. Yet each of the minute creatures is a highly organized number of particles, capable of moving about, of feeding and devouring food and of behaving in all respects as becomes an animal distinguished from a fragment of unorganized matter." The human mind is utterly incapable of realizing the minuteness of these little creatures and of fully appreciating their marvelous adaptation to the life they are destined to lead. Authorship as a Profession. Nobody should write who does not firmly possess of the idea that he has a vocation for literature and is not willing to endure the penalties of art for the sake of serving an art. If a person who writes in that spirit makes a living he earns it. If he makes a fortune he deserves it.--New York Times.

WOMAN AND FASHION
An Effective Design.
Suspenders waists continue to be a conspicuous feature of the wardrobe, and the addition of a prettily shaped yoke adds a touch of newness. Fine

POINTED PARAGRAPHS.
An elderly person is a mighty poor judge of a circus.
We don't blame the children. We have done worse than kick and scream to have our way.
The young hate work, but it is the last pride, the last joy of the aged, that they are able to do it.
Sometimes a hostess has this kind of misfortune: Her guests have such a good time they don't want to go home. Be careful what you say to some people. [N. B. On second thought they have decided not to use that word "some."]

ON THE DURABILITY OF BRIGHT'S DISEASE
(By the Editor of the Town and Country Magazine, July number.)
Personally I have not believed that chronic Bright's Disease is curable, and that this is the opinion of two distinct reasons:
First--Medical works class it as incurable and fatal.
Second--Those I have known who had it have never recovered.
Result--I look with distrust upon all claims of alleged specifics.
