CLEVER ENTERTAINERS.

As announced in our report of the 9th last of a soiree musicale, given by pupils of the Alexandra Royal College of Music, the competitive examination was duly held at Wait's hall yesterday at 3 o'clock in the presence of a unique jury of six selected from among Victoria's most prominent amateur and professional musicians. That such an examination is rendered possible marks a distinct epoch in Victoria's musical history. Only past masters (as represented by the jury) could discriminate which of the selected ladies who competed at the examination gained the greater number of points on the eight subjects for competition. Those who composed the jury were: Miss Loewen, Mrs. Wheeler, Mrs. Crickmay (nee Dawson), Herr Emil Pfender, Mr. Watkins and Mr. Werner. Pupils were examined in rhythm, expression, temperament, interpretation, technique, quality of touch and phrasing.

chen; Miss McGregor, Study Opus 740 No. 26; Moment Musical No. 2; Miss Harris, Fantasia Impromptu, Valse (in flat major); Miss Powell, Miss McGregor and Miss Harris, Obligatory Selection, Impromptu in F flat. Mrs. Harris's and Miss Harris's Pupils—Miss Shaw, solo; Miss Kathleen Shaw, solo and duet; Miss Anderson, solo, march, duet; Miss Chapman, duet, Sonata, No. 11 and Obligatory Selection; Albert Hartman, Reigen, Reigen. Herr Storck's Intermediate Class—Miss Fuggle, Miss White, Miss Tilton, Miss Blanchard and Miss Hall, Obligatory Selection, Valse 12.

PLEASANT CURE FOR WEAK LUNGS.

The best remedy for sore, weak lungs, is the soothing vapor of Catarrhzone which traverses every cell and passage of the breathing organs. It treats remote parts that cough mixtures and sprays can't approach, and kills thousands of germs at every breath. Catarrhzone drives away pain, congestion and inflammation; it makes breathing easy and regular, and exerts a marvelous influence on Coughs, Colds, Sore Throat, Bronchitis, Catarrh, Deafness and Lung Trouble. Catarrhzone cures at once, is delightful to inhale, and simple to use. Price \$1.00; small size 25c. Druggists, or Polson & Co., Kingston, Ont. Dr. Hamilton's pills cure Constipation.

GENERAL PUBLIC VIEW POPE'S BODY

RELATIONS BETWEEN VATICAN AND ITALY

It is Regarded as Significant That the Italian Troops are Now Being Utilized.

(Associated Press.) Rome, July 23.—Today the form of Leo XIII. lay in state in the Basilica of St. Peter's, while thousands of persons from the ordinary walks of life filed past to pay their last tributes of love and veneration. The impressive ceremonies of yesterday were viewed by only a favored few of the nobility, aristocrats, and the highest clergy, but today the doors were opened to the entire public.

Today the doors were opened to the entire public. Many remained on the piazza throughout the hot night in order to gain a place at the head of the line. By 5 o'clock this morning there was a crowd of several hundred, which had increased by 6 o'clock to several thousands. Elaborate preparations had been made to guard against accidents. All converging streets were cleared of vehicles, leaving them free for foot passengers, while six ambulance stations had been erected, including one at the entrance of the piazza, and another beside the door of St. Peter's.

Italian Troops Enter.

Exactly at 6 o'clock the bells of the great cathedral began to ring mournfully, a small bell beginning in the high notes, and the chimes running down through the scale until a deep bass note had completed the minor chord. At the sound of the first bell two regiments of Italian grenadiers marched smartly across the piazza to the stone steps, and across the steps—swarmed for the first time in years with Italian troops, 500 on the portico and 1,200 surrounding the colonnades. The grenadiers wore long blue service coats and peaked caps, they stood in double column at parade rest, the lines extending from the threshold of the church through a narrow gate of a temporary wooden structure, which was holding back the crowd. At five minutes after 6 the gate was opened, and the human tide began to flow in. The jam at the narrow entrance soon became terrific, threatening serious results in the struggling mass of half fainting women and children. Although the crowd was not extraordinary large the steady movement into the funnel-like enclosure made the pressure terrific. Many women had their dresses or veils torn off, and some were lifted exhausted out of the wooden enclosure and out of the crush. Fortunately there were no serious accidents, and the ambulances were not summoned.

Body on Catafalque.

Within the church temporary railings had been erected to keep the people in a straight line leading to the bier. This was the centre to which all eyes were directed. The body lay on a catafalque ten feet high so that all could see it. The body was slightly inclined, with the head raised and facing the passing throng. The visage had a chalky whiteness, and appeared to be unnaturally shrivelled. It was raised in the full vestments as the Roman public knew the Pontiff in life. Around the bier burned 13 high candles, while on each side stood the noble guards, motionless. Further back were kneeling priests and acolytes softly intoning. The crowd pushed against the iron trellis which separates the chapel from the main portion of the church, but those who expected to kiss the shrouded foot were disappointed, as the officials adopted precautionary measures so that the lower extremities of the body were half a yard back of the iron grating. All ranks and stations of life were represented in the throng, many were working people, there were also groups of convent girls under the care of the nuns, and of school boys, headed by priests. The crowds continued to pass before the bier throughout the morning.

Requiem Mass.

At 9:30 a solemn pontifical requiem mass was celebrated in St. Peter's for the repose of the soul of Leo XIII. The crowd was kept constantly moving within the wooden barricades, but other entrances were provided for those desiring to assist at the mass on the other side of the church. Several thousand people were present. In so vast a church capable of containing 70,000 persons they appeared to be a mere handful. During the hot hours of the day the crowd at St. Peter's experienced little difficulty in viewing the body.

A Significant Feature.

An extraordinarily significant element was introduced later in the morning by Italian soldiers entering the church for the maintenance of order in full uniform, wearing their caps and rifles. They lined the sides of the Basilica and stood two deep in front of the bier, itself, until the whole church assumed an aspect at most more military than religious. The event, which was unprecedented, created widespread comment. The presence of soldiers was generally interpreted to mean another step toward a rapprochement between the church and the state, as heretofore the Vatican has always maintained that it had a sufficient force of soldiers to insure order within its own territory, and the inference is drawn that the Vatican and the government have come to such an agreement that Italian troops may,

during the lifetime of the next Pope, be employed in and about St. Peter's to preserve order during the great ceremonies.

LAST VICTIM FOUND.

Again Shipping Coal From Ladysmith—R. Cassidy Will Represent Colliery Company.

(Special to the Times.)

Nanaimo, July 23.—The body of the remaining victim of the Cumberland disaster was found last night under a fall of rock, horribly mangled. The inquest will now be proceeded with immediately. R. Cassidy, K. C., has come up to Cumberland to represent the colliery company in fighting charges for infringement of the law in employing Chinese underground.

Steamer Hero left Ladysmith last night with the first cargo of coal since operations resumed at Extension. She had six thousand tons.

AN ELECTION SCHEME.

People at Cumberland So Regard the Action Against Employing Chinese.

(Special to the Times.)

Cumberland, July 23.—D. M. Rogers, of Victoria, representing the government, will prosecute the Wellington Colliery Company before Magistrate Abrams this afternoon, the case would have come up earlier but they are waiting for the company's counsel. If defeated here, Mr. Rogers says it will be taken to the higher courts, even to the Privy Council.

People here regard it as only an electioneering scheme. Many men talk of going to work, and it is thought the union may decide to do so to-night at its regular meeting. A few Chinese are working in No. 6 to-day, but they do not like it while the body of their countryman remains in it.

REVIEW AT PHOENIX PARK.

The King Surrounded By a Brilliant Staff Witnessed Naval Brigade March Past.

(Associated Press.)

Dublin, July 23.—King Edward to-day reviewed 35,000 troops and 5000 men of the navy before the Phoenix Park. The weather was most favorable, bright sunshine permitting the wearing of summer costumes and producing the consequent color effect. When the ground was packed by tens of thousands of spectators it made by far the most brilliant scene of the many witnessed since their Majesties arrival in Dublin. It was the largest muster of troops ever seen at a review in Ireland. The Duke of Connaught was in command. The King, who wore the uniform of a field marshal, was attended by the Lord Lieutenant, the Earl of Dudley, and a numerous suite. Prior to leaving the vice-regal lodge His Majesty presented colors to the Royal Irish militia school.

RAILWAY APPLICATIONS

Disposed of in Committee at Ottawa—Investigation Into Land Sale.

(Special to the Times.)

Ottawa, July 23.—At the railway committee to-day the application of the Vancouver, Victoria & Eastern railway for approval of the location of its railway in the vicinity of Phoenix and the crossing of streets in Phoenix was granted. Hal. McGovern appeared for the railway.

FOUR APPLICATIONS OF THE VANCOUVER, YUKON & WESTMINSTER RAILWAY FOR LOCATION AND CROSSINGS ON THE STREETS OF VANCOUVER.

Yukon & Westminister railway for location and crossings on the streets of Vancouver were held over at the request of the city of Vancouver, the city wishing to be heard. Aulay Morrison appeared for the railway and Mr. May, of Ottawa, for the city.

Special Committee.

Mr. Wilfrid Laurier, at the request of F. D. Monk, representing Jacques Cartier, consented to give a special committee to inquire into the sale of land at Beauharnois for a post office in which it was said G. M. Loye, M. P., was interested.

NO INTERFERENCE.

Mr. Justice Martin Would Not Undertake Matters Pertaining to County Judge.

(Special to the Times.)

Vancouver, B. C., July 23.—Mr. Justice Martin made a vigorous protest this morning to hearing the application of Joe Martin, counsel for Coote, for permission to have the perjury trial by jury rather than before a judge alone. He said such an application should come before the County court judge, appointed for that purpose. It was drawn to Mr. Justice Martin's attention that Mr. Justice Walker had dealt with the matter last week.

"I can't help what Mr. Justice Walker did," replied Mr. Justice Martin, "but I consider it would be an impertinence for a Supreme court judge to interfere with the local judge in hearing applications in these cases."

C. H. Reynolds, chairman Pacific cable board, arrived here to-day. He is on his way to Bamfield Creek, where he expects to meet the cable steamer Iris in a couple of days.

Large Distribution Station.

The Vancouver Power Company will immediately commence the erection of a forty thousand dollar distribution station at the corner of Westminster avenue and Keefer street to handle the current from Lake Bennett works.

Double Tracking C. P. R.

The C. P. R. will double track its entire main line inside the city limits. Death of Centenarian. Mrs. Ann Gill, of Mount Pleasant, died to-day, aged 101.

HIGH RATES WILL SOON BE ENFORCED

ON THE WHITE PASS AND YUKON ROUTE

Company May Keep All Steamers Running Because of Increased Traffic—Mining Operations.

From now until the rates advance, according to the schedule which it is intended shortly to introduce, merchants of this city will be anxious to forward their shipments to Dawson with all possible dispatch.

Within three weeks the special freight rates of the White Pass will be discontinued, and all freight brought down the river after that time will be carried at the higher rates of the classified list. The Yukon-Sitka of July 12th. "On the tariff sheets issued by the White Pass the season is announced that the special bills of lading and rates would expire August 31st. "Because of the special rates not applying after the end of next month, it is possible that the White Pass may be able to operate the entire fleet right through the season this year. Stocks of supplies and provisions were practically exhausted this season, all the bonded warehouses having been emptied by the latter part of June. This means that a great quantity of goods is yet to come to stock-up for the coming winter season. Naturally shippers will attempt to take advantage of the lower rates, prevailing before August 31st, and a big rush of business, beginning in a week or two, is anticipated by the White Pass.

"The special commodity rates cover all staples and the goods yet to come are nearly all of this class. The class rates are all higher than those quoted for freight in groups 1, 2, 3, 4, 5 and 6 of the White Pass tariff. The same applies to other special rates, such as those named for hay, oats, feed and lumber.

"The fact that the White Pass has kept the whole line of steamers running between White Horse and Dawson this season is significant in that it indicates a better and larger traffic than last season. It was thought earlier in the year that some of the boats would be taken off the run before this time."

The Yukon Sun says: "For the first time since beginning mining operations on the Violet quartz group, the owners are in a position where they can afford to permit the public to have definite information. The assays of the ore taken out vary largely, but the average is about \$30 a ton. So sanguine are the promoters of the enterprise that they have sent Dan McLennan, the mining expert, to Juneau, with the idea in view of securing a ten-stamp mill.

"Another heavy deal in mining property has been recorded, which included the transfer of seventeen claims located on Bonanza, near the mouth of Little Skookum gulch. The vendor is McDonnell's Bonanza (Klopfeld), Limited, which was organized in an early day by Alex. McDonnell, and which brought from him a large number of claims including those in the sale just consummated. Of the seventeen claims transferred there was but one in the creek, that the lower half of 2 above, the balance being hills and benches adjoining No. 1 and 2 above on Bonanza, left limit, and No. 1, Little Skookum. The purchasers are Staff Mitchell, the well known owner of No. 1 Eldorado, W. F. C. Wilkinson and H. B. Mitchell. The consideration named in the bill of sale is given as \$1,731, the actual price paid is not known except to those directly interested.

"Among the first claims on the creek to establish extensive mining plants was No. 2, the contrivance employed in handling the dirt being about the only one of its kind ever in the country. Track was laid on bedrock over various parts of the claim over which were run ore cars, which conveyed the gravel to an incline. An engine drew the cars to a height of probably fifteen feet and dumped the contents into the boxes, the water being pumped up by a large centrifugal pump. Bedrock in places was fabulous in height, some containing as high as \$1,000, being secured in specially favored spots. The upper half of No. 2 the company sold some time ago to B. Fassender.

"Miller, over in the Sixty-Mile country, is the scene of active mining operations this summer.

"The greatest amount of work on the creek will be done by the X. A. T. & T. Company. Preparations are being made to work the ground on a large and profitable system. A hydraulic plant has been installed and a ditch 24 miles long is being dug to carry the water. This ditch will have about 1000 inches of water. Sixty-five men are now employed on the hydraulic system, and good progress is being made to its completion.

"The few winners that worked their prospects on Miller this season have secured good results. O. G. below, owned by Johnson & Murphy, \$50,000 was cleaned up. Murphy's interest in the property has been purchased by Bert Gates. Other districts in the country are yielding well, and most of the boys that worked there this season are well satisfied.

"Sixty odd renewals of quartz claims were filed at Dawson during the month of June. This month promises to be a record breaker. All the conglomerate property on Indian river has been renewed, and most of it shows good representation.

tailon work. Stowe creek is also showing up well.

"Six new applications for crown grants on quartz property have been filed this month. Gerald Perre, the quartz renewer, states that there is not now the indiscriminate amount of staking of quartz property as formerly. Only proved ledges are being followed out by the prospectors.

"The representation from the Sixty-Mile country is said to be good, and the same is true as regards the Twelve-Mile country. A large number of men have gone out to represent on the Donahue group.

J. C. Shaffer and son, William, have returned to Dawson from the Five Fingers road mine, which is now being operated by Eric Kluge and partner. Mr. Shaffer is an old-time West Virginia coal miner, and he speaks very favorably of the prospect for a good output at the Five Fingers mine.

"The vein at Five Fingers is two and a half feet thick with six inches of slate, making three feet of a drift. The coal is not frozen and the mine is dry. There is a solid, smooth stone roof which renders prospecting and pillarings unnecessary. The mine has been operated but a few days this year, only about 100 tons having been taken out. Sixteen men are employed.

"Antone Stander, of Dawson, has sold No. 4 Eldorado to W. H. Fisher, W. S. Washburn, E. Nelson and N. Hogarty. The four buyers who took out a fortune of \$250,000 from 28 above on Bonanza last winter for 15,000 cash.

INCIDENT AT FOUL BAY.

Predicament of Party Who Sought the Sportive Sockeye.

Early on the morning of Tuesday last a party of campers left the shores of this famous summer resort, intent upon capturing a few of the silver beauties now beginning to make their appearance in the Straits. The party was captained by a well-known baseball player, whose prowess on the diamond has made him famous, and who is at present camping at the bay, and consisted of besides himself, three well-known ladies, also residents of the district.

The morning was all that could be desired, the water being like the proverbial sheet of glass, and everything pointed to a few hours' good sport. But there was trouble ahead for the ball tosser and his friends. Unknown to themselves they unobtrusively got into the grasp of a strong tide rip, and when about to return to home and breakfast, found themselves being carried slowly but swiftly towards Gonzalez Point. All efforts to extricate themselves proved unavailing, and they were finally forced to give up and allow the tide to carry them to Oak Bay. Here the party succeeded in making a landing, and taking the overland route to their camp arrived there at 12 o'clock footsore and weary, much to the relief of their friends, after being out over seven hours.

The player, they say, has been heard to remark that in future he will confine himself to America's national game, and leave salmon fishing to the more experienced followers of Isaac Walton.

HEAVY CROP OF FRUIT.

Great Demand For Help in the Interior—Crops Looking Fine.

A heavy crop of fruit is in danger of spoiling for want of sufficient help to gather it. This is the information brought down by Mr. R. M. Palm, provincial fruit inspector, who returned to-day from a week's visit to the interior.

There was a great demand for help in the harvest fields in the interior. He had just spent some time in a group, Kelowna and Summerland, and said that the farmers in Summerland alone could give employment to over 100 men for the next month.

"The farmers there are very anxious to obtain help at once," said Mr. Palm, "and in Vernon alone the Taxpayers' League will guarantee employment to 60 men in that vicinity. I have arranged with the C. P. R. for a rate of \$50 for parties of men going up to any of these points. Those who go up can have the option of returning in a month at the same rate."

"Crops? They never looked better," continued Mr. Palm. "Haying is a little late, but the wheat crop is going to be splendid. The area under cultivation around Summerland and Vernon this year is also greater than ever. Fruit crops will be at least 25 per cent heavier than ever this year, and I expect that shipments to Manitoba and the North-west Territories will commence about August 20th. If they can only get help enough in the harvest fields, it will be a great season in the interior."

DISCUSSED AMALGAMATION.

Board of Trade Considered Joining Chamber of Commerce.

At a special meeting of the council of the board of trade held this morning J. Kingham brought up the question of the amalgamation of the Chamber of Commerce and board of trade. This caused considerable favorable comment, and Mr. Kingham was asked to bring the proposition before the chamber at the next meeting of that association. He consented to do so. An endeavor will be made to bring about the appointment of committees from the board of trade and the Chamber of Commerce to confer together and arrange a basis for amalgamation.

The following resolution was introduced and carried unanimously: "Resolved, That this board respectfully urges upon Sir Wilfrid Laurier the claims of British Columbia to be a part of the Dominion, and to be repeated in the recommendation of the 2nd of February, 1902, in favor of Senator Templeman being appointed thereto."

The steamer Waverley was sunk in collision with the steamer Turret Court, five miles below Harbor Bench, Mich., early yesterday. The crew escaped.

MORE THAN THREE THOUSAND YARDS

DREDGE HAS PUMPED IT INSIDE OF A DAY

Great Progress Being Made By the King Edward—Draft Agreement For Hotel Received.

The big dredge King Edward is doing great work. Up to noon to-day more than three thousand yards of filling had been deposited behind the retaining wall on the Belleville street side. The great rotary blade did not remain in operation until two o'clock or thereabouts yesterday afternoon, so it will be seen that over three thousand yards of stuff a day is being pumped on the flats. The capacity of the pipes were taxed to the very fullest, and Captain DeBeck is thoroughly satisfied with the progress that is being made. Material issuing from the mouth of the pipe is of the very best character for filling. It settles admirably, and when it hardens is as solid for foundation as concrete. Nothing could pack more firmly than the mass which is so rapidly filling up the cavity at the south end of the wall.

There must be nine or ten feet of it in the immediate vicinity of the tunnel mouth, and it settles not only where it can be seen but is carried in the torrent which gushes under the bridge through a channel constantly growing wider, to the flats proper. Thus, which would progress in the main work on the programme contemplated—the filling in for the roadway—is being made, thousands of yards will be deposited on the large area back of the bridge.

An analysis of that pumped out shows it to average about twenty per cent of solid material, which is equivalent to five hundred yards an hour. Assuming that this is kept up for eight hours, fully four thousand yards a day should be transported from the harbor to the flats. There is ample reason to believe that this rate will be maintained because a huge bank of stuff was dumped in the locality where the dredge is operating as the result of the Mudiak's work. At times it comes out so thickly that it closes in the pipe, the percentage then being as high as fifty.

Capt. DeBeck said this morning that at Stevenson the dredge pumped a hundred thousand yards in a month, which would average about four thousand yards a day. The material which pours out of the pipe makes a journey of more than a thousand feet and up a grade of twelve feet. This gives an idea of the pumping power of the dredge, which could send the same quality three thousand feet if necessary. A large crowd yesterday and today gathered to watch the work and all are struck with the area covered in an incredibly short time. It doesn't take long to make a big hole in the work to be dispatched, and as the dredge is here to stay until the undertaking is completed the mud-flats will soon be settling more substantial than a man's foot.

This quite naturally brings up the C. P. R. hotel matter. In this connection Mayor McCandless to-day received the draft agreement which Sir Thomas Shaughnessy a week ago wired that he had mailed. As will be remembered, the city had one drawn up, and forwarded to Montreal. In reply the railway magnate said that he had no objection to the agreement which he thought would answer the purpose more satisfactorily for both sides, and this he has sent. It will have to come before the council before its contents are made public, and a meeting of the city fathers will be held to-morrow to consider it. It is understood, however, that it differs very little from the conditions as generally understood, and a conference with Mr. Davis, who represents the company, will likely be unnecessary.

Mayor McCandless said this morning that a by-law would be submitted to the ratepayers within a very short time. Certainly, His Worship and the citizens generally have every reason to feel gratified at the course matters are taking, and to contemplate with satisfaction the transformation in the near future of an eyesore into one of the most attractive localities of the city.

At a special meeting of the council of the board of trade held this morning J. Kingham brought up the question of the amalgamation of the Chamber of Commerce and board of trade. This caused considerable favorable comment, and Mr. Kingham was asked to bring the proposition before the chamber at the next meeting of that association. He consented to do so. An endeavor will be made to bring about the appointment of committees from the board of trade and the Chamber of Commerce to confer together and arrange a basis for amalgamation.

The following resolution was introduced and carried unanimously: "Resolved, That this board respectfully urges upon Sir Wilfrid Laurier the claims of British Columbia to be a part of the Dominion, and to be repeated in the recommendation of the 2nd of February, 1902, in favor of Senator Templeman being appointed thereto."

The steamer Waverley was sunk in collision with the steamer Turret Court, five miles below Harbor Bench, Mich., early yesterday. The crew escaped.

INSURGENTS DEFEATED. Horrible Slaughter Among the Opposing Troops in Venezuela.

Soleida, Venezuela, July 22.—At 7 o'clock the fight between government forces and revolutionists lasting from 1 o'clock this afternoon has been horrible, and the only places which still resist are the jail and the capitol. In the afternoon, the government troops, numbering 5,200 men, were ordered to make a general attack upon all the positions still held by the rebels.

EXTRADITION CASE. Privy Council Grants the Petition of the United States.

London, July 22.—The case of the United States for the extradition from Canada of John F. Gaynor and W. D. Greene came up this morning before the Privy Council. The governor granted the petition of the United States for the extradition. A. Taschereau, of Quebec, appeared as counsel for Greene and Gaynor.

BLACK FLAG FOR POPE. Maude Gouge Appears in Another Sensational Role in Dublin.

Dublin, July 22.—Maude Gouge (Mrs. McBride) hung a black flag outside her residence yesterday in memory of the Pope, she said. It was pulled down by the police, whereupon Maude Gouge, supported by her lady friends, hung out another black flag, and arising themselves with poles and boiling water, defiled the police.

SYMPATHY FOR IRELAND. King Edward Says He Wishes to Become Acquainted With the Conditions.

Dublin, July 22.—Replying to the Dublin citizens' committee, the King said there was no part of his dominions in which he took greater interest than in Ireland. The Queen and himself had long been in sympathy with the movements tending to advance the social and material well-being of the community, and they hoped now to become acquainted with the conditions under which the people lived and to learn what could be done to brighten the lot of the people.

STEEL WORKS FORM POOL. Large Corporations Enter Into An Arrangement For Uniform Prices.

New York, July 22.—The formation of a billet pool will be announced by the Iron Age to-morrow. The Iron Age will say: "The principal steel works of the country, including the U. S. Steel Corporation, Jones & Laughlin Steel Co., Wheeling Iron & Steel Co., Cambria Steel Co., Lackawanna Steel Co., and the Pennsylvania and Maryland companies, have formed a billet pool, which is to be handled in a manner very similar to the steel associations. While the base price is \$27 for billets, at mill for bessemer standard sizes, the usual practice is to make uniform delivered prices for carbons between L. 20 and L. 60 in an advance of \$6 per ton, while billets above L. 60 carry an extra of \$2 per ton. Sheet bar and tin plate bar tonnage are quoted at \$21 above billet and blooms."

When Baby Is Fed on LACTATED FOOD It is Safe from Cholera Infantum and Dysentery.

Below, we give two medical opinions regarding the value of Lactated Food as a diet for infants and children. One eminent doctor says: "It can unqualifiedly recommend Lactated Food as a food for infants and as a positive remedy for diarrhoea and dysentery. I have just gone through an epidemic of the two diseases, and have learned to rely on Lactated Food with more confidence than I have been able to place upon any other food heretofore used in my extensive practice."

ELECTION NEXT MARCH. Rumor That Imperial House Will Dissolve Early Next Month.

London, July 21.—The Times announced that it is anticipated in official circles that parliament will dissolve early in the next session, and that a general election will occur in March next year. In connection with this announcement, rumors were circulated yesterday that Premier Balfour intended in October to make a strong speech in support of Colonial Secretary Chamberlain's fiscal programme, and that thereupon Chancellor of the Exchequer Ritchie and other free trade ministers would resign, which, of course, will virtually compel Mr. Balfour to resign also, and recommend a dissolution of parliament.

REMOVED TO ST. PETER'S. Pope's Body Taken From Throne Room Conclusive Will Be at Rome.

Rome, July 22.—To-night the body of Leo XIII. lies in state in the Basilica of St. Peter's. Beginning to-morrow at sunrise the people of Rome and those of all nations now in the Eternal City will be admitted to pay their last farewell. Opportunity for this solemn tribute will end Saturday.

CAN SEE ONLY VICTORY. Premier McBride Is Under the Delusion That He Has Won Elections Already.

Chilivack—Chas. W. Munro (Liberal), Grand Forks—John Hoshorn (Conservative), Islands—T. W. Paterson (Liberal), Nelson—A. S. Taylor (Conservative), Okanagan—T. W. Steedog (Liberal), Similkameen—W. J. Smolgrass, Liberal, Skeena—P. Herman, Liberal; C. W. D. Clifford, Conservative, Greenwood—J. H. Brown, Liberal, Kaslo—J. Retallick, Liberal, Penticton—J. McPherson, Socialist.

INSURGENTS DEFEATED. Horrible Slaughter Among the Opposing Troops in Venezuela.

Soleida, Venezuela, July 22.—At 7 o'clock the fight between government forces and revolutionists lasting from 1 o'clock this afternoon has been horrible, and the only places which still resist are the jail and the capitol. In the afternoon, the government troops, numbering 5,200 men, were ordered to make a general attack upon all the positions still held by the rebels.

EXTRADITION CASE. Privy Council Grants the Petition of the United States.

London, July 22.—The case of the United States for the extradition from Canada of John F. Gaynor and W. D. Greene came up this morning before the Privy Council. The governor granted the petition of the United States for the extradition. A. Taschereau, of Quebec, appeared as counsel for Greene and Gaynor.

BLACK FLAG FOR POPE. Maude Gouge Appears in Another Sensational Role in Dublin.

Dublin, July 22.—Maude Gouge (Mrs. McBride) hung a black flag outside her residence yesterday in memory of the Pope, she said. It was pulled down by the police, whereupon Maude Gouge, supported by her lady friends, hung out another black flag, and arising themselves with poles and boiling water, defiled the police.

"IF I EVER GET A SHOT AT THOSE TWO FELLOWS THEY'LL THINK A MULE KICKED THEM." CAN YOU SEE THE TWO MEN?

WANTED—Nursemaid, Apply to Mrs. Wollaston, 119 Menzies street.

B.C.R.A. ANNUAL SHOOT CONCLUDED

MARKSMEN SELECTED FOR OTTAWA TEAM

Sergt.-Major Richardson Takes First Place in Service Match—Last Night's Elections.

Yesterday the concluding matches of the British Columbia Rifle Association took place at the Clover Point range. More interest was evidenced yesterday's events than in those of any previous day. After the announcement of the grand aggregate winners those entitled to compete for the Ottawa team shot for their places. The result was a win for W. H. Forrest, of Vancouver, by a score of 88. Second and third places were taken by Corp. W. Grant, Vancouver, and Co. Sergt. Major McDougall, respectively, both with a score of 87. This puts the latter shooter at the head of the team eligible to shoot at Ottawa. Sergt. Major McDougall is first with a total score of 485 points, and W. H. Forrest has second place with a score of 480 points, five behind the winner.

Those who participated in the shoot just concluded are unanimous in declaring it to have been the most successful in the annals of the association. The range was in perfect condition, and Sergt.-Major Mulcahy and his squad of marksmen performed their duties in a highly creditable manner. No heavy winds marred the shoot. The first day was perfect, there being only a slight breeze, and although on the two succeeding days the wind was a little heavier it was not strong enough to cause any complaints. In fact it enabled the marksmen to test their judgment as well as accuracy, and, if looked on in that light, did more good than otherwise.

The majority of prizes were captured by Vancouver shooters. The Terminal City was represented by a large contingent, and all proved to be excellent marksmen. Victoria's crack shots generally speaking did not show up to advantage.

Dear Sir—I am much interested in the work of your association, especially in regard to its efforts to improve the angling facilities of the province of British Columbia. I find that experts are somewhat divided in opinion as to the advisability of planting Eastern brook trout in such waters as Shawanigan lake, as the native Pacific species are so highly regarded, and there is less risk involved in stocking Western waters with them.

I shall give directions that, if possible, some Eastern trout eggs be sent to the West and hatched in the Fraser river establishment.

R. PREFONTAINE.

This letter was received with much satisfaction by the association, which passed a resolution thanking the minister.

Secretary Cuthbert stated that a letter had been received from Senator Templeman by Mr. MacGregor, to the effect that all dynamiting, illegal spearing and netting in Cowichan river would be stopped, and that all offenders would be prosecuted. Immediate steps are to be taken to have the Dominion regulations enforced in respect to the preservation of the fish.

The president reported that Mr. Fernyhough had left for Shawanigan a few days ago with a gang of men and the required materials to erect fish ladders at the three falls on Millstream at Shawanigan.

There was also considerable discussion relative to interesting sportsmen of the province in the work of the association, so that its sphere of activity might extend in different directions.

SPEECHLESS AND PARALYZED.—"I had valvular disease of the heart," writes Mrs. J. S. Agode, of Truro, N. S., "I suffered terribly and was often speechless and partially paralyzed. One dose of Dr. Agnew's Cure for the Heart gave me relief, and before I finished one bottle I was able to go about. To-day I am a well woman." Sold by Jackson & Co. and Hall & Co.—43.

According to the monks of the hospice of St. Bernard, their famous dogs save on an average twenty lives every year on the mountain.

Vancouver has the largest representation of any city of the province, fourteen Terminal City shooters having secured places on the team. New Westminster is second with six, and Victoria third with three.

The marked success of Vancouver

SERG. BODLEY, Who Won a Place on the Ottawa Team.

marksmen is generally attributed to the encouragement given the Mainland marksmen. On the occasion of the recent 1st of July celebration a considerable sum was voted for rifle shooting competition. In this way the men are provided an incentive to take up shooting. It is apparent that if the Victoria marksmen do not take a lesson from the

Other events which were shot off yesterday were the militia aggregate, the 17th aggregate and service match. In the first named Co. Sergt.-Major McDougall, of Victoria, took second place with a score of 292, and in the latter match Co. Sergt.-Major Richardson of this city won first place with a score of 84.

The scores in detail follow:

Table with 2 columns: Name and Score. Includes entries like No. 10—MILITIA AGGREGATE, No. 11—FIFTH AGGREGATE, No. 12—SERVICE MATCH.

"SUMMER FOOD" Has Other Advantages.

Many people have tried the food Grape-Nuts simply with the idea of avoiding the trouble of cooking food in the hot months.

All of these have found something beside the ready cooked food idea, for Grape-Nuts is a scientific food that tones up and restores a sick stomach as well as repairs the waste tissue in brain and nerve centres.

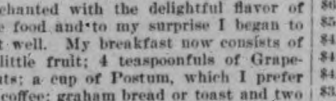

"For two years I had been a sufferer from catarrh of the stomach due to improper food and to relieve this condition I had tried nearly every prepared food on the market without any success until six months ago my wife purchased a box of Grape-Nuts thinking it would be a desirable cereal for the summer months."

"We soon made a discovery, we were enchanted with the delightful flavor of the food and to my surprise I began to get well. My breakfast now consists of a little fruit; a teaspoonful of Grape-Nuts; a cup of Postum, which I prefer to coffee; graham bread or toast and two boiled eggs. I never suffer the least distress after eating this and my stomach is perfect and general health fine. Grape-Nuts is a wonderful preparation. It was only a little time after starting on it that wife and I both felt younger, more vigorous, and in all ways stronger. This has been our experience."

"P. S.—The addition of a little salt in place of sugar seems to me to improve the food." Name given by Postum Co., Battle Creek, Mich.

Send for particulars by mail of extension of time on the \$7,500.00 cooks contest for 735 money prizes.

CO. SERGT.-MAJOR RICHARDSON, Who Won the Service Match.

advantage. Co. Sergt.-Major McDougall shot well all through. Although winning few matches, his score was always high, and as a result in the aggregate and in the Ottawa team his name heads the list. Sergt. S. W. Bodley and Co. Sergt.-Major Bailey also secured positions on the Ottawa team. These are the only local representatives in that aggregation.

AN OPTIMISTIC PREMIER.

The Colonist has said many nasty things about and administered many a "scathing" rebuke to Premier McBride within the last couple of years. Its jibes and jeers have doubtless become more or less a matter of habit. Therefore when the Hon. Richard in one part of our contemporary tells readers that he is going to sweep the province as with a great broom, leaving not a Grit within it with the courage to show his head, we are not surprised to read in another part the following timely admonition: "There is no political party with a heaven-born right to rule the destinies of any country, and we have always noticed that campaigns are not to be won by shouting, but by working, by good ideas, good men, and hard work. A party that is sure of victory fourteen weeks before an election is altogether too sure to our notion. We assume that the cause of this reminder of the uncertainty of elections and the virtue of work was the following prophecy of Premier McBride: "General prospects could not be brighter for the party. There seems to be a general slump towards Conservatives all over the country. I found that a great many Liberals propose to support the government, and they are making no attempt towards concealing their intentions. Conservatives throughout the country are most enthusiastic in the work in the interests of the party, and this victory has been much stimulated by the news of the great Conservative victory in Manitoba. The Roblin victory is to be paralleled in British Columbia without doubt." It must be very disheartening to Liberals to read that their friends in all parts of the country are announcing their intention of supporting the Conservative candidates, especially as there are yet so few McBride men in the field to support, and there are already upwards of a dozen Liberals ready for the fight. We have heard of a Mr. Clifford being nominated in the Skeena district and that one Lennie has been put up in Nelson. The selection of one was unanimous; the other is threatened with opposition by no less a personage than the president of the British Columbia Conservative Association. Surely that is a very sad example for the head of the party to set his followers. Either one of the candidates will need a good many Liberal votes to win, and we sadly fear there is no chance of his getting them, as there is a very strong Liberal candidate at work in the constituency. Then there is Westminster, where Conservative principles are so asserted, that the government has induced a pronounced Liberal to appeal to the electorate on its behalf.

After all it is possible Mr. McBride's prospects are not so bright as he would like to lead the Colonist to believe. It is perfectly certain that the dominant political leanings of the interior of British Columbia are not towards Conservatism. That fact is very well known, and we are surprised that the Premier does not call his followers home and set them to work, inasmuch as it is by hard work and not by proclamations in the press or by paperings on the platform elections are won. But perhaps the pilgrims are "working" in the East. They have completed the job of intimidating the Federal government, and are earnestly in quest of something essential to success. We wonder what it can be they are wasting so much time over, and without which not even the nominations can be held. And there are the departments of the Minister of Mines, Education, etc., all going to the dogs for want of his intelligent, skilled and efficient supervision.

A LEADER OF LABOR.

The late Grand Chief Arthur, of the Brotherhood of Locomotive Engineers, was an ideal labor leader, and under his direction the organization of which he was for so many years the head became as nearly ideal, probably, as it is possible for any human institution to become. The wish will be universal, we are sure, that a worthy successor may be raised up in his stead. On the eve of his death Mr. Arthur addressed a few words of advice to the brotherhood, words which should be heeded by labor leaders in other fields. After speaking of the reforms which had been effected since the organization of the engineers, Mr. Arthur said: "We have always recognized that other people have rights. I stand here as the champion of labor organizations—such as are conducted on sound business principles and not otherwise. Whilst being a friend to organized labor, as I have been for forty years, let me impress this upon your minds, it is a motto I believe in—always concede to others the same rights and privileges that you demand for yourselves." Mr. Arthur then described some trades union methods which he didn't approve of. "I do not approve," he said, "of union men walking into their employer's office and telling him that they refuse to work with a man who cannot show union card. We have no right to dictate to him what he shall do or what he shall not do. That is not our policy. We have always treated others in the same way as we wish to be treated, and such has been our policy for forty years. We have attended strictly to our own business, and have left others strictly alone." Referring to the trouble arising out of the relations between labor and capital, Mr. Arthur said the difference could only be settled by the application of the golden rule. "It has been told me," he speaker said, "that such a settlement will never happen. I hold and challenge contradiction," declared the chief engineer, "that every man, in dealing with his fellow-man can observe that rule, if he will, but he won't." Mr. Arthur, in showing the accomplishments of the Brotherhood, became retrospective. "What have we done?" he asked. "Go back forty years, you old veterans of the rail. You know what conditions were. No one had any respect for you and you had no respect for yourselves. Men under the influence of liquor were attached to trains freighted with human life and valuable property. What greater crime can there be than for a man to run a train when his mind is under the influence of liquor, and his hand unsteady from the same cause? In those days they indulged freely and carried it with them in their engine boxes. These are facts I speak to you, and they show you the progress that has taken place as a result of the work done by the Brotherhood." "Aside from questions of wages, to my mind," Mr. Arthur continued, "the greatest benefit to the human family is improvement, mentally, morally and physically. Our achievement in this direction is the part of our work of which we have the best reasons to be proud. One thought I would like to impress on the minds of our young men. You may be an engineer, conductor or fireman, or errand in some other capacity. It does not matter which, but always remember that the best railroad presidents are among those who have gone through these grades to the higher positions they occupy. I have seen many young men spend their time behind curtains on suspicious games instead of study. There are better places for you to fill. You may not all become railroad presidents, but by attention to your duty you can prove yourselves ready to fill more responsible positions. It is not cloth or wealth but character that counts. Aim to be the very best, not with the object of being better than others, but for the honor of your calling. Don't forget the generosity of your employers. There is not a day passes but that we are in receipt of favors at the hands of railroad companies. Show by closer application to duty that you appreciate these. A nation with a standing like the engineers is not free from 'cracks.' I do not wish to claim," said Mr. Arthur, "that we are better than anybody else. We have our cracks, our chronic growlers. They have them in churches, but on that account we will not condemn Christianity. As an organization we are proud of the regard we have established. A tree is best known by the fruit it bears, and men know us by the fruit we bear."

PERSONAL.

J. Warden and wife, D. Dewar and Mrs. Dewar, A. C. Lawrence and Mrs. Lawrence, accompanied by eighteen members of the Brotherhood of Locomotive Engineers, are visiting the city. They have been attending a convention of that association at Winnipeg, and are now making a pleasure tour of the Coast. To-day they are taking in everything of interest in and around the city. This morning the party visited the parliament buildings, and the geological museum, and this afternoon went to Esquimalt. They intend leaving their headquarters at the Dominion hotel.

Mr. and Mrs. Wynne Meredith and family leave to-morrow for California, via Victoria, much to the regret of a large circle of friends whom they have made during their temporary residence here. Mr. Meredith returns in about ten days, and will be for a further six months at least engaged in the supervision of the big tunnel project of the Vancouver Power Co., of which he has had the charge—Vancouver World.

James Kent, general manager of the C. P. telegraphic and T. H. Reynolds, chairman of the Pacific cable board, are expected to arrive in the city in a few days. They reached Vancouver to-day, accompanied by D. S. Jenkins, general superintendent of the lines west of Fort William.

Robt. Allan, of Ladysmith; W. W. Phillips and wife, of Denver; Mrs. J. A. Coleman and Miss C. E. Sullivan, of Minneapolis.

Lieutenant G. C. E. Elliott, of the British army, sailed last Thursday on the White Star liner Cedric, of the International Mercantile Marine Co., for Liverpool.

E. F. Brittingham and J. Blairfield, of New York, and J. Hoffman, of Montreal, are commercial men making their headquarters at the Victoria.

Capt. Wasson, who is interested in the Key City mine, Mount Sicker, is in the city on his way to California. He is a guest at the Victoria.

Judge L. H. Prather, formerly a member of the Supreme court of Spokane county, is visiting the city. He is a guest at the Dominion hotel.

Richard H. Barras, of Seattle, is among those staying at the Victoria hotel. He is awaiting the sailing of the Mowerra for Honolulu.

Mrs. John McIntosh, of Toronto, and her daughter, Miss Margaret McIntosh, are visiting Mrs. Wm. McCarter in this city.

Mrs. Carson, wife of Mr. Thomas Carson, of the city electric light department, has returned from California.

Miss Nellie Cook has returned from Seattle after spending a very pleasant visit with Dr. and Mrs. C. E. Hre.

J. A. Anderson, provincial auditor-general, left last night for Kamloops on official business.

SUNDAY EXCURSION TO CROFTON.

Steamer Iroquois leaves Sidney every Sunday, connecting with the V. T. & S. Ry. train leaving Market Station at 7 a. m. Return steamer leaves Crofton at 3 p. m. arriving Victoria 6 40 p. m. Fare for the round trip, \$1.50.

MONUMENTS

BE SURE TO GET STEWART'S PRICES. We have monuments, &c., carved in Scotch Granite Monuments, etc., before purchasing elsewhere. Nothing but first-class work and workmanship. Corner Yates and Blanchard Sts.

Did any one ever notice what a determined man the Premier of British Columbia is? Observe the set of his jaw as he announces that it will be a sad day for the Ottawa government if it attempts to disallow Bill 16. The Hon. Richard gave no indications of being a man of such iron will and stern determination of character when a member of the government which passed the order in council that made the passage of Bill 16 necessary. He also gave a general impression of feebleness of character and indeterminateness of will by his conduct in the House during the late session. Nominally the leader of the opposition, he skulked behind the skirts of the actual leader, who accomplished the defeat of the government and cleared the way for the Premier's elevation to a post he will never adorn by reason of natural or acquired qualifications.

The case of obdurate Canada has been taken "to the foot of the throne." An American divine recently offered up the following petition: "Grant, O Lord, that Canada may come of her own accord into the great sisterhood of states; that no harsh measures be needed in working out the destiny of this republic." Now isn't that a beautiful petition to lay before the throne of grace? And if it should be considered inadvisable to exercise the necessary influence, what about the threat? Are we to be annexed like one of those islands of Borneo or Sumatra, which it is assumed Great Britain will yield without a word of protest?

Hon. Richard McBride attacks plain John Oliver at long range. He affects to believe he can find a candidate who will defeat John. We venture to say Mr. McBride will not meet Mr. McBride on the platform. Nor will he, with such prestige as he has acquired as the Premier of British Columbia, run against John in the Delta constituency. Compared with McBride, Oliver cut a heroic figure during the late session of the legislature. Nor does John lay claim to general proportions of special magnificence. It is just a fact that comparisons are advantageous.

Mr. Tarte advocates printing part of the new issue of Dominion notes in French. My, what a row! loyal Tories would have made over that proposition if the member for St. Mary's had been in the government. Tarte lost all his traitorous traits when he handed in his resignation, by request.

PERSONAL.

J. Warden and wife, D. Dewar and Mrs. Dewar, A. C. Lawrence and Mrs. Lawrence, accompanied by eighteen members of the Brotherhood of Locomotive Engineers, are visiting the city. They have been attending a convention of that association at Winnipeg, and are now making a pleasure tour of the Coast. To-day they are taking in everything of interest in and around the city. This morning the party visited the parliament buildings, and the geological museum, and this afternoon went to Esquimalt. They intend leaving their headquarters at the Dominion hotel.

Mr. and Mrs. Wynne Meredith and family leave to-morrow for California, via Victoria, much to the regret of a large circle of friends whom they have made during their temporary residence here. Mr. Meredith returns in about ten days, and will be for a further six months at least engaged in the supervision of the big tunnel project of the Vancouver Power Co., of which he has had the charge—Vancouver World.

James Kent, general manager of the C. P. telegraphic and T. H. Reynolds, chairman of the Pacific cable board, are expected to arrive in the city in a few days. They reached Vancouver to-day, accompanied by D. S. Jenkins, general superintendent of the lines west of Fort William.

Robt. Allan, of Ladysmith; W. W. Phillips and wife, of Denver; Mrs. J. A. Coleman and Miss C. E. Sullivan, of Minneapolis.

## To Advertisers

During the summer months the Times is published on Saturdays at two o'clock, p. m. Owing to this fact advertisers must have their copy in the hands of the printer before nine a. m., Saturday mornings, and preferably on Friday evenings. The same applies to notices of church services.

## City News in Brief.

—Carpets taken up, cleaned and laid. Smith & Champion, 100 Douglas street.

—Have your Upholstery and Mattresses repaired at Smith & Champion's.

—The choir of St. Andrew's Presbyterian church enjoyed themselves at a picnic at Shawanigan Lake yesterday.

—Go it easy during the summer weather: take time to cool off; buy a Palmer hammock from Weiler Bros., and swing yourself to sleep.

—Fast steamers for Skagway. Dolphin sails July 28th; Humboldt sails July 23rd and August 2nd. E. E. Blackwood, agent.

—The directors of the Provincial Royal Jubilee hospital will hold a meeting at the institution to-morrow night, commencing at 8 o'clock.

—The executive of the Victoria branch of the Provincial Mining Association will hold a special meeting this evening at the secretary's office, No. 18, Tropic avenue, to consider the question of a mining exhibit for the coming exhibition.

—Residents of Spring Ridge who have not yet registered their votes are invited to be present at the Spring Ridge school, Chambers street, next Friday evening between the hours of 7 and 9 o'clock, when a notary public will be in attendance to register votes.

—The ladies of St. John's Guild wish to thank all those who so kindly assisted at their excursion on Saturday last with donations of money, provisions, and help on the boat, especially Capt. Tromp and the officers of the Yosemite. The outing was a complete success, both financially and otherwise.

—As will be noted in the advertising columns of the Times, sealed tenders enclosed "tenders for public library" will be received at the office of the city clerk until Monday, the 31st day of August next, at 3 p. m., for the erection, in accordance with plans and specifications, of a public library building, on lot 29, block 29, at the northwest corner of Yates and Blanchard streets. Plans and specifications may be seen at the office of the architects. The lowest or any tender will not necessarily be accepted.

# Fishing Tackle

Of the best quality, largest stock, at  
**JOHN BARNESLEY & CO.**

115 Government Street.

## Big Snap in a Cottage

Situate in the East End. A pretty, modern residence and fine lot. Can be obtained at a bargain.

### TO LET

8 Roomed house and 9 acres of land in city limits, cheap.

**P. C. MacGregor & Co.**  
NO. 2 VIEW STREET.

—House Awnings! Ring up Smith & Champion for estimates. All colors.

—Going to Vancouver or Westminster? Take the Terminal railway at 7.00 a. m. daily.

—Ice cream freezers for garden parties. The Shepard make is evidently the best, for it is the most popular freezer made; easily manipulated. Try one. Weiler Bros. sell them.

—All arrangements for the provincial convention of Eagles in this city on July 27th, 28th and 29th, have been completed. Twelve aeries throughout the province will be represented. Elaborate preparations for the entertainment of the visitors have been made by the local aerie.

—The following promotions are taken from the London Gazette, dated War Office, 3rd July, 1903: Royal Engineers: The undermentioned lieutenant to be captain, Gilbert C. E. Elliott, 1st July. Royal Army Medical Corps: The undermentioned lieutenant to be captain, R. L. Popham, 21st June, 1903.

—A commercial traveller known in this city, John Prentice by name, was found dead in one of the boxes in the New Fountain saloon, Vancouver, last night. By papers on his person it was discovered that he was a commercial traveller, representing the firm of R. Campbell & Sons, manufacturers of stove fire brick, Lockington, and fellow ware, of Hamilton, Ont. It was subsequently learned that it was John Prentice, whose home is on Caroline street, Hamilton, where he leaves a widow and family.

—Last evening at the residence of M. A. Charlton, Rev. Dr. Rowe united in marriage Mr. W. Lewis, of Vancouver, and Miss Alice Charlton, of London, England. The bride was attended by Misses Annie and M. Charlton, while the bridegroom was supported by Mr. Eric McCarthy, of Stevenson. The house was beautifully decorated, the nuptial knot being tied under a wedding bell composed of maiden hair ferns and lilies. The large number of handsome presents received testified to the esteem in which the young couple are held by their friends. Among them was a massive marble clock from the employees of the Brackman & Ker Milling Company, and a silver set from the members of the Victoria corps of the Salvation Army, the bride being a captain in the ranks. By her marriage she reverts to the ranks. Mr. and Mrs. Lewis left on the Charmer for Vancouver, where they will reside.

## KEEP KOOL

**Fine Light Worsted, Tweed or Flannel Suit**

Having a limited number, they will be sold at reduced prices.

**Peden's,**

36 Fort St. Merchant Tailor.

# Compound Syrup of Hypophosphites

A splendid nerve tonic and builder. Prepared by

**HALL & CO.**

Dispensing Chemists, Clarence Block, Cor. Yates and Douglas Streets.

—Geo. H. Dawson is now at his office in Moody block.

—Every arrangement has been made by the Ladies' Auxiliary of the Y. M. C. A. to supply meals and refreshments on board the City of Nanaimo on Saturday. Parfitt's orchestra has arranged for a good programme of music to be given. The excursion will be to Maple Bay.

—The Mutual Life of Canada is the only Canadian Life Company in which the policyholders receive all the profits, and the profits paid policyholders by this company have never been surpassed by any other company doing business in Canada. For rates and information apply to R. L. Drury, Provincial Manager, 34 Broad Street.

—At a special meeting of the Trades and Labor Council held last night, the council formed itself into a general committee to arrange for an excursion on Labor Day to Vancouver, where the celebration takes place this year. Sub-committees were then appointed for transportation, printing, advertising, music and finances. The general committee will meet again next Wednesday night at 8 o'clock.

—This morning Mr. Justice Walkem, on behalf of the "United" court appointed to-morrow morning at 10.30 o'clock to proceed with the matter of the exception by the collector of voters to the declarations of those claiming the right to be placed on the register made outside the province. It has been arranged that the matter will be laid before the Full court by way of a case stated, Mr. Helmecken, K. C., and L. P. Duff, K. C., appeared for the applicant, while Mr. Bejira, K. C., appeared for the collector.

—Up to 5 o'clock yesterday there were 3,750 votes registered. This is only about 75 per cent. of the number that the list for Victoria city should contain, and as but a very short time now remains before the list will be closed, it behooves all those who wish to exercise their franchise in the coming elections that have not registered up to date, to do so within the next week. A glance at the list which we publish at the head of the first column on page 4 will enable those who wish to do so to have their name put on the roll with little inconvenience.

—A match was played last evening at Beacon Hill between the B. A. Paint Company team and Challenger & Mitchell's nine. The former aggregation won by a score of 20 to 11. The character of the game, however, cannot be judged by the score. Challenger & Mitchell's team held their opponents down well until the last couple of innings. Twice the opposing teams were tied, and at these times the game was most exciting. Lorimer pitched and Edmonds was behind the bat for the winners, while for Challenger & Mitchell Walter and Hill caught. Both batteries did creditable work. Mr. Rivers umpired to the satisfaction of both teams.

—The several hundred people who wended their way over to the Douglas Gardens last evening were repaid by a most enjoyable evening. The slight wind that was felt in other parts of the city was not in evidence at the gardens, and the audience, seemed to thoroughly enjoy the whole evening's entertainment. There is a consensus of opinion that there has never been such an open air entertainment as the management is providing given on the Pacific coast. The selections of the Fifth Regiment band, the cornet solo, the funny work of the Morrisons are all much appreciated. There will be a complete change of programme this evening, and as these people will only be here until Saturday night the opportunity of seeing them should not be missed.

—To-night will be a little chilly so join in line and follow the crowds to the Edison theatre. This unique and popular resort has an excellent programme this week. Flood, the world-renowned juggler, performs the most marvellous feat street seen upon a stage—Jugg. Dalton keeps young and old laughing; his make-up as a country farmer is just grand; W. P. Richardson sings the illustrated song, "She Rests by the Suxance River," and receives no end of applause. He also opens each performance by rendering "Mansion of Aching Hearts." The moving pictures are very amusing, and a large variety: Clothes Washing in Vancouver, The Policeman's Vision, 20th Regiment in New York, McKinley on the Raleigh and a host of others are exceptionally good.

—At the Orpheum this week is presented a programme that truly pleases the many patrons of this favorite theatre. The participants are headed by Ed. O'Neill, the champion card manipulator of the world, who does a trick that is little short of marvellous; Haslan, the English coster singer, is proving a drawing card. Mr. Frederick N. Tracy is taking a well-earned rest; he has worked faithfully for the past seven months, and was completely broken down. The management, however, were successful in securing the services of Mr. Harry Du Ross, who has one of the most sympathetic voices ever heard. He sings the illustrated song, "He Is Sleeping in the Klondike Vale Tonight," and also "Don't Wear Your Heart on Your Sleeve." No one should fail to hear these beautiful songs. Robert Mantel gives a recitation, "A Dream," that truly appeals to all.

### TO STRANGERS' EYE.

Interesting Impression of the Activity Displayed by Naval Authorities in Esquimalt.

The naval officer at Esquimalt who goes about his duties in a meek and humble way will read with interest the following editorial comment appearing in the Seattle Post-Intelligencer: "It would be a good experience for both those who are over-gratified and over-alarmed at our present very friendly relations with Great Britain to make a visit to the splendid naval station that is being so rapidly completed by our Northern neighbors at Esquimalt."

The magnitude of the stores, from the most modern coal briquettes to campfire meats and from cordite shells to plug tobacco, that have been assembled there would amaze him first, for these things he could see.

"But what would amaze him more would be the vast stretch of hills and ravines all swarming with busy men, who have been thus busy not merely for months but for years, and from every yard of which every visitor is rigidly excluded.

"The sight of the big dim gray cruisers at anchor, the torpedo boats fishing with their messages of etiquette or business from one point of the basin to another and the constant thud of the flagship's guns at target practice out of sight behind the hills, would give him an idea of the power of friendship or enmity of this little known post only a few miles from our shores."

—Cheap excursions every day to Seattle and return from July 27th to August 6th inclusive, account Seattle midsummer carnival. Tickets good for four days on both Clallam and Majestic.

—A couple of Celestials were brought before Magistrate Hall this morning. One was charged with an infraction of the Health By-Laws, and the other the Fire Prevention By-Laws. Each was fined \$5 or ten days.

—Prof. Scott is a crackjack! Last night the professor predicted to a young lady that she would lose an article very soon. The lady lost one of her gloves before she left his parlor, and can get it by calling on the professor.

—A large party were entertained by Mrs. E. Crow-Baker at a banquet tournament yesterday. The guests were conveyed by the steam launch Kootenay, being landed at the wharf right at the grounds. The trip up the Arm added materially to the enjoyment of the day.

## Colds, Headache, Catarrh.

**RELIEVED IN 10 MINUTES BY DR. AGNEW'S CATARRHIAL POWDER.**  
Rev. W. H. Main, pastor of the Baptist Emmanuel Church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhial Powder. He has tried many kinds of remedies without avail. "After using Dr. Agnew's Catarrhial Powder I was benefited at once," are his words. It is a wonderful remedy and will relieve any form of head pain in ten minutes and eradicate catarrh.  
Dr. Agnew's Heart Cure helps the over-worked heart.  
Sold by Jackson & Co. and Hall & Co.—29.

# The Rush Is On!

We are shattering records and turning the dull season of trade topsy-turvy. The magnificent bargains we are sowing broadcast has set all tongues wagging, and filled the buying public with satisfaction and gratitude. These are days when we lose money wisely. We let profit and some of the cost go, that we may enter the fall markets with empty wardrobes and ready cash. This is good business and explains why these reductions are made. All Single suits, whether \$25, \$22, \$20, \$18 or \$15, to clear at one uniform price.

## \$12.00 Per Suit

Don't wait, for you can't get here too soon. The best goes first, and no more goods to be had at the price.

## Fit-Reform Wardrobe,

73 Government Street.

# Subscribe for the Times.

PROVINCIAL NEWS.

FERNIE.

The Crow's Nest Coal Company have decided to build their new office building on the block formerly used as the recreation ground. The whole block will be utilized, the building being placed in the centre. The remainder of the block will be beautifully laid out in drives, walks, fountains, grass, flower pots, etc.

MIDWAY.

The body of J. Sucksmith, mill owner, who was accidentally drowned in May last year in the Kettle River, six miles below Grand Forks, was found last Tuesday at the head of the Cascade dam. It was identified by means of the clothing.

KARLO.

Marius Augustine, of this place, while working on the Hannell Creek wagon road, had a narrow escape from being blown to pieces to-day by a missed blast. As it is, he was seriously injured.

A NEW INDUSTRY FOR VICTORIA.

To the Editor.—Now that skilled labor adds so much to the cost of building and labor conditions are so adverse, it may be interesting to the public to call attention to what has been found in other countries profitable to the producer and economical to the consumer.

Any one living not too far from a seaport in Sweden can write to order two or three ready-made houses, and he can get from them a carefully got up specification book showing the ground and elevation plans, with dimensions of, say, 6 grades of ready-made houses (from a shack to a mansion). You select your house, the style of architecture is in modern taste, and your house is sent you and placed on foundation walls prepared according to the dimensions selected.

Intermediate profit on lumber, architect's fees, cheaper class of labor, time in building.

There is also a gain of uniformity in architecture in the opening-up of a new building estate. I am told similar factories exist on the Great Lakes worked by New York capital.

SOCIALISM.

To the Editor.—No sane persons will accept W. J. Ledingham's effusion as an answer to the question, "What is Socialism?" Travelers relate that there grows on the banks of the Dead Sea a plant bearing a fruit superb in color and in its inviting appearance. The pilgrim, parched by journeying over the desert, sees this apple of Sodom; he hastens to gather it, but scarcely does he touch it when it falls to dust.

A QUICK CURE FOR TOOTHACHE. Saturate a little cotton batten with Peppermint, plug the cavity, and rub the gums with Nerville. Relief is instantaneous because Nerville acts at once on the nerves and drives away the pain. It's cheaper to have Nerville handy than to visit a dentist, so get a bottle to-day. It's valuable in any household, and cures toothache, neuralgia, sick headache and stomach troubles. Peppermint is safe, prompt and sure to cure every pain and ache that a liniment can cure. Thousands employ Nerville, why not you? Price 25c. for a large bottle at all druggists.

Sunshine Furnace. PROPRIETOR—"Well Tom, how did that new furnace work this winter—sure any coal?" JANITOR—"Yes, sir! put in two tons less than last winter and have about half a ton left—guess it paid you to throw out that old coal-eater and put in this up-to-date SUNSHINE." PROPRIETOR—"Yes, I think so; and I noticed the house was comfortable in all kinds of weather. Easy to take care of?" JANITOR—"Yes, sir! just had to attend it twice a day—never had any trouble with the fire going out, and didn't have to spend half my time sweeping, cleaning, shaking, dumping ashes, and all that sort of thing—wish all my customers had SUNSHINES!" In the end you pay more for fuel than the furnace in which you burn it—a furnace that saves fuel saves its cost. Burns coal, coke or wood. Catalogue free. Our homes are clean and bright. Our clothes are sweet and white. For our mothers use Sunlight Soap.

Because Sunlight Soap is a pure soap it is the only soap you should use for washing children's clothing. It makes the garments white, sweet and clean, because it is a pure soap that makes a clean foamy lather—no grease in it.

ASK FOR THE OCTAGON BAR. Sunlight Soap washes the clothes white and won't hurt the hands. LEVER BROTHERS LIMITED, TORONTO.

HOW NEW POPE WILL BE ELECTED

PROCEDURE GIVEN BY DELEGATE APOSTOLIC

Mgr. Falconio Describes the Methods Which Are Employed in Making the Selection.

In response to the New York World's request, the Most Rev. Dionisio Falconio, Delegate Apostolic to the United States, prepared and carefully revised the following detailed description of the approaching election of a new Pope to succeed Leo XIII.

As soon as the Holy Father has breathed his last, amidst the consolations of religion, and after making his profession of faith, in the presence of the Grand Penitentiary, who usually administers the last sacraments and of the more intimate members of his court, the Cardinal Camerlengo, accompanied and assisted by the reverent clerks of the Apostolic Chamber, takes possession of his palace and causes a careful inventory of everything found in the Papal apartments. He then proceeds to the chamber of death, in which the body of the Pontiff still lies.

He then receives from the Pope's personal chamberlain, known as the Maestro di camera, a purse containing the Fisherman's Ring, which the dead Pope had used during life. The Camerlengo, by virtue of his office becomes the executive of the Pontifical government. Pope Leo was the Camerlengo of Pius IX.

Twenty-four hours after death the body of the Pontiff is embalmed and lies in state, robed in the ordinary or domestic costume, upon a bed covered with cloth of gold and crimson draperies. The pious offices of washing and dressing the body are performed by the penitentiaries or confessors of the Vatican Basilica, who are always members of the Minor Conventuals of the Franciscan Order.

On the following day the Cardinals and Chapter of St. Peter's assemble in the Sistine chapel and accompany the transportation of the body to the chapel of the Blessed Sacrament in the main church of St. Peter's. The feet are allowed to protrude through an opening in the iron railing, that the faithful may approach and kiss the embroidered slipper. Nine days' public obsequies for the Pontiff then begin.

During the nine days that the obsequies of the Pope continue the cardinals assemble each morning in the sacristy of

St. Peter's to arrange all matters of government of the church and the details of the approaching conclave. These meetings are called general congregations. At them the bulls and ordinances, relating to Papal elections are read and the cardinals take an oath to observe them faithfully.

The Fisherman's Ring and the large metal seal used for bulls are broken by the master of ceremonies on the meeting of the first general congregation. Two orators are chosen, one for the funeral oration and the other for the conclave. All briefs, memorials and official papers, are finally acted upon are solemnly assigned to the clerk of the general congregation to be held during the interregnum.

On the tenth day the body of the dead Pontiff is quietly carried to its place in the crypt of St. Peter's, there to rest until the death of his successor, when it is transferred to the tomb built during his lifetime.

In the forenoon of this tenth day the cardinals assemble in the choir chapel of St. Peter's, where the dean of the Sacred College celebrates a solemn high mass of the Holy Ghost. After this service the orator of the conclave is introduced, who, if he is a bishop, wears his full episcopal canonicals. His discourse is directed to infuse a spirit of sobriety and dwells upon the fact that an excellent and worthy Pontiff must be chosen.

After the sermon and the singing by the Papal choir of the hymn "Veni Creator," the cardinals ascend in solemn procession to the Pauline chapel in the Vatican palace, where the dean recites aloud the prayer, "Deus, qui corda fidelium creavit." He addresses his colleagues upon the momentous duty they are about to undertake, and exhorts them to lay aside all human motives and perform their work without fear or favor of any man.

During the first day the quarters of the conclave are left open, and the cardinals receive the last visits from the diplomatic corps and from their personal friends. Distinguished members of the laity are also permitted ingress into the room of the conclave during the first day.

At its close, every avenue leading into the conclave, except one door, is bricked up by masons under the direction of a prelate and a layman known as the architect of the conclave. One door is left without masonry in order that a late-coming cardinal may enter, or should one of the participants in the ceremony become dangerously ill, he may be permitted to leave the hall.

The door of the conclave is then locked on the outside by the prince marshal of the Holy See, and on the inside by the Cardinal Camerlengo, both of whom retain the key of their own side. The keys of this lock are so combined that it requires both to open the door. In addition to this precaution a trusty guard is placed on the outer side to prevent any communication with the outer world. These are solemnly charged to examine closely every such necessary articles of food as may be introduced, to prevent the delivery of any writing or information whatsoever from the outside world.

During the interval between the death of the Pope and the assembling of the conclave, architects have been at work within the quarters reserved for the conclave. Separate apartments have been boarded off for each cardinal. Three rooms are reserved for a cardinal bishop and two for a cardinal priest or deacon. In the larger room of these suits the cardinal lives, and the others are occupied by his personal attendants. Separate apartments are reserved for the physicians and servants necessary. The apartments are distributed by lot, in order that no coterie in favor of the election of a certain man may congregate. The conclave which elected Gregory XVI, predecessor of Pius IX., lasted sixty-four days.

Leo was the Camerlengo of his own conclave, and this office devolved upon the vice-dean.

Twice a day, immediately after mass and vespers, the cardinals meet in the chapel, and there, on tickets so arranged that the voter's name cannot be seen, they write the name of him for whom they give their suffrage.

The pontifical know the hour when the ballots should be burned, and should more be the smallest delay, attention is riveted to hear the sound of pick and hammer breaking the masonry seals around the conclave.

A few minutes afterward the Camerlengo emerges on the small balcony and proclaims the name adopted by the new Pope. His words are: "I bring you tidings of great joy; we have elected as Pope the Most Eminent and Reverend \_\_\_\_\_, who has assumed the name of \_\_\_\_\_."

The consent of the person elected is absolutely necessary. Thirty-eight times in the history of the Pontificate persons have refused the election to the Papacy, and often the acquiescence of the one chosen is obtained with the greatest difficulty.

Immediately after the election and acceptance, the new Pope is dressed in the ordinary costume of the Supreme Pontiff—This consists of white stockings, rascal and sash with gold tassels, white collar and skull cap and red mozzetta, stole and shoes.

Three suits of this apparel of different sizes are prepared before the conclave and are kept in the dressing room for the new Pontiff to make his choice. He then takes his seat on a throne erected within the conclave and receives the first homage.

The cardinals kneel before him, kiss the nuptial ring on his hand, and then arising receive from him the kiss of peace on the cheek.

When the Pope is fully dressed he receives on his finger the Fisherman's Ring. This he immediately removes and hands to the master of ceremonies to be engraved with the name he assumes as reigning Pontiff. Two other rings are given to the Pope. The first is a band of plain gold with an intaglio or cameo ornament called the papal ring. The second, or pontifical ring, is used only when the Pope officiates at grand ceremonies. It is exceedingly precious and is set with an immense oblong diamond.

While Italy is under the reign of the present dynasty, an election to the Papacy may likely mean perpetual seclusion within the Vatican. Should he choose to follow the policy of Pius IX. and Leo XIII., the new Pope will not be seen outside of St. Peter's again.

On a day selected after his election in the conclave the Pontiff is borne in solemn procession, lifted aloft on the Sella Gestatoria to his coronation at the high altar of St. Peter's. Perhaps no court on earth can present so grand and so overpowering a spectacle as the coronation of the Roman Pontiff.

In the centre of the sublime building will stand a circle of officers, nobles, princes, ambassadors, in their dazzling costumes, and with them the highest dignitaries of religion, cardinals, bishops and patriarchs of the Eastern and Western church, with the long line of episcopal throne attendants and house prelates in their gorgeous embroidered robes; all this makes a scene which claims reverence from every beholder.

The papal moves in procession toward the high altar, over the tomb of St. Peter and St. Paul and to the Pontifical throne erected beyond. Here the procession stops. A clerk of the Papal chapel holds up before the Pontiff a red surmounted by a handful of flax. It is lighted. It flashes up for a moment, dies out at once, and its pale thin ashes fall at the feet of the new Pope, while the chaplain chants aloud: "Pater Sancte sic transit gloria mundi."—Thus, on Holy Father, passes the glory of this world.

Three times is this impressive rite performed as though to counteract the earthly glory of the Papacy. The Papal throne is erected opposite to the altar and forms the furthest point in the sanctuary or choir. It is lofty and ample, reached by a long flight of steps around which are grouped the Pontiff's personal attendants. On the highest step the Pontiff, supported and surrounded by his ministers, forms a pyramid rich and varied. The mass is celebrated by the Camerlengo.

The Pope receives the communion from the hands of the oldest cardinal deacon. As the host touches the lips of the Pontiff a clasp of swords is heard and of scabbards ringing on the marble pavement, as the Swiss and Noble Guards fall on their knees. The Papal crown is placed upon the new Pontiff's head by the Cardinal Camerlengo at head by the Cardinal Camerlengo. He then borne to the loggia or balcony above the door of St. Peter and thence he gives his first Papal benediction to the multitude assembled below.

One of the grandest features of the occasion is the singing by the Papal choir of the hymn "Ecce Sacerdotes Magni." "Behold the High Priest, and the nation whom the Lord has chosen." Then "Corona Aurea Super Caput Ejus." "The Golden Crown is on Thy Head." After the Pope blesses the multitude he makes a solemn and stately pilgrimage back through St. Peter's to the tomb of the Apostles, where he kneels in deep meditation. After this he enters upon the discharge of his duties.

Sheriff James Penton, with his prisoner, Jimmie Cloud, guarded by a posse of 50 men, arrived at Basin, the county seat of Big Horn county, on Tuesday.

IRIS WITH CABLE FOR WEST COAST

REACHES PORT FROM THE SOUTH TO-DAY

Something About Vessel Which Is to Lock After Pacific Cable—New Rock Discovered.

The new government cable repairing steamer Iris arrived from London, via Sydney and Honolulu, this afternoon to lay a wire between Bamfield Creek and the head of the Alberni canal.

The Iris is commanded by Capt. W. H. Lacy, who has had an extensive experience in cable laying. He was formerly attached to the Great Eastern, and more recently was associated with the Amazon Telegraph Company.

The Iris, which is under strict naval discipline, is conjointly owned by the Imperial government, the Dominion of Canada, the state governments of New South Wales, Queensland, and Victoria, and the government of New Zealand.

The Iris is now on a three years' commission, and during that time will be stationed between Brisbane and Victoria. The headquarters of the cable repairing steamer will be Fiji, but an attempt is being made to induce the authorities to select Auckland as the centre.

The Iris was launched early last year, and was taken for her official speed trials in October last. She was built for the Pacific cable board of London by Messrs. David J. Duffell & Co., Port Glasgow, and her principal dimensions are: Length on water line, 286 feet; breadth, 40 feet; depth moulded to spar deck, 25 feet.

signed with a view to secure the least possible vibration. Stored in the fore-hold are grapefruit, mushrooms, etc. Four immense buoys, each weighing 31 cwt., are carried on the spar deck, and are supplied with patent platforms for launching them.

On her voyage to Sydney the ship met a Russian fleet at Colombo bound for Port Arthur, consisting of three cruisers, one battleship and eight destroyers.

NEWLY DISCOVERED ROCK. On information supplied by Capt. H. Newcomb, master of the S. S. Kestrel, the department of marine and fisheries has given notice that an uncharted rock, named Cecil rock, has been located about two-thirds of a mile to the north-westward of Redfern island.

FRISCO EXCURSIONS. Passengers are fast booking for the excursions to San Francisco on the 7th and 12th of August, and already there are indications that the steamer sailing on those dates will be crowded.

MARINE NOTES. The derelict schooner Amythist, which drifted into Barkley Sound bottom up a year or so ago, is to be sold by Auctioneer Jones at his place of business on the 4th of August, under instructions from Collector Milne, receiver of wrecks.

The French cruiser Protet, which will shortly pay Esquimaux a visit, is still at San Francisco, where she will remain for another week at least. The Examiner states that she will be open to visitors all this week.

All grocers and butcher stores are closed today, the occasion being the annual picnic. A train left for Langford Plains this morning at 10 o'clock, carrying a large contingent of picnickers.

There's No Sense

ANNUAL REGATTA AT TERMINAL CITY

Local Crews Will Compete in Every Race on Programme—Other Sporting News.

To-morrow the annual regatta of the North Pacific Association of Amateur Oarsmen will open at Vancouver. From present indications this year's regatta will be successful in every particular.

Nelson and Portland already have their representatives at Vancouver ready to compete for the championship honors of the Coast. According to reports, members of both the crews mentioned, are excellent oarsmen, and in their preliminary spins are showing good speed.

Undoubtedly the greatest interest is centered in the race between four representing Portland, Nelson, Vancouver and Victoria. The last named crew won the championship last year, and is confident of repeating the performance.

Following is the list of entries as far as can be ascertained at present: Senior Fours. N. B. C. (green and white)—G. C. Hodge (bow), C. B. Winter (2), G. H. Jesse (3), A. V. Mason (stroke).

Junior Fours. P. B. C. (blue and white)—Geo. C. Luders (bow), Roy Kirkley (2), N. M. Montgomery (3), W. A. King (stroke).

Senior Doubles. D. O'Sullivan (bow), W. W. Wilson (stroke).

"Drink Pure Water" AND ENJOY GOOD HEALTH.

Many of our leading scientists have spent much time and thought to discover the best means of disposing of the germ elements in water, and all agree that a reliable filter is the best process yet devised to exterminate the young rascals that make so much trouble even with the strongest constitutions.

"Preserve Life" By Using Any One of These Filters:

- Doulton's Manganous Carbon Filter: 2 gallons at \$6.00 and \$8.00 each; 3 gallons at \$7.50 and \$10.00 each. Doulton's Universal at \$4.00. BUY A FILTER AT ONCE.
- Pasteur Germ Proof Filter: "The Leda" at \$12.00 each (One lit. only); "The Success" Filter is a really good one at \$8.00.
- Glass Filters: (Very good indeed for Bedrooms.) Only \$1.25 each.

Weiler Bros., Victoria.
