Chapter VIII—Sugar Service, Agricultural Conservation and Adjustment Administration

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF PROPORTIONATE SHARES FOR FARMS IN THE MAINLAND CANE SUGAR AREA FOR THE 1942 CROP

Whereas, section 302 of the Sugar Act of 1937, as amended, provides in part as follows:

(a) The amount of sugar or liquid sugar with respect to which payment may be made

shall be the amount of sugar or liquid sugar commercially recoverable, as determined by the Secretary, from the sugar beets or sugarcane grown on the farm and marketed (or processed by the producer) not in excess of the proportionate share for the farm, as determined by the Secretary, of the quantity of sugar beets or sugarcane for the extraction of sugar or liquid sugar required to be processed to enable the producing area in which the crop of sugar beets or sugarcane is grown to meet the quota (and provide a normal carry-over inventory) estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed.

(b) In determining the proportionate shares with respect to a farm, the Secretary may take into consideration the past production on the farm of sugar beets and sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugar beets or sugarcane, and the Secretary shall, insofar as practicable, protect the interests of new producers and small producers and the interests of producers who are cash tenants, share-tenants, adherent planters, or share-croppers;

And whereas, subsection (c) of section 301 of the said act provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

(c) That there shall not have been marketed (or processed) an amount (in terms of planted acreage, weight, or recoverable sugar content) of sugar beets or sugarcane grown on the farm and used for the production of sugar or liquid sugar to be marketed in, or so as to compete with or otherwise directly affect interstate or foreign commerce, in excess of the proportionate share for the farm, as determined by the Secretary pursuant to the provisions of section 302, of the total quantity of sugar beets or sugarcane required to be processed to enable the area in which such sugar beets or sugarcane are produced to meet the quota (and provide a normal carry-over inventory) as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed;

Now, therefore, the following determination is hereby issued:

§ 802.26d *Proportionate shares of sugarcane for the mainland cane sugar area for the 1942 crop*—(a) *Farm proportionate share.* The proportionate share of sugarcane for the 1942 crop for any farm in the mainland cane sugar area shall be the number of acres planted thereon for the production of sugarcane to be marketed (or processed by the producer) for the extraction of sugar or liquid sugar during the 1942 crop season.

(b) *Tenant and sharecropper protection.* The provisions of this determination are subject to the following conditions:

(1) That no change shall have been made in the leasing or cropping agreements for the purpose of diverting to producers any payment to which tenants or sharecroppers would be entitled if their 1941 leasing or cropping agreements were in effect;

(2) That there shall have been no interference by any producer with any contracts heretofore entered into by tenants or sharecroppers for the sale of their sugarcane or their share of the sugar-

cane produced on the farm. (Sec. 302, 50 Stat. 910; 7 U.S.C., 1132)

Done at Washington, D. C., this 24th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1201]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR REVISION OF THE PRICE CLASSIFICATIONS, MINIMUM PRICES, AND SEAM DESIGNATIONS FOR THE COALS OF CERTAIN MINES IN SUBDISTRICTS NOS. 7, 8, AND 9 IN DISTRICT NO. 8

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its petition proposed certain changes in the effective minimum prices and in the seam designations heretofore established and designated for the mines of certain code member producers in Buchanan, Russell and Tazewell Counties in Virginia. The petition further requests that certain errors in the listing of the location of mines be corrected.

Pursuant to an Order of the Acting Director, dated December 19, 1941, and after notice to all interested parties, a hearing was held before Joseph A. Huston, a duly designated Examiner of the Division at a hearing room of the Division at Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard.

Petitioner, District Board 8, as well as Consumers' Counsel appeared. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned. The petition of the District Board 8 herein requested a revision of the classifications and effective minimum prices for truck and rail shipments for the coals produced at some forty-seven mines located in Buchanan, Russell and Tazewell Counties, Virginia.

The testimony of the representative of District Board 8 shows that minimum prices were originally established for the coals in question. However, due to errors in properly designating the seams in which the coals were produced or the

counties in which the mines were located, the classifications and minimum prices which were established do not properly reflect the relative value of coals and they are not in proper coordination with other coals produced in District 8. The effect of the changes proposed would be to establish for the mines listed the proper prices applicable to the coals from the seams in which such mines are actually producing.

It appears that in some cases the change in seam designation will result in an increase in the effective minimum price, while in others the change in seam designation will result in a decrease in such prices. However, according to the testimony, the prices proposed for mines

in each of these seams are identical with the prices presently effective for other mines located in the same seam.

The classifications and prices proposed by the Board will, it appears, reflect proper coordination between the coals to which said prices apply and competing coals.

Upon the basis of the uncontroverted evidence, I find that the classifications and minimum prices as well as the seam designations shown in the schedule here-attached for the coals specified therein are proper and should be established; that such classifications and minimum prices conform in all respects to those heretofore established for comparable coals in District No. 8 and will preserve

the fair competitive opportunities for the producers of said coal.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 328.11 (Alphabetical list of code members) is amended by adding thereto Supplement R § 328.34 (General prices for high volatile coals in cents per net ton for shipment into all market areas) is amended by adding thereto Supplement T-I, and § 328.42 (General prices for low volatile coals) is amended by adding thereto Supplement T-II, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: March 16, 1942.
[SEAL] DAN H. WHEELER,
Acting Director.

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 328, Minimum Price Schedule for District No. 8 and supplements thereto.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Division of Industry Operations

PART 1043—METAL SIGNS

GENERAL LIMITATION ORDER L-29

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other metals for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote national defense.

§ 1043.1 *General Limitation Order L-29*—(a) *Definitions*. For the purposes of this Order:

(1) "Signs" means all devices having an area of more than 36 square inches designed primarily to deliver or convey information, messages or ideas, including (but not limited to) neon-tube and other electrical signs, bill-boards, outdoor and highway signs (other than traffic lights), name plates, store front signs and indoor signs. "Signs", however, shall not include

(i) Any type of plate, tag, emblem, insignia or marker which is or may be used by a Governmental Unit to evidence licensing or registration of any kind and for any purpose; or

(ii) Lamps or bulbs for electrical signs.

(2) "Metals" means all ferrous and non-ferrous metals except those contained in metallic paint.

(3) "Metal Signs" means signs, into the physical composition of which any metals are incorporated: *Provided*, That the weight of metals contained therein shall amount to at least 5 percent of the weight of the sign.

(4) "Accessories" means all wiring and other electrical equipment (other than lamps or bulbs), and frames, hanging brackets, stands, poles, booms, and other supporting devices designed primarily for use with signs.

(5) "New Accessories" means any accessories which have never been used with a sign.

(6) "Manufacturer" means any person who is customarily engaged in the business of producing metal signs and/or accessories.

(7) "To Use" material means to put that material into production for the first time. (When a person is limited to a percentage of the material used in a base period, this limitation applies to the aggregate weight of such material when first put into production by that person, whether in the form of raw materials or as purchased parts.)

(8) "Base Period" means the twelve months ending June 30, 1941.

(b) *General restrictions*. (1) During the period from the date of issuance of this Order to the last day of the calendar month in which it is issued inclusive, the average daily use of iron and steel by any manufacturer in the production

and installation of metal signs and/or new accessories shall not exceed his average daily aggregate use of metals for such purposes during the base period, provided that a manufacturer may use more than his quota of iron and steel under this subparagraph if, but only if, he reduces his quota under subparagraph (2) by an equivalent amount of iron and steel.

(2) During the three months' period beginning with the first day of the first calendar month following the date of issuance of this Order, no manufacturer shall use in the production and installation of metal signs and/or new accessories more iron and steel than 12½ percent of his aggregate use of metals for such purposes during the base period.

(3) Effective the first day of the fourth calendar month following the date of issuance of this Order, no manufacturer shall use any metals in the production of metal signs and/or accessories.

(4) After the effective date of this Order no manufacturer shall sell, deliver or otherwise transfer in the form of raw or semi-processed materials, any part of his inventory of iron or steel which he holds for use in the production of metal signs or accessories, to any other person, or to any other department, division, or section of his concern not engaged in the production of metal signs, except

(i) To other manufacturers for their use in the production of signs and accessories as permitted under the provisions of subparagraphs (b) (1) and (b) (2), or of repair or maintenance parts for signs;

(ii) To any person (including any other department, division, or section of the manufacturer's concern not engaged in the production of metal signs) who is able to supply a preference rating of A-3 or higher;

(iii) To Defense Supplies Corporation, Metals Reserve Company, or any other corporation organized under section (5) (d) of the Reconstruction Finance Corporation Act as amended, or any person acting as agent for any such corporation; or

(iv) With specific consent of the Director of Industry Operations.

(c) *Avoidance of excessive inventories*. Manufacturers of metal signs shall not accumulate for use in the manufacture or installation of such signs and/or accessories inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production or installation of metal signs and/or accessories at the rates permitted by this Order.

(d) *Records*. All persons affected by this Order shall keep and preserve for not less than two years, accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection*. All records required to be kept by this Order, shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports*. Each manufacturer shall file with the War Production Board on or before the fifteenth day of the fourth calendar month following the date of issuance of this Order, his inventory of iron and steel, and all other metals in the form of raw or semi-processed materials held for use in the production of signs and accessories, and such other reports and questionnaires as said Board shall from time to time prescribe.

(g) *Violations*. Any person who willfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal*. Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders*. Insofar as any other Order issued, or to be issued hereafter, limits the use of any material in the production and installation of metal signs and/or accessories to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(j) *Application of Priorities Regulation No. 1*. This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications*. All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., Ref: L-29.

(l) *Effective date*. This Order shall take effect on the date of its issuance, and shall continue in effect until revoked. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Law 89, 77th Cong., 1st Sess.)

Issued this 25th day of March 1942.

PART 1119—METAL PLASTERING BASES AND
METAL PLASTERING ACCESSORIES

LIMITATION ORDER NO. L-59

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of steel, zinc, and other metals for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1119.1 *General Limitation Order L-59*—(a) *Definitions.* For the purposes of this Order:

(1) "Metal Plastering Base" means any support or reinforcement, made in whole or in part of metal, which is of a type commonly used as a base for the application of interior or exterior plastering or stucco construction, including, but not limited to, the following: expanded metal lath, metal stucco mesh, sheet metal lath, wire lath, wire cloth, wire fabric (whether woven or welded) and any of the foregoing in combination with any other of the foregoing or with paper, fabric, or other backing.

(2) "Metal Plastering Accessory" means any article (other than a Metal Plastering Base or a nail) which is of a type commonly used as a guide, support, reinforcement or means of attachment for Metal Plastering Bases or other plaster bases, and which is made in whole or in part of metal, including but not limited to, the following: corner lath (cornerite), corner beads, base screed,

corner bead clips, tie wire, metal partition studs, floor and ceiling track for partitions, steel plastering shapes such as channels and rods, and concealed picture mold and trim to be applied before plastering.

(3) "Zinc-Coated Metal Plastering Base and/or Metal Plastering Accessory" means any Metal Plastering Base and/or Metal Plastering Accessory into the physical composition of which there has been incorporated any metal which has a surface coating of zinc, whether wholly or partially covered with zinc, regardless of how or when that zinc coating was applied.

(4) "Class A Manufacturer" means any manufacturer of Metal Plastering Bases and/or Metal Plastering Accessories who incorporated 14,000 tons, or more, of metals into Metal Plastering Bases and/or Metal Plastering Accessories during the calendar year 1941.

(5) "Class B Manufacturer" means any manufacturer of Metal Plastering Bases and/or Metal Plastering Accessories who incorporated less than 14,000 tons of metals into Metal Plastering Bases and/or Metal Plastering Accessories during the calendar year 1941.

(b) *General Restrictions*—(1) *Class A manufacturers.* Except as provided in subparagraphs (3) and (4) of this paragraph, during the four months' period from March 1, 1942, to June 30, 1942, inclusive, no Class A Manufacturer shall incorporate into Metal Plastering Bases and/or Metal Plastering Accessories, other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories, any metal in excess of $\frac{1}{6}$ of 50% (by weight) of the total quantity of that metal which was incorporated into Metal Plastering Bases and/or Metal Plastering Accessories other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer during the calendar years 1940 and 1941; nor shall such manufacturer incorporate into Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories any metal in excess of $\frac{1}{6}$ of 35% (by weight) of the total quantity of that metal which was incorporated into Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer during the calendar years 1940 and 1941.

(2) *Class B manufacturers.* Except as provided in subparagraphs (3) and (4) of this paragraph, during the four months' period from March 1, 1942, to June 30, 1942, inclusive, no Class B Manufacturer shall incorporate into Metal Plastering Bases and/or Metal Plastering Accessories other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories any metal in excess of $\frac{1}{6}$ of 75% (by weight) of the total quantity of that metal which was incorporated into Metal Plastering Bases and/or Metal Plastering Accessories other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer during the calendar years 1940 and 1941; nor shall such manufacturer incorporate into Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories any

(3) To the extent that any manufacturer does not incorporate into Metal Plastering Bases and/or Metal Plastering Accessories any quantity of zinc which he is permitted, by paragraphs (b) (1) and (b) (2) hereof to incorporate

into Metal Plastering Bases and/or Metal Plastering Accessories, he may increase by an equal amount the weight of iron and/or steel which he incorporates into Metal Plastering Bases and/or Metal Plastering Accessories: *Provided,* That the total weight of all the metals which shall be incorporated by that manufacturer into all types of Metal Plastering Bases and/or Metal Plastering Accessories shall in no case be greater than the total weight of all metals which he is permitted to incorporate into all types of Metal Plastering Bases and/or Metal Plastering Accessories by the terms of paragraphs (b) (1) and (b) (2) hereof.

(4) Nothing in the Order shall limit and each manufacturer is specifically authorized to use, in addition to the quota set forth above, any amount of any materials required in the production of Metal Plastering Bases and/or Metal Plastering Accessories under specific contracts or orders placed by or for the account of, or to fulfill a contract with

The Director of Industry Operations may thereupon take such action as he deems appropriate.

PART 1306—IRON AND STEEL

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 6¹—IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.²

Section 1306.7 is amended to read as follows:

§ 1306.7 *Petitions for amendment, adjustment or exception.* (a) Persons seeking any modification of this Revised Price Schedule No. 6 or an adjustment or exception not provided herein, may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

(b) Any person, who is prepared to show that (1) its cost of production of iron and steel products is above its mill net realization on such products at ceiling prices or (2) its mill net realization is inadequate in view of its high operating costs for continued operations at ceiling prices, may file a petition for an adjustment of the maximum prices established by Revised Price Schedule No. 6. In such cases the petitioner should submit, and the Office of Price Administration will consider, all relevant data, including the relation of the current, requested, and projected realization on the particular iron and steel products, or on the particular mill, to the total over-all return of the petitioner, and, the necessity, in terms of the war effort, for the granting of such adjustment or exception. The Office of Price Administration may require, in connection with any such petition, full data on costs, profits, and other relevant factors. Petitions for adjustment pursuant to this section shall be filed in the manner stated in §§ 1300.39 through 1300.41 of Procedural Regulation No. 1 issued by the Office of Price Administration.

¹ 7 F.R. 1215, 2153.

² Filed with the Division of the Federal Register; requests for copies should be addressed to the Office of Price Administration.

(c) Any producer of iron and steel products may file a petition for an exception from the ceiling prices established by this Price Schedule for a sale or group of sales of iron and steel products which are necessitated by the war effort and involve shipment into areas not normally served by such producer or the absorption of abnormally high transportation costs resulting from the lack of customary means of transportation. In all such cases, the petitioner should submit, and the Office of Price Administration will consider data indicating the reasons for which the particular shipment is abnormal, and the relation of such shipments to the war effort. The petition must also state the absence of other provisions in Revised Price Schedule No. 6 which will afford relief to the petitioner. In considering such petitions, the Office of Price Administration may require data in the manner stated in paragraph (b) of this section. Relief granted may include, as well as such other provisions as may be appropriate, permission to sell iron or steel products on an f. o. b. mill basis. Petitions for exception pursuant to this section shall be filed in the manner stated in §§ 1300.39 through 1300.41 of Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1306.9a *Effective date of amendments.*

(b) Amendment No. 2 (§§ 1306.7 and 1306.9 (b)) shall become effective March 25, 1942. (Pub. Law 421, 77th Cong., 2nd Sess.)

PART 1330—CONTAINERS

MAXIMUM PRICE REGULATION NO. 55—
SECOND HAND BAGS

The title, preamble and §§ 1330.51 to 1330.60, inclusive, of Revised Price Schedule No. 55¹ are amended and renumbered, and are issued as Maximum Price Regulation No. 55—Second Hand Bags.

On December 16, 1941, because, in the judgment of the Administrator of the Office of Price Administration, the prices of second hand bags had risen and were further threatening to rise without justification, Price Schedule No. 55 was issued establishing maximum prices for each seller of second hand bags based upon his highest prices received on sales or deliveries during the period November 15 to December 6, 1941. It was stated in the preamble thereto that a revised schedule of maximum prices was contemplated after completion of studies by the Office of Price Administration. On February 2, 1942, Price Schedule No. 55 was amended changing the base period by which a seller was to determine his maximum prices to October 1 to October 15, 1941. Maximum Price Regulation No. 55 establishes specific maximum prices for second hand bags.

In establishing specific maximum prices the Price Administrator has ascer-

tained and given due consideration to the prices of second hand bags prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of the Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.²

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,³ issued by the Office of Price Administration, Maximum Price Regulation No. 55, amending Revised Price Schedule No. 55, is hereby issued.

AUTHORITY: §§ 1330.51 to 1330.61, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1330.51 *Maximum prices for second hand bags.* On and after March 30, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver second hand bags, and no person shall, in the course of trade or business, buy or receive second hand bags at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1330.61; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That contracts entered into prior to March 30, 1942, under the terms of and at prices in compliance with Revised Price Schedule No. 55 (§§ 1330.51 to 1330.60, inclusive) may be carried out at the contract price.

§ 1330.52 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1330.61) may be charged, demanded, paid, or offered.

(ii) A used container composed of any of the above textile materials which material is of sound condition but which has been cut or torn to an extent that it cannot feasibly be mended or patched for reuse as a container, commonly referred to by the trade as an "unmendable" bag; and

(iii) A container manufactured from any of the above textile materials which material has itself been used once or more as a container or for any other commercial purpose; but shall not include

(iv) A used container composed of any of the above textile materials which material has deteriorated to an extent that the material is no longer sufficiently sound for reuse as a container, commonly referred to by the trade as "junk" or "waste" material.

(3) "Unprocessed" or "in order" bag means a second hand bag of sound material which, since its last use as a container, has been cleaned, patched or mended if necessary, and subjected to any other process of reconditioning necessary to render it fit for immediate reuse as a container.

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for new radio receiving sets and phonographs the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,¹ issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 14 is hereby issued.

AUTHORITY: §§ 1336.151 to 1336.161, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

The provisions of this section shall not apply to sales or deliveries of radio receiving sets or phonographs to a purchaser if, prior to March 30, 1942, such radio receiving sets or phonographs have been received by a carrier other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(a) *Current models.* The maximum price for any current model of radio receiving set or phonograph shall be the highest net price for which such model was sold or contracted to be sold by the same seller on the 19th day of March 1942, to a purchaser of the same general class. If there was no such sale, the maximum price shall be the highest net price for which such model was sold or contracted to be sold by the same seller on the most recent date prior to March 19, 1942, to a purchaser of the same general class.

§ 1336.153 *Conditional agreements.* No distributor or dealer in radio receiving sets and phonographs shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided in § 1336.151, in the event that Temporary Maximum Price Regulation No. 14 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That, if a petition for amendment under § 1336.158 has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1336.154 *Evasion.* The price limitations set forth in Temporary Maximum Price Regulation No. 14 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to radio receiving sets and phonographs, alone or in conjunction with any other commodity, or by way of any commission, service, transportation, or other charge, or by alteration of any discount, premium, allowance or privilege, or by tying-agreement or other trade understanding, or otherwise.

Definitions

§ 1360.310 *Definitions.*

Restriction of Transfers

§ 1360.336 *Removal of certain automobiles from the pool.* Subject to the provisions of § 1360.337, the Office of Price Administration may, in its discretion, from time to time, issue authorizations to remove from the pool certain new passenger automobiles which fall under one or more of the following classifications:

(1) Such branch or subdivision was engaged principally in the sale of automobiles at retail, or

(2) Such automobiles were, on or before such date, consigned, invoiced, billed, or otherwise identified for delivery to a person not owned or controlled by the manufacturer.

Provided, That as a condition of authorizing any removal, the Office of Price Administration may require substitution of a new passenger automobile for each automobile removed.

§ 1360.337 *Application for authorization to remove from the pool; authorization; substitution.* Any dealer, distributor, manufacturer or finance company owning an automobile falling within any of the classifications set forth in § 1360.336 may make application to the Office of Price Administration for authorization to remove such automobile from the pool and to remove the pool sticker, if any, therefrom. Upon removal of a pool sticker pursuant to any such authorization such automobile shall cease to be a pool car: *Provided,* That where an authorization of removal

Within 10 days after the effective date of any such amendment, the owner of any automobile therein defined as a "pool car" shall affix to each such automobile a "pool sticker".

§ 1360.339 *Application for authority to remove pool stickers erroneously placed on automobiles.* The owner of any automobile to which a pool sticker has been affixed, and who claims that such pool sticker was affixed by error and that such automobile is not a "pool car" as defined in § 1360.310 (h), may make application to the Office of Price Administration for authority to remove the pool sticker therefrom. Applications shall be made in writing, over the signature of the owner or his duly authorized agent, giving the make, body type, serial number, and engine number of the automobile and the facts by reason of which it is claimed that said automobile is not a "pool car". In any such application the applicant may request authority to remove stickers from one or more automobiles. In the Office of Price Administration finds that any such automobile is not a "pool car" as defined in § 1360.310 (h), it shall issue an authorization permitting the owner or his duly authorized agent to remove the pool sticker or stickers therefrom. No person shall remove any pool sticker from any new passenger automobile unless the removal thereof is authorized by the Office of Price Administration.

§ 1360.340 *Authorizations of removal do not permit transfers.* No authorization of removal from the pool and no authorization for the removal of a pool sticker pursuant to §§ 1360.337 or 1360.339 hereof shall constitute authority for the transfer of any new passenger automobile.

(b) Except as provided in paragraph (c) of this section, the maximum price for each dressed hog or wholesale pork cut shall be the highest price at which such dressed hog or wholesale pork cut was listed in the price list or lists upon which the seller based his price quotations at the delivery point during the period March 3, 1942, to March 7, 1942, inclusive: *Provided* (1) That where the seller, because of unusual transportation, packaging and handling costs, customarily sold to certain buyers during the ninety day period prior to March 9, 1942 at prices higher than the list prices, he may continue to include such unusual costs as are actually incurred in the sales to those buyers; and (2) That the seller must continue to allow all the shading privileges or discounts from his price list or lists which were customary during the ninety day period prior to March 9, 1942 and which were based on cost differentials arising from low transportation or packaging costs or any other saving in the cost of handling; except that the provisions of this Proviso No. 2 of paragraph (b) shall not apply to any sales of dressed hogs or wholesale pork cuts to the Federal Surplus Commodities Corporation or to any purchasing agency of the armed forces of the United States.

(c) (1) Where the seller customarily sold dressed hogs or wholesale pork cuts to certain buyers during the ninety day period prior to March 9, 1942 at prices based upon market quotations rather than upon his price list or lists, the maximum prices to such buyers shall be the highest prices at which such dressed hogs or wholesale pork cuts were listed in such market quotations during the period March 3, 1942, to March 7, 1942,

PART 1370—ELECTRICAL APPLIANCES

MAXIMUM PRICE REGULATION NO. 111—NEW HOUSEHOLD VACUUM CLEANERS AND ATTACHMENTS

In the judgment of the Price Administrator the prices of household vacuum cleaners and attachments are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of new household vacuum cleaners prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has deter-

mined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.¹

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,² issued by the Office of Price Administration, Maximum Price Regulation No. 111 is hereby issued.

AUTHORITY: §§ 1370.1 to 1370.13, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1370.1 Maximum prices for household vacuum cleaners and attachments. On and after March 30, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver any model of household vacuum cleaner and the attachments thereto at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1370.12; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of household vacuum cleaners and attachments to a purchaser if, prior to March 30, 1942, such household vacuum cleaners and attachments had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1370.2 Less than maximum prices. Lower prices than those set forth in Appendix A (§ 1370.12) may be charged, demanded, paid, or offered.

§ 1370.3 Conditional agreements. No seller of household vacuum cleaners and attachments shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Maximum Price Regulation No. 111 is amended or is determined by a court to be invalid or upon

any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this Section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition.

§ 1370.4 *New Models*. No manufacturer may sell or deliver any model of household vacuum cleaner or attachment other than one offered for sale by him in the period October 1, 1941, to March 30, 1942, inclusive, except as provided in paragraphs (a) and (b) of this section, and no manufacturer shall offer, solicit, attempt, or agree to sell or deliver such model.

(a) *Nonsubstantial changes*. Any model which differs from one offered for sale by the manufacturer in the period October 1, 1941, to March 30, 1942, inclusive, only by reason of the following nonsubstantial changes may be sold or delivered at a price no higher than the maximum prices established by § 1370.12 (d) (1):

(1) Changes in color, trim, or hardware

(2) Changes in, but not elimination of, any part, including the following: the light, the off-and-on switch, the adjustment devices, the bristle brush, the bearings on the revolving brush, the bumper, and the caster wheels:

Provided, That, such changes shall not substantially alter the power plant, housing, nozzle, dirt container or bag, the connecting cord, the bearings on the motor, and the cleaning attachments.

Each such model shall be reported to the Office of Price Administration in accordance with § 1370.7 (b) (1).

(b) *Substantial changes*. Any model which differs from those offered for sale by the manufacturer in the period October 1, 1941, to March 30, 1942 by reason of any other change (i. e., a substantial change) may be sold or delivered only after a maximum price for such model has been approved in writing by the Office of Price Administration on the basis of a report to it in accordance with § 1370.7 (b) (2).

§ 1370.5 *Evasion*. (a) The limitations set forth in this Maximum Price

Regulation No. 111 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to household vacuum cleaners or attachments alone, or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Decreasing cash discounts, trade-in or exchange allowances, quantity purchase discounts or allowances for or absorption of transportation costs, below those in effect on October 15, 1941;

(2) Increasing charges for deferred payment, or for any other form of instalment, or time payment or credit accounts, above those in effect on October 15, 1941;

(3) Failing to give or shortening the warranty or failing to give delivery and other services available or in effect to the same general class of purchaser in exchange for the prices prevailing on October 1–October 15, 1941, corresponding to the maximum prices established by Appendix A (§ 1370.12).

(4) Increasing the prices for extra attachments above those in effect to the same general class of purchaser on October 15, 1941;

(5) Failing to include the attachments included in the period October 1 to October 15, 1941, for the prices corresponding to the maximum prices established by Appendix A. (§ 1370.12).

§ 1370.6 *Records*. Every person making sales of household vacuum cleaners and attachments after March 30, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the model number or other designation of each model sold, the price received for each, the quantity sold and any discounts, allowances, or charges.

§ 1370.7 *Reports*—(a) *Models offered for sale October 1, 1941, to March 30, 1942, inclusive*—(1) *Manufacturers*. On or before April 20, 1942, every manufacturer shall submit to the Office of Price Administration a report on all models offered for sale by him in the period October 1, 1941, to March 30, 1942, giving the maximum prices established for each model by Appendix A (§ 1370.12)

and the retail list price, if one exists, a description of each model, the terms of sale, and an indication of any models which may have been discontinued in such period. Manufacturers who have already submitted all or any part of this information need not duplicate such material, but shall send a reference to the material already submitted.

(2) *Distributors and dealers*. On or before April 20, 1942, every distributor and every dealer shall submit to the Office of Price Administration a report on all models currently offered for sale to consumers by him which do not appear in the list prices set forth in Appendix A (Section 1370.12), giving the maximum price established for each model for such sales by Appendix A, a description of each model, and the terms of sale.

(b) *New models*—(1) *Non-substantial changes*. On the date of offering for sale a model embodying any of the non-substantial changes set forth in § 1370.4 (a) (2) from a model offered for sale in the period October 1, 1941 to March 30, 1942, inclusive, the manufacturer shall submit to the Office of Price Administration a report on such model, indicating in detail the changes which it contains.

(2) *Substantial changes*. A manufacturer who wishes to offer for sale a model embodying any substantial change from a model offered for sale by him in the period October 1, 1941 to March 30, 1942, inclusive, shall submit to the Office of Price Administration a report on such model giving in detail the changes which it contains, the proposed maximum price, a description, and the terms of sale.

(c) *Monthly output of household vacuum cleaners and attachments*. On or before April 20, 1942, and on or before the fifteenth day of each month thereafter, every manufacturer shall report to the Office of Price Administration the total number of completed units of each model household vacuum cleaner and attachments produced by him in the preceding month. Such report shall refer to the model number or other appropriate designation of each such household vacuum cleaner and attachment. If a report containing such information is required to be submitted to any other Federal agency, a copy thereof may be filed with the Office of Price Administration instead of a separate report.

Persons affected by this Maximum Price Regulation No. 111 shall submit to the Office of Price Administration such other reports as it may, from time to time, require.

§ 1370.8 *Labels showing maximum prices.* Every person offering a model of household vacuum cleaner (or attachment) for sale to consumers shall attach to it a label setting forth legibly the following:

The maximum cash price for this household vacuum cleaner (or attachment) as established by the Office of Price Administration is \$----- Lower prices may legally be charged or demanded.

§ 1370.9 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 111 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 111 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1370.10 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 111 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1370.11 *Definitions.* (a) When used in this Maximum Price Regulation No. 111, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(c) *Maximum price for private-brand models—(1) Sales by manufacturers.* (i) The maximum price, exclusive of excise or sales taxes for any private-brand model sold by the manufacturer at a specific price shall be the highest net price for which such model was sold or contracted to be sold to the same general class of purchaser during the period October 1, 1941, to October 15, 1941, inclusive, or if such model was not offered for sale by the manufacturer before October 16, 1941, during the period October 16, 1941, to March 30, 1942.

PART 1380—HOUSEHOLD AND SERVICE INDUSTRY MACHINES

MAXIMUM PRICE REGULATION NO. 110—
RESALE OF NEW HOUSEHOLD MECHANICAL REFRIGERATORS

In the judgment of the Price Administrator prices for resale of household mechanical refrigerators are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices for resale of household mechanical refrigerators prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.¹

Therefore, under the authority vested in the Price Administrator by the Emer-

¹ The statement of considerations has been filed with the Division of the Federal Register.

agency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1² issued by the Office of Price Administration, Maximum Price Regulation No. 110 is hereby issued.

AUTHORITY: §§ 1380.101 to 1380.111, inclusive, issued pursuant to Pub. Law 421, 77th Cong., 2d Sess.

§ 1380.101 *Maximum prices for resale of household mechanical refrigerators.* On and after March 30, 1942, regardless of any contract, agreement, lease, or other obligation, no distributor or dealer shall sell or deliver any new model of household mechanical refrigerator at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1380.110; and no distributor or dealer shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of household mechanical refrigerators to a purchaser if, prior to March 30, 1942, such household mechanical refrigerators had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1380.102 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1380.110) may be charged, demanded, paid, or offered.

§ 1380.103 *Conditional agreements.* No seller of household mechanical refrigerators shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Maximum Price Regulation No. 110 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this Section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition.

§ 1380.104 *Evasion.* (a) The limitations set forth in this Maximum Price Regulation No. 110 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to household mechanical refrigerator alone, or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Decreasing cash discounts, trade-in or exchange allowances, quantity pur-

chase discounts or allowances for or absorption of transportation costs, below those in effect on February 2, 1942.

(2) Increasing charges for deferred payment, or for any other form of installment, or time payment or credit accounts, above those in effect on February 2, 1942.

(3) Failing to give or shortening the warranty or failing to give delivery, installation and other services available or in effect to the same general class of purchaser in exchange for the prices prevailing on February 2, 1942, corresponding to the maximum prices established by Appendix A (§ 1380.110).

§ 1380.105 *Records and reports.* (a) Every distributor or dealer making sales of household mechanical refrigerators after March 30, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the model number or other designation of each model sold, the price received for each, the quantity sold and any discounts, allowances, or charges.

(b) Such persons shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1380.106 *Notices to be posted.* Every dealer shall post in a conspicuous place on the premises where refrigerators are offered for sale a legible notice setting forth the make, model number and maximum price under Maximum Price Regulation No. 110 of every model of refrigerator offered for sale on such premises.

§ 1380.107 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 110 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 110 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1380.108 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 110 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

¹ For sales outside the area covered by Zone 1, the seller may add to the Zone 1 price the normal differential existing for each model on February 2, 1942, in his locality.

² The seller may add to prices on 1941 models the actual amount of the additional 4 1/2 % Federal Excise Tax if he paid the tax to his vendor.

³ These zones cover all 48 states.

⁴ For sales outside the area covered by these three zones, the seller may add to the 3d zone price the normal differential existing for each model on February 2, 1942, in his locality.

(2) *Other models.* The maximum cash price, exclusive of state or local sales taxes, for the sale to consumers of any model not set forth in subparagraph (1) but offered for sale by the distributor or dealer on February 2, 1942, shall be the highest net price in effect, by the distributor's or dealer's price list or other regular quotation, to consumers on February 2, 1942.

(b) *Maximum prices for sales to dealers.* The maximum price, exclusive of state or local sales taxes, for the sale of any model set forth in paragraph (a) to a dealer shall be the net price which will yield the seller the same percentage of the total dollar margin between the manufacturer's net price to him and the dealer's resale price to consumers, as he received during the period October 1, 1941 to October 15, 1941 for the sale of the same or the most comparable model to the same general class of dealer.

(c) *New models.* The maximum price for any model not covered by paragraph (a) or (b) shall be the price approved in writing by the Office of Price Administration.

(d) *Export sales.* In the case of sales for export the maximum prices established by paragraphs (a), (b) and (c) of this section to each general class of purchaser shall apply f. o. b. port of exit. To these prices the exporter may add:

(1) The actual cost of packing for export or special fabrication, if such cost is customarily charged as a separate item or if, because of the special character of the packing, additional expense is customarily necessary in order to provide for the safe carriage of the shipment;

(2) On sales f. a. s. vessel, f. o. b. vessel, c. i. f. destination, or f. o. b. destination, an amount not in excess of the

actual cost to the exporter of ocean freight, marine and war risk insurances, or other standard charges;

(3) The normal commission or mark-up charged by same general class of exporter (i. e., manufacturer, export agent, export commission house or export merchant) for buying or for a sale or delivery of a similar quantity, quality, type, and packing to the same or comparable foreign market and to a purchaser of the same general class in the period October 1 to October 15, 1941, inclusive.

§ 1380.11 *Effective date.* This Maximum Price Regulation No. 110 (§§ 1380.101 to 1380.111, inclusive) shall become effective March 30, 1942.

Issued this 23d day of March 1942.

PART 1398—OFFICE AND STORE MACHINES
TEMPORARY MAXIMUM PRICE REGULATION NO.
15—NEW TYPEWRITERS

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for new typewriters the prices prevailing with respect thereto within five days prior to the issuance of this Regulation or on the nearest preceding date on which there were prevailing prices.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 15 is hereby issued:

AUTHORITY: §§ 1398.1 to 1398.11, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1398.1 *Maximum prices for new typewriters.* (a) On and after March 30, 1942, to and including May 28, 1942, regardless of any contract, agreement, lease, or other obligation, no persons shall sell, offer to sell or deliver any new typewriter, at a price higher than the maximum price established herein;

17 F.R. 971.

and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of new typewriters to a purchaser if, prior to March 6, 1942, such typewriters had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The maximum price for any new typewriter shall be the net price quoted by the manufacturer, wholesaler, distributor, dealer, or other seller, for a typewriter of the same make and model in the manufacturer's price list in effect on March 5, 1942, to a purchaser of the same general class.

(c) There may be added to the maximum price established by this Temporary Maximum Price Regulation No. 15 the amount of tax levied by any Federal excise tax statute or any State or municipal sales, gross receipts, gross proceeds, or compensating use tax statute or ordinance, under which the tax is measured by gross proceeds or units of sale, if, but only if, (1) such statute or ordinance requires the vendor to state the tax, separately from the purchase price paid by the purchaser, consumer, or user, on the bill, sales check, or evidence of sale, at the time of the transaction; or (2) such statute or ordinance requires such tax to be separately paid by the purchaser, consumer, or user with tokens or other media of State or municipal tax payment; or (3) such a statute or ordinance permits the vendor to state such tax separately, and such tax is in fact stated separately by the vendor. The amount of tax permitted to be added by this provision shall in no event exceed that paid by the purchaser, consumer, or user.

§ 1398.2 *Less than maximum prices.* Lower prices than those set forth in this Temporary Maximum Price Regulation No. 15 may be charged, demanded, paid, or offered.

§ 1398.3 *Notices to be posted.* Every retail dealer in new typewriters shall post in a conspicuous place on his premises where new typewriters are offered for sale, a legible notice which shall set forth the make, model number and maximum price under Temporary Maximum Price Regulation No. 15 of every model of new typewriter offered for sale on such premises.

§ 1398.4 *Conditional agreements.* No seller of new typewriters shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Temporary Maximum Price Regulation No. 15 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That, if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section, permitting the making of con-

tracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1398.5 *Evasion.* (a) The price limitations set forth in this Temporary Maximum Price Regulation No. 15 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to new or used typewriters, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(4) Shortening the effective period of guarantee or warranty of performance, or of maintenance or repair service, available or in effect on March 5, 1942, for a purchaser of the same general class.

(5) Making terms and conditions of sale less favorable to the purchaser than those available or in effect on March 5, 1942, for a purchaser of the same general class.

§ 1398.6 *Records and reports.* (a) Every person making sales of new typewriters after March 30, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, a complete and accurate record of each such sale, showing the date thereof, the name and address of the buyer or lessee, the make, the model, serial number, or other designation and the price received for each new typewriter, the discounts and trade-in allowances given, and the model, serial number, or other designation of each typewriter traded in.

(b) Persons affected by this Temporary Maximum Price Regulation No. 15 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1398.7 *Enforcement.* (a) Persons violating any provision of Temporary Maximum Price Regulation No. 15 are subject to the criminal penalties and civil enforcement actions provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 15 or any price schedule, regulation or order issued by the Office of Price Administration or of

§ 1398.8 *Petitions for amendment.* Persons seeking any modification of this Temporary Maximum Price Regulation No. 15 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1398.9 *Replacement by regulation.* Temporary Maximum Price Regulation No. 15 may be replaced by a permanent maximum price regulation or order issued under the Emergency Price Control Act of 1942, which upon issuance shall have the effect of revoking Temporary Maximum Price Regulation No. 15.

§ 1398.10 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 15, the term:

ritory of Alaska has been established as the Western Defense Command and designated as a Theatre of Operations under my command; and

Whereas by Executive Order No. 9066, dated February 19, 1942, the President of the United States authorized and directed the Secretary of War and the Military Commanders whom he may from time to time designate, whenever he or any such designated commander deems such action necessary or desirable, to prescribe military areas in such places and of such extent as he or the appropriate Military Commander may determine, from which any or all persons may be excluded, and with respect to which the right of any person to enter, remain in or leave shall be subject to whatever restrictions the Secretary of War or the appropriate Military Commander may impose in his discretion; and

Whereas the Secretary of War on February 20, 1942, designated the undersigned as the Military Commander to carry out the duties and responsibilities imposed by said Executive Order for that portion of the United States embraced in the Western Defense Command; and

Whereas the Western Defense Command embraces the entire Pacific Coast of the United States which by its geographical location is particularly subject to attack, to attempted invasion by the armed forces of nations with which the United States is now at war, and, in connection therewith, is subject to espionage and acts of sabotage, thereby requiring the adoption of military measures necessary to establish safeguards against such enemy operations:

Now therefore, I, J. L. DeWitt, Lieutenant General, U. S. Army, by virtue of the authority vested in me by the President of the United States and by the Secretary of War and my powers and prerogatives as Commanding General of the Western Defense Command, do hereby declare that:

2. Military Areas Nos. 1 and 2, as particularly described and generally shown hereinafter and in Exhibits 1 and 2 hereto, are hereby designated and established.

3. Within Military Areas Nos. 1 and 2 there are established Zone A-1, lying wholly within Military Area No. 1; Zones A-2 to A-99, inclusive, some of which are in Military Area No. 1, and the others in Military Area No. 2; and Zone B, comprising all that part of Military Area No. 1 not included within Zones A-1 to

4. Such persons or classes of persons as the situation may require will by subsequent proclamation be excluded from all of Military Area No. 1 and also from such of those zones herein described as Zones A-2 to A-99, inclusive, as are within Military Area No. 2.

Certain persons or classes of persons who are by subsequent proclamation excluded from the zones last above mentioned may be permitted, under certain regulations and restrictions to be hereafter prescribed, to enter upon or remain within Zone B.

The designation of Military Area No. 2 as such does not contemplate any prohibition or regulation or restriction except with respect to the zones established therein.

5. Any Japanese, German or Italian alien, or any person of Japanese Ancestry now resident in Military Area No. 1 who changes his place of habitual residence is hereby required to obtain and execute a "Change of Residence Notice" at any United States Post Office within the States of Washington, Oregon, California and Arizona. Such notice must be executed at any such Post Office not more than five nor less than one day prior to any such change of residence. Nothing contained herein shall be construed to affect the existing regulations of the U. S. Attorney General which require aliens of enemy nationalities to obtain travel permits from U. S. Attorneys and to notify the Federal Bureau of Investigation and the Commissioner of Immigration of any change in permanent address.

6. The designation of prohibited and restricted areas within the Western Defense Command by the Attorney General of the United States under the Proclamations of December 7 and 8, 1941, and the instructions, rules and regulations prescribed by him with respect to such prohibited and restricted areas, are hereby adopted and continued in full force and effect.

[Docket No. 1708-FD]

IN THE MATTER OF SHEBAN MINING COMPANY, CODE MEMBER

MEMORANDUM OPINION AND NOTICE OF AND ORDER FOR HEARING

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on June 11, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 4, alleging that the Sheban Mining Company, a code member in District 4, has wilfully violated the provisions of the Bituminous Coal Code or rules and regulations thereunder and praying that the Division either cancel and revoke the defendant's code membership or, in its discretion, direct the defendant to cease and desist from violations of the Code and rules and regulations thereunder.

Pursuant to an Order of the Acting Director, dated July 17, 1941, and after due notice to interested persons, a hearing in this matter was held on September 3, 1941, before W. A. Cuff, a duly designated Examiner of the Division,

at a hearing room thereof in Youngstown, Ohio. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The code member appeared. The preparation and filing of a report by the Examiner was waived and the record in the proceeding was thereupon submitted to the undersigned.

On December 4, 1941, the undersigned issued Findings of Fact and Conclusions of Law and entered an Order in accordance therewith, cancelling and revoking the code member's code membership and providing that as a condition of reinstatement to membership in the Code the code member should be required to pay to the United States a tax in the amount of \$4,117.16 as provided in section 5 (c) of the Act.

On January 16, 1942, the code member filed a petition for reconsideration, requesting that the Findings of Fact, Conclusions of Law, and Order issued herein be reconsidered; that the code member be granted an opportunity to present oral argument in support of its petition for reconsideration; and that it be permitted to introduce additional evidence.

In its petition for reconsideration, the code member claims that to suit the convenience of the Examiner and the Division attorney, and because it was led to believe by the Examiner and said attorney that the introduction of additional evidence by it would be merely a waste of time because no wilful violation had been shown, it did not introduce evidence other than a "statement"¹ by one witness. The code member also referred to a "promise" of the Examiner and the Division attorney that "they are fully convinced that there was no wilful violation of any rules or regulations and that they will see that the case be treated so upon their return to Washington." The code member further claimed that it was not afforded a fair and impartial hearing because the Examiner was prejudiced and did not permit counsel for the code member the same latitude in examining witnesses as he permitted the Division. The code member also made other charges impugning the fairness of the hearing. Aside from stating these charges, however, the code member did not specify what evidence it neglected to offer. Its charges concerning the prejudice of the Examiner and the unfairness and partiality of the hearing were also general and vague.

Because of the serious character of these charges, however, and of the importance of investigating the same, the undersigned, on February 4, 1942, entered an Order granting the code member's request for an oral argument upon its petition for reconsideration. Accordingly, such argument was held before the undersigned on February 10, 1942. At that argument, although counsel for the code member was permitted the fullest latitude in expressing himself and as much time for argument as he desired, and although he was urged by the undersigned to be specific in his charges, coun-

¹ It should be noted that this was sworn testimony.

sel for the code member did no more than reiterate the general and undocumented charges theretofore made by him concerning the alleged improper conduct of the Examiner who presided at the hearing herein and of the attorney who represented the Division at said hearing.

Again, because these charges, though general in nature, were serious, I did not consider it advisable to accept them or to base any action thereon, unless supported by sworn statements. To that end, on March 2, 1942, I ordered the defendant to file affidavits in support of the charges made, setting forth in detail the facts and circumstances concerning them. Thereafter, the affidavits of six persons were furnished the undersigned by the code member. These, again, are vague and unspecific with respect to the charges made. They state conclusions of the affiants based upon unspecified facts and are based, in considerable and highly material parts, upon a most objectionable sort of hearsay.

A reading of the record herein, the petition for reconsideration, the oral argument, and the affidavits filed thereafter have failed to convince me that the conduct of the Division's Examiner or attorney at the hearing herein was improper so as to prejudice the code member in any way.

While I do not believe that the Division Examiner or attorney misled the code member in any respect or acted to its prejudice, I think that it does appear, however, that the code member and its counsel were genuinely confused during the hearing herein. And it may well be that this confusion, in and of itself, may have resulted in the code member's not having obtained as adequate a hearing as it otherwise would have. This confusion is evident from the failure of the code member and its counsel to recognize, in the petition for reconsideration and at the oral argument herein, that the penalty imposed by the undersigned in the Order of December 4, 1941, was based upon only such tonnage as was originally included in the complaint herein, and not upon the larger tonnage concerning which violations were proved at the hearing.

While, upon investigation, the charges of the code member appear to lack substance and while there does not appear to have been any prejudice to the code member arising out of the hearing therein, nevertheless, because of this confusion and the resulting doubt, though slight, of whether the code member has placed into the record all relevant evidence concerning the violation, I consider it advisable to order a new hearing herein which will be free of the troublesome issues raised by the code member. I desire to reiterate that I do not find that such rehearing is essential in order to guarantee to the code member a fair hearing. I believe that the code member has already had that. However, even at the oral argument counsel for code member still appeared confused. Therefore, in order to insure that the record presented to me

contains all the relevant evidence and out of an abundance of caution, I shall nevertheless order a new hearing.

The record heretofore made herein, except for the complaint filed herein on June 11, 1941, will be stricken and the new hearing will be based upon the complaint as originally filed on June 11, 1941. The purported amendment to the Notice of and Order for Hearing, made at the earlier hearing herein, which has caused so much confusion and which I disregarded in reaching my decision herein on December 4, 1941, is hereby again disavowed by me, and the hearing to be held will be concerned only with the violations charged in the complaint filed by District Board 4 on June 11, 1941, and set forth in the Notice of and Order for Hearing. The new hearing will be conducted by an Examiner and the Division will be represented thereat by an attorney not heretofore connected with the proceeding.

Now, therefore, it is ordered, That the record in this matter be, and it hereby is, stricken, except with respect to the complaint filed herein by District Board 4 on June 11, 1941.

It is further ordered, That the Order entered herein by the undersigned on December 4, 1941, cancelling and revoking code membership, be and it hereby is revoked and withdrawn, without prejudice.

It is further ordered, That the petition for reconsideration filed herein by the code member on January 16, 1942, be, and it hereby is, granted to the extent indicated above, and in all other respects denied.

It is further ordered, That a hearing in respect to the subject matter of the complaint filed herein on June 11, 1941, by District Board 4 to be held on April 8, 1942, at 10 o'clock in the forenoon, at a hearing room of the Division at the Post Office Building, Youngstown, Ohio.

It is further ordered, That C. R. Larabee, or any other officer or officers of the Bituminous Coal Division duly designated for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, administer oaths and affirmations, examine witnesses, take evidence, continue said hearing from time to time and to such places as he may direct by announcements at said hearing or any adjourned hearing or by subsequent notice, prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before

the date herein set for hearing on the complaint.

The matter concerned herewith is in regard to the complaint filed by District Board 4, alleging wilful violation by the above-named code member of the Bituminous Coal Code or rules and regulations thereunder, as follows: That the code member between October 1, 1940, and December 30, 1940, inclusive, sold a substantial quantity of 2" lump coal and mine run coal produced at its mine (Mine Index No. 2314) located in Mahoning County, Ohio, in District 4, for shipment via truck at a price of \$2.50 per ton f. o. b. the mine for the 2" lump coal and at a price of \$2.25 per ton f. o. b. the mine for the mine run coal, which prices were below the effective minimum prices for said coals as set forth in the schedule of Effective Minimum Prices for District No. 4 for Truck Shipments.

Notice is also hereby given that if it shall be determined that the code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the code member in the Bituminous Coal Code or directing the code member to cease and desist from violating the Bituminous Coal Code and regulations made thereunder.

Dated: March 24, 1942.

A. Proposed by the Northwestern Co-operative Sales Association.

1. Delete § 930.1 (a) (2) and substitute therefor the following:

(2) The term "Toledo, Ohio, marketing area," hereinafter called the "marketing area," means the territory within the corporate limits of the city of Toledo and the towns and villages of Ottawa Hills, Maumee, Sylvania, Harbor View, Rossford, and Trilby, in Lucas County, also the townships of Monclova, Springfield, Adams, Sylvania, Washington, and Oregon in Lucas County, and the township of Perrysburg, in Wood County, all in the State of Ohio, and the city of Monroe and village of Lakeside in Monroe County, and the townships of Whiteford, Bedford, Erie, LaSalle, Monroe, and Frenchtown, Monroe County, all in the State of Michigan.

2. Delete paragraphs (d) and (e) of § 930.4 and substitute therefor the following:

(d) *Computation of milk in each class.* For each delivery period, each handler shall compute, in the manner and on forms prescribed by the market administrator, the amount of milk in each class, as defined in paragraph (b) of this section, as follows:

(1) Determine the total pounds of milk (a) received from producers, (b) produced by him, if any, (c) received from other handlers, if any, (d) received from other sources, if any, and (e) add together the resulting amounts.

(2) Determine the total pounds of butterfat received as follows: (a) multiply the weight of the milk received from producers by its average butterfat test, (b) multiply the weight of the milk produced by him, if any, by its average butterfat test, (c) multiply the weight of the milk received from other handlers, if any, by its average butterfat test, (d) multiply the weight of the milk received from other sources, if any, by its average butterfat test, and (e) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (a) convert to quarts the quantity of milk disposed of in the form of milk and milk drinks, whether plain or flavored, and multiply by 2.15 (b) multiply the result by the average butterfat test of such milk, and (c) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk, computed pursuant to subparagraphs (4) (b) and (5) (b) of this paragraph, is less than the total pounds of butterfat received computed in accordance with subparagraph (2) of this paragraph, an amount equal to the difference shall be divided by 3.5 percent and added to the quantity of milk determined pursuant to (a) of this subparagraph.

(4) Determine the total pounds of milk in Class II as follows: (a) multiply the actual weight of each of the several products of Class II milk by its average butterfat test, (b) add together the resulting amounts, and (c) divide the result obtained in (b) of this subparagraph by 3.5 percent.

(5) Determine the total pounds of milk in Class III as follows: (a) multiply the actual weight of each of the several products of Class III milk by its average butterfat test, (b) add together the resulting amounts, (c) subtract the total pounds of butterfat in Class I milk and Class II milk, computed pursuant to subparagraphs (3) (b) and (4) (b) of this paragraph, and the total pounds of butterfat computed pursuant to (b) of this subparagraph, from the total pounds of butterfat computed pursuant to subparagraph (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 3 percent of the total receipts of butterfat from producers and new producers by the handler) and shall be added to the result obtained in (b) of this subparagraph, and (d) divide the result obtained in (b) of this subparagraph by 3.5 percent.

(6) Determine the classification of milk received from producers and new producers as follows:

(i) Subtract pro rata out of each class the quantity of milk received from the handler's own farm.

(ii) Subtract from the total pounds of milk in each class the total pounds of milk which were received from other handlers and used in such class.

(e) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* (1) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is less than the receipts of milk from producers and new producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and new producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is greater than the receipts of milk from producers and new producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and new producers and the total utilization of milk by classes for such handler.

3. Delete subparagraphs (1), (2), and (3) of paragraph (a) of § 930.5, and substitute therefor the following:

(1) Class I milk—The price per hundredweight for Class I milk shall be \$2.95 per hundred; *Provided*, That with respect to Class I milk disposed of by such handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including

persons on relief, the price per hundredweight shall be such price for Class I milk less 46 cents.

(2) Class II milk—The price per hundredweight for Class II milk shall be the price for Class III milk determined by the market administrator pursuant to subparagraph (3) of this paragraph, plus 20 cents.

(3) Class III milk—The price per hundredweight for Class III milk shall be the price resulting from the following computation by the market administrator: determine the average of the basic, or field, prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the delivery period at the following plants and subtract 5 cents:

Concern:	Location of plant
Van Camp Milk Company...	Wauseon, Ohio.
Pet Milk Company.....	Delta, Ohio.
Pet Milk Company.....	Hudson, Mich.

Provided, That if the price so determined is less than the price per hundredweight computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for the delivery period: multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and add 30 percent thereof.

4. Add as § 930.5 (c) the following:

(c) The classification prices effective in the city of Monroe and the Townships LaSalle, Monroe, and Frenchtown, all in the State of Michigan shall be the same as those set forth in paragraph (a), section 930.5, except that the Class I price in these four subdivisions of the State of Michigan shall be 20 cents lower than the Class I price set forth in subparagraph (1), paragraph (a), § 930.5.

5. Delete § 930.7 (a) and substitute therefor the following:

Payment for milk. (a) *Time and method of payment.* On or before the last day of each delivery period, each handler shall pay, with respect to all milk received during the first 15 days of such delivery period, the prices per hundredweight which equals such handler's blend price for milk testing 3.5 percent butterfat as announced by the market administrator for the preceding delivery period to each of his producers and one-half of such blend price to each of his new producers. In event any producer or new producer discontinues shipping during any delivery period, or delivers during the last 15 days of the delivery period less than 60 percent of his deliveries for the first 15 days, such producer shall receive \$1.50 per hundredweight for milk delivered during the first 15 days of the delivery period and such new producer 75 cents per hundredweight for milk delivered during the first 15 days of the delivery period.

6. Delete from § 930.7 and all other sections, such paragraphs and subparagraphs as may be necessary to terminate the market sharing amendment.

B. Proposed by Dairy and Poultry Branch. 1. Reconsider the butterfat differential provided under § 930.7 (d).

2. Delete § 930.5 (b).

3. Reconsider § 930.1 (a) (4) and § 930.1 (a) (5).

It is hereby declared that an emergency exists in the handling of milk in the aforesaid area which requires a shorter period of notice than fifteen days, and it is hereby determined that the period of notice given is reasonable under the circumstances.

All interested persons are referred to said application-declaration which is on file in the office of said Commission for a statement of the transactions therein proposed which are summarized below:

Florida Power Corporation proposes to acquire the assets of Florida West Coast Towing Company, a wholly owned subsidiary with no outstanding publicly held obligations, in complete cancellation of the outstanding indebtedness and capital stock of Florida West Coast Towing Company.

As at December 31, 1941 the total capitalization of Florida West Coast Towing Company consisted of 175 shares of common stock with a stated aggregate value of \$17,500, and outstanding indebtedness to Florida Power Corporation in the face amount of \$6,432.08. The fixed capital of Florida West Coast Towing Company at the same date was stated at \$38,635.18. The application-declaration reveals that no appraisal of the assets or of the securities involved in this transaction has been made but it asserted in the filing that, in the opinion of the companies, the book value of the assets of Florida West Coast Towing Company represents actual cost.

The application-declaration further reveals that Florida West Coast Towing Company was organized as a Florida corporation in 1928 as a subsidiary of Florida Power Corporation for the purpose of transporting oil of Florida Power Corporation to be used in its plant at Inglis, Florida, the oil being transported from Port Tampa, Florida. Florida West Coast Towing Company owns a tug which is registered in its name and leases barges from Florida Power Corporation.

The filings have specified sections 9 (a) (1), 10, 12 (c) and 12 (f) and Rule U-43 of the Act as being, in the judgment of the applicants-declarants, applicable to the proposed transactions.
