Horrible Abominations

Berkeley Feb. 1. 1839

Is not this the time to make some vigorous effort to effect an Anti-slavery organization for this state, distinct from the horrible abominations which Garrison has mingled with it?

Could not something like the "Union Evangelical Ant. Sl. Soc. of New York City," be formed, which will draw in the Evangel strength of the state? The cause of truth is certainly in our full jeopardy from the endles innovations which he is making, & there is imminent danger that he will infinitely more than undo the good he has accomplished. Cannot a convention be called soon to deliberate on this subject. It seems to me there must be interest & apprehension enough excited in the minds of the clergy & Drs. to secure a very great & efficient movement -

Yours for Christ & the slave -
J. N. Parsons
