NO. 62

## NO EXPLANATION WOULD BE ASKED

Sinking of Another Liner by Germans Would Cause States to Act

## ANOTHER NOTE WILL BE SENT TO BERLIN

Lame Excuse Offered for Sinking of Arabic Will Not Be Accepted

Washington, Sept. 11.—The relations between the United States and Austria-Hungary and Germany are in a state of high tension as a result of the Dumba incident and the character of the German reply on the destruction of the liner Arabic.

It would surprise no one here—nor even high officials of the administration—should Austria-Hungary express her displeasure at the request for the recall of Ambassador Dumba by giving passports to the American ambassador, Frederick C. Penfield. Nor would officials be surprised to learn that the German note with reference to the Arabic was prepared in the light of information that the American government contemplated serious action against the Austro-Hungarian ambassador.

Rough Waters Ahead.  
In other words, the two events are regarded as co-related. If this conclusion be correct then there are rough waters ahead.

The United States specifically told Germany that the destruction of another liner would be regarded as a "deliberately unfriendly act."  
The Arabic was sunk after this notice had been served. Germany not only has failed to disavow the act of the submarine commander, but has declared she will not acknowledge any obligation to make reparation, "even if the commander should have been mistaken as to the aggressive intentions of the Arabic."

The inevitable conclusion of officials from their review of the facts is that Germany has sought to create a situation which will cause the United States to take action in the case of Count von Bernstorff, the German ambassador. The Berlin government feels that it would be good politics to make the American administration appear in the light of the aggressor.

Another Note.  
Another note will be sent to Berlin. It will be a refusal to accept the German excuse, a reiteration of the purpose of the United States to hold Germany to a "strict accountability" for the American lives lost on the Arabic, and a plain intimation that no further explanations will be asked in case another liner should be sunk. In such case, the United States will act. Should the Austro-Hungarian government demand that Dr. Dumba be allowed to remain as ambassador he will be dismissed without delay. As soon as the formal reply from the Austro-Hungarian government is received the president will take up the case of von Nuber, the Austro-Hungarian consul-general in New York, and Captain von Pape, the German military attaché.

When all the facts are received concerning von Pape, measures will be taken for his departure.  
In other words, there is to be a general clearing out of diplomats who have violated the hospitality of the United States.

Should Austria-Hungary recall Dr. Dumba and leave her interests in charge of the counselor of the embassy, with the rank of charge d'affaires, the United States will recall Ambassador Penfield.

For Austria-Hungary not to send an ambassador to replace Dr. Dumba would be an act of discourtesy. Under diplomatic usages, the only course for the government to pursue would be to withdraw Mr. Penfield and leave American affairs in the hands of the first secretary of the American embassy.

## NO DIFFICULTY RAISING LOAN IN THE STATES

New York, Sept. 11.—Already assured of loans aggregating \$750,000,000, the French and British commissioners sent to the United States to borrow money and to strengthen the credit of their governments; were scheduled to hold several informal conferences today.

They were J. P. Morgan's guests at Glencove, L. I., the week-end. A formal conference will be held on Monday. The commissioners have been overwhelmed with invitations, but have accepted only a few.

## NEVER AGAIN WILL THEY PURCHASE GERMAN GOODS

Melbourne, Sept. 11.—The entire membership of the House of Representatives of the federal parliament, the legislative body of the Commonwealth of Australia, has pledged itself never again to purchase German goods.

## WILL BE FORCED SOON: THE DARDANELLES

## VIOLENT ARTILLERY ACTIONS LAST NIGHT

At Some Points in France Duels Continued Without Interruption

## GERMANS LOST MANY ON FRONT IN ARGONNE

Paris, Sept. 11.—Last night saw interrupted artillery fighting at several points along the line in France, according to the communication given out by the war office today. There have been particularly violent artillery engagements in the department of the Meuse and along the front in Lorraine. The cannonading in the sector of Rocourt and the region south of the Arras was continuous. Mining operations were carried out at points between the Somme and the Oise.

Paris, Sept. 11.—The following official communication was issued last evening:  
"Violent cannonading is reported in Belgium in the region of Mespelbroek and Steenstraete, and in Flanders around Arras, in front of Roye and in the Champagne."

Attack Checked.  
"In the Argonne the enemy bombarded with heavy shells the gully of Fontaine-aux-Charmes and directed on the road from La Harazee to St. Hubert a tentative attack, which was checked quickly."

"To the south of Flirey and in the region of St. Die some artillery actions are reported."

"The Germans launched a violent attack against Hartmanns-Wellerkopf, but it was repulsed completely."

"The German aeroplanes have dropped a few bombs on Compiègne, especially on the hospitals. There were no victims and only some unimportant material damage is reported."

"A German biplane was forced to land within our lines near Hangenstein-Santerre. The aviators are prisoners."

Paris, Sept. 11.—The violent fighting in the Argonne on Wednesday and Thursday was the result of an effort of the army of the German crown prince to break through the French lines. The attempt was made with powerful artillery and a large number of troops. Apparently it has had no appreciable result.

## CONFERENCE WILL BE HELD AT OTTAWA SOON

Ottawa, Sept. 11.—For the purpose of obtaining accurate and comprehensive information as to the facilities and capacity of Canadian firms to make munitions of war, a conference of representative manufacturers is to be held here shortly at the instance of the government. The British authorities have been greatly surprised at the extent of Canada's resources in munitions, and it is expected that not only will heavy orders be placed, but several new lines of industry will be developed.

## HAVE SENT NOTE ON ATTACK ON ORDUNA

Germans Have Invented Excuse for Attempt Made Two Months Ago

## NO MENTION MADE OF ARABIC OR HESPERIAN

Berlin, Sept. 11.—Via The Hague.—In a supplementary note handed to Ambassador Gerard, Germany makes another defence of her submarine warfare.  
This note declares that the attack on the liner Orduna was made because the vessel endeavored to escape when hailed by the German submarine commander.

No official announcement was made, but the correspondent says he is informed on the highest authority that these are the contents of the mysterious note.  
It is stated that the note does not concern the sinking of the Hesperian or the Arabic.

Washington, Sept. 11.—The note delivered to Ambassador Gerard by the German foreign office yesterday, which was believed to be a supplementary communication on the sinking of the Arabic, now is understood to be a note on the unsuccessful attempt to torpedo the Cunard liner Orduna two months ago.

The note had not been received in Washington early to-day, and the state department had no information as to its whereabouts. In German circles, however, it was said the note concerned the Orduna. When its contents are known, it probably will be found that the German government has invented some sort of an excuse for the attack on the liner.

Was Shelled.  
The Orduna was chased and shelled by a submarine on July 3 after a torpedo had missed her stern by a few yards. She was on a trip to the United States and carried as passengers 22 Americans. Ambassador Gerard made some inquiries by direction of Washington and the German note now on its way is understood to be the result.

Overnight consideration of the note on the Arabic indicates a softening of views among one set of officials, who are inclined to negotiate further with Germany. While they agree that Germany's reply is disappointing and unsatisfactory, they urge that the Arabic case has come down to questions of indemnity and of fact. The then excuse offered by Germany for the sinking of the White Star liner differs materially from the statement of fact in the hands of President Wilson and Secretary Lansing. Some officials contend that the proper way to determine whether the set of facts in the president's hands or the lame excuse offered by Germany is correct is to let the case go to The Hague, where the question of indemnity could be arbitrated without endangering the principles for which the United States has contended as governing submarine warfare.

Unofficial Intimations.  
There was indications to-day that the United States had received more unofficial intimations that the German government actually had accepted at the principle that unarmed merchantmen should not be attacked without warning unless they attempted to escape or resisted capture.

The new note the United States will send to Berlin probably will be delayed until the second note from Germany, now on its way, has been received. It probably will point out, for one thing, that the mere assumption by a submarine commander that his ship is about to be attacked can not be accepted as justification for torpedoing an unresisting merchantman. Such a stand by the United States is not expected to lead to complications. Official

## WAR WITHIN WEEK, SAYS BERNSTORFF

Would Follow Quickly Break in Relations Between States and Germany

## UTTERS NONSENSE ABOUT "CONCESSIONS"

## WAS SENT DOWN OFF COAST OF ALGERIA

The Steamship Ville De Mostaganem Was Caught by a Submarine

Paris, Sept. 11.—A dispatch to the Havas Agency from Algiers says the steamship Ville de Mostaganem was sunk by the gunfire of a German submarine on Thursday. Sixteen members of the crew, three of them wounded, have been picked up.  
The steamship was on the way from Cette, France, to Mostaganem, Algeria. The attack occurred on Thursday at a point seventy miles north-east of Mostaganem. Sixteen men made their escape in two boats. They were picked up by a British steamship and taken to Algiers. The wounded men were injured by bursting shells.  
The submarine which made the attack flew the German flag. Members of the crew are of the opinion that this is the submarine which, flying the Austrian flag, sank the French steamship Auds a few hours earlier.  
The Ville de Mostaganem, a freighter, belonged to the Compagnie Generale Trans-Atlantique, and is the fourth ship of that line to be sunk by submarines in the last few days.

## CANADIAN WRITERS WILL VISIT FRONT

Sir Max Aitken Will Act as Pilot; a Message From Firing Line

Ottawa, Sept. 11.—The following cable from Sir Max Aitken was given out this morning by Major-General Sir Sam Hughes:  
"During the period from September 1 to September 7 the situation along the front held by the First Canadian contingent has been normal, except that the artillery was somewhat more active than usual on the 1st, 2nd and 4th, particularly on the front of our left brigade. Patrols have been sent out nightly, and our snipers have maintained with success their superiority over the enemy's snipers."  
"Large working parties have been employed night and day improving our lines. The enemy has displayed considerable activity with his working parties both day and night at various points along our front. Several of his working parties were dispersed by our fire."  
"On August 11 we exploded one of our defensive mines between our front trenches and those of the enemy. The crater formed was occupied immediately by our troops."

Nearer the centre of the line von Mackenzon still is moving forward through the Pripiet marshes towards Pinsk. North and south of his headquarters strong offensive movements have been developed near Grodno and on the road to Rovno.

## SIR WM. VAN HORNE DIES AT MONTREAL

Succumbs at Age of 72; Was One of Canada's Leading Citizens

## HAD MUCH TO DO WITH GROWTH OF DOMINION

Through Merit He Rose to Position of President of C. P. R.

Montreal, Sept. 11.—Sir William Van Horne died at 2:10 p.m. to-day.  
He had been seriously ill at the Royal Victoria hospital for more than two weeks. He went there for an operation for abdominal abscess. The operation was performed successfully and for a time there were indications that he would recover. Grave symptoms, however, developed earlier this week, and since then Sir William had been failing gradually.

William Cornelius Van Horne was born in Will county, Illinois, February 3, 1843, the son of Cornelius Covenhoven Van Horne, counselor-at-law, and Mrs. Van Horne, who was Miss Mary Minor Richards before her marriage. He was educated at the local schools, and in 1867 married Lucy Adeline Hurd, daughter of Erastus Hurd, of Galesburg, Ill.

Started At Foot.  
The young man entered the railway service at the foot of the ladder, becoming telegraph operator for the Illinois Central railway in 1857. Between 1858 and 1864 he served in various capacities with the Michigan Central railway. Leaving that road, he joined the Chicago & Alton railway, serving six months as ticket agent and telegraph operator, three years as train dispatcher, one year as superintendent of telegraphs and three years as divisional superintendent.

Deciding once again to change, he left the Chicago & Alton and became general superintendent of the St. Louis, Kansas City & Northern railway, which position he occupied from 1872 to 1874. In the latter year he became general manager of the Southern Minnesota railway, a post he held until 1878. In 1877 he had become president of that company, a position he continued to hold until 1879. Leaving that company he joined the Chicago & Alton railway, acting as general superintendent. In 1880 he became general superintendent of the Chicago, Milwaukee & St. Paul railway, continuing in that position until 1882.

Came to Canada.  
It was in 1882 that he became connected with the development of Canada, as it was in that year that he became general manager of the Canadian Pacific railway. The story of how he carried the great transcontinental to completion, surmounting many obstacles that would have daunted a less resolute man, is familiar to all Canadians.

In 1884 he became vice-president of the company. In 1885 further recognition of his great work was forthcoming in his appointment as president. The two years in which he presided over the destinies of the new transcontinental were marked by steady improvement and strengthening of the company's position. In 1899 he became chairman of the board of directors, and although he was no longer a young man, he continued to serve the line until 1910, when he retired. He remained a director of the company until his death.

Wide Interests.  
He was a man of very wide interests in the financial world, and hence his name was connected with a very long list of companies. He was president of the Laurentide Paper company, the Canadian Salt company, the Canadian Northwest Land company, the Cuba company, the Cuba Railway company and the Demerara Electric company. He was vice-president of the Dominion Steel corporation, a director of the Duluth, South Shore & Atlantic railway, the Dominion Iron & Steel company, the Royal Trust company, the International Banking corporation, the Minneapolis, St. Paul & Sault Ste. Marie railway, Equitable Life Assurance company, Dominion Coal company, Mexican Light & Power company and Winnipeg street railway. Formerly he was a director of the Mexican Consolidated Electric company, the Havana Electric company, the Federal Sugar company, the Commercial Cable company, the Postal Telegraph Cable company, the Rio de Janeiro Tramway Light & Power company and the Port of Para Dock company. He was rated as a millionaire by the Montreal Star in 1911. Sir William was a promoter of the North American Mail Steamships company in 1900, of the Pacific Coal company in 1901 and of the Grand Falls Power company in 1905.

Governor of McGill.  
He was a governor of McGill university, of the Royal Victoria hospital, and the Protestant House of Industry; a member of the committee of management of the Homoeopathic hospital, and a vice-president of the St. John Ambulance association. He was appointed chairman of the royal commission on transportation in 1903, but declined the nomination. In 1910 he was appointed a member of the Metropolitan Parks commission. He took a great interest in agriculture and had farms at Selkirk, Man., and other points, for the raising of pure-bred stock. As a connoisseur he was well known for his interest in Chinese and Japanese art, and he also was a collector of valuable paintings. In that connection he held the offices of councillor of the Montreal Art association, and the National Arts club, New York, claimed him as a vice-president. He was created a K. C. M. G. in 1894. Sir William was a Protestant.

## NEW CABINET BEING FORMED IN RUSSIA

Goremykin, Prime Minister for Year and Half, and Colleagues Have Resigned

## THERE PROBABLY WILL BE MINISTER OF MUNITIONS

Polivonoff, Sazanoff and Bark Will Be Retained in Office

Petrograd, Sept. 11.—The Russian cabinet has resigned. A coalition cabinet is to be formed immediately.  
Some of the present ministers will be retained. M. Goremykin, who was appointed president of the council of ministers, is expected to retire. War Minister Polivanoff and Foreign Minister Sazanoff, it is believed, will be retained. It is understood that the czar also has asked M. Bark, minister of finance, to continue in his present position.

The emperor, according to reliable reports, has been contemplating reorganization of the cabinet for months. The new administration will be known as "The War Cabinet." A minister of munitions probably will be added to the cabinet.  
Goremykin always has been regarded as a bureaucrat and a reactionary. His influence caused the downfall of the Witte cabinet. When Goremykin was appointed prime minister, an authority in political matters said: "Friends of progress view the appointment of Goremykin with the gravest apprehension."

The czar recently bestowed upon Goremykin the Order of St. Andrew, the highest decoration in Russia. Goremykin is 77 years of age and is one of the wealthiest men in Russia.

## CONSTANTINE WOULD NOT OUTLINE POLICY

King of Greece Received Correspondent of the Associated Press

Athens, Sept. 10.—King Constantine received the correspondent of the Associated Press to-day but declined to make any statement respecting the policy which will be pursued by Greece.  
The king apparently has recovered completely from his recent illness, although he is somewhat thin. He is bronzed by the summer sun and seems to be in perfect health, ready to take the saddle to-morrow in the capacity of leader of the Greek forces, should occasion require.

He does not look for such a contingency, however.  
For an hour the king discussed the progress of the war, showing the keenest interest. In view of the paucity of items of war news published by the Greek newspapers, he displayed remarkable familiarity with the details of military movements, particularly in the eastern theatre of hostilities.

The king does not appear to share the general uneasiness in this country concerning what is regarded as the Bulgarian peril.

## NEGOTIATIONS ENDED, ACCORDING TO DISPATCH

Sofia, Sept. 8.—The Turco-Bulgarian negotiations concerning a boundary adjustment have been concluded. Turkey will formally turn over to Bulgaria the territory in question within a few days.  
The territory to be ceded runs along the Dedeagach railroad. The transfer will be made by the governor of Adrianople to the prefect of Stara Zagora.

## FACTS REQUIRED

Washington, Sept. 11.—Lack of sufficient commercial data is offered by the British government as the reason for further delay in the purchase of American cotton detained in Great Britain.  
pointed chairman of the royal commission on transportation in 1903, but declined the nomination. In 1910 he was appointed a member of the Metropolitan Parks commission. He took a great interest in agriculture and had farms at Selkirk, Man., and other points, for the raising of pure-bred stock. As a connoisseur he was well known for his interest in Chinese and Japanese art, and he also was a collector of valuable paintings. In that connection he held the offices of councillor of the Montreal Art association, and the National Arts club, New York, claimed him as a vice-president. He was created a K. C. M. G. in 1894. Sir William was a Protestant.

### AUSTRIANS FORCED TO RETREAT HASTILY

Russians Took 5,000 Prisoners in Eastern Galicia, Says Official Report

Petrograd, Sept. 12.—The following official communication was issued last evening:

"On the Sereth river our troops, having repulsed yesterday afternoon a series of attacks in the sector above Trembowla and in the district of Tehtorkoff. The Austrians were forced to beat a hasty retreat. According to an estimate, we took 5,000 prisoners, among them sixteen officers."

"Generally the situation of our armies is one of calm confidence in themselves. The initiative in these isolated engagements is passing gradually into our hands."

"On the left bank of the Dvina, southeast of Tuga, we are fighting and are progressing in the region between the Missa positions and the Ekan-Neusut railway. West of Jakobstadt the fighting continues with undiminished intensity. In the direction of Dvinsk there have been advance guard engagements north of Abel."

"On the front from Vilkomir the enemy, with strong forces, has taken an energetic offensive since the morning of the 9th in the region of Koukret on both sides of the road. Our machine gun and armored car detachments contributed actively towards repulsing the enemy. The engagement continues."

"Between the Sveta and Vilna, the enemy's artillery and cavalry made a local attack on our troops in the region of Shriviaty. On the other roads toward Vilna there has been no change."

**Attacks Repulsed.**  
"East of Grodno, supported by a strong artillery fire, the enemy has undertaken a series of attacks against our positions since the morning of the 10th in the direction of Skidel, and also on the lower course of the Melvianka river. These attacks have been repulsed."

"A German offensive, at 4 o'clock in the morning along the road toward Skidel, accompanied by a strong fire from heavy and light artillery, was arrested by the fire of our batteries. After 7 o'clock in the evening the Ger-

man fire increased, and they resumed the offensive, making desperate efforts to break our front, but this attempt also was repulsed by the concentrated fire of our artillery and machine guns. We also repulsed a German attack near the village of Leady, south of the bridge on the Niemen."

"On the remainder of the front as far as the Tript the enemy made attacks only in the region of Rozany, and continued his offensive along the left bank of the Pina. The attacks near Rozany were repulsed by our fire at close range, followed by a bayonet attack. The Germans drove from Rozany a great crowd of inhabitants whom they used as a cover in approaching our positions. In the direction of Kremenetz the enemy bombarded our troops with gas projectiles and engaged in a combat in the region of the upper Goryni river."

**German Claim.**  
"Berlin, Sept. 11.—The following official statement was issued last night: "One of our naval airships on Thursday night threw a number of bombs with good success on a Russian naval base at a Baltic port and its railway works. The airship returned undamaged, although it was fired at."

### A SCENE THAT ONLY WAR CAN PRODUCE

Description of the Inspection of the Guards by Kitchener and Millerand

British Headquarters in France, Aug. 26.—(By Mail.)—Officers who have seen through the campaign since its start at Mons a year ago speak of the recent review of the British troops at the front as one of the most compelling scenes they ever have witnessed. The spot was a parade ground not many miles from the trenches. Three battalions of Guards made a wall of khaki which melted into the background of sword and hill. At a review in England they would have formed a most brilliant display in their gorgeous parade uniforms, these famous crack regiments. Again and again their ranks had been "banned" and refilled. Officers of the old regular army who had come as spectators recognized familiar faces of the survivors among the officers and saw many strange faces who had taken the place of those who had fallen.

"But the Guards are still the Guards—Scots or Irish or Grenadiers or Coldstream," said one of the officers. Lord Kitchener and M. Millerand, the French minister of war, who were seeing the British front together, were to review them. It was the second visit to the front made by "K.", as every officer calls him.

**Fifty Spectators.**  
Sir John French appeared first, walking across the parade ground to the reviewing station, where he welcomed Lord Kitchener and M. Millerand, who arrived in a big limousine. Perhaps there were in all fifty spectators, mostly officers stationed in the neighborhood, of a scene which had a tinge for all that no review in England watched by a big concourse including gaily dressed women ever had. Not a woman was present, not a civilian except the correspondents. A bright sun was shining. Five or six thousand feet overhead a British plane was patrolling the air in a great circle throughout the ceremony.

As the secretaries of war of Britain and France faced the Guards, their bayonets rose at present arms in gleaming rigid lines. Lord Kitchener's khaki made him hardly discernible against the wall of khaki as the party walked the length of the front ranks in formal inspection. M. Millerand in his black suit, with short coat, and his slouch traveling hat and trousers tucked into a pair of leggings, was a distinct moving black point. When they had returned to the reviewing station the band struck up the Marseillaise, and while Lord Kitchener and Sir John saw the other officers stood at the salute, that one civilian figure in this military scene stood uncovered.

**With Left Hand.**  
Then with the march past the band played the airs associated with the regiments whose companies were going by. One officer at the head of his veterans was conspicuous because he saluted with his left hand. His right sleeve was empty. Guardsmen must be tall; and some of the giants were taller than Lord Kitchener himself. A number of the men in the ranks had fought at Mons and on the Aisne and survived, too, from the first and second battles of Ypres. Others had yet to see a battle. Every rifle, every hand that held a rifle, every foot as it was lifted, seemed perfectly in line.

"The Guards still know how to march past though they have been to war for a year," said a staff officer who had been in the Guards since the war began. "As the last company was going past another kind of music was heard. All the chauffeurs of the party were cranking up their cars. It is well known that "K." wants no time wasted between functions and inspections when he is at the front. A volley of clicks as limousine doors were closed and the two war ministers who are at the head of the armies of France and Britain were away to other scenes. Naturally they also inspected portions of the new army—which the French peasants and villagers all call the "Keechenairens." "I have always heard of 'K' as a grim, stern sort of man," said a lieutenant of the new army. "But he was smiling and genial to us quite differently from what we expected. We were a little frightened when we heard he was going to inspect us."

### KILLED BY LOG.

Courtenay, Sept. 11.—Emil Westman, employed at No. 1 camp of the Comox Logging & Railway Company, was killed yesterday by a swinging log while loading logs on a flat car. He was a Finlander and married, and leaves a widow and family.

### MORAL EFFECT OF SUCCESS AT HOOGHE

British Soldiers Know Their Artillery is the Equal of Any

London, Sept. 11.—A correspondent writes as follows from British headquarters in France:

If I revert once more to our success at Hooghe on August 9 it is because the more one hears of this engagement the more one is justified in proclaiming the affair of good augury for the future.

One point which deserves special emphasis is the unusual distance which had to be covered by our attack. This was no mere question of leaping out of our trenches and hurrying ourselves over 50 or 60 yards of ground into the enemy's positions. Our troops for the most part had upwards of 500 yards—and that nearly all uphill—to cover before they could come to grips with an enemy who had been fully warned by the sustained bombardments, not only of the previous days, but of the half-hour immediately preceding our advance. Only the most perfect co-operation between our infantry and artillery offered us the least chance of success, and at the risk of being wearisome, one must insist again upon the scientific accuracy of our arrangements, which enabled us to rush an extensive and comparatively distant position so completely as to surprise the forewarned defenders. The moral effect of this admirable co-ordination undoubtedly has been very great among the battalions actually engaged, and indeed our whole army has been encouraged by the knowledge that we are as well protected by our guns as are even the French by their 75's.

And yet when all this has been said, the struggle after the first hour or so was mainly one of the junior officers and men. One can see this clearly in the fortunes of the battalion to which it fell to carry the part of the German line about the crater near the Hooghe chateau. It was a pitch dark night when they assembled for the attack somewhere to the south of Hooghe. The ground to be traversed was sown with barbed-wire entanglements and was strewn with the bodies that were the relics of previous engagements.

**With Confidence.**  
With magnificent courage and confidence, however, the men advanced up to the very edge of our own shell fire, and then when our guns lengthened and began to play upon the German positions to the north the advance was made with great rapidity. The bombing parties, as usual, did excellent work. One such party came upon a German machine gun detachment in a communication trench which had escaped our bombardment and after the enemy had been killed the gun was employed to good effect against the Germans. The bombers, too, accounted for the majority of the 200 Germans or so who were killed fighting in the crater. It had been anticipated that the battalion which was operating to the left would reach this spot first, but the bombers of the battalion whose fortunes I am following anticipated them by a few minutes, and fairly pelted the Germans as they tried to retreat after emerging from the tiers of dug-outs with which they had lined the pulverized sides of the crater.

The men pressing up with the bombing parties also met a considerable number of the enemy still lurking in the battered trenches, but these Germans had little stomach for the fight. They had been shaken badly by our shell fire, and such as did not escape either were taken prisoners or bayoneted. The sharpest fight of all, perhaps, was in the trenches near the stables, the ruins of which have been alternately in our and the enemy's hands for months. The Germans here had suffered much less from our fire, and 300 of them were bayoneted before we captured their lines and began hastily to organize our defenses.

About 9.30—that is to say, some 6 1/2 hours after the opening of our preparatory bombardment—the Germans began to open upon us with heavy shells, apparently from the direction of Hill 60, and for the remainder of the day our troops had to endure a ceaseless fire of every description. The first troops, naturally, had gone up light, but the reinforcements brought up further supplies of ammunition, sandbags, and shovels. Moreover, a body of sappers had been pushed up at the outset, and in spite of a heavy fire, had succeeded with the utmost gallantry in putting up wire entanglements in front of our conquered positions. The vital wisdom of these precautions having been taken, the German fire playing upon ground which already had been churned up by our own guns, made the bringing up of supplies more and more difficult. Even the barest communication with the men who were holding that death-swept ridge was a matter of much difficulty. Twice the telephone wires were shot away; visual signalling was untrustworthy owing to the clouds of smoke and dust which thickened the air, and at last messages had to be carried to and fro by orderlies.

### Holding the Ridge.

Towards nightfall it was decided that the battalion which had attacked the crater should be relieved, in its trenches, and order were sent up to it to withdraw. The order was not received by all the battalion, and four officers, with 300 of their men, held on all night on the ridge between the crater and the stables, and were not relieved until 9 o'clock the following morning. One in particular was privileged for such surely is not an inappropriate term to use of such very gallant gentlemen—to suffer much and to display extraordinary bravery and tenacity. Not long after his arrival on the ridge he was smothered by a shell, and was wounded in the leg and the shoulder. He insisted, however, on re-

maining with his men, and was wounded again, this time in the jaw, on the following day. He continued to hold on, and did not leave his men until they were back in billets. One is glad to be able to say that he now is progressing well in hospital.

Lance-Corporal Smith and 24 men who were posted in the stables had an even loner ordeal. They too had not received the order to retire, and it was only later, when the colonel of the relieving regiment heard that Smith had sent down asking for reinforcements and more bombs, that the presence of the party up there was realized.

If the brunt of the attack along this section of the line fell to certain units, others also did some very gallant deeds, of which the following are typical. A machine gun which had been put under the charge of Lance-Corporal Whibberley was buried by a shell, together with several men of the section. Whibberley at once set to work to dig out his companions, and succeeded in rescuing two. He also dug out the gun, and then, mounting it in position, brought it again into action.

Private W. Ray came upon a German machine gun which had been blown out of position, and, though a steady fire was kept upon the place by the enemy, he managed to remove the aid to turn it upon the Germans. Later in the day he also did excellent service in carrying messages backwards and forwards repeatedly under heavy shell fire.

### FINANCIAL STATEMENT FOR LAST FISCAL YEAR

Ottawa, Sept. 11.—The financial statement of the Dominion for the fiscal year ended March 31 last has just been issued. It shows the net debt of the Dominion to be \$44,376,983, an increase over the preceding year of \$13,379,333. The total expenditure on all accounts amounted to \$242,515,501. This included \$185,523,296 on consolidated accounts, \$41,447,320 on capital account, \$4,191,507 on railway subsidies and \$60,750,476 for the war.

The revenue totalled \$133,073,479, of which the customs raised \$75,941,219, excise \$21,479,730, post office \$12,046,664, public works \$12,953,487 and miscellaneous sources \$8,622,779. Temporary loans amounted to \$51,074,684, of which \$61,473,684 was borrowed from Britain for war purposes.

### F. S. MEIGHEN BECOMES BRIGADIER-GENERAL

Ottawa, Sept. 11.—Announcement has been made by Maj.-Gen. Hughes that Col. Frank S. Meighen, of Montreal, has been promoted to the rank of brigadier-general. General Meighen was in command of the 14th Battalion at St. Julien and proved himself to be a brave and thoroughly efficient officer. He returned to Canada, with Col. J. A. Currie, M. P., last June, and since then has been assisting in recruiting work in eastern Canada.

He now is raising a new battalion in connection with the Canadian Grenadier Guards, of Montreal. General Meighen probably will be appointed to the command of a brigade at Shorncliffe.

Phoenix Beer, \$1.50 per doz. quarts.

### BRITISH AND FRENCH VESSELS SENT DOWN

Paris, Sept. 11.—The British steamship Alexandria, owned by the Cunard steamship Company, was torpedoed on Thursday, seventy miles from Cape Falos, near Murcia, Spain, according to the Madrid correspondent of the Havas Agency. Twenty-eight of the crew have been landed at Masarron, Spain.

Maritime records give several steamships mentioned in the above dispatch probably is the British steamship Alexandria which sailed from the Tyne on July 27 for Barcelona, where she arrived on August 5. The Alexandria was of 3,885 tons gross and was 346 feet long. She was built at Sunderland, England, in 1905. Although the ship is listed as being owned by the Taylor & Sanderson Steamship Co., of Sunderland, it is probable that she was chartered by the Cunard line.

Marseilles, Sept. 11.—A submarine flying the Austrian colors on Thursday sank the cargo steamship Compagnie Transatlantique. She was bound for Oran, Algiers, and was ninety miles off that port when attacked. Nineteen passengers and the crew of eighteen were allowed to leave the vessel in a lifeboat.

### TWO SUBMARINES AND TWO GUNS DESTROYED

Amsterdam, Sept. 11.—The Telegraaf's correspondent at Bruges contradicts the German version of the bombardment of the Belgian coast by British warships. He says that forty German soldiers were killed and 160 wounded at Zebrugge. The civilians killed, he says, were not residents, but workmen employed by the German military authorities at the submarine port.

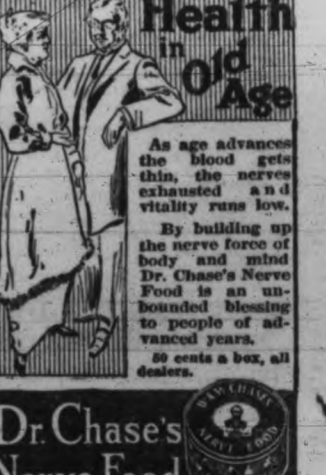

Two submarines and two guns at Zebrugge were destroyed by the bombardment. He adds, and the ship shed and the Solway works there were damaged and there was other damage along the coast.

CASUALTIES AMONG CANADIAN SOLDIERS

Ottawa, Sept. 11.—The following casualties have been announced:
Second battalion.—Killed in action April 23: Pte. J. G. Allingham, St. John, N. B.
Third battalion.—Killed in action June 17: Pte. Jos. Rattray, Montreal. Previously reported missing; now unofficially reported killed in action: Pte. J. J. Beatty, Ireland.
Fourth battalion.—Wounded: Pte. J. R. Walker, Iversville Junction, Que.
Seventh battalion.—Died of wounds: Pte. A. Lindsay (formerly of 23rd battalion), Rossland, B. C.
Wounded and missing: Pte. H. A. Tattie, Mansell, Mass.; Pte. Jos. Hierrelle, Montreal.
Thirteenth battalion.—Previously reported missing; now unofficially reported killed in action: Cpl. C. M. Smith, England.
Fifteenth battalion.—Previously reported missing; now unofficially reported killed in action: Pte. J. M. Currie, Windsor, N. S.
Sixteenth battalion.—Previously reported missing; now safe with unit: Pte. T. E. Taylor, Scotland.
No. 1 Field Company, Canadian Engineers.—Died of wounds: Sapper Geo. Hilde, Ireland.
No. 2 Stationary Hospital.—Died September 7 at Mudos, Lemnos island, near Dardanelles, and buried there: Sister Mary Frances Munro, Niagara-on-the-Lake, Ontario.
London, Sept. 11.—News has been received of the following Canadian soldiers who are prisoners of war in Germany:
Pte. Fred Armstrong, 15th Battalion, at Paderborn; Pte. Michael O'Sullivan, 15th, at Giessen; Pte. D. Sander, 15th, at Rozwadaw; Pte. John Rankin, 16th, at Wessel; Pte. John Sumner, 20th, at Austerlitz; Pte. Joseph Strain, 14th, captured at Ypres, at Göttingen; Pte. Howard Hale, captured near La Bassée, at Göttingen.
It is reported officially from German sources that the following died of wounds while prisoners of war:
Pte. Farris, 2nd Battalion (1893), at Staden; Pte. Douglas Tiskner, 15th (17567), at Roulers; Pte. R. O'Dowd, 5th; Pte. A. P. Robertson, Pte. E. Lewis, Pte. J. Cambridge, Pte. S. Ashcroft, captured at Ypres; Pte. Wm. Wallace, of one of the Scottish battalions, was buried at Ohrdruff, and Pte. Arthur Gibbard, 1st Battalion, was buried at another camp.

REPORT TELLS OF SEVERAL ENGAGEMENTS

Italians Proving Their Superiority Wherever Actions With Austrians Take Place
Rome, Sept. 11.—The following official statement was issued last night:
"Along the entire front small but important actions continue, due to the activity on the offensive of our detachments in reconnoitering, or attempted surprise attacks, notably at night, against our advanced positions. The dash and energy of our troops on the offensive, their active and tenacious surveillance, and their resistance in defensive encounters everywhere have turned these combats thus favorably reported are:
"On Naglersitz (10,174 feet high), in the upper Val Tellina, at Monte Piona, in the Calanzone valley; in the Val Suagano; at Passo Della Sentinella; in the Sexten valley, where we captured enemy emplacements and destroyed an armored refuge; in the pass of Monte Croce, and at Carnico, and to the northeast of Ramazza, in the Upper Chiavzo.
"The most important was an action on Thursday morning, when the enemy attempted to occupy Krastrino Spitz, to the north of Monte Greduel, in the valley of Zebach-Gallitz. After an intense artillery preparation, enemy detachments, aided by numerous quick-firers, resolutely attacked our positions, but they were repulsed.
"On the Carso front a skillful advance resulted in the retreat of the enemy, who abandoned guns, munitions and material. Yesterday, also, on the slopes of Monte San-Mehelo, we captured several hundred Austrian rifles, telephone material and equipment.
"Enemy aeroplanes bombarded Saint Giorgio, Patrio di Sella, in the valley of Torrent Maggio and Grado. No damage was done."
Vienna, Sept. 11.—The following official statement was given out last night:
"Yesterday afternoon and evening the Italians attacked the bridgehead of Tolmein repeatedly. They were repulsed every time with very heavy losses near our entanglements. In the Dolomites sector our troops repulsed approaches of the enemy. The general position is unchanged.
"At sea yesterday our torpedo boat No. 51, while reconnoitering, was torpedoed by a hostile torpedo boat and damaged at the bow. She reached port."

LIBERAL CANDIDATE ADDRESSED MEETING

Courtenay, B. C., Sept. 11.—A meeting of the Comox district Central Liberal association was held on Wednesday evening in the K. of P. hall, W. J. Watchorn in the chair. A very enthusiastic gathering greeted Hugh Stewart, the Liberal candidate for this district, who voiced the sentiments of the audience when he said that all were impatiently waiting for the government to make a move as to a general election.
Employer—"Why did you leave the place in which you were previously employed?" Prospective Office Boy—"I think the boss was afraid if I stayed I might get his place."

WAS IN GOOD HEALTH UNTIL A WEEK AGO

Sir Charles De Boucherville Died Last Night in Montreal; Was 93
Montreal, Sept. 11.—Sir Charles Eugene Boucher de Boucherville, senator of the Dominion of Canada and member of the legislative council of the province of Quebec, died last night at the deaf and dumb institute, in St. Denis street, this city. He was in his 94th year, having been born in this city on May 4, 1822. Sir Charles had been in good health, considering his advanced age, until about a week ago, and twenty-four hours before passing away he was able to sit up in his chair for several hours. One son, Joseph Boucher de Boucherville, K. C., survives him.
The late senator had the distinction of being the only man in Canada holding membership in both the senate and a legislative council. He also was the oldest living graduate of McGill university.
He was deceased, then Charles de Boucherville, was elected to the Canadian Assembly for Chambly in 1857, and sat in the Assembly until general election, when he was called to the legislative council, and entered the Chateau administration as speaker of the legislative council. He retired with M. Chaveau in 1873. He became premier of the province of Quebec in 1874, and resigned with his colleagues after a disagreement with the lieutenant-governor in March, 1878. He was called to the senate of Canada in 1879. In May, 1894, he was made a C. M. G., and was created a K. C. M. G. in June, 1914.
Sir Charles was married twice, first to Susanna, daughter of the late R. M. Morrough, of Montreal, and secondly to a daughter of the late Felix Lusier, Seigneur of Yaregnes. His second wife died in 1892. His daughter, the wife of L. T. Marechal, K. C., Montreal, died in 1902. The deceased had resided for several years in the deaf and dumb institute.

BELGIAN GUNS DISPERSED SEVERAL DETACHMENTS

HAVE, SEPT. 11.—The following statement on the operations on the Belgian front was issued yesterday by the Belgian military authorities:
"German artillery has displayed some slight activity to-day, directing fire on Ramskapelle, Pervyse, Oudstuyekenskerke, Oudecapelle, Renninghe, Pygatte and also upon several other of our advanced positions. Our artillery replied with a heavy bombardment of the enemy's trenches along the bank of the Yser canal, where several detachments of the enemy were dispersed."

MAKING PROGRESS TOWARDS RECOVERY

Ottawa, Sept. 11.—Sir Wilfrid Laurier's physician, Dr. Chevrier, reported this morning that his patient passed a somewhat restless night and suffered considerably from the effects of the operation of Thursday morning. He stated, however, that this was to be expected, and that Sir Wilfrid is making satisfactory progress towards complete recovery. Should no complications set in he believes that Sir Wilfrid soon will be restored to good health.

NEW PLANS

Winnipeg, Sept. 11.—S. Rylander, prominent British engineer, will draw new dome plans for the parliament buildings. These are the third to be drawn. Engineer Shankland, of Chicago, got \$15,000 for drawing one set, but investigation showed that these were stuffed 30 per cent in the contractor's favor. Rylander drew the first plans, which were rejected by Sir Rodmond Roblin.

SIR CLAUDE MACDONALD IS DEAD AT AGE OF 63

Was British Ambassador at Tokio From 1,900 to 1912; Owned Property Here
London, Sept. 11.—Sir Claude Macdonald, former British ambassador to Japan, died here yesterday at the age of 63 years.
Sir Claude Macdonald served as ambassador at Tokio from 1899 to 1912. For four years prior to going to that post, he was Great Britain's envoy-extraordinary at Peking and was appointed by the foreign representatives to command the legation quarter there during the siege from June 22 to August 14, 1900.
After passing through the Royal Military College at Sandhurst, he entered the 74th Highlanders in 1875. Ten years later he was breveted major. He saw much service in Egypt and in 1882 was appointed military attaché to the British Agency at Cairo. After spending five years there, he took up special work in Africa for the British foreign office.
Sir Claude owned property in Victoria.

FUND CLOSED; SUM SENT TO AUTHORITIES

\$1,700 Was Raised in Duncan for Purchase of Machine Gun.
Duncan, Sept. 11.—The machine gun fund, which reached a sum in the neighborhood of \$1,700, has been closed and the amount sent to the authorities, with a request that if possible it be used for a gun for a British Columbia or at least a western regiment.

THE WEEKLY RED CROSS PARTIES OF THE NORTH-COWICHAN

Red Cross committee are well attended since the summer holiday. Over 50 ladies and gentlemen were present on Wednesday last and a great number of bandages and dressing, pyjamas and shirts were made. Lady Philipps-Wolley, Mrs. Elkington, Mrs. Thomas Pitt, Mrs. Gooding and Mrs. Hamilton Morton are the committee in charge of these work parties. Mrs. Clouston, Mrs. Macgregor, Mrs. Bradley-Byrne and Mrs. Leather also take charge of tables of work. Over a thousand woolen socks were sent in on the 1st of September, which was the day set for sock collections. Collections of jam will be received on the 1st of Wednesday in October. For some time past one or more cases of finished work have been sent to the Victoria headquarters weekly.

THE WOMEN'S INSTITUTE ALSO HAS A COMMITTEE WHICH UNDERTAKES RED CROSS WORK EVERY FRIDAY AFTERNOON

and sends finished work to the Vancouver Branch, South Cowichan, Cowichan Lake, Soanemo, Quamichan Lake and Kikialah also have their Red Cross work parties.
Miss Courtenay, recently from England, has been appointed domestic science teacher for the Duncan school in place of Miss Mackenzie, who has been appointed to teach domestic science in the Normal school, Victoria. Arrangements probably will be made to allow pupils from the nearby municipal schools to take the training.

MISS EASTON, OF COWICHAN, LEFT ON THURSDAY FOR ENGLAND

She will travel by the White Star line.
The Misses Freeman left Duncan on Thursday for Courtenay, where they will make their home.
Mrs. Goldschmidt, who visited her brother, D. McRae, some years ago, is returning next week and expects to make her home in Cowichan.

APPOINTED SUPERINTENDENT

Winnipeg, Sept. 11.—Rev. D. S. Hamilton, yesterday was appointed superintendent of the foster homes in the province, succeeding Rev. Wellington Bridgeman.

VISITED FIGHTING SHIPS OF BRITAIN

Correspondent Had Privilege of Seeing the Grand Fleet Put to Sea
London, Sept. 11.—During his visit to the British battle fleet in the last week, the correspondent, after boarding all of the more important ships, witnessed a magnificent spectacle—that of the whole force putting to sea.

Officers of Vice-Admiral Sir David Beatty's flagship, the Lion, which has received the roughest handling in battle of any major British battleship afloat, told of the difficulty they had to persuade the young commander to descend at the opening of the action on January 24 from the bridge, where he had an unhampered vision, to the armored protection of the conning tower.
Has Been Repaired.
They gave an exciting account of the success of destroyers in following all the crippled Lion as she was being towed home at five knots an hour after striking the German cruiser Blücher.

The place in which the Lion was hit during the North Sea battle was not discernible in some instances, owing to the reconstruction of the sections where the shells had burst. In other cases the location was evident, patches having been placed over the injured places.
A very small percentage of the German shells hit at the 15,000-yard range of the early stage of the battle; officers say, but the screams of passing salvos and the crack of their own guns caused an inconceivable tumult to sound in the ears of those stationed on the bridge.
The battle cruiser Tiger had fewer scars than the Lion to show as a result of the North Sea battle.

ON THE QUEEN ELIZABETH THE ONLY SIGN OF HER EXPERIENCES AT THE DARDANELLES WHICH WERE VISIBLE WAS A SECTION OF NEW PLANKS ON DECK

where a shell had penetrated; and a dint from a glancing shot on one of her 15-inch guns.
The inflexible, flagship of the Paikland islands battle, suffered less damage than that of the Dardanelles, where she was struck by a mine and by heavy fire from shore. A piece of the mine is kept in the war room as a souvenir. In fact, all the ships which have been in action have fragments of German shells set in mountings as mementoes. Officers referred to the manner in which the necessity had been foreseen in British naval preparations for taking care of damages from battle, thus ensuring prompt repairs when any ship returned injured in action.

FEW REPAIRS NEEDED

"But we had few repairs to make and our energy and resources were given to rapid construction of new fighting units, which continues to increase our preponderance over the German fleet," one officer remarked.
The correspondent heard repeated sympathetic references to the sacrifices and hardships of the army during the grilling year of war while the battleships marked time in their long wait.
"But if battle comes for us, it will not last long," an officer said, "Every day's waiting only sharpens our eagerness."

THE ONLY COLOR VISIBLE IN THAT VAST ASSEMBLY OF FIGHTING SHIPS, STRETCHED INTO THE MISTY HORIZON

or standing out against the green background of the harbor, was the blue uniforms of crews and an occasional signal flag fluttering from a halyard.
While the correspondent was on board the flagship of Admiral Sir John Jellicoe, a message was brought to the commander-in-chief, who called a secretary and spoke briefly to him.
Word was passed around that the whole fleet had been ordered to weigh anchor and proceed to sea. Guests on board a destroyer at the mouth of the harbor watched the unprecedented procession of naval power make its exit.

LICENSE GRANTED FOR THE COURTENAY HOTEL

Courtenay, B. C., Sept. 11.—At a meeting of the license commissioners of the city of Courtenay, a license was granted to Thomas Booth for the Courtenay Hotel. This hotel has been closed for the past six months, but has been renovated thoroughly and refitted, and as it contains 47 rooms, there will now be no lack of accommodation for hunting and fishing parties. Mr. Booth was a well known figure on the C. P. R. boats and also formerly was a hotel man, having run hotels in Nelson and various other points in British Columbia.

A PURE INVENTION, SAYS LONDON NEWS

London, Sept. 11.—The Daily News, in an editorial dealing with Germany's note to the United States concerning the sinking of the steamship Arabic, says:
"Mr. Booth was a well known figure on the C. P. R. boats and also formerly was a hotel man, having run hotels in Nelson and various other points in British Columbia."
Gray Armored Night.
The crews were out and the sight added impression to the fleet's gray armored night. There was the first dreadnought, and others of all classes since her evolution of naval warfare, up to the latest type, the Queen Elizabeth. The head of the column was lost in the mist of approaching night-fall and black clouds from the funnels. Eight, sixteen, twenty dreadnoughts were counted as they went past with clockwork regularity, and out of other smoke clouds in the harbor more dreadnoughts were coming before the King Edward VII. and other pre-dreadnought classes had their turn.

CONCENTRATING FORCES

Petrograd, Sept. 10.—The concentration of heavy Austrian forces on the Roumanian frontier points to serious operations in the near future against Bessarabia and the region of the middle Dniester, in the opinion of Russian officials. It is regarded as improbable that the concentration indicates that an offensive movement against Roumania is in prospect. The officials declare, however, that it is premature to regard the Kiev-Dnieper line as endangered.
An advance from Galicia is regarded as unlikely at present because of the recent Teutonic defeat near Tarnopol.

FAMOUS PICTURES
There are two distinct points to the picture shown herewith.
1. The Buffalo sees in the Traction "V's" a likeness to his own foot-marks—thinks the old form has become the new through the process of time.
2. Inset on a strip of his own prairie, the buffalo gazes over the changes which have taken place in the passing of the years—once his haunts were a wilderness, now they are the home of high buildings, swiftly moving vehicles, and "Traction" Auto Tire marks over the road.
The artist's idea, also, was to show by inference the preponderance of "Traction's"; in other words, their universal acceptance by motorists. The "V" trail is as general as roads themselves. In fact, wherever an auto goes, you will find evidence that "Traction's" have gone before.
\$100 in gold for the best stories about this and the other "Famous Pictures." The stories to be written by Canadian-born children, under fifteen, whose parents, brothers, sisters or relatives own auto, motorcycles or bicycles equipped with one or more Dunlop Traction Tread tires.

SHE WILL NOT STOP IT.

The essence of Germany's warfare against Great Britain is "frightfulness." The army and navy authorities of the Kaiser's empire know that they cannot starve their island enemy or materially damage her trade by their submarine activities.

The first excuse of the Teutonic barbarians for the sinking of the Arabic was that the Hun submarine commander had exceeded his instructions, but as he had failed to return to his base of operations it would be impossible to deal with him in accordance with his deserts.

Thus no matter what assurances they may give to Washington they will continue to sink passenger liners without warning, because the mind which authorizes the murder of women and children by Zeppelins is too degenerately ruthless to draw distinctions.

SUSPENDS ITS LABORS.

The dissolution of the Victoria Citizens' Unemployment Committee is distinctly regrettable, but in the circumstances there was no other course to take.

The committee believe sufficiently in the productiveness of the soil in and about Victoria to be convinced that labor employed upon the land would result in sufficient foodstuffs to feed that labor.

and other preparations were completed. At the last moment the scheme was upset by the receipt of heavy Canadian, casualty lists from Flanders.

If the war is still in progress when the present Canadian parliamentary term has expired the Liberals, of course, will agree to an extension until the end of the conflict and probably for a reasonable time afterwards.

A SUBMARINE SEA YARN.

The cabinet crisis at Petrograd is one of the signs of the times. It explains many things, among them the removal of the Grand Duke Nicholas from the supreme command of the Russian army and naval forces, notwithstanding the mastery way in which he extricated his legions from a series of vitally dangerous situations.

THE PARLIAMENTARY TERM.

An inspired Ottawa dispatch to the government press declares that the cabinet has not considered the subject of a general election and will not do so unless the Liberals refuse to consent to a reasonable extension of the parliamentary term.

The allusion to the situation in the United Kingdom was not altogether happy. There the Asquith government specifically stated that no election would be held during the war within its term.

"Maximum Comfort, Minimum Cost." This is our motto and we are living up to it. The Prince George Hotel offers special inducements for permanent roomers and boarders. Bright, clean, cozy rooms, with hot and cold running water in every room and at prices strictly in accordance with present conditions. Popular priced grill in connection. Come and talk it over. Prince George Hotel (opposite city hall).

H. B. "Imperial" Lager Beer, pints, \$1.00 per dozen.

TRAINING IN DAYTON

Victoria Boys Leave Toronto to Complete Course for Flight Sub-Lieutenants' Certificates.

In order to finish their training Messrs. A. P. Beasley, Kenneth MacDonald, C. Watson and A. Woodward have gone to Dayton, Ohio. All are Victoria boys who left here some time ago to take the course of training at the Curtis Aeroplane Manufacturing company's school at Toronto.

In order to secure their certificates as flight sub-lieutenants they have proceeded to the Wright school, at Dayton, where they hope to find weather conditions which will favor the completion of their training in flight work. This was brought to a standstill in the Toronto school, by unfavorable weather, the high winds for many days interfering with progress in this respect although most of the candidates had more than an hour and a half actually in the air.

THE FACTOR OF SAFETY.

Not how much real estate did he have, but how much life insurance did he carry, is the question asked nowadays when a prominent man is called away. Men who never before gave it a thought are to-day taking out Life Insurance as the one unshrinkable investment.

The "Canada Life," established 1847, makes a specialty of this class of insurance. Its splendid financial standing, combined with the liberality of its policies, make it a favorite with intending insurers.

We will be glad to submit rates and particulars. Heisterman, Forman & Co., General Agents, 1210 Broad Street, P. Lewis, Special Agent, J. L. Hackett, Special Agent.

Phoenix Stout, \$1.50 per doz. quarts. English Mail Here.—Nine bags of letters and a large quantity of newspapers arrived here from London yesterday, being two weeks in transit via Montreal. The mail, which arrived on Thursday via New York, was also two weeks on the way.

14 Gold and Silver Medals.—Awarded to Wiper's while in competition with leading firms in England guarantees the public quality and excellence. Special for Saturday, Coccaut, Chips, 20c. per lb., regular 30c. Wiper's, The People's Confectioners, 1210 Douglas St.

Sunday School Rally.—To-morrow is rally day at James Bay Methodist church, and three interesting services have been planned. In the morning Rev. A. S. Colwell will speak to the children on "The Right Life." For the afternoon a rally day programme has been prepared for the Sunday school, with special music and exercises, and in the evening Rev. Robt. Hughes will preach on "The Second Mile."

Cathedral Branch of W. A.—On Monday 3 p. m., the Christ Church cathedral branch of the W. A. to Missions will hold the first meeting of the winter session in the cathedral schoolroom. The president earnestly requests a good attendance of members and hopes to welcome some new workers. At the close of business Rev. E. G. Miller will give an address on his recent visit to England.

Phoenix Stout, \$1.50 per doz. quarts. Harvest Festival.—The Harvest Festival services of the Naval and Military Methodist church, Esquimalt, will be held on Sunday, 19th inst., and the anniversary of the church will be observed at the same time. The trustees have decided to make alterations to the rostrum to facilitate the services of the choir, and to further add to the convenience of the congregation and pastor generally. The new flag-staff will be set in position in a few days, and it is hoped that the proceeds of the harvest sale will enable the trustees to fence the property, and to plant trees and shrubs in the near future. A special musical programme is being prepared under the leadership of Mr. Hodge. The Ladies' Aid will arrange a public tea for Monday, 20th inst.

Children's Aid Society.—At a meeting of the Children's Aid society yesterday the secretary reported that assistance had been rendered in thirty-two cases. Nine boys were admitted and twenty-one allowed to go to their own homes or sent to the industrial school. The home needs one dozen sweaters and one dozen pairs of overalls for boys between seven and twelve years. Thanks were expressed for a number of donations that had been received.

St. John Ambulance Classes.—Three more classes for instruction have been arranged for by Mrs. W. Wallace Grimé, class secretary, under the auspices of Victoria Centre of the St. John Ambulance association, all to be held in the rooming of the Young Women's Christian Association building, 912 Douglas street. Dr. A. B. Hudson's class in first aid will be commenced on Monday night Sept. 13; Dr. W. J. C. Tomalin's class in home nursing on Tuesday night, Sept. 14; and Dr. Paul Higgins' class in first aid on Thursday night, Sept. 16. The list for Dr. Hudson's class is closed, but several more names are required to make up full lists for the two other classes. The time of meeting will be 8 o'clock on each evening, and punctual attendance is requested. The secretary of the centre will attend at the Y. W. C. A. next Monday evening from 7.30 to 8 o'clock, to deliver to those entitled to them the certificates in home nursing obtained by members of Dr. Hudson's class examined on June 14 and 16 last.

DELAYED BY-LAW SHOULD BE READY

Jitney Measure Re-Drafted To-day; Other By-laws for Monday

When the amendment of the hired vehicles consolidation by-law (amendment 1915) comes before the city council on Monday, it will show that consideration has been given to the principles of proof of capacity before the issue of a license and of the assurance of the motor vehicle being in proper repair. These two points were discussed by Alderman McNeill, who is sponsor for the by-law, with the city solicitor this morning.

The former matter was particularly urged by the Victoria Jitney association representatives at the recent meeting, while the latter is an alternative which is in lieu of the surety clause which is to be dropped. The public, it is contended, stand a much better chance of safe travel if the automobiles are in good condition, and were inspected as hacks are by an officer. Proof of ability to drive a car is a duty which the pedestrian has a right to expect, but frequently does not find existing, and the members of the Jitney association themselves are as anxious as anyone that the men plying for hire shall be competent.

The sewer expropriation by-law stands for introduction, as does also the one to fix a rental for sidewalk areas. It will be necessary to pass a local improvement by-law with regard to Pemberton road, from Rockland avenue to Fort street, in order to approve of the changed plans for resurfacing the roadway. A petition in favor of the work has been signed by 13 owners, representing an assessed value of \$176,730, those who have not signed being nine in number, representing an assessment of \$47,300.

An amendment to the building by-law will be introduced to enable the use of plaster board in place of metal lath under certain conditions defined in a recent report of the building inspector and fire chief in buildings within A limits.

Further applications for the position of city solicitor have been received at the city hall, and will probably be filed till the subject of the appointment is taken up.

Y. W. C. A. BOARD MEETS

Association to Hold All-Day Conference on September 22; August a Busy Month.

At the regular board meeting of the Y. W. C. A. held yesterday, Mrs. Adams presiding, twenty-two members were present. Miss Fawcett, who has been acting secretary for the association since the resignation of the general secretary, Miss Bradshaw, acted as clerk.

Reports for the month of August showed that 158 had registered at the association during that period, and that 28 had been more or less permanent residents during that time. Of the latter number quite a large percentage were teachers, who were attending the summer school course, all of whom had expressed themselves as delighted with the accommodation provided and expressed their intention of returning next year.

Other statistics for August were interesting, and showed that the home had been busy. An average of 250 meals a day had been served. The Travellers' Aid met 165 boats and 26 trains, seventy-five people being given assistance in finding friends and addresses. The employment bureau had seventy-five applications for workers, and forty-five applicants for work, twelve positions being filled through the department.

An all-day conference, to be held on September 22, was arranged, and Miss Lane, one of the Dominion secretaries, who has been visiting the institution during the past week, addressed the meeting and gave a number of valuable suggestions. She referred to the fact that she would be returning here from Seattle in time for the all-day conference, and the announcement was made that Miss Scott, of the Seattle Y. W. C. A., would also be a visitor at that time.

Splendid for Reading.—The glasses I am now able to supply to my patrons. Frank Clugston, Optometrist-Optician, 354 Yates street (corner Douglas), Uptown. Phone 5351.

Claim Against City.—An action has been commenced in the county court, against the city of Victoria by the James Bay Methodist church trustees. The claim is for \$151 and on a declaration to re-assess for taxes.

The One Best Organ

For Church or Home or School

Is the Famous ESTEY

The Estey Organs admittedly have the finest tone of any organs made. Since 1846 the Esteyes have been making organs—just organs, good organs, the kind that last a lifetime and never fail.

Almost 400,000 Estey Organs have been made and sold.

If you are interested in the purchase of an organ for church, chapel, school, lodge or home or for any special purpose, there are Estey organs of almost every size and type from the portable to the great full reed.

You Should Not Buy Without Investigating the Estey. We Can Make Close Prices and Generous Terms

training in a British Army band, with which he toured for 15 years.

H. Pike (clarinet), is well-known locally, having been solo clarinet for the 4th Regiment band.

W. North (cornet), is one of the best known soloists on the coast, having filled engagements in most of the coast cities.

W. Davidson (cornet), has had considerable experience in old country prize bands, and on one of H. M. training ships bands.

C. Cooper (cornet), was cornetist for the well-known bandmaster, J. Finan, during a tour through the States.

W. Fainall (horn), was also one of Finan's right-hand men. He has had 15 years musical experience.

F. Dorr (horn), has been connected for the last 10 years with bands in Seattle, Vancouver, and also with the 88th band.

G. Geiker (trombone), received his training in Kneiser Hall and has had a great many years experience with marine bands.

J. Miller (euphonium), is noted for his ability as an instrumentalist and is a cousin of J. Miller, world-famous trombonist.

P. Monte (Tuba), received his musical education in Italy and for a number of years was bandmaster in the British naval service.

E. Anderson (drum), is probably one of the best known musicians in the west and has had a wide experience with travelling opera companies. He is also an efficient xylophonist.

Aspiring authors have many things to contend with, but perhaps the greatest bugbear is the man with the bill. One of the latter fraternity visited Quilpen recently, and was distinctly aggressive. "I've had enough of your everlasting excuses!" he stormed. "What I want to know, once and for all, is when you are going to settle this bill?" "Sir," said the author loftily, "I will satisfy your demands as soon as—er—as soon as I receive the money which the publisher will pay me if he accepts the novel I am going to send him as soon as it is finished, and which I am about to commence just as soon as I get a really good idea!"

The five-year-old daughter of a well-known humorous writer appeared one morning at the breakfast-table with suggestions of a cold, beginning to manifest itself. "Why, Kathleen," said her father, "you are a little hoarse." "Am I?" said Kathleen, resentfully. "You said I was a little pig yesterday?"

## For a Pleasant Evening

### PANTAGES THEATRE.

No one can afford to miss the excellent variety programme, which will be given its last performances at Pantages theatre this evening. The attractions include the Scovell dancers, superb juggling by the Royal Gascoignes, high class comedy by Will H. Armstrong and his company; and other turns of uniform excellence.

Next week an ideal summer programme will be presented. The headliner is a real live musical comedy entitled "Little Miss U. S. A.," which will carry a pretty chorus, plenty of good scenery, up-to-the-minute costumes, and all the accessories of a modern girl-and-music show.

The other features include a popular animal act, in which an educated simian, which can do everything but talk, will appear in a pantomimic comedy; also a sparkling programme of music, mirth and melody.

### COLUMBIA THEATRE.

"Rags," the current production of the Famous Players Film Co., starring Mary Pickford, and the chief feature on the Paramount Programme now at the Columbia, may be accurately termed one of her greatest characterizations. Written by Edith Barnard Delano, and directed by James Kirkwood, "Rags" is one of the most powerful screen portrayals in which Miss Pickford has ever appeared.

Always inimitable, always human, lovable and impulsive, she makes the

## Broadening the Outlook for Women of Province

Influence of Women's Institutes Being Felt in Community—Service for Home and Country Along Many Lines of Activity.

If a hundred years from now, when all those properly qualified to criticize the work will be among the Eternal Silent, some man more erudite than his fellow comes to write the history of British Columbia in the Twentieth Century, it is possible that on some little page may be found reference to the part played by the Women's Institutes in welding together the home interests in the rural communities of the great province which constitutes "The Last Best West."

The conclusion of the second annual conference of this still young organization makes a brief record of its purpose and achievements of special interest at the present time. In view of the rapid progress and development of the movement it is particularly opportune to recall the beginning now, at its present rate of growth the greater achievements will soon absorb far too much attention and time to permit frequent excursions into a past which is already fading into obscurity.

For although the Women's Institute idea first found definite expression in this province with the formation in the autumn of 1909 of sixteen branches of the organization with a membership of less than five hundred, there are now fifty-four branches with a membership which is in the neighborhood of three thousand.

These figures speak for themselves. In a densely populated city there would be nothing particularly noteworthy in such a statement. But when it is taken into consideration that the members of this association live entirely in the rural districts and scattered over an area which is bounded only by the limits of the province itself there is remarkable evidence of an undercurrent of sympathy and mutual interest which is deeper and more profound than is recognized for the most part by even the women themselves.

The great sub-conscious has expressed itself in definite form. Hence the Institutes, which are an expression of mutual desire; desire on the part of the women in the isolated districts for a social centre, sympathy, companionship, for information on those problems which confront all newcomers to sparsely settled neighborhoods in a country which is still virtually the land of the pioneer; desire on the part of the department of agriculture to make contented and happy settlers who will be anxious to put forth every endeavor for the improvement of their adopted country, and on the part of the more experienced to impart information with respect to housekeeping and other problems which will assist in lightening the labors of the women in the rural and farming communities.

From Small Beginnings. The idea has been thoroughly successful, even in its beginnings. The first sixteen institutes were dotted at intervals—necessarily long ones—between Sooke and Cranbrook, four hundred miles apart. At first they had no legal status, as there was then no act dealing with Women's Institutes. They soon, however, received the recognition which they deserved. W. E. Scott, on his appointment to the office of deputy minister of agriculture, becoming superintendent of institutes, and making the inclusion of the institutes in the Agricultural Association's act of 1911 one of his first duties.

Like most of the other admirable things in this world, the organization has evolved. It is still evolving, in fact. In the very beginning it served in a minor degree a purpose which is still fulfilling with ever-increasing efficiency. Mrs. A. T. Watt made a tour of the institutes in the spring of 1910, speaking of institute work, hygiene and household art. In the autumn of the same year Miss Laura Rose visited the institutes, speaking on topics of interest to housekeepers, dairying, institute work, etc. Some of the institutes even at that time already conceived the idea of assisting their local hospitals, establishing rest-rooms for women in the small country towns, and helping at local fairs by "taking charge of the women's and children's exhibits. By the end of 1910 there were twenty-two institutes with a membership of 700.

The following year was conspicuous for even greater activity. Miss Alice Ravenhill, who presided as chairman at the conference of Island Institutes, held here this week, undertook to compile pamphlets on the subject of institute study topics, these being distributed to the institute members during 1911 and 1912.

Local Tours Undertaken. A lecture tour was also undertaken by Miss Ravenhill and Mrs. Moran, food values, food and diet, first aid, and other subjects of practical interest forming the topics under discussion. It was in the same year that the minister of agriculture appointed an advisory board of four ladies, these to work in conjunction with the department of agriculture in respect to giving and receiving help from that body, and to do all in their power to stimulate interest in agricultural pursuits, assist newcomers and suggest means to be adopted which would tend to improve the conditions of those living in the rural district.

Another lecturer during the same year was Miss Livingstone, of the Boston School of Cookery, who spent the winter months among the institutes giving two-day demonstrations in domestic cookery at each institute. The competition among the institute members for the best-arranged dinner menus, judged at the end of her tour by Miss Livingstone, took the form of a wholesome rivalry which still further added to the popularity of the growing organization.

Incidentally it was about this time that the institute motto came up for consideration by the board, the emblematic green, white and gold (representing the forests, snow, and minerals of the province) being chosen for the institute colors, and the motto of the Ontario Institutes: "For Home and Country," being adopted for the pin. This has been retained up to the present.

Fostering Love of Flowers. The success of the institute movement was now established. The year 1912 opened with twenty-three institutes. A spring itinerary by Mrs. S. K. Davies included lectures on poultry keeping, market gardening, floriculture and bulb culture. In the summer of the same year the department of agriculture, by giving prizes of books for the best displays at some of the flower shows, instituted a custom which received final endorsement the following year in a definite and stated offer on its part with a view to encouraging exhibition work among the institutes. This was a proposal of great significance, which has already resulted in great stimulus to the interest both among children and adults in flower study and collecting, and to women exhibitors in preparing their own exhibits.

It meant, in short, an offer by the government of a grant of not more than \$50 toward the expenses incurred by any institute in sending an exhibit of women's work to the provincial fairs at New Westminster and Victoria; a per capita grant of twenty-five cents to institutes holding a flower show and book prizes for flower shows and children's flower exhibits.

More lately the government has apportioned to the Women's Institutes a per capita grant equal to the members' annual subscription (which is fifty cents) on June 30 of each year. These two grants tend to promote interest both in fruit and vegetable growing and the holding of flower shows; and to renewed effort on the part of the members of institutes to increase their membership.

Lecturers in 1913 were numerous, among them being Mrs. Hutchison, Mrs. Watt, Mrs. Stebbens, Miss Crickshaw, Miss Moulie, Mrs. Atkinson, and Mrs. Norman, the range of topics including practically every subject likely to be of interest in the home. Sessions, demonstrations, and conferences were increasingly well attended, and ideas ever more freely interchanged among the members. In all the lecture and demonstration work undertaken, sensible, practical advice was given, the cookery courses being designed for the needs and equipment of the farmer's home, and the recipes being for plain, serviceable dishes in which were combined nutritive requirements with tastiness.

Extending Activities. Before the end of the year, when the number of institutes had grown to 34, Miss Taylor and Madame Grobe were added to the list of lecturers, and gave much practical help in dressmaking. Their own problems in the home greatly simplified by the practical help given in such classes, the women were gradually able to turn their attention to the alleviation of problems outside the home. Some found needy families to assist; others opened rooms in the country towns where women could rest while making their weekly shopping visits. Other institutes undertook to help their local hospitals, where some succeeded in giving donations to their agricultural associations toward their building funds. The winter of 1913-14 found many needy families in the district of South Vancouver, and the institute at Central Park undertook to provide hot school lunches at two of the schools during the colder months.

Institute conferences in each of the four districts were commenced in the summer of 1914 for the first time, held at Duncan, New Westminster, Nelson, and Summerland respectively. The conferences were of great benefit to all who attended, and the keen and growing interest of the women in the welfare of their children, their homes, and themselves was evinced in the character of the resolutions passed, these asking for more adequate medical inspection in the schools and the appointment of school committees to visit and work with the trustees and teachers for the improvement of the schools. Library committees were appointed to look into the matter of traveling and school libraries; and a request was sent to the minister of education to open a department of household economics at the provincial university.

Work For Soldiers. August of last year witnessed the plunging of the empire in the most appalling war in its history. The homes in the rural districts were not the last to give their sons. Nor were the mothers hesitating in their decision to help through whatever channel was open to women. In reviewing the history of the institutes during the past year it would be omitting reference to the greatest of their undertakings not to refer to the patriotic effort which they have put forth at a time when the nation has required the utmost service from each and all of its citizens. A departmental Farmers' and Women's Institute fund was started by the Hon. W. J. Bowser at the commencement of the war. As a result a total of \$4,948 was collected and forwarded to Great Britain. Of this amount the Women's Institutes contributed \$1,399.

In addition to this subscription all the Women's Institutes have concentrated their energies in Red Cross

work, and have worked untiringly in making comforts and necessities for the boys who have gone to the front. In some of the districts, as a matter of fact, Women's Institutes have been formed during the past year simply because it seemed the most expedient means of working systematically along the lines of Red Cross work and thus insuring the assistance which every patriotic woman at the present time is so anxious to give.

"A common sorrow," it has been said, "often makes friends." This has been true during the past year, when the motherhood of the nation has grieved as one for the sons sacrificed on the battlefields of Europe. In the city and in the country alike it is probable that there will ever be division of sympathy, personal and social antipathies, isolated individuals who lack the spirit necessary to the rebuilding of the common weal. The past year has done much to erase the evidences of this. But the Women's Institutes will find in the rural communities women who for one reason or another stand aloof from an organization created for them as much as for anyone, an association intended both for the giving and the receiving of help on the part of its membership.

Room for All Women. Perhaps one of the most regrettable reflections to those who are in a position to see both sides is that a great proportion of those who are indifferent to the objects of the association are those who are better educated and whose membership might be made of real value to those who have not had the same opportunities in this respect. Such women live in the country, and a potential part of the life of the rural communities, yet fail to see that the best interests of the province are involved in furthering the institutes and everything concerned with the bettering of conditions among the women in the rural districts.

A second imperative need is within the institutes themselves. One of the things which is hampering the movement, progressive as it has shown itself to be, is the need for more co-operation in leadership. Those who have the most leisure and the greatest organizing powers too often are ungenerous with both their time and gifts. The machinery is, perhaps, a little cumbersome for the work to be done, and the present demands for clerical work for those who come untrained in secretarial experience may have something to do with the reluctance found in getting members to undertake such duties. This trouble the department may in time be able to remove.

The advisory board no doubt carries the burden of the responsibility. They have to keep in constant communication with all the institutes in their district, numbering from fifteen upwards. The encouraging development along the lines of social and patriotic work is largely due to their trouble in supporting and encouraging suggestions laid before them. And these are increasingly numerous, as there is in every district a body of women who are interested and appreciate the opportunities given them for working in co-operation.

That this body should be all-embracing in time is the ambition of the institute. The most recent step taken to further this end is to be found in the affiliation of girls—the women of the future—with the institutes, as it is felt that by securing their interest while they are young they will in a few years have young members who come trained in experience of the needs of a provincial-wide training school and a rural centre for the women of the social communities of British Columbia.

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter its chance of insertion. All communications must bear the name of the writer. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

CIVIC EMPLOYEES. To the Editor:—You are aware that the wholesale dismissal of city employees has caused a great deal of criticism amongst labor men and taxpayers generally. A great deal of dissatisfaction would have been eliminated if the men had received the proper notice which was due to them (two weeks' notice), which would have given them a chance to make other arrangements. It is poor policy to arouse the ire of a body of intelligent workmen, and it is not to the benefit of the corporation to make a foothold of its faithful employees.

Summary dismissal is all right where negligence is proved, but should not have been resorted to in this case. Some of the men dismissed had only half a day's notice. Such treatment takes away any incentive on the part of the men to take the slightest interest in their work, as they do not know

## YOUR CHILD'S FALL UNDERWEAR

Children's Underwear that will give entire wearing satisfaction and proper warmth will be found here in a splendid array of the better qualities at prices that mean true money savings to you. We invite your early inspection.

at what moment the axe may fall on their unsuspecting heads.

Some of the council disclaim any responsibility in the matter, but, being the managers of the city's business, they will no doubt place the responsibility for this insane policy. Some one either misunderstood his instructions or wantonly disregarded them. I wonder what the party would think if he were told at noon to-day that his services with the city would terminate to-night.

It is absurd to make any distinction between property owners and non-property owners, as in many cases the latter pay more rent per month than the former pay per annum in taxes. It would be better if any distinction is to be made to make it between married men with families and single men. Many of the latter have no strings of any kind on them, whilst a man with a family is at a very great disadvantage.

I trust the council will see its way clear to reinstate those men with families at the earliest possible moment, otherwise some of them will become public charges.

WM. PADDISON.  
September 11.

### OUR EDUCATIONAL SYSTEM.

To the Editor:—Mr. Elliott has told us "there is too much arts in our education," and not enough of the practical. As Dr. Stanley Hall long ago pointed out, the university sets the curriculum, inasmuch as that is the student's goal. Then the high schools must regulate their course to suit the forces higher up, while the public school must likewise be sacrificed upon the altar of the high school. But ten per cent of the public school pupils reach the university, out our provincial savants say to the ninety per cent, you must be "buckwheat" and travel the same road, however unnecessary may be the obstacle in the way. Should not the consideration of the necessities of the ninety per cent, take precedence over that of the small minority?

If a boy has only a year, say, to spend in a high school, what he needs most is a course of study which will round out and add to the English education he received, or ought to have received, in the public school. Instead of getting that, he is confronted with a time-table which requires him to take five lessons a week in Latin and four in French. These nine periods, together with the time allotted to drill make up one-third of his entire time, leaving him two-thirds only to be divided up among the six or seven other subjects. But the case is even worse than this. So difficult does the beginner find it to master the intricacies of two foreign languages at once that he has to devote at least two-thirds of the time allotted for the study of the study of Latin and French, leaving only about one-third to be devoted to the English side of his education. This is the path that has to be trod by every pupil in our high schools who does not take the commercial course. It is easy to see why our educational system does not have enough of the practical in it.

Our labor unions demand an eight-hour day, while our children pour over their books frequently nine and ten hours a day. Especially is the pressure severe about the ages of eleven to thirteen, when they require all the physical force at their command for bodily development. The heavy pressure brought to bear upon our children before they have matured is to be condemned, is predisposing to nervous disease and too often lays the foundation of invalidism in after years. The immediate effects of buckram activities of our system are evident during examination periods. This brings me to a discussion of one of the most abused factors of the system, the examination. For instance, the High School entrance examination, which, with the exception of children under private instruction, is wholly unnecessary. Is not the teacher who has been in contact with his pupils daily throughout the year in a much better position to judge which of his pupils are fitted to take up the work of the High School than an examiner who knows nothing of the pupil save what is given him through a written paper? Why should not a teacher be permitted to act upon his own judgment in promoting his pupils from the Public School to the High School, as he does in advancing them from one grade to the other in the Public School? If the teachers are dishonest and cannot be trusted to make honest recommendations—a supposition with which I do not agree—then associate the government inspector of schools in an advisory capacity with the principal in making these promotions. The inspector might very easily keep in touch with the entrance classes in his district throughout the

year and thus render valuable assistance to the principal.

Secondly, these examinations are quite expensive. They involve the sending of presiding examiners to different parts of the province, whose travel and hotel expenses, with a per diem allowance, is paid by the government. Paper, ink, pens, pencils, etc., have also to be provided at the public expense. Then some ten or fifteen gentlemen receiving eight or ten dollars a day gather at the education office, and spend about three weeks in reading over the answers which the pupils have given and affixing a value thereto. All this means money—a whole lot of it—and if, as has already been shown, it is unnecessary, then it is money absolutely wasted.

But the most serious objection to these examinations comes from the amount of harm they do. The teacher of an entrance class knows that he must produce results. If he sends up a large class and nearly all of them get through the examination he is commended as a successful teacher, and is perhaps given an increase of salary. If, on the other hand, he sends up a class and only a small number get through he is condemned as a failure, is perhaps removed to an inferior position and is never given a second chance. So the teacher who wants to hold down his job sets himself to work to produce results by every trick and expedient known to the trade. Knowing that it is physically impossible for a child of tender years to master the great mass of stuff given in all of the text books prescribed, he boils down, so to speak, much of the matter in these text books into notes, which he dictates to the pupils, requiring them to write it down, and commit it to memory. In this way he gives to his pupils, wherever this is possible, the substance of many of the text books in homopathic doses. The child is not required to think or reason; but only to memorize. Education, which in its true sense is a drawing out process, becomes really a cramming process, the very opposite of education.

After he has thus filled his pupils with notes condensed from the text books, he then takes all the questions asked at previous examinations during the last eight or ten years and gives to his pupils, wherever this is possible, the substance of many of the text books in homopathic doses. The child is not required to think or reason; but only to memorize. Education, which in its true sense is a drawing out process, becomes really a cramming process, the very opposite of education.

### CIVIC EMPLOYEES.

To the Editor:—You are aware that the wholesale dismissal of city employees has caused a great deal of criticism amongst labor men and taxpayers generally. A great deal of dissatisfaction would have been eliminated if the men had received the proper notice which was due to them (two weeks' notice), which would have given them a chance to make other arrangements. It is poor policy to arouse the ire of a body of intelligent workmen, and it is not to the benefit of the corporation to make a foothold of its faithful employees.

Summary dismissal is all right where negligence is proved, but should not have been resorted to in this case. Some of the men dismissed had only half a day's notice. Such treatment takes away any incentive on the part of the men to take the slightest interest in their work, as they do not know

Lifting The Mortgage The percentage of mortgaged farms is high, and in the case of some the owner looks forward to carrying the debt indefinitely, regardless of the fact that it will likely prove a burden to his old age. If you have a mortgage on your farm, why not let the Canada Life relieve you of the worry connected with it. The Company will undertake to pay it off, either at a certain time in the future, to be arranged by you, or at your death. In any case the mortgage is safely provided for. It cannot trouble your declining years or make the lives of those you leave behind less happy. Your insurance policy will offset the mortgage and will, moreover, prove a profitable investment for you if it is issued by the CANADA LIFE ASSURANCE COMPANY HEISTERMAN, FORMAN & CO. ESTABLISHED 1847 Agents, Victoria. Let us send you our booklet No. 298, explaining the different plans of insurance and telling the story of the Canada Life.

CIVILIAN ARRIVES AT FRISCO EN ROUTE Harrison Liner Will Dock Here Wednesday; Calchas at Kingston. Coming to Victoria and Vancouver from the United Kingdom in the Panama service, the Harrison Direct liner Civilian, Capt. Gaudie, arrived at San Francisco yesterday, where she will discharge a shipment of liquor and olive oil which will be completed tomorrow, and the vessel will proceed direct to Victoria. The Civilian is the largest vessel of the Harrison Direct fleet, having a net register of over 5,000 tons. This is her first visit to North Pacific ports. Local agents of the Harrison fleet anticipate her arrival Wednesday. San Francisco is the second port of call on the Pacific, the first stoppage being at San Pedro. Calchas Spoken. Making her second passage to Victoria in the Panama service from the United Kingdom, the Blue Funnel liner Calchas, Capt. Jones, arrived at Kingston, Jamaica, yesterday, and expected to leave to-day through the Panama canal. She will not steam direct to Victoria, but will make her regular calls at Colon, San Pedro and San Francisco. She is due to arrive here on October 4. Chicago Leaves Shanghai. The Osaka Shosen Kaisha liner Chicago Maru left Shanghai on Thursday bound for Victoria. She is due to arrive here on October 1.

PRINCE GEORGE BRINGS RECRUITS FROM INTERIOR Encountering unusually splendid weather on her passage from Prince Rupert, the G. T. P. ferry-Prince George, Capt. D. Donald, arrived in port last night at 11:30 o'clock and sailed at midnight for Seattle. Included in the passenger list was a party of recruits from the interior for the 6th Western Scottish Regiment. Her total list of passengers was forty-five. At Vancouver the George discharged a cargo of silver lead from the Harris mines, which will be shipped through to Trail, B. C.

NEW TRANS-ATLANTIC SERVICE ESTABLISHED Line Direct Between Vigo and New York Provides Shorter Route. Madrid, Spain, Sept. 11 (via Paris).—Announcement is made here that a new steamship line between Spain and the United States is to be established. The steamers will ply directly between Vigo and New York. It is said King Alfonso, who gives his support to the enterprise, and that it has also received influential backing in New York. The new line will provide a shorter route between the two countries than any now in operation. The distance is 2,888 miles. New York, Sept. 11.—Announcement from Madrid of a projected new steamship line between Vigo and New York, backed by American interests and having the support of King Alfonso, was confirmed here to-day by Secretary Leopold Arnaud, of the Spanish chamber of commerce of New York. The new line, Mr. Arnaud said, is to be operated by an American company, not yet formally organized, which is conducting negotiations with the Spanish government for a subsidy, through the Spanish chamber of commerce. A cablegram received to-day by Mr. Arnaud from King Alfonso's private secretary said the king would recommend the petition, and asked for an approximate amount of the required guarantee. "This line," Mr. Arnaud said, "in all probability will not be ready for business before next year, owing to necessary legislation and organization of chartered ships, but the plans are to eventually replace chartered vessels with a fleet of new ships of 10,000 to 22,000 tons each, equipped for both passenger and cargo."

Seattle, Sept. 11.—The steamer Edison Light, of the West Coast Navigation Company, which recently established service to this port, arrived in Seattle last night from Philadelphia. The Edison Light is a vessel of 2,649 gross tons and 1,699 net tons, 247 feet long, 43.7 feet beam and 23.6 feet depth of hold. She was built at Ashland, O. In 1912. The vessel is being followed to this coast by the steamer Walter D. Noyes.

PRINCE ALBERT WILL TIE UP FOR WINTER The fact that freight movements to the northern ports during the winter months are very light the Grand Trunk Pacific have decided to tie up the Prince Albert until the spring. Yesterday the officials announced their intention of placing the vessel on the northern run immediately, but at the last moment they came to the conclusion that the Honietta could handle the light freight shipments for the winter season, and that the Albert would be placed in service in the spring. Capt. Nicholson, manager of the Grand Trunk steamer, has just returned from the south, having gone from Vancouver to bring the Prince Albert north, despite of the splendid inducement by southern concerns to charter the Albert for a three months' period for service between California and Mexican ports the official refuses to grant the charter.

STATES SECOND AMONG THE MARITIME POWERS Washington, Sept. 11.—The European war has placed the United States second among the maritime nations of the world. Acting Secretary Sweet of the department of commerce, in announcing that the American merchant marine now is second only to that of Great Britain, pointed out to-day that the increase might not be permanent. The total of American merchant shipping on June 30, according to to-day's announcement, was 25,577 vessels of \$2,119,485 tons, an increase of 390,798 gross tons during the year. A decrease of 366 in the number of ships was explained to be due to the greater size of modern vessels. "The total merchant tonnage of the United States," said Mr. Sweet, "is exceeded only by the merchant shipping under the British flag, which is approximately 21,275,000 tons. The figures, however, include foreign coastwise, lake and river traffic." ALBERT FOR NORTH. The G. T. P. steamer Prince Albert, which has just returned north after plying in the service between California and Mexican ports, left Vancouver yesterday for northern ports. She will be used as an exclusive freighter. Capt. Nicholson refused to grant an additional three month's charter to the southern company. JAPANESE VESSEL COMING. Vancouver, Sept. 11.—The Japanese steamer Saiki Maru, under charter to Frank Waterhouse & Co., is due to arrive here Monday with a cargo of gunnies from Yokohama. She will load a cargo here for Vladivostok and shift to the sound to complete her cargo. She is due to sail outward on September 25.

SATURDAY MARKET To-day's market opened very briskly, with a good demand for eggs, chickens and fruit. Tomatoes were very plentiful, outdoor fetching 2c a pound and hot-house 2c to 4c per lb. Venison was rather scarce. To-day's market prices were: Fruit—Apples, No. 1, 90c; No. 2, 70c; pears, 2c per lb.; prunes, 40c to 60c per crate; strawberries, 15c per box, and 2 boxes for 25c; crab apples, 10 lbs. for 25c. Dairy produce—Butter, 40c per lb.; eggs, 40c to 45c per doz. Vegetables—Tomatoes, 2c per lb. to 4c per lb.; cauliflower, 2 for 5c; celery, 2 for 5c; cabbage, 2 for 5c; beans, 2 lbs. for 10c; turnip, 7 for 5c; corn, 10c per doz.; onions, 2 for 5c; marrow, 2 for 5c. Meats—Venison, 15c to 20c per lb.; lamb, 18c to 25c per lb.; beef, 10c to 22c per lb.; pork, 14c to 17c per lb.; fowl, 16c to 18c per lb.; broilers, 20c per lb.; milk fed, 23c to 25c per lb. Fish—Halibut, 10c per lb.; cod, 7c to 10c per lb.; fillets, 15c per lb.; bloater, 10c per lb.; kippers, 10c to 12 1/2c per lb.; white spring salmon, 8c per lb.; red spring, 12 1/2c per lb.; smelts, 10c per lb.; fresh herring, 3 lbs. for 25c.

LOCAL NEWS Red Cross Concert.—A Red Cross concert will be given at the Avenue theatre, Oak Bay, on Tuesday evening. Centennial Men's Bible Class.—The regular session of the Centennial Men's Bible class will be held in the church parlor, to-morrow afternoon at 2.30. The lesson will be taken by F. Burridge. Rockland Park W. C. T. U.—A meeting of this union will be held at the home of Mrs. Wilson, 1523 Hillside avenue, on Monday afternoon next at 2 o'clock. This meeting takes the form of a choir tea and all ladies interested in prohibition are cordially invited to be present. "A Bad Wife."—To-morrow evening, at First Presbyterian church, Rev. J. G. Inkster will preach from the topic: "A Bad Wife: Lessons From the Life of Ahab and Jezebel." The morning service will be a communion service, and Rev. DANIEL McLean, of Prince Edward Island, will assist. Liberal Ward Executive Meetings.—Commencing Monday each of the five wards will hold meetings of the executive committees at the Liberal headquarters, June block, Cormorant street. All Liberal workers are invited to attend the meetings of their district bodies, which are timed as follows: Ward I, Monday; Ward II, Tuesday; Ward III, Wednesday; Ward IV, Thursday; Ward V, Friday.

HER DREAMS CAME TRUE Life Unbearable From Indigestion Health Restored by "Fruit-a-tives" MELLE, C. GAUDREAU "Rochon, P. Q., Jan. 14, 1915. "I suffered for many years with terrible indigestion and constipation. I became thin and miserable. I had frequent dizzy spells and became so run down that I never thought I would get well again. "A neighbor advised me to try 'Fruit-a-tives.' I did so and to the surprise of my doctor, I began to improve and he advised me to go on with 'Fruit-a-tives.' I continued this medicine and all my indigestion and constipation was relieved. I consider that I owe my life to 'Fruit-a-tives' and I want to say to those who suffer from indigestion, constipation or headaches, try 'Fruit-a-tives.' Give this lovely fruit medicine a fair chance and you will get well the same as I did. "CORINE GAUDREAU "50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

ORPHANS' HOME Business Meeting of Ladies' Committee; Donations During August. The business meeting of the ladies' committee of the Protestant Orphanage was held at the home of the president, Mrs. McTavish, presiding, and the following members attending: Mesdames McCulloch, Higgins, Miller, Todd, Munroe, Huckel, Baird, Langley, Cameron, Stewart, Scowcroft and the Misses Tolmie and Metcalfe. The house committee reported all departments in the home in smooth running order and the general health of the children good. Three had been admitted during the month, making a total of 57 now in the institution. Mr. and Mrs. Andrew Wright had entertained the children at their home in Uplands on Aug. 17, conveying them in motor cars and providing a bountiful mid-day meal and refreshments during the afternoon. Games and sports on the beach added to the pleasure of the day, which will long remain a happy memory to the fortunate little guests. A hearty vote of thanks was accorded Mr. and Mrs. Wright by the committee for their generous hospitality. Bills amounting to 202.08 were ordered to be paid. Mrs. Huckel and Miss Tolmie appointed visitors, and after reading the donation list the meeting adjourned. The following donations are gratefully acknowledged: 100 pounds sugar, "lovelydale" vegetables and fruit, Thos. Ellis, Mr. Dunnett, Mrs. Otto Weller, Geo. Jay, school, H. M. Ozard, Miss Glendonning, Mrs. Shotholt, Mr. Borden, Mr. Grierson, A. R. Todd, Mrs. Luney, Mrs. McCulloch; tea, coffee, cocoa and baking powder, the Jameson Coffee company; venison, Mr. Mellor; 100 pounds salmon, Chief Langley and Walter Shotholt; preserves, Mrs. Flumerfelt; 100 tickets to theatre, Mr. Justice Irving; 50 tickets to theatre, Mrs. J. D. Pemberton; Times and Colonist; professional services, Dr. Bryant, Dr. Lewis Hall.

DETECTIVE BURNS. Head of Well Known Agency Visited Victoria. A national celebrity arrived in the city a few days ago in the person of Wm. J. Burns, head of the Burns Detective Agency, whose record as a successful investigator of many mysterious crimes including political corruption is well known to the average reader. Mr. Burns was in the city for a few hours during which it is reported, he visited the parliament buildings, whose beautiful grounds and comfortable, bright and spacious interior must have impressed him very much. The report does not say whether he carried a dictagraph on his person or took away a volume of the public accounts as a souvenir. Pressure of time did not permit him to take in the sights of the city and its environs including the two submarines. ARION CLUB SEASON. The Arion club will open its twenty-fourth season on Monday evening by holding its first rehearsal at the clubrooms, corner of Government and Broughton streets, commencing at 8 p. m. Several members have enlisted and have left for the front, and others are preparing to go. One old member who used to sing with the Arion club, W. L. Pilkington, has already given his life for his country. To fill vacancies caused by this levy the club will be glad to receive the names of a few gentlemen who possess good voices, and who have love for music and its advancement. Application should be made to the Honorable conductor, E. Howard Russell, or to the honorable secretary, Francis P. Fatt, 691 Trutch street.

## V. A. C. WILL HANG ONTO MANN CUP; WINNIPEG ENTHUSIAST OFFERS NEW TROPHY

### Westminster Claims Coast Honors Though League Will Be Called Upon to Decide Title

A prominent Winnipeg lacrosse enthusiast has offered to donate a trophy for competition among the amateur clubs of the Dominion and that this cup, if the offer is accepted, will take the place of the Mann cup. If this is the case, it will be necessary to hand the new cup to New Westminster to defend, as the Royals have clearly demonstrated their superiority over other coast teams and out here we play the best brand of lacrosse on the calendar.

Ed. Christopher, president of the Victoria Lacrosse club, stated to the Times this morning that the locals will appeal to the Pacific Coast Amateur Lacrosse association for a decision with regard to Westminster's refusal to play their schedule game here on Labor day. The Victoria club have lost only two games to the Royals, and still have a chance for the Mann cup.

The Westminster officials agreed to play here on Labor day, if the Victoria club would back up this arrangement to have the schedule played out. Vancouver now hold the mug and it is just possible that they will continue to do so, as the Royals, by not completing their schedule, have not earned a clear title to the silverware.

New Westminster, Sept. 11.—Lacrosse both amateur and professional, is over for the season, with New Westminster in possession of both championships. Tommy Gifford, manager

of the New Westminster senior amateur champions, informed the Times yesterday that the players have hung their sticks for the season, but will be ready for all comers next season.

There is a movement to do something to demonstrate that the citizens generally have not altogether forgotten what a splendid advertising medium for the world's title in lacrosse is and lockets suitably inscribed, may be presented to the youngsters in the near future.

Manager Gifford, states in connection with the report, that Victoria will protest against the failure of the Royals to play on Labor day. He said that the Victoria officials informed him that they would be unable to guarantee any expenses, and for this reason the match was cancelled.

Vancouver World View.

It is so that New Westminster cancelled the Mann cup match at Victoria without securing the consent of the officials might better suspend operations for the remainder of the season. The schedule has been juggled altogether too much and the league might just as well place the cup on the shelf and forget all about it until next season.

While lacrosse at the coast has not been the success of former years, the crowds have been fairly large, and Con. Jones will go ahead next season trying to get a team together to defeat Westminster.

Clifford Spring, the Toronto captain of last year, is second in the list of scorers at the coast, getting 18 goals in eleven games. His brother "Grumpy" is the leader with 23 in the same number of games.

## RETURNS TO WESTS

JOHNNY PEDEN Well known veteran soccer player, who will probably be seen in a Victoria West uniform this season; Peden is one of the cleverest soccer stars in the capital.

## JIMMIE HEWITT IS PHYSICAL DIRECTOR

### Western Scottish Adopt Modern Training Methods; Terminal City Athletes Respond

Col. Lorne Ross, of the Western Scottish, is certainly employing unique methods in whipping his 6th Battalion into shape at the Willows. Jimmie Hewitt, formerly sporting editor of the Vancouver Province and now a private in the Western Scottish, has been placed in charge of the physical culture work of No. 1 company, and it is understood that the Scottish will undergo a severe course of instruction in the Swedish movements.

Hewitt, who is one of the best-known sporting figures on the coast, joined as a private rather than being appointed in waiting for a commission. He is very enthusiastic. He has referred most of the important rights around Vancouver for years and is a Toronto boy, at one time holding the Canadian bantamweight championship.

Seven Vancouver carmen are commission officers of the 72nd Battalion, now being recruited here for service at the front, while ten or twelve well-known scullers have taken their places in the ranks. A list compiled last night by the officials of the Vancouver Rowing club shows that nearly one hundred members have enlisted since the outbreak of the war.

The following well-known scullers hold commissions in the 72nd Battalion: Lieut.-Col. J. A. Clark, Captains J. H. Sweet, A. V. Wood; Lieutenants R. K. Johnston, F. G. Colquhoun, J. F. Mealey, T. D. M. Christie.

Bomber Cameron is the latest member of the V. R. C. to join the colors. He has played full-back for the Oarsmen and for the Vancouver "rep" team in Rugby matches.

The Crusader Rugby Football club of Vancouver, has set a record of which any organization might well be proud, every active member having enlisted for service at the front, and already three members have fallen in battle while several have been wounded.

Capt. F. J. S. Murray, acting adjutant of the 72nd Highland Battalion, now being recruited in Vancouver, has furnished the World with the list of players now on active service, as follows: A. P. Baker, W. B. Baker, P. R. Margretson (wounded), A. Savage, F. Leggett, R. T. S. Eads, McRoberts, A. T. Catt (killed), Wellesley (died), Bourne (wounded), T. H. Bell, E. S. Bullen, E. Lockington, F. S. Murray, O. Fyson (died), J. L. M. Spicers (prisoner in Germany), Cream (killed).

H. T. Gardner, secretary of the Vancouver Golf and Country club, left last night for the Old Country, where he will enlist with the Royal Naval forces. He was given a big send-off by the members of the club. At a recent complimentary dinner held at the club house at Burquitlam, the popular secretary was presented with a handsome gold wrist watch suitably inscribed, the gift of the members of the club. Gardner is one of the best known golfers in the northwest, and was a member of the champion northwest team in 1913 and 1914. Mr. Winbrals succeeds him as secretary of the Vancouver club.

## BROWN DECIDES TO SUSPEND TERRITORY

### Dugdale Will Have Trouble Breaking Into Coast League; Spokane Wanted by A. A.

According to a Vancouver sporting enthusiast who passed through the city yesterday, it is an absolute certainty that should the war continue next summer Bob Brown will transfer his club to another town or ask for a suspension of that territory.

The financing of Brown's Beavers this season has been a tremendous problem, and he has had to sell his players for whatever was offered.

The Beaver president has had to contend with a baseball strike. In addition that knocked him out of all chances for the pennant, and has decided to drop out of the game for a year, rather than face another season such as 1915.

Portland, Sept. 11.—The present row in Northwestern-league circles is causing quite a little amusement here, especially when one D. E. Dugdale, who has long posed as the dictator of the Northwestern league, is getting the worst of it.

Dug, who owns the Seattle franchise, is being quoted as willing to put Seattle in the Coast league next year, in return for the alleged attempts of the three others to "lock" him out of his chances of winning the pennant this year.

All well and good. But Dug doesn't need to think that the class AA magnates are going to welcome him into the fold with open arms. There is considerable red tape to be gone through with before such a move is accomplished, and Spokane would probably be the other town taken in to make up the eight clubs.

In the first place, the Coast league would never agree to take over this territory if it had to pay for the right, under present conditions, and Seattle couldn't get out of the league unless by consent of the other club owners, under the rules of organization.

It is no secret that the Coast magnates don't like Dugdale, either, and it would probably mean that some other man would have to be at the head of the club before the circuit was enlarged.

Dugdale may make all the threats he likes, but he knows, something that the general public does not, that to make a threat to enter class AA circles and to accomplish it, are two different things. He may win the pennant this year, in spite of the opposition which has been developed, but this doesn't mean that he can do what he pleases with the Seattle franchise, regardless of the rights of the other members of the circuit.

## LATEST AVERAGES OF NORTHWESTERN

Ted Kaylor is again setting the pace in the Northwestern, the former Victoria star clouting the ball at a .341 clip. Jack Smith is the leading base stealer, while Ira Colwell is leading the twirlers. The latest averages are as follows:

At Los Angeles—San Francisco, 6; Los Angeles, 7.

## ANNUAL PICNIC AT DEEP COVE PROVES A HUGE SUCCESS

The Ballermakers, Iron Shipbuilders and Helpers, Local 191, Victoria, had a very enjoyable picnic to Deep Cove on Labor day. It was to be an annual event, and a splendid programme of sports was carried out. The principal events were baseball, football, tug of war, and 100 yards foot race for the championship of the local.

The baseball and tug of war went to the helpers. The 100 yards to Percy Peters, a riveter, and the football game was declared a tie after 10 minutes overtime. Everybody enjoyed themselves to the utmost, and special credit is due the committee which had the arrangements in hand, for the efficient manner in which the transportation, programme of sports, prizes, etc., was arranged, and also for the pleasant way in which they looked after the welfare of the wives and children of the members and their friends.

Thanks are given the following merchants for donations to the prize list: J. Kingham, Burridge Mercantile Co., Peden, Bros., Delhi hotel, Northern hotel, Thos. Gough, F. Leroy, King Edward hotel, McKinnon & Sons, Rock Bay hotel, A. L. Brinton, Acton Bros., J. Day, Paterson & Dorman, Metropoulos hotel, Maxwood grocery, Cloverdale grocery, J. Rose, Western Supply Co., Beaumont grocery, Esquimalt Meat Market, Esquimalt Hardware, Esquimalt Candy & Cigar store, H. Brown, J. Stewart, Two Jacks Store.

No less than four Montreal International league players have graduated this season.

Eastern rugby teams will again organize, but with a reduced schedule.

## "Lined Up" For Sport

# Remington-UMC

### Repeating Rifles

You're ready for emergencies with a Remington-UMC Repeating Rifle. Six to 15 shots—with speed and accuracy that only World-Standard Arms can insure. Clean cut lines—perfect balance—light weight—and rapid action are the outstanding features of Remington-UMC Rifles.

## PRESIDENT SUSPENDER

NONE SO EASY

MADE IN CANADA

Greis Dunn, 6-1, 4-6, 6-2. Marjorie Leeming beat Bettie Gray, 6-1, 6-0. Kathleen Wilson beat Mona Miller, 6-1, 6-0. Kathleen Muir beat Minnie Matthews, 6-1, 6-4.

Boys Under 16.

First round—F. Sproule beat V. McKinnon, 6-1, 2-6, 7-5. A. J. Helmecken beat D. B. Hudson, 6-3, 8-6.

Games for To-day.

At 2.30, boys' final—F. Sproule plays A. J. Helmecken.

At 2.30—Miss B. Robertson plays Miss Leeming. Miss K. Wilson plays Miss K. Muir. Winners of above girls matches to play off in final.

CALL OFF RACE.

St. Paul, Minn., Sept. 11.—The proposed 100-mile automobile race on the new Twin City Motor Speedway set for next Sunday has been called off. It was officially announced yesterday. Four drivers, Darlo Resto, "Bob" Burman, Ralph de Palma and Eddie O'Donnell, were to have taken part in the race.

## EASTERN LEAGUE WILL CARRY OUT SEASON'S SCHEDULE

Montreal, Sept. 10.—The inter-provincial "Big Four" football union will carry out its schedule this fall, as usual, the decisions reached at the last meeting of the union held in Toronto last Friday are carried out.

At the meeting, the Hamilton and Ottawa representatives were in favor of playing the schedule. Argonauts of Toronto were against a schedule. The Montreal club asked time to consider and the question was postponed in their favor. At a meeting in the M. A. A. clubhouse a decision was reached to play the schedule, and the secretary of the Big Four was advised of the decision.

The schedule announced which has yet to be formally ratified, will be as follows:

October 5.—Hamilton at Argonauts; Ottawa at Montreal.

October 16.—Argonauts at Hamilton; Montreal at Ottawa.

October 23.—Hamilton at Montreal; Ottawa at Argonauts.

October 29.—Argonauts at Montreal; Hamilton at Ottawa.

November 6.—Argonauts at Ottawa; Montreal at Hamilton.

November 13.—Ottawa at Hamilton; Montreal at Argonauts.

## MURPHY'S DRIVING IS FEATURE OF CIRCUIT RACING

Hartford, Conn., Sept. 11.—Tommy Murphy had another big day in the final afternoon's card of racing at the grand circuit meeting at Charter Oak park. He captured two firsts and one second in the three races on the programme, after clearing up the card yesterday.

For the first time since Murphy bought the bay mare Lulu Lumine at a reported price of \$12,500 almost two years ago, he managed to pilot her to a win, capturing the 2 1/2 trot in straight heats, with Earl Wood, Jr. second in each distance. He also won the 2 1/2 trot with Tramp Wright in straight heats, while Walter Cox took the third race, the 2 1/4 pace, with Canella; Hal S., driven by Murphy, taking second money.

Despite the fact that all three races went in straight heats, the larger fields, so different from the earlier days of the week, made all of the races interesting, as there were numerous challengers for the lead in each heat. Summary:

2 1/2 trot, best three in five, purse \$2,000: Lulu Lumine, b. m., by Orator.

Murphy's drivers: 1, 1; Earl Wood, Jr. (strayes) 2, 2; Bronson, Jr. (strayes) 3, 3.

Victor Star, Baron Aberdeen, Adell M. Parelloff and Nathan Axworthy also started.

Time—2:04, 2:04, 2:04.

2 1/4 pace, best three in five, purse \$2,000: Canella, br. m., by Cummer.

(Cox) 1, 1; Hal S., r. g. (Murphy) 2, 2; Budd-Elliott, br. g. (Geers) 3, 3.

Baby Bertha, Altwood and Bligen Pointner also started.

Time—2:04, 2:06, 2:07.

2 1/2 trot, best three in five, purse \$1,000: Tramp Wright, b. h., by Tramp.

East (Murphy) 1, 1; Kitty L. Bell, b. m. (Rodney) 2, 2; Almah, br. m. (Carpenter) 3, 3.

Audrey Grey, Glinger Boy, Vallette, Princess Neida, Ashbrook and Lucy Reynolds also started.

Time—2:10, 2:09, 2:09.

## GIANTS GO INTO TWO GAME LEAD

Seattle, Sept. 11.—Seattle tightened chances on the pennant in the Northwestern league race yesterday by defeating Vancouver four to three. The locals were hit hard in the first inning.

Score—H. H. E. Seattle 4 8 4; Vancouver 3 5 2.

Batters—Clark and Cadman; Smith and Cheek

TO RENT—4 roomed cottage, furnished, Cadboro Bay. Apply 1212 Jubilee St. Apply 1212 Jubilee St.

WILL HOLD LETTERS BACK FOR PRESENT

Demand Made for Publication of Correspondence on Recent Civic Dismissals

A demand for the publication of the correspondence which led to the dismissals of many city workmen—recently was voiced by A. D. Okell at the meeting of the streets committee of the city council yesterday afternoon.

The mayor objected to this course till after the investigating committee had completed its work next week. The subject came up in a clause of the engineer's report as follows: "A question also arises whether it is the degree of the council to lay off house holders (at the present time) who have been working steadily, and replace them with marred property owners. As Esquimalt and Saanich are paying a portion of the cost of this work, they may object to the work being carried out on other than strictly efficient and economical methods."

The aldermen indicated a wish that the engineer should not act on the suggestion at present, leaving matters in the present status.

Ald. Okell asked: "Has the engineer been instructed to get rid of householders?" The engineer answered in the affirmative and the mayor and Ald. Porter.

Mr. Rust: "By whom were you instructed?" Ald. Okell: "I do not think that the council should take the blame for certain things which have been done. The letter before the committee should be published, and I think also the letter from the city engineer to Mr. Owens, the street superintendent, who has exceeded his duty, and has gone further than he was instructed by the engineer."

Apparently the street superintendent had gone further, he said, for they had heard of the dismissal of 28 men, all married and householders, who had been fired instantly, and replaced with other men. No instructions had come from the council on this matter.

"The sooner the city is without Mr. Owens the better," he concluded. Ald. Fullerton referred to the criticism of the action of the council by Ald. Okell and said he had been dismissed who had been injured in the service of the city. He never was any intention to introduce wholesale dismissals. He, too, favored the publication of the correspondence.

The mayor raised an objection to publication till the whole of the investigation was in the hands of the committee. His worship desired to contradict some statements which had been given wide publicity, that for instance, which asserted that married men had been dismissed in a wholesale manner and single men put in their places. The investigation showed that but two of three single men had been so engaged. Ald. Sargent submitted that the action was in keeping with similar incidents in the excessive charge for high school tuition fees, which had been done by individuals without reference to the council. He deprecated the course as one which must lead to the alienation of some of the acts of which they were innocent.

A resolution was then adopted to suspend action on the northwest sewer work, so far as interfering with existing employees is concerned. The investigating committee continues its inquiry on Tuesday afternoon into the cases of the dismissals.

ON RECRUITING TRIP

Major Macdonnell, Second in Command of Pioneers Corps, Makes Tour Up Island.

With the object of obtaining recruits for the 1st Canadian Corps, of Pioneers, Major Macdonnell, second in command of that unit, left Thursday for a tour which will take him through the more populous districts of Vancouver Island. Dr. Murphy, of the Army Medical Corps, accompanied him, in order to facilitate matters by giving applicants the necessary medical examination.

Port Alberni, Alberni, Parksville, Comox, Courtenay, Campbell River, Nanaimo, Chemainus, Ladysmith, Duncan, and Cobble Hill will all be visited, and every opportunity possible within the time he gives men possessing the necessary qualifications to apply.

Once the Island is thoroughly worked over the same measure for securing recruits will be adopted with respect to the mainland, and it is hoped within a very short time that the quota due from British Columbia will be enrolled. The officers in training at the newly opened Royal School of Instruction for lieutenants were busy yesterday at Work Point barracks in connection with the course on field gunnery. Major Verasturme-Bunbury has charge of the course, and within six weeks an excellent number of subalterns should be turned out.

NOTICE

In the Matter of the Estate of Isabella Graham, Deceased, Late of Victoria, in the Province of British Columbia. TAKE NOTICE that all persons having any claim against Isabella Graham, who died at the City of Victoria on the 22nd day of July, 1915, are requested to send in the same, duly verified, to the undersigned before the 1st day of October, 1915. **ST. LOUIS COLLEGE**  
**UNDER NEW DIRECTION**

**Christian Brothers Now Reorganizing Catholic School; Commercial Course**

Old St. Louis college, one of the pioneer schools of Victoria, is to have a new lease of life. The institution opened its autumn term this week under entirely new direction, that of the Christian Brothers, whose headquarters are at Marino, Dublin.

Brother Ryan, who is the superior, comes to the task equipped with years of experience in organizing and teaching, for twenty-three years having been associated with St. Patrick's college, Newfoundland. It is Brother Ryan's ambition to model the work of the school here along the lines of the bigger institution with which he has so recently been associated, and in the course of time it is possible that St. Louis college will come to occupy as leading a place among the educational establishments of this province as the Newfoundland institution does there.

Two other members of the Christian Brotherhood have been sent to Victoria with Brother Ryan to carry on the work. One is Brother Murphy, also recently associated with St. Patrick's college, Newfoundland; and Brother Fitzgerald, who has been teaching for the past three years at Sygma street school, Dublin.

It is interesting to note that Victoria and Halifax are the only cities in Canada where the Christian Brothers have taken over educational work, this being the fundamental purpose of the order. The home of the order is at Marino, and owing to the fact that all arrangements as to the movements of the Brothers are made entirely through headquarters, it was not known here until the actual arrival of the superior and his assistants that they had not all come direct from the Old Country.

Something of the dimensions of the work carried on under the Christian Brothers in Newfoundland was told in a recent report by the superior, Brother Ryan, who for nine years was connected with St. Patrick's college, St. Johns, was superior of that and the sister establishment, the Academy of the Holy Cross. These two institutions combined had an enrolment of about 1100 students, while a third institution, under the direction of a separate superior, was also under the control of the Christian Brothers. This last is St. Bonaventure's college, also at St. Johns.

Because it is to serve as a model, as far as possible, for the school now being organized here, St. Patrick's college is perhaps of most interest. The Christian Brothers have an educational system of their own, which has even been reported by the superior to be superior to the public schools. It is sufficient elasticity in meeting requirements, however, to permit the adoption of any change considered wise. And Brother Ryan has decided that students at St. Louis college shall use the readers in use at the public schools. This is a concession to the opinion of the local department, for it is noteworthy that in all their educational undertakings the Christian Brothers study very closely the standards made by the latter authorities, and model their course of training accordingly. As a consequence they are always prepared to send pupils up for entrance and McGill examinations.

But in preparing his course the Brother Superior has paid particularly close attention to the demands of the business men. This has meant giving important place to commercial work in the curriculum, and special stress is laid on preparing students with some form of practical business training.

"In the twenty-three years during which I was associated with St. Patrick's school," says Brother Ryan, "I have seen many a young man who was not able to get a position. Not a week passed but applications came in from all over the city from merchants who had openings for boys. One of the best tributes ever paid to our shorthand method alone was from the supervisor of debates in the House of Assembly at St. Johns. One of our boys, only thirteen years of age, was sent up one year as official reporter to the house. I asked the supervisor how he was doing the work. 'Splendidly,' he said. 'A member cannot cough but the boy takes note of it.'"

Commercial work would certainly seem to be a very important part of most boys' training in a country which is fundamentally the home of the practical man. But due allowance is made for those who wish to pursue the professions. At St. Johns the college course provided for students preparing for the church and for law. Every year four or five matriculated for London university or other of the bigger educational institutions.

The Christian Brothers, of whom there are thirty-two in St. Johns, were first brought to Newfoundland by the Benevolent Irish society, an association founded one hundred and thirty years ago. This organization built, at an expenditure of one hundred thousand dollars, a large college fully equipped as a home for a school. They have given the undertaking their constant support since then, and recently passed a resolution commending with regret on the pending departure of Brother Ryan after his many years' association with the college there.

A second expression of appreciation of his labors as teacher and organizer was given on the eve of his resignation. This was from ex-pupils of 193-99 of St. Patrick's Hall schools, who made the presentation at St. St. Francis Monastery just before Brother Ryan left for Victoria. The testimony, coming from men now prominent in the business life of the city, was much appreciated, needless to say.

The Christian Brothers have entered on their work here with pleasure, and

**RED CROSS SOCIETY**  
**WEEKLY REPORT**

**Donations for Patriotic Work is Gratefully Acknowledged**

The following is the report of the Victoria and District Branch of the Canadian Red Cross society, September 3 to September 9:

The local branch of the C. R. C. S. has received further most acceptable donations during the past week as follows: Colwood Woman's Institute (per Mrs. Clements), \$23.25; Cowichan (per Mrs. Lawson), \$10.00; Victoria Lawn Tennis (per G. L. Foulkes), \$23.65; collected at band concert, September 3, \$160.63; Red and Blue Cross Flower Guild, \$78.46; collection boxes throughout the city: \$50.02; Hon. E. L. Westmore, \$25; Mr. and Mrs. Neame, \$2; Sidney Y. Head, \$10; Miss J. W. Meyers (monthly), \$5; Mr. Little (monthly), \$10; Miss S. M. Thornton (by sales), \$5.20; Mrs. Howard, \$1; Mrs. L. Beard (Saskatoon), \$1; M. F. \$2.50; Anonymous, \$2; Friend, \$5; 'Everymonth', \$1; by sales, \$10.65; Miss Muriel Dunsmuir, \$50 (per Mrs. P. N. Welch, Langford branch); Miss M. J. McCall, \$2; William Head Quarantine Station (per Dr. Brown), \$50; raffie of a lamb donated by Jas. McPherson, William Head, \$25.50; Mrs. D. Y. Abner, \$25.

Supplies have been maintained by the following contributors: The 'Lady Douglas' chapter, I. O. D. E., 24 handkerchiefs; the 'Agnes Deans Cameron' chapter, I. O. D. E., 40 pairs sock, 1 pair mitts, 10 hospital shirts; the Red Cross Helpers of Seattle, per Mrs. Coddington, 28 dozen gauze compresses, 17 handkerchiefs, safety pins, old linen; Young People of St. Barnabas, and Mrs. E. Kermond, face cloths; Mrs. Bowron and Mrs. Seabrooke Young, lavender bags; Miss Lillian Haggerty, one bolt of flannel; Mrs. Goodacre, 13 surgical shirts; Mrs. Richards, handkerchiefs; Sewing club, Order of the Eastern Star, 20 face cloths, 13 triangular, 6 chest and 30 roller handkerchiefs, 5 day and 3 flannel shirts; Mrs. Neame, roller bandages; Mrs. E. Barnes, towels and sheets; 1 album of photos of British Columbia scenery from W. Howard Chapman, which will be forwarded to one of the larger Canadian hospitals; 1 prize vegetable marrow from Mrs. W. Thom, Oaklands; A. E. Harris, plants.

Stocks were received from the A. D. C. Chapter I. O. D. E., Mrs. Goodacre, Mrs. P. S. Macdonald, Mrs. S. F. Morley, Mrs. Walton, Mrs. Macrae, Miss Fullerton (Kelowna, B. C.), Mrs. H. A. S. Morley and Mrs. King, Mount Tolmie; 126 beautiful shirts from Messrs. Turner Beeton; refreshments from the 'White Lunch,' and 100 boxes from Mr. Thos. Pegg. Eighteen cases of supplies have been forwarded to headquarters.

The Auxiliary work room, corner of Fort and Wharf, will be open on Monday and Tuesday in next week, September 13 and 14, for the regular service, and on Wednesday and Thursday for jam shower. The jam received on Wednesday and Thursday will be devoted to packing what promises to be a very large contribution of this welcome 'extra ration' for our men. The services of expert packers will be required, and an appeal is hereby made to men for voluntary help on this behalf.

The committee specially in charge of surgical dressings and supplies thank Dr. Hudson for much help and advice given in this department.

The annual meeting of the local branch—C. R. C. S.—will be held on Thursday, September 23rd, in the ballroom at the Empress hotel at 8 p.m., when a full report of the work accomplished to date will be rendered, and a discussion of future activities invited. All members and friends are earnestly asked to give their presence and support on the occasion. The nation is still at a great crisis the officers pointed out, and there must be no vacant place in any rank of service. All must wake, watch and 'carry on.'

**DEVOTION TO DUTY**  
**REALLY REMARKABLE**

**Officer of Merchantile Marine Who Was at Dardanelles Speaks Highly of Men**

Interesting information regarding the gigantic task which the allies have undertaken in forcing the Dardanelles and of the splendid morale of the soldiers and the devotion and self-sacrifice of the sailors who are engaged in trying to bring this historic attack to ultimate victory, is brought to this city by an officer of the British mercantile fleet, who for some time past has been serving on a transport.

This officer was at one of the points of concentration just prior to the launching of the first landing party on the Gallipoli peninsula. In the harbor there were about 70 transports awaiting orders and many warships were coaling and taking on ammunition and supplies in preparation for the operations. The great squadron of troops, ships and men-of-war moved to another base nearer the scene of operations, and at a specified time the assault commenced.

The battleships stood off and discharged their broadsides, and small warships, a little closer in, were darting about with great speed and hurling tons of metal at the barb wire entanglements and other fortifications. Under this terrific cannonade the steamship River Clyde was run ashore, and then as if by magic her decks became alive with soldiers. Barges were carried together and on these the brave troops rushed towards the shore. The Turks moved the advancing party down without mercy. But the Australian, New Zealand and old country troops were undismayed, and into the hell of fire men rushed. Hundreds landed and across the beach and up steep and uneven cliffs to the entanglements the brave boys advanced. After a terrible battle, in which their losses were very heavy, the British planted their flag and were firmly established to pursue their attack on the Turkish fortifications.

During the naval operations against the peninsula, as has been already told in press dispatches, the allies lost several ships and others were seriously damaged. One of the battleships was twice struck by mines. One struck her in the bows and made a great gap. The signal was given from the bridge to close the watertight doors. In carrying out this operation 46 blue-jackets sacrificed their lives. As soon as the order was given it was executed. If there had been a pause until the men had reached other compartments and so been safe, it might have caused the loss of the ship. By their devotion to duty they shut themselves up in a death-trap and the rifling waters snuffed out their brave lives.

The warship was found to be in need of immediate repairs. The nearest drydock that would accommodate her was 700 miles away. If the ship steamed ahead there was a great likelihood that the increased water pressure against the bulkheads would cause them to give way, resulting in the loss of the vessel. A voyage was undertaken with the ship steaming stern first. This was probably the first occasion in the history of naval warfare where a ship was so navigated for so great a distance. She arrived at her destination safely and has been repaired, as a matter of fact outspeeding a steam collier that was travelling between the same ports.

Brennan Case.—Further evidence was heard in the Brennan stabbing case this morning and a further remand to Saturday next when Addison, the injured man, is expected to be out of hospital.

**OLD RESIDENT CALLED.**

**Donald Grant, Who Came to Coast in 1879, Succumbs to Illness.**

An old resident, who has made his home in Victoria for close on thirty-five years, passed away at the family home, 462 Hillside avenue, yesterday. This was Donald Grant, a well-known citizen, who succumbed at the age of 68 to an illness which first showed serious symptoms about four months ago.

A native of 'The Gore,' Hants county, Nova Scotia, the late Mr. Grant was educated in his native province, and for some years worked as a shipwright. In 1879 he came out to the Pacific Coast, making his way to British Columbia by way of San Francisco. For many years he was employed in building bridges on the C. P. R. between Yale and Donald. For the past thirty years he worked periodically for the Canadian Pacific railway and the C. P. R. coast service, until severe illness about four years ago forced him to retire.

A member of the order of Masons, the funeral, which is to be held at 2.30 on Monday afternoon from the residence, Hillside avenue, will be under the auspices of that body. Mr. Grant was also a member of the Odd Fellows, of the A. O. U. W., and of the Woodmen of the World.

Besides his widow, he is survived by a married daughter, Mrs. Ruby Bird, whose husband, A. H. Bird, has been connected for the past twelve years with the C. P. R. coast service.

**OBITUARY RECORD**

The funeral of the late Peter Fisher, which took place yesterday afternoon from the Sands funeral chapel, was attended by about 300 of the deceased man's friends, a very large proportion being members of the Order of Eagles. The services were conducted by Rev. J. B. Warnick, under the auspices of the Longshoremen's Union and Aerle No. 12, Fraternal Order of Eagles. Among the floral tributes was a big anchor from the Longshoremen's Union, a wreath from Aerle No. 12, Fraternal Order of Eagles; a wreath from the Trades and Labor Union, and a wreath from friends at the Strand Hotel. The pallbearers were: T. Leslie, E. A. Moore, J. McQueen (Longshoremen's Union), and A. G. Jacques, S. Johnson and James Lassen (Fraternal Order of Eagles).

The funeral of the late William Mastus Cheesman, whose death occurred last Wednesday at the family residence, 1122 North Park street, took place this afternoon at 2 o'clock from the Sands Funeral chapel. Rev. E. G. Miller conducted the services, which were attended by scores of friends, originally from the B. C. Electric company, with which the late Mr. Cheesman was associated for more than eighteen years. The pall-bearers were: J. A. McLeod, A. Baird, T. Barr, W. C. Pettigrew, T. Gribble, A. W. Ploymann. The hymns sung were 'Abide With Me' and 'Lead Kindly Light.'

The late Mr. Cheesman was 73, and was born and educated at Dover, Kent. When twenty-one years of age he left the old country and settled in Boston, Mass., living there for some years. When he came west first he settled at Puyallup valley, state of Washington, working successfully for upwards of fifteen years at hop-growing. It is twenty-eight years since he came to Victoria. Besides his widow he is survived by one daughter, Miss Ethel Cheesman, of this city, and two sons, Stephen, with the Medical corps now at the front, and William, of Flat Creek, Alberta.

Strathcona Trust.—The trustees of the Strathcona Trust met this morning to receive the inspectors' reports on work done in the past term. At the close a resolution was adopted to withhold information concerning the proceedings till an official report has been prepared, so that it is impossible to give the names of the local instructors mentioned with commendation.

**MANY PAY DELINQUENT TAXES AT LAST HOUR**

There was a remarkable demonstration at the counter of the city treasurer's office this morning, when the last opportunity occurred to pay taxes delinquent in 1912, and thereby save the advertising of the lots for sale, which advertising commences next Tuesday.

The city treasurer estimates that the total number of parcels which will be offered on October 5 will be limited, as a result of the large number of owners who have subsequently paid up.

Discussing the announcement of Sir Richard McBride that the date of redemption on tax sales will be extended for two years, Mr. Smith said this morning that the effect will eventually be to discourage the small speculator at tax sales. The man who is buying one or two lots will be unwilling to wait so long for his investment, and the announcement will probably

**Thinking of Suits That Will Be Worn**

Among a group of well dressed men you see a diversity of styles in suits and top coats almost as distinctive as the difference in facial form.

The rarest thing in the world is to see two men who look exactly alike. And in dress the good clothes and tailor so varies his choice of pattern and style that each of his customers acquires a certain exclusiveness—and not meet his own suit on the street.

The average man likes something equal to the best and better than the rest.

The present season's styles in men's suits show the perfecting of the artistic lines in the neat and semi-form-fitting coat, a style which has been developing for several seasons.

To make a coat for an athletic figure of average proportions is a comparatively easy task for a designer. His skill and class are shown when he can make clothes for men who call themselves hard to fit.

So cleverly has this been worked out by the Semi-ready physique type system that one can get a better fit in Semi-ready-to-day than in made-to-measure.

In the booklet published this season, "As Worn by Him," Style No. 301 is a novelty in the new English sack coat,

**GIFT OF MACHINE GUN**

**Clover Leaf League Receives Acknowledgment From Ottawa of Donation for 2nd C. M. R.**

The following letter has been received by E. Croft, honorary secretary of the Clover Leaf League: "This city, through James A. Louchee, acting minister of militia, under date of Aug. 24: 'I beg to acknowledge and thank you for your letter of the 19th inst., addressed to General Hughes, enclosing cheque for \$250.00 towards the purchase of a machine gun for the 2nd C. M. R. now in England.

'We have already received contributions for gift guns for the 2nd C. M. R. and your contribution shall be applied with the others in the purchase of a machine gun. Upon delivery of the guns which the government has ordered to provide the gift the public are making, one will be purchased and forwarded as the joint gift of the Clover Leaf League and others to the 2nd C. M. R. overseas.

'Please convey to your subscribers the sincere appreciation of the government for this generous and patriotic donation.'

**Thinking of Suits That Will Be Worn**

with wide, soft roll lapels, round corners and patch pockets. This modification of "the Marlin," which was the most popular style last season.

Another style among the thirty designs shown in the book is a three-button sack on more conservative lines, with blunt corner lapels, while a third popular style has soft roll lapels, not quite so wide as "the Marlin."

Very neat styles for stout men are shown in plates Nos. 313 and 314. Norfolk jackets are well represented in variable form in the book, while dress suits and dinner jackets are shown in new designs.

Special Order tailoring, wherein suits are made to measure in four days and a perfect fit is assured, is an important factor in the Semi-ready tailoring.

A large fashion portfolio, showing most of the new designs, offers an easy method of selection. The measuring chart permits a perfect physical photograph of the customer to go to the cutter's table.

Mearns & Fuller, at the corner of View and Douglas Streets, are showing the newest and latest models in Semi-ready tailoring.

# WEILER'S DAILY STORE NEWS

## Attractive Souvenirs for Summer Visitors

Don't leave Victoria without seeing our display of beautiful Devonshire Ware from the Royal Allier Vale Potteries. Many pieces are useful as well as ornamental, and have the added charm of being delightfully quaint. Each piece is inscribed with a motto or proverb, and almost every one bears a different impress.

The ware is a rich brown, overlaid with cream, and embellished with a singular decoration in colors. You'll find a choice selection of Tea Pots, Sugar Bowls, Plates, Ash and Pin Trays, Mugs, Tobacco Jars, Mustard Pots, Vases, Candlesticks and many other interesting pieces, which make delightful souvenirs. Cash Prices up from 25¢.

### Matchless Array of China Gift Pieces

It is bigger, finer, more varied than ever before. The collection wasn't bought in a lump, but each piece chosen critically for beauty of design, harmonious coloring or effective combinations. Individuality marks the gathering. Here you will find "something different." We cannot urge too strongly an early selection, as it is not possible for us to duplicate any of the pieces imported from Europe.

### Artistic Home Decoration

Requires most careful judgment. The effectiveness of your Curtains and Draperies depends not on what you pay, but on the wisdom of your choice. Many beautiful and charming effects can be secured with inexpensive materials if used with taste. Among our lightweight Curtain and Drapery fabrics we strongly recommend the Sundour fabrics, which will wash and always remain fresh and retain their silky appearance. Come and see them. A wide range of designs and colorings awaits your choice. Cash prices 35¢ to \$2.30 per yard.

### Plates and Placques in Patriotic Designs

Have you seen our splendid assortment of Plates and Placques in a rich yellow ware, with pictures of Lord Kitchener, Earl Roberts and Sir John French? When you see them, you'll surely want one.

CASH PRICES	
Plates, each	54¢
Placques, each	45¢
Ash Trays, each	32¢

### Much Worth at Little Cost

You'll easily understand the reason for the great popularity of our charming Sea Grass Furniture when you look at it and realize the great amount of comfort it gives for such a small cost. Many attractive new designs await your selection. The extra close weave and strong frames make it very durable. Upholstered with gay chintz or cretonne, Sea Grass Chairs make a charming addition to any room.

CASH PRICES	
Chairs, \$4.50 to	\$7.20
Tables, \$4.95 to	\$6.75
Settees, \$8.55 and	\$9.00
Flower Stands, \$2.95 to	\$5.85
Arm Chairs, upholstered in cretonne, \$7.65 and	\$8.10
Rockers, upholstered in cretonne, \$8.10 and	\$9.00

### Matting Makes a Cheap Carpet

Have you seen our new Matting? Good quality pliable Straw Matting, with Damask designs, in several pretty colorings, useful for bedroom floors or surrounds for carpets. Easy to clean; does not show the dust. Cash price, per yard 27¢.

### Assembling Pipe at the Shaft Head

The above picture shows the character of the pipe used in the Northwest sewer tunnels, now rapidly approaching completion.

### EXCELLENT PROGRESS WITH TRUNK SEWER

#### Review of Work in Past Two Years on Northwest Sewer; Some Details

The accompanying views of the northwest sewer tunnels, while all photographed in and around the Sunnyside tunnel, give an excellent idea of the general character of construction and the steps taken to lower the pipe into the excavation prepared for it. The completion of the boring operations will be shortly announced, the tunnels having all been pierced now. The dimensions of the tunnels will be appreciated, in comparison with the Sunnyside tunnel, which was bored in 1913, so that by the time the tunnels are completed and the pipe laid throughout, the actual construction will have occupied about two years, exclusive of the period which must expire before the connection is made in order to give the intake for the Saanich sewerage at the boundary.

The lateral system for that municipality must be provided by itself, and while a certain amount of surveying has been done, the pressure of other schemes has delayed its completion. The object of hurrying the work from Sunnyside to Macaulay point has been to handle the sewerage south of Selkirk water this winter, which will shortly be the case, so that the whole of this section of the scheme will be completed, and brought into use.

The general plan of the work so far opened in a southwest by northeast route, with an arm to West bay from Sea terrace. The outfall was carried further west to provide against the sewerage backing in with the currents, and thereby fouling the harbor. Extensive experiments to this end were made before any decision as to the actual outfall was reached, particularly as the new breakwater would set up fresh conditions which must be assured against in the construction. The outfall itself is made subaqueous.

Nature has left a trench, probably of glacial origin, extending from the plateau of Carey road across to Selkirk water, through the western portion of Victoria West, to Macaulay plain, and it is to drain that district that the system is now being created. In other words it is to give to the western suburbs the same facilities which were supplied in the early nineties to the centre of the city by the Cook street sewer, with outfall at Clover point, and to the eastern district by the north-east sewer, outfalling at Bold point, installed under great difficulties in 1912. Shifting sand, which overlies water courses underdraining the meadows of the Saanich plain, gave the engineers their problem three years ago, while with the northwest sewer, remarkably hard rock, which required particularly powerful drills and special powder, have involved problems to be surmounted in the new work.

Divided into two unequal portions by the Gorge arm, the engineers have had to make provision to carry the sewerage over the chasm, and although the siphon has not yet been constructed, the scheme will soon be sufficiently advanced to allow this to be done. The tanks in the ravine at Cecilia street have been constructed for a considerable time, and with them the connection from Selkirk water will be made. The tanks have been necessary to provide pumping facilities for the difference between the high and low levels north of Selkirk water. Now that the tunnel work is practically finished, the gangs are being moved to the section north of Selkirk water, and a revised scale of wages for sewer work will go into force. Any work done on tunnels, however, will be paid for at the scale established in February.

The progress which has been made on the northwest sewer has necessarily not been patent to the average citizen, for much of the work has been underground, in fact, with the exception of a small section, the whole of the route under Victoria West has been subterranean. The shafts at various points have been the only reminders of the work which has been going forward below the level of the earth. A considerable part of the route through Esquimalt, however, was in open excavation, but as it passed through a part of the district which is not thickly populated, the progress was not marked by much public interest.

From the plans as approved by the consulting engineer, two years ago there has been some deviation, shorter routes being found for the tunnels, and provision has also been made for a certain amount of surface water which will pass through the tunnels in an open drain alongside the concrete sewer.

There was much criticism about the use of concrete pipe for sewer purposes. However, a contract was awarded to Moore & Petrick, who completed their contract a considerable time ago, the pipe being stored since that time at the Paradise street yards. The outfall at Macaulay Point, however, is of steel, made at Thetis Cove when the Burrard-Engineering company had the contract for the pressure pipe for the waterworks. This outfall was installed three months ago.

The size of the pipe differs according to location from 27 inches to 36 inches as a maximum, the lowest figure being used between Selkirk water and the Saanich boundary. There are four dimensions of the pipe, increasing in a graduating scale to the outfall. In case of fractures it will not be difficult to replace the pipe, as there is ample headway for men to work in the

and Malahat. The storm was accompanied by thunder and lightning in several places, but at all points was welcomed for bringing much needed relief from the continued drought which had made conditions too favorable for forest fires.

The prairie provinces have had a drop in temperatures, frosts being reported from many northern points. Conditions further east, however, show remarkably high temperatures, Toronto recording 86 degrees Thursday. In New York the hottest weather for the time of year in thirty-two years was being experienced with 92 degrees.

Perhaps you are suddenly becoming stout, or it may be that you have been putting on weight for years. In either case the cause is the same—lack of oxygen-carrying power of the blood. This trouble occurs in adults of both sexes and all ages. It may be overcome very easily and without any of the privations that most people imagine necessary to reduce their weight.

Simply go to your druggist and get some oil of orlene capsules. Take one after each meal and one before going to bed. Weigh yourself so as to know just how fast you are losing weight. Wonderful results have been accomplished by this inexpensive recipe, but be sure to get the genuine oil of orlene in capsule form. It is sold only in original sealed packages. Any large druggist can supply you, or a large size box will be sent on receipt of \$1.00. Address D. J. Little Drug Co., Box 1240, Montreal, Can.

### WOMAN REFUSES OPERATION

Tells How She Was Saved by Taking Lydia E. Pinkham's Vegetable Compound.

Logansport, Ind. — "My baby was over a year old and I bloated till I was a burden to myself. I suffered from female trouble so I could not stand on my feet and I felt like millions of needles were pricking me all over. At last my doctor told me that all that would save me was an operation, but this I refused. I told my husband to get me a bottle of Lydia E. Pinkham's Vegetable Compound and I would try it before I would submit to any operation. He did so and I improved right along. I am now doing all my work and feeling fine.

"I hope other suffering women will try your Compound. I will recommend it to all I know." — Mrs. DANIEL D. DAVIS, 110 Franklin St., Logansport, Ind.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound. Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### CONDITION OF BLOCK PAVEMENT CONSIDERED

#### Necessity of Relaying Johnson Street is Urged; Rock Bay Bridge Span Delays

A subject which has brought out much comment of late was mentioned in streets committed to the city council yesterday afternoon.

Alderman Fullerton asked what steps were being taken to replace the wood block pavements which were worn out. He noticed that work was being done in the way of repairs on Broad street.

The engineer said that the life of the Broad street paving had not yet run out, but it had in the case of Johnson street paving, which was beyond repair. He thought it might be desirable to consider with the property owners the replacement of the paving, and to lay asphalt in place of wood blocks, as it would cost from \$8,000 to \$9,000 less. He favored wood blocks in business streets, but with the municipal asphalt plant repairs could be more easily effected.

The aldermen, however, passed no resolution on the subject. The matter was introduced in a statement from the city engineer recommending doing repairs on paved streets from the hold-back funds of the paving contractors, still in negotiation with the liquidators, to the extent of from \$2,000 to \$3,000, before the rainy weather sets in. The recommendation was adopted, subject to the finance committee finding the money.

The committee approved a recommendation to complete the construction of the sidewalk on the east side of Blanshard street between Pandora street and Courtenay streets, and to close the by-law and assess the property abutting on the improvement. The cost of the work will be about \$480. Up to the present there has been spent on this by-law about \$2,054.

The committee received a deputation from the Trades and Labor council, for whom A. S. Wells and John Day acted as spokesmen, to urge early construction of the Rock Bay bridge swing span, and the continuation of day labor on garbage collection, instead of considering a reversion to contract system.

The mayor and several members explained that the dredging operations had been entirely responsible for the delay, and that the council had no intention of changing the garbage collection system.

Aldermen Todd, Okell, and McCandless spoke of the inconvenience and loss of business to Store street merchants by the delay on the bridge, and a resolution was adopted to endeavor to reduce the span required by the government from 70 feet to 60 feet, and to make a start on the day labor system, as soon as possible, with the span, for which money has been appropriated.

The revised surfacing work on Pemberton road will be proceeded with, the necessary petition having been signed by a majority of the property owners.

The city engineer's recommendation that the old market scales be secured and installed at the garbage wharf, Telegraph street, so that all garbage may be weighed and a more accurate report of the cost of the work secured, was referred to the market and sanitary committees.

"No man can do effective work if constipated—Rexall Orderlies are an effective laxative. Sold only by D. E. Campbell, the Rexall Store, 10c, 25c, & 50c boxes.

The pipe in position. A man is at work inside fixing the joints, which have the usual spigot and socket character.

### HOW FAT FOLKS MAY BECOME THIN

By Elizabeth Thomas. Perhaps you are suddenly becoming stout, or it may be that you have been putting on weight for years. In either case the cause is the same—lack of oxygen-carrying power of the blood. This trouble occurs in adults of both sexes and all ages. It may be overcome very easily and without any of the privations that most people imagine necessary to reduce their weight.

### GYMNASIUM INSTRUCTOR. George Ingledeu Joins Staff of University School; Was for Eight Years in Navy.

George Ingledeu has taken up his residence as gymnasium instructor at the University school. For the past two years Mr. Ingledeu, who for eight years prior to that was in the Royal navy, has been gymnasium instructor at the Collegiate school. His thorough knowledge of physical culture was appreciated by both the staff and the students at the Collegiate school, where his methods and the whole-hearted manner in which he sided forward with any movement designed to improve the life of the institution made him deservedly popular. When he came to Victoria Mr. Ingledeu was attached to H. M. S. Shearwater.

MORTGAGE SALE

of valuable CITY PROPERTY

UNDER and by virtue of the powers of sale contained in 3 certain mortgages, there will be offered for sale at PUBLIC AUCTION by Herbert W. Davies, Auctioneer, at his Auction Rooms, 525 YATES STREET, in the city of Victoria, in the Province of British Columbia, on Thursday the 30th day of September, 1915, at the hour of 12 o'clock noon, the following valuable properties in the said city, namely:

FIRSTLY—That portion of Lot 55, Map 20, commencing at the N. E. corner of said lot, thence along the northerly boundary of said lot, 104 feet 2 inches to the N. W. corner of said lot, thence southerly along the westerly boundary of said lot, 47 feet; thence easterly, parallel to the northerly boundary of said lot, 24 feet more or less to the easterly boundary of said lot, thence northerly along the easterly boundary of said lot to the point of commencement.

SECONDLY—Lot 16, in Block 16, Map 54.

THIRDLY—Lot 11, in Block 16, Map 54.

The Vendor is informed that there is erected on each of the above-mentioned properties a modern five-room frame house. The property firstly described is situated at the N. W. corner of Chandler and Earsman Streets, and the others are situated on the west side of Cedar Hill Road and have a fine view of the Straits and Olympic Mountains.

TERMS OF SALE—Twenty per cent of the purchase price to be paid, in cash, in cash at the time of the sale, and the balance according to the terms and conditions to be made known at the time of sale.

The above properties will be offered for sale in separate parcels, at upset prices, and subject to all taxes, including local improvement taxes for the current year. For further particulars apply to Bradshaw & Stacpole, Vendor's Solicitors, Law Chambers, Victoria, B. C.

Dated, at Victoria, this 31st day of August, A. D. 1915.

"You are not so timorous about germs as you were?" "No, I have lost some of my awe as to the germ theory since watching my shoemaker cobbling shoes and holding dirty tacks in his mouth."

Phoenix Begg, \$1.50 per doz. quart.

CITIZENS' UNEMPLOYED COMMITTEE DISSOLVED

Unable to Secure Financial Assistance in Vacant Lot Cultivation, Labor's Cease

The Victoria Citizens' Unemployed committee last night dissolved because of inability to secure sufficient financial assistance for the scheme of vacant lot cultivation for the relief of the unemployed. The work accomplished by the committee and reasons for dissolution are made public in the following statement:

"The Victoria Citizens' Unemployed committee was called into existence several months ago through an appeal of the unemployed to the Social Service commission.

"Repeated efforts to induce the authorities to relieve the increasing destitution, caused by the shutting down of many industries, proved unavailing, and a final appeal was made to the churches through the Social Service commission.

"The representatives of the unemployed presented a very strong case, and with it a suggestion for the utilizing the latent energy in productive processes.

"Earnest consideration was given these representations, and for the purpose of obtaining a fair trial, the scope of the committee was enlarged to include representative citizens in every walk of life.

"The Victoria Citizens' Unemployed committee formed sub-committees, held numerous sessions and finally placed definite information in the hands of the city council and provincial government.

"The committee supported the Agricultural Credit act of last session as a measure destined to relieve the congestion of the cities by encouraging land settlement and cultivation, and by a strong and representative delegation appealed to the government to immediately put the act into operation.

"It endorsed a scheme of intensive cultivation of vacant lands in and around the city of Victoria as a step toward immediate relief of the unemployed. It favored the conservation of foodstuffs which at this season of the year are plentiful and in many cases going to waste. It affirmed in principle that no one should go hungry while abundance prevailed, nor should any one remain in enforced idleness while very many acres of vacant land are accessible for use without cost to the producer.

"The committee believe sufficiently in the productiveness of the soil in and about Victoria to be convinced that labor employed upon the land would result in sufficient foodstuffs to feed that labor. This was all that was claimed for the scheme, and the committee contends that to deny this is going in the face of all expert testimony as to the fertility of our soil.

"On these grounds the committee still believe the plan to be perfectly practicable.

"We regret exceedingly that the provincial government has not been able to see its way clear to assist us in this matter. The city council offered an initial sum of \$250, but this was altogether inadequate to warrant the committee to go forward with the scheme.

"Having provided the necessary machinery for supervision we are unable to finance without assistance, the unproductive period of the work contemplated.

"In dissolving this body the committee wishes to thank the press of the city for the valuable assistance given the unemployed, also those who have so generously subscribed toward the funds.

"The committee believes that, while the unemployed problem has been temporarily relieved by the departure of men to the harvest fields and by the opening of several new avenues of employment, that the problem has not become more so in a few weeks.

"If at any time the question should receive from the authorities the attention it merits, the committee will cheerfully co-operate by assisting in any capacity in which it can be of service."

Alderman Bell stated that he was sure the city would have done more if the question of finances had not this year proved so serious a one, but the members of the council were fully in sympathy with the committee's efforts, the importance of which were fully recognized.

Notes of thanks to several individuals and organizations for assistance were adopted and the committee dissolved.

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 11—5 a. m.—The barometer remains high over Northern B. C., and, with the exception of rain in Southern Kootenay, fine, warm weather prevails in this province, while in the states of Oregon showers and thunderstorms have occurred. The weather is fine in the prairie provinces, accompanied by frosts.

Forecasts. For 24 hours ending 5 p. m. Sunday. Victoria and vicinity—Light to moderate winds, fine, not much change in temperature.

Lower Mainland—Light to moderate winds, generally fair and warm during the day.

Reports. Victoria—Barometer, 30.01; temperature, maximum yesterday, 67; minimum, 52; wind, 3 miles S. W.; weather, clear.

Vancouver—Barometer, 30.00; temperature, maximum yesterday, 59; minimum, 48; wind, 4 miles E.; weather, fair.

Kamloops—Barometer, 30.02; temperature, 70; minimum, 23; wind, 4 miles W.; weather, clear.

Barkerville—Barometer, 29.98; temperature, maximum yesterday, 50; minimum, 28; wind, 4 miles S. E.; weather, fair.

Prince Rupert—Barometer, 30.02; temperature, maximum yesterday, 74; minimum, 48; wind, 4 miles N. E.; weather, clear.

Tatoosh—Barometer, 29.98; temperature, maximum yesterday, 56; minimum, 48; wind, 10 miles N. E.; weather, clear.

Portland, Ore.—Barometer, 30.02; temperature, maximum yesterday, 74; minimum, 58; wind, 4 miles S. E.; rain, .35; weather, fair.

Seattle—Barometer, 30.04; temperature, maximum yesterday, 66; minimum, 54; wind, 4 miles S. E.; weather, cloudy.

BABY FAIRMAN.

"Owes his life to Virol"

St. Clement's Maternity Home, Fulham Palace Road, S.W.

Dear Sirs, The Virol Babies at our Fete were beautiful specimens, and were much admired. Baby Fairman, the splendid little fellow who led for the first prize, owes his life to Virol. Some months ago he was to be a sallow child, he was in hospital, but got no better, and was thought to be a hopeless case. When the mother took him home, it occurred to her to give him Virol. She sat up night and day for three weeks, putting a small quantity of Virol on his lips every now and then, with a feather—and afterwards giving Virol and milk. He has taken Virol regularly since, and today is the picture of health and happiness. I find babies thrive wonderfully on Virol, and in cases of wasting it is invaluable.

(Signed) E. HEATLEY, Matron.

VIROL

Virolised Milk—a teaspoonful of Virol mixed with half-a-pint of warm (not hot) milk—is an ideal food for nervous exhaustion. Sold everywhere in tins at 7s. for 8 oz., 2s. 3s. for 16 oz.

TO FILL VACANCIES IN VARIOUS SCHOOLS. Special Meeting of City Board Occurs Monday Afternoon. At the meeting of the city school board on Monday afternoon, the appointment of two members of the teaching staff of the High School in room of men transferring to the university faculty will be recommended. The positions vacant are those of English and French and also mathematics. In the graded schools there is a vacancy at the Boys' Central school, and probably it will be necessary to make some addition to the staff at South park, on account of the large enrolment. A physical instructorship is vacant, for which there has been a very large list of applications filed. The business of this special meeting will complete the staff changes resultant on the termination of university courses here, thereby closing a chapter in the educational work of Victoria. The board will be probably occasioned some difficulty to fill the vacancies for which university graduates are required, as all the available men are already located for the year's work, but as the two members of the staff who are leaving desire to be released on Wednesday, immediate action is necessary. There is naturally an abundance of material for teaching in the graded schools, and the difficulty in this case is to make a selection from so many suitable applicants. The meeting is specially called to deal with appointments, ordinary business having been cleared up at the last meeting. "Briggs must be dreadfully extravagant. He never seems to have a cent." "Tried to borrow from you, did he?" "No, but hang it, I wanted to borrow from him."

Footballs for the Boys \$2 Each. And They're Good Ones. DRAKE HARDWARE CO. Phone 1645. 1419 Douglas Street.

DR. KENNING IMPROVING. Physician Thrown From Automobile on Oak Bay Avenue Last Night; Defective Steering Gear. Dr. W. Kenning, when returning to his home in an automobile this morning at 12.30 a. m., ran into a telephone pole on Oak Bay avenue and was cut about the face and sustained bruises. He was taken to his home at Belcher street and Oak Bay avenue by the police patrol and received attention from Dr. Fraser. To-day he is reported to be progressing satisfactorily. The accident is believed to have been caused by a defect in the steering wheel of the automobile. The machine suddenly shot across the roadway where the pavement is in bad condition, and the car crashed into the pole with such force that a large piece of wood was dislodged. The car then ran for fifty feet and took the sidewalk. Dr. Kenning was thrown out. The fender of the car was twisted and one wheel damaged. Help was obtained by telephone by people attracted by the noise of the collision. Mother—"Where have you been, Leslie?" Daughter—"Only out for a walk in the park." "With whom?" "No one." "Then explain how you come home with a walking-stick instead of an umbrella."
