

# WIND OF CHANGE

## PRESIDENT NOW HOPING TO ADDRESS CONGRESS

Would Speak Next Week, if Not Opposed by His Family.  
Will Recommend That Congress Reduce the Burden of Taxes.  
Republican Majority Likely to Begin Hearings on Question.

**ERSTWHILE PROMOTER TO SERVE FIVE YEARS IN JAIL**  
Boston, Mass., Nov. 29.—Charles Ponzi, promoter of the quick-rich organization which thousands have invested millions of dollars before it collapsed last August, pleaded guilty today in the federal district court to a charge of fraud in the postal reply coupons.  
Sentence of five years in the Plymouth county jail was imposed by Judge Hale. The court took into consideration only the first count of one indictment of forty-four counts in which it was charged that Ponzi had represented falsely that he was able to pay interest at the rate of five per cent in forty-five days from profits made in international postal reply coupons.  
As for the contents of the presidential message which is being prepared no inkling has been given. From a political viewpoint, or no other, there will be recommendations that congress reduce the burden of taxes and also cut the cost of living. Of course it is unlikely that the Republicans who are in the majority in both houses will permit any action to be taken on the recommendations of a Democratic president, since their own president will take office in three months and will not even convene congress to adopt a legislative program. The Democrats, however, will not lose the chance to accuse the Republicans of political expediency. On the other hand, the Republican leaders counter with this query: Would President Wilson sign a Republican tax bill, especially one which would raise the revenue by the imposition of a protective tariff? White House officials say Mr. Wilson would not sign a tariff bill if it followed the lines of suggestions on which the Republicans have already made to congress. The president has favored protection for infant industries and others and economic relationship to the tariff question has been a subject which he has by no means indicated that he would sanction the kind of a tariff bill that the Republicans would put before him.  
**Compromise Bill Probable.**  
To wind up any kind of tariff bill would take practically all of a session and congress will probably not agree that unless there was an assurance of compromise the bill should be wasted. But the Republicans who want high protection care nothing of the compromise and will probably continue to fight for their bill.

## BOILING IS POSITIVE IN HIS DENIAL

CHARLES PONZI.

New York, Nov. 30.—A denial that he had ever taken money for influencing the disposition of contracts or machinery by the United States shipping board, as charged by T. K. Sands, former Washington banker, coupled with a request that all of his business transactions with Sands be investigated, "both for my own and my family's sake," was made before the shipping board today by R. W. Bolling, president of the shipping board.  
Mr. Bolling told of business transactions with Sands, dated back to 1916 and earlier years, out of which grew several million dollar transactions. He told the committee that his personal records were all available to its members and that he had received \$40,000 from the Downey Shipping corporation for "representation" of the board, of which he had paid money to Mr. Bolling. Mr. Bolling said that he had a house for the banker and in so doing he had received a large profit because of objection by Sands to a charge for extras.  
**Wife Worried.**  
"However, a short while after Mr. Sands told me that he did not want to lose any of my commission, for building the house and that he had accepted this reduction only because his wife was very much worried that the house should have cost more than he had originally planned, and that he intended paying me an additional \$10,000," Mr. Bolling said.  
"Early in 1918, Mr. Sands sent a Mr. Cranor to see me in regard to some machinery which was being sold in connection with construction of vessels. Mr. Cranor told me that the machinery in question was being sold and was to have been shipped to his company from the factory, but at the last minute some other company succeeded in having the order changed and the machinery would be delivered to them. Mr. Cranor said that he was being done by Mr. Sands and was then secretary of the shipping board, and explained the matter to him. He said that a narrow alleyway subsequently told me that he found upon inquiry that the rolls had been promised to Mr. Sands' company and would be shipped to them."  
"A short time after this, Mr. Sands told me that he had made or would make a transaction with Sands' company—though he now states he has no recollection of the matter—and that he would like to see me. I told him I would accept nothing. He then mentioned the \$600 which he still owed me, and said that he would change made in his house, saying that."

## INCENDIARIES FIRE CITY HALL DAMAGES BY FLAMES SAID TO BE HEAVY

Public Buildings in All English Cities Are Under Close Guard.  
Bomb Explosion at London Not Believed of Sinn Fein Origin.

Belfast, Nov. 30.—The city hall at Belfast was set on fire with incendiary bombs from that city, state that the Thomas Assie Sinn Fein club and the Charlott quay are ablaze. Much damage has been done, it is stated.  
**Buildings Closely Guarded.**  
London, Nov. 30.—Public buildings in London and in many of the other large cities of England were closely guarded against incendiary bombs today by heavy detachments of police and detectives last night. In this city the patrol was not limited to streets, but the Thames in front of parliament buildings, with Downing street and the Strand, were also guarded. The Sinn Fein club and the Charlott quay are ablaze. Much damage has been done, it is stated.  
**Bomb Exploded.**  
There is nothing to connect the Sinn Fein with the explosion of a bomb in a warehouse in Old Street in London early this morning, but people subscribed to that organization. The bomb, which apparently was carried into the warehouse in a traveling bag and left on a table by means of a time fuse, was heard over a wide area and blew out the windows of buildings nearby. It started a fire, but police and firemen succeeded in extinguishing the flames before they gained headway. The street where the warehouse is situated has been closed since the explosion, and a narrow thoroughfare near London bridge and contains no dwelling houses.  
**Bomb at Work.**  
Experts from Scotland Yard examined the bomb, which had been permitted to enter the offices on the upper floors. Damage from the fire was slight. Several firms, shipping agents and manufacturers, used the building. It is reported that several men suspected of setting fire to warehouses in Liverpool on Saturday night were taken to Liverpool. The financial loss occasioned by Saturday night's fires in Liverpool is estimated at a million pounds sterling.  
**Followed by Riots.**  
The killing of three police recruits at Macclesfield, Ireland, yesterday, has already been followed by reprisals by the Sinn Fein. Several firms, shipping agents and manufacturers, used the building. It is reported that several men suspected of setting fire to warehouses in Liverpool on Saturday night were taken to Liverpool. The financial loss occasioned by Saturday night's fires in Liverpool is estimated at a million pounds sterling.

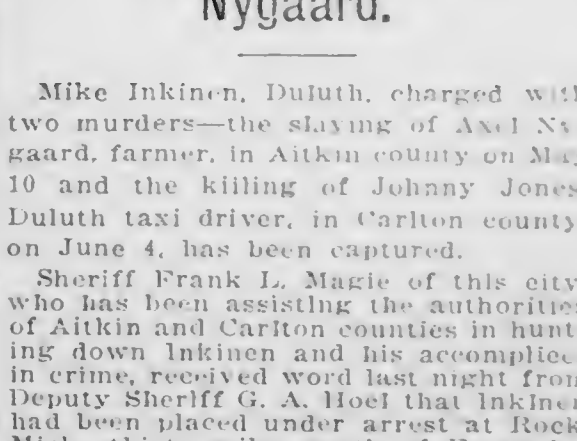

## JAPAN TO PATIENTLY BIDE TIME

Will Not Raise Question of Racial Equality Before League Now.  
Next Week Will Mark Critical Period in League Assembly.

Geneva, Nov. 30.—(By the Associated Press.)—The Japanese delegation will not make any proposal for racial equality at this session of the assembly of the League of Nations, it was announced by Viscount Ishii at this morning's session of the assembly.  
"Japan will patiently bide her time," said Viscount Ishii, "until an appropriate moment from Japan to make the Japanese delegation made these declarations in speaking on the report of the committee on rules, which was read at the assembly by Delegate Ferreri of Italy."  
**Critical Period Approaches.**  
Geneva, Nov. 30.—(By the Associated Press.)—The assembly of the League of Nations regard the coming week as the most critical period in the history of the organization. Questions which have been set on foot by the assembly will be decided in the assembly by a unanimous vote. The only exception to this rule is the question of the election of new members and amendments.  
The Japanese delegation is capable of agreeing without a dissenting vote on the difficult problem to be placed before the assembly next week, says the council of the league, which will be in the estimation of some of the leading members, have passed a most dangerous point.  
The council of the league was engaged in the morning session with the question of mandates, and could not proceed to the election of a successor to Sir Bevilhove as high commissioner at Danzig.  
It seems probable that definite solution of the question relative to the economic blockade will not be reached at this session. A resolution passed by the council yesterday, which proposed that an international commission be appointed to investigate the blockade, and to report to the assembly the measures it would put into effect against an aggressive nation.  
**Debate Goes Over.**  
The council of the league failed to prevent the intervention of Poland and Soviet Russia in the debate on Friday's session.  
The action of the committee on amendments to the Covenant was expected to contain a recommendation in order of the committee, which would have been the best from a general business standpoint. The committee, which is considered will certainly be held during the winter months, and will be sufficient to consider any proposals emanating from the League of Nations. Some of the delegates have considered the express authority to constitute a committee to investigate the situation in the Congo river valley, and to report to the assembly.  
Delegates from Spain and Aguerre of Cuba have agreed to withdraw from the assembly, but their withdrawal for the inclusion of Spanish among the official languages of the assembly. They have indicated they would not press their suggestion for a discussion of the subject at the present session of the assembly.

## INKINEN IS CAUGHT IN MICHIGAN

Captured While Working in Lumber Camp Near Escanaba.  
On Way Back to Duluth in Charge of Deputy Sheriff Hoel.  
Wanted for Murder of Johnny Jones and Axel Nygaard.

MIKE INKINEN.

Mike Inkinen, Duluth, charged with two murders—the slaying of Axel Nygaard, farmer, in Aitkin county on May 10 and the killing of Johnny Jones, Duluth taxi driver, in Carlton county, on June 4, has been captured.  
Sheriff Frank L. Macle of this city, who has been assisting the authorities of Aitkin and Carlton counties in hunting down Inkinen and his accomplices in crime, received word last night from Deputy Sheriff Hoel of Escanaba, Mich., that he had captured Inkinen. "I will leave Escanaba 4:30 a. m. Nov. 30. Meet me at Duluth," Inkinen confessed," read the telegram which the sheriff received from his deputy. Deputy Hoel and his men were waiting for Inkinen at the Duluth station. They arrived here about 6 o'clock last evening. Inkinen, a man in his thirties, was taken to the jail last night in the Escanaba jail, having been received in on an afternoon train from Rock, Mich. shortly after his arrest.  
Employed at Camp.  
Inkinen was employed in the Lathrop camp at Rock, according to information received by the sheriff. Prospects of obtaining a \$500 reward, which has been offered by Governor Burnquist for Inkinen's capture and conviction, prompted the informer, a Finn employer, according to Sheriff Macle, to inform Inkinen in Duluth and to turn Inkinen up to the authorities.  
Macle, who is in Duluth, and ran across him by accident in the Michigan camp. He was furnished information concerning the reward offered through Walter Foster, a local newspaper editor. Foster in turn notified the sheriff. Last week he received the information that the man in the Michigan camp who stated that if an officer would come from Duluth to work with him, he would get his man. Deputy Sheriff Hoel, on his way to the Michigan camp, arrested on a warrant for Inkinen's capture, which was issued by Governor Burnquist, and yesterday afternoon Inkinen confessed to both crimes and confessed to him or not has not been learned.  
List of Trio.  
Inkinen, alias Mike Nelson, alias Mike Koski, who has successfully eluded capture for many months, is 28 (Continued on page 16, fourth column.)

## ASKS HELP TO OBTAIN FUNDS

President Finch Presents Case to Commercial Club Organization Division.  
Larger quarters for the Duluth Commercial club, working memberships to care for the work of the civic and commerce divisions of the club's activities, each division to be self-sustaining, is the plan of President Benjamin Finch, as outlined in an address to directors, chairman and members of the organization division of the club at a meeting held last night at the quarters should not come out of either the civic or commerce division funds.  
His address to members of the organization division was as follows:  
"This club has almost 1,500 members, and its address to members of the organization division is to increase our membership principally, but all of them interested in a real live commercial club which has its social side as well. It is the duty of the meetings and entertainment committee to provide these features which interest so many of our members."  
**No Deficit in Cafe.**  
"Do you realize that this is one of the very few organizations that does not have a deficit in its cafe, and that over one quarter of our members come here daily—serving nearly 11,000 monthly? We know our quarters are crowded, a really good sign of appreciation, but we must provide larger quarters and this is now under consideration by your Vice President Dacey and a special committee."  
"This can be done if we increase our sustaining membership to take care of the expenses and work of our civic and commerce division, for we will then have money for organization affairs and means means committee has well defined plans for increasing our membership through systematic effort. Our investigations show that many who are interested, have not provided their share to civic and commerce funds while others have probably contributed to some extent."

## WOULD CLOSE MORE CHICAGO SALOONS

Chicago, Nov. 30.—Suits compelling the closing of thirty-five more saloons and drugstores charged with selling liquor to minors, were filed today by Attorney General Brand. The suits are the latest in a series of two of the most notorious "black and tan" cafes in the city.  
The suits are directed against saloons and drugstores, especially at the "black and tan" resorts, attorney general Brand said, quoting a letter from a down-state colored attorney that the saloons and drugstores are selling liquor to minors.  
**Not Against Liquor.**  
"This is not a fight against liquor," the attorney general said, "but an effort to clean up the saloons and drugstores which have become a public nuisance. It is not the sale of liquor which is the issue, but the sale of liquor to minors. It is the effect of being drunk."  
Another batch of bills is being prepared for presentation to Judge Landis. This work will continue until the saloon will cease to flourish in Chicago.

## COMMITTEE ON WATERWAY FOOD CANS TO BEAR INSPECTION SEALS

St. Paul, Minn., Nov. 30.—Governor Barkquist today named a committee to attend the meeting of the national rivers and harbors congress to be held at Washington, D. C., Dec. 8, 9 and 10. This committee will meet jointly with delegates from the West and other states on the Atlantic coast, and will propose complete plans which they will propose at the congress for the furtherance of the St. Lawrence deep waterway project. The committee is also instructed to block every effort which is expected to be made by a New York delegation to discourage the working of the St. Lawrence project. The New York and other similar plan of a deep-water route and the St. Lawrence project is a successful in obtaining the St. Lawrence project considerable shipping would be diverted from their shores to the St. Lawrence project.  
The committee is appointed by the governor consists of, formerly of the Duluth News Tribune, C. P. Craig and A. J. Comstock of Duluth; Michael Dowling, Olivia; Hugh J. Hughes, marketing director, department of agriculture, St. Paul; and E. V. Willard, state drainage and water engineer, St. Paul.  
The governor also named the congressmen and senators as delegates to the congress.

## NEAR TOP FOR INVESTMENTS

Duluth Second Best Place in Nation, Financial Authority Declares.  
On account of the diversified undeveloped resources in the territory surrounding it and its strategic position as a distributing point, Duluth is ranked as the second best place in the country as a point for investment by Roger W. Babson's statistical organization, a noted Eastern financial authority, in a confidential letter just issued by that organization regarding points where it is advisable to look up business, says:  
"Among the best cities for immediate results, we suggest a consideration of those given below. These cities, which are listed approximately in the order of their desirability, appear to be the best from a general business standpoint: Pueblo, Colo.; Duluth, Minn.; Oklahoma City, Okla.; Long Beach, Cal.; Cedar Rapids, Iowa; Fresno, Cal.; Denver, Colo.; Pittsburgh, Pa.; Portland, Me.; Scranton, Pa.; Dallas, Tex.; Danvers, Me.; Pasadena, Cal.; Billings, Mont.; Erie, Pa.; El Paso, Texas; Youngstown, Ohio; Tulsa and Great Falls, Mont."  
**Cities With Good Business.**  
Continuing the letter says:  
"Clients should not overlook the fact that there are a number of cities in which business is being developed. That will always be true even when conditions throughout the country, as for the time being, are unfavorable. They are early today, which is being and was heard over, his bond being \$100,000, which was held under heavy guard, was taken to jail."  
The trade readiness was apparent in the textile, shoe and leather centers of New York and New England districts. Reaction will continue to spread. The leading industrial sections of the Central states and Middle West, and the lumber section of the Northwest are on the decline, and more recently the cotton manufacturing cities of the South have declined. The agricultural parts of the West and South are in a pessimistic mood. Before the long pull takes place in the crop regions, however, there is a slight upward movement. That should take place near the turn of the year."

## U. S. LEADS IN CHEMICAL GAS

In Foreground in Development of That Phase of Warfare.  
Washington, Nov. 30.—Declaring that the world was demonstrated that an "enemy bent on aggression cannot be trusted to live up to any set rules of war," Brig.-Gen. Amos A. Fries, chief of the chemical warfare service of the army, in his annual report to Secretary Baker today, asserts that the development of this branch of the United States arm to a point "where it is impossible for any nation to go further" will do much toward deterring other nations from forcing hostilities against the United States.  
This country, he said, is in a position to manufacture and deliver on the field of battle more chemical gas than any other nation or group of nations, says Gen. Fries, adding that the United States has wisely decided to confine the chemical warfare service with sufficient powers and funds to develop its possibilities, not for aggression, but to insure that if American boys must ever again shoulder arms in defense of the liberty of their country they will do so on an equal footing with any other nation so far as chemical warfare is concerned.  
**Experiments of Value.**  
During the past year the service has conducted experiments in gas and chemical instruments of war, the report says, and has secured a close liaison with chemists and chemical societies in civil life.  
All formal war contracts of the service have been settled and informal contracts are more than 85 per cent liquidated, the report asserts. Of the formal contracts 1,214 have been settled for slightly more than \$287,000, a saving to the government of more than \$50,000. The same amount was saved in the disposal of plants and materials representing an expenditure of nearly \$2,000,000, the report said, the sales averaging 27 per cent of the cost price.

## FIND TWO SURVIVORS FROM MISSING BARGE

Seattle, Wash., Nov. 30.—Two surviving members of the crew of the missing barge W. J. Pirrie and the body of a third were found by an Indian searching party near Cape Johnson, Wash., last night, according to a telegram from Clallam Bay, Wash., to the Seattle Merchants' exchange, received today.  
The Indians arrived at Clallam Bay today, bringing the news of the finding of the two sailors, the message said. They were unable to find any trace of the barge, which when last seen carried twenty-three persons, including the captain, wife and baby.  
The Indians said they had seen the bodies of Capt. Alfred Jensen and the first mate, but knew nothing of the fate of the other members of the crew or of the wife and infant son of Capt. Jensen, who were aboard the boat.

## ITALIANS WOULD PROBE SITUATION IN IRELAND

Rome, Nov. 30.—Inquiry into the Irish situation is favored by Catholic members of the Italian parliament, who declare there is a basis for demanding such an inquiry. Assertions are made that the situation in Ireland is quite similar to those in the Congo river valley of Africa, the Putumayo district of South America, Bulgaria and Armenia, which in the past were investigated. It is recalled that Sir Roger Casement, who was executed for high treason in London during the war, conducted on behalf of England the inquiry into the conditions prevailing in the Putumayo region.  
**FORMER EMPRESS IS MUCH WORSE**  
Doorn, Holland, Nov. 30.—Augusta Victoria, the former German empress, who has been suffering from a grave heart attack, was much worse this morning. She had a high fever and was only semi-conscious.  
Frederick William, the former crown prince, has again been summoned, and this morning was hurrying here from his residence at Wieringen.

## STATE RESTS IN RAPE CASE

Witnesses Give Virtually Same Testimony as in Mason Trial.  
The state rested its case shortly before noon today in the prosecution of William M. Miller, negro circus hand, charged with the rape of an 18-year-old West Duluth girl on June 14 last.  
Witnesses called by the state today told virtually the same story that they gave last week at the trial of Max Mason, the first of the seven negroes at the jail.  
Besides the girl and her escort, James Taylor, who was on the stand yesterday afternoon, County Attorney Warren E. Groene called as witnesses the police officer John Murphy, former chief of police; F. A. Schultz, chief of police; and Dr. M. A. Nicholson, who examined the negroes at the jail.  
The testimony of Dr. W. A. Coventry, the former Mason trial witness, the jury without objection on the part of the defense. It was to the effect that the physician on July 16 last found the girl suffering from an infection, apparently recently communicated to her. The defense will put in its case this afternoon and it is expected that the case will reach the jury tomorrow.

## MADERO'S ASSASSIN ATTEMPTS SUICIDE

Guatemala City, Guatemala, Nov. 29.—Francisco Cardenas, former general in the Mexican army and accused of the assassination of President Francisco Madero in February, 1913, attempted suicide today by jumping from a balcony.  
Cardenas was recently arrested on a charge of being an accessory to the assassination of Madero, and was confined in jail. He was surrounded at Matruzaco. When he found his way out he had some ashore Friday through his head. Cardenas confessed in 1915 to having assassinated Madero and also the state's vice president of Mexico during the Madero administration.

## GOVERNOR APPOINTS DELEGATION TO ATTEND RIVERS AND HARBORS CONGRESS

St. Paul, Minn., Nov. 30.—Governor Barkquist today named a committee to attend the meeting of the national rivers and harbors congress to be held at Washington, D. C., Dec. 8, 9 and 10. This committee will meet jointly with delegates from the West and other states on the Atlantic coast, and will propose complete plans which they will propose at the congress for the furtherance of the St. Lawrence deep waterway project. ## RECOVER \$23,800 FROM MAIL LOOT

Omaha, Neb., Nov. 30.—Postal Inspector W. M. Coble, Omaha, announced today that Keith Collins recovered \$23,800 of the loot from the mail train robbery in Council Bluffs last night in connection with the mail car robbery in the latter city which occurred on October 14 last. The money was all in \$10 bills, according to Inspector Coble. Recovery of this sum, he said, accounts for \$60,000 of the loot which was the only known shipment of cash on the train which was shipped east by a San Francisco bank.  
Collins' Reward Over.  
Council Bluffs, Iowa, Nov. 30.—Keith Collins, arrested in Oklahoma for complicity in the Burlington mail robbery in this city, was arraigned before U. S. Commissioner W. A. Dwyer early today, without examination, and was bound over, his bond being \$100,000, which was held under heavy guard, was taken to jail.

THIRD OF MARCH RELEASING ORDER ARREST

PRESIDENT NOW HOPING TO ADDRESS CONGRESS

Would Speak Next Week, If Not Opposed by His Family. Will Recommend That Congress Reduce the Burden of Taxes. Republican Majority Likely to Begin Hearings on Question.

By DAVID LAWRENCE. (Special to The Herald.)—Congress gets back next week for its regular December session, but whether President Wilson will deliver his annual address in person, as he has done so many times before, or whether he will send it to be read by a clerk as other presidents used to do is still undetermined.

What Will President Say? As for the contents of the presidential message which is being prepared, nothing has been given. From a political viewpoint, if for no other reason, there will be recommendations that congress reduce the burden of taxes and also cut out of the budget what course it is unlikely that the Republicans who are in the majority in both houses will permit any action to be taken on the recommendations of a Democratic president who will take office in three months and call an extra session of congress to admit a legislative program.

ITALIANS WOULD PROBE SITUATION IN IRELAND

Rome, Nov. 29.—Inquiry into the Irish situation is favored by Catholic members of the Italian parliament, who declare there is a basis for demanding such an inquiry. Assurances are made that the situation in Ireland is quite similar to those in the Congo region of Africa, the Putumayo district of South America, Bulgaria and Armenia, which in the past were investigated. It is recalled that Sir Roger Casement, who was executed for high treason in London during the war, conducted on behalf of England the inquiry into the conditions prevailing in the Putumayo region.

FORMER EMPRESS IS MUCH WORSE

This committee will meet jointly with all delegates of the West on Dec. 7 to discuss plans which they will propose at the congress for the furtherance of the St. Lawrence deep waterway project.

FOOD CANS TO BEAR INSPECTION SEALS

Chicago, Nov. 30.—A new sanitary inspection seal, attesting to clean and healthful conditions in packing, will appear on millions of cans, bottles and jars of the 1920 food pack, the output of 600 food packers all over the country, according to an announcement made by the educational committee of the National Canners' association. This seal will be placed on containers reaching the market Jan. 1, 1921.

STATE RESTS IN RAPE CASE

Witnesses Give Virtually Same Testimony as in Mason Trial. The state rested its case shortly before noon today in the prosecution of William M. Miller, negro circus hand, charged with the rape of an 18-year-old West Duluth girl on June 14 last. Witnesses testified the same story that they gave last week at the trial of Max Mason, the first of the seven negroes tried for the assault.

**"COLLEGE BRED" STOCK CARRIES AWAY HONORS**  
Chicago, Nov. 30.—"College-bred" livestock carried away honors over entries of professional stockmen at the

International livestock exposition yesterday, nine of the twelve championships going to animals entered by American universities. Pennsylvania State led with three.

The most coveted honor went to Purdue university, winner of the students' livestock judging contests, when Black Ruler was adjudged the grand champion steer of the exposition. Black Ruler is a 2-year-old of the Aberdeen-Angus class and was bred at Purdue university.

Pennsylvania State won first place for three Leicester wether lambs, for three Shropshire wether lambs and for the best Berkshire swine, while the blue ribbon for the champion Oxford wether and for the best Leicester wether went to Iowa State. Oklahoma university agricultural experimental station entered the best Dorset and Wiltshire the three best Shropshires.

Small and with the theft of \$195,000 worth of Small's Victory bonds, the hiding place of which he revealed upon his arrival in custody from Oregon.

Doughty went to the home of Mrs. Thomas Lovatt, his sister, where he showed the authorities where the bonds were hidden. They were transferred to the police vault.

Upon arraignment Doughty made no statement, contenting himself with nodding to acquaintances. His counsel obtained a week's delay for pleading and the prisoner was sent to a cell, held without bail.

The Victory bonds were said by the police to be still the "property of Small."

**WILL CONFER WITH IRISH PRESIDENT**

Fred L. Ryan of Duluth will leave tonight for St. Paul to attend a conference of Irish sympathizers who will meet with Eamon de Valera to discuss plans for gaining recognition of the "Irish republic" of which de Valera has been elected president. It is possible that one or two other Duluthians may also be in attendance.

Leaders of the movement for Irish independence representing Minnesota, Iowa, North and South Dakota have been invited. Mr. de Valera is making a tour of the country and holding regional conferences in many places. E. T. Foley of St. Paul will be chairman of the meeting.

Organization of a state branch of the American Association for the Recognition of the Irish Republic will probably be the next move of the Friends of Irish Freedom, Mr. Ryan said today.

A temporary national organization has now been effected. State conventions are being planned everywhere, and representatives to be chosen will then meet to make the national association permanent. The Irish republic as now constituted includes 20 per cent of the Irish people, Mr. Ryan explained.

### Harper Outlines Commercial Club Plan for New Era.

Classing the work of the Duluth Commercial club as a business proposition and selling its products to business interests of the city, is the plan of the ways and means committee of the club for this year. Business houses and professional men will be classified and the plan laid before them and their support asked. There will not be a drive or campaign for funds, but a straight business transaction in which the services of the Commercial club will be sold to the business interests of the city, according to James H. Harper, director-chairman of the ways and means committee.

Mr. Harper outlined his plan to members of the organization division of the club at a meeting of directors, committee men and members held at the club today noon. His address was as follows:

The United States finds itself looking out upon a world depleted financially, materially and in man power and morale, due to the late war. It is the opportunity of this country to furnish the nations of the world with our products in the way of raw materials and labor for rebuilding, and in connection therewith the establishment of a merchant marine that will carry our products to all parts of the globe.

The railroad companies are in a deplorable condition, due to government ownership during the late war. There has been no new tracks laid during the last ten years; there is a deficiency of motive power and rolling stock which makes the railroads entirely inadequate to the needs of the nation's commerce. During the last three years there has been no building of any consequence in any direction in the country.

**Duluth Will Benefit.**

"The rebuilding of the foregoing, and the natural requirements of the nation is going to bring the greatest prosperity to the United States it has ever known, and there is no city that will

be a greater beneficiary of that prosperity than the city of Duluth. Situated as it is midway across the continent, looking to the East for manufacturing enterprise, and to the West for the wonderful fields of distribution, perhaps unquailed by any part of the United States.

"The opportunities that are waiting Superior are almost innumerable, and it is for this city to get its house in order and be ready to take its place among the large cities of the country and avail itself of those opportunities. Duluth has been geographically at the head of Lake Superior, but commercial life has been geographically at the head of Duluth Bay. The commercial Duluth is being returned; the city for the past thirty years has lived on faith and hope, but the next ten years will without question be years of realization of that faith and hope.

"The fact that Duluth has initiated the deep waterway to the sea has given it an advertising prominence of almost incalculable value. Its name is connected with a world-wide enterprise which ranks with the Suez and Panama canals, and other great undertakings of the world. The opening of this waterway will give this country an enormous water power and a commercial gateway from the center of the continent to the sea. With the coming of that waterway, which is inevitable, Duluth will become the great inland seaport of the world, and as a result of this, Duluth will become the commercial center of the Northwest.

**Only Organization Ready.**

"The Commercial club of the city of Duluth is the only civic organization through which the citizens as a whole can reach out and use the opportunities that are naturally coming to them. The business requirements of the city and the opportunities presenting themselves have entirely outgrown our ability to come with them. Last year the Commercial club spent \$30,000 in this class of development work, and \$5,000 was taken from the operating funds of the club. This amount was entirely inadequate to the work, without initiating any other activities that might ultimately be a benefit to the city.

"The board of directors proposes to enlarge the development of the following departments:

**Deep Waterway**—To maintain the club's position in connection with the project.

**City Terminals**—Largely in the way of preliminary work on the undertaking.

**Publicity**—Scientific advertising of

the city to the outside world, not within the city.

The establishment of a convention bureau, with a full paid man to bring conventions to the city, and aid in increasing hotel facilities.

**Development of agricultural work, Good Roads.**

**Necessary Club Budget.**

"It is estimated that the club's budget for the coming year will be close to \$50,000, which will call for an increase in the sustaining memberships of \$25,000. At the present time Duluth is only contributing to this class of work 25 cents per capita, whereas other cities are using from 75 cents to \$1. There will be a strict accountability by the officers of the club for the expenditures of all funds. Sustaining memberships cost from \$50 to \$2,000, and are payable quarterly. It is thought

that this plan of obtaining subscriptions will do away with the annoyance of business men by numerous appeals. In order to raise the additional amount of \$25,000, the ways and means committee of the club has devised a plan whereby this amount can be raised by the manufacturing, commercial and professional interests of the city. The work is organized by grouping these interests into divisional units. For instance, the doctors attending, hotel men, real estate dealers, automobile and insurance men, wood workers, iron manufacturers, bond houses and banks, wholesale, retail and individuals, and thus down the line, forming in all thirty-five divisions. For each divisional unit there will be a committee of three selected, consisting of a chairman and two others, who will have charge of, and be responsible for the

subscription of their respective divisions; and they will see that the amount allocated to each division is forthcoming, or very good reasons shown why it cannot be had. In this manner it is proposed to place all divisional units on a competitive basis as to percentage of subscriptions to allotment. In like manner it will be shown just what support each divisional unit is bringing to the city for the greater development of its opportunities. When the canvass is completed, every one engaged in a business or a profession in the city will have had the privilege of supporting this great work.

**Not Gift, Investment.**

"Everyone should bear in mind that this is not a gift, or even a contribution to the support of the Commercial club; it is an investment of the business and professional men of the city for the better development of the city. The Commercial club, being the only civic organization, is simply the instrumentality through which these funds can be expended for the greatest good of all our citizens. Any feeling toward the club, if any exists, should be submerged in the general good of all; in other words, all should pull together for the big result.

"We wish also to call your attention to the fact that the members of the board of directors of the Commercial club are an active bunch of men, giving of their time freely, and bringing the same care and thought to the club's work that they bring to their own business; and when they are willing to do this much, and to develop the club into a healthy working organization for the benefit of the city, they should not be

handicapped for want of funds to carry on the work they are undertaking.

"This is not a drive, nor will there be any attempt made to stampede anyone into taking a membership; it is a business proposition, pure and simple, and should not be considered as an unnecessary expense, but rather given the dignity of an overhead charge, and placed alongside taxes, interest on bonded indebtedness and other charges that must absolutely be paid to maintain a business."

**Meat Prices Cut.**

Cleveland, Ohio, Nov. 30.—A general cutting of retail meat prices ranging from 2 to 11 cents a pound was in evidence here yesterday. Prices that have been coming down gradually for two weeks reached new low levels. Bacon was cut from 46 to 35 cents.

# HIGH ENOUGH OR TOO HIGH?

### Local Opinion Divided on Increase of Minimum Wage.

St. Paul, Minn., Nov. 30.—The minimum wage for women and minors in Minnesota was increased late Monday to \$12 from \$11 by the state minimum wage commission. The announcement was made after a secret meeting of the commission. No action was taken on wages for men and minors employed in mines of less than 5,000 tonnage.

The new wage, which goes into effect next Jan. 1, will give operators who pay 18 cents or over \$3 for the first three months, \$10.50 for the second three months, and \$12 for after six months. Apprentices under 18 years of age will receive \$8 for the first three months, \$9 for the second three months, and \$10 after three months.

The commission, according to John P. Gahner, commissioner of labor, will consider the minimum wage in cities of under 2,000 in about sixty days.

While representative employers expressed themselves as satisfied that the increase was reasonable in view of the downward trend of the market, John E. Jensen, representing the Duluth Trades and Labor assembly, condemned the increase as wholly inadequate.

"The cost of living has increased 37 per cent," he said today. "The minimum wage was set during the same year at \$9 and last year it

was increased to \$11. Now that it has been made \$12, the total increase over 1915 is 33 per cent. And the cost of living has gone up 57 per cent. The figures speak for themselves.

"The low wages paid to apprentices are also inexcusable. When employers argue that they are justified in paying the girl's family to pay the balance of the cost of the store, the minimum wage should have been set at \$15. But it's too late now."

Miss Amy J. Magnus, secretary of the Y. W. C. A., who together with Mr. Jensen spoke in favor of an increase when the commission met in Duluth, refused to comment on whether the increase was satisfactory.

"I can only repeat my testimony," she said today. "We know from experience that a girl's board and room alone costs \$10 a week."

E. A. Silberstein, who also appeared before the commission on behalf of the employers, said that the scale set was exactly the one he had recommended. He declared that the Federal trade commission figures showed that the cost of living had increased 17 per cent since August, 1919, when the wage was set at \$11, and that the increase in wages takes care of the higher costs.

"Besides, the trend of living costs is downward," Mr. Silberstein said. "As a matter of fact, to a survey of our city largest stores shows that only 5 per cent of the girl employees are receiving only the minimum of \$11 a week."

I. Esmuth, while admitting that the increase was not very large, declared that it would have been wiser possibly not to have made any increase at this time in view of the fall in prices. He asserted that only the bundle girls in his store would be affected by the increase, since others were already receiving more than the minimum.

**Killed at Bowley.**  
Bowley, Minn., Nov. 30.—Lloyd M. Dennis, 26, of Grand Rapids, Mich., a potato layer, was killed here Sunday night when he jumped from an auto while in front of a westbound North-

ern Pacific train. His companion, G. F. Kreutzer of St. Cloud, stayed in the car, which was also hit by the train, and escaped unhurt.

## FOR SALE LOGGING, LUMBERING AND CAMP EQUIPMENT

## NITRE COCKTAIL NOW POPULAR AT BOSTON

Boston, Mass., Nov. 30.—Nitro cocktails, as a substitute for once-popular gin and tonics, have come into favor since the advent of prohibition according to information given yesterday by W. S. Fardy, director of registration in the state department of drug control. He said the department had noticed a tremendous increase on the sale of sweet spirits of nitre, and had found that the drug was being used as a substitute for liquor "among the better classes."

He called attention to the danger in the practice as he said the drug contains alcohol, sodium nitrate and sulphuric acid, which is a solvent of metals.

## AGED DULUTHIAN DIES.

Gustaf Gafvert, Aged 93, Succumbs After Short Illness.  
Gustaf Gafvert, aged 93, one of Duluth's oldest residents, died yesterday at the home of his son, Otto Gafvert, 112 1/2 West Fourth street, following a

short illness. Mr. Gafvert, despite his age, had been in good health until recently.

Mr. Gafvert came to Duluth in 1899 direct from Sweden to make his home with his sons. He leaves one brother in Sweden, five sons, Otto of this city, Olof T. of Chicago, Axel W. of Kimberly, Minn., and Gustaf and Carl of Sweden.

The body was taken to Fred Olson's undertaking rooms, 2117 West Superior street. The funeral will be held from the undertaking rooms Thursday afternoon.

## WHEW! STORM PASSES, MILD WEATHER GOOD FOR FEW DAYS MORE

The storm that threatened this region yesterday and last night did not develop to the extent that was expected, according to H. W. Richardson, local weather observer. As a result there is no severe cold weather on the way this morning and the prospect is that the mild weather will last for another few days, although it is likely to break at any time, he said. Tomorrow will be partly cloudy and temperature will remain about the same.

## MINISTERS NEED GOOD WAGE, SAY BISHOPS

Atlantic City, N. J., Nov. 30.—The house of bishops of the Methodist Episcopal church, in final session yesterday a presentation that a wage for the minister which will enable him to live and maintain his family at least as well as if he were engaged in every-day business, must be provided by the Methodist laity to meet the shortage of ministerial material.

This presentation, it was announced, will be sent to the head of every Methodist Episcopal congregation in the world, as the first step in a drive to create an adequate pastoral working force.

### Its old plantation flavor has made it America's favorite

**Brer Rabbit Molasses**  
Rich with the flavor of the sugar cane

OLD-time sugar cane molasses! Two Louisiana boys, remembering the wonderful flavor of home-made molasses down on the old plantation, decided to restore this bygone delicacy. They put up a molasses the first taste of which carries you back to childhood joys.

Today it is the most popular molasses in America. Get a can of Brer Rabbit. Either the light molasses (gold label—for table use as well as cooking) or the dark molasses (green label—a stronger cooking flavor).

Molasses Pie  
1/2 cup Brer Rabbit Molasses (gold label)  
1 1/4 cups scalded milk  
2 eggs  
1/2 teaspoon cinnamon  
1/2 teaspoon salt  
1/2 teaspoon nutmeg  
2 tablespoons sugar

Beat egg and yolk of two, slightly; pour over them scalded milk; stir constant. Add molasses, spices; cool. Line pan tin with pastry; pour in filling. Bake till cake comes out clean. Remove from oven, cover with meringue made from remaining whites, beaten stiff and combined with sugar. Brown in a moderate oven.

# RE-EDUCATION BEGUN HERE

### Temporary Offices Opened at Courthouse; M. A. Morse in Charge.

Active steps are being taken to bring to the attention of those whose capacity for acquiring a living has been in any way decreased or impaired through accident or disease the work of the division of re-education, which is being conducted through the state and federal governments. Mr. H. H. Morse, director of re-education, and M. A. Morse, assistant director, are in Duluth and will establish temporary offices in the courthouse.

Mr. Morse will devote a great deal of his time to Duluth and the range counties, where at least 1000 persons are known to be in need of re-education. During the last year there have been about thirty blind and started on the work of re-education. Mr. Morse's office, while in Duluth, will be ready to receive information as to who would be benefited by the work of re-education. This office will be open during the mornings.

The work that is being done by the division of re-education is along vocational lines. Vocational training was begun during the war. The state department of re-education will be in charge of this work through the mornings.

**Shoots Daughter by Mistake.** A farmer mistaking his 3-year-old daughter for a fox and shooting her is the tragic tale told by J. H. Morgan of Ashland, while in Superior yesterday afternoon en route to his home. Mr. Morgan stated that he had been told that the father near Popple, Minn., went out hunting and taken his 3-year-old daughter with him. He left her near a roadway and when he returned from another direction noticed a brownish object on a stump. He fired the bullet entering the child's right shoulder and through the chest. It was reported that the child will recover. The child had been wearing a reddish brown coat. Mr. Morgan did not learn the name of the farmer.

**Kiwanis Club Wednesday.** Members of the Duluth Kiwanis club will take up the consideration of the amended bylaws which were introduced last Wednesday at the meeting tomorrow. Final action will be taken at this meeting. Announcement will be made at the meeting of a ladies' night to be held Dec. 15.

**Widow Wins Suit.** Mrs. Leon Gilroy of Superior was awarded a judgment of \$7500 in the superior court of Douglas county against the Aetna Life Insurance company, the full amount of the policy carried the life of her husband. Mrs. Gilroy sued for the face value of the policy held on the life of her husband, who was killed last summer while switching cars in the yards of the Great Northern railroad during the switchmen's strike in Minneapolis. The company fought the case on the grounds that a clause in the policy placed the occupation of switchmen in a prohibitory class, but the plaintiff contends that he was employed at this occupation only in an emergency.

**Sues Street Railway.** Damages in the sum of \$700 are sought by Ruth Elbert against the Duluth Street Railway company in a prohibitory class, but the plaintiff is directed court to recover for injuries alleged to have been received in alighting from a street car at Fifth avenue east and Fifth street on Aug. 19 last.

**Sues Misable for Damages.** A. P. Nelson filed suit in district court today against the Duluth, Missisquoi & Northern Railway company to recover \$2,000 damages for the destruction by fire of buildings located near the company's right-of-way in Nelson's townsite near Hibbing on July 13, 1919. Sparks from passing locomotives caused the fire, it is claimed.

**Would Recover Loan.** Anton Simich began suit today in district court to recover \$120 from John March. It is claimed that the defendant received this amount on a loan from Mato March on May 21, 1919, and that the latter assigned him the claim on Oct. 6 last.

## STREET RAILWAY WINS AGAINST SUPERIOR

The Wisconsin railroad and warehouse commission at Madison today dismissed a complaint filed by the Superior against the Duluth Street Railway company. The complaint was made regarding service as well as extension of service demanded by the city.

A part of the complaint which referred to the Twenty-first street extension and additional tracks for the South Superior lines were continued. This plan, the complaint will be taken up again for consideration when labor and economical conditions have become more settled.

Washington street, New York, will hold a meeting at Duluth Dec. 13 to hear appeals from appraisement and protests against classifications. The value of cedar poles for telephone and telegraph use, imported from Canada, will be one of the main subjects of the session at Duluth. The appraisement on poles and thirteen importers of poles, some of them from Minneapolis, are to appeal from the recent ruling.

## LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect.

But browning at home is messy and out of date. Nowadays, by asking at any drug store for "Wyneth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.—Advertisement.

# REWARD FOR AUTO DRIVER

## City Would Capture Reckless Autoist; Would Curb Future Offenders.

A reward of \$250 for the apprehension and conviction of the driver of the automobile that ran down and injured three persons at Grand avenue and Perry-street avenue west Thursday night was authorized by the city council at its meeting yesterday. While the ordinance was first introduced by Commissioner Phillips, it carried the provision that it should be paid out of the general fund and this could not be legally done, according to John E. Samuelsen, city attorney.

The only way in which a reward could be offered and paid would be through the contract fund of the city, Mr. Samuelsen asserted, and in view of this Commissioner Phillips took over the ordinance and had it introduced under his name. He informed the council that he would instruct Chief of Police Pugh to offer the reward at once.

**To Honor West Duluth.** Commissioner Phillips in introducing his ordinance declared it was not for the city but for the interest of West Duluth residents that he was submitting the ordinance. Commissioner Phillips did not welcome the swiftness of the ordinance to Commissioner Phillips, he declared he wanted to be entirely separate from the police department. Commissioner Phillips had had his reluctance in offering a reward was that there was no provision in his appointment for the payment of such rewards and his department was compelled to look close to the wind, within the amount appropriated.

City Attorney Samuelsen gave the opinion that the contingent fund of the chief of police could be replenished from the general fund when depleted. With this understanding, Commissioner Phillips announced he would take over the ordinance and submit it under his name.

The commissioners then discussed means of curbing recklessness in driving and Commissioner Phillips announced that special traffic officers would be kept on duty as long as the weather permits or until automobiles were turned off the streets by the cold and snow.

It developed in the discussion that the state traffic laws prohibit driving past open gates of a street car, making no provision for safety zones. According to Mr. Samuelsen, everyone who drives past a safety zone while street car gates are open, is placing himself liable under the law and that if an accident occurs, the state is liable.

**Large Better Traction Service.** Another complaint of the service of the Duluth Street Railway's conductors was read to the city council yesterday. It dealt with the service on the Woodland line and asked for better service during the morning and evening hours.

"Service on the Woodland car line between 6:30 a. m. and 8:30 a. m. and from 5 p. m. to 7:30 p. m. is very inadequate," the letter read. "Would also suggest a better connection at Twenty-fourth avenue east. The practice of passing up people at the street corners should be stopped. Sometimes these people have been waiting a long

time for a car, only to see one pass them by."

A report of the condition of the toilets and washrooms of 248 public business places, such as stores, restaurants and office buildings, was presented by Commissioner Phillips.

"The report has been compiled because I understood that there was some criticism of the conditions of the toilets and washrooms in public buildings," Mr. Phillips explained. "It was made up by the health department and shows the conditions that exist exactly."

A few of the buildings were rated as "good," but the majority received ratings of "fair" or "poor." Mayor Hugo suggested that the owners of the property be given the opportunity to improve conditions before public announcement was made of those places being below the average.

"If they do not bring them up to the 'good' standard in a short while the names and locations of those still below par should be given to the newspapers," he said.

**Boys New Car.** Leonard McNamara will supply the health department with a new six-cylinder automobile for a consideration of \$1,600 and the old Chevrolet touring car. The contract to furnish the fire department with 225 yards of eighteen-ounce cloth will be awarded to Carey, Deuschler & Denis on their bid of \$4.75 a yard. The commissioner of public safety will advertise for bids on 4,000 feet of lead-covered cable for the fire department.

Sanitary sewers will be constructed in Central alley from a point opposite lot 16, block 3, Sharp's addition, to

Albion street and in Albion street to Fifty-third avenue west and in Fifty-third avenue west to a sewer in Melindah street. The estimated cost is \$2,720.85.

Sewers will also be constructed in Ninety-eighth avenue west from Peary street to Prescott street at an estimated cost of \$3,844.40, and in One Hundred and Second avenue west from Peary street to a point opposite lot 22, block 10, New Duluth, First division, at an estimated cost of \$2,014.87.

The claim of Catherine Stephens for damages which she alleges were sustained on Oct. 18 will be settled in the sum of \$42.50. Nellie Tucker claims \$500 damages for injuries she alleges she sustained when thrown from an automobile at 2:30 a. m. Nov. 1. She alleges the accident occurred at North Central avenue and Blinn street and

that the car crashed into some building materials which were left on the street at night with no lantern to point out their position.

**OBJECT LESSON IN ANIMAL RAISING**

Chicago, Nov. 30.—While one of the most important purposes of the international livestock exposition which is being held here is to promote better breeding of livestock and consequently the production of better meat animals, even more important than that, perhaps, is the judging of meat itself—the result of better breeding and growing activities.

At the exposition this year the

judging of the carcass meat is being done by W. B. Margerum, a retailer of Philadelphia.

Prior to the show individual cattlemen slaughtered for the exposition. These carcasses represent what in the opinion of the expert buyers of the packers in the stock will "dress out" to the greatest percentage and best quality of edible meat products.

**Differs From Judging on Hoof.**

Then at the exposition he determines from which of the animals has been produced meat of highest quality and finish, irrespective of the manner in which the animal has been fed or raised. These carcasses as judged will then be placed on display at the exposition, so that livestock producers, as well as the packers' representatives and retail butchers, may have an object lesson in the best kind of animal

to raise, buy and sell so far as its utility for meat alone is concerned.

This judging of the carcass differs from the judging of the animal on the hoof in that it does not take into consideration the fine points of breeding, such as carriage and marking, or the quality of the hide or the worth of its other by-products. It is strictly the judging of an animal on its merits as the raw product for meat.

**Two Farmers Kill Wives.**

### TWO MINNEAPOLIS DETECTIVES SHOT

Minneapolis, Minn., Nov. 30.—Two Minneapolis city detectives were shot today by a Mexican bandit suspect who was probably fatally injured and a former Canadian soldier, now a patient in a Minneapolis hospital, was arrested after shooting a detective from his hospital bed in two shooting scenes last night.

J. L. Leskin, detective, was shot through the hand by Antonio Antonio, a Mexican, in a rooming house when he seized three suits of stolen cloth in his possession. In self-defense, Antonio shot the Mexican through the chest, fatally wounding him.

Alvin Passol, who witnessed the shooting, was himself shot a few hours later by Howard Blakie, 46, from the bed in a local hospital. The bullet struck his detective's chest, but resulted in no serious injury. Blakie is a former Canadian soldier under the care of the Federal health service. He was believed to be temporarily detained from duty.

Passol had gone to the hospital to arrange a disturbance suit to have been caused by Blakie. Neither detective was seriously injured.

### CRACK CORN RAISERS. Two Minnesota Boys Raise Over 100 Bushels Per Acre.

St. Paul, Minn., Nov. 30.—(Special to The Herald)—Minnesota boy and girl crack corn raisers apparently do not find it difficult to grow 100 bushels of corn to the acre. Winners of the five-month-old crack corn contest have just been announced at the office of T. A. Brice, state leader of boys and girls club work at University farm.

Carl V. Zimmerman, 17, of Tracy, 15th county, raised 202 bushels on his five-acre lot which he had planted with silver King seed on May 15. Five-year rent of land at \$5 an acre and seed cost him at 10 cents an hour, the boy's total cost in producing the five-acre yield was \$75. The total value of his crop, including forty bushels which he had packed for seed, was \$359.50, leaving him a profit on the five-acre tract.

Albert Clark, 18, son of George L. Clark of Appleton, won the acre corn lot contest, producing 114 bushels and 15 pounds of corn, valued, including seed, at \$111. With expenses placed at \$22.10, he had a profit of \$88.90 on his acre plot.

Both Zimmerman and Clark won first prizes in the international five-acre show in Chicago and are now among the sixties of crack corn raisers.

### DE VALERA WILL MEET IRISHMEN OF NORTHWEST

St. Paul, Minn., Nov. 30.—Eamonn De Valera, president of the "Irish republicans," will hold a conference here Wednesday with leaders of the movement for Irish independence from Minnesota, Iowa and North and South Dakota, to discuss plans for gaining recognition for the Irish republic.

### BELOIT MAN KILLED BY SHARON, PA., NEGRESS

Beloit, Wis., Nov. 30.—Clarence B. Alcock of Beloit was shot to death at Sharon, Pa., by Maud Floyd, a negress, to whose home he had gone in an effort to recover some money reported stolen from him, according to information received in a telegram from an official of the company which employed Alcock.

### Appleton, Wis., Saloon Raid.

Appleton, Wis., Nov. 30.—Three saloons were raided here by Federal agents yesterday, and evidence secured taken to Milwaukee for presentation to the grand jury now in session. Federal officials who conducted the raid declared that their investigation had shown unofficial charges purporting to connect local police with liquor running operations were unfounded.

### URGES FINANCIAL RELIEF FOR FARMERS

Sioux Falls, S. D., Nov. 30.—Senator J. S. Johnson of South Dakota has sent a telegram to President Wilson, urging immediate financial relief for farmers and livestock producers of the Northwest. The message said "conditions are extremely serious."

### BURLEIGH COUNTY, N. D., WHEAT HOLDERS FORMED

Bismarck, N. D., Nov. 30.—At a meeting of about 100 Burleigh county wheat growers here Monday, it was decided to continue to hold wheat for higher prices.

Howard Thomas of Driscoll, chairman of the Burleigh county branch of the National Association of Wheat Growers, expressed the opinion that growers will be unable to obtain the \$2

**PREPARE TO FIGHT FOR DEEP WATERWAY**

Chicago, Nov. 30.—The council of states of the Great Lakes-St. Lawrence Waterway association yesterday began what it announced would be a "fight against Eastern organizations which are opposing the plan to open a way into the interior for freight carrying steamers."

A subcommittee, of which Governor Peter Norbeck of South Dakota is a member was appointed. A statement said "it was expected that the first fight would come at the national rivers and harbors congress in Washington next week" and that the

committee would attend the congress prepared to do everything within its power to further inland waterways projects.

**Urges Commission.**  
Governor W. L. Harding of Iowa, in an address, urged that each state in the association create a tidewater commission and appropriate money to push the work.

R. B. Inman of Indianapolis, and other speakers urged the necessity for opening the interior of the United States for foreign trade and declared that the loss to the country as a result of the inability of farmers to market their grain during the last year was fully \$1,000,000,000.

The report of the association's work, presented by C. P. Craig of Duluth, urged Governor Harding's recom-

**RAILROAD WANTS PAY FROM GOVERNMENT**

Washington, Nov. 30.—Mandamus proceedings against the secretary of the treasury were instituted yesterday in the District of Columbia supreme court by the Grand Trunk Western Railway company to require payment of an interstate commerce commission certificate calling for \$50,000 as due the road under the guaranty provisions of

the transportation act. Justice McCoy issued an order returnable Dec. 7, requiring Secretary Houston to show why the writ should not be granted. While the Grand Trunk is the only petitioner, approximately \$400,000,000 claimed by railroads is involved, according to a statement issued last night by the Association of Railway Executives.

"This proceeding grew out of the opinion rendered Oct. 7, by the comptroller of the treasury," the statement said, "based on certain certificates presented by the Interstate commerce commission to the treasury department in favor of the Grand Trunk Western Railway company and the Detroit, Grand Haven & Milwaukee railroad, in which opinion the comptroller held partial payments could not be made

by the secretary of the treasury to a carrier in advance of final settlement. "The comptroller held that the interstate commerce commission was empowered to issue only one certificate to each carrier, which must be for the full amount of the wian settlement."

**MILL CITY LANDMARK HOTEL FIRE DAMAGED**

Minneapolis, Minn., Nov. 30.—The Stratford hotel, located at Twelfth and Nicollet avenue, one of the city's landmarks, was badly damaged by fire

late Monday. The loss is estimated at \$10,000. The hotel, a three-story structure, was built more than fifty years ago. The blaze started on the third floor but there were no guests there. Others in the building had no difficulty in escaping.

**Muffins**

- 2 cups flour
  - 3 teaspoons Royal Baking Powder
  - 1 tablespoon sugar
  - 1/2 teaspoon salt
  - 1 cup milk
  - 2 eggs
  - 1 tablespoon shortening
- Sift together, flour, baking powder, sugar and salt; add milk, well-beaten eggs and melted shortening; mix well. Grease muffin tins and put two tablespoons of batter into each. Bake in hot oven 20 to 25 minutes.

**Date Muffins**

- 1/2 cup butter
- 1 egg
- 2 cups flour
- 2 teaspoons Royal Baking Powder
- 1/2 teaspoon salt
- 1/2 cup milk
- 1/2 lb. dates

Cream butter, add beaten egg, then flour, baking powder and salt which have been sifted together, and milk. At the last stir in dates which have been pitted and cut into small pieces. Bake about 25 minutes in greased gem pans. If a sweet muffin is desired, add 1/4 cup sugar to the above.

**Coffee Cake**

- 2 cups flour
  - 1/2 teaspoon salt
  - 1/2 cup milk
  - 1/2 cup sugar
  - 4 teaspoons Royal Baking Powder
  - 2 tablespoons shortening
- Mix and sift dry ingredients; add melted shortening and enough milk to make very stiff batter. Spread 1/2 inch thick in greased pan; add top mixture. Bake about 30 minutes in moderate oven.

**Top Mixture**

- 2 tablespoons flour
  - 1 tablespoon cinnamon
  - 3 tablespoons sugar
  - 2 tablespoons shortening
- Mix dry ingredients; rub in shortening and spread thickly over top of dough before baking.

A man should BE upright, not be KEPT upright.

—Marcus Aurelius.

storms at the equinoctial period, your ordinary citizen may in triumph exclaim: "There! Look at that rain! Don't tell me that there isn't such a thing as an equinoctial storm, for there is one right before you." And not even when the weather man turns to his records and shows that there are at least as many equinoctial periods without storms as there are with storms does the believer in equinoctial storms abandon his confidence in them.

And now a weather bureau man is trying to tell us that the animals don't know in the fall anything about what sort of weather we are going to have in the winter!

"The muskrat is building a warm house; we are going to have a hard winter." Or, "the muskrat is building his winter home flimsily, so it is going to be an open winter." Everybody hears such things every fall, and nearly everybody likes to believe them. Though it was straining credulity a little when a Minnesota Indian weather sage based his prediction of a long, hard, cold winter on his observation that the white man was buying more coal than usual.

Yet the New York weather man, writing to the Evening Post, says there is nothing to this, either. "In a state of nature," he says, "the conditions or movements of animals are more likely to be the result of past or present weather than an indication of future conditions." In other words, if the muskrat is building a warm house in October, it doesn't mean that he has a straight tip that it is going to be a hard winter, but merely that it is cold when he is working at it.

YOUR CHRISTMAS SHOPPING.

As you have gathered from the advertisements in The Herald, the wonderful assortment of Christmas goods is now ready for you, and you will find it more fascinatingly interesting than ever before.

And, speaking of that, the case for early Christmas shopping is as good this year as it ever was; and it is still true that the wise ones are doing their early for these obvious reasons:

Because they get the pick of the display before it is depleted by buying and perhaps worn by handling.

Because it gives them a long period over which to string the cost of it, thus lessening the burden of its expense.

Because they can plan their buying more at leisure, and thus reduce the chance of mistake by making possible a wiser and more careful choice for Willy and Mary and Aunt Harriet and Uncle Tom and the rest.

Because—we hope there are a lot of people kind enough to be guided by this reason—by getting their buying out of the way early they lessen the last-minute burden on the stores and their employees who sell, wrap and deliver packages.

The wise ones are planning it all now, and have begun their buying while assortments are unbroken and a leisurely choice can be made and the goods are fresh. Long before that painful last week which is such an infraction of the Christmas spirit, their Christmas buying will be all done, and they will be in a position to watch the frantic scrambling of the less wise ones with a consciousness of superiority and better fortune due to their own good sense.

THE MYSTERY OF A FLIRTATION.

Recently Frank A. Day said in his Fairmont Sentinel: "We would like to see Fred Hadley in knee breeches and powdered wig at the court of St. James."

Ireland Today

Extracts From a Statement by the Cardinal Primate and the Archbishops and Bishops of Ireland:

It is not easy for the pastors of the flock to uphold the law of God and secure its observance when oppression is rampant in a country. Where terrorism, partiality and failure to apply the principles which its members have proclaimed are the characteristic of government, the task is rendered well-nigh impossible. And, unhappily, such means as these, in a most aggravated form, Ireland is now reduced to a state of anarchy.

With no feeling of complacency do we recall the fact that when the country was crimeless we wanted the government that the oppressive measures which they were substituting for their professions of freedom would lead to the most deplorable consequences. The warning was in vain; and never in living memory has the country been so much afflicted as it is now.

Before the war began, and especially before the drilling and arming of Ulster, Ireland, however, insisted on reform long delayed, was in a state of order and peace. Now there are murders, raids, burnings and violence of various kinds.

On a scale of lawlessness have to be reckoned countless indiscriminate raids and arrests in the darkness of night, prolonged imprisonments without trial, savage treatment from tribunals that command and deserve no confidence, the burning of houses, towns and villages, the destruction of property for want and famine, by men maddened with drink and bent on loot, the flogging and muzzling of the poor, perpetrated by the forces of the crown, who have established a reign of frightfulness which, for all this, is not the least, is the most deplorable crime of the century.

Men have been tortured with barbarous cruelty. Not a day goes by when some young woman torn, undressed, from their mothers' care in the darkness of night.

For all this, not the men, but their masters, are chiefly to blame. It is the question of hasty reprisals which, however unjustifiable, might be attributed to extreme provocation, and the government, the lords, nor of Lynch law for misdeeds, nor of self-defense of any kind whatsoever.

It is the indiscriminate vengeance of savages, deliberate and unprovoked, against the helpless, without any proof of its complicity in crime, by those who ostensibly are employed by the government, to protect the lives and property and restore order in Ireland.

This went on month after month, and there was no sign of restraint or reform. Public investigation or deterrent punishment on the part of the authorities. It went on unchecked until the world was horrified at the deeds perpetrated under the regime called government in Ireland. Then was palliated and excused, more than half denied and less than half admitted, by a minister of the crown, on his way to being presented in a false light, and in that light, in a deplorable and unbecoming manner, superior in the British Empire, and a disgrace to the name of a minister of the crown, and a disgrace to the name of a minister of the crown.

At the same time the carnage of sectarian riots and the conditions of anarchy and lawlessness in the cities and towns of Ulster, resulting in woeful slaughter on either side, in deprivation and loss of life, in the burning of shops and homes, and in the extermination, for the weaker party, in Belfast, of about 8,100 persons had registered as exiles, and in every other part of Ireland is a minority persecuted. Only one person, it is said, was found among the Irish people, and perhaps recent sad events may, before it is altogether too late, point to the eyes of the people of England to the inquiry into the government of Ulster with a separate government.

Its worst instrument, a special police force, to enable it to trample under foot the victims of its intolerant.

But it would be idle to be too confident of that. The governing classes across the water, instead of encouraging Ulster Unionists to coalesce with the rest of the country, have used that as a spearhead directed at the heart of Ireland. Oppression, as everyone knows, generates crime, and leads to further oppression, more potent than even the rule of brute force, in reducing Ireland to anarchy, has been the result of the policy of the British government in regard to the Ulster question.

The whole British administration set on foot, and an army of British troops, police and customs officials held up, the roads and wires seized. Let anyone contrast the landing of arms at Larne with the landing of the military when arms were landed at Belfast, and the difference is plain. The Ulster Volunteers as compared with the British troops, which resulted in the arming of the people, and the disarming of the rest of Ireland.

In these days we have formal approval reported of the Belfast pogrom from a minister of the crown, and in the name of protection under the new Belfast pact for all who are true to the colors.

If there is any one in Ireland, the ministers of the British crown, and yet, as yet, the plausible pretense of not coercing Ulster, founded on false pretenses, but on the ordinary judgment can see how undesirable the process can be, in the name of a guarantee to a minority, in advance, of all coercion is to put a premium on lawlessness and to make a settlement impossible.

Human Nature

The climate here is luscious, very, and even winter days are warm; but my old heart is so contrary I sometimes long to see a storm. Where I am able the weather wizard provides the smoothest goods he owns; and yet, long to hear a blizzard whoop past the house, with mauling tones. The tourists come, a cheerful legion, and visit me a while and say, "This is the finest, grandest region—here every day is a perfect day!" They dance around in the joyous frisks, ecstatic over things they see; and I remark, "You bet your chinkers, this country's good enough for me." But when the tourists leave my shanty, in general pairs or blocks of five, I say to Jane, my spinster ammie, "I wish a cyclone would arrive! Oh, for a good old Kansas twister, destroying barns, uprooting trees! Oh, for a hot wind that would blister, oh, for a cold wind that would freeze!" And were I back where winds are blowing, and winter's white with snow and rime, some grievous ailment would be throwing, denouncing such a hearty climate. There is no bliss for any mortal man, he quits this vale of woe, and enters, through the shining portal, the land where all the righteous go. And that bright land, perhaps he'll scan it, and mutter to his saintly guide, "This place looks cheap beside the planet where I grew up and loved and died."

Why Begrudge the Silk Shirt?

Johnstown, Pa., Democrat: In the McKibbey days it was the proud boast of those who ruled as that the American workmen were able to buy pianos for his home and silk dresses for his wife. That, said the silk-shirted, denoted prosperity. In our day, the workers have been able to buy automobiles, silk underwear for the wife and silk shirts for themselves. That denotes waste, wastefulness, according to all of the Republican economists.

Now the campaign is over, Republicans have been victorious—overwhelmingly victorious. There is no longer any need for silver. Will some Republican on the inside answer us this simple question? Why have Republican writers and speakers so begrudged the worker his silk shirt? Did the Pittsburgh steel millionaires want the silk shirt as a uniform of their class? Why was it that the worker was supposed to be a pauper ever the line when he bought a silk shirt?

The men who have a large supply of silk shirts, should begin to think of the garment with a great deal of consideration. They will be a bit more difficult to obtain after Harding has been on the job a year or so. It does not become true. Unemployment, we understand, is due to Democratic inefficiency.

That is so, there is no reason why Republican efficiency should not give every man in the country a good year at good wages—a four-year contract beginning March 4, 1921.

Health Talks

By William Brady, M. D.

The Gallias

The gallias or gallbladder, the size and color of a small or trial size lemon, lies just under the edge of the ribs a bit to the west of the position that marks the tip of the breastbone. It is filled with gall. It has but one nozzle through which it squirts the gall from the main gall channel, which conveys the liver to the intestine. Gall is not a disease, you understand; it is the bile, the natural secretion of the liver. But the gallias is rather sensitive to indigestion. It has ever served any essential purpose in the body of a right animal. Like other structures which have become more or less superannuated in the course of human progress from the all-fours to the fore all state, notably the wisdom tooth, the vermiform appendix and the tonsils, the human gallias seems to be particularly vulnerable to disease. For which, by the medical profession, may be grateful.

Not by inhuman oppression will the Irish question be settled, but by the recognition of the inalienable right of Ireland as of every other nation, to choose the form of government under which its people are to live.

But, as more immediately urgent than anything else, we demand, in the name of civilization and national justice, a full inquiry into the atrocities now being perpetrated in Ireland by such a tribunal as will inspire confidence in the minds of the Irish people, and will give evidence with safety to the press.

The press is gagged in Ireland, the right of public meeting has been interdicted, and petitions suppressed. There has been brutal and unprovoked violence against the Irish people, and a distinguished archbishop of Irish birth, who is the trusted leader of democracy in America, is one of the men who have been purged and tyrannical oppression could take.

In existing circumstances it would be idle to say to our people that the outlook was anything but menacing. It is not, however, that we ever want a time when they should rely on God with more confidence that He will prosper their struggle for freedom while they remain steadfast to the goals and requirements of Holy Faith. It is for a nation of martyrs to cultivate constant self-discipline.

Our people were a great Christian nation when passed chaotic across the channel. They will remain, please God, a great Christian nation when the new paganism which now prevails there has run its evil course.

St. Patrick's College, Maynooth, October 19th, 1920.

Evidently Guilty

Editorial in the Louisville Courier-Journal.

It is evident from the prepared statement of the secretary of war, Mr. Baker, that the war department was guilty, at the time the order was signed, of having assembled and drilled four regiments of men and stored too many millions of dollars worth of supplies. It is evident that the army of 5,000,000 men in America was to have to conduct the campaign of 1918 was entirely too large. It got in the way of a wonderful war and stopped it.

If we stop the preparation of the army, which America achieved in a short time and at a really indecorous gain, we intend to continue it. France and Great Britain will continue to continue it, when, as Gen. Hindenburg says, the action of America in the Argonne made it necessary for the Germans to sign up, and the world will be a better place for it.

Therefore unnecessary for France and Great Britain and Italy to continue.

Energetic castigations of the Wilson administration have asserted that this country was not sufficiently prepared for 1918. Between April, 1917, and November, 1918, preparedness waxed in America like a snowball rolled down a hill. It gathered momentum as it went. When the armistice was signed, because American efficiency in action made it necessary for the Germans to sign up, and the world will be a better place for it.

Compared with the army of 5,000,000 men, the army of Xerxes would have looked like a sheriff's posse.

In course of preparation the war department bought right and left what would be needed by 5,000,000 red-blooded fighting men; of a greater army, in point of size and effectiveness, than the world had ever seen, an army which proved a deciding factor in before got half through its growing up.

The war department, with its immense supplies on hand, was caught red-handed in the act of buying the war material, too hot for the enemy. There was too much preparedness. There were too many military stores. There were too many military stores. There were too many military stores.

No country in Christendom or in Islamdom, ever was guilty of beating up an enemy so extravagantly large and lasting for that army so many millions of tons of supplies.

That Secretary Baker, as well as others, was guilty of this outrage. Von Hindenburg and Wilhelm, the Kaiser, and George Sylvester Viereck cordially agree. That nearly half of the computed cost of the war will be turned back in the Federal treasury may surprise, even disappoint the cavaliers, but the surprise and disappointment cannot be as great as the surprise and disappointment of the crowd behind the Hindenburg line when the American army got into action in France, and disinterested Americans are glad to hear that \$200,000,000 which, as Mr. Baker says, "Congress provided with an unstinting hand for the supply of our soldiers."

THE OPEN COURT

Readers of The Herald are invited to make free use of this column to express their views on any general interest, but discussion of sectarian, religious differences is barred. Letters must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.

EVELETH HOCKEY FAN RAPS DULUTH TEAM

To the Editor of The Herald: After reading some of your publicity as regards the program outlined for the Duluth hockey team this year, I have been inclined to wonder what class of hockey Duluth is going to play.

Of course there was not the slightest bit of publicity shown against Eveleth when Duluth withdrew from the league of first-class hockey teams of which the local organization was and is a member.

Having lived in Canada for several years and having always been very much interested in hockey, I dare say that I am as well informed as any subject as anyone else and for your information, if you are not already acquainted with the facts, I will tell you something about these teams that you have scheduled games with and meantime, let those who read this judge for themselves the class of teams you expect to play.

In Winnipeg there are four classes of hockey; namely, senior, intermediate, junior and juvenile. Some of the senior teams have taken an intermediate class playing under the same name as the Monarchs Senior. There will also be a Monarch intermediate team.

Since you allow all kinds of foreign teams to practice in your city, I wonder if you would be so kind as to allow an American hockey team to play a few games? The subject I wish to speak about is Americanism.

It has long been the practice of large corporations to either import or encourage immigration for the purpose of creating a cheap labor supply, and then creating race hatred among them for the purpose of promoting rivalry, which is their meat and drink.

Now the reverse is proven, for the same war that razed Europe is bringing a flood of immigration to America that is exceeding all records. If Americanism means smothering America with all the degradation of Europe for the purpose of reducing the American laboring man to the lowest level, then I think we had better take in our flag for a country that is every man's country is no man's country.

It has long been the practice of large corporations to either import or encourage immigration for the purpose of creating a cheap labor supply, and then creating race hatred among them for the purpose of promoting rivalry, which is their meat and drink.

Of the billions thus gathered the United States bureau of standards tells us that 33 cents of every dollar this year goes for war, past, present, or to come. Only one cent goes for education and sanitation.

Now comes a proposal for compulsory military service, modeled after Prussia, to add \$1,125,000,000 per annum to the load. Can our Uncle Sam bear up under it? Do our boys want to be conscripted? Let the voice of the voter be heard by the voters of Prussian militarism. Otherwise section 69 of the Wedworth army reorganization act will be resurrected and foster conscription upon the country whenever the president or congress declares a national emergency to exist.

Unrestricted Immigration May Hurt U. S. Labor

To the Editor of The Herald: Since you allow all kinds of foreign teams to practice in your city, I wonder if you would be so kind as to allow an American hockey team to play a few games? The subject I wish to speak about is Americanism.

It has long been the practice of large corporations to either import or encourage immigration for the purpose of creating a cheap labor supply, and then creating race hatred among them for the purpose of promoting rivalry, which is their meat and drink.

MORE OVERLOAD FOR UNCLE SAM

To the Editor of The Herald: Election's over! What now? If we want liberty, we must pay its price—equal vigilance.

Our swollen national budget already represents a tax of \$50 upon every man, woman and child in the U. S. A., \$25 for every family of five persons to pay annually.

Of the billions thus gathered the United States bureau of standards tells us that 33 cents of every dollar this year goes for war, past, present, or to come. Only one cent goes for education and sanitation.

# LARGE SUM TO FIGHT PLAGUE

### Sale of Seals Must Be Heavy; St. Louis County Quota Is \$11,000.

Some idea of the need for a large sale of 1920 Christmas seals, which are being sold to help meet the cost of the fight against tuberculosis, is expressed in the proposed budget of the St. Louis County Health association, which has been made up for the coming year. The minimum amount that will allow the work to go on along the lines planned for next year call for the sale of \$11,000. The quota for Duluth has been set for \$22,000, and it is the intention of the association to obtain this amount if possible, as the prevention of education in the prevention of this disease that is allocated to the city, while the other half will go to the state and national organizations.

**Budget for Next Year.**  
According to the budget it is arranged for the county's work during the coming year, \$1,000 will be spent for administrative work as follows: pamphlets and distribution by health department and public health nurses, \$50; printing, including the annual report, \$250; health exhibits at St. Louis county fair, \$200; social exhibits and shows of children, \$25. There will be \$1,000 spent for administrative work as follows: health exhibits, \$150; shows of children, \$150; and \$250 will be spent for expenses of handling the Christmas seal sale.

This makes a total of \$5,500 and as all 20 per cent of the proceeds of the sale are available for use in St. Louis county the carrying out of this program involves the obtaining of a sale amounting to \$11,000. The association has planned a much more extensive program for the coming year and has increased the quota of \$22,000, confident that this can be obtained before the close of Christmas day.

### MANY BADGER POULTRY SHOWS ARE SCHEDULED

Milwaukee, Wis., Nov. 30.—Sales of farm poultry at the Greater Milwaukee poultry show here amounted to more than \$900 during the forenoon and Friday. It was announced by officials of the show that poultry shows are to be held throughout Wisconsin during the month of December and it is announced that the official American poultry association show will be held at Port Arlington, Dec. 29 to Jan. 3, according to a recent announced program.

Other annual shows which will be held in the state this year are: Watertown, Dec. 1 to 5; La Crosse, Dec. 1 to 6; J. E. Nichols, secretary; Cedarburg, Dec. 2 to 5; W. H. Hiron, secretary; Sheboygan, Jan. 4 to 9; Jesse Daniels, secretary; Superior, Jan. 13 to 16; John Tyson, secretary; Fond du Lac, Jan. 20 to 23; H. L. Warburton, secretary.

### WILLISTON, N. D., MAN IS OLDEST STATE OFFICER

Bismarck, N. D., Nov. 30.—C. A. M. Spencer of Williston, who has been appointed by Governor Frazier to the workman's compensation bureau, is the oldest state official in a responsible position. It was said at the state house, Mr. Spencer, whose age is said to be about 70 years, practiced law when North Dakota was a territory. Mr. Spencer is named to the place of L. J. Veach, who was ousted by the governor.

### TO START FIGHT TO MAKE CANDY CHEAPER

Chicago, Nov. 30.—A fight to make Christmas candy cheaper was started yesterday by the city council high cost of living committee. Alderman Max Adamowski, chairman, and despite the objection of nearly 20 cents a pound in sugar, candy manufacturers were not to start.

"They are planning to reap a harvest during the holidays, but we intend to see their plans are thwarted," he said.

Charles Cline, United States district attorney, announced his agents had gathered evidence of profiteering in butter and eggs in Chicago and that a Federal drive to punish profiteers would be started.

### BOARD RECOMMENDS PAROLE FOR ATWOOD

Boston, Mass., Nov. 30.—The board of parole yesterday recommended release on parole of Dr. Elbridge D. Atwood, osteopath, who is serving a life sentence for killing Dr. Wilfred T. Harris, president of the Massachusetts College of Osteopathy in June, 1916. Dr. Atwood was charged to murder Dr. Colia H. Adams, also an osteopath, who committed suicide. As his trial evidence was in conflict with the testimony of Dr. Harris.

Upon learning of her death, Atwood went to Harris' apartment and shot him five times. The parole is recommended on the ground that the convicted Dr. Adams and Atwood had been "exceptionally idealistic" and that Atwood killed Harris in "a fit of remorseless brooding."

**Plans Wireless Telephone System.**  
Minot, N. D., Nov. 30.—Without telephone wires for inter-city communication, the commercial club of the city of Minot, Mont., plans to solve the difficulty through establishment of wireless telephone service, according to Max P. Kemper, formerly of Minot, but now a resident of the Montana city.

The wireless telephone system, Mr. Kemper is planned to connect Lovelock, Zortman, Phillips, Landusky, Loupville and several other inland towns, as well as a number of large ranches within a radius of sixty miles of Minot.

**Badger Stock Judges at Chicago.**  
Madison, Wis., Nov. 30.—The University of Wisconsin stock judging team is in Chicago representing the university at the International Livestock exposition. Twenty-one agricultural schools have teams entered. The Wisconsin group of six judges, coached by Prof. J. E. Fuller, is made up of Arthur E. Corns, 2d, Hobe, Alois A. Pfeiffer, George D. Toopfer, Madison; James R. Eastburn, Bloomington, Wis.; Phillip W. Gates, Madison, and George H. Chapp, Madison. All members of the team are seniors.

## The combination of two great foods

Troco is a pure, dainty, appetizing product made from two of the most nutritious natural foods the world produces—snowy fat from coconuts and pasteurized milk.

Vigorous tropic races depend upon coconuts for their principal food. Milk is the standby of the temperate zone.

### Combined you get fancy Troco

Churn this rich coconut fat with milk—twice pasteurized—develop perfect flavor by exacting care and supreme skill.

Do this churning in a brand new plant up-to-the-minute in every detail of equipment—And you get sweet Troco, delicate Troco—the de luxe brand of nut margarin.

A butter expert, Mr. A. E. Hoffman, who has spent 30 years making and judging butter and teaching butter making, has put the true butter flavor into Troco.

He supervises every detail of the making, has standardized Troco quality.

### It may cost more

This standardized perfection may cost a trifle more, just as finest butter does.

Ask your dealer. Have him order if necessary. You want Troco.

## MANY TO GO TO FINLAND

### Arrangements Made Here for Big Excursion on S. S. Olympie.

More than 500 Finnish residents of Duluth, the Iron Range and the Copper country will participate in a business men's and singers' excursion to Finland next summer. The pleasure of the tourist trip will be supplemented by commercial arrangements, which will be completed in order to promote a better, more understanding between the peoples of Finland and the United States.

The party will sail on the White Star line steamship Olympie on June 4. The Olympie, with a displacement of 46,329 tons, is the largest oil-burning ship in the world. It has recently made the Atlantic trip in five and a half days, a record time for big vessels crossing the ocean. C. A. Okstad, traveling representative of the White Star line in the Northwest, represented the steamship company in arranging for the trip.

An International Business Men's Club at Helsingfors, the capital of Finland, will be one of the great features which the tourists will be privileged to visit. Many are also planning trips throughout the country. A number of singing societies who will be members of the party will co-operate with similar choral organizations in Finland for numerous singing festivals.

Arrangements Made Here. Sixty business men who are most actively interested in the organization of the tour met at dinner at the St. Louis hotel last night. Among the speakers were O. J. Larson, congressman-elect; P. Tolmouch of Hancock, the manager of the tour; Victor H. Gran, Duluth attorney; and J. H. Jasper of Hancock. Among other prominent Finnish residents of the Northwest in attendance were Dr. J. Bahala of Vir-

ginta, A. Haaloja and K. W. Kikkila, Ironwood; S. Mustonen, Chisholm; and Emil Saastamoinen and Matt Mattson, Hancock.

Practically all of the tourists will be accompanied by their families. It is expected that the party will remain at least several months, returning in time to permit the children to return to schools and colleges.

**MOST ATLANTIC TRAVEL WESTBOUND THESE DAYS**  
That there is little truth in stories published about an extensive exodus of aliens to Europe, is the statement of C. A. Okstad, traveling representative of the White Star line, one of the biggest of the international steamship companies.

**MORE JUNIOR HIGHS START IN WISCONSIN**  
Madison, Wis., Nov. 30.—Junior high schools have been extending since they were given a legal status by the 1919 legislature, according to the biennial report of the superintendent of public instruction. Schools are now in operation at Ripon, Monroe, Wausau, West Allis, Marshfield, Washburn, Cudahy, Prairie du Sac and Augusta.

In most of these places the junior high school is conducted as a part of a six-year secondary school, which includes two grades in the elementary school. This arrangement is recommended by Thomas W. Hoising, supervisor of high schools, where the total enrollment does not exceed 500 pupils. The extension of junior high schools to rural districts is urged by the supervisor in his report. He says that the next development should establish high school facilities in sections where it is not yet advisable to establish a four-year high school. Consolidation of schools in the open country is recommended as a possible means of developing junior high schools.

MILLS Madame and Mademoiselle New York squint through the Janis of Christmas shoppers, the fashion world which makes styles is concerning itself about suitable clothes for springtime. Practically every clothing manufacturer is working upon a pattern for baby days. Although they will not give decisive style ultimatum as concerns the coming season, they do lift the cover, so to speak, from the pot-pourri of colors, line and fabric and give tantalizing little whiffs of what the feminine kind may expect.

There is a whiff of color. The color used for fashions announces its spring colors. These colors are very gay and radiantly orange yellow combinations ranging from lightest to medium shades are very good. These hues are called honeydew, shrimp and tangerine. In orange-yellow combinations combine in favor of the new. The colors of these, known as tomato, parrot and parrot. There are some wonderfully new dull greens and blues. There are also some ranging from the brilliant reds to a maroon.

A successful surprise party of Saturday evening was given at Woodman hall by 200 of his friends honoring Edwin Both, who will leave for New York Saturday, where he will sail for Sweden to spend some time visiting relatives at Balsard.

Miss Maceda, Secretary will entertain the Young Ladies society of Zion Lutheran church on Wednesday evening in the church Sunday school room.

Much interest is being shown in the benefit entertainment for the Light-house to be given under the direction of Mrs. Stella Prince Stocker at the assembly hall of the Y. W. C. A. Saturday evening. Mrs. Stocker will present three groups of her students of voice culture in a very interesting program.

Following a luncheon at which members of the Janis of Christmas, Mrs. John Lincoln Mullin, East Superior street, entertained at two tables a bridge at her home this afternoon.

Material and suggestions for political education, including study courses in city government, legislative procedure and community service, have been prepared by Miss Emily Knudsen, director of political education for the Minnesota League of Women Voters, for distribution on request to the women voters of the state.

Heading the list of pleasurable affairs to be seen during the week ending Mrs. A. D. Mellan, who is the guest of Mr. and Mrs. Richard M. Selwood, was the noon luncheon given by Mrs. George H. Crosby at her home on East Superior street today. There were twelve guests.

The final in the series of current events classes which Mrs. Charles S. Merrill has conducted at the Little Theater will be observed tomorrow. The morning class will meet at 10 o'clock instead of 10:30 as previously, and the afternoon class will meet at 2 o'clock.

Mrs. J. P. McCarthy was hostess at a luncheon after her home on East First street today, when she entertained for Sister Mary Blake, O. B. N. S., who will leave Friday, en route for England. Guests included a group of women who have been associated with the Corpus Christi house.

Music Boosts Milk Yield, Women Are Told

Mitchell, S. D., Nov. 30.—When you need an extra quart or two of milk at an evening's milking, take along the old fiddle when you lie to the barnyard or cowshed. For all those wants to produce the extra quart is a touch of jazz or even a plaintive tune from a violin.

This is the statement of Mrs. Septimus Smith, given before a meeting of the Mitchell club of women. She said if South Dakota dairymen followed her advice the state's dairy products would be valued far in excess of their present rating of \$20,000,000 annually.

"It has been proven by experiment," Mrs. Smith said, "that the net amount of milk obtained at one milking is usually increased by as much as two quarts by the influence of music."

But music is particularly so to the instrument that produces the music. The violin produces best results, Mrs. Smith said, and in one experiment the hoarse-voiced marked objection to the strumming of a ukulele.

The best means of meeting this suggestion, she said, is to listen to gramophone records with plenty of violin records in the dairy barns.

County Community Councils

Madison, Wis., Nov. 30.—County community councils authorized by the special session of the legislature last June are now commencing to function, and are making extensive plans for the future. It is announced by Mrs. J. H. Thompson, of La Crosse, chairman of the community council committee.

Under the provisions of the plan the counties co-operated with the state departments and with the university to promote civic betterment. The resources of these departments are thrown open to the communities, who may write for information or may address gatherings.

Side Talks

By Ruth Cameron.

A FAMILIAR QUESTION ANSWERED.

It is a familiar experience to have someone say to me:

"How can you find something different to write about every day?"

No familiar in fact that I keep an answer on hand ready to offer:

"How is it possible that different things should happen every day?"

No Day Just Like Another.

Even in the most commonplace life no day is just like another. One must have to pass through a routine, but even little monotonous duties can arrange themselves in a new pattern from day to day so that no two days are ever just the same.

You have doubtless seen one of those little tin kaleidoscopes which we all had given us when we were children. You only you eye to one end, and in the other you see a lot of vari-colored, vari-shaped particles arranged in a gay pattern. You give the little instrument a twist, and behold the particles arrange themselves anew in a different pattern. Then you give it another little twist and a different arrangement comes into being.

You can continue this as long as you will.

We might like a larger pattern. You see, the particles are not always as bright colored nor the pattern always as beautiful as you would like it to be, but it is at least different from day to day. You don't think the same thought one day that you did the day before. You don't have just the same emotions; you don't feel

**"TINKER BOB" STORIES**

By CARLYSLE H. HOLCOMB

BILLY SEES THE KING.

It was on the further side of a clump of grass. A little pink nose puffed out of the air, looked across the marsh to the forest. There was someone in sight. But that someone was not able to see this little creature because of his close resemblance to the grass and weeds in which he lived. He watched silently as another creature, a man in a hat, came toward him. He knew that this someone was coming toward him, and if it was that person this little creature thought it was. He would run back into a tunnel under the grass and wait until the danger was over.

He watched from his hiding place. No one could see him for he was very careful about that—that is, no one of the forest creatures, nor anyone who might be hunting in the forest. The Hunter thought himself wise enough to catch sight of this little fellow, but he could walk right by and never know that such a creature was about.

There was one in the forest who was wiser than the Hunter or any of his friends, and who could see such creatures. He was the forest dweller. The little fellow, for he could not see very far away. Such knowledge, both of all such creatures who travel a great deal at night. They can see in the dark and daylight also, but not in twilight.

If this forest dweller knew for sure that it was the Hunter coming toward him, he could feel safe for the Hunter would walk by with his gun in his shoulder and never see him in the clump of grass.

But whatever the ore whom this fellow of the forest was watching stopped dead still. He only wished he could get his gun to tell who it was, but he couldn't. Yet he thought if he was out of the grass a little further he might see him. At least he ventured to take a few steps forward when he might see him. Even this did not afford him the opportunity of seeing the person who was

"I'm talking to you, Billy Mink."

"I'm talking to you, Billy Mink."

The little pink nose was silent for a moment, thinking the call was for someone else. The voice sounded again. "I'm talking to you, Billy Mink, over there in the clump of grass." This time the forest dweller, who was anxious to see who the visitor might be, knew that it was the one who was talking to him. Being there was only one person in all the forest who he could not understand. Billy knew it must be Tinker Bob, king of the forest. And Billy Mink went right over to see him for the king had something very important to say.

## AT THE THEATERS

**TONIGHT'S ATTRACTIONS.**

**OLIPHANT**—"Little Miss Vandy," one-act musical comedy, other acts.

**NEW GRAND**—Nellie de Onsonne and her Jazzland Five; other acts.

**OLIPHANT**—Few musicians have reached the height attained by Ella Ruegger, the Belgian cellist. She is generally considered the world's greatest virtuoso and is included in the very small circle of eminent musicians. For the past few years, Miss Ruegger has devoted all of her time to vaudeville. Until then however, she was an internationally famed concert artist. Her artistic career has been a succession of triumphs. Both as a "soloist" and a member of various symphonies, Miss Ruegger has achieved unequalled success, her fine, but probably the most of every ten musical critics would name her first. It is a pleasure to recall the greatest contemporary cellists. Miss Ruegger is assisted by Edmund Lichtenstein, celebrated conductor and Valer Rueseger an eminent pianist.

**NEW GRAND**—Jazz, real jazz from way down in New Orleans, and a shiny band that is well thought out. You know all about the shiny thing. It's all in a class by itself. Nellie de Onsonne, the fascinating little chanteuse, and her Jazzland Five at the New Grand. There have been five acts on tour this season that can touch the offering and many patrons are insistent that it is in a class by itself. Variety and girls who surely impress. Miss de Onsonne has a way of her own with a personality which her coal black hair, her flashing dark eyes and slender figure just in it. Her performance real entertainment. For the offering of her piano accompaniment, the special offerings with monkeys, dogs and ponies, and ray's Manikins and Mariotte Hippodrome, are making a hit with both young and old. The other offering is one of the top-notch variety of type.

**NEW LYRIC**—Olive Thomas in "Everybody's Sweetheart."

**NEW GARRICK**—Viola Dana as the shrewd daughter of a master crook, her father may go to Minneapolis "reputation," makes a charming adventurist in "Blackmail," one of the best pictures of the double bill at the New Garrick for the first half of the week. The more so in that the old love is triumphant over the original teachings of the parent, and the story is so interesting so interesting, so unexpected and so utterly astounding, as well as impressively staged with all the splendor that the best picture in which they have seen this splendid favorite, Mac Murray and David Powell do their usual good work as the featured players. Miss Murray taking credit as the wife and mother, Lyda Knott taking credit as the girl who is already big following by his work in "Convict 13," his second big comedy, "A Gunner," one that has first.

**STRAND**—Beauty, splendor, magnificence—these are the marks by which you may know a George Fitzmaurice production. "The Right to Love," the feature attraction, is an artistic delight. Opening with an allegorical prelude that has been staged with all the splendor that Director Fitzmaurice has made a hit with every element working at high pitch since he took office to say "The Right to Love" is real entertainment. The cast is excellent. Mac Murray and David Powell do their usual good work as the featured players. ## JUDGE CHANGES MIND.

Decides to Go to La Crosse in Response to Grand Jury Summons.

Hurley, Wis., Nov. 30.—(Special to The Herald).—Controversy over the summons issued for Judge Griff Thomas of Hurley to appear before the grand jury in La Crosse ended when the Hurley judge decided to leave today with Sheriff Mike White to appear before the jury. When Judge Thomas was summoned, he announced he would not attend because of pressing business here and also because all of the evidence he was required to take with him was destroyed. His decision to go ends what promised to become a case of contempt of court.

# MUCH DONE FOR SOLDIERS

### Red Cross Northern Division Handles 40,000 Cases; Roll Call On.

Forty thousand soldier cases have been handled by the Northern division of the American Red Cross during the past two years—18,000 of them in Minnesota.

This roll call statement made yesterday in the offices of the Red Cross in Minnesota in connection with the last work of the annual roll call of the Duluth chapter.

During the last week that membership can be renewed and every one who had a membership last year and has not renewed it is being urged to attend to the matter at once. A special committee of the roll call organization is circulating over the lists at roll call headquarters, 507 Alworth building, for the purpose of determining how many of last year's members have failed to renew. A special appeal will be made to them.

**What More to Do.**  
The work of attending to the needs of the soldiers in the World War has not been finished by the Red Cross and it may be several years before it is finished, according to the statement

from Northern division headquarters. There are thousands of cases in Minnesota—and a number of them in the jurisdiction of the Duluth chapter—that will be looked after by the Red Cross until the need for relief or advice is past. Many of the men who were wounded are being cared for in connection with reconstruction work and vocational training. Matters relating to back pay, bonuses, reinstatement of insurance, etc., are also being cared for by the Red Cross.

Chairman W. A. McGonagle of the Duluth chapter roll call organization of the Duluth chapter, is making a special call this week for the renewal of membership by all those who were connected with the organization at the time of the forest fire two years ago. Mr. McGonagle states that these people are probably more fully acquainted with what the Red Cross has done and is prepared to do in an emergency than any others and that therefore they

## BIG DEAL MADE IN MICHIGAN TIMBER

Ontonagon, Mich., Nov. 30.—(Special to The Herald.)—Porterfield-Ellis company of Plato, Ontonagon county, recently sold for the Von Fluten Fox

Lumber company of Iron Mountain, 8,640.17 acres of timber land, all of which is tributary to their railroad, to the J. W. Wells Lumber company of Menominee. Porterfield-Ellis company has entered into a contract with the J. W. Wells company whereby they will log this timber and participate in the profits. This is the second large group of timber land that the Porterfield-Ellis company has handled this year. About 6,000 acres were transferred to the Northern Paper mills last year.

It is expected that it will take about eight years to remove this tract and market it. John W. Porterfield of Ontonago, Wis., will have charge of the operating of the railroad and logging outfit at Plato during the time of this contract. Porterfield-Ellis company

usually has work for experienced woodsmen and has an office with D. W. Britton, Cooperage company at Green Bay, Wis.

## TEACHER SHORTAGE IN U. S. IS CRITICAL

St. Paul, Minn., Nov. 30.—To point his illustration that the teacher shortage in the United States is critical,

P. P. Claxton, United States commissioner of education, today declared that if all the graduates of the normal schools of the United States were alive and teaching there would still be a shortage of 110,000 teachers.

In an arraignment of the "injustices perpetrated on the school child of the rural districts and the pathetically inadequate pay given the rural teacher," Mr. Claxton quoted statistics which laid open the "menace of the coming generation."

Confining the majority of his figures to Minnesota, Iowa, North and South Dakota, he hastily sketched the present situation.

"The teacher vacancies reported in Minnesota this year total 437," he said, "and in North Dakota there are 244. The average pay of the rural and urban teachers is \$750 a year. In some states this is below \$400 a year. The Western Union messenger averages \$900 a year; a stenographer, \$1,200 to \$1,500 a year; a Pullman porter, \$1,500 a year; and a rural mail carrier, about \$1,800 a year."

It is no wonder that we are not able to get good teachers under these conditions of pay. Yet it is all a question of education of the people and the legislators. One good sign of increasing attention is the fact that nearly every time a school question for the betterment of conditions is put to the people by vote it carries with a big majority.

How often you have wished that you could indulge in the strenuous exercise of out door sports with the vigor and enthusiasm of youth! But the end of the week finds you all in—you are tired, listless and lack the energy to go out for a vigorous walk or a round of the links—or any other exercise that requires much physical exertion. Many a man, even in his middle forties, has a vague feeling that he is "getting old"—and right at a time when he should be at his very best physically.  
Thousands—yes millions—of people find themselves in this condition early in life. And there is no excuse for it. You can check that tendency to grow old. You can carry your youth with its joys and enthusiasm into your 70's and 80's. But you must give Nature all the help you can. MAT MEN ARE TROOPING IN

Bobbie Jaquin, Feather-weight Champion, Now in Duluth.

With a temporary fall in the boxing sport at the Head of the Lakes, the heaviest lads of the mat are peeping up from here and there eager to go to the canyons.

Some time back George Hill, the world champion, was broadcast throughout the Northwest in quest of heavy-weight opponents, but up to this morning he has not been able to find any. The whitehead to accept the challenge is an American soldier, who is now making his home in Duluth, being employed by a West and poultry.

Accepts Hill's challenge when it was issued, but was in some doubt as to whether he could get a partner. He started high training several weeks ago and now finds that he can come back to his old-time form in a few days. I know Hill's reputation, he is a hard fighter and I know that I can beat him. Hill weighs about 160 pounds, while I usually go in at about 155.

Gustafson is a tall, well-built athlete who took a prominent part in various branches of athletics during the World war, in which he participated as an American soldier.

McCarty Meets Thompson. Matt McCarty, the two Harbors welterweight champion, is expected to meet an American soldier, who is a native of the mat sport, has signed to meet Charley Thompson of Duluth, Iowa, at two Harbors on the evening of Dec. 10. Thompson is said to be a big success as a grappler, and his weight and if McCarty is a native of the mat sport, has signed to meet Charley Thompson of Duluth, Iowa, at two Harbors on the evening of Dec. 10. Thompson is said to be a big success as a grappler, and his weight and if McCarty is a native of the mat sport, has signed to meet Charley Thompson of Duluth, Iowa, at two Harbors on the evening of Dec. 10.

Duluth Daily in Hurry. Duluth holder of the American light-weight title, who defeated several years ago. Well, Jaquin took the title and beat him three falls in thirty minutes. Jaquin is a native of the mat sport, has signed to meet Charley Thompson of Duluth, Iowa, at two Harbors on the evening of Dec. 10.

# UNIVERSITY FOR LABOR

### Idea Evidenced in Formation of Trade Union Colleges.

Chicago, Nov. 30.—Organized labor's interest in educational facilities of its own, illustrated by the authorization of a committee by the American Federation of Labor to study the possibilities of a central labor university, is evidenced in the formation of "trade union colleges" in a number of the large cities of the country and elsewhere in other educational enterprises according to Charles L. Sullivan, president of the American Federation of Labor.

Among the trade union colleges established are those at Boston, Washington, Philadelphia and Seattle, Mr. Sullivan said.

In 200,000,000, he said the labor union workers' union had secured the cooperation of the board of education in providing school rooms and teachers and had supplied a number of lectures of their own. More recently, he added, various unions there have united in developing this educational work on a larger scale.

In Chicago the advisory committee of the Chicago Federation of Labor and the educational committee of the Women's Trade Union League are cooperating with the board of education in holding classes once a week at the expense of the office of the Women's Trade Union League. The board of education supplies the teachers, with the exception of the public speaking teacher, who is a University of Chicago professor and not on the public school payroll. Besides public speaking, parliamentary law, stenography in English and short stories constitute the material offered.

"The increasing interest in the establishment of labor colleges is a very

# NORTH DAKOTA BANKERS MEET

Fargo, N. D., Nov. 30.—Bankers representing all parts of the state, members of the executive committee of the North Dakota Bankers' association, are considering ways and means for the stabilizing of banks and insurance at an executive session at the Fargo Commercial club today. J. J. Early of the Bank of Valley City, chairman of the committee, and about twenty other bankers are in attendance.

Among the problems under discussion are: The effect of the wheat strike in preventing small banks from liquidating loans. The effect of the initiated laws on bank reserves.

Discussion of the offer of Twin Cities and Eastern farm mortgage companies to return to the farm mortgage field in North Dakota if the initiated laws are not repealed.

The advisability of requesting initiated laws. A group of Northwestern North Dakota bankers is said to favor the repeal of the law to allow withdrawals of public funds now deposited in the Bank of North Dakota. A majority of the bankers are reported to favor the retention of the initiated laws, and a canvass by the Fargo Forum of the legislators is said to favor the repeal of the law is not favored.

# TESTIMONY RESUMES IN BANKRUPTCY CASE

How he had removed marks on lumber which designated it as reserved for other companies and had placed the marks of the Rathbore, Hair & Ridgeway company on it was described by Emil G. Erickson, an employee of the company, in the hearing before Judge W. G. Deader to determine how the assets of the bankrupt Wilcox Lumber company should be distributed.

Erickson claimed he worked under instructions given him by Frank Long, who was at the time employed by the Wilcox company. He claimed Long

showed him a letter from the Wilcox people directing him to have sufficient lumber marked up to fill the Chicago company's order for 3,000,000 feet. A few days later Long is said to have given him directions, he changed employers and went to work for Rathbore, Hair & Ridgeway.

In all, Erickson marked up 3,000,000 feet to reserved today. There were only 4,000,000 feet of lumber in the yards. Much of the lumber already bore marks showing that it had been reserved for other companies, but when he found these, he substituted the "RHR" he testified.
