Budget Rescissions and Deferrals

**OFFICE OF MANAGEMENT AND
BUDGET****Budget Rescissions and Deferrals****To the Congress of the United States:**

In accordance with the Impoundment Control Act of 1974, I herewith report six revisions to previously transmitted rescission proposals. Three of the Revisions decrease the total amount proposed for rescission by \$3.7 million. The other revisions to proposed rescissions make technical changes to the appropriation language which do not affect the amounts proposed for rescission. In addition, I am reporting two new deferrals totaling \$6.4 million and revisions to five previously reported deferrals.

The revisions to rescission proposals affect programs in the Departments of Agriculture and Energy, as well as ACTION and the National Science Foundation. The new deferrals and revisions to existing deferrals involve programs in the Departments of Agriculture, Commerce, Energy, Health and Human Services, and Transportation, as well as the Board for International Broadcasting and the International Communication Agency.

The details of each rescission proposal and deferral are contained in the attached reports.

THE WHITE HOUSE,
April 27, 1981.

BILLING CODE 3110-01-M

CONTENTS OF SPECIAL MESSAGES
(in thousands of dollars)

Recession #	Item	Budget Authority
831-454	Department of Agriculture Rural Electrification Administration	16,000
831-130A	Department of Energy Energy supply, research and development activities - operating expenses	136,232
831-103A	Other Independent Agencies Operating expenses, domestic programs	700
831-110A	National Science Foundation Research and related activities	66,000
831-111A	Science and engineering education activities	15,000
	Subtotal, recession proposals	224,432

Recession of Authority to Incur Obligations for Direct Loans:

Recession #	Item	Budget Authority
831-122A	Off-Budget Federal Entities: Department of Agriculture Rural Electrification Administration Rural electrification and telephone revolving fund	137,000
	Subtotal, recession of loan authority	137,000

Deferral #	Item	Budget Authority
D81-2A	Department of Agriculture Forest Service Expenses, brush disposal	40,570
D81-175	Department of Commerce National Oceanic and Atmospheric Administration Promote and develop fishery products and research pertaining to American fisheries	5,000
D81-178	Department of Energy Energy Programs Fossil energy construction	100,000

Deferral #	Item	Budget Authority
D81-11A	Department of Health and Human Services Office of Assistant Secretary for Health Scientific activities overseas (special foreign currency projects)	9,114
D81-37A	Department of Transportation Federal Highway Administration Trust fund share of other highway programs	17,735
D81-106	Other Independent Agencies Grant for international sporting events and expenses	1,370
D81-78A	International Communication Agency Acquisition and construction of radio facilities	13,326
	Subtotal, deferrals	147,119

Total, recession proposals and deferrals 593,401

R81-45A

SUMMARY OF SPECIAL MESSAGES
FOR FY 1981
(in thousands of dollars)

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344
This report revises Rescission No. R81-45, transmitted to the Congress on
March 17, 1981.

	<u>Rescissions</u>	<u>Deferrals</u>
Ninth special message:		
New items.....		6,370
Change to amounts previously submitted.....	-3,675	16,420
Effect of ninth special message.....	-3,675	22,790
Previous special messages.....	<u>14,757,545</u>	<u>8,585,187 a/</u>
Total amount proposed in special messages.....	<u>14,753,870b/</u>	<u>8,607,977 c/</u>

The amount currently proposed for rescission for the Rural-Communication Development Fund of the Rural Electrification Administration is \$16,000,000, rather than \$16,341,000, as originally proposed. This decrease of \$341,000 from the original proposal is being made to reflect elimination from the rescission proposal of funding related to estimated interest expenses. In the absence of this proposal, interest expenses for the program would have been funded using permanent indefinite authority to borrow. If the proposal is accepted by the Congress, these expenses would not be incurred and this authority to borrow would not be used for this program.

- a/ This amount has been adjusted downward by \$5 thousand to correct a discrepancy in a previous special message.
- b/ This amount represents budget authority except for \$751,800 thousand involving authority to incur obligations for direct loans.
- c/ This amount represents budget authority except for \$61,756 thousand involving the deferral of outlays only (D81-19B).

R81-45A

Rescission Proposal No: R81-45A

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

DEPARTMENT OF AGRICULTURE
Rural Electrification Administration
Rural Communication Development Fund

Agency Department of Agriculture	New budget authority (P.L. 96-528)	\$ 34,000,000*
Bureau Rural Electrification Administration	Other budgetary resources	1,180,000*
Appropriation title & symbol	Total budgetary resources	35,180,000*
Rural Communication Development Fund 1254142	Amount proposed for rescission	\$ 16,000,000*

Of the loan levels authorized under this head in P.L. 96-528, making appropriations for fiscal year 1981, \$16,000,000 are rescinded.

OMB identification code:
12-4142-0-3-452

Grant program Yes No

Type of account or fund:
 Annual
 Multiple-year (expiration date) _____
 No-year

Legal authority (in addition to sec 1012):
 Antideficiency Act
 Other _____

Type of budget authority:
 Appropriation
 Contract authority
 Other Authority to Borrow

Justification: This fund is used to make or guarantee loans for community antenna television services or facilities. The Administration believes that it is more appropriate for the private sector to fund this activity. This rescission proposal is part of the Administration's effort to combat inflation. It has been determined that this reduction can be made without adversely affecting human health and safety or other critical needs. Also, it is believed that sufficient capital will be available from the private sector to fund this activity.

Estimated Effects: The proposed rescission would reduce the amount of insured Community Antenna Television Facility Loans from \$31.4 million to \$15.4 million.

Outlay Effect: (in millions of dollars)

1981 Outlay Estimate	Outlay Savings
Without Rescission	1982
18.9	6.8
With Rescission	1983
12.1	9.2
	1984

* Revised from previous report.

R81-130A

Rescission Proposal No: R81-130A

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Rescission No. R81-130 transmitted to the Congress on March 19, 1981.

This revision decreases the amount proposed for rescission from \$126,609,000 to \$126,282,000. This decrease of \$327,000 reflects a technical adjustment to the amount proposed for rescission for solar programs from \$57,136,000 to \$56,809,000. This change corrects an error made in the computation of amounts available for rescission that resulted in overstating the proposal by this amount.

This supplementary report also reflects an adjustment to the budgetary resources listed on the original rescission proposal to: (a) correct an omission of amounts made available by the Continuing Resolution (P.L. 96-536) for the Clinch River Breeder Reactor Project (\$122 million); (b) consider the effect of an appropriation transfer of \$14.3 million from this appropriation account to the Energy Supply, Research and Development - Plant and Capital Equipment account; and (c) reflect the transfer of \$534 thousand from the General Administration account to this account for the Assistant Secretary for Nuclear Energy for 14 full-time program employees.

The revised rescission proposal and suggested rescission language attached to this supplementary report reflect these adjustments. In addition, the suggested rescission language has been modified to indicate that no further obligations for direct loans for the Hydropower Feasibility Studies Loan program be made during 1981. This change is being suggested to recognize that direct loans for this program took place prior to proposing this rescission.

Type of account or fund:	
<input type="checkbox"/> Annual	
<input type="checkbox"/> Multiple-year	(expiration date)
<input checked="" type="checkbox"/> No-year	
Legal authority (in addition to sec 1012):	<input type="checkbox"/> Antideficiency Act <input type="checkbox"/> Other
Type of budget authority:	<input checked="" type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input type="checkbox"/> Other
New budget authority 96-536* (P.L. 96-367)	\$ 2,376,988,000*
Other budgetary resources	467,040,818*
Total budgetary resources	2,844,028,818*
Amount proposed for rescission	\$ 126,282,000*

Justification:

Solar \$56,809,000*

This proposed rescission is predicated on the new, healthier environment for commercial solar technologies, brought about by the establishment of sound energy pricing policies, primarily through the decontrol of crude oil prices, and extensive solar tax credits. The inequities and inefficiencies built into previous energy pricing policies have prevented solar energy from achieving its true potential. It is now possible to shift the focus of the Department's solar activities from costly near-term development, demonstration, and commercialization efforts to longer-range research and development projects that are too risky for private firms to undertake. Therefore, funds totaling \$56,809,000 for near-term technology development and commercialization activities are proposed for rescission. The Administration believes that these activities should be pursued by the private sector in response to normal market forces. No reduction is proposed for longer-term, high risk (but potentially high payoff) research and development.

Note: Additional FY 1981 funds totaling \$34,889,000 are proposed for reprogramming out of the solar energy program and into other programs funded through the Energy Supply, Research and Development Activities, Operating Expenses account.

* Derived from available reports.

RB1-130A

3

Environment - \$3,979,000Biological and Environmental Research

Funds in the amount of \$3,979,000 are proposed for rescission on the grounds that short-term, site specific chemical characterization and toxicology are areas of applied research more appropriately managed as part of an industrial research, development and commercialization program.

In order to facilitate the commercialization of energy technologies, funds were appropriated for research on the biological and ecological effects of products, effluents, emissions, and wastes from a variety of energy technologies. This research encompasses both longer-term generic investigations and shorter-term, highly-targeted applied research to provide early environmental information for specific processes. New policies being developed to increase the private sector's contribution to technology demonstration dictate that the short-term, focused site specific research activities are an industrial responsibility. The continuing program would emphasize advanced research to understand and define health and environmental impacts of departmental technology research and development programs. It is estimated that termination of these efforts will not impede near-term commercialization because essential environmental activities to assure regulatory compliance will be required of the industry.

Environmental Assessments

Reduction in funding of \$3,000,000 is proposed due to the elimination of ineffective and duplicative efforts addressed adequately by other offices or agencies.

Energy-related environmental areas affected include nuclear radiation, air quality, water quality and availability, energy facility siting and land management, energy transportation, urban and community impacts, and energy technologies being slated for curtailment. For example, DOE-funded water-for-energy assessments performed by the Water Resources Council will be eliminated as these involve a high degree of duplication of similar efforts required to be performed by DOE under the National Environmental Policy Act. Urban and community impact analyses will be performed by the Technology Offices which propose projects which have potential urban and community impact.

Environmental and Safety Engineering

Funding of \$1,000,000 is proposed for rescission for environmental control evaluation studies of energy technologies. This reduction is due to the elimination of environmental control evaluations which are necessary to formulate energy-related environmental policy judgments, and other evaluations at specific demonstration sites which no longer will be DOE-supported. It is estimated that this reduction will have no effect on the Department's ability to make judgments of the environmental control technology aspects of new energy technologies.

Program Direction

Funds totaling \$1,000,000 are proposed for rescission in Environmental Program Direction as a result of employment reductions related to reductions and redirection of environmental programs. The end-of-year allowable staffing level is being reduced from 234 full-time permanent (FTP) positions to 220 FTP positions. In terms of staff effort, this results in a reduction of 24 staff years from 234 to 210. The reduction of \$1,000,000 assumes an average salary cost of \$41,000.

RB1-130A

2

Geothermal - \$9,500,000

Confirmation of a viable geopressured resource by well drilling along the Gulf Coast will be slightly delayed while better well sites are selected.

Short-term technology research and development will be phased out for industry to pursue.

Commercialization activities, principally reservoir confirmation drilling, will be reduced in FY 1981 in anticipation of full assumption of these activities by the private sector during FY 1982.

Hydropower - \$24,546,000

It is proposed to terminate feasibility study loans and demonstration grants for small hydropower projects. The program's objective, revitalization of the small hydropower industry in the U.S., has been largely achieved, as evidenced by the tremendous growth of applications at the Federal Energy Regulatory Commission for preliminary permits and licenses. Additionally, sufficient incentives are provided through a 21 percent investment tax credit and through loan programs in the Department of Agriculture.

The termination of the small hydropower feasibility studies and licensing loans should have no overall effect on the level of small hydro project activity although some individual projects could be delayed until they secure other financing. Rescission is also requested for the construction grant funds for the two Nashua, New Hampshire, projects. There is no justification for 100% Federal financing of these projects because the technology is well proven and economically feasible. The effect of the rescission will be that the city of Nashua will have to arrange a general obligation bond issue for financing.

Electric Energy Systems - \$4,115,000

This rescission is requested because the Electric Energy Systems' program is phasing out development and demonstration programs that can and should be supported by the private sector and focusing on longer-term high-risk research.

The estimated effects of this rescission are:

- reduction in Power Delivery activities of \$1.5 million which reduces superconducting technology work and cable designs;
- reduction in System Architecture and Integration activities of \$2.3 million phasing out New Technology Integration planning methods which can be adopted by utilities; and
- reduction of \$0.3 million of carryover funds for program direction which is not needed to support current positions.

Energy Storage Systems - \$19,333,000

Due to the establishment of sound energy pricing policies and other federal incentives, this program can concentrate on the most promising long term, generic technology developments. The private sector can be expected to pursue promising near-term technologies on their own in response to market forces. Hence, funds for near-term technology development efforts totaling \$19,333,000 are proposed for rescission.

881-130A

881-130A

Technical Assessment Projects - \$3,000,000

Funds in the amount of \$3,000,000 are proposed for rescission from the Advanced Technology Projects program. This will reduce program funding in FY 1981 from \$8,000,000 to \$5,000,000 and will result in termination of near-term projects that the private sector can undertake on its own.

Estimated Effects:

Near-term development and commercialization of new energy technologies and low priority environmental research and assessments will be eliminated or reduced by a total of \$126,282,000.

Outlay Effects: (in millions of dollars)

1981 Outlay Estimate	1981	1982	1983	1984

DEPARTMENT OF ENERGY
Operating Expenses

Energy Supply, Research and Development Activities

Of the funds provided under this head in Public Law 96-367, Public Law 96-69 and Public Law 95-482, \$126,282,000 are rescinded. No further obligations for the principal amount of direct loans for the Hydropower Feasibility Studies Loan Program shall be made during 1981.

R81-103A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Rescission No. R81-103, transmitted to the Congress on March 17, 1981.

This revision to a rescission proposal for two programs in ACTION reduces the amount previously proposed for rescission for Volunteers in Service to America from \$1,727,000 to \$200,000 and eliminates the \$1,480,000 previously proposed for rescission for Senior Companions. Except for the \$200,000 presently proposed for rescission, the previous rescission proposal included amounts which are not yet available under the current Continuing Resolution (P.L. 96-536), which expires June 5, 1981.

Type of account or fund:		
<input checked="" type="checkbox"/> Annual		
<input type="checkbox"/> Multiple-year	(expiration date)	
<input type="checkbox"/> No-year		

Justification: Volunteers in Service to America (VISTA) supports full-time volunteers who work with community groups to solve poverty problems.

A reduction is proposed for this program as a part of the Administration's overall plan to reduce spending throughout the Federal Government. A revised 1982 request eliminates the expansion of this program which was proposed in the January Budget. This rescission will prevent 1981 expansion toward a 1982 level that is no longer planned.

Estimated Effects: A savings of \$200,000 will be realized through the reduction of 200 trainees and about 8 volunteer service years from the previously planned level in FY 1981.

Outlay Effects: (in millions of dollars)

1981 Outlay Estimate Without Rescission	With Rescission	Outlay Savings 1981	1982	1983	1984

*Revised from previous report

1/ If an appropriation is made available for the period after the expiration of P.L. 96-536, an additional rescission of funds appropriated under this title will be proposed.

R81-110A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 97-344

This report revises Rescission No. R81-110 transmitted to the Congress on March 17, 1981.

The National Science Foundation's authorization act for FY 1981 contains a number of minima which should be addressed in the appropriations language effecting the rescission. Revised rescission language to adjust the legislative minima is proposed as part of this supplementary report. If this language change were not made, the Foundation would have to accommodate both the rescission and the legislative minima, which would impose a hardship on individual programs.

R81-103A

ACTION

Operating Expenses, Domestic Programs

Of the funds provided under this head for ACTION for fiscal year 1981 in Public Law 96-51b, \$200,000 are rescinded.

891-110A

Type of account or fund:
 Annual
 Multiple-year September 30, 1982 (expiration date)
 No-Year

Legal authority (in addition to sec 1012):
 Antideficiency Act
 Other _____

Type of budget authority:
 Appropriation
 Contract authority
 Other _____

Justification:

Programs funded from this appropriation support basic and applied research in all scientific disciplines, engineering and related activities. Support is also provided for the U.S. Antarctic Program, International Cooperative Science, and Science Policy Activities.

Programs which are substantially affected by the proposed reductions are those which are narrowly focused or of less immediate priority in meeting the National Science Foundation's major goals and objectives. Less severe reductions are proposed in core programs. However, the adjusted funding levels will not impair the foundation's ability to maintain its support of critical research or its ability to meet statutory responsibilities for the advancement of science.

These reductions are proposed in order to reduce Federal spending.

Estimated Effect:

Research support in the behavioral and neural sciences will be reduced by approximately 13 percent from the planned FY 1981 level; social and economic science programs by 31 percent; industry/university cooperative research projects by 45 percent; the Small Business Innovation Program by 36 percent; University-Based Innovation Centers by 29 percent; 2/4 year college instrumentation support by 42 percent; minority research initiation projects by 6 percent; international science programs by 28 percent; and the Experimental Program to Stimulate Competitive Research by 27 percent. Programs for which all FY 1981 appropriation funding is eliminated are: intergovernmental science programs, the Appropriate Technology Program, Visiting Professorships for Women, National Research Opportunity Grants, and Research Improvement in Minority Institutions.

Programs supporting research in the basic sciences and engineering will be reduced by a total of \$26 million or approximately 2.5 percent.

R31-111A

Justification:

This appropriation funds the National Science Foundation's programs to strengthen science education at all academic levels. It includes the programs for scientific personnel improvement, science education resources improvement, science education development and research, and a science education communications program.

Specific reductions in these areas are proposed for programs which are less critical to meeting the major goals and objectives of the Foundation and are being made in order to reduce Federal spending.

Estimated Effect:

The proposed reductions will reduce funding from the planned FY 1981 level by the following percentages: Comprehensive Assistance to Undergraduate Education, 38 percent; Public Understanding of Science, 56 percent; Research in Science Education, 33 percent; percent. Funding for the Information Dissemination in Science Education program, 35 eliminated.

R31-122A

Rescission Proposal No. R31-122A

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Agriculture	Current direct loan limitation \$1,100,000,000 (P.L. 96-528)
Bureau Rural Electrification Administration	Other budgetary resources ---
Appropriation title & symbol Rural Electrification and Telephone Revolving Fund	Total loan limitation 1,100,000,000
12X4230	Amount proposed for rescission \$ 187,000,000
OMB identification code: 12-4230-0-3-271	Legal authority (in addition to sec. 1012): <input type="checkbox"/> Antideficiency Act <input type="checkbox"/> Other
Grant program <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Type of budget authority: <input type="checkbox"/> Appropriation <input type="checkbox"/> Contract authority <input checked="" type="checkbox"/> Other (for direct loans)
Type of account or fund: <input type="checkbox"/> Annual <input type="checkbox"/> Multiple-year <input checked="" type="checkbox"/> No-year	

Justification:

These proposed actions are based on the fact that REA has largely accomplished its purpose to provide the basic investment capital necessary to provide electric and telephone service in rural areas. More than 99% of all farms and rural establishments now have electric service, and more than 90% have telephone service. The bulk of borrowing is now for power generation and system improvements, costs that could be borne by system users.

Estimated Effects:

The rescission would reduce direct lending to rural telephone systems (\$125 million) and direct lending to rural electric systems for power generation and transmission facilities (\$62 million).

The major reason that these systems have not already converted to using the private sector as a major capital source is the highly favorable term structure—for both the direct and guaranteed lending—offered by REA. As a consequence, the availability of these subsidies reduces the necessity for recipients to improve their financial positions in order to attract private capital.

R31-122A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Rescission No. R31-122, transmitted to the Congress on March 17, 1981.

This revision to a rescission for the Rural Electrification Administration in the Department of Agriculture changes the language previously proposed for the Rural Electrification and Telephone Revolving Fund to make clear that a level of \$125,000,000 is provided for rural telephone loans during 1981.

R81-122A

2

Taking these actions will result in a dramatic reduction in direct Federal lending. At the same time, rural electric and telephone consumers served by these systems will continue to receive adequate service at rates comparable to those charged to customers of non-REA-financed utilities.

Outlay Effect: The rescission of direct loan authority proposed for this account will have no effect on outlays.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

Rural Electrification and Telephone Revolving Fund

Loan authorizations provided for the Rural Electrification and Telephone Revolving Fund for fiscal year 1981 in P.L. 96-518, for Section 305 of the Rural Electrification Act of 1936, as amended, are reduced by \$62,000,000 for rural electrification loans and \$23,000,000 for rural telephone loans to provide for a total level of \$788,000,000 for rural electrification loans and \$25,000,000 for rural telephone loans. Provided, That loans made pursuant to Section 306 of that Act are in addition to these amounts, but during 1981 total commitments to guarantee loans pursuant to Section 305, shall not exceed \$3,145,000,000 of contingent liability for loan principal.

DB1-2A

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344
This report revises Deferral No. DB1-2 transmitted to the Congress on October 1, 1980.

The amount deferred for Expenses, Brush Disposal in the Forest Service, Department of Agriculture, is \$40,569,894, an increase of \$3,227,894 over the amount previously deferred. This increase is attributable to an increase of \$3,227,894 over the previous estimate of unobligated balances brought forward into FY 1981.

Justification: * Purchasers of National Forest timber deposit the estimated cost to the Forest Service for disposing of brush and other debris resulting from their cutting operations pursuant to P.L. 84-190. The deposits becoming available in the current year are estimated and the related disposal operations are planned for the following year. Efficient program planning and accomplishment is facilitated by operating a stable program well within the funds available in any one year for this purpose.

An apportionment of \$49.0 million has been made to the Forest Service for this program in 1981 compared with \$46.0 million in 1980 and \$44.5 million in 1979. The current fiscal year reserve of \$40.6 million was established pursuant to the Antideficiency Act (31 USC 665) as a reserve for contingencies.

Disposal operations related to deposits made during certain periods of the year cannot be initiated until weather conditions permit. Thus seasonal factors frequently require deferring the use of deposits until the following fiscal year.

Estimated Effects: There are no programmatic or budgetary effects that result from this action. Rather, the reserve merely reflects the seasonal nature of program funding requirements.

Outlay Effect: This deferral has no effect on outlays.

This account was the subject of a similar deferral in FY 1980 (DB0-3A).

* Revised from previous report.

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of Public Law 93-344

This report revises Deferral No. D81-33A, transmitted to the Congress on March 10, 1981.

This revision to a deferral for fossil energy construction funds in the Department of Energy revises the coverage of the deferral to indicate that the entire amount deferred is for the SRC II project. The \$42,000,000 originally reported in D81-33 for High Btu Pipeline Gas Demonstration Plants is no longer included in this deferral action, and has been proposed for rescission (R81-64). The amount currently deferred for fossil energy construction is \$100,000,000 less than the amount reported in Deferral D81-33A. The release of these previously-deferred funds reflects a reestimation of the funds needed in 1981 to maintain certain project-related activities until consultations with participating foreign governments can be completed.

Justification: The Fisheries Development Program emphasizes promotion of American fishery products, particularly underutilized species, and technology innovation. This program includes \$12 million for grant/cooperative agreements to support fisheries development and utilization projects.

Funds for the fishery development and utilization projects totaling \$5 million are deferred pending congressional action on a request to transfer those funds to the National Oceanic and Atmospheric Administration's Operations, Research and Facilities account to offset supplemental requirements for increased pay costs. The remaining funding is sufficient to carry out an effective fisheries program.

This deferral action and the associated transfer request will help reduce Federal spending in accordance with the President's overall economic recovery program.

Estimated Effect: This deferral action will preserve these funds pending congressional action on the transfer request.

Outlay Effect: This deferral has no significant effect on outlays.

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of P.L. 93-344

This report revises Deferral No. D81-11, transmitted to the Congress on October 1, 1980.

This revision of a deferral for the Scientific Activities Overseas Program of the Department of Health and Human Services increases the previously reported deferral from \$8,000,000 to \$9,118,281. This increase of \$1,118,281 results from a higher level of unobligated balances actually brought forward into FY 1981 than previously estimated.

Justification:* Under the Administration's synthetic fuels policy all funding for fossil energy demonstration projects currently being supported in the Department of Energy would be terminated and project sponsors would be encouraged to seek financial support from the Synthetic Fuels Corporation (SFC), either as synthetic fuel projects or as synthetic fuel project modules. The Administration has proposed rescissions for these demonstration projects. In the case of the SRC 11 coal liquefaction plant, no rescission can be proposed until consultations with the International participants in this project have been completed. However, \$100 million in construction funds not needed in FY 1981 are deferred pending completion of these consultations.

Estimated Effect: This deferral of FY 1981 construction funds will have no effect on the completion of the detailed design currently scheduled for completion in 1983 or the completion and final decision on the required environmental impact statement for this project. Some construction phase activities (e.g. long lead procurement) will be delayed pending conclusion of international consultations and possible consideration of this project by the SFC.

Outlay Effects:* This deferral action will have the effect of shifting \$30 million in FY 1981 outlays into FY 1982.

* Revised from previous report.

1/ This account is also the subject of a rescission proposal (R81-64).

SUPPLEMENTARY REPORT

Report Pursuant to Section 1014(c) of P.L. 93-344

This report revises Deferral No. D81-89, transmitted to the Congress on March 10, 1981.

This revision reports a change in the amount deferred. In the previous report, \$16 million was estimated as the total of 1981 obligations made at the time the program was stopped and the deferral action was taken. The revised estimate of obligations is \$19.8 million, necessitating a downward adjustment of the amount deferred from \$21.5 million to \$17.7 million.

Justification: The Scientific Activities Overseas program of the Department of Health and Human Services (HHS) is funded with appropriations which consist of excess foreign currencies owned by the United States. Currencies of Egypt, Burma, Guinea, India, and Pakistan held by the Treasury have been designated as in excess of normal U.S. needs. Funds for this program, which remain available until expended, are used for scientific research projects in those countries.

The amount of funds to be obligated during FY 1981 and the amount to be deferred for the entire year were determined after a careful review of the scientific merit of project proposals in the countries for which excess currency is available. The research projects in those countries that will contribute toward meeting U.S. scientific needs have been selected for funding in FY 1981 by HHS. The amount being deferred is in excess to current program requirements and is being reserved for contingencies under provisions of the Antideficiency Act (31 U.S.C. 665).

Estimated Effect: This deferral has no programmatic or budgetary effect because the funds would not be obligated if made available.

Outlay Effect: This deferral action has no effect on outlays.

1/ This account was the subject of a similar deferral in FY 1980 (D80-63).

* Revised from previous report.

	Sept. 30, 1981 <input checked="" type="checkbox"/> Sept. 30, 1982 Sept. 30, 1983 Sept. 30, 1984	Type of budget authority:	
		<input type="checkbox"/> Appropriation	
		<input checked="" type="checkbox"/> Contract authority	
		<input type="checkbox"/> Other	

Justification: *

Section 129 of the Federal-Aid Highway Act of 1973 authorized the Secretary to establish criteria for the location and construction or reconstruction of a National Scenic and Recreational Highway designated as the Great River Road. A single continuous route was designated which runs through all ten States bordering the Mississippi River.

The Surface Transportation Assistance Act of 1978 provides authorizations of \$10 million in general funds and \$25 million in Highway Trust Funds for each of the fiscal years 1979 through 1982. The general fund authorizations require an appropriation to become available. The trust fund authorizations are contract authority and become available on the first day of the fiscal year for which authorized. Current budgetary resources for FY 1981 total \$90.4 million, all of which is against trust fund authority. This consists of \$25 million of new authority for FY 1981 plus \$65.4 million in unobligated balances from prior year authorizations. Section 311 of the Department of Transportation and Related Agencies Appropriations Act, 1981 (P.L. 96-400) limits FY 1981 obligations to \$37.5 million.

All segments of the Great River Road other than access spurs have been designated as being on the Federal-aid System and may be improved using regular Federal-aid funds. The discrete Great River Road program is duplicative and unnecessary.

All unobligated balances remaining available as of March 10, 1981, are deferred. Effective upon that date, all obligational activity was suspended and will remain so through the remainder of this fiscal year. Obligations through this date total \$19.8 million leaving an unobligated balance of \$17.7 million under the obligation limitation. This is the amount being deferred.

This deferral action is an integral component of the President's economic program announced on February 18. The withholding of obligational authority for this program for the remainder of FY 1981 will assist in reducing Federal spending.

Estimated Effects: The deferral of \$17.7 million in FY 1981 will cause some or all of the ten States eligible for funding under this program to delay or cancel highway projects planned for the remainder of this fiscal year. However, virtually all of these projects are eligible for funding under the regular Federal-aid Highways program.

Outlay Effects: This deferral action will shift an estimated \$5.7 million in FY 1981 outlays into FY 1982.

* Revised from previous report.

** While each portion of contract authority is available for four years, the appropriations to liquidate the contract authority are available until expended.

1/ None of these funds is deferred.

2/ This amount is the portion of "Trust Fund Share of Other Highway Programs" made available for the Great River Road. Total funds available to the "Trust Fund Share of Other Highway Programs" are \$76,846,595.

Report Pursuant to Section 1014(c) of Public Law 93-344
This report revises Deferral D81-76 transmitted to the Congress on February 13, 1981.

The amount deferred for Acquisition and Construction of Radio Facilities, International Communication Agency is \$13,325,600, an increase of \$12,073,600 over the amount previously deferred. This increase is attributable primarily to project delays caused by the opportunity to place new Voice of America transmitters in different, and technically more advantageous, locations than were originally planned.

Justification: The Board for International Broadcasting is authorized by the Board for International Broadcasting Act of 1973 (22 U.S.C. 2871-2877) to provide assistance to Radio Free Europe/Radio Liberty Inc. (RFE/RL), a private non-profit radio broadcasting organization. Section 8(b) of the Act states "The Director of the Office of Management and Budget shall place in reserve and inform the Congress of any amount appropriated under this section which because of upward fluctuations in foreign currency exchange rates, is in excess of the amount necessary to maintain the budget level of operation for RFE/RL, Incorporated."
Public Law No. 96-536 appropriated to the Board for 1981, \$99,700,000. The Board, in accordance with regulations established jointly by the Board and the Office of Management and Budget, reported that as of the end of the first quarter of 1981 the net currency exchange gains totaled \$1,370,420. Therefore, funds totaling \$1.4 million are deferred. These funds will be used to offset any currency exchange losses occurring later in the year. If no losses are experienced, the funds will be proposed for rescission at a later date.

This deferral action is taken in accordance with the International Broadcasting Act of 1973, and the Antideficiency Act (31 U.S.C. 665).

Estimated Effects

No programmatic effect results from this deferral since planned program levels of Radio Free Europe/Radio Liberty will be maintained in 1981.

Outlay Effect

If there are no exchange rate losses in the remainder of 1981, the reported exchange rate gains and resulting deferral will reduce outlays by \$1.4 million while maintaining current program. These outlay savings will be offset by the amount of any exchange rate losses.

✓ In addition \$5,794,874 is not available pursuant to P.L. 94-350 and 96-536.

<input type="checkbox"/> Multiple-year	<input checked="" type="checkbox"/> Appropriation	
<input checked="" type="checkbox"/> No-year (expiration date)	<input type="checkbox"/> Contract authority	
	<input type="checkbox"/> Other	

Estimated Effects:* Because of the project changes noted above, the amount deferred could not be obligated before fiscal year 1982. Therefore, no programmatic effects will result from the deferral action.

Outlay Effects:* There is no outlay effect of this deferral, because the funds would not be obligated if made available.

* Revised from previous report

Justification: The United States International Communication Agency (ICA) is authorized by the United States Information and Educational Exchange Act of 1948, as amended (22 U.S.C. 1431 et seq.), the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2451 et seq.), Executive Order No. 11034 of June 25, 1952, as amended, and Reorganization Plan No. 2 of 1977, to carry out international communication, cultural and educational exchange programs.

The International Communication Agency Authorization Act, Fiscal Year 1980-1981 (P.L. 96-60, approved August 15, 1979) authorized appropriations for ICA. The Continuing Resolution for 1981 (P.L. 96-536, approved December 15, 1980) appropriated \$2,562,000, to remain available until expended, for the "Acquisition and Construction of Radio Facilities" account primarily to expand the transmitter capacity of the Voice of America's (VOA) worldwide broadcasting system.

This \$2,562,000, together with funds appropriated in prior years, will be used to maintain and update existing VOA facilities and to expand transmitter facilities in East Asia, Africa, and Europe. Opportunities have arisen for constructing new short-wave facilities in Sri Lanka and Swazana. These possibilities, which did not exist when plans for the presently available funds were formulated, offer the potential for better coverage in those parts of Africa and Asia where existing signals are the weakest. Thus, the four transmitters originally purchased for Liberia will be installed at the Swazana site, two of the four transmitters intended for the Philippines will be installed in Sri Lanka as part of a planned six transmitter facility. New budget authority has been requested in 1982 to provide the additional funds needed to construct the Swazana and Sri Lanka facilities. Also, the scheduled completion of the modernization of the Master Control Complex in Washington has been delayed until 1982. Because design work and the need for additional funds will delay construction, \$13,325,600 for these projects is being deferred for the remainder of FY 1981.

CFR CHECKLIST; 1980/81 ISSUANCES

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued to date for 1980/81. New units issued during the month are announced on the back cover of the daily **Federal Register** as they become available.

For a checklist of current CFR volumes comprising a complete CFR set, see the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription service to all revised volumes is \$525 domestic, \$131.25 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

CFR Unit (Rev. as of Jan. 1, 1981):

Title	Price
1-2.....	\$4.50
6.....	3.50

7 Parts:

900-944.....	7.00
--------------	------

9 Parts:

1-199.....	7.50
------------	------

11.....	5.50
---------	------

14 Parts:

1200-end.....	6.00
---------------	------

CFR Index.....	8.50
----------------	------

CFR Unit (Rev. as of Apr. 1, 1980):

17 Parts:	
0-239.....	7.50
240-end.....	7.50

CFR ISSUANCES**Projected 1981 CFR Issuances
January and April Quarters**

This list restates the publication plans for the January, 1981 quarter and projects the publication plans for the April, 1981 quarter. A projected schedule that will include the July, 1981 quarter will appear in the first **Federal Register** issue of July, 1981, immediately after the CFR checklist.

Pricing information is not available on projected issuances. Individual announcements of the actual release of volumes will continue to be printed in the **Federal Register** and will provide the price and ordering information. The monthly CFR checklist and the Annual Cumulative LSA will continue to provide a cumulative list of CFR volumes actually printed.

Normally, CFR volumes are revised according to the following schedule:

Titles 1-16—January 1
Titles 17-27—April 1
Titles 28-41—July 1
Titles 42-50—October 1

All volumes listed below will adhere to these scheduled revision dates unless a notation in the listing indicates a different revision date for a particular volume.

Titles revised as of January 1, 1981:

Title	15 Parts:
1-2	0-299
3 Compilation	300-end
4	16 Parts:
5	0-149
6	150-999
7 Parts:	1000-end
0-52	
53-209	
210-299	
300-399	
400-699	
700-899	
900-944	
945-980	
981-999	
1000-1059	
1060-1119	
1120-1199	
1200-1499	
1500-1899	
1900-2799	
2800-2851 (Cover only)	
2852	
2853-end	
8
