Friday

May 14, 2004

The **FEDERAL REGISTER** (ISSN 0097-6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, www.archives.gov.

The seal of the National Archives and Records Administration authenticates the **Federal Register** as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** www.access.gpo.gov/nara, available through GPO Access, is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

For more information about GPO Access, contact the GPO Access User Support Team, call toll free 1-888-293-6498; DC area 202-512-1530; fax at 202-512-1262; or via email at gpoaccess@gpo.gov. The Support Team is available between 7:00 a.m. and 9:00 p.m. Eastern Time, Monday-Friday, except official holidays.

The annual subscription price for the **Federal Register** paper edition is \$749 plus postage, or \$808, plus postage, for a combined **Federal Register**, **Federal Register Index** and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register Index** and LSA is \$165, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register**, including postage, is based on the number of pages: \$11 for an issue containing less than 200 pages; \$22 for an issue containing 200 to 400 pages; and \$33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for \$3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, bookstore@gpo.gov.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 69 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Printing Office, Washington DC 20402, along with the entire mailing label from the last issue received.

Rules and Regulations

Federal Register

Vol. 69, No. 94

Friday, May 14, 2004

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

Commodity Credit Corporation

7 CFR Part 1410

RIN 0560-AG74

2002 Farm Bill—Conservation Reserve Program—Long-Term Policy

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: This final rule adopts as final an interim final rule for the Conservation Reserve Program published on May 8, 2003. The interim rule set out the existing program regulations in their entirety, including revisions conforming to new legislation. Those revisions included, among others, a change to the definition of "conserving use."

DATES: This rule is effective May 13, 2004.

FOR FURTHER INFORMATION CONTACT: Charles Chadwell, Program Manager, at USDA/FSA/CEPD/STOP 0513, 1400 Independence Avenue SW., Washington, DC 20250-0513; telephone 202-720-7674; e-mail: Charles_Chadwell@wdc.usda.gov. Persons with disabilities who require alternative means for communication (braille, large print, audiotape, etc.) should contact the USDA Target Center at 202-720-2600 (voice and TDD).

SUPPLEMENTARY INFORMATION:

Background

The interim rule amended the regulations of the Commodity Credit Corporation (CCC) at 7 CFR part 1410 that govern the Conservation Reserve Program (CRP). The amendment was published to cost-effectively target the CRP to more environmentally sensitive acreage and to comply with amendments made by the Farm Security

and Rural Investment Act of 2002 (Pub. L. 107-171) (2002 Act), by:

- Setting forth the terms and conditions of enrolling acreage in the CRP;
- Updating program eligibility requirements; and
- Eliminating unnecessary regulations and improving the remaining regulations.

The CRP was authorized by the Food Security Act of 1985 (Pub. L. 99-198)(1985 Act), which was recently amended by the 2002 Act. The 2002 Act provided the Secretary of Agriculture (Secretary) the authority to maintain up to 39.2 million acres in the CRP. The CRP is intended to cost-effectively assist producers in conserving and improving soil, water, and wildlife resources by converting highly erodible and other environmentally-sensitive acreage to a long-term vegetative cover. CRP participants enroll land under contracts for 10 to 15 years in exchange for annual rental payments and financial assistance to install certain conservation practices and to maintain approved vegetative or tree covers.

Based on 2002 Act amendments, an interim rule was published on May 8, 2003 (68 FR 24830) which asked for comment on the rule changes and other policy issues. The agency will continue to consider policy comments as appropriate, and in this notice restricts the discussion, for the most part, to whether any further amendment of the program regulations is needed at this time.

Summary of Comments

CCC received 800 comments concerning the interim rule. Entities responding included: individuals, State government agencies, State conservation organizations, State and national commodity organizations, conservation organizations, Federal Government agencies, and a national environmental organization. Comments came from Alabama, Arkansas, California, Colorado, District of Columbia, Georgia, Iowa, Idaho, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Minnesota, Missouri, Mississippi, Montana, North Carolina, North Dakota, Nebraska, New Jersey, Ohio, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, and Wisconsin. The Midwest, Southeast, and Northern

Great Plains were represented on the regional level as well.

There were 135 comments that were not directed to the interim rule itself, but to related matters such as payment rates, other eligible land provisions, internal guidance and procedures, acreage allocation scenarios among the different programs within CRP, and primary nesting season jurisdiction. Also, 51 comments were not considered because they were unclear on the point they intended to make or were not submitted timely. The comments not directed to the interim rule itself and the late comments may be considered in future policy development.

General Comments

Overall Support for the Program

There were 45 comments in support of the interim rule or in support of the CRP as a whole. This category accounted for the second largest number of comments on the interim rule behind those about managed haying and grazing, followed by comments regarding the Environmental Benefits Index (EBI), conserving use, and continuous practices. These comments ranged from overall programmatic support for CRP to supportive comments regarding various aspects of the program and specific sections of the rule.

Most supportive comments stated that the CRP has been one of the most significant conservation programs in history by reducing soil erosion, improving water quality, and enhancing wildlife habitat for many species. One respondent complimented FSA for utilizing the EBI as a tool to encourage enrollment of lands which will result in a program that provides the greatest amount of environmental benefits per dollar expended. Others indicated the development of the EBI has had a positive impact on the effectiveness of CRP.

One comment was received concerning the cost share for installation of conservation buffers; however, concern was expressed over the confusion from the program's differential incentives for various eligible buffer practices. The comment did not recommend a specific change. The interim rule was written so as to limit confusion as much as possible and provide flexibility to the agency to address new situations as they arise. No

change in the regulations was found to be warranted with respect to these comments.

Support for Environmental Benefits of the Program

Two comments suggested that FSA take advantage of this program in order to get the maximum environmental benefit out of the new authority, while also doing the most it can to help producers meet the many environmental goals expected of them through an incentive-based approach. The comments did not make specific recommendations. In any event, no rule change would be needed to take these concerns into account.

Program Administration

There were 19 comments concerning the administration of CRP. The comments concerned the way the program was being administered and the need for the program to be more locally flexible.

Some respondents recommended an increased role for the Natural Resource Conservation Service (NRCS) and the Forest Service, acting through State government foresters. These respondents were also concerned about whether Technical Service Providers are qualified to give advice, the implementation of Technical Service Providers and the potential for a conflict of interest with local Technical Service Providers. One comment supported the way the CRP was administered, but made a non-specific comment that program implementation and efficiency could be improved. To the extent that specific comments were made in this regard, no rule change was found needed as the rule is flexible enough to allow changes as may be warranted. Further, the rule provides considerable involvement of FSA State and county committees in making determinations, resulting in substantial local influence and control. Thus, no changes were made in the final rule as a result of these comments.

The interim rule's provisions clarifying continuous sign-up and its role within the CRP program received comments. Another comment felt that the program should emphasize conservation treatments for upland areas associated with CRP acres and offer more compensation for land removed from production to protect water quality. These suggestions are possible without a rule change, and no rule change is needed. Additional comments specific to administration dealt with § 1410.1 and are addressed under the heading for comments on that section below.

Opposition to Economic Impacts of the Program

Comments expressed concern that CRP supports conservation, but asserted that it hurts the economy of rural communities. One respondent stated that the current CRP, while supporting conservation, is emptying rural communities of agriculture-focused economic opportunity and people. A cost-benefit analysis examined the environmental, economic, and budgetary impacts of enrolling land in CRP. The FSA analysis estimated that the new provisions of the CRP will not only continue benefitting soil, water, and wildlife resources, but will also produce a net benefit to the economy of approximately \$131 million per year. In addition, there is a clear statutory intent and expectation that the CRP will continue to operate and limitations are included in the statute to address the concerns expressed by the respondent. Further, a study that describes the economic and social effects on rural communities resulting from the CRP was required by section 2101(b) of the 2002 Act. The USDA's Economic Research Service published the study in January, 2004, which indicated that the concerns of the respondents are addressed within the limits and requirements within the CRP regulations. Thus, the comments did not result in any change in the final rule.

Comments on Specific Sections of the Interim Rule

Section 1410.1 Administration

Seven comments addressed the wildlife objectives of CRP requesting clarification of the program's wildlife objectives versus the landowner's wildlife objectives. A comment supported what CRP has accomplished for wetlands and associated wildlife. The CRP uses the wildlife benefit standards from the Field Office Technical Guide (FOTG) of NRCS and the program is intended to encourage wildlife benefits. Still, the CRP is a voluntary program, and if the landowner has objectives that differ from those used by FSA, they may decline to participate. Because wildlife objectives are addressed in the NRCS FOTG, this comment was not adopted in the final rule.

Section 1410.2 Definitions

There were 25 comments concerning several technical terms defined in the new rule, and their clarity and consistency. Some respondents felt that "marginal pastureland," "local ecotype," and "native" should be defined in the regulations. A majority of the

respondents felt the intent of the 2002 Act was to make conserving use lands eligible for CRP and they did not agree with the CCC definition of that term in the interim rule. These comments were considered with other conserving use comments submitted under the land eligibility section at § 1410.6.

One respondent suggested that the definition of an agricultural commodity as it pertains to a perennial crop be amended to specify that a perennial crop must be from the same root structure for two or more years. The definition used in the interim rule is consistent with this comment; however, because a perennial crop may involve vegetation that is not considered an "agricultural commodity" within the meaning of the program regulations, "agricultural commodity" is removed from the definition of a perennial crop and an adjustment to that definition has been made in this final rule.

One respondent was concerned that the definition of "conserving use" for cropland eligibility purposes in the interim rule excluded expired CRP contracts with trees planted. Under section 2131(c) of the 1985 Act, as amended, land that is in a "conserving use" can be considered to be planted to an "agricultural commodity." This definition is consistent with requirements for enrollments based on erodibility under section 1231(b)(1), which requires that such land have been cropped 4 out of the 6 years preceding the 2002 Act. Under the customary CRP practices, cropping history must generally be for the kinds of enrollments originally provided for in the 1985 Act. Those enrollments were from lands committed to "agricultural commodities" which, because of a special definition in the 1985 Act, means crops that are annually tilled, plus sugar cane. Other enrollments do not have these strict ties to "agricultural commodities," although, there are still inconsistencies in the statute's references to "agricultural commodities". For example, of the enrollments not tied to "agricultural commodities," section 1231(b)(2) is explicitly directed at enrollments of marginal pastureland, which clearly do not involve land that was annually planted. Also, section 1231(g) provides that alfalfa and other multi-years grasses and legumes in a rotation practice approved by the Secretary shall be considered to be "agricultural commodities." As to the question of trees, land planted to trees is no longer considered "cropland," which is one of the essential criteria of section 1231(b)(1) enrollments where "conserving use" comes into play. Also,

such use is not considered to be a "conserving use" within the meaning of the statute, because trees involve, ultimately, a planting undertaken for a commercial purpose.

A respondent suggested conserving use should include alfalfa, other multi-year grasses and legumes and summer fallow during 1996 through 2001. The respondent indicated that hay land, regardless of the year planted, is a conserving use and that requiring hay land to have been planted between 1996–2001 will make many lands in the eastern U.S. ineligible for CRP. The interim rule provided that, for conserving use credit, cropland must have been planted during the year 1996 through 2001 with alfalfa and planted to other multi-year grasses and legumes and summer fallow in a rotation. Such land would only be considered fallow if the plantings were in a rotation with agricultural commodities. This is made more explicit in this final rule. The rule is amended to require that such rotation must be approved by FSA as needed to assure the integrity of the program. Nonetheless, the 2002 Act requires a cropping history during the period from 1996–2001. Land that was planted beyond this period, regardless of whether it was in rotation with other crops, cannot be considered. Therefore, no rule change was warranted to address this comment.

A number of comments were received suggesting the conserving use definition be expanded to include cropland in CRP with a grass cover, under contract which went to full term, and which remains in grass cover. Effectively, this land has continued to be maintained as if it was still in CRP, and making it eligible is similar to making land eligible at the end of the contract period automatically, as the 2002 Act provides. Therefore, this comment is adopted in the final rule under the § 1410.2 definition of conserving use making eligible lands under contract that expired during the period 1996 through 2001, if the cover continues to be maintained as though under contract. Moreover, unlike with trees, it is presumed that a grass cover is there, not for commercial purposes, but for compliance with the CRP contract, as the land was moved out of the production. Also, under traditional definitions, such land would remain as cropland.

A respondent recommended a definition should be added for "marginal pastureland" due to its importance in terms of eligibility, practice requirements, and rental rates. Consistent with new legislation, the interim rule expanded eligibility for

marginal pastureland devoted to a riparian buffer, a new wetland practice, or a new wildlife habitat buffer to provide wildlife habitat where tree plantings are not practical near water bodies. The agency feels that marginal pastureland is adequately defined in context as well as the FOTG, and promulgating a definition would reduce flexibility. Thus, CCC did not adopt this comment.

Seven comments addressed lands classified as "infeasible to farm." One respondent stated that the interim rule did not clearly define "infeasible to farm" and how it will be determined. Section 1410.2 defines "infeasible to farm" as an area that is too small or isolated to be economically farmed. The local qualifying land characteristics as to whether it is infeasible to farm will be determined at the county level by FSA. "Infeasible to farm" acreage is properly determined at the local level where all relevant factors can be considered. The agency does not feel that this limitation will be arbitrarily applied; thus, this comment was not adopted.

A respondent recommended that FSA should allow its State offices, with the advice of State wildlife agencies, to enroll up to one-half of a percent of their cropland in mapped areas of value to critical wildlife needs. The respondent feels that this will help achieve critical wildlife objectives of the CRP. As suggested by the respondent, FSA emphasizes wildlife habitat in the EBI and its practice standards for wildlife habitat applicable to the area. Further, a unique conservation plan is developed for individual contracts based on the site conditions and the NRCS FOTG, which include wildlife needs. Therefore, the respondents' suggestions on allocating acreage are already addressed by the interim rule and further changes were not made.

Section 1410.4 Maximum County Acreage

Ten comments were received regarding the currently imposed 25-percent county acreage enrollment limit for the CRP and Wetland Reserve Program (WRP). Six of the comments opposed counting continuous lands in the 25 percent cap. One respondent indicated that the CRP acreage cap should be determined at the watershed scale, not the county level. We understand the respondent's rationale; however, the 1985 Act provides that CRP acreage enrollment is to be calculated on a county basis. Therefore, this and similar comments were not considered further.

One respondent recommended that limits on participation should be included to protect the economic stability of individual counties or regions. CCC is committed to addressing conservation issues of the nation and providing an opportunity for producers to offer eligible lands through a variety of conservation programs consistent with statutory authority. Before waiving the cropland limit, CCC, by statute, must determine that enrollment of additional land would have no adverse economic impact and producers are having difficulty complying with their highly erodible land conservation plan. Thus, the respondent's concerns are addressed under current regulations, consistent with law, and no changes are made in the final rule to further limit participation.

Section 1410.5 Eligible Persons

Two comments concerned the relationship between renters (or tenants) and landlords. An individual commented that a renter needs immediate notice if a landlord goes to FSA and starts the process of sign-up. One respondent recommended that landowners not be required to own or have operated the land for the previous 12 months to be eligible to enroll in the continuous CRP or Conservation Reserve Enhancement Program (CREP). FSA encourages landlords and tenants to work closely when enrolling land in the CRP. Further, all operators, owners, and tenants who have an interest in the acreage being offered are required to sign the CRP contract. Also, producers can withdraw an offer anytime before a contract is approved. As for the time an applicant must have operated the land, the law that authorized the CRP requires landowners and tenants to have owned or operated the land for the previous 12 months. However, the statute allows CCC to consider, on a case-by-case basis, both a landowner or tenant eligible when the land was not acquired for the purpose of enrolling it in the CRP. Thus, current regulations are sufficient to address the comments, and no rule change was warranted.

Section 1410.6 Eligible Land

Over 150 comments were received regarding land eligibility. The majority of these comments focused on the role of what the agency considered to be a "conserving use" and the impact of that term on an eligibility determination. These comments were addressed with the comments regarding § 1410.2 above.

Twenty comments focused on the interim rule's requirements for cropping history. A few comments fully supported the new 4-out-of-6-year

cropping history requirements, although most criticized the new rule and suggested FSA revert to the original 2-out-of-5 year cropping history requirement. However, the 4-out-of-6 year cropping history is a statutory requirement. Therefore, these comments were not considered further and were not adopted.

Four comments requested clarification regarding the eligibility of permanent crops for CRP programs. The remaining comments criticized current regulations for the type of agriculture allowed in the CRP and its shortcomings in California. The respondent suggested that CRP requirements resulted in land being used to produce grain and row crops using conventional tillage when that land may be better suited for grazing or forage production. The comments were not clear on what change in the regulations would allay their concerns, and they made no specific recommendations. Furthermore, from the start, the CRP has focused, at least in part, on directing active cropland into conserving uses. Rather than encouraging environmentally damaging uses of land as suggested by the respondent, the CRP has resulted in many acres of marginal land that were being used to produce row crops in the past being shifted into a much more ecologically sound practice. Therefore, the comments were not further considered and no change in the regulations has been made.

Five comments on re-enrollment were received. Three respondents supported the provision required by the 2002 Act, and included in § 1410.6(a)(3), that there be an option for CRP participants to offer a new contract into the program when their contracts expire. Two other respondents questioned why tree-planted CRP contracts expiring in 2001 are not eligible for renewal, based upon the expiration, while similar contracts expiring in 2002 and 2003 are being renewed. This is because this provision in the regulations follows section 1231(i) of the 2002 Act, which provided for eligibility for future expirations prospectively only. Hence, no change in the regulations was warranted.

Six comments were received in support of the continuous enrollment provisions included in § 1410.6 of the interim rule. A few respondents suggested expansion of the CRP to benefit wildlife by enrolling high value practices that restore and protect rare and declining species.

As discussed above, the interim rule expanded CRP eligibility for marginal pastureland devoted to a riparian buffer practice, a new wetland practice, or a new wildlife habitat buffer practice.

Wildlife habitat may now be established where tree plantings are not practical or appropriate. This change will be valuable in addressing Federal and State wildlife issues near streams, rivers, or other water bodies. Furthermore, CCC has added continuous sign-up eligibility for practices involving wetland restoration and bottomland hardwood trees.

In riparian areas where the climax vegetation for the site is shrub, forb, grass, or a wetland complex, the current rule provided for the establishment of conservation practices that are best suited for the site. This rule will further permit development of conservation practices that provide water-quality benefits such as wetland restoration, on marginal pastureland which, at § 1410.6(a)(2)(ii), will be limited to enrollments under CREP agreements with State governments. This will ensure implementation of conservation practices on the most environmentally-desirable lands to improve water quality.

Some respondents expressed concern about removing cover and suggested that farmland previously enrolled in the CRP program and planted to approved grasses must be plowed and re-seeded in order to be eligible for a future sign-up. Other comments pertaining to this section concerned buffer guidelines, and consistency between their application by other USDA agencies and programs to native prairies and marginal pastureland. One respondent suggested allowing the use of continuous sign-up and CREP to meet the producer's buffer requirements under State and local mandatory setback laws. Because FSA already allows otherwise eligible land to be offered, provided the producer has not been specifically designated out-of-compliance with a State and/or local setback law, these comments were not considered further and can be addressed within existing rules if further action is needed.

Three comments regarding land eligibility and general sign-up touted the need to protect fragile lands and utilize native vegetation in order to achieve the highest public benefit and enhance biodiversity. The 2002 Act made no changes to the EBI. However, in an effort to maximize environmental benefits and implement plantings consistent with local ecosystems, CCC has structured the EBI to give more weight to contract offers that devote acreage to native plantings. CCC recognizes that in certain critical planting areas the use of introduced vegetative species may be required to stabilize the soil faster, be easier to establish, or provide a more cost-

effective conservation effort. The agency agrees with the comment; however, current rule language is sufficient to accomplish the desired result, and no change in the regulations is warranted.

Section 1410.8 Conservation Priority Areas

A total of 11 comments were received on this section of the rule. The majority of the comments suggested that State agencies be provided flexibility to revise wildlife and water quality Conservation Priority Areas (CPA) between general sign-ups. Because the interim rule does not preclude revisions of CPA's between sign-ups, no rule change is needed to implement the suggested change.

Section 1410.9 Conversion to Trees

There were 14 comments pertaining to the planting of CRP acreage to trees. Comments were received from State government agencies and national conservation organizations. A respondent suggested this practice be limited to areas where trees existed historically, because planting trees in historically prairie areas created a number of problems such as habitat and refuge for predators, ecological traps for nesting birds, and nuisance exotic species.

All 14 respondents were concerned with the effects of converting permanent vegetative grass covers under CRP contracts from prior to 1990 to hardwood trees when the ecosystem did not historically support hardwood trees. This rule encourages planting native species suited to the environment. Further, the EBI is designed to encourage planting of native species. Thus, no rule change is needed to address the concerns of the respondent.

Section 1410.11 Farmable Wetlands Program

There were six comments concerning the Farmable Wetlands Program, including eligibility requirements, payment methods, and the methods for delineating wetland. Also, there was one comment on the size of contiguous wetland acres being accepted into the program regarding the basis for enrolling 10 contiguous acres when the owner/operator will only be paid for the first 5 acres. The comments did not address specific rule provisions that caused these concerns or how they may be mitigated. The agency determines wetlands using the FOTG and guidance from NRCS, and has no plans to promulgate how wetlands are delineated. As for the acreage limitation, it is imposed by the 2002 Act. Thus, these comments were not considered further and no change was warranted.

Section 1410.20 Obligations of Participants

There were 28 comments received on the obligations of participants, a majority of which suggested stricter requirements for keeping noxious weeds off CRP lands. Comments on noxious weeds fell into two general groups. The first group suggested mandatory control of noxious weeds as an essential component of managing CRP lands. The second group recommended that weed control be limited to official Federal or State recognized noxious weeds, since most so-called weeds provide extremely high quality wildlife habitat. As a condition of enrollment, a CRP participant must establish and maintain certain covers for the benefit of soil erosion, water quality, and wildlife habitat. On an individual contract basis, a conservation plan is developed according to the NRCS FOTG outlining the requirements to establish and maintain those covers including any necessary weed, insect, and pest control measures. As to noxious weed matters, State governments enforce noxious weed laws and CCC takes appropriate action when notified by State authorities of violations. When CCC becomes aware of a contract violation, it pursues appropriate remedies, including contract termination. The weed control provisions of the program as articulated in the conservation plan developed on a contract-by-contract basis according to NRCS FOTG standards assure the protection of the cover.

The remainder of the comments on this section dealt with maintenance payments and the use of burning as a maintenance tool. Four respondents felt that the landowners were not receiving sufficient rental incentives to pay maintenance costs. Of those, one felt that rental payments should meet a level-of-effort standard, and that landowners who agree to do more maintenance should receive higher rental payments. Two individuals were concerned that some participants receive rental incentives for maintenance for doing nothing, while two others suggested that FSA hold payments until maintenance was completed. One suggested that these incentive payments be made only when maintenance is needed, and, finally, one suggested that holistic grazing be added as eligible for such incentives.

Maintenance incentive rental payments are paid to ensure proper cover of the CRP acreage. What constitutes maintenance and proper coverage varies by geography, topography, and other factors. Consequently, it is difficult to

promulgate these amounts and practices at a national level. Thus, what is eligible for maintenance incentive payments and the amount to be paid is determined at the local level based on local conditions. If practices are not carried out as agreed to by the program participant, then payments are not made or are required to be refunded when CCC becomes aware through an informant or a spot-check that an enforcement action is necessary.

A comment stressed the importance of including fire protection plans and annual controlled burns as a maintenance tool and advocated that the landowner and tenant should not be penalized for such maintenance related burns.

The respondent's concerns are addressed by FSA operating procedures and are not included in the regulation. CRP participants must have an approved conservation plan developed locally and for the unique site conditions. Where appropriate, a conservation plan will include a fire protection plan, which may include controlled burns as a maintenance measure. These plans are prepared according to the NRCS FOTG and may incorporate the advice of other experts. Thus, the interim rule already addresses the respondent's concerns, and no changes are made in the final rule.

Section 1410.22 CRP Conservation Plan

A total of 15 comments were received concerning conservation plans and, more specifically, mid-contract management. Six comments fully supported mid-contract management for its role in maintaining and maximizing wildlife benefits of the program. A comment recommended that the practices to be employed and the timing of application for mid-contract management should be determined at the State level to account for variability in climate and cover development. The interim rule requires CRP participants to follow a local technical standard which provides the greatest protection of the State's soil, water, and wildlife resources, improves and preserves water quality, and enhances fish and wildlife habitat. Because the program already incorporates local technical standards, as appropriate, it would not serve the program well to abandon those and adopt State standards. Therefore, this comment was not adopted.

One respondent suggested that the rule be clarified concerning when renewed contracts are considered "new" and whether previously enrolled acres will now be subject to mid-contract cover management. Mid-

contract cover management applies to contracts entered into after the interim rule's effective date of May 8, 2003, and applies to all contracts, including renewal contracts, approved after May 8, 2003. Terms of the contracts will, moreover, be specified in the contracts.

An individual suggested clarification of how cost-share for mid-contract management practices would be provided, primarily for tree thinning. Consistent with the authorizing legislation, CRP participants must thin trees under their CRP contract without cost-share and receive an annual payment reduction on acreage thinned. Therefore, the comment was not considered and no rule change was needed.

Three comments recommended that all State wildlife agencies be engaged to develop criteria for mid-cover management. FSA has consulted with the U.S. Fish and Wildlife Service and other agencies on these matters. Because the rule already allows consultation other agencies with expertise, the rule is sufficient as written.

Section 1410.30 Sign-Up

There were 23 comments received regarding this section. Some respondents suggested expanding the uses of targeted CRP through continuous enrollment and CREP to meet more environmental needs. Environmentally-desirable land devoted to certain conservation practices may be enrolled in CRP at any time under continuous sign-up. These practices are usually filter strips, riparian buffers, certain wetlands, grass waterways, and other practices the enrollment of which provide substantial environmental benefits meeting the conservation goals of the program including soil erosion, water quality, and wildlife habitat. CCC will annually publish in the **Federal Register** to the extent practicable conservation practices and lands made eligible for continuous sign-up after September 30, 2004.

A majority of respondents stated that practices installed under the continuous sign-up have insufficiently utilized vegetative cover with high wildlife values. They recommended that continuous sign-up be limited to the use of 40- or 50-point EBI vegetative cover types to achieve the highest environmental benefits.

CCC currently utilizes the FOTG of the NRCS and issues other Agency guidance on this subject. Wildlife considerations are a major consideration in the practice requirements for most continuous sign-up practices. The agency feels that wildlife is being addressed properly under the provisions

of the interim rule and increased emphasis on vegetation for wildlife is unnecessary.

Section 1410.31 Acceptability of Offers

About 60 comments were received regarding the acceptability of offers. Comment categories ranged from local eco-type and native vegetation consistency, to whole-farm enrollment, to the EBI. The vast majority of comments expressed concern that conservation practices implementing native vegetation should be more highly considered than non-native vegetation, and that the vegetation used in conservation practices should be vegetation that is of local eco-type seed. CRP policy regulations and the EBI already emphasize planting native vegetation. In any event, no rule prohibits the results sought by the respondent. Another comment recommended the EBI be included in the regulation to protect the EBI against legal challenge. The agency understands the respondent's concerns that the acceptability of offers be more strictly determined by regulations. The weighing of factors in the EBI can change over time and over enrollments based on changing conditions, changing needs, and based on the nature of the land achieved in previous enrollments. Incorporating the EBI into the rules could harden the index in a way that would be harmful to the achievement of the goals of the program because of the time that would otherwise be needed to change the index. Further, competition in all cases is a set formula for enrollments, so as to not allow the agency to assign special merit to especially attractive offers. Therefore, this comment was not adopted. However, CCC will consider this comment further but, should CCC adopt the suggestion, it would be best to do so as a separate action from this rulemaking with a full opportunity for public comment.

Section 1410.42 Annual Rental Payments

Over half of the 42 comments received under this section of the rule pertained specifically to rental payments. The interim rule provides that rental rates are based on relative soil productivity of the soil type for dryland cash rental rates for the county. Most respondents supported this policy—that CRP rental rates mirror the rates for comparable land in the immediate area and be based on the agricultural production value of the land. Concerning irrigated lands, a comment noted that continuous CRP should allow CCC to pay irrigated rates

in irrigated landscapes. Further, the comment noted that, environmentally, these irrigated areas have highly significant concentrated flows with increased soil erosion and degraded water quality. As a result of the comment, FSA is evaluating options to consider the impact of irrigated rental rates. No rule change is needed to make such an allowance.

A few comments recommended increasing incentive payments under CRP. All 42 respondents on this section requested additional incentives for CREP and continuous sign-up practices. The respondents felt that landowners need adequate funding to maintain and enhance their properties to meet CRP conservation plan goals and maximize environmental benefits. CCC feels that the payment of competitive, market-based rental rates is sufficient enticement for the enrollment of land, and the best method for ensuring that payments are distributed equitably. Further, the regulations allow for incentives, where appropriate, to meet program goals and objectives. Therefore, no rule change is needed.

With regard to contract payments, two comments from a commodity organization recommended that if CRP payments are reduced or delayed for more than 60 days, the producer should have the option to withdraw from the contract without penalty and program crop bases would be restored to their prior level. CRP regulations anticipate that contract payments will be made in a timely manner. CCC may pay interest if claims are overdue for a material portion of time. Contract release is too drastic and unwarranted. Accordingly, no change has been made in the regulations.

Section 1410.50 Enhancement Programs

Five comments were received regarding enhancement programs suggesting expanding CREP, continuous enrollment, associated practices, and incentives. However, the comments were not specific on recommended changes. The agency feels that program regulations already encourage participation and adequately address CREP and continuous enrollment.

Section 1410.63 Permissive Uses

There were over 200 comments focused on this section of the rule, making it the most commented-upon section. Comment categories included managed and emergency haying and grazing, the use of wind turbines, maintenance associated with haying and grazing, and the grazing of buffer strips. Emergency haying and grazing allows

producers to hay or graze CRP acreage during disaster-related emergency conditions. Managed haying and grazing is intended to have positive effects on the management of the cover consistent with CRP's conservation goals. Managed haying and grazing is not intended to maximize forage benefits. Concerning managed haying and grazing, a majority of comments were critical. Many felt that it is unfair for a farmer to receive CRP payments while being able to profit from grazing their cattle for free, or from selling the harvested hay. However, contrary to what the comments suggest, the statute and the regulation require reduction of CRP payments based on the acres used for haying and grazing. Thus, no change in the regulations was warranted.

Other respondents were concerned about the effects of haying and grazing, stating that the maximum one-in-three year haying and grazing frequency may have a negative impact on wildlife. A few respondents supported managed haying and grazing, and suggested that it strictly comply with the Upland Wildlife Habitat Management standard in the FOTG of NRCS.

The interim rule provisions on managed haying and grazing were developed after CCC reviewed scientific recommendations from both government and non-government experts on environmental and wildlife impacts. Also, in 2001, a panel of grassland ecologists developed a number of recommendations for CRP. The panel recommended that haying and grazing of CRP land be limited to that which is of ecological benefit and in accordance with a management plan suited to the site and vegetative cover. Managed haying and grazing is approved locally, and the FSA State committee, in consultation with the NRCS State technical committee, establishes beginning and ending primary nesting and brood rearing dates to ensure wildlife habitat is sufficiently protected. Since the interim rule was published, FSA delegated authority to its State committees to modify primary nesting season dates as recommended by NRCS State technical committees to ensure applicable nesting seasons reflect local needs of wildlife. As the regulations provide sufficient flexibility for the handling of these issues based on circumstances, no change to the regulations is necessary.

There were 26 comments about emergency haying and grazing. The majority of these comments offered specific recommendations how to reduce its impact to wildlife habitats. These recommendations included acreage caps, timing of harvesting, and

allowing only grazing. A few respondents suggested that FSA prohibit the sale of emergency haying/grazing privileges, while some respondents fully supported emergency haying and grazing as it is currently implemented. One respondent fully opposed using CRP land for emergency haying or grazing.

The requirements for emergency haying and grazing eligibility were enhanced and streamlined this year with the implementation of the interim rule. In periods of extreme emergency, the Secretary may make certain CRP lands eligible under the rule for emergency haying and grazing. Counties also may qualify under a "D3 Drought—Extreme" category utilizing the U.S. Drought Monitor to streamline the application process. The emergency haying and grazing provisions are promulgated as required by the statute, incorporating administrative flexibility where appropriate. Thus, no changes were made to the regulations as a result of these comments.

Eleven comments addressed maintenance thinning of CRP softwood plantations. All eleven felt that poor wildlife habitat quality is provided by CRP softwood that is not thinned and, therefore, thinning should be allowed with no reduction in annual rental payments. Tree thinning ensures the health of trees and is not intended to guarantee an income. Further, the law requires a payment reduction to the extent income results from CRP softwood. Because CRP contracts already require tree thinning, the comment was not adopted.

Two respondents felt that incidental grazing of grass buffer strips should be allowed only when located in green wheat fields or fields containing other similar forage. CCC already allows limited grazing of certain practices taking into consideration the affects on the practice, the environment, and wildlife when grazing is incidental to the gleaning of the crop residue in a field after crop harvest. Therefore, no changes were made in the final rule as a result.

Three respondents expressed concerns about detrimental effects on grassland birds and other wildlife from wind turbines on CRP lands. CCC considers environmental impacts of each site and prepares a site specific environmental assessment or environmental impact statement, as applicable, before approving the location of wind turbines. If a wind turbine will create material wildlife concerns, those concerns will be properly considered in determining whether to grant approval. Thus, the

respondent's concerns are addressed in each instance, and revision of the final rule is not necessary.

Three respondents believe that the 1-in-3 year managed haying and grazing rotation was inconsistent with wildlife habitat goals of the program. These respondents suggested that the interim rule will have severe negative impacts on grassland nesting birds and other wildlife within the Northern Great Plains region. They suggested more clearly defining the wildlife objectives of the program as a whole. Since these impacts and the compliance with wildlife protection requirements can be addressed in each contract based on local requirements, specification in the regulations of program wildlife objectives is not needed.

One comment suggested amending the rule to allow managed haying and grazing, including the harvest of biomass, without a reduction in annual payment in certain areas and allowing more frequent grazing of short grass prairie areas established in native short grass vegetation. CCC established criteria for frequency of haying or grazing based on scientific research to enhance vegetative cover and wildlife habitat benefits. The statute requires a reduction of annual rental payments commensurate with the economic value of the activity. Current rules are consistent with the statutory provision and no change in the regulations is warranted.

Other Changes

This rule amends the interim rule promulgating 7 CFR part 1410 (68 FR 24830, May 8, 2003) as discussed above with regard to those comments adopted. In addition, the interim rule did not address the crop insurance requirements in 7 CFR part 1405 as they apply to CRP contracts. This rule amends the interim rule to correct that oversight.

Executive Order 12866

This rule has been determined to be economically significant and was reviewed by the Office of Management and Budget (OMB) under Executive Order 12866. A Cost/Benefit Analysis was prepared and is summarized following the discussion of other applicable laws and Executive Orders.

Regulatory Flexibility Act

It has been determined that the Regulatory Flexibility Act is not applicable to this interim rule because the Commodity Credit Corporation (CCC) is not required by 5 U.S.C. 553 or any other law to publish a notice of proposed rulemaking for the subject matter of this rule. CCC is authorized by

section 2702 of the 2002 Act to issue a final rule.

Environmental Evaluation

The environmental impacts of this rule have been considered consistently with the provisions of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 *et seq.*; the regulations of the Council on Environmental Quality (40 CFR parts 1500–1508); and FSA's regulations for compliance with NEPA at 7 CFR part 799. Because certain programs may significantly have impacts on the human environment, FSA completed a final Environmental Impact Statement (EIS) on May 8, 2003, which is on file and available to the public in the Administrative Record at the address specified in the ADDRESSES section. The EIS is also available electronically at: <http://www.fsa.usda.gov/dafsp/cepd/epb/NEPA.htm>.

Executive Order 12372

This program is not subject to the provisions of Executive Order 12372, which require intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

Unfunded Mandates

Title II of the Unfunded Mandate Reform Act of 1995 (UMRA), Pub. L. 104–4, establishes requirements for Federal agencies to assess the effects of their regulatory actions that impose "Federal Mandates" that may result in expenditures to State, local, or tribal governments, in the aggregate, or the private sector, of \$100 million or more in any one year. This rule contains no Federal mandates as defined by Title II of UMRA. Therefore, this rule is not subject to sections 202 and 205 of the UMRA.

Federal Domestic Assistance Program

The title and number of the Federal Domestic Assistance Program, as found in the Catalog of Federal Domestic Assistance, to which this rule applies, is the Conservation Reserve Program—10.069.

Paperwork Reduction Act

The 2002 Act specified that the issuance of regulations promulgated pursuant to this new authority would be made without regard to chapter 35 of title 44, U.S. Code (commonly known as the "Paperwork Reduction Act").

Executive Order 12778

This final rule has been reviewed under Executive Order 12778. The

provisions of this rule are not retroactive and preempt State and local laws that are inconsistent with this rule. Before any judicial action may be brought concerning this rule, appeal rights afforded program participants at 7 CFR parts 11, 624, and 780 must be exhausted.

Government Paperwork Elimination Act

FSA is working to comply with the Government Paperwork Elimination Act (GPEA) and the Freedom to E-File Act, which require Government agencies in general and FSA in particular to provide the public the option of submitting information or transacting business electronically to the maximum extent possible. The forms and other information collection activities required for participation in CRP are not fully implemented for the public to conduct business with FSA electronically.

Currently, four CRP forms are available electronically through the USDA eForms Web site at <http://www.sc.egov.usda.gov> for downloading and regulations are available on the Internet at <http://www.fsa.usda.gov/dafp/cepd>. Offers may be submitted at FSA county offices, by mail, or by FAX. At this time, electronic submission is not available, but full implementation of electronic submission is underway.

Summary of Cost-Benefit Assessment (CBA)

Increased Enrollment

Enrolling an additional 2.8 million acres will provide environmental benefits, including establishment of 2.8 million acres of wildlife habitat improving recreational benefits through increased hunting and wildlife viewing opportunities. Soil erosion will be reduced an estimated 27 million tons per year, increasing soil productivity, improving surface water quality, and improving air quality.

Total CRP outlays are estimated to increase \$1.5 billion during fiscal years 2003 through 2012, while commodity program outlays are estimated to decline about \$1.7 billion over the same period, primarily due to a \$1.5 billion estimated counter-cyclical payment decline. The additional 2.8-million-acre enrollment is estimated to decrease combined CRP and commodity program outlays \$186 million during the 10-year period.

Idling an additional 2.8 million acres under CRP (less than 1 percent of typically planted acreage) will have minimal impacts on the farm sector. Net crop sector income is estimated to increase \$307 million per year (1 percent) during the 2003–2012 crop

years due to increased market-based net returns (\$349 million per year), decreased commodity program payments (\$186 million per year), and increased net CRP payments (\$144 million per year) over the 10-year period. Reduced plantings will cause estimated crop prices to increase on average \$0.02 per bushel for wheat, \$0.02 for corn, \$0.01 to \$0.02 for other feed grains, and \$0.06 for soybeans per year.

Average buyers' loss for domestic users of the major crops is estimated to increase \$326 million per year when the 2.8 million acres are enrolled. Including other estimated average annual economic indicator changes over the 2003–2012 time period provides estimated net economic benefits of \$11 million per year, before any consideration of the value to society of the environmental benefits. While comprehensive measures of the value of the environmental benefits obtained from enrolling environmentally sensitive acreage in CRP do not currently exist, the economic value of environmental benefits is expected to be substantial.

Eligible Land Impacts

Basic cropland eligibility options selected (and impacts):

- Consider cropland in summer fallow rotation as conserving use. (Adds 29 million acres.)

- Consider cropland devoted to alfalfa or other multi-year grasses and legumes as conserving use, but only if planted during 1996–2001. (Adds 31 million acres and excludes 90 million acres not planted during 1996–2001. Also excludes about 1.5 million acres previously eligible as land in long-term crop/hay rotations.)

- Consider land formerly enrolled in CRP under contracts that expired before 1999 and still in grass as conserving use. (Adds 5 million acres, and excludes a minimal amount of acreage in trees.)

- Make land used for perennial horticulture eligible, if devoted to certain continuous sign-up practices. (Adds about 240,000 acres.)

A total of 371 million cropland acres are estimated to meet basic crop eligibility requirements, about 8 million more than were eligible under previous criteria.

Significant resource-based eligibility options selected (and impacts):

- Include under highly erodible land criteria cropland in fields with weighted average Erodibility Index (EI) ≥ 8 , rather than previous policy that included cropland in fields classified as HEL (subject to conservation compliance requirements) and cropland with

weighted average EI ≥ 8 . (Reduces eligible land about 9 million acres.)

- Add about 40 counties to the prairie pothole national CPA. (Adds 3 million acres.)

- Increase the allowable State CPA percentage from 10 percent to 33 percent of cropland acreage per State. (Adds 36 million acres.)

About 270 million acres, or 73 percent, of cropland meeting basic eligibility requirements are estimated to meet one or more resource-based eligibility criteria. Eligible land includes 106 million acres of highly erodible cropland, 120 million acres in national conservation priority areas, and 87 million acres in State CPA's.

Managed Haying and Grazing Impacts

Allowing non-emergency managed haying and grazing, conducted in accordance with a conservation plan, could potentially affect about 25 percent of eligible CRP grassland acreage. Haying and grazing will be limited to no more than once every 3 years, depending on conservation plan guidelines. Thus, around 2 million to 3 million acres could be hayed or grazed in any year, improving wildlife habitat benefits on a total of about 7 million acres. CRP rental payments could be reduced \$20 million to \$25 million per year.

Rulemaking Exemption

Section 2702 of the 2002 Act exempts this rulemaking, the interim rule that proceeds this affirmation, and the administration of the program, from the application of the Paperwork Reduction Act, and the Statement of Policy of the Secretary of Agriculture published at 36 FR 13804 (July 24, 1971). That section of the 2002 Act also provided explicitly for allowing an interim rule to be made effective immediately without prior notice and comment. As this final rule merely affirms the existing interim rule, with slight amendments made for the better administration of the CRP non-entitlement program, it would be contrary to the public interest to delay the implementation of this rule. Accordingly, consistent with the terms of the 2002 Act and the public interest, this rule is effective upon publication.

List of Subjects in 7 CFR Part 1410

Administrative practices and procedures, Agriculture, Conservation plan, Contracts, Environmental protection, Natural resources, Soil conservation, Water resources, and Wildlife.

■ Accordingly, the interim rule revising 7 CFR part 1410 published at 68 FR

24830 on May 8, 2003, is adopted as final with the following changes:

PART 1410—CONSERVATION RESERVE PROGRAM

■ 1. The authority citation for part 1410 continues to read as follows:

Authority: 15 U.S.C. 714b and 714c; 16, U.S.C. 3801–3847.

■ 2. Amend § 1410.2(b) by revising the definitions of “Conserving use” and “Perennial crop” to read as follows:

§ 1410.2 Definitions.

* * * * *

(b) * * *
Conserving use means a use of land with any rotation requirements as may be specified by the Deputy Administrator: for alfalfa and other multi-year grasses and legumes planted during 1996 through 2001; as summer fallow during 1996 through 2001; and in which the land was previously enrolled in the program (for which the contract expired during the period 1996 through 2001) and where the grass cover required by the CRP contract continues to be maintained as though still enrolled. Where the land use for a year qualifies as a “conserving use” under this definition, then, the land for that year shall, for purposes of eligibility under § 1410.6(a)(1) be considered to have been planted to an “agricultural commodity.”

* * * * *

Perennial crop means a crop that is produced from the same root structure for two or more years, as determined by CCC.

* * * * *

■ 3. Amend § 1410.6 by revising paragraph (a)(2)(ii) introductory text to read as follows:

§ 1410.6 Eligible land.

(a) * * *

(2) * * *

(ii) Is determined to be suitable for use as a riparian buffer or is made eligible in a CREP for similar water quality purposes as determined by the Deputy Administrator. A field or portion of a field of marginal pasture land may be considered to be suitable for use as a riparian buffer only if, as determined CCC, it:

* * * * *

■ 4. Amend § 1410.52 by adding paragraph (d) to read as follows:

§ 1410.52 Violations.

* * * * *

(d) Crop insurance purchase requirements in part 1405 of this chapter apply to contracts executed in accordance with this part.

■ 5. Amend § 1410.63 by revising paragraph (c) introductory text and (c)(1)(iii) to read as follows:

§ 1410.63 Permissive uses.

* * * * *

(c) The following activities may be permitted on CRP enrolled land insofar as they are consistent with the soil, water, and wildlife conservation purposes of the program:

(1) * * *

(iii) According to an approved CRP conservation plan in accordance with FOTG standards and ensuring that managed haying and grazing activities occur outside the official nesting and brood rearing season for those plans.

* * * * *

Signed at Washington, DC, on May 11, 2004.

James R. Little,
Executive Vice President, Commodity Credit Corporation.

BILLING CODE 3410–05–P

FARM CREDIT ADMINISTRATION

12 CFR Parts 614 and 617

RIN 3052–AC04

Loan Policies and Operations; Borrower Rights; Effective Date

AGENCY: Farm Credit Administration.

ACTION: Notice of effective date.

SUMMARY: The Farm Credit Administration (FCA) published a final rule under parts 614 and 617 on March 30, 2004 (69 FR 16455). This final rule clarifies when and how qualified lenders must disclose the effective interest rates and other loan information to borrowers; when and how the cost of Farm Credit System borrower stock must be disclosed to borrowers; and how loan origination charges and other loan information must be disclosed to borrowers. In accordance with 12 U.S.C. 2252, the effective date of the interim final rule is 30 days from the date of publication in the *Federal Register* during which either or both Houses of Congress are in session. Based on the records of the sessions of Congress, the effective date of the regulations is May 10, 2004.

DATES: *Effective Date:* The regulation amending 12 CFR parts 614 and 617 published on March 30, 2004 (69 FR 16455) is effective May 10, 2004.

FOR FURTHER INFORMATION CONTACT: Tong-Ching Chang, Senior Policy Analyst, Office of Policy and Analysis, Farm Credit Administration, McLean,

VA 22102–5090, (703) 883–4498, TTY (703) 883–4434; or Howard Rubin, Senior Attorney, Office of General Counsel, Farm Credit Administration, McLean, VA 22102–5090, (703) 883–4020, TTY (703) 883–2020.

FARM CREDIT ADMINISTRATION

12 CFR Parts 614, 620, and 630

RIN 3052–AC07

Loan Policies and Operations; Disclosure to Shareholders; Disclosure to Investors in Systemwide and Consolidated Bank Debt Obligations of the Farm Credit System; Effective Date

AGENCY: Farm Credit Administration.

ACTION: Final rules; notice of effective date.

SUMMARY: The Farm Credit Administration (FCA) published a final rule under parts 614, 620, 630 on March 30, 2004 (69 FR 16460). This final rule amends our regulations governing the Farm Credit System’s (System) mission to provide sound and constructive credit and services to young, beginning, and small farmers and ranchers and producers or harvesters of aquatic products (YBS). Additionally, with this final rule, the agency amends the System’s disclosure to shareholders and investors to include reporting on its service to YBS farmers and ranchers. In accordance with 12 U.S.C. 2252, the effective date of the interim final rule is 30 days from the date of publication in the *Federal Register* during which either or both Houses of Congress are in session. Based on the records of the sessions of Congress, the effective date of the regulations is May 10, 2004.

DATES: *Effective Date:* The regulation amending 12 CFR parts 614, 620, 630 published on March 30, 2004 (69 FR 16460) is effective May 10, 2004.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 25

[Docket No. 278, Special Conditions No. 25-262-SC]

Special Conditions: Gulfstream Model GV-SP and GIV-X; High Intensity Radiated Fields (HIRF)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions; request for comments.

SUMMARY: These special conditions are issued for Gulfstream Aerospace Corporation Model GV-SP and GIV-X airplanes. These airplanes will have novel and unusual design features when compared to the state of technology envisioned in the airworthiness standards for transport category airplanes. Specifically, these airplanes will use the Honeywell EPIC System which includes the Electronic Display System (EDS), Air Data System, Inertial Reference System, and Automatic Flight Control System. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for the protection of these systems from the effects of high-intensity radiated fields (HIRF). These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that provided by the existing airworthiness standards.

DATES: The effective date of these special conditions is May 14, 2004. Comments must be received on or before June 14, 2004.

ADDRESSES: Comments on these special conditions may be mailed in duplicate to: Federal Aviation Administration, Transport Airplane Directorate, Attention: Rules Docket (ANM-113), Docket No. NM278, 1601 Lind Avenue SW., Renton, Washington 98055-4056; or delivered in duplicate to the Transport Airplane Directorate at the above address. All comments must be marked: Docket No. NM278.

FOR FURTHER INFORMATION CONTACT: Joseph Jacobsen, FAA, Standardization Branch, ANM-113, Transport Airplane

Directorate, Aircraft Certification Service, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (425) 227-2011; facsimile (425) 227-1149.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA has determined that notice and opportunity for prior public comment are impracticable, because these procedures would significantly delay certification of the airplane and thus delivery of the affected aircraft. In addition, the substance of these special conditions has been subject to the public comment process in several prior instances with no substantive comments received. The FAA, therefore, finds that good cause exists for making these special conditions effective upon issuance; however, the FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. The most helpful comments reference a specific portion of the special conditions, explain the reason for any recommended change, and include supporting data. We ask that you send us two copies of written comments.

We will file in the docket all comments we receive as well as a report summarizing each substantive public contact with FAA personnel concerning these special conditions. The docket is available for public inspection before and after the comment closing date. If you wish to review the docket in person, go to the address in the **ADDRESSES** section of this preamble between 7:30 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

We will consider all comments we receive on or before the closing date for comments. We will consider comments filed late if it is possible to do so without incurring expense or delay. We may change these special conditions based on the comments we receive.

If you want the FAA to acknowledge receipt of your comments on these special conditions, include with your comments a pre-addressed, stamped postcard on which the docket number appears. We will stamp the date on the postcard and mail it back to you.

Background

On August 22, 2000, Gulfstream applied for an amendment to Type Certificate No. A12EA to include an updated version of the model GIV airplane, called the GIV-X. On October 24, 2000, Gulfstream applied for a second amendment to Type Certificate No. A12EA to include an updated

version of the model GV airplane, called the GV-SP.

The GIV-X and GV-SP airplanes are both pressurized, low-wing, "T-tail" transport category airplanes with a tricycle landing gear. Both carry a maximum of 19 passengers. The GIV-X is powered by two Rolls-Royce model Tay 611-8C engines; the GV-SP is powered by two BMW-Rolls Royce Deutschland model BR700-710C4-11 engines.

The primary difference between the existing GV and the new GV-SP is the installation of an advanced avionics and flight deck display suite—the new Honeywell EPIC System—in the GV-SP. The EPIC System includes an Electronic Display System, Air Data System, Inertial Reference System, and Automatic Flight Control System.

The primary differences between the existing GIV and the new GIV-X are the following features of the GIV-X:

- An advanced avionics and flight deck display suite—the EPIC System,
- Airframe aerodynamic changes to increase performance, range and economics,
- Derivative Tay 611-8C engines with GV nacelles and thrust reversers,
- A new Full Authority Digital Engine Control (FADEC), and
- A modified yaw damper and a new hard-over prevention system (HOPS).

Both the Gulfstream model GIV-X and GV-SP airplanes will utilize electrical and electronic systems that perform critical functions. The existing airworthiness regulations do not contain adequate or appropriate safety standards for protection of these systems from the effects of high intensity radiated fields (HIRF) external to the airplane. Therefore, these special conditions are proposed.

Type Certification Basis

Under the provisions of 14 CFR 21.101, Gulfstream must show that the model GIV-X and GV-SP airplanes meet the applicable provisions of the regulations incorporated by reference in Type Certificate A12EA or the applicable regulations in effect on the date of application for the change. The regulations incorporated by reference in the type certificate are commonly referred to as the "original type certification basis."

The certification basis for the Gulfstream GIV-X airplanes includes 14 CFR part 25, effective February 1, 1965, including Amendments 25-1 through 25-101 with the exceptions listed below:

Section	Title	Amendment
25.21(e)	Proof of compliance	25-7
25.305	Strength and deformation	25-54, 25-86 **
25.321	Flight loads—General	25-23, 25-86 **
25.333	Flight maneuvering envelope	25-0, 25-86 **
25.335(b)	Design airspeeds (speed margin)	25-23
25.341	Gust and turbulence loads	25-0, 25-86 **
25.343	Design fuel and oil loads	25-18, 25-86 **
25.365	Pressurized compartment loads	25-54, 25-87 **
25.373	Speed control devices	25-0, 25-86 **
25.391	Control surface loads—General	25-0, 25-86 **
25.427	Unsymmetrical loads	25-0, 25-86 **
25.445	Auxiliary aerodynamic surfaces	25-0, 25-86 **
25.459	Special devices	25-0 *
25.491	Takeoff run	25-0, 25-91 **
25.561	Emergency landing conditions	25-23, 25-64 (seats), 25-91 (new structure) **
25.571	Damage tolerance and fatigue evaluation of structure	25-54 (wing and empennage), 25-96 (fuselage changes) **
25.671	Control systems—General	25-0
25.677(c)	Trim systems	25-0
25.693	Joints	25-0 *
25.695	Power-boost and power-operated control system	25-0
25.807	Emergency exits	25-55 *
25.807(c)(2) and (d)(4)	Emergency exits	25-15 *
25.813(a), (b), (c), (d), and (f)	Emergency exit access	25-46 *
25.841	Pressurized cabins	25-38, 25-87 **
25.857	Cargo compartment classification	25-32 *
25.858	Cargo or baggage compartment smoke or fire detection systems.	25-54 *
25.963	Fuel tanks	25-40
25.973	Fuel tank filler connection	25-40
25.1013	Oil tanks	25-36
25.1447	Equipment standards for oxygen dispensing units	25-41, 25-87 **
25.1517	Rough air speed, VRA	25-86 (new paragraph—NA) *
25.1557	Miscellaneous markings and placards	25-38 *

* These systems have no changes from the basic GIV model; therefore, the paragraphs remain at the original GIV certification basis and the later amendment was not adopted. Amendment 25-0 is the original published version of Part 25, February 1, 1965.

** Unmodified structure remains in compliance with the earlier amendment listed. New or modified structure is in compliance with the later amendment level listed.

The certification basis for the Gulfstream GV-SP airplanes includes 14 CFR part 25, effective February 1, 125-38965, including Amendments 25-1 through 25-98, with the exceptions and limitations specified in Type Certificate A12EA. In addition, the GIV-X and GV-SP certification bases include certain special conditions, exemptions, and equivalent safety findings that are not relevant to these special conditions.

If the Administrator finds that the applicable airworthiness regulations (i.e., 14 CFR part 25, as amended) do not contain adequate or appropriate safety standards because of novel or unusual design features, special conditions are prescribed under the provisions of § 21.16.

Special conditions, as defined in 14 CFR 11.19, are issued in accordance with § 11.38 and become part of the type certification basis in accordance with § 21.101.

Special conditions are initially applicable to the models for which they are issued. Should the applicant apply for a type certificate to modify any other model included on Type Certificate A12EA to incorporate the same novel or

unusual design feature, the special conditions would also apply to the other models under the provisions of § 21.101.

Novel or Unusual Design Features

The Gulfstream Model GV-SP and GIV-X airplanes will incorporate a Honeywell EPIC System which will perform certain critical functions. The EPIC System includes the Electronic Display System (EDS), Air Data System, Inertial Reference System, and Automatic Flight Control System. The GIV-X also incorporates a new Full Authority Digital Engine Control (FADEC), a modified yaw damper and a new hard-over prevention system (HOPS). These systems may be vulnerable to high-intensity radiated fields (HIRF) external to the airplane. The current airworthiness standards of part 25 do not contain adequate or appropriate safety standards for the protection of this equipment from the adverse effects of HIRF. Accordingly, these systems are considered novel or unusual design features.

Discussion

There is no specific regulation that addresses protection requirements for electrical and electronic systems from HIRF. Increased power levels from ground-based radio transmitters and the growing use of sensitive electrical and electronic systems to command and control airplanes have made it necessary to provide adequate protection.

To ensure that a level of safety is achieved equivalent to that intended by the regulations incorporated by reference, special conditions are needed for the Gulfstream Model GV-SP and GIV-X airplanes. These special conditions require that new electrical and electronic systems that perform critical functions, such as the EPIC System, be designed and installed to preclude component damage and interruption of function due to both the direct and indirect effects of HIRF.

High-Intensity Radiated Fields (HIRF)

With the trend toward increased power levels from ground-based transmitters and the advent of space and satellite communications, coupled with electronic command and control of the

airplane, the immunity of critical digital avionic/electronics and electrical systems to HIRF must be established.

It is not possible to precisely define the HIRF to which the airplane will be exposed in service. There is also uncertainty concerning the effectiveness of airframe shielding for HIRF. Furthermore, coupling of electromagnetic energy to cockpit-installed equipment through the cockpit window apertures is undefined. Based on surveys and analysis of existing HIRF emitters, an adequate level of protection exists when compliance with the HIRF protection special condition is shown in accordance with either paragraph 1 or 2 below:

1. A minimum threat of 100 volts rms (root-mean-square) per meter electric field strength from 10 KHz to 18 GHz.

a. The threat must be applied to the system elements and their associated wiring harnesses without the benefit of airframe shielding.

b. Demonstration of this level of protection is established through system tests and analysis.

2. A threat external to the airframe of the field strengths indicated in the table below for the frequency ranges indicated. Both peak and average field strength components from the table below are to be demonstrated.

Frequency	Field strength (volts per meter)	
	Peak	Average
10 kHz–100 kHz	50	50
100 kHz–500 kHz	50	50
500 kHz–2 MHz	50	50
2 MHz–30 MHz	100	100
30 MHz–70 MHz	50	50
70 MHz–100 MHz	50	50
100 MHz–200 MHz	100	100
200 MHz–400 MHz	100	100
400 MHz–700 MHz	700	50
700 MHz–1 GHz	700	100
1 GHz–2 GHz	2000	200
2 GHz–4 GHz	3000	200
4 GHz–6 GHz	3000	200
6 GHz–8 GHz	1000	200
8 GHz–12 GHz	3000	300
12 GHz–18 GHz	2000	200
18 GHz–40 GHz	600	200

The field strengths are expressed in terms of peak of the root-mean-square (rms) over the complete modulation period.

The threat levels identified above are the result of an FAA review of existing studies on the subject of HIRF, in light of the ongoing work of the Electromagnetic Effects Harmonization Working Group of the Aviation Rulemaking Advisory Committee.

Applicability

As discussed above, these special conditions are applicable to Gulfstream

GV-SP and GIV-X airplanes. Should Gulfstream apply at a later date for design change approval to modify any other model included on the same type certificate to incorporate the same or similar novel or unusual design feature, these special conditions would apply to that model as well under the provisions of § 21.101.

Conclusion

This action affects only certain novel or unusual design features on Gulfstream GV-SP and GIV-X airplanes. It is not a rule of general applicability and affects only the applicant which applied to the FAA for approval of these features on these airplanes.

The substance of the special conditions for this airplane has been subjected to the notice and comment procedure in several prior instances and has been derived without substantive change from those previously issued. Because a delay would significantly affect the certification of the airplane, which is imminent, the FAA has determined that prior public notice and comment are unnecessary and impracticable and good cause exists for adopting these special conditions upon issuance. The FAA is requesting comments to allow interested persons to submit views that may not have been submitted in response to the prior opportunities for comment described above.

List of Subjects in 14 CFR Part 25

Aircraft, Aviation safety, Reporting and recordkeeping requirements.

The authority citation for these special conditions is as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701, 44702, 44704.

Accordingly, pursuant to the authority delegated to me by the Administrator, the following special conditions are issued as part of the type certification basis for Gulfstream Model GV-SP and GIV-X airplanes.

1. *Protection from Unwanted Effects of High-Intensity Radiated Fields (HIRF).* Each electrical and electronic system that performs critical functions must be designed and installed to ensure that the operation and operational capability of these systems to perform critical functions are not adversely affected when the airplane is exposed to high-intensity radiated fields.

2. For the purpose of these special conditions, the following definition applies:

Critical Functions. Functions whose failure would contribute to or cause a failure condition that would prevent the

continued safe flight and landing of the airplane.

Issued in Renton, Washington, on May 3, 2004.

Ali Bahrami,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

15 CFR Part 736

[Docket No. 040108007-4007-01]

RIN 0694-AC 99

General Order Implementing Syria Accountability and Lebanese Sovereignty Act of 2003

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Industry and Security is amending the Export Administration Regulations (EAR) by adding new General Order No. 2 to Supplement No. 1, Part 736. Section 5(a)(1) of the Syria Accountability and Lebanese Sovereignty Act of 2003 (the SAA), requires a prohibition on the export to Syria of all items on the Commerce Control List (CCL). The SAA also requires that the President impose two or more of the six additional sanctions set forth in the SAA. One of the additional sanctions chosen by the President prohibits the export to Syria of products of the United States, other than food and medicine. This Order is issued consistent with Executive Order 13338 of May 11, 2004, which implements the SAA.

DATES: *Effective Date:* This rule is effective May 14, 2004.

ADDRESSES: Although there is no public comment period, written comments on this rule may be sent to Sheila Quarterman, Office of Exporter Services, Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044, or e-mail: squarter@bis.doc.gov.

FOR FURTHER INFORMATION CONTACT: Eileen Albanese, Director, Office of Exporter Services, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044, or Telephone: (202) 482-0436.

SUPPLEMENTARY INFORMATION:

Background

Section 5(a)(1) of the Syria Accountability and Lebanese Sovereignty Act of 2003 (Pub. L. 108-175, codified as a note to 22 U.S.C. 2151) (the SAA), requires a prohibition on the export to Syria of all items on the Commerce Control List (15 CFR 774) (CCL). The SAA also requires that the President impose two or more of the six additional sanctions set forth in sections 5(a)(2)(A)–(F). One of the additional sanctions chosen by the President and described in section 5(a)(2)(A) is a prohibition on the export to Syria of products of the United States, other than food and medicine. The President has also exercised national security waiver authority pursuant to section 5(b) of the SAA for certain transactions. This Order is issued consistent with Executive Order 13338 of May 11, 2004, which implements the SAA.

Pursuant to this General Order, exports and reexports of all items subject to the Export Administration Regulations (EAR) (15 CFR 730 *et seq.*), except food and medicine classified as EAR99 and “deemed export” and “deemed reexport” of EAR99 technology or source code, require a license to Syria (medicine is defined in part 772 of the EAR). All license applications for exports or reexports to Syria are subject to a general policy of denial, other than transactions described below.

BIS may consider, on a case-by-case basis, license applications for exports and reexports of items necessary to carry out the President’s constitutional authority to conduct U.S. foreign affairs and as Commander-in-Chief, including those exports and reexports of items necessary for the performance of official functions by United States Government personnel abroad. Pursuant to the President’s exercise of the national security waiver authority set forth in section 5(b) of the SAA, BIS may also consider the following license applications on a case-by-case basis: items in support of activities, diplomatic or otherwise, of the United States Government (to the extent that regulation of such exportation or reexportation would not fall within the President’s constitutional authority to conduct the nation’s foreign affairs); medicine (on the CCL) and medical devices (both as defined in part 772 of the EAR); parts and components intended to ensure the safety of civil aviation and the safe operation of commercial passenger aircraft; aircraft chartered by the Syrian Government for the transport of Syrian Government officials on official Syrian Government

business; telecommunications equipment and associated computers, software and technology; and items in support of United Nations operations in Syria. The total dollar value of each approved license for aircraft parts for flight safety normally will be limited to no more than \$2 million over the 24-month standard license term, except in the case of complete overhauls. In addition, consistent with part 734 of the EAR, the following are not subject to this General Order: informational materials in the form of books and other media; publicly available software and technology; and technology exported in the form of a patent application or an amendment, modification, or supplement thereto or a division thereof (see 15 CFR 734.3(b)(1)(v) and 734.3(b)(2) and (3)).

This General Order makes inapplicable for Syria all License Exceptions set forth in part 740 of the EAR, except as described below. Pursuant to the President’s exercise of the national security waiver authority in section 5(b) of the SAA, the following License Exceptions, or portions thereof, are available: TMP (15 CFR 740.9(a)(2)(viii) only) for items for use by the news media; GOV (15 CFR 740.11(b)(2)(i) and (ii) only) for items for personal or official use by personnel and agencies of the U.S. Government; TSU (15 CFR 740.13(a), (b), and (c) only) for operation technology and software, sales technology and software updates; BAG (15 CFR 740.14) for exports of items by individuals leaving the United States as personal baggage; and AVS (15 CFR 740.15(a)(4) only) for the reexport of civil aircraft on temporary sojourn to Syria. Shotguns and shotgun shells described in 15 CFR 740.14(e) are not permitted to be exported to Syria under License Exception BAG.

This General Order also revokes the authority to export or reexport to Syria under existing licenses. However, exporters may submit new license applications for any transaction that they believe is eligible for case-by-case review based on this General Order. License conditions requiring written U.S. Government authorization for the reexport, transfer, or resale of items already exported or reexported remain in effect, and requests for BIS authorization to reexport, transfer, or sell such items will require interagency approval.

License applications for “deemed exports” and “deemed reexports” as described in 15 CFR 734.2(b) will be reviewed on a case-by-case basis. “Deemed exports” and “deemed reexports” involving or technology or source code subject to the EAR but not

listed on the CCL do not require a license to Syrian foreign nationals.

Finally, items that are on dock for loading, on lighter, laden aboard an exporting carrier or en route aboard a carrier to a port of export on May 14, 2004, remain subject to the licensing rules applicable to such items as of May 13, 2004. Any such items not actually exported or reexported before midnight May 28, 2004, may be exported or reexported only if authorized pursuant to this General Order.

This rule has been determined to be economically significant under Executive Order 12866, because it meets the criterion of having \$100 million or more in annual economic impact. In calendar year 2003, U.S. exports to Syria, excluding food and medicine, totaled approximately \$140 million.

Rulemaking Requirements

1. This final rule has been determined to be economically significant for purposes of E.O. 12866.
2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule contains a collection of information subject to the requirements of the PRA. This collection has been approved by OMB under Control Number 0694-0088 (Multi-Purpose Application), which carries a burden hour estimate of 58 minutes to prepare and submit form BIS-748. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to David Rostker, Office of Management and Budget (OMB), by e-mail to David_Rostker@omb.eop.gov, or by fax to (202)395-7285; and to the Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044.
3. This rule does not contain policies with Federalism implications as that term is defined under Executive Order 13132.
4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (Sec. 5 U.S.C. 553 (a)(1)). Further, no other law requires that a notice of

proposed rulemaking and an opportunity for public comment be given for this final rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 5 U.S.C. 553 or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, this regulation is issued in final form. Although there is no public comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Sheila Quarterman, Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044.

5. This rule has been determined to be major for purposes of the Congressional Review Act (5 U.S.C. 801 *et seq.*). However, pursuant to the Congressional Review Act (5 U.S.C. 808(2)), the Bureau of Industry and Security has determined that the delay in the effective date generally required by the Congressional Review Act is waived for good cause. In particular, the Bureau has determined that a delay is impracticable because a delay in effective date would allow for the shipment of goods during that delay that would be antithetical to the objective of this rule.

List of Subjects in 15 CFR Part 736

Exports, Foreign trade.

■ Accordingly, part 736 of the Export Administration Regulations (15 CFR parts 730–799) is amended as follows:

PART 736—[AMENDED]

■ 1. The authority citation for part 736 is revised to read as follows:

Authority: 50 U.S.C. app. 2401 *et seq.*; 50 U.S.C. 1701 *et seq.*; 22 U.S.C. 2151 note; E.O. 12938, 59 FR 59099, 3 CFR, 1994 Comp., p. 950; E.O. 13020, 61 FR 54079, 3 CFR, 1996 Comp., p. 219; E.O. 13026, 61 FR 58767, 3 CFR, 1996 Comp., p. 228; E.O. 13222, 66 FR 44025, 3 CFR, 2001 Comp., p. 783; E.O. 13338 of May 11, 2004; Notice of August 7, 2003, 68 FR 47833, 3 CFR, 2003 Comp., p. 328; Notice of October 29, 2003, 68 FR 62209, 3 CFR, 2003 Comp., p. 347.

■ 2. Supplement No. 1 to part 736 is amended by adding General Order No. 2 to read as follows:

Supplement No. 1 to Part 736—General Orders

* * * * *

General Order No. 2 of May 14, 2004; sections 5(a)(1) and 5(a)(2)(A) of the Syria Accountability and Lebanese Sovereignty Act of 2003 (Public Law 108–175, codified as a note to 22 U.S.C. 2151) (the SAA), require (1) a prohibition on the export to Syria of all items on the Commerce Control List (in 15

CFR part 774)(CCL) and (2) a prohibition on the export to Syria of products of the United States, other than food and medicine. The President has also exercised national security waiver authority pursuant to Section 5(b) of the SAA for certain transactions. This Order is issued consistent with Executive Order 13338 of May 11, 2004, which implements the SAA.

(a) *License requirements.* Effective May 14, 2004, a license is required for export or reexport to Syria of all items subject to the EAR, except food and medicine classified as EAR99 (medicine is defined in part 772 of the EAR). A license is required for the “deemed export” and “deemed reexport,” as described in § 734.2(b) of the EAR, of any technology or source code on the Commerce Control List (CCL) to a Syrian foreign national. “Deemed exports” and “deemed reexports” involving technology or source code subject to the EAR but not listed on the CCL do not require a license to Syrian foreign nationals.

(b) *Revocation of Authority to Export under Existing Licenses.* Effective May 14, 2004, the authority to export or reexport to Syria under existing licenses is hereby revoked (see savings clause in paragraph (e) of this General Order). License conditions requiring written U.S. Government authorization for the reexport, transfer, or resale of items already exported or reexported remain in effect, and requests for BIS authorization to reexport, transfer, or sell such items will require interagency approval.

(c) *License Exceptions.* Effective May 14, 2004, no License Exceptions to the license requirements set forth in paragraph (a) of this General Order are available for exports or reexports to Syria, except the following:

(1) TMP for items for use by the news media as set forth in § 740.9(a)(2)(viii) of the EAR,

(2) GOV for items for personal or official use by personnel and agencies of the U.S. Government as set forth in § 740.11(b)(2)(i) and (ii) of the EAR,

(3) TSU for operation technology and software, sales technology and software updates pursuant to the terms of § 740.13(a), (b), or (c) of the EAR,

(4) BAG for exports of items by individuals leaving the United States as personal baggage pursuant to the terms of § 740.14 (a) through (d) only of the EAR, and

(5) AVS for the temporary sojourn of civil aircraft reexported to Syria pursuant to the terms of § 740.15(a)(4) of the EAR.

(d) *Licensing policy.* All license applications for export or reexport to Syria are subject to a general policy of denial. License applications for “deemed exports” and “deemed reexports” of technology and source code will be reviewed on a case-by-case basis. BIS may consider, on a case-by-case basis, license applications for exports and reexports of items necessary to carry out the President’s constitutional authority to conduct U.S. foreign affairs and as Commander-in-Chief, including those exports and reexports of items necessary for the performance of official functions by the United States Government personnel abroad. BIS may also consider the following license applications on a case-by-case basis: items in

support of activities, diplomatic or otherwise, of the United States Government (to the extent that regulation of such exportation or reexportation would not fall within the President’s constitutional authority to conduct the nation’s foreign affairs); medicine (on the CCL) and medical devices (both as defined in part 772 of the EAR); parts and components intended to ensure the safety of civil aviation and the safe operation of commercial passenger aircraft; aircraft chartered by the Syrian Government for the transport of Syrian Government officials on official Syrian Government business; telecommunications equipment and associated computers, software and technology; and items in support of United Nations operations in Syria. The total dollar value of each approved license for aircraft parts for flight safety normally will be limited to no more than \$2 million over the 24-month standard license term, except in the case of complete overhauls. In addition, consistent with part 734 of the EAR, the following are not subject to this General Order: informational materials in the form of books and other media; publicly available software and technology; and technology exported in the form of a patent application or an amendment, modification, or supplement thereto or a division thereof (see 15 CFR 734.3(b)(1)(v), (b)(2) and (b)(3)).

(e) *Savings Clause.* Items that are on dock for loading, on lighter, laden aboard an exporting carrier or en route aboard a carrier to a port of export on May 14, 2004, shall be subject to the licensing rules applicable to such items as of May 13, 2004. Any such items not actually exported or reexported before midnight May 28, 2004, may be exported or reexported only if authorized pursuant to this General Order.

BILLING CODE 3510–33-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 600

[Docket No. 2003N–0528]

Revision of the Requirements for Spore-Forming Microorganisms; Confirmation of Effective Date

AGENCY: Food and Drug Administration, HHS.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: The Food and Drug Administration (FDA) is confirming the effective date of June 1, 2004, for the direct final rule that appeared in the

Federal Register of December 30, 2003 (68 FR 75116). The direct final rule amends the biologics regulations by providing options to the existing requirement for separate, dedicated facilities and equipment for work with spore-forming microorganisms. This document confirms the effective date of the direct final rule.

DATES: Effective date confirmed: June 1, 2004.

FOR FURTHER INFORMATION CONTACT: Valerie A. Butler, Center for Biologics Evaluation and Research (HFM-17), Food and Drug Administration, 1401 Rockville Pike, Rockville, MD 20852-1448, 301-827-6210.

SUPPLEMENTARY INFORMATION: In the Federal Register of December 30, 2003 (68 FR 75116), FDA issued a direct final rule amending the biologics regulations by providing options to the existing requirement for separate, dedicated facilities and equipment for work with spore-forming microorganisms. The regulations were amended due to advances in facility, system, and equipment design and in sterilization technologies that allow work with spore-forming microorganisms to be performed in multiproduct manufacturing areas.

FDA solicited comments concerning the direct final rule for a 75-day period ending March 15, 2004. FDA stated that the effective date of the direct final rule would be on June 1, 2004, unless any significant adverse comment was submitted to FDA during the comment period. FDA received only one comment (from private industry) on the direct final rule. The comment requested FDA to revise § 600.11(e)(4) (21 CFR 600.11(e)(4)), and asked whether this rulemaking affects the interpretation of § 600.11(e)(4). That comment is beyond the scope of this rulemaking, which is not intended to affect the requirements for live vaccine processing set forth in § 600.11(e)(4). FDA has determined that the received comment is not a significant adverse comment.

Authority: Therefore, under the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act and under authority delegated to the Commissioner of Food and Drugs, the amendments issued thereby become effective on June 1, 2004.

Dated: May 7, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

[FR Doc. 04-11027 Filed 5-13-04; 8:45 am]

BILLING CODE 4160-01-S

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest assumptions for valuing and paying benefits under terminating single-employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in June 2004. Interest assumptions are also published on the PBGC's Web site (<http://www.pbgc.gov>).

DATES: Effective Date: June 1, 2004.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) A set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to Part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to Part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to Part 4022).

Accordingly, this amendment (1) adds to Appendix B to Part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during June 2004, (2)

adds to Appendix B to Part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during June 2004, and (3) adds to Appendix C to Part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during June 2004.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 4.30 percent for the first 20 years following the valuation date and 5.00 percent thereafter. These interest assumptions represent an increase (from those in effect for May 2004) of 0.40 percent for the first 20 years following the valuation date and are otherwise unchanged.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 3.50 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. These interest assumptions represent an increase (from those in effect for May 2004) of 0.50 percent for the period during which a benefit is in pay status and are otherwise unchanged.

For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during June 2004, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

BILLING CODE 7708-01-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[OPP-2004-0135; FRL-7358-9]

Phosphomannose Isomerase and the Genetic Material Necessary for Its Production in All Plants; Exemption from the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes an exemption from the requirement of a tolerance for residues in or on plant

commodities of phosphomannose isomerase and the genetic material necessary for its production in all plants when applied/used as plant-incorporated protectant inert ingredients. Syngenta Seeds, Inc. submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA), requesting an exemption from the requirement of a tolerance. This regulation eliminates the need to establish a maximum permissible level for residues in or on all plant commodities of phosphomannose isomerase and the genetic material

necessary for its production in all plants.

DATES: This regulation is effective May 14, 2004. Objections and requests for hearings must be received on or before July 13, 2004.

ADDRESSES: To submit a written objection or hearing request follow the detailed instructions as provided in Unit VIII. of the **SUPPLEMENTARY INFORMATION**. EPA has established a docket for this action under Docket ID number OPP-2004-0135. All documents in the docket are listed in the EDOCKET index at <http://www.epa.gov/edocket>. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in EDOCKET or in hard copy at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

FOR FURTHER INFORMATION CONTACT: Mike Mendelsohn, Biopesticides and Pollution Prevention Division (7511C), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8715; e-mail address: mendelsohn.mike@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS 111)
- Animal production (NAICS 112)
- Food manufacturing (NAICS 311)
- Pesticide manufacturing (NAICS 32532)

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to

certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Access Electronic Copies of this Document and Other Related Information?

In addition to using EDOCKET (<http://www.epa.gov/edocket/>), you may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>. A frequently updated electronic version of 40 CFR part 180 is available at E-CFR Beta Site Two at <http://www.gpoaccess.gov/ecfr/>.

II. Background and Statutory Findings

In the **Federal Register** of October 22, 2003 (68 FR 60383) (FRL-7326-1), EPA issued a notice pursuant to section 408(d)(3) of the FFDCFA, 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide tolerance petition (PP 3E6748) by Syngenta Seeds, Inc., P.O. Box 12257, 3054 Cornwallis Road, Research Triangle Park, NC 27709-2257. This notice included a summary of the petition prepared by the petitioner Syngenta Seeds, Inc.. There were no comments received in response to the notice of filing.

The petition requested that 40 CFR part 180 be amended by establishing an exemption from the requirement of a tolerance for residues in or on all plant commodities of phosphomannose isomerase and the genetic material necessary for its production in all plants.

Section 408(c)(2)(A)(i) of the FFDCFA allows EPA to establish an exemption from the requirement for a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the exemption is "safe." Section 408(c)(2)(A)(ii) of the FFDCFA defines "safe" to mean that "there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information." This includes exposure through drinking water and in residential settings, but does not include occupational exposure. Pursuant to section 408(c)(2)(B), in establishing or maintaining in effect an exemption from the requirement of a tolerance, EPA must take into account the factors set forth in section 408(b)(2)(C), which require EPA to give special consideration to exposure of infants and children to the pesticide chemical residue in establishing a tolerance and

to "ensure that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to the pesticide chemical residue...." Additionally, section 408(b)(2)(D) of the FFDCFA requires that the Agency consider "available information concerning the cumulative effects of a particular pesticide's residues" and "other substances that have a common mechanism of toxicity."

EPA performs a number of analyses to determine the risks from aggregate exposure to pesticide residues. First, EPA determines the toxicity of pesticides. Second, EPA examines exposure to the pesticide through food, drinking water, and through other exposures that occur as a result of pesticide use in residential settings.

III. Toxicological Profile

Consistent with section 408(b)(2)(D) of the FFDCFA, EPA has reviewed the available scientific data and other relevant information in support of this action and considered its validity, completeness, and reliability and the relationship of this information to human risk. EPA has also considered available information concerning the variability of the sensitivities of major identifiable subgroups of consumers, including infants and children.

EPA's dietary and human health analysis of proteins expressed as PIPs and the inert ingredients associated with PIPs as marker proteins is based on the guidelines for microbial pesticides (See 40 CFR 158.740(b)(2)(i)). EPA recognizes that not all the guidance expressed in these test guidelines are necessarily appropriate for proteins. For instance, EPA does not expect a protein alone to exhibit infectivity or pathogenicity. Nonetheless, EPA believes that the approach used for the fermentation products of microbial agents applies equally well for proteins expressed in plants. Therefore, EPA expects acute oral toxicity with high doses of purified protein and specific criteria on protein degradation and similarity analyses to provide adequate information to reach a finding of a reasonable certainty of no harm in the aggregate for a PIP protein or an inert ingredient associated with a PIP. Such data have been submitted for pure phosphomannose isomerase (PMI) protein. These data demonstrate the safety of the products at levels well above maximum possible exposure levels that are reasonably anticipated in the crops.

The PMI protein is a new marker gene employing unusual carbohydrate metabolism to allow for selection of transformants in cell culture. Use of this

marker addresses some of the complaints received from the public about the possible adverse effects of using antibiotic resistance genes as selection markers. The PMI protein is a ubiquitous enzyme involved in carbohydrate metabolism and it, or a highly homologous enzymatic protein, is found expressed in many species including enteric bacteria, fungi, insects, some species of plants and nematodes, and even mammals including monkeys, mice and man. The PMI protein for which data was submitted in support of this tolerance determination was originally isolated from *Escherichia coli*, a common intestinal bacterium, which is considered a non-allergenic source of protein traits. Since the PMI protein is found in the human intestinal flora and a homologue is expressed by humans, it is logical to expect that there has always been a natural background exposure as well as a low quantity found in the human diet.

An acute oral study was submitted for the PMI protein. The acute oral toxicity data submitted support the prediction that the PMI protein would be non-toxic to humans. The mouse oral LD₅₀ for males, females, and combined was greater than 5,050 mg/kg of dosing solution or 3,080 mg/kg of PMI protein.

When proteins are toxic, they are known to act via acute mechanisms and at very low dose levels (Sjogblad, Roy D., et al. "Toxicological Considerations for Protein Components of Biological Pesticide Products," Regulatory Toxicology and Pharmacology 15, 3-9 (1992)). Therefore, since no effects were shown to be caused by the PMI protein inert ingredient, even at relatively high dose levels, the PMI protein is not considered toxic. Further, amino acid sequence comparisons showed no similarity between the PMI protein to known toxic proteins available in public protein data bases.

Since PMI is a protein, allergenic sensitivities were considered. Current scientific knowledge suggests that common food allergens tend to be resistant to degradation by heat, acid, and proteases, and may be glycosylated and present at high concentrations in the food.

Data have been submitted that demonstrate that the PMI protein is rapidly degraded (2 minutes) by gastric fluid *in vitro*. Incubation at 65 and 95°C for 30 minutes inactivated PMI. The PMI protein showed no significant amino acid homology with known or putative allergenic proteins using either an 8 amino acid sequence stepwise comparison or an 80 amino acid fragment comparison. The proteins

identified as sharing significant amino acid similarity with the *E. coli* PMI are either proteins confirmed as having PMI activity in other organisms or proteins with inferred PMI enzymatic activity from the close amino acid sequence similarity with PMI and the organism's ability to mannose. The source organisms with significant similarity to PMI were identified as numerous bacteria, fungi, plants, insects, and mammals as well as a nematode and protist. This wide diversity of source organisms and the fact that PMI is involved in carbohydrate metabolism indicates that PMI is an essential enzyme involved with routine functions (i.e. housekeeping) and already has broad expression and exposure in humans and many food items.

The potential for the PMI protein to be food allergens is minimal. Regarding toxicity to the immune system, the acute oral toxicity data submitted support the prediction that the PMI protein would be non-toxic to humans. As noted above, toxic proteins typically act as acute toxins with low dose levels. Therefore, since no effects were shown to be caused by the PMI protein inert ingredient plant-incorporated protectants, even at relatively high dose levels, the PMI protein is not considered toxic.

IV. Aggregate Exposures

In examining aggregate exposure, section 408 of the FFDCA directs EPA to consider available information concerning exposures from the pesticide residue in food and all other non-occupational exposures, including drinking water from ground water or surface water and exposure through pesticide use in gardens, lawns, or buildings (residential and other indoor uses).

The Agency has considered available information on the aggregate exposure levels of consumers (and major identifiable subgroups of consumers, such as infants and children) to the pesticide chemical residue and to other related substances. These considerations include dietary exposure under the tolerance exemption and all other tolerances or exemptions in effect for the PMI inert ingredient plant-incorporated protectants chemical residue, and exposure from non-occupational sources. Exposure via the skin or inhalation is not likely since the PMI protein inert ingredient plant-incorporated protectants are contained within plant cells, which essentially eliminates these exposure routes or reduces these exposure routes to negligible. Oral exposure, at very low levels, may occur from ingestion of food

products and, potentially, drinking water. However, a lack of mammalian toxicity and the digestibility of the PMI protein inert ingredient plant-incorporated protectants have been demonstrated. The use sites for the PMI protein inert ingredient plant-incorporated protectants are all agricultural associated with the control of plant pests. Therefore, exposure via residential or lawn use to infants and children is not expected. Even if negligible exposure should occur, the Agency concludes that such exposure would present no risk due to the lack of toxicity demonstrated for the PMI protein.

V. Cumulative Effects

Section 408(b)(2)(D)(v) of the FFDCA requires the Agency, when considering whether to establish, modify, or revoke a tolerance, to consider available information concerning the cumulative effects of a particular pesticide's residues and other substances that have a common mechanism of toxicity. These considerations include the possible cumulative effects of such residues on infants and children. Because of the lack of toxicity demonstrated for the PMI protein and because there is no indication of mammalian toxicity to these plant-incorporated protectant inert ingredients, we conclude that there are no cumulative effects for the PMI protein.

VI. Determination of Safety for U.S. Population, Infants and Children

A. Toxicity and Allergenicity Conclusions

The data submitted and cited regarding potential health effects for the PMI protein include the characterization of the expressed PMI protein in corn, as well as the acute oral toxicity, and *in vitro* digestibility of the protein. The results of these studies were determined applicable to evaluate human risk and the validity, completeness, and reliability of the available data from the studies were considered.

Data was submitted that adequately shows that the PMI test material derived from microbial cultures, which was the material used for testing purposes, is biochemically and functionally similar to the PMI protein produced in the plant. Production of microbially produced protein was chosen in order to obtain sufficient material for testing. Proteins have a certain predictable metabolic fate: Once ingested, proteins are broken down by the combination of secreted acid and digestive enzymes into peptides that are absorbed and

turned into new molecules by the body's protein synthetic processes.

When proteins are toxic, they are known to act via acute mechanisms and at very low dose levels (Sjoblad, Roy D., *et al.* "Toxicological Considerations for Protein Components of Biological Pesticide Products," Regulatory Toxicology and Pharmacology 15, 3-9 (1992)). The acute oral toxicity data submitted supports the prediction that the PMI protein would be non-toxic to humans. Since no effects were shown to be caused by PMI, even at relatively high dose levels (greater than 5,050 mg/kg body wt. of dosing solution or 3,080 mg/kg body wt. of PMI protein), the PMI protein is not considered toxic. This is similar to the Agency position regarding toxicity and the requirement of residue data for the microbial pesticide products like *Bacillus thuringiensis* (Bt). See 40 CFR 158.740(b)(2)(i). For microbial products, further toxicity testing and residue data are triggered by significant acute effects in studies such as the mouse oral toxicity study to verify the observed effects and clarify the source of these effects (Tiers II and III). Since no adverse reactions occurred at near limit dose testing with PMI protein, no further testing of PMI protein is indicated. Thus, residue chemistry data were not required for a human health effects assessment of the subject PMI plant-incorporated protectant inert ingredients because of the lack of mammalian toxicity.

Available information concerning the dietary consumption patterns of consumers (and major identifiable subgroups of consumers including infants and children), and safety factors, which in the opinion of experts qualified by scientific training and experience to evaluate the safety of food additives are generally recognized as appropriate for the use of animal experimentation data, were not considered. See section 408(b)(D) of the FFDCa. Since PMI was tested in an acute oral toxicity test and found to have no adverse effects, showed no unusual stability to digestive enzymes or heat, and had no amino acid similarity to known toxic or allergenic proteins, no mammalian toxicity was identified. The lack of mammalian toxicity at high levels of exposure to the PMI protein demonstrate the safety of the product at levels well above possible maximum exposure levels anticipated in crops. Given the lack of toxicity at high dose levels, several orders of magnitude above the expected dietary exposure from submitted expression data, no additional safety factors to account for the use of animal data were deemed necessary to provide a

reasonable certainty of no harm to the aggregate exposure to PMI.

The genetic material necessary for the production of the plant-incorporated protectant inert ingredients are the nucleic acids (DNA, RNA) which comprise genetic material encoding these proteins and their regulatory regions. The genetic material (DNA, RNA) necessary for the production of PMI protein in plant crops have been exempted under the blanket exemption for all nucleic acids (40 CFR 174.475).

B. Infants and Children Risk Conclusions

Section 408(b)(2)(C) of the FFDCa provides that EPA shall apply an additional tenfold margin of exposure (safety) for infants and children in the case of threshold effects to account for prenatal and postnatal toxicity and the completeness of the database on toxicity and exposure, unless EPA determines that a different margin of exposure (safety) will be safe for infants and children. Margins of exposure (safety), which often are referred to as uncertainty factors, are incorporated into EPA risk assessment either directly or through the use of a margin of exposure analysis or by using uncertainty (safety) factors in calculating a dose level that poses no appreciable risk.

In this instance, based on all the available information, the Agency concludes that the PMI protein and the genetic material necessary for its production in all plants are not toxic and, therefore, that there are no threshold effects of concern. As a result, the Agency has determined that the additional margin of safety is not necessary to protect infants and children and that not adding any additional margin of safety will be safe for infants and children.

C. Overall Safety Conclusion

There is a reasonable certainty that no harm to the U.S. population, including infants and children, will result from aggregate exposure to residues of the PMI protein and the genetic material necessary for its production in all plants. This includes all anticipated dietary exposures and all other exposures for which there is reliable information. The Agency has arrived at this conclusion because, as discussed above, no toxicity to mammals has been observed for the PMI plant-incorporated protectant inert ingredients.

VII. Other Considerations

A. Endocrine Disruptors

FQPA requires EPA to develop a screening program to determine whether

certain substances, including all pesticide chemical (both inert and active ingredients), may have an effect in humans that is similar to an effect produced by naturally occurring estrogen, or such other endocrine effect... EPA has been working with interested stakeholders to develop a screening and testing program, as well as a priority-setting scheme. As the Agency proceeds with implementation of this program, it is not anticipated that testing of PMI protein for endocrine effects will be required. The PMI inert ingredients are proteins, derived from sources that are not known to exert an influence on the endocrine system. Therefore, the Agency is not requiring information on the endocrine effects of PMI proteins at this time.

B. Analytical Method(s)

An analytical method is not required for enforcement purposes since the Agency is establishing an exemption from the requirement of a tolerance without any numerical limitation. Further, there was a finding of no toxicity or allergenicity for the PMI plant-incorporated protectant inert ingredients and they act simply as marker proteins.

C. Codex Maximum Residue Level

No Codex maximum residue levels exists for the plant-incorporated protectant inert ingredient marker protein phosphomannose isomerase (PMI) protein and the genetic material necessary for its production in all plants.

VIII. Objections and Hearing Requests

Under section 408(g) of the FFDCa, as amended by the FQPA, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. The EPA procedural regulations which govern the submission of objections and requests for hearings appear in 40 CFR part 178. Although the procedures in those regulations require some modification to reflect the amendments made to the FFDCa by the FQPA, EPA will continue to use those procedures, with appropriate adjustments, until the necessary modifications can be made. The new section 408(g) of the FFDCa provides essentially the same process for persons to "object" to a regulation for an exemption from the requirement of a tolerance issued by EPA under new section 408(d) of the FFDCa, as was provided in the old sections 408 and 409 of the FFDCa. However, the period for filing objections is now 60 days rather than 30 days.

A. What Do I Need to Do to File an Objection or Request a Hearing?

You must file your objection or request a hearing on this regulation in accordance with the instructions provided in this unit and in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number OPP-2004-0135 in the subject line on the first page of your submission. All requests must be in writing, and must be mailed or delivered to the Hearing Clerk on or before July 13, 2004.

1. *Filing the request.* Your objection must specify the specific provisions in the regulation that you object to, and the grounds for the objections (40 CFR 178.25). If a hearing is requested, the objections must include a statement of the factual issues(s) on which a hearing is requested, the requestor's contentions on such issues, and a summary of any evidence relied upon by the objector (40 CFR 178.27). Information submitted in connection with an objection or hearing request may be claimed confidential by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the information that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice.

Mail your written request to: Office of the Hearing Clerk (1900L), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001. You may also deliver your request to the Office of the Hearing Clerk in Suite 350, 1099 14th St. NW., Washington, DC 20005. The Office of the Hearing Clerk is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Office of the Hearing Clerk is (202) 564-6255.

2. *Tolerance fee payment.* If you file an objection or request a hearing, you must also pay the fee prescribed by 40 CFR 180.33(i) or request a waiver of that fee pursuant to 40 CFR 180.33(m). You must mail the fee to: EPA Headquarters Accounting Operations Branch, Office of Pesticide Programs, P.O. Box 360277M, Pittsburgh, PA 15251. Please identify the fee submission by labeling it "Tolerance Petition Fees."

EPA is authorized to waive any fee requirement "when in the judgement of the Administrator such a waiver or refund is equitable and not contrary to the purpose of this subsection." For additional information regarding the waiver of these fees, you may contact James Tompkins by phone at (703) 305-

5697, by e-mail at tompkins.jim@epa.gov, or by mailing a request for information to Mr. Tompkins at Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

If you would like to request a waiver of the tolerance objection fees, you must mail your request for such a waiver to: James Hollins, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

3. *Copies for the Docket.* In addition to filing an objection or hearing request with the Hearing Clerk as described in Unit VIII.A., you should also send a copy of your request to the PIRIB for its inclusion in the official record that is described in ADDRESSES. Mail your copies, identified by docket ID number OPP-2004-0135, to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001. In person or by courier, bring a copy to the location of the PIRIB described in ADDRESSES. You may also send an electronic copy of your request via e-mail to: opp-docket@epa.gov. Please use an ASCII file format and avoid the use of special characters and any form of encryption. Copies of electronic objections and hearing requests will also be accepted on disks in WordPerfect 6.1/8.0 or ASCII file format. Do not include any CBI in your electronic copy. You may also submit an electronic copy of your request at many Federal Depository Libraries.

B. When Will the Agency Grant a Request for a Hearing?

A request for a hearing will be granted if the Administrator determines that the material submitted shows the following: There is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the requestor would, if established resolve one or more of such issues in favor of the requestor, taking into account uncontested claims or facts to the contrary; and resolution of the factual issues(s) in the manner sought by the requestor would be adequate to justify the action requested (40 CFR 178.32).

IX. Statutory and Executive Order Reviews

This final rule establishes an exemption from the tolerance

requirement under section 408(d) of the FFDCFA in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this rule has been exempted from review under Executive Order 12866 due to its lack of significance, this rule is not subject to Executive Order 13211, *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). Nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994); or OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note). Since tolerances and exemptions that are established on the basis of a petition under section 408(d) of the FFDCFA, such as the exemption in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132 requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is

defined in the Executive order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." This final rule directly regulates growers, food processors, food handlers and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of the FFDCA. For these same reasons, the Agency has determined that this rule does not have any "tribal implications" as described in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000). Executive Order 13175, requires EPA to develop an accountable process to ensure "meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications." "Policies that have tribal implications" is defined in the Executive order to include regulations that have "substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and the Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes." This rule will not have substantial direct effects on tribal governments, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this rule.

X. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: May 6, 2004.

James Jones,

Director, Office of Pesticide Programs.

■ Therefore, 40 CFR chapter I is amended as follows:

PART 180—[AMENDED]

■ 1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 321(q), 346a and 371.

■ 2. Section 180.1252 is added to subpart D to read as follows:

§ 180.1252 Phosphomannose isomerase and the genetic material necessary for its production in all plants; exemption from the requirement of a tolerance.

Phosphomannose isomerase (PMI) protein and the genetic material necessary for its production in plants are exempt from the requirement of a tolerance when used as plant-incorporated protectant inert ingredients in plant commodities. Genetic material necessary for its production means the genetic material which comprise genetic material encoding the PMI protein and its regulatory regions. Regulatory regions are the genetic material, such as promoters, terminators, and enhancers, that control the expression of the genetic material encoding the PMI protein.

BILLING CODE 6560-50-S

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Part 1812

RIN 2700-AD00

Clauses Authorized for Use in Commercial Acquisitions

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This final rule revises the NASA FAR Supplement (NFS) by removing the NASA specific clause regarding Central Contractor Registration (CCR) from the list of clauses authorized for use in acquisitions of commercial items. The NASA CCR clause was removed from the NFS in a final rule published in the

Federal Register on February 3, 2004, however the rule failed to remove the clause from part 1812. This change corrects this omission.

DATES: *Effective Date:* May 14, 2004.

FOR FURTHER INFORMATION CONTACT:

Celeste Dalton, NASA, Office of Procurement, Contract Management Division (Code HK); (202) 358-1645; e-mail: Celeste.M.Dalton@nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

Item I of FAC 2001-16 revised the FAR to require registration of contractors in the Central Contractor Registration (CCR) database prior to award of any contract, basic agreement, basic ordering agreement, or blanket purchase agreement. As a result, NASA's specific coverage of CCR was no longer required and Subpart 1804.74—Central Contractor Registration and its associated clause at 1852.204-74 were deleted from the NFS under a final rule published in the **Federal Register** on February 3, 2004. Due to an oversight, the rule failed to remove 1852.204-74 from the list of clauses authorized for use in acquisitions of commercial items contained in the 1812.301, "Solicitation provisions and contract clauses for the acquisition of commercial items." This final rule corrects this omission by removing the reference to 1852.204-74.

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

This final rule does not constitute a significant revision within the meaning of FAR 1.501 and Pub. L. 98-577, and publication for public comment is not required. However, NASA will consider comments from small entities concerning the affected NFS part 1812 in accordance with 5 U.S.C. 610.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes do not impose recordkeeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

List of Subjects in 48 CFR Part 1812

Government procurement.

Tom Luedtke,

Assistant Administrator for Procurement.

- Accordingly, 48 CFR Part 1812 is amended as follows:

PART 1812—ACQUISITION OF COMMERCIAL ITEMS

- 1. The authority citation for 48 CFR part 1812 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1)

1812.301 [AMENDED]

- 2. Amend section 1812.301 by removing paragraph (f)(i)(A) and redesignating paragraphs (f)(i)(B) through (f)(i)(O) as (f)(i)(A) through (f)(i)(N), respectively.

BILLING CODE 7510-01-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**48 CFR Part 1813**

RIN 2700-AC83

Re-Issuance of NASA FAR Supplement Part 1813

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule; correction.

SUMMARY: This document corrects the final rule document published April 22, 2004, which removed from the Code of Federal Regulations (CFR) those portions of the NASA FAR Supplement containing information that consists of internal Agency administrative procedures and guidance that does not control the relationship between NASA and contractors or prospective contractors and does not require publication for public comment. This document corrects the identification of one section in Part 1813 that is being removed from the CFR.

DATES: *Effective Date:* May 14, 2004.

FOR FURTHER INFORMATION CONTACT: Celeste Dalton, NASA, Office of

Procurement, Contract Management Division (Code HK); (202) 358-1645; e-mail: *Celeste.M.Dalton@nasa.gov*.

SUPPLEMENTARY INFORMATION: NASA published a final rule in the *Federal Register* of April 22, 2004 (69 FR 21763), removing from the Code of Federal Regulations (CFR) those portions of the NASA FAR Supplement containing information that consists of internal Agency administrative procedures and guidance. In part 1813 of that final rule, section 1813.301-73 was incorrectly listed as section 1813.701-73. This document corrects that error.

PART 1813—[CORRECTED]

- In rule FR Doc. 04-9011 published on April 22, 2004, (69 FR 21763), on page 21764, in the listing of sections under part 1813, remove "1813.701-73" and add "1813.301-73" in its place.

Tom Luedtke,

Assistant Administrator for Procurement.

Proposed Rules

Federal Register

Vol. 69, No. 94

Friday, May 14, 2004

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

7 CFR Part 1739

RIN 0572-AB94

Broadband Grant Program

AGENCY: Rural Utilities Service, USDA.
ACTION: Proposed rule.

SUMMARY: The Rural Utilities Service (RUS) is proposing regulations to administer the Community Connect Grant Program for the provision of broadband transmission service in rural America. This proposed rule is intended to establish eligibility and application requirements, the review and approval process, and grant administration procedures for the Community Connect Grant Program.

DATES: Comments on this proposed rule must be received by, or bear a postmark or equivalent, no later than June 14, 2004.

ADDRESSES: You may submit comments by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Agency Web site:* <http://www.usda.gov/rus/index2/Comments.htm>. Follow the instructions for submitting comments.

- *E-mail:* RUSComments@usda.gov. Include in the subject line of the message "Broadband Grant Program."

- *Mail:* Addressed to Richard Annan, Acting Director, Program Development and Regulatory Analysis, Rural Utilities Service, United States Department of Agriculture, 1400 Independence Avenue, SW., STOP 1522, Washington, DC 20250-1522.

- *Hand Delivery/Courier:* Addressed to Richard Annan, Acting Director, Program Development and Regulatory Analysis, Rural Utilities Service, United States Department of Agriculture, 1400 Independence Avenue, SW., Room 5168-S, Washington, DC 20250-1522.

Instructions: All submissions received must include the agency name and the subject heading "Broadband Grant Program". All comments received must identify the name of the individual (and the name of the entity, if applicable) who is submitting the comment. All comments received will be posted without change to <http://www.usda.gov/rus/index2/Comments.htm>, including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Roberta D. Purcell, Assistant Administrator, Telecommunications Program, Rural Utilities Service, STOP 1590, 1400 Independence Avenue SW., Washington, DC 20250-1590, Telephone (202) 720-9554, Facsimile (202) 720-0810. Email address: Bobbie.Purcell@usda.gov.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This proposed rule has been determined to be not significant for purposes of Executive Order 12866, and therefore has not been reviewed by the Office of Management and Budget (OMB).

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance (CFDA) Program number assigned to the Community Connect Grant Program is 10.863. The Catalog is available on a subscription basis from the Superintendent of Documents, the United States Government Printing Office, Washington, DC 20402-9325, telephone number (202) 512-1800.

Executive Order 12372

This program is not subject to the requirements of Executive Order 12372, "Intergovernmental Review of Federal Programs," as implemented under USDA's regulations at 7 CFR part 3015.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. RUS has determined that this proposed rule meets the applicable standards provided in section 3 of the Executive Order. In addition, all state and local laws and regulations that are in conflict with this rule will be preempted, no retroactive effect will be given to this rule, and, in accordance with Sec 212(e) of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C.

6912(e)), administrative appeal procedures, if any, must be exhausted before an action against the Department or its agencies may be initiated.

Executive Order 13132, Federalism

The policies contained in this proposed rule do not have any substantial direct effect on states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Nor does this proposed rule impose substantial direct compliance costs on state and local governments. Therefore, consultation with states is not required.

Regulatory Flexibility Certification

Pursuant to 5 U.S.C. 553(a)(2), this proposed rule related to grants is exempt from the rulemaking requirements of the Administrative Procedure Act (5 U.S.C. 551 *et seq.*), including the requirement to provide prior notice and an opportunity for public comment. Because this proposed rule is not subject to a requirement to provide prior notice and an opportunity for public comment pursuant to 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are inapplicable.

Unfunded Mandates

This proposed rule contains no Federal mandates (under the regulatory provision of Title II of the Unfunded Mandates Reform Act of 1995) for State, local, and tribal governments or the private sector. Therefore, this proposed rule is not subject to the requirements of sections 202 and 205 of the Unfunded Mandates Reform Act of 1995.

Environmental Impact Statement

This proposed rule has been examined under RUS environmental regulations at 7 CFR part 1794. The RUS Administrator has determined that this action is not a major Federal action significantly affecting the environment. Therefore, in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an Environmental Impact Statement or Assessment is not required.

Information Collection and Recordkeeping Requirements

This rule contains no new reporting or recordkeeping burdens under OMB control number 0572-0127 that would require approval under the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Background

On July 8, 2002, RUS published a Notice of Funds Availability ("NOFA") in the **Federal Register** (67 FR 45079) announcing its Community Connect pilot grant program for the provision of broadband transmission service in extremely rural, lower-income American communities. Initially, twenty million dollars in grant authority was made available to promote "community-oriented connectivity," which would stimulate economic development and enhance educational and health care opportunities in rural areas through theretofore unavailable broadband transmission service. See Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act of 2002, Pub. L. 107-76, Title III, *Distance Learning and Telemedicine Program (2001)*. In addition, a community center that would provide such service free to area residents for two years was required.

In response to the July 8, 2002, NOFA, RUS received more than 300 applications totaling more than \$185 million in funding requests. As part of a national competition, RUS reviewed the applications for eligibility and scored the applications according to the rurality of the project, the economic need of the project service area, and the "community-oriented-connectivity" benefits to be derived from the proposed service. On May 16, 2003, Secretary of Agriculture, Ann Veneman, announced the 40 highest scoring grants totaling \$20,184,642. This announcement fully utilized RUS' 2002 appropriation.

Due to the overwhelming response to that NOFA, RUS had eligible applications on hand totaling more than the \$10 million appropriation received for Fiscal Year 2003. See Consolidated Appropriations Resolution of 2003, Pub. L. 108-7, 117 Stat. 11, Title III, *Distance Learning and Telemedicine Program (2003)*. To eliminate the need for fully eligible applicants to resubmit applications during Fiscal Year 2003, RUS utilized its 2003 appropriation by funding eligible projects submitted in accordance with the July 8, 2002 NOFA. The 2003 grant announcements were made September 24, 2003.

For Fiscal Year 2004, \$9 million in grants will be made available through a

national competition to applicants proving broadband transmission service on a "community-oriented connectivity" basis. See Consolidated Appropriations Act of 2004, Pub. L. 108-199, 118 Stat. 3, Title III, *Distance Learning and Telemedicine Program (2004)*. RUS now proposes the following regulation to administer the program for Fiscal Year 2004 and will open a new window for the submission of applications.

To encourage "community-oriented connectivity," RUS will provide grants to eligible applicants who will deploy broadband transmission service in rural communities where such service does not currently exist; who will connect all critical community facilities such as local schools, education centers, libraries, hospitals, health care providers, law enforcement agencies, public safety organizations, fire, and rescue services, as well as residents and businesses; and who will operate a community center which provides free and open access to area residents. Grants will be made available, on a competitive basis, for the deployment of broadband transmission services to critical community facilities, rural residents, and rural businesses and for the construction, acquisition, expansion, and/or operation of a community center which would provide free access to broadband transmission services to community residents for at least two years. Funding is also available for end-user equipment, software, and installation costs. A state-of-the-art community center will not only provide improved access but will aid rural residents in developing on-line businesses and will allow them to reap the benefits of Internet-based advanced placement courses and continuing adult education. Applications are limited to one project, as defined in this regulation. Applicants wishing to serve multiple projects must submit an application for each project.

The 30-day comment period for this proposed regulation is based on two factors. First, the program will essentially operate as it has been since the pilot phase. No significant changes are being proposed with the implementation of this proposed regulation. Second, in an effort to expedite the application process this year, RUS believes that a 30-day comment period is necessary in order to proceed with final regulations that will enable application processing and approval of grants during this fiscal year.

List of Subjects in 7 CFR Part 1739

Broadband, Grant programs—communications, Rural areas, Telecommunications, Telephone.

For reasons set forth in the preamble, RUS proposes amending Chapter XVII of title 7 of the Code of Federal Regulations by adding part 1739 as follows:

PART 1739—BROADBAND GRANT PROGRAM

Subpart A—Community Connect Grant Program

Sec.

- 1.1 Purpose.
- 1.2 Funding availability and application dates and submission.
- 1.3 Definitions.
 - 1739.4–1739.9 [Reserved]
 - 1739.10 Eligible applicant.
 - 1739.11 Eligible project.
 - 1739.12 Eligible grant purposes.
 - 1739.13 Ineligible grant purposes
 - 1739.14 Matching contributions.
 - 1739.15 Completed application.
 - 1739.16 Review of grant applications.
 - 1739.17 Scoring of applications.
 - 1739.18 Grant documents.
 - 1739.19 Reporting and oversight requirements.
 - 1739.20 Audit requirements.
 - 1739.21 OMB control number.

Subpart B—[Reserved]

Authority: Title III, Pub. L. 108-199, 118 Stat. 3.

Subpart A—Community Connect Grant Program

§ 1739.1 Purpose.

(a) The provision of broadband transmission service is vital to the economic development, education, health, and safety of rural Americans. The purpose of the Community Connect Grant Program is to provide financial assistance in the form of grants to eligible applicants that will provide, on a "community-oriented connectivity" basis, broadband transmission service that fosters economic growth and delivers enhanced educational, health care, and public safety services. RUS will give priority to rural areas that it believes have the greatest need for broadband transmission services, based on the criteria contained herein.

(b) Grant authority will be used for the deployment of broadband transmission service to extremely rural, lower-income communities on a "community-oriented connectivity" basis. The "community-oriented connectivity" concept will stimulate practical, everyday uses and applications of broadband by cultivating the deployment of new broadband transmission services that improve

economic development and provide enhanced educational and health care opportunities in rural areas. Such an approach will also give rural communities the opportunity to benefit from the advanced technologies that are necessary to achieve these goals.

§ 1739.2 Funding availability and application dates and submission.

(a) RUS will publish, annually in the *Federal Register*, a Notice of Funds Availability (hereinafter "NOFA") that will set forth the total amount of funding available; the maximum and minimum funding for each grant; the application submission dates; and the appropriate addresses and agency contact information. The NOFA will also outline and explain the procedures for submission of applications, including electronic submissions. RUS may publish more than one NOFA should additional funding become available.

(b) Notwithstanding paragraph (a) of this section, RUS may, in response to a surplus of qualified eligible applications which could not be funded from the previous fiscal year, decline to publish a NOFA for the following fiscal year and fund said applications without further public notice.

§ 1739.3 Definitions.

As used in this subpart:

Bandwidth means the capacity of the radio frequency band or physical facility needed to carry the Broadband Transmission Services.

Basic Broadband Transmission Service means the broadband transmission service level provided by the applicant at the lowest rate or service package level for residential or business customers, as appropriate, provided that such service meets the requirements of this part.

Broadband Transmission Service means providing an information-rate equivalent to at least 200 kilobits/second in the consumer's connection to the network, both from the provider to the consumer (downstream) and from the consumer to the provider (upstream).

Community means any incorporated or unincorporated town, village, or borough recognized in the U.S. Census in a Rural Area.

Community Center means a public building, or a section of a public building with at least ten (10) Computer Access Points, that is used for the purposes of providing free access to and/or instruction in the use of broadband Internet service, and is of the appropriate size to accommodate this purpose. The community center must be

open and accessible to area residents before, during, and after normal working hours and on Saturday or Sunday. Examples of facilities that may be partially used for the described purposes include school, library, or city hall.

Computer Access Point means a new computer terminal with access to Basic Broadband Transmission Service.

Critical Community Facility means a public school, public library, public medical clinic, public hospital, community college, public university, or law enforcement, fire and ambulance stations.

Eligible Applicant shall have the meaning as set forth in § 1739.10 of this part.

Eligible Grant Purposes shall have the meaning as set forth in § 1739.12 of this part.

End-User Equipment means computer hardware and software, audio or video equipment, computer network components, telecommunications terminal equipment, inside wiring, interactive video equipment, or other facilities required for the provision and use of Broadband Transmission Services.

Matching Contribution means the applicant's qualified contribution to the Project, as outlined in § 1739.14 of this part.

Project means the applicant's proposed Basic Broadband Transmission Service financed by the grant and Matching Contribution for the proposed Service Area.

Rural Area means any area not included within the boundaries of any incorporated or unincorporated city, town, village, or borough having a population of more than 20,000 inhabitants within the United States, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Western Pacific Territories, Marshall Islands, Federated States of Micronesia, Republic of Palau, and the U.S. Virgin Islands.

RUS means the Rural Utilities Service, an agency of the United States Department of Agriculture, which is part of the Rural Development Utilities Program.

Service Area means a single Community and, may include the unincorporated areas or locally recognized communities, not recognized in the U.S. Census, located outside and contiguous to the Community's boundaries.

Spectrum means a defined band of frequencies that will accommodate the Broadband Transmission Services.

Telecommunications Terminal Equipment means the assembly of

telecommunications equipment at the end of a circuit or path of a signal, including but not limited to facilities that receive or transmit over-the-air broadcast, satellite, and microwave, normally located on the premises of the end user, that interfaces with telecommunications transmission facilities, and that is used to modify, convert, encode, or otherwise prepare signals to be transmitted via such telecommunications facilities, or that is used to modify, reconvert, or carry signals received from such facilities, the purpose of which is to accomplish the goal for which the circuit or signal was established.

USDA means the United States Department of Agriculture.

§§ 1739.4–1739.9 [Reserved]

§ 1739.10 Eligible applicant.

To be eligible for a grant, the applicant must:

(a) Be legally organized as an incorporated organization, an Indian tribe or tribal organization, as defined in 25 U.S.C. 450b(b) and (c), a state or local unit of government, or other legal entity, including private corporations or limited liability companies organized on a for profit or not-for profit basis.

(b) Have the legal capacity and authority to own and operate the broadband facilities as proposed in its application, to enter into contracts and to otherwise comply with applicable federal statutes and regulations.

§ 1739.11 Eligible project.

To be eligible for a grant, the Project must:

(a) Serve a Rural Area where Broadband Transmission Service does not currently exist, to be verified by RUS prior to the award of the grant;

(b) Serve one Community recognized in the latest U.S. Census. Additional communities located in the contiguous areas outside the Community's boundaries that are not recognized (due to size) in the U.S. Census, can be included in the applicant's proposed Service Area, but must be supported by documentation, acceptable to RUS, as to their existence;

(c) Deploy Basic Broadband Transmission Service, free of all charges for at least 2 years, to all Critical Community Facilities located within the proposed Service Area;

(d) Offer Basic Broadband Transmission Service to residential and business customers within the proposed Service Area; and

(e) Provide a Community Center with at least ten (10) Computer Access Points within the proposed Service Area, and

make Broadband Transmission Service available therein, free of all charges to users for at least 2 years.

§ 1739.12 Eligible grant purposes.

Grant funds may be used to finance:

(a) The construction, acquisition, or lease of facilities, including spectrum, to deploy Broadband Transmission Services to all Critical Community Facilities and all required facilities needed to offer such service to residential and business customers located within the proposed Service Area;

(b) The improvement, expansion, construction, or acquisition of a Community Center that furnishes free access to broadband Internet service, provided that the Community Center is open and accessible to area residents before, during, and after normal working hours and on Saturday or Sunday. Grant funds provided for such costs shall not exceed the greater of five percent (5%) of the grant amount requested or \$100,000;

(c) End-User Equipment needed to carry out the Project;

(d) Operating expenses incurred in providing Broadband Transmission Service to Critical Community Facilities for the first 2 years of operations and in providing training and instruction. Salary and administrative expenses will be subject to review, and may be limited by RUS for reasonableness in relation to the scope of the Project; and

(e) The purchase of land, buildings, or building construction needed to carry out the Project.

§ 1739.13 Ineligible grant purposes.

(a) Grant funds may not be used to finance the duplication of any existing Broadband Transmission Services provided by other entities.

(b) Facilities financed with grant funds cannot be utilized, in any way, to provide local exchange telecommunications service to any person or entity already receiving such service.

§ 1739.14 Matching contributions.

(a) The grant applicant must contribute a Matching Contribution which is at least fifteen percent (15%) of the grant amount requested and shall be in the form of:

- (1) Cash for eligible grant purposes.
- (2) In-kind contributions for purposes that could have been financed with grant funds under this part. In-kind contributions must be new or non-depreciated assets with established monetary values. Manufacturers' or service providers' discounts are not Matching Contributions.

(3) The rental value of space provided within an existing Community Center, provided that the space is provided free of charge to the applicant, for the first 2 years of operations.

(4) Salary expenses incurred for the individual(s) operating the Community Center, for the first 2 years of operations.

(5) Expenses incurred in operating the Community Center, for the first 2 years of operations.

(b) Costs incurred by the applicant, or by others on behalf of the applicant, for facilities, installed equipment, or other services rendered prior to submission of a completed application shall not be considered as an Eligible Grant Purpose or Matching Contribution.

(c) Rental values of space provided must be substantiated by rental agreements documenting the cost of space of a similar size in a similar location.

(d) Rental values, salaries, and other expenses incurred in operating the Community Center will be subject to review by RUS for reasonableness in relation to the scope of the Project.

(e) Any financial assistance from federal sources will not be considered as Matching Contributions unless there is a federal statutory exception specifically authorizing the federal financial assistance to be considered as a Matching Contribution.

§ 1739.15 Completed application.

A completed application must include the following documentation, studies, reports and information in form satisfactory to RUS. Applications should be prepared in conformance with the provisions of this part and applicable USDA regulations including 7 CFR parts 3015, 3016, and 3019. Applicants must use the RUS Application Guide for this program, found at <http://www.usda.gov/rus/telecom/> containing instructions and all necessary forms, as well as other important information, in preparing their application. Completed applications must include the following:

(a) *An application for Federal assistance.* A completed Standard Form 424.

(b) *An executive summary of the Project.* The applicant must provide RUS with a general project overview that addresses the following categories:

- (1) A description of why the Project is needed;
- (2) A description of the applicant;
- (3) An explanation of the total Project cost;
- (4) A general overview of the broadband telecommunications system to be developed, including the types of equipment, technologies, and facilities to be used;

(5) Documentation describing the procedures used to determine the unavailability of existing Broadband Transmission Service; and

(6) A description of the participating Critical Community Facilities (such as schools, health care providers, police and fire departments, etc.).

(c) *Scoring criteria documentation.*

Each grant applicant must address and provide documentation on how it meets each of the scoring criteria detailed in § 1739.17 of this part.

(d) *System design.* The applicant must submit a system design that contains the following, satisfactory to RUS:

(1) A narrative discussing the proposed Community Center, all costs of the Project, all existing and proposed facilities that are a part of the Project, the services to be provided by the Project, and the proposed Service Area;

(2) Engineering design studies providing an economical and practical engineering design of the Project, including a detailed description of the facilities to be funded, technical specifications, data rates, and costs; and

(3) A map of the proposed Service Area reflecting the proposed location of the Community Center and all Critical Community Facilities.

(e) *Scope of work.* The scope of work must include, at a minimum:

(1) The specific activities and services to be performed under the Project;

(2) Who will carry out the activities and services;

(3) The time-frames for accomplishing the Project objectives and activities; and

(4) A budget for all capital and administrative expenditures reflecting the line item costs for Eligible Grant Purposes, the Matching Contribution, and other sources of funds necessary to complete the Project.

(f) *Community-Oriented Connectivity Plan.* The applicant must provide a Community-Oriented Connectivity Plan consisting of the following:

(1) A listing of all Critical Community Facilities to be connected, including local public schools, education center, public libraries, public medical clinics, public hospitals, community colleges, public universities, and law enforcement, fire, and ambulance stations. For those Critical Community Facilities in the Service Area which will not be included in the Project, an explanation of why they are not being included should be provided. The applicant must also provide documentation that it has consulted with agents of all Critical Community Facilities in the Service Area, and must provide statements as to their willingness to participate, or not to participate, in the proposed Project;

(2) A description of the services available to local residents through the use of the Community Center;

(3) A listing of the proposed Telecommunications Terminal Equipment, telecommunications transmission facilities, data terminal equipment, interactive video equipment, computer hardware and software systems, and components that process data for transmission via telecommunications, computer network components, communication satellite ground station equipment, or any other elements of the Project designed to further the deployment and use of Broadband Transmission Service, that the applicant intends to build or fund using RUS grant funds and the Matching Contribution; and

(4) If other telecommunications carriers (including interexchange carriers, cable television operators, enhanced service providers, providers of satellite services and telecommunications equipment manufacturers and distributors) are participating in the delivery of services, a description of the consultations and the anticipated role of such providers in the proposed Project.

(g) *Financial information and sustainability.* The applicant must provide a narrative description demonstrating the sustainability of the Project during the first two years and after completion and the sufficiency of resources and expertise necessary to undertake and complete the Project. The following financial information is required:

(1) Certified financial statements, if available; otherwise, the most current income statement and balance sheet for existing operations; and

(2) Pro-forma financial information for 5 years, evidencing the sustainability of the Project.

(h) *A statement of experience.* Information on the owners' and principal employees' relevant work experience that would ensure the success of the Project. The applicant must provide a written narrative describing its demonstrated capability and experience, if any, in operating a broadband telecommunications system.

(i) *Evidence of legal authority and existence.* The applicant must provide evidence of its legal existence and authority to enter into a grant agreement with RUS and to perform the activities proposed under the grant application.

(j) *Funding commitment from other sources.* If the Project requires additional funding from other sources in addition to the RUS grant, the applicant must provide evidence that funding

agreements have been obtained to ensure completion of the Project.

(k) *Compliance with other federal statutes.* The applicant must provide evidence of compliance with other federal statutes and regulations, including, but not limited to the following:

(1) 7 CFR part 15, subpart A—Nondiscrimination in Federally Assisted Programs of the Department of Agriculture—Effectuation of Title VI of the Civil Rights Act of 1964.

(2) 7 CFR part 3015—Uniform Federal Assistance Regulations.

(3) 7 CFR part 3017—Governmentwide Debarment and Suspension (Non-procurement).

(4) 7 CFR part 3018—New Restrictions on Lobbying.

(5) 7 CFR part 3021—Governmentwide Requirements for Drug-Free Workplace (Financial Assistance).

(6) Certification regarding Architectural Barriers.

(7) Certification regarding Flood Hazard Precautions.

(8) An environmental report, in accordance with 7 CFR part 1794.

(9) Certification that grant funds will not be used to duplicate lines, facilities, or systems providing Broadband Transmission Services.

(10) Federal Obligation Certification on Delinquent Debt.

§ 1739.16 Review of grant applications.

(a) All applications for grants must be delivered to RUS at the address and by the date specified in the NOFA (see § 1739.2 of this part) to be eligible for funding. RUS will review each application for conformance with the provisions of this part. RUS may contact the applicant for additional information or clarification.

(b) Incomplete applications as of the deadline for submission will not be considered. If an application is determined to be incomplete, the applicant will be notified in writing and the application will be returned with no further action.

(c) Applications conforming with this part will then be evaluated competitively by a panel of RUS employees selected by the Administrator of RUS, and will be awarded points as described in the scoring criteria in § 1739.17 of this part. Applications will be ranked and grants awarded in rank order until all grant funds are expended.

(d) Regardless of the score an application receives, if RUS determines that the Project is technically or financially infeasible, RUS will notify the applicant, in writing, and the

application will be returned with no further action.

§ 1739.17 Scoring of applications.

(a) All eligible applications will receive points for the following scoring criteria:

(1) The rurality of the Project (up to 40 points);

(2) The economic need of the Project's Service Area (up to 20 points); and

(3) The "community-oriented connectivity" benefits derived from the proposed service (up to 30 points).

(b) Scoring criteria:

(1) *The rurality of the project*—up to 40 points.

(i) This criterion will be used to evaluate the rurality of the Community served by the Project, in accordance with the following method of scoring. Rurality shall be determined by the 2000 population data contained in the U.S. Bureau of the Census at <http://factfinder.census.gov>. The following categories are used in the evaluation of rurality:

(A) Level 1 means any Community having a population of less than 500 inhabitants.

(B) Level 2 means any Community having a population of at least 500 and not in excess of 1,000 inhabitants.

(C) Level 3 means any Community having a population over 1,000 and not in excess of 2,000 inhabitants.

(D) Level 4 means any Community having a population over 2,000 and not in excess of 3,000 inhabitants.

(E) Level 5 means any Community having a population over 3,000 and not in excess of 4,000 inhabitants.

(F) Level 6 means any Community having a population over 4,000 and not in excess of 5,000 inhabitants.

(G) Level 7 means any Community having a population over 5,000 and not in excess of 10,000 inhabitants.

(H) Level 8 means any Community having a population over 10,000 and not in excess of 20,000 inhabitants.

(ii) Each application will receive points based on the location of the facilities financed using the definitions in paragraphs (b)(1)(i)(A) through (H) of this section.

(A) For a Service Area that includes a Level 1 Community, it will receive 40 points.

(B) For a Service Area that includes a Level 2 Community, it will receive 35 points.

(C) For a Service Area that includes a Level 3 Community, it will receive 30 points.

(D) For a Service Area that includes a Level 4 Community, it will receive 25 points.

(E) For a Service Area that includes a Level 5 Community, it will receive 20 points.

(F) For a Service Area that includes a Level 6 Community, it will receive 15 points.

(G) For a Service Area that includes a Level 7 Community, it will receive 10 points.

(H) For a Service Area that includes a Level 8 Community, it will receive 5 points.

(2) *The economic need of the Project Service Area*—up to 30 points.

(i) This criterion will be used to evaluate the economic need of the Service Area. Applicants must utilize the per capita personal income for the Community serviced, as determined by the U.S. Bureau of the Census at <http://factfinder.census.gov>. Applicants will be awarded points as outlined below for service provided in the Community where the per capita personal income (PCI) is less than 70 percent of the national average per capita personal income (NAPCI):

(A) PCI is 75 percent or greater of NAPCI; 0 points;

(B) PCI is less than 75 percent and greater than or equal to 70 percent of NAPCI; 5 points;

(C) PCI is less than 70 percent and greater than or equal to 65 percent of NAPCI; 10 points;

(D) PCI is less than 65 percent and greater than or equal to 60 percent of NAPCI; 15 points;

(E) PCI is less than 60 percent and greater than or equal to 55 percent of NAPCI; 20 points;

(F) PCI is less than 55 percent and greater than or equal to 50 percent of NAPCI; 25 points;

(G) PCI is less than 50 percent of NAPCI; 30 points;

(ii) [Reserved]

(3) *The "community-oriented connectivity" benefits derived from the proposed service*—up to 30 points.

(i) This criterion will be used to score applications based on the documentation in support of the need for services, benefits derived from the services proposed by the Project, and local community involvement in planning and implementation of the Project. Applicants may receive up to 30 points for documenting the need for services and benefits derived from service as explained in this section.

(ii) RUS will consider:

(A) The extent of the applicant's documentation explaining the economic, education, health care, and public safety issues facing the community and the applicant's proposed plan to address these challenges on a community-wide basis;

(B) The extent of the Project's planning, development, and support by local residents, institutions, and community facilities will be considered. This includes evidence of community-wide involvement, as exemplified in community meetings, public forums, and surveys. In addition, applicants should provide evidence of local residents' participation in the Project planning and development;

(C) The extent to which the Community Center will be used for instructional purposes including Internet usage, Web-based curricula, and Web page development; and

(D) Web-based community resources enabled or provided by the applicant, such as community bulletin boards, directories, and public web-hosting.

§ 1739.18 Grant documents.

The terms and conditions of grants shall be set forth in grant documents prepared by RUS. The documents shall require the applicant to own all equipment and facilities financed by the grant. Among other matters, RUS may prescribe conditions to the advance of funds that address concerns regarding the Project feasibility and sustainability. RUS may also prescribe terms and conditions applicable to the construction and operation of the Project and the delivery of Broadband Transmission Services to Rural Areas, as well as other terms and conditions applicable to the individual Project.

§ 1739.19 Reporting and oversight requirements.

(a) A project performance activity report will be required of all recipients on an annual basis until the Project is complete and the funds are expended by the applicant. Recipients are to submit an original and one copy of all project performance reports, including, but not limited to, the following:

(1) A comparison of actual accomplishments to the objectives established for that period;

(2) A description of any problems, delays, or adverse conditions which have occurred, or are anticipated, and which may affect the attainment of overall Project objectives, prevent the meeting of time schedules or objectives, or preclude the attainment of particular Project work elements during established time periods. This disclosure shall be accompanied by a statement of the action taken or planned to resolve the situation; and

(3) Objectives and timetable established for the next reporting period.

(b) A final project performance report must be provided by the recipient. It

must provide an evaluation of the success of the Project in meeting the objectives of the program. The final report may serve as the last annual report.

(c) RUS will monitor recipients, as it determines necessary, to assure that Projects are completed in accordance with the approved scope of work and that the grant is expended for Eligible Grant Purposes.

(d) Recipients shall diligently monitor performance to ensure that time schedules are being met, projected work within designated time periods is being accomplished, and other performance objectives are being achieved.

§ 1739.20 Audit requirements.

A grant recipient shall provide RUS with an audit for each year, beginning with the year in which a portion of the financial assistance is expended, in accordance with the following:

(a) If the recipient is a for-profit entity, an existing Telecommunications or Electric Borrower with RUS, or any other entity not covered by the following paragraph, the recipient shall provide an independent audit report in accordance with 7 CFR part 1773, "Policy on Audits of RUS Borrowers."

(b) If the recipient is a State or local government, or non-profit organization, the recipient shall provide an audit in accordance with 7 CFR part 3052, "Audits of States, Local Governments, and Non-Profit Organizations."

§ 1739.21 OMB Control Number.

The information collection requirements in this part are approved by the Office of Management and Budget (OMB) and assigned OMB control number 0572-0127.

Subpart B—[Reserved]

Dated: April 22, 2004.

Blaine D. Stockton,
Acting Administrator, Rural Utilities Service.

BILLING CODE 3410-15-P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[REG-166012-02]

RIN 1545-BB82

National Principal Contracts; Contingent Nonperiodic Payments; Hearing Cancellation

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Cancellation of public hearing on proposed rulemaking.

SUMMARY: This document cancels a public hearing on a notice of proposed rulemaking under section 446(b) of the Internal Revenue Code relating to the inclusion into income or deduction of a contingent nonperiodic payment provided for under a notional principal contract (NPC).

DATES: The public hearing originally scheduled for May 25, 2004, at 10 a.m., is cancelled.

FOR FURTHER INFORMATION CONTACT: Sonya M. Cruse of the Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel (Procedures and Administration), at (202) 622-4693 (not a toll-free number).

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking and notice of public hearing that appeared in the *Federal Register* on Thursday, February 26, 2004 (69 FR 8886), announced that a public hearing was scheduled for May 25, 2004, at 10 a.m., in the auditorium, Internal Revenue Service Building, 1111 Constitution Avenue, NW., Washington, DC. The subject of the public hearing is under section 446(e) of the Internal Revenue Code.

The public comment period for these regulations expired on May 4, 2004. The notice of proposed rulemaking instructed those interested in testifying at the public hearing to submit a request to speak and an outline of the topics to be addressed. As of Friday, May 7, 2004, no one has requested to speak. Therefore, the public hearing scheduled for May 25, 2004, is cancelled.

Cynthia E. Grigsby,

Acting Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel (Procedures and Administration).

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[CGD13-04-019]

RIN 1625-AA00

Security Zones; Protection of Military Cargo, Captain of the Port Zone Puget Sound, WA

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish two security zones in Commencement Bay, WA. These security zones are needed to protect Department of Defense assets and military cargo in Puget Sound, Washington. This proposed rule, when enforced by the Captain of the Port Puget Sound, would provide for the regulation of vessel traffic in the vicinity of military cargo loading facilities in the navigable waters of the United States.

DATES: Comments and related material must reach the Coast Guard on or before June 14, 2004.

ADDRESSES: You may mail comments and related material to Commanding Officer, Marine Safety Office Puget Sound, 1519 Alaskan Way South, Seattle, Washington 98134. Marine Safety Office Puget Sound maintains the public docket [CGD13-04-019] for this rulemaking. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at Marine Safety Office Puget Sound between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: LTjg T. Thayer, c/o Captain of the Port Puget Sound, 1519 Alaskan Way South, Seattle, WA 98134, (206) 217-6232. For specific information concerning enforcement of this rule, call Marine Safety Office Puget Sound at (206) 217-6200 or (800) 688-6664.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD13-04-019), indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know that your submission reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for a meeting by writing to Marine Safety Office Puget Sound at the address

under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a separate notice in the *Federal Register*.

Background and Purpose

Hostile entities continue to operate with the intent to harm U.S. National Security by attacking or sabotaging national security assets. The President has continued the national emergencies he declared following the September 11, 2001 terrorist attacks. 67 FR 58317 ((Sept. 13, 2002) (continuing national emergency with respect to terrorist attacks)); 67 FR 59447 ((Sept. 20, 2002) continuing national emergency with respect to persons who commit, threaten to commit or support terrorism)); 68 FR 55189 ((Sept. 22, 2003) (continuing national emergency with respect to persons who commit, threaten to commit or support terrorism)).

The President also has found pursuant to law, including the Magnuson Act (50 U.S.C. 191 *et seq.*), that the security of the United States is and continues to be endangered following the attacks (E.O. 13,273, 67 FR 56215 (Sept. 3, 2002) (security endangered by disturbances in international relations of U.S. and such disturbances continue to endanger such relations). Moreover, the ongoing hostilities in Afghanistan and Iraq make it prudent for U.S. ports and waterways to be on a higher state of alert because the al Qaeda organization and other similar organizations have declared an ongoing intention to conduct armed attacks on U.S. interests worldwide.

The Coast Guard, through this proposed rule, intends to assist the Department of Defense and protect vital national security assets, in waters of Puget Sound. This proposed rule would establish security zones and notification requirements that will exclude persons and vessels from these zones during military cargo loading and unloading operations. Entry into these zones will be prohibited unless authorized by the Captain of the Port or his designee. The Captain of the Port may be assisted by other federal, state, or local agencies.

Discussion of Proposed Rule

During the past 6 months, the Captain of the Port has issued four temporary final rules establishing security zones in Commencement Bay, Washington. (CGD13-04-024 issued April 29, 2004; 69 FR 24513, May 4, 2004, item 13-04-006; 69 FR 4237, 4239, January 29, 2004; items 13-03-037 and 13-03-039)

These temporary final rules have been established to protect facilities used by

vessels to load and/or unload military cargo. Moreover, these temporary zones have differed in size and description. This proposed rule would establish a permanent, uniform, security zone, which would control vessel movement in and around the Blair and Sitcum Waterways, Commencement Bay, WA. However, the Captain of the Port will only enforce the proposed rule after issuing a notice of enforcement. Upon notice of suspension of enforcement, all persons and vessels are authorized to enter, move within and exit these security zones. This proposed rule is deemed necessary to protect vital national security assets and military cargo.

The Coast Guard proposes establishing a security zone in the Blair Waterway, Commencement Bay, WA, which includes all waters enclosed by the following points: 47°16'57" N, 122°24'39" W, which is approximately the beginning of Pier No. 23 (also known as the Army pier); then northwesterly to 47°17'05" N, 122°24'52" W, which is the end of the Pier No. 23 (Army pier); then southwesterly to 47°16'33" N, 122°25'18" W, which is the approximate location of a private buoy on the end of the sewage outfall; then southeasterly to 47°16'42" N, 122°25'04" W, which is approximately the northwestern end of Pier No. 5; then northeasterly to the northwestern end of Pier No. 1; then southeasterly along the shoreline of the Blair Waterway to the Blair Waterway turning basin; then along the shoreline around the Blair Waterway turning basin; then northwesterly along the shoreline of the Blair Waterway to the Commencement Bay Directional Light (light list number 17159); then northeasterly along the shoreline to the point of origin. [Datum: NAD 1983].

This proposed rule would also establish a security zone in the Sitcum Waterway, Commencement Bay, WA which includes all waters enclosed by the following points: 47°16'42" N, 122°25'04" W, which is approximately the northwestern end of Pier No. 5; then northwesterly to 47°16'33" N, 122°25'18" W, which is the approximate location of a private buoy on the end of the sewage outfall; then southwesterly to 47°16'23" N, 122°25'36" W; then southeasterly to 47°16'10" N, 122°25'27" W, which is the northwestern corner of Pier No. 2; then extending northeasterly to 47°16'13" N, 122°25'13" W; then extending southeasterly along the shoreline of the Sitcum Waterway; then northeasterly along the shoreline at the terminus of the Sitcum Waterway and then northwesterly along the shoreline of the

Sitcum Waterway; then northeasterly along the shoreline of Pier No. 5 to the point of origin. [Datum: NAD 1983].

Finally, this proposed rule would also establish requirements for all vessels to obtain permission of the COTP or the COTP's designated representative, including the Vessel Traffic Service Seattle (VTS), to enter the Blair Waterway or Sitcum Waterway security zones when they are being enforced. To allow time for the request to be considered, vessels 20 meters or greater in length should seek permission 4 hours in advance, and vessels less than 20 meters should seek permission to enter at least 1 hour in advance. Also, vessels must obtain permission from the COTP or a Designated Representative to move within or exit these security zones when they are being enforced.

This proposed rule would be enforced from time to time by the Captain of the Port Puget Sound for such times before, during, and after military cargo loadings and unloadings as he or she deems necessary to prevent damage or injury to any vessel or waterfront facility, to safeguard ports, harbors, territories, or waters of the United States or to secure the observance of the rights and obligations of the United States. The Captain of the Port Puget Sound will cause notice of enforcement or suspension of enforcement of this security zone to be made by all appropriate means to effect the widest publicity among the affected segments of the public, including Marine Safety Office Puget Sound's Internet Web page located at <http://www.uscg.mil/d13/units/msopuget>. In addition, Marine Safety Office Puget Sound maintains a telephone line that is manned 24 hours a day, 7 days a week. The public can contact Marine Safety Office Puget Sound at (206) 217-6002 or (800) 688-6664 to obtain information concerning enforcement of this rule.

Regulatory Evaluation

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS). We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary. Although this proposed rule would restrict access to the regulated area, the effect of this proposed rule would not be significant.

This expectation is based on the fact that the regulated area established by the rule would encompass a limited area in the Blair and Sitcum Waterways, Commencement Bay, WA. In addition, temporary final rules established for past cargo loading and unloading operations have only lasted from a few days to over a week in duration. Hence, the Coast Guard expects that enforcement periods under of this proposed rule will be of similar duration. Further, Coast Guard forces will actively monitor and enforce the Blair Waterway and Sitcum Waterway security zones and are authorized by the Captain of the Port to grant authorization to vessels to enter these waterways. In addition, in certain circumstances VTS may grant authorization to enter, move within or depart these waterways. In other words, those vessels or persons who may be impacted by this rule may request permission to enter, move within or depart these security zones. Finally, the Coast Guard will cause a notice of suspension of enforcement to be published when cargo loading or unloading operations have concluded. For the above reasons, the Coast Guard does not anticipate any significant economic impact.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

This proposed rule would affect the following entities, some of which may be small entities: the owners or operators of vessels intending to operate near or anchor in the vicinity of Blair and/or Sitcum Waterways.

This proposed rule would not have a significant economic impact on a substantial number of small entities for the following reasons: (i) Individual security zones are limited in size; (ii) designated representatives of the Captain of the Port may authorize access to the security zone; (iii) security zones for any given operation will effect a given geographical location for a limited time; (iv) the Coast Guard will make

notifications via maritime advisories so mariners can adjust their plans accordingly and (v) the Coast Guard will cause a notice of suspension of enforcement to be published when cargo loading or unloading operations have concluded.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact one of the points of contact listed under **FOR FURTHER INFORMATION CONTACT**.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247).

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of

their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

The Coast Guard recognizes the rights of Native American Tribes under the Stevens Treaties. Moreover, the Coast Guard is committed to working with Tribal Governments to implement local policies to mitigate tribal concerns. We have determined that these security zones and fishing rights protection need not be incompatible. We have also determined that this Proposed Rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. Nevertheless, Indian Tribes that have questions concerning the provisions of this Proposed Rule or options for compliance are encouraged to contact the point of contact listed under **FOR FURTHER INFORMATION CONTACT**.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

The Coast Guard's preliminary review indicates this proposed rule is categorically excluded from further environmental documentation under figure 2-1, paragraph 34(g) of Commandant Instruction M16475.1D. The environmental analysis and Categorical Exclusion Determination will be prepared and be available in the docket for inspection and copying where indicated under **ADDRESSES**. All standard environmental measures remain in effect.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and record keeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191, 195; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5; Pub. L. 107-295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1

2. Add § 165.1321 to read as follows:

§ 165.1321 Security Zone; Protection of Military Cargo, Captain of the Port Zone Puget Sound, WA.

(a) *Notice of enforcement or suspension of enforcement.* The Captain of the Port Puget Sound will enforce the security zones established by this section only upon notice. Captain of the Port Puget Sound will cause notice of the enforcement of these security zones to be made by all appropriate means to effect the widest publicity among the affected segments of the public including publication in the **Federal**

Register as practicable, in accordance with 33 CFR 165.7(a). Such means of notification may also include but are not limited to, Broadcast Notice to Mariners or Local Notice to Mariners. The Captain of the Port Puget Sound will issue a Broadcast Notice to Mariners and Local Notice to Mariners notifying the public when enforcement of these security zones is suspended.

(b) *Definitions.* The following definitions apply to this section:

Designated Representative means those persons designated by the Captain of the Port Puget Sound to monitor these security zones, permit entry into these zones, give legally enforceable orders to persons or vessels within these zones and take other actions authorized by the Captain of the Port Puget Sound. Persons authorized in paragraph (g) to enforce this section and Vessel Traffic Service Puget Sound (VTS) are Designated Representatives.

Federal Law Enforcement Officer means any employee or agent of the United States government who has the authority to carry firearms and make warrantless arrests and whose duties involve the enforcement of criminal laws of the United States.

Navigable waters of the United States means those waters defined as such in 33 CFR part 2.

Public vessel means vessels owned, chartered, or operated by the United States, or by a State or political subdivision thereof.

Washington Law Enforcement Officer means any General Authority Washington Peace Officer, Limited Authority Washington Peace Officer, or Specially Commissioned Washington Peace Officer as defined in Revised Code of Washington section 10.93.020.

(c) *Security zone.* The following areas are security zones:

(1) *Blair Waterway Security Zone:* The Security Zone in the Blair waterway, Commencement Bay, WA, includes all waters enclosed by a line connecting the following points: 47°16'57" N, 122°24'39" W, which is approximately the beginning of Pier No. 23 (also known as the Army pier); then northwesterly to 47°17'05" N, 122°24'52" W, which is the end of the Pier No. 23 (Army pier); then southwesterly to 47°16'33" N, 122°25'18" W, which is the approximate location of a private buoy on the end of the sewage outfall; then southeasterly to 47°16'42" N, 122°25'04" W, which is approximately the northwestern end of Pier No. 5; then northeasterly to the northwestern end of Pier No. 1; then southeasterly along the shoreline of the Blair Waterway to the Blair Waterway turning basin; then along the shoreline

around the Blair Waterway turning basin; then northwesterly along the shoreline of the Blair Waterway to the Commencement Bay Directional Light (light list number 17159); then northeasterly along the shoreline to the point of origin. [Datum: NAD 1983].

(2) *Sitcum Waterway Security Zone:* The Security Zone in the Sitcum waterway, Commencement Bay, WA, includes all waters enclosed by a line connecting the following points: 47°16'42" N, 122°25'04" W, which is approximately the northwestern end of Pier No. 5; then northwesterly to 47°16'33" N, 122°25'18" W, which is the approximate location of a private buoy on the end of the sewage outfall; then southwesterly to 47°16'23" N, 122°25'36" W; then southeasterly to 47°16'10" N, 122°25'27" W, which is the northwestern corner of Pier No. 2; then extending northeasterly to 47°16'13" N, 122°25'13" W; then extending southeasterly along the shoreline of the Sitcum Waterway; then northeasterly along the shoreline at the terminus of the Sitcum Waterway and then northwesterly along the shoreline of the Sitcum Waterway; then northeasterly along the shoreline of Pier No. 5 to the point of origin. [Datum: NAD 1983].

(d) *Obtaining permission to enter, move within, or exit the security zones:* All vessels must obtain permission from the COTP or a Designated Representative to enter, move within, or exit the security zones established in this section when these security zones are enforced. Vessels 20 meters or greater in length should seek permission from the COTP or a Designated Representative at least 4 hours in advance. Vessels less than 20 meters in length should seek permission at least 1 hour in advance. VTS Puget Sound may be reached on VHF channel 14.

(e) *Compliance.* Upon notice of enforcement by the Captain of the Port Puget Sound, the Coast Guard will enforce these security zones in accordance with rules set out in this section. Upon notice of suspension of enforcement by the Captain of the Port Puget Sound, all persons and vessels are authorized to enter, transit, and exit these security zones.

(f) *Regulations.* Under the general regulations in 33 CFR part 165 subpart D, this section applies to any vessel or person in the navigable waters of the United States to which this section applies. No person or vessel may enter the security zones established in this section unless authorized by the Captain of the Port or his designated representatives. Vessels and persons granted permission to enter the security zone shall obey all lawful orders or

directions of the Captain of the Port or his designated representatives. All vessels shall operate at the minimum speed necessary to maintain a safe course.

(g) *Enforcement.* Any Coast Guard commissioned, warrant, or petty officer may enforce the rules in this section. In the navigable waters of the United States to which this section applies, when immediate action is required and representatives of the Coast Guard are not present or not present in sufficient force to provide effective enforcement of this section, any Federal Law Enforcement Officer or Washington Law Enforcement Officer may enforce the rules contained in this section pursuant to 33 CFR 6.04-11. In addition, the Captain of the Port may be assisted by other Federal, State or local agencies in enforcing this section pursuant to 33 CFR 6.04-11.

(h) *Exemption.* Public vessels as defined in paragraph (b) of this section are exempt from the requirements in this section.

(i) *Waiver.* For any vessel, the Captain of the Port Puget Sound may waive any of the requirements of this section, upon finding that operational conditions or other circumstances are such that application of this section is unnecessary or impractical for the purpose of port security, safety or environmental safety.

Dated: May 7, 2004.

Danny Ellis,

Captain, U. S. Coast Guard, Captain of the Port, Puget Sound.

BILLING CODE 4910-15-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[AZ 120-0063; FRL-7661-2]

Revisions to the Arizona State Implementation Plan, Arizona Department of Environmental Quality

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing a full approval of some revisions to the Arizona Department of Environmental Quality (ADEQ) portion of the Arizona State Implementation Plan (SIP) and a limited approval/limited disapproval of other revisions to the Arizona SIP. These revisions concern sulfur dioxide (SO₂) emissions from existing primary copper smelters. We are proposing

action on local rules that regulate this emission source under the Clean Air Act as amended in 1990 (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

DATES: Any comments must arrive by June 14, 2004.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR-4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105, or e-mail to steckel.andrew@epa.gov, or submit comments at <http://www.regulations.gov>.

You can inspect copies of the submitted SIP revisions and EPA's technical support document (TSD) at our Region IX office during normal business hours. You may also see copies

of the submitted SIP revisions at the following locations: Arizona Department of Environmental Quality, 1110 West Washington Street, Phoenix, AZ 85007.

A copy of the rules may also be available via the Internet at http://www.sosaz.com/public_services/Title_18/18-02.htm. Please be advised that this is not an EPA website and may not contain the same version of the rule that was submitted to EPA.

FOR FURTHER INFORMATION CONTACT: Al Petersen, Rulemaking Office (AIR-4), U.S. Environmental Protection Agency, Region IX, (415) 947-4118, petersen.alfred@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, "we," "us" and "our" refer to EPA.

ADEQ	R18-2-715 (sections F, G, and H).	Standards of Performance for Existing Primary Copper Smelters, Site-specific Requirements.	08/09/02	09/12/03
ADEQ	R18-2-715.01	Standards of Performance for Existing Primary Copper Smelters, Compliance and Monitoring.	08/09/02	09/12/03
ADEQ	R18-2-715.02	Standards of Performance for Existing Primary Copper Smelters, Fugitive Emissions.	11/15/93	07/15/98
ADEQ	R18-2-appendix 8	Procedures for Utilizing the Sulfur Balance Method for Determining Sulfur Emissions.	11/15/93	07/15/98

On November 14, 2003, the submittal of Rules R18-2-715 (sections F, G, and H) and R18-2-715.01 was found to meet the completeness criteria in 40 CFR part 51, appendix V, which must be met before formal EPA review. On December 18, 1998, the submittal of Rules R18-2-715.02 and R18-2-appendix 8 was found to meet the completeness criteria.

B. Are There Other Versions of These Rules?

We approved versions of Rules R18-2-715, R18-2-715.01, and R18-2-715.02 into the SIP as Rule R9-3-515 at various times. Specifically, we approved a version of Rule R18-2-715 (sections F, G, and H) into the SIP as Rule 9-3-515 (sections A and C.1 (a through g)), portions of which were submitted on September 20, 1979, July 17, 1980, and February 2, 1983, on January 14, 1983 (48 FR 1717) and October 19, 1984 (49 FR 41026). Part was submitted on September 20, 1979; part submitted on July 17, 1980; part submitted on July 13, 1981 and approved at 48 FR 1717 (January 14, 1983), part submitted on June 3, 1982 and approved at 47 FR 42572 (September 28, 1982), and part submitted on February 3, 1984 and approved at 49 FR 41026 (October 19, 1984).

We approved a version of Rule R18-2-715.01 into the SIP as Rule R9-3-515 (sections C.1(h and i), C.2, C.3, C.4, C.5, and C.6), portions of which were submitted on September 20, 1979, July 13, 1981, June 3, 1982, and February 3, 1984, on January 14, 1983 (48 FR 1717) and October 19, 1984 (49 FR 41026).

We approved a version of Rule R18-2-715.02 into the SIP as Rule R9-3-515 (sections C.8 and C.9), portions of which were submitted on September 20, 1979 and June 3, 1982, on January 14, 1983 (48 FR 1717).

We approved a version of Rule R18-2-appendix 8 into the SIP as Rule R9-3-appendix 8 (sections 8A.3.1 and 8A.3.2), submitted on June 3, 1982, on September 28, 1982 (47 FR 42572).

C. What Is the Purpose of the Submitted Rule Revisions?

Sulfur dioxide is formed by the combustion of fuels and by certain industrial processes, including those at smelters. High concentrations of SO₂ affect breathing and may aggravate existing respiratory and cardiovascular disease. Section 110(a) of the CAA requires states to submit regulations that control SO₂ emissions. The submitted rules regulate SO₂ emissions from existing primary copper smelters. The

TSD has more information about these rules.

II. EPA's Evaluation and Action

A. How Is EPA Evaluating the Rules?

Pursuant to the CAA as amended in 1977, EPA designated six areas in Arizona as nonattainment for the SO₂ National Ambient Air Quality Standards (NAAQS). See 43 FR 8962 (March 3, 1978), 44 FR 21261 (April 10, 1979), and 44 FR 53081 (September 12, 1979). Local copper smelters were the principal sources of SO₂ emissions in these areas. Under the CAA as amended in 1977, States were required to revise their SIPs to include air quality plans that set forth a strategy to bring nonattainment areas into attainment. As part of the attainment strategy, ADEQ initially submitted R9-3-515, the predecessor regulation to the submitted rules evaluated herein, to EPA on September 20, 1979. As noted above, EPA approved various provisions of R9-3-515 into the Arizona SIP at different times. See the proposed rule at 46 FR 58098 (November 30, 1981), and related final rules at 47 FR 42572 (September 28, 1982), 48 FR 1717 (January 14, 1983), and 49 FR 41026 (October 19, 1984).

Rule R9-3-515 provides SO₂ stack emission limits for seven individual copper smelters in the six nonattainment areas: Magma Copper Company (San Manuel); ASARCO, Inc. (Hayden); Kennecott Copper Company, Ray Mines Division (Hayden); Inspiration Consolidated Copper Company (Miami); Phelps Dodge Corp., New Cornelia Branch (Ajo); Phelps Dodge Corp., Douglas Reduction Works (Douglas); and Phelps Dodge Corp., Morenci Branch (Morenci). While EPA took action to fully approve R9-3-515, EPA also concluded that the control strategy for SO₂ in these six areas was incomplete due to the failure to address the fugitive emissions problems at the copper smelters. See 48 FR 1717 (January 14, 1983) and 40 CFR 52.125(a)(1).

Under the CAA as amended in 1990, areas designated nonattainment prior to enactment of the amendments retained their nonattainment designations by operation of law. See section 107(d)(1)(C) of the CAA. Thus, the six areas covered by R9-3-515 remained nonattainment for the SO₂ NAAQS following enactment of the 1990 CAA Amendments. Under subpart 5 of part D of title I of the CAA, as amended in 1990, States that contained areas designated nonattainment with respect to the NAAQS for SO₂ by operation of law but lacking a fully approved implementation plan complying with the requirements of the CAA as in effect immediately before enactment of the CAA Amendments of 1990 were required to prepare and submit a SIP revision meeting the requirements of subpart 1 (of part D). See section 191(b) of the CAA. Section 191(b) of the CAA applies to the six SO₂ nonattainment areas in Arizona because, as noted above, the pre-1990 implementation plan for those areas failed to address the fugitive emissions problems at the copper smelters.

The subpart 1 (of part D) requirement that is applicable to the submitted rules is section 172(c)(1): Such plan provisions shall provide for the implementation of all reasonably available control measures as expeditiously as practicable (including such reductions in emissions from existing sources in the area as may be obtained through the adoption, at a minimum, of reasonably available control technology (RACT)) and shall provide for attainment of the NAAQS. The submitted rules are evaluated herein to ensure they comply with RACT and that they contain the provisions necessary to ensure that the rules are enforceable. In addition, we evaluate the submitted rules for

approvability under sections 110(l) and 193 of the CAA.

Guidance and policy documents that we used to help evaluate specific enforceability requirements consistently include the following:

- *Requirements for Preparation, Adoption, and Submittal of Implementation Plans*, U.S. EPA, 40 CFR part 51.

- *Issues Relating to VOC Regulation, Cutpoints, Deficiencies, and Deviations* (the "Blue Book"), U.S. EPA, OAQPS (May 25, 1988).

- *Guidance Document for Correcting Common Volatile Organic Compounds & Other Rule Deficiencies*, EPA Region IX (August 2, 2001), available at <http://www.epa.gov/region09/air/sips/littlebluebook2001.pdf>.

- Alushin, Michael S., Associate Enforcement Counsel for Air Enforcement, Alan W. Eckert, Associate General Counsel, Air and Radiation Division, and John S. Seitz, Director, Stationary Source Compliance Division, Office of Air Quality Planning and Standards, memorandum, *Review of State Implementation Plans and Revisions for Enforceability and Legal Sufficiency*, (September 23, 1987).

B. Do the Rules Meet the Evaluation Criteria?

The submitted rules constitute source-specific SO₂ SIP rules for three of the seven primary copper smelters covered by the corresponding existing SIP rules: BHP Copper (formerly Magma Copper Company) (San Manuel); ASARCO, Inc. (Hayden); and Inspiration Consolidated Copper Company (Miami). The other four smelters have been completely dismantled or are no longer operational. See the TSD for additional information on these smelters. For those smelters that remain in operation, the submitted rules improve the SIP by establishing more stringent SO₂ stack emissions limits, by establishing SO₂ emissions limits for fugitive emissions, by adding compliance and monitoring provisions related to fugitive SO₂ emissions, and by revising the record retention period from two to five years.

As noted above, the San Manuel, Hayden, and Miami areas are designated as nonattainment for the SO₂ NAAQS. As required under the CAA as amended in 1990, ADEQ prepared SIP revisions involving the development of air quality plans that provide for attainment of the SO₂ NAAQS in these areas. ADEQ drafted these plans to provide for maintenance of the SO₂ NAAQS as well as attainment and has requested that the areas be redesignated from nonattainment to attainment under section 107(d) of the CAA. These plans

rely primarily on the stack and fugitive SO₂ emission limits and related compliance and monitoring provisions in the submitted rules to attain and maintain the SO₂ NAAQS in the three nonattainment areas. SO₂ NAAQS violations have not been recorded in these areas for at least the past five years. See ADEQ's *San Manuel Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan* (June 2002), submitted to EPA on June 20, 2002; *Miami Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan* (June 2002), submitted to EPA on June 26, 2002; *Hayden Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan* (June 2002), submitted to EPA on June 27, 2002.

Since the submitted rules are consistent with the control strategy that provides for attainment of the SO₂ NAAQS in the applicable nonattainment areas, they would fully satisfy the requirements for implementation of RACT under sections 172(c) and 191(b) and would be fully approvable by EPA under section 110(l) of the CAA but for the deficiencies in Rule R18-2—appendix 8, which are summarized below and discussed further in the TSD. In addition, the submitted rules contain more stringent emissions limits than the corresponding pre-1990 SIP requirements, they are approvable by EPA under section 193 of the CAA.

C. What Are the Rule Deficiencies?

These provisions of Rule R18-2—appendix 8 conflict with section 110 and part D of the CAA and prevent full approval of the SIP revision.

- Sections A.8.1.2 and A.8.2 contain excessive Director's discretion by allowing the Director to approve an equivalent method to calculate the sulfur content without providing the criteria that will be used to determine approvability. The *Guidance Document for Correcting Common Volatile Organic Compounds (VOC) & Other Rule Deficiencies*, EPA Region IX (August 2, 2001), provides guidance on correcting instances of Director's discretion. Also for greater clarity, the term "equivalent method" should be replaced with "alternative method" in paragraph A.8.1.2, as these phrases have distinct meanings. See 40 CFR 60.2. Excessive director's discretion in essence allows for a variance from SIP requirements, and variances are not allowed under section 110(i) of the CAA unless they are submitted as individual SIP revisions by a State and then approved by EPA.

• Sections A.8.1.2.1.1, A.8.1.2.1.2, and A.8.1.2.1.3 should clarify how a representative sample should be taken from belt feeders, railcars, and trucks so that the sampling process is not biased. ADEQ may wish to investigate possible ASTM methods or other industry sampling methods.

• Sections A.8.1.2.3.1 and A.8.1.2.3.2 should provide specific test methods for the "barium sulfate" and "potassium iodine" procedures.

• Section A.8.2.5.5 should provide a specific test method for "chemical gravimetric means." Apparently it is intended to be the "barium sulfate" method from section A.8.1.2.3.1. Also the accuracy is stated as +50%, but it should be a \pm number. The accuracy of a gravimetric procedure is normally about $\pm 1\%$, not $\pm 50\%$.

• The reference in A.8.3.1 should be changed from R18-2-715(C)(4) to R18-2-715.01(K)-(O). Also, the reference in A.8.3.2 should be changed from R18-2-715(C)(7)(v) to R18-2-715.01(Q).

D. Proposed Action and Public Comment

In order to strengthen the SIP, EPA is proposing a full approval of ADEQ's submitted Rules R18-2-715 (sections F, G, and H), R18-2-715.01, and R18-2-715.02 as fulfilling the requirements of RACT, SIP relaxations, and enforceability.

Because of the above deficiencies, we cannot grant full approval of Rule R18-2-appendix 8 under section 110(k)(3) and part D. However, EPA may grant a limited approval of Rule R18-2-appendix 8 under section 110(k)(3) in light of EPA's authority pursuant to section 301(a) to adopt regulations necessary to further air quality by strengthening the SIP. The approval is limited because EPA's action also contains a simultaneous limited disapproval.

EPA is proposing a limited approval of Rule R18-2-appendix 8 under sections 110(k)(3) and 301(a) of the CAA as meeting the requirements of section 110(a) and part D. At the same time, EPA is also proposing a limited disapproval of Rule R18-2-appendix 8 because it contains deficiencies which must be corrected in order to fully meet the requirements of section 110 and part D of the CAA. Under section 179(a)(2), if the Administrator disapproves a submission under section 110(k) for an area designated nonattainment, based on the submission's failure to meet one or more of the elements required by the CAA, the Administrator must apply one of the sanctions set forth in section 179(b) unless the deficiency has been corrected within 18 months of such

disapproval. Section 179(b) provides two sanctions available to the Administrator: Highway funding and offsets. The 18-month period referred to in section 179(a) will begin on the effective date of EPA's final limited disapproval. Moreover, the final disapproval triggers the Federal implementation plan (FIP) requirement under section 110(c). It should be noted that the rules covered by this document have been adopted and are currently in effect. EPA's final limited disapproval action will not prevent ADEQ or EPA from enforcing these rules. Also, if we finalize this action as proposed, the submitted rules will supersede the corresponding existing SIP rule in the Arizona SIP.

We will accept comments from the public on the proposed action for the next 30 days.

III. Statutory and Executive Order Reviews

A. Executive Order 12866, Regulatory Planning and Review

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866, entitled "Regulatory Planning and Review."

B. Paperwork Reduction Act

This proposed rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*)

C. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions.

This rule will not have a significant impact on a substantial number of small entities because SIP approvals under section 110 and subchapter I, part D of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities.

Moreover, due to the nature of the Federal-State relationship under the Clean Air Act, preparation of flexibility

analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co., v. U.S. EPA*, 427 U.S. 246, 255-66 (1976); 42 U.S.C. 7410(a)(2).

D. Unfunded Mandates Reform Act

Under sections 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to the private sector, of \$100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the approval action proposed does not include a Federal mandate that may result in estimated costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This Federal action proposes to approve pre-existing requirements under State or local law, and imposes no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

E. Executive Order 13132, Federalism

Federalism (64 FR 43255, August 10, 1999) revokes and replaces Executive Orders 12612 (*Federalism*) and 12875 (*Enhancing the Intergovernmental Partnership*). Executive Order 13132 requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." Under Executive Order 13132, EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not

required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or EPA consults with State and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This proposed rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, because it merely proposes to approve a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. Thus, the requirements of section 6 of the Executive Order do not apply to this rule.

F. Executive Order 13175, Coordination With Indian Tribal Governments

Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 9, 2000), requires EPA to develop an accountable process to ensure "meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications." This proposed rule does not have tribal implications, as specified in Executive Order 13175. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes. Thus, Executive Order 13175 does not apply to this proposed rule.

EPA specifically solicits additional comment on this proposed rule from tribal officials.

H. Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks

Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) is determined to be "economically significant" as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If

the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This proposed rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

I. Executive Order 13211, Actions That Significantly Affect Energy Supply, Distribution, or Use

This proposed rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

J. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use "voluntary consensus standards" (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

The EPA believes that VCS are inapplicable to this proposed action. Today's action does not require the public to perform activities conducive to the use of VCS.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Intergovernmental relations, Reporting and recordkeeping requirements, Sulfur oxides.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: April 28, 2004.

Deborah Jordan,

Acting Regional Administrator, Region IX.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 15

[ET Docket No. 04-151; ET Docket No. 02-380; and ET Docket No. 98-237; FCC 04-100]

Unlicensed Operation of the 3650-3700 Band

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Commission's rules to maximize the efficient use of the 3650-3700 MHz band. The proposal would allow unlicensed devices to operate in either all, or portions of, this radiofrequency (RF) band under flexible technical limitations with smart/cognitive features that should prevent interference to licensed satellite services. This proposal fosters the introduction of new and advanced services to the American public, especially in rural areas.

DATES: Comments must be filed on or before July 28, 2004, and reply comments must be filed on or before August 27, 2004.

FOR FURTHER INFORMATION CONTACT: Neal McNeil at (202) 418-2408, Neal.McNeil@fcc.gov, Gary Thayer at (202) 418-2290, Gary.Thayer@fcc.gov, or Ahmed Lahjouji, (202) 418-2061, Ahmed.Lahjouji@fcc.gov—Office of Engineering and Technology; or Eli Johnson at (202) 418-1395, Eli.Johnson@fcc.gov, or Marty Liebman at (202) 418-0633, Martin.Liebman@fcc.gov—Wireless Telecommunications Bureau, TTY (202) 418-2989.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Notice of Proposed Rule Making*, ET Docket No. 04-151, ET Docket No. 02-380 and ET Docket No. 98-237, FCC 04-100, adopted April 15, 2004, and released April 23, 2004. The full text of this document is available for inspection and copying during normal business hours in the FCC Reference Center (Room CY-A257), 445 12th Street, SW., Washington, DC 20554. The complete text of this document also may be purchased from the Commission's copy contractor, Qualex International, 445 12th Street, SW., Room, CY-B402, Washington, DC 20554. The full text may also be downloaded at: <http://www.fcc.gov>. Alternate formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365.

Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments on or before July 28, 2004, and reply comments on or before August 27, 2004. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121, May 1, 1998. Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/e-file/ecfs.html>. Although this proceeding is captioned under multiple dockets, only one copy of an electronic submission, captioned to ET Docket No. 04-151, should be filed. In completing the transmittal screen, commenters should include their full name, U.S. Postal Service mailing address, and the applicable docket or rulemaking number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, commenters should send an e-mail to ecfs@fcc.gov, and should include the following words in the body of the message, "get form <your e-mail address>." A sample form and directions will be sent in reply. Parties who choose to file by paper must file an original and four copies of each filing.

All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission. Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although we continue to experience delays in receiving U.S. Postal Service mail). The Commission's contractor, Natek, Inc., will receive hand-delivered or messenger-delivered paper filings for the Commission's Secretary at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002. The filing hours at this location are 8 a.m. to 7 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes must be disposed of before entering the building. Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743. U.S. Postal Service first-class mail, Express mail, and Priority Mail should be addressed to 445 12th Street, SW., Washington, DC 20554.

Summary of Notice of Proposed Rulemaking

1. In the Notice of Proposed Rulemaking (NPRM), the Commission proposed to amend its rules to maximize the efficient use of the 3650-

3700 MHz band ("3650 MHz band") and foster the introduction of new and advanced services. In broad terms, the central proposal of this NPRM would allow unlicensed devices to operate in either all, or portions of, this radiofrequency (RF) band under flexible technical limitations with smart/cognitive features that should prevent interference to licensed satellite services. Specifically, we propose to allow these devices to operate with higher power than currently authorized under part 15 of the rules subject to cognitive technology safeguards. In order to foster the development of the unlicensed use that was proposed in the NPRM, we seek comment on whether to restore a uniform primary allocation for all Fixed Satellite Service (FSS) earth stations in the band regardless of the date the earth stations were authorized, and whether to delete the existing co-primary allocations for the Fixed Service (FS) and Mobile Service (MS) in this band. We also seek comment on other options that could also allow for the provision of licensed terrestrial service in this band. On a related matter, we defer action on the petitions for reconsideration of the *First Report and Order* (3650 MHz Allocation Report & Order) in ET Docket No. 98-237, 65 FR 69451, November 11, 2000, that challenge the Commission's previous allocation decisions in the 3650-3700 MHz band pending adoption of final rules regarding the allocation changes proposed in this proceeding.

2. We tentatively conclude that permitting unlicensed operation in the 3650 MHz band would foster the introduction of new and advanced services to the American public, especially in rural areas, and will result in a more efficient use of spectrum. This band appears particularly well suited to respond to the needs expressed by the growing number of entrepreneurial wireless internet service providers (WISPs) who are today bringing broadband services to consumers in rural areas of the United States who have many fewer choices for such services than consumers in more populated areas. WISPs have been asking the Commission for additional spectrum for unlicensed uses to provide both backhaul service and broadband service to their customers. Among the various alternatives we are considering, this spectrum is particularly promising in part because the incumbents—FSS earth stations that are limited to international intercontinental traffic—are concentrated primarily on the coasts, leaving available the rural areas targeted by these providers. In addition,

unlicensed use in this band would complement existing unlicensed operations in the 2.4 GHz band and new operations in the 5 GHz band by enabling the proposals should provide substantial opportunities for future, high-power, unlicensed devices and achieve efficient use of this 50 megahertz block of spectrum. As a result, these proposals should facilitate the rapid deployment of advanced telecommunications services and technologies to all Americans, especially in rural areas of the United States, thus promoting the objectives of Section 706 of the Telecommunications Act of 1996.

3. In addition, in order to ensure that we can consider other possible approaches to achieve our goals for this 50 megahertz block of spectrum, we also are seeking comment here on alternative options that could potentially provide a combination of unlicensed and licensed terrestrial services in this band. For example, we could include both FSS and FS licensed operations sharing the band while still allowing for unlicensed devices in the band, or split the band to allow separate spectrum for unlicensed and terrestrial licensed use, all in conjunction with FSS operations. Ultimately, our goal is to maximize the efficient use of this band and foster the introduction of new and advanced services.

4. We believe that the 3650 MHz band is well-suited for the provision of new and advanced services to the American public, particularly in rural areas. Because incumbent FSS earth stations do not exist in much of the continental United States, this band appears particularly well suited to satisfy the demands of existing service providers using unlicensed devices for spectrum with which to enhance service to rural areas through high power unlicensed operation. Furthermore, as we observed in the *Unlicensed Spectrum NOI*, 68 FR 2730, January 21, 2003, the rules for unlicensed operation of RF devices have been very successful in providing consumers and businesses with a wide variety of additional choices to obtain and use information. Today, for example, a growing number of WISPs are emerging with the intention of providing an alternative to DSL and cable for high-speed connections into the home or office. The use of unlicensed RF devices appears to have proven to be ideally suited to bridge the gap, especially in rural areas, where cable or DSL services have been slow to arrive. Small entities with limited resources have stepped in to provide such service in areas that other service providers have not prioritized. In

numerous fora, these providers have expressed a desire for additional spectrum that could be used on an unlicensed basis, especially on a higher-power basis. These providers have stated that existing spectrum available for unlicensed operation is not adequate to accommodate Wireless Metropolitan Area Networks (MANs) or broadband access in all rural areas. In short, we see that there is a growing demand for higher-powered unlicensed devices operating at lower frequencies where the combination of propagation characteristics and higher power are more conducive to longer-range communications.

5. Consequently, we tentatively conclude that allowing unlicensed operations in the 3650–3700 MHz band would hold great promise for addressing those needs. This contiguous 50 megahertz block of spectrum is sufficiently wide to permit wide bandwidth applications such as high-speed data transmissions which, for example, could serve to better encourage its use for Internet service or backhaul by WISPs due to the relatively low entry barriers posed by unlicensed operation as compared with licensed operations. Also, the 3650–3700 MHz band could be used to enhance the utility of existing unlicensed operations by creating the potential for additional synergies. This band is situated between the 2.4 GHz (2400–2483.5 MHz) and 5.8 GHz (5.15–5.825 GHz) bands which are commonly used on an unlicensed basis. In addition, our proposals here would appear to facilitate the development and deployment of devices and systems capable of identifying and using the optimal band at any given time, such as under the newly adopted IEEE 802.16a (“WiMax”) standard. We envision multi-band systems which can analyze the operating environment and automatically select from the 2.4 GHz, 3650 MHz, or 5.8 GHz bands. Systems of this type would be able to more effectively support applications such as broadband connectivity, distance learning, and telemedicine in many rural or underserved communities as well as on Native American Tribal lands.

6. While our central proposal is for the use of unlicensed devices with cognitive radio techniques, we also wish to ensure that we can consider other possible approaches to achieve our goals; and thus we are seeking comment on various options that involve the use of licensed terrestrial services, such as those that may operate with lower power levels than those normally associated with licensed use. Specifically, we seek comments on

various technical and operational issues associated with such options, and seek comment on whether some portion of the 3650 MHz band should be designated for licensed terrestrial use.

Allocation Issues

7. In broad terms, we believe that widespread use of the unlicensed devices proposed in the NPRM could be more readily encouraged if such devices were to coexist with only FSS operations in the 3650 MHz band. We reach this tentative conclusion because, the current FSS allocation, which is limited to international intercontinental operations, results in earth stations being sited primarily on the east and west coasts, thus leaving much of the continental United States available for other uses. Moreover, we believe that even a moderate presence of potentially ubiquitous terrestrial services under a licensed allocation could hamper or preclude the operation of unlicensed devices in large geographic areas—including, especially, rural America where the need is greatest. Therefore, our initial proposal to allow unlicensed operation in either all, or portions of, the 3650 MHz band would also entail retention of an FSS allocation that is limited to international intercontinental use, and the deletion of the existing terrestrial FS/MS allocations in any portions of the band in which unlicensed operation would be allowed.

8. Of course, if we ultimately adopt an alternative approach that authorizes licensed terrestrial services in the 3650 MHz band, we would reflect that by adopting or maintaining a terrestrial allocation enabling that approach. In our discussion of licensed alternatives, we also discussed whether to modify the relative protection status of future FSS earth stations if we retain a FS and MS allocation. We seek comment on what allocation changes would maximize efficient use of this spectrum.

FSS Allocation

9. In the *3650 MHz Allocation Order*, the Commission determined to grandfather existing FSS earth station operations on a primary basis and to permit new FSS earth station operations on a secondary basis. The Commission reasoned that allowing new FSS earth station operations on an unrestrained co-primary basis would impede any potential widespread use of the band for terrestrial services. Due to the weak signals that are received in the FSS, it was determined that coordination with the high-powered terrestrial operations would result in potentially large geographic areas where terrestrial services could not operate to avoid

interference to FSS. The Commission stated that the size and shape of these “exclusion zones” could be different for each FSS earth station site because of factors associated with shielding, antenna orientation and terrain elevation. The Commission found that these coordination requirements and the presence of exclusion zones would significantly increase transaction costs and create a disincentive for deployment of new terrestrial operations. Thus, the Commission found that unrestrained deployment of FSS earth stations could hinder or greatly inhibit the opportunities for terrestrial operations in the band.

10. Since the decision to allow new FSS earth station operations in the 3650 MHz band only on a secondary basis, significant strides have been made in the area of smart/cognitive radio technologies. By using these features, we seek comment on whether we should revise the 3650 MHz band’s existing allocations to permit new FSS operations in the band on a co-primary basis with unlicensed devices. Note that the scope of this NPRM does not contemplate any changes to the FSS earth station operations grandfathered indefinitely on a primary basis in the band pursuant to the *3650 MHz Allocation Order*.

11. While we seek comment on the possibility of permitting new FSS operations in the band on a primary or co-primary basis, we propose to retain the application of footnote US245 to the Table of Frequency Allocations. This footnote restricts FSS use of the 3650 MHz band to international intercontinental operations. Although deletion of the footnote could provide more flexibility for FSS operations in the band, we also believe that more extensive FSS use could curtail the efficient use of this band by terrestrial operations, whether licensed or unlicensed; and, potentially, increase the costs associated with coordinating other co-primary users of the band, thus inhibiting opportunities for such operation. In contrast, retaining the application of footnote US245 would make this band particularly attractive for intensive use by a wide array of advanced wireless technologies including higher-powered unlicensed devices. We seek comment on our proposal to retain footnote US245. Alternatively, we seek comment on whether we should recast footnote U.S. 245 as a new footnote particularly for the 3650 MHz band (e.g., as footnote NGxxx), without the requirement for case-by-case electromagnetic compatibility analysis.

12. Four parties representing FSS interests filed Petitions for Reconsideration of the decisions made in the *3650 MHz Allocation Order*. In addition, an Emergency Motion for Stay was filed. In broad terms, these petitioners request that we reverse the Commission's decision to make future FSS operations secondary in the 3650 MHz band. If we revise the 3650 MHz band's allocations to include primary or co-primary status for new FSS operations, this decision would substantially effect the disposition of those petitions. Accordingly, we defer further action on the Petitions for Reconsideration and the Emergency Motion for Stay of the *3650 MHz Allocation Order* pending our adoption of final rules concerning the allocation proposals in the NPRM.

Fixed Service and Mobile Service Allocations

13. The 3650 MHz band's current primary allocation provides for Fixed and Mobile (base station only) operations. While the range of licensed services that might be implemented under such an allocation could be limited, we believe that, with some modification to the allocation, the band could accommodate various new and advanced licensed services, including the services that could be provided by unlicensed devices.

14. If we adopt our proposal for unlicensed use in any portion of the 3650 MHz band, we propose to delete the FS and MS allocations for the portion designated for unlicensed use. We believe that the provision of ubiquitous licensed terrestrial services, in addition to FSS operations, would hinder the successful deployment of unlicensed devices in many areas. One alternative approach could involve segmenting the 3650 MHz band into one portion that would allow only unlicensed and FSS operations, and another portion that would allow only licensed and FSS operations.

15. We seek comment on whether the 3650 MHz band's current Fixed and Mobile (base station only) allocations should be maintained, modified or deleted. In particular, we seek comment on whether there is any need or interest for licensed terrestrial services.

Proposals for Part 15 Unlicensed Operations

16. The 3650–3700 MHz band can be used to enhance the utility of existing unlicensed operations. As we stated above and in the Unlicensed Spectrum NOI, the distribution of incumbent FSS earth stations—primarily along the east and west coasts—makes this band

particularly suitable for high power unlicensed operation especially in rural areas. Furthermore, since this band is situated between the 2.4 GHz (2400–2483.5 MHz) and 5.8 GHz (5.15–5.135 GHz and 5.47–5.825 GHz) bands which are commonly used on an unlicensed basis, allowing unlicensed operation in some, or all, of the 3650 MHz band could add flexibility to current service offerings in all three bands.

17. We propose two general approaches for enabling both fixed and non-fixed unlicensed devices to operate while protecting FSS earth stations and Federal Government operations in the 3650 MHz band. The first approach, which would apply to fixed unlicensed devices, requires professional installation of each device to ensure that certain criteria are met so that operation at a particular location and power would not result in interference to any FSS earth station. The second approach, which would apply to non-fixed unlicensed devices, requires such devices to be capable of automatically adjusting the EIRP based upon detection of the presence and strength of RF transmissions from operating FSS earth stations. In practice, this latter approach would employ methods similar in nature to dynamic frequency selection (DFS) techniques used in other bands. In addition, we propose that both fixed and non-fixed unlicensed devices be required to transmit a device identification signal to facilitate determining the source of any interference that might be caused by the operation of these devices. Finally, part 15 of the Commission's rules governs the operation of unlicensed radiofrequency devices. Therefore, as a general condition of operation, the unlicensed devices proposed herein may not cause harmful interference to authorized radio services and must accept any interference that they receive.

18. We seek comment on whether both fixed and non-fixed unlicensed devices should be permitted to operate in either all, or portions of, this band. Commenters should discuss all the benefits and costs associated with using all, or portions of, the 3650 MHz band for such unlicensed use.

Fixed Unlicensed Operation

19. Because the location of an operating fixed unlicensed device does not change, the development of criteria for ensuring that FSS operations are protected from interference is greatly simplified. In particular, once an appropriate location and operating parameters are chosen for a fixed device (*i.e.*, those where its operation will not

cause harmful interference to an FSS station), both the unlicensed device and the FSS should be able to operate without mutual adverse effect.

20. *Professional Installation.* To ensure that fixed unlicensed devices are established and operated in a manner that will avoid causing interference to FSS earth stations, we propose to require that such devices be installed by a professional. The professional installer would be held responsible to account for the presence of all FSS earth stations and Federal Government operations in the vicinity of the unlicensed device. Using appropriate knowledge of each earth station's location and other relevant technical characteristics, the professional installer would be required to ensure that the installation and operational characteristics of the fixed unlicensed device complies with the following criteria.

21. We expect that a primary use for fixed unlicensed devices in this band would be to provide wireless broadband connectivity by WISPs in rural areas. Therefore, we propose to allow fixed unlicensed devices to operate in the 3650–3700 MHz band with a maximum EIRP of 25 Watts (14 dBW) in order to increase effective range. This EIRP should be beneficial—particularly in rural areas—because, compared to current Part 15 limits, an EIRP of 25 Watts would more than double the signal range of an unlicensed device. We further believe that omnidirectional antennas would typically be employed for this purpose in order to achieve the most uniform coverage of a particular geographic area. To promote flexibility in system design, we propose to permit any combination of transmitter output power/antenna gain, so long as the 25 Watt EIRP limit is not exceeded. Because interference potential is directly related to a device's EIRP, specifying this parameter rather than separate output power and antenna gain limits would more directly reflect the potential for interference in the band. We seek comment on our proposal to set a maximum EIRP of 25 Watts (14 dBW) for unlicensed RF devices in the 3650–3700 MHz band. Commenters who believe that it would be beneficial to specify other limits, such as transmitter output power and antenna gain, should provide details regarding the benefits or costs of such an approach as compared to our proposal. We also seek comment on our proposed equipment authorization requirements, recognizing the fixed and non-fixed equipment would likely need to be authorized separately because of the different rule requirements.

22. *Antennas.* In ET Docket No. 03-201, 68 FR 68823, December 10, 2003, we noted that sectorized and phased array antennas could be used to create highly spectrum efficient networks by forming dynamic communication links with mobile or fixed devices in any direction around an antenna structure. This could enable an application like a broadband local area network to serve a number of spatially separated clients from a single fixed antenna site. Such antennas allow systems to use spectrum more efficiently by making it possible to re-use a given frequency to communicate with different devices along non-overlapping paths. We seek to encourage both new and novel antenna technologies that would foster more intensive spectrum use. Therefore, we do not believe that fixed unlicensed devices should be prohibited from using any particular type of antenna. However, we propose that devices using sectorized, scanning spot-beam, or other antenna types with multiple beam capabilities be required to limit the EIRP in any direction to no more than 25 Watts. We seek comment on how compliance with this requirement could be determined.

23. *FSS Protection Zones.* FSS earth stations in the 3650-3700 MHz band use high gain antennas that are very susceptible to interference from undesired signals directed toward the main beam. As a result, operation of a fixed unlicensed device located within the earth station's main beam, even with relatively low EIRP, could cause interference at large distances. Conversely, an unlicensed device located outside the earth station's main beam could operate with relatively higher power and at closer separation distances without causing interference.

24. It would be possible, using various propagation models, to develop a continuum of permissible EIRPs as a function of both the unlicensed device's azimuth with respect to the main beam of the FSS earth station, and the separation distance between the two. However, we believe that another approach could provide a greater safeguard for protecting FSS earth stations, while simultaneously reducing and simplifying the burden on professional installers to comply with the standards proposed herein. In short, we propose to define protection zones around each FSS earth station; within which, operation of a fixed unlicensed device would be prohibited. Specifically, we propose that installation of a fixed unlicensed device be prohibited within a plus-or-minus 15 degree arc of any earth station's main antenna beam if the separation distance

between the fixed device and the earth station is within 180 km. At azimuths outside this main beam protection arc, a fixed unlicensed device would be prohibited if the separation distance from the earth station is within 25 km. At all other locations outside these zones, we propose that fixed unlicensed devices could be installed and be permitted to transmit with a total maximum EIRP of 25 Watts. Based upon standard propagation models, we tentatively conclude that these criteria should afford FSS earth stations more than adequate protection from interference. We seek comment on this conclusion and invite comment on whether other distance versus azimuth criteria would be more appropriate.

25. The separation distance proposed for unlicensed fixed operations, *i.e.*, 180 km within 15 degrees of the FSS antenna main-beam azimuth and 25 km otherwise, is a conservative approach derived from the coordination zone that the Commission previously proposed as appropriate for much higher powered licensed fixed operations to protect FSS earth stations in the 3650 MHz band. In the 3650 MHz Second NPRM, the Commission tentatively concluded that within 200 kilometers of a FSS site it would be necessary for a licensed fixed operation to coordinate with the FSS operation. Outside of this coordination zone, the licensed operation would not need to coordinate and could operate with up to 1640 Watts EIRP. The 200 kilometer licensed coordination zone was based on line of sight protection to FSS earth stations and took into account elevation angle, and terrain shielding and over the horizon distances from the FSS earth station sites. By way of comparison, the 180 kilometer separation distance, or exclusion zone, we are proposing herein is 20 kilometers less than the 200 kilometer coordination zone proposed for licensed fixed point-to-point stations in the *3650 MHz Service Rules Second NPRM*. However, the EIRP of the proposed unlicensed devices will be on the order of 18 dB lower than that proposed earlier for licensed fixed point-to-point facilities. Accordingly, we believe that the reduced separation distance of 180 kilometers within 15 degrees of the main beam is appropriate. Outside of the main beam, the required separation distance (or exclusion zone) of 25 kilometers assumes that a noise-to-interference ratio of 10 dB is acceptable to the FSS operators and that the ITU-R large FSS antenna roll-off gain pattern is appropriate. We believe that these separation distances within which unlicensed fixed devices will not be

allowed to operate, in conjunction with the requirement for professional installation will ensure that these fixed devices will not interfere with FSS earth stations. We invite comment on whether the assumptions used are sufficient to provide appropriate protection to the FSS earth stations.

Non-Fixed Unlicensed Operation

26. With respect to non-fixed operation by unlicensed devices, the challenge of protecting FSS is more complex because a non-fixed device would not be limited to a single location, but may move around from one site to another. We believe that the FSS earth stations can be afforded adequate interference protection from non-fixed unlicensed devices.

27. *Power Limits.* As an initial matter, we propose lower power limits for non-fixed unlicensed devices than the limits proposed above for fixed unlicensed devices. We envision that non-fixed devices operating in the 3650 MHz band will be used in similar fashion to non-fixed unlicensed devices used in the 2.4 GHz and 5.8 GHz bands. Operations in the 2.4 GHz band are limited to a maximum power of 1 Watt. Power levels for devices operating in the 5.8 GHz band range from 50 milliwatts (1 Watt EIRP) for devices in the 5.15-5.25 GHz sub-band to 1 Watt (4 Watts EIRP) for devices in the 5.725-5.825 GHz sub-band. In order to protect the FSS and Federal Government operations in the 3650 MHz band, we propose that non-fixed unlicensed devices in the 3650-3700 MHz band be limited to a peak EIRP of 1 Watt. We note that handheld unlicensed devices in the 2.4 GHz and 5.8 GHz bands normally operate well below the maximum of 1 Watt due to battery power limitations and human exposure to RF radiation limitations. Therefore, we find that this proposed limit for the 3650 MHz band should allow for most types of unlicensed use while, along with the other limitations discussed in paragraphs 51 through 54 of the NPRM, protect FSS and Federal Government operations. We seek comment on this proposal.

28. *Listen-before-talk, Power Adjustment Capability.* In order to protect FSS earth stations from non-fixed unlicensed devices, we propose that non-fixed devices be required to employ a DFS-like, listen-before-talk mechanism. In operation, this mechanism would automatically adjust the EIRP of the device based upon the received strength of an FSS uplink signal which is transmitted (in another frequency band) by the same earth station antenna being protected. Detection of a stronger FSS signal by the

unlicensed device would indicate relatively closer proximity to an earth station, thus requiring the unlicensed device to operate with lower power; while a weaker received signal would, conversely, indicate that a higher device power could be used. We believe that this approach is desirable in its simplicity because it does not require an unlicensed device to independently determine any other information; such as, the separation from, or its azimuth with respect to the main beam of, an FSS earth station.

29. The Commission tentatively conclude that existing uplink transmissions from FSS earth stations in other bands could be used for this purpose. We reach this conclusion because the FSS stations that we seek to protect—whose operations in the 3650–3700 MHz band are used for downlink purposes—are also used for uplink (earth-to-space transmit) communications in the 5.85–5.925 GHz and 6.425–6.723 GHz bands. Therefore, we propose to require that unlicensed devices be designed with the ability to listen for an FSS uplink signal in these other bands in order to enable automatic EIRP adjustment. We further propose that, if the non-fixed device detects an uplink signal above a minimum power-switching detection threshold of -76 dBm referenced to a 1-megahertz bandwidth (thus indicating close proximity to an earth station), then the non-fixed device would be prohibited from transmitting. For received uplink signals from -76 dBm to -79 dBm, the device would be limited to a maximum EIRP of 250 mW. For received uplink signals between -79 dBm and -82 dBm, the non-fixed device could operate at an EIRP of up to 500 mW. Finally, for received uplink signals at levels of -82 dBm or less, the non-fixed unlicensed devices would be permitted to operate at 1 Watt, provided such operation complies with applicable human exposure limits. We propose to define the power-switching detection threshold as the received signal strength (RSS) in dBm (or some other metric of received signal format), referenced to the output of a 0 dBi receive antenna. These power limits are captured in proposed § 215.252(c)(2) in Appendix A.

30. The received power levels are based upon a number of technical assumptions including that the maximum allowed EIRP of the unlicensed device would be uniformly spread over a 50 megahertz bandwidth. All of our assumptions are delineated in Appendix C of the NPRM. We seek comment on this approach and invite comment on whether the assumptions

used in developing these power levels are appropriate for providing protection to the FSS earth stations. For example, if the maximum allowed EIRP was assumed to be spread over less than a 50 megahertz bandwidth, how would such an assumption affect the tentative results we have obtained? We invite comment on the appropriateness and practicality of implementing this approach for non-fixed unlicensed devices.

31. With respect to the receive bandwidth of the unlicensed device, we believe that no bandwidth correction factor would be required if the receive bandwidth of the non-fixed device is greater than 1 MHz. However, if the RSS is to be measured correctly by a non-fixed device having a receive bandwidth less than 1 MHz, then we propose that a bandwidth correction factor be taken into account. We seek comment on whether $10 \cdot \log(BW/1\text{MHz})$ (where BW is the non-fixed device's bandwidth) should be used as the appropriate correction factor for non-fixed devices that have a bandwidth less than 1 MHz. Finally, we seek comment on what equipment authorization procedures should be required to verify compliance with these proposals. This proposal is most easily implemented if satellite uplinks in readily identified bands are operational at times where the FSS earth station is also in receive mode. We recognize that there may be no correlation between the transmit and receive frequencies of the earth stations and that some earth stations may be operating in a receive-only mode. We seek comment on the extent to which this scenario may exist, and possible approaches to apply in those cases.

32. For systems, where multiple devices operate under a central controller, we propose that only the central controller be required to have the capability just described to detect the power-switching threshold and to convey appropriate commands to all devices under its control. We recognize that there may be devices or architectures developed, whereby remote devices are not under the control of a master device. We seek comment on requiring such devices to have power-switching threshold detection capability. We also invite comment on how to identify remote units that operate only under the control of a central controller. If a device is to operate under the control of a central controller we invite comment on the maximum distance the unlicensed device should be allowed to be separated from the central controller and how to ensure that the remote

device ceases transmissions when it exceed this maximum distance.

Issues Applicable to Fixed and Non-Fixed Operations

33. *Federal Government Facilities.* We seek comment on whether the methods described for both fixed and non-fixed unlicensed devices would provide an effective means of protecting the three Federal Government radiolocation stations that operate in the 3650–3700 MHz on a primary basis. These stations, located at St. Inigoes, MD, Pascagoula, MS, and Pensacola, FL, were grandfathered as a condition of the transfer of the 3650 MHz band to a mixed-use status. The rules require that FS and FSS stations located within 80 kilometers of each site coordinate with the Federal Government, but there is no coordination requirement for unlicensed devices. We observe that an unlicensed device could be designed to listen for transmissions from these facilities and to activate the capabilities of the device to modify its operations.

34. *Operation in Proximity to U.S. Borders.* To provide sufficient protection to Canadian and Mexican stations operating in the 3650–3700 MHz band that are located near the U.S. borders, we propose to require that fixed devices be located at least 8 kilometers from the U.S./Canada or U.S./Mexico border if the antenna of the device looks within the 160° sector away from the border and be located at least 56 kilometers from each border if the device looks within the 200° sector towards the border. This proposal is consistent with the treatment of licensed fixed stations in bands above 470 MHz along the U.S./Canada border. In addition, we point out that, even under these guidelines, operators of unlicensed devices may need to further reduce their power to protect FSS earth stations in Canada or Mexico. We believe that treating devices along the border in this manner would strike a balance between providing sufficient flexibility for unlicensed operations and the need to protect foreign stations. We seek comment on this proposal. We also invite suggestions for alternative approaches for treating unlicensed devices in the 3650–3700 MHz band along the U.S. borders.

35. We tentatively conclude that no additional requirements are needed for non-fixed unlicensed devices to protect FSS earth stations that may be located in Mexico or Canada. The listen-before-talk, automatic power adjustment mechanism we have proposed for these devices should be sufficient to ensure that no Canadian or Mexican FSS earth stations licensed pursuant to the current

regulations will encounter interference. However, we seek comment on whether any special circumstances exist that might require non-fixed devices to incorporate other mechanisms to protect foreign FSS installations.

36. Removal of Restriction on Unlicensed Operation in the 3650–3700 MHz band. Unlicensed devices are currently restricted from operating in the 3650–3700 MHz band. Consequently, unlicensed devices are limited to only spurious emissions in this band. Historically, restricted bands were established to protect sensitive Federal Government and Non-Federal Government operations, such as radio-astronomy, which rely on reception of extremely weak signals. However, as noted, the change in the allocation status of the 3650 MHz band from shared to mixed use provides an opportunity to reexamine that prohibition in this band. Because the proposed allocation changes set forth in the NPRM would limit licensed use of the 3650–3700 MHz band to relatively few FSS and Federal Government users and because no new Federal Government operations will be assigned in this band, we no longer believe that this band needs to remain restricted. In its comments, SIA states that it is opposed to permitting unlicensed devices to operate in the 3650–3700 MHz band regardless of power level. It takes this position for several reasons, including lack of technical parameters for unlicensed devices and lack of knowledge of the potential number of unlicensed devices and their geographic orientation to FSS earth stations. We are not persuaded by SIA's argument because, as explained, it is feasible to develop operating rules for unlicensed devices in a manner that should address the in-band interference concerns raised by SIA. Accordingly, in order to accommodate new unlicensed use, we propose to revise § 15.205(a) by removing the restricted designation from the 3650–3700 MHz portion of the currently restricted 3600–4400 MHz band.

37. Adjacent Band Emissions. In proposing to remove the restricted status of the 3650–3700 MHz band, we also recognize that it would be adjacent to frequency bands that will continue to be restricted. Therefore, in order to maintain the same degree of protection for adjacent band licensed operations that currently exist under the rules, we propose to require that new unlicensed operations in the 3650 MHz band limit emissions into the adjacent 3600–3650 MHz and 3700–4400 MHz bands to spurious emissions only (*i.e.*, emissions with a maximum field strength of 500

microvolts/meter measured at 3 meters). A similar situation currently exists in the 2400–2483.5 MHz band which lies between the restricted bands 2310–2390 MHz below and 2483.5–2500 MHz above. Using spectrum-efficient system design and filtering, however, unlicensed devices are nevertheless capable of operating in this band at higher power levels than all other unlicensed devices. In a similar fashion, we believe that transmitters can be designed for the 3650–3700 MHz band with sufficient filtering at the band edges to satisfy the emission limits in our rules. We seek comment on this proposal to limit emissions in the adjacent restricted bands.

38. Device Identification Signaling. While we believe that the technical requirements proposed above for fixed and non-fixed unlicensed devices should be more than adequate to avoid interference to FSS earth stations in the first instance, we must also guard against any unforeseen instances when interference might nevertheless occur (*e.g.*, when a new FSS earth station is installed, or when an existing earth station relocates). As an initial matter, we again emphasize that, pursuant to § 15.5 of the rules, unlicensed devices are required to cease operation if found to be causing interference to any licensed service. In the event that interference might be caused, it could be difficult for the operator of a licensed station to identify and locate an unlicensed device that may be causing interference. Therefore, as a means of facilitating this identification, we propose to require all unlicensed devices to broadcast identification information at regular intervals.

39. At a minimum, the transmitted data should consist of the contact information of the owner/operator of the device. In addition, information about the location of a fixed device could be included. Will this information be useful to FSS licensees? Commenters advocating an identification requirement should also provide detail regarding how often the identification signaling should be done and what other information would be useful. Would information such as the FCC ID number and transmitter serial number be helpful? We also seek comment on the need for, and effective methods to update the contact information when an unlicensed non-fixed device is sold or otherwise transferred to a new owner/operator after the initial sale of the device.

40. We seek to ensure that any identification information embedded within the transmission of an unlicensed device can be easily

extracted. Therefore, we seek comment on whether it is necessary to define an identification channel in which to place the data. Initially we propose to require the identification information to be confined to the 1 MHz portion of the band between 3650 MHz–3651 MHz segment of the band. We note that the proposed band segment for the identification lies adjacent to the newly re-designated 3600–3650 MHz restricted band. We reiterate that only spurious emissions are permitted in the restricted bands. Will unlicensed devices be able to effectively use the 3650–3651 MHz segment for identification purposes without transmitting unauthorized energy into the restricted band? Alternatively, the identification information can be transmitted as data packets interspersed among the unlicensed device communication data. Will FSS licensees be able to make use of such information and how often should it be transmitted? Finally, regardless of the method used to embed the identification data, we seek comment on whether there is a need to specify a modulation scheme and standardized data format so that the information may be successfully decoded.

Other Methodologies for Protecting FSS Earth Stations

41. Finally, although we believe that the technical approach could be an effective approach for fostering efficient use of the 3650–3700 MHz band by unlicensed devices, we seek comment on two other specific approaches, as well as on other approaches commenters may propose. Either of these approaches could be required, if we ultimately decide that our proposed approach is not practical, or potentially could be alternatives available to manufacturers of unlicensed devices for protecting FSS earth stations.

42. Geo-location Option. A first alternative approach for protecting FSS earth stations in the 3650–3700 MHz band would be to use cognitive/smart unlicensed devices that know their current location and the location of nearby earth stations. We sought comment on that approach in the *Unlicensed NOI*, and a number of parties supported that approach. This approach would be based on a determination of reasonable distance separation standards for the operation of low-power non-fixed unlicensed devices in this band. For example, using known protection criteria for an FSS earth station, an unlicensed device could adjust its power based on its location relative to nearby FSS earth stations.

43. This technical approach appears to be feasible. For example, IEEE 802.18 states that embedding GPS in unlicensed devices is technically feasible and could be used to limit the device so that it does not transmit when located in an area where interference to a satellite receive earth station is likely. We also recently noted that one of the benefits of cognitive radio would be the ability to determine its location and the location of other transmitters, and then select the appropriate operating parameters such as the power and frequency allowed at its location.

44. One of the requirements of this approach is that we specify distance separations for protecting FSS earth stations. In its comments on the *Unlicensed NOI*, SIA submits a technical annex proposing calculated exclusion zones where unlicensed devices would not be able to operate. It argues that its analysis indicates a worst case exclusion zone of 416 km is needed for a 1 Watt EIRP unlicensed device to protect a satellite earth station. We find that SIA's methodology, while clearly deriving distances that would protect FSS earth stations, is overly conservative for the 1-Watt devices we are considering here. We also believe that the current guidelines in our rules for identifying when coordination is necessary are overly conservative for purposes of the *NPRM*. For instance, in comments filed in the *3650 MHz Service Rules Second NPRM*, Comsearch stated that it has been able to coordinate stations at distances much less than otherwise thought necessary, and that in certain cases, earth stations have actually been located near the base of fixed service sites in the same band.

45. We therefore seek comment on alternative methods for determining more accurate minimum separation distances for these low EIRP levels. Under the simplest approach, an unlicensed device need only estimate its distance from the earth station. While overprotecting the earth station when a device is behind the station's main lobe, it still would appear to allow operation over significant geographic areas of the United States. If a device could also estimate its orientation relative to the main lobe of the FSS antenna, we might reasonably determine lower distance separation requirements when a device is offset from the main lobe, thus granting additional operational flexibility in terms of geographic areas, but at the cost of added complexity. Ultimately, if there are no better methodologies for determining distance separation than those currently in the record, we could permit those approaches even though, compared with

our preferred technical method, we believe that they overprotect FSS earth stations and thus needlessly limit the operational flexibility of unlicensed devices in this band.

46. Unlicensed devices would need to protect not only existing FSS earth stations, but also any future earth stations in the 3650–3700 MHz band. Thus, devices relying on geo-location must have a means to identify new FSS earth station locations, which should not occur very frequently. We seek comment regarding methods by which an unlicensed device would access a database of earth station sites and by which an updated database would be maintained. In addition, we seek comment on how often devices would need to update their databases in order to continue to be able to operate, as well as on the type of information that could or should be made available.

47. We also note that it could be possible for an unlicensed device to lose contact with its geo-location reference signals under various circumstances. We seek comment on the protocols that should be followed when an unlicensed device using the geo-location option loses its location detecting capability, such as the period of time that the device could continue to operate before ceasing to transmit. It would appear to make sense to treat an unlicensed device 500 km away from the nearest earth when it lost its geo-location differently from one, for example, only 75 km away.

48. Finally, we seek comment on whether a geo-location approach would be an effective means of protecting the three Federal Government radiolocation stations that operate in the 3659–3700 MHz band on a primary basis, as well as earth stations located in Canada and Mexico. As previously noted, the rules require that FS and FSS stations located within 80 kilometers of each site coordinate with the Federal Government. The locations of Canadian and Mexican earth stations presumably can be made readily available for use with a geo-location approach. Using the techniques described above, it would appear to be possible for unlicensed devices to maintain appropriate separation distances.

49. *Dedicated RF beacon signal.* We also seek comment, although we see various difficulties spelled out, on whether an unlicensed device could make use of dedicated RF beacon signals emanating either directly from an FSS earth station or from another transmitter located in close proximity to an FSS earth station. Under this approach, unlicensed devices would be designed with cognitive capabilities to

detect the absence, presence, or relative strength of the FSS pilot beacon at the location of the unlicensed device and make decisions about whether to transmit or what power levels would be appropriate to protect licensed FSS earth stations. In its simplest form, transmission by the unlicensed device would be enabled at permitted power levels only if no pilot beacon were detected. With a more sophisticated capability, an unlicensed device could detect not only the presence of a pilot beacon, but also the relative strength of the received pilot beacon or information in the data stream of the signal about the earth station's receive antenna type and/or orientation. A relatively weak, or absent, beacon signal would indicate that a higher EIRP could be used by the unlicensed device while, conversely, a relatively higher pilot beacon strength would require a corresponding reduction in EIRP.

50. This approach would appear to require adoption of various standardized technical requirements to ensure that unlicensed devices could readily detect a beacon signal. Our analysis does indicate that a separate pilot beacon EIRP of between 1.5 Watts and 26.5 Watts would be sufficient to ensure that non-fixed unlicensed devices would be able to receive the beacon under any foreseeable circumstances where interference to FSS earth station could be a concern. We also think that a standard beacon EIRP might have to be specified, perhaps as well as standard format or information content, so that every earth station would present the same reference beacon signal strength at a given distance. We seek comment on any necessary technical parameters.

51. We also seek comment on the important issue of a standardized frequency or frequencies for such beacon signals. Using a frequency within the 3650–3700 MHz band for a transmission emanating from a location at or close to an FSS earth station raises very significant technical questions about interference to FSS earth stations—especially because this band is in the middle of a broader satellite receive band. If not a frequency within this band, what other frequencies might potentially be available that could provide the needed functionality without causing interference to existing licensees? If no such frequencies are available, it is not clear how this approach could be implemented.

52. Also, especially compared with the previous two approaches, namely, professional installation of fixed devices and automatic EIRP adjustment for non-fixed unlicensed devices, this

methodology also raises questions about the costs and responsibilities for implementation. For example, with respect to responsibility for the operation of a beacon signal, it is not clear how the safeguard could be implemented by unlicensed device operators, so the burden would appear to fall on the FSS earth station licensee. The potentially significant costs raise questions about the equities of imposing them on existing licensees. There are also significant issues regarding whether and how those costs might be paid by unlicensed device operations.

53. To allow FSS earth stations operating in this band, or other entities, to implement a separate beacon, we might need to modify footnote US348 of the Table of Allocations to include a secondary radiolocation allocation for this purpose. We also seek comment on such modification as well as on any necessary modifications to part 25 of the Commission's rules if we take this approach. Finally, we seek comment on how, under this approach, we should protect the three Federal Government radiolocation stations that operate in the 3650–3700 MHz on a primary basis, as well as earth stations located in Canada or Mexico.

Options for Licensed Operations

54. In order to ensure that we can consider all possible approaches for achieving our goals of maximizing efficient use of the 3650 MHz band and the provision of new and advanced service, we are also seeking comment on whether spectrum in this band should be designated for licensed use. If we decide to permit licensed use of the band, we will have to adopt appropriate allocation, technical and operational rules to govern such operations. Initially, however, we seek comment on the types of licensed services that might be implemented in the band, what kinds of technologies could be utilized to develop these services, how quickly these services could be developed, and where in the country these services might be implemented. Commenters should also discuss any technical, legal or economic advantages and costs associated with these service options.

55. *Fixed Service and Mobile Service Allocations.* In addition to seeking comment on whether to maintain the band's current primary Fixed and Mobile allocations, we seek comment on whether to remove the mobile station restriction in the current Mobile allocation in this band. Since the Commission adopted the *3650 MHz Allocation Report & Order*, great strides have been made in the development of smart/cognitive radio features that

potentially could be used with licensed mobile handset operations to prevent interference with FSS operations. As a result, we seek comment on whether, if we adopt technical rules requiring use of smart/cognitive features, we should revise the existing Fixed and Mobile allocations to permit mobile stations to operate in the 3650 MHz band.

56. We also seek comment on whether we should modify the FSS allocation if we retain the FS and MS allocations in the band. In the *3650 MHz Allocation Report & Order*, the Commission found that spectrum sharing between licensed terrestrial services and FSS operations on an unrestrained co-primary basis would not be feasible. As a result, the Commission decided to grandfather existing FSS earth station operations on a primary basis and to allow new FSS earth station operations only on a secondary basis to any FS/MS terrestrial stations. We seek comment on whether the use of smart/cognitive technologies by licensed services would make it technically feasible for new FSS operations to coexist with FS/MS services. Assuming such uses of the spectrum are found to be technically feasible, we request comment on whether FSS could be co-primary with FS/MS and, if so, how this might be accomplished.

57. *Band Segmentation Between Licensed and Unlicensed Use and Band Pairing.* If we adopt an option that permits terrestrial licensed operations, one way of allowing licensed fixed and mobile services, higher-powered unlicensed devices, and FSS earth stations to each have access to the 3650 MHz band would be to segment the band. For example, one segmentation option could be to divide the band into two 15-megahertz segments and a 20-megahertz segment. The two 15-megahertz segments could be located at the bottom and the top of the band (*i.e.*, 3650–3665 MHz and 3685–3700 MHz), with the 20-megahertz segment situated in the middle of the band (*i.e.*, 3665–3685 MHz). Under this option, higher-powered unlicensed operations would be restricted to the two 15-megahertz segments and fixed and mobile licensed operations to the 20-megahertz segment, and FSS earth station operations would have access to the entire band on a co-primary or secondary basis with licensed fixed and mobile operations. Licensed fixed and mobile operations would only have to coordinate with FSS earth stations operating on co-channel spectrum, and, because unlicensed devices operate on a non-interference basis, any FSS earth station would be protected from interference potentially caused by unlicensed devices.

58. We seek comment on this segmentation option, as well as splits between unlicensed and licensed terrestrial users in other proportions. Another option, for instance, would be to establish a paired 20 megahertz allocation of 3650–3660 MHz and 3690–3700 MHz for licensed terrestrial services while retaining 30 megahertz in the 3660–3690 MHz portion of the band for unlicensed operation. In addressing different band segmentation scenarios, commenters should discuss whether such scenarios would provide sufficient bandwidth to enable broadband voice or data services—on both the licensed and unlicensed segments. Commenters should also discuss the types of licensed services that might be provided if the licensed spectrum in the band is unpaired, *e.g.*, TDD operations, and the amount of spectrum needed for such services.

59. Alternatively, we seek comment on whether spectrum at 3650–3700 MHz that is made available for licensed terrestrial operations could be paired with spectrum in other frequency bands, *e.g.*, in the 2 GHz to 4 GHz range, and if so, what kinds of services could be provided under this type of licensing scenario. We invite commenters to suggest possible band pairing options. Commenters should address whether, if the frequency bands suggested are relatively far from the 3650–3700 MHz band, it would be technically feasible to produce equipment (*e.g.*, handsets) that could operate on both spectrum bands.

60. *Power Limits.* If, under a licensing approach, we remove the current allocation restriction on the use of licensed mobile devices in the 3650 MHz band (*i.e.*, base station only), licensed and unlicensed operations in the band could take on similar operational characteristics. We thus could require that licensed devices operating in the 3650 MHz band employ the same power limits as proposed above for unlicensed devices. Specifically, we could require that licensed non-fixed devices operate at a maximum power level of 1 watt EIRP, and that licensed fixed devices operate at a maximum power level of 25 watts EIRP. By adopting the same power limit for licensed devices as proposed for unlicensed devices, we should not introduce any interference conditions, with respect to FSS operations, that would not be caused by unlicensed devices alone.

61. We also seek comment on allowing higher power limits for licensed fixed stations operating in 3650 MHz band to enable greater coverage areas and transmission distances for such stations. Along with greater power

levels, of course, comes the concern about increased potential interference to FSS earth stations operating both within and above the 3650–3700 MHz band. However, as discussed in the *3650 MHz Service Rules Second NPRM*, we could adopt coordination zones surrounding co-channel FSS stations, within which any terrestrial station operator would have to coordinate with the FSS licensee. Because the size of a coordination zone would be a function of the power level of the fixed station, protection of co-channel FSS stations by high-powered licensed fixed stations would be accomplished simply by requiring larger coordination zones for such stations. In the *3650 MHz Service Rules Second NPRM*, the Commission proposed a 1000-Watt EIRP limit for base and fixed stations. Such a power limit would create relatively large coordination zones, but would provide greater flexibility for licensees operating in the band. We therefore seek comment on the appropriate EIRP limit—e.g., 25 Watts, 1000 Watts—for licensed base and fixed stations operating in the 3650–3700 MHz band.

62. *Adjacent Band Emissions.* If we decide to permit licensed systems to operate in the 3650 MHz band, we would also have to decide how such systems would protect services operating in adjacent bands. In the *3650 MHz Service Rules Second NPRM*, we proposed that, in order to protect FSS operations in the 3700–4200 MHz band from interference, terrestrial stations operating in the 3650–3700 MHz band would have to comply with the part 101 emission limits already in place to protect such FSS systems from licensed fixed stations operating in the 3700–4200 MHz band. With our proposal to provide for unlicensed use of the 3650 MHz band, we seek updated comment on what interference criteria might be used to protect adjacent band services from licensed systems operating in the 3650 MHz band. For example, should we require that licensed non-fixed devices comply with the field strength limit described above for unlicensed devices; should we require that licensed fixed stations comply with a particular field strength limit or satisfy the adjacent band protection criteria proposed in the *3650 MHz Service Rules Second NPRM*?

63. *Protection of FSS Operations.* If we ultimately adopt a regulatory approach that permits licensed operations in this band, we believe that it would be appropriate to require that licensed devices employ the same measures to protect FSS operations as proposed above for unlicensed devices. We seek comment on whether these

measures (or any of the additional measures proposed above to enable unlicensed devices to protect FSS stations—e.g., the geo-location method, the RF beacon method) could or should be applied to licensed devices as a means of protecting Government radiolocation stations, non-Government FSS stations, and Canadian and Mexican stations operating near U.S. borders, or whether, for any reason, other measures (such as applying our present interservice coordination rules) might be more appropriate.

64. *Geographic Area Licensing.* If we ultimately decide to permit licensed operations in this band, we would need to adopt a licensing approach for such operations. In the *3650 MHz Service Rules Second NPRM*, the Commission tentatively concluded to license the 3650 MHz band using geographic area licensing and sought comment on what sized licensing area or areas should be utilized to license this spectrum and whether nationwide licensing would be appropriate. Similarly, the Commission sought comment on spectrum block size or sizes and whether the band should be licensed using a 50-megahertz license. The Commission also sought comment on a range of issues concerning possible competitive bidding procedures. We seek updated comment from interested parties in all these areas.

65. We thus ask interested parties to refresh the record on whether we should license this band using geographic licensing, as well as on particular geographic licensing approaches. As opposed to site-by-site licensing, geographic licensing may permit licensees more flexibility to respond to market demand and may result in significant improvements in spectrum utilization. In particular, geographic licensing allows licensees to coordinate usage across an entire geographic area to maximize the use of spectrum in areas of highest demand. Geographic licenses also provide the flexibility to dynamically adjust spectrum usage depending upon market demands. We note that one option for this band would be one nationwide license. Under this approach, there would only be one fixed and mobile services license available for this band which would give the terrestrial licensee greater flexibility in building-out its services. We seek comment on whether it would be appropriate to have one nationwide fixed and mobile services license for this band. We also seek comment on the competitive bidding procedures that should be used in the event that mutually exclusive applications are accepted, and whether the procedures proposed in the *3650 Service Rules*

Second NPRM would be appropriate for the services that are contemplated to be introduced in this band.

66. *Spectrum Leasing.* Additionally, we seek comment on whether fixed and mobile service licensees in the 3650 MHz band should be able to lease their spectrum through the policies established in the *Secondary Markets Report and Order and Further Notice of Proposed Rulemaking (Secondary Markets Report and Order and Secondary Markets Further NPRM, respectively)*. In the *Secondary Markets Report and Order*, we took action to remove unnecessary regulatory barriers to the development of secondary markets to permit third parties to access spectrum through spectrum leasing arrangements. We adopted new policies and procedures that enable most wireless licensees to lease some or all of their spectrum usage rights to third-party spectrum lessees. Under these rules, the Commission is notified of the spectrum leasing arrangements (either through a spectrum manager lease notification or a *de facto* transfer lease application). We tentatively conclude that if we adopt licensing rules for this band, our spectrum leasing adopted in the *Secondary Markets Order* would apply. In addition, the *Secondary Market Further NPRM* proposed additional ways to facilitate third party access to spectrum through spectrum leasing arrangements, including further streamlining of the notification requirements, and creating leasing mechanisms to facilitate access by opportunistic devices with cognitive radio capability. We seek comment on whether adoption of some of the proposals in the *Secondary Markets Further NPRM*, or other revisions in the spectrum leasing policies would help optimize the use of the 3650 MHz band.

67. *Third-Party Access to Licensed Spectrum Under A "Band Manager" Approach.* We also wish parties to update the record on whether, if we adopt licensing rules for this band, we should allow third parties access to spectrum in the 3650 MHz band through a "band manager" licensing model, either as a complement or alternative to the spectrum leasing approach adopted under the *Secondary Markets Report and Order*. In the *3650 MHz Service Rules Second NPRM*, the Commission sought comment on whether the use of band manager licensing would be appropriate for the 3650 MHz band. As envisioned by that Commission, the band manager would be a Commission licensee that could engage in the business of making spectrum available to third-party spectrum users through private, written contracts. The

Commission specifically sought comment on whether the fixed and mobile services licensee should have the option of electing to operate as a band manager, a traditional licensee (with the right to enter into spectrum leasing arrangements), or both to the extent they serve to complement each other.

68. Under this band manager approach, the fixed and mobile services licensee would essentially act as a "spectrum broker" and as spectrum use coordinator. As a spectrum broker, the licensee would have the ability to lease discrete spectrum usage rights to different third party spectrum users through private, contractual agreements, without having to secure prior approval by the Commission and without having to notify the Commission of every lease. As a spectrum use coordinator, the licensee would have the flexibility to lease and coordinate different spectrum rights, including different power levels and other technical parameters, to various spectrum users. We seek comment on whether a licensing framework utilizing the concept of band manager would optimize use of the 3650 MHz band by providing continued protection for incumbents as well as maximum flexibility for the potential fixed and mobile services licensee and for the creation of new and advanced services. Under this approach, the licensee, subject to the technical rules that we adopt, would decide how to maximize efficient use of the spectrum and coordination issues would be managed by the licensee through private contracts. In addition, the licensee would be directly responsible to the Commission for preventing harmful interference among the different users in the band, including the FSS licensees, as well as licensees in other bands. We also seek comment on any potential disadvantages of this type of a band manager approach, especially related to the interference risks of any particular features of the spectrum in question.

69. If we choose to allow the fixed and mobile services licensee to act as a band manager, the licensee would be subject to any band manager service rules that we adopt. We seek comment on whether our spectrum management policies would be enhanced by permitting the licensee the flexibility to use its spectrum internally or provide telecommunications services, in addition to leasing it. If we were to permit such flexibility, should we also implement safeguards to ensure that a band manager's core function remains focused on leasing to other, third party spectrum users; and if so, how? Also, if the fixed and mobile services licensee

choices to be a band manager, should the licensee have the ability to use the spectrum directly and construct its own facilities? In other words, should we limit the concept of a band manager to non-facilities-based operations so the licensee would only be engaged in the business of leasing spectrum? We also seek comment on whether it is necessary to provide additional safeguards to prevent a band manager from discriminating among spectrum users.

70. We also request comment on the type of information to be included in agreements between a band manager and spectrum users if we adopt band manager licensing. We seek comment on whether the requirements the Commission established for agreements between Guard Band Managers and spectrum users in part 27 of our rules would be appropriate. For example, under part 27 of our rules, agreements between the Guard Band Manager and spectrum user(s) in the 700 MHz band must specify in detail the operating parameters of the proposed systems including power, antenna height, frequency(s) of operation, base station locations and area of operations.

71. We also seek comment on whether we should require the fixed and mobile services licensee if it choose to be a band manager to file annual reports on its spectrum usage with the Commission. We seek comment on whether such agreements should ensure that the licensee is responsible for violations of rules by users of the spectrum assigned to them, and whether the licensee must provide the Commission with information on users to allow the Commission to limit interference and enforce our rules.

72. *Site-By-Site Licensing.* If we license fixed and mobile services in the 3650 MHz band, another licensing approach would be to use site-by-site licensing. One advantage to a site-by-site licensing option, might be that this licensing scheme allows access to the spectrum and entry into the market at a relatively low upfront cost. Under this licensing scheme, we could employ several methods. One method would be an exclusive use approach. Under this approach the first licensee to acquire a license is guaranteed to have its operations protected from interference from other later in time licensees. However, if the licensee wished to add more sites, it would have to acquire a new license for each additional site. We could also use frequency coordinators similar to those for certain microwave services. Under this approach, a frequency coordinator would decide whether interference will be caused by

another entity's facilities being located near an existing licensee's facilities. If the frequency coordinator determines that the second entity's facilities will not cause interference to an existing licensee's operations, then the second entity would be able to acquire a license for its facilities.

73. Another method would be a coordinated shared use approach. This approach would utilize a frequency coordinator similar to those for the shared private land mobile radio (PLMR) frequencies to determine where licensees can locate their facilities. These coordinators do not seek to achieve interference-free operations. By definition, with a coordinated shared use approach, we can have multiple licensees operating on the same frequencies in the same geographic areas without having exclusive spectrum usage rights and interference protections. Coordinators could perform the function, for an applicant, of choosing the best frequency(s) available in the service for which the applicant is applying at a particular site. They can do this by trying to match compatible operations, both in terms of the nature of the operations and the number of base stations and associated mobiles already on frequencies in the area, as well as proposed.

74. *Other Issues.* Finally, we seek comment on any other issues that might arise in the event that fixed and mobile services are allowed in the 3650-3700 MHz band along with unlicensed devices and FSS operations.

75. In sum, we seek comment on our proposal to allow unlicensed operations in the 3650-3700 MHz band as well as comment on the specific technical options described above. We request that commenters provide detailed information regarding the potential benefits and problems that might result from the use of these technical options—either alone, in tandem, or in combination with the other approaches on which we are seeking comment.

Initial Regulatory Flexibility Analysis

76. As required by the Regulatory Flexibility Act of 1980, as amended (RFA),¹ the Commission has prepared this present Initial Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on a substantial number of small entities by the policies and rules proposed in this Notice of Proposed Rule Making

¹ See 5 U.S.C. 603. The RFA, See 5 U.S.C. 601 has been amended by the Contract With America Advancement Act of 1996, Public Law 104-112, 110 Stat. 847 (1996)(CWAAA). Title II of the CWAAA is the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA).

(NPRM). Written public comments are requested on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments on the NPRM provided in paragraph 62 of the NPRM. The Commission will send a copy of the NPRM, including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration (SBA).² In addition, the NPRM and IRFA (or summaries thereof) will be published in the **Federal Register**.³

A. Need for, and Objectives of, the Proposed Rules

77. The 3650–3700 MHz band is a “transfer” band that the National Telecommunications and Information Administration (NTIA) reallocated from Government/non-Government shared use status to mixed use status effective 1993.⁴ Prior to the transfer, the non-government use of the band was limited to international, intercontinental Fixed Satellite Service (FSS) receive stations.⁵ A condition of the transfer allows Government radiolocation stations to continue to operate indefinitely in the 3650–3700 MHz band at three locations with a “radius of operation” of 80 kilometers (49.7 miles).⁶ In reallocating this spectrum, we sought to maximize the use of the band, and particularly to facilitate the provision of a broad range of traditional voice and broadband high-speed services, and to foster the introduction of such service to rural areas of the country.⁷ We expected this allocation to encourage new and more effective competition to existing wireline local exchange carriers by

providing for an economical means to offer competitive “local loop” or “last mile” facilities.

78. On December 20, 2002, the Commission released a *Notice of Inquiry* (NOI) in ET Docket No. 02–380 seeking comment from the public on the possibility of permitting unlicensed devices to operate in additional frequency bands.⁸ Specifically, the NOI sought comment with regard to the feasibility of allowing unlicensed devices to operate in TV broadcast spectrum and the technical requirements that would permit unlicensed devices to operate in that spectrum such that the devices do not cause interference to authorized services. Additionally, the NOI sought comment on the feasibility of permitting unlicensed devices to operate in the 3650–3700 MHz band at power levels higher than those permitted for unlicensed devices in other bands. Seventy-five parties filed comments and twenty-six parties filed reply comments in response to the NOI.

79. These proposals, if adopted, will prove beneficial to manufacturers and users of unlicensed technology, including those who provide services to rural communities. Specifically, we note that a growing number of service providers are using unlicensed devices within wireless networks to serve the varied needs of industry, government, and general consumers alike. One of the more interesting developments is the emergence of wireless Internet service providers or “WISPs.” Using unlicensed devices, WISPs around the country are providing an alternative high-speed connection in areas where cable or DSL services have been slow to arrive. We believe that the increased flexibility proposed herein will help to foster a viable last mile solution for delivering Internet services, other data applications, or even video and voice services to underserved, rural, or isolated communities.

B. Legal Basis

80. The proposed action is authorized under sections 4(i), 301, 302, 303(e), 303(f), 303(r), 304 and 307 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 301, 302, 303(e), 303(f), 303(r), 304 and 307.

C. Description and Estimate of the Number of Small Entities to Which the Proposed Rules Will Apply

81. The RFA directs agencies to provide a description of, and, where feasible, an estimate of the number of

small entities that may be affected by the proposed rules, if adopted.⁹ The RFA defines the term “small entity” as having the same meaning as the terms “small business,” “small organization,” and “small business concern” under Section 3 of the Small Business Act.¹⁰ Under the Small Business Act, a “small business concern” is one that: (1) Is independently owned and operated; (2) is not dominant in its field of operations; and (3) meets any additional criteria established by the Small Business Administration (SBA).¹¹

82. A small organization is generally “any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.”¹² Nationwide, as of 1992, there were approximately 275,801 small organizations.¹³ The term “small governmental jurisdiction” is defined as “governments of cities, counties, towns, townships, villages, school districts, or special districts, with a population of less than fifty thousand.”¹⁴ As of 1997, there were approximately 87,453 governmental jurisdictions in the United States.¹⁵ This number includes 39,044 counties, municipal governments, and townships, of which 27,546 have populations of fewer than 50,000 and 11,498 counties, municipal governments, and townships have populations of 50,000 or more. Thus, we estimate that the number of small governmental jurisdictions is approximately 75,955 or fewer.

83. The Commission has not developed a definition of small entities applicable to unlicensed communications devices manufacturers. Therefore, we will utilize the SBA definition application to manufacturers of Radio and Television Broadcasting and Communications Equipment. Under the SBA’s regulations, a radio and television broadcasting and wireless communications equipment manufacturer must have 750 or fewer employees in order to qualify as a small business concern.¹⁶ Census Bureau data indicates that there are 1,215 U.S. establishments that manufacture radio and television broadcasting and wireless communications equipment, and that

³ See *id.*

⁴ See Spectrum Reallocation Final Report, Response to Title VI—Omnibus Budget Reconciliation Act of 1993, NTIA Special Publication 95–312, released February 1995. Shared use means that a band of frequencies is generally available for both government and non-government use. See 47 CFR 2.105(b). Mixed use means that government use is limited by geographic area, by time or by other means so as to guarantee that the potential use by government stations is substantially less than the potential use to be made by non-government stations. See 113(b)(2)(B) of OBRA–93. See 47 U.S.C. 923(b)(2)(B).

⁵ See *Second Report and Order* in Gen. Docket No. 80–739 (Amendment of Part 2 of the Commission’s Rules Regarding Implementation of the Final Acts of the World Administrative Radio Conference, Geneva, 1979), 49 FR 2357 (January 19, 1984).

⁶ The three locations are Pascagoula, Mississippi; Pensacola, Florida; and Saint Inigoes, Maryland. Any unlicensed operations in the 3650–3700 MHz band would be required to protect Federal Government operations at these locations.

⁷ We also noted and here reiterate our statutory mandate to provide for the deployment of advanced telecommunications services and technologies to all Americans. See Public Law 104–104, Title VII, 706, Feb. 8, 1996, 110 Stat. 153 (Section 706); 47 U.S.C. 157.

¹¹ *Id.* 632.

¹² See 5 U.S.C. 601(4).

¹³ See 1992 Economic Census, U.S. Bureau of the Census, Table 6 (special tabulation of data under contract to Office of Advocacy of the U.S. Small Business Administration).

¹⁴ See 5 U.S.C. 601(5).

¹⁵ See 1995 Census of Governments, U.S. Census Bureau, United States Department of Commerce, Statistical Abstract of the United States (2000).

¹⁶ See 13 CFR 121.201, NAICS code 334220.

1,150 of these establishments have fewer than 500 employees and would be classified as small entities.¹⁷ The remaining 65 establishments have 500 or more employees; however, we are unable to determine how many of those have fewer than 750 employees and therefore, also qualify as small entities under the SBA definition. We therefore conclude that there are no more than 1,150 small manufacturers of radio and television broadcasting and wireless communications equipment.

D. Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements

84. Part 15 transmitters are already required to be authorized under the Commission's certification procedure as a prerequisite to marketing and importation. See 47 CFR 15.101, 15.201, 15.305, and 15.405. The changes proposed in this proceeding would not change any of the current reporting or recordkeeping requirements. Further, the proposed regulations add permissible operating frequencies. The proposals would not require the modification of any existing procedures.

E. Steps Taken To Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered

85. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives: (1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (3) the use of

performance, rather than design standards; and (4) an exemption from coverage of the rule, or any part thereof, for small entities.

86. At this time, the Commission does not believe the proposals contained in this NPRM will have a significant economic impact on small entities. The NPRM does not propose new device design standards. Instead, it relaxes the rules with respect to the types of devices which are allowed to operate pursuant to the Commission's regulations. There is no burden of compliance with the proposed changes. Manufacturers may continue to produce devices which comply with the former rules and, if desired, design devices to comply with the new regulations. The proposed rules will apply equally to large and small entities. Therefore, there is no inequitable impact on small entities. Finally, this NPRM does not recommend a deadline for implementation. We believe that the proposals are relatively simple and do not require a transition period to implement. An entity desiring to take advantage of the relaxed regulations may do so at any time.

87. Unless our views are altered by comments, we find that the proposed rule changes contained in this Notice will not present a significant economic burden to small entities. Therefore it is not necessary at this time to propose alternative rules. Notwithstanding our finding, we request comment on alternatives that might minimize the amount of adverse economic impact, if any, on small entities.

F. Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rule

88. None.

Ordering Clauses

89. Pursuant to the authority contained in sections 4(i), 302, 303(c), 303(f), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. sections 154(i), 302, 303(c), 303(f), and 303(r) this Notice of Proposed Rule Making is adopted.

90. The Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, shall send a copy of this NPRM, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

List of Subjects in 47 CFR Part 15

Communications equipment, Radio.
Federal Communications Commission.

Marlene H. Dortch,
Secretary.

Proposed Rule Changes

For the reasons discussed in the preamble, the Federal Communications Commission proposes to amend 47 CFR parts 15 as follows:

PART 15—RADIO FREQUENCY DEVICES

1. The authority citation for part 15 continues to read as follows:

Authority: 47 U.S.C. 154, 302a, 303, 304, 307, 336, and 544a.

2. Section 15.205 is amended by revising the table in paragraph (a) to read as follows:

§ 15.205 Restricted bands of operation.

(a) * * *

MHz	MHz	MHz	GHz
0.090–0.110	16.42–16.423	399.9–410	4.5–5.15
10.495–0.505	16.69475–16.69525	608–614	5.35–5.46
2.1735–2.1905	16.80425–16.80475	960–1240	7.25–7.75
4.125–4.128	25.5–25.67	1300–1427	8.025–8.5
4.17725–4.17775	37.5–38.25	1435–1626.5	9.0–9.2
4.20725–4.20775	73–74.6	1645.5–1646.5	9.3–9.5
6.215–6.218	74.8–75.2	1660–1710	10.6–12.7
6.26775–6.26825	108–121.94	1718.8–1722.2	13.25–13.4
6.31175–6.31225	123–138	2200–2300	14.47–14.5
8.291–8.294	149.9–150.05	2310–2390	15.35–16.2
8.362–8.366	156.52475–	2483.5–2500	17.7–21.4
8.37625–8.38675	156.52525	2655–2900	22.01–23.12
8.41425–8.41475	156.7–156.9	3260–3267	23.6–24.0
12.29–12.293	162.0125–167.17	3332–3339	31.2–31.8
12.51975–12.52025	167.72–173.2	3345.8–3358	36.43–36.5
12.57675–12.57725	240–285	3600–3650	(2)

¹⁷ See Economics and Statistics Administration, Bureau of Census, U.S. Department of Commerce, 1997 Economic Census, Industry Series—Manufacturing, Radio and Television Broadcasting

and Wireless Communications Equipment Manufacturing, Table 4 at 9 (1999). The amount of 500 employees was used to estimate the number of small business firms because the relevant Census

categories stopped at 499 employees and began at 500 employees. No category for 750 employees existed. Thus, the number is as accurate as it is possible to calculate with the available information.

MHz	MHz	MHz	GHz
13.36-13.41	322-335.4	3700-4400	

¹ Until February 1, 1999, this restricted band shall be 0.490-0.510 MHz.

² Above 38.6.

* * * * *

3. Section 15.252 is added to read as follows:

§ 15.252 Operation within the band 3.65-3.70 GHz.

(a) Fixed and non-fixed unlicensed devices in this band must be operated in a manner so as not to cause harmful interference to licensed fixed satellite service (FSS) earth stations authorized to receive signals in the 3650-3700 MHz band.

(b) *Fixed devices.* Fixed devices must be installed by a recognized professional installer. The installer shall ensure that the operation of the fixed device complies with the following requirements.

(1) The maximum peak effective isotropic radiated power (EIRP) shall not exceed 25 Watts. The fixed device may employ an advanced antenna system capable of dynamically modifying the system radiation pattern. The EIRP of the fixed device must be reduced to levels which will not cause interference to existing licensed FSS earth stations.

(2) No fixed unlicensed device shall operate within the sector of a circle around a licensed FSS earth station defined by an arc $\pm 15^\circ$ on either side of the FSS earth station antenna boresight and a 180 km radius. Outside of this sector, no fixed device shall

operate within 25 km of a licensed FSS earth station.

(c) *Non-fixed devices.* The maximum peak EIRP of non-fixed devices shall not exceed 1 Watt.

(1) The non-fixed device shall employ active interference avoidance mechanisms to detect FSS earth station uplink signals in the bands 5.85-5.925 GHz and 6.425-6.723 GHz.

(2) The non-fixed device shall reduce peak EIRP below 1 Watt in accordance with the receive signal level (RSS) as shown below:

Unlicensed device receive signal strength (R_{SS})	Maximum allowed EIRP
$R_{SS} > -76$ dBm	(not allowed)
-76 dBm $\geq R_{SS} > -79$ dBm	250 mW
-79 dBm $\geq R_{SS} > -82$ dBm	500 mW
-82 dBm $\geq R_{SS}$	1 Watt

(3) For systems having multiple devices operating under a central controller, only the central controller is required to detect FSS earth station uplink signals. The central controller must instruct all devices under its control to reduce transmit EIRP in accordance with the R_{SS} and paragraph (c)(2) of this section.

(d) No device in this band shall be operated within 80 kilometers of the three authorized Government radiolocation stations. See § 2.106, Footnote US348, of this chapter.

(e) *Operation in Border areas.* Fixed devices must be located at least 8 kilometers from the U.S./Canada or U.S./Mexico border if the antenna of that device looks within the 160° sector away for the border. The devices must be located at least 56 kilometers from each border if the antenna looks within the 200° sector towards the border.

(f) Within any one second interval of signal transmission, each unlicensed device must transmit a transmitter identification at least once. The identification must be confined to the 3650-3651 MHz portion of the band. Each application for equipment authorization must declare that the equipment contains the required transmitter identification feature and must specify a method whereby interested parties can obtain sufficient information, at no cost, to enable them to fully detect and decode this transmitter identification information. Upon the completion of decoding, the transmitter identification data block must provide the following fields.

(1) User/owner contact information.

(2) Current physical location of the unlicensed device.

The grantee must implement a method that makes it possible for users to specify and update this data.

Notices

Federal Register

Vol. 69, No. 94

Friday, May 14, 2004

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Farm Service Agency

Conference Entitled "Conservation Reserve Program: Planting for the Future"

AGENCY: Farm Service Agency, USDA.
ACTION: Notice of a scientific conference on the Conservation Reserve Program.

SUMMARY: USDA's Farm Service Agency (FSA) and the Department of Interior's U.S. Geological Survey are hosting a national conference on the future of the Conservation Reserve Program (CRP)—the Nation's largest conservation program.

DATES: June 6–9, 2004. An optional field trip is planned for June 9, 2004, depending on attendee interest. Details will be announced at the conference.

ADDRESSES: The conference will be held at the University Park Holiday Inn, Fort Collins, Colorado. The field trip, if held, will be to the Pawnee National Grasslands and neighboring CRP fields, about 30 miles west of Fort Collins, Colorado. Transportation and directions for the field trip will be provided at the conference.

FOR FURTHER INFORMATION CONTACT: Alexander Barbarika, Natural Resources Analysis Group, Economic Policy and Analysis Group, Farm Service Agency, USDA, 1400 Independence Avenue, SW, STOP 0516, Washington, DC 20250-0516; telephone: (202) 720-7093; FAX (202) 690-2186; email: Alexander.Barbarika@usda.gov.

Persons with disabilities who require special accommodation to attend or participate in the conference should contact Laurie Montgomery, telephone: (202) 205-7832; email: laurie.montgomery@usda.gov, by May 31, 2004.

Conference Registration: Conference attendees may register in advance or at the conference. Registration is \$250 per person if completed by May 21, 2004,

and \$275 after May 21, 2004. Because space will be limited, advance registration is recommended. Cost of the field trip, if held, will be \$20 for bus transportation and lunch, for those registering early, and \$35 for those registering for the field trip after May 21, 2004. Conference details, including registration, meeting agenda, and hotel accommodations are available on FSA's Web site at: <http://www.fsa.usda.gov/pas/crpconf.asp> or from Alexander Barbarika at (202) 720-7093; email: Alexander.Barbarika@usda.gov.

SUPPLEMENTARY INFORMATION: First established in 1985, the CRP is a voluntary program encouraging farmers to implement conservation practices on environmentally-sensitive agricultural land to reduce soil erosion, protect water quality and enhance wildlife habitat. About 35 million acres are currently enrolled. Over 16 million acres of CRP contracts expire in 2007 and over 6 million acres expire in 2008. Determining the future direction of the CRP is thus critical.

FSA Administrator James R. Little says "This conference provides an exciting opportunity for CRP experts to help shape the future of the Nation's largest conservation program. I'm quite pleased that we will be focusing on results and the need to use the best science and data available for policy development. Science-based understanding is crucial for effective CRP policy development." Rigorous CRP analysis will inform producers, legislators, budget overseers, and other decision-makers on how best to manage the CRP to maximize agricultural and environmental benefits at minimum taxpayer cost.

Noted conservationist Aldo Leopold once wrote that the complexity of the land organism is the outstanding discovery of the twentieth century. Building on that theme, over 40 speakers drawn from academia, State and Federal agencies, and diverse interest groups will present expert insights into the CRP's known impacts, impacts still needing research and quantification, and how science can strongly inform future CRP policy.

Depending on attendee interest, FSA and USGS will host an optional field trip to the Pawnee National Grasslands and neighboring CRP fields, about 30 miles west of Fort Collins. The 190,000-

acre grassland reserve provides a rare, sizeable example of native grass species.

Signed in Washington, DC on April 29, 2004.

James R. Little,
Administrator, Farm Service Agency.

BILLING CODE 3410-05-P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Additions and Deletion

AGENCY: Committee for Purchase from People Who Are Blind or Severely Disabled.

ACTION: Proposed additions to and deletion from Procurement List.

SUMMARY: The Committee is proposing to add to the Procurement List product and services to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and to delete a service previously furnished by such agencies.

Comments Must Be Received on or Before: June 13, 2004.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800, 1421 Jefferson Davis Highway, Arlington, Virginia 22202-3259.

FOR FURTHER INFORMATION CONTACT: Sheryl D. Kennerly, (703) 603-7740.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C 47(a) (2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

ADDITIONS: If the Committee approves the proposed additions, the entities of the Federal Government identified in this notice for each product or service will be required to procure the products and services listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting,

recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products and services to the Government.

2. If approved, the action will result in authorizing small entities to furnish the products and services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the products and services proposed for addition to the Procurement List. Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

End of Certification

The following products and services are proposed for addition to Procurement List for production by the nonprofit agencies listed:

Products

Product/NSN: Battery Non-rechargeable, Lithium.

6135-01-398-5922,
6135-01-333-6101

NPA: Eastern Carolina Vocational Center, Inc., Greenville, North Carolina

Contract Activity: Defense Supply Center Richmond, Richmond, Virginia

Product/NSN: Flag, National, Interment (Additional 10% of the Department of Veterans Affairs Requirement)

8345-00-656-1432.

NPA: Goodwill Industries of South Florida, Inc., Miami, Florida

NPA: Huntsville Rehabilitation Foundation, Huntsville, Alabama

NPA: North Bay Rehabilitation Services, Inc., Rohnert Park, California

Contract Activity: Department of Veterans Affairs, Washington, DC

Product/NSN: Glow Plug
2920-01-188-3863.

NPA: Shares Inc., Shelbyville, Indiana

Contract Activity: Defense Supply Center Columbus, Columbus, Ohio

Services

Service Type/Location: Custodial Services, IRS Building,

106 S. 15th Street, Omaha, Nebraska

NPA: Goodwill Specialty Services, Inc., Omaha, Nebraska

Contract Activity: GSA, Public Buildings Service (Region 6), Kansas City, Missouri

Service Type/Location: Custodial Services, Judiciary Square,

633 3rd Street, NW, Washington, DC

NPA: Melwood Horticultural Training Center, Upper Marlboro, Maryland

Contract Activity: GSA, National Capital Region, Washington, DC

Service Type/Location: Custodial Services, Key West Naval Air Station, Key West, Florida

NPA: Goodwill Industries of South Florida,

Inc., Miami, Florida
Contract Activity: Naval Facilities

Engineering Command, North Charleston, South Carolina

Service Type/Location: Janitorial/Custodial, Naval & Marine Corps Reserve Center,

Roanoke, Virginia

NPA: Goodwill Industries of the Valleys, Inc., Salem, Virginia

Contract Activity: Naval Facilities Engineering Command Contracts, Norfolk, Virginia

Deletion

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action may result in additional reporting, recordkeeping or other compliance requirements for small entities.

2. If approved, the action may result in authorizing small entities to furnish the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for deletion from the Procurement List.

End of Certification

The following service is proposed for deletion from the Procurement List:

Service

Service Type/Location: Janitorial/Custodial, Federal Building & U.S. Post Office, Dyersburg, Tennessee

NPA: Madison Haywood Developmental Services, Jackson, Tennessee

Contract Activity: General Services Administration

Sheryl D. Kennerly,

Director, Information Management.

[FR Doc. 04-10973 Filed 5-13-04; 8:45 am]

BILLING CODE 6353-01-P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Additions and Deletions

AGENCY: Committee for Purchase from People Who Are Blind or Severely Disabled.

ACTION: Additions to and deletions from Procurement List.

SUMMARY: This action adds to the Procurement List products and a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities, and deletes from the Procurement List a

product previously furnished by such agencies.

EFFECTIVE DATE: June 13, 2004.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800, 1421 Jefferson Davis Highway, Arlington, Virginia, 22202-3259.

FOR FURTHER INFORMATION CONTACT: Sheryl D. Kennerly, (703) 603-7740.

SUPPLEMENTARY INFORMATION:

Additions

On March 19, 2004, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (69 FR 13019) of proposed additions to the Procurement List. After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and service and impact of the additions on the current or most recent contractors, the Committee has determined that the products and service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products and service to the Government.

2. The action will result in authorizing small entities to furnish the products and service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the products and service proposed for addition to the Procurement List.

End of Certification

Accordingly, the following products and service are added to the Procurement List:

Products

Product/NSN: Blue Examination Gloves (Nitrile),

6515-00-NIB-0236 (Small);

6515-00-NIB-0237 (Medium),

6515-00-NIB-0238 (Large);

6515-00-NIB-0239 (X Large).

Product/NSN: Blue Examination Gloves (Vinyl),

6530-00-NIB-0104 (Small),

6530-00-NIB-0105 (Medium),

6530-00-NIB-0106 (Large),
6530-00-NIB-0107 (X Large).

NPA: Central Association for the Blind & Visually Impaired, Utica, New York.
Contract Activity: Transportation Security Administration, Arlington, Virginia.

Service

Service Type/Location: Janitorial/Custodial, Thomas D. Lambros Federal Building & U.S. Courthouse, Youngstown, Ohio.
NPA: Youngstown Area Goodwill Industries, Youngstown, Ohio.
Contract Activity: GSA, Public Buildings Service (5P), Chicago, Illinois.

Deletion

On March 19, 2004, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (69 FR 13019) of proposed deletions to the Procurement List. After consideration of the relevant matter presented, the Committee has determined that the product listed below is no longer suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action may result in additional reporting, recordkeeping or other compliance requirements for small entities.
2. The action may result in authorizing small entities to furnish the product to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the product deleted from the Procurement List.

End of Certification

Accordingly, the following product is deleted from the Procurement List:

Product

Product/NSN: Holder, Soap, 4510-00-965-1259.
NPA: Watauga Opportunities, Inc., Boone, North Carolina.
Contract Activity: GSA, Southwest Supply Center, Fort Worth, Texas.

Sheryl D. Kennerly,

Director, Information Management.

BILLING CODE 6353-01-P

DEPARTMENT OF COMMERCE

Bureau of the Census

[Docket Number 040421123-4123-01]

American Community Survey Data Products

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice and request for comments.

SUMMARY: The Bureau of the Census (Census Bureau) is proposing to revise and expand the data products it produces from the American Community Survey (ACS), and is requesting comments from current and potential future users of ACS data products to help guide the redesign of these products. Our goal is to publish preliminary versions of the new data products by mid-year 2005 and to give data users another opportunity to comment further before the redesigned products are in final form. The ACS has been under development since 1996. Several ACS data products have been released every year since 1997. With full-scale implementation scheduled for July 2004, we are proposing significant enhancements to the ACS data products that the Census Bureau will produce every year beginning in 2006.

DATES: Written comments must be submitted on or before July 14, 2004.

ADDRESSES: Direct all written comments to the Director, U.S. Census Bureau, Room 2049, Federal Building 3, Washington, DC 20233-0101.

FOR FURTHER INFORMATION CONTACT: Kenneth R. Bryson, Program Analyst, Outreach and Analysis Staff, Office of the Associate Director for Decennial Census, on (301) 763-1911, or by e-mail at kenneth.r.bryson@census.gov.

SUPPLEMENTARY INFORMATION: The ACS is a very large nationwide survey that will collect and publish data about the demographic, social, economic, and housing characteristics of the population. Full-scale data collection will begin with the mail-out to 250,000 addresses at the end of June 2004. The Census Bureau plans to release a set of redesigned data products from the 2005 ACS, the first full year of data collection, in the summer of 2006. While some of the data products will resemble those from the development phase of the ACS, others will be new or redesigned.

Census Bureau working groups have sought to improve the ACS data products by taking into account the previous comments and suggestions of data users. We have developed a

preliminary version of the revised suite of data products and are now asking for feedback from public data users.

We are requesting public comments on the current data products and on the proposed new products. In particular, the Census Bureau is looking for feedback about the basic concept of each product and its usefulness to you. We welcome all comments and suggestions about how the product could be improved.

A special link on the ACS Web site (http://www.census.gov/acs/www/product_review/) will enable you to view examples of current and proposed data products. Current ACS data products are as follows:

- Base Tables (previously known as Detailed Tables)—Simple descriptive tabulations of basic concepts and variables, similar to tables in Summary File 3 from Census 2000. Summary File 3 contains tables of sample items from the long form of Census 2000.
- Tabular Profiles—Key summary measures, derived measures (e.g., medians), and collapsed distributions of variables selected from the Base Tables.
- Narrative Profiles—Short prose narratives with simple graphs based on some of the summary information in the Tabular Profiles.
- Geographic Ranking Tables—Tables and related graphs that show the rank order of geographic areas on a key statistics or derived measure.

In addition to retaining the current data products above, the Census Bureau proposes to offer the following new products:

- Subject Tables—These are similar to the Census 2000 Quick Tables, and like the Quick Tables, they are derived from the Base Tables. Quick Tables and Subject Tables are predefined tables with frequently requested information on a single topic for a single geographic area.
- Subpopulation Profiles—This new product would provide certain characteristics from the Tabular Profiles for a specific race or ethnic group (e.g., Alaska Natives) or population subgroup (e.g., people ages 60 and over).
- Thematic Maps—Thematic maps are similar to Geographic Ranking Tables. They have the added advantage of visually displaying on a map the geographic variation of a key summary or derived measure.
- Analytic Reports (in an early development phase)—These could be short documents, two to three pages, on a single topic or theme, or they could be longer documents covering several topics or the entire content of the survey.

Please go to the ACS Web site to review each data product in detail. If you have questions about any of the data products, please contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Paperwork Reduction Act

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to requirements of the Paperwork Reduction Act (PRA), unless that collection of information displays a current, valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C., Chapter 35, the OMB approved the ACS survey under OMB Control Number 0607-0810. We will furnish report forms to organizations included in the survey, and additional copies will be available upon written request to the Director, U.S. Census Bureau, Washington, DC 20233-0101.

Dated: May 7, 2004.

Hermann Habermann,

Deputy Director, Bureau of the Census.

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of Preliminary Results of Antidumping Duty Changed Circumstances Review.

SUMMARY: On December 30, 2003, the Department of Commerce ("Department") published a notice of initiation of changed circumstances review of the antidumping duty order on structural steel beams ("SSB") from Japan to determine whether Yamato Steel Co., Ltd. ("Yamato Steel") is a successor-in-interest company to Yamato Kogyo Co., Ltd. ("Yamato Kogyo") for purposes of determining antidumping and countervailing duty liabilities. See *Notice of Initiation of Antidumping Duty Changed Circumstances Review: Structural Steel Beams from Japan*, 68 FR 75213 (December 30, 2003) ("Notice of

Initiation"). We have preliminarily determined that Yamato Steel is the successor-in-interest to Yamato Kogyo, for purposes of determining antidumping duty liability in this proceeding. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: May 14, 2004.

FOR FURTHER INFORMATION CONTACT: Melissa Blackledge or Howard Smith, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-3518 or (202) 482-5193, respectively.

SUPPLEMENTARY INFORMATION:

Background

On June 19, 2000, the Department published in the **Federal Register** an antidumping duty order resulting from the Department's investigation of Structural Steel Beams from Japan. See *Structural Steel Beams from Japan: Notice of Antidumping Duty Order*, 65 FR 37960 (June 19, 2000). On November 17, 2003, Yamato Kogyo and Yamato Steel submitted a request that the Department initiate a changed circumstances review of the antidumping duty order on structural steel beams from Japan pursuant to Section 751(b)(1) of the Trade Act of 1930, as amended ("the Act"), and 19 CFR 351.22(c)(3)(ii) (2003). Yamato Steel claims to be the successor-in-interest to Yamato Kogyo, and, as such, claims that it is entitled to receive the same antidumping treatment as Yamato Kogyo. On December 19, 2003, the Department published a *Notice of Initiation of Changed Circumstances Review*, 68 FR 75213. On February 26, 2004, the Department issued a questionnaire requesting further details on the successorship of Yamato Steel. Yamato Kogyo's response was received by the Department on March 26, 2004.

Scope of the Review

For purposes of this review, the products covered are doubly-symmetric shapes, whether hot or cold-rolled, drawn, extruded, formed or finished, having at least one dimension of at least 80 mm (3.2 inches or more), whether of carbon or alloy (other than stainless) steel, and whether or not drilled, punched, notched, painted, coated, or clad. These products ("Structural Steel Beams") include, but are not limited to, wide-flange beams ("W" shapes), bearing piles ("HP" shapes), standard beams ("S" or "I" shapes), and M-shapes.

All products that meet the physical and metallurgical descriptions provided above are within the scope of this review unless otherwise excluded. The following products, are outside and/or specifically excluded from the scope of this review:

Structural steel beams greater than 400 pounds per linear foot or with a web or section height (also known as depth) over 40 inches.

The merchandise subject to this review is classified in the Harmonized Tariff Schedule of the United States ("HTSUS") at subheadings: 7216.32.0000, 7216.33.0030, 7216.33.0060, 7216.33.0090, 7216.50.0000, 7216.61.0000, 7216.69.0000, 7216.91.0000, 7216.99.0000, 7228.70.3040, 7228.70.6000. Although the HTSUS subheadings are provided for convenience and U.S. Customs and Border Protection ("CBP") purposes, the written description of the merchandise under review is dispositive.

Preliminary Results of the Review

In submissions to the Department dated November 17, 2003 and March 26, 2004, Yamato Kogyo advised the Department that the firm had conducted a corporate reorganization, resulting in the formation of Yamato Steel which assumed all steel and heavy industry operations formerly held by Yamato Kogyo.

In antidumping duty changed circumstances reviews involving a successor-in-interest determination, the Department typically examines several factors including, but not limited to, changes in: (1) management; (2) production facilities; (3) supplier relationships; and (4) customer base. See *Brass Sheet and Strip from Canada: Notice of Final Results of Antidumping Administrative Review*, 57 FR 20460, 20462 (May 13, 1992) ("Canada Brass"). While no single factor or combination of factors will necessarily be dispositive, the Department generally will consider the new company to be the successor to the predecessor company if the resulting operations are essentially the same as those of the predecessor company. See, e.g., *Industrial Phosphoric Acid from Israel: Final Results of Changed Circumstances Review*, 59 FR 6944, 6945 (February 14, 1994), and *Canada Brass*, 57 FR 20462. Thus, if the record evidence demonstrates that, with respect to the production and sale of the subject merchandise, the new company operates as the same business entity as the predecessor company, the Department may assign the new company the cash deposit rate of its predecessor. See, e.g., *Fresh and Chilled*

Atlantic Salmon from Norway: Final Results of Changes Circumstances Antidumping Duty Administrative Review, 64 FR 9979, 9980 (March 1, 1999).

Our review of the evidence provided by Yamato Kogyo and Yamato Steel indicates, preliminarily, that the change in ownership has not significantly changed the company's management, production facilities, supplier relationships or customer base.

Yamato Kogyo and Yamato Steel provided detailed organizational charts and lists of directors both prior to and following the creation of Yamato Steel. See *Yamato Kogyo Co., Ltd. and Yamato Steel Co., Ltd.* submission dated March 26, 2004, at Exhibits A, C, D, E and F. These organizational charts and lists of directors establish that the management and organizational structure of Yamato Steel is substantially the same as that of Yamato Kogyo. Yamato also provided the Modification and Transfer Registration that was filed with the Himeji City Tax Office, which documented the establishment of Yamato Steel, the acquisition by Yamato Steel of all tangible fixed assets, and that Yamato Kogyo is the parent of Yamato Steel. See *Ibid.* at Exhibit H. This was further corroborated by the internal Asset Value Summary of the assets transferred from Yamato Kogyo to Yamato Steel. See *Ibid.* at Exhibit I. This documentation of the establishment of Yamato Steel and transfer of fixed assets provides evidence of Yamato Steel's use of the production facilities formerly used by Yamato Kogyo in the production of subject merchandise. Yamato Steel's supplier relationships are reflective of those of the former Yamato Kogyo, as illustrated by the supplier lists, derived from the respective firms' accounts payable, provided by Yamato Kogyo and Yamato Steel. See *Ibid.* at Exhibits J and K. Finally, Yamato Kogyo and Yamato Steel provided the customer lists of both the former Yamato Kogyo and the new Yamato Steel, which, while not identical, are sufficiently similar to show no significant change in the customer base. See *Ibid.* at Exhibits J and K.

In sum, Yamato Steel has presented evidence to establish a prima facie case of its successorship status. Yamato Steel's establishment by Yamato Kogyo has precipitated minimal changes to the original Yamato Kogyo corporate structure as it applies to the production of subject merchandise. Yamato Steel's management, production facilities, supplier relationships, sales facilities and customer base are essentially unchanged from those of Yamato

Kogyo's. Therefore, the record evidence demonstrates that the new entity essentially operates in the same manner as the predecessor company. Consequently, we preliminarily determine that Yamato Steel should be given the same antidumping duty treatment as Yamato Kogyo, *i.e.*, zero percent antidumping duty cash deposit rate.

If the above preliminary determination results are affirmed in the Department's final results, the cash deposit determination from this changed circumstances review will apply to all entries of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this changed circumstances review. See *Granular Polytetrafluoroethylene Resin from Italy: Final Results of Antidumping Duty Changed Circumstances Review*, 68 FR 25327 (May 12, 2003). This deposit rate shall remain in effect until publication of the final results of the next administrative review in which Yamato Steel participates.

Public Comment

Any interested party may request a hearing within 30 days of publication of this notice. 19 CFR 351.310(c). Any hearing, if requested, will be held 44 days after the date of publication of this notice, or the first working day thereafter. Interested parties may submit case briefs and/or written comments not later than 30 days after the date of publication of this notice. 19 CFR 351.309(c)(ii). Rebuttal briefs, which must be limited to issues raised in such briefs or comments, may be filed not later than 37 days after the date of publication of this notice. See 19 CFR 351.309(d). Parties who submit arguments are requested to submit with the argument (1) a statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities. Consistent with section 351.216(e) of the Department's regulations, we will issue the final results of this changed circumstances review no later than 270 days after the date on which this review was initiated.

This notice is in accordance with sections 751(b) and 777(i)(1) of the Act, and section 351.221(c)(3)(i) of the Department's regulations.

Dated: May 10, 2004.

James J. Jochum,
Assistant Secretary for Import
Administration.

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Malcolm Baldrige National Quality Award Board of Overseers

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice of public meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that there will be a meeting of the Board of Overseers of the Malcolm Baldrige National Quality Award on June 3, 2004. The Board of Overseers is composed of eleven members prominent in the field of quality management and appointed by the Secretary of Commerce, assembled to advise the Secretary of Commerce on the conduct of the Baldrige Award. The purpose of this meeting is to discuss and review information received from the National Institute of Standards and Technology with the members of the Judges Panel of the Malcolm Baldrige National Quality Award. The agenda will include: Discussions on Baldrige Program Strategic Objectives, Booz Allen CEO Study Final Report, Criteria for Baldrige Program Collaborations, Requested Program Rule Changes, and Baldrige Program Metrics, a Program and Budget Update and Issues from June 4 Judges' Meeting. All visitors to the National Institute of Standards and Technology site will have to pre-register to be admitted. Please submit your name, time of arrival, email address and phone number to Virginia Davis no later than Tuesday, June 1, 2004, and she will provide you with instructions for admittance. Ms. Davis' email address is virginia.davis@nist.gov and her phone number is (301) 975-2361.

DATES: The meeting will convene June 3, 2004, at 8:30 a.m. and adjourn at 3 p.m. on June 3, 2004.

ADDRESSES: The meeting will be held at the National Institute of Standards and Technology, Administration Building, Lecture Room D, Gaithersburg, Maryland 20899. Please note admittance instructions under the **SUMMARY** paragraph.

FOR FURTHER INFORMATION CONTACT: Dr. Harry Hertz, Director, National Quality Program, National Institute of Standards and Technology, Gaithersburg, Maryland 20899, telephone number (301) 975-2361.

Dated: May 6, 2004.

Hratch G. Semerjian,

Acting Director.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Office of Oceanic and Atmospheric Research (OAR); NOAA Research Review Team Report

AGENCY: Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice and request for public comment.

SUMMARY: The Office of Oceanic and Atmospheric Research publishes this notice to announce the availability of the NOAA Research Review Team Draft of the Final Report for public comment. The NOAA Research Report is compiled pursuant to requests from the House and Senate Appropriations Subcommittees in their 2003 reports. The report accompanying the House Commerce, Justice State (CJS) Appropriations Subcommittee requests that NOAA review research in NOAA, and specifically OAR, for the purpose of improving the effectiveness and efficiency of its research enterprise. The report addresses how NOAA should improve the management of research to ensure its maximum efficiency and effectiveness.

DATES: Comments on this draft document must be submitted by June 23, 2004.

ADDRESSES: The NOAA Research Review Team Report will be available on the SAB website at http://www.sab.noaa.gov/reports/RRT_final-draft_052504.pdf on May 25, 2004.

The public is encouraged to submit comments electronically to research.review@noaa.gov. For commenters who do not have access to a computer, comments may be submitted in writing to: NOAA Research, Science Advisory Board, (SAB) c/o Ms. M. Whitcomb, Silver Spring Metro Center Bldg 3 Room 11558, 1315 East-West Highway, Silver Spring, Maryland 20910.

FOR FURTHER INFORMATION CONTACT: Ms. M. Whitcomb, Silver Spring Metro Center Bldg 3 Room 11558, 1315 East-West Highway, Silver Spring, Maryland 20910 (phone 301-713-2454 x 173), during normal business hours of 8 a.m.

to 5 p.m. Eastern Time, Monday through Friday, or visit the SAB web site at: http://www.sab.noaa.gov/reports/RRT_final-draft_052504.pdf.

SUPPLEMENTARY INFORMATION: The Office of Oceanic and Atmospheric Research (OAR) publishes this notice to announce the availability of the NOAA Research Report for public comment. NOAA Research will post the NOAA Research Draft of the Final Report for public comment on May 25, 2004. NOAA Research is seeking public comment from all interested parties. This final report is being issued for comment only and is not intended for interim use. Suggested changes will be incorporated, where appropriate, in the report being submitted to the Congress.

The NOAA Research Report is compiled pursuant to requests from the House and Senate Appropriations Subcommittees in their 2003 reports. The report accompanying the House Commerce, Justice State (CJS) Appropriations Subcommittee requests that NOAA review research in NOAA, and specifically OAR, for the purpose of improving the effectiveness and efficiency of its research enterprise. The report addresses how NOAA should improve the management of research to ensure its maximum efficiency and effectiveness.

In response to the Congressional report language, NOAA appointed an "Ad Hoc Review Team," (here called the NOAA Research Review Team), under the auspices of the SAB consisting of five members to compile the requested information. The Review team will be disbanded once the review is completed and a final report issued. This panel is tasked with: (1) Conducting a review of OAR for the purpose of improving the effectiveness and efficiency of its research enterprise; (2) Determining if OAR is adequately linked to NOAA's service organizations, [i.e., National Weather Service (NWS), National Environmental Satellite Data, and Information Service (NESDIS), National Marine Fisheries Service (NMFS), and the National Ocean Service (NOS)]; (3) Assessing whether the research programs are relevant to the needs of these organizations. The team's recommendations will assist NOAA in responding to the language in the 2004 House and Senate CJS appropriation reports.

The NOAA Research Review Team is presenting its findings to the SAB in two (2) reports. The first report was posted for public comments in December 2003, and was submitted to NOAA on January 29, 2004. The final report, which incorporates the first draft

report, will be posted on the SAB web site at: http://www.sab.noaa.gov/reports/RRT_final-draft_052504.pdf on May 25, 2004 for public comment. Public comments may be submitted from May 25, 2004 to 30 days after May 25, or June 23, 2004.

NOAA welcomes all comments on the content of the report. We also request comments on any inconsistencies perceived within the report, and possible omissions of important topics or issues. For any shortcoming noted within the draft report, please propose specific remedies.

Please follow these instructions for preparing and submitting a review. Using the format guidance described below will facilitate the processing of reviewer comments and assure that all comments are appropriately considered. Please provide background information about yourself on the first page of your comments: your name(s), organization(s), area(s) of expertise, mailing address(es), telephone and fax numbers, email address(es). Overview comments on the section should follow your background information and should be numbered. Comments that are specific to particular pages, paragraphs or lines of the section should follow any overview comments and should identify the page numbers to which they apply. Please number all pages, (on the upper right hand of each page,) and print identifying information at the top of each page.

Dated: May 10, 2004.

Louisa Koch,

Deputy Assistant Administrator, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-KD-P

CONSUMER PRODUCT SAFETY COMMISSION

Proposed Collection of Information; Comment Request—Testing and Recordkeeping Requirements Under the Standard for the Flammability of Mattresses and Mattress Pads

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission requests comments on a proposed three year extension of approval of information collection requirements in the Standard for the Flammability of Mattresses and Mattress Pads. 16 CFR part 1632. The standard is

intended to reduce unreasonable risks of burn injuries and deaths from fires associated with mattresses and mattress pads. The standard prescribes a test to assure that a mattress or mattress pad will resist ignition from a smoldering cigarette. The standard requires manufacturers to perform prototype tests of each combination of materials and construction methods used to produce mattresses or mattress pads and to obtain acceptable results from such testing. Sale or distribution of mattresses without successful completion of the testing required by the standard violates section 3 of the Flammable Fabrics Act, 15 U.S.C. 1192. An enforcement rule implementing the standard requires manufacturers to maintain records of testing performed in accordance with the standard and other information about the mattress or mattress pads which they produce. The Commission will consider all comments received in response to this notice before requesting approval of renewal of this collection of information from the Office of Management and Budget.

DATES: Written comments must be received by the Office of the Secretary not later than July 13, 2004.

ADDRESSES: Written comments should be captioned "Collection of Information—Mattress Flammability Standard" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, or delivered to that office, room 502, 4330 East-West Highway, Bethesda, Maryland 20814. Written comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpssc-os@cpsc.gov.

FOR FURTHER INFORMATION CONTACT: For information about the proposed renewal of this collection of information, or to obtain a copy of 16 CFR part 1632, call or write Linda L. Glatz, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; (301) 504-7671.

SUPPLEMENTARY INFORMATION:

A. Estimated Burden

The Commission staff estimates that at this time there are 751 establishments producing mattresses, mattress pads, futons, or other types of products required to test and keep records pursuant to 16 CFR part 1632. The staff further estimates that each firm will spend 26 hours for testing and recordkeeping annually for a total of 19,526 hours (751 firms × 26 hours = 19,526 total hours). The annualized cost

would be \$477,996 based on 19,526 hours times \$24.48/hour (based on total compensation of all civilian workers in the U.S., September 2003, Bureau of Labor Statistics).

B. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: May 10, 2004.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

DEPARTMENT OF DEFENSE

Department of the Army

DoD Personal Property Program

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: The Military Surface Deployment and Distribution Command (SDDC), as Program Manager of the Department of Defense (DoD) Personal Property Shipment and Storage Program, proposes to amend Pamphlet 55-4, entitled "How To Do Business in the Department of Defense Personal Property Program." The amended pamphlet is on SDDC's Web site at www.sddc.army.mil, Personal Property, under Carrier Qualification/Performance. We encourage you to review the amended pamphlet. Among other things, the proposed amendments include: Requires all present and future participants (commercial Transportation

Service Providers (TSP's)) in the Domestic and International Personal Property Programs to use our proposed amended qualification process via the Web; addresses financial requirements; revises the Certificate of Independent Pricing (CIP) form and adds a new Certificate of Responsibility (COR) form. In addition, the pamphlet adds Trusted Agent for Electronic Transportation Acquisition and includes language concerning SDDC acting within its sole discretion, an appeal process, no tonnage make-up and changes Standard Carrier Alpha Code procedures.

This **Federal Register** notice supercedes and renders null and void the prior SDDC **Federal Register** notice (67 FR 12540) published on March 19, 2002, concerning "How To Do Business in the Department of Defense Personal Property Program" and the matters contained therein.

DATES: Comments on this proposed policy must be submitted on or before June 14, 2004, to the address given below. SDDC will implement the proposed policy December 1, 2004, except changes affecting the Debt to equity ratio (becomes required, not desired) and not recognizing amounts due from stockholders, affiliated companies or related parties as current assets for the purpose of computing the quick ratio, which will become effective with the submission of 2004 financial statements.

ADDRESSES: Surface Deployment and Distribution Command, ATTN: SDPP—PO, 10N67, Hoffman Building II, 200 Stovall Street, Alexandria, Virginia 22332-5000; e-mail address: ppqual@sddc.army.mil.

SUPPLEMENTARY INFORMATION:

Regulatory Flexibility Act

This change is not considered rule-making within the meaning of the Regulatory Flexibility Act, 5, U.S.C. 601-612.

Paperwork Reduction Act

The Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, does not apply because no new information collection or recordkeeping requirements are imposed on contractors, offerors or members of the public.

Thomas Hicks,

Chief, Personal Property Division.

Availability of Draft Integrated Feasibility Report and Programmatic Environmental Impact Statement for the Upper Mississippi River—Illinois Waterway System Navigation Feasibility Study

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: A Draft Integrated Feasibility Report and Programmatic Environmental Impact Statement was prepared to address the restructured Upper Mississippi River—Illinois Waterway System Navigation Feasibility Study. This document is available for interested persons to review and prepare comments on the draft. The purpose of this document is to provide a comprehensive documentation of the Upper Mississippi River—Illinois Waterway System Feasibility Study process and draft recommendations for action. The 9-Foot Channel Navigation Project, originally authorized in 1930, was reviewed for changed physical, economic, and environmental conditions that may warrant structural or non-structural modifications to reduce congestion of commercial navigation traffic and to enhance ecosystem restoration. This integrated report describes the plan formulation process, environmental impacts, and the draft preferred plan for this study. The original Notice of Intent for this project was published in the *Federal Register* on November 27, 1995 (60 FR 58339) and a revised Notice of Intent was published February 23, 2004 (69 FR 8185).

DATES: There will be a 70-day public review period for comments on this document. Comments will be accepted at the public hearings, by letter, or electronically at DraftNavRptComments@usace.army.mil. Comments must be received on or before July 30, 2004. See **SUPPLEMENTARY INFORMATION** section for public hearing dates and addresses.

ADDRESSES: Send written comments and suggestions or document requests concerning this proposed project: District Engineer, U.S. Army Engineer District, Rock Island, ATTN: CEMVR-PM-A (Jackson), Clock Tower Building—P.O. Box 2004, Rock Island, IL 61204-2004.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action

and Draft Integrated Feasibility Report and Programmatic Environmental Impact Statement can be answered by Mr. Kenneth Barr by telephone (309) 794-5349, or by mail: District Engineer, U.S. Army Engineer District, Rock Island, ATTN: CEMVR-PM-A (Barr), Clock Tower Building—P.O. Box 2004, Rock Island, IL 61204-2004.

SUPPLEMENTARY INFORMATION: Public hearings on the Draft Integrated Feasibility Report and Programmatic Environmental Impact Statement will be held on: June 7, 2004, at the Holiday Inn, 5202 Brady Street, Davenport, Iowa; June 8, 2004, at the Grand Harbor Resort and Waterpark—Grand River Center, 350 Bell Street, Dubuque, Iowa; June 9, 2004, at the Radisson Hotel La Crosse, 200 Harborview Plaza, La Crosse, Wisconsin; June 10, 2004, at the Minneapolis Airport Marriott, 2020 American Boulevard East, Bloomington, Minnesota; June 14, 2004, at the Hotel Pere Marquette, 501 Main Street, Peoria, Illinois; June 15, 2004, at the Stoney Creek Inn, 3809 East Broadway Street, Quincy, Illinois; June 16, 2004, at the St. Louis Airport Marriott, I-70 at Lambert Airport, St. Louis, Missouri; and June 17, 2004, at the Phoenix Park Hotel, 520 North Capital Street, NW., Washington, DC.

Public Hearing Schedule (all locations but Washington, DC)

2-4 p.m.—Informal Open House
4-5:30 p.m.—Dinner Break
5:30-6:30 p.m.—Registration
6:30-6:35 p.m.—Opening Remarks
6:35-6:50 p.m.—Presentation
6:50-9:30 p.m. (or later)—Public Hearing

Washington, DC, Schedule

1-3 p.m.—Informal Open House
3-6 p.m.—Registration, Opening Remarks, Presentation, and Public Hearing

This report can be downloaded at <http://www2.mvr.usace.army.mil/umr-iwswsns>. An electronic compact disc (CD) containing the report is available at no cost, and paper copies are available for \$34.90 per copy. Requests for copies (CD or paper) of the Draft Integrated Feasibility Report and Programmatic Environmental Impact Statement or to be placed on the mailing list should be sent to the address listed in the Addresses section of this notice.

Intent To Prepare a Draft Environmental Impact Statement for the Peckman River Basin Flood Control and Ecosystem Restoration Project, Passaic and Essex Counties, NJ

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers (Corps), New York District, is preparing a Draft Environmental Impact Statement (DEIS), in compliance with the National Environmental Policy Act (NEPA), which will lead to a NEPA document in accordance with Council on Environmental Quality (CEQ) regulations, as defined and amended in 40 CFR parts 1500-1508 (promulgated pursuant to NEPA), Corps' principle and guidelines as defined in Engineering Regulations (ER) 1105-2 100, Planning Guidance Notebook, and ER 200-2-2, Procedures for Implementing NEPA, and other applicable Federal and State environmental laws for the proposed flood control and ecosystem restoration project in the Peckman River Basin located in Passaic and Essex Counties, NJ. The study area includes the Peckman River, which originates in the Town of West Orange, NJ, and flows northeasterly through the Borough of Verona, the Township of Cedar Grove, the Township of Little Falls, and the Borough of West Paterson to its confluence with the Passaic River.

FOR FURTHER INFORMATION CONTACT: Ms. Bobbi Jo McClain, Project Biologist, Planning Division, U.S. Army Corps of Engineers, New York District, 26 Federal Plaza, Room 2146, New York, NY, 10278-0090 at (212) 264-5818 or at Bobbi.J.McClain@usace.army.mil.

SUPPLEMENTARY INFORMATION:

1. This study is authorized by a U.S. House of Representatives' Committee on Transportation and Infrastructure Resolution, Docket Number 2644, adopted on June 21, 2000, reading: "Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, that the Secretary of the Army is requested to review the report of the Chief of Engineers on the Passaic River Mainstream project, New Jersey and New York, published as House Document 163, 101st Congress, 1st Session, and other reports to determine whether modifications of the recommendations contained therein are

advisable at the present time, in the interest of water resources development, including flood control, environmental restoration and protection, stream bank restoration, and other allied purposes for the Peckman River and tributaries, New Jersey."

2. A Public Scoping has been completed with the development of a Public Scoping Document. The meeting was held February 11, 2004, at the Little Falls Civic Center in Little Falls, NJ. All comments from public and agency scoping coordination will be addressed in the DEIS. Parties interested in receiving the Scoping Document should contact Bobbi Jo McClain at the above address.

3. A DEIS is due for completion by June 2006, as subject to availability of funds.

4. Federal agencies interested in participating as a Cooperating Agency are requested to submit a letter of intent to COL John B. O'Dowd, District Engineer, at the above address.

Leonard Houston,

Chief, Environmental Analysis Branch.

AGENCY: Department of the Army, DoD.

ACTION: Notice of meeting.

SUMMARY: In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name of Committee: Coastal Engineering Research Board (CERB).

Date of Meeting: June 7-9, 2004.

Place: The Traverse City Resort and Spa, 100 Grand Traverse Village Boulevard, Acme, MI 49610-0404.

Time: 6:30 p.m. to 8:30 p.m. (June 7, 2004); 8 a.m. to 5 p.m. (June 8, 2004); 8 a.m. to 5:30 p.m. (June 9, 2004).

FOR FURTHER INFORMATION CONTACT:

Inquiries and notice of intent to attend the meeting may be addressed to Colonel James R. Rowan, Executive Secretary, Commander, U.S. Army Engineer Research and Development Center, Waterways Experiment Station, 3909 Halls Ferry Road, Vicksburg, MS 39180-6199.

SUPPLEMENTARY INFORMATION:

Proposed Agenda: The theme of the meeting is "Great Lakes System

Management." On Monday evening, June 7, there will be an icebreaker. The morning presentations on Tuesday, June 8, during the panel "Great Lakes (GL) System Management," will include: "GL Coastal Setting and Processes,"

"Managing the GL System (International Joint Commission Initiatives and Research Needs)," "Integrated Ocean Observing System," "Hydrodynamic Modeling Needs (WIS, Nearshore Circulation)," "GL Tributary Modeling Program," "Innovations in Erosion Control (Section 227 at Allegan and Sheldon)," and "States Perspective Coastal Zone Management in the Great Lakes." The afternoon presentations during the panel entitled "Regional Sediment Management (RSM) in the Great Lakes," will include "Litigation Aspects of RSM," "Lake Michigan Regional Sediment Management Demo (Michigan City to Indiana Dunes)," "Lake Ontario and St. Lawrence Seaway Coastal Processes," and "GL Erosion Process Modeling and Damage Potential Analysis." On Wednesday, June 9, presentations during the panel entitled, "Sustaining Coastal Infrastructure," will include "Business Drivers—Maintaining the GL Navigation System," "Bacterial Contamination of Beach Sands," and "Clean Beaches Council and Sustainable Beaches Summit." During the afternoon, the members of the Board will tour the area via helicopter and will meet in an Executive Session. The attendees will take a bus tour.

These meetings are open to the public; participation by the public is scheduled for 4:15 p.m. on June 8.

The entire meeting is open to the public, but since seating capacity of the meeting room is limited, advance of notice of intent to attend, although not required, is requested in order to assure adequate arrangements. Oral participation by public attendees is encouraged during the time scheduled on the agenda; written statements may be submitted prior to the meeting or up to 30 days after the meeting.

James R. Rowan,

Colonel, Corps of Engineers, Executive Secretary.

BILLING CODE 3710-61-M

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites

comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before July 13, 2004.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: May 10, 2004.

Angela C. Arrington,

Leader, Regulatory Information Management Group, Office of the Chief Information Officer.

Institute of Education Sciences

Type of Review: New.

Title: Evaluation of Educational Technology Interventions.

Frequency: Semi-Annually.

Affected Public: Individuals or household; Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 10,200.

Burden Hours: 23,280.

Abstract: The Evaluation of Educational Technology Interventions is a Congressionally mandated study addressing questions of whether the use of educational technology in classrooms improves student learning, and whether conditions and practices in classrooms are related to whether technology is effective. The study will randomly assign classrooms to use educational technology products to ensure that technology effects are measured using a scientifically rigorous design.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2551. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be electronically mailed to the Internet address OCIO_RIMG@ed.gov or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Kathy Axt at her e-mail address Kathy.Axt@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Agency Information Collection Activities OMB Responses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document announces the Office of Management and Budget's (OMB) responses to Agency clearance requests, in compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

FOR FURTHER INFORMATION CONTACT: Susan Auby (202) 566-1672, or e-mail at auby.susan@epa.gov and please refer to the appropriate EPA Information Collection Request (ICR) Number.

SUPPLEMENTARY INFORMATION:

OMB Responses To Agency Clearance Requests**OMB Approvals**

EPA ICR No. 1926.03; NSPS for Commercial and Industrial Solid Waste Incineration Units; in 40 CFR part 60, subpart CCCC, was approved 03/15/2004; OMB Number 2060-0450; expires 03/31/2007.

EPA ICR No. 1797.03; NSPS for Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction of Modification Commenced after June 11, 1973, and Prior to May 19, 1978; in 40 CFR part 60, subpart K, was approved 3/15/2004; OMB Number 2060-0442; expires 03/31/2007.

EPA ICR No. 2147.01; Pesticide Registration Fee Waiver Processing; Emergency Processing Request; was approved 03/16/2004; OMB Number 2070-0167; expires 09/30/2004.

EPA ICR No. 0010.10; Information Requirements for Importation of Nonconforming Vehicles; in 40 CFR part 83, subparts P and R; was approved 03/26/2004; OMB Number 2060-0095; expires 03/31/2007.

EPA ICR No. 0282.13; Emission Defect Information Reports and Voluntary Emission Recall Reports; in 40 CFR part 85, subpart T, 40 CFR part 89, subpart I, 40 CFR part 90, subpart I, 40 CFR part 91, subpart J, 40 CFR part 92, subpart E; was approved 03/26/2004; OMB Number 2060-0048; expires 03/31/2007.

EPA ICR No. 1774.03; Mobile Air Conditioner Retrofitting Program; was approved 03/18/2004; OMB Number 2060-0350; expires 03/31/2007.

EPA ICR No. 2080.02; Motor Vehicle and Engine Compliance Program Fees (Final Rule); in 40 CFR 86.980, 40 CFR 83.2406-85.2408; was approved 03/18/2004; OMB Number 2060-0545; expires 03/31/2007.

EPA ICR No. 1845.03; Production Line Testing, In-use Testing, and Selective Enforcement Auditing Reporting and Recordkeeping Requirements for Manufacturers of Nonroad Spark Ignition Engines at or below 19 Kilowatts; in 40 CFR part 90; was approved 03/26/2004; OMB Number 2060-0427; expires 03/31/2007.

EPA ICR No. 0309.11; Registration of Fuels and Fuel Additives: Requirements for Manufacturers; in 40 CFR part 79, subparts A, B, C, D and F; was approved 03/26/2004; OMB Number 2060-0150; expires 03/31/2007.

EPA ICR No. 0783.46; Motor Vehicle Emission Standards and Emission Credits Provisions (Information Requirement for Highway Motorcycles) (Final Rule Revision); in 40 CFR part 1051, and 40 CFR part 94; was approved

03/26/2004; OMB Number 2060-0104; expires 07/31/2005.

EPA ICR No. 1072.07; NSPS for Lead-Acid Battery Manufacturing; in 40 CFR part 60, subpart KK; was approved 03/15/2004; OMB Number 2060-0081; expires 03/31/2007.

EPA ICR No. 2115.01; NESHAP for Miscellaneous Coating Manufacturing; in 40 CFR part 63, subpart HHHHH, was approved 04/05/2004; OMB Number 2060-0535; expires 04/30/2007.

EPA ICR No. 1963.02; NESHAP for Organic Liquids Distribution (Non-Gasoline) Facilities, in 40 CFR part 63, subpart EEEE, was approved 04/07/2004; OMB Number 2060-0539; expires 04/30/2007.

EPA ICR No. 1056.08; NSPS for Nitric Acid Plants; in 40 CFR part 60, subpart G, was approved 04/21/2004; OMB Number 2060-0019; expires 04/30/2007.

EPA ICR No. 1652.05; NESHAP for Halogenated Solvent Cleaning; in 40 CFR part 63, subpart T, was approved 04/19/2004; OMB Number 2060-0273; expires 04/30/2007.

EPA ICR No. 1927.03; Emission Guidelines for Commercial and Industrial Solid Waste Incineration Units; in 40 CFR part 60, subpart DDDD; was approved 04/21/2004; OMB Number 2060-0451; expires 04/30/2007.

EPA ICR No. 1907.03; Recordkeeping and Reporting Requirements Regarding the Sulfur Content of Motor Vehicle Gasoline Under the Tier 2 Rule; in 40 CFR part 80, subpart H; was approved 04/02/2004; OMB Number 2060-0437; expires 04/30/2007.

Short Term Extensions

EPA ICR No. 1953.02; Best Management Practices Alternatives, Effluent Limitations Guidelines and Standards, Oil and Gas Extraction Point Source Category; in 40 CFR part 435; OMB Number 2040-0230; on 04/26/2004 OMB extended the expiration date to 07/31/2004.

EPA ICR No. 1049.09; Notification of Episodic Releases of Oil and Hazardous Substances; OMB Number 2050-0046; OMB extended the expiration date to 07/31/2004.

Comment Filed

EPA ICR No. 1718.05; Recordkeeping and Reporting Requirements for the Fuel Quality Regulations for Nonroad, Locomotive, and Marine Diesel Fuel (Proposed Rule); in 40 CFR part 80; on 03/12/2004 OMB filed a comment.

EPA ICR No. 2130.01; Transportation Conformity Determination for Funded and Approved Plans, Program and Projects under the New 8-hour Ozone and PM_{2.5} NAAQPS (Proposed Rule); on 04/04/2004 OMB filed a comment.

Improperly Submitted

EPA ICR No. 1887.03; Personal Exposure of High-Risk Subpopulations to Particles (Additional of Detroit Exposure and Aerosol Research Study DEARS); was improperly submitted to OMB on 04/22/2004.

Dated: May 3, 2004.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[OECA-2004-0026, ER-FRL-6651-3]

Agency Information Collection Activities: Proposed Collection; Comment Request; Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Renewal), EPA ICR Number 1808.04, OMB Control Number 2020-0007

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB). This is a request to renew an existing approved collection. This ICR is scheduled to expire on October 31, 2004. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before July 13, 2004.

ADDRESSES: Submit your comments, referencing docket ID number OECA-2004-0026, to EPA online using EDOCKET (our preferred method), by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code: 2201T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Katherine Biggs, Office of Federal Activities, Mail Code 2252A, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-7144; fax number: (202) 564-0072;

e-mail address:

biggs.katherine@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has established a public docket for this ICR under Docket ID number OECA-2004-0026, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center is (202) 564-1927. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's Federal Register notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Affected entities: Entities potentially affected by this action are all nongovernmental operators with activities in Antarctica, including tour operators, for which the United States is required to give advance notice under

paragraph 5 of Article VII of the Antarctic Treaty of 1959; this includes all nongovernmental expeditions to and within Antarctica organized in or proceeding from the territory of the United States.

Title: Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Renewal), EPA ICR Number 1808.04, OMB Control Number 2020-0007.

Abstract: The Environmental Protection Agency's (EPA's) regulations at 40 CFR Part 8, Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Final Rule), were promulgated pursuant to the Antarctic Science, Tourism, and Conservation Act of 1996 (Act), 16 U.S.C. 2401 *et seq.*, as amended, 16 U.S.C. 2403a, which implements the Protocol on Environmental Protection (Protocol) to the Antarctic Treaty of 1959 (Treaty). The Final Rule provides for assessment of the environmental impacts of nongovernmental activities in Antarctica, including tourism, for which the United States is required to give advance notice under Paragraph 5 of Article VII of the Treaty, and for coordination of the review of information regarding environmental impact assessments received from other Parties under the Protocol. The requirements of the Final Rule apply to operators of nongovernmental expeditions organized in or proceeding from the territory of the United States to Antarctica and include commercial and non-commercial expeditions. Expeditions may include ship-based tours; yacht, skiing or mountaineering expeditions; privately funded research expeditions; and other nongovernmental activities. The Final Rule does not apply to individual U.S. citizens or groups of citizens planning to travel to Antarctica on an expedition for which they are not acting as an operator. (Operators, for example, typically acquire use of vessels or aircraft, hire expedition staff, plan itineraries, and undertake other organizational responsibilities.) The Final Rule provides nongovernmental operators with the specific requirements they need to meet in order to comply with the requirements of Article 8 and Annex I to the Protocol. The provisions of the Final Rule are intended to ensure that potential environmental effects of nongovernmental activities undertaken in Antarctica are appropriately identified and considered by the operator during the planning process and that to the extent practicable, appropriate environmental safeguards which would mitigate or prevent adverse impacts on the Antarctic

environment are identified by the operator.

Environmental Documentation.

Persons subject to the Final Rule must prepare environmental documentation to support the operator's determination regarding the level of environmental impact of the proposed expedition. Environmental documentation includes a Preliminary Environmental Review Memorandum (PERM), an Initial Environmental Evaluation (IEE), or a Comprehensive Environmental Evaluation (CEE). The environmental document is submitted to the Office of Federal Activities (OFA). If the operator determines that an expedition may have: (1) Less than a minor or transitory impact, a PERM needs to be submitted no later than 180 days before the proposed departure to Antarctica; (2) no more than minor or transitory impacts, an IEE needs to be submitted no later than 90 days before the proposed departure; or (3) more than minor or transitory impacts, a CEE needs to be submitted. Operators who anticipate such activities are encouraged to consult with EPA as soon as possible regarding the date for submittal of the CEE. (Article 3(4), of Annex I of the Protocol requires that draft CEEs be distributed to all Parties and the Committee for Environmental Protection 120 days in advance of the next Antarctic Treaty Consultative Meeting (ATCM) at which the CEE may be addressed.)

The Protocol and the Final Rule also require an operator to employ procedures to assess and provide a regular and verifiable record of the actual impacts of an activity which proceeds on the basis of an IEE or CEE. The record developed through these measures needs to be designed to: (a) Enable assessments to be made of the extent to which environmental impacts of nongovernmental expeditions are consistent with the Protocol; and (b) provide information useful for minimizing and mitigating those impacts and, where appropriate, on the need for suspension, cancellation, or modification of the activity. Moreover, an operator needs to monitor key environmental indicators for an activity proceeding on the basis of a CEE. An operator may also need to carry out monitoring in order to assess and verify the impact of an activity for which an IEE would be prepared. For activities that require an IEE, an operator should be able to use procedures currently being voluntarily utilized by operators to provide the required information. Should an activity require a CEE, the operator should consult with EPA to: (a) Identify the monitoring regime appropriate to that activity, and (b)

determine whether and how the operator might utilize relevant monitoring data collected by the U.S. Antarctic Program. OFA would consult with the National Science Foundation and other interested Federal agencies regarding the monitoring regime.

In cases of emergency relating to the safety of human life or of ships, aircraft, equipment and facilities of high value, or the protection of the environment which would require an activity to be undertaken without completion of the documentation procedures set out in the Final Rule, the operator would need to notify the Department of State within 15 days of any activities which would have otherwise required preparation of a CEE, and provide a full explanation of the activities carried out within 45 days of those activities. (During the time the Interim Final and Final Rules have been in effect, there were no emergencies requiring notification by U.S. operators. An Interim Final Rule was in effect from April 30, 1997, until replaced on December 6, 2001, by the Final Rule.)

Environmental documents (e.g., PERM, IEE, CEE) are submitted to OFA. Environmental documents are reviewed by OFA, in consultation with the National Science Foundation and other interested Federal agencies, and also made available to other Parties and the public as required under the Protocol or otherwise requested. OFA notifies the public of document availability via the World Wide Web at: <http://www.epa.gov/compliance/nepa/international/antarctica/index.html>. The types of nongovernmental activities currently being carried out (e.g., ship-based tours, land-based tours, flights, and privately funded research expeditions) are typically unlikely to have impacts that are more than minor or transitory, thus an IEE is the typical level of environmental documentation submitted. For the 1997-1998 through 2003-2004 austral summer seasons during the time the Interim Final Rule and Final Rule have been in effect, all respondents submitted IEEs with the exception of one PERM. Paperwork reduction provisions in the Final Rule that are used by the operators include: (a) Incorporation of material into the environmental document by referring to it in the IEE; (b) inclusion of all proposed expeditions by one operator within one IEE; (c) use of one IEE to address expeditions being carried out by more than one operator; and (d) use of multi-year environmental documentation to address proposed expeditions for a period of up to five consecutive austral summer seasons.

Coordination of Review of Information Received from Other Parties

to the Treaty. The Final Rule also provides for the coordination of review of information received from other Parties and the public availability of that information including: (1) A description of national procedures for considering the environmental impacts of proposed activities; (2) an annual list of any IEEs and any decisions taken in consequence thereof; (3) significant information obtained and any action taken in consequence thereof with regard to monitoring from IEEs and CEEs; and (4) information in a final CEE. This provision fulfills the United States' obligation to meet the requirements of Article 6 of Annex I to the Protocol. The Department of State is responsible for coordination of these reviews of drafts with interested Federal agencies, and for public availability of documents and information. This portion of the Final Rule does not impose paperwork requirements on any nongovernmental person subject to U.S. regulation.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The Supporting Statement for this ICR renewal, available at the public docket for this ICR under Docket ID number OECA-2004-0026, describes the models used for calculating the estimated respondent burden and cost for the various levels of environmental impact assessment documentation that may be submitted by the respondents under the Final Rule, including assessment and verification procedures and operation and maintenance (O&M). The

Supporting Statement also describes the model used for the estimated respondent burden and cost for emergency reporting.

Based on the environmental documentation submitted by operators for the past seven austral summer seasons and EPA's expectation of the types of nongovernmental activities likely to continue to be undertaken by U.S.-based operators, EPA anticipates that during the three-year period this information collection will be in effect, 17 operators with multi-year IEEs will submit supplemental information as annual updates. EPA further anticipates that two operators may submit revised IEEs, and three additional IEEs may be submitted for one-time only expeditions during each of the three years. EPA does not anticipate receiving any PERMs, CEEs, or emergency reporting. EPA expects the paperwork reduction measures in the Final Rule will continue to be used by the operators, and that the annual assessment and verification procedures associated with IEEs will continue. The burden and cost estimates include assessment and verification procedures and O&M. Based on these assumptions, the estimated 3-year total and annual average respondent burden is estimated as 1,275 hours, or 25 hours per operator per year. The estimated average time annually per respondent ranges from 25 to 185 hours depending on the level of environmental documentation and the paperwork reduction provisions employed by the respondent. The estimated 3-year total and annual average respondent cost is estimated as \$96,107, or \$1,884 per operator per year. The estimated average cost per respondent to prepare and submit environmental documentation for the first year ranges from \$1,820 to \$13,531, and the estimated average cost per respondent to prepare and submit environmental documentation for the subsequent two years this ICR would be in effect would range from \$1,917 to \$14,396, depending on the level of environmental documentation and the paperwork reduction provisions employed by the respondent.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: May 11, 2004.

Anne Norton Miller,
Director, Office of Federal Activities.

ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-6651-3]

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in the **Federal Register** dated April 2, 2004 (69 FR 17403).

Draft EISs

ERP No. D-FHW-F40422-IN Rating EC2, US 231 Highway Improvements Project, I-64 to IN-56 in Haysville, Funding, NPDES Permit and U.S. Army COE Section 10 and 404 Permits Issuance, Dubois County, IN.

Summary: EPA has environmental concerns with the proposed project regarding impacts to wetlands and upland forest ecosystems and the lack of complete conceptual mitigation plans for these impacts. EPA also recommends clarification on the purpose and need of the project.

ERP No. D-NOA-L64049-AK Rating LO, Bering Sea and Aleutian Islands King and Tanner Crab Fisheries and Fishery Management Plan, Implementation, United States Exclusive Economic Zone (EEZ) off Alaska.

Summary: EPA has no objection to the action as proposed.

ERP No. D-NOA-L91022-00 Rating EC2, Programmatic EIS—Pacific Coast Groundfish Bycatch Management, Establishment of Policies and Program Direction to Minimize Bycatch in the West Coast Groundfish Fisheries, Magnuson-Stevens Act, WA, OR and CA.

Summary: EPA expressed environmental concerns relating to bycatch issues.

Final EISs

ERP No. F-AFS-K65265-CA McNally/Sherman Pass Restoration Project, Fire Killed Trees Removal, Road Construction and Associated Restoration of the Burned Area, Sequoia National Forest, Cannell Meadow Ranger District, Tulare County, CA.

Summary: No formal comment letter was sent to the preparing agency.

ERP No. F-FHW-G50010-00 I-69 Mississippi River Crossing, Construction, from a western terminus at U.S. 65 near McGehee, AR to an eastern terminus at MS-1 near Benoit, MS, US Coast Guard Bridge Permit, U.S. Army Corps of Engineers Section 10 and 404 Permits and NPDES Permit Issuance, Desha County, AR and Bolivar County, MS.

Summary: No formal comment letter was sent to the preparing agency.

ERP No. F-NOA-C91004-00 Generic Essential Fish Habitat Amendment to Spiny Lobster, Queen Conch, Reef Fish and Coral Fishery Management Plans, Implementation, U.S. Caribbean Extending to U.S. Exclusive Economic Zone (EEZ), Virgin Islands and Puerto Rico.

Summary: No formal comment letter was sent to the preparing agency.

ERP No. F-NOA-D91000-00 Framework Adjustment 4 to the Atlantic Mackerel, Squid and Bullfish Fishery Management Plan, Implementation, Extension of Moratorium to the Illex Fishery, Fishery Management Council.

Summary: EPA has no objection to the action as proposed.

ERP No. F-NPS-F61021-WI Apostle Islands National Lakeshore Wilderness Study, Wilderness Designation or Nondesignation, Ashland and Bayfield Counties, WI.

Summary: EPA has no objection to the proposed action.

ERP No. FS-COE-E30038-FL Phipps Ocean Park Beach Restoration Project to Provide Shore Protection for the Shoreline surrounding Phipps Ocean Park within the Town of Palm Beach, Regulatory Authorization and U.S. Army COE Section 10 and 404 Section Permits Issuance, Palm Beach County, FL.

Summary: EPA has no objection to the proposed action.

Dated: May 11, 2004.

Ken Mittelholtz,

Environmental Protection Specialist, Office of Federal Activities.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7661-9]

Notice of Meeting of the EPA's Children's Health Protection Advisory Committee (CHPAC)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the next meeting of the Children's Health Protection Advisory Committee (CHPAC) will be held May 25-27, 2004 at the Hotel Washington, Washington, DC. The CHPAC was created to advise the Environmental Protection Agency on science, regulations, and other issues relating to children's environmental health.

DATES: The Science and Regulatory Work Groups will meet Tuesday May 25; Plenary sessions will take place Wednesday May 26 and Thursday May 27, 2004.

ADDRESSES: Hotel Washington, 515 15th Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Contact Joanne Rodman, Office of Children's Health Protection, USEPA, MC 1107A, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 564-2188, rodman.joanne@epa.gov.

SUPPLEMENTARY INFORMATION: The meetings of the CHPAC are open to the public. The Science and Regulatory Work Groups will meet Tuesday May 25 9 a.m. to 5 p.m. The plenary CHPAC will meet on Wednesday, May 26th 9 a.m. to 5 p.m., with a public comment period at 4:45 p.m., and on Thursday, May 27th from 9 am to 12:30 p.m.

The plenary session will open with introductions and a review of the agenda and objectives for the meeting.

Agenda items include highlights of the Office of Children's Health Protection (OCHP) activities and a presentation on the National Children's Study. Other potential agenda items include a presentation on lead in drinking water and EPA activities concerning children's health in schools.

Dated: May 5, 2004.

Joanne K. Rodman,
Designated Federal Official.

Children's Health Protection Advisory Committee

Hotel Washington, 515 15th Street, NW.,

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2003-0411; FRL-7357-9]

Pesticide Tolerance Reassessment and Reregistration; Public Participation Process

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's public participation process for its

pesticide tolerance reassessment and reregistration programs. EPA and the U.S. Department of Agriculture (USDA) jointly developed the public participation process to increase transparency and stakeholder involvement in the development of pesticide risk assessments and risk management decisions. Since August 1998, EPA and USDA have been actively employing a pilot public participation process for the tolerance reassessment and reregistration of organophosphate pesticides, which was developed in consultation with the Tolerance Reassessment Advisory Committee (TRAC). EPA and USDA recognized that consideration needed to be given as to whether the pilot public participation process or some modification of it should be adopted as the public participation process that would be used for tolerance reassessment and reregistration of all pesticides. A public participation process was proposed in the *Federal Register* on March 15, 2000, for public comment.

FOR FURTHER INFORMATION CONTACT: Carol P. Stangel, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8007; fax number: (703) 308-8005; e-mail address: stangel.carol@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of particular interest to stakeholders including environmental, human health, public health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the use of pesticides on food. Other Federal, state, and Tribal government agencies also may be interested. Since other entities also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket*. EPA has established an official public docket for this action under docket identification (ID) number OPP-2003-0411. The official public docket consists of the documents

specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access*. You may access this *Federal Register* document electronically through the EPA Internet under the "*Federal Register*" listings at <http://www.epa.gov/fedrgrstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. What Action is EPA Taking?

A. Background

EPA is making available to the public the full and modified versions of the public participation process that will be used for pesticide tolerance reassessment and reregistration. This public participation process was developed in partnership with USDA. EPA has considered the comments received from the public on the proposed public participation process that was published in the *Federal Register* on March 15, 2000 (65 FR 14199) (FRL-6496-2). EPA's response to public comments is available in the docket under docket ID number OPP-2003-0411.

This public participation process is based on EPA and USDA's experiences with the pilot public participation process used for the organophosphate pesticides, comments received from the Tolerance Reassessment Advisory Committee and the public during the public comment period, and our experience with the interim process

used in developing decisions for a number of non-organophosphate pesticides during the past few years. EPA remains strongly committed to public participation, and as a result of the experience gained from the pilot, has learned how to effectively tailor our public participation process to meet the needs of our stakeholders in the most efficient and timely manner possible. The public participation process encompasses full and modified versions that enable EPA to tailor the level of review to the level of risk, use, complexity, and public concern associated with each pesticide. Highlights of the public participation process include increased communication with stakeholders prior to initiating the process, meetings and conference calls with stakeholders and our regulatory partners throughout the process, public meetings as appropriate on the risk assessments and risk reduction proposals, and scheduled public comment periods on risk assessments and risk reduction proposals. In addition, the public participation process emphasizes increased communication among those Federal government agencies concerned with pesticides and pest management - EPA and primarily USDA, the Food and Drug Administration (FDA), the Centers for Disease Control and Prevention (CDC) of the Department of Health and Human Services, which has the lead in working with EPA to address public health pesticide issues, and the Department of the Interior, Department of Commerce, and Department of Defense, as appropriate.

EPA is applying the full public participation process or one of the modified versions described below to all pesticides beginning tolerance reassessment and reregistration eligibility decision making. The decision to extend an updated version of the organophosphate pilot process to all pesticides still to be reviewed for reregistration and tolerance reassessment was supported by public comment. Implementation of the public participation process is proceeding according to schedules established annually and published in the Agency's **Federal Register** notices on Pesticide Reregistration Performance Measures and Goals, posted on EPA's Web site at <http://www.epa.gov/pesticides/reregistration/status.htm>. Schedules for upcoming reregistration eligibility and tolerance reassessment decisions also are posted on the Agency's Web site at <http://www.epa.gov/pesticides/reregistration/candidates.htm>.

EPA seeks to achieve environmental justice, the fair treatment and

meaningful involvement of all people, regardless of race, color, national origin, or income, in the development, implementation, and enforcement of environmental laws, regulations, and policies. In working to achieve this goal, the Agency recognizes the need to identify and address, as appropriate, disproportionately high pesticide exposure and potential adverse human health and environmental effects on minority or low-income populations. This public participation process provides an opportunity to obtain additional information that will enable the Agency to consider environmental justice in its pesticide reregistration and tolerance reassessment decision-making.

EPA will continue to issue risk management decisions for certain uses of pesticides at any time before or during the public participation process if such action is warranted by high risk concerns identified in the risk assessments. While EPA may exercise this authority at any time during this process, the Agency will work to ensure that USDA and as appropriate other Federal agencies, EPA's state and Tribal regulatory partners, and stakeholders, including proponents of public health pesticide uses, will be involved in the process.

1. *Modifications to the public participation process.* EPA is applying the principles of public participation to all pesticides undergoing tolerance reassessment and reregistration. In conducting these programs, the Agency reserves the right to tailor its public participation process to be commensurate with the level of risk, extent of use, overall complexity of the issues, and amount of public concern associated with each individual pesticide.

EPA's experience during the past several years has been that the full, 6-phase public participation process is not necessary for many pesticides under review. In most cases, the Agency can use a 4-phase process, or shorter, to obtain public input as needed while making timely decisions and meeting our statutory deadlines and program goals. Today, many initial pesticide risk assessments are highly refined, or pesticide risk screening studies are available in the public literature to adequately characterize risks. The Agency often can reach conclusions about risk and the need for risk mitigation early in the process. In such cases, EPA accelerates the process to avoid unnecessary delays in completing decisions. Tailoring the public participation process in this manner is good public policy -- it enables EPA and others to target resources most

effectively, and avoids process for its own sake, while still providing transparency and opportunities for consultation and public participation. Such a flexible, tailored process is essential to meeting the Agency's tolerance reassessment and reregistration deadlines and goals.

During the past several years, alterations to the public participation process have typically included a tailoring of the stakeholder communication opportunities. For example, the public participation process has often been modified for pesticides with a small number of users by substituting a stakeholder meeting(s) for a technical briefing upon release of the risk assessments for public comment in Phase 3. (Stakeholder meetings are opportunities for stakeholder groups to meet with EPA, USDA, and other appropriate Federal government agencies to discuss specific uses of the pesticide that are of significant concern to them, whereas technical briefings provide a general overview of the pesticide's risk assessments.) In another example, pesticides with highly refined risk assessments, limited use, low risk concerns, few complex issues, and/or low public interest may need only one public comment period, at most, as long as appropriate consultation opportunities are utilized.

EPA will inform the public of any modifications to the public participation process that will be used for a specific pesticide.

a. *4-Phase process.* A modified, 4-phase public participation process often is appropriate for pesticides with highly refined risk assessments and other factors. A pesticide with highly refined risk assessments that requires some risk mitigation - and that has limited use, a small number of users, few complex issues, few interested stakeholders, and/or other factors - may need only one public comment period, as long as ample opportunity for public consultation is afforded. The 4-phase process provides a framework for public input and consultation among government agencies and stakeholders during EPA's review of such pesticides.

b. *Low risk process.* EPA has found that we can expeditiously reach decisions for certain pesticides, that pose few or no risk concerns and require little or no risk mitigation. These pesticides often show low levels of (non-target) toxicity and/or pass through screening models and show very low levels of risk. Agency toxicology reviews for these pesticides may be supplemented with studies available in the public literature. These pesticides may have low use, and they do not raise

complex issues or public concerns. Once EPA assesses uses and risks for such pesticides and finds that little or no risk mitigation is needed, the Agency may go straight to a decision and prepare a document summarizing its findings. This decision document and the risk assessments and other related documents will be issued simultaneously for public review and comment.

c. *Pesticides needing only tolerance reassessment decisions.* EPA anticipates that a modified version of the public participation process, that is, a 4-phase or low risk single phase process as described above, generally will be appropriate for pesticides that require tolerance reassessment but do not also require reregistration eligibility decisions at this time.

Many pesticides are subject to both tolerance reassessment and reregistration; however, some pesticides require only tolerance reassessment decisions at present. Tolerances were established for these pesticides before the Food Quality Protection Act (FQPA) was enacted on August 3, 1996; now the Agency must apply the new, stricter standards brought about by that law to the existing tolerances. While their tolerances must be reassessed to ensure compliance with current standards, these pesticides do not need to undergo reregistration because:

a. EPA completed Reregistration Eligibility Decisions for the pesticides earlier, before FQPA was enacted.

b. The pesticides were initially registered after November 1, 1984, and are not subject to reregistration.

c. The pesticides are not registered for use in the United States but tolerances are established that allow crops treated with them to be imported from other countries.

Tolerance reassessment decisions, involving only the assessment and management of a pesticide's aggregate risks through food, drinking water, residential, and any other non-occupational exposures, generally are narrower in scope and have fewer issues than decisions including both tolerance reassessment and reregistration eligibility. In cases where EPA's assessment indicates that low or no aggregate risks are posed and little or no risk mitigation is needed, a modified process provides transparency and opportunities for consultation and public input, while enabling EPA to complete a tolerance reassessment decision expeditiously. A modified process also facilitates the Agency's continuing completion of tolerance reassessment within statutory deadlines.

2. *Pesticide registration - process for tolerance reassessment through registration and revocation.* Through the Agency's routine pesticide registration process, EPA also may complete tolerance reassessment decisions and provide opportunities for public participation through notice and comment rulemaking. No additional public participation is needed or envisioned for these decisions.

a. *Registration.* EPA completes certain tolerance reassessment decisions during the pesticide registration process, in evaluating proposed new food uses for registered pesticides. To determine whether a proposed new food use meets the current safety standard, EPA first must reassess all the existing tolerances established for the pesticide. These tolerance reassessment decisions are made through the notice and comment rulemaking process used to establish the new food use tolerance.

b. *Revocation.* EPA completes other tolerance reassessment decisions by revoking tolerances for pesticide uses that have been voluntarily canceled by their registrants. In handling these tolerance revocation requests, the Agency also uses a notice and comment rulemaking process to inform and involve the public.

B. *The Public Participation Process*

The number of days indicated for each phase of the process represents EPA's goal for each phase; however, the circumstances of a particular evaluation may require the Agency to adjust the length of these phases.

EPA will inform the public well in advance about pesticides that are scheduled for the public participation process. Registrants will be asked to identify any ongoing studies and analyses that are relevant to the risk assessments, and EPA will establish for each pesticide the due dates for the submission of data, information, and analyses. In this way, the public will be able to prepare for the initiation of the public participation process for pesticides that they may be interested in. Registrants and the public may prepare data and information for consideration by the Agency.

1. *The full public participation process.* The full public participation process is described below.

a. *Pre-phase 1—Stakeholder and government Agency engagement, and develop updated pesticide use and usage information.* A significant focus of the process is to engage stakeholders as early as possible to ensure the accuracy of key information on pesticide use and use practices that affect risk assessment. The information on current labeled

uses, actual pesticide use and usage, and other information on pesticide use practices serves as important building blocks for the dietary, residential, worker, and ecological exposure and risk assessments. Pre-Phase 1 ideally begins approximately 1 year prior to the formal initiation of the public participation process (i.e., release of the risk assessments to the registrants for error correction). Initially, EPA shares information describing EPA's understanding of currently labeled pesticide uses and summary usage information with USDA and other appropriate Federal, state, and Tribal government agencies and with key stakeholders, including as appropriate the public health use community, and posts this information on the Internet for public viewing. EPA also reviews any already completed Agency assessments for the pesticide (for example, from pesticide program registration-related records and files) and identifies crops and other use sites for which updated use and usage information could be particularly valuable in developing the risk assessments for public review and comment. To help address potential environmental justice issues, EPA seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical, unusually high exposure to the pesticide, compared to the general population.

To initiate Pre-Phase 1 for a pesticide, EPA, USDA, and other Federal government agencies may work cooperatively to organize a meeting or meetings with interested stakeholders who possess unique and specific information on a pesticide's use and usage, and encourage them to share their information with the agencies. One of the objectives of these meetings is to allow for the early refinement of key use-related inputs to the dietary, residential, worker, and ecological risk assessments. Ideally, this early input and sharing of key use-related information will result in more accurate and representative risk assessment documents earlier in the process. Within 60 days after the use/usage meeting(s), and following its verification and analysis, EPA provides an updated summary of its understanding of current use, usage, and use practices for crops and other use sites to be included in the pesticide's risk assessments. Stakeholders' submissions are compiled and made publically available (preferably on the Internet) to encourage further discussion. This updating may

continue throughout the process as additional use/usage information becomes available to the Agency.

b. *Phase 1—Risk assessment registrant error-only review (30 Days).* EPA initiates the public participation process by transmitting its human health and ecological risk assessments to technical registrant(s) of the pesticide for a 30-day error correction review. The registrants are asked to identify and correct any computational or other errors that EPA has made in developing its assessment of the pesticide's risks. Registrants are asked again about due dates for the submission of data and information to EPA, and for an indication of how any additional studies or analyses may change the risk assessments. EPA will not delay its work in assessing the potential risks associated with the use of the pesticide when a study submission date is beyond the time frame for the public participation process.

EPA, working with TRAC, determined that it was appropriate to provide registrants with this opportunity to review the initial risk assessments, prior to their public release, so that the registrants could provide comments on any errors in the documents, such as in data transcription or calculations, that might result in erroneous risk estimates. Comments on the analysis and interpretation of the data are not expected in this phase of the process, and any such comments received will be considered during Phase 3, along with comments received from other stakeholders.

Soon after the risk assessments are sent to registrants, EPA transmits the risk assessments to USDA and other appropriate Federal government agencies to initiate their review and comment. If the pesticide has public health uses, then the risk assessments would be sent to CDC and other relevant agencies as appropriate at this time.

c. *Phase 2—Agency considers registrant error comments (Up to 30 Days).* In Phase 2, EPA summarizes and considers the errors that have been identified by the registrant(s) and makes changes in the risk assessments to correct any errors, as appropriate. EPA also considers risk assessment comments received from the initial review by USDA and other Federal government agencies, and transmits an overview that summarizes the pesticide's risk assessments to USDA and other appropriate Federal agencies. By the end of this phase, the risk assessments are prepared for public release. Discussions with other Federal government agencies on comments and

issues will continue throughout the public participation process, as needed.

d. *Phase 3—Public Participation period: public comment on risk assessments and risk characterization (60 to 90 Days).* Phase 3 provides the public and pesticide registrants with an opportunity to comment on the pesticide's risk assessments. The phase begins when EPA publishes in the **Federal Register** a Notice of Availability of the risk assessments and related documents (e.g., overview, summary, registrant's error comments, and EPA's response to comments, etc.) for a 60- to 90-day public review and comment period. The length of the public comment period will be set according to the complexity of the risk issues associated with the pesticide in order to give stakeholders adequate time for review and comment. The summary documents will clearly characterize the risks associated with each use of the pesticide, and identify areas that the risk assessment indicates may be of concern (e.g., dietary risks). To help address potential environmental justice issues, EPA requests information on any groups or segments of the population who may have atypical, unusually high exposure to the pesticide, compared to the general population. All of the documents will be made available in the public docket and in the EDOCKET on EPA's Internet website.

In addition, an effort will be initiated among Federal government agencies to engage stakeholders in a dialogue on the risk assessments and risk characterization; this effort will continue through Phase 5 of the public participation process. EPA will keep its state and Tribal partners informed and will bring them into the dialogue as appropriate. During Phase 3, EPA (and USDA) also may begin to solicit input from stakeholders on the role and importance of the pesticide in pest management for particular crops and/or uses. For pesticides with public health uses, EPA will begin to solicit input on the role and importance of these uses from interested stakeholders and CDC. In some situations, EPA could begin to consult with CDC earlier.

e. *Phase 4—EPA Revises risk assessments and develops preliminary risk reduction options (up to 90 days).* EPA considers comments and information received from stakeholders during Phase 3. The Agency then develops the revised risk assessments and preliminary risk reduction options.

If as a result of comments received during Phase 3 EPA finds that issues can be resolved without a second comment period, the Agency may proceed directly to Phase 6 and develop

a risk management decision, which the Agency will issue for public review and comment.

When potential risk reduction measures include changes that significantly affect a pesticide's use, EPA may prepare and release an initial characterization of the benefits of the pesticide for particular uses, early in Phase 4. When agricultural uses (including turf, ornamental, and forestry uses) are affected, EPA will consult with USDA, and stakeholders as needed, regarding the potential benefits and risk reduction proposals. EPA will consult with CDC on the benefits of public health uses, with other agencies as appropriate, and with other parties who commented during Phase 3.

A Federal interagency senior management briefing may be held to discuss the revised risk assessments and preliminary risk reduction options. EPA also will keep its state and Tribal regulatory partners informed, and may hold a regulatory partners conference call with interested states and Tribes to discuss the risk assessments and initial risk reduction options.

USDA, when appropriate, will organize conference calls with stakeholders to review and discuss the revised risk assessments and preliminary risk reduction options. Minutes from all meetings and conference calls that EPA participates in will be included in the public docket. EPA and USDA will work to summarize and address the comments and ideas received during the stakeholder conference calls. In addition, an effort will be made among Federal government agencies to continue to engage stakeholders in a dialogue on the risk assessments and risk characterization, and to discuss pesticide benefits and transition. This effort may continue through Phase 6 of the public participation process.

Where EPA deems appropriate, a comprehensive, general technical briefing and/or smaller, more specifically focused stakeholder meeting(s) (as appropriate for pesticides with limited use and usage, a small number of stakeholders, or other factors) may be held at the end of Phase 4 to share with the public the revised risk assessments and begin discussing the range of possible risk reduction options.

f. *Phase 5—Public participation period: public comment on risk reduction (60 days).* EPA publishes a **Federal Register** Notice of Availability announcing the release to the public of the revised risk assessments and the Agency's response to public comments. This **Federal Register** notice will also announce the release of EPA's

preliminary risk reduction options, EPA's initial assessment of the impacts of risk reduction options, and/or EPA's preliminary assessment of benefits in cases where the Agency has identified risks of concern, and a discussion of any potential transition issues identified by USDA, CDC, and other agencies as appropriate. The **Federal Register** notice will open a 60-day (or longer, if needed) comment period during which the public is encouraged to comment on the preliminary risk reduction options, the initial impacts and/or preliminary benefits assessment(s) described above, and any transition issues. The public also is encouraged to suggest risk management proposals.

The effort among Federal government agencies during Phase 5 to engage stakeholders in a dialogue on risk reduction and management, including EPA's regulatory partners as appropriate, may continue through Phase 6. For pesticides that pose risks of concern from a public health use, EPA will work closely with CDC and interested stakeholders to identify and propose mitigation measures to reduce those risks while maintaining the benefits of the pesticide's public health use to the greatest extent possible.

g. *Phase 6—Develop final risk management (up to 60 Days)*. In Phase 6, EPA summarizes, reviews, and considers the comments, data, and risk management ideas and proposals received during the Phase 5 public comment period, and during stakeholder dialogue and the meetings that have occurred during Phases 3 - 5. EPA continues to elicit input from USDA and other Federal government agencies, as well as EPA's regulatory partners and stakeholders. EPA develops the risk management documents, and a revised impacts assessment and/or benefits assessment, if needed. EPA releases to the public the risk management decisions for the pesticide, including the revised impacts and/or benefits assessment. USDA may prepare a transition strategy, if needed. The transition strategy is likely to include time frames in which EPA expects to make decisions regarding registration of new pesticides/uses.

2. *The modified public participation process*—a. *The 4-Phase Process*—Pre-Phase 1 - Stakeholder and government agency engagement, and develop updated pesticide use and usage information. Same as the full public participation process.

Phase 1 - Risk assessment registrant error-only review (30 Days). Same as the full public participation process.

Phase 2 - EPA considers registrant error comments on risk assessments,

and develops preliminary risk reduction options (30 to 60 Days). Phase 2 is the same as in the full public participation process. However, in addition to preparing the risk assessments for public release, EPA also develops preliminary risk reduction options, making a significant effort to consult with stakeholders and other Federal and state government agencies. Meetings, conference calls, and other discussions with stakeholders and other agencies on issues and risk reduction options will continue through Phases 3 and 4, as needed.

Phase 3 - Public participation period: public comment on risk assessments and preliminary risk reduction options (60 to 90 Days). Phase 3 provides the public and pesticide registrants an opportunity to comment on EPA's pesticide risk assessments, risk characterization, and preliminary risk reduction options, and to suggest risk management ideas and proposals. This phase begins when EPA publishes a **Federal Register** Notice of Availability announcing the release of the risk assessments and preliminary risk reduction options for 60 to 90 days of public comment. EPA releases the risk assessments and related documents through the public docket and EDOCKET on the Agency's website. During the comment period, to help address potential environmental justice issues, EPA requests information on any groups or segments of the population who may have atypical, unusually high exposure to the pesticide, compared to the general population. EPA continues significant efforts to consult with other government agencies and stakeholders on the pesticide's uses and possible risk management options.

Phase 4 - EPA Develops Final Risk Assessments And Risk Management (Up to 90 Days). EPA reviews and considers the comments and risk management ideas and proposals received during Phase 3, continues the ongoing dialogue with other government agencies and stakeholders as needed, and develops a risk management decision, which the Agency issues for public review and comment. If EPA finds that additional issues warranting further discussion were raised during Phase 3, the Agency may decide to lengthen the process and include a second comment period, as needed.

b. *The low risk process*. If EPA's initial screening of a pesticide indicates that it has low use/usage, affects few if any stakeholders or members of the public, and/or poses low risk and requires little or no risk mitigation, the Agency may determine that neither the full 6-phase process nor the modified

4-phase process is needed. In such cases, the Agency would go straight to a regulatory determination and prepare a decision document for the pesticide, concluding the review process. This decision document, the risk assessments, and other related documents will be issued for public review and comment.

List of Subjects

Environmental protection, Pesticides and pests.

Dated: May 6, 2004.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7661-6]

Draft Physical Stream Assessment: A Review of Selected Protocols for Use in the Clean Water Act Section 404 Program

AGENCY: Environmental Protection Agency (EPA); National Oceanic and Atmospheric Administration (NOAA), Commerce; U.S. Army Corps of Engineers (USACE), Defense; U.S. Fish and Wildlife Service (USFWS), Interior; Natural Resources Conservation Service (NRCS), Agriculture; Department of Transportation.

ACTION: Notice of availability to review and comment.

SUMMARY: In accordance with the National Mitigation Action Plan signed in December of 2002 by the Environmental Protection Agency, Department of Commerce, Department of Defense, Department of the Interior, Department of Agriculture, and Department of Transportation, the Federal Interagency Mitigation Workgroup (FIMW) commissioned the preparation of a technical resource document to assist with stream mitigation entitled: Physical Stream Assessment: A Review of Selected Protocols for use in the Clean Water Act (CWA) Section 404 Program (Stream Mitigation Compendium). The Stream Mitigation Compendium is intended as a reference that can be consulted by regulatory agencies, resource managers, and restoration ecologists in order to select, adapt, or devise stream assessment methods appropriate for impact assessment and mitigation of fluvial resources in the CWA Section 404 Program.

DATES: In order to be considered, comments must be postmarked or e-mailed on or before June 28, 2004.

ADDRESSES: Comments may be submitted electronically, by mail, or by hand delivery/courier. E-mail comments to mitigation@epa.gov. Please put "Stream Mitigation Compendium Comments" in the Subject Line and include your comments as an attachment to the email in either Word or Wordperfect format. Mail or hand deliver/courier comments to: Palmer Hough, U.S. Environmental Protection Agency, Wetlands Division (4502T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Mitigation Action Plan Web site at <http://www.mitigationactionplan.gov> or contact either Palmer Hough, U.S. Environmental Protection Agency, Wetlands Division (4502T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460, phone: (202) 566-1374, e-mail: Hough.Palmer@epa.gov or Alan Miller, U.S. Army Corps of Engineers, 441 G Street, NW., Washington, DC 20314-1000, phone: (202) 761-7763, e-mail: Alan.J.Miller@hq02.usace.army.mil.

SUPPLEMENTARY INFORMATION: Reports published in 2001 by the National Academy of Sciences (NAS) and the General Accounting Office (GAO) provided a critical evaluation of the effectiveness of wetlands compensatory mitigation for authorized losses of wetlands and other waters under Section 404 of the CWA. Section 404 regulates discharges of dredged and fill materials into waters of the United States and requires compensatory mitigation for unavoidable impacts. The independent analyses and other commentaries highlighted a number of shortfalls and identified a variety of technical, programmatic, and policy recommendations for the Federal agencies, States, and other involved parties.

An interagency team drafted the National Mitigation Action Plan endorsing the goal of no net loss of wetlands and outlining specific action items that address the concerns of the NAS, GAO, and other independent evaluations. The 17 actions, with various agency leads, address areas of concern, including collection and availability of data, clarifying performance standards, improving accountability, and integrating mitigation into the watershed approach. Development of the Stream Mitigation Compendium is one of these action items. The FIMW is seeking public review before finalizing this document.

Please note that comments, including names and street addresses of respondents, are available for public review in a docket. Copies of the draft Stream Mitigation Compendium are available at the Mitigation Action Plan Web site at <http://www.mitigationactionplan.gov> (Click on "Status of Action Items" and locate and click on "Stream Mitigation Compendium" in the summary table). A printed copy of this document can be obtained by contacting: Palmer Hough, U.S. Environmental Protection Agency, Wetlands Division (4502T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

Dated: May 10, 2004.

Benjamin H. Grumbles,
Acting Assistant Administrator for Water.

FEDERAL ACCOUNTING STANDARDS ADVISORY BOARD

New Exposure Draft Inter-Entity Cost Implementation: Amending SFFAS 4, Managerial Cost Accounting Standards and Concept and Research Report on Capital and Operating Leases

AGENCY: Federal Accounting Standards Advisory Board.

ACTION: Notice.

Board Action: Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), as amended, and the FASAB Rules of Procedure, as amended in October, 1999, notice is hereby given that the Federal Accounting Standards Advisory Board (FASAB) has published a new exposure draft, *Inter-Entity Cost Implementation: Amending SFFAS 4, Managerial Cost Accounting Standards and Concepts* and a Research Report on Capital and Operating Leases.

A summary of the proposed statement follows:

On April 26, 2004, the Federal Accounting Standards Advisory Board (FASAB) released for public comment an exposure draft (ED), *Inter-Entity Cost Implementation: Amending SFFAS 4, Managerial Cost Accounting Standards and Concepts*. The proposed standard would require full implementation of the inter-entity cost provision in Statement of Federal Financial Accounting Standards (SFFAS) 4, *Managerial Cost Accounting Standards and Concepts*.

The exposure draft is available on the FASAB home page http://www.fasab.gov/exposure_draft.htm. Copies can be obtained by contacting

FASAB at (202) 512-7350, or comesw@fasab.gov.

Respondents are encouraged to comment on any part of the exposure draft. Written comments are requested by July 31, 2004, and should be sent to: Wendy M. Comes, Executive Director, Federal Accounting Standards Advisory Board, 441 G Street, NW., Suite 6814, Mal Stop 6K17V, Washington, DC 20548.

A summary of the research report follows:

The objective of the research report is to develop a summary paper that permits staff and the Board to familiarize themselves with lease accounting under FASAB, FASB, GASB and international public sector accounting standards, and to familiarize them with global issues related to lease accounting. The report will also be used to aid in determining if new uses of leases by Federal entities create different and/or more urgent needs for FASAB guidance. An electronic version of the research report is available on the World Wide Web at <http://www.fasab.gov/reports.html>.

FOR FURTHER INFORMATION CONTACT: Wendy Comes, Executive Director, 441 G Street, NW., Washington, DC 20548, or call (202) 512-7350.

Authority: Federal Advisory Committee Act, Pub. L. 92-463.

Dated: May 10, 2004.

Wendy M. Comes,
Executive Director.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

May 7, 2004.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law No. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control

number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before July 13, 2004. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to Leslie.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Les Smith at (202) 418-0217 or via the Internet at Leslie.Smith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0188.
Title: Call Sign Reservation and Authorization System, FCC Form 380.
Form Number: FCC 380.
Type of Review: Extension of currently approved collection.
Respondents: Businesses or other for-profit, Not-for-profit institutions; and State, local, or tribal government.
Number of Respondents: 1,600.
Estimated Hours per Response: 0.166-0.5 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 333 hours.
Total Annual Cost: \$136,000.
Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR 73.3550 provides that all requests for new or modified call signs be made via the on-line call sign reservation and authorization. The FCC Form 380 is an on-line system for the electronic preparation and submission of requests for the reservation and authorization of new and modified call signs. Access to the call sign reservation and authorization system is made by broadcast licensees and permittees, or by persons acting on their behalf, via the Internet's World Wide Web. This on-

line, electronic call sign system enables users to determine the availability and licensing status of call signs; to request an initial, or change an existing, call sign; and to determine and submit more easily the appropriate fee, if any. 47 CFR Section 74.783 also permits any low power television (LPTV) station to request a four-letter call sign after receiving its construction permit. All initial LPTV construction permits will continue to be issued with a five-character alpha-numeric LPTV call sign. LPTV licensees/ permittees are also required to use the on-line call sign reservation and authorization system. The call sign reservation and authorization system is used by permittees, licensees or persons acting on their behalf to determine the availability of a call sign and to request an initial call sign or change an existing call sign.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.

BILLING CODE 6712-10-P

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved By Office of Management and Budget

April 10, 2004.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

FOR FURTHER INFORMATION CONTACT: Paul J. Laurenzano, Federal Communications Commission, 445 12th Street, SW., Washington DC 20554, (202) 418-1359 or via the Internet at plarenz@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0895.
OMB Approval Date: 3/26/2004.
Expiration Date: 3/31/2007.
Title: Numbering Resource Optimization, CC Docket No. 99-200.
Form No.: FCC Form 502.
Estimated Annual Burden: 5,400 responses; 181,890 total annual burden hours; 33-34 hours average per respondent.

Needs and Uses: Carriers that receive numbering resources from the North American Numbering Plan (NANP)

Administrator or that receive numbering resources from the Pooling Administrator in thousand-blocks must report forecast and utilization data semi-annually. These carriers are also required to maintain detailed internal records of their number usage. Carriers must file applications for initial and growth numbering resources. The information will be used by the FCC, state regulatory commissions, and the NANP Administrator to monitor numbering resource utilization and to project the date of area code and NANP exhaust.

OMB Control No.: 3060-0511.
OMB Approval Date: 4/16/2004.
Expiration Date: 4/30/2007.
Title: ARMIS Access Report.
Form No.: FCC 43-04.

Estimated Annual Burden: 84 responses; 12,852 total annual burden hours; 153 hours per respondent.

Needs and Uses: The Access Report is needed to administer the Commission's accounting, jurisdictional separations and access charge rule; to analyze revenue requirements and rates of return, and to collect financial data from Tier 1 incumbent local exchange carriers.

OMB Control No.: 3060-0410.
OMB Approval Date: 4/16/2004.
Expiration Date: 4/30/2007.

Title: Forecast of Investment Usage Report and Actual Usage of Investment Report.

Form No.: FCC 495A and FCC 499B.
Estimated Annual Burden: 192 responses; 7,680 total annual burden hours; 40 hours per respondent.

Needs and Uses: The Forecast of Investment Usage and Actual Usage of Investment Reports are needed to detect and correct forecast errors that could lead to significant misallocation of network plant between regulated and nonregulated activities. FCC's purpose is to protect the regulated ratepayer from subsidizing the nonregulated activities of rate regulated telephone companies. Only large ILECs file these reports.

OMB Control No.: 3060-1046.
OMB Approval Date: 5/05/2004.
Expiration Date: 5/31/2007.

Title: Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunication Act of 1996, CC Docket No. 96-128, Report and Order.

Form No.: N/A.
Estimated Annual Burden: 4,854 responses; 485,400 total annual burden hours; 100 hours per respondent.

Needs and Uses: The Commission issued a Report and Order (CC Docket 96-128/ FCC 03-235). In this proceeding, final rules were adopted

that altered the previous payphone compensation rules. The new rules place the liability to compensate payphone service providers (PSPs) for payphone-originated calls on the facilities-based long distance carriers from whose switches such calls are completed. The new rules were not put in effect immediately to allow industry time to prepare for implementation of the new rules. Accordingly, the Order initially adopted interim rules until the new rules become effective. The interim rules received OMB approval as of 11/14/2003 and are currently in effect. The Commission has now received OMB approval of the final rules. The interim rules will be vacated and the new rules will go into effect on July 1, 2004.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

May 7, 2004.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be

submitted on or before June 14, 2004. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments regarding this Paperwork Reduction Act submission to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., DC 20554 or via the Internet to *Judith.B.Herman@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at *Judith.B.Herman@fcc.gov*.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0799.

Title: FCC Ownership Disclosure Information for the Wireless Telecommunications Services.

Form No.: FCC Form 602.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 3,000.

Estimated Time Per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 3,000 hours.

Total Annual Cost: \$450,000.

Privacy Act Impact Assessment: Not applicable.

Needs and Uses: The purpose of this information collection is to obtain the identity of the applicant and to elicit information required by Section 1.2112 of the Commission's rules regarding: (1) persons or entities holding a 10% or greater direct or indirect ownership interest in the applicant; (2) all affiliates of the applicant pursuant to Section 1.2110; (3) all general partners in any general partnership in the applicant's chain of ownership; and (4) all the members of any limited liability corporation in the applicant's chain of ownership. The use of the FCC Form 602 has replaced FCC Form 430 for wireless services. The Commission has revised the FCC Form 602 to request additional information concerning if it's a proposed filing or a current filing along with clarification to the instructions.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[WC Docket No. 04-36; DA 04-1246]

FCC Announces Panelists for May 7, 2004 "Solutions Summit" on Disability Access Issues Associated With Internet-Protocol Based Communications Services

AGENCY: Federal Communications Commission.

ACTION: Announcement of meeting.

SUMMARY: This document invites interested persons to a Solutions Summit on Friday, May 7, 2004. The Solutions Summit is the second in a series where government, industry leaders and stakeholders can discuss creative ways to address policy issues that arise as communications services move to Internet-Protocol based platforms. This meeting will focus on the ways persons with disabilities access services increasingly based upon IP technologies.

DATES: The Solutions Summit will be held on Friday, May 7, 2004 from 9 a.m. to 1:15 p.m. in the Commission Meeting Room, Room TW-C305.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For more information about the Solutions Summit, please contact Kelly Jones at (202) 418-7078 (voice), (202) 418-1169 (TTY), or *Kelly.Jones@fcc.gov* (E-mail).

SUPPLEMENTARY INFORMATION: This second meeting will focus on accessibility of persons with disabilities, and on the particular challenges and opportunities created for persons with disabilities. The preliminary agenda for this second Solutions Summit is as follows:

Preliminary Agenda

9 a.m.-9:30 a.m.

Opening Remarks

Remarks by Commissioner Adelstein

Remarks by Commissioner Copps

9:30 a.m.-10:30 a.m.

Panel I: Opportunities IP-Enabled

Services Present

Moderator: K. Dane Snowden, FCC

- Cary Barbin, Gallaudet University, TAP

- Gunnar Hellstrom, Omnitor

- Harold Salters, T-Mobile USA

- Tom Wlodkowski, America Online

- Paul E. Jones, Cisco Systems

Panel II: Challenges IP-Enabled

Services Present for Persons with

Disabilities

Moderator: Robert Pepper, FCC

- Brenda Battat, SHHH
- Barry Andrews, 8X8
- Claude Stout, TDI
- Jim Tobias, Inclusive Technologies
- Nate Wilcox, Vermont E-9-1-1

11:55 a.m.–12:05 p.m.

Break

12:05 p.m.–1:05 p.m.

Panel III: Regulatory Impact on IP-Enabled Services and Accessibility for Persons with Disabilities

Moderator: Jeffrey Carlisle, FCC

- Ed Bosson, Texas PUC
- Paul Michaelis, Avaya
- Paul Schroeder, American Foundation for the Blind
- Gregg Vanderheiden, Trace R&D Center

1:05 p.m.–1:15 p.m.

Closing Remarks by Chairman Powell

Participants will include members of the disability community, industry representatives, and FCC staff.

Facilities

The FCC is located at 445 12th Street SW., Washington, DC 20554. Directions and a map of the streets near the FCC are available at <http://www.fcc.gov/portalsmap.html>. The Commission Meeting Room is equipped with a Wi-Fi Internet network, an assistive listening device system, and is accessible to persons with disabilities.

Security

Please note that the FCC is a federal building with security. All attendees will be required to pass through security and present a government-issued form of identification. The FCC's Commission Meeting Room will be opened early to facilitate access to the building; attendees are encouraged to allocate additional time to enter the building.

Webcast & Video

The Solutions Summit will be webcast live and also archived for later viewing. Access to and additional information concerning the webcast is available at <http://www.fcc.gov/realaudio/>. Open captioning will be provided for the webcast.

Reasonable Accommodations

Open captioning and sign language interpreters will be provided for this event. Other reasonable accommodations for people with disabilities are available upon request. Include a description of the accommodation you will need including as much detail as you can. Also include a way we can contact you if we need more information. Make your request as early as possible. Last minute requests

will be accepted, but may not be possible to fill. Send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau: For reasonable accommodations: (202) 418-0530 (voice), (202) 418-0432 (TTY). For accessible format materials (Braille, large print, electronic files, and audio format): (202) 418-0531 (voice), 202-418-7365 (TTY).

More Information

For additional information on Internet-Protocol enabled services, please visit the Web site at: <http://www.fcc.gov/voip>. For questions about WC Docket No. 04-36, contact Robert Pepper, Chief of Policy Development, at (202) 418-2030 (voice), or Robert.Pepper@fcc.gov (E-mail), or Jeff Carlisle, Senior Deputy Chief, Wireline Competition Bureau, at (202) 418-1500 (voice) or Jeffrey.Carlisle@fcc.gov (E-mail).

Federal Communications Commission.

P. June Taylor,

Chief of Staff, Consumer & Governmental Affairs Bureau.

BILLING CODE 6712-01-P

FEDERAL DEPOSIT INSURANCE CORPORATION**FDIC Advisory Committee on Banking Policy; Notice of Meeting****AGENCY:** Federal Deposit Insurance Corporation (FDIC).**ACTION:** Notice of open meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given of a meeting of the FDIC Advisory Committee on Banking Policy ("Advisory Committee"), which will be held in Washington, DC. The Advisory Committee will provide advice and recommendations on a broad range of issues relating to the FDIC's mission and activities.

Time And Place: Wednesday, June 2, 2004, from 9 a.m. to 3 p.m. The meeting will be held in the FDIC Board Room on the sixth floor of the FDIC Building located at 550 17th Street, NW., Washington, DC.

Agenda: The agenda items will include discussion of one or more of the following topics: Federal preemption of state laws, payday lending, Basel II capital requirements, the boundaries between banking and commerce, the ten-percent deposit cap and industry consolidation, the two-tiered approach to bank regulation, FDIC's Center for Financial Research, and recent proposed

revisions to the Community Reinvestment Act regulations. Agenda items are subject to change. Any changes to the agenda will be announced at the beginning of the meeting.

Type of Meeting: The meeting will be open to the public, limited only by the space available on a first-come, first-served basis. For security reasons, members of the public will be subject to security screening procedures and must present a valid photo identification to enter the building. The FDIC will provide attendees with auxiliary aids (e.g., sign language interpretation) required for this meeting. Those attendees needing such assistance should call (202) 416-2089 (Voice); (202) 416-2007 (TTY), at least two days before the meeting to make necessary arrangements. Written statements may be filed with the committee before or after the meeting.

FOR FURTHER INFORMATION CONTACT:

Requests for further information concerning the meeting may be directed to Mr. Robert E. Feldman, Committee Management Officer of the FDIC, at (202) 898-3742.

Dated: May 11, 2004.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Committee Management Officer.

BILLING CODE 6714-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Secretary's Advisory Committee on Blood Safety and Availability****AGENCY:** Office of the Secretary, Office of Public Health and Science.

ACTION: Solicitation of nomination for four vacancies on the Secretary's Advisory Committee on Blood Safety and Availability.

Authority: 42 U.S.C. 217a, Section 222 of the Public Health Service (PHS) Act, as amended. The Committee is governed by the provisions of Pub. L. 92-463, as amended (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of advisory committees.

SUMMARY: The Advisory Committee on Blood Safety and Availability (ASBSA) provides advice to the Secretary and to the Assistant Secretary for Health on a range of issues that include: (1) Definition of public health parameters around safety and availability of the blood supply, (2) broad public health, ethical, and legal issues related to blood safety, and (3) the implications for blood

safety and availability of various economic factors affecting product cost and supply. The current charter for the ACBSA expires October 9, 2004.

DATES: Nominations for membership on the Committee must be received no later than 5 p.m. e.s.t. on June 4, 2004, at the address below.

All Nominations Should Be Mailed or Delivered To: Dr. Jerry Holmberg, Executive Director, Advisory Committee on Blood Safety and Availability, 1101 Wooten Parkway, Suite 250, Rockville, MD 20852. Nominations will not be accepted by e-mail or facsimile.

FOR FURTHER INFORMATION CONTACT: CAPT Lawrence McMurtry, Deputy Secretary, Advisory Committee on Blood Safety and Availability, Department of Health and Human Services, Office of Public Health and Science, 1101 Wooten Parkway, Suite 250, Rockville, MD 20852. Telephone (301) 443-2823.

A copy of the Committee charter and list of the current membership can be obtained by contacting CAPT McMurtry or by accessing the ACBSA Web site at <http://www.dhhs.gov/bloodsafety>.

SUPPLEMENTARY INFORMATION:

Nominations

The ACBSA is requesting nominations to fill four positions that are scheduled to become vacant on October 1, 2004. Nominations of potential candidates for considerations are being sought from advocacy groups, provider blood organizations, academic researchers, ethicists, private physicians, scientists, consumer advocates, legal organizations, and from among communities of persons who are frequent recipients of blood or blood products including therapeutic protein products and their recombinant analogs. To qualify for consideration of appointment to the Committee, an individual must demonstrate experience and expertise in any of the several disciplines and field pertinent to blood and plasma therapeutics and/or clinical research.

Individuals selected for appointment to the Committee will serve as voting members. Individuals selected for appointment to the Committee will be invited to serve a term of up to three years. Compensation for Committee members includes a stipend and reimbursement for per diem and travel expenses incurred for attendance at Committee meetings, as well as to conduct other business matters in the interest of the ACBSA.

Nominations should be typewritten. The following information should be included in the package of material

submitted for each individual being nominated for consideration: (1) A letter of nomination that clearly states the name and organizational affiliation of the nominee, the basis for the nomination (*i.e.*, specific attributes which qualify the nominee for appointment to the Committee), and a statement that the nominee is willing to serve as a member of the Committee; (2) the nominator's name, address, and daytime telephone number, and the home and/or work address, telephone number, and email address of the individual being nominated; and (3) a current copy of the nominee's curriculum vitae. Federal employees should not be nominated for consideration of appointment to this Committee.

The Department of Health and Human Services (DHHS) makes every effort to ensure that the membership of its Federal advisory committees is fairly balanced in terms of points of view represented and the committee's function. Every effort is made to ensure that a broad representation of geographic areas, females, ethnic and minority groups, and the disabled are given consideration for membership on DHHS Federal advisory committees. Appointment to this Committee shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, disability, and cultural, religious, or socioeconomic status. Nominations must state that the nominee is willing to serve as a member of ACBSA and appears to have no conflict of interest that would preclude membership. If selected for appointment to the Committee, candidates will be asked to provide detailed information concerning such matters as financial holdings, consultancies, and research grants or contracts. Disclosure of this information is necessary in order to determine if the selected candidates are involved in activity that may conflict with the matters discussed by ACBSA.

Dated: April 22, 2004.

Lawrence C. McMurtry,

Deputy Executive Secretary, Advisory Committee on Blood Safety and Availability, Office of the Secretary, Office of Public Health and Science, Department of Health and Human Services.

[FR Doc. 04-10969 Filed 5-13-04; 8:45 am]

BILLING CODE 4150-28-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Committee on Vital and Health Statistics: Meeting

Pursuant to the Federal Advisory Committee Act, the Department of Health and Human Services (HHS) announces the following advisory committee meeting.

Name: National Committee on Vital and Health Statistics (NCVHS), Subcommittee on Standards and Security (SSS).

Time and Date: May 25th: 9 a.m. - 5 p.m.; May 26th: 8:30 a.m. - 5 p.m.; May 27th: 8:30 a.m. - 3 p.m.

Place: Hubert H. Humphrey Building, 200 Independence Avenue SW., Room 505A, Washington, DC 20201.

Status: Open.

Purpose: The main focus of the hearings will be on e-prescribing: standards, practices, and incentives and barriers to adoption. The first day will include findings from a recent RAND study on e-prescribing, an overview of patient safety issues, perspectives from the two major e-prescribing networks, and presentations from several major implementation initiatives.

The second day will include discussions on e-prescribing from the perspective of software vendors and knowledge base vendors. Time will be devoted later in the afternoon to follow up on issues related to the DSMO request on transaction standards for billing of supplies by retail pharmacies, which had been discussed at the March 31, 2004, hearing of the Subcommittee.

The morning of the third day will focus on the perspectives of health care providers on e-prescribing. The afternoon will be devoted to Subcommittee discussion and planning for future agendas.

For Further Information Contact: Substantive program information as well as summaries of meetings and a roster of Committee members may be obtained from Maria Friedman, Health Insurance Specialist, Security and Standards Group, Centers for Medicare and Medicaid Services, MS: C5-24-04, 7500 Security Boulevard, Baltimore, MD 21244-1850, telephone: 410-786-6333 or Marjorie S. Greenberg, Executive Secretary, NCVHS, National Center for Health Statistics, Centers for Disease Control and Prevention, Room 1100, Presidential Building, 3311 Toledo Road, Hyattsville, Maryland 20782, telephone: (301) 458-4245. Information also is available on the NCVHS home page of the HHS Web site: <http://www.ncvhs.hhs.gov/> where an agenda for the meeting will be posted when available.

Should you require reasonable accommodation, please contact the CDC Office of Equal Employment Opportunity on (301) 458-4EEO (4336) as soon as possible.

Dated: April 30, 2004.

James Scalon,

Acting Deputy Assistant Secretary for Science and Data Policy, Office of the Assistant Secretary for Planning and Evaluation.

[FR Doc. 04-10930 Filed 5-13-04; 8:45 am]

BILLING CODE 4151-05-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Enhancing State Capacity to Address Child and Adolescent Health through Violence Prevention

Announcement Type: New.

Funding Opportunity Number: 04145.

Catalog of Federal Domestic

Assistance Number: 93.136.

Key Dates:

Letter of Intent Deadline: June 1, 2004.

Application Deadline: June 14, 2004.

I. Funding Opportunity Description

Authority: This program is authorized under section 317(k) (2)(D) of the Public Health Service Act, (42 U.S.C. 247b(k)(2)(D)) as amended.

Purpose: The Centers for Disease Control and Prevention (CDC) announces the availability of a fiscal year (FY) 2004 cooperative agreement. The purpose of this program is to develop capacity and leadership in preventing the perpetration of violence toward or among children and adolescents so it is raised as a public health priority. Cooperative agreements will be awarded through a phased-in process. The Planning Phase will provide assistance for the development of strategic plans that address shared risk reduction and protective factors that foster change in societal norms or environmental conditions that contribute to violence. The Implementation Phase, depending on availability of funds, will allow recipients to implement one or more priority strategy identified in the strategic plan.

For the purpose of this RFA, the types of violence prevention to be addressed include: self-directed (youth suicide) and interpersonal (child maltreatment, teen dating, sexual violence, school violence, community violence and bullying). Research suggests that these forms of violence share risk and protective factors. The ecological model presented in the World Report on Violence and Health (Krug *et al.*, 2002) identifies levels of influence (individual, relationship, community and societal) for strategies to address risk and protective factors. The planning and implementation phases of this project should address the intersection of shared risk and protective factors for these forms of violence. Efforts to prevent perpetration of violence toward or among children and adolescents should include activities that address the individual, relationship,

community, and societal factors of potential perpetrators, bystanders, and victims.

For the remainder of this RFA, whenever the term state health agency appears, it also refers to federally recognized Indian tribal governments and U.S. territories.

The specific purposes of this funding are to:

1. Provide an opportunity for health agencies to take a leadership role in addressing violence prevention so that it is raised as a public health priority.
2. Foster effective collaborations that respond to emerging policy and program issues related to preventing the perpetration of violence toward or among children and adolescents.

3. Identify and prioritize data-driven solutions that lead to the prevention of violence perpetrated toward or among children and adolescents.

- a. Identify key data elements that provide compelling evidence on the impact of self-directed and interpersonal violence on individuals, families, communities, and society.

- b. Identify data that characterize and measure risk and protective factors across the ecological model's spheres of influence (*i.e.* individual, relationship, community and societal factors).

- c. Identify gaps in data, and work with partners to determine how best to address these data needs.

4. Identify specific opportunities and challenges to promote perpetration prevention strategies; propose and implement culturally relevant perpetration prevention initiatives that address shared risk and protective factors for the prevention of violence perpetrated toward or among children and adolescents; and address specific underserved populations, including racial/ethnic, gay/lesbian/transgender, rural, urban, disabled, and other identified underserved populations such as homeless and school dropouts.

This program addresses the "Healthy People 2010" focus area of Injury and Violence Prevention.

Measurable outcomes of the program will be in alignment with the following performance goal for the National Center for Injury Prevention and Control (NCIPC): Increase the capacity of health agencies to address the prevention of injuries and deaths caused by the perpetration of violence toward or among children and adolescents.

For the purposes of this program announcement the following definitions apply:

Prevention: population-based and/or environmental/system level strategies, policies and action that prevent violence from initially occurring.

Prevention efforts work to modify and/or entirely eliminate the event, conditions, situations, or exposure to influences (risk factors) that result in the initiation of violence and associated injuries, disabilities, and deaths. Additionally, prevention efforts seek to identify and enhance protective factors that may prevent violence, not only in at-risk populations but also in the community at large. Prevention efforts for violence perpetrated toward and among children and adolescents include activities that are aimed at addressing the individual, relationship, community, and societal factors of potential perpetrators, bystanders, and victims.

Intervention: Services, policies and actions provided after violence perpetrated toward or among children and adolescents have occurred and may have the advantageous effect of preventing a re-occurrence of violence.

Activities

Planning Phase activities for this program are as follows:

1. Develop, expand, and/or maintain a Child and Adolescent Violence Prevention Work Group that will:

- a. Represent a cross-section of agencies and organizations committed to using a public health approach; work group members should have expertise and experience working to prevent the perpetration of violence toward and among children and adolescents.

- b. Assist in identifying child and adolescent violence prevention programs, policies, research and data sources.

- c. Obtain additional support and seek resources to sustain implementation of recommendations detailed in the strategic plan.

- d. Assist in developing strategies to disseminate, promote and encourage adoption of the strategic plan as a blueprint for state and local stakeholders.

2. Prepare a state report card on risk and protective factors associated with the prevention of violence perpetrated toward or among children and adolescents:

- a. Conduct a statewide inventory of programs working to prevent the perpetration of violence toward or among children and adolescents (at minimum, the inventory should include the number of prevention programs, intended audience, content, and resources devoted to the programs).

- b. Conduct an assessment of policies focused on preventing the perpetration of violence toward or among children and adolescents.

c. Conduct an assessment of state-level data sources that identify violent incidents perpetrated toward or among children and adolescents, including non-traditional data sources such as surveys, stakeholder interviews, and focus groups.

d. Conduct an assessment to determine the level of commitment, interest and readiness to fully engage in efforts to prevent the perpetration of violence toward or among children and adolescents.

3. Identify issues and strategies that will facilitate support for sustaining and enhancing perpetration prevention activities by addressing the following:

- a. Ongoing collaboration and community involvement.
- b. Ongoing commitment.
- c. Ongoing communication.
- d. Evaluation.

4. Produce and publish a strategic plan that delineates shared risk and protective factors, and identifies strategies that address ecological factors that influence and prevent violence. Specifically, the plan must provide strategies that address individual, relationship, community and societal factors. In addition, the strategic plan should include a logic model and time-phased implementation strategies.

5. Collaborate with CDC and other awardees on an ongoing basis through conference calls and traveling to required awardee meetings.

6. Submit required reports to CDC as scheduled.

In a cooperative agreement, CDC staff is substantially involved in the program activities, above and beyond routine grant monitoring.

CDC Activities for this program are as follows:

1. Provide updated information related to the purposes of this program announcement.
2. Provide technical assistance and consultation in the development, dissemination, and promotion of the strategic plan to prevent the perpetration of violence toward or among children and adolescents.
3. Coordinate information sharing among relevant CDC awardees and partners.
4. Provide consultation to assist in implementing data-driven planning strategies.
5. Compile and disseminate lessons learned to assist with future efforts to prevent the perpetration of violence.

II. Award Information

Type of Award: Cooperative Agreement.

CDC involvement in this program is listed in the Activities Section above.

Fiscal Year Funds: 2004
Approximate Total Funding: \$600,000.

Approximate Number of Awards: 6–12 awards.

Approximate Average Award: \$75,000.

Floor of Award Range: \$50,000.

Ceiling of Award Range: \$100,000.

Anticipated Award Date: August 15, 2004.

Budget Period Length: 12 months.

Project Period Length: Two years.

Throughout the project period, CDC's commitment to continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in required reports), and the determination that continued funding is in the best interest of the Federal Government.

III. Eligibility Information

III.1. Eligible Applicants

Eligible applicants will be state health departments, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of Northern Mariana Islands, American Samoa, Guam, Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized Indian tribal governments.

Eligible applicants are strongly encouraged to collaborate with other state agencies, injury/violence prevention coalitions and other stakeholders to develop and submit one application per state. The program will fund only one application per state. Applications from federally recognized Indian tribal governments will be considered separately.

III.2. Cost Sharing or Matching

Matching funds are not required for this program.

III.3. Other Eligibility Requirements

If you request a funding amount greater than the ceiling of the award range, your application will be considered non-responsive, and will not be entered in the review process.

If your application is incomplete or non-responsive to the requirements listed below, it will not be entered into the review process. You will be notified that your application did not meet the submission requirements.

Note: Title 2 of the United States Code section 1611 states that an organization described in section 501(c)(4) of the Internal Revenue Code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, or loan.

IV. Application and Submission Information

IV.1. Address To Request Application Package

To apply for this funding opportunity use application form PHS 5161. Forms are available on the CDC Web site, at the following Internet address: www.cdc.gov/od/pgo/forminfo.htm If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO-TIM) staff at: 770-488-2700. Application forms can be mailed to you.

IV.2. Content and Form of Submission

Letter of Intent (LOI)

Your LOI must be written in the following format:

- Maximum number of pages: Two.
- Font size: 12-point un-reduced.
- Paper size: 8.5 by 11 inches.
- Single spaced.
- Page margin size: One inch.
- Printed only on one side of page.
- Written in plain language, avoid jargon.

Your LOI must contain the following information:

- Number and title of this Program Announcement (PA 04145).
- Partners within the state health agency that will collaborate to develop this application.

Application: You must include a project narrative with your application forms. Your narrative must be submitted in the following format:

- Maximum number of pages: 25. If your narrative exceeds the page limit, only the first 25 pages of the application, which are within the page limit, will be reviewed.
- Font size: 12 point un-reduced.
- Double spaced.
- Paper size: 8.5 by 11 inches.
- Page margin size: One inch.
- Printed only on one side of page.
- Held together only by rubber bands or metal clips; not bound in any other way. (e.g. do not use staples).

The narrative should address activities to be conducted over the two-year project period, and must include the following items in the order listed:

- Abstract (one-page summary of the application, does not count towards page limit).
- Work Plan, Goals, and Objectives.
- Relevant Experience.
- Capacity and Staffing.
- Collaboration.
- Dissemination Plan.
- Evaluation.

- Measures of Effectiveness.
- Proposed Budget and Justification (does not count towards page limit).

Additional information may be included in the application appendices. The appendices will not be counted toward the narrative page limit. This additional information includes:

- Curriculum Vitae.
- Job Descriptions.
- Resumes.
- Organizational Charts.
- Letters of Support, etc.

You are required to have a Dun and Bradstreet Data Universal Numbering System (DUNS) number to apply for a grant or cooperative agreement from the Federal government. The DUNS number is a nine-digit identification number, which uniquely identifies business entities. Obtaining a DUNS number is easy and there is no charge. To obtain a DUNS number, access www.dunandbradstreet.com or call 1-866-705-5711.

For more information, see the CDC Web site at: <http://www.cdc.gov/od/pgo/funding/pubcomm.htm>. If your application form does not have a DUNS number field, please write your DUNS number at the top of the first page of your application, and/or include your DUNS number in your application cover letter.

Additional requirements that may require you to submit additional documentation with your application are listed in section "VI.2. Administrative and National Policy Requirements."

IV.3. Submission Dates and Times

LOI Deadline Date: June 1, 2004.

CDC requests that you send a LOI if you intend to apply for this program. Although the LOI is not required, not binding, and does not enter into the review of your subsequent application, the LOI will be used to gauge the level of interest in this program, and to allow CDC to plan the application review.

Application Deadline Date: June 14, 2004.

Explanation of Deadlines:

Applications must be received in the CDC Procurement and Grants Office by 4 p.m. Eastern Time on the deadline date. If you send your application by the United States Postal Service or commercial delivery service, you must ensure that the carrier will be able to guarantee delivery of the application by the closing date and time. If CDC receives your application after closing due to: (1) Carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, you will be

given the opportunity to submit documentation of the carriers guarantee. If the documentation verifies a carrier problem, CDC will consider the application as having been received by the deadline.

This program announcement is the definitive guide on application submission address and deadline. It supersedes information provided in the application instructions. If your application does not meet the deadline above, it will not be eligible for review, and will be discarded. You will be notified that you did not meet the submission requirements.

CDC will not notify you upon receipt of your application. If you have a question about the receipt of your application, first contact your courier. If you still have a question, contact the PGO-TIM staff at: 770-488-2700. Before calling, please wait two to three days after the application deadline. This will allow time for applications to be processed and logged.

IV.4. Intergovernmental Review of Applications

Executive Order 12372 does not apply to this program.

IV.5. Funding Restrictions

Restrictions, which must be taken into account while writing your budget, are as follows: cooperative agreement funds for this project cannot be used for construction, renovation, the lease of passenger vehicles, the development of major software applications, or supplanting current applicant expenditures.

If you are requesting indirect costs in your budget, you must include a copy of your indirect cost rate agreement. If your indirect cost rate is a provisional rate, the agreement must be less than 12 months of age.

Guidance for completing your budget can be found on the CDC Web site, at the following Internet address: <http://www.cdc.gov/od/pgo/funding/budgetguide.htm>.

IV.6. Other Submission Requirements

LOI Submission Address: Submit your LOI by express mail, delivery service, fax, or E-mail to: Neil Rainford, Project Officer, 2939 Flowers Road South, Atlanta, GA 30341, Telephone: 770-488-1122, Fax: 770-488-1360, E-mail: Nrainford@cdc.gov.

Application Submission Address: Submit the original and two hard copies of your application by mail or express delivery service to: Technical Information Management-PA 04145, CDC Procurement and Grants Office,

2920 Brandywine Road, Atlanta, GA 30341.

Applications may not be submitted electronically at this time.

V. Application Review Information

V.1. Criteria

You are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of this announcement. Measures must be objective and quantitative, and must measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation.

Your application will be evaluated against the following criteria:

1. Work Plan, Goals and Objectives (25 Points)

a. Does the applicant include a detailed work plan, including a timeline?

b. Does the work plan include goals and objectives that are specific, measurable, attainable, realistic, and time-phased?

c. Does the applicant provide details about how the inventory of prevention programs will be achieved? Does the applicant include how the assessment of relevant state policies and data sources will be compiled? Does the applicant describe how the inventory and assessment will be integrated into the state report card?

d. Does the applicant provide a description of how the state strategic plan will be produced and published?

2. Relevant Experience (20 Points)

a. Does the applicant demonstrate experience coordinating, collaborating and providing leadership on a state level with regard to preventing violence perpetrated toward or among children and adolescents?

b. Does the applicant demonstrate experience in collecting and analyzing violence related data?

c. Does the applicant demonstrate experience developing violence prevention strategic plans?

d. Does the applicant demonstrate experience in establishing and managing state advisory boards or working groups focused on a violence prevention topic?

e. Does the applicant demonstrate experience in compiling, synthesizing and disseminating statewide strategic plans and evaluation findings through a variety of mediums to key stakeholders,

including policy makers, public health officials and/or community-based organizations?

f. Does the applicant demonstrate experience identifying and prioritizing data-driven solutions that lead to the prevention of violence?

g. Does the applicant demonstrate a commitment to inclusiveness and diversity?

3. Capacity and Staffing (15 Points)

a. Does the applicant demonstrate an existing capacity and infrastructure to carry out the required activities in the cooperative agreement?

b. Does the applicant describe the responsibilities of individual staff members, levels of effort and allocation of time?

c. Does the applicant clearly describe project staff and their relevant skills/expertise for their assigned position?

d. Does the applicant include an organizational chart?

4. Collaboration (15 Points)

a. Does the applicant demonstrate a willingness to collaborate with other CDC awardees and partners?

b. Does the applicant demonstrate a successful history of collaborating effectively with organizations at the local, state and national levels?

c. Does the applicant include letters of support and/or memoranda of agreement from national and state child and adolescent violence prevention organizations, research and/or academic experts/institutions, and other relevant agencies and organizations, including public health agencies and organizations that work to prevent the perpetration of violence toward or among children and adolescents?

d. Does the applicant demonstrate that this project will be a collaborative effort that includes other state level entities (e.g., State Department of Education, other divisions of the state health agency, not-for-profit organizations, and academic institutions)?

e. Does the applicant provide a clear description of the composition, role and degree of involvement of the work group? Does the applicant indicate plans to identify work group members that represent a broad range of disciplines, as well as organizations that target diverse populations?

5. Dissemination Plan (15 Points)

a. Does the applicant provide a plan to disseminate the strategic plan?

b. Does the applicant provide details about strategies to obtain support for the strategic plan from key stakeholders and public officials?

c. Does the applicant describe how the state strategic plan will be utilized?

6. Evaluation (10 Points)

Does the applicant provide a detailed description of the methods to be used to evaluate the Planning Phase?

7. Measures of Effectiveness (Not Scored)

Does the applicant provide objective/quantifiable measures regarding the intended outcomes that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement?

8. Proposed Budget and Justification (Not Scored)

Does the applicant provide a detailed budget with complete line-item justification of all proposed costs consistent with the stated activities in the program announcement? Details must include a breakdown in the categories of personnel (with time allocations for each), staff travel, communications and postage, equipment, supplies, and any other costs? Does the budget projection include a narrative justification for all requested costs? Any sources of additional funding beyond the amount stipulated in this cooperative agreement should be indicated, including donated time or services. For each expense category, the budget should indicate CDC share, the applicant share and any other support. These funds should not be used to supplant existing efforts.

V.2. Review and Selection Process

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff, and for responsiveness by NCIPC. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified that their application did not meet submission requirements.

An objective review panel will evaluate your application according to the criteria listed in the "V.1. Criteria" section above.

V.3. Anticipated Announcement Award Date

September 30, 2004.

VI. Award Administration Information

VI.1. Award Notices

Successful applicants will receive a Notice of Grant Award (NGA) from the CDC Procurement and Grants Office. The NGA shall be the only binding, authorizing document between the recipient and CDC. The NGA will be

signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application.

Unsuccessful applicants will receive notification of the results of the application review by mail.

VI.2. Administrative and National Policy Requirements

45 CFR Part 74 and Part 92

For more information on the Code of Federal Regulations, see the National Archives and Records Administration at the following Internet address: <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html>.

The following additional requirements apply to this project:

- AR-10 Smoke-Free Workplace Requirements.
- AR-11 Healthy People 2010.
- AR-12 Lobbying Restrictions.
- AR-13 Prohibition on Use of CDC Funds for Certain Gun Control Activities.
- AR-15 Proof of Non-Profit Status.

Additional information on these requirements can be found on the CDC web site at the following Internet address: <http://www.cdc.gov/od/pgo/funding/ARs.htm>.

Projects that involve the collection of information from ten or more individuals and funded by cooperative agreement will be subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

VI.3. Reporting Requirements

You must provide CDC with an original, plus two hard copies of the following reports:

1. Interim progress report, no less than 90 days before the end of the budget period. The progress report will serve as your non-competing continuation application, and must contain the following elements:
 - a. Current Budget Period Activities Objectives.
 - b. Current Budget Period Financial Progress.
 - c. New Budget Period Program Proposed Activity Objectives.
 - d. Detailed Line-Item Budget and Justification.
 - e. Additional Requested Information.
 - f. Measures of Effectiveness.
2. Financial status report, no more than 90 days after the end of the budget period.
3. Final financial and performance reports, no more than 90 days after the end of the project period.

These reports must be mailed to the Grants Management or Contract

Specialist listed in the "Agency Contacts" section of this announcement.

VII. Agency Contacts

For general questions about this announcement, contact: Technical Information Management Section, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341, Telephone: 770-488-2700.

For program technical assistance, contact: Neil Rainford, Project Officer, 4770 Buford Hwy., NE., MS-K60, Atlanta, GA 30341-3724, Telephone: 770-488-1122, E-mail: NRainford@cdc.gov.

For financial, grants management, or budget assistance, contact: Nancy Pillar, Grants Management Specialist, CDC Procurement and Grants Office, 2920 Brandywine Road, Suite 3000, Atlanta, GA 30341, Telephone: 770-488-2721, E-mail: NPillar@cdc.gov.

Dated: May 10, 2004.

William P. Nichols,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Postdoctoral Fellowship Training Program (PFTP) in Infectious Diseases

Announcement Type: Competing Continuation.

Funding Opportunity Number: 041008.
Catalog of Federal Domestic

Assistance Number: 93.283.

Key Dates: Letter of Intent Deadline: June 1, 2004.

Application Deadline: June 14, 2004.

I. Funding Opportunity Description

Authority: This program is authorized under Sections 301 and 317(k)(2) of the Public Health Service Act, [42 U.S.C. 241 and 247b(k)(2)], as amended.

Purpose: The purpose of this cooperative agreement is to support recipients in conducting a two- to three-year Postdoctoral Fellowship Training Program in Infectious Diseases (PFTP) which provides a combination of clinical training and basic laboratory or epidemiology training in infectious diseases. The goal is to improve the ability of the U.S. public health system to respond to the problem of infectious diseases by increasing the number of academic infectious disease physicians with demonstrated skills in the public

health aspects of infectious diseases and to provide them with the essential, pertinent clinical and research skills.

PFTPs should be implemented as new distinct fellowship positions/tracks in grantee's existing infectious disease postdoctoral training program for physicians. PFTPs should be aimed at physicians with training in infectious diseases who wish to pursue a career in academic infectious diseases of public health importance. The objective is to offer a combination of clinical and research training which will lead to eligibility for certification in infectious diseases by the American Board of Internal Medicine or the American Board of Pediatrics.

Specific areas of clinical concentration may include: Clinical rotations in infectious diseases, infectious diseases in transplant recipients, clinical microbiology, outpatient infectious diseases, pediatric infectious diseases, or infectious disease pharmacology. The recipient must be able to provide support for physicians of unusual ability and promise or proven achievement by giving them an opportunity to conduct clinical, laboratory, and epidemiologic research on significant public health problems caused by infectious diseases. Specific areas for research training may include: Viral and rickettsial infections, nosocomial infections, antimicrobial resistance, vector-borne infectious diseases, respiratory and food-borne bacterial diseases, parasitic diseases, sexually transmitted diseases, and acquired immunodeficiency syndrome. This program addresses the "Healthy People 2010" focus area(s) of Immunization and Infectious Disease.

Measurable outcomes of the program will be in alignment with the following performance goal for the National Center for Infectious Diseases (NCID): Protect Americans from infectious disease.

Activities: Awardee activities for this program are as follows:

- As a distinct and separate track of recipient's existing infectious disease postdoctoral fellowship program, conduct a two- to three-year PFTP that combines clinical and basic laboratory or epidemiologic research training in prevention and control of infectious diseases of public health importance.

- Design and conduct the PFTP such that upon completion of the fellowship, fellows will become eligible for certification in infectious diseases by the American Board of Internal Medicine or the American Board of Pediatrics.

- Provide preceptors for training.

- Develop a fellowship candidate application, review, ranking, and selection process. Based on this process, select applicants to be awarded two- to three-year PFTP fellowships.

- Provide administrative support to fellows during their tenure in the PFTP including the payment of stipends, professional travel, etc. (see Availability of Funds for cost sharing requirements).

- Monitor and evaluate the progress of fellows and progress toward achieving program goals. To measure the overall success of the PFTP, establish a mechanism to follow-up and report on fellows (e.g., where they work, in what field, etc.) periodically for up to five years after they complete the PFTP.

In a cooperative agreement, CDC staff is substantially involved in the program activities, above and beyond routine grant monitoring.

CDC Activities for this program are as follows:

- Some of the laboratory and epidemiologic training component of the PFTP may occur at CDC facilities under CDC staff preceptors. CDC may provide preceptors and/or facilities for training that occurs at CDC facilities. It is not a requirement that any of the training occur at CDC facilities or under the guidance of CDC staff.

II. Award Information

Type of Award: Cooperative Agreement.

Fiscal Year Funds: 2004.

Approximate Total Funding: \$150,000.

Approximate Number of Awards: 2.

Approximate Average Award: \$75,000 (This amount is for the first 12-month budget period, and includes both direct and indirect costs).

Floor of Award Range: None.

Ceiling of Award Range: \$115,000.

Anticipated Award Date: July 1, 2004.

Budget Period Length: 12 months.

Project Period Length: Up to 5 years.

Throughout the project period, CDC's commitment to continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in required reports), and the determination that continued funding is in the best interest of the Federal Government.

III. Eligibility Information

III.1. Eligible Applicants

Applications may only be submitted by university-affiliated schools of medicine in the United States with infectious disease programs accredited by the Accreditation Council for Graduate Medical Education (ACGME).

Only one application per eligible school of medicine will be accepted.

III.2. Cost Sharing or Matching

Grantee cost-sharing is required under this program. CDC will provide up to 50 percent of the total cost for items directly related to the support of fellows such as stipends and professional travel. CDC funds will not be provided for supplies and equipment, any costs of research conducted by fellows as part of their training (except for stipends), or for direct salaries/fringe, travel, space, etc., for recipient's faculty or administrative personnel. CDC funds are not intended to supplant recipient's existing infectious disease fellowships, rather they are intended to support new/additional fellowship opportunities that are consistent with the stated Purpose of this grant program.

III.3. Other

If you request a funding amount greater than the ceiling of the award range, your application will be considered non-responsive, and will not be entered into the review process. You will be notified that your application did not meet the submission requirements.

If your application is incomplete or non-responsive to the requirements listed in this section, it will not be entered into the review process. You will be notified that your application did not meet submission requirements.

Eligibility is limited to university-affiliated U.S. schools of medicine with infectious disease programs accredited by the Accreditation Council for Graduate Medical Education (ACGME) as these are the only institutions that will have existing infectious disease fellowships for physicians that this grant program seeks to enhance. ACGME-accredited medical schools are the only institutions that can prepare fellows for eligibility for certification in infectious diseases by the American Board of Internal Medicine or American Board of Pediatrics as required by this program.

Note: Title 2 of the United States Code section 1611 states that an organization described in section 501(c)(4) of the Internal Revenue Code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, or loan.

IV. Application and Submission Information

IV.1. Address To Request Application Package

To apply for this funding opportunity use application form PHS 5161. For hard-copy submission of application,

application forms and instructions are available on the CDC web site, at the following Internet address: www.cdc.gov/od/pgo/forminfo.htm. To submit your application electronically, please utilize the forms and instructions posted for this announcement at www.grants.gov. If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO-TIM) staff at: 770-488-2700. Application forms can be mailed to you.

IV.2. Content and Form of Submission

Letter of Intent (LOI): Your LOI must be written in the following format:

- Maximum number of pages: 1
- Font size: 12-point unreduced
- Single spaced
- Paper size: 8.5 by 11 inches
- Page margin size: One inch
- Printed only on one side of page
- Written in plain language, avoid jargon

Your LOI must contain the following information:

- Name of applicant institution
- Point of contact name address, phone number, and E-mail address

Application: You must submit a project narrative with your application forms. The narrative must be submitted in the following format:

- Maximum number of pages: 10 If your narrative exceeds the page limit, only the first pages which are within the page limit will be reviewed.
- Font size: 12 point unreduced
- Single spaced
- Paper size: 8.5 by 11 inches
- Page margin size: One inch
- Printed only on one side of page
- Held together only by rubber bands or metal clips; not bound in any other way.

Your narrative should address activities to be conducted over the entire project period, and must include the following items in the order listed:

- Abstract
- Provide a brief (less than two pages) summary of the proposed PFTP. Abstract does NOT count toward the narrative page limitation.
- Background and Need

Demonstrate an understanding of the background and need for the PFTP. Discuss how your proposed PFTP track differs from existing tracks/opportunities in your fellowship program and how your proposed PFTP track meets the Purpose of this cooperative agreement program.

- Capacity and Personnel
 - Describe applicant's goals, objectives, and efforts to promote the field of academic infectious diseases.

- Demonstrate applicant's experience in academic infectious diseases education and training in general, including experience in maintaining programs that lead to eligibility for certification in infectious diseases by the American Board of Internal Medicine or the American Board of Pediatrics.

- Describe applicant's existing postdoctoral fellowship training programs for physicians in infectious diseases. Describe applicant's resources, facilities, and professional personnel that will be involved in conducting the project.

- Operational Plan
 - Present a detailed and time-phased plan for establishing and conducting the PFTP.

- Describe the proposed structure, timeline, and procedures for the PFTP. Clearly address all Activities listed in Section I, above.

- Identify key staff and their assigned responsibilities for operating the PFTP.

- Present a plan for monitoring and evaluating the progress of fellows during and after PFTP.

- Describe how you will ensure that all fellows become eligible for certification in infectious diseases by the American Board of Internal Medicine by the end of fellowship tenure.

- Measures of Effectiveness (see Section V.1.—Evaluation Criteria, below, for more information regarding measures of effectiveness).

- Budget (does NOT count towards page limitation)

Provide a line-item budget and accompanying detailed, line-by-line justification that demonstrates the request is consistent with the purpose and objectives of this program. Clearly indicate by line-item both a) the full cost and b) the amount requested from CDC (see cost-sharing requirement in Section III.2., above.).

- Appendices: The following additional required information should be included in the application appendices. The appendices will not be counted toward the narrative page limit. This additional information includes:

- Curriculum vitae for key professional personnel involved with the project.

- Documentation of ACGME accreditation.

- If proposing that fellows conduct any of their laboratory or epidemiologic training at CDC facilities and/or under the preceptorship of CDC staff, include in the appendix letters of support from the appropriate CDC scientist(s) that clearly indicates their commitment to participate as described in your

application. If any training is to occur at CDC facilities, letters of support also need to be co-signed by the CDC scientist's Division Principal Management Officer and the letter must clearly indicate the Division's willingness to provide space, supplies, use of equipment/facilities, etc., for fellows during their training at CDC.

You are required to have a Dun and Bradstreet Data Universal Numbering System (DUNS) number to apply for a grant or cooperative agreement from the Federal government. The DUNS number is a nine-digit identification number, which uniquely identifies business entities. Obtaining a DUNS number is easy and there is no charge. To obtain a DUNS number, access www.dunandbradstreet.com or call 1-866-705-5711. For more information, see the CDC web site at: <http://www.cdc.gov/od/pgo/funding/pubcomm.htm>. If your application form does not have a DUNS number field, please write your DUNS number at the top of the first page of your application, and/or include your DUNS number in your application cover letter.

Additional requirements that may require you to submit additional documentation with your application are listed in section "VI.2. Administrative and National Policy Requirements."

IV.3. Submission Dates and Times

LOI Deadline Date: June 1, 2004.

CDC requests that you send a LOI if you intend to apply for this program. Although the LOI is not required, not binding, and does not enter into the review of your subsequent application, the LOI will be used to gauge the level of interest in this program, and to allow CDC to plan the application review.

Application Deadline Date: June 14, 2004.

Explanation of Deadlines:

Applications must be received in the CDC Procurement and Grants Office by 4 p.m. Eastern Time on the deadline date. If you send your application by the United States Postal Service or commercial delivery service, you must ensure that the carrier will be able to guarantee delivery of the application by the closing date and time. If CDC receives your application after closing due to: (1) Carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, you will be given the opportunity to submit documentation of the carriers guarantee. If the documentation verifies a carrier problem, CDC will consider the

application as having been received by the deadline.

This announcement is the definitive guide on application submission address and deadline. It supersedes information provided in the application instructions. If your application does not meet the deadline above, it will not be eligible for review, and will be discarded. You will be notified that your application did not meet the submission requirements.

CDC will not notify you upon receipt of your application. If you have a question about the receipt of your application, first contact your courier. If you still have a question, contact the PGO-TIM staff at: 770-488-2700. Before calling, please wait two to three days after the application deadline. This will allow time for applications to be processed and logged.

IV.4. Intergovernmental Review of Applications

Your application is subject to Intergovernmental Review of Federal Programs, as governed by Executive Order (EO) 12372. This order sets up a system for state and local governmental review of proposed federal assistance applications. You should contact your state single point of contact (SPOC) as early as possible to alert the SPOC to prospective applications, and to receive instructions on your state's process. Click on the following link to get the current SPOC list: <http://www.whitehouse.gov/omb/grants/spoc.html>.

IV.5. Funding Restrictions

Restrictions, which must be taken into account while writing your budget, are as follows:

- These awards will be training grants. For training grants, recipient's indirect charges are limited to 8 percent of direct costs.
- Also, see Section III.2., Cost Sharing for additional funding restrictions.

Guidance for completing your budget can be found on the CDC Web site, at the following Internet address: <http://www.cdc.gov/od/pgo/funding/budgetguide.htm>.

IV.6. Other Submission Requirements

LOI Submission Address: Submit your LOI by express mail, delivery service, fax, or E-mail to: Greg Jones, M.P.A., Public Health Analyst, Office of the Director, National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1600 Clifton Road, NE., Mailstop C12, Atlanta, GA 30333, Fax: (404) 639-3106, E-mail: GJones@cdc.gov.

Application Submission Address:

Submit the original and two hard copies of your application by mail or express delivery service to: Technical Information Management—PA# 04108, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341 or You may submit your application electronically at: www.grants.gov.

V. Application Review Information

V.1. Criteria

You are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the grant or cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of this announcement. Measures must be objective and quantitative, and must measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation. Your application will be evaluated against the following criteria:

1. Background and Need (15 points): Does the applicant demonstrate an understanding of the background and need for the PFTP? Do they clearly demonstrate that their proposed PFTP adds positions to and does not supplant existing positions in their fellowship program? Do they demonstrate how the proposed PFTP meets the Purpose of this program announcement?

2. Capacity:

a. Institutional (25 points): Does the applicant demonstrate that they have been and are devoted to promoting the field of academic infectious diseases, e.g., by conducting regular national meetings and workshops devoted to current topics? Does the applicant document experience in education and training in academic infectious diseases, including documentation of relevant degree programs offered and evidence of experience in successfully preparing students for certification in infectious diseases by the American Board of Internal Medicine or the American Board of Pediatrics? Does the applicant demonstrate significant institutional experience in managing postdoctoral fellowship training programs for physicians in the area of infectious diseases? Do they document that they have a successful existing postdoctoral fellowship program in infectious diseases that will serve as the platform for the proposed PFTP fellowships?

b. Staff and administrative (25 points): Does the applicant describe adequate resources and facilities (clinical,

academic, and administrative) for conducting the PFTP? Do they document that their professional personnel involved in the PFTP are qualified and have past experience and achievements related to that proposed? If proposing that fellow's research be conducted at CDC facilities, does the applicant include Letters of Support as described in Application Content section IV.2., above (*i.e.*, that are signed by the appropriate CDC officials and that clearly indicate their commitment to participate as proposed in the application).

3. Operational Plan (30 points): Is the applicant's proposed operational plan clear and detailed and address all Activities listed in Section I? Do they include a detailed time schedule or Gant chart for the first year of the program? Does the applicant clearly indicate specific staff that will be responsible for implementation and operation of the PFTP? Does the applicant's plan meet the purpose and goals of this cooperative agreement program?

4. Measures of Effectiveness (5 points): Does the applicant provide measures of effectiveness as described in the paragraph above such that effective "outcome" evaluation can be accomplished?

5. Budget (Not scored): Is the proposed budget reasonable, clearly justified, and consistent with the intended use of grant funds?

V.2. Review and Selection Process

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff, and for responsiveness by the National Center for Infectious Diseases. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified that their application did not meet submission requirements.

An objective review panel will evaluate complete and responsive applications according to the criteria listed in the "V.1. Criteria" section above.

In addition, the following factors may affect the funding decision:

Preference will be given to competing continuation applications over applications for programs not already receiving support under the PFTP program.

V.3. Anticipated Announcement and Award Dates

Anticipated Award Date: July 1, 2004.

VI. Award Administration Information

VI.1. Award Notices

Successful applicants will receive a Notice of Grant Award (NGA) from the CDC Procurement and Grants Office. The NGA shall be the only binding, authorizing document between the recipient and CDC. The NGA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application.

Unsuccessful applicants will receive notification of the results of the application review by mail.

VI.2. Administrative and National Policy Requirements

45 CFR Part 74 and Part 92

For more information on the Code of Federal Regulations, see the National Archives and Records Administration at the following Internet address: <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html>.

The following additional requirements apply to this project:

- AR-7 Executive Order 12372
- AR-10 Smoke-Free Workplace Requirements
- AR-11 Healthy People 2010
- AR-12 Lobbying Restrictions
- AR-16 Security Clearance Requirement

Additional information on these requirements can be found on the CDC web site at the following Internet address: <http://www.cdc.gov/od/pgo/funding/ARs.htm>.

VI.3. Reporting Requirements

You must provide CDC with an original, plus two hard copies of the following reports:

1. Interim progress report, no less than 90 days before the end of the budget period. The progress report will serve as your non-competing continuation application, and must contain the following elements:
 - a. Current Budget Period Activities Objectives.
 - b. Current Budget Period Financial Progress.
 - c. New Budget Period Program Proposed Activity Objectives.
 - d. Budget.
 - e. Additional Requested Information.
 - f. Measures of Effectiveness.
2. Financial status report, no more than 90 days after the end of the budget period.
3. Final financial and performance reports, no more than 90 days after the end of the project period.

These reports must be mailed to the Grants Management or Contract

Specialist listed in the "Agency Contacts" section of this announcement.

VII. Agency Contacts

For general questions about this announcement, contact: Technical Information Management Section, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341, Telephone: 770-488-2700.

For program technical assistance, contact: Greg Jones, M.P.A., Public Health Analyst, Office of the Director, National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1600 Clifton Road, NE., Mailstop C12, Atlanta, GA 30333, Telephone: (404) 639-4180, Fax: (404) 639-3106, E-mail: GJjones@cdc.gov.

For financial, grants management, or budget assistance, contact: Jeff Napier, Contract Specialist, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341, Telephone: 770-488-2628, E-mail: jxn1@cdc.gov.

Dated: May 10, 2004.

William P. Nichols,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

[FR Doc. 04-10948 Filed 5-13-04; 8:45 am]

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Request for Applications to Determine the Pharmacokinetics of Clostridium Botulinum Neurotoxins A, B, C, E, and F

Announcement Type: New.
Funding Opportunity Number: 04099.
Catalog of Federal Domestic Assistance Number: 93.283.

Key Dates:

Letter of Intent Deadline: June 1, 2004.

Application Deadline: June 28, 2004.

Executive Summary: The Centers for

Disease Control and Prevention (CDC) invites investigator-directed research grant applications that will lead to an understanding of the relationship between oral exposure to Clostridium botulinum neurotoxin, morbidity, and lethality. Research should include, but is not limited to, the establishment and implementation of methods and procedures in non-human primates for determination of the pharmacokinetics of both the di-chain and progenitor forms of C. botulinum neurotoxins A, B, C, E, and F. The information gathered by this study will help guide policy development and most importantly

enable informed treatment recommendations. Applications should define the proposed project goal, interim objectives (development milestone), potential ultimate product, and provide a timeline for milestone and goal attainment. This grant seeks researchers that can collaborate with relevant ongoing small animal studies or that have established small animal models and the ability to transfer these studies to non-human primates. Preference will be given to otherwise equivalent proposals that take measures to minimize suffering and preserve the life of animals utilized in this study to the extent possible. All applicants must comply with CDC guidelines on the care and use of laboratory animals.

I. Funding Opportunity Description

Authority: This program is authorized under the Public Health Service Act Sections 301(a) [42 U.S.C.241(a)], as amended.

Purpose: The purpose of this research grant is to support the development and utilization of a non-human primate model system to gather data on the adsorption, distribution, localization, metabolism and clearance of botulinum neurotoxins. The data obtained from this study will aid the development of methods and procedures to rapidly identify and more effectively treat a human population exposed to botulinum neurotoxin via natural or intentional mechanisms.

The botulinum neurotoxins pose a significant threat to the public as bioterrorist weapons because of their potency, ease of production and transport, and the potential burden that affected individuals would place on the public health care system. These neurotoxins, which are produced by the ubiquitous pathogen *Clostridium botulinum* and some strains of *Clostridium baratii* and *Clostridium butyricum*, are among the most toxic substances known to man. The botulinum neurotoxins (BoNTs) are produced in seven antigenically distinct forms that are identified as types A, B, C, D, E, F, and G. The toxins are naturally found complexed to neuroassociated proteins (progenitor toxin), but can be purified to a fully active di-chain neurotoxin molecule. The BoNTs block the release of the neurotransmitter, acetylcholine, which uncouples the neuromuscular junction and results in paralysis and death if left untreated. Estimates suggest that as little as 1 ng/kg and 3 ng/kg of neurotoxin type A is enough to kill 50 percent of a human population exposed by oral and inhalation routes, respectively.

In the United States, less than 150 cases of laboratory confirmed botulism are reported each year and there are no preventative therapies for the general public at this time as natural cases of botulism are relatively rare. Most cases of botulism traditionally result from exposure to the BoNTs through ingestion of preformed toxin in foods or through secondary means in which a toxin producing organism is introduced and becomes established in the body. Inhalational botulism is not a common form of exposure. Most of the information on botulinum intoxication and treatment in humans is derived from cases of naturally occurring foodborne botulism. Neurological signs of botulism in humans include: symmetric, descending flaccid paralysis with bulbar palsies, ptosis, diplopia, blurred vision, enlarged pupils, dysarthria, dysphonia, and dysphagia. The lag time between exposure and rapidity of symptom onset is difficult to establish in naturally occurring foodborne cases as it is dependent on the rate and amount of toxin ingested by each affected individual among other variables. At this time, clinical presentation consistent with botulism, which may occur 12–72 hours after toxin ingestion, is the only basis for implementation of antitoxin therapy, which will stop the progression of neuronal damage but not reverse it. Although clinical specimens such as aspirates, serum and stool can be analyzed for the presence of BoNT, the absence of toxin in such specimens does not rule out intoxication. Thus, although it is crucial that BoNT exposed individuals are identified and appropriately treated in a timely manner, insufficient data are available to establish a defined time line between exposure to botulinum toxin, adsorption by mucosal tissues, toxin stability in vivo, toxin serum levels over time, and clearance.

Currently, the treatment of botulism patients requires extensive supportive care and passive immunization with equine antitoxin. Data from outbreaks resulting from ingestion of naturally contaminated foods suggest that up to 95 percent of exposed individuals require hospitalization and up to 62 percent require long-term ventilation. This suggests that with our current capabilities, a large outbreak would place an enormous strain on the existing health care infrastructure, possibly limiting treatment capacity. Although modern antitoxin therapy treatments are highly effective in reducing mortality in humans, existing supplies need to be used in an effective and timely manner.

The determination of the pharmacokinetics of the BoNTs resulting from oral exposure will provide critical information that will aid early identification of exposed individuals and enable the development of informed guidelines that will maximize effective delivery of therapeutic antitoxin in a large scale outbreak.

This program addresses the “Healthy People 2010” focus area of Immunization and Infectious Disease.

Measurable outcomes of the program will be in alignment with the following performance goal for the National Center for Infectious Diseases (NCID): Protect Americans from infectious diseases.

Research Objectives: Develop and utilize a non-human primate model system to determine the pharmacokinetics of both di-chain and progenitor forms of *C. botulinum* neurotoxins A, B, C, E, and F resulting from low to high level toxin exposure. The product of this research should establish a timeline of events and a relationship among the following: *C. botulinum* toxin exposure level, neurotoxin type (A, B, C, E, and F), toxin form (di-chain and progenitor toxin), rate of toxin adsorption into serum, distribution and quantity of toxin in body fluids and products (serum, and stool), toxin stability/duration of action, time of botulism symptom onset (as related to time of exposure, and toxin serum levels), biotransformation of toxin in body fluids/products (i.e. presence of progenitor, di-chain, or another form of the toxin), rate of toxin clearance, variability in exposed population, and recovery.

Activities: Awardee activities for this program but are not limited to the following:

- Establish a relevant small animal model (examples include guinea pigs or mice) to conduct pharmacokinetic studies on botulinum toxins that can be transferred to non-human primate studies. Alternatively, it is acceptable to establish collaboration with researcher(s) conducting ongoing small animal studies and to propose how those studies would be transferred to non-human primates.

- Develop protocols and procedures for testing, maintenance, and recovery of non-human primates.

- Describe a timeframe for development of a proof-of-concept small animal model, establishment of a non-human primate model, attainment of necessary materials to perform the study, collection and analysis of clinical specimens, and completion of the study.

- Develop and implement protocols to address the research objectives in a non-human primate model system, including but not limited to methods for oral toxin exposure, collection and testing of appropriate tissues and or body fluids/products, evaluation of botulism symptom onset, and evaluation of intra-study variation among test subjects.

II. Award Information

Type of Award: Grant.
Award Mechanism: R01.
Fiscal Year Funds: 2004.
Approximate Total Funding: \$2,000,000.00.
Approximate Number of Awards: 1–2.
Approximate Average Award: \$900,000.00.

Floor of Award Range: None.
Ceiling of Award Range: None.
Anticipated Award Date: September 1, 2004.

Budget Period Length: 12 months.
Project Period Length: 3 years.
 Throughout the project period, CDC's commitment to continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in required reports), and the determination that continued funding is in the best interest of the Federal Government.

III. Eligibility Information

III.1. Eligible Applicants

Applications may be submitted by public and private organizations and by governments and their agencies, such as:

- Public nonprofit organizations.
 - Private organizations.
 - Universities.
 - Colleges.
 - Research institutions.
 - Hospitals.
 - Community-based organizations.
 - Faith-based organizations.
 - Federally recognized Indian tribal governments.
 - Indian tribal organizations.
 - State and local governments or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau).
 - Political subdivisions of States (in consultation with States).
- A Bona Fide Agent is an agency/organization identified by the state as eligible to submit an application under

the state eligibility in lieu of a state application. If you are applying as a bona fide agent of a state or local government, you must provide a letter from the state or local government as documentation of your status. Place this documentation behind the first page of your application form.

III.2. Cost Sharing or Matching

Matching funds are not required for this program.

III.3. Other

If your application is incomplete or non-responsive to the requirements listed in this section, it will not be entered into the review process. You will be notified that your application did not meet submission requirements.

Individuals Eligible to Become Principal Investigators: Any individual with the skills, knowledge, and resources necessary to carry out the proposed research is invited to work with their institution to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for CDC programs.

Note: Title 2 of the United States Code section 1611 states that an organization described in section 501(c)(4) of the Internal Revenue Code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, or loan.

IV. Application and Submission Information

IV.1. Address to Request Application Package

To apply for this funding opportunity, use application form PHS 398 (OMB number 0925-0001 rev. 5/2001). Forms and instructions are available in an interactive format on the CDC Web site, at the following Internet address: <http://www.cdc.gov/od/pgof/forminfo.htm>. Forms and instructions are also available in an interactive format on the National Institutes of Health (NIH) Web site at the following Internet address: <http://grants.nih.gov/grants/funding/phs398/phs398.html>.

If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO-TIM) staff at: 770-488-2700. Application forms can be mailed to you.

IV.2. Content and Form of Application Submission

Letter of Intent (LOI): Your LOI must be written in the following format:

- Maximum number of pages: 3.
- Font size: 12-point unrounded.
- Single spaced.
- Paper size: 8.5 by 11 inches.
- Page margin size: One inch.
- Printed only on one side of page.
- Written in plain language, avoid jargon.

Your LOI must contain the following information:

- Descriptive title of the proposed research.
- Name, address, E-mail address, and telephone number of the Principal Investigator.
- Names of other key personnel.
- Participating institutions.
- Number and title of this Program Announcement.

Application: Follow the PHS 398 application instructions for content and formatting of your application. For further assistance with the PHS 398 application form, contact PGO-TIM staff at 770-488-2700, or contact GrantsInfo, Telephone (301) 435-0714, E-mail: GrantsInfo@nih.gov.

Your research plan should address activities to be conducted over the entire project period.

You are required to have a Dun and Bradstreet Data Universal Numbering System (DUNS) number to apply for a grant or cooperative agreement from the Federal government. Your DUNS number must be entered on line 11 of the face page of the PHS 398 application form. The DUNS number is a nine-digit identification number, which uniquely identifies business entities. Obtaining a DUNS number is easy and there is no charge. To obtain a DUNS number, access <http://www.dunandbradstreet.com> or call 1-866-705-5711. For more information, see the CDC Web site at: <http://www.cdc.gov/od/pgof/funding/pubcomm.htm>.

This PA uses just-in-time concepts. It also uses the modular budgeting as well as non-modular budgeting formats. See: <http://grants.nih.gov/grants/funding/modular/modular.htm> for additional guidance on modular budgets. Specifically, if you are submitting an application with direct costs in each year of \$250,000 or less, use the modular budget format. Otherwise, follow the instructions for non-modular budget research grant applications.

Additional requirements that may require you to submit additional documentation with your application are listed in section "VI.2. Administrative and National Policy Requirements."

IV.3. Submission Dates and Times

LOI Deadline Date: June 1, 2004. CDC requests that you send a LOI if you

intend to apply for this program. Although the LOI is not required, not binding, and does not enter into the review of your subsequent application, the LOI will be used to gauge the level of interest in this program, and to allow CDC to plan the application review.

Application Deadline Date: June 28, 2004.

Explanation of Deadlines:

Applications must be received in the CDC Procurement and Grants Office by 4 p.m. eastern time on the deadline date. If you send your application by the United States Postal Service or commercial delivery service, you must ensure that the carrier will be able to guarantee delivery of the application by the closing date and time. If CDC receives your application after closing due to: (1) carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, you will be given the opportunity to submit documentation of the carriers guarantee. If the documentation verifies a carrier problem, CDC will consider the application as having been received by the deadline.

This announcement is the definitive guide on application submission address and deadline. It supersedes information provided in the application instructions. If your application does not meet the deadline above, it will not be eligible for review, and will be discarded. You will be notified that your application did not meet the submission requirements.

CDC will not notify you upon receipt of your application. If you have a question about the receipt of your application, first contact your courier. If you still have a question, contact the PGO-TIM staff at: 770-488-2700. Before calling, please wait two to three days after the application deadline. This will allow time for applications to be processed and logged.

IV.4. Intergovernmental Review of Applications

Your application is subject to Intergovernmental Review of Federal Programs, as governed by Executive Order (EO) 12372. This order sets up a system for state and local governmental review of proposed federal assistance applications. You should contact your state single point of contact (SPOC) as early as possible to alert the SPOC to prospective applications, and to receive instructions on your state's process. Click on the following link to get the current SPOC list: <http://www.whitehouse.gov/omb/grants/spoc.html>.

IV.5. Funding restrictions

Restrictions, which must be taken into account while writing your budget, are as follows:

- None.

If you are requesting indirect costs in your budget, you must include a copy of your indirect cost rate agreement. If your indirect cost rate is a provisional rate, the agreement should be less than 12 months of age.

Awards will not allow reimbursement of pre-award costs.

IV.6. Other Submission Requirements

LOI Submission Address: Submit your LOI by express mail, delivery service, fax, or E-mail to: Barbara Stewart, Centers for Disease Control and Prevention, National Center for Infectious Diseases, 1600 Clifton Road, NE., Mail Stop C-19, Atlanta, GA 30333, Phone: 404-639-0044, Fax: 404-639-2469, E-mail Address: bsg2@cdc.gov.

Application Submission Address: Submit the original and five hard copies of your application by mail or express delivery service to: Technical Information Management-PA# 04099, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341.

Applications may not be submitted electronically at this time.

V. Application Review Information

V.1. Criteria

You are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the grant. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of this announcement. Measures must be objective and quantitative, and must measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation.

The goals of CDC-supported research are to advance the understanding of biological systems, improve the control and prevention of disease and injury, and enhance health. In the written comments, reviewers will be asked to evaluate the application in order to judge the likelihood that the proposed research will have a substantial impact on the pursuit of these goals.

The scientific review group will address and consider each of the following criteria in assigning the application's overall score, weighting them as appropriate for each application. The application does not need to be strong in all categories to be judged likely to have major scientific

impact and thus deserve a high priority score. For example, an investigator may propose to carry out important work that by its nature is not innovative, but is essential to move a field forward.

The criteria are as follows:

Significance: Does this study address an important problem? If the aims of the application are achieved, how will scientific knowledge be advanced? What will be the effect of these studies on the concepts or methods that drive this field? Will this study make significant contributions to the existing knowledge base regarding effective antitoxin treatment of botulinum toxin exposed individuals?

Approach: Are the conceptual framework, design, methods, and analyses adequately developed, well-integrated, and appropriate to the aims of the project? Does the applicant acknowledge potential problem areas and consider alternative tactics? Has the applicant outlined a reasonable plan for attaining the objectives of this project within the indicated time frame? Are standardized operating procedures and documentation practices described?

Innovation: Does the project employ novel concepts, approaches or methods? Are the aims original and innovative? Does the project challenge existing paradigms or develop new methodologies or technologies?

Investigator: Is the investigator appropriately trained and well suited to carry out this work? Is the work proposed appropriate to the experience level of the principal investigator and other researchers (if any)?

Environment: Does the scientific environment in which the work will be done contribute to the probability of success? Do the proposed experiments take advantage of unique features of the scientific environment or employ useful collaborative arrangements? Is there evidence of institutional support? Is the entity or facility conducting the experiments approved to work with botulinum toxin by the Select Agent Program?

Additional Review Criteria: In addition to the above criteria, the following items will be considered in the determination of scientific merit and priority score:

Study Animal Model(s): Are the animal models described appropriate for attainment of study objectives? Has the applicant described a reasonable timeline and approach for development and implementation of a non-human primate model system? Has the applicant described an approach that will enable satisfactory attainment of the study objectives? Are adequate treatment/therapy methods described

for non-human primates used in this study?

Laboratory Analysis and Clinical Evaluation: Has the applicant described satisfactory methods for collection of clinical specimens? Is a method described for analysis of clinical specimens and is this method adequately sensitive to detect relevant levels of toxin? Does the applicant recognize potential problems regarding sensitive detection of toxin in clinical specimens and considered alternative strategies? Has the applicant provided background and experience for the entity conducting laboratory testing, if applicable? Has the applicant described a reasonable method for evaluation of botulism symptom presentation in small animals and non-human primates?

Study Timeline and Protocol: Has the applicant described a reasonable timeframe for completion of the proof-of-concept small animal study, initiation and completion of the non-human primate study, collection and analysis of clinical specimens, reporting, and successful completion of the program?

Protection of Human Subjects from Research Risks: Does the application adequately address the requirements of Title 45 CFR Part 46 for the protection of human subjects? This will not be scored; however, an application can be disapproved if the research risks are sufficiently serious and protection against risks is so inadequate as to make the entire application unacceptable.

Inclusion of Women and Minorities in Research: Does the application adequately address the CDC Policy requirements regarding the inclusion of women, ethnic, and racial groups in the proposed research? This includes: (1) The proposed plan for the inclusion of both sexes and racial and ethnic minority populations for appropriate representation; (2) The proposed justification when representation is limited or absent; (3) A statement as to whether the design of the study is adequate to measure differences when warranted; and (4) A statement as to whether the plans for recruitment and outreach for study participants include the process of establishing partnerships with community(ies) and recognition of mutual benefits.

Care and Use of Vertebrate Animals in Research: If vertebrate animals are to be used in the project, the five items described under Section f of the PHS 398 research grant application instructions will be assessed.

Budget: The reasonableness of the proposed budget and the requested period of support in relation to the proposed research.

V.2. Review and Selection Process

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) and for responsiveness by NCID. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified that their application did not meet submission requirements.

Applications that are complete and responsive to the PA will be evaluated for scientific and technical merit by an appropriate peer review group or charter study section convened by NCID in accordance with the review criteria listed above. As part of the initial merit review, all applications may:

- Undergo a process in which only those applications deemed to have the highest scientific merit, generally the top half of the applications under review, will be discussed and assigned a priority score.
- Receive a written critique.
- Receive a second level review by CDC senior staff.

Award Criteria: Criteria that will be used to make award decisions include:

- Scientific merit (as determined by peer review).
- Ability of proposal to attain research objectives.
- Availability of funds.
- Programmatic priorities.

V.3. Anticipated Announcement and Award Dates

Anticipated Award Date: September 1, 2004.

VI. Award Administration Information

VI.1. Award Notices

Successful applicants will receive a Notice of Grant Award (NGA) from the CDC Procurement and Grants Office. The NGA shall be the only binding, authorizing document between the recipient and CDC. The NGA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application.

Unsuccessful applicants will receive notification of the results of the application review by mail.

VI.2. Administrative and National Policy Requirements

45 CFR Parts 74 and 92

For more information on the Code of Federal Regulations, see the National Archives and Records Administration at the following Internet address: <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html>.

The following additional requirements apply to this project:

- AR-1 Human Subjects Requirements.
- AR-2 Requirements for Inclusion of Women and Racial and Ethnic Minorities in Research.
- AR-3 Animal Subjects Requirements.
- AR-7 Executive Order 12372.
- AR-10 Smoke-Free Workplace Requirements.
- AR-11 Healthy People 2010.
- AR-12 Lobbying Restrictions.
- AR-15 Proof of Non-Profit Status.
- AR-22 Research Integrity.
- AR-23 States and Faith-Based Organizations.
- AR-25 Release and Sharing of Data.

Additional information on these requirements can be found on the CDC Web site at the following Internet address: <http://www.cdc.gov/od/pgo/funding/ARs.htm>.

VI.3. Reporting

You must provide CDC with an original, plus two hard copies of the following reports:

1. Interim progress report, (use form PHS 2590, OMB Number 0925-0001, rev. 5/2001 as posted on the CDC Web site) no less than 90 days before the end of the budget period. The progress report will serve as your non-competing continuation application, and must contain the following elements:
 - a. Current Budget Period Activities Objectives.
 - b. Current Budget Period Financial Progress.
 - c. New Budget Period Program Proposed Activity Objectives.
 - d. Budget.
 - e. Additional Requested Information.
 - f. Measures of Effectiveness.
 2. Financial status report and annual progress report, no more than 90 days after the end of the budget period.
 3. Final financial and performance reports, no more than 90 days after the end of the project period.
- These reports must be mailed to the Grants Management Specialist listed in the "Agency Contacts" section of this announcement.

VII. Agency Contacts

For general questions about this announcement, contact: Technical Information Management Section, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341, Telephone: 770-488-2700.

For scientific/research issues, contact: Dr. Mary Lerchen, Acting Director, Office of Extramural Research, CDC, National Center for Infectious Diseases,

1600 Clifton Road, NE., Mailstop: C-19, Atlanta, GA 30333, Telephone: 404-639-0043, E-mail: mll0@cdc.gov.

For questions about peer review, contact: Barbara Stewart, Public Health Analyst, CDC, National Center for Infectious Diseases, 1600 Clifton Road, NE., Mailstop: C-19, Atlanta, GA 30333, Telephone: 404-639-0044, E-mail: bsg2@cdc.gov.

For financial, grants management, or budget assistance, contact: Jeff Napier, Contract Specialist, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341, Telephone: 770-488-2628, E-mail: JNapier@cdc.gov.

VIII. Other Information

None.

Dated: May 10, 2004.

Bill Nichols,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

[FR Doc. 04-10947 Filed 5-13-04; 8:45 am]

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-R-214, CMS-179, CMS-367, 367-A, 367-C and CMS-417]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Independent Diagnostic Testing Facility and Supporting Regulations contained in 42 CFR 410.33; *Form No.:* CMS-R-214 (OMB# 0938-0721); *Use:* The information collection requirements associated with an Independent Diagnostic Testing Facilities involve documentation of proficiency of medical personnel and of resources; *Frequency:* Annually; *Affected Public:* Business or other for-profit, Federal Government and State, local and tribal government; *Number of Respondents:* 500; *Total Annual Responses:* 500; *Total Annual Hours:* 42.

2. *Type of Information Request:* Extension of a currently approved collection; *Title of Information Collection:* Transmittal and Notice of Approval of State Plan Material and Supporting Regulations in 42 CFR 430.10-430.20 and 440.167; *Form Number:* CMS-179 (OMB approval #: 0938-0193); *Use:* Form CMS-179 is used by State agencies to transmit State plan material to CMS for approval prior to amending their State plans; *Frequency:* On occasion; *Affected Public:* State, local or tribal gov't; *Number of Respondents:* 56; *Total Annual Responses:* 56; *Total Annual Hours Requested:* 560.

3. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicaid Drug Rebate Program—Manufacturers; *Form No.:* 0938-0578 (CMS-367, 367a, and 367c); *Use:* Section 1927 requires drug manufacturers to enter into and have in effect a rebate agreement with the Federal Government for States to receive funding for drugs dispensed to Medicaid recipients; *Frequency:* Quarterly; *Affected Public:* Business or other for-profit; *Number of Respondents:* 570; *Total Annual Responses:* 2,280; *Total Annual Hours:* 54,780.

4. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Hospice Request for Certification in the Medicare Program; *Form No.:* CMS-417 (OMB# 0938-0313); *Use:* The Hospice Request for Certification Form is used for hospice identification, screening, and to initiate the certification process. The information captured on this form is entered into a data base which assists CMS in determining whether providers have sufficient personnel to participate in the Medicare program; *Frequency:* Annually; *Affected Public:* Business or

other for-profit, Not-for-profit institutions, Federal Government, and State, local or tribal government; *Number of Respondents:* 2,286; *Total Annual Responses:* 2,286; *Total Annual Hours:* 572.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS Web Site address at <http://cms.hhs.gov/regulations/prv/default.asp>, or E-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@hcfa.gov, or call the Reports Clearance Office on (410) 786-1326. Written comments and recommendations for the proposed information collections must be mailed within 30 days of this notice directly to the OMB desk officer: OMB Human Resources and Housing Branch, Attention: Brenda Aguilar, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: May 6, 2004.

John P. Burke, III,

Paperwork Reduction Act Team Leader, CMS Reports Clearance Officer, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development and Issuances.

[FR Doc. 04-10988 Filed 5-13-04; 8:45 am]

BILLING CODE 4120-03-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10110, CMS-102-105, CMS-R-216, CMS-10047 and CMS-18F5]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions;

(2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Manufacturer Submission of Average Sales Price (ASP) data for Medicare Part B Drugs and Biologicals and Supporting Regulations; *Form No.:* CMS-10110 (OMB# 0938-0921); *Use:* This information collection implements the provisions of the Medicare Prescription Drug, Improvement, and Modernization Act (MMA) of 2003 that require instructions to manufacturers on the submission of average sales price (ASP) data on Medicare Part B drugs to the Centers for Medicare and Medicaid Services (CMS). This form is the tool used by manufacturers to submit the required data.; *Frequency:* Quarterly; *Affected Public:* Business or other for-profit and Not-for-profit institutions; *Number of Respondents:* 120; *Total Annual Responses:* 480; *Total Annual Hours:* 15,360.

2. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* CLIA Budget Workload Reports and Supporting Regulations Contained in 42 CFR 493.1-.2001; *Form No.:* CMS-102-105 (OMB# 0938-0599); *Use:* Information collected will be used by CMS in determining the amount of Federal Reimbursement for compliance surveys. Use of the information includes program evaluation, audit, budget formulation and budget approval; *Frequency:* Quarterly and Annually; *Affected Public:* State, Local, or Tribal Government; *Number of Respondents:* 50; *Total Annual Responses:* 50; *Total Annual Hours:* 4,500.

3. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Procedures for Advisory Opinions Concerning Physician Referrals and Supporting Regulations in 42 CFR Sections 411.370 through 411.389; *Form No.:* CMS-R-216 (OMB# 0938-0714); *Use:* A request must include a complete description of the situation that is subject of the advisory opinion and must include copies of all relevant documents (or relevant portions), such as financial statements, contracts, leases, employment agreements and court documents. The submission must include the identities

and addresses of all known actual and potential parties to the arrangement. A request for an advisory opinion is purely voluntary. The facts will relate to business plans and the requestor will already have collected and analyzed all or most of the information we will need to review the request; *Frequency:* On occasion; *Affected Public:* Not-for-profit institutions, Individuals or Households, and Business or other for-profit; *Number or Respondents:* 200; *Total Annual Responses:* 200; *Total Annual Hours:* 2,000.

4. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Physicians' Referrals to Health Care Entities With Which They Have Financial Relationships and Supporting Regulations in 42 CFR, Sections 411.352 through 411.361; *Form No.:* CMS-10047 (OMB# 0938-0846); *Use:* The final rule (HCFA-1809) incorporated into regulations the provisions in paragraphs (a), (b), (c), (d), and (h) of section 1877 of the Social Security Act. Under section 1877, if a physician or a member of a physician's immediate family has a financial relationship with a health care entity, the physician may not refer Medicare patients to that entity for the furnishing of 11 designated health services, unless an exception applies. In addition, section 1877 prohibits an entity from presenting or causing to be presented a Medicare claim or bill to any individual, third party payer, or other entity for designated health services furnished under a prohibited referral. Also, Medicare does not pay for a designated health service furnished under a prohibited referral.; *Frequency:* Annually and Other: whenever financial arrangements between entities that furnish designated health services and physicians change.; *Affected Public:* Business or other for-profit, Not-for-profit institutions, and Individuals or Households; *Number or Respondents:* 62,824; *Total Annual Responses:* 62,824; *Total Annual Hours:* 1,561,633.

5. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Application for Hospital Insurance and Supporting Regulations in 42 CFR 406.7; *Form No.:* CMS-18F5 (OMB# 0938-0251); *Use:* The CMS-18F5 is used to establish entitlement to Hospital Insurance and Supplementary Medical Insurance for beneficiaries entitled under Title XVIII of the Social Security Act. The HCFA-18F5-SP is included in this renewal. (The Agency name change on the Spanish language form has not been done because there is still stock on

hand.); *Frequency:* On occasion; *Affected Public:* Individuals or Households, Business or other for-profit, Not-for-profit institutions, Farms, Federal Government, and State, Local or Tribal Gov.; *Number or Respondents:* 50,000; *Total Annual Responses:* 50,000; *Total Annual Hours:* 12,500.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS's Web Site address at <http://cms.hhs.gov/regulations/prd/default.asp>, or E-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@hcfa.gov, or call the Reports Clearance Office on (410) 786-1326. Written comments and recommendations for the proposed information collections must be mailed within 60 days of this notice directly to the CMS Paperwork Clearance Officer designated at the following address: CMS, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development and Issuances, Attention: Melissa Musotto, Room C5-14-03, 7500 Security Boulevard, Baltimore, Maryland 21244-1850.

Dated: May 6, 2004.

John P. Burke, III,
Paperwork Reduction Act Team Leader,
Office of Strategic Operations and Strategic Affairs, Division of Regulations Development and Issuances.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Funding Opportunity: CSBG T/TA Program—Program Innovations of National Significance

AGENCY: Administration for Children and Families, Office of Community Services, HHS.

Announcement Type: Competitive Grant—Initial.

Funding Opportunity Number: HHS-2004-ACF-OCS-ET-0024.

CFDA Number: 93.570.

Due Date for Applications: The due date for receipt of applications is June 28, 2004.

I. Funding Opportunity Description

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant pursuant to the Secretary's authority under section 674(b) of the Community Services Block Grant (CSBG) Act, as amended, by the Community Opportunities, Accountability, and Training and Educational Services (COATES) Human Services Reauthorization Act of 1998, (Pub. L. 105-285).

The proposed grant will fund one project to underwrite the development of innovative program collaboration strategies among CSBG eligible entities and other service providers, such as foundations, community development corporations, United Way agencies, and community and faith-based organizations in support of the national community action Goal 4 ("Partnerships Among Supporters and Providers of Service to Low-Income People are Achieved").

Definitions of Terms

The following definitions apply:

At-Risk Agencies refers to CSBG eligible entities in crises. The problem(s) to be addressed must be of a complex or pervasive nature that cannot be adequately addressed through existing local or State resources.

Capacity-building refers to activities that assist Community Action Agencies (CAAs) and other eligible entities to improve or enhance their overall or specific capability to plan, deliver, manage and evaluate programs efficiently and effectively to produce intended results for low-income individuals. This may include upgrading internal financial management or computer systems, establishing new external linkages with other organizations, improving board functioning, adding or refining a program component or replicating techniques or programs piloted in another local community, or making other cost effective improvements.

Community in relationship to broad representation refers to any group of individuals who share common distinguishing characteristics including residency, for example, the "low-income" community, or the "religious" community or the "professional" community. The individual members of these "communities" may or may not reside in a specific neighborhood, county or school district but the local

service provider may be implementing programs and strategies that will have a measurable affect on them. Community in this context is viewed within the framework of both community conditions and systems, *i.e.*, (1) Public policies, formal written and unstated norms adhered to by the general population; (2) service and support systems, economic opportunity in the labor market and capital stakeholders; (3) civic participation; and (4) an equity as it relates to the economic and social distribution of power.

Community Services Network (CSN) refers to the various organizations involved in planning and implementing programs funded through the Community Services Block Grant or providing training, technical assistance or support to them. The network includes local Community Action Agencies and other eligible entities; State CSBG offices and their national association; CAA State, regional and national associations; and related organizations which collaborate and participate with Community Action Agencies and other eligible entities in their efforts on behalf of low-income people.

Eligible applicants described in this announcement shall be eligible entities, organizations, (including faith based) or associations with demonstrated expertise in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities. See description of Eligible Entities below.

Eligible entity means any organization that was officially designated as a Community Action Agency (CAA) or a community action program under Section 673(1) of the Community Services Block Grant Act, as amended by the Human Services Amendments of 1994 (Pub. L. 103-252), and meets all the requirements under Sections 673(1)(A)(I), and 676A of the CSBG Act, as amended by the COATES Human Services authorization Act of 1998. All eligible entities are current recipients of Community Services Block Grant funds, including migrant and seasonal farm worker organizations that received CSBG funding in the previous fiscal year.

Local service providers are local public or private non-profit agencies that receive Community Services Block Grant funds from States to provide services to, or undertake activities on behalf of, low-income people.

Nationwide refers to the scope of the technical assistance, training, data collection, or other capacity-building projects to be undertaken with grant

funds. Nationwide projects must provide for the implementation of technical assistance, training or data collection for all or a significant number of States, and the local service providers who administer CSBG funds.

Non-profit Organization refers to an organization, including faith-based, which has "demonstrated experience in providing training to individuals and organizations on methods of effectively addressing the needs of low income families and communities." Acceptable documentation for eligible non-profit status is limited to: (1) A copy of a current, valid Internal Revenue service tax exemption certificate; (2) a copy of the applicant organization's listing in the Internal Revenue Service's most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS code; and/or (3) Articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Outcome Measures are definable changes in the status or condition of individuals, families, organizations, or communities as a result of program services, activities, or collaborations.

Performance Measurement is a tool used to objectively assess how a program is accomplishing its mission through the delivery of products, services, and activities.

Program technology exchange refers to the process of sharing expert technical and programmatic information, models, strategies and approaches among the various partners in the Community Services Network. This may be done through written case studies, guides, seminars, technical assistance, and other mechanisms.

Regional Networks refers to CAA State Associations within a region.

Results-Oriented Management and Accountability (ROMA) System: ROMA is a system, which provides a framework for focusing on results for local agencies funded by the Community Services Block Grant Program. It involves setting goals and strategies and developing plans and techniques that focus on a result-oriented performance based model for management.

State means all of the 50 States and the District of Columbia. Except where specifically noted, for purposes of this program announcement, it also includes specified Territories.

State CSBG Lead Agency (SCLA) is the lead agency designated by the Governor of the State to develop the State CSBG application and to administer the CSBG Program.

Statewide refers to training and technical assistance activities and other

capacity building activities undertaken with grant funds that will have significant impact, *i.e.* activities should impact at least 50 percent of the eligible entities in a State.

Technical assistance is an activity, generally utilizing the services of an expert (often a peer), aimed at enhancing capacity, improving programs and systems, or solving specific problems. Such services may be provided proactively to improve systems or as an intervention to solve specific problems.

Territories refer to the Commonwealth of Puerto Rico and American Samoa for the purpose of this announcement.

Training is an educational activity or event which is designed to impart knowledge, understanding, or increase the development of skills. Such training activities may be in the form of assembled events such as workshops, seminars, conferences or programs of self-instructional activities.

Priority Area

Community Action Goal 4—
“Partnerships among Supporters and Providers of Service to Low-Income People are Achieved”

Innovative Program Collaboration Program Purpose, Scope and Focus

The Director of the Office of Community Services has set as an agency priority the creation of additional capacity among local eligible entities to form community-wide partnerships with other community-based public and private organizations, including foundations, United Way agencies, community development corporations, and other community-based groups, including those that are faith-based, in order to better achieve family and community outcomes in support of the six national community action goals.

Specifically, OCS will fund up to four grants, each for a maximum of \$50,000 per year, for up to three years, to develop new or expanded collaborations designed to achieve and sustain measurable results among low income people and their communities:

- Economic self-sufficiency
 - Community development, opportunities, and resources
 - Civic commitment and involvement
 - Family safety, stability, and growth
- Successful applicants will describe in their grant applications:

1. The specific family or community goals to be addressed by the proposed collaboration (one or more of the above) and the anticipated measurable outcomes to be achieved (*i.e.*, numbers

of low income families to achieve self-sufficiency, or the nature and number of community opportunities or resources to be preserved, created, or expanded).

2. The overall strategy for forming and maintaining the proposed collaboration in terms of: (a) Structure; (b) administration; (c) program, service or activity coordination; (d) communication; (e) financial responsibility; (f) information systems; and (g) evaluation.

3. For each participating agency: (a) the nature of contributions to be made to the collaboration (*i.e.*, direct services, administration, logistical or financial support, service referral, case management); and (b) resources devoted to the collaboration (*i.e.*, funding, staff, facilities).

4. Proposed logistical and information supports for the planned collaboration, including, but not limited to: (a) Mechanisms to coordinate common administrative and service functions across partnering agencies, such as participant intake, eligibility assessment, service referral and follow-up; (b) collection, storage, sharing, and utilization of participant and program information; (c) coordination of fiscal management and accounting; and (d) collaboration oversight and facilitation.

5. The overall budget for the proposed collaboration, the specific elements of the budget to be underwritten by this grant, and the anticipated financial support to be received from each of the collaboration partners.

6. A plan for measuring and reporting results of the partnership in terms of anticipated family and community outcomes;

7. A plan for developing and disseminating information about the collaboration and its results to the Community Services Network at the conclusion of the grant period.

II. Award Information

Funding Instrument Type: Grant.
Category of Funding Activity: ISS
Income Security and Social Services.

*Anticipated Total Priority Area
Funding:* \$75,000 in FY2004.

Anticipated Number of Awards: One.
*Ceiling on Amount of Individual
Awards:* \$75,000 per budget period.

*Floor on Amount of Individual
Awards:* None.

Average Projected Award Amount:
\$75,000 per budget period.

Project Periods for Award: This announcement is inviting applications for project periods up to three years. Awards, on a competitive basis, will be for a one-year budget period, although project may be for three years. Applications for continuation grants

beyond the one-year budget period but within the three year project period will be entertained in subsequent years on a noncompetitive basis, subject to availability of funds, satisfactory progress of the grantee and a determination that continued funding would be in the best interest of the Government.

III. Eligibility Information

1. Eligible Applicants

Community Services Block Grant eligible entities, State Community Action Associations including faith-based organizations, nonprofit organizations having 501(c)(3) status, and nonprofits that do not have 501(c)(3) status.

Additional Information on Eligibility:
As prescribed by the Community Services Block Grant Act (Public Law 105-285, Section 678(c)(2)), eligible applicants are eligible entities (see definitions), organizations, or associations with demonstrated expertise in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities.

Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission. The non-profit agency can accomplish this by providing:

(a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code.

(b) A copy of a currently valid IRS tax exemption certificate.

(c) A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.

(d) A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.

(e) Or any of the items referenced above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms" titled "Survey for Private, Non-Profit Grant Applicants" at <http://www.acf.hhs.gov/programs/ofs/>

forms.htm. Your participation or lack of participation with this survey will not affect your application score nor your chance of receiving an award.

2. Cost Sharing or Matching

None.

3. Other

On June 27, 2003, the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires all Federal grant applicants to provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal (<http://www.Grants.gov>). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

IV. Application and Submission Information

1. Address To Request Application Package

Office of Community Services Operations Center, ATTN: Dr. Margaret Washnitzer, 1815 Fort Meyer Drive, Suite 300, Arlington, Virginia 22209; Telephone: (800) 281-9519;

2. Content and Form of Application Submission

An original and two copies of the complete application are required. The original and the 2 copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized representative of the applicant organization, have original signatures, and be submitted unbound. Applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers. The copies may include summary salary information.

You may submit your application to us in either electronic or paper format. To submit an application electronically, please use the <http://www.Grants.gov>

apply site. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. You may not e-mail an electronic copy of a grant application to us.

Please note the following if you plan to submit your application electronically via Grants.Gov:

- Electronic submission is voluntary.
- When you enter the Grants.Gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.Gov.

- To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.

- You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.

- You may submit all documents electronically, including all information typically included on the SF 424 and all necessary assurances and certifications.

- Your application must comply with any page limitation requirements described in this program announcement.

- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov

- We may request that you provide original signatures on forms at a later date.

- You may access the electronic application for this program on <http://www.Grants.gov>. You must search for the downloadable application package by the CFDA number."

Application Content

Each application must include the following components:

(a) Table of Contents.

(b) *Abstract of the Proposed Project*—Very brief, not to exceed 250 words, that would be suitable for use in an announcement that the application has been selected for a grant award and which identifies the type of project, the target population and the major elements of the work plan.

(c) *Completed Standard Form 424*—That has been signed by an Official of the organization applying for the grant

who has authority to obligate the organization legally.

(d) *Standard Form 424A*—Budget Information-Non-Construction Programs.

(e) *Narrative Budget Justification*—For each object class category required under Section B, Standard Form 424A.

(f) *Project Narrative*—A narrative that addresses issues described in the "Application Review Information" and the "Review and Selection Criteria" sections of this announcement.

Application Format

Each application should include one signed original application and two additional copies of the same application.

Submit application materials on white 8½ x 11 inch paper only. Do not use colored, oversized or folded materials.

Please do not include organizational brochures or other promotional materials, slides, films, clips, etc.

The font size may be no smaller than 12 pitch and the margins must be at least one inch on all sides.

Number all application pages sequentially throughout the package, beginning with the abstract of the proposed project as page number one.

Please present application materials either in loose-leaf notebooks or in folders with pages two-hole punched at the top center and fastened separately with a slide paper fastener.

Page Limitation

The application package including sections for the Table of Contents, Project Abstract, Project and Budget Narratives must not exceed 30 pages. The page limitation does not include the following attachments and appendices: Standard Forms for Assurances, Certifications, Disclosures and appendices. The page limitation also does not apply to any supplemental documents as required in this announcement.

Required Standard Forms

Applicants requesting financial assistance for a non-construction project must sign and return Standard Form 424B, Assurances: Non-Construction Programs with their applications.

Applicants must provide a Certification Regarding Lobbying. Prior to receiving an award in excess of \$100,000, applicants shall furnish an executed copy of the lobbying certification. Applicants must sign and return the certification with their application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to

nondiscrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back a certification form.

Applicants must make the appropriate certification of their compliance with the requirements of the Pro-Children Act of 1994 as outlined in Certification Regarding Environmental Tobacco Smoke. By signing and submitting the applications, applicants are providing the certification and need not mail back a certification form.

Additional Requirements

(a) The application must contain a signed Standard Form 424, Application for Federal Assistance, a Standard Form 424-A, Budget Information, and signed Standard Form 424-B, Assurance—Non-Construction Programs, completed according to instructions provided in this Program Announcement. The Forms SF-424 and SF-424B must be signed by an official of the organization applying for the grant who has authority to obligate the organization legally. The applicant's legal name as required on the SF-424 (Item 5) must match that listed as corresponding to the Employer Identification Number (Item 6);

(b) The application must include a project narrative that meets the requirements set forth in this announcement;

(c) The application must contain documentation of the applicant's tax-exempt status as indicated in the "Funding Opportunity Description" section of this announcement;

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms" titled "Survey for Private, Non-Profit Grant Applicants." The forms are located on the Web at <http://www.acf.hhs.gov/programs/ofsf/forms.htm>.

Project Summary Abstract: Provide a one page (or less) summary of the project description with reference to the funding request.

Full Project Description Requirements: Describe the project clearly in 30 pages or less (not counting supplemental documentation, letters of

support or agreements) using the following outline and guidelines. Applicants are required to submit a Full Project Description and must prepare the project description statement in accordance with the following instructions. The pages of the project description must be numbered and are limited to 30 typed pages starting on page 1 with the "Objectives and Need for Assistance". The description must be double-spaced, printed on only one side, with at least one inch margins. Pages over the 30 page limit will be removed from the competition and will not be reviewed.

It is in the applicant's best interest to ensure that the project description is easy to read, logically developed in accordance with the evaluation criteria and adheres to the page limitation. In addition, applicants should be mindful of the importance of preparing and submitting applications using language, terms, concepts and descriptions that are generally known by the Community Services Block Grant (CSBG) network.

The maximum number of pages for supplemental documentation is 10 pages. The supplemental documentation, subject to the 10-page limit, must be numbered and might include brief resumes, position descriptions, proof of non-profit status, news clippings, press releases, etc. Supplemental documentation over the 10-page limit will not be reviewed.

Applicants must include letters of support or agreement, if appropriate or applicable, in reference to the project description. Letters of support are not counted as part of the 30-page project description limit or the 10-page supplemental documentation limit. All applications must comply with the following requirements as noted:

3. Submission Dates and Times

The closing time and date for receipt of applications is 4:30 p.m. Eastern Standard Time (EST) on June 28, 2004. Mailed or hand carried applications received after 4:30 p.m. on the closing date will be classified as late.

Deadline: Mailed applications shall be considered as meeting an announced deadline if they are received on or

before the deadline time and date at the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington, Virginia 22209 Attention: Barbara Ziegler Johnson. Applicants are responsible for mailing applications well in advance, when using all mail services, to ensure that the applications are received on or before the deadline time and date.

Applications hand carried by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., Eastern Standard Time (EST), at the U.S. Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, between Monday and Friday (excluding federal holidays). This address must appear on the envelope/package containing the application with the note: "Attention: Barbara Ziegler Johnson". Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

Late applications: Applications which do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Extension of deadlines: ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service. Determinations to extend or waive deadline requirements rest with the Chief Grants Management Officer.

ACF will not send acknowledgements of receipt of application materials.

Required Forms:

What to submit	Required content	Required form or format	When to submit
Table of Contents	As described above	Consistent with guidance in "Application Format" section of this announcement.	By application due date.

4. Intergovernmental Review

State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs. As of October 1, 2003, the following jurisdictions have elected not to participate in the Executive Order process. Applicants from these jurisdictions or for projects administered by federally-recognized Indian Tribes need take no action in regard to E.O. 12372.

All States and Territories except Alabama, Alaska, Arizona, Colorado, Connecticut, Hawaii, Idaho, Indiana, Kansas, Louisiana, Massachusetts, Minnesota, Montana, Nebraska, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Vermont, Virginia, Washington, Wyoming and Palau have elected to participate in the Executive Order process and have established Single Points of Contact (SPOCs). Applicants from these twenty-seven jurisdictions need take no action.

Although the jurisdictions listed above no longer participate in the

process, entities which have met the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. All remaining jurisdictions participate in the Executive Order process and have established SPOCs. Applicants from participating jurisdictions should contact their SPOCs as soon as possible to alert them of the prospective applications and receive instructions. Applicants must submit any required material to the SPOCs as soon as possible so that the program office can obtain and review SPOC comments as part of the award process. The applicant must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards.

SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and

Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Mail Stop 6C-462, Washington, DC 20447.

A list of the Single Points of Contact for each State and Territory is included with the application materials for this announcement.

5. Funding Restrictions

Sub-Contracting or Delegating Projects

OCS will not fund any project where the role of the applicant is primarily to serve as a conduit for funds to organizations other than the applicant. The applicant must have a substantive role in the implementation of the project for which funding is requested. This prohibition does not bar the making of sub-grants or sub-contracting for specific services or activities that are needed to conduct the project.

Number of Projects in Application

Each application may include only one proposed project.

6. Other Submission Requirements

Submission by Mail: An Applicant must provide an original application with all attachments, signed by an authorized representative and two complete copies. The application must be received at the address below by 4:30 p.m. Eastern Standard Time (EST) on or before June 28, 2004. Applications should be mailed to: U.S. Department of

Health and Human Services (HHS), Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, ATTN: Barbara Ziegler Johnson.

For Hand Delivery: Applicants must provide an original application with all attachments, signed by an authorized representative and two complete copies. The Application must be received at the address below by 4:30 PM Eastern Standard Time on or before the closing date. Applications that are hand delivered will be accepted between the hours of 8 a.m. to 4:30 p.m., Monday through Friday. Applications may be delivered to: Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington, Virginia 22209 Attention: Barbara Ziegler Johnson. It is strongly recommended that applicants obtain documentation that the application was hand delivered on or before the closing date. Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

V. Application Review Information

1. Criteria

Paperwork Reduction Act of 1995 (Pub. L. 104-13)

Under the Paperwork Reduction Act of 1995, Pub. L. 104-13, the Department is required to submit to the Office of Management and Budget (OMB) for review and approval of any reporting and record keeping requirements in regulations including program announcements. This program announcement does not contain information collection requirements beyond those approved for ACF grant applications under the Program Narrative Statement by OMB Approval Number 0970-0139.

The project description is approved under OMB control # 0970-0139. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Public reporting burden for this collection is estimated to average 25 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection of information.

Instructions: ACF Uniform Project Description (UPD)

The following are instructions and guidelines on how to prepare the

"project summary/abstract" and "Full Project Description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD). The UPD was approved by the Office of Management and Budget (OMB), control Number 0970-0139. The generic UPD requirement is followed by the evaluation criterion specific to the Community Services Block Grant legislation.

Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, all information requested through each specific evaluation criteria should be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application.

Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions and the specified evaluation criteria. The instructions give a broad overview of what your project description should include while the evaluation criteria expands and clarifies more program-specific information that is needed.

Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the

endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or Benefits Expected

Identify the results and benefits to be derived. For example, describe the population to be served by the program and the number of new jobs that will be targeted to the target population. Explain how the project will reach the targeted population, how it will benefit participants including how it will support individuals to become more economically self-sufficient.

Approach

Outline a plan of action which describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors which might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reasons for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technical innovations, reductions in cost or time or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in , for example such terms as the "number of people served." When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S.

Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Evaluation

Provide a narrative addressing how the results of the project and the conduct of the project will be evaluated. In addressing the evaluation of results, state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities on the project's effectiveness.

Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission.

The non-profit agency can accomplish this by providing a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS code, or by providing a copy of the currently valid IRS tax exemption certificate, or by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Budget and Budget Justification

Provide line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. The detailed budget must also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

2. Evaluation Criteria

Evaluation Criterion I: Approach (Maximum: 35 Points)

Factors:

(1) The work program is results-oriented, approximately related to the legislative mandate and specifically related to the priority area under which funds are being requested. Application addresses the following: specific outcomes to be achieved; performance targets that the project is committed to achieving, including a discussion of and how the project will verify the achievement of these targets; critical milestones which must be achieved if results are to be gained; organizational support, the level of support from the applicant organization; past performance in similar work; and specific resources contributed to the project that are critical to success.

(2) The application defines the comprehensive nature of the project and methods that will be used to ensure that the results can be used to address a statewide or nationwide project as defined by the description of the particular priority area.

Evaluation Criterion II: Organizational Profiles (Maximum: 25 Points)

Factors:

(1) The application demonstrates that it has experience and a successful record of accomplishment relevant to the specific activities it proposes to accomplish.

(2) If the application proposes to provide training and technical assistance, it details its abilities to provide those services on a nationwide basis. If applicable, information provided by the applicant also addresses related achievements and competence of each cooperating or sponsoring organization.

(3) The application fully describes, for example in a resume, the experience and skills of the proposed project

director and primary staff showing specific qualifications and professional experiences relevant to the successful implementation of the proposed project.

(4) The application describes how it will involve partners in the Community Services Network in its activities. Where appropriate, applicant describes how it will interface with other related organizations.

(5) If subcontracts are proposed, the application documents the willingness and capacity of the subcontracting organization(s) to participate as described.

Evaluation Criterion III: Objectives and Need for Assistance (Maximum: 20 Points)

Factors:

(1) The application documents that the proposed project addresses vital needs related to the program purposes and provides statistics and other data and information in support of its contention.

(2) The application provides current supporting documentation or other testimonies regarding needs from State CSBG Directors, CAAs and local service providers and/or State and Regional organizations of CAAs and other local service providers.

Evaluation Criterion IV: Results or Benefits Expected (Maximum: 15 Points)

Factors:

(1) The application describes how the project will assure long-term program and management improvements for State CSBG offices, CAA State and/or regional associations, CAAs and/or other local providers of CSBG services and activities.

(2) The application indicates the types and amounts of public and/or private resources it will mobilize, how those resources will directly benefit the project, and how the project will ultimately benefit low-income individuals and families.

(3) If the application proposes a project with a training and technical assistance focus, the application indicates the number of organizations and/or staff that will benefit from those services.

(4) If the application proposes a project with data collection focus, the application describes the mechanism it will use to collect data, how it can assure collections from a significant number of States, and the number of States willing to submit data to the applicant.

(5) If the application proposes to develop a symposium series or other policy-related project(s), the application

identifies the number and types of beneficiaries.

(6) The application describes methods of securing participant feedback and evaluations of activities.

Criterion V: Budget and Budget Justification (Maximum: 5 Points)

Factors:

(1) The resources requested are reasonable and adequate to accomplish the project

(2) Total costs are reasonable and consistent with anticipated results.

2. Review and Selection Process

Initial OCS Screening

Each application submitted to OCS will be screened to determine whether it was received by the closing date and time.

Applications received by the closing date and time will be screened for completeness and conformity with the following requirements. Only complete applications that meet the requirements listed below will be reviewed and evaluated competitively. Other applications will be returned to the applicants with a notation that they were unacceptable and will not be reviewed.

All applications must comply with the following requirements except as noted:

OCS Evaluation of Applications

Applications that pass the initial OCS screening will be reviewed and rated by a panel based on the program elements and review criteria presented in relevant sections of this program announcement. The review criteria are designed to enable the review panel to assess the quality of a proposed project and determine the likelihood of its success. The criteria are closely related to each other and are considered as a whole in judging the overall quality of an application. The review panel awards points only to applications that are responsive to the program elements and relevant review criteria within the context of this program announcement.

The OCS Director and program staff use the reviewer scores when considering competing applications. Reviewer scores will weigh heavily in funding decisions, but will not be the only factors considered.

Applications generally will be considered in order of the average scores assigned by the review panel. Because other important factors are taken into consideration, highly ranked applications are not guaranteed funding. These other considerations include, for example: the timely and proper

completion by the applicant of projects funded with OCS funds granted in the last five (5) years; comments of reviewers and government officials; staff evaluation and input; amount and duration of the grant requested and the proposed project's consistency and harmony with OCS goals and policy; geographic distribution of applications; previous program performance of applicants; compliance with grant terms under previous HHS grants, including the actual dedication to program of mobilized resources as set forth in project applications; audit reports; investigative reports; and applicant's progress in resolving any final audit disallowance on previous OCS or other Federal agency grants.

VI. Award Administration Information

1. Award Notices

Following approval of the application selected for funding, ACF will mail a written notice of project approval and authority to draw down project funds. The official award document is the Financial Assistance Award that specifies the amount of Federal funds approved for use in the project, the project and budget period for which support is provided and the terms and conditions of the award. The Financial Assistance Award is signed and issued via postal mail by an authorized Grants Officer.

ACF will notify unsuccessful applicants after the award is issued to the successful applicant.

2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental).

3. Reporting

All grantees are required to submit semi-annual program reports with a final report due 90 days after the project end date. Grantees are also required to submit semi-annual expenditure reports (SF-269) with a final report due 90 days after the project end date. A suggested format for the program report will be sent to all grantees after the awards are made.

Special Reporting Requirements: None.

VII. Agency Contacts

Program Office Contact: Dr. Margaret Washnitzer, Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services Operations Center, 1815 Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, E-Mail:

OCS@lcgnet.com, Phone: 1-800-281-9519.

Grants Management Office Contact: Barbara Ziegler Johnson, Team Leader, Office of Grants Management, Division of Discretionary Grants, Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services Operations Center, 1815 Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, E-Mail: *OCS@lcgnet.com*, Phone: 1-800-281-9519.

VIII. Other Information

Additional information about this program and its purpose can be located on the following Web site: <http://www.acf.hhs.gov/programs/ocs>.

Dated: May 7, 2004.

BILLING CODE 4184-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Funding Opportunity for Field Initiated Service Demonstration Projects in the Adoption Field

Federal Agency Contact Name: Administration for Children and Families (ACF) & Children's Bureau.

Funding Opportunity Title: Field Initiated Service Demonstration Projects in the Adoption Field.

Announcement Type: Initial.
Funding Opportunity Number: HHS-2004-ACF-ACYF-CO-0019.

CFDA Number: 93.652.

Due Date for Applications: The due date for receipt of applications is July 13, 2004.

I. Funding Opportunity Description

The purpose of this funding opportunity is to support continuous innovation and improvement in the quality of adoption services on topics identified by the field as cutting edge or to test new solutions to continuing problems. Projects must address one of the ACF key priorities: Healthy Marriage, Fatherhood, Rural Initiatives, Faith-based and Community Initiatives, Positive Youth Development and Prevention. Topics of interest to the Children's Bureau also include, but are not limited to, special recruitment, retention, and support for the adoption of children age nine and older, sibling groups and children with disabilities. Other topics of interest include

assessment of adoption services and services that expedite adoptions.

Background Information

The number of children in out-of-home care is approximately 534,000. Children entering substitute care have complex problems that require intensive services. Many of these children have special needs because they are born to mothers who did not receive prenatal care, are born with life-threatening conditions or disabilities, are born addicted to alcohol or other drugs, have been exposed to infection with the etiologic agent for the human immunodeficiency virus (HIV), or have been victims of child abuse and neglect. Each year thousands of children are in need of placement in a permanent home. Most of these children are difficult to place because they are older or may be part of a sibling group. Currently there are approximately 126,000 children waiting for adoption.

This funding opportunity is intended to support projects that contribute to the continued expansion of knowledge about the familial and systemic aspects of successful adoptions, as well as the benefits of support for healthy marriages, responsible fatherhood, and positive youth development to successful adoptions. It is believed that the inclusion of faith-based and community organizations is important to developing and sustaining programs that support safety, permanency and well-being for children and families within urban and rural communities. Applicants are encouraged to develop projects that are highly innovative and demonstrate approaches that shorten the time required to achieve permanency for sibling groups, children with disabilities, and adolescents; reduce the number of adoption disruptions; eliminate barriers to inter-jurisdictional adoption; and/or develop and support innovative models for adoption exchanges, networking among agencies and parent support groups across jurisdictional boundaries.

Projects must incorporate one or more of the ACF priorities:

- **Prevention:** Dedicating resources to prevent the need for intervention services.
- **Rural Initiative:** Strengthening rural families and communities.
- **Positive Youth Development:** Promoting ongoing relationships with adult role models; safe places with structured activities; healthy life styles; opportunities to acquire marketable skills; and opportunities for community service and civic participation.
- **Faith-based/Community Initiatives:** Removing barriers to the full

participation of faith-based and other community services in the delivery of social services.

- **Healthy Marriage:** Helping couples who choose marriage for themselves to develop the skills and knowledge to form and sustain healthy marriages.
- **Fatherhood:** Helping men become responsible, committed, involved fathers.

For more information: <http://www.acf.hhs.gov/programs/region10/priorities/index.html>.

Service demonstration grants are awarded to the field to develop collaboration strategies and models designed to increase the number of adoptions, to provide innovative services and to test new service delivery models designed to strengthen families who have adopted children. Projects previously funded by the Children's Bureau have demonstrated that adoptions can be facilitated by designing and implementing plans for permanency early in the child's placement process.

II. Award Information

Funding Instrument Type: Grant.

Anticipated Total Program Funding: The anticipated total for all awards under this funding opportunity in FY2004 is \$2 million.

Anticipated Number of Awards: It is anticipated that up to 5 projects will be funded.

Ceiling on Amount of Individual Awards: The grant amount will not exceed \$400,000 in the first budget period. An application received that exceeds the upper value of the dollar range specified will be considered "non-responsive" and be returned to the applicant without further review.

Floor of Individual Award Amounts: None.

Average Anticipated Award Amount: \$400,000 per budget period.

Project Periods for Awards: The projects will be awarded for a project period of 48 months. The initial grant award will be for a 12 month budget period. The award of continuation funding beyond each 12 month budget period will be subject to the availability of funds, satisfactory progress on the part of the grantee, and a determination that continued funding would be in the best interest of the government.

III. Eligibility Information

1. Eligible Applicants

State governments
County governments
State controlled institutions of higher education
Native American tribal governments (Federally recognized)

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Non-profits that do not have 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education
For-profit organizations other than small businesses
Small businesses
Faith-based organizations are eligible to apply

Additional Information on Eligibility: All applicants must have child welfare and/or adoption experience. Organizations with expertise in child welfare and adoption, and organizations which currently serve children in the public child welfare system are eligible to apply. Applicants without direct access or responsibility for targeted children must apply in partnership with States, local government entities, or public or private licensed child welfare agencies.

Non-profit organizations, including community and faith-based organizations are eligible to apply. Non-profit organizations applying for funding are required to submit proof of their non-profit status. Proof of non-profit status is any one of the following:

(a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS code.

(b) A copy of a currently valid IRS tax exemption certificate.

(c) A statement from a State taxing body, State Attorney General, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals.

(d) A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.

(e) Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Private non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms" titled "Survey for Private, Non-Profit Grant Applicants" at www.acf.hhs.gov/programs/ofs/forms.htm.

Applicants are cautioned that the ceiling for individual awards is \$400,000. Applications exceeding the \$400,000 threshold will be considered

non-responsive and will not be eligible for funding under this announcement.

2. Cost Sharing or Matching

The grantee must provide at least 10 per cent of the total approved cost of the project. The total approved cost is the sum of the Federal share and the non-Federal share. Therefore, a project requesting \$400,000 per budget period must include a match of at least \$44,444 per budget period. Applicants should provide a letter of commitment verifying the actual amount of the non-Federal share of project costs.

The following example shows how to calculate the required 10% match amount for a \$400,000 grant:

\$400,000 (Federal share) divided by .90 (100%–10%) equals \$444,444 (total project cost including match) minus \$400,000 (Federal share) equals \$44,444 (required 10% match).

The non-Federal share may be cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. If approved for funding, grantees will be held accountable for the commitment of non-Federal resources even if over the amount of the required match. Failure to provide the required amount will result in a disallowance of Federal funds.

Applications that fail to include the required amount of cost sharing will be considered non-responsive and will not be eligible for funding under this announcement.

3. Other

All applicants must have a Dun and Bradstreet Number. On June 27, 2003, the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires all Federal grant applicants to provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal (www.Grants.gov). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you

may request a number online at <http://www.dnb.com>.

IV. Application and Submission Information

1. Address to Request Application Package

ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q Street, NE., Washington, DC 20002-2132; Telephone: (866) 796-1591.

URL to Obtain Application: www.Grants.gov.

2. Content and Form of Application Submission

You may submit your application to us either in electronic or paper format. To submit an application electronically, please use the www.Grants.gov apply site. If you use Grants.gov you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. You may not e-mail an electronic copy of a grant application to us.

Please note the following if you plan to submit your application electronically via Grants.gov:

- Electronic submission is voluntary.
- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
- To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.
- You will not receive additional point value because you submit a grant application in paper format.
- You may submit all documents electronically, including all information typically included on the SF424 and all necessary assurances and certifications.
- Your application must comply with any page limitation requirements described in this program announcement.
- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.
- We may request that you provide original signatures on forms at a later date.

• You may access the electronic application for this program on www.Grants.gov.

• You must search for the downloadable application package by the CFDA number.

Private, non-profit organizations may voluntarily submit with their applications the survey located under "Grant Related Documents and Forms" titled "Survey for Private, Non-Profit Grant Applicants" at www.acf.hhs.gov/programs/ofs/forms.htm.

Please see *Section V.1. Criteria* for instructions on preparing the project summary/abstract and the full project description.

Each application must contain the following items in the order listed:—Application for Federal Assistance (Standard Form 424). Follow the instructions below and those that accompany the form.

In Item 5 of Form 424, put DUNS number in "Organizational DUNS:" box.

In Item 5 of Form 424, include name, phone number, and, if available, email and fax numbers of the contact person.

In Item 8 of Form 424, check 'New.'

In Item 10 of Form 424, clearly identify the Catalog of Federal Domestic Assistance (CFDA) program title and number for the program for which funds are being requested as stated at the end of this funding opportunity announcement.

In Item 11 of Form 424, identify the single funding opportunity the application addresses.

In Item 12 of Form 424, identify the specific geographic area to be served.

In Item 14 of Form 424, identify Congressional districts of both the applicant and project.

—Budget Information Non-Construction Programs (Form 424A) and Budget Justification.

Follow the instructions provided. Note that Federal funds provided to States and services or other resources purchased with Federal funds may not be used to match project grants.

—Certifications/Assurances. Applicants requesting financial assistance for nonconstruction projects must file the Standard Form 424B, "Assurances: Non-Construction Programs." Applicants must sign and return the Standard Form 424B with their applications.

Applicants must provide a "Certification Regarding Lobbying" Form when applying for an award in excess of \$100,000. Applicants must sign and return the certification with their applications.

Applicants must disclose lobbying activities on the Standard Form LLL

when applying for an award in excess of \$100,000. Applicants who have used non-Federal funds for lobbying activities in connection with receiving assistance under this announcement shall complete a disclosure form to report lobbying. Applicants must sign and return the disclosure form, if applicable, with their applications.

Applicants must make the appropriate certification regarding environmental tobacco smoke. By signing and submitting the application, the applicant is providing the certification and need not mail back the certification with the applications.

Adoption Opportunities program applicants are not required to submit their applications to State Single Points of Contact (SPOC).

By signing the "Signature of Authorized Representative" on the SF 424, the applicant is providing a certification and need not mail assurances for completing the following grant and cooperative agreement requirements:

1. The applicant will have the project fully functioning 90 days of the notification of the grant award.
 2. The applicant will participate if the Children's Bureau chooses to do a national evaluation or a technical assistance contract that relates to this priority area.
 3. All reports will be submitted in a timely manner, in recommended format (to be provided), and the final report will also be submitted on disk or electronically using a standard word-processing program.
 4. Within 90 days of project end date, the applicant will submit a copy of the final report, the evaluation report, and any program products to the National Adoption Information Clearinghouse, 330 C Street, SW., Washington, DC 20447. This is in addition to the standard requirement that the final program and evaluation report must also be submitted to the Grants Management Specialist and the Federal Project Officer.
 5. Allocate sufficient funds in the budget to:
 - a. Provide for the project director and evaluator to attend an annual 3-day grantees' meeting in Washington, DC.
 - b. Provide for the project director and evaluator to attend an early kickoff meeting for grantees funded under this priority area to be held within the first three months of the project (first year only) in Washington, DC.
 - c. Provide for 10-15 percent of the proposed budget to project evaluation.
- The Office for Human Research Protections of the U.S. Department of Health and Human Services provides

website information and policy guidance on the Federal regulations pertaining to protection of human subjects (45 CFR part 46), informed consent, informed consent checklists, confidentiality of personal identification information, data collection procedures, and internal review boards: <http://ohrp.osophs.dhhs.gov/polasur.htm>.

If applicable, applicants must include a completed Form 310, Protection of Human Subjects.

—Project Summary/Abstract (one page maximum). Clearly mark this page with the applicant name as shown on item 5 of the Form 424, identify the competitive grant funding opportunity and the title of the proposed project as shown in item 11 and the service area as shown in item 12 of the Form 424. The summary description should not exceed 300 words.

Care should be taken to produce an abstract/summary that accurately and concisely reflects the proposed project (see *Section V. Application Review Information*). It should describe the objectives of the project, the approach to be used and the results or benefits expected.

—Project Description for Evaluation.

Applicants should organize their project description according to the Evaluation Criteria described in *Section V. Application Review Information* of this funding opportunity announcement providing information that addresses all the components.

—Proof of non-profit status (if applicable). See *Section III. Eligibility Information* for submission information.

—Indirect cost rate agreement. If claiming indirect costs, provide documentation that applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

—Letters of agreement and memoranda of understanding. If applicable, include a letter of commitment or Memorandum of Understanding from each partner and/or sub-contractor describing their role, detailing specific tasks to be performed, and expressing commitment to participate if the proposed project is funded.

—Provide a letter of commitment verifying the actual amount of the non-Federal share of project costs.

—The application limit is 80 pages total including all forms and attachments. Submit one original and two copies.

To be considered for funding, each application must be submitted with the

Standard Federal Forms (provided at the end of this announcement or through the electronic links provided) following the guidance provided. The application must be signed by an individual authorized to act for the applicant agency and to assume responsibility for the obligations imposed by the terms and conditions of the grant award.

To be considered for funding, each applicant must submit one signed original and two additional copies of the application, including all forms and attachments, to the application receipt point specified in *Section IV.3. Submission Dates and Times*. The original copy of the application must have original signatures, signed in black ink.

The application must be typed, double spaced, printed on only one side, with at least 1/2 inch margins on each side and 1 inch at the top and bottom, using standard 12 Point fonts (such as Times Roman or Courier). Pages must be numbered.

Pages over the page limit stated within this funding opportunity announcement will be removed from the application and will not be reviewed. All copies of an application must be submitted in a single package, and a separate package must be submitted for each funding opportunity. The package must be clearly labeled for the specific funding opportunity it is addressing.

Because each application will be duplicated, do not use or include separate covers, binders, clips, tabs, plastic inserts, maps, brochures, or any other items that cannot be processed easily on a photocopy machine with an automatic feed. Do not bind, clip, staple, or fasten in any way separate subsections of the application, including supporting documentation. Applicants are advised that the copies of the application submitted, not the original, will be reproduced by the Federal government for review. Each copy must be stapled securely in the upper left corner.

Applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers if otherwise required for individuals. The copies may include summary salary information.

Tips for Preparing a Competitive Application: It is essential that applicants read the entire announcement package carefully before preparing an application and include all of the required application forms and attachments. The application must reflect a thorough understanding of the

purpose and objectives of the Children's Bureau priority-area initiatives. Reviewers expect applicants to understand the goals of the legislation and the Children's Bureau's interest in each topic. A "responsive application" is one that addresses all of the evaluation criteria in ways that demonstrate this understanding. Applications that are considered to be "unresponsive" generally receive very low scores and are rarely funded.

The Children's Bureau's Web site (<http://www.acf.dhhs.gov/programs/cb>) provides a wide range of information and links to other relevant Web sites. Before you begin preparing an application, we suggest that you learn more about the mission and programs of the Children's Bureau by exploring the Web site.

Organizing Your Application: The specific evaluation criteria in *Section V. Application Review Information* of this funding opportunity announcement will be used to review and evaluate each application. The applicant should address each of these specific evaluation criteria in the project description. It is strongly recommended that applicants organize their proposals in the same sequence and using the same headings as these criteria, so that reviewers can readily find information that directly addresses each of the specific review criteria.

Project Evaluation Plan: Project evaluations are very important. If you do not have the in-house capacity to conduct an objective, comprehensive evaluation of the project, then the Children's Bureau advises that you propose contracting with a third-party evaluator specializing in social science or evaluation, or a university or college, to conduct the evaluation. A skilled evaluator can assist you in designing a data collection strategy that is appropriate for the evaluation of your proposed project. Additional assistance may be found in a document titled "Program Manager's Guide to Evaluation." A copy of this document can be accessed at <http://>

www.acf.hhs.gov/programs/core/pubs_reports/prog_mgr.html or ordered by contacting the National Clearinghouse on Child Abuse and Neglect Information, 330 C Street, SW., Washington, DC 20447; phone (800) 394-3366; fax (703) 385-3206; e-mail nccanch@calib.com.

Logic Model: A logic model is a tool that presents the conceptual framework for a proposed project and explains the linkages among program elements. While there are many versions of the logic model, they generally summarize the logical connections among the needs that are the focus of the project, project goals and objectives, the target population, project inputs (resources), the proposed activities/processes/ outputs directed toward the target population, the expected short- and long-term outcomes the initiative is designed to achieve, and the evaluation plan for measuring the extent to which proposed processes and outcomes actually occur. Information on the development of logic models is available on the Internet at <http://www.uwex.edu/ces/pdande/> or http://www.extension.iastate.edu/cyfar/capbuilding/outcome/outcome_logicmdir.html.

Use of Human Subjects: If your evaluation plan includes gathering data from or about clients, there are specific procedures which must be followed in order to protect their privacy and ensure the confidentiality of the information about them. Applicants planning to gather such data are asked to describe their plans regarding an Institutional Review Board (IRB) review. For more information about use of human subjects and IRB's you can visit these Web sites: http://ohrp.osophd.dhhs.gov/irb/irb_chapter2.htm#d2 and <http://ohrp.osophd.dhhs.gov/humansubjects/guidance/ictips.htm>.

3. Submission Dates and Times

The closing time and date for receipt of applications is 4:30 p.m. eastern standard time (e.t.) on July 13, 2004. Mailed or handcarried applications

received after 4:30 p.m. on the closing date will be classified as late.

Deadline: Mailed applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date at the following address: ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q Street, NE., Washington, DC 20002-2132.

Applicants are responsible for mailing applications well in advance, when using all mail services, to ensure that the applications are received on or before the deadline time and date.

Applications hand-carried by applicants, applicant couriers, or by other representatives of the applicant shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., e.t., at ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q Street, NE., Washington, DC 20002-2132, between Monday and Friday (excluding Federal holidays). This address must appear on the envelope/package containing the application with the note "ATTN: Children's Bureau." Applicants are cautioned that express/overnight mail services do not always deliver as agreed. ACF cannot accommodate transmission of applications by fax.

Late applications: Applications which do not meet the criteria above are considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Extension of deadlines: ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mail service. Determinations to extend or waive deadline requirements rest with the Chief Grants Management Officer.

Required Forms: Numbers for each required item correspond to the numbering of the description of these items in *Section IV.2. Content and Form of Application Submission*.

What to submit	Required content	Required form or format	When to submit
1. SF424	Per required form	May be found at http://www.acf.hhs.gov/programs/ots/grants/form.htm .	See application due date.
2. SF424A	Per required form	May be found at http://www.acf.hhs.gov/programs/ots/grants/form.htm .	See application due date.
3.a. SF424B	Per required form	May be found at http://www.acf.hhs.gov/programs/ots/grants/form.htm .	See application due date.
3.b. Certification regarding lobbying	Per required form	May be found at http://www.acf.hhs.gov/programs/ots/grants/form.htm .	See application due date.
3.c. Disclosure of Lobbying Activities (SF-LLL).	Per required form	May be found at http://www.acf.hhs.gov/programs/ots/grants/form.htm .	See application due date.
4. Project Summary/Abstract	Summary of application request	See instructions in this funding opportunity announcement.	See application due date.

What to submit	Required content	Required form or format	When to submit
5. Project Description	Responsiveness to evaluation criteria.	See instructions in this funding opportunity announcement.	See application due date.
6. Proof of non-profit status	See above	See above	See application due date.
7. Indirect cost rate agreement	See above	See above	See application due date.
8. Letters of agreement & MOUs	See above	See above	See application due date.
9. Non-Federal share letter	See above	See above	See application due date.
10. Total application	See above	Application limit 80 pages total including all forms and attachments. Submit one original and two copies.	See application due date.

Additional Forms

Private non-profit organizations may submit with their applications the

voluntary survey located under "Grant Related Documents and Forms" titled "Survey for Private, Non-Profit Grant

Applicants" at www.acf.hhs.gov/programs/ofs/forms.htm.

What to submit	Required content	Required form or format	When to submit
Survey for Private, Non-Profit Grant Applicants.	Per required form	May be found at http://www.acf.hhs.gov/programs/ofs/grants/forms.htm .	See application due date.

4. Intergovernmental Review**State Single Point of Contact (SPOC)**

The Adoption Opportunities program is not covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Therefore, applicants are not required to submit their applications to State Single Points of Contact (SPOC).

5. Funding Restrictions

Grant awards will not allow reimbursement of pre-award costs. Construction is not an allowable activity or expenditure under this solicitation.

The non-Federal share may be cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. If approved for funding, grantees will be held accountable for the commitment of non-Federal resources even if over the amount of the required match. Failure to provide the required amount will result in a disallowance of Federal funds.

6. Other Submission Requirements

Submission by Mail: Mailed applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date at the following address: ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q Street, NE., Washington, DC 20002-2132.

Applicants are responsible for mailing applications well in advance, when

using all mail services, to ensure that the applications are received on or before the deadline time and date.

Hand Delivery: Applications hand-carried by applicants, applicant couriers, or by other representatives of the applicant shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., e.t., at ACYF Operations Center, c/o The Dixon Group, Inc., ATTN: Children's Bureau, 118 Q Street, NE., Washington, DC 20002-2132, between Monday and Friday (excluding Federal holidays). This address must appear on the envelope/package containing the application with the note "ATTN: Children's Bureau." Applicants are cautioned that express/overnight mail services do not always deliver as agreed. ACF cannot accommodate transmission of applications by fax.

Electronic Submission: Please see Section IV. 2. Content and Form of Application Submission, for guidelines and requirements when submitting applications electronically.

V. Application Review Information**1. Criteria**

The Paperwork Reduction Act of 1995 (Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information. The project description is approved under OMB

control number 0970-0139 which expires 3/31/2004. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

General Instruction for Preparing Full Project Description

Introduction. Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions and the specified evaluation criteria. The instructions give a broad overview of what your project description should include while the evaluation criteria expands and clarifies more program-specific information that is needed.

Project Summary/Abstract. Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance. Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the

applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Approach. Outline a plan of action which describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors which might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished. When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Organizational Profiles. Provide information on the applicant organization(s) and cooperating partners such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission.

The non-profit agency can accomplish this by providing a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in

section 501(c)(3) of the IRS code, or by providing a copy of the currently valid IRS tax exemption certificate, or by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Budget and Budget Justification. Provide line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. The detailed budget must also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

Personnel.

Description: Costs of employee salaries and wages.

Justification: Identify the project director or principal investigator, if known. For each staff person, provide the title, time commitment to the project (in months), time commitment to the project (as a percentage or full-time equivalent), annual salary, grant salary, wage rates, etc. Do not include the costs of consultants or personnel costs of delegate agencies or of specific project(s) or businesses to be financed by the applicant.

Fringe Benefits.

Description: Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

Justification: Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, FICA, retirement insurance, taxes, etc.

Travel.

Description: Costs of project-related travel by employees of the applicant organization (does not include costs of consultant travel).

Justification: For each trip, show the total number of traveler(s), travel destination, duration of trip, per diem, mileage allowances, if privately owned vehicles will be used, and other transportation costs and subsistence allowances. Travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

Equipment.

Description: "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser of (a) the capitalization level established

by the organization for the financial statement purposes, or (b) \$5,000. (**Note:** Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

Justification: For each type of equipment requested, provide a description of the equipment, the cost per unit, the number of units, the total cost, and a plan for use on the project, as well as use or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy or section of its policy which includes the equipment definition.

Supplies.

Description: Costs of all tangible personal property other than that included under the Equipment category.

Justification: Specify general categories of supplies and their costs. Show computations and provide other information which supports the amount requested.

Contractual.

Description: Costs of all contracts for services and goods except for those which belong under other categories such as equipment, supplies, construction, etc. Third-party evaluation contracts (if applicable) and contracts with secondary recipient organizations, including delegate agencies and specific project(s) or businesses to be financed by the applicant, should be included under this category.

Justification: All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. Recipients and subrecipients, other than States that are required to use part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceed the simplified acquisition threshold fixed at 41 U.S.C. 403(11). Recipients might be required to make available to ACF pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc.

Note: Whenever the applicant intends to delegate part of the project to another agency, the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the

required supporting information referred to in these instructions.

Other. Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to insurance, food, medical and dental costs (noncontractual), professional services costs, space and equipment rentals, printing and publication, computer use, training costs, such as tuition and stipends, staff development costs, and administrative costs.

Justification: Provide computations, a narrative description and a justification for each cost under this category.

Indirect Charges.

Description: Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

Justification: An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, it should immediately upon notification that an award will be made, develop a tentative indirect cost rate proposal based on its most recently completed fiscal year in accordance with the principles set forth in the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. It should be noted that when an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

Specific Evaluation Criteria

The following criteria will be used to review and evaluate each application. The applicant should address each criterion in the project description. The point values (summing up to 100) indicate the maximum numerical weight each criterion will be accorded in the review process.

Criterion 1. Objectives and Need for Assistance

In reviewing the objectives and need for assistance, the following factors will be considered: (20 points)

(1) The extent to which the application demonstrates an understanding of the goals and objectives of the Adoption Opportunities legislation. This includes the extent to which the proposed project will contribute to achieving those goals and objectives, including goals stated in the purpose and background sections of this funding opportunity announcement.

(2) The extent to which the application present a clear vision of the service system for the target population, including a clear statement of the goals (end products of an effective project) and objectives (measurable steps for reaching these goals) of the proposed project. The extent to which these goals and objectives are based on a thorough understanding of the characteristics of the clients and the context of the proposed intervention.

(3) The extent to which the application demonstrates a clear understanding of the ACF priorities (Prevention, Rural Initiatives, Positive Youth Development, Faith and Community Initiatives, Healthy Marriage, and Fatherhood) which are addressed by the project. The extent to which the project will effectively incorporate and promote one or more of these priorities in program implementation.

(4) The extent to which the application demonstrates a thorough understanding of the characteristics of the target population, the service needs of this population and community, and the status of existing services for children, adolescents and their families/caregivers.

(5) The extent to which the application's review of the literature is comprehensive and reflects a clear understanding of the research on best practices and promising approaches as it relates to the proposed project. This includes the extent to which the review of literature provides evidence that the proposed project is innovative and, if successfully implemented and evaluated, likely to yield findings or results that will contribute to and promote evidence-based practices that will be useful to other agencies and organizations in developing effective services and programs to address the issues effectively.

Criterion 2. Approach

In reviewing the approach, the following factors will be considered: (50 points).

(1) The extent to which the application provides a reasonable timeline for implementing the proposed project, including major milestones and

target dates. The extent to which the application describes the factors that could speed or hinder project implementation, and explains how these factors would be managed.

(2) The extent to which there is a detailed description of the services to be provided by the program. The extent to which this program will bridge gaps or substantially improve the current service delivery system and benefit the target population. The extent to which the proposed services are comprehensive in scope, will address a broad range of the target population's needs, and include services identified in *Section I. Funding Opportunity Description*.

(3) The extent to which the design of the proposed project is evidence-based, reflects up-to-date knowledge from the research and literature on known effective practices, and builds on current theory, research, evaluation data and best practices. The extent to which the project will contribute to increased knowledge or understanding of the problem, issues, or effective strategies and practices in the field. The extent to which the logic model for this project demonstrates strong links between proposed inputs and activities, and intended short-term and long-term outcomes. The extent to which the logic model clearly shows how the achievement of these outcomes would be measured.

(4) The extent to which the project will be culturally responsive to the target population.

(5) The extent to which the proposed services will involve the collaboration of appropriate partners for maximizing the effectiveness of service delivery. The extent to which there are letters of commitment or memoranda of understanding from organizations, agencies, and consultants that will be partners or collaborators in the proposed project. The extent to which these documents describe the role of the agency, organization, or consultant and detail specific tasks to be performed.

(6) The extent to which there is a sound plan for effectively evaluating the achievement of the project's objectives, customer satisfaction, processes, outcomes, impact, the effectiveness of project strategies and the efficiency of the implementation process. The extent to which there is a reasonable plan for securing an external evaluator, if not using internal resources for project evaluation.

(7) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce

quantitative and qualitative outcome data. The extent to which the proposed evaluation plan would be likely to yield findings or results about effective strategies, and contribute to and promote evaluation research and evidence-based practices that could be used to guide replication or testing in other settings.

(8) The extent to which useful data on individuals and families, types of services provided, services used, and types and nature of needs identified and met will be effectively collected. The extent to which there is a sound plan for an Institutional Review Board (IRB) review, if applicable.

(9) The extent to which the products that would be developed during the proposed project would provide information on strategies utilized and the outcomes achieved that would support evidence-based improvements of practices in the field. The extent to which the plan for developing and disseminating these products is reasonable and appropriate in scope and budget.

(10) The extent to which the intended audience (e.g., researchers, policymakers, and practitioners) for product dissemination is appropriate to the goals of the proposed project. The extent to which the project's products would be useful to each of these audiences. The extent to which there is a sound plan for effectively disseminating information, through appropriate mechanisms and forums, that will successfully convey the information to, and support replication by, other interested agencies.

Criterion 3. Organizational Profiles

In reviewing the organizational profiles, the following factors will be considered: (20 points).

(1) The extent to which the applicant organization and any partnering organizations collectively have sufficient experience and expertise in developing and implementing innovative projects, programs, or service delivery systems in the adoption, kinship, foster care, or child welfare field.

(2) The extent to which the application evidences sufficient organizational resources to implement the proposed project effectively, including sufficient capacity for administration, program operations, data processing and analysis, reporting and dissemination of findings.

(3) The extent to which the proposed project director, key project staff, and consultants have the necessary technical skill, knowledge, and experience to carry out their responsibilities

effectively, including administration, program operations, data collection and analysis, reporting and dissemination of findings. The extent to which current and proposed staff has the capacity to fill the described roles effectively. The extent to which the author of this proposal will be closely involved throughout the implementation of the proposed project.

(4) The extent to which the management plan details a realistic approach to achieving the objectives of the proposed project on time and within budget. The extent to which this plan includes clearly defined responsibilities, timelines and benchmarks for accomplishing project tasks. The extent to which there would be a mutually beneficial relationship between the proposed project and other work planned, anticipated or underway with Federal assistance by the applicant.

Criterion 4. Budget and Budget Justification

In reviewing the budget and budget justification, the following factors will be considered: (10 points).

(1) The extent to which the application demonstrates that the project cost and budget information submitted on the standard 424 and 424A for the proposed program are reasonable and justified in terms of the proposed tasks and anticipated outcomes. The extent to which fiscal controls and accounting procedures are in place to ensure prudent use, proper and timely disbursement, and accurate accounting of funds received under this program announcement.

(2) The extent to which the application documents allocation of sufficient funds in the budget to:

- Provide for the project director and evaluator to attend an annual 3-day grantees' meeting in Washington, DC.
- Provide for the project director and evaluator to attend an early kickoff meeting for grantees funded under this priority area to be held within the first three months of the project (first year only) in Washington, DC.
- Provide for 10–15 percent of the proposed budget to project evaluation.

2. Review and Selection Process

When the Operations Center receives your application it will be screened to confirm that your application was received by the deadline. Federal staff will verify that you are an eligible applicant and that the application contains all the essential elements. Applications received from ineligible organizations and applications received after the deadline will be withdrawn from further consideration.

A panel of at least three reviewers (primarily experts from outside the Federal government) will use the evaluation criteria described in this announcement to evaluate each application. The reviewers will determine the strengths and weaknesses of each application, provide comments about the strengths and weaknesses and give each application a numerical score.

All applications will be reviewed and evaluated using four major criteria: (1) Objectives and need for assistance, (2) approach, (3) organizational profiles, and (4) budget and budget justification. Each criterion has been assigned a point value. The point values (summing up to 100) indicate the maximum numerical weight each criterion may be given in the review and evaluation process.

Reviewers also are evaluating the project products and materials that you propose. They will be interested in your plans for sustaining your project without Federal funds if the evaluation findings are supportive. Reviewers will be looking to see that the total budget you propose and the way you have apportioned that budget are appropriate and reasonable for the project you have described. Remember that the reviewers only have the information that you give them—it needs to be clear, complete, and concise.

The results of the competitive review are a primary factor in making funding decisions. In addition, Federal staff conducts administrative reviews of the applications and, in light of the results of the competitive review, will recommend applications for funding to the ACYF Commissioner. ACYF reserves the option of discussing applications with other funding sources when this is in the best interest of the Federal government. ACYF may also solicit and consider comments from ACF Regional Office staff in making funding decisions. ACYF may take into consideration the involvement (financial and/or programmatic) of the private sector, national, or State or community foundations; a favorable balance between Federal and non-Federal funds for the proposed project; or the potential for high benefit from low Federal investment. ACYF may elect not to fund any applicants having known management, fiscal, reporting, programmatic, or other problems which make it unlikely that they would be able to provide effective services or effectively complete the proposed activity.

With the results of the peer review and the information from Federal staff, the Commissioner of ACYF makes the final funding decisions. The Commissioner may give special

consideration to applications proposing services of special interest to the Government and to achieve geographic distributions of grant awards. Applications of special interest may include, but are not limited to, applications focusing on unserved or inadequately served clients or service areas and programs addressing diverse ethnic populations.

Approved but unfunded applications: In cases where more applications are approved for funding than ACF can fund with the money available, the Grants Officer shall fund applications in their order of approval until funds run out. In this case, ACF has the option of carrying over the approved applications up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria have not changed. However, they must then be placed in rank order along with other applications in the later competition.

VI. Award Administration Information

1. Award Notices

Anticipated Announcement and Award Dates: Applications will be reviewed in the Summer 2004. Grant awards will have a start date no later than September 30, 2004.

Award Notices: Successful applicants will receive a Financial Assistance Award which will set forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided, if applicable, and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

The Commissioner will notify organizations in writing when their applications will not be funded. Every effort will be made to notify all unsuccessful applicants as soon as possible after final decisions are made.

2. Administrative and National Policy Requirements

45 CFR part 74 and 45 CFR part 92.

3. Reporting Requirements

Programmatic Reports and Financial Reports are required semi-annually with final reports due 90 days after the project end date. All required reports will be submitted in a timely manner, in recommended formats (to be provided), and the final report will also be submitted on disk or electronically using a standard word-processing program.

Within 90 days of project end date, the applicant will submit a copy of the final report, the evaluation report, and any program products to the National Adoption Information Clearinghouse, 330 C Street, SW., Washington, DC 20447. This is in addition to the standard requirement that the final program and evaluation report must also be submitted to the Grants Management Specialist and the Federal Project Officer.

Original reports and one copy should be mailed to: Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Washington, DC 20447.

VII. Agency Contacts

Program Office Contact

Geneva Ware-Rice, 330 C Street, SW., Washington, DC 20447, Telephone: 202-205-8354, E-mail: gware-rice@acf.hhs.gov.

Grants Management Office Contact

William Wilson, 330 C Street, SW., Washington, DC 20447, Telephone: 202-205-8913, E-mail: wwilson@acf.hhs.gov.

General Contact

The Dixon Group, ACYF Operations Center, 118 Q Street, NE., Washington, DC 20002-2132, Telephone: 866-796-1591.

VIII. Other Information

Additional information about this program and its purpose can be located on the following Web sites: <http://www.acf.hhs.gov/programs/cb/>.

Copies of the following Forms, Assurances, and Certifications are available online at <http://www.acf.hhs.gov/programs/ofs/grants/form.htm>.

Standard Form 424: Application for

Federal Assistance

Standard Form 424A: Budget Information

Standard Form 424B: Assurances—Non-Construction Programs

Certification Regarding Lobbying

Form LLL: Disclosure of Lobbying

Certification Regarding Environmental Tobacco Smoke

Standard Form 310: Protection of Human Subjects

Dated: May 6, 2004.

Frank Fuentes,

Deputy Commissioner, Administration on Children, Youth and Families.

[FR Doc. 04-10966 Filed 5-13-04; 8:45 am]

BILLING CODE 4184-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Funding Opportunity: CSBG T/TA Program—Maintain Operation of ROMA Website

AGENCY: Administration for Children and Families, Office of Community Services, HHS.

Announcement Type: Competitive Grant-Initial.

Funding Opportunity Number: HHS-2004-ACF-OCS-ET-0025.

CFDA Number: 93.570.

Due Date for Applications: The due date for receipt of applications is June 28, 2004.

I. Funding Opportunity Description

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant pursuant to the Secretary's authority under section 674(b) of the Community Services Block Grant (CSBG) Act, as amended, by the Community Opportunities, Accountability, and Training and Educational Services (COATES) Human Services Reauthorization Act of 1998, (Pub. L. 105-285).

The proposed grant will fund the continued operation of a national web site for its "Results Oriented Management and Accountability," or ROMA, initiative in support of the national community action Goal 5: "Agencies Increase their Capacity to Achieve Results."

Definitions of Terms

The following definitions apply:

At-Risk Agencies refers to CSBG eligible entities in crises. The problem(s) to be addressed must be of a complex or pervasive nature that cannot be adequately addressed through existing local or State resources.

Capacity-building refers to activities that assist Community Action Agencies (CAAs) and other eligible entities to improve or enhance their overall or specific capability to plan, deliver, manage and evaluate programs efficiently and effectively to produce intended results for low-income individuals. This may include upgrading internal financial management or computer systems, establishing new external linkages with other organizations, improving board functioning, adding or refining a program component or replicating techniques or programs piloted in

another local community, or making other cost effective improvements.

Community in relationship to broad representation refers to any group of individuals who share common distinguishing characteristics including residency, for example, the "low-income" community, or the "religious" community or the "professional" community: The individual members of these "communities" may or may not reside in a specific neighborhood, county or school district but the local service provider may be implementing programs and strategies that will have a measurable affect on them. Community in this context is viewed within the framework of both community conditions and systems, *i.e.*, (1) public policies, formal written and unstated norms adhered to by the general population; (2) service and support systems, economic opportunity in the labor market and capital stakeholders; (3) civic participation; and (4) an equity as it relates to the economic and social distribution of power.

Community Services Network (CSN) refers to the various organizations involved in planning and implementing programs funded through the Community Services Block Grant or providing training, technical assistance or support to them. The network includes local Community Action Agencies and other eligible entities; State CSBG offices and their national association; CAA State, regional and national associations; and related organizations which collaborate and participate with Community Action Agencies and other eligible entities in their efforts on behalf of low-income people.

Eligible applicants described in this announcement shall be eligible entities, organizations, (including faith based) or associations with demonstrated expertise in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities. See description of Eligible Entities below.

Eligible entity means any organization that was officially designated as a Community Action Agency (CAA) or a community action program under Section 673(1) of the Community Services Block Grant Act, as amended by the Human Services Amendments of 1994 (Pub. L. 103-252), and meets all the requirements under Sections 673(1)(A)(I), and 676A of the CSBG Act, as amended by the COATES Human Services Reauthorization Act of 1998. All eligible entities are current recipients of Community Services Block Grant funds, including migrant and

seasonal farm worker organizations that received CSBG funding in the previous fiscal year.

Local service providers are local public or private non-profit agencies that receive Community Services Block Grant funds from States to provide services to, or undertake activities on behalf of, low-income people.

Nationwide refers to the scope of the technical assistance, training, data collection, or other capacity-building projects to be undertaken with grant funds. Nationwide projects must provide for the implementation of technical assistance, training or data collection for all or a significant number of States, and the local service providers who administer CSBG funds.

Non-profit Organization refers to an organization, including faith-based, which has "demonstrated experience in providing training to individuals and organizations on methods of effectively addressing the needs of low income families and communities." Acceptable documentation for eligible non-profit status is limited to: (1) A copy of a current, valid Internal Revenue service tax exemption certificate; (2) a copy of the applicant organization's listing in the Internal Revenue Service's most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS code; and/or (3) Articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Outcome Measures are definable changes in the status or condition of individuals, families, organizations, or communities as a result of program services, activities, or collaborations.

Performance Measurement is a tool used to objectively assess how a program is accomplishing its mission through the delivery of products, services, and activities.

Program technology exchange refers to the process of sharing expert technical and programmatic information, models, strategies and approaches among the various partners in the Community Services Network. This may be done through written case studies, guides, seminars, technical assistance, and other mechanisms.

Regional Networks refers to CAA State Associations within a region.

Results-Oriented Management and Accountability (ROMA) System: ROMA is a system, which provides a framework for focusing on results for local agencies funded by the Community Services Block Grant Program. It involves setting goals and strategies and developing plans and techniques that focus on a result-

oriented performance based model for management.

State means all of the 50 States and the District of Columbia. Except where specifically noted, for purposes of this program announcement, it also includes specified Territories.

State CSBG Lead Agency (SCLA) is the lead agency designated by the Governor of the State to develop the State CSBG application and to administer the CSBG Program.

Statewide refers to training and technical assistance activities and other capacity building activities undertaken with grant funds that will have significant impact, *i.e.* activities should impact at least 50 percent of the eligible entities in a State.

Technical assistance is an activity, generally utilizing the services of an expert (often a peer), aimed at enhancing capacity, improving programs and systems, or solving specific problems. Such services may be provided proactively to improve systems or as an intervention to solve specific problems.

Territories refer to the Commonwealth of Puerto Rico and American Samoa for the purpose of this announcement.

Training is an educational activity or event which is designed to impart knowledge, understanding, or increase the development of skills. Such training activities may be in the form of assembled events such as workshops, seminars, conferences or programs of self-instructional activities.

Program Purpose, Scope and Focus

OCS seeks to continue to support the implementation and expansion of performance-based management concepts embodied in its "Results Oriented Management and Accountability" initiative, or ROMA. One of the most effective tools for sharing information about Federal, State, and local agency ROMA principles, policies, and activities has been the national ROMA Web site.

OCS will fund the continued availability of a national ROMA Web site that serves an informational resource to the Community Services Network by continuous posting and updating of:

- National ROMA policies, guidelines, training and technical assistance opportunities and resources;
- ROMA implementation strategies and supporting documents from State CSBG Lead Agencies, State Community Action Associations, and local eligible entities;
- ROMA information generated by various national training and technical assistance organizations;

- Relevant performance-based management information from other programs, both public and private.

II. Award Information

Funding Instrument Type: Grant.
Category of Funding Activity: ISS
Income Security and Social Services.

Anticipated Total Priority Area Funding: \$36,000 in FY 2004.

Anticipated Number of Awards: One.
Ceiling on Amount of Individual Awards: \$36,000 per budget period.
Floor on Amount of Individual Awards: None.

Average Projected Award Amount: \$36,000 per budget period.

Project Periods for Award: This announcement is inviting applicants for project periods up to two years. Awards, on a competitive basis, will be for a one-year budget period, although project may be for two years. Applications for continuation grants beyond the one-year budget period but within the two year project period will be entertained in subsequent years on a noncompetitive basis, subject to availability of funds, satisfactory progress of the grantee and a determination that continued funding would be in the best interest of the Government.

III. Eligibility Information

1. Eligible Applicants

Community Services Block Grant eligible entities, State Community Action Associations including faith-based organizations, nonprofit organizations having 501(c)(3) status, and nonprofits that do not have 501(c)(3) status.

Additional Information on Eligibility: As prescribed by the Community Services Block Grant Act (Pub. L. 105-285, Section 678(c)(2), eligible applicants are eligible entities (see definitions), organizations, or associations with demonstrated expertise in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities.

Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission. The non-profit agency can accomplish this by providing a reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; a copy of a currently valid IRS tax exemption certificate; a statement from a State taxing body, State attorney general, or other appropriate State official

certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status; or any of the items referenced above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms" titled "Survey for Private, Non-Profit Grant Applicants" at <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

2. Cost Sharing or Matching

None.

3. Other

On June 27, 2003, the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires all Federal grant applicants to provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal (<http://www.Grants.gov>). A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

IV. Application and Submission Information

1. Address To Request Application Package

Office of Community Services
Operations Center, ATTN: Dr. Margaret Washnitzer, 1815 Fort Meyer Drive, Suite 300, Arlington, Virginia 22209; Telephone: (800) 281-9519;

2. Content and Form of Application Submission

An original and two copies of the complete application are required. The

original and the 2 copies must include all required forms, certifications, assurances, and appendices, be signed by an authorized representative of the applicant organization, have original signatures, and be submitted unbound. Applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers. The copies may include summary salary information.

You may submit your application to us in either electronic or paper format. To submit an application electronically, please use the <http://www.Grants.gov> apply site. If you use Grants.gov, you will be able to download a copy of the application package, complete it off-line, and then upload and submit the application via the Grants.gov site. You may not e-mail an electronic copy of a grant application to us.

Please note the following if you plan to submit your application electronically via Grants. Gov:

- Electronic submission is voluntary.
- When you enter the Grants. Gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation. We strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.Gov.

- To use Grants.gov, you, as the applicant, must have a DUNS Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five days to complete the CCR registration.

- You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.

- You may submit all documents electronically, including all information typically included on the SF 424 and all necessary assurances and certifications.

- Your application must comply with any page limitation requirements described in this program announcement.

- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Administration for Children and Families will retrieve your application from Grants.gov.

- We may request that you provide original signatures on forms at a later date.

- You may access the electronic application for this program on <http://www.Grants.gov>. You must search for

the downloadable application package by the CFDA number."

Application Content

Each application must include the following components:

- (a) *Table of Contents*
- (b) *Abstract of the Proposed Project*—very brief, not to exceed 250 words, that would be suitable for use in an announcement that the application has been selected for a grant award and which identifies the type of project, the target population and the major elements of the work plan.
- (c) *Completed Standard Form 424*—that has been signed by an Official of the organization applying for the grant who has authority to obligate the organization legally.
- (d) *Standard Form 424A*—Budget Information-Non-Construction Programs.
- (e) *Narrative Budget Justification*—for each object class category required under Section B, Standard Form 424A.
- (f) *Project Narrative*—A narrative that addresses issues described in the "Application Review Information" and the "Review and Selection Criteria" sections of this announcement.

Application Format

Each application should include one signed original application and two additional copies of the same application.

Submit application materials on white 8½ x 11 inch paper only. Do not use colored, oversized or folded materials.

Please do not include organizational brochures or other promotional materials, slides, films, clips, etc.

The font size may be no smaller than 12 pitch and the margins must be at least one inch on all sides.

Number all application pages sequentially throughout the package, beginning with the abstract of the proposed project as page number one.

Please present application materials either in loose-leaf notebooks or in folders with pages two-hole punched at the top center and fastened separately with a slide paper fastener.

Page Limitation

The application package including sections for the Table of Contents, Project Abstract, Project and Budget Narratives must not exceed 30 pages. The page limitation does not include the following attachments and appendices: Standard Forms for Assurances, Certifications, Disclosures and appendices. The page limitation also does not apply to any supplemental documents as required in this announcement.

Required Standard Forms

Applicants requesting financial assistance for a non-construction project must sign and return Standard Form 424B, Assurances: Non-Construction Programs with their applications.

Applicants must provide a Certification Regarding Lobbying. Prior to receiving an award in excess of \$100,000, applicants shall furnish an executed copy of the lobbying certification. Applicants must sign and return the certification with their application.

Applicants must make the appropriate certification of their compliance with all Federal statutes relating to nondiscrimination. By signing and submitting the applications, applicants are providing the certification and need not mail back a certification form.

Applicants must make the appropriate certification of their compliance with the requirements of the Pro-Children Act of 1994 as outlined in Certification Regarding Environmental Tobacco Smoke. By signing and submitting the applications, applicants are providing the certification and need not mail back a certification form.

Additional Requirements

(a) The application must contain a signed Standard Form 424, Application for Federal Assistance, a Standard Form 424-A, Budget Information, and signed Standard Form 424-B, Assurance—Non-Construction Programs, completed according to instructions provided in this Program Announcement. The Forms SF-424 and SF-424B must be signed by an official of the organization applying for the grant who has authority to obligate the organization legally. The applicant's legal name as required on the SF-424 (Item 5) must match that listed as corresponding to the Employer Identification Number (Item 6);

(b) The application must include a project narrative that meets the requirements set forth in this announcement;

(c) The application must contain documentation of the applicant's tax-exempt status as indicated in the "Funding Opportunity Description" section of this announcement;

Private, non-profit organizations are encouraged to submit with their applications the survey located under "Grant Related Documents and Forms" titled "Survey for Private, Non-Profit Grant Applicants." The forms are located on the web at <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

Project Summary Abstract: Provide a one page (or less) summary of the

project description with reference to the funding request.

Full Project Description Requirements: Describe the project clearly in 30 pages or less (not counting supplemental documentation, letters of support or agreements) using the following outline and guidelines. Applicants are required to submit a Full Project Description and must prepare the project description statement in accordance with the following instructions. The pages of the project description must be numbered and are limited to 30 typed pages starting on page 1 with the "Objectives and Need for Assistance". The description must be double-spaced, printed on only one side, with at least one inch margins. Pages over the 30 page limit will be removed from the competition and will not be reviewed.

It is in the applicant's best interest to ensure that the project description is easy to read, logically developed in accordance with the evaluation criteria and adheres to the page limitation. In addition, applicants should be mindful of the importance of preparing and submitting applications using language, terms, concepts and descriptions that are generally known by the Community Services Block Grant (CSBG) network.

The maximum number of pages for supplemental documentation is 10 pages. The supplemental documentation, subject to the 10-page limit, must be numbered and might include brief resumes, position descriptions, proof of non-profit status, news clippings, press releases, etc. Supplemental documentation over the 10-page limit will not be reviewed.

Applicants must include letters of support or agreement, if appropriate or applicable, in reference to the project description. Letters of support are not counted as part of the 30-page project description limit or the 10-page supplemental documentation limit. All applications must comply with the following requirements as noted:

3. Submission Dates and Times

The closing time and date for receipt of applications is 4:30 p.m. Eastern Standard Time (EST) on June 28, 2004. Mailed or hand carried applications received after 4:30 p.m. on the closing date will be classified as late.

Deadline: Mailed applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date at the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington,

Virginia 22209. Attention: Barbara Ziegler Johnson. Applicants are responsible for mailing applications well in advance, when using all mail services, to ensure that the applications are received on or before the deadline time and date.

Applications hand carried by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., Eastern Standard Time (EST), at the U.S.

Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, between Monday and Friday (excluding federal holidays). This address must appear on the envelope/package containing the application with the note: "Attention: Barbara Ziegler Johnson". Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

Late applications: Applications which do not meet the criteria above are

considered late applications. ACF shall notify each late applicant that its application will not be considered in the current competition.

Extension of deadlines: ACF may extend application deadlines when circumstances such as acts of God (floods, hurricanes, etc.) occur, or when there are widespread disruptions of mails service. Determinations to extend or waive deadline requirements rest with the Chief Grants Management Officer.

ACF will not send acknowledgements of receipt of application materials.

Required Forms:

What to submit	Required content	Required form or format	When to submit
Table of Contents	As described above	Consistent with guidance in "Application Format" section of this announcement.	By application due date.
Abstract of Proposed Project	Brief abstract that identifies the type of project, the target population and the major elements of the proposed project.	Consistent with guidance in "Application Format" section of this announcement.	By application due date.
Completed Standard Form 424	As described above and per required form.	May be found on http://www.acf.hhs.gov/programs/ofs/forms.htm .	By application due date.
Completed Standard Form 424A	As described above and per required form.	May be found on http://www.acf.hhs.gov/programs/ofs/forms.htm .	By application due date.
Narrative Budget Justification	As described above	Consistent with guidance in "Application Format" section of this announcement.	By application due date.
Project Narrative	A narrative that addresses issues described in the "Application Review Information" and the "Review and Selection Criteria" sections of this announcement.	Consistent with guidance in "Application Format" section of this announcement.	By application due date.
Certification regarding lobbying	As described above and per required form.	May be found on http://www.acf.hhs.gov/programs/ofs/forms.htm .	By application due date.
Certification regarding environmental tobacco smoke.	As described above and per required form.	May be found on http://www.acf.hhs.gov/programs/ofs/forms.htm .	By application due date.

Additional Forms: Private-non-profit organizations are encouraged to submit with their applications the additional

survey located under "Grant Related Documents and Forms" titled "Survey

for Private, Non-Profit Grant Applicants".

4. Intergovernmental Review

State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal

assistance under covered programs. As of October 1, 2003, the following jurisdictions have elected not to participate in the Executive Order process. Applicants from these jurisdictions or for projects administered by federally-recognized Indian Tribes need take no action in regard to E.O. 12372:

All States and Territories except Alabama, Alaska, Arizona, Colorado, Connecticut, Hawaii, Idaho, Indiana, Kansas, Louisiana, Massachusetts,

Minnesota, Montana, Nebraska, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Vermont, Virginia, Washington, Wyoming and Palau have elected to participate in the Executive Order process and have established Single Points of Contact (SPOCs). Applicants from these twenty-seven jurisdictions need take no action.

Although the jurisdictions listed above no longer participate in the process, entities which have met the

eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. All remaining jurisdictions participate in the Executive Order process and have established SPOCs. Applicants from participating jurisdictions should contact their SPOCs as soon as possible to alert them of the prospective applications and receive instructions. Applicants must submit any required material to the SPOCs as soon as possible so that the program office can obtain and review SPOC comments as part of the award process. The applicant must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards.

SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Mail Stop 6C-462, Washington, DC 20447.

A list of the Single Points of Contact for each State and Territory is included with the application materials for this announcement.

5. Funding Restrictions

Sub-Contracting or Delegating Projects

OCS will not fund any project where the role of the applicant is primarily to serve as a conduit for funds to organizations other than the applicant. The applicant must have a substantive role in the implementation of the project for which funding is requested. This prohibition does not bar the making of sub-grants or sub-contracting for specific services or activities that are needed to conduct the project.

Number of Projects in Application

Each application may include only one proposed project.

6. Other Submission Requirements

Submission by Mail: An Applicant must provide an original application

with all attachments, signed by an authorized representative and two complete copies. The application must be received at the address below by 4:30 p.m. Eastern Standard Time (EST) on or before June 28, 2004. Applications should be mailed to:

U.S. Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, ATTN: Barbara Ziegler Johnson.

For Hand Delivery: Applicants must provide an original application with all attachments, signed by an authorized representative and two complete copies. The Application must be received at the address below by 4:30 p.m. Eastern Standard Time on or before the closing date. Applications that are hand delivered will be accepted between the hours of 8 a.m. to 4:30 p.m., Monday through Friday. Applications may be delivered to: Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services' Operations Center, 1815 North Fort Meyer Drive, Suite 300, Arlington, Virginia 22209 Attention: Barbara Ziegler Johnson. It is strongly recommended that applicants obtain documentation that the application was hand delivered on or before the closing date. Applicants are cautioned that express/overnight mail services do not always deliver as agreed.

V. Application Review Information

1. Criteria

Paperwork Reduction Act of 1995 (Pub. L. 104-13)

Under the Paperwork Reduction Act of 1995, Pub.L. 104-13, the Department is required to submit to the Office of Management and Budget (OMB) for review and approval of any reporting and record keeping requirements in regulations including program announcements. This program announcement does not contain information collections beyond those approved for ACF grant applications under the Program Narrative Statement by OMB Approval Number 0970-0139.

The project description is approved under OMB control # 0970-0139. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Public reporting burden for this collection of information is estimated to average 25 hours per response, including the time for reviewing

instructions, gathering and maintaining the data needed and reviewing the collection of information.

Instructions: ACF Uniform Project Description (UPD)

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "Full Project Description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD). The UPD was approved by the Office of Management and Budget (OMB), control Number 0970-0139, expiration date 12/31/2003. The generic UPD requirement is followed by the evaluation criterion specific to the Community Services Block Grant legislation.

Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, all information requested through each specific evaluation criteria should be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application.

Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions and the specified evaluation criteria. The instructions give a broad overview of what your project description should include while the evaluation criteria expands and clarifies more program-specific information that is needed.

Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and

the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or Benefits Expected

Identify the results and benefits to be derived. For example, describe the population to be served by the program and the number of new jobs that will be targeted to the target population. Explain how the project will reach the targeted population, how it will benefit participants including how it will support individuals to become more economically self-sufficient.

Approach

Outline a plan of action which describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors which might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reasons for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technical innovations, reductions in cost or time or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in, for example such terms as the "number of people

served." When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Evaluation

Provide a narrative addressing how the results of the project and the conduct of the project will be evaluated. In addressing the evaluation of results, state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities on the project's effectiveness.

Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission.

The non-profit agency can accomplish this by providing a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS code, or by providing a copy of the currently valid

IRS tax exemption certificate, or by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

Budget and Budget Justification

Provide line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. The detailed budget must also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

2. Evaluation Criteria

Evaluation Criterion I: Approach (Maximum: 35 Points)

Factors:

(1) The work program is results-oriented, approximately related to the legislative mandate and specifically related to the priority area under which funds are being requested. Application addresses the following: Specific outcomes to be achieved; performance targets that the project is committed to achieving, including a discussion of and how the project will verify the achievement of these targets; critical milestones which must be achieved if results are to be gained; organizational support, the level of support from the applicant organization; past performance in similar work; and specific resources contributed to the project that are critical to success.

(2) The application defines the comprehensive nature of the project and methods that will be used to ensure that the results can be used to address a statewide or nationwide project as defined by the description of the particular priority area.

Evaluation Criterion II: Organizational Profiles (Maximum: 25 Points)

Factors:

(1) The application demonstrates that the applicant has experience and a successful record of accomplishment relevant to the specific activities it proposes to accomplish.

(2) If the application proposes to provide training and technical assistance, it details its abilities to provide those services on a nationwide basis. If applicable, information provided by the applicant also

addresses related achievements and competence of each cooperating or sponsoring organization.

(3) The application fully describes, for example in a resume, the experience and skills of the proposed project director and primary staff showing specific qualifications and professional experiences relevant to the successful implementation of the proposed project.

(4) The application describes how it will involve partners in the Community Services Network in its activities. Where appropriate, application describes how it will interface with other related organizations.

(5) If subcontracts are proposed, the application documents the willingness and capacity of the subcontracting organization(s) to participate as described.

Evaluation Criterion III: Objectives and Need for Assistance (Maximum: 20 Points)

Factors:

(1) The application documents that the proposed project addresses vital needs related to the program purposes and provides statistics and other data and information in support of its contention.

(2) The application provides current supporting documentation or other testimonies regarding needs from State CSBG Directors, CAAs and local service providers and/or State and Regional organizations of CAAs and other local service providers.

Evaluation Criterion IV: Results or Benefits Expected (Maximum: 15 Points)

Factors:

(1) The application describes how the project will assure long-term program and management improvements for State CSBG offices, CAA State and/or regional associations, CAAs and/or other local providers of CSBG services and activities.

(2) The application indicates the types and amounts of public and/or private resources it will mobilize, how those resources will directly benefit the project, and how the project will ultimately benefit low-income individuals and families.

(3) If the application proposes a project with a training and technical assistance focus, the application indicates the number of organizations and/or staff that will benefit from those services.

(4) If the application proposes a project with data collection focus, the application describes the mechanism it will use to collect data, how it can assure collections from a significant

number of States, and the number of States willing to submit data to the applicant.

(5) If the application proposes to develop a symposium series or other policy-related project(s), the application identifies the number and types of beneficiaries.

(6) The application describes methods of securing participant feedback and evaluations of activities.

Criterion V: Budget and Budget Justification (Maximum: 5 Points)

Factors:

(1) The resources requested are reasonable and adequate to accomplish the project.

(2) Total costs are reasonable and consistent with anticipated results.

2. Review and Selection Process

Initial OCS Screening

Each application submitted to OCS will be screened to determine whether it was received by the closing date and time.

Applications received by the closing date and time will be screened for completeness and conformity with the following requirements. Only complete applications that meet the requirements listed below will be reviewed and evaluated competitively. Other applications will be returned to the applicants with a notation that they were unacceptable and will not be reviewed.

All applications must comply with the following requirements except as noted:

OCS Evaluation of Applications

Applications that pass the initial OCS screening will be reviewed and rated by a panel based on the program elements and review criteria presented in relevant sections of this program announcement. The review criteria are designed to enable the review panel to assess the quality of a proposed project and determine the likelihood of its success. The criteria are closely related to each other and are considered as a whole in judging the overall quality of an application. The review panel awards points only to applications that are responsive to the program elements and relevant review criteria within the context of this program announcement.

The OCS Director and program staff use the reviewer scores when considering competing applications. Reviewer scores will weigh heavily in funding decisions, but will not be the only factors considered.

Applications generally will be considered in order of the average

scores assigned by the review panel.

Because other important factors are taken into consideration, highly ranked applications are not guaranteed funding. These other considerations include, for example: the timely and proper completion by the applicant of projects funded with OCS funds granted in the last five (5) years; comments of reviewers and government officials; staff evaluation and input; amount and duration of the grant requested and the proposed project's consistency and harmony with OCS goals and policy; geographic distribution of applications; previous program performance of applicants; compliance with grant terms under previous HHS grants, including the actual dedication to program of mobilized resources as set forth in project applications; audit reports; investigative reports; and applicant's progress in resolving any final audit disallowance on previous OCS or other Federal agency grants.

VI. Award Administration Information

1. Award Notices

Following approval of the application selected for funding, ACF will mail a written notice of project approval and authority to draw down project funds. The official award document is the Financial Assistance Award that specifies the amount of Federal funds approved for use in the project, the project and budget period for which support is provided and the terms and conditions of the award. The Financial Assistance Award is signed and issued via postal mail by an authorized Grants Officer.

ACF will notify unsuccessful applicants after the award is issued to the successful applicant.

2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental).

3. Special Terms and Conditions of Awards

None.

4. Reporting Requirements

All grantees are required to submit semi-annual program reports and semi-annual expenditure reports using the required financial standard form (SF-269) with final reports due 90 days after the project end date. A suggested format for the program report will be sent to all grantees after the awards are made.

VII. Agency Contacts

Program Office Contact: Dr. Margaret Washnitzer, Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services Operations Center, 1815 Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, E-Mail: OCS@lcgnet.com, Phone: 1-800-281-9519.

Grants Management Office Contact: Barbara Ziegler Johnson, Team Leader, Office of Grants Management, Division of Discretionary Grants, Department of Health and Human Services (HHS), Administration for Children and Families, Office of Community Services Operations Center, 1815 Fort Meyer Drive, Suite 300, Arlington, Virginia 22209, E-Mail: OCS@lcgnet.com, Phone: 1-800-281-9519.

VIII. Other Information

Additional information about this program and its purpose can be located on the following Web site: <http://www.acf.hhs.gov/programs/ocs>.

Dated: May 7, 2004.

Clarence H. Carter,

Director, Office of Community Services.

BILLING CODE 4184-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Food and Drug Administration****Circulatory System Devices Panel of the Medical Devices Advisory Committee; Notice of Meeting**

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). The meeting will be open to the public.

Name of Committee: Circulatory System Devices Panel of the Medical Devices Advisory Committee.

General Function of the Committee: To provide advice and recommendations to the agency on FDA's regulatory issues.

Date and Time: The meeting will be held on June 8, 2004, from 8 a.m. to 5 p.m.

Location: Hilton Washington DC North/Gaithersburg, Salons A, B, and C, 620 Perry Pkwy., Gaithersburg, MD.

Contact Person: Geretta Wood, Center for Devices and Radiological Health (HFZ-450), Food and Drug Administration, 9200 Corporate Blvd.,

Rockville, MD 20850, 301-443-8320, ext. 143, or FDA Advisory Committee Information Line, 1-800-741-8138 (301-443-0572 in the Washington, DC area), code 3014512625. Please call the Information Line for up-to-date information on this meeting.

Agenda: The committee will discuss, make recommendations, and vote on a premarket approval application for a left ventricular assist system. The system is intended for use as a short or long term bridge to transplantation in cardiac transplant patients, and in patients with relative contraindication to transplantation who are expected to become transplant candidates with mechanical circulatory support, at risk of imminent death from nonreversible left ventricular failure. The device is indicated for use both inside and outside of the hospital. Background information for the topics, including the agenda and questions for the committee, will be available to the public 1 business day before the meeting on the Internet at <http://www.fda.gov/cdrh/panelmtg.html>. Material will be posted on June 7, 2004.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person by May 25, 2004. On June 8, 2004, oral presentations from the public will be scheduled for approximately 30 minutes at the beginning of committee deliberations and for approximately 30 minutes near the end of the deliberations. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before May 25, 2004, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

Persons attending FDA's advisory committee meetings are advised that the agency is not responsible for providing access to electrical outlets.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact AnnMarie Williams, Conference Management Staff, at 301-594-1283, ext. 113, at least 7 days in advance of the meeting.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: May 8, 2004.

Peter J. Pitts,

Associate Commissioner for External Relations.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Food and Drug Administration**

[Docket No. 2003D-0319]

Guidance for Industry and Food and Drug Administration Staff; Premarket Assessment of Pediatric Medical Devices; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of the guidance entitled "Premarket Assessment of Pediatric Medical Devices." This guidance presents FDA's current thinking on the type of safety and effectiveness information needed to support marketing of pediatric devices and on measures to be used to help protect this vulnerable patient population during the course of clinical trials involving such products.

DATES: Submit written or electronic comments on this guidance at any time. General comments on agency guidance documents are welcome at any time.

ADDRESSES: Submit written requests for single copies on a 3.5" diskette of the guidance document entitled "Premarket Assessment of Pediatric Medical Devices" to the Division of Small Manufacturers, International, and Consumer Assistance (HFZ-220), Center for Devices and Radiological Health, Food and Drug Administration, 1350 Piccard Dr., Rockville, MD 20850. Send one self-addressed adhesive labels to assist that office in processing your request, or fax your request to 301-443-8818. See the **SUPPLEMENTARY INFORMATION** section for information on electronic access to the guidance.

Submit written comments concerning this guidance to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Submit electronic comments to <http://www.fda.gov/dockets/ecomments>. Identify comments with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT:

For device issues contact: Joy

Samuels-Reid, Center for Devices and Radiological Health (HFZ-480), Food and Drug Administration, 9200 Corporate Blvd., Rockville, MD 20850, 301-594-1287.

For biologics issues contact: Edward Tabor, Center for Biologics Evaluation and Research (HFM-300), Food and Drug Administration, 1401 Rockville Pike, Rockville, MD 20852, 301-827-3518.

SUPPLEMENTARY INFORMATION:

I. Background

On October 26, 2002, the Medical Device User Fee and Modernization Act of 2002 (MDUFMA), Public Law 107-250, was signed into law. Among other things, MDUFMA amends the Federal Food, Drug, and Cosmetic Act (the act) by adding several new provisions concerning devices intended for pediatric use. MDUFMA requires FDA, within 270 days of enactment, to issue guidance on the safety and effectiveness information needed to support marketing of pediatric devices and on measures to be used to help protect this vulnerable patient population during the course of clinical trials involving such products.

On February 4, 2003, FDA published a Federal Register document entitled, "Medical Device User Fee and Modernization Act of 2003, Establishment of a Public Docket" (68 FR 5643) (hereinafter referred to as the MDUFMA Docket). In this Federal Register document, the agency identified several statutory provisions for which FDA was particularly interested in receiving stakeholder input, and this pediatric provision was one of them. No comments were submitted to the MDUFMA Docket on this topic. In the Federal Register of July 24, 2003 (68 FR 43729), FDA announced the availability of a draft of this guidance document and invited interested persons to comment by October 22, 2003. Three comments were submitted in response to the draft guidance, and the agency considered the comments while finalizing the document.

II. Significance of Guidance

This guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the agency's current thinking on premarket assessment of pediatric medical devices. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the

requirements of the applicable statute and regulations.

III. Electronic Access

To receive "Premarket Assessment of Pediatric Medical Devices" by fax, call the Center for Devices and Radiological Health (CDRH) Facts-On-Demand system at 800-899-0381 or 301-827-0111 from a touch-tone telephone. Press 1 to enter the system. At the second voice prompt, press 1 to order a document. Enter the document number (1220) followed by the pound sign (#). Follow the remaining voice prompts to complete your request.

Persons interested in obtaining a copy of the guidance may also do so by using the Internet. CDRH maintains an entry on the Internet for easy access to information including text, graphics, and files that may be downloaded to a personal computer with Internet access. The CDRH web site may be accessed at <http://www.fda.gov/cdrh>. A search capability for all CDRH guidance documents is available at <http://www.fda.gov/cdrh/guidance.html>. Guidance documents are also available on the Division of Dockets Management Internet site at <http://www.fda.gov/ohrms/dockets>.

IV. Paperwork Reduction Act of 1995

This guidance contains information collection provisions that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) (the PRA). The collections of information addressed in the guidance document have been approved by OMB in accordance with the PRA under the regulations governing premarket notification submissions (21 CFR part 807, subpart E. OMB control number 0910-0120) and premarket approval applications (21 CFR part 814, OMB control number 0910-0231). The labeling provisions addressed in the guidance have been approved by OMB under OMB control number 0910-0485.

V. Comments

Interested persons may submit to the Division of Dockets Management (see ADDRESSES) written or electronic comments regarding this document at any time. Submit a single copy of electronic comments or two paper copies of any mailed comments, except individuals may submit one paper copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Comments received may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

Dated: May 5, 2004.

Jeffrey Shuren,

Assistant Commissioner for Policy.

[FR Doc. 04-11028 Filed 5-13-04; 8:45 am]

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Collection: Comment Request

In compliance with the requirement for opportunity for public comment on data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Public Law 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of projects being developed for submission to OMB under the Paperwork Reduction Act of 1995. To request more information on the project or to obtain a copy of the data collection methods and instruments, call the HRSA Reports Clearance Officer on (301) 443-1891.

Comments are invited on: (a) Whether the continued collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Project: Evaluation of the Health Care for the Homeless Respite Pilot Initiative (OMB No. 0915-0269)—Extension

The Bureau of Primary Health Care (BPHC), Health Resources and Services Administration, is conducting an extension of an evaluation of the Health Care for the Homeless (HCH) Respite Pilot Initiative. Data are being collected from the ten HCH grantees participating in the Pilot Initiative. The National Health Care for the Homeless Council is conducting the evaluation through a cooperative agreement with the BPHC. The evaluation focuses on assessing the effect of respite services on the health of homeless people as well as examining any differences in outcomes based on client or program characteristics. The evaluation is being conducted

throughout the project period of Pilot Initiative.

The estimated response burden is as follows:

Type of respondents	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden
HCH Grantees	10	200	2000	0.25	500
Program data	10	1	10	.5	5
Total	10	2010	505

Send comments to Susan G. Queen, Ph.D., HRSA Reports Clearance Officer, Room 14-33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: May 10, 2004.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

National Advisory Committee on Rural Health and Human Services; Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that the following committee will convene its forty-seventh meeting.

Name: National Advisory Committee on Rural Health and Human Services.

Dates and Times: June 6, 2004, 2 p.m.-4:30 p.m.; June 7, 2004, 8:30 a.m.-4:30 p.m.; June 8, 2004, 8:30 a.m.-10:30 a.m.

Place: Arbor Day Farm Lied Lodge and Conference Center, 2700 Sylvan Road, Nebraska City, NE 68410, Phone: 402-873-8733, Fax: 402-873-4999.

Status: The meeting will be open to the public.

Purpose: The National Advisory Committee on Rural Health and Human Services provides advice and recommendations to the Secretary with respect to the delivery, research, development and administration of health and human services in rural areas.

Agenda: Sunday afternoon, June 6, 2004, at 2 p.m., the Chairperson, the Honorable David Beasley, will open the meeting and welcome the Committee. The first session will open with a discussion of the Committee business and updates by Federal staff. This will be followed by an overview of Nebraska by Committee Member Keith Mueller and a discussion of Health Care in Nebraska by Sandy Johnson, Executive Director of the State Medical Association. The final two sessions of the day will consist of a panel discussion on obstetrics and obesity in Nebraska and a dialogue on human services in Nebraska. The Sunday meeting will close at 4:30 p.m.

Monday morning, June 7, 2004, at 8:30 a.m. the Committee will break into Subcommittees and conduct site visits to local health and human services facilities. Transportation to these facilities will not be provided to the public. The Integrated Programs Subcommittee will visit Crete, NE; the Temporary Assistance for Needy Families Subcommittee will visit Beatrice, NE; the Obesity Subcommittee will visit Syracuse, NE; and the Obstetrics Subcommittee will visit Tecumseh, NE. The Committee will

conduct a joint site visit in Fairbury, NE. The Committee will reconvene at 2:15 p.m. in Nebraska City, NE, for an overview of the site visits. The Committee will break into Subcommittees to work on the 2005 report. The Monday meeting will adjourn at 4:30 p.m.

The final session will be convened Tuesday morning, June 8, 2004, at 8:30 a.m. The Committee will summarize the Subcommittees discussions and draft an outline for the annual report. The meeting will conclude with a discussion of the letter to the Secretary. The meeting will be adjourned at 10:30 a.m.

For Further Information Contact: Anyone requiring information regarding the Committee should contact Tom Morris, M.P.A., Executive Secretary, National Advisory Committee on Rural Health and Human Services, Health Resources and Services Administration, Parklawn Building, Room 9A-55, 5600 Fishers Lane, Rockville, MD 20857, telephone (301) 443-0835, Fax (301) 443-2803.

Persons interested in attending any portion of the meeting should contact Michele Pray-Gibson, HRSA's Office of Rural Health Policy (ORHP), telephone (301) 443-0835. The Committee meeting agenda will be posted on ORHP's Web site <http://www.ruralhealth.hrsa.gov>.

Dated: May 7, 2004.

Tina M. Cheatham,

Director, Division of Policy Review and Coordination.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Inspector General

Program Exclusions: April 2004

AGENCY: Office of Inspector General, HHS.

ACTION: Notice of program exclusions.

During the month of April 2004, the HHS Office of Inspector General imposed exclusions in the cases set forth below. When an exclusions is imposed, no program payment is made to anyone for any items or services (other than an emergency item or service not provided in a hospital emergency room) furnished, ordered or

prescribed by an excluded party under the Medicare, Medicaid, and all Federal Health Care programs. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or

services provided by an excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and

services provided by that excluded party. The exclusions have national effect and also apply to all Executive Branch procurement and non-procurement programs and activities.

BILLING CODE 9110-10-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4901-N-20]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

DATES: May 14, 2004.

FOR FURTHER INFORMATION CONTACT: Kathy Burruss, Department of Housing and Urban Development, Room 7262, 451 Seventh Street, SW., Washington,

DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1998 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: May 5, 2004.

Mark R. Johnson,

Acting Director, Office of Special Needs Assistance Programs.

BILLING CODE 4210-29-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Renewal To Be Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act; Summary Information for Ranking National Coastal Wetlands Grant Program Proposals, 50 CFR 84

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (We) will submit the collection of information described below to OMB for approval under the provisions of the Paperwork Reduction Act of 1995. An estimate of the information collection burden is included in this notice. You may obtain copies of the collection

requirement, related forms, or explanatory material by contacting the person listed below under **FOR FURTHER INFORMATION CONTACT**.

DATES: Interested parties must submit comments on or before July 13, 2004.

ADDRESSES: Interested parties should send comments on the information collection by mail to Information Collection Officer, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Suite 222, Arlington, VA 22203; by fax to (703) 358-2269; or by e-mail to *Anissa_Craghead@fws.gov*.

FOR FURTHER INFORMATION CONTACT: Kim Galvan, voice (703) 358-2420, fax (703) 358-1837, or e-mail *kgalvan@fws.gov*.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

We will submit a request to OMB to renew its approval of the collection of information associated with the Summary Information for Ranking National Coastal Wetlands Grant Program Proposals. The Service administers the National Coastal Wetlands Conservation Grant program authorized by the Coastal Wetlands Planning, Protection and Restoration Act (16 U.S.C. 3951-3956). The Service uses the information collected to evaluate proposals under this program. The information collected includes summarized information on habitat, coastal barriers, levels of conservation, watershed management, threatened and/or endangered species potentially involved, benefits of the restoration proposed, partners, cost sharing, education/outreach impact, impact on wildlife-oriented recreation, and other

benefits. This summary information allows easy ranking of proposals in a short period of time, and because grant applicants complete the summary information, the information is a thorough and accurate summary of the proposal.

The OMB control number for this information collection is 1018-0111, and the OMB approval for this collection expires on September 30, 2004. We will request a 3-year term of approval for this information collection activity.

Title: Summary Information for Ranking National Coastal Wetlands Conservation Grant Program Proposals, 50 CFR 84.

OMB Control Number: 1018-0111.

Form Number: 3-2179.

Frequency of Collection: Annually.

Description of Respondents: Coastal States and Territories, as follows:

- States bordering the Great Lakes (Illinois, Indiana, Michigan, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin);
- Most States bordering the Atlantic, Gulf, and Pacific coasts (Alabama, Alaska, California, Connecticut, Delaware, Florida, Georgia, Hawaii, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Oregon, Rhode Island, South Carolina, Texas, Virginia, and Washington); and
- Territories of American Samoa, Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, and the Virgin Islands.

(Please note that Louisiana is not included in this program because it has its own wetlands conservation program authorized by the Coastal Wetlands Planning, Protection and Restoration Act and implemented by the Corps of Engineers with assistance from the State of Louisiana, the Environmental Protection Agency, and the Departments of the Interior, Agriculture, and Commerce.)

Annual Burden Estimates:

Name	Completion time per form (minutes)	Total annual number of responses	Total annual burden hours
Summary Form (3-2179)	30	35	17.5

We invite comments on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of burden of the

collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and, (4) ways to minimize the burden of collection of information on respondents, including through the use of appropriate automated, electronic,

mechanical, or other technological collection techniques or other forms of information technology.

Dated: May 10, 2004.
Anissa Craghead,
Service Information Collection Officer.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Programmatic Safe Harbor Agreement and Receipt of an Application for an Enhancement of Survival Permit Associated With Proposed Restoration and Reintroduction Activities for Wyoming Toads Within Suitable Wetland Habitat of Albany County, WY

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and receipt of application.

SUMMARY: The Laramie Rivers Conservation District (Applicant) has applied to the Fish and Wildlife Service (Service) for an Enhancement of Survival Permit (ESP) for the Wyoming toad pursuant to section 10(a)(1)(A) of the Endangered Species Act of 1973 (U.S.C. 1531 *et seq.*), as amended (Act). This permit application includes a draft Safe Harbor Agreement (SHA) between the Applicant and the Service. The proposed SHA and permit would become effective upon signature of the SHA and issuance of the permit and would remain in effect for 15 years. We have made a preliminary determination that the proposed SHA and activities described in the permit application could potentially result in the take of Wyoming toads when fully implemented; thus, these and all other impacts have been reviewed through an Environmental Assessment (EA) under the National Environmental Policy Act of 1969, as amended (NEPA). This notice is provided pursuant to NEPA and section 10 of the Act and the Service's Safe Harbor Policy (64 FR 32717). The Service specially requests information, views, and opinions from the public via this notice. Further, the Service is specifically soliciting information regarding the adequacy of the SHA as measured against the Service's Safe Harbor Policy and the regulations that implement it.

DATES: Written comments on the SHA and ESP application should be sent to the Service's Regional Office (see **ADDRESSES**) and should be received on or before June 14, 2004.

ADDRESSES: Persons wishing to review the SHA and ESP application may obtain a copy by writing the Service's Mountain-Prairie Regional Office,

Denver, Colorado. Documents also will be available for public inspection during normal business hours at the Regional Office, 134 Union Boulevard, Denver, Colorado 80228-1807, or the Wyoming Field Office, U.S. Fish and Wildlife Service, 4000 Airport Parkway, Cheyenne, Wyoming 82001. Written data or comments concerning the SHA or ESP application should be submitted to the Regional Office and must be in writing to be processed. Comments must be submitted in writing to be adequately considered in the Service's decision-making process. Please reference permit number TE-083409 in your comments, or in requests of the documents discussed herein.

FOR FURTHER INFORMATION CONTACT: Pat Mehlhop, Regional Safe Harbor Coordinator, (see **ADDRESSES**), telephone 303-236-4215, facsimile 303-236-0027; or Brian T. Kelly, Field Supervisor, Wyoming Field Office, (see **ADDRESSES**), telephone 307-772-2374, facsimile 307-772-2358.

SUPPLEMENTARY INFORMATION: The Wyoming toad is a glacial relict species which was formerly common in the Laramie Basin in Albany County, Wyoming. The population was noted to decrease in the early 1960s. One isolated population was discovered in 1987. This site later became the Mortenson Lake National Wildlife Refuge and is currently the only place in the world this species is found. A captive breeding program was initiated in 1993 and reintroduction at Mortenson Lake began in 1995. The reestablishment of the Wyoming toad at Mortenson Lake has been severely hindered, mainly by the presence of the amphibian chytrid fungus (*Batrachochytrium dendrobatidis*). This fungus has been implicated in the declines of several other amphibian species worldwide. The presence of the fungus, as well as deteriorating water quality and chemistry at Mortenson Lake, make it necessary to seek suitable reintroduction sites in Albany County, Wyoming.

The primary objective of this SHA is to encourage voluntary conservation measures and/or reintroduction attempts to benefit the Wyoming toad by relieving a landowner, who enters into a Cooperative Agreement with the Applicant, from any additional section 9 liability under the Act beyond that which exists at the time the Cooperative Agreement is signed ("regulatory baseline"). An SHA encourages landowners to conduct voluntary conservation activities and assures them that they will not be subjected to increased restrictions should their

beneficial stewardship efforts result in increased endangered species populations. Application requirements and issuance criteria for ESPs through SHAs are found in 50 CFR 17.22(c). As long as enrolled landowners allow the agreed upon habitat improvements to be completed on their property and maintain their responsibilities, they may make use of the property during the permit term, even if such use results in the take of individual Wyoming toads or harm to their habitat. Opportunity to enroll in the SHA with the Applicant will be open to landowners possessing suitable lacustrine wetland habitat in Albany County, Wyoming. They will receive a Certificate of Inclusion when they sign a Cooperative Agreement. The Cooperative Agreement will include—(1) A map of the property; (2) delineation of the portion of the property to be enrolled and its acreage; (3) physical description of the property; (4) baseline responsibility (zero); (5) the responsibilities of the Cooperator and the Applicant; and (6) management activities.

The Applicant will provide draft copies of Cooperative Agreements to the Service for an opportunity to review and concur with the recommended habitat management activities. The Service will have a period of 30 calendar days in which to make comments. If no comments are received within 30 days, the Applicant may proceed to finalize the Cooperative Agreement. The Applicant, as the permittee, will be responsible for annual monitoring and reporting related to implementation of the SHA and Cooperative Agreements and fulfillment of their provisions. Upon request by the Service, the Applicant will make available records and materials related to implementation of the program.

Within the Cooperative Agreement, participating landowners will be asked to choose one of two conservation measures necessary to provide a net conservation benefit to the toad. These are to—(1) allow reintroduction of Wyoming toads onto enrolled property and/or (2) maintain, enhance, or create suitable Wyoming toad habitat. Moreover, any additional conservation activities above and beyond the required conservation measurements will be covered by the ESP. These actions, where appropriate, could include (but are not limited to)—(1) allowing reintroduction of Wyoming toads on the enrolled portions of the property; (2) voluntary changes in grazing and haying regime, pesticide, and herbicide use in accordance with the Service's 1994 Biological Opinion addressing pesticides and herbicides and label

restrictions, or other activities to enhance toad habitat and minimize take; or (3) facilitation of the implementation of other objectives recommended by the Wyoming Toad Recovery Plan.

While determining the effects of this action, the Service considered the action or impact area to be the maximum number of enrolled properties and a 1-mile radius from these properties to account for toad dispersal, which could include adjacent, neighbor lands. The effect to the Wyoming toad through implementation of landowner day-to-day operations (grazing, haying, etc.) on all potential enrolled lands will be evaluated during the section 7 consultation process.

After maintenance of the restored/created/enhanced Wyoming toad habitat on the property or allowing reintroduction of Wyoming toads on the property for the agreed-upon term, cooperators may then conduct otherwise lawful activities on their property that result in the partial or total elimination of the restored habitat and the incidental taking of Wyoming toads as a result of such habitat elimination. However, the restrictions on returning a property to its original baseline condition include—(1) Wyoming toads may not be captured, killed, or otherwise directly “taken,” (2) the Applicant and the Service will be notified a minimum of 15 calendar days prior to the activity and provided the opportunity to capture, rescue, and/or translocate any Wyoming toads, if necessary and appropriate; and (3) return to baseline conditions must be completed within the 15-year term of the permit issued to the Applicant. Cooperative Agreements may be extended if the Applicant’s permit is renewed and that renewal allows for such extension.

The Service has evaluated the impacts of this action under the National Environmental Policy Act by drafting an Environmental Assessment. The documentation also is subject to public comment and will be made available to the public concurrently with the availability of the SHA and ESP.

The Service also will evaluate whether the issuance of the ESP complies with section 7 of the Act by conducting an intra-Service section 7 consultation on the issuance of the permit. The results of the biological

opinion, in combination with the above findings and any public comments, will be used in the final analysis to determine whether or not to issue the requested ESP, pursuant to the regulations that guide issuance of this type of permit.

Dated: April 30, 2004.

Mike Stempel,

Acting Regional Director, Denver, Colorado.

Notice of Meeting of the Trinity Adaptive Management Working Group

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), this notice announces a meeting of the Trinity Adaptive Management Working Group (TAMWG). The TAMWG affords stakeholders the opportunity to give policy, management, and technical input concerning Trinity River restoration efforts to the Trinity Management Council. Primary objectives of the meeting will include: FY 2005 budget for Trinity River Restoration Program, followup to May 12 Trinity Management Council/Science Advisory Board meeting, charter renewal and membership appointments, and the Executive Director’s report. The agenda items are approximate and are dependent on the amount of time each item takes. The meeting could end early if the agenda has been completed. The meeting is open to the public.

DATES: The Trinity Adaptive Management Working Group will meet from 8:30 a.m. to 5 p.m. on Tuesday June 15, 2004.

ADDRESSES: The meeting will be held at the Weaverville Victorian Inn, 1709 Main Street, Weaverville, CA 96093. Telephone: (530) 623-4432.

FOR FURTHER INFORMATION CONTACT: Dr. Mary Ellen Mueller of the U.S. Fish and Wildlife Service, California/Nevada Operations Office, 2800 Cottage Way, W-2606, Sacramento, California 95825, (916) 414-6464. Dr. Mary Ellen Mueller

is the designee of the committee’s Federal Official—Steve Thompson, Manager of the U.S. Fish and Wildlife Service, California/Nevada Operations Office.

SUPPLEMENTARY INFORMATION: For background information and questions regarding the Trinity River Restoration Program, please contact Douglas Schleusner, Executive Director, Trinity River Restoration Program, P.O. Box 1300, 1313 South Main Street, Weaverville, California 96093. (530) 623-1800.

Dated: May 7, 2004.

Mary Ellen Mueller,

Manager, California/Nevada Operations Office, Sacramento, CA.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR-912-6320-PO; HAG 4-0131]

Call for Nominations: Resource Advisory Committees

AGENCY: Bureau of Land Management, Interior.

ACTION: Oregon District Resource Advisory Committees call for nominations.

SUMMARY: The Bureau of Land Management (BLM) gives notice that the Secretary of the Interior will solicit nominations for members and alternates for the BLM’s Coos Bay, Eugene, Medford, Roseburg, and Salem District Resource Advisory Committees in the State of Oregon. Nominations will be used to fill 15 member and 6 alternate position as follows:

Category One—5 members, 2 alternates
Category Two—5 members, 2 alternates
Category Three—5 members, 2 alternates

DATES: Nomination forms are available at those District Offices listed below. All materials must be received by the appropriate BLM District office on or before June 14, 2004.

ADDRESSES: Nominations for the District RACs should be sent to the appropriate BLM District office listed below:

	BLM contact	Address	Telephone
Coos Bay District RAC	Sue Richardson, District Manager ..	1300 Airport Land, North Bend, Oregon 97459	(541) 756-0100
Eugene District RAC	Julia Dougan, District Manager	2890 Chad Street, Eugene, Oregon 97440	(541) 683-6600
Medford District RAC	Tim Reuwsaat, District Manager	3040 Biddle Road, Medford, Oregon 97504	(541) 618-2200
Roseburg District RAC	Jay Carlson	777 NW Garden Valley Blvd., Roseburg, Oregon 97470.	(541) 440-4930

CFR	BLM contact	Address	Telephone
Salem District RAC	Denis Williamson, District Manager	1717 Fabry Road SE, Salem, Oregon 97306	(503) 375-5646

FOR FURTHER INFORMATION CONTACT: Pam Robbins, Oregon/Washington Bureau of Land Management, Oregon State Office, PO Box 2965, Portland, Oregon 97208, (503) 808-6306.

SUPPLEMENTARY INFORMATION: The purpose of a resource advisory committee is to improve collaborative relationships and to provide advice and recommendations to the BLM consistent with the objectives of the Act. The Committees for the five western Oregon BLM districts covered under the Act are composed of 15 members, plus 6 alternates, representing broad interest categories.

Committee membership must be balanced in terms of the categories of interest represented as follows:

- Category One—Representatives of organized labor; developed outdoor recreation; off-highway vehicle use; energy and/or mining development; timber industry; or holders of federal grazing or other land use permits.
- Category Two—Representatives of nationally, regionally or locally recognized environmental organizations; dispersed recreation, archaeological and historic interests; or wild horse and burro groups.
- Category Three—State, county or local elected officials; representatives of Native American Tribes; school officials or teachers, or the public-at-large.

Any individual or organization may nominate one or more persons to serve on the Committees. Individuals may also nominate themselves or others, and current members may reapply. Nominees must reside within one of the counties that are (in whole or part) within the BLM District boundaries of the Committee(s) on which membership is sought. A person may apply for and serve on more than one Committee. Nominees will be evaluated based on their education, training, experience relating to land use issues, recommendations from others, and knowledge of the geographical area of the Committee. Nominees must also demonstrate a commitment to collaborative resource decision-making. Members are appointed or reappointed for 3-year terms.

Geographic areas for each Committee are as follows:

Coos Bay District boundary includes federal lands within Coos, Curry, Douglas, and Lane Counties.

Eugene District boundary includes federal lands within Benton, Douglas, Lane, and Linn Counties.

Medford District Resource Advisory Committee boundary includes federal lands within Medford District and Klamath Falls Resource Area in the Lakeview District. The area covers Coos, Curry, Douglas, Jackson, and Josephine Counties, and small portions of west Klamath County.

Roseburg District boundary includes federal lands within Douglas, Lane, and Jackson Counties.

Salem District boundary includes federal lands within Benton, Clackamas, Clatsop, Columbia, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Washington, and Yamhill Counties.

Authority: 43 CFR 1784.4-1.

Judy Ellen Nelson,

Acting Associate State Director, OR/WA Bureau of Land Management.

BILLING CODE 4310-33-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

DEPARTMENT OF AGRICULTURE

Forest Service

[CA-668-1040 (P)]

Notice of a Call for Nominations for the Santa Rosa and San Jacinto Mountains National Monument Advisory Committee

AGENCIES: Bureau of Land Management, Interior; Forest Service, Agriculture.

ACTION: Notice.

SUMMARY: Under the Santa Rosa and San Jacinto Mountains National Monument Act of 2000, Pub. L. 106-351 (16 U.S.C. 431 note), the Department of the Interior's Bureau of Land Management and the Department of Agriculture's U.S. Forest Service are opening nominations for five members of the public to serve on the Santa Rosa and San Jacinto Mountains National Monument Advisory Committee. Nominations will be accepted for 45 days following the publication date of this notice. The Committee is managed under the provisions of the Federal Advisory Committee Act.

The call for nominations is for representatives for the Agua Caliente

Band of Cahuilla Indians, the cities of Rancho Mirage and Palm Desert, the Winter Park Authority, and the Pinyon Community Council.

DATES: Submit nomination packets to the address listed below no later than June 28, 2004.

ADDRESSES: Request nomination packets and send completed nomination packets to: Advisory Committee Nominations, Ms. Danella George, Bureau of Land Management, P.O. Box 581260, North Palm Springs, California, 92258-1260.

FOR FURTHER INFORMATION CONTACT: Ms. Danella George, Santa Rosa and San Jacinto Mountains National Monument Manager, (760) 251-4800.

SUPPLEMENTARY INFORMATION: As directed by the Act, the Secretary of the Interior and the Secretary of Agriculture jointly established an advisory committee for the Santa Rosa and San Jacinto Mountains National Monument (Monument). The Committee's purpose is to advise the Secretaries with respect to the implementation of a management plan for the Monument. Committee members will be appointed to serve three-year terms. The three-year term would begin November 2004. All members will serve without pay but will be reimbursed for travel and per diem expense at the current rates for government employees under 5 U.S.C. 5703. The Secretary of the Interior will make appointments to the Committee with the concurrence of the Secretary of Agriculture.

The Committee meets 2-3 times a year on a Saturday. The purpose of the Committee is to gather and analyze information, conduct studies and field examinations, hear public testimony, ascertain facts, and, in an advisory capacity only, develop recommendations concerning planning for the management and uses of the National Monument. The designated Federal officer, or his or her designee, in connection with special needs for advice, may call additional meetings. A Committee Chairperson and Vice Chairperson will be elected by the Committee from among its members annually.

Any individual or organization may nominate one or more persons to serve on the Committee. Individuals may nominate themselves for Committee membership. You may obtain nomination forms that each agency requires from the BLM or Forest Service by contacting the individuals listed in

ADDRESSES below. To make a nomination, you must submit completed nomination forms, letters of reference from the represented interests or organization, and any other information that speaks to the nominee's qualification, to the offices listed above. You may make nominations for the following categories of interest, as specified in the Act: (1) A representative of the Agua Caliente Band of Cahuilla Indians; (2) a representative from each of the following cities: Rancho Mirage and Palm Desert; (3) a representative of the Winter Park Authority; (4) a representative of the Pinyon Community Council. Nominations to the Committee should describe and document the proposed member's qualifications for membership on the Advisory Committee. Nomination packets will include the nominee's legal name.

Dated: March 17, 2004.

Danella George,

Santa Rosa and San Jacinto Mountains National Monument Manager, Palm Springs Field Office of the Bureau of Land Management.

Dated: March 9, 2004.

Laurie Rosenthal,

District Ranger, San Jacinto Ranger District, San Bernardino National Forest, U.S. Forest Service.

Montana: Filing of Plat of Amended Protraction Diagram

AGENCY: Bureau of Land Management, Montana State Office, Interior.

ACTION: Notice of filing of plat of amended protraction diagram.

SUMMARY: The Bureau of Land Management (BLM) will file the plat of the amended protraction diagram of the lands described below in the BLM Montana State Office, Billings, Montana, (30) days from the date of publication in the *Federal Register*.

FOR FURTHER INFORMATION CONTACT: Robert L. Brockie, Cadastral Surveyor, Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, P.O. Box 36800, Billings, Montana 59107-6800, telephone (406) 896-5125 or (406) 896-5009.

SUPPLEMENTARY INFORMATION: The amended protraction diagram was prepared at the request of the U.S.

Forest Service and is necessary to accommodate Revision of Primary Base Quadrangle Maps for the Geometronics Service Center.

The lands for the prepared amended protraction diagram are:

Principal Meridian, Montana

Tps. 33, 34, 35, 36, and 37 N., Rs. 17, 18, 19, and 20 W.

The plat, representing the Amended Protraction Diagram 46 Index of unsurveyed Townships 33, 34, 35, 36, and 37 North, Ranges 17, 18, 19, and 20 West, Principal Meridian, Montana, was accepted April 30, 2004.

T. 33 N., R. 17 W.

The plat, representing Amended Protraction Diagram 46 of unsurveyed Township 33 North, Range 17 West, Principal Meridian, Montana, was accepted April 30, 2004.

T. 33 N., R. 18 W.

The plat, representing Amended Protraction Diagram 46 of unsurveyed Township 33 North, Range 18 West, Principal Meridian, Montana, was accepted April 30, 2004.

T. 33 N., R. 19 W.

The plat, representing Amended Protraction Diagram 46 of unsurveyed Township 33 North, Range 19 West, Principal Meridian, Montana, was accepted April 30, 2004.

T. 33 N., R. 20 W.

The plat, representing Amended Protraction Diagram 46 of unsurveyed Township 33 North, Range 20 West, Principal Meridian, Montana, was accepted April 30, 2004.

T. 34 N., R. 17 W.

The plat, representing Amended Protraction Diagram 46 of unsurveyed Township 34 North, Range 17 West, Principal Meridian, Montana, was accepted April 30, 2004.

T. 34 N., R. 18 W.

The plat, representing Amended Protraction Diagram 46 of unsurveyed Township 34 North, Range 18 West, Principal Meridian, Montana, was accepted April 30, 2004.

[OR-035-1430-NJ]

Supplementary Rules for Public Lands in Umatilla County, OR

AGENCY: Oregon State Office, Bureau of Land Management, Interior.

ACTION: Interim final supplementary rule.

SUMMARY: The Bureau of Land Management (BLM) is publishing interim final supplementary rules regulating conduct on specific public lands in Umatilla County, Oregon, on and in the immediate vicinity of Umatilla Butte. The supplementary rules notify the public that certain unauthorized roads will be closed and that some activities will no longer be allowed, including: motor vehicle operation, discharge of firearms, possessing or igniting fireworks, and building, starting or maintaining any fire. The public is welcome to visit Umatilla Butte, but we have determined that certain illegal activities must be curtailed for the public to visit in safety.

DATES: The interim final supplementary rules are effective May 14, 2004. You must submit your comments to BLM at the appropriate address below on or before July 13, 2004. BLM will not necessarily consider any comments received after the above date in making its decisions on the final rule.

ADDRESSES: Address all comments concerning this rule to: Field Office Manager, Bureau of Land Management, Baker City Field Office, 3165 10th Street, Baker City, Oregon 97814.

Direct internet response: http://www.Steve_Davidson@or.blm.gov.

You may view an electronic version of this rule at BLM's Internet home page: www.blm.gov. You may comment via the Internet by accessing our automated commenting system located at www.blm.gov/nhp/news/regulatory/index.html and following the instructions there. Please also include your name and return address in your Internet message. If you do not receive a confirmation that we have received your electronic message, contact us directly at 541-523-1256.

Written Comments

Written comments on the rule should be specific, confined to issues pertinent to the rule, and should explain the reason for any recommended change. Where possible, comments should reference the specific section or paragraph of the proposal which the commenter is addressing. BLM may not necessarily consider or include in the Administrative Record for the final rule comments which BLM receives after the close of the comment period (See **DATES**) or comments delivered to an address other than those listed above (See **ADDRESSES**).

Comments, including names, streets addresses, and other contact information of respondents, will be available for public review at Bureau of Land Management, Baker Field Office, 3165 10th St., Baker City, OR 97814 during regular business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except Federal holidays. Individual respondents may request confidentiality. If you wish to request that BLM consider withholding your name, street address, and other contact information (such as: Internet address, FAX or phone number) from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your comment. BLM will honor requests for confidentiality on a case-by-case basis to the extent allowed by law. BLM will make available for public inspection in their entirety all submissions from organizations or businesses, and from individuals identifying themselves as

representatives or officials of organizations or businesses.

II. Background

The Bureau of Land Management (BLM) manages property in Umatilla County, Oregon known as Umatilla Butte. The legal description for the butte is: Township 5 North, Range 28 East, East 1/2 East 1/2 of Section 28, of the Willamette Meridian. This location is just west of the community of Charlestone, which is north of Hermiston, Oregon. Scattered housing is found in close proximity to the butte on the west, east, and south sides. Paved and gravel roads circle the butte. Several unauthorized "roads" have evolved on the butte, usually leading to trash dumping or firearms shooting sites.

Illegal activities on the butte have resulted in numerous complaints to BLM from neighbors, officials from Umatilla County, and the Umatilla County Sheriff's Department. These activities have included: trash dumping (household, batteries, tires), methamphetamine lab dumping (seven sites alone were found in 2001), vehicle oil changing, abandoned vehicles, and fires. Firearms target shooting has resulted in bullets impacting around residences, on other private property, and near hikers in the area. Fires in the dump areas have the potential to burn hazardous materials and produce toxic fumes. The methamphetamine lab dump sites include discarded propane tanks which also pose a significant health and safety risk if engulfed in a fire.

The primary means for illegal dumping, including methamphetamine lab waste, is through the use of motorized vehicles. Vehicles are driven onto the butte using illegal roads and even by creating new roads and routes in order to access dumping sites. This activity also causes undue erosion of the butte, which in turn has the potential of creating additional hazards to those driving on these illegal roads, to the resource, others using the butte and to land owners nearby.

Because motorized vehicles facilitate the ability to accomplish most of the illegal dumping and start fires, this rule would close the butte to motorized vehicles. Foot and non-motorized access is still allowed and encouraged.

III. Discussion of Rule

Why Is This Rule Being Published as Interim Final?

Because of significant health and safety risks to the public caused by activities that this rule would prohibit, including risks both to visitors to Umatilla Butte and residents in the

immediate area of the butte, BLM needs to curtail certain dangerous activities. The Umatilla County Sheriff's Office and the adjacent land owners are requesting that the BLM take immediate and aggressive action to stop these behaviors.

Because of the immediate and ongoing hazards to the public's health and safety and because of the need to protect natural resources from continued hazardous materials dumping, erosion, and fires, we find good cause to publish these rules as interim final, effective May 14, 2004, and allowing 60 days for public comment.

IV. Procedural Matters

Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings)

The rule does not represent a government action capable of interfering with Constitutionally protected property rights. Therefore, the Department of the Interior has determined that the rule would not cause a taking of private property or require further discussion of takings implications under this Executive Order.

Executive Order 13132, Federalism [Replaces Executive Orders 12612 and 13083.]

The rule will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, BLM has determined that this rule does not have sufficient Federalism implications to warrant preparation of a Federalism Assessment.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, the Office of the Solicitor has determined that this rule would not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of the Order.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments [Replaces Executive Order 13084]

In accordance with Executive Order 13175, we have found that this final rule does not include policies that have tribal implications.

Paperwork Reduction Act

These supplementary rules do not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*

Author

The principal author of this interim final rule is Tom Averett, Baker Field Office, Baker City, Oregon assisted by Jim Huff, Oregon State Office, BLM.

For the reasons stated in the preamble, and under the authority of 43 CFR 8365.1-6 Supplementary Rules, the Oregon/Washington State Director, Bureau of Land Management, issues supplementary rules for public lands in the area known as Umatilla Butte, to read as follows:

Sec. 1 Prohibited acts.

(a) Prohibited acts. Within the area you must not:

- (1) Operate any motorized vehicle.
- (2) Discharge any firearm.
- (3) Start, build or maintain any fire.
- (4) Light or discharge any fireworks or incendiary devices.

(b) Exemptions. The following are exempt from prosecution under the prohibited acts:

1. Any person operating a motorized vehicle on a publicly maintained State or County road;
2. Any Federal, State or local officer or employee in the scope of their duties;
3. Members of any organized rescue or fire-fighting force in the performance of official duty; and
4. Any person authorized in writing by BLM.

Sec. 2 Penalties.

On public lands, under section 303(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733(a)) and 43 CFR 8360.0-7, any person who violates any of these supplementary rules may be tried before a United States Magistrate and fined no more than \$1,000 or imprisoned for no more than 12 months, or both. Such violations may also be subject to the enhanced fines provided for by 18 U.S.C. 3571.

Elaine M. Brong,

Oregon State Director, Bureau of Land Management.

BILLING CODE 4310-33-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Prospective Grant of Exclusive Patent License

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: This notice is issued in accordance with 35 U.S.C. 209 (c)(1) and 37 CFR 404.7(a)(1)(I). The Bureau of Reclamation (Reclamation) is contemplating the granting of an exclusive license in the United States to practice the invention embodied in U.S. Patent No. 6,541,106 B1, titled "Hydrophilic Polyurethane Impregnated Rubber for Sealing Water Leaks." The exclusive license is to be granted to Mr. Curt Birky, dba Conrep West, having a place of business in Littleton, Colorado. The patent rights in this invention have been assigned to the United States of America.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. While the primary purpose of this notice is to announce Reclamation's intent to grant an exclusive license to practice the above listed patent, it also serves to publish the availability of this patent for licensing in accordance with law. The prospective license may be granted unless Reclamation receives written evidence and argument which establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

DATES: Written evidence and arguments against granting the prospective license must be received by fifteen (15) days from the date of this notice.

ADDRESSES: Inquiries, comments, and other materials relating to the contemplated license may be submitted to Chuck Hennig, Research Coordinator, Bureau of Reclamation, Office of the Research Director, D-9000, P.O. Box 25007, Denver, CO 80225-0007

A copy of the above identified patent may be purchased from the U.S. Patent and Trademark Office, by calling (703) 308-9726 or (800) 972-6382 or downloaded free of charge from the U.S. Patent and Trademark Office Web site at www.uspto.gov.

FOR FURTHER INFORMATION CONTACT: Chuck Hennig (chennig@do.usbr.gov), Research Coordinator, at 303-445-2134 or Siegie Potthoff (spotthoff@do.usbr.gov), Program Administrator, at 303-445-2136.

SUPPLEMENTARY INFORMATION: The invention relates to a novel approach to

formulate and combine polyurethane and hydrophilic rubber compounds to produce a practical, economical, and reliable means of sealing water leaks, primarily in concrete dams and other concrete water storage structures. More specifically the product would include a porous hydrophilic rubber impregnated with a water reactive polyurethane resin. When the material comes into contact with water, the rubber and polyurethane swell, resulting in increased adhesion with the substrate and improved leak sealing. Significant additional R&D is required to develop the compounding approach.

Properly filed competing applications completed and received by Reclamation in response to this notice will be considered as objections to the grant of the contemplated license. Application forms are available from the Office of the Research Director, Bureau of Reclamation at the address above.

There may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety. For those individuals without a business address, Reclamation's practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law.

Dated: May 4, 2004.

Charles Hennig,

*Acting Director, Research and Development,
Bureau of Reclamation.*

BILLING CODE 4310-MN-P

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 701-TA-438
(Preliminary) and 731-TA-1076
(Preliminary)]

Live Swine From Canada

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (Commission) determines, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 19 U.S.C. 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Canada of live swine, provided for in subheadings 0103.91.00 and 0103.92.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be subsidized by federal and provincial governments in Canada and sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in the investigations under sections 703(b) and 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) and 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations,

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

Background

On March 5, 2004, a petition was filed with the Commission and Commerce by the National Pork Producers Council, 8 state associations, and 119 individual pork producers, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized and LTFV imports of live swine from Canada. Accordingly, effective March 5, 2004, the Commission instituted antidumping and countervailing duty investigations Nos. 701-TA-438 (Preliminary) and 731-TA-1076 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of March 16, 2004 (69 FR 12347, March 16, 2004). The conference was held in Washington, DC, on March 26, 2004, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on May 10, 2004. The views of the Commission are contained in USITC Publication 3693 (May 2004), entitled *Live Swine From Canada: Investigations Nos. 701-TA-438 (Preliminary) and 731-TA-1076 (Preliminary)*.

By order of the Commission.

Issued: May 11, 2004.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[USITC SE-04-012]

Government in the Sunshine Act Meeting Notice

AGENCY: United States International Trade Commission.

TIME AND DATE: May 27, 2004 at 11 a.m.

PLACE: Room 101, 500 E Street SW., Washington, DC 20436, Telephone: (202) 205-2000.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agenda for future meetings: None.
2. Minutes.
3. Ratification List.
4. Inv. No. AA1921-167 (Second Review) (Pressure Sensitive Plastic Tape

from Italy)—briefing and vote. (The Commission is currently scheduled to transmit its determination and Commissioners' opinions to the Secretary of Commerce on or before June 7, 2004.)

5. Inv. No. AA1921-188 (Second Review) (Prestressed Concrete Steel Wire Strand from Japan)—briefing and vote. (The Commission is currently scheduled to transmit its determination and Commissioners' opinions to the Secretary of Commerce on or before June 7, 2004.)

6. Outstanding action jackets: None.

In accordance with Commission policy, subject matter listed above, not disposed of at the scheduled meeting, may be carried over to the agenda of the following meeting.

By order of the Commission.

Issued: May 11, 2004.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

Antitrust Division

Public Comments and Response on Proposed Final Judgment in United States v. First Data Corporation and Concord EFS, Inc.

Pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b)-(h), the United States hereby publishes below the comments received on the proposed Final Judgment in *United States v. First Data Corporation and Concord EFS, Inc.*, Civil Action No. 1:03CV02169, filed in the United States District Court for the District of Columbia, together with the United States' response to the comments.

Copies of the comments and response are available for inspection at Room 200 of the Department of Justice, Antitrust Division, 325 Seventh Street, NW., Washington, DC 20530, telephone (202) 514-2481, and at the Office of the Clerk of the United States District Court for the District of Columbia, E. Barrett Prettyman United States Courthouse, 333 Constitution Avenue, NW., Washington, DC 20001. Copies of any of

these materials may be obtained upon request and payment of a copying fee.

J. Robert Kramer, II,

Director of Operations, Antitrust Division.

In the United States District Court for the District of Columbia

United States of America, et al., Plaintiffs, v. First Data Corporation and Concord EFS, Inc., Defendants

Case Number: 1:03CV02169.

Judge: Hon. Rosemary M. Collyer.

Filed: May 7, 2004.

Response to Public Comments

Pursuant to the requirements of the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b)-(h) ("Tunney Act"), the United States files the comments of the public concerning the proposed Final Judgment in this case and the United States' responses to those comments. After careful consideration of the comments, the United States continues to believe that the proposed Final Judgment will provide an effective and appropriate remedy for the antitrust violation alleged in the Complaint. The United States will move the Court to enter the proposed Final Judgment after the public comments and this Response have been published in the **Federal Register**, pursuant to 15 U.S.C. 16(d).

I. Background

On October 23, 2003, plaintiffs the United States and the states of Connecticut, Illinois, Louisiana, Massachusetts, New York, Ohio, Pennsylvania, and Texas, and the District of Columbia (collectively "Plaintiff States") filed a Complaint alleging that the proposed acquisition of Concord EFS, Inc. ("Concord") by First Data Corporation ("First Data") would violate section 7 of the Clayton Act, as amended, 15 U.S.C. 18. The Complaint alleged that First Data's acquisition of Concord would substantially reduce competition in the market for PIN debit network services by combining the STAR and NYCE point-of-sale PIN debit networks.¹ Concord's STAR network is the largest PIN debit network in the United States, currently switching approximately half of all U.S. PIN debit transactions. NYCE is the third-largest PIN debit network. First Data owns a 64 percent controlling interest in NYCE.

¹ PIN debit networks are the telecommunications and payment infrastructure that connects merchants to consumers' demand deposit accounts at banks. These networks enable consumers to purchase goods and services from merchants through PIN debit transactions by swiping their bank card at a merchant's terminal and entering a Personal Identification Number, or PIN. Within seconds, the purchase amount is debited from the customer's bank account and transferred to the retailer's bank.

The transaction would have eliminated the competition between STAR and NYCE, leading to higher prices for PIN debit network services to merchant customers. Merchants would have passed on at least some of the higher costs of PIN debit transactions by raising the prices of their goods and services, to the detriment of tens of millions of consumers throughout the United States.

On December 15, 2003, the United States, the Plaintiff States and the Defendants filed a proposed Final Judgment and Hold Separate Stipulation and Order. On January 9, 2004, the parties, by consent, filed an Amended Hold Separate Stipulation and Order. The proposed Final Judgment requires First Data, within 150 calendar days after the Court's signing of the original Hold Separate Stipulation and Order, or five days after notice of the entry of the Final Judgment by the Court, whichever is later, to divest all of its governance rights in NYCE and its entire 64 percent ownership interest in NYCE (collectively "NYCE Holdings"). In addition, the Amended Hold Separate Stipulation and Order requires First Data to take certain steps to ensure that NYCE is operated as a competitively independent, economically viable and ongoing business concern that will remain independent and uninfluenced by the consummation of the acquisition, and that competition is maintained during the pendency of the ordered divestiture.

The United States, the Plaintiff States and the Defendants have stipulated that the proposed Final Judgment may be entered after compliance with the Tunney Act. Entry of the proposed Final Judgment would terminate this action, except that the Court would retain jurisdiction to construe, modify or enforce the provisions of the proposed Final Judgment and to punish violations thereof.

Pursuant to the requirements of the Tunney Act, the United States filed a Competitive Impact Statement ("CIS") on January 23, 2004, and published the proposed Final Judgment and the CIS in the **Federal Register** on February 10, 2004. A summary of the terms of the proposed Final Judgment and CIS, with directions for the submission of written comments relating to the proposed Final Judgment, were published in the Washington Post for seven days on February 6, through February 12, 2004. The sixty-day period for public comments, during which the two comments described below were received, expired on April 12, 2004.

II. Response to Public Comments

A. Legal Standard Governing the Court's Public Interest Determination

Upon publishing the public comments and this Response, the United States will have fully complied with the Tunney Act. After receiving the motion of the United States for entry of the proposed Final Judgment, the Tunney Act directs the Court to determine whether entry of the proposed Final Judgment "is in the public interest." 15 U.S.C 16(e). In making that determination, "the court's function is not to determine whether the resulting array of rights and liabilities is one that will best serve society, but only to confirm that the resulting settlement is within the reaches of the public interest." *United States v. W. Elec. Co.*, 993 F.2d 1572, 1576 (D.C. Cir. 1993) (citations and emphasis omitted). The Court should evaluate the relief set forth in the proposed Final Judgment and should enter the judgment if it falls within the government's "rather broad discretion to settle with the defendant within the reaches of the public interest." *United States v. Microsoft Corp.*, 56 F.3d 1448, 1461 (D.C. Cir. 1995); *accord United States v. Associated Milk Producers, Inc.*, 534 F.2d 113, 117-18 (8th Cir. 1976). The Court should review the proposed Final Judgment "in light of the violations charged in the complaint and * * * withhold approval only [(a)] if any of the terms appear ambiguous, [(b)] if the enforcement mechanism is inadequate, [(c)] if third parties will be positively injured, or [(d)] if the decree otherwise makes a 'mockery of judicial power.'" *Mass. Sch. of Law at Andover, Inc. v. United States*, 118 F.3d 776, 783 (D.C. Cir. 1997) (quoting *Microsoft*, 56 F.3d at 1462).

Because "[t]he court's authority to review the decree depends entirely on the government's exercising its prosecutorial discretion by bringing a case in the first place" it follows that "the court is only authorized to review the decree itself," and not to "effectively redraft the complaint" to inquire into other matters the United States might have, but did not, pursue. *Microsoft*, 56 F.3d at 1459-60. The Tunney Act does not empower the Court to reject the remedies in the proposed Final Judgment based on the belief that "other remedies were preferable," *Id.* at 1460, nor does it give the Court authority to impose different terms on the parties. *See, e.g., United States v. Am. Tel. & Tel. Co.*, 552 F. Supp. 131, 153 n.95 (D.D.C. 1982); *accord H.R. Rep. No. 93-1463* (1974). Further, the United States is entitled to "due respect" concerning

its "prediction as to the effect of proposed remedies, its perception of the market structure, and its view of the nature of the case." *United States v. Archer-Daniels-Midland Co.*, 272 F. Supp. 2d 1, 6 (D.D.C. 2003) (citing *Microsoft*, 56 F.3d at 1461).

B. Summary of Public Comments and the United States' Responses

The United States received comments from the Citizens for Voluntary Trade ("CVT") (Exhibit 1) and Ryco, Ltd. (Exhibit 2) in response to its publication of the Final Judgment in the **Federal Register**.

1. CVT

CVT's comment states that the United States incorrectly alleged in the Complaint that there is a relevant product market for PIN debit network services. The comment maintains that PIN debit network services are part of a broader product market that includes all demand forms of payment, including signature debit network services, cash, checks, money orders, and traveler's checks. CVT concludes that because NYCE and STAR compete in a broader market, combining the two networks does not threaten competition and, therefore, entering the Final Judgment does not serve the public interest.

CVT's comment is directed at whether the United States should have filed this case, not to whether the relief in the proposed Final Judgment is adequate to address the harm alleged in the Complaint. Comments challenging the validity of the United States' case, or alleging that it should not have been brought, are challenges to the initial exercise of the United States' prosecutorial discretion and are outside the scope of the Tunney Act proceeding. The purpose of this proceeding is not to evaluate the merits of the United States' case. A Tunney Act proceeding is not an opportunity for a "de novo determination of facts and issues," but rather "to determine whether the Department of Justice's explanations were reasonable under the circumstances" because "[t]he balancing of competing social and political interests affected by a proposed antitrust decree must be left, in the first instance, to the discretion of the Attorney General." *United States v. W. Elec. Co.*, 993 F.2d at 1577 (citations omitted). Consequently, the courts consistently have refused to consider "contentions going to the merits of the underlying claims and defenses." *United States v. Bechtel Corp.*, 648 F.2d 660, 666 (9th Cir. 1981); *accord United States v. Thomson Corp.*, 949 F. Supp. 907, 913 (D.D.C. 1996) ("[T]he court is to

compare the complaint filed by the government with the proposed consent decree and determine whether the remedies negotiated between the parties and proposed by the Justice Department clearly and effectively address the anticompetitive harms initially identified."). Thus, CVT's challenge to the merits of the United States' underlying case are beyond the purview of appropriate Tunney Act inquiry.

Nevertheless, in response to CVT's comment, the United States observes that it conducted an extensive and thorough investigation into the provision of PIN debit network services, including to what extent these services potentially competed with other products or services. The facts found by the investigation demonstrated that PIN debit network services are a relevant product market under the antitrust laws. Many merchants strongly prefer PIN debit network services because PIN debit network services offer substantial advantages that set them apart from other forms of demand payment, most notably from the closest potential substitute, signature debit network services.² First, PIN debit networks generally charge merchants considerably lower prices than those offered by signature debit networks. Second, PIN debit networks provide a more secure method of payment than signature debit networks because it is easier to forge a person's signature than to obtain an individual's PIN. Consequently, fraud rates, and the expenses imposed by such fraud, are generally lower for PIN debit network services than for signature debit. The greater security provided by PIN debit networks also typically eliminates the need for costly charge-back procedures that allow consumers to challenge signature debit transactions. Third, PIN debit transactions also generally settle instantaneously, guaranteeing the merchant ready access to its receipts, while signature debit transactions often take one or two days to settle. Finally, PIN debit networks usually enable shorter times at the check-out counter than signature debit networks, further reducing merchants' costs.

Merchant preference for PIN debit network services over other forms of demand payment, including signature debit transactions, cash, money orders, and travelers checks, is further strengthened by the strong demand of many consumers to use PIN debit network services, particularly at

² Signature debit networks are telecommunications and payment infrastructure that enable consumers to purchase goods and services by swiping a debit card and then signing for the transaction as the means of authentication.

supermarkets, mass merchandisers and drug stores. Many consumers value the security and speed of PIN debit transactions, as well as the unique "cash back" feature that allows them to receive cash at the register when making a purchase. Consumers cannot receive cash back when making a signature debit purchase. Today, consumers request cash back in approximately twenty percent of all PIN debit transactions. Because of their generally substantial lower costs and superior features, the United States determined that a small but significant increase in the price of PIN debit network services would not cause a sufficient number of merchants to stop accepting PIN debit transactions, or to discourage their customers from executing such transactions, to defeat the price increase. Based on this finding, the United States concluded, and properly alleged in its Complaint, that PIN debit network services is a relevant antitrust product market.

2. Ryco's Comment

Ryco is an independent gas station and convenience store that does business under the trade name "Hansen's Good to Go." Ryco's comment states that it objects to the merger of First Data and Concord because Concord currently engages in alleged anticompetitive behavior. The comment maintains that Concord provides Ryco and other merchant customers with poor customer service by double-charging them on some bills, routing some transactions to more expensive networks, and negotiating unfavorable terms in its contracts concerning the forums for litigating contractual disputes and the parties' responsibilities for "fees" and "costs" that result from such litigation. Ryco believes that the merger will increase the number of merchants to which Concord provides debit card transaction related services and, consequently, will increase Concord's leverage to provide poor customer service. Ryco advocates conditioning approval of the merger on (a) revisions to the choice of forum and

attorneys' fees provisions in Concord's contracts, and (b) improvements in Concord's customer service.

Ryco's concerns do not indicate that the proposed Final Judgment is not in the public interest. To the extent that Ryco's concerns are directed to the provision of PIN debit network services, the Final Judgment's requirement that First Data divest NYCE is a fully adequate remedy. Preventing the combination of STAR and NYCE maintains the competitive structure of the PIN debit network services market that existed at the time First Data and Concord decided to merge.

Ryco also appears to be concerned about the merger's potential impact on at least two other types of services, merchant processing and acquiring services for credit and debit card transactions. These concerns are not a proper focus for the Tunney Act proceeding because they were not the subject of the Complaint. The Complaint alleged that First Data's acquisition of Concord would reduce competition *only* in the PIN debit network services market. As explained, Tunney Act review may not "reach beyond the complaint to evaluate claims that the government did *not* make and to inquire as to why they were not made." *Microsoft*, 56 F.3d at 1459. See also *Archer-Daniels-Midland Co.*, 272 F. Supp. 2d at 6-7, 9 (rejecting argument that court should consider effects in markets other than those raised in the complaint); *United States v. Pearson PLC*, 55 F. Supp. 2d 43, 45 (D.D.C. 1999) (a court should not "base its public interest determination on antitrust concerns in markets other than those alleged in the government's complaint") (citation omitted). Therefore, Ryco's apparent concerns about the merger's impact on merchant processing and acquiring services provides no basis for the Court to reject the proposed Final Judgment.

III. Conclusion

The CIS and this Response of the United States to the public comments demonstrate that the proposed Final Judgment is in the public interest.

Accordingly, pursuant to Section 16(d) of the Tunney Act, after these comments and this Response are published in the **Federal Register**, the United States will move this Court to enter the Proposed Final Judgment.

Dated: May 7, 2004.

Respectfully submitted,

Joshua H. Soven,
Networks and Technology Section, Antitrust
Division, United States Department of
Justice, 600 E Street, NW., Suite 9500,

Citizens for Voluntary Trade

Better Living through Rational Thinking

April 7, 2004

Ms. Renata Hesse
Chief, Networks and Technology Section
U.S. Department of Justice, Antitrust Division
600 E Street, N.W., Suite 9500
Washington, DC 20530

Re: *Public comment in United States, et al. v. First Data Corp. and Concord EFS, Inc., et al. (D.D.C., Civil No. 03-CV-2169).*

Dear Ms. Hesse:

Citizens for Voluntary Trade (CVT), a Virginia corporation, respectfully submits the following public comment under the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b)-(h), in response to the *Federal Register* notice published by the United States on February 10, 2004, regarding the above-captioned case. CVT is a nonpartisan educational organization that analyzes the antitrust and competition laws from a pro-reason, pro-capitalism perspective. CVT regularly files public comments and *amicus curiae* briefs in antitrust judgments reached under the Tunney Act and the Federal Trade Commission Act. Neither CVT nor its officers or directors have a financial interest in the outcome of this case. CVT owns no subsidiaries and has no parent corporation.

CVT objects to entry of the Proposed Final Judgment. After reviewing the Competitive Impact Statement, the complaint, and the public versions of the parties' trial briefs, CVT concludes no rational individual would accept the plaintiff governments' position that PIN and signature-based debit networks constitute separate economic markets, nor would a properly-defined market exclude cash, checks, money orders, traveler's checks, and other forms of demand payment as reasonable alternatives to PIN-based debit cards. Had the plaintiff governments' properly defined the market, they would have concluded that the First Data-Concord merger posed no threat of monopolization or lessened competition. Accordingly, there is no identifiable public interest served by entering the Proposed Final Judgment.

Post Office Box 66

Arlington, Virginia 22210
www.voluntarytrade.org

871.242.1766

CVT recommends the district court reject entry of the Proposed Final Judgment under 15 U.S.C. §16(e) and dismiss the complaint sua sponte.

Respectfully Submitted,

S.M. Oliva
President
Citizens for Voluntary Trade

**Re: First Data/Concord Merger Litigation
Objection to Settlement and Permission to Complete Merger**

Dear Ms. Hesse:

We wish to object to your agreement to permit the merger between Concord EFS, Inc. and First Data, and we would like the opportunity to shed light on the overbearing anti-competitive behavior of Concord, and believe it is ill-advised to permit them to increase their market share by this merger, unless changes are made to improve customer service and delete unfair provisions from their form contracts. As we will show, Concord signs on merchants by unsupervised Ponzi-type marketers, then abuses its customers in ways that leave them without effective redress. Giving them the opportunity to do this on a grander scale is unconscionable, unless the government requires changes in Concord's form agreements.

Background: Our Client's Experience With Concord/EFS

Our client, Ryco, Ltd., d/b/a Hansen's Good to Go, an independent gas station convenience store located in Arizona, was solicited by one of Concord's sales representatives to contract with Concord for processing his customer's credit card charges. Ryco came to us early last year with a concern of how fees were being charged by the company, how his transactions were being routed once within Concord's network, and the level of control and supervision Concord maintained over its sales associates.

Concord/EFS virtually owns the market for servicing merchants' credit and debit card transactions. By its SEC corporate filings, Concord boasts that it controls the routing for 56% of all PIN-based debit transactions, and controls 64% of all ATM machines in the United States. Similar to the discredited long distance telephone slammers, Concord uses an army of independent, unsupervised contractor commission based solicitors to get small merchants to engage Concord to provide credit card servicing to their customers by promising network routing

KRISLOV & ASSOCIATES, LTD.

Renata B. Hesse
U.S. Department of Justice
March 01, 2004
Page 2

and low transaction charges to merchants, which Concord simply ignores. Concord's customer service to these merchants is worse than non-existent. Thus, when merchants call to take issue with double charges on their bills, and misrouted transactions through higher cost networks, their inquiries are simply ignored. After Concord failed to respond to numerous calls to its customer service, Ryco simply had no way to correct Concord's charges, other than to sue them.

Under Concord's form contracts, all disputes must be brought in Concord's Tennessee jurisdiction and the loser pays the winners' costs. The result of this was having to engage counsel in Tennessee, and suing in federal court. However, when the court dismissed the federal count and declined to exercise supplemental jurisdiction, rather than accept this small victory over the consumer, Concord then sued our client for fees, in effect, using the fee provision of the merchant contract as a threat against further litigation of the matter.

Unmoved by such truculent tactics, our client requested we continue our pursuit of what he believed to be a necessary fight against this company's dishonest and deceitful practices. As this Department understands, the issue of how a company routes charges and imposes fees, potentially a very costly unknown for unsavvy small merchants.

Amazingly, the federal judge signed onto Concord's coercive measures by ordering payment of nearly \$80,000 in fees to the Defendants. Unable to further pursue litigation with this additional burden, we were able to negotiate to drop all claims, for our payment of \$5,000 to Concord, demonstrating Concord's intent to preclude any consumer challenges.

We bring these matters to the Department's attention as demonstrative of the manner in which Concord treats its consumers, and their iron-fist approach to "customer service". Allowing this company to further grow, controlling what would amount to nearly half of the market for debit card transactions, would create an uncontrollable corporate machine, baiting and switching customer transactions all the way to their internally-controlled bank.

This merger must be prevented, and Concord forced to change its practices, rather than have those practices amplified through a larger share of the market. Accordingly, Concord/First Data should not be given this increased market share under current circumstances. We believe that the merger should not be approved without Concord agreeing to delete two provisions of its contract (deleting the provisions requiring suits to be brought in Concord's home district and the "loser pays" provision, unless changed to apply to ultimate victory), and upgrading its customer service.

Very truly yours,

Clinton A. Krislov

BILLING CODE 4410-11-C

DEPARTMENT OF LABOR**Office of the Secretary****Submission for OMB Review:
Comment Request**

May 7, 2004.

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation, may be obtained by contacting the Department of Labor (DOL). To obtain documentation, contact Darrin King on 202-693-4129 (this is not a toll-free number) or e-mail: king.darrin@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Mine Safety and Health Administration (MSHA), Office of Management and Budget, Room 10235, Washington, DC 20503, 202-395-7316 (this is not a toll-free number), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Mine Safety and Health Administration.

Type of Review: Extension of currently approved collection.

Title: Application for a Permit to Fire More than 20 Boreholes for the use of Nonpermissible Blasting Units, Explosive, and Shot-firing Units.

OMB Number: 1219-0025.

Frequency: On occasion.

Type of Response: Recordkeeping; Reporting; and Third party disclosure.
Affected Public: Business or other for-profit.

Number of Respondents: 48.

Number of Annual Responses: 105.

Estimated Time Per Response: 1 hour to prepare an application for a permit and 20 minutes to post a conspicuous warning notice at the entrance of an area affected by a misfire.

Total Burden Hours: 67.

Total Annualized capital/startup costs: \$0.

Total Annual Costs (operating/maintaining systems or purchasing services): \$588.

Description: Title 30 CFR 75.1321 outlines the procedures by which a permit may be issued for the firing of more than 20 boreholes and/or the use of nonpermissible shot-firing units in underground coal mines. In those instances in which there is a misfire of explosives, 30 CFR 75.1327 requires that a qualified person post each accessible entrance to the affected area with a warning to prohibit entry. Title 30 CFR 77.1909-1 outlines the procedures by which a coal mine operator may apply for a permit to use nonpermissible explosives and/or shot-firing units in the blasting of rock while sinking shafts or slopes for underground coal mines. These permits inform mine management and the miners of the steps to be employed to protect the safety of any person exposed to such blasting while using nonpermissible items. The posting of danger/warning signs at entrances to locations where an misfired blast hole or round remains indisposed is a safety precaution predating the Coal Mine Safety and Health Act.

Ira L. Mills,

Departmental Clearance Officer.

DEPARTMENT OF LABOR**Office of the Secretary****Submission for OMB Review:
Comment Request**

May 6, 2004.

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting

documentation, may be obtained by contacting the Department of Labor (DOL). To obtain documentation, contact Darrin King on 202-693-4129 (this is not a toll-free number) or e-mail: king.darrin@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Employment Standards Administration (ESA), Office of Management and Budget, Room 10235, Washington, DC 20503, 202-395-7316 (this is not a toll-free number), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Employment Standards Administration.

Type of Review: Extension of currently approved collection.

Title: Vehicle Mechanical Inspection Report for Transportation Subject to DOT Requirements; Subject to DOL Safety Standards.

OMB Number: 1215-0036.

Frequency: On occasion.

Type of Response: Reporting.

Affected Public: Business or other for-profit and Farms.

Number of Respondents: 1,020.

Number of Annual Responses: 3,060.

Estimated Time Per Response: 5 minutes.

Total Burden Hours: 255.

Total Annualized capital/startup costs: \$0.

Total Annual Costs (operating/maintaining systems or purchasing services): \$140,760.

Description: Section 401 of the Migrant and Seasonal Agricultural Worker Protection Act (MSPA) requires that farm labor contractors, agricultural employers, or agricultural associations

who use any vehicle to transport a migrant or seasonal agricultural worker, ensure that such vehicle conforms to vehicle State safety standards prescribed by MSPA and other applicable Federal and State safety standards. The use of forms WH-514 and WH-514a enable an applicant to verify to the Department or appropriate State agency that the vehicles used to transport such workers meet these safety standards. The WH-514 is used to verify that Department of Transportation safety standards are met for all vehicles other than passenger automobiles or station wagons, and the WH-514a is used to verify that Department of Labor safety standards are met for all vehicles including passenger automobiles or station wagons.

BILLING CODE 4510-27-P

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review: Comment Request

May 6, 2004.

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation, may be obtained by contacting the Department of Labor (DOL). To obtain documentation, contact Darrin King on 202-693-4129 (this is not a toll-free number) or e-mail: king.darrin@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Occupational Safety and Health Administration (OSHA), Office of Management and Budget, Room 10235, Washington, DC 20503, 202-395-7316 (this is not a toll-free number), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Occupational Safety and Health Administration.

Type of Review: Extension of currently approved collection.

Title: Asbestos in General Industry (29 CFR 1910.1001).

OMB Number: 1218-0133.

Frequency: On occasion.

Type of Response: Recordkeeping and Third party disclosure.

Affected Public: Business or other for-profit; Federal Government; and State, local, or tribal government.

Number of Respondents: 243.

Number of Annual Responses: 65,048.

Estimated Time Per Response: Varies from 5 minutes to maintain records to 1.5 hours for employees to receive training or medical evaluation.

Total Burden Hours: 23,849.

Total Annualized capital/startup costs: \$0.

Total Annual Costs (operating/maintaining systems or purchasing services): \$1,625,143.

Description: The basic purpose of the information collection requirements in 29 CFR 1910.1001 (the Standard) is to document that employers in general industry are providing their employees with protection from hazardous asbestos exposure. Asbestos exposure results in asbestosis, a scarring of the lung tissue; lung cancer; mesothelioma; and gastrointestinal cancer. The Standard permits employers, employees and their designated representatives, OSHA, and other specified parties to determine the effectiveness of an employer's asbestos-control program. Accordingly, the requirements ensure that employees exposed to asbestos receive all of the protection afforded by the Standard.

Ira L. Mills,

Departmental Clearance Officer.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Office of Disability Employment Policy

Solicitation of Nominations for the Secretary of Labor's New Freedom Initiative Award; Reopening and Extension of Period for Submission of Nominations

AGENCY: Office of Disability Employment Policy, U.S. Department of Labor.

ACTION: Reopening and Extension of period for submission of nominations.

SUMMARY: This document re-opens and extends the period for submission of nominations for the Secretary of Labor's New Freedom Initiative Award. This action is taken to permit increased participation by interested stakeholders.

DATES: Nomination packages must be submitted to the Office of Disability Employment Policy by May 28, 2004. Any application received after 4:45 p.m. e.d.s.t. on May 28, 2004 will not be considered unless it was received before the award is made and:

1. It was sent by registered or certified mail no later than the 3rd calendar day before May 28, 2004;

2. It is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the U.S. Department of Labor at the address indicated; or

3. It was sent by U.S. Postal Service Express Mail Next Day Service—Post Office to Addressee, not later than 5 p.m. at the place of mailing two (2) working days, excluding weekends and Federal holidays, prior to May 28, 2004.

The only acceptable evidence to establish the date of mailing of a late application sent by registered or certified mail is the U.S. Postal Service postmark on the envelope or wrapper and on the original receipt from the U.S. Postal Service. If the postmark is not legible, an application received after the above closing time and date will be processed as if mailed late. "Postmark" means a printed, stamped, or otherwise placed impression (not a postage meter machine impression) that is readily identifiable without further action as having been applied and affixed by an employee of the U.S. Postal Service on the date of mailing. Therefore, applicants should request that the postal clerk place a legible hand cancellation "bull's-eye" postmark on both the receipt and the envelope or wrapper.

The only acceptable evidence to establish the time of receipt at the U.S. Department of Labor is the date/time stamp of the Office of Disability Employment Policy on the application

wrapper or other documentary evidence or receipt maintained by that office.

Applications sent by other delivery services, such as Federal Express, UPS, etc., will also be accepted; however, the applicant bears the responsibility of timely submission.

ADDRESSES: Nomination packages must be submitted to the Office of Disability Employment Policy, 200 Constitution Avenue, NW., Room S-1303, Washington, DC 20210; Telephone 202 693-7880; TTY 202 693-7881.

FOR FURTHER INFORMATION CONTACT: Dina Dorich of the Office of Disability Employment Policy, telephone (202) 693-7880; TTY (202) 693-7881 (these are not toll-free numbers), prior to the closing deadline.

SUPPLEMENTARY INFORMATION: In the Federal Register of February 27, 2004 (69 FR 9504), the Office of Disability Employment Policy published a Solicitation of Nominations for the Secretary of Labor's New Freedom Initiative Award. Nomination packages were to be submitted to the Office of Disability Employment Policy by May 21, 2004.

Because of the continuing interest in this solicitation, the agency believes that it is desirable to re-open and extend the period for submission of nominations. Therefore, the period for submission of nominations is extended until May 28, 2004.

Signed at Washington, DC, this 10th day of May, 2004.

W. Roy Grizzard, Jr.,
Assistant Secretary, Office of Disability,
Employment Policy.

[FR Doc. 04-10962 Filed 5-13-04; 8:45 am]

BILLING CODE 4510-CX-P

DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Information Collection Request; Submitted for Public Comment and Recommendations; Trade Act Participant Report (TAPR)

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested

data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed revision of the collection of the Trade Act Participant Report (TAPR). (OMB Control No. 1205-0392)

DATES: Submit comments on or before July 13, 2004.

ADDRESSES: Submit comments to Erin FitzGerald, Program Analyst, Division of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, Room C-5311, 200 Constitution Ave., NW., Washington, DC 20210, telephone 202-693-3506 (this is not a toll-free number), FAX 202-693-3585, e-mail fitzgerald.erin@dol.gov.

FOR FURTHER INFORMATION CONTACT: Erin FitzGerald, Program Analyst, Division of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, Room C-5311, 200 Constitution Ave., NW., Washington, DC 20210, telephone 202-693-3506 (this is not a toll-free number) FAX 202-693-3585, e-mail fitzgerald.erin@dol.gov.

SUPPLEMENTARY INFORMATION:

I. *Background:* On June 16, 1998, the Office of Management and Budget (OMB) approved a GPRA-compliant performance and participant outcomes data system for the Division of Trade Adjustment Assistance (DTAA); this system was revised in 2000 and is now known as the Trade Act Participant Report (TAPR). States implemented the TAPR beginning with the first quarter of fiscal year 1999 (October through December, 1998), and have continued to collect and report data every quarter since then.

II. *Desired Focus of Comments:* Currently, the Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed above in the **ADDRESSES** section of this notice.

III. *Current Actions:* The Department of Labor is currently seeking to revise the TAPR with minimal changes that reflect expanded services implemented under the Trade Act of 2002. The Department intends to more substantially revise the collection of outcomes information later in the calendar year 2004 and incorporate the data collected on the TAPR into the common data collection system used to collect program data under the OMB common measures. The common data collection elements will be available for future public comment in 2004.

Type of Review: Revision.

Agency: Employment and Training Administration.

Title: Trade Act Participant Report (TAPR).

OMB Number: 1205-0392.

Affected Public: State governments.

Total Respondents: 50.

Average Time per Response: 47.5 hours per quarter.

Frequency: Quarterly.

Average Time per Response: 40 hours per week.

Estimated Total Burden Hours: 9,500.

Total Burden Cost (capital/startup): 0.

Total Burden Cost (operating/maintaining): \$325.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: May 7, 2004.

Emily Stover DeRocco,

Assistant Secretary, Employment and
Training Administration.

[FR Doc. 04-10963 Filed 5-13-04; 8:45 am]

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Employment Standards
Administration; Wage and Hour
DivisionMinimum Wages for Federal and
Federally Assisted Construction;
General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the *Federal Register*, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used

in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

Modification to General Wage
Determination Decisions

The number of the decisions listed to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume and State. Dates of publication in the *Federal Register* are in parentheses following the decisions being modified.

- General Wage Determination Publication**
- General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.
- General wage determinations issued under the Davis-Bacon and related Acts are available electronically at no cost on the Government Printing Office site at <http://www.access.gpo.gov/davisbacon>. They are also available electronically by subscription to the Davis-Bacon Online Service (<http://davisbacon.fedworld.gov>) of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068. This subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help Desk Support, etc.
- Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.
- When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate Volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.
- Signed at Washington, DC, this 10th Day of May, 2004.
- Terry Sullivan,**
Acting Chief, Branch of Construction Wage Determinations.

 BILLING CODE 4510-27-M
- DEPARTMENT OF LABOR**
- Occupational Safety and Health Administration**
- Maritime Advisory Committee for Occupational Safety and Health; Notice of Meeting**
- AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.
- ACTION:** Maritime Advisory Committee for Occupational Safety and Health (MACOSH); notice of meeting.
- SUMMARY:** The Maritime Advisory Committee for Occupational Safety and Health (MACOSH) was established to advise the Assistant Secretary of Labor for OSHA on issues relating to occupational safety and health in the maritime industries. The purpose of this

Federal Register notice is to announce the June 2004 meeting of the committee.

DATES: The committee will meet on June 30 through July 1, 2004. On June 29, the MACOSH work groups will meet from 8 a.m. until 5 p.m.; on June 30, the full committee will meet from 8:30 a.m. until 5 p.m.; on July 1, the full committee will meet from 8:30 a.m. until approximately 4:30 p.m.

ADDRESSES: The committee will meet at the Holiday Inn on the Hill, 415 New Jersey Avenue, NW., Washington, DC 20001; phone (202) 638-1616; fax: (202) 638-0707.

Mail comments, views, or statements in response to this notice to Jim Maddux, Director, Office of Maritime, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210; phone: (202) 693-2086; FAX: (202) 693-1663.

FOR FURTHER INFORMATION CONTACT: For general information about MACOSH and this meeting: Jim Maddux, Director, Office of Maritime, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210; phone: (202) 693-2086. For information about the submission of comments, and requests to speak: Vanessa L. Welch, Office of Maritime, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210; Phone: (202) 693-2086. Individuals with disabilities wishing to attend the meeting should contact Vanessa L. Welch at (202) 693-2086 no later than June 17, 2004 to obtain appropriate accommodations.

SUPPLEMENTARY INFORMATION: All MACOSH meetings are open to the public. All interested persons are invited to attend MACOSH at the times and places listed above. This meeting will include presentations and discussions of OSHA's standard and guidance activities (including the proposed standard for chromium VI), maritime enforcement, alliances and partnerships, outreach activities, OSHA's homeland security/emergency preparedness efforts, and MACOSH work group reports. MACOSH has formed five work groups to deal with health issues, container safety, traffic safety, outreach, and safety culture. Each workgroup will meet on June 29, following separate meetings for the shipyard and longshoring industries.

Public Participation: Written data, views or comments for consideration by MACOSH on the various agenda items listed above may be submitted to Vanessa Welch at the address listed above. Submissions received by June 17, 2004, will be provided to committee members and will be included in the

record of the meeting. Requests to make oral presentations to the Committee may be granted as time permits. Anyone wishing to make an oral presentation to the Committee on any of the agenda items listed above should notify Vanessa Welch by June 4, 2004. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation.

Authority: John L. Henshaw, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice under the authority granted by 6(b)(1) and 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655, 656) the Federal Advisory Committee Act (5 U.S.C. App. 2), and 29 CFR part 1912.

Signed at Washington, DC, this 11th day of May, 2004.

John L. Henshaw,

Assistant Secretary of Labor.

BILLING CODE 4510-26-M

OFFICE OF MANAGEMENT AND BUDGET

Office of Federal Procurement Policy

Determination of Executive Compensation Benchmark Amount Pursuant to Section 808 of Pub. L. 105-85

AGENCY: Office of Federal Procurement Policy, OMB.

ACTION: Notice.

SUMMARY: The Office of Management and Budget (OMB) is hereby publishing the attached memorandum to the heads of executive departments and agencies concerning the determination of the maximum "benchmark" compensation amount that will be allowable under government contracts during contractors' FY 2004—\$432,851. This determination is required to be made pursuant to Section 808 of Pub. L. 105-85. It applies equally to both defense and civilian procurement agencies.

FOR FURTHER INFORMATION CONTACT: Rein Abel, Office of Federal Procurement Policy, on (202) 395-3254.

Joshua B. Bolten,
Director.

Memorandum for the Heads of Executive Departments and Agencies

Subject: Determination of Executive Compensation Benchmark Amount Pursuant to Section 808 of Pub. L. 105-85.

This memorandum sets forth the "benchmark compensation amount" as required by Section 39 of the Office of Federal Procurement Policy (OFPP) Act (41

U.S.C. 435), as amended. Under Section 39, the "benchmark compensation amount" is "the median amount of the compensation provided for all senior executives of all benchmark corporations for the most recent year for which data is available." The "benchmark compensation amount" established as directed by Section 39 limits the allowability of compensation costs under government contracts. The "benchmark compensation amount" does not limit the compensation that an executive may otherwise receive.

Based on a review of commercially available surveys of executive compensation and after consultation with the Director of the Defense Contract Audit Agency, we have determined pursuant to the requirements of Section 39 that the benchmark compensation amount for contractor Fiscal Year 2004 is \$432,851. This benchmark compensation amount is to be used for contractor Fiscal Year 2004, and subsequent contractor fiscal years, unless and until revised by OMB. This benchmark compensation amount applies to contract costs incurred after January 1, 2004, under covered contracts of both the defense and civilian procurement agencies as specified in Section 808 of Pub. L. 105-85.

Questions concerning this memorandum may be addressed to Rein Abel, Office of Federal Procurement Policy, on (202) 395-3254.

Joshua B. Bolten,
Director.

BILLING CODE 3110-01-P

MILLENNIUM CHALLENGE CORPORATION

[FR 04-06]

Notice of Report on the Selection of Eligible Countries for FY 2004

AGENCY: Millennium Challenge Corporation.

SUMMARY: Section 608(d) of the Millennium Challenge Act of 2003, Pub. L. 108-199 (Division D) requires the Millennium Challenge Corporation to publish a report that lists the countries determined by the Board of Directors of the Corporation to be eligible for assistance for Fiscal Year 2004. The report is set forth below.

Report: The Act authorizes the provision of assistance to countries that enter into compacts with the United States to support policies and programs that advance the prospects of such countries to achieve lasting economic growth and poverty reduction. The Act requires the Millennium Challenge Corporation ("MCC") to take a number of steps to determine the countries that, based on their demonstrated commitment to just and democratic governance, economic freedom and investing in their people, will be eligible

to receive Millennium Challenge Account ("MCA") assistance during a fiscal year. These steps include the submission of reports to appropriate congressional committees and the publication of notices in the **Federal Register** that identify:

1. The "candidate countries" for MCA assistance (Section 608(a) of the Act);

2. The eligibility criteria and methodology that the MCC Board of Directors (the "Board") will use to select "eligible countries" from among the "candidate countries" (Section 608(b) of the Act); and

3. The countries determined by the Board to be "eligible countries" for a fiscal year, the countries on the list of eligible countries with which the Board will seek to enter into MCA "Compacts" and a justification for such decisions (Section 608(d) of the Act).

This is the third of the above-described reports. It identifies the countries determined by the Board to be eligible for MCA assistance in FY 2004 (other than under Section 616 of the Act) and those that the Board will seek to enter into MCA Compacts, and the justification for such decisions.

Eligible Countries

The MCC Board of Directors met on May 6, 2004, to select countries that will be eligible for FY 2004 MCA assistance (other than under Section 616 of the Act) and will be invited to submit proposals for such assistance. The Board determined the following countries eligible for FY 2004 assistance: Armenia, Benin, Bolivia, Cape Verde, Georgia, Ghana, Honduras, Lesotho, Madagascar, Mali, Mongolia, Mozambique, Nicaragua, Senegal, Sri Lanka, and Vanuatu.

In accordance with the Act and with MCC's "Criteria and Methodology for Determining the Eligibility of Candidate Countries for Millennium Challenge Account Assistance in FY 2004," submitted to the Congress on March 2, 2004, selection was based on a country's overall performance in relation to three broad policy categories: Ruling Justly, Encouraging Economic Freedom, and Investing in People. The Board relied on sixteen publicly available indicators to assess policy performance as the predominant basis for determining which countries would be eligible for assistance. Where appropriate, the Board also considered other data and quantitative information as well as qualitative information to determine whether a country performed satisfactorily in relation to its peers in a given category, including performance with respect to investing in their people, particularly women and children,

economic policies that promote private sector growth, the sustainable management of natural resources, and human and civil rights, including the rights of people with disabilities. The Board also considered whether any adjustments should be made for data gaps, lags, trends, or strengths or weaknesses in particular indicators.

The following countries were selected because (i) they performed above the median in relation to their peers on at least half of the indicators in each of the three policy categories, (ii) they performed above the median on corruption, (iii) they did not perform substantially below average on any indicator, and (iv) the supplemental information available to the Board supported their selection: Armenia, Benin, Ghana, Honduras, Madagascar, Mali, Mongolia, Nicaragua, Senegal, and Vanuatu.

Three of the countries performed above the median in relation to their peers on at least half of the indicators in each of the three policy categories and above the median on corruption, though they were substantially below average on one indicator: Cape Verde, Lesotho and Sri Lanka. The following is some of the information that was available to the Board in making its eligibility determinations that suggested that each of these countries was taking measures to address these shortcomings:

- Cape Verde—Although Cape Verde received a low score on the "Trade Policy" indicator, its score did not capture improvements resulting from a recent shift to a Value Added Tax that reduced Cape Verde's reliance on revenue from import tariffs. Cape Verde is also making good progress in its efforts toward World Trade Organization accession.

- Lesotho—Although Lesotho scores substantially below the median on the "Days to Start a Business" indicator, it recently established a one-stop shop to facilitate new business formation. It also performs very well overall in the "Economic Freedom" category and the other categories. Lesotho also performs well on other measures of starting a business; for example, it costs 68% of per capita income to start a business in Lesotho, versus a sub-Saharan Africa average of 256%, and Lesotho's minimum capital requirement for new businesses is only a tenth of the sub-Saharan average.

- Sri Lanka—Although Sri Lanka's score on the "Fiscal Policy" indicator falls substantially below the median, the deficit has declined each year since 2001, reflecting a positive trend over the past several years. Additionally, Sri Lanka's non-concessional borrowing in

2004 is expected to be less than half of the 2002 level.

Finally, three countries were determined by the Board to be eligible despite the fact that they (i) were not above the median in relation to their peers on at least half of the indicators in one of the three policy categories and/or (ii) were at or below the median on the corruption indicator. The Board made a positive eligibility determination on these countries in light of the notable actions taken by their governments and positive trends contained in supplemental information available to the Board. The following is some of the information that was available to the Board that suggested the policy performance of each of these countries was better than was reflected in the indicator data:

- Bolivia—Bolivia is right at the median on the "Corruption" indicator and is above the median on all of the other indicators in the "Ruling Justly" category; however, its current score on the "Corruption" indicator does not reflect changes made since President Mesa assumed power in October 2003. For instance, President Mesa has created a cabinet-level position to coordinate anti-corruption efforts as well as establishing an office to provide for the swift investigation of police corruption.

- Georgia—Although Georgia is at or below the median on more than half of the "Ruling Justly" categories, including the "Corruption" indicator, this data does not capture the substantial progress made by the newly elected Georgian government in only three months time. The Government of Georgia has, among other things, created an anti-corruption bureau, a new bureau to investigate and prosecute corruption cases, a single treasury account for all government revenue to ensure transparency and accountability, and has started revamping procurement legislation to ensure an open and competitive process.

- Mozambique—The trends and supplemental information that filled in data lags for Mozambique's "Investing in People" indicators demonstrated Mozambique's progress and achievement that were not reflected in the indicators. Primary education completion rates, for example, have been steadily rising in Mozambique, and this positive trend is backed by the fact that enrollment rates have increased to over 90% in 2000, from 60% in 1995. Girls' primary school enrollment rates increased by 60% between 1995 and 2000.

Although Mozambique scores above the median in four of the six "Ruling Justly" categories, it falls below the

median on the World Bank's anti-corruption indicator. However, certain indications suggest that this data is lagged and that Mozambique is making significant progress to fight corruption. Mozambique has passed new legislation to fight corruption and has created a special Anti-Corruption Unit that is conducting numerous investigations. These recent improvements on corruption are in fact reflected in another source—Transparency International's anti-corruption index—a more up-to-date indicator, in which it scored well above the median (74th percentile).

MCC will closely monitor the continued progress of these countries in these and other policy areas between the time of this report and the presentation to the Board of any proposed MCA Compact, and anticipates that continued performance and improvement in these areas will be part of the Compacts themselves.

Selection for Compact Negotiation

The Board also authorized the MCC to seek to negotiate an MCA Compact, as described in Section 609 of the Act, with each of the eligible countries identified above that develops a proposal that justifies beginning such negotiations. MCC will initiate the process by inviting eligible countries to submit program proposals to MCC. MCC has posted guidance on the MCC Web site (<http://www.mcc.gov>) regarding the development and submission of MCA program proposals, and will soon begin outreach visits to each of the eligible countries where this and related information on developing their proposals for MCA assistance will be discussed.

Submission of a proposal is not a guarantee that MCC will finalize a Compact with an eligible country. MCC will evaluate proposals and make funding decisions based on the potential for impacting economic growth and other considerations. The quality of the initial proposal—including how well the country has demonstrated the relationship between the proposed priority area(s) and economic growth and poverty reduction—will be a determining factor. An eligible country's commitment and capacity will also be a factor in determining how quickly MCC can begin substantive discussions with a country on a Compact and will likely influence the speed with which a Compact can be negotiated as well as the amount and timing of any MCA assistance approved by the Board.

Any MCA assistance (other than certain types of technical assistance or assistance provided under Section 616

of the Act) will be contingent on the successful negotiation of a mutually agreeable Compact between the eligible country and MCC, and approval of the Compact by the Board.

Dated: May 11, 2004.

Paul V. Applegarth,
Chief Executive Officer, Millennium
Challenge Corporation.

BILLING CODE 9210-01-P

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR Part 35, Medical Use of Byproduct Material.

2. *Current OMB approval number:* 3150-0010.

3. *How often the collection is required:* Reports of medical events, doses to an embryo/fetus or nursing child, or leaking sources are reportable on occurrence. A certifying entity desiring to be recognized by the NRC must submit a one-time request for recognition.

4. *Who is required or asked to report:* Physicians and medical institutions holding an NRC license authorizing the administration of byproduct material or radiation therefrom to humans for medical use.

5. *The estimated number of annual responses:* 242,030 (51,309 responses from NRC licensees + 1,759 recordkeepers and 184,686 responses from Agreement State licensees + 6,332 recordkeepers). Also 23 specialty certification boards are expected to request recognition under the proposed revision of Part 35 (amendment of 10 CFR Part 35, "Medical Use of Byproduct Material—Recognition of Specialty Boards").

6. *The estimated number of annual respondents:* 8,091 (1,759 NRC licensees and 6,332 Agreement State licensees).

7. *An estimate of the number of hours needed annually to complete the requirement or request:* 1,113,217 hours (242,030 hours for NRC licensees and 871,059 hours for Agreement State licensees [an average of 138 hours per licensee] and an additional one-time burden of 128 hours for certifying boards).

8. *Abstract:* 10 CFR Part 35, "Medical Use of Byproduct Material," contains NRC's requirements and provisions for the medical use of byproduct material and for issuance of specific licenses authorizing the medical use of this material. These requirements and provisions provide for the radiation safety of workers, the general public, patients, and human research subjects. 10 CFR part 35 contains mandatory requirements that apply to NRC licensees authorized to administer byproduct material or radiation therefrom to humans for medical use.

The information in the required reports and records is used by the NRC to ensure that public health and safety is protected, and that the possession and use of byproduct material is in compliance with the license and regulatory requirements.

Submit, by July 13, 2004, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton (T-5 F-52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-7233, or by Internet electronic mail to INFCOLLECTS@NRC.GOV.

Dated at Rockville, Maryland, this 10th day of May 2004.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Notice of Public Meeting of the Interagency Steering Committee on Radiation Standards

AGENCIES: U.S. Nuclear Regulatory Commission and U.S. Environmental Protection Agency.

ACTION: Notice of public meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) will host a meeting of the Interagency Steering Committee on Radiation Standards (ISCORS) on June 17, 2004, in Rockville, Maryland. The purpose of ISCORS is to foster early resolution and coordination of regulatory issues associated with radiation standards. Agencies represented as members of ISCORS include the following: NRC; U.S. Environmental Protection Agency; U.S. Department of Energy; U.S. Department of Defense; U.S. Department of Transportation; the Occupational Safety and Health Administration of the U.S. Department of Labor; and the U.S. Department of Health and Human Services. ISCORS meeting observer agencies include the Office of Science and Technology Policy, Office of Management and Budget, Defense Nuclear Facilities Safety Board, as well as representatives from both the States of Illinois and Pennsylvania. ISCORS maintains several objectives: (1) Facilitate a consensus on allowable levels of radiation risk to the public and workers; (2) promote consistent and scientifically sound risk assessment and risk management approaches in setting and implementing standards for occupational and public protection from ionizing radiation; (3) promote completeness and coherence of Federal standards for radiation protection; and (4) identify interagency radiation protection issues and coordinate their resolution. ISCORS meetings include presentations by the chairs of the subcommittees and discussions of current radiation protection issues. Committee meetings normally involve pre-decisional intra-governmental discussions and, as such, are normally not open for observation by members of the public or media. One of the four ISCORS meetings each year is open to all interested members of the public.

There will be time on the agenda for members of the public to provide comments. Summaries of previous ISCORS meetings are available at the ISCORS Web site, www.iscorg.org. The final agenda for the June 2004 meeting will be posted on the web site shortly before the meeting.

DATES: The meeting will be held from 1 p.m. to 4 p.m. on Thursday, June 17, 2004.

ADDRESSES: The meeting will be held in the NRC auditorium, at Two White Flint North, 11545 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION, CONTACT: Susanne Woods, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-7267; FAX (301) 415-5398; electronic mail SRW@NRC.GOV.

SUPPLEMENTARY INFORMATION: Visitor parking around the NRC building is limited; however, the NRC auditorium is located adjacent to the White Flint Metro Station on the Red Line.

Dated at Rockville, MD, this 6th day of May, 2004.

For the Nuclear Regulatory Commission.

Scott Flanders,

Deputy Director, Environmental and Performance Assessment Directorate, Division of Waste Management and Environmental Performance, Office of Nuclear Materials Safety and Safeguards.

BILLING CODE 7590-01-P

OFFICE OF MANAGEMENT AND BUDGET

Performance of Commercial Activities

AGENCY: Office of Management and Budget (OMB); Executive Office of the President.

ACTION: Update to Federal Pay Raise Assumptions and Inflation Factors Used in OMB Circular No. A-76, "Performance of Commercial Activities."

SUMMARY: OMB is updating the annual federal pay raise assumptions and inflation factors used for computing the government's in-house personnel and non-pay costs in public-private competitions conducted pursuant to Office of Management and Budget (OMB) Circular A-76. These annual pay raise assumptions and inflation factors are based on the President's Budget for Fiscal Year 2005.

DATES: *Effective date:* These changes are effective immediately and shall apply to all OMB Circular A-76 competitions in

process where the government's in-house cost estimate has not been publicly revealed before this date.

FOR FURTHER INFORMATION CONTACT: Mathew Blum, Office of Federal Procurement Policy (OFPP), NEOB, Room 9013, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Tel. No. 202-395-4953.

Availability: Copies of OMB Circular A-76 may be obtained on the Internet at the OMB home page at www.whitehouse.gov/omb/circulars/index.html#numerical. Paper copies of the Circular may be obtained by calling OFPP (tel: (202) 395-7579).

Joshua B. Bolten,

Director.

Memorandum for the Heads of Executive Departments and Agencies

From: Joshua B. Bolten, Director.

Subject: Update of Annual Federal Pay Raise Assumptions and Certain Inflation Factors Used in OMB Circular A-76, Performance of Commercial Activities.

This memorandum updates the annual federal pay raise assumptions and inflation factors used for computing the government's in-house personnel and non-pay costs in public-private competitions conducted pursuant to Office of Management and Budget (OMB) Circular A-76. These annual pay raise assumptions and inflation factors are based on the President's Budget for Fiscal Year 2005.

The non-pay inflation factors are for purposes of Circular A-76 competitions only. They reflect the generic non-pay inflation assumptions used to develop the fiscal year 2005 budget baseline estimates required by law. The law requires that a specific inflation factor (GDP FY/FY chained price index) be used for this purpose. These inflation factors should not be viewed as estimates of expected inflation rates for major long-term procurement items or as an estimate of inflation for any particular agency's non-pay purchases mix.

FEDERAL PAY RAISE ASSUMPTIONS*

Effective date	Civilian (percent)	Military (percent)
January 2004	4.1	4.15
January 2005	1.5	3.5

* Pay raise assumptions have not been established for pay raises subsequent to January 2005. For January 2006 and beyond, the projected percentage change in the Employment Cost Index (ECI), 4 percent, should be used to estimate in-house personnel costs for A-76 competitions. In future updates to A-76 guidance, as pay policy for years subsequent to 2005 is established, these pay raise assumptions will be revised.

NON-PAY CATEGORIES (SUPPLIES AND EQUIPMENT, ETC.)

	(percent)
FY 2004	1.3
FY 2005	1.3
FY 2006	1.5
FY 2007	1.7
FY 2008	1.9
FY 2009	*2.0

* Any subsequent years included in the period of performance and cost comparison shall continue to use the 2.0% figure, until otherwise revised by OMB.

The pay rates (including geographic pay differentials) that are in effect for 2004 shall be included for the development of in-house personnel costs. The pay raise factors provided for 2005 and beyond shall be applied to all employees, with no assumption being made as to how they will be distributed between possible locality and base pay increases.

BILLING CODE 3110-01-P

PENSION BENEFIT GUARANTY CORPORATION

Required Interest Rate Assumption for Determining Variable-Rate Premium; Interest Assumptions for Multiemployer Plan Valuations Following Mass Withdrawal

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of interest rates and assumptions.

SUMMARY: This notice informs the public of the interest rates and assumptions to be used under certain Pension Benefit Guaranty Corporation regulations. These rates and assumptions are published elsewhere (or can be derived from rates published elsewhere); but are collected and published in this notice for the convenience of the public. Interest rates are also published on the PBGC's Web site (<http://www.pbgc.gov>).

DATES: The required interest rate for determining the variable-rate premium under part 4006 applies to premium payment years beginning in May 2004. The interest assumptions for performing multiemployer plan valuations following mass withdrawal under part 4281 apply to valuation dates occurring in June 2004.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (TTY/TDD users

may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION:

Variable-Rate Premiums

Section 4006(a)(3)(E)(iii)(II) of the Employee Retirement Income Security Act of 1974 (ERISA) and § 4006.4(b)(1) of the PBGC's regulation on Premium Rates (29 CFR part 4006) prescribe use of an assumed interest rate (the "required interest rate") in determining a single-employer plan's variable-rate premium. Pursuant to the Pension Funding Equity Act of 2004, for premium payment years beginning in 2004 or 2005, the required interest rate is the "applicable percentage" (currently 85 percent) of the annual rate of interest determined by the Secretary of the Treasury on amounts invested conservatively in long-term investment grade corporate bonds for the month preceding the beginning of the plan year for which premiums are being paid. Thus, the required interest rate to be used in determining variable-rate premiums for premium payment years beginning in May 2004 is 4.98 percent (i.e., 85 percent of the 5.86 percent composite corporate bond rate for April 2004 as determined by the Treasury).

The following table lists the required interest rates to be used in determining variable-rate premiums for premium payment years beginning between June 2003 and May 2004. Note that the required interest rates for premium payment years beginning in June through December 2003 were determined under the Job Creation and Worker Assistance Act of 2002, and that the required interest rates for premium payment years beginning in January through May 2004 were determined under the Pension Funding Equity Act of 2004.

For premium payment years beginning in:	The required interest rate is:
June 2003*	4.53
July 2003*	4.37
August 2003*	4.93
September 2003*	5.31
October 2003*	5.14
November 2003*	5.16
December 2003*	5.12
January 2004**	4.94
February 2004**	4.83
March 2004**	4.79
April 2004**	4.62
May 2004**	4.98

* The required interest rates for premium payment years beginning in June through December 2003 were determined under the Job Creation and Worker Assistance Act of 2002.

** The required interest rates for premium payment years beginning in January through May 2004 were determined under the Pension Funding Equity Act of 2004.

Multiemployer Plan Valuations Following Mass Withdrawal

The PBGC's regulation on Duties of Plan Sponsor Following Mass Withdrawal (29 CFR part 4281) prescribes the use of interest assumptions under the PBGC's regulation on Allocation of Assets in Single-Employer Plans (29 CFR part 4044). The interest assumptions applicable to valuation dates in June 2004 under part 4044 are contained in an amendment to part 4044 published elsewhere in today's *Federal Register*. Tables showing the assumptions applicable to prior periods are codified in appendix B to 29 CFR part 4044.

Issued in Washington, DC, on this 11th day of May 2004.

Joseph H. Grant,

Deputy Executive Director and Chief Operating Officer, Pension Benefit Guaranty Corporation.

BILLING CODE 7708-01-P

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 26446; 812-13051]

J.P. Morgan Investment Management Inc., et al., Notice of Application

May 10, 2004.

AGENCY: Securities and Exchange Commission ("SEC" or "Commission").

ACTION: Notice of application for an order under sections 6(c) and 17(b) of the Investment Company Act of 1940 (the "Act") for an exemption from section 17(a) of the Act.

Applicants: J.P. Morgan Investment Management, Inc., ("JPMIM"), any other existing or future registered investment adviser which acts as investment adviser or subadviser to a Money Market Fund (defined below) and which controls, is controlled by, or is under common control (as defined in section 2(a)(9) of the Act) with J.P. Morgan Chase & Co. ("JPM") ("Future Advisers"),¹ J.P. Morgan Securities Inc. ("JPM SI"), J.P. Morgan Mutual Fund Trust ("JPM MFT"), all existing and

¹ JPMIM and the Future Advisers are referred to collectively in this notice as the Advisers. Any Adviser that currently intends to rely on the requested order is named as an applicant in this application. Any other Adviser that relies on the order in the future will comply with the terms and conditions of this application.

future series of JPMMFT which are money market funds subject to rule 2a-7 under the Act, and any existing or future registered investment companies and their series which are money market funds subject to rule 2a-7 under the Act, that are advised or subadvised by the Advisers.²

Summary of Application: Applicants request an order to permit the Money Market Funds to engage in principal transactions in tax-exempt money market instruments with JPMSI.

Filing Dates: The application was filed on December 17, 2003, and amended on April 27, 2004.

Hearing or Notification of Hearing: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on June 7, 2004, and should be accompanied by proof of service on the applicants; in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the Commission's Secretary.

ADDRESSES: Secretary, Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Applicants: c/o Philip von Turk, Esq., JPMorgan Chase Bank, Legal Department, 345 Park Avenue, 5th Floor, New York, NY 10154-1002; and Robert B. Adams, Esq. and Merrill B. Stone, Esq., Kelley Drye & Warren LLP, 101 Park Avenue, New York, NY 10178.

FOR FURTHER INFORMATION CONTACT: Bruce R. MacNeil, Senior Counsel, (202) 942-0634 or Janet M. Grossnickle, Branch Chief, (202) 942-0564 (Office of Investment Company Regulation, Division of Investment Management).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the

Commission's Public Reference Branch, 450 Fifth Street, NW., Washington, DC 20549-0102 (tel. 202-942-8090).

Applicants' Representations

1. JPMMFT is an open-end management investment company registered under the Act and is organized as a business trust under the laws of the Commonwealth of Massachusetts. Certain series of JPMMFT are Money Market Funds which are authorized to invest in Municipal Instruments.³ "Municipal Instruments" are short-term tax-exempt money market securities, including tax-exempt securities that qualify for purchase by a money market fund under rule 2a-7 under the Act due to the existence of a floating rate of interest or a demand feature.

2. JPMM, a Delaware corporation, is a wholly owned subsidiary of JPM, a bank holding company and a Delaware corporation. JPMM is registered as an investment adviser under the Investment Advisers Act of 1940. Currently, each Money Market Fund has an investment advisory agreement with JPMM under which JPMM provides investment advisory and management services.

3. JPMSI is a wholly-owned subsidiary of JPM and is registered as a broker-dealer under the Securities Exchange Act of 1934 (the "1934 Act"). JPMSI, a primary dealer in U.S. Government securities, is one of the largest dealers in money market instruments, including Municipal Instruments, in the United States.

4. Applicants state that the Advisers and JPMSI are functionally independent of each other. JPMSI and the Advisers operate as completely separate entities under the umbrella of JPM, the parent holding company. While JPMSI and the Advisers are under common control, each entity has its own separate directors, officers and employees, is separately capitalized, maintains its own separate books and records and operates on different sides of walls of separation with respect to the Money

Market Funds and Municipal Securities. The Advisers also maintain offices physically separate from JPMSI.

5. Investment decisions for the Money Market Funds are determined solely by the Advisers. The portfolio managers and other employees that are responsible for the investment of the Money Market Funds are employed solely by one of the Advisers (and not JPMSI), and have lines of reporting responsibility solely within the Advisers. The compensation of personnel assigned to an Adviser will not depend on the volume or nature of trades with JPMSI, except to the extent that such trades may affect the profits and losses of JPM and its subsidiaries as a whole.

6. Municipal Instruments are commonly referred to as "tax-exempt money market instruments" and are traded in the "tax-exempt money market." Applicants state that the tax-exempt money market is generally characterized by: (a) Obligors or guarantors having high credit ratings and, accordingly, relatively low risk of principal losses due to credit events; (b) trading in over-the-counter markets, consisting of dealer firms that are primarily major securities firms or large banks; (c) trading costs to the portfolio primarily consisting of dealer or underwriter spreads, typically not greater than 12.5 basis points (0.125%), but subject to variations based on the type of instrument or the occurrence of turbulent market conditions; (d) an elaborate telephone communication network to match buyers with sellers, which generally precludes being able to obtain a single market price for a given instrument at any given time; and (e) varying price, volatility, liquidity and availability for each type of instrument within the market.

7. Applicants state that recent growth in tax-exempt money market fund assets and withdrawals by several major dealers from making markets in Municipal Instruments have contributed to the limited availability of Municipal Instruments to money market funds that are authorized to purchase Municipal Instruments. Applicants assert that, over the past few years, the growth in money market funds that purchase Municipal Instruments has substantially outpaced the growth in Municipal Instruments.

8. Applicants state that JPMSI has remained committed to the tax-exempt market, and has moved to fill the void left by departing dealers. As the number of dealers with which the Money Market Funds can transact business has decreased, it has become even more important for the Money Market Funds to have meaningful access to all of the

² All existing or future series of JPMMFT which are money market funds subject to rule 2a-7 under the Act and are authorized to invest in Municipal Instruments (as defined below) and any existing or future registered investment companies and their series which are money market funds subject to rule 2a-7 under the Act and which are authorized to invest in Municipal Instruments and which are advised or subadvised by the Advisers are referred to collectively in this notice as the "Money Market Funds." Any Money Market Fund that currently intends to rely on the requested order is named as an applicant in this application. Any other Money Market Fund that relies on the order in the future will comply with the terms and conditions of this application.

³ The current Money Market Funds of JPMMFT are J.P. Morgan Liquid Assets Money Market Fund, J.P. Morgan California Tax Free Money Market Fund, J.P. Morgan New York Tax Free Money Market Fund, J.P. Morgan Prime Money Mark Fund and J.P. Morgan Tax Free Money Market Fund. In 2002, a Commission order was issued permitting certain of the Money Market Funds to engage in principal transactions in taxable money market instruments with JPMSI. *J.P. Morgan Fleming Asset Management (USA), Inc., et al., Investment Company Act Release Nos. 25574 (May 15, 2002) (notice) and 25608 (June 11, 2002) (order)*. While the Money Market Funds which are not tax-exempt funds generally do not invest in Municipal Instruments, each has the investment flexibility to do so under its investment objectives and policies.

major dealers in Municipal Instruments in order to diversify each Money Market Fund's investments, to maintain portfolio liquidity, and to increase opportunities for obtaining best price and execution with respect to portfolio trades.

9. Applicants state that Municipal Instruments include conventional municipal notes ("conventional notes"), tax-exempt commercial paper, and variable rate demand notes. Applicants state that there is no comprehensive information published as to the dollar amount and volume of secondary market transactions executed in Municipal Instruments. However, JPMSI believes that it is generally one of the top five secondary market dealers in Municipal Instruments. Based upon JPMSI estimates, JPMSI was responsible for 12.8% of the trading volume in variable rate demand notes and tax-exempt commercial paper among JPMSI and nine other leading dealers as of October, 2003. This estimate includes 12.2% of the trading volume of variable rate demand notes and 14.7% of tax-exempt commercial paper. In addition, JPMSI estimates that its market share in 2002 for Municipal Instruments in the new issue market included 6.4% of conventional notes, 14% of tax-exempt commercial paper and 12% of variable rate demand notes.

10. Subject to the general supervision of the trustees of JPMMFT (collectively, the "Trustees"), the Advisers are responsible for making investment decisions and for the placement of portfolio transactions. The Money Market Funds have no obligation to deal with any dealer or group of dealers in the execution of their portfolio transactions. When placing orders, an Adviser must attempt to obtain the best net price and the most favorable execution of its orders. In doing so, it takes into account such factors as price, the size, type and difficulty of the transaction involved and the dealer's general execution and operational facilities.

Applicants' Legal Analysis

1. Applicants request an order pursuant to sections 6(c) and 17(b) of the Act exempting certain transactions from the provisions of section 17(a) of the Act to permit JPMSI, acting as principal, to sell to or purchase from the Money Market Funds Municipal Instruments, subject to the conditions set forth below.

2. Section 17(a) of the Act generally prohibits an affiliated person or principal underwriter of a registered investment company, or any affiliated person of that person, acting as

principal, from selling to or purchasing from the registered company, or any company controlled by the registered company, any security or other property. Because an Adviser is an affiliated person of the Money Market Funds it advises and JPMSI and the Advisers are under common control, the Money Market Funds are currently prohibited from conducting portfolio transactions with JPMSI in transactions in which JPMSI acts as principal.

3. Section 17(b) of the Act provides that the Commission, upon application, may exempt a transaction from the provisions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair, and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of the registered investment company concerned and with the general purposes of the Act. Section 6(c) provides that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

4. Applicants contend that the rationale for the proposed order is based upon the decreased liquidity in the money market in Municipal Instruments, the major role played in the tax-exempt money market by JPMSI and the special requirements of the Money Market Funds with respect to their portfolio transactions. In particular applicants note the following:

a. With over \$14 billion invested in Municipal Instruments, the Money Market Funds are major buyers and sellers in the tax-exempt money market with a strong need for access to large quantities of high quality Municipal Instruments. The applicants believe that access to such a significant dealer as JPMSI in this market increases the Money Market Funds' ability to obtain suitable portfolio securities.

b. The fact that the Money Market Funds regularly invest in securities with short maturities, combined with the active portfolio management techniques employed by the Advisers often results in high portfolio activity and the need to make numerous purchases and sales of securities and instruments. This high portfolio activity emphasizes the

importance of increasing opportunities to obtain suitable portfolio securities and best price and execution.

c. The tax-exempt money market is highly competitive, and maintaining a dealer as prominent as JPMSI in the pool of dealers with which the Money Market Funds could conduct principal transactions may provide the Money Market Funds with opportunities to purchase and sell Municipal Instruments, including those not available from other sources.

d. JPMSI is such a major factor in the tax-exempt money market that being unable to deal directly with JPMSI may indirectly deprive the Money Market Funds of obtaining best price and execution even when the Money Market Funds trade with unaffiliated dealers.

5. Applicants believe that the requested order will benefit the investors of each Money Market Fund by providing the Money Market Funds with more complete access to Municipal Instruments which is needed to ensure the availability of suitable portfolio securities at the best price and execution. Applicants believe that the conditions below and procedures to be followed with respect to principal transactions between the Money Market Funds and the Advisers with JPMSI are designed to ensure that the terms of such transactions will be, in all instances, reasonable and fair, will not involve overreaching on the part of any person concerned, and would eliminate the possibility of abuses. Applicants further submit that the requested exemption is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants' Conditions

Applicants agree that any order granting the requested relief will be subject to the following conditions:

1. The exemption shall be applicable to principal transactions in the secondary market and primary or secondary fixed price dealer offerings not made pursuant to underwriting syndicates. Principal purchase or sale transactions will be conducted only in Municipal Instruments that are First Tier Securities as defined in rule 2a-7(a)(12)(i) under the Act.

Notwithstanding the foregoing, if a Money Market Fund purchases a Municipal Instrument meeting the above requirements from JPMSI and, subsequent to such purchase the security becomes no longer an "Eligible Security," the Money Market Fund may sell the security to JPMSI in a manner consistent with the requirements of rule

2a-7(c)(6)(i)(B). The exemption shall not apply to any purchase or sale of any security issued by JPM or any affiliated person thereof or to any security subject to a Demand Feature or Guarantee, as defined in rule 2a-7, issued by JPM or any affiliated person thereof. For purposes of this requirement, JPM will not be considered to be the issuer of a Demand Feature or Guarantee solely by reason of the fact that JPM or an affiliate thereof serves as a remarketing agent for a Municipal Instrument.

2. A determination will be made with respect to each principal transaction conducted by a Money Market Fund pursuant to the order, based upon the information reasonably available to the Money Market Funds and the Advisers, that the price available from JPMSI is at least as favorable to the Money Market Fund as the prices obtained from two other dealer bids in connection with securities falling within the same category of instrument, quality and maturity (but not necessarily the identical security or issuer) ("price test"). In the case of variable rate demand notes, for which dealer bids are not ordinarily available, the Money Market Funds will only undertake purchases and sales where the rate of interest to be earned from the variable rate demand note is at least equal to that of variable rate demand notes of comparable quality that are available from other dealers. Neither JPM nor any other affiliate thereof (other than the Advisers) will have any involvement with respect to proposed transactions between the Money Market Funds and the Advisers and, except to the extent set forth in condition 6(d) below, will not attempt to influence or control in any way the placing by the Money Market Funds or the Advisers of orders with JPMSI.

3. Before any principal transaction may be conducted pursuant to the order, the Money Market Funds or the Advisers must obtain such information as they deem reasonably necessary to determine that the price test has been satisfied. In the case of each purchase or sale transaction, the Money Market Funds or the Advisers must make and document a good faith determination with respect to compliance with the price test based on current price information obtained through the contemporaneous solicitation of bona fide offers in connection with securities falling within the same category of instrument, quality and maturity (but not necessarily the identical security or issuer). With respect to variable rate demand notes, contemporaneous solicitation of a bona fide offer will be construed to mean any bona fide offer

solicited during the same trading day. With respect to prospective purchases of securities by a Money Market Fund, the dealer firms from which prices are solicited must be those who have securities of the same categories and the type desired in their inventories and who are in a position to quote favorable prices with respect thereto. With respect to the prospective sale of securities by a Money Market Fund, these dealer firms must be those who, in the experience of the Money Market Funds and the Advisers, are in a position to quote favorable prices.

4. Principal transactions conducted by a Money Market Fund pursuant to the order shall be limited to no more than an aggregate of 20% of the purchases and 20% of the sales of Municipal Instruments conducted by that Money Market Fund. These calculations shall be measured on an annual basis and shall be computed with respect to the dollar volume thereof. For the purposes of these calculations, purchases of Municipal Instruments by a Money Market Fund shall also count towards the 25% cumulative limitation for purchases or sales set forth in condition 3 of J.P. Morgan Fleming Asset Management (USA), Inc., Investment Company Act Release No. 25574 (May 11, 2002).

5. JPMSI's dealer spread regarding any transaction with the Money Market Funds will be no greater than its customary dealer spread on similar transactions (with unaffiliated parties) of a similar size during a comparable time period. Its customary dealer spread also will be consistent with the average or standard spread charged by dealers in money market securities of a similar type and transaction size.

6. The Advisers, on the one hand, and JPMSI, on the other, will operate on different sides of appropriate walls of separation with respect to the Money Market Funds and Municipal Instruments. The walls of separation will include all of the following characteristics, and such others as may from time to time be considered reasonable by JPMSI and the Advisers to facilitate the factual independence of the Advisers from JPMSI:

a. Each of the Advisers will maintain offices physically separate from those of JPMSI.

b. The compensation of persons assigned to any of the Advisers (i.e., executive, administrative or investment personnel) will not depend on the volume or nature of trades effected by the Advisers for the Money Market Funds with JPMSI under the exemption, except to the extent that such trades

may affect the profits and losses of JPM and its subsidiaries as a whole.

c. JPMSI will not compensate the Advisers from its profits or losses on such specific transactions with any of the Advisers, provided that the allocation of the profits by JPM to its shareholders and the determination of general firm-wide compensation of officers and employees, will be unaffected by this undertaking.

d. Personnel assigned to the Advisers' investment advisory operations on behalf of the Money Market Funds will be exclusively devoted to the business and affairs of one or more of the Advisers. Personnel assigned to JPMSI will not participate in the decision-making process for or otherwise seek to influence the Advisers other than in the normal course of sales and dealer activities of the same nature as are simultaneously being carried out with respect to nonaffiliated institutional clients. Each Adviser, on the one hand, and JPMSI, on the other hand, may nonetheless maintain affiliations other than with respect to the Money Market Funds, as follows:

i. Adviser personnel may rely on research, including credit analysis and reports prepared internally by various subsidiaries and divisions of JPMSI.

ii. Certain senior executives of JPM with responsibility for overseeing operations of various divisions, subsidiaries and affiliates of JPM are not precluded from exercising those functions over the Advisers because they oversee JPMSI as well, provided that such persons shall not have any involvement with respect to proposed transactions pursuant to the exemption and will not in any way attempt to influence or control the placing by the Money Market Funds or any Adviser of orders in respect of Municipal Instruments with JPMSI.

7. The Money Market Funds and the Advisers will maintain such records with respect to those transactions conducted pursuant to the exemption as may be necessary to confirm compliance with the conditions to the requested relief. To this end, each Money Market Fund shall maintain the following:

a. An itemized daily record of all purchases and sales of securities pursuant to the exemption, showing for each transaction the following: (i) The name and quantity of securities; (ii) the unit purchase or sale price; and (iii) the time and date of the transaction. For each transaction (other than variable rate demand notes), these records shall document two quotations received from other dealers for securities falling within the same category of instrument, quality and maturity; including the

following: (i) The names of the dealers; (ii) the names of the securities; (iii) the prices quoted; and (iv) the times and dates the quotations were received. In the case of variable rate demand notes, the same records shall be maintained except that the rates of return quoted will be substituted for the prices quoted.

b. Records sufficient to verify compliance with the volume limitations contained in condition (4) above. JPMSI will provide the Money Market Funds with all records and information necessary to implement this requirement.

The records required by this condition (7) will be maintained and preserved in the same manner as records required under rule 31a-1(b)(1) under the Act.

8. The legal and compliance departments of JPMSI and the Advisers will prepare and administer guidelines for personnel of JPMSI and the Advisers to make certain that transactions conducted pursuant to the order comply with the conditions set forth in the order and that the parties generally maintain arm's-length relationships. In the training of JPMSI's personnel, particular emphasis will be placed upon the fact that the Money Market Funds are to receive rates as favorable as other institutional purchasers buying the same quantities. The legal and compliance departments will periodically monitor the activities of JPMSI and the Advisers to make certain that the conditions set forth in the order are adhered to.

9. The Trustees who are not "interested persons," as defined in section 2(a)(19) of the Act ("Independent Trustees"), will approve, periodically review, and update as necessary, guidelines for the Money Market Funds and the Advisers that are reasonably designed to make certain that the transactions conducted pursuant to the exemption comply with the conditions set forth therein and that the above procedures are followed in all respects. The Independent Trustees will periodically monitor the activities of the Money Market Funds and the Advisers in this regard to ensure that these goals are being accomplished.

10. The Trustees, including a majority of the Independent Trustees, will have approved each Money Market Fund's participation in transactions conducted pursuant to the exemption and determined that such participation by the Money Market Fund is in the best interests of the Money Market Fund and its shareholders. The minutes of the meeting of the Trustees at which this approval was given must reflect in detail the reasons for the Trustees'

determination. The Trustees will review no less frequently than annually each Money Market Fund's participation in transactions conducted pursuant to the exemption during the prior year and determine whether the Money Market Fund's participation in such transactions continues to be in the best interests of the Money Market Fund and its shareholders. Such review will include (but not be limited to) (a) a comparison of the volume of transactions in each type of security conducted pursuant to the exemption to the market presence of JPMSI in the market for that type of security, which market data may be based on good faith estimates to the extent that current formal data is not reasonably available, and (b) a determination that the Money Market Funds are maintaining appropriate trading relationships with other sources for each type of security, to ensure that there are appropriate sources for the quotations required by condition 3. The minutes of the meetings of the Trustees at which these determinations are made will reflect in detail the reasons for the Trustees' determinations.

11. A majority of Trustees will be Independent Trustees and these Independent Trustees will select and nominate any other Independent Trustees. Any person who acts as legal counsel for the Independent Trustees will be an independent legal counsel within the meaning of rule 0-1 under the Act.

For the Commission, by the Division of Investment Management, under delegated authority.

Jill M. Peterson,
Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meeting

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meeting during the week of May 17, 2004:

A Closed Meeting will be held on Tuesday, May 18, 2004 at 2 p.m.

Commissioners, Counsel to the Commissioners, the Secretary to the Commission, and recording secretaries will attend the Closed Meeting. Certain staff members who have an interest in the matters may also be present.

The General Counsel of the Commission, or his designee, has

certified that, in his opinion, one or more of the exemptions set forth in 5 U.S.C. 552b(c)(3), (5), (7), (9), and (10) and 17 CFR 200.402(a)(3), (5), (7), 9(ii), and (10), permit consideration of the scheduled matters at the Closed Meeting.

Commissioner Atkins, as duty officer, voted to consider the items listed for the closed meetings in closed sessions.

The subject matter of the Closed Meeting scheduled for Tuesday, May 18, 2004 will be:

- Formal orders of investigation;
- Institution and settlement of injunctive actions;
- Institution and settlement of administrative proceedings of an enforcement nature; and
- An adjudicatory matter.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact:

The Office of the Secretary at (202) 942-7070.

Dated: May 11, 2004.

Jonathan G. Katz,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49668; File No. SR-Amex-2004-21]

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval of a Proposed Rule Change by American Stock Exchange LLC Relating to Trust Certificates Linked to a Basket of Investment Grade Fixed Income Securities

May 7, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on March 29, 2004, the American Stock Exchange LLC ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and is

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

approving the proposal on an accelerated basis.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to approve for listing and trading under Section 107A of the Amex Company Guide ("Company Guide"), trust certificates linked to a basket of investment grade fixed income debt instruments.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Amex included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Amex has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

Under Section 107A of the Company Guide, the Exchange may approve for listing and trading securities which cannot be readily categorized under the listing criteria for common and preferred stocks, bonds, debentures, or warrants.³ The Amex proposes to list for trading under Section 107A of the Company Guide, the asset-backed securities ("ABS Securities") representing ownership interests in the Select Notes Trust 2004-03 ("Trust"), a special purpose trust to be formed by Structured Obligations Corporation ("SOC"),⁴ and the trustee of the Trust pursuant to a trust agreement, which will be entered into on the date that the ABS Securities are issued. The assets of the Trust will consist primarily of a basket or portfolio of up to approximately twenty-five (25) investment-grade fixed-income securities ("Underlying Corporate Bonds") and United States Department of Treasury STRIPS or securities issued by the United States Department of the Treasury ("Treasury Securities") or

government sponsored entity securities ("GSE Securities"). In the aggregate, the component securities of the basket or portfolio will be referred to as the "Underlying Securities."

The ABS Securities will conform to the initial listing guidelines under Section 107A⁵ and continued listing guidelines under Sections 1001-1003⁶ of the Company Guide. At the time of issuance, the ABS Securities will receive an investment grade rating from a nationally recognized securities rating organization ("NRSRO"). The issuance of the ABS Securities will be a repackaging of the Underlying Corporate Bonds together with the addition of either Treasury Securities or GSE Securities,⁷ with the obligation of the Trust to make distributions to holders of the ABS Securities depending on the amount of distributions received by the Trust on the Underlying Securities.

However, due to the pass-through and passive nature of the ABS Securities, the Exchange intends to rely on the assets and stockholder equity of the issuers of

⁵The initial listing standards for the ABS Securities require: (1) A minimum public distribution of one million units; (2) a minimum of 400 shareholders; (3) a market value of at least \$4 million; and (4) a term of at least one year. However, if traded in thousand dollar denominations, then there is no minimum holder requirement. In addition, the listing guidelines provide that the issuer have assets in excess of \$100 million, stockholder's equity of at least \$10 million, and pre-tax income of at least \$750,000 in the last fiscal year or in two of the three prior fiscal years. In the case of an issuer which is unable to satisfy the earning criteria stated in Section 101 of the Company Guide, the Exchange pursuant to Section 107A of the Company Guide will require the issuer to have the following: (1) Assets in excess of \$200 million and stockholders' equity of at least \$10 million; or (2) assets in excess of \$100 million and stockholders' equity of at least \$20 million.

⁶The Exchange's continued listing guidelines are set forth in Sections 1001 through 1003 of Part 10 to the Exchange's Company Guide. Section 1002(b) of the Company Guide states that the Exchange will consider removing from listing any security where, in the opinion of the Exchange, it appears that the extent of public distribution or aggregate market value has become so reduced to make further dealings on the Exchange inadvisable. With respect to continued listing guidelines for distribution of the ABS Securities, the Exchange will rely on the guidelines for bonds in Section 1003(b)(iv). Section 1003(b)(iv)(A) provides that the Exchange will normally consider suspending dealings in, or removing from the list, a security if the aggregate market value or the principal amount of bonds publicly held is less than \$400,000.

⁷A GSE Security is a security that is issued by a government-sponsored entity such as Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Student Loan Marketing Association (Sallie Mae), the Federal Home Loan Banks and the Federal Farm Credit Banks. All GSE debt is sponsored but not guaranteed by the federal government, whereas government agencies such as Government National Mortgage Association (Ginnie Mae) are divisions of the U.S. government whose securities are backed by the full faith and credit of the U.S.

the Underlying Corporate Bonds, as well as GSE Securities, rather than the Trust to meet the requirement in Section 107A of the Company Guide. The corporate issuers of the Underlying Corporate Bonds and GSE Securities will meet or exceed the requirements of Section 107A of the Company Guide. The distribution and principal amount/aggregate market value requirements found in Section 107A(b) and (c), respectively, will otherwise be met by the Trust as issuer of the ABS Securities. In addition, the Exchange for purposes of including Treasury Securities will rely on the fact that the issuer is the United States Government rather than the asset and stockholder tests found in Section 107A.

The basket of Underlying Securities will not be managed and will generally remain static over the term of the ABS Securities. Each of the Underlying Securities provides for the payment of interest on a semi-annual basis and the ABS Securities will provide for monthly or quarterly distributions of interest. Neither the Treasury Securities or GSE Securities will make periodic payments of interest.⁸ The Exchange represents that, to alleviate this cash flow timing issue, the Trust will enter into an interest distribution agreement ("Interest Distribution Agreement") as described in the prospectus supplement related to the ABS Securities ("Prospectus Supplement").⁹ Principal distributions on the ABS Securities are expected to be made on dates that correspond to the maturity dates of the Underlying Securities (i.e., the Underlying Corporate Bonds and Treasury Securities or GSE Securities). However, some of the Underlying Securities may have redemption provisions and in the event of an early redemption or other liquidation (e.g., upon an event of default) of the Underlying Securities, the proceeds from such redemption (including any make-whole premium associated with such redemption) or liquidation will be distributed pro rata to the holders of the ABS Securities. Each Underlying Corporate Bond will be issued by a

⁸A stripped fixed income security, such as a Treasury Security or GSE Security, is a security that is separated into its periodic interest payments and principal repayment. The separate strips are then sold individually as zero coupon securities providing investors with a wide choice of alternative maturities.

⁹Pursuant to the Interest Distribution Agreement, shortfalls in the amounts available to pay monthly or quarterly interest to holders of the ABS Securities due to the Underlying Securities paying interest semi-annually will be made to the Trust by JP Morgan Chase Bank or one of its affiliates and will be repaid out of future cash flow received by the Trust from the Underlying Securities.

³ See Securities Exchange Act Release No. 27753 (March 1, 1990), 55 FR 8626 (March 8, 1990) (order approving File No. SR-Amex-89-29).

⁴ SOC is a wholly-owned special purpose entity of J.P. Morgan Securities Holdings Inc. and the registrant under the Form S-3 Registration Statement (No. 333-67188) under which the securities will be issued.

corporate issuer and purchased in the secondary market.

In the case of Treasury Securities, the Trust will either purchase the securities directly from primary dealers or in the secondary market that consists of primary dealers, non-primary dealers, customers, financial institutions, non-financial institutions and individuals. Similarly, in the case of GSE Securities, the Trust will either purchase the securities directly from the issuer or in the secondary market.

Holders of the ABS Securities generally will receive interest on the face value in an amount to be determined at the time of issuance of the ABS Securities and disclosed to investors. The rate of interest payments will be based upon prevailing interest rates at the time of issuance and made to the extent that coupon payments are received from the Underlying Securities. Distributions of interest will be made monthly or quarterly. Investors will also be entitled to be repaid the principal of their ABS Securities from the proceeds of the principal payments on the Underlying Securities.¹⁰ The payout or return to investors on the ABS Securities will not be leveraged.

The ABS Securities will mature on the latest maturity date of the Underlying Securities. Holders of the ABS Securities will have no direct ability to exercise any of the rights of a holder of an Underlying Corporate Bond; however, holders of the ABS Securities as a group will have the right to direct the Trust in its exercise of its rights as holder of the Underlying Securities.

The proposed ABS Securities are virtually identical to a product currently listed and traded on the Exchange.¹¹ The only difference being the actual Underlying Securities in the basket of investment grade fixed-income securities. Accordingly, the Exchange

proposes to provide for the listing and trading of the ABS Securities where the Underlying Securities meet the Exchange's Bond and Debenture Listing Standards set forth in Section 104 of the Company Guide. The Exchange represents that all of the Underlying Securities in the proposed basket will meet or exceed these listing standards.

The Exchange's Bond and Debenture Listing Standards in Section 104 of the Company Guide provide for the listing of individual bond or debenture issuances provided the issue has an aggregate market value or principal amount of at least \$5 million and any of: (1) The issuer of the debt security has equity securities listed on the Exchange (or on the New York Stock Exchange, Inc. ("NYSE") or on the Nasdaq National Market ("Nasdaq")); (2) an issuer of equity securities listed on the Exchange (or on the NYSE or on the Nasdaq) directly or indirectly owns a majority interest in, or is under common control with, the issuer of the debt security; (3) an issuer of equity securities listed on the Exchange (or on the NYSE or on the Nasdaq) has guaranteed the debt security; (4) an NRSRO has assigned a current rating to the debt security that is no lower than an S&P Corporation ("S&P") "B" rating or equivalent rating by another NRSRO; or (5) if no NRSRO has assigned a rating to the issue, an NRSRO has currently assigned (i) an investment grade rating to an immediately senior issue or (ii) a rating that is no lower than a S&P "B" rating or an equivalent rating by another NRSRO to a pari passu or junior issue.

In addition to the Exchange's Bond and Debenture Listing Standards, an Underlying Security must also be of investment grade quality as rated by an NRSRO and at least 75% of the underlying basket is required to contain Underlying Securities from issuances of \$100 million or more. The maturity of each Underlying Security is expected to match the payment of principal of the ABS Securities with the maturity date of the ABS Securities being the latest maturity date of the Underlying Securities. Amortization of the ABS Securities will be based on (1) The respective maturities of the Underlying Securities, including Treasury Securities or GSE Securities, (2) principal payout amounts reflecting the pro-rata principal amount of maturing Underlying Securities and (3) any early redemption or liquidation of the Underlying Securities, including Treasury Securities or GSE Securities.

Investors will be able to obtain the prices for the Underlying Securities through Bloomberg L.P. or other market

vendors, including the broker-dealer through whom the investor purchased the ABS Securities. In addition, The Bond Market Association ("TBMA") provides links to price and other bond information sources on its investor Web site at <http://www.investinginbonds.com>.

Transaction prices and volume data for the most actively-traded bonds on the exchanges are also published daily in newspapers and on a variety of financial websites. The National Association of Securities Dealers, Inc. ("NASD") Trade Reporting and Compliance Engine ("TRACE") will also help investors obtain transaction information for the most active corporate debt securities, such as investment grade corporate bonds.¹² For a fee, investors can have access to intraday bellwether quotes.¹³

Price and transaction information for Treasury Securities and GSE Securities may also be obtained at <http://www.publicdebt.treas.gov> and <http://www.govpx.com>, respectively. Price quotes are also available to investors via proprietary systems such as Bloomberg L.P., Reuters and Dow Jones Telerate. Valuation prices¹⁴ and analytical data may be obtained through vendors such as Bridge Information Systems, Muller Data, Capital Management Sciences, Interactive Data Corporation and Barra.

The ABS Securities will be listed in \$1,000 denominations with the Exchange's existing debt floor trading rules applying to trading.¹⁵ First, pursuant to Amex Rule 411, the Exchange will impose a duty of due diligence on its members and member firms to learn the essential facts relating to every customer prior to trading the ABS Securities.¹⁶ Second, the ABS Securities will be subject to the debt margin rules of the Exchange.¹⁷ Third,

¹² See Securities Exchange Act Release No. 43873 (January 23, 2001), 66 FR 8131 (January 29, 2001). Investors are able to access TRACE information at <http://www.nasdbondinfo.com/>.

¹³ Corporate prices are available at 20-minute intervals from Capital Management Services at <http://www.bondvu.com/>.

¹⁴ "Valuation Prices" refer to an estimated price that has been determined based on an analytical evaluation of a bond in relation to similar bonds that have traded. Valuation prices are based on bond characteristics, market performance, changes in the level of interest rates, market expectations and other factors that influence a bond's value.

¹⁵ The ABS Securities will trade on Amex's debt trading floor. Telephone conversation between Jeffrey P. Burns, Associate General Counsel, Amex, and Florence Harmon, Senior Special Counsel, Division of Market Regulation, Commission, on May 7, 2004.

¹⁶ Amex Rule 411 requires that every member, member firm or member corporation use due diligence to learn the essential facts, relative to every customer and to every order or account accepted.

¹⁷ See Amex Rule 462.

¹⁰ The Underlying Securities may drop out of the basket upon maturity or upon payment default or acceleration of the maturity date for any default other than payment default. See Prospectus for a schedule of the distribution of interest and of the principal upon maturity of each Underlying Security and for a description of payment default and acceleration of the maturity date.

¹¹ See Securities Exchange Act Release Nos. 49315 (February 24, 2004), 69 FR 9882 (March 2, 2004) (File No. SR-Amex-2004-08); 49136 (January 28, 2004), 69 FR 6345 (File No. SR-Amex-2003-99); 48791 (November 17, 2003), 68 FR 65750 (November 21, 2003) (File No. SR-Amex-2003-92); 48312 (August 8, 2003), 68 FR 48970 (August 15, 2003) (File No. SR-Amex-2003-69); 47884 (May 16, 2003), 68 FR 28305 (May 23, 2003) (File No. SR-Amex-2003-37); 47730 (April 24, 2003), 68 FR 23340 (May 1, 2003) (File No. SR-Amex-2003-25); 46923 (November 27, 2002), 67 FR 72247 (December 4, 2002) (File No. SR-Amex-2002-92); and 46835 (November 14, 2002), 67 FR 70271 (November 21, 2002) (File No. SR-Amex-2002-70).

the Exchange will, prior to trading the ABS Securities, distribute a circular to the membership providing guidance with regard to member firm compliance responsibilities (including suitability recommendations) when handling transactions in the ABS Securities and highlighting the special risks and characteristics of the ABS Securities. With respect to suitability recommendations and risks, the Exchange will require members, member organizations and employees thereof recommending a transaction in the ABS Securities: (1) To determine that such transaction is suitable for the customer, and (2) to have a reasonable basis for believing that the customer can evaluate the special characteristics of, and is able to bear the financial risks of such transaction.

The Exchange represents that its surveillance procedures are adequate to properly monitor the trading of the ABS Securities. Specifically, the Amex will rely on its existing surveillance procedures governing debt, which have been deemed adequate under the Act. In addition, the Exchange also has a general policy which prohibits the distribution of material, non-public information by its employees.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6¹⁸ of the Act in general and furthers the objectives of section 6(b)(5)¹⁹ in particular in that it is designed to prevent fraudulent and manipulative acts and practices, promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange did not receive any written comments on the proposed rule change.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing,

¹⁸ 15 U.S.C. 78f(b).

¹⁹ 15 U.S.C. 78f(b)(5).

including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-2004-AMEX-21 on the subject line.

Paper comments:

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-2004-AMEX-21. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of such filing also will be available for inspection and copying at the principal office of the Amex. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-2004-AMEX-21 and should be submitted on or before June 4, 2004.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, with the requirements of section 6(b)(5) of the Act.²⁰ The

²⁰ *Id.*

Commission finds that this proposal is similar to several approved equity-linked instruments currently listed and traded on the Amex.²¹ Accordingly, the Commission finds that the listing and trading of the ABS Securities is consistent with the Act and will promote just and equitable principles of trade, foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, and, in general, protect investors and the public interest consistent with section 6(b)(5) of the Act.²²

As described more fully above, the ABS Securities are asset-backed securities and represent a repackaging of the Underlying Corporate Bonds together with the addition of either Treasury Securities or GSE Securities, subject to certain distribution of interest obligations of the Trust. The ABS Securities are not leveraged instruments. The ABS Securities are debt instruments whose price will still be derived and based upon the value of the Underlying Securities. Investors are guaranteed at least the principal amount that they paid for the Underlying Securities. In addition, each of the Underlying Corporate Bonds will pay interest on a semi-annual basis while the ABS Securities themselves will pay interest on the monthly or quarterly basis, pursuant to the Interest Distribution Agreement. Neither the Treasury Securities or GSE Securities will make periodic payments of interest.²³ In addition, the ABS Securities will mature on the latest maturity date of the Underlying Securities.²⁴ However, due to the pass-through nature of the ABS Securities, the level of risk involved in the purchase or sale of the ABS Securities is similar to the risk involved in the purchase or sale of traditional common stock.

The Commission notes that the Exchange's rules and procedures that address the special concerns attendant to the trading of hybrid securities will

²¹ See *supra* note 11.

²² 15 U.S.C. 78f(b)(5). In approving this rule, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

²³ See *supra* note 8.

²⁴ The Commission notes, however, that the Exchange has represented that the Underlying Securities may drop out of the basket upon maturity or upon payment default or acceleration of the maturity date of any default other than payment default. See Prospectus for a schedule of the distribution of interest and of the principal upon maturity of each Underlying Security and for a description of payment default and acceleration of the maturity date.

be applicable to the ABS Securities. In particular, by imposing the hybrid listing standards, suitability disclosure, and compliance requirements noted above, the Commission believes the Exchange has addressed adequately the potential problems that could arise from the hybrid nature of the ABS Securities. Moreover, the Commission notes that the Exchange will distribute a circular to its membership calling attention to the specific risks associated with the ABS Securities.

The Commission notes that the ABS Securities are dependent upon the individual credit of the issuers of the Underlying Securities. To some extent this credit risk is similar minimized by the Exchange's listing standards in Section 107A of the Company Guide which provide that only issuers satisfying asset and equity requirements may issue securities such as the ABS Securities. In addition, the Exchange's "Other Securities" listing standards further provide that there is no minimum holder requirement if the securities are traded in thousand dollar denominations.²⁵ The Commission notes that the Exchange has represented that the ABS Securities will be listed in \$1000 denominations with its existing debt floor trading rules applying to the trading. In any event, financial information regarding the issuers of the Underlying Securities will be publicly available.²⁶

Due to the pass-through and passive nature of the ABS Securities, the Commission does not object to the Exchange's reliance on the assets and stockholder equity of the Underlying Securities rather than the Trust to meet the requirement in Section 107A of the Company Guide. The Commission notes that the distribution and principal amount/aggregate market value requirements found in Sections 107A(b) and (c), respectively, will otherwise be met by the Trust as issuer of the ABS Securities. Thus, the ABS Securities will conform to the initial listing guidelines under Section 107A and continued listing guidelines under Sections 1001-1003 of the Company Guide, except for the assets and stockholder equity characteristics of the Trust. At the time of issuance, the Commission also notes that the ABS Securities will receive an investment grade rating from an NRSRO.

The Commission also believes that the listing and trading of the ABS Securities should not unduly impact the market for the Underlying Securities or raise

manipulative concerns. As discussed more fully above, the Exchange represents that, in addition to requiring the issuers of the Underlying Securities meet the Exchange's Section 107A listing requirements (in the case of Treasury Securities, the Exchange will rely on the fact that the issuer is the United States Government rather than the asset and stockholder tests found in Section 107A), the Underlying Securities will also be required to meet or exceed the Exchange's Bond and Debenture Listing Standards pursuant to Section 104 of the Amex's Company Guide, which among other things, requires that underlying debt instrument receive at least an investment grade rating of "B" or equivalent from an NRSRO. Furthermore, at least 75% of the basket is required to contain Underlying Securities from issuances of \$100 million or more. The Amex also represents that the basket of Underlying Securities will not be managed and will remain static over the term of the ABS Securities. In addition, the Amex's surveillance procedures will serve to deter as well as detect any potential manipulation.

The Commission notes that the investors may obtain price information on the Underlying Securities through market vendors such as Bloomberg L.P., or through websites such as <http://www.investinginbonds.com> (for Underlying Corporate Bonds) and <http://www.publicdebt.treas.gov> and <http://www.govpx.com> (for Treasury Securities and GSE Securities, respectively).

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. The Amex has requested accelerated approval because this product is similar to other asset-backed instruments currently listed and traded on the Amex.²⁷ The Commission believes that the ABS Securities will provide investors with an additional investment choice and that accelerated approval of the proposal will allow investors to begin trading the ABS Securities promptly. Additionally, the ABS Securities will be listed pursuant to Amex's existing hybrid security listing standards as described above. Based on the above, the Commission believes that there is good cause, consistent with Sections 6(b)(5) and 19(b)(2) of the Act²⁸ to approve the proposal on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,²⁹ that the proposed rule change (SR-Amex-2004-21) is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.³⁰

Jill M. Peterson,
Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49674; File No. SR-NASD-2004-001]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the National Association of Securities Dealers, Inc. Relating to Arbitrator Training Fees

May 10, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 7, 2004, the National Association of Securities Dealers, Inc. ("NASD"), through its wholly owned subsidiary, NASD Dispute Resolution ("NASD Dispute Resolution"), filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by NASD Dispute Resolution. On April 2, 2004, NASD filed Amendment No. 1 to the proposed rule change.³ The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

NASD is proposing to amend the fees that are charged to its panel member arbitrators. The text of the proposed rule change is available at the principal office of NASD and at the Commission.

²⁹ 15 U.S.C. 78o-3(b)(6) and 78s(b)(2).

³⁰ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See letter from Mignon McLemore, NASD, to Katherine England, Assistant Director, Division of Market Regulation, Commission, dated April 2, 2004.

²⁵ See Company Guide Section 107A.

²⁶ The ABS Securities will be registered under section 12 of the Act.

²⁷ See *supra* note 11.

²⁸ 15 U.S.C. 78f(b)(5) and 78s(b)(2).

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASD has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASD proposes to raise the fee for panel member training from \$100 to \$125 for all applicants who register for the training after the proposed rule change becomes effective. This increase is intended to offset increased costs of providing the panel member training program, due primarily to increased room rental and staff travel costs. The proposed increase of \$25 per trainee also will allow NASD to increase the honorarium provided to arbitrators who serve as co-trainers for the programs.

Dispute Resolution staff plans to extend the length of the current four-hour training program to cover additional subject matter. Following approval of the proposed rule change, the usual panel member training program will consist of a four-hour morning session, followed by a two-hour afternoon session.⁴ During the afternoon session, staff and the designated co-trainer, who is an arbitrator on the roster, will facilitate a videotaped training on civility. In light of the increased length of the training session, NASD plans to raise the honorarium of each co-trainer from \$300 for a four-hour program to \$400 for a six-hour program.

NASD believes the increase in the training fee will enable it to provide in-depth arbitrator training, which will improve the quality of the arbitrator roster. Moreover, NASD believes this nominal increase is an equitable allocation of reasonable fees among persons using an NASD system or facility.

2. Statutory Basis

NASD believes that the proposed rule change is consistent with the provisions

⁴ NASD room rental expenses will not increase, because rates quoted are for the entire business day.

of section 15A(b)(6) of the Act, which requires, among other things, that the Association's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. NASD believes that the minimal increase in the in-person panel member training fee will help NASD improve the knowledge and experience of arbitrators and thus, improve the quality of the NASD arbitration forum.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve such proposed rule change, or
- (B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

- Electronic comments:*
- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
 - Send an E-mail to rule-comments@sec.gov. Please include File Number SR-NASD-2004-001 on the subject line.

- Paper comments:*
- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-NASD-2004-001. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of NASD. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASD-2004-001 and should be submitted on or before June 4, 2004.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.⁵

Jill M. Peterson,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49673; File No. SR-NASD-2004-016]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the National Association of Securities Dealers, Inc. Relating to Implementation of a Web-based Arbitration Claim Notification and Filing Procedure

May 10, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 29, 2004, the National Association of

⁵ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

Securities Dealers, Inc. ("NASD") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by NASD. On February 25, 2004, NASD filed Amendment No. 1 to the proposed rule change.³ On April 16, 2004, NASD filed Amendment No. 2 to the proposed rule change.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Below is the text of the proposed rule change. Proposed new language is in *italics*.

* * * * *

10314. Initiation of Proceedings

Except as otherwise provided herein, an arbitration proceeding under this Code shall be instituted as follows:

(a) Statement of Claim

(1) The Claimant shall file with the Director of Arbitration an executed Submission Agreement, a Statement of Claim of the controversy in dispute, together with the documents in support of the Claim, and the required deposit. Sufficient additional copies of the Submission Agreement and the Statement of Claim and supporting documents shall be provided to the Director of Arbitration for each party and each arbitrator. The Statement of Claim shall specify the relevant facts and the remedies sought. The Director of Arbitration shall endeavor to serve promptly by mail or otherwise on the Respondent(s) one (1) copy of the Submission Agreement and one (1) copy of the Statement of Claim.

(2) A Claimant or counsel (referred to herein collectively as "Claimant") may use the online claim notification and filing procedure to complete part of the arbitration claim filing process through the Internet. To commence this process, a Claimant may complete a Claim Information Form that can be accessed through an NASD Web site. In completing the Claim Information Form, the Claimant may attach an electronic version of the Statement of Claim to the form, provided it does not exceed 50

pages. Once this online form has been completed, an NASD Dispute Resolution Tracking Form will be generated and displayed for the Claimant to reproduce as necessary. The Claimant shall then file with the Director of Arbitration the rest of the materials required in subparagraph (1), above, along with a hard copy of the NASD Dispute Resolution Tracking Form.

(Remainder of rule unchanged.)

* * * * *

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASD has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASD Dispute Resolution proposes to amend NASD Rule 10314(a) to allow parties to complete part of the arbitration claim filing process through the Internet.

Background

NASD Dispute Resolution is upgrading its computer technology platform, in what is known as the MATRICS⁵ Computer Project, which will replace its two legacy case management systems: CRAFTIS⁶ and NLSS.⁷ Before the upgrade is complete, the MATRICS Computer Project will be implemented in a series of overlapping releases between the second quarter of 2003 and the fourth quarter of 2005. A significant component of this upgrade includes the development of an online, Web-based arbitration claim notification and filing system. The release to implement this component of the upgrade was originally scheduled for deployment in 2005, but has taken less time than anticipated to design and

develop. Once this component of the release had been tested, NASD decided to accelerate the implementation of the online claim notification and filing procedure, to the first quarter of 2004.

Current Procedures for Filing and Processing an Arbitration Claim

Currently, if a party wants to file an arbitration claim, a package of materials is sent to the party to complete.⁸ The materials contain a Claim Information Sheet that NASD Dispute Resolution asks the party to complete on a voluntary basis. The Claim Information Sheet gathers key data about the claim and the parties and serves as a reliable source of background information for intake staff.⁹ Once the party has completed the materials, the party then completes the claim filing process by submitting the Statement of Claim, executed Uniform Submission Agreement, and filing fee and hearing session deposit through the mail.¹⁰

When the intake staff in New York receives the Claimant's materials, they enter this new claim information into NASD's CRAFTIS computer system. This process requires manual entry of data by at least two staff members in different offices. For example, when a new claim is received, a staff member in New York opens a case file by reviewing either the Statement of Claim or the Claim Information Sheet, if it is submitted, and by inputting the claim information in a new CRAFTIS file. Once this process is complete, the case is assigned to the appropriate NASD Dispute Resolution regional office, where another staff member performs an analysis of the claim documents and then manually enters more data (i.e., party information, type of dispute, fees, and relief requested) into this CRAFTIS file. This process requires the staff member to analyze the case to determine what information must be entered into CRAFTIS and to input the data into the system. This stage of the process usually takes an average of 30 minutes per case.

The Effects of the Online Claim Notification Procedure

The proposed rule change would modify how an arbitration claim is filed in several ways. In the package of information sent to the Claimant or

³ See letter from Mignon McLemore, Counsel, NASD, to Katherine England, Assistant Director, Division of Market Regulation, Commission, dated February 24, 2004.

⁴ See letter from Mignon McLemore, Counsel, NASD, to Katherine England, Assistant Director, Division of Market Regulation, Commission, dated April 16, 2004.

⁵ MATRICS stands for Mediation and Arbitration Tracking Retrieval Interactive Case System.

⁶ CRAFTIS is the legacy software application that NASD Dispute Resolution uses to support its case administration function. It uses an old technology platform and is not Web-based.

⁷ NLSS stands for the Neutral List Selection System, which is the computer program NASD uses to appoint arbitrators on a rotational basis.

⁸ Parties may also download this information from NASD Dispute Resolution's Web site.

⁹ NASD Dispute Resolution estimates that the sheet is submitted in approximately 75% of the arbitration cases filed.

¹⁰ Pursuant to the Code, "mailing" can be accomplished by first-class postage pre-paid, overnight mail service, method of delivery acceptable to the parties and the Director.

counsel (referred to herein collectively as "Claimant"), in addition to a Claim Information Sheet, there will be instructions on how to submit a Claim Information Form online, including procedures for accessing the system. Prior to submitting a claim for the first time, a Claimant will obtain a User Identification name ("User ID") and password through a self-registration process on the NASD Web site. Repeat Claimants, and attorneys who are submitting new claims on behalf of different Claimants, may continue to use their User ID and password to enter data for new cases.

The proposed rule change would allow a Claimant to commence the arbitration claim filing process by completing a Claim Information Form online that can be accessed through an NASD Web site.¹¹ The Claim Information Form has been upgraded to allow the Claimant to attach an electronic version of the Statement of Claim to the form, provided it does not exceed 50 pages. Once this online form has been completed, the Claimant will be prompted to print the NASD Dispute Resolution Tracking Form ("Tracking Form"). The Claimant would then complete the claim filing process by filing a copy of the Tracking Form, the Statement of Claim (if it has not been submitted electronically), an executed Uniform Submission Agreement, and the filing fee and hearing session deposit through the mail, as is current practice.¹²

Benefits of the Online Claim Notification Procedure

The online version of the Claim Information Form would gather information similar to the paper version currently in use, but the format would be upgraded to provide:

- A "look up" tool, that will be used to provide the exact name of the member or associated person for automatic insertion into the Claim Information Form;
- A link to the fee calculators, which will calculate the amount that should be remitted with the Statement of Claim; and
- "Tool tips" to help the Claimant navigate the Claim Information Form.

These enhancements will enable Claimants to enter the required information more quickly and accurately. For example, the Claim

Information Form will require that the Claimant list those members or associated persons who would be parties to the claim. The Claim Information Form "look up" tool will provide the exact name of the member or associated person. Once the Claimant has found the requisite information, the system will allow the Claimant to load the information automatically into the form fields, thus minimizing transcription errors. If, after a search using the "look up" tool, the Claimant is unable to find the requisite information, the Claimant may type whatever information the Claimant has into a text box on the form for intake staff to analyze.

The Claim Information Form will also provide a link to the existing online fee calculator, to assist the Claimant in determining the correct amount of fees and deposits associated with the claim.

Further, the Claim Information Form will provide on-screen guidance to Claimants through "tool tips," which are small help screens that can be displayed in order to assist the Claimant in completing certain data elements.

Once the Claimant has completed the Claim Information Form, the system will generate a Tracking Form that will summarize the Claimant's entries for review and provide a tracking number for the claim. Prior to submission, the Claimant will be prompted to print a hard copy of the Tracking Form to file with the other documentation to NASD Dispute Resolution. The system will also encourage the Claimant to print a copy as a receipt. The remaining aspects of the claim filing procedure remain unchanged from the Claimant's perspective.

The intake staff in New York will be notified that a claim has been electronically submitted when it receives the Claimant's materials in hard copy with the Tracking Form attached. The intake staff will access the system and, using the tracking number or some other identifying information, locate the Claimant's data. The data will be stored in a secure "holding area" in the system, where an intake staff member will verify it, and then upload it into the CRAFTIS system. The uploaded data will instantly be transferred to the screens currently completed manually by applicable staff. Once this process is completed, the Claimant's file will be transferred to the appropriate NASD Dispute Resolution regional office, where the staff member will be able to analyze the case without having to input data into CRAFTIS.

Conclusion

NASD Dispute Resolution believes that the online claim notification procedure will expedite the case intake process, provide better data accuracy, reduce manual data entry, and provide for more efficient claims intake and administration. Moreover, NASD Dispute Resolution believes that the implementation of a Web-based arbitration claim notification and filing system is a positive step toward streamlining the claim filing process and providing global access to potential filers.¹³

2. Statutory Basis

NASD believes that the proposed rule change is consistent with the provisions of section 15A(b)(6) of the Act,¹⁴ which require, among other things, that the Association's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. In light of recent regulatory developments in the securities markets, NASD believes the proposed rule change will enhance the efficiency of the NASD arbitration forum, by providing a better mechanism to process new claims expeditiously.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

¹³ NASD believes that most potential filers have access to the Internet. During the transition from paper filing to the online claim notification and filing procedure, NASD staff will work with any Claimants who have technological problems with using this system.

¹⁴ 15 U.S.C. 78o-3(b)(6).

¹¹ The current Web site address for the online claim filing system is http://www.nasdad.com/uniform_forms_guide.asp.

¹² Submission of documents through this online notification system does not alter the date a claim is filed; rather, filing a claim requires submission of documentation pursuant to Rule 10314(a).

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an E-mail to rule-comments@sec.gov. Please include File Number SR-NASD-2004-016 on the subject line.

Paper comments:

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-NASD-2004-016. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW, Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of NASD. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number and should be submitted on or before June 4, 2004.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁵

Jill M. Peterson,
Assistant Secretary.

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49667; File No. SR-NASD-2004-073]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change by the National Association of Securities Dealers, Inc. To Change the Minimum Term for Selected Equity-Linked Debt Securities

May 7, 2004.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on April 27, 2004, the National Association of Securities Dealers, Inc. ("NASD"), through its subsidiary, The Nasdaq Stock Market, Inc. ("Nasdaq"), filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by Nasdaq. Nasdaq has designated the proposed rule change as constituting a "non-controversial" rule change under subparagraph (f)(6) of Rule 19b-4 under the Act,³ which renders the proposal effective upon receipt of this filing by the Commission.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

Nasdaq proposes to modify NASD Rule 4420(g) to reduce the minimum term of Selected Equity-linked Debt

¹⁵ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ 17 CFR 240.19b-4(f)(6).

⁴ As required by 17 CFR 240.19b-4(f)(6), Nasdaq has represented that the proposed rule change will not significantly affect the protection of investors or the public interest, nor will it impose any significant burden on competition. Nasdaq also fulfilled its obligation to provide at least five business days notice to the Commission of its intent to file this proposed rule change by notice on April 16, 2004. The NASD's proposed rule change is similar to the rules regarding the minimum term of equity-linked debt securities for the American Stock Exchange LLC ("Amex"), the Chicago Stock Exchange, Inc. ("CHX"), and the New York Stock Exchange, Inc. ("NYSE").

Securities ("SEEDS") from two years to one year.

The text of the proposed rule change is below. Proposed new language is in *italics*; proposed deletions are in [brackets].⁵

* * * * *

4420. Quantitative Designation Criteria

(a) through (f) No change
(g) Nasdaq will consider designating as Nasdaq National Market securities Selected Equity-linked Debt Securities (SEEDS) that generally meet the criteria of this paragraph (g). SEEDS are limited-term, non-convertible debt securities of an issuer where the value of the debt is based, at least in part, on the value of another issuer's common stock or non-convertible preferred stock (or sponsored American Depositary Receipts (ADRs) underlying such equity securities).

(1) No change
(2) Equity-Linked Debt Security Listing Standards

The issue must have:
(A) through (C) No change
(D) a term of *one* [two] to seven years; provided that if the issuer of the underlying security is a non-U.S. company, or if the underlying security is a sponsored ADR, the issue may not have a term of more than three years.

(3) through (5) No change
(h) through (l) No change

* * * * *

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The proposed rule change reduces from two years to one the minimum term of SEEDS that may qualify for Nasdaq National Market designation

⁵ The proposed rule change is marked to show changes to NASD Rule 4420(g) as currently reflected in the NASD Manual available at www.nasd.com. No other pending or approved rule filings would affect the text of Rule 4420(g).

under NASD Rule 4420(g). Nasdaq represents that several other self-regulatory organizations that maintain specific listing criteria for equity-linked debt securities similar to the criteria in NASD Rule 4420(g) have in recent years reduced the minimum term requirement with respect to such securities from two years to one.⁶ In order to provide issuers of equity-linked debt securities that have a term shorter than two years with a greater choice of listing venues, Nasdaq is now seeking to make the same change. Nasdaq represents that comprehensive surveillance procedures, which are designed to identify and deter manipulative trading activity, are in place with respect to the SEEDS.

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of Section 15A of the Act,⁷ in general and furthers the objectives of Section 15A(b)(6) of the Act,⁸ in particular, in that, by reducing the minimum term of SEEDS, impediments to a free and open market and a national market system will be removed, and investors and the public interest will be protected.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

This proposed rule filing has been filed by Nasdaq as a "non-controversial" rule change pursuant to Section 19(b)(3)(A) of the Act⁹ and

⁶ See Securities Exchange Act Release No. 42313 (Jan. 4, 2000), 65 FR 2205 (Jan. 13, 2000) (CHX rule change reducing the minimum term of eligible equity-linked debt securities from two years to one and eliminating the maximum term requirement); Securities Exchange Act Release No. 42110 (Nov. 5, 1999), 64 FR 61677 (Nov. 12, 1999) (Amex rule change reducing the minimum term of eligible equity-linked debt securities from two years to one and eliminating the maximum term requirement); Securities Exchange Act Release No. 41992 (Oct. 7, 1999), 64 FR 56007 (Oct. 15, 1999) (NYSE rule change reducing the minimum term of eligible equity-linked debt securities from two years to one and eliminating the maximum term requirement).

⁷ 15 U.S.C. 78o-3.

⁸ 15 U.S.C. 78o-3(b)(6).

⁹ 15 U.S.C. 78s(b)(3)(A).

subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁰ Nasdaq states that the foregoing proposed rule change does not significantly affect the protection of investors or the public interest, nor does it impose any significant burden on competition. Nasdaq also provided the Commission with written notice of its intent to file the proposed rule change at least five days prior to the filing date, as statutorily required.

Pursuant to subparagraph (f)(6) of Rule 19b-4,¹¹ the Commission has the authority to shorten the time period for the effectiveness of a rule "if consistent with the protection of investors and the public interest." In this case, shortening the time period for effectiveness from 30 days after the date of filing¹² to immediate effectiveness is consistent with the protection of investors and the public interest because approval of this proposed rule conforms the listing criteria for equity-linked debt instruments to those of the Amex, the CHX, and the NYSE.¹³

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send E-mail to rule-comments@sec.gov. Please include File Number SR-NASD-2004-073 on the subject line.

Paper comments:

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-NASD-2004-073. This file number should be included on the

¹⁰ 17 CFR 240.19b-4(f)(6).

¹¹ *Id.*

¹² *Id.*

¹³ For purposes only of accelerating the operative date of this proposal, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing also will be available for inspection and copying at the principal office of the NASD. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASD-2004-073 and should be submitted on or before June 4, 2004.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁴

Jill M. Peterson,

Assistant Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 01/01-0396]

Seacoast Capital Partners II, L.P.; Notice Seeking Exemption Under Section 312 of the Small Business Investment Act, Conflicts of Interest

Notice is hereby given that Seacoast Capital Partners II, L.P., 55 Ferncroft Road, Danvers, MA 01923, a Federal Licensee under the Small Business Investment Act of 1958, as amended ("the Act"), in connection with the financing of a small concern, has sought an exemption under section 312 of the Act and section 107.730, Financials which Constitute Conflicts of Interest of the Small Business Administration ("SBA") rules and regulations (13 CFR 107.730 (2002)). Seacoast Capital Partners II, L.P. proposes to provide subordinated debt financing to KODA Distribution, Inc., 154 Pioneer Drive,

¹⁴ 17 CFR 200.30-3(a)(12).

Leominster, Massachusetts 01453. The financing is contemplated to pay off expiring subordinated debt used for working capital purposes.

The financing is brought within the purview of § 107.730(a)(4) of the Regulations because Seacoast Capital Partners II, L.P.'s investment in KODA Distribution, Inc. will discharge an obligation of Seacoast Capital Partners, L.P., an Associate of Seacoast Capital Partners II, L.P. Therefore, this transaction is considered a financing of an Associate requiring prior SBA approval.

Notice is hereby given that any interested person may submit written comments on the transaction, within 15 days of the date of this publication, to the Associate Administrator for Investment, U.S. Small Business Administration, 409 Third Street, SW., Washington, DC 20416.

Dated: May 11, 2004.

Jeffrey D. Pierson,

Associate Administrator for Investment.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster #P032]

State of North Dakota

As a result of the President's major disaster declaration for Public Assistance on May 5, 2004, the U.S. Small Business Administration is activating its disaster loan program only for private non-profit organizations that provide essential services of a governmental nature. I find that Benson, Cavalier, Grand Forks, Griggs, Nelson, Pembina, Ramsey, Steele, Traill and Walsh Counties, and the Spirit Lake Indian Reservation in the State of North Dakota constitute a disaster area due to damages caused by severe storms, flooding, and ground saturation occurring on March 26, 2004, and continuing. Applications for loans for physical damage as a result of this disaster may be filed until the close of business on July 6, 2004, at the address listed below or other locally announced locations: U.S. Small Business Administration, Disaster Area 3 Office, 14925 Kingsport Road, Fort Worth, TX 76155-2243.

The interest rates are:

	Percent
For Physical Damage: Non-Profit Organizations With- out Credit Available Else- where:	2.900

	Percent
Non-Profit Organizations With Credit Available Elsewhere:	4.875

The number assigned to this disaster for physical damage is P03211.

(Catalog of Federal Domestic Assistance Program Nos. 59008).

Dated: May 7, 2004.

Becky C. Brantley,

Acting Associate Administrator for Disaster Assistance.

Culturally Significant Objects Imported for Exhibition Determinations: "Beyond Geometry: Experiments in Form, 1940s-70s"

AGENCY: Department of State.

ACTION: Notice.

SUMMARY: Notice is hereby given of the following determinations: Pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985; 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978, the Foreign Affairs Reform and Restructuring Act of 1998 (112 Stat. 2681, *et seq.*; 22 U.S.C. 6501 note, *et seq.*), Delegation of Authority No. 234 of October 1, 1999, Delegation of Authority No. 236 of October 19, 1999, as amended, and Delegation of Authority No. 257 of April 15, 2003 [68 FR 19875], I hereby determine that the objects to be included in the exhibition "Beyond Geometry: Experiments in Form, 1940s-70s," imported from abroad for temporary exhibition within the United States, are of cultural significance. The objects are imported pursuant to loan agreements with the foreign owners. I also determine that the exhibition or display of the exhibit objects at the Los Angeles County Museum of Art, Los Angeles, California from on or about June 13, 2004, until on or about October 3, 2004, at the Miami Art Museum, Miami, Florida, from on or about November 18, 2004 until on or about May 1, 2005, and at possible additional venues yet to be determined, is in the national interest. Public Notice of these Determinations is ordered to be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: For further information, including a list of the exhibit objects, contact the Office of the Legal Adviser, U.S. Department of State, (telephone: 202-619-6982). The address is U.S. Department of State, SA-

44, 301 4th Street, SW., Room 700, Washington, DC 20547-0001.

Dated: May 6, 2004.

C. Miller Crouch,

DEPARTMENT OF STATE

[Public Notice 4706]

Notice of Meeting of the Advisory Committee on International Law

A meeting of the Advisory Committee on International Law will take place on Thursday, May 20, 2004, from 10 a.m. to approximately 4 p.m., as necessary, in Room 1105 of the United States Department of State, 2201 C Street, NW., Washington, DC. The meeting will be chaired by the Legal Adviser of the Department of State, William H. Taft, IV, and will be open to the public up to the capacity of the meeting-room. The meeting will discuss various issues relating to current international legal topics, including developments in Iraq, an update on treaties, the decision of the International Court of Justice in *Avena and other Mexican Nationals (Mexico v. U.S.)*, the draft articles on state responsibility produced by the International Law Commission, and NAFTA Chapter 11 arbitrations.

Entry to the building is controlled and will be facilitated by advance arrangements. Members of the public desiring access to the session should, by Tuesday, May 18, 2004 notify the Office of the Assistant Legal Adviser for United Nations Affairs (telephone (202) 647-2767) of their name, Social Security number, date of birth, professional affiliation, address and telephone number in order to arrange admittance. This includes admittance for government employees as well as others. All attendees must use the "C" Street entrance. One of the following valid IDs will be required for admittance: Any U.S. driver's license with photo, a passport, or a U.S. Government agency ID. Because an escort is required at all times, attendees should expect to remain in the meeting for the entire morning or afternoon session.

Dated: May 10, 2004.

Judith L. Osborn,

Attorney-Adviser, Office of United Nations Affairs, Office of the Legal Adviser, Executive Director, Advisory Committee on International Law, Department of State.

BILLING CODE 4710-08-P

DEPARTMENT OF STATE

[Public Notice 4719]

Public Meeting on Universal Postal Union Issues

SUMMARY: The Department of State will host a briefing on Thursday, June 10, 2004, to provide an update on current Universal Postal Union issues, including work leading up to and preparations for the UPU Congress to be held in Bucharest, Romania from September 15 to October 5, 2004.

The briefing will be held from 10 a.m. until 12 noon, on June 10, in Room 1207 of the Department of State, 2201 C Street, NW., Washington, DC. The briefing will be open to the public up to the capacity of the meeting room (40 persons).

The briefing will provide information on the results of the February 2004 sessions of the UPU Council of Administration and Postal Operations Council, whose major focus was to approve proposals and documentation for submission to the Bucharest UPU Congress. Special attention will be paid to several major issues to be taken up by the Bucharest Congress including terminal dues, the creation of a Consultative Committee within the UPU with primary membership from the private sector, service performance measurement, extra-territorial offices of exchange and an outline of the U.S. government's expected goals for the UPU for 2005-2008 period. Information will also be provided on the status of United States preparations for the Bucharest UPU Congress. The briefing will be chaired by Donald Booth, Director of the Office of Technical Specialized Agencies, Bureau of International Organization Affairs of the Department of State.

Entry to the Department of State building is controlled and will be facilitated by advance arrangements. In order to arrange admittance, persons desiring to attend the briefing should, no later than noon on June 9, 2004, notify the Office of Technical and Specialized Agencies, Bureau of International Organization Affairs, Department of State, preferably by fax, providing the name of the meeting and the individual's name, Social Security

number, date of birth, professional affiliation, address and telephone number. The fax number to use is (202) 647-8902. Voice telephone is (202) 647-1044. This request applies to both government and non-government individuals.

All attendees must use the main entrance of the Department of State at 23rd Street between C and D Streets, NW. Please note that under current security restrictions, C Street is closed to vehicular traffic between 21st and 23rd Streets. Taxis may leave passengers at 21st and C Streets, 23rd and C Streets, or 22nd Street and Constitution Avenue. One of the following means of identification will be required for admittance: Any U.S. driver's license with photo, a passport, or any U.S. Government agency identification card.

Questions concerning the briefing may be directed to Mr. Dennis Delehanty at (202) 647-4197 or Heather Von Behren at (202) 647-2753 or via e-mail at delehantydm@state.gov.

Dated: May 10, 2004.

Dennis Delehanty,

Program Officer, Department of State.

BILLING CODE 4710-19-P

DEPARTMENT OF STATE

[Public Notice 4720]

Bureau of Oceans and International Environmental and Scientific Affairs; Certifications Pursuant to Section 609 of Public Law 101-162

SUMMARY: On April 30, 2004, the Department of State certified, pursuant to Section 609 of Public Law 101-162 ("Section 609"), that 14 nations have adopted programs to reduce the incidental capture of sea turtles in their shrimp fisheries comparable to the program in effect in the United States. The Department also certified that the fishing environments in 24 other countries and one economy, Hong Kong, do not pose a threat of the incidental taking of sea turtles protected under Section 609. Shrimp imports from any nation not certified were prohibited effective May 1, 2004 pursuant to Section 609.

EFFECTIVE DATE: May 14, 2004.

FOR FURTHER INFORMATION CONTACT: James Story, Office of Marine Conservation, Bureau of Oceans and International Environmental and Scientific Affairs, Department of State, Washington, DC 20520-7818; telephone: (202) 647-2335.

SUPPLEMENTARY INFORMATION: Section 609 of Public Law 101-162 prohibits

imports of certain categories of shrimp unless the President certifies to the Congress not later than May 1 of each year either: (1) That the harvesting nation has adopted a program governing the incidental capture of sea turtles in its commercial shrimp fishery comparable to the program in effect in the United States and has an incidental take rate comparable to that of the United States; or (2) that the fishing environment in the harvesting nation does not pose a threat of the incidental taking of sea turtles. The President has delegated the authority to make this certification to the Department of State. Revised State Department guidelines for making the required certifications were published in the *Federal Register* on July 2, 1999 (Vol. 64, No. 130, Public Notice 3086).

On April 30, 2004, the Department certified 14 nations on the basis that their sea turtle protection programs are comparable to that of the United States: Belize, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Guyana, Honduras, Mexico, Nicaragua, Pakistan, Panama, Suriname, and Trinidad and Tobago.

The Department also certified 24 shrimp harvesting nations and one economy as having fishing environments that do not pose a danger to sea turtles. Sixteen nations have shrimping grounds only in cold waters where the risk of taking sea turtles is negligible. They are: Argentina, Belgium, Canada, Chile, Denmark, Finland, Germany, Iceland, Ireland, the Netherlands, New Zealand, Norway, Russia, Sweden, the United Kingdom, and Uruguay. Eight nations and one economy only harvest shrimp using small boats with crews of less than five that use manual rather than mechanical means to retrieve nets, or catch shrimp using other methods that do not threaten sea turtles. Use of such small-scale technology does not adversely affect sea turtles. The eight nations and one economy are: the Bahamas, China, the Dominican Republic, Fiji, Hong Kong, Jamaica, Oman, Peru and Sri Lanka.

The Department of State has communicated the certifications under Section 609 to the Office of Trade Program of the United States Customs Service.

Dated: May 5, 2004.

David A Balton,

Deputy Assistant Secretary for Oceans and Fisheries, Department of State.

[FR Doc. 04-11013 Filed 5-13-04; 8:45 am]

BILLING CODE 4710-09-P

**OFFICE OF THE UNITED STATES
TRADE REPRESENTATIVE**
Identification of Countries that Deny Adequate Protection, or Market Access, for Intellectual Property Rights Under Section 182 of the Trade Act of 1974

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: Notice is hereby given that the United States Trade Representative (USTR) has submitted its annual report on the identification of those foreign countries that deny adequate and effective protection of intellectual property rights or deny fair and equitable market access to United States persons that rely upon intellectual property protection, and those foreign countries determined to be priority foreign countries, to the Committee on Finance of the United States Senate and the Committee on Ways and Means of the United States House of Representatives, pursuant to section 182 of the Trade Act of 1974, as amended (the Trade Act) (19 U.S.C. 2242).

DATES: This report was submitted on May 3, 2004.

ADDRESSES: Office of the United States Trade Representative, 600 17th Street, NW., Washington, DC 20508.

FOR FURTHER INFORMATION CONTACT: Brian Peck, Senior Director for Intellectual Property, at (202) 395-6864, or Stan McCoy, Assistant General Counsel, or Dan Mullaney, Associate General Counsel, at (202) 395-7305.

SUPPLEMENTARY INFORMATION: Section 182 of the Trade Act requires USTR to identify within 30 days of the publication of the National Trade Estimate Report all trading partners that deny adequate and effective protection of intellectual property rights or deny fair and equitable market access to U.S. persons who rely on intellectual property protection. Those countries that have the most onerous or egregious acts, policies, or practices that have the greatest adverse impact (actual or potential) on the relevant U.S. products are to be identified as priority foreign countries, unless they are entering into good faith negotiations or are making significant progress in bilateral or multilateral negotiations to provide adequate and effective protection for intellectual property rights. In identifying countries in this manner, the USTR is directed to take into account the history of intellectual property laws and practices of the foreign country, including any previous identifications

as a priority foreign country, and the history of efforts of the United States, and the response of the foreign country, to achieve adequate and effective protection and enforcement of intellectual property rights. In making these determinations, the USTR must consult with the Register of Copyrights, the Commissioner of Patents and Trademarks, and other appropriate officials of the Federal Government, and must take into account information from other sources such as information submitted by interested persons.

On May 3, 2004, USTR identified 52 trading partners that deny adequate and effective protection of intellectual property or deny fair and equitable market access to United States artists and industries that rely upon intellectual property protection. USTR maintained Ukraine's designation as a Priority Foreign Country, and again designated Paraguay and China for Section 306 monitoring to ensure both countries comply with the commitments made to the United States under bilateral intellectual property agreements.

USTR also announced placement of 15 trading partners on the Priority Watch List: Argentina, the Bahamas, Brazil, Egypt, the European Union, India, Indonesia, Korea, Kuwait, Lebanon, Pakistan, the Philippines, Russia, Taiwan, and Turkey. In addition, USTR placed 34 trading partners on the Watch List. USTR will conduct out-of-cycle reviews of China, Israel, Malaysia, Poland and Taiwan.

Brian Peck,
Senior Director for Intellectual Property.

BILLING CODE 3190-W4-P

**OFFICE OF THE UNITED STATES
TRADE REPRESENTATIVE**
Trade Policy Staff Committee; Request for Public Comment on Review of Employment Impact of United States-Andean Free Trade Agreement Negotiations

AGENCIES: Office of the United States Trade Representative. Department of Labor.

ACTION: Request for comments.

SUMMARY: The Trade Policy Staff Committee (TPSC) gives notice that the Office of the United States Trade Representative (USTR) and the Department of Labor (Labor) are initiating a review of the impact of the proposed U.S.-Andean Free Trade Agreement (FTA) on United States employment, including labor markets.

This notice seeks written public comment on potentially significant sectoral or regional employment impacts (both positive and negative) in the United States as well as other likely labor market impacts of the FTA.

DATES: USTR and Labor will accept any comments received during the course of the negotiations of the FTA. However, comments should be received by noon, June 7, 2004, to be assured of timely consideration in the preparation of the report.

ADDRESSES: Submissions by electronic mail: FR0427@ustr.gov. Submissions by facsimile: Gloria Blue, Executive Secretary, Trade Policy Staff Committee, at (202) 395-6143.

FOR FURTHER INFORMATION CONTACT: For procedural questions concerning public comments, contact Gloria Blue, Executive Secretary, TPSC, Office of the USTR, 1724 F Street, NW., Washington, DC 20508, telephone (202) 395-3475. Substantive questions concerning the employment impact review should be addressed to Jorge Perez-Lopez, Director, Office of International Economic Affairs, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210, telephone (202) 693-4883; or William Clatanoff, Assistant U.S. Trade Representative for Labor, telephone (202) 395-6120.

SUPPLEMENTARY INFORMATION:
1. Background Information

On November 18, 2003, in accordance with section 2104(a)(1) of the Trade Act of 2002, the United States Trade Representative notified the Congress of the President's intent to enter into negotiations on a free trade agreement with Colombia, Peru, Ecuador, and Bolivia. The notification letters to the Congress can be found on the USTR Web site at http://www.ustr.gov/new/fta/Andean/2003-11-18-notification_letter.pdf. We intend to launch negotiations the week of May 17, 2004.

On December 8, 2003, the USTR requested the U.S. International Trade Commission (ITC) provide advice on probable economic effects. The ITC delivered this report to the USTR on April 8, 2004.

In addition, USTR also published a notice in the *Federal Register* soliciting views from the public on the negotiations in general and held hearings on March 17-18, 2004 pursuant to the Trade Act.

2. Employment Impact Review

Section 2102(c)(5) of the Bipartisan Trade Promotion Authority Act of 2002, 19 U.S.C. 3802(c)(5), directs the President to "review the impact of future trade agreements on United States employment, including labor markets, modeled after Executive Order 13141 to the extent appropriate in establishing procedures and criteria, report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate on such review, and make that report available to the public." USTR and the Department of Labor will conduct the employment reviews through the TPSC.

The employment impact review will be based on the following elements, which are modeled to the extent appropriate after those in EO 13141. The review will be: (1) Written; (2) initiated through a notice in the *Federal Register* soliciting public comment and information on the employment impact of the FTA in the United States; (3) made available to the public in draft form for public comment, to the extent practicable; and (4) made available to the public in final form.

Comments may be submitted on potentially significant sectoral or regional employment impacts (both positive and negative) in the United States as well as other likely labor market impacts of the FTA. Persons submitting comments should provide as much detail as possible in support of their submissions.

3. Requirements for Submissions

To ensure prompt and full consideration of responses, the TPSC strongly recommends that interested persons submit comments by electronic mail to the following e-mail address: FR0427@ustr.gov. Persons making submissions by e-mail should use the following subject line: "Andean Employment Review." Documents should be submitted in WordPerfect, MSWord, or text (.TXT) files. Supporting documentation submitted as spreadsheets is acceptable in Quattro Pro or Excel format. For any document containing business confidential information submitted electronically, the file name of the business confidential version should begin with the characters "BC-", and the file name of the public version should begin with the character "P-". The "P-" or "BC-" should be followed by the name of the submitter. Persons who make submissions by e-mail should not provide separate cover letters; information that might appear in a cover

letter should be included in the submission itself. To the extent possible, any attachments to the submission should be included in the same file as the submission itself, and not as separate files.

Written comments will be placed in a file open to public inspection pursuant to 15 CFR 2003.5, except confidential business information exempt from public inspection in accordance with 15 CFR 2003.6. Confidential business information submitted in accordance with 15 CFR 2003.6 must be clearly marked "BUSINESS CONFIDENTIAL" at the top of each page, including any cover letter or cover page, and must be accompanied by a non-confidential summary of the confidential information. All public documents and non-confidential summaries shall be available for public inspection in the USTR Reading Room in Room 3 of the Annex of the Office of the USTR, 1724 F Street, NW., Washington, DC 20508. An appointment to review the file may be made by calling (202) 395-6186. The USTR Reading Room is generally open to the public from 10 a.m.-12 noon and 1-4 p.m. Monday through Friday. Appointments must be scheduled at least 48 hours in advance.

Carmen Suro-Bredie,
Chairman, Trade Policy Staff Committee.

BILLING CODE 3190-01-P

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Passenger Manifest Information; Notice of Request for Renewal of a Currently Approved Information Collection

AGENCY: Office of the Secretary, (OST), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for renewal and comment. The ICR describes the nature of the information collection and its expected cost and burden. The *Federal Register* Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 20, 2002 [FR 67, page 59326]. No comments were received.

DATES: Comments must be submitted on or before June 14, 2004. A comment to

OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Jack Schmidt, Competition and Policy Analysis Division, Office of Aviation Analysis; Office of the Secretary, U.S. Department of Transportation, 400 7th Street, SW., Washington, DC 20590-0002, Telephone (202)366-5420.

SUPPLEMENTARY INFORMATION:

Title: Passenger Manifest Information.
OMB Control Number: 2105-0534.

Affected Public: U.S. and foreign direct air carriers.

Annual Estimated Burden: 1.05 million hours.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention OST Desk Officer.

Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on May 7, 2004.

Michael A. Robinson,
Information Collection Clearance Officer.

Aircraft Accident Liability Insurance; Notice of Request for Renewal of a Currently Approved Information Collection

AGENCY: Office of the Secretary (OST), DOT.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for renewal and comment. The ICR describes the nature of the information collection and its expected burden. The *Federal Register* Notice with a 60-day

comment period soliciting comments on the following collection of information published on January 30, 2004 [FR Vol. 69, No. 20, Page 4556]. No comments were received.

DATES: Comments must be submitted on or before June 14, 2004. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Delores King, Air Carrier Fitness Division (X-56), Office of Aviation Analysis, Office of the Secretary, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590, (202) 366-2343.

SUPPLEMENTARY INFORMATION:

Title: Aircraft Accident Liability Insurance, 14 CFR Part 205.

OMB Control Number: 2106-0030.
Affected Public: U.S. and Foreign Air Carriers.

Annual Estimated Burden: 2,763 hours.

Abstract: 14 CFR Part 205 contains the minimum requirements for air carrier accident liability insurance to protect the public from losses and directs that certificates evidencing appropriate coverage must be filed with the Department.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention OST Desk Officer.

Comments are invited on whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collections; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques of other forms of information technology.

Issued in Washington, DC, on May 7, 2004.

Michael A Robinson,

Information Collection Clearance Officer.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Agency Information Collection Activities Under OMB Review

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requests (ICR) abstracted below have been forwarded to the Office of Management and Budget (OMB) for extension of the currently approved collections. The ICR describes the nature of the information collection and the expected burden. The Federal Register Notice with a 60-day comment period soliciting comments on the following collections of information was published on March 9, 2004, pages 10806-10807.

DATES: Comments must be submitted on or before June 14, 2004. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Judy Street on (202) 267-9895.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

1. *Title:* Certification Procedures for Products and Parts, FAA Part 21.

Type of Request: Revision of a currently approved collection.

OMB Control Number: 2120-0018.
Forms(s): FAA Forms 8110-12, 8130-1, 8130-6, 8130-9, and 8130-12.

Affected Public: A total of 5,100 aircraft parts designers, manufacturers, and owners.

Abstract: 14 CFR part 21 prescribes certification procedures for aircraft, aircraft engines, propellers, products and parts. The information collected is used to determine compliance and applicant eligibility. The respondents are aircraft parts designers, manufacturers, and aircraft owners.

Estimated Annual Burden Hours: An estimated 44,101 hours annually.

2. *Title:* Certificate: Mechanics, Repairmen, Parachute Riggers, and Inspection Authorizations—FAR Part 65.

Type of Request: Revision of a currently approved collection.

OMB Control Number: 2120-0022.
Forms(s): FAA Forms 8610-1, 8610-2.

Affected Public: A total of 38,441 airmen.

Abstract: Title 49 U.S.C. 44702 and 44703 authorize the issuance of airman certificates. FAR Part 65 prescribes requirements for mechanics, repairmen, parachute riggers, and inspection authorizations. The information collected shows applicant eligibility for certification.

Estimated Annual Burden Hours: An estimated 34,432 hours annually.

3. *Title:* Terrain Awareness and Warning System (TAWS).

Type of Request: Extension of a currently approved collection.

OMB Control Number: 2120-0631.
Forms(s): NA.

Affected Public: None, as this collection is performed by a passive electronic safety device.

Abstract: This rule mandates TAWS for all turbine powered airplanes of 6 or more passenger seating. TAWS is a passive, electronic, safety device located in the airplane's avionics bay. TAWS alerts pilots when there is terrain in the airplane's flight path.

Estimated Annual Burden Hours: Since this is a passive collection activity, 1 hour is assigned for recordkeeping purposes only.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention FAA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; and ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on May 6, 2004.

Judith D. Street,

FAA Information Collection Clearance Officer, Standards and Information Division, APF-100.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Receipt of Noise Compatibility Program and Request for Review for Reid-Hillview Airport, San Jose, CA

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for the Reid-Hillview Airport under the provisions of 49 U.S.C. 47501

et seq. (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR part 150 by the County of Santa Clara, California. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted under 14 CFR part 150 for Reid-Hillview Airport were in compliance with applicable requirements, effective January 13, 2004. The proposed noise compatibility program will be approved or disapproved on or before November 3, 2004.

EFFECTIVE DATE: The effective date of the start of FAA's review of the noise compatibility program is May 7, 2004. The public comment period ends July 6, 2004.

FOR FURTHER INFORMATION CONTACT: Joseph Rodriguez, Supervisor, Planning Section, San Francisco Airports District Office, Federal Aviation Administration, 831 Mitten Road, Burlingame, CA 94010, Telephone (650) 876-2805. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This noise announces that the FAA is reviewing a proposed noise compatibility program for Reid-Hillview Airport, which will be approved or disapproved on or before November 3, 2004. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA has formally received the noise compatibility program for Reid-Hillview Airport, effective on May 7, 2004. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 47504 of the Act. Preliminary review of the submitted material indicates that it conforms to FAR part 150 requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by

law to a maximum of 180 days, will be completed on or before November 3, 2004.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR Part 150, § 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety or create an undue burden on interstate or foreign commerce, and whether they are reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments relating to these factors, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps and the proposed noise compatibility program are available for examination at the following locations:

Federal Aviation Administration,
National Headquarters, Community
and Environmental Needs Division,
APP-600, 800 Independence Avenue,
SW., Room 621, Washington, DC
20591.

Federal Aviation Administration,
Western-Pacific Region Office,
Airports Division, Room 3012, 15000
Aviation Boulevard, Hawthorne,
California 90261.

Federal Aviation Administration, San
Francisco Airports District Office, 831
Mitten Road, Burlingame, California
94010-1303.

W. Carl Honaker Acting Director of
County Airports, County of Santa
Clara, Roads & Airports Department,
Airports Division, 2500 Cunningham
Avenue, San Jose, California 94148.

Questions may be directed to the
individual named above under the
heading **FOR FURTHER INFORMATION
CONTACT.**

Issued in Hawthorne, California on May 7,
2004.

Mark A. McClardy,
Manager, Airports Division, Western-Pacific
Region, AWP-600.

Federal Aviation Administration

[Summary Notice No. PE-2004-31]

Petitions for Exemption; Dispositions of Petitions Issued

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of dispositions of prior
petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption part 11 of Title 14, Code of Federal Regulations (14 CFR), this notice contains the dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

267-5174), Office of Rulemaking (ARM-
1), Federal Aviation Administration,
800 Independence Avenue, SW.,
Washington, DC 20591.

This notice is published pursuant to
14 CFR 11.85 and 11.91.

Issued in Washington, DC on May 11,
2004.

Donald P. Byrne,

Assistant Chief Counsel for Regulations.

Dispositions of Petitions

Docket No.: FAA-2004-17474.

Petitioner: Zero Gravity Corporation.

Sections of 14 CFR Affected: 14 CFR
25.785(j) and 25.1447(c)(1).

Description of Relief Sought: To allow
an interior configuration which includes
a "floating area" where persons can
experience weightless flight on a
specially modified Boeing Model 727
airplane. *Grant of Exemption, 05/05/
2004, Exemption No. 8306.*

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Research, Engineering and Development Advisory Committee**

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of meeting.

Pursuant to section 10(A)(2) of the Federal Advisory Committee Act (Public Law 92-463; U.S.C. App. 2), notice is hereby given of a meeting of the FAA Research, Engineering and Development (R,E&D) Advisory Committee.

Name: Research, Engineering & Development Advisory Committee.

Time and Date: June 8, 2004—8:30 a.m. to 4:30 p.m.

Place: Federal Aviation Administration, 800 Independence Avenue, SW.,—Bessie Coleman Room, Washington, DC 20591.

Purpose: On June 8 from 8:30 a.m. to 4:30 p.m. the meeting agenda will include receiving from the Committee guidance for FAA's research and development investments in the areas of air traffic services, airports, aircraft safety, human factors and environment and energy.

Attendance is open to the interested public but seating is limited. Persons wishing to attend the meeting or obtain information should contact Gloria Dunderman at the Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591 (202) 267-8937 or gloria.dunderman@faa.gov.

Members of the public may present a written statement to the Committee at any time.

Issued in Washington, DC, on May 10, 2004.

Joan Bauerlein,

Director of Operations Planning Research & Development.

[FR Doc. 04-11001 Filed 5-13-04; 8:45 am]

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Notice of Intent To Rule on Application 04-10-U-00-CRW To Use the Revenue From a Passenger Facility Charge (PFC) at Yeager Airport, Charleston, WV**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to use the revenue from a PFC at Yeager Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget

Reconciliation Act of 1990) (Pub. L. 101-508) and part 158 of the Federal Aviation Regulations (14 CFR part 158).

DATES: Comments must be received on or before June 14, 2004.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Beckley Airports District Office, 176 Airport Circle, Room 101, Beaver, West Virginia 25813.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. Richard Atkinson, Director of Aviation of the Central West Virginia Regional Airport Authority at the following address: 100 Airport Road, Suite 175, Charleston, West Virginia 25311-1080.

Air carriers and foreign air carriers may submit copies of written comments previously provided to the Central West Virginia Regional Airport Authority under § 158.23 of part 158.

FOR FURTHER INFORMATION CONTACT: Mr. Larry F. Clark, Manager, Airports District Office, 176 Airport Circle, Room 101, Beaver, West Virginia 25813, (304) 252-6216. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to use the revenue from a PFC at Yeager Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101-508) and part 158 of the Federal Aviation Regulations (14 CFR part 158).

On May 3, 2004, the FAA determined that the application to use the revenue from a PFC submitted by Central West Virginia Regional Airport Authority was substantially complete within the requirements of section 158.25 of part 158. The FAA will approve or disapprove the application, in whole or in part, no longer than August 6, 2004.

The following is a brief overview of the application.

PFC Application No.: 04-10-U-00-CRW.

Level of the proposed PFC: \$4.50.

Proposed charge effective date: August 1, 2002.

Proposed charge expiration date: April 1, 2003.

Total estimated PFC revenue: \$912,000.

Brief description of proposed project:
—Taxiway A Relocation

Class or classes of air carriers which the public agency has requested not be required to collect PFCs:

—Under FAR Part 135—Charter Operators for hire to the general public

—Under FAR Part 121—Unscheduled Charter Operators for hire to the general public

—Non-signatory and non-scheduled Air Carriers

Any person may inspect the application in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT** and at the FAA regional airports office located at: 1 Aviation Plaza, Airports Division, AEA-610, Jamaica, New York 11434.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the Central West Virginia Regional Airport Authority.

Issued in Beckley, West Virginia, on May 3, 2003.

Larry F. Clark,

Manager, Beckley ADO, Eastern Region.

DEPARTMENT OF TRANSPORTATION**Federal Motor Carrier Safety Administration**

[Docket Nos. FMCSA-99-6156, FMCSA-99-6480, FMCSA-2001-10578, FMCSA-2002-11714]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemption; request for comments.

SUMMARY: This notice publishes the FMCSA decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 13 individuals. The FMCSA has statutory authority to exempt individuals from vision standards if the exemptions granted will not compromise safety. The agency has concluded that granting these exemptions will provide a level of safety that will be equivalent to, or greater than, the level of safety maintained without the exemptions for these commercial motor vehicle (CMV) drivers.

DATES: This decision is effective June 3, 2004. Comments from interested persons should be submitted by June 14, 2004.

ADDRESSES: You may submit comments identified by DOT DMS Docket Numbers FMCSA-99-6156, FMCSA-

99-6480, FMCSA-2001-10578, and FMCSA-2002-11714 by any of the following methods:

- *Web site:* <http://dms.dot.gov>.

Follow the instructions for submitting comments on the DOT electronic docket site.

- *Fax:* 1-202-493-2251.

• *Mail:* Docket Management Facility; U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC 20590-0001.

• *Hand Delivery:* Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

• *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

Instructions: All submissions must include the agency name and docket numbers for this notice. For detailed instructions on submitting comments and additional information on the rulemaking process, see the Public Participation heading of the Supplementary Information section of this document. Note that all comments received will be posted without change to <http://dms.dot.gov>, including any personal information provided. Please see the Privacy Act heading under Regulatory Notices.

Docket: For access to the docket to read background documents or comments received, go to <http://dms.dot.gov> at any time or to Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

FOR FURTHER INFORMATION CONTACT: Ms. Sandra Zywockarte, Office of Bus and Truck Standards and Operations, (202) 366-2987, FMCSA, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590-0001. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Public Participation: The DMS is available 24 hours each day, 365 days each year. You can get electronic submission and retrieval help guidelines under the "help" section of the DMS Web site. If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments on-line.

Privacy Act: Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review the Department of Transportation's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78) or you may visit <http://dms.dot.gov>.

Exemption Decision

Under 49 U.S.C. 31315 and 31136(e), the FMCSA may renew an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR Part 381. This notice addresses 13 individuals who have requested renewal of their exemptions in a timely manner. The FMCSA has evaluated these 13 applications for renewal on their merits and decided to extend each exemption for a renewable 2-year period. They are:

Ronnie F. Bowman
 Trixie L. Brown
 Thomas L. Corey
 Dennis E. Krone
 James F. Laverdure
 Christopher P. Leffler
 Robert P. Martinez
 Keith G. McCully
 Richard J. McKenzie, Jr.
 Bobby G. Minton
 Kenneth R. Piechnik
 Melvin B. Shumaker
 David E. Steinke

These exemptions are extended subject to the following conditions: (1) That each individual have a physical exam every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10); and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized

Federal, State, or local enforcement official. Each exemption will be valid for 2 years unless rescinded earlier by the FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than 2 years from its approval date and may be renewed upon application for additional 2-year periods. In accordance with 49 U.S.C. 31315 and 31136(e), each of the 13 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (64 FR 54948, 65 FR 159, 67 FR 17102, 64 FR 68195, 65 FR 20251, 67 FR 38311, 66 FR 53826, 66 FR 66966, 67 FR 15662, 67 FR 37907). Each of these 13 applicants has requested timely renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past 2 years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, the FMCSA concludes that extending the exemption for each renewal applicant for a period of 2 years is likely to achieve a level of safety equal to that existing without the exemption.

Comments

The FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). However, the FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by June 14, 2004.

In the past the FMCSA has received comments from Advocates for Highway and Auto Safety (Advocates) expressing continued opposition to the FMCSA's procedures for renewing exemptions from the vision requirement in 49 CFR 391.41(b)(10). Specifically, Advocates

objects to the agency's extension of the exemptions without any opportunity for public comment prior to the decision to renew, and reliance on a summary statement of evidence to make its decision to extend the exemption of each driver.

The issues raised by Advocates were addressed at length in 66 FR 17994 (April 4, 2001). The FMCSA continues to find its exemption process appropriate to the statutory and regulatory requirements.

Issued on: May 10, 2004.

Rose A. McMurray,
Associate Administrator, Policy and Program Development.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Finance Docket No. 34075]

Six County Association of Governments—Construction and Operation Exemption—Rail Line between Levan and Salina, UT

AGENCIES: Lead: Surface Transportation Board. Cooperating: U.S.D.I. Bureau of Land Management, DOT.

ACTION: Notice of availability of final scope of analysis for the Environmental Impact Statement (EIS).

SUMMARY: On July 30, 2001, the Six County Association of Governments (SCAOG), a regional association representing Juab, Millard, Sevier, Sanpete, Piute, and Wayne Counties in central Utah, filed a Petition for Exemption with the Surface Transportation Board (Board) pursuant to 49 U.S.C. 10502 for authority to construct and operate a new rail line between Levan and Salina, Utah. The Proposed Action, also referred to as the Central Utah Rail Project (CURP), would involve about 43 miles of new rail line and related facilities to serve shippers in central Utah, particularly the coal operations of the Southern Utah Fuels Company (SUFCO). Because constructing and operating this Proposed Action appears to have some potential to cause significant environmental impacts, the Board's Section of Environmental Analysis (SEA) has determined that preparing an Environmental Impact Statement (EIS) is appropriate.

To help determine the scope of the EIS, and as required by the Board's regulations at 49 CFR 1105.10(a), SEA published the Notice of Intent to prepare an EIS in the **Federal Register**

on September 30, 2003, and served it on interested members of the public. On October 22 and 23, 2003, SEA held public scoping meetings in Salina and Gunnison, Utah, as part of the EIS scoping process as discussed in the Notice of Scoping Meetings and Request for Comments published by the Board on October 20, 2003.

Based on input received during the scoping process, SEA developed a Draft Scope for the EIS. On December 24, 2003, SEA published the Notice of Availability of Draft Scope for the EIS and Request for Comments in the **Federal Register** and made it available to the public. The scoping comment period concluded on January 26, 2004. After reviewing and considering all comments received, this notice sets forth the Final Scope of the EIS.

The Final Scope, which can be found at the end of this document, incorporates the provisions from the Draft Scope as appropriate, and includes changes made to the Draft Scope as a result of the comments. The Final Scope also summarizes and addresses the principal environmental concerns raised by the comments.

During the scoping comment period, SEA invited the U.S. Department of the Interior, Bureau of Land Management (BLM) to participate as a cooperating agency in the preparation of the EIS because the Proposed Action could affect lands administered by BLM. In a letter to the Board dated January 21, 2004, BLM accepted SEA's invitation to participate as a cooperating agency on this Proposed Action. Future references in this document to SEA include BLM.

In addition to issuing the Final Scope of the EIS, SEA is providing a 30-day comment period for interested parties to submit comments on a new proposed alternative. The new proposed alternative will be referred to as Alternative C. Citizens attending scoping meetings on October 22 and 23, 2003, proposed Alternative C as a modification to applicant's proposed alignment. SEA is seeking public comment on Alternative C in order to ensure public input in the assessment of the potential feasibility of this proposed alternative. Alternative C is discussed in detail in the supplementary information provided below. SEA will prepare a Draft EIS (DEIS) for the Proposed Action. The 30-day comment period on Alternative C is in addition to the comment period that will be provided on all aspects of the DEIS when that document is made available to the public.

Filing Environmental Comments on Alternative C: Interested persons and agencies are invited to comment on

Alternative C. Written comments are due on June 14, 2004. A signed original and one copy of comments should be submitted to Surface Transportation Board, Case Control Unit, STB Finance Docket No. 34075, 1925 K Street, NW., Washington, DC 20423-001. Mark in the lower left corner of the envelope: Attention: Phillis Johnson-Ball, Environmental Filing.

FOR FURTHER INFORMATION, CONTACT: Ms. Phillis Johnson-Ball, SEA Project Manager, Section of Environmental Analysis, Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. Ms. Johnson-Ball may also be reached at (202) 565-1530 (Hearing Impaired 1-800-877-8339) or e-mail: johnson-ballp@stb.dot.gov. The Web site for the Surface Transportation Board is www.stb.dot.gov.

Ms. Nancy DeMille, BLM Project Manager, Realty Specialist, Richfield Field Office, Bureau of Land Management, 150 East 900 North, Richfield, UT 84701. Ms. DeMille may also be reached at (435) 896-1515 or e-mail: Nancy_DeMille@ut.blm.gov.

The Final Scope is available for review at the following locations: Salina Public Library, 90 W. Main Street, Salina, UT 84654-1353, Gunnison Public Library, 38 W. Center Street, Gunnison, UT 84634.

SUPPLEMENTARY INFORMATION:

Background

The Proposed Action, known as the CURP, would involve about 43 miles of new rail line and related facilities to serve shippers in central Utah, particularly the coal operations of the SUFCO. SCAOG would operate on average one to two loaded trains per day comprising 100 to 110 rail cars each, totaling approximately 42,000 to 44,000 loaded rail cars per year. SCAOG plans to transport coal as its principal commodity. Depending on the success of marketing the new rail service, other miscellaneous commodities could be transported. None of these commodities are expected to be hazardous.

The purpose of the Proposed Action, as set forth by SCAOG in its petition filed with Board, is to access a number of industries, primarily coal mines owned by SUFCO located 30 miles east of Salina. Due to an absence of rail access, these industries currently move all goods by truck. SCAOG believes that the Proposed Action would reduce the number of coal trucks using portions of five highways: I-70, SR-50, I-15, SR-28 and SR-10. Most segments of these roads currently carry 750 trucks per day, with 1500 trucks passing through downtown Salina each day at a rate of

one truck per minute. SCAOG states that reducing the number of trucks on these roads would decrease roadway congestion, increase the quality of life through towns such as Salina, Centerfield, Gunnison and Fayette, and reduce wear and tear on state roads and interstates.

By decision served October 26, 2001, the Board issued a decision finding that, from a transportation perspective, the proposed construction and operation meet the standards in 49 U.S.C. 10502 for an exemption from the formal application procedures of 49 U.S.C. 10901. The Board will issue a final decision after completion of the environmental review process, as to whether the exemption authority should be allowed to go into effect.

Environmental Review Process

The Board is the lead agency for this EIS process, pursuant to 40 CFR 1501.5. SEA is responsible for ensuring that the Board complies with the National Environmental Policy Act (NEPA), 42 U.S.C. 4321-4335, and related environmental statutes. SEA is the office within the Board responsible for conducting the environmental review process.

The NEPA environmental review process is intended to assist the Board, the BLM and the public in identifying and assessing the potential environmental consequences of a Proposed Action and Alternatives before a decision on the Proposed Action is taken. The NEPA regulations require the Board and the BLM to consider a reasonable range of reasonable and feasible alternatives to the Proposed Action. The President's Council on Environmental Quality (CEQ), which oversees the implementation of NEPA, has stated in *Forty Most Asked Questions Concerning CEQ's National Environmental Policy Act Regulations* that "[R]easonable alternatives include those that are practical or feasible from the technical and economic standpoint and using common sense * * *"

In the DEIS, SEA is considering a full range of alternatives that meet the purpose and need of the Proposed Action, as well as the No-Action Alternative. Some alternatives have been dismissed from further analysis because they have been determined to be infeasible or not reasonable. The DEIS will include a brief discussion of the reasons for eliminating certain alternatives from detailed analysis and will contain an appropriate discussion of Alternative C.

In addition, the DEIS will address those environmental issues and concerns identified during the scoping

process and detailed in the Draft Scope served December 24, 2003, and this Final Scope. The DEIS will also contain recommended environmental mitigation measures, as appropriate. After the DEIS is complete, SEA will make it available for public review and comment. SEA will then prepare a Final EIS (FEIS) that reflects SEA's further analysis, as appropriate, and the comments on the DEIS.

BLM as a cooperating agency pursuant to 40 CFR 1501.6 will participate during all phases of the DEIS and FEIS development and intends to adopt the EIS for BLM's decision-making purposes, as it pertains to the described public lands. Upon filing of an official right-of-way application with the BLM regarding the potentially impacted public lands, the application would be processed in accordance with BLM policies, procedures and guidelines, which would include an internal interdisciplinary team review for approval and adoption of the EIS analysis of the pertinent environmental resource issues, analysis, monitoring and mitigation (if appropriate). BLM's participation as a cooperating agency is expected to streamline the environmental review process associated with obtaining right-of-way on BLM lands.

In reaching its final future decisions on this case, the Board will take into account the full environmental record, including the DEIS, the FEIS, and all public and agency comments received.

Proposed Action and Alternatives

Based on analysis conducted to date and comments received during the scoping process, SEA has determined that the reasonable and feasible alternatives¹ that will be discussed in the EIS are:

(1) The "No-Action Alternative," referred to as Alternative A. This alternative is the no build alternative, in which case there would be no new rail line construction and no application to BLM involving federal lands.

(2) Alternatives B and B1. These alternatives include constructing and operating the SCAOG preferred alternative as identified in its petition (Alternative B) to the Board and Alternative B1, a modification to Alternative B developed during scoping. Alternative B and Alternative B1 are shown in Figure 1, attached, as well as

¹ Under NEPA, an applicant's goals are important in defining the range of feasible alternatives. NEPA does not require discussion of an alternative that is not reasonably related to the purpose of the proposal considered by the agencies. *Citizens Against Burlington, Inc. v. Busey*, 938 F.2d 190 (D.C. Cir. 1991).

on a large-scale map available for viewing at the Salina Public Library, and the Gunnison Public Library (addresses listed above).

(3) As noted above, another alternative, referred to as Alternative C, was identified during the public scoping process by local landowners. According to local landowners, Alternative C was developed to minimize potential impacts to landowners' property. Because Alternative C was not considered in the Draft Scope, SEA is seeking additional information from the public to assist in determining whether Alternative C is a reasonable and feasible alternative that would meet the purpose and need of the petitioner's Proposed Action, and therefore should be analyzed in detail in the DEIS. A general description of the alignment is set forth below. Alternative C is also shown on Figure 1, attached, and on a large-scale map available for viewing at the Salina Public Library, and the Gunnison Public Library (addresses listed above). Based on the comments and its own independent investigation SEA will determine whether Alternative C is a reasonable and feasible alternative and will set forth its position in the DEIS.

Alternative A—No-Action Alternative

Consistent with the CEQ regulations implementing NEPA (40 CFR 1502.14(d)), the EIS will consider the No-Action Alternative. Under the No-Action Alternative, no new rail line or terminal facilities would be constructed. No new train operations through the Sevier Valley would be conducted, and rail operations on the UPRR line would not change. Trucks would continue to move coal from central Utah via the highways in the Sevier Valley. There would also be no application to BLM involving federal land.

Alternative B—Applicant's Proposed Action

Alternative B would involve construction of approximately 43 miles of new rail line. Alternative B would be generally north-south and would pass to the east of Chicken Creek Reservoir and through the Juab Plain, a valley between mountains to the east and west. Alternative B begins with a connection with Union Pacific Railway's mainline near Levan, Utah. The connection at UPRR would be a wye between the Juab and Sharp Sidings. The alignment would move southward and east of an irrigation pond called Chicken Creek Reservoir. The line would generally follow a path near an existing power transmission line that moves through the center of an area known as the Juab

Plain. The Plain consists of the valley between two foothill and mountainous areas on the east and west. The alignment would run parallel with the eastern boundary of Yuba Reservoir, a man-made irrigation facility.

The alignment continues along the eastern shore area until it reaches the middle of Yuba where the reservoir significantly narrows at a point south of Yuba State Park. There the alignment would cross Yuba Lake. This crossing would be adjacent to a location where a high-voltage transmission line currently crosses the reservoir.

From this point, the alignment would continue southward along the western marshy boundary of Yuba. Where the alignment leaves the southern end of Yuba, it would continue southward along the western side of the Sevier Valley near points where the foothills intersect with irrigated farmlands. The alignment would continue southward on the valley's western side, passing on the west side of the town of Redmond and roughly paralleling the existing high-voltage transmission line. After passing Redmond, the alignment would move eastward towards the center of the valley. The line would cross State Highway 50 on the west side of Salina City and continues southward crossing State Highway 118 (Old Highway 89) and the Sevier River. The alignment would move along the western side of some hills near the Salina industrial park and would terminate just before reaching Interstate 70 in an area known as Lost Creek, near Salina, Utah.

Alternative B1

Alternative B1 would also involve construction of approximately 43 miles of new rail line. Alternative B1 would follow the same alignment as Alternative B to a point north of the Redmond salt mines, where it would be located to the south-southwest of Alternative B. Alternative B1 would roughly run parallel to the Paiute Canal on the east side of the canal until a point just north of Route 50 where it would gradually curve eastward, crossing Route 50 and terminating at the proposed loading facility near the Salina industrial park.

Alternative C

Alternative C, the alternative suggested by landowners during the public scoping process, which may or may not be deemed a reasonable and feasible alternative would follow the same alignment as Alternatives B and B1 until a point about 4.5 miles north of the county line between Sanpete and Sevier Counties. Alternative C would diverge from the other alignments and

run south on the west side of the Piute Canal about 0.5 to 1.0 mile west of Alternative B1. It would remain east of the existing high-voltage transmission line. Alternative C would then continue south, essentially parallel to and west of Alternative B1 and the Piute Canal, and would cross the Sanpete/Sevier County border. It would reconverge with Alternative B1 about 0.5 mile north of where Alternate B crosses Route 50, about 3 miles west of Salina.

An option proposed with Alternative C would be to locate the coal-loading facility on the north side of Route 50 near its intersection with State Route 256.

Participation

Public Participation

As discussed above, SEA served a Notice of Intent in the **Federal Register** on September 30, 2003, announcing the start of the scoping process and the dates and times of public meetings. Additional methods used to notify the public of the scoping meetings included the following:

SEA placed paid legal advertisements in the following newspapers:

- *The Salt Lake Tribune* and *Deseret News* (statewide circulation) on October 16, 2003.
- *Sanpete Messenger* (Manti) on October 16, 2003.
- *The Pyramid* (Mt. Pleasant) on October 16, 2003.
- *The Richfield Reaper* (Richfield) on October 16, 2003.
- *Salina Sun* and *Gunnison Valley News* (Gunnison) on October 15, 2003.
- *The Times-News* (Nephi) on October 15, 2003.

SEA prepared a media release and sent it out to the media on October 20, 2003. SEA distributed about 70 newsletters to individuals on the SEA's environmental mailing list on October 14, 2003. Several media outlets ran stories about the Proposed Action before and after the public meetings. The dates and publications of those articles are listed below:

- October 8, 2003—*The Richfield Reaper* (Richfield).
- October 8, 2003—*Gunnison Valley News* and *Salina Sun* (Gunnison).
- October 8, 2003—*The Times-News* (Nephi).
- October 29, 2003—*Gunnison Valley News* and *Salina Sun* (Gunnison).
- October 29, 2003—*The Richfield Reaper* (Richfield).
- November 5, 2003—*The Richfield Reaper* (Richfield).

In October 2003, SEA held two open-house-format public scoping meetings. Below are the dates and locations of the public scoping open houses:

Wednesday, October 22, 2003

North Sevier High School, Salina, Utah.

Thursday, October 23, 2003

Gunnison City Hall, Gunnison, Utah.

Thirty-six individual comments were received at the two meetings and there were a total of 107 signatures on the attendance sheets. Following the meetings, an additional 34 written comments were received.

Agency Participation

Before the beginning of the public scoping period, SEA began inviting appropriate agencies with interests in the corridor to participate in the environmental review process. Their comments helped SEA determine what level of study was environmentally warranted for the proposed rail line. The agencies were asked to help identify potential environmental issues and concerns in the corridor. An agency scoping meeting was held on May 21, 2003, to solicit additional agency comments regarding the Proposed Action.

Letters of notification for the meeting were mailed on April 1, 2003, to about 44 agencies. These letters invited the agencies to attend the agency scoping meeting and provide comments on the Proposed Action. Project representatives made follow-up phone calls to the invitees on April 24 through April 25, 2003, and again on May 15, 2003, to ensure that the agencies received notice of the May 21, 2003, meeting. There were 29 attendees at this meeting representing 19 agencies.

These agencies were also invited to submit comments during SEA's public scoping period. A letter with project information, a request for their comments, and an invitation to the public scoping meetings was mailed to these agencies on October 14, 2003.

The comments collected from the agencies both before and during the public scoping period were used to help identify issues that need further review in the EIS process. A total of 37 agency comments were received before and during the public scoping period.

Native American Consultation

SEA initiated and followed a Tribal Consultation Plan involving federally recognized Native American tribes. The federally recognized Native American tribes represented in Utah were included in all public and agency scoping efforts. Additional outreach attempts were made to involve the tribes in the EIS process.

Utah is home to seven federally recognized Native American tribes: the

Confederated Tribes of the Goshute Reservation; the Navajo Nation; the Northwestern Band of Shoshone Nation of Utah (Washakie); the Skull Valley band of Goshute of Utah, the Ute Indian Tribe of the Uintah and Ouray Reservation; the Utah Mountain Tribe of the Ute Mountain Reservation and the Paiute Indian Tribe of Utah (consisting of the Cedar City, Kanosh, Koosharen, Indian Peaks and Shivkits bands). Other federally recognized tribes have an ancestral connection to the State of Utah and have been considered in the consultation process. Below is a detailed list of coordination efforts used to involve the tribes in the EIS process.

- Tribal contacts were mailed letters of invitation to attend the agency scoping meeting on May 21, 2003.
 - Invitations were mailed on May 7, 2003.
 - Project representatives invited the tribes to attend a drive-through of potential rail corridor alignments on May 20, 2003.
 - Phone calls were made to the tribal points-of-contact the week of May 12, 2003, inviting them to the drive-through and reminding them about the agency scoping meeting.
 - Follow-up letters and a tour itinerary were sent to the tribes on May 14, 2003.
 - The tribes were sent individual letters as well as project newsletters inviting them to the public scoping meetings and requesting their input on identifying sensitive environmental and cultural areas in the Central Utah Rail corridor.
 - Letters were sent on October 8, 2003.
 - Newsletters were sent on October 14, 2003.
 - Follow-up phone calls to the tribes were made on October 14, 2003, to make sure the tribes were aware of the public scoping meetings and again requesting their comments regarding the project.
 - A letter and maps were sent on request to the Skull Valley Band of Goshute Indians on January 7, 2004.
 - Follow-up calls were made to the Skull Valley Band of Goshute Indians between January 8 and January 14, 2004.
- In short, as part of the environmental review process to date, SEA has conducted broad public outreach activities to inform the public, agencies and federally recognized Native American tribes about the Proposed Action and alternatives and to facilitate public participation. SEA has and will continue to consult with federal, state, and local agencies, affected communities, federally recognized Native American Tribes and all interested parties to gather and

disseminate information about the proposal.

Response to Comments

SEA reviewed and considered approximately 113 comments detailing 622 individual issues to prepare this Final Scope for the EIS. The Final Scope incorporates provisions of the Draft Scope with changes made as a result of these comments and SEA's further analysis. The discussion below summarizes and addresses the principal environmental concerns raised by the comments and presents additional discussion to further clarify the Final Scope.

The Draft Scope included the following impact categories: Land Use, Biological Resources, Water Resources, Geology and Soils, Air Quality, Noise, Energy Resources, Socioeconomics, Safety, Transportation Systems, Cultural and Historical Resources, Recreation, Aesthetics, Environmental Justice, and Cumulative Impacts. This Final Scope includes additional and more detailed information on these environmental issue areas based on agency and public comments.

1. Rail Operations and Safety

Comments regarding safety near the rail line and at crossings for people and animals. Several landowners expressed a concern regarding safety near the proposed new rail line. Other landowners pointed to alleged safety impacts to homes in close proximity to the rails, children living near the rails, livestock/rail collisions grazing near the rails, wildlife crossings and potential bus/rail conflict. The comments stressed the need for appropriate safety measures near proposed crossings. Several comments requested fencing along the rail line to prevent livestock from being hit on the tracks. Comments supported grade separation at all rail crossings. Utah Department of Natural Resource (UDNR) stated that the EIS should include reference to the Yuba Lake State Park entrance road.

Response. The EIS will assess potential safety impacts at at-grade crossings and the area near the proposed new line, including any crossings of the entrance road to Yuba Lake State Park. The EIS will consider mitigation measures (where appropriate) to minimize or eliminate project impacts.

Comments on daily train operations: Comments indicated a need for more information about the operation of the proposed rail line, specifically hours of operations and frequency of trains. BLM also questioned the status of contract assurances for transported goods, licensing requirements for the rail line,

construction and maintenance requirements for the rail line, and impacts to existing utility rights-of-way.

Response. The EIS will address rail operations including hours of operation, frequency of trains, and any potential safety impacts related to construction and operation of the proposed rail line. The EIS will also describe the Federal Railroad Administration's regulatory framework for rail safety. The EIS will explain the Board's licensing authority as it applies to the introduction of new rail service.

Comments regarding hazardous materials transportation safety and water contamination. The Utah Department of Environmental Quality, the town of Redmond, and one landowner stated that cargo spills could contaminate local water supplies. Comments from The United States Environmental Protection Agency (EPA) requested that the EIS present information comparing the risk of spills and releases of the No-Action Alternative (transporting the coal by truck) and the feasible build alternatives.

Response. At this time, no hazardous materials are proposed to be transported over the new line. The EIS will discuss the safety risks of transport of the coal by truck and by rail, including the potential for cargo spills.

2. Land Use

General comments regarding land use. Comments questioned the potential impacts that the proposed rail line could have on public lands and grazing allotments. BLM comments stated that the EIS should address consistency with federal, state, local, and tribal land use plans.

Response. The EIS will describe existing land use patterns within the project area and identify those uses that would be affected by the proposed rail line construction and operation. Additionally, the EIS will describe potential impacts to farming, ranching and public lands. A discussion of the Proposed Action's and alternatives consistency with federal, state, local, and tribal land use plans will be included in the EIS. The EIS will reflect the input of BLM, a cooperating agency, and consultations with other agencies and organizations. The EIS will use the best available information to analyze any potential impacts in the area affected by the Proposed Action and alternatives.

Comments regarding farmland and property values. The majority of comments regarding land use stated that the proposed rail line would adversely affect existing farmland and property

values. Landowners noted the potential adverse impacts to individual family farms, particularly impacts to irrigation and access on divided properties. Some commenters proposed private rail crossings as mitigation for loss of access and steel piping as mitigation for irrigation impacts.

Response. The EIS will analyze the potential effects on properties divided by the Proposed Action and any potential impacts on irrigation and mitigation (where appropriate). The social and economic effects that are reasonably foreseeable and that may result from the Proposed Action and alternatives will be analyzed.

3. Biological Resources

Comments regarding large game animals. Some comments support the proposed rail line due to the potential reduction in the number of animals killed by trucks on the highway. Other comments express concern for large game animals being killed by trains. Because the potential alignments cross large-game winter habitat along the routes, UDNR requested that wildlife surveys should be completed through the corridor.

Response. The EIS will identify wildlife corridors in the project area and describe potential impacts to large game that may be affected by operation of the proposed rail line and alternatives.

Comments regarding best management practices. Comments supported the use of best management practices to protect fish and wildlife in the corridor.

Response. The EIS will use the best available information to analyze impacts on fish and wildlife in the corridors including best management practices. The EIS will consider and evaluate the existing plant and animal communities and aquatic resources within the project area and the potential impacts on biological and aquatic resources from construction and operation of the Proposed Action and alternatives.

Comments regarding threatened and endangered species. Comments identified several threatened, endangered, and sensitive species in the corridor as well as several conservation species. The U.S. Fish and Wildlife Service noted that the peregrine falcon is no longer on the Federal Threatened and Endangered Species List. Comments requested coordination with the applicable biological resource agencies. Additional comments from landowners raised concerns about the impacts that construction would have on the neighboring ecosystems.

Response. SEA will coordinate with applicable biological resource agencies

while preparing the EIS. The EIS will describe existing biological resources within the project area, including vegetative communities, wildlife and fisheries, federal and state threatened or endangered species, and the potential impacts on those resources. The EIS will address the impacts of the Proposed Action on these resources, including avoidance, minimization, and mitigation (where appropriate), depending on the potential effects identified in the EIS.

Comments regarding the Utah Division of Wildlife Resources, Redmond Wildlife Management Area. The Utah Division of Wildlife Resources (UDWR) stated that the EIS should address impacts to the Redmond Wildlife Management Area (WMA), which is protected under the Redmond Wetlands Conservation Easement. In addition, the UDNR stressed the importance of considering in the EIS impacts to wetland and upland habitats, wildlife species that rely on the WMA, public access to the WMA, and the source of water for the wetlands in the WMA. UDNR's comments also indicated that the EIS should reference Yuba Lake State Park.

Response. The EIS will consider potential impacts to the Redmond WMA and the Yuba Lake State Park and evaluate potential impacts to wetlands, plant and animal communities, scenic resources and recreational uses. The EIS will address the impacts of the Proposed Action and alternatives on these resources, including avoidance, minimization, and mitigation (where appropriate), depending on the potential effects identified in the EIS.

Comments regarding invasive species. BLM requested that the EIS address invasive and non-native species.

Response. The EIS will address the potential for the spread of invasive and non-native species as a result of the Proposed Action and alternatives.

4. Water Resources

Comments regarding interruption in water services and drainage. Landowners stated that the proposed rail line would cut irrigation canals and pipelines and interrupt the flow of irrigation water to crops and livestock. Comments requested that measures be taken to avoid existing canals and ditches. Other comments proposed relocating affected culverts, ditches, and wells as mitigation for the potential impacts of the Proposed Action. EPA and landowners also stated that the rail line would block underground field drains, sprinkler system ponds, water diversion systems, and culinary water supplies for homes and animals. BLM

requested that the EIS address water uses, water availability, and water rights.

Response. The EIS will address potential impacts to existing surface water and groundwater resources, the uses of those waters, and the availability and water rights associated with those waters. Water resources will include lakes, rivers, streams, wetlands, floodplains, irrigation canals, pipelines, ditches, culverts, field drains, sprinkler system ponds, water diversion systems, groundwater wells, and culinary water supplies. The EIS will consider mitigation, as appropriate.

Comments regarding wetland areas. Comments identified wetlands areas near Chicken Creek Reservoir and Yuba Lake. Comments also stressed concerns about disrupting wetlands along the proposed rail corridor. Other comments advise that Alternative B (the Proposed Action) would cross the western point of the Redmond Wetlands Conservation Area easement, and urge the Board to avoid this easement if possible. EPA asked that the EIS include an analysis of wetland impacts sufficient to meet the requirements of the section 404 (b)(1) Guidelines found in 40 CFR part 230. EPA requested a copy of the wetland determination, and raised concerns about potential impacts to water quality from either highway or rail line petrochemical spills is another area of concern expressed by EPA. In this regard, EPA requested that comparative information be developed on the risk of petroleum product spills, coal spills, and construction sediment sediment under the No-Action Alternative, where the rail hauls that would result if this project were approved and implemented would be compared to the existing truck hauls.

Response. The EIS will include a discussion of the potential impacts to wetlands and wetland conservation areas. The approximate acreage of impact will be calculated. The EIS will provide the approximate area of impact to wetlands along each feasible alignment. A wetlands analysis under the Clean Water Act (CWA) section 404(b)(1) is part of a permitting process that involves the petitioner and the United States Corps of Engineers (USACE). The EIS will include a discussion of the CWA section 404 permitting process. The USACE will make the jurisdictional determination regarding wetlands. The EIS will include the results of the determination, if available. The EIS will discuss the safety risks of the transport of the coal by truck and by rail, including the potential for cargo spills. Information regarding environmental impacts

associated with the Proposed Action and alternatives, including the No-Action Alternative will be presented in comparative format.

Comments regarding water quality and vibration impacts. Landowners raised concerns about rail vibrations adversely affecting groundwater by suspending sediment in the water and reducing the quality of domestic and irrigation water supplies. UDWR identified the Yuba Lake as a Class 3 warm-water fishery and asked what impacts vibration from the proposed rail line would have on the lake's water quality.

Response. The EIS will consider the existing groundwater resources within the project area and the potential impacts on these resources from construction and operation, including vibration, associated with the Proposed Action and alternatives. The EIS will address potential impacts to the water quality of Yuba Lake.

Comments regarding source protection zones. The City of Redmond and local landowners stated that the proposed rail line would cross the drinking water source protection zones for their culinary water supply.

Response. The EIS will describe potential impacts to drinking water source protection zones.

5. Geology and Soils

General topographical, geological, and soil comments. Comments requested a geological survey and a soils survey near the Proposed Action. Additional comments identified landslides, rock falls, and problem soils as geological hazards along the route. A few comments questioned if blowing dust from the coal could result in soil sterilization. One comment indicated that the topography associated with Alignment C could result in higher costs than constructing and operating the B Alternative, but that ways should be considered to pass that cost on to the users of the proposed rail line. UDNR stated that the EIS should address paleontological and mineral resources.

Response. The EIS will describe the geology and soils in the project area, including unique formations, problematic/hazardous geology or soils, prime or unique farmland soils, hydric soils, mineral resources, and the potential impacts on these resources resulting from the project and all feasible build alternatives. The EIS will address potential impacts to cultural resources and will describe the results of archeological surveys conducted as part of consultations with the Utah State Historic Preservation Office.

6. Air Quality

Comments stated that the rail line would reduce air pollution by reducing the number of coal trucks on the roads. Other comments stated that the location of the proposed coal loadout near the new industrial park would contaminate the air in Salina. One comment said that there was already a high incidence of lung disease and cancer in the area due to the coal dust from the truck loadout in Salina.

EPA suggests that the EIS document current air quality conditions, using suitable data sets from ambient air monitoring programs. EPA also suggested that the EIS consider the potential cumulative impacts of this project on coal mining and other energy development in the area.

Moreover, EPA indicated that the EIS should include a comprehensive air quality evaluation of effects on pollutants with regulatory standards and pollutants for which regulatory standards have not been set. EPA also requested that the EIS address all of EPA's categories of emissions and consider other air quality related values such as visibility, ozone, and particulate deposition in Class 1 areas. EPA suggested that the EIS compare the decrease in emissions from reducing truck traffic in the Sevier Valley of Utah with the expected increase in emissions that could arise from increased rail traffic. The potential for increased commercial rail transport along the proposed rail-line for commodities other than coal was also mentioned by EPA as an issue area that could warrant consideration in the EIS.

Response. The Board's environmental rules, 49 CFR part 1105, establish the threshold that SEA uses to determine if a detailed air quality evaluation of the proposed construction and operation is required. The Board typically analyzes air impacts where there is an increase of at least eight trains per day, an increase in rail traffic of at least 100 percent (measured in gross ton miles annually), or an increase in rail yard activity of at least 100 percent (measured by carload activity). The Proposed Action is located in an attainment area. The Proposed Action anticipates one or two trains per day, and would not trigger the Board's environmental thresholds requiring air quality impacts analysis.

Available information obtained in consultation with SCAOG suggests that the economic feasibility of the Proposed Action is based on coal shipments from the SUFCO Mine. Based on representations by SUFCO, the volume of coal produced by the mine and subsequently shipped by train or truck

should remain stable for at least 25 years (the life of the mine reserves). Thus, the available information does not suggest that any appreciable increased production at the SUFCO mine is likely if the proposed new rail line is completed. Moreover, the amount of any increase that there could be is speculative. Although production at the SUFCO mine is unlikely to increase, the area does have sizeable coal reserves. For example, the Emery Mine is projected to reopen this year. Other mines in proximity to the proposed rail line could also seek permits to open and begin production. The Utah Division of Oil, Gas and Mining has advised SEA that there has been a few inquiries about possible start up of other mines in the area, but there are no pending applications.

Non-coal businesses could also use the proposed railroad. The proposed line could provide existing and future non-coal businesses that would benefit from using rail transportation with the opportunity for new marketing opportunities, which currently appear to be constrained by the trucking cost to reach a rail loading point.

In short, the potential for increased coal movements and non-coal movements exists, if the proposed new rail line is approved and becomes operational. However, the extent of the potential for increased coal production and the likelihood of new or existing non-coal businesses using the line is speculative and not reasonably foreseeable at this time. For that reason and because the proposed line is in an attainment areas, will handle only one or two trains a day, and will decrease emissions in the Sevier Valley from reduced truck traffic, a comprehensive air quality analysis would be inappropriate and will not be undertaken.

7. Cumulative and Indirect Impacts Associated With Coal Mining

EPA suggested that the EIS address indirect and cumulative impacts of the proposed rail line on coal mining, including the possibility that the SUFCO mine or other mines would expand or be altered. EPA advises that the scope of an EIS should address the requirements of 40 CFR 1508.25. EPA suggests that the Board contact the Office of Surface Mining and Utah's Division of Oil, Gas and Mining to discuss the relationship between this proposed action and the ongoing coal mining that this proposed rail line would serve.

Response. SEA contacted the Utah Energy Office and Utah Division of Oil, Gas and Mining as suggested by EPA.

Both offices advised that the only mine in operation near the proposed line that would likely ship coal, at this time, is SUFCO. Given SUFCO's production projections for coal movements (2003 production was 7,125,797 short tons and 2004 projection is 7,400,000 short tons), the indirect and cumulative impacts of the project on coal mining are likely to be very small. Based on information available to SEA at this time, SEA does not believe that the proposed new rail line would significantly impact coal mining in the area or the state. Moreover, available information suggests that any potential expansion or altering of coal production related to the proposed line is entirely speculative at this time.

8. Vibrations

Comments on impacts due to vibrations. Landowners expressed concerns that vibrations from trains would damage homes and personal property near the rail lines. Additional comments from landowners stated that vibrations would damage existing water wells and affect water quality by stirring sediments into the water. EPA pointed out that the change in ground vibration due to the passing trains could affect nearby residents if there are any residences adjacent to the proposed rail line.

Response. The EIS will discuss operational and construction-induced vibration. The EIS will address potential impacts to homes and water wells from vibrations resulting from train operations.

9. Noise

Comments regarding noise impacts. Comments stated that the Proposed Action would disrupt the quiet of the farming communities near the alignment. Additional concerns were raised about the effects that the noise from the Proposed Action would have on livestock due to higher background noise. UDWR stated that Yuba Lake State Park Painted Rocks Campground and Day-Use Beach should be included in the EIS as a sensitive receptor. BLM asked that impacts of noise on recreation and wildlife are potential issues that should be addressed. EPA recommended that the EIS describe the potential 55 dBA L_{dn} noise contour since there is potential in that contour for sensitive individuals to be affected through sleep interference or sleep deprivation.

Response. Typically, SEA's approach is to analyze noise impacts that would meet or exceed the Board's thresholds (an increase in train traffic of at least eight trains per day or an increase in rail

traffic of a least 100 percent measured in gross ton miles annually (see 49 CFR 1105.7e(6)) for environmental analysis as a result of the Proposed Action. Here, the petitioner maintains that it would operate on average one to two loaded trains per day. Thus, the thresholds for noise analysis are not met in this case. However, in response to concerns raised by EPA and other commenters, the EIS will briefly discuss existing noise levels and describe the potential noise impacts from constructing and operating the proposed new rail line on sensitive receptors (houses, schools, campgrounds, and parks) where the noise increase could exceed 3 dBA L_{dn} or where noise levels would increase to a noise level of 65 dBA L_{dn} or greater. The Board's regulations use an incremental increase in noise levels of three decibels L_{dn} or more, or an increase to a noise level of 65 L_{dn} or greater as noise impact analysis thresholds. Sixty-five L_{dn} is the standard consistently used by the Board in all of its environmental review analysis. SEA does not find that there is sufficient evidence to depart from its general practices in this case.

10. Energy Resources

General comments regarding energy. Comments regarding energy stated that local businesses would use less diesel fuel if they could replace trucks with rail service. BLM's comments noted that the U.S. Geological Survey (USGS) could be a valuable resource for mineral and energy information.

Response. The EIS will describe the potential impacts of the proposed new rail line on the distribution of energy resources in the project area, including petroleum, gas pipelines and overhead electric transmission lines.

Comments regarding mineral resources. BLM requested that the EIS address mineral resources, including mineral rights, mining claims, and known sources of saleable, leasable, and locatable minerals.

Response. The EIS will address mineral resources under Geology and Soils.

11. Socioeconomics

Comments regarding socioeconomic impacts to businesses. Comments stated that the proposed rail line would improve the area's economy by helping existing businesses remain competitive and by offering new businesses an incentive to locate in the area. Some landowners stated that the rail line would affect local farming operations and requested mitigation for those impacts. Other landowners stated that changes in the livestock environment

could reduce the quality of the beef, which would translate into a loss of income. Comments expressed concern that Alternative B would result in higher costs to farmers for farm improvements due to vibrations and the impacts of the trains.

Response. The EIS will examine economic and social effects that are reasonably foreseeable and that may result from the Proposed Action and alternatives. As part of the EIS socioeconomic analysis, the EIS will analyze economic impacts, including effects on income associated with the Proposed Action and alternatives.

Comments regarding socioeconomic impacts due to property acquisitions. One landowner stated that the proposed rail line would cut through a proposed subdivision and the landowner requested that the alignment be modified to minimize this impact. Other comments asked to modify the alignment to bypass individual properties. Several property owners requested more information about individual property impacts and proposed mitigation for those impacts.

Response. The EIS will describe the potential environmental impacts on residences, residential areas, and communities in the project area. Mitigation measures (where appropriate) will be proposed to minimize or eliminate impacts associated with significant effects on the natural or physical environment.

Comments regarding loss of jobs. Two comments stated that the number of trucking jobs in the area could be reduced if fewer trucks are required to haul coal as a result of this proposal.

Response. The EIS will discuss the potential economic impacts of the Proposed Action and alternatives including effects on jobs and employment in the project area.

12. Cultural and Historical Resources

General comments regarding cultural resources. Comments stated that there are several cultural and archeological sites in the area and requested consultation with the local Native American tribal organizations. Several tribal contacts requested copies of the Cultural Resource Survey has been prepared for the area. UDNR, BLM, and the Utah State Historic Preservation Office expressed concern regarding the impacts the Proposed Action would have on cultural resources in the area.

Response. The EIS will examine the potential impacts on cultural resources and will describe the result of archaeological surveys conducted in the project area as part of consultations with the Utah State Historic Preservation

Officer. SEA will continue to consult with federally recognized Native American tribal organizations.

13. Recreation

Comments regarding Painted Rocks Campground and Yuba Lake. Comments expressed concerns about impacts to the Painted Rocks Campground and Recreation Area. Alternative B would cross the reservoir at Painted Rocks. Comments expressed concern regarding the potential impacts that the proposed rail line could have on recreation facilities and boat navigational hazards because Alternative B crosses the entrance to the campground. Comments expressed concern about restricting public access and emergency response access to public facilities. UDNR stated that the EIS should discuss Yuba Lake and potential impacts to water related recreationalists and their ability to freely traverse the lake.

Response. The EIS will describe the potential impacts of the proposed

project and alternatives on recreation opportunities in the project area.

Comments regarding off highway vehicles (OHVs). BLM commented that there may be a need to discuss impacts to OHV-based recreation and Special Recreation Management Areas.

Response. The EIS will address potential impacts to OHV-based recreation and Special Recreation Management Areas.

14. Aesthetics

Comments requested that the EIS describe conformance with BLM Visual Resource Management class objectives.

Response. The EIS will include a discussion of conformance with BLM VRM class objectives.

15. Environmental Justice

General comment regarding environmental justice. A landowner stated that the Proposed Action would be 100 feet from a residence with two autistic children. This landowner

requested that an environmental justice analysis be undertaken. EPA asked that the EIS identify any minority or low income communities along the proposed rail corridor.

Response. The EIS will address potential impacts of the Proposed Action on environmental justice communities. The most recent Census Bureau data that is available at the time the EIS is prepared will be used. The EIS also will describe the environmental justice outreach efforts undertaken during the scoping process and throughout the preparation of the document. The Web site for the Surface Transportation Board is www.stb.dot.gov.

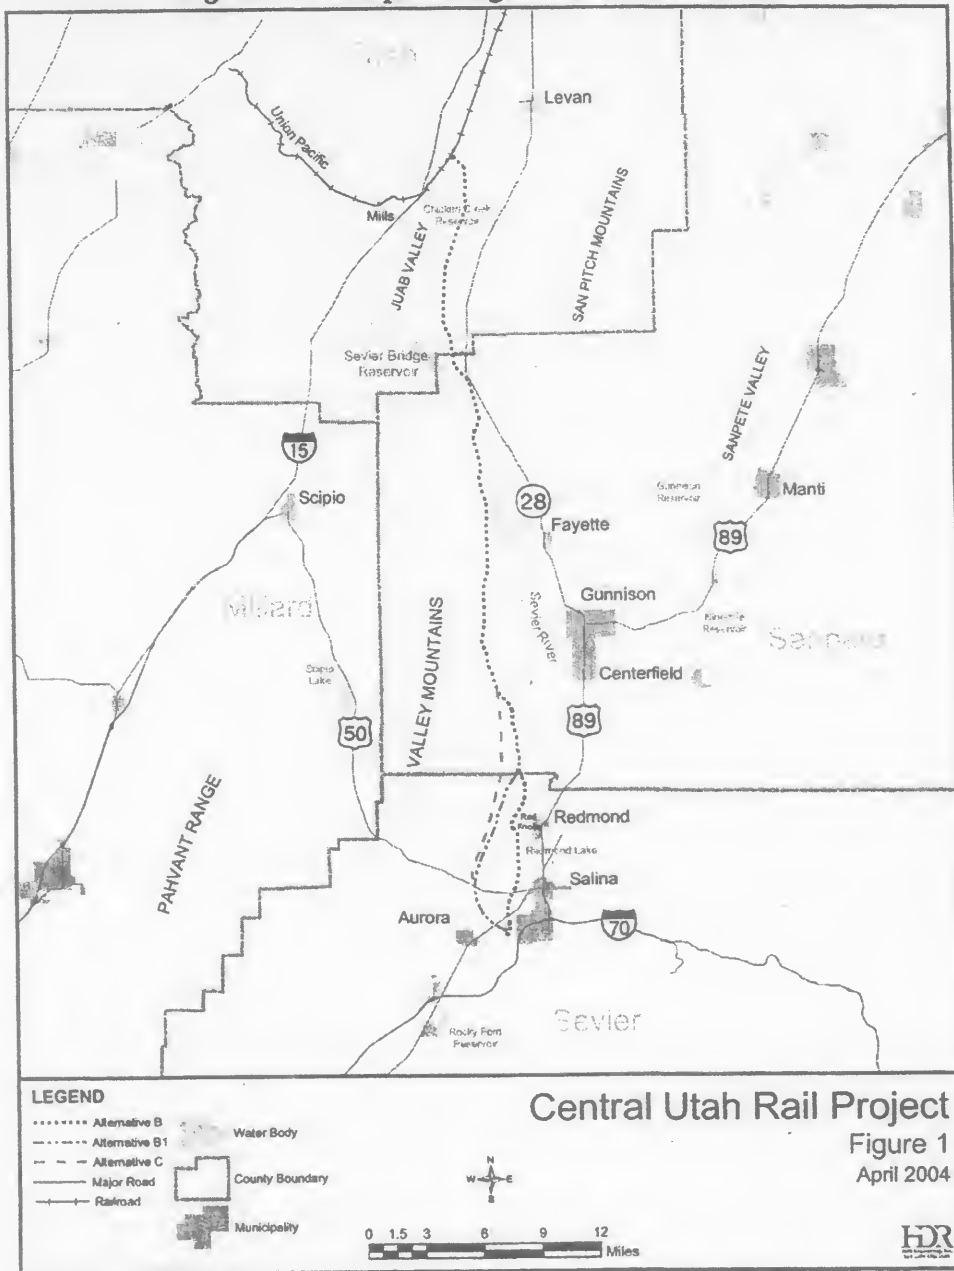

Decided: April 28, 2004.

By the Board, Victoria Rutson, Chief,
Section of Environmental Analysis.

Vernon A. Williams,
Secretary.

BILLING CODE 4915-01-P

Figure 1 - The Proposed Alignment and Alternative C

Notice of Availability of Draft Scope of Analysis for the Environmental Impact Statement

Decided: April 28, 2004.

SUMMARY: On July 30, 2001, the Six County Association of Governments (SCAOG), a regional association representing Juab, Millard, Sevier, Sanpete, Piute, and Wayne counties in central Utah, filed a Petition for Exemption with the Surface Transportation Board (Board) pursuant to 49 U.S.C. 10502 for authority for construction and operation of a proposed new rail line between Levan and Salina, Utah. The project would involve approximately 43 miles of new rail line and ancillary facilities to serve shippers in central Utah, particularly Southern Utah Fuels Company (SUFCO) coal operations. Because the construction and operation of this project has the potential to result in significant environmental impacts, the Board's Section of Environmental Analysis (SEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate. SEA held public scoping meetings as part of the EIS process, as discussed in the Notice of Scoping Meetings and Request for Comments published by the Board on October 20, 2003. As part of the scoping process, SEA has developed a draft Scope of Analysis for the EIS. SEA has made available for public comment the draft Scope of Analysis contained in this notice. SEA will issue a final Scope of Analysis shortly after the close of the comment period. Written comments on the Scope of Study are due January 26, 2004.

Filing Environmental Comments: Interested persons and agencies are invited to participate in the EIS scoping process. A signed original and 10 copies of comments should be submitted to: Surface Transportation Board, Case Control Unit, STB Finance Docket No. 34075, 1925 K Street, NW., Washington, DC 20423-0001 with the following designation written in the lower left-hand corner of the envelope: Attention: Phillis Johnson-Ball, Environmental Project Manager, Environmental Filing.

FOR FURTHER INFORMATION CONTACT: Ms. Phillis Johnson-Ball, Section of Environmental Analysis, Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. The Web site for the Surface Transportation Board is www.stb.dot.gov.

SUPPLEMENTARY INFORMATION:

Draft Scope of Analysis for the EIS

Proposed Action and Alternatives

The Proposed Action, known as the Central Utah Rail project, involves the construction and operation of approximately 43 miles of new rail line connecting the existing Union Pacific Railroad (UPRR) line near Levan, Utah, to a proposed coal transfer terminal facility near Salina, Utah. Implementation of the proposed project would restore rail service to the Sevier Valley, providing a more direct connection to rail service for the coal industry (primarily SUFCO), provide rail service to other shippers in the Sevier Valley, and reduce the number of trucks on highways in the Sevier Valley.

The reasonable and feasible alternatives that will be evaluated in the EIS are (1) construction and operation of the proposed project, (2) the no-action alternative, and (3) alternative alignments identified during the scoping process.

Environmental Impact Analysis

Proposed New Construction

Analysis in the EIS will address the proposed activities associated with the construction and operation of new rail facilities and their potential environmental impacts, as appropriate.

Impact Categories

The EIS will address potential impacts from the proposed construction and operation of new rail facilities on the human and natural environment. Impact areas addressed will include the categories of land use, biological resources, water resources, geology and soils, air quality, noise, energy resources, socioeconomics as they relate to physical changes in the environment, safety, transportation systems, cultural and historic resources, recreation, aesthetics, and environmental justice. The EIS will include a discussion of each of these categories as they currently exist in the project area and will address the potential impacts from the proposed project on each category as described below:

1. Land Use

The EIS will:

- a. Describe existing land use patterns within the project area and identify those uses that would be potentially impacted by proposed rail line construction.
- b. Describe the potential impacts associated with the proposed new rail line construction on land uses identified in the project area. Such impacts may include impacts on farming and ranching activities, incompatibility with

existing land uses, and conversion of land to railroad uses.

c. Propose mitigative measures to minimize or eliminate potential project impacts on land use, as appropriate.

d. Reflect the input of BLM, a cooperating agency, and consultations with other agencies and organizations.

e. Use the best available information to analyze any potential impacts in the project area.

2. Biological Resources

The EIS will:

a. Describe existing biological resources within the project area, including vegetative communities, wildlife and fisheries, and federal and state threatened or endangered species, and the potential impacts on those resources resulting from construction and operation of proposed rail facilities.

b. Describe any wildlife sanctuaries, refuges, and national or state parks, forests, or grasslands within the project area and potential impacts on these resources resulting from construction and operation of the proposed rail line and ancillary facilities.

c. Identify wildlife corridors in the project area and describe potential impacts to large game that may be affected by construction and operation of the proposed new rail line.

d. Use best management practices to protect fish and wildlife in the corridor.

e. Propose mitigative measures to minimize or eliminate potential project impacts on biological resources, as appropriate.

3. Water Resources

The EIS will:

a. Describe the existing surface and groundwater resources within the project area, including lakes, rivers, streams, ponds, wetlands, and floodplains, and the potential impacts on these resources resulting from construction and operation of the proposed rail line and ancillary facilities.

b. Describe the permitting requirements for the proposed new rail line construction regarding wetlands, stream and river crossings, water quality, and erosion and sedimentation control.

c. Describe the existing private water wells located within the project area and potential impacts, if any, to water quality due to vibration from haul trains.

d. Describe current access to irrigation water within the project area and potential impacts due to alignment location.

e. Propose mitigative measures to minimize or eliminate potential project

impacts on water resources, as appropriate.

4. Geology and Soils

The EIS will:

a. Describe the geology and soils within the project area, including unique formations, problematic/hazardous geology or soils, prime or unique farmland soils, hydric soils, and the potential impacts on these resources resulting from the construction and operation of the proposed rail line.

b. Address any potential impacts associated with fugitive dust on soils.

c. Propose mitigative measures to minimize or eliminate potential project impacts on geological resources and/or soils, as appropriate.

5. Air Quality

The EIS will:

a. Describe the attainment status of the project area, including proximity to any Class I or non-attainment area as designated under the Clean Air Act. Estimates of air emissions related to the construction and operation of the proposed new rail line will be prepared.

b. Reflect the fact that the potential for increased coal movements and non-coal movements exists; but that the potential for increased coal production and the likelihood of new or existing non-coal business is speculative and not reasonably foreseeable at this time.

c. Discuss and evaluate the potential air emissions changes from diversion of existing truck emissions to rail.

d. Propose mitigative measures to minimize or eliminate potential air quality impacts related to the construction and operation of the proposed rail line.

6. Cumulative and Indirect Impacts

a. The EIS will address the cumulative impacts on the environment that may result from the Proposed Action when added to other past, present, and reasonably foreseeable future actions, regardless of what agency or individuals undertake such actions.

b. Reasonably foreseeable indirect impacts also will be addressed.

7. Noise

The EIS will:

a. Describe the potential noise impacts of the proposed new rail line construction and operation for those sensitive receptors (houses, schools, etc.) where the increase may exceed 3 dbA Ldn or exceed a total of 65 dbA Ldn.

b. Discuss existing noise levels.

c. Propose mitigative measures to minimize or eliminate potential project impacts on noise receptors, as appropriate.

8. Energy Resources

The EIS will:

a. Describe the potential impact of the proposed new rail line on the distribution of energy resources in the project area, including petroleum and gas pipelines and overhead electric transmission lines.

b. Propose mitigative measures to minimize or eliminate potential project impacts on energy resources, as appropriate.

9. Socioeconomics

The EIS will:

a. Describe the potential environmental impacts on residences, residential areas, and communities within the project area as a result of new rail line construction and operation activities.

b. Discuss economic impacts, including impacts on income associated with the proposed project.

c. Describe the potential environmental impacts on commercial and industrial activities and development in the project area as a result of new rail line construction and operation activities.

d. Propose mitigative measures to minimize or eliminate potential project impacts on socioeconomic resources, as appropriate.

10. Safety

The EIS will:

a. Describe new at-grade rail crossings that would result from construction of the rail line and the potential for an increase in accidents related to the new rail line operations, as appropriate.

b. Describe rail operations and the potential for increased probability of train accidents, as appropriate.

c. Describe safety factors, as appropriate, for rail/pipeline crossings, if any exist in the project area.

d. Describe existing trucking operations for coal hauling and the potential for accidents from those operations.

e. Describe the potential for disruption and delays to the movement of emergency vehicles due to new rail line construction and operations.

f. Propose mitigative measures to minimize or eliminate potential project impacts on safety, as appropriate.

11. Transportation Systems

The EIS will:

a. Describe the potential impacts of new rail line construction and operation on the existing transportation network in the project area, including vehicular delays at at-grade road/rail crossings.

b. Describe potential impacts on navigation associated with the

construction and operation of any proposed bridges.

c. Describe effects of current coal trucking operations on the existing road network and communities.

d. Describe current access to recreation locations within the project area and potential impacts from rail line construction and operation.

e. Propose mitigative measures to minimize or eliminate potential project impacts on transportation systems, as appropriate.

12. Cultural and Historic Resources

The EIS will:

a. Describe the potential impacts on historic structures or districts previously recorded and determined potentially eligible, eligible, or listed on the National Register of Historic Places (NRHP) that are within or immediately adjacent to the right-of-way for the proposed and alternative rail alignments.

b. Describe the potential impacts on archaeological sites previously recorded and either listed as unevaluated or determined potentially eligible, eligible, or listed on the NRHP that are within or immediately adjacent to the right-of-way for the proposed and alternative rail alignments.

c. Describe the potential impacts on historic structures or districts determined to be potentially eligible, eligible, or listed on the NRHP that are within the right-of-way for the proposed and alternative rail alignments.

d. Describe the likelihood for unrecorded, buried archaeological sites to exist within the right-of-way for the proposed and alternative rail alignments, the potential that the sites are eligible for listing on the NRHP, and the potential impact of the rail construction on the sites.

e. Describe the potential general impacts on paleontological resources in the project area due to project construction, if necessary.

f. Propose mitigative measures to minimize or eliminate potential project impacts on cultural and historic resources, as appropriate.

13. Recreation

The EIS will:

a. Describe potential impacts of the proposed new rail line construction and operation on recreational opportunities provided in the project area.

b. Propose mitigative measures to minimize or eliminate potential project impacts on recreation resources, as appropriate.

14. Aesthetics

The EIS will:

- a. Describe the potential impacts of the proposed new rail line construction and operation on any areas determined to be of high visual quality.
- b. Describe the potential impacts of the proposed new rail line construction and operation on any waterways designated or considered for designation as wild and scenic.
- c. Discuss conformance with BLM Visual Resource Management class objectives. d. Propose mitigative measures to minimize or eliminate potential project impacts on aesthetics, as appropriate.

15. Environmental Justice

The EIS will:

- a. Describe demographics in the project area and the immediate vicinity of the proposed new construction, including communities potentially impacted by the construction and operation of the proposed new rail line.
- b. Evaluate whether proposed new rail line construction or operation would have a disproportionately high and adverse impact on minority or low-income groups.
- c. Propose mitigative measures to minimize or eliminate potential project impacts on environmental justice communities, as appropriate.
- d. Discuss any potential indirect and cumulative impacts of the proposed new rail line on coal mining in Utah.

By the Board, Victoria Rutson, Chief, Section of Environmental Analysis.

Dated:

Vernon A. Williams,
Secretary.

BILLING CODE 4915-01-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Docket No. MC-F-21006]

Stagecoach Group PLC and Coach USA, Inc., et al.—Acquisition and Consolidation of Assets—Rockford Coach Lines, L.L.C.

AGENCY: Surface Transportation Board, DOT.

ACTION: Notice tentatively approving finance transaction.

SUMMARY: Stagecoach Group, PLC (Stagecoach), a noncarrier, and its noncarrier intermediate subsidiaries, SCUSI Limited, Coach Administration, Inc., and Coach USA, Inc. (Coach USA), and Sam Van Galder, Inc. (Van Galder), a motor passenger carrier (MC-112422) controlled by Coach USA (collectively,

applicants), have filed an application under 49 U.S.C. 14303 for acquisition and operation of certain assets of Rockford Coach Lines, L.L.C. (Rockford), a motor passenger carrier (MC-66810) and subsidiary of Greyhound Lines, Inc. (Greyhound). The transaction was approved on an interim basis under 49 U.S.C. 14303(i), and the Board is now tentatively granting permanent approval. Persons wishing to oppose the application must follow the rules under 49 CFR 1182.5 and 1182.8. If no opposing comments are timely filed, this notice will be the final Board action.

DATES: Comments are due June 28, 2004. Applicants may reply by July 13, 2004. If no comments are received by June 28, 2004, this notice is effective on that date.

ADDRESSES: Send an original and 10 copies of any comments referring to STB Docket No. MC-F-21006 to: Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, send one copy of comments to applicants' representative: Betty Jo Christian, Steptoe & Johnson, LLP, 1330 Connecticut Ave., NW., Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Beryl Gordon (202) 565-1600. [Federal Information Relay Service (FIRS) for the hearing impaired: 1-800-877-8339.]

SUPPLEMENTARY INFORMATION: Stagecoach, headquartered in Scotland, is one of the world's largest providers of passenger transportation services. It operates in several countries, including the United States, through a series of operating divisions. One such operating division, Coach USA, is a Delaware corporation that currently controls numerous passenger carriers, including Van Galder, one of the subjects of this transaction.

Under the proposed transaction, applicants seek permission to acquire certain assets of Rockford, including Rockford's name, trademarks, service marks, telephone numbers, customer lists, sales records, charter contracts, an airport ticket booth and the federally issued interstate operating authorities of Rockford, as well as a variety of other assets. The Board recently granted interim approval in *Stagecoach Group PLC and Coach USA, Inc., et al.—Acquisition and Consolidation of Assets—Rockford Coach Lines, L.L.C.*, STB Docket No. MC-F-21006 TA (STB served Apr. 29, 2004). Rockford currently operates 19 motorcoaches, and provides regular route service between Rockford, IL, and O'Hare International Airport, charter and tour service in the Northern Illinois area, and charter

operations between points in the Northern Illinois area and points in the United States. According to applicants, Rockford has been losing substantial sums of money in its operations and Greyhound, Rockford's parent, can no longer afford to absorb those losses. As a result, Rockford will cease operations in early May. However, applicants state that there will be a seamless continuation of services previously provided by Rockford through Van Galder.

Applicants have submitted information, as required by 49 CFR 1182.2(a)(7), to demonstrate that the proposed transaction is consistent with the public interest under 49 U.S.C. 14303(b). Applicants state that the proposed transaction will have no impact on the adequacy of transportation services available to the public, that the operations of the carrier involved will remain unchanged, that fixed charges associated with the proposed transaction will not be adversely impacted. Although, applicants may offer employment to some, all or none of the Rockford employees, applicants anticipate that in the absence of this transaction Rockford will cease operations with the loss of employment for all employees. In addition, Applicants have submitted all of the other statements and certifications required by 49 CFR 1182.2. Additional information, including a copy of the application, may be obtained from the applicants' representative.

Under 49 U.S.C. 14303, the Board must approve and authorize a transaction it finds consistent with the public interest, taking into consideration at least: (1) The effect of the transaction on the adequacy of transportation to the public; (2) the total fixed charges that result; and (3) the interest of affected carrier employees.

On the basis of the application, the Board finds that the proposed acquisition of assets is consistent with the public interest and should be authorized. If any opposing comments are timely filed, this finding will be deemed vacated and, unless a final decision can be made on the record as developed, a procedural schedule will be adopted to reconsider the application. See 49 CFR 1182.6(c). If no opposing comments are filed by the expiration of the comment period, this decision will take effect automatically and will be the final Board action.

Board decisions and notices are available on the Board's Web site at www.stb.dot.gov.

This decision will not significantly affect either the quality of the human

environment or the conservation of energy resources.

It is ordered:

1. The proposed acquisition and operation of certain assets of Rockford by applicants is approved and authorized, subject to the filing of opposing comments.

2. If timely opposing comments are filed, the findings made in this decision will be deemed as having been vacated.

3. This decision will be effective on June 28, 2004, unless timely opposing comments are filed.

4. A copy of this decision will be served on: (1) U.S. Department of Transportation, Federal Motor Carrier Safety Administration, 400 7th Street, SW., Room 8214, Washington, DC 20590; (2) the U.S. Department of Justice, Antitrust Division, 10th Street & Pennsylvania Avenue, NW., Washington, DC 20530; and (3) the U.S. Department of Transportation, Office of the General Counsel, 400 7th Street, SW., Washington, DC 20590.

Decided: May 10, 2004.

By the Board, Chairman Nober.

Vernon A. Williams,
Secretary.

BILLING CODE 4915-01-P

DEPARTMENT OF THE TREASURY

Submission for OMB Review; Comment Request

May 3, 2004.

The Department of the Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 11000, 1750 Pennsylvania Avenue, NW., Washington, DC 20220.

DATES: Written comments should be received on or before June 14, 2004 to be assured of consideration.

Internal Revenue Service (IRS)

OMB Number: 1545-0954.

Form Number: IRS Form 1120-ND.

Type of Review: Extension.

Title: Return for Nuclear

Decommissioning Funds and Certain Related Persons.

Description: A nuclear utility files Form 1120-ND to report the income and

taxes of a fund set up by the public utility to provide cash for the dismantling of the nuclear power plant. The IRS uses Form 1120-ND to determine if the fund income taxes are correctly computed and if a person related to the fund or the nuclear utility must pay taxes on self-dealing.

Respondents: Business or other for-profit.

Estimated Number of Respondents/Recordkeepers: 100.

Estimated Burden Hours Respondent/Recordkeeper:

Recordkeeping—23 hr., 26 min.

Learning about the law or the form—3 hr., 7 min.

Preparing the form.—5 hr., 30 min.

Copying, assembling, and sending the form to the IRS—32 min.

Frequency of response: Annually.

Estimated Total Reporting/Recordkeeping Burden: 3,259 hours.

OMB Number: 1545-1722.

Form Number: IRS Form 8873.

Type of Review: Extension.

Title: Extraterritorial Income Exclusion.

Description: A taxpayer uses Form 8873 to claim the gross income exclusion provided for by section 114 of the Internal Revenue Code.

Respondents: Business or other for-profit, Individuals or households.

Estimated Number of Respondents/Recordkeepers: 1,000,000.

Estimated Burden Hours Respondent/Recordkeeper:

Recordkeeping—21 hr., 3 min.

Learning about the law or the form—1 hr., 53 min.

Preparing, copying, assembling, and sending the form to the IRS—2 hr., 25 min.

Frequency of response: Annually.

Estimated Total Reporting/Recordkeeping Burden: 25,450,000 hours.

Clearance Officer: Glenn P. Kirkland, (202) 622-3428, Internal Revenue Service, Room 6411-03, 1111 Constitution Avenue, NW., Washington, DC 20224.

OMB Reviewer: Joseph F. Lackey, Jr., (202) 395-7316, Office of Management and Budget, Room 10235, New Executive Office Building, Washington, DC 20503.

Lois K. Holland,

Treasury PRA Clearance Officer.

[FR Doc. 04-10914 Filed 5-13-04; 8:45 am]

BILLING CODE 4830-01-P

DEPARTMENT OF THE TREASURY

Submission for OMB Review; Comment Request

May 6, 2004.

The Department of the Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 11000, 1750 Pennsylvania Avenue, NW., Washington, DC 20220.

DATES: Written comments should be received on or before June 14, 2004 to be assured of consideration.

Internal Revenue Service (IRS)

OMB Number: 1545-0773.

Regulation Project Number: TD 8172 Final.

Type of Review: Extension.

Title: Qualification of Trustee or Like Fiduciary in Bankruptcy.

Description: Internal Revenue Code (IRC) section 6036 requires executors or receivers to advise the district director of their appointment or authorization to act. This information is necessary so that IRS will know of the proceedings and who to contact for delinquent returns or taxes.

Respondents: Individuals or households.

Estimated Number of Respondents: 50,000.

Estimated Burden Hours Respondent: 15 minutes.

Frequency of response: Other (nonrecurring).

Estimated Total Reporting Burden: 12,500 hours.

OMB Number: 1545-0782.

Regulation Project Number: LR-7 (TD 6629) Final.

Type of Review: Extension.

Title: Limitation on Reduction in Income Tax Liability Incurred to the Virgin Islands.

Description: The Tax Reform Act of 1986 repealed the mandatory reporting and recordkeeping requirements of section 934(d) (1954 Code). The prior exception to the general rule of section 934 (1954 Code) to prevent the Government of the Virgin Islands from granting tax rebates with regard to taxes attributable to income derived from sources within the U.S. was contingent upon the taxpayers' compliance with

reporting requirements of section 934(d).

Respondents: Individuals or households, Business or other for-profit.

Estimated Number of Respondents/Recordkeepers: 500.

Estimated Burden Hours Respondent/Recordkeeper: 22 minutes.

Frequency of response: On occasion.

Estimated Total Reporting/

Recordkeeping Burden: 184 hours.

OMB Number: 1545-1138.

Regulation Project Number: INTL-

955-86 Final.

Type of Review: Extension.

Title: Requirements for Investments to Qualify Under Section 936(d)(4) as Investments in Qualified Caribbean Basin Countries.

Description: The collection of information is required by the Internal Revenue Service to verify that an investment qualifies under IRC section 936(d)(4). The recordkeepers will be possession corporations, certain financial institutions located in Puerto Rico, and borrowers of funds covered by this regulation.

Respondents: Business or other for-profit.

Estimated Number of Recordkeepers: 50.

Estimated Burden Hours

Recordkeeper: 30 hours.

Estimated Total Recordkeeping

Burden: 1,500 hours.

OMB Number: 1545-1165.

Form Number: IRS Form 8821.

Type of Review: Extension.

Title: Tax Information Authorization.

Description: Form 8821 is used to appoint someone to receive or inspect certain tax information. Data is used to identify appointees and to ensure that confidential information is not divulged to unauthorized persons.

Respondents: Individuals or households, Business or other for-profit, Not-for-profit institutions, Farms.

Estimated Number of Respondents/Recordkeepers: 200,000.

Estimated Burden Hours Respondent/Recordkeeper:

Recordkeeping—6 min.

Learning about the law or the form—12 min.

Preparing the form—24 min.

Copying and sending the form to the IRS—20 min.

Frequency of response: On occasion.

Estimated Total Reporting/

Recordkeeping Burden: 210,450 hours.

OMB Number: 1545-1255.

Regulation Project Number: INTL-

870-89 NPRM.

Type of Review: Extension.

Title: Earnings Stripping (Section

163(j)).

Description: Certain taxpayers are

allowed to write off the fixed basis of

the stock of an acquired corporation rather than the adjusted basis of the assets of the acquired corporation to elect special treatment under section 163(j).

Respondents: Business or other for-profit.

Estimated Number of Respondents/Recordkeepers: 2,300.

Estimated Burden Hours Respondent/Recordkeeper: 31 minutes.

Frequency of response: Annually.

Estimated Total Reporting/

Recordkeeping Burden: 1,196 hours.

OMB Number: 1545-1351.

Form Number: IRS Form 8833.

Type of Review: Extension.

Title: Treaty-Based Return Position Disclosure under Section 6114 or 7701(b).

Description: Form 8833 is used by taxpayers that are required by section 6114 to disclose a treaty-based return position to disclose that position. The form may also be used to make the treaty-based position disclosure required by regulations section 301.7701(b)-7(b) for "dual resident" taxpayers.

Respondents: Business or other for-profit, Individuals or households.

Estimated Number of Respondents/Recordkeepers: 6,000.

Estimated Burden Hours Respondent/Recordkeeper:

Recordkeeping—3 hr., 6 min.

Learning about the law or the form—1 hr., 35 min.

Preparing and sending the form to the IRS—1 hr., 42 min.

Frequency of response: Annually.

Estimated Total Reporting/

Recordkeeping Burden: 38,460 hours.

OMB Number: 1545-1433.

Regulation Project Numbers: CO-11-91 Final and CO-24-95 Final.

Type of Review: Extension.

Title: CO-11-91 Final: Consolidated

Groups and Controlled Groups—Inter-

company Transactions and Related

Rules; and CO-24-95 Final:

Consolidated Groups—Inter-company

Transactions and Related Rules.

Description: The regulations require common parents that make elections under Section 1.1502-13 to provide certain information. The information will be used to identify and assure that the amount, location, timing and attributes of inter-company transactions and corresponding items are properly maintained.

Respondents: Business or other for-profit.

Estimated Number of Respondents/Recordkeepers: 2,200.

Estimated Burden Hours Respondent/

Recordkeeper: 29 minutes.

Frequency of response: Occasionally.

Estimated Total Reporting/

Recordkeeping Burden: 1,050 hours.

OMB Number: 1545-1576.

Form Number: IRS Form 1098-E.

Type of Review: Extension.

Title: Student Loan Interest

Statement.

Description: Section 6050S(b)(2) of the Internal Revenue Code requires persons (financial institutions, governmental units, etc.) to report \$600 or more of interest paid on student loans to the IRS and the students.

Respondents: Individuals or households, Business or other for-profit, Not-for-profit institutions, State, Local or Tribal Government.

Estimated Number of Respondents/Recordkeepers: 200,000.

Estimated Burden Hours Respondent/Recordkeeper: 7 minutes.

Frequency of response: Annually.

Estimated Total Reporting/

Recordkeeping Burden: 1,051,357 hours.

OMB Number: 1545-1748.

Regulation Project Number: REG-

106917-99 Final.

Type of Review: Extension.

Title: Changes in Accounting Periods.

Description: Section 1.441-2(b)(1)

requires certain taxpayers to file

statements on their federal income tax

returns to notify the Commissioner of

the taxpayers' election to adopt a 52-53-

week taxable year. Section 1.442-1(b)(4)

provides that certain taxpayers must

establish books and records that clearly

reflect income for the short period

involved when changing their taxable

year to a fiscal taxable year. Section

1.442-1(d) requires a newly married

husband or wife to file a statement with

their short period return when changing

to the other spouse's taxable year.

Respondents: Business or other for-

profit, Individuals or households.

Estimated Number of Respondents/

Recordkeepers: 1,000.

Estimated Burden Hours Respondent/

Recordkeeper: 30 minutes.

Frequency of response: On occasion.

Estimated Total Reporting/

Recordkeeping Burden: 500 hours.

OMB Number: 1545-1878.

Form Number: IRS Form 8879-EO.

Type of Review: Extension.

Title: IRS e-file Signature

Authorization for an Exempt

Organization.

Description: Form 8879-EO

authorizes an officer of an exempt

organization and electronic return

originator (ERO) to sue a personal

identification number (PIN) to

electronically sign an organization's

electronic income tax return and, if

applicable, Electronic Funds

Withdrawal Consent.

Respondents: Not-for-profit

institutions.

Estimated Number of Respondents/Recordkeepers: 800.
Estimated Burden Hours Respondent/Recordkeeper:

Recordkeeping—3 hr., 35 min.
Learning about the law or the form—12 min.

Preparing the form—15 min.
Frequency of response: Annually.

Estimated Total Reporting/Recordkeeping Burden: 3,240 hours.

OMB Number: 1545-1879.

Form Number: IRS Form 8453-EO.

Type of Review: Extension.

Title: Exempt Organization Declaration and Signature for Electronic Filing.

Description: Form 8453-EO is used to enable the electronic filing of Forms 990, 990-EZ, or 1120-POL.

Respondents: Not-for-profit institutions.

Estimated Number of Respondents/Recordkeepers: 200.

Estimated Burden Hours Respondent/Recordkeeper:

Recordkeeping—4 hr., 18 min.
Learning about the law or the form—12 min.

Preparing, copying, assembling, and sending the form to the IRS—16 min.

Frequency of response: Annually.
Estimated Total Reporting/Recordkeeping Burden: 956 hours.

BILLING CODE 4830-01-P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Proposed Collection; Comment Request for Form 8736

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information

collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)). Currently, the IRS is soliciting comments concerning Form 8736, Application for Automatic Extension of Time To File U.S. Return for a Partnership, REMIC, or for Certain Trusts.

DATES: Written comments should be received on or before July 13, 2004 to be assured of consideration.

ADDRESSES: Direct all written comments to Glenn P. Kirkland, Internal Revenue Service, room 6411, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the form and instructions should be directed to R. Joseph Durbala at Internal Revenue Service, room 6407, 1111 Constitution Avenue NW., Washington, DC 20224, or at (202) 622-3634, or through the Internet at RJoseph.Durbala@irs.gov.

SUPPLEMENTARY INFORMATION:

Title: Application for Automatic Extension of Time To File U.S. Return for a Partnership, REMIC, or for Certain Trusts.

OMB Number: 1545-1054.

Form Number: Form 8736.

Abstract: Form 8736 is used by partnerships, REMICs, and by certain trusts to request an automatic 3-month extension of time to file Form 1065, Form 1066 or Form 1041. Form 8736 contains data needed by the IRS to determine whether or not a taxpayer qualifies for such an extension.

Current Actions: There are no changes being made to the form at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 36,000.

Estimated Time Per Respondent: 3 hours, 41 minutes.

Estimated Total Annual Burden Hours: 132,840.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments: Comments submitted in response to this notice will

be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: May 10, 2004.

Glenn P. Kirkland,

IRS Reports Clearance Officer.

Constitution Avenue, NW., Washington, DC 20224, or at (202) 622-3945, or through the Internet at CAROL.A.SAVAGE@irs.gov.

SUPPLEMENTARY INFORMATION:

Title: Election of Alternative Deficit Reduction Contribution.

OMB Number: 1545-1884.

Announcement Number:

Announcement 2004-43.

Abstract: Announcement 2004-43

describes the notice that must be given by an employer to plan participants and beneficiaries and to the Pension Benefit Guaranty Corporation within 30 days of making an election to take advantage of the alternative deficit reduction contribution described in Pub. L., 108-18, and gives a special transition rule for the first quarter.

Current Actions: There are no changes being made to the announcement at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit organizations, and not-for-profit institutions.

Estimated Number of Respondents: 200.

Estimated Time Per Respondent: 60 hours.

Estimated Total Annual Burden

Hours: 12,000.

BILLING CODE 4830-01-P

UTAH RECLAMATION MITIGATION AND CONSERVATION COMMISSION

Notice of Availability of the Decision Notice and Finding of No Significant Impact for Reconstruction of the Whiterocks State Fish Hatchery in Utah

AGENCY: Utah Reclamation Mitigation and Conservation Commission.

ACTION: Notice of availability.

SUMMARY: The Utah Reclamation Mitigation and Conservation Commission (Mitigation Commission) and the Utah Division of Wildlife Resources (Division) have jointly prepared an Environmental Assessment (EA) to determine the effects of a partial reconstruction of the existing Whiterocks State Fish Hatchery located

near Whiterocks, Uinta County, Utah. After considering public comments and analyzing environmental effects, the proposed action was selected, which provides for partial reconstruction, operation and maintenance of the Whiterocks Hatchery.

The Proposed Action consists of: rehabilitating existing water supply and internal water delivery systems, installing an oxygen injection system, constructing a new hatchery/lab/office building, constructing a truck disinfection station and associated site paving. The facility is located on approximately 14 acres of State-owned lands. Partial reconstruction of the Whiterocks State Fish Hatchery helps meet the State of Utah's fishery long-term stocking needs and management objectives for providing cold-water sport fishing opportunities. Under the Proposed Action, annual production of the facility would increase by approximately 147%, from 35,500 to 87,700 pounds, at a total estimated cost of \$2.43 million.

Based on information contained in the EA and supporting documentation, a Finding of No Significant Impact was made on the Proposed Action, as it would not significantly affect the quality of human environment, within the meaning of the National Environment Policy Act. In addition, specific issues would be addressed as follows: water quality issues will be addressed through compliance with the existing pertinent discharge permit; a wetland mitigation plan, coordinated with the U.S. Army Corps of Engineers, has been initiated for estimated wetland impacts; appropriate measures designed to avoid adverse impacts to raptors will be implemented; and, commonly accepted mitigative practices to control noxious weeds will be implemented.

ADDRESSES: Copies of the FONSI can be obtained at the Utah Reclamation Mitigation and Conservation Commission, 102 W 500 S, Suite 315, Salt Lake City, Utah, 84101. It may also be viewed on the internet at: <http://www.mitigationcommission.gov/news.html>.

FOR FURTHER INFORMATION CONTACT: Maureen Wilson, 801-524-3146.

Dated: May 4, 2004.

Michael C. Weland,

Executive Director, Utah Reclamation Mitigation and Conservation Commission.

Part II

Department of Housing and Urban Development

Notice of HUD's Fiscal Year (FY) 2004,
Notice of Funding Availability (NOFA),
Policy Requirements and General Section
to the SuperNOFA for HUD's
Discretionary Programs; Notice

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4900-N-01]

Notice of HUD's Fiscal Year (FY) 2004, Notice of Funding Availability (NOFA), Policy Requirements and General Section to the SuperNOFA for HUD's Discretionary Programs

AGENCY: Office of the Secretary, HUD.
ACTION: Notice of HUD's FY2004 NOFA Policy Requirements and General Section to the FY2004 SuperNOFA for HUD's Discretionary Programs (Notice).

Overview Information

A. *Federal Agency Name:* Department of Housing and Urban Development (HUD), Office of the Secretary.

B. *Funding Opportunity Title:* Policy requirements applicable to all HUD federal financial assistance programs issued through a NOFA during FY2004.

C. *Announcement Type:* Initial announcement of the general policy requirements that apply to all HUD federal financial assistance NOFAs for FY2004 issued simultaneously with and after the publication of this Notice.

D. *Funding Opportunity Number:* FR 4900-N-01.

E. *Catalog of Federal Domestic Assistance (CFDA) Number:* A CFDA number is provided for each HUD federal financial assistance program. When using the www.Grants.gov Web site you will be asked for the CFDA number. Please refer to the Program NOFA for the CFDA number assigned to the program.

F. *Dates:* The key dates that apply to all HUD federal financial assistance made available through HUD's FY2004 NOFAs are found in each individual Program NOFA.

G. *Optional, Additional Overview Content Information:* HUD's general policy requirements set forth in this Notice apply to all HUD federal financial assistance made available through HUD's FY2004 NOFAs. These policies cover those NOFAs issued through this SuperNOFA as well as those issued after publication of the SuperNOFA in the *Federal Register*.

Full Text of Announcement

I. Funding Opportunity Description

This Notice provides information regarding the Department of Housing and Urban Development's (HUD's) FY2004 policy requirements applicable to all of HUD's federal financial assistance programs announced through NOFAs published along with this Notice and any subsequent NOFAs published for FY2004. Each Program

NOFA that is part of this SuperNOFA will provide a description of the specific requirements for the program for which funding is made available and each will refer to applicable policies contained in this Notice. Each Program NOFA will also describe any additional procedures and requirements that apply to the individual Program NOFA, including a description of the eligible applicants, eligible activities, threshold requirements, factors for award, and any additional program requirements or limitations. To ensure that you are able to adequately address all of the application requirements for any program for which you intend to apply, please be sure you carefully read both this Notice of HUD's NOFA policy requirements and the individual Program NOFAs to ensure you respond to all the requirements for all programs for which you will be seeking funding.

II. Award Information

Funding Available. Each Program NOFA will identify the amount and source of funds available in FY2004, as provided by HUD appropriations and other relevant authority. The FY2004 SuperNOFA contains 50 funding opportunities composed of programs and program components totaling approximately \$2.3 billion. As a service to our customers, Attachment A of this notice contains a chart of the funds being made available in HUD's SuperNOFA for FY2004. If HUD recaptures funds in any program, HUD reserves the right to increase the available funding for the applicable program by those amounts. Note that additional NOFAs may be issued separately from the issuance of the FY2004 SuperNOFA.

III. Eligibility Information

A. *Eligible Applicants:* The individual Program NOFAs describe the eligible applicants and eligible activities for each program.

B. *Cost Sharing or Matching:* The individual Program NOFAs describe the applicable cost sharing, matching requirements, or leveraging requirements related to each program, if any.

C. *Other:*

Requirements and Procedures Applicable to All Programs

Except as may be modified in the individual Program NOFAs in FY2004, the requirements, procedures and principles listed below apply to all programs in FY2004 for which funding is announced via NOFA and published in the *Federal Register* simultaneously with or after the publication of this

Notice. Please read the individual Program NOFAs for additional requirements or information.

1. *Statutory and Regulatory Requirements.* To be eligible for funding under HUD NOFAs issued during FY2004, you, the applicant, must meet all statutory and regulatory requirements applicable to the program or programs for which you seek funding. If you need copies of the program regulations, they are available from the NOFA Information Center or through the www.hud.gov/grants/index.cfm Web site. See the individual Program NOFAs for instructions on how HUD will respond to proposed activities that are ineligible. With the exception of the Section 202 Supportive Housing for the Elderly program and the Section 811 Supportive Housing for Persons with Disabilities program, HUD may also eliminate the ineligible activities from funding consideration and reduce funding amounts accordingly.

2. Threshold Requirements

a. *Ineligible Applicants.* HUD will not consider an application from an ineligible applicant.

b. *Dun and Bradstreet Data Universal Numbering System (DUNS) Number Requirement.* Beginning in federal FY2004, any applicant seeking funding directly from HUD or other federal agencies must obtain a DUNS number and include the number in its Application for Federal Assistance submission. Failure to provide a DUNS number will prevent you from obtaining an award. Individuals who personally apply for federal financial assistance, apart from any governmental, business or nonprofit organization they may represent, are excluded from the requirement to obtain a DUNS number. This policy is pursuant to the Office of Management and Budget (OMB) Policy issued in the *Federal Register* on June 27, 2003 (68 FR 38402). HUD's regulation implementing the DUNS Number requirement for its programs was issued in the *Federal Register* on March 26, 2004 (69 FR 15671). A copy of the OMB *Federal Register* notice and HUD's regulation implementing the DUNS number can be found on HUD's Web site at <http://www.hud.gov/offices/adm/grants/duns.cfm>. Failure to provide a DUNS number with the application submission will be treated as a technical deficiency to the application. If the DUNS number is not provided within the cure period (see Section V.B.4., Corrections to Deficient Applications), the application will not be funded. The www.grants.gov Web site URL at <http://www.grants.gov/GetStarted> provides step-by-step

instructions for obtaining a DUNS number as well as procedures for registering in the Central Contractor Registry and E-Authentication. The registration in the Central Contractor Registry and receiving credentials from the Grants.gov E-Authentication provider are not necessary for submitting a paper copy application to HUD; only the DUNS number is required. Central Contractor Registration and E-Authentication is required for submittal of electronic grant applications through the Grants.gov portal. For FY2004, HUD is maintaining its policy of accepting paper copies of the application sent directly to HUD. However, it is HUD's intent to move to electronic submission of all applications in FY2005.

c. Compliance with Fair Housing and Civil Rights Laws.

(1) Applicants must comply with all applicable fair housing and civil rights requirements in 24 CFR 5.105(a). In addition to these requirements, there may be program-specific threshold requirements identified in the individual Program NOFAs.

(2) If you, the applicant:

(a) Have been charged with an ongoing systemic violation of the Fair Housing Act; or

(b) Are a defendant in a Fair Housing Act lawsuit filed by the Department of Justice alleging an on-going pattern or practice of discrimination; or

(c) Have received a letter of findings identifying ongoing systemic noncompliance under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, or Section 109 of the Housing and Community Development Act of 1974; and

(d) The charge, lawsuit or letter of findings referenced in subpart (a), (b), or (c) above has not been resolved to HUD's satisfaction before the application deadline, then you are ineligible and HUD will not rate and rank your application. HUD will determine if actions to resolve the charge, lawsuit or letter of findings taken prior to the application deadline are sufficient to resolve the matter.

Examples of actions that would normally be considered sufficient to resolve the matter include, but are not limited to:

(i) A voluntary compliance agreement signed by all parties in response to a letter of findings;

(ii) A HUD-approved conciliation agreement signed by all parties;

(iii) A consent order or consent decree; or

(iv) An issuance of a judicial ruling or a HUD Administrative Law Judge's decision.

d. Conducting Business in Accordance with Core Values and Ethical Standards. Entities subject to 24 CFR parts 84 and 85 (most nonprofit organizations and state, local, and tribal governments or government agencies or instrumentalities that receive federal awards of financial assistance) are required to develop and maintain a written code of conduct (see 24 CFR 84.42 and 85.36(b)(3)). Consistent with regulations governing specific programs, your code of conduct must prohibit real and apparent conflicts of interest that may arise among officers, employees, or agents; prohibit the solicitation and acceptance of gifts or gratuities by your officers, employees, and agents for their personal benefit in excess of minimal value; and, outline administrative and disciplinary actions available to remedy violations of such standards. If awarded assistance under a HUD Program NOFA announced in FY2004, you will be required, prior to entering into an agreement with HUD, to submit a copy of your code of conduct and describe the methods you will use to ensure that all officers, employees, and agents of your organization are aware of your code of conduct. Failure to meet the requirement for a code of conduct will prohibit you from receiving an award of funds from HUD.

e. Delinquent Federal Debts. Consistent with the purpose and intent of 31 U.S.C. 3720B and 28 U.S.C. 3201(e), no award of federal funds will be made to an applicant that has an outstanding delinquent federal debt unless (1) the delinquent account is paid in full, (2) a negotiated repayment schedule is established and the repayment schedule is not delinquent, or (3) other arrangements satisfactory to HUD are made prior to the deadline submission date.

f. Pre-Award Accounting System Surveys. HUD may arrange for a pre-award survey of the applicant's financial management system in cases where the recommended applicant has no prior federal support, HUD's program officials have reason to question whether the applicant's financial management system meets federal financial management standards, or the applicant is considered a high risk based upon past performance or financial management findings. HUD will not disburse funds to any applicant that does not have a financial management system that meets federal standards.

g. Name Check Review. Recommended applicants are subject to

a name check review process. Name checks are intended to reveal matters that significantly reflect on the applicant's management and financial integrity, or if any key individual has been convicted or is presently facing criminal charges. If the name check reveals significant adverse findings that reflect on the business integrity or responsibility of the applicant or key individual, HUD reserves the right to (1) deny funding or consider suspension or termination of an award immediately for cause, (2) require the removal of any key individual from association with management or implementation of the award, and (3) make appropriate provisions or revisions with respect to the method of payment or financial reporting requirements.

h. False Statements. A false statement in an application is grounds for denial or termination of an award and grounds for possible punishment as provided in 18 U.S.C. 1001.

i. Prohibition Against Lobbying Activities. You, the applicant, are subject to the provisions of Section 319 of Public Law 101-121 (approved October 23, 1989) (31 U.S.C. 1352) (the Byrd Amendment), which prohibits recipients of federal contracts, grants, or loans from using appropriated funds for lobbying the executive or legislative branches of the federal government in connection with a specific contract, grant, or loan. In addition, you must disclose, using Standard Form LLL "Disclosure of Lobbying Activities," any funds, other than federally appropriated funds, that will be or have been used to influence federal employees, Members of Congress, and congressional staff regarding specific grants or contracts. Federally recognized Indian tribes and tribally designated housing entities (TDHEs) established by federally recognized Indian tribes as a result of the exercise of the tribe's sovereign power are excluded from coverage of the Byrd Amendment, but Indian tribes and TDHEs established under only state law must comply with this requirement.

j. Debarment and Suspension. In accordance with 24 CFR part 24, no award of federal funds may be made to applicants that are presently debarred or suspended, or proposed to be debarred or suspended, from doing business with the federal government. This requirement applies to all lower tier covered transactions and to all solicitations for lower tier covered transactions. The prohibition includes the following:

(1) Having principals who, within the previous three years, have been convicted of or had a civil judgment rendered against them for commission

of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction, violation of federal or state anti-trust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property; and

(2) Charges or indictments by a governmental entity (federal, state and local) for commission of any of the above violations.

3. Other Threshold Requirements

The individual Program NOFAs for which you are applying may specify other threshold requirements. Additional threshold requirements may be identified in the discussion of "eligibility" requirements in the individual Program NOFAs. If a Program NOFA requires a certification of consistency with the Consolidated Plan and the applicant fails to provide a certification, or the certification provided identifies the proposed activities as inconsistent with the impacted area's consolidated plan, HUD, upon review of the facts, may deny funding for an application based upon the inconsistency.

4. Additional Non-discrimination and Other Requirements

You, the applicant, and your subrecipients must comply with:

a. *The Americans with Disabilities Act of 1990* (42 U.S.C. 1201 *et seq.*), the *Age Discrimination Act of 1974* (42 U.S.C. 6101 *et seq.*), and *Title IX of the Education Amendments Act of 1972* (20 U.S.C. 1681 *et seq.*).

b. *Affirmatively Furthering Fair Housing*. Under Section 808(e)(5) of the Fair Housing Act, HUD is obliged to affirmatively further fair housing. HUD requires the same of its funding recipients. If you are a successful applicant, you will have a duty to affirmatively further fair housing opportunities for classes protected under the Fair Housing Act. Protected classes include race, color, national origin, religion, sex, disability, and familial status. Unless otherwise instructed in the individual Program NOFA, your application must include specific steps to:

(1) Overcome the effects of impediments to fair housing choice that were identified in the jurisdiction's Analysis of Impediments (AI) to Fair Housing Choice;

(2) Remedy discrimination in housing; or

(3) Promote fair housing rights and fair housing choice.

Further, you, the applicant, have a duty to carry out the specific activities provided in your responses to the individual Program NOFA rating factors that address affirmatively furthering fair housing. These requirements apply to all HUD programs announced via a NOFA, unless specifically excluded in the individual Program NOFA.

c. *Economic Opportunities for Low- and Very Low-Income Persons (Section 3)*. Certain programs to be issued during FY2004 require recipients of assistance to comply with Section 3 of the Housing and Urban Development Act of 1968 (Section 3), 12 U.S.C. 1701u (Economic Opportunities for Low- and Very Low-Income Persons in Connection with Assisted Projects) and the HUD regulations at 24 CFR part 135, including the reporting requirements at subpart E. Section 3 requires recipients to ensure that, to the greatest extent feasible, training, employment, and other economic opportunities will be directed to low- and very-low income persons, particularly those who are recipients of government assistance for housing, and business concerns that provide economic opportunities to low- and very low-income persons. Review the individual Program NOFAs to determine if Section 3 applies to the program for which you are seeking funding.

d. *Ensuring the Participation of Small Businesses, Small Disadvantaged Businesses, and Women-Owned Businesses*. HUD is committed to ensuring that small businesses, small disadvantaged businesses, and women-owned businesses participate fully in HUD's direct contracting and in contracting opportunities generated by HUD financial assistance. Too often, these businesses still experience difficulty accessing information and successfully bidding on federal contracts. State, local, and tribal governments are required by 24 CFR 85.36(e) and nonprofit recipients of assistance (grantees and sub-grantees) by 24 CFR 84.44(b) to take all necessary affirmative steps in contracting for the purchase of goods or services to assure that minority firms, women's business enterprises, and labor surplus area firms are used whenever possible or as specified in the individual Program NOFAs.

e. *Relocation*. The relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and the implementing government-wide regulation at 49 CFR part 24 cover any person who moves permanently from real property or moves personal property from real

property directly because of acquisition, rehabilitation, or demolition for an activity undertaken with HUD assistance. Some HUD program regulations also cover persons who are temporarily relocated. For example, 24 CFR 570.606(b)(2)(i)(D)(1), (2) and (3) provide guidance on temporary relocation for the CDBG program. Applicants should review the regulations for the programs for which they are applying when planning their project.

f. *Executive Order 13166, Improving Access to Services for Persons With Limited English Proficiency (LEP)*. Executive Order 13166 seeks to improve access to federally assisted services, programs and benefits for individuals with limited English proficiency. Applicants obtaining an award from HUD must seek to provide access to program benefits and information to LEP individuals through translation and interpretive services in accordance with LEP Guidance published on December 19, 2003 (68 FR 70967). For assistance and information regarding your LEP obligation, go to www.LEP.gov.

g. *Executive Order 13279, Equal Protection of the Laws for Faith-Based and Community Organizations*. HUD is committed to full implementation of Executive Order 13279. The Executive Order established fundamental principles and policymaking criteria to guide federal agencies in formulating and developing policies that have implications for faith-based and community organizations to ensure the equal protection for these organizations in social services programs receiving federal financial assistance. Consistent with this order, HUD has undertaken a review of all policies and regulations that have implications for faith-based and community organizations and has established a policy priority to provide full and equal access to grassroots faith-based and other community-based organizations in HUD program implementation. In addition, on September 30, 2003 (68 FR 56396), HUD issued a final rule to remove barriers to the participation of faith-based organizations in the following HUD programs:

- HOME Investment Partnerships (24 CFR part 92);
- Community Development Block Grants (CDBG) (24 CFR part 570);
- HOPE for Homeownership of Single Family Homes (HOPE 3) (24 CFR part 572);
- Housing Opportunities for Persons With AIDS (HOPWA) (24 CFR part 574);
- Emergency Shelter Grants (ESG) (24 CFR part 576);
- Shelter Plus Care (24 CFR part 582);

- Supportive Housing (24 CFR part 583); and

- Youthbuild (24 CFR part 585).

Copies of the regulatory changes can be found at: <http://www.hud.gov/grants/index.cfm>.

h. *Accessible Technology.* The Rehabilitation Act Amendments of 1998 (the Act) applies to electronic information technology (EIT) used by HUD for transmitting, receiving, using, or storing information to carry out the responsibilities of any federal funds awarded. The Act's coverage includes, but is not limited to, computers (hardware, software, word-processing, email, and web pages), facsimile machines, copiers, and telephones. Consistent with the principles of the Act, HUD requires the same of its funding recipients. If you are a successful applicant, you will be required when developing, procuring, maintaining, or using EIT, to ensure that the EIT allows employees with disabilities and members of the public with disabilities to have access to and use of information and data that is comparable to the access and use of information and data by employees and members of the public who do not have disabilities. If these standards impose a hardship on a funding recipient, a recipient may provide an alternative means to allow the individual to use the information and data. However, no recipient will be required to provide information services to a person with disabilities at any location other than a location at which the information services are generally provided.

i. *Procurement of Recovered Materials.* State agencies and agencies of a political subdivision of a state that are using assistance under a HUD Program NOFA for procurement, and any person contracting with such an agency with respect to work performed under an assisted contract, must comply with the requirements of Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act.

In accordance with Section 6002, these agencies and persons must procure items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired in the preceding fiscal year exceeded \$10,000; must procure solid waste management services in a manner that maximizes energy and resource recovery; and must have established an affirmative

procurement program for procurement of recovered materials identified in the EPA guidelines.

j. *Participation in HUD-Sponsored Program Evaluation.* As a condition of the receipt of financial assistance under a HUD Program NOFA, all successful applicants will be required to cooperate with all HUD staff or contractors performing HUD-funded research and evaluation studies.

k. *Executive Order 13202, Preservation of Open Competition and Government Neutrality Towards Government Contractors' Labor Relations on Federal and Federally Funded Construction Projects.* Compliance with HUD regulations at 24 CFR 5.108 that implement Executive Order 13202 is a condition of receipt of assistance under a HUD Program NOFA.

l. *Salary Limitation for Consultants.* FY2004 funds may not be used to pay or to provide reimbursement for payment of the salary of a consultant whether retained by the federal government or the grantee at more than the daily equivalent of the rate paid for level IV of the Executive Schedule, unless specifically authorized by law.

m. *OMB Circulars and Government-wide Regulations Applicable to Financial Assistance Programs.* Certain OMB circulars also apply to HUD programs in this SuperNOFA. The policies, guidance, and requirements of OMB Circular A-87 (Cost Principles Applicable to Grants, Contracts and Other Agreements with State and Local Governments), OMB Circular A-21 (Cost Principles for Education Institutions), OMB A-122 (Cost Principles for Nonprofit Organizations), OMB Circular A-133 (Audits of States, Local Governments, and Non-Profit Organizations), and the regulations at 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals, and other Non-Profit Organizations), and 24 CFR part 85 (Administrative Requirements for Grants and Cooperative Agreements to state, local, and federally recognized Indian tribal governments), may apply to the award, acceptance, and use of assistance under the individual Program NOFAs of this SuperNOFA, and to the remedies for noncompliance, except when inconsistent with the provisions of the Consolidated Appropriations Act, 2004 (Public Law 108-199, approved January 23, 2004), other federal statutes or regulations, or the provisions of this SuperNOFA Notice. Compliance with additional OMB Circulars or government-wide regulations may be specified for a particular program in the Program Section of the Super NOFA. Copies of the OMB Circulars may be

obtained from EOP Publications, Room 2200, New Executive Office Building, Washington, DC 20503, telephone (202) 395-3080 (this is not a toll-free number) or (800) 877-8339 (TTY Federal Information Relay Service); or, from the Web site, <http://www.whitehouse.gov/omb/circulars/index.html>.

n. *Environmental Requirements.* If you become a recipient under one of the FY2004 HUD programs in this SuperNOFA that assist physical development activities or property acquisition, you are generally prohibited from acquiring, rehabilitating, converting, demolishing, leasing, repairing or constructing property, or committing or expending HUD or non-HUD funds for these types of program activities, until one of the following has occurred:

(1) HUD has completed an environmental review in accordance with 24 CFR part 50; or

(2) For programs subject to 24 CFR part 58, HUD has approved a recipient's Request for Release of Funds (Form HUD 7015.15) following a Responsible Entity's completion of an environmental review.

You, the applicant, should consult the individual Program NOFA for the program(s) for which you are interested in applying to determine the procedures for, timing of, and any exclusions from environmental review under a particular program. For applicants applying for funding under the Section 202 Supportive Housing for the Elderly program or Section 811 Supportive Housing for Persons with Disabilities program, please note the environmental review requirements for these programs.

o. *Conflicts of Interest.* If you are a consultant or expert who is assisting HUD in rating and ranking applicants for funding under this SuperNOFA or future NOFAs published in FY2004, you are subject to 18 U.S.C. 208, the federal criminal conflict of interest statute, and the Standards of Ethical Conduct for Employees of the Executive Branch regulation published at 5 CFR part 2635. As a result, if you have assisted or plan to assist applicants with preparing applications for programs in this SuperNOFA or NOFAs published in FY2004, you may not serve on a selection panel and you may not serve as a technical advisor to HUD. All individuals involved in rating and ranking HUD FY2004 NOFAs either published simultaneously with this Notice or after the publication of this Notice, including experts and consultants, must avoid conflicts of interest or the appearance of conflicts. Individuals involved in the rating and ranking of applications must disclose to

HUD's General Counsel or HUD's Ethics Law Division the following information, if applicable: how the selection or non-selection of any applicant under a FY2004 this Super NOFA will affect the individual's financial interests, as provided in 18 U.S.C. 208, or how the application process involves a party with whom the individual has a covered relationship under 5 CFR 2635.502. The individual must disclose this information prior to participating in any matter regarding a FY2004 NOFA published subsequent to the date of this Notice. If you have questions regarding these provisions or if you have questions concerning a conflict of interest, you may call the Office of General Counsel, Ethics Law Division, at (202) 708-3815.

p. *Drug-Free Workplace.* If you receive an award of funds from HUD, you are required to provide a drug-free workplace. Compliance with this requirement means that you will:

(1) Publish a statement notifying employees that it is unlawful to manufacture, distribute, dispense, possess, or use a controlled substance in the applicant's workplace and that such activities are prohibited. The statement must specify the actions that will be taken against employees for violation of this prohibition. The statement must also notify employees that as a condition of employment under the federal award that they are required to abide by the terms of the statement and that each employee must agree to notify the employer in writing of any violation of a criminal drug statute occurring in the workplace no later than five calendar days after such violation.

(2) Establish an on-going drug-free awareness program to inform employees about:

- (a) The dangers of drug abuse in the workplace;
- (b) The applicant's policy of maintaining a drug-free workplace; and
- (c) Any available drug counseling, rehabilitation, or employee maintenance programs; and
- (d) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

(3) Notify the federal agency in writing within 10 calendar days after receiving notice from an employee of a drug abuse conviction or otherwise receiving actual notice of a drug abuse conviction. The notification must be provided in writing to HUD's Office of Departmental Grants Management and Oversight, Department of Housing and Urban Development, 451 Seventh Street, SW, Room 3156, Washington DC 20410-3000, along with the following information:

- (a) The program title and award number for each HUD award covered;
- (b) The HUD staff contact name, phone, and fax number; and
- (c) A grantee contact name, phone, and fax number.

(4) Require that each employee engaged in the performance of the federally funded award be given a copy of the drug-free workplace statement required in item (1) and notify the employee that one of the following actions will be taken against the employee within 30 calendar days of receiving notice of any drug abuse conviction:

(a) Institution of a personnel action against the employee, up to and including termination consistent with requirements of the Rehabilitation Act of 1973, as amended; or

(b) Requiring that the employee participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency.

q. *Safeguarding Resident/Client Files.* In maintaining resident files, HUD funding recipients shall observe state and local laws concerning the disclosure of records that pertain to individuals. Further, recipients are required to adopt and take, reasonable measures to ensure that resident/client files are safeguarded.

IV. Application and Submission Information

A. Addresses to Request Application Package

This section describes how you may obtain application forms, additional information about the HUD Program NOFAs, and technical assistance. Copies of the published NOFAs and application forms for HUD programs announced through NOFA may be downloaded from the Grants.gov Web site at <http://www.grants.gov/FIND> or you may call HUD's NOFA Information Center at 800-HUD-8929. Persons with hearing or speech impairments may call 800-HUD-2209.

1. *Application Kits.* There are no application kits for HUD programs this year. All the information you need to apply will be in the NOFA and available on <http://www.grants.gov/Find>. In response to concerns about the length of time it takes for the publication and dissemination of application kits, HUD has made an effort to improve the readability of its NOFAs and publish all required forms and formats for application submission in the **Federal Register**. As a result of this effort, you will not have to wait for an application

kit to begin to prepare your application for funding. HUD is continuing to streamline programs and application submission requirements and encourages the applicant community to offer additional suggestions. Please pay attention to the submission requirements and format for submission specified in each Program NOFA to ensure that you have submitted all required elements of your application.

The published **Federal Register** document is the official document that HUD uses to evaluate applications. Therefore, if there is a discrepancy between any materials published by HUD in its **Federal Register** publications and other information provided in paper copy or on www.Grants.gov/Find, the **Federal Register** publication prevails. Please be sure to review your application submission against the requirements in the **Federal Register** file of the NOFA or NOFAs to which you are responding by application. Paper copies of these documents can be obtained from the NOFA Information Center by calling 800-HUD-8929; persons with speech or hearing impairments may call 800-HUD-2209.

2. *Guidebook and Further Information.* A guidebook to HUD programs titled "Connecting with Communities: A User's Guide to HUD Programs and the FY2004 NOFA Process" is available from the NOFA Information Center and the HUD Web site at www.hud.gov/grants/index.cfm. The guidebook provides a brief description of all HUD programs, eligible applicants for the programs, and examples of how programs can work in combination to serve local community needs. You may also request general information, paper copies of this Notice of HUD NOFA policy requirements, any Program NOFA, and applications. This information may be obtained by calling the NOFA Information Center at 800-HUD-8929 or 800-HUD-2209 (TTY) between the hours of 9 a.m. and 8 p.m. (Eastern Time), Monday through Friday, except on federal holidays.

When requesting information, please refer to the name of the document or Program NOFA in which you are interested. Be sure to provide your name, address (including zip code), and telephone number (including area code). To ensure sufficient time to prepare your application, copies of this Notice of HUD NOFA policy requirements and individual Program NOFAs will be available immediately following publication of these documents. The NOFA Information Center opens for business simultaneously with the publication of this Notice of HUD NOFA

policy requirements. You can also obtain information on this Notice of HUD NOFA policy requirements and download application information for HUD programs issued through NOFAs during FY2004 through the www.Grants.gov/find Web site.

3. *For Technical Assistance.* Before the application due date, HUD staff will be available to provide you with general guidance and technical assistance about this Notice of HUD NOFA policy requirements or about individual Program NOFAs. However, HUD staff is not permitted to assist in preparing your application. Following selection of applicants, but before announcement of awards is made, HUD staff is available to assist in clarifying or confirming information that is a prerequisite to the offer of an award or Annual Contributions Contract (ACC) by HUD.

B. Content and Form of Application Submission

Be sure to read and follow the application submission requirements published in the individual Program NOFA or NOFAs to which you are responding by application. Beginning FY2004, when you sign your application submission you are agreeing to assurances and certifications (HUD 424B).

Forms, Certifications, and Assurances. You, the applicant, are required to submit signed copies of the standard forms, certifications, and assurances listed in this section, unless the requirements in the individual Program NOFAs specify otherwise. In addition, the individual Program NOFAs may specify additional forms, certifications, assurances, or other information that may be required for a particular program. The HUD standard forms, certifications, and assurances are:

- Application for Federal Assistance (SF-424);
- Survey on Ensuring Equal Opportunity for Applicants (SF-424 Supplement);
- Assurances Non-Construction Programs (HUD-424B);
- Grant Application Detailed Budget (HUD-424-CB);
- Grant Application Detailed Budget Worksheet (HUD-424-CBW);
- Disclosure of Lobbying Activities (SF-LLL);
- Applicant/Recipient Disclosure/Update Report (HUD-2880);
- Certification of Consistency with RC/EZ/EC Strategic Plan (HUD-2990) if applicable;
- Certification of Consistency with the Consolidated Plan (HUD-2991) if applicable;

- Acknowledgment of Application Receipt (HUD-2993);
- Client Comments and Suggestions (HUD 2994) (Optional);
- Program Outcome Logic Model (HUD-96010).
- Form HUD 52515, Funding Application for the Housing Choice Voucher Program.
- Race and Ethnic Data Reporting Form (HUD-27061).
- America's Affordable Communities Initiative (HUD-27300).

Copies of these standard forms and the Funding Application for the Housing Choice Voucher Program (HUD-52515) are included in Appendix A to this General Section. Copies of program forms required to be submitted to meet specific program requirements will be included with each Program NOFA.

C. Submission Dates and Times

Each Program NOFA will identify a specific due date for application submission. You, the applicant, must submit a completed application to HUD on or before the respective program's established application due date. Application due dates can be found under the section labeled "Submission Dates and Times" of each HUD NOFA issued in FY2004. Appendix B also provides a funding chart which identifies the programs in HUD's SuperNOFA along with the application due dates.

D. Intergovernmental Review

Executive Order 12372, Intergovernmental Review of Federal Programs, was issued to foster intergovernmental partnership and strengthen federalism by relying on state and local processes for the coordination and review of federal financial assistance and direct federal development. HUD implementing regulations are published at 24 CFR part 52. The order allows each state to designate an entity to perform a state review function. The official listing of State Points of Contact (SPOC) for this review process can be found at <http://www.whitehouse.gov/omb/grants/spoc.html>. States not listed on the Web site have chosen not to participate in the intergovernmental review process and, therefore, do not have a SPOC. If your state has a SPOC, you should contact the SPOC to see if it is interested in reviewing your application prior to submission to HUD.

Please make sure that you allow ample time for this review process when developing and submitting your applications. If your state does not have a SPOC, send your applications directly to HUD.

E. Funding Restrictions

The individual Program NOFAs will describe any funding restrictions that apply to each program.

F. Other Submission Requirements

1. *Delivery and Receipt Procedures.* The following procedures apply to the delivery and receipt of applications in HUD Headquarters, the Grants Management Center (GMC), the University Partnerships Clearinghouse, and field offices. Please read the following instructions carefully and completely, as failure to comply with these procedures may disqualify your application. HUD's delivery and receipt policies are:

a. Hand deliveries will be permitted. Hand delivered packages must be received at HUD Headquarters, the Public and Indian Housing Grants Management Center (GMC), or the University Partnership Clearinghouse no later than 5 p.m. EST, Monday through Friday, except for federal holidays. Hand delivered packages to the HUD Field Offices must be received no later than 4 p.m. local time for the office receiving the application. However, if HUD staff is not available to accept your package or the courier service is not allowed to enter the building to deliver the package due to security or other reasons, the package will be determined not delivered and not accepted by HUD. In such instances, HUD recommends that, you, the applicant, or your agent take your package to the nearest post office and follow the mailing instructions for postal service timely delivery. HUD will not take responsibility for ensuring that staff is available to take your package and will not breach security measures in order to accept an undeliverable package.

b. HUD will not accept or consider any applications sent by facsimile.

c. HUD urges applicants sending packages by courier to the Robert C. Weaver Headquarters Building, the University Partnerships Clearinghouse, or the Public and Indian Housing Grants Management Center (GMC), to use the following courier services, as these services have unescorted access to these buildings: DHL, Falcon Carrier, Federal Express (FedEx), and United Parcel Service (UPS). Packages may be mailed using the United States Postal Service. Mailed applications will be accepted as being timely submitted if they are received at the designated HUD location (including the room number specified for receipt) not later than 15 days after the due date and time, and show a postmark of having been delivered to

the postal facility for mailing by 12:00 midnight local time on the application due date. If the Postal Service does not normally postmark large packages, the proof of timely submission shall be receipt within 15 days at the designated HUD facility and, upon request by a HUD official, proof of mailing using USPS Form 3817 (Certificate of Mailing) or a receipt from the Postal Service which contains the post office name, location, and date and time of mailing. For submission through the United States Postal Service, no other proof of timely submission will be accepted.

d. Applications mailed to a location or office that is not designated for receipt of the application, which results in the designated office not receiving your application in accordance with the requirements for timely submission, will cause your application to be considered late and ineligible to receive funding consideration. HUD will not be responsible for directing packages to the appropriate office.

Applicants should pay close attention to these submission and timely receipt instructions as they can make a difference in whether HUD will accept your application for funding consideration. Please remember that mail sent to federal facilities is screened prior to delivery, so please allow sufficient time for your package to be delivered. If an application is received late because of the processing time required for the screening, it will not be considered for funding.

2. *Proof of Timely Submission.* Proof of timely submission of an application is specified below.

a. In the case of packages sent to HUD via a delivery service, other than the United States Postal Service, timely submission shall be evidenced via a delivery service receipt indicating that the application was delivered to a carrier service at least 24 hours prior to the application deadline, and, if applicable, that through no fault of the applicant, the delivery could not be made on or before the application due date. Couriers turned away from a HUD facility due to security issues will not be considered as meeting the requirement of "no fault of the applicant," because applicants have been advised that delivery delays can arise when using courier services, resulting in a late application submission.

b. For packages submitted via the United States Postal Service, proof of timely submission shall be a postmark not later than the application due date or receipt not later than five days after the application due date at the designated HUD facility and, upon request by a HUD official, proof of

mailing using USPS Form 3817 (Certificate of Mailing) or a receipt from the Post Office which contains the post office name, location, and date and time of mailing. For submission through the United States Postal Service, no other proof of timely submission will be accepted. Applications not meeting the timely submission requirements will not be considered for funding.

3. *Addresses.* You, the applicant, must submit a complete application and the required number of copies to the locations identified in the Program NOFA or NOFAs to which you are responding by application. When submitting your application, you must refer to the name of the program for which you are applying and include the correct room number to ensure your application is properly directed. Addresses for deliveries to HUD's Robert C. Weaver Headquarters Building, the University Partnerships Clearinghouse, or the Public and Indian Housing Grants Management Center (GMC) are identified in each Program NOFA, as well as the consolidated chart of funding opportunities for programs in the SuperNOFA. Addresses for field office locations are contained in Appendix C of this General Section, "List of HUD Field Offices."

For applications directed to the Office of Native American Programs (ONAP), please be sure to use the addresses provided in Appendix D of this General Section, "List of Office of Native American Programs Field Offices." For the Section 202 Supportive Housing for the Elderly, Section 811 Supportive Housing for Persons with Disabilities, Assisted Living Conversion for Eligible Multifamily Projects, and the Service Coordinators in Multifamily Housing programs, please see the Program NOFAs for the applicable field office listing.

Please be sure to include the Program NOFA name and room number on your submission package.

4. *Copies of Applications.* Each Program NOFA may specify, that to facilitate the review of your application, one or more copies of the application also must be sent to an additional HUD location (for example, the original application to HUD Headquarters and a copy to the HUD field office). If you are required to submit an application to HUD Headquarters, the University Partnerships Clearinghouse, or the GMC, as well as field offices, the determination that your application was received on time will be made solely on receipt of the application at HUD Headquarters, the University Partnerships Clearinghouse, or the GMC, as applicable. If an application

received on time at HUD Headquarters, the University Partnerships Clearinghouse, or GMC is not complete, but a complete copy was submitted and received on time at a HUD field office, HUD may conduct its review using the field office copy. See the information in the, "Mailing and Receipt Procedures" and "Proof of Timely Submission" sections above for additional information. If you do not submit the required number of copies HUD may request that you provide the additional copies to the appropriate HUD office(s) in accordance with the procedures described in Section V.B.4 of this Notice, "Corrections to Deficient Applications." In some Program NOFAs failure to submit the required number of copies may disqualify your application, so please read each NOFA carefully.

5. *Electronic Submission of Packages using Grants.gov.* For FY2005, HUD intends to have applications submitted via the federal government's new electronic application portal called Grants.gov. Applicants are urged to become familiar with the Grants.gov Web site and to follow the steps under "Get Started" so that you will be prepared to apply on line for HUD and other federal agency programs.

For FY2004, paper copy applications will be considered by HUD to be the official application submission. HUD urges all applicants to become familiar with the Grants.gov site (www.grants.gov) and register to receive funding opportunity notifications, as well as to apply on line for funding. Registration to apply on line via Grants.gov requires obtaining a DUNS number, as well as registering in the Central Contractor Registry. To apply on line, applicants will also need to follow the requirements for E-Authentication. The Grants.gov site provides instructions on how to get a DUNS number, as well as registration and E-Authentication procedures. The Grants.gov Web site provides a customer support line (800-518-GRANTS) to address Grants.gov technology issues. HUD will establish a help line to address questions on program issues. Individuals who personally apply for federal financial assistance, apart from any business or nonprofit organization they may operate, are excluded from the requirement to obtain a DUNS number.

Paper copy submission will not apply to two programs that HUD is piloting for electronic applications through Grants.gov/Find and Grants.gov/APPLY. The two programs are the Housing Counseling Training and FY2003 Capacity Building Grants. These are issued outside the SuperNOFA.

V. Application Review Information

A. Criteria

1. *Factors for Award Used to Evaluate and Rate Applications.* For each Program NOFA, the points awarded for the rating factors total 100. Depending upon the program for which you, the applicant, are seeking funding, the funding opportunity may provide for up to four bonus points as provided below:

a. *RC/EZ/EC.* HUD's FY2004 NOFAs provide for the award of two bonus points for eligible activities/projects that the applicant proposes to located in federally designated Empowerment Zones (EZs), Enterprise Communities (ECs), Urban Enhanced Enterprise Communities (EECs), or Renewal Communities (RCs), are intended to serve the residents of these areas, and are certified to be consistent with the area's strategic plan. (For ease of reference in this Notice, all of the federally designated areas are collectively referred to as "RC/EZ/ECs" and residents of any of these federally designated areas as "RC/EZ/EC residents.") The individual funding announcements will indicate if the bonus points are available under the program. This Notice contains a certification that must be completed for the applicant to be considered for RC/EZ/EC bonus points. A list of RC/EZ/ECs is available is included in this Notice as Appendix E and can also be obtained from the NOFA Information Center, and at www.grants.gov Find under the program you are seeking funding. Applicants can determine if their program/project activities are located in one of these designated areas by using the locator on HUD's Web site at <http://hud.esri.com/egis/cpd/rcezec/welcom.htm#>.

b. *Brownfields Showcase Communities.* In the Brownfields Economic Development Initiative (BEDI) competition, two bonus points are available for federally designated Brownfields Showcase Communities. (Please see the FY2004 BEDI program NOFA for additional information.) The designation of Brownfields Showcase Communities is a federal agency initiative sponsored by twenty federal agencies including HUD. A list of the federally designated RC/EZ/ECs, Enhanced ECs, and Brownfields Showcase Communities is available from the NOFA Information Center or through HUD's Web site at <http://www.hud.gov>.

2. *The Five Standard Rating Factors for FY2004.* HUD has established the following five factors as the standard factors for awarding the majority of its FY2004 Program NOFAs. Additional

details about the five rating factors and the maximum points for each factor are provided in the Program NOFAs. For a specific funding opportunity, HUD may modify these factors to take into account explicit program needs or statutory or regulatory limitations. You, the applicant, should carefully read the factors for award as described in the Program NOFA to which you responding by application. The standard factors for award, except as modified in the Program NOFAs, are:

- Factor 1: Capacity of the Applicant and Relevant Organizational Staff.
- Factor 2: Need/Extent of the Problem.
- Factor 3: Soundness of Approach.
- Factor 4: Leveraging Resources.
- Factor 5: Achieving Results and Program Evaluation.

The Continuum of Care Homeless Assistance Programs have only two factors that receive points: Need and Continuum of Care.

B. Reviews and Selection Process

1. HUD's Strategic Goals

Implementing HUD's Strategic Framework and Demonstrating Results. HUD is committed to ensuring that programs result in the achievement of HUD's strategic mission. To support this effort, grant applications submitted for HUD programs will be rated on how well they tie proposed outcomes to HUD's policy priorities and Annual Goals and Objectives, as well as the quality of the applicant's proposed Evaluation and Monitoring Plans. HUD's Strategic Framework establishes the following Goals and Objectives for the Department:

a. *Increase Homeownership Opportunities:*

- (1) Expand national homeownership opportunities.
- (2) Increase minority homeownership.
- (3) Make the home buying process less complicated and less expensive.
- (4) Fight practices that permit predatory lending.
- (5) Help HUD-assisted renters become homeowners.
- (6) Keep existing homeowners from losing their homes.

b. *Promote Decent Affordable Housing:*

- (1) Expand access to affordable rental housing.
- (2) Improve the physical quality and management accountability of public and assisted housing.
- (3) Increase housing opportunities for the elderly and persons with disabilities.
- (4) Help HUD-assisted renters make progress toward self-sufficiency.

c. *Strengthen Communities:*

(1) Improve economic conditions in distressed communities.

- (2) Make communities more livable.
- (3) End chronic homelessness.
- (4) Mitigate housing conditions that threaten health.

d. *Ensure Equal Opportunity in Housing:*

- (1) Resolve discrimination complaints on a timely basis.
- (2) Promote public awareness of Fair Housing laws.

(3) Improve housing accessibility for persons with disabilities.

e. *Embrace High Standards of Ethics, Management, and Accountability:*

- (1) Rebuild HUD's human capital and further diversify its workforce.
- (2) Improve HUD's management, internal controls and systems, and resolve audit issues.

(3) Improve accountability, service delivery, and customer service of HUD and our partners.

(4) Ensure program compliance.

f. *Promote Participation of Grassroots Faith-Based and Other Community-Based Organizations:*

- (1) Reduce regulatory barriers to participation by grassroots faith-based and other community-based organizations.
- (2) Conduct outreach to inform potential partners of HUD opportunities.
- (3) Expand technical assistance resources deployed to grassroots faith-based and other community-based organizations.
- (4) Encourage partnerships between grassroots faith-based and other community-based organizations and HUD's traditional grantees.

You can find out about HUD's Strategic Framework and Annual Performance Plans at <http://www.hud.gov/offices/cfo/reports/cforept.cfm>.

2. *Policy Priorities.* HUD encourages applicants to undertake specific activities that will assist the Department in implementing its policy priorities and which help the Department achieve its goals for FY2004 and beyond, when the majority of funding recipients will be reporting programmatic results and achievements. Applicants that include work activities that specifically address one or more of these policy priorities will receive higher rating scores than applicants that do not address these HUD priorities. Each NOFA issued in FY2004 will specify which priorities relate to a particular program and how many points will be awarded for addressing those priorities.

a. *Providing Increased Homeownership and Rental Opportunities for Low- and Moderate-Income Persons, Persons with*

Disabilities, the Elderly, Minorities, and Families with Limited English Proficiency. Too often, these individuals and families are shut out of the housing market through no fault of their own. Often developers of housing, housing counseling agencies, and other organizations engaged in the housing industry must work aggressively to open up the realm of homeownership and rental opportunities to low- and moderate-income persons, persons with disabilities, the elderly, minorities, or families with limited English proficiency. Many of these families are anxious to have a home of their own but are not aware of the programs and assistance that are available. Applicants are encouraged to address the housing, housing counseling, and other related supportive services needs of these individuals and coordinate their proposed activities with funding available through HUD's affordable housing programs and home loan programs.

Proposed activities support strategic goals a, b, and d.

b. *Improving our Nation's Communities.* HUD wants to improve the quality of life for those living in distressed communities. Applicants are encouraged to include activities which:

- (1) Bring private capital into distressed communities;
 - (a) Finance business investments to grow new businesses;
 - (b) Maintain and expand existing businesses;
 - (c) Create a pool of funds for new small and minority-owned businesses; and
 - (d) Create decent jobs for low-income persons.

(2) Improve the environmental health and safety of families living in public and privately-owned housing by including activities which:

- (a) Coordinate lead hazard reduction programs with weatherization activities funded by state and local governments and the federal government; and
- (b) Reduce or eliminate health related hazards in the home caused by toxic agents such as molds and other allergens, carbon monoxide, and other hazardous agents and conditions.

(3) Make communities more livable by:

- (a) Providing public and social services; and
- (b) Improving infrastructure and community facilities.

Activities support strategic goals b, c, and d.

c. *Encouraging Accessible Design Features.* As described in Section III.C.2.c., applicants must comply with applicable civil rights laws including

the Fair Housing Act, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. These laws, and the regulations implementing them, provide for nondiscrimination based on disability and require housing and other facilities to incorporate certain features intended to provide for their use and enjoyment by persons with disabilities. HUD is encouraging applicants to add accessible design features beyond those required under civil rights laws and regulations. These features would eliminate many other barriers limiting the access of persons with disabilities to housing and other facilities. Copies of the Uniform Federal Accessibility Standards (UFAS) are available from the NOFA Information Center (800-HUD-8929 or 800-HUD-2209 (TTY)) and also from the Office of Fair Housing and Equal Opportunity, U.S. Department of Housing and Urban Development, Room 5230, 451 Seventh Street, SW., Washington, DC 20410-2000, (202) 755-5404 or 800-877 8339 (TTY Federal Information Relay Service).

Accessible design features are intended to promote visitability and incorporate features of universal design as described below:

(1) *Visitability in New Construction and Substantial Rehabilitation.* Applicants are encouraged to incorporate visitability standards where feasible in new construction and substantial rehabilitation projects. Visitability standards allow a person with mobility impairments access into the home, but do not require that all features be made accessible. Visitability means that there is at least one entrance at grade (no steps), approached by an accessible route, such as a sidewalk, and that the entrance door and all interior passage doors are at least 2 feet 10 inches wide, allowing 32 inches of clear passage space. A visitable home also serves persons without disabilities, such as a mother pushing a stroller or a person delivering a large appliance. More information about visitability is available at <http://www.concretechange.org>.

Activities support strategic goals b, c, and d.

(2) *Universal Design.* Applicants are encouraged to incorporate universal design in the construction or rehabilitation of housing, retail establishments, and community facilities funded with HUD assistance. Universal design is the design of products and environments to be usable by all people to the greatest extent possible, without the need for adaptation or specialized design. The intent of universal design is to simplify

life for everyone by making products, communications, and the built environment more usable by as many people as possible at little or no extra cost. Universal design benefits people of all ages and abilities. In addition to any applicable required accessibility features under Section 504 of the Rehabilitation Act of 1973 or the design and construction requirements of the Fair Housing Act, the Department encourages applicants to incorporate the principles of universal design when developing housing, community facilities, and electronic communication mechanisms or when communicating with community residents at public meetings or events.

HUD believes that by creating housing that is accessible to all, it can increase the supply of affordable housing for all, regardless of ability or age. Likewise, creating places where people work, train, and interact which are useable and open to all residents increases opportunities for economic and personal self-sufficiency. More information on Universal Design is available from the Center for Universal Design, at <http://www.design.ncsu.edu:8120/cud/>, or the Resource Center on Accessible Housing and Universal Design, at http://www.abledata.com/Site_2/accessib.htm.

Activities support strategic goals a, b, c, and d.

d. *Providing Full and Equal Access to Grassroots Faith-Based and Other Community-Based Organizations in HUD Program Implementation.*

(1) HUD encourages nonprofit organizations, including grassroots faith-based and other community-based organizations, to participate in the vast array of programs for which funding is available through HUD's programs. HUD also encourages states, units of local government, universities, colleges, and other organizations to partner with grassroots organizations, e.g., civic organizations, faith communities, and grassroots faith-based and other community-based organizations that have not been effectively utilized. These grassroots organizations have a strong history of providing vital community services such as assisting the homeless and preventing homelessness, counseling individuals and families on fair housing rights, providing elderly housing opportunities, developing first-time homeownership programs, increasing homeownership and rental housing opportunities in neighborhoods of choice, developing affordable and accessible housing in neighborhoods across the country, creating economic development programs, and supporting the residents of public housing

facilities. HUD wants to make its programs more effective, efficient, and accessible by expanding opportunities for grassroots organizations to participate in developing solutions for their own neighborhoods. Additionally, HUD encourages applicants to include these grassroots faith-based and other community-based organizations in their workplans. Applicants, their partners, and participants must review the individual FY2004 HUD program announcements to determine whether they are eligible to apply for funding directly or whether they must establish a working relationship with an eligible applicant in order to participate in a HUD funding opportunity. Grassroots faith-based and other community-based organizations, and applicants that currently or propose to partner, fund, subgrant, or subcontract with grassroots organizations (including grassroots faith-based or other community-based nonprofit organizations eligible under applicable program regulations) in conducting their work programs will receive higher rating points as specified in the individual FY2004 HUD program announcements.

(2) Definition of Grassroots Organizations:

(a) HUD will consider an organization a "grassroots organization" if the organization is headquartered in the local community to which it provides services; and,

- (i) Has a social services budget of \$300,000 or less, or
- (ii) Has six or fewer full-time equivalent employees.

(b) Local affiliates of national organizations are not considered "grassroots." Local affiliates of national organizations are encouraged, however, to partner with grassroots organizations but must demonstrate that they are currently working with a grassroots organization (e.g., having a faith community or civic organization, or other charitable organization provide volunteers).

(c) The cap provided in paragraph (2)(a)(i) above includes only that portion of an organization's budget allocated to providing social services. It does not include other portions of the budget such as salaries and expenses not directly expended in the provision of social services.

Activities support strategic goal f.

e. *Participation of Minority-Serving Institutions in HUD Programs.* Pursuant to Executive Orders 13256, "President's Board of Advisors on Historically Black Colleges and Universities," 13230, "President's Advisory Commission on Educational Excellence for Hispanic Americans," 13216, "Increasing

Participation of Asian Americans and Pacific Islanders in Federal Programs," and 13270, "Tribal Colleges and Universities," HUD is strongly committed to broadening the participation of Minority-Serving Institutions (MSIs) in its programs. HUD is interested in increasing the participation of MSIs in order to advance the development of human potential, strengthen the nation's capacity to provide high quality education, and increase opportunities for MSIs to participate and benefit from federal financial assistance programs. HUD encourages all applicants and recipients to include meaningful participation of MSIs in their work programs. A listing of MSIs can be found on the Department of Education Web site at <http://www.ed.gov/about/offices/list/ocr/edlite-minorityinst.html> or HUD's Web site at <http://www.hud.gov/grants/index.cfm>.

Activities support strategic goals c and d.

f. *Ending Chronic Homelessness within 10 Years.* President Bush has set a national goal to end chronic homelessness within 10 years. Secretary Alphonso Jackson has embraced this goal and has pledged that HUD's grant programs will be used to support the President's goal and more adequately meet the needs of chronically homeless individuals. A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. Applicants are encouraged to target assistance to chronically homeless persons by undertaking activities that will result in:

- (1) Creation of affordable group homes or rental housing units;
- (2) Establishment of a set-aside of units of affordable housing for the chronically homeless;
- (3) Establishment of substance abuse treatment programs targeted to the homeless population;
- (4) Establishment of job training programs that will provide opportunities for economic self-sufficiency;
- (5) Establishment of counseling programs that assist homeless persons in finding housing, financial management, anger management, and building interpersonal relationships;
- (6) Provision of supportive services, such as health care assistance that will permit homeless individuals to become productive members of society;
- (7) Provision of service coordinators or one-stop assistance centers that will

ensure that chronically homeless persons have access to a variety of social services.

Applicants that are developing programs to meet the goals set in this policy priority should be mindful of the requirements of the regulations implementing Section 504 of the Rehabilitation Act, in particular, 24 CFR 8.4(b)(1)(iv), 8.4(c)(1) and 8.4(d).

Activities support strategic goals b and c.

g. *Removal of Regulatory Barriers to Affordable Housing.*

On March 22, 2004 (69 FR 13450), HUD published a final notice announcing its intention to establish the Removal of Regulatory Barriers to Affordable Housing policy priority in the majority of its FY2004 NOFAs. In the March 22, 2004, notice, HUD advised that applicants would be required to respond to a series of evaluative questions in order to receive the rating points associated with this priority. On April 21, 2004 (69 FR 21663), HUD published a correction to Question 5 in PART A of the questionnaire. In the April 21, 2004, notice, HUD also responded to questions that arose after the publication of the March 22, 2004, notice. Through this initiative, HUD is seeking input into how it can more effectively work with the public and private sectors to remove regulatory barriers to affordable housing. The March 22, 2004, notice, as clarified in the April 21, 2004, notice, addresses how HUD will evaluate the effectiveness of state and local government efforts to remove regulatory barriers to affordable housing.

Increasing the affordability of rental and homeownership housing continues to be a high priority of the Department. Over the last 15 years, there has been increased recognition that unnecessary, duplicative, excessive, or discriminatory public processes often significantly increase the cost of housing development and rehabilitation. Often referred to as "regulatory barriers to affordable housing," many public statutes, ordinances, regulatory requirements, or processes and procedures significantly impede the development or availability of affordable housing without providing a commensurate or demonstrable health or safety benefit. "Affordable housing" is decent quality housing that low-, moderate- and middle-income families can afford to buy or rent without spending more than 30 percent of their income; spending more than 30 percent of income on shelter may require families to sacrifice other necessities of life.

Addressing these barriers to housing affordability is a necessary component of any overall national housing policy. However, addressing such barriers must be viewed as a complement, not a substitute, for other efforts to meet affordable housing needs. For many families, federal, state, and local subsidies are fundamental tools for meeting these affordable needs. In many instances, however, other sometimes well-intentioned public policies work at cross-purposes with subsidy programs by imposing significant constraints. From zoning that keeps out affordable housing, especially multifamily housing, to other regulations and requirements that unnecessarily raise the costs of construction, the need to address this issue is clear. For example, affordable rehabilitation is often constrained by outmoded building codes that require excessive renovation. Barrier removal will not only make it easier to find and get approval for affordable housing sites but it will also allow available subsidies to go further in meeting these needs. For housing for moderate-income families often referred to as "work force" housing, barrier removal can be the most essential component of meeting housing needs.

Under this policy priority, higher rating points are available to (1) governmental applicants that are able to demonstrate successful efforts in removing regulatory barriers to affordable housing, and (2) nongovernmental applicants that are associated with jurisdictions that have undertaken successful efforts in removing barriers. To obtain the policy priority points for efforts to successfully remove regulatory barriers, applicants must complete form HUD 27300, "Questionnaire for HUD's Initiative on Removal of Regulatory Barriers." A copy of HUD's notice entitled, "America's Affordable Communities Initiative, HUD's Initiative on Removal of Regulatory Barriers: Announcement of Incentive Criteria on Barrier Removal in HUD's FY2004 Competitive Funding Allocations" (AACI notice) can be found on HUD's Web site at <http://www.hud.gov/grants/index.cfm>.

Local jurisdictions and counties with land use and building regulatory authority applying for funding, as well as housing authorities, nonprofit organizations, and other qualified applicants applying for funding for a project located in these jurisdictions, are invited to answer the 20 questions in PART A of form HUD 27300. For those applications in which regulatory authority is split between jurisdictions (e.g., county and town) the applicant should answer the question for that

jurisdiction that has regulatory authority over the issue at question. An applicant that scores at least five in Column 2 will receive one point in the NOFA evaluation. An applicant that scores 10 or greater in Column 2 will receive a total of two points in the evaluation.

State agencies or departments applying for funding, as well as housing authorities, nonprofit organizations and other qualified applicants applying for funds for projects located in unincorporated areas or areas otherwise not covered in PART A are invited to answer the 15 questions in PART B. Under PART B an applicant that scores at least four in Column 2 will receive one point in the NOFA evaluation. Under PART B an applicant that scores eight or greater will receive a total of two points in the respective evaluation. Applicants that will be providing services in multiple jurisdictions may choose to address the questions in either PART A or PART B for that jurisdiction in which the preponderance of services will be performed if an award is made. In no case will an applicant receive for this policy priority greater than two points for barrier removal activities. An applicant that is a tribe or tribally designated housing entity (TDHE) may choose to complete either PART A or PART B based upon a determination by the tribe or TDHE as to whether the tribe's or the TDHE's association with the local jurisdiction or the state would be the more advantageous for its application.

Note: Upon completion of all NOFA evaluations, grant selections, and awards, it is HUD's intent to add relevant data obtained from this evaluative factor to the database on state and local regulatory reform actions maintained at the Regulatory Barrier Clearinghouse Web site at www.huduser.org/rbc/ used by states, localities, and housing providers to identify regulatory barriers and learn of exemplary local efforts at regulatory reform.

Form HUD-27300 can be found in the appendix to this General Section. A limited number of questions on form HUD-27300 expressly request the applicant to provide brief documentation with its response. Other questions require that, for each affirmative statement made, the applicant supply a reference, URL, or brief statement indicating where the back-up information may be found, and a point of contact, including a telephone number or e-mail address. Applicants are encouraged to read the March 22, 2004 and April 21, 2004, America's Affordable Communities Initiative notice, as well as this General Section of the SuperNOFA, to obtain an understanding of this policy priority

and how it can impact their score. HUD also will provide a satellite broadcast on this subject as part of its SuperNOFA Training. The SuperNOFA webcast schedule can be found on HUD's Web site at <http://www.hud.gov/webcasts/index.cfm>.

Activities support strategic goals a and b.

3. Threshold Compliance. Only applications that meet all of the threshold requirements will be eligible to be rated and ranked.

4. Corrections to Deficient Applications. After the application due date, HUD may not, consistent with its regulations in 24 CFR part 4, subpart B, consider any unsolicited information you, the applicant, may want to provide. HUD may contact you to clarify an item in your application or to correct technical deficiencies. HUD may not seek clarification of items or responses that improve the substantive quality of your response to any rating factors. In order not to unreasonably exclude applications from being rated and ranked, HUD may contact applicants to ensure proper completion of the application and will do so on a uniform basis for all applicants.

Examples of curable (correctable) technical deficiencies include inconsistencies in the funding request, a failure to submit the proper certifications or failure to submit an application that contains an original signature by an authorized official. In each case, HUD will notify you in writing by describing the clarification or technical deficiency. HUD will notify applicants by facsimile or by USPS, return receipt requested. Clarifications or corrections of technical deficiencies in accordance with the information provided by HUD must be submitted within 14 calendar days of the date of receipt of the HUD notification. (If the due date falls on a Saturday, Sunday, or federal holiday, your correction must be received by HUD on the next day that is not a Saturday, Sunday, or federal holiday.) If the deficiency is not corrected within this time period, HUD will reject the application as incomplete and it will not be considered for funding. In order to meet statutory deadlines for the obligation of funds or for timely completion of the review process, Program NOFAs may reduce the number of days for submitting a response to a HUD clarification or correction to a technical deficiency. Please be sure to carefully read each Program NOFA for any additional information and instructions.

5. Rating Panels. To review and rate applications, HUD may establish panels which may include persons not

currently employed by HUD. HUD may include these non-HUD employees to obtain certain expertise and outside points of view, including views from other federal agencies.

6. Rating. HUD will evaluate and rate all applications for funding that meet the threshold requirements. HUD will consider the following when rating your application(s):

a. **Past Performance.** In evaluating applications for funding, HUD will take into account applicants' past performance in managing funds, including, but not limited to, the ability to account for funds appropriately; timely use of funds received either from HUD or other federal, state, or local programs; meeting performance targets for completion of activities and receipt of promised matching or leveraged funds; and number of persons to be served or targeted for assistance. HUD may consider information available from HUD's records, the name check review, or public sources, such as newspapers, Inspector General or Government Accounting Office Reports or Findings, or hotline complaints that have been proven to have merit.

b. **Deducting Points for Poor Performance.** In evaluating past performance, HUD may elect to deduct points from the rating score or establish threshold levels as specified under the Factors for Award in the individual Program NOFAs.

7. Ranking. HUD will rank applicants within each program or, for Continuum of Care applicants, across the three programs identified in the Continuum of Care NOFA. HUD will rank applicants only against those applying for the same program funding.

Where there are set-asides within a program competition, you, the applicant, will compete against only those applicants in the same set-aside competition.

C. Anticipated Announcement and Award Dates

The individual Program NOFAs will provide the applicable information regarding this subject.

VI. Award Administration Information

A. Award Notices

1. Negotiation. After HUD has rated and ranked all applications and made selections, HUD may require, depending upon the program, that a selected applicant participate in negotiations to determine the specific terms of the funding agreement and budget. In cases where HUD cannot successfully conclude negotiations with a selected applicant or a selected applicant fails to

provide HUD with requested information, an award will not be made to that applicant. In such an instance, HUD may offer an award and proceed with negotiations with the next highest-ranking applicant.

2. Adjustments to Funding:

a. HUD reserves the right to fund less than the full amount requested in your application to ensure the fair distribution of funds and ensure that the purposes or requirements of a specific program are met.

b. HUD will not fund any portion of your application that is not eligible for funding under specific program statutory or regulatory requirements; does not meet the requirements of this Notice; or may be duplicative of other funded programs or activities from prior year awards or other selected applicants. Only the eligible portions of your application (including non-duplicative portions) may be funded.

c. If funds remain after funding the highest-ranking applications, HUD may fund all or part of the next highest-ranking application in a given program. If you, the applicant, turn down an award offer, HUD will make an offer of funding to the next highest-ranking application.

d. If funds remain after all selections have been made, remaining funds may be made available within the current fiscal year for other competitions within the program area or held-over for future competitions.

3. Funding Errors. In the event HUD commits an error that, when corrected, would result in selection of an otherwise eligible applicant during the funding round of a Program NOFA, HUD may select that applicant when sufficient funds become available.

4. Performance and Compliance Actions of Funding Recipients. HUD will measure and address the performance and compliance actions of funding recipients in accordance with the applicable standards and sanctions of their respective programs.

5. Debriefing. For a period of at least 120 days, beginning 30 days after the awards for assistance are publicly announced, HUD will provide to a requesting applicant a debriefing related to its application. All debriefing requests must be made in writing or by email by the authorized official whose signature appears on the SF-424 or his or her successor in office, and submitted to the person or organization identified as the Contact under the section entitled "Agency Contact(s)" in the individual Program NOFAs under which you applied for assistance. Information provided during a debriefing will include, at a minimum, the final score

you received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which assistance was provided or denied.

B. Administrative and National Policy Requirements

See Section III.C. of this Notice regarding related requirements.

C. Reporting

The individual Program NOFAs will identify applicable reporting requirements related to each program, including racial and ethnic data collection requirements based upon the OMB standards for federal data on race and ethnicity, dated August 13, 2002. The reporting shall include submission of a completed Logic Model indicating results achieved against the proposed output goal(s) and proposed outcome(s) which you stated in your approved application and agreed upon by HUD. The submission of the Logic Model and required information should be in accord with the reporting time frames identified in each Program NOFA.

VII. Agency Contact(s)

The individual Program NOFAs will identify the applicable agency contacts related to each program. Questions regarding this Notice should be directed to Dorthera (Rita) Yorkshire or Eric Gauff, in HUD's Office of Departmental Grants Management, at 202-708-0667. Persons with speech or hearing impairments may contact Ms. Yorkshire or Mr. Gauff using the toll-free Federal Relay Service at 800-877-8339. Questions regarding specific program requirements should be directed to the agency contacts identified in each Program NOFA.

VIII. Other Information

A. Grants.gov and Pub. L. 106-107 Streamlining Activities

The Federal Financial Assistance Management Improvement Act of 1999 (Pub. L. 106-107) directs each federal agency to develop and implement a plan that, among other things, streamlines and simplifies the application, administrative, and reporting procedures for federal financial assistance programs administered by the agency. This law also requires the Director of OMB to direct, coordinate, and assist federal agencies in establishing (1) a common application and reporting system and (2) an interagency process for addressing ways to streamline and simplify federal financial assistance application and administrative procedures and reporting requirements for program applicants.

HUD is working with the 26 federal grant-making agencies on President George W. Bush's Grants.gov "FIND and APPLY" Initiative. This Initiative is an effort by federal agencies to develop a common electronic application and reporting system for federal financial assistance. This system will provide "one-stop shopping" for funding opportunities for all federal programs. This system is being developed in response to public and government concerns that it is difficult for organizations to know all the funding available from the federal government and how to apply for funding. It also is an effort by the federal government to develop common application requirements, further streamlining the application process, making it easier for you, our customers, to apply for funding.

The first segment of the Grants.gov Initiative focuses on allowing the public to easily FIND funding opportunities and then APPLY via Grants.gov. Funding decisions will still be under the control of the federal agency sponsoring the program funding opportunity. In FY2004, HUD is posting all of its funding notices on www.Grants.gov/FIND with links to HUD's Web site for copies of the NOFA sections and form-fillable forms which applicants can download and complete for submission of paper copy applications. During FY2004, HUD applicants will be able to continue to submit paper copies of their application to HUD for funding consideration and, in fact, the paper copy will be the official copy to submit to the Department. To find out more about Grants.gov, please go to its Web site and look at the Tutorials and Getting Started information. It is HUD's intent to move to a fully electronic application system in FY2005, so becoming familiar with the functionality of the Grants.gov Web site would benefit the applicant community.

B. Paperwork Reduction Act Statement

The information collection requirements in this Notice have been approved by OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. Each Program NOFA will identify its applicable OMB control number.

C. Authority

HUD's authority for making funding available under its FY2004 programs is

identified in each Program NOFA under the section entitled "Funding Opportunity Description."

D. Environmental Impact

A Finding of No Significant Impact with respect to the environment has been made for this Notice in accordance with HUD regulations at 24 CFR part 50 that implement Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The Finding of No Significant Impact is available for public inspection between 8 a.m. and 5 p.m. in the Office of the General Counsel, Regulations Division, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410-0500.

E. Executive Orders and Congressional Intent

1. *Executive Order 13132, Federalism.* Executive Order 13132 prohibits, to the extent practicable and permitted by law, an agency from promulgating policies that have federalism implications and either impose substantial direct compliance costs on state and local governments and are not required by statute, or preempt state law, unless the relevant requirements of section 6 of the executive order are met. This Notice does not have federalism implications and does not impose substantial direct compliance costs on state and local governments or preempt state law within the meaning of the executive order.

2. *Sense of Congress.* It is the sense of Congress, as published in Division G of the Consolidated Appropriations Act, 2004 (Public Law 108-199, approved January 23, 2004), that, to the greatest extent practicable, all equipment and products purchased with funds made available in the Consolidated Appropriations Act, 2004, should be American-made.

F. Public Access, Documentation and Disclosure

Section 102 of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3545) (HUD Reform Act) and the regulations codified in 24 CFR part 4, subpart A, contain a number of provisions that are designed to ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. On January 14, 1992, HUD published a notice that also provides information on the implementation of Section 102 (57 FR 1942). The documentation, public access, and disclosure requirements of Section 102 apply to assistance awarded

under individual NOFAs published as part of HUD's SuperNOFA or thereafter, as follows:

1. *Documentation, public access, and disclosure requirements.* HUD will ensure that documentation and other information regarding each application submitted pursuant to its FY2004 NOFAs published in the FY2004 SuperNOFA or NOFAs published thereafter, are sufficient to indicate the basis upon which assistance was provided or denied. This material, including any letters of support, will be made available for public inspection for a five-year period beginning not less than 30 days after the award of the assistance. Material will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations (24 CFR part 15).

2. *HUD Form 2880.* HUD will also make available to the public for five years all applicant disclosure reports (HUD Form 2880) submitted in connection with an FY2004 NOFA. Update reports (also reported on HUD Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period of less than three years. All reports, both applicant disclosures and updates, will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations (24 CFR part 5).

3. *Publication of Recipients of HUD Funding.* HUD's regulations at 24 CFR part 4 provide that HUD will publish a notice in the *Federal Register* to notify the public of all funding decisions made by the Department to provide:

- a. Assistance subject to Section 102(a) of the HUD Reform Act; and
- b. Assistance provided through grants or cooperative agreements on a discretionary (non-formula, non-demand) basis, but that is not provided on the basis of a competition.

G. Section 103 of the HUD Reform Act

HUD's regulations implementing Section 103 of the HUD Reform Act, codified at 24 CFR part 4, subpart B apply to this funding competition. The regulations continue to apply until the announcement of the selection of successful applicants. HUD employees involved in the review of applications and in the making of funding decisions are prohibited by the regulations from providing advance information to any person (other than an authorized employee of HUD) concerning funding decisions or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance should confine their inquiries

to the subject areas permitted under 24 CFR part 4.

Applicants or employees who have ethics-related questions should contact the HUD Ethics Law Division at 202-708-3815. (This is not a toll-free number.) The TTY number for persons with speech or hearing impairment is 800-877-8339. HUD employees who have specific program questions should contact the appropriate field office counsel or Headquarters counsel for the program to which the question pertains.

H. The FY2004 HUD NOFA Process and Future HUD Funding Processes

Each year, HUD strives to improve its NOFA process. The FY2004 NOFAs have been revised based upon

comments received during the FY2003 funding process. HUD continues to welcome comments and feedback from applicants and other members of the public on how HUD may further improve its competitive funding process. In FY2004, as part of Public Law 106-107 streamlining efforts and the interagency eGrants Initiative, HUD is making considerable changes to the format and presentation of its funding notices. HUD is continually striving to ensure effective communication with HUD program funding recipients and potential funding recipients. HUD has been posting pertinent documents related to these efforts on its website. HUD encourages you to visit HUD's website on an ongoing basis to keep

abreast of the latest developments. HUD's website address for information on the Grants.gov Initiative is <http://www.hud.gov/offices/adm/grants/egrants/egrants.cfm>.

Information on Grant streamlining activities can be found at <http://www.hud.gov/offices/adm/grants/pl-106107/pl106-107.cfm>.

The programs for which funding is available in the FY2004 SuperNOFA is published simultaneously with this policy Notice and follows this section and its appendices.

Dated: April 22, 2004.

Alphonso Jackson,
Secretary.

INSTRUCTIONS FOR THE SF-424

Public reporting burden for this collection of information is estimated to average 45 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0043), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

This is a standard form used by applicants as a required face sheet for pre-applications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to Executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant's submission.

Item:	Entry:	Item:	Entry:
1.	Select Type of Submission.	11.	Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.
2.	Date application submitted to Federal agency (or State if applicable) and applicant's control number (if applicable).	12.	List only the largest political entities affected (e.g., State, counties, cities).
3.	State use only (if applicable).	13.	Enter the proposed start date and end date of the project.
4.	Enter Date Received by Federal Agency Federal identifier number. If this application is a continuation or revision to an existing award, enter the present Federal Identifier number. If for a new project, leave blank.	14.	List the applicant's Congressional District and any District(s) affected by the program or project
5.	Enter legal name of applicant, name of primary organizational unit (including division, if applicable), which will undertake the assistance activity, enter the organization's DUNS number (received from Dun and Bradstreet), enter the complete address of the applicant (including country), and name, telephone number, e-mail and fax of the person to contact on matters related to this application.	15.	Amount requested or to be contributed during the first funding/budget period by each contributor. Value of in kind contributions should be included on appropriate lines as applicable. If the action will result in a dollar change to an existing award, indicate only the amount of the change. For decreases, enclose the amounts in parentheses. If both basic and supplemental amounts are included, show breakdown on an attached sheet. For multiple program funding, use totals and show breakdown using same categories as item 15.
6.	Enter Employer Identification Number (EIN) as assigned by the Internal Revenue Service.	16.	Applicants should contact the State Single Point of Contact (SPOC) for Federal Executive Order 12372 to determine whether the application is subject to the State intergovernmental review process.
7.	Select the appropriate letter in the space provided. A. State B. County C. Municipal D. Township E. Interstate F. Intermunicipal G. Special District H. Independent School District I. State Controlled Institution of Higher Learning J. Private University K. Indian Tribe L. Individual M. Profit Organization N. Other (Specify) O. Not for Profit Organization	17.	This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include delinquent audit disallowances, loans and taxes.
8.	Select the type from the following list: <ul style="list-style-type: none"> • "New" means a new assistance award. • "Continuation" means an extension for an additional funding/budget period for a project with a projected completion date. • "Revision" means any change in the Federal Government's financial obligation or contingent liability from an existing obligation. If a revision enter the appropriate letter: A. Increase Award B. Decrease Award C. Increase Duration D. Decrease Duration 	18.	To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for you to sign this application as official representative must be on file in the applicant's office. (Certain Federal agencies may require that this authorization be submitted as part of the application.)
9.	Name of Federal agency from which assistance is being requested with this application.		
10.	Use the Catalog of Federal Domestic Assistance number and title of the program under which assistance is requested.		

SURVEY ON ENSURING EQUAL OPPORTUNITY FOR APPLICANTS

OMB No. 1890-0014 Exp. 1/131/2006

Purpose: The Federal government is committed to ensuring that all qualified applicants, small or large, non-religious or faith-based, have an equal opportunity to compete for Federal funding. In order for us to better understand the population of applicants for Federal funds, we are asking nonprofit private organizations (not including private universities) to fill out this survey.

Upon receipt, the survey will be separated from the application. Information provided on the survey will not be considered in any way in making funding decisions and will not be included in the Federal grants database. While your help in this data collection process is greatly appreciated, completion of this survey is voluntary.

Instructions for Submitting the Survey: If you are applying using a hard copy application, please place the completed survey in an envelope labeled "Applicant Survey." Seal the envelope and include it along with your application package. If you are applying electronically, please submit this survey along with your application.

Applicant's (Organization) Name: _____

Applicant's DUNS Number: _____

Grant Name: _____ **CFDA Number:** _____

SF 424 Supplement

Survey Instructions on Ensuring Equal Opportunity for Applicants

Provide the applicant's (organization) name and DUNS number and the grant name and CFDA number.

1. 501(c)(3) status is a legal designation provided on application to the Internal Revenue Service by eligible organizations. Some grant programs may require nonprofit applicants to have 501(c)(3) status. Other grant programs do not.
2. For example, two part-time employees who each work half-time equal one full-time equivalent employee. If the applicant is a local affiliate of a national organization, the responses to survey questions 2 and 3 should reflect the staff and budget size of the local affiliate.
3. Annual budget means the amount of money your organization spends each year on all of its activities.
4. Self-identify.
5. An organization is considered a community-based organization if its headquarters/service location shares the same zip code as the clients you serve.
6. An "intermediary" is an organization that enables a group of small organizations to receive and manage government funds by administering the grant on their behalf.
7. Self-explanatory.
8. Self-explanatory.

Paperwork Burden Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1890-0014. The time required to complete this information collection is estimated to average five (5) minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** U.S. Department of Housing and Urban Development, Office of Departmental Grants Management and Oversight, Room 3156, Washington, D.C. 20410.

If you have comments or concerns regarding the status of your individual submission of this form, write directly to the address above.

(expires 03/31/2005)

Instructions for the HUD-424-B Assurances and Certifications

As part of your application for HUD funding, you, as the official authorized to sign on behalf of your organization or as an individual must provide the following assurances and certifications. By submitting this form, you are stating that to the best of your knowledge and belief, all assertions are true and correct.

As the duly authorized representative of the applicant, I certify that the applicant [Insert below the Name and title of the Authorized Representative, name of Organization and the date of signature]:

Name: _____, Title: _____.

Organization: _____, Date: _____.

1. Has the legal authority to apply for Federal assistance, has the institutional, managerial and financial capability (including funds to pay the non-Federal share of program costs) to plan, manage and complete the program as described in the application and the governing body has duly authorized the submission of the application, including these assurances and certifications, and authorized me as the official representative of the applicant to act in connection with the application and to provide any additional information as may be required.
2. Will administer the grant in compliance with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000(d)) and implementing regulations (24 CFR Part 1), which provide that no person in the United States shall, on the grounds of race, color or national origin, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity that receives Federal financial assistance OR if the applicant is a Federally recognized Indian tribe or its tribally designated housing entity, is subject to the Indian Civil Rights Act (25 U.S.C. 1301-1303).
3. Will administer the grant in compliance with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), as amended, and implementing regulations at 24 CFR Part 8, and the Age Discrimination Act of 1975 (42 U.S.C. 6101-07), as amended, and implementing regulations at 24 CFR Part 146 which together provide that no person in the United States shall, on the grounds of disability or age, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity that receives Federal financial assistance; except if the grant program authorizes or limits participation to designated populations, then the applicant will comply with the nondiscrimination requirements within the designated population.
4. Will comply with the Fair Housing Act (42 U.S.C. 3601-19), as amended, and the implementing regulations at 24 CFR Part 100, which prohibit discrimination in housing on the basis of race, color, religion, sex, disability, familial status, or national origin; except an applicant which is an Indian tribe or its instrumentality which is excluded by statute from coverage does not make this certification; and further except if the grant program authorizes or limits participation to designated populations, then the applicant will comply with the nondiscrimination requirements within the designated population.
5. Will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (42 U.S.C. 4601) and implementing regulations at 49 CFR Part 24 and 24 CFR 42, Subpart A.
6. Will comply with the environmental requirements of the National Environmental Policy Act (42 U.S.C. 4321 et seq.) and related Federal authorities prior to the commitment or expenditure of funds for property acquisition and physical development activities subject to implementing regulations at 24 CFR parts 50 or 58.
7. That no Federal appropriated funds have been paid, or will be paid, by or on behalf of the applicant, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, and officer or employee of Congress, or an employee of a Member of Congress, in connection with the awarding of this Federal grant or its extension, renewal, amendment or modification. If funds other than Federal appropriated funds have or will be paid for influencing or attempting to influence the persons listed above, I shall complete and submit Standard Form-LLL, Disclosure Form to Report Lobbying. I certify that I shall require all sub awards at all tiers (including sub-grants and contracts) to similarly certify and disclose accordingly. Federally recognized Indian Tribes and tribally designated housing entities (TDHEs) established by Federally-recognized Indian tribes as a result of the exercise of the tribe's sovereign power are excluded from coverage by the Byrd Amendment, but State-recognized Indian tribes and TDHEs established under State law are not excluded from the statute's coverage. These certifications and assurances are material representations of the fact upon which HUD can rely when awarding a grant. If it is later determined that, I the applicant, knowingly made an erroneous certification or assurance, I may be subject to criminal prosecution. HUD may also terminate the grant and take other available remedies.

Instructions for the HUD Grant
Application Detailed Budget Form

Public reporting burden for this collection of information is estimated to average 3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB Control Number.

General Instructions

This form is designed so that an application can be made for any of HUD's grant programs. Separate sheets must be used for each proposed program year and for a summary of all years.

Check applicable program year or all years box at top of page to indicate which applies.

On the final sheet enter the Grand Total for all years in the applicable box at the bottom of the page. In preparing the budget, adhere to any existing HUD requirements which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, HUD may require budgets to be shown separately by function or activity. Your budget information should show the entire cost of your proposed program of activities per year. If you are not using funds in any of the line item categories, you should leave the item blank. Pages may be duplicated to show budget data for individual programs, projects or activities.

NOTE: Not all budget categories on this form are eligible for funding under all programs. Please see eligible activities under the specific program for which you are seeking funding.

Budget Categories
The budget categories identify how your program funds will be allocated by type of use, e.g., funds going for salaries, travel, contracts, etc. Each of these line items should be broken out under each applicable column.

Lines 2-4—Show the totals of Lines 5 to 1 in each column.
Lines 5—Show construction related expenses in the appropriate categories below.
Line 6-1—Enter estimated amounts needed to cover administrative expenses. Do not include costs which are related to the normal functions of government.
Line 6-2—Enter estimated site and right-of-way acquisition costs (this includes purchase, lease, end/or easements).

Line 6-3—Enter estimated costs related to relocation advisory assistance, replacement housing, relocation payments to displaced persons and businesses, etc.
Line 6-4—Enter estimated basic engineering fees related to construction (this includes start-up services and preparation of project performance work plans).

Line 6-5—Enter estimated engineering costs, such as surveys, tests, soil borings, etc.
Line 6-6—Enter estimated engineering inspection costs.
Line 6-7—Enter the estimated site preparation and restoration which are not included in the basic construction contract.

Line 6-8—Enter the estimated costs related to demolition activities.
Line 6-9—Enter estimated costs of the construction contract.

Line 6-10—Enter estimated cost of office, shop, laboratory, safety equipment, etc. to be used at the facility, if such costs are not included in the construction contract.
Line 6-11—Enter any estimated contingency costs.
Line 6-12—Enter estimated miscellaneous costs.

Line h.—Enter any other direct costs not already addressed above.
Line l.—Calculate the totals of all applicable columns to determine the Subtotal of Direct Costs.

Line j.—Indicate the approved Indirect Cost Rate (if any) and calculate the indirect cost in accordance with the terms of your approved indirect cost rate and enter the resulting amount.

Grand Total (Year:)—Enter the sum of lines l. and j. under column 9 for each year, and enter the applicable year, in the blank, for each sheet completed.

Grand Total (All Years)—Enter the sum of all the "Grand Total (Year:)" amounts from each sheet completed, under column 9, for all proposed years.

For each budget category (personnel, fringe benefits, travel, etc) you should identify the amount of funding you plan on using in your grant program. You should complete each column as follows:

Column 1 - Identify the amount of funds that you will need from the HUD grant program for which you are seeking funding.

Column 2 - Identify any matching funds that you are required to include in your proposed program in order to be eligible for assistance.

Column 3 - Identify any other HUD funds that you will be adding to this program either through your formula or competitive grant programs.

Column 4 - Identify any other Federal funds that you will be adding to this program either through your formula or competitive grant programs.

Column 5 - Identify any State funds that you will be adding to this program.

Column 6 - Identify any Local or Tribal Government funds that you will be adding to this program.

Column 7 - Identify any additional funds not previously identified in Columns 1 - 6, that you intend to use for your proposed program.

Column 8 - Identify any program income that you expect to generate under this program.

Column 9 - Add columns 1 - 8 across and place the total in Column 9.

Instructions for Completing the Grant Application Detailed Budget Worksheet

Item	Discussion
<p>This form is to be used to provide detailed budget information regarding your proposed program. If your program requires you to provide program activity information you should use a separate HUD-424-CBW to provide information related to each program activity. The detailed information provided on this form can be summarized on the HUD-424-CB form by checking the "All Years" box at the top of the form and inputting the summary information.</p>	
1 - Personnel (Direct Labor)	<p>This section should show the labor costs for all individuals supporting the grant program effort (regardless of the source of their salaries). The hours and costs are for the full life of the grant. If an individual is employed by a contractor or sub-grantee, their labor costs should not be shown here.</p> <p>Please include all labor costs that are associated with the proposed grant program, including those costs that will be paid for with in-kind or matching funds.</p> <p>Do not show fringe or other indirect costs in this section.</p> <p>Please use the hourly labor cost for salaried employees (use 2080 hours per year or the value your organization uses to perform this calculation). An employee working less than full time on the grant should show the numbers of hours they will work on the grant.</p>
2 - Fringe Benefits	<p>Use the standard fringe rates used by your organization. You may use a single fringe rate (a percentage of the total direct labor) or list each of the individual fringe charges. The spreadsheet is set up to use the Total Direct Labor Cost as the base for the fringe calculation. If your organization calculates fringe benefits differently, please use a different base and discuss how you calculate fringe as a comment.</p>
3 - Travel	
3a - Transportation - Local Private Vehicle	<p>If you plan on reimbursing staff for the use of privately owned vehicles or if you are required to reimburse your organization for mileage charges, show your mileage and cost estimates in this section.</p>
3b - Transportation - Airfare	<p>Show the estimated cost of airfare required to support the grant program effort. Show the destination and the purpose of the travel as well as the estimated cost of the tickets.</p> <p>Each program notice of funding availability (NOFA) discusses the travel requirements that should be listed here.</p>
3c - Transportation - Other	<p>If you or are charged monthly by your organization for a vehicle for use by the grant program, indicate those costs in this section.</p> <p>Provide estimates for other transportation costs that may be incurred (taxi, etc.).</p>

3d - Per Diem or Subsistence	<p>For travel which will require the payment of subsistence or per diem in accordance with your organization's policies. Indicate the location of the travel.</p> <p>Each program NOFA discusses the travel requirements that should be listed here.</p>
4 - Equipment	<p>Equipment is defined by HUD regulations as tangible, nonexpendable, personal property having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit.</p> <p>Each program NOFA describes what equipment may be purchased using grant funding.</p>
5 - Supplies and Materials	<p>Supplies and materials are consumable and non-consumable items that have a depreciated unit value of less than \$5,000. Please list the proposed supplies and materials as either Consumable Supplies or as Non-Consumable Materials.</p>
5a - Consumable Supplies	<p>List the consumable supplies you propose to purchase. General office or other common supplies may be estimated using an anticipated consumption rate.</p>
5b - Non-consumable materials	<p>List furniture, computers, printers, and other items that will not be consumed in use. Please list the quantity and unit cost.</p>
6 - Consultants	<p>Please indicate the consultants you will use. Indicate the type of consultant (skills), the number of days you expect to use them, and their daily rate.</p>
7 - Contracts and Sub-Grantees	<p>List the contractors and sub-grantees that will help accomplish the grant effort. Examples of contracts that should be shown here include contracts with Community Based Organizations; liability insurance; and training and certification for contractors and workers.</p> <p>If any contractor, sub-contractor, or sub-grantee is expected to receive over 10% of the total Federal amount requested, a separate Grant Application Detailed Budget (Worksheet) should be developed for that contractor or sub-grantee and the total amount of their proposed effort should be shown as a single entry in this section.</p> <p>Unless your proposed program will perform the primary grant effort with in-house employees (which should be listed in section 1), the costs of performing the primary grant activities should be shown in this section.</p> <p>Types of activities which should be shown in this section:</p> <ul style="list-style-type: none"> • Contracts for all services • Training for individuals not on staff • Contracts with Community Based Organizations or Other Governmental Organizations (note the 10% requirement discussed above) • Insurance if your program will procure it separately <p>Please provide a short description of the activity the contractor or subgrantee will perform, if not evident.</p>

form HUD-424-CBW-1 (1/2004)

8 – Construction Costs	
8a – Administrative and legal expenses	Enter estimated amounts needed to cover administrative expenses. Do not include costs that are related to the normal functions of government.
8b – Land, structures, rights-of way, appraisal, etc.	Enter estimated site and right(s)-of-way acquisition costs (this includes purchase, lease, and/or easements).
8c – Relocation expenses and payments	Enter estimated costs related to relocation advisory assistance, replacement housing, relocation payments to displaced persons and businesses, etc.
8d – Architectural and engineering fees	Enter estimated basic engineering fees related to construction (this includes start-up services and preparation of project performance work plan).
8e – Other architectural and engineering fees	Enter estimated engineering costs, such as surveys, tests, soil borings, etc.
8f – Project inspection fees	Enter estimated engineering inspection costs.
8g – Site work	Enter the estimated site preparation and restoration costs that are not included in the basic construction contract.
8h – Demolition and removal	Enter the estimated costs related to demolition activities.
8i – Construction	Enter estimated costs of the construction contract.
8j – Equipment	Enter estimated cost of office, shop, laboratory, safety equipment, etc. to be used at the facility, if such costs are not included in the construction contract.
8k – Contingencies	Enter any estimated contingency costs.
8l – Miscellaneous	Enter estimated miscellaneous costs.
9 - Other Direct Costs	<p>Other Direct Costs include a number of items that are not appropriate for other sections.</p> <p>Other Direct Costs may include:</p> <ul style="list-style-type: none"> • Staff training • Telecommunications • Printing and postage <p>Relocation, if costs are paid directly by your organization (if relocation costs are paid by a subgrantee, it should be reflected in Section 7)</p>
10 - Indirect Costs	<p>Indirect costs (including Facilities and Administration costs) are those costs that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved.</p> <p>Indicate your approved Indirect Cost Rate (if any) and calculate the indirect costs in accordance with the terms of your approved indirect cost rate and enter the resulting amount. Also show the applicable cost base amount and identify the proposed cost base type.</p>
Total Estimated Costs	Enter the grand total of all the applicable columns.

The eight rightmost columns allow you to identify how the costs will be spread between the HUD Share and other contributors (including Match funds and Program Income). This information will help the reviewers better understand your program and priorities.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, State and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee," then enter the full name, address, city, State and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, State and zip code of the lobbying registrant under the Lobbying Disclosure Act of 1995 engaged by the reporting entity identified in item 4 to influence the covered Federal action.

(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).
11. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, DC 20503.

Applicant/Recipient Disclosure/Update Report

U.S. Department of Housing
and Urban Development

OMB Approval No. 2510-0011 (exp. 12/31/2006)

Instructions. (See Public Reporting Statement and Privacy Act Statement and detailed instructions on page 2.)

Applicant/Recipient Information

Indicate whether this is an Initial Report or an Update Report

1. Applicant/Recipient Name, Address, and Phone (include area code): () -	2. Social Security Number or Employer ID Number: -
3. HUD Program Name	4. Amount of HUD Assistance Requested/Received
5. State the name and location (street address, City and State) of the project or activity:	

Part I Threshold Determinations

1. Are you applying for assistance for a specific project or activity? These terms do not include formula grants, such as public housing operating subsidy or CDBG block grants. (For further information see 24 CFR Sec. 4.3).
 Yes No
2. Have you received or do you expect to receive assistance within the jurisdiction of the Department (HUD), involving the project or activity in this application, in excess of \$200,000 during this fiscal year (Oct. 1 - Sep. 30)? For further information, see 24 CFR Sec. 4.9
 Yes No

If you answered "No" to either question 1 or 2, **Stop!** You do not need to complete the remainder of this form. **However,** you must sign the certification at the end of the report.

Part II Other Government Assistance Provided or Requested / Expected Sources and Use of Funds.

Such assistance includes, but is not limited to, any grant, loan, subsidy, guarantee, insurance, payment, credit, or tax benefit.

Department/State/Local Agency Name and Address	Type of Assistance	Amount Requested/Provided	Expected Uses of the Funds

(Note: Use Additional pages if necessary.)

Part III Interested Parties. You must disclose:

- All developers, contractors, or consultants involved in the application for the assistance or in the planning, development, or implementation of the project or activity and
- any other person who has a financial interest in the project or activity for which the assistance is sought that exceeds \$50,000 or 10 percent of the assistance (whichever is lower).

Alphabetical list of all persons with a reportable financial interest in the project or activity (For individuals, give the last name first)	Social Security No. or Employee ID No.	Type of Participation in Project/Activity	Financial Interest in Project/Activity (\$ and %)

(Note: Use Additional pages if necessary.)

Certification

Warning: If you knowingly make a false statement on this form, you may be subject to civil or criminal penalties under Section 1001 of Title 18 of the United States Code. In addition, any person who knowingly and materially violates any required disclosures of information, including intentional non-disclosure, is subject to civil money penalty not to exceed \$10,000 for each violation.
I certify that this information is true and complete.

Signature: X	Date: (mm/dd/yyyy)
---------------------	--------------------

Public reporting burden for this collection of information is estimated to average 2.0 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number.

Privacy Act Statement. Except for Social Security Numbers (SSNs) and Employer Identification Numbers (EINs), the Department of Housing and Urban Development (HUD) is authorized to collect all the information required by this form under section 102 of the Department of Housing and Urban Development Reform Act of 1989, 42 U.S.C. 3531. Disclosure of SSNs and EINs is optional. The SSN or EIN is used as a unique identifier. The information you provide will enable HUD to carry out its responsibilities under Sections 102(b), (c), and (d) of the Department of Housing and Urban Development Reform Act of 1989, Pub. L. 101-235, approved December 15, 1989. These provisions will help ensure greater accountability and integrity in the provision of certain types of assistance administered by HUD. They will also help ensure that HUD assistance for a specific housing project under Section 102(d) is not more than is necessary to make the project feasible after taking account of other government assistance. HUD will make available to the public all applicant disclosure reports for five years in the case of applications for competitive assistance, and for generally three years in the case of other applications. Update reports will be made available along with the disclosure reports, but in no case for a period generally less than three years. All reports, both initial reports and update reports, will be made available in accordance with the Freedom of Information Act (5 U.S.C. §552) and HUD's implementing regulations at 24 CFR Part 15. HUD will use the information in evaluating individual assistance applications and in performing internal administrative analyses to assist in the management of specific HUD programs. The information will also be used in making the determination under Section 102(d) whether HUD assistance for a specific housing project is more than is necessary to make the project feasible after taking account of other government assistance. You must provide all the required information. Failure to provide any required information may delay the processing of your application, and may result in sanctions and penalties, including imposition of the administrative and civil money penalties specified under 24 CFR §4.38.

Note: This form only covers assistance made available by the Department. States and units of general local government that carry out responsibilities under Sections 102(b) and (c) of the Reform Act must develop their own procedures for complying with the Act.

Instructions

Overview.

A. Coverage. You must complete this report if:

- (1) You are applying for assistance from HUD for a specific project or activity and you have received, or expect to receive, assistance from HUD in excess of \$200,000 during the fiscal year;
- (2) You are updating a prior report as discussed below; or
- (3) You are submitting an application for assistance to an entity other than HUD, a State or local government if the application is required by statute or regulation to be submitted to HUD for approval or for any other purpose.

B. Update reports (filed by "Recipients" of HUD Assistance):

General. All recipients of covered assistance must submit update reports to the Department to reflect substantial changes to the initial applicant disclosure reports.

Line-by-Line Instructions.

Applicant/Recipient Information.

All applicants for HUD competitive assistance, must complete the information required in blocks 1-5 of form HUD-2880:

1. Enter the full name, address, city, State, zip code, and telephone number (including area code) of the applicant/recipient. Where the applicant/recipient is an individual, the last name, first name, and middle initial must be entered.
2. Entry of the applicant/recipient's SSN or EIN, as appropriate, is optional.
3. Applicants enter the HUD program name under which the assistance is being requested.
4. Applicants enter the amount of HUD assistance that is being requested. Recipients enter the amount of HUD assistance that has been provided and to which the update report relates. The amounts are those stated in the application or award documentation. **NOTE:** In the case of assistance that is provided pursuant to contract over a period of time (such as project-based assistance under section 8 of the United States Housing Act of 1937), the amount of assistance to be reported includes all amounts that are to be provided over the term of the contract, irrespective of when they are to be received.
5. Applicants enter the name and full address of the project or activity for which the HUD assistance is sought. Recipients enter the name and full address of the HUD-assisted project or activity to which the update report relates. The most appropriate government identifying number must be used (e.g., RFP No.; IFB No.; grant announcement No.; or contract, grant, or loan No.) Include prefixes.

Part I. Threshold Determinations - Applicants Only

Part I contains information to help the applicant determine whether the remainder of the form must be completed. **Recipients filing Update Reports should not complete this Part.**

If the answer to either questions 1 or 2 is No, the applicant need not complete Parts II and III of the report, but must sign the certification at the end of the form.

Part II. Other Government Assistance and Expected Sources and Uses of Funds.

A. Other Government Assistance. This Part is to be completed by both applicants and recipients for assistance and recipients filing update reports. Applicants and recipients must report any other government assistance involved in the project or activity for which assistance is sought. Applicants and recipients must report any other government assistance involved in the project or activity. Other government assistance is defined in note 4 on the last page. For purposes of this definition, other government assistance is expected to be made available if, based on an assessment of all the circumstances involved, there are reasonable grounds to anticipate that the assistance will be forthcoming.

Both applicant and recipient disclosures must include all other government assistance involved with the HUD assistance, as well as any other government assistance that was made available before the request, but that has continuing vitality at the time of the request. Examples of this latter category include tax credits that provide for a number of years of tax benefits, and grant assistance that continues to benefit the project at the time of the assistance request.

The following information must be provided:

1. Enter the name and address, city, State, and zip code of the government agency making the assistance available.
2. State the type of other government assistance (e.g., loan, grant, loan insurance).
3. Enter the dollar amount of the other government assistance that is, or is expected to be, made available with respect to the project or activities for which the HUD assistance is sought (applicants) or has been provided (recipients).
4. Uses of funds. Each reportable use of funds must clearly identify the purpose to which they are to be put. Reasonable aggregations may be used, such as "total structure" to include a number of structural costs, such as roof, elevators, exterior masonry, etc.

B. Non-Government Assistance. Note that the applicant and recipient disclosure report must specify all expected sources and uses of funds - both from HUD and any other source - that have been or are to be, made available for the project or activity. Non-government sources of

funds typically include (but are not limited to) foundations and private contributors.

Part III. Interested Parties.

This Part is to be completed by both applicants and recipients filing update reports. Applicants must provide information on:

1. All developers, contractors, or consultants involved in the application for the assistance or in the planning, development, or implementation of the project or activity and
2. any other person who has a financial interest in the project or activity for which the assistance is sought that exceeds \$50,000 or 10 percent of the assistance (whichever is lower).

Note: A financial interest means any financial involvement in the project or activity, including (but not limited to) situations in which an individual or entity has an equity interest in the project or activity, shares in any profit on resale or any distribution of surplus cash or other assets of the project or activity, or receives compensation for any goods or services provided in connection with the project or activity. Residency of an individual in housing for which assistance is being sought is not, by itself, considered a covered financial interest.

The information required below must be provided.

1. Enter the full names and addresses. If the person is an entity, the listing must include the full name and address of the entity as well as the CEO. Please list all names alphabetically.
2. Entry of the Social Security Number (SSN) or Employee Identification Number (EIN), as appropriate, for each person listed is optional.
3. Enter the type of participation in the project or activity for each person listed: i.e., the person's specific role in the project (e.g., contractor, consultant, planner, investor).
4. Enter the financial interest in the project or activity for each person listed. The interest must be expressed both as a dollar amount and as a percentage of the amount of the HUD assistance involved.

Note that if any of the source/use information required by this report has been provided elsewhere in this application package, the applicant need

not repeat the information, but need only refer to the form and location to incorporate it into this report. (It is likely that some of the information required by this report has been provided on SF 424A, and on various budget forms accompanying the application.) If this report requires information beyond that provided elsewhere in the application package, the applicant must include in this report all the additional information required.

Recipients must submit an update report for any change in previously disclosed sources and uses of funds as provided in Section I.D.5., above.

Notes:

1. All citations are to 24 CFR Part 4, which was published in the Federal Register. [April 1, 1996, at 63 Fed. Reg. 14448.]
2. Assistance means any contract, grant, loan, cooperative agreement, or other form of assistance, including the insurance or guarantee of a loan or mortgage, that is provided with respect to a specific project or activity under a program administered by the Department. The term does not include contracts, such as procurements contracts, that are subject to the Fed. Acquisition Regulation (FAR) (48 CFR Chapter 1).
3. See 24 CFR §4.9 for detailed guidance on how the threshold is calculated.
4. "Other government assistance" is defined to include any loan, grant, guarantee, insurance, payment, rebate, subsidy, credit, tax benefit, or any other form of direct or indirect assistance from the Federal government (other than that requested from HUD in the application), a State, or a unit of general local government, or any agency or instrumentality thereof, that is, or is expected to be made, available with respect to the project or activities for which the assistance is sought.
5. For the purpose of this form and 24 CFR Part 4, "person" means an individual (including a consultant, lobbyist, or lawyer); corporation; company; association; authority; firm; partnership; society; State, unit of general local government, or other government entity, or agency thereof (including a public housing agency); Indian tribe; and any other organization or group of people.

Client Comments and Suggestions

U.S. Department of Housing
and Urban Development

You are our Client! Your comments and suggestions, please!

The Department of Housing and Urban Development in preparing this Notice of Funding Availability and application forms, has tried to produce a more user friendly, customer driven funding process. Please let us have your comments and recommendations for improvements to this document. You may leave this form attached to your application, or feel free to detach the form and return it to:

The Department of Housing and Urban Development
Office of Departmental Grants Management and Oversight
Room 3156
451 7th Street, SW
Washington, DC 20410

Please Provide Comments on HUD's Efforts:

The NOFA (insert title) _____

is: (please check one)

- (a) is clear and easily understandable
(b) better than before, but still needs improvement (please specify)

(c) other (please specify)

The application form (insert title) _____

is: (please check one)

- (a) is acceptable given the volume of information required by statute and the volume of information required for accountability in selecting and funding projects.
(b) is simpler and more user-friendly than before, but still needs work (please specify).

(c) other comments (please specify)

(exp. 12/31/2006)

The public reporting burden for this collection of information for the Logic Model is estimated to average 18 hours per response for applicants, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information and preparing the application package for submission to HUD. HUD may not conduct, and a person is not required to respond to, a collection of information unless the collection displays a valid control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions to reduce this burden, to the Reports Management Officer, Paperwork Reduction Project, in the Office of Information Technology, U.S. Department of Housing and Urban Development, Washington, DC 20410-3600. When providing comments, please refer to OMB Approval No. 2535-0114.

The information submitted in response to the Notice of Funding Availability for the Logic Model is subject to the disclosure requirements of the Department of Housing and Urban Development Reform Act of 1989 (Public Law 101-235, approved December 15, 1989, 42 U.S.C. 3545).

Instructions:

Responses to rating factor five should be in this format. Your response should be in bullet format rather than narrative. Please read each NOFA carefully to ensure the performance measures requested for this factor are reflected on the logic model form.

Program Name: The HUD funding program under which you are applying. If you are applying for a component of a program please include the Program Name as well as the Component Name.

Component Name: The HUD funding program under which you are applying.

Column 1: HUD's Strategic Goals: Indicate in this column the number of the goal(s) that your proposed service or activity is designed to achieve. HUD's strategic goals are:

1. Increase homeownership opportunities.
2. Promote decent affordable housing.
3. Strengthen communities.
4. Ensure equal opportunity in housing.
5. Embrace high standards of ethics, management, and accountability.
6. Promote participation of grass-roots faith-based and other community-based organizations.

Policy Priority: Indicate in this column the number of the HUD Policy Priority(ies), if any, your proposed service or activity promotes. Applicants are encouraged to undertake specific activities that will assist the Department in implementing its Policy Priorities. HUD's Policy Priorities are:

form HUD-96010-I (1/2003)

1. Provide Increased Homeownership and Rental Opportunities for Low- and Moderate-Income Persons, Persons with Disabilities, the Elderly, Minorities, and Families with Limited English Proficiency.
2. Improving the Quality of Life in our Nation's Communities.
3. Encouraging Accessible Design Features.
4. Providing Full and Equal Access to Grass-Roots Faith-Based and Other Community-Based Organization in HUD Program Implementation.
5. Participation of Minority-Serving Institutions in HUD Programs
6. Ending Chronic Homelessness within Ten Years.
7. Removal of Barriers to Affordable Housing.

Column 2: Problem, Need, or Situation: Provide a general statement of need that provides the rationale for the proposed service or activity.

Column 3: Service or Activity: Identify the activities or services that you are undertaking in your work plan, which are crucial to the success of your program. Not every activity or service yields a direct outcome.

Column 4 and Column 5: Benchmarks: These columns ask you to identify benchmarks that will be used in measuring the progress of your services or activities. **Column 4** asks for specific interim or final products (called outputs) that you establish for your program's services or activities. **Column 5** should identify the results associated with the product or output. These may be numerical measures characterizing the results of a program activity, service or intervention and are used to measure performance. These outputs should lead to targets for achievement of outcomes. Results should be represented by both the actual # and % of the goal achieved.

Column 4: Benchmarks/Output Goal: Set quantifiable output goals, including timeframes. These should be products or interim products, which will allow you and HUD to monitor and assess your progress in achieving your program workplan.

Column 5: Benchmark/ Output Result: Report actual result of your benchmarks. The actual result could be number of housing units developed or rehabilitated, jobs created, or number of persons assisted. Outputs may be short, intermediate or long-term. *(Do not fill out this section with the application)*

Column 6 and Column 7: Outcomes: **Column 6** and **Column 7** ask you to report on your expected and actual outcomes – the ultimate impact you hope to achieve. **Column 6** asks you to identify outcomes in terms of the impact on the community, people's lives, changes in economic or social status, etc. **Column 7** asks for the actual result of the outcome measure listed in Column 6, which should be updated as applicable.

Column 6: Outcomes/ Goals: Identify the outcomes that resulted in broader impacts for individuals, families/households, and/or the community. For example, the program may seek to improve the environmental conditions in a neighborhood, increase affordable housing, increase the assets of a low-income family, or improve self-sufficiency.

Proxy Outcome(s): Often direct measurement of the intended outcome is difficult or even impossible -- to measure. In these cases, applicants/grantees should use a proxy or surrogate measure that corresponds with the desired outcome. For example, improving quality of life in a neighborhood could be measured by a proxy indicator such as increases in home prices or decreases in crime. Training programs could be measured by the participant's increased wages or reading skills. The person receiving the service must meet eligibility requirements of the program.

Column 7: Outcomes/Actual Result: Identify specific achievements of outcomes listed in Column 6. *(Do not fill out this section with the application)*

Column 8: Measurement Reporting Tools: (a) List the tools used to track output or outcome information (e.g., survey instrument; attendance log; case report; pre-post test; waiting list; etc); (b) Identify the place where data is maintained, e.g. central database; individual case records; specialized access database, tax assessor database; local precinct; other; (c) Identify the location, e.g. on-site; subcontractor; other; (d) Indicate how often data is required to be collected, who will collect it and how often data is reported to HUD; and (e) Describe methods for retrieving data, e.g. data from case records is retrieved manually, data is maintained in an automated database. This tool will be available for HUD review and monitoring and should be used in submitting reporting information.

Column 9: Evaluation Process: Identify the methodology you will periodically use to assess your success in meeting your benchmark output goals and output results, outcomes associated to the achievement of the purposes of the program, as well as the impact that the work has made on the individuals assisted, the community, and the strategic goals of the Department. If you are not meeting the goals and results projected for your performance period, the evaluation process should be used as a tool to ensure that you can adjust schedules, timing, or business practices to ensure that goals are met within your performance period.

Funding Application

Section 8 Tenant-Based Assistance
 Rental Certificate Program
 Rental Voucher Program

U.S. Department of Housing
 and Urban Development
 Office of Public and Indian Housing

OMB Approval No. 2577-0169
 (exp. 05/31/2004)

Send the original and two copies of this application form and attachments to the local HUD Field Office

Public reporting burden for this collection of information is estimated to average 1 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Eligible applicants (HAs) must submit this information when applying for grant funding for tenant-based housing assistance programs under Section 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f). HUD will use the information to evaluate an application based on selection criteria stated in the Notice of Funding Availability (NOFA). HUD will notify the HA of its approval/disapproval of the funding application. Responses are required to obtain a benefit from the Federal Government. The information requested does not lend itself to confidentiality.

Name and Mailing Address of the Housing Agency (HA) requesting housing assistance payments

for Section 8 Certificates?	<input type="checkbox"/>	<input type="checkbox"/>		
for Section 8 Vouchers?	<input type="checkbox"/>	<input type="checkbox"/>		

A. Area(s) From Which Families To Be Assisted Will Be Drawn.
 Locality (city, town, etc.)

Locality (city, town, etc.)	County	Congressional District	Units

B. Proposed Assisted Dwelling Units.
 (Complete this section based on the unit sizes of the applicants at the top of the waiting list)

	Number of Dwelling Units by Bedroom Size						Total Dwelling Units
	0-BR	1-BR	2-BR	3-BR	4-BR	5-BR	
Certificates							
Vouchers							

C. Average Monthly Adjusted Income. Complete this section based on actual incomes of current participants by unit size. Enter average monthly adjusted income for each program separately and only for the unit sizes requested in Section B.

	0-BR	1-BR	2-BR	3-BR	4-BR	5-BR	6+BR
Certificates \$							
Vouchers \$							

D. Need for Housing Assistance. Demonstrate that the project requested in this application is responsive to the condition of the housing stock in the community and the housing assistance needs of low-income families residing in or expected to reside in the community. (If additional space is needed, add separate pages.)

E. Housing Quality Standards (HQS). (Check applicable box)

- HUD's HQS will be used with no modifications Attached for HUD approval are HQS acceptability criteria variations

F. New HA Information. Complete this section if HA currently does not administer a tenant-based certificate or voucher program.

Financial and Administrative Capability. Describe the experience of the HA in administering housing or other programs and provide any other relevant information which evidences present or potential management capability for the proposed rental assistance program. Submit this narrative on a separate page.

Qualification as an HA. Demonstrate that the applicant qualifies as an HA and is legally qualified and authorized to administer the funds applied for in this application. Submit the relevant enabling legislation and a supporting legal opinion.

Note: If this application is approved, the HA must submit for HUD approval a utility allowance schedule and budget documents.

G. Certifications. The following certifications are incorporated as a part of this application form. The signature on the last page of this application of the HA representative authorized to sign the application signifies compliance with the terms of these certifications.

Equal Opportunity Certification

The Housing Agency (HA) certifies that:

- (1) The HA will comply with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and regulations issued pursuant thereto (24 CFR Part 1) which state that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the applicant receives financial assistance; and will take any measures necessary to effectuate this agreement.
- (2) The HA will comply with the Fair Housing Act (42 U.S.C. 3601-19) and regulations issued pursuant thereto (24 CFR Part 100) which prohibit discrimination in housing on the basis of race, color, religion, sex, handicap, familial status, or national origin, and administer its programs and activities relating to housing in a manner to affirmatively further fair housing.
- (3) The HA will comply with Executive Order 11063 on Equal Opportunity in Housing which prohibits discrimination because of race, color, creed, or national origin in housing and related facilities provided with Federal financial assistance and HUD regulations (24 CFR Part 107).
- (4) The HA will comply with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and regulations issued pursuant thereto (24 CFR Part 8) which state that no otherwise qualified individual with handicaps in the United States shall solely by reason of the handicap be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.
- (5) The HA will comply with the provisions of the Age Discrimination Act of 1975 (42 U.S.C. 6101-07) and regulations issued pursuant thereto (24 CFR Part 146) which state that no person in the United States shall on the basis of age be excluded from participation in, be denied the benefits of, or be subjected to discrimination under a program or activity receiving Federal financial assistance.
- (6) The Housing Agency will comply with the provisions of Title II of the Americans with Disabilities Act (42 U.S.C. 12131) and regulations issued pursuant thereto (28 CFR Part 35) which state that subject to the provisions of Title II, no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs or activities of a public entity, or be subjected to discrimination by any such entity.

The following provisions apply only to housing assisted with Project-Based Certificates:

- (7) The HA will comply with Executive Order 11246 and all regulations pursuant thereto (41 CFR Chapter 60-1) which state that no person shall be discriminated against on the basis of race, color, religion, sex or national origin in all phases of employment during the performance of Federal contracts and shall take affirmative action to ensure equal employment opportunity.
- (8) The HA will comply with Section 3 of the Housing and Urban Development Act of 1968, as amended (12 U.S.C. 1701u) and regulations issued pursuant thereto (24 CFR Part 135), which require that, to the greatest extent feasible, opportunities for training and employment be given to low-income persons residing within the unit of local government for metropolitan area (or non-metropolitan county) in which the project is located.

Certification Regarding Lobbying

The undersigned certifies, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- (2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

- (3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

Certification Regarding Drug-Free Workplace Requirements

Instructions for Drug-Free Workplace Requirements Certification:

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
4. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
5. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph three).
6. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of *nolo contendere*) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All *direct charge* employees; (ii) All *indirect charge* employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees or subrecipients or subcontractors in covered workplaces).

A. The grantee certifies that it will or will continue to provide a drug-free workplace by:

- (a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
- (b) Establishing an ongoing drug-free awareness program to inform employees about:
 - (1) The dangers of drug abuse in the workplace;
 - (2) The grantee's policy of maintaining a drug-free workplace;
 - (3) Any available drug counseling, rehabilitation, and employee assistance programs; and
 - (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
- (c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);
- (d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:
 - (1) Abide by the terms of the statement; and
 - (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, State, zip code)

Grantee/Recipient Name: _____

Grantee Reporting Organization: _____

Reporting Period From (mm/dd/yyyy): _____ To (mm/dd/yyyy): _____

Racial Categories	Total Number of Race Responses	Total Number of Hispanic or Latino Responses
American Indian or Alaska Native		
Asian		
Black or African American		
Native Hawaiian or Other Pacific Islander		
White		
American Indian or Alaska Native <i>and</i> White		
Asian <i>and</i> White		
Black or African American <i>and</i> White		
American Indian or Alaska Native <i>and</i> Black or African American		
* Other multiple race combinations greater than one percent: [Per the form instructions, write in a description using the box on the right]		
Balance of individuals reporting more than one race		
Total:		
* If the aggregate count of any reported multiple race combination that is not listed above exceeds 1% of the total population being reported, you should separately indicate the combination. See detailed instructions under "Other multiple race combinations."		

Public reporting burden for this collection is estimated to average 1.15 hours per response, including the time for reviewing instructions, searching existing data sources, gathering the data needed, and completing and reviewing the information collection instrument. HUD may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Instructions for the Race and Ethnic Data Reporting form (HUD-27061)

A. General Instructions:

This form is intended to be used by two categories of respondents: (1) applicants requesting funding from the Department of Housing and Urban Development (HUD); and (2) organizations who receive HUD Federal financial assistance that are required to report race and ethnic information.

In compliance with OMB direction to revise the standards for collection of racial data, HUD has revised its standards as depicted on this form. The revised standards are designed to acknowledge the growing diversity of the U.S. population. Using the revised standards, HUD offers organizations that are responding to HUD data requests for racial information, the option of selecting one or more of nine racial categories to identify the racial demographics of the individuals and/or the communities they serve, or are proposing to serve. HUD's collection of racial data treats ethnicity as a separate category from race and has changed the terminology for certain racial and ethnic groups from the way it has been requested in the past using two distinct ethnic categories. The revised definitions of ethnicity and race have been standardized across the Federal government and are provided below.

1. The two ethnic categories as revised by the Office of Management and Budget (OMB) are defined below.

Hispanic or Latino. A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. The term "Spanish origin" can be used in addition to "Hispanic" or "Latino."

Not Hispanic or Latino. A person not of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

2. The five racial categories as revised by the Office of Management and Budget are defined below:

American Indian or Alaska Native. A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Asian. A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Black or African American. A person having origins in any of the black racial groups of Africa. Terms such as "Haitian" or "Negro" can be used in addition to "Black" or "African American."

Native Hawaiian or Other Pacific Islander. A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

White. A person having origins in any of the original peoples of Europe, the Middle East or North Africa.

Note: The information required to be reported may be collected and submitted to HUD via the use of this form or by other means, such as summary reports or via electronic reporting mechanisms. The primary goal to be achieved is the provision of the summary racial and ethnic data of the population(s) proposed to be served or that is being served by your organization in a consistent manner across all HUD programs.

B. Specific Instructions for Completing the Form:

Organizations using this form should collect the individual responses from the community of individuals you intend to serve or those that you are serving, as applicable. After the individual collections are gathered, you should report (via this form or by the use of other means such as electronic reports that provide the summary data required by this form) the aggregate totals of the racial and ethnic data that you collect via the applicable categories as described below:

Total Number of Racial Responses: Under this column you should indicate the total number of responses collected in the blocks next to the applicable categories.

Total Number of Hispanic or Latino Responses: Under this column you should indicate the total number of responses collected in the blocks next to the applicable racial categories (e.g., you would enter the total number of Asian respondents that indicated they are Hispanic or Latino). When collecting this information from beneficiaries of the Federal financial assistance all respondents should be required to indicate their ethnic category, which requires either a "yes" or "no" response.

Other Multiple Race Combinations: Next to this racial category, indicate all racial categories (if any) identified by respondents that do not fit one of the five single race categories or four double race combinations above, and which have a total count that exceeds one percent of the total population being reported. You must identify each such racial combination, including the actual count, the percentage of the total population (in parenthesis), and the actual Hispanic or Latino count.

For example, if you obtain data that indicates that the total population being served is 200 and includes 10 Native Hawaiian or Other Pacific Islander *and* White and 12 Native Hawaiian or Other Pacific Islander *and* Asian, and those numbers (of Native Hawaiian or Other Pacific Islander *and* White and Native Hawaiian or Other Pacific Islander *and* Asian) each equates to more than one percent of the total population being served, and 2 of the Native Hawaiian or Other Pacific Islander *and* White indicate they belong to the Hispanic/Latino ethnic category and 3 of the Native Hawaiian or Other Pacific Islander *and* Asian indicate they belong to the Hispanic/Latino ethnic category, you should complete the form as follows:

Racial Categories	Total Number of Race Responses	Total Number of Hispanic or Latino Responses
* Other multiple race combinations: [Per the form instruction, write in a description using the box on the right]	Native Hawaiian or Other Pacific Islander AND White 10 (5%)	2
	Native Hawaiian or Other Pacific Islander AND Asian 12 (6%)	3

How the percentage should be applied will vary by program depending on whether the program is required to provide data on the total community, or on the beneficiaries/individuals that are being served or that are proposed to be served.

Balance of individuals reporting more than one race: This block is intended to capture the balance of any racial categories that are not included in the list of nine above, and are not included under "**Other multiple race combinations greater than one percent.**" Indicate the total number of all racial categories reported that do not fit the nine racial categories above, and do not equate to one percent of the total population being reported. Be sure to also indicate the total number of all related Hispanic or Latino responses.

Total: On the last row of the form you should indicate the aggregate totals of all the information you have gathered including the total of all racial categories and the total of all the Hispanic or Latino categories.

America's Affordable Communities Initiative	U.S. Department of Housing and Urban Development	OMB approval no. 2510-0013 (exp. 01/01/2006)
---	--	---

Public reporting burden for this collection of information is estimated to average 3 hours. This includes the time for collecting, reviewing, and reporting the data. The information will be used for encourage applicants to pursue and promote efforts to remove regulatory barriers to affordable housing. Response to this request for information is required in order to receive the benefits to be derived. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

Questionnaire for HUD's Initiative on Removal of Regulatory Barriers

Part A. Local Jurisdictions, Counties Exercising Land Use and Building Regulatory Authority and Other Applicants Applying for Projects Located in such Jurisdictions or Counties (Collectively, Jurisdiction)

	1	2
<p>1. Does your jurisdiction's comprehensive plan (or in the case of a tribe or TDHE, a local Indian Housing Plan) include a "housing element"? A local comprehensive plan means the adopted official statement of a legislative body of a local government that sets forth (in words, maps, illustrations, and/or tables) goals, policies, and guidelines intended to direct the present and future physical, social, and economic development that occurs within its planning jurisdiction and that includes a unified physical plan for the public development of land and water. If your jurisdiction does not have a local comprehensive plan with a "housing element," please enter no. If no, skip to question # 4.</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>2. If your jurisdiction has a comprehensive plan with a housing element, does the plan provide estimates of current and anticipated housing needs, taking into account the anticipated growth of the region, for existing and future residents, including low, moderate and middle income families, for at least the next five years?</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>3. Does your zoning ordinance and map, development and subdivision regulations or other land use controls conform to the jurisdiction's comprehensive plan regarding housing needs by providing: a) sufficient land use and density categories (multifamily housing, duplexes, small lot homes and other similar elements); and, b) sufficient land zoned or mapped "as of right" in these categories, that can permit the building of affordable housing addressing the needs identified in the plan? (For purposes of this notice, "as-of-right," as applied to zoning, means uses and development standards that are determined in advance and specifically authorized by the zoning ordinance. The ordinance is largely self-enforcing because little or no discretion occurs in its administration.). If the jurisdiction has chosen not to have either zoning, or other development controls that have varying standards based upon districts or zones, the applicant may also enter yes.</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>4. Does your jurisdiction's zoning ordinance set minimum building size requirements that exceed the local housing or health code or is otherwise not based upon explicit health standards?</p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No

5. If your jurisdiction has development impact fees, are the fees specified and calculated under local or state statutory criteria? If no, skip to question #7. Alternatively, if your jurisdiction does not have impact fees, you may enter yes.	<input type="checkbox"/> No	<input type="checkbox"/> Yes
6. If yes to question #5, does the statute provide criteria that sets standards for the allowable type of capital investments that have a direct relationship between the fee and the development (nexus), and a method for fee calculation?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
7. If your jurisdiction has impact or other significant fees, does the jurisdiction provide waivers of these fees for affordable housing?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
8. Has your jurisdiction adopted specific building code language regarding housing rehabilitation that encourages such rehabilitation through gradated regulatory requirements applicable as different levels of work are performed in existing buildings? Such code language increases regulatory requirements (the additional improvements required as a matter of regulatory policy) in proportion to the extent of rehabilitation that an owner/developer chooses to do on a voluntary basis. For further information see HUD publication: " <i>Smart Codes in Your Community: A Guide to Building Rehabilitation Codes</i> " (www.huduser.org/publications/destech/smartcodes.html)	<input type="checkbox"/> No	<input type="checkbox"/> Yes
9. Does your jurisdiction use a recent version (i.e. published within the last 5 years or, if no recent version has been published, the last version published) of one of the nationally recognized model building codes (i.e. the International Code Council (ICC), the Building Officials and Code Administrators International (BOCA), the Southern Building Code Congress International (SBCI), the International Conference of Building Officials (ICBO), the National Fire Protection Association (NFPA)) without significant technical amendment or modification. In the case of a tribe or TDHE, has a recent version of one of the model building codes as described above been adopted or, alternatively, has the tribe or TDHE adopted a building code that is substantially equivalent to one or more of the recognized model building codes? Alternatively, if a significant technical amendment has been made to the above model codes, can the jurisdiction supply supporting data that the amendments do not negatively impact affordability.	<input type="checkbox"/> No	<input type="checkbox"/> Yes
10. Does your jurisdiction's zoning ordinance or land use regulations permit manufactured (HUD-Code) housing "as of right" in all residential districts and zoning classifications in which similar site-built housing is permitted, subject to design, density, building size, foundation requirements, and other similar requirements applicable to other housing that will be deemed realty, irrespective of the method of production?	<input type="checkbox"/> No	<input type="checkbox"/> Yes

11. Within the past five years, has a jurisdiction official (i.e., chief executive, mayor, county chairman, city manager, administrator, or a tribally recognized official, etc.), the local legislative body, or planning commission, directly, or in partnership with major private or public stakeholders, convened or funded comprehensive studies, commissions, or hearings, or has the jurisdiction established a formal ongoing process, to review the rules, regulations, development standards, and processes of the jurisdiction to assess their impact on the supply of affordable housing?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
12. Within the past five years, has the jurisdiction initiated major regulatory reforms either as a result of the above study or as a result of information identified in the barrier component of the jurisdiction's "HUD Consolidated Plan?" If yes, attach a brief list of these major regulatory reforms.	<input type="checkbox"/> No	<input type="checkbox"/> Yes
13. Within the past five years has your jurisdiction modified infrastructure standards and/or authorized the use of new infrastructure technologies (e.g. water, sewer, street width) to significantly reduce the cost of housing?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
14. Does your jurisdiction give "as-of-right" density bonuses sufficient to offset the cost of building below market units as an incentive for any market rate residential development that includes a portion of affordable housing? (As applied to density bonuses, "as of right" means a density bonus granted for a fixed percentage or number of additional market rate dwelling units in exchange for the provision of a fixed number or percentage of affordable dwelling units and without the use of discretion in determining the number of additional market rate units.)	<input type="checkbox"/> No	<input type="checkbox"/> Yes
15. Has your jurisdiction established a single, consolidated permit application process for housing development that includes building, zoning, engineering, environmental, and related permits? Alternatively, does your jurisdiction conduct concurrent, not sequential, reviews for all required permits and approvals?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
16. Does your jurisdiction provide for expedited or "fast track" permitting and approvals for all affordable housing projects in your community?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
17. Has your jurisdiction established time limits for government review and approval or disapproval of development permits in which failure to act, after the application is deemed complete, by the government within the designated time period, results in automatic approval?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
18. Does your jurisdiction allow "accessory apartments" either as: a) a special exception or conditional use in all single-family residential zones or, b) "as of right" in a majority of residential districts otherwise zoned for single-family housing?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
19. Does your jurisdiction have an explicit policy that adjusts or waives existing parking requirements for all affordable housing developments?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
20. Does your jurisdiction require affordable housing projects to undergo public review or special hearings when the project is otherwise in full compliance with the zoning ordinance and other development regulations?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Total Points:		

Part B. State Agencies and Departments or Other Applicants for Projects Located in Unincorporated Areas or Areas Otherwise Not Covered in Part A

	1	2
1. Does your state, either in its planning and zoning enabling legislation or in any other legislation, require localities regulating development have a comprehensive plan with a "housing element?" If no, skip to question # 4	<input type="checkbox"/> No	<input type="checkbox"/> Yes
2. Does your state require that a local jurisdiction's comprehensive plan estimate current and anticipated housing needs, taking into account the anticipated growth of the region, for existing and future residents, including low, moderate, and middle income families, for at least the next five years?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
3. Does your state's zoning enabling legislation require that a local jurisdiction's zoning ordinance have a) sufficient land use and density categories (multifamily housing, duplexes, small lot homes and other similar elements); and, b) sufficient land zoned or mapped in these categories, that can permit the building of affordable housing that addresses the needs identified in the comprehensive plan?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
4. Does your state have an agency or office that includes a specific mission to determine whether local governments have policies or procedures that are raising costs or otherwise discouraging affordable housing?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
5. Does your state have a legal or administrative requirement that local governments undertake periodic self-evaluation of regulations and processes to assess their impact upon housing affordability address these barriers to affordability?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
6. Does your state have a technical assistance or education program for local jurisdictions that includes assisting them in identifying regulatory barriers and in recommending strategies to local governments for their removal?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
7. Does your state have specific enabling legislation for local impact fees? If no skip to question #9.	<input type="checkbox"/> No	<input type="checkbox"/> Yes
8. If yes to the question #7, does the state statute provide criteria that sets standards for the allowable type of capital investments that have a direct relationship between the fee and the development (<i>nexus</i>) and a method for fee calculation?	<input type="checkbox"/> No	<input type="checkbox"/> Yes
9. Does your state provide significant financial assistance to local governments for housing, community development and/or transportation that includes funding prioritization or linking funding on the basis of local regulatory barrier removal activities?	<input type="checkbox"/> No	<input type="checkbox"/> Yes

<p>10. Does your state have a mandatory state-wide building code that a) does not permit local technical amendments and b) uses a recent version (i.e. published within the last five years or, if no recent version has been published, the last version published) of one of the nationally recognized model building codes (i.e. the International Code Council (ICC), the Building Officials and Code Administrators International (BOCA), the Southern Building Code Congress International (SBCI), the International Conference of Building Officials (ICBO), the National Fire Protection Association (NFPA)) without significant technical amendment or modification?</p> <p>Alternatively, if the state has made significant technical amendment to the model code, can the state supply supporting data that the amendments do not negatively impact affordability?</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>11. Has your jurisdiction adopted specific building code language regarding housing rehabilitation that encourages such rehabilitation through graduated regulatory requirements applicable as different levels of work are performed in existing buildings? Such code language increases regulatory requirements (the additional improvements required as a matter of regulatory policy) in proportion to the extent of rehabilitation that an owner/developer chooses to do on a voluntary basis. For further information see HUD publication: "<i>Smart Codes in Your Community: A Guide to Building Rehabilitation Codes</i>" (www.huduser.org/publications/destech/smartcodes.html)</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>12. Within the past five years has your state made any changes to its own processes or requirements to streamline or consolidate the state's own approval processes involving permits for water or wastewater, environmental review, or other State-administered permits or programs involving housing development. If yes, briefly list these changes.</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>13. Within the past five years, has your state (i.e., Governor, legislature, planning department) directly or in partnership with major private or public stakeholders, convened or funded comprehensive studies, commissions, or panels to review state or local rules, regulations, development standards, and processes to assess their impact on the supply of affordable housing?</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>14. Within the past five years, has the state initiated major regulatory reforms either as a result of the above study or as a result of information identified in the barrier component of the states' "Consolidated Plan submitted to HUD?" If yes, briefly list these major regulatory reforms.</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes
<p>15. Has the state undertaken any other actions regarding local jurisdiction's regulation of housing development including permitting, land use, building or subdivision regulations, or other related administrative procedures? If yes, briefly list these actions.</p>	<input type="checkbox"/> No	<input type="checkbox"/> Yes

COMMUNITY DEVELOPMENT TECHNICAL ASSISTANCE

Overview Information

A. Federal Agency Name. Department of Housing and Urban Development, Office of Community Planning and Development.

B. Funding Opportunity Title. Community Development Technical Assistance (CD-TA).

C. Announcement Type. Initial Announcement.

D. Funding Opportunity Number. The Federal Register number for this NOFA is FR-4900-N-12. The OMB approval number for this program is 2506-0166 for HOME Investment Partnerships Program (HOME), HOME Investment Partnerships Program for Community Housing Development Organizations [CHDO (HOME)], McKinney-Vento Homeless Assistance (Homeless), and Community Development Block Grants (CDBG), 2506-0133 for Housing Opportunities for Persons With AIDS (HOPWA), and 2506.0142 for Youthbuild.

E. Catalog of Federal Domestic Assistance (CFDA) Numbers. The HOME and CHDO (HOME) CFDA numbers are 14.239; Homeless is 14.235; HOPWA is 14.241; CDBG Entitlement Grants is 14.218; CDBG for Small Cities Program is 14.219; CDBG for States is 14.228; CDBG for Insular Areas is 14.225; CDBG—Section 108 is 14.248; Youthbuild is 14.243.

F. Dates. The application due date is July 8, 2004.

G. Additional Overview and Content Information. Applicants interested in providing technical assistance to entities participating in HUD's community development programs should carefully review the General Section of the SuperNOFA and the information listed in this CD-TA NOFA. Funds are available to provide technical assistance for six separate program areas: HOME, CHDO (HOME), Homeless, HOPWA, CDBG, and Youthbuild. Applicants may apply for one, two, three, four, five, or all six CD-TA program areas. The application is

contained in this CD-TA NOFA at Section IV.B. Approximately \$36.8 million is available. No cost sharing is required. Grants will be administered under cooperative agreements with significant HUD involvement (see Section II.C of this NOFA).

Full Text of Announcement

I. Funding Opportunity Description

A. CD-TA Purpose. The purpose of the CD-TA program is to provide assistance to achieve the highest level of performance and results for six separate community development program areas: (1) HOME; (2) CHDO (HOME); (3) Homeless; (4) HOPWA; (5) CDBG; and (6) Youthbuild. Information about the six community development programs and their missions, goals, and activities can be found on the HUD Web site at www.hud.gov.

B. Description of National TA and Local TA. There are two types of technical assistance (TA) funding available in this NOFA: National TA and Local TA.

National TA activities are those that address, at a nationwide level, one or more of the CD-TA program activities and/or priorities identified in Section III.C. of this NOFA. National TA activities may include the development of written products, development of on-line materials, development of training courses, delivery of training courses previously approved by HUD, organization and delivery of workshops and conferences, and delivery of direct TA as part of a national program. Applicants for National TA must also be willing to work in any HUD field office area, although work in the field office areas is likely to be a negligible portion of National TA activities. National TA activities are administered by a Government Technical Representative (GTR) and Government Technical Monitor (GTM) at HUD Headquarters.

Local TA activities also must address the CD-TA program activities and/or priorities identified in this NOFA, however the Local TA is targeted to the specific needs of the HUD community

development program recipients in the field office area in which the TA is proposed. Local TA activities are limited to the development of need assessments, direct TA to HUD community development program recipients, organization and delivery of workshops and conferences, and customization and delivery of previously HUD-approved trainings. Local TA will be administered by a GTR and GTM in the respective HUD field office. Please note that the Pooled Local HOME and Homeless TA (described in Section II.A. below) are Local TA carried out in field office jurisdictions and directed by field office GTRs and GTMs.

C. Authority. HOME TA is authorized by the HOME Investment Partnerships Act (42 U.S.C. 12781-12783); 24 CFR part 92. CHDO (HOME) TA is authorized by the HOME Investment Partnerships Act (42 U.S.C. 12773); 24 CFR part 92. For the McKinney-Vento Act Homeless Assistance Programs TA, the Supportive Housing Program is authorized under 42 U.S.C. 11381 *et seq.*; 24 CFR 583.140; Emergency Shelter Grants, Section 8 Moderate Rehabilitation Single Room Occupancy Program, and Shelter Plus Care TA are authorized by the FY2004 HUD Appropriations Act. HOPWA TA is authorized under the FY2004 HUD Appropriations Act. CDBG TA is authorized under Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301-5320); 24 CFR 570.402. Youthbuild TA is authorized under Title IV of the Cranston-Gonzalez National Affordable Housing Act, as amended by the Housing and Community Development Act of 1992 (42 U.S.C. 12899); 24 CFR part 585.

II. Award Information

A. Available Funds. Approximately \$36.8 million is available for the CD-TA program. Additional funds may become available as a result of recapturing unused funds. This chart shows how the funds are divided among National TA and Local TA activities:

Program	National TA	Local TA	Pooled local TA
HOME	\$3,500,000	\$2,845,000	\$3,245,250
CHDO (HOME)	1,600,000	5,392,250	0
Homeless	6,600,000	2,941,000	1,000,000
HOPWA	2,000,000	0	0
CDBG	Up to 1,500,000.	0	0
Youthbuild	6,211,325	0	0

The Local TA funds are divided among HUD's field office jurisdictions for the HOME, CHDO (HOME), and Homeless programs. No Local TA funds are available for HOPWA, CDBG, or Youthbuild.

For the HOME and Homeless Local TA, field offices were given the option to either accept applications directly for their local CD-TA funds or to place their funds into a pooled account and choose from the pooled account

selectees. Field offices participating in the pooled account will receive assistance from selected TA providers serving the pooled account jurisdictions. Consequently, applicants proposing TA services to the members of the pool must be willing to provide coverage to all the field office jurisdictions in the pool. An applicant for Pooled Local TA should take this requirement into account when determining its funding request.

Applicants for Pooled Local TA are encouraged to partner with other TA providers to expand the coverage of the application. The lead organization in the TA partnership should submit the application reflecting the joint efforts of the TA partnership.

The chart below shows the amounts available in dollars for Local TA by CD-TA program:

Local TA area	HOME	Pooled HOME	CHDO (Home)	Homeless	Pooled homeless
Alabama	0	165,000	48,000	0	30,000

Virginia, except District of Columbia area	0	75,000	50,000	0	40,000
Washington	0	84,000	35,000	0	48,000
Wisconsin	0	200,000	250,000	150,000	0

B. Performance Period. The awards are for a period of up to 36 months. HUD, however, reserves the right to withdraw funds from a specific TA provider if HUD determines that the urgency of need for the assistance is greater in other field office jurisdictions or the need for assistance is not commensurate with the award.

C. Terms of Award. HUD will enter into a cooperative agreement with selected applicants for the performance

period. Because CD-TA awards are made as cooperative agreements, implementation entails significant HUD involvement. Significant HUD involvement is required in all aspects of TA planning, delivery, and follow-up.

In addition to the requirements listed in the General Section of the SuperNOFA, selected applicants are subject to the following requirements:

1. Demand/Response System. All CD-TA awardees must operate within the

structure of the demand-response system. Under the demand-response system, TA providers are required to:

- When requested by a GTR, market the availability of their services to existing and potential recipients within the jurisdictions in which the assistance will be delivered;
- Respond to requests for assistance from the GTR;
- When requested by a GTR, conduct a needs assessment to identify the type

and nature of the assistance needed by the recipient of the assistance;

d. Obtain the local HUD field office's approval before responding to direct requests for technical assistance from HOME Participating Jurisdictions (PJs), Community Housing Development Organizations (CHDOs), and McKinney-Vento Act Homeless Assistance, HOPWA, and CDBG; and

e. For CHDO (HOME) TA providers, secure a letter from a PJ stating that a CHDO, or prospective CHDO to be assisted by the provider, is a recipient or intended recipient of HOME funds and indicating, at its option, subject areas of assistance that are most important to the PJ.

2. *Training.* When conducting training sessions as part of its CD-TA activities, CD-TA providers are required to:

a. Design the course materials as "step-in" packages so that HUD or other

CD-TA providers may independently conduct the course on their own;

b. Make the course materials available to the GTR in sufficient time for review (minimum of three weeks) and receive concurrence from the GTR on the content and quality prior to delivery;

c. Provide all course materials in an electronic format that will permit wide distribution among TA providers, field offices, and HUD grantees;

d. Arrange for joint delivery of the training with HUD participation when requested by the GTR;

e. Deliver HUD-approved training courses that have been designed and developed by others on a "step-in" basis when requested; and

f. Send trainers to approved "train-the-trainers" sessions. The costs associated with attending these required sessions are eligible under the cooperative agreement.

3. *Field Office Involvement under National TA awards.* When National TA providers are undertaking activities in field office jurisdictions, the National TA providers must work cooperatively with HUD field offices. Providers must notify the applicable HUD field office of the planned activities; consider the views or recommendations of that office, if any; follow those recommendations, to the degree practicable; and report to the applicable field office on the accomplishments of the assistance.

III. Eligibility Information

A. *Eligible Applicants.* The eligible applicants for each of the six CD-TA programs are listed in the chart below. In accordance with the President's faith-based initiative, HUD welcomes the participation of eligible faith-based and community organizations in the CD-TA programs.

Program	Eligible applicants
HOME	A for-profit or nonprofit professional and technical services company or firm that has demonstrated knowledge of the HOME program and the capacity to provide technical assistance services; A HOME Participating Jurisdiction (PJ); A public purpose organization, established pursuant to state or local legislation, responsible to the chief elected officer of a PJ; An agency or authority established by two or more PJs to carry out activities consistent with the purposes of the HOME program; or a national or regional nonprofit organization that has membership comprised predominately of entities or officials of entities of PJs or PJs' agencies or established organizations.
CHDO (HOME)	A public or private nonprofit intermediary organization that customarily provides services, in more than one community, related to the provision of decent housing that is affordable to low-income and moderate-income persons or related to the revitalization of deteriorating neighborhoods; has demonstrated experience in providing a range of assistance (such as financing, technical assistance, construction and property management assistance) to CHDOs or similar organizations that engage in community revitalization; and has demonstrated the ability to provide technical assistance and training for community-based developers of affordable housing. Note: Any organization funded to assist CHDOs under CD-TA may not undertake CHDO set-aside activities itself within its service area while under cooperative agreement with HUD.
Homeless	A state; A unit of general local government; A public housing authority; or A public or private nonprofit or for-profit organization, including educational institutions and area-wide planning organizations.
HOPWA	A for-profit or nonprofit organization; A state; or A unit of general local government.
CDBG	A state; A unit of general local government; A national or regional nonprofit organization that has membership comprised predominately of entities or officials of entities of CDBG recipients; A for-profit or nonprofit professional and technical services company or firm that has demonstrated knowledge of the CDBG program and the capacity to provide technical assistance services; or A public or private nonprofit or for-profit organization, including educational institutions and area-wide planning organizations.
Youthbuild	A public or private nonprofit agency that has significant prior experience in the operation of projects similar to the Youthbuild program and that has the capacity to provide effective technical assistance.

Applicants must also meet the threshold requirements of the General Section of the SuperNOFA, including the Civil Rights threshold at Section III(C).

A consortium of organizations may apply for one or more CD-TA programs, but one organization must be designated as the applicant.

Applicants may propose assistance using in-house staff, consultants, sub-contractors, sub-recipients, and local organizations with the requisite experience and capabilities. Where appropriate, applicants should make use of TA providers located in the field office jurisdiction receiving services. This draws upon local expertise and persons familiar with the opportunities

and resources available in the area to be served while reducing travel and other costs associated with delivering the proposed TA services.

B. *Cost Sharing or Matching.* None.

C. *Other:*

1. *Eligible Activities and Priorities.* Funds may be used to provide TA to prospective applicants, applicants, grantees, and project sponsors of the

HOME, CHDO (HOME), Homeless, HOPWA, CDBG, and Youthbuild programs. The TA activities may include but are not limited to written information such as papers, manuals, guides, and brochures; assistance to individual communities; needs assessments; and training. The priority TA areas for each of the six program areas are:

a. HOME TA. By statute, HUD may provide HOME program technical assistance to meet specified objectives. From these objectives, HUD has identified four HOME program technical assistance priorities for FY2004. These priorities are:

(1) Improve the ability of PJs to design and implement housing programs that reflect sound underwriting, management, and fiscal controls; demonstrate measurable outcomes in the use of public funds; and provide accurate and timely reporting of HOME program accomplishments.

(2) Encourage public-private partnerships that yield an increase in the amount of private dollars leveraged for HOME-assisted projects and result in an increase in the commitment and production of HOME-assisted units.

(3) Assist PJs in developing strategies that ameliorate the affordability gap between rapidly increasing housing costs and the less rapid growth in incomes among low-income households, especially among underserved populations (e.g., residents of the Colonias, homeless persons, and persons with disabilities).

(4) Assist PJs in developing strategies that increase and help sustain homeownership opportunities for low-income households—particularly low-income, minority households—and directly result in the commitment and completion of HOME-assisted units.

b. CHDO (HOME) TA:

(1) By statute, HUD may provide HOME program technical assistance to meet specified objectives. From these objectives, HUD has identified three CHDO-specific technical assistance priorities for FY2004. These priorities are:

(a) Assist new CHDOs and potential CHDOs develop the organizational capacity to own, develop, and sponsor HOME-assisted projects. A new CHDO is defined as a nonprofit organization that within three years of the publication of this NOFA was determined by a PJ to qualify as a CHDO. A potential CHDO is defined as a nonprofit organization that is expected by the PJ to qualify as a CHDO and is expected to enter into a written agreement with that PJ to own, develop, or sponsor HOME-assisted housing

within 24 months of the PJ determining the organization qualifies as a CHDO. HUD welcomes the participation of otherwise eligible faith-based and community organizations.

(b) Improve the HOME program production and performance of existing CHDOs in the areas of:

(i) Program design and management, including underwriting, project financing, property management, and compliance; and

(ii) Organizational management and capacity, including fiscal controls, board development, contract administration, and compliance systems.

(c) Provide organizational support, technical assistance, and training to community groups for the establishment of community land trusts, as defined in section 233(f) of the Cranston-Gonzales National Affordable Housing Act.

(2) Additional CHDO (HOME) Eligible Activities are:

(a) Under the "Pass-Through" provision, CD-TA providers may propose to fund various operating expenses for eligible CHDOs that own, develop, or sponsor HOME-assisted housing. Such operating expenses may include reasonable and necessary costs for the operation of the CHDO including salaries, wages, and other employee compensation and benefits; employee education, training and travel; rent; utilities; communication costs; taxes; insurance; equipment, materials, and supplies.

(b) CD-TA providers must establish written criteria for selection of CHDOs receiving pass-through funds. PJs must designate the organizations as CHDOs; and generally, the organizations should not have been in existence more than three years. CD-TA providers must enter into an agreement with the CHDO that the agreement and pass-through funding may be terminated at the discretion of HUD if no written legally binding agreement to provide assistance for a specific housing project (for acquisition, rehabilitation, new construction, or tenant-based rental assistance) has been made by the PJ with the CHDO within 24 months of initially receiving pass-through funding. The pass-through amount, when combined with other capacity building and operating support available through the HOME program, cannot exceed the greater of 50 percent of the CHDO's operating budget for the year in which it receives funds, or \$50,000 annually.

c. Homeless TA. Homeless TA funds are available to provide McKinney-Vento Homeless Assistance Act-funded grantees, project sponsors, and potential recipients with skills and knowledge

needed to develop and operate projects and activities. TA activities are focused on these priorities:

(1) Facilitate the exchange of information between community organizations to develop and implement a community-wide discharge plan for individuals exiting publicly-funded institutions (e.g., criminal justice system, foster care system, mental health system) so that these individuals do not become homeless.

(2) Improve the ability of eligible applicants to develop and operate permanent housing projects for chronically homeless persons.

(3) Develop materials on effective grant administration for grantees and sponsors.

(4) Improve the ability of eligible grantees and sponsors in reaching out to chronically homeless persons.

(5) Improve the ability of grantees and sponsors in coordinating services available through mainstream resources with housing units available for homeless persons.

(6) Facilitate the formation of metropolitan, regional, and statewide Homeless Management Information Systems (HMIS) and improve the ability of communities to prepare data for their Annual Homeless Assessment Reports.

(7) Develop materials on effective grant management for Emergency Shelter Grants (ESG) recipients, including guidance on IDIS implementation.

(A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more sustained episodes of homelessness over the last three years.)

d. HOPWA TA. HOPWA TA funds are available to provide grantees, project sponsors, and potential recipients with the skills and knowledge to effectively develop, operate, and support HOPWA-eligible project activities that result in measurable performance outputs and outcomes. TA activities focused are on these priorities:

(1) Improve the ability of grantees to develop comprehensive housing strategies, through collaborative public and private partnerships, that coordinate the use of mainstream resources and promote the long-term sustainability of HOPWA-assisted rental housing programs.

(2) Identify and train grantees and project sponsors on successful examples of how local or regional employment and re-entry discharge planning programs and efforts can complement the overall delivery and effectiveness of

housing and supportive services which result in greater client self-sufficiency and independence.

(3) Develop materials and training for grantees and project sponsors (a) on implementing and achieving long-term performance outcome measures that promote housing stability, reduce the risk of homelessness, and improve access to care and (b) on implementing sound fiscal and financial management practices.

(4) Develop materials that promote the utilization and coordination of Homeless Management Information Systems in the provision of HOPWA-assisted housing and supportive services for homeless and chronically homeless persons served under this program.

(5) Provide direct TA for local HOPWA programs in coordination with HUD field office oversight of those HOPWA-funded projects. It is estimated that up to 40 percent of HOPWA TA funds will be made available for this purpose.

e. CDBG TA. HUD may provide CDBG program technical assistance to meet specified objectives, in particular the facilitating of skills and knowledge in planning, developing, and administering activities under the CDBG program for recipients and other entities that may need but do not possess such skill and knowledge, including measuring programs and activities under the CDBG program. Technical assistance funds will support local and state grantees' efforts in these areas as well as support for efforts to streamline the Consolidated Plan, program management, and analytical support of information for performance measurement. TA activities are focused on the following priorities:

(1) Assist grantees' efforts to streamline the Consolidated Plan, making it more results-oriented and useful to communities in assessing their own progress toward addressing the problems of low-income areas in their communities.

(2) Improve CDBG recipient understanding of performance measurement from a national programmatic perspective.

(3) Improve recipient knowledge and skills to develop and implement local CDBG performance measurement systems.

(4) Assist recipients' development of local CDBG performance measurement systems.

(5) Develop model, local protocols that ensure accurate, required program recordkeeping and performance data by recipients, subrecipients and sub-grantees.

(6) Develop materials on effective grant administration for grantees, subrecipients, and sub-grantees.

(7) Improve CDBG and Section 108 program knowledge through program-specific recipient training.

f. Youthbuild TA. Youthbuild TA funds are available to provide appropriate training, information, and technical assistance to federally funded Youthbuild programs and to HUD in the management, supervision, and coordination of such Youthbuild programs. TA activities are focused on the following priorities:

(1) Improve the management and implementation of Youthbuild programs by providing on-site and telephone assistance, preparing appropriate instruction materials, and conducting training workshops on key aspects of the Youthbuild program.

(2) Improve Youthbuild program applications by providing assistance to eligible applicants in the preparation of their grant applications, giving priority to community-based organizations in the provision of this assistance.

(3) Strengthen Youthbuild program design by facilitating peer-to-peer assistance for Youthbuild grantee staff and disseminating best program practices that are identified through training workshops, peer-to-peer assistance, and on-site TA.

(4) Assist HUD in the management, supervision, and coordination of Youthbuild programs by preparing handbooks or printed materials to provide guidance to Youthbuild grantees and by collecting and analyzing performance evaluation data from Youthbuild grantees.

2. DUNS Requirement. Refer to the General Section of the SuperNOFA for information regarding the DUNS requirement. Applicants need to obtain a DUNS number to receive an award from HUD.

3. Other Eligibility Requirements. All applicants requesting funding from programs under this NOFA must be in compliance with the applicable threshold requirements found in the General Section of the SuperNOFA. Applicants that do not meet these requirements will be ineligible for funding.

4. False Statements. An applicant's false statement in an application is grounds for denial or termination of an award and grounds for possible punishment as provided in 18 U.S.C.

IV. Application and Submission Information

A. *Addresses to Request Application Package.* See the General Section of the SuperNOFA.

B. *Content and Form of Application Submission.* Applicants must submit a completed application for each National TA and Local TA area and program for which they are applying. For example, an applicant for National TA for HOME, for Local TA in three field office jurisdictions, and for HOME Pooled Local TA would submit five separate and distinct applications.

A completed application consists of an application submitted by an authorized official of the organization and containing all relevant sections of the application, as shown in the checklist below in Section IV.B.4.

1. Number of Copies. Applicants for National TA must submit two copies of their application to HUD Headquarters. Applicants for Pooled Local TA must submit two copies of their application to HUD Headquarters. Applicants for Local TA must submit one copy of their application to HUD Headquarters and must also send one copy of their application to the HUD field office in which their organization is applying. See Section VII.C. of the CD-TA NOFA for information on field office addresses.

2. Page Limitation. Narratives addressing Factors 1-5 are limited to no more than 25 typed pages. That is, reviewers will not review more than 25 pages for all five factors combined, except that the page limit does not include the Form HUD-96010, Logic Model.

3. Prohibition on Attachments. Attachments are prohibited. Reviewers will not consider resumes, charts, letters, or any other documents attached to the application.

4. Checklist for Application Submission. Assemble the application in the following order. Please enter page numbers on the narrative pages of the application.

—SF-424, Application for Federal Assistance (from General Section of SuperNOFA)

—An Application Cover Page indicating in bold (a) the type of TA proposed in the application whether HOME National, HOME Local, HOME Pooled, CHDO National, CHDO Local, Homeless National, Homeless Local, Homeless Pooled, HOPWA National, CDBG National, or Youthbuild National; (b) the amount of funds requested in the application; and (c) for Local TA, the jurisdiction proposed in the application.

—Narrative addressing Factor 1

- Narrative addressing Factor 2
- Narrative addressing Factor 3
- Narrative addressing Factor 4
- Narrative addressing Factor 5
- HUD-96010, Logic Model
- HUD-424-CB, Grant Application Detailed Budget Form (from General Section of SuperNOFA)
- HUD-424-CBW, Detailed Budget Worksheet for Non-Construction Projects (from General Section of SuperNOFA)
- If applying for CHDO (HOME) TA, statement as to whether the organization proposes to pass through funds to new CHDOs.
- If applying for the CHDO (HOME) TA, a certification as to whether the organization qualifies as a primarily single-state provider under section 233(e) of the Cranston-Gonzales Affordable Housing Act.
- HUD-424 B, Assurances—Non-Construction Programs (from General Section of SuperNOFA)
- SF-LLL, Disclosure of Lobbying Activities (from General Section of SuperNOFA)
- HUD-2880, Applicant/Recipient Disclosure/Update Report (from General Section of SuperNOFA)

C. Submission Dates and Times. The application is due to HUD on July 8, 2004.

D. Intergovernmental Review. Intergovernmental review is not applicable to CD-TA applications.

E. Funding Restrictions. An organization may not provide assistance to itself. An organization may not provide assistance to another organization with which it contracts or sub-awards funds to carry out activities under the TA award.

Funding from HOME and from CHDO (HOME) TA to any single eligible organization (excluding funds for organizational support and housing education "passed through" to CHDOs), whether as an applicant or sub-recipient is limited to not more than 20 percent of the operating budget of the recipient organization for any one-year period of each cooperative agreement. In addition, funding under either HOME or CHDO (HOME) TA to any single organization is limited to 20 percent of the \$17,894,000 made available for HOME and CHDO (HOME) TA in FY2004.

Not less than 40 percent of the approximately \$6,992,250 for CHDO (HOME) shall be made available for eligible TA providers that have worked primarily in one state. HUD will consider an applicant as a primarily single state TA provider if it can document that more than 50 percent of its past activities in working with

CHDOs or similar nonprofit and other organizations (on the production of affordable housing, revitalization of deteriorating neighborhoods, and/or the delivery of technical assistance to these groups) was confined to the geographic limits of a single state.

No fee or profit may be paid to any recipient or sub-recipient of an award under this CD-TA NOFA.

F. Other Submission Requirements:

Addresses for Submitting Applications. Submit applications to: HUD Headquarters; Robert C. Weaver Federal Building; 451 Seventh Street, SW., Room 7251; Washington, DC 20410; ATTENTION: CD-TA.

Submit applications for Local TA to the appropriate field office(s) at the address(es) shown in Section VII.C. of this NOFA. Please mark the package ATTENTION: CD-TA.

The General Section of the SuperNOFA describes application submission procedures and how applicants may obtain proof of timely submission.

V. Application Review Information

A. Criteria. The maximum number of points to be awarded for a CD-TA application is 100. The minimum score for an application to be considered for funding is 75 with a minimum of 20 points on Factor 1. The CD-TA program is not subject to bonus points, as described in the General Section of the SuperNOFA.

Points are assigned on five factors. Factor 1 relates to the capacity of the applicant and its relevant organizational experience. Rating of the "applicant" or the "applicant's organization and staff" includes any sub-contractors, consultants, and sub-recipients which are firmly committed to the project. In responding to Factor 1, applicants should specify the experience, knowledge, skills, and abilities of the applicant's organization and staff, and any persons and organizations firmly committed to the project.

When addressing Factors 2-5, applicants should discuss the specific TA projects, activities, tasks, etc., that will be carried out during the term of the cooperative agreement. Applicants should provide relevant examples to support the proposal, where appropriate. Applicants should also be specific when detailing the communities, populations, and organizations that they propose to serve and the specific outcomes expected as a result of the TA.

Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (30 points) (Minimum for Funding Eligibility—20 Points)

a. (10 points) Recent and successful experience of the applicant's organization in providing TA in all activities and to all entities for the CD-TA program applied for.

In rating this factor, HUD will consider the extent to which the application demonstrates experience within the last four years of providing TA related to the CD-TA achievement of positive outcomes.

b. (10 points) A comprehensive and efficient management plan which considers providing TA under the demand/response system and, for applicants proposing to serve more than one geographic area, experience in managing work that requires coordination with other entities or parts of the organization.

In rating this factor, HUD will consider the extent to which the application demonstrates there is a plan to manage TA assignments under the demand/response system cost effectively and, for applicants proposing to serve more than one geographic area, the ability to manage multiple TA assignments simultaneously and cost effectively.

c. (10 points) Knowledgeable key personnel skilled in providing TA in all activities and to all entities for the CD-TA program applied for. A sufficient quantity of staff or ability to procure qualified experts or professionals with the knowledge, skills, and abilities to deliver the proposed level of TA in the proposed service area in a timely and effective fashion; ability to provide CD-TA in a geographic area larger than a single city or county.

In rating this factor, HUD will consider the extent to which the application demonstrates the organization has an adequate number of key staff or ability to procure individuals with the knowledge of effective TA approaches and knowledge of the CD-TA program applied for and the ability to apply the knowledge to achieve positive TA outcomes.

Rating Factor 2: Need/Extent of the Problem (10 Points)

a. For National TA applications: Sound and extensive understanding of need for TA in relation to the eligible activities and priorities listed in Section III C. of the CD-TA NOFA as demonstrated by objective information and/or data, such as information from HOME Snapshots.

b. For Local TA applications: Sound and extensive understanding of high

priority needs for TA in the jurisdiction as demonstrated by objective information and/or data, such as information from HOME Snapshots.

c. For Local Pooled TA applications: Sound and extensive understanding of the high priority needs for TA of three jurisdictions in the pool as demonstrated by objective information and/or data, such as information from HOME Snapshots. (Applicants may choose any three in the pool; these serve as examples of the applicant's understanding of need.)

In rating this factor, HUD will evaluate the extent to which the application demonstrates an understanding of the specific needs for TA and supports the description of need with reliable, program-specific, quantitative information. Applicants for HOME should at a minimum draw on HOME Snapshot information to demonstrate PJs' need, in an area or nationwide, for additional training and capacity building. See <http://www.hud.gov/offices/cpd/affordablehousing/programs/home/snapshot/index.cfm>.

Rating Factor 3: Soundness of Approach (40 Points)

a. (25 points) For National TA applications: A sound approach for addressing the need for TA in relation to the priorities listed in Section IIIC. of this CD-TA NOFA.

For Local TA applications: A sound approach for addressing high priority needs for TA in the jurisdiction.

For Pooled Local TA applications: A sound approach for addressing the high priority needs for TA described in Factor 2 of three jurisdictions participating in the pool. (Applicants should use the same three jurisdictions as in Factor 2.)

In rating this factor, HUD will evaluate the extent to which the application presents and supports a detailed, feasible, practical approach for addressing TA needs (Local TA applications and Pooled Local TA applications) or CD-TA program priorities (National TA applications).

b. (10 points) A cost-effective work plan for designing, organizing, managing, and carrying out the proposed TA activities.

In rating this factor, HUD will evaluate the extent to which the application demonstrates the efficiency of proposed activities and the effectiveness of operation in achieving positive outcomes.

c. (5 points) An effective assistance program to specific disadvantaged communities, populations, and/or organizations which previously have

been underserved and have the potential to participate in the CD-TA program.

In rating this factor, HUD will evaluate the extent to which the application demonstrates an effective approach for involving previously underserved communities, populations, and organizations with potential, and a practical strategy for engaging participation in the CD-TA program.

Rating Factor 4: Leveraging Resources (10 Points)

An efficient practical method to transfer manuals, guides, assessment forms, other work products, models, and lessons learned in its CD-TA activities to other grantees and/or program beneficiaries.

In rating this factor, HUD will evaluate the extent to which the application demonstrates a cost-effective means of sharing resources developed under the CD-TA activities with a wide audience.

Rating Factor 5: Achieving Results and Program Evaluation (10 Points)

a. (5 points) An effective, quantifiable, outcome-oriented evaluation plan for measuring performance using the Logic Model with specific outcome measures and benchmarks, including—for HOME applicants—targets for improving PJs' HOME Snapshot indicators and rankings.

In rating this factor, HUD will evaluate the extent to which the application has an evaluation plan that is specific, measurable, and appropriate in relation to the activities proposed.

b. (5 points) Successful past performance in administering HUD CD-TA programs or, for applicants new to HUD's CD-TA Programs, demonstrate successful past performance in providing TA in other community development programs. Applicants should include, as applicable, increases in CPD or community development program accomplishments as a result of TA (e.g., number of homeless people or persons with HIV/AIDS receiving housing and services, efficiency or effectiveness of administration of CPD or community development programs, number of affordable housing units, HOME Snapshot indicators, timeliness of use of CPD or community development program funds).

In rating this factor, HUD will evaluate the extent to which the application demonstrates past performance that is timely and in the delivery of community development TA. HUD will also consider past performance of current CD-TA

providers, including financial and other information in HUD's files.

B. Review and Selection Process:

1. Review Types. Two types of reviews will be conducted. First, HUD will review each application to determine whether it meets threshold eligibility requirements. Second, HUD will review and assign scores to applications using the Factors for Award noted in Section V.A.

2. Rank Order. Once rating scores are assigned, rated applications submitted for each National TA program, for each Local TA program, and for each Pooled Local TA program will be listed in rank order. Applications within the fundable range (score of 75+ points with 20+ points for Factor 1) may then be funded in rank order under the CD-TA program and service area for which they applied. Applicants for Pooled Local TA may not necessarily be funded in rank order since the amount of their awards, if any, will be determined by totaling the amounts assigned to them by the individual field offices participating in the pool. A field office participating in a pooled account may distribute some or all of its amount to any applicant for pooled funds that scores in the fundable range.

3. Threshold Eligibility Requirements. All applicants requesting CD-TA must be in compliance with the applicable threshold requirements found in the General Section of the SuperNOFA and the eligibility requirements listed in Section III of this NOFA in order to be reviewed, scored, and ranked. Applications that do not meet these requirements and applications that were received after the submission deadline (see Section IV.F. of the General Section of the SuperNOFA) will be considered ineligible for funding and will be disqualified.

4. Award Adjustment. In addition to the funding adjustment authority provided for in the General Section of the SuperNOFA, HUD reserves the right to adjust funding amounts for each CD-TA selectee. The amounts listed in the charts in Section II.A are provided to assist applicants to develop Local TA, Local Pooled TA, or National TA budgets and do not represent the exact amounts to be awarded. Once TA applicants are selected for award, HUD will determine the total amount to be awarded to any selected applicant based upon the size and needs of each of the selected applicant's service areas, the funds available for that area and CD-TA program, the number of other CD-TA applicants selected in that area or CD-TA program, and the scope of the TA to be provided.

Additionally, HUD may reduce the amount of funds allocated for field office jurisdictions to fund National CD-TA providers and other CD-TA providers for activities that cannot be fully budgeted for or estimated by HUD Headquarters or field offices at the time this NOFA was published. HUD may also require selected applicants, as a condition of funding, to provide coverage on a geographically broader basis than proposed in order to supplement or strengthen the CD-TA network in terms of the size of the area covered and types and scope of TA proposed.

If funds remain after all selections have been made, the remaining funds may be distributed among field offices proportionately for Local TA and/or used for National TA, or made available for other CD-TA program competitions.

VI. Award Administration Information

A. Award Notices. Successful applicants will receive notification from HUD in writing. Such notification is not an authorization to begin performance. Unsuccessful applicants will also receive notification from HUD in writing.

After selection, HUD requires that all selected applicants participate in negotiations to determine the specific terms of the cooperative agreement, including the TADP and budget. Costs may be denied or modified if HUD determines that they are not allowable, allocable, and/or reasonable. In cases where HUD cannot successfully conclude negotiations with a selected applicant or a selected applicant fails to provide HUD with requested information, an award will not be made to that applicant. In this instance, HUD may offer an award, and proceed with negotiations with the next highest-ranking applicant.

After selection for funding but prior to executing the cooperative agreement, the selected applicant must develop in consultation with the GTR, a TADP for each National TA and each Local TA award. The TADP must be approved by the GTR and delineate the tasks for each CD-TA program the applicant will undertake during the performance period. The TADP must specify the location of the proposed CD-TA activities, the amount of CD-TA funding and proposed activities by location, the

improved program performance or other results expected from the CD-TA activities, and the methodology to be used for measuring the success of the CD-TA. A detailed time schedule for delivery of the activities, budget summary, budget-by-task, and staffing plan must be included in the TADP. Prior to undertaking individual tasks, the selected applicant generally prepares a technical plan for assistance (TPA) for approval by the GTR. The TPA must be consistent with the approved TADP.

B. Administrative and National Policy Requirements. After selection for funding but prior to award, applicants must submit financial and administrative information to comply with applicable requirements. These requirements are found in 24 CFR part 84 for all organizations except states and local governments whose requirements are found at 24 CFR part 85. Cost principles requirements are found at OMB Circular A-122 for nonprofit organizations, OMB Circular A-21 for institutions of higher education, OMB Circular A-87 for states and local governments, and at 48 CFR 31.2 for commercial organizations. Applicants must submit a certification from an Independent Public Accountant or the cognizant government auditor, stating that the applicant's financial management system meets prescribed standards for fund control and accountability.

Activities under this program are excluded from environmental review under 24 CFR 50.19(b)(9).

The requirements to Affirmatively Further Fair Housing do not apply.

C. Reporting. CD-TA awardees will be required to report to the GTR on, at a minimum, a quarterly basis unless otherwise specified in the approved TADP. For each reporting period, as part of the required report to HUD, grant recipients must include a completed Logic Model (form HUD 96010), which identifies output and outcome achievements.

VII. Agency Contacts

A. For Assistance. Applicants may contact HUD Headquarters at 202-708-3176, or they may contact the HUD field office serving their area shown in Section VII.C. Persons with hearing and speech challenges may access the above

numbers via TTY (text telephone) by calling the Federal Relay Service at 800-877-8339 (this is a toll-free number). Information may also be obtained through the HUD website on the Internet at www.hud.gov.

B. Satellite Broadcast. HUD will hold an informational satellite broadcast for potential applicants to learn more about the CD-TA programs and preparation of the application. For information about the date and time of the broadcast, consult the HUD website at: www.hud.gov.

C. List of Field Office Addresses. For a listing of the HUD field office addresses to which applicants send Local TA applications, please use the following Internet address: <http://www.hud.gov/offices/cpd/about/staff/fodirectors/index.cfm>. At the site, click on the map to get to the field office address and other contact information.

VIII. Other Information

A. Paperwork Reduction Act

The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control numbers 2506-0166 and 2506-0133. In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 60 hours for the application and grant administration. This includes the time for collecting, reviewing, and reporting the data. The information will be used for grantee selection and monitoring the administration of funds. Response to this request for information is required in order to receive the benefits to be derived.

B. HUD Reform Act

The provisions of the HUD Reform Act of 1989 that apply to the CD-TA program are explained in the General Section of the SuperNOFA.

BILLING CODE 4210-32-P

**DEPARTMENT OF HOUSING
AND URBAN DEVELOPMENT**

**UNIVERSITIES AND COLLEGES
PROGRAMS**

**HISTORICALLY BLACK COLLEGES
AND UNIVERSITIES (HBCU)
PROGRAM**

Billing Code 4210-32-C

**THE HISTORICALLY BLACK COLLEGES AND UNIVERSITIES (HBCU)
PROGRAM**

OVERVIEW INFORMATION

A. Federal Agency Name: Department of Housing and Urban Development, Office of Policy Development and Research, Office of University Partnerships.

B. Funding Opportunity Title: Historically Black Colleges and Universities (HBCU) Program.

C. Announcement Type: Initial announcement.

D. Funding Opportunity Numbers: The Federal Register Number for this NOFA is FR-4900-N-25. The OMB Approval Number for this program is 2506-0122.

E. Catalog of Federal Domestic Assistance (CFDA) Number: The CFDA Number for is program is 14.520.

F. Dates: The application due date shall be on or before **June 25, 2004**. Please see the **General Section** of the SuperNOFA for application submission, delivery and timely receipt requirements.

G. Additional Overview Content Information:

1. Purpose of the Program: The Historically Black Colleges and Universities (HBCU) Program assists Historically Black Colleges and Universities of higher education expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing and economic development, principally for persons of low- and moderate-income consistent with the purposes of Title I of the Housing and Community Development Act of 1974, as amended.

2. *Award Information:* In Fiscal Year (FY) 2004, approximately \$10.4 million has been appropriated by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3), of which up to \$1.98 million has been allocated to provide technical assistance. In addition, \$614,000 in previously unexpended funds is being made available for this program. HUD will award two kinds of grants under this program; Previously Unfunded HBCU Grants and Previously Funded HBCU Grants.

a. Previously Unfunded HBCU Grants will be awarded to applicants who have never received an HBCU grant. The maximum amount a Previously Unfunded HBCU or First Time applicant can request for award is \$340,000 for a three-year (36 months) grant performance period.

b. Previously Funded HBCU Grants will be awarded to applicants that have received funding under previous HBCU grant competitions. The maximum amount an applicant can request for award is \$550,000 for a three-year (36 months) grant performance period. In order to ensure that Previously Unfunded or First Time HBCU applicants receive awards in this competition, approximately \$1.4 million has been made available to fund Previously Unfunded HBCU applicants. In addition, approximately \$7.6 million will be made available to Previously Funded HBCU applicants. (See Appendix C of this NOFA for a list of Previously Funded and Unfunded HBCUs). If funding remains after all eligible Previously Unfunded or First Time HBCU applicants are awarded, the remaining funds will be made available to fund eligible Previously Funded applicants.

3. *Eligible Applicants:* Historically Black Colleges and Universities of higher education that meet the definition of Historically Black Colleges and Universities as determined by the Department of Education in 34 CFR 608.2 in accordance with that Department's responsibilities under Executive Order 13256, dated February 12, 2002, are eligible to apply for funding under this program. Applicants must be accredited by a national or regional accrediting agency recognized by the U.S. Department of Education.

Full Text of Announcement

I. Funding Opportunity Description

The purpose of the Historically Black Colleges and Universities (HBCU) Program is to assist Historically Black Colleges and Universities of higher education expand their role and

effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development, principally for persons of low- and moderate-income, consistent with the purpose of the Title I of Housing and Community Development Act of 1974, as amended.

A. For the purposes of this program, the term "locality" includes any city, county, township, parish, village, or other general political subdivision of a state, or the U.S. Virgin Islands where the institution is located.

B. A "target area" is the area within the locality in which the institution will implement its proposed HBCU grant. If an institution wants to provide services/activities in a location other than the target area of that institution an applicant must provide justification for why they want to do so.

C. Listed below are major modifications from the Fiscal Year (FY) 2003 program-funding announcement:

1. This program has a separate NOFA and is no longer a part of the combined Office of Universities Partnerships Program NOFA;

2. All applications must be mailed to: University Partnerships Clearinghouse; c/o Danya International; 8737 Colesville Road, Suite 1200; Silver Spring, MD 20910;

3. Points will no longer be assigned to the budget. However, a budget narrative must be submitted that addresses the total dollar amount reflected on the HUD-424-CB and HUD-40076-HBCU forms for the entire three-year grant performance period;

4. Applicants no longer have to request a minimum amount of funding. However, the maximum amount a Previously Funded applicant can request for award is \$550,000 and the maximum amount a Previously Unfunded or First Time applicant can request for award is \$340,000 for a three-year (36 months) grant performance period;

5. Institutions with two or more active HBCU grants that have drawn down less than 50 percent of the funding for each active grant three weeks (not two weeks as stated in the FY02 NOFA) prior to the program's application due date are ineligible to apply for funds under this NOFA. It is the applicant's responsibility to make sure this requirement is met; and

6. Only one application can be submitted per institution.

D. HUD's authority for making funding available under this NOFA is the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004; 118 Stat. 3). This

program is being implemented through this NOFA and the policies governing its operation are contained herein.

II. Award Information

In Fiscal Year (FY) 2004, approximately \$10.4 million has been appropriated by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004; 118 Stat. 3), of which up to \$1.98 million has been allocated to provide technical assistance. In addition, \$614,000 in previously unexpended funds is being made available for this program. HUD will award two kinds of grants under this program, Previously Unfunded or First Time HBCU Grants and Previously Funded HBCU Grants.

A. Previously Unfunded or First Time HBCU Grants will be awarded to applicants who have never received an HBCU grant. The maximum amount a Previously Unfunded or First Time HBCU applicant can request for award is \$340,000 for a three-year (36 months) grant performance period.

B. Previously Funded HBCU Grants will be awarded to applicants that have received funding under previous HBCU grant competitions. The maximum amount an applicant can request for award is \$550,000 for a three-year (36 months) grant performance period.

In order to ensure that Previously Unfunded HBCU applicants receive awards in this competition, approximately \$1.4 million will be made available to fund Previously Unfunded or First Time HBCU applicants. Approximately \$7.6 million will be made available to Previously Funded HBCU applicants that have received funding under previous HBCU competitions. If funding remains after all eligible Previously Unfunded or First Time HBCU applicants are awarded, the remaining funds will be made available to fund eligible Previously Funded applicants. (See Appendix C of this NOFA for a list of Previously Funded and Unfunded HBCUs).

III. Eligibility Information

A. Eligible Applicants

Historically Black Colleges and Universities of higher education as determined by the U.S. Department of Education in 34 CFR 608.2 in accordance with that Department's responsibilities under Executive Order 13256, dated February 12, 2002, are eligible to apply for funding under this program. All applicants must be accredited by a national or regional accrediting agency recognized by the U.S. Department of Education.

B. Cost Sharing or Matching

None required.

C. Other

1. Eligible Activities

Eligible activities are listed in 24 CFR part 570, subpart C, particularly 570.201 through 570.206. Information regarding these activities can be found at: www.hudclips.org.

a. Examples of eligible activities include, but are not limited to:

(1) Acquisition of real property;
(2) Clearance and demolition;
(3) Rehabilitation of residential structures including lead-based paint hazard evaluation and reduction; and encouraging accessible design features in accordance with the requirements of section 504 of the Rehabilitation Act of 1973;

(4) Special economic development activities described at 24 CFR 570.203 and assistance to facilitate economic development by providing technical or financial assistance for the establishment, stabilization, and expansion of microenterprises, including minority enterprises;
(5) Assistance to community-based development organizations (CBDO) to carry out a CDBG neighborhood revitalization, community economic development, or energy conservation projects, in accordance with 24 CFR 570.204. This could include activities in support of a HUD-approved local entitlement grantee, CDBG Neighborhood Revitalization Strategy (NRS) or HUD-approved State CDBG Community Revitalization Strategy (CRS);

(6) Public service activities such as those general support activities that can help to stabilize a neighborhood and contribute to sustainable redevelopment of the area, including but not limited to such activities as those concerned with employment, crime prevention, child care, health, drug abuse, education, fair housing counseling, energy conservation, homebuyer down payment assistance, or recreational needs; and

(7) Payments of reasonable grant administrative costs related to planning and execution of the project (e.g., preparation/submission of HUD reports). Detailed explanations of these costs are provided in the OMB circulars that can be accessed at the White House Web site, www.whitehouse.gov/omb/circulars/index.html.

b. Eligible activities that may be funded under this program are those eligible activities that meet both the Community Development Block Grant

(CDBG) Program national objective and the CDBG eligibility requirements.

c. The three national objectives of the Community Development Block Grant program are:

(1) Benefit to low- or moderate-income persons;
(2) Aid in the prevention or elimination of slums or blight; and
(3) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community, and other financial resources are not available to meet such needs. Criteria for determining whether an activity addresses one or more objectives are provided at 24 CFR 570.208.

d. The CDBG publication entitled "Community Development Block Grant Program Guide to National Objectives and Eligible Activities for Entitlement Communities" describes the regulations, and a copy can be obtained from HUD's NOFA Information Center at 800-HUD-8929 or 800-HUD-2209 for the hearing-impaired.

2. Threshold Requirements Applicable to all Applicants

All applicants must comply with the threshold requirements as defined in the General Section of the SuperNOFA and the requirements listed below to be evaluated, rated, and ranked. Applications that do not meet these requirements will be considered ineligible for funding and will be disqualified:

a. The applicant must meet the eligibility requirements as defined in Section III.A. Eligible Applicants.

b. The maximum amount a Previously Unfunded or First Time HBCU applicant can request for award is \$340,000. The maximum amount a Previously Funded HBCU applicant can request for award is \$550,000.

c. No more than 15 percent of the total grant amount can be used for public service activities that benefit low- and moderate-income persons. Therefore, at least 85 percent of the grant amount requested must be used for activities qualifying under an eligibility category other than public services (as described at 24 CFR 570.201(e)). If an applicant proposes an activity that otherwise is eligible, it may not be funded if state or local law requires that it be carried out by a governmental entity.

d. Applicants must ensure that not less than 51 percent of the aggregated expenditures of the grant benefit low- and moderate-income persons under the criteria specified in 24 CFR 570.208(a) or 570.208(d)(5) or (6).

e. Institutions with two or more active HBCU grants who have drawn down less than 50 percent of the funding for each active grant three weeks prior to the program's application due date are ineligible to apply for a grant under this NOFA. It is the applicant's responsibility to make sure this requirement is met.

f. Only one application can be submitted per institution.

g. Applicants must receive a minimum score of 75 points to be considered for funding.

h. An applicant must have a DUNS number to receive HUD grant funds. (The General Section of the SuperNOFA provides information regarding the DUNS requirement).

3. Program Requirements

In addition to the program requirements listed in the General Section of the SuperNOFA, applicants must meet the following program requirements:

a. All funds awarded under this program must be spent during a three-year (36 months) grant performance period.

b. Applicants that claim leveraging from any source, including their own institution, must provide letters of firm commitment, memoranda of understanding, or agreements evidencing the extent and firmness of the commitment of leveraging from other federal (e.g., Department of Education, AmeriCorps Programs, etc.), state, local governments, and other private sources (including the applicant's own resources). These documents must be dated no earlier than the date of this published NOFA and follow the outline provided in Section V, Application Review Information, "Factor 4: Leveraging Resources" of this NOFA.

c. Site Control. Where grant funds will be used for acquisition, rehabilitation, or new construction an applicant must demonstrate site control. Funds may be recaptured or deobligated from applicants that cannot demonstrate control of a suitable site within one year after the initial notification of award.

d. Environmental Requirements. Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance in accordance with 24 CFR part 50. The results of the environmental review may require that proposed activities be modified or proposed sites be rejected. Applicants are particularly cautioned not to undertake or commit funds for acquisition or development of proposed

properties prior to HUD approval of specific properties or areas. An application constitutes an assurance that the institution will assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair, or construct property, and not commit or expend HUD or local funds for these program activities with respect to any eligible property until HUD's written approval of the property is received. In supplying HUD with environmental information, applicants should use the same guidance as provided in the HUD Notice CPD-99-01 entitled "Field Environmental Review Processing for HUD Colonias Initiative (HCI) Grants" issued January 27, 1999.

The General Section of the SuperNOFA provides further discussion of the environmental requirements. Further information and assistance on HUD's environmental requirements is available at <http://www.hud.gov/offices/cpd/energyenviron/environment/index.cfm>.

e. Labor Standards. Institutions and their sub-grantees, contractors and subcontractors must comply with the labor standards (Davis-Bacon) requirements referenced in 24 CFR 570.603.

IV. Application and Submission Information

A. Addresses To Request Application Package

Applicants may request general information, copies of the General Section and Program Sections of the SuperNOFA from the NOFA Information Center 800-HUD-8929 or 800-HUD-2209 (TTY) between the hours of 9 a.m. and 8 p.m. (Eastern Time) Monday through Friday, except on federal holidays. When requesting information, please refer to the Historically Black Colleges and Universities Program. Be sure to provide your name, address (including zip code), and telephone number (including area code). To ensure sufficient time to prepare an application, requests for copies of the NOFA can be made immediately following publication of the SuperNOFA. The NOFA Information Center opens for business simultaneously with the publication of HUD's 2004 NOFA. Applicants can also obtain information on the SuperNOFA and download applications through the HUD Web site, <http://www.hud.gov>.

B. Content and Form of Application Submission

A complete application package must include an original signed application, three copies, and one computer disk of the application (in Word 6.0 or higher) of the items listed below. (The computer disk must include the narrative portion of the application, and all required forms. Forms can be downloaded from the following Web site <http://www.hud.gov>.) In order to recycle paper, applications must not be submitted in bound form; binder clips or loose-leaf binders are acceptable. Please do not use colored paper. Applications must be submitted on 8½ by 11-inch paper, double-spaced on one side of the paper, with one-inch margins (from top, bottom, left and right) and printed in a standard Times New Roman 12-point font. Each page must include the applicant's name and be numbered. Each section must be tabbed sequentially. The application narrative, including tables, and maps, must not exceed 75 pages (excluding forms, budget narrative, assurances, commitment letters, memoranda of understanding, agreements and abstract). The double-spacing requirement applies to the application narrative (excluding the abstract, table, maps, budget narrative, commitment letters, memoranda of understanding and agreements). Please note that although submitting pages in excess of the page limit will not disqualify an application, HUD will not consider the information on any excess pages. This may result in a lower score or failure to meet a threshold requirement. Except where a particular form may direct otherwise, all forms included in an application, as well as the transmittal letter, must be signed by the Chief Executive Officer (this is generally the President or Provost) or an official authorized legally to make a commitment on behalf of the institution. If a designee signs, the application must contain a copy of the official designation of signatory authority.

Please include in your application each item in the order listed below:

1. *SF-424, Application for Federal Assistance*. Instructions for completing this form are found on the back of the first page of the form. Please remember the following:
 - a. The full grant amount (entire three-years) should be entered, not the amount for just one year;
 - b. Include the name, title, address, telephone number, facsimile number, and email address of the designated contact. This is the person who will receive the reviewers' comments;

therefore, please ensure the accuracy of the information;

- c. The Employer Identification/Tax ID number;
- d. The DUNS Number;
- e. The Catalog of Federal Domestic Assistance Number for this program is 14.520;
- f. The project's proposed start date and completion date. For the purpose of this application, the program start date should be October 1, 2004; and
- g. The signature of an authorized official (an individual who has the authority to make a binding commitment on behalf of the institution).

2. *Transmittal Letter*. The letter should contain a statement that the institution is an eligible applicant because it is a two-or four-year fully accredited institution. This letter should state the name of the accrediting agency, and that the accrediting agency is recognized by the U.S. Department of Education. Applicants can also use the transmittal letter as one way to demonstrate the President's commitment to the institutionalization of the program. The Chief Executive Officer (usually the President or Provost) of the institution must sign this letter. If the Chief Executive Officer has delegated this responsibility to another official, that person may sign, but a copy of the delegation of authority must be included or clearly stated in the letter.

3. *Application Checklist*. Applicants must include the completed checklist in their application. On the checklist, applicants must indicate the page number where each of the items can be found in the application (See Appendix A).

4. *Abstract*. Applicants must include no more than a two-page summary of the proposed project. Please include the following:

- a. A clear description of the proposed project activities, the target population that will be assisted, and the impact this project will have on the institution;
- b. The designated contact person, including phone number, facsimile number, and email address (This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information);
- c. University's name, department, mailing address, telephone number, facsimile number, and email address; and
- d. The principal investigator, if different from the designated contact person, for the project, including phone number, facsimile number, and email address.

5. *Narrative statement addressing the Factors for Award*. HUD will use the

narrative response to the "Factors for Award" to evaluate, rate, and rank applications. The statement and work plan are the main source of information. Applicants are advised to review each factor carefully for program specific requirements. The response to each factor should be concise and contain only information relevant to the factor, but detailed enough to address each factor fully. Please do not repeat material in response to the five factors; instead, focus on how well the proposal responds to each of the factors. In factors where there are subfactors each subfactor must be presented separately, with the short title of the subfactor presented. Make sure to address each subfactor and provide sufficient information about every element of the subfactor.

6. *Budget.* The budget submission must be placed behind the narrative statement addressing the "Factors for Award" and include the following forms:

a. *Budget Forms.*

(1) HUD-424-CB, "Grant Application Detailed Budget." This budget form shows the total budget by year and by line item for the program activities to be carried out with the proposed HUD grant. Each year of the program should be presented separately. Applicants must also submit this form to reflect the total cost for the entire grant performance period (Grand Total).

(2) HUD-40076-HBCU, "Response Sheet, Budget-By-Activity"—This form must be used to document the entire three-year grant performance period. The form should include a listing of tasks to be completed for each activity necessary to be performed to implement the program, the overall costs for each activity, and the cost from each funding source. The budget-by-activity should clearly indicate the HUD grant amount and identify the source and dollar amount of the leveraged funds, if any.

Make sure that the amount shown on the SF-424, HUD-424-CB, HUD-40076-HBCU forms and all other required program forms is consistent and the budget totals are correct. Remember to check addition in totaling the categories on all forms so that all items are included in the total. All budget forms must be completed in full. If an application is selected for award, the applicant may be required to provide greater specificity to the budget during grant agreement negotiations.

b. *Budget Narrative.* A narrative must be submitted that explains how the applicant arrived at the cost estimates for any line item over \$5,000. For example, an applicant proposes to construct a building using HUD funding

totaling \$200,000. The following costs estimate reflects this total. Foundation cost \$75,000, electrical work \$40,000, plumbing work \$40,000, finishing work \$35,000, and landscaping \$10,000. The proposed cost estimates should be reasonable for the work to be performed and consistent with rates established for the level of expertise required to perform the work proposed in the geographical area. When necessary, quotes from various vendors or historical data should be used and included. When an applicant proposes to use a consultant, the applicant must indicate whether there is a formal agreement or written procurement policy. For each consultant, please provide the name, if known, hourly or daily rate, and the estimated time on the project. Applicants must submit a cost estimate from a qualified firm (e.g., Architectural or Engineering), vendor, and/or qualified individual (e.g., independent architect) other than the institution for projects that involve rehabilitation of residential, commercial and/or industrial structures; and/or acquisition, construction, or installation of public facilities and improvements. Such an entity must be involved in the business of housing rehabilitation, construction and/or management. Equipment and contracts cannot be presented as a total estimated figure. For equipment, applicants must provide a list by type and cost for each item. Applicants using contracts must provide an individual description and cost estimate for each contract.

c. *Indirect costs.* Indirect costs, if applicable, are allowable based on an established approved indirect cost rate. Applicants should include a copy of their indirect cost rate agreement with their application. Applicants who are selected for funding that do not have an approved indirect cost rate agreement (established by the cognizant federal agency, Certified Public Account, or auditor) will be required to establish a rate. In such cases, HUD will issue an award with a provisional rate and enter into an agreement to have one established.

d. *Audits.* Applicants must ensure that their most current A-133 audit is on file at the Federal Audit Clearinghouse. Grantees that expend \$500,000 or more in federal financial assistance in a single year (this can be program year or fiscal year) must be audited in accordance with the OMB requirements as established in 24 CFR parts 84 and 85. Additional information regarding this requirement at the following Web site: <http://harvester.census.gov/sac>.

7. *Appendix.* Applicants must place all letters of commitment, memoranda of understanding and agreements for funds/resources in response to Factor 4 in this section. An applicant may not submit general support letters or resumes or other back-up materials (unless an applicant is willing to have the additional material count toward the page limits).

C. *Submission Dates and Times*

A complete application package is due on or before June 25, 2004. Please see the General Section of the SuperNOFA for application submission, delivery, and timely receipt requirements.

D. *Intergovernmental Review*

This program is excluded from an Intergovernmental Review.

E. *Funding Restrictions*

Ineligible CDBG Activities are listed at 24 CFR 570.207. Funding may only be provided to applicants that meet the standards for eligible applicants in Section III.A.

F. *Other Submission Requirements*

1. *Complete Application Package*

This package must be submitted to the following address: University Partnerships Clearinghouse; c/o Danya International; 8737 Colesville Road, Suite 1200; Silver Spring, MD 20910. When submitting an application package, also please include the following information on the outside of the envelope:

- a. Office of University Partnerships;
- b. Historically Black Colleges and Universities Program; and
- c. Applicant's name and mailing address (including ZIP code).

Applicants must refer to the General Section of this SuperNOFA for detailed requirements governing application submission and receipt. Applicants must also send a copy of their application to the Directors of the Office of Community Planning and Development (CPD) in the appropriate HUD field office. The address for each field office is listed in the General Section of this NOFA.

2. *Forms, Certifications, and Assurances*

The following certifications and assurances must be included in all application packages. These forms must be signed by the Chief Executive Officer (or official designee) of the institution and can be downloaded from the HUD Web site at www.hud.gov.

- a. Application for Federal Assistance (SF-424).

b. Applicant Assurances and Social Certifications (HUD-424-B).

c. Grant Application Detailed Budget (HUD-424-CB).

d. Disclosure of Lobbying Activities (SF-LLL).

e. America's Affordable Communities Initiative Removal of Regulatory Barriers (HUD-27300), if applicable.

f. Applicant/Recipient Disclosure/Update Report (HUD-2880).

g. Certification of Consistency with the Consolidated Plan (HUD-2991).

h. Certification of Consistency with the EZ/EC/RC Strategic Plan (HUD-2990). Must be signed by the certifying official of the EZ/EC/RC. The General Section of the SuperNOFA provides procedures and guidelines required to certify that proposed grant activities are being conducted in the EZ/EC/RC that serve the residents of these areas, and are certified to be consistent with the area's strategic plan.

i. Budget-By-Activity (HUD-40076-HBCU).

j. Response Sheet-Performance Narrative only (HUD 40076-HBCU).

k. Program Logic Model (HUD-96010).

l. Survey on Equal Opportunity (HUD-32004).

m. Acknowledgment of Receipt of Application (HUD-2993). To confirm that HUD has received the application package, please complete this form. Applicants are not required to include this form, but it is recommended that an applicant do so.

n. Client Comments and Suggestions (HUD-2994). This form is included to solicit information from the most valuable source, the applicant. The changes that we have instituted this year are designed to make things easier for the applicant. If applicants complete and submit this form, it will help us to assess whether the changes have had the intended results. It will also guide us in our continuing efforts to improve the competitive grant process. Applicants are not required to complete this form.

V. Application Review Information

A. Criteria

1. Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (25 Points)

This factor addresses the extent to which the institution has the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which the proposal demonstrates:

a. Knowledge and Experience—For Previously Unfunded or First Time Applicants (25 Points) For Previously

Funded Applicants (10 Points). The knowledge and experience of the overall project director and staff, including the day-to-day program manager, consultants (including technical assistance providers), and contractors in planning and managing this kind of program. Experience will be judged in terms of recent and relevant knowledge and skills of the staff to undertake eligible program activities. HUD will consider experience within the last five years to be recent and experience pertaining to specific activities and producing specific accomplishments to be relevant. The following categories will be evaluated:

(1) Undertaking specific successful community development projects with community-based organizations or local governments; and

(2) Providing leadership in solving community problems that have a direct bearing on the proposed activities.

b. Past Performance (15 points) Previously Funded Grant Applicants Only. This subfactor will evaluate the extent to which an applicant has performed successfully under all previously completed and open HUD HBCU grant(s). Applicants must demonstrate this by providing the following information on the HUD-40076-HBCU—Response Sheet: (Performance Narrative only) for each HBCU grant they have received:

(1) A detailed list outlining the achievement of specific measurable objectives and outcomes consistent with the approved timeline/work plan in previous grants;

(2) Comparison of proposed leveraged funds and/or resources in a previous grant with what was actually leveraged; and

(3) A list of all HUD/HBCU grants received, including the dollar amount awarded and the amount expended as of the date of this application.

The HUD-40076-HBCU "Response Sheet" (Performance Narrative only) form is located in Appendix C at the end of this NOFA). The form should be filled out completely and placed under this section.

2. Rating Factor 2: Need/Extent of the Problem (10 Points)

This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the importance of meeting the need(s) in the target area. The need(s) described must be relevant to the activities for which funds are being requested. The proposal will be evaluated on the extent to which the level of need for the proposed activities

and the importance of meeting the need(s) are documented.

Applicants must use statistics or other analyses contained in at least one or more current data sources that are sound and reliable. The data provided must be current and specific to the area where the proposed project activities will be carried out. Sources for localized data can be found at www.ffiec.gov or www.econdata.com.

In rating this factor, HUD will consider data collected within the last five years to be current. To the extent that the targeted community's Five Year Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem and the urgency in meeting the need, applicants should include references to these documents in response to this factor.

If the proposed activities are not covered under the scope of the Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI), indicate this clearly in the proposal and use other sound data sources to identify the level of need and the urgency in meeting the need. Other reliable data sources include, but are not limited to Census reports, HUD Continuum of Care gap analysis and its E-MAP (<http://www.hud.gov/emaps>), law enforcement agency crime reports, Public Housing Agencies' Comprehensive Plans, community needs analyses such as provided by the United Way, the applicant's institution, and other sound and reliable sources. Needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements may also be addressed.

3. Rating Factor 3: Soundness of Approach (45 Points)

This factor addresses the quality and effectiveness of the proposed work plan, the commitment of the institution to sustain the proposed activities, and actions regarding HUD's priorities, goals and objectives, and affirmatively furthering fair housing.

This factor will be evaluated based on the extent to which the proposed work plan demonstrates the following:

a. (35 Points) Quality of the Work Plan. This subfactor will be evaluated on the extent to which an applicant provides a clear outline of the proposed project and anticipated accomplishments.

(1) Specific Services and/or Activities. The work plan must describe all proposed activities and major tasks required to successfully implement the proposed project. HUD will consider the

probability of success of the program, the significance of the tasks identified, how realistic are the proposed time frames, and who will be responsible for completing each proposed activity.

(a) Describe each proposed activity and the task required to successfully implement and complete the proposed activities in measurable terms (e.g., the number of persons to be trained and employed; houses to be rehabilitated; or minority-owned businesses to be started, etc.);

(b) For each activity describe how the activity meets a CDBG national objective;

(c) Include target completion dates for each activity/task (in 6-month intervals, up to thirty-six (36) months); and

(d) Identify the staff member, as described in Factor 1, who will be responsible for completing each activity/task.

(2) Describe how each proposed activity will:

(a) Expand the role of the institution in its community;

(b) Alleviate and/or fulfill the needs identified in Factor 2;

(c) Relate to and not duplicate other activities in the target area. Duplicative effort will be acceptable only if an applicant can demonstrate through documentation that there is a population in need that is not being served; and

(d) Involve and empower citizens of the target area of the proposed project (particularly through a committee that is representative of the target community).

b. (2 Points) Involvement of the Faculty and Students. The applicant must describe the extent to which it proposes to integrate the institution's students and faculty into proposed project activities.

c. (3 Points) HUD Policy Priorities. HUD encourages applicants to undertake specific activities that will assist the Department in implementing its policy priorities and which will help the Department achieve its goals and objectives in FY2005, when the majority of grant recipients will be reporting programmatic results and achievements. In addressing this subfactor, HUD will evaluate the extent to which a program will further and support HUD's priorities. The quality of the responses provided to one or more of HUD's priorities will determine the score an applicant can receive. Applicants must describe how each policy priority selected will be addressed. Applicants that list a priority will receive no points. Each policy priority addressed has a point value of one point with the exception of the policy priority to remove regulatory barriers to affordable

housing, which has a point value of up to 2 points. The total number of points available to applicants that address policy priorities is 3. It is up to the applicant to determine which of the policy priorities they elect to address to receive the available 3 points. To receive points for efforts to remove regulatory barriers to affordable housing, an applicant must submit the completed questionnaire found in the General Section (Form HUD-27300). For the full list and explanation of each policy priority, please refer to the General Section of this SuperNOFA.

d. (5 Points) Affirmatively Furthering Fair Housing. This subfactor will be evaluated on the extent to which an applicant describes how it proposes to undertake activities designed to affirmatively further fair housing, for example:

(1) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in the sale or rental of housing or in advertising, provision of brokerage services or lending;

(2) Promoting fair housing choice through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(3) Providing housing mobility counseling services.

4. Rating Factor 4: Leveraging Resources (10 Points)

This factor addresses the ability of the applicant to secure resources that can be combined with HUD's grant funds to achieve the program's purpose.

In evaluating this factor, HUD will consider the extent to which the applicant established partnerships with other entities to secure additional resources to increase the effectiveness of the proposed project activities. Resources may include funding or in-kind contributions, such as services or equipment, allocated to the purpose(s) of the grant. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities. Applicants may also establish partnerships with other program funding recipients to coordinate the use of resources in the target area. Overhead and other institutional costs (e.g., salaries, indirect costs, etc.) that the institution has waived may be counted. Examples of potential sources for outside assistance include:

- Federal, state, and local governments.
- Public Housing Agencies.

- Local or national nonprofit organizations.

- Financial Institutions and/or private businesses.

- Foundations.

- Faith-based and other community-based organizations.

For each cash or in-kind contribution to the program a letter of commitment, memorandum of understanding, or agreement must be provided that shows the extent and firmness of the commitment of leveraged funds (including any commitment of resources from the applicant's own institution) in order for these resources to count in determining points under this factor. Resources will not be counted for which there is no commitment letter, memorandum of understanding, or agreement, nor quantified level of commitment. Letters, memoranda of understanding, or agreements must be submitted from the provider on the provider's letterhead and be included with the application package (Applicants must place all letters, memoranda of understanding, or agreements in the Appendix). The date of the letter, memorandum of understanding, or agreement from the CEO of the provider organization must be dated no earlier than the date of this published SuperNOFA. Applications that do not include evidence of leveraging as described below will receive zero (0) points for this Factor.

a. A firm commitment letter, memorandum of understanding, or agreement must address the following:

(1) The cash amount contributed or dollar value of the in-kind goods and/or services committed;

(2) A specific description of how each contribution is to be used;

(3) The date the contribution will be made available and a statement that describes the duration of the contribution;

(4) Any terms or conditions affecting the commitment, other than receipt of a HUD grant; and

(5) The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services. Please remember that only items eligible for funding under this program can be considered.

5. Rating Factor 5: Achieving Results and Program Evaluation (10 Points)

This factor reflects HUD's goal to embrace high standards of management and accountability. It measures the applicant's commitment to assess their performance to achieve the program's proposed objectives and goals. Applicants are required to develop an effective, quantifiable, outcome oriented

evaluation plan for measuring performance and determining that objectives and goals have been achieved.

"Outcomes" are benefits accruing to institutions of higher education and/or communities during or after participation in the HBCU program. Applicants must clearly identify the outcomes to be measured and achieved. Examples of outcomes include increased employment opportunities in the target community by a certain percentage, increased incomes/wages or other assets for persons trained, or enhanced family stability through the creation of affordable housing opportunities (e.g., increased assets to families and communities through the development of affordable housing).

In addition, applicants must establish interim benchmarks and outputs that lead to the ultimate achievement of outcomes. "Outputs" are the direct products of the program's activities. Examples of outputs are the number of new affordable housing units, the number of homes that have been renovated, the number of facilities that been constructed or rehabilitated. Outputs should produce outcomes for the program. At a minimum, an applicant must address the following activities in the evaluation plan:

- a. Measurable objectives to be accomplished (e.g., the number of persons to be trained and employed; houses to be built pursuant to 24 CFR 570.207 or rehabilitated; minority-owned businesses to be started);
- b. Measurable impacts the grant will have on the community in general and the target area or population; and
- c. The impact the grant will have on assisting the university to obtain additional resources to continue this type of work at the end of the grant performance period.

This information must be placed under this section on a HUD-96010, Program Outcome Logic Model form. (Applicants may use as many copies of this form as required. It will not be included in the page count requirement.) A narrative is not required; however, if a narrative is provided, those pages will be included in the page count. Additional information on this form and how to use it can be found in the General Section of the SuperNOFA.

B. Review and Selection Process

1. Application Selection Process

Two types of reviews will be conducted:

- a. A threshold review to determine an applicant's basic eligibility; and

- b. A technical review for all applications that pass the threshold review to rate and rank the application based on the "Factors for Award" listed in Section V.A.

Only those applications that pass the threshold review will receive a technical review and be rated and ranked.

2. Rating Panels

To review and rate applications HUD may establish panels which may include experts or consultants not currently employed by HUD. These individuals may be included to obtain certain expertise.

3. Ranking

HUD will fund applications in rank order, until all available program funds are awarded. In order to be funded, an applicant must receive a minimum score of 75 points out of a possible 100 points for Factors 1 through 5. In addition, two bonus points may be awarded for RC/EZ/EC, as described in the General Section of the SuperNOFA. If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 1, Capacity of the Applicant and Relevant Organizational Experience shall be selected. HUD reserves the right to make selections out of rank order to provide for geographic distribution of grantees. HUD also reserves the right to reduce the amount of funding requested in order to fund as many highly ranked applications as possible. Additionally, if funds remain after funding the highest ranked applications, HUD may fund part of the next highest-ranking application. If an applicant turns down the award offer, HUD will make the same determination for the next highest-ranking application. If funds remain after all selections have been made, the remaining funds will be carried over to the next funding cycle competition.

4. Correction to Deficient Applications

The General Section of the SuperNOFA provides the procedures for correction to deficient applications.

C. Anticipated Announcement and Award Dates

Announcements of awards are anticipated on or before September 30, 2004.

VI. Award Administration Information

A. Award Notice

After all selections have been made, HUD will notify all winning

applications in writing. HUD may require winning applicants to participate in additional negotiations before receiving an official award. For further discussion on this matter, please refer to the General Section of the SuperNOFA.

B. Administrative and National Policy Requirements

The provisions of the HUD Reform Act of 1989 that apply to this NOFA are explained in the General Section of the SuperNOFA.

1. Debriefing

The General Section of the SuperNOFA provides the procedures for requesting a debriefing. All requests for debriefings must be made in writing and submitted to: Armand Carriere; Office of University Partnerships; Robert C. Weaver Federal Building; 451 Seventh Street, SW., Room 8106; Washington, DC 20410. Applicants may also write to Mr. Carriere via email at Armand_W_Carriere@hud.gov.

2. Administrative

Grants awarded under this NOFA will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations), A-21 (Cost Principles for Education Institutions) and A-133 (Audits of States, Local Governments, and Non-Profit Organizations). Applicants can access the OMB circulars at the White House Web site at www.whitehouse.gov/omb/circulars/index.html.

3. OMB Circulars and Governmentwide Regulations Applicable to Financial Assistance Programs

The General Section of the SuperNOFA provides discussion of OMB circulars and governmentwide regulation.

4. Executive Order 13202, Preservation of Open Competition and Government Neutrality Towards, Government Contractor's Labor Relations on Federal and Federally Funded Construction Projects

See the General Section of the SuperNOFA for further discussion.

5. Economic Opportunities for Low- and Very Low-Income Persons (Section 3)

The provisions of Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) apply to this NOFA. Regulations may be found at 24 CFR part 135.

6. Conflicts of Interest

See the General Section of the SuperNOFA for further discussion.

C. Reporting

All grant recipients under this NOFA are required to submit semi-annual progress reports. The progress reports shall consist of two components, a narrative that must reflect the activities undertaken during the reporting period and a financial report that reflects costs incurred during the reporting as well as a cumulative summary.

For each reporting period, as part of the required report to HUD, grant recipients must include a completed Logic Model (Form HUD-96010), which identifies output and outcome achievements.

VII. Agency Contacts

Applicants may contact Ophelia Wilson at (202) 708-3061, extension 4390 or Susan Brunson at (202) 708-3061, extension 3852. Persons with speech or hearing impairments may call the Federal Information Relay Service (TTY) at (800) 877-8339. Except for the "800" number, these numbers are not toll-free. Applicants may also reach Ms. Wilson via email at Ophelia_Wilson@hud.gov, and/or Ms. Brunson at Susan_S_Brunson@hud.gov.

VIII. Other Information

Paperwork Reduction Act

The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2528-0122. In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 356 hours per annum per respondent for the application and grant administration. This includes the time for collecting, reviewing, and reporting the data for the application, quarterly, semi-annual and final reports. The information will be used for grantee selection and monitoring the administration of funds. Response to this request for information is required in order to receive the benefits to be derived.

BILLING CODE 4210-32-P

Attachment A--Application Checklist

Application Checklist

This checklist identifies application submission requirements. Applicants are requested to use this checklist when preparing an application to ensure submission of all required elements. Please present the information in the application in the order outlined below and indicate on each line the page number where each of the items can be found in the application. Standard Forms and required certification are found in the **General Section** of the SuperNOFA and can be downloaded from HUD's website, www.hud.gov.

I. PART A

- _____ SF-424 "Application For Federal Assistance"
- _____ Transmittal Letter
- _____ Application Checklist
- _____ Abstract (must include no more than a two-page summary of the proposed project)
- _____ Narrative Statement Addressing the Factors for Award. The narrative must not exceed 75 pages, (excluding forms, abstracts, tables, maps, budget narrative, assurances, commitment letters, memorandum of understanding, and agreements) double-spaced on one side, with one-inch margins (from top, bottom, left and right) printed in standard Times New Roman 12 point font.
- _____ HUD-40076, "Response Sheet Performance Narrative" (*Previously Funded HBCU Applicant Only*)
- _____ HUD 96010, "Logic Model"
- _____ HUD-40076-HBCU, Response Sheet, Budget-By-Activity (*Section Only*)
- _____ HUD 424-CB," Grant Application Detailed Budget"
- _____ Budget Narrative (No form provided and must be submitted for the total grant performance period)
- _____ Indirect Cost Rate Agreement (if applicable)
- _____ Appendix (letters of commitment, memoranda of understanding, or agreements)
- _____ Computer disk

II. PART (All Required Forms)

The following required certifications and assurance can be downloaded from HUD's website www.hud.gov.

- _____ SF-424 "Application For Federal Assistance"
- _____ HUD-424-B "Applicant Assurance and Certifications"
- _____ HUD 424CB "Grant Application Detailed Budget"
- _____ SF-LLL "Disclosure of Lobbying Activities"
- _____ HUD-27300 "America's Affordable Communities Initiative Removal of Regulatory Barriers" (if applicable)
- _____ HUD-2880 "Applicant/Recipient Disclosure Update Report"
- _____ HUD-2991 "Certification of Consistency with the Consolidated Plan", (if applicable)
- _____ HUD-2990 "Certification of Consistency with the EZ/EC/RC Strategic Plan", (if applicable)
- _____ HUD-2993 "Acknowledgement of Applicant Receipt"
- _____ HUD-2994 "Client Comments and Suggestions"
- _____ SF-424 Supplement "Survey on Ensuring Equal Opportunity for Applicants"
- _____ HUD-40076 "Response Sheet Performance Narrative " (*Previously Funded HBCU Applicant Only*)
- _____ HUD-40076-HBCU "Budget-By-Activity" (*Section Only*)
- _____ HUD 96010-"Logic Model"

Historically Black Colleges and Universities

OMB Approval No. 2506-0122 (exp. 4/30/2007)

The information collection requirements contained in this application have been approved by the Office of Management and Budget (OMB) under the paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Information is requested in accordance with the regulatory authority contained in each program rule. The information will be used to rate applications, determine eligibility, and to establish grant amounts.

Selection of applications for funding is based on rating factors listed in the Notice of Fund Availability (NOFA), which is published each year. The information collected in the application form will only be collected for specific funding competitions.

Public reporting burden for this collection of information is estimated to average 44 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

To the extent that any information collected is of a confidential nature, there will be compliance with Privacy Act requirements.

Warning: HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

OMB Approval No. 2506-0122 (exp. 4/30/2007)

RESPONSE SHEET

The Hispanic-Serving Institutions Assisting Communities (HSIAC) Program

Overview Information

A. Federal Agency Name: Department of Housing and Urban Development, Office of Policy Development and Research, Office of University Partnerships.

B. Funding Opportunity Title: Hispanic-Serving Institutions Assisting Communities (HSIAC) Program.

C. Announcement Type: Initial announcement.

D. Funding Opportunity Numbers: The Federal Register Number for this NOFA is FR-4900-24. The OMB Approval Number for this program is 2528-0198.

E. Catalog of Federal Domestic Assistance (CFDA) Number: The CDFIA Number for this program is 14.514.

F. Dates: The application due date is June 25, 2004. Please see the General Section of the SuperNOFA for application submission, delivery and timely receipt requirements.

G. Additional Overview Content Information:

1. *Purpose of the Program:* The Hispanic-Serving Institutions Assisting Communities (HSIAC) Program assists Hispanic-Serving Institutions (HSI) of higher education expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development, principally for persons of low- and moderate-income, consistent with the purposes of Title I of the Housing and Community Development Act of 1974, as amended.

2. *Award Information:* In Fiscal Year (FY) 2004, approximately \$6.95 million has been appropriated for this program by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199; approved January 23, 2004; 118 Stat. 3). The maximum amount an applicant can request for award is \$600,000 for a three-year (36 months) grant performance period.

3. *Eligible Applicants:* Nonprofit Hispanic-Serving Institutions of higher education that meet the definition of an HSI established in Title V of the 1998 Amendments to the Higher Education Act of 1965 (Pub. L. 105-244; enacted October 7, 1998) are eligible to apply for funding under this program. In order to meet this definition, at least 25 percent of the full-time undergraduate students enrolled in an institution must be Hispanic and not less than 50 percent of these Hispanic students must be low-income individuals. Institutions are not required to be on the list of eligible HSIs prepared by the U.S. Department of

Education. However, an institution that is not on the list is required to provide a statement in the application that the institution meets the U.S. Department of Education's statutory definition of an HSI. HUD intends to fund at least two eligible HSIAC applications (applications that received a minimum score of 75 points) that serve Colonias (as defined in the General Section of this SuperNOFA). While it is not necessary for the institution to be located in a Colonias, all program activities must be directed to the Colonias and its residents. If less than two fundable applications are eligible for award these funds will be made available to award additional HSIAC grants.

Full Text of Announcement

I. Funding Opportunity Description

The purpose of the Hispanic Serving Institutions Assisting Communities (HSIAC) Program is to assist Hispanic Serving Institutions (HSI) of higher education expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing and economic development, principally for persons of low- and moderate-income consistent with the purpose of the Title I of the Housing and Community Development Act of 1974, as amended.

A. For the purpose of this program, the term "locality" includes any city, county, township, parish, village, or other general political subdivision of a state, Puerto Rico, or the U.S. Virgin Islands where the institution is located.

B. A "target area" is the area within the locality in which the institution will implement its proposed HSIAC grant.

C. Listed below are major modifications from the Fiscal Year (FY) 2003 program-funding announcement:

1. This program has a separate NOFA and is no longer a part of the combined Office of Universities Partnerships Program NOFA;

2. All applications must be submitted to: University Partnerships Clearinghouse; c/o Danya International; 8737 Colesville Road, Suite 1200; Silver Spring, MD 20910;

3. Points will no longer be assigned to the budget. However, a budget narrative must be submitted that addresses the total dollar amount reflected on the HUD-424-CB for the entire three-year grant performance period; and

4. Applicants must have drawn down at least 75 percent of the previous grant three weeks prior (not two weeks as stated in the FY 02 NOFA) to the program's application due date to be

eligible to apply for funding under this NOFA. It is the applicant's responsibility to make sure this requirement is met.

D. HUD's authority for making this funding available under this NOFA is the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3). This program is being implemented through this NOFA and the policies governing its operation are contained herein.

II. Award Information

In Fiscal Year (FY) 2004, approximately \$6.95 million has been appropriated by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, January 23, 2004, 118 Stat. 3). The maximum amount an applicant can request for award is \$600,000 for a three-year (36 months) grant performance period.

III. Eligibility Information

A. Eligible Applicants

Nonprofit Hispanic-serving institutions of higher education that meet the definition of an HIS of higher education established in Title V of the 1998 Amendments to the Higher Education Act of 1965 (Pub. L. 105-244; enacted October 7, 1998) are eligible to apply for funding under this program. In order to meet this definition, at least 25 percent of the full-time undergraduate students enrolled in an institution must be Hispanic and not less than 50 percent of these Hispanic students must be low-income individuals. Institutions are not required to be on the list of eligible HSIs prepared by the U.S. Department of Education. However, an institution that is not on the list is required to provide a statement in the application that the institution meets the U.S. Department of Education's statutory definition of an HSI. HUD intends to fund at least two eligible HSIAC applications that serve Colonias (as defined in the General Section of the SuperNOFA). While it is not necessary for the institution to be located in a Colonias, all program activities must be directed to the Colonias and its residents. If fewer than two applications are eligible for award these funds will be made available to award additional HSIAC grants.

B. Cost Sharing or Matching

None Required.

C. Other

1. Eligible Activities

Eligible activities are listed in 24 CFR part 570, subpart C, particularly 570.201 through 570.206. Information regarding

these activities can be found at: www.hudclips.org.

a. Examples of eligible activities include, but are not limited to:

(1) Acquisition of real property;
 (2) Clearance and demolition;
 (3) Rehabilitation of residential structures including lead-based paint hazard evaluation and reduction; and encouraging accessible design features in accordance with the requirements of section 504 of the Rehabilitation Act of 1973;

(4) Facilities and improvements, such as water and sewer facilities and streets; including lead-based paint hazard evaluation and reduction; and encouraging compliance accessible with the design and construction requirements of Section 504 of the Rehabilitation Act of 1973 and the Fair Housing Act;

(5) Relocation payments and other assistance for permanently and temporarily relocated individuals, families, businesses, nonprofit organizations, and farm operations where the assistance is:

(a) Required under the provisions of 24 CFR 570.606(b) or (c); or

(b) Determined by the grantee to be appropriate under the provisions of 24 CFR 570.606(d);

(6) Direct homeownership assistance to low- and moderate-income persons, as provided in section 105(a)(25) of the Housing and Community Development Act of 1974;

(7) Special economic development activities described at 24 CFR 570.203 and assistance to facilitate economic development by providing technical or financial assistance for the establishment, stabilization, and expansion of microenterprises, including minority enterprises;

(8) Assistance to community-based development organizations (CBDO) to carry out a CDBG neighborhood revitalization, community economic development, or energy conservation project, in accordance with 24 CFR 570.204. This could include activities in support of a HUD-approved local entitlement grantee, CDBG Neighborhood Revitalization Strategy (NRS) or HUD-approved State CDBG Community Revitalization Strategy (CRS);

(9) Public service activities such as general support activities that can help to stabilize a neighborhood and contribute to sustainable redevelopment of the area, including but not limited to such activities as those concerned with employment, crime prevention, child care, health, drug abuse, education, fair housing counseling, energy conservation, homebuyer down

payment assistance, or recreational needs;

(10) Up to 20 percent of the grant for payments of reasonable grant administrative costs related to planning and execution of the project (e.g., preparation/submission of HUD reports). Detailed explanations of these costs are provided in the OMB circulars that can be accessed at the White House Web site at: www.whitehouse.gov/omb/circulars/index.html;

(11) Fair housing services designed to further the fair housing objectives of the Fair Housing Act (42 U.S.C. 3601-20) by making all persons, without regard to race, color, religion, sex, national origin, familial status and/or disability aware of the range of housing opportunities available to them; and

(12) Activities designed to promote training and employment opportunities (e.g., Neighborhood Networks in federally assisted or insured housing and employment opportunities for lower income persons in connection with Assisted Projects).

b. Eligible activities that may be funded under this program are those activities that meet both a Community Development Block Grant (CDBG) Program national objective and the CDBG eligibility requirements.

c. The three national objectives of the Community Development Block Grant program are:

(1) Benefit to low- or moderate-income persons;

(2) Aid in the prevention or elimination of slums or blight; and

(3) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community, and other financial resources are not available to meet such needs. Criteria for determining whether an activity addresses one or more of these objectives are provided at 24 CFR 570.208.

d. The CDBG publication entitled "Community Development Block Grant Program Guide to National Objectives and Eligible Activities for Entitlement Communities" describes the regulations, and a copy can be obtained from HUD's NOFA Information Center at 800-HUD-8929 or 800-HUD-2209 for the hearing-impaired.

2. Threshold Requirements Applicable to All Applicants

All applicants must comply with the threshold requirements as defined in the General Section of the SuperNOFA and the requirements listed below to be evaluated, rated, and ranked.

Applications that do not meet these requirements will be considered ineligible for funding and will be disqualified:

a. The applicant must meet the eligibility requirements as defined in Section III.A, Eligible Applicants.

b. The maximum amount an applicant can request for award is \$600,000.

c. In order to meet the definition of a HSIAC, at least 25 percent of the full-time undergraduate student enrolled in an institution must be Hispanic and not less than 50 percent of these Hispanic students must be low-income individuals.

d. Applicants must ensure that not less than 51 percent of the aggregated expenditures of a grant benefit low- and moderate-income persons under the criteria specified in 24 CFR 570.208(a) or 570.208(d)(5) or (6).

e. An individual campus that is one of several campuses of the same institution may apply separately from the other campus as long as the applicant's campus has a separate administrative and budget structure.

f. Only *one* application can be submitted per campus.

g. Institutions that received an HSIAC grant in FY2003 are not eligible to submit an application under this NOFA. If an institution received an HSIAC grant in FY2000, FY2001, or FY2002, the institution may apply under this NOFA as long as it: (a) Propose a different activity (activities) in their current project location, or propose replicating their current project in a new location and (b) have drawn down at least 75 percent of the previous grant three-weeks prior to this program's application due date. It is the applicant's responsibility to make sure that this requirement is met.

h. Applicants must receive a minimum score of 75 points to be considered for funding.

i. An applicant must have a DUNS number to receive HUD grant funds. (The General Section of the SuperNOFA provides information regarding the DUNS requirement.)

3. Program Requirements

In addition to the program requirements listed in the General Section of this SuperNOFA, applicants must meet the following program requirements:

a. All funds awarded under this program must be spent during a three-year (36 months) grant performance period.

b. Applicants that claim leveraging from *any source*, including their own institution, must provide letters of firm commitment, memoranda of

understanding, or agreements evidencing the extent and firmness of commitment of leveraging from other federal (e.g., Department of Labor, AmeriCorps Programs), state, local, and other private sources (including the applicant's own resources). These documents must be dated no earlier than the date of this published NOFA and follow the outline provided for this program in Section V, Application Review Information "Factor 4: Leveraging Resources" of this NOFA.

c. **Site Control.** Where grant funds will be used for acquisition, rehabilitation, or new construction an applicant must demonstrate site control. Funds may be recaptured or deobligated from applicants that cannot demonstrate control of a suitable site within one year after the initial notification of award.

d. **Environmental Requirements.** Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance in accordance with 24 CFR part 50. The results of the environmental review may require that proposed activities be modified or proposed sites be rejected. Applicants are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties prior to HUD approval of specific properties or areas. An application constitutes an assurance that the institution will assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair, or construct property, and not commit or expend HUD or local funds for these program activities with respect to any eligible property until HUD's written approval of the property is received. In supplying HUD with environmental information, applicants should use the same guidance as provided in the HUD Notice CPD-99-01 entitled "Field Environmental Review Processing for HUD Colonias Initiative (HCI) Grants" issued January 27, 1999. The General Section of the SuperNOFA provides further discussion of the environmental requirements. Further information and assistance on HUD's environmental requirements is available at: <http://www.hud.gov/offices/cpd/energyenviro/energyenviro/index.cfm>.

e. **Labor Standards.** Institutions and their sub-grantees, contractors, and subcontractors must comply with the labor standards (Davis-Bacon)

requirements referenced in 24 CFR 570.603.

IV. Application and Submission Information

A. Addresses To Request Application Package

Applicants may request general information, copies of the General Section, and Program Sections of the SuperNOFA from the NOFA Information Center by calling 800-HUD-8929 or 800-HUD-2209 (TTY) between the hours of 9 a.m. and 8 p.m. (Eastern Time) Monday through Friday, except on federal holidays. When requesting information, please refer to the Hispanic-Serving Institutions Assisting Communities Program. Be sure to provide your name, address (including ZIP code), and telephone number (including area code). To ensure sufficient time to prepare an application, requests for copies of this NOFA can be made immediately following publication of the SuperNOFA. The NOFA Information Center opens for business simultaneously with the publication of HUD's 2004 NOFA. Applicants can also obtain information on this SuperNOFA and download application information for this SuperNOFA through the HUD Web site, www.hud.gov.

B. Content and Form of Application Submission

A complete application package must include an original signed application, three copies, and one computer disk of the application (in Word 6.0 or higher) of the items listed below. (The computer disk must include the narrative portion of the application and all required forms. Forms can be downloaded from the Web site, <http://www.hud.gov>.) In order to recycle paper, applications must not be submitted in bound form; binder clips or loose-leaf binders are acceptable. Please do not use colored paper. Applications must be submitted on 8½ by 11-inch paper, double-spaced on one side of the paper, with one-inch margins (from top, bottom, left and right) and printed in a standard Times New Roman 12-point font. Each page must include the applicant's name and be numbered. Each section must be tabbed sequentially. The application narrative, tables, and maps, must not exceed 75 pages (excluding forms, budget narrative, assurances, commitment letters, memoranda of understanding, agreements, and abstract). The double-spacing requirement applies to the application narrative (excluding the abstract, tables, maps, budget narrative, commitment

letters, memoranda of understanding, and agreements). Please note that although submitting pages in excess of the page limit will not disqualify an application, HUD will not consider the information on any excess pages. This may result in a lower score or failure to meet a threshold requirement. Except where a particular form may direct otherwise, all forms included in an application, as well as the transmittal letter, must be signed by the Chief Executive Officer (this is generally the President or Provost) or an official authorized legally to make a commitment on behalf of the institution. If a designee signs, the application must contain a copy of the official designation of signatory authority.

Please include in your application each item in the order listed below:

1. *SF-424, Application for Federal Assistance.* Instructions for completing this form are found on the back of the first page of the form. Please remember the following:
 - a. The full grant amount (entire three years) should be entered, not the amount for just one year;
 - b. Include the name, title, address, telephone number, facsimile number, and email address of the designated contact. This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information;
 - c. The Employer Identification/Tax ID;
 - d. The DUNS Number;
 - e. The Catalog of Federal Domestic Assistance Number for this program is 14.514;
 - f. The project's proposed start date and completion date. For the purpose of this application, the program start date should be October 1, 2004; and
 - g. The signature of an authorized official (an individual who has the authority to make a binding commitment on behalf of the institution).
2. *Transmittal Letter.* The letter must contain a statement that the institution is an eligible institution because it is a two- or four-year fully accredited institution. The letter should state the name of the accrediting agency, and that the accrediting agency is recognized by the U.S. Department of Education. Applicants may also use the transmittal letter as one way to demonstrate the President's commitment to the institutionalization of the program. The *Chief Executive Officer* (usually the President or Provost) of the institution must sign this letter. If the Chief Executive Officer has delegated this responsibility to another official, that person may sign, but a copy of the

delegation of authority must be included or clearly stated in the letter.

3. *Application Checklist.* Applicants must include the completed checklist in their application. On the checklist, the applicant must indicate the page number where each of the items can be found in the application (See Appendix A).

4. *Abstract.* Applicants must include no more than a two-page summary of the proposed project. Please include the following:

a. A clear description of the proposed project activities, the target population that will be assisted, and the impact this project will have on the institution;

b. The designated contact person, including phone number, facsimile number, and email address (This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information);

c. University's name, department, mailing address, telephone number, facsimile number, and email address; and

d. The principal investigator, if different from the designated contact person, for the project, including phone number, facsimile number, and email address.

5. *Narrative statement addressing the Factors for Award.* HUD will use the narrative response to the "Factors for Award" to evaluate, rate, and rank applications. The statement and work plan are the main source of information. Applicants are advised to review each factor carefully for program specific requirements. The response to each factor should be concise and contain only information relevant to the factor, but detailed enough to address each factor fully. Please do not repeat material in response to the five factors; instead, focus on how well the proposal responds to each of the factors. In factors where there are subfactors, each subfactor must be presented separately, with the short title of the subfactor presented. Make sure to address each subfactor and provide sufficient information about every element of the subfactor.

6. *Budget.* The budget submission must be placed behind the narrative statement addressing the "Factors for Award" and include the following form:

a. HUD-424-CB, "Grant Application Detailed Budget." This budget form shows the total budget by year and by line item for the program activities to be carried out with the proposed HUD grant. Each year of the program should be presented separately. Applicants must also submit this form to reflect the total cost for the entire grant performance period (Grand Total).

Make sure that the amount shown on the SF-424, the HUD-424-CB, and on all other required program forms is consistent and the budget totals are correct. Remember to check addition in totaling the categories on the HUD-424-CB form so that all items are included in the total. If there is an inconsistency between any of the forms required, the HUD-424-C will be used. All budget forms must be completed in full. If an application is selected for award, the applicant may be required to provide greater specificity to the budget during grant agreement negotiations.

b. *Budget Narrative.* A narrative must be submitted that explains how the applicant arrived at the cost estimates for any line item over \$5,000. For example, an applicant proposes to construct a building using HUD funding totaling \$200,000. The following costs estimate reflects this total. Foundation cost \$75,000, electrical work \$40,000, plumbing work \$40,000, finishing work \$35,000, and landscaping \$10,000. The proposed cost estimates should be reasonable for the work to be performed and consistent with rates established for the level of expertise required to perform the work proposed in the geographical area. When necessary, quotes from various vendors or historical data should be used and included. All direct labor or salaries must be supported with mandated city/state pay scales, the Davis-Bacon rate, (if applicable) or other documentation. When an applicant proposes to use a consultant, the applicant must indicate whether there is a formal agreement or written procurement policy. For each consultant, please provide the name, if known, hourly or daily rate, and the estimated time on the project.

Applicants must submit a cost estimate from a qualified firm (e.g., Architectural or Engineering), vendor, and/or qualified individual (e.g., independent architect) other than the institution for projects that involve rehabilitation of residential, commercial and/or industrial structures; and/or acquisition, construction, or installation of public facilities and improvements. Such an entity must be involved in the business of housing rehabilitation, construction and/or management. Equipment and contracts cannot be presented as a total estimated figure. For equipment, applicants must provide a list by type and cost for each item. Applicants using contracts must provide an individual description and cost estimate for each contract.

c. *Indirect costs.* Indirect costs, if applicable, are allowable based on an established approved indirect cost rate. Applicants should include a copy of

their indirect cost rate agreement with their application. Applicants who are selected for funding that do not have an approved indirect cost rate agreement (established by the cognizant federal agency, Certified Public Account, or auditor) will be required to establish a rate. In such cases, HUD will issue an award with a provisional rate and enter into an agreement to have one established.

d. *Audits.* Applicants must ensure that their most current A-133 audit is on file at the Federal Audit Clearinghouse. Grantees that expend \$500,000 or more in federal financial assistances in a single year (this can be program year or fiscal year) must be audited in accordance with the OMB requirements as established in 24 CFR parts 84 and 85. Applicants can access additional information regarding this requirement at the following Web site, <http://harvester.census.gov/sac>.

7. *Appendix.* Applicants must place all letters of commitment, memoranda of understanding, and agreements for funds/resources in response to Factor 4 in this section. An applicant may not submit general support letters or resumes or other back-up materials (unless an applicant is willing to have the additional material count toward the page limits).

C. Submission Dates and Times

A complete application package is due on or before June 25, 2004. Please see the General Section of the SuperNOFA for application submission, delivery and timely receipt requirements.

D. Intergovernmental Review

This program is excluded from an Intergovernmental Review.

E. Funding Restrictions

Ineligible CDBG Activities are listed at 24 CFR 570.207. Funding may only be provided to applicants that meet the standards for eligible applicants in Section III. A.

F. Other Submission Requirements

1. Complete Application Package

This package must be submitted to the following address: University Partnerships Clearinghouse; c/o Danya International; 8737 Colesville Road, Suite 1200; Silver Spring, MD 20910. When submitting an application package, include the following information on the outside of the envelope:

- a. Office of University Partnerships;
- b. Hispanic Serving-Institutions Assisting Communities Program; and

c. Applicant's name and mailing address (including zip code). Applicants must refer to the General Section of this SuperNOFA for detailed requirements governing application submission and receipt.

2. Forms, Certifications, and Assurances

The following certifications and assurances must be included in *all* application packages. These forms must be signed by the Chief Executive Officer (or official designee) of the institution and can be downloaded from: <http://www.hud.gov>.

a. Application for Federal Assistance (SF-424).

b. Applicant Assurances and Certifications (HUD-424-B).

c. Grant Application Detailed Budget (HUD-424-CB).

d. Disclosure of Lobbying Activities (SF-LLL).

e. America's Affordable Communities Initiative Removal of Regulatory Barriers (HUD-27300), if applicable.

f. Applicant/Recipient Disclosure/Update Report (HUD-2880).

g. Certification of Consistency with the Consolidated Plan (HUD-2991).

h. Certification of Consistency with the EZ/EC/RC Strategic Plan (HUD-2990). Must be signed by the certifying official of the EZ/EC/RC. The General Section of the SuperNOFA provides procedures and guidelines required to certify that proposed grant activities are being conducted in the EZ/EC/RC that serve the residents of these areas, and are certified to be consistent with the area's strategic plan.

i. Program Logic Model (HUD-96010).

j. Survey on Equal Opportunity (HUD-32004).

k. Acknowledgment of Receipt of Application (HUD-2993). To confirm that HUD has received the application package, please complete this form. Applicants are not required to include this form, but it is recommended that an applicant do so.

l. Client Comments and Suggestions (HUD-2994). This form is included to solicit information from the most valuable source, the applicant. The changes that we have instituted this year are designed to make things easier for the applicant. If applicants complete and submit this form, it will help us to assess whether the changes have had the intended results. It will also guide us in our continuing efforts to improve the competitive grant process. Applicants are not required to complete this form.

V. Application Review Information

A. Criteria

1. Rating Factor 1: Capacity of the Applicant and Relevant Organizational

Experience (25 Points). This factor addresses the extent to which the applicant has the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which the proposal demonstrates:

a. Knowledge and Experience—For Previously Unfunded or First Time Applicants (25 Points) For Previously Funded Applicants (10 Points). The knowledge and experience of the overall project director and staff, including the day-to-day program manager, consultants (including technical assistance providers), and contractors in planning and managing this kind of program. Experience will be judged in terms of recent and relevant knowledge and skills of the staff to undertake eligible program activities. HUD will consider experience within the last 5 years to be recent and experience pertaining to specific activities and producing specific accomplishments to be relevant. The following categories will be evaluated:

(1) Undertaking specific successful community development projects with community-based organizations or local governments; and

(2) Providing leadership in solving community problems that have a direct bearing on the proposed activities.

b. Past Performance (15 Points) For Previously Funded Grant Applicants Only. This subfactor will evaluate the extent to which an applicant has performed successfully under all previously completed and open grants HUD HSIAC grant(s). Applicants must demonstrate this by providing the following information:

(1) A detailed list outlining the achievement of specific measurable objectives and outcomes consistent with the approved timeline/work plan in previous grants;

(2) Comparison of the proposed required leveraged funds and/or resources in previous grants with what was actually leveraged; and

(3) A list of all HUD/HSIAC grants received, including the dollar amount awarded and the amount expended as of the date of this application.

2. Rating Factor 2: Need/Extent of the Problem (10 Points). This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the importance of meeting the need(s) in the target area. The need(s) described must be relevant to the activities for which funds are being requested. The proposal will be evaluated on the extent to which the level of need for the proposed

activities and the importance of meeting the need(s) are documented.

Applicants must use statistics or other analyses contained in at least one or more current data sources that are sound and reliable. The data provided must be current and specific to the area where the proposed project activities will be carried out. Sources for localized data can be found at www.ffiec.gov or www.econddata.com.

In rating this factor, HUD will consider data collected within the last five years to be current. To the extent that the targeted community's Five Year Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem and the urgency in meeting the need, applicants should include references to these documents in the response to this factor.

Other reliable data sources include, but are not limited to Census reports, HUD Continuum of Care gap analysis and its E-MAP (www.hud.gov/emaps), law enforcement agency crime reports, Public Housing Agencies' Comprehensive Plans, community needs analyses such as provided by the United Way, the applicant's institution, and other sound and reliable appropriate sources. Needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements may also be addressed.

3. Rating Factor 3: Soundness of Approach (43 Points). This factor addresses the quality and effectiveness of the proposed work plan, the commitment of the institution to sustain the proposed activities, actions regarding HUD's priorities, goals and objectives, and affirmatively furthering fair housing

This factor will be evaluated based on the extent to which the proposed work plan demonstrates the following:

a. (32 Points) Quality of the Work Plan. This subfactor will be evaluated on the extent to which an applicant provides a clear outline of the proposed project and anticipated accomplishments.

(1) Specific Services and/or Activities. The work plan must describe all proposed activities and major tasks required to successfully implement the proposed project. HUD will consider the probability of success of the program, the significance of the tasks identified, how realistic are the proposed time frames, and who will be responsible for completing each proposed activity.

(a) Describe each proposed activity and the tasks required to successfully implement and complete the proposed activities in measurable terms (e.g., the

number of persons to trained and employed; houses to be built or rehabilitated; or minority owned businesses to be started, etc.);

(b) List the CDBG national objective each proposed activity is designed to address and how this will be accomplished;

(c) Include target completion dates for each activity/task (in 6 month intervals, up to 36 months); and

(d) Identify the staff member, as described in Factor 1, who will be responsible for completing each activity/task.

(2) Describe how each proposed activity will:

(a) Expand the role of the institution in its community;

(b) Alleviate and/or fulfill the needs identified in Factor 2;

(c) Relate to and not duplicate other activities in the target area. Duplicative effort will be acceptable only if an applicant can demonstrate through documentation that there is a population in need that is not being served; and

(d) Involve and empower citizens of the target area the proposed project.

b. (5 Points) Involvement of the Faculty and Students. The applicant must describe the extent to which it proposes to integrate the institution's students and faculty into proposed project activities.

c. (3 Points) HUD Policy Priorities. HUD encourages applicants to undertake specific activities that will assist the Department in implementing its policy priorities and which will help the Department achieve its goals and objectives in FY2005, when the majority of grant recipients will be reporting programmatic results and achievements. In addressing this factor, HUD will evaluate the extent to which a program will further and support HUD's priorities. The quality of the responses provided to one or more of HUD's priorities will determine the score an applicant can receive. Applicants must describe how each policy priority selected will be addressed.

Applicants that just list a priority will receive no points. Each policy priority addressed has a point value of one point with the exception of the policy priority to remove regulatory barriers to affordable housing, which has a point value of up to 2 points. The total number of points available to applicants that address policy priorities is 3. It is up to the applicant to determine which of the policy priorities they elect to address to receive the available 3 points. To receive points for efforts to remove regulatory barriers to affordable housing, an applicant must submit the

completed questionnaire found in the General Section. (Form HUD-27300). For the full list and explanation of each policy priority, please refer to the General Section of this SuperNOFA.

d. (3 Points) Affirmatively Furthering Fair Housing. This subfactor will be evaluated on the extent to which an applicant describes how it proposes to undertake activities designed to affirmatively further fair housing, for example:

(1) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in the sale or rental of housing or in advertising, provision of brokerage services or lending;

(2) Promoting fair housing choice through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(3) Providing housing mobility counseling services.

4. Rating Factor 4: Leveraging Resources (10 Points). This factor addresses the ability of the applicant to secure resources that can be combined with HUD's grant funds to achieve the program's purpose.

In evaluating this factor, HUD will consider the extent to which the applicant established partnerships with other entities to secure additional resources to increase the effectiveness of the proposed project activities. Resources may include funding or in-kind contributions, such as services or equipment, allocated to the purpose(s) of the grant. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities. Applicants may also establish partnerships with other program funding recipients to coordinate the use of resources in the target area. Overhead and other institutional costs (e.g., salaries, indirect costs, etc.) that the institution has waived may be counted.

Examples of potential sources for outside assistance includes:

- Federal, state, and local governments.
- Public Housing Authorities.
- Local or national nonprofit organizations.
- Financial Institutions and/or private businesses.
- Foundations.
- Faith-based and other community-based organizations.

For each cash or in-kind contribution to the program a letter of commitment, memorandum of understanding, or agreement must be provided that shows the extent and firmness of the

commitment of leveraged funds (including any commitment of resources from the applicant's own institution) in order for these resources to count in determining points under this factor. Resources will not be counted for which there is no commitment letter, memorandum of understanding, or agreement, nor quantified level of commitment. Letters, memoranda of understanding, or agreements must be submitted from the provider on the provider's letterhead and be included with the application package (Applicants must place all letters, memoranda of understanding, or agreements in the Appendices). The date of the letter, memorandum of understanding, or agreement from the CEO of the provider organization must be dated no earlier than the date of this published SuperNOFA. Applications that do not include evidence of leveraging will receive zero (0) points for this Factor.

a. A firm commitment letter, memorandum of understanding, or agreement must address the following:

(1) The cash amount contributed or dollar value of the in-kind goods and/or services committed;

(2) A specific description of how the contribution is to be used;

(3) The date the contribution will be made available and a statement that describes the duration of the contribution;

(4) Any terms or conditions affecting the commitment, other than receipt of a HUD grant; and

(5) The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services. Please remember that only items eligible for funding under this program can be counted.

5. Rating Factor 5: Achieving Results and Program Evaluation (12 Points). This factor reflects HUD's goal to embrace high standards of management and accountability. It measures the applicant's commitment to assess their performance to achieve the program's proposed objectives and goals. Applicants are required to develop an effective, quantifiable, outcome oriented evaluation plan for measuring performance and determining that objectives and goals have been achieved.

"Outcomes" are benefits accruing to institutions of higher education and/or communities during or after participation in the HSIAC program. Applicants must clearly identify the outcomes to be measured and achieved. Examples of outcomes include increased employment opportunities in the target community by a certain

percentage, or enhanced family stability through the creation of affordable housing opportunities.

In addition, applicants must establish interim benchmarks and outputs that lead to the ultimate achievement of outcomes. "Outputs" are the direct products of the program's activities. Examples of outputs are the number of new affordable housing units, the number of homes that have been renovated, the number of community facilities that been constructed or rehabilitated. Outputs should produce outcomes for the program. At a minimum an applicant must address the following activities in the evaluation plan:

- a. Measurable objectives to be accomplished, e.g., the number of persons to be trained and employed; houses to be built (pursuant to 24 CFR 570.207) or rehabilitated; minority-owned businesses to be started;
- b. Measurable impacts the grant will have on the community in general and the target area or population; and
- c. The impact the grant will have on assisting the university to obtain additional resources to continue this type of work at the end of the grant performance period.

This information must be placed under this section on a HUD-96010, Program Outcome Logic Model form. (Applicants may use as many copies of this form as required. It will not be included in the page count requirement). A narrative is not required; however, if a narrative is provided, those pages will be included in the page count. Additional information on this form and how to use it can be found in the General Section of this SuperNOFA.

B. Review and Selection Process

1. Application Selection Process

Two types of reviews will be conducted:

- a. A threshold review to determine an applicant's basic eligibility; and
- b. A technical review for all applications that pass the threshold review to rate and rank the application based on the "Factors for Award" listed in Section V, A. above.

Only those applications that pass the threshold review will receive a technical review and be rated and ranked.

2. Rating Panels. To review and rate applications, HUD may establish panels, which may include experts or consultants not currently employed by HUD. These individuals may be included to obtain certain expertise.

3. Ranking. HUD will fund applications in rank order, until all

available program funds are awarded. In order to be funded, an applicant must receive a minimum score of 75 points out of a possible 100 points for Factors 1 through 5. In addition, two bonus points may be awarded for RC/EZ/EC, as described in the General Section of the SuperNOFA. If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 1, Capacity of the Applicant and Relevant Organizational Experience, shall be selected. HUD reserves the right to make selections out of rank order to provide for geographic distribution of grantees. HUD also reserves the right to reduce the amount of funding requested in order to fund as many highly ranked applications as possible. Additionally, if funds remain after funding the highest ranked applications, HUD may fund part of the next highest-ranking application. If an applicant turns down the award offer, HUD will make the same determination for the next highest-ranking application. If funds remain after all selections have been made, the remaining funds will be carried over to the next funding cycle's competition.

4. Correction to Deficient Applications. The General Section of the SuperNOFA provides the procedures for correction to deficient applications.

C. Anticipated Announcement and Award Dates

Announcements of awards are anticipated on or before September 30, 2004.

VI. Award Administration Information

A. Award Notice

After all selections have been made, HUD will notify all winning applicants in writing. HUD may require winning applicants to participate in additional negotiations before receiving an official award. For further discussion on this matter, please refer to the General Section of the SuperNOFA.

B. Administrative and National Policy Requirements

The provisions of the HUD Reform Act of 1989 that apply to this NOFA are explained in the General Section of the SuperNOFA.

1. Debriefing:

The General Section of the SuperNOFA provides the procedures for requesting a debriefing. All requests for debriefings must be made in writing and submitted to: Armand Carriere; Office of University Partnerships; Robert C.

Weaver Federal Building; 451 Seventh Street, SW., Room 8106; Washington, DC 20410. Applicants may also write to Mr. Carriere via e-mail at Armand_W._Carriere@hud.gov.

2. Administrative:

Grants awarded under this NOFA will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations), A-21 (Cost Principles for Education Institutions) and A-133 (Audits of States, Local Governments, and Non-Profit Organizations). Applicants can access the OMB circulars at the White House website at www.whitehouse.gov/omb/circulars/index.html.

3. OMB Circulars and Governmentwide Regulations Applicable to Financial Assistance Programs:

The General Section of this SuperNOFA provides further discussion on this matter.

4. Executive Order 13202, *Preservation of Open Competition and Government Neutrality Towards, Government Contractor's Labor Relations on Federal and Federally Funded Construction Projects*: See the General Section of the SuperNOFA for further discussion.

5. Economic Opportunities for Low- and Very Low-Income Persons (Section 3)

The provisions of Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) apply to this NOFA. Regulations may be found at 24 CFR part 135.

6. Executive Order 13166, *Improving Access to Services For Persons With Limited English Proficiency (LEP)*:

See the General Section of the SuperNOFA for further discussion.

7. Conflicts of Interest:

See the General Section of this SuperNOFA for further discussion.

C. Reporting

All grant recipients under this NOFA are required to submit semi-annual progress reports. The progress reports shall consist of two components, a narrative that must reflect the activities undertaken during the reporting period and a financial report that reflects costs incurred during the reporting period as well as a cumulative summary.

For each reporting period, as part of the required report to HUD, grant recipients must include a completed Logic Model (form HUD 96010), which identifies output and outcome achievements.

VII. Agency Contacts

Applicants may contact Madlyn Wohlman-Rodriguez at (202) 708-3061, extension 5939 or Susan Brunson, at (202) 708-3061, extension 3852. Persons with speech or hearing impairments may call the Federal Information Relay Service (TTY) at (800) 877-8339. Except for the "800" number, these numbers are not toll-free. Applicants may also reach Ms. Rodriguez via e-mail at *Madlyn_S._Wohlman-Rodriguez@hud.gov*, and/or Ms. Brunson at *Susan_S._Brunson@hud.gov*.

VIII. Other Information*Paperwork Reduction Act*

The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2528-0198. In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a

currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 59 hours per annum per respondent for the application and grant administration. This includes the time for collecting, reviewing, and reporting the data for the application semi-annual and final reports. The information will be used for grantee selection and monitoring the administration of funds. Response to this request for information is required in order to receive the benefits to be derived.

BILLING CODE 4210-32-P

Attachment A--Application Checklist

HSIAC

Application Checklist

This checklist identifies application submission requirements. Applicants are requested to use this checklist when preparing an application to ensure submission of all required elements. Please present the information in the application in the order outlined below and indicate on each line the page number where each of the items can be found in the application. Standard Forms and required certification are found in the **General Section** of this SuperNOFA and can be downloaded from HUD's website, www.hud.gov.

I. PART A

- _____ SF-424 "Application For Federal Assistance"
- _____ Transmittal Letter
- _____ Application Checklist
- _____ Abstract (no more than a two-page summary of the proposed project)
- _____ Narrative Statement addressing the Factors for Award. The narrative must not exceed 75 pages, (excluding forms, abstracts, tables, maps, budget narrative, assurances, commitment letters, memoranda of understanding, agreements) double-spaced on one side, with one-inch margins (from the top, bottom, left and right) printed in standard Times New Roman 12-point font).
 - _____ HUD 96010 "Logic Model"
- _____ Budget
 - _____ HUD 424-CB" Grant Application Detailed Budget"
 - _____ Budget Narrative (No form provided and must be submitted for the total three-year grant period)
 - _____ Indirect Cost Rate
- _____ Appendix (letters of commitment, memoranda of understanding, or agreements)
- _____ Computer disk

II. PART B (All Required Forms)

The following required certifications and assurance can be downloaded from HUD's website www.hud.gov.

- _____ SF-424 "Application For Federal Assistance"
- _____ HUD-424-B "Applicant Assurance and Certifications"
- _____ HUD-424-CB" Grant Application Detailed Budget"
- _____ SF-LLL "Disclosure of Lobbying Activities"
- _____ HUD-27300 "America's Affordable Communities Initiative Removal of Regulatory Barriers" (if applicable)
- _____ HUD-2880 "Applicant/Recipient Disclosure Update Report"
- _____ HUD-2993 "Acknowledgement of Applicant Receipt"
- _____ HUD-2994 "Client Comments and Suggestions"
- _____ SF-424 Supplement "Survey on Ensuring Equal Opportunity for Applicants"
- _____ HUD-96010 "Logic Model"

The Alaska Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC) Program

Overview Information

A. *Federal Agency Name:* Department of Housing and Urban Development, Office of Policy Development and Research, Office of University Partnerships.

B. *Funding Opportunity Title:* Alaska Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC) Program.

C. *Announcement Type:* Initial announcement.

D. *Funding Opportunity Numbers:* The Federal Register Number for this NOFA is FR-4900-N-23. The OMB Approval Number for this program is 2528-0205.

E. *Catalog of Federal Domestic Assistance (CFDA) Number:* The CFDA Number for this program is 14.515.

F. *Dates:* The application due date shall be on or before July 9, 2004. Please see the General Section of the SuperNOFA for application submission, delivery, and timely, receipt requirements.

G. Additional Overview Content Information:

1. *Purpose of the Program:* The Alaska Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC) Program assists Alaska Native/Native Hawaiian Institutions (AN/NHI) of higher education expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development, principally for persons of low- and moderate-income, consistent with the purposes of Title I of the Housing and Community Development Act of 1974, as amended.

2. *Award Information:* In Fiscal Year (FY) 2004, approximately \$3.479 million has been appropriated for this program by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3), plus \$3.1 million in previously unexpended funds are being made available for this program. The maximum amount an applicant can request for award is \$800,000 for a three-year (36 months) grant performance period.

Approximately \$3.2 million is being made available for ANIs and \$3.2 million is being made available for NHIs. If funding remains after all eligible ANI applicants are awarded, the remaining funds will be made available to fund eligible NHI applicants. If funding remains after all eligible NHI applicants are awarded, the remaining

funds will be made available to fund eligible ANI applicants.

3. *Eligible Applicants:* Nonprofit Alaska Native and Native Hawaiian Institutions of higher education that meet the definitions of Alaska Native and Native Hawaiian Institutions of higher education established in Title III, Part A, Section 317 of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1998 (Pub. L. 105-244; approved October 7, 1998) are eligible to apply for funding under this program. Institutions are not required to be on the list of eligible AN/NHIs prepared by the U.S. Department of Education. However, an institution that is not on the list is required to provide a statement in the application that the institution meets the U.S. Department of Education's statutory definition of an AN/NHI institution.

Full Text of Announcement

I. Funding Opportunity Description

The purpose of the Alaska Native/Native Hawaiian Institutions Assisting Communities (AN/NHIAC) Program is to assist Alaska Native/Native Hawaiian Institutions (AN/NHI) of higher education expand their role and effectiveness in addressing community development needs in their localities, including neighborhood revitalization, housing, and economic development, principally for persons of low- and moderate-income, consistent with the purposes of Title I of the Housing and Community Development Act of 1974, as amended. Listed below are major modifications from the Fiscal Year (FY) 2003 program-funding announcement:

1. This program has a separate NOFA and is no longer a part of the combined Office of Universities Partnerships Program NOFA.

2. All applications must be mailed to: University Partnerships Clearinghouse; c/o Danya International; 8737 Colesville Road, Suite 1200; Silver Spring, MD 20910.

3. Points will no longer be assigned to the budget. However, a budget narrative must be submitted that addresses the total dollar amount reflected on the HUD-424-CB for the entire three-year grant performance period.

4. If an applicant is one of several campuses of the same institution, the applicant may apply separately from the other campuses as long as each campus has a separate administrative structure and budget and meets the enrollment test.

5. Applicants can only submit one application per campus.

HUD's authority for making funding available under this NOFA is the

Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3). This program is being implemented through this NOFA and the policies governing its operation are contained herein.

II. Award Information

In Fiscal Year (FY) 2004, approximately \$3.479 million has been appropriated for this program by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, January 23, 2004, 118 Stat. 3), plus \$3.1 million in previously unexpended funds are being made available for this program. HUD will award two kinds of grants under this program, grants to Alaska Native Institutions (ANI) and grants to Native Hawaiian Institutions (NHI). The maximum amount an applicant can request for award is \$800,000 for a three-year (36 months) grant performance period. Approximately \$3.2 million is being made available for ANIs. If funding remains after all eligible ANI applicants are awarded, the remaining funds will be made available to fund eligible NHI applicants. Approximately \$3.2 million is being made available for NHIs. If funding remains after all eligible NHI applicants are awarded, the remaining funds will be made available to award eligible ANI applicants.

III. Eligibility Information

A. Eligible Applicants

Nonprofit Alaska Native and Native Hawaiian institutions of higher education that meet the definitions of Alaska Native and Native Hawaiian institutions of higher education established in Title III, Part A, Section 317 of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1998 (Pub. L. 105-244; enacted October 7, 1998) are eligible to apply for funding under this program. Institutions are not required to be on the list of eligible AN/NHIs prepared by the U.S. Department of Education. However, an institution that is not on the list is required to provide a statement in the application that the institution meets the U.S. Department of Education's statutory definition of an AN/NHI institution. If an applicant is one of several campuses of the same institution, the applicant may apply separately from the other campuses as long as each campus has a separate administrative structure and budget and meets the enrollment test.

B. Cost Sharing or Matching

None Required.

C. Other

1. Eligible Activities

Eligible activities are listed in 24 CFR part 570, subpart C, particularly § 570.201 through § 570.206.

Information regarding these activities can be found at: www.hudclips.org.

a. Examples of eligible activities include, but are not limited to:

(1) Acquisition of real property;
 (2) Clearance and demolition;
 (3) Rehabilitation of residential structures, including lead-based paint hazard evaluation and reduction, and encouraging accessible design features in accordance with the requirements of section 504 of the Rehabilitation Act of 1973;

(4) Acquisition, construction, reconstruction, rehabilitation, or installation of public facilities and improvements, such as water and sewer facilities and streets; including lead-based paint hazard evaluation and reduction; and encouraging compliance accessible with the design and construction requirements of Section 504 of the Rehabilitation Act of 1973 and the Fair Housing Act;

(5) Direct homeownership assistance to low- and moderate-income persons, as provided in section 105(a)(25) of the Housing and Community Development Act of 1974;

(6) Special economic development activities described at 24 CFR 570.203 and assistance to facilitate economic development by providing technical or financial assistance for the establishment, stabilization, and expansion of microenterprises, including minority enterprises;

(7) Assistance to community-based development organizations (CBDO) to carry out CDBG neighborhood revitalization, community economic development, or energy conservation projects, in accordance with 24 CFR 570.204. This could include activities in support of a HUD-approved local entitlement grantee, CDBG Neighborhood Revitalization Strategy (NRS) or HUD-approved State CDBG Community Revitalization Strategy (CRS);

(8) Public service activities such as general support activities that can help to stabilize a neighborhood and contribute to sustainable redevelopment of the area, including but not limited to such activities as those concerned with employment, crime prevention, child care, health, drug abuse, education, fair housing counseling, energy conservation, homebuyer down payment assistance, or recreational needs;

(9) Fair housing services designed to further the fair housing objectives of the Fair Housing Act (42 U.S.C. 3601–20) by making all persons, without regard to race, color, religion, sex, national origin, family status, and/or disability aware of the range of housing opportunities available to them;

(10) Up to 20 percent of the grant for payments of reasonable grant administrative costs related to planning and execution of the project (e.g., preparation/submitting of HUD reports). Detailed explanations of these costs are provided in the OMB circulars that can be accessed at the White House Web site at: www.whitehouse.gov/omb/circulars/index.html; and

(11) Activities designed to promote training and employment opportunities (e.g., Neighborhood Networks in federally assisted or insured housing and employment opportunities for lower income persons in connection with assisted projects).

b. Eligible activities that may be funded under this program are those activities that meet both the Community Development Block Grant (CDBG) Program national objective and the CDBG eligibility requirements.

c. The three national objectives of the Community Development Block Grant program are:

(1) Benefit to low- or moderate-income persons;
 (2) Aid in the prevention or elimination of slums or blight; and
 (3) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community, and other financial resources are not available to meet such needs.

Criteria for determining whether an activity addresses one or more of these objectives are provided at 24 CFR 570.208.

d. The CDBG publication entitled "Community Development Block Grant Program Guide to National Objectives and Eligible Activities for Entitlement Communities" describes the regulations, and a copy can be obtained from HUD's NOFA Information Center at 800-HUD-8929 or 800-HUD-2209 for the hearing- or speech-impaired.

2. Threshold Requirements Applicable to all Applicants.

All applicants must comply with the threshold requirements as defined in the General Section of the SuperNOFA and the requirements listed below to be evaluated, rated, and ranked. Applications that do not meet these requirements will be considered

ineligible for funding and will be disqualified:

a. The applicant must meet the eligibility requirements as defined in Section III.A, "Eligible Applicants".

b. The maximum amount an applicant can request for award is \$800,000.

c. In order to meet the definition of an Alaska Native Institution, at least 20 percent of the undergraduate headcount enrollment must be Alaska Native students. If an applicant is a Native Hawaiian institution, in order to meet this definition, at least 10 percent of the undergraduate headcount enrollment must be Native Hawaiian students.

d. Applicants must ensure that not less than 51 percent of the aggregated expenditures of a grant benefit low- and moderate-income persons under the criteria specified in 24 CFR 570.208(a) or 570.208(d)(5) or (6).

e. An individual campus that is one of several campuses of the same institution may apply separately from the other campus as long as the applicant's campus has a separate administrative and budget structure.

f. Only one application can be submitted per campus.

g. Institutions that received grants in FY2003 are not eligible to submit an application under this NOFA.

h. Applicants must receive a minimum score of 75 points to be considered for funding.

i. An applicant must have a DUNS number to receive HUD grant funds. (The General Section of the SuperNOFA provides information regarding the DUNS requirement).

3. Program Requirements.

In addition to the program requirements listed in the General Section of the SuperNOFA, applicants must meet the following program requirements:

a. All funds awarded under this program must be spent during a three-year (36 months) grant performance period.

b. Applicants that claim leveraging from any source, including their own institution, must provide letters of firm commitment, memoranda of understanding, or agreements evidencing the extent and firmness of the commitment of leveraging from other federal (e.g., Department of Education, AmeriCorps Programs, etc.), state, local governments, and other private sources (including the applicant's own resources). These documents must be dated no earlier than the date of this published NOFA and follow the outline provided for this program in Section V, Application

Review Information, "Factor 4: Leveraging Resources" of this NOFA.

c. **Site Control.** Where grant funds will be used for acquisition, rehabilitation, or new construction an applicant must demonstrate site control. Funds may be recaptured or deobligated from applicants that cannot demonstrate control of a suitable site within one year after the initial notification of award.

d. **Environmental Requirements.** Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance in accordance with 24 CFR part 50. The results of the environmental review may require that proposed activities be modified or proposed sites be rejected. Applicants are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties prior to HUD approval of specific properties or areas. An application constitutes an assurance that the institution will assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair, or construct property, and not commit or expend HUD or local funds for these program activities with respect to any eligible property until HUD's written approval of the property is received. In supplying HUD with environmental information, applicants should use the same guidance as provided in the HUD Notice CPD-99-01 entitled "Field Environmental Review Processing for HUD Colonias Initiative (HCI) Grants" issued January 27, 1999. The General Section of the SuperNOFA provides further discussion of the environmental requirements. Further information and assistance on HUD's environmental requirements is available at: <http://www.hud.gov/offices/cpd/energyenviro/environment/index.cfm>.

e. **Labor Standards.** Institutions and their subgrantees, contractors, and subcontractors must comply with the labor standards (Davis-Bacon) requirements referenced in 24 CFR 570.603.

IV. Application and Submission Information

A. Addresses To Request Application Package

Applicants may request general information, copies of the General Section and Program Sections of the

SuperNOFA from the NOFA Information Center, 800-HUD-8929 or 800-HUD-2209 (TTY) between the hours of 9 a.m. and 8 p.m. (Eastern Time) Monday through Friday, except on Federal holidays. When requesting information, please refer to the Alaska Native/Native Hawaiian Institutions Assisting Communities Program. Be sure to provide your name, address (including ZIP code), and telephone number (including area code). To ensure sufficient time to prepare an application, requests for copies of the NOFA can be made immediately following publication of the SuperNOFA. The NOFA Information Center opens for business simultaneously with the publication of HUD's 2004 NOFA. Applicants can also obtain information on the SuperNOFA and download application information for it through the HUD Web site at <http://www.hud.gov>.

B. Content and Form of Application Submission

1. **Complete Application.** A complete application package must include an original signed application, three copies, and one computer disk of the application (in Word 6.0 or higher) of the items listed below. (The computer disk must include the narrative portion of the application, and all required forms. Forms can be downloaded from the following Web site <http://www.hud.gov>.) In order to recycle paper, applications must not be submitted in bound form; binder clips or loose-leaf binders are acceptable. Please do not use colored paper. Applications must be submitted on 8½ by 11-inch paper, double-spaced on one side of the paper, with one-inch margins (from top, bottom, left and right) and printed in a standard Times New Roman 12-point font. Each page must include the applicant's name and be numbered. Each section must be tabbed sequentially. The application narrative, tables, and maps, must not exceed 75 pages (excluding forms, budget narrative, assurances, commitment letters, memoranda of understanding, agreements, and abstract). The double-spacing requirement applies to the application narrative (excluding the abstract, tables, maps, budget narrative, commitment letters, memoranda of understanding, and agreements). Please note that although submitting pages in excess of the page limit will not disqualify an application, HUD will not consider the information on any excess pages. This may result in a lower score or failure to meet a threshold requirement. Except where a particular form may direct otherwise, all forms

included in an application, as well as the transmittal letter, must be signed by the Chief Executive Officer (this is generally the President or Provost) or an official authorized legally to make a commitment on behalf of the institution. If a designee signs, the application must contain a copy of the official designation of signatory authority.

Please include in your application each item in the order listed below:

1. **SF-424, Application for Federal Assistance.** Instructions for completing this form are found on the back of the first page of the form. Please remember the following:

a. The full grant amount (entire three years) should be entered, not the amount for just one year;

b. Include the name, title, address, telephone number, facsimile number, and email address of the designated contact. This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information;

c. The Employer Identification/Tax ID number;

d. The DUNS Number;

e. The Catalog of Federal Domestic Assistance Number for this program is 14.515;

f. The project's proposed start date and completion date. For the purpose of this application, the program start date should be October 1, 2004; and

g. The signature of an authorized official (an individual who has the authority to make a binding commitment on behalf of the institution).

2. **Transmittal Letter.** The letter should contain a statement that the institution is an eligible institution because it is a two- or four-year fully accredited institution. This letter should state the name of the accrediting agency, and that the accrediting agency is recognized by the U.S. Department of Education. Applicants can also use the transmittal letter as one way to demonstrate the President's commitment to the institutionalization of the program. The *Chief Executive Officer* (usually the President or Provost) of the institution must sign this letter. If the Chief Executive Officer has delegated this responsibility to another official, that person may sign, but a copy of the delegation of authority must be included or clearly stated in the letter.

3. **Application Checklist.** Applicants must include the completed checklist in their application. On the checklist, applicants must indicate the page number where each of the items can be found in the application (See Appendix A).

4. **Abstract.** Applicants must include no more than a two-page summary of the proposed project. Please include the following:

a. A clear description of the proposed project activities, the target population that will be assisted, and the impact this project will have on the institution;

b. The designated contact person, including phone number, facsimile number, and e-mail address. (This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information);

c. University's name, campus, mailing address, telephone number, facsimile number, and email address; and

d. The principal investigator, if different from the designated contact person, for the project, including phone number, facsimile number, and email address.

5. **Narrative statement addressing the Factors for Award.** HUD will use the narrative response to the "Factors for Award" to evaluate, rate, and rank applications. The statement and work plan are the main source of information. Applicants are advised to review each factor carefully for program specific requirements. The response to each factor should be concise and contain only information relevant to the factor, but detailed enough to address each factor fully. Please do not repeat material in response to the five factors; instead, focus on how well the proposal responds to each of the factors. In factors where there are subfactors, each subfactor must be presented separately, with the short title of the subfactor presented. Make sure to address each subfactor and provide sufficient information about every element of the subfactor.

6. **Budget.** The budget submission must be placed behind the narrative statement addressing the "Factors for Award" and include the following form:

a. **HUD-424-CB, "Grant Application Detailed Budget."** This budget form shows the total budget by year and by line item for the program activities to be carried out with the proposed HUD grant. Each year of the program should be presented separately. Applicants must also submit this form to reflect the total cost for the entire grant performance period (Grand Total).

Make sure that the amount shown on Form SF-424, the HUD-424-CB and on all other required program forms is consistent and the budget totals are correct. Remember to check addition in totaling the categories on the Form HUD-424-CB so that all items are included in the total. All budget forms must be completed in full. If an application is selected for award, the

applicant may be required to provide greater specificity to the budget during grant agreement negotiations.

b. **Budget Narrative.** A narrative must be submitted that explains how the applicant arrived at the cost estimates for any line item over \$5,000. For example, an applicant proposes to construct a building using HUD funding totaling \$200,000. The following costs estimate reflects this total. Foundation cost \$75,000, electrical work \$40,000, plumbing work \$40,000, finishing work \$35,000, and landscaping \$10,000. The proposed cost estimates should be reasonable for the work to be performed and consistent with rates established for the level of expertise required to perform the work proposed in the geographical area. When necessary, quotes from various vendors or historical data should be used and included. When an applicant proposes to use a consultant, the applicant must indicate whether there is a formal agreement or written procurement policy. For each consultant, please provide the name, if known, hourly or daily rate, and the estimated time on the project. Applicants must submit a cost estimate from a qualified firm (e.g., Architectural or Engineering), vendor, and/or qualified individual (e.g., independent architect) other than the institution for projects that involve rehabilitation of residential, commercial and/or industrial structures; and/or acquisition, construction, or installation of public facilities, and improvements. Such an entity must be involved in the business of housing rehabilitation, construction, and/or management. Equipment and contracts cannot be presented as a total estimated figure. For equipment, applicants must provide a list by type and cost for each item. Applicants using contracts must provide an individual description and cost estimate for each contract.

c. **Indirect costs.** Indirect costs, if applicable, are allowable based on an established approved indirect cost rate. Applicants should include a copy of their indirect cost rate agreement with their application. Applicants who are selected for funding that do not have an approved indirect cost rate agreement (established by the cognizant federal agency, Certified Public Account, or auditor) will be required to establish a rate. In such cases, HUD will issue an award with a provisional rate and enter into an agreement to have one established.

d. **Audits.** Applicants must ensure that their most current A-133 audit is on file at the Federal Audit Clearinghouse. Grantees that expend \$500,000 or more in federal financial

assistance in a single year (this can be program year or fiscal year) must be audited in accordance with the OMB requirements as established in 24 CFR parts 84 and 85. Additional information regarding this requirement can be accessed at the following Web site: <http://harvester.census.gov/sac>.

7. **Appendix.** Applicants must place all letters of commitment, memoranda of understanding, and agreements for funds/resources in response to Factor 4 in this section. An applicant may not submit general support letters or resumes or other back-up materials (unless an applicant is willing to have the additional material count towards the page limits).

C. Submission Dates and Times

A complete application package is due on or before July 9, 2004. Please see the General Section of the SuperNOFA for application submission, delivery, and timely receipt requirements.

D. Intergovernmental Review

This program is excluded from an Intergovernmental Review.

E. Funding Restrictions

Ineligible CDBG Activities are listed at 24 CFR 570.207. Funding may only be provided to applicants that meet the standards for eligible applicants in Section III.A.

F. Other Submission Requirements

1. Complete Application Package

This package must be submitted to the following address: University Partnerships Clearinghouse; c/o Danya International; 8737 Colesville Road, Suite 1200; Silver Spring, MD 20910. When submitting an application package, include the following information on the outside of the envelope:

a. Office of University Partnerships;

b. Alaska Native/Native Hawaiian Institutions Assisting Communities Program; and

c. Applicant's name and mailing address (including ZIP code). Applicants must refer to the General Section of the SuperNOFA for detailed requirements governing application submission and receipt.

2. Forms, Certifications, and Assurances

The following certifications and assurances must be included in all application packages. These forms must be signed by the Chief Executive Officer (or official designee) of the institution and can be downloaded from the HUD Web site at <http://www.hud.gov>.

a. Application for Federal Assistance (SF-424).

b. Applicant Assurances and Certifications (HUD-424-B).

c. Grant Application Detailed Budget (HUD-424-CB).

d. Disclosure of Lobbying Activities (SF-LLL).

e. America's Affordable Communities Initiative Removal of Regulatory Barriers (HUD-27300), if applicable.

f. Applicant/Recipient Disclosure/Update Report (HUD-2880).

g. Certification of Consistency with the Consolidated Plan (HUD-2991).

h. Certification of Consistency with the EZ/EC/RC Strategic Plan (HUD-2990). Must be signed by the certifying official of the EZ/EC/RC. The General Section of the SuperNOFA provides procedures and guidelines required to certify that proposed grant activities are being conducted in the EZ/EC/RC that serve the residents of these areas, and are certified to be consistent with the area's strategic plan.

i. Program Logic Model (HUD-96010).

j. Survey on Equal Opportunity (HUD-32004).

k. Acknowledgment of Receipt of Application (HUD-2993). To confirm that HUD has received the application package, please complete this form. Applicants are not required to include this form, but it is recommended that an applicant do so.

l. Client Comments and Suggestions (HUD-2994). This form is included to solicit information from the most valuable source, the applicant. The changes that we have instituted this year are designed to make things easier for the applicant. If applicants complete and submit this form, it will help us to assess whether the changes have had the intended results. It will also guide us in our continuing efforts to improve the competitive grant process. Applicants are not required to complete this form.

V. Application Review Information

A. Criteria

1. Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (25 Points). This factor addresses the extent to which the applicant has the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which the proposal demonstrates:

a. Knowledge and Experience For Previously Unfunded or First Time Applicants (25 Points) For Previously Funded Applicants. The knowledge and experience of the overall project director and staff, including the day-to-day program manager, consultants (including technical assistance

providers), and contractors in planning and managing this kind of project. Experience will be judged in terms of recent and relevant knowledge and skills of the staff to undertake eligible program activities. HUD will consider experience within the last five years to be recent and experience pertaining to specific activities and producing specific accomplishments to be relevant. The following categories will be evaluated:

(1) Undertaking specific successful community development projects with community based organizations or local governments; and

(2) Providing leadership in solving community problems.

b. Past Performance (15 Points) For Previously Funded Applicants Only. This subfactor will evaluate the extent to which an applicant has performed successfully under all previously completed and open HUD AN/NHIA grant(s). Applicants must demonstrate this by providing the following information:

(1) A detailed list outlining the achievement of specific measurable objectives and outcomes consistent with the approved timeline/work plan in previous grants; and

(2) Comparison of proposed leveraged funds and/or resources in previous grants to what was actually leveraged.

(3) A list of all HUD/AN/NHIA grants received, including the dollar amount awarded and the amount expended as of the date of this application.

2. Rating Factor 2: Need/Extent of the Problem (10 Points). This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the importance of meeting the need(s) in the target area. The need(s) described must be relevant to the activities for which funds are being requested. The proposal will be evaluated on the extent to which the level of need for the proposed activities and the importance of meeting the need(s) are documented. Applicants must use statistics and analyses contained in at least one or more current data sources that are sound and reliable. The data provided must be current and specific to the area where the proposed project activities will be carried out. Sources for localized data can be found at: www.ffiec.gov or www.econdata.com.

In rating this factor, HUD will consider data collected within the last five years to be current. To the extent that the targeted community's Five (5) Year Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem

and the urgency in meeting the need, applicants should include references to these documents in the response to this factor.

Other reliable data sources include, but are not limited to Census reports, HUD Continuum of Care gap analysis and its E-MAP (<http://www.hud.gov/emaps>), law enforcement agency crime reports, Public Housing Agencies' Comprehensive Plans, community needs analyses such as provided by the United Way, the applicant's institution, and other sound and reliable sources. Needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements may also be addressed.

3. Rating Factor 3: Soundness of Approach (45 Points). This factor addresses the quality and effectiveness of the proposed work plan, the commitment of the institution to sustain the proposed activities, actions regarding HUD's priorities, goals and objectives, and affirmatively furthering fair housing. This factor will be evaluated based on the extent to which the proposed work plan demonstrates the following:

a. (35 Points) Quality of the Work Plan. This subfactor will be evaluated on the extent to which an applicant provides a clear outline of the proposed project and anticipated accomplishments.

(1) Specific Services and/or Activities. The work plan must describe all proposed activities and major tasks required to successfully implement the proposed project. HUD will consider the probability of success of the program, the significance of the tasks identified, how realistic are the proposed time frames, and who will be responsible for completing each proposed activity.

(a) Applicants must provide a clear description of the proposed activities and address the following:

(i) Describe each proposed activity to successfully implement and complete the proposed project in measurable terms (e.g., the number of homes that will be renovated);

(ii) List the CDBG national objective each proposed activity is designed to address and how this will be accomplished;

(b) Outline the major required tasks (in sequential order) to successfully implement and complete the proposed project activities. Including the target completion dates for these tasks (in six month intervals, up to 36 months); and

(c) Identify the staff member, as described in Factor 1, who will be responsible and accountable for completing each task.

(2) Describe how each proposed activity will:

(a) Expand the role of the institution in its community;

(b) Alleviate and/or fulfill the needs identified in Factor 2;

(c) Relate to and not duplicate other activities in the target area. Duplicative effort will be acceptable only if an applicant can demonstrate through documentation that there is a population in need that is not being served; and

(d) Involve and empower citizens of the target area the proposed project.

b. (4 Points) Involvement of the faculty and students. The applicant must describe the extent to which it proposes to integrate the institution's students and faculty into proposed project activities.

c. (3 Points) HUD Policy Priorities. HUD encourages applicants to undertake specific activities that will assist the Department in implementing its policy priorities and which help the Department achieve its goals and objectives in FY2005, when the majority of grant recipients will be reporting programmatic results and achievements. In addressing this factor, HUD will evaluate the extent to which a program will further and support HUD's priorities. The quality of the responses provided to one or more of HUD's priorities will determine the score an applicant can receive. Applicants must describe how each policy priority selected will be addressed. Applicants that just list a priority will receive no points. Each policy priority addressed has a point value of one point with the exception of the policy priority to remove regulatory barriers to affordable housing, which has a point value of up to 2 points. The total number of points available to applicants that address policy priorities is 3. It is up to the applicant to determine which of the policy priorities they elect to address to receive the available 3 points. To receive points for efforts to remove regulatory barriers to affordable housing, an applicant must submit the completed questionnaire found in the General Section. (Form HUD-27300). For the full list and explanation of each policy priority, please refer to the General Section of this SuperNOFA.

d. (3 Points) Affirmatively Furthering Fair Housing. This subfactor will be evaluated on the extent to which an applicant describes how it proposes to undertake activities designed to affirmatively further fair housing, for example:

(1) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in

the sale or rental of housing or in advertising, provision of brokerage services or lending;

(2) Promoting fair housing choice through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(3) Providing housing mobility counseling services.

4. Rating Factor 4: Leveraging Resources (10 Points) This factor addresses the ability of the applicant to secure resources that can be combined with HUD's grant funds to achieve the program's purpose.

In evaluating this factor, HUD will consider the extent to which the applicant established partnerships with other entities to secure additional resources to increase the effectiveness of the proposed project activities. Resources may include funding or in-kind contributions, such as services or equipment, allocated to the purpose(s) of the grant. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities. Applicants may also establish partnerships with other program funding recipients to coordinate the use of resources in the target area. Overhead and other institutional costs (e.g., salaries, indirect costs, etc.) that the institution has waived may be counted. Examples of potential sources for outside assistance includes:

- Federal, State, and local governments.
- Public Housing Agencies.
- Local or national nonprofit organizations.
- Financial Institutions and/or private businesses.
- Foundations.
- Faith-based and other community-based organizations.

For each cash or in-kind contribution to the program a letter of commitment, memorandum of understanding, or agreement must be provided that shows the extent and firmness of the commitment of leveraged funds (including any commitment of resources from the applicant's own institution) in order for these resources to count in determining points under this factor. Resources will not be counted for which there is no commitment letter, memorandum of understanding, or agreement, nor quantified level of commitment. Letters, memoranda of understanding, or agreements must be submitted from the provider on the provider's letterhead and be included with the application package. (Applicants must place all letters,

memoranda of understanding, or agreements in the Appendices). The date of the letter, memorandum of understanding, or agreement from the CEO of the provider organization must be dated no earlier than the date of this published SuperNOFA. Applications that do not include evidence of leveraging as described below will receive zero (0) points for this Factor.

a. A firm commitment letter, memorandum of understanding, or agreement must address the following:

(1) The cash amount contributed or dollar value of the in-kind goods and/or services committed;

(2) A specific description of how each contribution is to be used;

(3) The date the contribution will be made available and a statement that describes the duration of the contribution;

(4) Any terms or conditions affecting the commitment, other than receipt of a HUD Grant; and

(5) The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services. Please remember that only items eligible for funding under this program can be counted.

5. Rating Factor 5: Achieving Results and Program Evaluation (10 Points). This factor reflects HUD's goal to embrace high standards of management and accountability. It measures the applicant's commitment to assess their performance to achieve the program's proposed objectives and goals. Applicants are required to develop an effective, quantifiable, outcome oriented evaluation plan for measuring performance and determining that objectives and goals have been achieved.

"Outcomes" are benefits accruing to institutions of higher education and/or communities during or after participation in the AN/NHIAC program. Applicants must clearly identify the outcomes to be measured and achieved. Examples of outcomes include increased community development in the target community by a certain percentage, increased employment opportunities in the target community by a certain percentage, increased incomes/wages or other assets for persons trained, and or enhanced family stability through the creation of affordable housing opportunities.

In addition, applicants must establish interim benchmarks and outputs that lead to the ultimate achievement of outcomes. "Outputs" are the direct products of the program's activities. Examples of outputs are the number of new affordable housing units, the number of homes that have been

renovated, the number of facilities that been constructed or rehabilitated. Outputs should produce outcomes for the program. At a minimum, an applicant must address the following activities in the evaluation plan:

a. Measurable objectives to be accomplished (e.g., the number of persons to be trained and employed; houses to be built pursuant to 24 CFR 570.207 or rehabilitated; minority-owned businesses to be started);

b. Measurable impacts the grant will have on the community in general and the target area or population; and

c. The impact the grant will have on assisting the university to obtain additional resources to continue this type of work at the end of the grant performance period.

This information must be placed under this section on a HUD-96010, Program Outcome Logic Model form. (Applicants may use as many copies of this form as required. It will not be included in the page count requirement). A narrative is not required; however, if a narrative is provided, those pages will be included in the page count. Additional information on this form and how to use can be found in the General Section of the SuperNOFA.

B. Review and Selection Process

1. Application Selection Process

Two types of reviews will be conducted:

a. A threshold review to determine an applicant's basic eligibility; and

b. A technical review for all applications that pass the threshold review to rate and rank the application based on the "Factors for Award" listed in Section V.A above. Only those applications that pass the threshold review will receive a technical review and be rated and ranked.

2. Rating Panels

To review and rate applications, HUD may establish panels, which may include experts or consultants not currently employed by HUD. These individuals may be included to obtain certain expertise.

3. Ranking

HUD will fund applications in rank order, until all available program funds are awarded. HUD will fund applications in rank order, until all available program funds are awarded. In order to be funded, an applicant must receive a minimum score of 75 points out of a possible 100 points for Factors 1 through 5. In addition, two bonus points may be awarded for RC/EZ/EC, as

described in the General Section of the SuperNOFA. If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 1, Capacity of the Applicant and Relevant Organizational Experience, shall be selected. HUD reserves the right to make selections out of rank order to provide for geographic distribution of grantees. HUD also reserves the right to reduce the amount of funding requested in order to fund as many highly ranked applications as possible. Additionally, if funds remain after funding the highest ranked applications, HUD may fund part of the next highest-ranking application. If an applicant turns down the award offer, HUD will make the same determination for the next highest-ranking application. If funds remain after all selections have been made, the remaining funds will be carried over to the next funding cycle's competition.

4. Correction to Deficient Applications

The General Section of the SuperNOFA provides the procedures for correction to deficient applications.

C. Anticipated Announcement and Award Dates

Announcements of awards are anticipated on or before September 30, 2004.

VI. Award Administration Information

A. Award Notices

After all selections have been made, HUD will notify all winning applicants in writing. HUD may require winning applicants to participate in additional negotiations before receiving an official award. For further discussion on this matter, please refer to the General Section of the SuperNOFA.

B. Administrative and National Policy Requirements

The provisions of the HUD Reform Act of 1989 that apply to this NOFA are explained in the General Section of the SuperNOFA.

1. Debriefing

The General Section of the SuperNOFA provides the procedures for requesting a debriefing. All requests for debriefings must be made in writing and submitted to: Armand Carriere; Office of University Partnerships; Robert C. Weaver Federal Building; 451 Seventh Street, SW., Room 8106; Washington DC 20410. Applicants may also write to Mr. Carriere via email at Armand_W_Carriere@hud.gov.

2. Administrative

Grants awarded under this NOFA will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations), A-21 (Cost Principles for Education Institutions) and A-133 (Audits of States, Local Governments, and Non-Profit Organizations). Applicants can access the OMB circulars at the White House Web site at: <http://www.whitehouse.gov/omb/circulars/index.html>.

3. OMB Circulars and Government-Wide Regulations Applicable to Financial Assistance Programs

The General Section of the SuperNOFA provides discussion of OMB circulars and government wide regulation.

4. Executive Order 13202, Preservation of Open Competition and Government Neutrality Towards, Government Contractor's Labor Relations on Federal and Federally Funded Construction Projects

See the General Section of the SuperNOFA for further discussion.

5. Economic Opportunities for Low- and Very-Low Income Persons (Section 3)

The provisions of Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) apply to this NOFA. Regulations may be found at 24 CFR part 135.

6. Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency (LEP)

See the General Section of the SuperNOFA for further discussion.

7. Conflict of Interest

See the General Section of the SuperNOFA for further discussion.

C. Reporting

All grant recipients under this NOFA are required to submit quarterly progress reports. The progress reports shall consist of two components, a narrative that must reflect the activities undertaken during the reporting period and a financial report that reflects costs incurred during the reporting period as well as a cumulative summary.

For each reporting period, as part of the required report to HUD, grant recipients must include a completed Logic Model (Form HUD-96010), which identifies output and outcome achievements.

VII. Agency Contacts

Applicants may contact Sherone Ivey at (202) 708-3061, extension 4200 or Susan Brunson at (202) 708-3061, extension 3852. Persons with speech or hearing impairments may call the Federal Information Relay Service TTY at (800) 877-8339. Except for the "800" number, these numbers are not toll-free. Applicants may also reach Ms. Ivey via email at Sherone_E_Ivey@hud.gov, and/or Ms. Brunson at Susan_S_Brunson@hud.gov.

VIII. Other Information**Paperwork Reduction Act.**

The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2528-0205. In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a

currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 59 hours per annum per respondent for the application and grant administration. This includes the time for collecting, reviewing, and reporting the data for the application, quarterly, and final reports. The information will be used for grantee selection and monitoring the administration of funds. Response to this request for information is required in order to receive the benefits to be derived.

BILLING CODE 4210-32-P

Attachment A--Application Checklist**Application Checklist**

This checklist identifies application submission requirements. Applicants are requested to use this checklist when preparing an application to ensure submission of all required elements. Please present the information in the application in the order outlined below and on each line write the page number where the item is located. Standard Forms and required certification are found in the **General Section** of this SuperNOFA and can be downloaded from HUD's website, www.hud.gov.

I.PART A

- _____ SF-424 "Application For Federal Assistance"
- _____ Transmittal Letter
- _____ Application Checklist
- _____ Abstract (must include a two-page summary of the proposed project)
- _____ Narrative Statement addressing the Factors for Award. The narrative must not exceed 75 pages, (excluding forms, abstracts, tables, maps, budget narrative, assurances, commitment letters, memoranda of understanding, agreements) double-spaced on one side, with one-inch margins (from the top, bottom, left and right) printed in standard Times Roman 12-point font).
- _____ HUD-96010 "Logic Model"
- _____ Budget
 - _____ HUD 424-CB" Grant Application Detailed Budget"
 - _____ Budget Narrative (No form provided and must be submitted for the total three-year grant period)
 - _____ Indirect Cost Rate
- _____ Appendix (letters of commitment, memoranda of understanding, or agreements)
- _____ Computer disk

II. PART B (All Required Forms)

The following required certifications and assurance can be downloaded from the HUD website www.hud.gov.

- _____ SF-424 "Application For Federal Assistance"
- _____ HUD-424-B "Applicant Assurance and Certifications"
- _____ HUD 424-CB" Grant Application Detailed Budget"
- _____ SF-LLL "Disclosure of Lobbying Activities"
- _____ HUD-27300 "America's Affordable Communities Initiative Removal of Regulatory Barriers" (if applicable)
- _____ HUD-2880 "Applicant/Recipient Disclosure Update Report"
- _____ HUD-2993 "Acknowledgement of Applicant Receipt"
- _____ HUD-2994 "Client Comments and Suggestions"
- _____ SF-424 Supplement "Survey on Ensuring Equal Opportunity for Applicants"
- _____ HUD 96010 "Logic Model"

**DEPARTMENT OF HOUSING
AND URBAN DEVELOPMENT**

**UNIVERSITIES AND COLLEGES
PROGRAMS**

**TRIBAL COLLEGES AND UNIVERSITIES
PROGRAM (TCUP)**

Billing Code 4210-32-C

Tribal Colleges and Universities Program Overview Information

A. *Federal Agency Name:* Department of Housing and Urban Development, Office of Policy Development and Research, Office of University Partnerships.

B. *Funding Opportunity Title:* Tribal Colleges and Universities Program (TCUP).

C. *Announcement Type:* Initial announcement.

D. *Funding Opportunity Numbers:* The **Federal Register** Number for this program is FR-4900-N-13. The OMB Approval Number for this program is 2528-0215.

E. *Catalog of Federal Domestic Assistance (CFDA) Number:* The CFDA Number for this program is 14.519.

F. *Dates:* The application due date shall be on or before June 25, 2004. Please see the General Section of the SuperNOFA for application submission, delivery, and timely requirements.

G. *Additional Overview Content Information:*

1. *Purpose of the Program:* The Tribal Colleges and Universities Program (TCUP) assists Tribal Colleges and Universities (TCU) to build, expand, renovate, and equip their own facilities.

2. *Award Information:* In Fiscal Year (FY) 2004, approximately \$2.98 million has been appropriated for this program by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3). The maximum amount a TCUP applicant can request for award is \$600,000 for a three-year (36 months) grant performance period.

3. *Eligible Applicants:* Tribal Colleges and Universities that meet the definition of a TCU established in Title III of the 1998 Amendments to the Higher Education Act of 1965 (Pub. L. 105-244, approved October 7, 1998) are eligible to apply for funding under this program. Institutions must be accredited or provide a statement in their application to verify that the institution is a candidate for accreditation by a regional institutional accrediting association recognized by the U.S. Department of Education.

Full Text of Announcement

I. Funding Opportunity Description

The purpose of this program is to assist Tribal Colleges and Universities (TCU) to build, expand, renovate, and equip their own facilities. Listed below are major modifications from the FY2003 program-funding announcement:

1. This program has a separate NOFA and is no longer a part of the combined

Office of Universities Partnerships Program NOFA.

2. All applications must be mailed to: University Partnerships Clearinghouse; c/o Danya International; 8737 Colesville Road, Suite 1200; Silver Spring, MD 20910.

3. Points will no longer be assigned to the budget. However, a budget narrative must be submitted that addresses the total dollar amount reflected on the HUD-424-CB for the entire three-year grant performance period.

4. The maximum amount an applicant can request for award has been increased from \$400,000 to \$600,000 for a three-year (36 months) grant performance period.

HUD's authority for making funding available under this NOFA is the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3). This program is being implemented through this NOFA and the policies governing its operation are contained herein.

II. Award Information

In Fiscal Year (FY) 2004, \$2.98 million has been appropriated for this program by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, January 23, 2004, 118 Stat. 3). The maximum amount a TCUP applicant can request for award is \$600,000 for a three-year (36 months) grant performance period.

III. Eligibility Information

A. Eligible Applicants

Tribal Colleges and Universities that meet the definition of a TCU established in Title III of the 1998 Amendments to the Higher Education Act of 1965 (Pub. L. 105-244, enacted October 7, 1998) are eligible to apply for funding under this program. Institutions must be accredited or provide a statement in their application that verifies the institution is a candidate for accreditation by a regional institutional accrediting association recognized by the U.S. Department of Education.

B. Cost Sharing or Matching:

None Required

C. Other

1. Eligible Activities

Eligible activities include building, expanding, renovating, and equipping facilities owned by the institution (a long-term lease for five years or more in duration is considered an acceptable form of ownership under this program). Buildings in which an institution undertakes activities that also serve the community are eligible; however, the

facilities must be predominantly for the use of the institution (e.g., students, faculty, and staff). Examples of eligible activities include, but are not limited to:

a. Building of a new gymnasium for students, but also offering some physical education classes or other activities in the evening to the larger community;

b. Rehabilitating a student union building that would also serve as a community meeting facility;

c. Equipping the university's computer lab, but involving the larger community in helping the institution identify workshops that would be of interest to the community; and

d. Developing a facility solely for the use of the institution (e.g., a dormitory, classrooms, or administration building).

2. Threshold Requirements Applicable to all Applicants

All applicants must comply with the threshold requirements as defined in the General Section of the SuperNOFA and the requirements listed below to be evaluated, rated, and ranked.

Applications that do not meet these requirements will be considered ineligible for funding and will be disqualified:

a. The applicant must meet the eligibility requirements as defined in Section III.A. Eligible Applicants.

b. The maximum amount a TCUP applicant can request for award is \$600,000.

c. Funds awarded under this program may not be used for public services, as defined in 24 CFR part 570, subpart C 570.201(e).

d. Only *one* application is eligible for funding from an institution or campus. However, an individual campus that is one of several campuses of the same institution may apply separately as long as the applicant's campus has a separate administrative and budget structure.

e. Institutions that received grants in FY2003 are not eligible to apply under this NOFA.

f. Applicants must receive a minimum score of 75 points to be considered for funding.

g. An applicant must have a DUNS number to receive HUD grant funds. (The General Section of the SuperNOFA provides information regarding the DUNS requirement).

3. Program Requirements

In addition to the program requirements listed in the General Section of the SuperNOFA, applicants must meet the following program requirements:

a. All funds awarded under this program must be spent during a three-

year (36 months) grant performance period.

b. While community-wide use of a facility (that is purchased, leased, or built) is permissible under this program, the facility must be predominantly for the use of the institution (*i.e.*, it must be used by the staff, faculty, and/or students at least 51 percent of the time).

c. Applicants that claim leveraging from *any source* (*e.g.*, tribal, Federal and/or State governments, Tribally Designated Housing Entities, foundations, etc.), including their own institution, must provide letters of firm commitment, memoranda of understanding, or agreements evidencing the extent and firmness of the commitment. These documents must be dated no earlier than the date of this published NOFA and follow the outline provided for this program in section V, Application Review Information, "Factor 4 Leveraging Resources" of this NOFA.

d. Each activity proposed for funding must meet one of the following Community Development Block Grant (CDBG) Program national objectives:

- (1) Benefit low- and moderate-income persons;
- (2) Aid in the prevention or elimination of slums or blight; or
- (3) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health and welfare of the community, and other financial resources are not available to meet such needs. Criteria for determining whether an activity addresses one or more objectives are provided at 24 CFR 570.208.

e. If a TCU is a part or instrumentality of a federally recognized tribe, the applicant must comply with the Indian Civil Rights Act (25 U.S.C. 1301 *et seq.*) and all other applicable civil rights statutes and authorities as set forth in 24 CFR 1000.12. If the TCU is not a part or instrumentality of a federally recognized tribe the applicant must comply with the Fair Housing Act (42 U.S.C. 3601-19) and implementing regulations at 24 CFR part 100 *et seq.*, Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-2000d-4) (Nondiscrimination in Federally Assisted Programs) and implementing regulations at 24 CFR part 1, and section 109 of Title One of the Housing and Community Development Act of 1974 (HCDA), as amended, with respect to nondiscrimination on the basis of age, sex, religion, or disability and implementing regulations at 24 CFR part 6.

f. Labor Standards. Institutions and their grantees, contractors and

subcontractors must comply with the labor standards (Davis-Bacon) requirements referenced in 24 CFR 570.603. However, in accordance with HCDA section 107(e)(2), the Secretary waives the provisions of HCDA section 110 with respect to the TCUP program for grants to a TCU that is part of a tribe, *i.e.*, a TCU that is legally a department or other part of a tribal government, but not a TCU that is established under tribal law as an entity separate from the tribal government. If a TCU is not part of a tribe, the labor standards of HCDA section 110, as referenced in 24 CFR 570.603, apply to activities under the grant to the TCU.

g. Environmental Requirements. Selection for award does not constitute approval of any proposed sites. Following selection for award, HUD will perform an environmental review of activities proposed for assistance in accordance with 24 CFR part 50. The results of the environmental review may require that proposed activities be modified or proposed sites be rejected. Applicants are particularly cautioned not to undertake or commit funds for acquisition or development of proposed properties prior to HUD approval of specific properties or areas. An application constitutes an assurance that the institution will assist HUD to comply with part 50; will supply HUD with all available and relevant information to perform an environmental review for each proposed property; will carry out mitigating measures required by HUD or select alternate property; and will not acquire, rehabilitate, convert, demolish, lease, repair, or construct property and not commit or expend HUD or local funds for these program activities with respect to any eligible property until HUD's written approval of the property is received. In supplying HUD with environmental information, applicants should use the same guidance as provided in the HUD Notice CPD-99-01 entitled "Field Environmental Review Processing for HUD Colonias Initiative (HCI) Grants" issued January 27, 1999.

The General Section of the SuperNOFA provides further discussion of the environmental requirements. Further information and assistance on HUD's environmental requirements is available at: <http://www.hud.gov/offices/cpd/energyenviro/environm/index.cfm>.

h. Site Control. Where grant funds will be used for acquisition, rehabilitation, or new construction, an applicant must demonstrate site control. If the recipient cannot demonstrate control of a suitable site within one year after initial notification of award of

assistance, HUD may recapture or deobligate any remaining grant funds.

IV. Application and Submission Information

A. Addresses to Request Application Package

1. Applicants may request general information, copies of the General Section and Program Sections of the SuperNOFA from the NOFA Information Center (800-HUD-8929 or 800-HUD-2209 (TTY)) between the hours of 9 a.m. and 8 p.m. (eastern time) Monday through Friday, except on Federal holidays. When requesting information, please refer to the Tribal Colleges and Universities Program. Be sure to provide your name, address (including zip code), and telephone number (including area code). To ensure sufficient time to prepare an application, requests for copies of this NOFA can be made immediately following publication of the SuperNOFA. The NOFA Information Center opens for business simultaneously with the publication of HUD's 2004 NOFA. Applicants can also obtain information on the SuperNOFA and download application information for the SuperNOFA through the HUD Web site: <http://www.hud.gov>.

B. Content and Form of Application Submission

1. A complete application package must include an original signed application, three copies, and one computer disk of the application (in Word 6.0 or higher), and items listed below. (The computer disk should include the narrative portion of the application and all required forms. Forms may be downloaded from <http://www.hud.gov>.) In order to recycle paper, applications must not be submitted in bound form; binder clips or loose-leaf binders are acceptable. Please do not use colored paper. Applications must be submitted on 8½ by 11-inch paper, double-spaced on one side of the paper, with one-inch margins (from the top, bottom, left and right) and printed in a standard Times New Roman 12-point font. Each page must be numbered and include the applicant's name. Each section must be tabbed sequentially. The application narrative, tables, and maps must not exceed 75 pages (excluding forms, budget narrative, assurances, commitment letters, memoranda of understanding, agreements, and abstract). The double-spacing requirement applies to the application narrative (excluding the abstract, tables, maps, budget narrative, commitment letters, memoranda of

understanding, and agreements). Please note that although submitting pages in excess of the page limit will not disqualify an application, HUD will not consider the information on any excess page. This may result in a lower score or failure to meet a threshold requirement. Except where a particular form may direct otherwise, all forms included in an application, as well as the transmittal letter, must be signed by the Chief Executive Officer (this is generally the President or Provost) or an official authorized legally to make a commitment on behalf of the institution. If a designee signs, the application must contain a copy of the official designation of signatory authority.

Please include in your application each item in the order listed below:

1. *SF-424, Application for Federal Assistance*. Instructions for completing this form are found on the back of the first page of the form. Please remember the following:
 - a. The full grant amount (entire three-years) should be entered, not the amount for just one year;
 - b. Include the name, title, address, telephone number, facsimile number, and email address of the designated contact. This is the person who will receive the reviewer comments; therefore, please ensure the accuracy of the information;
 - c. The Employer Identification/Tax ID number;
 - d. The DUNS Number;
 - e. The Catalog of Federal Domestic Assistance Number for this program is 14.519;
 - f. The project's proposed start and completion date. For the purpose of this application the program start date should be October 1, 2004; and
 - g. The signature of an authorized official (an individual who has the authority to make a binding commitment on behalf of the institution).

2. *Transmittal Letter*. The letter should contain a statement that the institution is an eligible applicant because it is a two- or four-year fully accredited institution. This letter should state the name of the accrediting agency, and that the accrediting agency is recognized by the U.S. Department of Education. Applicants who have applied for accreditation by a regional instructional accrediting association recognized by the U.S. Department of Education must also state the name of the accrediting agency. Applicants may also use the transmittal letter as one way to demonstrate the President's commitment to the institutionalization of the program. The Chief Executive Officer (usually the President or

Provost) of the institution must sign this letter. If the Chief Executive Officer has delegated this responsibility to another official, that person may sign, but a copy of the delegation of authority must be included or clearly stated in the letter. Applicants must also indicate whether their institution is a department or agency of a tribal government and is thus claiming exemption from Davis-Bacon labor standards and the non-discrimination provision of section 109 of the Housing and Community Development Act of 1974.

3. *Application Checklist*. Applicants must include the completed checklist in their application. On the checklist, applicants must indicate the page number where each of the items can be found in the application (see Appendix A).

4. *Abstract*. Applicants must include no more than a two-page summary of the proposed project. Please include the following:
 - a. A clear description of the proposed project activities, the target population that will be assisted, and the impact this project will have on the institution;
 - b. The designated contact person, including phone number, facsimile number, and email address (This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information);
 - c. University's name, mailing address, telephone number, facsimile number and email address; and;
 - d. The principal investigator, if different from the designated contact person for the project, including phone number, facsimile number, and e-mail address.

5. *Narrative statement addressing the Factors for Award*. HUD will use the narrative response to the "Factors for Award" to evaluate, rate, and rank applications. The statement and work plan are the main sources of information. Applicants are advised to review each factor carefully for program specific requirements. The response to each factor should be concise and contain only information relevant to the factor, but detailed enough to address the factor fully. Please do not repeat material in response to the five factors; instead focus on how well the proposal responds to each of the factors. In factors where there are subfactors, each subfactor must be presented separately, with the short title of the subfactor presented. Make sure to address each subfactor and provide sufficient information about every element of the subfactor.

6. *Budget*. The budget submission must be placed behind the narrative

statement addressing the "Factors for Award" and include the following form:

- a. HUD-424-CB, "Grant Application Detailed Budget." This budget form shows the total budget by year and by line item for the program activities to be carried out with the proposed HUD grant. Each year of the program should be presented separately. Applicants must also submit this form to reflect the total cost for the entire grant performance period (Grand Total).

Make sure that the amount shown on the SF-424, HUD-424-CB, and all other required program forms is consistent and the totals are correct. Remember to check the addition in totaling the categories on the HUD 424-CB form so that all items are included in the total. All forms must be completed in full. If an application is selected for award, the applicant may be required to provide greater specificity to the budget during grant agreement negotiations.

- b. *Budget Narrative*. A narrative must be submitted that explains how the applicant arrived at the cost estimates, for any line item over \$5,000. For example, an applicant proposes to construct an addition to an existing building, which will cost approximately \$200,000. The following cost estimate reflects this total: Foundation cost \$75,000, electrical work \$40,000, plumbing work \$40,000, interior finishing work \$35,000 and landscaping \$10,000. The proposed cost estimates should be reasonable for the work to be performed and consistent with rates established for the level of expertise required to perform the work proposed in the geographical area. When necessary, quotes from various vendors or historical data should be used and included. All direct labor or salaries must be supported with mandated city/state pay scales, Davis-Bacon wage rates, or other documentation. When an applicant proposes to use a consultant, the applicant must indicate whether there is a formal agreement or written procurement policy. For each consultant, please provide the name, if known, hourly or daily fee, and the estimated time on the project. Applicants must submit a cost estimate from a qualified firm (e.g., Architectural or Engineering firm) vendor and/or qualified individual (e.g., independent architect) other than the institution for projects that involve rehabilitation of residential, commercial and/or industrial structures; and/or acquisition, construction, or installation of public facilities and improvements. Such an entity must be involved in the business of housing rehabilitation, construction, and/or management. Equipment and contracts cannot be presented as a total

estimated figure. For equipment, applicants must provide a list by type and cost for each item. Applicants using contracts must provide an individual description and cost estimate for each contract.

c. *Indirect costs.* Indirect costs, if applicable, are allowable based on an established approved indirect cost rate. Applicants should include a copy of their indirect cost rate agreement with their application. Applicants who are selected for funding that do not have an approved indirect cost rate agreement (established by the cognizant Federal agency, Certified Public Account, or auditor) will be required to establish a rate. In such cases, HUD will issue an award with a provisional rate and enter into an agreement to have one established.

d. *Audits.* Applicants must ensure that their most current A-133 audit is on file at the Federal Audit Clearinghouse. Grantees that expend \$500,000 or more in Federal financial assistance in a single year (this can be program year or fiscal year) must be audited in accordance with the OMB requirements as established in 24 CFR parts 84 and 85. Additional information regarding this requirement can be accessed at the following Web site <http://harvester.census.gov/sac>.

7. *Appendix.* Applicants must place the letters of commitment, memoranda of understanding, or agreements for funds/resources in response to Factor 4 in this section. An applicant may not submit general support letters or resumes or other back-up materials (unless an applicant is willing to have the latter count toward the page limit requirement).

C. Submission Dates and Times

A complete application package is due on or before June 25, 2004. Please see the General Section of the SuperNOFA for application submission, delivery, and timely receipt requirements.

D. Intergovernmental Review

This program is excluded for an Intergovernmental Review.

E. Funding Restrictions

1. Ineligible activities for funding under this program include, but are not limited to the following:

- a. Renovation of a facility in which the facility is not used at least 51 percent of the time by the institution;
- b. Rental space to another entity that operates a small business assistance center; and
- c. Building of a new gymnasium where the activities are for non-

students, or the activities are primarily run by an outside entity.

2. Applicants can use up to 20 percent of the grant for payments of reasonable grant administrative costs related to planning and execution of the project (e.g., preparation/submission of HUD reports). A detailed explanation of these costs is provided in the OMB circulars that can be accessed at the White House Web site at: <http://www.whitehouse.gov/omb/circulars/index.html>.

F. Other Submission Requirements

1. Complete Application Package

This package must be submitted to the following address: University Partnerships Clearinghouse; c/o Danya International, 8737 Colesville Road, Suite 1200, Silver Spring, MD 20910. When submitting an application package, include the following information on the outside of the envelope:

- a. Office of University Partnerships;
- b. Tribal Colleges and Universities Program; and
- c. Applicant's name and mailing address (including ZIP code).

Applicants must refer to the General Section of the SuperNOFA for detailed requirements governing application submission and receipt.

2. Forms, Certifications, and Assurances

The following certifications and assurances must be included in *all* application packages. These forms must be signed by the Chief Executive Officer (or official designee) of the institution and can be downloaded from <http://www.hud.gov>.

- a. Application for Federal Assistance (SF-424).
- b. Applicant Assurances and Certifications (HUD-424-B).
- c. Disclosure of Lobbying Activities (SF-LLL).
- d. Applicant/Recipient Disclosure/Update Report (HUD-2880).
- e. Grant Application Detailed Budget (HUD-424-CB).
- f. Program Logic Model (HUD-96010).
- g. Survey on Equal Opportunity (HUD-32004).
- h. Acknowledgment of Receipt of Application (HUD-2993). To confirm that HUD has received the application package, please complete this form. Applicants are not required to include this form, but it is recommended that an applicant do so.
- i. Client Comments and Suggestions (HUD-2994). This form is included to solicit information from the most valuable source, the applicant. The changes that we have instituted this year are designed to make things easier

for the applicant. If applicants complete and submit this form, it will help us to assess whether the changes have had the intended results. It will also guide us in our continuing efforts to improve the competitive grant process. Applicants are not required to complete this form.

V. Application Review Information

A. Criteria

1. *Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (25 Points).* This factor addresses the extent to which the applicant has the organizational resources necessary to successfully implement the proposed activities in a timely manner.

a. *Knowledge and Experience of the Proposed Staff (15 Points).* In rating this subfactor, HUD will consider the extent to which the applicant demonstrates the experience and knowledge of the overall project director and staff, including the day-to-day program manager, consultants, (including technical assistance providers) and contractors in planning and managing the kind of projects for which funding is being requested. Experience will be judged in terms of recent and relevant knowledge and skills of the staff to undertake eligible program activities. HUD will consider experience within the last five years to be recent and experience pertaining to specific activities and producing specific accomplishments to be relevant.

b. *Knowledge and Experience of the Institution (10 Points).* In rating this subfactor, HUD will consider the knowledge and experience of the institution in managing and overseeing a similar project. Experience will be judged in terms of recent and successful completion of such project. HUD will consider experience within the last five years to be recent.

2. *Rating Factor 2: Need/Extent of the Problem (10 Points).* This factor addresses the extent to which there is a need for funding the proposed project activities and an indication of the importance of meeting the need(s). The need described must be relevant to activities for which funds are being requested. The proposal will be rated on the extent to which the level of need for the proposed project activities and the importance of meeting the need(s) are documented. Applicants must use statistics and analyses contained in at least one or more current data sources that are sound and reliable. The data provided must be current and specific to the area where the proposed project activities will be carried out. Reliable sources of data may include information

that describe the need, such as a building needs to be constructed because it is 50 years old and is deteriorating; a new computer lab has been built, but the computers are obsolete; a library has been expanded, but the books are outdated, etc. In rating this factor, HUD will consider data collected within the last five years to be current.

3. Rating Factor 3: Soundness of Approach (45 Points). This factor addresses the quality and effectiveness of the proposed work plan. There must be a clear relationship between the proposed activities and the need(s) identified in Factor 2 for an applicant to receive points for this factor.

a. Quality of Work Plan (35 Points).
(1) Specific Services and/or Activities. The work plan must describe all proposed activities and major tasks required to implement the proposed project. HUD will consider the probability of success of the program, the significance of the tasks identified, the measurable objectives, how realistic are the proposed time frames, and who will be responsible for completing each proposed activity. Specifically, HUD will examine the proposed activities and determine to what extent the project activities are measurable (e.g., the number of classrooms added, the increase in enrollment), result in improvement to the institution as a result of the project activities (e.g., fifty more students will be receiving computer literacy training, etc.) and how well it is demonstrated that these objectives will be achieved/measured by the proposed management plan and team.

(2) Describe clearly how the proposed project activities will address the following:

(a) Alleviate and/or fulfill the needs identified in Factor 2; and

(b) Relate to and not duplicate other activities in the target area.

b. (2 Points) Community Involvement. HUD will consider the extent to which the applicant has involved the community in the proposed project.

c. (5 Points) Involvement of the Faculty and Students. The applicant must describe the extent to which it proposes to integrate the institution's students and faculty into proposed project activities.

d. (3 Points) HUD Policy Priorities. HUD encourages applicants to undertake specific activities that will assist the Department in implementing its policy priorities and help the Department achieve its goals and objectives in FY2005, when the majority of grant recipients will be reporting programmatic results and achievement.

In addressing this factor, HUD will evaluate the extent to which a program will further and support HUD priorities. The quality of the responses provided to one or more of HUD's priorities will determine the score an applicant can receive. Applicants must describe how each policy priority will be addressed. Applicants that just list a priority will receive no points. Each policy priority addressed has a point value of one point. The total number of points available to applicants that address policy priorities is 3. It is up to the applicant to determine which of the policy priorities they elect to address to receive the available 3 points.

Applicants that address more than three policy priorities will not receive additional points. For the full list and explanation of each policy priority, please refer to the General Section of this SuperNOFA.

4. Rating Factor 4: Leveraging Resources (10 Points). This factor addresses the ability of the applicant to secure resources that can be combined with HUD's grant funds to achieve the project's purpose.

In evaluating this factor, HUD will consider the extent to which the applicant established partnerships with other entities to secure additional resources to increase the effectiveness of the proposed project activities. Resources may include funding or in-kind contributions, such as services or equipment, allocated to the purpose(s) of the grant. Resources may be provided by governmental entities (e.g., tribal, Federal, and/or State governments), public or private nonprofit organizations, for-profit private organizations, or other entities. Overhead and other institutional costs (e.g., salaries, indirect cost) that the institution has waived may be counted.

Examples of potential sources for outside assistance include:

- Tribal, Federal, State, and local governments.
- Tribally Designated Housing Entities.
- Local or national nonprofit organizations.
- Banks and/or private businesses.
- Foundations.
- Faith-based and other community-based organizations.

For each cash or in-kind contribution, a letter of commitment, memorandum of understanding, or agreement must be provided that shows the extent and firmness of the commitments of leveraged funds (including any commitment of resources from the applicant's own institution) in order for these resources to count in determining

points under this factor. Resources will not be counted for which there is no commitment letter, memorandum of understanding or agreement, nor quantified level of commitment. Letters, memoranda of understanding, or agreements must be submitted from the provider on the provider's letterhead and be included with the application package (applicants must place all letters, memoranda of understanding, or agreements in the Appendices). The date of the letter, memorandum of understanding, or agreement from the CEO of the provider's organization must be dated no earlier than the date of this published SuperNOFA. Applicants that do not include evidence of leveraging will receive zero (0) points for this Factor.

a. A firm commitment letter, memorandum of understanding or agreement must address the following:

(1) The cash amount contributed or dollar value of the in-kind goods and/or services committed;

(2) A specific description of how each contribution is to be used;

(3) Any terms or conditions affecting the commitment, other than receipt of a HUD grant; and

(4) The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services.

Please remember that only items eligible for funding under this program can be counted.

5. Rating Factor 5: Achieving Results and Program Evaluation (10 Points). This factor reflects HUD's goal to embrace high standards of management and accountability. The factor measures the applicant's commitment to assess their performance to achieve the project's proposed objectives and goals. Applicants are required to develop an effective, quantifiable, outcome-oriented evaluation plan for measuring performance and determining that objectives and goals have been achieved.

"Outcomes" are benefits accruing to institutions of higher education during or after participation in the TCUP program. Applicants must clearly identify the outcomes to be measured and achieved. Examples of outcomes include an increased number of campus facilities (e.g., newly built or renovated), an increased number of classroom space available, and an increased student enrollment and graduation rate. In addition, applicants must establish interim benchmarks and outputs that lead to the ultimate achievement of outcomes.

"Outputs" are the direct products of the project's activities. Examples of

outputs are the number of new facilities renovated, or the number of new dormitories built. Outputs should produce outcomes for the project. At a minimum, an applicant must address the following activities in the evaluation plan:

- a. Short and long term objectives to be achieved;
- b. Measurable impacts the grant will have on the university or the target population; This information must be placed under this section on a HUD-96010, Program Outcome Logic Model form. (Applicants can use as many copies of this form as required. It will not be included in the page count requirement). A narrative is not required for this factor; however, if a narrative is provided, those pages will be included in the page count. Additional information on this form and how to use it can be found in the General Section of the SuperNOFA.

B. Review and Selection Process

1. Application Selection Process

Two types of reviews will be conducted:

- a. A threshold review to determine an applicant's basic eligibility; and
- b. A technical review for all applications that pass the threshold review to rate and rank the application based on the "Factors for Award" listed in Section V.A. above. Only those applications that pass the threshold review will receive a technical review and be rated and ranked.

2. Rating Panels

To review and rate applications, HUD may establish panels that may include experts or consultants not currently employed by HUD. These individuals may be included to obtain certain expertise.

3. Ranking

HUD will fund applications in rank order, until all available program funds are awarded. In order to be funded, an applicant must receive a minimum score of 75 points out of a possible 100 points for Factors 1 through 5. The RC/EZ/EC bonus points described in the General Section of the SuperNOFA do not apply to this NOFA. If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 1, Capacity of the Applicant and Relevant Organizational Experience, shall be selected. HUD reserves the right to make selections out of rank order to provide for geographic

distribution of grantees. HUD also reserves the right to reduce the amount of funding requested in order to fund as many highly ranked applications as possible. Additionally, if funds remain after funding the highest ranked applications, HUD may fund part of the next highest-ranking application. If an applicant turns down the award offer, HUD will make the same determination for the next highest-ranking application. If funds remain after all selections have been made, the remaining funds will be carried over to the next funding cycle's competition.

4. Corrections to Deficient Applications

The General Section of the SuperNOFA provides the procedures for corrections to deficient applications.

C. Anticipated Announcement and Award Dates

Announcements of awards are anticipated on or before September 30, 2004.

VI. Award Administration Information

A. Award Notice:

After all selections have been made, HUD will notify all winning applications in writing. HUD may require winning applicants to participate in additional negotiations before receiving an official award. For further discussion on this matter, please refer to the General Section of the SuperNOFA.

B. Administrative and National Policy Requirements

The provisions of the HUD Reform Act of 1989 that apply to this NOFA are explained in the General Section of this SuperNOFA.

1. Debriefing

The General Section of the SuperNOFA provides the procedures for requesting a debriefing. All requests for debriefings must be made in writing and submitted to: Armand Carriere; Office of University Partnerships; Robert C. Weaver Federal Building; 451 Seventh Street, SW., Room 8106; Washington, DC 20410-6000. Applicants may also write to Mr. Carriere via e-mail at Armand_W._Carriere@hud.gov.

2. Administrative

Grants awarded under this NOFA will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations), A-21 (Cost Principles for Education Institutions) and A-133 (Audits of States, Local Governments, and Non-Profit Organizations).

Applicants can access the OMB circulars at the White House website at <http://www.whitehouse.gov/omb/circulars/index.html>.

3. OMB Circulars and Governmentwide Regulations Applicable to Financial Assistance Programs

The General Section of the SuperNOFA provides discussion of OMB circulars and governmentwide regulations.

4. Conflicts of Interest

See the General Section of the SuperNOFA for further discussion.

5. Executive Order 13202, Preservation of Open Competition and Government Neutrality Toward Government Contractors' Labor Relations of Federal and Federally Funded Construction Projects:

See the General Section of the SuperNOFA for further discussion.

C. Reporting

All grant recipients under this NOFA are required to submit quarterly progress reports. The progress reports shall consist of two components, a narrative that must reflect the activities undertaken during the reporting period and a financial report that reflects costs incurred during the reporting period as well as a cumulative summary.

For each reporting period, as part of the required report to HUD, grant recipients must include a completed Logic Model (form HUD 96010), which identifies output and outcome achievements.

VII. Agency Contacts

Applicants may contact Sherone Ivey at (202) 708-3061, extension 4200, or Susan Brunson at (202) 708-3061, extension 3852. Persons with speech or hearing impairments may call the Federal Information Relay Service TTY at (800) 877-8339. Except for the "800" number, these numbers are not toll-free. Applicants may also reach Ms. Ivey via e-mail at Sherone_E_Ivey@hud.gov, and Ms. Brunson at Susan_S_Brunson@hud.gov.

VIII. Other

Paperwork Reduction Act: The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2528-0215. In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection

of information unless the collection displays a currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 68 hours per annum per respondent for the application and grant

administration. This includes the time for collecting, reviewing, and reporting the data for the application, quarterly and final report. The information will be used for grantee selection and monitoring the administration of funds.

Response to this request for information is required in order to receive the benefits to be derived.

BILLING CODE 4210-32-P

Attachment A--Application Checklist**Application Checklist**

This checklist identifies application submission requirements. Applicants are requested to use this checklist when preparing an application to ensure submission of all required elements. Please present the information in the application in the order outlined below and indicate on each line the page number where each of the items can be found in the application. Standard Forms and required certification are found in the **General Section** of this SuperNOFA and can be downloaded from HUD's website, www.hud.gov.

I. PART A

- _____ SF-424 "Application For Federal Assistance"
- _____ Transmittal Letter
- _____ Application Checklist
- _____ Abstract (must include a two-page summary of the proposed project)
- _____ Narrative Statement addressing the Factors for Award. The narrative must not exceed 75 pages, (excluding forms, abstracts, tables, maps, budget narrative, assurances, commitment letters, memoranda of understanding, agreements) double-spaced on one side, with one-inch margins (from the top, bottom, left and right) printed in standard New Times Roman 12-point font).
- _____ HUD-96010 "Logic Model"
- _____ Budget
 - _____ HUD 424-CB" Grant Application Detailed Budget"
 - _____ Budget Narrative (No form provided and must be submitted for the total three-year grant period)
 - _____ Indirect Cost Rate Agreement
- _____ Appendix (letters of commitment, memoranda of understanding, or agreements)
- _____ Computer disk

II. PART B (All Required Forms)

The following required certifications and assurance can be downloaded from www.hud.gov.

- _____ SF-424 "Application For Federal Assistance"
- _____ HUD 424-CB " Grant Application Detailed Budget"
- _____ SF-LLL "Disclosure of Lobbying Activities"
- _____ HUD-2880 "Applicant/Recipient Disclosure Update Report"
- _____ HUD-2993 "Acknowledgement of Applicant Receipt"
- _____ HUD-2994 "Client Comments and Suggestions"
- _____ SF-424 Supplement "Survey on Ensuring Equal Opportunity for Applicants"
- _____ HUD 96010 "Logic Model"

The first round of the
funding announcement.

The Community Outreach Partnership Centers (COPC) Program

Overview Information

A. *Federal Agency Name:* Department of Housing and Urban Development, Office of Policy Development and Research, Office of University Partnerships.

B. *Funding Opportunity Title:* Community Outreach Partnership Centers (COPC) Program.

C. *Announcement Type:* Initial announcement.

D. *Funding Opportunity Numbers:* The Federal Register Number is FR-4900-N-26. The OMB Approval Number for this program is 2506-0180.

E. *Catalog of Federal Domestic Assistance (CFDA) Number:* The CFDA Number for this program is 14.511.

F. *Dates:* The application due date shall be on or before July 9, 2004. Please see the General Section of the SuperNOFA for application submission, delivery and timely receipt requirements.

G. Additional Overview Content Information:

1. *Purpose of the Program.* The Community Outreach Partnership Centers (COPC) Program provides funds to two-year and four-year colleges and universities to establish and operate COPCs to address the problems of urban areas.

2. *Award Information.* In Fiscal Year (FY) 2004, approximately \$6.9 million has been appropriated for this program by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3), plus \$7,113 in previously unexpended funds. HUD will award two kinds of grants under this program, New Grants and New Directions Grants.

a. New Grants will be awarded to applicants who have never received a COPC grant to undertake eligible work. The maximum amount an applicant can request for award is \$400,000 for a three-year (36 months) grant performance period.

b. New Directions Grants will be awarded to applicants who have previously received a COPC grant to undertake new directions in their activities. The maximum amount an applicant can request for award is \$200,000 for a two-year (24 months) grant performance period.

HUD will use up to \$5.5 million to fund approximately 13 New Grants and up to \$1.4 million to fund approximately seven (7) New Directions Grants.

3. *Eligible Applicants:* Public or private nonprofit institutions of higher education granting two- or four-year

degrees that are accredited by a national or regional accrediting agency recognized by the U.S. Department of Education are eligible to apply. Consortia of eligible institutions may also apply for funding under this program, as long as one institution is designated the lead applicant (Note: Institutions that participated in a COPC grant as a member of a consortium are eligible to apply for a New Grant if they received 25 percent or less of the funding from the earlier grant). HUD intends to fund at least two eligible COPC applications (applications that receive a minimum score of 75 points) that serve Colonias, (as defined in the General Section of the SuperNOFA). While it is not necessary for the institution to be located in a Colonia, all program activities must be directed to the Colonia and its residents. If less than two fundable applications are eligible for award these funds will be used to award additional COPC grants.

Full Text of Announcement

I. Funding Opportunity Description

The main purpose of the Community Outreach Partnership Centers (COPC) program is to assist in establishing or carrying out outreach and applied research activities that address problems of urban areas. The program also seeks to encourage structural change, both within an institution of higher education and in the way the institution relates to its neighbors.

A. Funding under this program shall be used to establish and operate local Community Outreach Partnership Centers (COPCs). The five key concepts that a COPC Program should include are:

1. Outreach and technical assistance
2. Empowerment efforts that engage community-based organizations and residents as partners with the institution throughout the life of the project and beyond;
3. Applied research related to the project's outreach activities (Note: Applicants are not required to undertake any research as part of their project and may apply for a project that is totally outreach focused);
4. Assistance to target communities primarily from the faculty, students, and to a limited extent by neighborhood residents and community-based organizations funded by the university; and
5. Support from the university's senior officials to make the program part of the institution's broader effort to meet its urban mission.

B. Listed below are major modifications from the FY2003 program funding announcement:

1. This program has a separate NOFA and is no longer a part of the combined Office of Universities Partnerships Program NOFA;

2. All applications must be mailed to: University Partnerships Clearinghouse, c/o Danya International, 8737 Colesville Road, Suite 1200, Silver Spring, MD 20910;

3. Points will no longer be assigned to the budget. However, a budget narrative must be submitted that addresses the total dollar amount reflected on the HUD-424-CB for the entire grant performance period (three years for New Grant applicants and two years for New Directions grant applicants);

4. New Directions applicants can now request \$200,000 for a two-year (24 months) grant performance period; and

5. New Directions Grant applicants must have drawn down at least 75 percent of its grant funds from any previous COPC award three weeks prior (not two weeks as stated previously) to the program's application due date to be eligible to apply for and receive a New Directions Grant. It is the applicant's responsibility to make sure this requirement is met.

C. The COPC program is authorized under the Community Outreach Partnership Act of 1992 (42 U.S.C. 5307 note; the "COPC Act"). The COPC Act is contained in section 851 of the Housing and Community Development Act of 1992 (Pub. L. 102-550, approved October 28, 1992) (HCD Act of 1992). Section 801(c) of the HCD Act of 1992 authorized \$7.5 million for each year of the 5-year demonstration to create Community Outreach Partnership Centers as authorized in the COPC Act. The Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3) continues this program beyond the initial five-year demonstration by providing funding for Community Outreach Partnership Centers for FY2004. This program is being implemented through this NOFA and the policies governing its operation are contained herein.

II. Award Information

In FY2004, approximately \$6.9 million has been appropriated for this program by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3), plus \$7,113 in previously unexpended funds. HUD will award two kinds of grants under this program, New Grants and New Directions Grants.

a. New Grants will be awarded to applicants who have never received a COPC grant to undertake eligible work. The maximum amount an applicant can request for award is \$400,000 for a

three-year (36 months) grant performance period.

b. New Directions Grants will be awarded to applicants who have previously received a COPC grant to undertake new directions in their activities. The maximum amount an applicant can request for award is \$200,000 for a two-year (24 months) grant performance period.

HUD will use up to \$5.5 million to fund approximately 13 New Grants and up to \$1.4 million to fund approximately seven (7) New Directions Grants.

III. Eligibility Information

A. Eligible Applicants

Public or private nonprofit institutions of higher education granting two- or four-year degrees that are accredited by a national or regional accrediting agency recognized by the U.S. Department of Education. Consortia of eligible institutions may also apply, as long as one institution is designated the lead applicant. (Note: Institutions that participated in a COPC grant as a member of a consortium are eligible to apply for a New Grant if they received 25 percent or less of the earlier grant funds.) HUD intends to fund at least two eligible COPC applications (applications that receive a minimum score of 75 points) that serve Colonias (as defined in the General Section of this SuperNOFA). While it is not necessary for the institution to be located in a Colonia, all program activities must be directed to the Colonia and its residents. If less than two fundable applications are eligible for award these funds will be used to award additional COPC grants.

B. Cost Sharing or Matching

Applicants are required to meet the following match requirements:

1. New Grant Applicants Match Requirements

a. *Research Activities.* 50 percent of the total project costs of establishing and operating research activities.

b. *Outreach Activities.* 25 percent of the total project costs of establishing and operating outreach activities.

2. New Directions Grant Applicants Match Requirements

a. *Research Activities.* 60 percent of the total project costs of establishing and operating research activities.

b. *Outreach Activities.* 35 percent of the total project costs of establishing and operating outreach activities.

For each match, cash or in-kind contribution to the program, applicants must submit a signed letter of

commitment (*see* section V, Application Review Information, Factor 4: Leveraging Resources).

Applicants may not count as match any costs that would be ineligible for funding under the program (e.g., housing rehabilitation). In previous competitions, some applicants incorrectly based their match calculations on the federal grant amount only. An applicant's match is evaluated as a percentage of the total cost of establishing and operating research and outreach activities, not just the Federal grant amount.

Assume that the total project cost for a New COPC Grant was \$500,000, with \$125,000 for research and \$375,000 for outreach. Note that this project meets the requirement that no more than one-quarter of the total project costs be allocated for research as defined in section III, Eligibility Information, Other. The total amount of the required match would be \$156,250. The research match would be \$62,500 ($\$125,000 \times 50$ percent) and the outreach match would be \$93,750 ($\$375,000 \times 25$ percent). The Federal grant requested would be \$343,750 ($\$500,000$ minus the match of \$156,250). In calculating the match, administrative costs should be applied to the appropriate attributable outreach or research component.

C. Other

1. Eligible Activities

COPC Programs may combine outreach activities with research (if applicable) and work with communities and local governments to address the multidimensional problems that beset urban areas. Examples of urban problems include, but are not limited to housing, economic development, neighborhood revitalization, health care, job training, education, crime prevention, planning, the environment, and community organizing.

a. Outreach, technical assistance, and information exchange activities must be designed to address specific urban problems in designated communities and neighborhoods served by the grant.

b. Research activities (if applicable, research activities are not required) must have a clear near-term potential and practical application for solving specific, significant urban problems in designated communities and neighborhoods, including evaluation of the effectiveness of the outreach activities and how they relate to HUD programs. Applicants must have the capacity to apply the research results directly to the proposed outreach activities outlined in the application's work plan. In addition, applicants must work with communities and local

institutions, including neighborhood groups, local governments, and other appropriate community stakeholders, in applying these results to real-life urban problems.

(1) Examples of outreach activities include, but are not limited to:

(a) Assistance to communities to improve consolidated housing and community development plans and eliminate impediments to the design and implementation of such plans;

(b) Innovative use of funds to provide direct technical expertise and assistance to local community groups, residents, and other appropriate community stakeholders to resolve local problems such as homelessness, housing discrimination, and impediments to fair housing choice;

(c) Technical assistance in business start-up activities for low- and moderate-income individuals and organizations, including business start-up training and technical expertise and assistance, mentor programs, assistance in developing small loan funds, business incubators, etc;

(d) Technical assistance to local public housing agencies on welfare-to-work initiatives and physical transformations of public or assisted housing, including development of accessible and visitable housing;

(e) Job training and other training projects, such as workshops, seminars, and one-on-one and on-the-job training; and

(f) Assistance to communities in eliminating or reducing excessive, unnecessary or duplicative regulations, processes or policies that restrict the development or rehabilitation of affordable housing (For further discussion of Regulatory Barriers see the General Section of this SuperNOFA).

c. Funds for faculty development, including paying for course time or summer support, to enable faculty members to work with the COPC.

d. Funds for stipends or salaries for students (but the program cannot cover tuition and fees) while students are working with the COPC.

e. Up to 20 percent of the grant for payments of reasonable grant administrative costs related to planning and execution of the project (e.g., preparation/submission of HUD reports). Detailed explanations of these costs are provided in the Office of Management and Budget (OMB) circulars that can be accessed at the White House Web site at: <http://www.whitehouse.gov/omb/circulars/index.html>.

f. Activities to carry out the "Program Requirements" as defined in this NOFA. These activities may include leases for

office space in which to house the Community Outreach Partnership Center, under the following conditions:

(1) The lease must be for existing facilities not requiring rehabilitation or construction;

(2) No repairs or renovations of the property may be undertaken with Federal funds; and

(3) Properties in the Coastal Barrier Resource System designated under the Coastal Barrier Resources Act (16 U.S.C. 3501) cannot be leased with Federal funds.

g. Components of the program may address metropolitan or regional strategies. Applicants must clearly demonstrate how:

(1) Strategies are directly related to what the targeted neighborhoods and neighborhood-based organizations have decided is needed; and

(2) Neighborhoods and neighborhood organizations are involved in both the development and implementation of the metropolitan or regional strategies.

2. Threshold Requirements Applicable to All Applicants

All applicants must comply with the threshold requirements as defined in the General Section of the SuperNOFA and the requirements listed below to be evaluated, rated, and ranked. Applications that do not meet these requirements will be considered ineligible for funding and will be disqualified: There will be two separate competitions, one for New Grants applicants and one for New Directions Grant applicants. For each type of grant applicants will be rated, ranked, and selected separately.

a. The applicant must meet the eligibility requirements as defined in section III A Eligible Applicants.

b. The maximum amount an applicant applying for a New Grant can request for award is \$400,000. The maximum amount an applicant applying for a New Directions Grant can request for award is \$200,000.

c. Applicants must meet the program's statutory match requirement (the requirement is defined in section III.B Cost Sharing or Matching).

d. New Grant applications must be multifaceted, address three or more urban problems, and propose at least one distinct activity to address each separate urban problem. Single purpose applications are not eligible.

e. New Directions Grant applications must address two urban problems and undertake at least one activity for each of these problems. Applicants must also demonstrate that the proposed activities either implement new eligible projects in the current target neighborhood(s) or

implement eligible projects in a new target neighborhood(s). Single purpose applications are not eligible.

f. New Directions Grant applicants must have drawn down at least 75 percent of the grant funds from any previous COPC award three weeks prior to the program's application due date to be eligible to apply for and receive a New Directions Grant. It is the applicant's responsibility to make sure that this requirement is met.

g. Applicants who were a member of a consortium and received more than 25 percent of the earlier funding are not eligible to apply for a New Grant. However applicants may submit an application for a New Directions Grant (Applicants may submit an application individually or as part of the old consortium).

h. Only one New Grant or New Directions application will be eligible for funding from an institution. However different campuses of the same university system are eligible to apply, even if one campus has already received COPC funding if they have an administrative and budgeting structure independent of other campuses in the system.

i. Applicants may be part of only one consortium or submit only one application, or all applications will be disqualified. HUD will hold the applicant responsible for ensuring that neither the applicant nor any part of their institution, including specific faculty, participates in more than one application.

j. Programs must operate in an urban area. The statute creating COPC is very specific that programs address the problems of urban areas. HUD uses the Census definition of an urban area: a single geographic place (e.g., a city, town, or village, but not a county) with a population of 2,500 or more. Applicants cannot meet this test by aggregating several places smaller than the population threshold in order to meet this requirement. (However, because of the size of the grant and the three-year performance period, HUD encourages applicants to target activities in a minimum number of definable neighborhoods or communities.)

k. In order to ensure that the primary focus of the proposed project is on outreach, there is a limit on the amount of money that can be budgeted for research costs for this program. No more than 25 percent of the total project costs (federal share plus match) can be spent on research activities. However, applicants are not required to undertake any research as part of their project and may apply for a project that is totally outreach focused.

l. Applicants must receive a minimum score of 75 points to be considered for funding.

m. An applicant must have a DUNS number to receive HUD grant funds. (The General Section of the SuperNOFA provides information regarding the DUNS requirement).

3. Program Requirements

In addition to the program requirements listed in the General Section of the SuperNOFA, applicants must meet the following program requirements:

a. All funds awarded under this program to New Grant applicants must be spent during a three-year (36 months) grant performance period. All funds awarded under this NOFA to New Directions grant applicants must be spent during a two-year (24 months) grant performance period.

b. Employ the outreach and research resources of the institution of higher education to solve specific urban problems identified by communities served by the Center;

c. Establish outreach activities in areas identified in the application as the communities to be served;

d. Establish a community advisory committee comprised of representatives of local institutions and residents of the communities to be served to assist in identifying local needs and advise on the development and implementation of strategies to address those issues;

e. Coordinate outreach activities in communities to be served by the Center;

f. Facilitate public service projects in the communities served by the Center;

g. Act as a regional or local clearinghouse for dissemination of information;

h. Develop instructional programs, convene conferences, and provide training for local community leaders, when appropriate;

i. Exchange information with other Centers. The clearinghouse function described in section III Eligibility Information, refers to a local or regional clearinghouse for dissemination of information and is separate and distinct from this function, which relate to the provision of information to the University Partnerships Clearinghouse, which is the national clearinghouse for the program; and

j. Grant funds will pay for activities conducted directly, rather than passing funds to other entities (in order for an application to be competitive, no more than 25 percent of the grant funds should be passed through to other entities).

IV. Application and Submission Information

A. Addresses To Request Application Package

Applicants may request general information, copies of the General Section and Program Sections of the SuperNOFA from the NOFA Information Center 800-HUD-8929 or 800-HUD-2209 (TTY) between the hours of 9 a.m. and 8 p.m. (eastern time) Monday through Friday, except on Federal holidays. When requesting information, please refer to the Community Outreach Partnership Centers Program. Be sure to provide your name, address (including ZIP code), and telephone number (including area code). To ensure sufficient time to prepare an application, requests for copies of the NOFA can be made immediately following publication of the SuperNOFA. The NOFA Information Center opens for business simultaneously with the publication of HUD's 2004 NOFA.

Applicants can also obtain information on the SuperNOFA and download applications through the HUD Web site, <http://www.hud.gov>.

B. Content and Form of Application Submission

A complete application package must include an original signed application, three copies, and one computer disk of the application (in Word 6.0 or higher) of the items listed below. (The computer disk must include the narrative portion of the application, and all required forms. Forms can be downloaded from the Web site, <http://www.hud.gov>.) In order to recycle paper, applications must not be submitted in bound form; binder clips or loose-leaf binders are acceptable. Please do not use colored paper. Applications must be submitted on 8½ by 11-inch paper, double-spaced on one side of the paper, with one-inch margins (from top, bottom, left and right) and printed in a standard Times New Roman 12-point font. Each page must include the applicant's name and be numbered. Each section must be tabbed sequentially. The application narrative, including tables, and maps must not exceed 75 pages (excluding forms, budget narrative, assurances, commitment letters, memoranda of understanding, agreements and abstract). The double-spacing requirement applies to the application narrative (excluding the abstract, tables, maps, budget narrative, commitment letters, memoranda of understanding, and agreements). Please note that although submitting pages in excess of the page limit will not disqualify an

application, HUD will not consider the information on any excess page. This may result in a lower score or failure to meet a threshold requirement. Except where a particular form may direct otherwise, all forms included in an application, as well as the transmittal letter, must be signed by the Chief Executive Officer (this is generally the President or Provost) or an official authorized legally to make a commitment on behalf of the institution. If a designee signs, the application must contain a copy of the official designation of signatory authority.

Please include in your application each item in the order listed below:

1. *SF-424, Application for Federal Assistance*. Instructions for completing this form are found on the back of the first page of the form. Please remember the following:

a. The full grant amount (New Grant applicants entire three-years and New Directions applicants entire two-years) should be entered, not the amount for just one year;

b. Include the name, title, address, telephone number, facsimile number, and email address of the designated contact. This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information;

c. The Employer Identification/Tax ID;

d. The DUNS Number;

e. The Catalog of Federal Domestic Assistance Number for this program is 14.511;

f. The project's proposed start date and completion date. For the purpose of this application, the program start date should be October 1, 2004; and

g. The signature of an authorized official (an individual who has the authority to make a binding commitment on behalf of the institution).

2. *Transmittal Letter*. The letter should contain a statement that the institution is an eligible applicant because it is a two- or four-year fully accredited institution. This letter should state the name of the accrediting agency, and that the accrediting agency is recognized by the U.S. Department of Education. Applicants may also use the transmittal letter as one way to demonstrate the President's commitment to the institutionalization of the program. The *Chief Executive Officer* (usually the President or Provost) of the institution must sign this letter. If the Chief Executive Officer has delegated this responsibility to another official, that person may sign, but a copy of the delegation must be included or clearly stated in the letter.

3. *Application Checklist*. Applicants must include the completed checklist in their application. On the checklist, applicants must indicate the page number where each of the items can be found in the application (see Appendix A).

4. *Abstract*. Applicants must include no more than a two-page summary of the proposed project. Please include the following:

a. A clear description of the proposed project activities, the target population that will be assisted, and the impact this project will have on the institution;

b. The designated contact person, including phone number, facsimile number, and email address (this is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information);

c. University's name, department, mailing address, telephone number, facsimile number, and email address; and

d. The principal investigator, if different from the designated contact person, for the project, including phone number, facsimile number, and email address.

5. *Narrative statement addressing the Factors for Award*. HUD will use the narrative response to the "Factors for Award" to evaluate, rate, and rank applications. The statement and work plan are the main source of information. Applicants are advised to review each factor carefully for program specific requirements. The response to each factor should be concise and contain only information relevant to the factor, but detailed enough to address each factor fully. Please do not repeat material in response to the five factors; instead, focus on how well the proposal responds to each of the factors. In factors where there are subfactors, each subfactor must be presented separately, with the short title of the subfactor presented. Make sure to address each subfactor and provide sufficient information about every element of the subfactor.

6. *Budget*. The budget submission must be placed behind the narrative statement addressing the Factors for Award and include the following form:

a. *HUD-424-CB "Grant Application Detailed Budget"*. This form shows the total budget by year and by line item for the program activities to be carried out with the proposed HUD grant. Each year of the program should be presented separately. Applicants must also submit this form to reflect the total cost for the entire grant performance period (Grand Total).

Make sure that the amount shown on the SF-424, the budget form HUD-424-

CB and all other required program forms is consistent and the budget totals are correct. Remember to check addition in totaling the categories on the HUD-424-CB form so that all items are included in the total. All forms must be completed in full. If an application is selected for award, the applicant may be required to provide greater specificity to the budget during grant agreement negotiations.

b. *Budget Narrative.* A narrative must be submitted that explains how the applicant arrived at the cost estimates for any line item, including match items, over \$5,000. For example, a van rental, \$150 per month x 36 months equals \$5,400. The proposed cost estimates should be reasonable for the work to be performed and consistent with rates established for the level of expertise required to perform the work proposed in the geographical area. When necessary, quotes from various vendors or historical data should be used and included. When an applicant proposes to use a consultant, the applicant must indicate whether there is a formal agreement or written procurement policy. For each consultant, please provide the name, if known, hourly or daily rate, and the estimated time on the project. For equipment, applicants must provide a list by type and cost for each item and explain how it will be used. Applicants using contracts must provide an individual description and cost estimate for each contract.

c. *Indirect costs.* Indirect costs, if applicable, are allowable based on an established approved indirect cost rate. Applicants should include a copy of their indirect cost rate agreement with their application. Applicants who are selected for funding that do not have an approved indirect cost rate agreement (established by the cognizant Federal agency, Certified Public Account, or auditor) will be required to establish a rate. In such cases, HUD will issue an award with a provisional rate and enter into an agreement to have one established.

d. *Audits.* Applicants must ensure that their most current A-133 audit is on file at the Federal Audit Clearinghouse. Grantees that expend \$500,000 or more in Federal financial assistance in a single year (this can be program year or fiscal year) must be audited in accordance with the OMB requirements as established in 24 CFR parts 84 and 85. Additional information regarding this requirement at the following Web site: <http://www.fiscal.harvester.census.gov/sac/>

7. *Match and Research Compliance.* All applicants must include the following forms:

a. *HUD-30001, "Community Outreach Partnership Centers Matching Requirements."* This form should show how the match requirements have been met. Under each category, list the specific project activities. Only the dollar totals for research and outreach activities should be listed; costs by activity do not need to be listed. For the purpose of this form, administrative costs should be allocated between research and outreach activities, as appropriate. Applicants must provide letters, memoranda of understanding or agreements that show the extent and firmness of commitments of leveraged funds (including an applicant's own resources) in order for these resources to count. Any resource for which there is no commitment letter will not be counted, nor will the resource be counted without the proposed level of commitment being quantified. Each letter must include the specific dollar amount and the use of the funds. If a dollar amount and use is not shown, the source cannot be counted toward the match requirement in Factor 4. This form is included in Appendix B.

b. *HUD-30002, "Community Outreach Partnership Centers Breakdown of Outreach and Research Activities."* This form is used to demonstrate that the applicant has not allocated more than 25 percent of the total budget (including federal and matching funds) to research activities. This form is included in Appendix B. For purposes of this form, all costs (including administrative costs) must be categorized or apportioned as either research or outreach, as appropriate.

(Note: While indirect costs can count toward meeting the required match, they will not be used to calculate the match percentage above the match requirement. Only direct costs can count in this factor). Letters, memoranda of understanding, and agreements must be signed by an authorized representative of the funding source. If any matching sources are for more than one year, the commitment letter, memorandum of understanding, or agreement must state the number of years, the per year commitment, and the total commitment. Items eligible for program funding can be counted as match. Include matching documentation at the end of the narrative statement addressing the Factors for Award (see below) and note in this section a list of the letters that have been placed there.)

c. *HUD-30011 or HUD-30012, "Verification of the Match."* Applicants must include a multiple page worksheet (included in Appendix B) to determine if a sufficient match has been provided. This worksheet must be included in the

application. Please note on this form by each commitment listed if the match is an inside or outside match commitment.

8. *Appendix.* Applicants must place all letters of commitment, memoranda of understanding, and agreements for funds/resources in response to Factor 4 in this section. An applicant may not submit general support letters or resumes or other back-up materials (unless an applicant is willing to have the additional material count toward the page limit requirements).

C. *Submission Dates and Times*

A complete application package is due on or before July 9, 2004.

D. *Intergovernmental Review:*

This program is excluded from an Intergovernmental Review.

E. *Funding Restrictions*

1. Activities such as, but not limited to, the following are ineligible for funding:

a. Research activities that account for more than 25 percent of the total project cost (federal share plus match) and/or that have no clear and immediate practical application for solving urban problems or do not address specific problems in designated communities and neighborhoods or have any specific link to HUD programs.

b. Any type of construction, rehabilitation, or other physical development costs.

c. Costs used for routine operations and day-to-day administration of institutions of higher education, local governments, or neighborhood groups.

2. Funding may only be provided to applicants that meet the standards for eligible applicants in section III.A.

F. *Other Submission Requirements*

1. *Complete Application Package*

This package must be submitted to the following address: University Partnerships Clearinghouse, c/o Danya International, 8737 Colesville Road, Suite 1200, Silver Spring, MD 20910. When submitting an application package, also please include the following information on the outside of the envelope:

- Office of University Partnerships;
- Community Outreach Partnerships Center Program;
- Applicant's name and mailing address (including ZIP code).

Applicants must refer to the General Section of this SuperNOFA for detailed requirements governing application submission and receipt.

2. Forms, Certifications, and Assurances

The following certifications and assurances must be included in all application packages. These forms must be signed by the Chief Executive Officer (or official designee) of the institution and can be downloaded from the HUD Web site at <http://www.hud.gov>.

- a. Application for Federal Assistance (SF-424).
- b. Applicant Assurances and Certifications (HUD-424-B).
- c. Grant Application Detailed Budget (HUD-424-CB).
- d. Disclosure of Lobbying Activities (SF-LLL).
- e. America's Affordable Communities Initiative Removal of Regulatory Barriers (HUD-27300), if applicable.
- f. Applicant/Recipient Disclosure/Update Report (HUD-2880).
- g. Certification of Consistency with the Consolidated Plan (HUD-2991).
- h. Certification of Consistency with the EZ/EC/RC Strategic Plan (HUD-2990). Must be signed by the certifying official of the EZ/EC/RC. The General Section of the SuperNOFA provides procedures and guidelines required to certify that proposed grant activities are being conducted in the EZ/EC/RC that serve the residents of these areas, and are certified to be consistent with the area's strategic plan.
 - i. Program Logic Model (HUD-96010).
 - j. Survey on Equal Opportunity (HUD-32004).
 - k. Community Outreach Partnership Centers Matching Requirements (HUD-30001).
 - l. Community Outreach Partnership Centers Breakdown of Outreach and Research Activities (HUD-30002).
 - m. Verification of the Match (HUD-30011 or HUD-30012).
 - n. Survey on Ensuring Equal Opportunity for Applicants (SF-424 Supplement)
 - o. Acknowledgment of Receipt of Application (HUD-2993). To confirm that HUD has received the application package, please complete this form. Applicants are not required to include this form, but it is recommended that an applicant do so.
 - p. Client Comments and Suggestions (HUD-2994). This form is included to solicit information from the most valuable source, the applicant. The changes that we have instituted this year are designed to make things easier for the applicant. If applicants complete and submit this form, it will help us to assess whether the changes have had the intended results. It will also guide us in our continuing efforts to improve the competitive grant process. Applicants are not required to complete this form.

V. Application Review Information

A. Criteria

1. *Rating Factor 1: Capacity of the Applicant and Relevant Organizational Experience (20 Points)*. This factor addresses the extent to which the institution has the organizational resources necessary to successfully implement the proposed activities in a timely manner. In rating this factor, HUD will consider the extent to which the proposal demonstrates:

- a. Knowledge and Experience For New Grant Applicants (20 Points); For New Directions Grant Applicants (10 Points). The knowledge and experience possessed by the proposed overall project director and staff, including the day-to-day program manager, consultants (including technical assistance providers), and contractors for planning and managing this kind of program. Experience will be judged in terms of recent and relevant knowledge and skills of the staff to undertake eligible program activities. HUD will consider experience within the last five years to be recent and experience pertaining to specific activities and producing specific accomplishments to be relevant. The more recent and substantial the experience of the staff, particularly the institution's own staff who will work on the project have in successfully conducting and completing similar activities, the higher the number of points an applicant can receive for this rating factor. The following areas will be evaluated:

- (1) Outreach activities in communities to solve or ameliorate significant urban issues;
- (2) Projects with community-based organizations or local governments;
- (3) Solving community problems that have a direct bearing on the proposed activities and that make a national contribution to solving long-term and immediate urban problems/issues; and
- (4) Research activities (if applicable) that have a practical application to significant urban issues.

b. Past Performance (10 points). *New Directions Grant Applicants Only*. This subfactor will evaluate the extent to which an applicant has performed successfully under a previous COPC grant. Applicants must demonstrate this by providing the following information:

- (1) A detailed list outlining the achievement of specific measurable objectives and outcomes consistent with the approved timeline/work plan in the previously awarded grant; and
- (2) Comparison of proposed required match funds and resources in a previous grant with what was actually matched.

2. *Rating Factor 2: Need/Extent of the Problem (10 Points)*. This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the urgency of meeting the need(s) in the target area. The need(s) described must be relevant to the activities for which funds are being requested. The proposal will be evaluated on the extent to which the level of need for the proposed activities and the importance of meeting the need(s) are documented.

Applicants must use statistics or other analyses contained in at least one or more current data sources that are sound and reliable. Sources for localized data can be found at: <http://www.ffiec.gov> or <http://www.econdatata.com>. In rating this factor, HUD will consider data collected within the last five years to be current. To the extent that the targeted community's Five Year Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) identify the level of the problem and the urgency in meeting the need, applicants should include references to these documents in response to this factor. Other reliable sources of data include, but are not limited to, Census reports, HUD Continuum of Care gap analysis and its E-Map (To find additional information go to HUD's Web site: <http://www.hud.gov/emaps>), law enforcement agency crime reports, Public Housing Agencies' Comprehensive Plans, community needs analyses such as provided by the United Way, the applicant's institution, and other sound and reliable appropriate sources. Needs in terms of fulfilling court orders or consent decrees, settlements, conciliation agreements, and voluntary compliance agreements may also be addressed.

The data used must be specific to the area where the proposed activities will be carried out. Needs must be documented as they apply to the area where the activities will be targeted (not the entire locality or state). Remember the statute creating COPC is very specific that the program addresses problems of an urban area: a single geographic place (e.g., a city, town, or village, but not a county) with a population of 2,500 or more. (However, because of the size of the grant and the three-year period of performance, HUD encourages applicants to target activities in a minimum number of definable neighborhoods or communities.)

3. *Rating Factor 3: Soundness of Approach (40 Points)*. This factor addresses the quality and effectiveness of the proposed work plan. There must be a clear relationship between

proposed activities and community needs for an applicant to receive points for this factor. This factor will be evaluated based on the extent to which the proposed work plan demonstrates the following:

a. Quality of Work Plan (25 Points).

(1) Specific Services and/or Activities. The work plan must describe all proposed activities and major tasks required to successfully implement the proposed project. HUD will consider the probability of success of the program, the significance of the tasks identified, how realistic are the proposed time frames, and who will be responsible for completing each proposed activity. (Note: applicants are not required to undertake research as part of the grant.)

(a) Describe a clear outreach agenda and demonstrate this by providing the following:

- (i) Identifiable outreach activities;
- (ii) Required tasks to be completed (in sequential order) for each proposed activity;
- (iii) Target completion date for each proposed task/activity to be successfully implemented (in six-month intervals); and

(iv) The staff member, as described in Factor 1, who will be responsible and accountable for completing each task.

(b) Describe how the project will:

- (i) Involve the institution as a whole (i.e., variety of academic disciplines and administrative offices);
- (ii) Provide for on-site or frequent presence in the target area; and
- (iii) Ensure proposed activities do not duplicate outreach activities by the institution or others for the target area previously completed or currently underway.

(c) Applicants proposing research activities must describe a clear research agenda that applies the proposed research results directly to the proposed outreach activities and demonstrate this by providing the following:

- (i) Identifiable research activities and outcomes (e.g., reports, surveys, etc.);
- (ii) Required tasks to be completed (in sequential order) for each proposed activity;
- (iii) Time necessary for each proposed task/activity to be successfully implemented (in six-month intervals) and target completion date;

(iv) The staff member, as described in Factor 1, who will be responsible for it and accountable for completing each task;

(v) Ensure that the proposed research is tied to the proposed outreach agenda (e.g., a proposed study of the extent of housing abandonment in a neighborhood is followed by a plan for reusing this housing demonstrates a link

between the proposed research and outreach strategies); and

(vi) Describe how the research does not duplicate the research by the institution or others for the target area previously completed or currently underway. If similar research is underway, describe how the proposed research agenda would complement it.

b. (5 Points) Community Involvement. The applicant must describe the extent to which it proposes to integrate the community as partners in the planning and implementation of proposed program activities. In reviewing this subfactor, HUD will look at the extent to which:

(1) One or more Community Advisory Committees have been formed that represent the communities' diversity (including businesses, community groups, residents, and others) and will serve to develop and implement strategies to address the needs identified in Factor 2. In addressing this subfactor, applicants must demonstrate by providing evidence that such a committee(s) has been in place and what groups are represented, or that commitments have been secured from the appropriate persons to serve on a committee(s), rather than just describing generally the types of people whose involvement will be sought.

(2) The committee and partners play an active role in all stages of the project and not serve as merely advisors or monitors.

(3) The outreach agenda includes training projects for local community leaders to increase their capacity to direct their organizations or undertake various kinds of community development projects.

c. (4 Points) Innovative Strategies or Best Practices. This subfactor will be evaluated based on the extent to which an applicant has the potential to yield strategies or best practices that can be replicated and disseminated to other organizations, including nonprofit organizations, and State and local governments. In reviewing this subfactor, HUD will assess the applicant's demonstrated ability to disseminate results of outreach and research activities to other COPCs and communities. In addition, to the scope and quality of the applicant's plan to disseminate information results, strategies, and lessons learned through such means as conferences, cross-site technical assistance, Web sites, publications, etc.

d. (3 Points) Affirmatively Further Fair Housing. This subfactor will be evaluated on the extent to which an applicant describes how they propose to undertake activities designed to

affirmatively further fair housing, for example:

(1) Working with other entities in the community to overcome impediments to fair housing, such as discrimination in the sale or rental of housing or in advertising, provision of brokerage services, or lending;

(2) Promoting fair housing choice through the expansion of homeownership opportunities and improved quality of services for minorities, families with children, and persons with disabilities; or

(3) Providing housing mobility counseling services.

e. (3 Points) HUD Policy Priorities. HUD encourages applicants to undertake specific activities that will assist the Department in implementing its policy priorities that will help the Department achieve its goals and objectives in FY2005, when the majority of grant recipients will be reporting programmatic results and achievements. In addressing this subfactor, HUD will evaluate the extent to which a program will further and support HUD's priorities. The quality of the responses provided to one or more of HUD's priorities will determine the score an applicant can receive. Applicants must describe how each policy priority selected will be addressed. Applicants that just list a priority will receive no points.

Each policy priority addressed has a point value of one point with the exception of the policy priority to remove regulatory barriers to affordable housing, which has a point value of up to 2 points. The total number of points available to applicants that address policy priorities is 3. It is up to the applicant to determine which of the policy priorities they elect to address to receive the available 3 points. To receive points for efforts to remove regulatory barriers to affordable housing, an applicant must submit the completed questionnaire found in the General Section. (Form HUD-27300). For the full list and explanation of each policy priority, please refer to the General Section of this SuperNOFA.

4. *Rating Factor 4: Matching Resources and Institutionalization of Program (20 Points)*. This factor addresses the ability of the applicant to secure resources and make the program activities part of the institution's future mission. In evaluating this factor, HUD will consider the extent to which the applicant established partnerships with other entities (other than HUD) to secure additional resources to increase the effectiveness of the proposed program activities.

a. (10 Points) *Matching Resources.* This subfactor addresses the applicant's ability to secure community resources combined with HUD's grant funds to achieve the program's purpose. Resources may include funding or in-kind contributions, such as services or equipment, allocated to the purpose(s) of the grant being sought. Resources may be provided by governmental entities, public or private nonprofit organizations, for-profit private organizations, or other entities willing to establish partnerships. Applicants may also establish partnerships with funding recipients in other grant programs to coordinate the use of resources in the target area. Please note that the value of the time of individuals serving on an applicant program advisory board cannot be counted as an in-kind contribution. Applicants may count overhead and other institutional costs (e.g., salaries, indirect costs, etc.) that the institution has waived. In evaluating this subfactor, HUD will allocate points as follows:

(1) (5 Points) will be awarded for a match that is 25 percent over the required match, as described in section V, Application Review Information. Fewer points will be assigned depending on the extent of the match coverage provided. Matching funds must be provided unconditionally in order to be counted for this subfactor.

HUD is concerned that applicants should be providing hard dollars as part of their matching contributions to enhance the tangible resources going into targeted neighborhoods. Thus, while indirect costs can count toward meeting the required match, they will not be used in calculating match coverage. Only direct costs can count in this factor.

(2) (5 Points) will be awarded for the extent to which applicant documents that matching funds are provided from eligible sources other than the institution (e.g., funds from the city, including CDBG, other State or local government agencies, public or private organizations, or foundations). Fewer points will be assigned depending on the amount of the outside match.

For each match, cash or in-kind contribution, a letter of commitment, memorandum of understanding, or agreement must be provided that shows the extent and firmness of the commitment of leveraged funds (including any commitment of resources from the applicant's own institution) in order for the resources to count in determining points under this factor. Resources will not be counted for which there is no commitment letter, memorandum of understanding, or agreement

agreement, nor quantified level of commitment. Letters, memoranda of understanding, or agreements must be submitted from the provider on the provider's letterhead and be included with the application package. (Applicants must place all letters, memoranda of understanding, or agreements in the Appendices.) The date of the letter, memorandum of understanding, or agreement from the CEO of the provider organization must be dated no earlier than the date of this published SuperNOFA. Applications that do not include evidence of matching will receive zero (0) points for this Factor and will be disqualified.

a. A firm commitment letter, memorandum of understanding, or agreement must address the following:

(1) The cash amount contributed or dollar value of the in-kind goods and/or services committed (If a dollar amount and use is not shown, the source cannot be counted toward the match requirement);

(2) A specific description of how the match is to be used;

(3) The date the match will be made available and a statement that describes the duration of the contribution. If any of the matching sources are for more than one year, the commitment letter, memorandum of understanding, or agreement must state the number of years, the per year commitment, and the total commitment. Without this statement, HUD will assume that the commitment is for only one year;

(4) Any terms or conditions affecting the commitment, other than receipt of a HUD grant; and

(5) The signature of the appropriate executive officer authorized to commit the funds and/or goods and/or services. Please remember that only items eligible for funding under this program can be considered as a match.

b. (10 Points) *Institutionalization.* This subfactor looks at how the institution plans to make the COPC function and related activities a part of its urban mission and ensure funding in the future by sources other than HUD.

(1) New Grant Applicants. In reviewing this subfactor for a New Grant, HUD will consider the extent to which the New Grant applicant addresses the institution's capacity and commitment to undertake outreach activities. HUD will evaluate the following:

(a) COPC activities as they relate to the institution's urban mission;

(b) Support and involvement of the institution's executive leadership (e.g., department chairs, deans, etc.) faculty, staff and students from across many disciplines in order to demonstrate the

institution's commitment to these kinds of activities;

(c) Commitment of the institution to establish a climate that rewards faculty and staff for work in COPC neighborhoods by including this work in decisions affecting rank, tenure, and promotion;

(d) Benefit to students through the implementation of service learning programs or professional training at the institution that are reflected in the curriculum (rather than just volunteer activities);

(e) Commitment to a formal organizational structure within the university related to outreach and community partnerships as reflected in the university's budget and planning documents of the university.

(2) New Directions Applicants. In reviewing this subfactor for a New Directions Grant, HUD will consider the extent to which the New Directions applicant's proposed project will sustain the institutional capacity and commitment of the institution to undertake outreach activities. HUD will evaluate the following:

(a) Increases in the number of faculty undertaking this kind of work;

(b) Increases in the number of courses linked to outreach activities and the number of students taking these courses; and

(c) Formal changes in institutional policies related to support of outreach.

5. *Rating Factor 5: Achieving Results and Program Evaluation (10 Points).* This factor reflects HUD's goal to embrace high standards of management and accountability. It measures the applicant's commitment to assess their performance to achieve the program's proposed objectives and goals. Applicants are required to develop an effective, quantifiable, outcome oriented evaluation plan for measuring performance and determining that objectives and goals have been achieved.

"Outcomes" are benefits accruing to institutions of higher education and/or communities during or after participation in the COPC program. Applicants must clearly identify the outcomes to be measured and achieved. Examples of outcomes are increased business start-up in the target community by a certain percentage, or increased family financial stability (e.g., increased assets to families and communities through the development of incubators).

In addition, applicants must establish interim benchmarks and outputs that lead to the ultimate achievement of outcomes. "Outputs" are the direct products of the program's activities.

Examples of outputs are the number of new businesses developed, the number of students involved in service learning activities, the number of new courses an institution developed that focus on community outreach activities, the number of newly formed partnerships that aid in community capacity building. Outputs should produce outcomes for the program. At a minimum, an applicant must address the following activities in the evaluation plan:

- a. Specific time-phased short and long-term measurable objectives to be accomplished.
- b. Measurable impacts the grant will have on the community in general and the target area or population.
- c. The impact the grant will have on the long-term commitment of the university to the faculty and students to provide opportunities to continue this type of work.
- d. The impact the grant will have on assisting the university to obtain additional resources to continue this type of work at the end of the grant performance period.

This information must be placed under this section on a HUD-96010 Program Outcome Logic Model form. (Applicants may use as many copies of this form as required. It will not be included in the page count requirement.) A narrative is not required; however, if a narrative is provided, those pages will be included in the page count. Additional information on this form and how to use it can be found in the General Section of this SuperNOFA.

B. Review and Selection Process

1. Application Selection Process

Two types of reviews will be conducted:

- a. A threshold review to determine an applicant's basic eligibility; and
- b. A technical review for all applications that pass the threshold review to rate and rank the application based on the "Factors for Award" listed in section V.A above.

Only those applications that pass the threshold review will receive a technical review and be rated and ranked.

2. Rating Panels

To review and rate applications, HUD may establish panels, which may include experts or consultants not currently employed by HUD. These individuals may be included to obtain certain expertise.

3. Ranking

HUD will fund applications in rank order, until all available program funds are awarded. In order to be funded, an applicant must receive a minimum score of 75 points out of a possible 100 points for Factors 1 through 5. In addition, two bonus points may be awarded for RC/EZ/EC, as described in the General Section of the SuperNOFA. If two or more applications have the same number of points, the application with the most points for Factor 3, Soundness of Approach, shall be selected. If there is still a tie, the application with the most points for Factor 1, Capacity of the Applicant and Relevant Organizational Experience, shall be selected. HUD reserves the right to make selections out of rank order to provide for geographic distribution of grantees. In addition, HUD intends to fund at least two eligible COPC applications that serve Colonias (as defined in the General Section of this SuperNOFA). While it is not necessary for the institution to be located in a Colonia, all program activities must be directed to the Colonia and its residents. If less than two fundable applications are eligible for award these funds will be made available to award additional COPC grants. HUD also reserves the right to reduce the amount of funding requested in order to fund as many highly ranked applications as possible. Additionally, if funds remain after funding the highest ranked applications, HUD may fund part of the next highest-ranking application. If an applicant turns down the award offer, HUD will make the same determination for the next highest-ranking application. If funds remain after all selections have been made, the remaining funds will be carried over to the next funding cycle competition.

4. Correction to Deficient Applications

The General Section of the SuperNOFA provides the procedures for correction to deficient applications.

C. Anticipated Announcement and Award Dates

Announcements of awards are anticipated on or before September 30, 2004.

VI. Award Administration Information

A. Award Notice

After all selections have been made, HUD will notify all winning applications in writing. HUD may require winning applicants to participate in additional negotiations before receiving an official award. For further discussion on this matter, please

refer to the General Section of the SuperNOFA.

B. Administrative and National Policy Requirements

Applicants are directed to Section III.C of the General Section of the SuperNOFA, which provides the statutory, regulatory, threshold, and public policy requirements applicable to all HUD grantees. The provisions of the HUD Reform Act of 1989 that apply to this NOFA are explained in the General Section of the SuperNOFA.

1. Debriefing

The General Section of the SuperNOFA provides the procedures for requesting a debriefing. All requests for debriefings must be made in writing and submitted to: Armand Carriere; Office of University Partnerships, Robert C. Weaver Federal Building, 451 Seventh Street, SW., Room 8106, Washington, DC 20410-6000. Applicants may also write to Mr. Carriere via e-mail at Armand_W_Carriere@hud.gov.

2. Administrative

Grants awarded under this NOFA will be governed by the provisions of 24 CFR part 84 (Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations), A-21 (Cost Principles for Education Institutions) and A-133 (Audits of States, Local Governments, and Non-Profit Organizations). Applicants can access the OMB circulars at the White House Web site at: <http://www.whitehouse.gov/omb/circulars/index.html>.

3. OMB Circulars and Governmentwide Regulations Applicable to Financial Assistance Programs

The General Section of the SuperNOFA provides further discussion of OMB circulars and governmentwide regulation.

4. Conflicts of Interest

See the General Section of the SuperNOFA for further discussion.

5. Recovered Materials

The General Section of the SuperNOFA provides further discussion of the federal law governing the procurement of recovered materials.

6. Environmental Requirements

In accordance with 24 CFR 50.19(b) of the HUD regulations, activities under the COPC program are categorically excluded from the requirements of the National Environment Policy Act and are not subject to environmental review under related laws and authorities.

C. Reporting

All grant recipients under this NOFA are required to submit semi-annual progress reports. The progress reports shall consist of two components, a narrative that must reflect the activities undertaken during the reporting period and a financial report that reflect costs incurred during the reporting period as well as a cumulative summary.

For each reporting period, as part of the required report to HUD, grant recipients must include a completed Logic Model (Form HUD-96010), which identifies output and outcome achievements.

VII. Agency Contacts

Applicants may contact Kinnard Wright at (202) 708-3061, extension

7495 or Susan Brunson, at (202) 708-3061, extension 3852. Persons with speech or hearing impairments may call the Federal Information Relay Service (TTY) at (800) 877-8339. Except for the "800" number, these numbers are not toll-free. Applicants may also reach Mr. Wright via e-mail at Kinnard_D._Wright@hud.gov, and/or Ms. Brunson at Susan_S._Brunson@hud.gov.

VIII. Other Information

Paperwork Reduction Act: The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2506-0180. In accordance with

the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 144 hours per annum per respondent for the application and grant administration. This includes the time for collecting, reviewing, and reporting the data for the application, quarterly, semi-annual and final reports. The information will be used for grantee selection and monitoring the administration of funds. Response to this request for information is required in order to receive the benefits to be derived.

BILLING CODE 4210-32-P

Attachment A--Application Checklist**Application Checklist**

This checklist identifies application submission requirements. Applicants are requested to use this checklist when preparing an application to ensure submission of all required elements. Please present the information in the application in the order outlined below and on each line write the page number where the item is located. Standard Forms and required certification are found in the **General Section** of the SuperNOFA, program specific forms are found at the end of this NOFA in Appendix A and B.

I. PART A

- _____ SF-424 "Application For Federal Assistance"
- _____ Transmittal Letter
- _____ Application Checklist
- _____ Abstract (must include no more than a two-page summary of the proposed project)
- _____ Narrative Statement Addressing the Factors for Award. The narrative must not exceed 75 pages, (excluding forms, abstracts, tables, maps, budget narrative, assurances, commitment letters, memorandum of understanding, and agreements) double-spaced on one side of the paper, with on-inch margins (from top, bottom, left and right) printed in standard Times New Roman 12 point font).
 - _____ HUD-96010 "Logic Model"
- _____ Budget
 - _____ HUD 424-CB "Grant Application Detailed Budget"
 - _____ Budget Narrative (No form provided and must be submitted for the total grant performance period)
 - _____ Indirect Cost Rate
- _____ Match and Compliance Forms
 - _____ HUD-30001 "Community Outreach Partnership Center Program Matching Requirements"
 - _____ HUD-30002 "Community Outreach Partnership Center Program Breakdown of Outreach and Research Activities"
 - _____ HUD-30011 or HUD-30012 "Verification of Match"
- _____ Appendix (letters of commitment, memoranda of understanding, or agreements)
- _____ Computer disk

II. PART B (All Required Forms)

The following required certifications and assurance can be downloaded from *www.hud.gov*.

- ___ SF-424 "Application For Federal Assistance"
- ___ HUD-424-B "Applicant Assurance and Certifications"
- ___ HUD-424-CB "Grant Application Detailed Budget"
- ___ HUD-27300 "America's Affordable Communities Initiative Removal of Regulatory Barriers" (if applicable)
- ___ HUD-2880 "Applicant/Recipient Disclosure Update Report"
- ___ HUD-2991 "Certification of Consistency with the Consolidated Plan", (if applicable)
- ___ HUD-2990 "Certification of Consistency with the EZ/EC/RC Strategic Plan", (if applicable)
- ___ HUD-2993 "Acknowledgement of Applicant Receipt"
- ___ HUD-2994 "Client Comments and Suggestions"
- ___ HUD-30001 "Community Outreach Partnership Center Program Matching Requirements"
- ___ HUD-30002 "Community Outreach Partnership Center Program Breakdown of Outreach and Research Activities"
- ___ HUD-30011 or HUD 30012 "Verification of Match"
- ___ SF-424 Supplement "Survey on Ensuring Equal Opportunity for Applicants"
- ___ SF-LLL "Disclosure of Lobbying Activities"

OMB Approval No. 2528-0180
(exp. 05/31/2006)

Public reporting burden for this collection of information is estimated to average 5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The information collected on this form is utilized to calculate and verify the amount of matching resources as a percentage of total project costs. This collection of information is authorized by Public Law 100-242, section 501. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number. HUD has submitted a request for Office of Management and Budget (OMB) approval to collect this information. That approval is pending.

Verification of Match (cont'd.)
CALCULATION OF THE MATCH**1. REQUIRED MATCH:**

A. Research Total Project Costs::

$$\frac{\text{_____}}{\text{(Grant request for Research)}} + \frac{\text{_____}}{\text{(Match for Research)}} = \frac{\text{_____}}{\text{(Research Total Project Costs)}}$$

Research match should be:

$$\frac{\text{_____}}{\text{(Research Total Project Costs)}} \times 50\% = \frac{\text{_____}}{\text{(Required Research Match)}}$$

B. Outreach Total Project Costs::

$$\frac{\text{_____}}{\text{(Grant request for Outreach)}} + \frac{\text{_____}}{\text{(Match for Outreach)}} = \frac{\text{_____}}{\text{(Outreach Total Project Costs)}}$$

Outreach match should be:

$$\frac{\text{_____}}{\text{(Outreach Total Project Costs)}} \times 25\% = \frac{\text{_____}}{\text{(Required Outreach Match)}}$$

C. Required Total Match:

$$\frac{\text{_____}}{\text{(Required Research Match-from 1.A.)}} + \frac{\text{_____}}{\text{(Required Outreach Match-from 1.B.)}} = \frac{\text{_____}}{\text{(Required Total Match)}}$$

2. ACTUAL MATCH FOR STATUTORY PURPOSES

COUNT ONLY THOSE ITEMS WHICH ARE ELIGIBLE AND FOR WHICH THERE ARE COMMITMENT LETTERS, USING THE FORM HUD-30001. THAT FORM AND THE FIRST PART OF THIS WORKSHEET SHOULD CONFORM.

Research match provided: _____

Outreach match provided: _____

Total match provided: _____

Match provided is more than match required:

Yes No

3. ACTUAL MATCH FOR FACTOR 4 PURPOSES:

Actual total match provided (from # 2 above): _____

Minus indirect match: _____

Actual total match for following calculations: _____

4. MATCH OVERAGE

$\frac{\text{Total Actual Match (w/o indirect costs)(from 3)}}{\text{Total Required Match (from 1.C.)}} = \underline{\hspace{2cm}}$

(As long as the number produced is more than 1, use only amount to the right of the decimal point to determine overage. If the number is less than 1, there is no match overage and you are not eligible for any points under this subfactor.)

5. MATCH FROM OUTSIDE SOURCES

$\frac{\text{Total Match from Outside Sources}}{\text{Total Actual Match (w/o indirect costs) (from 3)}} = \underline{\hspace{2cm}}$

The Early Doctoral Student Research Grant Program and Doctoral Dissertation Research Grant Program Overview Information

A. *Federal Agency Name:* Department of Housing and Urban Development, Office of Policy Development and Research, Office of University Partnerships.

B. *Funding Opportunity Title:* The Early Doctoral Student Research Grant (EDSRG) Program and the Doctoral Dissertation Research Grant (DDRG) Program.

C. *Announcement Type:* Initial announcement.

D. *Funding Opportunity Number:* The Federal Register number for these programs is FR-4900-N-02. The OMB Approval Numbers for these programs are as follows:

1. Early Doctoral Student Research Grant Program is 2528-0216.

2. Doctoral Dissertation Research Grant Program is 2528-0213.

E. *Catalog of Federal Domestic Assistance (CFDA) Number(s):* The CFDA Numbers for these programs are as follows:

1. Early Doctoral Student Research Grant Program is 14.517

2. Doctoral Dissertation Research Grant Program is 14.516

F. *Dates:* The application due date shall be on or before June 16, 2004. Please see the General Section of the SuperNOFA for application submission, delivery and timely receipt requirements.

G. *Optional, Additional Overview Content Information:*

1. *Purpose of the University*

Partnership Dissertation Programs:

a. *Early Doctoral Student Research Grant (EDSRG) Program.* The purpose of the EDSRG program is to enable doctoral students enrolled at accredited institutions of higher education recognized by the U.S. Department of Education to cultivate their research skills through the preparation of research manuscripts that focus on policy-relevant housing and urban development issues.

b. *Doctoral Dissertation Research Grant (DDRG) Program.* The purpose of the DDRG program is to enable Ph.D. candidates enrolled at accredited institutions of higher education recognized by the U.S. Department of Education to complete their research and dissertations on policy-relevant housing and urban development issues.

2. *Award Information:* Approximately \$550,000 in Fiscal Year (FY) 2004 appropriations is available for the following Office of University Partnerships (OUP) dissertation programs.

a. *Early Doctoral Student Research Grant Program*—Approximately \$150,000 is available for funding under this program. The maximum grant period is 12 months. The performance period will commence on the effective date of the grant agreement. The maximum amount that can be requested by a doctoral student for award is \$15,000.

b. *Doctoral Dissertation Research Grant Program*—Approximately \$400,000 is available for funding under this program. The maximum grant period is 24 months. The performance period will commence on the effective date of the grant agreements. The maximum amount that can be requested by a doctoral student for award is \$25,000.

3. *Eligible Applicants:*

a. *Early Doctoral Student Research Grant Program.* Doctoral students applying for funding under this program must meet the following requirements:

(1) Be a U.S. citizen or lawful permanent resident (recipient of an Alien Registration Recipient Card-Form I-551, commonly referred to as a Green Card) currently enrolled, as a full-time student in an accredited doctoral program at an accredited institution of higher education recognized by the U.S. Department of Education;

(2) Have a major or concentration within a field related to housing and urban development;

(3) Have not taken the preliminary/comprehensive examinations;

(4) Completed at least two semesters or three terms of a doctoral studies program (depending on the course structure of the institution);

(5) Have an assigned faculty advisor to supervise the research manuscript (provide the advisor's name, address, phone number, facsimile number, and e-mail address);

(6) Submit support letter from the assigned faculty advisor of the doctoral student's department that confirms the student meets all of the conditions above and that the proposed research manuscript can be completed within the one-year grant period; and

(7) Provide a support letter from the institution that includes in detail the type of support the university is providing. Such support may include tuition waivers, office space, computer time, assumption of indirect costs, or similar items the doctoral student might need in order to complete the required product. This support may not replace support or assistance the institution would otherwise provide to the student.

b. *Doctoral Dissertation Research Grant Program.* Doctoral students

applying for funding under this program must meet the following requirements:

(1) Be a U.S. citizen or lawful permanent resident (recipient of an Alien Registration Recipient Card-Form I-551, commonly referred to as a Green Card) currently enrolled and matriculated who has been accepted into candidacy in an accredited doctoral program at an accredited institution of higher education recognized by the U.S. Department of Education;

(2) Developed an approved dissertation proposal;

(3) Provide documentation from the dissertation committee chairperson that states the feasibility of the likelihood of the following:

(a) By the application due date, the student's dissertation proposal will be accepted by the full dissertation committee;

(b) The student will have an assigned dissertation advisor (provide the advisor's name, address, phone number, facsimile number, and e-mail address);

(c) By September 1, 2004, the student will have satisfactorily completed all other written and oral Ph.D. requirements, including all examinations and defense of the proposal, except the dissertation; and

(d) The proposed dissertation can be prepared and delivered within the two-year grant period.

(4) Provide a support letter from the institution that includes in detail the type of support the university is providing. Such support might include tuition waivers, office space, computer time, assumption of indirect costs, or similar items the student might need in order to complete the required product. This support may not replace support or assistance the institution would otherwise provide to the student.

Full Text of Announcement

I. Funding Opportunity Description

A. Early Doctoral Student Research Grant (EDSRG) Program

The purpose of the EDSRG program is to enable doctoral students enrolled at an accredited institution of higher education recognized by the U.S. Department of Education to cultivate their research skills through the preparation of research manuscripts that focus on policy-relevant housing and urban development issues. The FY2004 EDSRG program seeks to fund research studies that may impact federal problem solving and policymaking and that are relevant to HUD's policy priorities and annual goals and objectives (see the General Section of the SuperNOFA for discussion of these priorities and annual goals and objectives).

B. Doctoral Dissertation Research Grant (DDRG) Program

The purpose of the DDRG program is to enable Ph.D. candidates enrolled at accredited institution of higher education recognized by the U.S. Department of Education to complete their research and dissertations on policy-relevant housing and urban development issues. The FY2004 DDRG program seeks to fund research studies that may impact federal problem solving and policymaking and that are relevant to HUD's policy priorities and annual goals and objectives (see the General Section of the SuperNOFA for discussion of these priorities and annual goals and objectives).

C. Topics

Examples of topics addressing these issues (applicable to both the EDSRG and DDRG programs) include but are not limited to:

1. Increase Homeownership Opportunities
 - a. Increase Minority Homeownership.
 - b. Simplify the Home Buying Process (RESPA reform) and Reduce Settlement Costs.
 - c. Set Appropriate Housing Goals for the GSEs.
 - d. Counter Predatory Lending.
 - e. Help Low-Income Homeowners Avoid Default and Foreclosure.
 - f. Evaluate Housing Counseling.
2. Promote Decent Affordable Housing
 - a. Reduce Regulatory Barriers to the Development of Affordable Housing, as well as All Forms of Multifamily Housing.
 - b. Develop Creative Strategies for Expanding the Availability of Affordable Housing.
 - c. Strengthen the Delivery of HUD-Funded Rental Assistance and Assistance Provided Through the Low-Income Housing Tax Credit.
 - d. Promote Self-Sufficiency Among Residents of Public and Assisted Housing.
 - e. Meet the Housing-Related Needs of the Elderly.
 - f. Meet the Housing-Related Needs of Persons with Disabilities.
 - g. Improve Housing Quality and Affordability through Technology and Design.
3. Strengthen Communities
 - a. End Chronic Homelessness.
 - b. Prevent Homelessness.
 - c. Strengthen Cities.
 - d. Meet the Housing and Community and Economic Development Needs of Residents of High-Needs Areas, including the Colonias, Appalachia, the Mississippi Delta, and Indian Country.

4. Ensure Equal Opportunity In Housing
 - a. Reduce Housing Discrimination.
 - b. Improve Housing Accessibility for Persons with Disabilities.
5. Embrace High Standards Of Ethics, Management, And Accountability
 - a. Reduce Fraud, Waste, and Abuse in HUD-Funded Programs.
 - b. Improve the Effectiveness of HUD Programs Through Program Evaluations.
6. Promote Participation Of Faith-Based And Community Organizations
 - a. Strengthen the Capacity of Faith-Based and Community Organizations.

D. Authority

HUD's authority for making funding available under this NOFA is the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, January 23, 2004, Stat. 3). These programs are being undertaken under HUD's research authority under Title V of the Housing and Urban Development Act of 1970. They are being implemented through this NOFA and the policies governing their operation are contained herein.

II. Award Information

Approximately \$550,000 in FY2004 appropriations is available for the Office of University Partnerships (OUP) dissertation programs as follows:

A. Early Doctoral Student Research Grant Program

Approximately \$150,000 will be made available for funding under this program. The maximum grant period is 12 months. The performance period will commence on the effective date of the grant agreement. The maximum amount that can be requested by a doctoral student for award is \$15,000.

B. Doctoral Dissertation Research Grant Program

Approximately \$400,000 will be made available for funding under this program. The maximum grant period is 24 months. The performance period will commence on the effective date of the grant agreements. The maximum amount that can be requested by a doctoral student for award is \$25,000.

III. Eligibility Information

A. Eligible Applicants

1. *Early Doctoral Student Research Grant Program.* Doctoral students applying for funding under this program must meet the following requirements:
 - a. Be a U.S. citizen or lawful permanent resident (recipient of an Alien Registration Recipient Card-Form I-551, commonly referred to as a Green

Card) currently enrolled, as a full-time student in an accredited doctoral program at an accredited institution of higher education recognized by the U.S. Department of Education;

- b. Have not taken the preliminary/comprehensive examinations;
- c. Completed at least two semesters or three terms of a doctoral studies program (depending on the course structure of the institution);
- d. Have an assigned faculty advisor to supervise the research manuscript (provide the advisor's name, address, phone number, facsimile number, and e-mail address);

e. Submit support letter from the assigned faculty advisor of the doctoral student that confirms the student meets all of the conditions above and that the proposed research manuscript can be completed within the one-year grant period; and

f. Provide a support letter from the institution that includes in detail the type of support the university is providing. Such support might include tuition waivers, office space, computer time, assumption of indirect costs, or similar items the doctoral student might need in order to complete the required product. This support may not replace support or assistance the institution would otherwise provide to the student.

2. *Doctoral Dissertation Research Grant Program.* Doctoral students applying for funding under this program must meet the following requirements:

- a. Be a U.S. citizen or lawful permanent resident (recipient of an Alien Registration Recipient Card-Form I-551, commonly referred to as a Green Card) currently enrolled and matriculated and who has been accepted into candidacy in an accredited doctoral program at an accredited institution of higher education recognized by the U.S. Department of Education;

b. Developed an approved dissertation proposal;

c. Provide letter from the dissertation committee chairperson that confirms the following:

(1) By the application due date, the student's dissertation proposal has been accepted by the full dissertation committee and the student has been assigned a dissertation advisor (provide the advisor's name, address, phone number, facsimile number, and e-mail address);

(2) By September 1, 2004, the student will have satisfactorily completed all other written and oral Ph.D. requirements, including all examinations and defense of the proposal, except the dissertation; and

(3) The proposed dissertation can be prepared and delivered within the two-year grant period.

d. Provide a support letter from the institution that includes in detail the type of support the university is providing. Such support might include tuition waivers, office space, computer time, assumption of indirect costs, or similar items the student might need in order to complete the required product. This support may not replace support or assistance the institution would otherwise provide to the student.

B. Cost Sharing or Matching

None Required

C. Other

1. Eligible Activities

Grant funds awarded for programs in this NOFA must be used to support direct costs incurred in the timely completion of the research product. Eligible costs include stipends, computer software, purchase of data, travel expenses to collect data, transcription services, and compensation for interviews.

2. Threshold Requirements Applicable to All Applicants

All applicants must comply with the applicable threshold requirements as defined in the General Section of the SuperNOFA and the requirements listed below to be evaluated, rated, and ranked. Applications that do not meet these requirements will be considered ineligible for funding and will be disqualified.

a. The doctoral student must meet the eligibility requirement for the program for which they are requesting funding as defined in section III.A, Eligible Applicants;

b. University sponsorship. The university shall enter into a Grant Agreement with HUD that provides for payment of the grant by HUD to the university and from the university to the approved doctoral student, and that further provides all required certifications and assurances. The university shall agree to provide as the Principal Investigator under the Grant Agreement a faculty advisor or chairperson of the doctoral student's dissertation committee who shall supervise the student's work under the Grant Agreement;

c. The student has provided a letter from the faculty advisor or chairperson of the doctoral student's dissertation committee confirming the applicant is eligible as outlined in section III A, Eligible Applicants above;

d. The student's institution has provided a letter agreeing to provide

support and outlines the specific type of support they will provide as part of this grant as defined in section III A, Eligible Applicants above;

e. The student has requested no more funding than the grant maximum allocated as outlined in section II, Award Information;

f. Only one application package can be submitted per doctoral student.

g. Applicants must receive a minimum score of 75 points to be considered for funding; and

h. An applicant must have a DUNS number to receive HUD grant funds. (The General Section of the SuperNOFA provides information regarding the DUNS requirement).

IV. Application and Submission Information

A. Addresses to Request Application Package

Applicants may request general information, copies of the General Section and Program Sections of the SuperNOFA from the NOFA Information Center (800-HUD-8929 or 800-HUD-2209 (TTY) between the hours of 9 a.m. and 8 p.m. (eastern time) Monday through Friday, except on Federal holidays. When requesting information, please refer to the OUP Doctoral Programs. Be sure to provide your name, address (including zip code), and telephone number (including area code). To ensure sufficient time to prepare an application, requests for copies of the NOFA can be made immediately following publication of the SuperNOFA. The NOFA Information Center opens for business simultaneously with the publication of HUD's 2004 NOFA. Applicants can also obtain information on the SuperNOFA and download applications through the HUD Web site, <http://www.hud.gov> or OUP's Web site at <http://www.oup.org>.

B. Content and Form of Application Submission

A complete application package *must* include an original signed application, three copies, and one computer disk (in Word 6.0 or higher) of the items listed below. (The computer disk must include the narrative portion of the application, and all required forms. Forms can be downloaded from the following Web site, <http://www.hud.gov>). In order to recycle paper, doctoral students must not submit applications in bound form; binder clips or loose-leaf binders are acceptable. Please do not use colored paper. The application narrative, bibliographies, and any supporting references must not exceed 20 pages in length (excluding forms, assurances,

Table of Contents, Executive Summary, agreements, and letters) and must be submitted on 8½ by 11-inch paper, double-spaced on one side of the paper, with one inch margins (from the top, bottom, left, and right side of the document) and printed in standard Times New Roman 12-point font. Each page must be numbered, section tabbed, and the name of the student and university on each page. The double-spacing requirement applies to all parts of an application, excluding references, bibliographies, agreements, and letters. Please note that although submitting pages in excess of the page limit will not disqualify the application, HUD will not consider the information on any excess pages. Except where a particular form may direct otherwise, all forms included in an application must be signed by the Chief Executive Officer (this is generally the President or Provost) or an official authorized legally to make a binding commitment on behalf of the institution. This may result in a lower score or failure to meet a threshold requirement.

Please include in your application each item in the order listed below:

1. SF-424, Application for Federal Assistance. Instructions for completing this form are found on the back of the first page of the form and/or refer to the General Section of the SuperNOFA. Please remember the following:

a. The name of the applicant for these programs is the University. Please make sure that the University's address is listed on this form (not the students information);

b. Include the name, title, address, telephone number, facsimile number, and e-mail address of the designated contact person. This is the University contact that will receive all information pertinent to this grant;

c. The total grant amount requested;

d. The University's Employer Identification/Tax ID;

e. The DUNS Number;

f. The Catalog of Federal Domestic Assistance Number for the program from which you are requesting funding; and

(1) Early Doctoral Student Research Grant Program is 14.517

(2) Doctoral Dissertation Research Grant Program is 14.516.

Please remember that this form should reflect the University as the applicant and should be signed by an authorized official (an individual who has the authority to make a binding commitment on behalf of the institution).

2. *Transmittal Letter*. This letter is from the student and must contain the following information:

a. Student's home address, telephone number, and e-mail address;

b. Student's address, telephone number, facsimile number, and e-mail address at the university;

c. University's department, mailing address, telephone and facsimile numbers; and

d. The faculty/chairperson advisor's name, title, department, address, telephone number, facsimile number, and e-mail address. This must be the person who will serve as the Principal Investigator for the grant.

3. Table of Contents.

4. *Application Checklist.* Students must include the completed checklist in their application. On the checklist, indicate the page number where each of the items listed can be found in the application (see Appendix A).

5. *Executive Summary* (500 words or less). The Executive Summary should, at a minimum, include a summary of the proposed research project that addresses the following information:

a. Specific purpose of the manuscript/dissertation;

b. Methodology being used; and

c. How the student meets the eligibility criteria for the program from which she/he is requesting funding.

6. *Narrative statement responding to the Factors for Award.* HUD will use the narrative response to the "Factors for Award" to evaluate, rate, and rank applications. This statement is the main source of information. Therefore, it is very important that the student becomes fully familiar with the rating factors for the program from which he/she is requesting funding. The narrative should be numbered in accordance with each factor and subfactor. Please do not repeat material response to the four factors; instead focus on how well the proposal responds to each of the factors. Make sure to address each factor and subfactor and provide sufficient information about every element.

7. *Faculty Advisor/Dissertation Advisor Support Letter.* This letter must provide a statement from the doctoral student's department chairperson verifying the doctoral student has met all the eligibility criteria described in section III.A, Eligible Applicant.

8. *University Support Letter.* This letter must provide a statement from the appropriate official at the university that describes in detail the type of support the University will be providing, as described in section III.A, Eligible Applicant. Please remember that this support may not replace support or assistance that the institution would otherwise provide the student.

9. *Budget.* The budget submission must be placed behind the narrative

statement addressing the "Factors for Award" and include the following form:

a. *HUD-424-CB, "Grant Application Detailed Budget."* This budget form shows the total budget by year and by line item for the program activities to be carried out with the proposed HUD grant. Each year of the program should be presented separately.

Make sure that the amount shown on the SF-424, the HUD-424-CB form and on all other required program forms is consistent and the budget totals are correct. Remember to check addition in totaling the categories on the forms and that that all items are included in the total. If this correction puts an application over the grant maximum, the applicant will not be able to correct the amount requested and the application will be disqualified. The budget form must be completed in full. If an application is selected for award, the applicant may be required to provide greater specificity to the budget during grant agreement negotiations.

b. *Budget Narrative.* A narrative must be submitted that explains how the applicant arrived at the cost estimates. The proposed cost estimates should be reasonable for the work to be performed and consistent with rates established for the level of expertise required to perform the work proposed.

C. Submission Dates and Times

A complete application package is due on or before June 16, 2004. Please see the General Section of the SuperNOFA for application submission, delivery and timely receipt requirements.

D. Intergovernmental Review

This program is excluded from an Intergovernmental Review.

E. Funding Restrictions

1. Grant funds awarded for programs under this NOFA may not be used to pay for tuition, computer hardware, or meals.

2. *Early Doctoral Student Research Grant (EDSRG) Program*—Three thousand dollars of the grant funds will be held until the doctoral student's research manuscript has been completed and accepted for presentation at a conference or publication in a refereed journal by the end of the grant period, or a committee of three faculty members (including the faculty sponsor, as the principal investigator of the grant) has determined and certified to HUD that the manuscript is of high quality and worthy of submission to conferences or journals and two copies of the research

product are submitted to HUD in its final version.

3. *Doctoral Dissertation Research Grant (DDRG) Program*—Six thousand dollars of the grant funds will be held until the doctoral student's dissertation has been completed, approved by the committee, and two final copies are submitted to HUD in its final version.

4. Institutions that have had previously awarded grants under these programs terminated for non-performance and have outstanding funds owed to HUD resulting from the termination will be excluded from competition until the outstanding funds are repaid. (Applicants must comply with the Delinquent Federal Debt Requirement as defined in the General Section of the SuperNOFA.)

F. Other Submission Requirements

1. Complete Application Package

This package must be submitted to the following address: University Partnerships Clearinghouse, c/o Danya International, 8737 Colesville Road, Suite 1200, Silver Spring, MD 20910. When submitting an application package, indicate the following information on the outside of the envelope:

a. Office of University Partnerships;
b. Name of the program under which funding is being requested; and
c. Applicant's name and mailing address (including zip code).

Applicants must refer to the General Section of the SuperNOFA for application submission, delivery, and timely receipt requirements.

2. Forms, Certifications, and Assurances

The following certifications and assurances must be included in all application packages. These forms must be signed by the Chief Executive Officer (or official designee, not the student) of the institution and can be downloaded from the HUD Web site at <http://www.hud.gov>.

a. Application for Federal Assistance (SF-424).

b. Grant Application Detailed Budget (HUD-424-CB).

c. Applicant Assurances and Certification (HUD-424B) (if applicable).

d. Disclosure of Lobbying Activities (SF-LLL) (if applicable).

e. Acknowledgment of Receipt of Applications (HUD-2993). To confirm that HUD received the student's application, please complete this form. Applicants are not required to include this form, but it is recommended that an applicant do so.

f. Client Comments and Suggestions (HUD-2994). This form is included so

that we can solicit information from the most valuable source—the student, or customers. If the student completes and submits this form, it will help HUD to assess whether the changes made to this document have had the intended results. It will also guide us in our continuing efforts to improve the competitive grant process. This form is optional and can be completed by the student.

V. Application Review Information

A. Criteria

1. *Rating Factor 1: Capacity to do the Research (20 Points)*. In reviewing this factor, HUD will determine the extent to which:

a. The student's skills and experience are relevant to the proposed research manuscript/dissertation (e.g., course work, teaching, research projects, and presentations);

b. The student provides a research outline that identifies the preliminary steps that have been undertaken (e.g., literature review, research hypotheses, questions to be answered) to produce the proposed manuscript/dissertation; and

c. For Early Doctoral Program Applicants only; The proposed research will help to further the student's research skills (i.e., it is relevant to the kind of projects the student will continue to work on as she/he earns his/her Ph.D.).

d. For Doctoral Dissertation Research Applicants only; The doctoral student's previous research experience (e.g., graduate-level research projects, presentations at conferences, publications, etc.) is relevant to and supportive of the proposed dissertation.

2. *Rating Factor 2: Need for the Research (35 Points)*. In reviewing this factor, HUD will determine the extent to which the research manuscript/dissertation will produce policy-relevant information that is directly related to HUD's research priorities and/or annual goals and objectives as defined in the General Section of the SuperNOFA (i.e., the research that will be produced could have an effect on HUD's strategic goals and programs and policies to achieve these goals). The more direct the relationship is between the doctoral student's manuscript/dissertation and one of these topics, the higher number of points awarded. For example a study of minorities' housing choice decisions would have high relevance to HUD's strategic goals; a study of transportation inequities would have medium relevance; and a study of the effects of global warming on urban development would have low relevance.

3. *Rating Factor 3: Soundness of Approach (35 Points)*. This factor addresses the quality and effectiveness of the proposed research and methodology and the actions regarding HUD's policy priorities. This factor will be evaluated based on the extent to which the proposed work plan will demonstrate the following:

a. *Quality of Research (33 Points)*. (1) The research design and methodology proposed is likely to produce data and information that will successfully answer the research hypothesis; and

(2) The methodology proposed is sound and generally accepted by the relevant research community and is in line with research already completed or existing publications in the field as they relate to the scholarly standard for the research questions.

b. (2 Points) HUD Policy Priorities. An important purpose of these programs is to fund research that may impact federal problem solving and policymaking and is relevant to HUD's policy priorities and annual goals and objectives. (See General Section of the SuperNOFA for further discussion.) HUD encourages applicants to undertake research that will assist the Department in implementing its policy priorities and which help the Department achieve its goals and objectives in FY2005. In addressing this factor, HUD will evaluate the extent to which the research will further and support HUD's priorities. The quality of an applicant's response to one or more of HUD's priorities will determine the score an applicant can receive. Applicants must describe how each policy priority selected will be addressed. Applicants that just list a priority will receive no points. Each policy priority addressed has a point value of one point with the exception of the policy priority to remove regulatory barriers to affordable housing, which has a point value of up to 2 points. The total number of points available to applicants that address policy priorities is 2. It is up to the applicant to determine which of the policy priorities they elect to address to receive the available 2 points. To receive points for efforts to remove regulatory barriers to affordable housing, an applicant must submit the completed questionnaire found in the General Section (Form HUD-27300). For the full list and explanation of each policy priority, please refer to the General Section of this SuperNOFA.

4. *Rating Factor 4: Issuance of the Research Product (10 Points)*. In reviewing this factor, HUD will determine the following:

a. For Early Doctoral Program Applicants only. The extent to which

the proposed research manuscript will be completed within the grant performance period and be suitable for presentation at a conference or publication in a refereed journal.

b. For Doctoral Dissertation Program Applicant only. The extent to which the proposed research can feasibly be prepared and delivered to HUD by the end of the grant period.

c. Applicants must demonstrate the feasibility of completing their research within the grant performance period by providing the following information:

(1) Major tasks involved in completing the proposed research;

(2) Indicate the sequence in which these tasks will be performed; and

(3) Identify any key individuals responsible for carrying out any proposed activities.

The sequence and duration of this effort should be presented in quarterly (3 month) intervals for the entire life of the grant (use of a milestone chart to present this information is recommended).

(4) Efforts on the part of the doctoral student who proposes extremely complex and time-consuming data collection efforts (e.g., major longitudinal studies or a very large number of site visits within the grant period) will be determined less feasible for completion within the allotted grant period. For example, if the proposed methodology is based on information that may not be publicly available until after the end of the grant period (e.g., Census information), or a data collection plan that will take longer than the allotted grant period, zero points will be awarded for this factor.

(5) HUD will also evaluate the student's plan to disseminate the research through other means (e.g., seminars, university publications, or relevant Internet listserves).

B. Review and Selection Process

1. Application Selection Process

Two types of reviews will be conducted:

a. A threshold review to determine an applicant's basic eligibility; and

b. A technical review for all applications that pass the threshold review to rate and rank the application based on the "Factors for Award" listed in Section V.A above. Only those applications that pass the threshold review will receive a technical review and be rated and ranked.

2. Rating Panels

To review and rate applications, HUD may establish panels which may include experts or consultants not

currently employed by HUD. These individuals may be included to obtain certain expertise.

3. Ranking

In order to be funded, an application must receive a minimum score of 75 points. HUD will fund applications under each program in rank order, until all available program funds are awarded. If two or more applications have the same number of points, the application with the higher points for Factor 1, Capacity to do the Research, shall be selected. If there is still a tie, the application with the higher points for Factor 2, Need for the Research, shall be selected. HUD reserves the right to reduce the amount of funding requested in order to fund as many highly ranked applications as possible. Additionally, if funds remain after funding the highest ranked applications, HUD may fund part of the next highest-ranking application. If an applicant turns down the award offer, HUD will make the same determination for the next highest-ranking application. The RC/EZ/EC bonus points described in the General Section of the SuperNOFA do not apply to this NOFA.

C. Anticipated Announcement and Award Dates

Announcements of awards are anticipated on or before September 30, 2004.

VI. Award Administration Information

A. Award Notices

After all selections have been made, HUD will notify all winning applicants in writing. HUD may require winning applicants to participate in additional negotiations before receiving an official award. For further discussion on this matter, please refer to the General Section of the SuperNOFA.

B. Administrative and Normal Policy Requirements

The provisions of the HUD Reform Act of 1989 that apply to this NOFA are explained in the General Section of the SuperNOFA.

1. *Environmental Requirements.* The provision of assistance under these programs is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321) and not subject to compliance actions for related environmental authorities under 24 CFR 50.19(b)(1) and (b)(9).

2. *Administrative.* Applicants must comply with the requirements for funding competitions established by the HUD Reform Act of 1989 (42 U.S.C. 3531 *et seq.*) as defined in the General Section of the SuperNOFA.

3. *Debriefing.* The General Section of the SuperNOFA provides the procedures for requesting a debriefing. All requests for debriefings must be made in writing and submitted to Armand Carriere, Office of University Partnerships, Robert C. Weaver Federal Building, 451 Seventh Street, SW., Room 8106, Washington, DC 20410. Applicants may also write to Mr. Carriere via e-mail at Armand_W_Carriere@hud.gov.

C. Reporting Requirements

All recipients of grant funds for programs in this NOFA are required to submit a report, halfway through the grant period, on the progress to date that has been made toward completion of the research product and the likelihood that it will be completed on time.

For each reporting period, as part of the required report to HUD, a grant recipient must include a completed Logic Model (Form HUD-96010), which identifies output and outcome achievements.

VII. Agency Contacts

Doctoral students may contact Armand Carriere, Office of University Partnerships at (202) 708-3061, extension 3181 or Susan Brunson at (202) 708-3061, extension 3852. Persons with speech or hearing impairments may call the Federal Information Relay Service TTY at 800-877-8339. Except for the "800" number, these telephone numbers are not toll-free. Students may also reach Mr. Carriere via the Internet at Armand_W_Carriere@hud.gov and/or Ms. Brunson at Susan_S_Brunson@hud.gov.

VIII. Other Paperwork Reduction Act

The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2528-0216 (for the Early Doctoral Student Research Grant Program) and 2528-0213 (for the Doctoral Dissertation Research Grant Program). In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 44 hours per annum per respondent for the application and grant administration. This includes the time for collecting, reviewing, and reporting the data for the application, semi-annual reports, and final report. The information will be used for grantee selection and monitoring the administration of funds. Response to this request for information is required in order to receive the benefits to be derived.

BILLING CODE 4210-32-P

APPENDIX A

**EARLY DOCTORAL STUDENT RESEARCH GRANT PROGRAM AND DOCTORAL
DISSERTATION RESEARCH GRANT PROGRAM****APPLICATION CHECKLIST**

This checklist identifies application submission requirements. Applicants are requested to use this checklist when preparing an application to ensure submission of all required elements. Please present the information in the application in the order outline below and indicate on each line the page number where each of the items can be found in the application. Standard Forms and required certifications are found in the **General Section** of this SuperNOFA and can be downloaded from HUD's website, www.hud.gov.

I. PART A

- _____ SF-424, "Application for Federal Assistance"
- _____ Transmittal Letter
- _____ Table of Contents
- _____ Application Checklist
- _____ Executive Summary (500 words or less)
- _____ Narrative statement addressing selection factors for award including bibliographies and any supporting reference must not exceed 20 pages in length (excluding required forms, assurances, budget narrative, table of content, executive summary, agreements and letters), double-spaced on one side, with one-inch margins (from top, bottom, left and right) printed in standard Times New Roman 12-point font.
- _____ Support Letter (From the Applicant's Faculty Advisor/Dissertation Advisor)
- _____ Support Letter (From the University)
- _____ Budget
 - _____ HUD 424-CB" Grant Application Detailed Budget"
 - _____ Budget Narrative (No form provided and must be submitted for the total three-year grant period)
- _____ Computer disk

II. PART B (All Required Forms)

The following required certifications and assurance can be downloaded from www.hud.gov.

- _____ HUD-424-CB, Grant Application Detailed Budget
- _____ HUD Form 424B, Applicant Assurances and Certifications (if applicable)
- _____ Disclosure of Lobbying Activities (SF LLL)
- _____ HUD Form 2993, Acknowledgement of Application Receipt
- _____ HUD Form 2994, Client Comments and Suggestions

**DEPARTMENT OF HOUSING
AND URBAN DEVELOPMENT**

PROGRAMS**

**COMMUNITY DEVELOPMENT WORK
STUDY PROGRAM**

Billing Code 4210-32-C

The Community Development Work Study Program

Overview Information

A. *Federal Agency Name*: Department of Housing and Urban Development, Office of Policy Development and Research, Office of University Partnerships.

B. *Funding Opportunity Title*: The Community Development Work Study program (CDWSP).

C. *Announcement Type*: Initial announcement.

D. *Funding Opportunity Number*: The Federal Register number is FR-4900-N-03. The OMB approval number for this program is 2528-0175.

E. *Catalog of Federal Domestic Assistance (CFDA) Number*: The CFDA Number for this program is 14.512.

F. *Dates*: The application due date is June 16, 2004. Please see the General Section of the SuperNOFA for application submission, delivery, and timely receipt requirements.

G. Additional Overview Content Information:

1. *Purpose of the Program*: The Community Development Work Study Program (CDWSP) funds two-year grants to accredited institutions of higher education, Area Planning Organizations (APOs), and states applying on behalf of institutions of higher education to provide assistance to economically disadvantaged and minority graduate students who participate in a community development work study program. Students must be U.S. citizens or lawful permanent residents (recipient of an Alien Registration Recipient Card—Form I-551, commonly referred to as a Green Card) and enrolled full-time in a graduate community building academic degree program. Grants will cover the academic period August 2004 through August 2006.

2. *Award Information*: In Fiscal Year (FY) 2004, approximately \$2.98 million has been appropriated by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3) for this program. In addition, \$378,844 in previously unexpended funds is made available for this program. The grant performance period is two years (24 months). The performance period will commence on the effective date of the grant agreement. Institutions may request no more than \$15,000 per year per student for a total of \$30,000 for a two-year (24 months) grant performance period. The minimum number of students that can be assisted under this program per participating institution is three. The maximum number of students that can be assisted under this program per

participating institution is five. The maximum amount an institution can request for funding is \$150,000.

3. *Eligible Applicants*: Organizations are eligible if they are:

a. An accredited institution of higher education recognized by the U.S. Department of Education that offers a graduate degree in a community development academic program;

b. An APO applying on behalf of two or more eligible accredited institutions of higher education recognized by the U.S. Department of Education that offer a graduate degree in a community development academic program and that are located in the same Standard Metropolitan Statistical Area (SMSA) or non-SMSA as the APO (in accordance with the regulations at 24 CFR 570.415, institutions of higher education are permitted to choose whether to apply independently or through an APO); or

c. A State applying on behalf of two or more eligible accredited institutions of higher education recognized by the U.S. Department of Education that offer a graduate degree in a community development academic program and that are located in the State. If a State is approved for funding, accredited institutions of higher education located in that State may not apply independently.

Full Text of Announcement

I. Funding Opportunity Description

The Community Development Work Study Program (CDWSP) funds two-year grants to accredited institutions of higher education, Area Planning Organizations (APOs), and states applying on behalf of institutions of higher education to provide assistance to economically disadvantaged and minority graduate students who participate in a community development work study program.

A. Listed below are major modifications to the Fiscal Year (FY) 2003 program-funding announcement:

1. This program has a separate NOFA and is no longer a part of the combined Office of Universities Partnership Program NOFA.

2. All institutions are eligible to apply for these funds (including those that have received funding in prior years).

3. Applicants that have graduate degree programs in community organizing are now eligible to apply for funding under this program.

4. Applications must be submitted to: University Partnerships Clearinghouse; c/o Danya International, 8737 Colesville Road, Suite 1200, Silver Spring, MD 20910.

5. An applicant can request less than \$90,000 for the two-year grant

performance period, as long as three (the minimum number) students are being assisted per participating institution.

B. HUD's authority for making funding available under this NOFA is section 107(c) of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 *et seq.*). Regulations for the program appear at 24 CFR 570.415.

II. Award Information

In Fiscal Year (FY) 2004, approximately \$2.98 million has been appropriated by the Consolidated Appropriations Act, 2004 (Pub. L. 108-199, approved January 23, 2004, 118 Stat. 3). In addition, \$378,844 in previously unexpended funds is made available for this program. Institutions may request no more than \$15,000 per year per student for a total of \$30,000 for a two-year (24 months) grant performance period. The performance period will commence on the effective date of the grant agreement. The minimum number of students that can be assisted per participating institution is three. The maximum number of students that can be assisted under this program is five per participating institution. The maximum amount an institution can request for funding is \$150,000.

III. Eligibility Information

A. Eligible Applicants

Organizations are eligible if they are:

1. An accredited institution of higher education recognized by the U.S. Department of Education that offers a graduate degree in a community development academic program;

2. An APO applying on behalf of two or more eligible accredited institutions of higher education recognized by the Department of Education that offer a graduate degree in a community development academic program and that are located in the same Standard Metropolitan Statistical Area (SMSA) or non-SMSA as the APO (in accordance with the regulations at 24 CFR 570.415, institutions of higher education are permitted to choose whether to apply independently or through an APO); or

3. A State applying on behalf of two or more eligible accredited institutions of higher education recognized by the Department of Education that offer a graduate degree in a community development academic program that are located in the State. If a State is approved for funding, accredited institutions of higher education located in that State may not apply independently.

B. Cost Sharing or Matching

None Required

C. Other**1. Threshold Requirements Applicable to all Applicants**

All applicants must comply with the threshold requirements as defined in the General Section of the SuperNOFA and the requirements listed below to be evaluated, rated, and ranked. Applications that do not meet these requirements will be considered ineligible for funding and will be disqualified:

a. The applicant must meet the eligible requirement as defined in Section III.A, Eligible Applicants.

b. Applicants must comply with all statutory and regulatory requirements applicable to this program. CDWSP regulations can be found at 24 CFR 570.415. Copies of the regulations are available on request from <http://www.HUDUSER.org>.

c. An eligible community building academic program includes, but is not limited to, accredited graduate degree programs in community and economic development, community planning, community management, community organizing, public administration, public policy, urban economics, urban management, and urban planning.

d. The minimum number of students that may be assisted per participating institution is three. If an APO or state receives assistance for a program that is conducted by two or more institutions, each participating institution must have a minimum of three students per program. The maximum number of students that can be assisted under this program is five per participating institution. The maximum amount an institution can request for funding is \$150,000.

e. Only one application is eligible for funding from an institution.

f. Applicants must receive a minimum score of 75 points to be considered for funding.

g. An applicant must have a DUNS Number to receive HUD grant funds. (The General Section of the SuperNOFA provides information regarding the DUNS requirement.)

2. Program Requirements

In addition to the program requirements listed in the General Section of the SuperNOFA, applicants must meet the following program requirements:

a. All funds awarded under this program must be spent during a two-year (24 months) grant performance period.

b. Applicants must have on file a signed agreement with each student that covers the purpose of the work placement, responsibilities of both parties, including financial support and work components. This agreement should also address the student's responsibilities as described in the program regulations.

c. Applicants must have on file a signed agreement with each work placement agency that covers the purpose of the work placement, and the respective roles of all parties. Among other matters determined to be appropriate, this agreement should address the work placement agency's responsibilities described in the program regulations.

(Note: HUD does not provide a model or sample format for either of these agreements.)

IV. Application and Submission Information**A. Address to Request Application Package**

Applicants may request general information, copies of the General Section and Program Sections of the SuperNOFA from the NOFA Information Center by calling 800-HUD-8929 or persons with hearing or speech impairments may call 800-HUD-2209 (TTY) between the hours of 9 a.m. and 8 p.m. (eastern time) Monday through Friday, except on Federal holidays. When requesting information, please refer to the Community Development Work Study Program. Be sure to provide your name, address (including zip code), and telephone number (including area code). To ensure sufficient time to prepare an application, requests for copies of the SuperNOFA can be made immediately following publication of the SuperNOFA. The NOFA Information Center opens for business simultaneously with the publication of HUD's 2004 NOFA. Applicants can also obtain information on the SuperNOFA and download application information for the SuperNOFA through the HUD Web site, <http://www.hud.gov>.

B. Content and Form of Application Submission

A completed application package must include an original signed application, three copies, and one computer disk of the application (in Word 6.0 or higher) of the items listed below. (The computer disk must include the narrative portion of the application and all required forms. Forms can be downloaded from the HUD Web site, <http://www.hud.gov>.) In order to recycle paper, applicants must not submit

applications in bound form; binder clips or loose-leaf binders are acceptable. Please do not use colored paper. The application narrative must not exceed 50 pages in length (excluding forms and assurances, Executive Summary, agreements and letters) and must be submitted on 8½ by 11-inch paper, double-spaced on one side of the paper, with one inch margins (from the top, bottom, left and right) and printed in standard Times New Roman 12-point font. The double-spacing requirement applies to all parts of the program narrative (the Executive Summary, maps, tables, agreements, letters, photocopies of excerpts from official publications of the educational institution or department are excluded from this requirement). Please do not provide any additional exhibits, appendices, or resumes to support responses. No additional attachments are permitted. Please note that although submitting pages in excess of the page limit will not disqualify an application, HUD will not consider the information on any excess pages. This may result in a lower score or failure to meet a threshold. Please make sure that all items are submitted in the order listed below and that all pages are numbered and the name of the university on each page. Except where a particular form may direct otherwise, all forms included in an application, as well as the transmittal letter, must be signed by the Chief Executive Officer (this is generally the President or Provost) or an official designee legally authorized to make a commitment on behalf of the institution. If a designee signs, the application must contain a copy of the official delegation of signatory authority.

Please include in your application each item listed in the order below:

1. SF-424, *Application for Federal Assistance*. Applicants can find instructions for completing this form on the back of the first page of the form. Please remember the following:

a. The full grant amount for the entire two years should be entered, not the amount for just one year;

b. Include the name, title, address, telephone number, facsimile number, and e-mail address of the designated contact. This is the person who will receive the reviewers' comments; therefore, please ensure the accuracy of the information;

c. The Employer Identification/Tax ID;

d. The DUNS Number;

e. The Catalog of Federal Domestic Assistance Number for this program is 14.512;

f. The project's proposed start date and completion date. For the purpose of

this application; the program start date should be October 1, 2004; and

g. The signature of an authorized official (an individual who has the authority to make a binding commitment on behalf of the institution).

2. *Transmittal Letter.* This letter should contain a statement that the institution of higher education (not the department or program) that will be receiving funds under this grant is fully accredited. This letter must state not only the name of the accrediting agency but also that the particular accrediting agency is recognized by the U.S. Department of Education. If a state or APO is the applicant, the transmittal letter must set forth this assurance for each institution of higher education with whom they will be working. The Chief Executive Officer (usually the President or Provost) of the institution must sign this letter. If the Chief Executive Officer has delegated this responsibility to another official, that person may sign, but a copy of the delegation must be included or clearly stated in the letter.

3. *Application Checklist.* Applicants must include the completed checklist in their application. On the checklist, the applicant must indicate the page number where each of the items can be found in the application (See Appendix A).

4. *Executive Summary.* Applicants must include no more than three pages in length. The Executive Summary must, at a minimum, describe:

- The academic degree programs for which the students will be selected;
- The type of work placement agencies (including specific examples) that have committed to participate in the program (students cannot be placed at a federal government agency);
- The plans and resources/facilities for administering the program and assisting students to pursue post-academic or community building opportunities; and
- The contact person and the address where correspondence and all other information should be sent. If this is not included, all information will be forwarded to the address and the official named on the Form SF-424.

5. *Designation of Applicable Graduate Degree Program(s) Form HUD-30013 (Community Development Work Study Program Designation of Applicable Graduate Academic Degree Program).* Review carefully the regulations dealing with eligible types of degree programs before completing this form. If the proposed program is other than one listed as an eligible degree program, please contact Madlyn Wohlman-

Rodriguez or Susan Brunson for additional guidance.

6. *Narrative statement addressing the Factors for Award.* HUD will use the narrative response to the "Factors for Award" to evaluate, rate, and rank applications. This statement and management plan are the main source of information. Applicants are advised to review each factor carefully for program specific requirements. The response to each factor should be concise and contain only information relevant to the factor, but detailed enough to address each factor fully. Please do not repeat material in response to the five factors; instead, focus on how well the proposal responds to each of the factors. In factors where there are subfactors, each subfactor must be presented separately, with the short title of the subfactor presented. Make sure to address each subfactor and provide sufficient information about every element of the subfactor.

7. *Budget.* Use the budget form HUD-30015 (Community Development Work Study Program Student Budget Sheet) for the August 2004 through August 2006 funding period. An APO and/or state must also complete the HUD-30014 (Community Development Work Study Program State/Area-wide Planning Organization Budget Summary). Please provide any necessary back-up documentation (e.g., pages from course catalogues listing the fees) to demonstrate concisely that the amounts requested are reasonable and customary. Applicants are not required to submit documentation for the administrative allowance amount. Any anticipated increases to these project costs should be included and an explanation for the basis of the increases provided. If documentation is not included, the award amount will be based on current tuition rates, regardless of any subsequent tuition increase. HUD will not increase the amount of the grant once awarded to reflect any tuition or fee increases that have not been set forth in the application. Also, HUD will not cover any costs exceeding the per-student maximum.

8. *Audits.* Applicants must ensure that their most current A-133 audit is on file at the Federal Audit Clearinghouse. Grantees that expend \$500,000 or more in Federal financial assistance in a single year (this can be program year or fiscal year) must be audited in accordance with the OMB requirements as established in 24 CFR parts 84 and 85. Additional information regarding this requirement can be accessed at the following Web site <http://harvester.census.gov/sac>.

9. *Appendix.* Applicants must place the letters of support and agreements in this section. An applicant may not submit general support letters or resumes or other back-up materials (unless an applicant is willing to have the latter count toward the page limit requirement).

C. Submission Dates and Times

An application package is due June 16, 2004. Please see the General Section of the SuperNOFA for application submission, delivery, and timely receipt requirements.

D. Intergovernmental Review

This program is excluded from an Intergovernmental Review.

E. Funding Restrictions

Funding may only be provided to applicants that meet the standards for eligible applicants defined in section III.

F. Other Submission Requirements

1. Complete Application Package

This package must be submitted to the following address: University Partnerships Clearinghouse, c/o Danya International 8737 Colesville Road, Suite 1200, Silver Spring, MD 20910. When submitting an application package, also please include the following information on the outside of the envelope:

- Office of University Partnerships;
- Community Development Work Study Program; and
- Applicant's name and mailing address (including ZIP code).

2. Forms, Certifications, and Assurances

The following certifications and assurances must be included in all application packages. These forms must be signed by the Chief Executive Officer (or official designee, not the student) of the institution and can be downloaded from <http://www.hud.gov>.

- Application for Federal Assistance (SF-424).
- Applicant Assurances and Certification (SF-424B).
- Disclosure of Lobbying Activities (SF-LLL).
- America's Affordable Communities Initiative Removal of Regulatory Barriers (HUD-27300), if applicable.
- Applicant/Recipient Disclosure Update Report (HUD-2880).
- Program Logic Model (HUD-96010).
- Acknowledgment of Receipt of Applications (HUD-2993). To confirm that HUD received the application package, please complete this form. Applicants are not required to include this form, but it is recommended that an applicant do so.

h. Client Comments and Suggestions (HUD-2994). This form is included to solicit information from the most valuable source, the applicant. The changes that we have instituted this year are designed to make things easier for the applicant. If applicants complete and submit this form, it will help HUD to assess whether the changes made to this document have had the intended results. It will also guide us in our continuing efforts to improve the competitive grant process. Applicants are not required to complete this form.

V. Application Review Information

A. Criteria

1. *Rating Factor 1: Capacity of the Academic Program and Relevant Past Experience (25 Points)*. This factor addresses the extent to which an applicant's academic program has the capacity to prepare students for careers in community building. In evaluating this factor, HUD will consider:

a. *Capacity of the Academic Program For Previously Unfunded Applicants (20 Points)*. For *Previously Funded Applicants (15 Points)*. Applicants must describe the quality of the academic program the institution offers (or in the case of an application from an APO or state, those offered by the institutions included in the application) including, without limitation, the following:

(1) The course offerings in terms of their depth and emphasis on applied coursework;

(2) The necessities of the courses offered to prepare students for professional careers in community building; and

(3) Qualifications of the faculty, such as the number of relevant Ph.D.s, specific accomplishments and the percentage of their time devoted to teaching and research in community building.

As a supplement to the narrative response, applicants can include photocopies of excerpts from official publications of the educational institution or department. Please make sure to place these documents after the narrative and include them in the page count.

b. *Rates of Graduation. For Previously Unfunded Applicants (5 Points)*. For *Previously Funded Applicants (10 Points)*. HUD will evaluate the graduation rates of students previously enrolled in a community building academic degree program, specifically (where applicable) graduation rates from any previously funded CDWSP academic programs or similar programs. This factor measures the rate of graduation for all applicable years and

awards points based on the extent to which the applicant exceeds a 50 percent graduation rate each applicable year. Previously funded CDWSP programs should include copies of the final Community Development Work Study Program Student Data Sheet, HUD-30007, for each previously enrolled student who received assistance from the program.

2. *Rating Factor 2: Need for the Program (10 Points)*. This factor addresses the extent to which there is a need for funding the proposed program activities and an indication of the importance of meeting the need. In responding to this factor, HUD will evaluate the applicant's commitment to meeting the needs of economically disadvantaged and minority students as demonstrated by the institution's policies and plans, past efforts and successes recruiting, enrolling, and financially assisting economically disadvantaged and minority students, including the provision of reasonable accommodations for students with disabilities. If the applicant is an APO or State, HUD will consider the demonstrated commitment of each accredited institution of higher education on whose behalf the APO or State is applying.

3. *Rating Factor 3: Soundness of Approach (45 Points)*. This factor addresses the quality and effectiveness of the proposed student work placement assignments.

a. *Quality of the Work Placement Assignments (13 Points)*. HUD will evaluate the extent to which participating students will receive a variety of work placement assignments. (Note: Students cannot be placed with a Federal government agency.) The assignments should provide practical and useful experience to students participating in the program and further the participating students' preparation for professional careers in community building. In rating this subfactor, HUD will consider the variety of work placement agencies, and the variety of projects/experiences at each agency and overall. Applicants must also include a description of the plan for rotating students among work placement agencies. **Note:** Students engaging in community building projects through an institution of higher education (rather than being directly supervised by local work placement sites) may do so only through a HUD-funded Community Outreach Partnership Center (COPC), which will be considered a work placement agency even if the community building projects are undertaken with or through a separate organization or entity. Accordingly,

students engaging in community building through an institution of higher education's outreach center should do so during only part of their academic program and should rotate to other work placement agency responsibilities as well. In order to receive higher points on this subfactor, applicants must propose at least three different work placement experiences for each student (typically, one each school year and one during the summer between the two school years) and include executed agreements with their proposed work study sites, rather than just listing the sites.

b. *Effectiveness of Program Administration (15 Points)*. HUD will evaluate the degree to which the applicant will be able to coordinate and administer the program. HUD will allocate the maximum points available under this criterion equally among the following three considerations, except that the maximum points available under this criterion will be allocated equally only between (a) and (b), if the applicant has not previously administered a CDWSP-funded program. If an applicant received a CDWSP grant in FY2000 or before and has not received one since, the applicant is considered a new applicant, for the purposes of this factor.

Applicants must include a Management Work Plan that addresses the following details at a minimum:

(1) The strength and clarity of the plan for placing CDWSP students on rotating work placement assignments and for monitoring CDWSP students' progress both academically and in their work placement assignments. In addition, include plans, procedures, schedules, and preferably a milestone chart that indicates the sequence in which these tasks will be performed, noting areas of work that will be performed simultaneously and continually during the life of the grant, along with the name of the responsible individual. Also, include plans for recruiting and selecting students, monitoring and guidance of students' academic progress, coordinating and monitoring student work placement agencies, and other matters deemed significant;

(2) The key personnel responsible for administering, managing, and evaluating the project, the experience, responsibilities, available time, and authority of the individual who will coordinate and administer the program; and

(3) The effectiveness of prior coordination and administration of a CDWSP-funded program, where applicable. In addressing this factor,

applicants should describe the timeliness of report submissions. Applicants should review their prior CDWSP grant agreements and reports and compare when reports were due with when the reports actually were submitted. Applicants should also describe their timeliness in expending grant funds. Applicants are encouraged to provide a chart that outlines report submissions for each grant by the submission date and the pattern of drawing down of funds.

c. Likelihood of Fostering Students' Permanent Employment in Community Building (15 Points). HUD will evaluate the extent to which the proposed program will lead participating students directly and immediately to permanent employment in community building. Include a statement that describes, at a minimum, the following:

(1) Past success (in the last four years) in placing graduates (particularly CDWSP-funded and similar program graduates, where applicable) in permanent employment in community building; and

(2) How the institution will assist students (particularly students in CDWSP-funded and similar programs, where applicable) in finding permanent employment in community building. Include the amount/type of faculty/staff time and resources that will be devoted to assisting students.

d. HUD Policy Priorities (2 Points). HUD encourages applicants to undertake specific activities that will assist the Department in implementing its policy priorities and which will help the Department achieve its goals and objectives in FY2005, when the majority of grant recipients will be reporting programmatic results and achievements. In addressing this factor, HUD will evaluate the extent to which an applicant will provide students with work place assignments that undertake specific activities that will further and support HUD's policy priorities and FY2005 goals. In rating this factor, HUD will evaluate the quality of the responses provided to one or more of HUD's priorities to determine the score an applicant can receive. Applicants must describe how each policy priority selected will be addressed. Applicants that just list a priority will receive no points. Each policy priority addressed has a point value of one point with the exception of the policy priority to remove regulatory barriers to affordable housing, which has a point value of up to 2 points. The total number of points available to applicants that address policy priorities is 2. It is up to the applicant to determine which of the policy priorities they elect to address to

receive the available 2 points. To receive points for efforts to remove regulatory barriers to affordable housing, an applicant must submit the completed questionnaire found in the General Section. (Form HUD-27300). For the full list and explanation of each policy priority, please refer to the General Section of this SuperNOFA.

4. *Rating Factor 4: Leveraging Resources (10 points)*. HUD will evaluate the applicant's commitment and ability to assure that CDWSP students will receive sufficient financial assistance above and beyond the CDWSP funding to complete their academic program in a timely manner and without working in excess of 20 hours a week during the school year. When addressing this issue, delineate the full costs budgeted annually per student (including living expenses, fees, etc), explain the basis for the budget and how the financial assistance package offered to each CDWSP student will meet that budget. Applicants must explain how variations in the budget needs and emergency financial needs will be addressed among students. Loans are less preferred than grants because of the burden placed on the student to repay them. Therefore, higher points will be given to applicants that provide assistance in the form of grants rather than loans.

5. *Rating Factor 5: Achieving Results and Program Evaluation (10 Points)*. This factor reflects HUD's goal to embrace high standards of management and accountability. The factor measures the applicant's commitment to assess their performance to achieve the project's proposed objectives and goals. Applicants are required to develop an effective, quantifiable, outcome-oriented evaluation plan for measuring performance and determining that objectives and goals have been achieved. All performance indicators should be objectively quantifiable and measure actual achievements against anticipated achievements. Applicants must also describe the steps that will be taken to make adjustments to the work plan if performance targets are not met within the established time frame associated with each activity. At a minimum, the evaluation plan should address the following activities:

- a. Student recruitment;
- b. Student completion of degree program; and
- c. Long-term placement after graduation (1 year after graduation).

This information must be placed under this section on a HUD-96010, Program Outcome Logic Model form. (Applicants can use as many copies of this form as required. It will not be

included in the page count requirement.) A narrative is not required for this factor; however, if a narrative is provided, those pages will be included in the page count. Additional information on how to use this form can be found in the General Section of the SuperNOFA.

B. Review and Selection Process

1. Application Selection Process

Two types of reviews will be conducted.

- a. A threshold review to determine an applicant's basic eligibility; and
- b. A technical review based on the "Factors for Award" listed above.

Only those applications that pass the threshold review will receive a technical review and be rated and ranked.

2. Rating Panels

To review and rate applications, HUD may establish panels which may include persons not currently employed by HUD. These individuals may be included to obtain certain expertise.

3. Ranking

HUD will fund applications in rank order, until all available program funds are awarded. In order to be funded, an application must receive a minimum score of 75 points. The maximum number of points available for this program is 100. The RC/EZ/EC points described in the General Section of the SuperNOFA do not apply to this program. HUD may make awards out of rank order to achieve geographic diversity, and may provide assistance to support a number of students that is less than the number requested under an application or a lower funding level per student, in order to provide assistance to as many highly ranked applications as possible. If there is a tie in the point scores of two applications, the rank order will be determined by the scores on Rating Factor 3 entitled "Soundness of Approach." The application with the higher points on this factor will be given the higher rank. If there is still a tie, the rank order will be determined by the applicants' scores on Rating Factor 1 entitled "Capacity of the Applicant's Academic Program and Relevant Past Experience." The application with the higher points for this selection factor will be given the higher rank.

4. Correction to Deficient Applications

The General Section of the SuperNOFA provides the procedures for correction to deficient applications.

C. Anticipated Announcement and Award Dates

Announcements of awards are anticipated on or before September 30, 2004.

VI. Award Administration Information

A. Award Notice

After all selections have been made, HUD will notify all winning applicants in writing. HUD may require winning applicants to participate in additional negotiations before receiving an official award. For further discussion on this matter, please refer to the General Section of the SuperNOFA.

B. Administrative and National Policy Requirements

The provisions of the HUD Reform Act of 1989 that apply to this NOFA are explained in the General Section of this SuperNOFA.

1. Debriefing

The General Section of the SuperNOFA provides the procedures for requesting a debriefing. All requests for a debriefing must be made in writing and submitted to Armand Carriere, Office of University Partnerships, Robert C. Weaver Federal Building, 451 7th Street, SW., Room 8106, Washington, DC 20410.

2. Environmental Requirements

In accordance with 24 CFR 50.19 (b) (3) and (b) (9) of the HUD regulations, activities assisted under this program are categorically excluded from the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321) and are not subject to environmental review under the related laws and authorities.

C. Reporting

All grant recipients under this NOFA are required to submit semi-annual progress reports. The progress reports shall consist of two components, a narrative (including forms) that must reflect the activities undertaken during the reporting period and a financial report that reflects costs incurred during the reporting period, as well as a cumulative summary.

For each reporting period, as part of the required report to HUD, a grant recipient must include a completed Logic Model (Form HUD-96010), which identifies output and outcome achievements.

VII. Agency Contacts

Applicants may contact Madlyn Wohlman-Rodriguez at (202) 708-3061, extension 5939 or Susan Brunson, at (202) 708-3061, extension 3852. Person with speech or hearing impairments may call the Federal Information Relay Service TTY at (800) 877-8339. Except

for the "800" number, these numbers are not toll-free. Applicants may also reach Ms. Rodriguez via e-mail at Madlyn_S._Wohlman-Rodriguez@hud.gov, and/or Ms. Brunson at Susan_S._Brunson@hud.gov.

VIII. Other Information

1. *Paperwork Reduction Act*: The information collection requirements contained in this document have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB control number 2528-0175. In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number. Public reporting burden for the collection of information is estimated to average 60 hours per annum per respondent for the application and grant administration. This includes the time for collecting, reviewing, and reporting the data for the application, semi-annual reports, and final report. The information will be used for grantee selection and monitoring the administration of funds. Response to this request for information is required in order to receive the benefits to be derived.

BILLING CODE 4210-32-P

APPENDIX A

COMMUNITY DEVELOPMENT WORK STUDY PROGRAM
APPLICATION CHECKLIST

This checklist identifies application submission requirements. Applicants are requested to use this checklist when preparing an application to ensure submission of all required elements. Please present the information in the application in the order outline below and indicate on each line the page number where each of the items can be found in the application. Standard Forms and required certifications are found in the **General Section** of the SuperNOFA and can be downloaded from HUD's website, www.hud.gov.

I. PART A

- _____ SF-424, "Application for Federal Assistances"
- _____ Transmittal Letter
- _____ Application Checklist
- _____ Executive Summary (no more than three (3) pages in length)
- _____ HUD-30013 "Community Development Work Study Program Designation of Applicable Degree Program"
- _____ Narrative statement addressing selection factors for award must not exceed 50 pages in length (excluding required forms, assurances, Executive Summary, agreements and letters), double-spaced on one side, with one-inch margins (from top, bottom, left and right) printed in standard Times New Roman 12-point font.
- _____ Management Workplan (no form provided)
- _____ HUD-30007 "Community Development Work Study Program Student Data Sheets"
- _____ HUD-96010, "Program Outcome Logic Model"
- _____ Appendix (letters of support and agreements)
 - _____ Recipient/Student Binding Agreement (No form provided)
 - _____ Recipient/Work Placement Agreement (No form provided)
- _____ Computer disk

II. PART B

- _____ HUD-30015, "Community Development Work Study Program Student Budget Sheet"
- _____ HUD-30014, "Budget Cover Sheet for State/Area-Wide Planning Organizations Budget Summary Sheet (applicable only for States and APOs)"
- _____ SF-424-B, "Applicant Assurances and Certifications"
- _____ HUD-27300 "America's Affordable Communities Initiative Removal of Regulatory Barriers" (if applicable)
- _____ HUD Form 2880, Applicant/Recipient Disclosure Update Report
- _____ HUD Form 2993, Acknowledgement of Application Receipt (not required)
- _____ HUD Form 2994, Client Comments and Suggests (not required)

Community Development Work Study Program Designation of Applicable Graduate Academic Degree Program

U.S. Department of Housing and Urban Development Office of University Partnerships

OMB Approval No. 2528-0175 (exp. 10/31/2003)

The information collection requirements contained in this notice of funding availability and application kit will be used to rate applications, determine eligibility, and establish grant amounts for the Community Development Work Study Program, (CDWSP). Total reporting burden for collection of this information is estimated to average 1 hour. This includes time for reviewing instructions, searching existing data resources, gathering, and maintaining the data needed, completing, and reviewing the collection of information. The information submitted in response to the notice of funding availability for CDWSP is subject to the disclosure requirements of the Department of Housing and Urban Development Reform Act of 1989 (Pub.L. 101-235, approved December 15, 1989, U.S.C. 3545). The agency may not conduct or sponsor, and a person is not required to, a collection of information unless the collection displays a valid control number.

To be eligible for participation in the Community Development Work Study Program (CDWSP), an institution must have a graduate academic degree program in one of the relevant fields as defined in the program's regulations. Closely examine the definitions of "community building" and "community building academic program" in the regulations and, if in doubt, speak with the program staff in the Office of University Partnerships before preparing an application.

Below are the degree programs that the institution has determined as eligible programs to implement this CDWSP grant.

Academic Degree Program(s)

Attached are photocopies of excerpts from an official publication of the educational institution(s) or department setting forth the degree requirements and listing the courses applicable for the particular academic program(s) to which this grant will apply.

Fair Housing Organizations Initiative (FHOI)

Fair Housing Initiatives Program

Overview Information

A. *Federal Agency Name*: Department of Housing and Urban Development, Office of Fair Housing and Equal Opportunity.

B. *Funding Opportunity Title*: Fair Housing Initiatives Program (FHIP).

C. *Announcement Type*: Initial announcement.

D. *Funding Opportunity Number*: The Federal Register number for this NOFA is FR-4900-N-22. The OMB Approval Number is: 2539-0033.

E. *Catalog of Federal Domestic Assistance (CFDA) Number(s)*: Private Enforcement Initiative (PEI) 14.410; Fair Housing Organizations Initiative (FHOI) 14.413; Education and Outreach Initiative (EOI) 14.409.

F. *Dates*: The application due date shall be on or before June 29, 2004. Please see the General Section for information on submission and timeliness requirements.

G. *Optional, Additional Overview Content Information*:

1. FHIP funds are used to increase compliance with the Fair Housing Act (the Act) and with substantially equivalent State and local fair housing laws.

2. Approximately \$17,730,525 in FY2004 funds and any potential recapture is allocated to three (3) initiatives as follows:

a. Private Enforcement Initiative (PEI) \$11,850,000.

b. Education and Outreach Initiative (EOI) \$ 3,780,525.

c. Fair Housing Organizations Initiative (FHOI) \$2,100,000.

3. HUD expects to award a cost reimbursable cooperative agreement or grant agreement to each applicant selected for award. Upon completion of negotiations, HUD reserves the right to use the funding instrument it determines is most appropriate. Eligible applicants are Qualified Fair Housing Enforcement Organizations (QFHOs) and Fair Housing Enforcement Organizations (FHOs); see 24 CFR 125.103; public or private, for-profit or not-for-profit organizations or institutions, and other public or private entities that are formulating or carrying out programs to prevent or eliminate discriminatory housing practices (including entities that will be established as a result of receiving an award under this FHIP NOFA); agencies of state or local governments; and agencies that participate in the Fair Housing Assistance Program. Except for applicants under FHOI, applicants may not submit multiple applications under this NOFA;

If you are interested in applying for funding under the Fair Housing Initiatives Program (FHIP), please review carefully the General Section of the SuperNOFA (hereafter, the General Section), the FHIP Authorizing Statute (sec. 561 of the Housing and Community Development Act of 1987, as amended), the FHIP Regulations (24 CFR 125.103-501),

For planning purposes, assume a start date no later than September 30, 2004.

Full Text of Announcement

I. Funding Opportunity Description

For Fiscal Year 2004, \$20,130,525 is appropriated for the Fair Housing Initiatives Program. Of this amount, \$17,730,525 is being made available on a competitive basis to eligible organizations responding to this FHIP program section of the SuperNOFA.

Authority. Section 561 of the Housing and Community Development Act of 1987, as amended, (42 U.S.C. 3616) established the Fair Housing Initiatives Program (FHIP) and the implementing regulations are found at 24 CFR part 125.

A. FHIP Initiatives and Components

The Fair Housing Initiatives Program (FHIP) and its regulations at 24 CFR part 125, assists fair housing activities that increase compliance with the Fair Housing Act (the Act) and with substantially equivalent fair housing laws administered by state and local government agencies under the Fair Housing Assistance Program (FHAP).

1. Private Enforcement Initiative (PEI)

This Initiative assists private, tax-exempt fair housing enforcement organizations in the investigation and enforcement of alleged violations of the Act and substantially equivalent state and local fair housing laws.

2. Education and Outreach Initiative (EOI)

This Initiative assists projects that inform the public about the rights and obligations under the Act and substantially equivalent state and local fair housing laws. Under this Initiative, you must develop a complaint referral process so that activities funded under this Initiative will result in referrals to HUD of fair housing complaints and other information regarding possible discriminatory housing practices. Applications are solicited for this Initiative under the EOI-Regional/Local/Community-Based Program (R/L/C-B)—in which activities are conducted on a regional/local/community-based level, or under a National Program in which activities are conducted on a national

level. Applicants who apply under EOI R/L/C/B may apply under one of four components, as follows: EOI General Component; EOI Disability Component; EOI Hispanic Fair Housing Awareness Component; or the EOI Fair Housing and Minority Homeownership Component. Applicants applying under the EOI National Program only apply for one component, the Media Campaign Component. Applications submitted under EOI are required to describe a complaint referral process that should result in referrals to HUD of fair housing complaints and other information regarding discriminatory housing practices.

3. Fair Housing Organizations Initiative (FHOI)

This Initiative provides assistance to projects (sponsoring organizations) that establish or build the capacity of organizations to become viable fair housing enforcement organizations that conduct fair housing activities in underserved areas (as defined in section III Program Definitions) or in rural areas and areas with new immigrants (especially racial and ethnic minorities who are not English-speaking or have limited English proficiency). This is accomplished with the assistance of a sponsoring organization. The sponsoring organization must submit the application and must certify that the sponsored organization has the ability to become a QFHO or FHO. The period of performance for the award of funds to assist in capacity building activities is renewable for a period of up to three years, based upon successful performance of the sponsored organization. Funds are distributed to the sponsored organization by the sponsoring organization. All fund distributions are based on the performance of both the sponsoring and the sponsored organization. The sponsoring organization may expend FHIP funds for administrative costs as described below. HUD has targeted for funding under this Initiative projects that will provide fair housing enforcement services to rural areas, to underserved areas, and to immigrants (especially racial and ethnic minorities who are not English speaking or have limited English proficiency).

B. Program Definitions

The definitions that apply to this FHIP section of the NOFA are as follows:

1. *Broad-based proposals* are those that include activities that are not limited to a single fair housing issue; instead, they cover multiple issues related to housing discrimination

covered under the Act, such as: rental, sales and financing of housing. (See also Full Service Projects below).

2. *Complaint* means the person, including the Assistant Secretary for Fair Housing and Equal Opportunity at HUD, who files a complaint under section 810 of the Fair Housing Act.

3. *Disability Advocacy Groups* means organizations that traditionally have provided for the civil rights of persons with disabilities. This would include organizations such as Independent Living Centers and cross-disability legal services groups. Such organizations must be experienced in providing services to persons with a broad range of disabilities, including physical, cognitive, and psychiatric/mental disabilities. Such organizations must demonstrate actual involvement of persons with disabilities throughout their activities, including on staff and board levels.

4. *Enforcement proposals* are potential complaints under the Act that are timely, jurisdictional, and well-developed, that could reasonably be expected to become enforcement actions if an impartial investigation finds evidence supporting the allegations and the cases proceeded to a resolution with HUD or FHAP Agency involvement.

5. *Fair Housing Act* means Title VIII of the Civil Rights Act of 1968 as amended by the Fair Housing Amendments Act of 1988 (42 U.S.C. 3600-3620).

6. *Fair Housing Assistance Program (FHAP) Agencies* mean State and local fair housing enforcement government agencies that receive FHAP funds because they administer laws deemed substantially equivalent to the Act, as described in 24 CFR part 115.

7. *Fair Housing Enforcement Organization (FHO)* means an organization engaged in fair housing activities as defined in 24 CFR 125.103.

8. *Full-service projects* must include the following enforcement-related activities in your project application: Interviewing potential victims of discrimination; analyzing housing-related issues; taking complaints; testing; evaluating testing results; conducting preliminary investigations; conducting mediation; enforcing meritorious claims through litigation or referral to administrative enforcement agencies; and disseminating information about fair housing laws.

9. *Grassroots organizations*. See General Section.

10. *Jurisdiction* means that the complaint must be timely filed; the complainant must have standing; the respondent and the dwelling involved (where the complaint involves a

provision or denial of a dwelling) must be covered by the Act; and the subject matter or issue, and the basis of the alleged discrimination, must constitute illegal practices as defined by the Act.

11. *Meritorious claims* means enforcement activities by an organization that resulted in lawsuits, consent decrees, legal settlements, HUD and/or substantial equivalent agency (under 25 CFR 115.6) conciliations and organization initiated settlements with the outcome of monetary awards for compensatory and/or punitive damages to plaintiffs or complaining parties, or other affirmative relief, including the provision of housing (24 CFR 125.103).

12. *Minority Serving Institutions* (See General Section).

13. *Operating budget* means your organization's total planned budget expenditures from all sources, including the value of in-kind and monetary contributions, in the period for which funding is requested.

14. *Qualified Fair Housing Enforcement Organization (QFHO)* means an organization engaged in fair housing activities as defined in 24 CFR 125.103.

15. *Regional/Local/Community-Based Activities* are defined at 24 CFR 125.301(a) and (d).

16. *Rural Areas*, according to the Rural Housing and Economic Development Program of Community Planning and Development (CPD), may be defined in one of the following five ways:

a. A place having fewer than 2,500 inhabitants (within or outside of metropolitan areas);

b. A county with no urban population (i.e., city) of 20,000 inhabitants or more; territory, persons and housing units in the rural portions of 'extended cities';

c. The rural portions of extended cities in the United States as identified by the U.S. Census Bureau;

d. Open country that is not part of or associated with an urban area. The United States Department of Agriculture (USDA) describes open country as a site separated by open space from any adjacent densely populated urban area. Open space includes undeveloped land, agricultural land, or sparsely settled areas, but does not include physical barriers (such as rivers or canals), public parks, commercial and industrial developments, small areas reserved for recreational purposes, and open space set aside for future development; or

e. Any place with a population not in excess of 20,000 and that is not located in a Metropolitan Statistical Area.

17. *Traditional Civil Rights Organizations* mean non-profit organizations or institutions and/or

private entities with a history and primary mission of securing Federal civil rights protection for groups and individuals protected under the Act or substantially equivalent state or local laws and that are engaged in programs to prevent or eliminate discriminatory housing practices.

18. *Underserved Areas* mean jurisdictions where there are no Fair Housing Initiatives Program or Fair Housing Assistance Program agencies and where either no public or private fair housing enforcement organizations exist or the jurisdiction is not sufficiently served by one or more public or private enforcement fair housing organizations and there is a need for service.

19. *Underserved Populations* mean groups of individuals who fall within one or more of the categories protected under the Act and who are also:

- Of an immigrant population (especially racial and ethnic minorities who are not English-speaking or with limited English proficiency);
- In rural populations;
- The homeless;
- Persons with disabilities who can be historically documented to have been subject to discriminatory practices not having been the focus of federal, state or local fair housing enforcement efforts; and
- Areas that are heavily impacted with minorities and there is inadequate protection and ability to provide service from the state or local government or private fair housing organizations.

II. Award Information

The amount available for each initiative or component and the maximum amount of funds that can be awarded for each award are specified as follows:

A. *Private Enforcement Initiative (PEI)*. Approximately \$11,850,000 is allocated; maximum award is \$275,000 per grant; project duration is 12-18 months. For PEI, the estimated number of awards is 43.

B. *Education and Outreach Initiative (EOI)*. Approximately \$3,780,525 is allocated to five components under this initiative for EOI, the estimated number of awards is 33. The maximum award is \$100,000 for the R/L/CB Program and the project duration is 12-18 months. These components are as follows:

- EOI-General Component. Approximately \$1,980,525 is allocated.
- EOI-Disability Component. Approximately \$500,000 is allocated.
- Hispanic Fair Housing Awareness Component. Approximately \$400,000 is allocated.

4. Fair Housing and Minority Homeownership Component. Approximately \$400,000 is allocated.

The fifth Component falls under the EOI-National Program:

5. Media Campaign Component. Approximately \$500,000 is allocated. The maximum award for the EOI National Program "Media Campaign Component" is \$500,000 and the project duration is 12 months.

C. *Fair Housing Organizations Initiative (FHOI)*. Approximately \$2,100,000 is allocated; project duration is three years. Maximum award is \$1,050,000 allocated over a three-year period at up to \$350,000 per year. For FHOI the estimated number of awards is two.

D. *Award Instrument*. The type of funding instrument HUD may offer a successful applicant which sets forth the relationship between HUD and the grantee will be a grant or cooperative agreement, where the principal purpose is the transfer of funds, property, services, or anything of value to the applicant to accomplish a public purpose. Upon completion of negotiations, HUD reserves the right to use the funding instrument it determines is most appropriate. The agreement will identify the eligible activities to be undertaken, financial controls, and special conditions, including sanctions for violations of the agreement. HUD will determine the type of instrument under which your award will be made and monitor your progress to ensure that you have achieved the objectives set out in your agreement. Failure to meet such objectives may be the basis for HUD determining your agreement to be in default and exercising available sanctions, including suspension, termination, and/or the recapture of your funds. Also HUD may refer violations or suspected violations to enforcement offices within HUD, the Department of Justice, or other enforcement authorities.

If awarded as a Cooperative Agreement, HUD will also exercise the right to have substantial involvement by conducting quarterly reviews and approval of all proposed deliverables documented in the applicant's Work Plan or Statement of Work (SOW), and determining whether the agency meets all certification and assurance requirements under the grants, cooperative agreement, etc. This assessment will also be carried out by using the information supplied by the agency in its proposed Logic Model (Rating Factor 5). If upon completion of this assessment by your Government Technical Representative (GTR) a determination is made that your

quarterly requirements have not been met, you, the grantee, will be obligated to provide additional information or make modifications, as necessary, in a time frame to be established by your GTR.

E. *Project Starting Period*. For planning purposes, assume a start date no later than September 30, 2004.

III. Eligibility Information

A. Eligible Applicants

1. Private Enforcement Initiative (PEI)

a. *Eligible Applicants*. Eligible applicants are fair housing enforcement organizations (FHOs) with at least one year of experience in complaint intake, complaint investigation, testing for fair housing violations, and meritorious claims in the two years prior to the filing of this application (24 CFR 125.401(b)(2)) and Qualified Fair Housing Enforcement Organizations (QFHOs) with at least two years of enforcement-related experience, as noted above, and meritorious claims in the three years prior to filing this application, (24 CFR 125.103). All applicants claiming QFHO and FHO status are required to be a 501(c)(3) tax-exempt organization and also to submit with their application a copy of its Letter of Determination from the Internal Revenue Service (IRS) in support of its 501(c)(3) tax-exempt status.

b. *Eligible Activities* include:

(1) Complaint intake of allegations of housing discrimination, testing, evaluating testing results, or providing other investigative and complaint support for administrative and judicial enforcement of fair housing laws. As a condition of funding, you will be required to refer to HUD all cases arising from FHIP-funded enforcement activities (see Mandatory Referrals, section V. "In addition").

(2) Investigations of individual complaints and systemic housing discrimination for further enforcement processing by HUD, through testing and other investigative methods;

(3) Mediated agreements or other voluntary resolution of allegations of fair housing discrimination after a complaint has been filed; and

(4) Litigating fair housing cases including procuring expert witnesses.

c. *Eligibility of Successor Organization*. HUD recognizes that QFHOs and FHOs may merge with each other or other organizations. The merger of a QFHO or an FHO with a new organization, that has a separate Employer Identification Number (EIN), does not confer QFHO or FHO status upon the successor. To determine

whether the successor organization meets the eligibility requirements for this Initiative, HUD will look at the enforcement-related experience of the successor organization (based upon the successor organization's EIN). The successor organization is not eligible to apply under this Initiative unless it establishes in its application that it is a private, tax-exempt organization with the requisite two years of enforcement related experience for a QFHO or one year experience for an FHO.

2. Education and Outreach Initiative

a. *Eligible Applicants*. Eligible applicants are QFHOs; FHOs; public or private, for-profit or not-for-profit organizations, or institutions or other public or private entities, that are formulating or carrying out programs to prevent or eliminate discriminatory housing practices, agencies of State, or local governments; and agencies that participate in the FHAP. If you are a disability advocacy group, or an organization that partners with or substantially provides activities for grassroots faith-based or other community-based organizations, minority universities or institutions, or traditional civil rights organizations, you are encouraged to apply under this Initiative.

b. *Eligible Activities*. The following are eligible activities for the Components under EOI: Conducting educational symposia or other training; developing new and innovative fair housing activities or materials into languages applicable to your community throughout your project area; providing outreach and information on fair housing through printed and electronic media; developing fair housing curricula; providing outreach to persons with disabilities and their support organizations and service housing providers; and working with homeless activists or persons to determine if fair housing plays a part in the homeless situation, and the general public regarding the rights of persons with disabilities under the Act. When conducting your outreach activities, we also encourage the use of existing, fair housing materials, except that we require that you translate these existing materials in languages applicable to your community. Organizations applying under the EOI National Media Campaign Component must conduct the above activities on a national level.

c. *Eligibility of Successor Organization*. HUD recognizes that organizations may merge with each other or other organizations. The merger of an eligible organization with a new organization that has a separate

Employee Identification Number (EIN) or DUNS does not confer eligibility status upon the successor. HUD will make the determination of whether the successor organization meets the eligibility requirements for this Initiative on a case-by case basis.

(1) *Disability Component.* Applicants that emphasize the fair housing needs of person with disabilities, so that persons with disabilities, housing providers and the general public better understand the rights and obligations under the Act and fully appreciate the forms of housing discrimination that persons with disabilities may encounter, should submit their applications to the EOI-Disability Component. Although the Component has a disability focus the funded activities must provide education and outreach to all persons protected under the Act.

(2) *Hispanic Fair Housing Awareness Component.* Applicants must be able to provide bilingual materials and services to Hispanics so that they are aware of and educated about their fair housing rights and responsibilities under the Fair Housing Act. In addition, applicant and staff must have demonstrated bilingual experience, which is defined as 3 years of proven experience in providing social services to persons of Hispanic origin; or must have established a partnership with an established grass-roots, faith-based or other community-based organization to carry out the objectives of this component. Although the component has a focus in providing education and outreach to Hispanic communities, the funded activities must provide education and outreach in a non-discriminatory manner. Grantees may not deny services to any protected class.

(3) *Fair Housing and Minority Homeownership Component.* Under the Fair Housing and Minority Homeownership Component, applicants must demonstrate the ability to conduct community outreach activities to educate people about their rights under the Fair Housing Act and to prepare them for homeownership. The goal of this Component is to improve access to homeownership by racial and ethnic minorities by educating them about fair housing and how to recognize discriminatory housing practices in

sales and financing of housing. Applicants must demonstrate the ability to educate participants about unlawful discrimination including discrimination in the sale of dwellings, discrimination in the financing of dwellings and unlawful segregation resulting from steering and other activities. Please ensure that all activities are tied to the protections outlined in the Fair Housing Act.

(4) *General Component.* Applications for all other fair housing education and outreach activities should be submitted to the EOI-General Component.

(5) *National Media-Component.* Applicants who submit applications under the EOI National Program Media Campaign must provide a centralized coordination effort for the development, implementation, and distribution of a fair housing media campaign designed for FY2005's Fair Housing Month.

3. Fair Housing Organization Initiative

This Initiative provides assistance to projects (sponsoring organizations) that establish or build the capacity of organizations to become viable fair housing enforcement organizations, as referenced in 24 CFR part 125.103, that conduct fair housing enforcement activities in underserved areas (as defined in section V.) in rural areas and areas with new immigrants (especially racial and ethnic minorities who are not English-speaking or have limited English proficiency). It is the sponsoring organization that submits the application under this Initiative and certifies the sponsored organization's ability to become a QFHO or FHO. (Note: The sponsoring organization is ineligible if they received a grant under this Initiative in 2001 or 2002.) The sponsored organization whose enforcement capacity is established or enhanced by funding under this Initiative, will be allowed to participate in this Initiative for three years contingent upon acceptable annual performance reviews. Funds are allocated under this NOFA for this Initiative for three years and distributed to the sponsored organization by the sponsoring organization

a. *Eligible Applicants.* Only the sponsoring organization is eligible to apply under this Initiative. The

sponsoring organization must be a qualified fair housing enforcement organization (QFHO). You must certify in this application that your organization is a QFHO. Sponsored agencies that cannot formulate as private, tax exempt non-profit charitable organizations cannot qualify as a QFHO or an FHO.

b. *Eligible Activities.* The proposed activities must build the enforcement capacity of the sponsored organization so that it can undertake all of the following activities by the conclusion of year 3 of the grant cycle:

(1) Complaint intake of allegations of housing discrimination, testing, evaluating testing results or providing other investigative and complaint support for administrative and judicial enforcement of fair housing laws;

(2) Investigations of individual complaints and systemic housing discrimination for further enforcement processing by HUD, through testing and other investigative methods;

(3) Mediation or other voluntary resolution of allegations of fair housing discrimination after a complaint has been filed; and

(4) Litigating fair housing cases including procuring expert witnesses.

c. *Eligibility of Successor Organization.* HUD recognizes that QFHOs and FHOs may merge with each other or other organizations. The merger of a QFHO or an FHO with a new organization, that has a separate Employer Identification Number (EIN), does not confer QFHO or FHO status upon the successor. To determine whether the successor organization meets the eligibility requirements for this Initiative, HUD will look at the enforcement-related experience of the successor organization (based upon the successor organization's EIN). The successor organization is not eligible to apply under this Initiative unless it establishes in its application that it is a private, tax-exempt organization with the requisite two years of enforcement related experience for a QFHO or one year experience for an FHO.

The following is a chart that summarizes the FHIP Components and Funding Available and Eligible Applicants:

Initiative/component	Allocation amount available	Applicant eligibility	Project period	Award caps
<p><i>Private Enforcement Initiative (PEI):</i> Assists private, tax-exempt fair housing enforcement organizations in the investigation and enforcement of alleged violations of the Fair Housing Act and substantially equivalent state and local fair housing laws.</p> <p>See Section I of the FHIP NOFA-Funding Opportunity Description.</p>	\$11,850,000	QFHOs and FHO (with at least one year of enforcement related experience). See Section III of the FHIP NOFA-Eligibility Information.	12-18 months	\$275,000
<p><i>Fair Housing Organization Initiative:</i> Assistance to projects (sponsoring organizations) that establish or build the capacity of organizations to become viable fair housing enforcement organizations that conduct fair housing activities in underserved areas (as defined in Section III "Program Definitions") or in rural areas with new immigrants especially immigrants with limited English proficiency. The sponsoring organization must submit the application and must certify that the sponsored organization has the ability to become a QFHO or FHO.</p> <p>See Section I of the FHIP NOFA-Funding Opportunity Description.</p>	2,100,000	Only QFHOs are eligible to apply under this Initiative to serve as a sponsoring organization. See Section III of the FHIP NOFA-Eligibility Information.	36 months	1,050,000
<p><i>Education and Outreach Initiative (EOI):</i> EOI Regional, Local and Community Based Program: Assists projects that inform the public about rights and obligations under the Fair Housing Act and substantially equivalent state and local fair housing laws. Applicants must develop a complaint referral process so that funded activities will result in referrals to HUD of fair housing complaints and other possible discriminatory housing practices.</p> <p>See Section I of the FHIP NOFA-Funding Opportunity Description.</p>	3,780,525	QFHOs, FHOs, public or private for profit or not for profit organizations or institutions, or other public or private entities that carry out programs to prevent or eliminate discriminatory housing practices. This includes agencies of state or local governments and agencies that participate in the Fair Housing Assistance Program (FHAP). See Section III of the FHIP NOFA-Eligibility Information.	12-18 months	100,000
<p><i>EOI-General Component:</i> Open to applicants for all other fair housing education and outreach activities.</p> <p>See Section I of the FHIP NOFA-Funding Opportunity Description.</p>	1,980,525	Same as EOI above. See Section III of the FHIP NOFA-Eligibility Information.	12-18 months	100,000
<p><i>EOI-Disability Component:</i> Applicants must emphasize the fair housing needs of persons with disabilities, so that persons with disabilities, housing providers and the general public better understand the rights and obligations under the Fair Housing Act and fully appreciate housing discrimination that persons with disabilities may encounter. The funded activities must provide education and outreach to all persons protected under the Fair Housing Act.</p>	500,000	Same as EOI above. See Section III of the FHIP NOFA-Eligibility Information.	12-18 months	100,000
<p><i>EOI-Hispanic Fair Housing Awareness Component:</i> Applicants must be able to provide bilingual materials and services to Hispanics so that they are educated about their fair housing rights and responsibilities under the Fair Housing Act. Funded activities must provide education and outreach in a nondiscriminatory manner. Grantees may not deny services to a client who is not Hispanic.</p> <p>See Section I of the FHIP NOFA-Funding Opportunity Description</p>	400,000	Same as EOI above. See Section III of the FHIP NOFA-Eligibility Information..	12-18 months	100,000

Initiative/component	Allcation amount available	Applicant eligibility	Project period	Award caps
<i>EOI-Minority Homeownership Component:</i> Under the Fair Housing and Minority Homeownership Component, applicants must demonstrate the ability to conduct community outreach activities to educate people about their rights under the Fair Housing Act and to prepare them for homeownership. The goal of this Component is to improve access to homeownership by racial and ethnic minorities by educating them about fair housing and how to recognize discriminatory housing practices in sales and financing of housing. <i>See Section I of the FHIP NOFA-Funding Opportunity Description.</i>	400,000	Same as EOI above. <i>See Section III of the FHIP NOFA-Eligibility Information.</i>	12-18 months	100,000
<i>EOI-National Program-National Media Component:</i> Applicants who submit applications under the EOI National Program Media Campaign must provide a centralized coordination effort for the development, implementation, and distribution of a fair housing media campaign designed for FY 2005's Fair Housing Month. <i>See Section I of the FHIP NOFA-Funding Opportunity Description.</i>	500,000	Same as EOI above. <i>See Section III of the FHIP NOFA-Eligibility Information.</i>	12-18 months	500,000

B. Cost Sharing or Matching

No matching funds are required for the Education and Outreach or Private Enforcement Initiatives. Federal funds can be used as matching funds if the statutes governing the Federal funds consider the funds to be local resources.

C. Other

1. Threshold Requirements

a. *Tax Exempt Status.* Applicants for the PEI and FHOI Initiatives are ineligible for funding if they are not a 501(c)(3) tax-exempt organization as determined by the Internal Revenue Service (IRS) at the deadline date for application submission.

b. *Name Check Review.* *See the General Section*

c. *Poor Performance.* Applicants are ineligible for funding if they are a previous FHIP grantee that has received a "Poor" performance rating for its most recent performance rating from its Government Technical Representative. HUD will assess performance ratings for applicants who have received FHIP funding in 2001 or 2002. If the applicant has received a "poor" performance rating for its most recent performance rating from its Government Technical Representative, its application is ineligible for FY 2004 competition. An applicant that does not agree with its determination of ineligibility for the FY2004 competition because of "poor" performance must address to HUD's satisfaction the factors resulting in the "poor" performance rating before the

FHIP application deadline. If the "poor" performance rating is not resolved to the Department's satisfaction before the application deadline, the application is ineligible for funding. HUD is interested in increasing the performance level of all grantees; therefore, applicants who are deemed ineligible because of a "poor" performance rating have the right and are encouraged to seek technical assistance from HUD to correct their performance in order to be eligible for future NOFA competition.

d. *Suits Against the United States.* Your application is ineligible for funding if, as a current or past recipient of FHIP funds, your organization used any funds provided by HUD for the payment of expenses in connection with litigation against the United States (24 CFR 125.104(f)).

e. *Other Litigation.* Your application is ineligible for funding if you used funds provided by HUD under this program to settle a claim, satisfy a judgment, or fulfill a court order in any defensive litigation (24 CFR 125.104).

f. *Hispanic Fair Housing Awareness Component.* Applicants are ineligible for funding if current bilingual staff has not worked with the organization for three years and if the organization does not have three years of proven experience providing bilingual services. You must list all bilingual employees and provide proof of employment. Grantees may not deny services to any protected classes under the Fair Housing Act.

g. *FHOI.* Applicants for FHOI only are ineligible if their organization received previous FHOI awards in FY2002 or FY2003.

h. *Media-based Applications.* Applicants who submit applications under the EOI National Program Media Campaign must have as their primary responsibility advertisement and media and have at least five years of experience as an advertisement/media organization, or if the applicant is not a media organization, it must include as part of its proposal a subcontract with an established media/advertising or public relations organization that has experience in conducting national media campaigns. Applicants that fail to meet this requirement or include such subcontract arrangements in their proposals will be ineligible for funding.

i. *Maximum award.* Applicants are ineligible for funding if they request funding in excess of the maximum allowed under the initiative or component for which they are applying. Any amount over the maximum award, even if less than one dollar, will be considered a request in excess of the maximum award. In addition, inconsistencies in the amount requested and/or miscalculations that result in amounts over the maximum award will be considered excessive; therefore the application is ineligible.

j. *Dun and Bradstreet Numbering System (DUNS) Numbering Requirement.* Refer to General Section of SuperNOFA for information

regarding the DUNS requirement. You will need to obtain a DUNS number to receive an award from HUD.

k. *Majority of Activities.* If a majority (51 percent or more) of the activities and costs within your application, Statement of Work (SOW) and budget are not fair housing related activities, your application will be deemed ineligible.

1. Applicants must receive a minimum of 75 rating points to be considered for funding.

2. *Program Requirements for All Initiatives.* In addition to the Threshold Requirements in section III.C. of the General Section of the SuperNOFA, your FHIP-funded program application must also meet the following requirements:

a. *Protected Classes.* All FHIP-funded projects must address housing discrimination based upon race, color, religion, sex, disability, familial status, or national origin.

b. *Tester Requirements for PEI and FHOI applicants.*

(1) Testers in your FHIP-funded testing activities must not have prior felony convictions or convictions of crimes involving fraud or perjury. All testers must receive training acceptable to HUD or be experienced in testing procedures and techniques. Testers and the organizations conducting tests, and the employees and agents of these organizations may not:

(a) Have an economic interest in the outcome of the test, except to the extent that they could recover damages as provided by law;

(b) Be a relative related by adoption, blood, or marriage to any party in a case;

(c) Have had any employment or other affiliation, within the past year, with the person or organization to be tested; or

(d) Be a licensed competitor of the person or organization to be tested in the listing, rental, sale, or financing of real estate.

(2) *Review and Approval of Testing Methodology.* If your SOW proposes testing, other than rental housing testing, HUD may require copies of the following documents to be reviewed and approved by HUD prior to your carrying out the testing activities.

(a) The testing methodology to be used,

(b) The training materials to be provided to testing, and

(c) Other forms, protocols, cover letters, etc., used in the conduct of testing and reporting of results.

The testing methodology and training materials that you submit to HUD for review and approval are for enforcement purposes and will remain confidential.

(3) *Tester Training.* You must provide sufficient information in the application

to show how testers are trained by our organization and how the materials will be used.

(4) *Retainer Fees.* If you are a recipient of FHIP funds, you cannot require any complaint to whom you are providing assistance using FHIP funds, to sign a retainer agreement of other contract for legal fees as part of the filing, commencement, or maintenance of a Fair Housing Act complaint. If the FHIP recipient has a successful settlement or a verdict, then the FHIP is able to include its reasonable fees as a part of the settlement, though the complainant shall be under no obligation to accept such an agreement. If reasonable legal fees are recovered, the FHIP agency must return a portion of its recovery to HUD, in proportion to the amount of FHIP funds spent on the prosecution of the case.

(a) Agencies that are the recipients of FHIP funds agree to provide HUD with information regarding the recovery of fees and applicable reimbursement of FHIP funds to HUD on a yearly basis;

(b) All settlements and verdicts involving cases processed using FHIP funds are a matter of public record. An agency cannot claim attorney-client or other privilege against the release of data concerning the case.

(c) This restriction on withholding of information must be communicated to the complainant.

(d) The complainant must agree to such a restriction before the case can be processed using FHIP funds.

(5) *Performance Measures and Products.* For all Initiatives:

(a) Your Logic Model must demonstrate how your project activities will support HUD goals; and

(b) Identify performance measures/outcomes in support of those goals, describe your proposed record keeping and evaluation systems, and identify current (baseline) conditions and target levels of the performance measures that you plan to achieve.

(i) For PEI, your application also must contain a strategy for generating enforcement related project products, with related timelines and milestones.

(ii) For FHOI, if the sponsoring organization is enhancing an existing organization, then the sponsoring organization must submit a statement outlining: what is expected of the sponsored organization, and that the sponsored organization will be part of the program. If the sponsoring organization is being created, then the sponsored organization must submit a mission statement for the sponsoring organization and a timeline for creation and independence. If selected for funding, your final performance

measures will be negotiated between you and HUD as part of your executed grant agreement.

Applicants must submit a Logic Model (Form HUD-96010) in their application and report against planned actions on a quarterly basis as specified in the award agreement, refer to the Logic Model (Form HUD-96010) provided in the forms appended to the General Section.

(6) *Single Applications.* Except for applicants under FHOI, all applicants may submit only one application under the FHIP. FHOI applicants may apply under FHOI and one other Initiative. Applicants must determine which Initiative/Component to which they want to apply and submit a completed application to only that Initiative/Component. Multiple applications applying to more than one, Initiative/Component, except FHOI, will be treated as a technical deficiency and the applicant will be asked to identify the application they want reviewed.

(7) *Independence of Awards.* HUD will review each eligible application separately and without reference to other applications submitted by you or others. However, the application you submit must be independent and capable of being implemented without reliance on the selection of other applications submitted by you or other applicants.

(8) *Training funds.* Your proposed budget must set aside funds to participate in HUD mandatory sponsored or approved training, \$3000 for 12-18 month projects (EOI and PEI); and \$6000 annually for 36 month projects (FHOI). For FHOI, there must be attendance from the sponsoring and sponsored organization.

Requests to attend HUD approved training must be submitted to the GTR for approval in advance of the requested training. Do not include amounts over the \$3000 or \$6000 (as appropriate) for the training set aside in this category. If applicants do not include these funds in the budget and you are selected for an award, HUD will modify your budget, reallocating the appropriate amount for training. If awardees' key personnel do not attend mandatory HUD approved or HUD sponsored training, training funds must be returned to HUD and it will be reflected on your performance assessment.

(9) *Accessibility Requirements.* All activities, facilities, and materials funded by this Program must be accessible to persons with disabilities (24 CFR 8.2, 8.4, 8.6, and 8.54).

(10) *Fair Housing Act.* HUD expects applicants to address housing discrimination covered under the Fair

Housing Act. HUD has determined there is a need to ensure equal opportunity and access to housing in communities across the nation.

(11) *Research Activities.* Applicants are ineligible for funding if 100 percent of their project is aimed at research.

(12) *Tax Exempt Status.* Your application must include a copy of your Letter of Determination from the Internal Revenue Service dated prior to the deadline date of this FHIP Program Section of the SuperNOFA, establishing your 501(c)(3) tax-exempt status. Failure to submit this with your application is a technical deficiency.

(13) *Limited English Proficiency (LEP).* Applicants obtaining an award from HUD must seek to provide access to program benefits and information to LEP individuals through translation and interpretive services in accordance to the HUD's published LEP Recipient Guidance.

(14) For-profit awardees are not allowed to earn a profit and must adhere to OMB Circular A-122.

(15) *Single Audit Requirement.* All applicants who have expended \$500,000 or more in federal financial assistance in a single year (this can be a program or fiscal year must be audited in accordance with the OMB-A133 requirements as established in 24 CFR Part 84 and 85.

IV. Application and Submission Information

A. Addresses to Submit Application Package

Your application consists of an original signed application form (SF-424) and all items listed in the Checklist (see section for all submission

requirements). Mail your completed application (one original and three copies) to:

FHIP SuperNOFA 2004 [Specify the Initiative/Component to which you apply], FHIP/FHAP Support Division, Office of Fair Housing and Equal Opportunity, U.S. Department of Housing and Urban Development, 451 Seventh Street, SW., Room 5224, Washington, DC 20410.

B. Content and Form of Application Submission

Please ensure that your application contains all of the following elements in the order described:

- SF-424* (Place a copy of the SF-424 on top of application package.)
- SF-424 Supplement*—Survey on Ensuring Equal Opportunity for Applicants.

• HUD-424—Assurances and Certifications*.

- Transmittal Letter.
- Checklist for Completion of Applications.

• Project Abstract Outlining Project Activities.

- Factor No. 1 Narrative.
- Factor No. 1 Attachments: Tester Experience, Letter of Determination from IRS on 501(c)(3), if applicable.

- Factor No. 2 Narrative.
- Factor No. 3 Narrative.
- Factor No. 3 Attachments:

Statement of Work (SOW) with activities listed in priority order, Budget Forms HUD-424-CB* and HUD-424 CBW reflecting the order of the statement of work and prioritized activities,* Budget Narrative.

(For EOI General only, separate Budget, Logic Model and SOW at 100 and 80% each.)

- Factor No. 4 Narrative.
- Factor No. 4 Attachments: Letter(s) of Firm Commitment.

- Factor No. 5 Narrative.
- Responses to Additional Requirements for Specific Initiative/Project.

• HUD-2880 (Applicant Recipient Disclosure Update Report (General Section)*.

• OMB SF-LLL Disclosure of Lobbying Activities (General Section)*.

• HUD-2990 Certification of Consistency with the RC/EZ/EC Strategic Plan (General Section)*.

• HUD-2993 Acknowledgment of Application Receipt (General Section)*.

• HUD-2994 Client Comments and Suggestions (General Section)*.

*Forms that reflect an asterisk are in the General Section of the NOFA.

This Checklist reflects all forms that must be included in your application submission. In addition to the above, all applicants must read and adhere to Initiative specific information.

Applicants are encouraged to review the chart entitled "Summary of Initiatives/Components" to assist in identifying the Initiative and component to which you wish to apply.

C. Submission Dates and Times

You must submit a completed application (one original and three copies) for the specific initiative and component for which you are applying on or before on June 29, 2004 to the HUD Headquarters building. Applicants missing the deadline will have their applications returned without further review by the Technical Evaluation Panel.

What to submit	Required content	Required form or format	When to submit it
Application: Cover sheet	(per required form)	Form SF-424, available from (General Section).	Application due date.
Survey for Ensuring Equal Opportunity for Applicants. Budget information	(per required form)	SF-424 Supplement	
Narrative	Described in Section IV.2 of this announcement.	Format described in Section IV.B of this announcement.	
Assurances	(per required form)	Form SF-424B, available from (General Section).	
Letters from third parties contributing to cost sharing.	Third parties' affirmation of amounts of their commitments.	No specific form or format.	

D. Intergovernmental Review

Intergovernmental Review is not applicable to this program.

E. Funding Restrictions

1. *Administrative Costs for the Sponsoring Organization.* The

sponsoring organization may use no more than 15 percent of the annually awarded funds to cover its costs to administer the grant.

2. *Enforcement Education & Outreach.* "There is a 5 percent limit on the amount of education-related

activities that can be funded in an enforcement award. If you exceed the limit, points will be deducted in the rating process and funds will be adjusted to maintain the required limitation.

F. Other Submission Requirements

1. *For All Applicants.* The maximum narrative page requirement is ten pages per factor. All pages in your application must be numbered consecutively from beginning to end. The narrative pages must be double-spaced (no more than three lines per vertical inch). This includes all narrative text, titles, and headings. (However, you may single space footnotes, quotations, references, captions, charts, forms, tables, figures, and graphs). You are required to use 12-point type size. A page is 8.5 x 11 inch, on one side only, with one-inch margins top, bottom, right, and left. You must respond fully to each factor to obtain maximum points. Failure to provide narrative responses to all factors or omitting requested information will result in less than the maximum points available for the given rating factor or sub-factors. Failure to provide double-spaced, 12-point font type size narrative responses will result in five points being deducted from your overall score (one point per factor). Failure to consecutively number pages within your application will result in one point being deducted from your overall score.

2. *EOI-General Component.* Organizations applying under the EOI-General Component must submit a budget at 100 percent of proposed costs and activities.

Additionally, applicants must identify costs and activities in priority order so if HUD funds at an 80 percent level approved awards will reflect the priorities of the applicant. The activities and line item costs above the 80 percent should be reflected as optional activities in the applicant's SOW, Logic Model and Budget.

For example, if an applicant proposes 10 workshops, the applicant can designate two workshops as optional to reduce their funding by 20 percent. By providing the information in this manner if there are no further changes during negotiations the applicant does not have to submit another budget.

3. *Application Submission and Timeliness Procedures.* See the General Section of the SuperNOFA for specific procedures governing the submission and receipt of applications. HUD will acknowledge receipt of an application by letter to the applicant within 15 working days of receipt. Acknowledgement letters will be mailed via the U.S Postal Service to all applicants meeting the timeliness of application requirement.

V. Application Review Information

A. Criteria for Regional/Community-Based Applications

1. *Rating Factor 1: Capacity of Applicant and Relevant Organizational Experience (25 Points).* You must describe staff expertise and your organization's ability to complete the proposed activities within the grant period.

In General, HUD recognizes that, in carrying out the proposed activities, you may have persons already on staff, plan to hire additional staff, or rely on subcontractors or consultants to perform specific tasks. You must describe your staffing plan and the extent to which you plan to add staff (employees) or contractors. If your application proposes using subcontractors and these subcontractor activities amount to more than 10 percent of your total activities, you must submit a separate budget for each subcontractor. Failure to include a separate budget will result in lower points being assessed to your application.

a. *Number and expertise of staff (this includes subcontractors and consultants).* (5) Points for current FHIP grantees; (10) Points for New Applicants. You must show that you will have sufficient, qualified staff that will be available to complete the proposed activities. Provide the following information for all staff assigned to or hired for this project, not just key personnel (those persons identified in attachments to Rating Factor 3: Soundness of Approach). Applicants applying to the Hispanic Awareness Component must list all bilingual employees and provide proof of employment and the requisites below:

(1) Identify, by name and/or title and hours, all persons that will be assigned to the project. You must describe the knowledge and experience of the proposed overall project director or day-to-day program manager (whose duties and responsibilities include managing all program and administrative activities as outlined in the SOW and ensuring that all timelines are met), in planning and managing projects similar in scope and complex interdisciplinary programs. To receive maximum points, your day-to-day program manager must devote a minimum of 75 percent of his/her time to the project. For day-to-day managers who do not have at least 75 percent of their time devoted to the project, no points will be awarded under this sub-factor. For example, if the Executive Director is responsible for managing the overall program administrative activities, the application

should reflect the Executive Director's time as 75 percent. However, if a staff person will be assigned this responsibility, the 75 percent time should be reflected as such. You may demonstrate capacity by thoroughly describing your prior experience in fair housing. You should indicate how this prior experience is to be used in carrying out your proposed activities. Your application must clearly identify those persons that are on staff at the time this application is filed, and those persons who will be assigned at a later date; describe each person's duties and responsibilities and their expertise (including years of experience) to perform project tasks; indicate whether the staff person is assigned to work full-time or part-time (if part-time, indicate the percentage of time each person is assigned to the project).

(2) Attach resumes for all key personnel or position descriptions for newly created positions. (Resumes or position descriptions do not count against the ten-page limit.)

b. *Organizational experience.* (10) Points for current FHIP grantees, (10) Points for New Applicants. In responding to this sub-factor, you must show that your organization has: (1) conducted a past project or projects similar in scope and complexity to the project proposed in this application (whether FHIP-funded or not), or (2) engaged in activities that, although not similar, are readily transferable to the proposed project. Experience will be judged in terms of recent, relevant and successful experience of your staff to undertake eligible activities. In rating this factor, HUD will consider experience within the last three years to be recent, experience pertaining to the specific activities to be relevant, and experience producing measurable accomplishments to be successful. The more recent the experience and the more experience your own staff members who work on the project have in successfully conducting and completing similar activities, the greater the number of points you will receive for this rating factor.

(1) *In addition.* If you are applying for funding under the EOI-Hispanic Fair Housing Awareness Component, provide the following information when responding to this sub-factor:

(a) A list of all bilingual materials developed and distributed.

(b) A description of specific instances where projects similar to the scope and activities proposed in this application had an impact in a Hispanic community.

(c) A description of recent relevant experience. Recent experience is experience within the past three years.

(2) *In addition.* If you are applying for funding under the EOI-Fair Housing and Minority Homeownership Component, provide the following information when responding to this sub-factor:

(a) A description of staff's experience in providing fair housing and homeownership advice with the objective of increasing awareness of homeownership opportunities and

(b) A description of staff's experience and accomplishments in advocating with the real estate industry, the mortgage lending industry, appraisers, and developers to increase awareness of homeownership opportunities.

(3) *In addition.* If you are applying for funding under PEI or FHOI, provide the following information when responding to this sub-factor:

(a) Describe the procedure you will use to ensure that testers comply with the requirements in section IV.B. of this NOFA.

(b) If you propose to conduct testing (other than rental or accessibility testing), projects proposing testing in the specific areas should document that, at a minimum, you have conducted successful testing in those areas. Provide a general description of when and where the tests occurred, the entities tested, and the overall results of the tests, including complaints filed and the settlements or remedies secured (for example, if testing is for sales of housing, your application should outline your sales testing experience).

(4) *FHOI.* Provide a statement of organizational capacity and experience of the sponsored organization and a list of persons who will work on the project along with their experience. c. Performance on past project(s). (10) Points for current FHIP grantees, (0) Points for new applicants. You must describe your organization's past performance in conducting activities relevant to your proposal, in the past two years (FY 2001 and 2002 FHIP grants), demonstrating good financial management and documenting timely use of funds, timely reporting and submissions of tasks and deliverables. HUD may supplement information you provide with relevant information on-hand or available from public sources such as newspapers, Inspector General or General Accounting Office Reports or Findings, hotline complaints that have been proven to have merit, or other such sources of information. In evaluating past performance, the following points will be deducted from your score under this rating sub-factor:

10 points out of 10 will be deducted if you received a "fair performance" assessment;

5 points out of 10 will be deducted if you received a "good performance" assessment; and

0 points out of 10 will be deducted if you received an "excellent performance" assessment.

(1) *In addition.* If you have received an FHOI or a PEI award under the FY2000, 2001, or 2002 FHIP Program, you must:

(a) Discuss your compliance with the mandatory referral requirement of all cases arising from FHIP-funded activities in FY2000, 2001, and 2002. Five points will be deducted for this sub-factor if you do not show in your application compliance with the requirement. The compliance discussion should provide an explanation if discrepancies exist. For example, your application notes receipt of 100 complaints. It also notes that only 25 complaints were referred. There should be an explanation for the difference of 75 complaints.

(b) Discuss your compliance with the requirement to reimburse the Federal government for compensation received from FHIP-funded enforcement activities. If you have not reimbursed the Federal government for such compensation, explain why you have not. Also, state whether you reported to HUD any likely compensation that may result in such reimbursement. Two points will be deducted for this sub-factor if you have not complied with the requirement.

2. *Rating Factor 2: Need/Distress/Extent of the Problem (20 Points).* This factor addresses the extent to which there is a need for funding the proposed activities to address a documented fair housing problem(s) in the target area(s). You will be evaluated on the information that you submit that describes the fair housing need in the geographic area you propose to serve, its urgency and how your project is responsive to that need.

a. *Documentation of Need.* To justify the need for your project, PEI and EOI applicants must describe the following:

(1) The fair housing need, including:

- (i) Geographic area to be served;
- (ii) Populations that will be served—your project must serve all persons protected by the Act; and
- (iii) The presence of housing discrimination, segregation and/or other indices of discrimination in the project area based upon race, color, religion, sex, national origin, familial status, or disability.

(2) The urgency of the identified need. For example:

(i) The potential consequences to persons if your application is not selected for funding;

(ii) The extent to which the organizations provides the services identified in your application;

(iii) Other sources that support the need and urgency for this project. For example, make reference to reports, statistics, or other data sources that you used that are sound and reliable, including but not limited to, HUD or other Federal, state, or local government reports analyses, relevant economic and/or demographic data, including those that show segregation, foundation reports and studies, news articles, and other information that relate to the identified need. Chapter V of the *Fair Housing Planning Guide, Vol. 1* has other suggestions for supporting documentation. You may access the Guide from the HUD Web site at: www.hud.gov.

(3) To receive maximum points under this sub-factor, applicants must submit data and studies that support (i), (ii), and (iii) above. Those that address each category and submit supporting data will receive higher points than those that do not.

For FHOI: to justify the need for a sponsored organization under FHOI, the sponsoring organization must describe the following:

(i) Populations that will be served: HUD has targeted for funding under this Initiative projects that will provide fair housing enforcement services to underserved areas, rural areas, and areas serving individuals who are immigrants (especially racial and ethnic minorities who are not English-speaking or have limited English proficiency):

(ii) The presence of housing discrimination, segregation and/or other indices of discrimination in the project area based upon race, color, religion, sex, national origin, familial status, or disability, and submit data and studies that support your claim; and

(iii) Why the project area is underserved and why the proposed sponsored organization is needed. Your proposal must serve all persons protected by the Act.

For example, make reference to reports, statistics, or other data sources that you used that are sound and reliable, including but not limited to, HUD or other Federal, State or local government reports analyses, relevant economic and/or demographic data, including those that show segregation, foundation reports and studies, news articles, and other information that relate to the identified need.

For all applicants: If the fair housing needs you have identified are not

covered under the Consolidated Plan and Analysis of Impediments to Fair Housing Choice (AI) or if your locality does not have a CP or AI, you should so indicate, and use other sound data sources to identify the level of need and the urgency in meeting the need. For you to receive maximum points for this factor, there must be a direct relationship between your proposed activities, community needs, and the purpose of the program funding.

(4) To the extent possible, the data you use should be specific to the area where the proposed activity will be carried out. You should document needs as they apply to the area where activities will be targeted, rather than the entire locality or State. If the data presented does not specifically represent your target area, you should discuss why the target areas were proposed. The link between the need and your proposed activities:

(a) How the proposed activities augment or improve upon on-going efforts by public and private agencies, organizations and institutions in the target area, and/or

(b) Why, in light of other on-going efforts, the additional funding you are requesting is necessary.

(5) *In addition*, with respect to Documentation of Need, the following apply to specific FHIP initiatives or components:

(a) *EOI-Disability Component*. Your project must focus on individuals who are disabled and must serve all persons protected by the Act.

(b) *EOI-Hispanic Fair Housing Awareness Component*. Your project must focus on serving Hispanics and must serve all persons protected by the Act. Therefore, provide specific demographics on Hispanic neighborhoods to be served and the relationship of the area served to the objectives of the project. The need in these neighborhoods must be clearly stated and supported with documentation such as beneficiary information.

(c) *EOI-Fair Housing and Minority Homeownership Component*. Your project must document under-representation of homeownership by protected classes or a critical level of need for fair housing and homeownership activities in the area where activities will be carried out.

3. *Rating Factor 3: Soundness of Approach (40 Points)*. You must describe your project in detail, demonstrate how your project activities will support HUD goals, propose suggested performance measures/outcomes in support of these goals, and identify current baseline conditions and

target levels of the performance measures that you plan to achieve. Also attach a Statement of Work (SOW) and budget. Your proposed activities must support HUD's policy priorities as referenced in the General Section.

a. (8 Points) *Support of HUD Goals*. Describe how your proposed project will further and support HUD's policy priorities. For FY2004, FHIP applications, address the following: (1) All EOI-General, EOI-Disability, EOI-Hispanic Fair Housing Awareness, and EOI-Fair Housing and Minority Homeownership Component:

Applicants who:

(1) Relate HUD's policy priorities to:

(a) The project's purpose,

(b) Persons to be served,

(c) Geographic area to be served,

(d) Proposed activities and who will conduct these activities, e.g., you or a subcontractor(s) or consultant(s); and

(2) Provide a methodology for carrying out these activities that includes items (i) through (iv) above will be assessed as follows:

(a) Four points under this sub-factor if you are a grassroots faith-based or other community-based organizations, propose to partner or sub-contract with grassroots faith-based or other community-based organizations

(b) Up to two points under this sub-factor if your application specifically addresses regulatory barriers to affordable housing.

(c) One point under this sub-factor if your application specifically addresses the elimination of housing discrimination to improve our nation's communities; and

(d) One point under this sub-factor if your application specifically addresses housing discrimination to persons who are homeless because of housing discrimination in violation of the Fair Housing Act.

(3) *PEI and FHOI*. Applicants should discuss their project purpose and proposed activities, persons to be served, geographic areas and methodology and their relation to HUD's policy priorities (see General Section). Include specific information on how you will address the need(s) identified under Rating Factor 2. The quality of the response you provide to one or more of the policy priorities will determine the score you receive. You may receive points for each policy priority you address up to a total of eight points.

b. (17 Points) *Proposed Statement of Work (SOW) and Information Requirements*. The SOW and budget are attachments that will not count toward the 10-page limit on the narrative response to this factor. However, points

will be assigned based on the relevance of proposed activities to stated needs, attention to implementation steps, proposed activities consistent with organizational expertise and capacity and accuracy of the SOW and budget.

(1) *Statement of Work*—Submit a proposed SOW that comprehensively outlines in chronological order the administrative and program activities and tasks to be performed during the grant period. Your outline should identify all activities and tasks to be performed and by whom (e.g., you, a subcontractor, or partner), and the products that will be provided to HUD and when. You should also include a schedule of your activities and products (with interim implementation steps), staff allocation over the term of the project; staff acquisition and training; and activities of partners and/or subcontractors.

EOI-General Applicants Only—You must identify optional activities (to achieve an 80 percent budget) in order to receive full points under this sub-factor.

(2) *Information Requirements*. For PEI and FHOI, your application must include a description of the enforcement proposals to be referred to HUD. Your description must explain the information (see 24 CFR 121.2) you intend to collect and analyze, the type of complaints you anticipate referring to HUD for enforcement purposes, and describe the procedure you will implement for referring such complaints. If you propose a testing program, you must explain how you plan to structure the tests, train investigators, conduct investigations, etc. This description should make clear the safeguards to be used to ensure that complaints referred to HUD are fully jurisdictional under the Act and supported by credible and legitimate evidence that the Act has been violated. Describe the procedures you will put in place to ensure that referrals of all complaints are sent to HUD.

(3) *In addition*. For EOI Hispanic Fair Housing Awareness Component include:

(a) All bilingual key personnel and their capacity to communicate and disseminate information in projected Hispanic neighborhoods.

(b) A plan that reflects an understanding of the characteristics and needs of the neighborhoods selected and outlines a plan of action pertaining to the scope and detail of how the work outlined will be accomplished.

c. (15 Points) *The Budget Form and the Budget Information*—HUD will also assess the soundness of your approach by evaluating the quality, thoroughness,

and reasonableness of the budget and financial controls of your organization, including information on your proposed program cost categories. As part of your response you must prepare a budget that is:

- (1) Reasonable in achieving the goals identified in your proposed SOW;
- (2) Relate tasks in the SOW to the proposed budget costs;
- (3) Cost-effectiveness;
- (4) Quantifiable based on the need identified in Factor 2, and
- (5) Documents and justify all cost categories in accordance with the cost categories indicated in the HUD-424 CB (see General Section Grant Application Detailed Budget). Include your approved Indirect Cost rate in your budget submission, as well as the agency contact name and telephone number. If you do not have a federally approved indirect cost rate, please provide your proposed rate and submit an indirect cost rate proposal with your application. If HUD is the cognizant agency, it will establish a rate or contact the appropriate federal agency to establish a rate. For information on Indirect Cost rates, you can review HUD's training on <http://www.hud.gov>.
- (6) *Cost Effectiveness of Program.* Discuss and provide supportive facts concerning the extent to which your proposed program is cost effective in achieving the anticipated results of the proposed activities. Also, indicate how the proposed project is quantifiable based on the needs identified in Rating Factor 2.

(7) *Financial Management Capacity.* Describe and provide documentation to support your organization's financial management system. In addition, provide documentation about your capabilities in handling financial resources and maintenance of an adequate accounting and internal control procedures.

(8) *In addition:* FHOI provide a statement of transfer of programmatic and management responsibilities from the sponsoring to sponsored organization by the end of grant year three. Also provide budgetary information on the viability of the sponsoring organization to maintain the sponsored organization for the duration of the grant.

Your Grant Application Detailed Budget HUD-424-CBW must show the total cost of the project and indicate other sources of funds that will be used for the project. While the costs are based only on estimates, the budget narrative work plan may include information obtained from various vendors, or you may rely on historical data. Applicants

must round all budget items to the nearest dollar.

A written budget narrative must accompany the proposed budget explaining each budget category listed. Failure to provide a written budget narrative will result in two points being deducted from your application. It must explain each cost category you list. Generally, estimated costs for high-cost items or subcontractors/consultants should be supported by bids from at least three sources. Where there are travel costs for subcontractors/consultants, you must show that the combined travel costs (per diem rates) are consistent with Federal Travel Regulations (41 CFR 301.11) and travel costs for the applicant's subcontractors and/or consultants do not exceed the rates and fees charged by local subcontractors and consultants. The narrative (which does not count toward the 10 page limit) and supporting documentation (which does not count toward the 10 page limit) must address the Grant Application Detailed Budget as referenced in the General Section.

(9) *Enforcement Education & Outreach*—Also, there is a 5 percent limit on the amount of education-related activities that can be funded in an enforcement grant. If you exceed this limit, points will be deducted from this sub-factor.

4. *Rating Factor 4: Leveraging Resources (5 Points).* This factor addresses your ability to secure additional resources to support your project. Points will be awarded on the basis of the percentage of non-FHIP resources you have identified and how firm the commitment is for those resources.

a. *Firm Commitment of Leveraging.* HUD requires you to secure resources from sources other than what is requested under this FHIP Program Section of the SuperNOFA. Community resources may include funding or in-kind contributions, such as workspace or services or equipment, allocated to the purpose(s) of your proposal. Contributions from affiliates or employees of the applicant do not qualify as in-kind contributions. Resources may be provided by governmental entities (including other HUD programs if such costs are allowed by statute), public or private non-profit organizations, faith-based organizations, for-profit or civic private organizations, or other entities willing to work with you. In order to secure points you must establish leveraging of resources by providing letters of firm commitment from the organizations and/or individuals who will support your

project. Each letter of firm commitment must:

- (1) Identify the organization and/or individual committing resources to the project,
- (2) Identify the sources and amounts of the leveraged resources (the total FHIP and non-FHIP amounts must match those in your proposed budget submitted under Factor 3), and
