(SUMMARY)

1 March 1951

TO : Chief of Kyushu Liaison Office

FROM : MIYOSHI Yaroku, Mayor of Fukuoka

SUBJECT: Report on the result of mayors' conference held to discuss the prefectural subsidy problem to the cities rehabilitation works

The above conference was held on 13 February in participation of 11 mayors in Fukuoka Prefecture. Mayors requested the Prefectural Assembly to introduce "the bill concerning prefectural subsidy for cities rehabilitation works for the fiscal year of 1950," before the Prefectural Assembly scheduled for February 1951.

However, the Governor did not promise to include the subsidy in the additional budget because of shortage of funds. The expenditures necessary for the rehabilitation works have been defrayed from the national subsidy, the prefectural subsidy and the municipal budget in the following ratio:

National subsidy	-	50%
Prefectural "	-	25%
Municipal budget	-	25%

Estimate of rehabilitation works of 11 cities for the fiscal year 1950 is as follows:

National subsidy	-	96,186,850 yen
Prefectural subsidy	-	48,093,425 yen
Municipal budget	-	48,093,425 yen

Such being the circumstances, the rehabilitation works must be suspended, if the prefectural subsidy is discontinued. Citizen are unable to bear such a heavy burden. If the rehabilitation works should be suspended, it would have bad effects upon various spheres.

2. The proposed amalgamation of Sendai City and Shimotogo Village is now facing a deadlock as the people of the Taumi area of the village have voiced stern opposition against the plan.

Shimotogo Village has a population of 5,236 and covers an area of 26.24 sq. Km.

The merger scheme seemed approaching a reality when the city and the village assemblies adopted a resolution for the amalgamation on the 25th and the 27th of Jan. 1950, respectively. On 24 Feb. 1950, both mayors applied to the prefectural authorities for the approval of the merger plan. The situation, however, took a sudden turn for the worth as the people of the Taumi area raised objection against the plan. The prefectural authorities then assembled the representatives of the parties concerned on 27 Aug. 1950 and listened to their opinions of pros and cons, but this meeting proved fruitless. On 15 Sept. 1950, the village authorities conducted a public-poll in the Taumi area. The vote stood at 296 ayes and 777 noes. In the meantime, the prefectural government was flooded with petitions of pros and cons. The people of the Taumi area were rather desirous of having the area merged into Kamitogo Village, and petitioned the village authorities for the amalgamation. All efforts ending in a failure, the Shimotogo Village Assembly adopted on 11 Mar. 1951 a resolution asking the prefectural governor to act as an arranger, on the ground that the assembly found it difficult to bring the merger issue to an amicable settlement. On 14 Mar., the village master and assemblymen resigned en bloc.

3. Merger of Takae Village and the Fumoto area of Takagi Village into Sendai City: Problems of merging Takae Village and the Fumoto area of Takagi Village into Sendai City have come to surface recently, but have not yet taken a concrete shape.

4. The assembly of Nishiminamikata Village, Kawanabe-gun, adopted a resolution for the separation of Bo and Tomari areas from the village and the creation of a Botsu Village. The plan, if materialize as determined by the village assembly, will create a new village with an area of 28 sq. Km. and a population of 9,500. The assembly ofBansei Town, Kawanabe-gun, also voted for a petition which called for the separation of the Kaminato area from the town. In the meantime, the assembly of Eia Town, Ibusuki-gun, is now studying the plan of dividing the town into 3 villages. Eia Town has a population of 39,700 and covers an area of 140 sq. Km.

一、県費補助を受ける場合現行の二事を停止せざるを得ない理由

本事業の費は従来より戦災復興事業として国庫五割県費弐割五分の負担区分をもつて戦災区域内の道路道をも含む戦災復旧工事を実施して来たのでありますが昭和弐拾五年度県下十二市の事業費総額一九二三七七三円であります其の五〇%九牛六百弐拾八万六千八百五拾円が国庫補助金事業費の二五%四牛八百弐拾万九千三百五拾円が県費補助金同じく二五%四牛八百弐拾万九千三百五拾円が市費負担となつております

二、言葉を替えて言えば総事業費の五〇%が国庫負担する事になつております

三、関係上県が補助する条件にて施工を許可する場合は五〇%を市で負担せざるを得ない場合があります

ふければ現在予定の事業は完成されず、つまり縣下市町村で現在市費負担の四分の一を負担せねばならぬ事業費で負担せねばならぬ分が、六千八百九拾八万九千四百三十五円を計上市町村の予算の四分の一即ち四千八百九万三千四百二十五円を縣負担金として陣情してゐるのである訳であるが、縣も縣費補助の分は負担に耐えない状況にあるので是非縣費補助金を出してもらい度いと

都市復興事業費等の県費補助金継続交付に関する陳情書

戦災による消耗と空襲による災禍の為徹底的に粉砕せられた北九州の重要都市も燃えあがる市民の復興意慾と政府及び県御当局の適切な指導と援助により復興事業が終戦後五ヶ年にして其の半に達したことは誠に御同慶に堪えない処であります又政府は昭和二十五年度より五ヶ年計画を以て戦災以外の都市に於ても市民防空の観点より疎開を強制せられた土地を公共空地の整備事業或は重要幹線街路事業として都市復興事業と同様の戦禍の痕跡を拂拭し産業経済の興隆を図らんとしています

戦後思想の混乱と道義の頽廃に経済的窮乏とを加え本事業遂行が如何に至難であるかは過日の新聞が報ずる和く某市に於ける市長殴打事件を惹起した一例にても明らかであります之が財源については本事業が一種の災害復旧事業である関係上昭和弐拾壱年度より昭和弐拾参年度迄は庫八割県・割市一割昭和弐拾四年度より庫五割県弐割五分市弐割五分の割合を以て交付せられていたのであります

（やっている）

戦後思想の混乱と道義の頽廃に経済的窮乏とを加え本事業逐行が如何に至難であるかは過日の新聞に報ずる如く某市に於ける市長殴打事件を惹起した一例にても明らかであります之が賦課については本事業が一種の災害復旧事業である関係上昭和弐拾壱年度より昭和弐拾参年度迄は庫八割縣一割市一割昭和弐拾四年度より庫五割縣弐割五分市弐割五分の割合を以て交付せられていたのであります　二十五年度よりは

実は縣費の補助率が二分と言え共市の事業としては政府及び縣の補助対照基本額のみでは決して復興事業の逐行は困難で補助対照外に単独市費を相当額加算の上逐行しているのであります縣費補助が二分とは言え実は總事業に対しては庫負担が五分の市費負担が五分と言う率にするのであります然るに昭和弐拾五年度に於ては縣当初予算に本事業費補助金が計上せられなかった事は誠に遺憾に堪えない処であります若し此の補助を削除せられんか縣下十一市の都市復興事業に重大なる支障を来します

を以て二十四年十二月以来数回に亘り縣幹部に陳情し善処方を要望した次第であります何等懇切なる回答なき而も本年度も余すも

（裏面も手でやっている）

ヶ月に過ぎず此の儘推移せんか補助金は遂に葬り去られ都市復興事業は中断の已むなきに至り茲いては、市民の経済活動は著しく阻害せられる状態に立至るものと信ずるものであります

現下の都市財政は御承知の如く税制の改革により税収は著しく減少を来した反面歳出は六三制建設費自治体警察費消防費等の経費は益々増加せうれ為めに財政的窮乏は言語に絶し一朝に破滅の廿前に在ると云っても過言ではありません

県財政の窮迫もさることながら本事業は戦争中の古い禍根にして一日も早く復旧は二六万市民生活の安定を期し福利増進と経済復興に駐進して県総人口三五三万の約三五%を占める都市の担税力の増進を図ることが県政の重大政策かと考えられ税額に於ては約十五%を占めるものと思ひます

尚他の大小県に於ても概ね二分の県費補助を実施せられている実情であ

り政府に於ても本事業の重要性に鑑みこの補助事業として認承せられ今日に至るも此処に縣費補助の中絶されるに於ては市は最早やその能力をもたないので一部事業の未執行を来たし一補助金の返還をせざるを得ず何卒事業の重大性とよく御認識下され以て縣費補助金を計上せらるる様切に望むと共に次第であります

(SUMMARY)

SUBJECT: Plan to amalgamate the adjacent towns and villages into Fukuoka City

The RINSETSU-CHOSON GAPPEI CHOSA TOKUBETSU IINKAI (Special Investigation Committee for the amalgamation of Adjacent Towns and Villages), Fukuoka City Assembly, held a conference at its office within the city hall on November 27, 1950. According to the decision reached at this conference, the committee, divided into four groups, is to conduct a public poll on the proposed amalgamation plan. The results of the polling will be published in the December session of the Fukuoka City Assembly.

The towns and villages, which may be amalgamated into Fukuoka City, are:

Tatara Town,
Wajiro Village,
Shikanoshima Village,
Kashii Town,
Okawa Village,
Nakahara Village,
Shime Town,
Hisa Village,
Naka Town,
Kitazaki Village,
Motooka Village,
Susenji Village,
Takuma Village

SUBJECT: Pertaining to the plan for establishment of monument in memory of Major General Dean

A. Report received from GAYU, Civil Engineering Sect. Kokura-shi. Mr. Ito, representing himself as a member of the Topic News Company, took initiative to establish the monument in memory of Major General Dean, and proposed Kokura Municipal Office to have municipal land loaned as a building site of the monument. The municipal authority, however, declined his proposal because of having no land which is proper to be used as ground of monument. Later, the municipal office received a notice from him that he had found a proper place, private land, at Mihagino, Kokura-shi (vicinity of the Kokura Bicycle Race Field). It is said that the ceremony of purifying a building site was held at the end of 1950. The establishment fund is to be collected from among citizen. However, no details were given to us on the plan for establishment of the monument. Although we inquired of many newspapermen about Mr. Ito as well as the Topic News Company, no body has knowledge about them. It is doubtful whether or not he is a reliable man.

We have once established contact with Kokura Occupation Forces Headquarters on this matter. On that occasion, the Headquarters were of the opinion that they would support this plan as much as they could, and requested us to submit documents concerned after having translated into English. The office of construction is placed at Shinkyo-machi, Kokura-shi.

B. Information received from Local Affairs Section, Fukuoka Pref. Government.

ITO Osamu, chairman of the Major General Dean's monument Construction Committee.

Date of birth: 19 July 1924

Address: 6-chome, Kaharuguchi, Kokura-shi

At the end of 1950, the foregoing person submitted an application to this office asking for permission for collecting donations. However, the application was sent back to him through Kokura Municipal Office since the documents was inadequate. On 17 January 1951, he submitted an application again to this office. (Amount of donations was raised to 5 million yen from 3 million yen as was estimated at according to the original plan).

Although the purpose of this plan is very good, we must be careful against the motive because there are many examples to enrich ones own pocket under the beautiful name. We, therefore, are inquiring of the Kokura Municipal Office about the career of Mr. Ito and prospects of this plan. After receiving report from the mayor of Kokura, it will be decided whether the permission will be given or not.

Outline of the application:

a. Method of collecting fund:

Donations from supporters and canvass for subscription on streets.

b. Sponsors:

Chairman: ITO Osamu, President of Topic News Company,
born on 19 July 1924

Vice-chairman: EGUCHI Shigemi, Editor of the above company,
born on 10 October 1926.

Committee: YOSHIMI Fudekichi, Kokura Municipal Assembly member,
born 15 March 1911.

" YAMANOUCHI Masaru, Contractor,
born on 4 May 1905.

" KOBAYASHI Yosaburo, Member of Kokura Municipal Assembly
born on 20 June 1916.

" NAGAOKA Shiro, chairman of Agricultural Association,
born on 10 March 1899.

c. Plan:

Personnel expenditure:		364,400 yen
Cost of supplies	:	135,600 yen
Cost of construction	:	4,500,000 yen
Total	:	5,000,000 yen

d. Period of canvass for subscriptions: From 20 January to 20 February 1951.

e. Office of construction: Shinkyo-machi, Kokura-shi.

Remarks:

Both chairman and vice-chairman are young. Address of chairman was changed from 4-chome, Hiaki, Kokura-shi, stated in the first application, to-6-chome, Kaharu-guchi, Kokura-shi. The plan for canvassing subscriptions was also changed from 3 million yen to 5 million yen. Viewed in this light, the prefectural authorities ~~are~~ seem~~ed~~ to have a doubt about this plan.

Re:- Equalization grant Saga Prefecture

According to the revised local Tax Law now in force, the decrease in the tax revenues of this prefecture, an agricultural prefecture, is estimated at 298,000,000 Yen, and we expect that this amount will be adjusted with the equalization grant to be given to the local finance. However, the amount we have computed now by "the regulation concerning computation of the equalization grant temporarily decided to be given to a local body for 1950" is some 783,000,000 Yen, which leaves the shortage of some 431,000,000 Yen against 1,214,000,000(excluding the pay increase for the personnel) which is the least amount we expect as the equalization grant. Therefore, we have to fill this short amount with the special equalization grant to be given, and we have so far been in touch with the quarters concerned in the central Government as to this requisite amount of ours. We wish that the central Government will take into special consideration the straightened financial circumstances of this Prefecture which is the small agricultural prefecture and cooperate to give us our required amount of 1,214,000,000 Yen.

We wish to add that the central Government will make a study and rectify the following points in the method of computation of equalization grant which we consider unfit.

1. Standard amount of financial revenues

(1) Enterprise tax and special income tax

The estimate of the revenues from enterprise and special income taxes is based on the incomes on which the income taxes were imposed for 1949. However, there is a gulf difference in the exemption point of the income tax and that of the present enterprise tax, and some of the small incomes below the exemption point of income tax are levied income tax due to the income-summing up system. This Prefecture is composed of small enterprisers and if we adopt without modification the incomes on which income taxes were imposed, the result will be an overestimate of the revenues of our prefecture. We wish that special arrangement will be made in this connection.

(2) Amusement, Eating and Drinking Tax

This tax is computed based on the individual incomes for 1949, but the hotels, inns, restaurants, and clubs which are the taxable juridical persons for this tax are not included.

Therefore, those prefectures which have these juridical persons in greater number are financially well off. Moreover, taxes are more easily collected from juridical persons than individuals. We wish that special consideration will be taken in this regard and compute the eugalization grant properly.

(3) Admission Tax

This tax is computed based on the adjusted amounts for 1949, but the adjustment of the tax is swayed largely by the enthusiasm for collection of tax. The prefectures which showed up well for collection of taxes, have larger adjusted amounts. Therefore, we wish that computation will be made based on the objective materials such as the number of movie halls and thertres and the populations of cities.

2. Standard requisite financial amount

(1) Expenses for roads and bridges

The expenses are mainly for maintenance. Roads and bridges are damaged in proportion to the traffic volume, which is most properly gauged by the density of the population. Please take into consideration the density of the population.

(2) Re:- Adjustment of the unit for estimation

The standards of the units for estimating the required financial amount are placed on the standard bodies, and the bodies ranking at the lowest in the units can hardly secure even the least requisite amount . Therefore, we wish that the standards of the units be placed on the bodies ranking at the lowest or as in the apportion tax system, the increased-population system be enforced to secure the lowest required amount.

(3) Others

By the method adopted this year for computing the equlization grants, it follows that a small prefecture with fewer population and narrower area, can hardly be self-sufficient fisnancially. However small, a Prefectural Government should secure the least finance necessary to conduct administration. We wish that proper adjustment be made for the small Prefectures to secure the self-sufficiency.

SUBJECT: Resignation of Yasuoka as vice-governor of Kagoshima Ken

1. According to Mr. Kawabata, chief of the Personnel Section, Kagoshima Ken Government, Vice- Governor Yasuoka was not compelled to quit his post because of any fault or negligence. It is said that in his letter of resignation, Mr. Yasuoka merely stated "I wish to resign for personal reasons."

2. In this connection, the January 4 issue of the Nishi Nippon stated:

"It is almost certain that Itaru Shigenari, present governor, Takehisa Yasuoka, present vice-governor who is being backed by the OSHIMA KEN-JINKAI (Association of People from Oshima), and Isakichi Nakajima who has recently been depurged, will stand as candidates for the forthcoming election of the prefectural governor. Vice Governor Yasuoka is to tender his resignation early this month."

Remarks:

1. This list showing mainly revenue indicates net budget including special accounts.

2. The figures in 1949-50 fiscal year show the total of estimated settled amount in 1949-50 fiscal year as of May 31, 1950.

3. The figures in 1950-51 fiscal year are to show the final budget. However, due to the fact that almost all supplementary budgets resulting from the revision of taxation system have not been completed, the final amounts have been estimated by the following methods:

(1) Tax revenue is fixed at 7/10 of fundamental finance revenue.

(2) Equalization grant is the provisionally settled amount as of October 20, 1950.

(3) State and prefectural defrayment is the balance between the settled amount of 1949-50 fiscal year and the state subsidy (A class aid) included in equalization grant.

(4) Rent and charge have been estimated at the same amount as that for 1949-50 fiscal year.

(5) Local loan is the approved amount as of October 1.

(6) Balance carried forward shows the balance between revenue and expenditure resulting from settlement estimated for 1949-50 fiscal year.

(7) Income enterprise revenue for 1950-51 fiscal year shows the amount resulting from the settled amount for 1949-50 fiscal year multiplied by the increasing rate in 1950-51 fiscal year.

(8) Miscellaneous revenue for 1950-51 fiscal year shows the balance between that for 1949-50 fiscal year and estimated amount of contribution.
