

Rail Security Coordinator Orientation

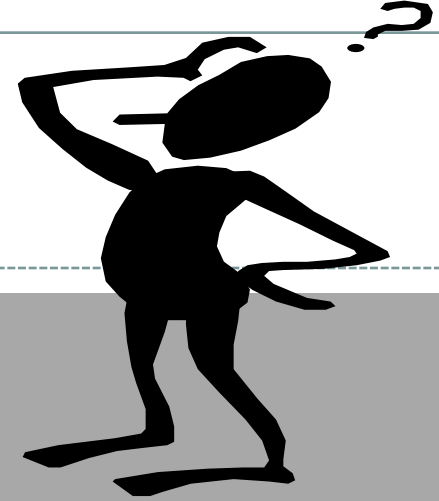

1580.101: Rail Security Coordinator

- Applies to carriers, shippers and HTUA receivers
- Must designate both a primary RSC and at least one alternate
- RSC must be available 24/7
- Must provide TSA:
 - ✦ - Names
 - ✦ - Titles
 - ✦ - Phone Number
 - ✦ - Email

What Does a RSC Do?

- Serves as TSA's first point of contact for communication of transportation security issues
- Allows TSA to participate in two-way communication with owners and operators
- Serves as an information sharing resource to his or her organization
- Coordinates security practices with law enforcement and emergency response entities

Available Tools

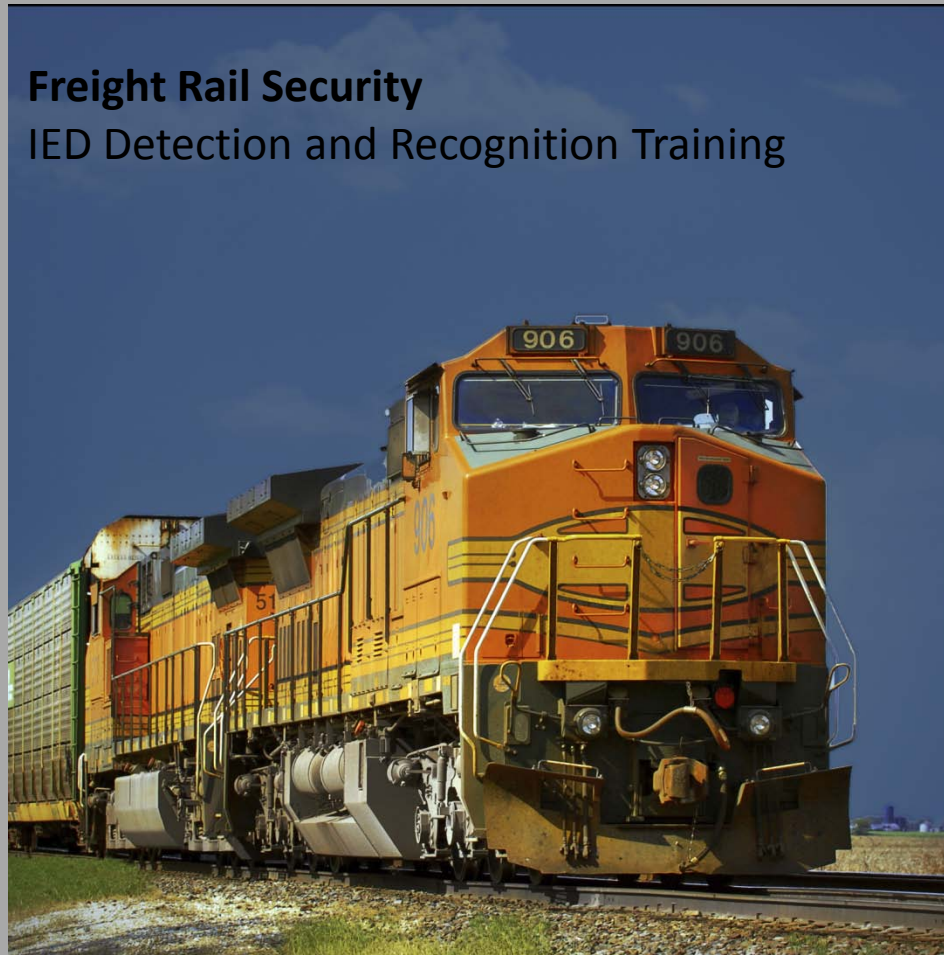

- Information Bulletins
- Training CDs
- Brochures
- Other

A Message for Railroad Industry Employees

The Transportation Security Administration (TSA), the railroad industry and your company are working together to fight terrorism and other security threats. As part of this cooperative effort to improve rail system security, TSA has prepared this guide to help you recognize the indications of possible terrorist activity.

The security of our railroads begins with you. The seven signs contained in this guide are designed to help you identify suspicious activity, as well as gather and report security threat information more effectively. However, you should always refer to your company's programs, policies, and procedures for specific security guidance.

TSA encourages you to refer to this guide and your company's policies and procedures frequently. Know what to do if you observe suspicious activity.

Remember:
if it does not look right, it probably is not.
Report it to your company!

TSA Contact Information

For use by company security personnel only

U.S. Department of Homeland Security
Transportation Security Administration
Freight Rail Security Division
TSA-28
601 South 12th Street
Arlington, Virginia 22202-4220

www.tsa.gov
freightrailsecurity@dhs.gov

Transportation Security
Operations Center (TSOC)
Point of Contact: TSOC Watch Officer
Telephone: 703.563.3236
Email: TSOC.ST@tsa.dhs.gov

The TSOC serves as the 24/7 point of contact for all transportation security concerns to include pipeline, rail, trucking, mass transit, maritime, highway and aviation issues.
