# Reach Your Customer when He is Prepared to Buy Your Goods

That is exactly what we are prepared  
to do for you.

---

We reach every day **one thousand** of the best **money spenders** on earth ; we reach them in their offices and at their homes ; when they **need your goods** ; when their mind is centered on **buying** ; when they have all buying facilities at hand ; **when they really** do their buying.

We reach them every minute of every day in the year. We remind them continually that you have something they will need sometime ; we never let up for a minute ; because somebody is **consulting some Directory**, somewhere, **every minute, day and night, all the time**. City Directories are very long lived—they cost from \$1.00 to \$5.00 a copy ; they are kept in use one, often two, sometimes three, and occasionally 5 years ; we base our advertising prices on one year's use ; you get the balance for good measure.

There is no “dead” matter in them, and the information they contain can be found nowhere else, therefore everybody who wants that information quickly, **must consult the City Directory**.

The principle reasons why the City Directory is consulted so much is that the **consultor** wants to **Buy, Sell or Find** something quickly ; if he wants to **Buy** it may be in your line ; if he wants to **Sell or Find** your adv. may tell him something he wants to know.

In a word, the entire Mercantile and Professional element of America uses the City Directory every working day of the year.

Can you think of any other medium that will reach your people oftener, or stay with them longer at 5 times the cost of the City Directory ?

The street directory gives the location of each street, and shows what other streets or places run from or across it. The house numbers are given in the left and right hand columns, with the names of heads of families and persons in business, in the order of location.

Houses without numbers are indicated by a —, and the dash is also used opposite connecting streets to indicate whether such streets begin or end on the left or right side.

**Business Directory of Beverly.**

This enterprising and accessible city, located on the picturesque "North Shore," incorporated as a town in 1668 and as a city in 1894, is 18 miles from Boston, and a forty minutes ride on the eastern division of the Boston & Maine Railroad. It is very attractive, either as a place of business or residence. The population is about 18,000. It is connected with Salem and Boston by nearly forty trains a day, and with Salem, Gloucester and adjoining towns by well equipped street railways. The most important industry is the manufacture of women's and children's shoes, which is carried on to a very great extent. Many other important and successful manufacturing concerns are located here. The Board of Trade is pursuing a very liberal and public spirited policy by the erection of buildings suitable for manufacturing purposes, and by other means calculated to induce capitalists and mechanics to locate here and take advantage of the business facilities so abundantly presented.
