

The Campbell Visitor

VOL. 9, No. 52

CAMPBELL, SANTA CLARA CO., CALIFORNIA, JUNE 8, 1904

\$1.00 A YEAR

LOCAL NOTES.

Frank Duncan has been laid up with the grip this week.

Hugh McGee is able to be out again after his recent illness.

W. F. Duncan of San Juan spent a few days of last week with relatives.

Mr. and Mrs. Jack Schmidt have a little daughter, born in San Jose, May 11.

A social dance was given by dancing master Martin Baumgartner at I. O. O. F. hall Friday night.

William Beattie has purchased a grocery store at Campbell and will move with his family to that pleasant little town among the orchards.—Santa Clara Journal.

W. H. Blodgett has bought the Dunning place on the Santa Clara and Los Gatos Road opposite Hamilton Avenue, and will occupy as soon as Mr. Dunning and family can vacate.

Property owners and house holders of San Jose are being urged by the "Mercury" to clear their premises of dry grass, which greatly increases danger from fire. Good advise for our townspeople to follow.

The monthly business meeting of the Epworth League was held at the home of Mr. and Mrs. Robert Kennedy Monday evening. Some important business was transacted after which a social time with games and light refreshments was enjoyed.

The Phoenix Fruit Company of San Jose are packing large quantities of cherries in barrels, which after being filled with the fruit are also filled with water, and the whole sealed up. They are sold in the market as brandied cherries, and largely bought by foreigners.

A sprightly young miss not yet out of the grammar school was heard to say she had danced until three o'clock the previous night and wished there was a chance to do it again the following night. Thereby hangs a sermon—which we will let our readers preach for themselves.

The Christian Endeavor Society and the Epworth League have a plan under consideration

for opening a reading room for the summer. It is to be hoped the young people will receive the hearty support of the town in their undertaking. A long felt need will be supplied by such a quiet place, for reading and rest during the evening hours.

School elections in Campbell and outlying districts were held Friday. In Campbell, B. O. Curry was elected for the grammar school board; in San Tomas, H. Carrell of San Tomas was elected for the High School board, and from Hamilton, David Pender. Frank Duncan was elected grammar school trustee in Cambrian district.

A pleasant time was enjoyed by the members of the M. E. church at their roll-call meeting Friday evening. The basket supper proved a sumptuous banquet which greatly promoted the pleasure of the participants. Matters of interest were brought before the membership and discussed and a time of general sociability spent before the meeting broke up.

The Journal has warned Santa Clara that she will lose the Santa Clara College unless proper interest was shown in advancing it. Now comes the announcement that the college will be moved. Now comes the announcement that the college will be moved. Does it pay to "trust to luck?" Is it not better to alway be "up and doing?"—Santa Clara Journal.

Bohnett and Hutchinson are threatening to paint the town—not red, but any color you wish. They began with the cottage occupied by Mrs. Clark on First street which is a dazzling white, and are now at work on the one occupied by Mr. Holmes, which is a delicate cream. These places are owned by B. Campbell, who is doing a good work for the town as well as for himself in beautifying his tenant houses.

A pretty and quiet wedding place at the home of R. S. Gates on Hamilton avenue at 8 p. m. Wednesday, when Bessie Gates was united in marriage to Carl Cutting. Only the relatives and two or three intimate friends

were present to witness the ceremony. After a bountiful supper the young couple left for a few weeks honeymoon trip. They will be at home after June 25th on Hamilton avenue.

In accordance with the custom inaugurated last year by the Rev. J. H. Wythe, there will be a special service for the high school graduates, on Sunday evening, June 19th at the Congregational church, Rev. Geo. E. Atkinson preaching the sermon.

The Board of Trade met Tuesday evening.

When your local newspaper makes its daily or weekly call upon your customers, and those other whom you would like for customers, see that it carries to all of them, a message about some article of general consumption carried in your store. Let your name become associated with your local paper so intimately that the mere reference to the paper will remind many of your business. Continuous, interesting, terse, ads, with enough white space to make them conspicuous, will do the trick and pay big returns, provided you have the goods for sale at reasonable prices.—Ad-Writer.

The Judson-Janes Recital.

A small but most appreciative audience greeted Miss Judson and Miss Janes at their recital on Friday evening at the Congregational church. The program was excellent in itself and well rendered, and it is to be regretted that so many outside attractions prevented the house from being well filled. We have asked the privilege of reprinting some notices from San Francisco papers which will give some idea of the work of these young women. From "Town Talk."

"Miss Mignon Judson, who was styled on the program a mezzo-contralto, is a beautiful young woman with a face like a cameo and a voice to correspond. She has a pure and sympathetic organ and a sweetly serious manner. * * * Three cardinal virtues—temperament, artistic reserve and moving quality in the middle register characterize her singing. Her numbers

had the charm of things happily chosen, through which personality has a fair chance of making itself felt. For one encore she gave the old favorite "The Kerry Dancing" which I have never heard better done."

From "The Musical Courier."

"Miss Mignon Judson was another surprise. Possessed of a mezzo-contralto voice of great sympathy and power of expression, she carries her audience with her and makes the theme of her song inevitably felt. Hers is a voice that reaches the heart, and one can predict that she will become a ballad singer of note in time, as she is at the threshold of her career as yet, and very young."

From Mr. Edward Metzger of "The Musical Review."

"Her voice is free from all tremolo effects. It rings sure and true. Its quality is exceedingly soft and flexible and possesses a remarkable carrying power. Her phrasing is exquisite. It is evident that she sings with her head as well as with her heart. I understand Miss Judson is solely a pupil of Mr. Rolkin's and has not been abroad. This proves once more my old contention that it is not necessary to go to Europe to study."

From notice of the Theodore Salmon Pupil-Recital in "Town Talk."

"Miss Fanny Dana Janes is also well known in musical circles here having only recently played for the San Francisco Musical Club. This young woman plays with a technical finish and a seriousness that are truly delightful to listen to. Never reaching any great climaxes, her playing is always healthful, intellectual, and most satisfying. Her numbers were Novelette, E major, Schumann, and the celebrated Rondo, op. 129 by Beethoven." From the "Dramatic and Musical Review."

"Miss Janes is well advanced in pianistic work, and the finish and color she exhibited spoke both for personal close application and for the care bestowed by the teacher. Miss Janes is thoroughly intellectual, showing beyond any contradiction, a true comprehension of the composers she handles, and this, with a free technique makes her a satisfactory player to listen to."

We shall be glad to hear Miss Judson in Campbell again, and as Miss Janes is one of our own young people we shall hope to hear her play often.

Trout Time in the Sierra.

July 1st is the timely season for early casting on glacier-fed river and stream and about the shores of the high-benched alpine lakes in the hanging valleys of the Sierra Nevada mountains in California. During the winter of 1867-68 the debris cones at the feet of two mountain torrents debouching opposite a "Kern" but in the Kern canyon two miles below the mouth of Coyote creek, received a sudden abnormal increase, either by reason of the unusually heavy precipitation of that winter, or from an earthquake; and, as a result, a dam formed in the Kern river, creating a lake about a mile long and one-half mile wide which is now known as Upper Kern lake.

The trout of this lake rise readily to brown hackle, gray hackle, peacock hackle, or royal coachman, and in the late evening to white miller; and are fiercely gamy, far more so than the usual lake trout. In fact they seem to be simply river trout fattened and enlarged by their sojourn in this lake, full as it is of all sorts of fish food.—E. T. Parsons in Sunset Magazine for June.

Information Sought.

Editor Mercury: In this morning's issue of your paper I read that the Sappho club held a dance in the lower hall of the normal building.

Will some one who knows please answer the following questions:

1. Has the law been repealed that prohibits the dance from all school buildings that are supported by the state?
2. If this law be not repealed, by what right and by what authority can any dance be held in any part of the normal building?
3. Since conscientious opposers of the dance pay an equal rate of taxation with others, where shall their sons and daughters go for normal instruction?
4. If our teachers in the course of their normal training are to be familiarized with the wanton violation of law, to whom shall we look for the inculcation of those sacred principals of morality, law and order upon which the perpetuity of all our social and governmental institutions depend? SILVER BELLS

**Revolution in
 Bread-Making**

We have found the flour that is going to make a revolution in Bread Making.

WHY?

It is made from Blue Stem Wheat and Hard Wheat from Minnesota, and it is blended in such proportions as to produce flour for bread making that has never before been offered in this community.

Silver Bell Flour, the miller tells us, contains 28 per cent gluten.

Housekeepers coming here from the East ask why they can not obtain flour equal in quality to Pillsbury's Minnesota Flour.

The answer is that most California flour is made from Australian Wheat, while Minnesota's best Patent Flour is made from Hard Wheat.

SILVER BELL FLOUR is put on the market with the assurance that it is not excelled in quality by any flour whether made here or in the East. We claim for Silver Bell Flour that it will make from eight to ten more loaves of bread to the barrel than flour made from Australian Wheat and we are going to offer this carload of Silver Bell Flour at the regular prices for our local flour:

Barrel.....	\$5.10
100-pounds.....	\$2.55
50 pounds.....	\$1.30

It is our expectation that every bread maker in Santa Clara county will not rest satisfied with her bread until she has given the Silver Bell Flour a trial.

FARMERS UNION

CAMPBELL, CAL.

THE electric railway promoters are finding their plan of connecting rural communities blocked in an exasperating way by some of the very people who will be most benefitted by the roads when they are finally pushed through. Outragous prices are asked for land, in some cases where it is necessary to buy the right of way, double its market price. This is a grievous lack of public spirit. A fair price is all that should be asked in view of the fact that the railroads will make land more valuable wherever they go. Some of the owners seem to take the ground of the landlord who called after his tenant had papered and painted the house at his own expense, and said that the improvement was so great that he felt he was justified in raising the rent. The prices the railroads are asked to pay are what the land will be worth if the roads come through. Some of that concentrated greed that the corporations and labor unions are supposed to monopolize must have slopped over around these parts.

LOCAL NOTES.

Mrs. Louisa Kelly was out from San Jose Monday.

Do not fail to take in the High School Exhibition Friday night.

The W. C. T. U. will meet with Mrs. Nelson on Wednesday, June 15th at 3 o'clock.

Mrs. J. H. Wythe, accompanied by Miss Anna and Joe, are visiting friends here.

J. H. Neff is taking charge of the blacksmith shop at Guberville for the present.

Officers were elected for the coming term in the I. O. O. F. and A. O. U. W. and Rebekah lodges.

Mr and Mrs. Robert Hamilton and Mr. and Mrs. William Howard started Tuesday morning for Kingston where they will camp out for a few weeks.

Dr. Eli McClish, President of the Univeisity of the Pacific has been secured to deliver the Commencement address at the Campbell Union High School on Thursday evening, June 23rd.

Rev. E. Genge of Troy Conference, New York, delegate to the General Conference of the M. E. church at Los Angeles, stopped over in Campbell last Friday to visit his old friends, W. H. St. John and family.

The M. E. church Sunday

school will hold Children's Day exercises next Sunday morning at 11 o'clock. Good program. In the evening the pastor will preach and will also install the new Epworth League officers.

It is understood that the eighth grade of the grammar school are to have some pleasant exercises Friday afternoon. The other grades will hold exercises in their own rooms, parents being especially invited.

At the meeting of the Grange next Tuesday night President Ralph Husted of the Rural Telephone Company of Saratoga and the Rev. E. S. Williams will be present to discuss the Rural Telephone. A special program is to be prepared.

The J. C. Ainsley Packing Co. are now receiving applications for work during the coming season. Applicants may register at the office any week-day between the hours of 8 and 12 a. m., and 1 and 5 p. m.

A Masonic Lodge was organized at Campbell recently, the following being the officers for the first year: F. M. Righter, W. M.; J. J. Cornell, S. W.; J. A. Greene, J. W.; S. R. Wade, Treasurer; J. C. Ainsley, Secretary; L. S. Robertson, L. D.; Chas. Townsend, J. D.; S. Hutchins, Marshal; A. P. Merrill and A. B. Townsend, Stewards; Daniel Fore, Tyler. Stated meetings of the Lodge are held on the second Monday in each month.

World's Fair at St. Louis.

If you want to know about St. Louis Fair and rates just as soon as possible register your name with the nearest Southern Pacific Agent, or write Division Freight & Passenger Agent, 16 So. First St., San Jose. If you are in San Francisco call at Information Bureau, 613 Market Street.

CAMPBELL

(THE ORCHARD CITY)

Lies 50 miles south of San Francisco on the Santa Cruz division of the Southern Pacific Railway, 5 miles from San Jose, in the famous Santa Clara Valley, the garden spot of the State.

SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheatre is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a (third class) post-office which distributes mail to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational—a first class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University with its marvelous architecture is only 20 miles away.

NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

MINERAL SPRINGS

The hot springs of Alum Rock Canyon and Congress Mineral Springs are within two hours' drive, giving a panoramic view of the entire valley.

The Almaden Quicksilver Mines, the largest in the world are within easy access by rail or team.

The largest seed farms in the world only 10 miles distant.

FRUIT CENTER

Campbell's mammoth fruit dryer and packing house is the largest in the world. It has a capacity of over 10,000,000 lbs.

The Campbell Orchard District is noted for the quality of its fruits. For delicacy of flavor and beauty and perfection of color, its cherries, apricots, peaches, apples, plums, grapes and pears, have no equal in their fresh state, and command the highest market price. As cured or dried fruit the Campbell prune, apricot, and peach is shipped to every civilized country on the globe. Nearly one-half of all the prunes grown on the continent are from Campbell orchards. One and a half million cans of fresh fruits are packed in Campbell every season.

The demand for intelligent labor is increasing every year. Families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE

Land values are very moderate—bare land brings from \$100 to \$300 per acre and when set to trees sells from \$200 to \$1,000 per acre, according to location and age of orchard. Ten to fifteen per cent is an average net income, while many places yield a much higher rate.

In short a Campbell home is one surrounded with HEALTH, WEALTH AND PLEASURE.

The School Trusteeship.

DOUBTLESS there were enough voters in the recent school election who thought our opponent the best man for the place to give him a good majority without the valiant aid of those who worked so earnestly merely to beat us. Some of the reasons given by these latter for their energetic opposition hardly seem worthy of men. Some of them thought we might favor some certain teacher, others that we might oppose some other one; a solid block of voters went against us as a churchman; others because we have protested against excess in dancing; still others who ought to be bigger men found it an excellent opportunity to vent some private grudge.

Never-the-less, whatever the reasons for their opinions, the will of the people was rather emphatically expressed and we have no whine to put up about it. We enjoyed the battle while it was on—in fact as far as we are concerned there will be a fight of one kind or another as long as there are things that might be bettered in any of our public institutions. But we intend, as far as human nature may, to keep from fighting people merely because they have fought us. (Nothing makes your enemy so mad as to be forgiven.) About this season, teachers for the coming year are under consideration. The question of fitness is the only one that ought to enter seriously into the choice of a public servant, whether it be a water-wagon driver, a postmaster, school teacher or president. Private likes and dislikes should have nothing to do with it. The individual who happens to hold one of these positions has snubbed you, perhaps, or it may be he pats you on the head metaphorically, and expects you to wag a metaphorical tail in response, which is worse treatment than the other, or he may greet you with a cast iron smile, exactly like that bestowed upon everyone else, and show other symptoms of a toady, which is worst. None of these things should influence you; capability for the work to be done should decide the matter. This is where a small community like this sometimes is as badly off as a ring ridden city. Prejudice often rules entirely. In such a place it is difficult for a man of sufficient character to hold and express opinions, to acquire and hold a public position. David Starr Jordan could hardly be a grammar-school principal two terms, and President Roosevelt wouldn't be able to get the post-office at all. This is the great drawback to a rural community and the remedy lies with the people, who ought to rise above petty feelings and be ruled by a cool judgement.

Taxpayers Foot the Bill.

Auditor W. F. Parker auditor of this county has brought suit against the county for \$4569 back salary as auditor of this county. Martin Murphy acted as auditor and was paid that sum. If Mr. Parker wins the suit Santa Clara county loses just that much money.—Santa Clara Journal.

For unadulterated nerve Parker takes the whole bakery. Murphy beat him in the election fair and square, but through a technicality Parker got the position after carrying the case to the Supreme Court. Murphy conducted the office for over a year, paid the expenses of hiring deputies and received his salary from the county. Now Parker wants the county to pay him for work he never did. Wouldn't that be a fat thing to pick up? But he won't get it. If he does the County Auditor's office will come as a rather expensive luxury.

HOBSON'S

June Unloading Sale

\$100,000 worth of seasonable Merchandise

to be placed before the people of Santa Clara county at

“UNLOADING” PRICES.

—ON—

SATURDAY, JUNE 4, 1904

we will begin the

Greatest Merchandise Marvel Ever Attempted in this Community.

THE REASON FOR THIS SALE.

We bought very heavily for this spring and summer, but the warm weather was late, consequently a very short season the is result. All these goods must be paid for, and in view of the short season, what is more natural than turn the goods into money, even at a sacrifice to us, but a very material gain for you.

THE PRICES WILL DO THE TRICK.

The good people of Campbell and vicinity certainly must be interested in this sale and a cordial invitation is extended to every one desiring goods in our line, to inspect our wonderful offering.

Never before have our friends (and they are all over Santa Clara Valley, and further, too,) seen such a spectacle in the way of bargains.

Everybody knows that when Hobson Co. has a sale, that it is genuine. We don't have one every week, but when we do it's a "Hummer."

Everything in the house goes,
Suits, Overcoats, Underwear,
Neckwear, Hats, Trunks,
Suit Cases, Etc.

We cannot quote prices—we have so many good things.

Call and see. You'll save your railroad fare many times over.

OUR BOYS' AND CHILDREN'S DEPT.

Is very much overstocked, and mothers can here find a veritable harvest.

DON'T FORGET TO COME TO THIS SALE.

IT WILL LAST TWO WEEKS.

NOTE—Goods delivered free to any part of the county.

T. W. HOBSON CO.

Busy Corner

First and Post Streets, San Jose

People Who Block The Way

(San Francisco Bulletin.)

You are hurrying along a narrow street, intent on some errand, when suddenly a form looms up big, bulky, unyielding. Right in your path, it at once arrests your progress. The man acts as if the street belonged to him alone. You have to back and tack and if finally, after a long detour, you succeed in getting around him you are delayed quite a bit in your journey and the "blocker" gazes at you resentfully, as he resumes his wonted position in the middle of the way.

The big, obstinate man in the middle of the narrow street is the type of the individuals who make a point of interposing objections and obstacles to every progressive step. Now the radical needs the conservative perhaps and the conservative needs the radical. One acts as a wholesome check upon the other and the world gets on because of the action and interaction of these two great forces.

We must have a certain number of careful watchdogs over against every State or national treasury. But when a man conceives of his position in the church or the community to be simply that of a brakeman, to bring things to a halt as often and as quickly as possible, he is something more than a conservative. He becomes a reactionary and he would better get up in a cab and ride with the engineer a while.

Think of the way a social and industrial progress is handicapped by ultra-conservatism. In almost every place a little knot of earnest, patriotic, disinterested men and women are working for a finer public spirit and a better social order. They would see more comfortable and safer dwellings for the poor, more educational opportunities for the unprivileged, a wiser expenditure of the public moneys, a more beautiful city from the point of view of both esthetics and morals. But how often they are hampered by people not all equally interested, who block the way. Sometimes, too, corporate interests erect themselves as an impassable wall against which the reformer pushes in vain.

To come a little nearer the region of personal life, one cannot help thinking of the people who make it harder for other

people to be good. A wife nags her husband, or a husband nags his wife simply because one or the other is trying to be his or her best self. A high minded promising youth becomes interested in religion, and straightway he is the target for the jokes and ridicule of nearly all his associates in the shop or factory. There are people who delight to sow the seeds of scepticism and infidelity in youthful minds, to point out trivial mistakes in the Bible, to argue plausibly in favor of the nonexistence of anything more substantial and enduring than the things which our eyes behold and our hands handle.

It is poor business this blocking the way for somebody else into the kingdom of righteousness and truth.

THE PARSON.

A Fig For Fortune.

The Calimyrna fig is the most desirable fruit for profit. The name Calimyrna, derived from the two words California and Smyrna, was given by Mr. Roeding to the Smyrna fig which he has developed in California. While it is identical with the oriental product, it is in many ways superior to it. Chemical analysis, made by Professor Hilgard, of the University of California, shows that it contains 1.42 more sugar than the best imported Smyrna figs, and it lacks the slight acidity noticed in those ordinarily brought on the market. Professor L. O. Howard, of the Agricultural Department of Washington, says:

"It stands in the same relation to other varieties of figs as the Washington navel orange stands to ordinary varieties of oranges, and its superiority as a dried product over all other varieties which develop without caprification, can no longer be questioned. It seems very probable that in the near future importations of figs will practically be stopped, as our whole country will be supplied with home-grown dried figs. But this feature by no means comprises all the possibilities of the industry. America will compete with the Mediterranean countries in the open markets of the world. At present there are by no means enough trees growing in California to bring about this result, but the right variety will be planted by the thousands during the coming year, and in four or five years will produce substantial crops."—C. A. Dickson in Sunset Magazine for June.

The Amusement Question.

By the decisive vote of 441 to 188 the Methodist General Conference in Los Angeles last Friday declined to make any change in the church discipline in regard to prohibited amusements, and instead of "letting down the fences" the majority report recommended the insertion of an additional paragraph in the discipline under the chapter on special advice. We give the following extract from the paragraph to follow the advice chapter "Improper amusements and excessive indulgence in innocent amusements are serious barriers in the beginning of religious life and fruitful causes of spiritual decline. Some amusements in common use are also positively demoralizing and furnish the first easy steps to the total loss of character. We therefore look with deep concern on the great increase of amusements and on the general prevalence of harmful amusements, and lift up a note of warning and entreaty, particularly against theatre going, dancing and such games of chance as are frequently associated with gambling, all of which have been found to be antagonistic to vital piety, promotive of worldliness and especially pernicious to youth. We affectionately admonish all our people to make their amusements the subject of careful thought and frequent prayer; to study the subjects of amusements in the light of their tendencies and to be scrupulously careful in this matter to set no injurious example."—Los Gatos Mail.

HEALTH

"I don't think we could keep house without Thedford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, frees the congested bowels and invigorates the torpid liver and weakened kidneys

No Doctor

is necessary in the home where Thedford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Thedford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.
