WASHINGTON AGRICULTURAL COL-LEGE WILL HELP GROWERS.

Free Short Course in Horticulture Will Be Given Next Month-Plan of the Work.

PULLMAN, Wash., Dec. 21 .- The fruit pests have been so destructive in the in-land Empire during the season just closed that a united effort is to be made by fruitgrowers and the faculty of the Wash-ington Agricultural College to devise ington Agricultural College to devise some means of exterminating them. In pursuance of this resolve the facuity of the college has decided to give a short course in herticulture in the college buildings for six weeks, beginning January 6 and closing February 14. All fruitgrowers and farmers, and others who are in-terested in horticulture, are invited to attend this school, which will be in the nature of a prolonged tarmens' institute, Fruitgrowers and horticulturists who have had wide experience in fruitgrowing in this country will be present and assist in conducting the school. In addition to these the experiment station staff of the college will be present, and interesting lectures on fruit culture, the destruction of pests, fungus growths, etc., will be'de-

In speaking of the plan of the institute work S. W. Fletcher, professor of horti-culture, said: "Two to three hours a day will be devoted to lectures on the various subjects in the course. References to literature on the subjects in hand will be given out each day, and the student will be expected to spend at least two hours a day in this collateral reading. As far as possible two to five hours a day of practical work in budding, grafting, pruping, spraying, etc., will be required of each student,"

The course is free to all who wish to enter, and the faculty is now preparing a list of private boarding-houses where those who attend will be given accommodations at reasonable rates.

NOTHING IN LOGAN'S FIND.

There Is a Misprint in the Code Which He Cited.

SALEM, Dec. 21 .- The discovery of John F. Logan, reported in today's Oregonian, that the criminal code contains no provision for passing judgment upon a criminal convicted after a plea of "not guilty" proves to be groundless when reference is made to the original act on file in the office of the Secretary of State. The sec-tion of Hill's Code cited by Mr. Logan contains a misprint, by which an errone-ous wording of the law is given. In Hill's Code of 1892, section 1395, clied by Mr. Logan, reads as follows:

After a plea of guilty, or after a verdict against the defendant on a plea of former contion or acquittal, if the judgment be not arrested or a new trial granted, the court mu appoint a time for pronouncing judgment.

This section, as found in the original act, signed by the officers of the Legislature of 1864, reads as follows: After a plea or verdict of guilty, etc.

This act was correctly printed in Deady's Code of 1894, but an error occurred in Deady's Code of 1872, and the error was repeated in subsequent codes. ELECTION LAWS OUT.

Secretary of State Dunbar Prepares an Excellent Pamphlet.

SALEM, Dec. 21.-In compliance with the requirements of law, Secretary of State Dunbar has just had printed in pamphlet form all the election laws of this state. Each succeeding session of the Legislature makes some changes in the election laws, and, as a consequence, the pamphlet containing the laws in-creases in size every two years. It required 150 pages of the usual size to set forth all the election laws now in force. The Morgan primary election law having been declared unconstitutional, was not included in the publication, but the Lock-wood act is given in full.

The pamphlet just issued is an improve-ment over those which have been issued heretofore, so far as arrangement is con cerned. Instead of topical titles printed in small type in the margin, the different subjects are given in heavy type above each section, making it much easier to find any provision of the laws. A com-plete index is appended to the election In Wa.

PORTLAND, Dec. 21 .- (To the Editor.) I notice in this morning's issue that my esteemed friend, Mr. John F. Logan, has made a "discovery" that there is no provision in the code for judgment against a murderer after his conviction upon a plea of not guilty. It is quite true, the words "or a verdict of true. guilty," which are in section 1400, do not appear in the sections he refers to, for some unknown reason, and at first blush, it seems to be his way. The framers of that code were wise enough, however to guard against just such omissions, and our Sheriffs and Judges need not worry about having executed murderers here tofore without warrant of law. the benefit of those interested.
