Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

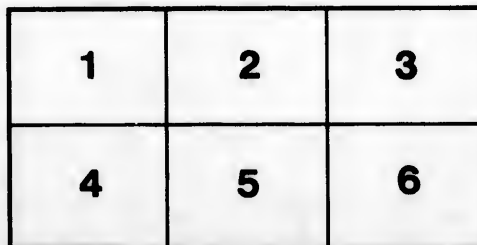

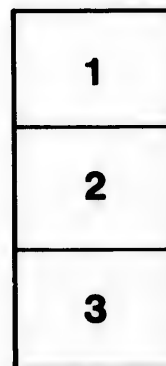

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

CHRONOLOGICAL ERAS AND CYCLES.

CHRONOLOGICAL ERAS.

The year 1861 is the 6574th of the Julian Period, and the 5621-22nd of the Jewish Era.

The year 1278 of the Mohammedan Era, or the era of the Hegira, begins on the 9th of July 1861.

The first day of January of the year 1861 is the 2,400,777th day since the commencement of the Julian Period.

CHRONOLOGICAL CYCLES.

Golden Number.....	19	Dominical Letter.....	F.
Epact.....	18	Roman Indiction.....	4
Solar Cycle.....	22	Julian Period.....	6574

ASTRONOMICAL SYMBOLS.

COMMENCEMENT OF THE SEASONS.

Spring commences March 20th—Sun enters ♈
 Summer commences June 21st—Sun enters ♋
 Autumn commences Sept. 23rd—Sun enters ♎
 Winter commences Decem. 21st—Sun enters ♑

ECLIPSES.

In the year 1861 there will be four Eclipses : three of the Sun and one of the Moon ; and a transit of Mercury over the Sun's disc.

I. An annular Eclipse of the Sun, Jan. 10th, 1861 ; invisible in Nova Scotia.

II. An annular Eclipse of the Sun, July 7, 1861 ; invisible in Nova Scotia.

III. A partial Eclipse of the Moon, Dec. 17th, 1861 ; visible at Halifax as follows :

Moon enters Penumbra.....	1h. 31m. morning.
Moon enters Shadow.....	3 13 "
Greatest Eclipse.....	4 4 "
Moon leaves Shadow.....	4 55 "
Moon leaves Penumbra.....	6 37 "
Magnitude of the Eclipse = 0.185, (Moon's diameter = 1)	

IV. A total Eclipse of the Sun, Dec. 31st, 1861 ; visible as a partial one on the Eastern coast of this continent. Commencing at Halifax at 8h. 3m., and ending at 9h. 53m., morning.

A Transit of Mercury, Nov. 11th, 1861 ; invisible in Nova Scotia.

MORNING & EVENING STARS.

Venus will be a Morning Star till May 15th, then an Evening Star till the end of the year.

Mars will be an Evening Star till August 28th, then a Morning Star till the end of the year.

Jupiter will be an Evening Star till August 30th, then a Morning Star till the end of the year.

Saturn will be an Evening Star till Sept. 5th, then a Morning Star till the end of the year.

SIGNS.

The following signs are used in our Almanack to denote the different positions and phases of the Moon. ☽ denotes the Moon in the first quadrature—that is, the quadrature between change and full. ☾ denotes the Moon in the last quadrature—that is the quadrature between full and change. ● denotes New Moon. ○ denotes Full Moon.

HALIFAX.

Latitude, North, 44° 39' 20"
Longitude, West, 63° 36' 40" in time 4h. 14m. 26-7s.

NOTE.—It is to be observed that throughout the Calendar pages the Computations are in *Mean Time*, with the exception of the rising and setting of the Sun. Also that the Sun and Moon's declinations are given for the Meridian of Greenwich.

THE TIDES.

By the action of the sun and moon, especially the latter, the waters of the large oceans of the earth are drawn in the directions of these bodies, so as to rise and fall according to their position in relation to them. These regular movements are called **THE TIDES**.

The movement of the waters in the tides chiefly follows the course of the moon. The lunar day, or interval from the moon being on the meridian of any place, till she is again on that meridian, is 24 hours 50 minutes, in consequence of the rapid motion of the moon through the sky. Hence the phenomena of the tides take place in this period. There are two **HIGH-WATERS** or **FLOODS** at the same time, one on the meridian next the moon, the other on the opposite meridian; and at every place there are two high-tides in the lunar day, at an interval of about 12 hours 25 minutes. The tides are the highest when the sun and moon are in conjunction or opposition—then called *spring-tides*; lowest when the moon is in her quarters—then called *neap-tides*. The tides are affected by the moon's distance, the sun's distance and elevation, and by local causes.

The tide on the side of the earth next the moon is caused by the direct action of the moon, in drawing towards her the waters there. But the moon also acts on the mass of the earth, as well as the waters under her; hence she, in a manner, gives the earth a tendency *from* the water on the farther side of the earth, which produces a high tide on that side also.

THE FAMILY FRIEND.

To CLEAN CALICO FURNITURE.—Shake off the loose dust; then lightly brush with a small, long-haired furniture-brush; after which wipe it closely with clean flannels, and rub it with dry bread.

If properly done, the curtains will look nearly as well as at first; and if the color be not light, they will not require washing for years.

Fold in large parcels, and put carefully by.

While the furniture remains up, it should be preserved from the sun and air as much as possible, which injure delicate colors; and the dust may be blown off with bellows.

- ☾ Last Quarter, 3rd day, 9h. 41m., Evening.
- New Moon, 10th day, 11h. 13m., Evening.
- ☽ First Quarter, 19th day, 3h. 46m., Morning.
- Full Moon, 26th day, 0h. 51m., Evening.

THE FARMER'S FRIEND.

TO MAKE HENS LAY PERPETUALLY.—Hens will lay perpetually if treated in the following manner:—Keep no roosters (cocks): give the hens fresh meat, chopped up like sausage meat, once a day; a very small portion, say half an ounce a day to each hen, during the winter, or from the time insects disappear in the fall till they appear again in the spring. Never allow an egg to remain in the nest for what are called "nest eggs." When the roosters do not run with the hens, and no nest eggs are left in the nest, the hens will not cease laying after the production of twelve or fifteen eggs, as they always do when roosters and nest eggs are allowed; but continue laying perpetually. The only reason why hens do not lay in winter as freely as in summer, is the want of animal food, which they get in summer in abundance, in the form of insects.

Men are never more offended than when their veracity is suspected.

 For High Water at Cape Sable add 50m., to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

MAKING BEDS.—Close or press bedsteads are ill adapted for young persons or invalids; when their use is unavoidable, the bed-clothes should be displaced every morning, and left for a short time before they are shut up. The windows of bed-rooms should be kept open for some hours every day, to carry off the effluvia from the bed-clothes; the bed should also be shaken up, and the clothes spread about, in which state the longer they remain, the better. The bed being made, the clothes should not be tucked in at the sides or foot, as that prevents any further purification taking place, by the cool air passing through them.

A warming pan should be chosen with holes in the lid. About a yard of moderately-sized iron chain, made red-hot and put into the pan, is a simple and excellent substitute for coals.

THE FARMER'S FRIEND.

EXCELLENT METHOD OF REARING CALVES.—Put some water on the fire, nearly the quantity that the calf can drink. When it boils, throw into it one or two handfuls of oatmeal, and suffer the whole to boil for a minute. Then suffer it to cool until new-milk-warm. Then mix with it one or two quarts of milk that has stood twelve hours, and has been skimmed: stir the whole and give it to the calf to drink. At first it is necessary to make the calf drink, by presenting the finger to it, but it soon learns to do so without this help, and will grow incomparably fatter than by the old method.

The economical advantages resulting from it are as follows:—According to the old method, the calf intended for slaughter is made to suck for three weeks, and those intended for agriculture, from six to eight weeks. Suppose the cow gives only a moderate quantity of milk, the value of it will amount, in three weeks, to nearly the value of the calf. If, on the contrary, we rear a calf according to this method, we consume during the three weeks only three quarts of oatmeal.

THE FARMER'S FRIEND.

To PROTECT GRAIN FROM RATS.—An individual of much practical experience informs us that green "ELDER," deposited in and about the mows of hay and grain, will prove an effectual preventive against the depredations of mice and rats. These animals are frequently very destructive in their ravages; and if a remedy so simple and easy of attainment is efficacious, it deserves to be known and remembered by all. We have long known that the stalks and leaves of the common mullein will drive rats from their haunts. There is something in the odour of this plant that is as disgusting to their ratships as was the leek to ancient Pistol—they "cannot abide it."

To CURE WOUNDS IN TREES.—Wounds in trees are best cured by covering them with a coat of common lead paint without turpentine (for turpentine is poison to vegetation) in the sun, on a fine dry day.

THE FAMILY FRIEND.

To CLEAN PAINT.—Never use a cloth, but take off the dust with a little long-haired brush, after blowing off the loose parts with the bellows. With care paint will look well for a long time, if guarded from the influence of the sun. When soiled, dip a sponge or a bit of flannel into soda and water, wash it off quickly, and dry immediately, or the soda will eat off the color.

When the wainscot requires scouring, it should be done from the top downwards and the water be prevented from running on the unclean parts as much as possible, or marks will be made which will appear after the whole is finished. One person should dry with old linen as fast as the other has scoured off the dirt, and washed off the soap.

THE FARMER'S FRIEND.

THE USE OF SULPHUR IN DESTROYING INSECTS ON PLANTS, AND ITS BENEFIT FOR VEGETATION.—Tie up some flower of sulphur in a piece of muslin or fine linen, and with this the leaves of young shoots of plants should be dusted; or it may be thrown on them by means of a common swawn's-down puff, or even by a dredging-box.

Fresh assurances have repeatedly been received of the powerful influence of sulphur against the whole tribe of insects and worms which infest and prey on vegetables. Sulphur has also been found to promote the health of plants, on which it was sprinkled; and that peach-trees, in particular, were remarkably improved by it, and seemed to absorb it. It has likewise been observed, that the verdure, and other healthful appearances, were perceptibly increased; for the quantity of new shoots and leaves formed subsequently to the operation, and having no sulphur on their surface, served as a kind of comparative index, and pointed out distinctly the accumulation of health.

For High Water at Cape Sable, add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO TAKE STAINS OUT OF MARBLE—Mix unslacked lime in finest powder with stringent soap-ley, pretty thick, and instantly with a painter's brush lay it on the whole of the marble. In two months' time wash it off perfectly clean; then have ready a fine thick lather of soft soap, boiled in soft water; dip a brush in it, and scour the marble. This will, with very good rubbing, give a beautiful polish.

TO TAKE IRON-STAINS OUT OF MARBLE.—An equal quantity of fresh spirit of vitrol and lemon-juice being mixed in a bottle, shake it well; wet the spots, and in a few minutes rub with soft linoon till they disappear.

THE FARMER'S FRIEND.

TO CURE THE DISEASE IN APPLE-TREES.—Brush off the white down, clear off the red stain underneath it, and anoint the places infected with a liquid mixture of train oil and Scotch snuff.

BAD EFFECTS OF IRON NAILS ON FRUIT TREES.—It often happens that some of the limbs of fruit trees trained against a wall are blighted and die, while others remain in a healthy and flourishing state. This has hitherto been erroneously attributed to the effects of lightning; but from closer observation, and from several experiments, it has been found to arise from the corroding effects of the rust of the nails and cramps with which trees in this situation are fastened. To avoid this inconvenience, therefore, it requires only to be careful in preventing the iron from coming in contact with the bark of the trees.

ALL who wish to be rich, must SPEND LESS THAN THEY EARN.

THE FAMILY FRIEND.

To MEND CHINA.—Mix together equal parts of fine glue, white of eggs, and white of lead, and with it anoint the edges of the article to be mended; press them together, and when hard and dry scrape off as much of the cement as sticks about the joint. The juice of garlic is another good cement, and leaves no mark where it has been used.

To IMITATE GROUND GLASS.—Rub the glass over with a lump of glazier's putty, carefully and uniformly, till the surface is equally covered. This is an excellent imitation of ground glass, and is not injured by rain or damp. It is useful for kitchen windows, &c.

THE FARMER'S FRIEND.

HEALING WOUNDS IN TREES.—This method consists in making a varnish of common linseed oil, rendered very drying by boiling it for the space of an hour, with an ounce of litharge to each pound of oil, mixed with calcined bones, pulverized and sifted, to the consistence of an almost liquid paste. With this paste the wounds of trees are to be covered, by means of a brush, after the bark and other substance have been pared, so as to render the whole as smooth and even as possible. The varnish must be applied in dry weather, in order that it may attach itself properly.

CANKER IN TREES.—Cut them off to the quick, and apply a piece of sound bark from any other tree, and bind it on with a flannel roller. Cut off the canker, and a new shoot will grow strong, but in a year or two you will find it cankered.

A bare pasture enriches not the soil, nor fattens the animals, nor increases the wealth of the owner.

THE FAMILY FRIEND.

TOMATO SAUCE.—Crush half a dozen, more or less, of very ripe, red tomatoes; pick out the seeds, and squeeze the water from them; put them into a stew-pan, with two or three finely-sliced shalots, and a little gravy: simmer till nearly dry; when add half a pint of brown sauce, and simmer twenty minutes longer; then rub it through a tummy into a clean stew-pan; season with Cayenne pepper and salt, a little glaze, and lemon juice; simmer a few minutes, and serve. Tarragon or Chili vinegar are sometimes added; and sliced onions may be substituted for the shalots.

THE FARMER'S FRIEND.

TO PREVENT THE FLY IN TURNIPS.—From experiments lately made, it has been ascertained that lime sown by hand, or distributed by a machine, is an infallible protection to turnips against the ravages of this destructive insect. It should be applied as soon as the turnips come up, and in the same daily rotation in which they were sown. The lime should be slacked immediately before it is used, if the air be not sufficiently moist to render that operation unnecessary.

TO DESTROY WASPS ON FRUIT TREES.—Wasps, about the month of July, will begin to swarm about the early fruits; and for their destruction, phials should be hung about the branches, half-filled with honey and water, or with sugar and small-beer. These should be emptied and replaced once in two or three days, otherwise they do not take so well—these little animals being extremely sagacious, and dishing the appearance of their own species, when dead.

 For High Water at Cape Sable, add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

RACAHOUT DES ARABES.—A pleasant beverage for Invalids.—Mix thoroughly one pound of ground rice; one pound of arrow-root; half pound of fine chocolate. Put the mixture into a jar for use. When it is wanted, make a teaspoonful of the Racahout into a paste with cold water or milk; then stir it into half a pint of boiling milk, and let it boil up for a minute or two; add sugar, if agreeable, and drink it as you would chocolate.

SUBSTITUTE FOR CREAM.—If you have not cream for your coffee, it is a very great improvement to boll your milk, and use it while hot.

THE FARMER'S FRIEND.

FATTENING CHICKENS.—Take, for that purpose, a quantity of rice, and grind or pound it into a coarse flour; mix sufficient for present use with milk and a little coarse sugar; stir the whole over the fire till it makes a good paste; and feed the chickens in the day time only, by putting as much of it as they can eat, but no more, into the troughs belonging to their coops. It must be eaten while warm; and, if they have also beer to drink, they will soon grow very fat. A mixture of oatmeal and treacle, combined till it crumbles, is said to form a food for chickens, of which they are so fond, and with which they thrive so rapidly, that at the end of two months they become as large as the generality of full-grown fowls fed in the common way.

A horse should not be permitted to drink cold water whilst warm; neither should the fore legs or feet of a horse be washed until he gets cold.

 For High Water at Cape Sable, add 50m. to the time of High Water at Halifax. Tido serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

CHEERFULNESS.—Does it seem singular that *cheerfulness* is placed among the requisites for good house-keeping? But it is of far more importance than you would, at first view, imagine. What matters it to a brother or husband, if the house be ever so neat, or the meals punctually and well prepared, if the mistress of it is fretful and fault-finding—ever discontented and complaining. The *outside* of such a house is ever the most attractive to him, and any and every excuse will be made for absenting himself; and the plea of business or engagements will be made to her who is doomed to pass the hours needlessly in solitude.

We must be as courteous to a man as we are to a picture, which we are willing to give the advantages of a good light.

THE FARMER'S FRIEND.

AUTUMN PEAS.—The purple-flowered peas are found to answer best for a late crop in autumn, as they are not so liable to be mildewed as many of the other sorts, and will continue flowering till the frost stops them.

These peas may be sown in July, August, or as late as the first week in September, if sown in a warm, sheltered situation, and in a soil inclining to sand.

Soak the peas in warm milk, and after you have drawn the drills, water them before you sow the peas; it is best to sow them towards the evening. If the autumn should prove very dry, they will require frequent watering.

When peas are sown before winter, or early in spring, they are very apt to be eaten by mice.

To prevent this, soak the peas for a day or two in train oil before you sow them, which will encourage their vegetation, and render them so obnoxious to the mice that they will not eat them.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St John, N. B.

NUTMEG PUDDING.—Pound, fine, two large or three small nutmegs; melt three pounds of butter, and stir into it half a pound of loaf-sugar, a little wine, the yolks of five eggs, well beaten, and the nutmegs. Bake on a puff-paste.

PUMPKIN PIE.—Stew the pumpkin dry, and make it like squash pie, only season rather higher. In the country, where this real Yankee pie is prepared in perfection, ginger is almost always used with other spices. There, too, part cream, instead of milk, is mixed with the pumpkin, which gives it a richer flavor.

CHEAP PAINT.—Tar mixed with yellow ocre makes an excellent green paint for coarse woodwork, iron fencing, &c.

THE FARMER'S FRIEND.

IMPROVED METHOD OF MAKING BUTTER.—If the dairy consists of three or four cows, they should be milked in the summer thrice a day; in the morning, at noon, and in the evening. Each milking must be kept by itself, in flat wooden vessels, to cool in like manner; and thus in succession for two or three days, according to the temperature of the air, the milk thickens, and thence is fit for churning soonest in warm weather. The quantity of butter will be generally in the proportion of a pound (twenty-two ounces) for each ten pints, or five English gallons of milk. In winter, the cows are to be milked only twice a day, and the milk is to be put into the churn warm from the cow, where it might stand a day or two longer than in summer before it becomes sufficiently thick; in intense cold it will be necessary to add a small quantity of boiling water. The dairy-maid must not be disheartened if she does not succeed perfectly in her first attempt.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis, and St. John, N. B.

THE FAMILY FRIEND.

APPLE FRITTERS.—Pare and core fine large Pippins, and cut them into round slices. Soak them in wine, sugar, and nutmeg, for two or three hours. Make a batter of four eggs; a table-spoonful of rose-water; a table-spoonful of wine; a table-spoonful of milk; thicken with enough flour, stirred in by degrees, to make a batter; mix it two or three hours before it is wanted, that it may be light. Heat some butter in a frying pan; dip each slice of apple separately in butter, and fry them brown; sift pounded sugar, and grate nutmeg over them.

To WHITEN THE TEETH.—Mix honey with finely powdered charcoal, and use the paste as a dentifrice.

THE FARMER'S FRIEND.

MILCH Cows.—Milch Cows are infinitely more profitable kept in the house than out of doors, but they must be trained to it, otherwise they do not thrive.

The best food for them is clover, lucern, potatoes, yams, turnips, carrots, cabbages, peas, and beans.

Such cows as those in the neighborhood of London, kept in the house, and properly fed, ought to yield nine gallons per day, for the first four months after calving.

In the management of cows a warm stable is highly necessary; and currying them like horses not only affords them pleasure, but makes them give their milk more freely. They ought always to be kept very clean, laid dry, and have plenty of good sweet water to drink. Cows treated in this manner have given two gallons of milk at a time, when within ten days of calving.

☞ For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

CHEAP CARPETING.—Sew together strips of the cheapest cotton cloth, of the size of the room, and tack the edges to the floor. Then paper the cloth as you would the sides of the room, with any sort of room paper. After being well-dried, give it two coats of varnish, and your carpet is finished. It can be washed like carpets, without injury, retains its gloss, and, on chambers or sleeping rooms, where it will not meet rough usage, will last for two years as good as new.

TO MAKE FLANNELS NOT SHRINK.—The first time of washing put them into a pail of boiling water, and let them lie till cold.

THE FARMER'S FRIEND.

To PROMOTE THE HEALTH OF FARM ANIMALS.—All domestic animals should be abundantly furnished with salt. A supply kept within their reach, whenever it can be done, is recommended. Horses and pigs should occasionally have ashes given them in their food; and pigs ought at all times, when confined in pens, to be supplied with charcoal, as, besides being a medicine, it is a cheap and valuable food.

To DESTROY WASPS ON FRUIT TREES.—Winter is the season to apply the following solution. The juices are then determined to the root. Soft soap, two pounds; leaf or roll tobacco, one pound; nux-vomica, two ounces; and turpentine, half an English gill: boll them in eight English gallons of soft or river water, to six; and use it milk warm. With a sponge carefully anoint every branch, root and bud; and be sure to rub it well into every joint, hole, and angle, as it is there the eggs are chiefly lodged. Repeat each winter.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

GENERAL POST OFFICE, HALIFAX, N. S.

(In Dalhousie College, corner Duke and Barrington Sts., Halifax.)

Post Master General, ARTHUR WOODGATE, Esq.

Chief Clerk, and Superintendent M. O. Office, C. H. Hamilton, Esq.

Accountant, F. M. Passow, Esq. *Ass. Clerk*, — Southall, Esq.

Clerks Inland and Sorting Departments, Messrs. W. Small, John W. Ingles, — Sutherland, B. W. Cochran.

Messenger, Alexander Church.

Letter Carriers, Wm. Craig, George Craig, David Silverthorne, John Patterson.

Office open every day (except Sunday) from 4 o'clock in the morning till 8 in the evening.

The Mails for the United Kingdom are closed at Halifax every alternate *Thursday* evening at 8 o'clock. Letters, &c, for England, which may be dropped into the box after the hour of closing, and up to the arrival of the Packet will be forwarded in a bag, loose—but such letters must be prepaid by stamps. The Royal Mail Steamers leave Boston for Halifax and Liverpool, G. B., every alternate *Wednesday*, arrive at Halifax on *Thursday* evening or very early the succeeding morning, leaving Halifax immediately after receiving the mails. Letters will also be received on board the Steamers after the Mail has left the Post Office. Must be prepaid by stamp.

Letters to and from England, 12½c., *prepayment compulsory*, can be prepaid by using a 12½ cent., or two 5, or one 10 cent Stamp, together with half of a 5 cent. Stamp cut diagonally. Newspapers free.

The postage on books from Great Britain to Nova Scotia, or vice versa, is for a packet not exceeding 4 oz. 7c., currency; not exceeding ½ lb. 12½c; ½ lb. and not exceeding 1 lb., 25 cts.; and so on adding 25 cts. for every additional pound or fraction of a pound. One book package may

contain separate Books, Publications, Almanacks, and Maps and Paper, Parchment or Vellum; the latter three materials may be written or printed on—the package may contain the name and address of the sender. Rollers may accompany prints and maps, and markers may be sent with books. No letters must be sent with or written on a book package, and no such package must exceed two feet in length, width or depth. The postage must in all cases be prepaid by Stamps.

Closed Mails for the United Kingdom *via* United States are made up at Halifax to meet the Steamers leaving New York for Liverpool. Letters to be specially addressed "*via New York.*" Letters 17c.; newspapers 2c. each, must be prepaid.

Mails are made up to be forwarded by the Canadian line of Steamers, *via* Pictou and River DeLoup—postage same as by Cunard line. Letters for Canada also forwarded by this route: closing every Saturday after the departure of the R. M. S. for England.

The Mails for the United States, *via* Boston, per Royal Mail Steamers, are made up on *Tuesday* evening of the week in which the Packet from England is due, at 8 o'clock. Should the Steamer not arrive by 6 o'clock the following morning, *supplementary Mails* will be made up. Should the Steamer from Liverpool arrive previous to *Tuesday* night—the Mails as heretofore will be closed *immediately on her arrival.*

A closed mail for Canada is made up and forwarded at the same time in charge of the British Officer. Letters so forwarded must be specially addressed "Closed Mail for Canada," postage 12½c.; viz. 8c. packet rate, and 4c. Colonial rate—prepayment optional.

The Mails for Bermuda and the West Indies are made up finally at Halifax on the Thursday evening of the week in which the Royal Mail Steamer is expected to arrive from Boston, at 8 o'clock. Letters 8c.—when posted in the interior, 5c. additional, which must be prepaid. Newspapers 2c. each, which must be paid by stamp.

Letters are forwarded *via* Bermuda for Chagres and the Pacific, Chili, and Peru: postage 33c., must be prepaid; 5c. additional when posted in the interior. Havana, Honduras, Laguyra, Mexico, Venezuela, and the British and Foreign West India Islands. Postage to Foreign West Indies, 8c. when posted at Halifax; 5c. additional when posted in the interior—must be prepaid. Newspapers 2c. each, to be prepaid by stamp.

The Mails for Newfoundland (and Cape Breton during the Summer months) are made up at Halifax once a month during the months of December, January, February, and March; and once a fortnight during the months of April, May, June, July, August, September, October, and November, closing finally on the Thursday evening of the week in which the R. M. Steamer is expected to arrive from Boston. Postage 8c.; when posted in the interior 5c. additional. Newspapers 2c. each, which must be paid by stamp at the time of posting.

The Mails for St. Pierre and Miquelon are forwarded to Sydney, C. B., from whence they are despatched by the French Packet during the Summer months, and from Halifax direct in the Winter months. Letters 8c. packet rate, and 5c. inland—prepayment optional.

All letters are charged by weight, and a uniform rate of postage of 5c. on a letter not exceeding half an ounce in weight has been established throughout British North America. To any part of the United States 10c.; to Oregon and California 15c.

Letters posted in any town within the Province for delivery in the same town are liable to the rate of 2c. for every half ounce.

The Postage on all Letters posted in Nova Scotia, and addressed to any place in this Province, the other British North American Provinces, and the United States, as well as to the United Kingdom, must be prepaid by Stamp.

Letters sent unpaid, addressed to any part of the above-named places, will be charged with a *double* rate of postage.

Official letters, addressed to the Provincial and Military Public Departments are to be treated as heretofore.

Newspapers pass free to any part of the Province, British North America, (Newfoundland and Bermuda excepted) and the United States when sent by land Mail—to be put up in covers open at the ends.

Printed Circulars, Prices Current, Handbills, and other printed matter of like description, put up in covers open at the ends, and without any written communication, may be sent to any part of the Province to any place within the same, as well as through Nova Scotia, at the rate of 1d. per ounce—prepayment optional, except when addressed to the United States, in which case the postage must be prepaid.

Pamphlets, Magazines, Periodicals, or Books, bound or unbound, done up in covers open at the ends, unaccompanied by any written communication, may be transmitted as above mentioned, through the mail, in this Province: not exceeding 2 ounces in weight, free; and when exceeding 2 ounces 1c. for every ounce up to 48 ounces, beyond which weight they cannot be sent by mail.

British reprints of copyright works from the United States, by *land mail or steamer*, charged letter postage.

For Dartmouth *daily*, postage 2c.

For Musquodoboit Harbor, every Tuesday morning, at 9 o'clock.—Return Mail due on Monday afternoon, at 5 o'clock.

For Prospect on Saturday afternoon, at 2 o'clock. Return mail due on Saturday morning at 11 o'clock.

For Ketch Harbor and Sambro on Friday evening, at 10 o'clock. Return mail due on Saturday.

✍ Letters for *Registry* must be posted half an hour previous to the closing of the mail by which they are to be forwarded, and the postage as well as the registration fee must be *prepaid*.

Letters *prepaid by stamps*, and dropped into the Letter Box during the night, and up to 5 o'clock, a. m., will be forwarded by the mails despatched same morning.

When the mails from England arrive before 9 p. m., they are delivered the same evening, and after that hour at 7 next morning.

All other mails arriving before 7 p. m., will be delivered the same evening—if after that hour and before 8, at 6 o'clock—and if after 8, at 7 o'clock the following morning.

The Postmaster General is not liable for the loss of any letter or package, unless such loss should arise from his own default.

Land Mails made up at Halifax, 8 p. m.

MONEY ORDER SYSTEM.

1. Orders may be issued for any sum under and up to 20 Dollars, Currency, but shall not exceed that amount.

2. The charge for each Order (without respect to the amount thereof) shall be Ten cents. Currency, to be paid in advance by the party applying for the Order.

3. The Money Orders shall be made out upon forms supplied by the Head Office, and no order will be valid or payable unless given upon the regular printed form.

4. Persons applying for Money Orders will be required to state the particulars upon a Form of Application provided for that purpose.

5. If, in consequence of error or misapprehension, the purchaser of a Money Order should desire to change the place of payment named therein the issuing Postmaster will write across the face of the Order, in black ink, the words "*Now payable at*—," specifying the place,—to which he will affix the date of his signature. The charge for transfer, as it will involve some correspondence, will be Ten cents. in each case.

6. No alteration of the Payee's name will be allowed after an order has been issued and the advice mailed, but a new one will be granted, and the usual charge of Ten cents. made.

7. Parties procuring Money Orders will please to examine them carefully, to see that they are properly filled up and stamped. This caution will appear sufficiently important when it is understood that an Order defective in any important respect will throw difficulties in the way of its payment.

8. When a Money Order is presented for payment at the Office on which it is drawn, the Postmaster, or Clerk employed, will use all proper means to assure himself that the Applicant is the party named and intended in the Advice, and upon the payment of the Order will be careful to obtain the signature of the Payee to the receipt at foot.

9. When, through illness or other insuperable difficulty, the Payee—that is, the person named in the Advice—is prevented from presenting the Order in person, the Postmaster will be at liberty to accept a written authority from him in favor of a second person, provided always that such written authority is satisfactorily proved to be genuine.

10. Any Money Order Post Office may repay an Order issued by itself, but only to the party who obtained it. The charge or commission shall in no case be returned.

11. For the present, the Offices in this Province which are authorized to grant and pay Money Orders are as follows, viz: General Post Office, Halifax; Post Offices at Amherst, Antigonish, Annapolis, Arichat, Baddeck, C. B., Digby, Guysboro', Kentville, Lunenburg, Liverpool, Pictou, Port Hood, Shelburne, Sydney, Truro, Windsor, and Yarmouth.

12. Postmasters, when not in funds, may defer payment of money for six days until they shall have received a supply from the Head Office.

PARCEL POST.

Parels closed at the ends and sides may be posted at any Post Office in Nova Scotia, for conveyance to any other Post Office (not Way Office) in the Province, at a rate of Postage subject to the following condition:

1. No letter or letters shall be enclosed.
2. The parcel shall not contain any explosive substance, glass, liquids, or other matter likely to injure the ordinary contents of the mail, under penalty of the forfeiture of the parcel.
3. The weight of the parcel shall not exceed 3lbs., nor the size exceed one foot in length or breadth, or six inches in thickness.
4. Parcels must be prepaid at the following rates, and by *postage ams* (not by *money*):

If weighing less than 1 lb. 25 cents.
 More than 1 lb., and not exceeding 2 lbs. 50 "
 More than 2 lbs., and not exceeding 3 lbs. 75 "

5. The parcel may be registered, on prepayment, also by stamp, of a registration fee of 10c., in addition to the above rate.

6. The parcel shall have the words, "*By Parcel Post*," plainly written over the address. It should be well and strongly put up, and be legibly addressed to the Post Office address of the intended receiver, including the name of the County in which the Post Office is situated. The following is an example of the mode of address recommended

By Parcel Post.

To _____,
 _____ Post Office,
 County of _____, N. S.

Sent by _____,
 _____ County.

7. If the name and address of the sender be written on the parcel, it will, if delivery should fail from any cause, be returned unopened to the sender on payment of an additional rate of 25c. for the return conveyance.

8. If the number of stamps affixed to a packet be insufficient to prepay the proper rate, the amount deficient will be rated unpaid, with a fine of 10c. in addition.

Separate Mails are not made up at the Post Office in Halifax for any of the Way Offices except those lying between the City and nearest Post Office.

Letters for the Way Offices are forwarded to and received from the Post Offices to which they are subordinate, on the days above named.

PACKETS FROM HALIFAX.

The Steamer for England arrives from the United States at Cunard's wharf fortnightly, that is about midnight every other Thursday, and the same week the Steamer from England arrives and proceeds to Boston.

Messrs. Cunard & Co. have also Steam Packets running to Bermuda and St. John's, N. F.,—the latter touches at Sydney during the summer months.

The Steamer *Eastern State* leaves Brown's wharf every other Tuesday for Boston, and touches at Yarmouth on the way. Messrs. J. M. Watson & Co. have two packets running continually to Boston, viz: the barque *Halifax*, and the brig *Boston*.

A packet runs between Halifax and Liverpool, Queen's Co., leaving Cronan's Wharf occasionally through the month.

Two fine schooners—the *Sylvia* and the *Lunenburg Packet*—sail about every ten days for Lunenburg,—the former from Black's, and the latter from J. M. Watson, & Co.'s Wharf.

The Guysborough Packet sails from the Long Wharf.

The Sydney (sailing) Packet generally starts from Caldwell's wharf.

TARIFF OF DUTIES IN THE PROVINCE OF NOVA SCOTIA.

To CONTINUE IN FORCE TILL 1ST APRIL, 1861.

	Duty.—Cur.
Apples, fresh or dried, per barrel.....	\$1.00
Anchors, Grapnels, and Anchor Palms.....	5 ¢ cent. ad val.
Ashes—Pot and Pearl.....	Free
Bacon, per cental or 100 lbs.....	2.00
Beef, salted, per barrel.....	1.00
fresh, per 100 lbs.....	1.00
Biscuit, fine, and bread, including crackers or cakes ¢ 100 lbs..	1.00
Butter, ¢ 100 lbs.....	1.00
Baggage apparel of Passengers, not intended for sale.....	Free
Barilla and Soda Ash.....	Free
Beans.....	Free
Biscuit or Bread.....	Free
Books not prohibited to be imported into the U. Kingdom*..	Free
Bristles and hair used in the manufacture of brushes.....	Free
Bullion—gold or silver.....	Free
Burr Stones.....	Free
Candles, tallow, ¢ lb.....	3
all other Candles, per lb.....	8
Cassia and Cinnamon, ground, per lb.....	5
Cattle, viz: horses, mares, or geldings, each.....	10.00
Neat cattle, viz: oxen or other neat cattle, 3 years old or upwards, each.....	7.50
Cows and cattle under 3 years old, each.....	2.50
Sheep, each.....	75
Hogs, alive, over 100 lbs. weight, each.....	5.00
of 100 lbs. weight and under, each.....	50
Asses and Mules†.....	Free
Cheese, ¢ 100 lbs.....	1.00
Chocolate or cocoa paste, ¢ lb.....	3
Cocoa.....	Free
Coffee, green, ¢ lb.....	3
Roasted, burned, or ground, ¢ lb.....	5
Clocks, and all wheels, machinery, and materials used in their manufacture,.....	20 ¢ cent. ad val.
Confectionary, Syrups, and all other articles manufactured from Sugar.....	20 ¢ cent. ad val.
Cigars and Snuff.....	10 ¢ cent. ad val.
Currants and Figs.....	10 ¢ cent. ad val.
Cables, of Hemp or other Vegetable substance, or of Iron, Cordage, tarred or untarred, whether fitted for rigging or otherwise.....	5 ¢ cent. ad val.
Cotton Yarn.....	5 ¢ cent. ad val.
Copper, viz: plates, sheets, bars, or bolts, for ship-building; wrought or cast for machinery, pure or without other metal, copper castings of every description for machinery, for mills or steamboats; Copper and Composition Nails and Spikes for ship-building.....	5 ¢ cent. ad val.
Coal.....	Free
Coin—gold and silver coins, and British copper coins.....	Free

LIGHT HOUSES.

On the coast of Nova Scotia, and on the coast of New Brunswick in the Bay of Fundy.

SAMBRO ISLAND—West entrance Halifax harbor. *A fixed light.*

CROSS ISLAND—Entrance to Lunenburg harbor. *Two lights—flash light above; fixed light below.*

IRON-BOUND ISLAND LIGHT.—Off the entrance to LaHave River. *A bright, flash light* of ten seconds duration, followed by an eclipse of thirty seconds. The lantern is placed on a square wooden tower, painted *white* on the southern side of the Island, and is visible from all points of approach. Elevation seventy-five feet above sea-level.

PORT MEDWAY.—Beacon light on Admiralty head, west side of the entrance of the port. Building square, painted *white* with *black square* in the centre of seaward sides, *plain white light*, forty feet above sea level, and stands within thirty fathoms of the shore.

LIVERPOOL.—South end of Coffin's Island. *A plain revolving light.*

FORT POINT harbor light, at the head of Liverpool harbor, southern entrance of the river. *A bright fixed light*, visible from all points of approach, and must be left on the larboard hand when entering the harbor.

RAGGED ISLAND HARBOR LIGHT.—On Gull Rock, off the entrance of the harbor. Building square, and painted *white*, exhibiting a *clear, fixed light*, at an elevation of fifty-one feet above the sea-level, and is situated in Lat. $43^{\circ} 39' N.$, and in Long. $64^{\circ} 66' W.$

BARRINGTON.—Baccaro Point, east side of the entrance to Barrington Bay. *A flash light* of fifteen seconds.

CAPE SABLE, SEAL ISLAND.—The first light on approaching the Bay of Fundy is on the South Point of Seal Island. *A plain, white light*, elevated about eighty feet above high water mark, and may be seen, on approaching the Island, from any point of the compass. A very dan-

gerous rock, under water, but upon which the sea always breaks, called Blonde rock, about three and one-third miles S. by W. by compass, from the Light House. Between this rock and the Island there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

SHELburnE.—McNutt's Island. *Two fixed lights*—one above the other.

PuBnico HARBOR LIGHT.—A Beacon Light on the S. E. side of the entrance to Pubnico Harbor, situate on the E. side of the entrance to the Bay of Fundy, about thirteen miles northerly of Cape Sable. Building square, painted *white*. A *fixed red light*, on the seaward side, twenty-eight feet above high water level, (rise and fall twelve feet,) and stands fifteen fathoms from low water mark. The point of beach is bold.

YARMOUTH.—West side of the harbor. A *plain, revolving light*.

A **FOG BELL** has been erected on the E. Cape of Yarmouth harbor, a few feet to the southward of the Light House, and about one and a quarter miles from the extreme outer point of the Cape. Strikes *seven* times per minute.

BRIAR ISLAND.—A *plain, white light*, situate about half a mile N. E. from the N. W. point of the Island.

WESTPORT.—Peter's Island, at the south entrance of the Grand passage. *Two white lights*, placed horizontally, to distinguish it from Briar Island Light, at an elevation of forty feet above high water mark.

DIGBY GUT LIGHT.—On the west side of Digby Gut, from Briar Island north-eastward. This light is chiefly intended as a guide into Digby Basin. A *fixed, white light*.

PORT WILLIAMS.—On the E. side Bay of Fundy, Annapolis Co.; at distance of say five miles shows a *white light*, on nearer approach a *green light*.

MARGARETTEVILLE.—On E. side Bay of Fundy, Annapolis Co., at a distance say 5 miles shows a *white light*, on nearer approach a *red light*.

BLACK ROCK LIGHT.—On the southern shore of the Bay of Fundy. A *fixed, white light*.

APPLE RIVER LIGHT.—North side of the entrance to Apple River, in Chignecto, or Cumberland Bay. *Two fixed lights*, placed horizontally.

PARTRIDGE ISLAND RIVER.—An Octagonal light beacon, on the west side of the entrance to Partridge Island River, Parrsborough, on the north side of the Basin of Minas, and exhibits a *plain, white light*, at an elevation of thirty feet above high water; rise and fall about forty-five feet; the Tower is white, and stands close to high water mark on the beach. Vessels can only enter the harbor at high water, and must lie aground on the soft bottom when the tide is low.

HORTON BLUFF LIGHT.—In the Basin of Minas, ninety-five feet above sea level, high water; rise and fall forty to forty-five feet. Building square painted *white*; stands sixty feet from the Bluff, and shows a *white light*, which may be seen in clear weather, over the greatest part of the Basin of Minas, (after passing Cape Blomedon,) and above the Five Islands, and up Windsor River, until intercepted by the continuation of the Bluff to the southward of it.

BURNCOAT LIGHT.—At Burncoat Head, Southern side of the Basin of Minas. A *plain, fixed white light*.

MEAGHER'S BEACH.—East side Halifax harbor. A *fixed light*.

DEVIL'S ISLAND.—An Octagonal Light Beacon on the S. W. point of Devil's Island, at the entrance of the Eastern passage to Halifax har-

bor, and exhibits a *red light* on the seaward sides, to distinguish it from Sambro and Meagher's Beach lights; stands forty-five feet above high water mark; rise and fall six feet. The tower painted dark brown, with a white belt between the Balcony and Lantern to distinguish it in the day time.

EASTERN BEAVER, OR WILLIAM'S ISLAND.—*A revolving light.*

WHITE HEAD ISLAND LIGHT.—On the S. W. point of White Head Island. The tower is square, painted *white*, stands seventy-five fathoms from the water's edge, with an Octagonal Iron Lantern, sixty feet above sea level at high water; rise and fall six feet. The light is distinguished by *bright flashes* of ten seconds duration, followed by eclipses of ten seconds, displaying alternately three flashes and three eclipses in a minute. The light will not be totally obscured during the eclipse.

CANSEAU, CRANBERRY ISLAND.—*Two fixed lights*, one above the other.

GUYSBOROUGH HARBOR BEACON.—On the west side of the entrance to the harbor, head of Chedabucto Bay. *A fixed light.*

ARICHAU BEACON.—*A Light* on Point Morichi, on the south-east side of the southern entrance to the harbor. Building square, painted *white*. *A white light*, thirty-four feet above the sea-level.

EDDY, OR SAND POINT LIGHT.—On Eddy, or Sand Point, on the west side of the south entrance to the Strait of Canseau, distinguished by *two white lights* placed horizontally, twenty-five feet above the sea level. Building square, painted *white*, with a *black diamond* on the seaward side.

WEST SIDE OF THE GUT OF CANSEAU.—*A fixed light.*

PICTOU LIGHT.—On the south-east side of the entrance to the harbor. *Two fixed lights*, vertical—upper one *white* lower one *red*.

PICTOU ISLAND LIGHT.—On the south-east point of the Island. Building square, and painted *white*. *A fixed light*, fifty-two feet above high-water mark.

PORT HOOD LIGHT.—Changed from *white* to *red*, when seen from the northern entrance, to distinguish it from the Margaree and North Canso lights.

SEA WOLF, OR MARGARIE ISLAND LIGHT.—Situate on the N. W. side of the Island of Cape Breton, nearly midway between Port Hood and Cheticamp harbors, and distant from Cape Breton, two and a half miles. *A plain white light*. The lantern is placed on a square wooden tower, painted *white*, near the centre and summit of the Island. The lantern is 298 feet above sea level—visible from all points of approach. To vessels in proximity to the Island the light may become obscured by the abrupt cliffs or sides of the Island, which may serve as a guide to tack or anchor by, as hundreds of vessels find anchorage on the south-east side. The chief landing is near the south-east end, in shore, where a few fishing stages and boats are kept in use during the fishing season.

ST. PAUL'S ISLAND.—*A fixed light* on the north-east end, and a *flash light* on the south-west end.

LOW POINT LIGHT.—East side of Sydney, C. B. harbor. *A fixed light.*

FLINT ISLAND LIGHT.—On Flint Island, on the eastern coast of Cape Breton. Lat. $46^{\circ} 11' 5''$ N., and Long. $59^{\circ} 45' 20''$ W., and exhibits a *bright, flash light*, every fifteen seconds, visible from all points of the compass. The light is sixty-five feet above sea level, and can be seen at the distance of twelve miles.

SCATTERIE ISLAND.—*A revolving light* at the east end of the Island.

LOUISBURG.—On the east side of the entrance to the harbor. *A fixed light.*

GANNET ROCK LIGHT.—This light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands, off Machias, a distance of about twenty miles. *A white, flash light*, twenty seconds dark and forty seconds light, in each minute. Building painted in stripes, *vertical, black and white.* Between the northernmost and southernmost of the Murr Ledges, there is a range of dangerous rocks and shoals, many of them almost above water, and extend eastward from the Light House about four miles. From this range further westwardly, about six miles from the Gannet Light, lies a dangerous breaker called the Bull—this may be avoided by keeping three remarkable headlands near the S. W. end of Grand Manan open.

MACHIAS SEAL ISLAND LIGHT.—*Two fixed, white lights* upon the Machias Seal Islands, forty-five feet above high water, and bearing from each other E. S. E. and W. N. W., distant about 200 feet, by which circumstance, of two Light Houses at the same station, they will be immediately distinguished from all other lights upon the coast, British or American. Both buildings painted *white.* Vessels standing to the northward between these lights and the Gannet Rock, should tack or haul off the moment they bring these lights into one, as they will be, then, not more than three-fourths of a mile from the Murr Ledges, if more than five miles to the east of the lights.

HEAD HARBOR LIGHT.—Next in order after passing Grand Manan and the plain white light (American) on West Quaddy Point, is Head Harbor Light, placed on the N. E. extremity of Campo Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the Inner Bay of Passamaquoddy; it enables vessels also at all times to enter Head Harbor. *A fixed white light.* Building painted *white*, with a *red cross* on it.

POINT LE PREAU LIGHT.—Upon this projecting headland two lights are placed, one above the other, in the same house, and distant twenty-eight feet. Both lights can be seen from every point of the compass where they may be useful; both are *fixed* and *white.* Building painted *red* and *white*, in stripes, five feet broad each, horizontally.

PARTRIDGE ISLAND LIGHT.—At the entrance of the river and harbor of St. John, N. B. *A fixed, white light.* The building painted *red* and *white* in vertical stripes.

QUACO LIGHT.—*A revolving, white light*, placed on a small rock, off Quaco Head, showing twice full and twice dark in a minute. The light can be seen from any quarter where a vessel can approach. Building painted *white* and *red*, in horizontal stripes.

CAPE ENRAGE LIGHT.—On a point of that name in Westmoreland, nearly opposite Apple River Harbor, N. S. Building painted *white*, and about 120 feet above the tide mark. *A plain, white light.*

WEST QUADDY LIGHT.—This is an American light, placed on the west side of the entrance in the St. Croix, by Lubec and Eastport.

A LIGHT HOUSE has been erected upon CAPE RACE, Newfoundland, *a fixed white light*, from sunset to sunrise. The light is visible to seaward from N. E. by E. round by the S. E. and S. to W., and is elevated 180 feet above mean water level of the sea, and may be seen in clear weather 17 miles from a ship's deck. The tower is striped red and

white vertically. It stands close to the old beacon which has been cut down. The Lighthouse is in Lat. 46 degrees 39 minutes 19 seconds N., Long. 53 degrees 2 minutes, 28 seconds W. Bearings magnetic. Var. 24 degrees W.

In the River and Gulf of St. Lawrence and Strait of Belle Isle:

BELLE-ISLE LIGHT.—An island at the eastern entrance of the Strait of Belle-Isle, separating Labrador from Newfoundland, situated at the extreme south west point of the island. A *single fixed white light*. Building—circular stone tower, faced externally with fire brick of a light colour. Lat. 51° 53' 0''; Long. W. 25° 26' 0''. Whole horizon lighted, and seen in fair weather 28½ nautical or 32½ statute miles.

POINTE AMOUR LIGHT, Labrador Coast, Strait of Belle-Isle, at the south east point of Forteau Bay, Lat. N. 57° 27' 30''; Long. W. 56° 53' 40''. A *single fixed white light*—two thirds of the horizon illuminated, and seen in fair weather 18½ nautical or 21½ statute miles. Building—a circular stone tower, faced externally with fire brick of a light colour.

ANTICOSTI LIGHT at the extreme west end of the island of Anticosti Lat. N. 49° 52' 30''; Long. W. 64° 35' 0''. A *single, fixed white light*—two-thirds of the horizon illuminated, and seen in fair weather 15 nautical or 18 statute miles. Building—a circular stone tower, faced externally with fire brick of a light colour.

CAPE ROZIER LIGHT.—East coast of Gaspe, at the extreme point of the Cape. Lat. N. 48° 51' 0''; Long. W. 64° 35' 0''. A *single fixed white light*—two-thirds of the horizon illuminated, and seen in fair weather 16½ nautical or 19½ statute miles. Building—a circular stone tower, faced externally with fire brick of a light colour.

Signals will be given at or near each of the above four light houses by means of an air or fog whistle, sounded at short intervals during foggy weather and snow storms, or by a nine-pounder gun, fired every hour, in case of the whistle being out of order.

EXPLANATION OF SIGNALS

Made on the Flag Staff at Citadel Hill, when vessels are seen or reported from an Outpost.

One ball close up,	1 sq. rigged.	A pendant under a ball	6 sq. rigged.
One ball half hoisted,	2 do.	do. over a ball,	7 do.
Two balls close,	3 do.	do. under 2 b'ls close,	8 do.
Two balls separated,	4 do.	do. between 2 balls,	9 do.
A pendant of any col.	5 do.	A flag of any color,	10 or more do.

The above balls, &c., are hoisted at the east or west yard-arm, according to the *quarter* the vessel first appears in.

When vessels are reported from an outpost, the following signals are shown under the yard-arm as repeats :

For a square rigged vessel, two balls of a size, one at the outer, the other at the inner halliard, close up.

A Ship or Barque, a large ball at the end of the yard, with a small one at the inner halliard.

A Brig, a small ball at the end of the yard, and a large one at the inner halliard.

A Brigantine, a cross close up at the outer halliard.

Two or more do., a cross half hoisted.

A Topsail Schooner, a cross close up at the inner halliard.

An upper yard having been added to the Ship Staff, it will be used exclusively to designate Steam Vessels, thus :

One ball East or West indicates a Steam Vessel repeated in that quarter.

A small ball out and a large one in, a Branch Packet or Merchant Vessel.

A large ball out and a small one in, a Man-of-war-Steamer, or Royal Mail Steamer.

Numbers will be indicated as directed from the lower yard.

The lower yard is now used for sailing vessels only.

When the description of vessel in sight is ascertained from the Citadel, the following descriptive colours will be hoisted at the mast head :

A Union Jack, Flag Ship.

Do. with a red Pendant over it, a two decker.

Do. with a blue Pendant over it, a Frigate.

Do. with a blue and white Pendant over it, a Ship or Barque rigged Sloop-of-War.

Do. with a white Pendant over it, a Brig rigged Sloop-of-War.

Do. with a red and white Pendant over it, a Schooner or Cutter-of-War.

A white Pendant with two blue crosses, a Transport or a vessel with troops on board—if a Man-of-War, the Union under.

A white Pendant with a blue ball, a Steamer—if a Man-of-War, the Union under.

A red Flag pierced white, Royal Mail Steam Packet from England.

A blue and red Flag crossed white, do. from Boston.

A white and blue Pendant, do. from Newfoundland.

A white and red Pendant, do. from Bermuda,

A blue Pendant, a Ship.

A blue and white pendant, a Barque.

A red Pendant, a Brig.

A red and white Pendant, a Brigantine.

A white Pendant, a Sloop or Schooner.

A blue and white Flag, horizontally divided a Foreign or Neutral fleet.

A white and blue Pendant vertically divided, a Foreign or Neutral Man-of-War.

A Foreign or Neutral Merchantman, National Flag with descriptive Pendant.

When an English Packet arrives between Evening and Morning gun fire, a red triangular flag will be kept flying at the mast head from 7 till 8 o'clock.

MERCHANTS' PRIVATE SIGNALS—PORT OF HALIFAX.

SQUARE FLAGS.

RED—Centre a White Square, DeBlois & Merkel.

“ “ “ N, Robt. Noble & Sons.

“ “ “ Maltese Cross, J. Hackett.

- RED Crossed White, J. & M. Tobin.
 " " " diagonally, J. G. A. Creighton & Co.

HACKNEY CARRIAGES.

[Extract from an Ordinance of the City, passed July 7th, 1851.]

12. Any person or persons having a license in full force, who shall stand his carriage in any other than its appointed place or manner,—or not having it properly numbered,—or any driver or person in charge of a licensed carriage, who shall not produce the table of fares and distances when thereby required, or who, being upon his stand disengaged, shall refuse to convey any person seeking to employ him,—or who shall in any way violate this Ordinance, shall, for each offence, besides being liable to have his license revoked, forfeit and pay such a fine as under and by virtue of this Ordinance may be adjusted against him. And the owner or driver of any such carriage who shall demand or extort from any person or persons a sum beyond the rate of fare herein established, or hereafter to be established, may be so fined, and shall forthwith forfeit the License for such carriage, and be liable to refund to the party grieved the sum so extorted, with cost of prosecution. Livery stable keepers, not occupying the stands of said City are exempt from this Ordinance; further than that they are hereby required to obtain a license for each carriage they shall use to convey persons for hire, within the limits of the City; which license shall continue in force and be renewed as aforesaid, and the carriage shall be numbered, and have the letter L, besides its number, painted or placed on it as aforesaid.

TABLE OF CAB FARES FOR EACH PERSON.

For any distance up to half a mile.....	6d.
“ “ “ 1 mile.....	1s. 0d.

TRUCKMEN'S REGULATIONS.

Extract from an Ordinance of the City Council, passed July 7th, 1851.

8. If any Licensed Truckman, being on his Stand, shall refuse or neglect to cart, truck, or employ his horse and cart, truck, or sled, within the said City of Halifax, for any person, when requested, he shall, for each offence, forfeit and pay the sum of ten shillings.

21. The following shall be the Table of Rates and Prices of Truckage payable, or to be demanded by the Truckmen of the City of Halifax, for their services; subject, however, to be altered from time to time by resolution of the City Council:

From any Wharf between Belcher's wharf and Fairbanks' wharf inclusive.

	To any place in Water St., Bedford Row, Granville and Barrington Streets.	To any place in Argyle, Albertmarle, Grafton, Barrack, Brunswick, Lockm'n. & Dock-yard Sts. and southward of Morris St to fresh wat. bridge.	To any place in Gottington Street, or in the vicinity of the Jail to Pyke's Bridge.	From South of Morris St., to north of Jacob Street.

DR. HOOFLAND'S BALSAMIC CORDIAL, FOR THE SPEEDY CURE OF

Coughs, Colds, Influenza, Croup, Hoarseness, Bronchitis, Diseases of the Bowels arising from Cold, Incipient Consumption, and for the relief and (if at all possible) cure of patients in advanced stages of the latter disease.

Catarrh, for Common Cold, as it is familiarly called, is worthy of study, and serious enough to be avoided, if possible. Dr. Bell says: "I will not say that Colds are to our inhabitants what the *Plague* and *Yellow Fever* are to those of other countries, but I can say confidently that they usher in diseases of greater complexity and mortality than these latter."

In the danger of *Bronchitis* and *Pneumonia*, which often follow in the train of a neglected cold, and in *Phthisis Pulmonalis*, the tubercular irritation of which is developed by the same cause, we surely have proof and argument sufficient for attention, not only to the preventive means, but also to the curative ones of a disease which, however mild in its inception, is directly or indirectly productive of such diversified and alarming results.

This lesson should be particularly impressed on those who have any constitutional tendency to *Pulmonary Consumption*.

The use of the Balsamic Cordial, agreeably to the directions accompanying each bottle, will readily cure the most distressing case of cough.

Coughs sometimes proceed from a disordered or dyspeptic state of the stomach, in which case the German Bitters should be used. In cases of weakness or general debility of the system, resulting from a protracted cough, the German Bitters will be found of great benefit.

In cases of *acute* Inflammation of the Lungs, the prominent symptoms generally are—hurried and painful respiration, imperfect arterialization of the blood, cough and expectoration, attended with excitement of the heart, fever, various derangements of the digestive and urinary systems, prostration of strength, &c. The lungs may be diseased without any of these symptoms being prominent, but the murmur produced during inspiration and respiration, and the alternate contraction and expansion of the chest, evident to both sight and feeling, all furnish most important physical signs in case of disease, and should receive prompt attention.

This disease is usually caused by a cold settling on the lungs, and the use of the Balsamic Cordial soon performs a cure.

The terrible fatality of diseases resulting from a "common cold," may be seen by a glance at the following statistics, taken from the records of the Board of Health of Philadelphia, confessedly one of the healthiest localities in the Union:

1852.—Total deaths in Philadelphia,		10261
Died of Consumption,	1912	
" all other diseases, 250 in number	8349	
		10261
1853.—Total deaths.		9749
Died of Consumption,	1895	
" all other diseases,	7854	
		9749
1854.—Total deaths.		11814
Died of Consumption,	2178	
" all other diseases,	9636	
		11814

From these figures it will be seen that nearly one-fourth of the total deaths in the country are caused by Consumption, to say nothing of the numerous other diseases springing from a "slight cold."

The proprietors are in the possession of certificates showing that the Balsamic Cordial has effected cures where all other remedial means have failed. Give it a trial.

These invaluable Medicines are prepared only by DR. C. M. JACKSON, 418 Arch-street, Philadelphia, and are for sale by druggists and storekeepers in every town and village in the United States, Canada and British Provinces at 75 cents per bottle. H. A. Taylor, Halifax, N. S., Wholesale and Retail Agent.

DR. HOOFLAND'S Celebrated German Bitters,

PREPARED BY

Dr. C. M. JACKSON, Philadelphia, Pa.,

WILL EFFECTUALLY CURE

LIVER COMPLAINT, DISPEPSIA, JAUNDICE,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach. Such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity on the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations. Sinking or fluttering at the pit of the Stomach, Swinming of the Head. Hurried and difficult Breathing, Flut-tering at the Heart. Choking or Suffocating Sensations when in a lying posture. Dimness of Vision, Dotts of webbs before the Sight. Fever and Dull Pain in the Head. Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side Back, Chest, Limbs, &c. Sudden Flushes of Heat, Burning in the Flesh, Con-stant Imaginings of Evil, and Great Depression of Spirits.

The Proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues, and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well-known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the Proprietor, and to be had gratis of any of his agents, cannot but satisfy the most sceptical that this remedy is really deserving the great celebrity it has obtained.

Principal Office and Manufactory, No. 418 Arch Street, Philadelphia, Pa.

FROM J. NEWTON BROWN, D.D., EDITOR OF THE ENCYCLOPEDIA OF RELIGIOUS KNOWLEDGE.

[Certificate.]

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reason why a man may not testify to the benefit he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to "Hoofland's German Bitters," prepared by Dr. C. M. Jackson, of this City, because I was prejudiced against them for years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robt. Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them when suffering from great and long-continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN.

Philadelphia, June 23rd, 1860.

These Bitters are for sale by all the Druggists in the British Provinces at 75 cents per bottle. H. A. TAYLOR, Halifax, N. S., Wholesale and Retail Agent.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders, which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Ayer's Compound Extract of SARSAPARILLA,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS & BOILS, TUMORS, TETTER & SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC & MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid without which sound health is impossible in contaminated constitutions.

PREPARED BY

DR. J. C. AYER & COMPANY,
LOWELL, MASS.

SOLD BY ALL DRUGGISTS.

PRICE \$1 PER BOTTLE,.....SIX BOTTLES FOR \$5.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon them themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them.—Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

CONSTIPATION, COSTIVENESS, SUPPRESSION, RHEUMATISM, GOUT, NEURALGIA, DROPSY, PAHALYSIS, FITS, ETC.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *Costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your pills affect that organ and cure the disease.

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

PRICE 25 CENTS PER BOX, OR 5 BOXES FOR \$1.

Ayer's Cherry Pectoral,

for the rapid cure of

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, AND FOR THE RELIEF OF CONSUMPTIVE PATIENTS IN ADVANCE STAGES OF THE DISEASE.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

PREPARED BY

Dr. J. C. AYER & Co., Lowell, Mass.

And sold by all Druggists and Dealers everywhere.

The next meeting of Synod will take place in Chalmers' Church, Halifax, on the Fourth Wednesday of June, 1861, at 11 o'clock, A.M.

THE LONDON HOUSE.

(Established 1833.)

DESTROYED BY FIRE SEPT. 9, 1859. REBUILT, SEPT. 9, 1860.

Billing & Company

PROPRIETORS.

E. BILLING, JUNR.

CHAS. APPLETON.

During the past year we have rebuilt upon the Old Stand a Warehouse in every way worthy of the name of the LONDON HOUSE,—massive in its structure, colossal in its proportions, and fitted with every appliance which ingenuity or art could devise for the successful prosecution of our enormous and increasing trade.

THE NEW WAREHOUSE covers an area of One Thousand Six Hundred and Eighty Feet, and is four stories in height. The front is of polished Freestone, Ornamental Iron and Plate Glass. It is the most lofty building in Granville Street, and is surmounted by a MAGNIFICENTLY SCULPTURED LION.

THE FIRST FLOOR

is wholly devoted to our Retail Departments, and is fitted up in a most tasteful manner. This large space enables us to display an immensely varied assortment of every class of Dry Goods, and in no other House will be found the extraordinarily Cheap Goods which we daily supply to our Customers.

THE SECOND, THIRD, AND FOURTH FLOORS

are appropriated as wholesale warerooms, and contain a perfectly enormous stock of all descriptions of Staple and Fancy Goods suited to the requirements of the trade of Nova Scotia, New Brunswick, Prince Edward Island, and Newfoundland.

We will guarantee to wholesale buyers a clear reduction of 12½ per cent. from the prices charged by any other house in the trade; our terms of payment are most liberal.

The enormous quantity of goods which has annually gone from our establishment has increased to such an extent as to require a branch of the house in England, for the sole purpose of purchasing. This duty has been undertaken by our prior, who will reside permanently in Great Britain, and being constantly in the markets will have very frequent opportunities of obtaining large lots of goods very much under price.

We have therefore GREAT CONFIDENCE in soliciting a call from all who may visit the City, and assure them that they will effect a saving in their purchases more than sufficient to DEFRAY ALL TRAVELLING EXPENSES, and in order to extend these advantages to those who are unable to leave home, we will execute any order in the best manner, and PAY ANY EXPENSE OF CARRIAGE. Any article not approved, may be returned or exchanged as desired.

JOSEPH R. HEA, D.C.L.

Professors.

REV. EDWIN JACOB, D. D.,	W. BRYDONE JACK, D.C.L.,
JAMES ROBB, M. D.,	MARSHALL, D'AVRAY, Esq.

Extracts from the Acts of Assembly.

Section 7—"There shall be no professorship of Theology in the University, nor shall any religious tests whatever be required of or imposed upon any member of the Corporation, Professor, Teacher, Student, or other person in any way connected with the University or with the Collegiate School."

Section 8 empowers—"To confer degrees in Arts, Law, and Medicine, to wit: the several degrees of Bachelor of Arts, Master of Arts, Bachelor of Science, Bachelor of Laws, Doctor of Laws, Bachelor of Medicine, and Doctor of Medicine, and Diplomas in Civil Engineering and Land Surveying, Agriculture, Commerce, and Navigation, and such honorary degrees and certificates of honor, merit, and attendance at lectures, as the Senate may judge expedient and proper."

Section 15—"Every candidate for matriculation is required to produce at the time of his examination a written statement from his parents or guardians, or other person having charge of his education, setting forth the name of some Minister of Religion in or near Fredericton, under whose religious instruction he is to be placed; and, in order to the keeping and allowance of any Term, every student must produce a certificate from his religious instructor for the time being, that he has regularly attended Divine Service on Sundays, during such Term, unless prevented by unavoidable circumstances."

Section 16—"Portions of the Holy Scriptures shall be read by the President, or one of the Professors, daily in the University, and morning and evening prayers offered according to the form prescribed by the Senate; and all resident students shall be required to attend such Scripture readings and Prayers, except those whose parents or guardians, or other person having charge of their education, may have signified to the contrary in writing to the President."

Section 18—"Any person may, on application to the President, and on payment of the fees required, and observance of the regulations prescribed, be admitted to

attend any one or more courses of Lectures in the University, and receive certificates accordingly."

Section 19 Provides for the admission of fifty-six free students under certain conditions.

Section 24 establishes two scholarships of £15 each, one for the Classical and one for the English Department of the Collegiate School, to be competed for annually in July.

Section 25—"There shall be in the University one scholarship of £15, either in the general or the special undergraduate course, for each County Grammar School in the Province, and for the Collegiate School, to be open to competition under such regulations, and held for such times as the Senate may prescribe; and the holders of such scholarships shall be exempt from all fees for instruction in the University.

Additional Scholarships.

English Language and Literature, Classics, Mathematics, Civil } One Scholarship of
Engineering, Agriculture, Commerce, and Navigation, } £15 in each branch.

The University of New Brunswick,

Entirely free from denominational bias or control, and re-organized throughout under the Act of Assembly, offers very great facilities and advantages to all persons in the Lower Provinces who desire a Collegiate education.

The Officers of Instruction are thoroughly competent to the discharge of the duties of their Professorships. The Senior Professor is well known as a Graduate of Oxford, and fellow of C. C. College, and as a finished scholar and accomplished educator. The Professors in the Scientific department are gentlemen of high standing, large experience, and undoubted zeal and ability as instructors; they are in correspondence with Scientific Associations abroad, and are zealous cultivators of their respective sciences. The Professor of Modern Languages resided for eighteen years on the Continent of Europe, and was for several years Professor in the Royal College in the Isle of France.

A Library of Literary and Scientific Works, especially adapted to illustrate the course of study pursued in the University, and a very extensive and complete set of apparatus have been procured at an expense of upwards of £5,000.

The Museum contains several thousands of Botanical, Geological, and other specimens, scientifically classified and arranged to illustrate the different branches and departments of Natural History; one section is devoted to a series of illustrations of the plants, minerals, rocks and fossils of the Lower Provinces, and particularly of New Brunswick.

The domestic arrangements for residents are under the personal supervision of the President, who does not keep a separate table, but boards with the Students.

The Scriptures are read and prayer offered Morning and Evening, and at the commencement of Lecture hours; and there is a constant appeal to the moral and religious sentiment in carrying on the daily routine of education and government.

Clergymen of all the leading religious denominations reside in Fredericton, who, in accordance with the spirit of the Act of Assembly and beyond the letter of its provisions, interest themselves in the welfare of the Students, and charge themselves with the religious instruction and training of as many of them as are committed to their care.

Additional Professors will be appointed, and the general arrangements modified as may be required in the career of usefulness and prosperity on which the University is believed to be now entering.

Persons preparing for College or desiring information on the subject are requested to communicate with the President.

Fredericton, N. B., Oct. 1st, 1855.

R. R. S.
REDDING'S RUSSIA SALVE,
VEGETABLE OINTMENT.

NO HOUSE
 SHOULD BE.
WITHOUT A BOX,
 IN CASE OF
ACCIDENTS AND SKIN COMPLAINTS.

AT HOME OR ABROAD,
 ON LAND OR SEA,
 IN ALL CLIMATES AND TO
 PERSONS OF ALL OCCUPATIONS
 IT IS INDISPENSABLE.

THIS important DOMESTIC REMEDY, which has been before the public for more than half a century, has now become indispensable in every *Household and Farm*, especially in the Rural Districts. Composed of purely vegetable ingredients, it contains nothing noxious, and suits the tenderest skin. Its great peculiarity is that it penetrates to the seat of the disease and at once abates inflammation and eases pain. No bad humors *can* resist it. By assisting nature in her operations it cures with magical celerity the worst cases of BURNS, SCALDS, FLESH WOUNDS, OLD SORES, BRUISES, STIFF AND SWELLED JOINTS, &c., and by a special action on the skin, speedily gets rid of every eruptive disease, however obstinate or contagious.

Mothers, and all who have the care of Children will find it invaluable in the nursery. Sore Lips, Hands, or Eyes, Nipples, Chapped Hands, Chilblains, Frost Bites, &c., all yield to it. It removes Freckles, Tan and Chafing. There is no better cosmetic for the Toilet, as it keeps the skin soft and the pores open. In agricultural districts it has earned the title of

THE FARMER'S FRIEND!

As it is a certain cure for Lameness, Sore Udders, Swelled Joints, Bites, Wounds, &c., in Horses, Cattle, and Dogs. In fact it is the Ointment now UNIVERSALLY used at home or abroad.

For sale by all respectable Druggists and dealers in Patent Medicines throughout the civilized world at the following prices—25 cents, 50 cents, and \$1 per box.

REDDING & CO., Proprietors, 8 and 10 State Street, Boston.

DAVID ALLISON, A.B., PROFESSOR OF LATIN AND GREEK.

JAMES R. INCH, PROFESSOR OF FRENCH AND TEACHER IN THE INTERMEDIATE DEPARTMENT.

JOSEPH DIXON, TEACHER OF PENMANSHIP AND PRIMARY DEPARTMENT.

This Institution, which has been in successful operation about eighteen years, offers superior advantages to those who wish to pursue either a partial or a complete course of Academic Study. It is situated in a quiet country village, which is easy of access, pleasant, and remarkably healthy; the Academic buildings, occupying beautiful positions, are spacious, and for the purposes for which they are designed altogether unequalled in these Provinces; the various apartments are commodious, well ventilated, and suitably furnished; all the plans, regulations, and arrangements, scholastic and domestic, are those which having been tried have been found best adapted to promote the comfort and facilitate the improvement of the Students. The Board of Instruction consists of competent, experienced and successful Teachers, who delight to devote themselves, in term time, to earnest and persevering effort to facilitate the progress of their respective classes. Adequate provision is made for thoroughly teaching all the branches of Science and Literature usually included in the curriculum of the Academic or the Collegiate Institution.

☞ The charges for Board, etc., and Tuition are only from £27 10s. to £32 10s., N. B., Currency, per annum.

TERMS OF FOURTEEN WEEKS EACH ARE TO BEGIN AS
FOLLOWS:

Thursday, November 1st, 1860.

Thursday, February 7th, 1861.

Thursday, July 25th, 1861.

Thursday, October 31st, 1861.

☞ For further information apply to the Principal. ☞

DR. WISTAR'S BALSAM OF WILD CHERRY.

This invaluable Specific for *Coughs, Colds, Hoarseness, Bronchitis, Sore Throat, Asthma, Whooping Cough, Croup, Influenza, Incipient Consumption*, and every disease of the *Throat and Lungs* has been so long tried and proved so effectual that further enumeration of its singular merits is unnecessary.

The following CERTIFICATE FROM A RESPECTABLE LADY OF HALIFAX, exhibits the remarkable virtue of this renowned Lung Remedy:

HALIFAX, N. S., June 16, 1860.

Messrs. S. W. FOWLE & Co., Boston:

Being requested by your Agent to state the benefit I have derived from the use of DR. WISTAR'S BALSAM OF WILD CHERRY, I have no hesitancy in saying that I have found it to give great relief of *Cough and Pulmonary Disease*, of which I was some twelve years since so sorely afflicted as to be considered beyond recovery. I therefore take occasion to say that I consider it to be a valuable remedy for *coughs and consumptive complaints*.

Yours respectfully,

MRS. J. WEST.

HIGHLY RESPECTABLE AUTHORITY.

CITY OF CHARLOTTETOWN, PRINCE EDWARD ISLAND.

I do hereby certify that my mother, the late Ann Macgowan, during the last few years of her life, was in the continual habit of using DR. WISTAR'S BALSAM OF WILD CHERRY, and that she frequently expressed her high opinion at the benefit she derived in the promotion of her general health. She died in the 92nd year of her age

Dated at the City Hall, this 21st day of June, 1859.

PETER MACGOWAN, *J. P. and City Clerk.*

To Seth W. Fowle & Co., Boston.

CERTIFICATE OF T. B. BARKER, ESQ., A WELL KNOWN DRUGGIST.

ST. JOHN, NEW BRUNSWICK, June 8, 1860.

Messrs Seth W. Fowle & Co., Boston, Mass.:

Gentlemen: I feel constrained from a motive of justice, to inform you of the results attending the sale of your valuable remedy, *Dr. Wistar's Balsam of Wild Cherry*. Although I do not feel at liberty to mention the names of parties who have a high appreciation of its worth, I can truly say that for *coughs, colds*, and all *pulmonary diseases*, this remedy performs cures not excelled, if equalled, by any other remedy known, and I therefore confidentially recommend it to those who suffer from Pulmonary difficulty.

Yours respectfully,

T. B. BARKER.

READ THE FOLLOWING ORDER FROM A RESPECTABLE AND WELL KNOWN DRUGGIST.

CHARLOTTETOWN, P. E. I., June 21, 1860.

Messrs. S. W. Fowle & Co.:

Gentlemen: You will please send me another supply of *Dr. Wistar's Balsam of Wild Cherry*, and also some more of the *Oxygenated Bitters*, the sale of which I am happy to state is steadily increasing. Those who have tried either of them have borne willing testimony to their efficacy as remedial agents in the diseases to which they are respectively applicable.

Respectfully yours,

WM. R. WATSON.

The only genuine is prepared by Seth W. Fowle & Co., Boston, whose printed name as well as the *written* one of "I. Butts" appear on the outer wrapper. Sold by all Druggists.

DYSPEPSIA.

This terrible disease as well as all those which follow in its train, such as *Indigestion, Sour Stomach, Heart Burn, Water Brush, Loss of Appetite, Oppression after Eating, Bilious Complaints, Jaundice, Debility of the System*, and numerous other diseases, readily yield to the

OXYGENATED BITTERS.

Certificates in its favor have been given by some of the most respectable individuals in the land. It is a remarkable remedy—entirely disimi-

From Mr. John D. Nash,

Well known throughout the British Provinces as an Extensive
Auctioneer.

HALIFAX, N. S., June 16, 1860.

Messrs. Seth W. Fowle & Co., Boston, Mass.,

Gentlemen:—Having a very high estimation of the value of the
Oxygenated Bitters, for *dyspepsia and debility of the digestive organs*, I take
pleasure in giving you a statement of their operation in my own case.
Several years since I was severely afflicted with a most aggravating form
of **DYSPEPSIA**, which rendered my ordinary duties a burden. I tried
many remedies with no benefit, until I made use of the *Oxygenated Bit-
ters*, and I can say with the utmost confidence that this remedy *entirely
eradicated every symptom* of which I was suffering, by the continued use
of eight bottles; although the first bottle produced a decided change for
the better. I consider this remedy to be of inestimable value to those
who stomachs have become deranged by the use of intoxicating liquors,
or by high living. I now keep them by me, and find their use to be a
great promoter of good health.

Yours respectfully,

JOHN D. NASH.

EDWARD SMITH.

MRS. WINSLOW,

An experienced Nurse and Female Physician presents to the attention
of mothers her

SOOTHING SYRUP,

FOR

which greatly facilitates the process of teething, by softening the gums, reducing
all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF & HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS
CLE INSTANCE, TO
timely used. Never did
dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "*what we do know*," after ten year's experience, and PLEDGE OUR REPUTATION FOR THE FULFILMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILFUL NURSES in New England, and has been used with *never failing success* in thousands of cases. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

CRIPING IN THE BOWELS & WIND COLIC,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD, in all cases of *DYSENTERY*, and *DIARRHŒA* in children from teething or any other
every mother who has a
the foregoing complaints—do not let your prejudices, nor the prejudices of others stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by all Druggists throughout the world.

Principal Office. 13 Cedar Street, New York.
PRICE ONLY 25 CENTS PER BOTTLE.

SAND'S SARSAPARILLA.

THE GREAT AMERICAN REMEDY
FOR THE CURE OF ALL DISEASES ARISING FROM AN IMPURE
STATE OF THE BLOOD.

It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this—one that would act with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the system; accordingly we find it resorted to almost universally in almost all cases of Scrofulous and Eruptive Diseases, Liver Complaint, General Debility, &c.

It acts simultaneously upon the STOMACH, the CIRCULATION, and the BOWELS, and thus three processes, which are ordinarily the result of THREE different kinds of medicine, are carried on at the same time through the instrumentality of THIS ONE remedial agent. Thousands have been cured by it, and Tens of Thousands may be restored to health by its use. Ask for Sands' Sarsaparilla, and take no other; it will not fail you.

ROMAN EYE BALSAM.

This Balsam was used for many years in the private practice of a celebrated Oculist with the greatest success. In cases where the

EYELIDS ARE INFAMED,

or the ball of the eye thickly covered with blood, it acts almost like magic, and removes all appearance of inflammation after two or three applications. There is a numerous class of persons that are peculiarly exposed to accidents or diseases that weaken or inflame the Eyes, and perhaps destroy the sight, such as miners, operatives in metals, and other mechanics, who from the nature of their employments, are compelled to work in a cloud of dust and grit. Such should never be without this Balsam. Children are often afflicted with styes and other inflammatory diseases, which can be speedily cured by the application of this medicine. In all cases the earlier the remedy is applied the better.

GLOVE ANODYNE TOOTHACHE DROPS.

COMPLAIN NO MORE OF ACHING TEETH.

These Drops have been extensively used by thousands, whose experience has proved that the Anodyne will give immediate and permanent relief, after the failure of every other remedy.

It will not unpleasantly affect the breath like Kreosote, injure the gums, or destroy the enamel of the teeth. The numerous cures it has accomplished are well attested, and it has only to become generally known to be as highly appreciated by the public as it has long been by Dentists.

The above medicines are prepared and sold by A. B. & D. SANDS, Drug-gists, 100 Fulton Street, corner William, New York.

For Sale by MORTON & COGSWELL, Halifax; T. WALKER & SON, St. John, N. B.; T. DESBRISAY, Charlottetown, P. E. I., and by Druggists generally.

G. E. Morton & Co.

BLOOD IS LIFE !

KEEP IT PURE !!

HOLLOWAY'S PILLS & OINTMENT.

Pure Blood.

As the vital fluid when in a healthy state sustains and renovates every part of the system, it is abundantly manifest that any medicine which does not act powerfully upon the blood can never exterminate rooted disease.

The Heart, Lungs, Liver, Stomach, Kidneys, and Bowels.

This medicine acts immediately upon these mainsprings of life, stimulating and restoring them to a healthy action. It is the greatest purifier of the blood ever known; has the largest sale of any medicine in the world; and is advertised in every language, and is used by all classes from pole to pole.

Scrofula, Erysipela, and Salt Rheum, Bad Legs, Old Sores, Ulcers, and Dropsy.

This Ointment is guaranteed to perform a perfect cure in any of these diseases, even after all else has failed. Patients are earnestly requested to make trial of one pot; its sterling worth and virtues will make it for ever after a household remedy.

Diphtheria, Ulcerated Sore Throat, and Scarlet and other Fevers.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat, and neck of the patient; it will soon penetrate and give immediate relief. To allay the fever and lessen the inflammation, eight or ten Pills should be taken night and morning.

*** Sold at the Manufactory of Prof. HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in pots, at 25c., 62c. and \$1 each.

☞ There is a considerable saving by taking the largest sizes.

N. B.—Directions for the guidance of patients, in every disorder, are affixed to each box and pot.

PERUVIAN SYRUP;

OR, PROTECTED

SOLUTION OF PROTOXIDE OF IRON COMBINED.

This well known Remedy has been used very extensively and with great success for the cure of

DYSPEPSIA,

OR

IMPAIRED OR IMPERFECT DIGESTION.

AND THE CONSEQUENT

DETERIORATION OF THE BLOOD.

And for the Cure of the following Diseases, most of which originate in

DYSPEPSIA.

Liver Complaint, Chronic Diarrhœa, Nervous Debility, St. Vitus's Dance, Neuralgia and Nervous Affections, Loss of Appetite, Headache, Languor and Depression of Spirits, Scrofula, Carbuncles and Boils, Piles, Scurvy, Affections of the Skin, Consumptive Tendencies, Bronchitis, Chlorosis, Leucorrhœa, Prolapsis Uteri, and all those Diseases peculiar to Females, and all Complaints accompanied by general Debility, and requiring a Tonic or Alterative Medicine.

NOTE.—The great value of IRON as a remedy for DYSPEPSIA, a bad state of the blood, and the numerous diseases caused thereby, is well known and acknowledged by all medical men. Its failure has been from the want of such a preparation of IRON as shall enter the stomach in a Protoxide state, and assimilate at once with the blood. This want the PERUVIAN SYRUP supplies, containing as it does, IRON in the only form in which it is possible for it to enter the circulation. For this reason the PERUVIAN SYRUP often radically CURES diseases in which other preparations of IRON and other medicines have been found to be of no avail.

CERTIFICATE OF A. A. HAYES, M. D., OF BOSTON.

It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to the air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the PERUVIAN SYRUP this desirable point is attained by combination in a way before unknown: and this solution may replace all the proto-carbonates, citrates, and tartrates of the Materia Medica.

It is also eminently adapted to take the place of any Protoxide of Iron which Physicians have used in Scurvy, or scorbutic attacks; and to meet such cases the SYRUP should be found in the medicine chest of every ship.

A. A. HAYES,

Assayer to the State of Massachusetts.

16 Boylston Street, Boston.

CHAMBERS'S EDUCATIONAL COURSE.

English—*continued.*

Moral Class-Book.

168 Pages, Price 1s. 6d.

A series of advanced Reading Lessons, descriptive of the Moral Duties of Life, illustrated by Historical and Biographical Anecdotes and other Narratives; with a selection of Scriptural Passages and Apothegms.

English Composition, Introduction to.

42 Pages, Price 6d.

Directions for Exercises in Composition, designed as preparatory to the Study of Grammatical Rules.

English Grammar, Introduction to.

58 Pages, Price 8d.

Intended to convey the Theory and Practice of English Grammar in as simple and elementary a form as possible.

English Grammar and Composition.

184 Pages, Price 1s. 6d.

Its leading principles are given in as clear and concise terms as possible, illustrated by examples collected from the best writers in our language; simplicity of manner being, at the same time, studiously aimed at.

Etymology, Exercises on.

226 Pages, Price 2s.

This volume presents distinct vocabularies of words from the Saxon, Latin, and Greek, with appropriate examples and exercises.

Specimen-page of English Grammar.

ETYMOLOGY—VERBS.

Exercise.

Point out the pronouns, and the class to which each belongs:—One is here, another there. All is well. Mine be the friend. My own brother. Not for himself. His cheek is pale. I choose neither. He gives one to each. I love him, and he loves me. What are you doing? Ye know not what you ask. Which is the way? Who did that? Whichever road you take. Whoever judges thus. To whom will you give it? Whatever you say. Such confidence as represses curiosity. The house which is my property. Take we no note of them. There is none. In each other's countenance. Taunting each other. They ruin themselves. The best that I know. 'Tis mine, 'tis yours. Men in nations, all were his. If any, speak, for him have I offended.

VERBS.

CLASSIFICATION OF VERBS.

95. Verbs are—Neuter, Intransitive, Transitive, or Auxiliary.

96. NEUTER or SUBSTANTIVE verbs are those expressing existence only; as—to be.

97. INTRANSITIVE verbs are those which express action without any object immediately affected by it; as—to walk, to run. They are called *intransitive* verbs, because the action does not pass over to an object.

98. TRANSITIVE verbs are those which express action which passes over to an object; as—to strike, to punish. They are called *transitive* or *active* verbs, because they have an immediate object; that is, we must strike *something*, or punish *somebody*.

99. AUXILIARY verbs are those which are used to form the voices, moods, tenses, &c., of other verbs, but do not by themselves express either being or action; as—*shall, will, may, might*. They are called *auxiliary*, because their office is to assist in conjugating others.

100. The following verbs, in their various moods, tenses, numbers, and persons, are used as auxiliaries—be, have, do, will, may, can, shall, must, let; to which may now be added—get.

Some of these, as—be, have, do, and get, are often also principal verbs, which may be conjugated separately. In such cases, though the same in form as the auxiliaries, they convey distinct and independent ideas.

101. The verb TO BE is used throughout all its moods and tenses to form the passive voice (see 114), by adding the past participle of a transitive verb; as—he was beaten. In connection with a present participle, it forms a progressive tense; as—I am writing.

102. HAVE and HAD are used to mark relative past time;

English—continued.

Elocution, Principles of.

376 Pages, Price 2s. 6d.

Besides treating the important subjects of Inflection, Modulation, and the Measure of Speech, there is added a copious and careful selection of pieces in Prose and Verse, as examples in various styles of reading.

English Language and Literature, History of the.

300 Pages, Price 2s. 6d.

Suitable to the more advanced classes in English Academies, and serving as a text-book for those lectures on English Literature which are now given in so many institutions for mechanics and others.

Penmanship.

In Fifteen Copy-Books.

Price 6d. each.

These Books, Post-quarto size, are neatly done up in Blue Wrappers and the paper in each is ruled to suit the exercise. At the head of each page an exercise is written, to be copied by the pupil.

These Copy-books were written and arranged by MR WILLIAM DICKSON, the late eminent writing-master in Edinburgh. They comprehend a CAREFULLY CONSIDERED COURSE OF PENMANSHIP for all classes of pupils, and are accompanied with printed directions for sitting, holding the pen, &c., so as very much to lessen the labours of the Teacher.

The great success which these Post and Foolscap Copy-books have met with, and the prominent place which FINE PENMANSHIP now holds in every Educational Establishment in the Kingdom, have induced the Publishers to prepare a set of

Thirteen Fine Post Copy-Books.

Price 6d. each.

These Books possess fewer pages than the ordinary Post series, but are ruled and printed on SUPERFINE PAPER. As it would be evident waste to lay these Books before a beginner, and as the object of preparing them was, rather to encourage the already tolerably proficient pupil to aspire to greater exertions, the Initiatory exercises have been omitted altogether—the series beginning with *Text*, and progressing up to *Ornamental Writing*, corresponding in a great measure with Nos. 3 to 15 of the set of Fifteen already issued in blue wrappers.

Thus, the Publishers venture to affirm, that pupils will be enabled, through the medium of this series of beautiful Copy-books, to acquire a finer and purer style of caligraphy than might otherwise have been obtainable, and at the same time to possess a set of books worth preserving for future inspection.

Penmanship—continued.

Messrs CHAMBERS have also to announce, that they have issued a complete set of

Copy Lines,

In Twelve Books: Books 1 to 11, at 4d. each; Book 12, at 6d.

These Headlines are printed on thick, durable paper-slips, and are intended to supply a deficiency long felt by Teachers and others, who, approving of the style of the writing as given in Messrs CHAMBERS'S Copy-books, have been sometimes compelled, where the pupils are numerous, and of the humbler classes, to forego the price of post or even foolscap books.

Drawing.

First Drawing-Book.

96 Pages, Price 1s.

This Primer, *which consists of forty-four different subjects*, begins with simple lessons in perpendicular and horizontal lines, &c. When the pupil is sufficiently advanced in the rudiments of the art, other easy lessons are introduced, such as the simpler objects of landscape, country-houses, cottages, &c.—*Note.* Many of the Studies contained in this book are well adapted for the slate or black board.

Second Drawing-Book.

96 Pages, Price 1s.

The Pupil having acquired some knowledge and experience in handling a slate-pen, piece of chalk, or pencil, and of sketching in rude outline various objects in nature and art, is now introduced, in this carefully prepared treatise, to the rules of perspective and the general principles of Drawing.

Specimen-page of Second Drawing-Book.

COPYING DRAWINGS.

in fig. 54, making the touches larger and bolder at the

Fig. 54.

base of the mass, and diminishing as they ascend towards the top.

108. Ferns are often introduced in foregrounds, presenting fine masses, and great variety of form. The delicate minuteness of their detail is, however, beyond the province and style of a pencil-sketch. They are represented, as in fig. 55, only in their general effect; that,

Fig. 55.

however, should be carefully preserved: the principal points are their tapering feathery character, and the varied dispositions of their graceful forms. A pencil with the point cut like a chisel, will be found much better than a sharp one in drawing them, as it affords fine broad soft lines.

Drawing—*continued.*

Drawing-Books—Consisting of a Series of Progressive Lessons in Drawing and Perspective, with General Instructions. In 18 Books, paper covers.

Price 1s. 6d. each.

- No. 1. Elementary Lessons.
2. Design.
3. Flowers.
4. Heads in Outline.
5. Heads shaded.
6. Hands and Feet.
7. Limbs and Parts of Figures.

Drawing—continued.

Drawing-Books, Edited by Robert Scott Burn.

Mechanical Drawing, in Three Books,
paper covers.

Price 1s. 6d. each.

Suitable as an introduction to the study of Practical Mechanics; consisting of a Series of Progressive Lessons, with General Instructions.

Architectural Drawing, in Three Books,
paper covers.

Price 2s. each.

A reliable introduction to the study of Architecture, by which a knowledge of the various distinctive parts of the science may be easily imparted in the daily lessons of the class-room.

Isometrical Drawing, in Two Books,
paper covers.

Price 2s. each.

This is the most satisfactory mode of representing Machinery and Architectural Structures, shewing at one view the Elevation and Ground-plan.

CHAMBERS'S EDUCATIONAL COURSE.

PRACTICAL SERIES OF
Works and Working Drawings
for Schools and Students.

EDITED BY ROBERT SCOTT BURN.

- Illustrations of Carpentry and Framing. First Series. Price 3s.
Illustrations of Carpentry and Framing. Second Series. " 3s.
Illustrations of Joinery. (Companion Work to Carpentry and Framing.) " 3s.
Glossary of Technical Terms used in the Constructive Arts of Bricklaying, Masonry, Carpentry, Joinery, &c. " 3s.
Working Drawings of a Horizontal High-pressure Steam-Engine. Plates and Descriptive Letterpress. " 1s.
Illustrations of Machine and Mill Gearing. Plates and Descriptive Letterpress. " 1s.
Condensing Beam Steam-Engine, in Section, End-elevation, and Plan. Drawn to Scale. " 1s.
The Styles of Gothic Architecture. " 1s.
The Orders of Roman Architecture. " 1s.
High-pressure Crank-over-head or Vertical Steam-Engine, of Two-horse Power. In Elevation, with Details. Drawn to Scale. " 1s.
Examples of Ornamental Drawing. In sheets. Nos. 1, 2, and 3 published. Price 3d. each.
Model Designs for Mansions, Villas, Dwelling-houses, Cottages, Gates, Stables, and Shop Fronts.

The Work is complete in 10 Parts, at 2s. 6d. each, including two Supplementary Parts, entitled *Cottage Accommodation for our Labourers*, and *Conservatories; their Construction and Arrangement*. These two Supplements may be purchased separately.

In Preparation, uniform with the above.

- Illustrations of Mechanical Movements.
High-pressure Table Steam-Engine of Six-horse Power.
High-pressure Oscillating Steam-Engine of Four-horse Power.

CHAMBERS'S EDUCATIONAL COURSE.

Geography—continued.

Primer Atlas.

Price 2s. 6d.

This small Atlas consists of Nine Quarto Maps, coloured in outline: the Two Hemispheres, Europe, the British Islands, Asia, Palestine, Africa, North America, and South America. Intended for the use of beginners.

Minor Atlas.

Price 5s.

This Atlas consists of Fifteen Maps, beautifully printed in colours, and is intended as a cheap Educational Atlas for intermediate classes.

School Atlas.

Price 10s. 6d.

Consisting of Thirty-four Quarto Maps, illustrative of Modern and Ancient Geography, from the latest authorities. The Maps are coloured in outline, and accompanied with a copious Index.

Geography, General Treatise on.

384 Pages, 7 Steel Maps, 20 Wood-cuts, Price 3s.

This Treatise is designed more particularly as a Text-book to the School Atlas of this Course. It contains authentic descriptions of the physical and social characteristics of each country in the world, with historical sketches, and notices of the climate and productions of each.

Geographical Primer.

68 Pages, 2 Steel Maps, 13 Wood-cuts, Price 8d.

Designed as a companion to the School-room Maps and Primer Atlas, and to serve as a Text-book for junior classes. Though unusually small, it has been constructed in such a manner that much useful information is given in proportion to the space.

Specimen-page of Geography.

DENMARK.—PHYSICAL AND DESCRIPTIVE.

is the island of Bornholm, which affords freestone, marble, limestone, potter's-clay, and ochre, with some seams of indifferent coal.

192. *Rivers.*—The Elbe, a large German river, washes the southern frontier of the kingdom; but from the flatness of the surface, and the limited extent of the land-tracts, it is impossible that Denmark should have any large river of its own. The only one worthy of mention is the Eider, which separates Schleswig from Holstein.

193. *Lakes.*—There are about 400 lakes scattered over the surface, but most of them are very small. The largest are Ersom and Arre, in the north of Seeland.

Fjords and Gulfs.—The Liimfiord extends from the Kattegat nearly across the whole breadth of North Jütland; at first in a narrow stream, but afterwards expanding into a broad basin, interrupted by tongues, and studded with small islands. It is separated from the German Sea only by a narrow strip of land, which was broken through by the waves in 1825; and the Agger Canal, of little commercial value, has since been formed at the breach. Smaller fjords in the mainland are Ringskiöbing, Nissum, and the bays of Kaløe and Flensborg; in Seeland, the Ise-fiord; and in Fühnen, the Odensee-fiord.

194. *Straits, Sounds, &c.*—The Skagerrack, the Kattegat, the Sound, the Great and Little Belts, all lead into the Baltic; and the toll which the king of Denmark receives for the passage of foreign vessels through them, forms an important item of his revenue.

195. *Climate.*—The air is humid and cloudy; and the climate much milder than its latitude would indicate.

196. *Soil and Vegetation.*—In Jütland and the Duchies, the soil is almost entirely alluvial, much of it being covered with a vegetable mould well adapted for cultivation, while the marshy districts produce excellent pasturage.

In the north-west parts of Jütland, however, the higher grounds are sandy, and for the most part covered with bent, heath, and brambles. The soil of the islands is of moderate fertility, and throughout there are frequent accumulations of peat. The forests are not now extensive, and are chiefly confined to the eastern coasts of the peninsula and the islands of Seeland and Fühnen.

197. *Animals.*—In losing their vast forests, the Danish territories have also lost the larger wild animals.

The wolf has entirely disappeared; the wild-boar has become very rare; the stag and fallow-deer remain only in parks; but the fox, marten, polecat, and various smaller quadrupeds, exist in great numbers. Game is abundant; the shores and fjords abound in aquatic birds; and the surrounding seas furnish unfailing supplies of white and flat fish.

198. Domestic animals, however, form the principal wealth of Denmark. Horses, valuable for military purposes, are

Geography—*continued.*

England, Geographical Text-book of.

88 Pages, 1 Steel Map, 14 Wood-cuts, Price 9d.

This and the following Text-books are designed as companions to the School-room Maps of their respective countries. This treatise is divided into two principal parts—the first being, in connection with the School-room Map, subservient to the acquiring of a knowledge of the *localities* of England; and the second part, to a variety of *information* relating to these localities.

Scotland, Geographical Text-book of.

76 Pages, 1 Steel Map, 10 Wood-cuts, Price 10d.

The same plan has been adopted in the construction of this treatise as in the Text-book of England.

Scripture Geography, Text-book of.

74 Pages, 1 Steel Map, 8 Wood-cuts, Price 10d.

In order to render this Text-book useful and interesting as a help to the study of sacred geography, the leading incidents with which each locality is associated in Bible *history* are mentioned in connection with the place, reference being made to the passage where the events are narrated.

History, &c.

Ancient History.

294 Pages, 21 Wood-cuts, Price 3s.

From the earliest times concerning which we have any authentic record. It is divided into three parts: the first sketching the history of the nations ultimately included in the Persian Empire—the Egyptians, Jews, Assyrians, Babylonians, &c.; the second embracing the history of the Persian Empire, and of the Eastern nations generally under the Greeks and Romans; and the third tracing the history of the ancient European nations, and of those African and Asiatic nations not included in the Persian Empire.

History—continued.

Medieval History.

362 Pages, 7 Wood-cuts, Price 3s. 6d.

An account of modern European nations, from the dismemberment of the Roman Empire to the Reformation. After sketching the downfall of the Roman Empire, it is divided into three *periods*, the Frankish period, the Feudal period, and the period of National Monarchies. It also contains a supplementary chapter, giving the History of Art, Science, and Literature during the middle ages.

Modern History.

564 Pages, 2 Wood-cuts, Price 4s. 6d.

This work gives an accurate and comprehensive outline of the History of Europe from the Reformation to the Russian War. It has been arranged so as to follow the work on Medieval History, and is constructed on the same principle. The first division embraces the Reformation and its consequences; the second, the Wars of the Balance of Power; and the third, the French Revolution and its consequences. It contains also a supplementary chapter on the progress of Literature, Science, and Art, and a copious Index.

Greece, History of Ancient.

364 Pages, 1 Steel Map, 30 Wood-cuts, Price 3s.

The aim of this work, which incorporates the results of the latest researches, is rather to bring out the leading features of the history in a mode to command the interest of the youthful reader, than to give a skeleton history, briefly enumerating many occurrences which would fail to impress the memory.

Rome, History of.

372 Pages, 1 Steel Map, Price 2s. 6d.

The aim of the writer of this volume has been to imprint vividly on the juvenile imagination a few of the more stirring and picturesque incidents in Roman History; to furnish a general picture of the social and political life of the Roman people; and to indicate, as far as possible, the place which they held, and the function which they performed in the history of the world.

History—continued.

British Empire, History of the.

294 Pages, 1 Steel Map, 2 Wood-cuts, Price 2s.

This volume forms a comprehensive outline of British History, from the Conquest by the Romans till the reign of Victoria I. It unites, for the first time, the history of the three kingdoms, England, Scotland, and Ireland, in one narrative.

Biography, Exemplary and Instructive.

290 Pages, Price 2s.

The principal persons who have advanced science and art; the most remarkable discoverers and inventors; those who have distinguished themselves by their humanity and their patriotism, are here presented in the manner judged most likely to stimulate others to take similar courses, and to manifest similar virtues.

Arithmetic and Mathematics.

Introduction to Arithmetic.

With Exercises on the Decimal Coinage.

144 Pages, Price 1s.

As a first book on the subject, this work is limited to the expressly elementary, yet it includes all that is likely to be required by persons in ordinary circumstances.

Arithmetic: Theoretical and Practical.

With Exercises on the Decimal Coinage.

260 Pages, Price 2s.

This volume conducts the pupil from the first steps in the science of numbers to that stage when it becomes necessary to adopt the more general symbols of Algebra.

Specimen-page of Arithmetic.

SIMPLE SUBTRACTION.

Example.—Take 1896573 from 3200318.

3200318
1896573

1308745

In this example, the numbers are put down as in the margin, and beginning at the right hand the *pupil* says— 3 from 8 and 5 remain, I put down the 5; 7 from 1, I cannot, but 7 from 11 and 4 remain, I put down the 4. *Teacher.* How do you get 11? *Pupil.* I take 1 from the next figure 3; but 1 in any place of figures makes 10 in the next lower place, and this 10 added to 1 makes 11. As an equivalent for borrowing 1 from the upper figure 3, I *carry* 1 to the next under figure 5, and say, 6 from 3, I cannot, but 6 from 13 and 7 remain, then carrying 1 to 6, 7 from 10 and 3 remain, 10 from 10 and 0 remains, 9 from 2 I cannot, but 9 from 12 and 3 remain, 2 from 3 and 1 remains. *Teacher.* What is the whole difference? *Pupil.* One million three hundred and three thousand seven hundred and forty-five.

PROOF.—Add the remainder to the lower line of figures, and the result will be equal to the upper line, if the work is right; for it is evident that the sum taken away, added to that which is left, will make up the whole. From this it appears that *Subtraction* is the converse of *Addition*.

51309
26847

24462 Remainder.
51309 Proof.

REASON OF THE RULE.—The reason of the rule may be gathered from the example, combined with the observations made under the Reason of the Rule of Addition. The example, broken up and arranged, may render the operation more obvious.

$$\begin{aligned} 3200318 &= 3000000 + 200000 + 100000 + 10000 + 1300 + 110 + 8 \\ 1896573 &= 2000000 + 900000 + 100000 + 7000 + 600 + 70 + 3 \end{aligned}$$

$$\text{Difference} = 1000000 + 300000 + 0 + 3000 + 700 + 40 + 5 = 1303745$$

Arithmetic and Mathematics—continued.

Key to Arithmetic.

116 Pages, Price 2s.

A Sequel to the preceding Treatise, containing solutions of every question in which two or more operations are involved.

Book-keeping by Single and Double Entry.

176 Pages, Price 1s. 6d.

In the present Treatise, simplicity has been chiefly aimed at; all unnecessary technicalities in the phraseology and complexity in the system of keeping the accounts having been studiously avoided. An Appendix, containing Explanations of Mercantile Terms and Transactions, is subjoined, which will serve in some measure as a guide to the business of the Counting-room.

Book-keeping by Single Entry.

96 Pages, Price 1s.

This portion of the preceding Treatise is issued in a separate form, for the convenience of those who may not require a knowledge of the entire system.

Book-keeping—Set of Ruled Foolscap

Paper Books, adapted to Single Entry, in Two Books, paper covers.

Price 1s. 3d.

Book-keeping—Set of Ruled Foolscap

Paper Books, adapted to Double Entry, in Two Books, paper covers.

Price 1s. 3d.

Arithmetic and Mathematics—continued.

Algebra: Theoretical and Practical.

432 Pages, Price 3s.

Containing all the subjects in theory and practice usually comprehended in an elementary work. The method adopted in this treatise is to state the rule concisely and clearly; to illustrate it by appropriate gradational examples; to demonstrate the rule; and to prescribe a series of Exercises. By this means the transition is very gradual, from the more simple to the more complex parts of the subject.

Key to Algebra.

238 Pages, Price 2s. 6d.

A Sequel to the preceding Treatise, designed to assist the student of Algebra to surmount any difficulties he may encounter in this branch of his studies.

Exercises and Problems in Algebra;

with Answers and Hints to the Solutions.

128 Pages, Price 2s. 6d.

This Collection of Exercises is intended as a Supplement to the ALGEBRA of CHAMBERS'S EDUCATIONAL COURSE, and is arranged in Sections corresponding thereto.

Exercises and Problems in Algebra;

without Answers.

64 Pages, Price 1s.

Containing the same Collection of Exercises as the preceding, but arranged so as to suit the opinions of Teachers who prefer using a Text-book without Answers.

Plane Geometry.

282 Pages, 262 Diagrams, Price 2s.

Consisting of the first six books of Euclid, a book on the Quadrature and Rectification of the Circle, a book on Geometrical Maxima and Minima, an Exposition of the Method of Geometrical Analysis, an additional second and fifth book, and a Treatise on Plane Trigonometry.

Arithmetic and Mathematics—*continued.*

Key to Plane Geometry.

108 Pages, Price 2s.

Forming a Key to the Exercises in Plane Geometry, and may be used as a Sequel to the ordinary course of study contained in the Elements of Euclid.

Solid and Spherical Geometry and Conic Sections.

168 Pages, 151 Diagrams, Price 1s. 6d.

This volume consists of Treatises on Solid Geometry, Spherical Geometry, Spherical Trigonometry (these from Playfair's Euclid), the Projections of the Sphere, Perpendicular Projection, Linear Perspective, and Conic Sections.

Practical Mathematics.

544 Pages, 330 Diagrams, Price 5s.

Containing Descriptive Geometry, Trigonometry, Mensuration of Heights and Distances, Mensuration of Surfaces, Land Surveying, Mensuration of Solids, Gauging, Barometric Measurement of Heights, Levelling, Strength of Materials, Projectiles, Spherical Trigonometry, Astronomical Problems, Navigation, Geodetic Surveying, and other subjects.

Key to Practical Mathematics.

346 Pages, Price 4s. 6d.

Containing Solutions of all the Exercises given in the preceding Treatise.

Mathematical Tables.

346 Pages, Price 3s.

These comprehend the most important Tables required in Trigonometry, Mensuration, Land-Surveying, Navigation, Nautical Astronomy, &c., and particularly adapted to the above Treatises of Practical Mathematics. The Tables of Logarithms, Logarithmic Sines, &c., are carried to *seven decimal places.*

Science.

Rudiments of Knowledge.

88 Pages, 42 Wood-cuts, Price 8d.

In this Work the child is introduced, in a progressive manner, to a knowledge of the external appearances in the natural and social world, and in simple language, suitable to juvenile minds.

Introduction to the Sciences.

132 Pages, 51 Wood-cuts, Price 1s.

This Volume presents a systematic View of Nature under the various Sciences of Astronomy, Natural Philosophy, Geology, and Physics; Geography, Meteorology, Electricity and Magnetism, Chemistry, Botany, Zoology, Human Physiology, and Mental Philosophy.

Natural Philosophy.

Vol. I., containing Treatises on the Laws of Matter and Motion
Mechanics — Machinery ; Hydrostatics — Hydraulics —
Pneumatics ; Acoustics.

352 Pages, 207 Wood-cuts, Price 3s.

Vol. II., containing Optics ; Astronomy ; Electricity ; Meteorology.

408 Pages, 181 Wood-cuts, Price 3s.

The above may also be had in separate Treatises as follows

	Pages.	Wood-cuts.	Price.
1. Matter and Motion, Laws of,	82	35	10d
2. Mechanics,	102	110	1s. 0d
3. Hydrostatics, &c.,	84	44	10d
4. Acoustics,	84	18	1s. 0d
5. Optics,	116	86	1s. 0d
6. Astronomy,	100	39	1s. 0d
7. Electricity,	110	45	1s. 0d
8. Meteorology,	82	11	1s. 0d

Specimen-page of Rudiments of Knowledge.

RUDIMENTS OF KNOWLEDGE.

different trades, they still assist each other. The tailor makes clothes for all the others, and gets some of their things in return. The shoemaker makes shoes for all the others, and gets some of their things in return; and in like manner all the rest exchange their articles with each other. The exchange is not made in the articles themselves, for that would not be convenient; the exchange is made by means of money, which is to the same purpose.

199. Tailors, shoemakers, carpenters, and others who make articles for use, are *mechanics* or *artisans*, and they form a very large body of the people. The persons who employ a great number of artisans, and give them *wages* for their labour, are *manufacturers*; and these sell the articles they make to *shopkeepers*, who sell them to the public, or whoever will buy them. When *shopkeepers* sell an article, they get a little more for it than they paid for it, and that is called their *profit*. If the bookseller pays fivepence for a book, and sells it for sixpence, then he has a penny of profit. If manufacturers and shopkeepers did not get profit on their articles, they could not sell them, for it is only the profit that they live upon.

CHAMBERS'S EDUCATIONAL COURSE.

Science—continued.

Chambers's Scientific Charts.

These CHARTS—each measuring 40 by 27 inches, and containing upwards of *twenty Pictorial Illustrations*—are adapted to the Scientific Treatises in CHAMBER'S EDUCATIONAL COURSE.

Sheet 1. Laws of Matter and Motion,	Price 1s. 6d.
" 2. Mechanics,	" 1s. 6d.
" 3. Do.	" 1s. 6d.
Also, each sheet mounted on cloth and rollers,	4s. 6d.
and varnished,	5s. 6d.

The Illustrations are of a popular character, so as to be intelligible to beginners; and the Sheets themselves are well adapted for hanging on the School-room or Nursery wall.

Chemistry.

310 Pages, 83 Wood-cuts, Price 3s.

The object of this Treatise is strictly elementary; it introduces the student to a knowledge of the more important fundamental laws of Chemistry, and makes him familiar with the properties of elementary substances and their compounds.

Geology.

228 Pages, 53 Wood-cuts, Price 2s.

This Volume exhibits the progressive conditions of the earth from the remotest periods, reveals the character of plants and animals, and determines the position of those metals and minerals upon which the arts and manufactures so intimately depend.

Zoology.

262 Pages, 248 Wood-cuts, Price 3s.

Presenting a complete view of the Animal Kingdom, as a portion of external nature. The classification followed is a composition of several modern systems, with certain unimportant modifications, and the ascending order is adopted as best fitted to introduce the subject intelligibly to young students.

ACALEPHÆ.

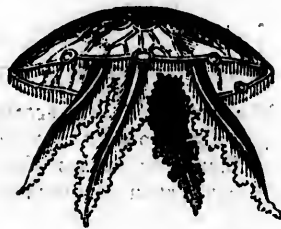

CLASS. ACALEPHÆ.

26. ACALEPHÆ (*ἀκάλειφα*, a nettle) are so called from the property many of them possess of irritating and inflaming the skin, the cause of this property being still undiscovered. Cuvier divided the Acalephæ into two Orders, marked by the possession or non-possession of an air-bag to sustain them in the water, calling the former *Hydrostatic* and the latter *Simple*. More recent inquirers arrange them in four groups, named from peculiarities of structure, *Pulmonigrada*, *Ciliograda*, *Cirrhigrada*, and *Physograda*. The most important forms are the *Medusa*, or common jelly animal, the *Berœe*, and the *Physalia*.

27. *Medusa*.—The body of this creature is in the form of a gelatinous disk, more or less convex on the upper surface, somewhat like the head of a mushroom, and termed the umbrella. From the centre of this, and from the margin, there depend in most of the species tentacula, more or less numerous, and more or less elongated. When the *Medusa* is

A

B

Medusa.

A, under surface, shewing the mouth in the centre, surrounded by the tentacula, and the ovarial chambers exterior to the origins of these; B, side-view, shewing the tentacula hanging down in their natural position.

seen dead on the beach, it appears as a piece of coarse jelly, and it is difficult then to imagine how lively and beautiful are the movements of the living animal, as it advances through the water in search of prey.

28. The solid parts of the *Medusa* form so small a proportion of its frame, that if a specimen of ten poundweights be put upon a filter, what remains after the fluid parts, which are chiefly sea-water, have escaped, does not exceed two drachms in weight! Yet though they are so very soft, they feed upon prey of firm structure—such as crustacea, and other marine animals of much higher organisation than themselves, which,

CATALOGUE
OF
EDUCATIONAL
WORKS.

PUBLISHED
BY
W. & R. CHAMBERS.

1860

CHAMBERS'S EDUCATIONAL COURSE.

THE Publishers of this Course have been actuated, in its preparation, by a desire to furnish the friends of an improved system of Education with the books best suited for carrying out their views in the actual business of the Nursery and

SCHOOL-ROOM.

It is constructed upon a theory which acknowledges that the human being possesses a physical, a moral, and an intellectual nature, each of which calls throughout the period of Infancy and Youth for its appropriate *exercise, training, and instruction*. In the execution of their task, the Editors—who were the first in this country to attempt anything of the kind—have endeavoured to give a uniform tone and character to the works composing the series.

The volumes are uniform in size—foolscap 8vo—a few (MINOR EDUCATIONAL COURSE) excepted. They are strongly bound in cloth, and are printed with good clear type, as may be seen from the specimen-pages included in this Catalogue; they are also, when the nature of the subject permits, illustrated by Wood-engravings, and are offered at prices commensurate with the means of the poorest classes.

It is important to add, that each book, before going to press for a new edition, undergoes a rigid revisal by an editor well versed in the subject, the result of which is, that the series is constantly and regularly kept up with the current progress of

EDUCATIONAL LITERATURE.

W. & R. CHAMBERS.

EDINBURGH, 209 HIGH STREET,
1843.

Directories.

Infant Treatment under Two Years of Age.

122 Pages, Price 1s. 3d.

A complete code of instruction, at once philosophical and practical, for the treatment of Infants under Two Years of Age.

Infant Education from Two to Six Years of Age.

198 Pages, 8 Wood-cuts, Price 2s.

This volume is addressed to the Conductors of Nurseries and Infant Schools. It lays down principles of *training*, and conveys many of the lessons and rules of conduct which may be impressed on the mind in early childhood.

English.

Elementary Lesson Sheets.

Forming a graduated series of Reading Lessons for the use of Infant Classes. *In 14 Sheets, each Sheet 23 by 16 inches.*

Sheet	1. The Alphabet,	2d.
"	2. Exercises on Vowels,	2d.
"	3. Exercises on Vowels— <i>continued</i> ,	2d.
"	4. Names of Things,	2d.
"	5. Qualities,	2d.
"	6. Things and Qualities,	2d.
"	7. Actions,	2d.
"	8. Things, Qualities, and Actions,	2d.
"	9-14. Exercises in Double Vowels, each	2d.

English—continued.

First Book of Reading.

16 Pages, 6 Wood-cuts, Price 1*ld.* *sewed.*

This little book is adapted to the intelligence of Children under Six Years of Age. It contains the very easiest exercises, giving the Vowels in order, and avoiding difficult combinations.

Second Book of Reading.

48 Pages, 13 Wood-cuts, Price 3*d.* *sewed.*

A regular Series of Lessons on the Consonants and Double Vowels, for more advanced pupils. The lessons for practice consist of sentences of such a nature as to admit of explanation and illustration, by sketches on the BLACK BOARD, and by sensible objects.

Simple Lessons in Reading.

96 Pages, 20 Wood-cuts, Price 8*d.*

Calculated to advance the learner in Reading and Spelling, and so prepare him for the more *intellectual* lessons of the books which follow. In order to induce a *taste* for reading, the exercises are of that species of narrative which uniformly delights the infant mind, bearing in each case a reference to the moral perceptions or higher sensibilities of the pupil.

Lesson Book of Common Things and Ordinary Conduct.

80 Pages, 4 Wood-cuts, Price 8*d.*

This small volume communicates ideas of practical utility, both in regard to the economy of person and of life. It treats more expressly of common and familiar things, giving the philosophy of them, or tracing their connection with principles in nature. The author, in his anxiety to slight no available means of impressing desirable knowledge, and having seen how much more easy it is to commit verse than prose to the memory, has resorted to the expedient of repeating some of the lessons in *versified* forms; and in one department, where prose lessons might have been unattractive, he has given them in verse only.

CHAMBERS'S EDUCATIONAL COURSE.

Science—continued.

Animal Physiology.

108 Pages, 39 Wood-cuts, Price 1s. 6d.

The organisation of animals, and particularly of the human being, here described by one who has been much accustomed to explain the subject in popular lectures. The more important illustrations are coloured from nature.

Vegetable Physiology.

128 Pages, 88 Wood-cuts, Price 1s. 6d.

Designed to convey an idea of the General Structure and Functions of Plants, and their extensive utility in the scheme of creation.

Political Economy.

160 Pages, Price 2s.

In this Treatise, that hitherto neglected branch of study, Social Economy, is presented to the pupil in simple language; and by commencing with subjects of moral and social concern, the principles of Political Economy are gradually and naturally developed, and may be mastered without difficulty.

Latin.

Latin Series. Illustrated with copious English Notes and Prefaces, and prepared by eminent Classical Scholars.

Ruddiman's Latin Rudiments,	76 Pages,	10d.
Latin Grammar, Elementary,	166 " "	2s. 0d.
Latin Grammar, Advanced,	320 " "	3s. 6d.

CHAMBERS'S EDUCATIONAL COURSE.

Specimen-page of Caesar.

DE BELLO GALLICO.

the smaller of which the Germani attack: the superstition of the Germani about fighting before the full moon.—51-54. Battle between Ariovistus and Caesar; the Germani are defeated, and pursued to the Rhine; Ariovistus escapes across the river in a boat, and Caesar returns into Citerior Gallia.

The events narrated in this book transpired in the year 52 A. D., or 58 B. C., during the consulship of L. Calpurnius Piso and A. Gabinius.

GALLIA est omnis¹ divisa in partes tres, quarum unam incolunt Belgae, aliam² Aquitani, tertiam qui locorum lingua Celtae, nostra Galli appellantur. Hi omnes linguae, instituta, legibus inter se differunt. Gallos ab Aquitanis Garunnae flumen, a Belgis Matrona et Sequana³ dividit. Horum omnium fortissimi sunt Belgae; propterea quod a cultu atque humanitate⁴ provinciae longissime absunt, minimeque ad eos mercatores⁵ saepe conveniunt, atque ea, quae ad eliminandos animos pertinent, important, proximique sunt Germanis, qui trans Rhenum incolunt, quibuscum continenter bellum gerunt. Qua de causa Helvetii quoque reliquos Gallos virtute praecedunt, quod fere quotidianis proeliis cum Germanis contendunt, quos aut suis finibus eos prohibent, aut ipsi in eorum finibus bellum gerunt. Eorum⁶ una pars, quam Gallos obtinere dictum est, initium capit a Germanis

¹ What Caesar here calls *omnis*, is that *part* of the Gauls, which had become a Roman province as early as the year 58 B. C. This southern district, Caesar usually designates simply *Provincia*, or *Provincia Nostra*.

² *Aliam* is here used in the sense of *alteram*, 'the other,' the ordinary form, in an enumeration of a definite number of parts, *unus, alter, tertius*. In the passage in Cicero in which he uses *unus, alius, tertius*, the whole number of parts is not enumerated, nor is it certain how many he intended to specify.

³ The three rivers here mentioned are the modern Garonne, Marne, and Seine.

⁴ *Cultus* expresses everything belonging to the outward appearance of civilised life, such as dwelling, clothing, daily occupation, and the like; whereas *humanitas* refers to the moral condition of the people.

⁵ The *mercatores* were important functionaries who followed the Roman camp as traders, and often penetrated into places where the Roman arms had never been. They differed considerably from the *negotiatores*, in carrying their goods with them on pack-horses and in waggons, and supplying the tribes among whom they traded with various luxuries, such as arms, wine, &c.

⁶ *Eorum* refers to the inhabitants of Gaul generally, and is here used with colloquial carelessness, instead of *una pars eorum* or *una partium*.
