Germans Without Sufficient Ammunition Are Getting Hammered to Defeat

London, Sept. 11 .- A dispatch to the Times from Bordeaux, dated Thursday, says: "Since Sunday, when the ene my's sweep southeast of Paris was checked on the Grande Morin, the German war machine has been showing signs of wear and each fresh day of battle has closed with the allies in a more favorable position.

"On Sunday there was furious fight-Ing along the Grande and on Monday morning the enemy began a retreat on their next line along the Petit Morinta there they were allowed to rest, for the ailied forces were at last tasting the rare joy of the offensive and wished to taste to the full.

"On Tuesday the German con became apprehensive for the safety of unications and saw looming or its right flank a possibility of disaster.

"North of Paris the French found ample room for assembling a large army, and while the British were slip-ping from the northeast of Paris to the east with the Germans, their place of giory was taken by a strong force of French troops which moved up to the river Ourca and became a serious menace to the enemy's retreating move-

"The Ourcq formed the upper blade of a pair of shears, of which, as they gradually closed, the Grande Morin, the Petit Morin and the river Marne formed the lower blade.

"Immediately the German staff realized this situation it endeavored to extricate itself from between the blades by a rapid retreat and by a ser-ies of furious but fruitless onslaughts on the French holding the right bank

"The fight here has been of a peculiarly desperate character, which is shown by the fact that of two standards captured, one, that of the 36th infantry regiment of Madgeburg, was torn from the hands of its bearer by a French infantry reservist.

"The French, however, stand firm along the Ource, while the British have crossed the Marne and driven the enemy a distance of twenty-five miles.

> New York, Sept. 11.-The king of Belgium's commission to protest against German violation of the Bel-gian neutrality and alleged German atrocities in Belgium, set foot on American soil here to-day en route to Washington, where they will outline their case to President Wilson. They expect to remain only a few hours in this city and to reach Washington late to-day. The steamer Celtic, in which the commission made the trans-Atlan-tic.trip, reached quarantine last night, but did not dock until this morning. An autograph letter from King Albert of Belgium to President Wilson i in the custody of the commission, to be presented by them to the president. A partial list of the alleged German atrocities in Belgium, against which the Belgian king has sent a protest to President Wilson, was made public to-day by Count Louis de Lichterveide, secretary of the Belgian commission bearing the protest.

"At Linsmeau, when the Germans entered the village, two uniformed gendarmes attacked the Germans," the count said. "In revenge the village was invaded on the night of August 10. BELGIAN COMMISSION ALLIES GAIN FORTY MILES IN FIGHTING **EASTWARD OF PARIS**

One Thousand Five Hundred Prisoners and Many Guns Were Taken From Fleeing Enemy by the British Army in France Yesterday

Maubeuge Holding Out and Its Fall Now Would Be Too Late for Germany Except for Purposes of Escape

Paris, Sept. 11.—News from the fighting line to the east of Paris is to the effect that at some points the Germans have retired from sixty to seventy-five kilometres (from 37 to 46 miles).

London, Sept. 11.—The official press bureau to-day gave out the following announcement: "The general retirement of the enemy continues.

"The British forces yesterday captured 1,500 prisoners, including wounded and several guns, including Maxims, and large quantities of transports.

"The enemy is retreating rapidly east of Soissons in some disorder.

Allied Armies Engaged in Quick Pursuit.

"In a later telegram it is declared that from further information the captures of yesterday are higher than first reported. Considerable bodies of infantry are being found hiding in the woods, having been left behind owing to the rapid retirement of their forces. These surrender at sight.

"This and the rifling of villages and evidence of drunkenness point to the immoralization of the enemy.

A Central News dispatch from Rome says that telegrams from Berlin state that the evacuation of Upper Alsace by the Germans continues. They are withdrawing to Strassburg and Metz. It is admitted that the German army in France is extremely fatigued, whereas the enemy is continually receiving fresh troops.

"The pursuit of the enemy is being vigorously pressed."

German Army Becoming Demoralized.

Paris, Sept. 11.—The tone of comment in the morning papers on the result of the four days' fighting in the great battle of Champagne, is one of lively satisfaction. The successes, it is admitted, do not mean that the battle has been won, but the gain of forty miles on the German left increases the jeopardy of their line of communications and must cause, it is considered, a demoralization of the enemy's tired forces.

As yet there is no indication that the Germans on the Lorraine frontier would be able to get through to help the main force, as last accounts reported that Maubeuge was still holding out, though several forts had been placed hors de combat. The fall of this place might have a great bearing on the result of the battle in opening a ready means of communication.

Maubeuge No Help to Germans Now.

Some critics say that even if Maubeuge falls that route will not become available for at least two days, and the battle may be decided before it can be of any practical use, except as a way out in case

The latter contingency is not counted on as much as it is hoped for by Paris, but the undoubted reverse of the German right wing has given the people here immense courage.

It is pointed out that in a forced retirement the Germans would find the fortified place of Rheims in their path and this might give them considerable trouble, while in a pursuit the cavalry of the allies has shown itself to be terribly effective. On the whole, it is considered possible that if the invaders do not retrieve their fortunes rapidly they will have to get out of France.

Congratulations Sent From Bordeaux.

Bordeaux, Sept. 11.—President Poincare has written a letter to Minister of War Millerand asking him to convey the congratulations of the French government to General Joffre and the French army on the brilliant successes gained in co-operating with the British allies in repulsing the Germans to the east of Paris. These successes are described by the minister as certain gauges of definite victories. The commander's strategical plan was skilfully conceived and carried out with wonderful tactics.

Three Veins Carrying Gold, Silver and Copper Values Are Being Opened Up, States E. Peters

The Pingree mine, near Nelson, has encountered and is opening up with a small force of miners three veins of Trades Congress of Canada.—The annual meeting of the Trades and a good width carrying gold, silver Labor congress of Canada will be without a representative of the Victoria who recently visited the mine.

"One vein gave an average assay \$34. This group has an area of about 554. This group has an area of about 500 acres in one block, a portion of which is heavily timbered. It is situated on the divide between Eagle and Forty-nine creek. The latter creek affords an ideal tunnel site and when the veins have been more fully demonstrated it is the intention of the company to carry on a more extensive plan of development," he states.

"A wagon road connecting the mine

with the Forty-nine creek wagon road at a point near the May and Jennie mine, is now under consideration, the distance not being great.

"Frank E. Pearce, M. E., of Nelson, has charge of operations and under his management this property should soon rank with the producting mines.
"I secured several nice specimens
of ore for exhibition at the coast and Panama, as also from the Eureka mine, which is quite near the Pingree and contains rich ore in silver and copper values."

two for the emergency fund: From F. Moore, \$50; Sympathizer, \$1; Anonymous, \$25, and Mrs. F. C. Stratford, \$2. Through the industry of Mrs. Builen and her helpers a large parcel of cummerbunds, containing about 350 of these very useful articles, has been completed for the 50th Highlanders, while a further consignment of 72 has been prepared by Miss Litt-Smith and her assistants for the unit of veterans leaving next week to rejoin their regiments in England. Fifty cummerbunds have been completed for men with the forces at Valeartier, and the workers are now at Valcartier, and the workers are now at Valcartier, and the workers are now busy with knitting wristlets, socks and woollen comforters. Mrs. G. H. Barnard is patron of the ladies' needlework guild, of which Mrs. Cecil Cookson is honorary secretary. The members have undertaken either to make or purchase two new garments for women and chil-dram, for soldiers, and estilors or for soldiers and sailors, or for naval and military hospitals.

Assaulted Girl.—For assaulting a young girl at James Bay on Monday night, Robert Henderson was this morning sentenced to a fine of \$20 or one month, by the magistrate. The evidence of the complainant was to the effect that the accused dragged her half a block before she could break away from him. Henderson admitted being drunk at the time. He was ar-rested by Constable Hall.

Old War Songs Are Being Revived Now

When trouble loomed up in South Africa and the call went around the Empire the whole nation sang "Soldiers of the Queen." The present conflict makes the late unpleasantness in South Africa seem as nothing by comparison. As yet the flood gates of rejoicing have not been opened. It is too soon. But, notwithstanding, there is evident an increasing demand for patriotic songs. The choice embraces many of the stirring old songs that have been laid away these many years. Many a drawingroom echoes to the stirring chords of "The Death of Nelson" and "Hearts of Oak," Rule Britannia," and "The Red, White and Blue these evenings. Other newer songs, such as "Who's That Calling?" by Conan Doyle and Alicia Needham, are also in demand. Others frequently asked for are: "The Call of the Motherland," "Private Tommy Atkins," "Soldiers of the Queen," "Land of Hope and Glory," "The Veteran's Song," and "There's a Reason."

TRAIL OF THE LONESOME PINE."

Eugene Walter's best play, "The Frail of the Lonesome Pine," which comes to the Royal Victoria theatre Thursday and Friday, Sept. 17 and 18 has been given a magnificent produc Isabelle Lowe, in the title role tion. Isabelle Lowe, in the title role, has a part that suits her beyond all others in which she has appeared in the past. Mr. Walter's conception of June, the wild and primitive mountain girl, suits Miss Lowe's histrionic ability in every way. His dramatic effort has strengthened Mr. Fox's romantic story, and the truth of things mantic story, and the truth of things as they exist among those hardy mountaineers of Virginia is actually seen, where in the story it could sim-ply be imagined. The company is an unusually strong one, and the beautiful story of primitive ways among a hardy race will appeal to all who fol-lowed the trail in June's young life in the book.

"SHEPHERD OF THE HILLS."

Harold Bell Wright's most popular ovel, "The Shepherd of the Hills," of which a million copies have been sold, has been made into a play by its au-thor with the assistance of Elsbery W. Reynolds. It will be seen at the Royal Victoria theatre on Wednesday, Sep tember 16.

The play is practically a true nar-rative of life among the humble dwel-ers of the Ozarks. The shepherd of the story is a cultured stranger, who omes into the hills, glad to escapfrom life's conventionalities. There is a flock needing a shepherd, and he thankfully accepts the lowly occupation of a sheep tender, but soon beomes shepherd of a human flock th big-hearted mountaineers and the

ORPHEUM VAUDEVILLE.

Harry De Coe, famous the world over for his remarkable performances will appear on the coming Orpheum bill at the Royal Victoria on next Monday and Tuesday. De Coe's daring is as unquestioned as his feats are difficult. Perched on tables and chairs he accomplishes almost unbelievable beats. He places two chairs on top of a table, lays a broomstick. In this position he picks up two other chair, balanced on the broomstick. In this position he picks up two other chairs and holds them at arm's length. He finds no difficulty in enjoying a good smoke while seated on a chair that is resting on one leg and that leg standing on the neck of a bottle. These ure only two of the remarkable fea's which this wonder of all balances accomplishes.

Affiliation May be Dropped

It is now rumored that the Victoria Football association will reopen its senior division and call for more teams for this league. There are only four clubs, the Wests, Thistles, Sir John Jackson and Bays, entered in the first division to date, the Wards and Sons of England having decided to give up soccer for this year at least. The Empires felt that they could not gather a club together, and so they also withdrew their application, while neither a club together, and so they also withdrew their application, while neither the Victoria lacrosse club team nor the Victoria Swimming association club went through with the plans for a senior eleven.

The dropping out of the Wards and Sons of England has released a number of prominent players, and it might be possible to secure two more really qualified clubs for the senior division. League officials stated this morning that the V. F. A. would proceed with its schedule as it was already drafted up.

NEW YORK GIANTS BUY SEATTLE STAB

Spokane, Sept. II.—Pitcher Al Gipe, of Seattle, will wear the uniform of the New York National League basebail club in 1915. On telegraphic advices from Boston, where the New York club was playing Monday and Tuesday, President D. E. Dugdale, of the Seattle club, was given authority to sign Gipe to a 1915 New York contract. Dug had no trouble getting Gipe to agree on the salary question, and a contract was duly signed and mailed eastward. Gipe gets a substantial increase in his present salary. The Seattle club will profit to the extent of the draft price for a class B ball player. There will be little grumbling around the Northwestern league circuit when President E. R. Hughes wraps up the 1914 pennant and ships it on to Robert Brown, of Vancouver. The auburn-haired leader of the two-in-a-row he made very few changes in the make-up of his team this year but he has developed a couple of good twirlers in Harstad and Doty, both of whom advance this year, while Reuther and McCarl look good enough to be taken in the draft. Brown is a real baseball manager, one who has the interests of the league in

the National Basebank of professional hockey that promises to be just as serious as that which Ambrose O'Brien started back in Renfrew five years ago. That revolution caused another hockey league to be formed and if the Nationals, of Montreal, can handle their cash in the same open-handed style, there is no reason why they should not make good also. It will be difficult for the new-comers to secure lee accommodation in Ottawa and Toronto, but if they can succeed in getting one of the Toronto clubs to jump and go back to seven-man hockey, they will have surmounted their greatest hurdle in breaking into proches. Whether their entrance into the game means the smashing of the National Hockey commission remains to be seen. If the N. H. A. remains intact, the Coast league will work in harmony with it. However, if the N. H. A. all players and admirers of the game hocket to attend. Wickets will be pitched at 1.30 p. m.

MOTORCYCLES TO RACE HERE SEPT. 19

Special Events Will Be Featured; Programme Assured Rain or Shine

Victorians will be afforded the opportunity to witness another lengthy programme of motorcycle racing at the Willows on Saturday, September 19, according to an announcement which was made this morning by the officials who had charge of the Labor Day meet. Arrangements have been completed for the lease of the track, and if possible half-a-dozen of the crack riders from Seattle and Vancouver will be brought here to compete in the open events. An important clause that will be inserted in the contracts of these riders is that they must ride rain or shine. The reortunity to witness another lengthy hey must ride rain or shine. The re they must ride rain or snine. The re-fusal of Earl Godfrey and Bennett to ride last Monday because of the wet track made it necessary to call off the open events, but the officials will take steps to see that this is not repeated at the second meet. There will be fully 20 events on the

programme, and the list includes race programme, and the list includes races for the stripped light cars. There will also be a special matched race between the high-powered Stutz and the pick of the motorcycle riders at the track. The former showed too much speed for the light cars en the holiday, but the promoters are of the opinion that it will be forced to its utmost to defeat the best of the exablic experts. The will be forced to its utmost to deteat the best of the gas-bike experts. The track will be oiled all this week, and the riders will be able to practise to-morrow and every evening next week in preparation for the races. A heavy roller is now being utilized to take the bumps out of the circuit, and this will also help to smooth out the ruis that also help to smooth out the ruts that

also help to smooth out the ruis that wear in the dirt tracks.

While there will be special races for the novices, which will be run off in heats, it will be necessary for all riders entering the feature events to make good in the elimination trials or they will not be allowed to enter the big races. This will do away with the possibility of two or three medicere riders spelling the time and racing of the chief events on the programme.

There is a possibility that C. O. Raynor will ride in the professional events, in which case there will be even great-

Victoria Loses in Ninth Inning; Seattle Cannot Catch the Beavers

Vancouver, Sept. 11.—Bob Brown's second pennant in two years has just about been nailed to the Beavers' flag pole. The Terminals yesterday nosed out the Bees 2 to 1 in an old-time battling finish, scoring the winning counter thing finish, scoring the winning counter in the ninth, after Hanson and Harstad, a pair of Swedes, had pulled along at an even gait for eight innings of peppery baseball. The visitors put up a game fight, but they could do nothing with the benders of the youthful Harstad in the pinches. Hanson, on the other hand, was hit rather freely, fair support enabling him to pull through until the ninth, when the Beavers jammed their second run across the rubber. cross the rubber.

The win practically gives the chamcionship to Vancouver beaten at Spokane, the Beavers gain-ing a full game with only three more days of baseball for this year.

The Short-Memoried Public The Long-Headed Advertiser

HY, do you suppose, does a certain successful manufacturer of a summer beverage continue to advertise that beverage in the wintertime?

He is, simply, a thorough believer in the old adage: "Out-of-sight, out-of-mind."

He does not advertise in the winter, with any expectation of selling much of his product while the weather is cold-but with a view of keeping up his sales the following summer. Pronounced as is the impression his advertising creates in the summer he does not believe in expecting that impression to "carry over" the winter months.

The public has not a long memory. The manufacturers who want lasting patronage for their prodct must indeed "keep everlastingly at it." How surprising that some of them lose sight of this fact.

Experience has shown this maker of beverages that it is unwise to discontinue his advertising in the win-

It would be just as unwise for the makers of shoes or hats, or stoves, or chocolates, or automobiles, to cease advertising in the summer

Yes, the "out-of-sight, out-of-mind" theory is sound, as applied to advertising. It is but human of us to favor the goods which are kept continually before us through advertising, be the weather cold or hot

The principal port is Tsing-Tau, which is strongly fortified and has a garrison of 3,125, composed of German marines and Chinese soldiers. Second in importance from a military standpoint are the islands of Savali and Upolu, of the Samoan group. Other German colonies in the Pacific are the Caroline group, the Pelew, the Marianne, the Solomon and the Marshall Islands. All of these are of commercial value. German Togoland, on the west coast of Africa, of an area of 33,700 square miles, already has been seized by the

A prominent churchman in the United States, who is very fond of a joke, tells an amusing incident in connection with an ordination ceremony in Virginia. As is usual on such occasions, the bishop wore a red university hood at the back of his surplice. Among the most interested of the congregation was an old darky. After the ceremony he was asked by someone how he liked the proceedings. "I was clean taken by de preachin" of de bishop," answered the negro. "An' at the same time I felt kinder sorry for him. He ain't got no wimmin to look after him, has he?". "Why, what makes you think that, Sam?" "I noticed, sah, whenever de bishop turned round dat de back of his coat was bursted, an' de red underof his coat was bursted, an' de red unde shirt was a-showin' througa."

pretty girls charmingly gowned, and appearing in a countless number of changes.

There is dancing and to spare in "The Candy Shop," with Rock and Fulton, whose terpsichorean ability have won them fame, in the lead. But while the show may be said to revolve around them in a sense, and they properly take the heaviest part of it, other members of the company have their opportunities and their own chance to make the most of these. Miss Morrison, Miss White, Deshon, Baidwin, Gerrard, Rasland, Miss Pollard and the other "allmony sister," Miss Bessie Baker, each have their share in making the conduct of the shop the success it is and deserve to be. Mrs. Rock, in her small part, and Miss Ida Gold, in her larger one, give able assistance.

Amazing Monarch! who at various times, Posing as Europe's self-appointed saviour, Afforded copy for our ribald rhymes By your behavior;

We nursed no malice; nay, we thanked you much Because your head-piece swollen like a tumor, Lent to a dullish world the needed touch Of saving humor.

What with your wardrobes stuffed with warrior gear, Your gander-step parades, your prancing Prussians, Your menaces that shocked the defended sphere With rude concussions;

Your fist that turned the pinkest rivals pale Alike with sceptre, chisel, pen or palette, And could at any moment, gloved in mail, Smite like a mallet;

Master of all the Arts, and, what was more, Lord of the limelight blaze that let us know it-You seemed a gift designed on purpose for The flippant poet.

Time passed and yet to these old jests an end; Into our open hearts you found admission, Ate of our bread and pledged us like a friend Above suspicion.

You shared our griefs with seeing sentle eyes; You moved among us cousinly entreated. Still hiding, under that fair outward guise, A heart that cheated.

And now the mask is down, and forth you stand Known for a King whose word is no great matter, A traitor proved, for every honest hand To strike and shatter.

This was the "Day" foretold by yours and you In whispers here, and there with beery clamors You and your rat-hole spies and blustering crew Of loud Potsdamers.

FIFTH TROOP SCOUTS HOSTS AT SOCIAL

Prize Presentation and Inspection of Lads at St. John's Schoolroom

St. John's schoolroom was the scene of a very interesting gathering on Wednesday evening when the Fifth Troop of Victoria Boy Scouts opened its second season's work. The lads paraded at the schoolroom at 7 o'clock, nd at 8 o'clock a very enjoyable programme was cemmenced, the boys, who were present in uniform, exciting much admiration by their trim and soldierlike appearance

The decorations of the schoolroom were carried out in the scout colors, green and yellow, and quantities of plants and ferns lent by Mrs. Rust contributed greatly to the nice appearance of the hall.

Mayor Stewart, who was the guest of honor, delivered a short address of encouragement and praise to the boys before distributing the prizes and inspecting the troop. The European war, he pointed out, had already called forth instances of the resourcefulness and helpfulness of the Boy Scouts organization. The training was admirable face of the pet canary. 1885. 6 F2's.

Eleanor was the little daughter of a musician whose first oratorio was to be given at a great musical festival in the city. Eleanor had never been away from home, and her mother thought she would regard the journey to the great city as, a special treat. The oratorio was pronounced a great success. But when Eleanor was being put to bed that night she looked so unhappy that her mother asked her if she had not had a good time. Eleanor looked up tearfully, "Did you bring me all the way to the city, just to hear that thing that's been coming up through the hot-air register for the last six months?"

Eyewitnesses testified that Cartell was guilty, and the jury lost no time in bringing in a verdict to the same effect. The governor then issued a death warrant, and within two days from the beginning of the trial the stark body of the murderer was swinging from a rope attached to a tree which stood near the market square. The corpse was left hanging several hours, as a warning to others, for the settlers brought over by Cornwallis were a quarrelsome lot, and had scant respect for law and order. For the most part, and with some For the most part, and with some Halifax were just such daring and adventurous men as would naturally be attracted to a new colony which would have to fight for its existence.

A couple of visitors from a rural district were in the Strangers' Gallery in the House of Commons trying to recognize their member on the floor. "I can't distinguish him." said one, after a hopeless visual observation. "O course not," was the honest reply. "He can't even distinguish himself."

"England Expects Every Man (and Man-ufacturer) Will Do His Duty"

In times of national crises it seems especially appropriate for Canadian manufacturers to declare their policies.

We are, therefore, pleased to announce that:

There will be no increase in the price of Dunlop Rubber Goods unless future advances in the crude rubber market make this imperative to the company.

As in the past, we will continue to select Made-in-Canada Goods in all our purchases of products obtainable in Canada.

We also endorse the sentiments of other Canadian companies who have, in effect, so splendidly said to the people of this country:

"The question of whether prices ascend or descend, whether you are to be employed or unemployed is in nearly every case in your own hands."

If it is incumbent on the manufacturers of the Dominion to be courageous and generous as they never were before, it is tremendously more incumbent on the people of the Dominion to have a passion for purchasing goods made in Canada that they never had

Millions of dollars' worth of tires and general rubber-made goods are imported into Canada each year, and this is true of many other lines of manufacture. That money can be kept in Canada from now on if you say the word. As ably pointed out by Canadian newspapers, we cannot avoid the issue. We Canadians must seize forget about it. Think of this before you make a single purchase.

The Dunlop line of rubber-made goods is as complete in its variety as it is unexcelled in its quality. There is the famous Traction Tread Auto, Motorcycle, and Bicycle Tires, which have a Continental reputation for efficiency; Dunlop Motor Truck Tires, which lead in every big city in Canada; Pneumatic Carriage and Bike Wagon Tires, which have been used and endorsed for nearly two

decades; Belting, Packing, and Hose for every known purpose, which are to be found giving continuous and satisfactory service in railroads, mines, and in general manufacturing corporations; Horse Shoe Pads, where the crying need is to meet the demand; "Peerless" Rubber Heels, which are now sweeping everything before them from coast to coast; Rubber Mats and Matting, which have reached the highest standard of excellence; and Dunlop General Rubber Specialties. Lie Maliania I rei

No other rubber goods manufacturing plant in the world can offer you advantages either in efficiency of equipment or skill of artisans which is not to be found in equal measure in the Dunlop organization, in think & I ami.

In fact, Canadians have for so long exacted so many merits in the rubber products they buy that the very existence and continued growth of our company is proof that man for man, plant for plant, no one in the rubber business in this country need take a back seat to the world's best. AN

On all sides people are asking: "What can I do for the Mother Country? How can I give vent to my patriotism?"

Here is our enggestion:

RESOLVE that, no matter if it costs you a little more at first, you are once and forever going to say "Good-bye" to the old illusion that only good things come from other countries. THAT you will eat Canadian foodstuffs, wear Canadian clothing, read Canadian newspapers and magazines, ride in Canadian automobiles, use Canadian materials and manufactures wherever and whenever you can.

In short, when there is a world-wide desire to capture something. That you will contribute your quota towards helping the Canadian manufacturer capture the entire Canadian market. That is the surest way, the speediest way to bring back normal times. It is the only certain way to make employment sure for every man.

Sept. 11, 1883, was the victor in one of the most sensational legal battles over a title ever tried in the English courts. He is the son of the sixth earl and his third wife. His father was a nephew of the fifth Earl Poulett, but, as the latter had three sons, there seemed no possibility that the nephew would inherit the title and the large estate. By an odd fatality, the three sons of the fifth earl died one after another. The grief-stricken father soon followed them to the grave, and William Henry Poulett became an earl, the possessor of great wealth, and the owner of the ancestral estate in Somerestshire. The sixth earl died in 1899, and his son, still in his 'teens, became the seventh in a line of earls dating from '706.

Y. M. C. A. AT VALCARTIER

Local Association Receives Informa tion as to Work of National Council Among Troops.

Information has been received b the local Y. M. C. A. as to the work of the National Y. M. C. A. Council in connection with the Canadian troops mobilized for service in Europe. tween twenty-five and thirty Associ-ation men, it is reported, are assem-bled at Valcartier, this number including not only employed officers but some volunteers. Two Toronto churches have released their pastors for service under the direction of the Y. M. C. A. at the camp, their salaries being cared for by the churches. The men from the local associations are also being cared for, in respect to salary, by their local associations. The arrangement with the militia deon timent is that it provide transporta-tion, rations, etc. Three tents are now in operation, and the council is con-

another part of the camp.

On the average ten thousand letter-heads are distributed daily, and on a single day \$500 worth of postage was sold, while the canteen receipts amount to about \$1,000 daily. Evening meetings in the tents are largely attended.
The Toronto press is preparing a 25. 000 edition of a hymn and song book

sidering duplicating the equipment in

which is to be distributed.

All members and friends of the Victoria Y. M. C. A. are cordially invited to join in a prayer service tonight at 7.30. Charter members and business men members of long stand-ing are especially urged to be present. Ald. George Bell, president of the as-sociation, will be in the chair and will

address the meeting briefly on the needs of the association. On Sunday afternoon Rev. George Hall, Canadian representative of the British and Foreign Sailors' Society of England, will address a mass meeting of men and women in the Y. M. C. A. gymnasium. The proceedings will commence at 4.30 and during the meeting special patriotic solos will be ren-dered.

RETIREMENT IS ALONG GREATER PART OF LINE

Cannon Roar Brings Down Torrents of Rain but Battle Continues

Paris, Sept. 11, via London, 8.05 p.m.— It is officially announced that the Ger-man centre as well as their right wing is retreating before the ailled armies

of Great Britain and France.

According to official announcement the fighting to the east of Paris is apparently developing into abandonment of their advanced positions by the German control of the con mans, announced to be retiring along

the greater part of the line.

The French and British evidently made a strong successful offensive movement, causing the German hosts to fall back at some points as much as 45 miles.

The most furious enslaughts, some-times from the French and sometimes from the German side, occurred about of an extensive line in the

shape or form, the two alies would at one make common cause.

The same authorities, he said, told him that the aeroplane which is reported to have flown over Nuremberg and dropped bombs at the very beginning of the war was Russian, not French; that no bombs were dropped and that it is not certain whether it was a military machine or merely a private craft.

"Officials of the German foreign office and persons high in military circles," said Mr. Rudolf, "have told me that already the Germans have realized that they made an enormous mistake in entering Belgium. But at the time, of course, no one expected the Belgians to resist or the British to support them. wanted stability in this matter, and that the city would never agree to saanich consumers obtaining water at a lower rate than Victoria citizens, who were paying for Sooke waterworks.

The proposal to take over the existing local improvement districts came in for explanation. As the new scheme will demand four-inch pipe at all points, those local improvement schemes have those local improvement schem Wifey-"To-day's paper tells of a woman who suffered two weeks from the effects of a mosquito-bite." Hubby"That's nothing. I know a man who has suffered for years from the effects of a hope of the ownsuffered for years from the effects of a henpeck."

o lose the amount so far paid or schemes. ches, as they felt it was unjust to uch schemes. Logal improvement ystems having pipes over four inche will be taken over under the new aterworks scheme.

Reeve McGregor also dealt with the question of fire protection, the subject being timely because of the two dis-astrous fires in the ward recently.

Councillor Sherwood, representative of the war, said two reasons had largely directed the council toward favoring the city terms for water. First, the ime must inevitably come when so parts of the district would be absorbed in the city, and the council did not wish to complicate the situation, desiring to avoid what had occurred in Victoria West. Secondly, there was a legal difficulty which had been pointed out, as the Esquimalt company had no fran the Esquimat company had no tran-chise to supply water in Saanich, al-though the municipal council could buy water where it wished. In connection with the proposed issue of debentures, he said that the denominations would be as low as \$199, so that the wealthler residents could acquire Samich bonds. residents could acquire Saanich bonds as an investment

Councillor Adams made a very clear exposition of the waterworks question and gave some statistical information is to the financial results expected. He as to the financial results expected. He anticipated 2,000 services. At the same rate as that in Oak Bay, these should give a revenue of \$32,000. There would be an expenditure of \$8,640 for the water and \$3,600 for distribution, which

details of the proposal for the relief of unemployed, an outline of which has already appeared in the Times. He hoped to get the ladies of the district to form a chapter of the Daughters of the Empire to administer relief in the district both for the general unemployed and for the dependents of men at the front who would come under the

"George," said the wife to her g unappreciative husband, "how do you like my new hat?" "Well, my dear," said George with great candor, "to tell you the truth—" "Stop there, George dear. If you're going to talk that way about it I don't want to know."
