Montreal Welcomes Overseas Delegates To Press Conference

Luncheon on Mount Royal; Greetings of City Extended By Hon. Charles Marcl; Appreciation of Canadians' Attitude Expressed by Sir H. Brittain.

Montreal, August 3.—(Canadian Press)—Keen appreciation of Canada's welcome to the overseas newspapermen who are attending the Imperial Press Conference was voiced by Sir Harry Brittain, K.B.E., chairman of the Empire Press Union, at a civic luncheon to-day on Mount Royal, when Hon. Charles Marcl, M.P., extended on behalf of the City of Montreal an eloquent welcome and tribute of friendship for the Conference party.

"That welcome," Sir Harry Brittain said, "has increased in crescendo and your gracious address to-day greets a band of kinsmen whose wholehearted devotion to your mighty land is beyond my poor powers to express."

Sir Harry spoke as one well acquainted with Canada after his numerous visits here. He dealt with the growth of the Imperial Press Conference since his conception in his own mind of the scheme which bore fruit in 1919 in the first Press Conference in London.

He praised Canada's part in the war, and speaking in French, expressed his conviction that the French and English Canadians would progress hand in hand in national development.

Hon. Charles Marcl spoke of the standing of Montreal and the Province of Quebec in the journalistic and commercial world. He extended to the conference the best wishes of Montrealers for the success of the deliberations at the sessions in Ottawa shortly.

G. A. Fairfax spoke briefly on behalf of the Overseas Dominion delegates, and Robert Donald spoke on behalf of the publishers of the British Isles.

ALASKA OIL LANDS ARE INVESTIGATED

U. S. Pacific Fleet May Draw Large Part of Supply From There

Washington, Aug. 3.—Navy and geological officers are investigating recently discovered oil supplies in Alaska. Mr. Daniels said, with good reason, upon his return to Washington after a tour of Alaska and the West. It is hoped, he said, that the Alaskan oil lands eventually will yield a large part of the oil supply necessary for the Pacific fleet of the United States.

MUCH RUM-RUNNING ON DETROIT RIVER

At Least 1,000 Cases Reported Taken Across From Canada Nightly

Toronto, Aug. 3.—(Canadian Press)—One hundred boats of various types are engaged in the rum-running traffic across the Detroit River between Canadian and United States territory at Windsor, Ontario, and Detroit, Michigan. At least 1,000 cases of Canadian liquor are taken across the river to the United States every night, according to Isidore Polosker, special United States District Attorney at Detroit, as expressed in an interview with a correspondent of The Toronto Star who is at the border writing up the situation there.

JAPANESE INQUIRY HELD IN SEATTLE

Seattle, Aug. 3.—Hearings on the Japanese immigration question were resumed here to-day by Chairman Albert Johnson, Washington, and Representative John B. Baker, of California, acting as a sub-committee of the House of Representatives Committee on Immigration and Naturalization, with a number of Seattle labor leaders called as the first witnesses. The Seattle hearings, it was expected, would be concluded this afternoon.

SIR GILBERT PARKER WILL SPEAK HERE

Sir Gilbert Parker, Bart., the great Canadian author and former member of the British House of Commons, will be the chief speaker at the Canadian Club dinner on Saturday, August 28, when the Club will entertain the visiting delegates to the Imperial Press Conference.

MAJ.-GEN. SEELY TO VISIT THIS COUNTRY

Montreal, Aug. 3.—It was learned here to-day from an authoritative source that Major-General the Right Hon. J. B. Seely will be a visitor to Canada some time in September. General Seely was British Secretary of State for War from 1912 to 1914 and commanded the Canadian cavalry brigade in Belgium and France from 1915 to 1918. He is now the vice-president of the British Air Council.

Military Courts Are to Decide Cases in Ireland

London, August 3.—Duties of crown tribunals in Ireland will be taken over by courts-martial, even to the extent of settling civil disputes, infliction of fines and the binding of accused persons over to keep the peace, under the terms of the new Irish bill, which was made public this morning.

Military courts also will take over the duties of coroners; and will have the power to decide cases without juries. In trials for crimes punishable by death, however, one person, who need not be an officer, shall sit as one of the judges. He must be appointed by the viceroys from a list approved by the Lord Chancellor of Ireland or the Lord Chief Justice of England.

RAILWAY RATES CASE AUGUST 10

Commission to Hear Companies' Application Then; May Be Adjournment

Ottawa, Aug. 3.—(Canadian Press)—Although there has been talk of postponement of the opening hearing before the Railway Board of the application of the Canadian railways for a thirty per cent. increase in rates, the expectation at the Railway Commission offices to-day is that the case will be proceeded with on Tuesday, August 10. It is thought that the hearing will proceed at least until the railways have put in their side of the case, when an adjournment may be taken if the manufacturers and other bodies opposing the application are not ready to go on.

DECLARES MANX DISTURBING FORCE

Attorney-General of Victoria Condemns His Course in Australia

Winnipeg, Aug. 3.—Condemnation of Archbishop Mannix as a fomentor of anti-British feeling in the life of Australia and amazement at the high price of food in Canada, which almost staggered him in comparison with the cost of living under the Southern Cross, were the outstanding comments in a review of the political and business situation in the Commonwealth given last night by Hon. Arthur Robinson, Attorney-General of Victoria, who is passing through Canada on his way home after transacting business in Britain and the United States.

WOMAN HANGED; HUSBAND ARRESTED

Bremerton, Wash., Aug. 3.—Dan Radovich, a farmer, is held by the authorities following the discovery of the body of his wife hanging by a rope from the staircase of the Radovich home at Silverdale yesterday. Outward appearance would indicate suicide, but circumstances surrounding the case give evidence of murder, say the police.

MONTREAL TRAMWAYS WAGE BOARD'S AWARD

Ottawa, Aug. 3.—(Canadian Press)—The award of the Board of Conciliation that inquired into the dispute between the Montreal Tramways Company and its employees has not yet been received by the Minister of Labor, but it is expected at any time. It is not likely that it will be received in time to be made public before tomorrow morning.

Japan Means to Occupy Saghalien as Planned

Tokio, August 2.—(Associated Press)—There is no indication that Japan will refrain from carrying out the military arrangements she has made in dealing with the problems arising out of conditions in Siberia. The Government some time ago outlined to the world powers its policy regarding Siberia and in its forthcoming note to Washington will amplify statements it has sent to European capitals. This note, it is understood here, will point out the purely temporary character of the occupation by Japanese troops of points in the Saghalien district.

PLANE WRECKED AT PRINCE GEORGE

Edmonton, Aug. 3.—A special dispatch to The Edmonton Journal from Prince George says: "Captain Street, in command of the New York-Alaska aeroplane expedition, arrived here from Jasper at 4:45 Monday afternoon to rejoin the rest of his squadron, who had preceded him. Captain Street arrived during a terrific storm and heavy rain. He overshot the landing field, wrecking his machine. "It is not certain whether he can repair the aeroplane. "All members of the party are well at Prince George."

CROP OUTLOOK IN CANADA DECLARED TO BE EXCELLENT

Ottawa, Aug. 3.—(Canadian Press)—With the latest period already past and cutting started in several prairie areas, the crop situation from end to end of Canada is to-day in excellent condition, according to Dr. J. H. Grisdale, Deputy Minister of Agriculture, who is just back from the prairies. There has been practically an absence of rust or grasshopper damage. The crop will be well above the average, says Dr. Grisdale's comment.

NEW TERMS WITH THE WEST INDIES

Ottawa, Aug. 3.—(Canadian Press)—The terms of the trade agreement made between Canada and the West Indies at the June conference in Ottawa will be made public tomorrow. By arrangement between the various Governments concerned it was agreed that the terms of the agreement should not be published till August 4. The delay was made for technical reasons, the agreement being first to submit the agreement to their Governments.

BARONIT VISITED BOWSER ON SUNDAY

Barry Often Moved in Good Social Circles in Vancouver

More Details Are Out of Fugitive's Double Life

Parksville, Aug. 3.—Bowser, a little station about ten miles south of Union Bay, has for the last twenty-four hours been the centre of interest for the squads of armed police and detectives from the Provincial and Victoria city forces, who are looking for James Barry, daylight jewelry burglar, who has been fleeing for eleven days through the wilds of the Island since he boldly tried to slay S. A. Stoddart in his store on a busy street here.

BRITISH COLUMN IN MESOPOTAMIA HAD A REVERSE

London, Aug. 3.—Further troubles for the British in Mesopotamia were reported by the War Office to-day. A strong British column on the lower Euphrates was attacked and roughly handled by tribesmen, it was announced, but succeeded in cutting its way back to Hillah, near the scene of another Babylon, after sustaining 300 casualties and the loss of one gun and twelve machine guns.

CHURCHILL ARTICLE CAUSED HECKLING

Lloyd George Says Ministers May Write Discussion of Bolshevik

London, Aug. 3.—(Canadian Associated Press)—An article by Rt. Hon. Winston Churchill in a Northcliffe evening paper wherein he urged that peace with the Bolsheviks was only another form of war, provided a lively interlude in the House of Commons, but was met by a hail of heckling of the Prime Minister. Government supporters, however, showed a tendency to draw a veil over the business, only one Coalitionist supporting the motion for adjournment. Mr. Lloyd George declared that the article did not bear the interpretation placed upon it.

REDS NOW SET UP SOVIET IN POLAND

Bolshevik Form Soviet in Parts of Poland Occupied by Them

London, Aug. 3.—A Provisional Soviet has been formed in the parts of Poland that have been occupied by Soviet troops, according to a wireless message received here from Moscow to-day.

MEIGHEN MAY INVITE FRENCH-CANADIAN

May Endeavor to Have French-Speaking Member of Cabinet

Ottawa, Aug. 3.—(Canadian Press)—The appeal made by the Prime Minister in his address at Portage Prairie yesterday has aroused considerable comment in political circles. In particular, interest is attached to his plea for a better understanding between English-Canadians and French-Canadians. Does the plea, it is asked, presage the likelihood of attempts to secure French-speaking representation in the Cabinet? At the present time there is no French-Canadian member of the House who has a seat in the Cabinet.

SCIENTISTS MEET IN HONOLULU

Canada Represented at Pacific Congress; Research to Be Undertaken

Honolulu, Aug. 3.—(Associated Press)—Nearly 100 scientists, whose fields of endeavor range from Canada to Australia and from Washington, D. C., to the Philippines, gathered here Monday in what is declared to be the most representative congress of its kind ever held. It will close August 20.

LAD DROWNED

Vancouver, Aug. 3.—Arthur Hay, aged twelve years, was drowned yesterday afternoon at Jericho Beach when he dived from a raft into water beyond his depth.

New Yacht Cup Rules for Canada-U.S. Race Urged

New York, August 3.—(Canadian Press)—New York newspapers devote considerable editorial space to the reported challenge of Alexander C. Ross of Montreal for the America's Cup. "There are able yacht designers in Canada and a fine amateur seamanship," says The Tribune, "and the challenge of Mr. Ross offers promise of a great battle for the America's Cup. There would be a certainty of wide popular interest and a keen spirit of rivalry. But we hope that if this challenge is accepted there will be no repetition of the Resolute-Shamrock type of contest."

But we hope that if this challenge is accepted there will be no repetition of the Resolute-Shamrock type of contest."

Bolshevik Delay Negotiations and Continue Advance

Cause Polish Delegates to Return to Warsaw to Get Authority to Take Up Peace Negotiations As Well As Armistice; Meanwhile Red Troops Move Ahead.

Paris, August 3.—Advices to-day indicate the situation in Poland from the Polish-Allied standpoint is approaching a crisis.

The Polish delegation which went to Baranovitchi to negotiate an armistice not only failed to obtain terms from the Russians but was sent back to Warsaw by the Soviet authorities, who demanded that the emissaries obtain a mandate to take up peace negotiations. This will delay even the beginning of the armistice negotiations until to-morrow at the earliest.

Meanwhile the resistance of the Polish army, which apparently had been stiffening, has again relaxed under the tremendous pressure of the Bolshevik armies. Warsaw, from which the Russians are now only sixty miles distant, seems critically menaced, if not doomed to capture.

Markets Said to Need Careful Watching Because of Uncertainty

Chicago, Aug. 3.—Wheat made a steep advance in price to-day as a result of increased speculative buying stimulated by European war talk. In a little more than a single hour an extreme advance of 15 cents a bushel had taken place, with delivery touching \$2.30 as against \$2.15 at yesterday's finish.

TO DISCUSS WAGES

Toronto, Aug. 3.—Toronto commercial operators of the Canadian Pacific Railway Telegraph Company will hold a meeting to-night to decide what action will be taken in regard to the already announced wage increases awarded by the board of conciliation.

JAPANESE RAILWAY CONTRACTS UP TO \$25,000,000 TOTAL

San Francisco, Aug. 3.—Contracts for \$25,000,000 worth of railway supplies and electrical mining machinery are to be let by the Japanese Government in connection with the work of standardizing the track gauge of the Imperial Government railroad between Kobe and Tokyo, Joseph Starr, a representative of the firm, said on his arrival here to-day. Mr. Starr declared he had come to the United States to let contracts for some of the material.

NEW RATES ADD TO GRAIN PRICES

Chicago, Aug. 3.—Wheat made a steep advance in price to-day as a result of increased speculative buying stimulated by European war talk. In a little more than a single hour an extreme advance of 15 cents a bushel had taken place, with delivery touching \$2.30 as against \$2.15 at yesterday's finish.

**HAD TO GET RELIEF QUICK, SAYS RANCHER**

He Couldn't Have Kept Going Much Longer If It Had Not Been For Tanlac, Declares Henry Robertson.

"If I hadn't got hold of Tanlac when I did I could not have stayed on the job," said Henry G. Robertson, a well-known ranchman, living at Fort Kells, B.C., in a recent statement.

About six months ago my stomach got into a mighty bad fix and I went down hill fast. My appetite was so poor I just had to force down everything I ate and the little that I did eat always hurt me. Anything like meat especially caused me to suffer untold agonies, but always after eating I bloated up with gas till I could hardly get my breath, and sometimes felt like I was going to smother. Very often I became so nauseated I could scarcely retain a thing. Nearly every day my head ached fit to burst, and frequently I got so dizzy I had to grab hold of something to keep from falling. I was badly constipated too, and constantly taking medicine, for that, as well as for my other troubles.

My nerves were so unstrung the least little thing would upset me. At night I often rolled and tossed for hours, too tired out to move. My work was getting the best of me, for the least exertion would tire me out, and I saw that I was getting weaker every day.

"Well, it had got to where something had to be done quick, or I wouldn't be able to keep working. I had heard a lot about Tanlac and decided to try it. Well, sir, it's the truth, I haven't had a headache since I finished the first bottle. I have taken four bottles of Tanlac now, and the way it has built me up is remarkable. My appetite is so good mealtime never comes quick enough for me now, and I can eat just anything and everything and never have a particle of trouble afterwards. I sleep like a rock at night and get up in the morning feeling fresh and vigorous, ready for a big breakfast and a big day's work on the ranch. If I ever felt better in my life than I do right this minute I don't know when it was, and the best of it is, it is the regular thing with me to feel that way now. Tanlac is the medicine for me every time."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

**DEBATED BLOCKADE AND PUBLIC HEALTH**

Council of League of Nations Met Yesterday in Spain

San Sebastian, Aug. 2.—The Council of the League of Nations divided its attention to-day between public health and public order, taking up plans for a permanent international hygienic organization and ways and means for using the economic blockade with the promptest effect in case of violation of the covenant.

Signor Tittoni, of Italy, reviewed the considerations that had led to the view that whereas the League of Nations could only recommend the use of military and naval forces to suppress aggression, the economic arm was one that members had pledged themselves to use against any offender.

He pointed out that a central coordinating authority was necessary to make use of the economic arm promptly and effectively and insure mutual support among the members of the League.

Health Bureau.

Dr. Gaston Da Cunha, Brazilian representative, presented his report on the organization of the International Hygienic Bureau. It is to be composed of a general committee of delegates, all members of the League, an executive committee comprising members of the League Council and four members elected by the general committee.

A representative of the International Red Cross and a representative chosen by the International Labor Bureau also will be members. Headquarters of the bureau will be at the seat of the League of Nations, an organization ready to act quickly in cases of epidemics likely to spread from one country to another and to protect the health of workers. It is expected to co-operate closely with the League of Red Cross Societies.

International Court.

Leon Bourgeois presented a report of the advisory committee of the jurists' conference which met recently at The Hague, on the organization of a permanent international court of justice, which recommends that the court be constituted by the election of judges by the concurrent vote of the Council and Assembly of the League of Nations, their choice being limited to a list proposed by the permanent court of arbitration, with a view to assuring election of the best men.

The first election will choose eleven judges and four deputy judges, leaving open the question of increasing the number if it eventually appears necessary.

King Alfonso gave a dinner to-night to the members of the Council at the Miramar Palace.

**NON-UNION MEN JOIN MINERS' UNION**

Sydney, N.S., Aug. 3.—A victory for the United Mine Workers is announced by the union officials, who state that sixteen non-union miners have signed the membership roll thus averting a general tie-up of No. 2 mine, the biggest coal mine in Canada.

The United Mine Workers had given the men, who were recently imported from the Old Country, till six o'clock yesterday to make up their minds to join. The union men threatened to come to the surface and leave the mine idle until Thursday.

This was the second time trouble of the kind has occurred within the past few days. The first was at Reserve, where a number of non-union men joined the union in the face of a threat to tie up No. 2 and No. 10 mines.

**JAPANESE COMMENTS ON AMERICAN NOTE**

Tokio, Aug. 3.—The note from the United States dealing with Japan's occupation of the northern part of the island of Saghalien appears to have made an unpleasant impression generally on the Japanese, but the hope is expressed that the Government will be able to convince the United States the occupation is only of a temporary character.

The newspapers in their comment are adopting, in the main, three lines of opinion. The first, taken by the Kokumunjin Shimbun, is that the attitude of the United States toward Japan is always in the nature of a challenge.

The second, voiced by the Yomiuri Shimbun, is that the Japanese militarists are to blame for what it declares is the misconception abroad about Japan.

Third, expressed by the conservative Jiji Shimbun, is that the occupation of Russian territory by Japan constituted a doubtful policy, liable to cause difficulty both at home and abroad.

**C.P.R. TRAIN WAS HELD UP BY FRUGGS**

Three Bandits Robbed Passengers Near Alberta-B.C. Boundary; Hunted

Calgary, Aug. 3.—Three men, who are described as foreigners, held up at Sentinel, near the Alberta-British Columbia boundary, the conductor and passengers of the C. P. R. train from Lethbridge through the Crow's Nest Pass shortly before 6 o'clock last evening. They suddenly appeared with guns and passed through the passenger cars, leisurely taking all the money they could abstract from passengers. There were about 100 passengers on the train and it is estimated the robbers got between \$50 and \$600 in cash. They took all the conductor had.

Known to Police.

The three men were passengers on the train from Lethbridge and are known to the police. They are Calgary men, and were amateurs. The entire holdup was conducted while the train was running. The engineer, Alexander, knew nothing of the affair until the train reached Sentinel.

The Mounted Police of all the towns between Lethbridge and Fernie immediately got on the trail of the robbers, and the people of Coleman and Blairmore also joined in the chase, the capture of the bandits being expected within a few hours.

Shot Was Fired.

The train was in charge of Conductor Sam Jones, of Lethbridge, who was the first man accosted by the robbers. The three desperadoes had boarded the train at Lethbridge, and were traveling as bona fide passengers. One of them got up and ordered an automatic revolver and ordered the conductor to surrender.

The conductor, not taking the man seriously, told him to get down, and walked toward the centre of the car and reached up to pull the air signal. The man then fired at the conductor, but the bullet went wide and lodged in the corner of the smoker.

The other two bandits then got up, pulling revolvers, one entering the baggage car and the other carrying a bag out of his car into the smoker, while the other two bandits ordered all passengers in the smoker to go through into the first-class coach at the rear of the train. One bandit then took a position at the front door of the coach and another took the conductor, trainmen and baggage men on the rear platform, while the third went through the coach. Only male passengers were searched and relieved of whatever cash they had in their pockets. The women and children were not molested.

Bought Big Sum.

It was evident by the movements of the conductor that the bandits were looking for some person carrying a large amount of money. Two of the passengers were searched even through their undergarments.

When the train stopped at Sentinel the three bandits alighted and, covering the conductor with their revolvers, ordered him to start the train and then made off.

It is supposed that the three bandits are the same trio which held up the store at the Crow's Nest Pass Lumber Company's camp at Skookumchuck, forty miles north of Cranbrook, on the Kootenay River, Friday, two days before this latest robbery.

Only \$600.

Fernie, B. C., Aug. 3.—Passengers who reached here after being held up and robbed by three armed men on train number 62 late yesterday afternoon estimated that only \$600 in cash and two watches were secured by the robbers.

F. E. Harrison, Calgary, was relieved of all his cash, but a valuable watch presented to him while he was Mayor of Saskatoon was left in his possession.

**BRITAIN SENDS MINISTER TO TURKEY**

Constantinople, Aug. 3.—Sir Grenfell Max-Miller, newly-appointed British Minister to Turkey, is expected here shortly. Because of the lessened importance of Turkey, with smaller area and population, and because of her being placed under international control, Great Britain is sending a Minister, not an Ambassador.

There is much speculation as to whom the United States will send, and whether he will hold ambassadorial rank. Not having declared war on Turkey, the United States is free to resume diplomatic relations when the peace treaty is ratified.

There are still about 400 American-born relief workers in Armenia, Anatolia and Syria, whose only dependence is on the United States. They were found guilty last night by a jury of conspiracy to overthrow the United States Government.

The defendants were given various sentences, most of them getting from one to five years in the penitentiary, a few being given fines in addition, and several were sentenced to one year in jail.

Lloyd got the heaviest sentence, one to five years in the penitentiary and a fine of \$3,000.

Max Bedacht of San Francisco, a reporter, was given one to five years in prison and fined \$1,000.

Forty years of success stand behind Dr. Hamilton's Pills, which are prepared in the laboratories of the famous Catarrhose Company, and can be depended upon for relief, swift, and certain cure for Backache, Kidney, Liver, Stomach, or Bladder Troubles. Sold everywhere in 25c boxes.

**BRITAIN SENDS MINISTER TO TURKEY**

Constantinople, Aug. 3.—Sir Grenfell Max-Miller, newly-appointed British Minister to Turkey, is expected here shortly. Because of the lessened importance of Turkey, with smaller area and population, and because of her being placed under international control, Great Britain is sending a Minister, not an Ambassador.

There is much speculation as to whom the United States will send, and whether he will hold ambassadorial rank. Not having declared war on Turkey, the United States is free to resume diplomatic relations when the peace treaty is ratified.

There are still about 400 American-born relief workers in Armenia, Anatolia and Syria, whose only dependence is on the United States. They were found guilty last night by a jury of conspiracy to overthrow the United States Government.

The defendants were given various sentences, most of them getting from one to five years in the penitentiary, a few being given fines in addition, and several were sentenced to one year in jail.

Lloyd got the heaviest sentence, one to five years in the penitentiary and a fine of \$3,000.

Max Bedacht of San Francisco, a reporter, was given one to five years in prison and fined \$1,000.

The Great French Tonic "VITAL" Tablets

Makes Men and Women Strong. Go to your Druggist and get a Box and Be Healthy.

Since the introduction of VITAL into Canada the sale has been phenomenal. VITAL is purely a tonic—it builds up the run-down system, creates a new lease of life. Everybody should take a tonic. The only question is what to take. You can rely upon VITAL as one of the greatest, if not the greatest, that man ever prescribed. Every Tablet of this wonderful French Tonic contains life. Your nerves are toned up to their proper tension. The stomach and bowels are made healthy and strong, while the kidneys and liver are cleansed and put in good working order. Headaches, biliousness and all blood impurities are at once removed. The skin becomes clear and healthy. VITAL, in short, will change your whole system, making it pure and healthy. Your druggist will refund your money if it fails. Price 50c a box.

"DANDERINE"

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

FIGHT IN COUNTY LIMERICK, IRELAND

London, Aug. 3.—Details of a fight which assumed the dimensions of a small battle at Bruree, County Limerick, Ireland, yesterday, were given in an account issued by general headquarters, Dublin. Fifty armed men ambushed a patrol of military cyclists, consisting of an officer and five men. One of the men was seriously wounded, but owing to the intensity of the attacking party's fire, his comrades were unable to assist him.

The raiders reached the wounded man, seized his rifle and used his body as a cover. This prevented the soldiers from firing effectively, and the struggle lasted for half an hour before they were able with difficulty to rescue the wounded man and drag him to a cottage. Surrounding the cottage, the raiders poured in a heavy fire. The soldiers' ammunition ran short, and one of them, disguising himself as a civilian, ran for reinforcements, at the arrival of which the raiders fled.

Pursued by the soldiers in the centre of the village, they turned and resumed firing. A schoolboy, who got into the line of fire was killed.

Finally the soldiers got the upper hand. They searched the houses in the town, and discovered a man mortally wounded.

RAIDERS CRIPPLE IRISH LIGHTHOUSES

London, Aug. 3.—A dispatch from Belfast last evening said armed Sinn Féin raiders had held up the occupants of the Mizen lighthouse on Sunday and taken away 1,200 rounds of signalling apparatus and ammunition. Another coast station also was raided and the signalling apparatus taken.

LORD FRENCH'S SECRETARY RESIGNS

London, Aug. 3.—The resignation of Edward Sanderson as private secretary to the Lord Lieutenant of Ireland, was announced yesterday. Sanderson is a son of the late Colonel Sanderson, Ulster Leader, and his influence on the Viceroy was regarded always as being very great. He was frequently denounced by the Nationalist press.

VANCOUVER VOTERS.

Vancouver, Aug. 3.—The registration of voters just compiled includes 9,486 names more than had ever appeared on any Vancouver City list. C. L. Merritt, district registrar, announced yesterday, following the official closing of the campaign. Of those who registered, approximately fifty per cent are women.

The total number of names on the Vancouver city list is 53,490; South Vancouver, 12,762; Richmond (estimated), 9,300; North Vancouver (estimated), 7,900.

GERMAN TROOPS TO EAST PRUSSIAN LINE

Paris, Aug. 3.—Dr. Goepert, head of the German Peace Commission, sent a note to Paul Dutaeta, Secretary of the Peace Conference, announcing that the German Government had instructed its commissioner in the Allenstein district, East Prussia, to send detachments of Reichswehr to the frontier if conditions brought about by the Bolshevik advance necessitated such action. The order was sent, Dr. Goepert stated, under reservations as to the decision of the Allies with regard to it.

NOT TO BE DEPORTED.

New York, Aug. 3.—Deportation proceedings against Ludwig Martens, unregistered Ambassador from Soviet Russia to the United States, were postponed indefinitely yesterday.

TO BE SURE.

Every rose has its thorn, not to mention the dog-gone little bug.—Toledo Blade.

CUSTOMS RECEIPTS AT MONTREAL GROW

Montreal, Aug. 3.—Customs receipts for July at this port showed an advance of nearly \$2,000,000 as compared with the same month last year. The total amount received was \$4,992,215, as against \$3,588,421. The increase is attributed to general commercial activity.

PRINCESSES WERE IN AUTO SMASH

Montreal, Aug. 3.—The Montreal Star publishes the following cable from London: "The Princess Royal and Princess Maud had a narrow escape from death while motoring on Finchley Road, when the car in which they were seated collided with a private motor. The impact was severe, a shower of broken glass filling the royal car. The Princesses were shaken up, but were not hurt, and were able to proceed to their destination."

AEROPLANE CAUSED DEATHS AT TOKIO

Tokio, Aug. 3.—Frank Kilby, pilot, and A. Summan, his mechanic, both British subjects, were killed today in the fall of their plane, which crashed to death three Japanese spectators. The accident occurred during a flying exhibition arranged by the Imperial Aviation Society. Fifty thousand people were present.

RED ARMY RECRUITS IN EAST PRUSSIA

London, Aug. 3.—Recruiting for the Red army is beginning to make itself felt in East Prussia, and membership in a Socialist Party in the condition of admittance, according to an Allenstein (Prussia) dispatch to The News Berliner Zeitung, quoted by The London Times yesterday.

REPORT ON GRAPHITE.

A report on graphite, just published by the Dominion mines branch, contains a wealth of information on the subject of this interesting and important mineral. The report is written by H. S. Spencer, mining engineer of the Department, and treats of the properties, occurrence, distribution, mining and uses of graphite in almost comprehensive manner. Interesting information is given on the present status of the graphite industry in Canada and on the outlook for the industry as it is likely to be affected by foreign competition. The report points out that Canada possesses deposits of flake graphite superior in richness and quality of flake to any on the American continent. What is probably the largest and richest deposit of flake graphite known in the world occurs in Ontario and is worked by the Black Donald Graphite Company of Calabogie. Difficulties of concentrating and refining the graphite, however, have long hampered operators and membership in the industry. Quite recently, these difficulties have been overcome by the employment of the oil flotation system of ore concentration, which yields far better results than were obtained by the old method both in the richness in carbon of the concentrate made,

NEWS AND NOTES OF THE MINES

Fuel Oil Scarce in Australia. American shipping interests are warned of an acute fuel oil shortage in Australia in a report received by the Department of Commerce, July 19, from the American Consul at Sydney, suggesting the advisability of diverting oil burning ships from the Australian trade altogether. The report stated that recently two American steamships, the Lorain and the Circinus, had been forced to lay up at Sydney to have coal burning equipment substituted for oil burning because they were unable to secure sufficient oil to take them to the next port.

Getting Coal.

A new coal company, representing a consolidation of several mines in the Midwestern United States bituminous field, has conceived a financing plan which offers possibilities to the promoter in these days of short supplies and retarded deliveries. It has put through deals with some very large companies which have plants near its fields—General Motors, for one—whereby it will deliver a certain amount of coal at a certain price provided a certain investment in its preferred stock is made.

Oil in Stikine.

That oil indications are noticeable along the Stikine and some of its tributaries and that some excitement in this field may be expected some day is the opinion of E. M. Bryant, a returned Canadian soldier, who has been prospecting in that region for several months, says the Ketchikan, Alaska, Chronicle. With others he went up the Stikine early in the Summer, having been staked by the British Columbia Provincial Government. They found conditions such, however, that they could not make much headway with the funds at their disposal and rather than waste them they decided to return to keep their standing with the Government good.

"There is no chance to prospect the oil indications now," he said, "as the cost of transportation is prohibitive. If this problem is properly solved some oil excitement may be expected there some day."

Visiting Cariboo.

John D. Galloway, district mining engineer for the Northeastern district, has gone into the Cariboo district, where he will spend a month examining some new mining properties that have recently been opened up. He is also assembling a collection of ore samples which will be included in an elaborate display to be made by the provincial mines department at an exhibition of natural resources at London, England. The engineer is doing everything possible to have his district as well represented as possible. Good specimens have been sent in from Nine-Mile Mountain, also from the Silver Standard Mine.

To Develop Property.

A crew of men has been placed on the property, at the head of Lemon creek, and the development of the property is proceeding by a series of drifts in a satisfactory manner. R. G. McLeod, a Vancouver real estate man, who is operating the property, has announced to the Nelson News: "Mr. McLeod came down from Lemon creek yesterday.

The mine force is engaged in stripping the vein, and in driving the main tunnel, which is at present in a distance of 80 feet. Another tunnel is in 70 feet, both being in ore all the way, and being 300 feet apart. The vein is a blanket one. In a couple of weeks, when it is expected the trail and road will be in shape it is the intention of Mr. McLeod to put on more men and take out the ore, pack it down to the lake mine and then haul by wagon to Willow Point.

The vein varies from six inches to two feet in width and the ore carries values from \$20 to \$1,000 per ton, some especially rich ore being found in the property beneath the vein. It is a dry ore, sulphides of silver and arsenic, the values running approximately 75 per cent in silver and 25 per cent in gold.

Mr. McLeod intends to do some development work on the property at the head of Lemon creek, which is secured from Henry Reichert, otherwise known as the Flying Dutchman left the country in 1916. He has also purchased a group of five crown granted claims on Twelve Mile creek, two miles from Slocan Lake. These are the V. and M., Accidental, P.C.L., Reno, and Get These claims. These were formerly owned by E.L. Parker, mining engineer, who was the V. and M. Mine Limited, of Vancouver. A shipment of 26 tons was made in 1918 from his property to the old Hall Mines smelter. It is a dry ore and runs about \$100 per ton.

Evening Star Mine.

Slocan—Commissioned by Hugh Sutherland, the Winnipeg ex-railway magnate, to inspect the Evening Star mine, on Dayton Creek, near here, J. L. Parker, mining engineer, who was the V. and M. Mine Limited, of Vancouver. A shipment of 26 tons was made in 1918 from his property to the old Hall Mines smelter. It is a dry ore and runs about \$100 per ton.

Accepted Everywhere.

accepted everywhere as outlining the conditions that confront public men, not in Canada alone, but practically everywhere, and also as indicating the lines of policy men in responsible positions, no matter what their party may be, should follow. The plea for good-will and mutual consideration with which he began will commend itself to men of good will because of its common sense, which stands out and makes argument unnecessary.

MONTREAL COMMENTS ON MEIGHEN'S SPEECH

Montreal, Aug. 3.—Commenting on Hon. Arthur Meighen's speech at Portage la Prairie yesterday, The Montreal Gazette says: "Mr. Meighen's speech to his friends in Portage yesterday will be

and in the amount of graphite recoverable from ore treated. Several Canadian mills have now been equipped with the above flotation process and are producing refined graphite equal, if not superior, to the best equal on the market.

Besides being used in lead pencils and stove polish, two of the earliest common uses of the mineral, it enters to a surprising extent into modern industry. Crucibles used in the melting of steel and alloys consume a large proportion of the graphite produced, and other important uses are in lubricants, paints, foundry facings, pencils, stove polishes, dry batteries, dynamo and motor commutator brushes, electrodes and boiler scale preventives. In all, about fifty different uses of graphite are listed in the report, which, in addition, gives much interesting information on the methods of manufacture of a number of the more important graphite products. The report consists of about 200 pages and is profusely illustrated with photographs, drawings and maps.

Pay of Washington Miners. Washington coal miners will receive increases in wages amounting to approximately 20 per cent, for contract laborers and \$1 a day for day laborers, over the scale of October, 1919, they accept the scale adopted by the joint conference of miners and operators' representatives, which was in session in Seattle. The new working agreement will become effective August 1 if favorably received by the miners' convention. The operators' committee engaged in drawing the agreement was empowered to act finally as far as the employers are concerned, and it is felt that approval of the scale by the miners' committee is equivalent to its acceptance by the employees. About 5,000 men will be affected by the new agreement. The increase granted, based on the scale of October, 1919, absorbs the 14 per cent increase made effective by the fuel administration last fall.

The settlement by the bituminous coal commission in the East of the nation-wide coal strike last fall provided that the Eastern award would not be effective in Washington pending an investigation by a special commission in Washington due to unusual conditions.

St. Eugene Mips.

The reported reopening of the famous St. Eugene mine is creating interest in Moyle, a few years ago the most prosperous mining camp in British Columbia. Word has reached Moyle that the Minister of Canadian Information has made the announcement through the Department of Colonization and Development of the Canadian Pacific Railway to the effect that the St. Eugene mine will again take its place with the big shippers. The heavy tonnage from the Sullivan at Kimberley to the Trail and the necessary west ore from the St. Eugene to act as a flux. The St. Eugene has produced over 3,000,000 ounces of silver and 225,000,000 lbs. of lead. Valued at more than \$10,000,000. When the St. Eugene closed down in 1910 it was reported that the ore deposits had played out, but miners who are familiar with the mine say there are big bodies of ore yet to be worked. A small crew of men are now at work.

HAPPY SEATTLE!
Flour dropped eighty cents a barrel in Seattle yesterday. This was due to the fall in the price of wheat on the United States side from \$2.75 to \$2.08 per bushel in the last fortnight.

There is no corresponding decline in the price of flour in Canada. Here the Wheat Board, rather than the elementary ruling law of commerce, is the arbiter of prices, and the flour mills in Canada must pay as high as \$3.15 per bushel for Canadian wheat at Fort William.

But while Canadian wheat reaches record prices in Canada, it assumes a much more modest role when it leaves Canada. Then, it becomes subject to the world market price, instead of the ruling of a Wheat Board; this is to say, Canadian wheat which yields considerably more than three dollars a bushel in Canada, is sold for \$2.10 per bushel in Chicago.

Then, it becomes subject to the world market price, instead of the ruling of a Wheat Board; this is to say, Canadian wheat which yields considerably more than three dollars a bushel in Canada, is sold for \$2.10 per bushel in Chicago.

As far as wheat is concerned this condition will continue until the Government has abolished the Wheat Board and open trading has been resumed.

USE LESS OF IT.

The manufacturers of the United States are dependent upon Canada for seventy-five per cent. of their pulp. A few years ago less than twenty per cent. of the pulp used in the manufacture of paper in the republic came from this Dominion.

The paper manufacturers of the republic are demanding legislation which will tend to relieve the situation, urging the opening of the Government timber lands, reforestation and close supervision of the pulp-producing areas.

Canada has extensive pulp resources, but they cannot be subjected to a careful policy of conservation too soon.

tinued it would not be many years before we also paid the penalty of our prodigality. There is too much loose talk about Canada's resources being 'inexhaustible.'

PREPARING THE WAY

In the British House of Commons yesterday a vote of five million pounds to assist Germany in connection with the Spa coal agreement was agreed to without revision.

NO MIRACLE.

The press correspondent who records the decline in commodity prices in Chicago regards the slump as miraculous, no doubt because he has waited for it for a long time.

In Canada, however, there is nothing in the official reports to promise an early decline in the prices of necessary commodities. According to the June number of The Labor Gazette Mr. H. C. O. L. is going as strongly as ever.

NOTE AND COMMENT

Premier Oliver and Mr. Bowser were fellow-passengers on yesterday's E. D. & B. C. train to the north.

James Larkin sent a congratulatory message from his New York 'state home' to the communists' conference in London yesterday.

Charles Graham, prospective candidate for Comox, told a Merville audience that he believed Mr. Bowser would redress the returned men's grievances; and if he were returned as their member he would see Mr. Bowser did. There is something rather indefinite about this.

Monsignor Cattaneo, Apostolic Delegate to Australia, and Archbishop Duhig, of Queensland, visited the Prince of Wales last week and formally presented the homage and devotion to the Throne of the whole Roman Catholic community of Australia.

General Pershing is said to be considering an offer to become president of a Columbus oil company. Not all A. E. F. men 'strike oil' on leaving the army.

According to a dispatch from Chicago prices are beginning to fall in the United States. Sugar

was scarce at thirty-five cents a pound less than a month ago; now it is plentiful at twenty-one cents. Is this one of the effects of Canadian exports, and is the other Victoria's price of twenty-five cents per pound?

OTHER PAPERS' VIEWS

TRIUMPH OF SURGERY.

How soldiers who had portions of their nerves blown away have then rejoined by the grafting in of lengths of animals' nerves was told by Sir Charles Ballance in a lecture on 'The Healing Process in Nerves,' given at the annual conference of the Incorporated Society of Trained Masseuses at the Royal Society of Arts recently.

Under the first severe test, the Winnipeg voting in the provincial elections, proportional representation has been proved practicable when applied to any large city, according to R. H. Hooper, honorary secretary of the Canadian Proportional Representation Society.

The result of the success of the system may have a far-reaching effect, according to Mr. Hooper, who stated that he wired Saturday to Earl Grey in the House of Lords the information that the Winnipeg voting had proved the worth of proportional representation.

SURVEYORS WIN LICENSE ISSUE

Swannell and Noakes Declared to Be Exempt From City License

Judgment in the case brought by the city against S. C. Swannell and A. O. Noakes was handed down today in the police court by Magistrate Jay, who held that the objection taken by H. A. Maclean, K.C., was well founded.

The case created quite a deal of interest in local business circles, as it involved a decided point in the license regulations of the city. The defendants were conducting the business of field surveyors, and held Provincial and Dominion licenses.

New Body Decides to Chase Political Field; Is There Coal Ring?

At a meeting of the Grand Army of United Veterans of Canada held in the Labor Hall last night it was decided to postpone the discussion on political aspirations until a further meeting to be called on Monday next.

The greater part of the evening's business was connected with the work of the Investigation Committee, which has been recently formed to look into the various complaints about treatment extended to returned men which from time to time are brought to the notice of the organization.

**A HANDSOME FISH**

This photograph is of a Kamloops trout, or as some call them, land-locked salmon, and weighed thirty pounds when taken from the water forty-one inches long, twenty-five inches girth.

It was taken from Premier Lake, thirty-eight miles northwest of Cranbrook, B.C., on the Cranbrook-Windermere district and Golden auto road.

This is the largest fish ever taken in any of the waters in East Kootenay.

Premier Lake was stocked August 12, 1918, with about 10,000 fry from Gerrard fish hatchery.

On May 15, 1918, the first fish were taken, four in number, averaging eleven pounds each, since then every Spring and Fall their weight has been increasing.

This lake was restocked in August, 1918, with 25,000 more of the same kind of fish; these are being taken this Spring weighing from four to six pounds.

**OAK BAY COUNCIL CONSIDERS BYLAWS**

Three Measures Advanced After Attention in Committee

Three bylaws that have been occupying the attention of the Oak Bay councillors in committee recently were further considered at the council meeting held last night in the Oak Bay Municipal Hall, with Reeve Drake in the chair.

**Poll Tax.**  
A bylaw to levy a fee of \$5 on all male residents over the age of eighteen years who do not pay other municipal taxes was advanced to the committee stage, after consideration. Authority to levy a poll tax was granted at the last session of the legislature.

**Amusement Tax.**  
The amusement tax measure, however, did not reach the council, having been disposed of in committee after a short discussion. It is stated that the only concern that would be affected in the Oak Bay municipality would be the Arena, and that so far the amusement tax, as planned at the last session of the House, was not being levied in any other district in B.C.

**Tax Relief Bylaw.**  
The tax relief bylaw, to accord time for returned soldiers to meet their arrears, and make their burden a little lighter, was considerably advanced last night. Considered in committee previously the bylaw was held up last night after further discussion. The advice of a solicitor is to be sought upon the matter, though it is thought no serious difficulty will be sustained by the check in proceedings.

The measure deals with arrears of taxes up to December 31, 1919, and provides for a five-year extension of time, without interest, on property that the owner does not use to reside on. The payments are scheduled annually, with the first payment in September of this year. Having halted the progress of the measure for legal advice, the council rescinded all previous motions, and will deal afresh with the bylaw later.

**Vending of Bread.**  
As the stores in Oak Bay selling bread are forced to pay the 45 business tax for the privilege, it was decided to make the law refer to outside vendors who sell bread in the municipality, an amendment to the existing bylaw being considered to that effect. The amendment provides for a license fee of \$5 every six months from the outside vendor, and reached its third reading in council last night.

Several matters of varied interest then held the attention of the council, who dealt with a number of applications from jitney drivers. Permission to drive a jitney between the termini of the Uplands car and Cadboro Bay was requested, and approved.

In an effort to induce the local real estate men to find purchasers for the Oak Bay tax sale property, the council added five per cent to the original listing price of the lots in question, to serve as commission for the real estate men who take the property off the hands of the district.

**B.C. Electric Fares.**  
The council received a notification from the B.C. Electric Company to the effect that the latter had applied to the Board of Railway Commissioners for permission to raise their fares, the matter being left over to be dealt with by the committee of the whole. Ex-Reeve M. P. Gordon was re-elected by the council to sit on the Jubilee Hospital Board for the district.

Misses M. Martin, L. Atkey and L. A. Inglis, of Ladner, are among yesterday's arrivals at the Dominion Hotel. Mrs. A. Munroe and Master Munroe, and R. McManus, of Duncan, are registered at the Strathcona Hotel. W. J. Bannister, down from Cowichan Bay and is registered at the Dominion Hotel. Mr. and Mrs. G. J. Mackay, of

TO-DAY'S CHARMING BRIDE

MRS. BERNARD RUSSELL KER (Née Louise Durand)

Charles Street, several hundred guests attending to extend their felicitations to the young couple, who were the recipients of many beautiful wedding gifts. The house was a veritable bower of roses, these lovely blooms being used lavishly in the decoration of the spacious hall and in the drawing-room, where the bride and bridegroom received their friends, standing under a hymeneal bell of roses, and the decorations of the dining-room, where the buffet luncheon was served.

Mr. and Mrs. Ker left later on a honeymoon trip, which will include a motor tour of Vancouver Island and a visit to the mainland cities. The bride travelled in an exceedingly smart suit of white jersey cloth embroidered in gold, with becoming hat of white georgette and white fox furs. Later they will make their home in Victoria.

Poverty is a hard nurse, but she raises healthy children. A big congregation, representative of the leading social set of Victoria, filled St. John's Church this afternoon at 2.30 for the wedding of Miss Marie Louise Durand, daughter of Mr. and Mrs. J. E. Durand, of Gordon Head; to Bernard Russell Ker, son of Mr. and Mrs. D. R. Ker, of 1306 Yates Street. The ceremony was performed by Col. the Rev. G. H. Andrews, rector of St. Mary's Church, Oak Bay, assisted by the Rev. F. A. P. Chadwick, rector of St. John's.

Pastel shades of pink and mauve formed the effective color motif in the decorations of the church and in the gowns of the bridal retinue. An archway of Dorothy Perkins roses surmounted the steps leading to the chancel and was flanked on either side by tall vases of white California tree poppies, Shasta daisies, pale pink double godetias and airy zephyrophilia with pale pink and mauve sweet peas and purple scabiosa, white pink and white sweet peas were used in the decorations of the altar. The pews reserved for the guests were marked by bouquets of pink and white sweet peas and scabiosa. At the entrance to the main aisle was erected a graceful arch of Dorothy Perkins roses and greenery, under which the bridal procession passed on its way to the altar. The lovely floral decorations were the handiwork of a number of the girl friends of the bride, under the direction of Mrs. Brett.

The bride entered the church on her father's arm, the strains of the Bridal March from Lohengrin, played by G. Jennings Burnett, the organist. She made a lovely picture in her bridal robes, which set off to perfection her exquisite coloring and piquant features. Her gown of bridal satin, heavily embroidered in silver in a design of chrysanthemums, was made on classical lines with a graceful 'train of the same material, while a beautiful veil of old Brussels lace, an heirloom of her mother's family, was worn with a coronet of orange-blossoms, and fell in soft folds over the train. She carried a shower bouquet of white roses and white sweet peas with Ophelia rosebuds. Her only ornament was a rope of pearls.

Bridal Retinue. The bridal retinue included four attendants. Miss Davida Ker, sister of the bridegroom, was the maid of honor, in a delightful frock of rose georgette, becomingly draped with Duchesse lace, and hat of rose-colored georgette faced with shell-pink and trimmed with French flowers. Miss Marjorie Meredith, the bridesmaid, was charmingly gowned in pale mauve georgette with hat of pale mauve georgette, faced with flesh-colored georgette and trimmed with French flowers.

Both carried shower bouquets of mauve and pink sweet peas. Little Miss Inez Ker, sister of the bridegroom, made a dainty flower-girl in an adorable frock of pale pink georgette with ruffles of lace and pale pink georgette hat trimmed with flowers, and carried a gold basket filled with sweet peas and rose petals, which she strewed in the path of the bridal couple as they left the church. The bride's train was carried by little Eleanor Heisterman, a dainty figure in be-ruffled white organdie with hat to match. The bridegroom was supported by Victor Sutherland, Capt. Carow Martin, M.C.; Harold Wilson, Nairn Robertson and Dick Jones officiated as ushers.

Reception Follows. After the ceremony, a reception was held at the lovely home of Mr. and Mrs. Charles E. Thomas, St.

Free—A 10-Day Tube Send the coupon below and see for yourself how Pepsodent cleans teeth. Apply Pepsin Every Day to Your Teeth All Statements Approved by High Dental Authorities To Fight Film DENTAL SCIENCE has proved that the great tooth wrecker is a slimy film. You can feel it with your tongue. Most tooth troubles are caused by it. It clings to the teeth, enters the crevices, hardens and stays. And teeth will discolor and decay where that film stays, however much you brush them. That is why millions of tooth brush users fail to save their teeth. That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Scientists have for years sought ways to combat that film, but the methods proved inadequate. Then one man, after extensive research, applied activated pepsin—a digestant—to the film. And many clinical tests seem to clearly prove that he solved this great film problem. We ask you to see for yourself. This pepsin method is employed in Pepsodent, and we offer a 10-Day Tube. See what it does when you use it. See the results in ten days. It will show you a way to clean your teeth as you never have cleaned them before. See How They Glisten Analysis shows that the film is albuminous. Pepsin digests albumin. The object in Pepsodent is to dissolve the film, then to constantly combat it. But pepsin alone is inert. It must be activated, and the usual agent is an acid harmful to the teeth. So pepsin long seemed forbidden. Now a harmless, activating method has been found. And that method, used in Pepsodent, makes efficient pepsin possible. Able authorities have proved Pepsodent by convincing clinical tests. It has been adopted, and is now endorsed, by leading dentists everywhere. It does what nothing else has done, and everyone should use it. We urge you to prove it yourself. Ask us for a 10-Day Tube. Look at your teeth and see what it does. See how they glisten. Do this for your sake and your children's sake. Learn the way—the only way—to cleaner, safer teeth. Pepsodent CANADA REG. IN The New-Day Dentifrice A Scientific Product—Sold by Druggists Everywhere Clip This Coupon Send it for a 10-Day Tube. Use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears. It will be a revelation. THE PEPSODENT CO. Dept. A 1104 S. Wabash Avenue, Chicago, Ill. **E. HOWARD RUSSELL  
AGAIN CONDUCTOR**

Arion Club Places Former  
Head in Command of  
Choir

Professor E. Howard Russell, of the University of British Columbia, who is returning to Victoria to join the staff of the new Arts College here, was elected again to the office of conductor of the Arion Club at the annual meeting of the club at the summer home of F. J. Sehl, Prospect Lake. Professor Russell for years before moving to Vancouver was conductor of the club.

Members of the club were taken out to the lake in motor cars. After some of the youthful and energetic ones had indulged in a swim, a general attack was made on the supper tables.

These officers were elected for the coming season: President, R. A. C. Grant; conductor, E. H. Howard Russell; assistant conductor, Herbert Kent; secretary, F. F. Fatt; financial secretary, L. W. Hall; treasurer, H. W. Wilders; librarian, A. J. Mortimer; assistant librarian, E. Fawcett.

After the election and reports the club gave a number of selections which were enjoyed by campers who gathered in boats along the lake.

Members expressed their pleasure at the return of Mr. Russell to the position of conductor. It was predicted that under his leadership the club will have a very successful season.

**TO HEAD PROVINCIAL  
PICTURE ENTERPRISE**

Dr. Baker's Services to Be  
Paid For in Future;  
More Duties

At a salary of three hundred dollars per month, Dr. A. R. Baker, chairman of the Game Conservation Board, has been appointed Director of Patriotic and Educational Picture Service, a new branch of the Provincial Service created by an Act of the Legislature at its last session.

By combining the duties associated with the department with those of the Game Conservation Board, whose director he has been without remuneration for a half year, Dr. Baker will assume complete control of all the game activities of the Province both from the conservation and educational standpoints.

His association with the enforcement of the Game Laws of the Province, by reason of the fact that he initiated the new system and particularly on account of his wide experience of game, qualifies Dr. Baker for the additional duties which he will now undertake as a paid servant of the Province. Up to the present, it is pointed out, he has discharged his task without remuneration—plus a good deal of abuse from critics of the Administration.

The measure creating the new department provides for the taking of moving pictures of the various industrial enterprises of the Province, its game, scenic beauties, and such other subjects as may be judged to be of benefit in advertising British Columbia to the tourist, the investor, and the intending settler.

One of the provisions of the Act likewise imposes upon the picture houses of the Province the obligation to show each day a certain length of reel devoted to the domestic subjects referred to.

**HOPELESS CASE.**

The keeper of the insane asylum had taken his patients out for a walk when they ran across a derelict gasing perplexedly at the railroad tracks.

"Can you tell me where this railroad goes?" he asked.  
"You'd better come along quietly back inside with us," answered one of the patients soothingly. "That doesn't go anywhere. They just keep it there to run trains on."

**VACANT LOT  
CAMPAIGN A  
GREAT SUCCESS**

And All It Cost the City Was  
\$17.86, Plus Water  
Rebating

Final figures issued at the City Hall to-day, show beyond question that Victoria's increased production campaign this year has been an outstanding success in every way. Perhaps most notable of all, the figures show that, not only has the cultivation of vacant lots been a success from the standpoint of production, but it has cost the city practically nothing—\$17.86 to be exact.

This year the city has ploughed 452 vacant lots for increased production. Last year 571 were ploughed, but it is pointed out that most of the lots ploughed in 1919 were put under cultivation this year without ploughing. In other words, a large percentage of the lots ploughed during the two years are being worked this year. In addition, of course, large numbers of vacant lots with which the city has had no connection whatever, are being cultivated.

Lots to the number 163 were disced this year as against 176 last year. The same conditions as those applying to ploughing, of course, also apply to discing. This year 241 lots were harrowed compared with 319 in 1919.

It is the number of lots conscripted this year in comparison to that of last year that city officials who supervised the increased production campaign consider most significant. This year, 539 lots were conscripted—more than twice as many in 1919, when 221 were taken over by the city for production purposes.

How the city was able to wage such a campaign almost gratis is explained by these facts:  
The city received in fees for ploughing \$1,474.48, for the seed potatoes which it sold to cultivators, \$729.30; for seed peas, beans and corn, \$44.34, and for fertilizer, \$41.20. Receipts from the campaign thus totalled \$2,369.32.

On the other hand, the total expenditure for seed, fertilizer and so forth was \$2,325.18, of which \$711.24 was spent on seed potatoes.

This the total amount of the expenditure over receipts was \$17.86. The City Council, it will be recalled, voted \$500 for use in waging the campaign so that there is a balance of \$482.14.

Reports reaching the City Hall from vacant lot cultivators all are to the effect that this year's crop far surpasses that of last year. Potatoes, particularly, are reported to be flourishing more satisfactorily than for a number of years. This no doubt is, to a considerable extent, due to the fact that the city's potatoes were carefully selected, and also to extensive manuring.

A. Gough, of the City Engineer's Department, is the energetic official in charge of the campaign.

**TO BUILD ABATTOIR**

New Planned to Kill Local Animals  
Near Parson's Bridge.

J. B. Fagan, formerly manager for the Prince Rupert Meat Company in this city, is starting the erection of an abattoir at Palmer Station for the killing of animals raised on this island. The abattoir is adjacent to the Canadian National and the B. & N. Railways near Parson's Bridge.

Plans for a killing room 70 by 32 feet with concrete floors have been approved by the Provincial Board of Health. There will be cattle pens for storage.

The place is to be built by returned soldiers.

**HOUSING SCHEME  
SECRETARY GIVES  
UP HIS POSITION**

A. M. Jones, secretary of the City's Better Housing Scheme, has tendered his resignation to the Housing Committee of the City Council which, with deep regret, has accepted it. Mr. Jones has had charge of practically all the building operations conducted under the Housing Scheme and to his untiring efforts has been due, to a very great extent, the success of the

project. Now that practically all contracts pending in the Housing Scheme have been let and a considerable more than half of the city's housing allocation spent, Mr. Jones considers that his work has been completed.

What the city's authorities will do with the money still available has not been decided. Several applications from returned soldiers possessing the necessary qualifications of residence and so forth have been received during the last few days, but it is considered doubtful that there will be sufficient applications from returned men who lived in the city before the

war to exhaust the whole allocation. Under these conditions, it is possible the City Council will draw up some new qualifications later on, to allow other than Victoria men who have been overseas, to take advantage of the scheme.

**WILL ENTERTAIN  
CAMPERS OF DISTRICT**

In view of the number of people camping on the various beaches round Metchosin district, Sandy Bay, Witty's Lagoon and Albert Head beach being particular favorites,

judging by the number of camps dotted about these spots, it is suggested by certain members of the Metchosin Pianola Committee to hold four Saturday night Cindersella dances at Metchosin Hall to provide a little social amusement for the campers. If the suggestion is approved, there is little or no doubt regarding the matter, a social meeting will be called on Friday, August 6 of the people of the district to arrange for the dances to commence at once. A small charge for admittance will be made to cover expenses, but it is understood that the dances arranged are for social purposes and not for raising money.

NEW LIGHT SHED ON SOPHIA WRECK

Capt. Davis, of Estebeth, Gives Evidence Before Special Commissioner

Evidence in regard to the sinking of the Princess Sophia by Captain J. V. Davis, of the Estebeth, before Special Commissioner Bruce Morbourg, according to the Juneau Empire, sheds a new light on the marine disaster at Vanderbilt Reef, Alaska, October 24, 1918.

Asked to describe the weather, he said, "It was what fishermen call fair dory weather, not rough but neither was the sea flat or calm. It was snowing with a fifteen-mile wind blowing northerly."

He said that he was notified of the wreck by Mrs. E. H. Kaser about 2 or 3-30 in the morning of October 24 and after talking with F. F. W. Lewis, he took the Estebeth to Lynn Canal and the Vanderbilt Reef.

Although Mr. Pemberton is not disposed to discuss the reasons for his resignation, it is understood that differences of opinion on general policy have developed at recent conferences of the directors, culminating in the withdrawal from active participation in the affairs of the shipbuilding organization of two of its most prominent members.

Clarence Hoard was appointed president following the resignation of Mr. Spencer, and General R. F. Clark was appointed to the board of directors.

O. S. K. LINER ARABIA MARU

HAS RESIGNED FROM BOARD OF DIRECTORS OF SHIPOWNERS, LTD.

Action of F. B. Pemberton Marks Second Withdrawal

F. B. Pemberton has resigned from the board of directors of the Victoria Shipowners, Ltd. This action follows closely upon the resignation of J. W. Spencer as president and director of the Victoria company, formed to build and operate four wooden barquentines out of this port.

Although Mr. Pemberton is not disposed to discuss the reasons for his resignation, it is understood that differences of opinion on general policy have developed at recent conferences of the directors, culminating in the withdrawal from active participation in the affairs of the shipbuilding organization of two of its most prominent members.

PRINCE GEORGE IS RUNNING ON TIME

New Stem and Plates Fitted Expeditiously at Prince Rupert

Running on schedule from Prince Rupert the G. T. P. steamship Prince George will arrive at Vancouver this afternoon and make this port early tomorrow morning bound to Seattle.

The grounding of the vessel at North Bluff, Seymour Narrows, July 23, necessitated the fitting of a stem bar, and the replacing of ten forward frames and shell plates. The work was promptly effected in drydock at Prince Rupert, permitting the Prince George to sail from the northern G. T. P. terminal at midnight on Sunday.

## WANTED—BOARD FOR THE SUMMER

For a vacation we would go to some place where the rates are low.

Where flies in morning do not bite. Nor skeeters ring around at night.

Where we could rest our weary dome upon a bed like that at home.

Where we could get fresh garden stuff.

Where chickens are not old and tough.

And for a lake we also wish where we'd be sure of catching fish.

A cool, delightful, charming spot where it is never sizzling hot.

Where we would hear not night or morn.

The tooting of an auto horn.

Where dogs would not bay at the moon.

Or phonographs emit a tune.

Where we could drink from bubbling springs.

And not absorb tadpoles and things.

Where every road was arched with trees.

Where one could always find a breeze.

Where one could on a picnic go.

Where poison ivy dots not grow.

To find such place as we've in view we've looked the catalogues all through.

Alas we must say with regret we haven't found the place as yet.

—Tom W. Jackson, in The Brooklyn Standard Union.

### Confer on Government System.

Among the people who waited upon Mayor Porter to-day was the City Attorney of Everett, Washington, with whom His Worship discussed the commission form of city government in vogue in the American cities. The mayor is a keen student of various systems of government and has been particularly interested in the subject since the City Council submitted the Fullerton referendum to the electors.

### BRIEF LOCALS

**Guns Did Not Fire.**—The firing practice of the big 3.2 guns at Signal Hill arranged to take place this morning was postponed. Major Cockburn is in charge of the arrangements and it is thought the firing practice will be authorized in due course.

**A Highland Lament.**—In the account of the services at Ross Bay Cemetery last Sunday, it was inadvertently omitted that after Dr. Campbell's address, the bag-pipes played a Highland Lament, and the "Last Post" was sounded by the buglers.

**G. W. V. A. General Meeting.**—The Victoria Branch of the G. W. V. A. is looking for a large representation of their members at the general meeting to-night. An urgent appeal is issued to select the best men possible to fill the vacancies of the retiring executive.

**Navy League.**—H. J. Ravenhill, Chairman of the Victoria Branch of the Navy League, will give an address in Colwood Hall, this evening, at 8 o'clock, under the auspices of the Colwood Women's Institute. His subject will be "Aims and Objects of the Navy League." Refreshments will be served by the institute members after the meeting.

**In Police Court.**—William Carter paid a fine of \$100 for the offence of being in possession of liquor was held over until one week from to-day. Charges were enlarged to include George Priestly and H. Campbell, the latter part proprietor of the Panama bar, where the offence is alleged to have occurred.

**Boys Given Send Off.**—The two sub-divisions of the Boy's Naval Brigade, headed by the band, this afternoon escorted Cadets Marchant and Davenport to the C. F. R. docks, where the two sailor boys boarded the afternoon boat for the Mainland. Marchant and Davenport have been assigned to the Dollar Line steamer Melville Dollar, which is due to sail from Vancouver for the Orient.

**Arrested in Seattle.**—Robert J. Wellington, who was in charge of the sergeants' mess at Work Point Barracks, and is alleged to have embezzled some \$500 from the mess funds, was arrested at Seattle yesterday as he stepped off the boat from Victoria. He is being brought back to stand trial at the Esquimalt court. The Esquimalt police force sent a man over to the Sound City to arrest Wellington.

**Joins Law Firm.**—E. V. Finland, better known to his many acquaintances in this city as "Auntie," has joined the law firm of McIntosh, Meredith and Kennedy, in the Pemberton Building. Mr. Finland, who is a native son and educated in the city schools, served overseas with the Royal Flying Corps. For the past six months he has been practicing in Prince George.

**Army and Navy Veterans.**—Saturday-morning the Army and Navy Veterans will hold an athletic field day at the Royal Athletic Park, and from a glance at the numerous prizes now on exhibit in the window of the Victoria Book & Stationery Co. it is obvious that this field day will be on a big scale. In the evening the same organization will hold in the Hamley Building one of the famous concerts which have always ranked high, both for the quality of the talent displayed and for the genial atmosphere which invariably attends them. On this occasion the House Committee have determined to put on a concert which will act as a fitting finish to the field day held earlier in the day. New talent has been promised and members and their friends are urged to make a day of it with the Army and Navy.

**Dean on Lord Fisher's Book.**—Before the members of the Royal Society of St. George at their monthly meeting last night, Dean Quantan gave an interesting review of the late Lord Fisher's new and famous book, "Memoirs." So enjoyable was the address that the Rev. J. L. Batty suggested that a similar lecture by the Dean should be made a part of the programme at the next meeting, a proposal which was heartily endorsed by the meeting. The preliminary portion of the evening was taken up with a discussion of the club's forthcoming picnic, and after some argument it was finally decided that the scene of the outing should be Mount Douglas Park on the afternoon of Saturday, August 14. It is expected that a majority of the members will make the trip in private cars. One of the large motor cars will be engaged to care for the remainder, and will leave at two o'clock from the Belmont Building. Those choosing the latter method of transportation are requested to notify the secretary of their intention the evening before.

### UNION UNCERTAIN OF ITS COURSE

#### Victoria Gas Company Charge Not Yet Thrashed Out in Court

The prosecution instituted by the Union of Steam and Operating Engineers against the Victoria Gas Company was continued to-day. Evidence was taken in the subsidiary case, following that in respect to the employment of a non-union member, who, it is alleged, was acting in the capacity of engineer without the requisite license.

Samuel Baxter, Provincial Boiler Inspector, appeared to query if the case was to be continued.

City Prosecutor Harrison asked the court to proceed with the case, in the absence of H. W. R. Moore for the prosecution, and the deal with the charge as already laid. He reminded the court that the charge against the man in question, Norman Ess, had been dismissed.

Magistrate Vay postponed the case another week to permit the prosecuting union to determine its stand in respect to the deal with the charge.

The union has a right to prosecute in cases of this nature.

The present case against the Victoria Gas Company is being watched with interest by local labor leaders, as it is the first time on record that a union has had its members charged against the city ordinances.

### HEAVY SHOWERS HAVE REDUCED FIRE HAZARD

Condition in Many Parts of Province, However, Still Dangerous

Heavy showers and thunderstorms in many parts of the Province have improved conditions in the forest areas and in numerous instances have extinguished fires.

In the Vancouver Forest District, however, hot and dry conditions are causing the officials of the Forest Branch of the Department of Lands considerable anxiety, while hot, dry and windy weather in the Vernon area is requiring constant vigilance on the part of the fire fighters.

Records now compiled by the Forest Branch show that 471 fires have been reported to the department to date, the fighting of which cost the taxpayer approximately \$16,344.

Similar remarks apply to conditions at Nelson and Prince George.

Firefighting in the Cranbrook district has added the officials of the Department.

Arrangements for the garden party to be held at the home of Mrs. T. Palmer, Pleasant Street, held tomorrow are now complete and a good time is promised all who attend. His Honor the Lieut.-Governor will open the fête at 3 o'clock. The programme for the afternoon will include a dance by Miss Shearer, accompanied by Piper D. Cameron; song, Miss Beatrice McDonald; whistling solo, Miss Wallis and selections by Mr. Flewitt's Orchestra. In the evening the G. W. V. A. band will play at 7 o'clock. An amusing sketch, "The Dear Departed," will be staged, the following well known artists taking part: Directors, Messrs. Clark and Fairbairn; stage manager, Mr. Allwood; cast: the Misses—Hunt, Morton and G. Hickman; Messrs. Barry, Buckle, A. G. and G. W. V. A. band will play at 7 o'clock. The proceeds will go to the aid of G. W. V. A. and hospital work.

### KIWANISMS ARE PRAISED BY GUEST

Dr. Whidden, M.P., Tells Local Members They Have Fine Organization

The Kiwanis Club assembled at luncheon to-day at the Dominion Hotel and received a congratulatory address from Dr. Howard P. Whidden, the member for Brandon, who is himself a charter member of the Brandon Kiwanis Club. Dr. Whidden spoke with gratification of the rapid progress made by the local club, and stated that its members had no need to fear comparison with the clubs of larger towns throughout the Dominion.

**What Kiwanis Means.**

The correct definition of the word "Kiwanis" stood for straight business backed by the right spirit, he contended, and it was in that definition that the word "Kiwanis" was rapidly assuming an essential part in the rehabilitation of mankind in the eyes of civilization the world over. Straight business, sense of co-operation, desire to help the "other fellow," backed by the right spirit, was what the club stood for, and that was the aim of the members the continent over. It was organized to help the community for the good of all, and as such, the Kiwanis clubs had a great and broad future ahead of them, Dr. Whidden concluded.

The address of the Brandon member was received with applause.

**Entertainment.**

The entertainment was in the hands of the "E's and F's," who provided a programme that was as excellent in detail, as varied in choice. J. H. B. Rickaby recited "Mon Frere Camille," the humorous exploits of a budding forsooner, and was accorded such a hearty ovation that he responded with "Little Patsie," two French-Canadian pieces that afforded him ample scope for his excellent characterization of the difficult patois.

Mr. Potts rendered "The Trumpeter" in a stirring baritone voice, and was accorded a greeting that he responded to with the age-old, but ever-dear, Scottish ballad "Mary."

Miss Norma Buckle, in colloquies, gave a clever characterization of a youthful artist receiving her first part from the legitimate stage, and followed up with a burlesque on the trials of a newly-wedded lady on the non-arrival of her husband on schedule time for dinner.

In the first part of her characterization, Miss Buckle delighted her audience with an able representation of the London costermonger's girl, to which she lent convincing realism, a French domestic, and an American girl. In the colloquies, the telephone were two other parts that displayed considerable histrionic powers. In the short space of some twenty minutes, the Kiwanians were treated to a complete resume of the emotional acting of the stage, and showed their appreciation in no uncertain manner.

**Attendance Prize.**

The attendance prize was won by J. D. Roberts, and the usual community songs were sung, with Mr. Heaton leading on the piano.

Great fun was extracted from the non-compliance with the new regulation that says that no member shall address a fellow member by the appellation "Miss" or "Mrs." Ferguson offended once, while the chairman of the "E's and F's" contracted obligations to the extent of some four dollars, the fine being one dollar for every offence. The exchequer of the club was also enriched to a large extent by the late arrivals, who, too, were fined for non-compliance with the new regulation governing that lapse from grace.

### LEADING BREEDER LEAVES COLONY FARM

P. H. Moore Has Resigned to Enter Private Partnership at Annacis Island

P. H. Moore has severed his connection as superintendent of the stock department of the Colony Farm and is now associated with Stuart Johnston of the Annacis Stock Farm, Annacis Island, in the breeding of pure-bred Holstein stock. His resignation as superintendent was accepted by the Provincial Government following a trip to Victoria last week.

Mr. Moore attended the Corfield sale at Cowichan where he purchased eight animals for Mr. Johnston at an average price of \$218, and incidentally purchased the highest priced animal of the sale for \$225.

Mr. Moore has been connected with the Colony Farm for the past ten years, coming from the Agassiz Experimental Farm.

During these years he has acquired a reputation second to none in the Province as a breeder of horse and cattle flesh. Taking hold of the Holstein at the Provincial Farm, he has made up a country-wide reputation as a breeder in the matter of milk and butter fat production.

Messrs. Johnston and Moore will centre their efforts on pure-bred Holstein stock. Two new barns, 130 feet by 40 feet are being built this year, the specifications calling for cement foundations. A hungalow will also be erected. This winter an additional 100 acres will be placed under cultivation.

**A Friend of the Policeman.**

Continually on their feet, the "Peelers" are invariably troubled with corns and bunions, not for long, because they know of a quick cure, Putnam's Corn Extractor; it cures painlessly in 24 hours; try "Putnam's," 25c at all dealers.

### TO HAVE LADIES' AUXILIARY.

Langford G.W.V.A. Will Form Organization Next Tuesday

The G. W. V. A. Branch for the western suburbs has progressed to the point when a woman's auxiliary can be formed, and an arrangement has been made with Mrs. Thomas Palmer to inaugurate the new organization at a meeting to be held next Tuesday. Following the meeting there will be a dance. Although known as the Langford G.W.V.A. Branch, it does not express the full measure of its usefulness for it seeks to take care of the whole countryside from Cobble Hill south to Esquimalt, outside the municipal limits, as well as the Millstream and Highlands district east of Saanich Arm.

Including four new members admitted yesterday, the total membership is now over 46.

The branch will hold a dance on Saturday at Metchohn Public Hall, commencing at 8.30 o'clock.

### FRIENDLY HELP MET

Lady McBride Presided at This Morning's Meeting; Many Donations Acknowledged.

Lady McBride, the president, was in the chair at the monthly meeting of the Friendly Help this morning. Fifteen members were present. The Association acknowledges with grateful thanks the following donations received in July:

Can from Sunshine Club—Order of the Eastern Star, Ladies' Aid St. Barnabas Church, the City, J. D. Virtue, Friend, Purdy & Mitchell, Mrs. E. B. Gregory, Mrs. Robbins, Wm. Fernie, Mrs. Pilegrim, Mrs. J. G. Elliott, Rev. J. L. Batty, Miss Templeman, C. F. Todd, W. A. Cameron, Victoria City Dairy and J. E. Painter & Son.

Clothing—Mr. Rowley, Mrs. D. E. Campbell, Mrs. C. E. Thomas, Mrs. Gill, Mr. Mitten, Mrs. Beaton, Mrs. Mess, Miss Le.

Shoes—Mrs. Fletcher, Miss Hall, Maynard's, A Sincere Friend, and vegetables from Mrs. Beaven, an unknown friend and Mrs. Curtis Sampson.

**EGG-SACTLY!**

After many years of parting, the old school chums chanced to meet again, and spent an interesting hour exchanging reminiscences.

"But, I say, old chap," began one suddenly, "you say you are in the grocery line—I thought you wanted to go on the stage?"

"So I did," confessed the other sheepishly, "but—I found out I wasn't suited for it."

"A little bird told you, I suppose?"

"The other man hesitated, and his face slowly flushed.

"Well, no, not exactly," he said; "but they might have been birds if they had been allowed to hatch."

### TO STAGE BIG PICNIC AT ELK LAKE TO-MORROW

Elaborate preparations have been made for the big Rotary Club picnic at Elk Lake to-morrow when a considerable section of the city's business men will spend a day in the open in one of the island's rarest beauty spots. Rotarians, their wives and sweethearts, will leave the city between half past twelve and one o'clock in the afternoon, the automobiles assembling for the trip in front of the Public Library. A big programme of sports has been arranged and swimming in the old water filters will be another feature of the day's entertainment. The Rotarians will not return until after dark in the evening.

The feature of Thursday's Rotary luncheon at the Empress Hotel will be a short address by J. G. Thomson, Publicity Commissioner, who will describe the work of the Victoria and Island Development Association.

This week's Rotary Bulletin emphasizes the fact that essays in A. C. Fluemertig competition, on the subject "What can be done to benefit most the rank and file of the people," must be handed in by Thursday noon.

### RESIDENTS HELP TO FIGHT FIRE

Ladner, B. C., Aug. 3.—Several miles of heavy bush lying along the Scott Road has been swept by a fire which Government rangers and residents of Delta and Surrey have been fighting strenuously since yesterday noon. For a time the flames threatened the source of Delta's water supply, and it was nearly midnight last night before the back-firing of the workers saved the waterworks. To-day the wind is fanning the flames in a direction away from the works.

### OBITUARY RECORD

The funeral of the late William Evans who died on Sunday at his residence, 3167 Quadra Street, will be held from the residence to-morrow at 3.30 o'clock. Interment will be made at Ross Bay Cemetery.

The death occurred yesterday afternoon at 101 Simcoe Street, of Roland Weldon (Boy) Gibbs, the two-year-old son of Mr. and Mrs. Roland Gibbs of the above address, and late of 2546 Fifth Street. The remains are reposing at the Sands Funeral Company's parlors, whence the funeral will be held to-morrow afternoon at 2 o'clock. Interment will be made in Ross Bay Cemetery.

Mrs. Annie Francis Holmes, wife of Dr. C. Denton Holmes, died this morning at her residence, 242 Richmond Avenue, at the age of 54 years. The late Mrs. Holmes was born in Durham, England, and had been a resident of this city for the past three years. She survived by her husband, two sons, C. Denton Holmes and J. C. Holmes, and two daughters, the Misses Margaret and Cassie Holmes, of this city; her father and one sister in England. The funeral will be held from the B. C. Funeral Chapel on Friday at 11 o'clock. Interment will be made at Ross Bay Cemetery.

The funeral of the late William Wilson, of 1442 Eiford Street, will be held from the residence on Wednesday at 11.15, proceeding to the Church of Our Lord, Humboldt Street, where Rev. A. de B. Owen will conduct the services. Interment will be made at Ross Bay Cemetery.

## Crack Golfers Are In Imperial Press Party

Three Scratch Men Included in Team of Twenty-nine;  
Local Links to Be Thrown Open to Use of Visitors;  
Best Victoria Golfers Will Play Matches With Them

Followers of golf are due for a very interesting treat when the members of the Imperial Press Conference visit Victoria at the end of this month. Included in the party are a number of exceptionally brilliant golfers, three of whom are scratch men. The Oak Bay and Colwood Golf Clubs have generously offered to throw open their links for the use of the visitors and it is expected that large galleries will follow the matches in which the Old Country cracks figure.

The three scratch men are Sir Emsley Carr, Sir Frank Newnes and James Henderson. The handicaps for the rest of the party run up to eighteen. There are twenty-nine golfing experts in the party and arrangements are to be made to provide matches in which local players will figure.

The Imperial Press Conference team with its handicaps are as follows: Sir Emsley Carr, scratch; Sir Frank Newnes, scratch; James Henderson, scratch; Percival Marshall, five; J. S. Macdonald, five; L. Goodenough H. Taylor, five; J. D. Graham, eight; Ernest Woodhead, nine; R. A.

## DEMPSEY WILL AT LAST FIGHT; SIGNS FOR MISKE BOUT

Benton Harbor, Mich., Aug. 2.—The fight between Champion Jack Dempsey and Billy Miske, of St. Paul, Labor Day, here, is assured by the affixing of the champion's signature to the articles of agreement, the Campbell, business manager of the Benton Harbor boxing club, announced to-day.

French title, also will compete at Roslyn. He is now in the United States.

## CANADA TO SEND AN EIGHT TO ANTWERP

University of Toronto Will  
Row in Classic Event; Bob  
Dibble to Go Over

Toronto, Aug. 2.—President Douglas Huettli, chief executive of the University of Toronto Rowing Club, said yesterday the university crew, which won the national eight-oared championship, will be sent to compete in the Olympic games at Antwerp, provided subscriptions are received for \$5,000 to defray expenses. The crew will represent Canada at the single events of the Olympic regatta, according to the decision of the Canadian Olympic committee, following Dibble's fine showing at the Canadian Henley regatta at St. Catharines last week.

In the Olympic fours the Canadian representative crew will be the Argonauts, R. Hay, H. Harcourt, H. Landraus and S. Hay. A Everett will be coxswain.

## Land Nurses James Over Bumps and He Gets Win

Big Right-Hander Blanked Beavers and Allowed Them  
Only Four Hits; Beautiful Fielding Features Game;  
Victoria Ticked Rapp's Offerings Frequently; Had  
No Trouble Scoring.

Victoria, 7; Vancouver, 0.

Russell James, the lad who has grown six feet four inches within twenty years, has achieved the desire of his heart; he has made the grade on the local diamond. Last evening at the Stadium he won a ball game and won it decisively. He twirled the whole nine innings and did not lose his head or control of his arm in the seventh and eighth innings as had been his custom in the past.

There was an excellent reason for James' failure to run to his old form and that was the careful nursing which he received from Grover Land. James probably would have won some of his former games had he had a catcher who would have taken care of the first man along instead of losing his head in the pinches. James will receive the credit of the win in the official scores but Land was the man who made it possible for him to weather the storms.

Fans Start Worrying.  
For seven innings James ran true to his past form. He allowed the Beavers but two hits and both were of a scratch variety. Then came the eighth and the fans rubbed their chins and tried to crack a lot of funny jokes to keep their minds off the one great question, "Is James going to last?" Everyone felt like a drowning man when Wiggins, the first man up, lead off with a wicked double to left. Wiggins was picked off third by James, who held the McVey's drive. James could not locate the plate and walked Patterson. Rapp slapped a single over second and filled the bases. At this stage Land was nursing James as tenderly as a mother her new-born babe. Messner took a vicious cut at one of Russ's slants and shot it straight back at the big fellow. James held the ball smartly, threw to Land, who completed a double by nailing Messner at first.

Daddy Rapp, who pitched a one-hit game, threw the cork ball in the very tough crowd of hitters. In the second inning Brown led off with a single and took second when Carman was hit by a pitched ball. Both runners advanced on Dempsey's sacrifice. Brown crossed the plate on Zienke's hard drive which Messner could not field in time to catch him at first. Things did not break right for Rapp in the third. James led off with a single and went to second on Elliott's out. Church jumped in with a nice little single and lead got a part of his anatomy in the way of a fast one and walked to first, making a full house. Brown started the base runners moving with a neat single to right, which scored James. Carman put a high fly into Purzell's hands and Church beat the throw in to first. Dempsey lofted a dainty Texas Leaguer to left field for two bases, and Leard and Brown scored. Dempsey was called out at third trying to stretch his drive to three bases. The Capitals shoved over two more runs in the seventh. Elliott planted a single just over short and Church repeated his drive to the plate, along with a sacrifice. Brown hit a hot one to Scott, who fumbled it long enough to be unable to catch Elliott at the plate, but caught Brown at first. Church trotted home on Carman's single.

Fast Fielding.  
Both teams did some smart fielding, the work of the shortstops and the basemen being sensational at times. The box score follows:  
Victoria—AB. R. H. PO. A. E.  
Elliott, ss. 4 1 2 2 6 0  
Church, 3b. 4 0 1 0 0 2  
Leard, 2b. 2 1 0 0 2 0

JIMMIE CHURCH

who are expected to win the contest for base-circling at the "Baseball Day" sport at the Stadium to-morrow afternoon.

## BONUS FOR GIANTS IF THEY TRIM CINCINNATI

New York, Aug. 2.—If the New York National League baseball team defeats Cincinnati here to-day in the final game of the current series, the players will receive a bonus of \$1,000 from Charles A. Stoneham, the Giants' president.

AND THEY ALL HAD THE SAME.  
He said I'll have a demitass.  
"A demitass," said Flossie.  
At which the chaperone horned in:  
"Bring me a demitass."

## SWIMMERS PRACTICE HARD FOR BIG GALA

Members of Y.M.C.A. and  
V.I.A.A. Training Hard;  
Big Workout To-night

Members of the Y. M. C. A. and V. I. A. A. held a strenuous swimming practice last evening in the V. I. A. A. tank at Curtis Point. Miss Audrey Griffin and "Tiny" Marshall swam a 500-yard race in splendid time. Angus McKinnon, Jack Barclay, Al Davies and Kenneth Darbyshire took part in several sprints and Misses Florrie Gates, Muriel Daniels, Edna Curry, and Phyllis Gates practiced plunges, sprints and backstroke events.

All of the swimmers showed great improvement and it is expected that they will make a better showing against their American counterparts in the P. N. A. gala at the Gorge on August 14. Another practice is to be held this evening at the same place, when water polo will be the chief event on the programme. Providing the games can be staged before dark, three games, the first game, which is scheduled to commence at 7:30 o'clock, will be between the V. I. A. A. ladies' team and a team made up from the joint clubs. The teams will be as follows:

Ladies' Team—Goal, Miss Phyllis Gates; backs, Misses Florrie Gates and Doris Grubb; half, Miss Audrey Griffin; forwards, Misses Muriel Daniels, Edna Curry and I. Grubb. Joint V. I. A. and Y. M. C. A.—Goal, Geo. I. Warren; backs, Archie McKinnon and Jack Andros; half, Norman Kennedy; forwards, Joe Austin, K. Darbyshire and Tom Jensen. Playing Elks.

Following this game a friendly practice game will be played with the Elks team. The team to represent the joint clubs will be as follows and will constitute the No. 1 Victoria team for the P. N. A. championships as it stands at the present time, although some alterations may be made before a final team is selected: No. 1 Representative Team—Goal, Irving Blyth, V. I. A. A.; backs, Frank Lawrence, V. I. A. A., and Harry Boyd, V. I. A. A.; half, Angus McKinnon, Y. M. C. A.; forwards, Gordie Young, Y. M. C. A.; Jamie Cameron, Y. M. C. A.; D. Grubb, V. I. A. A.; Bessy, C. McFadyen, Y. M. C. A.; and D. Barclay, Y. M. C. A.

Following this match another game between No. 1 Representative Team will be played. The No. 2 Victoria Representative Team will be as follows: Goal, Johnnie Wenger, Y. M. C. A.; backs, Dave Barclay, Y. M. C. A., and Colin McFadyen, Y. M. C. A.; half, Lou Godfrey, V. I. A. A.; forwards, Al Davies, V. I. A. A.; Tiny Marshall, Y. M. C. A.; Jack Barclay, Y. M. C. A.

Following the polo practices coffee and biscuits will be served—the players by the Ladies' Committee of the V. I. A. A. Dancing and a sing song will be held later, the music for which will be furnished by the V. I. A. A. orchestra under the leadership of Mrs. M. Kennedy.

### FUNERAL, INCLUDING BAND, FOR CANARY BIRD IN NEWARK

Newark, N. J., Aug. 2.—The scriptural assurance that sparrows shall not fall unnoticed was given tangible application to a pet canary bird here to-day. "Jimmy," a little songster, choked to death yesterday on a watermelon seed, and so grief-stricken was his owner, Emilio Rusomanno, a sixty-five-year-old cobbler, that friends contributed \$200 for a funeral, including a hearse, five mourners' coaches and a fifteen-piece band.

### LIGHTNING KILLED TWO ALBERTA BOYS

Edmonton, Aug. 2.—The electrical storms Saturday and Sunday which passed over Central Alberta took a toll of lives at St. Paul de Metis, where Albion and James White, aged five and nine years respectively, were instantly killed by lightning. The two boys met their death at 3:41 o'clock Sunday morning, a watch in the trousers pocket of one of them which was stopped at that hour indicating the time at which the lightning bolt struck. The two boys, sons of R. S. White, of St. Paul de Metis, were sleeping in a tent.

### YACHT CLUB AND ROSS'S CHALLENGE FOR AMERICA'S CUP

Halifax, Aug. 2.—The Royal Nova Scotia Yacht Squadron has not endorsed the challenge to the New York Yacht Club of A. C. Ross for the America's Cup, and its endorsement will be withheld until further information is available here as to Mr. Ross's plan, J. R. McNutt, Squadron secretary, said to-day.

### TO PRESERVE ORDER

London, Aug. 2.—(Canadian Associated Press)—The House of Commons last night gave second reading to the Maintenance of Order Enforcement Bill, in conformity with the resolution of the Imperial Conference of 1911. The House of Lords had already passed the bill.

### PONZI MEN GATHER EARLY IN BOSTON

Boston, Aug. 2.—The line of anxious note holders in the "fifty per cent. in ninety days" investment proposition of Charles Ponzi, who claims to have made millions by foreign exchange deals, began to form outside the offices of his Securities Exchange Company long before daylight, clamoring for the return of their money. Indications were for the largest crowd since Ponzi began paying back money a week ago.

### IOWA ROBBERS GOT \$20,000; SHOT MAN AND HE MAY DIE

Davenport, Ia., Aug. 2.—Shortly before noon to-day six men held up and robbed the Commercial Savings Bank of Moline, Illinois, of a sum estimated at \$20,000, according to the police. The robbers made their escape in an automobile.

### TRAIN ROBBERS STILL AT LARGE

Lethbridge, Aug. 2.—Though the police declare they have good descriptions of the three amateur bandits who held up C.P.R. Crow's Nest passenger train No. 63 at Sentinel, Alberta, on Monday afternoon, and that they even know their names, none of the posse in pursuit had been successful in the hunt up till noon to-day.

### EDMONTON MAN DIES OF APOPLEXY

Edmonton, Aug. 2.—Harry Yule, a detective in the employ of the International Detective Agency, fell from his bicycle on 118th Street shortly after 9 o'clock this morning and died while being taken to a hospital. Apoplexy is thought to have been the cause.

### GERMAN PARDONS

Berlin, Aug. 2.—Via London, Aug. 2.—Pardons will be granted all persons concerned with the Kapp revolution here last March under the terms of the Government amnesty bill which was adopted by the Reichstag to-day. Exceptions will be made in the cases of leaders and those guilty of ordinary criminal offences.

## CITY DEPARTMENTS ARE GIVEN BLAME

### Vancouver Fire and Building Department Scored Following Apartment Housefire

Vancouver, Aug. 2.—Responsibility for the failure of the Balmoral Apartments to meet the requirement of city bylaws and fire prevention legislation at the time of the conflagration in that building June 20, when five were killed, is placed with the civic fire and building departments by Mr. Justice Morrison in a report to the City Council.

His Lordship was instructed by the Council to hold an investigation into the fire and among other matters to ascertain whether there was "any negligence on the part of any official of the City of Vancouver, upon whom the duty of enforcing the said bylaws devolved."

In his report Mr. Justice Morrison blames Chief Carlisle for not having issued specific instructions to the Fire Warden concerning their duties, and is critical of the Building Inspector for not seeing to it that the necessary structural defects, fire doors and other requirements were properly attended to in the case of the Balmoral. He also states that there should be no delegation of the duties of inspection by owners and agents to others to see that the provisions of the laws are carried out, and is of the opinion that the agent for the Balmoral stated in evidence that he had relied upon the janitor to keep him posted as the occasion required.

### NEW FIBRESILK PLANT

Du Pont Company to Open Big Factory Near Buffalo.

Wilmington, Del., Aug. 2.—The Du Pont Fibresilk Company, recently incorporated for the manufacture of artificial silk, has bought a plant site of 100 acres, with a frontage on the Niagara River, on the outskirts of Buffalo. When the work of construction is completed the company will have a factory area in its building of 200,000 square feet.

### LEATHER MEN HOPEFUL

But Market Still Sags and Buying of Hides is Dull.

New York, Aug. 2.—Tanners and hide merchants, while predicting an early return to activities in their products based on the expectations of the resumption of operations in the shoe trade, are still shading their prices quietly to stimulate business. During the last few days city calf skins have been sold, according to reports, for prices at twenty-five cents under the nominal quotations. A fairly large sale of city packer native steers was reported, late in the week at twenty-eight cents, the price around which quotations have hung for more than a week.

### NERVOUS ABOUT COTTON

Holders of Goods More Eager to Dispose of Them at Concessions.

### NEW BOARD CHOSEN

As a sequel to the differences between the majority of the directors and the majority of shareholders with regard to an agreement with the managing secretary, the United Co-operative Agricultural Society board has been re-organized. Five of the nine members, Messrs. Bagshaw, Banks, Higwood, Fletcher and Pursar have resigned, and the meeting last evening the following were chosen in their places: Major Aitken, M.C., Lieut. Warren, Messrs. T. Dooley, Skinnell and Whitt. The board is now composed of the members together with J. Food, president, Mrs. Richardson, Messrs. Winsby and Whittaker. The organization has now over 600 shareholders.

Passenger—"No, that is not necessary. When the train stops, I'll step off."—Selected.

# News of Markets and Finance

## EGGS UP AGAIN BUT POTATOES OFF

## ANOTHER CENT

Big Shipment of Freestone Peaches for Preserving Coming To-morrow

## NEW APPLES NOW COMING ON FAST

Eggs are up another three cents a dozen to 45 cents, on the Victoria wholesale market to-day. The trade expects the advance to continue during the next six months until the maximum price is reached in the winter.

Potatoes, however, are down another cent a pound. New Victoria potatoes are 2 1/2 cents a pound to-day and new Mainlands 3 cents a pound in sack lots. Onions are down 50 cents a sack.

## PEACHES COMING TO-MORROW

The first big carload of Freestone Elberta preserving peaches is due to-morrow and will be delivered to the retail-trade at once. They will be wholesale around \$2.15 a box. Dealers expect a big demand for peaches as the season of the sugar shortage is resulting in women starting in now to do a little preserving as a protection for the winter's food supply.

## PRICES OF WHEAT JUMP AT CHICAGO

Increased Speculative Buying Stimulated by European War Talk

Chicago, Aug. 2.—Cash corn is off 67 cents and 58 cents from the recent high point, which is unusual, says the Chicago Tribune to-day. Traders are advising caution for the time being, following the short side, as what effect, if any, the Polish war situation will have on the foreign demand for wheat and flour in the United States remains to be seen.

## SUGAR IN POLAND

In a recent issue of the Journal of the American-Polish Chamber of Commerce and Industry, attention is called to the fact that one of the most important industries in Poland is the manufacture of beet sugar. Before the war there were about 110 sugar factories in Polish countries, with an annual output of nearly 1,000,000 tons of raw sugar. With this large output Poland occupied one of the leading places in the sugar production of Europe, being only surpassed by Germany, Russia and Austria, all of which grew large amounts of sugar beets. The Polish sugar industry was expanding rapidly before the war, and it is quite possible that Poland might have attained first place among the other Central and Eastern European countries had her manufactures gone on uninterrupted. The sugar industry has flourished in Poland since 1770, when it was first started in Prussian Poland. The possibility of extracting sugar from beets was first demonstrated by Margrat, the German chemist, in 1774, and the first sugar factory was established in Silesia.

## GOOD RECOVERY AT CLOSE TO-DAY

## FURTHER ADVANCE IN CHICAGO GRAINS

(By Burdick Brothers, Ltd.)  
Chicago, Aug. 2.—Grains were quiet erratic at the opening and the trend was uncertain. Most traders were puzzled and they seemed to be taking a waiting attitude. Near the close, however, the bears became nervous and some short covering was witnessed, closing prices being the highest of the day.

## TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, Aug. 2.—The demand for cash oats to-day was extremely poor, buyers being out of the market and not inclined to follow the strength in the futures. Volney, flax and rye were also dull. The volume of business was of a light nature.

## Bonds for Safety

THE conservative investor, or, as distinguished from the speculator, demands safety rather than risk and large profits. There is a margin beyond which investment may not go. The shrewd investor demands security of principal and assurance of interest as well. The bond is his favored medium, representing a first call upon the assets of the concern issuing it. There are many high-class Municipal, Provincial and Government bonds that yield abundantly while offering absolute safety of principal.

"Tiz" makes your feet glow with comfort, takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "Tiz" instantly stops pain in corns, callouses and bunions. "Tiz" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.

FINE NEW MILL NOW IN OPERATION

Ward Six Ratepayers' Association on Thursday night in the Temperance Hall, Keating. The meeting has been called primarily for a discussion of school "frills", a subject over which vigorous controversy has been waged for many months in Saanich. It is considered that, as Ward Six is a farming section and is opposed to "frills" that an "anti-frill" candidate will be selected and that he will be opposed by a candidate favorable to the teaching of domestic science, manual training and gardening in the schools.

**NEW MILL IS STARTING TO HIT STRIDE**  
Moore - Whittington Plant Proving One of Most Efficient on Island

**AGGRESSIVE POLICY EFFECTS BIG CHANGES**

The aggressive policy which always has characterized the operations of the Moore-Whittington Lumber Company in the past has, during the last six months, created for Victoria probably the most efficient of the medium-sized sawmills on Vancouver Island. Following the destruction of the old Moore-Whittington mill early last December, the new plant, with increased capacity and embodying numerous improvements, has been operating for some months now and adding about 40,000 feet a day to the output of the Island lumber industry.

The establishment of the new mill on Pleasant Street, fronting on the Upper Harbor, adds one more chapter to the story of the company's continued expansion. The original firm was established twenty-five years ago as a contracting concern with premises in the business district. Later, in order to secure adequate supplies of material, a planing mill was established under the business name of the E. W. Whittington Lumber Company. This plant still operates busily on Bridge Street, while in 1906, not far away on Pleasant Street, the original saw mill was established. Since that time the mill has been one of the chief sources of lumber and woodwork for use in Victoria and all over the Island. On December 10, of last year, however, fire totally destroyed the mill with all its valuable machinery and cut down the output of the Victoria industry by 40,000 feet a day.

**Start Re-Building**  
Though the Company suffered a staggering set-back it was not deterred from further operations. Within two weeks work on a new mill had commenced and construction was pressed forward with the utmost rapidity. Not content with activities on its former scale, however, the Company, while facing a huge increase in the cost of machinery and all kinds of equipment, decided to make the output of the new plant fifty per cent greater than that of the old one—60,000 daily. Moreover, past experiences had taught the heads of the firm many things, and consequently the mill was laid out on far more efficient lines, with all machinery and equipment so arranged that a minimum of time and material would be wasted.

Since the big saws started to screech several months ago the mill has more than fulfilled the expectations of its builders. Though some phases of the work of construction have not been quite completed yet, 40,000 feet of lumber leaves the mill as the clock goes around, and when a big handsaw, which has been ordered, arrives and is installed, this output will be increased to 60,000 feet. This mill stands on the site of the former plant but, as stated, the arrangement of its equipment has been altered radically. Nearly every piece of machinery is new, for the flames made a total wreck of the old equipment.

**The New Mill.**  
The power to operate the hard-working plant is delivered by one 220 h. p. steam engine, which runs the big saws, another engine with 110 h. p., which is harnessed to the edger, while a 75 h. p. engine delivers power to the planing mill. The boilers which operate these engines were saved from the old mill in which they were installed shortly before the disastrous fire, but they had to be thoroughly re-fitted.

On the floor above is the sawmill proper. Logs, delivered by water

**STOPPED HER HEADACHES**  
Years of Suffering Ended By "Fruit-a-tives"

112 Hazen St., St. John, N. B.  
"It is with pleasure that I write to tell you of the great benefit I received from the use of your "Fruit-a-tives," made from fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried "Fruit-a-tives."  
After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since."  
MISS ANNIE WARD.  
60c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa.

an extensive fuel business. On this floor the Company has installed also a new sorting table—a big improvement over the equipment of the old mill—which carries the lumber, after it has gone through the other usual processes of re-sawing, into the lumber yard where it is piled. This contrivance does the work of several men and adds much to the speed and efficiency of the whole plant. On the lower floor is the planing mill, which turns out flooring and planed lumber, sash and door work, being done at the Bridge Street Sash and Door factory. In the planing mill there are operating at full speed an S. A. Woods flooring machine, a Berlin planer and an S. A. Woods edger, as well as other machinery whose names mean little to the lay mind.

**Other Equipment**  
To the north of the mill stands the steam box for steaming lumber used in sash and door work, the burner and the fuel bunkers. The burner is little used by the Company, as practically all waste material is used for fuel. The sawdust is sold to industrial concerns while the slab wood and mill ends are consumed by numerous homes throughout the city. The slabs and blocks are taken from the mill along a belt conveyor and dumped into big bunkers, from which it is loaded into wagons for delivery.

A thoroughly modern dry kiln stands to the south of the plant. The old kiln, with the old mill, was totally destroyed by the fire and the Company, following out its general program, has made its successor more efficient in every way. The capacity of the kiln, is 40,000 feet. Near the kiln stands the lumber shed, which was just saved from the flames and which was only slightly damaged. The kiln, sheds and mill have been so placed now that the company's big motor trucks and wagons can be loaded with a minimum of time wastage. The office buildings are at the entrance to the mill yards on Pleasant Street.

**Lumber Markets**  
As in the past, a large part of the Company's output is consumed by the Victoria and Island market. The local trade requires most of the output of the planing mill on Bridge Street, which also ships sash and door work to practically every point on the Island. This plant, by the way, was operated under the name of the E. W. Whittington Lumber Company up to the time of the big fire but after that it was merged with the Moore-Whittington Lumber Company under the latter's trade name, William Moore, one of the city's best known business men, is managing director of both plants and has been since operations commenced.

**Overseas Shipments**  
Lumber from the mill is consumed not only in Victoria and on the Island but also on markets in different parts of this continent and overseas. The Company's biggest water-borne overseas shipment was its contribution to the big order for 70,000,000 feet placed last year by the British Timber Controller on behalf of the British Government. The Company had no difficulty in filling its share of the order and was able also to help out some other mills which were not so fortunate.

established near the Point Ellice Bridge recently, the company arranged for the installation of a spur line for its shipments, as the terminals are in close proximity to the mill.

Victoria industry did not secure the continuance of the Moore-Whittington Company's operations without enterprise on the part of that firm. Without hesitation the Company has spent almost \$60,000 on its new plant and now is giving employment to seventy-five men. Before long, with additional machinery and further equipment in use, operations will be speeded up about fifty per cent, and undoubtedly the mill will prove itself one of the most efficient for its size on the whole Island.

A man always says appearances are deceitful when they are against him.

**RIGA WATER**  
RELIEVES HABITUAL CONSTIPATION

**DO NOT LIKE "INCREASED" PAY**  
The Post Office Men Say New Schedule Is Negatived

Post Office employees do not like the increased pay that has been announced for them by the Dominion Government under the new schedule. The trouble with this "increased" pay, they say, is that the hearing is increased but not the money they receive. Some men under the "increased" pay arrangements will owe the Government \$40 for the year, although the Government is to be considered and have them pay back only \$20.

They explain the system of increases and deduction of cost of living bonuses in this way: Letter carriers who have been receiving the maximum salary of \$239 a year for one to four years, are raised to \$1,690 for the fiscal year, 1919-20. Of this increase of \$1,451, \$67.20 is deducted and the carrier receives a cheque for \$1,322.80 as his share of a year's back pay.

A clerk who has received \$1,000 yearly salary and has had no increase for from one to four years, receives an increase of \$80 salary and has \$64 deducted. His share for the year is \$16.

Letter carriers who were increased in April, 1919, from \$626 a year to \$1,450, receive only \$1,450 up to \$82.

Under complicated re-classification regulations some of the clerks longest in the service receive an increase of salary of \$100, but only receive in actual cash \$13 for the year after deductions are made. Some after thirty years in service receive only from \$14.50 to \$16.

Single men have no back pay coming to them, with one or two exceptions. All their increases are deducted from them under the bonus regulations. This also refers to some married men, in fact, there are clerks who actually owe the Government \$40 each for the year, although they will have only to pay back \$20.

The postal men declare that the two years it took to draw up the new

schedule have been used to make them so intricate that increases are practically negatived.

If a girl refuses a young man's proposal he thinks she doesn't know her mind, so he doesn't mind her "no."

**Real-Fruit Desserts The Rarest Sort**  
The only gelatine dessert which has fruit-juice flavors sealed in glass is Jiffy-Jell.

No artificial flavor can take the place of fruit. For Jiffy-Jell the fruit is crushed, condensed and sealed in vials. A bottle of this liquid essence comes in the package. And sugar is used—not saccharine—to sweeten Jiffy-Jell.

Jiffy-Jell comes in ten flavors. Try loganberry and pineapple for desserts. Try lime-fruit flavor for tart salad jell. Try mint for a refreshing mint jell.

schedule have been used to make them so intricate that increases are practically negatived.
