Privacy Policy and Data Retention Guidelines

Protection

We use a variety of physical and measures, policies, and procedu protect your information from unauthorized access, use, or disclosure.

How long do we retain non-public data?

Unless otherwise indicated, we retain the following types of data for no more

Data type	Origin	
Personal information	Collected automatically from a user	<ul style="list-style-type: none"> IP address IP address Identifying u
	Account settings	<ul style="list-style-type: none"> Email addre
	Collected automatically	<ul style="list-style-type: none"> Data collect to an edit p

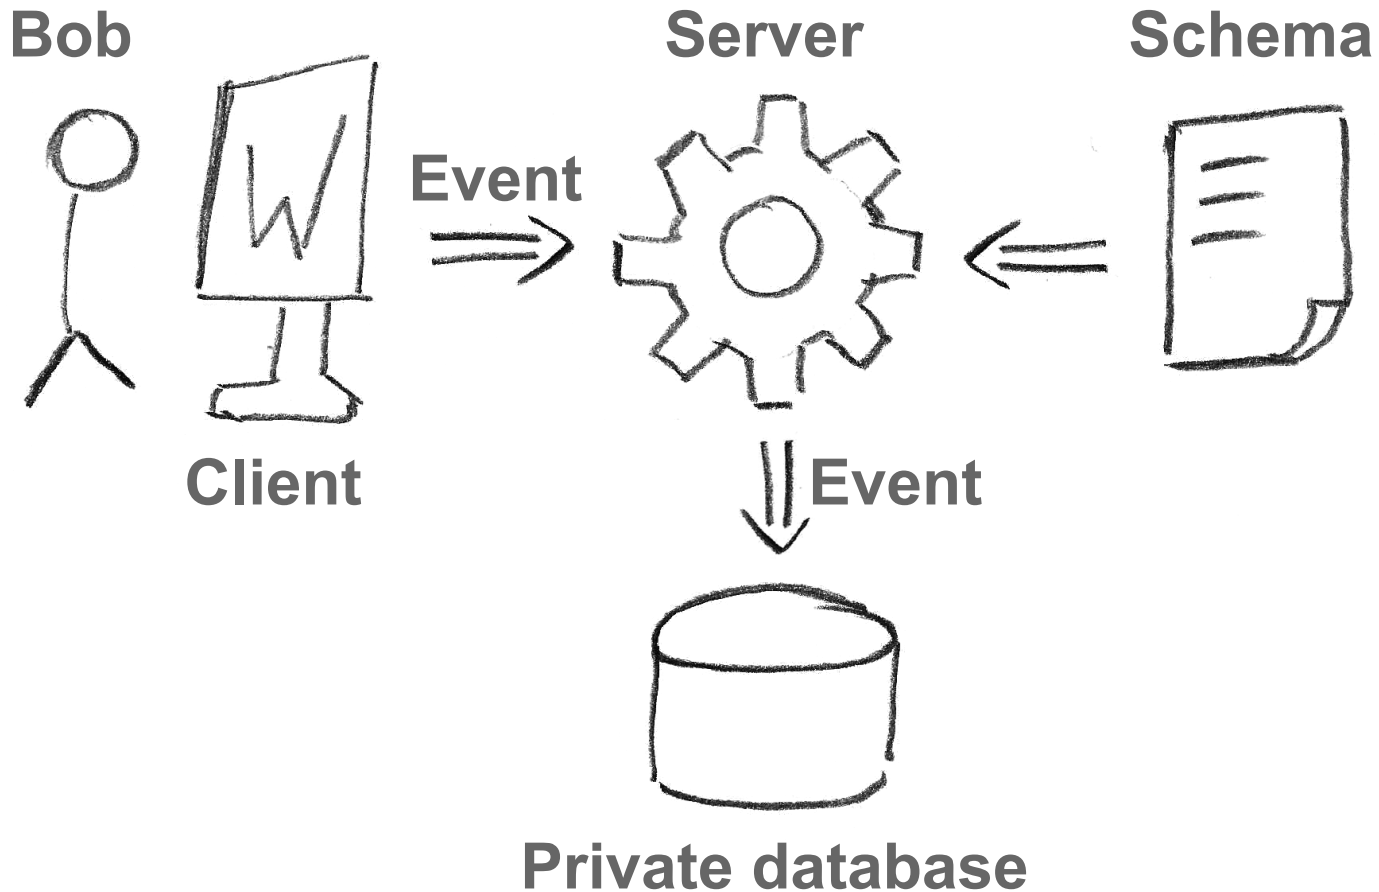

protect our systems and transmission or storage violation of our policies

Privacy Policy and Data Retention Guidelines

Audits for existing systems

These guidelines are based on practices that the Foundation has used for our server logs. However, our older systems may not yet meet these guidelines. As these guidelines are adopted, WMF's technology teams plan to migrate data, which may not necessarily occur in a gradual fashion.

EventLogging

```
{
```

Schema

```
  "userName": "string",  
  "imageTitle": "string",  
  "timestamp": "number"
```

```
}
```

```
{
```

Event

```
  "userName": "Bob",  
  "imageTitle": "Fluffy Dog",  
  "timestamp": 1234567890
```

```
}
```

1

Collect status of schemas

Schema talk:MobileWebEditing

Maintainer: [Jon Katz](#) & [Sam Smith](#)

This page holds a [JSON](#) schema

Team: Reading - Web

Project: [Mobile Wikimedia sites](#)

Status: active

Purge: Auto-purge username +
eventCapsule PII after 90 days

Category: [Schemas \(active\)](#)

2

Look for sensitive structures

User Account Identifier

```
{
```

```
  "userName": "Bob",  
  "imageTitle": "Fluffy Dog",  
  "timestamp": 1234567890
```

```
}
```

Event

Related Sensitive Information

```
{
```

```
  "userName": "Bob",
```

```
  "imageTitle": "Fluffy Dog",
```

```
  "timestamp": 1234567890
```

```
}
```

Event

Bob

Fluffy Dog

90
days

3

Agree on purging strategy

sensitive

full purge

**partially
sensitive**

partial purge

**not
sensitive**

minimal purge

4

Activate auto-purging [TODO]
