DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2008-0873; Airspace Docket No. 08-AGL-7]

Establishment of Class E Airspace; Branson, MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Branson Airport, Branson, MO. Establishment of an air traffic control tower and Standard Instrument Approach Procedures (SIAPs) have made this action necessary for the safety of Instrument Flight Rule (IFR) operations at the airport. Also, this action corrects the name to Branson Airport, and makes a correction to the geographic coordinates for Branson Airport.

DATES: *Effective Date:* 0901 UTC, March 12, 2009. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Scott Enander, Central Service Center, Operations Support Group, Federal Aviation Administration, Southwest Region, 2601 Meacham Blvd., Ft. Worth, TX 76193-0530; telephone (817) 222-5582.

SUPPLEMENTARY INFORMATION:

History

On October 22, 2008, the FAA published in the *Federal Register* a notice of proposed rulemaking to establish Class E airspace at Branson, MO (73 FR 62940, Docket No. FAA-2008-0873). Interested parties were

invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. With the exception of editorial changes, and the changes described above, this rule is the same as that proposed in the NPRM. Class E airspace designations are published in paragraphs 6002 and 6005 of FAA Order 7400.9S signed October 3, 2008, and effective October 31, 2008, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by establishing Class E airspace at Branson Airport, Branson, MO. Controlled airspace is necessary to accommodate a new air traffic control tower and SIAPs for IFR operations at this new airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, SECTION 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the

scope of that authority as it establishes controlled airspace at Branson Airport, Branson, MO.

RIN 0694-AE35

Burma: Revision of Restrictions on Exports, Reexports and Transfers to Persons Whose Property and Interests in Property Are Blocked Pursuant to Executive Orders

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: In response to the Government of Burma's continued repression of the democratic opposition in Burma, and consistent with Executive Order 13047 of May 20, 1997, Executive Order 13310 of July 28, 2003, Executive Order 13448 of October 18, 2007, and the Trade Sanctions Reform and Export Enhancement Act (Title IX of Pub. L. 106-387), the Bureau of Industry and Security (BIS) previously amended the Export Administration Regulations (EAR) on October 24, 2007 to impose a license requirement for most exports, reexports, or transfers of items subject to the EAR to persons whose property and interests in property are blocked pursuant to those Executive Orders. In light of the Government of Burma's continued repression of the democratic opposition in Burma and unwillingness to respond to the calls of the Burmese people for genuine dialogue that will lead to a democratic transition in Burma, this final rule amends the EAR to extend these existing licensing requirements to persons whose property and interests in property are blocked pursuant to Executive Order 13464 of April 30, 2008.

DATES: *Effective Date:* This rule is effective January 8, 2009. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis.

ADDRESSES: You may submit comments, identified by RIN 0694-AE35 (Burma II), by any of the following methods:

Comments on this collection of information should be submitted separately from comments on the final rule (i.e. RIN 0694-AE35 (Burma II))—all comments on the latter should be submitted by one of the three methods outlined above.

SUPPLEMENTARY INFORMATION:

Background

In response to the Government of Burma's repression of the democratic opposition in Burma, the President has issued a series of Executive Orders imposing economic sanctions on the Burmese regime. In 1997, pursuant to Executive Order 13047 (May 20, 1997) and other relevant authorities, the U.S. imposed a ban on new investments in Burma by U.S. persons. In 2003, pursuant to Executive Order 13310 (July 28, 2003) and other relevant authorities, the U.S. imposed additional economic sanctions, including a ban on all imports from Burma, a ban on the export of financial services by U.S. persons to Burma, and the freezing of assets of designated Burmese persons listed in the Annex or subsequently designated according to the criteria of the Executive Order. The sanctions are primarily administered by the Department of the Treasury's Office of Foreign Assets Control (OFAC).

In 2007, the President further expanded the sanctions by issuing

Executive Order 13448 (October 18, 2007), which listed certain additional persons in its Annex and set forth additional criteria for blocking the property and interests in property of additional persons. Consistent with Executive Orders 13310 and 13448, and the Trade Sanctions Reform and Export Enhancement Act (Title IX of Pub. L. 106-387), BIS issued a final rule, published in the *Federal Register* on October 24, 2007 (72 FR 60248, October 24, 2007), amending the EAR to impose a license requirement for exports, reexports or transfers of items subject to the EAR, except agricultural commodities, medicine, or medical devices classified as EAR99, to persons listed in or designated pursuant to Executive Orders 13310 or 13448. The 2007 BIS rule created section 744.22 of the EAR to set forth this licensing requirement.

Further, in part 740 of the EAR (License Exceptions), that rule moved Burma from Computer Tier 1 to Computer Tier 3, restricting access to high-performance computers and certain related technology and software under License Exception APP (Section 740.7). In Supplement No. 1 to part 740 (Country Groups), that rule moved Burma from Country Group B (countries raising few national security concerns) to Country Group D:1 (countries raising national security concerns), which further limits the number of license exceptions available for exports to Burma. Burma remained in Country Group D:3 (countries raising proliferation concerns related to chemical and biological weapons).

In this final rule, BIS further amends the EAR to expand the existing licensing requirements in section 744.22 of the EAR to include persons whose property and interests in property are blocked pursuant to Executive Order 13464 of April 30, 2008 (73 FR 24489, May 2, 2008). The Annex to Executive Order 13464 designates certain persons subject to this prohibition, and provides criteria for additional designations. Additional designations were announced by the Department of the Treasury on July 29, 2008 (73 FR 45270 and 73 FR 45271, both of August 4, 2008). As set forth in section 744.22 of the EAR, exports, reexports or transfers of items subject to the EAR, except agricultural commodities, medicine, or medical devices classified as EAR99, to any person whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464, require a license under the EAR.

The licensing requirements set forth in section 744.22 of the EAR are applicable to all persons whose property

and interests in property are blocked pursuant to Executive Orders 13310, 13448, or 13464. This includes persons listed in or designated pursuant to Executive Orders 13310, 13448, or 13464. Such persons are identified with the reference [BURMA] on OFAC's list of Specially Designated Nationals and Blocked Persons set forth in Appendix A to 31 CFR Chapter V and on OFAC's Web site at <http://www.treas.gov/OFAC>. Consistent with guidance issued by OFAC on February 14, 2008, a person whose property and interests in property are blocked pursuant to an Executive order or regulations administered by OFAC is considered to have an interest in all property and interests in property of an entity in which it owns, directly or indirectly, a 50% or greater interest. The property and interests in property of such an entity are blocked, and licensing requirements in section 744.22 of the EAR apply to the entity, regardless of whether the entity itself is listed in the annex to an Executive order or otherwise designated pursuant to such order. The OFAC guidance on this topic is available at http://www.treas.gov/offices/enforcement/ofac/programs/common/licensing_guidance.pdf. Exporters should contact OFAC directly if you have questions about how to determine interest in property for purposes of complying with this final rule.

As was previously the case, in order to avoid duplication, U.S. persons are not required to seek separate BIS authorization for an export, reexport, or transfer to a person identified in section 744.22 of any item subject to both the EAR and regulations maintained by OFAC. Therefore, if OFAC authorizes an export from the United States or an export, reexport, or transfer by a U.S. person to a person identified in section 744.22, no separate authorization from BIS is necessary.

Consistent with the provisions of section 6 of the Export Administration Act of 1979, as amended (EAA), a foreign policy report was submitted to Congress on January 2, 2009, notifying Congress of the imposition of foreign policy-based licensing requirements reflected in this rule.

Although the EAA expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), which has been extended by successive Presidential Notices, the most recent being that of July 23, 2008 (73 FR 43603 (July 23, 2008)), has continued the EAR in effect under the International Emergency Economic Powers Act.

Saving Clause

Shipments of items removed from eligibility for export or reexport under a license exception or without a license (*i.e.*, under the designator "NLR") as a result of this regulatory action that were on dock for loading, on lighter, laden aboard an exporting carrier, or en route aboard a carrier to a port of export, on February 9, 2009, pursuant to actual orders for export or reexport to a foreign destination, may proceed to that destination under the previously applicable license exception or without a license (NLR) so long as they are exported or reexported before February 23, 2009. Any such items not actually exported or reexported before midnight, on February 23, 2009, require a license in accordance with this regulation.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule involves a collection of information subject to the PRA. The collection has been approved by OMB under control number 0694-0088, "Multi-Purpose Application," and carries a burden hour estimate of 58 minutes for a manual or electronic submission. Send comments regarding these burden estimates or any other aspect of these collections of information, including suggestions for reducing the burden, to Jasmeet Sehra, Office of Management and Budget (OMB), and to the Regulatory Policy Division, Bureau of Industry and Security as indicated in the ADDRESSES section of this rule.

3. This rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (5 U.S.C. 553(a)(1)). Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by

any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Sheila Quarterman, Regulatory Policy Division, Office of Exporter Services, Bureau of Industry and Security, Department of Commerce, 14th St. & Pennsylvania Avenue, NW., Room 2705, Washington, DC 20230.

■ 2. Section 744.22 is revised to read as follows:

§ 744.22 Restrictions on Exports, Reexports and Transfers to Persons Whose Property and Interests in Property Are Blocked Pursuant to Executive Orders 13310, 13448 or 13464.

Consistent with Executive Order 13310 of July 28, 2003, Executive Order 13448 of October 18, 2007 and Executive Order 13464 of April 30, 2008, BIS maintains restrictions on exports, reexports, and transfers to persons whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464. These persons include individuals and entities listed in the Annexes to Executive Orders 13310, 13448 and 13464, as well as other persons whose property and interests in property are blocked pursuant to those orders.

(a) *License Requirements.* (1) A license requirement applies to the export, reexport, or transfer of any item

subject to the EAR (except for agricultural commodities, medicine, or medical devices, classified as EAR99 and destined for entities whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464) to—

(i) Persons listed in the Annexes to Executive Order 13310 of July 28, 2003, Executive Order 13448 of October 18, 2007 or Executive Order 13464 of April 30, 2008; or

(ii) Persons designated pursuant to Executive Order 13310, Executive Order 13448 or Executive Order 13464.

Note to paragraph (a)(1): All persons listed in or designated pursuant to Executive Orders 13310, 13448, or 13464 are identified with the reference [BURMA] on OFAC's list of Specially Designated Nationals and Blocked Persons set forth in Appendix A to 31 CFR Chapter V and on OFAC's Web site at <http://www.treas.gov/OFAC>. Consistent with guidance issued by OFAC on February 14, 2008, a person whose property and interests in property are blocked pursuant to an Executive Order or regulations administered by OFAC is considered to have an interest in all property and interests in property of an entity in which it owns, directly or indirectly, a 50% or greater interest. The property and interests in property of such an entity are blocked, regardless of whether the entity itself is listed in the annex to an Executive order or otherwise designated pursuant to such order. The OFAC guidance on this topic is available at http://www.treas.gov/offices/enforcement/ofac/programs/common/licensing_guidance.pdf.

(2) To avoid duplication, U.S. persons are not required to seek separate BIS authorization for an export, reexport, or transfer to a person identified in paragraph (a) of this section of any item subject to both the EAR and regulations maintained by OFAC. Therefore, if OFAC authorizes an export from the United States or an export, reexport, or transfer by a U.S. person to a person identified in paragraph (a) of this section, no separate authorization from BIS is necessary.

(3) U.S. persons must seek authorization from BIS for the export, reexport, or transfer to a person identified in paragraph (a) of this section of any item subject to the EAR (except for agricultural commodities, medicine, or medical devices, classified as EAR99 and destined for entities whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464) but not subject to regulations maintained by OFAC.

(4) Non-U.S. persons must seek authorization from BIS for the export from abroad, reexport, or transfer to a person identified in paragraph (a) of this

section of any item subject to the EAR (except for agricultural commodities, medicine, or medical devices, classified as EAR99 and destined for entities whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464).

(5) Any export, reexport, or transfer to a person identified in paragraph (a) of this section by a U.S. person of any item subject both to the EAR and regulations maintained by OFAC and not authorized by OFAC is a violation of the EAR.

(6) Any export, reexport, or transfer by a U.S. person to a person identified in paragraph (a) of this section of any item subject to the EAR (except for agricultural commodities, medicine, or medical devices, classified as EAR99 and destined for entities whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464) that is not subject to regulations maintained by OFAC and not authorized by BIS is a violation of the EAR. Any export from abroad, reexport, or transfer by a non-U.S. person to a person identified in paragraph (a) of this section of any item subject to the EAR (except for agricultural commodities, medicine, or medical devices, classified as EAR99 and destined for entities whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464) and not authorized by BIS is a violation of the EAR.

(7) These licensing requirements supplement any other requirements set forth elsewhere in the EAR.

(b) *Exceptions.* No License Exceptions or other BIS authorizations are available for export, reexport, or transfer to a person identified in paragraph (a) of this section of any item subject to the EAR (except for agricultural commodities, medicine, or medical devices, classified as EAR99 and destined for entities whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448, or 13464).

(c) *Licensing policy.* Applications for licenses for the export, reexport, or transfer to a person identified in paragraph (a) of this section of any item subject to the EAR (except for agricultural commodities, medicine, or medical devices, classified as EAR99 and destined for entities whose property and interests in property are blocked pursuant to Executive Orders 13310, 13448 or 13464) will generally be denied. You should consult with OFAC concerning transactions subject to OFAC licensing requirements.

(d) *Contract sanctity.* Contract sanctity provisions are not available for license applications reviewed under this section, except as available under 31 CFR 537.210(c).

DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency****44 CFR Part 64**

[Docket ID FEMA-2008-0020; Internal Agency Docket No. FEMA-8057]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date.

DATES: Effective Dates: The effective date of each community's scheduled suspension is the third date ("Susp.") listed in the third column of the following tables.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a

particular community was suspended on the suspension date or for further information, contact David Stearrett, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2953.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase flood insurance which is generally not otherwise available. In return, communities agree to adopt and administer local floodplain management aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage as authorized under the NFIP, 42 U.S.C. 4001 *et seq.*, unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59. Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. However, some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the **Federal Register**.

In addition, FEMA has identified the Special Flood Hazard Areas (SFHAs) in these communities by publishing a Flood Insurance Rate Map (FIRM). The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance

pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may legally be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year, on FEMA's initial flood insurance map of the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective

date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Interim rule.

SUMMARY: This interim rule lists communities where modification of the Base (1% annual-chance) Flood

Elevations (BFEs) is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified BFEs for new buildings and their contents.

DATES: These modified BFEs are currently in effect on the dates listed in the table below and revise the Flood Insurance Rate Maps (FIRMs) in effect prior to this determination for the listed communities.

From the date of the second publication of these changes in a newspaper of local circulation, any person has ninety (90) days in which to request through the community that the Mitigation Assistant Administrator of FEMA reconsider the changes. The modified BFEs may be changed during the 90-day period.

ADDRESSES: The modified BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering

Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The modified BFEs are not listed for each community in this interim rule. However, the address of the Chief Executive Officer of the community where the modified BFE determinations are available for inspection is provided.

Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified BFEs are the basis for the floodplain management measures that the community is required to either adopt or to show evidence of being

already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by the other Federal, State, or regional entities. The changes to BFEs are in accordance with 44 CFR 65.4.

National Environmental Policy Act. This interim rule is categorically excluded from the requirements of 44

CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This interim rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This interim rule involves no policies that have federalism implications under Executive Order 13132, Federalism.

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2008-0020; Internal Agency Docket No. FEMA-B-1029]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1 percent annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, these elevations, once finalized, will be used by insurance agents and others to calculate appropriate flood insurance

premium rates for new buildings and the contents in those buildings.

DATES: Comments are to be submitted on or before April 8, 2009.

ADDRESSES: The corresponding preliminary Flood Insurance Rate Map (FIRM) for the proposed BFEs for each community are available for inspection at the community's map repository. The respective addresses are listed in the table below.

You may submit comments, identified by Docket No. FEMA-B-1029, to William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151, or (e-mail) bill.blanton@dhs.gov.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151 or (e-mail) bill.blanton@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

Comments on any aspect of the Flood Insurance Study and FIRM, other than the proposed BFEs, will be considered.

A letter acknowledging receipt of any comments will not be sent.

Administrative Procedure Act Statement. This matter is not a rulemaking governed by the Administrative Procedure Act (APA), 5 U.S.C. 553. FEMA publishes flood elevation determinations for notice and comment; however, they are governed by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and do not fall under the APA.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental

impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Executive Order 12866, Regulatory Planning and Review. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866, as amended.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Pacific Islands Region Coral Reef Ecosystems Logbook and Reporting.

Form Number(s): None.

OMB Approval Number: 0648-0462.

Type of Request: Regular submission.

Burden Hours: 382.

Number of Respondents: 5.

Average Hours per Response: At-sea notification, 3 minutes; daily catch report, 30 minutes; and transshipment log, 15 minutes.

Needs and Uses: Under the Magnuson-Stevens Fishery Conservation and Management Act, logbooks are required for United States (U.S.) fishing vessels registered to use (or any U.S. citizen issued with) a Special Coral Reef Ecosystem Fishing Permit authorized under the Fishery Management Plan for Coral Reef Ecosystems of the Western Pacific Region. The information in the mandatory logbooks are used to obtain fish catch/fishing effort data on coral reef taxa harvested in designated low-use marine protected areas and on potentially harvested coral reef taxa in certain waters of the U.S. exclusive economic zone in the western Pacific region. These data are needed to determine the condition of the stocks and whether the current management measures are having the intended effects, to evaluate the benefits and costs of changes in management measures, and to monitor and respond to incidental takes of endangered and threatened marine animals.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 7845, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, and the United Kingdom: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: January 8, 2009.

FOR FURTHER INFORMATION CONTACT: Yang Jin Chun or Richard Rimlinger, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-5760 or (202) 482-4477, respectively.

SUPPLEMENTARY INFORMATION:

Background

At the request of interested parties, the Department of Commerce (the Department) initiated administrative reviews of the antidumping duty orders on ball bearings and parts thereof from France, Germany, Italy, Japan, and the United Kingdom for the period May 1, 2007, through April 30, 2008. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 73 FR 37409 (July 1, 2008). The preliminary results of the reviews are currently due no later than February 2, 2009.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. If it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month.

We determine that it is not practicable to complete the preliminary results of these reviews within the original time limit because several respondents we had selected for individual examination

under section 777A(c)(2)(B) of the Act withdrew their requests for reviews on or before October 15, 2008. As a result, we identified additional respondents to examine on October 21, 2008. See the October 21, 2008, memoranda from Richard Rimlinger to Laurie Parkhill entitled "Ball Bearings and Parts Thereof from Japan Identification of Respondents" and "Ball Bearings and Parts Thereof from the United Kingdom Identification of Respondents." Therefore, we are extending the time period for issuing the preliminary results of these reviews by 80 days until April 21, 2009.

This notice is published in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: December 31, 2008.

Honey From the People's Republic of China: Final Results and Partial Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On November 7, 2008, the Department of Commerce ("Department") published the preliminary results of its administrative review of the antidumping duty order on honey from the People's Republic of China ("PRC"), covering the period of December 1, 2006, through November 30, 2007. See *Sixth Administrative Review of Honey From the People's Republic of China: Preliminary Results and Partial Rescission of Antidumping Duty Administrative Review*, 73 FR 66221 (November 7, 2008) ("*Preliminary Results*"). The Department received no comments on its *Preliminary Results*.

DATES: *Effective Date:* January 8, 2009.

FOR FURTHER INFORMATION CONTACT: Paul Walker or Scot Fullerton, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0413 or (202) 482-1386, respectively.

Case History

After issuing the *Preliminary Results* on November 7, 2008, the Department provided Anhui Native Produce Import & Export Corporation ("Anhui Native"), the only participating respondent in this review, an opportunity to correct certain deficiencies in its section C database. See the Department's letter dated November 17, 2008. Specifically, as noted in the *Preliminary Results*, Anhui Native reported antidumping duties rather than Customs duties in its section C database. See *Preliminary Results*. On November 21, 2008, Anhui Native submitted a revised section C database. See Anhui Native's November 21, 2008 submission at Exhibit 1.

Additionally, the Department invited interested parties to comment on the *Preliminary Results*. No interested party, including Anhui Native, submitted a case brief or comments, or requested a hearing. Therefore, the Department made only one change from the *Preliminary Results*, incorporating Anhui Native's revised section C database in the dumping margin calculation for these final results.

Scope of Order

The products covered by the order are natural honey, artificial honey containing more than 50 percent natural honey by weight, preparations of natural honey containing more than 50 percent natural honey by weight and flavored honey. The subject merchandise includes all grades and colors of honey whether in liquid, creamed, comb, cut comb, or chunk form, and whether packaged for retail or in bulk form.

The merchandise subject to the order is currently classifiable under subheadings 0409.00.00, 1702.90.90 and 2106.90.99 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the Department's written description of the merchandise under order is dispositive.

Final Partial Rescission

In the *Preliminary Results*, the Department preliminarily rescinded this review with respect to the following companies: Dongtai Peak Honey Industry Co., Ltd. ("Dongtai Peak") and Wuhu Qinshi Tangye Co., Ltd. ("Tangye"). We received no comments or information to change our preliminary rescission. Therefore, we are rescinding this administrative review with respect to Dongtai Peak and Tangye.

Final Results of the Review

The Department finds that the following margins exist for the following exporters under review for the

period December 1, 2006, through November 30, 2007:

HONEY FROM THE PRC

Manufacturer/exporter	Margin (per kilogram)
Anhui Native	\$2.63
PRC-wide Entity ¹	\$2.63

¹The PRC-wide entity includes Alfred L. Wolff (Beijing) Co., Ltd., Cheng Du Wai Yuan Bee Products Co., Ltd., Haoluck Co., Ltd., Hubei Yusun Co., Ltd., Inner Mongolia Youth Trade Development Co., Ltd., Mgl. Yung Sheng Honey Co., Ltd. (also DBA Fresh Honey Co., Ltd.), Nefelon Limited Company and Qinhuangdao Municipal Dafeng Industrial Co., Ltd.

Assessment of Antidumping Duties

The Department will determine, and U.S. Customs and Border Protection ("CBP") shall assess, antidumping duties on all appropriate entries pursuant to section 751(a)(1)(B) of the Tariff Act of 1930, as amended ("Act"), and 19 CFR 351.212(b). The Department intends to issue appropriate assessment instructions directly to CBP 15 days after the date of publication of the final results of this review.

Consistent with the *Fifth AR Final Results*, we will direct CBP to assess importer-specific assessment rates based on the resulting per-unit (*i.e.*, per kilogram) amount on each entry of the subject merchandise during the period of review. See *Honey from the People's Republic of China: Final Results and Rescission, In Part, of Aligned Antidumping Duty Administrative Review and New Shipper Review*, 73 FR 42321 (July 21, 2008) ("*Fifth AR Final Results*"). For assessment purposes, we calculated importer-specific assessment rates for honey from the PRC. Specifically, we divided the total duties for each importer by the total quantity of subject merchandise sold to that importer during the period of review ("POR") to calculate a per-unit assessment amount. We will direct CBP to assess importer-specific assessment rates based on the resulting per-unit (*i.e.*, per kilogram) amount on each entry of the subject merchandise during the POR if any importer-specific assessment rate calculated in the final results of this review is above *de minimis*.

Cash Deposit Requirements

The following cash-deposit requirements will be effective upon publication of the final results for shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results, as provided by section 751(a)(2)(C) of the

Act: (1) For subject merchandise exported by Anhui Native the cash deposit rate will be \$2.63 per kilogram; (2) for all other PRC exporters of subject merchandise which have not been found to be entitled to a separate rate and, thus, are a part of the PRC-wide entity, the cash-deposit rate will be the PRC-wide rate of \$2.63 per-kilogram; (3) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have a separate rate, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash-deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a final reminder to parties subject to the administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under the APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice is in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: December 30, 2008.

Assistant Secretary for Import Administration.

Persulfates From the People's Republic of China: Notice of Rescission of the 2007-2008 Administrative Review of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* January 8, 2009.

FOR FURTHER INFORMATION CONTACT: Giselle Cubillos, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1778.

Background

On July 11, 2008, the Department of Commerce ("the Department") published a notice of opportunity to request an administrative review of the antidumping duty order on persulfates from the People's Republic of China ("PRC"). See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 73 FR 39948 (July 11, 2008). On July 31, 2008, FMC Corporation ("FMC"), a domestic producer of persulfates, requested that the Department conduct an administrative review of Shanghai AJ Import & Export Corporation—Degussa-AJ Shanghai Initiators Co., LTD.'s exports to the United States for the period of review ("POR") July 1, 2007, through June 30, 2008. Pursuant to this request, the Department published a notice of the initiation of the administrative review of the antidumping duty order on persulfates from the PRC. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 73 FR 50308 (August 26, 2008).

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if a party that requested a review withdraws the request within 90 days of the date of publication of the notice of initiation. On December 3, 2008, FMC timely withdrew its request for a review, and no other interested party requested a review of this company.¹ Therefore,

¹ On November 26, 2008, in response to a request from FMC, the Department extended the deadline for FMC to withdraw its review request from November 24, 2008, until December 3, 2008.

the Department is rescinding this administrative review of the antidumping duty order on persulfates from the PRC covering the period July 1, 2007, through June 30, 2008, in accordance with 19 CFR 351.213(d)(1).

Assessment

The Department will instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on all appropriate entries. Antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions directly to CBP 15 days after the publication of this notice in the *Federal Register*.

Notification to Interested Parties

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Pursuant to 19 CFR 351.402(f)(3), failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO, in accordance with 19 CFR 351.305 and as explained in the APO itself. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: January 2, 2009.

Edward C. Yang,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish Fisheries in the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; intent to prepare an environmental assessment or an environmental impact statement; request for written comments.

SUMMARY: NMFS, in consultation with the North Pacific Fishery Management Council, announces its intent to prepare either an Environmental Assessment (EA) or an Environmental Impact Statement (EIS) on measures to minimize non-Chinook salmon bycatch in the Bering Sea, in accordance with the National Environmental Policy Act of 1969. The proposed action would replace the current Chum Salmon Savings Area in the Bering Sea, and the specific exemption to the area closure, with new regulatory closures, salmon bycatch limits, or a combination of both. The scope of the EA or EIS will be to determine the impacts to the human environment resulting from the measures to minimize non-Chinook salmon bycatch. NMFS will accept written comments from the public to determine the issues of concern and the appropriate range of alternatives for analysis.

DATES: Written comments must be received by March 23, 2009.

ADDRESSES: Written comments on issues and alternatives should be sent to Sue Salvesson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, Attn: Ellen Sebastian. Comments may be submitted by:

FOR FURTHER INFORMATION CONTACT:

Gretchen Harrington, (907) 586-7228.

SUPPLEMENTARY INFORMATION: Under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the United States has exclusive fishery management authority over all living marine resources found within the exclusive economic zone. The management of these marine resources, with the exception of certain marine mammals and birds, is vested in the Secretary of Commerce. The North Pacific Fishery Management Council (Council) has the responsibility to prepare fishery management plans for those marine resources off Alaska requiring conservation and management. Management of the Federal groundfish fishery in the Bering Sea is carried out under the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP). The FMP, its amendments, and implementing regulations (found at 50 CFR part 679) are developed in accordance with the requirements of the Magnuson-Stevens Act and other applicable Federal laws and executive orders, notably the National Environmental Policy Act (NEPA) and the Endangered Species Act (ESA).

The Council is considering new measures to minimize non-Chinook salmon bycatch in the Bering Sea pollock fishery because of the potential negative impacts on salmon stocks in general, and on western Alaska salmon stocks in particular. Four species of salmon (sockeye, coho, pink, and chum) are aggregated into a "non-Chinook salmon" species category for catch accounting and prohibited species catch limits. Chum salmon comprises over 99.6% of the total catch in this category. The majority of non-Chinook bycatch occurs in the pollock trawl fishery during the B season (June 10 to November 1). Historically, the portion of the non-Chinook bycatch from the pollock trawl fishery has ranged from 88% to over 99.5% of all non-Chinook salmon bycatch in the federal groundfish fisheries. Since 2002, bycatch of non-Chinook salmon in the pollock fishery has comprised over 95%

of the total non-Chinook salmon bycatch.

From 1991 through 2002, the average annual bycatch in the Bering Sea pollock fishery was 72,668 non-Chinook salmon. From 2003 through 2006, non-Chinook salmon bycatch numbers increased substantially to a historic high of 704,989 non-Chinook salmon in 2005. Bycatch since 2006 has declined substantially, with a 2008 bycatch of 15,002 non-Chinook salmon. The numbers of non-Chinook salmon bycatch in the Bering Sea pollock fishery from 2003 through 2008 are shown in the following table:

Year	Number of non-Chinook salmon
2003	195,135
2004	440,692
2005	704,989
2006	309,676
2007	94,349
2008	15,002

NMFS and the Council are initiating scoping in the event that an Environmental Impact Statement (EIS) is the required NEPA document for the proposed action and its alternatives. We are seeking information from the public through the scoping process on the range of alternatives to be analyzed, and on the environmental, social, and economic issues to be considered in the analysis. Written comments generated during this scoping process will be provided to the Council and incorporated into the EIS, or the EA if we determine that an EIS is not required.

Chum Salmon Savings Area and Prohibited Species Catch Limit

The Chum Salmon Savings Area in the Bering Sea is a time-area closure designed to reduce overall non-Chinook salmon bycatch in the federal groundfish trawl fisheries. This time-area closure was adopted based on historically observed salmon bycatch rates and was designed to avoid areas and times of high non-Chinook salmon bycatch. The Chum Salmon Savings Area is closed to pollock fishing from August 1 through August 31 of each year. Additionally, if the prohibited species catch limit of 42,000 non-Chinook salmon are caught by vessels using trawl gear in the Catcher Vessel Operational Area during the period August 15 through October 14, the Chum Salmon Savings Area remains

closed to directed fishing for pollock for the remainder of the calendar year.

Non-CDQ and CDQ pollock vessels participating in an inter-cooperative agreement (ICA) using the Voluntary Rolling Hotspot System (VHRS) are exempted from closures of the Chum Salmon Savings Area. The purpose of the VHRS ICA is to use real-time salmon bycatch information to avoid areas of high non-Chinook salmon bycatch rates. The ICA utilizes a system of base bycatch rates, assignment of vessels to tiers based on bycatch rates relative to the base rate, a system of closures for vessels in certain tiers, and monitoring and enforcement through private contractual arrangements. The VHRS ICA was necessary because comparisons of non-community development quota (non-CDQ) vessels fishing outside of the salmon savings areas with CDQ vessels fishing inside of the salmon savings areas indicated that salmon bycatch rates were much higher outside of the savings areas, and closures were displacing vessels to higher bycatch areas.

Proposed Action

The proposed action is to replace the current Chum Salmon Savings Areas and the VHRS ICA regulations with new regulatory closures, salmon bycatch limits, or a combination of both based on current salmon bycatch information. The purpose of the proposed action is to minimize non-Chinook salmon bycatch to the extent practicable while achieving optimum yield from the pollock fishery. The proposed action is necessary to ensure long-term conservation and abundance of salmon, maintain a healthy marine ecosystem, provide maximum benefit to fishermen and communities that depend on salmon and pollock, and comply with the Magnuson-Stevens Act.

Alternative Management Measures

We will evaluate a range of alternative management measures for the Bering Sea pollock fishery. Alternatives may be formulated based on the elements identified here, and those developed through the public scoping and Council processes. Possible alternatives could be constructed from one or more of the following measures:

1. Hard Cap - Establish a hard cap for non-Chinook salmon bycatch in the CDQ and non-CDQ pollock fisheries. The eight hard cap options range from 58,176 to 488,045 non-Chinook salmon. Hard caps could be apportioned to the CDQ and non-CDQ pollock fisheries or divided among the fishery sectors. Sector level caps could be further divided among the cooperatives. Fishery

participants would be required to stop fishing when the hard cap is reached.

2. Triggered area closure – Establish a salmon savings area closure based on current salmon bycatch information. These closures would occur once a specified cap level was reached.

Additional information about non-Chinook salmon bycatch and the alternatives that the Council may consider may be found on the Council's website at: http://www.alaskafisheries.noaa.gov/npfmc/current_issues/bycatch/chumbycatch1208.pdf.

Preliminary Identification of Issues

A principal objective of the scoping and public input process is to identify potentially significant impacts to the human environment. The analysis will evaluate the impacts of the alternatives for all resources, species, and issues that may be directly or indirectly affected by non-Chinook salmon bycatch in the Bering Sea pollock fisheries. The following components of the biological and physical environment may be evaluated: (1) target and non-target fish stocks, forage fish, and prohibited species, including salmon species; (2) species listed under the ESA and their critical habitat; (3) seabirds; (4) marine mammals; and (5) the ecosystem.

Social and economic impacts also would be considered in terms of the effects that changes to non-Chinook salmon bycatch management measures would have on the following groups of individuals: (1) those who participate in harvesting pollock; (2) those who process and market pollock and pollock products; (3) those who consume pollock products; (4) those who rely on living marine resources caught in the management area, particularly non-Chinook salmon; (5) those who benefit from subsistence, commercial, and sport salmon fisheries; and (6) fishing communities.

Public Involvement

Scoping is an early and open process for determining the scope of issues to be addressed in an EA for EIS and for identifying the significant issues related to the proposed action. A principal objective of the scoping and public involvement process is to identify a range of reasonable management alternatives that will delineate critical issues and provide a clear basis for distinguishing among those alternatives and selecting a preferred alternative. Through this notice, we are notifying the public that a NEPA analysis and decision-making process for this proposed action has been initiated so that interested or affected people may

participate and contribute to the final decision.

We are seeking written public comments on the scope of issues, including potential impacts, and alternatives that should be considered in revising non-Chinook salmon bycatch management measures. Written comments will be accepted at the address above (see **ADDRESSES**). Written comments should be as specific as possible to be the most helpful. Written comments received during the scoping process, including the names and addresses of those submitting them, will be considered part of the public record of this proposal and will be available for public inspection.

The public is invited to participate and provide input at Council meetings where the latest scientific information regarding salmon bycatch in the Bering Sea pollock fishery is reviewed and alternative non-Chinook salmon bycatch reduction measures are developed and evaluated. Notice of future Council meetings will be published in the *Federal Register* and posted on the Internet at <http://alaskafisheries.noaa.gov/>. Please visit this website for more information on this proposed action and for guidance on submitting effective public comments.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Proposed Project

Health survey of former Marines, dependents, and employees potentially

exposed to contaminated drinking water at USMC Camp Lejeune—New—Agency for Toxic Substances and Disease Registry (ATSDR), Coordinating Center for Environmental Health and Injury Prevention (CCEHIP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

On January 28, 2008, President Bush signed H.R. 4986: National Defense Authorization Act for Fiscal Year 2008 which requires ATSDR to develop a health survey of individuals possibly exposed to contaminated drinking water at Camp Lejeune. The survey will collect personal health information that may provide a basis for further reliable scientific studies of potentially adverse health impacts of exposure to contaminated water at Camp Lejeune. The Act requires the survey to be developed within 120 days of enactment and to be conducted within one year of enactment.

Additionally, in 2005, a panel of independent scientists convened by ATSDR to explore opportunities for conducting additional health studies at Camp Lejeune recommended that the agency:

- Identify cohorts of individuals with potential exposure, including adults who lived on base; adults who resided off base, but worked on base; children who lived on base; and those who may have been exposed while in utero; and
- Conduct a feasibility assessment to address the issues involved in planning future studies of mortality, cancer incidence, and other health outcomes of interest at the base.

In response, ATSDR prepared a report on the feasibility of conducting future epidemiological studies at the base. ATSDR determined that available databases could be used to identify adults who lived at the base or civilians who worked at the base during the period when drinking water was contaminated with volatile organic compounds (VOCs).

In addition to questions on cancers, the health survey will include questions on non-fatal diseases that can be confirmed by medical records and are known or suspected of being associated with solvent exposures.

This project proposes to examine the relationship between medically confirmed cancers and trichloroethylene- (TCE) or perchloroethylene- (PCE) contaminated drinking water by mathematically modeling the exposure to contaminated drinking water while living or working at Camp Lejeune.

The relationship between the following non-fatal diseases that can be confirmed by medical records and TCE- or PCE-contaminated drinking water will also be examined: Parkinson's disease, kidney failure and other severe kidney diseases, severe liver diseases, lupus, aplastic anemia, TCE-related skin disorders, scleroderma, multiple sclerosis, motor neuron disease/ amyotrophic lateral sclerosis, and infertility. In addition, the health survey will include questions on miscarriages occurring to women who were pregnant while residing or working on base.

The health survey will request information about the type of cancer or

non-fatal, non-cancer disease, date of diagnosis, hospital of diagnosis, and doctor who diagnosed the disease to facilitate the acquisition of medical record confirmation. Because medical records are usually unavailable for miscarriages, the survey will not request information to facilitate medical record confirmation of this adverse outcome. For cancers, state of diagnosis will also be obtained to facilitate acquisition of cancer registry data. Self-reported cancers and other diseases will be confirmed by medical records or cancer registrations. To facilitate medical record confirmation, the participant will be asked to provide a copy of the medical record to ATSDR or to sign a medical records release form allowing ATSDR to gain access to the medical record. The survey will also collect information on residential history on base, occupational history, and information on several risk factors (e.g., socio-economic status, demographics, smoking, alcohol consumption, etc.). A space will also be provided so that the respondent can report other disease conditions. The collected information will be used to assign exposure status and to assess potential confounding.

To improve the credibility of the study, it is necessary to include an external, unexposed comparison group, similar in all respects to the Marines and civilian workers at Camp Lejeune except for exposure to VOC-contaminated drinking water.

There are no costs to the respondents other than their time.

The estimated annualized burden hours are 58,012.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hours)
Former active duty marines and navy personnel—Camp Lejeune	45,500	1	45/60
Former civilian workers—Camp Lejeune	1,733	1	45/60
Former dependents (now all adults) and former Marines who were stationed at Camp Lejeune prior to 1975—Camp Lejeune	6,283	1	45/60

Proposed Project

Audience Analysis for Environmental Health Issues,--New--National Center for Environmental Health/Agency for Toxic Substances and Disease Registry (NCEH/ATSDR), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The health effects associated with climate change include injuries and fatalities related to severe weather events and heat waves, infectious diseases related to changes in vector biology, water and food contamination, and respiratory illness due to increased allergen production. Despite these potentially devastating public health consequences, few in the general public connect climate change with health effects. In general, the majority of Americans associate climate change with nonhuman impacts and environmental problems rather than health effects. Most therefore focus their concern on the connection between climate change and plant and animal extinction rather than the impact on human health. Thus, it is not surprising that few in the general public are well prepared to deal with climate change health effects. The Centers for Disease Control and Prevention (CDC) is interested in developing communication materials to increase the public's

awareness, knowledge and prepare for the potential health effects associated with climate change. To this end, focus groups will be conducted with members of a local California community to understand motivations and factors influencing target audience's decision process. There will also be an emphasis on the health effects, framing devices, and channels that might be most effective for disseminating public health messages and having them motivate the intended audiences. With that in hand it will be possible to identify the most valuable information and optimal strategies for communicating with target audiences.

Focus groups will be conducted with the residents of Santa Rosa, California. During phase one, three exploratory focus groups will be conducted to develop messaging strategies. Results from the exploratory focus groups will be used in the development of preliminary messaging strategies and draft materials. This material will be tested with the target audience during the second phase of research. The second phase will include three materials testing focus groups to determine which materials and messages are most attractive and compelling in terms of educating the public about health effects and promoting preparedness behaviors. Participants will be recruited via standard focus group recruitment methods. Most will come from an existing database (or list) of potential participants maintained by the focus group facility or recruited through local newspapers.

There is no cost to respondents.

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: Mentoring Children of Prisoners Relationship Quality Survey.

OMB No.: 0970-0308.

Description: The Promoting Safe and Stable Families Amendments of 2001 (Pub. L. 107-133) amended Title IV-B of the Social Security Act (42 U.S.C. 629-629e) to provide funding for nonprofit agencies that recruit, screen, train, and support mentors for children with an incarcerated parent or parents. The Family and Youth Services Bureau (FYSB) of the Administration for Children and Families, United States Department of Health and Human Services, administers the Mentoring Children of Prisoners (MCP) program. The MCP program creates lasting, high-quality one-to-one mentoring relationships that provide young people with caring adult role models. The quality of these relationships is an important indicator of success in mentoring programs. Previous research has shown an association between high-quality mentoring relationships and positive changes in youth behavior associated with positive youth benefits, such as improved school attendance, reductions in risk behavior, and other benefits.

The Relationship Quality Instrument consists of 15 rigorously field-tested questions about the relationship, plus several questions that establish context (age, gender, duration of relationship and frequency of contacts, etc.). The answers to the questions help assess how satisfied the youth (mentee) is with the relationship; whether the mentee is happy in the relationship; whether the mentee trusts the mentor; and whether the mentor has helped the mentee to cope with problems. Researchers in the field of mentoring have tested and validated the questions.

FYSB requires grantees receiving funding to provide information that can be used to evaluate outcomes for participating children. FYSB will use the information provided by the instrument to assure effective service delivery and program management and to guide the development of national monitoring and technical assistance systems. Finally, FYSB will use data from this collection for reporting program outcomes to Congress in the FY 2006 Performance Report during the budget process and as the basis for outcome evaluation of the program over the long term.

Title: Extension to HS Transportation Requirement.

OMB No.: 0970-0260.

Description: The Office of Head Start is proposing to renew authority to collect information regarding the Head Start transportation requirement without changes. The transportation requirement provides the requirement that each child be seated in a child restraint system while the vehicle is in motion, and the requirement that each bus have at least one bus monitor on board at all times. Waivers would be

granted when the Head Start or Early Head Start grantee demonstrates that compliance with the requirement(s) for which the waiver is being sought will result in a significant disruption to the Head Start program or the Early Head Start program and that waiving the requirement(s) is in the best interest of the children involved.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Administration for Children and Families****Submission for OMB Review; Comment Request**

Title: Cross-Site Evaluation of the Infant Adoption Awareness Training Program for Projects Initially Funded in Fiscal Year 2006-NEW.

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), Childrens Bureau (CB), will conduct the Cross-Site Evaluation of the Infant Adoption Awareness Training Program (IAATP). Title XII, Subtitle A, of the Childrens Health Act of 2000 (CHA) authorizes the Department of Health and Human Services to make Infant Adoption Awareness Training grants available to national, regional, and local adoption organizations for the purposes of developing and implementing programs that train the staff of public and non-profit private health service organizations to provide adoption information and referrals to pregnant women on an equal basis with all other courses of action included in non-directive counseling of pregnant women. Participants in the training include individuals who provide pregnancy or adoption information and those who will provide such services after receiving the training, with Title X (relating to voluntary family planning projects), Section 330 (relating to community health centers, migrant health centers, and centers serving homeless individuals and residents of public housing), and CHA-funded school-based health centers, receiving priority to receive the training. A total

of six organizations were awarded IAATP funding in 2006.

Section 1201(a)(2)(A) of the IAATP legislation requires grantees to develop and deliver trainings that are consistent with the Best Practice Guidelines for Infant Adoption Awareness Training. The IAATP guidelines address training goals, basic skills, curriculum and training structure. A complete description of the guidelines is available at http://www.acf.hhs.gov/programs/cb/programs_fund/discretionary/iaatp.htm.

In addition, grantees are required to conduct local evaluation of program outcomes and participate in the national evaluation of the extent to which IAATP training objectives are met. The Infant Adoption Awareness Training Program: Trainee Survey is the primary data collection instrument for the national cross-site evaluation. Respondents will complete the survey prior to receiving training and approximately 90 days after the training to assess the extent to which trainees demonstrate sustained gains in their knowledge about adoption, and to determine the impact of the training on their subsequent work with pregnant women.

1. Do health care workers who participate in the IAATP training: Demonstrate enhanced knowledge, attitudes, skills, and behaviors with respect to adoption counseling following completion of the program? Provide adoption information to pregnant women on an equal basis with other pregnancy planning options? Demonstrate enhanced awareness of community adoption-related resources and refer expectant mothers to them as needed?

2. Are trainees more confident about discussing all three pregnancy planning options (parenting, abortion, and adoption) in a non-directive counseling

style than they were prior to participating in the training? Cross-site evaluation data will be collected on an annual basis throughout the five-year funding period. Pre-test and follow-up versions of the survey are expected to require approximately 10 to 15 minutes to complete. Estimated response time for the follow-up survey includes time

for respondents to access the Web-based survey, complete the survey online, and electronically submit the survey. Respondents will not need to implement a recordkeeping system or compile source data in order to complete the survey. Where possible, fields in the follow-up version of the survey will be pre-filled with static data

from the respondents pre-test (e.g., demographics, agency type) in order to further expedite completion of the survey and minimize respondent burden.

Respondents: Infant Adoption Awareness Program Trainees.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
IAATP: Trainee Survey Pre-Test Administration	1,200	1	0.15	180
IAATP: Trainee Survey Follow-Up Administration	1,200	1	0.10	120

Estimated Total Annual Burden Hours: 300.

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. All requests should be identified by the title of the information collection. E-mail address: infocollection@acf.hhs.gov.

OMB Comment: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Fax: 202-395-6974, Attn: Desk Officer for the Administration for Children and Families.

FOR FURTHER INFORMATION CONTACT: Jonna Capezzuto, Office of Information Management (HFA-710), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-796-3794.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Draft Guidance for Industry on Providing Regulatory Submissions in Electronic Format—Drug Establishment Registration and Drug Listing; Availability; Registration of Producers of Drugs and Listing of Drugs in Commercial Distribution—(OMB Control Number 0910-0045—Amendment)

Description of Respondents: Respondents to this collection of information are foreign and domestic owners and operators of establishments that engage in the manufacture, preparation, propagation, compounding, or processing (which includes, among other things, repackaging and relabeling) of a drug or drugs¹ and that are not exempt under section 510(g) of the Federal Food, Drug, and Cosmetic Act (the act) or subpart B of part 207 (21 CFR part 207) (registrants).

A. Reporting Burden

The draft guidance describes how to electronically create and submit Structured Product Labeling (SPL) files using defined code sets and codes for establishment registration and drug listing information (including labeling). Most information is already required to be submitted under section 510 of the act, section 351 of the Public Health Service Act, and part 207.

Drug establishment registration and drug listing information and updates to such information, required under part 207, and certain additional recommended information are currently submitted in paper form using Form FDA 2656 (Registration of Drug

¹ Means both human, including biological products, and animal drugs.

Establishment/Labeler Code Assignment), Form FDA 2657 (Drug Product Listing), and Form FDA 2658 (Registered Establishments Report of Private Label Distributors) (collectively referred to as FDA Forms; 72 FR 67733, November 30, 2007).

In addition to the information collected by the FDA Forms (72 FR 67733, November 30, 2007), the draft guidance addresses electronic submission of other required information as follows:

- For registered foreign drug establishments, the name, address, and telephone number of its U.S. agent (§ 207.40(c));
- The name of each importer that is known to the establishment (the U.S. company or individual in the United States that is an owner, consignee, or recipient of the foreign establishment's drug that is imported into the United States. An importer does not include the consumer or patient who ultimately purchases, receives, or is administered the drug, unless the foreign establishment ships the drug directly to the consumer or the patient) (section 510(i)(1)(A) of the act); and
- The name of each person who imports or offers for import (the name of each agent, broker, or other entity, other than a carrier, that the foreign drug establishment uses to facilitate the import of their drug into the United States) (section 510(i)(1)(A) of the act).

FDA also is recommending the voluntary submission of the following additional information, when applicable:

- To facilitate correspondence between foreign establishments and FDA, the e-mail address for the U.S. agent, and the telephone number(s) and e-mail address for the importer and person who imports or offers for import their drug;
- A site-specific D-U-N-S® Number² for each entity (e.g., the registrant, establishments, U.S. agent, importer);
- The National Drug Code product code for the source drug that is repacked or relabeled;
- Distinctive characteristics of certain listed drugs, i.e., the flavor, the color, and image of the actual solid dosage form; and
- Registrants may indicate that they view as confidential the registrant's business relationship with an establishment, or an inactive ingredient.

² D&B® D-U-N-S® Number is a unique nine-digit sequence recognized as the universal standard for identifying and keeping track of over 100 million businesses worldwide. Submitting the site-specific D-U-N-S® Number for an entity would provide by reference to the number certain business information for that entity, e.g., address, parentage.

In addition to the collection of information, there is additional burden for the following activities:

- Preparing a standard operating procedure (SOP) for the electronic submission of drug establishment registration and drug listing information;
- Creating the SPL file, including accessing and reviewing the technical specifications and instructional documents provided by FDA (accessible at <http://www.fda.gov/oc/datacouncil/spl.html>);
- Reviewing and selecting appropriate terms and codes used to create the SPL file (accessible at <http://www.fda.gov/oc/datacouncil/spl.html>);
- Obtaining the digital certificate used with FDA's electronic submission gateway (ESG) and uploading the SPL file for submission (accessible at <http://www.fda.gov/esg/default.htm>); and
- Requests for waivers from the electronic submission process as described in the draft guidance.

B. Burden Estimates

Reporting Burden—The estimates for the number of respondents, annual frequency per response, and total annual responses indicated in table 1 of this document are based on our current estimates of the number of registrants and the number of submissions using the FDA Forms (OMB Control No. 0910-0045). FDA estimates that it would take an additional 2 hours per response (in addition to the estimated 2.5 hours per response for registering, labeler code requests, listing, and providing updates to the information approved under OMB Control No. 0910-0045) for the collection of information not currently submitted using the FDA Forms, and to create and upload the SPL file. FDA anticipates that the hours per response will decrease over time due to the flexibility of submitting information for registering multiple establishments or listing multiple drugs in one SPL file instead of submitting individual FDA Forms, and increasing familiarity with the use of the standards and code sets and codes for creating the SPL file.

In certain cases, if it is unreasonable to expect a person to submit registration and listing information electronically, FDA may grant a waiver from the electronic format requirement. Because registrants will only need a computer and access to the Internet, FDA envisions few instances in which electronic submission of registration and listing information will not be reasonable for the person requesting the waiver and, thus, is estimating that FDA would grant one waiver annually. We estimate that a one-time burden for

requesting a waiver would be an hour of time for a mid-level manager to draft, approve, and mail a letter.

Recordkeeping Burden—In table 2 of this document, FDA estimates that 3,295 (39 + 3,256) respondents would expend a one-time burden of approximately 40 hours in preparing, reviewing, and approving an SOP for creating and uploading the SPL file; and an estimated 1 hour annually to maintain the SOP as needed.

In the **Federal Register** of July 11, 2008 (73 FR 39964), FDA published a notice of availability of the draft guidance document providing a 60-day public comment period on the information collection provisions. Nineteen comments were received of which four remarked on the information collection. Thereafter, in the **Federal Register** of October 23, 2008 (73 FR 63158), FDA published a 30-day notice responding to the comments submitted on the proposed collection of information and announced that the proposed collection of information had been submitted to OMB. In response to a request by OMB, FDA is republishing the 30-day notice responding to comments and announcing the submission of the proposed collection of information to OMB.

(Comment 1) On the topic whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have a practical utility, one comment agreed that the proposed collection of information is necessary for us to perform its functions and is consistent with the provisions of the Food and Drug Administration Amendments Act of 2007 (Public Law 110-85). The comment continued to say that the information is also necessary to support the transition from paper format to electronic format, and that the additional information requested by us is logical and reasonable and is not an undue burden.

(Response) We appreciate the support and concurrence of the comment.

(Comment 2) On the topic whether the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used, one comment stated that we underestimated the effort to prepare, review, approve, implement and maintain internal SOPs for electronic submission of drug establishment registration and drug listing information because of the following reason. Particularly for most large companies, drug establishment registration and drug listing information (currently submitted in paper format under 21 CFR 207.22)

and content of labeling (currently submitted in electronic format under 21 CFR 314.50(l)(1)(i)) are handled by completely different functional experts and/or departments in the companies. To coordinate these processes, additional time is needed to define new procedures and interactions that cross functional departments and possibly international groups. Therefore, large companies will expend more than 40 hours to prepare, review, approve, implement and maintain SOPs.

Another comment asserts that the hours per response in table 1 are underestimated if the estimate accounts for the time required to become familiar with the Structured Product Labeling (SPL) standard.

(Response) In estimating hours per record in table 2 of this document, we considered the various sizes of entities affected and proposed an average number of hours per activity. For example, the estimated 40 hours per record are based on smaller entities requiring approximately 20 hours per record and larger entities requiring approximately 60 hours per record. Therefore, because the comment did not provide a revised estimate, we are maintaining an estimate of 40 hours per record, which is consistent with preparing SOPs for paper format submissions and also includes coordination efforts.

Regarding the comment on underestimating the hours per response

in table 1, the software designed to create the SPL files, the step-by-step instructions in the technical guides, and our technical assistance email address are provided by us for the purpose of minimizing the need to learn the SPL standard before submitting information electronically.

In this document, we are correcting an error in table 1 under the hours per response column. Although the written description of the burden added 2 hours to the existing 2.5 hours approved by OMB under Control Number 0910-0045 (for a total of 4.5 hours), 4.5 hours was not correctly reproduced in table 1. The total hours column is also adjusted to reflect this correction.

(Comment 3) On the topic of ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology, one comment encouraged us to continue the availability of Xforms at no cost for industry to use as a software tool for the creation of SPL. The comment also requested that we continue this practice as technology evolves and provide support for this tool.

(Response) We appreciate the encouragement of the comment and will consider the request to continue the practice and provide support as technology evolves.

(Comment 4) Two comments did not agree with our statement that there are

no capital or operating and maintenance costs associated with the collection of information. The comments explained that some companies may choose alternative tools to the Xform software or work with external conversion providers, which may involve the purchase and maintenance of software plus the use of internal information technology personnel for installation, configuration and maintenance. These comments further stated that these costs are significant and need to be considered in the overall cost for industry to comply with the electronic submission requirement.

(Response) As the comments stated, companies may choose to use alternative tools or work with external conversion providers. We do not disagree. However, we have made every effort to eliminate costs to industry to comply with the statutory requirement to electronically submit drug establishment registration and drug listing information.

We also received comments that were specifically related to the technical documents referenced in the draft guidance. Although these comments are not directly related to the draft guidance document that contains the information collection, we will consider the comments when reviewing the technical documents for revision.

C. Costs Associated With Electronic Submission

There are no capital costs or operating and maintenance costs associated with the transition from paper to electronic submissions. To create an SPL file and submit it to FDA, a registrant would need the following tools: A computer, appropriate software, access to the Internet, knowledge of terminology and standards, and access to FDA's ESG.

Registrants (and most individuals) have computers and Internet access available for their use. If a business does not have an available computer or access to the Internet, free use of computers and Internet are usually available at public facilities, e.g., a community library; or they may request a waiver from submitting the information electronically. Software is necessary to create a "document." The SPL file or "document" may be created internally by a business with experience with SPL, or a business may use a user-friendly software (XForms)³ available at no cost for industry use. In addition to the software, FDA also provides technical assistance, and other resources, code sets and codes, and data standards regarding SPL files.⁴

Once the SPL file is created, the registrant would upload the file through the ESG. A digital certificate is needed to use the ESG. The digital certificate binds together the owner's name and a pair of electronic keys (a public key and a private key) that can be used to encrypt and sign documents. However, a small fee of up to \$20.00 is charged for the digital certificate and the registrant may need to renew the certificate not less than annually. FDA is not calculating this small fee as cost of doing business because it is less than or equal to the biannual courier costs the registrant incurs for paper submissions.

Purpose: The Office of Tribal Programs (OTP) has designated funds for the Single Source National Indian Health Board (NIHB) to further health program objectives in the American Indian/Alaska Native (AI/AN) community with outreach and education efforts in the interest of improving Indian health care. The NIHB is the only national Indian organization with expertise on the variety of issues related to the provision of health care to Indian people.

The NIHB represents all 562-Federally recognized tribes: including Tribal governments operating their own health care delivery systems through self-determination agreements with the IHS and tribes that continue to receive health care directly from the IHS. The NIHB is governed by twelve elected Tribal Government Officials who represent each of the twelve IHS Areas and the HHS regions where Federally

recognized Tribes exist. The NIHB is the only national organization with an expertise in health policy and health programs, and the only national organization with the designated authority to represent all AI/AN tribes and villages. The NIHB has a national constituency and clearly supports critical services and activities within the IHS mission of quality health care for AI/AN people. The NIHB provides policy analysis and development, program assessment and development, regional and national meeting coordination, consultation and health care advocacy to IHS and HHS based on tribal input through a broad based consumer network. Furthermore, the NIHB also provides planning and technical assistance to Tribes, Area Health Boards, and other Tribal organizations through the cooperative agreement with the IHS.

II. Award Information

Type of Award: Cooperative Agreement. A cooperative agreement will be awarded as the OTP staff will have substantial programmatic involvement with the recipient in carrying out the project as noted in the following delineated roles of involvement to further IHS' health program objectives in the AI/AN community with outreach and education efforts in the interest of improving Indian health care.

B. Objective Review of Application—

The objective review of the cooperative agreement is scheduled for Friday, January 16, 2009. The application will be screened to ensure that eligibility requirements are complete, responsive, and conform to this Single Source cooperative agreement program announcement. The application will be reviewed for merit by the Ad Hoc Objective Review Committee (ORC) appointed by the IHS to review and make recommendations on the application. The technical review will be conducted in accordance with the [HS Objective Review Guidelines. The technical review process ensures objectivity is maintained on the Single Source cooperative agreement application. The application will be evaluated and rated on the basis of the evaluation criteria listed in Section V.1. The criteria will be used to evaluate the quality of a proposed project, determine the likelihood of success and to assign a numerical score to the application. The application must score 60 points or above by the ORC to be considered for funding. The DGO will conduct a cost analysis on the proposal and provide additional recommendations. recommendations when considering or recommending funding. The program official forwards the final recommendations and documentation to the Acting Director, Office of Tribal Programs (OTP), for final review and approval.

The NoA is the legally binding document. The applicant will receive a copy of the Executive Summary which identifies the weaknesses and strengths of the application submitted.

ORC Results Notification: Wednesday, January 23, 2009.

The Acting Director, OTP, or program official, will notify the contact person identified on the proposal of the results of the objective review in writing via postal mail. If the application is declared ineligible, the applicant will receive written notification of the ineligibility determination. The ineligibility notification will include information regarding the rationale for the ineligibility decision citing specific information from the application and/or this Single Source cooperative agreement program announcement. If the application is disapproved for a low score, the applicant will receive a copy of the Executive Summary which identifies the weaknesses and strengths of the application submitted. Any other correspondence announcing to the Applicant's Project Director that an application was recommended for approval is not an authorization to begin performance. Pre-award costs are allowable charges under this cooperative agreement as noted in Part IV. Application and Submission Information, Item 6. Funding Restrictions.

2. Administrative and National Policy Requirements

Cooperative Agreements are administered in accordance with the following authorities and regulations:

- This single source cooperative agreement program announcement.
- Public Health Service Act Section 301.
- 45 CFR Part 74, "Administration of Grants to Non-Profit Recipients."
- Department of Health and Human Services, Grants Policy Statement, January 2007.
- Appropriate Cost Principles: OMB Circular A-122, "Non-profit Organizations."
- OMB Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations."
- Healthy People 2010—The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2010," a PHS-led national activity for setting priority areas. This Program Announcement is related to one or more of the priority areas. A copy of "Healthy People 2010" is available at: <http://www.healthypeople.gov>.

3. Indirect Costs

This section applies to all grant recipients that request indirect cost in their application. In accordance with HHS Grants Policy Statement, Part II-27, IHS requires applicants to have a current indirect cost rate agreement in place prior to award. The rate agreement must be prepared in accordance with the applicable cost principles and guidance as provided by the cognizant agency or office. A current rate refers to the rate covering the applicable activities during the award budget period. If the current rate is not on file with the awarding office, the award shall include funds for reimbursement of indirect costs. However, the indirect cost portion will remain restricted until the current rate is provided to the DGO.

Questions regarding the indirect cost policy may be addressed to the grants management staff at either 301-443-6290 or 301-443-5204.

If it is determined by the Division of Cost Allocation (DCA) that it is not feasible for the organization to develop a rate in order to charge the costs as direct costs, the organization must have an accounting system that identifies and segregates costs and assigns them commensurate with the benefits provided to each grant-supported project and the entity's other activities.

4. Reporting

A. Progress Report. Program progress reports are required quarterly. Quarterly program progress reports must be submitted within 30 days at the end of each quarter. These reports will include a brief comparison of actual accomplishments to the goals established for the period, reasons for slippage (if applicable), and other pertinent information as required. A final report must be submitted within 90 days of expiration of the budget/project period.

B. Financial Status Reports. Financial status reports are required quarterly. Quarterly financial status reports must be submitted within 30 days at the end of each quarter. Final financial status reports are due within 90 days of expiration of the budget/project period. Standard Form 269 (long form) will be used for financial reporting.

C. Reports. The recipient is responsible and accountable for accurate reporting of the Progress Narrative Reports and Financial Status Reports. Final Financial Status Reports (SF-269) must be verified from the grantee records on how the value was derived. Final reports (narrative and financial) are due within 90 days after each budget period. Failure to submit required reports within the time allowed may result in suspension or termination of an active grant, withholding of additional awards for the project, or other enforcement actions such as withholding of payments or converting to the reimbursement method of payment. Continued failure to submit required reports may result in one or both of the following: (1) The imposition of special award provisions; and (2) the non-funding or non-award of other eligible projects or activities. This applies whether the delinquency is attributable to the failure of the grantee organization or the individual responsible for preparation of the reports.

The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of the facility) in which regular or routine education, library, day care, health care or early childhood development services are provided to children. This is consistent with the HHS mission to protect and advance the physical and mental health of the American people.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY-930-1610-DR]

Notice of Availability of Record of Decision for the Pinedale Resource Management Plan/Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability.

SUMMARY: The Bureau of Land Management (BLM) announces the availability of the Record of Decision (ROD)/Approved Resource Management Plan (RMP) for the Pinedale Field Office Planning Area located in Sublette and Lincoln Counties, Wyoming. The Wyoming State Director signed the ROD on November 27, 2008, which constitutes the final decision of the BLM and makes the Approved RMP effective immediately. The Pinedale RMP provides the management direction for the Federal lands and resources in the Pinedale Field Office Planning Area. The Approved Pinedale RMP revises and replaces the 1988 Pinedale RMP.

ADDRESSES: Copies of the ROD/Approved RMP are available upon request from the following locations:

- Bureau of Land Management, Pinedale Field Office, 1625 W. Pine Street, Pinedale, Wyoming 82941
- Bureau of Land Management, Wyoming State Office, 5353 Yellowstone Road, Cheyenne, Wyoming 82003

or via the Internet at <http://www.blm.gov/rmp/wy/pinedale/documents.html>.

FOR FURTHER INFORMATION CONTACT: For further information, contact Chuck Otto, Field Manager, or Kellie Roadifer, Pinedale RMP team leader, at the Pinedale Field Office, 1625 W. Pine Street, P.O. Box 768, Pinedale, Wyoming 82941, or by telephone at (307) 367-5300.

SUPPLEMENTARY INFORMATION:

The Pinedale RMP was revised collaboratively with the State of Wyoming, county and municipal governments and agencies, and Tribal Governments. The Pinedale RMP Planning Area includes approximately

922,880 acres of BLM-administered public lands and 1,199,280 acres of Federal mineral estate under Federal, State, and Private surface ownership.

The Approved Pinedale RMP describes the goals, objectives, and management actions to meet desired resource conditions for upland and riparian vegetation, recreation, grazing management, cultural and visual resources, and wildlife habitat, including habitat for threatened and endangered species. The Approved RMP also describes the actions and anticipated levels of development for fluid minerals resources, and locatable minerals in the Pinedale Field Office Planning Area.

The agency-preferred alternative (Alternative 4, in the Proposed RMP/ Final Environmental Impact Statement (EIS), with minor modifications) is the selected alternative for the Approved RMP. After the publication of the Proposed RMP and Final EIS on August 22, 2008, 13 protests were received. The Governor of Wyoming also identified issues during the governor's consistency review. As the result of protest and consistency review, minor modifications were made to the Proposed RMP to address these issues.

The description of land use restrictions in Visual Resource Management (VRM) classes was clarified to indicate the application of land use restrictions based on VRM class is not made at the RMP level; the application of mitigation guidelines and operating standards, which are included in Appendix 3, was clarified to have possible application to exploratory oil and gas drilling; Appendix 3 was updated to include an operating standard regarding the control of water pits to limit the spread of West Nile virus; a cultural resource management action was removed to clarify that contributing segments of the National Historic Trails within the Pinedale Planning Area were identified; a statement included in Table 2-25 was corrected to present the appropriate management action regarding restrictions on high-profile structures near sage-grouse leks; the maps showing special designations and management areas were reprinted on a larger scale to improve readability; and typographical errors were corrected in Appendix 3 and the Glossary.

No inconsistencies were identified between the RMP and State or local plans. The governor's consistency review identified four issues that are further clarified in the ROD: (1) Revision of the definition of "avoidance area" in the Glossary in order to clarify that right-of-way applications would be

allowed in and through the Pinedale Field Office Planning Area; (2) elaboration on the Section 390 Categorical Exclusions (CX) under the Energy Policy Act of 2005; (3) elucidation of the potential need for future air quality monitoring and modeling; and (4) inclusion of a reference to the Wyoming Executive Order 2008-2 regarding greater sage-grouse core area protection.

SUPPLEMENTARY INFORMATION: The BLM has analyzed revisions of six Resource Management Plans with a single Final Environmental Impact Statement (FEIS). The FEIS describes four alternatives, including the Proposed RMP alternative, for managing approximately 2,550,000 acres of federal land within the western Oregon planning area, most of which are Oregon and California Railroad and Coos Bay Wagon Road Grant lands.

The major resource management issues addressed in the Approved RMPs include:

- Providing a sustainable supply of wood and other forest products, as mandated by the Oregon and California Lands Act of 1937, while also meeting other applicable laws.
- Providing for conservation of species listed under the Endangered Species Act.
- Contributing to meeting the goals of the Clean Water Act and the Safe Drinking Water Act.
- Reducing wildfire hazard and integrating fire back into the ecosystem.

The Notice of Availability of the Draft Environmental Impact Statement (DEIS) was published in the **Federal Register** on August 10, 2007. During the planning process over 170 meetings were offered and nearly 30,000 comment letters were received during the comment period. Comments received on the DEIS were important in shaping the Approved RMPs. The Approved RMPs are based on Alternative 2 from the DEIS, but include portions of the other alternatives in the DEIS.

Some of the key changes include:

- Including wider Riparian Management Areas, as described in Alternative 1 of the DEIS.
- Reconfiguring Late Successional Management Areas to match the Final Northern Spotted Owl Recovery Plan.
- Deferring harvest for 15 years in older and more structurally complex multi-layered conifer stands in the Timber Management Area to be consistent with the Final Northern Spotted Owl Recovery Plan.
- Using uneven-aged management from Alternative 3 in the southern Medford District and Klamath Falls Resource Area to decrease fire hazard and increase fire resiliency.

The Notice of Availability of the FEIS/PRMP was published in the **Federal Register** on October 17, 2008. The Governor's consistency review period ended on December 8, 2008. The Governor did not identify any inconsistency between the Proposed

RMP (PRMP) and approved resource related plans, and the policies or programs contained therein, of State or local governments or offer any specific recommendation to change the plan to address a finding of inconsistency with State or local plans. The Governor did identify concerns with the PRMP which were addressed by the BLM State Director, Oregon/Washington.

A protest period for the PRMP was provided between November 7 and December 8, 2008. Two hundred and sixty four protests were received on the PRMP during the protest period. A minor change resulted from resolution of the protests: Two small parcels purchased with Land and Water Conservation Funds were added to an Area of Critical Environmental Concern in the Salem RMP. Additional minor editorial modifications were made in preparing the Approved RMPs to provide further clarification of some of the decisions. Through its protest resolution process, the BLM has determined that the PRMP complies with applicable laws, regulations, and policies.

The plan does not include any implementation level decisions. When the BLM proposes to take an action on lands managed under the revised plans, any party to a case adversely affected by that decision may appeal such decision to the Interior Board of Land Appeals in accordance with regulations found at 43 CFR Part 4.

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-20875]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment to Byproduct Materials License No. 52-21502-01, for Termination of the License and Unrestricted Release of the Becton Dickinson Caribe Ltd.'s Facility in Cayey, Puerto Rico

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of Environmental Assessment and Finding of No Significant Impact for License Amendment.

FOR FURTHER INFORMATION CONTACT: Betsy Ullrich, Senior Health Physicist, Commercial and R & D Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406; telephone (610) 337-5040; fax number (610) 337-5269; or by e-mail: Elizabeth.Ullrich@nrc.gov.
SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Byproduct Materials License No. 52-21502-01. This license is held by Becton Dickinson Caribe, Ltd. (the Licensee) for its Becton Dickinson Caribe Ltd. facility located at Parque Industrial Rincón, Vicks Drive, Lot 6, in Cayey, Puerto Rico (the Facility). Issuance of the amendment would authorize release of the Facility for unrestricted use and termination of the NRC license. The Licensee requested this action in a letter dated May 19, 2008. The NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of Title 10, Code of Federal Regulations (CFR), Part 51 (10 CFR Part 51). Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate with respect to the proposed action. The amendment will be issued to the Licensee following the publication of this FONSI and EA in the *Federal Register*.

II. Environmental Assessment

Identification of Proposed Action

The proposed action would approve the Licensee's May 19, 2008, license amendment request, resulting in release of the Facility for unrestricted use and the termination of its NRC materials license. License No. 52-21502-01 was issued on April 13, 1984, pursuant to 10 CFR Part 30, and has been amended periodically since that time. This license authorized the Licensee to use unsealed byproduct material for purposes of manufacturing of diagnostic test kits.

The Facility is situated on 8.8 acres of land and consists of office, laboratory, and manufacturing areas. The Facility is located in a mixed industrial/commercial area. Within the Facility, use of licensed materials was confined to Building 1 (96,821 square feet), of which the following areas were used for licensed activities: The Bactec Filling (9,188 square feet) and Bactec labeling (6,655 square feet) sections of the manufacturing area; the Bactec QC Laboratory (1655 square feet); the

current warehouse (20,419 square feet) and Bactec Sensor original warehouse (3,139 square feet); and sections of the Finished Goods Warehouse.

In 2005, the Licensee ceased licensed activities and initiated a survey and decontamination of the Facility. Based on the Licensee's historical knowledge of the site and the conditions of the Facility, the Licensee determined that only routine decontamination activities, in accordance with their NRC-approved, operating radiation safety procedures, were required. The Licensee was not required to submit a decommissioning plan to the NRC because worker cleanup activities and procedures are consistent with those approved for routine operations. The Licensee conducted surveys of the Facility and provided information to the NRC to demonstrate that it meets the criteria in Subpart E of 10 CFR Part 20 for unrestricted release and for license termination.

Need for the Proposed Action

The Licensee has ceased conducting licensed activities at the Facility, and seeks the unrestricted use of its Facility and the termination of its NRC materials license. Termination of its license would end the Licensee's obligation to pay annual license fees to the NRC.

Environmental Impacts of the Proposed Action

The historical review of licensed activities conducted at the Facility shows that such activities involved use of the following radionuclides with half-lives greater than 120 days: carbon-14. Prior to performing the final status survey, the Licensee conducted decontamination activities, as necessary, in the areas of the Facility affected by these radionuclides. The Licensee conducted final status surveys during the period of February 25 through April 2, 2008. This survey covered the manufacturing, laboratory, and warehouse areas where licensed materials were used. The final status survey report was attached to the Licensee's amendment request dated May 19, 2008. The Licensee elected to demonstrate compliance with the radiological criteria for unrestricted release as specified in 10 CFR 20.1402 by using the screening approach described in NUREG-1757, "Consolidated NMSS Decommissioning Guidance," Volume 2. The Licensee used the radionuclide-specific derived concentration guideline levels (DCGLs), developed there by the NRC, which comply with the dose criterion in 10 CFR 20.1402. These DCGLs define the maximum amount of residual radioactivity on building surfaces,

equipment, and materials, and in soils, that will satisfy the NRC requirements in Subpart E of 10 CFR Part 20 for unrestricted release. The Licensee's final status survey results were below these DCGLs and are in compliance with the As Low As Reasonably Achievable (ALARA) requirements of 10 CFR 20.1402. The NRC thus finds that the Licensee's final status survey results are acceptable.

Based on its review, the staff has determined that the affected environment and any environmental impacts associated with the proposed action are bounded by the impacts evaluated by the "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Nuclear Facilities" (NUREG-1496) Volumes 1-3 (ML042310492, ML042320379, and ML042330385). The staff finds there were no significant environmental impacts from the use of radioactive material at the Facility. The NRC staff reviewed the docket file records and the final status survey report to identify any non-radiological hazards that may have impacted the environment surrounding the Facility. No such hazards or impacts to the environment were identified. The NRC has identified no other radiological or non-radiological activities in the area that could result in cumulative environmental impacts.

The NRC staff finds that the proposed release of the Facility for unrestricted use and the termination of the NRC materials license is in compliance with 10 CFR 20.1402. Based on its review, the staff considered the impact of the residual radioactivity at the Facility and concluded that the proposed action will not have a significant effect on the quality of the human environment.

Environmental Impacts of the Alternatives to the Proposed Action

Due to the largely administrative nature of the proposed action, its environmental impacts are small. Therefore, the only alternative the staff considered is the no-action alternative, under which the staff would leave things as they are by simply denying the amendment request. This no-action alternative is not feasible because it conflicts with 10 CFR 30.36(d), requiring that decommissioning of byproduct material facilities be completed and approved by the NRC after licensed activities cease. The NRC's analysis of the Licensee's final status survey data confirmed that the Facility meets the requirements of 10 CFR 20.1402 for unrestricted release and for license termination. Additionally,

denying the amendment request would result in no change in current environmental impacts. The environmental impacts of the proposed action and the no-action alternative are therefore similar, and the no-action alternative is accordingly not further considered.

Conclusion

The NRC staff has concluded that the proposed action is consistent with the NRC's unrestricted release criteria specified in 10 CFR 20.1402. Because the proposed action will not significantly impact the quality of the human environment, the NRC staff concludes that the proposed action is the preferred alternative.

Agencies and Persons Consulted

NRC provided a draft of this EA to the Commonwealth of Puerto Rico, Department of Health for review on October 29, 2008. On December 8, 2008, Commonwealth of Puerto Rico, Department of Health responded by e-mail. The State agreed with the conclusions of the EA, and otherwise had no comments.

The NRC staff has determined that the proposed action is of a procedural nature, and will not affect listed species or critical habitat. Therefore, no further consultation is required under Section 7 of the Endangered Species Act. The NRC staff has also determined that the proposed action is not the type of activity that has the potential to cause effects on historic properties. Therefore, no further consultation is required under Section 106 of the National Historic Preservation Act.

III. Finding of No Significant Impact

The NRC staff has prepared this EA in support of the proposed action. On the basis of this EA, the NRC finds that there are no significant environmental impacts from the proposed action, and that preparation of an environmental impact statement is not warranted. Accordingly, the NRC has determined that a Finding of No Significant Impact is appropriate.

NUCLEAR REGULATORY COMMISSION

[DOCKET NO. 52-033]

Detroit Edison Company; Notice of Hearing, and Opportunity To Petition for Leave To Intervene and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information and Safeguards Information for Contention Preparation on a Combined License for Fermi 3

Pursuant to the Atomic Energy Act of 1954, as amended, and the regulations in Title 10 of the *Code of Federal Regulations* (10 CFR) Part 2, "Rules of Practice for Domestic Licensing

Proceedings and Issuance of Orders," 10 CFR Part 50, "Domestic Licensing of Production and Utilization Facilities," and 10 CFR Part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants," notice is hereby given that a hearing will be held, at a time and place to be set in the future by the U.S. Nuclear Regulatory Commission (NRC, the Commission) or designated by the Atomic Safety and Licensing Board (Board). The hearing will consider the application dated September 18, 2008, filed by Detroit Edison Company, pursuant to Subpart C of 10 CFR Part 52, for a combined license (COL). The application, which was supplemented by letters dated October 27, 2008, November 11, 2008, and November 20, 2008, requests approval of a COL for the Fermi Nuclear Power Plant, Unit 3, to be located in Monroe County, Michigan. The application was accepted for docketing on November 25, 2008. The docket number established for this COL application is 52-033. The Fermi COL application references the application for certification of the Economic Simplified Boiling Water Reactor (ESBWR) design, which was initially submitted on August 24, 2005. The ESBWR design is the subject of an ongoing rulemaking under Docket Number 52-010.

The hearing will be conducted by a Board that will be designated by the Chairman of the Atomic Safety and Licensing Board Panel or will be conducted by the Commission. Notice as to the membership of the Board will be published in the **Federal Register** at a later date. The NRC staff will complete a detailed technical review of the COL application and will document its findings in a safety evaluation report. The Commission will refer a copy of the application to the Advisory Committee on Reactor Safeguards (ACRS) in accordance with 10 CFR 52.87, "Referral to the ACRS," and the ACRS will report on those portions of the application that concern safety. The NRC staff will also prepare an Environmental Impact Statement, as required by 10 CFR 51.20(b)(2).

Any person whose interest may be affected by this proceeding and who desires to participate as a party to this proceeding must file a written petition for leave to intervene in accordance with 10 CFR 2.309. Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing.

A petition for leave to intervene must be filed no later than 60 days from the

date of publication of this notice in the Federal Register. Non-timely filings will not be entertained absent a determination by the Commission or presiding officer designated to rule on the petition, pursuant to the requirements of 10 CFR 2.309(c)(1)(i)-(viii).

All documents filed in NRC adjudicatory proceedings, including petitions to intervene and requests to participate as an interested government entity under 10 CFR 2.315(c), must be filed in accordance with the NRC E-Filing rule, which was promulgated by the NRC on August 28, 2007 (72 FR 49139). The E-Filing process requires participants to submit and serve documents over the internet or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the petitioner must contact the Office of the Secretary by e-mail at HearingDocket@nrc.gov, or by calling (301) 415-1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding (even in instances in which the petitioner (or its counsel or representative) already holds an NRC-issued digital ID certificate). Each participant will need to download the Workplace Forms Viewer™ to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The Workplace Forms Viewer™ is free and is available at <http://www.nrc.gov/site-help/e-submittals/install-viewer.html>. Information about applying for a digital ID certificate is available on NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>.

Once a participant has obtained a digital ID certificate, had a docket created, and downloaded the EIE viewer, it can then submit a petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the filer submits its documents through EIE. To be timely, an electronic filing must be submitted to the EIE system no later than 11:59 p.m.

Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an e-mail notice confirming receipt of the document. The EIE system also distributes an e-mail notice that provides access to the document to the NRC Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the agency's adjudicatory E-filing system may seek assistance through the "Contact Us" link located on the NRC Web site at <http://www.nrc.gov/site-help/e-submittals.html> or by calling the NRC Meta-System Help Desk, which is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays. The toll-free help line number is 1-866-672-7640. A person filing electronically may also seek assistance by sending an e-mail to MSHD.Resource@nrc.gov.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service.

Non-timely requests and/or petitions and contentions will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition should be granted and/

or the contentions should be admitted based on a balancing of the factors specified in 10 CFR 2.309(c)(1)(i)-(viii). To be timely, filings must be submitted no later than 11:59 p.m. Eastern Standard Time on the due date.

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket which is available to the public at http://ehd.nrc.gov/EHD_Proceeding/home.asp, unless excluded pursuant to an order of the Commission, an Atomic Safety and Licensing Board, or a Presiding Officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home telephone numbers in their filings. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

Any person who files a motion pursuant to 10 CFR 2.323 must consult with counsel for the applicant and counsel for the NRC staff who are listed below. Counsel for the applicant is Bruce R. Maters, 313-235-7481, Matersb@dtenergy.com. Counsel for the NRC staff in this proceeding is Marcia Carpentier, (301) 415-4126, Marcia.Carpentier@nrc.gov.

A person who is not a party may be permitted to make a limited appearance by making an oral or written statement of his or her position on the issues at any session of the hearing or any pre-hearing conference within the limits and conditions fixed by the presiding officer, but may not otherwise participate in the proceeding. These limited appearance statements need not be submitted using the E-filing process.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland, and will be accessible electronically through the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to pdr.resource@nrc.gov. The application is available at <http://www.nrc.gov/reactors/new-reactors/col/Fermi.html>. The ADAMS accession number for the

application cover letter is ML081300460. The ADAMS accession numbers for supplemental letters are ML0831203285, ML083190539, and ML083530798. To search for documents in ADAMS using the Fermi COL application docket numbers, 52-033, enter the term "05200033" in the "Docket Number" field when using either the web-based search (advanced search) engine or the ADAMS find tool in Citrix. The ESBWR design certification can be found by going to <http://www.nrc.gov/reactors/new-licensing/design-cert/esbwr.html> or by accessing our ADAMS Advanced Web Search and entering "05200010" in the "Docket Number" field to search for documents linked to the ESBWR design certification application.

Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information and Safeguards Information for Contention Preparation

1. This order contains instructions regarding how potential parties to this proceeding may request access to documents containing sensitive unclassified information (including Sensitive Unclassified Non-Safeguards Information (SUNSI) and Safeguards Information (SGI)).

2. Within 10 days after publication of this notice of hearing and opportunity to petition for leave to intervene, any potential party as defined in 10 CFR 2.4 who believes access to SUNSI or SGI is necessary for a response to the notice may request access to SUNSI or SGI. A "potential party" is any person who intends or may intend to participate as a party by demonstrating standing and the filing of an admissible contention under 10 CFR 2.309. Requests submitted later than 10 days will not be considered absent a showing of good cause for the late filing, addressing why the request could not have been filed earlier.

3. The requester shall submit a letter requesting permission to access SUNSI and/or SGI to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and provide a copy to the Associate General Counsel for Hearings, Enforcement and Administration, Office of the General Counsel, Washington, DC 20555-0001. The expedited delivery or courier mail address for both offices is U.S. Nuclear Regulatory Commission, 11555 Rockville Pike, Rockville, Maryland 20852. The e-mail address for the Office of the Secretary and the Office of the General Counsel are HearingDocket@nrc.gov and

OGCmail@nrc.gov, respectively.¹ The request must include the following information:

a. A description of the licensing action with a citation to this **Federal Register** notice of hearing and opportunity to petition for leave to intervene;

b. The name and address of the potential party and a description of the potential party's particularized interest that could be harmed by the action identified in (a);

c. If the request is for SUNSI, the identity of the individual requesting access to SUNSI and the requester's need for the information in order to meaningfully participate in this adjudicatory proceeding, particularly why publicly available versions of the application would not be sufficient to provide the basis and specificity for a proffered contention;

d. If the request is for SGI, the identity of the individual requesting access to SGI and the identity of any expert, consultant or assistant who will aid the requester in evaluating the SGI, and information that shows:

(i) Why the information is indispensable to meaningful participation in this licensing proceeding; and

(ii) The technical competence (demonstrable knowledge, skill, experience, training or education) of the requester to understand and use (or evaluate) the requested information to provide the basis and specificity for a proffered contention. The technical competence of a potential party or its counsel may be shown by reliance on a qualified expert, consultant or assistant who demonstrates technical competence as well as trustworthiness and reliability, and who agrees to sign a non-disclosure affidavit and be bound by the terms of a protective order; and

e. If the request is for SGI, Form SF-85, "Questionnaire for Non-Sensitive Positions," Form FD-258 (fingerprint card), and a credit check release form completed by the individual who seeks access to SGI and each individual who will aid the requester in evaluating the SGI. For security reasons, Form SF-85 can only be submitted electronically, through a restricted-access database. To obtain online access to the form, the requester should contact the NRC's Office of Administration at 301-415-

¹ While a request for hearing or petition to intervene in this proceeding must comply with the filing requirements of the NRC's "E-Filing Rule," the initial request to access SUNSI and/or SGI under these procedures should be submitted as described in this paragraph.

0320.² The other completed forms must be signed in original ink, accompanied by a check or money order payable in the amount of \$191.00 to the U.S. Nuclear Regulatory Commission for each individual, and mailed to the U.S. Nuclear Regulatory Commission, Office of Administration, Security Processing Unit, Mail Stop TWB-05 B32M, Washington, DC 20555-0012.

These forms will be used to initiate the background check, which includes fingerprinting as part of a criminal history records check. Note: copies of these forms do *not* need to be included with the request letter to the Office of the Secretary, but the request letter should state that the forms and fees have been submitted as described above.

4. To avoid delays in processing requests for access to SGI, all forms should be reviewed for completeness and accuracy (including legibility) before submitting them to the NRC. Incomplete packages will be returned to the sender and will not be processed.

5. Based on an evaluation of the information submitted under items 2 and 3.a through 3.d, above, the NRC staff will determine within 10 days of receipt of the written access request whether (1) there is a reasonable basis to believe the petitioner is likely to establish standing to participate in this NRC proceeding, and (2) there is a legitimate need for access to SUNSI or need to know the SGI requested. For SGI, the need to know determination is made based on whether the information requested is necessary (*i.e.*, indispensable) for the proposed recipient to proffer and litigate a specific contention in this NRC proceeding³ and whether the proposed recipient has the technical competence (demonstrable knowledge, skill, training, education, or experience) to evaluate and use the specific SGI requested in this proceeding.

6. If standing and need to know SGI are shown, the NRC staff will further determine based upon completion of the background check whether the proposed recipient is trustworthy and reliable. The NRC staff will conduct (as

² The requester will be asked to provide his or her full name, social security number, date and place of birth, telephone number, and email address. After providing this information, the requester usually should be able to obtain access to the online form within one business day.

³ Broad SGI requests under these procedures are thus highly unlikely to meet the standard for need to know; furthermore, staff redaction of information from requested documents before their release may be appropriate to comport with this requirement. These procedures do not authorize unrestricted disclosure or less scrutiny of a requester's need to know than ordinarily would be applied in connection with an already-admitted contention.

necessary) an inspection to confirm that the recipient's information protection systems are sufficient to protect SGI from inadvertent release or disclosure. Recipients may opt to view SGI at the NRC's facility rather than establish their own SGI protection program to meet SGI protection requirements.

7. A request for access to SUNSI or SGI will be granted if:

a. The request has demonstrated that there is a reasonable basis to believe that a potential party is likely to establish standing to intervene or to otherwise participate as a party in this proceeding;

b. The proposed recipient of the information has demonstrated a need for SUNSI or a need to know for SGI, and that the proposed recipient of SGI is trustworthy and reliable;

c. The proposed recipient of the information has executed a Non-Disclosure Agreement or Affidavit and agrees to be bound by the terms of a Protective Order setting forth terms and conditions to prevent the unauthorized or inadvertent disclosure of SUNSI and/or SGI; and

d. The presiding officer has issued a protective order concerning the information or documents requested.⁴ Any protective order issued shall provide that the petitioner must file SUNSI or SGI contentions 25 days after receipt of (or access to) that information. However, if more than 25 days remain between the petitioner's receipt of (or access to) the information and the deadline for filing all other contentions (as established in the notice of hearing or opportunity for hearing), the petitioner may file its SUNSI or SGI contentions by that later deadline.

8. If the request for access to SUNSI or SGI is granted, the terms and conditions for access to sensitive unclassified information will be set forth in a draft protective order and affidavit of non-disclosure appended to a joint motion by the NRC staff, any other affected parties to this proceeding,⁵ and the petitioner(s). If the diligent efforts by the relevant parties or petitioner(s) fail to result in an agreement on the terms and conditions for a draft protective order or non-disclosure affidavit, the relevant parties to the proceeding or the petitioner(s)

should notify the presiding officer within 5 days, describing the obstacles to the agreement.

9. If the request for access to SUNSI is denied by the NRC staff or a request for access to SGI is denied by NRC staff either after a determination on standing and need to know or, later, after a determination on trustworthiness and reliability, the NRC staff shall briefly state the reasons for the denial. Before the Office of Administration makes an adverse determination regarding access, the proposed recipient must be provided an opportunity to correct or explain information. The requester may challenge the NRC staff's adverse determination with respect to access to SUNSI or with respect to standing or need to know for SGI by filing a challenge within 5 days of receipt of that determination with (a) the presiding officer designated in this proceeding; (b) if no presiding officer has been appointed, the Chief Administrative Judge, or if he or she is unavailable, another administrative judge, or an administrative law judge with jurisdiction pursuant to 10 CFR 2.318(a); or (c) if another officer has been designated to rule on information access issues, with that officer. In the same manner, an SGI requester may challenge an adverse determination on trustworthiness and reliability by filing a challenge within 15 days of receipt of that determination.

In the same manner, a party other than the requester may challenge an NRC staff determination granting access to SUNSI whose release would harm that party's interest independent of the proceeding. Such a challenge must be filed within 5 days of the notification by the NRC staff of its grant of such a request.

If challenges to the NRC staff determinations are filed, these procedures give way to the normal process for litigating disputes concerning access to information. The availability of interlocutory review by the Commission of orders ruling on such NRC staff determinations (whether granting or denying access) is governed by 10 CFR 2.311.⁶

10. The Commission expects that the NRC staff and presiding officers (and any other reviewing officers) will consider and resolve requests for access

to SUNSI and/or SGI, and motions for protective orders, in a timely fashion in order to minimize any unnecessary delays in identifying those petitioners who have standing and who have propounded contentions meeting the specificity and basis requirements in 10 CFR Part 2. Attachment 1 to this Order summarizes the general target schedule for processing and resolving requests under these procedures.

Dated at Rockville, Maryland, this 2nd day of January 2009.

For the Nuclear Regulatory Commission.

J. Samuel Walker,

Acting Secretary of the Commission.

Attachment 1—General Target Schedule for Processing and Resolving Requests for Access to Sensitive Unclassified Non-Safeguards Information and Safeguards Information in This Proceeding

Day	Event/activity
0	Publication of FEDERAL REGISTER notice of hearing and opportunity to petition for leave to intervene, including order with instructions for access requests.
10	Deadline for submitting requests for access to Sensitive Unclassified Non-Safeguards Information (SUNSI) and/or Safeguards Information (SGI) with information: supporting the standing of a potential party identified by name and address; describing the need for the information in order for the potential party to participate meaningfully in an adjudicatory proceeding; demonstrating that access should be granted (e.g., showing technical competence for access to SGI); and, for SGI, including application fee for fingerprint/background check.
60	Deadline for submitting petition for intervention containing: (i) Demonstration of standing; (ii) all contentions whose formulation does not require access to SUNSI and/or SGI (+25 Answers to petition for intervention; +7 petitioner/requestor reply).

⁴ If a presiding officer has not yet been designated, the Chief Administrative Judge will issue such orders, or will appoint a presiding officer to do so.

⁵ Parties/persons other than the requester and the NRC staff will be notified by the NRC staff of a favorable access determination (and may participate in the development of such a motion and protective order) if it concerns SUNSI and if the party/person's interest independent of the proceeding would be harmed by the release of the information (e.g., as with proprietary information).

⁶ As of October 15, 2007, the NRC's final "E-Filing Rule" became effective. See Use of Electronic Submissions in Agency Hearings (72 FR 49139; August 28, 2007). Requesters should note that the filing requirements of that rule apply to appeals of NRC staff determinations (because they must be served on a presiding officer or the Commission, as applicable), but not to the initial SUNSI/SGI requests submitted to the NRC staff under these procedures.

Day	Event/activity	Day	Event/activity
20	Nuclear Regulatory Commission (NRC) staff informs the requester of the staff's determination whether the request for access provides a reasonable basis to believe standing can be established and shows (1) need for SUNSI or (2) need to know for SGI. (For SUNSI, NRC staff also informs any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information.) If NRC staff makes the finding of need for SUNSI and likelihood of standing, NRC staff begins document processing (preparation of redactions or review of redacted documents). If NRC staff makes the finding of need to know for SGI and likelihood of standing, NRC staff begins background check (including fingerprinting for a criminal history records check), information processing (preparation of redactions or review of redacted documents), and readiness inspections.	190	(Receipt +180) If NRC staff finds standing, need to know for SGI, and trustworthiness and reliability, deadline for NRC staff to file motion for Protective Order and draft Non-disclosure Affidavit (or to make a determination that the proposed recipient of SGI is not trustworthy or reliable). NOTE: Before the Office of Administration makes an adverse determination regarding access, the proposed recipient must be provided an opportunity to correct or explain information.
		205	Deadline for petitioner to seek reversal of a final adverse NRC staff determination either before the presiding officer or another designated officer.
		A	If access granted: Issuance of presiding officer or other designated officer decision on motion for protective order for access to sensitive information (including schedule for providing access and submission of contentions) or decision reversing a final adverse determination by the NRC staff.
25	If NRC staff finds no "need," "need to know," or likelihood of standing, the deadline for petitioner/requester to file a motion seeking a ruling to reverse the NRC staff's denial of access; NRC staff files copy of access determination with the presiding officer (or Chief Administrative Judge or other designated officer, as appropriate). If NRC staff finds "need" for SUNSI, the deadline for any party to the proceeding whose interest independent of the proceeding would be harmed by the release of the information to file a motion seeking a ruling to reverse the NRC staff's grant of access.	A + 3	Deadline for filing executed Non-Disclosure Affidavits. Access provided to SUNSI and/or SGI consistent with decision issuing the protective order.
		A + 28	Deadline for submission of contentions whose development depends upon access to SUNSI and/or SGI. However, if more than 25 days remain between the petitioner's receipt of (or access to) the information and the deadline for filing all other contentions (as established in the notice of hearing) or opportunity for hearing, the petitioner may file its SUNSI or SGI contentions by that later deadline.
		A + 53	(Contention receipt +25) Answers to contentions whose development depends upon access to SUNSI and/or SGI.
30	Deadline for NRC staff reply to motions to reverse NRC staff determination(s).	A + 60	(Answer receipt +7) Petitioner/Intervenor reply to answers.
40	(Receipt +30) If NRC staff finds standing and need for SUNSI, deadline for NRC staff to complete information processing and file motion for Protective Order and draft Non-Disclosure Affidavit. Deadline for applicant/licensee to file Non-Disclosure Agreement for SUNSI.	B	Decision on contention admission.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-59175; File No. SR-FINRA-2008-066]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Reflect the Closing of the FINRA/NSX Trade Reporting Facility on December 31, 2008

December 30, 2008.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 23, 2008, Financial Industry Regulatory Authority, Inc. ("FINRA") (f/k/a National Association of Securities Dealers, Inc. ("NASD")) filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by FINRA. FINRA submitted the proposed rule change under Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)³ thereunder, which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

FINRA's proposed rule change reflects the closing of the FINRA/NSX Trade Reporting Facility (the "FINRA/NSX TRF") as of the close of business on December 31, 2008. The text of the proposed rule change is attached as Exhibit 5.⁴

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FINRA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. FINRA has prepared summaries, set forth in sections A, B,

¹ 15 U.S.C. 78s(b)(1).² 17 CFR 240.19b-4.³ 17 CFR 240.19b-4(f)(6).⁴ The Commission notes that while provided in Exhibit 5 to the filing, the text of the proposed rule change is not attached to this notice but is available at FINRA, the Commission's Public Reference Room, and at <http://www.finra.org>.

and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The FINRA/NSX TRF was approved by the SEC⁵ and commenced operation in November 2006 to provide members a mechanism for reporting locked-in trades in NMS stocks, as defined in Rule 600(b)(47) of SEC Regulation NMS, effected otherwise than on an exchange. The National Stock Exchange, Inc. ("NSX"), the "Business Member" under the FINRA/NSX Trade Reporting Facility LLC Agreement (the "LLC Agreement"),⁶ has determined to close the FINRA/NSX TRF for business reasons, and as of the close of business on December 31, 2008, the FINRA/NSX TRF will cease accepting trade reports.⁷

FINRA members have been given notice of the anticipated closing and were further notified that any members using the FINRA/NSX TRF to report trades are required to find an alternative mechanism to satisfy their trade reporting obligations. FINRA and NSX staff are working to ensure that members reporting trades to the FINRA/NSX TRF are transitioned to another FINRA facility. Notwithstanding the closing of the FINRA/NSX TRF, FINRA is able to fulfill all of its regulatory obligations with respect to over-the-counter trade reporting through its other facilities, i.e., the Alternative Display Facility, the FINRA/Nasdaq Trade Reporting Facility and the FINRA/NYSE Trade Reporting Facility (the "FINRA/NYSE TRF").

Accordingly, FINRA is proposing to delete the FINRA Rule 6300B and 7200B Series relating to trade reporting to the FINRA/NSX TRF and the FINRA Rule 7600B Series relating to fees and credits for use of the FINRA/NSX TRF from the Consolidated FINRA Rulebook.⁸ FINRA

⁵ See Securities Exchange Act Release No. 54715 (November 6, 2006), 71 FR 66354 (November 14, 2006) (order approving SR-NASD-2006-108).

⁶ FINRA notes that the LLC Agreement appears in its manual as the NASD/NSX Trade Reporting Facility LLC Agreement.

⁷ Although the FINRA/NSX TRF will cease operating on December 31, 2008, pursuant to the termination provisions in the LLC Agreement, the FINRA/NSX Trade Reporting Facility LLC will continue its corporate existence until no later than November 17, 2009.

⁸ On September 25, 2008, the SEC approved proposed rule change SR-FINRA-2008-021, which adopts the NASD Marketplace Rules (the NASD Rule 4000 through 7000 Series) as the FINRA Rule 6000 through 7000 Series in the Consolidated FINRA Rulebook. See Securities Exchange Act Release No. 58643 (September 25, 2008), 73 FR 57174 (October 1, 2008) (order approving SR-FINRA-2008-021; SR-FINRA-2008-022; SR-

also is proposing to delete the LLC Agreement from its manual. The proposed rule change will ensure that FINRA rules accurately reflect only the FINRA facilities that are available to members for trade reporting.

In addition, to eliminate gaps in the numbering of the Consolidated FINRA Rulebook, FINRA is proposing to renumber the FINRA Rule 6200C, 7300C and 7600C Series relating to the FINRA/NYSE TRF as the Rule 6200B, 7300B and 7600B Series. FINRA is proposing no substantive changes to those rules.⁹

FINRA has filed the proposed rule change for immediate effectiveness and requested a waiver of the 30-day operative delay so that the proposed rule change will be operative on January 1, 2009.

2. Statutory Basis

FINRA believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,¹⁰ which requires, among other things, that FINRA rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. FINRA believes that by deleting rules upon the closing of the FINRA/NSX TRF, the proposed rule change will prevent potential member confusion and trade reporting errors and violations.

FINRA-2008-026; SR-FINRA-2008-028; and SR-FINRA-2008-029) (the "Consolidation Proposals"). The Consolidation Proposals were implemented on December 15, 2008. See *Regulatory Notice* 08-57 (October 2008).

⁹ On November 5, 2008, the SEC approved proposed rule change SR-FINRA-2008-011, which amends the FINRA Rule 6300B and 7200B Series (relating to the FINRA/NSX TRF) and the FINRA Rule 6300C and 7200C Series (relating to the FINRA/NYSE TRF). See Securities Exchange Act Release No. 58903 (November 5, 2008), 73 FR 67905 (November 17, 2008) (order approving SR-FINRA-2008-011); and Securities Exchange Act Release No. 58903A (November 13, 2008), 73 FR 69700 (November 19, 2008) (correction to order approving SR-FINRA-2008-011). The implementation date of SR-FINRA-2008-011 will be announced in a *Regulatory Notice* and will be between six and nine months from the date of SEC approval.

Additionally, FINRA filed proposed rule change SR-FINRA-2008-060 for immediate effectiveness on December 11, 2008 (available at <http://www.finra.org/Industry/Regulation/RuleFilings/2008/P117527>). SR-FINRA-2008-060 amends the FINRA Rule 6300B and 6300C Series and will be operative 30 days after the date of filing.

The changes to the FINRA/NSX TRF rules adopted pursuant to SR-FINRA-2008-011 and SR-FINRA-2008-060 will not be implemented. FINRA will file a separate proposed rule change to make conforming changes to the FINRA/NYSE TRF rules, as renumbered pursuant to this filing, in accordance with SR-FINRA-2008-011 and SR-FINRA-2008-060.

¹⁰ 15 U.S.C. 78o-3(b)(6).

B. Self-Regulatory Organization's Statement on Burden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

FINRA has filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act¹¹ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹² Because FINRA has designated the foregoing proposed rule change as one that: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) does not become operative for 30 days from the date of filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6) thereunder.¹³

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. However, Rule 19b-4(f)(6)(iii) permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. FINRA has asked the Commission to waive the 30-day operative delay to expedite the deletion of rules that apply to the FINRA/NSX TRF, a FINRA facility that will cease operations on December 31, 2008. FINRA believes that the deletion of the rule will prevent potential member confusion, and trade reporting errors and violations.

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because the proposal will delete rules that apply to the FINRA/NSX TRF, a FINRA facility that will cease operations

¹¹ 15 U.S.C. 78s(b)(3)(A).

¹² 17 CFR 240.19b-4(f)(6).

¹³ As required under Rule 19b-4(f)(6)(iii), the Exchange has provided the Commission with written notice of its intent to file the proposed rule change at least five business days prior to the filing of the proposed rule change.

on December 31, 2008.¹⁴ Accordingly, the Commission believes that the proposal will ensure that FINRA's rules accurately reflect the FINRA trade reporting facilities that will be in operation currently and available to accept trade reports. For these reasons, the Commission designates the proposal to be operative on filing with the Commission.

At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing will also be available for inspection and copying at the principal office of the self-regulatory organization. SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-59183; File No. SR-FINRA-2008-68]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Extend the Pilot Regarding the Use of Multiple MPIDs on the Trade Reporting Facilities and the Alternative Display Facility

December 30, 2008.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that, on December 29, 2008, Financial Industry Regulatory Authority, Inc. ("FINRA") (f/k/a National Association of Securities Dealers, Inc. ("NASD")) filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by FINRA. FINRA has designated the proposed rule change as constituting a "non-controversial" rule change under paragraph (f)(6) of Rule 19b-4 under the Act,³ which renders the proposal effective upon receipt of this filing by the Commission. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

FINRA is proposing to extend through January 29, 2010, the current rules regarding the use of multiple Market Participant Symbols ("MPIDs") in FINRA Rules 6160 (with respect to Trade Reporting Facilities ("TRFs")) and 6170 (with respect to the Alternative Display Facility ("ADF")).

The text of the proposed rule change is available at FINRA's Web site at <http://www.finra.org>, at the principal offices of FINRA and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FINRA included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. FINRA has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

(a) FINRA Rule 6160

Rule 6160 (Multiple MPIDs for Trade Reporting Facility Participants) provides that any Trade Reporting Facility Participant that wishes to use more than one MPID for purposes of reporting trades to a TRF must submit a written request to, and obtain approval from, FINRA Operations for such additional MPIDs. In addition, Supplementary Material to the rule states that FINRA considers the issuance of, and trade reporting with, multiple MPIDs to be a privilege and not a right. A Trade Reporting Facility Participant must identify the purpose(s) and system(s) for which the multiple MPIDs will be used. If FINRA determines that the use of multiple MPIDs is detrimental to the marketplace, or that a Trade Reporting Facility Participant is using one or more additional MPIDs improperly or for other than the purpose(s) identified by the Participant, FINRA staff retains full discretion to limit or withdraw its grant of the additional MPID(s) to such Trade

Reporting Facility Participant for purposes of reporting trades to a TRF. FINRA believes that Rule 6160 is necessary to consolidate the process of issuing, and tracking the use of, multiple MPIDs used to report trades to TRFs.

The Commission initially approved Rule 6160 (formerly NASD Rule 5140 and IM-5140) on a pilot basis on November 6, 2006.⁴ By its terms, the pilot period expired on January 26, 2007. In 2007 and 2008, the pilot period was extended for additional one-year periods until January 25, 2008 and January 30, 2009, respectively.⁵ FINRA believes that an additional one-year extension until January 29, 2010, is necessary to provide additional time to analyze the use of multiple MPIDs on the TRFs. FINRA is not proposing any other changes to the pilot as this time.

(b) FINRA Rule 6170

Rule 6170 (Primary and Additional MPIDs for Alternative Display Facility Participants) provides that a Registered Reporting ADF ECN may request additional MPIDs for displaying quotes and orders and reporting trades through the ADF trade reporting facility, TRACS, for any ADF-Eligible Security. Registered Reporting ADF ECNs that are permitted the use of additional MPIDs for displaying quotes and orders are subject to the same rules applicable to the member's first quotation (i.e., ECNs that display one or more additional quotes/orders are required to comply with all rules applicable to ECNs in their display of quotes/orders). Registered Reporting ADF ECNs also are prohibited from using an additional MPID to accomplish indirectly what they are prohibited from doing directly through their Primary MPID. In addition, FINRA staff retains full discretion to determine whether a bona fide regulatory and/or business need exists for being granted an additional MPID privilege and to limit or withdraw the additional MPID display privilege at any time. The procedures for requesting, and the restrictions surrounding the use of, multiple MPIDs are set forth in Supplementary Material to the rule.

Rule 6170 (formerly NASD Rule 4613A(b) and IM-4613A-1) was adopted on a pilot basis on August 11,

⁴ See Securities Exchange Act Release No. 54715 (November 6, 2006), 71 FR 66354 (November 14, 2006); see also Securities Exchange Act Release No. 54715A (November 14, 2006), 71 FR 67183 (November 20, 2006) (correcting original approval order).

⁵ See Securities Exchange Act Release No. 55206 (January 31, 2007), 72 FR 5479 (February 6, 2007) and Securities Exchange Act Release No. 57217 (January 28, 2008), 73 FR 6234 (February 1, 2008), respectively.

2006.⁶ By its terms, the initial pilot period expired on January 26, 2007.⁷ In 2007 and 2008, the pilot period was extended for additional one-year periods until January 25, 2008 and January 30, 2009, respectively.⁸ FINRA believes that an additional one-year extension until January 29, 2010, is necessary to provide additional time to analyze the use of multiple MPIDs on the ADF. FINRA is not proposing any other changes to the pilot as this time.

FINRA has filed the proposed rule change for immediate effectiveness. The implementation date of the proposed rule change will be January 30, 2009.

2. Statutory Basis

FINRA believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,⁹ which requires, among other things, that FINRA rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. FINRA believes that the proposed rule change is consistent with these requirements because it will provide a process by which ECNs (in the case of the ADF) and Trade Reporting Facility Participants (in the case of TRFs) can request, and FINRA can properly allocate, the use of additional MPIDs for displaying quotes and orders through the ADF or reporting trades to a TRF.

B. Self-Regulatory Organization's Statement on Burden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

⁶ See Securities Exchange Act Release No. 54307 (August 11, 2006), 71 FR 47551 (August 17, 2006).

⁷ The expiration of the pilot period coincided with the expiration of the ADF pilot period. See Securities Exchange Act Release No. 53699 (April 21, 2006), 71 FR 25271 (April 28, 2006). On January 26, 2007, the Commission approved a proposed rule change to make the ADF rules permanent. See Securities Exchange Act Release No. 55181 (January 26, 2007), 72 FR 5093 (February 2, 2007).

⁸ See Securities Exchange Act Release No. 55206 (January 31, 2007), 72 FR 5479 (February 6, 2007) and Securities Exchange Act Release No. 57217 (January 28, 2008), 73 FR 6234 (February 1, 2008), respectively.

⁹ 15 U.S.C. 78o-3(b)(6).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Background

Due to LaGuardia's limited runway capacity, the airport cannot accommodate the number of flights that airlines and others would like to operate without causing significant congestion. The FAA has long limited the number of arrivals and departures at LaGuardia during peak demand periods through the promulgation and implementation of the High Density Rule (HDR).¹ By statute enacted in April 2000, the HDR's

¹ 33 FR 17896 (Dec. 3, 1968). The FAA codified the rules for operating at high density traffic airports in 14 CFR part 93, subpart K. The HDR required carriers to hold a reservation, which came to be known as a "slot," for each takeoff or landing under instrument flight rules at the high density traffic airports.

applicability to LaGuardia operations terminated as of January 1, 2007.²

In anticipation of the HDR's expiration, the FAA proposed a long-term rule that would limit the number of scheduled and unscheduled operations at LaGuardia.³ Because the FAA could not complete that rulemaking by January 1, 2007, the FAA issued an Order on December 27, 2006, adopting temporary limits pending the completion of the rulemaking.⁴ This Order was amended on November 8, 2007, and August 19, 2008.⁵

Under the Order, as amended, the FAA (1) maintains the current hourly limits on scheduled (75) and unscheduled (three) operations at LaGuardia during peak period; (2) imposes an 80 percent minimum usage requirement for OAs with defined exceptions; (3) provides a mechanism for withdrawal of OAs for FAA operational reasons; (4) provides for a lottery to reallocate withdrawn, surrendered, or unallocated OAs; and (5) allows for trades and leases of OAs for consideration for the duration of the Order. Without the operational limitations imposed by this Order, the FAA expected severe congestion related delays would occur at LGA and at other airports throughout the National Airspace System (NAS) resulting from capacity constraints at LGA.

On October 10, 2008, the FAA published the "Congestion Management Rule for LaGuardia Airport" final rule ("Congestion Management Rule").⁶ The Congestion Management Rule would have become effective on December 9, 2008. The Congestion Management Rule imposes limitations on scheduled and unscheduled operations.

Several parties petitioned for review of the Congestion Management Rule and sought a stay of that rule.⁷ On December 8, 2008, the United States Court of Appeals for the District of Columbia Circuit stayed the Congestion Management Rule, which rendered it temporarily ineffective. To prevent this Order from expiring prior while the litigation is pending, the FAA has concluded that it is necessary to extend

the expiration date of this Order to October 24, 2009. This expiration date coincides with the expiration dates for the Orders limiting scheduled operations at John F. Kennedy International and Newark Liberty International Airports.

Therefore, the FAA finds that notice and comment procedures under 5 U.S.C. section 553(b) are impracticable and contrary to the public interest. The FAA further finds that good cause exists to make this Order effective in less than 30 days.

The Amended Order

The Order, as amended, is recited below in its entirety.

A. Scheduled Operations

With respect to scheduled operations at LaGuardia:

1. The final Order governs scheduled arrivals and departures at LaGuardia from 6 a.m. through 9:59 p.m., Eastern Time, Monday through Friday and from 12 noon through 9:59 p.m., Eastern Time, Sunday.

2. The final Order takes effect on January 1, 2007, and will expire on October 24, 2009.

3. The FAA will assign operating authority to conduct an arrival or a departure at LaGuardia during the affected hours to the air carrier that holds equivalent slot or slot exemption authority under the High Density Rule of FAA slot exemption rules as of January 1, 2007; to the primary marketing air carrier in the case of AIR-21 small hub/nonhub airport slot exemptions; or to the air carrier operating the flights as of January 1, 2007, in the case of a slot held by a non carrier. The FAA will not assign operating authority under the final Order to any person or entity other than a certificated U.S. or foreign air carrier with appropriate economic authority under 14 CFR part 121, 129 or 135. The Chief counsel of the FAA will be the final decision maker regarding the initial assignment of Operating Authorizations.

4. For administrative tracking purposes only, the FAA will assign an identification number to each Operating Authorization.

5. An air carrier can lease or trade an Operating Authorization to another carrier for any consideration, not to exceed the duration of the Order. Notice of a trade or lease under this paragraph must be submitted in writing to the FAA Slot Administration Office, facsimile (202) 267-7277 or e-mail 7-AWASlotadmin@faa.gov, and must come from a designated representative of each carrier. The FAA must confirm

and approve these transactions in writing prior to the effective date of the transaction. However, the FAA will approve transfers between carriers under the same marketing control up to 5 business days after the actual operation. This post-transfer approval is limited to accommodate operational disruptions that occur on the same day of the scheduled operation.

6. Each air carrier holding an Operating Authorization must forward in writing to the FAA Slot Administration Office a list of all Operating Authorizations held by the carrier along with a listing of the Operating Authorizations actually operated for each day of the two-month reporting period within 14 days after the last day of the two-month reporting period beginning January 1 and every two months thereafter. Any Operating Authorization not used at least 80 percent of the time over a two-month period will be withdrawn by the FAA except:

A. The FAA will treat as used any Operating Authorization held by an air carrier on Thanksgiving Day, the Friday following Thanksgiving Day, and the period from December 24 through the first Saturday in January.

B. The FAA will treat as used any Operating Authorization obtained by an air carrier through a lottery under paragraph 7 for the first 120 days after allocation in the lottery.

C. The Administrator of the FAA may waive the 80 percent usage requirement in the event of a highly unusual and unpredictable condition which is beyond the control of the air carrier and which affects carrier operations for a period of five consecutive days or more.

7. In the event that Operating Authorizations are withdrawn for nonuse, surrendered to the FAA or are unassigned, the FAA will determine whether any of the available Operating Authorizations should be reallocated. If so, the FAA will conduct a lottery using the provisions specified under 14 CFR 93.225. The FAA may retime an Operating Authorization prior to reallocation in order to address operational needs. When the final Order expires, any Operating Authorizations reassigned under this paragraph, except those assigned to new entrants or limited incumbents, will revert to the FAA for reallocation according to the reallocation mechanism prescribed in the final rule that succeeds the final Order.

8. If the FAA determines that a reduction in the number of allocated Operating Authorizations is required to meet operational needs, such as reduced airport capacity, the FAA will conduct

a weighted lottery to withdraw Operating Authorizations to meet a reduced hourly or half-hourly limit for scheduled operations. The FAA will provide at least 45 days' notice unless otherwise required by operational needs. Any Operating Authorization that is withdrawn or temporarily suspended will, if reallocated, be reallocated to the air carrier from which it was taken, provided that the air carrier continues to operate scheduled service at LaGuardia.

9. The FAA will enforce the final Order through an enforcement action seeking a civil penalty under 49 U.S.C. 46301(a). An air carrier that is not a small business as defined in the Small Business Act, 15 U.S.C. 632, would be liable for a civil penalty of up to \$25,000 for every day that it violates the limits set forth in the final Order. An air carrier that is a small business as defined in the Small Business Act would be liable for a civil penalty of up to \$10,000 for every day that it violates the limits set forth in the final Order. The FAA also could file a civil action in U.S. District Court, under 49 U.S.C. 46106, 46107, seeking to enjoin any air carrier from violating the terms of the final Order.

B. Unscheduled Operations⁸

With respect to unscheduled flight operations at LaGuardia, the FAA adopts the following:

1. The final order applies to all operators of unscheduled flights, except helicopter operations, at LaGuardia from 6 a.m. through 9:59 p.m., Eastern Time, Monday through Friday and from 12 noon through 9:59 p.m., Eastern Time, Sunday.

2. The final Order takes effect on January 1, 2007, and will expire on October 24, 2009.

3. No person can operate an aircraft other than a helicopter to or from LaGuardia unless the operator has received, for that unscheduled operation, a reservation that is assigned by the David J. Hurley Air Traffic Control System Command Center's Airport Reservation Office (ARO). Additional information on procedures for obtaining a reservation will be

⁸ Unscheduled operations are operations other than those regularly conducted by an air carrier between LaGuardia and another service point. Unscheduled operations include general aviation, public aircraft, military, charter, ferry, and positioning flights. Helicopter operations are excluded from the reservation requirement. Reservations for unscheduled flights operating under visual flight rules (VFR) are granted when the aircraft receives clearance from air traffic control to land or depart LaGuardia. Reservations for unscheduled VFR flights are not included in the limits for unscheduled operators.

available via the Internet at <http://www.flyfaa.gov/ecvrs>.

4. Three (3) reservations are available per hour for unscheduled operations at LaGuardia. The ARO will assign reservations on a 30-minute basis.

5. The ARO receives and processes all reservation requests. Reservations are assigned on a "first-come, first-served" basis, determined as of the time that the ARO receives the request. A cancellation of any reservation that will not be used as assigned would be required.

6. Filing a request for a reservation does not constitute the filing of an instrument flight rules (IFR) flight plan, as separately required by regulation. After the reservation is obtained, an IFR flight plan can be filed. The IFR flight plan must include the reservation number in the "remarks" section.

7. Air Traffic Control will accommodate declared emergencies without regard to reservations. Nonemergency flights in direct support of national security, law enforcement, military aircraft operations, or public use aircraft operations will be accommodated above the reservation limits with the prior approval of the Vice President, System Operations Services, Air Traffic Organization. Procedures for obtaining the appropriate reservation for such flights are available via the Internet at <http://www.fly.faa.gov/ecvrs>.

8. Notwithstanding the limits in paragraph 4, if the Air Traffic Organization determines that air traffic control, weather, and capacity conditions are favorable and significant delay is not likely, the FAA can accommodate additional reservations over a specific period. Unused operating authorizations can also be temporarily made available for unscheduled operations. Reservations for additional operations are obtained through the ARO.

9. Reservations cannot be bought, sold, or leased.

Issued in Washington, DC on December 31, 2008.

Assistant Chief Counsel for Regulations.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Docket No. AB-1026X]

Bellingham International Railroad, LLC—Abandonment Exemption—in Whatcom County, WA

Bellingham International Railroad, LLC (BIR), has filed a verified notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon a 2-mile line of railroad between milepost 2.98 and milepost 4.98 in Bellingham, Whatcom County, WA.¹ The line traverses United States Postal Service Zip Code 98225 and includes no stations.

BIR has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) no overhead traffic has been handled on the line for at least 2 years;² (3) no formal complaint filed by a user of rail service on the line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Surface Transportation Board (Board) or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental report), 49 CFR 1105.8 (historic report), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

¹ In 1998, BIR acquired the exclusive rail service easement over the line and all track, track materials, and related structures. See *Bellingham International Railroad LLC—Acquisition and Operation Exemption—The Burlington Northern and Santa Fe Railway Company*, STB Finance Docket No. 33635 (STB served Aug. 4, 1998).

² According to BIR, the line is stub-ended and not capable of handling overhead traffic.

Where, as here, BIR is abandoning all of its rail lines, the Board does not normally impose labor protection under 49 U.S.C. 10502(g), unless the evidence indicates the existence of: (1) A corporate affiliate that will continue substantially similar rail operations; or (2) a corporate parent that will realize substantial financial benefits over and above relief from the burden of deficit operations by its subsidiary railroad. See *Wellsville, Addison & Galetton R. Corp.—Abandonment*, 354 I.C.C. 744 (1978); and *Northampton and Bath R. Co.—Abandonment*, 354 I.C.C. 784 (1978). Because BRI does not appear to have a corporate affiliate or parent that will continue similar operations or that could benefit from the proposed abandonment, employee protective conditions will not be imposed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on February 7, 2009, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,³ formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),⁴ and trail use/rail banking requests under 49 CFR 1152.29 must be filed by January 21, 2009. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by January 28, 2009,⁵ with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to BIR's representative: Karl Morell, Ball Janik LLP, 1455 F Street, NW., Suite 225, Washington, DC 20005.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

BIR has filed environmental and historic reports that address the effects, if any, of the abandonment on the environment and historic resources. SEA will issue an environmental

assessment (EA) by January 13, 2009. Interested persons may obtain a copy of the EA by writing to SEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling SEA, at (202) 245-0305. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339.] Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), BIR shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by BIR's filing of a notice of consummation by January 8, 2010, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Subjects: In this notice the Board is requesting that comments be sent to OMB on the following information collections:

Collection Number 1

Title: Class I Railroad Annual Report.
OMB Control Number: 2140-0009.
Form Number: R1.
Type of Review: Extension without change.

Respondents: Class I railroads.
Number of Respondents: Fewer than 10.

Estimated Time per Response: As long as 800 hours, based on information provided by the railroad industry during the 1990s. This estimate includes time spent reviewing instructions; searching existing data sources; gathering and maintaining the data needed; completing and reviewing the collection of information; and converting the data from the carrier's individual accounting system to the Board's Uniform System of Accounts (USOA), which ensures that the information will be presented in a consistent format across all reporting railroads, see 49 U.S.C. 11141-43, 11161-64, 49 CFR 1200-1201. It is likely that the estimated time to produce this report is overstated, given the advances made in computerized data collection and processing systems.
Frequency of Response: Annual.

³ The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Section of Environmental Analysis (SEA) in its independent investigation) cannot be made before the exemption's effective date. See *Exemption of Out-of-Service Rail Lines*, 5 I.C.C. 2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

⁴ Effective July 18, 2008, the filing fee for an OFA increased to \$1,500. See *Regulations Governing Fees for Services Performed in Connection with Licensing and Related Services—2008 Update*, STB Ex Parte No. 542 (Sub-No. 15) (STB served June 18, 2008).

⁵ BIR states that the property underlying the line's right-of-way may be reversionary, which may affect the transfer of the property for other than rail or rail-banking purposes.

Total Annual Hour Burden: Up to 5,600 hours annually.

Total Annual "Non-Hour Burden" Cost: No "non-hour cost" burdens associated with this collection have been identified.

Needs and Uses: Annual reports are required to be filed by Class I railroads under 49 U.S.C. 11145. The reports show operating expenses and operating statistics of the carriers. Operating statistics include such items as car-miles, revenue-ton-miles, and gross ton-miles. The reports are used by the Board, other Federal agencies, and industry groups to monitor and assess railroad industry growth, financial stability, traffic, and operations, and to identify industry changes that may affect national transportation policy. Information from this report is also entered into the Board's Uniform Rail Costing System (URCS), which is a cost measurement methodology. URCS, which was developed by the Board pursuant to 49 U.S.C. 11161, is used as a tool in rail rate proceedings, in accordance with 49 U.S.C. 10707(d), to calculate the variable costs associated with providing a particular service. The Board also uses this information to more effectively carry out other of its regulatory responsibilities, including: Acting on railroad requests for authority to engage in Board-regulated financial transactions such as mergers, acquisitions of control, and consolidations, see 49 U.S.C. 11323-11324; analyzing the information that the Board obtains through the annual railroad industry waybill sample, see 49 CFR 1244; measuring off-branch costs in railroad abandonment proceedings, in accordance with 49 CFR 1152.32(n); developing the "rail cost adjustment factors," in accordance with 49 U.S.C. 10708; and conducting investigations and rulemakings.

Information from certain schedules contained in these reports is compiled and published on the Board's Web site, <http://www.stb.dot.gov>. Information in these reports is not available from any other source.

There is no other source for the information contained in this report.

SUPPLEMENTARY INFORMATION: Under the PRA, a Federal agency conducting or sponsoring a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Under the PRA and 5 CFR 1320.8, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number. Section 3507(b) of the PRA

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 35116]

R.J. Corman Railroad Company/ Pennsylvania Lines Inc.—Construction and Operation Exemption—in Clearfield County, PA

ACTION: Notice of Intent to Prepare an Environmental Impact Statement; Notice of Availability of the Draft Scope of Study for the Environmental Impact Statement; Notice of Scoping Meeting; and Request for Comments on Draft Scope.

SUMMARY: On May 20, 2008, R.J. Corman Railroad Company/Pennsylvania Lines Inc. (RJCP) filed a petition with the Surface Transportation Board (Board) pursuant to 49 U.S.C. 10502 for authority to construct and operate an abandoned 10.8-mile rail line between Wallaceton Junction and Winburne in Clearfield County, Pennsylvania (the Western Segment) and to rebuild the track on a connecting 9.3-mile line between Winburne and Gorton in Clearfield and Centre Counties, Pennsylvania (the Eastern Segment) that is currently being used for interim trail use, subject to the possible restoration of rail service (rail banking) pursuant to the Trails Act, 16 U.S.C. 1247(d). In total, the proposed project would involve the construction or rebuilding, and operation, of approximately 20 miles of the former Beech Creek Railroad to serve a new quarry, landfill, and industrial park being developed by Resource Recovery, LLC, near Gorton, Pennsylvania.

Because this project has the potential to result in significant environmental impacts, the Board's Section of Environmental Analysis (SEA) has determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*). The purpose of this Notice of

Intent is to notify individuals and agencies interested in or affected by the proposed project of the decision to prepare an EIS. SEA will hold a public scoping meeting as part of the NEPA process associated with the development of the EIS. Additionally, as part of the scoping process, SEA has developed a draft Scope of Study for the EIS for review and comment. The public meeting date and location, along with the draft Scope of Study, are provided below:

Date and Location: The public scoping meeting will be held: Tuesday, February 10, 2009, 6–8 p.m., Philipsburg-Osceola Area Senior High School, 502 Philips Street, Philipsburg, PA 16866–1899.

The public scoping meeting will be held in an informal open-house format during which interested persons may ask questions about the proposed project and the Board's environmental review process, and advise SEA staff about potential environmental effects of the project. No formal presentations will be made by agency representatives. SEA staff will be available to answer questions and receive comments individually.

Interested parties are invited to submit written comments on the draft Scope of Study, alternatives to the proposed rail line, and other environmental issues and concerns by February 24, 2009, to assure full consideration during the scoping process. SEA will issue a final Scope of Study after the close of the scoping comment period.

SUPPLEMENTARY INFORMATION:

Background: Simultaneously with the filing of its petition for exemption (which seeks Board authority for both the rail banked Eastern Segment as well as the Western Segment of the proposed rail line), RJCP also filed a motion to dismiss the part of this proceeding that relates to the reactivation of the rail banked Eastern Segment. RJCP argues that reactivation of the rail banked Eastern Segment does not require Board approval under 49 U.S.C. 10901 (or an exemption under 49 U.S.C. 10502) and that therefore, the Board should not perform an environmental review of that segment of the proposed rail line. At this time, the Board has not decided whether reactivation of the Eastern Segment requires Board authority. Although the Board has not yet decided this issue, environmental review of the Eastern Segment is necessary to satisfy the NEPA requirements of one of the Board's cooperating agencies discussed below, and therefore SEA is now issuing this Notice of Intent.

Pursuant to 40 CFR 1501.5 and 1501.6, SEA may request agencies that have jurisdiction under other laws, or agencies that have "special expertise with respect to any environmental issue," to participate as "cooperating agencies" in the Board's environmental review process. Cooperating agencies typically make their own decisions regarding a particular project and tend to adopt the environmental analysis prepared by another agency, (known as the "lead" agency) as the basis for their decision. Where environmental review takes place with cooperating agencies, one environmental document therefore includes information necessary to fulfill the requirements of NEPA and related environmental laws for both the lead and cooperating agencies.

Based on preliminary agency consultations and field reconnaissance of the project area conducted by SEA and its third-party contractor (Skelly and Loy, Inc.), SEA believes that the proposed project could impact resources (i.e., wetlands and watercourses) that fall under the jurisdiction of the U.S. Army Corps of Engineers (Corps). Therefore, SEA has invited the Corps, and the Corps has agreed, to participate as a cooperating agency in the preparation of the EIS for this project. To assure that the Corps has the information it needs to meet all of its responsibilities under NEPA and the Clean Water Act, SEA will conduct an appropriate environmental review of the entire 20 miles of proposed rail line (i.e., both the Eastern and Western Segments), regardless of the Board's decision on RJCP's pending motion to dismiss.

Summary of the Board's Environmental Review Process: The NEPA process is intended to assist the Board and the public in identifying and assessing the potential environmental consequences of a proposed action before a decision on the proposed action is made. SEA is responsible for ensuring that the Board complies with NEPA and related environmental statutes. The first stage of the EIS process is scoping. Scoping is an open process for determining the scope of environmental issues to be addressed in the EIS. As part of the scoping process, SEA has developed, and has made available for public review and comment in this notice, a draft Scope of Study for the EIS. SEA will host a scoping meeting to provide further opportunities for public involvement and input during the scoping process. Interested parties are also encouraged to comment on any potential alternatives for the proposed project. SEA is currently considering four alternatives for the proposed

project (construction and operation of the 20 miles of rail line along the former Beech Creek line, two non-rail transportation options for the no-build alternative, and the no-action alternative). At the conclusion of the scoping and comment period, SEA will issue a final Scope of Study for the EIS.

After issuing the final Scope of Study, SEA will prepare a Draft EIS for the project. The Draft EIS will address the environmental issues and concerns identified during the scoping process. It will also contain SEA's preliminary recommendations for environmental mitigation measures. The Draft EIS will be made available upon its completion for review and comment by the public, government agencies, and other interested parties. SEA will then prepare a Final EIS that considers comments on the Draft EIS, sets forth any additional analyses, and makes final recommendations to the Board on appropriate mitigation measures. In reaching its decision in this case, the Board will take into account the Draft EIS, the Final EIS, and all environmental comments that are received.

Filing Environmental Comments: Comments submitted by mail should be addressed to: Danielle Gosselin, Surface Transportation Board, 395 E Street, SW., Washington, DC 20423, **Attention:** Environmental Filing, STB Finance Docket No. 35116.

Comments may also be filed electronically on the Board's Web site, <http://www.stb.dot.gov>, by clicking on the "E-FILING" link.

Please refer to STB Finance Docket No. 35116 in all correspondence, including e-filings, addressed to the Board.

All comments must be post marked by February 24, 2009.

Draft Scope of Study for the EIS

Proposed Action and Alternatives

The Proposed Action is the construction and operation of an abandoned 10.8-mile rail line between Wallaceton Junction and Winburne and the reactivation of track on a connecting 9.3-miles of currently rail banked line between Winburne and Gorton. The approximately 20 miles of track would

allow RJCP to provide rail service to a proposed new quarry, landfill, and industrial park being developed by Resource Recovery, LLC, near Gorton in Rush Township, Centre County, Pennsylvania. The anticipated train traffic would be two trains daily, with one train per day traveling in each direction. The EIS will also analyze the potential impacts of two non-rail transportation options for the no-build alternative and a no-action alternative set forth below.

The reasonable and feasible alternatives that will be evaluated in the EIS are: (1) Construction and operation of the proposed rail line along the former Beech Creek line, (2) no-build alternative option 1 involving the construction of a new interchange on Interstate 80, (3) no-build alternative option 2 involving improving the existing local road system (i.e., road paving, bridge replacement etc.), and (4) the no-action alternative.

Environmental Impact Analysis

Proposed New Construction or Rebuilding and Operation

Analysis in the EIS will address the proposed activities associated with the construction or rebuilding, and operation, of the proposed 20 miles of rail line and potential environmental impacts, as appropriate.

Impact Categories

The EIS will analyze the potential impacts associated with the proposed project on both the human and natural environment, or in the case of the no-action alternative, the lack of these impacts. Impact areas addressed will include the categories of transportation and safety, land use, energy resources, air quality, noise, biological resources including threatened and endangered species, water resources including wetlands and other jurisdictional waters of the U.S., socioeconomics as they relate to physical changes in the environment, recreation, environmental justice, geology and soils, and cultural/historic resources. Other categories of impacts may also be included as a result of comments received during the scoping process or the Draft EIS. The EIS will include a discussion of each of these categories as they currently exist in the project area and will address the potential impacts of each alternative on each category as described below.

1. Transportation and Safety

The EIS will:

- a. Evaluate potential pedestrian and motor vehicle safety concerns at each public and private at-grade road crossing.

- c. Include an assessment of the appropriate safety appurtenances to be erected at each crossing.

- d. Assess the project's operational safety with respect to its close proximity to residential structures.

- e. Evaluate the project's consistency with local and regional transportation planning goals.

- f. Propose mitigative measures to minimize or eliminate potential impacts to safety, as appropriate.

2. Land Use

The EIS will:

- a. Identify existing land uses that would be potentially impacted by the project.

- b. Evaluate the project's consistency with local and regional land use planning goals.

- c. Propose mitigative measures to minimize or eliminate potential impacts to land use, as appropriate.

3. Energy Resources

The EIS will:

- a. Describe the effect of the project on energy resources, recyclable commodities, and overall changes in energy efficiency.

- b. Propose mitigative measures to minimize or eliminate potential impacts to energy resources, as appropriate.

4. Air Quality

The EIS will:

- a. Quantitatively evaluate rail operation air emissions, if the project would affect a Class I or non-attainment or maintenance area as designated under the Clean Air Act.

- b. Qualitatively evaluate the temporary air quality impact resulting from rail line construction activities.

- c. Propose mitigative measures to minimize or eliminate potential project impacts to air quality, as appropriate.

5. Noise

The EIS will:

- a. Quantitatively evaluate rail operation noise impacts, including the use of any auditory warning devices at public road crossings.

- b. Qualitatively evaluate the temporary noise impact resulting from rail line construction activities.

- c. Propose mitigative measures to minimize or eliminate potential project impacts to sensitive noise receptors, as appropriate.

6. Biological Resources

The EIS will:

- a. Evaluate the existing biological resources within the project area, including vegetative communities, terrestrial and aquatic habitats, and known wildlife species.

- b. Evaluate project impacts to any Federal or state threatened and endangered plant or animal species.

- c. Describe the proposed project's impact on any wildlife sanctuaries, refuges, national and state parks/forests, or state game lands.

- d. Document all coordination conducted with those Federal and state agencies having jurisdiction over biological resources.

- e. Propose mitigative measures to avoid, minimize or compensate for potential impacts to biological resources, as appropriate.

7. Water Resources

11. Geology and Soils

The EIS will:

a. Describe the geologic and soil conditions within the project area, including the status of past and present coal mining operations.

b. Evaluate potential measures to avoid or construct through active surface mined areas.

c. Propose mitigative measures to minimize or eliminate potential project impacts to geology and soils, as appropriate.

12. Cultural/Historic Resources

The EIS will:

b. Document all project coordination with the state historic preservation officer.

c. Propose mitigative measures to minimize or eliminate potential project impacts to cultural/historic resources, as appropriate.

13. Cumulative and Indirect Impacts

The EIS will:

a. Address any identified potential cumulative impacts of the project, as appropriate. Cumulative impacts are the impacts on the environment which result from the incremental impact of the action when added to other past, present, and reasonably foreseeable future actions regardless of what agency (Federal or non-Federal) or person undertakes such actions (for example, Resource Recovery, LLC's proposed new quarry, landfill and industrial park).

b. Address any identified potential indirect impacts of the project, as appropriate. Indirect impacts are impacts that are caused by the action and are later in time or farther removed in distance, but are still reasonably foreseeable.

BILLING CODE 4915-01-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34554 (Sub-No. 10)]

**Union Pacific Railroad Company—
Temporary Trackage Rights
Exemption—BNSF Railway Company**

BNSF Railway Company (BNSF), pursuant to a modified written trackage rights agreement entered into between BNSF and Union Pacific Railroad Company (UP), has agreed to extend the expiration date of the local trackage rights granted to UP¹ over BNSF's line of railroad extending from BNSF milepost 579.3 near Mill Creek, OK, to BNSF milepost 631.1 near Joe Junction, TX, a distance of approximately 51 miles.²

The transaction is scheduled to be consummated on January 22, 2009.

The purpose of this transaction is to modify the temporary trackage rights exempted in STB Finance Docket No. 34554 (Sub-No. 8) to further extend the expiration date to on or before December 31, 2009. The modified trackage rights will permit UP to continue to move loaded and empty

¹ UP submits that the trackage rights being granted here are only temporary rights, but, because they are "local" rather than "overhead" rights, they do not qualify for the Board's class exemption for temporary trackage rights at 49 CFR 1180.2(d)(8). See *Railroad Consolidation Procedures*, 6 S.T.B. 910 (2003). Therefore, UP and BNSF concurrently have filed a petition for partial revocation of this exemption in STB Finance Docket No. 34554 (Sub-No. 11), *Union Pacific Railroad Company—Temporary Trackage Rights Exemption—BNSF Railway Company*, wherein UP, with the support of BNSF, requests that the Board permit the proposed local trackage rights arrangement described in the present proceeding to expire on or about December 31, 2009. That petition will be addressed by the Board in a separate decision.

² The original trackage rights granted in *Union Pacific Railroad Company—Trackage Rights Exemption—The Burlington Northern and Santa Fe Railway Company*, STB Finance Docket No. 34554 (STB served Oct. 7, 2004), also extended from BNSF milepost 579.3 near Mill Creek, OK, to BNSF milepost 631.1 near Joe Junction, TX. By decisions served on November 24, 2004, in STB Finance Docket No. 34554 (Sub-No. 1), on March 25, 2005, in STB Finance Docket No. 34554 (Sub-No. 3), on March 23, 2006, in STB Finance Docket No. 34554 (Sub-No. 5), on March 13, 2007, in STB Finance Docket No. 34554 (Sub-No. 7), and on March 20, 2008, in STB Finance Docket No. 34554 (Sub-No. 9), the Board granted exemptions to permit the trackage rights authorized in STB Finance Docket No. 34554 and extended in STB Finance Docket No. 34554 (Sub-No. 2), served on February 11, 2005, in STB Finance Docket No. 34554 (Sub-No. 4), served on March 3, 2006, in STB Finance Docket No. 34554 (Sub-No. 6), served on January 12, 2007, and in STB Finance Docket No. 34554 (Sub-No. 8), served on January 4, 2008, to expire. At the time of the last extension, it was anticipated by the parties that the rights would expire on or about December 31, 2008. However, this authority has not yet been exercised.

ballast trains for use in its maintenance-of-way projects.

As a condition to this exemption, any employee affected by the trackage rights will be protected by the conditions imposed in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

This notice is filed under 49 CFR 1180.2(d)(7). If it contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Stay petitions must be filed by January 15, 2009 (at least 7 days before the exemption becomes effective).

Pursuant to the Consolidated Appropriations Act, 2008, Public Law No. 110-161, § 193, 121 Stat. 1844 (2007), nothing in this decision authorizes the following activities at any solid waste rail transfer facility: collecting, storing or transferring solid waste outside of its original shipping container; or separating or processing solid waste (including baling, crushing, compacting and shredding). The term "solid waste" is defined in section 1004 of the Solid Waste Disposal Act, 42 U.S.C. 6903.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34554 (Sub-No. 10), must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Gabriel S. Meyer, Union Pacific Railroad Company, 1400 Douglas Street, STOP 1580, Omaha, NE 68179.
