OUR GLORIOUS NEW RED ROSE

"AMERICA"

The Grandest Hardy Ever-Blooming Red Rose in the World. Hardy Everywhere, Blooms Continuously. Bears Flowers far Superior to the famous General Jacquiminot. Introduced and for sale only by
SCHMIDT & BOTLEY.

(See color plate illustration on front cover page.)

THIS magnificent new Crimson Rose is, beyond question, the peer of any Rose yet introduced. It produces in great abundance exquisitely formed, large pointed buds, which open into beautiful double blooms of delicious fragrance. The color of bud and full blown flower is a pure, deep scarlet crimson, without a touch of purple in any stage of its development. The parentage of "America" would alone indicate its real worth. It is an offspring of two of the grandest and richest dark Roses heretofore sent out, viz: The well-known hardy dark red Rose, "Duke of Edinburgh," and the equally well known ever-blooming red Rose, "Meteor." "America" combines the good qualities of both these grand Roses, but is larger and produces more blooms than either of its parents. It is a strong grower with handsome dark green, leathery foliage, every shoot being crowned with a large, perfect bud of exquisite beauty. We own and control the entire stock of this magnificent new Rose, and would caution our friends that it cannot be bought elsewhere. Price, for strong one-year-old plants, splendidly rooted, 50c each; large two-year-old plants, \$1.00 each.

OUR GRAND NEW HARDY EVER-BLOOMING PINK ROSE,

"NESTOR"

The Grandest Ever-Blooming Pink Rose Yet Introduced.

(See Pink Rose, top of colored plate on front cover page.)

AS "America" is the peer of any dark red Rose, so is "Nestor" the peer of any pink Rose yet disseminated. It is the offspring of two grand, well-known pink Roses, viz: "Magna Charta," the largest hardy pink Rose in the world, and the lovely new pink Rose, "Belle Siebrecht," the beautiful Rose which made such a furor among the Rose growers five years ago. The progeny of such parents would alone insure extreme hardiness, strong growth and a matchless profusion of bloom.

"Nestor" inherits the splendid qualities of both its parents, combining the extreme hardiness and strong, vigorous growth of "Magna Charta" and the extreme free blooming tendencies of the lovely "Belle Siebrecht." It throws up enormous canes, which are crowned with immense blooms much like "La France" in form, but approaching "Belle Siebrecht" in color, being a soft, solid pink. It is very fragrant and will be grown largely for its inimitable buds and faultless color. We own and control the entire stock of "Nestor," and warn our customers that it cannot be pro-

cured at any other establishment than ours. Price, for strong one-year-old plants, 50c each; large, two-year-old plants, \$1.00 each.

OUR NEW HARDY EVER-BLOOMING SILVERY PINK ROSE,

"ATLAS"

(See color plate illustration on front cover page.)

THIS lovely new Rose is a daughter of the acknowledged Queen of Roses, the beautiful and well-known "La France." This fact alone would place it in the very front rank of high-grade Roses. Like its illustrious parent, "Atlas" is quite hardy, but is a much stronger grower and produces five blooms to "La France's one. It throws up long, quick-growing stems which are

surmounted by long buds opening into large double flowers of two shades of pink exquisitely bright and fresh. The predominating color is light, silvery pink, as seen in illustration, and is exceedingly beautiful. We own and control the entire stock of "Atlas," and advise our friends and patrons that it can be procured only at our establishment. Price, for strong one-year-old plants, 50c each; large two-year-old plants \$1.00 each.

To Our Customers

We wish to take advantage of this opportunity to inform our friends and customers that, owing to the unprecedented rush of business last spring, we unavoidably fell behind in getting out and forwarding orders. We worked day and night, but in spite of our efforts, we could not keep up. This caused some of our patrons and ourselves considerable annoyance.

We are glad to state, however, that we have, during the past season, so arranged and increased our facilities for the prompt handling of our fast increasing business that we can and do guarantee the filling and forwarding of all orders, if weather permits, not later than from one to four days following receipt of order. Kindly bear this in mind when making out your orders for plants, etc., this Spring.

We would also state that our facilities for propagating, growing, packing, and shipping plants, etc., are not surpassed by any house in the United States. We have the post-office and all the leading express companies, whose wagons call at our establishment every day, almost at our door. Trains also leave our city at frequent intervals during the day for all parts of the country—thus making our shipping facilities unsurpassed.

IMPORTANT ANNOUNCEMENT

PLEASE READ THIS PAGE CAREFULLY

A FEW WORDS ABOUT EXPRESS CHARGES

GREAT MANY of our customers have written to us stating that they much prefer having their plants sent by express, but complain about the heavy express charges which are very often due to overcharges by express agents. To remedy this, we give our customers their choice of paying the express charges on their plants themselves and get the benefit of our liberal *Express Clubbing Rates*, which see below, or we will prepay the express charges ourselves on all orders that amount to \$3.00 or more, in which case the Express Clubbing Rates cannot be allowed. All orders that amount to less than \$3.00, to be sent by express, we cannot prepay, but they are, of course, entitled to the Express Clubbing Rates. To show the great advantage our customers derive from paying the express charges themselves, and thereby taking advantage of Express Clubbing Rates, we herewith give the average express charges on \$3.00, \$5.00 and \$8.00 orders:

The express charges on a \$3.00 order will average from 50 cents to 75 cents according to the express rate to the point where the order is from.

On a \$3.00 order, when purchasers pay the express charges, we allow them to select extra plants to the amount of \$1.50—a clean gain to the purchaser of from 75 cents to \$1.00.

The express charges on a \$5.00 order will average from 75 cents to \$1.50, according to the express rate to the point where the order is from.

On a \$5.00 order, where purchasers pay the express charges, we allow them to select extra plants to the amount of \$3.00—a clear gain to the purchaser of from \$1.50 to \$2.50.

The express charges on a \$8.00 order will average from \$1.25 to \$2.25, according to the express rate to the point where the order is from.

On a \$8.00 order, where purchasers pay the express charges, we allow them to select extra plants to the amount of \$5.00—a clear gain to the purchaser of from \$2.75 to \$3.75.

Larger orders will, of course, receive, pro rata, a still greater rate of discount.

SEE OUR MAIL AND EXPRESS CLUBBING RATES A careful perusal of our Mail and Express Clubbing Rates will convince our flower-loving friends that our inducements for the formation of clubs, as well as for individual orders, are exceedingly liberal.

Do Not Include Collections or Special Offers in Making Up Your Discounts, as it Applies Only to Price Per Single Plant or Bulb.

OUR MONSTER AMERICAN WONDER LEMON

(SENT OUT BY SOME UNDER THE SPURIOUS NAME OF "PONDEROSA.")

LARGEST AND FINEST EDIBLE LEMON IN THE WORLD

A greatly reduced photograph of two Lemons weighing four pounds twelve and one-fourth ounces, picked from our original parent tree, October 25, 1901, there being no less than thirty-six of these mammoth Lemons on the tree at the time.

THIS TRULY WONDERFUL LEMON

WAS INTRODUCED FOR THE FIRST TIME TO THE PUBLIC BY US in the Spring of 1899. Since that time we have grown and sent out thousands to all parts of the country, and the reports we have received from our patrons in all quarters as to its productiveness and size is very flattering. It is truly a wonder, for no other Lemon ever produced such enormous fruit or bore so freely. The plants grow rapidly and make shapely trees in a few months. The fruit is very handsome as well as useful. May be used anywhere that ordinary Lemons may be used, and one of these is equal to eight or ten common Lemons. Has very thin rind for such large fruit, and its acidity is unsurpassed. Highly recommended for lemonade and all culinary purposes. In addition to its fruit bearing qualities it makes a very handsome specimen plant for house culture. The dark green foliage is very large and handsome, and the pure, waxy-white flowers, with yellow stamens, are nearly as large as Tuberosse blossoms and as fragrant as Orange blossoms, which they greatly resemble. We guarantee every tree to produce the same large fruit, no budding or grafting necessary. It is of the easiest culture, flowering and fruiting in any good, ordinary soil.

PRICE

For very strong, young plants, from 2½ and 3 inch pots, 15c each, five for 50c; strong, handsome plants, from 4 inch pots, 25c each; large, two-year-old plants, fruiting size, 50c each; very large, handsome plants, out of 7 and 8 inch pots, exceptionally fine fruiting size, \$1.00 each.

NOTICE—We would call the attention of our patrons to the fact that some are sending out our AMERICAN WONDER LEMON under the fictitious name of "Ponderosa." When ordering this marvellous Lemon, send to us. We are headquarters for it. We introduced it; we named it, and

WE HAVE BY FAR THE LARGEST STOCK IN THE WORLD OF THIS SPLENDID LEMON.

N. B.—Owing to the great demand for the 50 cent and \$1.00 sizes of our AMERICAN WONDER LEMON last Spring, we were sold out of these sizes before the close of the season. This caused some of our patrons and ourselves unavoidable annoyance. We have provided against this happening again by growing an immense quantity of these popular sizes and offer them this Spring in larger and better plants than ever in the 50 cent and \$1.00 size.

READ WHAT THE PEOPLE SAY OF OUR WONDERFUL LEMON.

WE COULD FILL PAGES WITH THESE BONA FIDE AND UNSOLICITED LETTERS of commendation did space permit. "The proof of the pudding is in the eating of it." The proof of the genuineness of our claim that we have the most wonderful, the largest, the best, the most prolific and the easiest to grow of any Lemon in the world is surely demonstrated in the statements of hundreds of our patrons from all parts of the country.

San Antonio, Texas, Sept. 21, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Dear Sirs:—My "Wonder Lemon" is a fine shrub with eight Lemons on it. I send you dimensions of three: No. 1, 13½ inches in circumference, 14¾ inches in length; No. 2, 1 1/4 inches in circumference, 14¾ inches in length; No. 3, 14¾ inches in circumference, 14¾ inches in length. Will the fruit change color on the tree?
Yours truly, MISS E. M.

Corpus Christi, Texas, Sept. 21, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Gentlemen:—I received your Fall catalogue. This reminded me of the promise I made to write you again about the "Wonder Lemon." It is indeed the Lemon of Lemons. You will remember in my testimonial of it in 1899, I stated they had frozen to the ground, as did all other Lemon and Orange trees I had in February of that year. About the first of August of this year they began to bloom. They now have Lemons larger than the largest commercial Lemons sold in the markets. It is indeed an American wonder.
Yours truly, JNO. A. S.

New Hope, Alabama, March 1, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
I must tell you of the pleasure I have realized from articles bought from you. The Lemon is indeed a wonder. I have pulled three ripe ones, but did not think of weighing them until I read testimonials in catalogue, after which I measured one. It was 15½ inches one way, and 14¾ inches the other, and weighed 20 ounces. I still have one which is a wonder. I never tasted better lemonade or pies. I lost three of the seventeen Roses last year, but the others have done well—some of them 14 feet high. The Gen. Washington is a real beauty. So, if I have success with my present order, I shall consider myself rich in Roses.
Yours truly, Mrs G. M. H.

Mayodan, N. C., April 12, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Dear Sirs:—Two years ago I bought one of your American Wonder Lemons. Mine was a two-year-old plant when purchased and was in full bloom when received and the first year bore six large, fine Lemons averaging 10 ounces. Last year it bore ten, all larger and finer than those of the previous year. I value my plant very highly and want my friends and relatives in Mississippi to have them. Enclosed find express money order for \$2.00, for which please send two American Wonder Lemons (third size, extra large fruiting size, \$1.00 each) to Mrs. J. M. G., Aberdeen, Miss. I wish to add that I have gotten a number of Roses and hothouse flowers from you and they always proved most satisfactory.
Very respectfully, Mrs. W. C. R.

Robinson, Ill., April 29, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Gentlemen:—Enclosed find money order for \$3.50, for which please send me the enclosed order as soon as possible. I have an American Wonder Lemon that is a mass of buds and bloom. I hope to have quite a number of Lemons set on it. The American Wonder is all you claim for it.
Yours respectfully, O. R. H.

Wapala, Ill., April 22, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
I send you an order this day. Would like it sent about the 5th of May by express. In with my order I order one American Wonder Lemon, 50c size, to be sent to Mrs. M. E. R., Akron, O., in care of Dr. W. C. R. She visited me last November, and was so pleased with my Lemon tree which had two very large Lemons on. One of them measured 12x11 inches, and the other a little smaller. They made excellent lemonade and pie. My tree bloomed again in February and has now several Lemons set with new shoots and blossoms starting. It was a great curiosity to everyone, being the only one in our village. I am very proud of it, I assure you. It was received two years ago this coming May, a little plant not more than 12 inches high. I want you to send a two-year-old bearing size to the lady whose address I send. Send Lemon first of May, or as near as convenient. Find enclosed Postoffice order for \$4.00. I hope you will send me nice plants. I was very much pleased with my plants last year. Send by American Express.
Respectfully, Mrs. JENNIE E. B.

Dexter, Mo., Feb. 27, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Gentlemen:—I have now one of your American Wonder Lemon trees in bloom. It has about fifteen bloom stalks and the smallest one has eleven Lemons. It is a beauty, and the foliage is alone worth the money, having very large, glossy leaves. The tree is all around a wonderful tree.
Yours truly, ARTHUR H.

San Antonio, Texas, Feb. 1, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
The American Wonder Lemon we had from you had four of the finest Lemons, weighing from 26 to 31 ounces, and measuring 16 inches in circumference. Please send the plants by express, and oblige,
Yours respectfully, Mrs. F. S.

Philadelphia, Pa., Feb. 4, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Gentlemen:—The Lemon tree I bought from you some time ago has proved a wonder. It was covered with flowers and out of them I have three large Lemons.
Respectfully, C. A. VON S.

Greenville, Tenn., Sept. 10, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Dear Sirs:—My American Wonder Lemon I ordered last Summer is 5 feet, 8 inches in height from pot, and has one Lemon on measuring 11½x13 inches, and shows no signs of ripening yet.
Respectfully, C. A. S.

Vernon, Texas, April 18, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
The orders sent to you by Mrs. Kell were for me. I am an old gardener and worked for Peter Henderson and also for Isaac Buchanan in 1854-5. So you see I am no Spring chicken. I had some dealing with that Ponderosa outfit two years ago, and they sent some of the poorest stuff I ever saw. They wrote to say that they would make it all right, but I did not like to try them again. I am putting up a small greenhouse, and when I come to stock it I will remember your firm. This order is for a friend. Last order came promptly and in fine shape.
Respectfully, JOHN B.

Preston, N. C., Jan. 14, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
I am delighted with the Lemon tree I got from you last April, one year ago. It has done so much better than I expected it to do. It would have borne thirteen Lemons if I had not plucked five of them after they had gotten as large as an egg. Was afraid that it would tax tree too much. Just three weeks before Christmas I gathered two and used one to make cake, or a part of it. The other I sent to one of my neighbors. All who saw it say they have never seen anything like it in the Lemon family before. I took one from the tree last Saturday that weighed 22 ounces and measured 15½ inches in circumference one way and 14 inches the other. I sent that to a friend of mine in Smithfield, who will show it to many and also have our county paper, the Smithfield Herald, take notice of it, and hope the exhibit of it will result in a large sale of it in Smithfield for you.
Miss C. E. S.

Pottsboro, Texas, Jan 15, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Kind Sirs:—I am much pleased with the Lemon tree I purchased from you in the Spring of 1899. Bloomed and fruited last Spring for the first time. Two Lemons remained on the tree and grew to a large size. One measured 14 inches around and weighed a pound. One Lemon was shown in this county and caused quite a sensation. I have had many inquiries about my tree and think you will get a good many orders for them. Hoping you may get many orders, I remain,
Yours respectfully, Miss MARY U.

Lockport, Ills., April 8, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Gentlemen:—I send you a small order including one Lemon, I bought one of your Lemons two years ago this spring, I have one Lemon on the tree that measures 17 inches in circumference both ways, and is not ripe yet, there are several small ones on it and it is still in bloom. I shall let three or four remain on the tree to ripen. The tree when in blossom scents the whole house and is worth all you ask for it, I am very proud of it and will notify you how the one I have just ordered gets along.
Yours truly, W. C. MACD.

Alton, Mo., April 15, 1901.

SCHMIDT & BOTLEY, Springfield, Ohio.
Gentlemen:—Your plants arrived promptly and in good condition. I was highly pleased with them. My American Wonder Lemon, purchased from you last Spring, is now a veritable beauty. It is quite large and is in full bloom, and has been so for six weeks.

**OUR LEADING SPECIALTY & WE HAVE
THEM BY THE HUNDREDS OF THOUSANDS**

WHILE our catalogue, as will be readily seen, contains a very choice assortment of all kinds of flowers, we wish to call your attention more especially to our very complete and choice list of Roses. We have gathered together not only in our own country, but also from foreign countries, all that is good. These we have thoroughly tested and we now have the pleasure of offering you the very cream of existing varieties and at the lowest price plants of good quality can be produced for. We have all kinds and classes of Roses, and best of all they are good strong plants, with clean foliage and healthy strong roots, being grown slowly in a cool temperature to attain this result. With our twenty-five years of experience, one of the largest and best equipped plant establishments in the west, personal supervision and attention to detail, we solicit your orders, confident that no one is more anxious to please or in better condition to give good service, full value, and satisfactory results.

☞ We particularly call your attention to our three new **Pedigree Roses**, illustrated on the first page of cover and fully described on the first page of catalogue. The illustration faithfully portrays the extreme beauty of these handsome new Roses and was made from flowers cut from the original stock. **They are the exact color, shape and size of the blooms.** The price we ask for the three is exceedingly cheap for such Roses, being less than **35 cents each**. We ask, where could you buy such Roses elsewhere for the price?

☞ Our **Superb Strain of Pansies**, illustrated on inside of cover and described on page two of catalogue is something marvellous. All lovers of the beautiful should try at least a few of our famous strain. Give them a good, rich soil, and you will be delighted with the lovely new colors and size of flowers. Our superb strain is the choicest of all Pansies and only **35 cents per dozen**.

The Four Choice Rex Begonias, illustrated on the inside of cover and described on page two of catalogue are also well worthy of your careful consideration. The four varieties we offer for **50 cents** are the best and easiest to grow of all the Rex Begonias, and we strongly recommend them to all lovers of this very beautiful variety of Begonias.

☞ We also call your attention to the magnificent collection of **Hardy Phlox**, illustrated on the outside of the cover and fully described on the first page of catalogue. The illustration was made from natural flowers and the colors are depicted true to nature. So many of our customers ask us for something that is pretty and free blooming all summer and yet hardy—something that does not have to be taken up at the approach of winter, and that will be ready for blooming again the following summer. Our beautiful new hardy Phlox will be found satisfactory in the highest degree for this purpose and they increase in size and magnificence every year. The six we offer for **50c** are the most varied and beautiful Phlox that grow. We heartily recommend them to everyone of our customers.

A Guarantee that Means Something

WE guarantee all plants to reach their destination in a good growing condition. We guarantee absolute satisfaction to every purchaser of our goods. If you think we have made a mistake, tell us so, or write to us. Try to do so good naturedly; if not, do it anyway. Do not complain to anyone else or let it pass. We want an early opportunity to make right any unintentional error we may make.

Be Sure to Sign Name and Give Your Address.

Many orders reach us lacking either or both. Customers when writing about unsigned orders will aid us in identification by mentioning the articles ordered.

Our Plant and Seed Departments

Are entirely separate. Often the seeds or plants on a combined order may be sent before balance of order is filled. If only one part of order is received, please wait two or three days for the balance before writing us.

When Corresponding

Be careful always to sign your name the same way. Ladies sometimes send an order in their own name, and perhaps write again inquiring about the order in their husband's name. This often causes us much annoyance and waste of time. Do not mix your order and correspondence together.

If you wish to write concerning the order, write it on the back of the order or on separate sheet.

Canada Postage.

As postage to Canada is double the United States domestic rates we must ask our Canada friends to send 10 cents extra for each \$1.00 worth ordered. Do not send Canada postage stamps or silver as we cannot use or dispose of them. Roses and all hard-wooded plants are by law prohibited entrance into Canada.

When Ordering

Always state when you wish the goods shipped, otherwise they will be sent you at once. Send in your order early while stock is complete and unbroken. If you do not wish plants forwarded until later date we will reserve plants and forward when desired.

Remittances

Should be made either in the form of **P. O. Money Order, Bank Draft, Express Money Order, or Registered Letter.** Remittances in any other way are entirely at the sender's risk.

Five Famous Hardy Rambler Roses

CRIMSON, PINK, WHITE, YELLOW AND ROSE

These are the most rapid growing Roses in existence and are quite hardy. See illustrations on opposite page.

OUR SPECIAL OFFER—We will send one very large strong plant of each of these grand hardy climbers for only 40 cents.

THE YELLOW RAMBLER, *Aglala*.

This promises to supply that "long-felt want," a double yellow, hardy climbing Rose, a thing which has been sought after the world over. Related to Crimson Rambler, and, like it, blooms in large trusses, often bearing from 120 to 150 flowers in a cluster, lasting three or four weeks without fading. Very popular. Price, 10c each; very large two-year-old size, 30c each.

THE WHITE RAMBLER, *Thalia*.

This charming new Rose of the Rambler variety is a wonder. It climbs rapidly; is entirely hardy; produces immense clusters of pure white Roses. Perfectly double, of delightful fragrance and of an immaculate white. The best white Climbing Rose extant. Price, 10c each; very large two-year-old size, 30c each.

New Climbing Rose, CRIMSON RAMBLER.

The plant is of vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end. The flowers are produced in great pyramidal panicles or trusses, each carrying from thirty to forty blooms, the individual flowers measuring from 1 to 1½ inches in diam-

eter, and remaining perfect on the plant for upwards of two weeks. It is exceedingly hardy, having successfully withstood the test in exposed situations of two very severe Winters. Hardy in every latitude yet tried as far north as the lakes. Price, 10c each; very large two-year-old size, 35c each.

THE PINK RAMBLER, *Euphrosyne*.

This fine, hardy, climbing Rose is very vigorous, and easily reaches a height of 25 to 30 feet. The flowers are borne in clusters, as many as 80 being frequently found in a cluster; they are deep pink, quite full and exceedingly fragrant. We consider it one of the very best hardy climbing Roses, and it may be well called "Pink Rambler." Price, 10c each; very large two-year-old size, 30c each.

PSYCHE, *The New Rambler Rose*.

Received the award of merit of the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyantha Rose, Golden Fairy. In growth and habit it much resembles the Crimson Rambler. The flowers are produced in clusters of eight to thirty-five and are two to two and a half inches across when fully expanded. The color is white, suffused with salmon rose and pink, with yellow base to the petals. A real companion to Crimson Rambler. The horticultural press of England gives it very flattering comment as described at the various exhibitions. Price, 20c each; large two-year-old plants, 35c each.

The Four Hardy Ever-Blooming Hermosa Roses

We offer four of the Hermosa type of Roses. If you want to have rosebuds to cut all Summer, this set will give you an abundance.

THE WHITE HERMOSA.

YELLOW HERMOSA, *Coquet de Lyon*.

This is a most charming yellow Tea Rose, a grand grower, has elegant buds, and is so free in flower as to be called the Yellow Hermosa. This is the best blooming pure yellow Rose in our catalogue. It is a Rose that will please all. Price, 10 cents each; large two-year-old plants, 30c each.

CRIMSON HERMOSA, *Queen's Scarlet*.

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 10c each; large two-year-old plants, 30c each.

WHITE HERMOSA, *Marie Lambert*.

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for, though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming very popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 10c each; large two-year-old plants, 30c each.

PINK HERMOSA, *The Old Favorite*.

Everybody knows this famous variety. As hardy as an oak, and always covered with its elegant clear pink blooms. There is no shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 10c each; large two-year-old plants, 30c each.

SPECIAL OFFER.—The four Hermosa Roses for 30 cents, or the four large two-year-old size for \$1.00.

Alister Stella Gray—This is a new climbing Rose of decided merit, and is classed by many as belonging to the Rambler section of Roses. We know it to be a grand Rose. It is a continuous bloomer, laden with bunches of Polyantha-like buds of orange yellow. 10c each; large two-year-old plants, 30c each.

The Lovely Apple-Blossom Rose, The Empress of China—A new, hardy, ever-blooming Climbing Rose that blooms the first season—early, late and all the time—producing flowers which in form and color resemble apple blossoms. ✿ ✿ ✿ FIVE HARDY EVER-BLOOMING ✿ ✿ ✿

LA FRANCE ROSES

PINK LA FRANCE.

PINK LA FRANCE It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10c; large size, 30c.

WHITE LA FRANCE (Augustin Guinnoiseau) Here we have a beauty indeed; one we can recommend to all, whether for outdoor culture or for pots in the house in Winter. It is identical with La France except in color. It is pearly white, sometimes tinted with fawn. Price 10c each; large 2-year-old size, 30c.

THE RED LA FRANCE (Duchess of Albany) We have no hesitancy in saying to our customers that this rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes, it has no peer. It is

identical with La France, excepting in three points. Those are: A more vigorous growth, a large and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 10c each; large 2-year-old size, 30c.

YELLOW LA FRANCE (Madame Pernet Ducher) A charming Rose; a new shade in this section, being the first with a distinct yellow colored bud. The outside petals are sulphur-yellow and assume a darker shade toward the center. The open flower is very graceful and holds well together. It is an ivory-white in color, with a polished, glistening surface like a water lily. Price, 15c each; large 2-year-old plants, 40c each.

STRIPED LA FRANCE (Madame Angeliqve Veysset) The Striped LaFrance combines all the good qualities of a La France in growth, fragrance, shape of bud and flower; in fact, differs not from it except in color. It is nicely striped, the marking being plain and distinct, the variegation a beautiful bright Rose on a satin-pink ground. Price, 10c each; large 2-year-old size, 30c.

-SIX OF THE BEST PURE WHITE ROSES-

**The Set of Six Pure White Ever-Blooming Roses for 50c.
The Set of Six in Large Two-Year-Old Plants for \$1.25.**

THE ROYAL KAISERIN AUGUSTA VICTORIA.

NEW PURE WHITE ROYAL TEA ROSE KAISERIN AUGUSTA VICTORIA

The Best White Rose in the World.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color, pure creamy-white. It far surpasses any other white Rose in all particulars, and has a much richer perfume. Price, 10c each; large two-year-old plants, 30c each.

NEW TEA ROSE, SNOW FLAKE

It is a lovely new white Tea—the freest flowering Rose we have ever seen. The Rose was introduced by C. Strauss & Co., Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted 153 buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for 10c each; large plants 25c each.

THE BRIDE

This is undoubtedly the finest white Rose ever offered to the public, and we take great pleasure in recommending it to all our customers. It is a Rose that supplies a long-felt want. A few of the white, ever-blooming Roses now in commerce have beautiful double flowers, but none of them compare with The Bride in the size and shape of buds and half expanded flowers. Price, 10c each; large two-year-old plants, 25c each.

MARIE GUILLOT

We consider this variety the equal, if not the peer, of any Rose of its color in cultivation. A trial will convince any one that this endorsement is not extravagant. The flowers are full and extra large, very double and sweetly scented; has many rivals, but no equals for open ground cultivation. Price, 10c each; large two-year-old plants, 25c each.

THE BEAUTIFUL NEW WHITE TEA ROSE WHITE MAMAN COCHET

The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 10c each; large two-year-old plants, 25c each.

THE QUEEN.

It is a pure snow white, makes good, fine formed buds; is quite full, showing the center but slightly when fully open. The petals are thick and of good substance. Price, 10c each; large two-year-old plants, 25c each.

Six Best Dark Red Roses.

THE SET OF SIX RICH RED ROSES IN STRONG PLANTS FOR ONLY 50c.

THE SET OF SIX IN LARGE TWO-YEAR-OLD PLANTS FOR \$1.25. - - -

SCARLET BEDDER

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. Flowers are large size, fiery scarlet, a color rarely seen in Roses. Planted everywhere on account of its color and freedom of bloom. Price, 10c each; large two-year-old plants, 25c each.

THE METEOR

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers are of a medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. Has no tinge of violet or purple to mar its beauty. A vigorous, bushy grower, with healthy, bright foliage of the deepest green. Unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10c each; large two-year-old plants, 25c each.

PAPA GONTIER

A grand red Tea of fine crimson shade and silken texture (as distinct from velvety texture.) The bud is fine size and graceful in form. Extremely free, both in growth and bloom. Very long and beautifully leaved stems can be cut, the foliage being very dark, heavy. One of the best and a perfect bedder. Price, 10c each; large two-year-old plants, 25c each.

New Crimson Rose, PRINCESS SAGAN

The flowers of this variety are the richest crimson of any Rose in our vast collection. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. Price, 10c each; large two-year-old plants, 25c each.

The Lovely New Red Rose, BALDWIN

One of the most remarkable Roses of recent date, as strong growing as the best of the Hybrid Perpetuals, with large, handsome foliage, flowers of the fullest form and largest size, which is equaled in profusion by no other Rose of its size that we have seen. The color is bright, glowing carmine. The bud is long and elegantly pointed. It is as sweet as a June Rose. Price, 15c each; large two-year-old plants, 30c.

THE BEAUTIFUL BALDWIN.

The Grand New Bedding Rose, GRUSS AN TEPLITZ

As a bedding Rose this is one of the finest and most useful varieties ever sent out. The color is brightest scarlet, shading to deep, rich, velvety-crimson. It is very fragrant. The freest grower and the most profuse of any ever-bloomer. The mass of color produced is wonderful, and the foliage is extremely beautiful, all the younger growth being a bronzy plum color. A queen among scarlet bedders. It is a perfect sheet of richest crimson scarlet all Summer. Price, 15c each; large two-year-old plants, 30c each.

SIX BEST GOLDEN YELLOW ROSES

THESE ARE THE BEST OF ALL DEEP YELLOW ROSES AND ARE ALL STRONG GROWERS AND PROFUSE BLOOMERS.

NEW ROSE JOHANN WESSENHOFF.

THE BEAUTIFUL NEW ROSE—Johann Wessenhoff. This is the finest grand bedding yellow Rose. It is a deep, golden-yellow, and is such a good bedding Rose that it is already called by some the Bedding Perle. It is certainly fine. Price, 15c each; large two-year-old plants, 35c each.

THE COPPERY YELLOW ROSE—Mlle. Franciska Kruger. The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep coppery-yellow it stands unique and distinct from all others. Price, 10c each; large two-year-old size, 25c each.

THE DEEP GOLDEN YELLOW ROSE—Mlle. Cecile Berthod. Most beautiful, both in bud and flower, which is deep golden yellow. In fact, the deepest yellow in color of any Rose we grow. The foliage is very bright. This is a Rose of magnificent size and color. Altogether a grand Rose and always in bloom. Price, 10c each; large two-year-old plants, 30c each.

THE GRAND BEDDING YELLOW ROSE—Star of Lyon, Etoile de Lyon—This magnificent Tea Rose is a rich golden-yellow; a strong, healthy and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full; excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the Summer. Price, 10c each; large two-year-old plants, 25c each.

THE QUEEN OF YELLOW ROSES—Pearl of the Gardens. No yellow Rose in cultivation can equal this in its profusion of deep golden-yellow Roses. The only rival of Marechal Niel. Price, 10c each; large two-year-old size, 25c each.

THE PROFUSE BLOOMING YELLOW ROSE—Coquette de Lyon. Vigorous, rapid grower and constant bloomer. Pure canary yellow. 10c each; two-year-old, 25c.

WHITE LADY. (Hybrid Tea.)

One of the startling new Roses of recent date. It has gigantic flowers with enormous magnolia-like petals; one of handsomest and most effective of Roses, and very distinct. The color is white, delicately flushed with pale pink; blooms are borne in great profusion on stiff stems, with heavy foliage. Longer stems would rank this with *American Beauty*, but we recommend it to every rose-forcer for trial. In our local trade buyers have been carried away with its beauty, and are willing to pay a good price for the blooms. In England, the past year, it took first prize at the Chrystal Palace show for twelve blooms of any white Rose over *The Bride*, *Bessie Brown*, and others. Price, 20c each; two-year-plants, 40c each.

GLADYS HARKNESS. (HYBRID TEA.)

Growth very erect and vigorous, reminding one of *American Beauty*; profuse in bloom, flowers large, formed like a fine H. P.; color deep salmon-pink; has a splendid constitution and is very fragrant. Price, 20c each; two-year-old plants 40c.

JULES GIRODIT. (Hybrid Tea.)

Flowers very large and of good form. Rosy peach color shading to bright pink; very free. Magnificent in size and form. Price, 20c each; large size, 40c each.

M. BUNEL. (Hybrid Tea.)

Flowers large, quite full, composed of very large outer petals diminishing in size toward the center; the open rose is of beautiful form, imbricated, and of rosy peach color shading to pale gold, bordered with bright rose. Price, 20c each; large size, 40c.

RED HERMOSA. (Bengal.)

A seedling of *Hermosa—Reine Marie Henriette*; it is possessed of the vigor and other good qualities of *Hermosa*; with deeper green, glossy foliage; and beautiful dark carmine-red flowers, much the form of *Hermosa*; this is a delightful new variety and will certainly become very popular, as it cannot fail of proving useful. Price, 20c; large size, 40c.

MARIE LOUISE POIRET. (Hybrid Tea.)

Bud long and pointed, flower very large; full and of splendid texture, the petals are large, outer edges fresh rose, center darker; very free; a seedling of *Caroline Testout*; *Marguise Litta*. Price, 20c each; large size, 40c.

MME. LUCILE COULSON.

Rosy-flesh color, shading to pink and copper-yellow; flower of medium size, full, and nicely formed. A beautiful variety, seed-d from Kaiserina Augusta Victoria x Lucile. This grand new Rose is without doubt the richest and most highly colored Rose in the world. There is nothing like it in our vast collection. Price, strong plants, 15c each; two-year-old plants, 25c.

LADY CLANMORRIS. (Hybrid Tea.)

Perfectly distinct; a splendid rose, of very robust growth and free branching habit, flowering continuously and freely throughout the season; blooms very large and of good form, petal large, smooth and of great substance; creamy-white with delicate salmon-center, edge of the petals margined pink. Price, 20c each; large size, 40c.

BEATRIX DE BUISSET. (Hybrid Tea.)

Bud extraordinarily beautiful; flower very large, quite full, of beautiful form and perfect texture; silvery rose and rosy-carmine; very free and fragrant. A seedling from *Mad. Caroline Testout*. Price, 20c each; large size, 40c.

ROSOMANE GRAVEREAUX. (Hybrid Tea.)

This variety is of the general style of *Pres. Carnot*, with an enormous long bud, producing a very large, very double, open flower carried on a long, stiff stem; the petals are very large; color, silvery white, with reverse of rosy flesh; very fragrant and very free. Price, 20c each; large size, 40c.

GRAND NEW ROSE FRANCO RUSSIA.

A new Rose of exquisite kind and color, ranked by many enthusiasts as the best yellow Tea Rose. The flowers are of large size, perfectly double to the center and perfect in shape both in bud and blossom. The color is magnificent—deep rich lemon yellow with creamy yellow center with tints of sulphur. It is beautiful beyond description. A strong healthy grower and one of the grandest Roses in this book. 15c each; two-year-old plants 30c.

MARQUIS LITTA. (Hybrid Tea.)

This is a new French Rose, and is by all odds the very best new Rose that has been introduced in years. It resembles in color *American Beauty*. Buds and flowers of the largest size. It is a strong, vigorous grower, producing its handsome buds and flowers on long stems. It forces equal to *Bride* or *Bridesmaid*. Never comes "off color" or with misshaped buds. This is the nearest approach to the ideal forcing Rose. Don't fail to try this grand variety. 20c each; large two-year-old plants, 40c.

SUNRISE,

A BEAUTIFUL NEW EVER-BLOOMING TEA ROSE.

SUNRISE is the most gorgeous Rose of its class yet introduced. This has made a sensation in England and has taken first honors wherever shown. In loose bud form it shows the high, brilliant colors seen only in the Austrian *Copper*, scarlet and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow to orange and copper, the inside of the petal golden-yellow. The open Rose is large, perfectly double and of grand form. The foliage is glossy and thick, the new growths being the darkest and most beautiful found among Roses. The form and color of bud, its freedom of growth and bloom will give *Sunrise* a high place among Roses. Price, 15c each; large two-year-old plants, 30c.

NEW HYBRID TEA ROSE, "LIBERTY."

One of the most sensational Roses ever introduced. The color is crimson scarlet, after the style of *Meteor*, but more brilliant. This variety has created a furor from ocean to ocean, and wherever exhibited has won first honors. The flowers are perfectly formed, being full, deep and double; very fragrant. This variety has the distinction of being the most costly Rose now known, the price of the original plants having been stated at \$7500.00. Magnificent in every way. 20c each; two-year-old plants, 40c.

THE SPLENDID NEW TEA ROSE,

MRS. ROBERT GARRETT.

A beautiful large Rose of exquisite shape, finish and blending of colors. The flowers are large, on strong stems, clothed with heavy foliage. The buds are long and pointed in shape, and open up beautifully into a full, rounded flower. Color, a glowing shell pink, very deep in the center; the fragrance is delicate and pleasing. Price, 10c; two-year-old plants, 25c each.

SOUV. DE ROSE TERREL.

Flower yellowish white with aurora and carmine shadings; large and full; plant strong growing and free blooming. 20c each; two-year-old plants, 40c.

SOUV. PRESIDENT CARNOT. (Hybrid Tea.)

Large, full, double, exquisitely shaped flowers, with heavy, thick, shell-like petals. The buds are long and pointed like *Niphetos*—perfection in every line. The color is new, delicate rosy blush, shaded a trifle deeper at center of the flower. Fragrance delicious; strong grower and free bloomer; has no weak point. 15c each; two-year-old plants, 35c.

MRS. MAWLEY. (Hybrid Tea.)

This grand variety embodies so many good qualities that it is difficult to describe it. We could say no more in its praise than to say it is like *Maman Cochet*, only several shades lighter in color. Price, 15c each; large two-year-old plants, 35c.

OUR POPULAR COLLECTION OF

TEN HARDY EVER-BLOOMING ROSES

THIS A SPLENDID BEDDING COLLECTION FOR 50 CENTS IT CANNOT BE EXCELLED

We are constantly in receipt of inquiries from our customers for Roses that are ever-blooming and yet hardy. On this page we again offer a fine collection, combining these two qualities.

We will send the entire set of ten very fine plants for only 50c. In splendid two-year-old plants, the set of ten for \$1.60.

New, Hardy, Ever-Blooming Rose, CHAMPION OF THE WORLD—This Rose is the champion bloomer. It is also champion in form and color. Its blossoms are perfectly double to the center and of the most perfect shape both in buds and blossoms, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy pink, a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and as fine as La France or the best of Hybrid Perpetuals. You will miss a beauty should you fail to get it.

WHITE LA FRANCE—(Augustine Guinoiseau) Here we have a beauty indeed, one we can recommend to all, whether for outdoor culture or for pots in the house in Winter. It is identical with La France, except in color. It is pearly white, sometimes tinted with fawn.

SCARLET BEDDER—This is without doubt the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. Flowers are large size, fiery scarlet, a color rarely seen in Roses. Planted everywhere on account of its color and freedom of bloom.

Hardy, Perpetual-Blooming Rose, MAD. CHARLES WOOD—A true perpetual bloomer. Begins to bloom almost as soon as planted, and continues all through the season. The flowers are extra large, very double and full, and quite fragrant. Color a bright, fiery scarlet, passing to a fine rosy crimson, elegantly shaded with maroon. Very showy and handsome, and one of the best roses ever introduced for general planting.

BALL OF SNOW (Boule de Neige)—A finely formed, pure white Rose; occasionally shows light flesh when first opening. Beautiful shell-shaped petals, evenly arranged; flowers of good size.

STRIPED LA FRANCE (Madame Angeline Veyset)—Striped La France combines all the good qualities of a La France in growth, fragrance, shape of bud and flower; in fact, differs not from it except in color. It is nicely striped, the marking being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. Price, 10c each; large two-year-old size, 30c.

STAR OF LYON (Etoile de Lyon)—This magnificent Tea Rose is a rich golden yellow; a strong, healthy and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection and blooming nicely through all the hottest part of the summer.

PINK LA FRANCE—It is of superb form and double as a rose can be. No variety can surpass it in delicate coloring—silvery rose, shaded with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is

hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored, and fragrant in the highest degree.

THE METEOR—A velvety-red ever-bloomer of the deepest glowing crimson. A vigorous, bushy grower, with healthy, bright foliage of the deepest green. Unquestionably the best dark velvety-red Rose yet produced.

Grand, both in bud and flower.

YELLOW MOSELLA—Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is a chrome yellow in center, getting creamy white on the edges of the petals. It will make a great bedder and is perfectly hardy.

CHAMPION OF THE WORLD ROSES.

**The Wonderful New Rose,
Climbing Kaiserin, or****MRS. ROBERT PEARY**

This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other Climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory-white. The foliage is also identical. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year. It grows to perfection out doors, throwing up numerous shoots ten to fifteen feet high in a single season. Price, 10c each; two-year-old plants, 35c each.

REINE MARIE HENRIETTA

This is the best climbing Rose in this set, and no collection would be complete in New Orleans or the South that did not comprise this, the grandest of all ever-blooming Roses. Price, 10c each; two-year-old plants, 30c each.

The Superb Scarlet Rose,**"GLIMBING WOOTON"**

This elegant new Climbing Hybrid Tea Rose is one which promises to be a prime favorite wherever introduced. Everything good that can be said of the grand Rose, Souvenir de Wooton, can be said of this Rose, and more too. The flowers are large and of a velvety red color, and the perfume is elegant. Whether open, half open, or in bud, the flowers are of fine shape. The flowers are borne at the terminus of long shoots, which renders them especially good for cutting, much better, in fact, than the flowers of its parent, Souvenir de Wooton. Price, 10c each; large size, 30c each.

WILLIAM ALLEN RICHARDSON

Orange yellow, with outer petals lighter, center a copy yellow, very rich, rapidly becoming popular. All Rose growers, where the climbing Teas are hardy, should plant this beautiful Rose, as it is a unique and lovely shade of yellow. Something entirely distinct in Climbing Roses. Hardy Hybrid Perpetual Roses

OF SPECIAL MERIT.

HYBRID PERPETUALS are considered the most valuable of all hardy plants. They are distinguished by their vigorous upright growth and large, bold flowers, frequently measuring five to six inches in diameter. They thrive and succeed in all localities and are entirely hardy in any part of the country, and will live through severe Winters with a light protection of leaves or coarse manure. Some varieties do not bloom until the second year, but when fully established they all bloom freely at the usual time, early in the season, and continue to bloom during the Summer and Autumn months. Hybrid Perpetuals will bear a considerable amount of hardship and neglect, but improve greatly with good cultivation and rich soil. They should invariably be planted in open ground, as they are not suitable for house culture.

These Roses are especially suited to plant in all Northern States and Territories; also in the colder parts of the States of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri.

GENERAL JACQUEMINOT.

Our Northern friends should plant these Roses. They increase in size and beauty each succeeding year. The varieties listed are the cream of the Hybrids. None better.

Hardy Rose, White Paeony.

This Rose was sent us by one of our customers. She did not know the name of it, but called it the White Paeony from its resemblance to that beautiful flower. We have never seen anything in the Rose line like it. The flowers are satiny-white, with a delicate shell-pink tinge. It makes large, spherical balls, and when seen in bloom is not soon forgotten. Very beautiful and entirely hardy.

HARDY WHITE ROSE, BALL OF SNOW.

New Hardy Rose....

Countess of Roseberry

We have in this charming variety probably the most beautiful Rose grown. No other Hybrid can approach it in its exquisite coloring. Indeed, no one would take it for a Hybrid, as it is as delicate and beautiful in its tints as the most gorgeous of the Teas. The color is satin-pink in the center, and deepens to the outer petals to a bright rose. The feathery shading gives it the appearance of two distinct colors. It has completely captivated us. Very free flowering, and a good grower.

Hardy Rose....

Anna de Diesbach.

Color of Daybreak Carnation, a pure self-pink; very heavy in substance, on stiff stems. The form of the flower is very beautiful in all its stages; it opens with a center incurving in a circle enclosed in broad outer petals; it gradually assumes the true Japanese form, rounded and deep and this gradually changes to the informal reflexed; perfectly double; a splendid keeper; especially fine for cut flowers and exhibition blooms.

Yellow Good Gracious.

Largest yellow in existence. This magnificent new Chrysanthemum was exhibited last Fall, measuring over fifteen inches in diameter, and is, without exception, the largest yellow Chrysanthemum ever introduced. The color is a deep golden-yellow, very bright. Very massive in build. A grand addition to our already fine class of yellows.

L'Enfant Des Deux Mondes.

(Child of Two Worlds.)

Pure white. This grand white sport from L. Boeher was well received, having many admirers at the shows. Like the parent, it is a strong grower of good habit, and is considered the best white of the hairy type, and well deserves a prominent place in any set of this peculiar style of the Chrysanthemum.

The Pond Lily Chrysanthemum, Pitcher and Manda.

This is the most wonderful Chrysanthemum ever introduced. There is nothing that has ever been offered that in any way approaches it. Who ever heard of Chrysanthemums having two distinct colors in one flower? But Pitcher and Manda has. The outer five or six rows of petals are pure white, of dahlia-like form; center is a bright, deep yellow, the two colors being sharply defined. A most distinct novelty.

THE HANDSOME DARK RED "MUM," CULLINGFORDII.

OUR EARLY FLOWERING CHRYSANTHEMUMS.

OUR SPECIAL OFFER.—We will send the full set of ten early "Mums" for only 50 cents. Any five for 30 cents.

WE GET many inquiries for Chrysanthemums that bloom early. For the benefit of those who want early "Mums" we here offer a very fine collection, embracing the choicest sorts and a wide range of color.

IVORY

Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its dahlia-like petals and absolute purity of color.

VIOLESCENT

Violet amaranth, reverse silvery white, enormous flowers of great beauty. This is one of the grandest early flowering varieties we have, and the color is distinct from all others.

MISS DALSKOV

The latest and greatest acquisition to the Chrysanthemum world. We have thoroughly tested this grand new variety and we cannot say too much in its favor. We had single blooms last Fall that measured ten inches across. In color it is a beautiful pink, entirely distinct from any pink Chrysanthemum yet exhibited.

MISS KATE BROWN

One of the very finest of all the early whites, coming into bloom the first week in October; fully six inches across; a fine incurved flower, with broad petals; first-class disbudded, and also beautiful in natural sprays.

MRS. HENRY ROBINSON

A perfect form, of the Queen of England type, of exceptional merit, large and well finished. An early white, blooming with us October 5th. Fine substance and very lasting.

GLORY OF THE PACIFIC

It is of magnificent size and depth, with broad petals which finely reflex, showing the clear pink color to excellent advantage. A pink of large size and good form. This variety will delight every grower.

PURE WHITE "MUM" IVORY.

CULLINGFORDII

Reflexed. Exceedingly brilliant crimson, richly shaded with scarlet. Florets of a beautiful, rich, velvety texture. One of the very distinct and noted sorts. This is one of the finest red Chrysanthemums in existence, and too much can not be said in its praise.

BENJ. GIROUD

Is the richest deep crimson variety we have ever seen and excels in its color as Golden Wedding does in yellow. The color is of the richest velvety-crimson, which in the flower itself is soft and velvety-like. It is, without doubt, the best Chrysanthemum of its color. The flowers are

enormous in size, while the color is the richest of all. Winner of nine premiums and certificates. Blooms in October.

MARION HENDERSON

We cut the first flowers on October 10th, several days before any other large yellow was ready, and had perfect flowers to cut a month later. The texture of the flower is such that we have never seen it in the least affected by damp, although other varieties alongside of it were badly affected. We have never seen a symptom of any disease on it. This grand variety will be invaluable for early cut flowers, and we believe, will occupy the same position among early varieties that Golden Wedding does among the late ones.

MME. F. BERGMANN

Still the finest of all the early whites; large in size, coming into bloom October 10th; excellent for pot culture for early flowers.

BRONZE GERANIUM.

Novelties in Geraniums.

**GERANIUM SUNSET
NEW DOUBLE ROSEBUD GERANIUM**
(Florets like perfect Rosebuds.)

The habit of growth is dwarf and compact, making this variety one of the most desirable for pot culture. The novelty and merit, however, is principally in the flower, the perfect trusses of miniature rosebud florets, which are wonderfully attractive and pleasing. The color is bright scarlet, flamed with purple shadings, and the substance most lasting. A buttonhole bouquet of this variety will last longer than any other we know of, and then it is entirely unique. Certainly no Geranium in cultivation today is as distinct, and we are certain this remarkable novelty will make a sensation. Price, 10c each.

**The Lady
Washington or
PANSY

We take pleasure in being able to offer plants of this very useful Pelargonium. The flowers are bright cherry red, with white at the base of each petal; the two upper petals are dark crimson-maroon. The flowers are of immense size and very freely produced. It is this combination of coloring with blotches which obtained for it the title of "Pansy Geranium." See cut. Price, 15c each.

One of the most beautiful variegated plants within our knowledge. The plain green Begonia Manicata is a very beautiful variety, clean and glossy, bearing the veil of pink bloom above. Every one who sees it admires it the most of any foliage plant we grow. Price, 25c each; three for 50 cents.

BEGONIA RUBRA.

If you can have only one begonia, let it be a Rubra, for it will prove a constant delight. It is so fast growing that it will, in a year or two, reach the top of your window, sending up heavy, stiff canes an inch in diameter, and rising beside them will grow, strong, slender branches, gracefully drooping under heavy, waxen leaves and pendant panicles of coral-colored flowers as large as a hand. Medium sized plants are frequently seen with more than twenty such panicles at a time. Among the individual panicles you will find three distinct forms growing side by side. Price, 10c each; large plants, 25 cents.

FLOWERING BEGONIAS—Continued.

BEGONIA THURSTONI.

NEW BEGONIA THURSTONI.

This Begonia is a cross between *B. Metallica* and *B. Sanguinea*, having the bright-red foliage and veinings underneath the leaves, and bright metallic green, shading to red in the younger growth on top, with the deep veinings of the *Metallica* and smooth glossy leaves and red stems of the *Sanguinea*; the flowers are a beautiful deep pink in bud, but when expanded become a beautiful shell-pink. Price, 10 cents each.

NEW BEGONIA, VERNON.

This elegant new variety is of unusual merit as a bedding sort, flowering fully as freely when planted out as when grown as a pot plant. It begins flowering when first planted and continues throughout the whole season until stopped by frost. Foliage rich glossy-green, often shaded deep bronze. Flowers at first opening are a deep red, changing to a beautiful clear rose in the fully open flower. It thrives everywhere and is destined to become one of the most popular of bedding plants. Price, 10 cents each.

ALBA PICTA.

FUCHSOIDES COCCINEA.

Elegant free-blooming variety; resembles *Hybrida Multiflora* in growth; flowers are bright scarlet. Price, 8 cents each.

ALBA PERFECTA GRANDIFLORA.

TUBEROUS BEGONIAS.

TUBEROUS-
ROOTED..... BEGONIAS

These are among the very handsomest of our Summer blooming plants, flowering throughout the season, and as fine and varied in their color as the Geranium family. They are splendid bedders, delighting in a light soil of wood earth, very old cow manure and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the South, or where they cannot be planted in the shade of a house, a covering of bur-lap or canvas, some six or eight feet above them, merely to throw off the sun's rays, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry, and during hot weather they will take two waterings a day, when through flowering they can be dried off, shaken free of earth, and wrapped in cotton until February or March, when they may be started again.

SINGLE—White, Yellow, Crimson, Rose, Scarlet.
Price, 15c each, four for 40c.

DOUBLE—In same colors, 20c each; four for 60c.

It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Extra fine plants, 4 and 5 tiers of leaves, \$1.50 each. These can only be sent by express. This plant goes under various names, such as "Chenille Plant," "Philippine Medusa," "Comet Plant," "Dewey's Favorite Flower," "Bloody Cat Tail," etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is of strong, free growth, with large, dark green leaves. From each axil rope-like spikes of velvety crimson flowers are gracefully suspended, of from one to two feet long and nearly one inch thick, as shown in our illustration, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable floriferousness and the great size of the spikes of flowers (compared to the plant) is fairly well shown. The flowers are of a brilliant, rosy-scarlet color, of a peculiarly distinct, but most effective hue, and are produced singly or in twos and threes from the axils of the leaves, especially toward the summit of the stems, but so freely that a well-grown specimen appears to be quite a ball of fire. It is a most vigorous, hardy climbing plant when trained to an arbor, fastened to a fence, attached to a tree, the side of a house, the pillars of a piazza, or in any location where a hardy, vigorous climber is desired. It sends out numerous side branches, so that it covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them. The contrast between the glossy, dark green foliage and shining scarlet fruit is exceedingly beautiful, surpassing Holly in appearance. It continues flowering and new berries are forming from late Spring until frost. The berries ripen in early Autumn and remain on the vine late into the Winter. The number of our hardy vines which can be grown without danger from frost in our Northern States is limited, and none are more beautiful than this or as easy of culture.
