Classified Index.

JULY—DECEMBER, 1922.

In this Volume the Index has been divided into six sections as follows:

- (a) BOARD OF TRADE.
- (b) DEPARTMENT OF OVERSEAS TRADE.
- (c) SPECIAL ARTICLES.
- (d) NOTES ON TRADE.
- (e) GEOGRAPHICAL INDEX.
- (f) SUBJECT INDEX.

In the first four divisions will be found all the articles that have appeared respectively under the "Board of Trade," "Department of Overseas Trade," "Special Articles," and "Notes on Trade" Sections of the "Journal."

The "Geographical" and "Subject" classifications embrace the whole "Journal" (including the entries under the first four divisions), arranged respectively by country and subject.

It should be noted that the "United Kingdom" has been omitted from the Geographical Index to avoid unnecessary repetition. To trace an entry which would have appeared under "United Kingdom," readers should therefore consult the Subject Index under the heading of the subject concerned.

(F)—SUBJECT INDEX.

In this section of the Index the notices are entered in such a way as to enable all references in the "Journal" to similar goods and similar materials to be readily found. For this purpose most of the notices are grouped under comprehensive headings, and are not entered separately under the heading of the particular article, etc. In some of the more important cases, however, a cross-reference will be found. The following is a list of some of the Sections used, with a rough analysis of their contents:—

Openings for accessories for railway construction, railway material and rolling stock	See Heading.
Openings for accessories for tramway construction, tramway material and rolling stock	Railway material.
All other notices respecting railway construction, traffic rates, etc.	Tramway material.
Openings for port and harbour works and plant and material therefor, dredging, and river improvement works	Railways.
Notices respecting ports, steamship services, canals and waterways; vessels of all kinds (except dredgers) and construction thereof	Harbour works.
Mineral deposits and production, mining regulations, unmanufactured metals (except as regards certain of the most important minerals, such as coal, iron, mineral oil)	Shipping and Shipbuilding.
Agricultural, mining, and industrial plant (except electrical plant, etc.)	Mining, minerals, and metals.
Iron ore and manufactured iron and steel	Machinery and machinery.
Small metal goods, tools, cutlery, etc.	Iron and Steel.
Electric generating, conducting, and lighting plant (except for railways and tramways), telegraph and telephone material	Ironmongery and hardware.
Sanitation, sewerage, and water supply of towns	Electrical material.
Motor and other vehicles	Sanitary and water supply works.
Raw textile materials	Vehicles.
Cloth and other textile goods	(Under their respective names.)
Wearing apparel	Textiles.
	Clothing.

In the Subject Index, tender notices and commercial enquiries for agencies and agents, etc. (which are of purely passing interest and usually out of date by the time of the publication of the Index) are not entered at all; they may be found under the various countries in the Geographical Index.

Notices of tariff changes and customs regulations are not in level according to subject, except in the more important cases, owing to the impracticability of giving references to each article.
