

CAMPBELL, SANTA CLARA CO., CAL.

SUBSCRIBE! DON'T BORROW

FRIDAY, Nov. 12, 1909

PRESS NOTES.

Thanksgiving is coming. Have you got the turkey picked out and the cranberry sauce stewing?

Speaking about Thanksgiving reminds us that our merchants better get busy on their holiday advertising.

And then there is such a short time between Thanksgiving and Christmas that there is no time to waste. The merchants of Campbell who want the people to buy their holiday gifts here, had better get busy and tell them so through this paper, because we expect the San Jose merchants will do quite a bit of advertising in the Press.

And don't forget that when the holidays come around the editor man would think it fine should some of the people who read the Press borrowed from some one else, subscribe and pay their dollar. People as a rule forget that by reading somebody else's paper instead of subscribing they are robbing the editor and giving him a boost in the wrong direction.

The editor expects to have a fine Thanksgiving dinner, thanks to our subscribers who have paid up, and would have a much finer one if some of the delinquents would dig up.

Speaking of delinquent subscribers reminds us that there are a few who are in arrears to some extent and we fear, if they do not settle up soon we shall have to drop them from the list because there is a law against carrying subscribers delinquent more than a year.

Congregational Church

You will find our services Bright, Brief and Brotherly and will be welcomed at any and all these meetings.

As next Sunday is the first day of the World's Week of Prayer for Young Men observed by churches, Y. M. C. A.'s and colleges throughout the world, the morning theme will be "What has Religion to do with a Young Man's Life." One week, Nov. 21, Sec. Wilson of the San Jose Y. M. C. A. will speak. All other services as usual.

ORDER BY MAIL

WHY is this method of making purchases becoming more popular every day?

BECAUSE it saves time, and when trading with a first class house, it insures satisfaction.

IT is the most agreeable manner of securing your merchandise without loss of time in going to market.

IS your time worth money? If so, save the time and allow us to quote you prices or submit samples on Dry Goods, fancy Goods, Ready to wear clothing, House Furnishings, etc.

SO many people are busily engaged during the day it is impossible to make personal visits to the various stores, and to these busy folks, we are calling the attention to our efficient **MAIL ORDER SERVICE.**

REMEMBER that we **PREPAY** all Transportation charges on all mail orders.

Letter From Jay G. Roger

Lecturer Tells of His Experiences in City of Tokio

Prof. Jay G. Roger, who recently was on a tour of the United States, giving a few of his lectures on "The Scientific Basis of Religion" here in Campbell, Los Gatos and San Jose, and who now is in Japan lecturing, has written a couple of letters to a local man who has turned the letters over to us asking that we publish them if we saw fit. The letters are too lengthy to publish in full, so we will take extracts from one of them.

"Karuzawa is located on the foothills and mountain side of one of the ranges in central Japan—a beautiful valley stretches out below and from the hills and mountain tops sufficient views can be obtained. - - About a week ago a party of twenty ladies and gentlemen visited one of Japan's active volcanic craters. The weird glow of the molten lava in the basin of the crater with an occasional shooting forth of red hot and the roaring of the escaping gases produce an effect which is not easily forgotten, especially when observed about midnight. While Karuzawa is the most popular resort for missionaries and other workers in Japan there are a few places on the sea coast where some missionaries from the interior prefer to spend their vacation. While the temperature is not so favorable as here at Karuzawa the opportunities of sea bathing are appreciated by these more than the mountain climate. But I am convinced from my own experience that the missionary in Japan saves time by taking a rest during a month or six weeks of the hottest season. One thing that has surprised me to some extent is the large percentages of territory in the small empire of Japan which is mountainous and consequently uncultivable, and yet so large a population is supported. Of course the Japanese can live much more cheaply on his rice and pickled seaweed than can the American on his variety of food."

Sincerely yours,
Jay G. Roger

Strategy.

The peddler paused at the door of the wayside cottage.

"Lady," he said, tipping his hat, "could I sell you a self revolving rolling pin?"

"No!" snapped the angular woman in the blue sunbonnet. "I wouldn't take it if you gave it to me."

"How about an educated rat trap?"

"Don't want it at any price."

"Well, I guess I'd better be goin', ma'am."

"Hold on a minute. What is that you have in the package?"

"Why, that's the Gem celebrated wrinkle remover."

"Huh! Wonder you didn't ask me to buy that."

"Oh, no, madam. I know a lady with such an exquisite complexion as you have would never need a wrinkle remover."

"Tee-hee! You men are awful. I guess I'll buy that wrinkle remover as a souvenir of a perfect gentleman, and—let's see—you might give me the rat trap and the rolling pin too."—Chicago News.

Speed Measurement.

"What is the charge against this man?" asked the judge.

"Violating the speed laws with his motorcar," answered the policeman.

"How do you know he was violating the speed law?"

"There was a trolley car on one side of his auto and a big delivery wagon on the other. They were going in the same direction he was, and he nearly kept up with them."—Washington Star.

Guilt Revealed.

"Johnny, do you smoke cigarettes?"

"I d-d-do a l-little, sir," stammered Johnny, palling beneath the tan of the baseball field.

The boss fixed him with his eagle eye.

"Then gimme one," he said. "I left mine on the bureau."—St. Paul Dispatch.

Main Light With Him.

"They are still talking about the sun's light dying out," some one said to Brother Williams, and his comment was brief and expressive:

"Dat ain't a-worryin' me at all. De main light gwine out?"—Atlanta Constitution.

News That Is Interesting

Items That We Gather from the Doings of Our Fellow Citizens

Improvement Club Next Monday Night.

Improvement Club Next Monday Night.

Mrs. M. E. White and son Edmond are about to move to Kalamath Falls.

J. E. Palmer and family have moved into the Hurlbert house in Sunnyside.

The Meridian team won from the town boys last Sunday the score being 3 to 2.

Rev. Atkinson leaves for Riverside next Monday where his wife now is and will be gone until Thanksgiving.

Dr. and Mrs. Cooper returned Tuesday from a trip to Santa Rosa, where they visited their daughter for a few days.

Rev. Atkinson was in San Francisco Monday and Tuesday attending a meeting of the State Board of the Congregational Church.

Miss Sikes, who has recently accepted a position in the local high school to fill the place left by Miss Mathews, has moved with her mother into the house formerly occupied by Mr. J. E. Palmer and family.

Last Monday evening, while Carl Scholz was riding home in the dark on his wheel, he turned too soon into the driveway which leads to his home and ran into a palm tree, sustaining a cut and bruise on his forehead and bending the forks on his wheel.

The refreshing rain we had Monday night made Tuesday almost an ideal day with the sun shining not too hot nor too cold. Tuesday night the clouds rolled in again and gave us another sprinkling. Weather like this is welcome at this time of the year.

Friday evening Nov. 26 will be celebrated in the Congregational Church as "Old Home Day." Speeches will be made by the pioneers of Campbell and the old songs will be sung in both the afternoon and evening. A basket supper will be eaten and a general good time will be had.

A Matron's Silver Medal Contest will be given next Friday evening at 7:30 at the Congregational Church under the auspices of the local W. C. T. U. The contestants all come from Los Gatos. No admission will be charged but a silver offering will be accepted at the door. Music will be furnished by home talent. All are welcome.

SUNNY OAKS

Miss Gertrude Cook spent Saturday and Sunday with her parents on San Tomas road.

Carpenters are at work on the barn for Mr. Dowton on Budd avenue and hope soon to have it completed.

Mr. and Mrs. Geo. Thompson, formerly of Bon Ami, La. are visiting D. S. Thompson on McCoy avenue.

The "Punditta Circle" has resumed its meetings for the winter and will meet regularly at the home of Mrs. Savage on Virginia avenue.

Mrs. Beale of Sunny Oaks has been at Tulare for several weeks at the bedside of her sister, who, we are sorry to learn has passed away. Much sympathy is extended to Mrs. Beale and family.

Resolution

Resolved by Orchard City Grange No. 333 P. of H. that we endorse the resolution of San Jose Grange in opposition to granting of a license to conduct a saloon at the corner of Santa Clara and Market streets in the city of San Jose.

I have accepted the agency for the Boss Cleaning and Dyeing Works of San Jose. If you have any work in this line bring it in and give us a trial. Goods received Monday will be back Thursday. Work done by piece or contract. Call and get prices.

E. A. Cleland.

Sick folks and milk utensils are the better for being exposed in the open air and sunshine, which are the greatest germ eradicators known.

As soon as the period is over in which eggs are to be saved for hatching the flock of hens will do better and their eggs keep longer if the roosters are sold or put into a fattening pen and made into potpie.

A load of wheat was recently marketed at Junction City, Kan., which brought \$91, said to be the largest amount ever paid for a single load in the state. It graded No. 2 hard and brought \$1.24 per bushel.

The story is told of an Ohio rat which was caged and gnawed his way through eighteen inches of solid oak. If the rats elsewhere have as effective gnawing outfits it is not strange that they have easy access to loosely constructed corncribs and granaries.

Viticulturists in California have taken to feeding the poorer grades of raisins to their hogs, it being estimated that a ton of raisins worth \$35 have a feeding value equivalent to a ton of barley at \$30. The raisins are fed in a ration containing two parts of grain to one of raisins.

The frail little woman we heard of the other day who is drinking two gallons of water daily on the recommendation of the family physician is certainly deserving of success in her efforts to gain good health. Many a husky man has fallen down in the face of a less obstacle than this.

One of the great advantages of the hand separator is that it makes it possible to feed the calves the warm skim milk under conditions which enable them to utilize its full feeding value. Allowed to become stale and sour, conditions which so often exist under the hand skimming system, the food value of the milk is greatly lessened.

Agriculture intelligently followed is a vocation which will always offer a healthful and remunerative occupation for those who will enter it with a fair knowledge of its requirements and

a determination to succeed. In its specialized lines there is such demand for experts that the agricultural schools of the country can't turn graduates out fast enough.

The quality of eggs which are produced on the average farm and their value, too, since the passage of pure food laws in so many states, could be greatly improved during the summer months if all sitting hens and those that were broody were given a small house and yard by themselves, which would keep the flock of laying hens from mingling with them.

Potatoes do not mix by planting different varieties in the same hill. It is from the small seed produced in the potato balls on the vines above ground that new varieties are originated. The first season the seed is planted tiny potatoes appear on the roots in the usual manner about the size of beans. The season following these are planted and a larger potato secured whose quality and yielding ability can in a measure be determined.

Patrons and stockholders of farmers' co-operative dairy enterprises should be very slow in biting at the bait of higher prices for butter fat which is so often thrown out by the larger centralized plants, but only long enough to accomplish their purpose, which always has in view, though not expressed or stated in any literature which they send out, the knocking out of the home concern, when prices can be manipulated to suit the concern which pays and not the patron who receives.

There are all too many farmers level headed in most respects who will slip over in the matter of buying catalogue house grass seed from firms of no reliability in other states just to save a few shillings in first cost and in the end, like as not, befool their fields with noxious weeds to eradicate which they have to pay ten times what they have saved in price of seed. This is nothing more or less than the worst kind of agricultural horseplay, and any man who will look the matter squarely in the face will have to admit it.

TO STUDY THE POINT

is to reach the conclusion that the place to buy is where one obtains the greatest number of reputable and popular lines of merchandise under one roof; where prices are the lowest consistent with legitimate business; and where SQUARE DEALING is the rule. All these to be found at

THE FARMERS UNION

Phone Red 101

Campbell, Calif.

HAVE YOU NOTICED THE COMFORTER CHALLIES IN OUR WINDOW?

Saves the yard. You can't afford to pay carfare on such prices as these. Other prices equally tempting.

THE CAMPBELL ROCHDALE COMPANY

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Com- pendious Array.

Passing Events Among Your Neigh- bors Briefly Told in Short, Newsy Paragraphs.

Palo Alto.—A "promotion committee" has been organized here. Its work will be the boosting and promotion of Palo Alto as a residence and business place.

Vallejo.—An order issued by Naval Constructor Holden A. Evans, manager of the Mare Island navy yards, forbids the public or private discussion of any of the affairs of the station by classified employees.

Oakland.—Alleging that she had been badly injured in a collision on the completed portion of the Western Pacific Railroad, near Lyoth, in this State, Mrs. Louise T. Erwin last week filed the first suit to be brought in California against the new railroad. She asks \$5000 damages.

Los Angeles.—Ora Shee Rin, daughter of a Chinese herb doctor, proved herself a heroine at a fire here. She waited until she had aroused her mother and nine little sisters and brothers and then led them safely from the burning buildings. The loss was about \$50,000.

Alturas.—A project is under way to utilize the waters of Cowhead lake to irrigate 60,000 acres of sagebrush land in southern Surprise valley in Modoc county. Surveyors are at work running lines. About 32,000 feet of tunnel and open cuts will be necessary to get the water to the lands in question. Salt Lake capitalists are back of the deal.

Flagstaff, Ariz.—Dr. Percival Lowell of the Lowell observatory has issued notice to the observatories of America that by an arrangement with the Centrale stelle at Keil, Germany, the Lowell observatory has been made the distributing center for the planetary news in America. Heretofore Harvard has been the American distributing center.

San Jose.—Harry Morton and R. A. Ross, 19-year-old vagrants, were sentenced to serve sixty days in the county jail by Judge Dougherty. While the lads were being taken to their cells in the basement of the city hall Ross made a dash for liberty, but was recaptured. In catching Ross the officers forgot all about Morton and he easily made his escape.

Seattle.—Gunjiro Aoki, his young wife, who was Gladys Emery, and their baby left here last week on the steamship Erna for distant parts. They will make their home in Central America, far from the friends of their earlier days. The birth of the child brought the couple a new and even more unenviable prominence than followed the announcement here of their marriage.

Redding.—The new city ordinances regulating saloons and prohibiting gambling are in the hands of the City Trustees. There seems to be no doubt that they will be passed in regular order. The gambling ordinance prohibits gambling of any character for money. The saloon ordinance provides for 1 o'clock closing, abolition of side doors and private boxes and screens. Minors and women are to be barred.

Portland, Or.—According to information given out by a local shipping concern, a new line of steamers, composed of a fleet of six vessels, will be put in operation in December between Antwerp and Portland, with San Pedro and San Francisco as ports of call. The steamers will bring general cargoes from Europe and return with wheat, lumber and other commodities offered for shipment to Europe.

Marysville.—Marysville Grammar school bond issue in the sum of \$31,000 was purchased by the state board of examiners at par, plus a premium of \$525. Halsey & Co. bid \$308.70 for the \$41,000 high school bonds, which was accepted. The State did not bid on the high school bonds because money was not on hand to cover them, the board of examiners having tied up to a big bond issue in the southern part of the State, which is yet to be considered.

SWEARS COOK DID ASCEND TO TOP OF MOUNT MCKINLEY

Alaska Prospector Makes Affidavit Contradicting Story of Barrill.

Lewiston, Idaho.—Walter Stiles, for fifteen years a rancher of Orofino, in this State, and who has made prospecting trips to Alaska in years past, has made an affidavit in support of Dr. Cook's claim that he ascended Mount McKinley. Stiles has just seen the newspaper accounts of Edward Barrill's recent affidavit discrediting the claims of Dr. Cook. After reading them he went before United States Commissioner J. W. Merrill and made affidavit that he, with several companions, who were on a prospecting trip to Alaska in the summer of 1906 and prospected around Lake creek, returning at the end of August to Tyonek, was there when Dr. Cook's party returned from the successful attempt to ascend the mountain. Chris Hansen, a member of the Stiles party, carried the cablegram announcing the ascent to Seward for despatch.

Stiles says he talked repeatedly with Dr. Cook and Barrill, both of whom described the ascent in detail. Stiles says Barrill and he were on friendly terms and Barrill repeatedly declared the summit had been reached and described how he had waved the Stars and Stripes on the peak. Barrill was full of enthusiasm and very proud of being the sole companion of Dr. Cook in the accomplishment of the feat. Stiles adds no member of his party or Dr. Cook's ever doubted the truth of Dr. Cook's claims.

First Claim Reward of Long Wait.

Walla Walla.—After a day and night vigil since October 19th in front of the local Government Land office, the patience of A. Nevilow of Walla Walla was rewarded on November 4, when he was given the right to the first claim on the 2000 acres of land opened for entry in Benton county, Washington.

The opening was marked by exciting scenes, when thirty-seven applicants who had besieged the office throughout the night engaged in a struggle to secure a position that would give them the right to select the first claim. Police interference was necessary to restore order. Nevilow's claim is said to be valued at \$22,000.

To Boost California Farming.

Sacramento.—The Sacramento Valley development association is collecting exhibit material and literature for the following fairs and expositions to be held in the middle west in the next few weeks: International livestock show, Chicago, November 20 to December 4; United States land and irrigation exposition, Chicago, November 20 to December 4; fat stock show, Chicago, November 27 to December 10, and the National corn show, Omaha, December 6 to 18.

Curry Appears to Have the Field.

Los Angeles.—Governor Gillett's recent refusal to announce whether or not he will be a candidate to succeed himself strengthens the belief of Southern California politicians that Secretary of State Charles F. Curry will receive the Republican nomination for Governor. They say his record as Secretary of State is so appreciated by the people, north and south, that this section will give him its hearty support.

Grief Causes Suicide.

Petaluma.—George Hulzeberg, a gardener, who had been employed by Dr. H. S. Cossage for a number of years, committed suicide in the doctor's stable by drinking carbolic acid. Hulzeberg recently came into an estate from Germany, where he was well connected. A daughter committed suicide in the same manner last April, and this is supposed to have preyed on his mind.

Rockefeller's Town Goes "Wet."

New York.—John D. Rockefeller's fight to make Mount Pleasant a prohibition township resulted in five of the districts going wet by about 200 majority. Rockefeller had a meeting of his men and advised them that they should all vote for the dry end of the local option question, but the results show that they did not take his advice.

New Soap Factory.

Sacramento.—Contracts have been let and work started on the new factory of the recently incorporated Sacramento soap company. The structure and contents will cost about \$30,000. A spur track is now being run in by the Northern Electric.

Valuable Horses Burned to Death.

Kliv.—One hundred and eight horses belonging to the stud of Count Tschekewitch, one of the finest in Russia, were burned to death in a fire said to have been of incendiary origin.

Many Administrations Changed as Result of Elections

San Francisco.—P. H. McCarthy, Union Labor candidate, won the Mayoralty contest, with a margin of nearly 10,000 votes to spare. The Union Labor party also elected the County Clerk, Sheriff, Coroner and twelve of the eighteen Supervisors. Other successful candidates, on the ticket as Democrats or Republicans, had the Union Labor endorsements. The new Board of Supervisors includes in its personnel three incumbents, representative officers of some of the more important labor organizations, a former prize fighter, saloon men galore, and one or two business men. It is the most complex board that has ever been elected. The returns by districts show that McCarthy received a total of 29,437 votes, as against 17,883 cast for him in 1907 and 40,191 for Schmitz in 1905.

Sacramento.—A Republican municipality voted for a two-year Democratic administration and a removal of "the lid" by electing M. R. Beard, Democrat, to the office of mayor over John E. Sullivan, Republican. Not only did the voters put Beard in office, but they elected a straight Democratic board of city trustees by safe margins. The issue made by Beard was that he would remove "the lid" placed on the city under the administration of Mayor Clinton L. White. Along with the removal of "the lid" the voters smothered the ordinance to regulate saloons by a 2 to 1 vote.

New York.—The result of the election means four years of avowed anti-Tammany government in Greater New York. Complete returns on the vote for Mayor show the following: Gaynor, 250,678; Bannard, 177,662; Hearst, 153,843. Gaynor's plurality, 73,016. An analysis shows that the election, which resulted in the defeat by the Fusion forces of every important Tammany-Democratic candidate below the Mayor, was more of a victory for the anti-Tammany-Democrats, who had lined up with the Republicans under the Fusion banner than for the straight-out Republicans. Anti-Tammany Democrats elected on the Republican-Fusion ticket for four years will be in absolute control of the city's purse-strings. They will have a clear majority in the Board of Estimates and Apportionment and, therefore, the right of spending more than \$1,000,000,000 of the city's money.

Albany, N. Y.—The next State Assembly will be composed of 102 Republicans and 48 Democrats, making a gain of two for the Republicans.

Boston.—Eben S. Draper has been re-elected Governor of Massachusetts by a majority of less than 9,000. This is the smallest majority that a Republican nominee for Governor has received in a quarter of a century and Republicans declare that Gov. Draper's small majority was due to anger over the tariff and because he vetoed the eight-hour law. Under the new system adopted by the citizens of Boston the Mayor will be nominated by petition of 5000 voters and elected for a term of four years, with a chance, should he prove unworthy, of being recalled at the end of two years. There will be a City Council of nine members, the terms of three of the members expiring every year. The next city election will be held on January 11th, and the new Mayor will take office February 12th.

Providence.—The Republicans won a sweeping victory in Rhode Island. Pothier was elected Governor by a majority of 12,000.

Tacoma, Wash.—Judge W. W. McCredie of Vancouver, Republican candidate for Congress, defeated Ernest Lister, the Democratic nominee, notwithstanding the latter carried Tacoma and Pierce county, the largest in the district, by 600 majority. Judge McCredie, is elected to fill the unexpired

terms of the late Congressman Cushman.

Philadelphia.—The people of Philadelphia voiced their approval of the administration of Samuel P. Rotan, when they again elected him district attorney on the Republican ticket. His majority over D. Clarence Giboney, candidate of the reform element, was 43,000.

Trenton, N. J.—The next State Senate will consist of fifteen Republicans and six Democrats, and the assembly will have forty-three Republicans and seventeen Democrats. This is a net gain of two for the Democrats.

Cleveland, O.—Tom L. Johnson, for four terms Mayor of Cleveland, was defeated by Herman C. Baehr, Republican County Recorder. Herman Baehr, the first Republican to be elected Mayor of Cleveland in ten years, declared that his election was due to dissatisfaction of the people with the methods of handling city business. The Mayor, in conceding his defeat, announced that he will be a candidate for Mayor two years hence.

Salt Lake City, Utah.—The American or anti-Mormon church party was returned a victor. Major J. S. Bransford, the American nominee, was elected mayor by a substantial majority. The American party also elected eight out of ten councilmen.

Baltimore.—The Democrats will control the Legislature, insuring the reelection of United States Senator Rayner. The amendment to disfranchise negroes was defeated.

Rochester, N. Y.—The entire Republican city ticket was elected by a plurality of 6,500. Hiram Edgerton was the Republican candidate for Mayor.

Albany, N. Y.—Jas. McEwan, the Republican nominee, has been elected Mayor of Albany. The Republicans also carried the entire city and county tickets by a plurality of 5,700.

Buffalo, N. Y.—Louis Fuhrman, Democrat, was elected Mayor of Buffalo by a plurality of 1,300. The Republicans carried the remainder of the city ticket by about the same plurality.

Toledo, Ohio.—Brand Whitlock, Independent, has been re-elected Mayor of Toledo for the third time with a plurality of 5,766 over David T. Davies, Republican.

Richmond, Va.—The majority for the state democratic ticket will reach 25,000.

Louisville, Ky.—The Democratic party is in possession of nearly all its ancient heritage in Kentucky. The next Legislature will be Democratic by over two-thirds majority, and able to pass any measures over the Republican Governor's veto. Louisville was restored to the Democratic fold by the election of W. O. Head, Mayor, by nearly 2700 majority. With two exceptions, all the important municipalities in the State have followed suit.

Omaha, Neb.—The Republicans made a clean sweep in this (Douglas) county and in Lancaster county (Lincoln), both of which went Democratic a year ago. The vote was much smaller than that of last year. The Republican State ticket won by an average majority of 2000.

New York.—Complete election returns show that the Socialist vote throughout this city was considerably less than half of last year, when Eugene V. Debs ran for President. This city gave Debs a vote of 25,000. The total Socialist vote this year was 10,606.

Indianapolis.—The entire Republican city ticket was elected. The winners declare that the defeat of the Democrats in Indianapolis was a defeat of the liquor interests of the state, which had contributed largely to the fund used in the effort to elect Gauss, Democrat, for Mayor.

California Riding on the Crest of Wave of Prosperity

San Francisco.—There can be no better evidence of greatly increasing commercial and industrial prosperity in California than the reports from the banks of the State. The report of the Comptroller of Currency shows that the National banks of California have increased their deposits 22 per cent over the deposits of a year ago. The report shows that the deposits of the National banks of California are greater than the combined deposits of the other six Pacific Coast States.

The California Promotion Committee finds that this condition is due directly to increased industrial activity in all lines, and that in addition to these large increases in deposits much outside money is coming to the State for investment.

The Portola Festival was instrumental in bringing a large number of peo-

ple to the State, and it materially increased the business of San Francisco as shown by the increase of the bank clearings for the days of the festival and just before and after. This increase was eight million dollars over the clearings for the same period of 1908.

First shipment of oranges went from Butte county during October, and the indications are for a heavy crop of citrus fruit. Deciduous fruit shipments are practically over and have been up to the highest expectation.

The California Promotion committee notes increased inquiry for small farms and is arranging to present California's advantages to the farmers attending the United States Farm and Irrigation Exposition and the National Farm Land Congress to be held in Chicago during November.

OFFICERS USE FIRE HOSE TO QUELL SPIRIT OF MOB

Industrial Workers of World Dispersed by Stream of Cold Water.

Spokane, Wash.—The fire department was called into action a few days ago to disperse a large mob of Industrial Workers of the World in Stevens street near Front avenue. Refusing to comply with police orders to move on and showing a disposition to become ugly, the crowd was treated to a cold water shower bath. There was a sudden scattering when the hose was turned on them, the majority quickly taking shelter in adjacent saloons and stores.

A repetition of the cold water treatment is promised whenever the occasion seems to demand it. In the evening a large body of the Industrial Workers of the World proceeded to Masonic temple, where it had been announced that a mass meeting would be held.

The hall had been engaged two days ago, the officials in charge not realizing just what the meeting was to be. When it was learned that it was for an Industrial Workers of the World demonstration the contract was canceled. The Industrial Workers of the World, however, made a show of insisting on having the hall and several hundred of them assembled in the vicinity. The presence of a large body of police caused them to abandon their purpose. Those previously arrested and sentenced to the rock pile refused to go to work and have been put on a bread and water diet in jail. The police say the situation is now well in hand.

Chinese to Enter American Schools.

San Francisco.—There arrived here Sunday on the Pacific liner China, 60 young men of China, selected in a stiff competitive examination to secure an American university training at the expense of the Flowery Kingdom. The party of students is in charge of Tong Kai Son, himself a graduate of Yale, a famous railroad builder of China, and a convert to Christianity. The party will stay in San Francisco but a short time, and then will proceed to Washington, where the students will report to the Chinese Ambassador and be assigned to the different American universities.

Reward for Kidnapers Paid.

Harrisburg, Pa.—In an official statement issued from the executive department Attorney General Todd makes these allotments of the reward of \$15,000 offered by the state for the apprehension and conviction of the party or parties who abducted Willie Whitt: Patrick O'Reilly, Cleveland, \$5,000; William H. Hunley, Cleveland, \$2,000; T. C. Cochrane, Mercer, Pa., \$500; Q. A. Gordon, Mercer, \$500; Martin Crain Sharon, Pa., \$100; pension fund, Cleveland police department, \$6,900; total, \$15,000.

Violate Pure Food Law.

New Orleans.—United States District Attorney Charlton R. Beattie filed information against the Berry Maybrum company, molasses dealers, charging them with having shipped to the Stetson Barrett company of Los Angeles, Cal., a quantity of molasses which was misbranded. It is stated in the information that the molasses can was labeled as containing two pounds, whereas there was less. The charge is made under the pure food act.

To Keep Record of Philippine Imports.

Washington.—To provide for the issuance of certificates of origin for sugar, tobacco and cigars and the keeping of records generally on Philippine products shipped to the United States, an executive order recently promulgated by acting Governor-General Forbes at Manila has been forwarded by the treasury department to all concerned.

Japan Invited to Enter Peace Compact.

Washington.—Secretary of State Knox invited Japan to enter into a compact making practically compulsory peaceful settlement of all difficulties with the United States. The secretary's invitation was not in the form of a state document. It was a suggestion to the visiting Japanese commercial commissioners in an address by Knox.

Dry Farming Congress.

Spokane.—October 3, to October 8, 1910, is the time recommended for the next national dry farming congress, which will meet in Spokane. These dates were chosen at a meeting of businessmen, it being proposed to hold the interstate fair on the same dates.

Increased Postal Deficiency.

Washington.—A postal deficiency of \$17,489,770, an increase of \$1,000,000 over last year, is expected for the annual

PITHY RESUME OF EVENTS OF ENTIRE WORLD

Brief Paragraphs That Give Busy Readers Review of Week's Happenings.

Summary of News Gathered by Cor- respondents Located in Every Quarter of the Globe.

Chicago.—A new city ordinance which limits to one hour the time an automobile or other vehicle may stand continuously in the downtown streets has been put into effect.

Tokio.—The funeral of Prince Ito last week was a great state ceremony, magnificent in point of display. The popular demonstration of sympathy was the most widespread ever seen in Japan.

Price, Utah.—Seven miners were injured by a "bounce" of coal in a mine of the Utah Coal Company at Sunnyside. Two of the men died soon afterward. The others will recover. All the injured are foreigners, the dead being Austrians.

New York.—Lieutenant Granville Fortesque, U. S. A., retired, a cousin of former President Roosevelt, detected a sharper cheating at dice, and gave him a thrashing, according to an account by passengers who arrived here a few days ago on one of the Atlantic liners.

Boston.—Robert Burns' "Poems Chiefly in the Scottish Dialect," a rare octavo printed by John Wilson at Kilmarnock in 1876, was purchased the other day at the auction sale of the private library of the late James Brown, a publisher, by George Clark of Kilmarnock, Scotland. The price was \$1025.

New York.—Plans have been filed for four model six-story tenements to cost \$650,000, which are to be used for the accommodation of sufferers from tuberculosis. Roof gardens, open-air balconies and other features designed to combat the white plague will make the tenements distinctive, and only moderate rentals will be charged.

New York.—Charles Bennett, six years old, is dead as a result of a peculiar accident. While his family was attending his father's funeral, the lad's foot was caught in a rope tied to a bull on their Long Island farm. The bull ran away, dragging the boy half a mile before the rope broke, causing injuries which resulted in his death.

New York.—Football enthusiasts believe that as a result of the death of Cadet Byrne of West Point and the dangerous injury of Midshipman Wilson of Annapolis, the College Football Conference Association will eliminate mass plays and other dangerous features of the present game when it meets in this city next month to revise the rules.

Washington.—Japan is driving American manufacturers of cotton goods out of the Manchurian market, according to the report from Fred D. Fisher, United States Consul at Newchwang. Since 1906, he says, the sale of American cotton goods there has shown no material increase, while the Japanese products and British articles have forged steadily ahead in popularity.

Crawfordsville, Ind.—Harry Houston, nineteen years, fell dead of heart failure as the result of over-exertion during a football game here. He suffered fainting spells after a scrimmage and complained of pains in the region of his heart. Other players assisted him from the gridiron. Houston succumbed a few minutes later. Steps will be taken, it is said, to abolish football among high school players here.

Mourmelon, France.—Henry Farman, English aviator, won the Michelin cup, beating all aeroplane records for duration of flight and distance. He covered 232 kilometers (144 miles) in 4 hours 6 minutes and 25 seconds. The previous best record was made by Farman at Rheims last August, when he won the grand prix De la Champagne, travelling 180 kilometers (111.78 miles) in 3 hours 4 minutes 56 2-5 seconds.

New York.—In a letter to the National League for the Civic Education of Women, an anti-suffragette organization, Cardinal Gibbons says: "Although my many duties will not allow me to be present at your meeting, I beg to assure you that I am most heartily in sympathy with the aim of your league, and I approve most heartily of the stand it has taken."

FIFTEENTH YEAR, No. 18

QUITTING SCHOOL

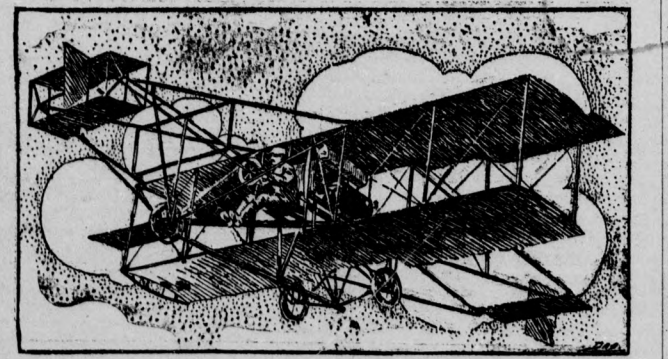

THE boy or young man of today is not much better than the boy or young man of yesterday in this great mistake, quitting school. After a boy has graduated from the Grammar school he does not know whether to continue in the High school or quit and go to work. Parents however, usually insist that their boy go through the High school and so start him off. After a year or so of study the boy commences to wonder if, after all, this education he is getting will be of any material benefit to him. He looks at his chums who have quit school on leaving Grammar school and sees them earning their living. He becomes dissatisfied and wants to commence working. He neglects and gets disgusted with studying. He reasons, "Why I never witt need Latin or Trigonometry in working in an orchard, or bossing in a packing house. I won't be called a to solve problems in Algebra or Geometry." True enough, he will never need Latin in pruning an orchard, and if the boy wants to make no more of himself than to prune trees or to gather fruit he might as well quit right away because it needs no education to do these things. Any simpleton can shovel prunes as soon as he learns how to hold the shovel. The boy's parents also begin to wonder if they ought to waste money giving Willie an education which never will do him any good. The longer they brood over the matter the more convinced of its uselessness are they, until father takes his son aside and asks, "Willie, what are you learning in school?" If Willie is like the boy described above he says, "Nothing." Then his father says he may quit if he wishes and Willie quits. Maybe the boy does not want to quit. Probably his father will not insist at once, but once the seed of distrust is sown it is hard to keep down, and soon father insists that Willie quit school, cut out such foolishness and get a job.

The purpose of an education is not to fit a boy so that he may sit in an easy chair while the dollars tumble over each other to get into his pockets, education is not meant to teach the lazy road of life. A man gets an education to learn the higher things of life, the brain work of conducting the world, the way to enjoy his life by making the most of his opportunities. A man with an education can enjoy a simple dinner better than an illiterate man. A right thinking man with an education can serve the purpose for which God gave him life better than an ignorant man. A man with an education can enjoy his work better. A man with an education can quit work when he becomes too old to work, and have a neat little pile stored away, while the laborer has to work until he drops in his tracks, with no money to be decently buried with.

No, the young man or boy who quits school because he thinks he knows enough, knows nothing or he would know enough not to quit. The boy who must quit school or starve to death is to be pitied, but in this glorious land of ours where a schooling costs so little, there is no excuse for this unless his parents are dead. Never quit school until there is no alternative, young man. Get all you can out of life and profit thereby or you are a gonner. There is not much room at the top of the ladder or near the top, for a man without an education, and no chance for him in the enjoyment of life in its fullest sense.

And if you get a chance to go to college, young man, go. You will probably never have another chance. Be a young man while you are one and grasp all that is offered in the line of education, for if you don't the fellows who do will walk right by you as if you were standing still, as you probably will be.

TAKE A FLYER!

Don't Be the Wrong Mr. Wright

Holiday Advertising Is the Aeroplane That Gives Business a Lift.

GET ABOARD! TAKE A FLYER!

The Game of Travels.
 The company takes its place in a circle, and one is chosen as a leader. He or she then opens the game by rolling a handkerchief into a ball and throwing it at one of the players, saying while doing so:
 "Will you go with me?"
 The one receiving the ball catches it and answers, "Where?" The leader answers, "To Altoona," or uses the name of any other place beginning with "A." The one holding the ball then throws it at some one else, and the same formula is repeated.
 The name of the place must be given very promptly. If a player receiving the handkerchief fails to respond at once the one seated at his or her right hand takes the ball from him or her and throws it at the leader. The falling player must then leave the ring, taking a seat elsewhere in the room.
 The leader then throws the ball at some other player, and so the game continues. When a majority of the players have been forced to leave the ring by reason of failing to give a name beginning with "A," the letter "B" is taken and the game goes on.

Place a cork on top of a bottle or a table. Stand in front of it, fix your eyes on the cork, walk slowly backward ten or twelve feet, extend your right hand, close one eye and walk forward till you think you are near enough to knock the cork off with one blow of your finger.

The Doggies' Drive.
 Three little doggies went out to drive
 In the funniest coach that you ever saw,
 And the funniest coachman now alive
 Held the reins in his clumsy paw.
 Bumpy bump down the hill so steep,
 For Towser, the coachman, was fast asleep.
 Three little doggies cried, "Stop—oh stop!"
 As the houses and trees went flying by
 But the sleeping coachman upon the top
 Never opened his drowsy eye.
 "Clankity" clank o'er the rocky road
 Went Towser, the coachman, and his load
 Three little doggies in wild affright
 Cried to the horses, "Whoa, there—
 whoa!"
 But Towser was snoring with all his might.
 So clumpity clump did the horses go,
 Rocky rock over road and rill,
 And if they've not stopped they are going still.
 —Washington Post.

TAXES

1909

OFFICE OF THE TAX COLLECTOR,
 County of Santa Clara, Cal.
 San Jose, October 5, 1909.

Notice is hereby given that the taxes for the year 1909 will become due and payable OCTOBER 11.

FIRST INSTALLMENT—Taxes on all personal property, a lien on or secured by land, all special taxes and one-half of the taxes on all real property are delinquent on NOVEMBER 29, 1909, at 6 O'CLOCK P. M. when 15 per cent will be added to all of said first installment remaining unpaid.

SECOND INSTALLMENT—The remaining one-half of taxes on all real property will be due and payable JANUARY 3, 1910, and delinquent APRIL 25, 1910, when 5 per cent will be added to all taxes remaining unpaid. Taxpayers may, if they desire to do so, pay the whole tax at one payment.

For the purpose of receiving taxes I will be in the several Townships of the County as follows:

CAMPBELL DISTRICT
 At the Bank of Campbell, in the town of Campbell, on Wednesday, October 20, 1909.

And at my office in the Court House of San Jose daily, Sundays and legal holidays excepted, from nine a. m. to 5 p. m. to and including Monday, NOVEMBER 29, 1909, and MONDAY, APRIL 25, 1910 at 6 O'CLOCK P. M.

The Second Installment of Taxes Is Payable at My Office in the Court House in San Jose.

WM. A. JANUARY
 Tax Collector of Santa Clara County.

CAMPBELL
 (THE ORCHARD CITY)

Lies 50 miles south of San Francisco, on the Santa Cruz Division of the Southern Pacific Railway, and is the central point of the most fruitful, diversified and scenic section of the famous Santa Clara Valley. Superb electric car service places it within but a few minutes' ride of San Jose, the metropolis of the valley, Los Gatos, the Gem City of the foothills, Congress Springs, the medicinal virtue of which waters is unequalled; Saratoga another beautiful foothill city, and as you ride past and through the thousands of orchard and vineyard homes, and merge into the picturesque canyons of the foothills of the evergreen Santa Cruz Mountains, you can but exclaim: "This is a goodly heritage!"

SCENERY SUPERB
 With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheater is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

FINE ROADS AND RESORTS
 The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and the sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

EDUCATIONAL ADVANTAGES
 Campbell has a population of about 600. It maintains a (third class) postoffice which distributes to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational, a first-class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools. The Stanford University, with its marvelous architecture, is only 20 miles away.

NO SALOONS
 Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloons from being established.

BUSINESS INTERESTS
 Campbell has the largest fruit packing and drying establishment in the world, the best equipped cannery on the coast, catering to the highest class export trade, a fruit syrup establishment, lumber yards, planning mill and stores of all kinds. It also has a weekly newspaper and modern job printing plant. The Bank of Campbell, with individual deposits amounting to a quarter of a million dollars, is a fair indication of the prosperity of the community.

FRUIT CENTER
 Campbell is pre-eminently a fruit center, and offers unusual opportunities for profitable investment, whether it be a large commercial orchard, a chicken ranch, or a small orchard home adapted to those who want to earn a few hundred dollars a year to supplement a limited income or annuity. The Campbell fruit district is noted for the quality of its fruit, and for this reason has become a trade center. The man with a few boxes of fruit has the same opportunities for selling his products as the man with many tons. Our large packing and drying establishments will have their agents at your door before the fruit begins to color.

INTERURBAN CONDITIONS
 Campbell is neither urban nor suburban, but is in fact, as well as in name, an Orchard City—a city of orchard homes, with all the conveniences necessary for 20th century comfort. The demand for intelligent labor is increasing every year, and families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE
 Acreage can be secured at various prices. Bare land, suitable for chicken ranch, hay, grain or vineyard, can be secured for \$100 per acre. Productive orchards sell for from \$200 to \$500 per acre, depending on the record of the orchard for productivity.
 In buying an orchard here you do not buy a "big in a poke"—facts and figures will be given you showing what returns can reasonably be expected from your investment.
