Mr. I 7

21 September 1950

MEMORANDUM FOR RECORD:

1. Mr. Loomis, CI&E Section called this afternoon regarding the new action which had been taken regarding the Kurihama Fishery School of Tokyo University and also to report that the area in which the Fishery and Animal Husbandry School of Hiroshima University located at Fukiyama City had been inspected and that the school authorities were under the impression that they would be required to evacuate.

2. In conversation with Mr. Kiesel, Chugoku CAR, I inquired regarding the Fishery School at Fukiyama City and he stated that Mr. Stradley had inspected this area which was formerly occupied by BCOF and subsequently occupied by 27th Infantry Regiment that it was a very fine area and had been recommended to this headquarters for the special project. However, he stated that no statement had been made that this area was to be taken immediately nor that the school must prepare to evacuate. He further stated, however, that provided the special project of CAS does not take over the area that BCOF is interested in reacquiring it. This area was released to the Japanese Government. The school contains an enrollment of about 180 night students and 70 day students and there are about 50 Japanese families quartered in the area.

3. Col Albergotti has not been contacted on this subject.

LINK

22 September 1950

1. Col. Albergotti said that they did not intend to use the Fukuyama City Camp. They are presently negotiating for the use of the Mizushima Camp, which was requested by several of the mayors and the Governor of Okuyama Prefecture.

2. Mr. Stradley said that he had inspected several areas for Col. Albergotti and that the Fukuyama City area was located in Hiroshima Prefecture. The Mizushima Camp is located in Okuyama Prefecture near Surajima. The fisheries school is in the Fukuyama City Camp which was known as the Otsuno Camp formerly occupied by the British. BCOF

37

is interested in relocating in that area. Mr. Stradley said that the Procurement Demand will be necessary if they do take it over.

3. The above information was given to Mr. Link who notified Mr. Loomis.

Release of Plants from Custody of the Supreme Commander for the Allied Powers

387.6(20 Feb 1950)ESS/IND

ESS

GPC

20 Feb 1950

1. 1. Reference proposed memorandum for Reparations Division, Reparations Agency, Japanese Government, Tokyo, Japan, subject: Release of Plants from Custody of the Supreme Commander for the Allied Powers, sent to ESS for concurrence.

2. The command letter which accompanied the original SCAPINS designating plants for reparations as arsenals, aircraft and munitions plants directed the Eighth Army to investigate other plants, using the criteria for reparations under these categories, and if they met the criteria to take them into custody and report them to SCAP. On this basis, the military government took into custody a large number of plants and reported them to SCAP. SCAP would make the necessary changes in custody lists and issue new SCAPINS to the Japanese Government. In December 1946 the Chief of Staff decided that no additional changes should be made in the custody lists until there had been a final reparations decision. At this time, there were quite a large number of plants which should have been designated for reparations and a large number of plants which should have been released from designation. On the list of the plants which should have been designated, endorsements had been sent to Eighth Army informing them that twelve (12) plants would be taken into custody on the next SCAPIN. The correspondence on the other plants was not answered. In the fall of 1947, the GCI made an investigation of the plants that should have been released under the criteria and recommended that they be released to the Chief of Staff. The Chief of Staff decided that because these plants were undergoing unnecessary hardship, they could be released from reparations.

3. The 12 plants now in custody through military government action do not meet criteria for reparations in any greater degree than the balance of the plants which were taken into custody by the military government and later released. The reason the military government did not release these 12 plants is because they had been informed by SCAP that the plants would be designated by a SCAPIN. The plants upon which the military government did not receive a reply have been released.

4. If the proposed memorandum is given to the Japanese Government, it will, in effect, change the reparations listings. At the present time, the Japanese Government has only received a memorandum from the Prefectural ES Team addressed to the Prefectural Governor, directing the Governor to take each of these 12 plants into custody. This does not constitute reparation listing.

387.6 (20 Feb 1950)ESS/IMD

Release of Plants from Custody of the Supreme Commander for the Allied Powers

ESS CPC 20 Feb 1950

1 cont'd

5. ESS does not concur in the proposed memorandum for the following reasons:

a. It would, in effect, change the reparations listings.

b. It would discriminate against these 12 plants inasmuch as they do not meet criteria for selection any more than many other plants which are not being designated.

c. c. It is believed that if the plants are to be held in custody, they should be designated by a SCAPIN and not by a memorandum.

5. It is suggested that the proposed memorandum to the Reparations Agency be changed as follows:

a. Paragraphs 3 and 4 be deleted.

b. Paragraph 2 be changed to read as follows:

"2. The request contained in reference 1 above is approved."

REPARATIONS AGENCY
REPARATIONS DIVISION

To : General Headquarters, Supreme Commander
for the Allied Powers.

From : Reparations Agency, Tokyo.

Subject: Application for Release from Reparations Custody of Plants Designated by Former Military Government Teams

RAR No. 136 24 Dec 1949.

1. Reference:

R.A.R. 92 (M.S.) (8 November, 1949), subject: "Questionnaire and Desiderata Concerning Operational Directive No. 51."

2. The Reparations Agency submits to your Headquarters an application for release from reparations custody of theplants designated only by former Military Government Teams (hereinafter called as "locally designated plants"), prepared by the Ministry of International Trade and Industry as enclosed herewith. On this occasion, the Reparations Agency wishes to request the kindly consideration of your Headquarters on the present status of locally designated plants, of which both the ministries concerned and plant custodians have had much troubles legally and practically in the performance of maintenance and custody.

3. Locally designated plants are defined as plants placed under reparations custody only by former Military Government Teams, not by GHQ, SCAP, thus having never been entered in the list of reparations plants transmitted by the General Headquarters to the Japanese Central Government.

4. It has been understood by the Japanese Government that reparations designation and custody should be effected exclusively by GHQ, SCAP. In this respect, the status of the locally designated plants is not always clear and the Reparations Agency has so far been making investigations on them. As the result of negotiations with the former Military Government Teams through prefectural Governments, many of them have already been released from reparations custody, but some still remain unreleased, and in precarious status without any formal designation orders from the General Headquarters. The list of these plants is attached hereto.

5. In performing maintenance and custody of locally designated plants, both prefectural Governments and plant custodian, without any formal instructions from the Japanese Central Government, have had various doubtful points in the extent of expenses and materials for maintenance and custody, and use of equipment.

On

Incl 1 to Incl #1

On the other hand, the Ministries concerned of the Japanese Central Government, having no knowledge regarding the extent of maintenance and custody of these plants, have been unable adequately to supervise them. Under these circumstances, they have been so far treated as quasi-reparations plants by prefectural Governments.

6. It is, therefore, earnestly requested that your Headquarters be good enough to give a most favorable consideration to this application.

(Y. Katsuno)
Director, Reparations Division,
Reparations Agency.

Enclosure:
Application of the International Trade and Industry.

24 KICHO 1612 December 7, 1949

TO : General Headquarter,
Supreme Commander for the Allied Power

FROM : Ministry of International Trade and Industry

SUBJECT : Application regarding dismonthling of reparations factories designated by the Civil Affairs Team.

1. The 10 factories which were locally designated by the Civil Affairs Team as per the annex are not in the GHQ designated list while their facilities are in a good condition and maintained in custody and the national treasury is paying maintenance cost for them.
2. In addition to those factories, whose equipment is registered there are some whose equipment is not registered but all are under the same restriction as reparation factories; and use, disposal etc. of the equipment are difficult. Therefore, it is desired to release those factories from the reparations designation, to the equipment to production purposes and thereby to economize the maintenance cost. Your permission would be highly appreciated.

FOR THE MINISTER:

Chief of Procurement
and Reparation Division

MEMORANDUM

18 September 1950

SUBJECT: The use of Reparations Buildings by Universities

1. Due to informal inquiries from NRS (Mr. Yoe) and CI&E (Dr. Eells) concerning the use of some of the Kurihama Naval Arsenal property by the NPR, checks were made with Kanto CAR and the following facts obtained:

a. The Kurihama Naval Arsenal has been under the military custody of the Commanding General, 8th Army, since the beginning of the Occupation. As the arsenal has not been released to the Japanese Government, the use of building, land or equipment belonging to the installation require 8th Army approval.

b. The Tokyo University of Fisheries was given permission by the Tokyo-Kanagawa Military Government Team under authority delegated by the Commanding General, 8th Army, on the 13th of May 1947 to temporarily occupy and use ~~four~~ three of the buildings in the Kurihama Naval Arsenal. The University understood that their use of these buildings was to be on a temporary basis. However, the University chose not to occupy these buildings because of their bad state of repair, and without permission occupied other buildings of the installation. Subsequently, the Tokyo University of Fisheries submitted an application to the Kanto Civil Affairs Region requesting the release from military custody of the buildings that the University was occupying without permission. This petition was pending approval in July. Enemy surrendered property still under control of the Occupation Forces has been temporarily allocated to the NPR without release to the Japanese Government. Requirements for this Kurihama area necessitated the instructions by Kanto Civil Affairs Region to the Tokyo University of Fisheries to move from the buildings which they were occupying without authority to the buildings in the Kurihama Naval Arsenal which they had originally been given permission to occupy. This action did not constitute eviction. There is no plan to remove the Tokyo University of Fisheries from the arsenal. On the contrary, the Kanto Civil Affairs Region has requested the University to resubmit, through the Kanto Liaison Office, their application for the use of buildings which will not be needed by the Occupation Forces in the Kurihama Naval Arsenal. This will give them space, additional to the buildings that they were originally granted permission to occupy.

c. The use by the National Police Reserve of buildings in the reparations installations at Ibaraki and Nagasaki is not presently contemplated. However, the continued use by universities of retained enemy surrendered property under authorization of the Occupation Forces is subject to revocation at any time.

MEMORANDUM 18 September 1950

SUBJECT: The use of Reparations Buildings by Universities

2. Policy covering the allocation of released property by the Japanese Government from one agency to another is not pertinent in this case.

W. F. Johnson

MEMORANDUM FOR RECORD 15 September 1950

SUBJECT: The use of Reparations Buildings by Universities

REFERENCE: Memo from Walter C. Eells, dated 1 September 1950
subj: Policy on Transfer of Universities, etc.

1. On a visit to Kanto Civil Affairs Region on 14 September, information was obtained from Mr. Kemske and Mr. Jones concerning the occupancy of buildings of the Kurihama Naval Arsenal by the Tokyo University of Fisheries.

2. The Kurihama Naval Arsenal has been under the military custody of 8th Army since the beginning of the Occupation, and to date the installation has not been released as a military target. Authority for the use of four buildings in this installation was granted the Tokyo University of Fisheries by the Tokyo-Kanagawa Military Government Team on the 13th of May 1947. However, the University did not occupy these buildings because of their poor state of repair. Rather, they occupied other buildings without authority.

3. In March 1950, the University submitted an application for release of the buildings that they were occupying without authority to the Yokosuka Naval Command. This application was forwarded to 8th Army, SCAP and back to Kanto Civil Affairs Region. As Kanto Civil Affairs Region thought that more buildings could be released to the University than they had actually applied for, the application was returned to the Kanto Liaison Office for resubmission for additional buildings. The application was returned without change on the 17th of August by the Kanto Liaison Office. In the meantime, it had become necessary to take the buildings occupied by the Tokyo University of Fisheries for the National Police Reserve. Therefore, the application was returned by Kanto Civil Affairs Region in letter, KEDI 386.3 on the 24th of August to the Kanto Liaison Office with instructions to resubmit an application for buildings which were not in use and which were not needed by the Occupation Forces. As of 14th September, the Tokyo University of Fisheries had not applied for other buildings.

4. Reparations buildings and land at Kasumigara-Ibaraki Prefecture not required for custody were released to the Japanese Government which gave the Japan Physical Culture College temporary permission to use some of the buildings. The area was inspected by Mr. Jones and the Vice Governor of Ibaraki as a possible place for the National Police Reserve. However, it now appears that another location will be used.

5. Col. Albergotti reviewed the memorandum from Dr. Eells and asked that we make the following reply, "the use by the National Police Reserve of the buildings at the two installations referred in the memorandum is not presently contemplated."

JOHNSON

1. Kurihama Arsenal has not been released as a military target, was under PD by the First Cavalry. One building was occupied by the the Fishery University but later the institution was moved to another building as the former was needed by the police reserves. A petition was submitted to 8th Army requesting the release of subject area which is not under custody. That area not required by the police would be released from the Japanese Government to the University.

2. Reparations building and land not required for custody at Kasumigara has been released to the Japanese Government. Facilities now occupied by the "Japan Physical Culture College" are on a "temporary" basis since the Ministry of Finance has not turned over the land permanently; no activities since January. The town of Ami has petitioned the establishment of the police reserves at that location. Area was inspected by Mr. Jones, accompanied by the Governor, Vice Governor of Ibaraki. Circumstances indicate that for the time being none of the property would be needed by the police; other location in mind.

JOHANN

~~To Mr. Woodward~~

MEMORANDUM FOR RECORD 15 September 1950

SUBJECT: Petition for Release of Tsukiji Wholesale Market Area

REFERENCE: Letter, Kanto CAR, File No. KA ~~230~~, subj: Petition for Release of Tsukiji Wholesale Market Area, dated 15 Feb. 1950

1. Conversations on this date with Mr. Jones of Kanto Civil Affairs Region and Major Miller, G-4 Section, GHQ, indicated that there was no possibility for release of this area at this time. Major Miller said that there was no time, money or personnel to move the installations presently located in the market area. G-4 Section has received and denied several applications for this area. It is not expected that new releases will be made in the near future due to present needs.

2. Following is the log of activities on this correspondence:

March 2, 1950	A note from Col. Watts to Col. Papen to see him on the correspondence.
March 3, 1950	Note to hold the correspondence for investigation by Kemske to Headquarters and Service Group
April 14, 1950	Called Major Miller, G-4, and asked him if I could get hold of some money, could we get the Tsukiji area for Japanese economy. He seemed interested but gave little encouragement; asked him how I could get the new proposition to the real estate board and was referred to Dousman (26-7475) Hq/Sv. Group.
April 14, 1950	Called Mr. Dousman and oriented him on above. He was quite surprised that the Japanese would put up money and he is going to see what he can work out. (He doesn't have anything in mind at the present). I told him I would put a 30-day suspense.
May 22, 1950	Major Wingert, HQ/Sv Group contacted but he said Dousman was handling this phase and he is out.
May 23, 1950	Called Mr. Dousman (57-8792) who will not be back this afternoon.
June 1, 1950	Mr. Dousman said there is a plan under consideration of moving the motor pool to 7th Cav. area. It should break in 2/3 days.

27

June 1, 1950 — Called Major Miller (26-6443) and he said it was going to Post Planning Board in 2/3 days. He will let me know if anything happens.

June 7, 1950 — Talked to Mr. Jones and advised him to contact Mr. Dousman (told him that he had authority to deal with Hq and Sv Group.

June 7, 1950 — Mr. Dousman has idea of using 39-51 for installations now located in this area. $50,000.00 is to be spent on repairs to laundry.

Aug. 3, 1950 — Called Mr. Dousman. Awaiting word from Ordnance as to whether they will take over Tokyo Military Arsenal. If they do not, Mr. Dousman stated that Quartermaster Section would move into it from market location.

JPNR 4359 - AREA 6/1

Ref : HQ BCOF QG 808/2/1 Accn of 9 Mar 50

COMMANDING GENERAL
EIGHTH US ARMY
APO 343

1. Authority is requested to release to the Japanese Government the above referenced procured real estate.

2. The property is at present held by the Atomic Bomb Casualty Commission and has been reported as excess. This is a small billet area, in an isolated position in relation to other BCOF real estate and is not required for use by this Force.

3. It will be noted that the floor area of newly constructed buildings, as shown on enclosed Engr Forms 1266 (Part D), disagrees with that shown on procurement demand. This discrepancy occurred owing to an initial error in preparation of procurement demand, forwarded under cover our above referenced letter, i.e. the floor area of buildings Nos 7 and 17 were wrongly stated to be 210 and 130 sq.ft., instead of 745 and 210 sq.ft., respectively. (Annexure 1 of Appendix 'B' and plot plan RES 700/25) attached to our referenced letter refers). As buildings Nos 7 and 17 are of new construction no amendment to procurement demand has been processed.

4. Six (6) copies of Engr Form 1266 (Part D), Statement of Improvements and plot plan RES 700/25 are enclosed herewith.

4th Ind ENG-R/RWS/jk

Headquarters, Fifth Air Force, APO 710 27 Jun 1950

TO: Commanding General, 8th Fighter-Bomber Wing, Itazuke AB, APO 929
ATTN: Air Installations Officer

1. Information received from Mr. Harano of your headquarters indicates that your headquarters does have a requirement for the facility covered by the attached Report of Excess submitted by the Regional Post Engineer, Camp Hakata. Request your comments and/or recommendations.

2. In order for your headquarters to obtain this facility by transfer it is essential that the full requirements of the directives referenced in paragraph 2 of the preceding 3d Indorsement be satisfied.

BY COMMAND OF BRIGADIER GENERAL TIMBERLAKE:

2 Incls:
n/c

ROBERT W. LOCKRIDGE
Lt Colonel, CE (USAF)
Director of Installations

HEADQUARTER, 8TH FIGHTER-BOMBER WING, ITAZUKE AIR BASE, APC 929 4 Jul 50

TO: Commanding General, 5th Air Force, APO 710
Attn: ENG-P

1. In compliance to 4th Ind of basic letter transmitted herewith justification for the transfer of subject property from 24th Division Artillery to Itazuke Air Base:

a. The firing range located on Itazuke Air Base is a 1000 inch range and does not meet the requirements of the Anti Aircraft Artillery Battalion. They require a 500 yards range to fire their M-1 rifles and 50 cal machine guns.

b. The range reported on Part D, Report of Excess, by 24th Division Artillery meets all training requirements of the battalion.

2. If subject transfer is approved a "Request for Procurement Demand to cover Enemy Seized Property" will be submitted by this headquarters.

FOR THE COMMANDING OFFICER:

Headquarters, Far East Air Forces, APO 925 26 Jul 1950

To: Commanding General, Eighth Army, APO 343

1. Reference GHQ, SCAP letter AG 602 (20 Oct 1949) GD, dated 27 April 1950 subject, "Real Estate Vacated Incident to Discontinuance and/or Consolidation of Occupation Force Activities."

2. Attention is invited to preceding 5th indorsement which sets forth justification for acquisition by Far East Air Forces of carbine range presently occupied by 24th Division Artillery.

3. Since subject real property meets all of the conditions specified in reference 1, request this facility be allocated to FEAF and that Regional Post Engineer, Camp Hakata, and Air Installation Officer, Itazuke Air Base be authorized to effect transfer of real property records accordingly. Upon receipt of advice that transfer is approved, request for procurement demand will be submitted by Headquarters, Itazuke Air Base.

Memo for Record:

Nippei Sangyo-8th Army Engineers. (Lt Col. Hardy)2635042 informed this section today that 8th Army would not release Procurement Demand JPNR411B(33) to the Japanese as the 5 buildings of the Nippei Sangyo were to be used by Occupation Forces.

This correspondence, the petition of the Japanese and included papers was received in this headquarters on the 26th of May and follow ups have been made on it 31 May - 2 and 23 July 7-8 20 and 27 July with final action as noted above today.

This Memo covers noted calls.

SUBJECT: Release of Property Under Procurement Demand

TO: Chief
Civil Affairs Section
General Headquarters
Supreme Commander for the Allied Powers
APO 500

1. Reference is made to inclosed petition from the Nippei Sangyo K K, Kanazawa-ku, Yokohama, subject: "Petition for release of land and buildings in use by Occupation Forces", dated 3 May 1950.

2. Inspection on 24 May of the five buildings under Procurement Demand JPNR 411B(33) at the Nippei Sangyo plant showed them to be unoccupied. These buildings were vacated in August 1949.

3. Since the company has a new SCAP-approved operating permit and authorization for use of 155 additional reparations machines, it is recommended that reference petition be favorably considered if the five buildings under Procurement Demand are not to be occupied by the Occupation Forces.

SUBJECT: Request for Release of Buildings (39-51)

9492

TO: Commanding General
Eighth United States Army
APO 343
Attn: Engineer Section

1. In connection with authorized use of Buildings No 101 and No 109 at the 1st Tokyo Military Arsenal (39-51), Tokyo Ordnance Command wishes to demolish Buildings No 99 and No 100 which are adjacent as fire hazards.

Demolished

2. Attached is a petition from the Japanese Government for release of Buildings No 99 and No 100, as well as No 125, No 125-1, and No 126-1 for demolishing.

3. It is desired that Tokyo Ordnance Command be authorized to tear down Buildings No 99 and No 100 and release materials to the Japanese Government for salvage, and that all five buildings be released to the Japanese Government.

4. Buildings No 99, No 100, No 125, No 125-1, and No 126-1 are not required for custody of reparations equipment and are available for release.

GENERAL HEADQUARTERS, SUPREME COMMANDER FOR THE ALLIED POWERS, APO 500
13 Jul 50

TO: Commanding General, Eighth Army, APO 343

1. The evidence submitted in basic correspondence does not substantiate a remunerative claim on the part of the BCOF for the Nissen and Romney huts in question. The absence of annotations on the original transfer documents requesting reimbursements by the BCOF, plus the period between transfer and subsequent request for payment, indicates that reimbursement was not expected nor desired, and that an accounting adjustment in now being attempted which, if appropriate, should have been accomplished at the time of transfer.

2. Any indication to the BCOF that the U.S. Army is obligated pecuniarily in the subject case would establish a dangerous and highly undesirable precedent since numerous transfers of a similar nature between occupation forces have previously occurred, any or all of which might possibly be revived and become potential claims.

3. It is desired that BCOF be informed of appropriate portions of this indorsement and, that neither purchase of nor payment for the huts is contemplated

1. This headquarters is unable to reconcile the report in basic letter that utilization is not being made of land procured on JPMR 2119 and JPMR 4162, in view of the existing conditions as follows:

a. JPMR 2119 covers the 308,000 sq. ft. land plot in Akita Prefecture upon which Hata site is located.

b. JPMR 4162 covers an area of 99,537 sq. ft. of land required for water system servicing the Hata site including spring area, access road and pipe line.

2. Above facilities are reported on ENG Form 1266 report JAP 1008.

TO: Commanding Officer
229th Ordnance Base Depot
APO 503

1. Authority is requested to order the removal of a Japanese Labor Office and Barber Shop.

2. This building is located in the bridge abutment adjacent to the northwest corner, Nissan Area, Yokohama Ordnance Center. The present occupant has claimed that permission was granted to her to erect the building on the present site by Miss Janet Mitchell, a former Department of the Army Civilian, assigned to your headquarters. The property on which the building is located is on Procurement Demand JPNR-4094, under control of Eighth Army,

3. In view of the present activities in connection with soldiers, as indicated in the attached investigation, it is recommended that for the best interests of the service this building be removed.

- C O P Y -

Memo for Record: 18 July 1950

A check of the labor aspects of this situation, made by Kanto CAR, reveals the following information:

The building is occupied by the union offices of a properly accredited union. It is the 229th Ordnance Base Depot Labor Union Local, affiliated with the Kanagawa Federation of Occupation Force Workers Union, affiliated with Sodomei.

This union has a good record as a Mindo union. It is not influenced by communists.

The house in question was built at a cost of about 176,000 Yen, paid by the union.

The union has no written permission for locating the house on PD'ed property. It claims it was given verbal permission by DAC Miss Janet Mitchell and DAC Mr. Jerry Takada, former employees at the depot.

Both barber shop and union building are presently posted Off Limits.

The buildings are located on a little spur of paved roadway leading from the depot area proper down to the canal.

****

It is normal practice for management to allow labor to utilize minimum office space on company property for union offices and conducting union business. This practice is referred to in the Trade Union Law.

Recommend the following action in the light of the above facts:

1. That PD be re-written to exclude land on which union building is located.

2. That barber shop be required to move but that union building be allowed to remain.

G. James
