TWENTY-SIX YEARS of pleasant dealing with thousands of customers finds its reward with the issuance of this catalog. Specializing mainly in spring-flowering bulbs since 1910, it is with a certain amount of pride we branch out into a more complete line . . . pride in the fact that customer demand provided the inspiration for this move.

As has been our custom we shall list only those seeds, plants and bulbs that we are sure have a place in the gardens of our customers. As new novelties appear or we become assured of a quality supply of any popular plant, we shall make additions.

We invite you and your friends to purchase any item herein listed with the same confidence that has inspired a steadily increasing business over a period of the past twenty-six years.

Speaking of this Rose, a connoisseur remarked: "Elegance is preferable to opulence."
